**Pre-requisites:** Students should either have attended GV481 or be able to show a sufficiently strong background in political economy and in statistics in order to take this course.

**Course content:** This course presents cutting-edge research material on some specific topics. The topics vary each year and, in the past, have included identification and causality in empirical research, mass media and voting behaviour, the design of electoral systems, text analysis, the repeal of corn laws, deliberation and monetary policy. A number of guest teacher are invited each year to illustrate the state of the art in their research field and to cover some of their own research.

**Teaching:** 22 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be reading week in Week 6.

**Formative coursework:** Students are expected to give at least one presentation and to submit a piece of formative work (problem set/essay)

**Indicative reading:** Mostly journal articles. The reading list varies each year.

**Assessment:** Essay (100%, 5000 words) in the ST.

---

**GV483  Half Unit**

**Public Management Theory and Doctrine**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Martin Lodge

**Additional Teachers:** Flavia Donadelli

**Availability:** This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Management and Strategy, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration and MSc in Regulation. This course is available with permission as an outside option to students on other programmes where regulations permit.

Other postgraduates require permission of teachers responsible.

**Course content:** The course offers an intensive introduction into key areas of public management with reference to both developed and lesser developed world contexts. Topics include administrative doctrine, implementation, organizational change and inertia, capacity building, performance-management, leadership, institution creation, transparency and risk management. Public management is treated as an interdisciplinary field of study, with a particular emphasis on the administrative practices and change as well as the critical analysis of practical arguments about Public Management.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. Additional drop in sessions in Week 11.

**Formative coursework:** Students are expected to complete two formative essays.

**Assessment:** Essay (100%, 3000 words).

Students are required to answer one question from a selection of three. Week 11 in MT will be used for individual advice sessions.

---

**GV488  Law and Politics of Regulation**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Martin Lodge CON 3.08

**Availability:** This course is compulsory on the MSc in Regulation. This course is not available as an outside option.

This course is capped at one group. The deadline for enrolments will be 12 noon, on Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

**Course content:** The course aims to give students an essential grounding in theories of regulation encountered in the legal, political science and law and economics literatures. It examines competing explanations of the origins, development and reform of regulation; the styles and processes of regulation; issues surrounding enforcement; the inter-organisational and international aspects of regulation; and questions of evaluation and accountability. Some specific cases will be explored through the medium of an additional practitioner seminar series, which will be led by experienced practitioners invited on a one-off basis. The course focuses on the following key themes: contrasting perspectives on regulation, differences in regulatory styles, dynamics and processes, regulatory standard-setting, regulatory enforcement, evaluating regulation.

**Teaching:** 8 hours of seminars and 20 hours of seminars in the MT. 10 hours of seminars and 20 hours of seminars in the LT. 2 hours of seminars in the ST.

The course is taught: (a) by 22, two-hour sessions in variable format (some lecture-discussions, student-paper led discussions, debates, preparation for the dissertation) comprising the academic core, (b) by eight seminars on ‘economics of regulation’ and ‘research design’ in the Michaelmas term and (c) a number of practitioner seminars in the Lent term, drawing on practitioners from a variety of regulated sectors.

There will be reading weeks in week 6 of both the Michaelmas and Lent terms for structured learning activities.

**Formative coursework:** All students are expected to produce three written essays.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%).
GV498  Half Unit
Multiculturalism

This information is for the 2016/17 session.
Teacher responsible: Dr Leigh Jenico CON4.13
Availability: This course is available on the MSc in European Studies: Ideas, Ideologies and Identities, MSc in European Studies: Ideas, Ideologies and Identities (LSE and Sciences Po), MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in International Migration and Public Policy and MSc in Political Theory. This course is available as an outside option to students on other programmes where regulations permit.

This course is capped at 2 groups. The deadline for enrolments will be 12 noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.
Course content: This seminar explores the political and epistemological issues of multiculturalism, broadly understood, in contemporary political theory. After deciding on a tentative definition for “culture,” we will explore how and why the concept has become integral to normative theories of contemporary political life. In particular, we will focus on how increasing recognition of plurality within liberal democratic regimes has led to new theories of both culture and community. Along the way, we will consider normative questions such as: Should we encourage “global citizenship,” or should we celebrate the local and the national? If cultures are dynamic and hybrid entities, how can they be identified and protected politically? Are there significant and legitimate differences between “the West” and “the rest”—and if so, how must our interpretive approach change as we include voices from culturally diverse groups into already-established political communities?

Teaching: 20 hours of seminars in the LT.

Indicative coursework: Students are invited to write one 1500 word formative essay, due no later than week 8.

Assessment: Essay (100%, 5000 words) in the ST.

GV499  Half Unit
Dissertation

This information is for the 2016/17 session.
Availability: This course is compulsory on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Global Politics, MSc in Political Science and Political Economy, MSc in Political Theory, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration and MSc in Regulation. This course is not available as an outside option to students on other programmes where regulations permit.

This course is capped at 2 groups. The deadline for enrolments will be 12 noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.
Course content: This course intends to familiarise students with the study of electoral psychology and political behaviour in Europe in a broad sense. The three main objects of study in political science are institutions, policies, and citizens, and the study of political behaviour and political psychology is the field that centres on the third. A very important part of political behaviour is electoral participation and vote choice. We will explore general models of voting behaviour, electoral psychology, and participation, as well as specific aspects such as extremist politics. We will look closely at public opinion, how it is formed and how it can be studied. In the final part of the course, special consideration is given to political ideas and how they are related to political behaviour.

Teaching: 20 hours of seminars in the LT. 4 hours of seminars in the ST.

Indicative reading:

Assessment: Project (80%, 5000 words) and class participation (20%) in the ST.

One empirical research project on a topic relevant to the course and approved by the course co-ordinator with a word limit of 5,000 words (80%).

GV4A3  Half Unit
Social Choice Theory and Democracy

This information is for the 2016/17 session.
Teacher responsible: Prof Christian List
Availability: This course is available on the MSc in Applicable Mathematics, MSc in Political Science and Political Economy and MSc in Political Theory. This course is available as an outside option to students on other programmes where regulations permit.

This course is capped at 1 group. The deadline for enrolments will be 12 noon, Monday 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday 5 October 2016.
Pre-requisites: An interest in analytic reasoning is required, but no prior knowledge of social choice theory or of mathematics is presupposed. Technical ideas will be presented in an introductory and pedagogical way, suitable for anyone who enjoys logical thinking.

Course content: This course gives an introduction to social choice
theory and related debates in the theory of democracy. On the social-choice-theoretic side, the course introduces students to key results, including (1) May’s theorem and Condorcet’s jury theorem, which are two classic formal results on majority rule, (2) Arrow’s impossibility theorem and the Gibbard-Satterthwaite theorem, which are two much-discussed impossibility results, suggesting that rational collective decision-making may be difficult or impossible, and (3) possible escape-routes from these negative results. On the normative side, the course covers some central issues in contemporary democratic theory, which are likely to include (but need not be restricted to) (1) deliberative democracy, (2) procedural versus outcome-based or epistemic justifications of democracy, and (3) the legitimacy of democratic decisions. While all students are required to understand the implications of the main social-choice-theoretic results, they can approach these either from a more formal perspective or from a more normative perspective and make philosophical aspects of democratic theory their main focus. 

Teaching: 20 hours of seminars in the LT, 2 hours of seminars in the ST. Seminars in LT will include some lecture components. Seminars in ST are held for revision purposes.

There will be a reading week in week 6 of LT for private study and assessment preparation.

Formative coursework: Students will be expected to give a short presentation and to write a formative essay. Feedback will be given on this material, but it does not count towards final assessment. Students will also have the opportunity to submit an outline for the assessed essay for comments. The outline itself will not be assessed.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 2500 words).

GV4A4

The Politics of Globalization

This information is for the 2016/17 session.

Teacher responsible: Dr Mathias Koenig-Archibugi

Availability: This course is compulsory on the MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit. Students on the MSc Global Politics are guaranteed access.

Course content: This is the core course of the MSc Global Politics. It examines the nature, the causes and the political consequences of globalization in a variety of domains, including security, culture, the economy, and the environment. The course aims at enabling students to assess the extent of continuity and transformation in key areas of global politics.

The course content will cover the following topics though specific lecture titles may change from year to year: the contemporary debate about globalisation; changes in the nature of military power and war; the evolution of global economic governance; the globalization of migration and environmental concerns; the role of global intergovernmental and nongovernmental organizations; the nature of US power in the contemporary global order; and core issues of global ethics, citizenship and governance.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. 3 additional lectures and 3 seminars in the ST on writing a global politics dissertation.

There will be a reading week in week 6 of the MT and LT for private study and assessment preparation.

Formative coursework: All students are expected to produce two written essays plus two short presentations on topics assigned to them.

A reading list with further readings will be provided at the beginning of the teaching term.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 4000 words).

GV4A5

Half Unit

International Migration and Immigration Management

This information is for the 2016/17 session.

Teacher responsible: Dr Eiko Thielemann CON3.14

Availability: This course is compulsory on the MSc in International Migration and Public Policy. This course is available on the MSc in Comparative Politics, MSc in EU Politics, MSc in European Studies: Ideas, Ideologies and Identities, MSc in European Studies: Ideas, Ideologies and Identities (LSE and Sciences Po), MSc in Global Politics, MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Political Economy of Europe and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course has limited availability and requires that students (regardless of Department or MSc programme) obtain permission from the teacher responsible via the ‘LSE For You’ capped course management system. This course is capped at 2 groups. The deadline for enrolments is 12.00 noon, on Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

Course content: This course offers a theoretically informed account of the challenges posed by international migration and resulting policy responses. The focus is on the comparative analysis of immigration control policies in OECD countries.

The course is structured in three parts. The first introduces a number of theoretical models that seek to explain the dynamics of international migration, migration control and migrant integration, addressing questions such as: Why do people migrate? Why do states accept migration? The second, comparative part deals with national public policy responses to the issue of asylum & refugees, ‘illegal’ migration & human trafficking and (legal) immigration. The final part focuses on the analysis of multilateral policy initiatives on migration management at the global, regional and bi-lateral level.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT.
1 hour of lectures and 1 hour and 30 minutes of seminars in the ST. There will be a reading week in week 6 of the MT for advice and feedback sessions.

**Formative coursework:** All students are expected to submit two non-assessed essays.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**GV4A8  Half Unit**

**Nationalist Conflict, Political Violence and Terrorism**

This information is for the 2016/17 session.

**Teacher responsible:** Prof James Hughes CONS.05

**Availability:** This course is available on the MSc in Conflict Studies. This course is not available as an outside option.

**Course content:** How can we distinguish legitimate resistance and political violence from terrorism? What is the relationship between war and terror? What distinguishes a combatant from non-combatant? Do counterinsurgency methods based on force and the securitization of the state work? Should we erode civil liberties and democratic values to fight terrorism? What consequences follow from the prominent role of psychologists in the study of political violence and terrorism? This course attempts to answer these and similar questions by a comparative examination of the theories and ethics of political violence and the root causes, nature and types, and dynamics of violence. This course also evaluates different political and security policies and methods of conflict resolution as change agents. A number of case studies of historical and contemporary conflicts are examined to illustrate the theoretical and policy dilemmas. The course has two parts. Firstly, it examines definitions and concepts, the root causes and factors of radicalization in political violence, the ethical dilemmas, the principles and efficacy of the laws and norms of armed conflict, repertoires of political violence, and the evolution from the era of decolonization of state counterinsurgency (COIN) and counterterrorism policies. Key motifs in COIN and counterterrorism will be examined including coercive versus cooperative approaches, the spectrum of dealing with communal resistance from genocide to cooption, policies of criminalization, and the balance between security and liberty. Secondly, it explores the key issues and debates through a number of case studies that analyse political violence and terrorism in democracies and non-democracies, including the insurgency and counterinsurgency in Northern Ireland and Iraq, and the new transnational challenges posed by Al Qaeda and ISIS. Throughout the course comparisons will be made and lessons drawn from the performance of different regime types (colonial, democratic, transitional democratic, and authoritarian) in managing political violence. This is a Moodle course.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. There will be a reading week in week 6 of the MT for private study and assessment preparation.

**Formative coursework:** One essay of 2,500 words. Students will also contribute to a group presentation.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**GV4B3  MPA Capstone Project**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Bakken Babajanian SAR.G.03

**Availability:** This course is compulsory on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is not available as an outside option.

**Course content:** Students will undertake a group project (in teams usually of 3 to 6 people) relating to a public policy problem faced by an external organisation. Typical clients include public sector bodies, companies operating in the public management or public policy sector, international organisations or think tanks and NGOs. The group will have from October to March to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem.

**Teaching:** 4 hours and 30 minutes of seminars in the MT. 3 hours of seminars in the LT. Teaching comprises five 1.5 hour Capstone seminars in the MT and LT. These seminars provide guidance on planning, structuring and presenting the Capstone report and the usage of research methods. Students are asked to participate in the Capstone Professional Development exercises designed to support effective and fair group work. Each Capstone group will be allocated a supervisor, who will provide overall guidance on the project’s development and assistance with client liaison. Other members of staff may also advise as required.

**Formative coursework:** Feedback will be provided on presentations of work-in-progress during MT and LT.

**Assessment:** Project (100%, 15000 words) in the LT.
The project work is conducted in teams, and the assessment is based on a collective group mark for each component except in exceptional circumstances. The group mark has three components:
1. 20% of the overall mark is assigned by the client organisation based on a group presentation and a submission of the project report.
2. 50% of the overall mark is given by two academic readers upon submission of the project report; and
3. the final 30% of the overall mark is allocated by the Capstone supervisor on the basis of the group's performance in terms of (i) scoping and project development (including coping with difficulties), (ii) group working and self-management as a team, and (iii) the overall output of the project (10% for each item). Additionally, each group member must complete the Capstone evaluation and personal reflection exercise. This will be submitted individually and separately from the report.

GV4B4
MPA Dissertation
This information is for the 2016/17 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is not available as an outside option.

Course content: The aim of this course is to enable students to plan, design and conduct independent substantial research and/or analysis in an area of public policy. MPA students will write a dissertation of no more than 10,000 words on a topic of their choice to be agreed with their Academic Adviser. The dissertation must be concerned with the goal of policy improvement and, at the same time, it must contribute to a broader objective of knowledge- and theory-building. The main body of the dissertation should include literature review, method of investigation, results of the analysis, discussion of findings, conclusions and theoretical and policy implications. Dissertations can utilise quantitative and/or qualitative data and draw on primary and/or secondary research.

Teaching: 6 hours of seminars in the MT and 1 hour and 30 minutes of seminars and 1 hour of seminars in the LT. Teaching comprises six seminars in the MT and LT. These seminars provide academic and practical guidance on developing a research topic and question; designing an analytical framework; structuring and presenting policy analysis; and writing policy recommendations. The student's Academic Adviser will provide advice and guidance on this piece of work.

Indicative reading:

Assessment: Dissertation (90%, 10000 words) in the ST. Other (10%) in the MT.
1. A 1,500 word dissertation proposal consisting of the title, abstract, research question and hypothesis, justification for research, feasibility of the dissertation topic, an explanation of sources, provisional structure and analytical framework will count for 10% of the overall dissertation mark. Students may only change their topic thereafter with the agreement of their Academic Adviser. Students will be given feedback on their proposal.
2. The full dissertation of no more than 10,000 words will account for the remaining 90% of the overall mark.

GV4B6
Half Unit
Not available in 2016/17
Kant's Political Philosophy
This information is for the 2016/17 session.
Teacher responsible: Prof Katrin Flikschuh CON6.08
Availability: This course is available on the MSc in European Studies: Ideas, Ideologies and Identities, MSc in European Studies: Ideas, Ideologies and Identities (LSE and Sciences Po) and MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

Optional for MSc Political Theory, MSc European Studies: Ideas and Identities and LSE-Sciences Po Double Degree in European Studies; open to others as an outside option on request.

Pre-requisites: None, though an appetite for abstract philosophical thought will be an advantage (however, no previous experience is required)

Course content: An introduction to and critical appraisal of Immanuel Kant's political philosophy. Despite the enormous influence which Kant's moral philosophy has exerted on debates in contemporary liberal thinking, his political philosophy has until recently been largely ignored. This is beginning to change: Kant's political philosophy is beginning to be studied in its own right.

Such study shows that his political thinking diverges in many of its central aspects from contemporary liberal thinking: the impact of Kant's thought upon the latter must, therefore, be re-assessed. Through close reading and analysis of the primary texts, this course introduces students to Kant's distinctive approach to political thinking. Core texts will include selected passages from the Doctrine of Right (Part 1 of the Metaphysics of Morals); Kant's celebrated essay, 'On Perpetual Peace'; and his less well known, but no less important essay 'On the Common Saying: "This may be true in principle, but does it work in Practice"'. The analytic and substantive focus will be on three interrelated themes: Kant's idea of freedom as an idea of reason; his account and justification of individual property rights and related conception of state authority; and his cosmopolitan conception of justice. Although the analytic and philosophical focus will be on Kant's own political thinking, we shall compare and contrast Kant's position with contemporary Kantian liberalism wherever appropriate.

Teaching: 20 hours of seminars in the LT. Additional one-to-one advice sessions on assessed essay writing in ST. There will be a reading week in week 6 of the LT for private study and formative/summative assessment preparation.

Formative coursework: Students are expected to come well prepared and take an active role in seminar discussion. Students are expected to write one formative essay (of up to 2500 words). These will be marked and commented, but do not count towards formal assessment for this course.

Indicative reading:
- Kant, The Metaphysics of Morals, Part 1;
- Kant, Groundwork of the Metaphysics of Morals;
- M Timmons, Kant, Groundwork of the Metaphysics of Morals; M Timmons
GV4B7 Half Unit
The Liberal Idea of Freedom
This information is for the 2016/17 session.
Teacher responsible: Mr David Axelsen
Availability: This course is available on the MSc in Human Rights and MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at two groups. The deadline for enrolments will be 12 noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.
Pre-requisites: Basic familiarity with concepts and methods in normative political theory.
Course content: The concept of freedom is often invoked in political life. Many policies and broader political agendas are justified in its name. In fact, an entire political ideology, ‘liberalism’ (arguably the dominant one in the Western world) appears to be built around the idea of freedom. But what, exactly, does freedom mean? Is freedom best understood in terms of absence of interference or in terms of non-domination? Is one made unfree only when one’s rights are violated? Does poverty constitute a constraint on freedom? And could citizens of an authoritarian regime be described as free? These are some of the questions addressed in this module. Depending on the particular year in which the module is taught, the approach taken may be either historical or contemporary-analytic or a combination of the two. Consequently, authors discussed may include key historical thinkers such as Hobbes, Locke, Rousseau, and Kant, as well as contemporary scholars such as Isaiah Berlin, Charles Taylor, Philip Pettit, Quentin Skinner, Amartya Sen and others.
The overall aim of the course is to enable students to assess the quality and strength of different theorists’ conceptions of freedom and to deploy those conceptions in the analysis and justification of some core institutions within the liberal state.
Teaching: 20 hours of seminars in the LT.
Two-hour weekly sessions in the LT.
There will be a reading week in week 6 of the LT for private study and feedback.
Formative coursework: All students are expected to submit one formative (non-assessed) essay.
Assessment: Exam (100%, 4000 words).
The extended essay will be based on a topic examined in the course.

GV4B9 Half Unit
The Second Europe
This information is for the 2016/17 session.
Teacher responsible: Dr Vesselin Dimitrov CON 3.06
Availability: This course is available on the MSc in Comparative Politics and MSc in Conflict Studies. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course examines social science explanations of the origins, intractability and outcomes of civil wars. It does this through the comparative analysis of various cases. These cases may vary from year to year. Particular stress is on: The Concept of Civil War: Patterns of civil war since 1945. Large N approaches. Decolonisation, Democratisation, and State-Building as causes of civil war. The emergence of security dilemmas. Theories of conflict resolution, reconstruction and the settlement of civil wars.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.
There will be a reading week in week 6 of the LT for private study and assessment preparation.
Formative coursework: All students are expected to submit two non-assessed essays.
Indicative reading: P Collier and N Sambanis (eds) Understanding Civil War: Evidence and Analysis (The World Bank); C Cramer, Civil War is not a Stupid Thing (Hurst and Co); K Holsti, War the State and the State of War (Cambridge University Press), R Paris, At War’s End (Cambridge University Press).
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

GV4B8 Half Unit
Contemporary Civil Wars: Comparative Case Studies
This information is for the 2016/17 session.
Teacher responsible: Dr William Kissane CON5.06
Availability: This course is available on the MSc in Comparative Politics and MSc in Conflict Studies. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course examines social science explanations of the origins, intractability and outcomes of civil wars. It does this through the comparative analysis of various cases. These cases may vary from year to year. Particular stress is on: The Concept of Civil War: Patterns of civil war since 1945. Large N approaches. Decolonisation, Democratisation, and State-Building as causes of civil war. The emergence of security dilemmas. Theories of conflict resolution, reconstruction and the settlement of civil wars.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.
There will be a reading week in week 6 of the LT for private study and assessment preparation.
Formative coursework: Students are required to submit one formative essay of 2,000 words.
GV4C2  Half Unit
Globalization, Conflict and Post-Totalitarianism

This information is for the 2016/17 session.
Teacher responsible: Prof Mary Kaldor SOL2.06 and Denisa Kostovicova
Availability: This course is available on the MSc in African Development, MSc in Comparative Politics, MSc in Conflict Studies, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Global Politics, MSc in Human Rights and MSc in International Development and Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.

The students of MSc in Conflict Studies, MSc in Global Politics, MSc in Global Politics (Global Civil Society), and MSc in Comparative Politics have priority access to the course in the listed order. This course has limited availability (is capped), and requires that students (regardless of Department or MSc programme) obtain permission from the teacher responsible. It is capped at 2 groups.

The deadline for receipt of applications will be 12 noon, on Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday 5 October 2016.

Course content: The course offers a theoretically informed account of the challenges faced by post-totalitarian transition countries emerging out of totalitarian regimes in the era of globalisation, and examines them empirically in reference to examples from the Balkans, the Caucasus and the Middle East. The regions chosen are those which have experienced particular difficulties in effecting a peaceful process of transition to democracy, market economy and integration in a multilateral system. The course will start with an introduction to theories of globalisation and the reasons why the legacy of totalitarianism is different from the legacy of classic authoritarian states. The course is structured around three issue areas: political ideologies and state breakdown; transition economy and organised crime; post-totalitarian society. It looks at nationalism linked to global diasporas and fundamentalist networks, new wars in the context of international intervention, and international protectorates. Transition economy includes both an introduction to transition strategies (privatisation, liberalisation and macro-economic stabilisation) as well as the perverse effects of illegal economic networks and organised crime stemming both from the totalitarian past and the impact of globalisation. The last block of questions investigates post-totalitarian societies from the perspective of transition justice, (un)civil societies and new minorities. While analysing these issues accompanied with relevant regional illustrations particular attention is made to grasp unique aspects of post-totalitarianism triggered by the simultaneity of transition and globalisation.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. There will be a reading week in week 6 of the MT in which activities will focus on preparing for the assessed essay.

GV4C4  Half Unit  Not available in 2016/17
Legislative Politics: US

This information is for the 2016/17 session.
Teacher responsible: Prof Cheryl Schonhardt-Bailey CON6.05
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Comparative Politics, MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students who are taking GV4C6 Legislative Politics: European Union cannot take this course.

Course content: This course provides an advanced analysis of the theory and practice of legislative politics in the United States of America.

This course provides an in-depth analysis of the theory and practice of legislative politics. In the early weeks of the course we examine interests-based and ideology-based theories of legislative politics, theories of committee and party organisation, the role of deliberations in congressional debates and hearings, and the legislative process. Later in the course, we examine the legislative process in more detail, using important episodes in US legislative politics, with topics including Depression era trade conflicts (e.g., the Smoot-Hawley Tariff of 1930 and the Reciprocal Trade Agreements Act of 1934), congressional activism and partisan polarization, and social issues (abortion).

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. There will be a reading week in week 6 of the LT for private study and assessment preparation.

Formative coursework: Students will be required to submit one formative essay in week 6.

Policy in Congress (University of Chicago Press, 2006). 
Assessment: Essay (90%, 5000 words) and in class assessment (10%).

**GV4C5** Half Unit

**Politics of Economic Policy**

This information is for the 2016/17 session.
Teacher responsible: Prof Cheryl Schonhardt-Bailey CON6.05
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in EU Politics, MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
It is capped at 1 group, and is approved by process of application. The deadline for enrolments will be 12 noon, on Monday, 3 October 2016. You will be informed of the outcome by 12 noon, on Wednesday 5 October 2016.

Course content: This course provides an advanced policy-oriented analysis of the politics of economic policymaking in advanced industrialized countries and selected developing countries drawing on both contemporary, historical and comparative introduction into the politics of economic policy. It applies explicitly the frameworks of interests-based, ideational and institutional approaches to the study of economic policies. It seeks to explore both the independent and interactive effects of interests, ideas and institutions on economic policies. These policies include macroeconomic policy areas such as EMU, financial stability and financial crises, independent central banking, as well as trade policy (contemporary and classic case studies), and agricultural policy. Thus, the course examines some of the economic policies of the European Union, other advanced industrialized countries and developing countries.
Teaching: 10 hours of lectures and 15 hours of seminars in the MT. Early weeks present the theoretical frameworks of interests, ideas and institutions, as applied to the politics of economic policymaking more generally. The remaining weeks focus on specific economic policies, including independent central banking, EMU financial stability and financial crises, trade, agricultural policy. Three of the course lectures will be given jointly with the undergraduate course, Politics of Money and Finance in Comparative Perspective (GV309). There will be a reading week in week 6 of the MT for private study and assessment preparation.
Format coursework: Students will be required to submit one formative essay in week 6.
Assessment: Essay (90%, 5000 words) and in class assessment (10%). 10 % in-class seminar presentation; 90 % essay (5000 words),

**GV4C6** Half Unit

**Legislative Politics: European Parliament**

This information is for the 2016/17 session.
Teacher responsible: Dr Lukas Obholzer.
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at two groups. The deadline for receipt of applications will likely be between Friday 25 September and Friday 9 October 2015, depending on the course. The exact deadline for applications will be confirmed at your programme induction. Please provide a rationale setting out your motivations for taking this course via the LSE for You system.
This course cannot be taken with GV4C4 Legislative Politics: US.
At a theoretical level, the course will introduce the student to general theories of legislative behaviour and organization - such as the role of interests and ideology in legislative politics, how legislative parties and committees work, the use of NOMINATE to 'map' legislative voting behaviour, and how agenda-setting and veto-power rules shape policy outcomes. At an empirical level, the course will focus on the operation of the EU legislative process, behaviour and political organisation inside the European Parliament, and how the interaction between the EP, the Council and the Commission shapes EU policy outcomes.
Teaching: 15 hours of lectures and 12 hours of seminars in the LT. There will be a reading week in week 6 of the LT for assessment preparation and a two hour revision seminar in week 11.
Formative coursework: Students will be required to write one non-assessed short essay plus a 4,000 word assessed long-essay. The long essay should be an 'analytic narrative' of a piece of EU legislation. The lecture and seminar during the reading week will be dedicated to explaining the essay project.
Assessment: Exam (50%, duration: 2 hours) in the main exam period. Essay (50%, 4000 words).

**GV4C7** Half Unit

**Nationalism and War**

This information is for the 2016/17 session.
Teacher responsible: Dr John Hutchinson CON3.02
Availability: This course is available on the MSc in Comparative Politics, MSc in Conflict Studies and MSc in Empires, Colonialism and Globalisation. This course is available with permission as an outside option to students on other programmes where regulations permit.
Other students may only attend subject to numbers, their own degree regulations and with the permission of the teacher responsible.
Course content: Investigations into the relationships between
warfare and the formation of national identities, and the implications of this analysis for understanding contemporary politics. The issues cover three main areas: War and the origins of national identities, including state formation and territorialisation; the construction of collective memories; imperial collapse and nation-building; liberation wars: modern wars: the formation of national societies, including conscription and national citizenship; total wars, class, and the mass nation; genocide; Contemporary wars: trauma and post-nationalism; religio-national wars; new wars debates.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST. Week 6 of the MT will be a reading week.

**Formative coursework:** Students are required to write two 1,500 word essays.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**GV4C8 Half Unit

Game Theory for Political Science**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Torun Dewan CON 6.07

**Availability:** This course is compulsory on the MSc in Political Science and Political Economy. This course is available on the MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. MSc Political Science and Political Economy students will be granted priority access as this is a compulsory course on this programme. Other postgraduates wanting to take the course (space permitting) require the permission of the teachers responsible.

**Course content:** Introduction to game theory for graduate students of political science.

4. Applications to Political Science.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the MT. 1 hour of seminars in the ST. In addition students will sit a two hour mock exam in week 11 of MT.

**Formative coursework:** Weekly problem sets to be completed and discussed in class.

**Indicative reading:** The core text for the course is M J Osborne, An Introduction to Game Theory, Oxford University Press 2004

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**GV4C9 Half Unit Not available in 2016/17

Democratization and its Discontents in Southeast Asia**

This information is for the 2016/17 session.

**Teacher responsible:** Prof John Sidel CON 4.02

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Development Management, MSc in Development Studies, MSc in Global Politics and MSc in Religion in the Contemporary World. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at one group. The deadline for receipt of applications is Friday 2 October 2015.

**Course content:** This course focuses on the variegated patterns of democratization observed in Southeast Asia over the past few decades. Special attention is paid to the three democracies in the region (Indonesia, the Philippines, and Thailand), to the endurance of authoritarianism and the prospects for democracy in Burma, and to ‘creeping pluralism’ and ‘creeping constitutionalism’ in Vietnam. The course examines important trends and developments accompanying democratization in the region - in government-business relations, in local politics, in civil society, in religious practices, in inter-communal relations, and in the organization and use of violence in politics. Throughout the course, the countries examined are treated as cases suitable for analysis and comparison in the light of the broader Comparative Politics and Global Politics literatures on democratization and its discontents.

The course begins by situating democratization in Southeast Asia against a comparative historical and sociological backdrop, paying close attention to the variegated patterns of class, state, and religious religion in the region. The course compares patterns of democratization in the Philippines, Thailand, and Indonesia, while examining the constraints on democratization elsewhere in Southeast Asia. Lectures, readings, and seminar discussions then turn to key trends accompanying democratization in Southeast Asia. The trends examined include campaigns against ‘corruption’ and in support of ‘the rule of law’ and ‘good governance’; social movements and struggles for popular empowerment; the democratization of religious practices and institutions; religious violence, and separatist mobilization. These trends are treated through comparative analysis of different cases within Southeast Asia and in the light of relevant theoretical literatures drawn from Comparative Politics and Global Politics.

**Teaching:** 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour of lectures in the ST. If more than 12 students take the course, there will be two separate seminar groups.

There will be a reading week in week 6 of the MT for complementary structured learning activities.

**Formative coursework:** One non-assessed, 1,000 word essay.

**Assessment:** Exam (50%, duration: 2 hours) in the LT week 0. Essay (50%, 3000 words).

**GV4D3 Half Unit Not available in 2016/17**

Local Power in an Era of Globalization, Democratization, and Decentralization

This information is for the 2016/17 session.

**Teacher responsible:** Prof John Sidel CONA.02

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Development Studies and MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course has limited availability (is capped), and requires that students (regardless of Department or MSc programme) obtain permission from the teacher responsible. It is capped at 2 groups. The deadline for receipt of applications is Wednesday, 30 September 2015.

**Course content:**

Over the course of the past two decades, the inter-related processes of marketization, democratization, and decentralization are said to have generated new social forces and political freedoms in localities around the world. Market reforms and village elections in China, the end of Communist Party rule in Russia and Eastern Europe, and trends of (re)democratization in Asia, Africa, and Latin America have all offered new opportunities for local people to effect change in local politics around the world. Yet academic, journalistic, and policy accounts have highlighted the rise and resilience of ‘local despots’ – authoritarian enclaves, “bosses”, “caciques”, “chiefs”, “clans”, “local strongmen”, “mafias”, “warlords” – in the midst of this reworking of market, electoral, and administrative circuits. This course focuses on this phenomenon of what scholars have come to call ‘subnational authoritarianism’, competing explanations for its emergence and entrenchment, the diversity of its manifestations, and various challenges mounted against its perpetuation.

The goals of the course are twofold. First, the course offers a critical examination of competing accounts of and explanations for the phenomenon of ‘subnational authoritarianism’ in the developing world. Second, the course helps students think more carefully, critically, and creatively about local politics more broadly, and to do so with an eye towards the comparative analysis of local power structures rooted in local economies and societies. The course begins with an examination of an emerging new political-science literature on ‘subnational authoritarianism’ and a more established body of scholarship on clientelism and machine politics. The course then turns to case studies in diverse settings, ranging from southern Italy to China, India, Indonesia, Nigeria, and Russia, and extending to cases of ‘warlordism’ in contexts such as contemporary Afghanistan, Iraq, and Somalia. The readings allow students to examine and evaluate competing explanations for the rise and entrenchment of local bosses, chiefs, clans, and mafia, diverging descriptions of their modes of domination, and alternative accounts of their disappearance, evolution, or transformation in the face of economic, social, and political change. Successive weeks also explore the links between constellations in local politics on the one hand, and patterns of economic development, ethnic conflict, and religious mobilization on the other.

The final weeks of the course shift attention to the efforts to challenge entrenched local power structures and to create “countervailing power” through popular mobilization, political participation, and social empowerment in localities in diverse settings across the world.

**Teaching:** 10 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour of lectures in the ST.

There will be a reading week in week 6 of the LT for complementary structured learning activities.

**Formative coursework:** One non-assessed 1,000 word essay.

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period. Essay (50%, 3000 words).

**GV4D4 Half Unit**

The Politics of Inequality and Redistribution

This information is for the 2016/17 session.

**Teacher responsible:** Dr Jonathan Hopkin CON5.18

**Availability:** This course is available on the MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Politics, MSc in Inequalities and Social Science, MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration.

This course is available as an outside option to students on other programmes where regulations permit.

This course is capped at three groups. The deadline for enrolments is Monday 3rd October (12 noon) 2016.

You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

**Course content:** This course provides an overview of contemporary redistributive politics in the rich democracies. The objective is to explain why the distribution of wealth, income and opportunities differs so much between democratic countries with similar levels of economic development. The course draws largely on literature from the field of comparative politics, although perspectives from other disciplines - such as economics and social policy - are brought in as appropriate.

The focus is on tracing the interactions between political institutions such as political parties and elections, labour market institutions, and the redistributive institutions of the welfare state. This approach is used to examine the growth of the public sector in the twentieth century, the differences between Social Democratic and Christian Democratic welfare states, the impact of wage bargaining institutions, the redistributive implications of age, gender and territorial location, and redistribution through corruption and rent-seeking. By tracing interactions between constitutional arrangements, electoral politics, and the institutions of the welfare system and the labour market, explanations can be provided for the striking differences in social cohesion and human development amongst the world’s rich democracies.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.

Lecture will run weeks 1-11. Seminars will run weeks 1-11.

**Formative coursework:** All students are expected to submit one non-assessed essay.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
GV4D5  Half Unit
Organisations, Power and Leadership

This information is for the 2016/17 session.
Teacher responsible: Professor Patrick Dunleavy (CON.5.19)
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and Sciences Po), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy and MSc in Comparative Politics. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Modern governance involves leaders in the public sector (and also in firms and NGOs) in balancing the exercise of power with the development of organisational culture and institutions, and the management of coalitions and delegations of power to sub-leaders. Power involves both resources and coalitional power and power is complex because it means both overcoming resistance in conflicts of interest and helping organisations and collectivities to achieve actors’ common goals. Similarly, leaders must fit with, sustain and develop existing organisational and institutional strengths, while also often seeking to reform their processes or change their direction of development. Finally, leaders as generalists need to work effectively with delegates who possess far more information and expertise on specialist matters. This half-unit course explores these areas of tension and negotiation of leadership by analysing one policy-making case study per week, in tandem with relevant theory and analysis papers. Each session includes an introductory lecture/talk, plus student-led discussions of that week’s practical case and key analytic readings.

Teaching: 20 hours of seminars in the MT.
There will be ten combined lecturer/seminar sessions, each lasting two hours, during the MT.
This course will have a reading week in Week 6.

Formative coursework: Students are encouraged to complete formative versions of the case analysis (due in December) and of the final essay (due in January) and to discuss them with Professor Dunleavy during MT.

Indicative reading: A full reading list will be distributed at the beginning of the course.
Assessment: Essay (65%, 4000 words) in the LT.
Other (35%) in the MT.
A Case Analysis of no more than 2,000 words will count for the “other” 35% of the assessment for this course.

GV4D7  Half Unit
Dilemmas of Equality

This information is for the 2016/17 session.
Teacher responsible: Dr Sarah Goff CON 4.11
Availability: This course is available on the MSc in Gender, MSc in Gender, Development and Globalisation, MSc in Gender, Media and Culture, MSc in Gender, Policy and Inequalities, MSc in Human Rights, MSc in Inequalities and Social Science and MSc in Political Theory. This course is available as an outside option to students on other programmes where regulations permit.
This course is capped at 3 groups. The deadline for enrolments will be 12 noon, Monday, October 3 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

Course content: The course starts with the general question of why (or if) equality matters. It then introduces some of the major debates in the contemporary egalitarian literature: equality of what; equality of opportunity versus equality of outcome; luck egalitarianism versus relational equality. Throughout the course, and particularly in the latter half, we consider concrete social problems and dilemmas faced by those who are committed to the ideal of equality. Topics covered this year include global inequalities, discrimination, and policies that aim to reduce gender inequality.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. There will be a reading week in week 6 of the MT for private study and assessment preparation.

Formative coursework: Students will submit a short formative essay (up to 1500 words) and will be given feedback on this before submitting their assessed coursework.

Assessment: Essay (100%, 5000 words).

GV4E1  Half Unit
Comparative Democratization in a Global Age

This information is for the 2016/17 session.
Teacher responsible: Dr. Bill Kissane
Availability: This course is available on the MSc in Comparative Politics, MSc in Conflict Studies and MSc in Global Politics. This course is available as an outside option to students on other programmes where regulations permit.
This course is capped at 2 groups. The deadline for enrolments will be 12 noon, Monday 3 October 2016. You will be informed of a decision by 12 noon, Wednesday 5 October 2016.

Course content: To introduce students to the fundamental political science debates about the phenomenon of democratization, to explore the explanatory strength of key paradigms, and to compare distinct modes of democratization. Specific topics are: Definitions of democratization and democratic consolidation; capitalist development and democratization, civil society, elite transitions and international interventions, post-communist transitions, post-civil war democracy, democratic revolutions, constitutional moments and hybrid regimes.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of seminars in the ST.
There will be a reading week in week 6 of the MT for private study and assessment preparation.

Formative coursework: All students are expected to submit two non-assessed essays.

Indicative reading: Dawe et al, Democratization, J. Grugel, Democratization, Ruechmeyer, Stephens and Stephens, Capitalist Development and Democracy; J Linz and A S Stepman, Problems of Democratic Transition and Consolidation
Assessment: Exam (100%, duration: 2 hours) in the main exam period.
GV4E2  Half Unit  Capitalism and Democracy

This information is for the 2016/17 session.
Teacher responsible: Dr Jonathan Hopkin
Availability: This course is available on the MSc in Comparative Politics and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.
Available as an outside option and for students on other programmes with the teacher's consent. This course is capped at 3 groups. Deadline for enrolments will be noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.
Course content: Compatibility and incompatibility of capitalism and democracy; Constitutional restraints on economic policymaking in central banking and property rights; Democracy and economic inequality; World context and the compatibility of democracy and capitalism; Democracy and economic crisis. This course examines the uneasy interaction between the two dominant concepts underpinning political and economic institutions in advanced industrial societies. It addresses in particular questions about the relationship of capitalism to democracy, both conceptually and empirically. We consider whether democracy undermines or supports capitalism, focusing on policies relating to central banking, redistribution, and property rights. We also examine how capitalism may undermine or sustain democracy and whether contemporary international circumstances heighten the tension between democracy and capitalism.
Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.
There will be a reading week in week 6 of the LT for dissertation support and preparation.
Formative coursework: All students are expected to submit one non-assessed essay
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

GV4E3  Half Unit  Not available in 2016/17  Democartisation, Conflict and Statebuilding

This information is for the 2016/17 session.
Teacher responsible: Prof James Hughes CONS.05
Availability: This course is available on the MSc in Conflict Studies. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is a recommended paper 2 option for the MSc Conflict Studies. Preference is given in the first instance to Conflict Studies students, and then, if there is space, to Global Politics students. This course is capped at two groups and requires that students (regardless of Department or MSc programme) apply via the departmental approved course process. The deadline for receipt of applications will likely be between Friday 25 September and Friday 9 October 2015, depending on the course. The exact deadline for applications will be confirmed at your programme induction.
Course content: This course provides a theoretically informed assessment and critique of the debates on the relationship between democratization, violent conflict and state-building. It seeks to explain why some state-building projects have succeeded while others failed or are failing. Case studies will be drawn from post-communist Europe and Eurasia, principally focusing on the Western Balkans, North and South Caucasus, and Central Asia, including Afghanistan. Themes considered include: state collapse of the USSR and Yugoslavia, theories and forms of state-building, democratization, nationalism and nation-state building, internal armed conflicts; conceptualising ‘failed state’; nationalist mobilisation and the ‘nationalising’ state; ‘ethnic democracies’; authoritarian state-building; secession and national and ethnic conflict management; the political economy of armed conflicts; democracy promotion, international conditionality and intervention, in particular by the EU and U.S.; the politics and security challenges posed by ‘frozen conflicts’. As an LSE Moodle course, most of the weekly essential readings are available online.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.
Please note that in the 2015-16 session this course will be taught in an intensified manner over 6 weeks instead of 11 weeks. There will be a reading week in week 6 of the LT for private study, assessment preparation and other support activities.
Formative coursework: Students are expected to submit one essay outline (1000 words) in preparation for the assessed essay, and prepare one group seminar presentation.
Assessment: Essay (100%, 5000 words).

GV4E4  Public Budgeting and Financial Management

This information is for the 2016/17 session.
Teacher responsible: Dr Joachim Wehner CON4.10
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course examines contemporary issues in public budgeting and financial management, and how they interface with public management drawing on comparative experience in OECD countries and elsewhere. Topics include: theories of budgeting; time horizons in budgeting; legal frameworks; fiscal rules; top-down budgeting; legislative budgeting; fiscal decentralisation; performance budgeting; budget transparency; budget reform; special issues in developing countries; accounting and auditing in the public sector; parliamentary scrutiny of audit findings.
Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 15 hours of lectures and 15 hours of seminars in the LT. 3 hours of lectures in the ST.
Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.
Indicative reading: A full reading list will be distributed at the beginning of the course. Relevant items include: M Hallberg, R Strauch and J von Hagen (2009), Fiscal Governance in Europe, Cambridge, Cambridge University Press; M Cangiano, T Curristine
Conflict and Institutional Design in Divided Societies

This information is for the 2016/17 session.

Teacher responsible: Dr Paul Mitchell CONS.14

Availability: This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Politics and MSc in Political Science and Political Economy. This course is not available as an outside option.

Priority will be given to students on the MSc in Conflict Studies. This course is capped at 2 groups. The deadline for enrolments will be 12 noon, on Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

Course content: The internal resolution of serious ethnic and national conflicts almost inevitably involves some form of power sharing and/or power division (autonomy and federation). While power sharing is often invoked in normative and comparative accounts of conflict resolution, it is less frequently systematically examined. Conflict and Institutional Design (CID) is a comparative analysis of the making, maintenance and too often breaking of power sharing agreements. When and how are peace agreements negotiated? Does UN peacekeeping make a positive difference? What role than transitional justice mechanisms perform? Do they help? What type of power-sharing and federal designs are available? Under what conditions is power sharing likely to help contain conflict, and when does it fail? The course will pay particular attention to what happens after a power-sharing agreement is reached. The institutional focus will include analysis of electoral system design for divided societies, the dynamics of electoral and party competition within ethnic segmentation and consociational governance (power-sharing constitutions, executives, legislatures and federations). Why do some power-sharing regimes succeed while others fail?

Teaching: 20 hours of lectures and 15 hours of seminars in the LT. There will be reading week in Week 6 of the LT.

Formative coursework: Two briefing papers on pre-selected key concepts/cases.

Assessment: Essay (100%, 5000 words) in the ST.

The research essay will be on a topic of your choice. Having said that the topic will be discussed between each of you and myself and I must approve the topic. The research paper should ideally examine a research question using relevant concepts and theories, and must have an empirical dimension that is relevant to the themes of the course. ‘Empirical’ is understood in the broadest sense: your material could be a case study set in an appropriate theoretical framework, it could examine a theme with comparative case studies, it could be quantitative or qualitative. Whatever is deemed appropriate to the research question at hand. Bear in mind though that broad surveys are generally not a good idea. After all 5000 words is about half the standard size of a journal article. Much more advice about the essay will be given as the course progresses both collectively and in individual meetings with each of you. One of the aims in asking participants to write a paper is to help you to think about research questions and appropriate research design. Thus we are aiming at more than a traditional essay (which largely summarizes what significant others have said), and to begin to make the transition towards ‘postgraduate research’ in which you help develop new insights and/or new empirical knowledge. This should also help you when approaching the planning and writing of your MSc dissertation. Since you will be working on something that really interests you I hope that this will be an enjoyable experience. Of course it will also be challenging; but there will be an understanding that there is only so much you can do in the limited time available. As such you will not be asked to write any un-assessed essays. Instead, during the term, you will be asked to work on your research essay, which I will read, and discuss with you. This should give you a chance to revise your paper and to achieve a better plan by the end of the term. Here is how the work will be organised: 1. By the end of week 7 – (e-mail directly to me), you should hand in the first part of your research essay, which should consist of a provisional title, brief statement of research topic and outline of the ‘state of the art’ (very short literature review), possible research question, and proposed method. This should be 2-3 pages since the aim is to advise on the appropriateness and viability of your proposed research essay. 2. Your final research essay will be due by 24 April 12pm (first day of the summer term). Note: for the final paper please return directly to the main Government office and get a receipt proving submission AND send me an electronic copy. Please note that all papers that count towards grades are electronically scanned with up to date plagiarism software. In addition to revisions to the two parts above you will now discuss your findings, and draw some conclusions. The 5000 word limit will be enforced, and is about 15-18 pages of A4 double spaced. The number of words used must be clearly stated on the cover page (the total includes main text, footnotes / endnotes and tables (but not appendices).

**GV4E9**

Approaches and Issues in Public Policy and Administration

This information is for the 2016/17 session.

Teacher responsible: Dr Hanan Haber CONS.16

Availability: This course is compulsory on the MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course is designed to introduce MSc students to major issues in understanding public administration and policy. Students will be divided into three classes and each class will be taught for the whole 21 weeks by the same tutors. 20 of the lectures will reflect the topics to be covered in the classes which remain the focus of the course and some of the lectures may be given by other colleagues teaching on the MSc degree as well as by outside speakers. The core of the course will consist of 20 classes (+1 revision) that will deal with key themes in Public Policy and Public Administration. Compulsory for students on MSc Public Policy and Administration and the LSE-PKU Double Degree in Public Administration and Government.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.

There will be a reading week in week 6 of the MT and the LT for private study and assessment preparation.

Formative coursework: Three formative essays, two in the Michaelmas Term and one in the Lent Term.

Assessment: Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 3000 words).

GV4F2 Half Unit Not available in 2016/17

Popular Politics in the Middle East

This information is for the 2016/17 session.

Teacher responsible: Dr John Chalcraft CON5.16

Availability: This course is available on the MSc in Conflict Studies, MSc in Global Politics and MSc in Political Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 3 groups. The deadline for receipt of applications will be 12 noon, on Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

Course content: The course explores the role of popular politics in the making of the modern Middle East. The primary focus is on the Arab world but reference is also made to Iran, Israel and Turkey. We study the origins, course and consequences of popular protest, social and political movements, uprisings and revolutions in the region. Our cases are drawn from the early twentieth century to the present. Common topics include the first intifada in the Occupied Palestinian Territories (1987-1991), the Iranian revolution of 1979, everyday modes of resistance, labour movements, Islamic activism in Egypt, and the Arab uprisings of 2011. We aim at a contextualised and historical understanding of particular episodes of contention, while pursuing key themes and debates. We aim to evaluate the role of both ideal and material interests in driving transgressive collective action, as well as the effectiveness of wide variety of strategies, tactics, modes of organisation, and repertoires of contention. We further seek to assess the extent to which a focus on agency, subjectivity, politics and contingency can modify understandings of protest rooted in structuralist and materialist historical sociology. Finally, we aim to study how far relational theories of contentious politics can modify rationalist and objectivist approaches rooted in social movements theory.

Teaching: 8 hours of lectures and 15 hours of seminars in the LT.

There will be a reading week in week 6 of the LT for assessment preparation.

Formative coursework: In order to develop essay skills and obtain feedback outside of formal assessment, students will complete a 2,000 word formative essay on which they will receive feedback as to overall standard, argument, evidence, structure and style.

Students will choose one essay from a list of titles. To prepare for the 5,000 word essay, students will submit for approval a proposed title and a two-page handout summarising the question or puzzle that their essay will address. A seminar will also be held as a workshop to assist students prior to the final submission of their 5,000 word essay.

Assessment: Essay (100%, 5000 words).

GV4F4 Half Unit

Policy Advice in Theory and Practice

This information is for the 2016/17 session.

Teacher responsible: Dr Hanan Haber CON 6.16

Availability: This course is available on the MSc in International Migration and Public Policy, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 2 groups. The deadline for enrolments will be 12 noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

Course content: Many masters graduates in public policy and administration go on to work in organizations that produce or consume policy advice. With this in mind, this course will look at how policy advice is produced and used. It has three objectives: to introduce students to a range of theoretical and empirical scholarship on the issues involved in producing and using policy advice; to develop the practical policy analysis, advice and communication skills required of policy advisors; and to expose students to practitioners who produce and use policy advice.

Students will develop their policy analysis and communication skills required of policy advisors; and to expose students to practitioners who produce and use policy advice. Students will develop their policy analysis and communication skills by working through real-world cases during the seminars and in the formative and assessed coursework.

Teaching: 8 hours of lectures and 15 hours of seminars in the LT.

In addition there will be between two and five guest speaker sessions.

There will be a reading week in Week 6.

Formative coursework: One formative essay (policy memo and analysis) (2,000 words) designed to help students in developing their project work and either a mock examination or a second policy memo and analysis (2,000 words).

Assessment: Exam (50%, duration: 2 hours) in the main exam period. Project (50%, 2000 words).
GV4F5  Half Unit  Advanced Study of Key Political Thinkers

This information is for the 2016/17 session.
Teacher responsible: Lucia Rubinelli
Availability: This course is available on the MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 1 group. The deadline for enrolments will be 12.00 noon, on Monday 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.
Pre-requisites: An advanced undergraduate course in the History of Political Thought or Political Philosophy, or following consultation with the course teacher.
Course content: This course provides an opportunity to study in depth the work of Carl Schmitt. It will focus on his major works, and also consider the main lines of criticism from contemporary figures and scholars. It will also be important to consider issues of interpretation, particularly when there are differing controversial readings of Schmitt’s work. The course will be taught as a seminar in political philosophy rather than one in intellectual history. The focus will be on understanding and critical engagement with the ideas of Carl Schmitt rather than on the study of the historical context of his work. Each class will focus on one of his major books. The last session will deal with critiques and uses of his thought by contemporary scholars.
Teaching: 20 hours of seminars in the MT.
There will be a reading week in week 6 of the MT for private study and assessment preparation.
Formative coursework: Students will be encouraged to submit one formative essay of no more than 1500 words.
Assessment: Essay (100%, 5000 words).

GV4F8  Half Unit  Institutions and Global Trade

This information is for the 2016/17 session.
Teacher responsible: Dr Stephanie Rickard CON6.11
Availability: This course is available on the MSc in Comparative Politics and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course is organised around several important theoretical and empirical questions regarding the functioning of the global economy and the role of political institutions. Why do states delegate certain economic tasks and responsibilities to international institutions rather than acting unilaterally or cooperating directly?
To what extent do states continue to control international organizations once authority has been delegated? To what extent do international institutions constrain national governments and their economic policies, such as trade, monetary and fiscal policy? To what extent do domestic institutions shape countries’ foreign economic policies? When and under what circumstances do national governments comply with the decisions of international organizations? These questions are examined in the context of a variety of different institutions that play a role in the global economy including, for example, the World Trade Organization and the International Monetary Fund as well as domestic political institutions, such as electoral systems.
Teaching: 20 hours of seminars in the LT.
There will be a reading week in week 6 of the LT for private study and assessment preparation.

Assessment: Essay (100%, 4000 words) in the ST.

GV4F9 Half Unit
The Challenges of Governance and Conflict in Sub-Saharan Africa

This information is for the 2016/17 session.
Teacher responsible: Dr Omar McDoon CON6.09
Availability: This course is available on the MSc in Comparative Politics and MSc in Conflict Studies. This course is available as an outside option to students on other programmes where regulations permit.
This course is capped at two groups. Students should send a short email setting out their motivation and qualifications to take the course to the course instructor, Dr Omar McDoon (o.s.mcdoom@lse.ac.uk), by 12 noon, on Monday 3 October, 2016 of the Michaelmas Term. Priority will generally be given to students on the MSc in Comparative Politics, but students from other Government Department programmes and other LSE Departments may also be admitted subject to space.

Course content: The course is organized around a set of ten ‘big’ normative and empirical questions that have confronted the continent’s leaders and peoples and engaged scholars and policymakers since the end of colonial rule. Specifically:

Q1. What has been the legacy of colonial rule and where does the responsibility of Africa’s own leaders for both the continent’s misfortunes and achievements begin?

Q2. Should we always see clientelism and patronialism as antithetical to building a modern state, strong institutions, and the rule of law?

Q3. What have been the effects of promoting liberal democracy in sub-Saharan Africa and how seriously should we take alternative indigenous models of governance?

Q4. Are Africa’s civil wars primarily attributable to the relative feasibility of rebellion against the state or are they tied to societal grievances?

Q5. Why may Africa’s wealth of natural resources be seen as both a curse and blessing?

Q6. Is it simply trite to say aid, particularly the western neoliberal model, has hurt Africa more than it has helped?

Q7. Should the international community assume a responsibility to protect when confronted with massive human rights violations or does intervention in the continent’s conflicts in fact do more harm?

Q8. Should the re-orientation of some African states towards non-western partners such as China and India be viewed as a positive shift?

Q9. Should we take ‘Islamist’ violence - Boko Haram, Al Qaeda in the Maghreb, and Al Shabaab - in SSA more seriously than other forms of political violence?

Q10. What has been the significance of Rwanda’s genocide for the engagement of the international community with the continent?

Q11. Linking all of these questions is an underlying inquiry into what the limits of extant empirical research relating to each of these questions so that they may look critically yet constructively at current strategies for meeting the challenges of governance on the continent. The course will tackle each of these questions through country case studies selected from the major country groupings to minimize the risk of students forming a regionally-skewed perspective on a diverse continent. The course will also draw on a range of methodological approaches - quantitative, historical, and qualitative - though students will not need any prior specialized training.

Teaching: 15 hours of lectures and 20 hours of seminars in the LT. One revision session in the ST.

Formative coursework: Students will be required to complete one formative essay (1,500 words).

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

GV4G1 Half Unit
Applied Quantitative Methods for Political Science

This information is for the 2016/17 session.
Teacher responsible: Dr Valentino Larcinese
Availability: This course is available on the MRes Political Science and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A good knowledge of statistics and of the generalized linear model at the level of MY452.

Course content: This course provides an introduction to current empirical research in political science with a focus on methods for causal inference. The 2 hours weekly meetings consist of mix lectures and tutorials. The lectures will present the techniques and illustrate their applications by making extensive use of the most up-to-date empirical literature. The tutorials will give feedback on formative work and will provide an opportunity to learn how to apply the methods with the statistical software Stata. After reviewing the rationale for simple OLS estimation, particularly focussing on the conditions for a causal interpretation of the coefficients, the course will cover instrumental variables, panel data, differences-in-differences, regression discontinuity and several applications to political science. Students will be stimulated to think in experimental terms and the main theme will be how to replicate or get close to the experimental ideal of natural sciences by using non-experimental observational data.

Teaching: 20 hours of lectures in the LT.

Formative coursework: There will be two pieces of formative work to be submitted to the lecturer.

Indicative reading: Most readings will be journal articles. The main references for the methods will be:
Thad Dunning: Natural experiments in the social sciences, Cambridge University Press 2012
Angrist & Pischke: Mostly Harmless Econometrics, Princeton
**GV4G4** Half Unit Comparative Conflict Analysis

This information is for the 2016/17 session.

Teacher responsible: Dr Denisa Kostovicova

Dr Livia Schubiger

Dr Paul Mitchell

Jim Hughes

Availability: This course is compulsory on the MSc in Conflict Studies. This course is not available as an outside option.

Compulsory core course for and entry restricted to MSc Conflict Studies students only. It is capped at 3 groups. The deadline for enrolments is 12 noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

Course content: Conflict? How should we investigate and measure political violence? What causes national and ethnic conflict and other forms of political violence and why does it take particular forms? What are the most effective means of conflict resolution? This course will introduce students to the core theoretical debates on intra-state conflict and political violence by analysing the major research in the field, both quantitative and qualitative. The course is structured around three categories of analysis and explanation: causation, dynamics and outcomes. Central themes include: the role of violence in state formation, development and collapse; theories of legitimacy, contentious politics and control regimes; the causes, dynamics and consequences of civil war; the interaction of group identities, interests and political violence; macro- and micro-analyses of conflict; and top-down and bottom-up methods for ending violent conflict, including intervention, the role of civil society, and institutional designs. The course offers students the opportunity to engage with the main methodological approaches to the study of conflict, including critical case studies, process tracing, small n research and large n research, which will enhance their skills for the dissertation. In the weekly lectures and seminars the themes will be explored through a mix of theory-based readings and works which provide in-depth case studies.

Teaching: 16 hours and 30 minutes of lectures and 16 hours and 30 minutes of seminars in the MT.

There will be a reading week in Week 6. In week 11 of MT the lectures and seminars will focus on revision.

Formative coursework: Students are required to complete one formative essay of 2,000 words.

GV4G7  Half Unit
Marx and Marxism
This information is for the 2016/17 session.
Teacher responsible: Lucia Rubinelli
Availability: This course is available on the MSc in European Studies: Ideas, Ideologies and Identities, MSc in European Studies: Ideas, Ideologies and Identities (LSE and Sciences Po) and MSc in Political Theory. This course is available as an outside option to students on other programmes where regulations permit.
This course is capped at 2 groups. The deadline for receipt of applications will be 12 noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.
Course content: The course is an advanced level course providing the opportunity to read canonical texts in the history of Marxism and engage with the more recent normative literature related to these texts. The course will cover key issues in the study of Marxism such as the materialist conception of history, the idea of class and class struggle, the role of the state, the analysis of exploitation, the defence of revolution, the role of the party, the analysis of imperialism. It will introduce to the thought of an author that is often referred to in a range of literatures and will provide the opportunity to read original texts and engage with scholarly controversies (both historical and normative) generated by these texts.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in week 6 of the LT for private study and assessment preparation.
Formative coursework: One formative essay of around 2,500 words.
Assessment: Essay (100%, 4000 words).

GV4H2  Half Unit
Contemporary India: The World's Largest Democracy in the Early 21st Century
This information is for the 2016/17 session.
Teacher responsible: Prof Sumantra Bose
Availability: This course is available on the MSc in Comparative Politics and MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Priority will be given to students taking the MSc Comparative Politics and the MSc Global Politics. Students on other Master's programmes, in all Departments of the School, are welcome to apply to take the course and will be considered subject to availability of space. This course is capped at 30 students (two seminar groups).
All students, regardless of programme and department, must apply via LFY to take this course by the stipulated deadline early in the Michaelmas Term (October 2016).
Course content: This course is an advanced introduction to the politics and international relations of contemporary India, the world's most populous and diverse democracy and one of the "rising powers" of the 21st century.
After the first week's introductory and overview session, the next six weeks cover in depth the evolution of India's democracy since the 1950s. The emphasis is on political changes and transitions since the 1990s. Key topics include the transitions from a polity dominated by a single party to a highly plural and competitive polity defined by the rise of "regional" parties in many of the 29 states of the Indian Union, and from a relatively centralized to a federal polity. Two current challenges with deep roots in the past are also surveyed: the Maoist insurgency in some parts of India and the chronic discontent in the Kashmir Valley. The final three weeks look at India's role in the international politics of the early 21st century. The focus is on India's three most important (and interconnected) external relationships: with China, the United States, and Pakistan.
Teaching: 15 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in Week 6.
Formative coursework: Students will be required to make one in-class seminar presentation and write one formative essay of 2,000 words, due at the end of the LT.
Assessment: Essay (100%, 5000 words) in the ST.
A research paper of 5000 words will determine 100% of the grade. Students can either choose from a set of supplied questions or formulate their own question (subject to the instructor's approval). The deadline for submission is the end (Friday) of Week 5 of the Summer Term.

GV4H1  Half Unit
Chinese Political Thought
This information is for the 2016/17 session.
Teacher responsible: Dr Leigh Jenco CON4.13
Availability: This course is available on the MSc in China in Comparative Perspective and MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at one group. The deadline for enrolments will be 12 noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.
Course content: This course will introduce students to recurring debates and concepts within Chinese political thought. We focus on the germinal texts of the Warring States period (circa 400 BCE), such as the Analects of Confucius and the Dao De Jing of Laozi, which continue to shape political debate in East Asia. Reading texts in translation, we will critically examine the variety of normative frameworks that have structured political thinking in Chinese history, with a particular focus on the relationship between personal agency and political outcomes. This is NOT a history course; its broader goal is to help students use Chinese thought to think critically and creatively about political and social life in general and not just in “Chinese” contexts. This course is suitable for students interested in political theory, philosophical approaches to politics, Chinese studies, and/or the history of political thought. Readings are entirely in English and NO prior knowledge of Chinese or China is required.
Teaching: 20 hours of seminars in the MT.
There will be a reading week in week 6 of the MT for private study and assessment preparation.
Formative coursework:
• One review essay of a secondary source from the course reading list, 750-1000 words;
• One formative essay of 1500 words maximum excluding footnotes and bibliography, on an assigned topic.
Assessment: Essay (100%, 4000 words).
GV4H3  Half Unit  Feminist Political Theory

This information is for the 2016/17 session.
Teacher responsible: Prof Anne Phillips Con 5.07
Availability: This course is available on the MSc in Gender, MSc in Gender (Research), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities and MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 2 groups. The deadline for enrolments is 12 noon, on Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday 5 October 2016.
Course content: This course covers some of the central debates in contemporary feminist political theory, with a particular emphasis on the legacy and usefulness of liberalism. The course focuses on debates and differences within feminist political theory, rather than justifications for, or defences of, feminist political theory. Among the problems raised are conceptions of the individual and individual autonomy, the relative invisibility of gender issues in mainstream literature on justice and equality; the tendency to conceive of equality in sex-blind terms; the tendency to presume a universally applicable set of norms. We consider the theoretical debates in relation to a number of contemporary political issues. Topics likely to be addressed include: feminism and contract, individualism and autonomy, identity politics, equality and the politics of difference, surrogacy, multiculturalism, and universalism.
Teaching: 10 hours of lectures and 10 hours of seminars in the MT. There will be a reading week in week 6 of the MT for advice and feedback sessions.
Formative coursework: Students will be required to submit a short essay of roughly 1,500 words. Students will be given a list of questions to choose from, and should choose a topic other than the one they choose for their final assessment.
Indicative reading: Most of the material is in the form of articles, and a detailed list will be handed out at the beginning of the course. The following is only an indicative list: J Squires, Gender in Political Theory; C Pateman The Sexual Contract; I M Young, Justice and the Politics of Difference; W Brown, States of Injury; A Phillips Multiculturalism without Culture; C MacKenzie and N Stoljar (eds) Relational Autonomy.
Assessment: Essay (100%, 4000 words).

GV4H4  Half Unit  Foundations of Political Theory

This information is for the 2016/17 session.
Teacher responsible: Dr Kai Spiekermann and Prof Christian List
Availability: This course is compulsory on the MSc in Political Theory. This course is not available as an outside option.
Course content: This course provides an introduction to the philosophical and methodological foundations of political theory. It aims to give participants a conceptual toolbox that can be brought to bear on many different substantive problems and research questions in political theory and neighbouring fields. The course introduces some central methodological debates in contemporary political theory, explores the links between political theory and related disciplines, and familiarises students with different approaches to political theorising.
Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST. Week 6 will be a reading and feedback week.
Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in January.
Assessment: Essay (100%, 3000 words) in the LT.

GV4H5  Half Unit  The Political Philosophy of Environmental Change

This information is for the 2016/17 session.
Teacher responsible: Dr Kai Spiekermann CON.517
Availability: This course is available on the MSc in Environmental Economics and Climate Change, MSc in Philosophy and Public Policy, MSc in Political Theory and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: No formal requirements, but an interest in the formal analysis of political, philosophical and economic questions and a willingness to study contributions from various disciplines, including the natural sciences, is expected.
Course content: This course analyses political and philosophical questions arising in the context of environmental change. The approach will be interdisciplinary. While the focus is on normative-philosophical issues, we will also make use of positive-analytical and empirical literature. Among the topics discussed will be climate change, overpopulation, food and water scarcity, deforestation, desertification and the loss of biodiversity. Some of the questions to be discussed are: How should we balance the interests of current and future generations? How does climate change affect our obligations towards the global poor? How do we make policy decisions if the effects are uncertain but potentially severe? Are we individually or collectively responsible for causing climate change, and what follows from this? How do we relate to the environment and what precisely is valuable about preserving it?
Teaching: 10 hours of lectures and 15 hours of seminars in the LT. Week 17 (week 6 of the LT) will be a reading and feedback week.
Formative coursework: Students will be expected to produce 2 essays in the LT.
Assessment: Essay (100%, 4000 words).

GV4H6  Half Unit  Not available in 2016/17  Behavioural and Experimental Political Economy

This information is for the 2016/17 session.
Teacher responsible: Dr Rafael Hortalà-Valve
Availability: This course is available on the MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: It is required that students have some familiarity with formal models (game theory) and basic statistical concepts.
Course content: In this course we will introduce behavioural concepts and use them at explaining decisions of politicians, candidates for political office, voters, lobbyists, and other actors in the political and policymaking arena. The focus of the course will be academic but we will also visit the recent development by public policy practitioners –both the UK and the US have behavioural...
GV4H7 Half Unit Not available in 2016/17
Subnational Politics in Comparative Perspective

This information is for the 2016/17 session.

Teacher responsible: Prof Catherine Boone

Availability: This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Development Management, MSc in Development Studies and MSc in Empires, Colonialism and Globalisation. This course is available as an outside option to students on other programmes where regulations permit.

Course content:

I. How do territorial institutions vary across countries? (2 weeks)
   - institutional heterogeneity across space and scale: (empires, nation states, federations, nodes, networks, indirect rule, states within states, and decentralisation);
   - space and the challenges/needs of territorial integration;
   - scale and principal-agent dynamics, direct and indirect channels of access to the central state, competitive vs. complementary (functionally differentiated) links;
   - detecting and describing differences; testing theories re: institutional effects.

II. What explains cross-national variation in the territorial structure of the state? (2 weeks)
   - state ambition theories (elite voluntarism/ideological theories);
   - endogenous state-formation theories (social conflict and social equilibrium theories);
   - factor prices, markets, technology, and transactions costs:

endowment and geography;
   - historical legacies via path dependence or institutional stickiness (as per HI theory);
   - cultural or social cohesion theories.

III. Are there consequences of variation in territorial structure of the state for political order, economic development, policy implementation, and prospects for democracy? If so, what are they? (6 weeks)
   - Territorial institutions and national citizenship;
   - differentiated citizenship regimes; electoral regimes and the structure of representation;
   - Decentralisation: subnational authoritarianism or local democracy;
   - Building national economies: uneven development, regionalised regulatory regimes, property rules, taxation and redistribution, labour markets, urban bias;
   - Spatially uneven character of state institutions: implications for policy interventions;
   - Territorial dimensions of state failure: Why do some states fall apart?
   - Fragmentation (dissolution), secession and warlordism, displacement, abandonment of territory.

Teaching: 22 hours of seminars in the LT. 4 hours of seminars in the ST.

Formative coursework: Students will be expected to produce 9 problem sets in the LT.

Every week some students will have to present the week readings. Also every week students will have to solve a short problem set.

Indicative reading:

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 5000 words) in the ST.

Teaching:
- 22 hours of seminars in the LT. 4 hours of seminars in the ST.
- 3 hours of seminars in the LT.
- 22 hours of seminars in the ST.
- 8 hours of seminars in the LT.
- 16 hours of seminars in the ST.

GV4H9 Half Unit

Automated Conflict: Violence, Governance, and Mobilization

This information is for the 2016/17 session.

Teacher responsible: Dr. des. Livia Schubiger

Availability: This course is available on the MSc in Conflict Studies. This course is available with permission as an outside option to students on other programmes where regulations permit. GV4H9 is a recommended option for the MSc Conflict Studies. Other students will be admitted subject to space, with preference given to Government Department students. The course is capped at three groups. The deadline for enrolments is 12 noon, on Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

Course content: This course introduces students to the sociological and psychological analysis of violence, governance, and mobilization in intra-state armed conflict and civil wars. The primary focus lies on how armed groups interact with the civilian population and how they mobilize followers, how and why armed groups’ internal institutions and their strategies of violence vary across conflicts, and what the consequences of these strategies are for both the conflicts within states and the state—society relationship. The course engages with a variety of theoretical and empirical approaches that will familiarize students with the dynamics of violence and mobilization in armed conflicts. Students are introduced, in particular, to the following core themes:

- Recruitment and Mobilization in Armed Conflict: The course aims to assess the insights and limitations of existing research in uncovering the incentives of groups and communities to engage in violent collective action, the choices of ordinary citizens to
join insurgent or counterinsurgent armed groups, as well as the strategies of armed group leaders to enlarge their constituencies.

• Order and Governance in Civil War: Students are introduced to a novel research agenda that has started to explore how social and political order is established in times of civil war, when and how armed groups aspire to govern the daily lives of civilians, and why some armed groups manage to establish and maintain high levels of internal cohesion and control while others do not.

• Causes and Consequences of Wartime Violence against Civilians: The course critically reviews theories and recent empirical studies that have set out to explain the puzzling variation in violence against civilians across conflicts, armed groups, and over time, as well as the consequences of civilian victimization for subsequent conflict dynamics and post-conflict recovery.

Empirically, the course engages with both quantitative and qualitative studies and a wide variety of ongoing, recent, and historical cases from civil wars around the globe, including the conflicts in Colombia, El Salvador, Northern Ireland, Peru, Sierra Leone, and Syria, among others.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. Lent term: 10 x 1 hour lectures, 10 x 1.5 hour seminars (2 groups). There will be a reading week in week 6.

Formative coursework:
• 1 presentation: The presentations critically assess and compare the theoretical, methodological, and empirical contributions of selected mandatory and/or recommended readings for one specific course topic and/or case.
• 1 essay: The essay (1000 words) proposes an original argument related to one of the course subjects.

Indicative reading:

Assessment: Essay (100%, 2500 words) in the ST.

---

**GV4J3** Half Unit

**Public Opinion, Political Psychology and Citizenship**

This information is for the 2016/17 session. Teacher responsible: Dr Thomas Leeper.

**Availability:** This course is available on the MSc in Comparative Politics and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 1 group. The deadline for receipt of enrolments will be 12 noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.

**Pre-requisites:** Students should have a familiarity with basic statistical concepts (e.g., means, proportions, linear regression).

**Course content:** The purpose of this course is to explore issues related to public opinion, including what opinions are and how they are formed, what factors do and do not influence opinion development and change, how opinions drive citizens' political thinking and behaviour, and what implications these psychological processes have for the role of public opinions in democratic government. Students will leave the course with a thorough theoretical understanding of political opinions, their origins, and their possible effects through exposure to philosophical perspectives, contemporary case studies, and a broad set of empirical research. The course will challenge assumptions about what democracy is and how it works, explore what it means to be a good citizen in a contemporary democracy, and provide students with insight into how democratic governments can and should respond to the public's views. The focus will be on how citizens form political opinions, think and reason about policy debates, and act on their opinions, especially outside of elections, across a broad array of country contexts.

**Teaching:** 20 hours of seminars in the LT.

There will be a reading week in LT 6 for one-to-one meetings and/or peer feedback sessions related to the summative assessments.

**Formative coursework:**
• 1 presentation: Each week, 1-2 students will serve as discussion leaders for the seminar portion of the course. This will involve presentation of that week’s readings and facilitation of discussions.
• 1 short essay: In preparation for the summative essay, students will write short (2-3 page; max 1500 words) reflection papers that propose an original research topic to be pursued within the scope of the course. Reflection papers will be shared with classmates via Moodle with the expectation that fellow students provide peer feedback during the seminar. Students will also receive feedback from the instructor.

**Indicative reading:**

**Assessment:** Essay (100%, 5000 words).

---

**GV4J4** Half Unit

**Citizen Representation and Democracy in the European Union**

This information is for the 2016/17 session. Teacher responsible: Prof Sara Hobolt COW 1.02

**Availability:** This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Comparative Politics, MSc in EU Politics, MSc in EU Policies (LSE and Sciences Po), MSc in European Studies: Ideas, Ideologies and Identities, MSc in European Studies: Ideas, Ideologies and Identities (LSE and Sciences Po), MSc in Global Politics, MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 1 group. The deadline for enrolments will be 12 noon, Monday, 3 October 2016. You will be informed of the
Students will write a formative essay during the week 6 reading week as practice for the take-home exam.

**Assessment:** Coursework (25%) in the LT.

Take home exam (75%) in the ST.

The coursework (worth 25%) will consist of a Policy Exercise which will be carried out in groups. Students will prepare a presentation and produce a 2-3 page policy memo.

The take-home exam will be held in the first week of Summer Term.

---

**GV4J6**  
**Half Unit**  
**Game Theory for Research**

This information is for the 2016/17 session.  
**Teacher responsible:** Dr Stephane Wolton  
**Availability:** This course is available on the MRes Political Science and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Pre-requisites:** Some knowledge of game theory at the level of GV4C8.

**Course content:** Advanced treatment of game theory. The course will cover: Nash Equilibrium in static and repeated games, Subgame Perfect Nash Equilibrium, Perfect Bayesian Equilibrium and its refinements. The course will also discuss the implications of formal theory models for empirical analysis (comparative statics, equilibrium selection, omitted variable bias). Students will be exposed to both technical concepts and applications of these concepts in selected papers.

**Teaching:** 22 hours of lectures in the LT.

**Formative coursework:** Students will meet with the instructor to discuss their research project twice during the LT.

**Indicative reading:** A game theory textbook to be determined. A reading list for applications of the main concepts covered in class will be provided to students at the beginning of the term.

**Assessment:** Exam (40%, duration: 2 hours) in the main exam period.

Presentation (30%) in the LT.

Other (30%) in the ST.

Students will be assessed on a class presentation on a paper decided in advance with the instructor (weight 30%), a small research project using the methodological concepts developed in the course (weight 30%), and a two-hour examination during the main period (weight 40%).
core courses in the MSc PSPE programme. The course will cover key concepts in algebra (definition of function, derivation, limits), maximization problems (constrained and unconstrained, Envelop and Implicit Function Theorems), and some notions of probability (Bayes’ rule, random variables).

Teaching: 10 hours of lectures in the MT. 10 hours of teaching in week 1 and beginning of week 2 of the Michaelmas Term.

Indicative reading: There is no required reading for this course.

**GV4V8 Half Unit MPA Policy Paper**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Babken Babajanian SAR G.03

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is not available as an outside option.

Students may not take this course and an MPA dissertation.

**Course content:** The aim of the course is to enable students to plan, design and conduct independent analysis in an area of public policy. MPA students will write an individually-authored policy paper of no more than 6,000 words on a topic developed in consultation with their Academic Adviser. The paper will analyse a concrete policy problem in a specific setting and propose an evidence-based solution or course of amelioration. It must be addressed to a non-academic audience and should be clearly and directly written so as to be suitable for consideration by policy-makers. The main body of the paper should include methodology, results of the analysis, discussion of different policy options, conclusions and policy recommendations. The policy paper must be accompanied by an Executive Summary. Policy papers can utilises qualitative and/or quantitative data and draw on secondary and/or primary research.

**Teaching:** 6 hours of seminars in the MT. 1 hour and 30 minutes of seminars and 1 hour of seminars in the LT.

These six seminars provide academic and practical guidance on developing the policy paper topic and question; designing analytical frameworks; structuring and presenting policy analysis; and writing policy recommendations. The student's Academic Adviser will provide advice and guidance on this piece of work.

**Formative coursework:** A policy paper proposal (of no more than 750 words in total) consisting of the title, abstract, research question, justification for analysis, feasibility of the topic, an explanation of sources, structure and analytical framework must be submitted in the MT. Students may only change their topic thereafter with the agreement of their Academic Adviser. Students will be given feedback on their proposal.

**Assessment:** Other (100%) in the ST. 6,000 word policy paper

**G400 Half Unit The Economics of Urbanisation**

This information is for the 2016/17 session.

**Teacher responsible:** Prof John Henderson Stcr. Stc.506b

**Availability:** This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Real Estate Economics and Finance, MSc in Regional And Urban Planning Studies. Complementing this will be a study of the internal spatial transformation of cities, the evolution of the location of production activities, the formation and role of slums, and the evolution of land market regulations and property right assignments. Critical to understanding these processes will be learning about the role of regulation and political processes, as well as policy initiatives, in shaping outcomes. The course will also examine the current process of urbanisation in Asia and Africa in the various special contexts of different regions and countries, drawing from lessons of the past as experienced in Latin America and parts of the developed world.

**Teaching:** 20 hours of lectures and 20 hours of seminars in the LT.

The first two weeks of seminars will involve a review of basic statistical methods to help prepare students for class and lecture material.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

This MSc course will offer students the opportunity to learn some of the conceptual foundations and empirical regularities involved in studying why countries urbanise, the nature of structural and spatial transformation involved in the urbanisation process and the development of systems of cities. Complementing this will be a study of the internal spatial transformation of cities, the evolution of the location of production activities, the formation and role of slums, and the evolution of land market regulations and property right assignments. Critical to understanding these processes will be learning about the role of regulation and political processes, as well as policy initiatives, in shaping outcomes. The course will also examine the current process of urbanisation in Asia and Africa in the various special contexts of different regions and countries, drawing from lessons of the past as experienced in Latin America and parts of the developed world.

**Teaching:** 20 hours of lectures and 20 hours of seminars in the LT.

The first two weeks of seminars will involve a review of basic statistical methods to help prepare students for class and lecture material.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

GY403 Half Unit
Contemporary Debates in Human Geography

This information is for the 2016/17 session.
Teacher responsible: Dr Murray Low STC S512
Other teacher involved: Dr Ryan Centner
Availability: This course is compulsory on the MSc in Human Geography and Urban Studies (Research). This course is available on the MPhil/PhD Human Geography and Urban Studies, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in International Migration and Public Policy, MSc in Regional And Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available as an outside option to students on other programmes where regulations permit. Compulsory for MPhil/PhD Human Geography and Urban students without MSc Human Geography and Urban Studies.

Course content: This is a reading seminar course, organised around key works pertinent to cities, development and human geography. While by no means comprehensive, the syllabus, provided in the first week of the course, will detail some key debates in geography, urban studies and development studies, which we explore in some detail over the term. The readings will reflect a range of approaches to the disciplines of human geography, urban studies and development studies, in order to convey the dynamic interplay between these three areas of scholarship. Discussions with colleagues in these areas of research, alongside readings of foundational texts, will be aimed at exploring how theory and evidence connect in critical geographical research.

Teaching: 10 hours of lectures in the MT. 10 hours of lectures in the LT.
10 x two-hour directed reading lecture/seminars meeting in MT and LT. Students (including those auditing the course) are expected to read, circulate critical comments, and participate actively in discussion.

Formative coursework: A 2,500 word essay
Indicative reading: Readings focused on in this course will vary from session to session. A detailed syllabus will be provided at the beginning of the course, but would include works such as T Cresswell (2013) Geographic Thought; D Gregory et al, The Dictionary of Human Geography (5th edn), 2009; D Harvey, Social Justice and the City, 2009; D Harvey, The Enigma of Capital, 2010; N Smith, Uneven Development, 2008; D Massey, Space, Place and Gender, 1994; E Soja, Seeking Spatial Justice, 2010; R Peet and M Watts, Liberation Ecologies, 2004; J Ferguson, The Antipolitics Machine, 1994; T Mitchell, Rule of Experts, 2002; A Roy, Poverty Capital, 2010; and D Gregory and Allan Pred, Violent Geographies, 2009.

Assessment: Essay (100%, 5000 words) in the ST.

GY404 Half Unit
Topics in Local Economic Development

This information is for the 2016/17 session.
Availability: This course is compulsory on the MSc in Local Economic Development. This course is available on the MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A good background is required in one of the fields of economic geography, economics, management or regional and urban studies.

Course content: This course is concerned with both the theoretical underpinnings and practical implementation of specific local economic development policies. It will focus in particular on policy for local economic development in a number of different geographical contexts. In the MT the topics are presented by the responsible teacher, whilst in the LT each topic is given by a different academic drawing on their own research in the area. Topics covered vary by year, but are likely to include: the relationship between economic growth and poverty, migration, local labour markets, and inclusive growth.

Teaching: 15 hours of seminars in the MT. 15 hours of seminars in the LT. 1 hour of workshops in the ST.

Formative coursework: Students will be expected to make presentations and participate actively in seminars.

Assessment: Exam (75%, duration: 3 hours) in the main exam period.
Essay (25%, 2500 words).

GY407 Globalization, Regional Development and Policy

This information is for the 2016/17 session.
Teacher responsible: Prof Andres Rodriguez-Pose and Prof Michael Storper

Availability: This course is compulsory on the MSc in Local Economic Development. This course is available on the MSc in African Development, MSc in Environment and Development, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Regional And Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A good background is required in one of the fields of management, economics, economic geography, regional and urban studies.

Course content: This course analyses the theories and practice of economic development focusing on response to change, stimulation of development, and methods of local or regional delivery. Term A: Theories of regional economic development, location, and trade are applied to the contemporary process known as globalization, and used to decipher this phenomenon and its effects on development, employment, and political institutions. A number of major issues for regional and industrial policy are considered, including trade, convergence/divergence, corporate power, knowledge and technology, governance, and inter-place competition. Term B: This section of the course deals with the management and institutions of local and regional economic development. It dwells on the socio-economic implications of the emergence of local and regional governments and institutions as key actors in the design and implementation of economic development strategies across the world. In particular, the first section of the course analyses the consequences for economic efficiency and equality of the gradual but relentless shift of development responsibilities from the national and the supranational to the local and regional scale, linked of political and fiscal decentralisation, The second section of the course focuses, from a theoretical and empirical perspective, on the strategies being implemented by subnational governments across the world in order to cope and redress development problems. Strategies based on the building of infrastructure, the attraction of foreign direct investment, the support to local production and the promotion of local human resources are analysed in different institutional and governance contexts. The course draws on examples from Europe, the US, Latin America, and Asia.

Teaching: 20 hours of lectures and 15 hours of lectures in the MT. 20 hours of lectures and 20 hours of seminars in the LT.

Formative coursework: Students will be expected to participate in group debates throughout the course, with written presentation slides required. Feedback is provided in the sessions.

Assessment: Essay (25%, 2500 words) in the LT.
Take home exam (75%) in the ST.

---

**GY408**

**Local Economic Development and Policy**

This information is for the 2016/17 session.

Teacher responsible: Prof Simona Lammarino STC S410 and Dr Riccardo Crescenzi STC S414

Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Local Economic Development and MSc in Urban Policy (LSE and Sciences Po). This course is available as an outside option to students on other programmes where regulations permit. This course is freely available to all MSc students in the Department of Geography & Environment. The course is available subject to availability for all other MSc students.

Course content: This course deals with the analysis of theoretical and institutional issues, empirical evidence, development pre- requisites and economic development policies in the context of actions to stimulate the economic development of local and regional economies.

The course is split in two parts. Both are concerned with the analysis of local economic development theories and policies. The first part of the course (MT) is concerned with ‘bottom-up’ approaches and focuses on locally initiated and managed processes which may involve a wide range of actors in shaping and implementing local economic development initiatives. The second part of the course (LT) is focused on the macro and meso-level determinants of regional and local economic development and on the design and implementation of the corresponding ‘top-down’ policies.

Michaelmas Term: This section of the course is aimed at understanding the micro foundations of local economic development, that is the determinants and effects of the behaviour, strategies and choices of key economic actors: local firms, both small and large, multinational enterprises, universities and other education and research organisations, government bodies, industry associations, NGOs, local communities, etc. The study of theoretical approaches, empirical evidence and implications of the behaviour of such actors, and their interactions and linkages, will help building up the analytical framework to interpret the genesis of localised economic systems, their dynamics and evolution over time and the policy options, particularly, but not exclusively, from a bottom-up perspective. The lectures and workshops make use of an extended array of empirical examples and case studies across regions and industries, both in advanced and emerging economies, and consider the transferability of lessons and insights across space and time.

Lent Term: This section of the course is generally focused on the macro and meso-level determinants of regional and local economic development and on the capacity of ‘top-down’ policies to exert an influence on these drivers, promoting growth and social and territorial cohesion. The section starts by examining the existing disparities in regional economic performance in a number of industrial, emerging and developing countries, illustrating the scope and justification for government intervention in this area. The course then considers how different theories and approaches to local and regional economic development identify different macro and meso determinants of economic performance and, consequently, suggest differentiated sets of ‘top-down’ development policies.

With these analytical tools in place, the EU regional policy is used as a case study to discuss the benefits of a ‘balanced’ approach to the analysis, design and implementation of regional development policies, overcoming the limitations of the one-sided approaches presented in the earlier part of the course. In this context, special attention will also be devoted to the cases of the United States, China and India in a comparative perspective.

Teaching: 20 hours of lectures and 18 hours of workshops in the MT. 20 hours of lectures and 27 hours of seminars in the LT. 4 hours of workshops in the ST.

Michaelmas Term: The lectures (two-hour) will be followed by workshops (2-hour), in which students will work on case studies/presentations in small groups of 4-5 people. The ST session concerns only the first part of the course in the Michaelmas Term (GY408 (MT)/GY415) and consist of Revision and Q&A sessions.

Lent Term: Seminar teaching is based on a combination of seminars and debates.

Formative coursework: One optional Mock exam in each MT and LT terms to be submitted, timings will be announced during the teaching. Feedback and indicative classification will be provided.

Indicative reading: Both terms’ reading lists are mainly based on journal articles available in electronic format. Some of the readings will be chapters from the following books/publications: OECD, Competitive Cities in the Global Economy, 2006; R Capello, Regional Economics, Routledge, 2007; A Pike, A Rodríguez-Pose & J Tomaney, Local and Regional Development, 2006; R Crescenzi & A Rodríguez-Pose, Innovation and Regional Growth in the European Union, Springer, 2011; Lundvall, B-A., Joseph, KJ., Chaminade, C. and Vang, J. (Eds) Handbook of Innovation Systems and Developing Countries, Edward Elgar, 2009; S Lammarino & P McCann, Multinationals and Economic Geography: Location, Technology and Innovation, Edward Elgar 2013.

Reading lists are provided electronically on Moodle.

Assessment: Exam (75%, duration: 3 hours) in the main exam period.
Essay (25%, 2500 words) in the LT.

---

**GY409**

**Half Unit**

**Globalization and Regional Development**

This information is for the 2016/17 session.

Teacher responsible: Prof Michael Storper

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in African Development, MSc in City Design and Social Science, MSc in Development Management, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Human Geography and Urban Studies (Research), MSc in Urban Policy (LSE and Sciences Po) and MIM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The economic geography of globalization, and examination of some of the principal effects of globalization on economic development of cities, regions and nations. Theories of regional economic development, location, and trade are applied to the contemporary process known as “globalization”, and used to decipher this phenomenon and its effects on development, employment, and political institutions. A number of major issues for regional and industrial policy are considered, including trade, convergence/divergence, corporate power, knowledge and technology, governance, and inter-place competition.

Teaching: 20 hours of lectures and 15 hours of lectures in the MT.

Formative coursework: Students will be expected to participate in group debates throughout the course, with written presentation slides required. Feedback is provided in the sessions.

Indicative reading: P Aghion; J G Williamson, Growth, Inequality

Assessment: Take home exam (100%) in the ST.

---

GY410 Half Unit
Economics of Local and Regional Development

This information is for the 2016/17 session.
Teacher responsible: Dr Riccardo Cresceni STC S414
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in African Development, MSc in City Design and Social Science, MSc in Development Management, MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Why do some regions and territories perform systematically better than others in terms of economic development and wealth? What are the key drivers of local and regional economic performance? How can local and regional economic development policies boost economic activity and improve socio-economic conditions in disadvantaged areas? Globalisation and technological change have challenged the ‘traditional’ answers to these questions and call for new analytical and policy tools. This course provides students with an in-depth understanding of the macro and meso-level determinants of regional and local economic development and of the policies influencing these drivers. After examining the existing disparities in regional economic performance between and within a number of advanced, emerging and developing countries, the course illustrates the scope and justification for government intervention in this area. Various theories and approaches to local and regional economic development, leading to different policy prescriptions, are analysed in order to identify different macro and meso determinants of economic performance (from innovation and human capital to knowledge spillovers and global networks). In particular, the course dwells on the regional policy of the European Union (EU) - one of the most important large-scale regional policy experiences - in order to discuss the pros and cons of existing policy tools and illustrate the benefits of a ‘balanced’ approach to the analysis, design, management and implementation of regional and local economic development policies in a globalising world. In this context, special attention will also be devoted to the cases of the United States, China and India in a comparative perspective.

Teaching: 20 hours of lectures and 27 hours of seminars in the LT. Seminar teaching consist of a combination of seminars and debates.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Assessment: Take home exam (100%) in the ST.

Assessment: Take home exam (100%) in the ST.
GY415 Half Unit Local Capacity and Economic Development Policy
This information is for the 2016/17 session.
Teacher responsible: Prof Simona Iammarino STC S410
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Regional And Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is freely available to all MSc students in the Department of Geography & Environment. The course is available subject to availability for all other MSc students.
Course content: This course is aimed at understanding the micro foundations of local economic development, that is the determinants and effects of the behaviour, strategies and choices of key economic actors: local firms, both small and large, multinational enterprises, universities and other education and research organisations, government bodies, NGOs, local communities, etc. The study of different theoretical approaches, empirical evidence and implications of the behaviour of such actors, and their interactions and linkages, will help building up the analytical framework to interpret the genesis of local economic systems, their dynamics and evolution over time and the policy options available, particularly, but not exclusively, from a bottom-up perspective. We will make use of an extended array of empirical examples and case studies – and the transferability of their lessons across space and time – across regions and industries, both in advanced and emerging economies.
Teaching: 20 hours of lectures and 18 hours of workshops in the MT. 4 hours of workshops in the ST. The 4-hour workshop in the ST will be centred on Q&A for the exam.
Formative coursework: One optional Mock exam to be submitted, timings will be announced during the teaching. Feedback and indicative classification will be provided.
Indicative reading: The course is mainly based on academic articles and papers, all available through @reading list. Some chapters will also be used from books such as: A. Pike, A. Rodriguez-Pose & J. Tomaney, Local and Regional Development, 2006; B-A. Lundvall, KJ Joseph, C. Chaminade & J. Vang (eds.), Handbook of Innovation Systems and Developing Countries, 2009; J Cantwell & E Amann (eds.), Innovative Firms in Emerging Market Countries, 2012; S Iammarino & P McCann Multinationals and Economic Geography. Location, Technology and Innovation, 2013.
In general, all readings are electronically available from the LSE Library unless otherwise indicated.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

GY421 Half Unit Gender and Development: Geographical Perspectives
This information is for the 2016/17 session.
Teacher responsible: Prof Sylvia Chant STC417a
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in African Development, MSc in Development Studies, MSc in Environment and Development, MSc in Gender, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Politics, MSc in Health, Community and Development, MSc in Population and Development, MSc in Regional And Urban Planning Studies, MSc in Regulation, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: A knowledge of development and/or gender in the Global South would be a distinct advantage.
Course content: An analysis of gender roles, relations and inequalities in developing world regions, with particular emphasis on the variability of these in different geographical contexts, and their implications for gender equality. The course aims to provide a broad introduction to gender and development studies, with a focus on geographical perspectives, and to develop analytical skills in the application of geographical theory and methods to the analysis of gender and development.
Teaching: 20 hours of lectures and 9 hours of seminars in the MT. 10 hours of lectures and 9 hours of seminars in the LT.
Assessment: Exam (75%, duration: 3 hours) in the main exam period. Another 25% of assessment is provided through a formative essay in MT. In the LT students are required to give one presentation on an agreed topic: this will be graded with feedback.

GY440 Environmental Regulation: Implementing Policy
This information is for the 2016/17 session.
Teacher responsible: Dr Richard Perkins STC S413, Dr Michael Mason STC S510, Ms Kelly Kay STC S317 and Ms Clare Barnes STC S317
Availability: This course is compulsory on the MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Regulation, MSc in Risk and Finance and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course cannot be taken with GY465 Concepts in Environmental Regulation or GY475 Issues in Environmental Governance.
Course content: This course provides critical insights into the characteristics, processes and evolving dynamics of environmental policy, regulation and governance. In MT, the course considers the rationale for public policy intervention, and the factors that shape the influence of different interest groups on government policy making. It proceeds to examine the nature, design and performance of different policy instruments, together with the various influences governing policy implementation processes. In LT, the course highlights key themes in environmental regulation informed by the concept of multi-level governance. This concept suggests new alignments and forms of regulation within and across state borders: the themes chosen to explore this concept include collective action, international negotiations, governance beyond the state, and different rationales of regulation (science, ethics and justice).
Teaching: 15 hours of lectures and 9 hours of seminars in the MT. 10 hours of lectures and 9 hours of seminars in the LT.
Formative coursework: Students are expected to prepare one formative essay in MT. In the LT students are required to give one presentation on an agreed topic: this will be graded with feedback.
Indicative reading: While there is no one single text that covers all aspects of the course, you are strongly advised to consult the following:
Assessment: Exam (75%, duration: 3 hours) in the main exam period. Another 25% of assessment is provided through a formative essay in MT. In the LT students are required to give one presentation on an agreed topic: this will be graded with feedback.

GY441 Half Unit Environmental Regulation: Implementing Policy
This information is for the 2016/17 session.
Teacher responsible: Dr Richard Perkins STC S413, Dr Michael Mason STC S510, Ms Kelly Kay STC S317 and Ms Clare Barnes STC S317
Availability: This course is compulsory on the MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Regulation, MSc in Risk and Finance and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course cannot be taken with GY465 Concepts in Environmental Regulation or GY475 Issues in Environmental Governance.
Course content: This course provides critical insights into the characteristics, processes and evolving dynamics of environmental policy, regulation and governance. In MT, the course considers the rationale for public policy intervention, and the factors that shape the influence of different interest groups on government policy making. It proceeds to examine the nature, design and performance of different policy instruments, together with the various influences governing policy implementation processes. In LT, the course highlights key themes in environmental regulation informed by the concept of multi-level governance. This concept suggests new alignments and forms of regulation within and across state borders: the themes chosen to explore this concept include collective action, international negotiations, governance beyond the state, and different rationales of regulation (science, ethics and justice).
Teaching: 15 hours of lectures and 9 hours of seminars in the MT. 10 hours of lectures and 9 hours of seminars in the LT.
Formative coursework: Students are expected to prepare one formative essay in MT. In the LT students are required to give one presentation on an agreed topic: this will be graded with feedback.
Indicative reading: While there is no one single text that covers all aspects of the course, you are strongly advised to consult the following:
Assessment: Exam (75%, duration: 3 hours) in the main exam period. Another 25% of assessment is provided through a formative essay in MT. In the LT students are required to give one presentation on an agreed topic: this will be graded with feedback.

GY442 Half Unit Gender and Development: Geographical Perspectives
This information is for the 2016/17 session.
Teacher responsible: Prof Sylvia Chant STC417a
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in African Development, MSc in Development Studies, MSc in Environment and Development, MSc in Gender, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Politics, MSc in Health, Community and Development, MSc in Population and Development, MSc in Regional And Urban Planning Studies, MSc in Regulation, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: A knowledge of development and/or gender in the Global South would be a distinct advantage.
Course content: An analysis of gender roles, relations and inequalities in developing world regions, with particular emphasis on the variability of these in different geographical contexts, and their
intersections with poverty, especially in urban areas. Specific themes include: the incorporation of gender into development analysis and practice; indicators of gender inequality; households and families, domestic inequalities and carework; fertility, family planning and reproductive rights; health, healthcare and housing; gender divisions in urban labour markets; female labour force participation; internal and international migration; Gender and Development (GAD) policy; ‘Smart Economics’; female empowerment and participation; girls in GAD; men and masculinities in GAD; gender, climate change and disasters

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 2 hours of lectures in the ST.

**Formative coursework:** Students will be expected to produce one essay during the course as well as to prepare presentations for seminars (usually in pairs) and to be actively engaged in seminar discussions, including as discussants and rapporteurs.

**Assessment:** Exam (75%, duration: 2 hours) in the main exam period. Essay (25%, 2500 words) in the LT.

---

**GY423 Environment and Development**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Benjamin Groom (KGS 2.03)

**Additional teacher(s):** Dr S Roth, Dr C Palmer.

**Availability:** This course is compulsory on the MSc in Environmental Economics and Climate Change. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Environmental and resource economics is at the forefront of the response to local, national and global environmental problems. As such, it has become an essential part of the thinking and actions of national and regional governments, as well as international agencies and organizations. This course seeks to develop a rigorous treatment of the theory of environmental and natural resource economics, and to show how formal economic thinking can assist real world policymaking in areas such as climate change, ecosystem & biodiversity conservation and water resource management.

The course consists of four components which cluster together the principal areas of interest and research in environmental and natural resource economics. These are: (i) foundations of environmental and resource economics; (ii) economics of pollution control; (iii) economics of renewable and non-renewable resources; and (iv) the study of international environmental problems and agreements.

**Teaching:** 15 hours of lectures and 9 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students will complete one written assignment of 2,500 words in Michaelmas Term, on which they will receive written feedback.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 3000 words).

---

Essay (25%, 3000 words).
GY427  Half Unit  
Climate Change: Science, Economics and Policy  
This information is for the 2016/17 session.  
Teacher responsible: Prof Simon Dietz  
Availability: This course is compulsory on the MSc in Environmental Economics and Climate Change. This course is available on the MSc in Environment and Development and MSc in Environmental Policy and Regulation. This course is available with permission as an outside option to students on other programmes where regulations permit.  
Course content: A comprehensive guide to the issue of climate change, from fundamental concepts in climate science, through estimating the future impacts of climate change on economies and societies, to cutting greenhouse gas emissions by using economic instruments such as carbon trading. Interdisciplinary, but with an emphasis on economic analysis, albeit taught in a non-technical style.  
Teaching: 22 hours of lectures and 7 hours and 30 minutes of seminars in the MT.  
Formative coursework: Students will write one essay (unassessed), on which they will receive written feedback. The essay serves as a mock exam, there is no word limit, but students should time themselves to write it in 50 minutes.  
Assessment: Exam (100%, duration: 2 hours) in the main exam period.  

GY428  Half Unit  
Applied Quantitative Methods  
This information is for the 2016/17 session.  
Teacher responsible: Dr Benjamin Groom (KGs 2.03) and Prof Jonathan Jackson (COL 8.05)  
Availability: This course is compulsory on the MSc in Environmental Economics and Climate Change. This course is available on the MSc in Local Economic Development and MSc in Real Estate Economics and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.  
Pre-requisites: A background in undergraduate statistics or econometrics is helpful  
Course content: This course will provide an introduction to quantitative methods in use in modern environmental and resource economics. Emphasis will be placed on the practical use of empirical tools. This applied focus will be complemented by the investigation of assumptions and proofs that can improve the understanding of empirical results. Students will apply the methods taught using statistical/econometric software and data documenting some topical public policy questions. These applications will take place in ten seminars of one hour each. During the seminars the students will gain understanding of the software STATA. Additionally, in the lectures and sometimes seminars, selected papers in quantitative environmental economics will be critically discussed. In general the course will attempt to use examples from relevant and topical empirical papers published in the area of applied econometrics and environmental economics. The module will cover several estimators. We will start with the standard linear regression model, its assumptions, violations and testing procedures. Some non-linear models will also be presented, including Multivariate Probit and Logit Models (Maximum Likelihood). Extensions of the Linear regression model to incorporate panel data estimators and Instrumental Variables (IV) approaches (e.g. Two Stage Least Squares and Fixed and Random Effects models) will be also covered. The course will conclude with a discussion of programme evaluation methods and randomised control trials (RCTs).  
Teaching: 20 hours of lectures and 9 hours of seminars in the MT. 1 hour of seminars in the LT.  
Formative coursework: A selection of seminar exercises will be marked for formative appraisal.  
Assessment: Exam (100%, duration: 2 hours) in the main exam period.  

GY431  Half Unit  Not available in 2016/17  
Cities, People and Poverty in the South  
This information is for the 2016/17 session.  
Teacher responsible: Prof Sylvia Chant  
Availability: This course is available on the MSc in African Development, MSc in City Design and Social Science, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Health, Community and Development, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Population and Development, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.  
Pre-requisites: Experience and/or knowledge of development and/or urbanisation in the South would be a distinct advantage  
Course content: The course examines the patterns, processes and implications of urbanisation in developing societies, with particular reference to the survival and well-being of low-income groups, and the variability of urban life and poverty in different geographical contexts. The conceptual and empirical focus of the course revolves around strategies adopted at individual household and community levels to ensure sustainable livelihoods, and the interrelations of grassroots processes with policy interventions on the part of governments, international development agencies and NGOs. Specific themes include: trends in urban development in the 20th and 21st centuries; population and rural-urban migration; shelter and housing; land and tenure; urban services; the conceptualisation and measurement of poverty; the ‘urbanisation’ of poverty; the ‘feminisation of poverty’; poverty reduction strategies; employment and informality in urban labour markets; urban livelihood strategies and economic restructuring; households and gender; women-headed households; health and healthcare; participatory urban governance, civil society, and UN-Habitat agendas past, present and future.  
Teaching: 20 hours of lectures and 9 hours and 30 minutes of seminars in the LT. 2 hours of seminars in the ST.  
Formative coursework: Students will be expected to produce one essay during the course, as well as to prepare seminar presentations (usually in pairs), and to be actively involved in seminar discussions, including as discussants and rapporteurs.  
Indicative reading: Detailed reading lists will be provided during the course. No one book covers the entire course. However, recommended essential reading is as follows: J. Beall and S. Fox, Urban Poverty and Development in the 21st Century, 2009; J. Beall, G.Khasnobi and R. Kanbur (Eds) Urbanisation and Development: Multidisciplinary Perspectives, 2010; S.Chant and C.Mcllwaine Geographies of Development in the 21st Century, 2009; D. Milin and and D.Satterthwaite, Urban Poverty. Scale and Nature, 2013. M. Montgomery, R. Stren, B. Cohen & H. Reed (Eds), Cities Transformed:

Assessment: Exam (75%), duration: 2 hours) in the main exam period. Essay (25%, 2500 words) in the ST.

---

**GY432** Half Unit  Not available in 2016/17

**Urban Ethnography**

This information is for the 2016/17 session.

Teacher responsible: Prof Gareth Jones SS06

Availability: This course is available on the MSc in African Development, MSc in City Design and Social Science, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course considers the role of ethnography to how we understand cities. We will look in detail at different types of ethnography and compare with other means of representing the city, through the novel and film, starting with Rem Koolhaas on Lagos. Specific themes will cover the urban flâneur and ethnographer, street ethnography, culture of poverty and marginality, time and waiting, bodies and sex, infrastructure and mobility, gates and the middle class; drugs, the gang and violence, and slums. The course will consider the role of ethnography in developing world cities in particular but also draw from studies of developed world. The course offers an opportunity to reflect on urban places in a way which does not reduce them to arenas for technical, policy-driven planning, and so as to consider the urban experience more broadly. The course will raise issues of methodology.

Teaching: 20 hours of seminars in the LT. 4 hours of seminars in the ST.

Formative coursework: A 2,000 word essay or review of readings on a chosen topic from class list.

Assessment: Exam (75%), duration: 2 hours) in the main exam period. Essay (25%, 2500 words) in the ST.

---

**GY438** Half Unit

**Cities and Social Change in East Asia**

This information is for the 2016/17 session.

Teacher responsible: Dr Hyun Shin STC. S601f

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in China in Comparative Perspective, MSc in City Design and Social Science, MSc in Development Studies, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Real Estate Economics and Finance, MSc in Regional And Urban Planning Studies, MSc in Social Policy and Development, MSc in Social Policy and Development: Non-Governmental Organisations, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and MiM Exchange. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: N/A

Course content: This is an interdisciplinary urban course that encourages students to develop a critical understanding of how urban space is transformed in diverse social, economic and political settings, and what social implications are made upon the powerless and the poor. Examining the process of socio-spatial transformation in times of condensed urbanisation and economic development, this course makes use of Asia as an empirical site to unsettle Western notions of urban development. Various examples of urban policies and practices will be drawn from cities across East and Southeast Asia, with emphasis on newly industrialised capitalist economies as well as transitional economies such as mainland China. Focusing on urban questions in particular, the course comprises of lectures and seminars on the following themes:

• speculative urbanisation;
• the role of the state in urban development;
• urban growth politics;
• land politics and real estate;
• mega-projects and mega-events;
• gentrification and displacement;
• urban contestation;
• economic crisis and inequalities.

Students will also have opportunities to view and discuss various sources of audiovisual materials and documentaries related to these themes.

Course Facebook page: http://goo.gl/k7a2Z

Teaching: 15 hours of lectures and 9 hours of seminars in the MT.

Formative coursework: One formative essay (1,500 words) on which individual feedbacks will be provided.

GY439 Half Unit
Cities, Politics and Citizenship

This information is for the 2016/17 session.
Teacher responsible: Dr Murray Low STC.S.512
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in City Design and Social Science, MSc in Culture and Society, MSc in Environment and Development, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Health, Community and Development, MSc in Human Geography and Urban Studies (Research), MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Perspectives on contemporary urban politics. The course will equip students interested in urban change and development to understand and critically assess the variety of ways in which urban politics and policies are imagined and discussed in universities as well as in the world of policy. It will also develop their understandings of key debates and themes in contemporary urban political life.

Topics covered will include: imagining urban politics; theories of urban politics, ‘globalisation’ and urban political life; urban governance; civil society and urban social movements; urban dimensions of citizenship and migration; policing, violence and urban politics; urban politics and ‘neoliberalism.’

Teaching: 20 hours of lectures in the LT. 2 hours of lectures in the ST.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

GY446 Half Unit
Planning for Sustainable Cities

This information is for the 2016/17 session.
Teacher responsible: Dr Nancy Holman STC315b
Availability: This course is available on the MSc in City Design and Social Science, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc in Human Geography and Urban Studies (Research), MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: A critical examination of the issues involved in planning for sustainable development at the urban level together with a review of policies and practice; the course will focus largely on the problems facing developed countries. The course comprises ten lectures covering issues of physical, economic and social measures to promote sustainability alongside understandings of how this may be measured in an urban context.

Teaching: 15 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Students are expected to prepare a seminar paper and presentation.

Indicative reading: Detailed reading on specific policy areas will be provided: J Agyeman & B Evans (Eds), Local Environmental Policies and Strategies, 1994; S. Wheeler. Planning for Sustainability: Creating livable, equitable, and ecological communities, 2004; Y,
GY448  Half Unit
Social and Political Aspects of Regional and Urban Planning

This information is for the 2016/17 session.
Teacher responsible: Dr Alan Mace STC315a
Availability: This course is compulsory on the MSc in Regional And Urban Planning Studies. This course is available on the MSc in City Design and Social Science, MSc in Human Geography and Urban Studies (Research), MSc in Public Administration and Government (LSE and Peking University) and MSc in Urban Policy (LSE and Sciences Po). This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course will explore the impact of key social and political processes on the activity of urban and regional planning. These processes will be explored at the international, national, and local scale by looking at the impacts of both globalisation and neo-liberalism on the planning of cities and regions. The main focus is on the relationship between planning as a function of government, urban politics and the market. Key concepts covered in the course include: claims for and against urban planning; and the politics of planning - including community politics and the effect of institutional structures on the nature and form of the planning system. These concepts are supported by an introduction to the development of planning practice (primarily in the UK) and a review of key strands of planning theory.
Teaching: 15 hours of lectures and 8 hours of seminars in the MT.
Formative coursework: Students will submit a 1,500 word essay.
Assessment: Exam (75%, duration: 2 hours) in the main exam period. Essay (25%, 3000 words) in the MT.

GY449  Half Unit
Urban Futures

This information is for the 2016/17 session.
Teacher responsible: Dr Austin Zeiderman
Availability: This course is available on the MSc in City Design and Social Science, MSc in Culture and Society, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 34. Students must apply through Graduate Course Choice on LSE for You and provide a short written explanation of why they are interested in taking the course. Priority will be given to those on Geography and Environment MSc programmes.
Course content: By now we are accustomed to hearing that, for the first time in history, the majority of the world’s population lives in cities. We may also be aware that more than one billion people now live in the urban slums and shantytowns of the global South, and that this is where the majority of world population growth will take place. But what sort of futures are being imagined for the cities of the twenty-first century? In response to this question, GY449 Urban Futures will critically analyze how the future of cities, and the cities of the future, have been thought about and acted upon in different times and places. Students will learn to adopt a geographical and historical approach to the study of urban futures by exploring how ways of envisioning the future of cities differ across time and space. Treating the future as a social, cultural, and political reality with a profound influence on the present, the course will examine how urban areas are planned, built, governed, and inhabited in anticipation of the city yet to come. Each week will be organized around a particular model for the future of the city: the ideal city, the dystopian city, the modernist city, the colonial city, the capitalist

GY447  Half Unit
The Economics of Regional and Urban Planning

This information is for the 2016/17 session.
Teacher responsible: Dr Felipe Carozzi S416
Availability: This course is compulsory on the MSc in Regional And Urban Planning Studies. This course is available on the CEMS Exchange, IMEX Exchange, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Urban Policy (LSE and Sciences Po) and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students should normally have completed an introductory course in economics. Students without this background may wish to attend the micro-economic section of EC100 Economics A together with the GY447.A classes.
Course content: To provide an economic framework in which to analyse the structure of economic activity within the urban and regional context; the impact of this structure on urban form; the role of government at the local level and local economic policy applications. The course aims to provide an economic framework in which to analyse the structure of economic activity within the urban and regional context; the impact of this structure on urban form; the role of government at the local level and local economic policy applications. Topics include: The determinants of industrial, commercial and residential location. The interaction between activities within a spatial context. The economics of land markets and of the development process. The determinants of rents and densities. Economic models of urban structure. Sources of market failure in the urban economy. The rationale of government intervention. Techniques of intervention in the urban and environmental context. The role of the public sector: pricing, allocation, production and investment decisions. Urban and regional economic policy issues.
Teaching: 20 hours of lectures and 9 hours of seminars in the MT. 2 hours of lectures in the ST. There will also be 10 hours of classes provided mainly for those without a previous economic background.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT. The mock exam will be accompanied by a feedback session later in the Lent Term
Indicative reading:
1) A O’Sullivan Urban Economics;
2. D DiPasquale & W C Wheaton, Urban Economics and Real Estate Markets;
3) J F McDonald, Fundamentals of Urban Economics;
4) R W Vickerman, Urban Economics;
5) H Armstrong & J Taylor, Regional Economic Policy and its Analysis;
6) M Fujita, Urban Economic Theory;
7) J Stiglitz, Economics of the Public Sector;
8) M Common, Environmental and Resource Economics;
9) H Dunkerley (Ed), Urban Land Policy: Issues and Opportunities;
10) Pindyck & RubinfeldMicroeconomics, Suslow & Hamilton Study Guide.
More detailed readings will be provided during the course.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.
city, the socialist city, the organic city, the global city, and the secure city. These models will be examined through concrete examples and will enable the discussion of broader theoretical perspectives in urban studies, with a specific focus on the critical analysis of urban futures. Though grounded in urban geography, this course will draw upon texts and other materials from anthropology, sociology, history, cultural studies, literature, film, philosophy, social theory, architecture, art, and city planning. Its primary objective is to equip students with sophisticated, critical ways of thinking about the future of cities, since doing so has real significance for the kind of city we want to, and eventually will, ourselves inhabit.

**Teaching**: 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework**: Students will be expected to produce 1 presentation in the MT.

The formative presentation will be an opportunity for students to begin preparing for the assessed essay and to receive feedback from peers and from the lecturer. Presentations will be delivered in a workshop setting during seminar.

**Assessment**: Essay (100%, 5000 words) in the LT.

The assessed essay will be a critical and creative exercise in the analysis of urban futures. Students will be given a choice: 1) Identify and research one vision of the urban future that exists in the present; or 2) Take a particular city and research the ways its future has been envisioned in the past, and how it is currently being envisioned in the present. Essays must contain no more than 5,000 words of text although they may also include images, as well as any other media that pertains to the argument.

---

**GY450**  
Planning Practice and Research

This information is for the 2016/17 session.  
**Teacher responsible**: Dr Nancy Holman STC315b and Dr Alan Mace STC315a  
**Availability**: This course is compulsory on the MSc in Regional And Urban Planning Studies. This course is available on the MPhil/PhD in Regional and Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Course content**: The aim of this course is to provide students with an understanding of the current planning issues faced by practitioners and their policy responses. This will begin with an introduction to the planning context of London and an overview of the British planning system. This will be followed by weekly sessions with invited speakers involved in planning practice and research. They will be engaged in relevant current research or be practicing planners or policy-makers from central or local government, research agencies or consultancy. The content will consist of a series of guided walks, lectures and seminars covering issues of current concern and debate within urban and regional policy and planning.  
**Teaching**: 15 hours of lectures in the MT. 15 hours of lectures in the LT.  
There will normally be 25 hours of lectures and seminars, mainly from visiting speakers, plus three study trips. These will take place throughout the year.  
**Assessment**:  
There is no Assessment in this course but the content will be relevant to the assessed courses in the MSc Regional and Urban Planning Studies Programme.

---

**GY452**  
Half Unit  
Urban Research Methods

This information is for the 2016/17 session.  
**Teacher responsible**: Dr Hyun Shin S601F  
**Additional teacher(s)**: Professor Sylvia Chant; Professor Gareth Jones; Dr Neil Lee; Dr Romola Sanyal; Dr Austin Zeiderman; Dr Claire Mercer  
**Availability**: This course is compulsory on the MSc in Urbanisation and Development. This course is not available as an outside option.  
This course is available on the MSc in Urban Policy (LSE and Sciences Po) for those students who choose the MSc in Urbanisation and Development track for their Year 2 studies.  
**Pre-requisites**: N/A  
**Course content**: The course aims to introduce students to the key methods that are frequently mobilised to carry out research on urbanising societies around the world. The course is designed to help students think more systematically about methodological considerations in order to execute a successful dissertation research. Below is a list of themes to be covered in the course:  
• Interviews and focus groups  
• Conducting ethnography  
• Quantitative data and questionnaires  
**Teaching**: 8 hours of lectures, 12 hours of seminars and 6 hours of workshops in the LT.  
Workshops are for students to present their research proposals.  
**Formative coursework**: Students will be expected to produce 1 essay in the LT.  
**Assessment**: Essay (60%, 2500 words) and research proposal (20%) in the ST.  
Presentation (20%) in the LT.

GY455  Half Unit
Economic Appraisal and Valuation

This information is for the 2016/17 session.
Teacher responsible: Prof Giles Atkinson S302 and Prof Susana Mourato S420

Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in City Design and Social Science, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc in Regional And Urban Planning Studies, MSc in Risk and Finance, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course is concerned with the foundations and practical use of applied economics in the context of project appraisal and policy evaluation and will include the following content. Introduction to economic aspects of project appraisal and cost-benefit analysis. Efficiency, equity and distributional concerns. Measurement of costs and benefits with a specific emphasis on practical methods to value non-market goods and services. The application of project appraisal methods to policy sectors such as transport, health and the environment. Seminars and lectures will focus extensively on applied case studies and the tools involved in the appraisal of projects by for example development agencies such as The World Bank. Examples particularly from environmental, health, development and transport policy in the developed and developing world.

Teaching: 12 hours of lectures and 8 hours of seminars in the LT.

Indicative reading: Detailed reading lists will be provided to support each course component. Emphasis will be placed on texts, case study material and state-of-the-art contributions to, for example, the literature on non-market valuation. For an overview and introduction to the main issues covered by the course, students may wish to consult the following: G Atkinson and S Mourato, “Cost-Benefit Analysis and the Environment”, OECD Environment Working Paper No. 97; AE Boardman et al, Cost-Benefit Analysis: Concepts and Practice, 2011 (chapters 1 and 2); N Hanley and EB Barbier Pricing Nature: Cost-Benefit Analysis and Environmental Policy, 2009; G de Rus Introduction to Cost-Benefit Analysis: Looking for Reasonable Shortcuts, 2011.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

GY457  Half Unit
Applied Urban and Regional Economics

This information is for the 2016/17 session.
Teacher responsible: Dr Christian Hilber STC.S418A

Availability: This course is compulsory on the MSc in Real Estate Economics and Finance. This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: The course assumes that students already have knowledge of economics equivalent to a good first degree in the subject. It is available as an option to students who can show that they are suitably qualified.

Course content: This course aims to provide students with a theoretical and empirical understanding of urban economic processes and price determination in land and real property markets within an institutional context. Examples of topics covered include: the function of cities and the urban system; the determinants of urban structure; patterns of urban land use; the determinants of urban growth - theory and evidence; land and real property markets; the impact of land market regulation including the economic impact of land use planning; local public finance and house price capitalisation; real estate cycles; homeownership; the economics of schooling, crime and urban transport; urban labour markets. The institutional frame of reference within which the course is taught relates mainly to Western Europe and the United States.

Teaching: 22 hours of lectures and 10 hours and 30 minutes of seminars in the MT. 20 hours of lectures, 15 hours of seminars and 2 hours of workshops in the LT.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

GY458  Half Unit
Real Property Market Practice

This information is for the 2016/17 session.
Teacher responsible: Prof Paul Cheshire S405 and Dr Gabriel Ahlfeldt S408

Availability: This course is compulsory on the MSc in Real Estate Economics and Finance. This course is available with permission
as an outside option to students on other programmes where regulations permit.
It is available by arrangement with the teacher responsible as an option to other students on other programmes who have an appropriate academic background and an interest in real estate markets.

Course content: An examination of how real property markets operate in practice and of the analytical techniques and data available for analysts and practitioners. Specific areas of study include: the availability and structure of data sets in the context of property; problems of: price measurement; user/investment categories; professional methods of valuation (appraisal) and possible impact on price formation: creating and manipulating datasets; measuring property performance; analysis to guide portfolio selection; anticipating and evaluating investment opportunities. Specific sector case studies: industrial, retail, commercial, and residential: investment portfolio choice and management. Briefing on course project/essay. Defining research objectives and methodology in practice.

Teaching: 20 hours of lectures, 4 hours of seminars and 8 hours of workshops in the MT. 8 hours of workshops and 20 minutes of help sessions in the LT.

The majority of the lectures in the Michaelmas term are provided by senior practitioners in real estate research and analysis. The seminars/workshop sessions are organised by Dr Ahfeldt to prepare students for their projects. Time will be allocated for students to have up to 20 minute one-on-one meetings with either Professor Cheshire or Dr Ahfeldt during the Lent Term to discuss their projects. In addition there will be voluntary statistical/econometric workshops and support available in both the Michaelmas and Lent terms.

Indicative reading: There is no course text. CSO guides to Government Statistics; publications from Investment Property Databank and other research departments and organisations in the real property markets; Journal of Property Research, Estates Gazette.

Assessment: Essay (100%, 3000 words).

A 3,000 word project or essay identifying a research problem in real estate markets on a specific issue (e.g., ‘The Impact of the 2008 Financial Crisis on Office Rents in Hong Kong’, ‘Impact of Incomes on House Prices in the UK’, ‘Which Side of Beijing-Tianjin High-Speed Railway Benefits Most in terms of Housing Prices?’ or ‘The Economic Implications of Use-Class Designations in England’) which will require the student to investigate data sources, suggest techniques of data analysis and provide conclusions on the problem set. Topics must be agreed with the teachers responsible.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: One essay of 1,500 words (formative).

Assessment: Exam (75%, duration: 2 hours) in the main exam period.

Essay (25%, 2500 words) in the LT.

GY460 Half Unit Techniques of Spatial Economic Analysis

This information is for the 2016/17 session.

Teacher responsible: Prof Steve Gibbons S511

Availability: This course is available on the MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Real Estate Economics and Finance and MSc in Regional And Urban Planning Studies. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have a good understanding of statistics and applied micro-econometrics at an undergraduate level or, for example, have studied Applied Quantitative Methods (GY428) in Michaelmas term or another course which introduces topics such as instrumental variables and panel data methods. It is advisable to look at the first two key readings listed below before signing up for this course. Students who are comfortable working with computers, data and already have basic familiarity with STATA or other statistics/econometrics software will get the most out of this course.

Course content: The aim of the course is to develop the technical tools necessary to understand and analyse spatial economic and social phenomena and to apply quantitative techniques to analyse economic and social problems, processes and policies at the urban and regional scale. The course also provides a hands-on introduction to using Geographical Information Systems and other spatial computer applications for research purposes, but you should not expect to get a full training in GIS from this course.

Topics typically include: Spatial representation, spatial data and Geographical Information Systems; spatial weights, aggregation and smoothing methods; spatial econometric models and neighbourhood effects; answering causal questions in the spatial context; spatial interaction and discrete choice models; spatial cluster and point pattern analysis; inequality, competition and diversity.

Teaching: 10 hours of lectures and 20 hours of seminars in the LT.

30 hours of teaching in LT comprising computer classes and lectures. The majority of sessions will take place in a computer classroom and these sessions combine lecture and practical material. Formative feedback will be available on submitted answers to seminar exercises and/or a past exam paper.
**Formative coursework:** Throughout the term, students are given the opportunity to provide answers to problem sets, written answers to class exercises and computer workshop tasks, and past examination questions, on which feedback will be given.

**Assessment:** Project (100%, 5000 words) in the ST. A quantitative research project of not more than 5000 words to be handed in at a specified date in the ST (100%).

---

**GY462** Half Unit

**Real Estate Finance**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Olmo Silva S506A

**Availability:** This course is compulsory on the MSc in Real Estate Economics and Finance. This course is available on the MSc in Accounting and Finance, MSc in Risk and Finance and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course aims to provide students with concepts and techniques for analysing financial decisions in real estate development and investment. Topics include: basic real estate investment analysis and financial leverage; real options approach applied to real estate; real estate investment performance and portfolio considerations; fixed and flexible rate mortgage loans and mortgage payment issues; debt securitisation (secondary mortgage market & mortgage backed securities); tax transparent real estate investment vehicles (REITs); and international real estate (time permitting).

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.

External interventions by real estate practitioners will be scheduled when feasible.

**Formative coursework:** Students will be expected to complete in-class exercises and up to two take-home case-studies.

**Assessment:** Exam (80%, duration: 2 hours, reading time: 10 minutes) in the main exam period. Presentation (20%) in the LT. 80% of the students’ final grade will come from a two-hour closed book examination. The exam will consist of three questions and students will have to answer two out of these three questions. These questions will assess the material covered by the lecturers during the Lent Term as well as the topics discussed by the external speakers (two to three external interventions are planned every year; these are subject to confirmation). 20% of students’ final grade will come from a group work and presentation on a “case study” in real estate financial investment. Students will be provided with some material and instructions towards the second or third week of the term and will be assigned to groups of 4-5 students. They will have to work both on an xl cash flow analysis of this real estate investment opportunity as well as on a short (20min) presentation they will give as a group. They will then be allocated some time during one of the classes to present their solution as a group and will be assessed both on their presentation skills and the technical understanding of the cash flow analysis used in their financial investment decision.

---

**GY464** Half Unit Not available in 2016/17

**Race and Space**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Romola Sanyal

**Availability:** This course is available on the MPhil/PhD Human Geography and Urban Studies, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Empires, Colonialism and Globalisation, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in International Migration and Public Policy, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This postgraduate course considers the relationship between race and space linking critical race, colonial and postcolonial studies and critical human geography. The question of race cannot be meaningfully delinked from other identity politics such as gender, class, caste and religion, hence, this course studies these in tandem with each other. We consider a series of events at the interface of racial and spatial control, through themes such as colonialism, immigration, forms of apartheid, segregation and varieties of ‘ghettos’ and the political economy of incarceration. The course uses social theory to develop a situated, comparative analysis of racial geographies in the contemporary world. It will also draw on recent work in colonial, postcolonial and critical race studies. The central questions of the course are: How have racial/geographical formations been made, reproduced, and transformed in connected ways, and what critical tools are necessary for the linked work of anti-racism and spatial justice?

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** A 2,500 word essay and 4 one page reading responses.

**Indicative reading:** A detailed syllabus will be provided at the beginning of the course, but would include works such as CLR James: The Black Jacobins, 1989; F Fanon: Wretched of the Earth, 1963; E Said: Orientalism, 1983; K. Jackson: Crabgrass Frontier, 1985, A McClintock: Imperial Leather, 1995; Thomas Blom Hansen: Wages of Violence: Naming and Identity in Postcolonial Bombay, 2001; R W Gilmore: Golden Gulag: Prisons, Surplus, Crisis and Opposition in Globalizing California, 2005; O Yiftachel: Ethnicity: Land and Identity Politics in Israel/Palestine, 2006

**Assessment:** Essay (100%, 5000 words).

---

**GY465** Half Unit

**Concepts in Environmental Regulation**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Richard Perkins STC. S506A

**Availability:** This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Regulation, MSc in Risk and Finance and MSc in Urban Policy (LSE and Sciences Po).

This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course provides critical insights into the nature, dynamics and practice of environmental regulation. It
The course proceeds to examine the characteristics, design and performance of different policy instruments, together with the various influences governing policy implementation processes.

**Teaching:**
15 hours of lectures and 9 hours of seminars in the MT.

**Formative coursework:** Students are expected to prepare one formative essay.

**Indicative reading:** While there is no one single text that covers all aspects of the course, you are strongly advised to consult the following:

**Assessment:**
- Exam (100%, duration: 2 hours) in the main exam period.

---

**GY467  Half Unit**

**Global Migration and Development**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Claire Mercer STC.418

**Availability:** This course is available on the MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Empires, Colonialism and Globalisation, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in International Migration and Public Policy, MSc in Regional And Urban Planning Studies, MSc in Social Policy and Development, MSc in Social Policy and Development: Non-Governmental Organisations, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The aim of this course is to examine the relationship between migration, diaspora and development with a particular focus on migrants’ and diasporas’ contributions to development in the Global South. The course encourages students to develop a critical understanding of the role of different diasporas in political, social and economic development. This is achieved through:
- (i) a critical consideration of theoretical debates in geography, sociology, anthropology and development studies on diaspora, migration and development,
- (ii) an engagement with contemporary migration and development policies,
- (iii) an examination of diasporas’ developmental work including economic and social remittances, and political activities.

The final part of the course examines these debates in the context of the African diaspora.

**Teaching:**
10 hours of lectures and 15 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:**

**Assessment:**
- Exam (75%, duration: 2 hours) in the main exam period. Essay (25%, 2500 words) in the LT.

---

**GY469  Half Unit**

**Environment and Development: Ecosystem Services and the Global South**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Charles Palmer KG52.06 and Dr Benjamin Groom KG52.03

**Availability:** This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Environmental Economics and Climate Change and MSc in Human Geography (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students who have not completed a course in first year undergraduate level Economics might find it useful to audit EC100 Economics A.

**Course content:**
- The demand for and supply of energy, food, and water have important implications for resource use and the environment. They also serve as building blocks for economic development. With a focus on individuals and countries in the global south, this course is evidence based and primarily utilises the concepts and tools of environmental economics and development economics. It aims to impart knowledge and develop critical thinking about a number of selected topics concerned with the interface between environment and development. Structured over 10 weeks, the course is divided into three distinct parts. After introducing the course (week 1), Part I concentrates on two topics, which play a key role in conditioning the supply of ecosystem services, institutions (week 2) and biodiversity (week 3). Part I devotes a week each to food (week 4), water (week 5), and energy (week 7), with special attention paid to issues of contemporary policy relevance, for example, food security, climate adaptation, and the energy transition. Part II focuses on three selected topics, which cut across many of the themes covered in the first two parts of the course: biofuels (week 8); forests (week 9); and, urban (week 10). The course concludes with a closer examination of policy used to manage the some of the trade-offs between environment and...
development studied earlier in the course (week 11).

Teaching: 15 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

GY475 Half Unit
Issues in Environmental Governance

This information is for the 2016/17 session.

Teacher responsible: Dr Richard Perkins S413, Dr Michael Mason S510 and Ms Claire Barnes S517

Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Regulation, MSc in Risk and Finance and MSc in Urban Policy (LSE and Sciences Po). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course cannot be taken with GY465 Concepts in Environmental Regulation.

Course content: This Lent Term course is designed to highlight key themes impacting on environmental regulation across different scales of governance. While the emphasis is on global and transnational policy processes, attention is also paid to the implications of these processes at regional and local scales. The organizing framework of ‘multi-level governance’ suggests new alignments and forms of regulation which require us to consider environmental decision-making within and beyond the territorial authority of a single state. The indicative themes chosen explore distinctive challenges for multi-level governance - collective action, international negotiations, governance beyond the state, and different rationalities of regulation (science, ethics and justice).

These themes, which will be explored in student-led seminars, run explicitly or implicitly through many environmental policy debates.

Teaching: 10 hours of lectures and 9 hours of seminars in the LT.

Formative coursework: All students are required to make one presentation on an agreed topic: this will be graded with feedback for individual students.

Indicative reading: While there is no one single text that covers all aspects of the course, students are advised to consult the following:

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

GY479 Half Unit
Urban Revolutions

This information is for the 2016/17 session.

Teacher responsible: Dr Ryan Centner

Availability: This course is available on the MSc in City Design and Social Science, MSc in Culture and Society, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in Regional And Urban Planning Studies, MSc in Social Policy and Development, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course uses the concept of “urban revolutions” as an organizing principle to introduce students to key theories and debates related to societies undergoing rapid urban change. Course lectures examine “urban revolution” in three senses. The first pertains to Henri Lefebvre’s use of the term to signify the “complete urbanization of society” – a historical process by which social life, even outside of cities, becomes urbanized. This means addressing the relationship between the country and the city, the idea of the urban in historical perspective, and the relationship between urban life in the global North and South. The second treatment of “urban revolution” considers the city as a site for radical political change and social experimentation. This means studying cities as spaces of movement, resistance, and innovation, with an emphasis on urban experiments in the South. Thirdly, urban revolution is analysed in terms of the explosion of theorizations about the nature of the urban, how to study it, and how to make a difference in “the urban,” both intellectually and materially, within a global economy. Through these three overlapping lenses – history, politics, and theory – the course aims to equip students with a conceptual and empirical foundation for analyzing city transformations and globalized urbanization with particular attention to emerging urbanisms in the global South.

Topics covered may include the following: industrialization and immigration; processes of suburbanization, ghettization, and gentrification; global cities; the colonial and postcolonial city; the right to the city; urban uprisings; urban informality; urban violence; the geopolitics of urban theory.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

A short essay of 2000 words (maximum). Critically explore the applicability of one week’s readings from the first 5 weeks of the course to an empirical case outside the course reading. This will be due in Week 7 of MT.

The reading list is intended only to be indicative of literatures broached in the course. Actual readings will consist of particular articles and chapters on a weekly basis, as well as a wider range of inclusions.

Assessment: Essay (100%, 5000 words) in the LT.

Due in Week 1 of LT. This essay of 5000 words (maximum) will be based on a small set of options for questions provided by the instructor. Some options will be very specific about certain issues and/or regions, whereas others will be more conceptual and open for student exploration. Across all these options, there will be wide enough scope for students with different academic backgrounds and thematic or geographical interests to be accommodated, while still hewing to the organizing topics of the course.
GY480  Half Unit
Remaking China: Geographical aspects of Development and Disparity

This information is for the 2016/17 session.

Teacher responsible: Dr Hyun Shin STC, S601I
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Real Estate Economics and Finance, MSc in Regional And Urban Planning Studies, MSc in Social Policy and Development, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: N/A

Course content: The recent decades have seen China emerging as one of the most important global economic and political players. The course aims to offer opportunities to gain comprehensive and yet critical insights into China's development in urban, regional and global dimensions by reflecting upon the significance of China's role in the world economy as well as the challenges emerging within China. Tentative topics are as follows:

- China's rise in the global capitalism; Uneven development and regional disparities; Governing China and the role of the state;
- Speculative urbanisation; Mega-city regions; Gender and China; Factory of the World and work inequalities; Migration, hukou and local citizenship; Public participation and rights activism.

Teaching: 15 hours of lectures and 9 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Essay (100%, 4000 words) in the ST.

GY499  Dissertation

This information is for the 2016/17 session.

Teacher responsible: Prof Susana Mourato S420, Prof Sylvia Chant STC417a and Dr Gabriel Ahlfeldt
Programme Director of relevant MSc programme.

Availability: This course is compulsory on the MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Real Estate Economics and Finance, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available on the MSc in Environment and Development. This course is not available as an outside option.

Course content: The dissertation may be on any topic within the field of the MSc programme studied. Approval for the topic must be obtained from the relevant Programme Director.

Teaching: Teaching comprises a set of lectures and workshops which vary according to the particular Master's programme being undertaken: MSc Environment & Development; MSc Environmental Policy & Regulation; MSc Environmental Economics & Climate Change: 1 general two-hour lecture in MT on dissertation guidance; 1 x 3-hour workshops in MT for each of the environment programmes (choosing a topic and managing research); 3 x 3-hour joint methods workshops (optional) in LT. MSc Real Estate Economics & Finance: 1 x 2-hour Lecture in MT on dissertation guidance. MSc Local Economic Development: 1 x 2-hour Lecture in MT on dissertation guidance. MSc Urbanisation & Development: 1 x 2-hour Workshop in MT on dissertation preparation. MSc Regional & Urban Planning Studies: see course GY450, ‘Planning Practice and Research’.

Assessment: Dissertation (100%, 10000 words) post-summer term.

HY400  Crisis Decision-Making in War and Peace 1914-2003

This information is for the 2016/17 session.

Teacher responsible: Prof Nigel Ashton SAR.M.07

Availability: This course is compulsory on the MSc in International Affairs (LSE and Peking University). This course is available on the MSc in History of International Relations, MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: The course is intended for students with or without a detailed knowledge of the international relations of the twentieth century. Students without a detailed knowledge are advised to undertake preliminary background reading.

Course content: The history of international relations from the First World War to the Iraq War. Particular stress is placed upon key turning points and on crisis decision-making. Topics examined in this course include German decision-making in 1914; peacemaking, 1919; the Ruhr occupation crisis; Manchuria, Abyssinia and the crises of collective security; the Munich agreement; the Nazi-Soviet Pact and the outbreak of war in 1939; Hitler's decision to invade the Soviet Union; the outbreak of the Pacific War; the decision to drop the atomic bomb; the creation of the state of Israel, 1948-49; the Berlin Blockade; the outbreak and escalation of the Korean War; the Suez Crisis; the Cuban Missile Crisis; the US and Vietnam, 1961-65; the Arab-Israeli Wars of 1967 and 1973; German reunification and the collapse of the Soviet bloc; the origins of the Gulf War, 1990-91; the road to the 2003 Iraq War.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

The course will be taught in 20 weekly seminars of two hours’ duration. There is one reading week in the MT and one in the LT and a revision session in the Summer Term. Students will be expected to read widely in documentary and other primary sources, and to participate actively in the seminars, which will address the historiographical debates raised in the secondary literature on the topics covered.

Formative coursework: Students will write four essays. Three of the essays will be up to 3,000 words in length and draw upon primary sources. The fourth will be a shorter timed essay produced in class.

Indicative reading: Full bibliographies are provided in the seminars. Students may consult the following introductory accounts:

HY411
European Integration in the Twentieth Century

This information is for the 2016/17 session.
Teacher responsible: Dr Piers Ludlow SAR 2.16

Availability: This course is available on the MSc in Comparative Politics, MSc in EU Politics, MSc in European Studies: Ideas, Ideologies and Identities, MSc in European Studies: Ideas, Ideologies and Identities (LSE and Sciences Po), MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A prior knowledge of 20th century European history will be an advantage. Students unfamiliar with the subject should do some preliminary reading. A reading knowledge of French and/or German will be useful but in no sense essential.

Course content: The antecedents and development of Western European integration from the First World War to the 1990s. European integration before 1914; German and Allied projects during the First World War; inter-war developments and the Briand Plan; the Nazi New Order; Resistance and Allied planning during the Second World War; the impact of the Marshall Plan; Federalism and Christian Democracy; the Schuman Plan and the Coal and Steel Community; the European Defence Community project; the Treaties of Rome; the Common Agricultural Policy; the integration policies of the Six and Britain; de Gaulle and the Communities; enlargement; monetary integration; developments in the 1970s and 1980s; Maastricht.

Teaching: 7 hours of lectures and 15 hours of seminars in the MT. 3 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

There will be a reading week in the Michaelmas and the Lent Terms and a revision session in the Summer Term.

Formative coursework: Three essays will be required in the course of the year. The essay in the LT will be an assessed piece of work counting towards the final assessment. In addition there will be a mock exam.

HY422
Presidents, Public Opinion, and Foreign Policy, from Roosevelt to Reagan, 1933-89

This information is for the 2016/17 session.
Teacher responsible: Prof Steven Casey SAR 2.10

Availability: This course is available on the MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Using a range of secondary sources, the course explores the dynamic interaction between presidents, public opinion, and foreign policymaking in order to test a range of common assumptions about the determinants of American foreign policy in the period from 1933 to 1989. The course explores the interaction between opinion and policy in three periods: First, the Roosevelt era, with emphasis on FDR’s response to American isolationism, the media and public attitudes towards Nazi Germany and the Second World War, and the influence of public pressures upon US policy. Second, the period of consensus on the Cold War, examining how Americans viewed the Communist world before, during and after the Korean War, the influence of the atomic bomb upon popular thinking, the limits of dissent in the period of McCarthyism, and the impact of public opinion upon policy-making during the Berlin and Cuban crises. Third, the period when the Cold War consensus broke down, focusing not just on the opposition to the Vietnam war and the new cleavages that emerged within US society but also on the changing nature of the American media and the very different attempts made by Nixon, Carter and Reagan to respond to this new environment.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

20 seminars of two-hours. Students are expected to keep up with readings for the weekly meetings and to participate in the seminar discussions.

There will be a reading week in the Michaelmas and the Lent terms and a revision session in the Summer Term.

Formative coursework: Students are required to produce two 3,000 word essays during the year. There will also be a mock exam (a one-hour timed essay).

Indicative reading: A full bibliography accompanies the course and the teacher will advise on reading. M Small, Democracy and Diplomacy (1996); ); S Casey, When Soldiers Fall (2014); S Casey, Cautious Crusade (2001); S Casey, Selling the Korean War (2008); D Foyle, Counting the Public In (1999); R Sobel, The Impact of Public Opinion on US Foreign Policy since Vietnam (2001)O R Holsti, Public Opinion and American Foreign Policy (1996).

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

A three-hour unseen written examination in the ST. The final examination will count for 100% of the final course assessment.
HY423
Empire, Colonialism and Globalisation

This information is for the 2016/17 session.

Teacher responsible: Dr Gagan D. S. Sood

Availability: This course is compulsory on the MSc in Empires, Colonialism and Globalisation. This course is available on the MA Global Studies: A European Perspective, MSc in Global History, MSc in International Affairs (LSE and Peking University) and MSc in International and World History (LSE & Columbia). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: None.

Course content: This course is about the history and historiography of empires since the fifteenth century, and their legacy for our world today. Prominence is given to the Ottoman, Mughal, Qing, Spanish, Portuguese, French, British and American empires. We explore different approaches to these past empires, and the dynamics of their rise and fall. We also explore the extent to which the imperial past has helped shape the processes of globalisation in early modern, modern and contemporary times. A number of major themes are addressed, including: financial and industrial capitalism; cross-cultural encounters; the role of the periphery and local actors; climate, diseases and the environment; imperial ideologies; the great divergence; colonial science and technology; the relationship between colonial and metropolitan societies; race, ethnicity and gender; post-colonialism. The course is structured so as to encourage general and comparative discussions rooted in specific case studies.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 3 hours of classes in the ST.

There will be a reading week in the Michaelmas and the Lent terms. The classes in the Summer Term are for a mock exam and a revision class.

Formative coursework: Students will be expected to submit a 2000-word essay in MT and sit a 1-hour mock exam in ST.

Assessment: Exam (50%), duration: 2 hours) in the main exam period. Presentation (15%) in the MT. Essay (25%, 2500 words) in the LT. Class participation (10%) in the MT and LT.

HY424
The Napoleonic Empire: The Making of Modern Europe

This information is for the 2016/17 session.

Teacher responsible: Dr Paul Keenan SAR.2.13

Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations and MSc in International and World History (LSE & Columbia). This course is available as an outside option to students on other programmes where regulations permit.

Course content: The Napoleonic Empire was crucial in the formation of modern Europe. Much of Europe was dominated by the Napoleonic Empire and its impact was felt across the continent and in parts of the non-European world. Through an analysis of both those areas directly incorporated into the Napoleonic empire and of those that lay beyond it, this course will examine the extent of the direct and indirect influence of this era on the development of what we understand by a modern European society and a modern state system. The course analyses how this empire was created, as well as the states and societies that it forged. The varied and sometimes contradictory elements of this era will be analysed - from the impact of the growth of secularisation, constitutionalism and the codification of laws to the beginnings of Romanticism, manifestations of early nationalism and monarchical reaction after 1815. The course will also assess the significance of both the reality and the ‘myth’ of empire, in the assessment of contemporary observers and also in the later nineteenth and twentieth centuries. The course will cover the following topics: the origins of the Empire; changes in armies and warfare; analysis of the changing nature of the Napoleonic Empire from the core to the periphery; the impact of the Empire on countries that remained beyond it; Europe’s relationship with the non-European world during this period; the diplomacy of war and the ‘system’ that emerged after 1815; the impact of the Napoleonic era on the modernisation of society, the economy, law and the state; early manifestations of nationalism in the Italian and German lands, Spain and Russia; reaction against the Napoleonic ‘system’ after 1815. The course will also assess the significance of both the reality and the ‘myth’ of Napoleon and his empire, for contemporary commentators and also in the later nineteenth and twentieth centuries.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: Students will be expected to produce 2 essays in the MT and 1 essay in the ST.

The third essay will be a mock exam answer, which can be completed by students over the Easter break. It will be graded and students given written feedback in the first week of Summer Term.

Indicative reading: A detailed Reading List will be issued at the beginning of the course. Useful introductory works include: G. Ellis, Napoleon; G. Ellis, The Napoleonic Empire; M. Broers, Europe under Napoleon 1799-1815; S. J. Woolf, Napoleon’s Integration of Europe; P. Dwyer (ed), Napoleon’s Satellite Wars: An International History; O. Connelly, Napoleon’s Satellite Kingdoms; P. Geyl, Napoleon, Feb and Against.

Assessment: Exam (65%, duration: 2 hours) in the main exam period. Essay (35%, 3500 words) in the LT.

The assessed essay must be submitted by the final day of Lent Term.

HY429
Anglo-American Relations from World War to Cold War

This information is for the 2016/17 session.

Teacher responsible: Prof Nigel Ashton SAR M.07

Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course analyses the changing nature of the Anglo-American “special” relationship from its creation against the backdrop of the Second World War in Europe through to the end of the Cold War. It will illuminate the foundations of the relationship in terms of culture and ideology, and also the threat posed by common enemies in the Second World War and Cold War. The
The topics covered include: Anglo-American relations in historical perspective; the creation of the Anglo-American alliance, 1939-41; competitive co-operation in war strategy and politics, 1941-45; the American “Occupation” of Britain during the Second World War; the emergence of the Cold War in Europe, 1945-49; the Cold War in Asia, 1945-54; the Palestine question; the Suez Crisis, 1956; nuclear relations and the Skybolt Crisis; Kennedy, MacMillan and the Cuban Missile Crisis; Anglo-American relations and European integration, decolonisation and Anglo-American relations since 1945; the impact of the Vietnam War; the Cultural Cold War; intelligence co-operation; Anglo-American relations in the 1970s; Thatcher, Reagan and the Cold War in the 1980s; the Falklands War; the significance of personal relations at the top; retrospect and prospects for Anglo-American relations.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

The course will be taught by means of 20 seminars of two hours duration during the MT and LT. There will be one reading week in the MT and one in the LT. There will be a revision session in Summer Term.

Formative coursework: Three pieces of written work must be submitted by students taking this course. These consist of two essays of up to 3,000 words in length and one timed class essay.

Indicative reading: For an introduction to Anglo-American relations, students should consult the following texts: D Reynolds & D Dimbleby, An Ocean Apart: the Relationship between Britain and America in the Twentieth Century (1988); J Dumbrell, ‘A Special Relationship’: Anglo-American Relations from the Cold War to 9/11 (2006); C Bartlett, The Special Relationship: A Political History of Anglo-American Relations Since 1945 (1992); W R Louis & H Bull (Eds), The Special Relationship: Anglo-American Relations since 1945 (1984); D C Watt, Succeeding John Bull: America in Britain’s Place, 1900-75 (1984). A detailed reading list will be issued at the start of the course.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

HY432
From Cold Warriors to Peacemakers: the End of the Cold War Era, 1979-1999

This information is for the 2016/17 session.

Teacher responsible: Dr Robert Brier

Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course will examine the rise, survival and collapse of the Soviet Communist ideology and Communist regimes based in Russia and Eastern Europe during the period 1917-1990. The course will also deal with the struggle for Communist influence in Western Europe during the same period. The course will start with the study of the Russian revolution and the civil war to the establishment of the Stalinist regime in the Soviet Union. This will be followed by the study of the history of Soviet involvement in the Second World War and the extension of Soviet influence into Eastern Europe after the Second World War. An examination of the installation of Soviet style regimes in that region will be followed by the analysis of Soviet post-war objectives and Soviet objectives towards Germany. The death of Stalin and the Soviet responses to the Polish and Hungarian events in 1956 is linked to the study of Khrushchev and the Brezhnev eras. Additionally the course analyses the extension of Communist influence into Western Europe through the Comintern and the Cominform. The course concludes with a consideration of détente, the Gorbachev period, and the collapse by the end of 1990 of the Soviet Union and other Communist regimes in Europe.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in Michaelmas and Lent terms, and a revision session in Summer Term.

Formative coursework: Students will be required to write two essays in MT and one essay and a book review during LT. A timed one hour essay is scheduled for the ST.

Indicative reading: A full bibliography will be provided at the beginning of the academic year. For an introduction, the following may be of assistance: F Claudin, The Communist Movement from Comintern to Cominform; R C Tucker (Ed), Stalinism: Essays in Historical Interpretation; C Kennedy-Pipe, Russia and the World, 1917-1990; P Kennoz, A History of the Soviet Union from the Beginning to the End; C Read, The Making and Breaking of the Soviet System; V Mastny, Russia’s Road to the Cold War. Diplomacy,

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

HY435  Not available in 2016/17
Political Islam: From Ibn Taymiyya to ISIS
This information is for the 2016/17 session.
Teacher responsible: Dr Kirsten Schulze M14 Sardinia House
Availability: This course is available on the MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia), MSc in Religion in the Contemporary World and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course has six objectives: i. To examine the evolution of political Islam as a set of ideas. ii. To compare and contrast different models of Islamic State. iii. To explore the strategies used by Islamist movements to Islamise a state as well as state strategies to prevent this. iv. To explore the phenomena of transnational Islamism and international jihadism. v. To analyse and evaluate the relationship between Islam and the West. vi. To familiarise the student with some of the primary sources (in translation) and the historiographical controversies. This course looks at the evolution of Islamist philosophy and movements, focusing on ideas as well as intellectual, religious and political leaders. The key areas covered are: Islamist thinkers - Ibn Taymiyya, Wahab, Afghani, Abdu, Rida, al-Banna, Qutb, Maududi, Khomeini, Turabi, Faraj, Azzam and Zawaheri; Models of Islamic State - Iran, Pakistan, Afghanistan, Malaysia and Sudan; Islamist Movements – the Muslim Brotherhood, Islamic Jihad, Hizbullah, Hamas, the Islamic Salvation Front, Darul Islam, and the Moro Islamic Liberation Front; transnational Islam and international jihadism - the Afghan jihad, Jama'at Islamiyya, al-Qaeda, and the Syrian jihad.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Formative coursework: None

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

HY439  War Cultures, 1890-1945
This information is for the 2016/17 session.
Teacher responsible: Dr Heather Jones SAR 3.12
Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: No pre-requisites required

Course content: The course will cover the history of warfare from the colonial wars of the 1890s through to the end of the Second World War. It will examine how the high point of European liberalism in the political sphere in the late nineteenth century, which ushered in the age of mass politics, the nation state and the advancement of international law, paradoxically was accompanied by changing attitudes to more extreme combatant violence in wartime and increasingly all-encompassing conflicts and wartime practices, leading ultimately to ‘total’ war in 1939-45. The first half of the twentieth century witnessed extreme wartime violence on a scale hitherto unseen in world history, in the two world wars in particular which this course will cover in detail, but also in a host of other conflicts such as civil wars or independence struggles. How and why this period was marked by such a particular development of war cultures remains a crucial question and one that has international relevance: this was a global, not merely a European, phenomenon. This course will examine how states and societies mobilized for war by juxtaposing different conflict situations and examining how they interlinked during this period. It will focus in particular on the role and practices of combatants in armed conflict, looking at continuities and breaks in patterns of combat violence.

HY436  Race, Violence and Colonial Rule in Africa
This information is for the 2016/17 session.
Teacher responsible: Dr Joanna Lewis SAR3.03
Availability: This course is available on the MSc in Conflict Studies, MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International Migration and Public Policy, MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course examines the nature of colonial rule in Africa and its impact. It is focused upon the violence inherent in this encounter, its different forms and origins. It is essentially a political history but includes cultural, social and economic aspects. The primary focus is on the British empire in Africa. Topics covered include Victorian racism; the ‘Scramble for Africa; white settler culture; the origins of apartheid South Africa; the development of the colonial state; indirect rule; the rise of nationalism in West Africa; the Mau Mau uprising in Kenya; the Congo crisis and the assassination of Lumumba; the rise and fall of ‘white’ Rhodesia; the wars of liberation in Mozambique; the end of the apartheid state; the genocide in Rwanda; the civil war in Sierra Leone; Mugabe and Zimbabwe; and Somalian warlordism.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in the Michaelmas and Lent terms and a revision session in the Summer Term.

Formative coursework: Each student is required to write two essays (3,000 words each) and one mock exam.

Assessment: Exam (80%, duration: 3 hours) in the main exam period.
In class assessment (20%).
Among the topics it will cover are: The 1899-1902 South African War, the Herero and Nama Genocides, the Balkan Wars 1912-13, the First World War, The Irish War of Independence and Civil War, The Greco-Turkish War 1919-23, International law relating to war 1890-1945, the Polish-Soviet War, the Russian Civil War, the Italian invasion of Abyssinia, the Spanish Civil War, the Sino-Japanese War, the Second World War and the development of forced labour during wartime, with particular discussion of both the Holocaust and the Soviet Gulag system.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in the Michaelmas and the Lent terms and a revision session in the Summer Term.

**Formative coursework:** Two essays of 3,000 words in length and a mock exam.

Assessment: Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 3000 words).

**HY440** Not available in 2016/17

**The Emergence of Modern Iran: State, Society and Diplomacy**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Roham Alvandi E310

**Availability:** This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available as an outside option to students on other programmes where regulations permit.

Please note that students taking this course cannot take GV4E7 Islamic Republic of Iran: Society, Politics, the Greater Middle East (H).

**Course content:** This course examines the emergence of modern Iran against the backdrop of Iran's political, social and diplomatic history in the nineteenth and twentieth centuries. It covers three inter-related topics: the history of the modern Iranian state; the interaction between state and society in modern Iran; and Iran's diplomatic history. The course is divided into three sections. The first section examines the emergence of modern Iran from the remnants of the Persian Empire under the Qajars, with a particular focus on reform, revolution and Iran's encounter with European imperialism. The second section deals with the Pahlavi era and the attempts by both Pahlavi monarchs to strengthen the Iranian state while confronting social resistance at home and asserting Iran's power abroad. The third section deals with the origins of the Iranian revolution of 1978/79 and the transformation of the Iranian state under the Islamic Republic. Here we consider how war and peace shaped the domestic politics and foreign policy of revolutionary Iran, with a particular focus on US-Iran relations and the rise and fall of the reform movement.

**Teaching:** 20 hours of seminars in the MT. 22 hours of seminars in the LT.

**Formative coursework:** Students are required to submit one 3,000 word essay in the Michaelmas Term. There will also be a mock exam (a one-hour timed exam) in the first of the two revision classes in the Summer Term

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 3000 words) in the LT.

---

**HY441** Not available in 2016/17

**Islam, State and Rebellion in the Indonesian Archipelago**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Kirsten Schulze M14 Sardinia House

**Availability:** This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course looks at the Indonesian archipelago from the early modern/colonial period to the present day. It will focus on the dynamics of state and rebellion and centre and periphery relations as well as the dynamics of ‘empire’ looking both at external and internal imperialism/colonisation. The seminars will cover: the European scramble for the Spice Islands and indigenous rebellions; the establishment of the colonial state by the Dutch and local resistance in Maluku, Java and Aceh; anti-colonialism, Islam and the development of Indonesian nationalism; the Japanese occupation during the Second World War and Indo-Japanese cooperation against the Dutch; the Indonesian war of independence and the establishment of the Republic under Sukarno; regional rebellions against Sukarno's state: the Darul Islam uprisings, the Republic of South Maluku uprising and the PPR/Perмесa rebellions; the PKI 'attempted takeover' and the rise to power of Suharto; Suharto's New Order state and expansion into Dutch New Guinea and Portuguese Timor; regional rebellions in East Timor, Aceh, and Irian Jaya; the fall of Suharto and the reformasi governments under BJ Habibie, Abdurrahman Wahid, Megawati Sukarnoputri and Susilo Bambang Yudhoyono and inter-communal, separatist, and Islamist challenges to the state.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT.

**Formative coursework:** There is no formative coursework.

**Assessment:** Essay (10%, 3000 words) in the MT. Essay (25%, 3000 words) in the LT.
Essay (30%, 3000 words) in the ST. Presentation (15%) in the MT and LT. In class assessment (20%) in the MT and LT.

HY444
The Cold War in Latin America

This information is for the 2016/17 session.
Teacher responsible: Dr Tanya Harmer SAR M.11
Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This seminar is designed to introduce students to new historical approaches to the Cold War in Latin America. It responds to new research and debates that have arisen in recent years regarding the meaning of the Cold War in a Latin American context. Students will examine the conflict's origins, who its protagonists were, the extent to which the superpowers were involved in it and its significance at a local, regional, and global level. The course places particular emphasis on the role of ideas and ideological struggles; the intersection between these ideas and the challenges of modernity and economic development; the causes of revolutionary and counter-revolutionary upheaval; the manifestations of violence and its effects; and the cultural Cold War. Students will be especially encouraged to explore the intra-regional and transnational dynamics of the Cold War in Latin America. They will study how events in one part of Latin America (for example, the overthrow of Jacobo Arbenz in Guatemala, the Cuban Revolution, the Brazilian and Chilean coups or the Central American crises in the 1980s) impacted upon other areas of region. The seminar will also devote three weeks to looking at Latin America's experience of the Cold War from a global comparative perspective, particularly in contrast to other parts of the Third World. Although the seminar will mostly involve intensive reading and discussion of secondary sources, students will also be encouraged to reflect on new online archival material, published writings of principal thinkers and oral histories as a means of understanding key concepts and ideas.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. There will be a reading week in the Michaelmas and Lent terms.
Formative coursework: Students are required to write one 3,000 word formative essay in the Michaelmas Term and one formative discussion post at the beginning of the year.
Assessment: Essay (50%, 6000 words) in the ST. Other (35%) and class participation (15%).

HY448
Living with the Bomb: An International History of Nuclear Weapons and the Arms Race from the Second World War to the end of the Cold War

This information is for the 2016/17 session.
Teacher responsible: Prof Matthew Jones SAR 3.09
Availability: This course is available on the MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course takes a prime focus the nuclear policies pursued by some of the major powers in the international system from the initial use of nuclear weapons against Japan in 1945 until the collapse of the Soviet Union in 1991. It introduces and explores three main themes: how the advent of nuclear weapons came to influence national strategies and crisis behaviour; why the development of nuclear weapons and their delivery systems fuelled an arms race that became one of the defining features of the Cold War; and how major powers have attempted to curb the testing of such weapons, the numbers contained in their arsenals, and their spread, through measures of arms control and non-proliferation. After examining the controversy over the atomic bombing of Japan in 1945, including the moral and ethical questions raised by nuclear use, the course includes consideration of some of the most important events and debates in post-war nuclear history – the course is not designed or intended to be a potted history of the Cold War, but rather looks at the influence and role of nuclear weapons (and the strategic thinking that accompanied their development). The movement to ban the testing of nuclear weapons is also covered, and attention given to the Chinese, British and French national nuclear programmes, as well as those of the Soviet Union and United States. The last portion of the course offers close analysis of the international negotiations over arms control and non-proliferation that have featured since the late 1960s. Throughout the course students will engage with contemporary writings and study primary source documents which will accompany each topic.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of help sessions in the ST.
Students will be expected to read essential primary and secondary material for each weekly class, to deliver presentations, and to participate in seminar discussions. Reading week will take place in week 6 of MT and LT.
Formative coursework: Students will be expected to produce 1 essay in the MT. Students will be required to produce a 2,000 word formative essay during week 6 of the Michaelmas Term.

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period.

Essay (25%, 3000 words) in the LT.

Essay (25%, 3000 words) in the ST.

Assessment will be through two methods:

An unseen two hour examination paper, where students will have to write two essays drawn from a list of questions covered in the weekly classes (50%).

Two summative essays, each maximum 3,000 words, and taken from a set list of questions (25% for each essay).

**HY458**

**LSE-Columbia University Double Degree Dissertation**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Vladislav Zubok SAR 3.13

**Availability:** This course is compulsory on the MSc in International and World History (LSE & Columbia). This course is not available as an outside option.

**Pre-requisites:** During their first year at Columbia University, students will identify a topic for the dissertation and will submit a detailed dissertation proposal form to their LSE supervisor. They will also have undertaken substantial research over the course of the summer, have written a Dissertation Research Report before arriving at LSE and be in a position to talk in a detailed manner with regards to their dissertation. These and the completion of other formal requirements for year one of the Double Degree will be needed before students can proceed to the second year of the programme at LSE.

**Course content:** The individual dissertation will be supervised and assessed at LSE in accordance with the Department’s MSc regulations. It will be in the form of a thesis of no more than 15,000 words. The dissertation workshop will complement this by offering three sessions on methodological topics, and 7 sessions in which the students will each present updates on their research over the summer (MT) and a 3,000 word extract from their dissertations for group discussion, evaluation and analysis (LT).

**Teaching:** 10 hours of seminars in the MT. 10 hours of seminars in the LT.

**Formative coursework:** Students will be requested to submit a Dissertation Research Report at the beginning of the academic year and a dissertation chapter outline in week 8 of the MT.

**Indicative reading:** A reading list will be provided at the start of the course but will include the clash between the Westphalian and Sinocentric international orders; the opium wars; the fall of the Tokugawa shogunate; the Ottoman Empire; the colonial era; the rise of the United States; the interwar period; the origins of the Cold War; and the post-Cold War world. Students will identify a topic for the dissertation and will submit a detailed dissertation proposal form to their LSE supervisor. They will also have undertaken substantial research over the course of the summer, have written a Dissertation Research Report before arriving at LSE. There will be a reading week in the Michaelmas and the Lent terms, and a revision session in the summer term.

**Assessment:** Exam (50%, duration: 2 hours) in the summer, have written a Dissertation Research Report before arriving at LSE.

**Essay (40%, 3000 words) in the LT.**

In class assessment (10%) in the MT and LT. Assessment will be based on two essays, each maximum 3,000 words, and taken from a set list of questions (25% for each essay).

**HY461**

**East Asia in the Age of Imperialism, 1839-1945**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Antony Best SAR 3.14

**Availability:** This course is available on the MSc in International Relations, MSc in International Affairs (LSE & Peking University), MSc in International and World History (LSE & Columbia), and MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** There are no formal pre-requisites for this course, but some knowledge of the international history of East Asia would be useful.

**Course content:** The course looks at the origins and causes of the political, economic and cultural consequences of the arrival of Western imperialism in East Asia. Subjects covered by the course include the clash between the Westphalian and Sinocentric international orders; the opium wars; the fall of the Tokugawa shogunate; the origins of the Cold War; and the post-Cold War world.
shogunate; the Japanese, Korean and Chinese responses to the arrival of the West; the history of Western imperialism in China and the rise of Chinese nationalism; the rise of Japanese imperialism; the Russo-Japanese War and its consequences; pan-Asianism, race and immigration; the Chinese revolution of 1911-12; the rise of intra-Asian trade; the effect of Wilsonian and communist internationalism; Japan's move towards aggressive expansion in the 1930s; the outbreak of the Pacific War.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6 of MT and LT.

One revision lecture in the Summer Term.

Formative coursework: Students will be required to write three essays over the academic year. The second essay will be assessed and the third essay will be a mock examination.

Assessment: Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 3000 words).

A three-hour unseen examination in ST (75%) and the second essay during the academic year (3000 words) will be assessed and make up the remaining 25%.

HY463
The Origins of the Cold War, 1917-1962

This information is for the 2016/17 session.

Teacher responsible: Prof Vladislav Zubok SAR 3.13

Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course examines the origins of the Cold War and the dynamics of its rise during the period from World War II to the Cuban Missile Crisis in 1962. It looks at long-term trends as well as specific events in order to elucidate how the Cold War originated and evolved. It deals with the Cold War as international history, covering the period from a wide variety of geographical and national angles: while some meetings necessarily centre on the region, the following provide a useful introduction to the themes, events and historiography: Shigeru Akita (ed.), Gentlemanly Capitalism, Imperialism and Global History (Basingstoke, 2002); Warren Cohen, (ed), Pacific Passage: The Study of American-East Asian Relations on the Eve of the Twenty-First Century (New York, 1996); Merle Goldman & Andrew Gordon, (ed.), Historical Perspectives on Contemporary East Asia (Cambridge, Mass. 2000); Akira Iriye, Japan and the Wider World: From the Mid-Nineteenth Century to the Present (London, 1997); Jonathan Spence, The Search for Modern China (1999); Chushichi Tsuchi, The Pursuit of Power in Modern Japan 1825-1995 (Oxford, 2000).

Assessment: Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 3000 words).

HY465
The International History of the Balkans since 1939: State Projects, Wars, and Social Conflict

This information is for the 2016/17 session.

Teacher responsible: Dr Svetozar Rajak T1, 9.01c

Availability: This course is available on the MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course examines the history of the Balkans in the second half of the Twentieth century and on the threshold of the Twenty First century. It is not, however, designed to provide a simple historical overview of the region during this period. The course aims to integrate broader themes and interpretations of the Cold War and its legacy, and of deeper civilizational undercurrents of the second half of the Twentieth Century, with the study of the region and its only federation, Yugoslavia. To do so, it will invoke three main themes that will also facilitate insight into the interaction between the global, regional, and country specific. Firstly, the course will explore the regional and inter-bloc dynamics within the structured Cold War system by looking at the impact the Cold War had on the region and, in turn, at the influence the Balkans, in particular the Greek Civil War and Yugoslavia's conflict with the USSR exercised on the institutionalization and the dynamics...
of the Cold War during its nascent decade. Secondly, the course will look into the unique role Yugoslavia played in the creation of the alternatives and challenges to the bipolar structure and rigidity of the Cold War world, namely the Non-aligned Movement, and the ideological heresy, the so called “Yugoslav road to Socialism” that created a schism within one of the ideological poles of the Cold War, the Soviet Communism. Thirdly, the course will offer insight into the dramatic impact the end of the Cold War on the developments in the region, in particular on the collapse of the Yugoslav federation; at the same time, it will assess the role that the disintegration of Yugoslavia and the subsequent wars of secession had on the creation of the concepts that became the building blocks of the post-Cold War international system, namely nation-building, humanitarian intervention, international community, conflict-resolution, limited sovereignty, decreasing role of the UN, American hegemony, etc.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. Hours of seminars in the ST.

Formative coursework: Students are required to write one 3,000 word essay in the Michaelmas term. There will also be a mock exam (a one-hour essay) in the end of the Lent term.

Assessment: Exam (50%, duration: 2 hours) in the main exam period. Essay (25%, 3000 words) in the LT. Class participation (15%) and presentation (10%) in the MT and LT.

HY471
European Empires and Global Conflict, 1935-1948

This information is for the 2016/17 session.

Teacher responsible: Dr David Motadel SAR 3.16

Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course examines the history of the European empires in the Second World War. It covers the history of the war fought in the imperial world and its impact on the lives of millions of colonial civilians; the political, military, and social history of colonial soldiers who fought in Europe's multi-ethnic and multi-religious armies; the history of anti-colonial movements during the war, from Ho Chi Minh's Viet Minh to Gandhi's Quit India movement; and the history of the war's impact on decolonisation and the twentieth century world order. Overall, the course explores the non-European experience of the Second World War, examining the ways in which the conflict shaped societies and political orders in Africa, Asia, and beyond. Drawing on key secondary texts, primary sources, and visual material, the course provides a broad introduction to the most destructive and cataclysmic conflict in modern global history.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. There will be reading weeks in MT and LT.

Formative coursework: Students will be expected to produce one essay (2,500 to 3,000 words) in MT; one presentation in MT; and one presentation in LT. Students will also be required to prepare short summaries of the readings (bullet points) for the weekly meetings.

Lent Term, with a reading week in week 6 of both terms.

Ten weekly two-hour seminar meetings in Michaelmas Term and the LT.

Teaching:

Assessment:

Essay (50%, 5000 words) in the LT. Essay (50%, 5000 words) in the ST. Assessment will be via two 5,000 word essays. The first essay will be submitted in week 1 of LT; the second in week 1 of ST. Essay titles will be drawn from an approved list supplied at the start of the course.

HY472
China and the External World, 1711-1839

This information is for the 2016/17 session.
Teacher responsible: Dr Ronald Po
Availability: This course is available on the MSc in China in Comparative Perspective, MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be capped at one group. Places are limited and priority will be given to International History students over those of other departments.

Course content: This course provides an overview of the history of Qing China from the early eighteenth to the mid-nineteenth centuries, tracing political, institutional, cultural, and social continuities and changes, particularly in China’s land and maritime frontiers. Beginning in the Qianlong period, the Qing Empire became involved in an ever-growing network of commerce and cultural exchange, extending from Manchuria to Inner Asia, and from the East Sea to the Indian Ocean. Following the bloody suppression of the Hsasa riots in 1750, a series of events further connected China to the external world: the infamous Dzungar genocide, China’s invasion of Burma, European encroachment in Asian seas, the rise of port cities in Southeast Asia that were dominated by Chinese entrepreneurs, and increasing tension between China and Western powers over sea lanes and maritime boundaries. This course will use China’s shifting frontiers as a fulcrum to re-examine Chinese history in the modern era, factoring in the movement of people, commodities, ideas, cultural meanings, and imaginaries, which clearly indicate “China’s outwards.” This challenges the common perception of China as isolated and inward-looking.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Ten weekly two-hour seminar meetings in Michaelmas Term and Lent Term, with a reading week in week 6 of both terms.

HY498
Dissertation: LSE-PKU Double Degree MSc in International Affairs; MSc Theory and History of International Relations

This information is for the 2016/17 session.
Teacher responsible: Dr Svetozar Rajak SAR 3.15
Availability: This course is compulsory on the MSc in International Affairs (LSE and Peking University) and MSc in Theory and History of International Relations. This course is not available as an outside option.

Course content: The dissertation is an exercise in using primary source material to write on a precise topic in the history of international affairs. Although candidates may engage with relevant theories and concepts, the dissertation should be largely devoted to utilising such theories and concepts in the analysis of one or more specific historical events and should be based largely upon primary sources. Candidates should aim to include an element of originality in the conceptualisation of the thesis or the treatment of evidence. The subject must fall within the syllabus of the degree and must be supervised by a member of staff in the Department of International History.

Teaching: 4 one-hour sessions in MT.

Hy498 teaching is provided through HY498 Dissertation workshop sessions and through the individual supervision of dissertation projects by supervisors in the Department of International History. Students should use the Michaelmas Term to find, decide on and develop a suitable dissertation topic and consider possible dissertation supervisors. Help with this process is available from the students’ personal advisers. Students are then required to complete
the HY498 Dissertation Proposal Form and to seek approval for their project from their dissertation supervisor. It is the students’ responsibility to locate a supervisor. They should meet with the potential supervisor in late Michaelmas term (every member of staff has weekly office hours) to discuss their dissertation proposal, and then ask the supervisor to sign the HY498 Dissertation Proposal Form before the published deadline. It is the student’s responsibility to contact their supervisor to arrange at least one but no more than three meetings in the Summer Term to discuss their dissertation. At this stage the supervisor will be prepared to read and give feedback on a draft table of contents and a draft chapter, or a section or a detailed plan of the dissertation of no more than 1,000 words. Students should note that if they submit a dissertation proposal after the deadline the Teacher Responsible for the course may need to allocate them to a non-subject-specialist supervisor, if no specialists are available.

Assessment: Dissertation (100%, 10000 words) in September. The dissertation must not exceed 10,000 words (100% of course mark), including text and footnotes but excluding the cover page, the table of contents, the list of abbreviations, the bibliography and appendices. A Fail cannot be compensated, and a degree cannot be awarded unless HY498 has been passed. Two bound copies and one electronic copy must be submitted by the published deadline.

HY499
Dissertation

This information is for the 2016/17 session.
Teacher responsible: Dr Svetozar Rajak SAR 3.15
Availability: This course is compulsory on the MSc in Empires, Colonialism and Globalisation and MSc in History of International Relations. This course is not available as an outside option.
Course content: The HY499 dissertation is an exercise in using primary sources to write on a precise topic in International History. The only formal limit on the choice of subject is that it must fall within the syllabus - i.e. it has to be a topic in International History, and the dissertation has to be a study in the discipline of history. Dissertations that represent contributions to disciplines outside history, such as International Relations or Politics, will not be approved or accepted. Dissertations must therefore be based substantially on a critical analysis of primary sources, and candidates should aim to include an element of originality in the argument and/or the treatment of the evidence. The subject must involve an element of engagement with the analysis of relations between states and/or societies, and candidates should aim to include the study of the history of attitudes and/or policies in one society towards others or comparative studies involving at least two states and/or societies. The topic must not be confined purely to the domestic affairs of one society or state. The dissertation supervisor is the final judge of whether a particular topic falls within the syllabus.
Teaching: 4 one-hour sessions in MT.
HY499 teaching is provided through HY499 Dissertation workshop sessions and through the individual supervision of dissertation projects by supervisors in the Department of International History. Students should use the Michaelmas Term to find, decide on, and develop a suitable dissertation topic and consider possible dissertation supervisors. Help with this process is available from the students’ personal advisers. Students are then required to complete the HY499 Dissertation Proposal Form and to seek approval for their project from their dissertation supervisor. It is the students’ responsibility to locate a supervisor. They should meet with the potential supervisor in late Michaelmas term (every member of staff has weekly office hours) to discuss their dissertation proposal, and then ask the supervisor to sign the HY499 Dissertation Proposal Form before the published deadline. It is the students’ responsibility to contact their supervisor to arrange at least one but no more than three meetings in the Summer Term to discuss their dissertation. At this stage the supervisor will be prepared to read and give feedback on a draft table of contents and a draft chapter, or a section or a detailed plan of the dissertation of no more than 1,000 words.

Students should note that if they submit a dissertation proposal after the deadline the Teacher Responsible for the course may need to allocate them to a non-subject-specialist supervisor, if no specialists are available.

Assessment: Dissertation (100%, 10000 words) in September. 100% by dissertation. A Fail cannot be compensated, and a degree cannot be awarded unless HY499 has been passed. Dissertations must not exceed 10,000 words, including text and footnotes but excluding the cover page, the table of contents, the list of abbreviations, the bibliography and appendices. Two bound copies and one electronic copy must be submitted by the published deadline.

IR410
International Politics

This information is for the 2016/17 session.
Teacher responsible: Dr Peter Wilson CLM 5.10
Availability: This course is compulsory on the MSc in International Relations and MSc in International Relations (LSE and Sciences Po). This course is not available as an outside option.
Course content: This course has 5 objectives: (i) to enquire into the nature of international politics and the role of general theory in advancing our understanding of it; (ii) to introduce the main contributions to the general theory of international politics; (iii) to provide students with a range of concepts, ideas, and perspectives to enable them to widen and deepen their understanding of international politics; (iv) to encourage critical, independent, thought; (v) to ascertain the extent to which progress has been made in our understanding of international politics, and more tentatively to what degree international politics itself can be deemed intrinsically or latently progressive. The primary pedagogical device of the course is a close reading of 13 seminal IR texts. Students are encouraged to investigate the epistemological assumptions underlying these texts, the methods of analysis they employ, their importance in the canon of IR, and their value for thinking about international politics today.
Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 7 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students deliver seminar papers and write three 2,000-word essays for their seminar teachers on topics notified at the beginning of the session.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.
The paper contains about 12 questions, of which three are to be answered.
IR411

Foreign Policy Analysis III

This information is for the 2016/17 session.

Teacher responsible: Prof. Toby Dodge CLM 6.10

Availability: This course is available on the MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students taking the MSc in China in Comparative Perspective, MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in International Affairs (LSE and Peking University) may be able to take this course if there is space but on previous years experience this is unlikely. All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Pre-requisites: Students need not have studied Foreign Policy Analysis before, but some familiarity with theories of International Relations and modern international history is essential.

Course content: The ways in which states formulate decisions and strategies for dealing with other members of the international community.

Critical examination of theoretical perspectives on foreign policy, involving the analysis of the foreign policy behaviour of a broad range of states through selective use of case studies.

Development of the discipline of Foreign Policy Analysis; the interplay between domestic and external forces; the organisation, psychology and politics of decision-making; the impact of public opinion and state type upon foreign policy; the foreign policies of the major and middle powers as well as small/weak states; conventional and critical theories of foreign policy and analogies.

Seminars discuss and expand on these topics, covering also questions of choice, rationality and identity and the significance of history and culture in foreign policy, as well as methodological issues, as appropriate. Students are expected to combine an interest in theoretical and comparative aspects of the subject with a solid knowledge of the main foreign policy issues and events of the contemporary era and the twentieth and twenty-first centuries. A detailed programme of lectures will be provided at the start of the session.

Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalRelations/video/IR411-FPA-video.aspx

Teaching: 10 hours of lectures and 12 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Each seminar participant is required to give presentations on seminar topics and write two formative essays.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 4000 words) in the LT.

IR412

International Institutions

This information is for the 2016/17 session.

Teacher responsible: Dr Mathias Koenig-Archibugi CON 4.08

Availability: This course is available on the MSc in EU Politics, MSc in International Relations (LSE and Sciences Po), MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The first part of the course introduces the main theoretical approaches that provide alternative explanations for key questions about international institutions: their creation, institutional design, decision-making processes, their impact and their interactions with other international institutions. The second part analyses these key questions with regard to specific international institutions, including the United Nations, the European Union, the North Atlantic Treaty Organisation, the World Trade Organisation, the International Monetary Fund and the World Bank, as well as international institutions in the areas of human rights, environmental protection, and health policy.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 8 hours of lectures and 12 hours of seminars in the LT. 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Each seminar participant is required to give presentations on seminar topics and write two formative essays.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 4000 words) in the LT.

IR415

Strategic Aspects of International Relations

This information is for the 2016/17 session.

Teacher responsible: Prof Christopher Coker CLM 5.09

Availability: This course is available on the MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is not available as an outside option.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Pre-requisites: A working knowledge of international history since 1815 and of traditional theories of international politics is desirable.

Course content: This is not a conventional Strategic Studies course. It is about the cultural context of military conflict between states and within them. The place of war in international relations, and the social, political, and economic consequences of the use of force. The greater part of the course is concerned with force in international relations since 1945. The Western Way of War; Non Western Ways of Warfare; Technology and War. Clausewitz and the Western Way of Warfare; war and genocide; war in the developing world; terrorism and crime; NATO and its future; Globalisation and Security; the ‘end of war’ thesis.

Teaching: 10 hours of lectures and 12 hours of seminars in the MT.
6 hours of lectures and 12 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.
The majority of seminar topics will be on strategic aspects of postwar international relations and examination papers will reflect this. Students on this course will have a reading week in week 6 in line with departmental policy.

**Formative coursework:** Three 2,000-word essays will be set and marked by the seminar teacher.

**Indicative reading:** The following short list comprises some of the most important and some of the best currently available books. An asterisk indicates publication in paperback edition. R Aron, Peace and War; C M Clausewitz, On War (Ed by M Howard & P Paret); J L Gaddis, Strategies of Containment; M E Howard, War and the Liberal Conscience; F M Osanka, Modern Guerrilla Warfare; C Coker, War and the Twentieth Century; J Keegan, A History of Warfare; C Coker, War and the Illiberal Conscience.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**IR416**

**The EU in the World**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Karen Smith CLM.4.09

**Availability:** This course is compulsory on the MSc in EU Politics and MSc in EU Politics (LSE and Sciences Po). This course is available on the MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations, MSc in Theory and History of International Relations. This course is not available as an outside option.

All students, except those registered on the MSc in EU Politics, are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

**Pre-requisites:** Some basic knowledge of International Relations as an academic discipline is desirable, together with some acquaintance with the general evolution of world politics over the last one hundred years.

**Course content:** The development of the external activities of the European Communities since 1957, including the development of European Political Cooperation and the Common Foreign and Security Policy. The relationship between the member states and these external activities, in particular the impact of the evolution of EU institutions and policies on national foreign policies. The external relations of the European Community, including external trade and development policy. Relations between the EU and non-EU states and regions. Watch a short introductory video on this course: [www.lse.ac.uk/internationalrelations/video/IR416-EUW-video.aspx](http://www.lse.ac.uk/internationalrelations/video/IR416-EUW-video.aspx)

**Teaching:** 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 7 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour of lectures in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Three 2,000-word essays during the course, to be marked by seminar leaders. These do not count towards the final mark.

Reuben Wong and Christopher Hill (eds), National and European Foreign Policies, Towards Europeanization, Routledge, 2011.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**IR418**

**Not available in 2016/17**

**International Politics: Asia & the Pacific**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Christopher Hughes ALD 1.15

**Availability:** This course is available on the MSc in China in Comparative Perspective, MSc in Development Studies, MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** The international political experience of major powers and post-colonial states in a region beset by recurrent conflict and external intervention during the Cold War and subject to a novel multilateralism in its wake. The inter-linkages between the global, regional and local; the interests and role of the US; foreign and security policies of the major regional powers in relation to East Asia-Pacific; the impact of the legacy of colonialism and external intervention; the sources of bilateral and intra-regional conflict; the problem of regional order with reference to East and South-East Asia; the emergence and development of regional institutions.

**Teaching:** 10 hours of lectures and 14 hours of seminars in the MT. 8 hours of lectures and 10 hours of seminars in the LT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to write three 2,000-word essays by dates stipulated by the teachers responsible.

**Indicative reading:** (A full reading guide will be made available to interested students).

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.
IR419
International Relations of the Middle East

This information is for the 2016/17 session.

Teacher responsible: Dr Renad Mansour

Availability: This course is available on the MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is intended primarily for students on programmes run by the Department of International Relations (IR). Students on the MSc in Comparative Politics and MSc in Global Politics may take the course, but this is subject to students demonstrating that they have a grasp of International Relations theory, or have made efforts to cover this ground before starting the course.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You.

Admission is not guaranteed; students external to the IR department must clearly outline the extent to which they are familiar with IR theory/efforts they will make to familiarise themselves with this area before the course begins.

Pre-requisites: A knowledge of the international political system, of the major issues in its contemporary development, and at least a basic understanding of core International Relations theory, is required. Background in IR and/or political science and/or history is a prerequisite.

Course content: The course is intended to provide an analysis of the regional politics of the Middle East since 1918, and of their interaction with problems of international security, global resources and great power/super power/hyperpower politics.

Topics covered include: the emergence of the states system in the Middle East during the inter-war period; The interplay of domestic politics, regional conflicts and international rivalries; The Cold War and post-Cold War significance of the Middle East in global politics; The importance of oil and other economic factors and interests; Conflict in the Gulf and the Arab-Israeli conflict; The foreign policies of major Middle Eastern states and the Lebanese civil war; The role of ideologies and social movements: Arab nationalism, militarism, political Islam and global jihadism; State and non-state actors; Democracy and human rights issues, and the Arab uprisings; International relations theory and its significance for the study of Middle East politics.

Teaching: 10 hours of lectures and 12 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Seminar attendees will be expected to submit three 2,500-word essays, based on past examination papers, to be marked by their seminar teacher, and to give presentations in seminar.

Indicative reading: Students are strongly advised to read before the first meeting of the seminar. Two 2,000-word essays are set and marked by the seminar teacher.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

There is one three-hour examination in the ST.

IR431 Half Unit Not available in 2016/17
European Union Policy Making in a Global-Context

This information is for the 2016/17 session.

Teacher responsible: Dr Nicola Chelotti CLM 5.06 (MT), CLM 5.08 (LT and ST) and Dr Ulrich Sedelmeier CLM 5.06

Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory, MSc in Social Policy (European and Comparative Social Policy) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE4You. Admission is not guaranteed.

Course content: The course places the development of EU policy-making in its international context. It examines the impact of the external environment on the evolution of common policies and the external impact of EU policies. Topics covered include: the single market; social policy; finance and Economic and Monetary Union; trade policy; foreign and security policy; environmental policy; police cooperation and counter-terrorism; immigration and asylum policy; enlargement and neighbourhood policy.

Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalrelations/videoIR431-EUPH-video.aspx

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

Formative coursework: Seminar presentations are allocated at the first meeting of the seminar. Two 2,000-word essays are set and marked by the seminar teacher.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

IR433 Half Unit
The International Politics of EU Enlargement

This information is for the 2016/17 session.

Teacher responsible: Prof Karen Smith CLM.4.09

Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research) and MSc in International Relations Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE4You. Admission is not guaranteed.
Course content: This course examines EU enlargement from the point of view of International Relations. The principal aim is to understand the interplay between enlargement, EU (foreign) policy and wider geopolitics. With this in mind enlargement is considered both as an act of European foreign policy and as a phenomenon impacting on the (foreign) policies of other states and actors. The course begins with a discussion of the theoretical issues of the international dimension of EU enlargement, including: size; diversity; pace of change; reach; external reactions; and the widening of the deepening dilemma within the EU. It moves on to a broadly chronological discussion of the various phases of enlargement from 1973 to the present, examining the inputs from key Member States as well as from the EU institutions, and analysing the extent to which strategic policy-making characterised each round. In the last part of the course the attention switches to more thematic concerns: the role of the self-excluded states (Norway, Switzerland, Iceland); security, NATO and the post-Cold War European order; the geopolitical issue of Europe's final border; and the view from outsiders, such as the United States, Russia, Turkey and Morocco.

Watch a short introductory video on this course: www.lse.ac.uk/internationalRelations/video/IR433-EUE-video.aspx

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Two 2,000-word essays.

Assessment: Exam (100%), duration: 2 hours in the main exam period.

IR434  Half Unit
European Defence and Security

This information is for the 2016/17 session.

Teacher responsible: Dr Spyridon Economides COW 2.07

Availability: This course is available on the MSc in EU Politics, MSc in EU Studies: Ideas, Ideologies and Identities, MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research) and MSc in International Relations Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE4You. Admission is not guaranteed.

Course content: This course examines the role of defence and security issues in European integration. It traces the evolution and nature of decision-making with respect to European defence initiatives, and examines the structures and institutions of EU defence and security. It also seeks to understand the relationship between foreign policy and security/defence policy in the EU especially in the context of transatlantic relations, and NATO, and the EU's wider international role. The course is divided into two parts. Part one provides a theoretical overview of the role of defence and security issues in European integration. It addresses

the question of defence and European identity, the relationship between European defence and the national objectives of Member-States, the link between collective defence and collective security as well as the role of defence in the EU's evolution as a civilian, normative and global actor in international relations.

It also looks at the historical evolution of the plans, structures and institutions of European defence and security. It places this evolution in the context of the early post-Second World War era, the Cold War and German rearmament and the issues of extended deterrence, burden-sharing within NATO and the emergence of a European pillar to Western defence. Part two examines the more contemporary developments in European defence and security and concentrates on the relationship with European Political Cooperation/Common Foreign and Security Policy, moves to institutionalise defence and provisions for crisis management and conflict prevention. Included in the second part are examinations of the EU's 'comprehensive approach', and recent CSDP missions and the implications of this on the EU's role in the world.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Two 2,000-word essays.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

IR436  Theories of International Relations

This information is for the 2016/17 session.

Teacher responsible: Dr Katharine Millar - CLM 4.10

Availability: This course is compulsory on the MSc in International Relations (Research) and MSc in International Relations Theory. This course is not available as an outside option.

It may not be combined with IR410 International Politics.

Course content: This course examines the ways that different theories conceive, analyse and explain the character of international relations. The purpose of the course is to provide a thorough interrogation of these theories, exploring debates both within and between them. Theoretical approaches to be considered include: classical and neo-realism; liberal institutionalism and neo-liberalism; Marxism; constructivism; English School theory; critical theory; post-structuralism; and feminism. The course also interrogates issues relating to the philosophy of science and philosophy of history. Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalrelations/video/IR436-IRT-video.aspx

Teaching: 10 hours of lectures and 20 hours of seminars in the MT. 10 hours of lectures and 20 hours of seminars in the LT. 1 hour of lectures and 2 hours of seminars in the ST. In line with IR departmental policy, students on this course will have a reading week in Week 6 of both MT and LT.

Formative coursework: Students are required to submit formative coursework and to deliver at least one formal seminar presentation. All students are expected to prepare for and participate in seminar discussions.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Essay (50%, 4000 words) in the ST.

IR439 Half Unit Not available in 2016/17

Diplomacy

This information is for the 2016/17 session.
Teacher responsible: Prof Iver Neumann CLM 6.06
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations Theory and MIM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The aims of the course are to provide intellectual challenge to academically able students by engaging with difficult and demanding material concerning diplomacy; to provide a basis for the further study of diplomacy, or to provide to students from other academic disciplines with sufficient knowledge of International Relations to enable them to conceptualise the study of diplomacy from the point of view of their own disciplines; to provide a historical and sociological background for eventual careers in diplomatic services or international organisations; and to provide a framework to assist concerned citizens to think about issues which will be of increasing importance in the 21st century. The objectives of the course are to promote a critical engagement with a wide range of literature, and to display this engagement via the development of a succinct writing style and the ability to present complex arguments orally.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Two 2,000-word essays, one of which will form the basis of a presentation, and one simulated speech-writing session.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

IR445 Half Unit Political Economy of International Labour Migration

This information is for the 2016/17 session.
Teacher responsible: Prof Christopher Hughes ALD 1.15
Availability: This course is available on the MSc in International Relations, MSc in International Relations (LSE and Sciences Po) and MSc in International Relations (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Course content: This course will provide students with an historical overview of the development of Chinese foreign and security policy, the theoretical concepts used for analysing the making of Chinese foreign policy, and an up-to-date survey of China's evolving relations around the world. The first five weeks will be dedicated to providing a long historical perspective, and use a number of case studies to show how basic factors used in foreign policy analysis shape policy outcomes, including economic factors, the role of perception, geopolitical influences, bureaucratic politics, nationalism, and socialisation into the international system. The remainder of the course will involve analysing case studies on China's relations with the United States, Japan and Korea, Southeast Asia, South Asia, Russia and Central Asia, Australasia and the Pacific Islands, the EU, Africa, Latin America, the Middle East. Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalrelations/video/IR445-CSFP-video.aspx

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 10 hours of the seminars in the LT will be with guest speakers. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will complete three 2,000 word essays during the course and will make two presentations to the seminar. It is permissible for the presentations to be on the same topics as the essays.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

IR447 Half Unit Political Economy of International Labour Migration

This information is for the 2016/17 session.
Teacher responsible: Dr Covadonga Meseguer, 95 ALD 1.13
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Development Studies, MSc in International Affairs (LSE and Peking University), MSc in International Migration and Public Policy, MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in International Relations, MSc in International Relations (Research), MSc in
International Relations Theory and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

9 July 14 (AMF) Paper Nos updated to reflect changes to MSc in International Relations and MSc in International Political Economy programmes and their variants.

Pre-requisites: No pre-requisites.

Course content: The mobility of workers is one of the pillars of globalization. However and surprisingly, international political economists have paid less attention to the political causes and consequences of international migration in comparison to that paid to other aspects of globalization such as trade or finance. In this course, we shall employ a political economy perspective to study the historical evolution of migration policy, the relationship between trade and migration, and the political causes and consequences of migration flows. I shall place special emphasis on the study of the political consequences of migration for sending (rather than receiving) countries. We shall also pay attention to an important capital flow associated to international migration: remittances. Rather than focusing on the economic/developmental consequences of remittances, we shall discuss how remittances impact political outcomes as diverse as democratization, the survival of dictatorships, political clientelism, corruption, political participation, and political accountability.

Course Outline
Week 1. Overview and Introduction.
Week 5. The Making of Migration Policy (I): Interests and Institutions.
Week 6. Reading Week.
Week 8. International Migration and International Cooperation.
Week 9. Economic Consequences of International Migration for Sending Countries: Remittances.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are expected to make one class presentation.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

The paper contains 8 questions, of which two are to be answered.

IR449  Half Unit
Conflict and Peacebuilding

This information is for the 2016/17 session.

Teacher responsible: Dr David Rampton

Availability: This course is available on the MSc in Conflict Studies, MSc in Global Politics, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research) and MSc in International Relations Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Pre-requisites: A basic background knowledge of the subject would be an advantage.

Course content: This course is intended for those interested in theoretical and practical approaches to the question of peace, the problems of conflict and violence, and responses to them particularly in the form of liberal peacebuilding and statebuilding. The course is divided into three unequal but interconnected parts. The first part examines ideas and debates about the causes, contexts, dynamics and characterisations of conflict. The second explores and problematises the nature and meanings of peace and peacebuilding. This leads into the third section which is concerned with a critical engagement with the range of international responses to conflict associated with the discourses and practices of liberal peacebuilding and statebuilding. The seminars explore the nexus between theory and practice. Although the course and its readings are mainly theoretical and conceptual rather than empirical, students are encouraged to apply the ideas to actual cases, past and present.

IR448  Half Unit
American Grand Strategy

This information is for the 2016/17 session.

Teacher responsible: Prof Peter Trubowitz CLM 4.05

Availability: This course is available on the MSc in International Relations, MSc in International Relations (Research) and MSc in International Relations Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course will explore American foreign policy at the broadest level of analysis - the level known as grand strategy. The course will showcase the main theoretical perspectives that inform the study of US grand strategy and apply them to historical and contemporary cases of American statecraft. In this connection, we will assess the relevance of the US experience for theorizing about power politics and the implications of alternative theories for thinking critically about American behavior. Students will gain an appreciation of the debates and controversies that animate the study of US foreign policy, as well as of the unique challenges posed by making foreign policy in the American political, economic, and cultural context.

Teaching: 10 hours of lectures and 20 hours of seminars in the LT. Students in this class will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will write one short (1,500) words formative essay based on questions from previous exam papers. The essay will be due in Week 7 of the LT. Students will be able to use the essay to explore ideas that they might wish to develop in their assessed essay. Students will provide a 1-2 page outline of their assessed essay by the end of Week 9 LT. This will be returned with comments and feedback by the end of the LT.

Assessment: Essay (100%, 4000 words) in the ST. Students will write a 4,000 word assessed essay selecting from a list of topics and questions provided by the course coordinator.

The essay will be due at the end of Week 1 of the ST.
IR452  Half Unit
Empire and Conflict in World Politics

This information is for the 2016/17 session.
Teacher responsible: Dr Tarak Barkawi CLM 4.07
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MIM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: Many places and peoples in modern world politics have been shaped by relations and histories of imperialism. Across the social sciences and humanities, as in International Relations, there has been an explosion of interest in empire in recent decades. This course explores the violent dimensions of the imperial past and present. It covers histories and social relations of armed conflict in imperial context from “small war” to “counterinsurgency” and the War on Terror; it looks at the ways in which warfare shapes (and is shaped by) the societies, cultures and polities that populate world politics; and it considers some of the intellectual traditions that have arisen out of the experience of, and inquiry into, colonial violence, from the thought of resistance leaders to subaltern and postcolonial studies. The premise of the course is that warfare and violence have been generative forces in shaping world politics, well beyond the times and places of specific battles and killings.
This course aims to familiarise students with scholarship on empire and conflict in International Relations and related disciplines. This involves, first, understanding the limitations of the sovereign nation-state as the basic unit of world politics. For most people in most times and places, international relations have taken imperial form of one kind or another. What would it mean to take empire seriously in international thought and inquiry? The course approaches this question by looking at the relations between empire and globalization in historical and theoretical context.
Second, although much scholarship on empire concerns economy and culture, the history of empire is a history of continual warfare and armed resistance. Such “small wars” have shaped society and politics in both the core and periphery of the international system, and often continue to do so long after the guns fall silent (as for example in the case of the US and the Vietnam War). The course will cover the histories, strategies and theories associated with such wars and their effects. Third and finally, the course will explore the intersection between empire and knowledge in political theory and social inquiry. Not only did anti-colonial resistance produce its own theorists, such as Frantz Fanon and Mao Zedong, but in recent decades empire has been the site of new turns in social and political theory and inquiry, as for example in subaltern studies and postcolonialism. The course will introduce students to this work and it applications to understanding world politics.
Lectures
1) Introduction: Empire and International Relations
2) Empire/History/Globalization
3) Empire, the Regions, and World Politics
4) Politics/Strategy/War
5) War and Society in Global Perspective
6) Orientalism and ‘Small war’
7) Revolutionary Guerrilla War
8) Counterinsurgency
9) Conflict and Development
10) The War on Terror in North/South Perspective
MSC Seminars
The seminars will develop students’ abilities to read, digest, and critique monograph length texts. Each will be based upon a single book. Students will be expected to read the assigned book in its entirety before each seminar. Every student will be expected to come to seminar prepared to participate. There will be no individual seminar presentations. Every student is expected to speak in every seminar. Students should be prepared to comment on the main argument of each book; to place each text in a wider intellectual context, concerning for example the debates and audiences the book is speaking to; and to offer a critical assessment of the book’s contributions.
There will be some variation in the texts assigned to MSc students each year.
Teaching: 10 hours of lectures and 18 hours of seminars in the MT. Additionally, there will be weekly film viewings starting in Week 2. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will be expected to produce 2 essays in the MT.
Assessment: Essay (100%, 5000 words) in the LT.
as an actor in international relations. It reviews the political and economic theories that seek to explain the rise of global business, paying attention in particular to International Relations and International Political Economy theories (realism, liberalism, Marxism), but also covering the main economic explanations of MNCs. Thereafter, the course examines the interaction between global business and states in international relations. This involves the study of corporate power and how to conceptualise it in IPE, the study of state-firm bargaining over investment decisions, and the regulation of global business by states and international governance institutions. The final part of the course considers the role that global business plays in selected global policy areas: economic development, environmental protection and human rights.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

10 lectures and 10 seminars on the following topics:
1. Introduction: global business in international relations
2. Globalisation and the rise of MNCs
3. Theories of the global firm
4. The power of global business
5. International rules for MNCs I: trade and investment
6. International rules for MNCs II: taxation and financial flows
7. Private governance and business self-regulation
8. MNCs and environmental protection
9. MNCs and economic development
10. MNCs and human rights

Formative coursework: Students will be expected to produce 2 essays in the LT.

Indicative reading:

Assessment: Exam (100%, duration: 2 hours) in the main exam period. A 2-hour final examination. Students will be asked to answer 2 out of 8 questions.

IR455 Half Unit

Economic Diplomacy

This information is for the 2016/17 session.

Teacher responsible: Dr Stephen Woolcock CLM 6.13

The course is coordinated by an LSE academic but is supported by an experienced practitioner of economic diplomacy Sir Nicholas Bayne, former UK foreign service and ambassador and Kenneth Heydon (formerly Deputy Director at the OECD in Paris). Other full time staff currently teaching the course include Dr James Morrison.

Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in International Relations Theory, MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MiM Exchange). This course is available with permission as an outside option to students on other programmes where regulations permit. All students will be required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for you. Admission to the course is not guaranteed. The course is primarily for students on the IPE Masters and LSE-Sciences-po Double Degree masters.
Course content: The course introduces students to the theories and analytical frameworks relating to decision-making and negotiation in international economic relations and to apply these to cases. It includes coverage of the respective roles of the main actors, institutional settings and processes involved in domestic decision-making and international negotiation, and their interaction with each other.

The course provides students with both academic and practitioner perspectives of economic diplomacy through the integration of practitioner analysis of case studies into the course. There is also an opportunity to understand the challenges faced by negotiators through the simulation of a current multilateral negotiation.

The course is concerned with the process of international economic negotiations. This focus distinguishes it from other optional courses that cover more on the substance of trade, finance, money, environment, etc. No prior knowledge of economics is required to take this course. The course is concerned with decision-making and negotiation.

Teaching: 9 hours of lectures, 13 hours and 30 minutes of seminars and 3 hours of workshops in the MT. 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Exam (70%, duration: 2 hours) in the main exam period.

Essay (30%, 2000 words) in the MT.
IR464  Half Unit  The Politics of International Law

This information is for the 2016/17 session.
Teacher responsible: Dr Viviane Dittitch

Availability: This course is available on the MSc in China in Comparative Politics, MSc in Global Politics, MSc in Human Rights, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory, MSc in Political Theory and MSc in Theory and History of International Relations. This course is not available as an outside option.

Course content: An introduction to the politics of the creation and implementation of international law, intended for non-lawyers. The course focuses on the areas of international law most relevant to International Political Theory: human rights, the use of force and international crime, and examines the increasing legalization of international politics, the tensions between international politics and international law, alternatives to international law and international law post 9/11.

Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalRelations/video/IR464-PIL-video.aspx

Teaching: 20 hours of seminars in the LT. 4 hours of seminars in the ST.

There are no lectures on the course, but there are a number of voluntary workshops as well as a voluntary class trip to international courts in The Hague. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: A 2000-2500 word essay.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 4000 words) in the LT.

IR465  Not available in 2016/17  The International Politics of Culture and Religion

This information is for the 2016/17 session.
Teacher responsible: Dr Katerina Dalacoura CLM. 4.11

Availability: This course is available on the MSc in Human Rights, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Pre-requisites: Background in International Relations or a related discipline.

Course content: Approaches to understanding the role of culture and religion in the discipline of IR. Culture and religion in IR theory; their influence on the practice of international relations. Case study: Islam.

The course will be divided into two parts. In the first part, the
IR466    Half Unit
Genocide

This information is for the 2016/17 session.

Teacher responsible: Dr Jens Meierhenrich CLM 6.07

Availability: This course is available on the MSc in Conflict Studies, MSc in Global Politics, MSc in Human Rights, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit. The course is available as an outside option.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Course content: This seminar course provides an introduction to the study of genocide. The course's disciplinary ambit ranges from anthropology to economics, from history to law, and from political science to sociology. Against the background of diverse disciplinary approaches, it explores major theoretical and empirical aspects of the role(s) of genocidal campaigns in international politics, inter alia, their origins, development, and termination; the manner of their perpetration, progress, and diffusion; their impact on the maintenance of international peace and security; their consequences for the reconstruction and development of states and the building of nations; and their adjudication in domestic and international courts and tribunals. Empirical cases to be discussed include Australia, Cambodia, China, the Democratic Republic of Congo, East Timor, Nazi Germany, Guatemala, Iraq, Northern Ireland, the Ottoman Empire, Rwanda, Uganda, the Soviet Union, Sudan, and the former Yugoslavia, among others. The course is designed to equip students with the analytic tools necessary for making sense of the evolution of the international system from the nineteenth century to the present-and for critically assessing the promise and limits of responding to collective violence.

Teaching: 20 hours of seminars in the MT.

Formative coursework: One x 2,000 word essay.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

IR467    Half Unit
International Political Economy of the Environment

This information is for the 2016/17 session.

Teacher responsible: Dr Robert Falkner CLM5.05

Availability: This course is available on the MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in International Relations, MSc in International Relations (Research), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange) and MSc in Regulation. This course is available with permission as an outside option to students on other programmes where regulations permit. All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Course content: An introduction to concepts and issues in the study of international environmental politics, with special emphasis on the political economy of environmental protection. Environmentalism and the greening of international society; ecopolitical perspectives on international political economy; domestic sources of environmental diplomacy; environmental leadership in international negotiations; international environmental regimes and their effectiveness; the role of nonstate actors (business, NGOs, scientists); corporate environmentalism; private environmental governance; trade and environment; international environmental aid; greening foreign direct investment; climate change; ozone layer depletion; biosafety regulation; deforestation.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the LT. 1

IR469 Half Unit Politics of Money in the World Economy This information is for the 2016/17 session. Teacher responsible: Mr Martin Hearson ALD 1.12 Availability: This course is available on the MSc in International Affairs (LSE and Peking University), MSc in International Political Economy, MSc in International Political Economy (Research), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange) and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit. All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed. Course content: This course is designed as a component of the study of a global system in which the management and mismanagement of money and finance are matters of fundamental consequence for international relations. It is intended to be of particular relevance to students specialising in international political economy. It is a course in applied international political economy theory. It deals with the basic concepts regarding the creation, use and management of money and finance in the global system. Students are then introduced to the political foundations of international monetary governance. Issues covered include the use of national currencies as international money, the politics of exchange rate adjustment, the operations of banks and other institutions in international money and capital markets, the evolution of global financial markets, the relationship between states and markets in the arena of global finance, international monetary cooperation, and the choices of monetary and financial policies open to developed and developing countries. The course emphasises that contemporary issues, such as international financial crises, international financial regulation and the politics of IMF conditionality, are best understood in a broader theoretical and analytical context. Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST. A series of 10 additional lectures (held in MT) are given as part of IR469, Introducing Concepts in Monetary Theory and International Monetary Economics. Students intending to take the course are expected to attend these lectures unless they already have a strong background in monetary economics. Students on this course will have a reading week in Week 6, in line
with departmental policy.
Formative coursework: Students will be expected to produce 1 essay in the MT.
Students are expected to make presentations on topics of their choice and to write one 2,000-word essays, to be marked by the seminar teacher.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.
There is a two-hour formal examination in the ST based on the lecture course and work covered in the seminars. The paper contains about 10 questions, of which two are to be answered.

IR470  Half Unit
International Political Economy
This information is for the 2016/17 session.
Teacher responsible: Dr Stephen Woolcock CLM 6.13
Availability: This course is compulsory on the MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po) and MSc in International Political Economy (Research). This course is not available as an outside option.
Course content: An advanced introduction to concepts and contending contending theoretical, analytical, and methodological approaches in international political economy, and an overview of contemporary issues in international economic relations. This course is the core course for MSc International Political Economy. It aims to introduce students to various approaches to the study of international political economy (IPE), and to apply theories to important contemporary empirical issues. The first part of the course introduces students to the main theoretical concepts in and analytical approaches to political economy, emphasising the overlap between international and comparative approaches. After surveying the main schools of thought in the subject, it examines more recent theoretical developments, including the comparative and domestic approaches that have become increasingly prominent in the literature. The second part of the course addresses contemporary issues related to multinational corporations, globalisation and developing countries. The third part of the course focuses on methodological approaches to international political economy, exploring research design and qualitative and quantitative methods. Previous background in international relations, international economics, comparative politics and history is helpful but is not a requirement. Students with no previous background in the subject should read Walter and Sen, ‘Analyzing the Global Political Economy’ (2009), Oatley, ‘International Political Economy’ and Ravenhill, ‘Global Political Economy’ by the end of the first term.
Teaching: Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalRelations/video/IR450-IPE-video.aspx
Assessment: Exam (100%, duration: 2 hours) in the main exam period.
 IR471  Half Unit
The Situations of the International Criminal Court
This information is for the 2016/17 session.
Teacher responsible: Dr Jens Meierhenrich CLM 609
Availability: This course is available on the MSc in Global Politics, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
All students are required to obtain permission from the Teacher Responsible by completing the online application linked to the course selection on LSE for You. Admission to the course is not guaranteed.
Course content: This taught seminar introduces students to the practices of the International Criminal Court (ICC). Focusing on the ICC’s ongoing investigations and prosecutions - its so-called ‘Situations’ - the course exemplifies the politics of international law in the context of one of the most embattled international organisations in the international system. On the foundation of ‘practice theory’, it blends methodological approaches from law, the social sciences and the humanities. By adopting an evolutionary perspective to the ICC, the seminar raises - and answers - pertinent theoretical questions about institutional design and development of international law. Empirical cases to be discussed include the settings of the ICC’s nine situations (the DRC, Uganda, the Central African Republic, Sudan, Kenya, Libya, Cote d’Ivoire, and Mali) as well as the territories of the ICC’s preliminary examinations (Afghanistan, Columbia, Georgia, Guinea, Iraq, Nigeria, Palestine, and Ukraine). Students will learn to work with both court documents and theoretical texts.
Teaching: 20 hours of lectures in the LT.
In line with departmental policy, students on the course will have a reading week in Week 6.
Formative coursework: Students will be expected to produce 1 essay in the LT.
Students will also receive feedback on their seminar participation. Students are required to research and write one essay (2,500 words). In addressing a given essay topic, students must integrate theory and history and bring empirical evidence to bear on the research question they have chosen. Essays must be fully - and carefully - referenced using one of the major conventions consistently. Submissions are due in Week 8 and must be in hard copy. Feedback is provided by the course teacher, who is responsible for marking essays.
Several criteria are applied in the evaluation of student essays, notably: (1) originality of argument. (2) use of literature: has relevant scholarship been digested and put to good use? (3) soundness
of analysis: is the inquiry comprehensive and logically consistent? (4) organisation of evidence: have argument and evidence been introduced and presented in a compelling manner? (5) validity of findings: does the argument remain valid when applied empirically? (6) clarity of presentation: are grammar, punctuation and references flawless?

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**IR481** Half Unit

**Europe, the US and Arab-Israeli Relations**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Federica Bicchi CLM 4.13

**Availability:** This course is available on the MSc in EU Politics, MSc in Global Politics, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the online application form linked to course selection on LSE for You. Admission is not guaranteed.

**Pre-requisites:** A knowledge of post-1945 world history of the European Union governance system and of Middle East politics is required.

**Course content:** The course focuses on the foreign policy of the US and Middle East politics. It explores both the traditional foreign policy and security issues, such as the arms race and détente, the role of the military, economic and trade relations, etc., as well as new soft power and security factors shaping policy, such as transnational civil society, sub-national regionalization, transnational ethnic and cultural networks, migration, the role of ideas, norms and norm entrepreneurs, etc.

Key topics covered are Cold War, East-West relations and détente; relations with Eastern Europe; relations with the Third World; Gorbachev’s foreign policy and the end of the Cold War; post-Cold War Russian foreign policy and security policy, Russia and the ‘near abroad’; ethnic separatism and regional conflict; Russian national and sub-national engagement with the West; Russia’s relations with China and the other “rising powers”; other security challenges (demographic...
problems, social protest, regional developmental disparities, etc.); regionalism and multilateralism in Eurasia; domestic and external influences on foreign policy and security in Ukraine, Belarus and the states of the Caucasus and Central Asia; Caspian energy and foreign policies; the challenge of Afghanistan for the region; regional responses to the Middle Eastern uprisings. Watch a short introductory video on this course: [http://www2.lse.ac.uk/internationalRelations/video/IR482-RE-video.aspx](http://www2.lse.ac.uk/internationalRelations/video/IR482-RE-video.aspx)

**Teaching:** 10 hours of lectures and 12 hours of seminars in the MT. 8 hours of lectures and 15 hours of seminars in the LT. 3 hours of seminars in the ST.

There will be an introductory lecture in week 1 of MT followed by 17 one-hour lectures from week 1 of MT (9 in MT and 8 in LT). There will be 20 one-and-a-half hour weekly seminars commencing in week 3 of MT, including two revision seminars in ST.

**Formative coursework:** Students intending to take the examination will be expected to write a minimum of three essays, of about 2,000 words each for the seminar teacher, and to present at least one seminar topic. These do not count towards the final mark.

**Indicative reading:** A detailed reading list will be distributed at the beginning of the lecture course but students will find the following preliminary reading useful:

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

Students must answer three out of twelve questions.

---

**LL440 Corporate Accountability: Topics in Legal and Accounting Regulation**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Julia Morley

**Availability:** This course is compulsory on the MSc in Law and Accounting. This course is not available as an outside option.

**Course content:** The purpose of this course is to acquaint students with the central issues faced by law and accounting in relation to problems of corporate accountability and regulation. It is interdisciplinary in focus, and provides students from varying backgrounds with new perspectives and leads to in-depth study by way of a Long Essay.

Topics may include: regulatory institutions and techniques, statutes, markets, financial reporting; the interrelated functions and the rights and duties of directors and auditors; company law and stakeholders; shareholders, creditors, employees and the ‘public interest’; models of the corporate form, corporate groups; Stakeholder reporting and environmental audit; audit committees, internal controls, the audit process and auditor liability; form, substance and the ‘true and fair view’ in financial reporting; accounting standards and company law; capital maintenance; accounting standards and tax law; accounting for, and regulating, networks, SMEs and micro companies; regulating the professions; overview of functions of accountants and lawyers in corporate governance and the relation between them. Other issues in accounting and the law may be substituted/added.

**Teaching:** 22 hours of seminars in the MT. 22 hours of seminars in the LT. 2 hours of seminars in the ST.

Two meetings with each individual student’s Long Essay supervisor.

**Formative coursework:** All students will be expected to contribute to class discussion. Feedback on performance and progress will be provided during class, on two written homework assignments, in two formal meetings with individual student’s Long Essay Supervisor, and during office hours.

**Indicative reading:** No one book covers the entire syllabus. Detailed reading lists will be provided during the course and will include articles from law, accounting, economics and sociology journals and books. Students will also be provided with relevant examples of practitioner reports, policy papers, and referred to relevant websites. Some illustrative references to texts and primary materials are:

LL468  Half Unit  European Human Rights Law

This information is for the 2016/17 session.

Teacher responsible: Prof Conor Gearty SAR.G.04

Teaching Fellow: Dr Michele Finck

Availability: This course is available on the MSc in Conflict Studies, MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students.

Course content: This course will provide an overview of the development and current standing of the European Convention on Human Rights and Fundamental Freedoms. Its primary focus will be on the case-law of the European Court of Human Rights, though the cases of other jurisdictions will also be referred to where appropriate. The course will analyse the Convention from the perspective of selected rights within it, but will also engage with the subject thematically, subjecting such concepts as the ‘margin of appreciation’ and proportionality to close scrutiny. The goal of the course is to give students a good critical understanding of the Convention, the case-law of the Strasbourg court and the Convention’s place within the constitutional and political structure of ‘Greater Europe’.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a Reading Week in week 6 of MT.

Formative coursework: One 2,000 word essay

Indicative reading: There are two texts that cover the ground of the course and to which reference will be made: Jacobs, White and Ovey, The European Convention on Human Rights 6th edn (OUP, 2014) and Harris, O’Boyle and Warbrick, Law of the European Convention on Human Rights 3rd edn (Oxford, 2014). Also useful is Mowbray, Cases and Materials on the European Convention on Human Rights 3rd edn (Oxford, 2012). A strong European perspective is to be found in van Dijk, van Hoof, van Rijn and Zwaak (eds), Theory and Practice of the European Convention on Human Rights 4th edn (Intersentia, 2006). Very good edited books include Brems and Gerards (eds), Shaping Rights in the ECHR (Cambridge, 2013) and Follesdal, Peters and Ulfstein (eds), Constituting Europe (Cambridge 2013). The course will involve textbook reading but will primarily entail analysis of case-law read for the lecture and discussed in class.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

This subject is examined by one two-hour paper, composed of at least five questions of which two must be attempted. There will be a fifteen minute reading time during which the exam paper may be written on.

LL475  Half Unit  Terrorism and the Rule of Law

This information is for the 2016/17 session.

Teacher responsible: Prof Conor Gearty SAR.G.04

Dr Patrick O’Brien (Teaching Fellow)

Availability: This course is available on the MSc in Conflict Studies, MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is available across all courses and potentially suitable for all but is particularly designed for LLM, MSc Conflict Studies, MSc Human Rights students.

Course content: This course will provide a theoretical and historical introduction to the concept of terrorism. It will critically consider definitions of terrorism, and analyse the relationship between terrorism and the right to rebel, and the right to engage in civil disobedience. The historical development of the idea of ‘terrorism’ from the late eighteenth century through to the present will then be traced, with the emphasis on locating the practice of political terror in its political and military/counter-terrorism context. The role of international law generally and international human rights law in particular in the context of terrorism and anti-terrorism action will be considered in detail. The course will teach the material in context, so the subject will be analysed by reference to particular situations where necessary, eg Northern Ireland, the Palestine/Israel conflict and the post 11 September ‘war on terror’. The aim of the course is to give the student a good critical understanding of this most controversial of subjects, and also to impart an understanding of the role of law in shaping the fields of terrorism and of counter-terrorism.

Teaching: 15 hours of lectures and 5 hours of classes in the LT. 1 hour and 30 minutes of lectures and 1 hour of classes in the ST.

Formative coursework: One 2,000 word essay.

Indicative reading: There is no set text though reliance is made on the work of authors such as Richard English, Adrian Guelke, Lawrence Friedman, Igor Primoratz, Paul Wilkinson and the course teacher Conor Gearty. Students will receive a detailed Reading list for each topic, which will include legal cases from time to time. A
LL490
LLM Self-standing full unit Dissertation
This information is for the 2016/17 session.
Availability: This course is available to students registered in or before the 2012/13 academic session on the Master of Laws and Master of Laws (extended part-time study). This course is not available as an outside option.
Course content: A self-standing dissertation for students whose dissertation topic does not fall under a related taught course. Permission must be obtained by a suitable course supervisor and the LLM Programme Director.
Assessment: Dissertation (100%, 15,000 words). An 8,000 word dissertation on a topic to be agreed with the LLM Programme Director and course supervisor. The dissertation option is to be chosen in only one full unit module, with its outline approved in the LT by the course supervisor. Deadline for submission is end of August.

LL497 Half Unit
Half Unit Self Standing Elective Essay
This information is for the 2016/17 session.
Availability: This course is available to students registered in or before the 2012/13 academic session on the Master of Laws and Master of Laws (extended part-time study). This course is not available as an outside option.
Course content: A self-standing elective essay for students whose elective essay does not fall under a related taught course. Permission must be obtained by a suitable course supervisor and the LLM Programme Director.
Assessment: Essay (100%, 8000 words) in the ST. An 8,000 word elective essay on a topic to be agreed with the LLM Programme Director and course supervisor. The elective essay option is to be chosen in only one half unit module, with its outline approved in the LT by the course supervisor. Deadline for submission is end of August.

LL499 Dissertation: MSc Regulation
This information is for the 2016/17 session.
Availability: This course is compulsory on the MSc in Regulation. This course is not available as an outside option.
Course content: Refer to assessment below.
Assessment: Dissertation (100%, 10000 words). The dissertation is due by 5pm on 24th August.

LL4A1 LLM Subject Area Specialist Research Seminars
This information is for the 2016/17 session.

Teacher responsible: Various. Contact Ms Mandy Tinnams, NAB 6.08
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: A series of ad hoc one-hour seminars running during MT and LT. The programme changes annually, with sessions given by distinguished visiting academics, practitioners and other experts on issues related to their specialist interests. The aim is to expose LLM students to a wider range of material than is possible in many of the taught courses, and to explore and challenge some of the issues and themes that are currently controversial. Most sessions will run as seminars rather than public lectures, with students expected to interact with the seminar speaker and with each other.
Teaching: Weekly or fortnightly one-hour sessions during the MT and LT.
Assessment: Not assessed, although many sessions will be directly or indirectly related to material considered in other assessable LLM courses.

LL4A6 Half Unit
Climate Change and International Law
This information is for the 2016/17 session.
Teacher responsible: Dr Stephen Humphreys NA8S.12
Availability: This course is available on the MSc in Environment and Development, MSc in Environmental Policy and Regulation, MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: This course covers the international law dealing with climate change with a view to assessing how the harms and burdens associated with climate change are governed and allocated in different legal regimes. The course adopts the stance that the political and legal questions raised by climate change cannot be addressed by reference to climate change law alone or even international environmental law as a whole. Climate change gives rise to a series of profound problems touching upon a range of bodies of law (trade, human rights, migration, investment, state responsibility) in a complex political and ethical environment. In approaching climate change as a concrete concern relevant to these various bodies of law and practice, the course will address the normative bases for choosing between actions designed to prevent and/or manage climate change and its consequences, given developmental imperatives and the concerns raised by the ‘fragmented’ nature of international law. Projected seminars include: climate change science; politics; ethics; theory of international law; environmental law; trade law; human rights law; migration law. The course includes two case studies, from among the following: climate technology transfer; the green economy; carbon markets; food security.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST. There will be a reading week in week 6.
Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4A8 Half Unit

International Law and the Use of Force

This information is for the 2016/17 session.

Teacher responsible: Mr Christopher Thomas NAB7.18 and Dr Devika Hovell NAB6.32

Availability: This course is available on the MSc in Conflict Studies, MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: Some prior knowledge of international law is useful but not essential.

Course content: This half-unit course examines the law relating to when it is permissible to use force (jus ad bellum). The aim of this course is to develop an understanding of the principles of international law that regulate the use of force in international society. It concentrates on the prohibition of resort to force in Article 2(4) of the United Nations Charter and the exceptions to that prohibition. It looks in detail at the right of self-defence, humanitarian intervention and the responsibility to protect, pro-democratic intervention, the protection of nationals and the criminalization of aggression. The use of force by or with the authorization of the United Nations is also considered.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in Week 6 of Michaelmas Term.

Formative coursework: One 2,000 word essay.

Indicative reading: A detailed reading list will be issued at the first seminar. See, in particular: Dinstein, War, Aggression and Self-Defence (5th ed, 2011); Gray, International Law and the Use of Force (3rd ed., 2008).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4AA Half Unit

Global Copyright Policy: Contemporary Issues

This information is for the 2016/17 session.

Teacher responsible: Anne Barron NAB6.05

Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: Competition, Innovation, and Trade Law; Corporate and/or Commercial Law; Information Technology, Media and Communications Law; Intellectual Property Law. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: Students must take Principles of Copyright Law (LL4N6) in parallel with this course unless exempted by the course convenor.

Course content: The aim of this course is to equip students with the skills to reflect critically on global copyright policy today. ‘Global copyright policy’ in turn is interpreted broadly here to include not only the purposes and strategies underlying the formal treaties and trade arrangements that shape national copyright laws, but also those motivating the many alternative (and radically alternative) agendas for copyright’s future that are currently under consideration around the world. Discussion in seminars will be theoretically informed but organised around particular topics of contemporary concern.

Teaching: 20 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One 1500 word essay.

Indicative reading: There is no set text. Readings will be assigned week-by-week and most will be available electronically via Moodle site that accompanies this course. Students will be expected to read a wide range of material drawn from a number of disciplines. The following sources are indicative: Peter Baldwin, The Copyright Wars: Three Centuries of Trans-Atlantic Battle (Princeton UP, 2014); Yochai Benkler, The Wealth of Networks (Yale UP 2006); Ronald Bettig, Copyrighting Culture (Westview Press, 1996); James Boyle, The Public Domain (Yale UP, 2008); Julie E. Cohen, Configuring the Networked Self: Law, Code, and the Play of Everyday Practice (Yale UP, 2012); Laurence Helfer and Graeme Austin, Human Rights and Intellectual Property: Mapping the Global Interface (Cambridge University Press, 2011); Tarleton Gillespie, Wired Shit: Copyright and the Shape of Digital Culture (MIT Press 2008); David Hesmondhalgh,

Assessment: Essay (100%, 8000 words) in the ST.

LL4AB  Half Unit  Not available in 2016/17
Law and Administrative Procedures in the EU

This information is for the 2016/17 session.
Teacher responsible: Professor Carol Harlow
Professor Richard Rawlings

Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is open to students with and without a law degree. Students of public administration are welcome. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: The objective of our course is to reflect on issues that are of interest and concern to administrative lawyers within the framework of a particular polity, the EU. We shall watch the development of an appropriate administrative law for the EU - a challenging task! Central to modern administrative law systems and to EU administration are directive principles of good governance, sponsored by the Organisation for Economic Co-operation and Development (OECD) through its SIGMA programme sponsored by the European Commission. These values are central to the Commission White Paper on European Governance (2000) and are now incorporated in the Lisbon Treaty and European Charter of Fundamental Rights (ECFR), which creates a right to good administration. The course deals with EU administration in the sense of administration by the European Commission and agencies, shared administration with Member States acting on behalf of the EU and in the increasing number of administrative ‘networks’ with which the EU cooperates. It aims to identify and evaluate the principles and values of administrative law and their application to EU administrative procedures.

Objectives:
• To instil knowledge of public administration outside the state and more particularly in the EU
• To promote knowledge of modern administrative law and its problems
• To encourage group learning
• To promote spoken facility
• To familiarise students with comparative administrative law materials and teach research methods

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

20 hours of seminars in the MT. 2 hours of seminars in the ST. Please note that this course will be taught in Weeks 2-11. This is a joint UCL/LSE course, open to students of each. It is separately examined according to the examination regulations of each institution. It is taught at the Institute of Advanced Legal Studies in Russell Square.

Formative coursework: Students are expected to submit a 2,000 word essay during the course, to be returned with detailed comments. Note that student participation and group cooperation is very important in this course and opportunities will be provided for student presentations with feedback.

There is also much legal periodical literature in: the Common Market Law Review, European Law Review European Law Journal, European Public Law and European Review of Public Law (ERPL) and many political science journals: Journal of European Public Policy, Journal of Common Market Studies and West European Politics. All these journals are available in the IALS and college libraries and on line. There are also useful on line journals, notably the German Law Journal and Italian Journal of Public Law and sets of papers, such as the Jean Monnet working papers (see weblinks).

Many additional materials are easily accessible through the websites of the EU. References to these are given throughout the course and a general list of weblinks and blogs is provided.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4AC  Half Unit  Not available in 2016/17
Legal Accountability and Redress of Grievance in the EU

This information is for the 2016/17 session.
Teacher responsible: Professor Carol Harlow and Professor Richard Rawlings

Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is open to students with and without a law degree.

Students of public administration are welcome. A knowledge of the structure of European institutions is desirable. Specialisms: EU law and Public Law. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
by scholars from other disciplines (geography, anthropology, philosophy, literary studies, etc.).

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
There will be a reading week in week 6.

Formative coursework: One 2,000 word essay.

Indicative reading: Reading lists will be provided for each seminar on Moodle. Readings likely to be set include: D. Kennedy, Of War and Law; S. Pahuja, Decolonising International Law: Development, Economic Growth and the Politics of Universality; B. Rajagopal, International Law from Below: Development, Social Movements and Third World Resistance; and S. Marks, The Riddle of All Constitutions: International Law, Democracy and the Critique of Ideology.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

Students are expected to have done the set reading and be willing to participate in seminar discussion.

---

LL4AE Half Unit

Rethinking International Law: International Legal Thought

This information is for the 2016/17 session.

Teacher responsible: Prof Gerry Simpson NAB 6.13

Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is part of the Public International Law specialism.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

Course content: This course builds on Rethinking International Law: International Legal Thought.

This course is taught by Prof. Susan Marks and focuses on the history of international law from the 18th century to the present day. The course explores the development of international law and its relationship to political thought, political theory, and political economy.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

LL4AD Half Unit

Rethinking International Law: International Law and Contemporary Problems

This information is for the 2016/17 session.

Teacher responsible: Prof Susan Marks NAB 7.14

Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is part of the Public International Law specialism.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: There are no formal prerequisites.

Course content: This course is designed for students who have already had some exposure to public international law and wish to deepen their understanding of the international legal dimensions of contemporary problems. Each week the relation will be explored between international law and a different global issue or theme, such as war, poverty, terrorism, humanity, and territory. Course readings will encompass both legal scholarship and relevant writing

---

LL4AF Half Unit

Principles of Global Competition Law

This information is for the 2016/17 session.

Teacher responsible: Dr Niamh Dunne

---
Competition Law: Challenges and Prospects

This course provides an overview of the major features of competition law regimes. It is a discipline that has gone through a remarkable process of expansion in the past two decades. Competition law is actively enforced in a growing number of jurisdictions. Instead of focusing on a particular regime, the module puts an emphasis on the fundamental debates underlying the adoption and evolution of this field. Examples drawn from the US and EU law will be generally used by way of illustration, but references to other regimes will be made where relevant.

The topics addressed include the following:

• Competition Law and Economics
• Cartel agreements
• Vertical restraints
• Unilateral conduct: predatory pricing
• Unilateral conduct: tying and bundling
• Unilateral conduct: refusal to deal
• Merger control: horizontal mergers
• Merger control: vertical and conglomerate mergers
• Institutions and enforcement

Teaching: 20 hours of seminars and 4 hours of classes in the MT. 2 hours of seminars in the ST.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

Corporate Governance

This course will examine topical issues of corporate governance on a comparative basis. It does not intend to present a comprehensive overview of the corporate governance system of any particular jurisdiction, nor does it constitute a self-contained introduction to corporate law. Rather, we will identify corporate governance conflicts created by the use of the corporate form, notably agency problems between shareholders, the management, and other corporate actors, and discuss solutions to these conflicts developed by different jurisdictions and legal traditions.

We will draw on, and compare, three of the most important legal traditions of the world: common law (focusing in particular on the law of Delaware), the German legal tradition, and the French legal tradition.

We will assess the comparative effectiveness of the solutions found in the jurisdictions analysed. We will generally engage in a qualitative evaluation of the advantages and disadvantages of the different regulatory strategies, but also refer to quantitative studies in the literature that examine the correlation between regulatory approaches and financial variables such as the cost of capital of a business. In addition, we will attempt to identify general trends and trajectories in corporate law and explain instances of divergence or convergence of the legal strategies that we observe.

Topics include:

• Comparative and empirical methods in corporate law
• The economic structure of the corporation in comparative perspective
• Corporate governance models
• Allocation of decision rights within the corporation
• The managerial agency problem I: directors’ duties and proper purpose of the exercise of managerial power
• The managerial agency problem II: duty of care and the business judgement rule
• The managerial agency problem III: related-party transactions and corporate opportunities
• Enforcement of duties; derivative action
• Determinants of corporate law, trajectories and trends; legal origins

LL4AH Half Unit

Corporate Governance

This information is for the 2016/17 session.

Teacher responsible: Dr Carsten Gerner Beuerle NAB 5.08

Availability: This course is available on the MSc in Law and Accounting, MSc in Regulation, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students (or two groups of 30 students each, i.e. 60 students depending on demand). LLM Specialisms This course will be relevant to the following LLM specialisms: Corporate and/or Commercial Law, Corporate and Securities Law, International Business Law.

Pre-requisites: Students should either have studied company law at undergraduate level or take LL4CF UK Corporate Law concurrently.

Course content: This course will examine topical issues of corporate governance on a comparative basis. It does not intend to present a comprehensive overview of the corporate governance system of any particular jurisdiction, nor does it constitute a self-contained introduction to corporate law. Rather, we will identify corporate governance conflicts created by the use of the corporate form, notably agency problems between shareholders, the management, and other corporate actors, and discuss solutions to these conflicts developed by different jurisdictions and legal traditions.

We will draw on, and compare, three of the most important legal traditions of the world: common law (focusing in particular on the law of Delaware), the German legal tradition, and the French legal tradition.

We will assess the comparative effectiveness of the solutions found in the jurisdictions analysed. We will generally engage in a qualitative evaluation of the advantages and disadvantages of the different regulatory strategies, but also refer to quantitative studies in the literature that examine the correlation between regulatory approaches and financial variables such as the cost of capital of a business. In addition, we will attempt to identify general trends and trajectories in corporate law and explain instances of divergence or convergence of the legal strategies that we observe.

Topics include:

• Comparative and empirical methods in corporate law
• The economic structure of the corporation in comparative perspective
• Corporate governance models
• Allocation of decision rights within the corporation
• The managerial agency problem I: directors’ duties and proper purpose of the exercise of managerial power
• The managerial agency problem II: duty of care and the business judgement rule
• The managerial agency problem III: related-party transactions and corporate opportunities
• Enforcement of duties; derivative action
• Determinants of corporate law, trajectories and trends; legal origins
The course can be taken either as a self-standing module or as a foundational module for Corporate Governance B, which will address more specific issues of corporate governance, such as regulation by means of corporate governance codes, executive remuneration, minority shareholder protection, and shareholder activism.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in week 6. Summer term is a review and revision session.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Indicative reading:** Indicative reading

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

**LL4AJ Half Unit**

**Insolvency Law: Principles, Rescue and Reconstruction Processes**

This information is for the 2016/17 session.

**Teacher responsible:** Ms Sarah Paterson

**Availability:** This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: Corporate and/or Commercial Law. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

**Course content:** This course focuses primarily on registered companies and is concerned with the principles and policies underlying the legal treatment of insolvency and corporate liquidations. The impact of these procedures and approaches on third parties, for example corporate groups, secured and unsecured creditors, directors and employees, is also considered. Topics include: Overview of Liquidation. Setting aside transactions. The Pari Passu principle and preferential claims. Secured creditors and security devices. The problem of corporate groups. Company directors in troubled times. Employees in distress. EC and international recognition of insolvency proceedings.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

A variable format: some lecture-discussions, some student-paper-led discussions and some debates.

**Formative coursework:** One 2,000 word essay.

**Indicative reading:** A full Reading List will be distributed during the course. The recommended text is V. Finch, Corporate Insolvency Law: Perspectives and Principles (Cambridge University Press, 2009) (2nd edition).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

**LL4AL Half Unit**

**International Business Transactions: Commercial Litigation**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Jacco Bomhoff NAB 6.09

**Availability:** This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. Specialism International business law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** Knowledge of conflicts of laws (private international law) would be useful but is not essential. A good general understanding of commercial law is essential.

**Course content:** Jurisdictional problems arising in litigation resulting from international business transactions. The following topics will be studied from the point of view of European Union law, English (common and statute) law, Canadian law and US law: a. Jurisdiction over companies and individuals; b. Branches and agents; c. Constitutional limitations on jurisdiction in the United States; d. Choice-of-court clauses; e. Forum non conveniens; f. Lis pendens.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in Week Six of the MT
**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4AM  Half Unit**

**International Business Transactions: Advanced Procedure and Tactics**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Trevor Hartley NAB 7.23

**Dr Jacco Bomhoff NAB 6.09**

**Availability:** This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. Specialism International business law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** Students must have completed International Business Transactions: Commercial Litigation (LL4AL).

Students must have taken LL4AL International Business Transactions: Commercial Litigation or obtained equivalent knowledge elsewhere. Knowledge of conflict of laws (private international law) would be useful but is not essential.

A good general understanding of commercial law is essential.

**Course content:** Litigation resulting from international business transactions. The following topics will be studied from the point of view of European Union law, English (common and statute) law, Canadian law and US law: Antisuit injunctions Recognition and enforcement of foreign judgments. Freezing orders and other interim measures. Obtaining evidence abroad – (i) through forum procedures; and (ii) with the assistance of foreign courts.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in Week 6 of LT.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4AQ Half Unit Not available in 2016/17

Constitutional Theory

This information is for the 2016/17 session.

Teacher responsible: Prof Martin Loughlin NAB 7.12

Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Human Rights Law, Legal Theory, Public Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course examines the role of constitutions and the nature of constitutional discourse. It considers the ways in which theorists have advanced understanding of constitutions and devised solutions to a range of constitutional questions. The course addresses the following topics: constitutions, constitutional order, constitutional foundation; constitutionalism; constitutional exception; constitutional rights; constitutional democracy; constitutional adjudication; constitutional recognition; and cosmopolitan constitutionalism.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in week 6.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Indicative reading: Much of the reading for the course consists of readings available online and the course is delivered through Moodle. A background text is Martin Loughlin, The Idea of Public Law (OUP, 2003).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4AR Half Unit

International Criminal Law 1: Core Crimes and Concepts

This information is for the 2016/17 session.

Teacher responsible: Prof Gerry Simpson NAB 6.13

Availability: This course is available on the MSc in Criminal Justice Policy, MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Criminology and Criminal Justice, Public International Law, Human Rights Law. This course is capped at 30 students.

Course content: The course looks at the rules, concepts, principles, institutional architecture, and enforcement of what we call international criminal law or international criminal justice, or, sometimes, the law of war crimes. The focus of the course is the area of international criminal law concerned with traditional “war crimes” and, in particular, four of the core crimes set out in the Rome Statute (war crimes, torture as a crime against humanity, genocide and aggression). It adopts a historical, philosophical and practical focus throughout, though the course is mainly directed at the conceptual problems associated with the prosecution of war criminals and, more broadly, legalised retribution. Attention, in this respect, will be directed towards the moral and jurisprudential dilemmas associated with bureaucratic criminality and individual culpability. Topics include Pre-History (Vitória, Grotius, Gentili, Ciceri), Versailles, Nuremberg and Tokyo, the Trial of Adolf Eichmann, Crimes Against Humanity, the Crime of Aggression, Anti-Anti-Impunity, International Criminal Law's Historical Method.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a Reading Week in week 6.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

LL4AS Half Unit

International Criminal Law 2: Prosecution and Practice

This information is for the 2016/17 session.

Teacher responsible: Prof Gerry Simpson NAB 6.13

Availability: This course is available on the MSc in Criminal Justice Policy, MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Criminology and Criminal Justice, Public International Law, Human Rights Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course examines the practice and procedure of international criminal law. Rather than examining the history and core crimes, the course focuses on the fora for prosecution of international crimes and the practice, procedure and politics of international prosecutions.

In terms of the forum for prosecution, we examine the ad hoc international criminal tribunals for Rwanda and the former Yugoslavia and hybrid tribunals such as the Special Tribunal for...
Lebanon, the Extraordinary Chambers in the Courts of Cambodia and the Special Court for Sierra Leone. We then consider the opportunities for prosecution of international crimes in domestic courts, looking in particular at the principle of universal jurisdiction. Finally, we turn to the International Criminal Court. We consider the foundation of the court, the authority of international criminal tribunals, the relationship between the various international criminal tribunals and controversial questions about jurisdiction in current cases.

In terms of practice and procedure, we examine the modes, limits, exclusion and enforcement of individual criminal responsibility. We will look at questions, theory and case law surrounding modes of liability, immunities, defences and state cooperation. Finally, we will consider future challenges for the prosecution of international crimes. The course will respond to current controversial issues in international criminal law, such as Palestine’s accession to the Rome Statute, the selectivity of international criminal prosecutions, the relationship between domestic legal systems such as Libya and the ICC and the implications of these issues for the legitimacy of the international criminal law project.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4AU Half Unit

Regulation: Legal and Political Aspects

This information is for the 2016/17 session.

Teacher responsible: Prof Gordon Baldwin NAB7.08

Availability: This course is available on the MSc in Law and Accounting, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Management and Governance, MSc in Public Policy and Administration, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is NOT available for students of the MSc Regulation programme.

This course will be relevant to the following LLM specialisms: Banking Law and Financial Regulation; Corporate and/or Commercial Law; Criminology and Criminal Justice; Information Technology, Media and Communications Law; Intellectual Property Law; Legal Theory; and Public Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: Students must be taking Regulation: Legal and Political Aspects (LL4AT) concurrently with this course.

Course content: The course aims to give students an essential grounding in theories of regulation as these relate to the evaluation of regulatory regimes and the challenges of accounting for regulatory practice. Different ways of understanding regulatory developments will be discussed as will the set of challenges that arise when regulation is carried out by numbers of regulators at different levels of government. Topics dealt with will include:

- What is Good Regulation?
- Accountability & Regulation
- Regulation and Cost Benefit Analysis
- The Better Regulation Movement
- Self-Regulation
- Roles, Standards and Principles
- Regulatory Competition
- Regulatory Networks
- Lenses for Viewing Regulation
- The Future of Regulation

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

### LL4AV  Half Unit

**Global Trade Governance: Contemporary Issues**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Andrew Lang NAB 6.19

**Availability:** This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. LLM Specialisms. Students must apply through Graduate Course Choice on LSEforYou.

This course will be relevant to the following LLM specialisms: Competition, Innovations and Trade Law, Public International Law, International Business Law.

**Pre-requisites:** Students must have completed Foundations of International Economic Law (LL4B1).

**Course content:** The aim of this course is to allow students with a particular interest in global economic governance to explore a greater diversity of topics than is possible in one term only. At one level, this involves covering a greater range of WTO agreements, including this TBT Agreement, Subsidies Agreement, SPS Agreement, the GATS, TRIPs and others. In addition, however, there is a much greater emphasis in this course (as compared to the Core Principles course) on using issues of contemporary trade governance to explore broader questions concerning the modalities of contemporary economic governance at the global level. Core themes of concern will include: international legal pluralism; the role of knowledge practices and the aesthetics of expertise in international economic governance, international economic law ‘after the crisis’, the emergence of new ‘developmentalism’ and its prospects, and spaces and modalities of contestation in contemporary global economic governance. Class Schedule (Indicative Only) 1. The WTO and global food governance: the SPS Agreement and the Agreement on Agriculture 2. Contemporary issues in subsidies regulation 3. Trade remedies and contingent protection 4. The TBT Agreement 5. Advanced issues in WTO dispute settlement 6. The new regionalism: TTIP and TPP 7. The new developmentalism 8. The WTO and the global financial crisis

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Indicative reading:** Detailed reading lists and class outlines for each week are available through the Moodle page for this course. You are expected to come to class having read the Essential Reading for that week, all of which is readily available either in electronic form, or in hard-copy in the library. The items listed under Further Reading will assist those of you who wish to research more deeply into a particular topic, either in the context of exam preparation or the writing of a dissertation.

There are two textbooks for this course, and you may purchase either. One is Trebilcock and Hovse, The Regulation of International Trade, 4th ed., (Routledge, 2013). The other is Van den Bossche, The Law and Policy of the World Trade Organization: Texts, Cases and Materials, 3rd ed., (Cambridge University Press, 2013). You must also purchase a copy of The Legal Texts: The Results of the Uruguay Round of Multilateral Trade Negotiations, (Cambridge University Press). This contains most of the basic documents required for the course. An unmarked version of this text will be the only text allowed into the examinations. Students should ensure that they refrain from marking the text.

You may find it helpful to own or have ready access to a copy of Lester and Mercunio, World Trade Law: Text, Materials and Commentary (2nd ed, 2012).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

### LL4AW  Half Unit

**Foundations of International Human Rights Law**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Susan Marks NAB 7.14

**Availability:** This course is available on the MSc in Development Studies, MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Public International Law, Human Rights Law.

This course is capped at 60 students.

**Pre-requisites:** None but is a pre-requisite for LL4AX when available.

**Course content:** The course provides an introduction to historical developments and institutional structures that have given shape to the international human rights legal regime. Part 1 of this course considers a range of foundational and enduring debates around the role of international human rights as a force for emancipatory change and popular empowerment. With a particular focus on the post-1945 institutional order, Part 2 maps the terrain that established the human rights regime at the international level and that continues to inform the contributions and limits of human rights protection and promotion. Topics vary from year to year and may include: Ethical Foundations

• Universality and Diversity

• Legal Sources and Normative Frameworks

• Historical Antecedents

• Global Regime

• Human Rights Enforcement UN Reform

• Regional Human Rights Regimes.

**Teaching:** 20 hours of lectures in the MT. 2 hours of lectures in the ST.

10 weekly two-hour lectures in the Michaelmas term, with a reading week in week 6, based on a format of lecture-discussions with the possibility of guest speakers where appropriate and depending on numbers, corresponding fortnightly one-hour classes.

**Formative coursework:** One 2,000 word essay.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

### LL4AX  Half Unit

**Not available in 2016/17**

**Selected Topics in International Human Rights Law**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Susan Marks NAB 7.14, Dr Margot Salomon TW2 11.01F and Prof Christine Chinkin NAB 6.15

**Availability:** This course is available on the MSc in Development Studies, MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Public International Law, Human Rights Law

Pre-requisites: Students must have completed Foundations of International Human Rights Law (LLA4W).

Course content: Building on the foundations provided in LLA4W, this course explores the international protection of human rights through a range of contemporary topics. The course examines legal and institutional efforts to combat deprivation, indignity and violence, along with the rights of particular groups, such as refugees and indigenous peoples. Recurring questions will be: in what ways do international human rights help to alleviate global problems involving suffering and in what ways do they instead serve to sustain the conditions for those problems’ occurrence? How might we understand the contribution of human rights to addressing current ills, and what are their particular limitations? Through the study of key concepts, norms, processes and debates, students will be encouraged to develop an informed and critical assessment of the significance of human rights as a force for emancipatory change. Topics may include:

- Human Rights and Counter-terrorism
- The Prohibition on Torture in Question
- Economic, Social and Cultural Rights
- Violence Against Women
- Human Rights and Armed Conflict
- The Human Rights of Refugees and Internally Displaced Persons
- Identity and Non-Discrimination
- Indigenous Peoples and Rights to Land and Natural Resources

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Teaching based on a format of lecture-discussions with the possibility of guest speakers where appropriate and depending on numbers, corresponding fortnightly one-hour classes.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LLA4Y Half Unit
International Tax Systems

This information is for the 2016/17 session.

Teacher responsible: Eduardo Baistrocchi, Room NAB 7.33.
Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: International Business Law, Taxation.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: Students should have at least a basic knowledge of a tax system of a country (not necessarily the UK) or be studying LL4Z1 Business Taxation.

Course content: This course examines how taxation applies to transactions in the international context, and considers tax law that operates at the international and supra-national levels. The focus is on rules that operate at an international or supra-national level, though we will look at some domestic rules that are important to international taxation and that can be found in a number of important tax systems. The course will look at a series of international transactions, starting with the very basic example of an export and import of goods and culminating with the treatment of some complex and artificial structures. The features of tax systems will be studied through these transactions, particularly those features found in double tax conventions and in the law of the European Union. In the first part of the course this will be supplemented by introductions to some key foundation concepts that are needed in the study of international taxation. Throughout the course examples will be drawn from the tax systems of a range of countries.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

This will be based on a format of lecture-discussions with the possibility of guest speakers where appropriate and depending on numbers. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are asked to submit one 2,000 word essay.

Indicative reading: Detailed reading lists will be provided during the course via Moodle.

Recommended preliminary reading:

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LLA4Z Half Unit
International Tax Systems: Advanced Problems

This information is for the 2016/17 session.

Teacher responsible: Eduardo Baistrocchi, Room NAB 7.33.
Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: International Business Law, Taxation.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: Students should have at least a basic knowledge of a tax system of a country (not necessarily the UK) or be studying LL4Z1 Business Taxation.

Course content: The course will look at a series of international transactions, focusing on the treatment of some complex and artificial structures. They include base erosion, profit shifting and the resolution of transfer pricing disputes. Throughout the course examples will be drawn from the tax systems of a range of countries from the OECD and non-OECD worlds.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

This is based on a format of lecture-discussions with the possibility of guest speakers where appropriate and depending on numbers, corresponding fortnightly one-hour classes.

Formative coursework: Students are asked to submit one 2,000 word essay.

Indicative reading: Detailed reading lists will be provided during the course via Moodle.

Recommended preliminary reading:

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
LL4B1 Half Unit
Foundations of International Economic Law

This information is for the 2016/17 session.
Teacher responsible: Mr Christopher Thomas
Availability: This course is available on the MSc in Development Studies, Master of Laws and Master of Laws (extended part-time study). This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.
Course content: The aim of the course is to study in detail those aspects of public international law which are concerned with international economic relations. We will concentrate on the core principles, norms and policies of international trade governed by the World Trade Organization. The course topics may include:
- Historical background of the international economic order
- Theoretical approaches to international political economy
- WTO decision-making and dispute settlement
- GATT/WTO basic principles: MFN, national treatment, tariffs, quotas and exceptions
- Selected additional topics chosen from amongst: Trade in Services; Trade-Related Intellectual Property Rights; Technical Barriers to Trade; Sanitary and Phytosanitary Measures; Subsidies and Countermeasures; Anti-Dumping; Relationship between the WTO and regional integration; Trade and public health / environment / human rights / development.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in week 6.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4BB Half Unit
International Law and the Movement of Persons Between States

This information is for the 2016/17 session.
Teacher responsible: Dr Louise Arimatsu
Availability: This course is available on the MSc in Human Rights, MSc in International Migration and Public Policy, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course will be relevant to the following LLM specialisms: Public International Law and Human Rights Law.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: The course provides a detailed study of the international legal framework in which the causes, problems, policies, standards, techniques and institutions concerning the movement of persons within States and protection of internally displaced persons are situated. The course explores the overlap between International Human Rights Law, International Humanitarian Law and Humanitarian Assistance with respect to internally displaced persons. It covers: the definition of internally displaced persons; individual criminal responsibility for forcible displacement before ad hoc Tribunals with criminal jurisdiction and the International Criminal Court; standards applicable in international law to the protection of internally displaced persons, the regime of humanitarian assistance to displaced persons; and finally the institutional protection of internally displaced persons by the United Nations Special Rapporteur on the Human Rights of Internally Displaced Persons, the United Nations High Commissioner for Human Rights, and the United Nations High Commissioner for Refugee. Topics include:
- Regulation of movement within States in International Law
- Territorialism, movement, and displacement
- Internally displaced persons and the role of the UN Special Rapporteur on the Human Rights of Internally Displaced Persons
- Protection of Internally Displaced Persons in International Human Rights Law
- Protection of Internally Displaced Persons in International Humanitarian Law
- The Regime of Climate Change induced Displacement
- Individual Criminal Responsibility for Forcible Displacement
- Institutional Protection and Humanitarian Assistance
- Internally Displaced Persons in Post-Conflict Situations
- Remedies and ‘durable’ solutions for Internally Displaced Persons.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

This will be based on a seminar format with structured discussions, debates, and presentations by students and guest speakers where appropriate.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4BA Half Unit
International Law and the Movement of Persons within States

This information is for the 2016/17 session.
Teacher responsible: Dr Louise Arimatsu
Availability: This course is available on the MSc in Human Rights, MSc in International Migration and Public Policy, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Public International Law and Human Rights Law.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

LL4BD Half Unit
Policing: Contemporary Issues and Controversies

This information is for the 2016/17 session.
Teacher responsible: Prof Robert Reiner NAB 7.23
Availability: This course is available on the MSc in Criminal Justice Policy, MSc in Public Management and Governance, MSc in Regulation, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following specialisms: Criminology and Criminal Justice, Public Law, Legal Theory.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: The police are a central part of the criminal justice system and of the State's formal machinery for maintaining order and enforcing law. It is difficult to underestimate their importance in the process of criminal law enforcement and social policy more generally. Nonetheless the police are one aspect of the more general institutions and processes of policing. There is a burgeoning research, policy-oriented and theoretical literature analysing the nature and functions of policing. Policing and police powers are central focal points for debate in the politics of criminal justice, as well as one of the fastest-growing areas in academic research and publishing within criminology. This course will review the extensive research literature. It is a recommended but not compulsory prerequisite for course LL4BD which examines contemporary issues and policy developments in policing. 1. The nature and functions of 'policing'. What is the role of the police in the State and legal system? The pluralisation of policing, and the relationship between the police and other aspects of policing. 2. The historical development of policing. Theoretical debates about the explanation and interpretation of changes in policing in modern times. 3. Police work and the impact of police organisations. Particular stress will be laid on issues of police discretion, culture, discrimination, and the measurement and enhancement of 'effectiveness'. 4. The characteristics and dynamics of police organisations. Particular attention will be paid to questions of management, personnel issues, and 'canteen culture' ie informal organisation 5. Specialist aspects of policing organisations, notably criminal investigation, and the control of public order, will be examined. 6. The relationship between State and 'private' forms of policing. 7. The legal powers of the police. Police powers and the controls over their exercise will be analysed, with particular reference to The Police and Criminal Evidence Act 1984 and its impact. 8. Police accountability and control. Who guards the guardians? The complaints system and the debates about police governance will be discussed. 9. The role of police organisation in the formulation of law and criminal justice policy. The politics of police representative associations, and their role as pressure groups for legal and policy change. 10. Policing and the Mass Media. The representation of the police and policing in the mass media will be analysed, and its implications assessed.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
This will be a Reading Week in week 6. There will be one revision session in the Summer Term.
Formative coursework: One 2,000 word essay.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4BC Half Unit
Policing and Police Powers

This information is for the 2016/17 session.
Teacher responsible: Prof Robert Reiner NA7.23
Availability: This course is available on the MSc in Criminal Justice Policy, MSc in Public Management and Governance, MSc in Regulation, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following specialisms: Criminology and Criminal Justice, Public Law, Legal Theory.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: The police are a central part of the criminal justice system and of the State's formal machinery for maintaining order and enforcing law. It is difficult to underestimate their importance in the process of criminal law enforcement and social policy more generally. Nonetheless the police are one aspect of the more general institutions and processes of policing. There is a burgeoning research, policy-oriented and theoretical literature analysing the nature and functions of policing. Policing and police powers are central focal points for debate in the politics of criminal justice, as well as one of the fastest-growing areas in academic research and
discriminatory use of police powers such as stop-and-search. 4) Innovations in policing tactics: such as community, zero-tolerance, problem-oriented, intelligence-led policing. 5) Developments in police governance e.g. Police and Crime Commissioners, the Independent Police Complaints Commission. 6) Alternative policing models, such as restorative justice, and the possible futures of policing.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
There will be a Reading Week in Week 6.
There will be one revision session in the Summer Term.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4BF  Half Unit  International Financial Regulation**

This information is for the 2016/17 session.

Teacher responsible: Dr Philipp Paech NAB 7.05

Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Accounting, Organisations and Institutions, MSc in Law and Accounting, MSc in Regulation, MSc in Risk and Finance, Master of Laws and Master of Laws (extended part-time study). This course is not available as an outside option.

This course will be relevant to the following LLM specialisms: Banking Law and Financial Regulation, Corporate and Securities Law and International Business Law. This course is capped at 60 students.

Course content: This course focuses on the micro- and macro-prudential regulation of financial institutions and the financial system. It examines the prudential regulation of banks, bank resolution schemes, the regulation of shadow banking and other regulatory attempts to ensure financial stability. The focus will be on the regulation of national and international aspects of financial institutions and the financial system, rather than on private law and transactional aspects.

No previous knowledge of financial market regulation or background in economics is required for those wishing to follow this course. For non-lawyers, a willingness to engage in legal analysis will be necessary, although a legal background is not required.

The syllabus may include the following topics:
- The Rational of International, EU and UK Regulatory Structures
- Core concepts of Financial Regulation, pre- and post-Crisis
- Financial Stability – Policy Issues, Principles and Global Standard
- Prudential Regulation of Banks – The Basel Accords
- The EU Banking Union
- National and Cross-border Resolution of Failing Banks
- Regulating Shadow Banks
- Regulating Alternative Investment Funds
- Regulating Credit Rating Agencies

Teaching: 20 hours of lectures and 5 hours of classes in the LT. 1 hour of lectures in the ST.
There will be 10 two-hour lectures, plus ‘follow-up’ classes if numbers exceed 30. A number of guest lecturers may also be invited to give seminars on their specialist areas. There will be a Reading Week in week 6.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Indicative reading: A full reading list will be distributed during the course and essential materials will be made available to the students electronically where possible. In addition, the students will be invited to do independent reading. Good general introductions are A. Turner et al, The Future of Finance: The LSE Report (2011) and D. Tarullo, Banking on Basel (2008) and E. Avgouleas, Governance of Global Financial Markets (2012).

Assessment: Exam (100%, duration: 2 hours) in the main exam period.
LL4BG  Half Unit
Rethinking EU Law

This information is for the 2016/17 session.
Teacher responsible: Dr Michael Wilkinson NAB 6.28
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
For the LLM (Specialisms: European Law, Legal Theory, Public Law, Human Rights Law)
Course content: The course examines the philosophical and theoretical underpinnings of the EU and European Union law: it explores issues such as the nature and evolution of the EU and its legal order, its relationship to international law, its democratic and constitutional credentials, the place of fundamental rights and their relationship to market freedoms and the idea of a European economic constitution, which underlies the law of the Internal Market. It offers students a deeper understanding of the structures and systems that inform EU law but also an opportunity to think about how European integration informs our ideas of law and the modern state.
Teaching: 22 hours of seminars in the MT.
Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.
Assessment: Essay (100%) in the LT.

LL4BH  Half Unit
Contemporary Issues of European Union Law

This information is for the 2016/17 session.
Teacher responsible: Dr Jan Komarek COW 1.04
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
For the LLM (Specialisms: European Law, Public Law, Human Rights Law)
Pre-requisites: Basic knowledge (at an undergraduate level) of EU law is required.
Course content: “If the euro fails, Europe fails”, warned the German chancellor Angela Merkel in 2011 at the (first) apex of the sovereign debt crisis. Since then the European Union has faced many more potential failures – and crises. The course has two aims: first, to analyse the crises and challenges Europe is facing and prospects of the Union to stand up to them. Second, in order to understand the many crises in Europe, we need to understand Europe and European integration. We will therefore study some of its foundational values and concepts that form its legal and political vocabulary.
What kind of crises and challenges? Which values and concepts? Financial crisis, of course – but that has given way in public discourse to another crisis: the “refugee crisis”. So far the European states – and their Union – were not capable to deal with it and the Union is more and more seen as a source, and not the solution to it. But there is a deeper issue here as well, going to the very heart of what Europe stands (or wants to stand) for: irregular migrants “are treated as both security threats to Europe and as lives that are threatened and in need of saving”. How this tension is (not) being solved suggests something about the importance of borders and security for the legitimacy of the government, “governmentality” and technologies of power in today’s Europe.
With the border crisis another boundary re-emerged in the political discourse: that between West and East, or liberal-democratic Europe and Europe at the “end of post-communism”. Easterners are yet again being told to learn the terms of their membership in the EU, which contain also “solidarity”: with the refugees (“the lives to be saved”) and the states that bear a disproportionate burden (“lives as liabilities”). What does solidarity mean in today’s Europe and which place does it have in the whole integration project? There are other problems in the East: after the Union failed to prevent the rise of an illiberal (and increasingly authoritarian) regime in Hungary, it wants to do better this time: on 13 January of this year the Commission decided to start “the structured dialogue under the Rule of Law Framework” with Poland – a first step which may eventually end with imposing sanctions on Poland for the violation of the Union’s foundational values prescribed by Article 7 TEU.
Is this Europe’s role, however, given its own problems with democracy and political legitimacy? Isn’t this yet another sign of the German dominance in Europe, something the integration project had been succeeding in preventing, but today seems rather to contribute to? Do we have German Europe today rather than European Germany?
Is not the Union best understood as a cooperative enterprise among the member states aimed principally at securing economic prosperity through free trade promotion, as many people in the UK seem to believe? The debate around Brexit, as well as the Transatlantic Trade and Investment Partnership (TTIP) currently negotiated between the Union and the United States both provide a focal point for such debate.
We will therefore discuss the challenge of Europe’s purpose, identity and its relationship to the people of Europe too – all related to the issues mentioned above.
Teaching: 22 hours of seminars in the LT.
Formative coursework: All students are expected to produce one 2,000 word formative essay during the course. The formative essay serves as a basis for the assessed essay.
Assessment: Essay (100%, 8000 words) in the ST.

LL4BK  Half Unit
Corporate Crime

This information is for the 2016/17 session.
Teacher responsible: Mr Jonathan Fisher
Availability: This course is available on the MSc in Accounting and Finance, MSc in Criminal Justice Policy, MSc in Law and Accounting, MSc in Regulation, MSc in Risk and Finance, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Banking Law and Financial Regulation Corporate and/or Commercial Law Corporate and Securities Law Criminology and Criminal Justice International Business Law.
This course is capped at 60 students. Students must apply through
Financial Crime

This information is for the 2016/17 session.

Teacher responsible: Mr Jonathan Fisher

Availability: This course is available on the MSc in Accounting and Finance, MSc in Criminal Justice Policy, MSc in Law and Accounting, MSc in Regulation, MSc in Risk and Finance, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Banking Law and Financial Regulation Corporate and/or Commercial Law Corporate and Securities Law Criminology and Criminal Justice International Business Law.

This course is capped at 60 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course focuses on financial crime committed within the commercial and business environment and explores current perspectives in the detection, investigation and prosecution of these cases in the wake of the global financial crisis. The introductory session explores the taxonomy of financial crime, examining the nature and extent of financial crime, its social and economic impact and the perceived ambivalence to the prosecution of financial crime offenders. The course explores a definition of fraud through a consideration of notions of dishonesty and deception, examining the role of consent and the interaction between the criminal law and civil law notions of property and trust. Cybercrime is the most prevalent way in which fraud is committed today. In addition to exploring its nature and scale, the course considers how the criminal law is deployed to combat cybercrime. The engagement between financial crime and the global financial crisis is a critically important topic and the course examines offences such as insider dealing and misleading the financial markets. In addition, the course explores the potential criminality of other practices such as manipulating the financial markets, short selling and reckless risk taking. International initiatives to promote asset confiscation and penalise money laundering have featured heavily in the fight against financial crime. The course examines the tensions which arise when these initiatives are implemented into domestic law. Finally, the course explores the difficulties encountered by the enforcement authorities when investigating financial crime cases and the potential incompatibility between the exercise of compulsory interrogation powers and privacy issues. The course concludes with a session on the principles of sentencing in financial crime cases. There is no overlap between this course and the course on Corporate Crime in the Michaelmas (first) Term. Corporate Crime is not a pre-requisite for this course.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

The first half of the session is lecture format, the second half seminar format. Students have an opportunity to work with other students in the presentation of seminars. Week 6 is a reading week.

There is one revision session in the summer term.

Formative coursework: One 2,000 word essay.

Indicative reading: Reading is prescribed for each lecture and seminar. There are no core textbooks available for the course; however, all the reading material is available from resources easily accessible through LSE Moodle, LSE Electronic Library and the internet. Preliminary reading is not required but for an understanding of the areas covered in the course students may read Wells: Corporations and Criminal Responsibility, 2nd edition, 2001, Oxford University Press; Gobert & Punch: Rethinking Corporate Crime, 2003, Butterworths LexisNexis; Green: Lying, Cheating and Stealing: A Moral Theory of Security, 2012, CRC Press Taylor & Francis Group.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

L44BL Half Unit

The Legal Protection of Inventions

This information is for the 2016/17 session.

Teacher responsible: Dr Siva Thambisetty NAB 7.29

Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Information Technology, Media and Communications Law, Intellectual Property Law, Corporate and Commercial Law, International Business Law, and Competition, Innovation and Trade Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course provides an advanced and comprehensive introduction to the legal protection of invention through patents. Legally defined inventions are everywhere - in the velcro used to fasten a gym bag, in the tap or touch of a...
smartphone, in the food we eat, the medicines we take, the clothes we wear and in the buildings we live in. There are yet more inventions in the innovation pipeline and some that live only in our fertile technical imagination. Patent rights over such inventions increasingly intersect with diverse values such as competitive innovation, income equality, universal healthcare, regulation of risky technologies and the autonomy to pursue scientific prospects. In this course we will study the basics of patent prosecution as well as the theoretical and actual relationship between patents and innovation, both in law and in economics. Students will address central patentability criteria as well as patent eligibility for inventions that incorporate software, biotechnology or morally controversial technologies. These topics often call for a comparative approach based on UK, EU and US patent law. The aims of this course are to gain in-depth knowledge of patent law doctrine, familiarity with widely different contexts of innovation and a sound critical approach to the general principles of the legal protection of inventions. Students do not need a scientific background and will be supported in learning the relevant technical aspects.

Topics covered include: Novelty, inventive step, person skilled in the art, industrial applicability, sufficiency of disclosure, computer implemented inventions and business methods, biotechnology, exclusions (such as animal varieties, diagnostic methods, on grounds of morality) and the fundamentals of claim construction. This course is a pre-requisite for LL4BN and students are encouraged to consider taking both courses.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

This is a Lent term course, and consists of 10 weekly two-hour seminars in variable format including lecture-discussions and student-led seminars. There will be a Reading Week in week 6 of LT.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Assessment:** Essay (100%, 8000 words) in the LT.

---

**LL4BN**  **Half Unit**  **Not available in 2016/17**

**Innovation, Technology and Patent Law**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Siva Thambisetti NAB 7.29

**Availability:** This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

Not available 2016/17

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** Students must have completed The Legal Protection of Inventions (LL4BM).

**Course content:** This course will build on the comprehensive and advanced introduction to patent law provided in LL4BM to address sophisticated issues of law and public policy through multiple perspectives. Thematic focus in seminars may include institutional theory, understanding of technology cycles, competition policy, international powers of norm-setting and trade related coercion, the reasonableness and confusion surrounding the demands of the global pharmaceutical industry, the utilitarian balance between patent rights and the freedom to conduct research, the meaning of efficiency in patent law and bioethics. Some of the case studies that will be covered include infringement and the freedom to repair, plant variety rights, synthetic biology, TRIPS and access to patented medicines, the research use exception, patent offices, patent litigation and the need for a unitary patent court, competition law and policies in the technology and pharmaceutical sector. This course complements several areas of national and international law and policy.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

This is a Lent term course, and consists of 10 weekly two-hour seminars in variable format including lecture-discussions, student-led seminars and guest lecturers where appropriate. Students are expected to participate in class discussions and critically explore further implications of the reading covered each week.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Indicative reading:** Weekly readings will include book chapters, law review articles, reports and studies as well as cases.

Robert Merges Justifying Intellectual Property Law HUP 2011

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

**LL4BP**  **Half Unit**  **Not available in 2016/17**

**Current Issues in Intellectual and Cultural Property Law**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Robert Pottage NAB 7.21

**Availability:** This course is available on the MSc in Law, Anthropology and Society, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

Not available 2016/17

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

This course will be relevant to the following LLM specialisms: Intellectual Property Law; Legal Theory and Competition, Innovation and Trade Law.

**Course content:** This course takes a broadly historical, theoretical and contextual approach to the study of intellectual and cultural property law. It focuses on a set of topical questions that illuminate paradigms, institutional models and social and economic formations that cut across the diversity of intellectual and cultural property regimes; questions about the nature of property in intangible things, about the implications of the transnational expansion of intellectual property forms and institutions, about the role of comparative analysis in the study of intellectual property, or about how regimes forged in the era of industrialization have adapted to new modes of production and distribution. These expansive questions are not asked in abstraction. Seminars will focus on specific case studies of institutions, transactional forms and social effects. Many of these studies are chosen for their topicality, so the contents of the course will evolve from year to year, but seminar topics might include: the emergence of new regimes of open source biotechnology, the evolution of non-conventional trade marks such as scents, textures and shapes; the effects of regime-shifting between different international frameworks for the regulation of questions of intellectual property; the bases of emerging markets in cultural property and heritage; the re-emergence of old tensions between
LL4BQ  Half Unit

Trade Mark Law

This information is for the 2016/17 session.

Teacher responsible: Alain Pottage

Availability: This course is available on the MSc in Law and Accounting, MSc in Law, Anthropology and Society, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Intellectual Property Law; Information Technology, Media and Communications Law

Pre-requisites: None

Course content: This foundation course offers an in depth analysis of legislation and case law concerning registered trademarks in the UK and EU, against the backdrop of relevant developments in international and comparative law. Topics covered include: an introduction to national, regional and international trade mark registration systems; the background of unfair competition law; registration requirements; absolute grounds and relative grounds of refusal of registration; the scope of trade mark rights; the tests for infringement - confusion and dilution; exceptions and defences.

Teaching: 20 hours of seminars and 2 hours of help sessions in the LT. There will be a Reading Week in week 6 of LT.

Formative coursework: One 2,000 word essay.

Indicative reading: Core Textbook - L Bently and B Sherman Intellectual Property 4th ed (OUP, Oxford 2014). Students will be expected to read widely in designated journals and books. All of the recommended cases and journal articles are available in electronic form and additional materials will be made available on the Moodle website which supports this course. A detailed reading list will be provided for the course, but the following are indicative: Available in the Library: L Bently, J Davis, J Ginsburg (eds) Trade Marks & Brands: An Interdisciplinary Critique (CUP, Cambridge 2008); A Arvidsson, Brands: Meaning and Value in Media Culture (Routledge, London 2006); C Lury, Brands. The Logos of the Global Economy (Routledge, London 2004); G Dinwoodie & M Janis (eds) Trade Mark Law and Theory: A Handbook of Contemporary Research (Edward Elgar, Cheltenham 2008); S Maniatis & D Botis, Trade Marks in Europe: A Practical Jurisprudence 2nd ed (Sweet & Maxwell, London 2010).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
**LL4BT** Half Unit  
**Cultural Property and Heritage Law**

This information is for the 2016/17 session.  
**Teacher responsible:** Dr Tatiana Flessas  
**Availability:** This course is available on the MSc in Law, Anthropology and Society, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. 
This course will be relevant to the following LLM specialisms: Intellectual Property Law. 
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.  
**Course content:** This course looks at cultural property and heritage law from legal, social theoretical and practice-oriented perspectives. It provides an overview of existing and emerging cultural property and heritage legislation (domestic and international). We will be looking in particular at the development of cultural property legislation in the 20th century and emerging international cultural property and heritage initiatives under the auspices of the UN and UNESCO. 
Topics to be covered include the origins of cultural property laws, the problems in defining cultural property and heritage, current issues and cases in repatriation and restitution of cultural objects, the National Trust and other heritage protection regimes, and intangible cultural heritage. The course also addresses the creation and management of museums and heritage sites, primarily within the UK, but also including sites in North and South America, Europe and Asia. We consider how the issues that we’ve identified throughout the course arise in the ongoing construction, protection, and (primarily economic) uses of heritage. Along with specialist seminars, the course includes visits to museums and contact with practising experts in the field. 

**Teaching:** 20 hours of seminars and 2 hours of seminars in the MT. 2 hours of seminars in the ST.  
Week 6 in the MT is a Reading Week.  
**Formative coursework:** One 2,000 word essay.  
**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4BU** Half Unit  
**Art and Antiquities Law**

This information is for the 2016/17 session.  
**Teacher responsible:** Dr Tatiana Flessas  
**Availability:** This course is available on the MSc in Law, Anthropology and Society, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. 
This course will be relevant to the following LLM specialisms: Intellectual Property Law. 
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.  
**Course content:** This course engages in a discussion of specific cases and issues regarding acquisition, ownership, and restitution of antiquities and works of art, and the problems that arise in regulating markets in art, antiquities and cultural artefacts. We will look at domestic (UK and US) and international legislation regulating the art and antiquities trades. Against this legislative background, the course examines important cases in disputes regarding looting and provenance of antiquities, and questions of commodification and sale of cultural artefacts and antiquities, including the issues that arise in the operation of the art market (dealers, museums, collectors and auction houses). ‘Art Law’ is a specialized area of practice and an emerging area of theory and scholarship. We will look at some of the cases and theory of art and law, including the practices of dealers and auction houses in valuing (and mis-valuing) art for sale; the recent developments in addressing the restitution of art taken during the Nazi era; museum loans and the cross-border movement of art; the restoration and conservation debate(s) and then turn to a scholarly and interpretive approach to the issues that arise in considering the art market. ‘Antiquity Law’ is an engagement with the problems of the market(s) in antiquities and the legal and ethical burdens on the participants in this trade. We will look at the practices and constraints that arise in the context of both private purchasers/ dealers and museums acquiring antiquities. We will focus on the case that the government of Italy brought against Marion True, the erstwhile Curator of Antiquities at the Getty Museum, and we will consider how that ground-breaking prosecution changed some of the practices in this area, as well as added to the toolbox for nations seeking repatriation of cultural objects. We will also return to the questions that arise in dealer, auction house and museum policies more generally. Finally, practitioners in these areas, museum and auction house professionals, archaeologists, and art experts will be contributing to the seminars on the emerging legal issues in this area. 

**Teaching:** 20 hours of seminars and 2 hours of seminars in the LT. 2 hours of seminars in the ST.  
Week 6 in the LT is a Reading Week.  
**Formative coursework:** One 2,000 word essay.  
**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
LL4BV  Half Unit
Transnational Environmental Law

This information is for the 2016/17 session.
Teacher responsible: Dr Veerle Heyvaert NAB706
Availability: This course is available on the MSc in Environmental Policy and Regulation, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: European Law, Public International Law, Public Law.
Course content: The course instructs students on key issues in environmental law and governance beyond the state. Through the study of recent developments in international environmental law, regional law (including EU law) and private environmental regulation, the course investigates how new transnational environmental laws are made, what the role is of science in environmental decision-making and dispute resolution, how transnational environmental law is implemented and enforced, and whether transnational corporations can be held accountable for environmental damage. The questions are illustrated through case studies relating to, among others, climate change, biodiversity protection and chemical risk control.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
There will be a reading week in week 6.
Formative coursework: One 2,000 word essay.
Indicative reading: A detailed reading list will be provided for each seminar. The overwhelming majority of readings are electronically available as e-books or in e-journals. Essential reference works include the journal Transnational Environmental Law; Lee, EU Environmental Law; Governance and Decision-Making (2nd ed, Hat, 2014); Sands & Peel, Principles of International Environmental Law (3rd ed, CUP, 2012); Bodansky, The Art and Craft of International Environmental Law (2010, Harvard University Press); Bodansky, Brunnee & Hey, The Oxford Handbook of International Environmental Law (OUP, 2007); R. Revesz, P. Sands & R. Stewart, Environmental Law, the Economy, and Sustainable Development (CUP, 2000); and the Stern Review Executive Summary (online).
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4BX  Half Unit
Corporate Governance - Advanced Topics

This information is for the 2016/17 session.
Teacher responsible: Dr Eva Micheler NAB735
Availability: This course is available on the MSc in Accounting, Organisations and Institutions, MSc in Public Management and Governance, MSc in Risk and Finance, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 60 students. Students must apply through Graduate Course Choice on LSE for You.
This course will be relevant to the following specialism: Corporate and/or Commercial Law.
Course content: This course will focus on the corporate governance of companies. The course will be taught largely on a comparative basis, focussing on English and German law. We will also cover the relevant EU materials. The following topics will be discussed: 1- Corporate governance codes, their role as regulatory tools, their enforcement 2- Board structure (one tier boards/two tier boards/board committees) 3- Board remuneration 4- Auditors as external trustees 5- Stakeholders 6- Extended reporting and employee interests 7- Shareholder activism/stewardship 8- Concentrated ownership structures and minority shareholders 9- The market for corporate control 10- convergence/path dependency/legal origins
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
Formative coursework: Students are asked to submit one 2,000 word essays.
Indicative reading: Reading will be prescribed for each seminar. Preliminary reading can be found in P Davies, Introduction to Company Law (ch 5-9, 2002); R Kraakman et al, The Anatomy of Corporate Law (2d ed 2009); A Cahn and D C Donald, Comparative Company Law: Text and Cases on the Laws Governing Corporations in Germany, the UK and the USA (2010); B Cheffins, Company Law: Theory, Structure and Operation (Parts I and III, 1997); M Roe, Political Determinants of Corporate Governance (2003); K Hopt et al, (Eds), Comparative Corporate Governance (1998); J Parkinson, Corporate Power and Responsibility (1993).
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4BW  Half Unit
Law and Political Thought

This information is for the 2016/17 session.
Teacher responsible: Professor Thomas Poole
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
This course will be relevant to the following LLM specialisms: Human Rights Law, Legal Theory and Public Law
Pre-requisites: None.
Course content: This course examines the relationship between law and political theory. It does so through the study of classic texts of political thought: typically Hobbes, Leviathan, Rousseau, Social Contract; Tocqueville, Democracy in America; Burke, Reflections on the Revolution in France; de Maistre, Considerations on France. In this way, the course deals with major topics of theoretical and juridical interest, such as the rule of law, liberalism and republicanism, cultural pluralism, theories of authority and legitimacy, revolution and the state, nationalism and cosmopolitanism.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
There will be a reading week in week 6.
Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.
Indicative reading: The reading for the course consists of classic texts in political thought. Many are available online and the course is delivered through Moodle.
Assessment: Essay (100%, 8000 words) in the LT.

An Introduction to the International Human Rights of Women

This information is for the 2016/17 session.
Teacher responsible: Prof Christine Chinkin
Availability: This course is available on the MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Human Rights, Public International Law.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: The course provides an introduction to the concept of women’s human rights and the international legal protections of such rights. It is located within the framework of international law and feminist legal theories. The international legal instruments for the guarantee of women’s civil and political and economic and social rights will be examined for students to acquire knowledge and understanding of the basic texts and the international monitoring mechanisms. Detailed attention will be accorded to the United Nations Convention on the Elimination of All Forms of Discrimination against Women, 1979 and the work of the Committee on Elimination of Discrimination against Women. Topics include:

- Introductory: the United Nations Gender Architecture
- Sex and gender; feminist theories of equality and difference
- International instruments for the guarantee of women’s rights
- Convention on the Elimination of All Forms of Discrimination against Women, 1979: History, Substance and Reservations
- Economic, Social and Cultural Rights
- Universality and Cultural Relativism
- Beyond the Convention on the Elimination of All Forms of Discrimination against Women: Global Conferences; Regional Protections
- Combating Violence against Women (I)
- Combating Violence against Women (II)

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Student participation will be expected. Students are also encouraged to draw upon and share relevant experiences.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Indicative reading:

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4C2 Half Unit Not available in 2016/17
World Poverty and Human Rights

This information is for the 2016/17 session.

Teacher responsible: Dr Margot Salomon TW3, 8th floor

Availability: This course is available on the MSc in Development Studies, MSc in Global Politics, MSc in Human Rights, MSc in Inequalities and Social Science, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: Some knowledge of public international law is required.

Course content: This course examines world poverty and inequality from the perspective of international law aimed at the protection of human rights. Drawing on rights and obligations, the course considers the duties of states and other actors and the ways in which they may be implicated in the deprivation which has 2.7 billion people concentrated in the South, and many in the North, unable to exercise their minimum essential levels of human rights. While the approach to the course is largely normative and conceptual, it will explore its findings in relation to international players and institutions that impact positively or negatively on human rights today, as well as examine the application of legal standards and developments to some areas of outstanding concern.

Topics to be covered may include:
- Poverty as a human rights issue
- Human rights, economics and development
- The right to development and claims against the public international order
- The scope and content of the obligation of international cooperation
- The work of the UN Committee on Economic, Social and Cultural Rights
- Human rights and the World Bank, IMF, international trade, investment, and finance
- Interrogating the Millennium Development Goals and the Sustainable Development Goals.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

In 2015-16 this course will have two seminars every two weeks, instead of one seminar per week. Please see timetables for further details.

Formative coursework: Students will receive feedback on work completed during the course.

Indicative reading:
- G. Abi-Saab, 'The Legal Formulation of the Right to Development', in R-J Dupuy (ed), The Right to Development at the International Level, Hague Academy of International Law (1980);
- Duties Sans Frontières: Human Rights and Global Social Justice (International Council on Human Rights Policy, 2003);
- M.E. Salomon, A. Tostensen and W. Vandenhoele (eds), Casting the Net Wider: Human Rights, Development and New Duty-Bearers (2007);
- M.E. Salomon, Global Responsibility for Human Rights: World Poverty and the Development of International Law (2007);
- R. Danino, ‘The Legal Aspects of the World Bank’s Work on Human Rights’ in P. Alston and M. Robinson (eds), Human Rights and Development (2005);

A detailed reading list will be issued at the first seminar.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4C5 Half Unit
Fundamentals of International Commercial Arbitration

This information is for the 2016/17 session.

Teacher responsible: Dr Jan Kleinheesterkamp NAB 7.09

Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 60 students.

Course content: This course offers the fundamentals of international commercial arbitration, the most important dispute settlement mechanism for international commercial transactions. The course provides a complete introduction to the functioning of arbitration in theory and in practice. London being one of the main centres of arbitration in the world, this course focuses mainly on
English arbitration law which is put into a comparative perspective and contrasted especially with the UNCITRAL Model Law on International Commercial Arbitration and French law. Special attention is given to the different types of rules that may have to be taken into consideration in an international arbitration. This course prepares for LL4E7 Advances Issues of International Commercial Arbitration and provides for some of the procedural basics for LL4E7 Investment Treaty Law.

**Teaching:** 20 hours of lectures and 5 hours of classes in the MT. 2 hours of lectures in the ST.

Reading week in week 6

**Formative coursework:** One 2,500 word essay after week 6 on previous exam questions (choice of 1 out of 3).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4C6 Half Unit**

**Advanced Issues of International Commercial Arbitration**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Jan Kleinheisterkamp NAB 7.09

**Availability:** This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 60 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** Students must have completed Fundamentals of International Commercial Arbitration (LL4C5).

Or a course on arbitration in previous studies or solid practical experience in the field.

**Course content:** This course aims at giving students who already are acquainted with the fundamentals of arbitration the possibility to go into depth into selected problems of international commercial arbitration. The course is based on student presentations and intense discussions of these problems in order to raise the sensitivity for the issues at stake. The course is highly relevant for those wanting to specialise in arbitration practice, as the theoretical problems have a significant impact on practical solutions. The course will treat a selection of topical contemporary issues of international commercial arbitration, such as the law applicable to arbitration agreements; the scope of the competence-competence principle; the role of internationally mandatory rules of law arbitration & insolvency, arbitration and fraud and corruption; or the enforcement of awards internationally mandatory rules of law arbitration & insolvency, arbitration and fraud and corruption; or the enforcement of awards

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Teaching:** 20 hours of seminars in the LT. There will be a reading week in week 6

**Formative coursework:** One group presentation in the seminar and an essay of 2,500 words.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4CA Half Unit**

**Law and Social Theory**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Umberto-Igor Stramignoni NAB 7.34

**Availability:** This course is available on the MSc in Criminal Justice Policy, MSc in Law, Anthropology and Society, MSc in Regulation, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. LLM Specialisms This course will be relevant to the following LLM specialism: Legal Theory

**Course content:** Social theory is rapidly evolving into a key cross-disciplinary field of inquiry exploring both philosophical analyses and social science descriptions about, in one important case, the place of law in modern societies.

The focus of such an inquiry in this course is on the interplay of law and space. The latter is at the heart of some of today's hottest debates, such as globalisation, the politics of place, our engagement with nature, and the city and its complexities. However, how does the law understand the link between itself and the space in which it operates? Does it understand it in the same way as do architects, urban planners, geographers, governments, policy makers, advocacy groups, or economists, for example, when speaking of the natural or the built environment, such as mountains, rivers, roads, airports, prisons, courtrooms, or immigration detention centres? Moreover, do we understand space in the same way? What if bodily habits, traits of character, idioms, and abiding habits of thought, have a role in shaping our individual and collective sense of space? What would it mean to frame talk about space in terms of “dwelling”, for example, or “embodiment”, or “emplacement”, and so on? Could it be that the very attempt of making sense of law’s place in society, is problematically caught up with a specific cultural heritage no longer able to unpack the full complexity of the topos of law, its visuality, or even its materiality? Put it simply, is space always and everywhere the same place, as Copernicus, Galileo, Newton, Bacon and Descartes once thought, or is it something potentially so different as to call for a new thinking about it and, from there, about the “place” of law in society?

In this course, we will survey several perspectives on the elusive spatiality of modernity, debating the extent to which we can continue to treat space as the impassive repository of human affairs portrayed by tradition. Could it be that, if law is everywhere in space, on an altogether different level space is – paradoxical though it might sound at first – everywhere in law?

**Teaching:** 22 hours of seminars in the LT

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
LL4CB  Half Unit  Not available in 2016/17
Modern Legal History: Private Law and the Economy 1750-1950

This information is for the 2016/17 session.
Teacher responsible: Prof. Michael Lobban
Availability: This course is available on the MSc in Economic History, MSc in Economic History (Research), MSc in Law, Anthropology and Society, MSc in Regulation, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
LLM Specialisms This course will be relevant to the following LLM specialisms: Legal Theory.
Course content: This course will examine how the common law aided or hindered economic growth in the era between 1750 and 1950, by focusing in particular on the development of doctrines of private law. The course will concentrate on a number of themes and topics. It will begin with a discussion of the nature of the common law, and the modes of common law reasoning, to establish what kind of legal system economic actors were dealing with. It will then look at the developing law of contract, to explore how far the ideology of ‘freedom of contract’ assisted growth. It will further explore the law relating to civil wrongs (including the law relating to compensation for accidents and pollution) and unjust enrichment (particularly in the context of business failures). It will also explore some specific topics, including the law relating to corporate enterprise, bankruptcy and insurance.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4CC  Half Unit  Commercial Remedies

This information is for the 2016/17 session.
Teacher responsible: Dr Solene Rowan NAB 7.26 and Dr Charles Webb NAB 6.26
Dr Charlie Webb
Availability: This course is available on the Master of Laws. This course is not available as an outside option.
Specialisms: Corporate and/or Commercial Law; International Business Law
Pre-requisites: Undergraduate contract and tort law
Course content: The objective of the course is to provide students with a detailed understanding of remedies in a commercial context. The reading addresses both case law and academic commentary. Here is an indicative list of the issues that will be considered on the course:
1. The aims of commercial remedies: What interests and other policies may be served by the law when remedying commercial disputes?
2. The function of contract damages: How do the courts assess damages for breaches of contract? Should the courts do more to protect the claimant’s interest in performance? What limits are placed on the recovery or measure of damages?
3. Punishment: Is punishment of a defaulting defendant ever a legitimate aim in commercial remedies? Should punitive damages be given a greater role in English commercial law?
4. Agreed remedies: To what extent are commercial parties free to fix the remedies available to them in the event of breach? Does freedom of contract extend to the parties’ secondary obligations?
5. Unjust enrichment: What is the law of unjust enrichment? What is its relationship to the law of contract? What can commercial parties recover under the law of unjust enrichment?
6. Comparative law: How do other jurisdictions deal with these questions? What might the common law learn from civil law systems?
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
Formative coursework: All students are expected to produce one 2,000 word formative essay during the course. Formative assessment opportunities will be provided (essay or problem questions)
Campbell, Halson, Harris, Remedies in Tort and Contract (2nd edn CUP 2002).
Andrews, Clarke, Tettenborn and Virgo, Contractual Duties: Performance, Breach, Termination and Remedies (Sweet & Maxwell 2012).
Chitty on Contracts (31st edn Sweet & Maxwell 2012)
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4CD  Half Unit  European Company Law

This information is for the 2016/17 session.
Teacher responsible: Dr Carsten Gerner Beuerle NAB 5.08 and Mr Edmund-Philipp Schuster NAB 6.30
Availability: This course is available on the MSc in Law and Accounting, MSc in Regulation, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou. This course will be relevant to the following LLM specialisms: Corporate and/or Commercial Law; Corporate and Securities Law; European Law.
Pre-requisites: There are no formal prerequisites, but some understanding of European law and EU law-making is of advantage.
Course content: This course will examine the EU harmonization programme for companies. It will analyse the framework of primary EU law within which companies and national legislators must operate (the Treaty provisions on the right of establishment and the free movement of capital), as well as secondary measures of EU law regulating companies and relevant soft law initiatives. The course will also deal with the most important European forms of company, notably the SE (Societes Europaeae or European Company) and investigate the implications that corporate mobility within the EU has for regulating companies at the national level. Topics include:
- EU company law harmonization programme
- 1st Company Law Directive: formation and disclosure
- Right of establishment: primary and secondary establishment, transfer of seat, jurisprudence of the European Court of Justice (in particular: Centros, Überseering, SEVIC, Cartesio, VALE)
- Free movement of capital: golden shares jurisprudence of the European Court of Justice, BAA, KPN/TPG, VW; proportionality principle in the EU
- 2nd Directive and capital structure: minimum capital; payment for shares; publicity; distributions; stock repurchase; increases
in capital and capital reductions; serious loss of capital; case law interpreting the 2nd Directive; reform initiatives (e.g., SLIM Working Group)

- Corporate governance regulation in the EU: abandoned 5th Directive; Reconciliation on the role of non-executive or supervisory directors of listed companies; remuneration policies; Shareholder Rights Directive
- European Company Law Forms: European company (SE) and European private company
- State of European company law harmonisation; potential for regulatory competition and regulatory arbitrage

Teaching: 20 hours of lectures in the MT.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4CE Half Unit Not available in 2016/17 Security and Criminal Law

This information is for the 2016/17 session.

Teacher responsible: Dr Peter Ramsay NAB 6.27

Availability: This course is available on the MSc in Criminal Justice Policy, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: Undergraduate study of criminal law (or equivalent).

Course content: This is a course in advanced criminal law theory. The central concern of contemporary criminal justice policy is public protection. The course examines leading texts in Anglo-American criminal law theory in order to investigate the interests that are protected by the structure of the criminal law. Seminars cover:

- the concept of security;
- the concept of criminal law;
- state punishment;
- the presumption of innocence;
- actus reus;
- criminal responsibility;
- criminal defences;
- public welfare offences;
- preinchoate offences;
- security and democratic rights.

The reading materials for this course are primarily philosophical and theoretical. The course contrasts the different perspectives of moral and political theories of criminal justice and criminal law, and investigates what they tell us about the scope and limits of criminal law as a security system. The course therefore provides an introduction to normative criminal law theory in the common law world. At the same time, this introduction adopts an innovative approach to that theory by situating it in the context of the contemporary policy pressures on criminal law.

Each seminar consists of a student presentation on a key question, class discussion and a teacher presentation. There is a reading week in Week 6.

Teaching: 20 hours of seminars in the MT. There will be a Reading Week in week 6 of MT.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Indicative reading: A Ashworth and L Zedner Preventive Justice (OUP 2014); I Dennis and GR Sullivan (eds), Seeking Security; Pre-empting the Commission of Criminal Harms (Hart, 2012); A Brudner, Punishment and Freedom (OUP 2009); RA Duff, Answering for Crime (Hart, 2007); P Ramsay The Insecurity State: Vulnerable Autonomy and the Right to Security In the Criminal Law (OUP, 2012); A Ashworth (et al), Prevention and the Limits of Criminal Law (OUP, 2013).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4CF Half Unit UK Corporate Law

This information is for the 2016/17 session.

Teacher responsible: Prof. David Kershaw

Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is not available as an outside option. This course is capped at 60 students. This course will be relevant to the following LLM specialisms: Corporate and Securities Law; Corporate and/or Commercial Law

Course content: 1. The Evolution of the UK company. This session will address the evolution of the corporate form from the mid-19th century, and outline the partnership based conception of UK company. It will contrast the partnership conception with the corporate / entity conception. 2. Legal personality, formation and structure – considering the implications and function of separate legal personality and the scope to disregard the corporate veil; the process of formation; and the constitutional make-up of the company. 3. Corporate Actions – considering how the company acts in contract, tort and crime. 4. The distribution of power in a UK company – considering the location and contractual distribution of power in a UK corporation; the problem of separation of ownership and control / the agency problem; mandatory versus default rules; core mandatory rights: removal of directors and calling shareholder meetings. 5. Director's duties I: the nature of duties; who owes them; to whom; the corporate objective; the duty to promote the success of the company. 6. Directors Duties II: the duty of care (business judgments, business process, monitoring, systems and controls, risk management) 7. Directors Duties III: the duty of loyalty (self-dealing transactions, corporate opportunities, competing with the company, bribes and commissions). 8. Company law and creditor protections – shareholder incentives to exploit creditors; the scope for unlimited liability, duties to creditors; wrongful trading. 9. Derivative Actions: the rule in Foss v Harbottle; the new derivative action mechanism; indemnity orders and contingency fees; reflective loss. 10. Minority shareholder protections – common law restraints on the exercise of majority shareholder power and influence; statutory constraints on the exercise of such power and influence (122(g) Insolvency Act 1986 and section 994 Companies Act 2006.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a Reading Week in Week 6.

Formative coursework: One 2,000 word essay.

Indicative reading: Core Texts: David Kershaw, Company Law in Context (2nd ed, OUP 2012)

Paul Davies, Gower and Davies' The Principles of Modern Company Law (9th eds, Sweet & Maxwell, 2012).

For each session in addition to the main texts other readings will include cases, statutes and journal articles. As an example:

Session 1:
Paul Davies, Gower and Davies' The Principles of Modern Company Law (6th eds, Sweet & Maxwell, 1996), Chapter 1. Extracts from N. Lindley, Treatise on the Law of Companies (as a Branch of the
LL4CG    Half Unit
Understanding Issues in Tax Law and Policy
This information is for the 2016/17 session.
Teacher responsible: Dr Ian Roxan NAB 7.25 and Mr Eduardo Baistrocchi NAB7.33
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is required for the following LLM specialisms: Taxation. NB: The monthly Taxation Seminars are available to all with an interest in taxation including LLM and MSc students. Students wishing to attend the Taxation Seminars are very welcome. For more information, see the Law Department or LSE Financial Markets Group web pages.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites: Students will be expected to be taking other tax courses or to have a good background in taxation.
Course content: This course considers the key principles of tax policy (including the development and interpretation of tax law), and the methodology of developing and applying these principles, in the context of a range of current issues in taxation and tax policy, and often with an interdisciplinary approach. It will use the monthly Taxation Seminars during the Michaelmas Term to provide students with direct exposure to current debates in taxation. The monthly seminars bring together a wide variety of participants, including lawyers, economists, accountants and government officials. Those attending the meetings are encouraged to participate, and the meetings provide a forum for topical discussion on taxation. The topics for the seminars are chosen each year from subjects of current interest.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
10 weekly two-hour seminars in the Michaelmas Term in a variable format, including seminar-discussions and monthly Taxation Seminars attended by a range of tax professionals.
Formative coursework: Students are expected to submit one 2,000-word formative essay.
Detailed reading lists will be provided during the course via Moodle.
Assessment: Essay (100%, 8,000 words).

LL4CH    Half Unit
Current Issues in Tax Law and Policy
This information is for the 2016/17 session.
Teacher responsible: Dr Ian Roxan NAB 7.25
Eduardo Baistrocchi is on sabbatical leave Lent Term 2016.
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is required for the following LLM specialisms: Taxation. - see the course co-ordinator for further information. NB: The monthly Taxation Seminars are available to all with an interest in taxation including LLM and MSc students. Students wishing to attend the Taxation Seminars are very welcome. For more information, see the Law Department or LSE Financial Markets Group web pages.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: This course will look at important current issues in taxation and tax policy, often with an interdisciplinary approach. Students will be expected to bring to the discussion of these issues a good background knowledge of taxation, as well as the type of skills learned in LL4CG. It will use the monthly Taxation Seminars during the Lent Term to provide students with direct exposure to current debates in taxation. The monthly seminars bring together a wide variety of participants, including lawyers, economists, accountants and government officials. Those attending the meetings are encouraged to participate, and the meetings provide a forum for topical discussion on taxation. The topics for the seminars are chosen each year from subjects of current interest. Seminars in this course outside of the monthly series will provide students with background for the monthly seminars and will provide the opportunity to explore in depth other topical issues in taxation and tax policy.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
10 weekly two-hour seminars in the Lent Term in a variable format, including seminar-discussions and monthly Taxation Seminars attended by a range of tax professionals.
Formative coursework: Students are expected to submit one 2,000-word formative essay or an equivalent assignment.
Indicative reading: There is no fixed list, selections being made from year to year on the basis of topicality. Detailed reading lists will be provided during the course via Moodle. Recommended preliminary reading James & Nobes, Economics of Taxation, or another introductory tax policy book.
Assessment: Essay (100%, 8,000 words).

LL4CJ    Half Unit
Comparative Corporate Taxation
This information is for the 2016/17 session.
Teacher responsible: Dr Ian Roxan NAB 7.25 and others.
Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: Corporate and/or Commercial Law; International Business Law; Taxation.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites: Students should be familiar with the UK tax system, or have working knowledge of another system of business taxation, and otherwise will be expected to be taking LL421 Business Taxation.
Course content: The course examines the principles governing
the taxation of corporate and other business transactions. The course will take a comparative approach in examining the business tax systems of the United Kingdom and other countries. The main tax system studied will be that of the United Kingdom (primarily corporation tax together with income tax and capital gains tax), but the tax system of the United States will also be examined and typically that of Germany or another country as well. This course will introduce the national tax systems being studied and provide an in-depth look at a key advanced topic central to corporate taxation, such as the treatment of shares, the treatment of groups of companies, and the taxation of corporate finance.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.
10 weekly two-hour seminars in the Michaelmas Term, including seminars led by national tax experts.
There will be a reading week in Week 6 of the MT.

**Formative coursework:** Students are expected to submit one 2,000-word formative essay or an equivalent assignment during the course.

Detailed reading lists will be provided during the course via Moodle.

**Recommended preliminary reading:**

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
Students will be assessed by a two-hour written examination in May/June.
Candidates will be permitted to take into the examination room unannotated copies of approved statutory materials.

### LL4CL  Half Unit

**Taxation of Corporate Transactions**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Ian Roxan NAB 7.25

**Availability:** This course is available on the MSc in Criminal Justice Policy, MSc in Law, Anthropology and Society, MSc in Social Policy (Research) and Master of Laws - Criminology and Criminal Justice. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** The course aims to provide students with a comprehensive overview of the theories that explain the practice of punishment, a practice that defines the criminal law. It will do this by introducing students to philosophical, sociological, political economy and comparative approaches to punishment. It will involve the discussion of all the major philosophical justifications and critiques of state punishment, and sociological and political economy explanations and critiques of punishment.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

**Teaching:** 20 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1,000-word formative essay or equivalent assignment during the course.

**Indicative reading:** Ault et al, Comparative Income Taxation: A Structural Analysis (Kluwer, 3rd ed. Rev, 2010); Harris, Corporate Tax Law: Structure, Policy and Practice, (Cambridge Univ. Press, 2013);
Detailed reading lists will be provided during the course via Moodle.

**Recommended preliminary reading:**

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
Students will be assessed by a two-hour written examination in May/June.
Candidates will be permitted to take into the examination room unannotated copies of approved statutory materials.
Press 2008)
• J Simon and R Sparks (eds), The Sage Handbook of Punishment and Society (Sage 2013)
• D Garland, Punishment and Modern Society: A Study in Social Theory (Oxford University Press 1990)

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4CM Half Unit
Law in the Economy

This information is for the 2016/17 session.
Teacher responsible: Prof Andrew Lang NAB6.19
Availability: This course is available on the MSc in Law and Accounting, MSc in Law, Anthropology and Society, MSc in Regulation and Master of Laws. This course is available with permission and Master of Laws. This course is available with

Course content: Legal regimes of market regulation are based on particular ideas about the nature of ‘markets’: what markets are, how they arise, what forms they take, and what dynamics they exhibit. As our ideas about the nature of markets have evolved over the course of the last two centuries, the way we govern the market through law has evolved with them. In the period since the global financial crisis of 2007, we are currently living through another period of ideational change, as mainstream ways of thinking about markets have been discredited and policymakers look explicitly for new and better ways of understanding how markets work and what they are.

The aim of this course is to enable students to engage with this intellectual moment, by introducing them in a systematic way to the major competing traditions of thought about the nature of markets, with particular attention to the question of the relationship between markets and law, and the proper purposes to which law should be deployed in economic life. In what sense are markets ‘spontaneous’ social forms, and to what extent do they rely on the prior creation of complex legal and other institutions? Are economic actors naturally ‘rational’ or do they have to be taught to be rational, and if so how? What is the role of social networks and social norms in shaping the dynamics of markets, and what can that teach us about the proper forms of law in the market?

Students will be introduced to a wide variety of economic schools of thought from the early 20th century onwards, including mainstream neoclassical economics, behavioural economics, institutional economics, new institutional economics, as well as varieties of economic sociology and economic anthropology. We will consider the reception of these schools of thought within legal scholarship, from the legal realists, to law and economics. The focus will be on canonical texts from across the spectrum, drawing from writers such as Hayek, Polanyi, Friedman, North, Bourdieu, Foucault, Hale, Veblen, Knight, Callon and many others. The course will therefore involve close engagement with core theoretical texts, but care will be taken to ground the discussion of such texts with illustrations taken from contemporary spheres of regulation. These are likely to change from year to year.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in week 6.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Polanyi, The Great Transformation (1944)
Hayek, The Road to Serfdom (1944)

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4CN Half Unit Not available in 2016/17
New Technologies in Law and the Body

This information is for the 2016/17 session.
Teacher responsible: Dr Tatiana Flessas NAB 7.27
Additional Teacher(s): Professor Emily Jackson, NAB 7.10
Availability: This course is available on the MSc in Law, Anthropology and Society, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

For the LLM (Specialisms: Legal Theory)

Course content: The course addresses the interrelate of law, technology and theories of ‘the body’. Within the broad categories of ‘Beginnings’, ‘Bodies’ and ‘Endings’, we look at emerging medical technologies and their effect on social and theoretical conceptions of the body and its capacities.

1. Introduction (Professor Emily Jackson; Dr Tatiana Flessas)
   Beginnings:
   2. Assisted Conception;
   3. Fertility Markets;
   4. Surrogacy.
   Bodies:
   5. Regulating Obesity;
   6. Enhancements;
   7. Gender and the Body.
   Endings:
   8. Incapacity;
   9. Law in the Neonatal Intensive Care Unit;
   10. Assisted Dying.

Teaching: 20 hours of seminars in the MT.
There will be a Reading Week in week 6 of MT.

Formative coursework: Students are invited to submit one 2,000 word essay.

Indicative reading: A detailed reading list will be provided.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4E6 Half Unit
International Dispute Resolution: Courts and Tribunals

This information is for the 2016/17 session.
Teacher responsible: Dr Devika Hovell NAB6.32 and Prof Andrew Lang NAB6.19
Availability: This course is available on the MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** Some prior knowledge of international law is useful but not essential.

**Course content:** Increasingly, international law is developed, applied and amended through litigation in international, regional and domestic courts. Richard Goldstone, former Prosecutor of the Yugoslav Tribunal, has gone so far as to say, ‘it seems to me that if you don’t have international tribunals, you might as well not have international law’. In this course, we examine key courts and tribunals operating on the world stage, including the International Court of Justice, the International Criminal Court, the European Court of Human Rights and the WTO Dispute Settlement Body. We look at the theory, politics and practical difficulties of international dispute resolution in these courts.

The course has practical and theoretical aspects. For those interested in a career in international law, we will have the opportunity to hear from a range of interesting and eminent practitioners currently working in the courts and tribunals we study. Interested students can engage in a mini-moot before our guest speakers, providing an opportunity to hone their advocacy skills.

The theoretical dimension of the course involves three main elements:

1. **First**, the course examines the structure and work of the International Court of Justice, the principal judicial organ of the United Nations, focusing on jurisdiction/admissibility, contentious cases and advisory opinions.
2. **Secondly**, the course introduces a variety of other international courts and tribunals, such as the International Criminal Court, domestic and regional courts dealing with international law and human rights, including the European Court of Human Rights and the European Court of Justice, the WTO Dispute Settlement Body and investment treaty arbitral tribunals. Using contemporary and controversial case studies, the course will critically analyze and contrast the institutional design and jurisdiction of these courts and tribunals.
3. **Thirdly**, throughout the course we explore key theoretical controversies surrounding the adjudication of international law, focusing in particular on (a) how these courts and tribunals relate to one another (hierarchy, specialization and fragmentation); (b) what criteria should be used in assessing the legitimacy and effectiveness of these courts and tribunals; and (c) whether and how these courts and tribunals create international law.

**Teaching:** 20 hours of lectures in the MT. 2 hours of lectures in the ST.

There will be a reading week in Week 6 of Michaelmas term.

**Formative coursework:** Students are asked to choose from EITHER an oral moot presentation and written submissions OR one 2,000 word formative essay.

**Indicative reading:** Reading lists will be provided for each week’s seminar on Moodle.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4E8**

**Law in Society: A Joint Course in Law and Anthropology**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Robert Pottage NAB 7.21

**Availability:** This course is compulsory on the MSc in Law, Anthropology and Society. This course is available on the MSc in Human Rights, MSc in Regulation and Master of Laws. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course offers a foundation in those elements of anthropological and social theory essential to an understanding of law in society. This course draws on anthropological themes and texts to develop an innovative perspective on contemporary legal norms and institutions. It aims to document legal institutions and practices as concrete ethnographic phenomena, focusing on the techniques of writing and documentation, the legal production of persons and things, and the legal framing of institutions. It combines abstract social theory with concrete ethnographic method in the study of ritual, kinship, property and communicative technologies in formal law.

The course may include the following topics: Law, anthropology, and the production of the social: an introduction to the links between legal and anthropological scholarship, exploring juridical concepts of power, agency and social personality and anthropology’s models of society; Legal and political ritual: selected theoretical analyses of modern legal ritual examined against the background of anthropological debates concerning the general nature of ritual; The communication of power in writing: the representation and construction of social institutions in administration; Legal time and evidence: ethnographic analysis of narrative, evidence and proof in different legal cultures; Persons and things: legal forms of personification and objectification in systems of ownership and inheritance, with particular attention to the law governing reproductive resources; Legal collectivities, the modern corporation and its others: ethnographies of the social and legal construction

**LL4E7**

**Half Unit**

**Investment Treaty Law**

This information is for the 2016/17 session.

**Teacher responsible:** Mr Christopher Thomas NAB7.18 and Dr Jan Kleinheisterkamp NAB7.09

**Availability:** This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Course content:** The aim of the course is to introduce students to international investment law and dispute settlement, the latter emphasizing developments in investment treaty arbitration. The course focuses on the public international law rules and institutions that govern investments and investment treaty disputes. The course has four components: (1) the historical, theoretical and policy background behind investment treaties and dispute settlement by arbitration; (2) the rules governing jurisdiction and admissibility of investor-state arbitration cases; (3) the substantive principles and standards - such as national treatment, most-favoured-treatment, expropriation, and the minimum standard in international law - that may apply to the investor-state relationships; and (4) recognition and enforcement of investor-state arbitral awards and interaction between international tribunals and national courts.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a Reading Week in Week 6.

**Formative coursework:** One 2,000 word essay after week 6 on previous exam questions (choice of 1 out of 3).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
of collective agency; The uses of anthropology in law and politics: the role of anthropology in contemporary contests over indigenous title, cultural property, common property resources, and alternative dispute resolution.

**Teaching:** 22 hours of seminars in the MT. 22 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in week 6 of MT.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

**LL4F2**  
**Half Unit**  
**The Law and Practice of International Finance**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Joanne Braithwaite NAB7.28

**Availability:** This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** LL4F2 examines the legal issues which arise in international financial markets based in London. This course looks at various types of financial transactions and structures which are widely used in the financial markets, such as derivatives and syndicated loans. We make reference to certain sets of trade association drafted terms throughout the course. With an emphasis on private law, the course considers the relevant legal, commercial and regulatory background and the risks and protections available to participants in the global financial markets. The course is based upon an analysis of the relevant issues under English law with some reference to other systems for comparative purposes and it ties in well with the LLM evening seminars in financial and corporate law.

The course will be underpinned by discussion of the legal principles involved in international finance, but the case studies referenced will be topical. In this sense, the content of the course will be adapted to the fast moving developments affecting international markets in capital and in risk (for example, in recent sessions the course has examined the legal basis of prime brokerage relationships, the related Lehman Brothers litigation and the ongoing regulatory reform of the OTC derivatives markets, including the new requirement of mandatory CCP clearing, triggered by the G20 statement in 2009).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

**Teaching:** 20 hours of lectures and 5 hours of seminars in the LT. 2 hours of lectures in the ST.

There will be a reading week in week 6 of LT

**Formative coursework:** Students will be asked to submit one essay, which may be completed in exam conditions.

**Indicative reading:** Examples of texts which will be referenced on the course: J Braithwaite, ‘Law after Lehmans’ (LSE Law Working Paper 11/2014); J Braithwaite ‘Standard form contracts as transnational law’ (2012) 75(S) MLR 779; L Guiffier and J Payne, Corporate Finance Law: Principles and Policy (Hart, 2015); J Benjamin, Financial Law (OUP, 2007). A full reading list will be distributed via Moodle.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

**Assessment is by closed book written examination.**
LL4F3 Half Unit
Mergers, Acquisitions and Restructurings in Europe

This information is for the 2016/17 session.
Teacher responsible: Mr Edmund-Philipp Schuster NAB6.30
Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 90 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: In this course, we will explore the regulation of mergers, acquisitions and restructurings in Europe. The course will examine the available legal techniques for the combination and restructuring of business operations in Europe, with a particular focus on cross-border transactions. Areas covered will include corporate mobility in Europe, domestic and cross-border mergers, de-mergers, spin-offs, public takeovers, and the European Company, and how it is used for business restructuring and reorganisation. Particular attention will be paid to the interaction between the relevant legal concepts and the economic and financial environment firms operate in.

Content overview:
- The market for corporate control, corporate ownership structures, and transaction structures for takeovers and restructurings in Europe
- European takeover regulation
- Domestic mergers
- Divisions & spin-offs
- Cross-border mergers in Europe
- Employee participation and its relevance for corporate transactions
- Restructuring and the European Company (SE)
- Introduction to taxation of corporate transactions (non-examinable)

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: One 1500 word essay, due in Week 7 of LT.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4F6 Half Unit Not available in 2016/17
International Dispute Resolution: Non-Adjudiciary

This information is for the 2016/17 session.
Teacher responsible: Prof Christine Chinkin NAB6.15
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: International Dispute Resolution: Non-Adjudicatory Processes is concerned with the way in which conflicts or potential conflicts, both between states and with other participants in the international arena, can be peacefully managed and resolved. The course considers the options available for the peaceful settlement of international disputes. It will examine the general obligation under international law to settle disputes peacefully, focussing particularly (but not exclusively) on non-adjudicatory means of international dispute settlement, such as negotiation, inquiry, mediation and conciliation. Using controversial case studies (including those relating to peace processes), the course will examine the respective advantages and disadvantages of these various mechanisms, the interplay between them, and the factors that influence their effectiveness. It will also explore some of the theoretical issues that underpin international dispute resolution.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: Students will be expected to complete one 1,500 word essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4F4 Half Unit
Takeover Regulation in the UK and the US

This information is for the 2016/17 session.
Teacher responsible: Prof. David Kershaw
Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
LL4F9  Half Unit
Legal Research and Writing Skills

This information is for the 2016/17 session.
Teacher responsible: Dr Joanne Braithwaite NAB7.28
Availability: This course is compulsory on the Master of Laws and Master of Laws (extended part-time study). This course is not available as an outside option.

Course content: This course on Legal Research and Writing has a taught component focusing on research and writing skills and a stand-alone dissertation (details about which may be found in the LLM Handbook), to be written in a substantive law area of the student’s choice. The two components will be carefully integrated. Over the taught part of the course, students should gain a better understanding of:

- The nature of research in general; the distinctive features (if any) of legal research and the range of questions and research methodologies to be found within legal scholarship
- Doing legal research, including research design, resource identification and searching for relevant materials; legal referencing and citation skills.
- Writing skills, relating to both the process of writing, as well as the end product; presenting findings to different audiences etc.

Topics for the lectures will be: (1) Choosing your dissertation topic; (2) Research methods; (3) Writing skills; (4) Library skills, referencing and plagiarism.

The two tutorials will have a small group format (usually 4-5 students in each tutorial) and will focus on: (1) Preparing your research proposal; (2) Writing skills.

The course will also offer the opportunity to participate in workshops. In previous years these have addressed ‘choosing your topic’ and ‘referencing and plagiarism’. There are also skills sessions run by the LSE Library designed for students on this course to develop their legal research skills and awareness of the resources on offer in the LSE Library and beyond.

Teaching: 8 hours of lectures and 1 hour of classes in the LT. 1 hour of classes in the ST.

Teaching will consist of: (a) Four 120 minute lectures in LT; (b) One 60 minute tutorial in LT and one 60 minute tutorial in ST; (c) One 120 minute library workshop; (d) The course also runs a series of Evening Workshops.

Formative coursework: Students will be invited to prepare a short writing sample for the second tutorial on ‘Writing skills’.

Assessment: Dissertation (100%, 10000 words) post-summer term. See the LLM handbook for full details and regulations about the dissertation.

LL4G6  Half Unit
International Commodity Sales

This information is for the 2016/17 session.
Teacher responsible: Prof Michael Bridge NAB6.21
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course is concerned with the international sale of goods where English law is the applicable law by virtue of well-established standard form contracts used extensively in the trade, such as GAFTA 100 (a CIF contract form). English law plays a dominant part in the international sale of commodities, especially in the case of dry commodities (wheat, soya etc) produced in North America and transported to a northern European destination. It is usually the case that such contracts have no physical connection with England. There is a rich case law dealing with sales on FOB, CIF and similar terms and there are interesting comparisons to be drawn between forward physical sales and futures sales. Interesting questions are also posed by the intersection of various allied contracts concluded to give effect to the international venture, notably, sale, letters of credit, insurance and carriage (or charter parties). Extensive consideration is given to the UCP600 Customs and Practice on Documentary Credits 2007.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a Reading Week in week 6 of MT.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4G7  Half Unit
Mental Health Law: The Civil Context

This information is for the 2016/17 session.
Teacher responsible: Prof Jill Peay NAB6.11

The course is taught in the Michaelmas term at Kings College by Professor Genevra Richardson. Students from Kings are taught alongside those from the LSE.

Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 5 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course aims to integrate a practical and theoretical understanding of mental health law, as it relates both to mental illness and mental incapacity. It is not intended to provide a comprehensive understanding of the law in England and Wales, but rather aims at broader conceptual understanding of the problem areas that are likely to bedevil mental health law across many jurisdictions. The course makes reference to both the Mental Health Act 1983 and the Mental Capacity Act 2005.

Teaching: 22 hours of seminars in the MT. 2 hours of seminars in the ST.

22 hours of seminars in the MT over Weeks 1-4 and 6-11 to fit in with King’s teaching schedule.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4G8  Half Unit
Law of Corporate Finance

This information is for the 2016/17 session.
Teacher responsible: Dr Eva Micheler NAB7.35
Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 90 students.
Course content: The course examines the private law rules governing how companies raise finance. The issues covered include e.g. capital structures, identifying and protecting shareholder rights, issuing shares, initial capital and alternatives, dividends, reduction of capital and share buy-backs, reform and moving to a solvency test, property rights in shares and financial assistance. The course will focus on English law, but will also look at other legal systems in particular at German law.

Teaching: 20 hours of lectures and 4 hours of seminars in the MT. 2 hours of lectures in the ST.

Formative coursework: Students will have the opportunity to write a formative essay for each of the classes. All students are strongly encouraged to write at least one essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4H2 Half Unit**

**Media Law: Regulating Publication**

This information is for the 2016/17 session.

Teacher responsible: Dr Andrew Scott NAB6.25

Availability: This course is available on the MSc in Media and Communications, MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course examines the legal and administrative regulation of mass media publication (principally the press, the broadcast media, and institutionalised internet publication). The course is introduced with consideration of a number of themes that underpin the rest of the syllabus: the role(s) of the media in society (including conceptions of the ‘public interest’); the main social, technological and regulatory influences that shape media publication practice, and rights jurisprudence (in particular, the freedom of expression and freedom of the press in national and international law). The course then examines potential restrictions on publication that are aimed at promoting or preserving specific private and/or public interests. The key private interests considered are those in reputation (defamation), privacy, and confidentiality. The key public interests considered are the integrity of the judicial process (contempt and reporting restrictions), the impartiality of political representations, the avoidance of offence (obscenity and religion), and national security.

Teaching: 20 hours of seminars in the MT.

There will be a reading week in week 6.

10 weekly two-hour seminars in MT. The course is also supported by a series of specialist seminars with outside speakers, and by an online discussion forum.

Formative coursework: Students must submit an essay plan and working bibliography for the assessed essay. All students are strongly encouraged to write at least one essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4H3 Half Unit**

**Media Law: Regulating Newsgathering**

This information is for the 2016/17 session.

Teacher responsible: Dr Andrew Scott NAB6.25

Availability: This course is available on the MSc in Media and Communications, MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), Master of Laws and Master of Laws (extended part-time study). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course examines the legal and administrative regulation of newsgathering and content production practices undertaken by journalists and others working in the media sector. The course is introduced with consideration of a number of themes that underpin the rest of the syllabus: the role(s) of the media in society (including conceptions of the ‘public interest’); the main social, technological and regulatory influences that shape media newsgathering practice, and rights jurisprudence (in particular, the freedom of expression and freedom of the press in national and international law). The course then examines a number of newsgathering practices that are either facilitated or proscribed by law and/or other forms of regulation. These include the protection of sources and journalistic materials; ‘cheque-book journalism’ (including payments to witnesses and to criminals); access to information held by the state (freedom of information); access to courts and legal documents; media-police interaction; harassment and media intrusion, and the regulation of surreptitious newsgathering practices (hacking, tapping and subterfuge).

Teaching: 20 hours of seminars in the LT.

The course is also supported by a series of specialist seminars with outside speakers, and by an online discussion forum.

Formative coursework: Students must submit an essay plan and working bibliography for the assessed essay. All students are expected to contribute to a series of class and online exercises, and to submit one 1,500 word formative essay.

Assessment: Essay (100%, 8000 words) in the ST.

---

**LL4H4 Half Unit**

**International Financial Law**

This information is for the 2016/17 session.

Teacher responsible: Dr Philipp Paech NAB7.05

Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 90 on a ‘first come first served’ basis.

Course content: The traditional financial market sectors of insurance, commercial banking, derivatives, capital markets and asset management are converging in practice, but their academic analysis is still largely sector-based. This course offers a cross-sectoral, functional analysis, permitting students to grasp the big picture. It highlights certain anomalies in differing legal treatment of the respective sectors, and considers key trends. The course provides an overview of the substantive law aspects (UK, EU and international) of international financial and business transactions. The focus is mainly on broad principles and policy issues rather than a detailed examination of statute, case law and drafting.
However, where appropriate, legal concepts and market practice will be explained by reference to case law and other legal sources. The course is designed to be as topical as possible, and the content may change in the light of developments. While the precise topics covered will vary from year to year they typically will include the following:

- **Introduction:**
  - Logic and players of the financial market
  - Overview of types of financial transactions
  - Reasoning and sources of financial law and regulation
  - The types of risk and the role of financial law
  - European and global legal and regulatory architecture
- **Raising capital:**
  - the nature of banks, deposit taking, loans, syndicated loans
  - Issuance of debt securities, eurobonds and equity
  - Investment funds
  - Cross-comparison of funded positions, common patterns and differences
- **Mitigating financial risk:**
  - simple financial positions
  - Guarantee and insurance
  - Derivatives and credit default swaps
  - Structured finance, securitisation
  - Cross-comparison and the risk of recharacterisation
- **Mitigating financial risk through net and asset-backed positions**
  - Set-off and netting
  - Security interests, quasi-security and financial collateral
  - Insolvency policy and preferential treatment of financial firms
- **Cross-jurisdictional analysis**
  - Private international law analysis in financial law
  - Example 1: intermediated securities and cross-border collateral
  - Example 2: cross-jurisdictional netting
  - Common patterns and difficulties

**Teaching:** 20 hours of lectures and 5 hours of seminars in the MT. 2 hours of lectures in the ST.

The course will comprise a two hour weekly lecture in MT and small group follow-up seminars in weeks 2, 4, 7, 9 and 11. There will be a Reading Week in week 6 of the MT. There will be a revision lecture in ST.

**Formative coursework:** Students will be asked to submit a 2,000 word essay during LT. A voluntary mock exam is also offered.

**Indicative reading:** A detailed reading list will be made available on Moodle prior to teaching.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period. Assessment is by closed book written examination. The exam is two hours plus 15 minutes reading time.
LL4H9  Half Unit
Human Rights in the Workplace

This information is for the 2016/17 session.
Teacher responsible: Dr Astrid Sanders
Availability: This course is available on the MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Rights, MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: The sources and application of human rights in the workplace, including international and European laws and conventions. Civil liberties of employees. Social and economic rights of workers. Protection from discrimination in the labour market and employment. As well as detailed examination of legal materials, the approach involves discussion of theories of human rights and comparisons between legal systems.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
Formative coursework: One 2,000 word essay and one presentation.
Indicative reading: A detailed syllabus of weekly readings will be available and the materials can all be accessed through Moodle.
Assessment: Essay (100%, 8000 words) in the ST.

LL4K4  Half Unit
The International Law of Self-Determination

This information is for the 2016/17 session.
Teacher responsible: Dr James Irving
Availability: This course is available on the MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites: Some prior knowledge of international law is useful but not essential.
Course content: This course will provide a general introduction to the doctrine of self-determination in international law. Self-determination will be historically contextualised from its intellectual progenitors in the Enlightenment through to its political birth at the 1919 Paris Peace Conference and its formal inclusion into international law by virtue of the 1945 UN Charter. Both the detail of the doctrine’s content and the dynamic governing its development will be explored. The relationship between self-determination and state formation (including decolonisation and secession), majority rights, aboriginal rights, women’s rights and the nascent right to democratic governance will be central topics. Reference will also be made to the interplay between self-determination and economic rights, including permanent sovereignty over natural resources, the right to development and the “third generation rights” movement more generally. Self-determination’s influence upon the international rules governing the use of force will be discussed, but these rules will not be a primary focus. Upon completion of the course students will be in a position to legally analyse contemporary fact patterns and to identify both strengths and weaknesses in the existing legal framework. Students will have considered new and novel approaches to self-determination and will be able to situate the doctrine in relation to international law and human rights. Those taking the course will gain an appreciation for self-determination’s particular contribution to political and economic liberty.
Teaching: 20 hours of seminars in the MT.
(please note that week six will be a reading week.)
Formative coursework: Students will be asked to submit one 2,000 word essay.

Assessment: Essay (100%, 8000 words).

LL4K5  Half Unit
International Commercial Contracts - General Principles

This information is for the 2016/17 session.
Teacher responsible: Dr Jan Kleinheisterkamp NAB7.09 and Prof Michael Bridge NAB6.21
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: Firm knowledge in contract law and/or international sale of goods from previous studies.

Course content: This course treats what can be called the general part of transnational contract law, i.e. the general principles of law which are of relevance in any kind of international contract, be it sale, construction, shipping, financing, or joint venture. These general principles relate to contractual formation and negotiations, interpretation, transversal general principles, changed circumstances and hardship, agency, third parties, assignment, self-help and set-off, direct performance and damages and penalties. At present, such contracts are governed either by uniform rules of international conventions or by the national laws applicable by virtue of conflict of law rules. The course puts the existing national and international solutions in a comparative perspective so as to work with the sources of such generally accepted principles. Where there are divergences between existing solutions, the course focuses on the elaboration of new efficient solutions that are internationally acceptable and have the potential of becoming general principles in the future. For these purposes, special attention is given to the UNIDROIT Principles on International Commercial Contracts and, where appropriate, the European Principles of Contract Law. Other national laws, however, are drawn upon from time to time. Students are also encouraged, in both classes and examination, to reflect upon the similarities and differences between their own national laws and the UNIDROIT Principles.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a Reading Week in Week 6.

Formative coursework: One 2,500 word essay after week 6 on previous exam questions (choice of 1 out of 3).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4K6  Half Unit
International Uniform Sales Law

This information is for the 2016/17 session.
Teacher responsible: Prof Michael Bridge NAB6.21
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course concerns sales conducted on the basis of the United Nations Convention on the International Sale of Goods 1980 (CISG). Nearly eighty countries accounting together for two-thirds of the world’s export trade, have so far adopted the CISG, which has generated an enormous primary and secondary literature, a great part of which is available on the internet. It has been incorporated as domestic law in Israel and Norway and has also very largely informed the Chinese Contract Law of 1999. The CISG is a most important piece of legislation in the continuing development of international contract law. It has been influential in the development of European sales law (the Directive on the Sale of Consumer Goods and Associated Guarantees) and of the Common Frame of Reference. The experience of the CISG brings out all of the issues arising from attempts to create uniform, transnational private law. Attention will also be given to the UNIDROIT Principles of International Commercial Contracts (2nd ed 2004) so far as they may be used to supplement the CISG. (This course complements LL4G6 International Commodity Sales).

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4K7  Half Unit
Mental Health Law: The Criminal Context

This information is for the 2016/17 session.
Teacher responsible: Prof Jill Peay NAB6.11
Availability: This course is available on the MSc in Criminal Justice Policy, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students.

Course content: This course aims to integrate a practical and theoretical understanding of mental health law, as it relates to mentally disordered offenders. It is not intended to provide a comprehensive understanding of the detail of the relevant law in England and Wales, but rather aims at broader conceptual understanding of the problem areas that are likely to bedevil law relating to mentally disordered offenders across many jurisdictions. The course makes reference to both the Mental Health Act 1983 and the Criminal Justice Act 2003.

Teaching: 22 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in week 6. Summer term is a review
LL4K9  Half Unit  Not available in 2016/17

European Capital Markets Law

This information is for the 2016/17 session.

Teacher responsible: Prof Niamh Moloney NAB6.08

Availability: This course is available on the MSc in Law and Accounting, MSc in Regulation, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 75 students.

Course content: The course examines the EU’s regulation of the capital markets. It considers the harmonized regulatory regime, which applies to capital market actors across the Member States and which supports the integrated market. The topics which may be covered include: the rationale for integration and the role of law and the evolution of the integration project, including the impact of the financial crisis; the deregulation, liberalization, harmonization, and re-regulation mechanisms used to integrate and regulate the EU market; market access and the passport for investment services; the liberalization of order execution and the regulation of trading markets; the UCITS mutual funds regime; retail investor protection; the prospectus and disclosure regime; the regulation of gatekeepers; and the institutional structure supporting regulation and supervision, including the role of the European Securities and Markets Authority. Course coverage may vary slightly from year to year.

Teaching: 20 hours of seminars in the MT. The teaching for this course takes the form of 10 X 2 hour seminars held weekly across MT in weeks 1-5 and weeks 7-11. In week 6, the teaching will take the form of a mandatory in-class formative assessment. An additional one hour revision session will be held in week 11. More detail will be available on the LL4K9 timetable.

Formative coursework: A mandatory in-class formative assessment (in the form of a timed exam question) will be held in week 6.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

LL4L1  Half Unit

The Theory and Practice of Dispute Resolution

This information is for the 2016/17 session.

Teacher responsible: Prof Linda Mulcahy NAB 7.15

Availability: This course is available on the MSc in Law, Anthropology and Society, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: Legal Theory

This course is capped at 60 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: None, but The Theory and Practice of Dispute Resolution is a pre-requisite for Advanced Mediation

Course content: This course focuses on the dynamics of disputes and distinctions between the principle methods of dispute resolution. Students on this course will be asked to look at a variety of theories of dispute resolution which draw on insights offered by law, sociology, anthropology, psychology and economics. Topics include 1. What prompts and fuels disputes? 2. Typologies of third party roles in disputes 3. The trial, arbitration and theories of adjudication 4. Negotiation and bargaining in the shadow of the law 5. International civil justice reforms and their impact on the litigation process 6. Histories of informalism and ADR movements 7. Mediation 8. Dispute resolution hybrids e.g., early neutral evaluation and med-arb The course is designed to complement the option on Commercial Arbitration and Advanced Negotiation and Mediation.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a Reading Week in week 6 of MT.

Formative coursework: One 2,000 word essay.

**LL4L5 Half Unit**

**Socio-legal Theory and Practice**

This information is for the 2016/17 session.

Teacher responsible: Dr Meredith Rossner NAB 6.33 and Prof Linda Mulcahy NAB 7.15

Availability: This course is compulsory on the MPhil/PhD in Law (Socio-Legal Theory). This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

Proposed 4+4 ESRC PhD students registered in the law department (and in other departments with permission). This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course will explore the interface between social theory, methodology and socio-legal practice. After an initial engagement with literature on the history, scope and nature of doctrinal, realist, critical and socio-legal approaches to law, the course will focus on seminal empirical studies of law and legal phenomena. In particular students will be asked to identify how specific theoretical frameworks for research have influenced choice of methodology, methods and the subsequent interpretation of data. Empirical studies exploring central legal concepts such as rights, regulation, access to justice, judgment, neutrality, due process and equality will be selected for in-depth analysis. An important feature of the course is that authors of leading socio-legal research outputs will be invited to lead ‘master classes’ in order to discuss the intellectual origins of their work and how this impacted on design and implementation.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a Reading Week in Week 6.

**Formative coursework:** Students will be asked to prepare a poster presentation outlining the theoretical framework, methodological choices, ethical implications and practical obstacles for a research project they would like to undertake. The ‘ideas map’ they present will be used as a plan for the formal summative assessment. Each student will present their poster to the class before week seven of the term and will receive detailed feedback on their presentation by the end of the same term. This will give students the time to reflect on the comments made before writing up their ideas in their course dissertation. A fuller version of the presentation will later be submitted as the coursework component of the course. This is an unusual form of assessment for law students but is used extensively in other disciplines. Students will be directed to websites which provide guidance in preparing a poster presentation and will also be given the opportunity to study examples of posters collected by the course convenor.

**Assessment:** Essay (100%, 8000 words) in the ST.

The essay will take the form of a research proposal (100%).

**LL4L6 Half Unit**

**Theory of Human Rights Law**

This information is for the 2016/17 session.

Teacher responsible: Dr Kai Moller NAB 7.01

Availability: This course is available on the MSc in Human Rights, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Some knowledge of human rights law of any jurisdiction may be helpful, but is not essential. A knowledge of philosophy is not required.

Course content: The course will provide an introduction to the philosophy of human rights and theoretical issues in human rights law. The emphasis is on a combination of law and theory; to this end, each seminar will rely on a mixture of cases from various jurisdictions and theoretical and philosophical materials. The overarching questions to be examined are to what extent current philosophical theories of human rights can illuminate our understanding of the cases and legal doctrines, and to what extent the cases and doctrines can help improving the theoretical and philosophical understanding of human rights. Topics to be discussed will include: James Griffin’s Theory of Human Rights; Ronald Dworkin’s Theory of Rights as Trumps; Balancing and Proportionality; Human Rights and Judicial Review I (The American Perspective); Human Rights and Judicial Review II (The European Perspective); Absolute Rights.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in week 6.

**Formative coursework:** One 2,000 word essay.

**Indicative reading:** The course will rely on both cases from various jurisdictions and articles and book chapters from authors including Ronald Dworkin, Robert Alexy, James Griffin, Mattias Kumm, Jeremy Waldron and Frances Kamm.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

**LL4L7 Half Unit**

**Advanced Mediation**

This information is for the 2016/17 session.

Teacher responsible: Prof Linda Mulcahy NAB 7.15

Availability: This course is available on the MSc in Law, Anthropology and Society, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Legal Theory. This course is capped at 60 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: Students wishing to take Advanced Mediation must have taken The Theory and Practice of Dispute Resolution.

Course content: This course examines the various models of mediation and the contexts in which each is used. It also considers contemporary debates about power in mediation. Practicing mediators will be invited to a number of the classes in order to facilitate discussion of the interface between theory and practice. Topics include 1. Distinguishing between different models of mediation e.g., facilitative, evaluative, narrative and transactional. 2. The cultural context of mediation 3. Gender and mediation 4. Power and mediation 5. The lawyer’s role in mediation 6. Case studies of the use of mediation in particular fields may include commercial, family, personal, injury international and community mediation. 7. The shift towards compulsory mediation.

The course is designed to complement the options on Commercial Arbitration and Advanced Negotiation and Mediation and The Theory and Practice of dispute resolution.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
Seminars will take the form of a mini lecture followed by in-depth discussion of the reading. In addition students will undertake a series of role play exercises and analyses of filmed mediations in which they are asked to explore the interface between theory and practice. 

There will be a Reading Week in Week 6.

**Formative coursework:** One 2,000 word essay.

**Assessment:** Essay (100%, 8000 words) in the ST.

---

**LL4N6**  
**Half Unit**  
**Principles of Copyright Law**

This information is for the 2016/17 session.

**Teacher responsible:** Anne Barron NAB6.05

**Availability:** This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** None

**Course content:** The course provides an introduction to copyright law aimed at those who have not studied the subject in detail before. The starting point will be UK copyright law (as shaped by relevant EU Directives and international agreements), but US, French and German law will serve as occasional bases for comparative analysis. Topics to be covered will include the history and evolution of copyright, copyright's protected objects ('works') and subjects (authors, publishers and producers of works), the principles governing the ownership and exploitation of copyright, and the nature and scope of copyright protection.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** One 2,000 word essay.

**Indicative reading:** Reading lists will be issued on a weekly basis.

**Assessment:** Exam (100%, 2,000 words) in the main exam period.

---

**LL4S2**  
**Half Unit**  
**E-Commerce Law**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Andrew Murray NAB7.11

**Availability:** This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Course content:** This course is to introduce students from a legal background to the specialised legal structure which surrounds e-commerce. The course looks at the specific problems an e-commerce start-up must overcome in order to begin trading, including arranging hosting agreements, designing terms and conditions of service and delivery, and arranging distribution agreements. From here the course will develop to examine the problems of more mature e-commerce businesses including jurisdiction, payment systems and rules on marketing and privacy. Special classes on internet auctions and social networks will complete the analysis. The course is designed to act as an interface between ICT law and commercial law and practice in that it examines in detail the close sub-set of online transactions which are clearly commercial in nature.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

---

**LL4S1**  
**Half Unit**  
**Cyberlaw**

This information is for the 2016/17 session.

**Teacher responsible:** Professor Andrew Murray (NAB 7.11)
Formative coursework: Students should submit an essay plan and working bibliography for the assessed essay. All students are expected to contribute to a series of class and online exercises, and to submit one 2,000 word formative essay.

Assessment: Essay (100%, 8000 words).

LL4S5 Half Unit
Piracy, Content and Ownership in the Information Society

This information is for the 2016/17 session.
Teacher responsible: Prof Andrew Murray NAB 7.11
Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: One of the most contentious and complex areas of online activity is the conflict between content providers and consumers. Providers spend considerable amounts on developing and delivering a variety of content, including entertainment content, branded content and business content. Consumers often erroneously, feel “information ought to be free” and take content without payment, an activity known as piracy. This is an embedded schism in internet society and this course will examine key flashpoints including: proprietary vs. open software; file sharing and aggregation; trade mark disputes including ADR for domain name disputes; software patents and the database right. At the end of the class students should have a valuable insight into, and understanding of, the legal foundations of these disputes and the attempts of regulators to broker a resolution. This class will take a critical approach to both the problem and the proposed legal/regulatory solutions.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: All students are expected to contribute to a series of class and online exercises, and to submit to one one-hour mock exam.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4S4 Half Unit
Digital Rights, Privacy and Security

This information is for the 2016/17 session.
Teacher responsible: Dr Orla Lynskey NAB 6.23
Availability: Murray

Course content: Personal data is an important factor of production in data-driven economies, and the processing of personal data can generate significant economic and social benefits. Personal data processing can also have a detrimental impact on established rights and values, such as autonomy, privacy and data protection. As a result, legal frameworks to regulate personal data processing have been enacted across the world, with the EU legal model used as a blueprint. Yet, despite the development of such legal frameworks across the globe, critical questions remain unanswered. For instance, the objectives of data protection frameworks differ with some prioritising a fundamental-rights approach to data protection regulation while other frameworks are based on an economic free-trade rationale. Disagreement also persists regarding how the balance should be struck between effective data protection and other rights (such as freedom of expression and freedom of information) and interests (such as innovation and national security). This course will critically evaluate the legal framework applicable to personal data processing. It will be do this predominantly with reference to the EU framework, as this has served as a model for over 80 other jurisdictions. Participants will be introduced to techniques and technologies for monitoring and processing personal data in the information society. In order to bring key issues to life, a number of case studies will be considered: the application of data protection rules to online behavioural advertising; to the Internet of Things; and to State surveillance.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a Reading Week in week 6 of MT.

Formative coursework: All students are expected to contribute to a series of class exercises and to submit to one one-hour piece of formative work for assessment.

Kunre: Transborder Data Flows and Data Privacy Law (OUP, 2013)

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

This is an open-book exam.

LL4Z1 Half Unit
Business Taxation

This information is for the 2016/17 session.
Teacher responsible: Dr Ian Roxan NAB 7.25 and Mr Eduardo Baistrocchi NAB 7.33
Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: The course is suitable both for those who have not studied taxation before and for those who have. It is strongly recommended for those studying LL4CJ Comparative Corporate Taxation or LL4CK Taxation of Corporate Transactions who have not studied taxation previously.

Course content: This course looks at how businesses are taxed in the UK. The course focuses on the key elements of the taxation of the income of businesses, including:

- taxation of trading income
- corporation tax, the nature of taxes on companies and the taxation of dividends
- capital allowances - relief for depreciation
- capital gains taxation
- partnership taxation
- tax relief for losses

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: Basic knowledge of EU law is desirable but not essential for this course.

Course content: Personal data is an important factor of production in data-driven economies, and the processing of personal data can generate significant economic and social benefits. Personal data processing can also have a detrimental impact on established rights and values, such as autonomy, privacy and data protection. As a result, legal frameworks to regulate personal data processing have been enacted across the world, with the EU legal model used as a blueprint. Yet, despite the development of such legal frameworks across the globe, critical questions remain unanswered. For instance, the objectives of data protection frameworks differ with some prioritising a fundamental-rights approach to data protection regulation while other frameworks are based on an economic free-trade rationale. Disagreement also persists regarding how the balance should be struck between effective data protection and other rights (such as freedom of expression and freedom of information) and interests (such as innovation and national security). This course will critically evaluate the legal framework applicable to personal data processing. It will be do this predominantly with reference to the EU framework, as this has served as a model for over 80 other jurisdictions. Participants will be introduced to techniques and technologies for monitoring and processing personal data in the information society. In order to bring key issues to life, a number of case studies will be considered: the application of data protection rules to online behavioural advertising; to the Internet of Things; and to State surveillance.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a Reading Week in week 6 of MT.

Formative coursework: All students are expected to contribute to a series of class exercises and to submit to one one-hour piece of formative work for assessment.

Kunre: Transborder Data Flows and Data Privacy Law (OUP, 2013)

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

This is an open-book exam.
The course is suitable for students who are interested in taking one course in taxation, including students who have not studied taxation before. It will be a good background course on UK business taxation for students taking LL4CJ Comparative Corporate Taxation or LL4CK Taxation of Corporate Transactions who do not previously have a sufficient background in UK taxation.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
There will be a reading week in Week 6 of the MT.

Formative coursework: One 2,000 word essay.

Indicative reading: Indicative reading: Tiley and Loutzenhiser, Revenue Law; Lee, Revenue Law Principles and Practice; Salters, Lee and Snape, Revenue Law: Text and Materials. Legislation: Tolley’s Yellow Tax Handbook, or CCH The Red Book. Current editions need to be used. Detailed reading lists will be provided during the course via Moodle.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
Relevant legislation may be taken into the examination room (Tolley’s Yellow Tax Handbook or CCH The Red Book) if un-annotated.

---

**LL4Z2 Half Unit**

**Principles of Taxation**

This information is for the 2016/17 session.

Teacher responsible: Mr Eduardo Baistrotchi NA87.33

Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: The course is suitable both for students who have not studied taxation before and for those who have. It is recommended for students who have not studied taxation previously, as well as for those who are studying any of the other tax courses offered at LLM/MSc level.

Course content: This course looks at how tax systems work and the principles that lie behind tax systems. Topics covered include the reasons for taxation and the main types of tax, how income is taxed, how the tax administration operates, the interpretation of tax legislation and tax avoidance. The course uses examples from the tax systems of the UK and other countries to illustrate the issues discussed. The course is suitable for those who have not studied taxation before, as well as for those with a background in tax who are interested in studying the principles of taxation in greater depth.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: One 2,000 word essay.

Indicative reading: Appropriate readings from journal articles and from books including: Avi-Yonah, Sartori and Marian, Global Perspectives on Income Taxation Law; Messere et al., Tax Policy: Theory and Practice in OECD Countries; Tanzi and Zee, Tax Policy for Developing Countries; Ault and Arnold, Comparative Income Taxation: A Structural Analysis; Thuronyi, Comparative Tax Law; James and Nobes, The Economics of Taxation; Mirrlees et al., Tax by Design. Further materials include: Morse and Williams, Davies Principles of Tax Law; Kay and King, The British Tax System; Thuronyi, Tax Law Design and Drafting. Detailed reading lists will be provided during the course via Moodle.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4Z3 Half Unit**

**Value Added Tax in the EU**

This information is for the 2016/17 session.

Teacher responsible: Dr Ian Roxan NAB7.25

Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: The course is suitable for students who are interested in taking one course in taxation, including students who have little previous background in taxation, as well as for tax specialists. It can usefully be combined with LL4Z2 Principles of Taxation, and it provides a suitable background course for LL4Z4 Value Added Tax in the EU. In the sixty years of the existence of value added taxes, they have spread to all corners of the globe to become one of the most important sources of government revenue. They are also an increasingly important consideration for businesses and their advisors.

This course will discuss the nature of value added taxes, whether called VAT, GST or another name. VATs will be compared with other methods of taxing consumption, including other sales taxes and progressive expenditure taxes. The course will also look at the distinction between taxing consumption and income and the redistributive effects of taxing consumption. The course examines the main features and problems raised by VATs and GSTs, including defining the taxpayers and the amount subject to tax, international transactions and VATs in federal jurisdictions, and problematic issues such as input tax credits. Examples will be drawn from the European Union VAT and from taxes in a broad variety of other countries.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
There will be a reading week in Week 6 of the MT.

Formative coursework: One 2,000 word essay.

Indicative reading: Schenk et al., Value Added Tax: A Comparative Approach (Cambridge Univ. Press, 2015); Ebrill et al., The Modern VAT (IMF, 2001); Bird and Gendron, The VAT in Developing and Transitional Countries (Cambridge Univ. Press, 2007); Alan A. Tait, Value Added Tax: International Practice and Problems; Mirrlees et al., Tax by Design; McClure, The Value Added Tax: Key to Deficit Reduction?: Ogley, Principles of Value Added Tax: A European Perspective; James and Nobes, The Economics of Taxation; Tanzi and Zee, Tax Policy for Developing Countries.

Detailed reading lists will be provided during course via Moodle.

Recommended preliminary reading: Ebrill et al., The Modern VAT (International Monetary Fund, 2001), or Alan A. Tait, Value Added Tax: International Practice and Problems (IMF, 1988).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL4Z4 Half Unit**

**Value Added Tax in the EU**

This information is for the 2016/17 session.

Teacher responsible: Dr Ian Roxan NAB7.25

Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: This course is suitable for students who are taking LL4Z3 Consumption Taxes, or who already have some experience of EU direct or indirect taxation or of a VAT or GST system.

Course content: The focus of the course will be on the European Union VAT, but it is also suitable for students interested in the EU VAT as an important example of a VAT or GST system. The course will look at the EU legislation and jurisprudence, and will consider
LL4Z6  Half Unit
Comparative Constitutional Law: Institutions

This information is for the 2016/17 session.
Teacher responsible: Dr Jo Murkens NAB7.31
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: This course examines the central issues in comparative constitutional law across a range of jurisdictions and from a variety of perspectives. The course opens with an introduction on the purpose of comparative constitutional law. The first substantive part discusses various approaches to the study of CCL as well as the migration of constitutional ideas and related notions of constitutional borrowing, transplants etc. The second part of Term 1 deals with key constitutional concepts (constitution; rule of law; presidentialism, parliamentarism) which are discussed from a historical and comparative perspective. The point of these sessions is not to compare for the sake of comparing, but to equip you (the researcher) with the conceptual tools to do insightful, critical, and original comparative work of your own. The third part challenges the assumptions of liberal constitutionalism by examining constitutions in divided societies as well as authoritarian constitutionalism. The overall aim of the course is to develop students’ understanding and use of many general theoretical explanations surrounding debates in CCL, and to develop students’ critical/analytical approach to many of the questions facing judges and scholars in the next decade.
Teaching: 22 hours of seminars in the MT.
Formative coursework: One 2,000 word essay.
Indicative reading: There is not set book for this course. All materials will be made available in advance on Moodle.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4Z7  Half Unit
Comparative Constitutional Law: Rights

This information is for the 2016/17 session.
Teacher responsible: Dr Kai Moller NAB7.01
Availability: This course is available on the Master of Laws and Master of Laws (extended part-time study). This course is not available as an outside option.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: This course examines a range of controversial issues in human and constitutional rights law from a comparative perspective. These issues include: abortion; euthanasia and physician-assisted suicide; gay sex and sodomy; religion in the public sphere; affirmative action; hate speech and denial of the holocaust; obscenity. We will approach them by comparing and contrasting judgments from courts all over the world, with a certain emphasis on cases from the U.S. Supreme Court, the Canadian Supreme Court, the South African Constitutional Court, the European Court of Human Rights, the U.K. Supreme Court, and the German Federal Constitutional Court. The goals of the course are, first, to introduce the students to the jurisprudence of those extremely powerful and influential courts, and, second, to invite them to think about and critically analyse some of the most controversial, difficult, and important rights issues of our time.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
There will be a reading week in week 6.
Formative coursework: One 2,000 word essay.
Indicative reading: The course is mainly case-based; however, interested students may find the following book helpful: V Jackson and M Tushnet, Comparative Constitutional Law, 3rd edition, 2014.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

LL4Z9 Half Unit
Banking Law
This information is for the 2016/17 session.
Teacher responsible: Dr Joanne Braithwaite NAB7.28
Availability: This course is available on the MSc in Law and Accounting, Master of Laws and Master of Laws (extended part-time study). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: This course focuses on the private law of banking as it relates to the core banking activities not covered elsewhere on the LLM (ie, on courses about the financing activities of banks and the regulation of banking activities). In particular, we look at the deposit-taking relationship, and the legal issues surrounding bank payment services. The course aims to be both domestic and international in perspective, though the emphasis will be on English law. Topics include: 1. The deposit-taking relationship; 2. Money, transfers of money and payment including the development of new digital currencies and decentralised payment systems; 3. Bank payment methods: funds transfers and unauthorised payments; and 4. Bank payment services in international trade.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
There will be a reading week in week 6 of MT.
Formative coursework: Students will be asked to submit one essay, which may be written in exam conditions.
Indicative reading: For introductory purposes, students are referred to Ellinger, Lomnicka and Hare, Ellinger's Modern Banking Law (5th ed, 2011). Full reading lists will be distributed during the course.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

MA400 September Introductory Course (Financial Mathematics)
This information is for the 2016/17 session.
Teacher responsible: Dr Tuğkan Batu and Dr Christoph Czichowsky
Availability: This course is compulsory on the MSc in Financial Mathematics and MSc in Risk and Stochastics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The purpose of this course is to review some key concepts of finance and probability and to discuss a range of mathematical definitions and techniques that set the agenda for the Financial Mathematics MSc as a whole. Also, this course will incorporate an introduction to programming with C++. This course is composed of two components: The first component is concerned with the common mathematical background that is assumed by the MSc Financial Mathematics and addresses some aspects of the mathematical theory that is central to the foundations of the programme: a review of sets and set operations, functions and inverse functions is first developed; probability spaces, random variables, distributions, expectations and moment generating functions are then discussed; special emphasis is placed on the binomial, the normal and the log-normal distributions; the concepts of conditional probability and conditional expectation as random variables are introduced using intuitive arguments and simple examples; stochastic processes, martingales, the standard Brownian motion and the Poisson process are introduced; Itô’s formula and Girsanov’s theorem are discussed on a formal basis. The second component is an introduction to programming with languages such as C++.
Teaching: 40 lectures and classes over two weeks during September, prior to the start of the academic year, and 3 support lectures in MT. There will be an informal examination (this is for the maths component only).
Formative coursework: Exercises are assigned and form the basis of class discussion.
Indicative reading: Lecture notes will be provided for the mathematics component of this module. For the programming elements of the pre-sessional, we will use Derek Capper, Introducing C++ for Scientists, Engineers and Mathematicians, Springer 2001. For those with prior programming experience, a standard reference book on the C++ programming language is Bjarne Stroustrup, The C++ Programming Language, Addison Wesley, 1997.
Assessment: This course does not form part of the degree award.

MA402 Half Unit
Game Theory I
This information is for the 2016/17 session.
Teacher responsible: Dr Paul Duetting
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Applicable Mathematics, MSc in Financial Mathematics, MSc in Management Science (Decision Sciences) and MIM Exchange. This course is available as an outside option to students on other programmes where regulations permit.
It is not available to students who have taken Game Theory (MA300) or Game Theory I (MA301).
Pre-requisites: Students must know basics of linear algebra (matrix multiplication, geometric interpretation of vectors) and probability theory (expected value, conditional probability, independence of random events).
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 2 hours of lectures in the ST.
Formative coursework: Weekly exercises are set and marked.
Indicative reading: Lecture notes will be provided. Supplementary reading: K Binmore, Playing for Real: Game Theory CUP, 2007; E Mendelson, Introducing Game Theory and its Applications, CRC 2004
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA407 Half Unit
Algorithms and Computation
This information is for the 2016/17 session.
Teacher responsible: Dr Julia Boettcher
Availability: This course is available on the MSc in Applicable Mathematics, MSc in Statistics, MSc in Statistics (Financial Statistics),
MA408 Half Unit
Discrete Mathematics and Graph Theory

This information is for the 2016/17 session.
Teacher responsible: Dr Peter Allen
Availability: This course is available on the MSc in Applicable Mathematics. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students should be taking the course MA407 Algorithms and Computation or have taken an equivalent course to provide a basic knowledge of algorithms, and should have experience with proofs and proof techniques used in pure mathematics.
Course content: This course provides an introduction to discrete mathematics, particularly graph theory. Emphasis will be placed on the algorithmic aspects of the area. Topics to be covered include: Brief Introduction to discrete mathematics and graph theoretic terminology; Ramsey’s Theorem; matching and Hall’s Theorem; graph search algorithms; stable marriages and the Gale-Shapley Theorem; network flows and the Ford-Fulkerson Theorem; connectivity and Menger’s Theorems; graph colouring and Brooks’ Theorem; an introduction to the probabilistic method; spectral graph theory and random walks.
Teaching: 20 hours of lectures and 15 hours of seminars in the LT. 2 hours of lectures in the ST.
Formative coursework: Students will be expected to produce 10 exercises in the LT.
Weekly exercises are set and marked.
Several of these texts are available online. More information, plus additional notes, will be provided during the course.
Assessment: Exam (75%), duration: 2 hours and 30 minutes in the main exam period.
Coursework (25%) in the LT.

MA410 Half Unit
Information Communication and Cryptography

This information is for the 2016/17 session.
Teacher responsible: Dr Andrew Lewis-Pye
Availability: This course is available on the MSc in Applicable Mathematics. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students should be taking the course MA407 Algorithms and Computation or have taken an equivalent course to provide a basic knowledge of algorithms, and should have experience with proofs and proof techniques used in pure mathematics.
Course content: This course provides an introduction for students with a mathematical background, to the applications of mathematics in information theory, coding theory, cryptography, and related areas. The course will cover mathematical aspects of the following topics: Noiseless coding, the Kraft-McMillan criterion, optimal coding, entropy, Shannon’s first theorem; Noisy channels,
capacity, system entropy, Error-correcting codes, decoding rules, bounds, construction and properties of linear and cyclic codes; Structure of natural languages, redundancy, the frequency table, making and breaking cryptosystems, historic examples; Public-key cryptography, complexity issues, the RSA system, authentication schemes, the ElGamal system, elliptic curve cryptography.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the MT. 1 hour of seminars in the LT. 2 hours of lectures in the ST.

**Indicative reading:** N L Biggs, Codes, An Introduction to Information, Communication and Cryptography; G A Jones & J M Jones, Information and Coding Theory; C M Goldie & R G E Pinch, Communication Theory; D J A Welsh, Codes and Cryptography; D T Stinson, Cryptography Theory and Practice.

**Assessment:** Exam (90%, duration: 2 hours) in the main exam period. Coursework (10%) in the MT.

---

### MA411 Half Unit

**Probability and Measure**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Pavel Gapeev

**Availability:** This course is available on the MSc in Applicable Mathematics, MSc in Financial Mathematics and MSc in Risk and Stochastics. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Some background in real analysis is essential.

**Course content:** The purposes of this course are (a) to explain the formal basis of abstract probability theory, and the justification for basic results in the theory, and (b) to explore those aspects of the theory most used in advanced analytical models in economics and finance. The approach taken will be formal. Probability, spaces and probability measures. Random variables. Expectation and integration. Convergence of random variables. Conditional expectation. The Radon-Nikodym Theorem. Martingales. Stochastic processes. Brownian motion. The Itô integral.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 1 hour of seminars in the LT.

**Indicative reading:** Full lecture notes will be provided. The following may prove useful: J S Rosenthal, A First Look at Rigorous Probability Theory; G R Grimmett & D R Stirzaker, Probability and Random Processes; D Williams, Probability with Martingales; M Caplinski & E Kopp, Measure, Integral and Probability; J Jacod & P Protter, Probability Essentials.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

### MA412 Half Unit

**Functional Analysis and its Applications**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Robert Simon

**Availability:** This course is available on the MSc in Applicable Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students should have taken a course in functional analysis. Some degree of mathematical maturity is expected.

**Course content:** The techniques and results of functional analysis are increasingly important to economic analysis. This course focuses on the problems of functional incompleteness and information asymmetry. This is a relatively new but rapidly expanding area of economic theory with connections to several areas of economic theory, for example conflict resolution, auctions, principal-agent problems, and the logic of knowledge. The course is divided into three parts, I Basic Results, II Repeated Games, III Bayesian Games. For the first part we cover the Min-max Theorem and Nash's Theorem of Equilibrium Existence, Extensive Form and Discounted Games. For the second part we cover Zero-sum Games with Vector Payoffs, The Value of the Zero-sum Repeated Game of Incomplete Information on One Side, Non-Zero-Sum Games with Incomplete Information on One Side. For the third part we cover Common Knowledge, Zero-Sum Bayesian Games, Locally Finite Games, Non-Zero-Sum Bayesian Games, Ergodic Theory and Ergodic Games.

**Teaching:** 22 hours of lectures and 10 hours of seminars in the LT. 1 hour of seminars in the ST.

**Formative coursework:** Weekly exercises are set and marked.

**Indicative reading:** A full set of lecture notes will be provided. Useful accompanying texts are Robert J. Aumann and Michael B. Maschler, Repeated Games with Incomplete Information, MIT Press, 1995; L. Breiman, Probability; K. Border, Fixed Point Theorems with Applications to Economics and Game Theory; R Myerson, Game Theory, Analysis of Conflict, Harvard University Press; D Fudenberg & J Tirole, Game Theory, MIT Press.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

### MA413 Half Unit

**Games of Incomplete Information**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Robert Simon COL 4.07

**Availability:** This course is available on the MSc in Applicable Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students should have taken a course in game theory or be familiar with the related mathematics of topology and functional analysis. Some degree of mathematical maturity is expected.

**Course content:** The techniques and results of game theory are increasingly important to economic analysis. This course focuses on the problems of information incompleteness and information asymmetry. This is a relatively new but rapidly expanding area of game theory with connections to several areas of economic theory, for example conflict resolution, auctions, principal-agent problems, and the logic of knowledge. The course is divided into three parts, I Basic Results, II Repeated Games, III Bayesian Games. For the first part we cover the Min-max Theorem and Nash's Theorem of Equilibrium Existence, Extensive Form and Discounted Games. For the second part we cover Zero-sum Games with Vector Payoffs, The Value of the Zero-sum Repeated Game of Incomplete Information on One Side, Non-Zero-Sum Games with Incomplete Information on One Side. For the third part we cover Common Knowledge, Zero-Sum Bayesian Games, Locally Finite Games, Non-Zero-Sum Bayesian Games, Ergodic Theory and Ergodic Games.

**Teaching:** 22 hours of lectures and 10 hours of seminars in the LT. 1 hour of seminars in the ST.

**Formative coursework:** Weekly exercises are set and marked.

**Indicative reading:** A full set of lecture notes will be provided. Useful accompanying texts are Robert J. Aumann and Michael B. Maschler, Repeated Games with Incomplete Information, MIT Press, 1995; L. Breiman, Probability; K. Border, Fixed Point Theorems with Applications to Economics and Game Theory; R Myerson, Game Theory, Analysis of Conflict, Harvard University Press; D Fudenberg & J Tirole, Game Theory, MIT Press.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
its properties. Subsequently, Lévy's characterisation of Brownian motion, martingale representation theorems and Girsanov's theorem are established. The course then expands on a study of stochastic differential equations. 

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Indicative reading:** Full lecture notes will be provided. The following may prove useful: J Karatzas and S E Shreve, Brownian Motion and Stochastic Calculus, Springer; B Øksendal, Stochastic Differential Equations: An Introduction with Applications, Springer; D Revuz and M Yor, Continuous Martingales and Brownian Motion, Springer; L C G Rogers and D Williams, Diffusions, Markov Processes, and Martingales, Cambridge.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MA415 Half Unit**

**The Mathematics of the Black and Scholes Theory**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Christoph Czichowsky and Dr Arne Lokka

**Availability:** This course is compulsory on the MSc in Financial Mathematics. This course is available on the MSc in Risk and Stochastics, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed September Introductory Course (Financial Mathematics) (MA400).

**Course content:** This course is concerned with a mathematical development of the risk-neutral valuation theory. In the context of the binomial tree model for a risky asset, the course introduces the concepts of replication and martingale probability measures. The mathematics of the Black & Scholes methodology follow, in particular, the expression of European contingent claims as expectations with respect to the risk-neutral probability measure of the corresponding discounted payoffs, pricing formulae for European put and call options, and the Black & Scholes PDE are derived. A class of exotic options is then considered. In particular, pricing formulas for lookback and barrier options are derived using PDE techniques as well as the reflection property of the standard Brownian motion. The course also introduces a model for foreign exchange markets and various foreign exchange options.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MA416 Half Unit**

**The Foundations of Interest Rate and Credit Risk Theory**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Mihail Zervos

**Availability:** This course is compulsory on the MSc in Financial Mathematics. This course is available on the MSc in Risk and Stochastics, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed The Mathematics of the Black and Scholes Theory (MA415).

**Course content:** This course is concerned with the mathematical foundations of interest rate and credit risk theory. The course starts with a development of the multi-dimensional Black & Scholes theory with stochastic market data. This is then used to show how discount bond dynamics modelling can be approached by (a) the modelling of the short-rate process and the market price of risk, which underlies the family of short-rate models, or (b) the modelling of the market price of risk and the discount bond volatility structure, which gives rise to the Heath-Jarrow-Morton (HJM) framework. The course then expands on the theory of interest rate market models and credit risk.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.

**Formative coursework:** Two sets of written homework will be marked with feedback provided.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MA417 Half Unit**

**Computational Methods in Finance**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Luitgard Veraart and Dr Tugkan Batu

**Availability:** This course is compulsory on the MSc in Financial Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed September Introductory Course (Financial Mathematics) (MA400).

**Course content:** The purpose of this course is to (a) develop the students' computational skills, and (b) introduce a range of numerical techniques of importance to financial engineering. The course starts with the implementation of binomial and trinomial trees. Random number generation, the fundamentals of Monte Carlo simulation and a number of related issues follow. Numerical solutions to stochastic differential equations and their implementation are considered. The course then addresses finite-difference schemes for the solution of partial differential equations arising in finance.

**Teaching:** 8 hours of lectures and 12 hours of computer workshops in the MT. 20 hours of lectures, 4 hours of seminars and 10 hours of computer workshops in the LT.

**Formative coursework:** Weekly exercises and practicals are set and form the basis of the seminars.

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period.

**Project (50%) in the ST.**
MA418  Half Unit  Not available in 2016/17
Preferences, Optimal Portfolio Choice, and Equilibrium

This information is for the 2016/17 session.
Teacher responsible: Dr Albina Danilova
Availability: This course is available on the MSc in Applicable Mathematics and MSc in Financial Mathematics. This course is available with permission as an outside course to students on other programmes where regulations permit.
Pre-requisites: Students must have completed either Stochastic Processes (ST409) or Probability and Measure (MA411) or The Mathematics of the Black and Scholes Theory (MA415).
Course content: This course is concerned with the theory of optimal investment and consumption. The course starts with the derivation of utility functions from the axioms of an agent's preferences. Utility functions are then used as a measure of portfolio performance in a financial market. Optimal investment and consumption strategies are obtained for various utility functions in both complete and some types of incomplete markets. Equilibrium and asset price formation are considered in the context of complete and informationally incomplete markets.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. 4 hours of lectures and 2 hours of seminars in the ST.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.

MA419  Half Unit  Not available in 2016/17
Search Games

This information is for the 2016/17 session.
Teacher responsible: Dr Thomas Lidbetter
Availability: This course is available on the MSc in Applicable Mathematics and MSc in Management Science (Operational Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: In Search Theory, a mobile Searcher wishes to minimise the time T taken to find something, which we call the Hider, in a known search space Q. The Hider may be stationary or mobile. In the zero sum game context (first half of the course), the Hider does not want to be found, or at least wants to maximise T. In the second half of the course we consider the Rendezvous Search Problem, in which the Hider also wants to minimise T. In both contexts the search space Q will often be taken as a finite network. In Search Theory, a unit-space search tries to minimise the time T required to find (meet) a lost object or agent hidden in a known search region Q. This course concentrates on cases where the lost object is an agent whom has motives of his own. The course content will be based on both Search Games (zero-sum games where a T-minimising Searcher seeks a T-maximising Hider) and Rendezvous Games (common-interest games where two lost searchers want to minimise T).
The first part of the course will consider Search Games. We begin with the case where the Hider is immobile - he picks his position in Q at the start of the game. We solve this game for the case where Q is a tree or a 'weakly Eulerian' network, assuming the Searcher starts in a location known to the Hider; then we remove this restriction. We then study Search Games where the Hider is mobile, the so-called 'Princess and Monster' games of R. Isaacs.
Several special games are then studied, for example the case of an unknown search region (maze), and games in which the Searcher has to find several hidden objects.
The second part of the course studies the Rendezvous Search Problem. We begin with the player-asymmetric form of the problem, where the two Searchers may meet before the game to decide what strategy each will adopt. We then consider the player-symmetric form, where the Searchers are constrained to follow a common mixed strategy. Finally, we consider the incomplete information problem where a Searcher seeks an agent who might be a Hider (T-maximiser) or another Searcher (T-minimiser).
Teaching: 22 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: An assignment is set each week and marked by the lecturer with feedback. Problem areas will be discussed in class.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA420  Half Unit
Quantifying Risk and Modelling Alternative Markets

This information is for the 2016/17 session.
Teacher responsible: Prof Mihail Zervos
Availability: This course is available on the MSc in Applicable Mathematics, MSc in Financial Mathematics, MSc in Risk and Stochastics, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Stochastic Processes (ST409).
Course content: This course is concerned with various issues arising in the context of investment risk specification as well as with the mathematical theory of so-called alternative markets, such as commodity and energy markets. In particular, the course considers the structural credit risk models and the quantification of risk by means of copulas and risk measures. Also, the course expands on the modeling of alternative markets and addresses the problem of valuation of investments in real assets.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.
Formative coursework: Two sets of written homework will be marked with feedback provided.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA421  Half Unit
Advanced Algorithms

This information is for the 2016/17 session.
Teacher responsible: Dr Tugkan Batu
Availability: This course is available on the MSc in Applicable Mathematics, MSc in Statistics, MSc in Statistics (Financial Statistics),
MA422
Research Topics in Financial Mathematics

This information is for the 2016/17 session.
Teacher responsible: Dr Christoph Czichowsky
Availability: This course is available on the MSc in Financial Mathematics and MSc in Risk and Stochastics. This course is available as an outside option to students on other programmes where regulations permit.
PhD students in the departments of Mathematics and Statistics along with other members of the research community are welcome to attend.
Course content: The seminar ranges over many areas of financial mathematics, stochastic analysis and stochastic control theory.
Teaching: 6 hours of seminars in the MT. 6 hours of seminars in the LT. 6 x 1 hour talks by researchers in the MT and LT.
Additional seminars will be scheduled throughout the year. Please see the Timetables website for further information.
Formative coursework: This course is not assessed.
Assessment: This is a non-assessed course.

MA498
Dissertation in Mathematics

This information is for the 2016/17 session.
Teacher responsible: Dr Peter Allen
Availability: This course is compulsory on the MSc in Applicable Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The Dissertation in Mathematics is an individual, substantial project as an introduction to mathematical research. The student will investigate and study an area of substantial project as an introduction to mathematical research. This course is compulsory on the MSc in Applicable Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Algorithms and Computation (MA407) or have taken an equivalent course to provide a basic knowledge in analysis of algorithms: running time and correctness of an algorithm, basic knowledge in computer programming, preferably, in Java language, and should have experience with proofs and proof techniques used in pure mathematics.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.
Formative coursework: Weekly exercises are set and marked. Some of these will require implementation of programming exercises in Java.
Indicative reading: T H Cormen, C E Leiserson, R L Rivest, and C Stein, Introduction to Algorithms; V Vazirani, Approximation Algorithms; R Motwani and P Raghavan, Randomized Algorithms.
Assessment: Exam (75%), duration: 2 hours and 30 minutes) in the main exam period.
Coursework (25%) in the ST.

MC401 Half Unit
Mediated Resistance and Citizens

This information is for the 2016/17 session.
Teacher responsible: Dr Bart Cammaerts TW2-601c
Availability: This course is available on the MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Media, Communication and Development and MSc in Politics and Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course aims to examine the various ways in which citizens, activists and social movements use, appropriate and consume media and technologies to resist, but also how resistance is represented and mediated, by citizens themselves, by the mainstream media and through movement media. The course will address several aspects of the intricate relationship between media and communication, resistance and activism. The course is organised around the core-concept of the ‘mediation opportunity structure’ referring to the opportunities for agency through media and communication, as well as the structural constraints preventing agency and stifling dissent. Both ICTs and more traditional media are considered and a dialectical perspective on power and the relationship between agency and structure is adopted with a particular emphasis on strategies of resistance. The different lectures will focus on various aspects of the mediation opportunity structure - mainstream-media representation, self-mediation, counter-hegemony, networked opportunities - using examples from various regions in the world. Some case-studies will be situated at a local level of analysis, others at a national, while again others might relate to regional contexts or even transnational levels of governance.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: All students are expected to complete advanced reading, prepare seminar presentations and submit one essay of 1,500 words.
Indicative reading:
MC402 Half Unit
The Audience in Media and Communications

This information is for the 2016/17 session.
Teacher responsible: Prof. Sonia Livingstone

Availability: This course is available on the MSc in Culture and Society, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research), MSc in Media, Communication and Development, MSc in Politics and Communication and MSc in Social Research Methods. This course is available for permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. While we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: This course examines a variety of social, cultural and psychological issues as they relate to the audiences for television and other media. It analyses people's everyday engagement with media, beginning with the history of audiences and audience research, then examining audiences for a variety of genres, before addressing transformations in audiences and audience research with the advent of new media, especially hybrid, globalised, cross-media genres and user-generated content. The course frames its critical investigation of empirical audience studies in relation to theories of active audiences, interpretive communities, encoding-decoding and fandom, among others. Students will be encouraged to read widely, to forge links with other aspects of media, communications and cultural studies, and to debate the nature and future of audiences in a changing media landscape.

Teaching: 11 hours of lectures and 9 hours of seminars in the LT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

Indicative reading:
- Farnham: Ashgate.

Assessment: Essay (100%, 3000 words) in the ST.

MC403 Half Unit
Contemporary Issues in Media and Communications Policy

This information is for the 2016/17 session.
Teacher responsible: Dr. Damian Tambini

Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research) and MSc in Politics and Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be particularly beneficial to students with some background knowledge of media policy, regulation and governance. Participants are advised to discuss with the course teachers if they have not taken course MC424 or equivalent, or if they do not have relevant professional experience.

Preparation for the course could include:
- Seeking additional reading in discussion with course teachers, or
- Auditing MC424 course materials and lectures from Moodle.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: This course examines live issues in broadcasting, press and telecommunications policy with a focus on current debates and an innovative format that permits longer seminar discussions, practical exercises in policy engagement and guest speakers who are active in media policy. The aim will be to develop a practical approach to current debates at the same time referring to the longer term normative and theoretical background to intervention in this sector. After the first session, discussion will focus on a current issue each week, and the reading contains items relating to that issue. There may be some changes to the order of the sessions depending on availability of high profile guest speakers, and supplementary readings may be advised during seminars or by email.

Students will be encouraged to debate current policy issues including those the regulators and the government are currently consulting on, and develop a critical understanding of policy intervention, the policy process and strategy.

Teaching: Lectures and seminars totalling 20 hours will be held on a weekly basis throughout Lent Term. Seminars may be given by different teachers. They will not necessarily deal with the same topics each week, but they all cover the same ground.

Formative coursework: All students are expected to complete advanced reading, prepare seminar presentations and submit one essay of 1,500 words.

Indicative reading: A reading list will be provided for each topic.

General works relevant to the course include:
MC404  Half Unit
Political Communication

This information is for the 2016/17 session.

Teacher responsible: Dr Maggie Scammell TM2.7.01C

Availability: This course is compulsory on the MSc in Politics and Communication. This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC) and MSc in Media and Communications (Media and Communications Governance). This course is available as an outside option to students on other programmes where regulations permit.

This course is available to other students from the Department of Media and Communications, and students from other departments at the LSE. Students from the Department of Government are particularly welcome.

Please note however that places are limited. In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. While we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: The aim of the course is to examine the relationship between the media and political processes. It offers a critical review of key aspects of contemporary theory and research in political communications. It examines a range of interconnected issues concerning the politics/media relationship: media and political influence; political marketing; branding and news management; political reporting; media and public knowledge; and the ‘crisis’ of current media communications.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

Assessment: Essay (100%, 3500 words) in the LT.

MC405  Half Unit
Current issues in Media and Communications: Policies for ICTs, Society and Development

This information is for the 2016/17 session.

Teacher responsible: Dr Savita Bailur

Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research) and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit. Priority will be given to students on other programmes in the Media and Communications department. In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. While we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Prerequisites: Background similar to completion of MC424 is desirable but not essential.

Course content: How does one design an ICT (information and communication) policy which is as inclusive as possible? What are the decision-making processes involved - for example, in mobile regulation, internet governance or e-waste, just to take a few examples? This course will examine policies and their relationship with society and development, drawing on multi-disciplinary theories and mutual learning from other modules (for example, MC424, MC403, MC421) but also offer a unique practical approach with the course leaders as practitioners in the policy field. We discuss issues including competition and regulation, ICTs and development, internet governance, mobile phones and exclusion, overcoming affordability barriers, information rights, mobile internet use and ICT waste. For example, some of the topics we have discussed in the past include policy-making surrounding the political economy of billing in South Africa, mobile internet and income generation for women in China or competition and regulation in Bhutan.

Course objectives are: to examine the relationship between ICT policy and wider public policy domains (e.g. social policy, international development, the environment); to explore the development and regulation of communications in countries at all stages of economic and social development; to understand current experience and the application of policy development and research methods in these areas; and to illustrate these issues from practical experience.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one mid-term formative reflection of 500 words on their seminar participation and what value this has shown to them.

**Assessment:** Essay (100%, 3000 words) in the ST.

**MC407 Half Unit Not available in 2016/17 International Media and The Global South**

_This information is for the 2016/17 session._

**Teacher responsible:** Dr Shaktuntala Banaji STC. S103

**Availability:** This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communication and Development and MSc in Politics and Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whilst we do our best to accommodate all requests, we cannot guarantee you a place on this course.

**Course content:** This course challenges students to raise questions about the power and role of international media - including media originating in the global south - in shaping global discourses about development, citizens and the global south. Building on empirical examples, the lectures aim to demonstrate that the reporting and representation, regulatory frameworks, good governance and economy and cultural studies and pertaining to identity, ideology, representation, regulatory frameworks, good governance and democracy and 3) Cases and practices in reporting development, poverty, inequality and humanitarian issues. Cross-cutting themes will include a consideration of gender, NGO communications, ethnic and social conflict, tourism campaigns, social media and ICTs in the context of international media and change in the global south.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

**Assessment:** Essay (100%, 3000 words) in the ST.

---

**MC408 Half Unit Theories and Concepts in Media and Communications I (Key concepts and interdisciplinary approaches)**

_This information is for the 2016/17 session._

**Teacher responsible:** Dr Bart Cammaerts TNW.6.01C

**Availability:** This course is compulsory on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Media, Communication and Development and

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MC409  Half Unit
Media, Technology and Everyday Life

This information is for the 2016/17 session.
Teacher responsible: Dr Leslie Haddon STC.S104
Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research) and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: The course aims to explore how information and communication technologies are experienced in everyday life. This includes examining how ICTs are socially shaped, through looking at current theoretical frameworks as well as historical and contemporary examples. The course covers how such matters as the domestication of ICTs, their place in social networks and their implications for time and space. Finally, a range of potential social consequences are considered, from the specific implications for parent-child relationships to broader questions about the extent to which these technologies are changing social life.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words during MT.

Assessment: Essay (100%, 3000 words) in the LT.

MC411  Half Unit
Media and Globalization

This information is for the 2016/17 session.
Teacher responsible: Prof Terhi Rantanen STC. S106
Availability: This course is compulsory on the MSc in Global Media and Communications (LSE and Fudan) and MSc in Global Media and
Communications (LSE and USC). This course is not available as an outside option.

Course content: The aim of this course is to explore and demonstrate the role of the media and communications in the processes of globalisation by introducing the relevant literature, by examining various theories of globalisation and by identifying their relevance in understanding the media. Topics taught include: Globalisation theories, Media imperialism, Global generations, Global media events, Global media production, Global representations, Global consumption, Alternative globalisation theories.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 6 hours of panel discussion in the MT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, prepare a mediography, and submit one essay of 1,500 words.

Assessment: Essay (60%, 2000 words) in the LT. Coursework (30%, 1000 words) and presentation (10%) in the MT. Report (1,000 words, worth 30 %) and presentation (10 minutes, worth 10 %), to be prepared and given together with another student in MT. Essay (2,000 words, worth 60 %) to be submitted in LT week 1.

MC413  Half Unit
Information, Communication and Knowledge Systems

This information is for the 2016/17 session.
Teacher responsible: Dr Paolo Dini
Availability: This course is available on the MSc in Global Media and Communications (LSE and USC), MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research), MSc in Media, Communication and Development and MSc in Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: The aim of this course is to examine how innovation influences the development of digital technologies and the information, communication and knowledge systems they support. The focus is on the social, political and economic implications of changes in the digitally mediated environment in the information society. Digital technologies are developed, used, and sometimes resisted within a complex socio-technical system. Students are encouraged to critically appraise the way this system is influencing people's lives in ways that are both empowering and disempowering. Policy choices with respect to governing the Internet and social media are discussed in relation to the values that inform different perspectives.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

Assessment: Essay (100%, 3000 words) in the ST.

MC416  Half Unit
Representation in the Age of Globalisation

This information is for the 2016/17 session.
Teacher responsible: Dr Shani Orgad TWW.7.01G
Availability: This course is available on the MSc in Global Media and Communications (LSE and LSE), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications (LSE and USC), MSc in Media and Communications (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: Images and stories circulated in the media play a central role in informing how we imagine the world, others and ourselves. We become increasingly dependent, often exclusively, on what we see, read and hear in the news, on our favourite television drama series, in advertisements, on the radio, and over the Internet. This course focuses on the way media representations are implicated in the exercise of power over how we think and feel through the construction of meaning. It explores the opportunities that media representations present for the creation of a global and interconnected space, which enables the people living in it to conduct their social, cultural, political and economic lives in positive, just and inclusive ways. At the same time, the course discusses some of the critical challenges, limits and threats those visual and textual representations present. The discussion focuses on the representation of the Other and the production of difference, the representation of suffering, migration war and conflict, timely issues whose centrality is ever more vivid. It examines how transformations in the contemporary media landscape, such as the expansion of new media, the increasing commodification and the increasing global scope of communication, shape the ways in which public issues are framed, imaged, and constructed, and what consequences this may have for the moral judgements people make and the actions they take.

Teaching: 11 hours of lectures and 9 hours of seminars in the LT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

MC417 Half Unit
Democracy and the Media
This information is for the 2016/17 session.
Teacher responsible: Dr Bart Cammaerts TW2-601c
Availability: This course is compulsory on the MSc in Politics and Communication. This course is not available as an outside option.
Course content: This course examines the links between the media and democracy in theory and practice. The range of issues examined include: theories of democracy and the obligations of media; issues of press freedom and the limits to free speech; media and elections; media and public policy; the Internet and political participation; reporting in the digital age; media in an international context and the relationship between the media and social movements. This course discusses the role assumed by the media in both long-established democratic societies and in new and emerging democracies.
Teaching: 5 hours of lectures, 5 hours of seminars and 15 hours of workshops in the MT. The workshops refer to 5 student-led classes of 3 hours of in the MT centred around student presentations.
Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.
Indicative reading:
Assessment: Essay (90%, 3000 words) in the LT. Presentation (10%) in the MT.

MC419 Half Unit
Modern Campaigning Politics
This information is for the 2016/17 session.
Teacher responsible: Dr Nicholas Anstead Tower 3, 7.01.F
Availability: This course is available on the MSc in Politics and Communication. This course is not available as an outside option.
Course content: Modern campaigning politics. The practice of modern political campaigns based primarily on US and UK politics and elections since 1987. The focus is practical politics. The course is taught by a series of invited guest lecturers who are experts in the field of political campaigning for political parties and NGOs. It will connect with theory taught in the MSc programme's core courses concerning media influence, elections and voting behaviour and public opinion. It will enable students to see how theory is relevant and applied to the practice of modern political campaigns in the context of the changing nature of modern global politics, the politics of disengagement and identity. It will examine core and general concepts in campaigning including political strategy and how it is developed; ‘political message’, and the shaping of public opinion; and election campaigning and how successful campaigns are planned and implemented. The course will link campaign-relevant theory and practice through recent case histories of illustrative campaigns/political projects.
Teaching: 20 hours of seminars in the LT.
Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

MC418 Half Unit
Theories and Concepts in Media and Communications II (Processes of communication in modern life)
This information is for the 2016/17 session.
Teacher responsible: Dr Myria Georgiou TW2.701.G
Availability: This course is compulsory on the MSc in Media and Communications. This course is available on the MSc in Gender, Media and Culture and MSc in Media and Communications (Research). This course is not available as an outside option.
Course content: This course examines key concepts and critical perspectives on the processes of communication that underpin social, economic and cultural relations across diverse spheres of modern life. It takes an interdisciplinary and theoretical perspective, comparing the claims and contribution of selected key theories of communication in order to understand and critique the symbolic and material power of communication media. With a substantive focus on the shifts from mass to networked media and from national to globalised communication processes, the course offers a selective introduction to key theories in communication. It examines a series of critical perspectives, drawing on current research debates in the field of media and communications and beyond. The course is team taught by active researchers in the field of media and communications and aims to enable students to develop their critical understanding of the communication processes central to the contemporary media and communications environment.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit an essay of 1,500 words. In addition, there will be a one-hour theories and concept mapping exercise in class in last week of term.
Assessment: Essay (100%, 3000 words) in the ST.
**Assessment:** Essay (100%, 3000 words) in the ST.

**MC420**  
**Half Unit**  
**Identity, Transnationalism and the Media**  
**This information is for the 2016/17 session.**  
**Teacher responsible:** Dr Myria Georgiou TW2.701.G  
**Availability:** This course is available on the MSc in Culture and Society, MSc in Gender, Media and Culture, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research) and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit. In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.  
**Course content:** This course examines the relation between identity and the media in the context of diaspora and transnationalism. The course explores meanings of identity at present times, especially as these are formed through experiences of mediated and physical transnational mobility. As migration and symbolic mobility, especially through the media, inform each other it becomes almost impossible to understand identity outside the context of mediation. The course is organised in three main thematic units. The first unit provides the conceptual entry point to the course. The second unit focuses on the modes of transnational communication: television, cinema and the internet. The third unit focuses on the spaces of transnational communication: the city, the nation and the transnational space. Each unit and lecture contributes to the understanding of identity in a world that is increasingly interconnected and networked.  
**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.  
**Formative coursework:** All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.  
**Assessment:** Essay (100%, 3000 words) in the ST.

**MC421**  
**Half Unit**  
**Critical Approaches to Media, Communication and Development**  
**This information is for the 2016/17 session.**  
**Teacher responsible:** Dr Shakuntala Banaji TW2.7.01F  
**Availability:** This course is compulsory on the MSc in Media, Communication and Development. This course is available on the MSc in Inequalities and Social Science, MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications Governance) and MSc in Media and Communications (Research). This course is not available as an outside option. It is also available to other students from the Department of Media and Communications with the permission of the teacher. In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.  
**Course content:** The content of the course addresses the history of and tensions between ‘media for development’ and ‘communication for development’, while challenging mainstream development perspectives on aid, modernisation, and the role of media and communication in low income countries and unequal social contexts. It achieves this aim by emphasising the conflictual relationships between economic and political power structures and the empowerment of individuals, as well as among collective groupings within their local and regional contexts. In particular, paying attention to issues of history, colonisation, race and gender, this course questions the epistemological basis of modernisation approaches to Media, Communication and Development. It explores the ways in which the concepts of ideology, discourse, orientalism, reflexivity and power can enable a critical understanding of social life, participation and change in the global south. The course also offers a critique of the scholarly and policy oriented literature that regards the media, information, and communication strategies, and information and communication technology applications, as obvious means of alleviating poverty and fostering democracy and human rights in low-income countries. It offers alternative theorisations of the contested way in which developments in these areas become embedded in the cultural and social fabric, especially where poverty and unequal power relations influence the capacities of individuals to make changes in their lives.  
**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.  
**Film viewing:** 3 hours in MT.  
**Formative coursework:** All students are expected to complete advance reading, participate in case studies and discussions on moodle forums, prepare seminar presentations, organise and attend practitioner seminars and film/documentary viewings and submit one essay of 1,500 words.  
Critical Studies in Media and Journalism

This information is for the 2016/17 session.

Teacher responsible: Prof Charles Beckett TW2.7.01K

Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research) and MSc in Politics and Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: The news media is vital not just for the dissemination information but as a forum for debate. Journalism thus shapes our individual and community lives. It frames ideological disputes and is a site of contestation. But journalism and the news itself is changing because of technological, social, economic and political forces. This course led by a media professor with 20 years of experience as a journalist, takes an ethical perspective on media change. It asks what impact journalism has, what kind of journalism do we want, and how will journalism reconstruct itself according to competing national, cultural, or political contexts. On completion of this course, students should be able to: understand the role of global journalism in society today; critically discuss different theoretical conceptions of journalism as practiced in a wide variety of social and political contexts; compare and contrast the role of journalism in contexts ranging from mainstream to alternative media outlets; evaluate the normative and empirical connections between media journalism, the production of news and ethical considerations; critically assess contemporary debates about the changing nature of journalism and its implications for cultural understanding and democracy.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

Assessment: Essay (100%, 3000 words) in the LT.

MC422 Critical Studies in Media and Journalism

MC423 Global Media Industries

This information is for the 2016/17 session.

Teacher responsible: Dr Bingchun Meng STC. S108

Availability: This course is available on the MSc in Culture and Society, MSc in Gender, Media and Culture, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Research), MSc in Media, Communication and Development and MSc in Politics and Communication. This course is not available as an outside option.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course. Priority access is given to those taking MSc Global Media and Communications (Fudan or USC).

Course content: This course aims to present a critical view of theories, research and practices of media industries in the context of globalization. The central theme of the course is how media industries have been transformed by the recent political economic, cultural and technological changes on a global scale and how such transformation impact the content circulating across media platforms. Topics of interest include: new ways of organizing media production and distribution; digital media as a potential source of both resistance and control; media industries and creative cities; media policy and regulation at the global level. We will not only discuss key issues of media industries such as convergence, commodification, creative labour etc., but will also utilize different approaches such as political economy, cultural studies and ethnography to analyze cases of media production.

Course objectives: This course aims to help you:

- Understand different approaches to the study of media industries
- Examine the transformation of media industries in the context of globalization
- Critically analyse the relationship between institutional arrangements of media industries and the content being produced and disseminated
MC424  Half Unit
Media and Communication Governance

This information is for the 2016/17 session.
Teacher responsible: Dr Damian Tambini TW1 8.01e

Availability: This course is compulsory on the MSc in Media and Communications (Media and Communications Governance). This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research), MSc in Media, Communication and Development and MSc in Politics and Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: Should the internet be governed? How should law and policy on the press and the media be reformed in the light of technological change? This course lays the foundation for understanding key regulatory approaches to the First Amendment, ‘Market failure and intervention’, self regulation in Convergent Media, and the regulatory frameworks used to govern or regulate communication services or the providers of those services, usually for an alleged public benefit. The process of governance includes public policy debate and discussion and the processes of self-regulation and legal regulation. The term ‘governance’ refers to the norms, rules and resources together with their theoretical underpinnings that inform the production and consumption of media and communication services. The course covers the key concepts required to gain an understanding of the processes through which public authorities, corporations and the public are involved in setting rules, building institutions and providing public resources for the provision of media and communication services. This course begins from the assumption that media and communication can only be fully understood if their governance and implications for citizens and consumers as well as producers, is understood. Illustrations are drawn from UK, European and international developments, thereby presenting a multi-levelled analytical approach to governance issues in the field. The first half of the course maps key elements of communication governance including key concepts and institutions. The second half of the course examines contemporary issues and debates in communication governance.

Teaching: 10 hours of lectures and 9 hours of seminars in the MT. 1 hour of lectures in the ST.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

See also the Country Reports and Issue Reports of the Open Society Foundation Mapping Digital Media Project; available at: http://www.soros.org/about/programs/media-program

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MC425  Half Unit
Interpersonal Mediated Communication

This information is for the 2016/17 session.
Teacher responsible: Dr Ellen Helsper TW2 7.01E

Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research), MSc in Media, Communication and Development and MSc in Politics and Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Students are asked to write a short personal statement on LSE for You indicating why they want to take this course. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: Communication media have been blamed for a breakdown of social relationships and have simultaneously been hailed as powerful social tools that can connect people from all walks of life. This course addresses the ways in which interpersonal relationships and communication are influenced by mediation. The aim of this course is to provide students with a critical understanding of mediated communication within small groups and dyadic relationships. The course examines the influence of media on three key fields of interpersonal interaction which are identified as personal, social and professional communication. The first half of the course addresses the history of media in interpersonal communication as well as general
interpersonal communication and relationship theories. The second half looks in more detail at how the interaction between media and interpersonal communication has been studied in relation to the cross-cutting themes of privacy/trust, isolation/socialisation and multi-modality. These central concepts of the course are reflected upon through theories of social norms, affordances, social capital and supplementation/substitution, and discussed from the perspective of different disciplinary and methodological paradigms. Application of theory to practitioner and policy examples will give students the tools to understand what the practical implications are of the ways in which these different paradigms suggest that interpersonal communication processes vary depending on the type of platform this communication takes place on as well as the type of relationship that is under investigation and the context in which this relationship develops. As a result of the course the students will be able to evaluate the weaknesses and strengths of the theories that aim to explain apparently contradictory observations about the practise of interpersonal mediated communication. This can be applied to professional areas such as User Experience Design, intra-organisational communication, moderation and regulation of social media and discussion forums.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** All students are expected to complete advance reading, participate in the creation of a course wiki, prepare seminar presentations, and submit one essay of 1,500 words.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 5 three-hour film screenings in the MT.

**Formative coursework:** All students are expected to complete advance reading, participate in moodle forums, present in seminar discussions, attend 5 film screenings and submit one essay of 1,500 words.

This information is for the 2016/17 session.  
**Teacher responsible:** Dr Shakuntala Banaji TW3.7.01J  
**Availability:** This course is available on the MSc in Global Media and Communications (LE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Media, Communication and Development and MSc in Politics and Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

**Course content:** This course provides an historical, theoretical and methodological basis through which to assess the social and cultural transformations related to digital media infrastructures and related social practices. It focuses on the materiality and affordances related to digital media infrastructures and related social practices.
of new media, as well as on the social transformations that have co-evolved, including open source media production practices and peer to peer organizing practices. It critiques and questions the assumptions about the transformation of social and cultural life but also attempts to help students develop conceptual strategies beyond critique. A central focus of the course will be the claims made about the implication for collaborative work and culture of the qualities of digital data, considered through topics including but not limited to: peer to peer and open source cultural movements, the political economy and ecology of digital media, the politics of algorithms, remembering and forgetting, as well as the shift towards ‘data as media’ and its implications for media publics and media power. Students will be invited to consider the broader contexts of all of these media futures, including those related to policy and governance.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students will complete a 1,500 word formative essay based on a case study. They will also receive formative feedback on class participation and on participation in creating a shared, online ‘Encyclopedia of Media Futures’ modelled on Wikipedia.

**Indicative reading:**

**Assessment:** Essay (100%, 3000 words) in the ST.

---

**MC428 Half Unit**

**Media Culture and Neoliberalism in the Global South**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Syragoula Chouliairaki TW2.7.01G

**Availability:** This course is available on the MSC in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications, MSc in Media and Communications (LSE and USC), MSc in Social Sciences: Research in an age of info-glut, MSc in Media and Communications (Research) and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Today more than ever, images and narratives of vulnerable people in zones of disaster, violence and conflict routinely populate everyday lives in the West. Taking our starting point on these images and narratives produced by a number of actors (NGOs, journalists, citizens, militants or regular armies) and appearing in a large number of digital platforms (NGO websites, news networks, social media and celebrity advocacy), we explore the changing practices of humanitarian communication in the 21st century – broadly understood to encompass disaster communication and conflict reporting (but also increasingly human rights appeals). We do so by addressing questions such as: What are the histories of humanitarian communication? How is it changing today and why? What are the tensions and dilemmas that organizations face as they struggle to communicate the plight of distant others? What kind of politics of visibility and voice is played out in the mediation of distant suffering? Which ethical norms inform the digital narratives and spectacles of vulnerable others in those zones? And finally, which are the challenges of 21st century humanitarian communication and can we do it better?

To explore these issues, the course adopts an interdisciplinary and case-based approach that enables students both to debate...
Week 3: Information theory/STI

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT. All students are expected to complete advance reading, prepare reading-based seminar presentations, and submit one essay of 1,500 words.

Indicative reading:

Assessment: Essay (100%, 3000 words) in the MT.

---

**MC430 Half Unit**

**Data in Communication and Society**

This information is for the 2016/17 session.  
Teacher responsible: Dr Alison Powell TW3.7.011

Availability: This course is compulsory on the MSc in Media and Communications (Data and Society). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to students on MSc programmes in Law, Sociology and Information Systems, with permission from their academic advisor and the course convenor.

Course content: This course investigates the significance of data in communications, social and cultural life. It introduces core theoretical perspectives on data, and outlines research approaches that take account of the contemporary influence of data within communication and society. The course begins with the social history of data, providing a strong baseline from which to analyse the contemporary position of data. The course will provide students with conceptual tools that will help unpack the logic of data, and train them to critically analyse phenomena such as big data, algorithmic regulation and augmented civic space. Its focus on contemporary issues allows an investigation of the politics and culture of data production, and the use of data as evidence in a range of fields including politics, advocacy and audience research. Some of the questions addressed through the course include: Who owns data? Who makes data? Who makes sense of data? Is data public or private? How do different actors get access to data? How is data protected and regulated? These and other questions reflect the course’s focus on developing a critical account of how data are implicated in the structures that shape social life. Within these structures increasingly organised by algorithmic computation, how do people enact agency? How does culture both rely upon and push back against data-based communication?

Teaching: 10 hours of lectures and 10 hours of classes in the MT.

The provision outline of lecture topics for 2016-2017 is the following:

Week 1: Introduction: the Social History of Data  
Block 1: Core Theories  
Week 2: Social theory  
Week 3: Information theory/STI  
Week 4: Actor-networks, materialism and the posthuman  
Block 2: Approaches and applications  
Week 5: Philosophy and Sociology of data  
Week 6: Reading Week  
Week 7: Political economy of data  
Block 3: Big Data vs Social analytics  
Week 8: Contemporary issues  
Week 9: Surveillance/sousveillance/dataveillance  
Week 10: Data augmented spaces  
Week 11: Data, inequality and justice

Formative coursework: Students will be expected to produce 1 presentation (group project, student-led session) in the MT and either 1 essay or 1 project in the MT. There are two options for written formative coursework on this course.

Students can choose: EITHER a 1500 word essay  
OR a 1000 word proposal for case analysis and recommendation

Students will also be assessed on 1 x group project: student-led seminar on one of the contemporary issues.

Assessment: Assessment path 1  
Essay (100%, 3000 words) in the LT.

Assessment path 2  
Project (100%, 3000 words) in the LT.

There are two options for summative assessment on this course. He comprises: 1. Description of case 2. Analysis 3. Recommendations 4. Theoretical and normative contextualization Case study analysis and recommendation: Students choose a current data-related product, service or use case, providing an analysis of how data are theoretically constructed, valued, managed and conceived within the project, using relevant theoretical material. The case study must identify an area of ethics, governance or social justice that this product, service or use case could improve, and provide a concrete set of recommendations, grounded in the existing theoretical, historical and empirical literature. This analysis and recommendation will be accompanied by a critical reflection that highlights the theoretical and normative aspects of the case, your analysis and your recommendation. This section should be grounded in the relevant theoretical material.

---

**MC431 Half Unit** 

Not available in 2016/17

**Critical Approaches to Strategic Communications**

This information is for the 2016/17 session.  
Teacher responsible: TBC

Availability: This course is compulsory on the MSc in Strategic Communications. This course is available on the MSc in Media and Communications. This course is available to students on other programmes where regulations permit. This course is available as an outside option to students on MSc programmes in Law, Sociology and Information Systems, with permission from their academic advisor and the course convenor.

Assessment:

- **Assessment path 1**
  - Essay (100%, 3000 words) in the LT.

- **Assessment path 2**
  - Project (100%, 3000 words) in the LT.

There are two options for summative assessment on this course. He comprises: 1. Description of case 2. Analysis 3. Recommendations 4. Theoretical and normative contextualization Case study analysis and recommendation: Students choose a current data-related product, service or use case, providing an analysis of how data are theoretically constructed, valued, managed and conceived within the project, using relevant theoretical material. The case study must identify an area of ethics, governance or social justice that this product, service or use case could improve, and provide a concrete set of recommendations, grounded in the existing theoretical, historical and empirical literature. This analysis and recommendation will be accompanied by a critical reflection that highlights the theoretical and normative aspects of the case, your analysis and your recommendation. This section should be grounded in the relevant theoretical material.
Communications and MSc in Politics and Communication. This course is available with permission as an outside option to students on other programmes where regulations permit. In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

**Course content:** This course provides an advanced understanding of theoretical knowledge in the field of media and communication as this relates to strategic communications. Topics covered include: the context, opportunities and challenges of strategic communications; structures of strategic communications, especially as these relate to promotional culture in the context of media and communications’ advance in and across public institutions; and discourses of strategic communications, especially as these relate to soft power, framing and priming. In addition, the course introduces and interrogates the concepts and practices of branding, social marketing, risk management and reputation, and the merging of political and strategic communication, especially in digital media environments. The course concludes by raising questions of accountability and transparency in strategic communications.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 x 1,500 word essay in the MT.

---

### MC433 Half Unit Technology and Justice

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Seeta Gangadharam TW2 7.01I

**Availability:** This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Communication and Development and MSc in Politics and Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Apply by answering a few questions during Course Choice.

**Course content:** This course addresses questions of justice and inequity in relation to communication technologies of the 20th and 21st centuries. It begins with two premises: 1) communication technologies are critical in shaping the conditions for individual and collective self-government, and 2) policies that regulate such technologies influence the nature of democracy and inclusion in society today. The course engages historical perspectives, normative theories of justice and democracy, and legal theories of technology and innovation to assess the power of communication technologies and consider their costs and benefits to historically marginalized groups. In so doing, this course questions the adequacy of regulation in the development and deployment of technologies which exacerbate existing social, political, and economic divides, on the one hand, or address or alleviate such divides, on the other. The course will primarily focus on histories and contexts of marginalized groups in the United States and the Global South.

The first part of the course will introduce students to the theoretical and historical frameworks for the course and concentrate on mass communication technologies of the 20th century, such as print and broadcasting, and policy debates highlighting issues of justice and inequity. The second part of the course will centre on digital communication technologies in the late 20th and early 21st centuries and examine the intersection between networked communication, justice, and rights in historically marginalized communities. The third part will investigate innovations in...
automated technologies with respect to redistribution and recognition, issues core to the notion of social justice. By the end of the course, students will be able to evaluate differences between justice-based and rights-based approaches, explore the nature of digital inclusion, and compare the nature of communication inequalities across technologies.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

The formative essay will consist of an annotated outline (of approximately 1000-1200 words), which will form the basis of the summative essay, and a reflective supplement (300-500 words) that asks students to comment on what they learned from the process.

Assessment: Presentation (30%) in the LT.

Essay (70%, 3000 words) in the ST.

MC434  Half Unit
Digital Platforms and Media Infrastructures: Societal Issues

This information is for the 2016/17 session.

Teacher responsible: Dr Jean-Christophe Plantin, TW3.701.i

Availability: This course is available on the MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance) and MSc in Media and Communications (Research), MSc in Media, Communication and Development and MSc in Politics and Communication. This course is not available as an outside option.

Pre-requisites: No pre-requisites

Course content: This course analyses digital platforms through their complex interactions with existing media infrastructures that organise the circulation of media, knowledge and information in society, through a process we present as “platformisation.” It relies on key readings in media & communications studies and on contemporary examples of digital media platforms to provide an historical account on the rise of platforms, to analyse their material properties, and to reflect on the social and political consequences of their increasing use alongside existing media infrastructures. It provides students with both theoretical and empirical resources to critically assess the complexity of media transformations induced by platforms. Students will explore the multiple facets of this process, by critically analysing how platforms replace, conflict with, or influence existing media infrastructures, and what are the social, political and epistemological consequences of these tensions. This focus on the relations between existing and emerging media configurations will invite students to investigate how platforms constitute ubiquitous media in everyday life, and how they increasingly shape communication, knowledge production, circulation of data, online participation, and mobility.

The first part of the course will introduce the theoretical framework, based on media and communications scholarship analysing the rise of platforms through their relations to existing media infrastructures. The second part illustrate these interactions through case studies, such as social media platforms and news production, platforms data used for scientific research, and geolocated platforms for urban mobility. The third part addresses current social debates around platformisation: the transformation of online participation, new forms of platform-based activism and citizenship, and the alternatives to corporate platforms in access to knowledge.

At the end of the course, students will be able to critically assess what platformisation is and to identify the challenges platforms bring in terms of access to communication, knowledge and democratic life.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: EITHER a 1,500-word formative essay on current theoretical debates around media platforms and society. OR a 1,500-word proposal for a case study analysis of a media platform.

Indicative reading:

Assessment: Essay (60%) and presentation (40%).

1. Group presentation (40%)

Summary -- Student group presentations will take place within one of five thematic sessions during seminars from LT7 to LT11.

2. Final summative essay (60%)

- EITHER (1) a 3,000-word essay on current theoretical debates around media platforms and society. Five questions, addressing key issues around the topic, will be distributed in advance, and this essay will constitute a response to one of them.
- OR (2) a 3,000-word case study analysis of a current media platform. It can build on the student presentation, and will consist of a detailed investigation of a digital platform, using relevant literature and original research design to contribute to the general analysis of the platformisation of social life.

MC499  Dissertation: Media and Communications

This information is for the 2016/17 session.

Teacher responsible: Dr Alison Powell TW3.7.01

Availability: This course is compulsory on the MSc in Global Media and Communications (LSE and USC), MSc in Global Media and Communications (LSE and US), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Media, Communication and Development and MSc in Politics and Communication. This course is not available as an outside option.

Course content: The aim of this dissertation is for students to
pursue an independent piece of research within the field of media and communications following the guidelines provided in the MSc Dissertation Guide and the instructions by the School’s staff members. The dissertation is usually a combination of theoretical enquiry and original empirical enquiry concerning an issue in the field of media and communications. On rare occasions it is based on a theoretical interrogation. Students are encouraged to select a topic that reflects the content of their MSc programme. In all cases, students must obtain the approval of their supervisors before embarking on any research. The dissertation must be word-processed. It should be not less than 10,000 words and not more than 12,000 words in length.

**Teaching: MC499.1: Compulsory Teaching and Supervision**

**MC499.1A**
(i) Dissertation symposiums: a two-hour symposium will be held towards the end of LT for all students and another will be held in ST.

**MC499.1B**
(ii) Group Supervision Sessions: each supervisor holds three two-hour group supervision sessions for their supervisors: (i) early in LT, after supervisors have been allocated; (ii) towards the end of LT; (iii) week 5 or 6 of ST.
(iii) Individual Supervision Sessions: ad hoc sessions for each student and their supervisor that can be organised during term-time during feedback and consultation hours.

**MC499.2: Dissertation Skills – Optional Sessions**

**MC499.2A**
(i) Lectures: Two x 2-hour lectures in LT3 and LT5, on dissertation preparation skills (literature reviews, ethics, etc).

**MC499.2B**
(ii) Workshops led by Graduate Teaching Assistants: Three x 1.5-hour workshops in MT2, MT5 and MT9. Three x 1.5-hour workshops in LT2, LT5 and LT9.
Places in these workshops are limited, students must attend all sessions in order to keep their place.

**Formative coursework:** Students are required to submit Ethics Checklists and Dissertation Plans to their supervisor in LT and ST.

**Indicative reading:** There are no formal reading lists, but students are encouraged to consult handbooks on how to write dissertations. In addition, students are advised to consult dissertations submitted in previous years for style and formatting purposes and to make sure that they are not replicating previous work.

**Assessment:** Dissertation (100%, 12,000 words).

Two hard copies of the dissertation must be submitted in August. Students are also required to upload their dissertation file(s) to Moodle by the same deadline.

---

**MC4M1 Half Unit**

**Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis)**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Jean-Christophe Plantin (Tower 3, 7th floor, 0.1L) - Michaelmas, Lent and Summer Term

**Availability:** This course is compulsory on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Media and Communications Governance), MSc in Media, Communication and Development and MSc in Politics and Communication. This course is available on the MSc in Gender, Media and Culture and MSc in Media and Communications (Data and Society). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The aims of the course are to provide students with a general training in research methods and techniques, including research design, the collection, analysis and interpretation of data, and to enable students to evaluate critically their own research and that of professional researchers.

The course has three components:

**i. Principles of Research in Media and Communications:** a series of lectures offered by media and communications staff in MT. The lectures will normally cover the following topics central to research design across the social sciences, with a specific emphasis on their application to media and communications contexts: the general nature of research as social inquiry, interviewing, critical discourse analysis, social network analysis, content analysis, visual analysis, survey design/questionnaires, case studies, ethnography and participant observation, as well as research ethics.

**ii. Principles of Social Research:** a series of five three-hour workshops (each comprised of two 1.5-hour sessions) offered by media and communications staff in the LT. Students are required to participate in two of the workshops.

**iii. Quantitative Analysis:** Students have to take the following course offered by the Methodology Department: MY451M Introduction to Quantitative Analysis. Please note that this statistics course is compulsory and automatically included when you register for the standard MC4M1 course. (Students may be permitted to substitute a more advanced Quantitative Analysis course offered by the Methodology Department in place of MY451, with the approval of the MC4M1 course convenor and subject to timetabling constraints.)

**Teaching:**

**i. Principles of Research in Media and Communications:** Lecture (one hour) x 10 MT; Lecture on Writing Methodological Critiques (one hour) x 1 LT.

**ii. Principles of Social Research:** Workshop (three hours) x 2 LT (each comprised of two separate 1.5 hour sessions).

**iii. Quantitative Analysis**

**MY451: Lecture (two hours) x 10 MT and x 1 ST; Computer class (one hour) x 9 MT.**

**iv. Methodology pilot drop in clinic: Workshop (two hours) x 1 LT and ST.**

**Formative coursework:**

**i. Principles of Research in Media and Communications:** All students are expected to complete advance readings and submit one essay of 1,500 words to their supervisors in week 11 of MT.

**ii. Principles of Social Research:** All students are expected to complete advance readings and submit workshop assignments.

**iii. Quantitative Analysis:** Most statistics courses require weekly assignments.

**Indicative reading:**

**Assessment:** Exam (20%, duration: 2 hours) in the main exam period.

**Coursework (80%, 3000 words) in the ST.**
MC4M2
Advanced Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis)

This information is for the 2016/17 session.
Teacher responsible: Dr Jean-Christophe Plantin (Office: Tower 3, 7th floor, 0.11L) - Michaelmas, Lent and Summer Term
Availability: This course is compulsory on the MSc in Media and Communications (Research). This course is available with permission as an outside option to students on other programmes where regulations permit. Students taking non-research track media and communications MSc programmes may take this course instead of MC4M1 subject to their own degree regulations and with the agreement of the teacher responsible.

Course content:
i. Principles of Research in Media and Communications: A series of lectures offered by media and communications staff in MT. The lectures will normally cover the following topics central to research design across the social sciences, with a specific emphasis on their application to media and communications contexts: the general nature of research as social inquiry, interviewing, social network analysis, critical discourse analysis, content analysis, visual analysis, survey design/questionnaires, experiments, ethnography and participant observation, as well as research ethics.

ii. Principles of Social Research: A series of ten three-hour workshops (5 comprised of two x 1.5 hour sessions and 5 comprised of one x 3 hour sessions) offered by media and communications staff in LT. Students are required to participate in all ten workshops.

iii. Quantitative Analysis: Students have to take two statistics courses offered by the Methodology Department: MY451M Introduction to Quantitative Analysis, MY452L Applied Regression Analysis. Please note that these courses are compulsory and automatically included when you register for the standard MC4M2 course. (Students may be permitted to substitute a more advanced course offered by the Methodology Department in place of MY451M and/or MY452L, with the approval of the MC4M2 course convenor and subject to time and other constraints.)

Teaching:
i. Principles of Research in Media and Communications: Lecture (one hour) x 10 MT, Lecture on Writing Methodological Critiques (one hour) x 1 LT.

ii. Principles of Social Research: Workshop (three hours) x 10 LT.

iii. Quantitative Analysis: MY451M: Lecture (two hours) x 10 MT and x 1 ST, Computer class (one hour) x 9 MT, MY452L: Lecture (two hours) x 10 LT, Computer class (one hour) x 10 LT.

iv. Methodology pilot drop in clinic: Workshop (two hours) x 1 LT and ST.

Formative coursework: i. Principles of Research in Media and Communications: All students are expected to complete advance readings and submit one essay of 1,500 words to their supervisors in week 11 of MT.

ii. Principles of Social Research Workshops: All students are expected to complete advance readings and submit workshop assignments.

iii. Quantitative Analysis: Most statistics courses require weekly assignments

Indicative reading:

Assessment: Exam (17%, duration: 2 hours) and Exam (17%, duration: 2 hours) in the main exam period.
Coursework (66%, 5000 words) in the ST.
Description of assessment:
1. Coursework: One written assignment of not more than 5,000 words to be submitted in ST Week 2 (66%).
2. Two two-hour examinations in ST relating to Quantitative Analysis MY451M and MY452L (see Methodology Department course guides) (34%).

MG401 Half Unit
Operations Management

This information is for the 2016/17 session.
Teacher responsible: Prof Richard Steinberg NAB3.08
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (IMM Exchange), MSc in Management Science (Decision Sciences), MSc in Management Science (Operational Research), MSc in Management of Information Systems and Digital Innovation, MSc in Management, Organisations and Governance and MiM Exchange. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: There is a pre-assignment that is due at the first lecture of Lent term 2017. The specification of the pre-assignment will be posted to Moodle on the last day of Michaelmas term 2016. Note that the pre-assignment is compulsory and cannot be accepted late.

Course content: The course covers eight topics: (1) Process Flow Analysis, (2) The Toyota Production System, (3) Inventory Management, (4) Assembly Line Balancing, (5) Project Management, (6) Quality Management for Services, (7) Forecasting, and (8) Scheduling. The course is structured in three parts. Part I is called
MG402 Half Unit Not available in 2016/17

Public Management: A Strategic Approach

This information is for the 2016/17 session.
Teacher responsible: Professor Roger Levy

Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in African Development, MSc in Development Management, MSc in Management, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation, MSc in Management, Organisations and Governance, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Management and Governance and MSc in Public Policy and Administration. This course is not available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course develops the perspectives, knowledge, and intellectual skill required for practitioner engagement in delivering public programs, developing strategy for organizations, and leading a variety of organizational transitions in a public sector context. The principal reference discipline is management, while the teaching case studies involve public sector programs and organizations in many different national settings.

Teaching: 30 hours of lectures in the LT. 3 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Indicative reading:
(1) Case: ‘National cranberry cooperative (abridged)’
(2) Case: ‘Toshiba: Ome works’
(4) Article: ‘Controlling variation in health care: a consultation from Walter Shewhart’
(5) Article: ‘Monitoring patients using control charts: systematic review’

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MG403 Half Unit

Pricing Strategy

This information is for the 2016/17 session.
Teacher responsible: Prof Om Narasimhan NAB5.06

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MM Exchange), MSc in Management and Strategy, MSc in Management, Organisations and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The content of the course is organised into two principal modules: (1) pricing strategy and fundamentals and (2) pricing tactics and implementation. The first module of the course covers the fundamental analytical tools, theories, and conceptual frameworks needed for price strategy formulation. Basic principles from marketing, economics, and psychology will be briefly reviewed and extended. The module provides an in-depth treatment of the role of price in the firm’s value proposition to the customer and the determination of customer response to price. The second module of the course covers pricing tactics and opportunities for achieving price customisation. Our focus shifts from setting the overall price level to making customer-specific or segment-specific pricing decisions. Topics include price promotions, lifetime value, and price customisation.

Teaching: 30 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

This will be in the form of a sample exam.

Assessment: Exam (60%, duration: 3 hours) in the main exam period.

Project (30%, 2500 words) in the LT.

Class participation (10%).

The examination will be an open book exam.

MG404 Half Unit

Behavioural Fundamentals for Marketing and Management

This information is for the 2016/17 session.
Teacher responsible: Dr Heather Kappes NAB5.04

Availability: This course is available on the CEMS Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MM Exchange), MSc in Management and Strategy, MSc in Management, Organisations and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: For many companies, non-profit organisations, and political figures, success relies on understanding the “consumers.” What is it that they really want, and why? What information will they attend to, and what will they ignore? How do they make decisions, why do they sometimes make bad ones, and how can we help them make better ones? It can be tempting to answer these questions intuitively, based on your own experiences as a consumer. However, intuitions about human psychology are often wrong.
The aim of this course is to enable students to identify the major theories of consumer behaviour, and to apply these theories to understand behaviour at all stages of the consumer experience.

Topics include:
• Chronic and temporary sources of customer needs, desires, and motivations
• How customers search for information, acquire, and process information
• How customers allocate attention and how to attract it
• Customer decision-making processes, and the heuristics and biases that play a role
• The formation of attitudes and intentions, and processes for persuasively changing them
• Social influences on intentions and behaviour, including unconscious determinants
• Why intentions are or are not translated into behaviour, and what strategies can be used to narrow the intention-behaviour gap.

Teaching: 30 hours of lectures in the LT. 3 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Formative feedback will be provided on a short (1000 words) draft of the essay. In preparation for the oral presentation, you may request formative feedback on a draft of your slides and/or a presentation outline; this feedback may be provided in writing or face-to-face depending on your preference.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Essay (40%, 2000 words) and presentation (10%) in the LT.

MG405 Half Unit Not available in 2016/17

Behavioural Decision Science

This information is for the 2016/17 session.

Teacher responsible: Dr Barbara Fasolo NAB 3.15

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in International Management, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management Science (Decision Sciences), MSc in Management Science (Operational Research), MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is available as an outside option to students on other programmes where regulations permit.

This course is available as an outside option to students on all Management and LSE post-graduate programmes where regulations permit, and is complementary to other behavioural courses offered at LSE particularly MG455.

This course will be capped to 40 students.

Pre-requisites: It is an advantage to have had an introductory quantitative course in Mathematics or Statistics. It is an advantage to have had an introductory social science course, in one of these fields: economics, management, psychology or sociology.

Course content: This course introduces students to the fascinating field of behavioural science from a decision making perspective. This course develops your ability to understand the world from a “behavioural” lens, and predict and influence positive behaviour change and choice architecture. The aim is for you to become a mindful “choice architect”.

The course is run in seminars, designed for aspiring behavioural insight experts. We will explore a selection of current research topics relevant to “nudging”, debiasing and choice architecture. You will read pre-assigned scientific articles before the seminar, and in the seminar work as a group on strengths, limitations and implications of these concepts across a number of domains. Topics will include: Choice Architecture and Behavioural Change; Heuristics and Biases, Adaptive Decision Making, Debiasing.

Because behavioural science started in the lab, the course includes a visit to the Behavioural Research Lab, to give you the experience (as researcher and participant) of what is behind the scenes of “behavioural science and insights”.

This is a course for students with a strong passion for behavioural science and a keen interest in the psychology of decision making and behaviour change. The course is also a natural complement to MG455, which provides the foundation of behavioural decision making theories.

Teaching: 18 hours of seminars and 2 hours of seminars in the MT. Students will have 1 seminar session in the Behavioural Research Lab.

A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Students will be expected to produce 1 essay in the MT. A 500-word plan for the individual summative assessment (introduction to problem and to intervention chosen, with a brief outline of proposed literature to justify the intervention) due at the beginning of Reading Week (W6).

Indicative reading: All teaching and reading material will be available electronically via Moodle.

Assessment: Essay (90%, 3000 words) in the LT.
Coursework (10%, 500 words) in the MT.
The course is examined as follows:
1 x 500 word lab report due in week 11 of MT. This report will detail how you could test your intervention in the BRL before launching it to the field test (the best idea will be funded). (10%) 1 x Two-section essay due in week 1 of LT; the first part (1,000 words) describes a de-biasing or nudging intervention in response to a problem you choose to apply behavioural insight to; the second part (2,000 words) is a critical assessment of the literature justifying this intervention (as opposed to other interventions) as well as a discussion of the limitations of the recommendation proposed. The first part of the essay will count for 25% of your mark while 75% will come from the second part. (90%)

MG408 Half Unit

Combinatorial Optimisation

This information is for the 2016/17 session.

Teacher responsible: Dr Katerina Papadaki NAB 3.14

Availability: This course is available on the MSc in Applicable Mathematics and MSc in Management Science (Operational Research). This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Some familiarity with graph theory and some knowledge of programming could be desirable.

Course content: The course is intended as an introduction to discrete and combinatorial techniques for solving optimisation problems, mainly involving graphs and networks, as described under the headings of the lecture course below. MG4C6.1 “Foundations of Mathematical Programming”, is an introduction to the mathematical foundations of mathematical programming. MG408 “Combinatorial Optimisation” covers the topics: minimum spanning trees with a brief introduction to matroids, shortest path algorithms,
**MG409  Half Unit**

**Auctions and Game Theory**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Richard Steinberg NAB 3.08

**Availability:** This course is available on the MSc in Applicable Mathematics, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange), MSc in Management Science (Decision Sciences), MSc in Management Science (Operational Research) and MSc in Management and Strategy.

This course is available as an outside option to students on other programmes where regulations permit.

This course is capped at 45. Students on the waiting list will be selected based on their academic background.

**Pre-requisites:** Students should have a course equivalent to the LSE course Quantitative Methods (Mathematics) (MA107), which covers techniques of calculus (differentiation, partial differentiation, optimisation and integration), methods of linear algebra (use of matrices), with emphasis on their application to economic problems. Students should also have some knowledge of probability.

**Course content:** The course provides an introduction to auctions and game theory. Topics covered are: noncooperative games, cooperative games, social choice, sequential games, auctions, and combinatorial auctions. There is also a case study, 'Pricing Telecoms Licences in India', which will form the basis of a class discussion.

Finally, there will be a research presentation by the course leader.

**Teaching:** 16 hours of lectures and 12 hours of seminars in the LT. 20 hours of lectures in the ST.

A reading week will take place during Week 6. There will be no teaching during this week.

**Formative coursework:** Very full lecture notes are provided, and every week a set of problems is given out in the lecture. These are discussed in the following seminars.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MG411  Half Unit**

**Firms and Markets**

This information is for the 2016/17 session.

**Teacher responsible:** Prof John Sutton and Prof Luis Garicano

**Availability:** This course is compulsory on the MSc in Management and Economics. This course is available on the MPhil/PhD in Management. This course is not available as an outside option.

**Course content:** A graduate course in microeconomic analysis, geared towards those parts of the subject that are of primary importance in the Management area. The first section focuses on competition between firms, using standard game theoretic models. This leads to a general treatment of market competition by reference to the concept of firms’ capabilities. The next section traces the basis of firms’ capabilities to the set of elements of know-how possessed by the individuals comprising the firm, and by the mode of internal organization of those individuals. The analysis draws on the several strands in the modern literature on the theory of the firm. The final section of the course deals with the link between strategy and structure, and with the formulation of strategies in environments characterized by complexity and uncertainty.

**Teaching:** 20 hours of lectures and 20 hours of seminars in the MT. 20 hours of lectures and 20 hours of seminars in the LT.

A weekly seminar devoted to problem sets. A weekly seminar devoted to case studies.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**MG412  Half Unit**

**Globalization and Strategy**

This information is for the 2016/17 session.

**Teacher responsible:** Prof John Sutton

**Availability:** This course is available on the MSc in Management and Economics. This course is not available as an outside option.

**Course content:** The course studies the strategies of multinational corporations in their international context, including among others make or buy, organization, and location choices. It studies current developments in the global economy with a focus on the key decisions that multinationals make in their global strategy:

2. Production: What determines the strategies multinationals adopt - product range; generic strategies.
3. Location: Competitive advantage of different countries; growth in outsourcing and Offshoring; particularly emphasizing India and China and analyzing their increasing role in the global economy.
4. Organization: how multinationals combine the necessary local adaptation with the need to standardize to achieve synergies.
5 The Globalization Debate
6 The Prospects for sub-Saharan Africa.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students are required to make two class presentations and submit written reports on selected case studies

**Assessment:** Exam (100%, duration: 3 hours) at the start of the course.

---
MG414
Designing and Managing Change in the Public Sector

This information is for the 2016/17 session.

Teacher responsible: Dr Simon Bastow

The course is team taught, with contributions from the Department of Accounting.

Availability: This course is compulsory on the MSc in Public Management and Governance. This course is available on the MPhil/PhD in Employment Relations & Org Behaviour and MPhil/PhD in Management. This course is not available as an outside option.

Course content: This full-unit, two-term course is organised into three parts covering the Michaelmas and Lent Terms, as follows:

1. Developing the knowledge, methods, and skills to design and implement improvements in public sector services and programmes, with emphasis on the challenges for public managers (MT weeks 1 to 11 – taught by Dr Bastow);
2. Using systematically developed accounting techniques and information outcomes for purposes of managerial control and governance, (LT weeks 1 to 5 – taught by Prof Miller and Dr Kurumäki);
3. Using case-based materials and insights from practitioner guest speakers to analyse strategic design and management of large-scale change in the public sector (LT weeks 7 to 11 – taught by Dr Bastow).

In the MT, the course focuses on important challenges for governments in both developed and less-developed countries in being able to design and manage transformative change in their public sector systems. Pressures on these governments to tackle complex problems, become more productive, build capacity, be more agile or innovative, or respond to rapidly changing environments make it ever more important that change is designed and managed carefully, and with some degree of success. The course looks at factors explaining governments’ ability to adapt strategically to rapidly changing external environments, and also examines why public sector organisations may succeed or struggle in designing and delivering large-scale programmes of change. The MT integrates key theory, concepts, and extensive empirical case-based material. It introduces design-based and holistic approaches to change, examines important component aspects, and discusses limitations that constrain governments and public sector organizations in their ability to design and manage change. It looks at these challenges primarily from this perspective of the senior public sector officials involved, working at the interface of high politics, policy making, and operational delivery. It draws on cases from a wide range of sectors and policy areas, and has global reach in terms of country case materials.

The first five weeks of the LT examines the evolution and use of systematically developed accounting techniques and practices, as well as using information about the behaviour of programmes and organisations for monitoring, decision-making, and governance purposes. The module explores financial management and organisational control concepts through recent developments in accounting literature and offers an introduction to methods, tools and techniques aimed at enhancing performance, managerial oversight and accountability in the public sector.

In the second five weeks of the LT, we return to key themes from the MT on strategic design and management of change, and discuss case-based materials and practitioner guest speakers. This is designed to support the writing of summative essays by the end of the LT, and to help prepare students for the final exam in the ST.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures and 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week during Week 6, in line with departmental policy.

Formative coursework: Michaelmas Term: Individual presentations in seminars.
Lent Term: One formative essay to be submitted at the start of LT and 2 class assignments.
Indicative reading:

- Schein, Edgar H. (2010) Organizational culture and leadership (San Francisco, John Wiley & Sons Inc.)
- Miller, P. The Margins of Accounting (1998);

Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Essay (30%, 4000 words).
Other (15%) and class participation (5%) in the MT and LT.
15% will be allocated to MT seminar presentation slide pack and written commentary and LT class group assignment (listed as ‘other’ above).

MG416 Half Unit
Project

This information is for the 2016/17 session.

Teacher responsible: Various (depending on project title chosen)

Availability: This course is compulsory on the MSc in Management, Organisations and Governance. This course is not available as an outside option.

Course content: Students will undertake a research project related to one or more of the compulsory courses (MG426 Organisations in the Economy and Society, MG427 Innovation in Organisations (H) and MG428 Enterprise Development (H) taken as part of the programme.

Teaching: Students will be allocated a supervisor, based on the project chosen, who will provide supervision of this piece of work.

Assessment: Project (100%, 6000 words) post-summer term. Project report of no more than 6,000 words to be submitted by Thursday 31st August 2017. Failing the dissertation cannot be condoned.

MG417 Half Unit
Extended Essay

This information is for the 2016/17 session.

Teacher responsible: Various (depending on title chosen).

Availability: This course is compulsory on the MSc in Economics and Management. This course is not available as an outside option.
Course content: Students will undertake an extended essay which should normally be based on one of the two option courses taken. Students can, with special permission, base this piece of work on one of the compulsory courses.

Teaching: A supervisor will be allocated to individual students based on the essay title chosen who will provide students with supervision for this piece of work.

Assessment: Essay (100%, 6000 words) in the ST.
Extended essay of no more than 6,000 words to be submitted the week before Summer Term commences.

---

MG419 Public Management - Strategy, Innovation and Delivery

This information is for the 2016/17 session.

Teacher responsible: Prof Michael Barzelay

Dr Alberto Asquer

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course develops the practical knowledge and analytical skill to make sense of field problems faced by public managers, and to design and implement strategic and effective practical action in the public sector. In Michaelmas Term, the course focuses on making sense of the fuzzy problem-messes faced by public managers, and introduces students to the graphical and theoretical tools used to represent and reverse engineer the dynamic social systems involved. In Lent Term, the course focuses on the strategic design, evaluation and implementation of various organisational activities, such as policy interventions, managerial control systems, and strategic planning. Overall, the course provides a foundation for further coursework about management in the public sector as well as the ability to engage constructively and critically in the development of public management practice.

Teaching: 30 hours of seminars in the MT. 30 hours of seminars in the LT.

Formative coursework: Students will be expected to produce two essays - one in MT and one in LT.

Assessment: Essay (30%, 3000 words) and project (45%, 5000 words) and class participation (10%) in the LT.
MG420 Half Unit
Dissertation

This information is for the 2016/17 session.
Teacher responsible: TBC

In addition, all students will be allocated an individual dissertation supervisor in year two.

Availability: This course is compulsory on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MiM Exchange). This course is not available as an outside option. Students on other Department of Management postgraduate programmes are welcome to attend the preparation sessions.

Course content: Dissertations are based on a research question which students are required to agree with their assigned dissertation supervisor in year two. Students opting for MiM specialisations may consider how they may relate their research questions and dissertations to the area of specialisation they undertake in year two. (This does not apply to MiM students on either the CEMS MIM or MiM Exchange tracks.)

Research questions may be investigated by:
(a) Framing the question via a literature review and examining the problem in more detail through a small scale empirical research project, using either primary or secondary data sources; OR
(b) Carrying out an extended literature review to provide a rigorous analysis of existing research investigating the problem.

Teaching: 1 hour and 30 minutes of lectures in the MT. 6 hours of lectures in the LT.

Students are required to attend a course of five lectures during MT and LT.

Students on this course will have reading weeks in Week 6 of MT and Week 6 of LT, in line with departmental policy.

Formative coursework: Students are required to write a short research proposal (maximum of 1,000 words), to be submitted as set out in the policies of their degree programme, with their proposed research question.

Assessment: Dissertation (100%, 6000 words) post-summer term.

MG421 Half Unit
Foreign Direct Investment and Emerging Markets

This information is for the 2016/17 session.
Teacher responsible: Prof Saul Estrin NAB4.32 and Dr Christine Cote NAB3.18

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Economics and Management, MSc in Human Resources and Organisations (Human Resource Management/ CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management, Organisations and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: An undergraduate or graduate course in micro-economics. Pre-requisites to be assessed by teacher responsible.

Course content: This course analyses the emergence of firms which operate on a global scale and their current and likely future interactions with emerging markets. It will combine the development of conceptual frameworks primarily through the lectures with the analysis of key cases in the classes. There will also be some external speakers from large international firms and from the banking and consulting community to bring contemporary views and arguments to bear.

Multinational firms have been an increasingly significant aspect of the corporate environment in developed countries since the 1960s, and are responsible for a high proportion of global output, exports and investment, as well as the bulk of foreign direct investment. In the past few decades their activities have been increasingly focused to developing economies, notably those which have liberalised and entered a more rapid growth phase. These economies, emerging markets, include some important world economies including China, India, transition economies such as Russia, and Latin American countries such as Brazil and Argentina. The “new institutional economics” has recently developed as a field to understand the impact of variation in institutions on economies’ performance. This course will focus on how the institutional characteristics of emerging markets affect the choices and behaviour of multinational firms, now and into the future. We commence with the basic framework of analysis of the behaviour of multinational enterprises (MNEs), outlining models of the MNE which draw on transaction cost economics, the eclectic OLI paradigm of Dunning, and more recent concept such as the resource based view. We will provide an analysis of economic performance and growth in emerging markets

Building on the new institutional economies and working with a large variety of data sets and sources. The course will then turn to key topics. These will include the determinants of FDI; the effects of FDI on the host economy; entry mode choices; measures of institutional and cultural distance; and the growing importance of multinationals from emerging markets.

Students will work with case material as well as the required reading, and the group project will comprise a case write up, which will be presented prior to submission in class for comment and discussion.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be required to write a 1,500 word essay and will be provided with feedback. They will also be required to present their group project in class.

Assessment: Exam (50%, duration: 2 hours) in the main exam period. Project (40%) and class participation (10%) in the LT.

MG422 Half Unit
Thinking Strategically

This information is for the 2016/17 session.
Teacher responsible: Prof Ignacio Palacios-Huerta NAB5.24

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Economics and Management, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management, Organisations and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A knowledge of basic algebra is necessary to take
this course.

Course content: This course is concerned with strategic thinking. The course is an interaction of game theory, economics and business strategic management. The focus is the study of situations in which two or more decision-makers (e.g., individuals, firms, political parties, etc) interact in a strategic manner. Understanding strategic situations that involve conflict and/or cooperation has proven critical in many areas of economics, business, political science, sports, law and other areas. The emphasis is to provide the fundamental thinking of good strategic making in these situations, rather than a mathematical and formal analysis.

The purpose of this course is threefold: (1) first, to introduce relevant tools of game theory in order to capture the key elements of different strategic situations and determine the most likely outcome in each situation; (2) second, to study various real-life applications and case-studies where thinking strategically has proven critical; (3) third, to cover modern developments in behavioural game theory, in particular in the areas of intertemporal choices and strategies, decision-making under risk and uncertainty, and experiments in strategic interaction.

Students should note that this course will involve weekly calculations and numerical reasoning.

Teaching: 20 hours of lectures and 8 hours of seminars in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will hand in 5-8 written assignments throughout the course, and feedback will be provided.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MG423 Half Unit
Leading Entrepreneurial Organisations in Global Markets

This information is for the 2016/17 session.

Teacher responsible: Dr Fei Qin NAB4.31
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange), MSc in Management Science (Decision Sciences), MSc in Management Science (Operational Research), MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is available with permission as an outside option.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Class presentations and one business plan project which forms part of the summative group project.

Assessment: Exam (75%, duration: 2 hours) in the main exam period.

Project (25%, 4000 words) in the LT.

MG425 Half Unit
Global Business Management

This information is for the 2016/17 session.

Teacher responsible: Prof Leslie Willcocks NAB3.23 and Dr Susan Scott NAB3.12
Availability: This course is available on the IMEX Exchange, MSc in Management Science (Decision Sciences), MSc in Management Science (Operational Research), MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is not available as an outside option.

Course content: This course studies the varieties of management practices across regions, and how business management can be conducted internationally. Our teaching approach is, within dynamic global, regional and national contexts, to emphasise the interrelationship between international strategy and global operations. Having identified distinctive global business management strategies, and market entry approaches, we explore how these are enabled through organisational structures and information infrastructures, and implemented through marketing, human resource, R&D, and sourcing operational sub-strategies.

The course provides an examination of how emerging trends in strategy and operations are entangled with current processes of globalization (including technological capabilities) and what these conditions of possibility mean going forward. The course focuses on: Perspectives on Globalization; Political Economic, Cultural and Legal Environments and Differences; Strategy in Global Context; Organization Foundations; Technological Architecture; Entry Strategy and Strategic Alliances; Global Sourcing and Logistics Strategy; International Management Challenges especially Projects, Technology, R and D Innovation; Global Information Systems and Digital Business Management; Managing Across Boundaries; Corporate Social Responsibility and Business Ethics; Regional Business Strategies and International Trade; Regional Strategies and International Trade; Global Digital Business.

Teaching: 15 hours of lectures, 13 hours and 30 minutes of seminars and 3 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: In classes students will be making presentations of course readings or cases in small teams of two or three as practice for the assessed group presentations, and they will receive feedback on these class presentations.

The course draws on theory and evidence from a range of social sciences, including economics, economic sociology and organisational theory. It makes particular use of historical and international evidence. Lectures and classes are arranged under seven headings:

- Exchange
- Firms
- Industry structure
- Networks
- How the firm can shape its external environment
- Governance
- Varieties of capitalism

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 3 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the ST.

**Indicative reading:**

**Assessment:**
- Essay (25%, 2000 words) in the ST.
- Essay (25%, 2000 words) in the LT.
outside option.

Course content: This course will address management problems and internal/external issues that must be resolved in order for startup organisations to succeed. Through application, the students will be able to critically assess management practices and disciplines and evaluate their potential and limitations in developing organisations. To put theory into practice students will progress from an introduction to general principles into creating an enterprise through an iterative process. The course structure will thus offer students a method of problem solving through an action-oriented approach working in collaborative teams.

Teaching: 6 hours of lectures, 10 hours and 30 minutes of lectures, 1 hour of lectures and 13 hours and 30 minutes of seminars in the LT. 7 hours and 30 minutes of seminars in the ST.

Assessment: Exam (25%, duration: 2 hours) in the main exam period.

Essay (25%, 1000 words) and essay (10%, 1000 words) in the LT.

Project (20%, 5000 words) and presentation (20%) in the ST.

The assessment for this consists of the following:

A 1,000 word individual essay (25% of overall mark)
A 1,000 word report on field research (10% of overall mark)
A group project (20% of overall mark)
A group presentation (20% of overall mark)
A two hour exam (25% of overall mark)

MG430 Half Unit
Strategy, Organisation and Innovation

This information is for the 2016/17 session.

Teacher responsible: Dr Rocco Macchiavello

Availability: This course is compulsory on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MIM Exchange). This course is not available as an outside option.

Course content: This course applies tools from microeconomics, industrial organisation and organisational economics to the analysis of strategy. The emphasis is on the application of these concepts to business situations, and as such the course relies heavily on the analysis of case studies.

The course is divided into three parts. The first part focuses on the external context of strategy. It first reviews basic tools for understanding industry economics and the determinants of industry-wide profitability, focusing on positional aspects. It then applies basic game theory to analyse competitive interactions when the number of players is small and the industry profitability is largely determined by these players’ interactions. This tool is used to analyse issues such as bargaining power, price competition and entry and exit decisions. The second part studies technology and innovation. The main issues discussed will be standard setting and network effects, innovation and disruption. The third part of the course focuses on the internal context of strategy and organisation, and discusses issues such as the scope of the firm, outsourcing, and the role of corporate governance in adding value and capturing synergies.

The course is heavily based on case discussions. For each class meeting, study questions will be assigned concerning a case study. We will discuss these questions and the material in the case during the class discussions. Students will need to prepare for class discussions by reading the assigned case and analysing it in view of the assignment questions. Required cases and supplementary readings will be available on Moodle. The textbook, together with the lectures, contains the concepts necessary to analyse the cases.

Teaching: 20 hours of lectures and 12 hours of seminars in the LT. 2 hours of lectures in the ST.

As mentioned above, cases and additional readings will be made available online.

Assessment: Exam (90%, duration: 2 hours) in the main exam period.

Class participation (10%) in the LT.

Students’ participation will be evaluated based on the quality of their comments and questions in classes, with an emphasis placed on the extent to which their contributions to discussions further the learning of their classmates.

MG431 Half Unit
Managerial Economics

This information is for the 2016/17 session.

Teacher responsible: Professor Ignacio Palacios-Huerta

Availability: This course is compulsory on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MIM Exchange). This course is not available as an outside option.

Course content: A graduate-level introduction to the foundations of managerial economics. Topics include:

1. Economics as a theory of organisation.
2. Economic Agents: Rationality and the co-ordination powers of the market (Demand and supply and equilibrium: the determinants of consumers’ and firms’ market responses and the nature of non-strategic interaction).
3. Strategic interaction and dynamic competition.
4. Information and efficiency.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT.

Indicative reading: Main textbooks:

Reading lists will be provided at the beginning of the course.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MG434 Half Unit
Organisational Behaviour

This information is for the 2016/17 session.

Teacher responsible: Dr Uta Bindl NAB 4.01 and Dr Emma Soane NAB 4.02

Availability: This course is compulsory on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MIM Exchange). This course is not available as an outside option.
Course content: This course seeks to understand individual attitudes and behaviour in an organisational context. It does this by reviewing psychological theories, demonstrating the contribution of a psychological perspective to understanding behaviour at work, and critically evaluating empirical evidence. The course will balance theory and practice by applying the theories to organisations. Topics covered will include personality and individual differences; work motivation; rewards systems and the design of work; performance; health and well-being at work; creativity and innovation; groups and teams; leadership; power and politics at work; risk; organisational culture.

Teaching: 20 hours of lectures and 15 hours of seminars in the LT. 2 hours of lectures and 1 hour and 30 minutes of seminars in the ST. The teaching includes lectures and seminars. The teaching style is highly participative. Group work in seminars is an integral part of the course and students are expected to actively contribute to all group exercises. The course requires student commitment and willingness to engage fully with the readings and with class activities.

Students on this course will have a reading week in Week 6 of LT, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: All course readings are articles from leading journals such as the Academy of Management Journal, Journal of Applied Psychology, Journal of Organizational Behaviour. A full reading list is provided at the start of the course. There is no set textbook for this course, however students may wish to consult one of the following:

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MG437 Half Unit Not available in 2016/17

Business Model Innovation at the Base of the Pyramid (H)

This information is for the 2016/17 session.

Teacher responsible: Professor Harry Barkema NAB4.24

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students are required to submit a 500-word statement explaining their motivation to take MG437, and a CV detailing their education or experience related to countries in poverty. Often the student will have worked in these countries with NGOs, social enterprises or charities; or studied courses related to development poverty or organizational models. The statement and CV should be submitted via the application system on LSE for You.

Course content: This course is about organisations serving social goals, in particular for the 4 billion people living in (extreme) poverty. It’s about designing, implementing, managing and scaling innovative social enterprises, NGOs, government organisations – and ecosystems of them – addressing social issues such as job creation, income, health, education, and the intended and unintended transformations these organisations imply for clients, families, and communities.

We will discuss what poverty is and what its causes are, and then how social enterprises and other social businesses, NGOs, and government programs influence these causes, and why, and under which conditions. Insights from novel research are presented on how organisations interact with their social environment, and why, combining insights from management (incl. organisational behaviour, social networks and leadership), development and anthropology.

Half of the course consists of theory-based critical discussions, often of innovative examples of social enterprises or NGOs and their social impact, in class and within our Facebook community, which includes hundreds of alumni of this course. In the other half of the course student groups carry out a consulting project with one of our ecosystem partners, ranging from innovative start-ups (social enterprises or NGOs) to global companies such as IBM. Many students also design their own innovative social enterprise, NGO or charity, and have gone on to compete in – and win – global competitions, and/or start up in Africa, South Asia, and South America.

Teaching: 18 hours of lectures and 12 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One 800-word essay. Students choose one example of an innovative social enterprise, NGO government program or charity. Use theory underlying and developed in this course, and gathered by yourself, to analyse the strengths and weaknesses of the model in relation to intended or unintended social implications.

MG436 Half Unit Not available in 2016/17

Firms, Markets and Crises

This information is for the 2016/17 session.

Teacher responsible: Dr Daniel Beunza NAB4.27

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management, Organisations and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Any social science background

Course content: This course focuses on the financial sector and financial markets. It discusses current research in the social sciences on how this sector has emerged and operates, and sheds some light on the recent financial crisis. A constant theme is that academic research helps us explain major phenomena in current business and organizational life. In each lecture and class, faculty will discuss a major aspect of or issue in the financial sector internationally, and show how relevant research can help us understand it. The classes will use readings or cases to explore these matters in depth.

Teaching: 30 hours of lectures in the LT. 1 hour and 30 minutes of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Exam (75%, duration: 2 hours) in the main exam period.

Essay (25%, 2000 words) in the LT.
MG438  Not available in 2016/17
Business Model Innovation at the Base of the Pyramid

This information is for the 2016/17 session.
Teacher responsible: Professor Harry Barkema NAB4.24
Availability: This course is available on the MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management, Organisations and Governance and MSc in Public Management and Governance. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students are required to submit a 500-word statement explaining their motivation to take MG438, and a CV detailing their education or experience related to countries in poverty. Often the student will have worked in these countries with NGOs, social enterprises or charities; or studied courses related to development poverty or organizational models.
Course content: This course is about organisations serving social goals, in particular for the 4 billion people living in (extreme) poverty. It's about designing, implementing, managing and scaling innovative social enterprises, NGOs, government organisations – and ecosystems of them – addressing social issues such as job creation, income, health, education, and the intended and unintended transformations these organisations imply for clients, families, and communities.
We will discuss what poverty is and what its causes are, and then how social enterprises and other social businesses, NGOs, and government programs influence these causes, and why, and under which conditions. Insights from novel research are presented on how organisations interact with their social environment, and why, combining insights from management (incl. organisational behaviour, social networks and leadership), development and anthropology.
Half of the course consists of theory-based critical discussions, often of innovative examples of social enterprises or NGOs and their social impact, in class and within our Facebook community, which includes hundreds of alumni of this course. In the other half of the course student groups do an in-depth research-based consulting project with one of our ecosystem partners, ranging from innovative start-ups (social enterprises or NGOs) to global companies such as IBM. Students go over for local data gathering. Many students also design their own innovative social enterprise, NGO or charity, and have gone on to compete in -- and win -- global competitions, and/or start up in Africa, South Asia, and South America.
The 1.0 unit course leads to in-depth understanding through 10 class sessions, with additional training in relevant methodology for the fieldwork (data gathering and analysis) to build skills for evidence-based management consulting projects. This course has all the (5) lectures of MG437 but also lectures with new research outcomes on organisations and social transformations. Students complete an in-depth, research-based consulting project, while actually going over to the local social enterprise, NGO for fieldwork or to work with the local organisation for 7-10 days during the Christmas or Spring break.
Teaching: 30 hours of lectures in the MT. 24 hours of seminars in the LT. 6 hours of lectures in the ST.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: One 1,200 word essay. Students choose one example of an innovative social enterprise, NGO government program or charity. Use theory underlying and developed in this course, and gathered by yourself, to analyse the strengths and weaknesses of the model in relation to intended or unintended social implications.
Assessment: Essay (45%, 1500 words) and project (45%, 3000 words). Class participation (10%) in the MT.

MG450  Half Unit  Not available in 2016/17
Social Network Analysis and Strategies

This information is for the 2016/17 session.
Teacher responsible: Dr Daniela Lup NAB3.28
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Economy, Risk and Society, MSc in Human Resources and Organisations (Human Resource Management/ CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The main objective of this course is to introduce students to current research in the area of social network analysis and improve their understanding of how an effective network structure looks like. The course focuses on both theoretical and substantive themes within social network analysis. Substantive topics focus on everyday managerial situations and consulting projects such as: managing information and knowledge, managing one's career; managing a team; selecting a business partner; using virtual networks; social media.
In addition, the course aims to familiarise students with methodological issues connected with social network analysis (SNA). To this end, the students will learn to work with UCINET, a software designed for SNA. During the classes, the students will solve concrete managerial and consulting problems using SNA. Examples include (but are not limited to): understanding the social network of a manager, proposing a strategy for implementing organisational change; understanding the power and fallacies of online networks; visualising power networks in specific industries; marketing applications.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line
MG452 Behavioural Economics for Management

This information is for the 2016/17 session.

Teacher responsible: Dr Kristof Madarasz NAB5.36

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Economics and Management, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MM Exchange), MSc in Management and Strategy and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Graduate level Microeconomics, Game Theory or Managerial Economics, Graduate level Econometrics or Quantitative Analysis is required.

Course content: The course covers formal (mathematical) models of behavioural economics and discusses both experimental and field evidence that motivate and test various aspects of these models. This course is a post-graduate introduction to behavioural economics and strategy. The topics to be discussed are:

2. Procrastination, Self Control and Choice over Time.
4. Processing Information and Mistakes in Cognition
5. Naïve and Heuristics in Strategic Thinking
6. Happiness and Welfare

Teaching: 30 hours of lectures in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: A mock exam comprising of problem sets.

Assessment: Project (35%, 3000 words), class participation (15%) and take home exam (50%) in the LT.

MG453 Managing Digital Business

This information is for the 2016/17 session.

Teacher responsible: Dr Tony Cornford NAB3.29

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in International Management, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MM Exchange), MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course draws from the field of information systems to study underlying theories of digital business, strategies for using digital technologies and the moves towards new business models. Topics covered include: the nature of digital business as a technology-enabled business model concept; digital economics; digital business in the context of the global economy; technology, data infrastructures and platforms; developing a digital strategy; sourcing digital technologies and services; digital government and digital governance; the business logics of open and free; security, transparency, privacy and risk in digital business.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 3 hours of workshops in the LT.

Formative coursework: A 1,000 word literature review coursework provides guidance and feedback for the summative essay. In seminars students present on cases studies and research articles, lead group discussions, and receive feedback on presentation and substantive content.

Assessment: Essay (70%, 3000 words), class participation (10%) and other (20%) in the MT. The other assessment is a critical literature review (20%, 1000 words).

MG454 Leadership in Practice (modular)

This information is for the 2016/17 session.

Teacher responsible: Dr Emma Soane NAB 4.02

Availability: This course is compulsory on the Executive Global MSc Management. This course is not available as an outside option. The information in this course guide pertains to the 2016-2018 cohort.

Course content: This course will provide you with insights into the foundations for leadership, how leadership skills can be developed, and you can create optimum environments for effective leadership and performance. Sessions will be interactive and participative. There will also be group exercises within the sessions to encourage debate and reflection upon how to put these concepts into practice.

Teaching: Six 4 hour sessions spread out over the three LSE modules.

The course will run between the following dates:
- 30 August - 10 September 2016
- 12-17 December 2016
- 27 March - 9 April 2017

Formative coursework: There is an optional assignment that will provide an opportunity to reflect upon the leadership style and skills assessments covered in modules 1 and 2. This 1000-word...
assignment will discuss personal leadership style and skills, and will be submitted after Module 2.

Indicative reading: To be confirmed at the beginning of the course.

Assessment:

This is a non-assessed course. Some of the material for this course will form part of the MG443 Organisational Behaviour assessment. The relevant material will be specified for the assessment.

---

**MG455  Half Unit**

**Behavioural Decision Science for Management and Policy**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Barbara Fasolo

**Availability:** This course is compulsory on the MSc in Management Science (Decision Sciences). This course is available on the CEMS Exchange, IMEX Exchange, MSc in International Management, MSc in Management, MSc in Management (CEMS MIM), MSc in Management Science (Operational Research), MSc in Risk and Finance and MIM Exchange. This course is available as an outside option to students on other programmes where regulations permit. This course is available as an outside option to students on all other Management and LSE programmes (both post-graduate and advanced undergraduate) where regulations permit, and is complementary to other behavioural courses offered at LSE.

**Pre-requisites:** An introductory quantitative course in Mathematics or Statistics.

It is an advantage to have had an introductory social science course, in one of these fields: economics, management, psychology or sociology.

**Course content:** This course develops your ability to make decisions or help others make better decisions, with the help of ‘system 1’ – the fast, intuitive and (before this course) automatic way our brain makes decisions, and evaluates others’ decisions. The aim is for you to become a better intuitive decision maker.

In lectures, designed for aspiring decision scientists, we examine how behavioural decision science came about and review a number of descriptive theories of decision making. We also focus on empirical research on heuristics, biases, decision style and other phenomena which can unconsciously affect decisions. Because behavioural science started in the lab, the course includes a visit to the Behavioural Research Lab, to give you the experience (as researcher and participant) of what is behind the scenes of ‘behavioural science and insights’.

In seminars which are uniquely designed for Master’s students you apply this research to personal, managerial or policy decisions.

This is a course for students with a strong passion for behavioural science and a keen interest in the psychology of decision making and applications for management and policy. Lectures are taught at an advanced level, and experientially (e.g., in-class experiments) and expect interaction and exchange between advanced 3rd Year LSE Undergraduates and Master’s students who are in their first term at LSE, from diverse backgrounds and cultures. The course is also a natural complement, and preparation for, MG456, which aims at improving the other side of the decision-making brain – the slow and analytic ability to make strategic decisions via modelling and decision analytic techniques.

**Teaching:** 18 hours of lectures, 9 hours of seminars and 2 hours of workshops in the MT.

Students will have a 2 hour session in the Behavioural Research Lab. A reading week will take place in W6. There will be no teaching during this week.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

To be submitted around reading week of MT (week 6).

**Assessment:** Essay (90%, 3000 words) in the MT.

An essay of no more than 3,000 words to be submitted in week 7 of LT (90%).

A 500-word report on the lab experience or experiment to be submitted in Week 11 of MT (10%).

The essay will include two parts. In the first part (no more than 1,000 words), you will be asked to prepare a memorandum to the CEO of an organisation (be it public or private, an NGO, a business corporation or a third sector enterprise) giving a behavioural insight on some decision to make, or situation to improve, or goal to achieve. In the second part of the essay (no more than 2,000 words), you will justify the specific recommendations presented in the memorandum with reference to behavioural and decision science literature and theories. The first part of the essay will count for 25% of your mark while 75% will come from the second part.

---

**MG456  Half Unit**

**Risk and Decision Analysis for Management and Policy**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Valentina Ferretti NAB 3.04

**Availability:** This course is compulsory on the MSc in Management Science (Decision Sciences). This course is available on the MSc in Management Science (Operational Research). This course is available as an outside option to students on other programmes where regulations permit.

This course is complementary to any behavioural course offered at LSE.

**Pre-requisites:** Elementary statistical and mathematical concepts and experience of standard computer software is assumed.

**Course content:** A major characteristic of all decisions in every organisation and policy making context is that they are taken to achieve objectives, both short-term and long-term. To do this well is a fundamental skill for managers at every level in the organisation, as well as for policy makers. But decisions are often hard to make in the presence of multiple objectives, uncertainty about the future, and differences of opinion among key players. For decisions that require large amounts of resources and commitments, the weight of responsibility felt by the decision maker can be heavy, especially when the consequences require to consider judgements about trade-offs between benefits, risks and costs.

In this course students will learn how to use Risk and Decision Analysis as a form of analytics that supports decision making in private, voluntary and public organisations. The course shows how a consistent and realistic mix of data and judgement can help decision makers to better achieve their objectives. Based on sound theory underlying normative, descriptive and prescriptive decision-making research, the course emphasises the practical application of Risk and Decision Analysis for decision-making on any topic in any organisational setting.

The course is designed to enhance the students’ decision capabilities when confronted with strategic or operational choices, when searching for decision opportunities, and when designing strategies and policies. It uses real-world Risk and Decision Analysis applications in organisations and public policy making, and employs several case-studies (supported by specialised decision software) to build students’ skills in decision modelling and analysis. It covers modelling and supporting decisions involving multiple stakeholders and conflicting objectives (multi-criteria decision analysis) as well as uncertainty (decision trees, influence diagrams, and risk analysis). The course is suitable for third-year undergraduates and postgraduate MSc students, who will attend the same lectures but different seminars. Past experience shows that both undergraduates and postgraduates benefit from asking questions and sharing their experiences in the interactive lectures.

**Teaching:** 20 hours of lectures and 13 hours and 30 minutes of
MG457 Foundations of Management 2: Financial Control and Governance (modular)

This information is for the 2016/17 session.

Teacher responsible: Dr Yally Avrahampour NAB 4.37

Availability: This course is compulsory on the Executive Global MSc Management. This course is not available as an outside option.

Semesters in the LT.
A reading week will take place in Week 6. There will be no teaching during this week.

Formative coursework: Students will be expected to produce 1 project in the Week 7 and 1 essay in the Week 8.

There are two pieces of formative assignments:

- Group project plan (i.e. decision context selected, due in week 7)
- Individual technical report on classes 2, 3, 4 and 5 (due in week 8, these classes cover the additive tasks students will have to develop in their summative group project)

The topic of the project has to be a real world case study (e.g., what to recommend to a municipality analysing different options for the requalification of an abandoned subway station, what to recommend to a committee having to choose the next city for the Olympic games, which option to recommend to a company having to release a new product design, etc.). This will mean students will have to collect data, simulate a decision making process, develop critical abilities in the interpretation and discussion of the results of the model, and be able to link their process to insights coming from the latest developments in the scientific literature. Students are allowed to work in groups of maximum 4 people. In the individual technical report of the group project, students will have to report on the developed process and include a personal reflection on the operability of the tools and transferability of the developed process to other contexts. This assignment will help students develop their strategic problem solving and critical skills by demonstrating their ability to apply a quantitative model to solve a strategic decision making problem, critically evaluate its results, and develop robust recommendations.

Assessment: Project (25%) in the LT.

Essay (75%) in the ST.

Group project presentation (25%) due week 11 of Lent Term

Individual technical report on the group project (75%) due week 1 of Summer Term

The information in this course guide pertains to the 2016-2018 cohort.

Course content: This course teaches, over two modules, topics relating to financial accounting and management accounting. In so doing the course also examines the relationship between the exercise of financial control within organizations and the setting of external standards relating to governance, and the implications of this for the organization of firms. In the first module the course covers topics such as the construction of the financial statements, and then considers topics relating to measurement, for example the contrast between historical cost and fair value and the recognition of intangible assets. In the second module the course examines topics relating to the determination of the cost of a product or service, balanced performance measurement, economic value added and strategic control.

Teaching: Eight sessions composed of lecture and case discussion spread out equally over two LSE modules. The course will run between the following dates:

- 30 August - 10 September 2016
- 12-17 December 2016

Formative coursework: Formative assignment after module 2.

Assessment: This course will not be assessed.

MG458 Half Unit

Foundations of Management I

This information is for the 2016/17 session.

Teacher responsible: Dr Brittany Jones NAB 4.04

Availability: This course is compulsory on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MIM Exchange). This course is not available as an outside option.

Course content: This course is designed to equip students with a holistic understanding of the evolution of management theory and organisational forms and practices since the emergence of modern industrial organisations in the 19th century. Students will be provided with an overview of the development of management as a practice and as a subject of study, and will develop an understanding of the disciplinary anchors in Sociology, Psychology and Economics. Within each field we will cover origins, disciplinary boundaries, triggers for growth, core concepts and the current state of play and debate. Weekly topics cover:

1. Course Introduction and the Origins of Management
2. Management and the Firm
3. Taylorism, Motivation, and Performance
4. The Rise and Decline of Labour
5. The Rise of Human Resources Management
6. Decision Making
7. Understanding Organisational Structures
8. The Origins of Modern Strategy
9. Contemporary Strategic Management: Firms as Bundles of Resources
10. Managed by Markets

Teaching: 20 hours of lectures, 15 hours of seminars and 15 hours of classes in the MT. 3 hours of lectures and 2 hours of classes in the ST.

Lectures will cover theoretical materials and concepts. Case discussions (classes) will apply content covered in lectures to a business situation. Seminars will cover the assigned readings in more depth and develop critical thinking and writing skills for postgraduate study. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

MG459 Half Unit
Foundations of Management 2

This information is for the 2016/17 session.
Teacher responsible: Dr Yally Avrahampour NAB 4.37
Availability: This course is compulsory on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MiM Exchange). This course is not available as an outside option.
Course content: The aims of this course are to provide a basic grounding in the management literatures covering disciplines relating to financial control and management science, and of the literatures on the evolving managerial, organisational and professional contexts within which these disciplines are practiced. Students will be provided with an overview of each discipline with the aim that they acquire a basic working knowledge of each. The course will cover origins and disciplinary boundaries, the foundations of these disciplines in the social sciences, core concepts, practical applications and current state of play and debate. Weekly topics include:

1. Making Business Decisions that Commit Capital
2. Representing a Firm's Financial Condition: 1
3. Valuing and Managing Costs
4. Balanced Performance Measurement
5. Measuring Shareholder Value
6. READING WEEK
7. Representing a Firm's Financial Condition: 2
8. Individual and Institutional Investors in a Historical Context
9. Occupations, Professions and Expertise
10. Organisation and Management Theory
11. Origins of Management Science

Teaching: 20 hours of lectures and 30 hours of seminars in the LT. 3 hours of lectures in the ST.
Weeks 1-11: LT: 1 two hour lecture and 1 three hour case discussion, weekly. Students on this course will have a reading week in Week 6 of LT, in line with departmental policy
Formative coursework: Students will be expected to produce 1 essay in the LT.
Indicative reading:
- Weeks 8-10: Chandler (1977) The Visible Hand
Assessment:
- Exam (75%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
- Essay (25%, 1500 words) in the LT.

MG460 Half Unit
Handling Disruption: Humanitarian Emergencies Management and Development

This information is for the 2016/17 session.
Teacher responsible: Prof Chirsanthi Avergerou NAB 3.22 and Dr Shirin Madon NAB 3.31
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Development Management, MSc in Development Studies, MSc in International Development and Humanitarian Emergencies, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management of Information Systems and Digital Innovation, MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course content is anchored on two observations: First, disasters and humanitarian emergencies are most frequent and most challenging and have the most devastating and long lasting socio-economic effects in poor countries with weak physical and institutional infrastructures. Therefore the course studies the management of emergency interventions in the broader context of socio-economic development. Second, information and communication technology (ICT) continues to open new possibilities for the mitigation, preparedness and response to disasters, but its effective use requires change in the collaboration of humanitarian organisations and affected communities. In this course we will examine critically the potential opened by ICT innovation for the handling of disruptions.
More specifically, the course will cover the following thematic areas:

a) The challenge of humanitarian emergencies and our capacity to address it: the link of episodic emergencies and long term development; ICT innovation and the development of organisational capabilities for effective emergency action.

b) Managing emergencies: emergency logistics and supply chains; ICT innovations in humanitarian emergencies and information systems infrastructures to address mitigation, preparedness and response. Case studies and readings will examine emerging topics such as crowdsourcing and geographic and geodetic intelligence.

Teaching: 10 hours of lectures and 20 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will be expected to produce 1 essay in the LT.

The formative essay is intended to help students explore available literature on the topic of their summative essay and give them feedback on how to proceed.

Indicative reading:
Assessment:
- Project (30% ; 5000 words), essay (60%, 3000 words) and class participation (10%) in the LT.

MG461 Half Unit
Quantitative Analysis in Management

This information is for the 2016/17 session.
Teacher responsible: Prof Gregory Sorkin NAB 3.19
Availability: This course is compulsory on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MiM Exchange). This course is available on the MPhil/ PhD in Employment Relations & Org Behaviour and MPhil/ PhD in Management. This course is not available as an outside option.
Course content: Management Science / Business Analytics topics including mathematical modelling and optimisation (particularly linear programming), Monte Carlo simulation and discrete event
MG462 Half Unit
Qualitative Analysis in Management

This information is for the 2016/17 session.
Teacher responsible: Miss Cristina Alaimo, Dr Roser Pujadas
Comas D Argemir and Dr James Woodcock
Availability: This course is compulsory on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MM Exchange). This course is available on the MPhil/ PhD in Employment Relations & Org Behaviour and MPhil/ PhD in Management. This course is not available as an outside option.
The course is designed for MiM students who are likely to have little or no previous experience of qualitative methodologies.
Course content: This course provides MiM students with a critical understanding of qualitative management research and problem solving, with an emphasis on methods and techniques which will be useful and relevant to them in their future careers. A range of methods will be used and critically appraised, including case study research, ethnography, narrative analysis, and internet-based methods. The course will cover: research design; data collection; data handling techniques; methods of analysis; constructing a contribution; and authoring a research report. These are methods, skills and techniques which are used both formally and informally in academia, consultancy and the workplace.
Teaching: 15 hours of lectures and 9 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.
Students on this course will have a reading week in Week 6 of LT, in line with departmental policy
Formative coursework: 500 word research proposal in LT. Classes
Assessment: Exam (85%, duration: 2 hours) in the main exam period.
Project (15%, 500 words) in the MT.
The project is a data analysis project.

MG463 Half Unit
CEMS Global Management Practice

This information is for the 2016/17 session.
Teacher responsible: Dr Esther Canonico Martin
Availability: This course is compulsory on the CEMS Exchange and MSc in Management (CEMS MIM). This course is not available as an outside option.
As a compulsory course for the CEMS MIM: Master's in International Management this course is available only to, and compulsory for, those students on the CEMS MIM programme.
Pre-requisites: It is assumed that the students have already taken introductory Organisational Behaviour or Global Business courses. The 2nd year Master's in Management students are offered these prerequisites during their 1st year.
Course content: This course aims to answer the question “How internationally operating companies such as multinational companies (MNCs) build efficient and effective organisations in order to realise the company's international objectives?” The focus of the course is on cooperation and management in an international context.
Teaching: 30 hours of lectures in the LT.
Students on this course will have a reading week in Week 6, in line with departmental policy
Formative coursework: Students will be expected to produce 1 essay in the LT.
Assessment: Essay (40%, 2000 words), project (40%) and class participation (20%) in the LT.

MG464 Half Unit
CEMS Global Business Principles

This information is for the 2016/17 session.
Teacher responsible: Prof Paul Willman NAB 4.18 and Dr Brittany Jones NAB 4.04
Availability: This course is compulsory on the CEMS Exchange. This course is not available as an outside option.
This course is compulsory for, and only available to, visiting CEMS students.
Course content: The course examines how firms shape their international strategies, examining the processes, planning techniques and tools for strategic analysis, strategy formulation and implementation in a global setting. It examines the challenges and opportunities in the global environment. It focuses on cross-border competition and the interaction between globalization and corporate social responsibility. It looks at how companies differ across countries and how can we extend our understanding of defining and assessing the quality of a firm’s international competitive strategy in different institutional contexts.
Teaching: 30 hours of lectures in the MT.
Students on this course will have a reading week in Week 6 of LT, in line with departmental policy
Formative coursework: Students will be expected to produce 1 essay in the MT.
Assessment: Essay (40%, 2000 words), project (50%) and class participation (10%) in the MT.
For the group project the total mark (50%) will be comprised of 40% from group mark, with an additional 10% from peer review scores of individual contribution.
MG472  Half Unit
Global Strategy, Management and Information Systems

This information is for the 2016/17 session.
Teacher responsible: Prof Leslie Wilcocks NAB 3.23 and Dr Stephen Smithson NAB 3.31
Availability: This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: A basic understanding of business strategy and management and a basic knowledge of information and communication technologies. Students are expected to have a basic understanding of the challenges of implementing and managing information systems in organisations. A short study pack of selected readings will be provided for students who require this background understanding.
Course content: The main focus of this course is to examine contemporary global strategies and management practices of corporations and government agencies across the world. In the context of Ghemawat calls ‘semi-globalization’ we examine how to analyse corporate and business strategies, competitiveness, and how organizations set up and manage structures, processes, human resources, and technologies to deliver on their objectives. Following through on this theme and context the course focuses more specifically on the social, managerial and political issues involved in the introduction and operation of information and communications technologies in organisations. The course analyses critically the opportunities and risks attached to the development and utilisation of information and communications technologies in contemporary organisations. The aim is to educate and inform future managers about strategy, management and information systems in the context of increasing globalization, and to establish the key choices and practices impacting on organizational and individual performance. Case studies are used to demonstrate the key issues. Topics covered include: Global strategic management; corporate and business level strategies; industry competition; competing through resources and capabilities; value creation; management functions; IS strategy and sourcing; IS projects; risk management and organisational change; role and governance of the IS function; IT-enabled business process (re)design; infrastructure; business and IS evaluation.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST.
A reading week will take place in W6. There will be no teaching during this week.
Formative coursework: Classes are based around reading and discussing selected journal articles from the course study pack. Formative feedback is provided on class participation. A mock examination, with questions from MG472, MG481 and MG487 is held in January.
Indicative reading:
Assessment: Exam (100%, duration: 3 hours) in the main exam period.

MG473  Half Unit
Negotiation Analysis

This information is for the 2016/17 session.
Teacher responsible: Prof David Marsden
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management and Strategy, MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.
Also available as an option to students on the MPhil/PhD in Management: Employment Relations and Organisational Behaviour.
Course content: This course highlights the importance of power, tactics, strategy, information and trust in shaping the structure and outcomes of negotiations. The course covers basic negotiation concepts such as distributive and integrative bargaining, sometimes called pie-slicing and pie-expanding approaches, as well as more advanced issues such as the impact of culture and the psychology of judgement and decision-making. Students will engage in negotiation simulation exercises to help them understand the concepts.
Teaching: 30 hours of seminars in the LT.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students, individually or in groups, will be asked to make presentations and participate in negotiation exercises.
Indicative reading: The main text, covering most of the material in the course is: Leigh Thompson The Mind and Heart of the Negotiator, 6th edn, Pearson, 2014. The following are also useful: Roger Fisher and William Ury, Getting to Yes: Negotiating Agreement Without Giving In, Penguin Books, 1981; Max Bazerman & Margaret Neale, Negotiating Rationally, Free Press 1992; and G.Richard Shell, Bargaining for Advantage, 2nd edn, Penguin, 2006. Students will be expected to read widely in appropriate journals, and a list of references will be provided at the start of the course.
Assessment: Class participation (10%), other (15%) and other (75%).

MG474  Half Unit  Not available in 2016/17
Managing Diversity in Organisations

This information is for the 2016/17 session.
Teacher responsible: Dr Tanya Bearegard NAB4.14
Availability: This course is available on the MPhil/PhD in Management, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management and MSc in Management (MiM Exchange). This course is available as an outside option to students on other programmes where regulations permit.
Course content: The primary aim of the course is to develop students’ understanding and critical awareness of issues associated with managing a workforce characterised by diversity in age, gender, race, religion, disability, and sexual orientation. The course endeavours to combine academic rigour with a practical focus on promoting equality, diversity and inclusion in the workplace, enabling students to both develop a critical understanding of relevant theoretical and empirical literature and apply acquired knowledge to specific diversity management scenarios. Seminars will require participation in group exercises designed to enhance
students’ appreciation of the wide range of issues associated with categorizing individuals as members of different groups, on whatever basis.

Students will become familiar with the drivers of increased workforce diversity, the psychological and sociological theories underlying discrimination and exclusion in organisations, current employment legislation related to diversity in the UK, and the barriers to equality of opportunity in the workplace for minority groups. The emphasis of the course will be on demographic diversity in the context of work organisations, in order to avoid overlap with existing offerings from other departments. Students will examine “best practice” in diversity management programmes and learn to critically assess organisational policies and practices for managing workplace diversity with regard to their ability to enhance organisational performance and avoid costly litigation.

**Teaching:** 10 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.

**Formative coursework:** Students are required to submit a two-page essay outline.

**Indicative reading:** A full reading list will be provided at the beginning of the course. Key texts include: Kirton, G., & Greene, A-M. (2010). The dynamics of managing diversity: A critical approach (3rd ed.). London: Elsevier.

**Assessment:** Essay (30%), 1800 words and class participation (10%). Take home exam (60%) in the ST.

---

**MG475 Half Unit Organisational Theory**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Daniel Beunza NAB 4.27

**Availability:** This course is compulsory on the MSc in Human Resources and Organisations (Organisational Behaviour). This course is available on the CEMS Exchange, IMEX Exchange, MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange) and MSc in Management (MiM Exchange). This course is available on the MSc in Accounting, Organisations and Institutions, MSc in Global Politics (Global Civil Society), MSc in Human Resources and Organisations (Human Resource Management(CIPD)), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Human Rights, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange) and MSc in Management, Organisations and Governance. This course is available with permission as an outside option to students on other programmes where regulations permit.

Also available as an option to students on the MPhil/PhD in Management: Employment Relations and Organisational Behaviour.

**Pre-requisites:** Any social science background.

**Course content:** Corporate Social Responsibility (CSR) is becoming an expected element of business strategy. This course critically evaluates CSR from a number of perspectives, drawing on material from a variety of different disciplines. Students analyse the emergence of CSR, its theoretical basis, the business case for the adoption of CSR programmes, as well as the social impacts of such policies. The opening lectures of the course focus on globalisation and international labour standards, and provide an understanding of how CSR relates to international regulatory institutions such as the International Labour Organisation. Subsequent lectures focus on the different aspects of CSR mentioned above, as well as topics such as comparative CSR. In terms of the impact and design of CSR policies, the course mainly focuses on issues relating to labour standards, but supplementary material on sustainability is also included. As well as traditional academic readings and case studies, students will critically examine publically available material such as corporate policies and reports. Seminars will follow a mixture of formats including group activities and presentations. The course will include one lecture from a CSR professional.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

**Formative coursework:** One 2,000 word essay in LT.

**Assessment:** Exam (60%), duration: 2 hours) in the main exam period.

Essay (35%, 2000 words) and class participation (5%).

---

**MG476 Half Unit Corporate Social Responsibility and International Labour Standards**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Sarah Ashwin NAB 4.19

**Availability:** This course is available on the MSc in Accounting, Organisations and Institutions, MSc in Global Politics (Global Civil Society), MSc in Human Resources and Organisations (Human Resource Management(CIPD)), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Human Rights, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange) and MSc in Management, Organisations and Governance. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Any social science background.

**Course content:** Corporate Social Responsibility (CSR) is becoming an expected element of business strategy. This course critically evaluates CSR from a number of perspectives, drawing on material from a variety of different disciplines. **MG477 Half Unit Reward System: Key Models and Practices**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Alexander Pepper NAB4.37

**Availability:** This course is available on the CEMS Exchange, IMEX Exchange, MPhil/PhD in Management, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange) and MIM Exchange. This course is
available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course will provide an analysis of the types of reward systems commonly used in private and public sector organisations, drawing on economic, psychological and sociological principles, covering all-employee reward, senior executive reward, fixed pay, short-term incentives, long-term incentives, benefits and pensions.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. Students are expected to prepare for, and contribute to, the seminars. Seminars will include group work, preparing and giving presentations, case analyses, small group discussions, and self-assessment exercises. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be required to prepare a short paper (maximum 1500 words) during week 7 in connection with the material covered during that week and will receive feedback on their understanding of the issues.

Indicative reading: Course text books

General reading

Assessment: Exam (60%, duration: 2 hours) in the main exam period. Essay (30%, 2000 words) and class participation (10%) in the LT.

MG478 Half Unit
Globalisation and Human Resource Management

This information is for the 2016/17 session.

Teacher responsible: Dr Eddy Donnelly - NAB 4.07

Availability: This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/CIPD) and MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management). This course is available on the CEMS Exchange, IMEX Exchange, MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management, MSc in Management (CEMS MIM) and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit. Also available as an option to students on the MPhil/PhD in Management: Employment Relations and Organisational Behaviour.

Course content: This course examines human resource management (HRM) strategies and practices of global corporations, seeking to understand typical approaches and best practices. Anchored in theories about strategic human resource management, comparative institutions and global value chains, the goal of the course is to understand the variety of determinants of global/ international HR strategy and practice in a variety of HR domains. In doing so, it provides an international dimension to a variety of topics covered in the introductory HRM course (MG480). In the course modules, we will:

• Analyze how institutions and culture affect HR practices, in particular compensation and performance management strategies.
• Analyze the challenges faced by global corporations in structuring global assignments with specific reference to expatriation and repatriation of global managers, and how corporations are dealing with global talent management.
• Taking a global value chain approach, examine how global firms extend their HR/ER policies to their supply chain, and evaluate the efficacy of methods to improve labor standards and human rights in global supply chains.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One 2,000 word essay during Lent Term.

Assessment: Exam (50%, duration: 2 hours) in the main exam period. Essay (40%, 2000 words) and class participation (10%).

MG479 Half Unit
Information Systems for the Public Sector: Digital Government and Service Innovation

This information is for the 2016/17 session.

Teacher responsible: Dr Antonio Cordella NAB 3.30

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Management of Information Systems and Digital Innovation, MSc in Media, Communication and Development, MSc in Public Management and Governance and MiM Exchange. This course is available as an outside option to students on other programmes where regulations permit.

Course content: Digital government and digital public sector services are the result of the widespread adoption of ICTs, Web processes and social media in public sector organisation - which cumulatively transform and may ‘producize’ the nature of public services delivered to citizens. This course covers the recent and likely-future major organizational and technology change processes in the government sector. Core topics include: the distinctive aspects of the public administration context for technology-enabled innovation; digital government and public sector reform; public sector ICT innovation and public value creation; the use of ICTs to streamline public services as part of wider business process changes; measuring and growing productivity via digital changes; ‘digital by default’ services and social media in government; and next-generation shifts to EDGE (Essentially Digital Governance).

Teaching: 20 hours of lectures, 10 hours of seminars and 4 hours of workshops in the LT. A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: One 1000-word formative essay to be submitted in week 7. Seminars are based around reading and discussing selected journal articles from the course study pack. Formative feedback is provided on class participation.

Indicative reading:
• Alford J. & Hughes O., 2008a. Public Value Pragmatism as the Next Phase of Public Management. The American Review of Public
MG480 Half Unit
Management of Human Resources: Strategies and Policy

This information is for the 2016/17 session.

Teacher responsible: Dr Jonathan Booth NAB4.20

Availability: This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/ CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management) and MSc in Human Resources and Organisations (Organisational Behaviour). This course is available on the IMEX Exchange. This course is not available as an outside option.

Course content: The course examines central issues pertinent to the theory and practice of Human Resource Management (HRM). It introduces students to a range of theoretical perspectives which underpin the ways in which organisations manage the employment relationship through the deployment of HRM strategy and policy. From a practice perspective, it reviews challenges involved in the design, implementation and evaluation of both overall HRM strategy and specific practice areas. In this respect we review HR policy and practice in the areas of recruitment and selection, training and development, job redesign, engagement, retention and attraction, employee relations, conflict and voice, pay and rewards, performance management and appraisal, and strategic HRM.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Exam (60%; duration: 2 hours) in the main exam period. Essay (40%; 1500 words) in the LT.

MG481 Half Unit
Innovating Organisational Information Technology

This information is for the 2016/17 session.

Teacher responsible: Dr Carsten Sorensen NAB3.11

Availability: This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is available on the MSc in Management, MSc in Management (CEMS MIM), MSc in Management Science (Decision Sciences) and MSc in Management Science (Operational Research). This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: A basic knowledge of computing, including hardware and software. Students are expected to have a basic understanding of the challenges of implementing and managing information systems in organisations. A short study pack of selected readings will be provided for students who require this background.
understanding.

Course content: The course provides students with a practical and theoretical insight into the processes and practices of developing contemporary Information Systems. The course reflects the diversity of contemporary information systems contexts; discussing how we should manage the development of complex Internet enabled systems and services. The course focuses on new technologies, and practices including cloud and grid computing, open-source development, Software as a Service, Web2.0 mashups, mobile and ubiquitous information technology, technology to support knowledge work, innovating customer relationship management, mediating mutual adjustment and mass-scale mediated communities. The changing architectures of information systems towards an Internet based cloud are key themes of the course. Attention is however also given to the development of traditional ERP and information management systems which remain important in enterprises. The course also discusses the development challenges in small start-ups leveraging existing development platforms. Particular attention is given to problem structuring and problem design issues within such complex settings using Soft Systems Methodology and the Unified Modeling Language as a toolkit. Agile methods form a core part of the teaching, with Extreme Programming, Rapid Application Development and Internet-speed development contrasted with development formalism such as the Rational Unified Model and Capability Maturity Models. To ensure that students gain practical experience we include a two-week intensive “bootcamp” group project in which outside consultants present a “real-world” case study of systems development and the groups undertake to rapidly analyse and design a proposal for a technical solution. This allows students to support their theoretical understanding with a strong practical experience of the pressures and difficulties of systems development today. The “bootcamp” group project provides a realistic experience of developing systems within a consulting role, and is supported by classes and question and answer session and online discussion. Students gain an understanding of the benefits and difficulties of working within a small team under pressure.

Teaching: 20 hours of lectures, 5 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST. A reading week will take place in Week 6. There will be no teaching during this week.

Formative coursework: Students discuss articles, practice systems development techniques, and critically evaluate their success. Formative feedback is provided on class participation. There is also a mock exam in January shared with MG472 and MG487.

Indicative reading:

Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Project (50%) in the MT. A two-hour unseen examination taken in the ST (50%). The team ‘boot camp’ project in the MT (50%).

MG482  Half Unit
Innovation and Technology Management

This information is for the 2016/17 session.
Teacher responsible: Dr Jonathan Liebenau NAB5.14
Availability: This course is available on the CEMS Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MM Exchange), MSc in Management of Information Systems, and Digital Innovation, MSc in Management, Organisations and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The main focus of this course is on how innovative technologies are managed and their consequences. It includes technological innovation in areas such as telecoms, hi tech industries, pharmaceuticals, biotechnology, space technology, financial technologies. Aspects covered are how new industries are created, how existing industries can be transformed by new technologies, linkages between technological development and the creation of wealth, and implementation success and failure of technological systems. Topics include: technology and entrepreneurship, technology strategy, R&D management, patents and intellectual property, disruptive technologies, project escalation, technological disasters. Economic, systems, managerial and sociological approaches will be compared using a variety of case studies.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Classes are based around reading and discussing selected journal articles and case studies available on or through the course Moodle site. Formative feedback is provided on class participation. In addition, students will present an essay plan in preparation for the final case-based essay, on which formative feedback will be provided.

Assessment: Essay (80%, 5000 words) in the LT. Presentation (20%) in the MT.
MG483 Half Unit

eHealth: Policy, Strategy and Systems

This information is for the 2016/17 session.

Teacher responsible: Dr Anthony Conford NAB3.29 and Dr Elzbieta Kiecun-Taylor NAB3.37

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Health, Population and Society, MSc in International Health Policy, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (IMM Exchange), MSc in Management of Information Systems and Digital Innovation and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: There are no prerequisites. Students should have some appreciation of information management and systems implementation issues, and some understanding of healthcare systems. A short set of readings will be provided for students who require this background understanding.

Course content: This course explores the primary issues faced by healthcare policy makers, healthcare organizations, entrepreneurs and supplier organisations as they plan for and develop healthcare information systems and infrastructures. The course considers systems oriented towards both administrative and clinical activities from the simplest apps to national eHealth infrastructures. The course is organised as follows: A survey of the history of computer-based systems in healthcare and some comparison with other sectors. The evolution and current state of information systems in primary and secondary care with international comparisons. The electronic patient record and national information infrastructures for health. The development of healthcare policies for systems and infrastructures. Assessing the transformative potential of health information systems. Issues of systems implementation. Selected application domains including electronic prescribing, computers in medicines management, Big Data, telehealth and telecare and new patient roles. Issues of evaluation and building of an evidence base.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT. A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Seminars are based around reading and discussing selected journal articles from the course study pack. Formative feedback is provided on weekly class participation and preparation. There is a mock examination.

Indicative reading:

MG484 Half Unit

Global Sourcing and Management of Business and IT Services

This information is for the 2016/17 session.

Teacher responsible: Prof Leslie Willcocks NAB 3.23

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (IMM Exchange), MSc in Management of Information Systems and Digital Innovation and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: None, but a basic understanding of sourcing principles and of management in organisations is useful. A list of selected readings will be provided for students who require this background understanding.

Course content: The course focuses on global sourcing strategies and practices of corporations and government agencies. It examines these in Europe, Americas and Asia Pacific in the context of increasing globalisation of organisational intent, capabilities and sources of service supply. The course provides an understanding of how international business is pursued, convergence and differences across organisations and countries, business strategies and ‘fit’ with IT governance and sourcing approaches, and how sourcing of business and IT services is managed, focusing especially on outsourcing and offshoring decisions and implementation.

Teaching: 20 hours of lectures and 9 hours of seminars in the LT. A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Classes are based around reading and discussing selected journal articles and teaching cases from the course study pack. Formative feedback is provided on weekly class preparation and participation. There is a mock examination.

Indicative reading:

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

MG485 Half Unit

Management and Economics of E-Business

This information is for the 2016/17 session.

Teacher responsible: Dr Stephen Smithson NAB3.31 and Dr Antonio Cordella NAB3.30

Availability: This course is available on the CEMS Exchange, IMEX
Course content: The course discusses managerial, economic, and innovation aspects of online business. History and foundations of online business are introduced to discuss the managerial challenges of the different e-business practices: Business-to-consumer (B2C) and Business-to-business (B2B) systems; e-marketing; intermediation; and IT in supply chain management. Economic theories, such as transaction costs and principal agent, are used to discuss the impact of e-business on market structure and organisation. The course introduces practical and management aspects of the impact of diverse technologies on interorganisational relationships, new organisational forms, such as networked organisations, and electronic markets. Strategies for e-business innovation including web 2.0 and similar developments are also discussed.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Students will be expected to produce 2 essays in the LT. Classes are based around reading and discussing selected journal articles from the course reading list and case studies. Formative feedback is provided through class presentations and a formative essay of 1000 words on which feedback will be provided.

Indicative reading:

Assessment: Exam (100%, duration: 3 hours) in the main exam period.
personalization strategies and how personalization is inherently connected to big data economy. The course takes a unique approach to social media by examining their data making operations and the innovative economic practices they promote. Social media powered networks, platforms, and infrastructures are at the basis of today's most successful business stories.

The course blends theories, ongoing research insight and real life examples to understand the social and economic implications of these significant developments.

Learning outcomes
- Understand the drives behind social computing
- Assess the current dynamics of the Web
- Understand the technological developments and the architectural principles that govern social computing and the growing involvement of publics in the Web
- Link information architectures with social systems and the digital economy
- Understand information infrastructures and the role they play in the development of the Web and the digital economy
- Understand social media as important actors of the social data and big data economy
- Assess the role of digital platforms and infrastructures in the making of the social web
- Understand personalization strategies and their implications
- Acquire critical awareness of social data and big data

Teaching: 20 hours of lectures and 9 hours of seminars in the LT. There is a Reading Week in Week 6. There will be no teaching during this week.

Classes are based around reading and discussing selected journal articles and case studies from the course reading list.

Formative coursework: Written formative feedback is provided on the 500 words proposal for the summative essay.

Indicative readings:

Assessment: Essay (100%, 5000 words) in the LT.

MG487 Half Unit
Innovation and Information Systems: Concepts and Perspectives

This information is for the 2016/17 session.

Teacher responsible: Prof Chrisanthi Avgerou NAB3.22

Availability: This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance) and MSc in Media and Communications (Research). This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course explores the theoretical foundations for the study of organizational and social innovation and the particular role of information systems in such change. It integrates concepts and perspectives of innovation from a range of disciplines.

In completing this course students should be able to draw critically from existing theories in order to address issues of technology-based innovation, organizational change and information systems management.

The lectures cover literature related to three broad themes: innovation and organizational change; information technology and organizational change; and information technology innovation and socio-economic change. For each of these themes we identify and discuss relevant theoretical concepts and perspectives. The discussion of theories is structured in terms of technical/rationa and socially embedded approaches.

Teaching: 10 hours of lectures, 18 hours of seminars and 5 hours of workshops in the MT. 1 hour of lectures in the ST.

A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Seminars are based around reading and discussing selected journal articles from the course study pack. Workshops assist students to develop their critical literature review essay, summative essay. Formative feedback is provided on seminar and workshop participation.

In addition, students will complete a formative essay of 2000 words on which feedback will be provided. A mock examination, with questions from MG472, MG481 and MG487 is held in January.

Indicative reading:
- Brynjolfsson E (2010), Wired for innovation: The MIT Press, Cambridge, MA

Assessment: Exam (50%, duration: 2 hours) in the main examination period.

Essay (50%, 3000 words) in the MT.
MG488A
MiM Capstone Course - Management in Action

This information is for the 2016/17 session.

Teacher responsible: Dr Emma Soane NAB4.02 and Dr Rebecca Newton

Availability: This course is compulsory on the MSc in Management, MiM in Management (CEMS MiM) and MiM in Management (MiM Exchange). This course is not available as an outside option.

Course content: The MiM Capstone Course builds connections between management theory and practice, and equips students with the skills necessary to succeed in their managerial careers. MG488 runs throughout the MiM Management’s first and second years. The MG488A programme comprises ten Capstone lectures throughout the first year. Capstone lectures run fortnightly in MT and LT, and will include sessions led by guest speakers from a range of organisations. Lectures will cover a range of topics such as leadership, strategy and entrepreneurship. Each lecture will contribute to the overall goal of achieving a deeper understanding of how to apply theory to organisational practice.

The remaining five sessions per term comprise optional one to one meetings with a member of the Capstone team from the Department of Management to discuss issues relating to Capstone lectures. In addition to attending sessions, in the first year, each student is assigned to a group of approximately 5 students. Each group will produce a blog on one of the Capstone lecture topics. A schedule for the blog groups will be made available at the start of the first year. Each group will receive feedback on their assignment. There will also be one 30-minute session for each blog group to discuss the development of their blog with a member of the Capstone team. A schedule of blog group meetings will be made available at the start of the first year. In the second year, students will attend session(s) that will introduce the term’s business projects. Students are also encouraged to attend at least one business project presentation by another team.

Second year students apply the theoretical knowledge and business management skills gained in the first year by working on a business project. This takes place in either MT or LT and culminates in a presentation by each project team to their company sponsors, LSE faculty and student peer group. At the start term of students will be allocated to a client project team, typically comprising 5 or 6 students, supported by a sponsoring executive and a faculty coach, to carry out research on a business question posed by the client company. The actual topic is for the sponsoring organisation to decide and questions have historically been very diverse.

Students have the option of proposing companies as business project company sponsors (“self-sponsored projects”) or of developing a viable business plan for an entrepreneurial idea (“entrepreneurial business projects”), although these options must be agreed in advance with the faculty member responsible for business projects to ensure their suitability.

Teaching: 7 hours and 30 minutes of lectures and 7 hours and 30 minutes of help sessions in the MT. 7 hours and 30 minutes of lectures and 7 hours and 30 minutes of help sessions in the LT. MiM Capstone Lectures run once a fortnight throughout the Michaelmas and Lent Terms. First year students are expected to attend all sessions. Second year students are welcome to attend MG488A sessions.

Second year students in MG488B apply the theoretical knowledge and business management skills gained in the first year by working on a business project. This takes place in either MT or LT and culminates in a presentation by each project team to their company sponsors, LSE faculty and student peer group. At the start term of students will be allocated to a client project team, typically comprising 5 or 6 students, supported by a sponsoring executive and a faculty coach, to carry out research on a business question posed by the client company. The actual topic is for the sponsoring organisation to decide and questions have historically been very diverse.

Students have the option of proposing companies as business project company sponsors (“self-sponsored projects”) or of developing a viable business plan for an entrepreneurial idea (“entrepreneurial business projects”), although these options must be agreed in advance with the faculty member responsible for business projects to ensure their suitability.

Teaching: 7 hours and 30 minutes of lectures and 7 hours and 30 minutes of help sessions in the MT. 7 hours and 30 minutes of lectures and 7 hours and 30 minutes of help sessions in the LT. MiM Capstone Lectures run once a fortnight throughout the Michaelmas and Lent Terms. First year students are expected to attend all sessions. Second year students may choose to attend
relevant sessions.
Students on this course will have a reading week in Week 6 of MT and week 6 of LT, in line with departmental policy.
**Formative coursework:** The formative assessment will have been completed in the first year in line with the MG488A course guide.
**Indicative reading:** Recommended readings will be provided for each Capstone lecture.
**Assessment:** Project (65%) in the MT and LT.
**Essay** (25%, 2000 words) in the LT.
Other (10%) in the MT and LT.
Attendance at Capstone lectures - 10% of total course marks.
Students are required to attend 10 Capstone lectures over the two years of the programme, with credits for attendance attached pro-rata to each session. Students must engage fully with session activities in order to receive attendance credit. It is recommended that students attend the 10 Capstone lectures in the first year of the programme.
**Individual summative Assignment** – 25% of the total course marks. In year 2 students will write an academic essay on one of the Capstone lecture topics. Essay questions will be provided by the MG488 course team. Essays must consider application of management theory and practice. Students will submit their essays in LT of the second year.

**Group Business Project** - 65 % of total course marks. All business projects take place during the second year of study. Business projects are assessed on a group basis under three headings: quality of group presentation; quality of research (including application of theoretical concepts); quality of outcomes (recommendations and solutions) and other deliverables. Of the 65% assessed on the Business project, 5% will comprise an individual mark based on a confidential intra-group peer evaluation exercise. Presentations for students working on their business projects in MT take place during LT. Presentations for students working on their business projects in the LT take place within the first two weeks of ST.

### MG492 Half Unit

**Data Governance: Privacy, Openness and Transparency**

This information is for the 2016/17 session.
**Teacher responsible:** Dr Edgar Whitley NAB3.32
**Availability:** This course is available on the CEMS Exchange, IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management of Information Systems and Digital Innovation, MSc in Media and Communications (Data and Society), MSc in Public Management and Governance and MiM Exchange. This course is available as an outside option to students on other programmes where regulations permit.
**Course content:** The course provides a detailed consideration of the key elements of the concept of informational privacy, the open data movement and transparency. These topics lie at the intersection of diverse contemporary issues including, public sector reform, human rights, digital ecosystems and social networking, and the global and national regulation of business. The course content is international in focus, and reviews contemporary issues arising from new technologies, new policies of governments, new practices and business models in the private sector. Topics include personal privacy and identity systems; motivations for information sharing and transparency and its potential for driving beneficial change; transformations in the management of government information and processing practices; the technological and regulatory challenges faced by public sector and business; the protection of sensitive personal data including medical and financial information; data-mining in the context of national security and anti-terrorism policies; communications surveillance policies; behavioural studies of privacy attitudes and the evolution of trust and consent in online environments. The course enables students to develop their understanding of the challenges presented by new informational regimes, their regulatory development and emerging governance structures.
**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. A reading week will take place during Week 6. There will be no teaching during this week.
**Formative coursework:** Classes are based around reading and discussing selected journal articles. Formative feedback is provided on class participation. In addition, students will complete a formative essay plan on which feedback will be provided.
**Assessment:** Coursework (20%, 800 words) and essay (70%, 5000 words).
Class participation (10%) in the LT.
10% class participation.
20% 800 word “blog” article that summarises the key argument of the research essay.
70% 5000 word research essay on an approved topic.

### MG493

**Dissertation and Employability Skills**

This information is for the 2016/17 session.
**Teacher responsible:** Dr Connson Locke NAB4.16
**Availability:** This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/ CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management) and MSc in Human Resources and Organisations (Organisational Behaviour). This course is not available as an outside option.
**Course content:** This course introduces students to the key professional competencies necessary in human resource management such as team-building and communication skills. Students are exposed to practical human resource management systems and issues through interactive sessions and guest speakers. Students are also introduced to the dissertation, research methods, and Links programme. Part of the assessment includes a group project which students will work on throughout MT.
**Teaching:** 30 hours of lectures in the MT.
Each 3-hour session will include a combination of lecture and seminar activities (e.g. small group discussions). Students are expected to prepare for and participate fully in each session. Students on this course will have a reading week in Week 6, in line with departmental policy.
**Formative coursework:** Students will give an interim presentation of their group project in MT.
**Assessment:** Dissertation (85%) and project (15%).
MG494
Term Abroad - MSc in International Management

This information is for the 2016/17 session.
Availability: This course is compulsory on the MSc in International Management. This course is not available as an outside option.
Pre-requisites: The term abroad is for MSc in International Management students only.
Course content: The term abroad is for students on the MSc in International Management programme only. The term abroad is a compulsory component for students on this degree, students spend one term at one of our exchange partner schools in the US or China. These students are not at the LSE during the Lent term. Students participate and take courses from the second year of the exchange Business Schools MBA programme. The number of courses taken during the exchange varies depending on the School overseas which will verify the minimum and maximum number of courses you are expected to take to fulfil the term abroad requirements.
Teaching: Students will receive teaching at one of the exchange partner schools in the US or China.
Assessment: Other (100%).

MG495
Dissertation - MSc International Management

This information is for the 2016/17 session.
Teacher responsible: Prof Diane Reyniers NAB 5.22
Availability: This course is compulsory on the MSc in International Management. This course is not available as an outside option.
Course content: The dissertation consists of a research project within the subject of management. Students work on this project individually under the guidance of a supervisor. The dissertation should make a contribution towards understanding a topic or question related to management based on original analysis and empirical evidence.
Teaching: Dissertation supervisors are allocated in the Michaelmas Term and are available for consultation until the end of June. Details about the process of writing the dissertation will be provided in Michaelmas Term.
Assessment: Dissertation (100%, 10,000 words).

MG496
Study Skills and Research Methods

This information is for the 2016/17 session.
Teacher responsible: Dr Stephen Smithson NAB 3.31 and Dr Elzbieta Klecsun-Taylor NAB 3.37
Availability: This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is not available as an outside option.
Course content: This course provides students with both a broader context for the study of information systems as well as the essential skills relevant to the MISDI programme. Various views of the changing nature and environment of information technology. Research and study skills, team working and other practical skills. Guidance for the dissertation. Seminars by various visiting speakers from academia and industry who discuss a wide range of issues relevant to contemporary information systems.
Teaching: 20 hours of lectures in the MT. 20 hours of lectures in the LT.
Assessment: The course is not formally assessed.

MG497
Half Unit
Dissertation: MSc Management and Strategy

This information is for the 2016/17 session.
Teacher responsible: Dr Jorn Rothe NAB 5.01
Availability: This course is compulsory on the MSc in Management and Strategy. This course is not available as an outside option.
Course content: The dissertation consists of a research project within the subject of management. Students work on this project individually under the guidance of a dissertation advisor. The dissertation should make a contribution towards understanding a topic or question related to management based on original analysis and empirical evidence.
Teaching: There will be an introductory meeting, which will set out the requirements for the dissertation, the process, caution of plagiarism, etc. After this meeting students are welcome to approach staff with preliminary ideas in one-to-one meetings.
Formative coursework: Students will receive feedback on a preliminary proposal (to be submitted by the end of Michaelmas Term) and will be allocated a dissertation advisor, under whose guidance they will complete a detailed project proposal by the end of Lent Term. Students work on their dissertation over the summer, with supervision available until the end of the Summer Term.
Assessment: Dissertation (100%, 6000 words) post-summer term.

MG4A1
MSc Management pre-sessional: Skills Preparation for the MiM

This information is for the 2016/17 session.
Teacher responsible: Dr Brittany Jones NAB 4.04 and Prof Alexander Pepper NAB 4.30
Availability: This course is compulsory on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MiM Exchange). This course is not available as an outside option.
Course content: The course is divided into four separate subjects: Basics of Accounting, Statistics, and Quantitative and Writing Skills for Postgraduates. The Statistics course is for all students and covers basic probability and statistics; hypothesis testing; analysis of variance; association, correlation and regression. The Basics of Accounting sessions will equip students with the basic skills to read a set of accounts, and to understand the issues covered in the financial press. It is intended that this will help students to adapt more quickly to the demands of case study preparation and for courses where accounting basics are helpful. Students in the final portion of the course can opt for one of two options: Quantitative Skills, or Writing Skills for Postgraduates. The Quantitative portion of the course is an introductory mathematics course which covers the following topics with application reference to economics and business: Functions, Linear Equations, Natural Logarithm, Comparative Statics Analysis. The Writing Skills sessions are intended to help students who have backgrounds outside the social sciences and humanities make the transition to postgraduate work. Topics covered will include identifying and making an argument and the fundamentals of essay writing.
Teaching: 30 hours of lectures in the three weeks prior to the Michaelmas Term. There will also be some workshops and tutorial sessions for the statistics portion of the course, to support students preparing practical exercises. Rounding out the schedule is a full programme of talks and activities designed to smooth your transition to postgraduate study at LSE.
MG4A2  Half Unit
Operational Research and Decision Science in Practice

This information is for the 2016/17 session.
Teacher responsible: Prof Lawrence Phillips and Prof Jonathan Rosenhead
Availability: This course is available on the MSc in Management Science (Decision Sciences) and MSc in Management Science (Operational Research). This course is not available as an outside option.

Course content: This course focuses on the key skills needed to be an effective practitioner in Operational Research (OR) and Decision Sciences (DS), and the structured approaches available for formulating (as opposed to solving) problems of complexity, uncertainty and conflict. It is designed to complement the technical methods introduced in the operational research and decision science compulsory courses with both facilitation and process skills, and methods for handling 'wicked' problems.

Students will acquire an appreciation of the different conditions under which OR & DS applications take place in practice, and the skills and methods that are needed to make effective interventions in the decision making of organisations. The history and development of OR & DS, as well as its current practice, will be examined to identify key issues affecting the practice of OR & DS and the role of the OR and DS consultant. Students will identify different kinds of organisation in which OR & DS make important contributions. The structure of these organisations will be studied together with organisational behaviours. The nature of decision making at both the strategic and operational levels will be examined. Students will be provided with an opportunity to explore their own work preferences enabling them to understand how they can best contribute to a work group so it becomes a high-performing team. Students will be introduced to the range of participative problem structuring methods appropriate to problem situations with multiple stakeholders facing uncertainty and conflicting objectives. These methods are aimed at developing a shared view of the problem among the clients, and a joint commitment to action. Students will have opportunities to develop their skills in problem structuring, and to identify the contributions that they can make when working in teams as well as individually.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: There will be opportunities in MT to provide answers to test examination questions.

Additional reading matter will be issued for specific sessions.

Assessment: Exam (80%, duration: 2 hours) in the main exam period. Essay (20%, 2500 words) in the ST.

MG4A3  Half Unit
Incentives and Governance in Organisations

This information is for the 2016/17 session.
Teacher responsible: Dr Thomas Kirchmaier
Availability: This course is compulsory on the MSc in Management and Strategy. This course is available on the CEMs Exchange, IMEX Exchange, MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in International Management, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange) and MIM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A knowledge of Mathematics and Economics.

Course content: The course uses economic theory to gain insight into issues related to internal organisation, structure, and management of firms. The course will draw on various fields including management science, industrial organisation and microeconomics. The course deals with three main topics: (i) the provision of incentives in organisations, (ii) the use of information in markets and firms, and (iii) the relationship between corporate finance and organisational decisions. A major theme concerns the question of how to provide incentives efficiently in organisations. Other important themes include efficiency, coordination, incompleteness of contracts and the use of the market versus internal exchange. A section of the course deals with capital structure. The implications of asymmetric information are examined. Corporate governance is discussed in a principal-agent framework.

Teaching: 20 hours of lectures and 8 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with Departmental policy.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MG4A4  Half Unit
Empirical Research Strategy for Managerial Economics

This information is for the 2016/17 session.
Teacher responsible: Prof Yona Rubinstein NAB 5.31
Availability: This course is available on the IMEX Exchange, IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange) and MSc in Management and Strategy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course addresses the link between a research question, the nature of the available data, the appropriate statistical and econometric methods and the interpretation of the empirical findings. Using datasets from current research in managerial economics, the course will explain how conceptual ideas are transformed into an empirical research project, and how this project is then implemented.

Topics will include:
1. The statistical modelling of research questions; (formulation, reduced forms and structural parameters of interest)
2. Identification in controlled experiments;
3. Identification strategies in observational data:
   a. cross section: instrumental variables, regression discontinuity design;
   b. panel data: fixed and random effects models, differences-in-differences
MG4A5  Half Unit  
**The Analysis of Strategy A**  
This information is for the 2016/17 session. 
**Teacher responsible:** Prof David De-Meza NAB.5.23  
**Availability:** This course is compulsory on the MSc in Management and Strategy. This course is available on the IMEX Exchange and MSc in International Management. This course is not available as an outside option.  
**Course content:** The objective of the two courses (A and B) is to provide students with a critical appreciation of what it takes to be a strategist - in the real world, both within and between firms. The critical aspect of being a strategist is to anticipate and prepare in advance for the possible reactions of other players (e.g. competitors). These two courses will help students to understand how managers in the real world ought to read situations from a strategic angle. In particular, strategy is viewed from the perspective of economics. Besides applications, attention will also be given to conceptual underpinnings. The course is an amalgam of game theory, economics, and strategic management. After some preliminary material on measuring corporate performance, students will be introduced to ideas of behaviour in strategic situations. A powerful tool to study these situations is game theory, where the emphasis is on outplaying a competitor who is trying to outplay you. Some three lectures and two seminars will be devoted to developing the basic concepts of game theory including Nash and sub-game-perfect Nash equilibrium. The second part of the course will focus on applying these ideas to issues in competitive industries. The third part of the course introduces the concepts of creating and appropriating value, distinctive capabilities and ways to build and maintain competitive advantage. These issues will be deepened further in the accompanying seminars.  
**Teaching:** 20 hours of lectures and 9 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with Departmental policy.  
**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.  

MG4A6  Half Unit  
**The Analysis of Strategy B**  
This information is for the 2016/17 session.  
**Teacher responsible:** Dr Jorn Rothe NAB5.01  
**Availability:** This course is compulsory on the MSc in Management and Strategy. This course is available on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MIM Exchange). This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Pre-requisites:** Students must have completed The Analysis of Strategy A (MG4A5).  
**Course content:** In this course we continue, deepen and extend the analysis of strategy. The success of a firm depends on the decisions it makes, and these decisions have to take the behaviour of competitors into account who themselves try to make optimal decisions. Thus the firm faces a problem of strategic interaction, and game theory takes this interaction consistently into account. This course aims at a strategic understanding of these situations and the decisions firms face. We will study general principles of strategic thinking, the application of these principles to specific problems and general conclusions we can draw in these situations. This part of the course focuses on the strategic aspects of competing against other firms within the same industry. We start by analysing market structure and various dimensions of competition - pricing, capacity choices, research and development and advertising. We will then discuss different aspects of strategic commitment and the commitment aspects of pricing, investment and financing decisions. We then focus on the dynamic aspect of pricing rivalry, in particular collusion and price wars. We will finally discuss the incentives for innovation and market entry and exit decisions. Our approach will be critical throughout, emphasising both the power and the limits of a game-theoretic approach. We will use simple models to clarify the logic of strategic reasoning, and case studies to emphasise the relationship between the analysis of strategy and managerial decision making.  
**Teaching:** 20 hours of lectures and 8 hours of seminars in the LT. 2 hours of seminars in the ST. Students on this course will have a reading week in Week 6, in line with Departmental policy.  
**Indicative reading:** There is no fully adequate textbook for this course, in particular:  
1. The most important text is D Besanko, D Dranove & M Shanley and S Schaefer, The Economics of Strategy, John Wiley (6th edition, 2012). Among the other sources are:  
   - L M B Cabral, Introduction to Industrial Organization, MIT Press (2000);  
   - P Ghemawat, Games Businesses Play: Cases and Models, MIT Press (1997);  
   - D M Kreps, Game Theory and Economic Modelling, Clarendon Press (1990);  
   - J Sutton, Technology and Market Structure, MIT Press (1998). A detailed reading list will be provided at the beginning of the course.  
**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.  

MG4A7  Half Unit  
**Efficient Algorithms For Hard Optimisation Problems**  
This information is for the 2016/17 session.  
**Teacher responsible:** Prof Gregory Sorkin NAB.3.19  
**Availability:** This course is available on the MSc in Management Science (Decision Sciences) and MSc in Management Science (Operational Research). This course is available with permission as an
outside option to students on other programmes where regulations permit.

**Pre-requisites:** A level of mathematical sophistication, including comfort with proofs and familiarity with limits, permutations, factorials, binomial coefficients, and rudimentary probability including expectations and independence. If in doubt, please consult the instructor or attend the first lecture.

**Course content:** Many problems, from the “Travelling Salesman Problem” to train scheduling, are easy to state but hard to solve, in a mathematically well-defined sense. In practical operations research, though, one must solve such problems, and the issues involved are mathematically interesting. The course will introduce the underlying computational concepts (polynomial-time computation and NP-completeness), introduce canonical problem models including graph problems and formula satisfiability, and explore various ways of addressing these problems, including heuristics, randomized and approximation algorithms, average-case analysis, and relatively efficient exponential-time algorithms.

**Teaching:** 20 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 2 hours of lectures in the ST.

**Indicative reading:** Shmoys and Williamson, The Design of Approximation Algorithms (Cambridge Univ. Press book, free e-version)
Sinclair, Randomness and Computation (U.C. Berkeley lecture notes, by kind permission of the author)
Print books
Fomin and Kratsch, Exact Exponential Algorithms
Mitzenmacher and Upfal, Probability and Computing: Randomized Algorithms and Probabilistic Analysis

**Assessment:** Exam (85%, duration: 2 hours and 30 minutes) in the main exam period.
Coursework (15%) in the LT.

---

**MG4A8 Half Unit**

**Strategy for the Information Economy**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Jorn Rothe

**Availability:** This course is available on the CEMS Exchange, IMEX Exchange, MSc in Economics and Management, MSc in International Management, MSc in Management (CEMS MIM), MSc in Management and Strategy, MSc in Risk and Finance and MIEX Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Basic knowledge of economics.

**Course content:** The internet has created many new market opportunities. Web-based technology allows for new kinds of market interactions and products. Understanding the design and functioning of these new markets is central for business strategy and success. This course develops the relevant economic principles and applies them to the formulation of strategies for the provision of information goods and the design of online market platforms. The first part of the course is concerned with strategic aspects of the provision of information goods (such as music, software, product reviews, search results). Topics include the pricing of information goods, versioning, rights management, network effects, lock-ins and the discussion of e-commerce institutions and business models. The second part of the course covers the use and design of online-market transaction mechanisms for business-to-consumer and business-to-business e-commerce. Topics include principles of market engineering, design of standard (online-)auction markets and multi-unit auction markets, reputation and collusion in online markets and matching markets. The course provides a theoretical background and relates theory to various examples and case-studies (such as the design of Google’s ad-auctions and eBay’s feedback mechanism).

**Teaching:** 20 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 2 hours of lectures in the ST.

---

Students on this course will have a reading week in Week 6, in line with Departmental policy.

**Formative coursework:** Two exercise sets with a mixture of qualitative and quantitative questions.

**Indicative reading:** Hal R. Varian: Intermediate Microeconomics, W.W.Norton, 2014 (selected chapters); Carl Shapiro and Hal R. Varian: Information Rules, HBS Press, 1999 (selected chapters). A detailed reading list will be provided at the beginning of the course.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MG4A9 Half Unit**

**Foundations of Business and Management for Human Resources**

**This information is for the 2016/17 session.**

**Teacher responsible:** Sandy Pepper

**Availability:** This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/CIPD). This course is available on the MPhil/ PhD in Management. This course is not available as an outside option.

**Course content:** A basic grounding in the key management disciplines for students specialising in Human Resource Management. The aim of the course is for students to acquire a general understanding of the business and managerial context in which human resource management takes place.

Course content includes management theory, theory of the firm, business strategy, accounting and finance. Successful students will become intelligent discussion partners on these subjects and critical readers of financial information and the financial press.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. 3 hours of lectures and 3 hours of seminars in the ST.

Students are expected to prepare for, and contribute to, the seminars. Seminars will include group work, preparing and giving presentations, case analyses, small group discussions, and self-assessment exercises. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** One formative essay of 1000 words: study of a current business topic through the financial press.

**Assessment:** Exam (75%, duration: 2 hours) in the main exam period.

Essay (25%, 1500 words) in the LT.

Summative essay: study of a current business topic through the financial press.

---

**MG4B1 Half Unit**

**Corporate Strategy**

**This information is for the 2016/17 session.**

**Teacher responsible:** Mr Jordi Blanes I Vidal NABS 27

**Availability:** This course is available on the IMEX Exchange, IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIEX Exchange) and MSc in Management and Strategy. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students will need to have some understanding of microeconomics and knowledge of basic statistical methods would be an advantage

**Course content:** This course is an introduction to the strategic
management of modern diversified firms. It studies how the firm's portfolio of products and its internal organisation can be designed to maximise corporate performance.

The course addresses the following questions facing modern managers: what products and activities should the firm focus on? Which tasks should be subcontracted and which should be carried out inside the firm? How should the firm be organised internally in order to coordinate and motivate employees, managers and other stakeholders? How should the firm's scope and internal organisation adapt to changes in the environment?

Teaching: 30 hours of lectures in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be required to undertake the analysis of three Corporate Strategy problems which will be marked and handed back with feedback.

Assessment: Exam (90%, duration: 2 hours) in the main exam period.

Class participation (10%).

---

MG4B3 Half Unit

International Marketing: A Strategic Approach

This information is for the 2016/17 session.

Teacher responsible: Prof Amitav Chakravarti NAB3.13

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc in International Management, MSc in Management and Strategy, MSc in Management, Organisations and Governance, MSc in Media and Communications, MSc in Media and Communications (Media and Communications Governance) and MIM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course is a rigorous examination of the key analytical frameworks, technical tools, and concepts that are essential in building an effective marketing strategy. Participants are introduced to the subject at both strategic and operational levels. This course combines LSE's premier standing in the social sciences with cutting-edge management practices. By using a wide range of concepts, interactive lectures, videos, hands-on exercises, and case studies, we will share key analytical frameworks and tools that are essential to a good marketing strategy. The aim is to develop a widely applicable analytical tool-kit that relies on: (a) anticipating decisions that managers frequently face, (b) bringing to bear a wide range of fundamental, often competing social science theories to inform these decisions, (c) knowledge about empirical generalizations, and (d) knowledge about moderating conditions. Also, emphasis is placed on the use of a simulated case study to develop participant's skills at analysing and making sense of complex real-world business situations.

Teaching: 20 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Formative coursework: Details will be provided at the start of the course.

Indicative reading: Detailed suggestions for reading will be given course.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Project (50%) in the ST.

---

MG4B4 Half Unit Not available in 2016/17

Advanced Topics in Operational Research

This information is for the 2016/17 session.

Teacher responsible: Dr Laszlo Vegh NAB3.05

Availability: This course is available on the IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management and Strategy (MIM Exchange), MSc in Management Science (Decision Sciences) and MSc in Management Science (Operational Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: An examination of the new trends in Operational Research. The topics selected differ year to year, the topic for 2014/15 will be Data Mining. Information is available on Moodle or from the Management Science Group administration office.

Teaching: 20 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Formative coursework: Details will be provided at the start of the course.

Indicative reading: Detailed suggestions for reading will be given before the start of the course.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Project (50%) in the ST.

---

MG4B5 Half Unit

Business in the Global Environment

This information is for the 2016/17 session.

Teacher responsible: Dr Veronica Rappoport-Redondo NAB5.29

Availability: This course is available on the IMEX Exchange, MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in International Management, MSc in Management, MSc in Management (CEMS MIM), MSc in Management and Strategy and MIM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Priority will be given in the following order: MSc International Management, IMEX exchange students (home and visiting); other students from the Department of Management and International Relations; all other LSE students.

Course content: The course looks at the process of globalisation at three levels: industries, firms and nations. Its goal is to develop a solid understanding of the external, economy-wide factors that affect the performance and management of firms in today's global
MG4B6  Half Unit
Design and Management of Organisations

This information is for the 2016/17 session.
Teacher responsible: Prof Yona Rubinstein NAB 5.31
Availability: This course is compulsory on the MSc in Management and Strategy. This course is available on the CEMS Exchange, IMEX Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange) and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: In this course we investigate aspects of management and the internal organisation of the firm from birth to end. What makes a successful entrepreneur? Are managers subject to human biases in decision making? Our starting point is that entrepreneurs and managers are human. We neglect neither general heuristics nor biases exhibited by individuals and groups and their impact on firms’ performance. We further recognise that they make decisions in situations in which information is not perfect and not symmetrically shared, neither internally with their employees nor externally. We also consider the capabilities of organisations to design management strategies to cope with that. How can firms attract and select the ‘right’ employees? Can pay and promotions be structured to screen the best workers and extract their efforts? Should firms develop employees’ talent and if so, how? Why do firms from teams and how these are used most effectively? Do experts follow the crowd? Why they turn to be “yes-men”? Can pay incentives be structured to motivate experts to share their private knowledge? Design and Management of Organisations introduces students to a set of conceptual tools to cope with these key managerial challenges and critically evaluate contemporary management approaches. The organising principle of much of the content of the course has its conceptual origins in economic strategy and behavioral economics. This information is for the 2016/17 session.

Teacher responsible: Dr Hyun-Jung Lee NAB 4.12
Availability: This course is compulsory on the MSc in Human Resources and Organisations (Organisational Behaviour). This course is available on the CEMS Exchange, IMEX Exchange, MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPhil/PhD in Employment Relations & Org Behaviour, MSc in African Development, MSc in Development Management, MSc in Human Resources and Organisations (Human Resource Management/ CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management Science (Decision Sciences), MSc in Management Science (Operational Research), MSc in Management of Information Systems and Digital Innovation, MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course adopts a psychological framework to explore the content, process and outcomes of organisational change. The aim of the course is to provide students with different psychological theories to understand the process and consequences of organisational change and in doing so addresses the following issues: type of organisational change, creating readiness for organisational change and leading change, the change agent, strategies for change, resistance to change and evaluation of and institutionalisation of organisational change. Models and frameworks for analyzing and diagnosing change; the role of the change agent, leading change from the top, bottom up change specific interventions; strategies of change; a justice perspective on organisational change; understanding recipients reactions to change; theory and methods of evaluation of organisational change and reinforcing change interventions.
Teaching: 21 hours of lectures and 12 hours of seminars in the LT. 2 hours of lectures and 1 hour and 30 minutes of seminars in the ST.
The teaching is highly participative and includes lectures and seminars. Group working is an integral part of the course and students are expected to actively contribute to their syndicate group throughout the year. The course is demanding of students and depends partly upon commitment and willingness to participate fully. The course is taught in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will take part in a mock exam in the LT.

**Indicative reading:** The course relies heavily on journal articles (for example, Academy of Management Journal, Journal of Applied Psychology, Journal of Organizational Behaviour, and Journal of Applied Behavioural Science) and the use of case studies. The following book is also useful: Gрег, S., Michel, A., & By, T. B., (Eds.) (2013), The psychology of organizational change: Viewing change from the employee’s perspective, Cambridge University Press.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MG4B8 Half Unit**

**Evolutionary Psychology and Management**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Satoshi Kanazawa NAB5.33

**Availability:** This course is available on the IMEX Exchange, MSc in International Management and MSc in Management and Strategy. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** Principles of evolutionary psychology. The nature and limitations of the human brain as an evolved and adapted organ. Evolutionary origins of cognitive biases, and their effects on organisational behaviour. Sex differences in organisational behaviour. The importance of physical attractiveness and general intelligence in organisational behaviour. “Discrimination” in labour market. Evolutionary psychological perspectives on cooperation, reciprocity, altruism, hierarchy, and leadership in modern corporations. Evolutionary origins of organisationally relevant emotions such as envy, spite, and positional bias. This course introduces the evolutionary psychological perspective on business and management. The emerging science of evolutionary psychology sheds entirely new light on, and offers different solutions to, old problems of management, such as glass ceiling, occupational sex segregation, sexual harassment and suboptimal decision making, and points to new potential problems.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** One class presentation and one essay based on the class presentation.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MG4C1 Half Unit**

**Techniques of Operational Research**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Katerina Papadaki NAB 3.14

**Availability:** This course is compulsory on the MSc in Management Science (Operational Research). This course is available on the CEMS Exchange, IMEX Exchange, MSc in Applicable Mathematics, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management and Strategy, MSc in Risk and Finance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Basic Knowledge of Mathematics and Economics

**Course content:** The course studies a key component of the “globalization” process: the negotiation, implementation and implications of international trade agreements (ITAs). These include the World Trade Organisation and the fast-growing web of regional trade agreements. We analyse the challenges and opportunities faced by companies engaged in the global economy in this context. The course relies on recent theoretical and empirical research to gain insight into the motivations for ITAs and their consequences for consumers and firms. Globalisation - trends in the international economy and overview of their causes and effects. The sources of international trade. Trade barriers - restrictions to international trade and their consequences. The economics and politics of international trade agreements. The rules, accomplishments and shortcomings of the GATT/WTO system. Regional trade agreements - motivation, implications, and recent trends. The costs and benefits from exporting for individual firms. Challenges and opportunities for national and multinational firms in the global economy.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** A mock examination will be held.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MG4B9 Half Unit**

**The World Trading System**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Veronica Rappoport-Redondo NAB5.29

**Availability:** This course is available on the CEMS Exchange, IMEX Exchange, MSc in Economics and Management, MSc in International Management, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management and Strategy, MSc in Risk and Finance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:**

- **Introduction to Operations Research, 7th edn.**
- **Introduction to International Management (MiM Exchange),**
- **MSc in Management Science (Operational Research).**
- **MSc in Risk and Finance and MiM Exchange.**

**Pre-requisites:** Basic Knowledge of Mathematics and Economics

**Indicative reading:** The course studies a key component of the “globalization” process: the negotiation, implementation and implications of international trade agreements (ITAs). These include the World Trade Organisation and the fast-growing web of regional trade agreements. We analyse the challenges and opportunities faced by companies engaged in the global economy in this context. The course relies on recent theoretical and empirical research to gain insight into the motivations for ITAs and their consequences for consumers and firms. **Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
MG4C2 Half Unit
Organisational Behaviour

This information is for the 2016/17 session.
Teacher responsible: Dr Tara Reich NAB4.15

Availability: This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/CPD) and MSc in Human Resources and Organisations (Organisational Behaviour). This course is available on the CEMS Exchange, IMEX Exchange, MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPhil/PhD in Management, MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management Science (Decision Sciences), MSc in Management Science (Operational Research), MSc in Management, Organisations and Governance, MSc in Public Management and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is available in the Michaelmas Term only.

Course content: This course seeks to understand individual attitudes and behaviour in an organisational context. Specifically, we aim to demonstrate the contribution of a psychological perspective to understanding human behaviour at work by reviewing psychological theories as they apply to organisations and critically evaluating the associated empirical evidence.

Key topics include: personality and individual differences, work motivation, decision-making, rewards systems, psychological contracts, organisational justice, organisational citizenship and retaliatory behaviour, leadership, groups and group processes, design of work, and organisational culture.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT. 2 hours of lectures and 1 hour and 30 minutes of seminars in the ST. The teaching is highly participative and includes lectures and seminars. The course is demanding of students and its success depends partly upon student commitment and willingness to participate fully.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: The course relies heavily on journal articles (from, for example, Academy of Management Journal, Journal of Applied Psychology, Journal of Organizational Behavior). An extensive reading list is provided at the start of the course. No suitable textbook exists but students may wish to consult one of the following:

Assessment: Exam (100%), duration: 2 hours) in the main exam period.

MG4C3 Half Unit
Information Technology and Service Innovation

This information is for the 2016/17 session.
Teacher responsible: Dr Carsten Sorensen

Availability: This course is available on the MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management of Information Systems and Digital Innovation and MSc in Management, Organisations and Governance. This course is available with permission as an outside option to students on other programmes where regulations permit. This course will use controlled access and space will be limited to 60 students.

Course content: The course aims to give the students theoretical and practical insights into the key issues informing the design of contemporary information technology (IT). The course relates the diversity of the design challenges facing contemporary IT development. The course embraces the shifting conditions for small teams of developers to design significant services in the context of technology-based startups, or as part of entrepreneurship within an existing enterprise or public institution. The design challenges relate to constantly shifting possibilities, for example, for the capture and processing of digital data previously beyond reach, the ability to leverage existing boundary resources (APIs, SDKs etc), and the expanding possibilities for reaching end-users in new ways.

The course is constructed as the meeting of theory and practice. The former is constituted by the presentation and discussion of theoretical themes aimed at sharpening the student’s ability to reason fundamentally about contemporary design challenges and opportunities. This aspect is also examined through an individual essay. The practical design skills and primarily honed through a group project running throughout the course. Conducting this group design project will engage students in highly detailed and constructive design discussions leading to an actual design of an IT artifact. The practical design skills sought practiced in the course are related to but largely independent from skills solely aimed at setting and analysing requirements on the one hand, and expressing the design through programming, on the other.

The course, therefore neither requires, nor teaches detailed programming techniques, but instead focuses on teaching design skills through practices and to sensitize the potential skills through the discussion of pertinent theoretical themes. These themes takes their outset in the increasing complexity of designing IT artifacts as the granularity of technology and data capture is decreasing to enable increasing tracking of more and more granular aspects of human activities, while IT artifact design at the same time relates to a variety of personal-, local-, and global communications infrastructures, as well as a variety of possible multi-sided platforms and software middleware layers enabling rapid prototyping of complex designs. Topics addressed will be: digital infrastructure innovation; digital platform strategies; Designing technology affordance diversity; Understanding technology performances; Individual interaction intimacy; Amplified teams; The technological organisation; Global crowd innovation with IT; Global technology innovation tussles; Business innovation with information technology.

The weekly seminars will consist of presentations and discussions offering students opportunity to critically reflect on theoretical and pragmatic issues related to the subject matter of the course, such as, the role of IT in business innovation, understanding the paradoxes of technology performances, intimate technology experiences, IT mediated team-working, the IT-enabled organisations, innovating global IT mediated crowds, innovation as organisational tussles, and the role of IT-based innovation for business development.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Classes are based around both the design group projects, as well as reading and discussing selected journal articles from the course study pack. Formative feedback is provided on class participation.

Indicative reading:

- Braa, K., Sorensen, B., and Dahlbom, ed. (2000): Planet Internet. Studentlitteratur
- Ciborra, C. (2002): The Labyrinths of Information. OUP

- Braa, K., Sorensen, B., and Dahlbom, ed. (2000): Planet Internet. Studentlitteratur
- Ciborra, C. (2002): The Labyrinths of Information. OUP
MG4C5  **Half Unit**

**Computer Modelling: Applied Statistics and Simulation**

*This information is for the 2016/17 session.*

**Teacher responsible:** Mr David Jarrett and Dr Alicia Mejia-Salazar

**Availability:** This course is compulsory on the MSc in Management Science (Decision Sciences) and MSc in Management Science (Operational Research). This course is available on the MSc in Applicable Mathematics, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management Science (Operational Research), MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Management (Research). This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have a good knowledge of Mathematics and Statistics to the level of MA107 (Quantitative Methods - Mathematics) and ST102 (Elementary Statistical Theory).

**Course content:** An introduction to stochastic modelling and applied statistics.

Applied Statistics (MG4C5.1): Revision of Descriptive stats, EDA, outliers, transformations; confidence intervals and hypothesis tests for continuous and discrete data; simple and multiple linear regression; binary logistic regression.

Applied Stochastic Modelling (MG4C5.2): This course is about how to build models of systems which are characterised by uncertainty and random variability. The focus is on simulation (i.e. computer-based) models and aims to develop simulation modelling skills, understanding of the theoretical basis which underpins the simulation methodology, and an appreciation of practical issues in managing a simulation modelling project.

**Teaching:** 22 hours of lectures and 19 hours of seminars in the MT. A reading week will take place in W6. There will be no teaching during this week.

**Formative coursework:** MG4C5.1 - Exercises are set weekly and discussed in the following week’s classes, which alternate between hands-on computer sessions and problem classes. Students will have the opportunity to submit a mock project for marking and comment several weeks before the final assessed project is due.

MG4C5.2 - Students will have the opportunity to submit a mock project for marking and comment several weeks before the final assessed project is due.

**Assessment:** Project (50%) and coursework (50%, 2500 words).

---

MG4C6  **Half Unit**

**Mathematical Programming: Theory and Algorithms**

*This information is for the 2016/17 session.*

**Teacher responsible:** Dr Giacomo Zambelli NAB 3.36

**Availability:** This course is available on the MSc in Applicable Mathematics, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management Science (Operational Research), MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Management (Research). This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have sufficient knowledge of linear algebra (linear independence, determinants, matrix inversion and manipulation) and of basic multivariate calculus (derivatives and gradients).

**Course content:** Introduction to theory and the solution of linear and nonlinear programming problems: including linear programming, duality, the simplex method, lagrangian duality, convex programming and KKT conditions, algorithms for linear and convex optimisation problems, theory of good formulations for integer linear programming models, integer linear programming methods (branch and bound and cutting plane). A reading week will take place in W6. There will be no teaching during this week.

**Indicative reading:** Extensive lecture notes covering all parts of the course will be provided. Students interested in further readings can look at the books below:

- Vandenberghe Optimization
- Conforti Cornuejols Zambelli

---
MG4C7  
Applied Management Science  
This information is for the 2016/17 session.  
Teacher responsible: Dr David Newton  
Availability: This course is available on the MSc in Management Science (Decision Sciences) and MSc in Management Science (Operational Research). This course is not available as an outside option.  
Cannot be taken with MG4C9 - Management Science Dissertation.  
Course content: The student will carry out and report upon a substantial practical piece of Management Science. The project will either be found by the course leader or may be suggested by the student, with the approval of his/her teachers.  
Teaching: 8 hours of lectures in the MT. 6 hours of lectures in the LT.  
A reading week will take place in Week 6. There will be no teaching during this week.  
Formative coursework: Each student will be assigned an internal project supervisor who will monitor his/her progress on a continuing basis and give tutorial advice as required.  
Indicative reading: Detailed suggestions for reading will be provided in the course of supervision.  
Assessment: Project (100%).  
Assessment is based entirely on the project report. The student is expected to work on this full-time from early June to end of August. Two paper copies and one electronic copy must be submitted on a specified date in late August/early September. The page limit for the report is 40 pages, excluding appendices. A degree cannot be awarded unless MG4C7 Applied Management Science or MG4C9 Management Science Dissertation have been passed. 

MG4C8  
Half Unit  
Model Building in Mathematical Programming  
This information is for the 2016/17 session.  
Teacher responsible: Dr Xue Lu  
Availability: This course is compulsory on the MSc in Management Science (Operational Research). This course is available on the MSc in Applicable Mathematics, MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MiM Exchange). This course is available as an outside option to students on other programmes where regulations permit.  
Pre-requisites: Students must have a knowledge of Mathematics and Statistics to the level of MA107 (Quantitative Methods - Mathematics) and ST102 (Elementary Statistical Theory).  
Course content: Mathematical Programming is one of the most powerful and widely-used quantitative techniques for making optimal decisions. The course has a pragmatic focus and aims at enabling students to model and solve real-life management problems. In providing an overview of the most relevant techniques of the field, it teaches a range of approaches to building Mathematical Programming models and shows how to solve them and analyse their solutions. Content includes: An introduction to the theory of linear programming. The modelling life cycle and modelling environments. Formulation of management problems using linear and network models; solution of such problems with a special-purpose programming language; interpretation of the solutions; limitations of such models. Formulation and solution of non-linear models including some or all of binary, integer, convex and stochastic programming models  
Teaching: 20 hours of lectures and 18 hours of seminars in the MT. 2 hours of seminars in the LT.  
8 hours of computer help sessions in the MT. 2 hours of computer help sessions in the LT. Computer help sessions are optional. A reading week will take place in W6. There will be no teaching during this week.  
Formative coursework: Students will have the opportunity to submit a mock project for marking and feedback before the final assessed project is due. Students will also be given weekly homework exercises.  
Indicative reading: Central to the course is: H P Williams, Model Building in Mathematical Programming, Wiley. A good introduction to Mathematical Programming provide the relevant chapters of: F S Hillier and G J Lieberman: Introduction to Operations Research, McGraw-Hill. A more theoretical treatment can be found in: D Bertsimas and J N Tsitsiklis: Introduction to Linear Optimization, Athena Scientific. Further suggestions for reading are given during the course.  
Assessment: Project (100%) in the LT. The course is examined entirely on a project to be submitted at the end of LT. 

MG4C9  
Dissertation: MSc Management Science  
This information is for the 2016/17 session.  
Teacher responsible: Dr Laszlo Vegl and Dr Katerina Papadaki  
Availability: This course is available on the MSc in Management Science (Decision Sciences) and MSc in Management Science (Operational Research). This course is not available as an outside option.  
Cannot be taken with MG4C7 Applied Management Science.  
Course content: The aim of the dissertation is for students to pursue an independent piece of research within the field of management science. The dissertation is a quantitative or qualitative investigation in the field. It may be either a theoretical or empirical piece of research. Students must obtain the approval of their advisor before embarking on any research.  
Teaching: Advisors will normally be allocated according to student dissertation proposals, and it is the student’s responsibility to find a suitable dissertation adviser who will advise the student, help provide information and bibliography and identify likely problems with the proposed research. Dissertation guidelines will be issued to students during MT.  
Formative coursework: Students are required to submit Dissertation Plans to the supervisor in LT and ST.  
Assessment: Dissertation (100%, 10000 words) post-summer term. Two paper copies of the dissertation must be submitted on a specified date in late August/early September. An electronic version of the dissertation must also be submitted. The word limit for the dissertation is 10,000 words. The dissertation is critical to assessment. 

MG4D1  
Half Unit  
Not available in 2016/17  
International and Comparative Human Resource Management  
This information is for the 2016/17 session.  
Teacher responsible: TBC  
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MPhil/Phd in Management, MSc in Human Resources and Organisations (Human Resource Management/ CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management, Organisations and Governance and MiM Exchange. This course is available with
permission as an outside option to students on other programmes where regulations permit.

Course content: The course deals with the policies that organisations adopt to deal with a range of human resource issues, and develops an international and comparative perspective. The course considers managerial human resource policies in their institutional, social and market contexts in advanced industrial countries. As an integrating perspective, the lectures analyse how different employment systems shape organisations’ HR strategies and policies. The course looks at problems of human resource management in international firms, training, migration, knowledge management, rewards, equal opportunities, employment flexibility, participation, and employer collective action all within the context of different types of employment systems.

Teaching: 20 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 3 hours of lectures and 3 hours of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Assessment: Exam (67%, duration: 2 hours) in the main exam period.

Essay (33%) in the LT.

Students complete an assessed essay during the Easter vacation, which counts for one third of their assessment, and a summer examination, which counts for two thirds.

MG4D2  Half Unit  International Employment Relations

This information is for the 2016/17 session.

Teacher responsible: Dr Chuyun Li NAB 4.05
Dr Eddy Donnelly - NAB 4.07

Availability: This course is compulsory on the MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management). This course is available on the CEMS Exchange, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange) and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Also available as an option to students on the MPhil/PhD in Management: Employment Relations and Organisational Behaviour.

Pre-requisites: A general knowledge of the social sciences is required.

Course content: The course aims to provide an introduction to the comparative analysis of work and employment relations at national, firm and workplace level throughout the world. It will introduce the employment relationship, the key concepts surrounding it, and the theories required to understand it. The strategies and policies of the main actors will be explored through cross-national comparative analysis. The course will also introduce the main ‘models’ of employment relations: the Anglo-Saxon, Japanese and European Social Models, as well as models of employment relations in the transitional economies.

The aim of the classes will be to provide an introduction to the comparative analysis of employment relations, and to ensure that students have both the conceptual and empirical grounding they need to take the options offered in international comparative human resource management and cross-cultural management.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. The teaching is highly participative and includes lectures and seminars. Group working is an integral part of the course and students are expected to actively contribute to their class groups. The course is demanding of students and depends for its success partly upon their commitment and willingness to participate fully. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students have to complete a class presentation.

Assessment: Essay (40%, 2500 words) in the MT.

Essay (50%, 2500 words) in the LT.

Class participation (10%).

MG4D3  Half Unit  The Dark Side of the Organisation

This information is for the 2016/17 session.

Teacher responsible: Dr Jonathan Booth NAB 4.20

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MPhil/PhD in Management, MSc in Human Resources and Organisations (Human Resource Management/ CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management, Organisations and Governance and MiM Exchange. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Introductory OB course required. MG4C2, MG434, MG102, or equivalent course in another institution. Students will be required to write a paragraph about their motivation for taking this course.

Course content: In this seminar, students will learn about a variety of topics related to the dark side of the organisation, (e.g., substance abuse, violent/aggressive, discriminatory, and retaliatory behaviours, and unethical behaviours/corporate corruption). In organisational behaviour courses, topics covered often explore how behaviours promote beneficial outcomes for the organisation, as well as investigate the precursors to these more positive behaviours. However, not all behaviours and outcomes occurring in the workplace are beneficial and positive for employees and their organisations. Dark side behaviours typically lead to negative outcomes. Those who engage in these negative behaviours generally are aware that their actions can cause harm to others, their employer, and/or to them; hence, the instigator usually has intent. It is imperative that we more fully understand these behaviours and their antecedents and consequences so that we can identify these behaviours, as well as control, prevent, mitigate, or ameliorate their occurrences. In addition to an organisational behaviour approach to the dark side, we will also explore industrial relations perspective.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: Students will be expected to produce 1
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. Experiential learning is emphasised and team working is an integral part of the course. The teaching is highly participative. Students will be asked to make presentations and participate in exercise. The course is demanding of students and success depends partly upon student commitment and willingness to participate fully. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: The following reading list contains some easily accessible introductory discussions. Most of the course reading is taken from journals. A full reading list will be issued at the start of the course. B. Gerhke and M-T. Claes (eds.) (2014), Global leadership practices: A cross cultural management perspective, Palgrave Macmillan; R. Steers et al. (2013), Management across cultures, Cambridge University Press; R. Nisbett (2003), The geography of thought, Nicholas Brealey Publishing.

Assessment: Essay (50%); project (40%) and class participation (10%).

MG4D5   Half Unit
Leadership in Organisations: Theory and Practice

This information is for the 2016/17 session.

Teacher responsible: Dr Connson Locke NAB4.16

Availability: This course is available on the CEMS Exchange, IMEX Exchange, MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPhil/PhD in Management, MSc in Accounting and Finance, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management, Organisations and Governance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course is designed to provide students with the knowledge, skills and analytical capabilities needed to exercise leadership in organisations. It explores several facets of leadership and considers how leadership develops. The emphasis will be on application of theory and comparing and contrasting different approaches to leadership.

The course examines topics such as: leadership and management; trait, behavioural and contingency theories of leadership; individual differences in leadership; leadership development; transformational and transactional forms of leadership; and issues of gender and culture.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Each two-hour session will include a combination of lecture and seminar work. Students are expected to prepare for and contribute to each session. Seminar work will include case analyses and small group discussions. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will complete a formative assessment based on previous exam questions. The details will be discussed in week 1. The assignment deadline will be after week 6.

MG4D9
Dissertation: MSc MISDI
This information is for the 2016/17 session.
Teacher responsible: All members involved with MSc MISDI are involved in dissertation support.
Availability: This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is not available as an outside option.
Course content: The aim of the dissertation is for students to pursue an independent piece of research within the field of information systems. The dissertation is a quantitative or qualitative investigation in the field. It may be either a theoretical or empirical piece of research. Students must obtain the approval of their advisor before embarking on any research. The course MG496 Study Skills and Research Methods provides background material on undertaking dissertation work. Advisors will normally be allocated according to student dissertation proposals. The dissertation advisor will advise the student, help provide information and bibliography and identify likely problems with the proposed research.
Referencing: Details on Group requirements for referencing and paraphrasing and the presentation of the dissertation are given during the MG496 Study Skills and Research Methods course. Students with any queries on this area should contact their dissertation advisor or the MSc Tutor.
Formative coursework: Students will be expected to produce 1 presentation in the ST.
Students are expected to attend their allocated dissertation presentation session. They will present their research question, conceptual framework and research design. They will receive feedback on the day from their supervisor and fellow peers. The presentations take place after the examination period (mid/late June).
Assessment: Dissertation (100%, 10000 words) post-summer term.
Three paper copies of the dissertation must be handed in on a specified date in late August/early September. An electronic version of the dissertation must also be submitted. Penalties will be applied to any late submission. The word limit for the dissertation is 10,000 words. The dissertation is critical to assessment on the programme.

MG4E1
Algorithmic Techniques for Data Mining
This information is for the 2016/17 session.
Teacher responsible: Dr Laszlo Vegh NAB 3.05
Availability: This course is available on the MSc in Applicable Mathematics, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange), MSc in Management Science (Decision Sciences) and MSc in Management Science (Operational Research). This course is available as an outside option to students on other programmes where regulations permit.
The course will be capped to 45 students.
Pre-requisites: Students are not permitted to take this course alongside ST443 Machine Learning and Data Mining. Students must have basic knowledge of Mathematics and Statistics. The expected background in Statistics is familiarity with hypothesis testing, linear and logistic regression, to the level of MG4C5.
Course content: Data Mining is an interdisciplinary field developed over the last three decades. Vast quantities of data are available today in all areas of business, science, and technology. The main goal of data mining is to extract previously unknown, useful information from such massive scale data. The aim of the course is to equip the students with a theoretically founded and practically applicable knowledge of data mining. The theoretical foundations of the field come from statistics, computer science and artificial intelligence.
The course introduces fundamental machine learning methods and algorithms for basic data analytics problems. These methods include algorithms for tree construction and for rule generation, instance-based learning, regression methods, support vector machines, nearest-neighbour methods, Bayesian networks, website ranking, principal component analysis, association rule mining, and distance based and density based clustering. The methods are illustrated on practical problems arising from various fields. The course also gives an introduction to the usage of the data mining software package Weka.
Teaching: 20 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. A reading week will take place in W6. There will be no teaching during this week.
Formative coursework: Students will be expected to produce 1 project in the LT and 1 problem set in the ST.
Weekly homework assignments have to be submitted, partially as formative coursework, and partially counting towards the 10% coursework mark. A mock project will be given, similar to the group project, but with the dataset provided.
Assessment: Exam (45%, duration: 2 hours) in the main exam period.
Project (45%) in the ST.
Coursework (10%) in the LT.
The formative will be an in-depth case analysis, with two components to it. One component will help prepare participants for the Marketing Project (i.e., more conceptual applications, using social science theories and frameworks to make sense of real-life “messy” cases), and the other component will help prepare participants for the Final Exam (i.e., application of theoretical as well as more analytical frameworks and data analysis that has a more clear pattern of right or wrong answers).

**Assessment:** Exam (50%), duration: 3 hours in the main exam period.

Project (40%) and class participation (10%) in the MT.

---

**MG4E3   Half Unit**

**Capstone Project**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Richard Bevan

**Availability:** This course is compulsory on the MSc in Public Management and Governance. This course is not available as an outside option.

**Course content:** These Capstone's projects are sponsored by organisations that value having our students examine an issue. Sponsors have included the World Bank, the UN, BCG, KPMG, the Department of Health, the London Assembly. The nature of the issue varies: e.g., it may be important to our sponsor but they lack the resources to examine it or they would value exploratory work done.

**Teaching:** Each group will have fortnightly supervision meetings during Michaelmas and Lent Terms.

**Formative coursework:** Students will be expected to produce 2 presentations in the LT.

Students give presentations in the first week of Lent term that give their proposed terms of reference, project plan and organisation of the project teams; and in the ninth week of Lent term to rehearse their final presentation to the project sponsors.

**Indicative reading:** There is no reading for this Capstone's project.

**Assessment:** Essay (50%, 3000 words) in August.

Presentation (50%) in the LT.

Summative assessment consists of the group presentation (50%) and an individual reflective essay (50%).

The group presentation is given in the last two weeks of Lent term and consists of an oral presentation of the analysis and recommendations of your project given to sponsors and a revised stand-alone set in PowerPoint format to be submitted in the Easter vacation.

The individual reflective essay (3,000 words) is organised around two subjects: applying concepts to inform practice and learning from practice. The first is about how students you applied concepts and theories in the project. The second is reflections on what students learned from doing the project: e.g. developing general concepts so they were relevant, from working as a member of group, relevance of the project relevant to the student's own country.

---

**MG4E4   Half Unit**

**Enabling Governments to Make Hard Choices by Assessing Costs and Benefits**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Christine Cote and Prof Richard Bevan

**Availability:** This course is compulsory on the MSc in Public Management and Governance. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course will be available to selected students on the MPA programmes.

**Course content:** The course will focus on concepts and cases relevant to understanding economic appraisal and evaluation. The course emphasises the importance of accounting for costs and benefits across different criteria, at different times, risk and uncertainty, and distributional effects; and designing economic appraisal to relate to the political process of making decisions.

The course examines three methods of economic appraisal: cost benefit analysis (CBA), cost effectiveness analysis (CEA), multicriteria decision analysis (MCD). It explains the principles of each method and examines case studies to show their strengths and weaknesses. The aim is for students to learn that, for policy analysis, that the concepts of micro-economics are necessary but not sufficient by relating the issues that emerge from the case studies to major intellectual arguments of the 20th Century. These are arguments over the nature of science, positivism, power, efficiency, equity, and justice. The objective is for students to learn what characterises policy analysis that is likely to succeed or fail.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the MT.

A detailed essay plan on two pages with introduction, one key paragraph and conclusion written in full on the principle of using markets to assess costs and benefits and problems with this approach.

**Assessment:** Essay (90%, 5000 words) in the LT.

Presentation (10%) in the MT.

An essay of 5,000 words giving a critique of the methods used in a case study relevant to an issue in the student's country (90%).

Presentations as a member of a seminar group in the weekly seminars (10%).
MG4E5  Half Unit
Running Governments by Hierarchy and Regulated Markets
This information is for the 2016/17 session.
Teacher responsible: Dr Christine Cote
Availability: This course is compulsory on the MSc in Public Management and Governance. This course is available with permission as an outside option to students on other programmes where regulations permit.
The course will be available to selected students on the MPA programmes.
Course content: The course will focus on forms of governance of services examining the shifting balance between government and markets. This includes study of quasi markets, vouchers, privatization, Private Finance Initiatives (PFIs) and Public-Private Partnerships (PPPs). The course will examine different kinds of markets for hospitals, health insurers, schools, universities and water. It will consider governance against objectives of costs, equity and quality. It uses economic ideas of principal / agent problems, the economics of transaction costs and behavioural economics. It also examines issues in international trade and public health.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.
A detailed essay plan on two pages with introduction, one key paragraph and conclusion written in full on the idea of quasi markets for either schools or hospitals with reference to Le Grand’s ideas of ‘knights’ and ‘knaves’.
Assessment: Essay (90%, 5000 words) in the ST.
Presentation (10%) in the LT.
An essay of 5,000 words critically examining governance of a service in the student’s own country (90%).
Presentation as a member of a seminar group in the weekly seminars (10%).

MG4G3  Half Unit
Designing and Managing Change in the Public Sector (H)
This information is for the 2016/17 session.
Teacher responsible: Dr Simon Bastow NAB 4.19
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is not available as an outside option.
Course content: The course focuses on important challenges for governments in both developed and less-developed countries in being able to design and manage transformative change in their public sector systems. Pressures on these governments to tackle complex problems, become more productive, build capacity, be more agile or innovative, or respond to rapidly changing environments make it ever more important that change is designed and managed carefully, and with some degree of success. The course looks at factors explaining governments’ ability to adapt strategically to rapidly changing external environments, and also examines why public sector organisations may succeed or struggle in designing and delivering large-scale programmes of change. MG4G3 integrates key theory, concepts, and extensive empirical case-based material. It introduces design-based and holistic approaches to change, examines important component aspects, and discusses limitations that constrain governments and public sector organizations in their ability to design and manage change. The course looks at these challenges primarily from this perspective of the senior public sector officials involved, working at the interface of high politics, policy making, and operational delivery. It draws on cases from a wide range of sectors and policy areas, and has global reach in terms of country case materials.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT.
Students on this course will have a reading week during Week 6, in line with Department of Management policy.
Formative coursework: Students will be expected to produce 1 essay in the LT.
Indicative reading: There is no one particular set text for this course. Students will be directed to key texts from public policy, management economics, public sector management and administration, and other organization-related disciplines. Some key texts include:
- Schein, Edgar H. (2010) Organizational culture and leadership (San Francisco, John Wiley & Sons Inc.)
- Morgan, Gareth (2006) Images of Organization, Chapter 4 (Learning and Self-Organization)
Students will examine published papers, and extracts from official reports and ‘grey literature’.
Assessment: Essay (80%, 4000 words) in the LT.
Presentation (20%) in the MT.
An essay of 4,000 words in response to one of the set essay questions – to be submitted by end of Week 6 in the Lent Term (80%) An individual presentation in seminar on a set topic, and a written commentary of 1,500 words (20%)

MG4G4  Half Unit
Topics in Management Research
This information is for the 2016/17 session.
Teacher responsible: Prof Diane Reyniers NAB5.22
Availability: This course is available on the Diploma in Accounting
and Finance, MSc in International Management, MSc in Management Science (Decision Sciences) and MSc in Management and Strategy. This course is available as an outside option to students on other programmes where regulations permit. Students must have prior knowledge of microeconomics and econometrics.

Pre-requisites: Intermediate microeconomics and econometrics (equivalent to LSE UG courses MG207 and MG205).

Course content: This course addresses various topics in management research which will be used to encourage creative and logical thinking, structuring of clear arguments and critical assessment of evidence. The focus is on interpretation of findings rather than statistical or econometric techniques. The intellectual backbone of the course is applied and empirical economics (including behavioural economics) and finance but, wherever appropriate, contributions from the psychology, sociology and management literature will be discussed. We will mainly deal with issues which are amenable to rigorous empirical investigation. The course is designed around a set of empirical research papers. Examples of questions considered are whether family firms are managed differently from non-family firms, whether providing feedback on performance improves productivity, whether pain killers are more effective when they are expensive, whether successful entrepreneurs tend to have been juvenile delinquents, whether men and women have different attitudes towards negotiation. The main objective of the course is to enable students to comprehend and critically assess the literature on selected management topics, to evaluate statements in terms of evidence and to detect false reasoning or logic.

We investigate aspects of Management and what motivates people in organisations. Topics vary each year (based on student feedback) but examples are Entrepreneurship, Racial discrimination, Negotiation, Experiments on Incentives, Placebo effects of price, Leadership, Cheating.

Teaching: 10 hours of lectures and 9 hours of seminars in the MT. 2 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with Departmental policy.

Formative coursework: Students will be expected to produce 2 problem sets in the MT.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MG4K3

MPA Capstone Project

This information is for the 2016/17 session.

Teacher responsible: Dr Babken Babajanian SAR.G.03

Availability: This course is compulsory on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is not available as an outside option.

Course content: Students will undertake a group project (in teams usually of 3 to 6 people) relating to a public policy problem faced by an external organisation. Typical clients include public sector bodies, companies operating in the public management or public policy sector, international organisations or think tanks and NGOs. The group will have from October to March to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem.

Teaching: 4 hours and 30 minutes of seminars in the MT. 3 hours of seminars in the LT.

Teaching comprises five 1.5 hour Capstone seminars in the MT and LT. These seminars provide guidance on planning, structuring and presenting the Capstone report and the usage of research methods. Students are asked to participate in the Capstone Professional Development exercises designed to support effective and fair group work. Each Capstone group will be allocated a supervisor, who will provide overall guidance on the project's development and assistance with client liaison. Other members of staff may also advise as required.

Formative coursework: Feedback will be provided on presentations of work-in-progress during MT and LT.

Assessment: Project (100%, 15000 words) in the LT. The project work is conducted in teams, and the assessment is based on a collective group mark for each component except in exceptional circumstances.

The group mark has three components:

1. 20% of the overall mark is assigned by the client organisation based on a group presentation and a submission of the project
report.
2. 50% of the overall mark is given by two academic readers upon submission of the project report; and
3. the final 30% of the overall mark is allocated by the Capstone supervisor on the basis of the group’s performance in terms of (i) scoping and project development (including coping with difficulties), (ii) group working and self-management as a team, and (iii) the overall output of the project (10% for each item).
Additionally, each group member must complete the Capstone evaluation and personal reflection exercise. This will be submitted individually and separately from the report.

MG4K4
MPA Dissertation
This information is for the 2016/17 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is not available as an outside option.

Students may not take this course and an MPA Policy Paper.

Course content: The aim of this course is to enable students to plan, design and conduct independent substantial research and/or analysis in an area of public policy. MPA students will write a dissertation of no more than 10,000 words on a topic of their choice to be agreed with their Academic Adviser. The dissertation must be concerned with the goal of policy improvement and, at the same time, it must contribute to a broader objective of knowledge- and theory-building. The main body of the dissertation should include literature review, method of investigation, results of the analysis, discussion of findings, conclusions and theoretical and policy implications. Dissertations can utilise quantitative and/or qualitative data and draw on primary and/or secondary research.

Teaching: 6 hours of seminars in the MT. 1 hour and 30 minutes of seminars and 1 hour of seminars in the LT.
Teaching comprises six seminars in the MT and LT. These seminars provide academic and practical guidance on developing a research topic and question; designing an analytical framework; structuring and presenting policy analysis; and writing policy recommendations. The student’s Academic Adviser will provide advice and guidance on this piece of work.

Assessment: Dissertation (90%, 10,000 words) in the ST. Other (10%) in the MT.
1. A 1,500 word dissertation proposal consisting of the title, abstract, research question and hypothesis, justification for research, feasibility of the dissertation topic, an explanation of sources, provisional structure and analytical framework will count for 10% of the overall dissertation mark. Students may only change their topic thereafter with the agreement of their Academic Adviser. Students will be given feedback on their proposal.
2. The full dissertation of no more than 10,000 words will account for the remaining 90% of the overall mark.

MG4V8
Half Unit
MPA Policy Paper
This information is for the 2016/17 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is not available as an outside option.

Students may not take this course and an MPA Dissertation.

Course content: The aim of the course is to enable students to plan, design and conduct independent analysis in an area of public policy. MPA students will write an individually-authored policy paper of no more than 6,000 words on a topic developed in consultation with their Academic Adviser. The paper will analyse a concrete policy problem in a specific setting and propose an evidence-based solution or course of amelioration. It must be addressed to a non-academic audience and should be clearly and directly written, suitable for consideration by policy-makers. The main body of the paper should include methodology, results of the analysis, discussion of different policy options, conclusions and policy recommendations. The policy paper must be accompanied by an Executive Summary. Policy papers can utilise quantitative and/or qualitative data and draw on secondary and/or primary research.

Teaching: 6 hours of seminars in the MT. 1 hour and 30 minutes of seminars and 1 hour of seminars in the LT.
These six seminars provide academic and practical guidance on developing the policy paper topic and question; designing analytical frameworks; structuring and presenting policy analysis; and writing policy recommendations. The student’s Academic Adviser will provide advice and guidance on this piece of work.

Assessment: Policy paper proposal (of no more than 750 words in total) consisting of the title, abstract, research question, justification for analysis, feasibility of the topic, an explanation of sources, structure and analytical framework must be submitted in the MT. Students may only change their topic thereafter with the agreement of their Academic Adviser. Students will be given feedback on their proposal.

Assessment: Policy paper proposal (of no more than 750 words in total) consisting of the title, abstract, research question, justification for analysis, feasibility of the topic, an explanation of sources, structure and analytical framework must be submitted in the MT. Students may only change their topic thereafter with the agreement of their Academic Adviser. Students will be given feedback on their proposal.

Assessment: Other (100%) in the ST.
6,000 word policy paper

MY400 Half Unit
Fundamentals of Social Science Research Design

This information is for the 2016/17 session.
Teacher responsible: Dr Alasdair Jones COL8.12
Availability: This course is compulsory on the MSc in Social Research Methods. This course is available on the MSc in Gender (Research), MSc in Human Geography and Urban Studies (Research), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MM Exchange) and MSc in Statistics (Research).
This course is available as an outside option to students on other programmes where regulations permit.
Research students please see MY500.
Course content: Research design necessitates trade offs between the strengths and weaknesses of different feasible options. This course aims to introduce the broad range of design options and to foster an appreciation of these alternatives for particular research objectives. Drawing on a variety of examples from the social scientific literature, this course will explore design considerations and options across quantitative and qualitative research, including issues of data quality, analysis, reporting and reproducibility. At the end of the course, students will be able to read a wide variety of empirical social science with a critical and balanced perspective and will be better equipped to implement and make arguments defending the methods they use in their dissertations.
Teaching: 20 hours of lectures and 8 hours of seminars in the MT. Week 6 is a Reading Week during which students work independently on their first assignment.
Assessment: Research proposal (30%) and class participation (10%) in the MT. Other (60%) in the ST.
Research Proposal (1000 words), submitted in week 9 MT (30%).
Provisional Research Design (5000 words), submitted in Week 1 ST (60%).

MY405 Half Unit
Research Methods for Evaluation in Health, Development and Public Policy

This information is for the 2016/17 session.
Teacher responsible: Dr Flora Cornish COL8.09
Availability: This course is available on the MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: No prerequisites.
Course content: This course aims to equip students with the methodological knowledge and research skills to be able to design and critically appraise evaluation research. In the context of the rise of evidence-based policy, the course is designed to extend students’ abilities to use evaluative information carefully and critically. The course takes a mixed methods approach. It covers the major quantitative designs, including randomized experiments and observational (i.e. non-randomized) research designs such as selection on observables, difference-in-differences, and the regression discontinuity design. It covers qualitative and participatory research designs and their contribution to formative research, process evaluation, interpreting outcomes, and assessing transferability to other settings. As well as the major design issues, the course addresses practical and ethical issues of evaluation research, how to write a study protocol, and how to draw lessons from a body of evidence through reviewing and synthesising evidence. Examples from the fields of health, international development and public policy will be used throughout the lectures, and students select one of these fields for their focus in seminars.
Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.
50% essay. Students are given a choice of essay questions, in response to which they write one essay (2,500 words).
50% group-based coursework. Students work in groups to develop an evaluation design, and write it up individually (2,500 words).
50% essay. Students are given a choice of essay questions, in response to which they write one essay (2,500 words).

MY421 Half Unit
Qualitative Research Methods

This information is for the 2016/17 session.
Teacher responsible: Dr Flora Cornish COL8.09 and Dr Alasdair Jones COL8.12
Availability: This course is compulsory on the MPhil/PhD in Social Psychology, MSc in Health, Community and Development and MSc in Social Research Methods. This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Gender (Research), MSc in Human Geography and Urban Studies (Research), MSc in Inequalities and Social Science, MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MM Exchange). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course presents the fundamentals of qualitative research methods. It prepares students to design, carry out, report, read and evaluate qualitative research projects. Students learn how to collect data using methods including interviewing, focus groups, participant observation, and documentary and historical work. The challenges and opportunities of new media including visual images and Internet research are discussed. We then cover analysis, using thematic, content, discourse, and semiotic analysis. Issues of research design, quality indicators, epistemology and ethics are addressed. The course has the dual aims of equipping students with conceptual understandings of current academic debates regarding qualitative methods, and with practical skills to put those methods into practice.
Lectures introduce the main conceptual and practical issues. Seminars provide practical experience with the methods. A workbook details the seminar activities - and provides the guidance and basis for the formative and summative assessments.
Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 10 x 1.5 hour lectures
9 x 1.5 hour seminars
Formative coursework: Students will be expected to produce 1 essay in the LT.
Assessment: Coursework (50%, 2500 words) in the LT.
Essay (50%, 2500 words) in the ST.
50% group-based coursework. Students work in groups to develop an evaluation design, and write it up individually (2,500 words).
50% essay. Students are given a choice of essay questions, in response to which they write one essay (2,500 words).
The course runs twice per year: in MT (MY421M) and again in LT (MY421L). The content of the course is exactly the same in each term. Week 6 is a Reading Week during which students work independently on their formative assignments.

**Formative coursework:** Students submit a portion of their practical work, with some written commentary, for formative assessment. The practical work is structured by a workbook, and is the focus of the seminars. It also forms the basis of the summative assessment.

**Assessment:** Project (100%, 3000 words) in the ST.

The summative assignment is a small project, demonstrating skills in using some of the qualitative methods covered during the course. It takes the form of a project report, with detailed appendices documenting the methods used.

---

**MY426 Half Unit Doing Ethnography**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Alasdair Jones COL 8.08

**Availability:** This course is available on the MSc in Gender (Research), MSc in Human Geography and Urban Studies (Research), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Social Policy (Research) and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** A postgraduate qualitative research methods course, such as MY421, as pre- or co-requisite. Familiarity with notions of research design in the social sciences, to the level of MY400 or equivalent

**Course content:** Doing ethnography enables us to examine how social order is produced as people go about their everyday interactions. Multiple sources of naturally-occurring data are used to understand how communities, organisations and institutions work, informally as well as formally. Contemporary conditions of globalisation, individualisation, bureaucratisation and digitisation introduce new challenges for such fieldwork. This interdisciplinary course equips students with a practical understanding of how to do, and to think about, contemporary ethnography. Core conceptual, ethical and methodological debates are introduced through in-depth engagement with book-length exemplars, and through students’ experience of fieldwork. Fieldwork is a key component of the course, with students collecting data locally (interesting sites are chosen each year, e.g. the Occupy encampment at St Paul’s, protests around London, volunteering activities), followed by data analysis and presentation activities. Methodological concerns regarding case selection, establishing rigour, reflexivity, representing others, and ethical issues are addressed in detail. Practical issues addressed include identifying and accessing study sites, studying elite and marginalised groups, innovative sources of data, and writing field notes. Emphasising that ethnography relies on the researcher-as-research-instrument, the course aims to develop students’ sensitivity and rigour as ethnographic researchers.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. Week 6 is a Reading Week during which students work independently on their formative assignments.

**Formative coursework:** An excerpt of field-notes from the field visit undertaken as part of the course (up to 2,500 words). Field-notes should record rich details of observations (the data), researcher reflections, and brief interpretations of the significance of these observations. Written feedback will be provided.

**Assessment:** Essay (100%, 4000 words) in the LT.

---

**MY427 Half Unit Not available in 2016/17 Qualitative Research with Non-Traditional Data**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Jennifer Tarr COL8.06

**Availability:** This course is available on the MSc in Culture and Society, MSc in Gender (Research), MSc in Gender, Media and Culture, MSc in Human Geography and Urban Studies (Research), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Media and Communications, MSc in Media and Communications (Research) and MSc in Social Research Methods. This course is also available to PhD students, please see MY527.

**Pre-requisites:** Introductory course on qualitative methods (e.g. MY421 or MC4M1) as pre-requisite or co-requisite.

**Course content:** Most qualitative research is in the form of written or spoken texts, produced through interviews and field notes or collection and analysis of documents. Recently qualitative researchers have become interested in ways of capturing and documenting other kinds of data and other dimensions of social life. This course will examine methods for collecting and analysing data which are not primarily textual or linguistic, and how these can be integrated into qualitative research. Lectures will cover key topics such as time and memory; space, place and mobile methods; digital research and online environments; and using visual, audio and other sensory data. Key example readings will be assigned, discussed and assessed each week. Seminars provide practical skills through hands on exercises of data collection and analysis, closely tied with the lecture content. These skills will be developed further in a final small research project on a topic of the students’ choosing to be submitted at the beginning of summer term.

The course aims to understand how qualitative methods can be applied to non-traditional data and how to address traditional methodological concerns such as rigour and representativeness. The course is aimed at students who are considering one or more of these elements as part of their dissertation research design and/or who are interested in gaining more advanced skills in qualitative research.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. Week 6 will be a Reading Week during which students work independently on their formative assignment.

**Formative coursework:** Seminar activities will receive in-class feedback. A brief proposal for final summative coursework (c. 1000 words) should be submitted and will receive formative feedback and guidance.

**Indicative reading:** Note: No one text covers the whole course.

**Assessment:** Project (100%, 4000 words) in the ST.

One 4000-4500 word research project related to the course material, on a topic selected by the student (100%).
MY428  Half Unit  Not available in 2016/17
Qualitative Text Analysis

This information is for the 2016/17 session.
Teacher responsible: Dr Chana Teeger (Room: TBC)
Availability: This course is available on the MPhil/PhD in Media and Communications, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange), MSc in Organisational and Social Psychology, MSc in Social Research Methods and MSc in Social and Public Communication. This course is available as an outside option to students on other programmes where regulations permit.
The course is also available to PhD students, please see MY528.
Pre-requisites: Students must have completed Fundamentals of Social Science Research Design (MY400).

A postgraduate qualitative research methods course, such as MY421, as pre- or co-requisite. Familiarity with notions of research design in the social sciences, to the level of MY400 or equivalent

Course content: This course covers issues, methods, and applications of qualitative approaches for the analysis of textual data. It introduces techniques and procedures available to researchers to identify and extract information from texts for social scientific purposes. Topics discussed draw on a wide range of analytic traditions such as thematic analysis, content analysis, dialogical analysis, discourse analysis and dictionary-based approaches. The aim of this course is to equip participants with the right skills to work within these traditions and select appropriate qualitative methods for analysing textual data according to 1) Research Design 2) Type of data under consideration.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.
Week 6 is a Reading Week during which students work independently on their Summative Assignment.

Formative coursework: A project proposal (c.1,000 words).

Assessment: Essay (100%, 4000 words) in the LT.

MY429  Half Unit  Not available in 2016/17
Special Topics in Qualitative Research: Introspection-Based Methods in Social Research

This information is for the 2016/17 session.
Teacher responsible: Prof Martin Bauer Col, PhD
Availability: This course is available on the MSc in Gender (Research), MSc in Human Geography and Urban Studies (Research), MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange) and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: The course will assume good knowledge of qualitative research methods as covered in MY421.

Course content:

Introspection comprises methods of empirically recording one's own subjective experience; the currently on-going, or perhaps very recently past, mental or emotional states and processes through methods of trained and technically supported self-observation. Historically, introspection is part of a quest of human self-knowledge and self-improvement. And a person's stream of consciousness is of interest in the social sciences, for example as reports of happiness or life satisfaction. Introspection has been difficult to verify, thus deemed not "objective" and unscientific. The stream of consciousness (William James) was of interest mainly to literary elaboration. However, introspection-based methods survived and have re-emerged, not least because 1st person experience remains an indispensable source of evidence on an actor's states and processes that constrain and give meaning to human action. Not least recent advance in neurosciences accentuates the need for experience-focused 1st person methods. Modern introspection-based methods are "objectifications" of 1st person situated experiences in controlled settings that support episodic retention. Modern introspection-based methods create conditions which make immediate, pre-mediated experience less "biased" and more accurate to record. This comprises techniques such as narrative and episodic interviewing, free-association techniques, survey-based reconstruction and attitudes, critical incident techniques, loud-thinking protocols, experience sampling and self-tracking methods, ecological momentary assessment, video methods, and auto-ethnography and the "quantified self". Many new techniques are mobile and adaptable to capture the fluid nature of mental and emotional states and processes. Miniature mobile devices for sound and video recording promise to overcome the bottlenecks that have hitherto plagued intensive and continuous introspection-based methods.

Learning Outcomes: Students on this course will
1. appreciate the long past, and the short history of introspection-based methods;
2. be familiar with a range of techniques of collecting introspective data;
3. know the problems of introspection-based methods and how different methods try to overcome them;
4) gain practical skills with modern introspection-based methods.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: One piece of assessed coursework (max. 1,500 words).

Indicative reading: A complete reading list will be provided at the beginning of the course.

state of the nation, American Psychologist, 33, 456-470.

Assessment: Coursework (100%), 3000 words in the ST. One 3,000 word written report (100%) on ONE from a choice of SEVERAL Take-home exercises. To be submitted at the beginning of the Summer term.

---

**MY451  Half Unit**

**Introduction to Quantitative Analysis**

This information is for the 2016/17 session.

Teacher responsible: Dr Benjamin Lauderdale Col.8.10 and Prof Jonathan Jackson Col.8.05

Availability: This course is compulsory on the MSc in Sociology (Research). This course is available on the MRes in Comparative Politics, MSc in Conflict Studies, MSc in EU Politics, MSc in Gender (Research), MSc in Inequalities and Social Science, MSc in International Health Policy, MSc in International Health Policy (Health Economics), MSc in International Migration and Public Policy, MSc in Public Policy and Administration and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is also available to research students as MY551.

Course content: An intensive introduction to quantitative data analysis in the social sciences. The course is intended for students with no previous experience of quantitative methods or statistics. It covers the foundations of descriptive statistics and statistical estimation and inference. At the end of the course students should be able to carry out univariate and bi-variate data analysis and have an appreciation of multiple linear regression. The computer classes give ‘hands-on’ training in the application of statistical techniques to real social science research problems using the SPSS computer package (no prior knowledge of SPSS is necessary).

Teaching: 20 hours of lectures and 9 hours of computer workshops in the MT. 20 hours of lectures and 9 hours of computer workshops in the LT. 2 hours of lectures in the ST.

There will be no lectures or computer classes in Week 6 of the term.

This course is given twice per session, starting in the first week of each of the MT and LT. Students must either register for MY451M which is taught in Michaelmas Term, or MY451L which is taught in Lent Term.

Formative coursework: Exercises from the weekly computer classes can be submitted for feedback.

Indicative reading: A course pack will be available for download online and can be purchased as a hard copy. Additional reading will be recommended.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

A two-hour open book unseen examination in ST.

---

**MY452  Half Unit**

**Applied Regression Analysis**

This information is for the 2016/17 session.

Teacher responsible: Dr Benjamin Lauderdale Col.8.10 and Prof Kenneth Benoit Col.8.11

Availability: This course is compulsory on the MPhil/PhD in Social Psychology, MSc in Political Science and Political Economy and MSc in Sociology (Research). This course is available on the MRes Political Science, MRes/PhD Political Science (Qualitative stream B), MRes/PhD Political Science (Quantitative stream A), MSc in Comparative

Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Gender (Research), MSc in International Health Policy, MSc in International Health Policy (Health Economics), MSc in Local Economic Development, MSc in Management, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Public Policy and Administration, MSc in Social Research Methods and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

MY452 is open to any and all post-graduate students around the School who have already have a grounding in quantitative methods.

Pre-requisites: Students are required to have completed MY451 or an equivalent level statistics course.

Course content: This course is designed for students with a good working knowledge of elementary descriptive statistics; sampling distributions; one and two sample tests for means and proportions; correlation and the linear regression model with one or more predictor variables. The course is concerned with deepening the understanding of the generalized linear model and its application to social science data. The main topics covered are linear regression modelling and binary, multinomial and ordinal logistic regression. Class exercises and homework will be carried out using the stata or SPSS package, according to the student’s choice.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the MT. 20 hours of lectures and 10 hours of computer workshops in the LT.

This course is given twice per session, starting in the first week of each of the MT and LT. Students must either register for MY452M which is taught in Michaelmas Term, or MY452L which is taught in Lent Term.

There will be no lectures or computer classes in Week 6 of term.

Formative coursework: Exercises from the weekly computer classes can be submitted for feedback.

Indicative reading: A course pack will be available for download online and can be purchased as a hard copy. Additional reading will be recommended.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

A two-hour open book unseen examination in ST.

---

**MY454  Half Unit**

**Applied Statistical Computing using R**

This information is for the 2016/17 session.

Teacher responsible: Dr Benjamin Lauderdale COL.8.10

Availability: This course is available on the MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange) and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

The course is also available to research students, as MY554.

Pre-requisites: Students must have taken Applied Regression Analysis (MY452) or an equivalent intermediate regression course.

Course content: This course will cover basic statistical programming for social science research as well as several associated data analysis methods. Programming topics include basic programming, data structures, optimisation, and simulation. Applied statistical topics include nonparametric density estimation and regression, additive models, cross-validation, the bootstrap, and permutation/randomisation inference. Lectures, class exercises and homework will be based on the use of the R statistical software package but will assume no background knowledge of that language.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT. 2 hours of lectures in the ST.

Formative coursework: Students will be expected to produce 5 problem sets in the LT.

Each problem set is associated with a computer classes, and may be
submitted for marking and feedback.

**Indicative reading:** Keene, L. S. Parametric Regression for the Social Sciences. Matloff, N. The Art of R Programming. Shalizi, CR. Advanced Data Analysis from an Elementary Point of View.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 5 minutes) in the main exam period.

Coursework (50%) in the ST.

---

**MY455  Half Unit**

**Multivariate Analysis and Measurement**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Jonathan Jackson COL8.05

**Availability:** This course is compulsory on the MPhil/PhD in Social Psychology. This course is available on the MSc in Management, MSc in Management (CEMS MIM), MSc in Management (CEMS MIM), MSc in Management (MIM Exchange), MSc in Political Science and Political Economy and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is also available to research students as MY555.

**Pre-requisites:** The course will assume a knowledge of standard linear regression models, to the level covered in MY452 (Applied Regression Analysis).

**Course content:** An introduction to the application of modern multivariate methods used in the social sciences, with particular focus on latent variable models for continuous observed variables, and their application to questions of measurement in the social sciences. At least the following topics will be covered: principal components analysis, exploratory factor analysis, confirmatory factor analysis and structural equation models. In addition, a selection from the following topics will be covered: cluster analysis, correspondence analysis, multidimensional scaling, latent class models, latent trait models.

**Teaching:** 20 hours of lectures and 8 hours of computer workshops in the LT. 1 hour of lectures in the ST.

**Formative coursework:** Exercises from the computer classes can be submitted for marking.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MY456  Half Unit**

**Survey Methodology**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Jonathan Jackson COL8.05

**Availability:** This course is compulsory on the MPhil/PhD in Social Psychology. This course is available on the MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange), MSc in Social Research Methods, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Knowledge of basic descriptive and inferential statistics, to the level of MY452 or equivalent. MY456 can also be taken in parallel with MY452L. Familiarity with notions of research design in the social sciences, to the level of MY400 or equivalent.

**Course content:** This course provides an introduction to the methodology of the design and analysis of social surveys. It is intended both for students who plan to design and collect their own surveys, and for those who need to understand and use data from existing large-scale surveys. Topics covered include basic ideas of target populations, survey estimation and inference, sampling error and non-sampling error; sample design and sampling theory; methods of data collection; survey interviewing; cognitive processes in answering survey questions; design and evaluation of survey questions; nonresponse error and imputation for item nonresponse; survey weights; analysis of data from complex surveys; accessing, preparing and working with secondary data from existing social surveys. The course includes computer classes, using the statistical computer package Stata; no previous knowledge of Stata is required.

**Teacher:** 20 hours of lectures and 10 hours of seminars in the LT. There will be no lectures or computer classes in Week 6 of term.

**Formative coursework:** Exercises from the computer classes can be submitted for feedback.

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period.

---

**MY457  Half Unit**

**Causal Inference for Observational and Experimental Studies**

This information is for the 2016/17 session.

**Teacher responsible:** Dr David Hendry

**Availability:** This course is compulsory on the MSc in Political Science and Political Economy. This course is available on the MPhil/PhD in Accounting, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange), MSc in Social Research Methods, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Applied Regression Analysis (MY552) and Fundamentals of Social Science Research Design (MY400).

Knowledge of multiple linear regression and some familiarity with generalised linear models, to the level of MY552 (MY452) or equivalent. Familiarity with notions of research design in the social sciences, to the level of MY400 (MY453) or equivalent.

**Course content:** This course provides an introduction to statistical methods used for causal inference in the social sciences. Using the potential outcomes framework of causality, topics covered include research designs such as randomized experiments and observational studies. We explore the impact of non-compliance in randomized experiments, as well as non-negligible treatment assignment in observational studies. To analyze these research designs, the methods covered include matching, instrumental variables, difference-in-difference, and regression discontinuity. Examples are drawn from different social sciences. The course includes computer classes, where standard statistical computer packages (Stata or R) are used for computation.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the LT.

**Formative coursework:** Exercises from the computer classes can be submitted for feedback.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
**MY459** Half Unit Not available in 2016/17

Special Topics in Quantitative Analysis: Quantitative Text Analysis

This information is for the 2016/17 session.

**Teacher responsible:** Prof Kenneth Benoit Col.8.11

**Availability:** This course is available on the MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Political Science and Political Economy and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is also available to research students as MY559.

**Pre-requisites:** Students must have completed Applied Regression Analysis (MY452).

**Course content:** The course surveys methods for systematically extracting quantitative information from text for social scientific purposes, starting with classical content analysis and dictionary-based methods, to classification methods, and state-of-the-art scaling methods and topic models for estimating quantities from text using statistical techniques. The course lays a theoretical foundation for text analysis but mainly takes a very practical and applied approach, so that students learn how to apply these methods in actual research. The common focus across all methods is that they can be reduced to a three-step process: first, identifying texts and units of texts for analysis; second, extracting from the texts quantitatively measured features - such as coded content categories, word counts, word types, dictionary counts, or parts of speech - and converting these into a quantitative matrix; and third, using quantitative or statistical methods to analyse this matrix in order to generate inferences about the texts or their authors. The course systematically surveys these methods in a logical progression, with a practical, hands-on approach where each technique will be applied using appropriate software to real texts.

Lectures, class exercises and homework will be based on the use of the R statistical software package but will assume no background knowledge of that language.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the LT.

**Formative coursework:** Exercises from the computer classes can be submitted for marking.

**Assessment:** Project (40%, 3000 words) and coursework (60%, 2000 words) in the ST.

---

**MY499**

Dissertation

This information is for the 2016/17 session.

**Teacher responsible:** Prof Jonathan Jackson Col.8.05 and Dr Alasdair Jones Col.8.12

**Availability:** This course is compulsory on the MSc in Social Research Methods. This course is not available as an outside option.

**Course content:** Students are required to write a 10,000 word dissertation on a topic within the field covered by their specialist subject and agreed with their supervisor.

**Teaching:** A series of around 4 dissertation seminars during MT and LT. The seminars cover methodological issues such as the literature review, sources of secondary quantitative data, topic guides for interviews, and sources of textual material. Students will be required to write a report where they apply the tools considered in the seminars to a topic of their choice.

**Formative coursework:** Each student will be required to give a short presentation outlining the subject of his/her dissertation and the proposed argument of the dissertation in a session organised for all students during ST.

**Assessment:** Dissertation (100%, 10000 words) post-summer term. The 10,000 word dissertation must be submitted via Moodle by Friday August 11th 2017

---

**MY465** Half Unit

Intermediate Quantitative Analysis

This information is for the 2016/17 session.

**Teacher responsible:** Prof Jonathan Jackson COLB.05

**Availability:** This course is compulsory on the MSc in Health, Community and Development, MSc in Organisational and Social Psychology, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available on the MSc in Management, MSc in Management (CEMS MIM) and MSc in Management (MiM Exchange). This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Participants should have studied introductory statistics or quantitative methods before, up to an introduction to descriptive statistics and basic statistical inference. Students with no previous studies in quantitative analysis should take instead Introduction to Quantitative Analysis (MY451).

Because of the overlaps between these courses, it is not possible to take both this course and either of Introduction to Quantitative Analysis (MY451) or Applied Regression Analysis (MY452) as assessed courses.

**Course content:** The course is intended for students with some (even if limited) previous experience of quantitative methods or statistics. It covers first a review of the foundations of descriptive statistics and statistical inference, in the context of the analysis of two-way contingency tables and comparisons of means between two groups. The main topic of the course is linear regression modelling and related methods, including scatterplots, correlation, simple and multiple linear regression, and analysis of variance and covariance. An introduction to binary logistic regression modelling is also included. The computer classes give hands-on training in the application of these statistical techniques. Class exercises and homework are carried out using the Stata or SPSS package, according to the student’s choice.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the MT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6. Online quizzes will be provided on Moodle to aid revision during the reading week.

**Formative coursework:** Students will be expected to produce 9 exercises in the MT.

**Indicative reading:** A course pack will be available for download online and for purchase as a hard copy.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period. This is an open-book unseen examination.

---
MY4M1 Foundations of Social Research 1

This information is for the 2016/17 session.

Teacher responsible: Dr Ben Lauderdale MT/Prof Jonathan Jackson LT (MY451), Dr Alasdair Jones (MY400) and Dr Flora Cornish MT/Dr Alasdair Jones LT (MY421).

Availability: This course is available on the MSc in European Studies (Research), MSc in International Political Economy (Research), MSc in International Relations (Research) and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course is designed to give students a good introduction to quantitative and qualitative methods and to acquaint them with the strengths and limits of different methodologies. The course has three main components:
1. MY451 (MY451M in Michaelmas Term or MY451L in Lent Term) in Introduction to Quantitative Analysis - this course is intended for students with no previous experience of quantitative methods or statistics. Students who have already studied statistics and data analysis should take MY4M2. Plus: 2. MY400 Fundamentals of Social Science Research Design 3. MY421 Qualitative Research Methods (MY421M in Michaelmas Term or MY421L in Lent Term).

Teaching: See separate course outlines.

Indicative reading: See separate course outlines.

Assessment: Examination by three pieces of assessed coursework (67%) and one two-hour paper (33%). Students registered on this course will submit assessed coursework covering MY400 (1000 words due in MT, 5000 due in ST), assessed coursework covering MY421 (2500 words) due in ST, and will take the exam paper MY4M1a (based on the MY451 syllabus) in ST.

MY4M2 Foundations of Social Research 2

This information is for the 2016/17 session.

Teacher responsible: Dr Benjamin Lauderdale (MY452) Dr Alasdair Jones (MY400)/ Dr Flora Cornish (MY421)

Availability: This course is available on the MSc in European Studies (Research), MSc in International Political Economy (Research), MSc in International Relations (Research) and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This programme is designed to give students a good introduction to quantitative and qualitative methods and to acquaint them with the strengths and limits of different methodologies. The course has three main components:
1. MY452 Applied Regression Analysis. This course is intended for students with some previous experience of quantitative methods or statistics, as described in the prerequisites for MY452. Students who have not previously studied quantitative methods or statistics should take MY4M1. The course can be taken either in MT (as MY452M) or in LT (as MY452L).
2. MY400 Fundamentals of Social Science Research Design
3. MY421 Qualitative Research Methods (either MY421M in Michaelmas Term or MY421L in Lent Term).

Teaching: See separate course outlines.

Indicative reading: See separate course outlines.

Assessment: Examination by three pieces of assessed coursework (67%) and one two-hour paper (33%). Students registered on this course will submit assessed coursework covering MY400 (1000 words due in MT, 5000 due in ST), assessed coursework covering MY421 (2500 words) due in ST, and will take the exam paper MY4M2a (based on the MY452 syllabus) in ST.

PH400 Philosophy of Science

This information is for the 2016/17 session.

Teacher responsible: Dr Ioannis Votsis

Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science, MSc in Philosophy of the Social Sciences and MSc in Social Research Methods. This course is not available as an outside option.

Pre-requisites: No pre-requisites.

Course content: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science, MSc in Philosophy of the Social Sciences and MSc in Social Research Methods. This course is not available as an outside option.

Pre-requisites: No pre-requisites.

Course content: Science is chock full of miraculous predictions, shocking revolutions, and unexpected results that few science fiction writers could have ever dreamed of. What makes science so special? This course is a tour of the philosophical underpinnings of modern science. No background in any science is needed for this course; everything you need to know will be covered.

The issues we will tackle are the following. Theory and Observation: Hume’s problem of induction and Goodman’s new riddle of induction, Popper’s falsificationism, underdetermination of theory by evidence, the positive instance account, Bayesianism. Theories and laws: the received view of theories, the semantic view of theories, the regularity view of laws, law idealism, laws as universals, the best systems account, instrumentalism. Explanation: The DN model of explanation, statistical explanation, causal explanation, unification. Intertheory relations: reductionism and pluralism. Realism versus Antirealism: Scientific realism and the no miracles argument, inference to the best explanation, antirealism and the pessimistic meta-induction, reductionist empiricism, constructive empiricism, the natural ontological attitude, entity realism, structural realism, Kuhn and scientific revolutions. Sociological approaches to science: Social constructivism, feminism. Causation: Hume’s, Mill’s, Mackie’s accounts of causation, counterfactual theories, probabilistic causality and manipulability accounts, transference accounts. Philosophy of a special science: Space and Time in Newton’s physics.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be expected to write two essays (two in MT and two in LT), submit a few short answers before each seminar, and participate in discussion in seminars.

Assessment: Exam (100%), duration: 3 hours) in the main exam period.

PH404 Not available in 2016/17

Scientific Revolutions: Philosophical and Historical Issues

This information is for the 2016/17 session.

Teacher responsible: Prof John Worrall

Availability: This course is available on the MSc in Economics and Philosophy, MSc in European Studies: Ideas, Ideologies and Identities, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is not available as an outside option.

Pre-requisites: None

Course content: The course examines a number of fundamental issues in philosophy of science, as they arise from instances of important theory-changes (so-called ‘scientific revolutions’) in the history of science. It is therefore by no means a ‘straight’ course in history of science: it looks at historical episodes to test and/or illustrate philosophical theses about science and its development.

1. The Copernican revolution: the switch from the Ptolemaic geocentric view of the world to the Copernican heliocentric one was probably the greatest revolution in human thought ever: What justified the switch? Was Ptolemaic theory definitively refuted by the data? Was Copernican theory simpler? Was the Church’s view
that Copernican theory should only be thought of as an instrument for calculating astronomical data purely theologically motivated or does it have some scientific rationale? What role was played in the eventual acceptance of the Copernican view by predictive success? Do we need to invoke social or other non-intellectual factors to explain why this ‘revolution’ occurred?

2. Galileo: Galileo and the telescope: are all observations ‘theory-laden’ and does this mean that there is a subjective element to all theory-choices? Galileo and the argument for his law of free fall: can theories be ‘deduced from the phenomena’?

3. The Newtonian revolution: What was the relationship between Newton’s theory and Kepler’s and Galileo’s laws? What does this tell us about theory-change in general?

4. The chemical revolution: What were Priestley and Lavoisier’s experiments, and what exactly lead scientists to supplant phlogiston by oxygen? What does this tell us about theory change in general? In particular, in what sense was the replacement of phlogiston by oxygen rational?

5. 19th Century revolutions in Optics: the switches from the corpuscular theory to the wave theory of light and from the wave theory to the electromagnetic theory. What do these cases of theory-change tell us about the twin theses of scientific rationality and scientific realism?

6. The Darwinian Revolution: This revolution certainly ranks alongside the Copernican one in terms of its impact on man’s view of herself. But debates about the scientific credentials of Darwin’s theory began immediately on the publication of Darwin’s work and continue to this day. Is Darwinian theory unfalsifiable (or even just one big tautology)? Can ‘scientific’ creationists explain everything that Darwin can?; What objections were raised by Darwin’s critics to particular aspects of Darwinian theory? Were these valid objections and, in so far as they were, have they now been resolved?

Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Formative coursework: 2 x 1500 word essays per term.

Recommended reading: The central text for the first part of the course is T S Kuhn, The Copernican Revolution, Harvard University Press. The central text on the Darwinian revolution will be P Kitcher, Abusing Science, the Case Against Creationism. MIT Press. There will be lecture slides on each topic including (i) a list of essential reading and suggestions for further reading and (ii) ‘study questions’ to guide your thought. Aside from the above reading for the section of the course on the Copernican revolution and the Darwinian revolution, reading for particular topics will be in the form of articles and selections from books. These will be made available electronically on Moodle.

Assessment: Exam (67%, duration: 2 hours) in the main exam period.

Essay (33%, 2000 words) in the ST.

---

PH413

Philosophy of Economics

This information is for the 2016/17 session.

Teacher responsible: Ms Johanna Thoma LAK 4.02

Dr Campbell Brown

Availability: This course is available on the MRes in Economics (Track 1), MRes/PhD in Economics, MSc in Economics and Philosophy, MSc in European Studies: Ideas, Ideologies and Identities, MSc in Philosophy and Public Policy, MSc in Philosophy of Science, MSc in Philosophy of the Social Sciences and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Economics A (EC100).

Course content: This course provides a philosophical discussion of the methods and normative commitments of contemporary economics.

The first term will focus on economic methodology and the foundations of utility theory, with an eye to important current debates in economics. We will discuss questions such as: What is utility, and how do economists measure it? Does evidence of widespread ‘irrationality’ from behavioural economics undermine standard microeconomic theory? Can idealised models teach us anything about real-world phenomena? If yes, how? How should we measure important economic variables, such as poverty? How do we best find out what interventions work in development? Does macroeconomics need microfoundations? Is the economics profession to blame for its failure to predict the financial crisis? The second term will focus on welfare economics, and the ethical assumptions and implications of economics. We will cover questions such as: Is getting what you want always good for you? Can you be harmed by something if you never know about it? Does it make sense to say that eating pizza gives me more happiness than going to the movies gives you? Is it possible to combine the preferences of individuals into an overall ‘social’ preference? Does it matter if the well-being of some people is less than that of others? What are the moral limits of markets? How should we resolve collective action problems? What is a fair distribution of the benefits from
PH415 Philosophy and Public Policy

This information is for the 2016/17 session.
Teacher responsible: Prof Michael Otsuka LAK 3.03
Dr Campbell Brown
Ms Johanna Thoma LAK 4.02

Availability: This course is compulsory on the MSc in Philosophy and Public Policy. This course is available on the MSc in Economics and Philosophy and MSc in Public Policy and Administration. This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course offers critical reflection on the design and evaluation of public policies from the perspective of moral and political philosophy. To this end, we study a range of theories and concepts that are used in policy evaluation. We often discuss and evaluate them by focusing on specific policy proposals. The course addresses questions such as the following. Is torture ever justified? Do prosperous countries have a right to close their borders to immigrants from poor countries? Should pornography be protected by the right to free speech? Can the state legitimately restrict the use of drugs? Should higher education be financed by student loans or general taxation? Should we free to act as we choose so long as we do not harm others? Is killing morally worse than letting die?

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 2 essays and 1 presentation in the MT and 1 essay and 1 exercise in the LT.

Indicative reading: A detailed list of readings will be available on Moodle. The following is an indicative sample of readings that may be discussed in the course.

- John Stuart Mill, ‘On Liberty’
- Peter Singer (2011), Practical Ethics, 3rd ed.

Additional readings will be available on Moodle.

Assessment: Exam (65%), duration: 2 hours) in the main exam period.

PH416 Philosophy, Morals and Politics

This information is for the 2016/17 session.
Teacher responsible: Professor Michael Otsuka and Dr Campbell Brown

Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of the Social Sciences and MSc in Political Theory. This course is available as an outside option to students on other programmes where regulations permit.

Course content: Michaelmas Term: Morals (Michael Otsuka weeks 1-5; Campbell Brown weeks 6-10)

In weeks 1-5 of MT, Michael Otsuka will discuss the following topics in normative ethics regarding the morality of harming and saving from harm: (i) Should one save the greater number from harm?; (ii) Can contractualism justify the saving of the greater number when and only when we ought to; (iii) Should one be solely concerned with how badly off people are, or should one also care about inequality?; (iv) Does it make a moral difference that a person is less well off than she could have been? (a.k.a. the ‘non-identity problem’); (v) Why is it permissible to divert a tram so that it runs over one rather than five, whereas it is impermissible to kill a single individual in order to redistribute his vital organs to save the lives of five? (a.k.a. ‘the trolley problem’).

Weeks 6-10 of MT, taught by Campbell Brown, will provide an introduction to metaethics. Whereas in normative ethics we ask what actions are right or wrong, in metaethics we ask what it means to say or think that an action is right or wrong. Among the questions we will address are: (i) Can we decide what moral judgements (e.g., that slavery is wrong) are we attempting to describe on the basis of erroneous metaphysical presuppositions? (ii) What do we mean when we say that some normative judgements are better than others? (iii) Can contractualism justify the saving of the greater number when and only when we ought to?; (iv) Should one be solely concerned with how badly off people are, or should one also care about inequality?; (v) Does it make a moral difference that a person is less well off than she could have been? (a.k.a. the ‘non-identity problem’).

Lent Term: Politics (Michael Otsuka all ten weeks)

Lent Term will be devoted to the topics of justice and legitimacy. We will begin with the following questions: What does justice require? Does it demand the redistribution of income from rich to poor in order to create a more egalitarian society? We’ll discuss the answers to these questions that John Rawls and Robert Nozick have provided. Rawls argues that such taxation is just, since it would be endorsed under fair conditions in which people are deprived of knowledge of whether they happen to be rich or poor, talented or unskilled. Nozick argues that redistributive taxation is unjust because on a par with forced labour. In addition, we’ll consider their answers to the following questions: When it is unjust to constrain the liberties of some in order to prevent harm to others? What sort of equality of opportunity for jobs and university places does justice require? Are people entitled to compensation for historical injustices? What are the just conditions of acquisition of unowned natural resources? In answering the last question, we will also draw on the writings of John Locke, whose related views in his Second Treatise on the legitimacy of government we will also consider, along with the Locke-inspired views of Thomas Jefferson.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT.

Seminars PH416 20 x one-and-a-half hours (MT, LT); Students are strongly advised to attend PH214 Morality and Values lectures, 20 x one hour (MT, LT).

Formative coursework: Students will be required to submit three 2000 word formative essays.

Indicative reading: John Taurek, ‘Should the Numbers Count?’

Students will be expected to produce 2 essays and 1 presentation in the MT and 1 essay and 1 exercise in the LT.

---

**PH418**

**Dissertation Seminar - Economics and Philosophy**

This information is for the 2016/17 session.  
**Teacher responsible:** Prof Richard Bradley LAK.203  
**Availability:** This course is compulsory on the MSc in Economics and Philosophy. This course is not available as an outside option.  
**Course content:** The course is intended to develop the ability to make philosophical arguments, to write good philosophical essays, and to present ideas effectively. It covers topics in the philosophy of economics and will serve to prepare students for research and for writing their dissertation.  
**Teaching:** 10 hours of seminars in the MT. 10 hours of seminars in the LT.  
**Formative coursework:** Students will be expected to produce 1 presentation in the MT, 1 presentation in the LT and 1 essay in the ST.  
**Indicative reading:** Readings will be chosen by the seminar participants.  
**Assessment:** This course is not assessed.

---

**PH419**

**Set Theory and Further Logic**

This information is for the 2016/17 session.  
**Teacher responsible:** Prof David Makinson LAK3.06  
**Redei, Miklos**  
**Availability:** This course is available on the MPhil/PhD in Philosophy of the Social Sciences, MSc in Economics and Philosophy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit.  
**Pre-requisites:** Introductory level logic.  
**Course content:** The aim of the course is to help students of philosophy become familiar with naïve set theory, classical logic, and modal logic. From set theory, the course covers both ‘working’ set theory as a tool for use in formal reasoning, and some ‘conceptual’ set theory of philosophical interest in its treatment of infinite sets, cardinals and ordinals. From classical logic, the course deals with propositional and first-order inference from both semantic and axiomatic viewpoints, with also some material on first-order theories including celebrated theorems of Tarski and Godel. The material on propositional modal logic presents the main axiomatic systems and their analysis using relational models. Throughout, a balance is sought between formal proof and intuition, as also between technical competence and conceptual reflection.  
**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.  
**Formative coursework:** In each term, students are required to submit solutions to two problem-sets, and write one 1,500 word essay on a topic from a list or proposed by the student and approved by the instructor.  
**Indicative reading:** Textbooks: Makinson, David 2012 Sets, Logic and Maths for Computing, 2nd edition. Springer; Cameron, Peter 1999 Sets, Logic and Categories. Springer; Sider, Theodore 2010 Logic for Philosophy. Oxford University Press. Remark: Specific sections of these three textbooks that are relevant to the weekly topics will be indicated on the Moodle page for the course.  
**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**PH421**

**Dissertation Seminar - Philosophy and Public Policy**

This information is for the 2016/17 session.  
**Teacher responsible:** Dr Susanne Burri  
**Availability:** This course is compulsory on the MSc in Philosophy and Public Policy. This course is not available as an outside option.  
**Course content:** Aim: This course is intended to develop the ability to write a structured philosophical essay and serves to prepare students in the MSc Philosophy and Public Policy for dissertation writing.  
**Teaching:** 10 hours of seminars in the MT. 20 hours of seminars in the LT.  
**Formative coursework:** Presentation of a past MSc dissertation Presentation of own dissertation as work in progress.  
**Indicative reading:** None.  
**Assessment:** This course is not assessed.

---

**PH422**

**Dissertation Seminar - Philosophy of Social Science**

This information is for the 2016/17 session.  
**Teacher responsible:** Prof Jason Alexander LAK 5.01  
**Availability:** This course is compulsory on the MSc in Philosophy of the Social Sciences. This course is not available as an outside option.  
**Course content:** The course is intended to develop the ability to make philosophical arguments and to write structured philosophical essays. It will serve to prepare students for research and writing their dissertation. In Michaelmas term, the first few meetings will cover philosophical and argumentative writing, with a number of in-class exercises. Then we will discuss the structure and content of an MSc dissertation in Philosophy and the grading rubric used for marking dissertations. The remainder of Michaelmas term will cover possible thesis topics in the philosophy of social science, with group presentations. In Lent term, seminars will cover topics that are chosen by MSc students for their theses.  
**Teaching:** 10 hours of seminars in the MT. 20 hours of seminars in the LT.  
**Formative coursework:** A number of assignments whose completion will aid the writing of the dissertation will be set over the course of MT and LT.  
**Indicative reading:** Textbooks: Makinson, David 2012 Sets, Logic and Maths for Computing, 2nd edition. Springer; Cameron, Peter 1999 Sets, Logic and Categories. Springer; Sider, Theodore 2010 Logic for Philosophy. Oxford University Press. Remark: Specific sections of these three textbooks that are relevant to the weekly topics will be indicated on the Moodle page for the course.  
**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.
PH423  Not available in 2016/17
Scientific Method and Policy

This information is for the 2016/17 session.
Teacher responsible: Dr Katie Steele
Availability: This course is compulsory on the MPhil/PhD in Philosophy of the Social Sciences. This course is available on the MSc in Economics and Philosophy, MSc in Public Policy, MSc in Philosophy of Science, MSc in Philosophy of the Social Sciences, MSc in Management, and Governance, MSc in Risk and Finance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: It is sometimes argued that “business ethics” is a contradiction in terms — that business is about making money, and that those who think that it is also about being nice to each other are naive do-gooders. What people who argue in this way don’t usually realise is that they are in fact doing business ethics while they are in the process of denying that it exists. To assert that business is about making money is to claim that when it comes to business, everyone should, or is at least permitted to, pay attention only to their personal gain. This statement may be correct, or it may be false. But it is definitely an ethical statement, simply because it makes claims about how people should and shouldn’t behave.

In this introductory course to business ethics, we look at different types of ethical theories, and we apply them to problems that tend to arise in business contexts. The primary aim of the course is not to present you with solutions or dogmatic guidance, but to teach you to think critically, so that towards the end of the course, you will no longer be satisfied with simple answers to difficult problems. Participating in this course will help you sharpen your analytical skills. You will also become more experienced at expressing your thoughts clearly and concisely, both in writing and in discussion.

Topics discussed in the context of this course include:
- What are the moral responsibilities of managers? Is Milton Friedman correct that the main purpose of business is to increase profits?
- What, if anything, is wrong with exploitation? If sweatshop workers voluntarily choose to work under bad conditions because it is their best shot at having a decent life, isn’t it wrong to outlaw sweatshop labour and rob the workers of this opportunity?
- If you want to live a morally good life, what career should you pursue? Is William MacAskill right that you should consider working for a hedge fund, and then give a large part of your earnings away to charities?
- Do employers have a duty to promote employee happiness? According to the ancient Greek philosopher Aristotle, happiness is the ultimate goal of all human beings. But is everyone responsible for their own happiness, or are employers required to make their employees happy as well?
- To what extent are the large pay packages that CEOs receive justified? What makes a wage fair?

Required readings amount to about two to three papers per week.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT.

Formative coursework: One essay of 2000 words. Students will also be given the opportunity to write a mock exam to which they will receive feedback.

Assessment: Exam (67%, duration: 2 hours) in the main exam period.

Essay (33%, 2000 words) in the ST.

PH425  Half Unit
Business and Organisational Ethics

This information is for the 2016/17 session.
Teacher responsible: Dr Susanne Burri
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Economics and Philosophy, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management of Information Systems and Digital Innovation, MSc in Management, Organisations and Governance, MSc in Philosophy and Public Policy, MSc in Philosophy of Science, MSc in Philosophy of the Social Sciences, MSc in Public Management and Governance, MSc in Risk and Finance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course is available on the CEMS Exchange, IMEX Exchange, MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Economics and Philosophy, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MiM Exchange), MSc in Management of Information Systems and Digital Innovation, MSc in Management, Organisations and Governance, MSc in Philosophy and Public Policy, MSc in Philosophy of Science, MSc in Philosophy of the Social Sciences, MSc in Public Management and Governance, MSc in Risk and Finance and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This information is for the 2016/17 session.
Teacher responsible: Dr Jonathan Birch
Availability: This course is available on the MSc in Economics and
Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: None.

Course content: This course examines, from a philosophical perspective, the ways in which recent developments in genetics and neuroscience challenge our conceptions of what we are — and what we could become.

Topics covered include:

**Human nature:** Does the concept of ‘human nature’ have any biological basis? Can we distinguish between those traits which are part of ‘human nature’ and those which are not? And is ‘human nature’ fixed, or can it be altered by technological means?

**Sex and gender:** Are ‘sex’ and ‘gender’ the same thing? Are gender categories natural or social? Are there robust psychological differences between men and women? If so, are they explained by genes or by culture? And should we reconcile ourselves to these differences, or should we try to eliminate them?

**Race:** Do races exist? Is there any objective biological basis for racial categorization, or are races socially constructed? Does the concept of ‘race’ have a future, or will human societies soon become racially undifferentiated?

**Free will and responsibility:** Has neuroscience debunked the notion of ‘free will’? If so, can we still be held responsible for our actions? Should neuroscientific data be used to predict—and prevent—wrongdoing?

**Right and wrong:** Has neuroscience shown that morality is more a matter of emotion than reason? Can we use neuroscience to help us choose between ethical theories, and to help us improve our own behaviour?

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. Lectures: Weeks 1 - 10

Seminars: Weeks 2 - 11

**Formative coursework:** One Essay (2000 words)

**Indicative reading:** Suggested introductory readings:

**Assessment:** Exam (67%, duration: 2 hours) in the main exam period.

**Essay (33%, 2000 words).**

**PH430** Half Unit

**Emotion, Cognition and Behaviour:**

**Science and Policy**

This information is for the 2016/17 session.

Teacher responsible: Dr Bryan Roberts LAK 5.03

Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: There are no prerequisites for this course; it is accessible to students of all backgrounds.

Course content: Does the universe have an edge? Is time travel possible? What is a black hole, and in what sense are space and time described by “geometry”? The modern theory of spacetime introduced by Einstein provides a precise framework in which to ask these questions. This course makes their analysis accessible to everyone.

Students will have the opportunity to engage with Einstein’s theories of relativity, to use them to analyse philosophical problems, and to examine their philosophical and practical implications. The topics of the course will include: 1) Relativity: Slowing clocks, shrinking rods, and the relativity of simultaneity; 2) Spacetime: Thinking in higher dimensions, faster-than-light travel, and other philosophical issues; 3) Non-Euclidean thinking: Beyond the geometry of Euclid, measuring curvature, gravity as curved spacetime; 4) Cosmology: Our place in the universe, big bang cosmology, time travel; 5) Limits of space and time: Geometry, black holes, singularities.

Students will learn to apply these conceptual tools to the analysis of space, time and gravity, as well as to formulate and argue for their own perspectives on the philosophical implications of relativity theory. One is often faced with unsubstantiated declarations about the implications of Einstein’s theories, by both scientists and non-scientists. This course will equip non-scientists with the conceptual tools needed to critically analyse these claims for themselves. It will also provide students with the tools needed to discuss the philosophy of space and time from a modern perspective.

Einstein for Everyone requires absolutely no background in physics or maths. Students are only required to learn two equations, which really cannot be omitted: E=mc2, and Einstein’s equation! However, students with a background in physics will also benefit from the conceptual development and the philosophical problems posed in this course.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

**Formative coursework:** One essay draft, plus weekly problem sets and short discussion questions submitted through Moodle and for review in classes.

**Indicative reading:** Suggested introductory reading:

**Assessment:** Exam (67%, duration: 2 hours) in the LT week 0.

**Essay (33%, 2000 words).**
PH431 Half Unit
Physics and the City: From Quantum Jumps to Stock Market Crashes

This information is for the 2016/17 session.
Teacher responsible: Dr Bryan Roberts LAK 5.03
Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: None.
Course content: One of the most surprising discoveries of the 20th century is that many things can be described by tiny atoms moving randomly about. Thinking about the physical world in this way led to the invention of modern particle physics. Thinking about the financial world in this way led to modern financial modeling. This course is about some of the philosophical issues underlying the relationship between physics and finance.
Students in this course will explore some of the most important conceptual and philosophical questions underlying physics and finance, like: How are assumptions about randomness compatible with observed forms of determinism? What does it mean to be an atom? How does the quantum world differ from the everyday world? What explains why physical models have unexpected applications in finance? To what extent do such applications help to underpin how the prices of financial instruments are set?
The course will proceed at a conceptual level that is suitable for students of all backgrounds. We begin by introducing the concept of atoms and of the random walk, and investigate the role it played in the development of statistical mechanics and quantum physics. We then explore how random walks and other models used in physics apply to understand financial ideas like rates of return, Black-Scholes option pricing, and stock market crashes, analysing the philosophical issues underlying this practice along the way.
Teaching: 10 hours of lectures and 15 hours of seminars in the LT.
Formative coursework: One essay draft, plus weekly problem sets based on lecture material; Stephan Chambers, Marshall Institute Director, will arrange and chair the bi-weekly discussion with leaders in philanthropy.
Assessment: Exam (67%), duration: 2 hours) in the LT week 0.
Essay (33%, 1500 words) in the Week 11.

PH432 Half Unit
Effective Philanthropy: Ethics and Evidence

This information is for the 2016/17 session.
Teacher responsible: Prof Luc Bovens and Mr Stephan Chambers
Professor Bovens will deliver the weekly lectures and the seminars based on lecture material; Stephan Chambers, Marshall Institute Director, will arrange and chair the bi-weekly discussion with leaders in philanthropy.
Availability: This course is available on the MSc in Economics and Philosophy, MSc in International Development and Humanitarian Emergencies, MSc in Philosophy and Public Policy, MSc in Philosophy of Science, MSc in Philosophy of the Social Sciences and MSc in Social Policy and Development: Non-Governmental Organisations. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: None.
Course content: The course will address key questions in philosophy and social science concerning philanthropy, including:
• Which motives actually drive philanthropy and which motives should drive it?
• What is the nature and extent of our moral obligations to philanthropy?
• Is the proper aim of philanthropy to 'do the most good'?
• How should the good aim to be conceived of and measured?
• How, if at all, should people's rights and the risks of causing harm constrain the pursuit of the good?
• What are a charitable organisation's duties of accountability towards its stakeholders (e.g. donors and employees) and those whose lives it aims to affect?
• Which career and personal choices should one make in order to further philanthropic aims?
• Which moral principles govern the relationship between the state and private philanthropy? Between corporations and charities?
Learning aims:
• Students will learn about key contemporary debates in the ethics of philanthropy through critical engagement with the philosophical literature.
• Students will learn to employ both social scientific research and normative (ethical and methodological) reasoning to assess philanthropic organisations.
• Students will develop independent research skills. In particular, they will learn how to search for relevant social scientific data and cases.
• Students will develop skills in independent and original philosophical questioning and argumentation. In particular, they will be encouraged to set their own research question and develop independent and original perspectives on existing philosophical theories.
• Students will learn team research for a joint summative research presentation.
• bi-weekly seminars
Teaching: 10 hours of lectures, 5 hours of seminars and 10 hours of seminars in the LT.
1 hour lecture per week (x 10), fortnightly 1 hour additional ‘philanthropy in practice’ guest lecture and seminar with leading figures in philanthropy organised by the Marshall Institute; seminars; 1 hour per week (maximum of 15 per seminar).
Formative coursework: Students will be expected to produce 1 essay and 1 presentation in the LT.
The formative presentation is a team presentation based on a case study.

Indicative reading:
Luc Bovens, ‘Why I am not an effective altruist’ (manuscript)

Assessment: Exam (65%, duration: 2 hours) in the main exam period. Essay (25%, 2000 words) in the ST. Presentation (10%) in the LT.

Course content: The course is intended to develop the ability to construct sharp analytic philosophical arguments and to write structured philosophical essays. It will help students to choose the topic of their dissertation, help with how to go about researching the topic and how to write the dissertation (by presentation and criticism of preliminary drafts). The course starts with reviewing the structure and content of an MSc dissertation in Philosophy, the requirements of, and grading scheme used for marking dissertations. This is followed by presentations by students on topics intended as possible topics of their dissertations. The presentations will be extensively discussed in the seminar by fellow students and in subsequent private meetings with the seminar leader. In the Lent Term each student will read two former MSc dissertations with topics close to the interest of the student, and each student will report in the seminar on the merits and weaknesses of the selected works, trying to understand why the chosen dissertations received the marks they did. In the final part of the seminar students will again give presentations on the progress of their research.

Teaching: 10 hours of seminars in the MT. 15 hours of seminars in the LT.

Formative coursework: A number of assignments - at least one per term - whose completion will aid the research into and writing of the dissertation will be set.

Assessment: The course is not assessed.

---

PH456
Rationality and Choice
This information is for the 2016/17 session.

Teacher responsible: Prof Richard Bradley

Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course examines the theory of rationality and rational decision making. It is in two parts (i) Probability and Decision: Probabilistic thinking, different interpretations of probability, decision making under risk, ignorance and uncertainty, the measurement of belief and desire, paradoxes of expected utility theory. (ii) Game Theory and Social Choice: Solution concepts for games, backward induction and hypothetical reasoning, bargaining theory, Arrow’s theorem, the Gibbard-Satterthwaite theorem, interpersonal comparability and Utilitarianism.

Teaching: 15 hours of lectures and 10 hours of seminars in the MT. 15 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will submit a piece of written work each term and/or complete a number of exercises.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

---

PH458
Half Unit
Evidence and Policy
This information is for the 2016/17 session.

Teacher responsible: Prof John Worrall LAK 3.02

Availability: This course is compulsory on the MPhil/PhD in Philosophy of the Social Sciences. This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available with permission as an
outside option to students on other programmes where regulations permit.

Although the emphasis throughout will be on ideas rather than formal techniques and although all the ideas will be explained simply and intuitively, some of the evidence relevant for policy is evidence about probabilities and so the course will involve issues about the correct interpretation of probability and statistics.

Although no detailed formal manipulations will be required, students will need to feel happy thinking about the intuitive ideas underlying probability and statistics.

Course content: Good policy decisions - whether concerning climate, conservation, international development, poverty, education, medicine, health, or whatever - require a rationality-based view of whether the proposed policy will (or is likely to) bring about the intended outcome: will reducing CO2 emissions reduce global warming? will mass mammography decrease deaths from breast cancer? will reducing class sizes enhance scholastic achievement?

The obvious suggestion is that such views are rationally-based just in case they are based on evidence. Reducing class sizes, for example, is a good policy for enhancing scholastic achievement just in case there is evidence that the policy works. But what counts as evidence? What happens when different kinds of evidence pull in opposite directions? Are certain types of evidence more telling than others? And if so, why? Does evidence that the policy works in one country mean that we should have confidence that it will work in another country? These are the central issues addressed in this course. It might seem initially that only experts, only scientists involved in the field, can tell what counts as good evidence. But this is not true. You can learn how to be ‘evidence-savvy’, how to ask the right questions about evidence, without needing to know the detailed science involved.

Very few, if any, policies are guaranteed always to work in every member of the population to which they are applied. Nearly always the issue is whether the policy will increase the probability that the desired outcome will occur: is it probable that mass mammography will reduce breast cancer deaths? is it probable that reducing CO2 emissions to extent x will decrease global warming to extent y? will making drug D for condition C available on the NHS have a positive effect on the average outcome (i.e. not for every patient suffering from C but probabilistically)? So an important part of the course will be involved with probabilities, statistics, risk-assessment and the like.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

A detailed reading list will be provided at the beginning of the course via an electronic coursepack organised by the Library.

Assessment: Exam (67%, duration: 2 hours) in the main exam period.

Essay (33%, 2000 words) in January.

PH499

Dissertation

This information is for the 2016/17 session.

Teacher responsible: Prof Jason Alexander, Dr Susanne Burri, Prof Richard Bradley and Prof Miklos Redei

Availability: This course is compulsory on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is not available as an outside option.

Course content: Students are required to write a 10,000-word dissertation (7,000 for MSc Economics and Philosophy) on a topic within the field covered by their course of study and approved by the Department of Philosophy, Logic and Scientific Method.

Assessment: Dissertation (100%, 10000 words) in the LT.

The course is assessed 100% by Dissertation. Dissertations must be submitted on a specified date in late August in the academic year registered. (Part-time students are required to submit their dissertations in the August of their second year of part-time registration). All details are given in the Departmental course booklets.

This information is for the 2016/17 session.

Teacher responsible: Prof Sandra Jovchelovitch QU 3.25

Availability: This course is compulsory on the MSc in Social and Cultural Psychology. This course is available on the MPhil/PhD in Social Psychology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Availability as an outside option is also dependent on numbers.

Course content: Selected topics in cultural and modern social psychology. The interface mind, society and culture, with a core focus on: 1) the relationship individual-society and 2) culture as a universal and as a particular context for human cognition, emotion and behaviour. In addition: cultural transmission; ontogenesis and sociogenesis; intersubjectivity, perspectivity, thought and languague; action and joint intentionality; mediation and artefacts; culture and the cross-cultural; global identities; intergroup relations; self and community; theory and research relevant to different fields of application including communication, education, racism and multiculturalism, health community development, social exclusion and disadvantage, mass media, amongst others. Topics are explored at different levels of analysis of social and cultural psychology: ontogenetic (individual self); sociogenetic (social interaction, inter-group relations); phylogenetic (evolutionary history of homo sapiens). Central to the syllabus is to sensitise and train students to understand and manage cultural and societal variation in cognition, emotion and behaviour. Please note that fields of application and applied content may vary depending on faculty research.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. Students’ taking PS400 will also be required to attend PS443A lectures, 10 x 120 mins (MT), and 9 x 60 mins discussion groups.

Formative coursework: Students will be expected to produce 1 essay in the MT.

In addition, reading lists on specific topics will be distributed during the course.

Assessment: Exam (25%, duration: 1 hour) in the LT week 0.

Essay (75%, 5000 words) in the MT.
Organisational Social Psychology

This information is for the 2016/17 session.

Teacher responsible: Dr Tom Reader QUE.3.10 and Dr Lucia Garcia QUE.3.23

Availability: This course is compulsory on the MSc in Organisational and Social Psychology. This course is available on the MPhil/PhD in Social Psychology and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course addresses both the social psychology of organisations and social psychological processes within organisations. It also provides multidisciplinary coverage of the organisational contexts in which social psychologists may work in a variety of professional domains. A basic familiarity with social psychological methods is assumed, but their application within organisational processes and contexts will be examined in detail within the course. Issues and techniques in organisational analysis, discourse, decision-making and change management are covered with emphasis on their social psychological aspects.

Lectures/seminars in the MT: These will cover key social psychological concepts and theories and their application to the understanding of organisations and the implementation of change processes. The specific topics covered include: 1) Introduction: critique of the tradition and logic underlying organisational psychology; history and frameworks in organisational analysis; “Scientific” management; Taylorism and Fordism; the Human Relations movement and the Socio-technical approach; 2) Frameworks for analysis: for example, the cultural image of organisations; culture and identity in organisations; power, knowledge and organisation; 3) People organising: for example, motivation; work groups and teams; decision-making; leadership; networking and collaborative work; 4) Implications for practice: for example, managing organisational change.

Professional Seminar Series in the MT: These will centre on discussion of practical and research applications in domains where organisational social psychological investigation and analysis may play a leading role. Each topic will be presented by an external expert working practically in the domain.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. Students taking PS404 will also be required to attend PS443A lectures 10 x 120 minutes (MT) and seminars/discussion groups 9 x 60 minutes (MT).

Formative coursework: Formative essay to be submitted in MT.

Assessment: Exam (25%, duration: 1 hour) in the LT week 0.

Essay (75%, 5000 words) in the MT.

Political Psychology of Intercultural Relations

This information is for the 2016/17 session.

Teacher responsible: Dr Shose Kessi

Availability: This course is available on the MSc in Health, Community and Development, MSc in Organisational and Social Psychology, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students from all departments may attend subject to numbers, their own degree regulations and at the discretion of the teacher responsible

Course content: The course demonstrates the importance of a Political Psychological perspective for the understanding of intercultural relations in general, with a particular focus on multiculturalism, politised identities, ideologies of nationalism, racialised poverty, institutionalised discrimination and intercultural dialogue. The central issues we shall examine across an array of contexts are: what is the connection between politics and psychology within everyday encounters; what is the relevance of politics in intercultural relations and for systems of everyday knowledge about belonging, nationhood and cultural communities; what are the psychological consequences of exclusion, discrimination and inequality; what are the psychological processes involved in systems of social and political change? Theories of social representations, identity, discourse, contact, acculturation, community resilience and reconciliation shall be covered. Lecturers aim to achieve a balance between theoretical and applied issues, in the interests of critically investigating the ways in which conceptual tools can enhance our own understanding of intercultural relations and systems of inequality, and also contribute to broader social and political debates. We aim to establish an account of intercultural relations that connects the political (the ideological, the structural, the discursive) and the psychological (identity, representation and agency). We apply this critical political psychological account of production and consequences of cultural difference to the contexts of politics, community, education and everyday life in general, and examine the possibilities for productive intercultural contact, dialogue and engagement.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: A written assignment (maximum 1000 words). This will consist of an outline and short section of the summative assignment.

Assessment: Essay (90%, 3000 words) and presentation (10%) in the LT.
PS410  Half Unit
Social Representations
This information is for the 2016/17 session.
Teacher responsible: Prof Sandra Jovchelovitch QUE.3.25
Availability: This course is available on the MSc in Culture and Society, MSc in Organisational and Social Psychology, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course focuses on social representation as a theory in social and cultural psychology and as phenomena in social life. It explores concepts, empirical studies and fields of application of social representations. The course aims to equip students with in-depth understanding of the production, transformation and contestation of representations in public spheres. Through an examination of concepts and key studies in the field, the course explores the dynamics of social thinking and the power of representations to construct meanings and social realities. It highlights process of communication and contestation between different knowledge systems and the dynamics of social change. The course covers: 1) origins and theoretical roots of social representations in the field of socio-cultural psychology and situated cognition; 2) processes and functions of social representation, including dialogicality, cognitive polyphasia, relating to the unfamiliar, semantic enablers and barriers, and the future of common sense vis-a-vis systemic encroachment and artificial intelligence; and 3) ongoing research on how communities think and the transformation of common sense in contemporary societies, in areas such as self and community, cultural encounters/cultural conflict, health, professional practices, urban transformations, social exclusion (these can vary depending on research at hand).
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: An essay plan of not more than 500 words is required.
Assessment: Coursework (100%, 3000 words) in the ST.

PS411  Half Unit  Not available in 2016/17
Current Communication Research
This information is for the 2016/17 session.
Teacher responsible: Prof Martin Bauer COL.804
Availability: This course is available on the MSc in Culture and Society, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social Research Methods, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course content is changes every year. It can either be a full thematic course or a collection of current research topics, and will involve contributions of staff members from the Institute of Social Psychology and of visiting academics to the institute. The idea is ‘research-led teaching’ and to offer an opportunity to bring front-line communication research into the class room.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.
Indicative reading: Indicative readings will be made available during MT.
Assessment: Essay (100%, 3000 words) in the ST.

PS415  Half Unit
Social Psychology of Economic Life: Advanced Topics
This information is for the 2016/17 session.
Teacher responsible: Dr Frederic Basso, QU.3.14
Availability: This course is available on the MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social Research Methods, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course takes the position that social psychology is the key to understanding real-world economic life by taking in account cognitive, affective and social processes. Main concepts: analytic/experiential systems in decision-making, metaphors, images, stories/storytelling, self/extended self in consumption, dramaturgy/staging, social roles, face-to-face interactions, emotional labour/dissonance, gift economy, sharing economy, social group (inclusion/exclusion), stigma, social norms, nudging, disenchantment of the economic world, post-modern hyper-realities, experience economy, resistance to persuasion (inertia, scepticism, reactance), resistance to consumption (avoidance, minimisation, boycott/active rebellion).
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.
Indicative reading: Reading lists will be provided for each topic, the following are of general use; S E G Lea, R M Tarpy & P Webley, The Individual in the Economy, Cambridge University Press, 1987; A Lewis, P Webley & A Furnham, The New Economic Mind: The social psychology of economic behaviour, Harvester, 1995.
Assessment: Essay (100%, 3000 words) in the ST.

PS418  Half Unit
Health Communication
This information is for the 2016/17 session.
Teacher responsible: Dr Jennifer Sheehy-Skeffington QUE.3.20
Availability: This course is available on the MSc in Gender,
Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Health, Community and Development, MSc in Media, Communication and Development, MSc in Organisational and Social Psychology, MSc in Population and Development, MSc in Psychology of Economic Life, MSc in Social Research Methods, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This courses centres on the application of social psychology to the challenge of health communication in a global context. While considering both health and communication in their widest sense, it focuses primarily on the practice of health promotion and its conceptual underpinnings. We will begin with an introduction to health psychology and expert-led approaches to health communication, before moving on to consider health and illness in their wider social and societal context. The final section of the course considers community development and social justice approaches that put empowerment and participation at their centre, enabling us to close with a critical yet hopeful appraisal of the future of health communication. Throughout, we will view the individual as a bio-psycho-social system, located within families, workplaces, communities, local and global cultures, unequal power hierarchies, and rapidly changing social settings. Through lectures, readings and seminar discussions, we will encounter theoretical debates about determinants of health and health-related behaviours, the nature of health communication, and the processes through which communication impacts on health. At the same time, we will consider the implications of these debates for health promotion campaigns and policies, learning about real-world examples through guest lectures, and gaining hands-on experience in designing and critiquing health communication campaigns through practical exercises.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Assessment: Essay (100%, 3000 words) in the LT.

PS428 Half Unit
Knowledge Processes in Organizations

This information is for the 2016/17 session.

Teacher responsible: Dr Lucia Garcia-Lorenzo QUE.3.23
Availability: This course is available on the MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Organisational and Social Psychology, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: PS428 teaches on theory and research from the field of social and organisational psychology. We will cover past and present theories of group dynamics by introducing concepts used by psychologists to understand and improve group behaviour. It applies group dynamics theories to explain real-life examples and experiences. Students will be encouraged to take a critical perspective, and to consider how the principles taught in the course can be applied to a variety of social or organisational scenarios. The course will cover following topics: a) Why groups? b) The origins of group research; c) Influence and power; d) Groups and change; e) Crowds and collective behaviour; f) intra- and intergroup dynamics; g) How to manage a diverse group? h) Temporary and fragmented work contexts; i) Group performance and decision making; and j) Groups and health.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Assessment: Essay (100%, 3000 words) in the LT.

PS421 Half Unit
Issues in Social Psychology: Group Dynamics

This information is for the 2016/17 session.

Teacher responsible: Dr Ilka Gleibs QUE.3.21
Availability: This course is available on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social Research Methods, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students on degrees without a psychology component may attend subject to numbers, their own degree regulations and at the discretion of the Teacher responsible.

Course content: PS421 teaches on theory and research from the field of social and organisational psychology. We will cover past and present theories of group dynamics by introducing concepts used by psychologists to understand and improve group behaviour. It applies group dynamics theories to explain real-life examples and experiences. Students will be encouraged to take a critical perspective, and to consider how the principles taught in the course can be applied to a variety of social or organisational scenarios. The course will cover following topics: a) Why groups? b) The origins of group research; c) Influence and power; d) Groups and change; e) Crowds and collective behaviour; f) intra- and intergroup dynamics; g) How to manage a diverse group? h) Temporary and fragmented work contexts; i) Group performance and decision making; and j) Groups and health.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Assessment: Essay (100%, 3000 words) in the LT.
and overlaps between personal, social/organisational and cultural knowledge and between the processes of learning and knowing. 2) How do we create new knowledge in organisations? To answer this question we will look into processes of learning, creativity, innovation and entrepreneurship. 3) How can we efficiently share/ transmit knowledge in organisations? This course will address the challenges generated through the use of new technologies in the work place, the use of stories and narratives as a mode of knowledge transmission, the development of collaborative practices, power relations in organisations, etc. 4) How do we ‘store’ and use current organisational and personal knowledge? To answer this question lectures will address the uses of organisational history and memory as well as look into how we practice knowledge in every day organisational work.

The focus of the course is both theoretical and practical. Students’ will be expected to engage with both current theoretical debates and emerging practical issues in organisational life.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT. Students will be expected to make extended use of the course intranet - for on-line discussions and group presentations.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

**Assessment:** Essay (100%, 3000 words) in the LT.

---

**PS429**

**The Social Psychology of Communication**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Bradley Franks QUE.3.03 and Prof Martin Bauer QUE.3.17

**Availability:** This course is compulsory on the MSc in Social and Public Communication. This course is available on the MPhil/PhD in Social Psychology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course examines core theories towards a social psychology of communication. Issues raised will refer to verbal and non-verbal, face-to-face, rumours and mass mediated, as well as private and public, communal and strategic forms of communication. The second half of the course will provide an overview of applied communication research in various professional areas of public communication. Theories of communication covered in the course include evolutionary theory, classical rhetoric, diffusion research, pragmatics and relevance theory, semiotics and system theory and the theory of communicative action. Issues will be raised as to the critical analysis and the design of communicative action. Issues will be raised as to the critical analysis and the design of communication efforts in professional fields such as business corporations, NGOs, scientific professional bodies, health promotion, governments and political parties, police campaigns, and international organisations.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. Students taking PS429 will also be required to attend PS443A lectures and discussion groups (PS443A lecture 10 x 120 mins (MT) and 9 x 60 mins discussion groups).

**Formative coursework:** Students’ will complete one formative assignment in the MT.

**Indicative reading:** No one book covers the entire syllabus; students will be expected to read widely in appropriate journals, and a list of references will be provided at the start of the course.

**Assessment:** Exam (25%, duration: 1 hour) in the LT week 0. Essay (75%, 5000 words) in the LT.

---

PS438 **Half Unit**

**Corporate Communications**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Ben Shenoy, QUE.3.13.

**Availability:** This course is available on the CEMS Exchange, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology, MSc in Social and Public Communication and MIM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The different activities encompassed by the concept of corporate communication affect each one of us in various guises: as employees, customers, citizens, investors or, more generally, as observers of today’s world. It is therefore essential to develop a critical understanding of the different practices associated with corporate communication. Future practitioners also need this critical perspective so as to understand better the challenges involved in the development and implementation of corporate communication programmes. The objectives of the course are two-fold: 1) to provide an introduction to corporate communication, here understood as a set of activities undertaken by organisations in order to establish favourable corporate images and reputations with all of an organisation’s stakeholder groups; and 2) to underline how a better understanding of key social psychological concepts can contribute to the overall management and effectiveness of organisations and corporate communication.

This course is designed to apply relevant social psychological theory to gain insight into the changing world of corporate communication.

**Teaching:** 15 hours of lectures and 5 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 case study in the LT.

Science, Technology and Resistance

---

PS439 Half Unit

This information is for the 2016/17 session.

Teacher responsible: Prof Martin Bauer QUE.3.17

Availability: This course is available on the MSc in Organisational and Social Psychology, MSc in Social Research Methods, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Tarde (1980) famously argued that creativity and invention have none or little regularity, while the diffusion of new ideas and practices follows the ‘laws of imitation’. This idea remains very influential in the models of diffusion of innovation and the linear models of innovation translated into technical engineering and marketing. The course will examine critically how this model is only valid when there is no or little resistance in the process which, however, is rare. More common are efforts of techno-scientific mobilisations that encounter resistance, and resistance changes the process by focussing attention where needed; enhancing the ‘collective we-image’, evaluating on-going efforts of mobilisation and urging strategic adaptation and delays to the plan. We will explore various conceptions of ‘resistance’ across the social sciences and develop the functional analogue to ‘pain’ in relation to collective activity (Bauer, 1991, 1995 and 2015). In this light, we will examine public resistance, public engagement with science and its debates and impact on the developments of nuclear power, genetic engineering and information technology leading to current mobilisations for Nanotechnology, synthetic life forms, and robotic automation.

Students are expected to appreciate theory driven empirical research.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Each session will have its own particular readings, divided into essential texts and additional readings. This will be revised on an annual basis. No one text covers the entire syllabus; students will be expected to read widely in appropriate journals, and a list of references will be provided at the start of the course.

Assessment: Essay (100%, 3000 words) in the LT.

---

PS443 Half Unit

This information is for the 2016/17 session.

Teacher responsible: Prof Catherine Campbell QUE.3.08

Availability: This course is compulsory on the MSc in Organisational and Social Psychology, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is not available as an outside option.

This course is a compulsory component of courses: PS400 Contemporary Social and Cultural Psychology, PS404 Organisational and Social Psychology, and PS429 The Social Psychology of Communication.

Course content: What is the relevance of Societal Psychology for social science? How is it useful for the study of organisations, intercultural relations, health, community development and communication? Each week we tackle key debates for the social sciences through an examination of central theories in Societal Psychology. For example, we ask: How is human consciousness possible? Is intergroup conflict inevitable? Are there cultural differences in how we think? Do we practice what we preach? Can a minority change the opinions of a majority? Do certain organisations produce good leaders? Would designing social spaces differently change social behaviour? These questions are addressed through the introduction of the main theories of Societal Psychology, theories on consciousness, social identity, intergroup relations, attitudes and behaviour, social representations, social influence, language, leadership and social design. The course is aimed at MSc students with little or no background in Societal Psychology but will also include advanced material and critiques for students who want to study topics in-depth.

Teaching: 20 hours of lectures and 9 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars/discussion groups in the MT.

Formative coursework: Students will be expected to produce 1 case study in the MT.

Students will be expected to produce 1 case study in the MT.

Assessment: Exam (100%, duration: 1 hour and 30 minutes) in the LT week 0. The summative assessment for this course is taken in conjunction with the coursework essay for the courses PS400, PS404 and PS429. The coursework essay for these courses is weighted at 70% of the summative total with the PS443 component the remaining 30%.

PS443A
Societal Psychology
This information is for the 2016/17 session.
Teacher responsible: Prof Catherine Campbell QUE.3.08
Availability: This course is compulsory on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is not available as an outside option.
This course is a compulsory component of courses: PS400 Contemporary Social and Cultural Psychology; PS404 Organisational and Social Psychology; PS429 The Social Psychology of Communication; and PS465 Psychology of Economic Life.
Course content: What is the relevance of Psychology for social science? How is it useful for the study of organisations, intercultural relations, economic life and communication? Each week we tackle key debates for the social sciences through an examination of key theories in Societal Psychology. For example we ask: What drives human innovation and progress? How is human consciousness possible? How does our body affect the way we think? Is intergroup conflict inevitable? Are there cultural differences in how we think? Do we practice what we preach? Do certain organisations produce good leaders? How does social status impact social and economic behaviour? These questions are addressed through the introduction of key mainstream theories from Societal Psychology, theories on social learning, cultural evolution, consciousness, social identity, intergroup relations, attitudes and behaviour, social representations, social influence, power, language and leadership. The course is aimed at MSc students with little or no background in Societal Psychology but will also include advanced material and critiques for students who want to study topics in-depth.
Teaching: 20 hours of lectures and 9 hours of seminars in the MT.
Formative coursework: This will take the form of a mock MCQ test, conducted in the MT.
Assessment: The material covered in this course contributes to the formal assessment of the PS400, PS404, PS465 and PS429 core courses.

This material is assessed wholly by MCQ which will count for 25% of the overall grades on these core courses; these courses also have their own, specific essay-based assessments which will count for 75% of their overall grades.

PS445 Half Unit
Organisational and Social Decision Making
This information is for the 2016/17 session.
Teacher responsible: Dr Cormac Bryce QUE.3.13 and Dr Thomas Reader QUE.3.10
Availability: This course is available on the CEMS Exchange, MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management Science (Decision Sciences), MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Public Management and Governance, MSc in Social Research Methods, MSc in Social and Cultural Psychology, MSc in Social and Public Communication and MiM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit. Students on degrees without a psychology component may only attend subject to numbers, their own degree regulations and at the discretion of the Teacher responsible.
Course content: This course teaches on theory and research from the field of organisational and social decision-making. It is primarily focused on high-risk organisational settings, and explores contexts where there is uncertainty, high-consequences for failure, and complex social systems. PS445 provides a historical introduction to decision-making, and introduces the core concepts used by social psychologists to understand (and improve) decision-making processes in organisations. It draws upon the social, cognitive and organisational psychology literatures, and considers the core concepts and tools used to understand, research, and support decision-making in organisations. These theories and tools are contextualized through empirical and case study examples taken from domains such as finance, healthcare, the energy industry, government, and the military. Students will be encouraged to take a critical perspective, and to consider how the principles taught on the course can be applied to (and used to improve) a variety of social or organisational scenarios. The course will cover psychology (or ‘Human Factors’) concepts such as: intuitive and analytical forms of decision-making, individual traits and cognitive factors that influence decision-makers (e.g. biases and emotions), human error and decision-failures, rule breaking, and group decision-making processes (e.g. teamwork, leadership). It will teach on methods for analysing decision-making, identifying decision-making competencies, observing decision-making, and supporting group decision processes.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 case study in the LT.
Assessment: Essay (100%, 3000 words) in the ST.
PS446 Half Unit
Issues in Organizational and Social Psychology: Organizational Life
This information is for the 2016/17 session.
Teacher responsible: Mr Barry Rogers, QUE.3.13 and Ms Elsbeth Johnson, QUE.3.13
Availability: This course is available on the MSc in Organisational and Social Psychology, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit. Students on degrees without a psychology component may only attend subject to numbers, their own degree regulations and at the discretion of the Teacher responsible. This course is capped at 25 students.
Course content: In recent years, much has been made of the demise of the traditional work organisation and with it, traditional organisational life. In popular rhetoric, globalisation, the rise of the knowledge economy, ICT and the credit crunch have all trumpeted the dawn of a very different world. The reality of the situation would seem to be far more complex. So how do we understand and explain this complexity? This basic question has prompted huge soul searching within the social sciences as comfortable assumptions about the analysis of our world have been shown wanting. For many the current behavioural ‘turn’ throughout many of our disciplines act as an alternative lens for making sense of our reality - this has as its core the tools and approaches of social psychology. The aim of the course is to give a social psychological perspective on the elements of continuity and change surrounding contemporary organisational life. It will focus in particular on the blurring of boundaries within our key organisational relationships: with employees, customers, clients, and stakeholders. Its primary objective is to facilitate students in developing a critical and reflective understanding of these emerging processes. The course is informed throughout by a dual mandate. A rigorous approach to theory will be developed within the context of contemporary organisational issues, and current topics of debate. This essential relationship between theory and practice is a central feature of the course - outside speakers and practitioners are used throughout to supplement the learning for each topic and various forms of social media are employed to connect with an extended community of practice. The course will address emerging organisational questions such as: Perspectives: how do we make sense of the complexity of organisational Life? Why do we work? How do different generations engage with work? The rise of the BlackBerry: have we moved from the workplace to the 24/7 workspace? Organisational time: is work life-balance a pipe dream? After multiculturalism where now for organisational equality, diversity and inclusion? Corporate Social Responsibility: how do organisations relate to wider stakeholders? Customer, client or ‘partner’? Co-creation as the dynamic for growth. Beyond the ‘ivory tower’: how do we relate organisational theory to practice?
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: One formative piece of coursework to be submitted in the LT.
Assessment: Essay (100%, 3000 words) in the LT.

PS451 Half Unit
Cognition and Culture
This information is for the 2016/17 session.
Teacher responsible: Dr Bradley Franks QUE.3.03
Availability: This course is available on the MSc in Culture and Society, MSc in Organisational and Social Psychology, MSc in Social Anthropology (Religion in the Contemporary World), MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course examines recent directions in research relating to the relationships between mind and culture. Specific content will include a variety of theoretical issues, for example: relationships between social facts and psychological facts; naturalistic and non-naturalistic concepts of culture; symbolic culture; cultural relativity and universals; evolutionary and developmental constraints on the relations between mind and culture; communication, cultural transmission and change. These issues will be discussed with reference to specific domains of investigation, such as: emotions, representations of religion, race and natural kinds; pragmatics and communication; and social divisions of labour in meaning and representation, including deference and expertise.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Will consist of a formative essay plan.
Assessment: Essay (100%, 3000 words) in the LT.
PS461 Not available in 2016/17

Health, Community and Development

This information is for the 2016/17 session.

Teacher responsible: Prof Catherine Campbell STC 303 and Dr Jenevieve Mannell STC 367

Availability: This course is compulsory on the MSc in Health, Community and Development. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course examines the psycho-social determinants of community health and social development, in the context of health inequalities and social marginalisation in the global North and South. In particular it explores the role of participation, partnerships and collective action in facilitating health, well-being, the management of illness (including prevention, service access, care and treatment) and health-enabling social change. Attention is given to promoting behaviour and beliefs that facilitate both physical and mental health and well-being more generally, viewing health as a phenomenon that spans the individual, community and social levels of analysis.

The challenges of facilitating health, and health-enhancing collective action, are explored with reference to social identities, social representations and local knowledge, dialogue, empowerment, critical thinking, gender, social capital and social change. All this material is contextualised within wider debates about the global nature of public health, mainstream vs. alternative development policy, the respective roles of local and global social movements, and the potential for participation to alleviate the negative health impacts of social inequalities. Particular attention is given to the links between health and inequalities related to poverty, gender and sexuality, ethnicity, age (children and the elderly) and disability.

The over-riding ethos of the course is an interest in the links between theory and practice. Attention is given to providing students with actionable conceptual tools for the challenges of designing and evaluating community-focused programmes in the fields of public health, health promotion and health-supporting social transformation.

Teaching: 20 hours of lectures and 5 hours of seminars in the MT.

Formative coursework: A mini-essay submitted in MT.

This course is taught jointly with Dr Gordon Sammut, Lecturer at University of Malta, and Visiting Fellow to the Department of Psychological and Behavioural Science.

Presentation (45%), essay (45%) and 10% class participation in the LT.

Assessment: Essay (100%, 3000 words) in the LT.

PS462 Half Unit

Theory and Practice of Organisational Development

This information is for the 2016/17 session.

Teacher responsible: Dr Caryn Solomon QUE 3.13

Ajit Menon, QUE 3.13

Availability: This course is available on the MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is not available as an outside option.

Course content: The organisation is a social system that is complex, dynamic and ever changing. This course attempts to explore the management of organisational change and development in a practical way. It does this by recognising that there are research-based methodologies for ensuring that the potential inherent in change is harnessed, and that the capacity and potential of the organisation, in the pursuit of a broad range of organisational objectives, are enabled. While it is informed by a number of key theoretical frameworks, Organisation Development comes into its own in application. The aim of the course, therefore, is two fold: first to explore the body of core theory underpinning the practice; second, to examine the practice of Organisation Development as a ‘process’ (not a ‘product’ or a ‘programme’) which fundamentally influences and is influenced by the specific organisational context within which it takes place. Drawing on key theoretical frameworks and the approaches of major practitioners, the course also examines a range of current, best practice socio-psychological interventions. Students will be actively encouraged to relate key theoretical perspectives to organisational challenges covering a range of contemporary issues and contexts.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce a piece of coursework in the LT.

Assessment: Presentation (45%), essay (45%) and 10% class participation in the LT.

PS464 Half Unit

Social Influence

This information is for the 2016/17 session.

Teacher responsible: Prof Martin Bauer QUE 3.17

This is taught jointly with Dr Gordon Sammut, Lecturer at University of Malta, and Visiting Fellow to the Department of Psychological and Behavioural Science.

Community and Development, MSc in Organisational and Social Psychology, MSc in Social Research Methods, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: The course is primarily intended for MSc and PhD students in Social Psychology, in particular those who follow PS429 Social Psychology of Communication or equivalent core modules in Social Psychology. But, conditional to available space, it will be open to any interested MSc or Research Student from across the school.

Course content: This course explores the many modes and modalities of social influence which social psychology has studied and developed concepts for. Modalities of social influence cover processes by which social groups and actors normalise, assimilate and accommodate private and public opinion, attitudes, social stereotypes, institute normative expectations and ways of life, and achieve recognition and social change. We will discuss the social psychological traditions such as rhetoric, crowd behaviour, public opinion, leadership, norms, opinion and attitude formation, majority and minority influence, resistance and obedience to authority, dual-processes of persuasion, mass media effect models; fait-accompli, inter-subjectivity and inter-objectivity. This discussion will unfold under three parallel perspectives: 1) the theoretical and empirical grounding of influence models; 2) the socio-historical context of their formulation, many models came out of WWIl and Cold War; and 3) in the mirror of current formulations which often deploy new language without necessarily treading new ground. The course will discuss current ideas and models in comparison with canonical paradigms in order to assess ‘real progress’ of what often seems ‘old wine in new bottles’. The course builds a theoretical integration of modalities of influence in the ‘cycle of normativity and common sense’ including the normalization, approval and acclamations of social diversity (Sammut & Bauer, 2011). The moral ambiguity of social influence treads a fine line between promoting wellbeing and social recognition, and manipulating beliefs, opinion and attitudes. This raises ethical issues involved in the study and exercise of social influence in the modern public spheres.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. Teaching arrangement: the course will be taught as a combination of weekly lecture and discussion seminar. Participants are expected to prepare at least one seminar discussion.

Formative coursework: Students will be expected to produce 1 essay and 1 presentation in the LT. Participants will contribute to the reading seminars with a presentation, and they will be able to present an essay plan for formative feedback before the end of term.

Indicative reading: Some key references:
- Sammut G and MW Bauer (2011) Social influence: modes and modalities, in: D W Hook, B Franks & M W Bauer (Eds) The Social Psychology of Communication, London, Palgrave, pp87-106. Each session will have its own particular readings, separated in essential texts and additional readings. This will be revised on an annual basis. No one book covers the entire syllabus; students’ will be expected to read widely in appropriate journals, and a list of references will be provided at the start of the course.

Assessment: Essay (100%, 3000 words) in April.

PS465
Psychology of Economic Life

This information is for the 2016/17 session.

Teacher responsible: Prof Saadi Lahlou QU 3.2.6

Additional teacher(s): Dr Frédéric Basso QU 3.1.4 and Dr Michael Muthukrishna QU 3.1.5

Availability: This course is compulsory on the MSc in Psychology of Economic Life. This course is not available as an outside option.

Course content: Human activity is goal-oriented and social; it is evaluated at individual level in terms of emotions and well-being—a heritage of our Primate nature. Humans have now grown outside of the initial “natural” ecological condition of small tribes of hunters-gatherers to which their body and psyche were adapted. They have socially constructed socio-economic systems (“Production-Consumption Systems” –PCS). In these PCS, individual satisfaction and resources are obtained through participating into a labor division following institutional rules. While this institutionalized system enables catalyzing positively some exploitative characteristics of humans (competition, hierarchy, preference for the present etc.), the growth of such PCS in a limited world poses urgent problems of sustainability. Some of the most blatant limitations to the current system come from human drives (competition, aggression, desire for more, inter-group rivalry, short-termism, etc.).

The problem addressed by the Psychology of Economic Life is therefore to explore new ways of constructing sustainable PCS, and to manage the transition from the current state to a more sustainable one. This exploration must be informed by a realistic psychology, which is the object of this course.

Teaching: The course is delivered in Michaelmas Term over 10 lectures of 1.5h (2 per week, over weeks 1 to 5); 5 weekly seminar sessions of 1.5 hours (weekly over weeks 1 to 5) and three special seminar sessions of 3 hours (weeks 7, 8, 9). Students taking PS465 will also be required to attend PS443A lectures, 10 x 120 mins (MT), and 9 x 60 mins seminars/discussion groups (MT).

Lectures:
- Week 1: Lecture 1: Introductory lecture. Course narrative [SL]
- Lecture 2: Societal psychology, economics and installation theory [SL] Week 2
- Lecture 3: Organisations and Markets [FB]
- Lecture 4: The cognitive side of economic life (1): From procedural rationality to heuristics in decision-making [FB]
- Week 3:
- Lecture 5: Games and economic behaviour. [MM]
- Lecture 6: Formal institutions, social institutions, norms, and rules. [MM] Week 4
- Lecture 7: Distributed cognition and activity theory [SL]
- Lecture 8: The socio-cognitive side of economic life: Thinking about other individuals [FB]
- Week 5:
- Lecture 9: Transactions and platforms: what is exchanged in interaction? [SL]
- Lecture 10: Change processes: principles, forms, theories and practice [SL]

The lectures will be delivered in weeks 1 to 5 so the weeks from 6 to 10 can be used to prepare the case that will be used for the essay.

Formative coursework: Students will be expected to produce 1 quiz and 1 mini-essay in the Michaelmas Term. The Quiz will be a multiple choice question formative exam (based on content of PS443A).

**Assessment:** Exam (25%, duration: 1 hour) in the LT week 0. Essay (75%, 5000 words) in the MT. The exam is a seated Multiple Choice Question based on PS443A. The essay is individual. The essay is written in groups. Assessment is part of the learning process. Students must demonstrate their knowledge of theories learned in the course, and apply them to analyse a real case of economic phenomenon (business model, organization, public policy...). The work is collective.

The students will be assessed according to the elements of teaching that are available for those on the Master of Laws and Master of Laws to MSc Criminal Justice Policy students and then those on other degree programmes in the Department of Psychological and Behavioural Science.

**Course content:** This course is for all MSc students in the Department of Psychological and Behavioural Science. It will: 1) provide an overview of methodological issues for Social Psychological research; 2) cover core skills in research design in Social Psychology; and 3) provide training in core Social Psychological methods of analysing quantitative and qualitative data. By the end of the course as a whole, students will be equipped with methodological skills that will enable them to conduct empirical research for their MSc dissertation and possibly research after the MSc.

**Teaching:** All teaching takes place in the MT. The course has three components: 1) PS4AA which consists of 10 hours of teaching on methodological issues and research design, including a new MY course on the designing of experiments and questionnaires; 2) MY421M Qualitative Research Methods; and 3) MY465 Intermediate Quantitative Course.

**Formatative coursework:** Students will follow the formative work requirements on the MY course(s) that they take under each stream.

**Assessment:** Other (100%) in the MT, LT and ST. Students will be assessed according to the elements of teaching that they take on this course (see ‘teaching’ information provided).

---

**PS497 Dissertation**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Frederic Basso QUE.3.14

**Availability:** This course is compulsory on the MSc in Health, Community and Development, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is not available as an outside option.

**Course content:** The dissertation is an empirical investigation, carried out by the student, under the supervision of a member of staff. Research topics and methodologies vary considerably, but they must relate to the student's MSc Programme. All dissertation topics will need to be approved by a supervisor who is a faculty member of the Department of Psychological and Behavioural Science. By the end of the Michaelmas Term students will be introduced to the Dissertation module and members of staff will outline the research areas in which they would be keen to supervise projects. In the first instance students should approach the member of staff whom they would like to be supervised by. Students then submit a Dissertation Plan, outlining their project, and the supervisor who they have discussed the project with. Students are then allocated to supervisors. The supervisor will advise the student, help provide information and bibliographic advice, and provide feedback on the research.

**Teaching:** 16 hours across LT and ST consisting of group supervision, workshops and related research activities.

**Formatative coursework:** Students will receive formative feedback from their supervisor on the following coursework (1,000 words): 1) A Dissertation Plan 2) A Dissertation Progress Report

**Assessment:** Dissertation (100%, 10000 words) post-summer term.

---

**PS4A5 Methods for Social Psychology Research: Qualitative and Quantitative Methods**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Bradley Franks QUE.3.03

**Availability:** This course is compulsory on the MSc in Health, Community and Development, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is not available as an outside option.

All components of this course are compulsory for students’ taking degree programmes in the Department of Psychological and Behavioural Science.

**Course content:** This course is for all MSc students in the Department of Psychological and Behavioural Science. It will: 1) provide an overview of methodological issues for Social Psychological research; 2) cover core skills in research design in Social Psychology; and 3) provide training in core Social Psychological methods of analysing quantitative and qualitative data. By the end of the course as a whole, students will be equipped with methodological skills that will enable them to conduct empirical research for their MSc dissertation and possibly research after the MSc.

**Teaching:** All teaching takes place in the MT. The course has three components: 1) PS4AA which consists of 10 hours of teaching on methodological issues and research design, including a new MY course on the designing of experiments and questionnaires; 2) MY421M Qualitative Research Methods; and 3) MY465 Intermediate Quantitative Course.

**Formative coursework:** Students will follow the formative work requirements on the MY course(s) that they take under each stream.

**Assessment:** Other (100%) in the MT, LT and ST. Students will be assessed according to the elements of teaching that they take on this course (see ‘teaching’ information provided).

---

**PS940 The Psychology Department Seminar**

**This information is for the 2016/17 session.**

**Teacher responsible:** Mr Sanjay Muthukrishna QUE.3.15 and Dr Jennifer Sheehy-Skeffington

**Availability:** Open to staff and graduate students in the Institute.

**Course content:** Papers will be presented by outside speakers, staff and PhD students.

**Teaching:** 30 hours of seminars in the MT. 30 hours of seminars in the LT. 12 hours of seminars in the ST.

**Assessment:** no assessment

---

**SA403 Criminal Justice Policy**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof William Newburn OLD.2.40A

**Availability:** This course is compulsory on the MSc in Criminal Justice Policy. This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be capped at 30 students with preference given to MSc Criminal Justice Policy students and then those on other MSc programmes in the Department of Social Policy. Some places are available for those on the Master of Laws and Master of Laws.
(extended part-time study). Once core course allocations are made, the remaining places will be offered on a ballot basis.

**Course content:** The course provides a detailed and critical introduction to the study of criminal justice institutions, practices and participants. It begins with an introduction to the nature of crime and contemporary criminal justice policy. It then examines the main elements of modern criminal justice systems (police, courts, prisons, probation, the media, and private security). Special emphasis is given to current issues such as restorative justice and increasing rates of incarceration. The course combines up-to-date empirical work with theoretical perspectives and also emphasises the role of historical and comparative perspectives in understanding current trends.

**Teaching:** 15 hours of lectures, 13 hours and 30 minutes of seminars and 1 hour and 30 minutes of workshops in the MT. 15 hours of lectures and 15 hours of seminars in the LT.

Lectures: SA403.1 20 weekly one and a half hour lectures, MT and, LT.
Seminars: SA403.2, 19 weekly one and a half hour seminars, MT and LT.
Workshop: SA403.3, 1 session of one and a half hours in MT

There will be a reading week in Weeks 6 of MT and LT.

There will be a revision session and mock exam in ST.

**Formative coursework:** Michaelmas Term – formative essay and one-to-one feedback. Summer term – mock exam (one question).

**Indicative reading:** There are two set texts for the course: M Maguire, R Morgan & R Reiner (eds.) (2012), The Oxford Handbook of Criminology, 5th edn; and T Newburn (2012), Criminology, 2nd edn.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 2000 words) in the ST.

---

**SA407 Half Unit
Financing Health Care**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Elias Mossialos COW.4.08

**Availability:** This course is compulsory on the MSc Health Policy, Planning and Financing, MSc in Health, Population and Society, MSc in International Health Policy, MSc in International Health Policy (Health Economics) and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course aims to give students a thorough grounding in health financing policy. It focuses on the health financing functions of collecting revenue, pooling funds and purchasing services, as well as on policy choices concerning coverage, resource allocation and market structure. The course mainly draws on examples from health financing policy in European countries, but the general principles studied apply internationally. By the end of the course students will have:
- a grasp of the economic, political and philosophical concepts relevant to any discussion of health financing policy.
- a good understanding of how financing arrangements affect the achievement of key health financing policy goals such as financial protection, equity in financing and equity of access to healthcare, incentives for efficiency and quality in the organization and delivery of health services, administrative efficiency, transparency and accountability.
- the skills to critically assess current health financing arrangements and options for reform.
- an overview of key health financing policy issues, including the advantages and disadvantages of different ways of raising revenue for health; the role of private financing mechanisms; the importance of pooling; decisions about whom to cover, what services to cover, and how much of service cost to cover; allocating resources to purchasers, purchasing market structure and the principles of strategic purchasing; the incentives associated with different methods of paying providers; and the issue of financial sustainability.

**Teaching:** 15 hours of lectures and 10 hours of seminars in the MT.

In addition there will be a two-hour revision session in the MT and a two-hour revision session in the ST.

**Formative coursework:** Students will sit a one-hour progress test in the last seminar of term. This will involve writing an essay under exam conditions. Their seminar leader will mark the essay and provide a mark and written feedback by the beginning of the Lent Term.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**SA408 Half Unit
Health Economics**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Matthew Skellern OLD.2.27

**Availability:** This course is available on the MSc Health Policy, Planning and Financing, MSc in Health, Population and Society, MSc in International Health Policy, MSc in International Health Policy (Health Economics) and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.

In allocating places in this course, students enrolled in the MSc in International Health Policy and MSc in International Health Policy (Health Economics) have priority. Any remaining places are allocated on a first-come-first-served basis.

**Course content:** This course develops basic economic concepts as they are applied to the health sector, and provides for specialisation in health economics. Nature of health care as an economic commodity. How markets and insurance markets work, and how they can fail for health care and health care insurance. The economics of paying providers and different approaches taken by governments in different countries. Incentive mechanisms and Diagnostic Related Group payment schemes and yardstick competition. Labour markets in health care. Economic evaluation as a regulatory tool.

**Teaching:** 15 hours of lectures and 18 hours of seminars in the MT.

Optional evening review classes in first half of MT.

Revision session in the ST.

**Formative coursework:** In-class progress test in the MT.

**Indicative reading:** The course draws from a variety of textbooks and articles. A thorough reading list is provided at the start of term. The course makes repeated use of the following textbooks:

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**SA409 Half Unit
Social Security Policies**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Kitty Stewart OLD.2.36

**Availability:** This course is available on the MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Research), MSc in Social Policy (Social Policy and Planning), MSc in Social Policy and Development and MSc in Social Policy and...
Development: Non-Governmental Organisations. This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course analyses the purposes, design and impact of social security policies, meaning policies that protect and support household income at times when income from the labour market does not suffice. The need for social security arises both from demographic factors that affect nearly everyone during their life course – childhood, parenthood, old age – and from risk factors that will end up affecting only some – unemployment, sickness and disability. The course takes a comparative approach, examining differences in the design of social security policies across welfare regimes and drawing on examples from different countries. The focus is largely on industrialised countries, but the course also touches on issues arising in delivering social protection in other parts of the world.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 2 hours of seminars in the ST.

Formative coursework: Seminar members will be expected to make one presentation to the seminar group and submit one written paper during the course of the term. Students will also be expected to come to seminars each week prepared to present on and debate the week’s key readings.

Assessment: Exam (75%, duration: 2 hours) in the main exam period.

Essay (25%, 1500 words) in the LT.

SA427 Half Unit
Pharmaceutical Economics and Policy

This information is for the 2016/17 session.

Teacher responsible: Prof Emma Platt OLD 2.25

Availability: This course is available on the MSc Health Policy, Planning and Financing, MSc in Health, Population and Society, MSc in International Health Policy, MSc in International Health Policy (Health Economics) and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have an understanding of basic Health Economics principles.

Course content: The aim of this course is to introduce students to the economics of pharmaceutical markets and related policies that affect national and international markets broadly.

- To provide students with an understanding of basic features of pharmaceutical markets, how pharmaceutical markets work and how competition manifests itself in different parts of pharmaceutical markets.
- To illustrate to students how the pharmaceutical market is linked to the health care market, why it is often the focus of much regulation, and how students understand the multidimensional goals of pharmaceutical policies.
- To introduce students to the economic and policy problems encountered in managing pharmaceutical markets and how to evaluate the impact of alternative policy approaches. The course will also give students some experience in critically evaluating the impact of policy on market outcomes.
- To facilitate consideration of various country-specific political, cultural and economic factors that may drive governments’ approaches to pharmaceutical regulation. In this context, this course will help students consider the extent to which policies may be transferable.
- To enable students to analyse pharmaceutical markets from the perspectives of several main actors: governments, third party payers, the pharmaceutical industry, doctors, patients, pharmacists and wholesalers. Literature from Health Economics, Industrial Organisation and Health Policy will be incorporated into lectures, discussions and seminars.

- To introduce students to the economics of pricing and reimbursing pharmaceutical products, to explore different models of pricing and reimbursing medicines in OECD countries, including rate of return regulation, value-based pricing, cost-plus pricing, external price referencing and internal reference pricing, among others.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. Plus scheduled revision session.

Formative coursework: A formative essay under exam conditions (1 question in 1 hour) will be required and is to be submitted immediately after the revision session.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

This is the same course as SA4G3 Pharmaceutical Economics and Policy (modular) but it has different teaching arrangements.

SA429 Half Unit
Understanding Social (Dis)advantage

This information is for the 2016/17 session.

Teacher responsible: Prof Emma Platt OLD 2.25

Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in City Design and Social Science, MSc in Criminal Justice Policy, MSc in Gender, Policy and Inequalities, MSc in Health, Population and Society, MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Research) and MSc in Social Policy (Social Policy and Planning). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is currently capped at 45 places. Offers of places will be made on the basis of applicants’ statements. Initial priority for places is given to students on Social Policy MSc programmes. Students from departments other than the Department of Social Policy may be accepted onto a waiting list. Places remaining available three days before the start of the course will not be held back for late applicants from Social Policy programmes but offered to students from the waiting list.

Course content: This course focuses on the emergence of a range of concepts key to social policy relating to selective cumulative advantage and disadvantage in society, including concepts that supersede or complement classic concepts of poverty, such as social exclusion, capability deprivation, social immobility, social/cultural capital deficiency. It examines the uses of such concepts in both developing and industrialised countries. Topics addressed on the course may include - changes in inequality and their causes; the theoretical and empirical issues provoked by the ‘underclass’ debate; family change and disadvantage; long term unemployment and welfare-to-work; area segregation, housing and ‘welfare ghettos’; ethnic division; disability; employment; education; crime; social exclusion and citizenship.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 2 hours of seminars in the ST.

Formative coursework: Students have the option of submitting a formative essay.

Indicative reading: Basic reading list for the course includes: H
SA447 Half Unit Foundations of Health Policy

This information is for the 2016/17 session.

**Teacher responsible:** Dr Mrigesh Bhatia

**Availability:** This course is available on the MSc Health Policy, Planning and Financing, MSc in Health, Population and Society, MSc in International Health Policy, MSc in Health Economics, MSc in Public Management and Governance, MSc in Social Policy (Research), MSc in Social Policy and Development and MSc in Social Policy and Development: Non-Governmental Organisations. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** A comparative approach to the development of health and healthcare policies in high and low income countries, emphasising present and future policy options and problems. The course will examine the development and implementation of health policy. Theories of planning for setting priorities in health care are discussed and the politics and economics of health policy implementation are addressed. The course will also examine the changing role of the state and the role of international organisations in improving health status and influencing the policy agenda. The course concludes by examining some of the reforms currently taking place in the health sector.

**Teaching:** 15 hours of lectures and 10 hours of seminars in the MT. Students will participate in presenting at least one seminar paper.

**Formative coursework:** Students will sit a mock written exam in the last seminar.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

SA451 Social Policy Research

This information is for the 2016/17 session.

**Teacher responsible:** Dr Tania Burchardt 32LIF.3.30

**Availability:** This course is compulsory on the MSc in Social Policy (Research) and MSc in Social Research Methods. This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Social Policy and Development and MSc in Social Policy (European and Comparative Social Policy) and MSc in Social Policy (Social Policy and Planning). This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is capped at 45 students. All students for whom the course is compulsory will be allocated a space. Any remaining places (of which there are usually several) will be allocated on the basis of the statements provided by students in their course choice form. This will be done on the Monday following the opening of the course choice system and every two days thereafter, until the course is full.

**Pre-requisites:** None

**Course content:** The course equips students to critically assess the ways in which a wide range of research approaches are used in the study of social policy questions. This includes: an overview of the varied traditions and approaches to social policy research; Historical methods; Participatory research; Researching organisations; In-depth interviews (especially with service users and clients); Evaluation of policy reform; Social experiments and pilots; Geographical methods; Social surveys and the analysis of large datasets; Longitudinal and life history analysis; Micro-simulation techniques; Systematic reviews and meta-analysis; and Comparative research. The relationship between research and policymaking is a theme that runs throughout the course.

**Teaching:** 12 hours and 30 minutes of lectures and 15 hours of seminars in the MT. 12 hours and 30 minutes of lectures, 13 hours and 30 minutes of seminars and 15 minutes of help sessions in the LT. 2 hours and 30 minutes of lectures and 15 minutes of help sessions in the ST.

The lectures will be given by a member of staff or external expert in that particular method or topic and are followed by a seminar examining research exemplifying the approach and the issues raised. The help sessions are one-to-one tutorial sessions with the seminar leader to discuss feedback on essays and progress on the course.

**Formative coursework:** Students will make at least one seminar presentation per term. There will be three compulsory formative coursework essays, and one optional assignment, designed to prepare students for both the summative coursework and the exam. Written and verbal feedback will be provided.

Additional references will be supplied at the start of the course and in lectures.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 3000 words) in the ST.

For the summative coursework essay, students will be asked to design a research project to address a specified social policy research question, and provide a justification for their proposed design. The exam focuses on assessing students’ abilities to critique social policy research approaches. Students will be asked to answer 3 out of a choice of 9 questions based on the research approaches we have studied during the course.

---

SA465 Criminal Justice Policy - Long Essay

This information is for the 2016/17 session.

**Teacher responsible:** Prof William Newburn OLD.2.40A

**Availability:** This course is compulsory on the MSc in Criminal Justice Policy. This course is not available as an outside option.

Those taking the course part-time must submit the dissertation in their second year.

**Course content:** The objective is to write an original dissertation on an approved topic in the field. The selection of the topic is a matter primarily for the student, though the approval of the supervisor is needed for topic registration.

**Teaching:** The designated supervisor should discuss the selection of the topic and its title with the student, advise about preliminary reading, methods and broad analytical approach; and comment on the draft version. At their discretion, supervisors may give additional advice and comments.
Assessment: Dissertation (100%, 10,000 words) in September. The dissertation must be submitted to the Course Administrator on or before 1 September (or if this falls on a weekend, the first weekday after 1 September). Dissertations should be no more than 10,000 words in length. Guidance is provided in dissertation writing and research skills. Formal titles should be registered with the Course Director in early December.

SA466
European and Comparative Social Policy - Long Essay
This information is for the 2016/17 session.
Teacher responsible: Dr Stephen Mangen OLD 2.62
Availability: This course is compulsory on the MSc in Social Policy (European and Comparative Social Policy). This course is not available as an outside option.
Course content: The purpose is to allow students to study a topic in depth by researching the literature and analysing a subject. Often these essays involve original perspectives or empirical research.
Teaching: An appropriate supervisor will be appointed to advise each candidate and comment on draft elements of the dissertation.

SA471
Social Policy and Planning - Long Essay
This information is for the 2016/17 session.
Teacher responsible: Dr Timo Fleckenstein OLD 1.17
Availability: This course is compulsory on the MSc in Social Policy (Research) and MSc in Social Policy (Social Policy and Planning). This course is not available as an outside option.
Course content: The purpose is to allow students to study a topic in depth researching the literature and analysing a subject: often these dissertations involve original perspectives or research and some have been subsequently published.
Teaching: The general subject area of the dissertation should be approved by the tutor by the middle of the second term and the title should be submitted to the course convenor by the end of that term.

SA472
Dissertation - Social Policy and Development
This information is for the 2016/17 session.
Teacher responsible: Dr Armine Ishkanian OLD1.13, Prof Anthony Hall, Dr Timothy Hildebrandt, Prof David Lewis and Dr Muzafferettin Seckinelgin
Availability: This course is compulsory on the MSc in Social Policy and Development. This course is not available as an outside option.
Course content: The 10,000 word dissertation enables students to analyse in greater depth an issue relevant to social policy and development from a government-centred perspective.

SA470
Dissertation - Social Policy and Development: Non-Governmental Organisations
This information is for the 2016/17 session.
Teacher responsible: Dr Armine Ishkanian OLD1.13, Dr Timothy Hildebrandt, Prof Anthony Hall, Prof David Lewis, Dr Muzafferettin Seckinelgin and Dr Sunil Kumar
Availability: This course is compulsory on the MSc in Social Policy and Development: Non-Governmental Organisations. This course is not available as an outside option.
Course content: The 10,000 word dissertation enables students to analyse in greater depth an issue relevant to social policy and development from a civil society-centred perspective.
Teaching: 10 hours and 30 minutes of lectures in the MT. The advisor will provide regular supervision and feedback.

SA47R
Social Policy (Research) - Dissertation
This information is for the 2016/17 session.
Teacher responsible: Dr Tania Burchardt 32L 3.30
Availability: This course is compulsory on the MSc in Social Policy...
SA481 Half Unit
Population Analysis: Methods and Models

This information is for the 2016/17 session.

Teacher responsible: Dr Moshir Herman

Availability: This course is compulsory on the MSc in Social Research Methods. This course is available on the MSc in Development Studies, MSc in Health, Population and Society, MSc in Population and Development, MSc in Statistics and MSc in Statistics (Research). This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students should have basic numeracy, but the course does not require advanced mathematical knowledge.

Some practical sessions will involve use of the spreadsheet EXCEL. IT Training provides numerous self-paced student supervised workshops on EXCEL and downloadable course guides. Students will have no prior experience of EXCEL are advised to attend one of these workshops before the course.

Course content: This course provides an introduction to the key concepts and methods required for population analysis. The course will explain the dynamics of population change and enable students to learn basic methods for measuring population structure and the determinants of population size and change (fertility, mortality and migration). The course will also provide an introduction to population projections and describe and evaluate how demographic data are collected and used. Emphasis is placed on the understanding and interpretation of demographic data, as well as methods of population analysis.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 3 hours of lectures in the ST.

Formative coursework: Students will be expected to complete exercises, write one essay and complete one multiple choice questionnaire during the term.

Indicative reading: Demography: Measuring and Modeling Population Processes by S H Preston, P Heuveline and M Guillot, 2001. This will be used as a reference text in the course. Students may also find it helpful to consult some of the other standard, and slightly less advanced texts available including: Demographic Methods and Concepts by D Rowland, 2003; or, alternatively Methods and Models in Demography by C Newell, 1988 or Demographic Techniques by A H Pollard, F Yusuf & G N Pollard, 1990.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

SA485 Half Unit
Planning for Population and Development

This information is for the 2016/17 session.

Teacher responsible: Dr Tiziana Leone

Availability: This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Global Health, MSc in Health, Population and Society, MSc in Population and Development, MSc in Social Policy (Research) and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Some familiarity with personal computers is required, but a high degree of technical proficiency is not required.

Course content: The course is practical in nature and overviews key methods used for planning in population and development. Key questions which will be answered in this course are: what is the future of the world population; What are the family planning needs of couples in low income countries; what will be the number of newly HIV infected in the next 15 years; what is a sustainable population growth. Relevance will be given to methods used for assessing the implications of high levels of mortality in developing countries with specific reference to the HIV/AIDS pandemic; as well as the assessment of high fertility levels due to low uptakes of family planning methods. The approach is practical and complements the more theoretical population courses giving additional skills such as an understanding of key international projections and estimates. Students will undertake a number of computer-based assignments (using either Excel or Spectrum) which will follow the topics highlighted during the lectures. The course covers concepts used for population analysis; the role of population projections in the population planning and development process; the basis of projections made by international agencies such as the UN Population Division; the formulation of projection assumptions and methods of making projections; methods for projecting and assessing the impact of HIV/AIDS and the use of software such as AIM (AIDS Impact Model). The course will also give an overview of projections for particular sub-groups such as households, families, urban, sub-national and labour force ones and of the implications of uncertainty for the planning process. Emphasis will be given to the learning of analytical skills which include data and information searching on the internet as well as presentation of the information.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students are will be expected to submit a formative essay before the end of term

Indicative reading: Relevant documents will be provided at the start of the course, mainly in the form of electronic documents. Suggested reading are Lutz “The future population of the world; Cohen “How many people can the earth support”

Assessment: Coursework (50%) in the LT.

Coursework (50%) in the LT.

Assessment will be by two coursework assignments, each of a maximum of 10 A4 pages, which will involve the formulation, execution and writing up of a project concerned with a model for population planning, which has been agreed with the course teacher.
SA488 Half Unit
Social Policy Goals and Issues

This information is for the 2016/17 session.
Teacher responsible: Dr Sonia Exley OLD2.65
Availability: This course is compulsory on the MSc in Social Policy (European and Comparative Social Policy) and MSc in Social Policy (Social Policy and Planning). This course is available on the MSc in China in Comparative Perspective, MSc in Criminal Justice Policy, MSc in Gender, Policy and Inequalities, MSc in Health, Population and Society, MSc in Public Management and Governance and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.
Course content: The nature of social policy and policy making: key approaches and issues. The goals of social policy in relation to policy formation and the policymaking process. Issues including: the political economy of social policy; social justice and social policy; human needs; the mixed economy of welfare; the governance of social policy; gender and social policy; poverty, inequality and social exclusion; globalisation and the future of social policy.
Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.
Formative coursework: One 1500 word word essay due in MT
Indicative reading: Some introductory texts are:
• H Dean, Social Policy, 2nd edition, Polity, 2012;
• M Daly, Welfare, Polity, 2011;
A full bibliography will be handed out with the programme of seminar topics at the start of the course.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

SA492 Half Unit
Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation

This information is for the 2016/17 session.
Teacher responsible: Dr Ernestina Coast OLDM2.24
Availability: This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Gender, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Health, MSc in Health, Population and Society, MSc in Population and Development and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course is deals with the effectiveness of sexual and reproductive health programmes, especially those that deliver services. The key issues addressed are the design of programmes, their effective implementation, and their evaluation, addressing questions such as:
What role can the mass media play in communicating reproductive health messages?
What special sexual and reproductive needs do adolescents have? Should violence against women be considered a reproductive health issue?
How appropriate is social marketing as a means of increasing contraceptive use?
What are the main causes of maternal death?
The course covers a wide range of topics, including: the organisation of programmes; issues of strategic management; personnel training; logistics and commodity supply; the tools of management and evaluation, including management information systems; information, education and communication, including the role of the mass media; innovative approaches to reproductive health education, including an examination of the role of formal education and curriculum content; violence against women as a reproductive health issue; meeting the reproductive health needs of “special” groups, including adolescents and refugees; the use of social marketing; issues of quality in service delivery; techniques for evaluating programme effectiveness.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT.
Formative coursework: Students are expected to prepare a seminar presentation and an essay (circa 1,500 words) during the term.
Indicative reading: The course is supported by a VLE containing electronic reading lists. There is no single key text.
Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Coursework (50%) in the LT.
Coursework assignment to be a maximum of 10 A4 pages.

SA493 Half Unit Not available in 2016/17
Demographic Change and Development

This information is for the 2016/17 session.
Teacher responsible: Dr Tiziana Leone OLD 2.56
Availability: This course is available on the MSc in Development Studies, MSc in Gender, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Health, Population and Society, MSc in Population and Development, MSc in Social Policy (Research), MSc in Social Policy and Development, MSc in Social Policy and Development: Non-Governmental Organisations and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course provides an up-to-date and comprehensive account of demographic change and population trends in lower income countries by looking at recent changes in fertility, mortality and migration. The course considers the implications of these trends and some of the key demographic issues in these countries.
Topics that are covered include:
• The impact of education on changes in mortality and fertility
• Demography and gender
• Infant, child and maternal mortality
• Urbanisation and urban growth
• Communicable diseases
• The effects of changing age structures
No previous demographic knowledge is required.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT.
Formative coursework: Students are expected to prepare a seminar presentation and a formative essay (circa 1,500 words) during the term.
Indicative reading: The course is supported by a VLE containing electronic reading lists. There is no single key text and a detailed electronic reading list will be provided.
Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Coursework (50%) in the ST.
Coursework assignment to be a maximum of 10 A4 pages.

SA499 Dissertation: Population and Development

This information is for the 2016/17 session.
Teacher responsible: MSc Programme Director and Academic Advisor.
Availability: This course is compulsory on the MSc in Population and Development. This course is not available as an outside option.

Course content: The purpose is to allow students to explore a particular research topic in depth.

Arrangements for Supervision
An Academic Advisor will be appointed to advise each student. Students should also attend SA4C1.

Selection of Topic
The topic of the dissertation is selected in consultation with the student's Academic Advisor.

Teaching: 3 hours of seminars in the MT, 2 hours of seminars in the LT.

Assessment: Dissertation (100%) in September.
The completed dissertation must be submitted on or before 1 September (or if this falls on a weekend, the first weekday after 1 September). The length of the dissertation should be 45 pages maximum.

SA4A6
Dissertation: MSc International Health Policy and MSc International Health Policy (Health Economics)

This information is for the 2016/17 session.

Teacher responsible: Dr Panagiotis Kanavos COW.3.08

Availability: This course is compulsory on the MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is not available as an outside option.

Course content: This is meant to be a seminar aiming to prepare students for the dissertation, which is a compulsory component of the degree.

Students of this programme undertake a summer placement during which they will be writing up their dissertation. The purpose of the dissertation is to allow students to explore a particular topic or a relevant policy issue in some depth. The dissertation may take the form of an empirical research conducted on a topic or issue of relevance to health/social policy; or may be a literature-based providing an analysis of a specific research question of relevance to health/social policy.

Teaching: 4 hours of lectures in the LT, 2 hours of lectures in the ST. The course comprising a total of 3 2-hour lectures/seminars/coaching sessions (2 2-hour sessions in the LT term and 1 2-hour session in the ST) will require participation from the entire class in order to discuss issues pertaining to the dissertation (topic selection, structure, methods, result reporting, ethics approval, linkages with the summer placements among others) and the student summer placement process. The course will serve as a means to assist students with the preparation and finalisation of their dissertation proposals. In this context, students will also receive feedback and assistance from their supervisors, with whom they will need to meet on at least three occasions.

Formative coursework: Students will receive feedback and comments on a 1,000 work summary/outline of the proposed research proposal from their supervisors.

Assessment: Dissertation (100%, 10000 words) post-summer term.

SA4B3
MSc Health, Population and Society Dissertation

This information is for the 2016/17 session.

Teacher responsible: Dr Arjan Gjonca OId. M.2.25

Availability: This course is compulsory on the MSc in Health, Population and Society. This course is not available as an outside option.

Course content: The purpose is to allow students to explore a particular research topic on issues related to health and population in depth.

Selection of topic
The topic of the dissertation is selected in consultation with the student's personal supervisor.

Supervision
An appropriate dissertation tutor will be appointed to advise each student as the work proceeds. In addition, students are given a class on research and dissertation writing, and another one on data sources and uses. Students are expected to make a non-assessed presentation of their proposed dissertation topics in LT.

Teaching: 3 hours of seminars in the MT, 2 hours of seminars in the LT.

Assessment: Dissertation (100%) post-summer term.
The completed dissertation must be submitted on or before 1 September (or if this falls on a weekend, the first weekday after 1 September).

SA4B5 Half Unit
International Planning and Children’s Rights

This information is for the 2016/17 session.

Teacher responsible: Prof Eileen Munro OLD2.33 and Dr Armine Ishkanian OLD2.42

Availability: This course is available on the MSc in Health, Community and Development, MSc in Human Rights, MSc in Social Policy (Social Policy and Planning), MSc in Social Policy and Development and MSc in Social Policy and Development: Non-Governmental Organisations. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This is an interdisciplinary course that explores the links between child rights and child poverty at all levels of development in rich and poor countries. The social and economic as well as the civil and political rights of children, as defined in recent international laws, charters and Conventions, are examined in relation to the conditions, especially poverty and multiple deprivation, experienced by many children. Human rights theories as a basis for international and social policies will be a focus of attention. There has to be universal planning and not only specific proposals to deal with serious violations of rights. Issues of child labour, the violations of war, cultural discrimination against girl children and the right to a minimally adequate family income will be discussed in relation to the roles played by international agencies, Trans National Corporations, governments and NGOs.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

SA4B8 Half Unit Not available in 2016/17 Ethnicity, Race and Social Policy

This information is for the 2016/17 session.

Teacher responsible: Dr Coretta Phillips OLD2.27

Availability: This course is available on the MSc in Criminal Justice Policy, MSc in Gender, Policy and Inequalities, MSc in International Migration and Public Policy, MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Research) and MSc in Social Policy (Social Policy and Planning). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be capped at 15 students, with preference given first to students on MSc programmes in the Department of Social Policy, then from MSc International Migration and Public Policy and MSc Gender, Policy and Inequalities. If spaces are still available, students from other MSc programmes, where regulations permit, will be selected on a first come first served basis.

Places for this course will be allocated on a ballot basis.

Course content: Understanding Key Concepts; Disciplinary Frameworks; Migration and Citizenship, Theorising Multiculturalism; Ethnic Settlement and Housing Inequalities; Education; Employment, Poverty and Underclass; Criminalisation and Incarceration; Discrimination and the Role of the State I: Positive and Affirmative Action; Discrimination and the Role of the State II: Legislative Frameworks, Diversity, and Service Delivery.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 2 hours and 30 minutes of lectures in the ST.

In Week 6 there will be a reading week.

Formative coursework: 2000 word essay due in Week 7.

Assessment: Essay (100%, 4000 words) in January. The summative essay will be due in on the first Monday of LT.

SA4C1 Long Essay and the Research Process

This information is for the 2016/17 session.

Teacher responsible: Prof Eileen Munro OLD2.33

Availability: This course is compulsory on the MSc in Criminal Justice Policy, MSc in Population and Development, MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Social Policy and Planning), MSc in Social Policy and Development and MSc in Social Policy and Development: Non-Governmental Organisations. This course is not available as an outside option. For all MSc Social Policy programmes involving a dissertation or long essay, Examinations at the discretion of the course tutor. Lecture notes will be available electronically via Social Policy public folders (for core or year-time students)

Course content: The course aims to provide an understanding of issues associated with the research process in the context of MSc Social Policy long essays. It includes an examination of philosophical issues underpinning research methods in social policy, the place of different research methods (qualitative and quantitative) in social policy and the process of writing a long essay.

Teaching: 2 hours of lectures in the MT. 3 hours of lectures in the LT.

SA4C2  Half Unit
Basic Education for Social Development

This information is for the 2016/17 session.
Teacher responsible: Prof Anthony Hall OLD2.28
Availability: This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Health, Community and Development, MSc in Social Policy (Research), MSc in Social Policy and Development and MSc in Social Policy and Development: Non-Governmental Organisations. This course is available with permission as an outside option to students on other programmes where regulations permit. The course is capped at 30 students
Pre-requisites: Work experience in a developing country is highly desirable but not essential.
Course content: The course is designed to examine the role of basic education in developing countries as it relates to social development and social policy. Content of the course includes: the history of education and current problems in developing countries, links between basic education and socio-economic development, primary schooling, decentralization policies, non-formal and vocational education, adult literacy, popular education for grassroots development, environmental education, ICT, and foreign aid in supporting basic education.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.
Formative coursework: In addition to seminar presentations and the assessed essay, students are required to write an unassessed (formative) essay for the course.

SA4C4  Half Unit
Cost-Effectiveness Analysis in Health Care

This information is for the 2016/17 session.
Teacher responsible: Dr Mylene Lagarde
Availability: This course is available on the MSc Health Policy, Planning and Financing, MSc in Global Health, MSc in Health, Population and Society, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course develops the statistical and modelling techniques necessary to apply economic evaluation to the health care sector. Introduction to random variables and probability distribution, linear regression analysis, logistic regression analysis, survival analysis for health outcomes, survival analysis for treatment costs, parametric and non-parametric approaches for missing data, economic evaluation and clinical trials. Estimation of confidence intervals for cost-effectiveness ratios. Transformation of ratios - net benefit approach. Presentation of results, acceptability curves. This is the same course as SA4G4 Statistical Methods in Health Care Economic Evaluation (modular), but it has different teaching and assessment arrangements.
Teaching: 20 hours of lectures and 20 hours of computer workshops in the LT. 1 hour of lectures in the ST.
Indicative reading: A full reading list is provided at the start of the course. The course makes use of selected parts of the following texts:
• Drummond Schulpcher Methods for the Economic Evaluation of Health Care Programmes
• Siegel Weinstein Cost-Effectiveness in Health and Medicine OUP
• Evaluating Health Risks: An Economic Approach
Assessment: Exam (75%, duration: 2 hours) in the main exam period.
Essay (25%, 2500 words) in the ST.

SA4C3  Half Unit
Statistical Methods in Health Care Economic Evaluation

This information is for the 2016/17 session.
Teacher responsible: Dr Matthew Skellern OLD2.27
Availability: This course is available on the MSc Health Policy, Planning and Financing, MSc in Health, Population and Society, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: This course assumes knowledge of elementary mathematics and statistics. Students who wish to take SA4C3, but who have not taken an introductory university course in statistics or econometrics, may wish to consider auditing MY451 (Introduction to Quantitative Analysis) in Michaelmas Term in order to prepare themselves for this course. Students who are unsure whether they have the requisite background are encouraged to approach the lecturer before the start of Lent Term.
This course is envisaged to be complementary to SA4G4 Statistical Methods in Health Care Economic Evaluation (modular), but it has different teaching and assessment arrangements.
Course content: This course develops the statistical and modelling techniques necessary to apply economic evaluation to the health care sector. Introduction to random variables and probability distribution, linear regression analysis, logistic regression analysis, survival analysis for health outcomes, survival analysis for treatment costs, parametric and non-parametric approaches for missing data, economic evaluation and clinical trials. Estimation of confidence intervals for cost-effectiveness ratios. Transformation of ratios - net benefit approach. Presentation of results, acceptability curves. This is the same course as SA4G4 Statistical Methods in Health Care Economic Evaluation (modular), but it has different teaching and assessment arrangements.
Teaching: 15 hours of lectures and 13 hours and 30 minutes of computer workshops in the LT. 1 hour of lectures in the ST.
Indicative reading: A full reading list is provided at the start of the course. The course makes use of selected parts of the following texts:
• Drummond Schulpcher Methods for the Economic Evaluation of Health Care Programmes
• Siegel Weinstein Cost-Effectiveness in Health and Medicine OUP
• Evaluating Health Risks: An Economic Approach
Assessment: Exam (75%, duration: 2 hours) in the main exam period.
Essay (25%, 2500 words) in the ST.
SA4C6   Half Unit
International Housing and Urban Settlements; Conflicts and Communities

This information is for the 2016/17 session.
Teacher responsible: Prof Anne Power OLDM2.21
Availability: This course is available on the MSc in City Design and Social Science, MSc in Regional And Urban Planning Studies, MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Research), MSc in Social Policy and Development, MSc in Social Policy and Development: Non-Governmental Organisations and MSc in Urbanisation and Development. This course is available as an outside option to students on other programmes where regulations permit. This is a capped course. If it is oversubscribed places will be allocated by random ballot, first amongst Social Policy students then amongst other students for any remaining places. The first ballot will be held on Tuesday of MT week 1.
Course content: The course is an introduction to the global housing challenges of a fast urbanising world in the context of rapidly growing cities worldwide. There are 5 key themes: the push and pull factors in urban growth; the key actors in housing provision; slums and self-help; the environmental impact of low income settlements; the problems of poverty and exclusion in low income and informal settlements. The course includes 10 lectures in LT and one in ST. The main topics of the lectures are: housing needs and demand; contrasting patterns of housing development; owner occupation, renting and self-help; government intervention and finance; planning and renewal; international agencies, aid and NGOs; bottom-up shelter models and community-led initiatives; social exclusion and urban pressures; basic services and public infrastructure; participation and women’s roles in low income settlements; environment of cities; urban and housing design; theories and practice in upgrading urban settlements. Case studies are used to illustrate arguments, policies and practical responses.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour of seminars in the ST. Additional activity: occasional informal discussion sessions are organised at students’ request.
Formative coursework: Students will be expected to participate actively in seminars and to complete one formative essay using case studies to illustrate their arguments.
Assessment: Exam (75%, duration: 2 hours) in the main exam period.
Essay (25%, 2000 words) in the ST.

SA4C8   Half Unit Not available in 2016/17
Globalisation and Social Policy

This information is for the 2016/17 session.
Teacher responsible: Dr Muzafferettin Seckinoglu OLD2.57
Availability: This course is available on the MSc in China in Comparative Perspective, MSc in Global Health, MSc in Health, Community and Development, MSc in Human Rights, MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Social Policy and Planning), MSc in Social Policy and Development and MSc in Social Policy and Development: Non-Governmental Organisations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: What do the, the Catholic Church, Bill and Melissa Gates, UNICEF and the World Bank have in common? They are in one way or another involved in social policy that goes beyond the nation state. Policy could be seen as the exercise of political power and this political power has often been concentrated within the nation state. Far from the traditional study of policy this includes the effect of globalization on a variety of actors in social policy. This course examines how globalization has changed the way we perceive areas such as health, education, social care and other areas that concern social citizenship. The course examines the international policy environment, particularly intergovernmental organisations; bilateral and multilateral aid agencies and non-governmental organisations (NGOs), which influence the social policy environment in developing countries. The impact of the inter-governmental policy process on policy outcomes is examined. The same goes for religious groups, social movements and corporations that all play a role in global social policy. The main goal of the course is not only to open up the understanding of social policy and globalization but also to show the complexity of goals and actors of social policy. It is expected that the students will devote considerable time to reading and preparing for the seminars.
Teaching: 10 hours of lectures and 15 hours of seminars in the MT. Revision session(s) will be scheduled in the ST.
Formative coursework: Students will write a long essay.
Assessment: Exam (75%, duration: 2 hours) in the main exam period.
Essay (25%) in the ST.

SA4C9   Half Unit
Social Policy - Organisation and Innovation

This information is for the 2016/17 session.
Teacher responsible: Prof Emma Platt OLD 2.25
Availability: This course is compulsory on the MSc in Social Policy (Social Policy and Planning). This course is available on the MSc in China in Comparative Perspective, MSc in Criminal Justice Policy, MSc in Gender, Policy and Inequalities, MSc in Health, Population and Society, MSc in Public Management and Governance, MSc in Social Policy (European and Comparative Social Policy) and MSc in Social Policy (Research). This course is available as an outside option
SA4D1 Half Unit
Social Epidemiology

This information is for the 2016/17 session.
Teacher responsible: Dr Arjan Gjonca
Availability: This course is compulsory on the MSc in Health, Population and Society. This course is available on the MSc in China in Comparative Perspective, MSc in Global Health, MSc in Health, Community and Development, MSc in International Health Policy, MSc in International Health Policy (Health Economics), MSc in Population and Development, MSc in Social Policy and Development, MSc in Social Policy and Development: Non-Governmental Organisations and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course brings together the main issues in health, population and society in high and middle income countries, including the role of social and biological factors in determining health and mortality. Course content includes the relationship between social and societal changes: family changes and their implications for population health; social support and health, health of older people and coping with ageing in the 21st century. Prospects for health and mortality in decades to come. Definition and use of measurements of health; self-reported, ‘objective’ measures and health service use indicators. Trends in inequalities in the health of older people and coping with ageing in the 21st century. Definition and use of measurements of health; self-reported, ‘objective’ measures and health service use indicators. Trends in inequalities in health and the explanations for these. Key issues in public health in developed countries especially in the light of expected demographic changes. Policy responses to health, population and societal changes.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT.

Formative coursework: One 1,500 word formative essay.

Indicative reading: A detailed reading list will be provided at the beginning of the course.

Assessment: Exam (75%, duration: 2 hours) in the main exam period.

Essay (25%, 2000 words) in the LT.

SA4D2 Half Unit
Global Health and Population Change

This information is for the 2016/17 session.
Teacher responsible: Dr Arjan Gjonca
Availability: This course is compulsory on the MSc in Health, Population and Society. This course is available on the MSc in China in Comparative Perspective, MSc in Global Health, MSc in Health, Community and Development, MSc in International Health Policy, MSc in International Health Policy (Health Economics), MSc in Population and Development, MSc in Social Policy and Development, MSc in Social Policy and Development: Non-Governmental Organisations and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course aims at looking at the relationship of population change and global health. It follows a multidisciplinary approach by integrating demography, public health and epidemiology. A strong component of the course is the policies required to cope with these challenges for global health coming from population changes worldwide. The course does not only take a theoretical approach, but it is also evidence based. This relationship between population change and health will be analysed in its dynamic. Another important aspect of the course is that it will focus on what will happen in the future of global health as a result of anticipated population changes.

Some of the main topics covered are: Some of the main topics addressed in this course are the relationship between epidemiological transition and population change; the relationship between poverty, health and population change; the course of HIV/AIDS epidemic and demographic dynamics; health inequalities and urbanisation; nutrition and health; ageing and its effects on the burden of different chronic diseases. It also covers basic techniques and measurement of health, mortality and morbidity.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.

Indicative reading: A detailed reading list will be provided at the beginning of the course.

Assessment: Exam (75%, duration: 2 hours) in the main exam period.

Essay (25%, 2000 words) in the ST.

SA4D3 Half Unit
Valuing Health

This information is for the 2016/17 session.
Teacher responsible: Dr Adam Oliver
Availability: This course is available on the CEMS Exchange, IMEX Exchange, MSc Health Policy, Planning and Financing, MSc in Health, Population and Society, MSc in International Health Policy, MSc in International Health Policy (Health Economics) and MiM Exchange. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course offers a thorough understanding of how economists determine the social value of health, health programmes and health interventions. It introduces students to the methodology of economic evaluation, distinguishing between cost and cost-effectiveness analyses. The course aims to sensitize students to the ethical and methodological issues inherent in these valuations. As such, the course offers teaching in many aspects of behavioural economics, with specific health-related application.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.

Formative coursework: Students will be given a progresst test at the end of MT--this will be a 50 minute test in which they answer one essay question from a choice of three. This is perfect practice for what the students might expect in the final exam.

Indicative reading: The following are background readings for the course:

SA4D4 Half Unit
Measuring Health System Performance

This information is for the 2016/17 session.

Teacher responsible: Dr Irene Papanicolas COW G.04

Availability: This course is compulsory on the MSc in International Health Policy.
This course is available on the MSc in Global Health, MSc in Health, Population and Society, MSc in International Health Policy (Health Economics), MSc in Social Policy (European and Comparative Social Policy) and MSc in Social Policy (Social Policy and Planning). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course aims to present a framework to discuss the opportunities and challenges with performance measurement in health care, examine the various dimensions and levels of health system performance, identify the measurement instruments and analytic tools needed, and examine the implications of these issues for policy makers and regulators. Lectures generally focus on measuring health system performance in high-income countries but draw on the experience of other countries where relevant.

After taking this course students are expected to:
- understand the principles of performance measurement
- appreciate the challenges, approaches, and opportunities in performance measurement in four dimensions: population health, patient outcomes, equity, quality and appropriateness of care, and productivity
- understand the methodological issues facing performance measurement relating to risk adjustment, developing composite measures, and measuring attribution and causality
- identify key issues relevant to policy makers relating to: developing targets and reporting on progress to the public, and developing incentives to improve performance

Teaching: 15 hours of lectures and 24 hours of seminars in the LT. 2 hours of lectures in the ST.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Formative coursework:
- 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.
- 1 hour of lectures and 1 hour and 30 minutes of seminars in the LT.
- Essay (25%, 1500 words) in the LT.

SA4D6 Half Unit
Health Systems and Policies in Developing Countries

This information is for the 2016/17 session.

Teacher responsible: Dr Mitregesh Bhatia OLD2.34

Availability: This course is available on the MSc Health Policy, Planning and Financing, MSc in Global Health, MSc in Health, Community and Development, MSc in Health, Population and Society, MSc in International Health Policy, MSc in International Health Policy (Health Economics) and MSc in Population and Development. This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course focuses on health system reforms. It aims to identify key health systems and policy issues in developing country context and understand why health sector reforms have
become an important issue in the developing countries. It will examine the assumptions upon which health system reforms are based and the evidence to support these assumptions. After an introductory lecture on the history of the development of health systems and policies of the member nations of the World Health Organisation, the content of the course is divided into four components. These are financing health care, delivery of health care and stewardship. Because Primary Health Care is once again at the centre of the World Health Report (2003), these sections will focus on equity, participation and intersectoral collaboration. With respect to financing, the emphasis will be on options for financing health care in developing countries, examining the potential role of user charges, social health insurance and community financing schemes. Delivery will focus on social franchising, decentralisation and the role of the private/public mix. Under stewardship, the course will explore issues around human resources for health and capacity building. The course concludes with a session on the future of Health Sector Reforms in developing countries.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT. 3 hours of lectures in the ST.

**Formative coursework:** An essay of not more than 2,000 words.

**Assessment:** Exam (75%, duration: 2 hours) in the main exam period. Essay (25%, 2000 words) in the ST.

### SA4E9 Half Unit
#### Advanced Health Economics

This information is for the 2016/17 session.

**Teacher responsible:** Prof Alistair McGuire COW.4.05

**Availability:** This course is available on the MSc Health Policy, Planning and Financing, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Health Economics (SA408).

**Indicative reading:** An introductory economics courses are acceptable.

**Course content:** The course will cover: international comparisons of health care expenditure, individual health-seeking behaviour, health care insurance, contract theory applied to the health care sector (including principal-agent theory and incentive payment mechanisms), and equity in health care.

Students may find material from the half unit SA4L5 Applied Health Econometrics, which will run in weeks 1 to 6 of LT (with lectures also in week 11), to be beneficial to studying this course. See the SA4L5 course guide for further detail. In particular, a knowledge of basic econometrics is assumed when taking SA4E9 which will be provided by SA4L5.

**Teaching:** 15 hours of lectures and 20 hours of seminars in the LT. 2 hours of lectures in the ST.

All lectures and seminars will be taught by Professor Alistair McGuire. The lectures will be twice a week from weeks 6 through 10. The seminars will be twice a week from week 7 through 11.

**Formative coursework:** A piece of formative coursework will be set and students will receive feedback on their work.

**Assessment:** Exam (75%, duration: 2 hours) in the main exam period. Essay (25%, 2500 words) in the ST.

### SA4E6 Half Unit
#### Rural Development and Social Policy

This information is for the 2016/17 session.

**Teacher responsible:** Prof David Lewis OLD.2.40

**Availability:** This course is available on the MSc in African Development, MSc in Development Studies, MSc in Environmental Economics and Climate Change, MSc in International Development and Humanitarian Emergencies, MSc in Social Policy (Research), MSc in Social Policy and Development and MSc in Social Policy and Development: Non-Governmental Organisations. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Knowledge of rural areas and relevant work experience is desirable but not essential. Knowledge of sociological and anthropological approaches to rural development also desirable.

**Course content:** Theories of rural development, history of rural development policy, changing rural livelihoods, land and agrarian reform, agricultural research and extension, the roles of private and non-governmental actors, natural resource management, food security, climate change and rural-urban linkages.

**Teaching:** 15 hours of lectures and 12 hours of seminars in the MT. 2 hours of lectures in the ST.

**Formative coursework:** A formative 1500 word essay is required at end of Week 6, and feedback will be given.

**Indicative reading:** A detailed reading list is included in the seminar programme. The following is an introductory reading list: R McAreavey, Rural Development Theory and Practice (2009); World Development Report 2008: Agriculture for Development (World Bank 2009); A Hall & J Midgley, Social Policy for Development (2004); A Shepherd, Sustainable Rural Development (1998); B Crow & H Bernstein (Eds), Rural Lives: Crises and Responses (1992); N Long, Development Sociology: Actor Perspectives (2001); I Scones & J Thompson, Farmer First Revisited (2009).

**Assessment:** Exam (75%, duration: 2 hours) in the main exam period. Essay (25%, 2500 words).

Students are required to write an assessed essay of 2,500 words (25%). A two-hour written examination in the ST (75%).
SA4F3  Half Unit

US Health Policy

This information is for the 2016/17 session.

Teacher responsible: Dr Adam Oliver COW 3.06

Availability: This course is available on the MSc in Health, Population and Society, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.

The course is of value to those wishing to work as health policy analysts or health advocates after graduation, be that in academia, government, industry, or management and practice.

Course content: The course offers an understanding of the major issues in the United States health care policy debate, which is important given that the US health care system is the largest in the world, and that many of its policy innovations are exported abroad. The course is interdisciplinary in nature, covering historical, political, discursive economics and philosophical considerations, among others.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 2 hours of lectures in the ST.

Formative coursework: Students will be given a progress test at the end of LT – this will be a 50 minute test in which they answer one essay question from a choice of three. This is perfect practice for what the students might expect in the final exam.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

The essay will be due for submission in Week 11 of LT.

SA4F7  Half Unit

The Economics of European Social Policy

This information is for the 2016/17 session.

Teacher responsible: Dr Joan Costa-Font OL 2.37

Availability: This course is available on the MSc in EU Politics, MSc in European Social Policy, MSc in European Studies (Research), MSc in European Studies: Ideas, Ideologies and Identities, MSc in European Studies: Ideas, Ideologies and Identities (LSE and Sciences Po), MSc in Political Economy of Europe, MSc in Political Science and Political Economy, MSc in Public Management and Governance, MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Research), MSc in Social Policy (Social Policy and Planning), MSc in Social Policy and Development, MSc in Social Policy and Development: Non-Governmental Organisations and MSc in Social Policy and Planning. This course is available with permission as an outside option to students on other programmes where regulations permit.

This is a capped course. Students are required to register for this course on LSE for You and obtain permission from the European Institute to take this course.

Pre-requisites: Introductory economics is helpful.

Course content: This course attempts to apply economics to examine and evaluate social policies and problems in Europe. The course addresses the main goals for social intervention including poverty relief, inequality, efficiency and accountability. Students will acquire an understanding of the economic theory underpinning the analysis of social policy in the areas of education, health, long-term care, pension, housing, employment, family and housing policy.

The course will provide an analysis of social and public insurance underpinning the financing of welfare states. Students will be asked to apply the economic principles to examples of cross-country reform in Europe. The course will address key questions on social policy intervention, inequality, poverty, tax financing v social insurance, longevity risks and pensions, long term care insurance, financing housing, family policy and wealth accumulation.

Teaching: 10 x 1 hour lectures and 10 x 1.5 hour seminars, LT. 1 x 1 hour revision lecture (ST).

Formative coursework: Two 2,000 word essays.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

SA4F8  Half Unit

Behavioural Public Policy

This information is for the 2016/17 session.

Teacher responsible: Dr Adam Oliver COW 3.06

Availability: This course is available on the MPA in European Public
Course content: The aim of the course is to explore ways of changing behaviour to achieve the aims of public policy. One half of the course will be concerned with the behaviour of professionals who work in public services. How can doctors, teachers and social workers be motivated to provide the best possible care for their patients, pupils or clients? Should we rely upon professionalism and the public service ethos? Should we set up targets and league tables for performance, penalising those who fail to achieve the target or who drop down the table? Or should we rely upon patient or parental choice and competition to provide incentives to improve? The second half of the course explores ways of changing individuals' and households' behaviour in areas of policy concern such as smoking, obesity, and the environment. How can people be persuaded to stop smoking, to take more exercise, to eat less, to reduce their carbon emissions? Should we rely upon punitive measures such as bans, on positive incentives such as financial rewards, or on ‘nudge’ policies that change the choice architecture? Should government intervene at all, if the only people harmed by their own activities are themselves? In trying to answer these questions, the course will draw on recent developments in behavioural economics, motivational and behavioural studies in psychology, and the philosophy of paternalism, including libertarian paternalism and the ‘nudge’ agenda. It will discuss evidence from a wide range of areas of public policy, but especially health care, education and social care, using illustrations and evidence from Europe, North America and Australasia.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour per week in the ST.

Formative coursework: Each student will write one non-assessed essay or mock exam question. There will be a revision session in the summer term, going through the mock exam questions and/or previous years’ exam papers. Each student will make at least one seminar presentation during the term.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 2500 words) in the ST.
but not essential.

**Course content:** The ‘third sector’ is conceived as including all non-state and non-market organisations - such as non-governmental organisations, voluntary organisations, and community groups - and their activities. The course provides a concise introduction to theory and evidence on the nature, past and present roles and potential capacity of third sector organisations in social policy in developed and developing countries. It aims to answer the key questions: what is the ‘third sector’?; what roles does it or should it play in meeting welfare needs?; how are third sector organisations involved in shaping social policy; how are changes in funding and in the provision of services affecting organisations? What are the limits to the roles of third sector organisations? Are the answers affected by country, institutions, policy, period, areas of activity? The course covers theoretical arguments and models of the ideal and actual roles of third sector organisations, and the historical development of the sector in different contexts. It assesses boundaries and relationships between the third sector, the state and the market, and its relationship with different social groups, service users and communities. It describes and explains the size and the role the sector takes in different periods, countries and areas of activity, and evaluates its impact. It considers the independence, interdependence, accountability and probity of third sector organisations. The course draws on examples from a range of areas of activity (such as education, employment, international development, social care), and areas of activity with particular groups (such as migrants and refugees, women, children and older people), as well as a range of countries.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of seminars in the ST.

**Formative coursework:** Students will be expected to participate actively in seminars and to complete one piece of written formative coursework.

**Indicative reading:**

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**SA4G9 Dissertation for MSc Health Policy, Planning and Financing**

This information is for the 2016/17 session.

**Teacher responsible:** Currently Dr M Bhaita (LSE) and Dr N Spicer (LSHTM) as Programme Directors though the Programme Directorship sometimes varies from year to year.

**Availability:** This course is compulsory on the MSc Health Policy, Planning and Financing. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** The aim of the course is to provide a foundation to students on dissertation-writing as well as to address queries students may have in relation to their dissertation topic, the methodology used, the likelihood of ethical approval, and data acquisition, among others. The dissertation could be on any topic in the field of health policy, planning and/or financing. The main body of the dissertation should include the background to the research, method of investigation, results of the analysis, discussion and policy implications and recommendations.

**Teaching:** Teaching comprises two 2-hour seminars, one in the LT and one in the ST.

Students would find it of interest to attend the lectures of SA4C1 on SA4C1 Long Essay and the Research Process - 2 hours in the MT and 3 hours in the LT.

Finally, there is individual supervision for students on the dissertation.

**Formative coursework:** Students will be required to write a summary of the proposed dissertation, outlining the title, background to the topic, methods to be employed, and likely expected results. A list of literature sources will be appended to this summary.

**Assessment:** Dissertation (100%, 10000 words) post-summer term. Dissertation due on 1st September.

---

**SA4H London School of Hygiene & Tropical Medicine - Units**

**This information is for the 2016/17 session.**

**Availability:**
Restricted to MSc Health Policy, Planning and Financing, MSc International Health Policy and MSc International Health Policy (Health Economics) students. This course is not available as an outside option.

**Course content:** London School of Hygiene and Tropical Medicine Linear Modules (MT)

**Health Services**

**Basic Epidemiology:** EPH & PHP*

**Issues in Public Health**

Students taking Linear Modules at the London School of Hygiene and Tropical Medicine (LSHTM) are required to sit for this examination. Students taking just one linear module will be assessed by a one-and-a-half hour written examination in the ST. Students taking two linear modules will be assessed by a three-hour written examination in the LT. A maximum of two LSHTM linear modules may normally be taken subject to academic approval, although in exceptional circumstances three may be taken subject to academic approval.

**London School of Hygiene & Tropical Medicine Study Modules (LT and ST)**

For a detailed list of modules available and codes students are advised to refer to their LSHTM MSc handbook. HPPF students can take a maximum of two LSHTM study modules at the London School of Hygiene and Tropical Medicine subject to academic approval. These are mostly assessed by assignments and there are usually no examinations.

---

**SA4H7 Half Unit Not available in 2016/17**

**Urbanisation and Social Policy in the Global South**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Sunil Kumar 20KSW.4.11

**Availability:** This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Population and Development, MSc in Social Policy (Research), MSc in Social Policy (Social Policy and Planning), MSc in Social Policy and Development and MSc in Social Policy and Development: Non-Governmental Organisations. This course is available as an outside option to students on other programmes where regulations permit.

For postgraduate students interested in urban social policy in developing and transitional countries. The course is also open to students on other MSc Programmes dependent on spaces being
available. Some knowledge and experience of urban issues is desirable. In applying for a place on this course, students will have to upload a statement on LFY explaining why they want to enrol.

**Course content:** The course examines the social, economic and political challenges and governance in urban areas in developing and transitional countries from various conceptual perspectives, and the policies and planning practices aimed at addressing them. Some of the themes explored in the course are: theoretical perspectives on the city; urbanisation and social change; migration; the rural-urban interface; urban poverty and livelihoods; labour markets and housing; urban social movements; urban basic services; and urban management and governance.

**Teaching:** Lectures: 10 x 2-hours. Seminars: 9 x 1.5 hours (MT). Reading week (MT wk 6): Workshop 1 x 3 hrs; Revision (ST): 1 x 2 hours

**Formative coursework:** All students are expected to read widely, and take part in a range of activities in the seminar sessions. Students are required to contribute to the seminars on a weekly basis by undertaking an un-assessed activity called My-City. All written work should be related to urban issues in either developing or transitional countries.

**Indicative reading:** A detailed reading list will be provided for each lecture and seminar. The following is an introductory list of books:

- Beall, J and S Fox (2009), Cities and Development, Routledge;
- Pieterse, E.A. (2008), City Futures: Confronting the Crisis of Urban Development, Zed Books;-
- Staples, J. (Ed) (2007), Exploring Civil Society, Oxford University Press;
- Mitlin, D. and D. Satterthwaite (2012), Urban Poverty in the Global South: scale and nature, Routledge;
- R J Skinner & M J Rodell (Eds) (1983), People, Poverty and Shelter, Methuen;

**Assessment:** Exam (60%, duration: 2 hours) in the main exam period. Essay (40%, 3000 words) in the LT. All written work should be related to urban issues in either developing or transitional countries.

**SA4H9 Half Unit Non-Governmental Organisations, Social Policy and Development**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Armine Ishkanian OLD1.13, Dr Timothy Hildebrandt, Prof David Lewis and Dr Muzafferettin Seckinelgin

**Availability:** This course is compulsory on the MSc in Social Policy and Development: Non-Governmental Organisations. This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in African Development, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in Human Rights, MSc in Social Policy (Research) and MSc in Social Policy and Development. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students will preferably have some experience of work within NGOs and/or relevant government departments or donor agencies working with NGOs.

**Course content:** The course focuses on the specialised field of non-governmental organisations (NGOs) within the field of social policy and development, and considers theoretical and policy issues. Main topics include the history and theory of NGOs; the changing policy contexts in which NGOs operate; NGO service delivery and advocacy roles in policy; challenges of NGO accountability; NGO organisational growth and change; conceptual debates around civil society, social capital, social movements and globalisation; and NGO relationships with other institutional actors including government, donors and private sector.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT.

**Formative coursework:** Students will sit a mock exam held in the LT. Students will receive feedback from their academic adviser on the mock exam. Weekly student led seminars which involve discussion of the assigned readings will also help to develop students’ critical thinking, reading, and analytical skills.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

**SA4J3 Half Unit Dissertation in Global Health**

This information is for the 2016/17 session.

**Teacher responsible:** Mr Huseyn Naci COW 3.01 and Mrs Clare Wenham COW 3.07

**Availability:** This course is compulsory on the MSc in Global Health. This course is not available as an outside option.

**Course content:** The dissertation could be on any topic in the field of global health and policy. It should attempt to integrate approaches and knowledge learned across courses and present results to address a health policy issue or a problem identified through the use of either primary or secondary data. It must demonstrate adequate knowledge of relevant theoretical and empirical literature in the field. In addition, careful analysis of the policy implications and formulation of policy recommendations is essential. The main body of the dissertation should, in principle, include the background to the research, method of investigation, results of the analysis, discussion and policy implications and recommendations.

Students will have the opportunity to attend Information Literacy sessions provided by the Social Policy Librarian.

**Teaching:** 4 hours of workshops in the LT;

Two 2-hour dissertation workshop in LT. Three 1-hour sessions of individual supervision (one-hour per term).

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT. Students will submit a dissertation proposal to their supervisors by the end of LT. This will be subject to peer review and course teachers will provide feedback by the end of May.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

SA4J8 Half Unit
Social Policy and Development:
Core Concepts

This information is for the 2016/17 session.
Teacher responsible: Dr Armine Ishkanian OLD1.13, Dr Timothy
Hildebrandt OLD2.55, Dr Muzafferettin Seckinelgin, Prof Anthony
Hall and Prof David Lewis
Availability: This course is compulsory on the MSc in Social Policy
and Development and MSc in Social Policy and Development:
Non-Governmental Organisations. This course is not available as an
outside option.
This core course is compulsory for the students registered for the
MSc in Social Policy and Development and MSc in Social Policy and
Development (Non-governmental Organisations) programmes. It is
not available for students on other MSc programmes.
Pre-requisites: Students are expected to have a background in the
social sciences and some practical work experience in developing
countries.
Students will be required to take part in a three-day residential
workshop at Cumberland Lodge in Windsor Great Park, during the
Lent term. The cost is included in MSc SPD & NGOs student fees.
Course content: The course is designed to give students
knowledge of core concepts within the theory and implementation
of social policy in developing countries. Such an overview is essential
for those focusing on mainstream social policy and development
issues, and those choosing to specialise on non-governmental
organisations. Main topics will include: Comparative social policy
in north and south; social development and human development;
conceptualizing the state, market and civil society as policy actors;
citizenship, social justice, and rights; comparative approaches to the
understanding of poverty, wellbeing and exclusion; welfare regime
theory; concepts of sustainable livelihoods; global institutions and
the international aid system; conceptualizing the policy process.
Teaching: 15 hours of lectures and 15 hours of seminars in the Lent
Term.
Formative coursework: All students will write and receive
feedback on two formative essays. The first formative essay consists of
an article review (1000 words) and the second essay is based on
a set question (1500 words). Also, the student-led weekly seminars
will require all students to come prepared to discuss the required
readings and link these to the learning outcomes. This process is
designed to help students develop critical thinking, reading, and
analytical skills.

SA4J9 Half Unit
States, Social Policy and Development

This information is for the 2016/17 session.
Teacher responsible: Dr Armine Ishkanian OLD1.13, Prof Anthony
Hall, Dr Timothy Hildebrandt, Prof David Lewis, Dr Muzafferettin
Seckinelgin and Dr Sunil Kumar
Availability: This course is compulsory on the MSc in Social Policy
and Development. This course is available on the MPA in European
Public and Economic Policy, MPA in International Development,
MPA in Public Policy and Management, MPA in Public and
Economic Policy, MPA in Public and Social Policy, MSc in Social
Policy (Research) and MSc in Social Policy and Development: Non-
Governmental Organisations. This course is available as an outside
option to students on other programmes where regulations permit.
Pre-requisites: Lectures and seminars draw on both conceptual
literature and discussion of the practical challenges of social policy
interventions and projects in the developing world.
Course content: This course provides the analytical tools needed
to understand and critically evaluate the key practical challenges
of social development. A wide range of development contexts
will be discussed using empirical research and case studies. Key
themes include: linking social policy theory, implementation and
practice; making social protection effective; managing sector
reform processes; projects and programmes, including design and
evaluation; participation and community development; gender
analysis; the impact of corporate social responsibility and social
enterprises on poverty reduction. Students have the option to
write an assessed ‘project essay’ that will form the basis of their
summative assessment for this course. Alternatively they may
choose an essay topic from the predetermined list.
Teaching: 15 hours of lectures and 15 hours of seminars in the Lent
Term.
Formative coursework: The formative work on this course is a
mock exam held in the Lent Term. Students will receive feedback on
their mock exam from their academic advisers.

Assessment: Exam (100%, duration: 2 hours) in the main exam
period.

SA4K1 Half Unit
Global Health Policy: Institutions, Actors and Politics

This information is for the 2016/17 session.
Teacher responsible: Mrs Clare Wenham
Value of the course: This course is compulsory on the MSc in Global Health. This course is not available as an outside option.

Course content: Globalization has not only impacted on the nature of emerging global health but the policy responses to these challenges. This module critically examines the transnational institutions and actors involved in global health policy and the interplay between them. The governance of global health issues has traditionally been carried out by states and various United Nations agencies (namely, the World Health Organisation), but given the transboundary nature of many global health issues (e.g., AIDS, SARS), a diverse range of actors, including the private sector, civil society organizations and national governments, are now integrally involved. The funding of global health programmes and policies, for example, has shifted from primarily bi-lateral to donors to include private and public sectors and philanthropists in a global health governance mosaic. The module will use a number of case studies to examine the organisation and role of global health institutions, the challenges and opportunities presented by these governance arrangements, and their (intended and unintended) impacts on global health policy and practice. In doing so, the module will draw on contributions from a range of social sciences including sociology, political science and health services research.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. Ten one-hour lectures and five two-hour seminars.

Formative coursework: One seminar presentation per student during MT on a topic as discussed with the convener to fit in with the seminar themes.

Assessment: One extended essay (4000 words) will be due at the end of MT. Students are welcome to select an essay topic of their choice, with approval from the course convener.

SA4K2 Half Unit

Sexuality, Everyday Lives and Social Policy in Developing Countries

This information is for the 2016/17 session.

Teacher responsible: Dr Timothy Hildebrandt OLD2.55

Availability: This course is available on the MSc in Health, Community and Development, MSc in Social Policy (Research), MSc in Social Policy and Development and MSc in Social Policy and Development: Non-Governmental Organisations. This course is available as an outside option to students on other programmes where regulations permit.

This course is capped at 15 students.

Pre-requisites: None

Course content: This course aims to analyse and understand the way social policies deploy sexuality categories in regulating everyday life in developing countries, both in its public and private manifestations. It aims to consider social policy and particular interventions in their historical contexts, as a way of unpacking the construction of sexuality in the intersection of colonialism, gender, race, class and international policy frameworks in developing countries. The course also aims to interrogate the relationship between particular social policy prescriptions developed in most industrialized welfare societies and the way some of these are transferred to developing countries. The major concern of the analysis is to bring out the perceptions of sexuality that underwrite these policies and how these interact with existing perceptions of sexualities and their performances (identities, desires and bodily practices) in multiple developing country contexts. These policy areas include, among others, discussions of rights, entitlements, citizenship, same-sex marriage, sexually transmitted disease, HIV/AIDS, family policies, migration/border controls, criminality and employment-related policies.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.

Formative coursework: Students will be expected to submit a formative essay (2000 words), which is to be handed in by the end of week eight of Lent Term.

Assessment: Essay (100%, 3000 words) in the LT.

SA4K3 MPA Capstone Project

This information is for the 2016/17 session.

Teacher responsible: Dr Babken Babajanian SAR.G.03

Availability: This course is compulsory on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is not available as an outside option.

Course content: Students will undertake a group project (in teams usually of 3 to 6 people) relating to a public policy problem faced by an external organisation. Typical clients include public sector bodies, companies operating in the public management or public policy sector, international organisations or think tanks and NGOs. The group will have from October to March to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem.

Teaching: 4 hours and 30 minutes of seminars in the MT. 3 hours of seminars in the LT. Teaching comprises five 1.5 hour Capstone seminars in the MT and LT. These seminars provide guidance on planning, structuring and presenting the Capstone report and the usage of research methods. Students are asked to participate in the Capstone Professional Development exercises designed to support effective and fair group work. Each Capstone group will be allocated a supervisor, who will provide overall guidance on the project's development and assistance with client liaison. Other members of staff may also advise as required.

Formative coursework: Feedback will be provided on presentations of work-in-progress during MT and LT.

Indicative reading:

Teaching comprises six seminars in the MT and LT. These seminars
qualitative data and draw on primary and/or secondary research.
Teaching: 6 hours of seminars in the MT. 1 hour and 30 minutes of
seminars and 1 hour of seminars in the LT.

Teaching: 6 hours of seminars in the MT and LT. These seminars
provide academic and practical guidance on developing a research
topic and question; designing an analytical framework; structuring
of the analysis, discussion of findings, conclusions and theoretical
and policy implications. Dissertations can utilise quantitative and/or
supervision on the basis of the group's performance in terms of (i)
scoping and project development (including coping with difficulties),
(ii) group working and self-management as a team, and (iii) the
overall output of the project (10% for each item).

Additionally, each group member must complete the Capstone
evaluation and personal reflection exercise. This will be submitted
individually and separately from the report.

SA4K4

MPA Dissertation

This information is for the 2016/17 session.

Teacher responsible: Dr Babken Babajanian SAR.G.03

Availability: This course is available on the MPA Dual Degree
(LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual
Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po),
MPA Dual Degree (LSE and Tokyo), MPA in European Public and
Economic Policy, MPA in International Development, MPA in Public
Policy and Management, MPA in Public and Economic Policy and
MPA in Public and Social Policy. This course is not available as an
outside option.

Students may not take this course and an MPA Policy Paper.

Course content: The aim of this course is to enable students to
plan, design and conduct independent substantial research and/or
analysis in an area of public policy. MPA students will write a
dissertation of no more than 10,000 words on a topic of their
choice to be agreed with their Academic Adviser. The dissertation
must be concerned with the goal of policy improvement and,
at the same time, it must contribute to a broader objective of
knowledge-building. The main body of the dissertation should
include literature review, method of investigation, results of the
analysis, discussion of findings, conclusions and theoretical
and policy implications. Dissertations can utilise quantitative and/or
qualitative data and draw on primary and/or secondary research.

Teaching: 6 hours of seminars in the MT. 1 hour and 30 minutes of
seminars and 1 hour of seminars in the LT.

Teaching comprises six seminars in the MT and LT. These seminars
provide academic and practical guidance on developing a research
topic and question; designing an analytical framework; structuring
and presenting policy analysis; and writing policy recommendations.
The student's Academic Adviser will provide advice and guidance on
this piece of work.

by-Step Guide for Students (SAGE Study Skills Series, 2008);
Christopher Hart, Doing Your Masters Dissertation (SAGE Study
Skills Series, 2004); Patrick Dunleavy, Authoring a PhD (Palgrave
Macmillan, 2003)

Assessment: Dissertation (90%, 10,000 words) in the ST.
Other (10%) in the MT.

1) A 1,500 word dissertation proposal consisting of the title,
abstract, research question and hypothesis, justification for research,
feasibility of the dissertation topic, an explanation of sources,
provisional structure and analytical framework will count for 10% of
the overall dissertation mark. Students may only change their topic
thereafter with the agreement of their Academic Adviser. Students
will be given feedback on their proposal.
2) The full dissertation of no more than 10,000 words will account
for the remaining 90% of the overall mark.

SA4L1 Half Unit

The Governance of Welfare: The Nation State and the European Union

This information is for the 2016/17 session.

Teacher responsible: Dr Stephen Mengen OLD Z.62

Availability: This course is compulsory on the MSc in Social Policy
(European and Comparative Social Policy). This course is available
on the MSc in China in Comparative Perspective, MSc in EU Politics,
MSc in Public Policy and Administration, MSc in Regulation, MSc in
Social Policy (Research) and MSc in Social Policy (Social Policy and
Planning). This course is available as an outside option to students
on other programmes where regulations permit.

Course content: The initial lecture introduces the principal methods
and analytic models of comparative social policy. This is followed by
a review of the development of modern welfare states in Western
Europe from the last quarter of the 19th century, when many of
the key institutional features of European welfare were being
created. Then a series of lectures provides analysis of contemporary
welfare models as they have evolved in major EU member states
since the end of the Second World War: Sweden (representing
social democracy) France and Germany (representing two variants
of ‘conservative corporatism’ as Esping-Andersen in the Three
Worlads of Welfare Capitalism termed them), Italy and Spain (as
representatives of the Mediterranean ‘middle way’) and welfare
states of Transitional Economies in the new EU members. Discussion
of the social policy competence of the European Union completes
the teaching in the last three sessions.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT.
1 hour and 30 minutes of seminars in the ST.

Formative coursework: Students will be required to submit
one formative essay of 1500 words by the end of week 6 of the
Michaelmas Term.

Indicative reading: Baldwin, P The Politics of Social Solidarity -
Class Bases of European Welfare States 1875-1975, Cambridge

SA4L4

Behaviour, Happiness and Public Policy

This information is for the 2016/17 session.

Teacher responsible: Prof Paul Dolan OLDD.38

Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Environmental Economics and Climate Change, MSc in International Health Policy, MSc in Social Policy (Research) and MSc in Social Policy (Social Policy and Planning). This course is available as an outside option to students on other programmes where regulations permit.

This is a capped course. In teaching week 1 places will be allocated to students from the Department of Social Policy on a first come, first served basis. At the start of week 2 any remaining places will be allocated to students from other departments, again on a first come first served basis.

Course content: This course aims to introduce students to the main concepts and tools of the growing fields of behavioural science and the science of happiness. The course brings these fields together with a clear focus on social policy. To achieve this aim, the course is based around twenty lectures covering: 1) what is wellbeing? 2) what is behavioural science? 3) choices under risk and uncertainty. 4) intertemporal decisions; 5) social preferences; 6) distributional preferences; 7) the role of emotions in decision making; 8) compensating behaviours; 9) dual-process models of behaviour and the role of the unconscious mind; 10) dual process modelling in policy; 11) wellbeing in economics; 12) research on happiness; 13) the determinants of life satisfaction; 14) moment-to-moment assessments of happiness as an alternative; 15) the role of eudemonic accounts of subjective wellbeing (meaning, purpose, etc.); 16) why we are often not very good at predicting our happiness; 17) valuing non-market goods (health, environment, etc.) using preferences; 18) valuing non-market goods using happiness; 19) evidence-based policy; 20) Making better decisions – bringing behaviour and happiness together.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 15 hours of lectures and 15 hours of seminars in the ST. There are ten topics, and the seminars allow for in depth discussion and analysis of the issues raised in the lectures. Formative coursework:

Formative coursework: Two presentations, one in MT and one in ST.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (25%, 2000 words) in the LT.

Essay (25%, 2000 words) in the MT.

SA4L5

Half Unit

Applied Health Econometrics

This information is for the 2016/17 session.

Teacher responsible: Dr Grace Lordan OLDM2.26

Availability: This course is available on the MSc in International Health Policy (Health Economics). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Health Economics (SA408).

Alternatively, students should have completed another foundation course in microeconomics. If this was completed outside of the LSE at an undergraduate level, please contact Dr. Lordan for further advice.

Course content: Most research questions, in health economics require students to apply econometric techniques. This course will introduce these techniques and students exiting the course can expect to have acquired a competency in econometrics as it is applied to health economics. The seminars- which are lab based- will allow students to apply these methods to practical problems using Stata and decipher the results.

This content of this course may be useful to those considering the half unit SA4E9 Advanced Health Economics which will run in weeks 6 to 11 of LT and week 1 of ST. See the SA4E9 course guide for further detail.

Teaching: 12 hours of lectures and 22 hours of seminars in the LT. All lectures and seminars will be taught by Dr. Grace Lordan. The lectures will be twice a week from weeks 1 through 5. The seminars will be twice a week from week 1 through 6 (with the exception of week 1 where you will have 1 seminar). There will be a mock exam and a revision lecture in week 11.

Formative coursework: Two pieces: 1) A set of problems given in seminar 4, tackled without help during the seminar and submitted afterwards. · This work will be read and feedback provided. 2) A mock exam in week 11. This work will be read and feedback provided by week 9.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Coursework (30%).

One written assignment using STATA (30%).
SA4L6 Half Unit
Illegal Drugs and Their Control: Theory, Policy and Practice

This information is for the 2016/17 session.
Teacher responsible: Dr Michael Shiner OLD2.49
Availability: This course is available on the MSc in Criminal Justice Policy, MSc in Regulation, MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Research), MSc in Social Policy (Social Policy and Planning) and Master of Laws. This course is available as an outside option to students on other programmes where regulations permit.
If this course is oversubscribed places will be allocated firstly to MSc Criminal Justice Policy students, then other Social Policy students and then students from other departments on a first come first served basis.
Pre-requisites: Some familiarity with criminology or sociology is preferable but not essential
Course content: This multi-disciplinary course draws on sociology, psychology, criminology and law to examine the place and meaning of illegal drug use in late modern societies and associated policy responses. It begins by considering drug use and subcultural formations; the ‘normalisation’ of drug use; drug tourism; the role of addiction; and the organisation of drug markets. It then goes on to consider the making of drugs policy; drugs, policing and the law; treatment and harm reduction; drugs as a development and human rights issue; decriminalisation and alternatives to prohibition.
Teaching: 10 x 1.5 hours of lectures and 10 x 1.5 hours of seminars in the MT.
Formative coursework: Students will be expected to submit a formative essay (2,000 words), which is to be handed in by the end of week eight of MT.
Assessment: Essay (100%, 3000 words) in the LT.
be handed in during the first week of the LT.

SA4M6 Half Unit
Economic Analysis for Health Policy

This information is for the 2016/17 session.
Teacher responsible: Prof Elias Mossialos COW.4.08
Availability: This course is compulsory on the MSc in Global Health. This course is not available as an outside option.
Course content: The course will serve as an introduction to major developments in the economics of health and health care. It will provide medical practitioners with a strong understanding of the role economics can play in health policy and health system administration. It will provide a framework with which to understand the changing nature of health care supply and deliver and the interactions between patients and health care systems. It will review major changes in the financing and delivery of health care and both domestic and international efforts to control health care costs and improve efficiency.
By the end of this course, students will:
• understand complex interactions between health care delivery, insurance markets, governments, business organizations, and the health of populations;
• be comfortable applying economic reasoning and models to analyse health care policies and markets;
• be familiar with the seminal and most recent literature and evidence in the health economics and health policy fields;
• obtain a deep understanding of a particular health policy problem through independent research;
• be familiar with the ongoing debates around the role of prices, markets, competition and the state in the financing and delivery of health care.
Teaching: 10 hours of lectures and 10 hours of seminars in the MT.
Theoretical rationality 3 hours of help sessions in the ST.
Ten one hour lectures and five two hour seminars, plus a three-hour revision seminar in the ST.
Formative coursework: 5 Response papers to each set of readings in preparation for each seminar
Manning W et al, Health Insurance and the demand for medical care. As the industrialism thesis, the power resources model, new institutionalism, feminist theory and the globalisation thesis. These will be examined in the context of the rise of modern welfare states and their transformations since the end of the ‘Golden Age’ in the mid-1970s. These analyses and the theoretical approaches to cross-national study of welfare states will be harnessed in the second part of the course when the focus shifts towards more recent policy developments since the 1990s.
The empirical focus is on the welfare-and-work nexus. The course analyses the development of labour market and family policies in Nordic countries, Continental Europe, Anglo-phone countries and East Asia.
Teaching: 10 hours of lectures and 15 hours of seminars in the LT.
Formative coursework: Seminar members will be expected to make presentations to the seminar, and submit a formative essay of 1,500 words.
Assessment: Essay (100%, 3000 words).

SA4M1 Half Unit
Politics of Social Policy: Welfare and Work in Comparative Perspective

This information is for the 2016/17 session.
Teacher responsible: Dr Timo Fleckenstein OLD1.17
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Sociology, MSc in Public Policy and Administration, MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Research) and MSc in Social Policy (Social Policy and Planning). This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course explores the politics of social policy in advanced political economies. In the first part of the course,
SA4N3  Half Unit  Social Policy and Global Health  

This information is for the 2016/17 session.
Teacher responsible: Dr Justin Parkhurst COW.3.08
Availability: This course is compulsory on the MSc in Global Health. This course is not available as an outside option.
Course content: The course introduces to the social determinants of health, and how global health issues are reliant on, and addressed by, social policy concerns and interventions. Following this, the course is organized in sessions addressing the health effects of a range of broad social and structural determinants and areas of social policy (e.g. education; childcare and/or early childhood; labour and employment; poverty; inequality; cash transfer programmes, etc.), along with example global health issues to explore the social and structural drivers of health. The impact of social policies on health based on both country-specific and cross-national studies is critically assessed. The course further engages with the challenges of policymaking and forming policy responses to social and structural drivers of health, particularly at the global level. Specific methodological approaches and challenges are also discussed based on both conceptual and empirical studies.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. 3 hours of help sessions in the ST.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Formative coursework: One non-assessed project report (2,000 words) in Week 5. Students are expected to deliver a research plan for a proposed project. It is expected that it will have a comparative character, comparing regions, countries or other geographic units that are of policy relevance. The research project will follow one of two structures:

1. Consider the specific hypotheses and evidence that might support a particular social policy intervention to impact on health; OR
2. Students will briefly summarize key literature, and identify the gaps in knowledge, and propose a concrete research question that can be addressed empirically and that contributes to filling a gap in the literature. Finally, they will outline an approach to address the proposed question, and discuss the potential strengths and limitations of their approach. Students will receive feedback on this proposal, which will serve as basis for the development of the final project paper.

Assessment: Exam (75%, duration: 2 hours) in the main exam period.
Essay (25%, 3000 words) in the LT.

SA4N4  Half Unit  Financing Health Care: Comparative Perspectives

This information is for the 2016/17 session.
Teacher responsible: Prof Elias Mossialos COW.4.08
Availability: This course is compulsory on the MSc in Global Health. This course is not available as an outside option.
Course content: This course aims to introduce students to a comparative approach to analysing the development of health care financing, both in theory and in practice, with an emphasis on critical assessment of current and future policy options and issues. It focuses on the health financing functions of collecting revenue, pooling funds and purchasing services, as well as on policy choices concerning coverage, resource allocation and market structure. The course mainly draws on examples from health financing policy in both developed and low and middle income countries.

By the end of this course, students will have:

• a grasp of the economic, political and philosophical concepts relevant to any discussion of health financing policy;
• a good understanding of how financing arrangements affect the achievement of key health financing policy goals such as financial protection, equity in financing and equity of access to health care, incentives for efficiency and quality in the organisation and delivery of health services, administrative efficiency, transparency and accountability;
• the skills to critically assess current health financing arrangements and options for reform;
• an overview of key health financing policy issues, including the advantages and disadvantages of different ways of raising revenue for health; the role of private financing mechanisms; the importance of pooling; decisions about whom to cover, what services to cover, and how much of service cost to cover; allocating resources to purchasers, purchasing market structure and the principles of strategic purchasing; the incentives associated with different methods of paying providers; and the issue of financial sustainability.

Teaching: 14 hours of lectures, 10 hours of seminars and 3 hours of help sessions in the MT. 3 hours of help sessions in the ST. Five 2-hour lectures and four 1-hour lectures in the MT. Five 2-hour seminars in the MT. One 3-hour revision lecture in the MT. One 3-hour revision seminar in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT.

One non-assessed essay (2,000 words) in week 6.

Assessment: Exam (75%, duration: 2 hours) in the main exam period.
Essay (25%, 3000 words) in the MT.
SA4N5  Half Unit
Global Ageing

This information is for the 2016/17 session.
Teacher responsible: Prof Emily Grundy OLD.1.11
Availability: This course is compulsory on the MSc in Global Health. This course is available on the MSc in Population and Development. This course is available with permission as an outside option to students on other programmes where regulations permit. A core course for students taking MSc Global Health and available to other students taking relevant MSc programmes, particularly Health, Population and Society and Health and Population Development.
Course content: Population ageing is now a near global phenomenon and is perceived as presenting major challenges not only in regions with an already high representation of older people but also in low and middle income countries set to ‘grow old before they grow rich’. This course will consider the process and implications of ageing at both the population and the individual level and policy responses.
The course will be structured into five sections. The first will focus on demographic change and the causes and the course of population ageing in various world regions. This element will include explanation and discussion of population dynamics (how populations age) and inter-related social and economic changes associated with demographic transition (why populations age) and their implications for both older and younger generations.
The second section will focus on the process of ageing at the individual level including an overview of recent biological, social and psychological theories of ageing.
In the third section the emphasis will be on trends and differentials in the health of older populations. This will include discussion of the epidemiological transition; measures of health and disability and current debates about the future health status of the older population in different settings and prospects for further changes in longevity.
The fourth section will consider different models of health and social care provision in older populations and policy responses to population ageing at the international, national and regional level. The final section will be an integrative one in which these themes are drawn together with examples focused on particular countries or regions. This will be linked with student presentations of posters.
Teaching: 15 hours of lectures and 10 hours of seminars in the LT. 2 hours of help sessions in the ST.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT. Students will be asked to work in groups of (4-5) to produce and present posters on ageing in a specific country which relate to the main themes of the course and so consider demographic, social, economic, health and health care, and policy dimensions. Students will also be required to produce an individual 1,000 word essay on the poster theme for which they took primary responsibility
Indicative reading: Albertini M, Martin K, Vogel C.
Assessment: Exam (75%), duration: 2 hours) in the main exam period. Essay (25%, 3000 words) in the LT.

SA4N6  Half Unit
Principles of Modern Epidemiology

This information is for the 2016/17 session.
Teacher responsible: Mr Alain Hackshaw
Availability: This course is available on the MSc in Global Health. This course is available with permission as an outside option to students on other programmes where regulations permit. An optional course for students taking MSc Global Health and available to other students taking relevant MSc programmes, particularly Health, Population and Society and Health and Population Development.
Course content: The course provides students with an understanding of key epidemiological concepts associated with describing disease/mortality or other health-related features of a population (such as causes of disease or early death), and evaluating ways to treat disease, or prevent disease or early death. This will include: (a) tools for descriptive epidemiology (incidence, prevalence and survival); (b) measures of association, using relative and absolute measures; and (c) confounding and bias. The course introduces the concepts associated with the design and analysis of research studies that are used to examine features of population health and burden of disease. It also introduces students to the principles of causality and risk factors. Students will cover the most common types of research studies used to evaluate human health (observational studies and clinical trials). The course includes fundamentals of data interpretation, including effect sizes, and data analysis (e.g. regression modelling).
Teaching is structured in the form of lectures and seminars. Lectures introduce students to key epidemiological concepts and methods, and complemented by seminars. Most lectures and seminars are based around specific published papers in epidemiology, used to illustrate the concepts. These articles would be sent to students in advance of each class, and students are expected to prepare a short review of the article, using an accompanying set of questions on the study design and interpretation. Summative assessment is based on an examination to assess student’s understanding of epidemiological concepts and their ability to interpret study results. Summative assessment also includes a research proposal in which students are expected to apply the basic principles of epidemiology in the context of a well-defined research question.
Teaching: 14 hours of lectures and 10 hours of seminars in the LT. 3 hours of help sessions in the ST.
Four 2-hour lectures, six 1-hour lectures, and 5 2-hour seminars in the LT. One 3-hour revision seminar in the ST.
Formative coursework: Students will be expected to produce 1 project in the LT. Students will be expected to produce one project in the LT, based on designing a research study, using a topic chosen by the student. In week 6, students would submit a draft report (up to 2000 words) of their project so far (not assessed, but feedback provided), as formative coursework. After this, the report would be expanded and finalised (~3000 words). In the report, students are expected to: (i) identify an epidemiological research question of relevance to global health, with justification, (ii) provide a summary of the key literature, and identify gaps in knowledge, and (iii) describe an epidemiological study to address their research question, including the methods.
Indicative reading:
Assessment: Exam (75%, duration: 2 hours) in the main exam period. Project (25%, 3000 words) in the LT. An assessed research project paper of 3,000 words (25%) to be
SA4N7  Half Unit  Economics of Health and Wellbeing
This information is for the 2016/17 session.
Teacher responsible: Dr Grace Lordan M 2.26
Some lectures will be taken by Professor Andrew Clark (http://www.parisschoolofeconomics.com/clark-andrew/index.html#DEA).
Andrew currently has a partial appointment at the LSE in CEP.
Availability: This course is available on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.
Pre-requisites: To have progressed from year 1 of the MSc in Health Economics, Policy and Management into year two students will have passed SA4E1 Health Administration and Management, SA4E2 Resource Allocation and Cost-effectiveness Analysis, SAAG1 Financing Health Care and SAAG2 Health Economics.
Course content: Overall the lectures will follow the following structure:
1. Lecture 1 Introduction
2. Lecture 2 Measurement
3. Lecture 3: Determinants of wellbeing
4. Lecture 4: Determinants of health with a focus on the income/health gradient
5. Lecture 5: Determinants of unhealthy behaviours (drinking, smoking, drug taking, obesity) with a focus on peer effects
In addition, we will have four seminar sessions that will complement these lectures. The following lectures map to individual seminars: (1 and 2), (3), (4) and (5)
This course is being convened by Dr Grace Lordan and will introduce students to the economics of health and wellbeing. Focus will be on the health or wellbeing production function, and the related economics literature. In particular, the course will cover how health and wellbeing are measured in the literature and factors that determine these outcomes. Attention will be paid to defining what a causal effect is and specifying an appropriate health production function. In this regard the student can expect to become familiar with some basic econometrics. In terms of measurement, we will consider the value of subjective versus objective outcomes. We will discuss the human development index and the Millennium development goals. In addition, the course will review the main determinants of physical health, including inequality. Unhealthy behaviours will also be covered, including drug taking, obesity and smoking. Some attention will be paid to the role of peer effects in this regard. The course will also cover well-being, income comparisons and the Easterlin Paradox. This component will be taken by Professor Andrew Clark who is an affiliate with the Wellbeing group at the CEP. Overall, students taking this course can expect to gain insight as to the challenges faced by policy makers in altering the health and wellbeing outcomes of a nation. Students will also gain some insight into policies that are likely to be the most fruitful. Students will also become more familiar with a literature that considers individual health and wellbeing. This course will be complementary to the content covered in Advanced Health Economics. However, there is no overlap and this course can also be taken on its own.
Teaching: 14 hours of lectures and 8 hours of seminars in the ST.
This course will be a combination of lectures- where students learn theory- and seminars- where students apply what they have learned.
Formative coursework: Students will be given a mock exam on the last day and will receive feedback via a remote session.
Indicative reading: Main Readings:
Books:
1. The Economics Of Excess (2011) by Harold Winter
   Articles:
   Optional Readings:
Assessment: Take home exam (100%) in the MT.

SA4N8  Half Unit  Riots, Disorder and Urban Violence
This information is for the 2016/17 session.
Teacher responsible: Tim Newburn (OLD 240a)
Availability: This course is available on the MSc in Criminal Justice Policy, MSc in Social Policy (European and Comparative Social Policy), MSc in Social Policy (Research), MSc in Social Policy (Social Policy and Planning) and Master of Laws. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course focuses on urban or collective violence, or what more colloquially tend to be referred to as ‘riots’. The course will consider the various approaches that have been taken to this subject - via history, psychology and sociology - and, focusing on particular examples, the course will examine some of the core issues in the field including: the causes of riots; psychological versus sociological explanations; the role of race/ethnicity; the impact of traditional and new social media on the nature and organisation of rioting; the role and changing nature of the policing of urban disorder; and how riots might be understood both historically and comparatively.
Teaching: 10 hours of lectures and 15 hours of seminars in the LT.
Formative coursework: Students will be required to write and submit two pieces of formative coursework for assessment and peer feedback. The first will be an essay outline - in effect an outline of a answer to a potential examination question, including a full introductory paragraph. The second will be an outline of their intended case study. Both pieces of formative coursework will be shared via Moodle and all students will be encouraged to offer constructive feedback to each other as well, of course, as receiving feedback from the course director. Peer feedback will be utilised as a means of encouraging a degree of group work and collective endeavour among course participants.
This course will be focused on the principles of reviewing and reviews and meta-analyses. Need individuals equipped with the methods of reviewing and device licensing agencies, biopharmaceutical industry, and hospitals (including health technology assessment bodies, drug and medical interventions to address comparative effectiveness questions. A indirect comparisons (e.g., network meta-analyses) of two or more interventions do not exist, researchers also increasingly perform interventions. In situations where direct, head-to-head comparisons (such as systematic reviews and meta-analyses) are increasingly

Course content:

Students on other programmes where regulations permit.

This course is available as an outside option to Health Policy. This course is available on the MSc in Global Health, Dr Huseyin Naci COW 3.01

Teacher responsible:

This information is for the 2016/17 session.

SA4P1 Half Unit Evidence Review and Synthesis for Decision Making

This information is for the 2016/17 session.

Teacher responsible: Dr Huseyin Naci COW 3.01

Availability: This course is available on the MSc in Global Health, MSc in Health, Population and Society and MSc in International Health Policy. This course is available as an outside option to students on other programmes where regulations permit. This course is relevant to all students with an interest in the health and social care interventions.

Course content: Evidence review and synthesis methods (such as systematic reviews and meta-analyses) are increasingly used to evaluate the relative benefits and harms of healthcare interventions. In situations where direct, head-to-head comparisons of interventions do not exist, researchers also increasingly perform indirect comparisons (e.g., network meta-analyses) of two or more interventions to address comparative effectiveness questions. A broad range of decision making bodies across the health care sector (including health technology assessment bodies, drug and medical device licensing agencies, biopharmaceutical industry, and hospitals) need individuals equipped with the methods of reviewing and synthesising the existing body of evidence by performing systematic reviews and meta-analyses. This course will be focused on the principles of reviewing and synthesising the existing body of literature. The course will have three components. The first will provide the rationale for adopting a systematic approach for evidence review and synthesis. It will equip students with the methods to undertake risk of bias assessments of randomised and non-randomised studies. The second component will focus on the quantitative synthesis of multiple studies in meta-analysis. The third component will discuss the opportunities and challenges of using evidence for decision-making. The intended learning outcomes of this course will be the following:

- Describe the rationale for adopting a systematic approach to literature review
- Define the principal threats to validity both in individual studies and collections of studies
- Critically evaluate the quality of randomised and non-randomised studies in oral and written form
- Assess heterogeneity in a collection of studies
- Design and perform a systematic review and meta-analysis evaluating a health care intervention in a group setting
- Describe the opportunities and challenges of using systematic review and meta-analysis findings for decision making

Teaching: 15 hours of lectures, 7 hours and 30 minutes of seminars and 3 hours of computer workshops in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Formative assessment:

- Systematic review and meta-analysis protocol (submitted as a group) - feedback provided by course instructor
- Peer review of risk of bias assessments (groups to provide feedback to each other based on suggested areas to emphasise by course instructor)
- Peer review of meta-analysis dataset and statistical analysis plan (groups to provide feedback to each other based on suggested areas to emphasise by course instructor)

Assessment: Project (70%, 3000 words) in the Week 11. Presentation (30%) in the ST. Summative assessment:

- meta-analysis
- Poster presentation of findings to a hypothetical decision maker (30%)

SA4V8 Half Unit MPA Policy Paper

This information is for the 2016/17 session.

Teacher responsible: Dr Babken Babajanian SAR.G.03

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy and MPA in Public and Social Policy. This course is not available as an outside option.

Students may not take this course and an MPA Dissertation.

Course content: The aim of the course is to enable students to plan, design and conduct independent analysis in an area of public policy. MPA students will write an individually-authored policy paper of no more than 6,000 words on a topic developed in consultation with their Academic Adviser. The paper will analyse a concrete policy problem in a specific setting and propose an
Welfare Analysis and Measurement

This information is for the 2016/17 session.

Teacher responsible: Prof Stephen Jenkins OLD2.29 and Dr Berkay Ozcan OLD2.32

Availability: This course is compulsory on the MPA in Public and Social Policy. This course is available on the MPA Dual Degree (LE and Columbia), MPA Dual Degree (LE and Hertie), MPA Dual Degree (LE and NUS), MPA Dual Degree (LE and Sciences Po), MPA Dual Degree (LE and Tokyo), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MSc in Inequalities and Social Science, MSc in International Health Policy, MSc in International Health Policy (Health Economics) and MSc in Social Policy (Research). This course is available on either the first or second year.

Pre-requisites: The course has no formal pre-requisites. Because much of the empirical evidence referred to in the course is quantitative in nature, a familiarity with basic statistical concepts and basic calculus is useful but not essential. (These topics are reviewed during the pre-sessional course of the MPA programme EC408.)

Course content: This course provides an introduction to the analysis and measurement of the welfare of individuals and societies, examining concepts, measurement and data, as well as providing illustrations. The aim is to provide an understanding of the main tools used to measure and monitor individuals and social welfare, and to develop skills for assessing academic research and official statistics (as produced by national or international agencies) and for undertaking own's own analysis. The first half of the course focuses on univariate monetary measures of economic wellbeing notably ‘income’, and on the experience of OECD countries (especially the UK, EU, and USA), but the aim is also to place these in the context of developments based on other approaches and in other countries including middle- and low-income nations. The topics covered include measurement of inequality, poverty, and mobility; setting poverty thresholds and equivalence scales; data sources and their quality; empirical illustrations considering assessments of trends within countries, cross-national differences, and global poverty and inequality. The second half of the course broadens the perspective to consider a range of non-monetary, multidimensional, and subjective measures of welfare for individuals and societies. Examples include occupational and socio-economic status (SES), anthropometric measures, the Human Development Index and related indices of development, and measures of happiness and life satisfaction.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures and 1 hour and 30 minutes of seminars in the ST.

The course provides a reading week in Week 6 of Michaelmas and Lent Terms.

Assessment: Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 2000 words) in the LT.

SO401 Social Research Methods

This information is for the 2016/17 session.

Teacher responsible: Dr Fabien Accominotti STC S206
Dr Rebecca Elliott - STC S211

Availability: This course is compulsory on the MSc in Sociology and MSc in Sociology (Research). This course is available on the MSc in Economy, Risk and Society and MSc in Political Sociology. This course is not available as an outside option.

Part-time students taking the MSc over two years may take the course in either the first or second year.

Course content: This course introduces students to the theory and practice of research methods in sociology, comprising both qualitative and quantitative methods. The first ten sessions (in the Michaelmas Term) cover quantitative methods and the design of quantitative social research. As the course does not cover hands-on quantitative data analysis, students are encouraged to take MY451 and MY452 to complement it. The ten seminars in the Lent address issues of research design, data collection and analysis in relation to qualitative research methods. Separate syllabi detailing course objectives, course style, readings, teaching arrangements and student assessment and for each of the two terms will be distributed at the beginning of each sequence.

Teaching: The course is taught by a mixture of lectures, seminars and workshops. It normally provides two hours of teaching each week in MT, with 3 hour workshops in the LT and three revision seminars in ST.

Formative coursework: Students must participate in group
presentations and undertake several pieces of compulsory practical work during the year.

**Assessment:** Exam (25%, duration: 2 hours) in the main exam period.

Coursework (25%) in the MT. Presentation (10%) in the LT.

Research project (40%) in the ST. The Michaelemas Term session is assessed by two methods: (a) one piece of coursework (25%) and (b) a two-hour written examination in the ST (25%). The Lent Term session is assessed by a qualitative research project (10% presentation; 40% project write-up). Two hard copies of each assessment, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the submission day. The Michaelemas Term coursework consists of two 1000-word memos; these are due on the Wednesday of week 9 and the Wednesday of week 11, respectively. The Lent Term project is due on the fourth Tuesday of Summer Term. An additional copy of each assessment is to be uploaded to Moodle no later than 18:00 on the same day each is due. Attendance at all seminars and submission of all set coursework are required.

---

**SO407**

**Politics and Society**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Robin Archer STC S105

**Availability:** This course is compulsory on the MSc in Political Sociology. This course is available on the MSc in European Studies: Ideas, Ideologies and Identities, MSc in European Studies: Ideas, Ideologies and Identities (LSE and Sciences Po), MSc in Social Research Methods, MSc in Sociology and MSc in Sociology. (Research). This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course aims to explore some of the great debates about the relationship between politics and society. It will examine the interaction between political institutions, economic interests and cultural ideas, especially in societies that are both democratic and capitalist. The course will explore some of the classic empirical and historical controversies that have animated political sociologists. Each week, we will discuss questions like: What gave rise to states and nations? Why are some social movements more successful than others? How does social change shape parties and elections? Do repressive states give rise to radicalism? Why are welfare states more developed in some countries than others? Why is there no Labor Party in the United States? Under what conditions does democracy develop? What explains the growth of populism? And has neo-liberalism become hegemonic? The course will also look at the canonical writings of authors like Marx, Weber and Tocqueville, as well as critically explore the use of some political concepts. In addition, it will enable you to build up your knowledge of a number of countries and to assess the strengths and weaknesses of some of the main theories and approaches that have dominated the study of political sociology. These include functionalist, rational choice, and institutionalist theories, as well as historical and comparative approaches.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Reading weeks:** week 6 MT and week 6 LT. Seminars: Papers will be presented by participants and, on occasion, by guest speakers. In addition to the weekly seminar, there will be a number of additional seminars specifically concerned with research strategies in political sociology. If possible, students should attend the lecture course SO203 Political Sociology when available.

**Indicative reading:** B. Anderson. Imagined Communities; R. Archer, Why is There No Labour Party in the United States?; M. McQuarrie et al, Democratizing Inequalities; P Evans et al, Bringing the State Back In; S M Liptet, 'The Social Requisites of Democracy Revisited', American Sociological Review, vol 59; S Lukes, Power: A Radical View; D McAdam, Comparative Perspectives on Social Movements; M Mann, The Sources of Social Power; M Olson, The Logic of Collective Action; T Skocpol, Protecting Soldiers and Mothers; C. Tilly, Coercion, Capital and European States; L. Weiss, The Myth of the Powerless State.

**Assessment:** Exam (70%, duration: 3 hours) in the main exam period.

Essay (30%, 3000 words) in the ST. The Michaelmas Term session is assessed by two methods: (a) one piece of coursework (25%) and (b) a two-hour written examination in the ST (25%). The Lent Term session is assessed by a qualitative research project (10% presentation; 40% project write-up). Two hard copies of each assessment, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Thursday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all seminars and submission of all set coursework is required.

---

**SO424**

**Approaches to Human Rights**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Chetan Bhatt TW3.8.02A

**Availability:** This course is compulsory on the MSc in Human Rights. This course is available with permission as an outside option to students on other programmes where regulations permit. The course is capped but a limited number of places are usually available to students from outside the MSc in Human Rights who wish to take this as an option. Priority is given to postgraduate students in the Sociology Department and those registered on the LLM. The course is also available as an outside option for other MSc degrees where regulations and numbers permit. Students from other programmes who wish to apply for a place on SO424 must complete the online application form on LSEforYou stating reasons for wishing to take the course.

**Course content:** This is a multi-disciplinary course that provides students with a rigorous and focused engagement with different disciplinary perspectives on the subject of human rights including philosophy, sociology and international law. It provides students with contending interpretations of human rights as an idea and practice from the different standpoints that the disciplines present (including debates from within and between the disciplines), and investigates the particular knowledge claims and modes of reasoning that the respective disciplines engage. The course
SO425
Regulation, Risk and Economic Life
This information is for the 2016/17 session.
Teacher responsible: Prof Bridget Hutter STC S217
Availability: This course is compulsory on the MSc in Economy, Risk and Society. This course is available on the MSc in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPhil/PhD in Accounting, MSc in Culture and Society, MSc in Environmental Policy and Regulation, MSc in Political Sociology, MSc in Regulation, MSc in Risk and Finance, MSc in Sociology and MSc in Sociology (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course introduces students to sociological perspectives on economic life and risk regulation in advanced industrial societies. Topics include economic sociology, state risk regulation including regulatory variations, enforcement and business responses, economic and civil society sources of regulation, organizational risk management, science, experts and risk regulation, globalization, and trends in risk regulation. The course will draw upon a broad international literature on social and economic regulation and case studies from the environmental, financial and public health domains.
Teaching: 25 hours of seminars in the MT. 25 hours of seminars in the LT. 5 hours of seminars in the ST.
Reading week: week 6 MT and week 6 LT.
Assessment: Exam (70%, duration: 3 hours) in the main exam period.
Project (30%, 3000 words) in the LT.
Two hard copies of the assessed project, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.
Attendance at all seminars and submission of all set coursework is required.

SO426 Half Unit
Classical Social Thought
This information is for the 2016/17 session.
Teacher responsible: Dr Rebecca Elliott - STC S211
Availability: This course is available on the MSc in Culture and Society, MSc in Political Sociology, MSc in Sociology (Contemporary Social Thought) and MSc in Sociology (Research). This course is available as an outside option to students on other programmes where regulations permit.
Course content: A review of classical social theory. The origins and development of classical sociological theory; exploring the work of Marx, Weber, Simmel and Durkheim through a close reading and interpretation of primary texts. It is not assumed that students have a basic grounding in classical social theory, although it is expected that students who register for this course will be prepared to develop their understanding through primary readings, and not rely on textbooks.
Teaching: 10 hours of lectures and 10 hours of seminars in the MT.
Reading week: week 6 (MT)
Indicative reading: Relevant books that provide an overview include: A Callinicos, Social Theory; N Dodd, Social Theory and Modernity; A Giddens, Capitalism and Modern Social Theory; G Ritzer, Sociological Theory. The reading list for each seminar will be divided up into essential and additional reading. Students will be asked to read between 50 and 100 pages of primary text per week. The following is a sample list of readings: Marx, K: The Communist Manifesto & Capital (sections of vols 1 & 3); Weber, M: The Protestant Ethic and the Spirit of Capitalism & 'Science as a Vocation'; Simmel, G: The Philosophy of Money (various sections) & various essays such as 'The Metropolis and Mental Life', 'The Stranger', etc.; Durkheim, E: The Division of Labour in Society & The Elementary Forms of the Religious Life (various sections from each).
Assessment: Essay (100%, 5000 words) in the LT.
Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to Sara Ulfsparr, Centre for the Study of Human Rights, TW3.8.02, no later than 16:30 on the first Tuesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.
SO430  Half Unit  Not available in 2016/17

Economic Sociology

This information is for the 2016/17 session.

Teacher responsible: Teacher TBC

Availability: This course is available on the MSc in Economy, Risk and Society, MSc in Political Sociology and MSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course offers a general introduction to the theoretical foundations of economic sociology, providing an opportunity to understand how sociologists engage with the study of complex socioeconomic issues. Topics covered in the course include: critical approaches to economy and society; economic rationality; the sociology of economics; social capital; new economic sociology; economic conventions; changing forms of production and work; new economies; economic identities and divisions; markets and values.

Teaching: 10 hours of lectures and 20 hours of seminars in the LT. Reading weeks: week 6 (MT) and week 6 (LT)

Formative coursework: A project overview due in week 7 of LT. Individual feedback sessions in office hours provided to check student project development.

Indicative reading: Recommended general texts: M Granovetter & R Swedberg (Eds), The Sociology of Economic Life; D Slater & F Tonkiss, Market Society: Markets and Modern Social Theory; N Smelser & R Swedberg (Eds), The Handbook of Economic Sociology; P Edwards & J Wajcman, The Politics of Working Life; V Nee & R Swedberg (Eds), The Economic Sociology of Capitalism. A detailed reading list will be provided at the beginning of the course.

Assessment: Project (100%, 4000 words) in the ST.

Two hard copies of the assessed project, with submission sheets attached to each, to be handed in to the Administration Office, S200, no later than 16:30 on the second Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all workshop sessions and submission of all set coursework is required.

Two hard copies of each assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the third Tuesday of Summer Term. An additional copy of each essay to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all seminars and submission of all set coursework is required.

SO448 City Design: Research Studio

This information is for the 2016/17 session.

Teacher responsible: Dr Suzanne Hall TW2 8.01B

Availability: This course is compulsory on the MSc in City Design and Social Science. This course is not available as an outside option.

Course content: The City Design Research Studio is the central unit of the MSc programme, linking the critical issues raised in the core and optional lecture courses, including questions of power and social justice, with the practical analysis of issues of city design and proposals for urban intervention. This course promotes a practical understanding of the city as a social and built environment. Through a mixed-methods engagement with site-based issues, the research studio explores the different ways city design relates to policy formation, planning processes, legal frameworks, financing mechanisms, local forms of organisation and the emerging needs of complex urban societies. It will provide students with an appreciation of the complexities of urban design and development processes, and with interdisciplinary tools for addressing specific urban challenges. The course addresses design as both informed and imaginative modes of research and practice that shapes urban environments, responds to urban problems, and connects visual, social and material dimensions of the city. It aims to integrate the physical, economic, social and political aspects of urban contexts, and develop ways to analyse these visually, textually and verbally. The studio-based approach to learning is an immersion in site-based research and experimental, strategic and pragmatic forms of design intervention.

Teaching: The Studio course runs for one full day each teaching week in MT and LT through lectures, workshops and regular small-group tutorials; additional specialist seminars and workshops are scheduled throughout the Studio course. Studio groups are expected to work together during the scheduled Studio hours, and prepare collectively for regular workshops and tutorials. In MT, the Studio course focuses on methods and approaches of social and spatial research and analysis. In LT, Studio groups work intensively on a detailed analysis of a specific urban context, and develop a practical proposal for intervention in that site.

Formative coursework: Group presentations for faculty and guest critics. 1 x research presentation and site analysis. (MT)

Assessment: Other (50%) and other (50%).

The assessment consists of one Studio portfolio (50%) and an individual tutor assessment (50%).

SO444 Half Unit
Qualitative Methods for Cultural Research

This information is for the 2016/17 session.

Teacher responsible: Dr Tina Basi STC S308

Availability: This course is available on the MSc in Culture and Society. This course is available as an outside option to students on other programmes where regulations permit.

Course content: Aims and philosophy of qualitative research; contrasts with quantitative research; research strategy and research design; in-depth interviewing; relationship between substantive problems and methodological approaches; ethnographic enquiry; analysis of “classic” and contemporary studies.

Teaching: 20 hours of lectures in the LT.

Reading week: week 6

Assessment: Essay (50%, 2500 words) and essay (50%, 2500 words) in the ST.

Two hard copies of each assessed essay, with submission sheets attached to all copies, to be handed in to the Administration Office, S116, no later than 16:30 on the third Tuesday of Summer Term.

An additional copy of each essay to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all seminars and submission of all set coursework is required.

Taught Master's Course Guides
SO449

Independent Project

This information is for the 2016/17 session.
Teacher responsible: Dr Suzanne Hall TW2 8.01B
Availability: This course is compulsory on the MSc in City Design and Social Science. This course is not available as an outside option.
Course content: The independent project enables students to develop an original and extended piece of work on any approved topic within the field of the MSc programme - students are encouraged, but not required, to develop work on themes or sites introduced in their Studio or core courses. The project may focus on a small-scale urban research study or on a practical proposal for urban intervention. Approval for the topic must be obtained from your academic advisor.
Teaching: In LT students attend a project workshop and then submit a provisional project abstract; academic advisors for the independent project are assigned on the basis of the abstract. In ST, each student has regular supervisory meetings with their academic advisor, and one day of final group reviews with members of faculty. Students are encouraged to consult with other members of faculty during regular office hours.
Formative coursework: Students are required to submit one project abstract, and to produce regular formative project work in consultation with their academic advisor.
Assessment: Project (100%, 10,000 words) post-summer term. Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:00 on the 22nd of August if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day. Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

SO451

Cities by Design

This information is for the 2016/17 session.
Teacher responsible: Dr Suzanne Hall TW2 8.01B
Availability: This course is compulsory on the MSc in City Design and Social Science. This course is available on the MSc in Sociology and MSc in Sociology (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course examines the relationship between built form and its political, social and cultural relations in contemporary urban landscapes. By introducing students to established and emerging approaches to design, the course investigates how the design of our complex urban environments shapes and is shaped by the people who live in them, and the urgencies of time and place. The course focuses on current urban research across diverse urban contexts and attempts to illuminate the often complex inter-connections between urban theory, research, policy and practice. A range of contemporary cities form the base for the course, and these are explored through urban design milieu and architectures including: design as ideology, design as observation, and the architectures of infrastructure, evidence and insurgency.
Teaching: 10 hours of lectures and 20 hours of seminars in the MT.
Reading week: week 6
Formative coursework: Students will be expected to produce 1 essay in the MT.

SO454

Half Unit

Families and Inequalities

This information is for the 2016/17 session.
Teacher responsible: Dr Ursula Henz STC S100B
Availability: This course is compulsory on the MSc in Social Research Methods. This course is available on the MSc in Inequalities and Social Science, MSc in Sociology and MSc in Sociology (Research). This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course provides an introduction into selected issues of family sociology, focusing on families in contemporary Western societies. It explores inequalities within and between families and the role of families in reproducing social inequality. Major themes include: childhood; adolescence, partnership formation and dissolution, parenthood; gender roles and the division of paid and unpaid work; intergenerational transfers.
Teaching: 20 hours of seminars in the MT.
Reading week: week 6
Assessment: Essay (100%, 5000 words) in the LT.
Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day. Attendance at seminars and submission of all set coursework is required.
SO457   Half Unit
Political Reconciliation

This information is for the 2016/17 session.

Teacher responsible: Dr Claire Moon STC S109

Availability: This course is available on the MSc in Human Rights, MSc in Political Sociology, MSc in Sociology and MSc in Sociology (Research). This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped.

Course content: The course introduces students to current issues in the field of transitional justice and historical injustice, and draws upon a range of examples from Africa, Latin America, post-communist Europe, Australia and the US. Topics include transitional justice as a field of practice and a field of knowledge; historical injustice - apologies and reparations; state crimes; retributive and restorative justice; perpetration; theology and therapy in reconciliation; memory and atrocity. The course explores the politics of reconciliation by identifying and examining its key themes, the practices and institutions in which it is embedded and the political subjects of reconciliation discourse. It is an interdisciplinary course that draws upon literature from sociology, law, political theory, anthropology and philosophy amongst others, in order to understand and interpret the wide social and political reach of reconciliation, as well as its limitations.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. Reading week: week 6

Formative coursework: One formative essay to be returned in week seven of the MT (does not contribute towards the overall mark for the course).

Assessment: Exam (70%, duration: 2 hours) in the main exam period. Essay (30%, 3000 words) in the LT.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all seminars and submission of all set coursework is required.

SO458   Half Unit
Gender and Societies

This information is for the 2016/17 session.

Teacher responsible: Dr Suki Ali STC S102

Availability: This course is available on the MSc in Gender, Policy and Inequalities, MSc in Political Sociology, MSc in Social Research Methods, MSc in Sociology and MSc in Sociology (Research). This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course introduces theoretical debates and contemporary issues in the sociological study of gender. Topics include femininities/masculinities; sexualities; nation and family; work; education; violence; transnational feminism; politics, representation. NB topics may change slightly from year to year.

Teaching: 30 hours of seminars in the MT.

Reading week: week 6

Assessment: Essay (100%, 5000 words) in the LT.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Wednesday of Summer Term.

SO463   Contemporary Social Thought

This information is for the 2016/17 session.

Teacher responsible: Prof Judy Wajcman STC S203 and Prof Chetan Bhatt TW3 8.02A

Availability: This course is compulsory on the MSc in Sociology (Contemporary Social Thought). This course is available on the MSc in Culture and Society, MSc in Economy, Risk and Society, MSc in Political Sociology, MSc in Sociology and MSc in Sociology (Research). This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course critically explores cutting edge issues and themes in contemporary social thought. Guest lecturers include Craig Calhoun, Miriam Glucksmann, Richard Sennett and other globally renowned social theorists.

This course deals with themes such as transformations in time and space, social and cultural capital, new technologies, methods and society, cosmopolitanism and post-cosmopolitanism. Topics covered include time, space, speed and technology; money and the economy; the re-emergence of social class divisions; technofeminism/cyberfeminism; cultural capital; cosmopolitanism, and human rights.

Teaching: 30 hours of seminars in the MT. 30 hours of seminars in the LT.

Reading weeks: week 6 (MT) and week 6 (LT).

Formative coursework: One formative essay (1,500 words) and one book review (750-1,000 words).

Assessment: Exam (70%, duration: 3 hours) in the main exam period.

Essay (30%, 3000 words) in the ST.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Wednesday of Summer Term.
An additional copy to be uploaded to Moodle no later than 18:00 on the same day.
Attendance at all seminars and submission of all set coursework is required.

**SO465  Half Unit**
City-Making: the Politics of Urban Form

This information is for the 2016/17 session.
**Teacher responsible:** Dr Philipp Rode TW2 8.01.K and Dr Savvas Verdis TW2.8.01.D

**Availability:** This course is compulsory on the MSc in City Design and Social Science. This course is available on the MSc in Regional And Urban Planning Studies, MSc in Sociology (Research) and MSc in Urban Policy (LSE and Sciences Po). This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This case study-led course provides a critical understanding of major urban development initiatives and practices in international city contexts. It will introduce students to the following knowledge and skills:
- general understanding of political theories underlying urban development models
- ability to situate major urban development initiatives within different development cultures and socio-economic policy agendas
- understanding the role of public, private and third party actors and formal and informal urban development processes
- perspectives on decision making at the strategic, pre-design stage for urban development initiatives and ability to relate urban policy to spatial outcomes, operating at different scales
- knowledge of key evaluation approaches and analytic frameworks used in the analysis of proposed and existing urban developments
- understanding of how urban development objectives, phases and processes can be integrated and how policy making, economic development, urban planning, city design, architecture, and engineering are related.

The course content is based on contemporary projects and urban trends examined in the context of cities throughout the world. These range from policies such as congestion charging (London) and Progressive City Development (Medellin) to urban development trends such as extreme urbanism in Mumbai and privatist planning (Canary Wharf, London and Santa Fe, Mexico City). Each project will be examined through critical frameworks that include: utilitarianism, cost benefit analysis, social and environmental justice, citizenship theory and the capabilities approach. The course will focus on negotiating politics, financing, appraisals and decision-making for cities by inviting practitioners, experts and policy makers to join individual sessions for presentations and debate.

Seminars and assessed project work for the course will be based on the analysis of Development Strategies and City Design briefs. Further information on the course can be found on: www.citymaking.com

**Teaching:** 10 hours of lectures and 20 hours of seminars in the LT.
Reading week: week 6.

**Formative coursework:** 1 x contribution to student debate OR 1 x critical statement following a guest lecture AND submission of a 1,000 word position statement.

**Assessment:** Project (100%, 5000 words) in the ST.
Two hard copies of the project, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

**SO468  Half Unit**
International Migration and Migrant Integration

This information is for the 2016/17 session.
**Teacher responsible:** Dr Patrick McGovern STC S119E

**Availability:** This course is compulsory on the MSc in International Migration and Public Policy. This course is available on the MSc in Political Sociology, MSc in Sociology and MSc in Sociology (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Coverage of contemporary sociological perspectives on migrant integration including theories of international migration, immigration policy, labour market incorporation; welfare and social rights; ‘assimilation’ and social integration; multiculturalism; religion and ethnicity; and the second generation.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of seminars in the ST.
Reading week: week 6.

**Formative coursework:** All students are expected to write two non-assessed pieces of work during the term.

**Indicative reading:** There is no recommended textbook. Books of a general nature that cover substantial parts of the syllabus are: S. Castles and M. J. Miller (2013) The Age of Migration (5th edn); P. Kvisto and T. Faist (2010) Beyond A Border and A. Portes (2014) Immigrant America (4th edn). A more comprehensive bibliography will be available to students taking this course.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
Exam will be held during the Summer Term exam session.

**SO469  Half Unit**
Risk and Governance: A Sociological Approach

This information is for the 2016/17 session.
**Teacher responsible:** Prof Bridget Hutter STC S217

**Availability:** This course is available on the MSc in Accounting, Organisations and Institutions, MSc in Culture and Society, MSc in Economy, Risk and Society, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc
in Political Sociology, MSc in Regulation, MSc in Risk and Finance, MSc in Sociology and MSc in Sociology (Research). This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course aims to give students an advanced understanding of the various ways in which risk is governed in modern societies and an appreciation of the complexities of different levels of risk governance. It will consider three main areas. First, state based risk governance regimes; second, risk governance beyond the state; and third transnational risk governance. The topics under consideration include a critical discussion of what is regarded as risk evidence and the role of experts in policy making; how state regulators incorporate risk based approaches into their governance regimes; the role of insurance companies and other business organizations in risk governance; the role of the public; and attempts to governance risks which traverse national borders. The course will draw on examples from a variety of domains including the environment, finance, biotechnology and food.

**Teaching:** 25 hours of seminars in the MT.
**Reading week:** week 6.
**Formative coursework:** Students should hand in one 2,000 word formative essay.

**Assessment:** Essay (100%, 5000 words) in the LT.
Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO470 Half Unit**

**The Sociology of Markets**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Leon Wamsley STC S208

**Availability:** This course is available on the MSc in Economy, Risk and Society. MSc in Political Sociology, MSc in Sociology, MSc in Sociology (Economic Sociology and MSc in Sociology (Research)). This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course offers an introduction to the sociology of markets. We will look at this topic from two different sides: On the one hand, we will explore different theoretical issues in economic sociology, such as market structure, valuation, and the role of the state. Here, the underlying question is what sociology can contribute to a theoretical understanding of markets. On the other hand, we will explore particular case studies, such as illegal markets or markets for fine art; students will get the chance to study one of these cases in-depth. By the end of the course, students will be versed in the sociological and larger debates about markets, and they will be equipped to contribute to this debate with small, innovative case studies.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT.
**Reading week:** week 6.

**Formative coursework:** A 1500 word essay is required.

**Assessment:** Essay (100%, 5000 words) in the ST.
Assessment will consist of an essay analysis of two case studies along with the submission of a portfolio (100%). Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all workshop sessions and submission of all set coursework is required.

---

**SO471 Half Unit**

**Technology, Power and Culture**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Judy Wajcman STC S203

**Availability:** This course is available on the MSc in Culture and Society, MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Political Sociology, MSc in Sociology, MSc in Sociology (Contemporary Social Thought) and MSc in Sociology (Research). This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course aims to give students a detailed understanding of sociologically informed approaches to the social studies of science and technology. It will consider how macro theories of post-industrial society (from Bell to Castells) have conceptualised the role of technology in social change. It will then look at the development of STS as a field that highlights the constitutive role of objects and artefacts in social relations. In other words, it will reflect upon sociology’s traditional neglect of the social life of things or materiality. These broad themes will then be elaborated substantively. First, by considering the role of technology in reconfiguring time, space and mobility. Second, by considering power relations and social inequalities embedded in digital technologies, such as the Internet and mobile phones. Third, by treating technology as a culture that shapes gender identities, such as those that find expression in the virtuality of cyberspace. The course will draw on examples from a variety of domains including the environment, the internet, robotics, sex, and weapons.

**Teaching:** 25 hours of seminars in the MT.
**Reading week:** week 6.
**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**SO473 Half Unit**

**Crime, Control and the City**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Janet Foster STC S218a

**Availability:** This course is compulsory on the MSc in Social Research Methods. This course is available on the MSc in City Design and Social Science, MSc in Criminal Justice Policy, MSc in Regional And Urban Planning Studies, MSc in Sociology and MSc in Sociology (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

---
Course content: This half unit course examines crime and disorder in city landscapes, the relationship between crime, space and place, and the complex mix of informal and formal social controls that influence different types and levels of crime. Drawing on a range of comparative literature from different cities, and using a mixture of classic and contemporary texts, we examine the importance of informal social control in maintaining social order in cities, the role of policing, and what happens when formal and informal social controls fail using the recent riots, gangs and homicide as examples. We also explore the principles of crime prevention - both physical and social - and use public housing as a case study to critically examine the relationship between crime and design.

Teaching: 20 hours of seminars in the LT.

Reading week: week 6.

Assessment: Essay (100%, 5000 words) in the LT.

Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO475 Material Culture and Design

This information is for the 2016/17 session.

Teacher responsible: Dr Donald Slater STC S310

Availability: This course is available on the MSc in City Design and Social Science, MSc in Culture and Society, MSc in Economy, Risk and Society, MSc in Media and Communications (Data and Society), MSc in Sociology, MSc in Sociology (Contemporary Social Thought) and MSc in Sociology (Research). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course focuses on designed entities in everyday life, looking at the ways in which materials are configured into things, practices, spaces and forms, and at the assemblage of objects across production, design, consumption and use. Though aiming to produce expertise in specifically social science research, the course will bring together literatures and debates that cross the social sciences, humanities and science/technology, drawing particularly on actor-network theory, material culture studies, sociology of consumption, practice theory, urban and architectural studies, cultural theory and design studies. There will also be a strong emphasis on methodology: what tools are available to social scientists to investigate the emergent properties and impacts of designed objects. Case studies will be central to the teaching, developing theoretical and methodological strategies through a (changing) set of empirical cases that are likely to include: digital objects (software, games); media objects, lights and lighting; fashion; domestic interiors.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. Reading week: week 6.

Formative coursework: One 2,500 essay applying a theoretical approach to a specific case study.

Assessment: Essay (100%, 5000 words) in the LT.

Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO476 Researching Migration: research questions and research methods

This information is for the 2016/17 session.

Teacher responsible: Dr Patrick McGovern STC S119E and Dr Eiko Thielemann CON 3.14

Availability: This course is compulsory on the MSc in International Migration and Public Policy. This course is not available as an outside option.

Course content: Having introduced the students to a range of possible research strategies, the students will be asked to prepare informal seminar presentations on their proposed research in the MT and LT. In addition, they will submit a one hundred word topic summary towards the end of the MT and a 400 word research proposal before the end of the LT. They will also prepare and deliver a formal presentation on their research for a workshop early in the ST. At each stage, participants will be encouraged to use feedback from the course convenors and fellow students to revise their research plans. A final proposal will be submitted after the ST workshop.

Teaching: Lectures 3 x 1 hour (3); Seminars 2 x 2 hours (4); Workshop 5 hours (5). Total 12 hours

Formative coursework: Students will be expected to produce 3 presentations in the MT, LT and ST.

Assessment: This course is not assessed.

SO477 Urban Social Theory

This information is for the 2016/17 session.

Teacher responsible: Dr David Madden STC S209

Availability: This course is available on the MSc in City Design and Social Science, MSc in Culture and Society, MSc in Sociology, MSc in Sociology (Contemporary Social Thought) and MSc in Sociology (Research). This course is available as an outside option to students
SO478
Social Scientific Analysis of Inequalities

This information is for the 2016/17 session.

Teacher responsible: Prof Michael Savage STC S210

Availability: This course is compulsory on the MSc in Inequalities and Social Science. This course is not available as an outside option.

Course content: The course will consider interdisciplinary approaches to inequality, focusing on (a) how inequality can be conceptualised and explained, (b) how it can be measured and (c) ethical and political issues. Topics to be covered include patterns and trends in economic inequalities; gender, ethnicity, class and age; cultural aspects of inequality; social and intergenerational mobility; global and comparative perspectives; geographical and neighbourhood polarisation; health and educational inequalities; media representation of inequalities; ethical and philosophical approaches; the impact of government, law and social policy.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 2 hours of classes in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 mock exam in the LT.

Changing fortunes: Income mobility and poverty dynamics in Britain (S,Jenkins, OUP , 2011)

Assessment: Exam (50%, duration: 3 hours) in the main exam period.

Essay (25%, 3000 words) in the LT.

Essay (25%, 3000 words) in the ST.

Two hard copies of each assessed essay, with submission sheets attached to each, to be handed in to the International Inequalities Institute office TW1 8.01F, no later than 16:30 on the submission day. The first essay is due by the second Wednesday of Lent Term and the second essay is due by the second Wednesday of Summer Term. An additional copy of each essay is to be uploaded to Moodle no later than 18:00 on the same day each essay is due.

SO479  Half Unit
Human Rights and Postcolonial Theory

This information is for the 2016/17 session.

Teacher responsible: Dr Ayca Cubukcu TW3.8.02C

Availability: This course is available on the MSc in Culture and Society, MSc in Human Rights, MSc in Political Sociology and MSc in Sociology (Contemporary Social Thought). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Drawing on postcolonial theory and critique, this course explores how human rights and international law came to be institutionalized in the context of European colonialism, and what the contemporary implications of this historical fact may be today. Engaging with the fields of socio-legal studies, intellectual history and social theory, the course also asks why, and with what consequences, human rights tend to monopolize the political language through which many social movements throughout the world articulate their desires for social and global justice.

Teaching: 25 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Assessment: Essay (90%, 5000 words) in the ST.

Class participation (10%) in the LT.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to Sara Ulfsparre, Centre for the Study of Human Rights, TW3.8.02, no later than 16:30 on the second Thursday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.
SO480  Half Unit  Not available in 2016/17
Urban Inequalities

This information is for the 2016/17 session.
Teacher responsible: Prof Francine Tonkiss STC S114
Availability: This course is available on the MSc in Urban Planning Studies, MSc in Inequalities and Social Science, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course offers a critical introduction to key issues and processes in the study of contemporary urban inequalities. Recent urban analysis has highlighted the growing share of the global population that now lives in cities; this course puts that growth in the context of another major urban trend: deepening patterns of inequality in many cities across the world. It examines the continuing role of ‘older’ bases of urban inequality - access to land and property, gender inequality, ethnic and racial discrimination, legal exclusion and informality – as well as significant emerging patterns, including extreme concentrations of wealth at the top, middle-class stagnation, privatisation and spatial secession, discrimination, legal exclusion and informality – as well as significant emerging patterns, including extreme concentrations of wealth at the top, middle-class stagnation, privatisation and spatial secession, immigration and insecurity. It also examines the complex of ways in which urban inequality is experienced, not only in terms of income or property, but also in consumption inequalities, inequities in access to housing, transport, urban services and legal protections, spatial disparities and environmental risks and injustices. The course considers the range of social, economic, environmental and political factors that shape, and also might help to address, urban inequality in these different contexts.

In sum, the course will:
• provide a critical introduction to current and emerging patterns of urban inequality
• consider the production of urban inequalities through social, economic, political and spatial processes
• explore common themes and critical differences across developed and developing cities
• address key debates in a range of urban disciplines, and situate these in specific urban contexts and examples

Key themes
• Urban growth and the growth of inequality
• Wealth, income and inequality
• Spatial injustice: segregation and access
• Environment and inequities
• Informality and insecurity
• Social inequality in the city: gender, race and exclusion
• Governing inequality

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.
1 x 2000-word essay

Indicative reading:

Assessment:
Essay (100%, 5000 words) in the ST.

Two hard copies of the project to be submitted to the Cities Programme administration office, no later than 4.30pm on the first Wednesday of ST; a third copy uploaded to Moodle.

SO481  Half Unit
Class, Politics and Culture

This information is for the 2016/17 session.
Teacher responsible: Dr Lisa Mckenzie STC S212
Availability: This course is available on the MSc in Culture and Society, MSc in Inequalities and Social Science, MSc in Political Sociology, MSc in Sociology, MSc in Sociology (Contemporary Social Thought) and MSc in Sociology (Research). This course is not available as an outside option.

Course content: The course will begin by introducing traditional theories of social class and stratification before going on to examine the history and political significance of class in Britain, and how this compares with other countries throughout the world. It will then look at the place of class in a contemporary political context, critically examining the claim made by some ‘postmodern’ writers, and prominent politicians, that class boundaries have been irrevocably eroded. The course will then move on to look at the seminal work of French sociologist Pierre Bourdieu and his supposition that class boundaries are most clearly discernible from examining people's cultural taste, with the privileged using their preferences for ‘highbrow’ culture as a means of expressing their superiority over the working classes, who tend to prefer more ‘lowlowbrow’ culture. We will interrogate how these arguments relate today, where the lines between high and low culture are increasingly blurred, where strong cross-cultural differences persist between Europe and the U.S, and where new taste distinctions exist even in traditionally lowbrow art forms, such as comedy and pop music. We then take a more detailed look at class-based boundaries in taste and lifestyle. In particular, we focus on the way in which the middle classes demonise sections of the working class based on what they consider to be ‘pathological’ consumption choices – focusing in particular on the ‘Chav’ phenomenon in Britain. We go on to explore both the meaning and consequences of such overt class prejudice, both in Britain but also using research from the U.S, the Netherlands and other international contexts. Finally, the module will ask to what extent class boundaries are malleable? How easy is it for people to escape their backgrounds and move upward or downward in social space? This final section of the course thus looks at contemporary patterns of social mobility, examining the social benefits and challenges that mobility implies, increasing closure within global elites, and the rise of the middle classes in developing countries like China, Brazil and South Africa.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures and 1 hour of seminars in the ST.

Reading week: week 6.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading:

**Assessment:** Essay (100%, 5000 words) in the ST.

Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO482**  
**Half Unit**

**Topics in Race, Ethnicity and Postcolonial Studies**

This information is for the 2016/17 session.  
Teacher responsible: Dr Suki Ali STC S102

Availability: This course is compulsory on the MSc in Sociology (Research). This course is available on the MSc in Culture and Society, MSc in Human Rights, MSc in Inequalities and Social Science, MSc in International Migration and Public Policy, MSc in Political Sociology and MSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course offers students a broad exposure to issues in the theory of race, racism and ethnicity as well as an opportunity to consider a range of contemporary instances in which the social and political problems arising from these factors of division have been manifested. It will offer a preliminary genealogy of race thinking connecting historical and theoretical work with new scholarly debates over multi-culture, diversity, genomics, postcolonialism, and human rights.

Teaching: 20 hours of seminars in the MT.  
Reading week: Week 6. Seminar length may be extended to three hours each depending on student numbers.

Formative coursework: Students have the option of writing a 3,000 word paper in preparation for the assessed essay.

Assessment: Essay (100%, 5000 words) in the LT.

Attendance at all seminars and submission of all set coursework is required.

Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO483**  
**Half Unit**

**Social Change Organizations**

This information is for the 2016/17 session.  
Teacher responsible: Dr Michael McQuarrie, STC S107

Availability: This course is available on the MSc in City Design and Social Science, MSc in Human Rights, MSc in Political Sociology, MSc in Sociology and MSc in Sociology (Research). This course is available as an outside option to students on other programmes where regulations permit.

Course content: The purpose of this class is to familiarise students with organisational sociology from the perspective of organisations other than firms or governments. Organisations are one of the primary tools society has for realising values and interests. However, organisations are not simply tools. They constrain and enable action for social change in a variety of ways and shape the outcomes of our efforts. Attempting to realise social change using organisations creates a set of dilemmas that must be managed and dealt with for efforts to be successful. The course will focus on social movement organisations, NGOs, associations, cooperatives, communes, and the dilemmas that these organisations confront in attempting to realise their goal of a better society. The course will also familiarise students with the theoretical and analytical tools sociologists use to understand social change organisations.

Teaching: 20 hours of seminars in the LT.  
The class format will be a combination of lectures, guest Q&A with leaders of social change organisations, and seminar discussion.  
Week 6 is a reading week.

Formative coursework: Formative coursework will consist of preparing and leading discussions, in-class analytical writing, and assignments meant to advance student work on the final essay.

Assessment: Essay (100%, 4000 words) in the ST.

For their assessment students will complete an essay that does not exceed 4000 words in length. The essay will either be a review essay of the sociological literature on a topic related to social change organisations or an analysis of a social change organisation using the tools learned in the class.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Tuesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO489**  
**Half Unit**

**Family and Migration**

This information is for the 2016/17 session.  
Teacher responsible: Dr Ursula Henz STC S100B

Availability: This course is available on the MSc in International Migration and Public Policy and MSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course examines the family life, family patterns and family relationships of contemporary migrant families in Great Britain and other societies. It applies three perspectives to migrant families: diversity, integration and transnationality. It examines variations in family life, patterns and relationships in migrant families; particular challenges that are associated with the migration of a family to a new country as well as transformations of family roles and intimacy in transnational families. After an overview over family forms in different cultures, the course explores selected substantive topics. Indicative topics are: migrant children and children left behind; marriage migration and transnational marriages; intermarriage and fertility as indicators of migrant integration; the roles of mother and father in immigrant and transnational families; migrant families and family care.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. Reading week in Week 6.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Essay (80%, 4000 words) in the ST. Class participation (20%).

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the Wednesday of Week 2 in ST. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO493
MSc in Culture and Society Dissertation

This information is for the 2016/17 session.

Teacher responsible: Dr Fabien Accominotti STC206

Availability: This course is compulsory on the MSc in Culture and Society. This course is not available as an outside option.

Course content: This workshop will guide students through the process of conducting an independent dissertation project in the MSc Culture & Society.

Teaching: 1 hour and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Indicative reading: This is a workshop and has no specific reading list.

Assessment: Dissertation (100%, 10000 words) in August.

Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:00 on the 17th of August if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

SO494
MSc in Political Sociology Dissertation

This information is for the 2016/17 session.

Teacher responsible: Dr Robin Archer STC S105

Availability: This course is compulsory on the MSc in Political Sociology. This course is not available as an outside option. These seminars are for students on the MSc Political Sociology only.

Course content: These seminars aim to help you to begin the process of writing your dissertation. At the end of MT we will have four seminars that aim to get students thinking at a meta-level about research in political sociology. The seminars can, of course, only address a small selection of approaches. Examples might include rational choice and institutionalist theories, or comparative and case study methods. But please note that the MSc in Political Sociology takes a pluralist approach and does not seek to prescribe these or any other particular theories or methods. In LT we will hold dissertation workshop seminars that aim to give individually tailored guidance on proposed research questions in small groups with fellow students who are working on similar topics or using similar methods. Every student is required to make a formal presentation once during the term.

Teaching: 6 hours of seminars in the MT. 15 hours of workshops in the LT.

Formative coursework: Students will be expected to produce 1 presentation in the LT.

Students will: (1) assess the strengths and weakness of selected theories and methods; (2) formulate a clearly specified research question and set out the rationale for researching this question and a proposed approach; and (3) give a presentation which develops one or two of the main arguments they anticipate will be important to their project.

Assessment: Dissertation (100%, 10000 words) post-summer term.

Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:00 on the 17th of August if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

SO495
MSc in Economy, Risk and Society Dissertation

This information is for the 2016/17 session.

Teacher responsible: Prof Bridget Hutter STC S217

Availability: This course is compulsory on the MSc in Economy, Risk and Society. This course is not available as an outside option.

Pre-requisites: Risk, Regulation and Economic Life (SO425)

Course content: The dissertation is an extended piece of written work that is your own independent research investigation of a human rights issue or problem, undertaken with the guidance of your dissertation supervisor. In the dissertation, you will critically appraise evidence, arguments and debates to reach a conclusion your research question. The key requirement is that the dissertation should demonstrate a high level of independent critical ability. You must show your ability to organise your material clearly and logically and to sustain a reasoned and cogent argument from beginning to end. Where appropriate you should explain clearly the research method(s) that you have applied and the reasons for your choice of approach. You should show awareness of any shortcomings of your study in relation to methods employed and where relevant, quality or quantity of the data, and disciplinary approach.

Teaching: 2 hours of seminars in the MT. 2 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be one Introductory lecture in MT for all MSc Economy, Risk and Society students, on the challenges and requirements of
SO496
MSc in Human Rights Dissertation

This information is for the 2016/17 session.

Teacher responsible: Prof Chetan Bhatt TW3.8.02A

The Programme Convenor is responsible for overseeing the Dissertation.

Availability: This course is compulsory on the MSc in Human Rights. This course is not available as an outside option. This course is only available to MSc Human Rights students, and is a compulsory course for students on the programme.

Course content: The dissertation is an extended piece of written work that is your own independent research investigation of a human rights issue or problem, undertaken with the guidance of your dissertation supervisor. In the dissertation, you will critically appraise evidence, arguments and debates to reach a conclusion your research question. The key requirement is that the dissertation should demonstrate a high level of independent critical ability. You must show your ability to organise your material clearly and logically and to sustain a reasoned and cogent argument from beginning to end. Where appropriate you should explain clearly the research method(s) that you have applied and the reasons for your choice of approach. You should show awareness of any shortcomings of your study in relation to methods employed and where relevant, quality or quantity of the data, and disciplinary approach.

Teaching: 2 hours of lectures in the MT. 3 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be one Introductory lecture in MT for all MSc Human Rights students, on the challenges and requirements of doing independent research for dissertation purposes, and different methodologies available for an interdisciplinary programme. The Introductory session will also cover fieldwork and research ethics. This will be followed by 4 seminars/Workshops in smaller groups, in which students present and discuss possible research questions and strategies, along with preparing dissertation proposal and timeline.

Formative coursework: Students are required to submit a topic proposal at the end of MT and a fuller dissertation proposal at end of LT. During the seminars and in dissertation supervisions, students receive formative feedback on their ideas and research plans. The summative assessment is the submission of a completed dissertation in August.

 Assessment: Dissertation (100%, 10000 words) post-summer term.

Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the MSc Human Rights Administrator, Office TW3.8.02 no later than 16:00 on the 17th August if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

SO497
MSc in Inequalities and Social Science Dissertation

This information is for the 2016/17 session.

Teacher responsible: Prof Michael Savage STC.S210

Availability: This course is compulsory on the MSc in Inequalities and Social Science. This course is not available as an outside option. These seminars are for students on the MSc in Inequalities and Social Science only.

Course content: These seminars aim to help you to begin the process of writing your dissertation. At the end of MT we will have seminars that aim to get students thinking at a meta-level about research on inequalities and how to identify a good topic, including issues of theory, measurement and methods. Please note that the MSc in Inequalities and Social Science takes a pluralist approach and does not seek to prescribe these or any other particular theories or methods. In LT we will hold dissertation workshop seminars that aim to give individually tailored guidance on proposed research questions in small groups with fellow students who are working on similar topics or using similar methods. Every student is required to make a formal presentation once during the term.

Teaching: 4 hours and 30 minutes of seminars in the MT. 9 hours of seminars in the LT.

Assessment: Dissertation (100%, 10000 words) post-summer term.

Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the International Inequalities Institute office TW1 8.01F no later than 16:00 on the 17th of August if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

SO499
MSc in Sociology Dissertation

This information is for the 2016/17 session.

Teacher responsible: Dr Leon Wansleben STC.S208

Availability: This course is compulsory on the MSc in International Migration and Public Policy, MSc in Sociology, MSc in Sociology
(Contemporary Social Thought) and MSc in Sociology (Research). This course is not available as an outside option.

Course content: The dissertation may be on any topic within the field of the MSc programme studied. Approval for the topic must be obtained from the relevant Programme Tutor.

Teaching: Dissertation Preparation

The candidate should confirm a working title and prepare a brief abstract for their intended dissertation (up to one A4 page, double-spaced, including your name not your candidate number), which should be reviewed with their Academic Advisor no later than the Monday, week 8 of Lent Term. Along with the title and abstract the candidate and Academic Advisor should review and complete the Research Ethics Review Checklist by this same time. These abstracts are the basis for an MSc dissertation Workshop that is organised for each programme. Attendance at this workshop is optional but students are, of course, encouraged to attend.

Dissertation Particulars

The dissertation must be a report of a research project, whether it comprises primary empirical material, secondary empirical material or theoretical/exegetical work on a body of social thought: i.e. there must be an identifiable and clear research question governing the research project; there must be critical reflection on the methods used (including their limits and the reasons why they warrant the kinds of claims made); and substantive analysis of empirical or analytical material. Even where the topic is substantively a literature or policy-review exercise, candidates are expected to offer original reasoned argument and interpretation and to show evidence of a competence in research methods. Guidance on topic selection and methods will normally be provided by the candidate's tutor. The dissertation is primarily a reflection of the candidate's own work and so feedback will not be given on draft versions of the dissertation. The dissertation should reflect the candidate's own views.

Assessment: Dissertation (100%), 10,000 words post-summer term. Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:00 on the 17th of August if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day. Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

SO4A1 Half Unit

Governing Cities in an Urban Age: Challenges and Opportunities

This information is for the 2016/17 session.

Teacher responsible: Prof Richard Burdett TW2 8.01J and Prof Antony Travers CON6.06

Additional teacher(s): Dr Michael McQuarrie

Availability: This course is compulsory on the Executive MSc in Cities. This course is not available as an outside option.

This course is only available to students registered in the Executive MSc in Cities.

Course content: Governing Cities in an Urban Age is an intensive exploration of the global urbanisation and the state of cities. The course introduces different stages of urban development in cities and regions across the world. It provides students with an understanding of the key challenges facing both mature and rapidly-developing metropolitan areas. It will locate the key challenges facing large cities, notably the persistent levels of social inequality, poverty, unsustainable resource use and constraints to economic efficiency. The course introduces the key tools for intervention such as planning, governance and management of land and infrastructure in response to critical pressures linked to economic development, globalisation, migration, social inclusion, climate change, resource efficiency, and resilience. The key purpose of the course will be to give participants a comprehensive framework for understanding the challenges which cities are facing today.

Topics include: global urbanisation, development and design, urban change, population growth, urban productivity, urban expansion, urban sprawl, densification, intensification, sociability, urban governance, urban institutions, budgets and responsibilities.

Teaching: 7 hours and 30 minutes of lectures, 15 hours of seminars and 7 hours and 30 minutes of workshops in the MT.

The course will be taught over a period of one week in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Submission of a 500 word non-assessed formative statement outlining the key political, environmental and socioeconomic challenges in the student's city that will shape the content of the 2,000 word assessed report.

Additional readings:

Assessment: Presentation (30%) and other (70%). The other assessment is the submission of a 2,000 word report (70%) in MT of how the student's city or organisation is dealing with some of the challenges and opportunities presented in the course.

SO4A2 Half Unit

Cities and Society: Design and Social Cohesion

This information is for the 2016/17 session.

Teacher responsible: Prof Richard Burdett 8.01J

Availability: This course is compulsory on the Executive MSc in Cities. This course is not available as an outside option.

This course is only available to students registered in the Executive MSc in Cities.

Course content: Cities and Society: Design and Social Cohesion looks at some of the major drivers of urban inequality and poverty and the key actions that cities are taking to reduce urban inequalities through urban design, infrastructure and policy. This is a heavily applied course providing students with tools to analyse the socio-demographic profile of households and neighbourhoods and their relation to spatial distribution and clustering in cities of the developing and developed world. Students are introduced to traditional measures of poverty and inequality such as income and wealth as well more recent multi-dimensional poverty measures such as health and education, and provided with analytical and mapping tools to identify areas of concentration of deprivation. A particular emphasis is placed on identifying spatial strategies that can alleviate the concentration of urban poverty and inequality by optimising access to jobs, housing, education, health, public space, transport and community infrastructure.

Cities and Society will also look at the macro-economic forces that are producing uneven regional and urban development and the key planning methods to reduce levels of inequality. These include spatially blind policies such as taxation and redistribution; spatially connective policies such as infrastructure links between
high and low income neighbourhoods and finally spatially targeted policies where private and public investment is targeted at the most deprived urban areas. 

Topics include: inequality and Gini coefficients; from income to multi-dimensional measures of poverty; the Human Development Index and its urban relevance; affordable housing, social infrastructure; equity planning (examples include London, Barcelona, Medellin and Bogota; the London model of urban regeneration; infrastructure and equity, health and well-being, migration. 

**Teaching:** 4 hours and 30 minutes of lectures, 3 hours of seminars and 1 hour and 30 minutes of workshops in the MT. 10 hours and 30 minutes of lectures, 6 hours of seminars and 3 hours of workshops in the LT. 

The course will be taught over a period of three sessions. 

**Formative coursework:** Students will be expected to produce 1 essay in the LT. 

500 word submission identifying and mapping changing social conditions surrounding an urban development project. 

Additional readings: 

**Assessment:** Essay (70%, 2000 words) in the ST. Presentation (30%) in the MT. 

Present a visual analysis, spatial observation and ethnographic research of selected case study area (30%) and submission of social integration strategy for development area (70%).
an analytical understanding of environmental challenges linked to urban development. Based on these, students are introduced to planning approaches, policy instruments and governance arrangements enabling environmental sustainability and resilience, facilitating the transition to a green economy in cities. Topics include: environmental sustainability, green economy, environmental impact assessments, climate change adaptation and mitigation in cities, climate resilience, urban environmental transition, resource consumption, pollution, biodiversity.

**Teaching:** 4 hours and 30 minutes of lectures, 3 hours of seminars and 1 hour and 30 minutes of workshops in the MT. 10 hours and 30 minutes of lectures, 6 hours of seminars and 3 hours of workshops in the LT.

The course will be taught over a period of three sessions.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

500 word submission on a single aspect of an environmental impact assessment for an urban development project.

**Indicative reading:**

**Additional readings:**

**Assessment:**
- Presentation (30%) in the MT.
- Essay (70%, 2000 words) in the ST.

Present an environmental strategy for an urban development project (30%) and submission of 2,000 word written report (70%).

**SO4A5 Urban Infrastructure and Strategic Planning**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Philipp Rode TW2 8.01I and Prof Antony Travers CON6.06

**Availability:** This course is available on the Executive MSc in Cities. This course is not available as an outside option.

**Course content:** Urban infrastructure and strategic planning is a workshop based course providing practical insights on infrastructure development and strategic planning for cities. The course combines a series of lectures with studio-based group work on a case study city. Students are introduced to all key components of urban infrastructure, cutting across transport, energy, water, waste and digital network systems. A particular focus of this course is the interrelationship of transport infrastructure and urban form. This relationship forms the basis for an inquiry into strategic planning approaches and practical applications in cities around the world. Furthermore, the course covers important aspects of infrastructure governance, finance and regulation and examines implications for large-scale physical infrastructure as well as digital, smart city technologies.

**Teaching:** 3 hours of lectures and 1 hour and 30 minutes of seminars in the LT. 6 hours of lectures, 3 hours of seminars and 9 hours of workshops in the ST.

The course will be taught during the lent and summer terms through hands-on team based workshops.

**Formative coursework:** Students will be expected to produce 1 presentation in the LT.

Prepare a 500 word brief for your project indicating key deliverables.

**Indicative reading:**

**Assessment:**
- Coursework (80%, 5000 words) and presentation (20%) in the ST.

A group project report not exceeding 5,000 words, which will count for 80% of the final grade.

Additionally, each group member must write a personal reflection on their contribution in no more than 600 words, and should include specific details of the student's contributions to the project (20%).

This information is for the 2016/17 session.

**Teacher responsible:** Dr Philipp Rode TW2 8.01I and Prof Antony Travers CON6.06

**Availability:** This course is available on the Executive MSc in Cities. This course is not available as an outside option.

SO4A6
Urban Development and Master Planning

This information is for the 2016/17 session.

Teacher responsible: Prof Richard Burdett TW2 8.01J and Dr Savvas Verdis TW2 8.01E

Availability: This course is available on the Executive MSc in Cities. This course is not available as an outside option.

Course content: Urban Development and Master Planning is an applied group project based on a major London regeneration site. Groups of no more than six students will be introduced to one of the regeneration sites project teams which will include: local planning officers, developers, planners, designers and financing teams. The groups will first immerse themselves in the offices of the host organisation as well as the site and understand some of the project challenges. The groups will then work in a collaborative environment in order to develop solutions to the challenges set by the project teams.

Using some of the key assessment and planning tools developed in courses SO4A1, SO4A2, SO4A3 & SO4A4 of the Executive MSc in Cities, this project will encourage students to apply the most appropriate analysis, planning and finance methods to an actual development site.

Topics covered: land ownership, development goals, developing the brief, urban design and master planning strategies, wider urban context, phasing, capturing value, mix of uses, public vs private space, financing projects, residual values, negotiations between developers and public agencies, planning constraints and policies, affordable housing, lifecycle assessment, built form, density and integration.

Teaching: 3 hours of lectures and 1 hour and 30 minutes of seminars in the LT, 6 hours of lectures, 3 hours of seminars and 9 hours of workshops in the ST.

The course will be taught during the lent and summer terms using a mixture of hands-on workshops and lectures.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Additional readings:

Travers, T; Scanlon, K; Whitehead, C. and Fernández-Arrigoitia, Melissa: Public Spending Priorities in London GLA. May 2010

Assessment: Essay (80%), 5000 words) and presentation (20%) in the ST.

This project is conducted in teams of up to six students, and the assessment is based on a collective group mark for the following three components.

1. A presentation to the project team and LSE Cities staff, which counts for 20% of the total mark.
2. A group project report not exceeding 5,000 words, which will count for 80% of the final grade. Appendices to the project may be included but would normally consist only of technical data or supplementary analysis.
3. Additionally, each group member must write a personal reflection on their contribution in no more than 600 words, and should include specific details of the student’s contributions to the project.

SO4A7
Urban Consultancy Project

This information is for the 2016/17 session.

Teacher responsible: Dr Philipp Rode 8.01I and Dr Savvas Verdis 8.01E

Availability: This course is compulsory on the Executive MSc in Cities. This course is not available as an outside option. This course is only available to students registered in the Executive MSc in Cities.

Course content: The Consultancy Project is a six-month individual consultation undertaken by a student in the Executive MSc in Cities in their own organisation or for an external organisation. Through the consultancy project, students will apply the knowledge and skills acquired in the first six courses of the programme to craft policy or program improvements for public or private agencies and non-profit organisations.

Through in-depth interviews with the organisation’s leaders as well as the relevant stakeholders, students will focus on a specific project and offer advice on one or more of its design and implementation phases. These may include but are not limited to the concept, feasibility, design, assessment, delivery and/or evaluation phases in the project cycle.

Examples of projects include design briefs, assessment of master plans or strategic plans, social, economic and environmental impact assessment of projects, project finance and greening of projects and policies.

Teaching: 3 hours of seminars and 2 hours of help sessions in the ST.

Each student will be allocated a supervisor, who will provide overall guidance on the project’s development. Other members of staff may also advise as required. Students will be supported with face to face or web based tutorials throughout the duration of their consultancy project.

Formative coursework: Students will be expected to produce 1 essay in the ST.

A 500 word proposal brief for the consultation project that will be carried out independently by each student.

ST405  Half Unit
Multivariate Methods

This information is for the 2016/17 session.
Teacher responsible: Prof Irini Moustaki
Availability: This course is available on the MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Further Mathematical Methods (MA212) and Probability, Distribution Theory and Inference (ST202).
Course content: An introduction to the theory and application of modern multivariate methods used in the Social Sciences: Multivariate normal distribution, principal components analysis, factor analysis, latent variable models, latent class analysis and structural equations models.
Teaching: 20 hours of lectures and 8 hours of computer workshops in the LT.
Week 6 will be used as a reading week.
Formative coursework: Coursework assigned fortnightly and returned to students via Moodle with comments/feedback before the computer workshops.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST409  Half Unit
Stochastic Processes

This information is for the 2016/17 session.
Teacher responsible: Prof Kostas Kardaras COL 6.07
Availability: This course is compulsory on the MSc in Financial Mathematics and MSc in Risk and Stochastic. This course is available on the MSc in Applicable Mathematics, MSc in Econometrics and Mathematical Economics, MSc in Risk and Finance, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Further Mathematical Methods (MA212).
Good undergraduate knowledge of distribution theory
Course content: A broad introduction to stochastic processes for postgraduates with an emphasis on financial and actuarial applications. The course examines Martingales, Poisson Processes, Brownian motion, stochastic differential equations and diffusion processes. Applications in Finance. Actuarial applications.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. Week 6 will be used as a reading week.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST411  Half Unit
Generalised Linear Modelling and Survival Analysis

This information is for the 2016/17 session.
Teacher responsible: Prof Fiona Steele COL 7.08
Availability: This course is available on the MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Mathematics to the level of Mathematical Methods (MA100) and probability to the level of Probability, Distribution Theory and Inference (ST202). Some knowledge of linear regression.
Course content: An introduction to the theory and application of generalised linear models for the analysis of continuous, categorical, count and survival data. Topics include: linear regression, analysis of variance (ANOVA), logistic regression for binary data, models for ordered and unordered (nominal) responses, log-linear models for count data and contingency tables, and models for survival (duration) data. The Stata software package will be used in computer workshops.
Teaching: 20 hours of lectures and 15 hours of computer workshops in the LT.
Week 6 will be used as a reading week.
Formative coursework: Coursework assigned weekly and returned to students with comments/feedback during the computer sessions.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST416  Half Unit
Multilevel Modelling

This information is for the 2016/17 session.
Teacher responsible: Prof Irini Moustaki
Availability: This course is available on the MSc in Inequalities and Social Science, MSc in Social Research Methods, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: A knowledge of probability and statistical theory, including linear regression and logistic regression.
Course content: A practical introduction to multilevel modelling with applications in social research. This course deals with the analysis of data from hierarchically structured populations (e.g. student nested within classes, individuals nested within households or geographical areas) and longitudinal data (e.g. repeated measurements of individuals in a panel survey). Multilevel (random-effects) extensions of standard statistical techniques, including multiple linear regression and logistic regression, will be considered. The course will have an applied emphasis with computer sessions using appropriate software (e.g. Stata).
Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT.
Week 6 will be used as a reading week.
Formative coursework: Coursework assigned fortnightly and returned to students via Moodle with comments/feedback before the computer lab sessions.
Indicative reading: T Snijders & R Bosker Multilevel Analysis: an
ST418 Half Unit
Non-Linear Dynamics and the Analysis of Real Time Series

This information is for the 2016/17 session.
Teacher responsible: Prof Leonard Smith TW1 11.01A
Availability: This course is available on the MSc in Applicable Mathematics, MSc in Econometrics and Mathematical Economics, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: It is recommended that students have completed Time Series (ST422).
Course content: An introduction to the analysis of actual time series observations of real-world processes. The course casts both modern nonlinear methods and more traditional linear methods in a geometric approach. It introduces the properties of nonlinear mathematical models, covers chaos and the dynamics of uncertainty, and demonstrates the fundamental limitations in applied analysis which arise from model inadequacy. Fundamental aspects of predictability are addressed. Decision support under uncertainty is considered, with examples of economic impacts of forecasting, including weather and climate. The student will leave with a toolkit for the analysis and modelling of real data, with insights into how to evaluate which methods to employ (linear/non-linear, deterministic/stochastic) in a given problem, how to interpret the results in context, and how to avoid over-interpreting nice theorems in practical circumstances. Concrete applications in economics (price time series, electricity demand, energy futures) and environment (weather, climate) as well as analytically tractable illustration from mathematics are considered.
Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT. 1 hour of lectures in the ST.
Week 6 will be used as a reading week.
Assessment: Exam (70%), duration: 2 hours) in the main exam period.
Project (30%) in the ST.

ST421 Half Unit
Developments in Statistical Methods

This information is for the 2016/17 session.
Teacher responsible: Dr Wicher Bergsma COL 6.06
Availability: This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have statistical knowledge up to the level of the course ST425: Statistical Inference: Principles, Methods and Computation. It is also useful to take ST411: Regression, Diagnostics and Generalised Linear Modelling in parallel to this course.
Course content: Our aim is to teach students important statistical methodologies that reflect the exciting development of the subject over the last twenty years, which include empirical likelihood, MCMC, bootstrap, local likelihood and local fitting, model Assessment and selection methods, and Gaussian process regression. These are computationally intensive techniques that are particularly powerful in analysing large-scale data sets with complex structure. A selection from the following topics will be covered: robustness of likelihood approaches: distance between working model and “truth”, maximum likelihood under wrong models, quasi-MLE, model selection with AIC, robust estimation. Empirical likelihood: empirical likelihood of mean. Bayesian methods and Markov chain Monte Carlo (MCMC) basic Bayes, Gibbs sampler, Metropolis-Hastings algorithm. Elements of statistical learning: global fitting versus local fitting, linear methods for regression, splines, kernel methods and local likelihood. Model assessment and selection: bias-variance trade-off, effective number of parameters, BIC, cross-validation. Further topics: statistical learning using Gaussian process regression. The course will be continuously updated to reflect important new developments in statistics.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. Week 6 will be used as a reading week.
Formative coursework: Formative assessment consists of weekly exercises.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST422 Half Unit
Time Series

This information is for the 2016/17 session.
Teacher responsible: Dr Yining Chen
Availability: This course is compulsory on the MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available on the MSc in Applicable Mathematics, MSc in Econometrics and Mathematical Economics, MSc in Financial Mathematics, MSc in Management Science (Operational Research), MSc in Risk and Stochastics, MSc in Statistics and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Good undergraduate knowledge of statistics and probability.
Course content: A broad introduction to statistical time series analysis for postgraduates: what time series analysis can be useful for; autocorrelation; stationarity; causality; basic time series models: AR, MA, ARMA; ARCH and GARCH models for financial time series; trend removal and seasonal adjustment; invertibility; spectral analysis; estimation; forecasting. We will also discuss nonstationarity and multivariate time series.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. Exercises will be given out to do at home during Week 6.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.
ST425  
Statistical Inference: Principles, Methods and Computation

This information is for the 2016/17 session.
Teacher responsible: Prof Qiwei Yao COL 7.16
Availability: This course is compulsory on the MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available on the MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course will provide a comprehensive coverage on some fundamental aspects of probability and statistics methods and principles. It also covers linear regression analysis. Data illustration using statistical package R constitutes an integral part throughout the course, therefore provides the hands-on experience in simulation and data analysis.
Teaching: 40 hours of lectures, 10 hours of seminars and 10 hours of computer workshops in the MT.
Week 11 will be used as a revision week.
Formative coursework: Students will complete weekly assessed problem sheets. They will also complete R practice following instructions from the weekly computing workshop.
Indicative reading: L. Wasserman, All of Statistics. Y. Pawita, In All Likelihood
K. Knight, Mathematical Statistics
A. Zuur et al., A Beginner’s Guide to R. (Available online from LSE Library.)
N. Venables et. al., An Introduction to R (http://cran.r-project.org/doc/manuals/R-intro.pdf)
Assessment: Exam (85%, duration: 3 hours) in the LT week 0. Project (15%) in the MT.

ST426 Half Unit
Applied Stochastic Processes

This information is for the 2016/17 session.
Teacher responsible: Dr Erik Baardoux COL 6.04
Availability: This course is available on the MSc in Financial Mathematics, MSc in Risk and Stochastics, MSc in Statistics, MSc in Statistics (Financial Statistics) and MSc in Statistics (Research). This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course builds on material discussed in ST409 (Stochastic Processes). In particular, elements of the general theory of semi-martingales will be covered and emphasis will be given on presenting a variety of models involving processes with general dynamics, including jumps. The theory will be applied to a range of topics in mathematical finance and insurance, as well as financial economics.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.
Week 6 will be used as a reading week; exercises will be given out to students to do at home.
Formative coursework: A set of coursework similar to the exercises that will appear in the exam will be assigned. Additional formative exercise will be available through Moodle.
Indicative reading: Brownian Motion and Stochastic Calculus. Ioannis Karatzas and Steve Shreve
Selected papers from scientific journals.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST427 Half Unit
Insurance Mathematics

This information is for the 2016/17 session.
Teacher responsible: Dr Hao Xing COL 7.12
Availability: This course is compulsory on the MSc in Risk and Stochastics. This course is available on the MSc in Financial Mathematics and MSc in Statistics (Financial Statistics). This course is not available as an outside option.
Course content: A self-contained comprehensive introduction to life and non-life insurance mathematics. For the life insurance, mortality laws are analysed from probabilistic and statistical point of view. Actuarial analysis of basic insurance products: pure endowment, life insurance/assurance, and annuity. Prospective/retroactive reserves of these products. Extension to general multi-sequential policy is studied via Markov chains Pricing embedded interest and mortality guarantees is introduced. For the non-life insurance, axiomatic approach to ordering of risks is presented, optimal forms of insurance of the insured’s and from the insurer’s point of view are analysed, and Pareto-optimal risk exchanges are introduced. Standard schemes of reinsurance are introduced and analysed. Ruin probability of an insurance company and capital requirement are studied. Heavy tail distributions and the extreme value theory are introduced. Case studies on current developments in life and non-life insurance industry are also presented.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. An informal ‘open book’ mid-term practice examination will take place in Week 6.
Formative coursework: 5 to 6 problem sets will be assigned.
Indicative reading: R Norberg, Risk and Stochastics in Life Insurance (Lecture notes)
R Norberg, Non-life Insurance Mathematics (Lecture notes)
T Mikosch, Non-Life Insurance Mathematics.
Assessment: Exam (100%, duration: 2 hours) in the LT week 0.

ST429 Half Unit
Probabilistic Methods in Risk Management and Insurance

This information is for the 2016/17 session.
Teacher responsible: Dr Hao Xing COL 7.12
Availability: This course is available on the MSc in Financial Mathematics, MSc in Management, MSc in Management (CEMS MIM), MSc in Management (MIM Exchange), MSc in Management, Organisations and Governance, MSc in Risk and Stochastics and MSc in Statistics (Financial Statistics). This course is available as an outside option to students on other programmes where regulations permit.
Course content: A self-contained introduction to probabilistic and statistical methods in risk management. This course starts with risk factors models and loss distributions, which are illustrated via examples in stocks, derivatives, and bonds portfolios. Axioms of coherent risk measures are introduced. Value at risk and other risk measures are introduced and their relation with coherent risk measures is discussed. Multivariate factor models are introduced and analysed: covariance and correlation estimations, multivariate normal distributions and their testing, normal mixture distributions and their fitting to data. The theory of copulas is introduced: meta distributions, tail dependence, fitting copulas to data. Some limitations of copulas are also discussed. The extreme value theory is introduced: generalized extreme value distribution, threshold exceedances and generalized Pareto distribution, modelling and measures of tail risk. Applications to insurance with large loss are also discussed. Students will be exposed to financial data via sets of computer-based classes and exercises.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. A exercise/problem-solving session will take place in Week 6.
Formative coursework: A set of exercises which are similar to problems appearing in the exam will be assigned. A set of coding
ST433  Half Unit
Computational Methods in Finance and Insurance
This information is for the 2016/17 session.
Teacher responsible: Dr Konstantinos Kalogeropoulos COL 6.10
Availability: This course is compulsory on the MSc in Risk and Stochastic. This course is available on the MSc in Accounting and Finance, MSc in Finance (full-time), MSc in Financial Mathematics, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed September Introductory Course (Financial Mathematics) (MA400).
Course content: The purpose of this course is to (a) develop the students' computational skills, (b) introduce a range of numerical techniques of importance in actuarial and financial engineering, and (c) develop the ability of the students to apply the theory from the taught courses to practical problems, work out solutions including numerical work, and to present the results in a written report. Binomial and trinomial trees. Random number generation, the fundamentals of Monte Carlo simulation and a number of related issues. Finite difference schemes for the solution of ordinary and partial differential equations arising in insurance and finance. Numerical solutions to stochastic differential equations and their implementation. The course ends with an introduction to guidelines for writing a scholarly report/thesis.
Teaching: 20 hours of lectures in the LT. 10 hours of workshops in the LT.
Week 6 will be used as a reading week.
Formative coursework: Weekly marked problem sheets, with exercises which are similar to examples in computer lab sessions will be assigned.
Assessment: Exam (75%, duration: 2 hours) in the main exam period.
Project (25%, 2000 words).

ST436  Half Unit
Financial Statistics
This information is for the 2016/17 session.
Teacher responsible: Prof Piotr Fryzlewicz COL 6.01
Availability: This course is compulsory on the MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available on the MSc in Risk and Stochastic. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Statistical Inference: Principles, Methods and Computation (ST425).
Course content: The course covers key statistical methods and data analytic techniques most relevant to finance. Hands-on experience in analysing financial data in the "R" environment is an essential part of the course. The course includes a selection of the following topics: obtaining financial data, low- and high-frequency financial time series, ARCH-type models for low-frequency volatilities and their simple alternatives, predicting equity indices (case study), Markowitz portfolio theory and the Capital Asset Pricing Model, machine learning in financial forecasting, Value at Risk, simple Markowitz portfolio theory and the Capital Asset Pricing Model, machine learning in financial forecasting, Value at Risk, simple
Teaching: 20 hours of lectures and 10 hours of seminars in the MT.
Week 6 will be used as a reading/revision week.
Formative coursework: Exercises are set weekly and solutions are discussed in the lectures. There will be one set of compulsory written coursework in the MT which will be marked.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST435  Half Unit
Advanced Probability Theory
This information is for the 2016/17 session.
Teacher responsible: Dr Luciano Campi COL 7.10
Availability: This course is available on the MSc in Risk and Stochastic, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
The course is offered as a regular examinable half-unit as well as a service to students and academic staff.
Pre-requisites: Analysis and algebra at the level of a BSc in pure or applied mathematics and basic statistics and probability theory with stochastic processes. Knowledge of measure theory is not required as the course gives a self-contained introduction to this branch of analysis.
Course content: The course covers core topics in measure theoretic probability and modern stochastic calculus, thus laying a rigorous foundation for studies in statistics, actuarial science, financial mathematics, economics, and other areas where uncertainty is essential and needs to be described with advanced probability models. Emphasis is on probability theory as such rather than on special models occurring in its applications. Brief review of basic probability concepts in a measure theoretic setting: probability spaces, random variables, expected value, conditional probability and expectation, independence, Borel-Cantelli lemmas Construction of probability spaces with emphasis on stochastic processes. Operator methods in probability: generating functions, moment generating functions, Laplace transforms, and characteristic functions. Notions of convergence: convergence in probability and weak laws of large numbers, convergence almost surely and strong laws of large numbers, convergence of probability measures and central limit theorems. If time permits and depending on the interest of the students topics from stochastic calculus might be covered as well.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT.
Week 6 will be used as a reading/revision week.
Formative coursework: Exercises are set weekly and solutions are discussed in the lectures. There will be one set of compulsory written coursework in the MT which will be marked.
Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Project (50%) in the ST.

ST440  Half Unit
Statistical Learning
This information is for the 2016/17 session.
Teacher responsible: Prof Piotr Fryzlewicz COL 6.01
Availability: This course is compulsory on the MSc in Risk and Stochastic. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Statistical Inference: Principles, Methods and Computation (ST425).
Course content: The course covers key statistical methods and data analytic techniques most relevant to finance. Hands-on experience in analysing financial data in the “R” environment is an essential part of the course. The course includes a selection of the following topics: obtaining financial data, low- and high-frequency financial time series, ARCH-type models for low-frequency volatilities and their simple alternatives, predicting equity indices (case study), Markowitz portfolio theory and the Capital Asset Pricing Model, machine learning in financial forecasting, Value at Risk, simple trading strategies. The course ends with an extended case study involving making predictions of market movements in a virtual trading environment.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT.
Week 11 will be spent working on the extended case study.
Formative coursework: Weekly marked problem sheets, with solutions discussed in class. Two marked case studies.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST439   Half Unit
Stochastics for Derivatives Modelling

This information is for the 2016/17 session.
Teacher responsible: Dr Beatrice Acciaio COL 6.02
Availability: This course is compulsory on the MSc in Risk and Stochastics. This course is available on the MSc in Financial Mathematics, MSc in Statistics (Financial Statistics) and MSc in Stochastics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Stochastic Processes (ST409).
Course content: Valuation and hedging of derivative securities: general principles of mathematical finance; asset price models; static vs dynamic option pricing; connection with PDEs; exotic options; volatility derivatives; mean-variance hedging.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. During week 6 students will carry out group work; solving problems that will have been set in an earlier class.
Formative coursework: Weekly homework will be set. Students are not expected to submit this homework but will go over the exercises in the following seminar with the lecturer.
Indicative reading: Steven Shreve, Stochastic Calculus for Finance II: Continuous-Time Models, Springer.
Selected papers from scientific journals.
Thorsten Rheinlander and Jenny Sexton, Hedging Derivatives, World Scientific.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST440   Half Unit
Recent Developments in Finance and Insurance

This information is for the 2016/17 session.
Teacher responsible: Dr Beatrice Acciaio COL 6.02
Availability: This course is compulsory on the MSc in Risk and Stochastics. This course is available on the MSc in Financial Mathematics, MSc in Statistics (Financial Statistics) and MSc in Stochastics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Stochastic Processes (ST409).
Course content: Recent developments in the theory of stochastic processes and applications in finance and insurance and their interface. A variety of topics will be chosen, from robust evaluation; optimal hedging; evaluation via utility criteria; optimal risk sharing; minimal capital requirement according to the Basel Accords and the Solvency Directives; life insurance.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. During weeks 10 and 11, students will be required to give group presentations using material which will have been provided in week 1 or 2; as well as discussing in groups solutions to problems that will have been set in class. Week 6 will also be used by students to prepare their presentations and work through exercises.
Formative coursework: A set of coursework similar to the exercises that will appear in the exam will be assigned as well as a mock exam.
Selected papers from scientific journals.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST441   Half Unit
Introduction to Markov Processes and their Applications

This information is for the 2016/17 session.
Teacher responsible: Dr Umut Cetin COL 6.08
Availability: This course is available on the MSc in Financial Mathematics, MSc in Risk and Stochastics, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Stochastic Processes (ST409).
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. Formative coursework: A weekly set of homework will be set. Students are not expected to submit this homework but will go over the exercises in the following seminar with the lecturer. Students will also complete one or two sets of formative coursework during the year which will be marked. Feedback will be provided.
Indicative reading: An Introduction to Markov Processes and Their Applications. Lecture Notes by Umut Cetin
I. Karatzas and S. Shreve: Brownian Motion and Stochastic Calculus. Springer
D. Revuz and M. Yor: Continuous Martingales and Brownian Motion. Springer
K.L. Chung and J. Walsh: Markov Processes, Brownian Motion and Time Symmetry. Springer
Assessment: Exam (80%, duration: 2 hours) in the main exam period.
Project (20%) in the ST.

ST442   Half Unit
Longitudinal Data Analysis

This information is for the 2016/17 session.
Teacher responsible: Prof Fiona Steele COL 7.08
Availability: This course is available on the MSc in Inequalities and Social Science, MSc in Social Research Methods, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: A knowledge of probability and statistical theory, including linear regression and logistic regression.
Course content: A practical introduction to methods for the analysis of repeated measures data, including continuous and binary outcomes. Topics include: longitudinal study designs, models for two measures, (random effects) growth curve models, marginal models, dynamic (autoregressive) models, latent class models, and models for multivariate outcomes. The course will have an applied emphasis with fortnightly computer classes using the Stata software.
Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT. Week 6 will be used as a reading week.
Formative coursework: Coursework assigned fortnightly and returned to students with comments/feedback during the computer sessions.
ST443 Half Unit
Machine Learning and Data Mining

This information is for the 2016/17 session.
Teacher responsible: Dr Xinghao Qiao
Availability: This course is available on the MSc in Statistics, MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: The course will be taught from a statistical perspective and students must have a sound knowledge of statistical methods of regression analysis, as covered for example in 'Statistical Inference: Principles, Methods and Computation (ST425)' Students are not permitted to take this course alongside MG4E1.
Algorithmic Techniques for Data Mining.
Course content: Machine learning and data mining are emerging fields between statistics and computer science which focus on the statistical objectives of prediction, classification and clustering and are particularly orientated to contexts where datasets are large, the so-called world of 'big data'. This course will start from the classical statistical methodology of linear regression and then build on this framework to provide an introduction to machine learning and data mining methods from a statistical perspective. Thus, machine learning will be conceived of as 'statistical learning', following the titles of the books in the essential reading list. The course will aim to cover modern non-linear methods such as spline methods, generalized additive models, decision trees, boosting and support vector machines, as well as more advanced linear approaches, such as LASSO, linear discriminant analysis, k-means clustering, nearest neighbours, neural network.
Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT.
The first part of the course reviews regression methods and covers linear discriminant analysis, variable selection, nearest neighbours, shrinkage, dimension reduction methods, neural network.
The second part of the course introduces non-linear models and covers polynomial regression, splines, generalized additive models, tree methods, bagging, random forest, support vector machines, principal components analysis, k-means, hierarchical clustering.
Week 11 will be used for project group presentations.
Formative coursework: Students will be expected to produce 8 problem sets in the LT.
The problem sets will consist of some theory questions and data problems that require the implementation of different methods in class using a computer package.
Assessment: Exam (70%), duration: 2 hours) in the main exam period.
Project (30%) in the Week 11.
ST499

Dissertation

This information is for the 2016/17 session.

Teacher responsible: Prof Fiona Steele COL.7.08 and Dr Yining Chen COL.2.04

Availability: This course is compulsory on the MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is not available as an outside option.

Course content: Independent project work on a subject chosen by the student.

Assessment: Dissertation (100%) in August. (50 page limit).
Executive Taught Master’s Course Guides
EC409E  Half Unit
Public Policy in Practice Workshop III (EMPA)

This information is for the 2016/17 session.
Teacher responsible: Dr Daniel Sturm and Dr Joachim Wehner
Availability: This course is compulsory on the Executive Master of Public Administration. This course is not available as an outside option.
Pre-requisites: There are no pre-requisites for this course.
Course content: The policy workshop applies the analytical tools that are taught in the week-long modules of the Executive MPA to specific policy areas. Teaching is based on a series of case studies. The case studies are taught by specialists in a particular policy area and are complemented with group working sessions by the students and presentations by policy practitioners involved in the policy area.
Teaching: A three-day modular teaching block.
Formative coursework: One optional mock policy exercise will be provided.
Indicative reading: Readings that are specific to each policy area will be distributed at the beginning of the course
Assessment: Essay (100%, 2000 words).
Assessment will consist of a 2,000 word reflective essay due 10 days after module teaching concludes. Further details will be provided at the Executive MPA programme induction.

EC410E  Half Unit
Public Economics for Public Policy

This information is for the 2016/17 session.
Teacher responsible: Dr Daniel Sturm and Dr Henrik Kleven
Availability: This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: Students must have completed Empirical Methods for Public Policy (EC455E) and Economic Policy Analysis (EC440E).
Course content: This is a course in theoretical and applied public economics using intermediate economic theory. Topics include issues of equity and efficiency and alternative theories of the role of the state. Models of public goods and externalities, including environmental policy. Who really pays taxes: issues of tax incidence and tax evasion. Income inequality, poverty alleviation and the role of welfare programmes in theory and in practice. Health and education policy. The effects of taxes and transfers on labour supply and migration; The optimal taxation of commodities and incomes. Current topics in public finance. The main institutional references will be to the UK and the US, but some attention will also be given to broader international experience.
Teaching: A one-week modular teaching block.
Formative coursework: One mock examination will be offered.
Indicative reading: A full reading list will be distributed prior to the beginning of the course.
Assessment: Project (50%, 2000 words) and online assessment (50%).
Please note that online examinations take place on the third Friday after module teaching concludes. The project will consist of a 2,000 word data analysis exercise. Data analysis exercises are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA programme induction.

EC421E  Half Unit
Global Market Economics

This information is for the 2016/17 session.
Teacher responsible: Professor Andrew Bernard
Availability: This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: Students must have completed Empirical Methods for Public Policy (EC455E) and Economic Policy Analysis (EC440E).
Course content: The main focus of this course is on acquiring the necessary theoretical and empirical skills to engage in the rigorous study of the global economy.

EC420E  Half Unit
Economic Policy Analysis

This information is for the 2016/17 session.
Teacher responsible: Professor Gerard Padró i Miquel and Dr Ethan Ilzetzki
Availability: This course is compulsory on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: There are no pre-requisites for this course.
Course content: The course is an introductory graduate course providing an economics background suitable for high-level public policy-making. The emphasis is on acquiring sound models and methods suitable for appraising policy-making issues and applicable in a wide range of contexts. The course will cover both key microeconomic policy issues, such as externalities, public goods and principal-agent problems and macroeconomic issues such as unemployment, fiscal and monetary policies, international trade and finance and the determinants of long-run growth.
Teaching: A one-week modular teaching block.
Formative coursework: One mock examination will be provided.
Indicative reading: A full reading list will be distributed at the beginning of the course.
Assessment: Project (50%, 2000 words) and online assessment (50%).
Please note that online examinations take place on the third Friday after module teaching concludes. The project will consist of a 2,000 word data analysis exercise. Data analysis exercises are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA programme induction.

EC454E  Half Unit
Development Economics

This information is for the 2016/17 session.
Teacher responsible: Prof Robin Burgess LRB.R524 and Prof Oriana Bandiera LRB.R526
Availability: This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: Students must have completed Empirical Methods for Public Policy (EC455E) and Economic Policy Analysis (EC440E).
Course content: This course focuses on the economic interdependence between countries in a global economy. The first part of the course examines the structure and geography of world trade and examines popular hypothesis such as the "global village" or "flat earth". The second part of the course analyses macroeconomic issues such as the magnitude and effects of international capital flows, the debate over fixed versus flexible exchange rates and the economics of a common currency.
Teaching: A one-week modular teaching block.
Formative coursework: One mock essay opportunity will be provided.
Indicative reading: A full reading list will be distributed at the beginning of the course.
Assessment: Essay (50%, 2000 words) and online assessment (50%).
Please note that online examinations take place on the third Friday after module teaching concludes. Assessed essays are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA programme induction.
analysis of public policies in developing countries. Topics at the forefront of development economics will be covered. These include political economy, trade liberalization, growth, access to finance, technology adoption, education, health, infrastructure, property rights, land reform, gender, environment, mass media and political accountability. The emphasis will be on combining theory and data to evaluate the effectiveness of policies in these different areas.

**Teaching:** A one-week modular teaching block.

**Formative coursework:** One mock essay opportunity will be provided.

**Indicative reading:** A reading list will be distributed at the start of the course.

**Assessment:** Essay (50%, 2000 words) and online assessment (50%).

Please note that online examinations take place on the third Friday after module teaching concludes. Essays are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA programme induction.

---

**EC455E Half Unit**

**Empirical Methods for Public Policy**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Daniel Sturm and Dr Gregory Fischer

**Availability:** This course is compulsory on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.

**Pre-requisites:** There are no formal pre-requisites, but recommended advance readings will be distributed ahead of the course. Familiarity with the material covered in the EMPA/EMPP Mathematics and Statistics Refresher module is assumed.

**Course content:** The course introduces students to the quantitative evaluation of public policies. The focus of the course is on practical applications of techniques to test the effectiveness of public policy interventions. The course begins with an overview over the key benefits of randomized experiments in the evaluation of public policies. Next the course covers a number of techniques that are widely used in the evaluation of public policies, including difference-in-differences regressions, regression discontinuity approaches, matching and concludes with a brief introduction to cost-benefit analysis.

**Teaching:** A one-week modular teaching block.

**Formative coursework:** One mock examination will be provided.

**Indicative reading:** A full reading list will be distributed at the beginning of the course.

**Assessment:** Project (50%, 2000 words) and online assessment (50%).

Please note that online examinations take place on the third Friday after module teaching concludes. The project will consist of a 2,000 word data analysis exercise due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA programme induction.

---

**EC4H8E Half Unit**

**Executive MPP Capstone Project**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Joachim Wehner and Dr Daniel Sturm

**Availability:** This course is compulsory on the Executive Master of Public Policy. This course is not available as an outside option.

**Pre-requisites:** There are no pre-requisites for this course.

**Course content:** Students will undertake a group project (in teams usually of 3 to 5 people) relating to a public policy problem faced by the Civil Service. The group will have a period of approximately 3 months to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem.

**Teaching:** Each Capstone group will be allocated a supervisor, who will provide overall guidance on the project’s development and assistance with client liaison. Other members of staff may also advise as required.

**Formative coursework:** Feedback will be provided on presentations of work-in-progress during the project duration.

**Assessment:** Project (100%, 10000 words).

The project work is conducted in teams, and the assessment is based on a collective group mark for each component except in exceptional circumstances.

1) Presentation and submission of the project report to the client organisation. 20% of the marks are assigned by the client organisation.

2) Group project report. The main body of the report may not exceed 10,000 words and will be read by academic markers whose assessment will count for 60% of the final grade.

Additionally, each group member must write a personal reflection on their contribution to the group’s work, to be submitted alongside the report. The reflection should be no more than 600 words, and should include specific details of the student’s contributions to the project. The reflections should not be included in the report submitted to the client.

3) The final 20% of the marks are allocated by the Capstone supervisor on the basis of the group’s performance in terms of (i) scoping and project development (including coping with difficulties) and (ii) group working and self-management as a team.

**EC4J3E Half Unit**

**Public Policy in Practice Workshop III (EMPP)**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Joachim Wehner and Dr Daniel Sturm

**Availability:** This course is compulsory on the Executive Master of Public Policy. This course is not available as an outside option.

**Pre-requisites:** There are no pre-requisites for this course.

**Course content:** The policy workshop applies the analytical tools that are taught in the week-long modules of the Executive MPP to specific policy areas. Teaching is based on a series of case studies. The case studies are taught by specialists in a particular policy area and are complemented with group working sessions by the students and presentations by policy practitioners involved in the policy area.

**Teaching:** A three-day modular teaching block.

**Formative coursework:** One mock policy exercise will be offered.

**Indicative reading:** Readings that are specific to each policy area will be distributed at the beginning of the course.

**Assessment:** Essay (100%, 3000 words).

Assessment will consist of a 3,000 word policy exercise. Policy exercises are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA programme induction.
EU425E  Half Unit  
Interest groups, markets and democracy (modular)

This information is for the 2016/17 session.  
Teacher responsible: Steve Coulter  
Availability: This course is compulsory on the Executive MSc in Political Economy of Europe.  
Course content: The focus of this course is on the representation of interests in Europe, and their role in Economic policy-making. Students will analyse the main theoretical issues and selected empirical questions on how interests are differently organised across countries and at the EU level, on the interplay between interest representation and electoral politics, and on the policy outcome after interest intermediation. The objective is to understand the dynamics of economic policy-making in comparative perspective, with an emphasis on the globalisation period.  
Teaching: The course will run between 11-15 April 2015.  
Indicative coursework: One essay.  
Assessment: Essay (50%).

EU443E  Half Unit  
European Capitalism(s) and the Global Economy

This information is for the 2016/17 session.  
Teacher responsible: Dr Stephen Coulter  
Availability: This course is compulsory on the Executive MSc in Political Economy of Europe.  
Course content: The course consists of two parts. In the first part we will discuss the basic arguments and methodological considerations of the Varieties of Capitalism literature and conduct a comparative analysis of the core issue areas in the political economy of contemporary capitalism: how capital, labour and product markets are structured. The second part will build on these thematic treatments to discuss the structure of and dynamics of the main Western, Southern and Central European models of capitalism.  
Teaching: The course will run between 21-25 September 2015.  
Assessment: Essay (50%, 2000 words) in the LT. Take home exam (50%) in the ST.

EU446E  Half Unit  
Economic Governance of EMU (modular)

This information is for the 2016/17 session.  
Teacher responsible: Dr Corrado Macchiarelli  
Availability: This course is compulsory on the Executive MSc in Political Economy of Europe.  
Course content: The purpose of this course is to analyse the process of European monetary integration and its implications for the institutions of economic governance in the EU. There will be a strong emphasis on using the experience of the financial and economic crises since 2008 as a source of evidence to assess both the performance of EMU and the theories about monetary integration. We consider briefly the political and economic rationale for the establishment of EMU and then examine in detail how these rationales played themselves out in practice (e.g. problems of free-riding, political exchange, information asymmetries between policymakers etc). Indicative questions addressed in this course include: how and why did the EU develop the EMU project?, did economic theories prepare us for the Euro area crisis of 2010-11?; what are the challenges for member states in adjusting to the discipline of the ‘Euro-zone’?; what issues arise for the EU in managing relations between member states in the Euro-zone and those outside?; how does the Euro affect the ability of member states to adjust to periods of crisis and to external shocks?; is the sovereign debt crisis of 2010 indicative of imbalances within the EU and basic flaws in its institutional design?  
Teaching: The course will run on 19th – 23rd June 2017  
Assessment: Essay (50%). Take home exam (50%) in the ST.
the course investigates the ongoing challenges of political and institutional consolidation and the developmental consequences of the liberalization and FDI-led growth model of the 1990s/2000s. The course examines the emerging strengths and persistent weaknesses of these political economies and considers their implications for the region’s emerging varieties of capitalism, relative international competitiveness and political stability.

**Teaching:** The course will run between 6-10 July 2015.

**Formative coursework:** One 2,000 word essay.

**Assessment:** Essay (50%, 2000 words). Take home exam (50%) in the MT.

---

**EU453E** **Half Unit**

**The Political Economy of Welfare State Reform (modular)**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Waltraud Schelkle - Room: COW 1.06

**Availability:** This course is compulsory on the Executive MSc in Political Economy of Europe. This course is not available as an outside option.

**Course content:** The aim of the course is to apply concepts of economics and political economy to social policies in European welfare states. The seminars establish the theoretical context, summarise the findings of quantitative comparative case studies and discuss European experience in the context of broader international experience. They then build on these concepts and apply them to qualitative case studies of welfare state arrangements in member states, considering in particular the role of social policy legislation and coordination at the EU level. The course will provide students with the conceptual and empirical background to enable them to answer questions such as: What does economic theory and political economy tell us about the design of welfare states? How do social policies in European welfare states reconcile equity and efficiency? What drives or stalls reform dynamics in member states? What are the proper boundaries of EU social policy? Is the EU gradually developing into a social union, through international mobility and the portability of social entitlements?

**Teaching:** The Module will run between 12-16 September 2016.

**Formative coursework:** One formative essay - 2,000 words

**Assessment:** Essay (50%, 2000 words). Take home exam (50%) in the MT.

---

**EU452E** **Half Unit**

**Key Issues in the Political Economy of Europe (modular)**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Robert Hancke COW 2.09

**Availability:** This course is compulsory on the Executive MSc in Political Economy of Europe. This course is not available as an outside option.

**Course content:** This course forms the core course of the Executive MSc Political Economy of Europe. It tries to understand how the relation between state and economy in both Western Europe and Central and Eastern Europe has evolved over the post-war period. Key debates in this regard include the demise of Keynesianism as fiscal intervention by government and of real existing socialism, as well as the crisis of monetarism. We also examine how the operation of the EU as a whole, the Single Market and the monetary union in particular, interact with the political economy of European states inside and in the neighbourhood of the Community. The course aims to provide students with both an analytical understanding of and a systematic treatment of empirical issues related to the evolution of the European political economy. Topics include: State and economy in European economies; Economic theory and policy in Europe; The political economy of European integration; EU membership as a reform lever in post-communist Europe and in mature Western welfare states; EU enlargement; Monetary union and its crisis; the evolution of the Single Market.

**Teaching:** 27 hours of seminars in the MT. 27 hours of seminars in the LT.

**Formative coursework:** One 2,000 word individual essay, one project, plus a trial examination.

**Assessment:** Essay (50%, 2000 words). Take home exam (50%) in the ST.

---

**EU497E** **Half Unit**

**Dissertation**

**This information is for the 2016/17 session.**

**Availability:** This course is compulsory on the Executive MSc in Political Economy of Europe. This course is not available as an outside option.

**Course content:** Students in the Executive MSc Political Economy of Europe are required to write a dissertation on a topic within the field of their programme. Preparation for the Dissertation will commence with a week-long seminar (9 x 3hours) on aspects of research, writing, etc., followed by at least two research proposal drafts within two-month intervals, including (virtual) office hours, leading to a final dissertation project outline after 6 months (from December to July). The dissertation deadline is the second Monday in September of the second year.

**Teaching:** The course will run between 4-8 January 2016.

**Assessment:** Dissertation (100%).
FM405E  Half Unit
Fixed Income Securities and Credit Markets

This information is for the 2016/17 session.
Teacher responsible: Dr Christian Julliard
Availability: This course is available on the MSc in Finance (part-time). This course is not available as an outside option.
Pre-requisites: Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).
Course content:
• Interest rate modelling and derivatives
• Credit risk
• Credit derivatives and risk management
This course provides a thorough grounding in recent developments in fixed income securities pricing, hedging and portfolio management.

By the end of the course, the students will be familiar with the fixed income state of the art business practice and a variety of topics including (i) an analysis of the main products traded in the credit markets, such as Government and corporate bonds, bond options, swaps, caps, floors, swaptions, callable, puttable and convertible bonds, and an analysis of the main credit derivatives such as total-return swaps, spread options and credit default swaps; (ii) the specific tools used in the industry practice to evaluate and hedge these products, which range from no-arbitrage trees and the calibration of yield curve derivatives to the main tools used to monitor and manage credit risk; (iii) the process of securitization, with particular reference to collateralized default obligations and mortgage-based securities.

Teaching: 30 hours of lectures in the MT.
Assessment: Exam (80%, duration: 2 hours) in the main exam period.
Coursework (20%) in the LT.

FM406E  Half Unit
Topics in Portfolio Management

This information is for the 2016/17 session.
Teacher responsible: Dr Michela Verardo
Availability: This course is available on the MSc in Finance (part-time). This course is not available as an outside option.
Pre-requisites: Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).

Course content:
• Balancing Risk and Risk Premia for the Construction of Optimal Portfolios
• Dynamic Investment Strategies
• Selecting and Monitoring Portfolio Managers
• Transactions costs and Liquidity Risk in Portfolio Construction
This course covers a wide range of topics in equity portfolio management, with a strong focus on empirical applications. The first part of the course starts with a theoretical and empirical overview of risk and risk premia in different segments of financial markets; it then focuses on the construction of optimal portfolios, with applications to equity, bond, and multi-asset portfolios. The second part of the course introduces students to the implementation of several dynamic investment strategies, such as value, momentum, carry and others. The third part of the course focuses on selecting and monitoring mutual fund and hedge fund managers to form portfolios of managed funds. Finally, the course incorporates transactions costs and liquidity risk in the construction and evaluation of portfolios. The course is based on recent empirical studies and on applied exercises using financial data.

Teaching: 30 hours of lectures in the LT.
Formative coursework: Regular classworks will be completed, handed in and marked as part of formative assessment for this course.
Indicative reading: A course pack will include lecture notes and case studies. All relevant articles will be made available during the course. Useful references are Modern portfolio theory and investment analysis, by E. J. Elton, M. J. Gruber, S. J. Brown, and W. N. Goetzmann, Wiley Press; Investments, by Z. Bodie, A. Kane, and A. Marcus, McGraw-Hill Idrin; Modern investment management, by Bob Litterman and the Quantitative Resource Group, GSAM, Wiley Press.
Assessment: Exam (90%, duration: 2 hours) in the main exam period.
Coursework (10%) in the LT.

FM407E  Half Unit
Mergers, Buyouts and Corporate Restructurings

This information is for the 2016/17 session.
Teacher responsible: Dr Vicente Cuñat
Availability: This course is available on the MSc in Finance (part-time). This course is not available as an outside option.
Pre-requisites: Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).
Course content:
• Financial Valuation of Firms and Corporate Transactions
• Mergers, Acquisitions and Leveraged Buyouts
• Distress, Bankruptcy and Corporate Restructuring
This course covers advanced topics in Corporate Finance and introduces students to valuation techniques for both securities and projects. The first part of the course introduces students to several advanced valuation techniques applied to firms and projects. The second part of the course focuses on particular deals that involve firm valuation, in particular, mergers, divestitures, partial-divestitures (e.g. equity carve outs) and leveraged buyouts. The last part of the course provides with a framework of analysis for the resolution of financial distress and bankruptcy. Each of the topics introduced in this course covers both institutional details and results of relevant academic research. It is furthermore supported by case studies and practitioner talks.

Teaching: 30 hours of lectures in the LT.
Formative coursework: Regular classworks will be completed, handed in and marked as part of formative assessment for this course.
Indicative reading: A course pack will be distributed that includes case studies as well as additional readings such as textbook chapters, and practitioner articles.
Assessment: Exam (70%, duration: 2 hours) in the main exam period.
Project (30%) in the LT.

FM408E  Half Unit
Financial Engineering

This information is for the 2016/17 session.
Teacher responsible: Dr Jean-Pierre Zigrand
Availability: This course is available on the MSc in Finance (part-time). This course is not available as an outside option.
Pre-requisites: Students will be expected to show some familiarity with calculus and statistics.
Course content: Provides a thorough grounding in the theory and
practice of financial engineering. The emphasis is on the application of derivatives pricing and hedging methodology to equity and volatility derivatives and to structured products.

This syllabus lists and describes the topics covered in this course. In a nutshell, the course aims to cover the basics in derivatives theory, and to apply them to a multitude of financial securities and structured products, with a special emphasis on recent products in the equity and volatility derivative worlds. We review selected case studies in order to gain a better understanding of their practical usage. We also implement the models numerically in Excel, VBA or Matlab.

**Teaching:** 30 hours of lectures in the MT.

**Assessment:** Exam (80%), duration: 2 hours) in the main exam period.

Project (20%) in the LT.

---

**FM409E  Half Unit**

**Risk Management in Financial Markets**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Andrea Vedolin

**Availability:** This course is available on the MSc in Finance (part-time). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).

**Course content:**
- Hedging in equity and fixed income markets
- Market Risk, Value at Risk and Expected Shortfall
- Endogenous Risk and Limits to Arbitrage
- Credit risk and structured products

The aim of this course is to give an introduction to the analysis and management of risk within financial markets. The objective of the course is to develop a conceptual framework for thinking about financial risk and to show how these concepts are implemented in practice in a variety of contexts. First, the course gives an overview of risk management in the context of portfolios of fixed income securities and derivatives. Next, will discuss the implementation of the models of Value at Risk measures. We will spend some time on endogenous risk and limits to arbitrage. In the context of credit risk we will cover ratings based and structural models, as well as credit risk on portfolios and credit derivatives. A final topic covers regulation and the recent credit crisis. Throughout, the course spends a significant amount of time on practical applications of the theories that are introduced. Some limitations of current approaches are also discussed.

**Teaching:** 30 hours of lectures in the LT.

**Formative coursework:** Problem sets. In addition, students will have the opportunity to present the results of a case study to the class.

**Assessment:** Exam (90%), duration: 2 hours) in the main exam period.

Coursework (5%) and presentation (5%) in the LT.

---

**FM414E  Half Unit**

**Corporate Investment and Financial Policy**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Ulf Axelson

**Availability:** This course is available on the MSc in Finance (part-time). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).

**Course content:**
- Supporting the firm's strategy with Long-term and short-term financial management
- Real options and strategic investment decisions
- Family firms, IPOs, and corporate governance
- Risk management, International valuation, and currency exposure

A case based course aimed at deepening the understanding of how to apply corporate finance concepts in a wide variety of business situations. In particular, we will try to build on concepts in business strategy, valuation techniques, and capital structure theories covered in previous courses, and see how to apply those tools in a systematic and rigorous way when approaching complicated real-life corporate finance problems. Examples of topics include working capital management, capital structure, risk management, real options, initial public offerings, international corporate finance, and family firms. Students will have to read up on cases before class and be prepared to discuss them interactively in class.

**Teaching:** 30 hours of seminars in the MT.

**Formative coursework:** 5 formative case study assignments (similar to summative cases).

**Indicative reading:**
- Berk and DeMarzo, “Corporate Finance”
- Around 10 case studies
- A number of related scientific articles, including:
  - Bodily, Samuel E., 2005, “Real Options”, Darden case study UV0433-PDF-ENG

**Assessment:** Exam (70%), duration: 2 hours) in the main exam period.

Coursework (20%) and class participation (10%) in the LT.

---

**FM422E  Half Unit**

**Corporate Finance**

**This information is for the 2016/17 session.**

**Teacher responsible:** Amil Dasgupta

**Dirk Jenter**

**Availability:** This course is compulsory on the MSc in Finance (part-time). This course is not available as an outside option.

**Pre-requisites:** Aimed at people with a good undergraduate degree and good quantitative skills, with some knowledge of economics.

**Course content:**
- Financing
- Valuation

This core course provides a broad introduction to the key issues in corporate finance. The first half of the course, the Financing Module, investigates how companies should finance their activities by issuing securities (debt, equity, and convertible claims) and the interaction of business policy with financial policy. The aim is to understand what factors determine optimal capital structure and how the interplay of these factors can affect financing decisions in a way that creates value. The second half of the course, the Valuation Module, covers firm and project valuation and establishes how companies should select among investable assets. The module focuses on fundamental valuation techniques based on discounting future cash flows. The course goes on to introduce further
valuations methods, such as real options analysis, as well as key applications of valuation concepts to major corporate decisions such as mergers and acquisition and initial public offerings. The course interweaves key conceptual material with a series of cases.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

**Indicative reading:** The recommended textbooks for this course are Berk and DeMarzo, Corporate Finance and Higgins, Analysis for Financial Management. Other recommended readings from relevant journal articles will be included in a study pack.

**Assessment:** Exam (80%, duration: 3 hours) in the main exam period.

In class assessment (20%) in the MT and LT.

---

**FM423E Asset Markets**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Christopher Polk and Dr Dong Lou

**Availability:** This course is compulsory on the MSc in Finance (part-time). This course is not available as an outside option.

**Pre-requisites:** Aimed at people with a good undergraduate degree and good quantitative skills, with some knowledge of economics.

**Course content:**
- Investments and Securities Valuation
- Portfolio choice and performance evaluation
- Derivatives

The aim of the course is to familiarize students with the workings of financial markets, and equip them with the fundamental tools of asset valuation. The course will focus on the three main asset classes - fixed income, stocks, and derivatives - giving a unified perspective of modern valuation methods. The starting point will be the present value formula. The course will then proceed to fixed-income securities, focusing mainly on government bonds. These will be valued off the term structure of interest rates, using the present value formula. The connection with the principle of no-arbitrage will be emphasized. The course will then move to stocks, starting with portfolio theory and then deriving the relation between risk and return (CAPM). The CAPM will provide a risk-adjusted discount rate that will be used to discount stocks' cash flows with the present value formula. Alternative pricing models such as the APT and multifactor models will also be covered, and the models will be applied to issues of asset allocation and portfolio selection. The last topic will be derivatives, especially futures and options. After familiarizing students with the use of derivatives, the course will cover the main valuation methods (binomial model, Black-Scholes) emphasizing again the principle of no-arbitrage.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

**Indicative reading:** The organisation of topics of the course follows closely the treatment in Berk and DeMarzo, Corporate Finance, 2nd Global Edition, Pearson International, and Bodie, Kane, and Marcus, Investments, 8th Edition, McGraw Hill. Other recommended readings and case studies will be included in a study pack.

**Assessment:** Exam (80%, duration: 3 hours) in the main exam period.

In class assessment (10%) in the MT.

In class assessment (10%) in the LT.

---

**FM447 Half Unit Global Financial Systems**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Jon Danielsson

**Availability:** This course is available on the CEMS Exchange, IMEX Exchange, MSc in Accounting and Finance, MSc in Finance (part-time), MSc in Finance and Economics, MSc in Finance and Economics (Research) and MIM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students should have a strong background in microeconomics, and be comfortable with formal arguments.

**Course content:** This course examines the academic and policy debates on the operation of the global financial system. The course will aim to be topical, where the analysis of the issues will be based on economic arguments. The course begins with analysis of systemic risk, followed by an overview of important financial crisis and key institutions. Several theories of financial crises are then developed in some detail, and are assessed by reference to historical experience. The course concludes by analysis of the crises from 2007, including the latest policy and regulatory developments as well as the current situation in the European crisis.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Students are required to undertake a journal articles will be included in a study pack.

**Indicative reading:** The recommended textbooks for this course are Berk and DeMarzo, Investments, 8th Edition, McGraw Hill. Other recommended readings from relevant journal articles will be included in a study pack.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**FM472 Half Unit International Finance**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Chiara Banti

**Availability:** This course is available on the CEMS Exchange, IMEX Exchange, MSc in Accounting and Finance, MSc in Finance (full-time), MSc in Finance (part-time), MSc in Finance and Economics, MSc in Finance and Economics (Research), MSc in Finance and Private Equity, MSc in Financial Mathematics, MSc in Risk and Finance and MIM Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit. (Permission required from the course leader). Interested graduate students enrolled in any programme not listed above must email the course leader to ask for permission. The email must include the list of finance and economics courses taken during their previous studies and the motivation for wanting to take the course. Only once this specific information is received by the course leader, the course request on Lse For You will be considered.

**Course content:** This course examines key issues in international finance, focusing on recent developments and incorporating theoretical, empirical, policy and institutional dimensions. The course uses exchange rates as a unifying theme and considers them from four perspectives: theory, policy, global risk and international investors. The course examines models of exchange rate determination and related empirical evidence. It analyses the choice and coordination of exchange rate regimes, including the European Monetary Union. It examines exchange rates as one of the sources of global financial instability. It considers the risk exposure for investors arising from exchange rate volatility and its hedging with currency instruments. The course also explores the links, in each area, to current developments such as the internationalisation of the Chinese Renminbi, the EMU sovereign debt crisis, the recent financial crisis and global imbalances, forex carry trades and the high volatility of short term exchange rates.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students are required to undertake a
group research project on a given topic in international finance. 

**Indicative reading:** A selection of journal articles; background reading from a textbook such as Keith Plibbeim International Finance (Palgrave, 2013, 4th edition)

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**FM475  Half Unit**

**Financial Management (modular)**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Daniel Ferreira

**Availability:** This course is compulsory on the Executive Global MSc Management. This course is not available as an outside option. The information in this course guide pertains to the 2016-2018 cohort.

**Course content:** The aim of the course is to provide a comprehensive overview of firms’ financial decision making. The course is designed to provide an applied and practical approach to finance, enabling the students to address topical issues that modern corporations face. In particular, the course builds on concepts in business strategy, valuation techniques, and capital structure theories, and applies those tools in a systematic and rigorous way to real-life financial management problems. After a brief introduction to financial management, the course focuses on corporate finance and business valuation. Topics such as mergers and acquisitions and initial public offerings will also be covered.

**Teaching:** Taught during module three - 10 interactive lectures of 3 hours each:
1. Introduction to financial management
2. Debt and equity
3. Capital structure – Case discussion
4. Tax shields – Case discussion
5. Capital markets and the pricing of risk
6. Initial public offerings
7. Valuation - Discounted Cash Flow techniques
8. Valuation – Practical aspects
9. Mergers and Acquisitions
10. Valuing companies – Case discussion

**Formative coursework:** Feedback on class participation.

**Indicative reading:** The recommended textbook for this course is Higgins, Analysis for Financial Management, 9th Edition and a pack of business case studies.

**Assessment:** Essay (20%, 1500 words), project (65%) and class participation (15%). The essay is an assessed 1,500 word group essay. The project is a take-home individual project.

Teacher responsible: Prof Simon Hix CON3.07 and Dr Andrew Eggers
Availability: This course is compulsory on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: There are no pre-requisites, but recommended advance reading is given below.
Course content: This course introduces a range of theoretical and empirical tools to analyse the politics of public policymaking. The main focus is on political institutions and political behaviour in modern democracies and how they relate to public policy. This includes topics such as elections, representation, bureaucracy, delegation, accountability, interest groups, legislatures, executives and decentralisation.
Teaching: A one-week modular teaching block.
Formative coursework: One mock examination will be provided.
Indicative reading: Analyzing Politics: Rationality, Behavior and Institutions by Kenneth Shepsle (W.W. Norton, 2nd edition, 2010) is an excellent starting point and reference for many topics. A full reading list will be distributed at the beginning of the course.
Assessment: Essay (50%, 2000 words) and online assessment (50%).
Please note that online examinations take place on the third Friday after the module teaching concludes. Assessed essays are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA programme induction.

**GV488E Half Unit**

Regulatory Analysis

This information is for the 2016/17 session.
Teacher responsible: Prof Martin Lodge CON3.08
Availability: This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: There are no pre-requisites, but recommended advance reading is given below.
Course content: This course examines contemporary issues in regulation in OECD countries and elsewhere. The focus is on exploring competing approaches towards regulation in the context of different domains, ranging from utility, environmental to health and safety regulation. Particular attention will be paid to issues such as institutional design, enforcement and compliance, as well as the relationship between politicians, regulators, business and other actors. Topics include institutional design, development and regulation, standard-setting, enforcement, ‘better regulation’, and accountability.
Teaching: A one-week modular teaching block.
Formative coursework: One mock examination opportunity will be provided.
Assessment: Essay (50%, 2000 words) and online assessment (50%).
A 2,000 word assessed essay (50%) and an online examination (50%). Please note that online examinations usually take place on the third Friday after module teaching concludes. Assessed essays are usually due on the sixth Friday after module teaching concludes. Further details will be provided at the EMPA programme induction.
**GV4E4E  Half Unit**

**Fiscal Governance and Budgeting**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Joachim Wehner CON4.10
Dr Paolo de Renzio

**Availability:** This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.

**Pre-requisites:** There are no pre-requisites for this course.

**Course content:** The course examines contemporary issues in fiscal governance and public budgeting in OECD countries and elsewhere. The focus is on executive and legislative actors and the institutional structures within which they make budgetary choices. Following an introduction to theoretical approaches to the study of budgeting, topics include medium-term frameworks, top-down budgeting, fiscal rules and fiscal councils, performance budgeting, legislative budgeting, fiscal decentralisation, budget transparency, audit and accountability.

**Teaching:** A one-week modular teaching block.

**Formative coursework:** One optional mock policy exercise will be provided.

**Indicative reading:** Fiscal Governance in Europe by Mark Hallerberg, Rolf Strauch and Jürgen von Hagen (Cambridge University Press, 2009) introduces an important theoretical approach and is a good reference for several topics. The OECD Journal on Budgeting [http://www.oecd.org/gov/budget/journal](http://www.oecd.org/gov/budget/journal) discusses current issues in applied budgeting. A full reading list will be distributed at the beginning of the course.

**Assessment:** Essay (50%, 2000 words) and online assessment (50%). Please note that online examinations take place on the third Friday after module teaching concludes. Essays are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA programme induction.

**GV4G8E  Half Unit**

**Public Policy in Practice Workshop I (EMPA)**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Daniel Sturm 32L2.25 and Dr Joachim Wehner CON4.10

**Availability:** This course is compulsory on the Executive Master of Public Administration. This course is not available as an outside option.

**Pre-requisites:** There are no pre-requisites for this course.

**Course content:** The course examines contemporary issues in fiscal governance and public budgeting in OECD countries and elsewhere. The focus is on executive and legislative actors and the institutional structures within which they make budgetary choices. Following an introduction to theoretical approaches to the study of budgeting, topics include medium-term frameworks, top-down budgeting, fiscal rules and fiscal councils, performance budgeting, legislative budgeting, fiscal decentralisation, budget transparency, audit and accountability.

**Teaching:** A three-day modular teaching block.

**Formative coursework:** One optional mock policy exercise will be provided.

**Indicative reading:** Readings that are specific to each policy area will be distributed at the beginning of the course.

**Assessment:** Project (100%, 3000 words). Assessment will consist of a 3,000 policy exercise. Policy exercises are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA programme induction.

---

**GV4H8E  Half Unit**

**Executive MPP Capstone Project**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Joachim Wehner and Dr Daniel Sturm

**Availability:** This course is compulsory on the Executive Master of Public Policy. This course is not available as an outside option.

**Pre-requisites:** There are no pre-requisites for this course.

**Course content:** Students will undertake a group project (in teams usually of 3 to 5 people) relating to a public policy problem faced by the Civil Service. The group will have a period of approximately 3 months to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem.

**Teaching:** Each Capstone group will be allocated a supervisor, who will provide overall guidance on the project’s development and assistance with client liaison. Other members of staff may also advise as required.

**Formative coursework:** Feedback will be provided on presentations of work-in-progress during the project duration.

**Assessment:** Project (100%, 10000 words). The project work is conducted in teams, and the assessment is based on a collective group mark for each component except in exceptional circumstances.

1) Presentation and submission of the project report to the client organisation. 20% of the marks are assigned by the client organisation.
2) Group project report. The main body of the report may not exceed 10,000 words and will be read by academic markers whose assessment will count for 60% of the final grade. Additionally, each group member must write a personal reflection on their contribution to the group’s work, to be submitted alongside the report. The reflection should be no more than 600 words, and should include specific details of the student’s contributions to
the project. The reflections should not be included in the report submitted to the client.
3) The final 20% of the marks are allocated by the Capstone supervisor on the basis of the group's performance in terms of (i) scoping and project development (including coping with difficulties) and (ii) group working and self-management as a team.

GV4J1E  Half Unit
Public Policy in Practice Workshop I (EMPP)
This information is for the 2016/17 session.
Teacher responsible: Dr Joachim Wehner and Dr Daniel Sturm
Availability: This course is compulsory on the Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: There are no pre-requisites for this course.
Course content: The policy workshop applies the analytical tools that are taught in the week-long modules of the Executive MPP to specific policy areas. Teaching is based on a series of case studies. The case studies are taught by specialists in a particular policy area and are complemented with group working sessions by the students and presentations by policy practitioners involved in the policy area.
Teaching: A three-day modular teaching block.
Formative coursework: One mock policy exercise will be offered.
Indicative reading: Readings that are specific to each policy area will be distributed at the beginning of the course.
Assessment: Essay (100%, 3000 words).
Assessment will consist of a 3,000 policy exercise. Policy exercises are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPP programme induction.

IR442  Diplomacy and Challenges
This information is for the 2016/17 session.
Teacher responsible: Prof Michael Cox TW1.9.01A
Availability: This course is compulsory on the MSc in International Relations and Diplomacy. This course is not available as an outside option.
Course content: This course looks at six key aspects of diplomacy: the tools of diplomacy, both old and new; the art of diplomatic and business negotiation; how different types of crisis have been resolved; in-depth discussions of a major current international problem; the challenges ahead, including flashpoints; preventative action and crisis management.
Teaching: 20 hours of seminars, 6 hours of seminars, 1 hour and 30 minutes of seminars and 7 hours and 30 minutes of seminars in the LT. 2 hours of seminars in the ST.
Formative coursework: One formative essay (2,000 words) with a pre-arranged title. Feedback will involve a meeting with each student to discuss their formative essay. We will aim to ensure that students are able to:
- Critically evaluate different kinds of evidence;
- Assess the strengths and weaknesses of competing explanatory paradigms;
- Formulate arguments in a coherent and balanced fashion.
Indicative reading:
IR444  Half Unit

Strategy in Action

This information is for the 2016/17 session.

Teacher responsible: Prof Michael Cox TW1.9.01A

Availability: This course is available on the MSc in International Strategy and Diplomacy. This course is not available as an outside option.

Course content: In this course we will be examining through lectures, seminars and workshops four major foreign policy decisions, the diplomatic background to each of these and the strategic thinking behind them. We will be asking the students through group exercises to prepare a strategy and policy paper relevant to the day.

Teaching: 8 hours of seminars in the ST.

The course is taught over 48 hours. This includes 3 intense sessions - a weekend of assessing strategic decisions involving drafting and crafting papers, a second weekend of formulating strategic decisions and briefing sessions on methodology. All these will lay the foundations for the dissertation plan.

Formative coursework: Group discussion and formulation of strategy/policy papers.

Indicative reading:
1. Maastricht - case study: Finn Laursen (Editor), Sophie Vanhoonacker (Editor), The Ratification of the Maastricht Treaty: Issues, Debates and Future Implications (1994)
4. The decision to go to war against Iraq - case study: John Kampfner, Blair's Wars

Assessment: Dissertation (100%, 3000 words) in the LT.

IR496  One and Half Unit

Dissertation: MSc International Strategy and Diplomacy (1.5 units)

This information is for the 2016/17 session.

Teacher responsible: Prof Michael Cox TW1.9.01A

Availability: This course is compulsory on the MSc in International Strategy and Diplomacy. This course is not available as an outside option.

Course content: The dissertation will address a topic in the social sciences drawn broadly from the three core courses. This will normally be a library based dissertation. The topic should make central use of concepts in the study of diplomacy and strategy and should demonstrate a good understanding of these concepts and implications. The dissertation will draw on empirical topic areas but should also demonstrate a high degree of conceptual originality. Guidance on standards of presentation will be given in the handbook and conform to the standard laid down for MSc dissertations in the International Relations Department. The subject and title of the dissertation must be approved by the dissertation supervisor.

Teaching: Arrangements for supervision. Students will receive advice on how to choose a topic and how to write a dissertation from the dissertation supervisor in two 1.5 hour workshops and two 1.5 hour individual supervision sessions.

Formative coursework: Students submit a 3,000 dissertation plan on which they receive written feedback (see the details of the IR444 course, taken in conjunction with IR496).

Assessment: Dissertation (100%, 15000 words) in the LT.

A 15,000 word dissertation (100%) to be submitted in September 2017. This course is taken in conjunction with IR444 Strategy in Action (H).

Using the dissertation plan (IR444), the dissertation will include an introduction, theoretical framework, a literature review and methodology followed by chapters, conclusion and bibliography.

LL400E  Half Unit

European Capital Markets Law

This information is for the 2016/17 session.

Teacher responsible: Professor Niamh Moloney

Availability: This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The course examines the EU's regulation of the capital markets. It considers the harmonized regulatory regime which applies to key capital market actors across the Member States and which supports the integrated market. The topics covered include: the rationale for integration and the role of law, the evolution of the integration project, and the impact of the financial crisis; the deregulation, liberalization, harmonization, and re-regulation mechanisms used to integrate and regulate the EU market and the role of the Court; market access and the passport for investment services; the Markets in Financial Instruments Directive 2004 (MiFID I) and the 2014 reforms (MiFID II. and the Markets in Financial Instruments Regulation) and regulation; the liberalization of order execution and the regulation of trading venues; the 'UCITS' mutual funds regime; retail investor protection and conduct regulation; the prospectus and disclosure regime; gatekeepers (credit rating agencies and investment analysts); and the institutional structure for law-making and for supervision.
LL401E  Half Unit

The Law of Armed Conflict

This information is for the 2016/17 session.

Teacher responsible: Dr Stephen Humphreys NAB5.12

Availability: This course is available on the Executive LLM. This course is not available as an outside option.

This course is available on the Executive LLM. Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course covers the international law governing the conduct of hostilities (jus in bello, also known as the law of armed conflict or international humanitarian law)--as distinct from the law on the resort to force (jus ad bellum), which is a separate course. The course will take a critical approach to the international regulation and facilitation of armed conflict. As well as the laws governing the means and methods of war ('Hague' law), the 'protected' groups hors de combat ('Geneva' law), and the distinction between international and non-international armed conflict, the course will cover 'lawfare' more generally: the recourse to law as a means of waging war. It will examine the application of the laws of war, including occupation law, in recent conflicts, including the wars in Iraq, Afghanistan and Syria, the 'war on terror', and the Palestinian Occupied Territories. Students can expect to have a thorough grasp of the principles and regulations governing the conduct of hostilities, the context and efficacy of enforcement mechanisms, and a critical understanding of the normative and political stakes of international law in this area.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email. Detailed readings for each seminar will be made available on Moodle.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL402E  Half Unit

Key Issues in Transnational Environmental Law

This information is for the 2016/17 session.

Teacher responsible: Dr Veerle Heyvaert NAB7.06

Availability: This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The course focuses on current developments in environmental law beyond the State, which includes both the European and international level. It reviews the main law and policy principles that inspire transnational environmental developments, and identifies opportunities for and obstacles to the effectiveness of transnational environmental law. Then, the course turns the spotlight on the most important environmental challenges of our time and examines the role of transnational law in managing or resolving them. The course is structured as follows: 1. Environmental law in context: economic and alternative approaches to sustainable development. 2. Sources and principles of transnational environmental law. 3. Transnational liability: responding to global catastrophes. 4. Governing environmental risk and the role of the precautionary principle. 5. Controlling toxic substances. 6. Climate change: international law and policy developments. 7. Climate change litigation. 8. Protecting biodiversity through designation: the EU example. 9. Regulating markets for ecosystem services. 10. Trade and the environment. 11. Revision.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course is concerned with the international protection of human rights and its relation to a range of current global problems. The course draws on the international law and practice of human rights to examine how we might best understand the contribution and limitations of human rights to addressing contemporary ills. Through the consideration of a range of standards and thematic issues participants will learn about, and critically analyse, human rights concepts, norms, institutions and actors. The course begins by studying the ideas and objectives that underpin the post-1945 human rights legal order and then turns to assess the United Nations and regional architectures and standards of international human rights. We build on this foundation to examine a variety of human rights topics and to consider how international law in these areas has developed and is being applied. The lectures will explore civil and political rights, economic social and cultural rights, ‘third generation’ rights, the rights of particular groups as well as a selection of current issues. Subjects may include: the prohibition of torture and the war on terror; the right to privacy; the right to food; the right to self-determination; the right to development; the rights of indigenous peoples; women’s human rights; transnational corporations and human rights; human rights and poverty, and human rights and the environment.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1 Essay (100%, 8000 words). Assessment path 2 Take home exam (100%).
of dispute resolution, negotiation and mediation. In the second part of the course specialist practitioners work with the class in exploring the interface between theory and practice and the different dynamics of disputes and their resolution in specific subject areas such as commercial law, community disputes, international law and family law. The course is designed to complement the option on Commercial Arbitration.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Indicative reading:** Students will also find it useful to access the following books which provide important context for debate about the civil litigation system and negotiation tactics:

- Henry Brown and Arthur Marriott, (2012) ADR: Principles and Practice, London: Sweet and Maxwell. This is written by practitioners but also makes reference to a number of seminal academic studies.
- Simon Roberts and Michael Palmer’s 2005 (second edition) Dispute Processes: ADR and the Primary Forms of Dispute Resolution, Cambridge, Cambridge University Press. This is the most theoretical book in this list but provides extracts from many of the seminal works in the field that we will be studying. It adopts a very interdisciplinary approach. This is useful as background reading.

**Assessment:**

**Assessment path 1**
- Essay (100%, 8000 words).
- Assessment path 2
- Take home exam (100%).

**LL406E Half Unit
Regulation of Financial Markets I**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Philipp Paech NAB7.05

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course (Part I and Part II) examines the regulatory structures governing financial markets and investment services. It covers the main principles of international, EU and UK financial regulation, with the aim of developing a critical understanding of the dynamics and conceptual framework of financial regulation. The course does not aim to provide a detailed comparative account of financial regulation across countries, but international comparisons may be made where these are useful. In this context, students are encouraged to draw on their knowledge of their own national systems of regulation in making comparisons, and to apply the analytical perspectives suggested to those systems.

The focus will be on the regulation of national and international aspects of financial services and markets, rather than on private law and transactional aspects. No previous knowledge of financial market regulation or background in economics is required for those wishing to follow this course. Indeed, the course provides a good background for further study of both financial and economic law and economic analysis of law. The course might be regarded as complimentary to a number of other courses, including Law of Corporate Finance or International Financial Law and Practice I & II.

The first part of this course will address the following topics:

- Anatomy of the Financial Market and the Great Financial Crisis
- Building Blocks of the Regulatory World
- Rationales for its Regulation: Systemic Stability, Market Integrity, Principle-Agent Competition
- Key Elements of Financial Regulation: disclosure, resilience, risk modelling and regulation inside firm
- Global and EU Regulatory Structures
- Financial Stability – Policy Issues, Principles and Global Standard Setters
- Prudential Regulation of Banks – The Basel Accords
- The EU Banking Union
- Deposit Guarantees
- Bank Resolution and Insolvency

**Teaching:** 24-26 hours of contact time (for each half unit)

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Indicative reading:** A full reading list will be distributed during the course and essential materials will be made available to the students, where possible. In addition, the students will be invited to do independent reading. Good general introductions to financial markets and their regulation include: A Turner et al, The Future of Finance: The LSE Report (2010); S Valdez and P. Molyneaux, Introduction to Global Financial Markets (7th edn).

**Assessment:**

Assessment path 1
- Essay (100%, 8000 words).

Assessment path 2
- Take home exam (100%).
background in economics is required for those wishing to follow this course. Indeed, the course provides a good background for further study of both financial and economic law and economic analysis of law. For non-lawyers, a willingness to engage in legal analysis will be necessary, although a legal background is not required.

The course might be regarded as complimentary to a number of other courses, including Law of Corporate Finance or International Financial Law and Practice I & II.

Topics include:
1. Unpicking the Great Financial Crisis
2. Mapping regulation for financial stability
3. States, Banks and Global Markets: the macroeconomic Background
4. The next Financial Crisis
5. Ethics in Finance
6. Market Integrity
7. The role of Consumers
8. Consumer Protection
9. Securities markets and Conduct of Business
10. Fast, global, decentralized– the Challenges of the Future

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Indicative reading: A full reading list will be distributed during the course and essential materials will be made available to the students, where possible. In addition, the students will be invited to do independent reading. Good general introductions to financial markets and their regulation include: A Turner et al, The Future of Finance: The LSE Report (2010); S Valdez and P. Molyneaux, Introduction to Global Financial Markets (7th edn).

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL408E Half Unit
Comparative Constitutional Law: Institutions

This information is for the 2016/17 session.
Teacher responsible: Dr Jo Murkens NAB7.31
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course examines the central issues in comparative constitutional law across a range of jurisdictions and from a variety of perspectives. The course opens with an introduction on the purpose of comparative constitutional law. The first substantive part discusses various approaches to the study of CCL as well as the migration of constitutional ideas (and related notions of constitutional borrowing, transplants etc). The second part deals with key constitutional concepts (constitution; rule of law; presidentialism, parliamentarism) which are discussed from a historical and comparative perspective. The point of these sessions is not to compare for the sake of comparing, but to equip you (the researcher) with the conceptual tools to do insightful, critical, and original comparative work of your own. The third part looks at many general theoretical explanations surrounding debates in CCL, and to develop students’ understanding and use of many general theoretical explanations surrounding debates in CCL, and to develop students’ critical/analytical approach to many of the questions facing judges and scholars in the next decade.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Indicative reading: There is no set book for this course. All materials will be made available in advance on Moodle.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL409E Half Unit
Comparative Constitutional Law:Rights

This information is for the 2016/17 session.
Teacher responsible: Dr Kai Moller NAB7.01
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course examines a range of controversial issues in human and constitutional rights law from a comparative perspective. These issues include: abortion; euthanasia and physician-assisted suicide; ‘deviant’ sex; sodomy, sado-masochistic sex, and incest; religion in the public sphere; hate speech and denial of the holocaust; obscenity. We will approach them by comparing and contrasting judgments from courts all over the world, with a certain emphasis on cases from the U.S. Supreme Court, the Canadian Supreme Court, the South African Constitutional Court, the European Court of Human Rights, the U.K. Supreme Court, and the German Federal Constitutional Court. The goals of the course are, first, to introduce the students to the jurisprudence of those extremely powerful and influential courts, and, second, to invite them to think about and critically analyse some of the most controversial, difficult, and important rights issues of our time.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Indicative reading: The course is mainly case-based; however, interested students may find the following book helpful: V Jackson and M Tushnet, Comparative Constitutional Law, 3rd edition, 2014.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).
in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: As the recent debate on shadow banking shows, the traditional financial market sectors of commercial banking, investment banking, derivatives, capital markets and asset management are nowadays converging. However, their academic analysis is still largely sector-based. This course offers a cross-sectoral, functional analysis, permitting students to grasp the big picture of the entire financial market law. To this end, the course largely concentrates on the different activities of risk taking and risk shifting regardless of the type of financial institution involved. The course is also a novelty as it integrates both spheres of rulemaking for the financial markets, notably financial law and some fundamentals of financial regulation. Experience shows that approaching the framework for financial law without at least considering the interdependencies with risk management and capital requirements leaves us with only a fragmented picture. For non-practitioners, the market context of financial law appears sometimes confusing. Therefore, this course will first approach each subject from in a market perspective before coming to the legal framework. This short overview is essential with a view to understanding the permanent interaction between market behaviour and the legislators’ and regulators’ responses to it. The legal framework will be analysed taking into account international rules and developments as well as European legislation. Since the City of London is one of the globally most important financial markets, England will be used as anchor-jurisdiction in order to develop patterns of global significance that are addressed by legislators and regulators around the world, in particular also looking at the European Union and at international rulemaking. The course also highlights certain anomalies in differing legal treatment of the respective sectors, and considers key trends. It is designed to be as topical as possible, and the content may change in the light of developments. While the precise topics covered will vary from year to year they typically will include the following:

- The logic and the players of the financial market. The creation and allocation of risk. The distinction between ‘Law’ and ‘Regulation’.
- The reasoning and sources of financial law and regulation.
- The role of European financial law and regulation. The role of international law.
- Understanding the financial crisis.
- Security interests and financial collateral.
- Guarantee, indemnity, insurance.
- Trusts.
- Fund structures (public and alternative).
- Structured finance, securitisation and asset-backed securities. The rationale behind it. Risks.
- Syndicated loans.
- Regulatory arbitrage in respect of financial transactions.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Indicative reading:
- J. Benjamin, Financial Law, Oxford University Press 2007. Ca. £200. This volume is available at a heavily discounted price (ca. £100 for hardcover) at the Waterstones bookshop on the LSE campus only.
- J. Benjamin, Financial Law, Oxford University Press 2007. Ca. £200. This volume is available at a heavily discounted price (ca. £100 for hardcover) at the Waterstones bookshop on the LSE campus only.

Assessment: Assessment path 1

Essay (100%, 8000 words).

Assessment path 2

Take home exam (100%).

LL411E Half Unit

International Financial Law and Practice II

This information is for the 2016/17 session.

Teacher responsible: Dr Philipp Paech NAB7.05

Availability: This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Pre-requisites: This course may only be taken by Executive LLM students that have already completed LL410E.

Course content: This course looks at the various forms of transaction and structures such as derivatives, securitisation, syndicated loans and eurobonds with a view to the relevant commercial and regulatory background and the risks and protections available to participants in these markets. The course is based upon an analysis of the relevant issues under English law with reference to other systems for comparative purposes. It will be topical and its content adapted to the fast moving developments affecting international markets in capital and in risk (for example, the legislative reaction to the recent financial crisis). The course is a continuation of LL410E. Raising capital Debt securities, Eurobonds and syndicated loans Prime brokerage Securities and financial collateral, asset backing, asset financing, securities lending and repo Financial engineering Structured finance, securitization Derivatives Practice, types, CDS, market documentation, close-out netting Funds Regulated funds, UCITS, hedge funds, private equity funds Market infrastructure Stock exchange, clearing, intermediated securities, derivatives clearing.

Teaching: 24-26 hours of contact time.
**LL412E** Half Unit

**International Economic Law I**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Andrew Lang NAB6.19

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** The aim of the course is to introduce students to the field of international economic law: its principles, rules, practices, and institutions, and the debates which attend each. The course focuses on the public international law rules and institutions which govern international trade. Students will be given a grounding in the jurisprudence of the WTO, but will also be introduced to interdisciplinary material on the broader political, economic, institutional and normative contexts in which international economic law operates. Key themes will include the question of ‘development’ and developing countries, the role of expertise in global economic governance, and institutional aspects of judicial international dispute settlement. Students will be expected to engage with the principles and practice of international economic law both at the technical level, and at the level of critical reflection.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Indicative reading:**

**Assessment:**
- Assessment path 1
  - Essay (100%, 8000 words)
  - Take home exam (100%).

**International Economic Law II**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Andrew Lang NAB6.19

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course is a continuation of LL412E. In International Economic Law II, topics to be covered may include: Services Liberalization under the GATS; Trade-Related Intellectual Property Rights; Legal Regulation of Technical Barriers to Trade; Sanitary and Phytosanitary Measures, and Subsidies. In both courses, we will set aside time to consider topical issues, for example around public international regulation of global finance, regional economic integration, development and developing countries in the trading system, and environmental aspects of international trade.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**LL416E** Half Unit

**Advanced Issues of International Commercial Arbitration**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Jan Kleinheisterkamp NAB7.09

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course aims at giving students who already are acquainted with the fundamentals of arbitration the possibility to go into depth into selected problems of international commercial arbitration. The course is designed to allow intense discussions of these problems in order to raise the sensitivity for the issues at stake and to lead to a research oriented approach. Despite its academic outset, the course is highly relevant for those wanting to specialise in arbitration practice, as the theoretical problems have a most significant impact on practical solutions. The course will treat a selection of topical contemporary issues of international commercial arbitration, such as the role of internationally mandatory rules of law, arbitration & insolvency, the scope of the competence-competence principle; arbitration and fraud and corruption, or the enforcement of awards set aside abroad. The course seeks to be as topical as possible, so that content may change in the light of developments.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:**
- **Assessment path 1**
  - Essay (100%, 8000 words).
  - Assessment path 2
  - Take home exam (100%).

**LL417E** Half Unit

**International Commercial Contracts: General Principles**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Jan Kleinheisterkamp NAB7.09

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** The course treats what can be called the general part of transnational contract law, i.e. the general principles of law which are of relevance in any kind of international contract, be it sale, construction, shipping, financing, or joint venture. These general principles relate to contractual formation and negotiations, interpretation, transversal general principles, changed circumstances and hardship, agency, third parties, assignment, self-help and set-off, direct performance and damages and penalties. At present, such contracts are governed either by uniform rules of international conventions or by the national laws applicable by virtue of conflict of law rules. The course puts the existing national and international solutions in a comparative perspective so as to work with the sources of such generally accepted principles. Where there are divergences between existing solutions, the course focuses on the elaboration of new efficient solutions that are internationally acceptable and have the potential of becoming general principles in the future. For these purposes, special attention is given to the UNIDROIT Principles on International Commercial Contracts and the European Principles of Contract Law. Other national laws, however, are drawn upon from time to time. Students are also encouraged, in both examination and classes, to reflect upon the similarities and differences between their own national laws and the UNIDROIT Principles.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:**
- **Assessment path 1**
  - Essay (100%, 8000 words).
  - Assessment path 2
  - Take home exam (100%).

**Comparative Corporate Governance**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Carsten Genner Beerle NABS.08

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst
it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course will focus on the role of boards of directors in large public companies and groups of companies. It will deal with the legal regulation of agency problems arising between the board and shareholders as a class; between the board/majority shareholders and minority shareholders; and between the board and other stakeholder groups, notably creditors and employees. Although the main focus will be on board and shareholder relationships, the aim of the course is to develop and apply a framework of analysis which illuminates relations between the board and all stakeholder groups. The course will be taught largely on a comparative basis, focusing on English, US, German and French law.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Indicative reading:** Reading will be prescribed for each seminar. Preliminary reading can be found in P. Davies, Introduction to Company Law (OUP, 2nd edition 2010), chapters 5-9; R. Kraakman et al, The Anatomy of Corporate Law (2nd edition 2009); D. Kershaw, Company Law in Context: Text and Materials (OUP, 2nd edition 2012), chapters 5 and 6.

**Assessment:** Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

**LL419E   Half Unit**

**Law of Corporate Finance**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Eva Micheler NAB7.35

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** The course examines the private law rules governing how companies raise finance. The issues covered include e.g. capital structures, identifying and protecting shareholder rights, issuing shares, initial legal capital and alternatives, dividends, reduction of capital and share buy-backs, reform and moving to a solvency test and financial assistance. The course will focus on English Law but reference will be made to the relevant EU rules.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Assessment:** Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

**LL420E   Half Unit**

**International Law and Climate Change**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Stephen Humphreys NAB5.12

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course covers the international law dealing with climate change with a view to assessing how risks and uncertainties caused by climate change are governed and allocated in different legal regimes. The course adopts the stance that the political and legal questions raised by climate change cannot be addressed by reference to climate change law (or indeed international environmental law) alone. Climate change gives rise to a series of profound problems touching upon a range of bodies of law (international economic law, human rights law, state responsibility, international migration law) in a complex political and ethical environment. In approaching climate change as a concrete concern relevant to these various bodies of law and practice, the course will address the normative and/or ethical bases for choosing between actions designed to prevent and/or manage climate change and its consequences, attentive to developmental imperatives and the theoretical concerns raised by the ‘fragmented’ nature of international law.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Assessment:** Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

**LL423E   Half Unit**

**Media Law: Regulating Publication**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Andrew Scott NAB6.25

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.
Course content: The course examines the legal and administrative regulation of mass media publication (principally the press, the broadcast media, and institutionalised Internet publication). The course is introduced with consideration of a number of themes that underpin the rest of the syllabus: the role(s) of the media in society (including conceptions of the ‘public interest’); the main social, technological and regulatory influences that shape media publication practise, and rights jurisprudence (in particular, the freedom of expression and freedom of the press in national and international law). The course then examines potential restrictions on publication that are aimed at promoting or preserving specific private and/or public interests. The key private interests considered are those in reputation (defamation), privacy, and confidentiality. The key public interests considered are the integrity of the judicial process (contempt and reporting restrictions), the impartiality of political representations, the avoidance of offence (obscenity and religion), national security, and the protection of children.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL424E Half Unit
Media Law: Regulating Newsgathering

This information is for the 2016/17 session.
Teacher responsible: Dr Andrew Scott NAB6.25
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course examines the legal and administrative regulation of newsgathering and content production practices undertaken by journalists and others working in the media sector. The course is introduced with consideration of a number of themes that underpin the rest of the syllabus: the role(s) of the media in society (including conceptions of the ‘public interest’); the main social, technological and regulatory influences that shape media newsgathering practise, and rights jurisprudence (in particular, the freedom of expression and freedom of the press in national and international law). The course then examines a number of newsgathering practices that are either facilitated or proscribed by law and/or other forms of regulation. These include protection of sources (in general; vis-a-vis police and security interests; payment of sources); access to information held by the state (official secrets; news management; freedom of information); access to the justice system (secret justice / physical access to courts; access to court documents; technology and the courts - text-based reporting and broadcasting; access to prisoners); media-police interaction; harassment and media intrusion, and surreptitious newsgathering practices (hacking, tapping and subterfuge).

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL425E Half Unit
Competition Law

This information is for the 2016/17 session.
Teacher responsible: Dr Pablo Ibanez Colomo
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The course is a comprehensive study of the main features of competition law. While the focus is on EU competition law, reference will be made to the laws of other jurisdictions (e.g. the United States and the UK) when these offer relevant points for comparison. The first part of the course examines the history and aims of competition law. It considers the role of economic analysis and its limitations in the light of non-economic considerations. The second part is a review of the major substantive fields: restrictive practices; the regulation of monopolies and dominant positions; distribution and cooperation agreements and merger control.

The third part addresses the public and private enforcement of competition law.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL426E Half Unit
Theory of Human Rights Law

This information is for the 2016/17 session.
Teacher responsible: Dr Kai Moller NAB7.01
Availability: This course is available on the Executive LLM. This course is not available as an outside option. Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The course will provide an introduction to the philosophy of human rights and theoretical issues in human rights law. The emphasis is on a combination of law and theory; to this end, each seminar will rely on a mixture of cases from various jurisdictions and theoretical and philosophical materials. The overarching questions to be examined are to what extent current philosophical theories of human rights can illuminate our understanding of the cases and legal doctrines, and to what extent the cases and doctrines can help improving the theoretical and philosophical understanding of human rights. Topics to be discussed will include: Interest Theories of Human Rights; Ronald Dworkin's Theory of Rights as Trumps; Balancing and Proportionality; Human Rights and Judicial Review I (The American Perspective); Human Rights and Judicial Review II (The European Perspective); Absolute Rights.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Indicative reading: The course will rely on both cases from various jurisdictions and articles and book chapters from authors including Ronald Dworkin, Robert Alexy, James Griffin, Mattias Kumm, Jeremy Waldron and Frances Kamm.

Assessment: Assessment path 1 Essay (100%, 8000 words).
Assessment path 2 Take home exam (100%).

LL427E Half Unit
Constitutional Law and Theory

This information is for the 2016/17 session.
Teacher responsible: Prof Thomas Poole NAB 7.20
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course examines the role of constitutions and the nature of constitutional discourse. It considers the ways in which theorists have advanced understanding of constitutions and devised solutions to a range of constitutional questions. The course deals with the following topics: the scope of constitutional theory; the constitution of government; constitutional politics; representation; sovereignty; constituent power; constitutional rights; the rule of law; liberalism and republicanism; constitutional adjudication; cultural pluralism; theories of federalism; the cosmopolitan polity.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Indicative reading: Much of the reading for the course consists of classic texts in political thought. Many are available online and the course is delivered through Moodle. Indicative reading includes: Hobbes, Leviathan; Rousseau, The Social Contract; Montesquieu, The Spirit of the Laws; Burke, Reflections on the Revolution in France; Tocqueville, Democracy in America; Schmitt, Constitutional Theory; Oakeshott, On Human Conduct; Hayek, The Constitution of Liberty.

Assessment: Assessment path 1 Essay (100%, 8000 words).
Assessment path 2 Take home exam (100%).

LL430E Half Unit
Investment Treaty Law

This information is for the 2016/17 session.
Teacher responsible: Dr Jan Kleinheisterkamp NAB7.09
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The aim of the course is to introduce students to international investment law and dispute settlement, the latter emphasizing developments in investment treaty arbitration. The course focuses on the public international law rules and institutions that govern investments and investment treaty disputes. The course has five main elements: (1) the historical, theoretical and policy background behind investment treaties and dispute settlement by arbitration; (2) the rules governing jurisdiction and admissibility of investor-state arbitration cases; (3) the substantive principles and standards – such as national treatment, most-favoured-nation treatment, expropriation, and the minimum standard in international law – that may apply to the investor-state relationships; (4) recognition and enforcement of investor-state arbitral awards and interaction between international tribunals and national courts; and (5) the discussion of the future of international investment law.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Assessment: Assessment path 1 Essay (100%, 8000 words).
Assessment path 2 Take home exam (100%).

LL431E Half Unit
Takeover regulation in the UK and US

This information is for the 2016/17 session.
Teacher responsible: Prof Robert Kershaw NAB7.16
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once
each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The course will look at the regulation of the bid process and at takeover defence regulation in the UK and the US. The course will look at: transaction structures used in private equity deals; the function and effects of the market for corporate control; takeover process regulation; the extra-territorial effects of US process regulation; takeover defence regulation; deal protections; and regulating conflicts of interest in going private transactions.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Indicative reading: The course will use materials distributed through moodle and the course pack as well as D. Kershaw, Foundations and Principles of Takeover Regulation (forthcoming 2016) [to be distributed in draft through the course pack]. Background material can be found in R. Kraakman et al, The Anatomy of Corporate Law (2004); B. Black, The Law and Finance of Corporate Acquisitions (1995); and W. Carney, Mergers and Acquisitions (2003).

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL432E Half Unit
Mergers, Acquisitions and Restructurings

This information is for the 2016/17 session.

Teacher responsible: Mr Edmund-Philipp Schuster NAB6.30

Availability: This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Pre-requisites: There are no formal pre-requisites for this module.

Course content: In this module, we will explore the regulation of mergers, acquisitions and restructurings in Europe. We will focus on legal techniques for the combination and restructurings of business operations in Europe, with a particular focus on the legal issues arising in cross-border transactions in the EU.

There are a number of reasons for corporations wanting to restructure their operations or to make acquisitions. For instance, firms may want to acquire a strategically valuable firm or asset in order to improve the efficiency (and thus increase the value) of their business operations; they may want to implement a better governance structure, enabling them to manage their undertaking more effectively; or they may want to subject themselves to more favourable legal or tax rules – including choosing among different national corporate laws.

EU law offers a range of legal vehicles for achieving such aims, and it is these vehicles we will explore throughout the term. In particular, we will look at re-incorporations of EU companies based on the relevant Treaty provisions; takeovers of (listed) EU companies; domestic (“statutory”) mergers; de-mergers and spin-offs; cross-border mergers in the EU; and the European Company.

Content overview:
• The market for corporate control, corporate ownership structures and transaction structures for takeovers and restructurings in Europe
• European takeover regulation
• Domestic mergers
• Divisions & spin-offs
• Cross-border mergers
• Employee participation (board-level co-determination) and board structures, and their relevance for corporate transactions
• The European Company (SE)
• Brief introduction to the taxation of corporate transactions and tax-related drivers and incentives for intra-group reorganisation and company migration

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).
the communications sectors) or for some purposes (e.g. research and development, regional aid). The fourth part is devoted to the procedural aspects of the discipline.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:** Assessment path 1 Essay (100%, 8000 words). Assessment path 2 Take home exam (100%).

**LL434E Half Unit**

**Regulation: Strategies, Theories and Implementation**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Gordon Baldwin NAB7 08

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** The course provides an introduction to key topics in the study of regulation from with a comparative and generic perspective drawn from public administration, socio-legal studies and institutional economics. Topics include: What is regulation and Why do it? What is Good Regulation? Regulatory Strategies. Explaining Regulation. Enforcing Regulation. Risk Regulation.

**Regulatory Standard Setting. Regulatory Competition. Regulation and institutional economics. Topics include:**

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:** Assessment path 1 Essay (100%, 8000 words). Assessment path 2 Take home exam (100%).

**LL435E Half Unit**

**Innovation, Technology and Patent Law**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Siva Thambisetty NAB 7.29

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course critically examines UK and European patent law from different perspectives including the economic case for incentivising innovation, industry and technology-specific legal doctrine, international economic and political frameworks, institutional features, and national, regional and international pressures to harmonise patent law. Case studies from comparable jurisdictions such as US, India or Latin America will be used where appropriate. The course aims to deliver a sound grounding in legal principles while exploring unprecedented challenges raised by emerging technologies through appropriate case studies. Topics include:

1. The economics of innovation and patenting/ Jurisprudential rationale for patents, legislative overview – international and domestic.
2. Priority, Novelty and Inventiveness
3. Industrial Application, disclosure and Genomic Inventions
4. The rationale for subject matter exclusions (Methods of medical treatment, diagnostic methods, computer programs, business methods, mental acts, discoveries, genetically modified animals, human embryonic stem cells)
5. Claim drafting, purposive construction and the doctrine of equivalents.
6. Direct/Indirect infringement – international concerns
7. The research use exception and its application to post-genomics science
8. The TRIPS Agreement and the global pharmaceutical industry
9. The problem of patent enforcement
10. Patent offices and the property parameters of patents
11. Synthetic biology
12. Competition policy in the technology and pharmaceutical sector.

This course complements a number of areas of national and international law and policy. Students do not need a scientific background and will be supported in learning technical aspects.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:** Assessment path 1 Essay (100%, 8000 words). Assessment path 2 Take home exam (100%).

**LL436E Half Unit**

**Rethinking EU Law**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Michael Wilkinson NAB6.28

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will
depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: EU law is a fast-moving, dynamic area of law. The course will build on core knowledge of EU law and develop a number of key themes in the public law and policy of the EU and its Member States. It will provide a sophisticated understanding of the legal, political and constitutional issues surrounding the central debates in the EU, from its origins to the recent crises. Topics will include: - Law and Politics of European Integration - Fundamental Freedoms - Collective Autonomy and Social Justice - Authority of EU Law - Sovereignty, Identity and Pluralism - Political Economy - Future of the EU. The course will use general theoretical accounts in law and related disciplines in order to situate EU law in its political and social context. It uses the LSE’s unique interdisciplinary expertise in European law, constitutional theory, public law, and legal theory for a rich and varied study of the challenges facing the EU and its development.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL437E Half Unit
International Criminal Law

This information is for the 2016/17 session.

Teacher responsible: Dr Stephen Humphreys NABS.12

Availability: This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Pre-requisites: Some background in public international law is helpful for this course. If an introduction or refresher is needed, a standard textbook such as Malcolm Shaw’s International Law is recommended.

Course content: The course looks at the history of and background to international criminal law and at its substantive content—its origins in the early Twentieth Century, its purported objectives, and the core crimes set out in the Rome Statute over which the International Criminal Court has jurisdiction (war crimes, crimes against humanity, genocide). The course will then examine in more detail a number of areas of contemporary interest (universal jurisdiction, immunity, torture, terrorism). The course is mainly directed at the conceptual problems associated with the prosecution of war criminals and, more broadly, legalised retribution.

Teaching: 24 hours

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course. Formative assessment opportunities will be provided (essay or problem questions)

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).
LL439E  Half Unit
UK Corporate Law
This information is for the 2016/17 session.
Teacher responsible: Prof Robert Kershaw NAB7.16
Availability: This course is available on the Executive LLM.
This course is not available as an outside option.
Course content: 1. The Evolution of the UK company. This session will address the evolution of the corporate form from the mid-19th century, and outline the partnership based conception of UK company. It will contrast the partnership conception with the corporate / entity conception. 2. Legal personality, formation and structure – considering the implications and function of separate legal personality and the scope to disregard the corporate veil; the process of formation; and the constitutional make-up of the company. 3. Corporate Actions – considering how the company acts in contract, tort and crime. 4. The distribution of power in a UK company – considering the location and contractual distribution of power in a UK corporation; the problem of separation of ownership and control / the agency problem; mandatory versus default rules; core mandatory rights: removal of directors and calling shareholder meetings. 5. Director’s duties I: the nature of duties; who owes them; to whom; the corporate objective; the duty to promote the success of the company. 6. Directors Duties II: the duty of care (business judgments, business process, monitoring, systems and controls, risk management) 7. Directors Duties III: the duty of loyalty (self-dealing transactions, corporate opportunities, competing with the company, bribes and commissions). 8. Company law and creditor protections – shareholder incentives to exploit creditors; the scope for unlimited liability, duties to creditors; wrongful trading. 9. Derivative Actions: the rule in Foss v Harbottle; the new derivative action mechanism; indemnity orders and contingency fees; restrictive loss. 10. Minority shareholder protections – common law restraints on the exercise of majority shareholder power and influence; statutory constraints on the exercise of such power and influence (122(g) Insolvency Act 1986 and section 994 Companies Act 2006.
Teaching: 20 hours of seminars in the MT.
24 hours (Executive LLM)
Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.
Assessment: Assessment path 1 Essay (100%, 8000 words).
Assessment path 2 Take home exam (100%).

LL440E  Half Unit
Digital Rights, Privacy and Security
This information is for the 2016/17 session.
Teacher responsible: Dr Orla Lynskey (NAB 6.23)
Professor Andrew Murray (NAB 7.11)
Availability: This course is available on the Executive LLM. This course is not available as an outside option.

LL441E  Half Unit
Employment Law
This information is for the 2016/17 session.
Teacher responsible: Dr Astrid Sanders NAB7.19
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.
Course content: Regulation of the content and the form of the employment relation. The contract of employment, including express and implied terms and the scope of employment law. Regulation of minimum wage and working time. Protection against
discrimination in the workplace. Discipline and protection from dismissal and termination of employment. The approach involves theoretical perspectives, economic analysis, comparative law of employment, and examination of relevant European law.

Teaching: 24-26 hours of contact time.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Indicative reading: Detailed syllabus of readings will be available and the materials can all be accessed through Moodle. Hugh Collins, Employment Law, 2nd edn (Oxford University Press, 2010), Chapters 1-9 or Hugh Collins, KD Ewing and Aileen McColgan, Labour Law (CUP, 2012).

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL442E Half Unit
Insolvency Law: Principles, Rescue and Reconstruction Processes

This information is for the 2016/17 session.
Teacher responsible: Ms Sarah Paterson NAB6.06
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course is concerned with the principles and policies underlying the rescue of financially distressed companies and businesses. The course considers formal legal procedures available for dealing with companies and businesses in financial distress as well as informal approaches to rescue. Topics include: Introduction: Aims and Objectives. Corporate Rescue Procedures: Informal Rescues. Corporate Rescue Procedures: Formal Procedures. Comparative Approaches: USA, Chapter 11. Recognition of Rescue Procedures: EC and International.

Teaching: 24-26 hours of contact time.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL444E Half Unit
International Law and the Use of Force

This information is for the 2016/17 session.
Teacher responsible: Mr Christopher Thomas NAB7.18
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Pre-requisites: Executive version of an existing taught masters course (LL4A8).

Course content: This course examines the international law relating to when it is permissible to use force (jus ad bellum). The aim of this course is to develop an understanding of the principles of international law that regulate the use of force in international society. It concentrates on the prohibition of resort to force in Article 2(4) of the United Nations Charter and the exceptions to that prohibition. It looks in detail at the right of self-defence, humanitarian intervention and the responsibility to protect, pro-democratic intervention, the protection of nationals and the criminalization of aggression. The use of force by or with the authorization of the United Nations is also considered.

Teaching: 24-26 hours of contact time.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Indicative reading: A detailed reading list will be issued in the course pack. See, in particular: Dinstein, War, Aggression and Self-Defence (5th ed, 2011); Gray, International Law and the Use of Force (3rd ed, 2008).

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).
LL445E  Half Unit
Cultural Property and Heritage Law

This information is for the 2016/17 session.
Teacher responsible: Dr Tatiana Flessas NAB7.27
Availability: This course is available on the Executive LLM. This course is not available as an outside option. Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.
Course content: This course looks at cultural property and heritage law from legal, social theoretical and practice-oriented perspectives. It provides an overview of existing and emerging cultural property and heritage legislation (domestic and international). We will be looking in particular at the development of cultural property legislation in the 20th century and emerging international cultural property and heritage initiatives under the auspices of the UN and UNESCO. Topics to be covered include the origins of cultural property law, the problems in defining cultural property and heritage, current issues and cases in repatriation and restitution of cultural objects, the National Trust and other heritage protection regimes, and intangible cultural heritage. The course also addresses the creation and management of museums and heritage sites, primarily within the UK, but also including sites in North and South America, Europe and Asia. We consider how the issues that we’ve identified throughout the course arise in the ongoing construction, protection, and (primarily economic) uses of heritage. Along with specialist seminars, the course includes visits to museums and contact with practising experts in the field.
Teaching: Courses are taught over 5 days (Mon-Fri) with approximately 5 hours teaching per day. There is a morning and an afternoon session, so 10 sessions in total with the overall contact time being 24-26 hours.
Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.
Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL446E  Half Unit
Art and Antiquities Law

This information is for the 2016/17 session.
Teacher responsible: Dr Tatiana Flessas NAB7.27
Availability: This course is available on the Executive LLM. This course is not available as an outside option. Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.
Course content: This course engages in a discussion of specific cases and issues regarding acquisition, ownership, and restitution of antiquities and works of art, and the problems that arise in regulating markets in art, antiquities and cultural artefacts. We will look at domestic (UK and US) and international legislation regulating the art and antiquities trades. Against this legislative background, the course examines important cases in disputes regarding looting and provenance of antiquities, and questions of commodification and sale of cultural artefacts and antiquities, including the issues that arise in the operation of the art market (dealers, museums, collectors and auction houses). ‘Art Law’ is a specialized area of practice and an emerging area of theory and scholarship. We will look at some of the cases and theory of art and law, including the practices of dealers and auction houses in valuing (and mis-valuing) art for sale; the recent developments in addressing the restitution of art taken during the Nazi era; museum loans and the cross-border movement of art; the restoration and conservation debate(s) and their turn to a scholarly and interpretive approach to the issues that arise in considering the art market. ‘Antiquity Law is an engagement with the problems of the market(s) in antiquities and the legal and ethical burdens on the participants in this trade. We will look at the practices and constraints that arise in the context of both private purchasers/dealers and museums acquiring antiquities. We will focus on the case that the government of Italy brought against Marion True, the erstwhile Curator of Antiquities at the Getty Museum, and we will consider how that ground-breaking prosecution changed some of the practices in this area, as well as added to the toolbox for nations seeking repatriation of cultural objects. We will also return to the questions that arise in dealing, auction house and museum policies more generally. Finally, practitioners in these areas, museum and auction house professionals, archaeologists, and art experts will be contributing to the seminars on the emerging legal issues in this area.
Teaching: Courses are taught over 5 days (Mon-Fri) with approximately 5 hours teaching per day. There is a morning and an afternoon session, so 10 sessions in total with the overall contact time being 24-26 hours.
Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:**
Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

**LL447E Half Unit**

**International Law: Courts and Tribunals**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Devika Hovell NAB6.32

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:**
The course introduces students to the practice and theory of international legal dispute resolution, focusing on dispute settlement before courts and tribunals. The former Prosecutor of the Yugoslav Tribunal, Richard Goldstone, resolved that: ‘it seems to me that if you don’t have international tribunals, you might as well not have international law’. Given the proliferation of courts and tribunals applying and enforcing international law, certain scholars have argued we are witnessing the emergence of an ‘international judicial system’ (Martinez). The course involves three main elements:

1. Firstly, the course examines the structure and work of the International Court of Justice, the principal judicial organ of the United Nations, focusing on jurisdiction/admissibility, contentious cases and advisory opinions.
2. Secondly, the course introduces a variety of other international courts and tribunals, such as the International Criminal Court, domestic and regional courts dealing with international law and human rights, including the European Court of Human Rights and the European Court of Justice, the WTO Dispute Settlement Body and investment treaty arbitral tribunals. Using contemporary and controversial case studies, the course will critically analyze and contrast the institutional design and jurisdiction of these courts and tribunals.
3. Thirdly, throughout the course we explore key theoretical controversies surrounding the adjudication of international law, focusing in particular on (a) how these courts and tribunals relate to one another (hierarchy, specialization and fragmentation); (b) what criteria should be used in assessing the legitimacy and effectiveness of these courts and tribunals; and (c) whether and how these courts and tribunals create international law.

**Teaching:**
24-26 hours of contact time.

**Formative coursework:** Students are encouraged to produce one 2,000 word formative essay during the course.

**Assessment:**
Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

**MG406E Half Unit**

**Behavioural Decision Science**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Barbara Fasolo

**Availability:** This course is compulsory on the Executive MSc in Behavioural Science. This course is not available as an outside option.

**Course content:** This course introduces students to the fascinating field of behavioural “decision” science. We will explore a selection of current research topics relevant to personal and managerial decision making as well as policy-making. For each topic students will get acquainted with key psychological phenomena and principles of behavioural decision science through interactive lectures, and become alert to cognitive biases and learn how to overcome them. Students will read pre-assigned scientific articles and in class discuss lessons learned, limitations and implications of these concepts for the development of decision making competence in their organisation (e.g. via design of policies, training programmes, or tools). Topics will include: Origin of Behavioural Decision Science; the Building Blocks of Behavioural Decision Science: Preferences, Utility and Value; Probability, Uncertainty and Risk; Choice Architecture and Behavioural Change; Heuristics and Biases in Decisions about Money, Health, Consumer Products and People.

**Teaching:**
15 hours of lectures and 8 hours of seminars in the MT.

**Formative coursework:** The formative assignment will take place on the final day of the course after all the lectures and seminars have been completed. The assignment will consist of a plenary presentation in which students divided into small groups will be asked to give a short presentation discussing an intervention (de-biasing technique, nudging, or choice architecture) that can be used to tackle the most important biases in a decision making problem of their choice. Student groups will develop their plenary presentations during seminars while interacting with the course teachers and other students. The formative feedback will be given at a team level, and will focus on the rigour and use of behavioural science concepts learned in the course.

**Assessment:** Coursework (100%, 3000 words) in the MT.

The summative assignment will include two parts. In the first part (no more than 1,000 words), you will be asked to describe and critically evaluate how the decision problem as well as the intervention presented for the formative assessment came about. This part will be less academic because we will expect you to use individual reflection, and academic references will not be needed. In the second part of the essay (no more than 2,000 words), you will justify the specific nudging or debiasing intervention, with reference to behavioural literature, and theories. The first part of the essay will count for 25% of your mark while 75% will come from the second part.

**Executive Taught Master's Course Guides**

MG407E  Half Unit
Goals and Motivation for Individuals and Teams

This information is for the 2016/17 session.
Teacher responsible: Dr Heather Kappes
Availability: This course is compulsory on the Executive MSc in Behavioural Science. This course is not available as an outside option.
Course content: For the modern day enterprise, be it private firms seeking to maximize revenues and profits, non-profit organisations seeking to change behaviours and raise money for pro-social causes, or government bodies seeking to implement policy, the role of goals and motivations is critical, both at the individual level and the team level. For each entity it is important to gain a critical understanding of what kinds of goals individuals and teams are attracted to, how these goals are set and pursued, what factors and incentives aid or hinder such goal pursuit and goal achievement, and how teams and individuals react to feedback on their progress towards these goals. This course familiarises students with strategies for promoting success over every phase of goal pursuit, from first consideration, to commitment, to action, and beyond. Students will learn how to categorise goals using empirically-tested frameworks like construal level theory, regulatory focus theory, and mindset theory (learning versus performance goals). They will use these frameworks to identify the problems that plague goal pursuit: problems like failing to get started (e.g., trying to break a habit), getting derailed (e.g., ego depletion), and continuing when it would be better to quit (e.g., sunk costs phenomenon). Students will be introduced to empirical findings on the optimal ways to use tools like specific goal setting, implementation intentions, mental simulations of processes versus outcomes, and self-efficacy in order to boost motivation and aid in successful goal pursuit.
Teaching: 15 hours of lectures and 7 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 essay in the LT.
Assessment: Essay (100%, 4000 words) in the LT.

MG440  Half Unit
Managerial Economics (modular)

This information is for the 2016/17 session.
Teacher responsible: Dr Jordi Blanes i Vidal
Dr. Ricardo Alonso
Availability: This course is compulsory on the Executive Global MSc Management. This course is not available as an outside option.
The information in this course guide pertains to the 2016-2018 cohort.
Course content: A graduate-level introduction to the foundations of managerial economics and its application to high-level business decisions. Topics include:
1. Economics as a theory of organisation.
2. Demand, supply, and equilibrium: the determinants of consumers’ and firms’ market responses, the nature of non-strategic interaction, government intervention, international trade
3. Externalities and market failure
4. Strategic interaction and Game Theory
5. Choice under uncertainty: attitudes towards risk
6. Information and efficiency: adverse selection
7. Price discrimination: nonlinear pricing, social economics
8. Horizontal and Vertical Differentiation.
Teaching: Scheduled over one module. Eight 4 hour sessions plus two review sessions.
The course will run between the following dates:
Formative coursework: Students will be expected to produce 1 problem set in the MT.
Indicative reading: Optional textbook: B. Douglas Bernheim and Michael D. Whinston, Microeconomics, McGraw Hill, 2008. Further readings will be provided at the beginning of the course.
Assessment: coursework (20%), class participation (15%) and take home exam (65%).

MG441  Half Unit
Foundations of Management (modular)

This information is for the 2016/17 session.
Teacher responsible: Prof Paul Willman
Availability: This course is compulsory on the Executive Global MSc Management. This course is not available as an outside option.
The information in this course guide pertains to the 2016-2018 cohort.
Course content: A basic grounding in the key management disciplines. Students will be provided with an overview of the development of Management disciplines and will develop an understanding of the disciplinary anchors in Sociology, Psychology and Economics. Each field will cover Origins and disciplinary boundaries, triggers for growth, core concepts and the current state of play and debate.
Teaching: Scheduled over 2 modules – 10 sessions of up to 4 hours each.
The course will run between the following dates:
• 30 August - 10 September 2016
• 12-17 December 2016
Lectures:
1. Course Introduction and the Origins of Management
2: Management and Firm
3: The Rise and Decline of Labour
4: Taylorism, Motivation and Performance
5: The Rise of Human Resources Management
6: Making Decisions
7: Understanding Organisational Structures
8: The Origins of Modern Strategy
9: Contemporary Strategic Management: Firms as Bundles of Resources
10 Managed by Markets?
Seminar classes:
1. Managers and Managerial Work
2. The Firm and the Manager
3. Taylorism and Toyotaism
4. Internal Labour Market and Boundaries of Firms
5. Company Case – proposed: UBS
6. The Analysis of Competitive Forces
7. Understanding Organisational Structures
8. Theories and Strategy
9. The Analysis of Competences
10. Understanding Decision Biases
Formative coursework: 2,000 word essay
Indicative reading: Paul Willman: Understanding Management: Social Science Foundations
Oxford University Press, September 2014.
Assessment: Class participation (15%) and take home exam (85%) in the LT.

MG443  Half Unit
Organisational Behaviour (modular)

This information is for the 2016/17 session.
Teacher responsible: Dr Connson Locke
Availability: This course is compulsory on the Executive Global MSc
Management. This course is not available as an outside option.

This information in this course guide pertains to the 2016-2018 cohort.

Course content: The course seeks to understand individual attitudes and behaviour in an organizational context. It does this by reviewing psychological theories as they apply to organisations, demonstrating the contribution of a psychological perspective to understanding human behaviour at work, and critically evaluating the empirical evidence. The course attempts to strike a balance between theory and practice by applying the theories to practical problems in organizations.

Topics include personality and individual differences, motivation and rewards, intrinsic motivation, creativity, organizational justice, cross-cultural management, organisational culture and change.

Teaching: Teaching is spread over the first 3 modules. The teaching is highly participative and includes breakout discussions and exercises.

The course will run between the following dates:
• 30 August - 10 September 2016
• 12-17 December 2016
• 27 March - 9 April 2017

Formative coursework: A practice exam will be provided and feedback will be given on this assignment.

Indicative reading: The course relies on journal articles (for example, Journal of Applied Psychology, Journal of Organizational Behaviour). A complete reading list will be provided at the start of the course. There is no required textbook. The following textbook is recommended for students who would like further reading: French, R., Rayner, C., Rees, G. & Rumbles, S. (2011) Organizational Behaviour, 2nd edition. John Wiley & Sons, Ltd.

Assessment: Essay (20%), take home exam (65%) and class participation (15%).

Class participation - based on group presentations.

MG445     Half Unit
Marketing Strategy (modular)

This information is for the 2016/17 session.
Teacher responsible: Prof Om Narasimhan

Availability: This course is compulsory on the Executive Global MSc Management. This course is not available as an outside option.

The information in this course guide pertains to the 2015-2017 cohort.

Course content: This course is a rigorous examination of the key analytical frameworks, technical tools and concepts that are essential to building an effective marketing strategy. Peter Drucker, the father of business consulting once famously remarked, “Because the purpose of business is to create a customer, the business enterprise has two--and only two--basic functions: marketing and innovation”. In today’s highly competitive business environment these words ring even more true: a well-designed marketing strategy can make all the difference between success and failure in the marketplace. While marketing is commonly associated with consumer goods companies (e.g., Unilever) it would be myopic to restrict the relevance of marketing to such instances alone. Marketing, ultimately, is about understanding and shaping behaviour. Accordingly, banks and other financial institutions, as well as governmental, medical, and not-for-profit organisations - from those that design and sell financial products, to those that implement public policy (e.g., those dedicated to reducing drunk driving, increasing literacy, and encouraging safe contraception), have all found that a well-thought-out marketing strategy can be a critical arbiter of success even in this “ideas marketplace.” By using a wide range of quantitative as well as qualitative methods, interactive lectures, videos, hands-on exercises, and case studies, we will share key analytical frameworks and tools that are essential to a good marketing strategy. The aim is to develop an analytical tool-kit that will be applicable to a wide range of industries and functions.

Teaching: Scheduled over two modules – one of which will take place overseas. Teaching will be spread across 10 sessions of up to 4 hours each.

Formative coursework: Case write up.

Indicative reading: There is no required textbook. Further references will be provided at the commencement of the course.

Assessment: Take home exam (55%), class participation (15%) and other (30%).
Class participation (15%).
Group live case analysis (30%).
Take home exam (55%).

MG446     Half Unit
Strategy, Organisation and Innovation (modular)

This information is for the 2016/17 session.
Teacher responsible: Dr Lourdes Sosa

Availability: This course is compulsory on the Executive Global MSc Management. This course is not available as an outside option.

The information in this course guide pertains to the 2015-2017 cohort.

Course content: The course seeks to understand differences in profitability across (for-profit) firms with the objective of designing strategic recommendations for managers to improve (and defend) their firms’ competitive positions. To do so we will first review industry-wide as well as firm-specific determinants of short-term profitability. On that foundation we will look at long-term determinants of profitability including dynamic capabilities and innovative ability. The course aims to balance exposure to general strategic principles and specific practical applications. To that purpose, we will use theoretical frameworks to analyse practical cases from a wide array of firms in varied countries.

Topics include business models, industry structure and cooperation, value proposition, strategic resources and inimitability, dynamic capabilities, disruptive innovation, power nodes strategy and scenario planning.

Teaching: Taught over 10 four-hour sessions spread over 2 modules. The teaching is highly participative and includes lectures, breakout discussion, exercises and a company visit.

The course will run between the following dates:
• 5 – 10 September 2016

Formative coursework: Feedback will be given on one short essay, preparing students for the exam, as well as on in-class exercises.

Assessment: Essay (30%), case participation (10%) and take home exam (60%).

MG447     Half Unit
Foreign Direct Investment and Emerging Markets (modular)

This information is for the 2016/17 session.
Teacher responsible: Prof Saul Estrin NAB4.32

Availability: This course is compulsory on the Executive Global MSc Management. This course is not available as an outside option.

The information in this course guide pertains to the 2015-2017 cohort.
Course content: This course analyses the emergence of firms which operate on a global scale and their current and likely future interactions with emerging markets. Multinational firms have been an increasingly significant aspect of the corporate environment in developed countries since the 1960s, and are responsible for a high proportion of global output, exports and investment, as well as the bulk of foreign direct investment. In the past few decades their activities have been increasingly focused to developing economies, notably those which have liberalised and entered a more rapid growth phase. These economies, emerging markets, include some important world economies including China, India, transition economies such as Russia, and Latin American countries such as Brazil and Argentina. The new institutional economics has recently developed as a field to understand the impact of variation in institutions on economies performance. This course will focus on how the institutional characteristics of emerging markets affect the choices and behaviour of multinational firms, now and into the future. We commence with the basic framework of analysis of the behaviour of multinational enterprises (MNEs), outlining models of the MNE which draw on transaction cost economics, the eclectic OLI paradigm of Dunning, and more recent concept such as the resource based view. We will then provide an analysis of economic performance and growth in emerging markets building on the new institutional economies and working with a large variety of datasets and sources. The remainder of the course is devoted to specific topics of MNEs in emerging markets. These include the determinants and impact of FDI; entry mode choices; measures of institutional distance; outsourcing; and emerging market multinationals.

Teaching: 32 hours of lectures in the MT. 8 hours of lectures in the LT. Schedules over three modules, one of which will take place overseas – 10 sessions of up to 4 hours. The course will run between the following dates:

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Take home exam (60%) in the LT. Class participation (30%) in the MT.

MG498  Half Unit
Dissertation/Capstone Project (modular)

This information is for the 2016/17 session.
Teacher responsible: Various
Availability: This course is compulsory on the Executive Global MSc Management. This course is not available as an outside option. This information in this course guide pertains to the 2016-2018 cohort.

Course content: This course consists of a project which will be undertaken throughout the second year of the degree. Students will choose between an academic dissertation or a capstone project. The academic dissertation will explore a question that is grounded in institutions on economies performance. This course will focus on how the institutional characteristics of emerging markets affect the choices and behaviour of multinational firms, now and into the future. We commence with the basic framework of analysis of the behaviour of multinational enterprises (MNEs), outlining models of the MNE which draw on transaction cost economics, the eclectic OLI paradigm of Dunning, and more recent concept such as the resource based view. We will then provide an analysis of economic performance and growth in emerging markets building on the new institutional economies and working with a large variety of datasets and sources. The remainder of the course is devoted to specific topics of MNEs in emerging markets. These include the determinants and impact of FDI; entry mode choices; measures of institutional distance; outsourcing; and emerging market multinationals.

Teaching: 32 hours of lectures in the MT. 8 hours of lectures in the LT. Schedules over three modules, one of which will take place overseas – 10 sessions of up to 4 hours. The course will run between the following dates:

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Take home exam (60%) in the LT. Class participation (30%) in the MT.

SA4E1  Half Unit
Health Administration and Management

This information is for the 2016/17 session.
Teacher responsible: Dr Irene Papanicolas COWG.04
Availability: This course is compulsory on the Executive MSc in Health Economics, Policy and Management. This course is available on the Executive MSc in Health Economics, Outcomes and
SA4E2  Half Unit
Resource Allocation and Cost-effectiveness Analysis

This information is for the 2016/17 session.
Teacher responsible: Dr Matteo Galizi OLD.2.35
In addition, Professor M Drummond (Professor of Health Economics, University of York) will be teaching on the course.
Availability: This course is compulsory on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Course content: The aim is to give an overview of the theory underlying economic evaluation as applied to the health care sector; to consider the different forms of economic evaluation; to give an understanding of the techniques associated with economic evaluation as applied to health care; to give an understanding of the interpretation of the results gained from economic evaluation; to provide the main practical tools necessary to undertake economic evaluation using computer-based programs. The course will cover the following topics: Conceptual rationales for economic evaluation in the health care sector (Pareto efficiency, Social Welfare, extra-welfarism and decision-making); Introduction to the methods of economic evaluation: cost-effectiveness analysis, cost-utility analysis, and Cost-benefit analysis; Cost data; Incremental cost-effectiveness analysis; Quality Adjusted Life Years gained and other outcome measures; Discounting; Uncertainty and sensitivity analysis; Economic evaluation and clinical trials; Policy decision-making using economic evaluation.

Teaching: 10 hours of lectures and 10 hours of seminars.

Students will be given access to essential readings before the course begins through the pre-sessional reading programme on Moodle, which they will be expected to read prior to the first day of class.
Assessment: Take home exam (100%) in August.

SA4E3  Half Unit
Dissertation in Health Economics, Policy and Management

This information is for the 2016/17 session.
Teacher responsible: Dr Grace Lordan OLD.M2.26 and Dr Irene Papanicolas COW.G.04
Availability: This course is compulsory on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Course content: The aim of the dissertation is for students to pursue an independent piece of research that will contribute to the field of health economics, health policy or health management. The contribution of the work to the chosen field must be made clear. The output will be a piece of work of 5000 words or less that is written in an article format that is suitable for submission to a peer reviewed journal. Students must obtain the approval of their supervisor before embarking on any research.

Arrangements for supervision
Students’ tutors will act as their dissertation supervisor in the first instance. If the specific topic a student wishes to cover for his/her dissertation requires a different supervisor, a MSc programme director can arrange this change. The dissertation supervisor will advise the student, help provide information and bibliography and identify likely problems with the proposed research.

Teaching: The dissertation process is supported by three teaching sessions.

Formative coursework: Students will have an opportunity to have one draft of their thesis proposal read by their tutor in December of Year 2. In addition, they will have an opportunity to have a 1000 word outline of their thesis ready by their tutor.

Assessment: Dissertation (95%, 5000 words) in September.
Research proposal (5%) in the MT.
5% of the mark will be based on a dissertation proposal due in the December of the second year of study. In this case students will receive 5% if their thesis proposal is deemed a viable and a relevant contribution to the literature by two examiners. If a student does not receive 5%, they will still have their dissertation marked out of 100.

The dissertation paper copies must be handled in to the Department by the specified deadline of the second year of the MSc programme. An electronic version of the dissertation must be also submitted. Penalties will be applied to any late submission. The world limit for the dissertation is 5,000 words (excluding references and tables) and it must be in a journal article format.

SA4F2  Half Unit
Principles of Evidence-Based Medicine and Clinical Trials

This information is for the 2016/17 session.
Teacher responsible: Dr Grace Lordan OLD.2.26
In addition, Professor Allan Hackshaw (Deputy Director, Cancer Research UK and UCL Cancer Trials Centre, UCL) will be teaching on this course.

Availability: This course is available on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Course content: A large amount of medical research is conducted, with variable quality. Also, health claims are frequently reported in the media, and it can be difficult to determine which is based on reliable evidence and which is not. It is therefore essential to
be able to interpret study results and conclusions appropriately, in
order to change clinical practice or develop public health policy. This
is achieved by Evidence-Based Medicine. The module will enable
students to evaluate risk factors for disease or early death, and
methods of disease prevention or treatment.
The module will provide students with practical skills in the
following key areas:
- Understanding the different types of research that can be
  conducted in humans and their strengths and limitations, i.e.
  observational studies and a focus on clinical trials.
- Interpreting research results and conclusions using aspects of
epidemiology and medical statistics, and how to communicate study
findings.
- Reading and understanding published journal articles or
  pharmaceutical company reports.
- Examining the efficacy and safety of health care interventions
  (an important part of a complete health economic evaluation of a
  clinical trial).
- Familiarity with systematic reviews (i.e. how several studies are
  combined, and the importance of looking at the evidence as a
  whole).

Teaching: 10 interactive seminars/workshops, each 2-3 hours long.

Formative coursework: Students will be given two short exercises
before the course begins, via Moodle, to help prepare for the
course. The tutor will go over these during the contact week, and
address any queries from the students. However, detailed written
answers are provided, so the students can access these if they
undertake any of the exercises after the contact week. The tutor is
also available for one-to-one email contact with any student.

Indicative reading:
- Hackshaw A. A concise guide to clinical trials. BMJ Books,
- Hackshaw A. A concise guide to observational studies in
- Greenhalgh T. How to Read a Paper: The Basics of Evidence-Based

Students will be given access to essential readings before the course
begins through the pre-sessional reading programme on Moodle.

Assessment: Other (50%) and other (50%) in the LT.

There will be two pieces of coursework based on a clinical trial of an
intervention or a risk/causal factor, in the form of:
- a written assignment in the form of a PowerPoint slide deck
  (about 25 slides) and a statement of 400 words of conclusion,
based on a published paper and associated media news article of
the paper (50%)
- 4-5 questions specific to a published paper with answers requiring
  1-2 paragraphs each (one question involves writing a media news
  article of 400-500 words) (50%).

SA4G1 Half Unit
Financing Health Care

This information is for the 2016/17 session.

Teacher responsible: Prof Elias Mossialos COW.4.08

Availability: This course is compulsory on the Executive MSc in
Health Economics, Policy and Management. This course is available
on the Executive MSc in Health Economics, Outcomes and
Management in Cardiovascular Sciences. This course is not available
as an outside option.

Course content: This course aims to give students a thorough
grounding in health financing policy. It focuses on the health
financing functions of collecting revenue, pooling funds and
purchasing services, as well as on policy choices concerning
coverage, resource allocation and market structure. The course
mainly draws on examples from health financing policy in European
countries, but the general principles studied apply internationally.
By the end of the course students will have:
- a grasp of the economic, political and philosophical concepts
  relevant to any discussion of health financing policy
- a good understanding of how financing arrangements affect the
  achievement of key health financing policy goals such as financial
  protection, equity in financing and equity of access to health
  care, incentives for efficiency and quality in the organization and
delivery of health services, administrative efficiency, transparency
and accountability
- the skills to critically assess current health financing arrangements
  and options for reform
- an overview of key health financing policy issues, including
  the advantages and disadvantages of different ways of raising
  revenue for health; the role of private financing mechanisms;
  the importance of pooling; decisions about whom to cover,
  what services to cover, and how much of service cost to cover;
  allocating resources to purchasers, purchasing market structure
  and the principles of strategic purchasing; the incentives
  associated with different methods of paying providers; and the
  issue of financial sustainability.

Teaching: 11 hours of lectures in total and 4 seminars (1.5 hours
each).

Formative coursework: Students will sit a progress test in their
own time. This will involve writing an essay under exam conditions.
Their seminar leader will mark the essay and provide a mark and
written feedback.

Indicative reading:
- World Health Report 2010 - Health systems financing: the path to
  universal coverage (2010); E Mossialos, A Dixon, J Figueras & J
  Kutzin (eds), Funding health care: options for Europe, Open
  University Press (2002); J Kutzin, Health financing policy: a
  guide for decision-makers, World Health Organization (2008);
  T Rice, The economics of health reconsidered, Health
  Administration Press (3rd edn, 2009)

Students will be given access to essential readings before the course
begins through the pre-sessional reading programme on Moodle.
They will be expected to read these prior to the first day of class.

Assessment: Take home exam (100%) in the ST.

SA4G2 Half Unit
Health Economics

This information is for the 2016/17 session.

Teacher responsible: Prof Alistair Mcguire COW4.05

Availability: This course is compulsory on the Executive MSc in
Health Economics, Policy and Management. This course is not
available as an outside option.

Course content: Distinction between health and health care.
Nature of health care as an economic commodity. How markets
and insurance markets work, and how they can fail for health care
and health insurance. Incentive mechanisms and principal-agent
relationships in health care. Yardstick competition and Diagnostic
Related Group payment schemes. Labour markets in health care.
Economic evaluation as a regulatory tool.

Teaching: 12 hours of lectures and 10 hours of seminars in the MT.

Indicative reading: The following is a basic reading list for the
course: S Folland, A C Goodman & M Stano, The Economics of
Health Care (3rd edn, 2009), Prentice Hall, 2001; B McPake,
L Kumararayake & C Normand, Health Economics - An International

Students will be given access to essential readings before the course
begins through the pre-sessional reading programme on Moodle,
which they will be expected to read prior to the first day of class.

Assessment: Take home exam (100%) in the ST.

SA4G3 Half Unit
Pharmaceutical Economics and Policy

This information is for the 2016/17 session.

Teacher responsible: Dr Panagiotis Kanavos COW3.08

Availability: This course is available on the Executive MSc in Health
Economics, Policy and Management. This course is not available
as an outside option.
Course content: The aim of this course is to introduce students to the economics of pharmaceutical markets and related policies that affect national and international markets broadly.

- To provide students with an understanding of basic features of pharmaceutical markets and how pharmaceutical markets work, and how competition manifests itself in different parts of pharmaceutical markets.
- To illustrate to students how the pharmaceutical market is linked to the health care market, why it is often the focus of much regulation, and to help students understand the multidimensional goals of pharmaceutical policies.
- To introduce students to the economic and policy problems encountered in managing pharmaceutical markets and how to evaluate the impact of alternative policy approaches. The course will also give students some experience in critically evaluating the impact of policy on market outcomes.
- To facilitate consideration of various country-specific political, cultural and economic factors that may drive governments' approaches to pharmaceutical regulation. In this context, this course will help students consider the extent to which policies may be transferable.
- To enable students to analyse pharmaceutical markets from the perspectives of several main actors: governments, third party payers, the pharmaceutical industry, doctors, patients, pharmacists and wholesalers. Literature from Health Economics, Industrial Organisation and Health Policy will be incorporated into lectures, discussions and seminars.
- To introduce students to the economics of pricing and reimbursing pharmaceutical products, to explore different models of pricing and reimbursing medicines in OECD countries, including rate of return regulation, value-based pricing, cost-plus pricing, external price referencing and internal reference pricing, among others.

Teaching: The course will comprise 10 x 1-hour interactive lectures, 1 x 1-hour revision session and 5 x 2-hour interactive seminars, where students will discuss specific case studies.

Formative coursework: A 2000 word formative essay, to mirror an exam question, to be written during seminar time.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

This is the same course as SA427 Pharmaceutical Economics and Policy (H) but it has different teaching and assessment arrangements.

SA4G6 Half Unit Measuring Health System Performance

This information is for the 2016/17 session.

Teacher responsible: Dr Irene Papanicolas COWG.04

Availability: This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences and Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Course content: This course aims to present a framework to discuss the opportunities and challenges with performance measurement in health care, examine the various dimensions and levels of health system performance, identify the measurement instruments and analytic tools needed, and examine the implications of these issues for policy makers and regulators. Lectures generally focus on measuring health system performance in high-income countries but draw on the experience of other countries where relevant.

After taking this course students are expected to:
- understand the principles of performance measurement
- appreciate the challenges, approaches, and opportunities in performance measurement in four dimensions: population health, patient outcomes, equity, quality and appropriateness of care, and productivity
- understand the methodological issues facing performance measurement relating to risk adjustment, developing composite measures, and measuring attribution and causality
- identify key issues relevant to policy makers relating to: developing targets and reporting on progress to the public, and developing incentives to improve performance

Teaching: 2 lectures (2 hours), 4 lectures (1.5 hours) and 5 seminars (2 hours).

Formative coursework: In-class exercise during seminar time. Students will receive feedback on it from their seminar leader after completion.

Pre-requisites: Students must have completed Financing Health Care (SA4G1).

Course content: Lectures will cover the following material: The dynamics of health care stakeholders and the shifting balance of power among them; Introduction to the concept of negotiations and principles of game theory (principles of game theory, definition and properties of a Nash equilibrium; static and dynamic games; games with complete and incomplete information); the dilemma of complex, discontinuous, multiparty health care negotiations; the peapulator pricing exercise; the seven elements: defining success in health care negotiations; management as negotiation: frameworks and tools for analysing decision processes; the seven elements: defining success in health care negotiations; value creation and allocation in health care systems; when the people are the problem (partisan perceptions exercise; the three perspectives; the ladder of inference; the elements of relationship management).

Seminars will be interactive drawn based on case studies from specific health care environments (e.g. hospitals, drug coverage decision; health technology assessment; conflict between management and clinical excellence), and use frameworks such as Choice Analysis (a currently unresolved negotiation in which another party has or is expected to reject a proposal), Complex Problem Solving (a currently unresolved and complex situation involving so many parties and issues that the situation is unclear or confusing and our ability to influence the situation is in doubt), Rappor Management (one or more currently unresolved negotiations in which resolution of a troubled personal or corporate relationship with the key person(s) on the other side constitutes one of the major requirements or aspirations for agreement), Decision Rights Analysis (a live, unresolved task of persuasion involving one or more individuals negotiating in their capacity as employees of a large health care provider), and Value Creation (a complex, live, unresolved negotiation where lots of differing interests are implicated by the subject matter and the parties do not share the same interests or have the same priorities).

Teaching: The course will comprise 10 x 1-hour interactive lectures, 1 x 1-hour revision session and 5 x 2-hour interactive seminars, where students will discuss specific case studies.

Formative coursework: Students will be given a case study—reflecting a real-world situation—by the end of lecture 4 and will be asked to come up with a credible strategy/plan, which they will need to write up (2,000 words), submit and present during seminars.

Assessment: Essay (75%, 3000 words) and in class assessment (25%).

In-class assessment (25%) and assessed piece of coursework (75%). In-class assessment on a presentation where students apply principles taught to construct an argument around a theory-based question informed from real world data. They would be assessed on their presentation as well as their ability to apply the conceptual material taught in class to practical data. Coursework is the production of a report where students are asked to evaluate and interpret key performance data for a particular country.

SA4K8
Health Care Quality Management

This information is for the 2016/17 session.

Teaching responsible: Dr Irene Papanicolas COW.G.04

Availability: This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences and Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Course content: An introduction and overview of quality improvement methodology as used in healthcare settings internationally. The course will cover the following areas:

1. History of quality management: The course will start with an overview of key theories in quality management such as those described Taylor, Shewhart, Deming and Juran. An overview of quality assurance systems used in healthcare, such as ISO 9000, Magnet, Baldridge award and their role in quality improvement. It will also include a discussion and overview of value-based healthcare.

2. A critical assessment of the mainstream schools of thought of healthcare.

3. Qualitative methods in quality management - This course will examine a number of tools for quality management purposes - both how to do them as well as how they fit into the various schools of thought on quality management. It will cover statistical process control which is a method of statistical analysis of time series data that is used in quality management. This method shows whether there is variability in processes and gives the user an ability to both measure improvements and declines in performance of both processes and outcomes and to understand whether processes are performing within acceptable limits. An overview of the quality improvement methodology known as Design of Experiments will also be given. The role of case mix adjustment in quality assessment will also be discussed.

4. Process Mapping - Understanding the value and power of mapping processes both at a systems level and at the individual

Indicative reading:

5. Ury W., Getting past No, 1993.
7. Kelly W., We have met the enemy and he is us, 1995.
8. de Caillieres M., On the manner of negotiating with Princes: from sovereigns to CEOs, envos to executives - classic principles of diplomacy and the art of negotiation, 2000.

Assessment: Project (100%, 4000 words). The project is a group project, where small groups will be allocated a case study to work on, but individual group members will be responsible for submitting their own 4,000 word project individually (100%).
process level. They will also be given an example of a process map from a healthcare environment to work on optimising.

5. Theories of capacity and flow management and examples of this in both in-patient and out-patient settings will be discussed. This will also include how DRG/HRG payment has a role within organisations of capacity management.

6. A critical overview of Lean, Six Sigma and Model for Improvement. While these models can be useful in healthcare management, these are not deep philosophies of organisation and many of the things which make healthcare unique (e.g. asymmetry of information, difficulty of measuring quality, patient behaviour and societal preferences for fairness) are sometimes not accounted for in these models.

Teaching: 5 lectures (5 x 2 hours) and 5 workshops (5 x 2 hours). The 5 workshops will focus on analysing case studies with a view of giving students a practical understanding of approaches to quality management in healthcare settings.

Formative coursework: A case study will be provided for the students to analyse and write an essay answering questions relating to it. Feedback will be provided on this essay by the seminar leader.

SA4M2E Half Unit

Behavioural Science and Policy

This information is for the 2016/17 session.

Teacher responsible: Prof Paul Dolan OLD.2.3B

Availability: This course is compulsory on the Executive MSc in Behavioural Science. This course is not available as an outside option.

Course content: This course aims to introduce students to the main concepts and tools of the growing field of behavioural science. The course covers the following topics: What is behavioural science?; Choices under risk and uncertainty; Intertemporal decisions; Social preferences; Distributional preferences; The role of emotions in decision making; Compensating behaviours; Dual-process models of behaviour and the role of the unconscious mind; Dual processing into policy.

Teaching: 15 hours of lectures and 7 hours of seminars in the MT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the MT.

Assessment: Take home exam (100%) in the MT.

SA4M3E Half Unit

Research Methods for Behavioural Science

This information is for the 2016/17 session.

Teacher responsible: Dr Matteo Galizzi

Availability: This course is compulsory on the Executive MSc in Behavioural Science. This course is not available as an outside option.

Course content: The course aims to introduce students to the main methodological concepts and tools in behavioural science. To achieve this objective, the course combines rigorous conceptual discussion with hands-on practical applications. The course covers: The beauty of experiments: how randomization solves the sample selection bias; Randomized controlled experiments from the lab to the field: taxonomy, principles, best practices; Statistical tools: distributions and their moments, the inference problem; Experimental design: between-subjects design, block/statstratified randomization, matched-pair design, within-subjects design, cluster randomization, the mechanics of randomization; Introduction to econometrics: simple and multiple linear regression models, econometric analysis of experimental data; Tests of hypothesis: principles and practices, parametric and non-parametric tests in practice; Sampling: optimal sample size, sample size in practice; useful rules of thumbs; Experimental best practices and challenges: ethics, recruitment, informed consent form, attrition, non-compliance, external validity, data-linking; When randomization is not possible: before and after, matching, natural experiments, difference-in-difference, regression discontinuity design; Outcomes and preferences: surveys, measuring risk and time preferences; Game theory and behavioural game theory: games and strategic decision-making, measuring social preferences.

Teaching: 17 hours and 30 minutes of lectures and 5 hours of seminars in the LT.

SA4K9 Half Unit

Advanced Health Economics

This information is for the 2016/17 session.

Teacher responsible: Prof Alistair Mcguire COW4.05

Availability: This course is available on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Course content: The course will cover: international comparisons of health care expenditure, health care insurance, contract theory applied to the health care sector (including principal-agent theory and incentive payment mechanisms), equity in health care, health behaviour and an introduction to econometric analysis applied to health care data.

Teaching: 19 hours of lectures.

Assessment: Essay (100%, 3000 words).
SA4M5E

Dissertation in Behavioural Science

This information is for the 2016/17 session.
Teacher responsible: Dr Matteo Galizzi

Availability: This course is compulsory on the Executive MSc in Behavioural Science. This course is not available as an outside option.

Course content: The aim of the dissertation is for students to pursue an independent piece of research within the field of behavioural science. The dissertation is a quantitative or qualitative investigation in the field and can be either a theoretical or empirical piece or research. Students must obtain the approval of their supervisor before embarking on any research.

Teaching: 2 hours of classes in the LT.

Indicative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Assessment: Take home exam (100%) in the LT.

SA4M6E  Half Unit

Economic Analysis for Health Policy

This information is for the 2016/17 session.
Teacher responsible: Professor Mark Stabile

Availability: This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

Course content: The course will serve as an introduction to major developments in the economics of health and health care. It will provide medical practitioners with a strong understanding of the role economics can play in health policy and health system administration. It will provide a framework with which to understand the changing nature of health care supply and delivery and the interactions between patients and health care systems. It will review major changes in the financing and delivery of health care and both domestic and international efforts to control health care costs and improve efficiency.

Topics will include the following:

- Lecture 1: Introduction to the role of economics in health and health care
- Lecture 2: The Demand for Medical Care, The Role of Moral Hazard in Health Care
- Lecture 3: Prices, Insurance and Consumer Behaviour
- Lecture 4: The role of the state in providing health care
- Lecture 5: Financing Health Care Going Forward: How is the world paying for health care?
- Lecture 6: Determinants of Individual and Population Health
- Lecture 7: Physician Behaviour and Reimbursement. Supplier Induced Demand
- Lecture 8: The Pharmaceutical Industry
- Lecture 9: Technological Change, Quality, and Innovation in Health Care

Assessment: Take home exam (100%) in the ST.

SA4M4E  Half Unit

Policy Appraisal and Impact Assessment

This information is for the 2016/17 session.
Teacher responsible: Séverine Toussaert

Availability: This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

Course content: This course aims to introduce students to the main concepts and tools of policy appraisal and project impact assessment. The course covers the following topics: 1) Architecture of Cost-benefit analysis for market and non-market goods; 2) Elicitation of monetary values through revealed and stated preference methods; 3) Adjustments for time discounting, risk and uncertainty; 4) Welfare analysis of policy interventions: efficiency, equity and asymmetric paternalism; 5) Evaluating welfare beyond uncertainty; 4) Welfare analysis of policy interventions: efficiency, equity and asymmetric paternalism; 5) Evaluating welfare beyond uncertainty.

Teaching: 17 hours and 20 minutes of lectures and 5 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Indicative reading:

- Cameron, A.C., Trivedi, P.K. (2009). Microeconometrics Using Stata. College Station, TX: Stata Press.
- Kohler, U., Kreuter, F. (2012). Data Analysis Using Stata. College Station, TX: Stata Press.

Assessment: Take home exam (100%) in the LT.

- Lecture 7: Physician Behaviour and Reimbursement. Supplier Induced Demand
- Lecture 8: The Pharmaceutical Industry
- Lecture 9: Technological Change, Quality, and Innovation in Health Care

Assessment: Take home exam (100%) in the ST.
• Lecture 10: Equity, Efficiency and Need
  Seminar sessions will focus on current policy debates in the area of health and health care drawing on the theory and evidence from the seminars augmented by current readings from both academic and popular sources.

Teaching: 20 hours of seminars in the MT.

Formative coursework: Student presentations to be held on the final day of class, with each student's topic of their presentation to form the basis of their essay.

Assessment: Essay (50%, 3000 words) and take home exam (50%) in the LT.

SA4M8E  Half Unit
Economic Evaluation in Health Care
This information is for the 2016/17 session.
Teacher responsible: Professor Mireia Jofre-Bonet
Dr. Victoria Serra-Sastre
Availability: This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

Course content: Health care decision makers are often faced with the challenges of resource allocation. Economic evaluation is used to formalize the process of decision-making on the basis of costs and benefits associated with multiple alternative scenarios or interventions. Decision makers use evidence from economic evaluation analyses to make specific recommendations for coverage, reimbursement, and pricing decisions for a variety of health care interventions, as well as define best practices. This course will enable students to understand and apply analytic methods in the economic evaluation of health interventions and provide a strong foundation in the several advanced concepts in economic evaluation, and in particular cost-effectiveness of interventions used in long-term chronic illnesses. The course will provide an overview of the principles and practices of measuring and analyzing costs, and estimating effectiveness in terms of quality-adjusted life years and disability-adjusted life years. Practical topics will include the design and implementation of economic evaluation models and the role of clinical data inputs to inform economic evaluation analyses.

Teaching: 5 hours of lectures, 10 hours of seminars and 10 hours of computer workshops in the MT. 1 hour of help sessions in the ST.

Formative coursework: 5 brief response papers to each set of readings in preparation for each seminar.

Assessment: Research project (100%) in the LT.
SA4M9E  Half Unit  
Systematic Review and Meta-analysis  
This information is for the 2016/17 session.  
Teacher responsible: Dr. Huseyin Naci  
Availability:  
A core course available only for students taking MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.  
Course content: By the end of this course, students will be able to describe trends in cardiovascular disease incidence, survival and mortality over the last decades in different populations. The course will examine the evidence on well-established and emerging risk factors for cardiovascular disease, including behavioural risk factors such as dietary habits, physical activity, obesity and smoking, as well as metabolic risk factors such as blood pressure, serum lipids and glucose-insulin homeostasis. The course will also introduce students to evidence on the role of environmental risk factors including cultural, social, and physical (built-environment) factors, as major determinants of population-wide cardiovascular risk. The basic principles of nutritional and genetic epidemiology will also be discussed. The course will outline the principles of cardiovascular disease prevention. It will provide students with the skills to interpret findings from cardiovascular epidemiological studies. It will discuss evidence of preventive interventions that have been effective in reducing cardiovascular disease incidence and mortality around the world. The course will also discuss the key challenges for cardiovascular disease prevention over the next decades, with a particular focus on the clinical implications of population ageing for cardiovascular disease prevention.  
Each course session will consist of 10 one-hour lectures introducing key concepts of cardiovascular epidemiology, and five two-hour seminars that deal with the key evidence, principles and challenges of cardiovascular disease prevention. Seminars will also discuss strengths and limitations of studies assessing cardiovascular disease prevention interventions, and it will draw clinical implications of specific cardiovascular disease prevention strategies shown to be effective.  
Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 2 hours of help sessions in the ST.  
Formative coursework: Students will be expected to produce 1 essay in the LT.  
One non-assessed essay (2,000 words). This essay will be a first proposal of the final essay of the course, and will consist of a first proposal for an in-depth analysis of a specific cardiovascular disease prevention strategy. This essay should first identify a challenge in cardiovascular disease prevention (e.g., the obesity epidemic, hypertension control, smoking). Students will then review in the essay the available evidence of interventions to address this challenge, and they will critically assess the available prevention strategies to tackle the selected problem. Students will be expected to draw as much as possible on the concepts and principles of cardiovascular disease epidemiology and prevention discussed in class.  

SA4N1E  Half Unit  
Cardiovascular Epidemiology and Prevention  
This information is for the 2016/17 session.  
Teacher responsible: Professor Allan Hackshaw  
Availability: This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.  
Course content: This course will be focused on the principles of reviewing and synthesizing the existing body of literature. The course will first provide the rationale for adopting a systematic approach for evidence review and synthesis. It will then equip students with the methods to undertake risk of bias assessments of individual randomized controlled trials and also collections of randomized controlled trials. In addition to providing an overview of methods for quantitatively synthesizing multiple randomized controlled trials in meta-analysis, the course will present the opportunities and challenges of using evidence for decision-making in health care.  
Learning outcomes:  
• Describe the rationale for adopting a systematic approach to literature review  
• Define the principal threats to validity both in individual randomized controlled trials and collections of randomized controlled trials  
• Critically evaluate the internal validity of randomized controlled trials  
• Assess heterogeneity in a collection of randomized controlled trials  
• Design and perform a systematic review and meta-analysis evaluating a health care intervention in a group setting  
• Describe the opportunities and challenges of using systematic review and meta-analysis findings for decision making  
Teaching: 20 hours of seminars and 1 hour of help sessions in the ST.  
Formative coursework:  
Course convener will provide feedback on group presentations on the last day of the in-person teaching session  
Groups will share their progress report, completed data extraction form and statistical analysis plan with other groups to seek formative peer feedback  
Assessment: Research project (100%) in the ST.

**Assessment:** Take home exam (50%) and other (50%) in the LT. The other assessment will be a PowerPoint presentation based on a published journal article with an accompanying media news article.

**SA4N2E**  
**Half Unit**  
**Dissertation in Health Economics, Outcomes, and Management in Cardiovascular Sciences**

*This information is for the 2016/17 session.*

**Teacher responsible:** Dr. Huseyin Naci and supervisors

**Availability:** This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

**Course content:** The dissertation could be on any topic in the field of health economics, outcomes research, comparative effectiveness research, policy, and management. It should attempt to integrate approaches and knowledge learned across courses and present results to address a health/care policy, economic issue or a problem identified through the use of either primary or secondary data. It must demonstrate adequate knowledge of relevant theoretical and empirical literature in the field. In addition, careful analysis of the policy implications and formulation of policy recommendations is essential. The main body of the dissertation should, in principle, include the background to the research, method of investigation, results of the analysis, discussion and policy implications and recommendations.

**Teaching:** 2 hours of lectures in the ST.

In addition to the lectures, students will be given individual support by their allocated supervisor.

**Assessment:** Dissertation (100%, 5000 words) in the MT.

**SA4N3E**  
**Half Unit**  
**Behavioural Science for Health**

*This information is for the 2016/17 session.*

**Teacher responsible:** Dr Matteo Galizzi Old 2.35

**Availability:** This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

**Pre-requisites:** No prerequisites

**Course content:** The course aims to introduce students to the main tools and principles of behavioural sciences and the key state-of-the-art applications to health economics, policy, and management. The course is designed to enhance students’ abilities to apply rigorously and critically behaviour science tools to concrete challenges in the health area. It covers principles of behavioural science, behavioural health economics and policy, and behavioural experiments in health; risk preferences and health; time preferences and health; social preferences and health; behavioural principles for information policies in health; financial and non-financial incentives in health; nudging behavioural change in health; behavioural spillovers in health; behavioural principles for regulation of health and healthcare.

**Teaching:** 15 hours of lectures and 7 hours and 30 minutes of seminars in the ST.

5 x 3 hour lectures (15 hours)

5 x 1.5 hour seminars (7.5 hours each seminar group)

**Formative coursework:** Students will be expected to produce 1 presentation and 1 other piece of coursework in the ST.

**Assessment:** Essay (100%, 3000 words) in the ST.

**SA4N4E**  
**Half Unit**  
**Introduction to Management in Health Care**

*This information is for the 2016/17 session.*

**Teacher responsible:** Dr Brittany Jones NAB 4.04

**Availability:** This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

**Pre-requisites:** No Prerequisites

**Course content:** The course aims to introduce students to the main principles of management and strategy and related issues that impact on organisational change, group decision making, innovation and leadership. Key models and academic tools will be presented and their application to real world situations discussed. The course aims to give students a strong academic understanding and also enable them to apply this knowledge to their practice. The course outline is below

1. **Strategy and Managerial Work**
   - In this session, we will explore the development of the modern practice of 'strategy' and what it means today. Along the way, we will show how organisational practices like planning met emerging ideas in academia, especially in economics, to develop new tools and ways of thinking that transformed the practice of management in the late 20th century. The development of strategic management and planning tools and the competitive environment in which they emerged will be discussed and the application of these tools will be examined in competitive markets.

2. **Innovation Management**
   - This part of the course will introduce the topic of innovation management. In particular, it introduces participants to the conceptualization of innovation as a means to affect the competitive process. Participants will be introduced to the basics of the competitive process and the effect of innovation on the competitive process. Participants will be active in analysing the competitive process surrounding their organization and the competitive position their organization occupies within it and activities will be used to promote thinking about how innovations, small or large, can defend and/or improve their competitive position.

3. **How Individuals and Groups Organise and Make Decisions and Take Risk**
   - This part of the course will introduce issues related to working as individuals within an organisation and as a group. It will look at the “benefits” and “harms” of group decision making processes – especially with reference to health care where collaborative multidisciplinary teams are commonplace – and also discuss how group decisions making can be undermined by systematic biases.

4. **Behaviour Change and Social Marketing**
   - This part of the course will introduce the drivers and mechanisms...
of behaviour change in organisations. In particular, we will discuss how different organizational-level factors may influence behaviour change, including resistance to change from various levels and sustainability of changes across time, and how organizational behaviour change can be measured. Models of organisational behaviour change will be introduced and the principles of managing and leading change in established systems will be discussed with a focus on the stages of planning and implementation of change. Alongside this appropriate tools and resources will be introduced to aid future organisational changes. The coverage of social marketing will deal with the formulation and execution of strategies designed to influence behaviour change amongst groups at risk of cardiovascular disease.

5. Culture and Leadership

This part of the course will explore the definition of culture within organisations and leaders’ role in creating and supporting successful teams. Key components of leadership, like the ability to establish direction and motivate and inspire a workforce as well as handle direction with external stakeholders, will then be introduced with a consideration of how they affect culture and working practices.

Teaching: 10 hours of lectures, 10 hours of seminars and 1 hour of help sessions in the ST.

Given the executive nature of this course, it will be offered as an intensive, accelerated, and compressed module with a 1-week duration consisting of 5x2-hour lectures and 5x2-hour seminars (in addition to a 1x1-hour online help session).

Formative coursework: Students will be expected to produce 1 essay in the ST.

The formative assessment is a 500 word outline of the summative assessment essay question.

Assessment: Essay (100%, 2500 words) post-summer term.

The course will be assessed on the basis of a 2500 word essay on a specific topic. In writing this essay, students will be able to demonstrate and synthesise what they have learned from the lectures, reading material, group discussions and their own independent research and thinking. The content of the assessments will lead on from the simulation exercises that have been used in the seminars and students will be encouraged to use topics they have identified during reflections on their own work.

Formative assessment will be based on a 500 word outline of the essay. This will give students an opportunity to develop their thoughts ahead of the summative assessment and will allow feedback from course teachers that will guide students when they work on their longer answers.

Due to the executive nature of the course and the 1 week nature of the module, this method of assessment will allow students to work away from campus alongside their professional roles.
SA4P1E  Half Unit

Research Design for Evaluating Health Programs and Policies

This information is for the 2016/17 session.

Teacher responsible: Dr Huseyin Naci COW 3.01

Availability: This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

Course content: The objective of this course is to teach students how to design and critically appraise research studies evaluating policies, programmes, and interventions. This course will provide an overview of the principles and models of evaluation, and the role of theories, concepts, and hypotheses. In terms of research design, it will cover study design choices in light of bias, validity and other design trade-offs. The core of the course will focus on experimental, quasi-experimental, non-experimental, and qualitative designs for evaluating health interventions, programmes and policies aimed at achieving high quality care, reducing costs, and improving health outcomes. Data and measurement considerations for both quantitative and qualitative studies will be discussed alongside the importance of using mixed-methods and triangulation for interpreting findings and taking a critical approach to the results of evaluation. The course will conclude with practical and ethical issues when undertaking evaluation studies.

Teaching: 10 hours of lectures and 10 hours of seminars in the ST. Given the executive nature of this course, it will be offered as an intensive, accelerated, and compressed module with a 1-week duration.

Formative coursework: Students will be expected to produce 1 project in June.

Assessment: Research project (70%) in September.

Presentation (30%) in the ST.

Project (70%, 2,000 words)

Group presentation (30%)

Assessment is through a project that students will undertake in small groups and write up individually (2,000 word paper), to be submitted 10 weeks after the completion of the course. Group presentation will account for the remaining 30% of the grade.
MRes/PhD Programme Regulations
Methodological Training and Study Skills
The Methodology Institute provides a number of courses for research track PhD programmes. MY4M1 Foundations of Social Research 1 and MY4M2 Foundations of Social Research 2 contain modules in quantitative and qualitative analysis and are required for the ESRC 1+3 scheme. In addition the Institute offers courses in study skills and specialist options in a range of aspects of social research. All PhD students are welcome to attend any courses offered by the Institute, details of which are in the relevant part of the section on Master’s degrees.

MRes/PhD in Anthropology

Programme Structure - MRes

Programme code: TMRESAN
Department: Anthropology

<table>
<thead>

</tr>
</tbody>
</table>

Award of the MRes in Anthropology
The marks for AN471 and AN472 will count respectively as 25% of the total mark for the year. The research proposal, worth 50% of the total mark for the MRes year, will be examined (and the examination includes a viva). In order to pass the MRes and in order to be upgraded to PhD registration and allowed to commence fieldwork, students (a) must earn an average of 60 or more across all units; (b) must earn a minimum mark of 60 on the research proposal.

Progression to the PhD
If the above MRes requirements are met, students will be upgraded to PhD registration and will commence the fieldwork phase of the programme. The mandatory first year progress review of PhD students will be based on written reports about the early phase of fieldwork. The mandatory third year progress review for students in Anthropology is held in the third term (or, exceptionally, in the fourth term) after their return from fieldwork; this entails a viva with both supervisors and one external examiner.

Programme Structure - PhD

Programme code: RPAN2
In the programme regulations below Years 1 and 2 are listed as “fieldwork”, with Years 3 and 4 being post-fieldwork, although in practice the timing/duration of these stages may vary to some extent between students.

MRes/PhD in Economics

Programme codes: TMRESEC (MRes) RPEC2 (PhD)

Department: Economics

For students starting in or after the 2015/16 session
A PhD in Economics consists of two years of coursework, followed by a thesis which is expected to take three years. The coursework requirement involves three PhD-level core courses in microeconomics, macroeconomics and econometrics, three field courses and a supervised research paper.

A place on the MSc Economics or our MSc Econometrics and Mathematical Economics will include a conditional offer of progression to the MRes/PhD in Economics, subject to the attainment of a Distinction grade in the MSc. Those who meet the progression requirement and decide to progress are registered as MRes students and undertake the same two-year MRes course requirement as with all other MRes/PhD students.

First year MRes
All students are required to attend EC400, the September Introductory Course in Mathematics and Statistics, in year one. Students are required to take the following MRes core courses:

Paper | Course number and title |
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>EC441 Microeconomics for MRes Students</td>
</tr>
<tr>
<td>2</td>
<td>EC442 Macroeconomics for MRes Students</td>
</tr>
<tr>
<td>3</td>
<td>EC443 Econometrics for MRes Students or EC484 Econometric Analysis</td>
</tr>
</tbody>
</table>

* Permission must be obtained to sit EC484: it is intended for students with a strong econometric background and an interest in pursuing a PhD with econometrics as the primary field.

Second year or higher MRes
Students are required to take:

Paper | Course number and title |
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>ECS99 Research Paper in Economics (5,000 - 10,000 words in length)</td>
</tr>
<tr>
<td>5 &amp; 6</td>
<td>Two courses from the Field Selection List below</td>
</tr>
</tbody>
</table>

Students are required to attend:
A. ECS01 Work in Progress Seminars, where they present their research.
B. The weekly departmental seminar series closest to their major field.
First year PhD Programme
Students who have been upgraded to PhD are required to work on their research and write a PhD thesis. In addition they are required to take:

Paper Course number and title
7 One course from the Field Selection List below
   Students are also required to attend
D. EC501 Work in Progress Seminars, where they present their research
E. The weekly departmental seminar series closest to their major field
   Students are required to work on their research and to write a PhD thesis.

Second and subsequent years PhD Programme
Students are required to work on their research and write a PhD thesis.

Students are required to attend:
H. EC501 Work in Progress Seminars, where they present their research
I. The weekly departmental seminar series closest to their major field

Progression to Year 2 of MRes in Economics
In order to progress unconditionally from the first to the second year of MRes registration, students are required to achieve pass marks of 50% or higher in Papers 1, 2 and 3. With the permission of the MRes Programme Director, students who do not attain this standard may proceed to the second year with up to one resit paper (with the restriction that they can sit a maximum of four exams, including rests and EC599 in Year 2).

Award of the MRes in Economics
The award and classification of the MRes degree is consistent with the School's Scheme for the Award of a five-unit Taught Master's Degree. Students are required to achieve a pass mark of 50% in Papers 1, 2, 3, 4 and in one of the Papers 5 or 6. The marks for Papers 1 - 4 and the highest mark from Papers 5 or 6 will be used to determine the degree classification. A fail in one of these five classification papers (but not a bad fail of 29% or less) can be compensated by a mark of 60% or higher in another paper, or an aggregate mark of 220 in the non-failed papers. If compensated, a fail shall result in a drop in the overall award classification where a Distinction or Merit would otherwise have been awarded. It shall have no further impact where a Pass is to be awarded.

Progression to PhD registration
For PhD registration, students are required to achieve four marks of 60% or higher and two marks of 50% or higher in MRes Papers 1, 2, 3, 4, 5, 6 and 7, with at least two of the 60% marks achieved in the MRes core Papers 1, 2, and 3.

Condoning marks: A mark between 55 - 59% in one of the Papers 1, 2 or 3 can be condensed by a mark of +70% in another from Papers 1, 2 or 3. A mark between 50 - 59% in one of the Papers 1, 2 or 3 can be condensed by a mark of +70% in the EC599 research paper.

Students missing the overall progression requirement by one paper are permitted to progress to PhD registration, but will subsequently need to re-sit and pass the paper to the necessary standard to continue their PhD registration. Students missing the progression requirement by more than one paper are required to pass those papers to the necessary standard before PhD registration can be permitted.

Students failing a paper or missing a progression mark will have to retake that paper within one year of the original examination. In exceptional circumstances, the Graduate Studies Sub-Committee can grant permission to a candidate to resit a paper at the next available opportunity. Students can resit each paper only once.

Students registered for the PhD remain subject to the relevant MRes regulations for any courses or examinations they are completing.

Students who have been permitted to progress onto the PhD without satisfying the complete progression standard will have their PhD registration discontinued if they fail to reach this standard at re-sit.

A student can appeal against the Department's decision on progression to PhD according to the Appeals Regulations for Research Students.

Progression to Year 2 of PhD
In order to progress to the second year of PhD registration, students are required to pass the PhD qualifying field (Paper 7) with a mark of 50% or higher.

Award of the PhD in Economics
Award of the PhD is contingent on progression requirements within the PhD and on the completion and defence of an original research thesis, in accordance with LSE regulations.

Special provisions for students who have completed an MSc degree within the economics department at the LSE
Students who have completed EC484 to the required standard as part of their MSc do not have to take the course again and will have their MSc mark carried forward.

With the approval of the Doctoral Programme Director, students who have completed an MSc degree within the Economics department at the LSE are permitted to take their PhD qualifying field course (Paper 5) in the first year of the MRes and might take Paper 7 in their second year.

For students who have taken Paper 7 in their second year the progression and award regulations are adjusted as follows:

MRes award - Students are required to achieve a pass mark of 50% in Papers 1, 2, 3, 4 and at least one mark of 50% in Papers 5-7. One failed paper (but not a bad fail of 29% or less) can be compensated by a mark of 60% or higher in another paper.

Progression to PhD registration - For PhD registration students are required to achieve four marks of 60% or higher and two marks of 50% or higher in MRes Papers 1, 2, 3, 4, 5, 6 and 7, with at least two of the 60% marks achieved in the MRes core Papers 1, 2, and 3.

Progression to PhD to Year 2 of PhD - In order to progress to the second year of PhD students are required to pass all the PhD qualifying field (Papers 5-7) with a mark of 50% or higher.

RPEC2 (PhD)

Department: Economics

For students starting in academic sessions 2010/11 to 2014/15

The MRes/PhD programme is offered in twin-track formats. Students on both tracks of the programme will have to complete MRes degree courses, a PhD-qualifying course and research training modules prior to submission of the PhD thesis. The different entrance qualifications of Track 1 and 2 students dictate the sequence and duration of the coursework.

Track 1 is aimed at students graduating with a postgraduate degree, or an undergraduate degree and exceptional grades in economics, mathematics, econometrics and other quantitative subjects. Track 2 is for students who have completed a graduate degree in economics from a reputable university institution and who have demonstrated exceptional performance in it. The decision on which track students are registered is a matter of academic judgement of the selectors for the programme. In practice almost all Track 2 entrants come from the LSE Msc programmes.

The School’s regulations for Taught Masters Degrees apply to Track 1 course components 1. - 6. and Track 2 course components 1. - 5., except where the regulations below supersede the School’s degree regulations.

Programme Structure

Track 1

First year of Track 1

Students are required to take the following MRes core courses:
1. EC441 Microeconomics for MRes Students
2. EC442 Macroeconomics for MRes Students
3. EC443 Econometrics for MRes Students or EC484 Econometric Analysis
   * Permission must be obtained to sit EC484: it is intended for students with a strong econometric background and an interest in pursuing a PhD with econometrics as the primary field.

Second year of Track 1

Students are required to take:
4. EC599 Research Paper in Economics (5,000 - 10,000 words in length)
5. One from the Field Selection List below
   Students who obtain at least two marks of 60% or more and one mark of 50% or more in the core courses 1. - 3. will be allowed to take their second (PhD qualifying) field during Year 2 (Paper 6).

In addition, students attend:
A. EC501 Work in Progress Seminars
B. The weekly departmental seminar series closest to their major field.

Third and further years of Track 1

Students who have not completed paper 6 (PhD qualifying field course) will be required to take:
6. One from the Field Selection List below but different from Paper 5.

In addition, students attend:
C. EC501 Work in Progress Seminars, where they present their research
D. The weekly departmental seminar series closest to their major field

Students are required to work on their research and to write a PhD thesis.

Progression to Year 2 of MRes in Economics

In order to progress unconditionally from the first to the second year of MRes registration, students are required to achieve pass marks of 50% or higher in Papers 1, 2 and 3. Students who do not attain this standard may proceed to the second year with up to two resit papers, only with the permission of the MRes Programme Director, with the restriction that they can sit a maximum of four exams (including resits and EC599) in Year 2.

Award of the MRes in Economics

The award and classification of the MRes degree is consistent with the School’s Scheme for the Award of a five-unit Taught Masters Degree. Students are required to achieve a pass mark of 50% in papers 1, 2, 3, 4 and 5. One failed paper (but not a bad fail of 29% or less) can be compensated by a mark of 60% or higher in another paper.

Progression to PhD registration

For PhD registration students are required to achieve three marks of 60% or higher and two marks of 50% or higher in MRes Papers 1, 2, 3, 4 and 5. Two marks of 60% or higher are required from the MRes core papers 1, 2, and 3. A mark between 55 - 59% in one of these core papers can be condoned by a mark of +70% in another core paper and/or a mark between 50 - 59% in one of these core papers can be condoned by a mark of +70% in the EC599 research paper.

Students missing the overall progression requirement by one paper are required to pass those papers to the necessary standard before PhD registration can be permitted. Throughout the coursework portion of the MRes or MRes/PhD programme, students failing a paper or missing a progression mark will have to retake that paper within one year of the original examination. In exceptional circumstances, the Graduate Studies Sub-Committee can grant permission to a candidate to resit a paper in a subsequent year. Students can resit each paper only once.

Students registered for the PhD remain subject to the relevant MRes regulations for any courses or examinations they are completing. Students who have been permitted to progress onto the PhD without satisfying the complete progression standard will have their PhD registration discontinued if they fail to reach this standard at re-sit.

A student can appeal against the Department’s decision on progression to PhD according to the appeal’s procedures against decisions on upgrading to PhD in the School’s Regulations for Research Degrees.

Award of the PhD in Economics

Award of the PhD is contingent on meeting the progression requirements for the PhD, passing the PhD qualifying field with a mark of 50% or higher, and on the completion and defence of an original research thesis, in accordance with LSE regulations.

Track 2

Track 2: (4 MRes Papers + 1 PhD-qualifying paper)
Track 2 students may be required to attend EC400, the September Introductory Course before commencing the MRes/PhD programme.

First year of Track 2:

Students are required to take:
1. EC441 Microeconomics for MRes Students
2. EC442 Macroeconomics for MRes Students
3. EC443 Econometrics for MRes Students or EC484 Econometric Analysis
4. EC599 Research Paper in Economics (5,000 - 10,000 words in length)

* Permission must be obtained to sit EC484: it is intended for...
students with a strong econometrics background and an interest in pursuing a PhD with econometrics as the primary field. Students who have completed EC484 to the required standard as part of their MSc do not have to take the course again and will have their MSc mark carried forward. These students are permitted to take their PhD qualifying field course (Paper 5) in place of Paper 3.

In addition, students attend:
A. EC501 Work in Progress Seminars
B. The weekly departmental seminar series closest to their major field.

**Subsequent years of Track 2 (if upgraded to PhD):** Students are required to take:
5. One from the Field Selection List below (PhD qualifying field course).

   Students who are permitted to take a PhD qualifying field in Year 1 are waived this additional requirement.

   In addition, students attend:
   C. EC501 Work in Progress Seminars, where they present their research
   D. The weekly departmental seminar series closest to their major field.

   Students are required to work on their research and to write a PhD thesis.

**Award of the MRes in Economics**
The award and classification of the MRes degree is consistent with the School's Scheme for the Award of a four-unit Taught Masters Degree. Students are required to achieve a pass mark of 50% in Papers 1, 2, 3 and 4. A fail in one of these papers (but not a bad fail of 25% or less) can be compensated by a mark of 60% or higher in another paper, or an aggregate mark of 165 in the non-failed papers. If compensated, a fail shall result in a drop in the overall award classification where a Distinction or Merit would otherwise have been awarded. It shall have no further impact where a Pass is to be awarded.

**Progression to PhD registration**
For PhD registration students are required to achieve two marks of 60% or higher and two marks of 50% or higher in MRes papers 1, 2, 3 and 4. Two marks of 60% or higher are required from the MRes core Papers 1, 2, and 3. A mark between 55 - 59% in one of these core papers can be condoned by a mark of +70% in another core paper and/or a mark between 50 - 59% in one of these core papers can be condoned by a mark of +70% in the EC999 research paper.

Students missing the overall progression requirement by one paper are permitted to progress to PhD registration, but will subsequently need to re-sit and pass the paper to the necessary standard to continue their PhD registration. Students will also need to pass their PhD-qualifying field course (Paper 5), which is taken in the first year of PhD registration, with 50% or higher. Students missing the progression requirement by more than one paper are required to pass those papers to the necessary standard before PhD registration can be permitted.

Throughout the coursework portion of the MRes or MRes/PhD programme, students failing a paper or missing a progression mark will have to retake that paper within one year of the original examination. In exceptional circumstances, the Graduate Studies Sub-Committee can grant permission to a candidate to resit a paper in a subsequent year. Students can resit each paper only once.

Students registered for the PhD remain subject to the relevant MRes regulations for any courses or examinations they are completing. Students who have been permitted to progress onto the PhD without satisfying the complete progression standard will have their PhD registration discontinued if they fail to reach this standard at re-sit.

A student can appeal against the Department's decision on progression to PhD according to the appeal's procedures against decisions on upgrading to PhD in the School's Regulations for Research Degrees.

---

**Award of the PhD in Economics**
Award of the PhD is contingent on meeting the progression requirements for the PhD, passing the PhD qualifying field with a mark of 50% or higher, and on the completion and defence of an original research thesis, in accordance with LSE regulations.

**Either**

- FM502 Corporate Finance for Research Students
- FM503 Asset Pricing for Research Students

**PH413 Philosophy of Economics and PH555 Research Seminar in the Philosophy of Economics and Social Sciences**

- **Track 2** students who have previously taken the EC485 component of this course at Masters level may instead, with the agreement of the MRes Programme Director, take Statistics and/or Mathematics courses to the value of one unit.
- PH555: students are required to attend one term of choice and complete the term essay.

---

**MRes/PhD in Finance**

**Programme codes:**
- TMRESF1 (MRes Route 1)
- TMRESF2 (MRes Route 2)
- RPFI2 (PhD)

**Department:** Finance

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Students will take either Route 1 or Route 2 (depending on their previous Masters qualification) as detailed below.

**Route 1**

- Students who have not completed the MSc Finance and Economics (research) at LSE or an equivalent programme elsewhere.

  Route 1 students are required to attend EC400, the September Introductory Course before commencing the MRes/PhD programme.

**Year 1**

**Training courses:**

- Compulsory (examined)
  1. EC441 Microeconomics for MRes Students
  2. EC442 Macroeconomics for MRes Students
  3. FM481 Financial Econometrics for Research Students

**Transferable skills courses:**

- Compulsory (not examined)
  - A. FM436 Financial Economics
  - B. Capital Markets Workshop

- Optional (not examined)
  - C. MY592 Workshop in Information Literacy: finding, managing and organising published research and data
  - D. Any relevant seminars in related areas.

**Year 2**

**Training courses:**

- Compulsory (examined)
  4. FM502 Corporate Finance for Research Students
  5. FM503 Asset Pricing for Research Students
  6. FM482 Research Paper in Finance (6,000 - 8,000 words in length)
Transferable skills courses:
Compulsory (not examined)
A. FM505 PhD Seminar in Finance. Presentation requirements: Students are required to do an FM505 seminar presentation in the second year.
B. Capital Markets Workshop

Optional (not examined)
C. Any relevant seminars in related areas

Year 3 (if upgraded to PhD) Training courses:
Compulsory (examined)
7. FM505 PhD Seminar in Finance
Students need to pass Paper 7 with a mark of 65% or higher.

Transferable skills courses:
Compulsory (not examined)
A. Capital Markets Workshop

Progression and upgrade requirements
In order to progress unconditionally from the first to the second year of MRes registration students are required to achieve pass marks of 50% or higher in papers 1, 2 and 3. Students who do not attain this standard may proceed to the second year with up to two resit papers, only with the permission of the MRes Programme Director, with the restriction that they can sit a maximum of four exams in year 2, which must be the two resits, either paper 4 or 5, and paper 6.

Award of the MRes in Finance
The award and classification of the MRes degree is consistent with the School's Scheme for the Award of a five-unit Taught Masters Degree. Students are required to achieve a pass mark of 50% in 5 of full-unit papers, which must include Paper 6 (Research paper) and four papers from Papers 1, 2, 3, 4, and 5. One failed paper (but not a bad fail of 29% or less) can be compensated by a mark of 55% or higher in another paper.

Progression to PhD registration
For PhD registration students are required to achieve marks of 50% or higher in Papers 1, 2, 3 and 4, and a mark of 65% or higher in Paper 5.

Year 2 (if upgraded to PhD)

Training courses:
Compulsory (examined)
5. FM505 PhD Seminar in Finance. Presentation requirements: Students are required to do a seminar presentation in the second year.
6. EC442 Macroeconomics for MRes Students or another full unit course approved by the PhD Director. Students need to pass paper 5 with a mark of 65% or higher and Paper 6 with a mark of 50% or higher.

Transferable skills courses:
Compulsory (not examined)
A. Capital Markets Workshop

Award of the MRes in Finance
The award and classification of the MRes degree is consistent with the School's Scheme for the Award of a four-unit Taught Master's Degree. Students are required to achieve a pass mark of 50% in Papers 1, 2, 3 and 4. One failed paper (but not a bad fail of 29% or less) can be compensated by a mark of 55% or higher in another paper.

Progression to PhD registration
For PhD registration students are required to achieve a mark of 50% of higher in Paper 1 and marks of 60% or higher in Papers 2 and 3, and a mark of 65% or higher in Paper 4.

Students missing the overall progression requirement by one paper are permitted to progress to PhD registration, but will subsequently need to re-sit and pass the paper to the necessary standard to continue their PhD registration. Students missing the progression requirement by more than one paper are required to pass those papers to the necessary standard before PhD registration can be permitted.

Throughout the coursework portion of the MRes or MRes/PhD programme, students failing a paper or missing a progression mark will have to retake that paper within one year of the original examination. Students can retake each paper only once. Students registered for the PhD remain subject to the relevant MRes regulations for any courses or examinations they are completing. Students who have been permitted to progress onto the PhD without satisfying the complete progression standard will have their PhD registration discontinued if they fail to reach this standard at re-sit.

Award of the PhD in Finance
Award of the PhD is contingent on meeting the progression requirements for the PhD, passing FM505 with a mark of 65% or higher, and on the completion and defence of an original research thesis, in accordance with LSE regulations.

MRes/PhD in International Development

Programme codes: TMRESDV (MRes)
RPDV2 (PhD)

Department: International Development

Year 1
Compulsory courses
1. DV501 Development History, Theory and Policy for Research Students (H)
2. Methodology course choice 1 to the value of one full unit (at the 400 and 500 level) (F)*
3. Methodology or Theory course choice 2 to the value of one full unit (at the 400 and 500 level) (F)*
4. Methodology or Theory course choice 3 to the value of one half
unit (at the 400 or 500 level) (H)*
5. DV510 Research Design and Proposal in International Development (F)
6. DV500 Research Seminar in Development Studies (non-examined)

Notes
* Course choices must be approved by the supervisor and Doctoral Programme Director.

Optional Courses
7. EC400 Introductory Course in Mathematics and Statistics (September pre-sessional course as a pre-requisite for 400 and 500 level EC courses for students planning to make use of advanced quantitative methods in their PhD research).

Award of the MRes in International Development
The MRes in International Development will be awarded if all the exams are passed.
A ‘Distinction’ grade will be awarded for the MRes if an aggregate of 270 marks (over 4 full units) is achieved with no fails.
A ‘Merit’ grade will be awarded for the MRes if an aggregate of 250 marks (over 4 full units) is achieved with no fails.
A ‘Pass’ grade will be awarded for the MRes if an aggregate of 200 marks (over 4 full units) is achieved with no fails.

Upgrade to PhD
Upgrade to PhD is dependent upon:
1. Pass of the MRes with an average of 65 in the coursework (except as noted above).
2. Pass of the Research Proposal with a mark equal or greater than 65.
The Research Proposal Committee will offer constructive advice and make one of four decisions:
• Unconditional approval
• Conditional approval
• Revise and resubmit
• Fail
Students who are required to Revise and Resubmit are usually expected to resubmit the proposal within three months. These students will progress to a temporary MPhil status, with the approval of the Chair of the Research Degrees Subcommittee, while they are revising their research proposal. Students who are successful will be upgraded to PhD. The progress of each student will be reviewed at the end of each subsequent year.

MRes/PhD in Political Science
Programme codes: TMRESPOLSC (MRes)
RRPOLSCI (PhD)

Department: Government
Students complete and are examined in courses to the value of four full units.

Paper Course number and title
1 Research Design
   GV5X1 Research Design in Political Science
2 Methods courses
   Students take courses under A, B or C to the value of one unit:
   A) Quantitative research topics
   MY552M or MY552L Applied Regression Analysis (H)
   MY557 Causal Inference for Observational and Experimental Studies (H) or
   GV4G1 Applied Quantitative Methods for Political Science (H)
   GV4J6 Game Theory for Research (H)
   B) Qualitative research topics
   GV513 Qualitative Methods in the Study of Politics (H)
   MY551M or MY551L Introduction to Quantitative Analysis (H)
   C) Political theory research topics
   GV4G3 Foundations of Political Theory (MRes) (withdrawn 16/17)
   GV5P4 Research Methods in Political Theory
   If these courses have already been taken, other methods courses may be substituted with the approval of the Doctoral Programme Director.

Field seminars
Courses to the value of 1 unit from the following:
   GV517 Comparative Political Economy: New Approaches and Issues in CPE (H)
   GV5X2 Research Paper in Comparative Politics (half or full unit)
   GV5X3 Research Paper European Politics and Policy (half or full unit)
   GV5X4 Research Paper in Global Politics (half or full unit)
   GV5X5 Research Paper Political Science and Political Economy (half or full unit)
   GV5X6 Research Paper Political Theory (half or full unit)
   GV5X7 Research Paper Public Policy and Administration (half or full unit)
Any course from 2, above, not already taken, or any research methods course taught anywhere in the School, with the approval of the Course Convener and the Doctoral Programme Director.

3 Research Prospectus
GV599 Research Prospectus in Political Science
Second, third, fourth and fifth year
A) Research and write a dissertation
B) Participate in at least one Doctoral Workshop in the Government Department or elsewhere in the School in each year. e.g. GV501 Doctoral Workshop: Political Theory; GV503 Political Philosophy Research Seminar, GV510 Ethnicity and Nationalism Research Workshop (n/a 16/17), GV514 Political Science and Political Economy Doctoral Workshop, GV515 Researching People, Politics and Organisations (n/a 16/17), GV555 Political Economy and Public Policy Workshop.
C) Second year students have the option of taking EC540 Political Economy. Permission to attend is at the discretion of the course convener.

Award of the MRes
The award and classification of the MRes is consistent with the School’s Scheme for the Award of a four-unit Taught Master’s Degree

Conditions for progression to PhD
1. Award of the MRes with at least a Merit
2. Award of GV599 with at least a Merit

Award of the PhD
The PhD is awarded according the rules of the LSE.

MRes/PhD in Quantitative Economic History
Programme codes: TMRESQEH (MRes)
RQPQEH (PhD)

Department: Economic History

MRes
Students complete and are examined in courses to the value of four full units. Students are also required to attend EC400 Introductory Course in Mathematics and Statistics.

Paper Course number and title
1 Courses to the value of one full unit from the following:
   EH404 India and the World Economy (H)
   EH408 International Migration, 1500-2000: from slavery to asylum (H) (n/a 16/17)
   EH413 African Economic Development in Historical

2. EH course(s) to the value of one full unit from Paper 1 above
3. EC411 Microeconomics or EC413 Macroeconomics*
4. EH473 Research Paper in Quantitative Economic History
5. EH474 Research Prospectus**

* If not already taken under Paper 3 of the MSc Quantitative Economic History.
** Not examined but subject to departmental approval.

### Award of the MRes Quantitative Economic History

The award and classification of the MSc degree is consistent with the School’s scheme for the award of a four-unit Taught Master’s Degree. Student are required to achieve a pass mark of 50% in Papers 1, 2, 3 and 4 and submit paper 5 (EH474 Research Prospectus, not examined half unit). Where a candidate receives a Fail mark in any course, the penalty rules are set out in [lse.ac.uk/intranet/LSEServices/TQARO/Calendar/SchemeTaughtMasters.pdf](https://lse.ac.uk/intranet/LSEServices/TQARO/Calendar/SchemeTaughtMasters.pdf) (see paragraph 3.2) apply. A Bad Fail (39% or lower) in any course of any unit value will result in an overall Fail for the degree.

### Progression from the MRes Quantitative Economic History to the PhD

To progress from the MRes to the PhD programme, students need to achieve at least a Merit overall in the MRes and at least 65% in the (full unit) Research Paper in Quantitative Economic History (EH473). In addition, their Research Prospectus (EH474) needs to be approved by the departmental Prospectus Review Committee following a viva. If a student fulfils all other progression requirements but his/her Research Prospectus does not meet the expectations set out in the EH474 course description, the Prospectus Review Committee will grant an extension of up to three months to submit a revised version. If this revised version fails the required standards, the candidate will not be admitted to the PhD programme.

MPhil/PhD in Accounting

Programme code: RPAC
Department: Accounting

For students entering in or after the academic year 2015/16.

The Department of Accounting offers an MPhil/PhD Accounting programme with two tracks. The aim is to ensure the highest quality in the development of research students, in their research skills and to support their progression to the completion and defence of high quality theses in their respective specialties.

Track 1 is devoted to the study of interrelationships between accounting, organisations and institutions. Research in this track examines how accounting practices are much more than a collection of routine techniques, but are shaped by their institutional contexts, have behavioural consequences and can represent different values. Efforts to design internal and external accounting practices are both a function of specific economic and political interests, but are also shaped by social and political aspirations. Research in this track includes a wide variety of accounting topics examined through this lens using primarily qualitative methods, such as studies in management accounting, analyses of accounting systems in the private and public sector, transformations of auditing and risk regulation regimes, historical studies of accounting, as well as broader contributions to social theory.

Track 2 primarily examines accounting and financial reporting issues from an economics perspective. Research in this track covers a wide range of accounting topics including design and choices between alternative accounting methods, the use of accounting numbers for internal reporting, performance measurement, incentive systems, and in economic decision making, assessment of financial reporting quality, the economic consequences of financial reporting and performance measurement, and the interactions between financial reporting, legal and economic institutions, and corporate governance. While much research in these areas takes the form of empirical archival analysis, theoretical analysis and field research can also be relevant in some cases. When making an application, MPhil/PhD students in Accounting will choose to follow either Track 1 or Track 2 as detailed below.

Track 1
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.
(H) = half-unit course

Year 1
Training courses
Compulsory (not examined):
AC500 Accounting, Organisations and Society

Compulsory (examined):
AC502 Foundations in Accounting, Organisations and Institutions (H)
Methodology Training: At least one examined methodology course to the value of one half unit including courses offered by the Department of Methodology, either in their first and/or second year of the programme.
Courses to the value of 1.5 course units from the following normally to be taken in the first year (one course may need to be taken in Year 2):

- AC411 Accounting, Strategy and Control (H)
- AC412 Accountability, Organisations and Risk Management (H)
- AC415 Management Accounting for Decision Making (H)
- AC420 Financial Reporting in Capital Markets (withdrawn 16/17)
- AC444 Valuation and Security Analysis (H)
- AC470 Accounting in the Global Economy (H)
- AN473 Anthropological Approaches to Value (H)
- EH429 History of Economics: Ideas, Policy and Performativity (H)
- EH463 The Long-Run Analysis of Firms and Industries (H)
- EH487 International Economic Institutions since World War I (H) (withdrawn 16/17)
- GV478 Political Science and Public Policy
- GV481 Political Science and Political Economy (H)
- GV488 Law and Politics of Regulation
- GV484 Public Budgeting and Financial Management
- GV420 Environmental Regulation: Implementing Policy
- GV423 Environment and Development
- GV455 Economic Appraisal and Valuation (H)
- LL440 Corporate Accountability: Topics in Legal and Accounting Regulation
- LL4AH Comparative Accountability: Topics in Legal and Accounting Regulation
- LL4BX Corporate Governance (H)
- SO425 Risk, Regulation and Economic Life
- SO430 Economic Sociology (H) (n/a 16/17)

Any other graduate-level course available in the School with permission from the PhD Programme Director.

Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs)
Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):

Other research workshops and seminars held across the Department

Relevant seminars in related areas elsewhere in the School

Appropriate international workshops and colloquia

Year 2
Training courses
Compulsory (not examined):
AC500 Accounting, Organisations and Society

Compulsory (examined):
Students who have completed less than 2.5 examined graduate-level course units in Year 1 will take additional courses, so that at the end of Year 2 all students have completed at least 2.5 examined graduate-level course units.

Optional:
As needed students may take course(s) or research training session(s) offered by the Department of Methodology. Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs)
Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
Other research workshops and seminars held across the Department
Relevant seminars in related areas offered elsewhere in the School
Appropriate international workshops and colloquia

Year 3
Training courses
Compulsory (not examined):
AC500 Accounting, Organisations and Society
Optional:
As needed students may take course(s) or research training session(s) offered by the Department of Methodology.
Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs)
Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
Other research workshops and seminars held across the Department Relevant seminars in related areas offered elsewhere in the School Appropriate international workshops and colloquia

Year 4
Training courses
Compulsory (not examined):
AC500 Accounting, Organisations and Society

Optional:
As needed students may take course(s) or research training session(s) offered by the Department of Methodology.
Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs)
Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
Other research workshops and seminars held across the Department Relevant seminars in related areas offered elsewhere in the School Appropriate international workshops and colloquia

Track 2
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.
(H) = half-unit course

Year 1
Training courses
Compulsory pre-sessional course (examined):
EC400 Introductory Course in Mathematics and Statistics
Note: This is a pre-sessional course starting in September. All students are normally required to attend EC400, the September Introductory Course in Mathematics and Statistics, before commencing the Track 2 MPhil/PhD Programme in Accounting.

Compulsory (not examined):

Compulsory (examined):
Courses to the value of 1.5 course units, normally taken from the following list in the first year of study (exceptionally one course may need to be taken in the second year of study):
AC411 Accounting, Strategy and Control (H)
AC415 Management Accounting for Decision Making (H)
AC420 Financial Reporting in Capital Markets (withdrawn 16/17)
AC444 Valuation and Security Analysis (H)
EC402 Econometrics
EC476 Contracts and Organisations
EC485 Further Topics in Econometrics
FM421 Applied Corporate Finance (H)
FM436 Financial Economics
FM437 Financial Econometrics
FM481 Financial Econometrics for Research Students
FM502 Corporate Finance for Research Students
FM503 Asset Pricing for Research Students
LL440 Corporate Accountability: Topics in Legal and Accounting

Optional:
Any other graduate-level course available in the School with permission from the PhD Programme Director.

Transferable skills courses
Compulsory (not examined):
Department of Accounting Research Forums (ARFs)
Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
AC500 Accounting, Organisations and Society
Other research workshops and seminars held across the Department Relevant seminars in related areas offered elsewhere in the School Appropriate international workshops and colloquia

Year 2
Training courses
Compulsory (examined):

Compulsory (examined):
Students who have completed less than 1.5 examined graduate-level course units in Year 1 will take additional courses, so that at the end of Year 2 all students have completed at least 2.5 examined graduate-level course units.

Optional:
As needed students may take course(s) or research training session(s) offered by the Department of Methodology.
Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs)
Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
Other research workshops and seminars held across the Department Relevant seminars in related areas offered elsewhere in the School Appropriate international workshops and colloquia

Year 3
Training courses
Compulsory (not examined):

Optional:
As needed students may take course(s) or research training session(s) offered by the Department of Methodology.
Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs)
Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
Other research workshops and seminars held across the Department Relevant seminars in related areas offered elsewhere in the School Appropriate international workshops and colloquia

Year 4
Training courses
Compulsory (not examined):

Optional:
As needed students may take course(s) or research training session(s) offered by the Department of Methodology.
Progression and upgrade requirements for Tracks 1 and 2:

Progression requirements:
The departmental MPhil/PhD Assessment Review Committee will reach a decision on progression for each student at the end of Years One, Two and Three, and progression from the pre-sessional course (for students on Track 2). All MPhil/PhD Accounting students are normally required to achieve a mark of at least 65% in each of the 2.5 examined graduate-level course units required for progression on both tracks of the programme. The Committee may, in exceptional circumstances, condone a marginal fail if a student has demonstrated strength in other examined courses. Students failing an examined course can, at the discretion of the Committee, and taking into account overall performance, re-sit that course on one occasion only. The Committee may also decide to substitute an alternative assessment to redress any mark deficiencies and has the discretion to set additional requirements for progression where appropriate.

Students are required to make a seminar presentation in each year of their programme. These are formatively assessed. Performance at the seminar presentations will be taken into account by the MPhil/PhD Assessment Review Committee when reaching decisions on progression.

Upgrade:
Students will initially be registered for the MPhil. Upgrade to PhD registration will normally happen at the end of Year Two. In order to progress to PhD registration, students must normally have met the progression requirements above (a mark of at least 65% in each of the required 2.5 examined graduate-level course units), and have made satisfactory progress in their research, which normally is understood to mean a solid draft of one complete chapter, plus a detailed outline for the rest of the dissertation with abstracts for each proposed chapter. Materials submitted for upgrade must include a clear framework for the research and a timetable for completion. Students will be provided with an opportunity to defend their submitted written materials orally. The departmental MPhil/PhD Assessment Review Committee will review the progress of each research student, and recommendations for upgrading to PhD will be made on a case-by-case basis.

Award of the PhD in Accounting:
Award of the PhD is contingent on the completion and defence of an original research thesis, in accordance with LSE regulations.

Teaching Experience:
Students in Tracks 1 and 2 are required to gain teaching experience with appropriate training in years two and three, and they are encouraged to take presentation skills and other training offered by the Teaching and Learning Centre.

MPhil/PhD in Accounting
Programme code: RPAC
Department: Accounting
For students entering in or before the academic year 2014/15.
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs)
Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
Other research workshops and seminars held across the Department Relevant seminars in related areas offered elsewhere in the School
Appropriate international workshops and colloquia

Year 1
Training courses Compulsory (not examined):
AC500 Accounting, Organisations and Society

Compulsory (examined):
AC502 Foundations in Accounting, Organisations and Institutions
(H)
Two of the following (to the value of 1.5 course units) normally to be taken in the first year (one course may need to be taken in Year 2):
AC411 Accounting, Strategy and Control (H)
AC412 Accountability, Organisations and Risk Management (H)
AC415 Management Accounting for Decision Making (H)
AC420 Financial Reporting in Capital Markets (withdrawn 16/17)
AC444 Valuation and Security Analysis (H)
AC470 Accounting in the Global Economy (H)
AN473 Anthropological Approaches to Value (H)
EH429 History of Economics: Ideas, Policy and Performativity (H)
EH463 The Long-Run Analysis of Firms and Industries (H)
EH487 International Economic Institutions since World War I (H)
(withdrawn 16/17)
GV478 Political Science and Public Policy
GV481 Political Science and Political Economy (H)
GV488 Law and Politics of Regulation
GV4E4 Public Budgeting and Financial Management
GY420 Environmental Regulation: Implementing Policy
GY423 Environment and Development
GY455 Economic Appraisal and Valuation (H)
LL440 Corporate Accountability: Topics in Legal and Accounting Regulation
LL4AH Comparative Company Law (H)
LL4BX Corporate Governance (H)
SO425 Risk, Regulation and Economic Life
SO430 Economic Sociology (H) (n/a 16/17)

Any other graduate-level course available in the School with permission from the PhD Programme Director.

Optional (examined):
At least one methodology course, including courses offered by the Methodology Institute, either in their first and/or second year of the programme.

Transferable skills courses

Compulsory (not examined):

Optional (not examined):
Relevant seminars in related areas elsewhere in the School
Appropriate international workshops and colloquia

Year 2
Training courses

Compulsory (not examined):
AC500 Accounting, Organisations and Society

Compulsory (examined):
Students who have completed less than 2 graduate-level course units in year one will take additional courses.

Optional (examined):
As needed students may take course(s) or research training session(s) offered by the Methodology Institute.
Transferable skills courses

Compulsory (not examined):
Department of Accounting research seminars

Optional (not examined):
Relevant seminars in related areas offered elsewhere in the School
Appropriate international workshops and colloquia
Year 3
Training courses
Compulsory (not examined):
AC500  Accounting, Organisations and Society

Optional (examined):
As needed, students may take course(s) or research training session(s) offered by the Methodology Institute. Transferable skills courses

Compulsory (not examined):
Department of Accounting research seminars

Optional (not examined):
Relevant seminars in related areas offered elsewhere in the School Appropriate international workshops and colloquia

Year 4
Training courses
Compulsory (not examined):
AC500  Accounting, Organisations and Society

Optional (examined):
As needed, students may take course(s) or research training session(s) offered by the Methodology Institute. Transferable skills courses

Compulsory (not examined):
Department of Accounting research seminars

Optional (not examined):
Relevant seminars in related areas offered elsewhere in the School Appropriate international workshops and colloquia

Progression and upgrade requirements:
To proceed from Year One to Year Two, students must pass all course examinations normally with high Merit or Distinction marks. Examinations: All MPhil/PhD Accounting students are required to achieve a pass mark of at least 65% in their examined courses. The examiners may, in exceptional circumstances, condone a lower pass mark if there is strength elsewhere. Students failing a paper can, at the discretion of the departmental Postgraduate Assessment Review Committee, and taking into account overall performance, re-sit that paper on one occasion only. The departmental Postgraduate Assessment Review Committee may also decide to substitute a make-up assignment, such as a 5,000-word essay, to redress any mark deficiencies.

Seminar presentations:
Students are required to make a seminar presentation in each year of their programme.

Upgrade:
Students will initially be registered for the MPhil. In order to progress to PhD registration, students must have achieved a pass mark of at least 65% in their taught course exams, and have made satisfactory progress in their research, which normally is understood to mean a solid draft of one complete chapter, plus a detailed outline for the rest of the dissertation with abstracts for each proposed chapter. The departmental Postgraduate Review and Assessment Committee will review the progress of each research student, and make recommendations for upgrading to PhD on a case-by-case basis.

Teaching Experience:
Students are offered the opportunity to gain teaching experience with appropriate training, and are encouraged to take presentation skills and other training offered by the Teaching and Learning Centre.

MPhil/PhD in Anthropology
Programme codes: RPAN (MPhil/PhD) RPAN2 (PhD)
Department: Anthropology
(Year 3-4: Post-fieldwork
Training courses
Compulsory (not-examined):
AN500  Seminar on Anthropological Research

Optional (examined):
AN501  Field Research Seminar (withdrawn 16/17)
AN449  Ethnography in relation to other Research Methods (H) (withdrawn 16/17)
AN455  Statistics and Causal Analysis for Social Anthropologists (H) (withdrawn 16/17)

Students with a strong background in statistics can take MY552 instead of AN455 (withdrawn 16/17).

In addition, students are required to attend and produce coursework for one or two of the department's main courses (to the value of one unit): AN402  The Anthropology of Religion, AN405  The Anthropology of Kinship, Sex and Gender, AN437  Anthropology of Learning and Cognition (n/a 16/17) and LL4E8  Law in Society: A Joint Course in Law and Anthropology AN451  Anthropology of Politics (H), AN456  Anthropology of Economy (1): Production and Exchange (H), AN457  Anthropology of Economy (2): Transformation and Globalisation (H)

Years 2-3:
Fieldwork
Fieldwork normally lasts approximately fifteen to eighteen months. Years 3-4: Post-fieldwork

Training courses
Compulsory (not examined):
After fieldwork students begin writing their PhD dissertations under the close supervision of members of staff. During this period of their studies, they attend: AN500  Seminar on Anthropological Research, AN503  Thesis Writing Seminar, and AN507  Theoretical Issues in Anthropology: Precepts and Practice II.

Presentation requirements:
In the year following their return from the field, students are required to present a chapter to the rest of their cohort in the Thesis Writing Seminar (AN503). In the final year, students are normally expected to present a paper in the Departmental Seminar on Anthropological Research (AN500).

Progression and upgrade requirements:
In the first year of the programme, AN449 and AN455 will be examined in the Summer Term. Together these count for 25% of the total mark of the year. Students who obtain a fail (but not a bad fail) in either of these courses, but who achieve a pass when both marks are combined are allowed to progress without retaking the failed exam. Essays for the additional course are submitted at the end of Lent Term. If a mark of 60% is not achieved essays must be resubmitted within four weeks. The research proposal, worth 75% of the total mark for the year, will be examined, and must be passed before a student is upgraded to the PhD and allowed to begin fieldwork.
**MPhil/PhD in Demography/Population Studies**

*Programme code:* RDEPS  
*Department:* Social Policy

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

**Year 1**

**Training courses**

**Optional (not examined):**

If not already taken previously:

- SA451 Social Policy Research
- MY400 Fundamentals of Social Science Research Design (H)
- MY421M or MY421L Qualitative Research Methods (H)
- MY451M or MY451L Introduction to Quantitative Analysis (H)

Students will discuss with their supervisors any other methodological training that may be relevant for the successful completion of the MPhil/PhD programme.

**Transferable skills courses**

**Compulsory (not examined):**

- SA550 Research Student Seminar

**Optional (not examined):**

- Relevant courses provided by the Library, Teaching and Learning Centre and Methodology Institute

**Year 2**

**Training courses**

**Optional (not examined):**

- MY452M or MY452L Applied Regression Analysis (H)
- MY455 Multivariate Analysis and Measurement (H)

**Transferable skills courses**

**Optional (not examined):**

- SA550 Research Student Seminar

**Year 3**

**Transferable skills courses**

**Optional (not examined):**

- SA550 Research Student Seminar

**Year 4**

**Transferable skills courses**

**Optional (not examined):**

- SA550 Research Student Seminar

Each student is required to undertake Major Review in the summer term of their first year (second year for part-time students). For Major Review they must submit a 10,000 word document with a detailed thesis proposal, their research question, a literature review, a description of their methodology, their plans for data collection and a timetable through to completion. They are interviewed on this document by senior staff who make the decision on upgrading. Each year post-Major Review, every student is expected to submit a 1,000 to 2,000 word progress report, approved by supervisors, to the Research Students’ Programme Director. Each pre-Major Review student is expected to make a presentation on their proposed research to the SA550 seminar prior to the submission of their major review document and to address issues raised by the Research Students’ Programme Director(s).

---

**MPhil/PhD in Development Studies**

*Programme code:* RPDV  
*Department:* International Development

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

**Year 1**

**Training courses Compulsory (examined)**

All students will be required to take either a full or two half unit courses in research methods in the School's Methodology Institute. The precise courses taken will be decided in consultation with the student’s primary supervisor.

**Compulsory (not examined)**

- DV500 Research Seminar in Development Studies
  
  Students who have not received their MSc Development Studies from the LSE will be required to attend the lecture for the core course DV400 Development: History, Theory and Policy. All first year students are required to attend a special seminar for research students.

**Optional (not examined)**

Further appropriate graduate level courses in the Department of International Development and agreed with supervisor.

**Optional (not examined)**

MPhil/PhD students will find it advantageous to attend the weekly Visiting Lecture Series in Development Studies in Michaelmas Term.

**By Year 4**

Students are expected to have completed their research.

**Progression and Upgrade requirements**

Students will be required to achieve a minimum mark of 65% in the Methodology courses. Failure to do so may mean that you are unable to progress onto the PhD programme and will remain at MPhil until you have either completed a further methodology course or achieved an improved grade.

All students will be interviewed during the Michaelmas Term of their second year by the Graduate Review Committee. Continued registration for a second year will be conditional on the work presented being of a satisfactory standard and if satisfactory, will be upgraded from MPhil to PhD. By the end of Summer Term of the second year students should have finished all fieldwork (where applicable). By the end of the third year students should be able to complete their dissertation.

---

**MPhil/PhD in Economic Geography**

*Programme code:* RPECGY  
*Department:* Geography & Environment

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

**Route 1**

Students who have completed MSc Local Economic Development or MSc Real Estate Economics and Finance will enter in Year 1 and take the course specified below:

**Year 1**

**Training courses**

**Compulsory (not examined)**

- GY502 Staff/Research Students Seminars

**Compulsory (examined)**

1. Courses to the value of one unit from the following (the
course(s) must be different to those taken on the MSc):

**GY404** Topics in Local Economic Development (H)
**GY407** Globalisation, Regional Development and Policy
**GY408** Local Economic Development and Policy
**GY447** The Economics of Regional and Urban Planning (H)
**GY457** Applied Urban and Regional Economics
**EC411** Microeconomics (requires students to take pre-sessional course EC400)

2. One relevant advanced research methods course to the value of one unit:

**GY428** Applied Quantitative Methods (H)
**GY460** Techniques of Spatial Economic Analysis (H)
**MY500** Fundamentals of Social Science Research Design (H)
**MY521** Qualitative Research Methods (H)
**MY526** Doing Ethnography (H)
**MY527** Non-Traditional Data: New Dimensions in Qualitative Research (H) (n/a 16/17)
**MY556** Survey Methodology (H)
**MY557** Causal Inference for Observational and Experimental Studies (H)
**MY559** Special Topics in Quantitative Analysis: Quantitative Text Analysis (H) (n/a 16/17)

Students who have completed MSc Local Economic Development or MSc Real Estate Economics and Finance will be required to take a different course(s) from those taken on the degree.

**Transferable skills courses**

**Compulsory (not examined)**

**GY500** Research Project Seminar

**Optional (not examined)**

**MY592** Workshop in Information Literacy: finding, managing and organising published research and data

**Year 2**

**Training courses**

**Compulsory (not examined)**

**GY502** Staff/Research Students Seminars

**Transferable skills courses**

**Compulsory (not examined)**

**GY500** Research Project Seminar

**Year 3**

**Training courses**

**Compulsory (not examined)**

**GY502** Staff/Research Students Seminars

**Transferable skills courses**

**Compulsory (not examined)**

**GY500** Research Project Seminar

**Year 4**

**Training courses**

**Optional (not examined)**

**GY502** Staff/Research Students Seminars

**Transferable skills courses**

**Optional (not examined)**

**GY500** Research Project Seminar

**Route 2**

Students without MSc Local Economic Development or MSc Real Estate Economics and Finance will take the following specified courses:

**Year 1**

**Training courses**

**Compulsory (not examined)**

**GY502** Staff/Research Students Seminars

**Compulsory (examined)**

1. Either **GY457** Applied Urban and Regional Economics, or **GY407** Globalisation, Regional Development and Policy, or **GY408** Local Economic Development and Policy.

2. One relevant advanced research methods course to the value of one unit:

**GY428** Applied Quantitative Methods (H)
**GY460** Techniques of Spatial Economic Analysis (H)
**MY500** Fundamentals of Social Science Research Design
**MY521** Qualitative Research Methods (H)
**MY526** Doing Ethnography (H)
**MY527** Non-Traditional Data: New Dimensions in Qualitative Research (H) (n/a 16/17)
**MY556** Survey Methodology (H)
**MY557** Causal Inference for Observational and Experimental Studies (H)
**MY559** Special Topics in Quantitative Analysis: Quantitative Text Analysis (H)

**Transferable skills courses**

**Compulsory (not examined)**

**GY500** Research Project Seminar

**Optional (not examined)**

**MY592** Workshop in Information Literacy: finding, managing and organising published research and data

**Year 2**

**Training courses**

**Compulsory (not examined)**

**GY502** Staff/Research Students Seminars

**Transferable skills courses**

**Compulsory (not examined)**

**GY500** Research Project Seminar

**Year 3**

**Training courses**

**Compulsory (not examined)**

**GY502** Staff/Research Students Seminars

**Transferable skills courses**

**Optional (not examined)**

**GY500** Research Project Seminar

**Year 4**

**Training courses**

**Optional (not examined)**

**GY502** Staff/Research Students Seminars

**Transferable skills courses**

**Optional (not examined)**

**GY500** Research Project Seminar

**Progression and Upgrade requirements for both routes**

Progression and upgrade requirements:

Students in the MPhil/PhD programme will go through a First Year Progress Review taking place in the Summer Term of their first research year. This is Year 1 for students in the +3 programme and Year 2 for students in the 1+3 programme. For the First Year Progress Review, the student submits a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and motivation for the research; aims and objectives/research questions; contribution to knowledge; summary of methods to be used; and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year. Normally, there will be a progress review meeting between the student and the supervisors (main supervisor and review supervisor) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress. There is provision for a second Supplementary Review in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year (third year of the 1+3 programme). Progression to the second year (third year of the 1+3 programme) is also dependent on students having
passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops.

All research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. This is Year 2 for students in the +3 programme and Year 3 for students in the 1+3 route. The exact timing depends on the student's progress. Students are required to submit a formal written upgrade report consisting of an extensive revised research proposal, two substantive draft papers/chapters, of which one can be a literature review, and a detailed plan for completion. Students are asked to discuss their research paper/thesis outline during an Upgrade Meeting in front of an Upgrading Committee normally formed by main supervisor, review supervisor and a third member of staff with relevant expertise. The material is evaluated by the Upgrading Committee, who will recommend transferal to PhD registration if the work is judged to be of sufficient quality and quantity. The upgrade is also dependent on students having completed all required training courses and having made a satisfactory research presentation in their doctoral presentation workshop.

In addition to these formal arrangements, each year during the Summer Term and throughout the course of their studies, all PhD students and their supervisors have to complete a yearly Progress Report Form, detailing progress made, problems arising and plan/timeline for completion. The forms are sent to the relevant Doctoral Programme Director for approval before students are able to re-register for the following session. If perceived lack of progress is identified, it can trigger a more formal annual review of progress in which the student is asked to produce specific written documents to be evaluated by a review panel.

### MPhil/PhD in Economic History

**Programme code:** RPEH  
**Department:** Economic History

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

#### Year 1

**Training courses**  
**Compulsory (examined)**
- EH520 Approaches to Economic and Social History EH401 and EH402 (unless already taken as part of the Master's degree, and, where appropriate, a pre-sessional statistics course)

**Optional (not examined)**

Supervisors may require students in their first or subsequent years of study to take other relevant economic history courses, methodological courses provided by the Methodology Institute or the Institute of Historical Research or skills training courses as required for their thesis topic.

**Transferable skills courses**

**Compulsory (not examined)**
- EH590 Thesis Workshop in Economic History

#### Year 2

**Training courses**  
**Compulsory (not examined)**
- EH590 Thesis Workshop in Economic History

#### Year 3

**Training courses**  
**Compulsory (not examined)**
- EH590 Thesis Workshop in Economic History

#### Year 4

**Training courses**

### Compulsory (not examined)
- EH590 Thesis Workshop in Economic History

### Progression and upgrade requirements

By the start of the Summer Term students are required to submit at least one draft thesis chapter and a 3-5 page thesis outline to the department's Graduate Review Committee. Students taking one or more MSc examination may, with the support of their supervisor, apply to defer their submission of work to no later than the start of the 7th week of the Summer Term. The Committee will interview all students during the Summer Term, and re-registration for a second year will be conditional on the work presented being of a satisfactory standard. All students are expected to gain broad knowledge of the subject from graduate level course work in their first year and active participation in workshops, seminars and conferences to complement the expertise gained from intense thesis research.

By the Summer Term of the second year the Graduate Review Committee will normally expect to see about half the thesis in draft. The Committee will interview students, and if the submitted work is of an acceptable standard, students will be upgraded from MPhil to PhD. Students may defer the upgrade decision until their third year for fieldwork or other reasons, but only with the support of their supervisor.

### MPhil/PhD in Environmental Economics

**Programme code:** RPENEC  
**Department:** Geography & Environment

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

#### Route 1

Students with MSc Environmental Economics and Climate Change will enter Year 1 and take the specified courses below:

**Year 1**

**Training courses**  
**Compulsory (not examined)**
- GYS02 Staff/Research Students Seminars

**Compulsory (examined)**
- 1. EC411 Microeconomics (Note that students must take the pre-sessional course EC400).
- 2. Relevant advanced research methods course(s) to the value of one unit from the following:
  - EC402 Econometrics
  - MY555 Multivariate Analysis and Measurement (H)
  - MY556 Survey Methodology (H)
  - MY557 Causal Inference for Observational and Experimental Studies (H)
  - MY559 Special Topics in Quantitative Analysis: Quantitative Text Analysis (H) (n/a 16/17)
  - GYS26 Advanced Methods in Environmental and Resource Economics: Time, Risk and Environmental Policy (H)

**Transferable skills courses**  
**Compulsory (not examined)**
- GYS00 Research Project Seminar
- MY592 Workshop in Information Literacy: finding, managing and organising published research and data

**Year 2**

**Training courses**

**Compulsory (not examined)**
- GYS02 Staff/Research Students Seminars
### Year 1

**Training courses**

**Compulsory (not examined)**

### Progression and Upgrade requirements for Routes 1 and 2

Once students are in the MPhil/PhD part of the programme, they will go through a First Year Progress Review taking place in the Summer Term of their first research year. This is Year 1 for students in the +3 programme and Year 2 for students in the 1+3 programme. For the First Year Progress Review, the student submits a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and motivation for the research; aims and objectives/research questions; contribution to knowledge; summary of methods to be used; and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year. Normally, there will be a progress review meeting between the student and the supervisors (main supervisor and review supervisor) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress. There is provision for a second Supplementary Review in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year (third year of the 1+3 programme). Importantly, progression is also dependent on students having passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops.

All research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. This is Year 2 for students in the +3 programme and Year 3 for students in the 1+3 route. The exact timing depends on the student’s progress. Students are required to submit a formal written upgrade report consisting of an extensive revised research proposal, two substantive draft papers/chapters, of which one can be a literature review, and a detailed plan for completion. The material is evaluated by an upgrading committee that will recommend transferral to PhD registration if the work is judged to be of sufficient quality and quantity. The upgrading committee is normally formed by the student’s main supervisor, review supervisor and a third member of staff with relevant expertise. The upgrade is also dependent on students having completed all required training courses and having made a satisfactory research presentation in their doctoral presentation workshops.

In addition to these formal arrangements, each year during the Summer Term and throughout the course of their studies, all PhD students and their supervisors have to complete a yearly Progress Report Form, detailing progress made, problems arising and plan/timeline for completion. The forms are sent to the relevant Doctoral Programme Director for approval before students are able to re-register for the following session. If perceived lack of progress is identified, it can trigger a more formal annual review of progress in which the student is asked to produce specific written documents to be evaluated by a review panel.

### MPhil/PhD in Environmental Policy and Development

**Programme code:** RPENPD  
**Department:** Geography & Environment  
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.
Route 1
Students who have completed MSc Environmental Policy and Regulation or MSc Environment and Development will enter in Year One and take the courses specified below:

Year 1
Training courses
Compulsory (not examined)
GY502  Staff/Research Students Seminars

Compulsory (examined)
1. Courses to the value of one unit from the list of options on the relevant MSc degrees.
2. Relevant advanced research methods course(s) to the value of one unit from the following:
   MY500  Fundamentals of Social Science Research Design (H)
   MY521  Qualitative Research Methods (H)
   MY526  Doing Ethnography (H)
   MY527  Non-Traditional Data: New Dimensions in Qualitative Research (H) (n/a 16/17)
   MY529  Special Topics in Qualitative Research: Introspection-based Methods in Social Research (H) (n/a 16/17)

Transferable skills courses
Compulsory (not examined)
GY500  Research Project Seminar
MY592  Workshop in Information Literacy: finding, managing and organising published research and data

Year 2
Training courses
Compulsory (not examined)
GY502  Staff/Research Students Seminars

Transferable skills courses
Compulsory (not examined)
GY500  Research Project Seminar

Year 3
Training courses
Compulsory (not examined)
GY502  Staff/Research Students Seminars

Transferable skills courses
Compulsory (not examined)
GY500  Research Project Seminar

Year 4
Training Courses
Optional (not examined)
GY502  Staff/Research Students Seminars

Transferable skills courses
Optional (not examined)
GY500  Research Project Seminar

Route 2
Students without MSc Environmental Policy and Regulation or MSc Environment and Development will take the following specified courses:

Year 1
Training courses
Compulsory (not examined)
GY502  Staff/Research Students Seminars

Compulsory (examined)
1. GY420  Environmental Regulation: Implementing Policy, or GY423 Environment and Development.
2. Relevant advanced research methods course(s) to the value of one unit from the following:
   MY500  Fundamentals of Social Science Research Design
   MY521  Qualitative Research Methods (H)
   MY526  Doing Ethnography (H)
   MY527  Non-Traditional Data: New Dimensions in Qualitative Research (H) (n/a 16/17)
   MY529  Special Topics in Qualitative Research: Introspection-based Methods in Social Research (H)

Transferable skills courses
Compulsory (not examined)
GY500  Research Project Seminar
MY592  Workshop in Information Literacy: finding, managing and organising published research and data

Year 2
Training courses
Compulsory (not examined)
GY502  Staff/Research Students Seminars

Transferable skills courses
Compulsory (not examined)
GY500  Research Project Seminar

Year 3
Training courses
Compulsory (not examined)
GY502  Staff/Research Students Seminars

Transferable skills courses
Compulsory (not examined)
GY500  Research Project Seminar

Progression and Upgrade requirements for both routes
Once students in the MPhil/PhD part of the programme, they will go through a First Year Progress Review taking place in the Summer Term of their first research year. This is Year 1 for students in the +3 programme and Year Two for students in the 1+3 programme. For the First Year Progress Review, the student submits a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and justification for the research; aims and objectives/research questions; contribution to knowledge; summary of methods to be used; and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year. Normally, there will be a progress review meeting between the student and the supervisors (main supervisor and review supervisor) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress. There is provision for a second Supplementary Review in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year (third year of the 1+3 programme). Progression is also dependent on students having passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops.

All research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. This is Year 2 for students in the +3 programme and Year Three for students in the 1+3 route. The exact timing depends on the student’s progress. Students are required to submit a formal written upgrade report consisting of an extensive revised research proposal, two substantive
MPhil/PhD Programme Regulations

MG501  Employment Relations and Organisational Behaviour

Training courses

Year 1

Compulsory (not examined):
MG501  Employment Relations and Organisational Behaviour
Seminar

Optional (not examined/examined):
Students should discuss their training needs with their supervisor. A large number of seminars and courses are offered by the Methodology Institute and elsewhere in the school.

Year 2

Training courses

Compulsory (not examined):
MG501  Employment Relations and Organisational Behaviour
Seminar

Year 3

Training courses

Compulsory (not examined):
MG501  Employment Relations and Organisational Behaviour
Seminar

Year 4

Training courses

Compulsory (not examined):
MG501  Employment Relations and Organisational Behaviour
Seminar

Progression and upgrade requirements:
Students are expected to take an active part in the PhD seminar series, usually presenting their work at the seminar once each year. A formal review committee assesses the progress of all MPhil/PhD students on an annual basis. Students will initially be registered for the MPhil. It is the normal expectation that the decision to upgrade a full-time student from MPhil to PhD will be made either at the first formal review or by the end of the second year of registration, and for part-time students, respectively at the end of the second or third reviews. The materials submitted for the upgrade review may include examples of written work, such as a draft chapter or literature review, an abstract, and an outline. Supervisors will advise their students as to the content and nature of the material required for the upgrade review.

MPhil/PhD in European Studies

Programme code: RPEU

Department: European Institute

In addition to progressing with their research, students are expected to take the listed research training and transferable skills courses. Students may take courses in addition to those listed and should discuss this with their supervisor. For a complete list of courses please refer to the 2016/17 Handbook for Research Degree Students.

Year 1

Training courses

Compulsory (not examined):
EU550  Research Workshop in European Studies
EU554  Research Methods and Design in European Studies (n/a 16/17)

Optional (examined):
MY552M or MY552L Applied Regression Analysis (H)
Further training courses provided by the Department of Methodology and agreed with their supervisors.

Transferable skills courses

Optional (not examined):
EU455  Concepts in Political Economy (H)

Year 2

Training courses

Compulsory (not examined):
EU550  Research Workshop in European Studies
Students expected to take relevant course(s) in the Department of Methodology or in other departments as agreed with their supervisors.

Optional (not examined):
It is highly recommended that students with research interests in political economy attend and present their work in the interdepartmental research seminar EU555/GV555/IR555 Political Economy and Public Policy Workshop.

Transferable skills courses

Optional (not examined):
EU455  Concepts in Political Economy (H)

Year 3

Training courses

Compulsory (not examined):
EU550  Research Workshop in European Studies

Optional (not examined):
If not taken in Year 2:
EU555/GV555/IR555 Political Economy and Public Policy Workshop
Transferable skills courses

Optional (not examined):
EU455  Concepts in Political Economy (H)

Year 4

Transferable skills courses

Optional (not examined):
EU550  Research Workshop in European Studies

Upgrading to PhD/Targets for Progress

Year 1 - For a standard thesis: a research proposal (approximately 2,500 words) and abstract of the
whole thesis (one page); a sample chapter (approximately 8,000 words); a chapter synopsis, and a timetable for completion. For a thesis as a series of publishable papers: a research proposal (approximately 2,500 words) and an abstract covering the three prospective papers; a full draft of the introduction or a full draft of one of the papers (approximately 8,000 words), and a timetable for completion.

Year 2 - For a standard thesis: at least two further substantive chapters (of approximately 5,000-7,000 words each). For a thesis as a series of publishable papers: at least one fully written paper (approximately 10,000 words); and outlines of the other two papers (approximately 2,000 words).

Year 3 - For a standard thesis: a full draft of all core chapters and agreed timetable for completion.

For a thesis as a series of publishable papers: full drafts of all three papers and agreed timetable for completion of the thesis.

MPhil/PhD in Finance

Programme codes: RPFI (MPhil/PhD)
RPFI2 (PhD)

Department: Finance

For students entering in or after the academic year 2013/14 please refer to the MRes/PhD Finance programme regulations.

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Students will take either Route 1 or Route 2 (depending on their previous Masters qualification) as detailed below.

Route 1

Students from the MSc Accounting and Finance or MSc Management and Regulation of Risk programmes and those from other relevant programmes, either at LSE or elsewhere, will enter in Year 1 and take the courses specified below.

Year 1

Training courses

Compulsory (examined)

FM404 Forecasting Financial Time Series (H)
FM437 Financial Econometrics
FM502 Corporate Finance for Research Students
EC441 Microeconomics for MRes Students

Transferable skills courses

Compulsory (not examined)

Capital Markets Workshop
FM505 PhD Seminar in Finance

Optional (not examined)

Any relevant seminars in related areas
MY592 Workshop in Information Literacy: finding, managing and organising published research and data

Year 2

Training courses

Compulsory (examined)

FM503 Asset Pricing for Research Students

And one full unit equivalent optional course from:

EC442 Macroeconomics for MRes Students
EC443 Econometrics for MRes Students
EC518 Topics in Advanced Econometrics for Research Students
EC537 Microeconomic Theory for Research Students
EC539 Macroeconomic Theory for Research Students

Or any other course approved by the Programme Director

Transferable skills courses

Compulsory (not examined)

Capital Markets Workshop
FM505 PhD Seminar in Finance

Optional (not examined)

Other seminars closest to student’s field of study

Progression and upgrade requirements

All students are required to achieve a mark of at least 65% in their examined courses, with the exception of EC441 where the required mark is 50%. The examiners may decide under certain conditions to condone a lower mark if there is strength elsewhere. Students failing to satisfy a progression requirement in a paper can, at the examiner’s discretion, take into account overall performance, re-sit that paper on one occasion only.

Students are initially registered for an MPhil. In order to progress to PhD registration, students must have achieved a mark of at least 65% in the taught course exams, with the exception of EC441 where the required mark is 50%, and have made satisfactory progress in their research. Route 1 students will also be required to submit and defend a thesis proposal to a small Committee. The proposal builds on the 10,000 word essay completed for FM505 and should be submitted at the latest by the beginning of Summer Term of the second year of registration. The thesis proposal defence will be scheduled upon the satisfactory conclusion of all examined courses and completion of the FM505 paper and presentation.

Students are strongly encouraged to participate at an early stage in their research training in appropriate international workshops and colloquia. They are also offered the opportunity to gain teaching experience, with appropriate training, without detracting from their research time.

Route 2

Students who have taken the MSc Finance and Economics or MSc Finance and Economics (Research) programmes at LSE or equivalent from another institution may enter onto Route 2 of the programme (this will have been subject to the approval of the Programme Director).

Year 1

Training courses Compulsory (examined):

FM502 Corporate Finance for Research Students
FM503 Asset pricing for Research Students
FM505 PhD Seminar in Finance
EC441 Microeconomics for MRes Students

Students who have already taken EC441 as part of the MSc Finance and Economics should instead choose one full unit equivalent optional course from:

EC442 Macroeconomics for MRes Students
EC443 Econometrics for MRes Students
EC518 Topics in Advanced Econometrics for Research Students
EC537 Microeconomic Theory for Research Students
EC539 Macroeconomic Theory for Research Students

Or any other course approved by the Programme Director
MPhil/PhD in Gender

Programme code: RPGE
Department: Gender Institute

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1

Training courses

Compulsory (examined)
Aims and Methods (first year programme)

Compulsory (not examined)
GI424 Gender Theories in the Modern World: An Interdisciplinary Approach (H) (lectures only)
GI402 Gender, Knowledge and Research Practice (lectures, seminars and workshops)

Optional (not examined)
GI499 Dissertation Methodologies in Interdisciplinary Perspective

Year 2

Training courses

Optional (not examined):
Any other seminars closest to your field of study

Presentation requirements:
Students are required to do a seminar presentation in the second year.

Progression and upgrade requirements

All students are required to achieve a mark of at least 65% in their examined courses, with the exception of EC441 where the required mark is 50%. The examiners may decide under certain conditions to condone a lower mark if there is strength elsewhere. Students failing to satisfy a progression requirement in a paper can, at the examiner’s discretion, taking into account overall performance, re-sit that paper on one occasion only.

Students are initially registered for an MPhil. In order to progress to PhD registration, students must have achieved a mark of at least 65% in the taught course exams, with the exception of EC441 where the required mark is 50%, and have made satisfactory progress in their research. Route 2 students will also be required to submit a thesis proposal to a small Committee. The thesis proposal builds on the 10,000 word essay completed for FM505 and should be submitted at the latest by the beginning of Lent Term of the second year of registration. The thesis proposal defence will be scheduled upon the satisfactory conclusion of all examined courses and completion of the FM505 paper and presentation.

Students are strongly encouraged to participate at an early stage in their research training in appropriate international workshops and colloquia. They are also offered the opportunity to gain teaching experience, with appropriate training, without detracting from their research time.

Transferable skills courses

Compulsory (not examined):
Capital Markets Workshop
FM505 PhD Seminar in Finance

Optional (not examined):
Any other course from the Gender Institute menu as above.
Audit of relevant courses on other Masters programmes with agreement of the supervisor.

Year 3

Training courses

Optional (students should agree with their supervisor whether the courses taken will also be examined):
Quantitative and/or qualitative training courses provided in the Methodology Institute and/or Gender Institute, as agreed with supervisor

Audit of relevant courses on other Masters programmes with agreement of the supervisor.

Transferable skills courses

Compulsory (not examined):
GI500 Doctoral Workshop

Year 4

Training courses

Optional (examined/not examined):
Quantitative and/or qualitative training courses provided in the Methodology Institute, as agreed with supervisor

Audit of relevant courses on other Masters programmes with agreement of the supervisor.

Transferable skills courses

Compulsory (not examined):
GI500 Doctoral Workshop

Progression and upgrade requirements

In the first year students will go through their Aims and Methods examination. This is held in the summer term and materials should be submitted by the end of the second week of summer term. Students submit a draft chapter and a research proposal for consideration by a panel of their supervisor and advisor (and occasional one other person with appropriate expertise). The research proposal follows a specific template and includes research objectives, the methodology and short research rationale. The nature of the chapter should be agreed with the supervisor. Both parts of the assessment focus on the student’s own research and draw on material and debates engaged in GI424 and GI402 where relevant. Students must pass Aims and Methods before progressing...
to their second year. If unsuccessful at first sit, students have the opportunity to retake Aims and Methods once more at the end of September.

Research students make the transition from MPhil to PhD (Upgrading) by the end of the MT of their second year. In order to upgrade, students must have passed their Aims and Methods. For Upgrade students submit a detailed outline for their thesis (including the anticipated division into chapters), two substantive draft chapters (usually a literature review, methodology or introductory chapter, in discussion with supervisor), and a timetable for completion. The Upgrade is examined in a viva and the committee consists of the main and advisory supervisors and one other person who is not familiar with the student's work. Part-time student submissions are calculated pro-rata for both Aims and Methods and Upgrading.

Expectations for successful Aims and Methods and Upgrading:

- Satisfactory completion of materials for submission and appropriate academic presentation of the same
- Completion of compulsory courses, attendance and contribution to Doctoral Workshop
- Development of appropriate LSE courses in discussion with supervisor

Having successfully Upgraded you will have an annual review with your supervisor and advisor to ensure satisfactory progress.

MPhil/PhD in Government
Programme code: RPGV
Department: Government
(Programme withdrawn 2012/13. Last intake 2011/12)

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1
Training courses
Compulsory (not examined)

GV5X1 Research Design in Political Science

Optional (not examined/examined)
Relevant course(s) provided in the Methodology Institute agreed with supervisor.

Year 2
Training courses
Compulsory (not examined)

At least one workshop from the following (workshop content varies from year to year, but a typical profile includes workshops in political theory, institutional analysis and political economy, European politics and policy, rational choice, and comparative politics):

GV501 Doctoral Workshop: Political Theory
GV503 Political Philosophy Research Seminar
GV510 Ethnicity and Nationalism Research Workshop (n/a 16/17)
GV512 Qualitative Methods in the Study of Politics
GV514 Political Science and Political Economy Doctoral Workshop
GV515 Researching People, Politics and Organisations (n/a 16/17)
GV555 Political Economy and Public Policy Workshop

Presentation requirements:
students are required to present at one of the workshops attended

Year 3
Training courses
Compulsory (not examined)

At least one workshop from the above (workshop content varies from year to year, but a typical profile includes workshops in political theory, institutional analysis and political economy, European politics and policy, rational choice, and comparative politics).

MPhil/PhD in Human Geography and Urban Studies
Programme code: RPHUGY
Department: Geography & Environment

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Route 1
Students with MSc Human Geography and Urban Studies (Research) will take the following specified courses:

Year 1
Training courses
Compulsory (not examined)

GY502 Staff/Research Students Seminars

Compulsory (examined)

1. Course(s) to the value of one unit from the list of options available on MSc Human Geography and Urban Studies.
2. Relevant advanced qualitative research methods course(s) to the value of one unit from the following:

   - MYS00 Fundamentals of Social Science Research Design (H)
   - MYS21 Qualitative Research Methods (H)
   - MYS26 Doing Ethnography (H)
   - MYS27 Non-Traditional Data: New Dimensions in Qualitative Research (H)
   - MYS29 Special Topics in Qualitative Research: Introspection-based Methods in Social Research (H)

Students who have completed MSc Human Geography and Urban Studies...
Studies must take a different course(s) to those that they have already taken.

Transferable skills courses
Compulsory (not examined)
GY500  Research Project Seminar
MY592  Workshop in Information Literacy: finding, managing and organising published research and data

Year 2
Training courses
Compulsory (not examined)
GY502  Staff/Research Students Seminars

Transferable skills courses
Compulsory (not examined)
GY500  Research Project Seminar

Year 3
Training courses
Compulsory (not examined)

GY500  Research Project Seminar

Year 3
Training courses
Compulsory (not examined)
GY502  Staff/Research Students Seminars

Transferable skills courses
Compulsory (not examined)
GY500  Research Project Seminar

Progression and Upgrade requirements for both Routes 1 and 2
Once students are in the MPhil/PhD part of the programme, they will go through a First Year Progress Review taking place in the Summer Term of their first research year. This is Year 1 for students in the +3 programme and Year Two for students in the 1+3 programme. For the First Year Progress Review, the student submits a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and motivation for the research; aims and objectives; research questions; contribution to knowledge; summary of methods to be used; and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year. Normally, there will be a progress review meeting between the student and the supervisors (main supervisor and review supervisor) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress to the second year. There is provision for a second Supplementary Review in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year (third year of the 1+3 programme). Progression is also dependent on students having passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops.

All research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. This is Year 2 for students in the +3 programme and Year Three for students in the 1+3 route. The exact timing depends on the student’s progress. Students are required to submit a formal written upgrade report consisting of an extensive revised research proposal, two substantive draft papers/chapters, of which one can be a literature review, and a detailed plan for completion. The material is evaluated by an upgrading committee that will recommend transfer to PhD registration if the work is judged to be of sufficient quality and quantity. The upgrading committee is normally formed by the student’s main supervisor, review supervisor and a third member of staff with relevant expertise. The upgrade is also dependent on students having completed all required training courses and having made a satisfactory research presentation in their doctoral presentation workshop.

In addition to these formal arrangements, each year during the Summer Term and throughout the course of their studies, all PhD students and their supervisors have to complete a yearly Progress Report Form, detailing progress made, problems arising and plan/timeline for completion. The forms are sent to the relevant Doctoral Programme Director for approval before students are able to re-register for the following session. If perceived lack of progress is identified, it can trigger a more formal annual review of progress in which the student is asked to produce specific written documents to be evaluated by a review panel.
MPhil/PhD in Information Systems

Programme code: RPIS
Department: Management

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1

Training courses

Compulsory (examined)

MG502 Foundations of Social Research in Information Systems: Paradigms and Traditions (H)
MG503 Interpretations of Information (H)
MG486 Digital Convergence and Information Services (H)

Or

Another half unit Masters Course from MISDI, Department of Management or School, subject to approval from supervisor and Research Chair.

Half unit course from Department of Management or other department, subject to approval from the supervisor and the Research Chair. The option would normally be an advanced level postgraduate course in an area that would contribute to their understanding or approach to the thesis topic.

Transferable skills courses

Compulsory (not examined)

MG500 Information Systems PhD Seminar Series and Workshops (students are expected to attend each term and present at least once a year)

Optional (not examined)

PhD Seminar Series
Faculty Research Seminars

Year 2

Transferable skills courses

Compulsory (not examined)

MG500 Information Systems PhD Seminar Series and Workshops (students are expected to attend each term and present at least once a year)

Optional (not examined)

PhD Seminar Series
Faculty Research Seminars

Year 3

Transferable skills courses

Compulsory (not examined)

MG500 Information Systems PhD Seminar Series and Workshops (students are expected to attend each term and present at least once a year)

Optional (not examined)

PhD Seminar Series
Faculty Research Seminars

Year 4

Transferable skills courses

Compulsory (not examined)

MG500 Information Systems PhD Seminar Series and Workshops (students are expected to attend each term and present at least once a year)

Optional (not examined)

PhD Seminar Series
Faculty Research Seminars

Progression and upgrade requirements

Students are expected to make a presentation once per year at MG500 Information Systems PhD Seminar Series and Workshops. Students are also expected to take an active part in the PhD Seminar Series. During the programme students are required to pass an MPhil/PhD upgrade examination. This involves a presentation at the MG500 Seminar series, submission of a research proposal for formal assessment by the faculty, response document to assessor feedback followed by an oral exam in the early Michaelmas term of Year 2, attended by a panel of faculty members and an external moderator. Students would normally be required to pass all six of their first year courses with Merit in order to be upgraded.

MPhil/PhD in International History

Programme code: RPIH
Department: International History

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1

Training courses

Compulsory (not examined)

HY501 International History Research Student Workshop

Optional (not examined)

HY509 International History Research Seminar
HY510 Cold War History Research Seminar

Year 2

Transfer courses

Optional (not examined)

HY509 International History Research Seminar
HY510 Cold War History Research Seminar

Year 3

Transfer courses

Optional (not examined)

HY509 International History Research Seminar
HY510 Cold War History Research Seminar

Progression and upgrade requirements

On being admitted, all students are formally registered for an MPhil. By 13 June (Week 8 Summer Term) of their first year (1 March of their second year for part-time students) they are required to submit three hardcopies of their dossier containing: (1) the provisional title of their thesis, together with the provisional titles of their chapters; (2) a bibliography, setting out as comprehensively as possible the primary published and unpublished sources they intend to use, along with the books, articles, unpublished theses and other sources they will consult; (3) an historiographical essay, evaluating the contributions of other scholars to their subject, and indicating clearly how their own thesis will contribute to it; and (4) a draft chapter of approximately 10,000 words based largely upon primary sources. The dossier will be read by three members of the Department, and students will be required to undergo a 20-30 minute viva. After the viva you will be informed of the outcome and will receive a joint report from the panel. If the Committee deems the dossier/viva satisfactory, the Department will recommend the student for transfer of registration from MPhil to PhD status. If it is less than satisfactory it will be examined by the Committee who will determine whether the student should be allowed to resubmit revised upgrade materials, which may be permitted once. The review and viva process is designed to determine whether the student is likely to meet the requirements of a PhD, and whether the chosen topic is suitable for a doctoral dissertation.
MPhil/PhD in International Relations

Programme code: RPIR

Department: International Relations

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1
Training courses
Compulsory (not examined)
IR501  Methods in International Relations Research
IR509  International Relations Research Design Seminar

Year 2
Training courses compulsory (not examined)
IR509  International Relations Research Design Seminar (second-year workshops)

Optional (examined/not examined)
The subject workshops offered by the International Relations Department comprise international relations theory; security and statecraft; international institutions, law and ethics; international political economy; Asia-Pacific; and the Middle East.

Transferable skills courses
MY592  Workshop in Information Literacy: finding, managing and organising published research and data (Year One)

Progression and upgrade requirements
Early in the Summer Term first- and second-year research students will have their progress reviewed by a Research Panel. They may also be held at the end of the third or subsequent years of registration at the request of a supervisor or student. Supervisors will not attend Research Panels but will provide reports on progress. Panel members may attend student presentations at the Research Design Seminar (IR509).

MPhil/PhD in Law

Programme code: RPL

Department: Law

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1
Training courses
Compulsory
1. LL500 Doctoral Research Seminar
2. Law Department lunchtime seminar series
3. One other relevant course offered by any department or other unit within the School

Year 2
Training courses
Compulsory (not examined)
1. LL500 Doctoral Research Seminar
2. Law Department lunchtime seminar series

Optional (not examined)
Staff Seminar Series

Year 3
Training courses
Compulsory (not examined)
PhD lunchtime seminar series

Optional (not examined)
Staff Seminar Series

Year 4
Transferable skills courses
Optional (not examined)
Staff Seminar Series

Progression and upgrade requirements
Upgrade to PhD takes place at the end of the first year, progression being conditional on submission of a satisfactory statement of the research question and a satisfactory sample chapter towards the end of the Summer Term.

MPhil/PhD in Law (Socio-Legal Theory)

Programme code: RPLSL

Department: Law

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1
Training courses
Compulsory
1. LL500 Doctoral Research Seminar
2. LL4L5 Socio-Legal Theory and Practice
3. One other relevant course offered by any department or other unit within the School

Year 2
Training courses
Compulsory (not examined)
1. LL500 Doctoral Research Seminar
2. Law Department lunchtime seminar series
3. One other relevant course offered by any department or other unit within the School

Optional (not examined)
Staff Seminar Series and PhD Seminar Series
Year 3
Training courses
Optional (not examined)
Staff Seminar Series and PhD Seminar Series

Year 4
Transferable skills courses
Optional (not examined)
Staff Seminar Series

Progression and upgrade requirements
Upgrade to PhD takes place at the end of the first year, progression being conditional on submission of a satisfactory statement of the research question and a satisfactory sample chapter towards the end of the Summer Term.

MPhil/PhD in Management
Programme codes: RPMG
Department: Management
For students entering in or after the academic year 2012/13.
The Department of Management offers an MPhil/PhD Management programme with five tracks:

MPhil/PhD in Management: Business Economics
MPhil/PhD in Management: Employment Relations and Organisational Behaviour
MPhil/PhD in Management: General Management
MPhil/PhD in Management: Information Systems and Innovation
MPhil/PhD in Management: Management Science
These are offered either within the Department or one of the its Academic Groups (Employment Relations and Organisational Behaviour, Information Systems and Innovation, Management Science).
H = half unit
F = full unit

Business Economics Track
Programme code: RPMGEBE

Year 1
Training courses
Compulsory (examined)
Full course unit Research Paper
EC441 Microeconomics for MRes Students
MG411 Firms and Markets (students who have already taken MG411 should discuss alternatives with the programme director)
1 of the below:
EC532 International Economics for Research Students
EC533 Labour Economics for Research Students
EC536 Economics of Industry for Research Students
EC537 Microeconomic Theory for Research Students
FMS02 Theories of Finance
FMS03 Empirical Finance

Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 2
Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.
Year 3
Training courses
Compulsory (not examined):
MG501 Employment Relations and Organisational Behaviour Seminar (formerly ID501)

Year 4
Training courses
Compulsory (not examined):
MG501 Employment Relations and Organisational Behaviour Seminar (formerly ID501)

General Management Track
Programme code: RPMGGM
For all students in Years 1 to 4
MG504 General Management PhD research seminar (n/a/16/17)

Quantitative Approaches (for students with prior statistics background)

Year 1
Training courses
Compulsory (examined)
Full Unit Research Paper
1.5 units from the following:
MY552 Applied Regression Analysis (H)
MG461 Quantitative Analysis in Management (H)
MG462 Qualitative Analysis in Management (H)
1.5 units from the following:
MG414 Designing and Managing Change in the Public Sector
MG415 Thinking Like a Policy Analyst (withdrawn 16/17)
MG426 Organisations in the Economy and Society
Management optional course or optional course from another department as agreed with supervisor and programme director.

Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 2
Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 3
Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 4
Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Qualitative Approaches

Year 1
Training courses
Compulsory (examined)
Full Unit Research Paper
1.5 units from the following:
MY500 Fundamentals of Social Science Research Design (H)
MY521 Qualitative Research Methods (H) or MG462 Qualitative Analysis in Management (H)
MY551 Introduction to Quantitative Analysis (H) or MG461 Quantitative Analysis in Management (H)
1.5 units from the following:
MG414 Designing and Managing Change in the Public Sector
MG415 Thinking Like a Policy Analyst (withdrawn 16/17)
MG426 Organisations in the Economy and Society
Management optional course or optional course from another department as agreed with supervisor and programme director.

Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 2
Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 3
Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Quantitative Approaches (for students with prior statistics background)

Year 1
Training courses
Compulsory (examined)
Full Unit Research Paper
1.5 units from the following:
MY551 Introduction to Quantitative Analysis (H)
MY552 Applied Regression Analysis (H)
Or MG461 Quantitative Analysis in Management (H)
MG462 Qualitative Analysis in Management (H)
1.5 units from the following:
MG414 Designing and Managing Change in the Public Sector
MG415 Thinking Like a Policy Analyst (withdrawn 16/17)
MG426 Organisations in the Economy and Society
Management optional course or optional course from another department as agreed with supervisor and programme director.

Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 2
Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 3
Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.
Year 4

Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Information Systems and Innovation Track
Programme code: RPMGIS

Year 1

Training courses
Compulsory (examined)
Full Unit Research Paper

MG502 Foundations of Social Research in Information Systems: Paradigms and Traditions (H)

MG503 Interpretations of Information (H)

Half unit course from Department of Management or other department, subject to approval from the supervisor and the Research Chair. The option would normally be an advanced level postgraduate course in an area that would contribute to their understanding or approach to the thesis topic.

MY500 Fundamentals of Social Science Research Design (H)

MY521 Qualitative Research Methods (H)

MY552 Applied Regression Analysis (H)

Transferable skills courses
Compulsory (not examined)
MG500 Information Systems PhD Seminar Series and Workshops (students are expected to attend each term and present at least once a year)

Optional (not examined)
PhD Seminar Series
Faculty Research Seminars

Year 2

Transferable skills courses
Compulsory (not examined)
MG500 Information Systems PhD Seminar Series and Workshops (students are expected to attend each term and present at least once a year)

Optional (not examined)
PhD Seminar Series
Faculty Research Seminars

Year 3

Transferable skills courses
Compulsory (not examined)
MG500 Information Systems PhD Seminar Series and Workshops (formerly IS554) (students are expected to attend each term and present at least once a year)

Optional (not examined)
PhD Seminar Series
Faculty Research Seminars

Year 4

Transferable skills courses
Compulsory (not examined)
MG500 Information Systems PhD Seminar Series and Workshops (formerly IS554) (students are expected to attend each term and present at least once a year)

Optional (not examined)
PhD Seminar Series
Faculty Research Seminars

Management Science Track

Programme code: RPMGMS

Year 1

Training courses
Compulsory (examined)
Full Unit Research Paper MA408 Discrete Mathematics and Graph Theory (H)

MG408 Combinatorial Optimisation (H)

MG4C6 Mathematical Programming: Theory and Algorithms (H)

1.5 units from the following:

MG409 Auctions and Game Theory (H)

MG455 Principles of Decision Sciences (H)

MA402 Game Theory I (H)

MA407 Algorithms and Computation (H)

MA409 Continuous-Time Optimisation (H)

MA411 Probability and Measure (H)

MA412 Functional Analysis and its Applications (H)

MA418 Preferences, Optimal Portfolio Choice, and Equilibrium (n/a 16/17)

ST405 Multivariate Methods (H)

ST409 Stochastic Processes (H)

ST411 Generalized Linear Modelling and Survival Analysis (H)

ST418 Non-Linear Dynamics and the Analysis of Real Time Series (H)

ST422 Time Series (H)

Any Department of Management, LSE, University of London, or London Taught Course Centre (LTCC), or National Taught Course Centre in Operational Research (NATCOR) courses that are relevant and at an appropriate level, with the approval of the Programme Director.

Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 2

Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 3

Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Year 4

Transferable skills courses
Optional (not examined)
Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.

Progression and upgrade requirements (all tracks)

Students will normally be required to pass their first year modules with Merit or above in order to progress to the second year. The research paper must be submitted in the autumn of the second year for the upgrade decision. The panel will decide whether to upgrade the student to PhD status by the end of MT, or require them to ‘revise and resubmit’, with continued advice from the supervisor, by the end of March. A final decision would then be made.
# MPhil/PhD Programme Regulations

## MPhil/PhD in Management Science
**Programme code:** RPME  
**Department:** Management  
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

### Training Courses and Seminars
There are no prescribed courses for all research students. Your supervisor will discuss with you your experience and background and will advise you or require you to take courses as appropriate. These would normally be taken in your first year of registration as a research student.

Students would be expected to be active participants in the Group's Research Seminar Series and, where appropriate to their research, with the Mathematical Programming Study Group Seminar Series held in conjunction with the Operational Research Society. Normally research students are expected, under the guidance of their supervisor, to present their work and findings to the whole Group every summer in a session devoted to that purpose. Students engaged in preparing the final draft of their thesis are exempted from this requirement.

**Methodological Training** You will work closely with your principal supervisor, who will provide advice and guidance. You will also have the opportunity to take advantage of research methodology courses provided by the Methodology Institute and the academic and professional development programme offered by the Teaching and Learning Centre.

### Upgrading to PhD
The review to upgrade to the PhD normally takes place within two years of full time registration. Progress is assessed by the first and/or second supervisor in consultation with the PhD programme director and another expert in the field of the research undertaken by the student. If satisfactory progress has been made, the programme director will recommend that registration be upgraded to PhD status.

### Targets for Progress
- **Year One** - Successful completion of any taught courses required
- **Year Two** - Upgrade to PhD
- **Year Three** - Completion of research and thesis
- **Year Four** - Completion of research and thesis

## MPhil/PhD in Mathematics
**Programme code:** RPMA  
**Department:** Mathematics  
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

### Year 1
**Training courses - Compulsory (not examined)**
Courses designed for research students in Mathematics, chosen in consultation with their lead supervisor. Discrete Mathematics and Algorithms and Game Theory students will attend four courses organised by the London Taught Course Centre (www.ltcc.ac.uk), but there are separate arrangements for students in Financial Mathematics, where courses are provided by the London Graduate School in Mathematical Finance (www.londonmathfinance.org.uk). Students also have the option of attending or auditing LSE Taught Masters modules, where appropriate.

**Transferable skills courses - Compulsory (not examined)**
- MA500 Mathematics Seminar - students required to attend.
- MA501 Research Student Seminar - students to attend and to make presentations.

## Optional courses

### Year 2
**Training courses - Optional (not examined)**
Students have the option of attending advanced courses organized by the London Taught Course Centre or the London Graduate School in Mathematical Finance.

**Transferable skills courses - Compulsory (not examined)**
- MA500 Mathematics Seminar
- MA501 Research Student Seminar

### Year 3
**Training courses - Optional (not examined)**
Students have the option of attending advanced courses organized by the London Taught Course Centre or the London Graduate School in Mathematical Finance.

**Transferable skills courses - Compulsory (not examined)**
- MA500 Mathematics Seminar
- MA501 Research Student Seminar

### Year 4
**Training courses - Optional (not examined)**
Students have the option of attending advanced courses organized by the London Taught Course Centre or the London Graduate School in Mathematical Finance.

**Transferable skills courses - Compulsory (not examined)**
- MA500 Mathematics Seminar
- MA501 Research Student Seminar

## MPhil/PhD in Media and Communications
**Programme code:** RPME  
**Department:** Media & Communications  
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

### Year 1
**Training courses**

**Compulsory (examined)**

MC408/418 Theories and Concepts in Media and Communications I and II (for students without the appropriate background)
MC5M2 Advanced Methods of Research in Media & Communications (includes MY551 Introduction to Quantitative Analysis and MY552 Applied Regression Analysis). By agreement, the Methodology Institute components (MY551 and/or MY552) can be replaced by other, more advanced, statistics courses or an advanced qualitative course taught at the Methodology Institute. At least one half-unit course of statistics needs to be included.

Optional (examined/not examined)
Other graduate courses relevant to research subject and agreed with supervisor.

Transferable skills courses
Compulsory (not examined)
MC500 Research Seminar for Media, Communications and Culture
Annual Departmental PhD Symposium

Optional (not examined)
CLT04 Digital Literacy LN988 Thesis Writing course
Modern Foreign Language courses offered by the Language Centre
Other graduate seminars of relevance to research subject

Presentation requirements
At least one presentation annually at MC500 Research Seminar for Media, Communications and Culture

Year 2
Training courses
Optional (examined/not examined)
Either MY530 Advanced Qualitative Analysis Workshops (H) or MY555 Multivariate Analysis and Measurement (H)
MY559 Special Topics in Quantitative Analysis: Quantitative Text Analysis (H) (n/a/16/17)
ST416 Multilevel Modelling (H)
Other graduate courses relevant to research subject and agreed with supervisor

Transferable skills courses
Compulsory (not examined)
MC500 Research Seminar for Media, Communications and Culture
Annual Joint PhD Symposium for Second Years and above, at Goldsmiths, Westminster and City

Optional (not examined)
Other graduate seminars of relevance to research subject

Year 3
Transferable skills courses
Optional (not examined)
MC500 Research Seminar for Media, Communications and Culture

Year 4
Students are expected to complete their research

Progression and upgrade requirements
Students will be required to submit a full Thesis Proposal of 10,000 words to their Thesis Committee by 1 June in their first year (part-time students can submit their Proposal by 1 March in their second year). This paper will include a substantive statement of the aims, theories and methods proposed for the thesis, a tentative chapter outline, an indicative bibliography and a timetable for its completion. Together with the Methods (MC5M2) and Theories & Concepts (MC408/418) examinations, this paper will form part of the evaluation process, and, together with an oral examination based on the Thesis Proposal, will determine whether students are permitted to upgrade from MPhil to PhD and continue into their second year.

MPhil/PhD in New Media, Innovation and Literacy
Programme code: RPMEIL
Department: Media & Communications

These regulations apply to students entering in or before the 2016/17 academic year.

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1
Training courses
Compulsory (examined)
Any two of:
MC402 The Audience in Media and Communications
MC409 Media, Technology and Everyday Life
MC413 new Media, Information and Knowledge Systems
MC418 Theories and Concepts in Media and Communications II
MC424 Media and Communications Governance
MC425 Interpersonal Mediated Communication

Plus
MC5M2 Advanced Methods of Research in Media & Communications (includes MY551 Introduction to Quantitative Analysis and MY552 Applied Regression Analysis). By agreement, the Methodology Institute components (MY551 and/or MY552) can be replaced by other, more advanced, statistics courses or an advanced qualitative course taught at the Methodology Institute. At least one half-unit course of statistics needs to be included.

Optional (examined/not examined)
Other graduate courses relevant to research subject and agreed with supervisor.

Transferable skills courses
Compulsory (not examined)
MC500 Research Seminar for Media, Communications and Culture
Annual Departmental PhD Symposium

Optional (not examined)
CLT04 Digital Literacy LN988 Thesis Writing course
Modern Foreign Language courses offered by the Language Centre
Other graduate seminars of relevance to research subject

Presentation requirements
At least one presentation annually at MC500 Research Seminar for Media, Communications and Culture

Year 2
Training courses
Optional (examined/not examined)
Either MY530 Advanced Qualitative Analysis Workshops (H) or MY555 Multivariate Analysis and Measurement (H)
MY559 Special Topics in Quantitative Analysis: Quantitative Text Analysis (H) (n/a/16/17)
ST416 Multilevel Modelling (H)
Other graduate courses relevant to research subject and agreed with supervisor

Transferable skills courses
Compulsory (not examined)
MC500 Research Seminar for Media, Communications and Culture
Annual Joint PhD Symposium for Second Years and above, at Goldsmiths, Westminster and City

Optional (not examined)
Other graduate seminars of relevance to research subject
MPhil/PhD in Philosophy
Programme code: RPPH

Department: Philosophy, Logic and Scientific Methods

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor. All programmes of study should be agreed with the supervisor at the start of the year.

Year 1
Training courses

Compulsory (examined/not examined)

PH501 Philosophical Problems Seminar
Students who have never taken a paper in formal logic at degree must take PH502 Reasoning and Logic (examined).

PH500 Research Methods in Philosophy

Either a further MSc course (again one not taken as part of the MSc course) plus one term unit of PhD level seminars. The seminars on offer are PH551 Research Seminar in Philosophy of Natural Sciences, PH555 Research Seminar in the Philosophy of Economics and Social Sciences or PH500 Research Methods in Philosophy. If students choose to take a further MSc course, they can either decide to be examined in this course or instead choose to write two assessed essays, one at the end of each of the first two terms. This with the exception of students who choose PH419 Set Theory and Further Logic, in which case the examination is compulsory.

Or three term units of PhD level seminars with associated coursework. Taking three term units means that students can either take all three terms of one of these seminars or ‘mix and match’ by taking different seminars in different terms. Seminars must be taken with associated coursework work.

Optional (not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Year 2
Training courses

Optional (not examined)

PH551 Research Seminar in the Philosophy of Natural Sciences
PH555 Research Seminar in the Philosophy of Economics and Social Sciences
PH500 Research Methods in Philosophy

Optional (examined/not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Year 3
Training courses

Optional (not examined)

PH551 Research Seminar in the Philosophy of Natural Sciences
PH555 Research Seminar in the Philosophy of Economics and Social Sciences
PH500 Research Methods in Philosophy

Optional (examined/not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Year 4
Training courses

Optional (not examined)

PH551 Research Seminar in the Philosophy of Natural Sciences
PH555 Research Seminar in the Philosophy of Economics and Social Sciences
PH500 Research Methods in Philosophy

Optional (examined/not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Progression and upgrade requirements

Successful completion of work required for each year is a necessary condition for re-registration in the following year; and for upgrading from MPhil to PhD status. During the first year students must write a first chapter of the thesis as well as an outline (research plan) of the rest of the thesis. The chapter should be around 40 pages; the research plan around 10 pages. Both have to be handed in to the Departmental Office by 1 September. This upgrading will normally take place after the successful completion of Year One requirements in Case A, and after the successful completion of Year Two requirements in Case B. In both cases once you are registered for the PhD that registration will be backdated to the start of your MPhil/PhD studies.

MPhil/PhD in Philosophy of the Social Sciences
Programme code: RPPH5S

Department: Philosophy, Logic and Scientific Methods

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor. All programmes of study should be agreed with the supervisor at the start of the year.

Year 1
Training courses

Compulsory (examined/not examined)

1. MY551 Introduction to Quantitative Analysis
2. MY552 Applied Regression Analysis
3. MY521 Qualitative Research Methods
4. Either PH419 Set Theory and Further Logic (if students have previous logic training) or PH502 Reasoning and Logic (if no logic training)
5. PH458 Evidence and Policy (H)
6. Students also attend a Research Seminar in the Department

Year 2
Training courses

Compulsory (examined)

1. MY551 Introduction to Quantitative Analysis
2. MY552 Applied Regression Analysis
3. MY521 Qualitative Research Methods
4. Either PH419 Set Theory and Further Logic (if students have previous logic training) or PH502 Reasoning and Logic (if no logic training)
5. PH458 Evidence and Policy (H)
6. Students also attend a Research Seminar in the Department

Optional (examined/not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Year 3
Training courses

Optional (not examined)

PH551 Research Seminar in the Philosophy of Natural Sciences
PH555 Research Seminar in the Philosophy of Economics and Social Sciences
PH500 Research Methods in Philosophy

Optional (examined/not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Year 4
Training courses

Optional (not examined)

PH551 Research Seminar in the Philosophy of Natural Sciences
PH555 Research Seminar in the Philosophy of Economics and Social Sciences
PH500 Research Methods in Philosophy

Optional (examined/not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Progression and upgrade requirements

In both cases once you are registered for the PhD that registration will be backdated to the start of your MPhil/PhD studies.

MPhil/PhD in Philosophy of the Social Sciences
Programme code: RPPH5S

Department: Philosophy, Logic and Scientific Methods

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor. All programmes of study should be agreed with the supervisor at the start of the year.

Year 1
Training courses

Compulsory (examined/not examined)

1. MY551 Introduction to Quantitative Analysis
2. MY552 Applied Regression Analysis
3. MY521 Qualitative Research Methods
4. Either PH419 Set Theory and Further Logic (if students have previous logic training) or PH502 Reasoning and Logic (if no logic training)
5. PH458 Evidence and Policy (H)
6. Students also attend a Research Seminar in the Department

Year 2
Training courses

Compulsory (examined)

1. MY551 Introduction to Quantitative Analysis
2. MY552 Applied Regression Analysis
3. MY521 Qualitative Research Methods
4. Either PH419 Set Theory and Further Logic (if students have previous logic training) or PH502 Reasoning and Logic (if no logic training)
5. PH458 Evidence and Policy (H)
6. Students also attend a Research Seminar in the Department

Optional (examined/not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Year 3
Training courses

Optional (not examined)

PH551 Research Seminar in the Philosophy of Natural Sciences
PH555 Research Seminar in the Philosophy of Economics and Social Sciences
PH500 Research Methods in Philosophy

Optional (examined/not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Year 4
Training courses

Optional (not examined)

PH551 Research Seminar in the Philosophy of Natural Sciences
PH555 Research Seminar in the Philosophy of Economics and Social Sciences
PH500 Research Methods in Philosophy

Optional (examined/not examined)

Transferable skills courses offered by the Teaching and Learning Centre or the Methodology Institute.

Progression and upgrade requirements

Successful completion of work required for each year is a necessary condition for re-registration in the following year; and for upgrading from MPhil to PhD status. During the first year students must write a first chapter of the thesis as well as an outline (research plan) of the rest of the thesis. In both cases once you are registered for the PhD that registration will be backdated to the start of your MPhil/PhD studies.
Year 3 and 4
Completion of the thesis.

Progression and upgrade requirements
Successful completion of work required for each year is a necessary condition for re-registration in the following year; and for upgrading from MPhil to PhD status. During the first year students must write a first chapter of the thesis as well as an outline (research plan) of the rest of the thesis. The chapter should be around 40 pages; the research plan around 10 pages. Both have to be handed in to the Departmental Office by 1 September. This upgrading will normally take place after the successful completion of Year 1 requirements. Once you are registered for the PhD that registration will be backdated to the start of your MPhil/PhD studies.

MPhil/PhD in Regional and Urban Planning Studies
Programme code: RPRP
Department: Geography & Environment
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1
Training courses
Compulsory (not examined)
GY450 Planning Practice and Research or GY502 Staff/Research Students Seminar

Compulsory (examined)
1. Courses to the value of one unit from the list of options on the relevant MSc degrees
2. Relevant advanced research method courses to the value of one unit from the following:
   MY500 Fundamentals of Social Science Research Design (H)
   MY521 Qualitative Research Methods (H)
   MY526 Doing Ethnography (H)
   MY527 Non-Traditional Data: New Dimensions in Qualitative Research (H) (n/a 16/17)
   MY529 Special Topics in Qualitative Research: Introspection-based Methods in Social Research (H) (n/a 16/17)

Transferable skills courses
Compulsory (not examined)
GY500 Research Project Seminar

Year 2
Training courses
Compulsory (not examined)
GY502 Staff / Research Students Seminars

Transferable skills courses
Compulsory (not examined)
GY500 Research Project Seminar

Year 3
Training courses
Compulsory (not examined)
GY502 Staff / Research Students Seminars

Transferable skills courses
Compulsory (not examined)
GY500 Research Project Seminar

Progression and upgrade requirements
Students on the MPhil/PhD programme will go through a First Year Progress Review taking place in the Summer Term of their first research year. For the First Year Progress Review, the student submits a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and motivation for the research; aims and objectives/research questions; contribution to knowledge; summary of methods to be used; and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year. Normally, there will be a progress review meeting between the student and the supervisors (main supervisor and review supervisor) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress to the second year. There is provision for a second Supplementary Review, in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year. Progression to the second year is also dependent on students having passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops.

Research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. The exact timing depends on the student’s progress. Students are required to submit a formal written upgrade report consisting of an extensive revised research proposal, two substantive draft papers/chapters, of which one can be a literature review, and a detailed plan for completion. The material is evaluated by an upgrading committee that will recommend transfer to PhD registration if the work is judged to be of sufficient quality and quantity. The upgrading committee is normally formed by the student’s main supervisor, review supervisor and a third member of staff with relevant expertise. The upgrade is also dependent on students having completed all required training courses and having made a satisfactory research presentation in their doctoral presentation workshop.

In addition to these formal arrangements, each year during the Summer Term and throughout the course of their studies, all PhD students and their supervisors have to complete a yearly Progress Report Form, detailing progress made, problems arising and plan/timeline for completion. The forms are sent to the relevant Doctoral Programme Director for approval before students are able to re-register for the following session. If perceived lack of progress is identified, it can trigger a more formal annual review of progress in which the student is asked to produce specific written documents to be evaluated by a review panel.

MPhil/PhD in Social Policy
Programme code: RPSA
Department: Social Policy
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1
Training courses
Optional (not examined)
If not already taken previously:
SA451 Social Policy Research
MY400 Fundamentals of Social Science Research Design (H)
MY521 Qualitative Research Methods (H)
MY551M or MY551L Introduction to Quantitative Analysis (H)

Students will discuss with their supervisors any other methodological training that may be relevant for the successful completion of the MPhil/PhD programme.

Transferable skills courses
Compulsory (not examined)
SA550 Research Student Seminar

Optional (not examined)
Relevant courses provided by the Library, Teaching and Learning Centre and Methodology Institute
Year 2
Training courses
Optional (not examined)
MY452M or MY452L Applied Regression Analysis (H)
MY455 Multivariate Analysis and Measurement (H)

Transferable skills courses
Optional (not examined)
SA550 Research Student Seminar

Year 3
Transferable skills courses Optional (not examined)
SA550 Research Student Seminar

Year 4
Transferable skills courses
Optional (not examined)
SA550 Research Student Seminar

Progression and Upgrade requirements
Each student is required to undertake Major Review in the summer term of their first year (second year for part-time students). For Major Review they must submit a 10,000 word document with a detailed thesis proposal, their research question, a literature review, a description of their methodology, their plans for data collection and a timetable through to completion. They are interviewed on this document by senior staff who make the decision on upgrading. Each year post-Major Review, every student is expected to submit a 1,000 to 2,000 word progress report, approved by supervisors, to the Doctoral Programme Director(s).

MPhil/PhD in Social Psychology
Programme code: RPPS
Department: Psychological and Behavioural Science
The MPhil/PhD programme includes taught courses on both methodology and theory. The precise courses students are required to attend varies and exemptions may apply depending on prior experience and qualifications. These matters should be discussed and agreed with the supervisor in the first formal supervision meeting.

Year 1
Training courses
Compulsory (students should agree with their supervisor whether the courses taken will also be examined):
MY421M or MY421L Qualitative Research Methods (H)
MY452M or MY452L Applied Regression Analysis (H) or MY455 Multivariate Analysis and Measurement (H)
MY456 Survey Methodology (H)
PS400 Contemporary Social and Cultural Psychology* or PS404 Organisational Social Psychology* or PS429 The Social Psychology of Communication* or PS461 Health, Community and Development (v/a 16/17).

Half unit optional course.
* Students also take the unassessed course PS443A Societal Psychology.

Transferable skills courses
Compulsory (not examined)
PS950 Current Research in Social Psychology

Optional (examined/not examined)
Students can take further optional courses which they should discuss with their supervisor (students should agree with their supervisor whether the courses taken will also be examined)

Year 2
Training courses
Compulsory (students should agree with their supervisor whether the courses taken will also be examined):
Quantitative pathway
MY452M or MY452L Applied Regression Analysis (H) (if MY451 taken in Year 1)
MY455 Multivariate Analysis and Measurement (H) (if MY452 taken in Year 1)

Qualitative pathway
MY455 Multivariate Analysis and Measurement (H)

Combined pathway
MY452M or MY452L Applied Regression Analysis (H) (if MY451 taken in Year 1)
MY455 Multivariate Analysis and Measurement (H) (if MY452 taken in Year 1)
MY456 Survey Methodology (H) (if MY455 taken in Year 1)
MY455 Multivariate Analysis and Measurement (H)

Optional (examined/not examined)
Students can take further optional courses which they should discuss with their supervisor (students should agree with their supervisor whether the courses taken will also be examined).

Transferable skills courses
Compulsory (not examined)
PS950 Current Research in Social Psychology

Optional (examined/not examined)
Students can take further optional courses which they should discuss with their supervisor (students should agree with their supervisor whether the courses taken will also be examined).

Year 3
Training courses
Compulsory (examined/not examined)
Students can take further compulsory courses which they should discuss with their supervisor (students should agree with their supervisor whether the courses taken will also be examined):

Optional (examined/not examined)
Selection of courses taken at more advanced level than those in Years 1 and 2

Transferable skills courses
Compulsory (not examined)
PS950 Current Research in Social Psychology

Year 4
Training courses
Students can take further courses following discussion with their supervisor.

Transferable skills courses
Compulsory (not examined)
PS950 Current Research in Social Psychology

Optional (examined/not examined)
Students can take further optional courses which they should discuss with their supervisor.

Progression and upgrade requirements
The first year Extended Essay and the second year Upgrade chapters (see below) are examined by a three-person thesis committee, which includes the student's supervisor, as well as two other academic colleagues.

Targets for progress
Year 1 - Extended Essay of 6,000 words, submitted on first day of Lent Term.
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

**Year 1**

**Training courses**

**Optional (students should agree with their supervisor whether the courses taken will also be examined)**

A selection of:
- MY400 Fundamentals of Social Science Research Design (H)
- MY521 Qualitative Research Methods (H)
- MY551M or MY551L Introduction to Quantitative Analysis (H)
- MY552M or MY552L Applied Regression Analysis (H)
- MY555 Multivariate Analysis and Measurement (H)
- MY556 Survey Methodology (H) MY557 Causal Inference for Observational and Experimental Studies (H)

A typical selection would be to take MY400, MY521, MY552 and MY555 in the first year, but students may be excused from some or all of them if they have previously taken graduate-level courses covering the same material. Students who use quantitative methods in their research, are also encouraged to take MY559 (n/a 16/17) in their first or second year. The courses they may take also include ones from other institutes or departments at LSE, dependent on their needs.

**Transferable skills courses**

**Compulsory (not examined)**
- MY599 Department of Methodology Seminar

**Year 2**

**Transferable skills courses**

**Compulsory (not examined)**
- MY599 Department of Methodology Seminar

**Year 3**

**Transferable skills courses**

**Compulsory (not examined)**
- MY599 Department of Methodology Seminar

**Year 4**

**Transferable skills courses**

**Compulsory (not examined)**
- MY599 Department of Methodology Seminar

Written and oral work will be assessed by two academics (not on the supervisory team), normally members of Department of Methodology staff. This work has to reach an acceptable standard to enable them to progress to the second year. It is particularly important that the first year review clearly states the objectives of the doctoral research ands indicate how the empirical work will be carried out. If the panel deems the first year review to be not suitably clear, they can choose not to accept the submitted document and give the candidate up to a month to clarify. This decision will be taken maximum one week after the Department of Methodology PhD Day. Examples of unclear work might include (but not be limited to):

- A first year review that does not state clear research questions;
- A first year review that does not adequately review the specific literatures that the empirical work is contributing to;
- A first year review that does not give enough methodological detail, showing how the design will produce data that allows the candidate to address the theoretical issues at stake in a systematic and rigorous way.

After the first year candidates will spend more time on independent study under the guidance of their supervisor(s). This will involve the collection, organization and analysis of data, and writing up the results. During their second year of registration, they will typically submit three (minimum) draft chapters of their thesis plus a short introduction and a detailed plan for its completion. The three draft chapters will typically include a detailed literature review, specification of research problem(s) and two empirical chapters. If candidates are pursuing a paper-based thesis, their upgrading documents will typically include a short introduction, a literature review and at least two empirical papers. Whether a traditional or paper-based thesis, the material will be evaluated by an upgrading committee (two academics, not necessarily of the MI or even the LSE) who will recommend transferal to PhD registration if their work is judged to be of sufficient quality and quantity.

Throughout the MPhil/PhD and PhD, candidates will attend the Institute’s research seminar and other specialist workshops and seminars related to their interests. The student must present at every Department of Methodology PhD day.

**MPhil/PhD in Sociology**

**Programme code:** RPSO

**Department:** Sociology

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

**Year 1**

**Training courses Compulsory (examined)**
- SO500 Research Class for 1st year MPhil Students

Students may also be asked to attend and pass the assessment for up to one further course unit (or two half units) chosen with their supervisor on the basis of an assessment of their research training needs.

**Optional (examined)**
- MY400 Fundamentals of Social Science Research Design (H)
- MY521 Qualitative Research Methods (H)
- MY551M or MY551L Introduction to Quantitative Analysis (H)
- MY552M or MY552L Applied Regression Analysis (H)

Selection of additional courses, with agreement of supervisor, including:
- Other courses from Sociology Masters programmes
- Specialist research courses: SO511 Research Seminar in Political Sociology, SO521 Research Seminar on Cities and Space (n/a 16/17), and SO401 Social Research Methods
Transferable skills courses
Optional (not examined)
MY591  Computing Packages for Qualitative Analysis
MY592  Workshop in Information Literacy: finding, managing and organising published research and data

Year 2
Training courses Optional (not examined)
SOS01  Research Students Seminar (this course is strongly recommended)

Progression and upgrade requirements
In the Summer term of each year the progress of each student registered in the Department is discussed at the MPhil/PhD Board, which is a general meeting of all research student supervisors. This Board decides whether to recommend to the School that students be permitted to proceed to the next year of study. If progress is unsatisfactory, a course of action to assist students to reach performance standards deemed appropriate by supervisors may be required, or a recommendation may be made that the student not be allowed to re-register. By the end of Year 2, students are expected to have completed their fieldwork, and to be ready to submit three draft chapters for upgrade. All full-time research students are expected to have made the transition from the MPhil to PhD (upgrading) within two years of first registration and to have submitted their PhD thesis within four years. Part-time students are expected to be upgraded to PhD by the end of their third year, and to submit their thesis within six years. The decision to upgrade from MPhil to PhD is taken by a panel consisting of two academics from the Department or the School, with the supervisor(s) in attendance and available to be consulted by the panel. For upgrade, students submit three draft chapters of their thesis, plus thesis abstract and outline schedule for completion. This material is then assessed by viva voce and a written report is made by the panel.

Students should aim to have a complete first draft of their thesis in years three to four and allow three to six months for revision and submission.

MPhil/PhD in Statistics
Programme code: RPST
Department: Statistics
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Year 1
Training courses
Optional (not examined)
Courses offered by the London Graduate School in Mathematical Finance.
Courses offered by the London Taught Course Centre.

Optional (examined)
Masters level courses relevant to research and agreed by supervisor in department, the School or University of London College - particularly ST405, ST411, ST421, ST501 and ST542.

Transferable skills courses
Compulsory (not examined)
Annual Research Presentation Event.

Optional (not examined)
Departmental Seminar Series.
Joint Econometrics and Statistics Workshops with the Department of Economics.
Risk and Stochastics Seminar/Workshop.
London Graduate School in Mathematical Finance Seminar Day.

Optional (examined)
Courses provided by the Methodology Institute.

Year 3
Training courses
Optional (not examined)
Courses offered by the London Graduate School in Mathematical Finance.
Courses offered by the London Taught Course Centre.

Optional (examined)
Masters level courses relevant to research and agreed by supervisor in department, the School or University of London College - particularly ST405, ST411, ST421, ST501 and ST542.

Transferable skills courses
Compulsory (not examined)
Annual Research Presentation Event.

Optional (not examined)
Departmental Seminar Series.
Joint Econometrics and Statistics Workshops with the Department of Economics.
Risk and Stochastics Seminar/Workshop.
London Graduate School in Mathematical Finance Seminar Day.
Poster Presentations.
The department encourages students to attend and, where the opportunity arises, present a paper or poster at conferences during their PhD programme in relation to their particular research topic.

Optional (examined)
Courses provided by the Methodology Institute.

Year 4
Training courses
Optional (not examined)
Courses offered by the London Graduate School in Mathematical Finance.
Courses offered by the London Taught Course Centre.

Optional (examined)
Masters level courses relevant to research and agreed by supervisor in department, the School or University of London College - particularly ST405, ST411, ST421, ST501 and ST542.

Transferable skills courses
Annual Research Presentation Event.

Optional (not examined)
Departmental Seminar Series.
Joint Econometrics and Statistics Workshops with the Department of Economics.
Risk and Stochastics Seminar/Workshop.
London Graduate School in Mathematical Finance Seminar Day.
Poster Presentations.
The department encourages students to attend and, where the opportunity arises, present a paper or poster at conferences during their PhD programme in relation to their particular research topic.

Optional (examined)
Courses provided by the Methodology Institute.

Progression and upgrade requirements
Formal assessment is made towards the end of each Summer Term. This assessment is based on statements made by the student and the supervisors in the progress report form. Students are also required to complete a supplementary report of 1-2 pages (A4), providing in more detail an outline of their current research.
The review to upgrade to the PhD normally takes place within two years of full time registration. Progress is assessed by the first and/or second supervisor in consultation with the PhD programme director and another expert in the field of the research undertaken by the student. If satisfactory progress has been made, the programme director will recommend that registration be upgraded to PhD status. The department's research committee also monitors the progress of PhD students.

Teaching opportunities
The department employs Graduate Teaching Assistants (GTAs) to teach a number of its undergraduate and postgraduate courses. In particular ST102, Elementary Statistical theory, and ST107, Quantitative Methods, are taught to a large number of students across the School and require a significant number of classes.
Research students are encouraged to undertake some teaching from year two onwards. First year MPhil/PhD students are normally not permitted to teach, although some marking may be available during the year or for the external degree at the end of the year. A Postgraduate Certificate in Higher Education is offered to those who wish to pursue this.
Research Course Guides
AC500

Accounting, Organisations and Society

This information is for the 2016/17 session.

Teacher responsible: Dr Andrea Menenicker KSW 3.09, Prof Peter Miller OLD 3.27 and Prof Michael Power KSW 3.12

Availability: This course is available on the MPhil/PhD in Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit. In addition CARR staff and students on other programmes may be eligible to take this, with the permission of the Course Director.

Course content: This is an advanced course for doctoral and postdoctoral students focusing on the institutional and organisational context of accounting practices in their broadest sense. The seminars are generally based on key readings at the interface between accounting, organisation studies, regulation and management. Discussions will be focused on the analysis of accounting and calculative practices in context drawing on a wide range of approaches.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Indicative reading: There is no single text for this course and the seminars will be based on pre-distributed readings.

Assessment: Assessment will be based on written work as agreed with the Course Director.

AC501

Empirical Financial Accounting and Capital Markets

This information is for the 2016/17 session.

Teacher responsible: Prof Peter Pope OLD 5.04, Prof Bjorn Jorgensen OLD 2.17 and Prof Ane Miren Tamayo OLD 5.05

Availability: This course is available on the MPhil/PhD in Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This is a readings based course dealing with advanced issues in accounting research methods. Its primary focus is to study accounting and financial reporting issues from an economics perspective. While much research studied in the course will be empirical archival in nature, the course also emphasises the importance of theory and research design in developing high quality research. The course covers a wide range of accounting issues including the design of and choices between alternative accounting methods, the use of accounting numbers in economic decision making, assessment of financial reporting quality, the economic consequences of financial reporting, and the interactions between financial reporting, legal and economic institutions, and corporate governance.

Teaching: 20 hours of lectures in the MT. 20 hours of lectures in the LT.

Assessment: Second year MPhil/PhD students in Accounting (Track 2) are formally assessed by a take-home exam in the Summer Term. First year MPhil/PhD students in Accounting (Track 2) will not normally be formally assessed but they will receive feedback in the form of formative assessments. In addition, all students participating in the course are expected to present research papers being studied and will receive feedback on their presentations aimed at developing and improving their presentation skills.

AC502

Foundations of Accounting, Organizations and Institutions

This information is for the 2016/17 session.

Teacher responsible: Prof Michael Power KSW 3.12

Availability: This course is compulsory on the MPhil/PhD in Accounting (Track 1). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is also offered for students from other MPhil/PhD programmes, with the approval and written permission of the PhD in Accounting Programme Director.

Course content: The object of the course is to provide students with an advanced understanding of the changing role and position of accounting practices in organisations, both public and private, and societies more generally. Students will be exposed to advanced thinking about how accounting practices are much more than a collection of routine techniques but are shaped by their institutional contexts, have behavioural consequences and can represent different values. We will focus on how efforts to design internal and external accounting practices are both a function of specific economic and political interests, but are also shaped by social and political aspirations. The role of accountants and other agents will be addressed.

The course emphasises the inter-relations between technical, organisational and institutional issues. While some technical accounting knowledge will be helpful, it is not essential and each lecture will provide the necessary technical foundations.

Indicative topics include:
- Foundations of Reporting, Calculation and Disclosure; Transnational Regulation and Standardisation; Accounting and the Notion of “Entity”;
- Audit and Assurance: The Audit Society; Organisational Boundaries, Structure and Control; Performance, Accountability Incentives; Accounting for Sustainability; Organisational Failure as a Process.

Teaching: 10, 3-hour seminars in weeks 1-10 of MT and a 2-hour essay workshop in week 11 of MT.

Formative coursework: Students will be required to produce two pieces of written work. This may take the form of either an essay, or the analysis of a case, and may also include in-class presentations and team-based work. This work will be assessed, but the grades will not count towards the overall course assessment.

Assessment: Essay (100%, 6000 words) in the ST.

MPhil/PhD in Accounting students must pass the course examination, normally with high Merit (at least 65%) or Distinction marks, to proceed to the next year of the programme.

AC550

Quantitative Methods in Accounting and Finance

This information is for the 2016/17 session.

Teacher responsible: Dr Stefano Cascino OLD 3.32, Dr Pascal Frantz OLD 3.07 and Prof Ane Miren Tamayo OLD 5.05

Availability: This course is available on the MSc in Accounting and Finance and MSc in Law and Accounting. This course is not available as an outside option.

Course content: The objective of the course is to provide students with the necessary background required for core accounting and finance courses. The course is organised in three sections:

Section 1 - “Accounting: Disclosure Principles and Practice” provides an overview of fundamental accounting concepts, practices and the main financial statements. This section emphasises users’ perspective rather than preparers’ perspective on financial reporting (eg, for valuation purposes).

Section 2 - “Game Theory: Application to Capital Markets” introduces the game theoretical tools required to analyse issues in accounting and finance in settings in which economic agents interact strategically.
Section 3 - “Finance: Quantitative Methods” provides the basic quantitative tools needed for technical MSc courses. This section consists of an introduction to Basic Calculus, Probability and Statistics.

Teaching: Teaching takes place over a 9-day period before the start of MT.

Indicative reading: A detailed reading list will be provided at the beginning of the course.

Assessment: This course is not assessed. However, students will be given a number of application exercises to complete on their own or in groups.

AN500
Seminar on Anthropological Research

This information is for the 2016/17 session.

Teacher responsible: Dr Michael Scott OLD 6.16, Dr Mukulika Banerjee OLD 5.09 and Dr Harry Walker OLD 5.06B

Availability: This course is compulsory on the MPhil/PhD in Anthropology and MRes/PhD in Anthropology. This course is not available as an outside option.

Course content: Seminar on Anthropological Research

Teaching: 20 hours of seminars in the MT, 20 hours of seminars in the LT, 14 hours of seminars in the ST.

Assessment: This course is not assessed.

AN503
Thesis Writing Seminar

This information is for the 2016/17 session.

Teacher responsible: Dr Nicholas Long OLD 6.14, Prof Deborah James OLD 6.06 and Prof Katherine Gardiner OLD 5.07

Availability: This course is available on the MPhil/PhD in Anthropology. This course is not available as an outside option.

Teaching: 20 hours of seminars in the MT, 20 hours of seminars in the LT, 14 hours of seminars in the ST.

Assessment: This course is not assessed.

AN505
Advanced Professional Development in Anthropology

This information is for the 2016/17 session.

Teacher responsible: Prof Charles Stafford OLD6.02

Availability: This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

Course content: This seminar course has two main aims. First, it examines key theoretical concepts and approaches in Anthropology at an advanced level that may be relevant to post-fieldwork doctoral candidates. It may focus on widely ranging thematic areas, e.g. recent developments in cognitive anthropology and/or in material culture studies and/or in anthropological studies of ontology. The aim is to enhance the ability of students to engage with such debates at an advanced level. Second, the course aims to enhance the professional development of doctoral students by providing them with advanced training in writing and presentation skills, and more generally in relation to skills relevant to their career progression.

Teaching: 14 hours of seminars in the MT, 14 hours of seminars in the LT, 12 hours of seminars in the ST.

Assessment: Other (100%) in the MT, LT and ST.

AN507
Theoretical Issues in Anthropology: Precepts and Practice II

This information is for the 2016/17 session.

Teacher responsible: Prof David Graeber OLD 6.10, Prof Laura Bear OLD 6.09 and Dr Fenella Cannell OLD 6.07

Availability: This course is available on the MPhil/PhD in Anthropology. This course is not available as an outside option.

Course content: The course examines key theoretical concepts and approaches in anthropology. It focuses on a number of areas, including post-structuralist and post-modernist theory; theories of the person and the body; theories of gender; theories of social change; theories of distribution and consumption; theories of religion and ritual; and such theoretical issues as are determined from time to time to be relevant to the course participants.

Teaching: 10 hours of seminars in the LT, 8 hours of seminars in the ST.

Assessment: This course is not assessed.

DV500
Research Seminar in Development Studies

This information is for the 2016/17 session.

Teacher responsible: Dr Diana Weinhold CON.7.10 and Prof David Keen CON.7.13

Availability: This course is available as an outside option to students on other programmes where regulations permit.

Course content: This seminar is designed as a forum for discussing theoretical and methodological issues in Development Studies research. Modules are organized around broad methodological issues (e.g. research design, case studies, causal inference) and presentations of research, with the former featuring heavily in the MT and the latter in the LT and ST. Research presentations at the seminar are made by DESTIN research students and also by staff, with some invited speakers from outside.

All research students are expected to attend the seminar while in residence in London. First year students are required to present a draft of their research proposal to the seminar during the LT or ST. Continuing students are invited to make presentations based on a report of their research, draft chapters or even their final draft of the dissertation. In making their presentations students are asked to provide (a) background material about the particular issue at hand, (b) a clear statement of the research questions and/or hypotheses that are being addressed, and (c) discussion of the research methods to be employed. Students should inform their supervisor(s) of the date when they are scheduled to make a presentation.

Teaching: 15 hours of seminars in the MT, 15 hours of seminars in the LT, 10 hours and 30 minutes of seminars in the ST.

Assessment: This course is not assessed.

DV501
Half Unit Development History, Theory and Policy for Research Students

This information is for the 2016/17 session.

Teacher responsible: Prof James Putzel

Availability: This course is compulsory on the MRes/PhD in International Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course integrates the concepts and perspectives of a range of disciplines to consider: major trends of

Teaching: 20 hours of lectures and 20 hours of seminars in the MT. Students will attend the Michaelmas Term lectures for DV400 and an associated weekly seminar for research students only.

Formative coursework: Students will be expected to produce 2 presentations in the MT.

Indicative reading: The following are recommended basic readings for the course:

Assessment: Essay (100%, 5000 words) in January.

DV518
African Development

This information is for the 2016/17 session.

Teacher responsible: Prof David Keen CON 7.16, Dr Diana Weinhold CON 7.10 and Prof Thandika Mkandawire CON 8.02

Head of Department, Doctoral Programme Directors, MSc Course Convener and PhD Supervisor

Availability: This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

This course is available as an option for students enrolled in the MRes/PhD in International Development only.

Course content: The major concern of the course is with the political economy of African development, to examine processes of economic, political, social, protection, and cultural change in Sub-Saharan Africa. It provides critical analysis of key development interventions and processes. It seeks to combine general theoretical overviews with country case studies illustrating the variety of experiences and trajectories. It does not aim to provide a comprehensive coverage of development issues or of regions. Course content will vary from year to year, depending on the specialties of staff.

Attention is paid to legacies of the colonial encounter; the constraints and opportunities presented by African countries’ positions in the global economy; the political economy of industrialisation and agrarian transformation, resource mobilisation; trade diversification; institutional reforms and state capacity.

Attention will also be paid to social policy with special focus on issues such as social social protection, cash transfers, Millennium Development Goals, horizontal inequality and conflict.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval

Indicative reading: A detailed weekly reading list will be provided at the first course meeting. The following readings provide an introduction to the course:

**Assessment:** Essay (100%, 5000 words) in the ST.

1 x 5000 word research paper to be submitted on the first Friday of the Summer Term. The research paper will be co-marked by the course convenor and the student's PhD supervisor.

---

**DV520** Half Unit Not available in 2016/17 Complex Emergencies

This information is for the 2016/17 session.

**Teacher responsible:** Prof David Keen CON 7.16 and Dr Diana Weinhold CON 7.10

Head of Department, Doctoral Programme Directors, MSc Course Convenor and PhD Supervisor

**Availability:** This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

This course is available as an option to students enrolled in the MRes/PhD in International Development only

**Course content:** The course examines the consequences and causes of humanitarian disasters. It looks at the changing nature of civil conflicts, at the famine process, and at the benefits that may arise for some groups from war and famine. It examines some of the roots of violence in civil wars, as well as the information systems that surround and help to shape disasters.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval

**Indicative reading:** A detailed weekly reading list will be provided at the first course meeting. A useful text, which is designed in large part around the course, is David Keen, Complex Emergencies (Polity, 2008). Other texts of interest include David Keen, Useful Enemies: When Waging Wars is More Important than Winning Them (Yale University Press, 2012); Stathis Kalyvas, The Logic of Violence in Civil War (Cambridge University Press, 2006); David Keen, Conflict and Collusion in Sierra Leone (James Currey, 2005); David Keen, Endless War? Hidden Functions of the ‘War on Terror’ (Pluto, 2006); Michael Mann, The Dark Side of Democracy: Explaining Ethnic Cleansing (Cambridge University Press, 2005); Amartya Sen, Poverty and Famines (Oxford University Press, 1981); Frances Stewart and Valpy FitzGerald (eds.), War and Underdevelopment, Volumes 1 and 2 (Oxford University Press, 2001); and Jeremy Weinstein, Inside Violence: The Politics of Insurgent Violence (Cambridge University Press, 2007); Tim Allen, Trial Justice: The International Criminal Court and the Lord’s Resistance Army (Zed Press, 2006), Chris Dolan, Social Torture: The Case of Northern Uganda, 1986-2006 (Berghahn, 2009); Zoe Marriage, Not Breaking the Rules, Not Playing the Game: International Assistance to Countries in Conflict (Hurst and Co., 2006); Christopher Cramer, Civil War is Not a Stupid Thing: Accounting for Violence in Developing Countries (Hurst and Co., 2006); Mats Berdal and David Malone, Greed and Grievance: Economic Agendas in Civil Wars (Lynne Rienner, 2000); Hugo Slim, Killing Civilians: Method, Madness and Morality in War (Hurst and Co., 2008).

**Assessment:** Essay (100%, 5000 words) in the ST.

1 x 5000 word research paper to be submitted on the first Friday of the Summer Term. The research paper will be co-marked by the course convenor and the student's PhD supervisor.
development and non-development. It focuses on the different kinds of authority, incentives and accountability mechanisms that govern the relationships between managers and recipients in the institutions and organisations that people use to meet their political, economic and social needs. It reviews ongoing debates about the best ways of designing state agencies, private firms and NGOs in order to enable students to make practical judgements about institutional reform programmes by showing how centralised bureaucracies, markets, participatory and solidaristic agencies operate to provide essential services. It explores deep theories about the emergence of the state, and the different social, political and economic actors that work within it and vie to control it. And it examines how these forces interact to drive processes of change in different kinds of society, and especially in ‘Late Developing Societies’ that are attempting to make transitions to modernity by reviewing the literature that explain problems of state, economic and social failure and reconstruction in poor countries. The course is divided into four parts: (1) Analytical assumptions, (2) Governance and government, (3) Private Sector, and (4) Civil Society. On completing the course students should be able to: (i) use theory to solve practical development problems; (ii) identify and assess relevant case study material to inform the practice of development management; and (iii) critically appraise their own practical experience as workers in development organisations or consumers of their services. The course reviews literature dealing with the principles governing the institutions and organisations through which policies, programmes and projects are implemented. It examines the variety of functions they must perform; the structures they can assume; the incentive systems which motivate them and how they relate to differing political, economic and social conditions. It considers recent literature which re-evaluates the way these processes are understood, looking in particular at recent developments in economics, public sector management, social policy and organisational ethnography. It focuses on the role of hierarchy, competition and participation in providing different kinds of services in different situations and contexts. It provides an analytical basis for making judgements about institutional reform programmes by showing how different kinds of institutions and organisations, centralised bureaucracies, markets, participatory and solidaristic agencies operate to provide services in practice.

**Teaching:** 20 hours of lectures, 15 hours of seminars and 4 hours of workshops in the MT. 20 hours of lectures and 12 hours of seminars in the LT. There will be an introductory 4 hour workshop on Wednesday afternoon of week 1. There are also special evening sessions. Lectures will focus on the theoretical debates driving current policy practice in the development community, while seminars will relate these to practical problems of implementation, drawing on case studies, class exercises, and the personal experience of participants. Seminars will discuss topics covered in the lecture, and will be conducted on the basis either of a student presentation or a class exercise.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT. A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval.

**Assessment:**

- **Assessment path 1**
  - Essay (100%, 10000 words) in the ST.
  - Exam (60%, duration: 3 hours) in the main exam period.
  - Essay (40%, 5000 words) in the ST.

The research paper will be co-marked by the course convenor and the student’s PhD supervisor.

---

**DVT545 Half Unit**

**Research Themes in International Development**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof David Keen CON 7.16, Dr Diana Weinhold CON 7.10 and Prof Tim Allen CON 7.12

**Head of Department, Doctoral Programme Directors, MSc Course Convenors and student’s PhD Supervisor**

**Availability:** This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

This course is available as an option for students enrolled on the MRes/PhD in International Development only.

**Course content:** The course will be structured around large research topics associated with the work of the International Development department such as Complex Emergencies, Control of Tropical Diseases, Assessments of Global Poverty, Dilemmas in African Leadership, the Economic Growth of China and may include language and other specialist training linked to the student's research. A set of readings will be proposed for each topic, with an orientation towards the publications of International Development staff. Themes and questions will change over time as according to developments in the literature and specific interests of staff teaching the course.

**Teaching:** 20 hours of lectures in the MT. 20 hours of lectures in the LT.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval.

**Assessment:**

- **Assessment path 1**
  - Essay (100%, 5000 words) in the ST.

1 x 5000 word research paper to be submitted on the first Friday of the Summer Term. The research paper will be co-marked by the course convenor and the student's PhD supervisor.
DV590  Half Unit  Economic Development Policy I

This information is for the 2016/17 session.
Teacher responsible: Prof David Keen CON 7.16, Dr Diana Weinhold CON 7.10 and Prof Danny Quah
Head of Department, Doctoral Programme Directors, MSc Course Convenor and PhD Supervisor
Availability: This course is available on the MRes/PhD in International Development. This course is not available as an outside option.
This course is available as an option for students enrolled in the MRes/PhD in International Development only.

Course content: This course focuses on analytically and empirically rigorous analyses of economic policies for macroeconomic growth in developing countries. We review current theoretical debates and consider how the use of empirical evidence can help to inform our analyses. In particular, increasing data availability has meant that the effectiveness of development policies, in terms of improving welfare, reducing poverty and promoting growth, can now be analysed using a variety of quantitative techniques. By looking at how these approaches can be applied to a range of development issues, the course will provide an overview of new thinking on the design of public policy in developing countries. While a strong mathematical or statistical background is not necessary to follow the course, students will be expected to actively learn and engage with regression analysis and other econometric techniques. These skills are developed through the term with mandatory weekly problem sets and occasional in-class quizzes supplementing the lectures and readings. The course consists of one lecture on the interpretation of empirical regression analysis and the role of quantitative methods in policy evaluation, and a further 9 two-hour lectures on theory and policy issues of relevance to developing countries. Topics themselves may vary from year to year but may include determinants of growth; human capital accumulation; globalisation and the political economy of trade policy; the global evolution of income distribution, structural adjustment, and financial crises; economic geography of development; aid; debt relief; and environment and growth. Seminars consist of student-led participatory in-depth analyses of best-practice theory and quantitative empirical research papers which students assess and critique.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.
A plan for the research paper (1500–2000 words) on which the student will receive feedback and topic approval
Indicative reading: The bulk of the course will be taught using journal articles. A reading list will be handed out by the lecturers at the beginning of their sessions. Useful reference texts include D Ray, Development Economics (1998) which will serve as the course text, W Easterly, The Quest for Growth;
Assessment: Essay (100%, 5000 words) in the ST.
1 x 5000 word research paper to be submitted on the first Friday of the Summer Term. The research paper will be co-marked by the course convenor and the student's PhD supervisor

DV591  Half Unit  Not available in 2016/17  Economic Development Policy II

This information is for the 2016/17 session.
Teacher responsible: Prof David Keen CON 7.16, Dr Diana Weinhold CON 7.10 and Prof Danny Quah
Head of Department, Doctoral Programme Directors, MSc Course Convenor and PhD Supervisor
Availability: This course is available on the MRes/PhD in International Development. This course is not available as an outside option.
This course is available as an option for students enrolled in the MRes/PhD in International Development only.

Course content: This course focuses on analytically and empirically rigorous analyses of microeconomic economic policies in developing countries. We review current theoretical debates and consider how the use of empirical evidence can help to inform our analyses. In particular, increasing data availability has meant that the effectiveness of development policies, in terms of improving welfare, reducing poverty and promoting growth, can now be analysed using a variety of quantitative techniques. By looking at how these approaches can be applied to a range of development issues, the course will provide an overview of new thinking on the design of public policy in developing countries. Students without a strong background in statistics and economics should take DV590 as a prerequisite as students will be expected to actively engage with regression analysis and other econometric techniques. These skills are further developed through the term with mandatory weekly problem sets and occasional in-class quizzes supplementing the lectures and readings. The course consists of 10 2-hour lectures on microeconomic theory and policy issues of relevance to developing countries. Topics themselves may vary from year to year but may include health and education intra-household resource allocation; credit markets; social networks; and behavioural economics applied to the design of development policies. Seminars consist of student-led participatory in-depth analyses of best-practice theory and quantitative empirical research papers which students assess and critique.

Teaching: 20 hours of lectures and 15 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.
A plan for the research paper (1500–2000 words) on which the student will receive feedback and topic approval
Indicative reading: The bulk of the course will be taught using journal articles. A reading list will be handed out by the lecturers at the beginning of their sessions. Useful reference texts include D Ray, Development Economics (1998) which will serve as the course text, W Easterly, The Quest for Growth;
Assessment: Essay (100%, 5000 words) in the ST.
1 x 5000 word research paper to be submitted on the first Friday of the Summer Term. The research paper will be co-marked by the course convenor and the student's PhD supervisor

EC501  Work in Progress Seminars

This information is for the 2016/17 session.
Availability: This course is compulsory on the MRes in Economics and MRes/PhD in Economics. This course is available on the MPhil/PhD in Finance. This course is not available as an outside option.
Course content: Research students present their work to faculty and peers in the designated field. Outside speakers are also invited from time to time.
Teaching: Seminars EC501: eight seminar groups covering the major field options. The frequency of meetings to be determined according to the number of students in each specialism, but generally each group will meet weekly throughout the session.
Assessment: This course is not examinable.

EC518  Topics in Advanced Econometrics for Research Students

This information is for the 2016/17 session.
Teacher responsible: Prof Francisco Hidalgo 32L.4.20 and Dr Taisuke Otsu 32L.4.25
Availability: This course is available on the MRes in Economics and MRes/PhD in Economics. This course is not available as an outside option.
Course content: See course content for EC485. Additionally, this course will examine more advanced theories and applications in Econometric Theory. Recent developments in the field will be
discussed, giving students an insight into the process by which research is conducted, and suggesting fruitful areas for research.

**Teaching:** 20 hours of EC485 Topics in Advanced Econometrics lectures and 10 hours of EC518 lectures in each of the MT and the LT.

**Indicative reading:**
See reading list for EC485. Additional readings will be recommended at the start of the course.

**Assessment:** Exam (50%, duration: 2 hours) in the LT week 0. Exam (50%, duration: 2 hours) in the main exam period.

---

**EC532**

**International Economics for Research Students**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Gianluca Benigno 32L.1.12, Dr Swati Dhingra 32L.2.31, Dr Thomas Sampson 32L.2.34, Prof Gianmarco Ottaviano 32L.2.27A and Prof Maria Tenreyro 32L.2.17

**Availability:** This course is available on the MRes in Economics and MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** This course is concerned with the latest developments in international economics. The course builds on techniques introduced in MSc International Economics (EC421) to take students to the research frontier. One term covers international trade and the other term covers international macroeconomics. The course is based around research papers. Topics covered vary from year to year as the research frontier expands. A list of representative topics in international trade includes: micro-econometric studies of international trade, theories of heterogeneous firms and trade, theories of incomplete contracts and trade, and the political economy of trade policy. A list of representative topics in international macroeconomics includes international business cycles, determinants of international capital flows, portfolio choice and risk sharing, monetary and fiscal policy in open economies, theoretical and empirical work on the real exchange rate and international financial crises (e.g., currency attacks and sovereign defaults).

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Indicative reading:** Readings will be from journal articles; a list will be supplied at the start of term.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC533**

**Labour Economics for Research Students**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Guy Michaels 32L.2.10, Prof Jorn Pischke 32L.2.16 and Prof Yona Rubinstein CON.5.31

**Prof Stephen Machin - 32L 2.06A**

**Availability:** This course is available on the MRes in Economics and MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** The aim of the course is to familiarise students with main theoretical and empirical issues in current labour economics, to provide them with the tools for carrying out independent research in the field, and to provide a perspective on areas of ongoing research. The course has a strong applied focus. For each major topic covered we will investigate the main available theories in light of their testable implications, and discuss the advantages and limitations of existing empirical work and assess policy options.

Topics include:
- Labour supply, household behaviour, and the allocation of time
- Labour demand and monopsony
- Search, matching, labour market frictions, unions, and unemployment
- Wage determination, compensating differentials, race and gender gaps, and wage inequality
- Human capital, returns to schooling, and training
- Contracts and incentives in the labour market

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:**
One piece of work per term will be required and feedback given by teachers.

**Indicative reading:**
Readings will be mainly from journal articles; a list will be supplied at the start of term.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC534**

**Public Economics for Research Students**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Henrik Kleven 32L.3.16, Dr Camille Landais 32L.3.23 and Dr Johannes Spinnewijn 32L.3.24

**Availability:** This course is available on the MRes in Economics and MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** The course will cover the economics of the public sector, including material on taxation, public expenditures and political economics. The course, which covers both theory and empirics, aims to give students a broad overview of this growing field and bring them to the research frontier. The specific topics covered may vary from year to year, but the following general areas would typically be included:
- Behavioural responses to taxes and transfers
- Optimal taxation
- Dynamic taxation
- Behavioural public economics
- Social insurance
- Federalism
- Privatization and regulation
- Voting
- The role of communication in politics
- Special-interest politics
- Political institutions
- Political accountability

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:**
One piece of work per term will be required and feedback given by teachers.

**Indicative reading:**
Readings will be mainly from journal articles; a list will be supplied at the start of term.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC535**

**Development Economics for Research Students**

This information is for the 2016/17 session.

**Teacher responsible:** Dr Gharad Bryan 32L.3.10, Dr Gregory Fischer 32L.3.09 and Prof Maitreesh Ghatak 32L.3.08A

**Availability:** This course is available on the MRes in Economics and MRes/PhD in Economics. This course is not available as an outside option.

---
**EC536 Economics of Industry for Research Students**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Alessandro Gavazza 32L.4.21, Dr Matthew Gentry 32L.4.28, Prof Martin Pesendorfer 32L.4.19 and Dr Pasquale Schiraldi 32L.4.22

**Availability:** This course is available on the MRes in Economics and MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** The main goal is to familiarize students with selected theoretical and empirical topics in industrial organization and to put students in a position to do their own research. Classical IO theory, well established empirical techniques including estimation of demand, production and models of strategic interaction and topics at the forefront of current IO research will be covered.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** One piece of work per term will be required and feedback will be given by teachers.

**Indicative reading:** Readings will be mainly from journal articles; a list will be supplied at the start of term.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC537 Microeconomic Theory for Research Students**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Andrew Ellis 32L.3.15, Dr Matthew Levy 32L.3.21 and Prof Balazs Szentes 32L.4.05

**Availability:** This course is available on the MRes in Economics and MRes/PhD in Economics. This course is not available as an outside option.

**Pre-requisites:** Students must have completed Microeconomics for MRes students (EC441).

**Course content:** The objective of this course is to provide students with a graduate level introduction to advanced topics and contemporary developments in Microeconomic Theory. Topics will include:

- Classic static and dynamic game theory
- Contract theory
- Bounded rationality
- Psychology and economics.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** One piece of work per term will be required and assessed by teachers.

**Indicative reading:** Osborne M, and Rubinstein A, A Course in

---

**EC539 Macroeconomics for Research Students**

**This information is for the 2016/17 session.**

**Teacher responsible:** Dr Shengxing Zhang 32L.1.16, Prof Philippe Aghion 32L.2.02, Dr David Baqae 32L.2.18 and Prof Ricardo Reis 32L.1.27

**Availability:** This course is available on the MRes in Economics and MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** Surveys the most recent development in macroeconomics, with an emphasis on technical detail and directions for further research opened up by the material. The goal is to put the students on the research path by bringing them to the research frontier.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** One piece of work per term will be required and feedback given by teachers.

**Indicative reading:** Readings will be mainly from journal articles; a list will be supplied at the start of term.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC540 Political Economy**

**This information is for the 2016/17 session.**

**Teacher responsible:** Prof Torun Dewan CON.6.07, Dr Ethan Ilzetki 32L.1.10, Prof Gilat Levy 32L.4.31 and Prof Torsten Persson

**Availability:** This course is available on the MRes in Economics, MRes/PhD in Economics and PhD in Political Science. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** MRes Economics first year core courses for Economics students, EC400 and adviser’s approval for Government students. EC400, EC411 (or equivalent) and course convener’s approval for all other students.

**Course content:** The course will provide students with the economic methodology and tools for the analysis of political decision making and its effect on public policy. We will consider how political institutions shape economic policy, e.g., how do institutions such as election, legislative bargaining, political parties or non-democratic regimes shape redistributive policies, fiscal policies, and the size of government. We will also consider how in the absence of institutions, political attitudes, beliefs and norms shape policies. The course will focus on analytical models and their testable implications.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** Students will discuss papers in lectures and will be given the opportunity to solve problem sets.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

EC599
Research Paper in Economics
This information is for the 2016/17 session.
Availability: This course is compulsory on the MRes/PhD in Economics. This course is not available as an outside option.
Course content: A research paper, between 5,000 and 10,000 words, related to the student's designated major field, to be submitted mid-way through the summer term.
Assessment: Dissertation (100%, 10000 words) in the ST.

EH510
Seminar on Modern Economic History
This information is for the 2016/17 session.
Teacher responsible: Professor Max Schulze SAR 6.14 and Professor Joan R. Roses SAR 5.15.
Availability: This course is available on the MPhil/PhD in Economic History. This course is available as an outside option to students on other programmes where regulations permit. For research students. Also open to other EH graduate students and attended by LSE and other faculty.
Course content: The seminar provides a context in which research students can discuss with a range of seminar presenters from inside and outside LSE presentations of different aspects of economic development during the modern period.
Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT. 4 hours of seminars in the ST.

EU550
Research Workshop in European Studies
This information is for the 2016/17 session.
Teacher responsible: Dr Mareike Kleine COW 2.01, Dr Vassilis Monastiriotis COW 2.05, Dr Waltraud Schelkle COW 1.06 and Dr Jonathan White COW 1.09
Availability: This course is compulsory for all first, second and third year European Institute MPhil/PhD students. The course is also recommended for those second and third year PhD students in the Government Department whose research focuses on European topics.
Course content: Presentation and detailed discussion of PhD theses, outlines and progress reports. Discussion of thesis chapters and related doctoral research. Discussion of research design and methodology. Practice conference panel sessions. A detailed syllabus is fixed at the start of each term.
Teaching: 15 hours of seminars in the MT. 15 hours of seminars in the LT. 15 hours of seminars in the LT.
Assessment: There is no examination for this course. Regular attendance and active participation is required. All students are required: to present at least one substantial chapter/paper draft; to act as a discussant on another paper; and to make a contribution to a conference panel session.

EH518
The Economic History of Firms & Industries Seminar
This information is for the 2016/17 session.
Teacher responsible: Dr Gerben Bakker SAR 5.09
Availability: This course is available on the MPhil/PhD in Economic History. This course is available as an outside option to students on other programmes where regulations permit. For research students. Also open to other EH graduate students and attended by LSE and other faculty.
Course content: The seminar provides a context in which research students can discuss with a range of seminar presenters from inside and outside LSE presentations of different aspects of economic development. Presentations in this seminar relate particularly to economic development issues beyond the N American-European area, including aspects of global economic history.
Teaching: 8 hours of seminars in the MT. 8 hours of seminars in the LT.

EH520
Approaches to Economic and Social History
This information is for the 2016/17 session.
Teacher responsible: Prof Mary Morgan SAR 609 and Prof Juan Roses Vendiero SAR 515
Availability: This course is compulsory on the MPhil/PhD in Economic History. This course is not available as an outside option. This course is restricted to 1st year MPhil students in the Department of Economic History, for whom attendance is compulsory.
Course content: Approaches to Economic and Social History
Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT.
Assessment: There is no indicative reading list for this course as readings are updated annually to reflect student’s interests.

EH590
Thesis Workshop in Economic History
This information is for the 2016/17 session.
Teacher responsible: Prof Juan Roses Vendiero SAR 515
Availability: This course is compulsory on the MPhil/PhD in Economic History. This course is not available as an outside option.
Course content: Thesis workshop in Economic History.
Teaching: 15 hours of seminars and 20 hours of seminars in the MT. 15 hours of seminars and 20 hours of seminars in the LT. 15 hours of seminars and 20 hours of seminars in the ST.
Assessment: This course is not examined.

EU554
Not available in 2016/17
Research Methods and Design in European Studies
This information is for the 2016/17 session.
Availability: This course is compulsory on the MPhil/PhD in European Studies. This course is not available as an outside option.
Course content: The course provides training in methods and research design tailored to European studies. Students are encouraged to discuss the distinctive problems of their own research in the light of the methodological and design issues raised. The last section of the course is taken up with student presentations and the development of research proposals in the run up to the first year assessment process in May/June.
Teaching: Weekly one and-a-half hour seminars during the MT and LT.
Assessment: There is no assessment on this course.
EU555
Political Economy and Public Policy Workshop
This information is for the 2016/17 session.
Teacher responsible: Prof Mark Thatcher CON 4.17, Dr Mareike Kleine COW 1.01 and Dr Sandy Hager CLM 4.10
Availability: This course is available on the MPhil/ PhD in European Studies, MPhil PhD in Government (Joint) and MPhil/PhD in International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
This workshop is jointly organised by the European Institute, the Government Department and the International Relations Department for research students of these departments working in the general area of political economy and public policy and who have usually passed their first year. Research students from other departments wishing to attend should contact the teachers responsible. It should be noted that the course has three codes-EU555, GV555 and IR555.
Course content: Presentation and intense discussion of thesis chapters and related work. A detailed syllabus is fixed at the start of the year. Seminar presentations by outside speakers may be added.
Teaching: Ten one and-a-half hour fortnightly meetings in MT and LT, commencing in week 1 of MT. A mini-conference in the ST, organised by the students themselves.
Assessment: There is no examination for this course. Regular attendance and active participation by all students is required. Each attending student has to give at least one presentation.

FM502
Corporate Finance for Research Students
This information is for the 2016/17 session.
Teacher responsible: Prof Daniel Paravisini Maggi Dr Mike Burkart
Availability: This course is compulsory on the MRes/PhD in Finance (Route 1) and MRes/PhD in Finance (Route 2). This course is available on the MPhil/PhD in Accounting and MRes/PhD in Economics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Doctoral students in the Departments of Finance and Economics, and other students with the permission of the PhD Finance Programme Director
Course content: The first half of this course focuses on the theory of corporate finance. The theory half of the course can, in turn, be subdivided into two parts. The first part reviews some of the classical concepts in corporate finance, using tools from game and contract theory to study incentive and information problems at the level of the firm, examining how financial contracts can be designed to mitigate these problems. This part of the course also considers how takeovers and ownership concentration can help to mitigate conflict of interests among insiders and investors in firms. The second part focuses on the theory of financial intermediation. This component reviews the classical theories for the existence of financial intermediaries, focusing on the key inter-linkage between financial intermediation and financial fragility. This component of the course also examines the role of financial intermediaries in engendering financial market imperfections. The second half of the course will consider empirical methods in corporate finance and its applications to capital structure, investments, financial distress, corporate governance, and financial intermediation.
Teaching: 30 hours of lectures in the MT. 30 hours of lectures in the LT.
Assessment: Exam (75%, duration: 3 hours) in the main exam period.
Project (25%) in the LT.

FM503
Asset Pricing for Research Students
This information is for the 2016/17 session.
Teacher responsible: Dr Georgy Chabakauri, Prof Ian Martin and Dr Dong Lou
Availability: This course is compulsory on the MRes/PhD in Finance (Route 1) and MRes/PhD in Finance (Route 2). This course is available on the MPhil/PhD in Accounting and MRes/PhD in Economics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course is divided into two parts relating to asset pricing theory, empirical asset pricing. The asset pricing theory half of the course will cover static models of frictionless markets, dynamic discrete-time models, dynamic continuous-time models, and models with frictions. The second half of the course is dedicated to empirical evaluation of asset-pricing models. Representative agent models (with power, habit and recursive preferences) and their application to valuation of equities are covered. Next, no-arbitrage term-structure and option-pricing models are discussed. The class concludes with both equilibrium and reduced-from models of currencies.
Teaching: 30 hours of lectures in the MT. 30 hours of lectures in the LT.
Indicative reading:
• Darrell Duffie Asset Pricing Theory, Princeton University Press
Assessment: Exam (90%, duration: 3 hours) in the main exam period.
Project (10%) in the LT.

FM505
PhD Seminar in Finance
This information is for the 2016/17 session.
Availability: This course is compulsory on the MRes/PhD in Finance (Route 1) and MRes/PhD in Finance (Route 2). This course is not available as an outside option.
Course content: This is a seminar course for PhD students in the early stages of their research to present their work in progress. Outside speakers may also be invited from time to time.
Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT.
Other meetings to be arranged as necessary.
Assessment: Essay (100%, 10000 words) in the LT.
A 10,000 word essay on a topic to be agreed with the student’s supervisor. This essay is to be submitted by the end of the ST of the third year of registration for Route 1 students, and by the end of the ST of the second year of registration for Route 2 students.

GI500
Doctoral Workshop: Gender Institute
This information is for the 2016/17 session.
Teacher responsible: Professor Diane Perrons, COL 5.01B
GV501  
**Doctoral Workshop: Political Theory**

This information is for the 2016/17 session.  
**Teacher responsible:** Dr Leigh Jenco  
**Availability:** Compulsory for PhD students in the Government Department specialising in political theory.  
**Course content:** An opportunity for students to present chapters or papers related to their current research for critical discussion.  
**Teaching:** 10 hours of seminars in the MT. 10 hours of seminars in the LT. 6 hours of seminars in the ST.  
There are typically 5 sessions in MT and 5 sessions in LT, and a variable number of sessions in ST. The precise schedule will be made available at the start of each term.

GV503  
**Political Philosophy Research Seminar**

This information is for the 2016/17 session.  
**Teacher responsible:** Dr Kai Spiekermann  
**Availability:** Compulsory for all PhD students in the Government Department specialising in political theory. Other interested students are welcome to attend, if numbers permit.  
**Course content:** Guest speakers present papers and initiate discussion at seminars.  
**Teaching:** 10 hours of seminars in the MT. 10 hours of seminars in the LT. 6 hours of seminars in the ST.  
**Assessment:** No assessment

GV504  
**Research Methods in Political Theory**

This information is for the 2016/17 session.  
**Teacher responsible:** Prof Anne Phillips CON.5.07  
**Availability:** This course is compulsory on the MRes Political Science. This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Course content:** This course provides an introduction to the philosophical and methodological foundations of political theory. It aims to give doctoral students a comprehensive conceptual toolbox that can be brought to bear on many different substantive problems and research questions in political theory and neighbouring fields and will prepare doctoral students for choosing and reflecting on their methodological approach. The course runs in concurrence with the Political Philosophy Research Seminar and the Doctoral Workshop in Political Theory, complemented by a reading group in the Lent Term on methodological questions in political theory.  
**Teaching:** 20 hours of workshops in the MT. 10 hours of seminars and 20 hours of workshops in the LT. 4 hours of workshops in the ST.  
**Formative coursework:** Regular presentations in the reading group.  
**Indicative reading:** Some possible choices for the reading group:  
- Jacob Levy, 2015, Rationalism, Pluralism and Freedom, OUP.  
- Michael Freedon, 2013, The Political Theory of Political Thinking, OUP.  
- Miranda Fricker, 2007, Epistemic Injustice: Power and the Ethics of Knowing, OUP.  
- Philip Pettit, 2012, On the People's Terms, CUP.  
**Assessment:** Essay (50%, 4000 words) in the LT. Essay (50%, 4000 words) in the ST.

GV510  
**Ethnicity and Nationalism Research Workshop**

This information is for the 2016/17 session.  
**Teacher responsible:** Dr Douglas Hutchinson and Prof John Breuilly  
**Availability:** This course is available on the MPhil/PhD in Government, MRes Political Science and PhD in Political Science. This course is available as an outside option to students on other programmes where regulations permit.  
For MRes/PhD students specialising in Ethnicity and Nationalism, who have attended an LSE Undergraduate or Master's course in this or a related field, or equivalent at another University. By permission, Visiting Students and others may also participate.  
**Course content:** Critical analysis of recent theories and research in the fields of Ethnicity and Nationalism.  
**Teaching:** 8 hours of workshops in the MT. 20 hours of workshops in the LT. Students may also attend the lectures in GV479 Nationalism and the fields of Ethnicity and Nationalism.  
**Formative coursework:** There is no formative assessment. This is a reading course.  
**Indicative reading:** This changes each year, depending on the theme chosen.  
**Assessment:** There is no examination for this course.

GV513  
**Half Unit Qualitative Methods in the Study of Politics**

This information is for the 2016/17 session.  
**Teacher responsible:** Dr Steffen Hertog CON4.01  
**Availability:** This course is available on the MRes Political Science. This course is available with permission as an outside option to students on other programmes where regulations permit.  
Other PhD students must request permission from the class teacher, which is routinely granted subject to capacity.  
**Course content:** This course introduces and critically evaluates,
at the advanced postgraduate level, a key range of qualitative techniques and methods in political science. It aims to build students’ capability to evaluate such methods and to select, reject, and deploy them in research design and practice. The course begins with debates over the place of qualitative methods in political science, and the question of how to match ideas to methods. The rest of the course is devoted to exploring a range of qualitative techniques, including case selection, case studies and process tracing, comparisons, interviews and field research, qualitative comparative analysis, and “mixed methods”. The content of each week will be integrated as closely as possible with participants’ own research projects (even if qualitative work constitutes only a small part thereof). The course is relevant for political scientists, but also students of development and international relations.

**Teaching:** 20 hours of seminars in the LT.

**Formative coursework:** Critiques of articles or books that use the various methodologies discussed in the course.

**Indicative reading:**
- Paul Rabinow, Reflections on Fieldwork in Morocco, first published 1977 (University of California Press, 2007);
- David Collier and Henry Brady, Rethinking Social Inquiry (Rowman and Littlefield 2010);

**Assessment:**
- Essay (30%, 2000 words) in the LT.
- Project (70%, 3000 words) in the ST.
  1. A thorough critique of an article which uses one of the methods discussed in the course (2000 words) and
  2. EITHER a complete “mock” research design, preferably (although not necessarily) on their own research question (3000 words) OR a discussion of the advantages and limitations of a specific empirical technique, based on a review of at least two pieces of published research (3000 words).

---

**GV514**  
**Political Science and Political Economy Doctoral Workshop**

This information is for the 2016/17 session.

**Teacher responsible:**  
Dr Stephane Wolton CON 5.08

**Availability:** This course is available on the MPhil/PhD in Government, MRes Political Science and PhD in Political Science. This course is available as an outside option to students on other programmes where regulations permit. Mainly for second and subsequent year research students and staff in Government and elsewhere in the School involved in research in political science and/or political economy. First year MRes and research students are welcome to attend.

**Course content:** The PSPE Doctoral Workshop/Work in Progress Seminar is intended as a setting in which Research Students from the Government Department present and receive feedback on early stage and ongoing research projects. In weeks when research students do not present, LSE PhD students, LSE staff, and visiting scholars from other departments will present. The Seminar aims to foster a strong and lively research community and as such, welcome empirical or theoretical work linked in any way to politics or political economy.

**Teaching:** 22 hours of seminars in the MT. 22 hours of seminars in the LT. 7 hours of seminars in the ST. The workshop will meet every week.

**Assessment:** Not assessed.

---

**GV517**  
**Half Unit**  
**Comparative Political Economy: New Approaches and Issues in CPE**

This information is for the 2016/17 session.

**Teacher responsible:** Prof David Soskice and Prof Catherine Boone

**Availability:** This course is open to all LSE research students who are interested in comparative political economy.

**Pre-requisites:** This course will be open to research students (PhD students) from any of the LSE departments.

**Course content:** This half-unit reading seminar will survey a set of major topics in the Comparative Political Economy (CPE) of advanced capitalist and developing countries. We will consider different analytic strategies for conceptualizing variation in national economic structure, explaining change in economic structure, and understanding the political causes and effects thereof. The seminar is designed for PhD students (research students) across the School wanting to familiarize themselves with some of the major themes, controversies, and research frontiers in CPE. Our goal is to nurture innovation in doctoral-level CPE research at the LSE. While situating our analyses in the context of a changing global economy, our focus will be on describing and explaining transformation at the level of nation states. Drivers of change can be found in the locus and organization of political power, in technological change, and/or in the dynamics of capital. Our seminar will explore both productive connections and tensions that emerge across these explanatory models.

Course materials are organized around three major topic areas (though like most else in CPE they are interrelated): redistribution, accumulation, and domestic regimes. A great many questions fit into these areas and our idea is that the seminars should enable students to raise issues related to their research.

**Teaching:** 30 hours of seminars in the LT.
Formative coursework: For formative work, feedback will be provided on a dissertation proposal or chapter.
Indicative reading: Ben Ansell, From the Ballot to the Blackboard: The Redistributive Political Economy of Education Reform, CUP 2014

Assessment:
There is no examination for this course. Regular
is also a mini-conference in the ST, organised by the students
and 30 minutes of seminars in the LT.

Teaching:
thesis outlines, chapters and related work. A detailed programme
Course content:
Presentation and intense discussion of
and IR555.

Research Prospectus in Political Science
This information is for the 2016/17 session.
Teacher responsible: Dr Kai Speierkermann CON 5.17
Availability: This course is compulsory on the MRes Political
Science. This course is not available as an outside option.
For MRes/PhD students in Political Science only.
Course content: A research paper, not to exceed 10,000 words, related to the student’s designated major field, to be submitted in early September.
Assessment: Research project (100%, 10000 words) in September.

GV5X1
Research Design in Political Science
This information is for the 2016/17 session.
Teacher responsible: Dr Kai Speierkermann CON 5.17 and Dr Joachim Wehner
Availability: This course is compulsory on the MRes Political Science. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The aim of this course is to help PhD students develop a research design. Students will learn how to find their research questions, choose a feasible data collection or modelling strategy, and match data collection and analytic methods to the aims of the PhD project. We also consider the relation of political theory and political science and explore research methodologies in normative theory. This course is therefore designed to be a primer in asking the right questions, exploring the options available to us and understanding the consequences of the design decisions that we make. Accordingly, this course is ultimately about turning good research questions into systematic projects that deliver interesting and worthwhile results. We also debate issues in research ethics and provide advice on publication strategies

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 6 hours of seminars in the ST. Weeks 6 and 17 are reading and feedback weeks.

Formative coursework: This is a PhD level Research Design course – we do not intend to have additional essays. Students will
give presentations and receive extensive feedback on their work
in progress. These are part of formative rather than summative assessment and are an important part of professional development.

The main learning outcomes are to help the PhD students develop professional research designs.

Designing Social Inquiry. Princeton UP. Box-Steffensmeier, J., H.
Assessment: Essay (20%, 2500 words), essay (20%, 2500 words) and research project (60%) in the ST.

GV555
Political Economy and Public Policy Workshop
This information is for the 2016/17 session.
Teacher responsible: Dr Mareike Kleine COW 1.01
Professor Jeffrey Chwieroth
Professor Mark Thatcher CON 4.17
Availability: This course is available on the MPhil/ PhD in European Studies, MPhil/PhD in Government, MRes Political Science and PhD in Political Science. This course is available as an outside option to students on other programmes where regulations permit.
This workshop is jointly organised by the European Institute, the Government Department and the International Relations Department for research students of these departments working in the general area of political economy and public policy and who have usually passed their first year. Research students from other departments wishing to attend should contact the teachers responsible.
It should be noted that the course has three codes- EU555, GV555 and IR555.
Course content: Presentation and intense discussion of thesis outlines, chapters and related work. A detailed programme is fixed at the start of the year. Seminar presentations by outside speakers may be added.
Teaching: 7 hours and 30 minutes of seminars in the MT. 7 hours and 30 minutes of seminars in the LT.
Seminars are fortnightly and begin in week 1 of MT and LT. There is also a mini-conference in the ST, organised by the students themselves.
Assessment: There is no examination for this course. Regular attendance and active participation by all students is required. Each attending student has to give at least one presentation of their thesis research.

GV5X2
Research Paper in Comparative Politics

Course content: Topical seminar series involving presentations by speakers from both inside and outside the Department on aspects of their own research.  
Teaching: There are three different seminar series taking place regularly throughout the year, organised by each of the three research clusters in the Department of Geography & Environment. The Economic Geography cluster seminar series is organised in conjunction with the Spatial Economics Research Centre (SERC), the Environmental Economics & Policy cluster seminar series is organized together with the Grantham Research Institute on Climate Change and the Environment; and the Urbanisation, Planning and Development seminar series is organized with the Urban Research Centre. The timing and length of each seminar series vary across research clusters.  
Urbanisation, Planning and Development Cluster: *10 x one-and-a-half hour seminars in MT and 10 x one-and-a-half hour seminars in LT  
Economic Geography Cluster: *10 x one-and-a-half hour seminars in MT and 10 x one-and-a-half hour seminars in LT  
Environmental Economics and Policy Cluster: *10 x one-and-a-half hour seminars in MT and 5 x one-and-a-half hour seminars in LT  
*Note that the actual seminar schedule is subject to change due to availability of speakers.  
Assessment: This course is not intended as preparation for any particular examination. But, students will find it useful in increasing their awareness of current research and the application of research methods across the discipline. Attendance is compulsory or strongly recommended as indicated in the course availability (i.e. compulsory for MPhil/PhD in Geography -- that is PhDs in Economic Geography, Human Geography, Environmental Economics, Environmental Policy and Development -- and strongly recommended for PhD in Regional and Urban Planning Studies).  

GY526  
Half Unit  
Advanced Methods in Environmental and Resource Economics: Time, Risk and Environmental Policy  
This information is for the 2016/17 session.  
Teacher responsible: Dr Antony Millner TW2 Grantham Research Institute and Dr Benjamin Groom KGS 2.03  
Availability: This course is available on the MPhil/PhD in Environmental Economics. This course is available with permission as an outside option to students on other programmes where regulations permit.  
A strong background in economics is required to take this course for credit. A Master's degree in economics or equivalent will usually be required. Students from the MSc in Environmental Economics and Climate Change and those enrolled on GY426: Environmental and Resource Economics are allowed to audit the course.  
Pre-requisites: The course will be core training for the PhD in Environmental Economics. A background in Economics is therefore required to take this course. Students taking the MSc in Environmental Economics and Climate Change or students enrolled on the GY426: Environmental and Resource Economics can audit the course.  
Course content: Many of the most important environmental problems require us to choose between policy options with very uncertain, very long-run, consequences. Climate change provides an archetypal example, but this is also true of e.g. biodiversity loss and the decline in global fisheries. This half unit course will introduce you to the decision tools economists use to inform long-run, uncertain, policy choices. We will critically examine these tools, and how they are applied in environmental economics. The aim is to provide you with enough technical background to be able to read current research papers in the field, evaluate their claims for yourself, and begin to formulate your own research questions.  
Topics will include intertemporal choice and discounting, risk, uncertainty and learning, catastrophes, and some more advanced discussion of dynamic optimization. We will connect some of the economics literature on these topics to parallel discussions in philosophy. We will illustrate the theory we cover with applications
to common-pool resource problems, climate change, and renewable and exhaustible resource management.
There will be 5 x 2 hour lectures:
1) Inter-temporal Decision Making;
2) Risk and Uncertainty;
3) Information and Learning;
4) The Economics of Catastrophes;
5) Elements of Dynamic Optimisation.
Teaching: 10 hours of lectures and 5 hours of seminars in the LT.
There will be 5 x 2 hour lectures:
1) Inter-temporal Decision Making;
2) Risk and Uncertainty;
3) Information and Learning;
4) The Economics of Catastrophes;
5) Elements of Dynamic Optimisation.

HY501
International History Research Student Workshop
This information is for the 2016/17 session.
Teacher responsible: Dr Piers Ludlow SAR 2.16
Availability: This course is compulsory on the MPhil/PhD in International History. This course is not available as an outside option.
Course content: The workshop aims to introduce students to effective archival research, issues in the preparation of a thesis and mainly practical issues of historical research.
Teaching: 20 hours of seminars in the MT. 4 hours of seminars in the LT.
Assessment: This course is not assessed.

HY509
International History Research Seminar
This information is for the 2016/17 session.
Teacher responsible: Dr Piers Ludlow SAR 2.16

IR501
Methods in International Relations Research
This information is for the 2016/17 session.
Teacher responsible: Dr Mathias Koenig-Archipugi CON 4.08, Dr Federica Bicchi CLM.4.13, Dr Covadonga Meseguer 95 ALD1.13 and Dr James Morrison 95 ALD1.14
Availability: This course is compulsory on the MPhil/PhD in International Relations. This course is not available as an outside option.
Course content: The main objective of this course is to familiarise students with the principal approaches to contemporary research in the main branches of International Relations and to help students identify the appropriate methodology for their project. The course is not a technical course on methods. Unless they have taken courses on methodology and methods in their prior studies, students are encouraged to attend appropriate courses at the Department of Methodology. The course will encourage awareness of the relationship between theory and method in the conduct of research. It will highlight trade-offs when choosing specific methods or research designs. Our aim is to train well-rounded academic professionals, who are able to comprehend, critically interrogate, and engage with scholarship employing diverse methodological toolkits. The course therefore aims to expose students to, and generate awareness of, a variety of research methods in the discipline irrespective of the particular approach employed in their doctoral work. The course will aim to promote an environment of mutual support and encouragement amongst first year research students, maximising the potential for cross fertilization between different projects. The course will develop students’ presentational skills in a group setting. In addition, sessions on professional development will be offered in the context of the course.
Teaching: 16 hours and 30 minutes of seminars in the MT. 22 hours and 30 minutes of seminars in the LT.
39 hours of seminars spread over MT and LT, beginning in Week 2 MT. In addition, professional development sessions will be offered.

**Formative coursework:** Students will be expected to prepare presentations on examples of published research, commenting on the methodology adopted and the way in which it is applied. Moreover, students are required to submit a short written piece describing and justifying the methodological choices for their PhD. The aim is to practice writing about methodological choices with a view to the chapter students are going to submit to their Research Panel in the Summer Term. More indications about presentations and the written piece will be provided at the beginning of the course.

**Assessment:** This course is not assessed.

---

**IR502**

**International Relations Theory Research Workshop**

*This information is for the 2016/17 session.*

**Teacher responsible:** Dr Peter Wilson CLM 5.10 and Mr Mark Hoffman OLD 1.09

**Availability:** This course is available on the MPhil/PhD in International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

It is open to all interested research students and faculty with the Department and is available with permission to students on other programmes.

**Course content:** IR502 is part of the research-training programme for all research students working in the area of security and statecraft broadly defined. The workshop's principal objective is to foster intellectual exchange by showcasing new and innovative work from leading and emerging scholars. The workshop will provide a forum in which research students can present their work, discuss the theoretical and methodological problems involved, discuss common challenges in conducting research in this area and obtain feedback on their work. Research in this area draws on diverse theoretical and methodological approaches, and ranges across levels of analysis, regions, and eras. Specific foci of research include diplomacy, foreign and security relations, foreign policy analysis, comparative strategy, identity and security, war and society, state-building, peace-building and conflict resolution, revolutions, human security and genocide.

**Teaching:** 12 hours of workshops in the MT. 15 hours of workshops in the LT.

**Assessment:** This course is not assessed.

---

**IR507**

**International Institutions, Law and Ethics Research Workshop**

*This information is for the 2016/17 session.*

**Teacher responsible:** Prof Karen Smith CLM 4.09 and Dr Federica Bicchi CLM 4.13

**Availability:** This course is available on the MPhil/PhD in International Relations. This course is not available as an outside option.

It is open to all interested research students and faculty with the Department and is available with permission to students on other programmes.

**Course content:** IR507 is part of the research-training programme for all research students working on the theory, history or practice international institutions, international law and ethics. The workshop’s principal objective is to foster intellectual exchange by showcasing new and innovative work from leading and emerging scholars. The workshop will provide a forum in which research students can present their work, discuss the theoretical and methodological problems involved, discuss common challenges in conducting research in this area and obtain feedback on their work. Research in this area runs from the study of intergovernmental and nongovernmental institutions and global governance, to the politics of international law, to the ethical and normative dimensions of global politics. It includes, but is not limited to, the study of international institutions such as the European Union, North Atlantic Treaty Organisation, and the International Criminal Court and international issues such as human rights, humanitarian intervention, climate change, and international crime.

**Teaching:** 12 hours of seminars in the MT. 15 hours of seminars in the LT.

**Assessment:** This course is not assessed.

---

**IR509**

**International Relations Research Design Workshop**

*This information is for the 2016/17 session.*

**Teacher responsible:**

Mr Mark Hoffman OLD 1.09 (for first year research students), Professor Margot Light (for second year research students).

**Availability:** This course is compulsory on the MPhil/PhD in International Relations. This course is not available as an outside option.

This workshop is compulsory for all first year and second year International Relations Department (IRD) research students and
open to other interested IRD research students.

Course content: In the first year, this workshop will address issues concerning the formulation and design of the PhD research project. Its principal objective is to assist first year research students in designing a well-thought out and manageable thesis. It seeks to do so by providing a forum in which first year students discuss their research topic, the particular set of questions they intend to address and the methods they wish to use with other members of the workshop. Its aim is to provide students with constructively critical observations about their research project and the problems they may confront. It also seeks to promote an esprit d'corps amongst the first-year research students by familiarising them with the work of their peers.

In the second year, the focus will be on preparing students for their upgrade Research Panel in the summer. Exactly how the workshop will proceed will be decided by the members in their first session, but the aim is to give students the opportunity to update and refine their research proposals, get peer reactions to the draft chapters on which the decision to upgrade will be based, and also to talk to each other about the common problems they face. There will also be some sessions to consider such 'professional concerns' as the balance to be struck between teaching and research, the role of presentations at conferences, seminars and similar professional gatherings.

Teaching: In the first year, the workshop will meet for 11 sessions starting in week 4 of the MT. There will be initial discussions of various theoretical traditions and different approaches to research design within International Relations. All first-year students are required to give a presentation outlining their research to the seminar, a copy of their research proposal (of no more than 5,000 words) being circulated in advance to the workshop participants. There will be two presentations per meeting. Students must also attend IR501 Research Methods Training Seminar and participate in at least one of the Department's other research workshops.

In the second year, the workshop will meet for 10 sessions starting in week five of the MT. All members of the workshop are required to present one or more draft chapters of their theses. They will need to provide a copy of the chapter for prior circulation to the workshop participants. Students must also participate in at least one of the Department’s other research workshops.

Assessment: This course is not assessed.

IR516
Asia-Pacific Research Workshop
This information is for the 2016/17 session.
Teacher responsible: Prof William Callahan CLM 5.07
Availability: This course is available on the MPhil/PhD in International Relations. This course is not available as an outside option.
It is open to all interested research students and faculty with the Department and is available with permission to students on other programmes.

Course content: IR516 is part of the research-training programme for all research students working on issues related the international relations of the Asia Pacific. The workshop will provide a forum in which research students can present their work, discuss the theoretical and methodological problems involved, discuss common challenges in conducting research in and on this area, and obtain feedback on their work.

Teaching: 7 hours and 30 minutes of seminars in the LT.
Assessment: This course is not assessed.

IR555
International Political Economy Research Workshop
This information is for the 2016/17 session.
Teacher responsible: Dr Stephen Woolcock CLM 6.13 and Dr James Morrison 95 ALD1.14
Availability: This course is available on the MPhil/PhD in International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
It is open to all interested research students and faculty with the Department and is available with permission to students on other programmes.

This workshop is run with the Government Department and European Institute (GV555 and EU555).

Course content: IR555 is part of the research-training programme for all research students working in the area of international political economy: the relationship between states and markets in a global context. The workshop’s principal objective is to foster intellectual exchange by showcasing new and innovative work from leading and emerging scholars. The workshop will provide a forum in which research students can present their work, discuss the theoretical and methodological problems involved, discuss common challenges in conducting research in this area and obtain feedback on their work. Research in this area works at multiple levels of analysis and draws on an array of theoretic and methodological approaches from several disciplines. Both historical and contemporary questions are addressed across a range of issues including: trade, migration, global environmental politics, international economic organisations, economic diplomacy, international finance, foreign investment, exchange rates, and monetary relations.

Teaching: 12 hours of seminars in the MT. 15 hours of seminars in the LT.
Assessment: This course is not assessed.

LL500
Doctoral Research Seminar
This information is for the 2016/17 session.
Teacher responsible: Prof Linda Mulcahy NAB 7.15 Marks, Susan
Availability: This course is compulsory on the MPhil/PhD in Law. This course is available on the MPhil/PhD in Law (Socio-Legal Theory). This course is not available as an outside option.

Course content: This course aims to equip students with the skills required to undertake advanced legal research. The focus in the MT is on methodological and theoretical issues arising in legal scholarship. The focus in the LT is on the various stages of the PhD
MA500
Mathematics: Research Seminar
This information is for the 2016/17 session.
Teacher responsible: Dr Julia Boettcher and Dr Laszlo Vegh
Availability: This course is compulsory on the MPhil/PhD in Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit. Other members of the research community are welcome to attend.
Course content: The seminar ranges over many areas of pure and applied mathematics. The emphasis is on topics in discrete mathematics, operations research and game theory. The seminar is regarded as an important part of research students’ formal training and they are expected to attend and contribute.
Teaching: 22 hours of seminars in the MT. 22 hours of seminars in the LT. 14 hours of seminars in the ST.

MA501
Research Student Seminar
This information is for the 2016/17 session.
Teacher responsible: Dr Peter Allen COL 4.05, Dr Christoph Czichoswky COL 3.11, Dr Pavel Gapeev COL 4.10, Prof Jozef Skokan COL 3.04 and Dr Laszlo Vegh NAB 3.05
Julia Böttcher, Johannes Ruf
Availability: This course is compulsory on the MPhil/PhD in Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit. Other members of the research community are welcome to attend.
Course content: The seminars range across many areas of pure and applied financial mathematics. The emphasis is on topics in discrete mathematics, algorithms, game theory, financial mathematics and control theory. The seminars are regarded as an important part of research students’ formal training and they will all be expected to attend and contribute. Throughout the academic year, students are also invited to give presentations. There are additional reading groups aimed at students working in financial mathematics and discrete mathematics. These are compulsory for students working in this area but other students of the MPhil/PhD in Mathematics are welcome to attend.
Teaching: PhD Seminar on Combinatorics, Games and Optimisation (MA501.1): 11 one-hour seminars in the MT and LT. 7 one-hour seminars in the ST.
Approximately 80-90 meetings of between 1 and 3 hours throughout the MT, LT and ST, dependent on speakers. See http://www2.lse.ac.uk/maths/Seminars/Research_Seminars.aspx for schedule and more details.

MC500
Research Seminar for Media, Communications & Culture
This information is for the 2016/17 session.
Teacher responsible: Prof Syragoula Choulialiaki TW2.7.01D and Prof Sonia Livingstone TW2.7.01L
Availability: This course is compulsory on the MPhil/PhD in New Media Innovation and Literacy and MPhil/Phd in Media and Communications. This course is not available as an outside option. For Research Students. The course is compulsory for students in the first and second years of the Doctoral Programmes in Media and Communications and in New Media, Innovation and Literacy. All Research Students in the Department are welcome and encouraged to attend.
Course content: The aim of the course is to raise awareness of theoretical, conceptual and methodological issues in the interdisciplinary field of media and communications research and to develop students skills with respect to theory building, research design and implementation. The course focuses, in particular, on the key conceptual issues and analytical strategies required in media and communication research, with special reference to the study of the changing environment of media production, dissemination and consumption, under conditions of globalization and digitization of information.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.
Compulsory for first and second year students and open to others. There may be additional seminars or workshops in ST.
Other reading will be given as appropriate during the course.
Assessment: This course is based predominantly on student presentations on their work in progress. Students are expected to use MC500 seminars as a key resource towards their Upgrade document at the end of their 1st year of study and towards the submission of their formative assessment document at the end of their 2nd year of study.

MC5M2
Advanced Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis)
This information is for the 2016/17 session.
Teacher responsible: Dr Ellen Helsper TW2 7.01E
Availability: This course is compulsory on the MPhilPhD in Media and Communications and MPhilPhd in New Media Innovation and Literacy. This course is not available as an outside option.
Course content: i. Principles of Research in Media and Communications: a series of lectures offered by media and communications staff in MT. The lectures will normally cover the following topics central to research design across the social sciences, with a specific emphasis on their application to media and communications contexts: the general nature of research as social inquiry, interviewing, discourse analysis, social network analysis, content analysis, visual analysis, survey design/questionnaires, case studies, ethnography and participant observation, as well as research ethics.
ii. Principles of Social Research: Workshop (three hours) x 10 LT (5 comprised of two x 1.5 hour sessions and 5 comprised of one x 3 hour sessions) offered by media and communications staff in LT. Students are required to participate in all ten workshops.

iii. Principles of Social Research Analysis: Students have to take at least one quantitative analysis course offered by the Department of Methodology (MY551M is the basic option). In addition, students need to take either another quantitative or a qualitative analysis course offered by the Department of Methodology. The combination of courses must be approved by the supervisor and discussed with the MC5M2 convenor.

Teaching:

i. Principles of Research in Media and Communications: Lecture (one hour) x 10 MT; Lecture on Writing Methodological Chapters and Papers (one hour) x 1 LT.

ii. Principles of Social Research: Workshop (three hours) x 10 LT (each comprised of two 1.5 hour sessions).

iii. Principles of Social Research Analysis: Quantitative analysis course in Michaelmas Term: Lecture (two hours) x 9 MT; Computer class (one hour) x 9 MT; Quantitative or Qualitative Analysis course in Lent Term (Varies depending on the course): Lecture (two hours) x 9 LT; Computer class or Seminar (one hour) x 9 LT.

Formative coursework:

i. Principles of Research in Media and Communications: All students are expected to complete advance readings and submit one essay of 1,500 words in week 11 of MT.

ii. Principles of Social Research: All students are expected to complete advance readings and submit workshop assignments.

iii. Principles of Social Research Analysis: Most qualitative analysis courses require weekly assignments. The qualitative analysis courses vary in their formative assessment.

Indicative reading:

Assessment: Exam (34%, duration: 2 hours) in the main exam period.

Coursework (66%) in the ST.

Description of assessment:

1. Coursework: One written assignment of either 5,000 or 7,000 words to be submitted in ST, depending on the MY courses selected.

2. One two-hour examination in ST relating to Quantitative Analysis (e.g. MY551) and one two-hour examination in ST if another quantitative analysis course is taken (see Department of Methodology course guides).

Note: Summative assignments differ depending on the components of the methodological training taken by the students. PhD students must pass all components of MC5M2.

---

**MG500 Information Systems PhD Seminar Series and Workshops**

This information is for the 2016/17 session.

**Teacher responsible:** Prof Jannis Kallinikos NAB3.24 and Prof Chrisanthi Avergerou

**Availability:** This course consists of a series of seminars and workshops at which PhD students present their work in progress.

**Course content:** This seminar series provides a forum for research students in management to present work in progress. Outside speakers may be invited from time to time.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 20 hours of seminars in the ST.

For 2015/16 this will consist of a weekly, two hour, student-led seminar in weeks 2-9 of all three terms. There will also be one full-day PhD workshop with a guest speaker MT & LT. Details of these workshops are listed on the ISIG News and Events page and emailed to students and staff as they are arranged.

**Assessment:** There is no formal assessment but all students are expected to attend the one day workshops and must email the course teacher to explain any absences. Attendance at the weekly seminars is more flexible but students should make an effort to attend as many as possible and to be involved in the organisation of at least one per year.

---

**MG501 Employment Relations and Organisational Behaviour Seminar**

This information is for the 2016/17 session.

**Teacher responsible:** Prof David Marsden NAB 4.22 and Dr Daniel Beunza NAB 4.27

**Availability:** This course is compulsory for the MPhil/PhD in Management. This course is available on the MPhil/PhD in Management. This course is not available as an outside option.

**MG501** is a compulsory, assessed course for first year students on the PhD Management (Employment Relations and Organisational Behaviour) programme. The course is optional for second year students on the PhD Management (Employment Relations and Organisational Behaviour) programme. This course is available with permission as an outside option to students on other tracks of the MPhil/PhD Management where regulations permit.

**Course content:** The PhD seminar in Employment Relations and Organisational Behaviour draws upon organisational, psychological and employment relations theories to advance an understanding of individual, group and firm behaviour. The course covers a number of issues at an advanced level, and introduces students to emerging topics in various fields such as Organisational Behaviour and Employment Relations, including employment systems, employee voice, status, trust, social exchange theory, organisations, justice, ethics and ethical climate, and corporate social responsibility. The seminar discussions will be led by a combination of faculty at the EROB group within LSE and prestigious visiting faculty. Throughout the course, students will be exposed to the methodological issues related to conducting research in an up-and-coming area where the research questions may be less known. These methodological issues will provide continuity across the substantively different topics.
MG502  Half Unit
Foundations of Social Research in Information Systems: Paradigms and Traditions

This information is for the 2016/17 session.
Teacher responsible: Prof Janis Kallinikos NAB3.24
Availability: This course is compulsory on the MPhil/ PhD in Information Systems. This course is available with permission as an outside option to students on other programmes where regulations permit. Compulsory for MPhil/PhD Informations Systems and Innovation students in their first year. Students from related PhD programmes who are interested in epistemological paradigms may be able to join the course with the teacher's permission.
Course content: The course introduces the foundations of social research and the key issues concerning the status of knowledge and the forms by which it is acquired. The course deals with the principal paradigms/traditions in the philosophy of science and epistemology and the answers they have provided to the basic questions concerning the status of knowledge claims and the forms by which valid knowledge claims can be made. The main focus of the course concerns the ways by which these key epistemological paradigms have been applied in the fields of Information Systems and Organization Studies. The course is structured around the following basic epistemological paradigms: Positivism Critical Realism Constructivism Hermeneutics, Phenomenology Critical Theory Structuralism Postmodernism
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 10 hours of seminars in the ST.

Indicative reading:

Assessment: Essay (100%, 7000 words) in the LT. An essay of between 5,000-7,000 words to be submitted by the end of March.
MG504 Not available in 2016/17
General Management PhD research seminar
This information is for the 2016/17 session.
Teacher responsible: Prof Chrisanthi Avgouros NAB 3.22
Availability: This course is available on the MPhil/PhD in Management. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This seminar series provides a forum for research students in General Management to present work in progress. In addition, the series will include tutorials on issues of epistemology and methodology. Outside speakers will also be invited to present research of interest to these students.
Teaching: 14 hours of seminars in the MT. 14 hours of seminars in the LT. 8 hours of seminars in the ST.
The course will consist of seven two hour, student led seminars in weeks 3 to 9 in the MT and LT, and four two hour seminars in weeks 3 to 6 in the ST. Details of these seminars are listed on the course Moodle page, the Department’s PhD newsletter and emailed to students and supervisors.
Formative coursework: This is not an assessed course and does not have a formative coursework component.
Assessment: This is not an assessed course

MY500 Half Unit
Fundamentals of Social Science Research Design
This information is for the 2016/17 session.
Teacher responsible: Dr Alasdair Jones COL8.12
Availability: The course is available to all research students.
Course content: Research design necessitates trade-offs between the strengths and weaknesses of different feasible options. This course aims to introduce the broad range of design options and to foster an appreciation of these alternatives for particular research objectives. Drawing on a variety of examples from the social scientific literature, this course will explore design considerations and options across quantitative and qualitative research, including issues of data quality, analysis, reporting and reproducibility. At the end of the course, students will be able to read a wide variety of empirical social science with a critical and balanced perspective and will be better equipped to implement and make arguments defending the methods they use in their PhD theses.
Teaching: 20 hours of lectures and 8 hours of seminars in the MT. Week 6 is a Reading Week during which students work independently on their formative assignments.
Assessment: Research proposal (30%) in the MT. Other (60%) in the ST.
Class participation (10%).
Research Proposal (1000 words) submitted in Week 9 MT (30%).
Provisional Research Design (5000 words) submitted in Week 1 MT and ST (60%).

MY505 Half Unit
Research Methods for Evaluation in Health, Development and Public Policy
This information is for the 2016/17 session.
Teacher responsible: Dr Flora Cornish COL8.09
Availability: This course is open to any Research level student.
Course content: This course aims to equip students with the methodological knowledge and research skills to be able to design and critically appraise evaluation research. In the context of the rise of evidence-based policy, the course is designed to extend students’ abilities to use evaluative information carefully and critically. The course takes a mixed methods approach. It covers the major quantitative designs, including randomized experiments and observational (i.e. non-randomized) research designs such as selection on observables, difference-in-differences, and the regression discontinuity design. It covers qualitative and participatory research designs and their contribution to formative research, process evaluation, interpreting outcomes, and assessing transferability to other settings. As well as the major design issues, the course addresses practical and ethical issues of evaluation research, how to write a study protocol, and how to draw lessons from a body of evidence through reviewing and synthesising evidence. Examples from the fields of health, international development and public policy will be used throughout the lectures, and students select one of these fields for their focus in seminars.
Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.
10 x 1.5 hour lectures
9 x 1.5 hour seminars
Formative coursework: Students will be expected to produce 1 essay in the LT.
Students write a critical review (1,500 words) of a published evaluation report.
Assessment: Coursework (50%, 2500 words) in the LT.
Essay (50%, 2500 words) in the ST.
50% group-based coursework. Students work in groups to develop an evaluation design, and write it up individually (2,500 words).
50% essay. Students are given a choice of essay questions, in response to which they write one essay (3,000 words).

MY521 Half Unit
Qualitative Research Methods
This information is for the 2016/17 session.
Teacher responsible: Dr Flora Cornish COL8.09 and Dr Alasdair Jones COL8.12
Availability: The course is available to all research students.
Course content: This course presents the fundamentals of qualitative research methods. It prepares students to design, carry out, report, read and evaluate qualitative research projects. Students learn how to collect data using methods including interviewing, focus groups, participant observation, and documentary and historical work. The challenges and opportunities of new media including visual images and Internet research are discussed. We then cover analysis, using thematic, content, discourse, and semiotic analysis. Issues of research design, quality indicators, epistemology and ethics are addressed. The course has the dual aims of equipping students with conceptual understandings of current academic debates regarding qualitative methods, and with practical skills to put those methods into practice.
In seminars, research students gain experience of putting a range of data collection and analysis methods into practice, on topics within, or closely related to, their substantive area of research. A workbook details the seminar activities - and provides the guidance and basis for the formative and summative assignments.
Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.
The course runs twice per year: in MT and again in LT. The content of the course is exactly the same in each term. Week 6 is a Reading Week, during which students work independently on their formative assignments.
MY526  Half Unit  Doing Ethnography

This information is for the 2016/17 session.
Teacher responsible: Dr Alasdair Jones COL 8.08
Availability: This course is available to all research students.
Pre-requisites: A postgraduate qualitative research methods course, such as MY421, as pre- or co-requisite. Familiarity with notions of research design in the social sciences, to the level of MY400 or equivalent.
Course content: Doing ethnography enables us to examine how social order is produced as people go about their everyday interactions. Multiple sources of naturally-occurring data are used to understand how communities, organisations and institutions work, informally as well as formally. Contemporary conditions of globalisation, individualisation, bureaucratisation and digitisation introduce new challenges for such fieldwork. This interdisciplinary course equips students with a practical understanding of how to do, and to think about, contemporary ethnography. Core conceptual, ethical and methodological debates are introduced through in-depth engagement with book-length exemplars, and through students’ experience of fieldwork. Fieldwork is a key component of the course, with students collecting data in a setting closely related to their PhD topic. Data collection is followed by data analysis and presentation activities. Methodological concerns regarding case selection, establishing rigour, reflexivity, representing others, and ethical issues are addressed in detail. Practical issues addressed include access to study sites, studying elite and marginalised groups, innovative sources of data, and writing field notes. Emphasising that ethnography relies on the researcher-as-research-instrument, the course aims to develop students’ sensitivity and rigour as ethnographic researchers.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT.  Week 6 is a Reading Week during which time students work independently on their formative assignments.
Formative coursework: An excerpt of field-notes from the field visit undertaken as part of the course (up to 2,500 words).  Field-notes should record rich details of observations (the data), researcher reflections and brief interpretations of the significance of these observations.  Written feedback will be provided.
Assessment: Essay (100%, 4000 words).
Students on this course will

Learning Outcomes:
1) appreciate the long past, and the short history of introspection-based methods;
2) be familiar with a range of techniques of collecting introspective data;
3) know the problems of introspection-based methods and how different methods try to overcome them;
4) gain practical skills with modern introspection-based methods.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Indicative reading: A complete reading list will be provided at the beginning of the course.

Assessment: Project (100%, 3000 words) in the ST.

MY529 Half Unit Not available in 2016/17

Special Topics in Qualitative Research: Introspection-based Methods in Social Research

This information is for the 2016/17 session.

Teacher responsible: Prof Martin Bauer Col 8.04

Availability: The course is available to all research students.

Pre-requisites:
The course will assume good knowledge of qualitative research methods as covered in MY521 and MY530.

Course content: Introspection comprises methods of empirically recording one’s own subjective experience; the currently on-going, or perhaps very recently past, mental or emotional states and processes through methods of trained and technically supported self-observation. Historically, introspection is part of a quest of human self-knowledge and self-improvement. And a person’s stream of consciousness is of interest in the social sciences, for example as reports of happiness or life satisfaction. Introspection has been difficult to verify, thus deemed not ‘objective’ and unscientific. The stream of consciousness (William James) was of interest mainly to literary elaboration. However, introspection-based methods survived and have re-emerged, not least because 1st person experience remains an indispensable source of evidence on an actor’s states and processes that constrain and give meaning to human action. Not least recent advance in neurosciences accentuates the need for experience-focused 1st person methods. Modern introspection-based methods are ‘objectifications’ of 1st person situated experiences in controlled settings that support episodic retention. Modern introspection-based methods create conditions which make immediate, pre-meditated experience less ‘biased’ and more accurate to record. This comprises techniques such as narrative and episodic interviewing, free-association techniques, survey-based reconstruction and attitudes, critical incident techniques, loud-thinking protocols, experience sampling and self-tracking methods, ecological momentary assessment, self-confrontation interviewing, and 1st person situated video methods, and auto-ethnography and the ‘quantified self’. Many new techniques are mobile and adaptable to capture the fluid nature of mental and emotional states and processes. Miniature mobile devices for sound and video recording promise to overcome the bottlenecks that have hitherto plagued intensive and continuous introspection-based methods.

Learning Outcomes:
Students on this course will

MY530 Advanced Qualitative Research Workshops

This information is for the 2016/17 session.

Teacher responsible: Dr Elena Gonzalez-Polloedo COL 7.06

Availability: Research students who are undertaking projects using qualitative methods.

Pre-requisites: Some prior training in qualitative methods (eg: MY400 and MY421 or equivalent). Students who have no prior training in qualitative methods should consider taking MY521 or MY521L.

Course content: MY530 is a series of workshop modules that provide hands-on, in-depth and advanced training for specific methodologies of qualitative data collection, analytic techniques and research design issues. Research students can sign up to as many workshops as they wish. The programme includes topics such as in-depth interviews, focus groups, ethnography and participant observation, narrative interviewing and analysis, visual methods, classical content analysis, thematic analysis, etc. Each workshop consists of two sessions of two hours. The second session is practical. These interdisciplinary sessions provide a space for students to develop advanced methodological skills and exchange ideas with peers.
Teaching: Sessions to be held throughout the year, beginning in week 8 of MT and continuing throughout LT. Participants sign up via MOODLE.

Indicative reading: Each session will provide its own recommended reading list, available on Moodle.

Assessment: This course is non-examinable.

MY551 Half Unit
Introduction to Quantitative Analysis

This information is for the 2016/17 session.

Teacher responsible: Dr Benjamin Lauderdale Col.8.10 and Prof Jonathan Jackson Col.8.05

Availability: The course is available to all research students.

Course content: An intensive introduction to quantitative data analysis in the social sciences. The course is intended for students with no previous experience of quantitative methods or statistics. It covers the foundations of descriptive statistics and statistical estimation and inference. At the end of the course students should be able to carry out univariate and bi-variate data analysis and have an appreciation of multiple linear regression. The computer classes give hands-on training in the application of statistical techniques to real social science research problems using the SPSS computer package (no prior knowledge of SPSS is necessary).

Teaching: 20 hours of lectures and 9 hours of computer workshops in the MT. 20 hours of lectures and 9 hours of computer workshops in the LT. 2 hours of lectures in the ST.

Methods for the Social Sciences, Pearson Education (note that the second book is more advanced and is particularly useful if you are second year students). The course is also available to taught masters students with different assessment, as MY454.

Pre-requisites: Students must have taken Applied Regression Analysis (MY452) or an equivalent intermediate regression course.

Course content: This course will cover basic statistical programming for social science research as well as several associated data analysis methods. Programming topics include basic programming, data structures, optimisation, and simulation. Applied statistical topics include nonparametric density estimation and regression, additive models, cross-validation, the bootstrap, and permutation/randomisation inference. Lectures, class exercises and homework will be based on the use of the R statistical software package but will assume no background knowledge of that language.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT. 2 hours of lectures in the ST.

Formative coursework: Students will be expected to produce 5 problem sets in the LT. Each problem set is associated with a computer class, and may be submitted for marking and feedback.

Assessment: Coursework (100%) in the ST.

A single piece of coursework (100%) in the ST applying the methods covered in the course to a topic in the area of the student’s research. The topic and scope of the assignment will be developed in discussion with the teacher responsible for the course during LT.

MY555 Half Unit
Multivariate Analysis and Measurement

This information is for the 2016/17 session.

Teacher responsible: Prof Jonathan Jackson Col.8.05

Availability: The course is available to all research students.

Pre-requisites: The course will assume a knowledge of standard linear regression models, to the level covered in MY452/MY552 (Applied Regression Analysis)

Course content: An introduction to the application of modern multivariate methods used in the social sciences, with particular focus on latent variable models for continuous observed variables,
and their application to questions of measurement in the social sciences. At least the following topics will be covered: principal components analysis, exploratory factor analysis, confirmatory factor analysis and structural equation models. In addition, a selection from the following topics will be covered: cluster analysis, correspondence analysis, multidimensional scaling, latent class models, latent trait models.

Teaching: 20 hours of lectures and 8 hours of computer workshops in the LT.

Formative coursework: Exercises from the computer classes can be submitted for marking.

Assessment: Research project (100%). Research paper 25-30 pages, including tables and figures, or approximately 3,000-4,000 words, answering a set of questions by applying multivariate analyses to some data (100%).

---

**MY556 Half Unit Survey Methodology**

This information is for the 2016/17 session.

Teacher responsible: Prof Jonathan Jackson COL8.05

Availability: This course is available to all Research students.

Pre-requisites: Knowledge of basic descriptive and inferential statistics, to the level of MY452/MY552 or equivalent. MY556 can also be taken in parallel with MY452/MY552L. Familiarity with notions of research design in the social sciences, to the level of MY400/MY500 or equivalent.

Course content: This course provides an introduction to the methodology of the design and analysis of social surveys. It is intended both for students who plan to design and collect their own surveys, and for those who need to understand and use data from existing large-scale surveys. Topics covered include basic ideas of target populations, survey estimation and inference, sampling error and nonsampling error; sample design and sampling theory; methods of data collection; survey interviewing; cognitive processes in answering survey questions; design and evaluation of survey questions; nonresponse error and imputation for item nonresponse; survey weights; analysis of data from complex surveys; accessing, preparing and working with secondary data from existing social surveys. The course includes computer classes, using the statistical computer package Stata; no previous knowledge of Stata is required.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. There will be no lectures or seminars in Week 6 of term.

Formative coursework: Exercises from the seminars can be submitted for marking.

Assessment: Research project (100%). Research paper of 25-30 pages, including tables and figures, or approximately 3,000–4,000 words, answering a set of questions by applying multivariate analyses to some data (100%).

---

**MY557 Half Unit Casual Inference for Observational and Experimental Studies**

This information is for the 2016/17 session.

Teacher responsible: Dr David Hendry

Availability: Available to all research students.

Pre-requisites: Students must have completed Applied Regression Analysis (MY552), Fundamentals of Social Science Research Design (MY400) and Fundamentals of Social Science Research Design (MY500).

Knowledge of multiple linear regression and some familiarity with generalised linear models, to the level of MY452/MY552 or equivalent. Familiarity with notions of research design in the social sciences, to the level of MY400/MY500 or equivalent.

Course content: This course provides an introduction to statistical methods used for causal inference in the social sciences. Using the potential outcomes framework of causality, topics covered include research designs such as randomized experiments and observational studies. We explore the impact of noncompliance in randomized experiments, as well as nonignorable treatment assignment in observational studies. To analyze these research designs, the methods covered include matching, instrumental variables, difference-in-difference, and regression discontinuity. Examples are drawn from different social sciences. The course includes computer classes, where standard statistical computer packages (Stata or R) are used for computation.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT.

There will be no lectures or computer classes in Week 6 of term.

Formative coursework: Exercises from the computer classes can be submitted for marking.

Assessment: Coursework (100%, 4000 words).

---

**MY559 Half Unit Not available in 2016/17 Special Topics in Quantitative Analysis: Quantitative Text Analysis**

This information is for the 2016/17 session.

Teacher responsible: Prof Kenneth Benoit Col.8.11

Availability: The course is available to all research students.

Pre-requisites: The course will assume knowledge of linear and logistic regression models, to the level covered in MY452.

Course content: The course surveys methods for systematically extracting quantitative information from text for social scientific purposes, starting with classical content analysis and dictionary-based methods, to classification methods, and state-of-the-art scaling methods and topic models for estimating quantities from text using statistical techniques. The course lays a theoretical foundation for text analysis but mainly takes a very practical and applied approach, so that students learn how to apply these methods in actual research. The common focus across all methods is that they can all be reduced to a three-step process: first, identifying texts and units of texts for analysis; second, extracting from the texts quantitatively measured features - such as coded content categories, word counts, word types, dictionary counts, or parts of speech - and converting these into a quantitative matrix; and third, using quantitative or statistical methods to analyse this matrix in order to generate inferences about the texts or their authors. The course systematically surveys these methods in a logical progression, with a practical, hands-on approach where each technique will be applied using appropriate software to real texts.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT.

Formative coursework: Exercises from the computer classes can be submitted for marking.

MY560 Workshop in Advanced Quantitative Analysis

This information is for the 2016/17 session.
Teacher responsible: Prof Jonathan Jackson
Availability: MY560 is a series of workshops available to any postgraduate student who signs up via Moodle.
Course content: It is intended to provide research students with an introduction to specific advanced research methods and hands-on training in the use of these tools.
Teaching: One-day introductory workshops consisting of a morning lecture and afternoon computer session during the MT, LT and ST. Participants will sign up via MOODLE.
Assessment: This course is non-examinable.

MY565 Half Unit Intermediate Quantitative Analysis

This information is for the 2016/17 session.
Teacher responsible: Prof Jonathan Jackson COL8.05
Availability: This course is available to all research students where regulations permit.
Pre-requisites: Participants should have studied introductory statistics or quantitative methods before, up to an introduction to descriptive statistics and basic statistical inference. Students with no previous studies in quantitative analysis should take instead Introduction to Quantitative Analysis (MY451).
Because of the overlaps between these courses, it is not possible to take both this course and either of Introduction to Quantitative Analysis (MY451) or Applied Regression Analysis (MY452) as assessed courses.
Course content: The course is intended for students with some (even if limited) previous experience of quantitative methods or statistics. It covers first a review of the foundations of descriptive statistics and statistical inference, in the context of the analysis of two-way contingency tables and comparisons of means between two groups. The main topic of the course is linear regression modelling and related methods, including scatterplots, correlation, simple and multiple linear regression, and analysis of variance and covariance. An introduction to binary logistic regression modelling is also included. The computer classes give hands-on training in the application of these statistical techniques. Class exercises and homework are carried out using the Stata or SPSS package, according to the student's choice.
Teaching: 20 hours of lectures and 10 hours of computer workshops in the MT. 2 hours of lectures in the ST.
Students on this course will have a reading week in Week 6. Online quizzes will be provided on Moodle to aid revision during the reading week.
Formative coursework: Students will be expected to produce 9 exercises in the MT.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.
This is an open-book unseen examination.

MY591 Computing Packages for Applied Analysis

This information is for the 2016/17 session.
Teacher responsible: Prof Kenneth Benoit COL8.11
Availability: This course is available on the MSc in Social Research Methods (Social Policy). This course is available as an outside option to students on other programmes where regulations permit.
For students who intend to use qualitative and quantitative computer packages in their research.
Course content: It is intended to provide research students with an appreciation of various computer packages through introduction and hands-on training in the use of these tools.
Teaching: 63 hours of seminars in the MT. 75 hours of seminars in the LT. 30 hours of seminars in the ST.
Half-day introductory training courses on computer packages such as, NVivo, ALCESTE, QDA Miner/Wordstat/Simstat, Stata and SPSS during the MT and LT. Participants will sign up via MOODLE.
Formative coursework: NA.
Assessment: This course is non-examinable.

MY592 Workshop in Information Literacy: finding, managing and organising published research and data

This information is for the 2016/17 session.
Teacher responsible: Miss Maria Bell R102
Maria Bell (Course Convenor), Academic Support Librarian; Dr Jane Secker, Copyright and Digital Literacy Advisor, Centre for Learning Technology; Clive Wilson, Academic Support Librarian.
Availability: This course is available on the MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.
First and second year research students and MSc Social Research Technology; Clive Wilson, Academic Support Librarian.
Course content: MY592 is a six week programme of 2 hour workshops which aims to develop students’ research skills and introduce the essential sources and tools when undertaking research, and the skills required to use them. It is run by the Library and Centre for Learning Technology and is ideal for research students undertaking an extensive literature search and review. Students receive detailed advice on the most appropriate Library resources for their research topics. Materials, online activities and assessment will be available in Moodle to support the teaching.
Teaching: 24 hours of seminars in the MT. 24 hours of seminars in the LT.
Six two hour classes will be held weekly, and students are expected to attend all sessions in order to develop their information literacy skills. MY592 will run in both the Michaelmas and Lent terms and in the Summer term subject to demand. Dates and times will be advertised at the start of each term. Note that not all sessions will last for 2 hours but this will allow for individual contact time at the end of classes with class tutors.
If you only wish to attend an individual workshop, consult the Training classes offered by the Library and the Centre for Learning Technology on the LSE Training and Development System. Places on the entire programme can be booked using the LSE Training and Development System.
Assessment: This course is non-examinable.
MY599
Department of Methodology Seminar
This information is for the 2016/17 session.
Teacher responsible: Prof Jonathan Jackson Col.8.05 and Dr Alasdair Jones Col.8.12
Availability: Open to all.
Course content: Papers on topics of methodological interest will be presented by staff and visitors.
Teaching: Meetings arranged as needed, taking place in COL.8.13 unless otherwise stated. Seminar dates, venues and speakers will be advertised on the Department of Methodology webpage.
Assessment: This course is non-examinable.

PH500
Research Methods in Philosophy
This information is for the 2016/17 session.
Teacher responsible: Prof Richard Bradley
Availability: This course is compulsory on the MPhil/PhD in Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: Topics in contemporary philosophy.
Teaching: Seminars PH500 15 x two-hour (MT, LT, ST). Different members of the department will lead the seminar in each of the three terms. A more detailed syllabus will be posted at the beginning of each term.
Assessment: This course is non-examinable.

PH501
Philosophical Problems Seminar
This information is for the 2016/17 session.
Teacher responsible: Dr Peter Dennis and Prof Christian List
Availability: This course is compulsory on the MPhil/PhD in Philosophy. This course is not available as an outside option.
Course content: In this course, we will read and carefully discuss together a range of classic papers in contemporary analytic philosophy that might not otherwise be covered in LSE Philosophy Department courses. Topics are selected from metaphysics, the philosophy of mind and action, epistemology, and the philosophy of language. This list is illustrative.
Teaching: 15 hours of seminars in the MT. 15 hours of seminars in the LT.
Indicative reading: Specific readings will be announced in a detailed syllabus at the start of the term.
Assessment: Four essays of 2,500-3,500 words each over the course of the two terms.

PH502
Reasoning and Logic
This information is for the 2016/17 session.
Teacher responsible: Prof John Worrall LAK 3.02
Availability: This course is available on the MPhil/PhD in Philosophy and MPhil/PhD in Philosophy of the Social Sciences. This course is not available as an outside option.
The course is, in general, only aimed at those students who have never taken a course in formal logic before. For such students the course is compulsory.
Course content: The course aims to give a precise formulation of correct deductive reasoning—of what it means for a sentence to follow from a set of other sentences taken as premises—and to investigate on this basis other important logical notions such as that of consistency. The course will also investigate how these formal principles are of use in analysing informal argumentation.
Mathematicians lay down certain axioms and establish theorems by deducing them as consequences of the axioms; scientists postulate certain theories and test them by deducing certain consequences from them that can be checked experimentally; ordinary reasoners try to win (intellectual) arguments by showing that some position that they favour follows deductively from assumptions that everyone accepts. This course shows what exactly is involved in correct deductive reasoning. It begins by considering certain very simple inferences that can be formalized in a system called propositional logic. The semantic notion of deductive validity is developed for this system and the truth table, “no counterexample” and tree methods for establishing validity in propositional logic are introduced. The connections between validity and other important logical notions such as equivalence, consistency and independence are precisely detailed. Some simple results about propositional logic are proved.
More complex inferences require a system called (first order) predicate logic. The course shows how to formalize some ordinary informal sentences (and therefore ordinary informal inferences) in predicate logic, and introduces methods for establishing the validity or invalidity of predicate logic inferences: both a system based on rules of proof and one based on the tree method will be studied. Again the relationships between validity of inference, on the one hand, and the notions of the logical equivalence of two sentences, the consistency of a set of sentences or the independence of one sentence from a set of sentences, on the other, are investigated for the more powerful system of predicate logic. Both the systems that we shall study—of propositional and predicate logic—are entirely formal. Although we shall emphasize how some especially simple ordinary arguments can be ‘captured’ within such systems, it is of course true that ‘ordinary reasoners’ do not explicitly employ such formal techniques. How then, if at all, can formal logic help in assessing ordinary deductive reasoning in science, social science and elsewhere?
Teaching: 15 hours of lectures in the MT. 15 hours of lectures in the LT.
Appropriate back-up teaching will be arranged with individual students.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.

PH551
Research Seminar in the Philosophy of Natural Sciences
This information is for the 2016/17 session.
Teacher responsible: Dr Bryn Roberts LAK 5.03
Availability: This course is compulsory on the MPhil/PhD in Philosophy. This course is not available as an outside option.
Course content: This is a special topics course on the philosophy of physics. It meets weekly, and has two components.
The first component (roughly half the meetings) will consist in lectures on the philosophy of physics. It meets weekly, and has two components. The remaining component will consist in attending cutting-edge lectures by professional philosophers of physics, and in some cases by other philosophers of science. These consist in the Sigma Club and the BSPS lectures on Monday evenings. Background readings...
to prepare students for these lectures as well as essay topics will sometimes be suggested.

Together this amounts to roughly 10 meetings in Michaelmas Term and 10 meetings in Lent Term. In the summer term there will be roughly 8 meetings. Half will discuss readings that students may wish to present, and the other half will be Sigma Club and BSPS lectures. Details about the meetings will be provided on Moodle, and information about the Sigma Club and BSPS lecture series can be found on the LSE Philosophy homepage under the “Events” heading.

Teaching: 15 hours of seminars in the MT. 15 hours of seminars in the LT. 12 hours of seminars in the ST.

Formative coursework: Students are invited to write an essay on any topic discussed in these meetings, to submit before the last week of term for comments.

**PH555**
**Research Seminar in the Philosophy of Economics and Social Sciences**

*This information is for the 2016/17 session.*

*Teacher responsible:* Prof Richard Bradley LAK2.03

*Availability:* This course is available on the MPhil/PhD in Philosophy and MRes/PhD in Economics. This course is not available as an outside option.

*Course content:* Philosophical issues in economics and the social sciences.

*Teaching:* 10 hours of seminars in the MT. 10 hours of seminars in the LT. 10 hours of seminars in the ST.

*Formative coursework:* Students will be expected to write one essay per term and to give seminar presentations.

**PS950**
**Current Research in Social Psychology**

*This information is for the 2016/17 session.*

*Teacher responsible:* Professor Catherine Campbell, QUE.3.08

*Availability:* This course is compulsory on the MPhil/PhD in Social Psychology. This course is not available as an outside option.

*Course content:* Weekly seminars including plenary and specialist sessions in Michaelmas Term, Lent Term and Summer Term. Seminars for research students in: Health, Community and Development; Social and Cultural Psychology; Organisational and Social Psychology; Social and Public Communication.

*Teaching:* 20 hours of seminars in the MT. 20 hours of seminars in the LT. 14 hours of seminars in the ST.

*Assessment:* Non-examinable.

**PS960**
**Classical Texts in Social Psychology**

*This information is for the 2016/17 session.*

*Teacher responsible:* Prof Martin Bauer COL.8.04 and Prof Sandra Jochelovitch QUE.3.25

*Course content:* To maintain awareness of classical monographical studies of social psychology, its psychological as well as its sociological tradition. To provide a forum for entire textual reading and contextual discussions of contributions by J. Vygotsky, K. Piaget, Lewin, G H Mead, LeBon, McDougall, F Bartlett, S Freud, E. Goffman, Ichheiser, Buehler and others.

*Assessment:* Non-examinable.

**SA550**
**Research Student Seminar**

*This information is for the 2016/17 session.*

*Teacher responsible:* Prof Anne West OLD1.16 and Prof Jane Lewis OLD1.18

*Availability:* For all MPhil/PhD students in the Department of Social Policy.

*Course content:* This course provides background sessions for MPhil/PhD students in their first year of study. It also provides the forum in which first year full-time and second year part-time MPhil/PhD students must present their work in advance of submitting their major review documents.

*Teaching:* 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**SO500**
**Research Class for MPhil Students**

*This information is for the 2016/17 session.*

*Teacher responsible:* Prof Bridget Hutter STC S217

*Availability:* This course is compulsory on the MPhil/PhD in Sociology. This course is not available as an outside option.

*Course content:* The research seminar aims to provide students with a conceptual and practical framework within which to think through planning their research. This includes devising research questions, how to do a literature review, selecting appropriate methods for research, linking theory and practices, ethical issues and writing. The course will comprise workshops and student presentations. By the end of the course students should be able to formulate clear aims and methods for their own research. All first year MPhil students must attend.

*Teaching:* 20 hours of seminars in the MT. 20 hours of seminars in the LT. Reading weeks: week 6 (MT) and week 6 (LT).

*Assessment:* Other (100%) in the ST.

5,000 word paper on the ‘Aims and Methods’ of the thesis, and a viva voce examination. For full-time students, three copies of this typed and paginated essay must be submitted to the Sociology Administration Office, Room S116, by the first Friday in May. Satisfactory completion of the ‘Aims and Methods’ paper, and the viva are necessary in order to proceed to the next stage of the course. Part-time students may elect to be evaluated in May or September of their first year or May of their second year.

**SO501**
**Research Students’ Seminar**

*This information is for the 2016/17 session.*

*Teacher responsible:* Dr Lisa Mckenzie STC S212

*Availability:* This course is available on the MPhil/PhD in Sociology. This course is not available as an outside option.

Only available to sociology research students in the second and subsequent years of their MPhil/PhD.

*Course content:* Seminars will discuss some recent influential or prize-winning articles or books in a number of areas of sociological endeavour. The purpose of the seminars is to introduce research students to what sociologists internationally consider to be leading examples of contemporary research, and to ensure that MPhil/PhD students graduating from the department have a chance to acquire a command of debates beyond the special expertise they develop in their own area of research. The seminars will begin with a thirty minute student presentation on the article or book in question, followed by discussion. On occasion, an academic with expertise in that area may be invited to act as a respondent. In addition, there will be a special day seminar devoted to helping those students who are preparing for their upgrade viva. This will provide them with an opportunity to present and defend a significant aspect of their argument.
Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT. Fortnightly seminars in the MT and LT for all sociology research students in their second and subsequent years. For those students preparing for their upgrade viva there will also be a special day seminar usually in ST.
Assessment: There is no formal assessment, but participants are asked to present papers, read the work of selected authors, and contribute to discussion.

**ST501  Half Unit  Multilevel Modelling**

This information is for the 2016/17 session.
Teacher responsible: Prof Irini Moustaki COL 6.05
Availability: This course is available on the MPhil/ PhD in Statistics. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: A knowledge of probability and basic statistical theory, including linear regression and logistic regression.
Course content: A practical introduction to multilevel modelling with applications in social research. This course deals with the analysis of data from hierarchically structured populations (e.g., students nested within schools, individuals nested within households or geographical areas) and longitudinal data (e.g., repeated measurements of individuals in a panel survey). Multilevel (random-effects) extensions of standard statistical techniques, including multiple linear regression and logistic regression, will be considered. The course will have an applied emphasis with computer sessions using appropriate software (e.g., Stata).
Teaching: 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 5 exercises in the LT.
Formative coursework is assigned fortnightly and returned to students with comments/feedback via Moodle before the lab sessions
Assessment: Coursework (100%, 4000 words). Assessment is by 100% coursework given to students in week 8 of the course.

**SO521  Not available in 2016/17  Research Seminar on Cities and Space**

This information is for the 2016/17 session.
Teacher responsible: Prof Francine Tonkiss STC 219
Availability: This course is available on the MPhil/PhD Cities Programme and MPhil/PhD in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: A knowledge of probability and basic statistical theory, and the study of cities and space
Course content: This graduate seminar is based on discussion of key readings in the fields of urban social theory and spatial analysis. It also provides a forum for discussion of research issues relating to the study of cities and space
Assessment: Formative coursework is assigned fortnightly and returned to students with comments/feedback via Moodle before the lab sessions
Assessment: Coursework (100%, 4000 words). Assessment is by 100% coursework given to students in week 8 of the course.

**ST542  Half Unit  Longitudinal Data Analysis**

This information is for the 2016/17 session.
Teacher responsible: Prof Fiona Steele COL 7.08
Availability: This course is available on the MPhil/ PhD in Statistics. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: A knowledge of probability and basic statistical theory, including linear regression and logistic regression.
Course content: A practical introduction to methods for the analysis of repeated measures data, including continuous and binary outcomes. Topics include: longitudinal study designs, (random effects) growth curve models, marginal models, dynamic (autoregressive) models, latent class models, and multiprocess models for multivariate outcomes. The course will have an applied emphasis with weekly computer classes using appropriate software (e.g., Stata).
Teaching: 20 hours of lectures and 10 hours of computer
workshops in the LT. Week 6 will be a reading week.

**Formative coursework**: Students will be expected to produce 5 exercises in the LT. Formative assessment is based on data analysis problems that require the use of the statistical software to apply the statistical techniques taught in the lectures and computer classes. Coursework is given out to students every two weeks and returned with feedback and comments.

**Assessment**: Coursework (100%, 4000 words) in the ST. Assessment is by 100% coursework which is given to students in week 8.

• Introduce oneself, talk about opinions, beliefs, political views.
• Talk about daily activities. Make an appointment, reschedule, accept, refuse.
• Give your opinion and justify it. Talk about a past event, past experiences...
• Take/ give advice and make/respond to suggestions.
• Future plans and projects. Express a wish, a will. Express doubt, certainty, possibility.
• Express cause, consequence, obligation, aim.
Structural content:
• Consolidation of major grammatical points (direct, indirect pronouns y & en...).
• Perfect, past tenses, conditional. Present tense irregular verbs consolidation.
• Question formation with a wide range of tenses.
• Adjectives, place, agreement. Express duration (depuis, pendant, pour).
• Use of relative pronouns (qui/que, ce qui/ce que).

Teaching: 20 hours of classes in the MT. 20 hours of classes in the LT. 2 hours of classes in the ST.
This is a 46-hour course. Please refer to the LSE timetable for course teaching arrangements.
Formative coursework: The students will be required to complete weekly language exercises.
Indicative reading:
• A study pack, provided by LSE.
• A dictionary and a grammar book as recommended by your teacher
Assessment: Continuous assessment (50%) in the MT, LT and ST. Oral examination (30%) in the LT and ST. In class assessment (20%) in the LT.
LN728
French: Level Three (Fast Track)
This information is for the 2016/17 session.
Teacher responsible: Ms Patricia Gaudron TW3 6.01, Miss Marcelle Morabo TW3 6.01, Mr Halim Benzine TW3 6.01, Miss Florence Niclot TW3.6.01D and Mr Francois Simon TW3.6.01K
Pre-requisites: This level is suitable for students who learnt French for some time (a few years) a long time ago (secondary school). A good foundation in the target language. Students express themselves with confidence or at least are willing to try. This level can also be taken by GCSE students.

SPEAKING:
• Use simple phrases and sentences to describe where they live and people they know.
• Speak about what they study, and be able to function within a range of basic activities relating to work, study or time spent in the country.

WRITING:
• Write short, simple greetings.
• Fill in forms with personal details, basic communication in e-mails, or short descriptions or paragraphs relating to an area of interest in the Social Sciences.

LISTENING:
• Recognise familiar words and very basic phrases concerning self, family and immediate concrete surroundings when people speak slowly and clearly.
• Understand short excerpts from current affairs, programmes or news items on TV and Radio.

READING:
• Understand the gist of and some details of original text extracts, for example on notices, posters, in newspapers, adverts and on the web, and in simple articles relating to the Social Sciences.
• Admission to the course upon completion of online level test and tutor's approval during needs analysis.
• For students who are able to interact in a variety of familiar contexts without major difficulties but who do need to review and consolidate their French.

Course content:
Course aim:
SPEAKING AND SPOKEN INTERACTION:
• Use a series of phrases and sentences to describe in simple terms family and other people, living conditions, educational background and present or most recent work.
• Produce talks on simple topics relating to the Social Sciences.
• Communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar topics and express opinions in discussion of familiar topics.

WRITING:
• Write short simple notes, messages and e-mails relating to matters in areas of immediate need or paragraphs or short essays in areas of interest relating to the Social Sciences.

LISTENING:
• Understand phrases and the highest frequency vocabulary related not only to areas of most immediate personal relevance (e.g. personal and familiar information, shopping, local geography, and employment), but also to topic areas relating to the Social Sciences.

READING:
• Read short and simple texts related to news and current issues, find specific, predictable information in simple everyday material such as advertisements, prospectuses, menus and timetables, and understand items of both personal and professional written communication e.g. Email and web-based material + social science related articles.

To bring students to level B1 of CEFR.

Communicative content:
• To introduce oneself, talk about opinions, beliefs, political views.
• Talk about daily activities.
• Make an appointment, reschedule, accept, refuse.
• Give your opinion and justify it.
• Talk about a past event, past experiences…Take/ give advice and make/respond to suggestions.
• Future plans and projects. Express a wish, a will. Express doubt, certainty, possibility.
• Express cause, consequence, obligation, aim.

Structural content:
• Consolidation of major grammatical points (direct, indirect pronouns y & en…).
• Perfect, past tenses, conditional.
• Present tense irregular verbs consolidation.
• Question formation with a wide range of tenses.
• Adjectives, place, agreement. Express duration (depuis, pendant, pour).
• Use of relative pronouns (qui/que, ce qui/ce que).

Teaching: 16 hours of classes in the MT. 22 hours of classes in the LT. 2 hours of classes in the ST.
This is a 40 hour-course. Please refer to the LSE timetable for course teaching arrangements.

Formative coursework: The students will be required to complete weekly language exercises.

Indicative reading: A study pack, provided by LSE. A dictionary and a grammar book as recommended by your teacher.

Assessment: Continuous assessment (50%) in the MT, LT and ST. Oral examination (30%) and in class assessment (20%) in the LT.

LN729
French: Level Four (Standard)
This information is for the 2016/17 session.
Teacher responsible: Ms Catherine Gaite TW3 6.01 and Miss Florence Niclot TW3.6.01D
Pre-requisites: 250 hours including self-study (16+), AS-level or six/seven years at school level.
• Low pass mark at A-level. SPEAKING AND SPOKEN INTERACTION:
Use a series of phrases and sentences to describe in simple terms family and other people, living conditions, educational background and present or most recent work. Produce talks on simple topics relating to the Social Sciences.
• Communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar topics.

WRITING: Write short simple notes, messages and e-mails relating to matters in areas of immediate need or paragraphs or short essays in areas of interest relating to the Social Sciences.

LISTENING: Understand phrases and the highest frequency vocabulary related not only to areas of most immediate personal relevance (e.g. personal and familiar information, shopping, local geography, and employment), but also to topics areas relating to the Social Sciences.

READING: Read very short, simple texts, find specific, predictable information in simple everyday material such as advertisements, prospectuses, menus and timetables, and understand items of both personal and professional written communication e.g. Email and web-based material.

Admission to the course upon completion of online level test and tutor's approval during needs analysis.

Students who can readily communicate in French, using a good foundation. A good foundation in the target language. Students express themselves with confidence or at least are willing to try. This level can also be taken by GCSE students.

This level is suitable for students who learnt French for some time (a few years) a long time ago (secondary school). A good foundation in the target language. Students express themselves with confidence or at least are willing to try. This level can also be taken by GCSE students.

Course content:
Course aim:
SPEAKING AND SPOKEN INTERACTION: Connect phrases adequately in order to describe experiences, events, hopes and ambitions. Briefly give reasons and explanations for opinions and plans relating to study or areas of interest relating to the Social Sciences. Deal with most situations likely to arise whilst travelling in an area where the language is spoken. Enter unprepared into a conversation on topics that are familiar.

• WRITING: Write simple connected text on topics that are familiar or of personal interest. Write longer texts, which describe experiences and impressions, and write on areas of interest, which relate to the Social Sciences.

• LISTENING: Understand the main points of clear standard speech on familiar matters regularly encountered in work, university, leisure, etc., understand the main point of many radio or TV programs on current affairs or topics of personal or professional interest when the delivery is relatively paced and clear.

• READING: Understand texts that consist of high frequency everyday or job-related language, understand the description of events, feelings and wishes in personal communication. In areas relating to the Social Sciences, gist comprehension should be feasible in a variety of topics taken from a variety of authentic sources. To bring students to level B1-B2 of CEFR. Introduce oneself, talk about your opinions, beliefs, political opinions.

Communicative content: Talk about your daily activities. Make an appointment, reschedule, accept, refuse. Give your opinion and justify. Talk about a past event, past experiences. Take, give advice as suggested. Future plans and projects. Express a wish, a will. Express doubt, certainty.

Structural content: Major grammatical points (direct, indirect pronouns, express cause, consequence, obligation, aim...). Perfect, past tenses, conditional. Present tense irregular verbs. Question words. Adjectives, place, agreement. Express duration.

Teaching: 16 hours of classes in the MT. 22 hours of classes in the LT. 2 hours of classes in the ST.
This is a 40 hour-course. Please refer to the LSE timetable for course teaching arrangements.

Indicative reading: Manual, grammar book and dictionary as recommended by the teacher.

Assessment: Continuous assessment (50%) in the MT, LT and ST. Oral examination (30%) and in class assessment (20%) in the LT.

Indicative reading: N/A
Assessment: Continuous assessment (50%) in the MT and LT. Oral examination (30%).
In class assessment (20%) in the LT.

LN821
Mandarin: Level 5 (Legal Issues)
This information is for the 2016/17 session.
Teacher responsible: Dr Lijing Shi Tower 3, 6.01G
Ms Hongyi Xin Tower 3, 6.01G
Pre-requisites: Students must have completed Mandarin: Level 5 (Standard) (LN719).
Student should have successfully completed LSE Level 5 or have reached high proficiency level of Chinese. They are expected to be able to communicate on rather complicated non-routine topics and recognise around 3000 characters.
Course content:
Course aim: The linguistic focus will continue to advance the four language skills: listening, speaking, reading and writing, meanwhile helping the students to gain substantial knowledge into vocabulary, syntactic structures and pragmatic usages widely used in legal discourse. It features the general introduction into China’s legal system and its legal professions, with particular emphasis on Chinese civil and commercial laws. Authentic legal documents will be introduced extensively.
The course will enhance the students’ Chinese skills in legal contexts so as to prepare them for successful participation in their future professional communication.
Communicative content: The course is focused on the following communicative functions: Participating in discussion
• Logical argument
• Interaction/Exchange specific information in legal context
• Communication in legal context
• Reading and summarizing complex legal texts
• Writing letters, report and documents with legal elements
• Using language strategies to cope with specialized topics: i.e. law, business, politics and current issues.
Structural content: This course will focus on the following grammatical areas:
• Mandarin pronunciation: Pinyin and tones
• Simplified characters
• Chinese advanced grammar review
• Specific grammatical aspects of topical texts
• Relevant grammatical issues for advanced and specialized communication
- Attributes
- Adverbials
- Appositives
• Regular group or individual translation of legal works
• Reading and summarizing complex legal texts
• Advanced language tasks with reference to case studies
• Advanced language tasks with reference to Contemporary Chinese laws
• Reading comprehension
• Oral presentation
The course will introduce 350 words used in legal discourse and 200 Chinese characters.
It will bring students to level C2 of CEFR.
Teaching: 8 hours of workshops in the MT. 11 hours of workshops in the LT. 1 hour of workshops in the ST.
Formative coursework: Students will be expected to produce 6 pieces of coursework in the MT and LT.

Course content: This is a year-long series of lectures and workshops designed to complement MSc students’ academic learning. Topics include:
• How to study at LSE;
• How to build confidence for academic writing;
• How to write essays at LSE;
• How to present with skill and confidence;
• How to be mindful and reduce stress;
• How to get started on your MSc dissertation.
Teaching: All events follow the dates of the LSE teaching year. Further details, and links to booking pages, can be found at MSc Learning Development Programme lse.ac.uk/intranet/LSEServices/TLC/MScStudents/MScLearningDevelopmentProgramme.aspx.
Assessment: There is no formal assessment for this course.

TC501 2.0 Units
Postgraduate Certificate in Higher Education Part 1 (Associate Level)
This information is for the 2016/17 session.
Teacher responsible: Dr Colleen McKenna, Mark Baltovic, Dr Esther Saxey
Pre-requisites: Participants are required to be teaching for a minimum of 20 hours during the academic year in which they are enrolled.
Course content: This is a course tailored for those working as GTAs at LSE. Its purpose is to develop participants’ confidence in leading classes and seminars and assessing student work. The course also enables participants to reflect on their teaching and to explore diverse ways of gathering feedback from peers and students. The programme comprises 3 modules:
• small group teaching
• student learning
• evaluating teaching
Participants will develop a portfolio of written tasks and reflections; all formative and summative assignments will be incorporated into the portfolio which is submitted at the end of the programme. Successful participants will be awarded the Postgraduate Certificate in Higher Education - Associate level and are eligible for Associate Fellowship of the Higher Education Academy (HEA).
Teaching: 12 hours of workshops in the MT. 12 hours of workshops in the LT. 2 hours of workshops in the ST.
Teaching for this course will take the form of 2-hour, interactive workshops. Moodle will also be used as a learning environment.
Formative coursework: Students will be expected to produce 1 piece of coursework per module.
Formative feedback points for each of the summative assignments. Additionally, there are formative reflections at both the start and finish of the programme. These formative reflections, combined with the coversheets on the 3 summative essays, make up the learning log element of the course and contribute to the final portfolio submission. Throughout the formative texts are designed to encourage a reflexive approach to academic practice.
Teaching and Learning Centre Courses

812 Teaching and Learning Centre Courses

Assessment:
Assessment path 1
Essay (34%, 2500 words) in January.
Essay (33%, 2500 words) in the LT and ST.
Assessment path 2
Coursework (34%) in January.
Essay (33%, 2500 words) in the LT.
Essay (33%, 2500 words) in the LT and ST.

This course is assessed entirely by coursework - formative and summative. There are no exams.

All assignments are assessed on a Complete/Not Yet Complete basis, and all assessments are viewed as developmental opportunities.

Participants are offered detailed feedback for all assignments and, where appropriate, they have the option of developing assignments further based on feedback from the teaching team.

The assignments include both essay-style written texts and reflective pieces. Additionally, there are some opportunities for choice within the assessment diet. For example, for module 1, participants can select either a reflective task plus a poster OR a 2500 written assignment.

TC502 2.0 Units Postgraduate Certificate in Higher Education Part 2 (Full Level)

This information is for the 2016/17 session.

Teacher responsible: Dr Colleen McKenna, Dr Claire Gordon
Pre-requisites: Participants are required to have completed either the Postgraduate Certificate in Higher Education for Part 1 (Associate Level) or the Postgraduate Certificate in Higher Education for Career Track before enrolling on the Postgraduate Certificate in Higher Education Part 2 (Full Level).

Course content: This course builds upon the Postgraduate Certificate in Higher Education (Part 1) and offers participants an opportunity to explore and critique assessment and feedback practices and to design (or re-design) a course in their discipline drawing on principles of constructive alignment among other pedagogical approaches.

The programme comprises 2 modules:
• assessment and feedback, and
• course design.

Participants who have already completed the course design module on the PGCertHE (Career Track TC503) can select an optional, enquiry-based module.

Successful participants will be awarded the Postgraduate Certificate in Higher Education - Full level and are eligible for full fellowship of the Higher Education Academy (HEA).

Teaching: 10 hours of workshops in the MT. 10 hours of workshops in the LT. 2 hours of workshops in the ST.

Teaching for this course will take the form of interactive workshops. The majority of these will be 2 hours long; however, there will be a full day workshop on course design in Lent Term. Moodle will also be used as a learning environment.

Formative coursework: Students will be expected to produce 1 piece of coursework in the MT, 1 piece of coursework in the ST and 1 presentation in the LT or ST.

There are formative feedback points for each of the summative assignments.

Additionally, there are formative reflections at both the start and finish of the programme. These formative reflections, combined with the coversheets on the 2 summative essays, make up the learning log element of the course and contribute to the final portfolio submission. Throughout the formative pieces are designed to encourage a reflexive approach to academic practice.

Assessment:
Assessment path 1
Essay (50%, 2500 words) in January.
Essay (50%, 2500 words) in the ST.

Assessment path 2
Project (50%, 2500 words) in January.
Essay (50%, 2500 words) in the ST.

This course is assessed entirely by coursework - formative and summative. There are no exams.

All assignments are marked on a Complete/Not Yet Complete basis and all assessments are viewed as developmental opportunities.

Participants are offered detailed feedback on all work and, where appropriate, they have the option of developing assignments further based on feedback from the teaching team and peers.

The assignments include both essay-style written texts and reflective pieces. Additionally, there are some opportunities for choice within the assessment diet. For example, the module on assessment and feedback, participants can select to do either a group project OR a 2500 written assignment.

TC503 2.0 Units Postgraduate Certificate in Higher Education Career Track

This information is for the 2016/17 session.

Teacher responsible: Dr Claire Gordon

Availability: New career track members of faculty with fewer than three years’ teaching experience in higher education and who do not hold an equivalent teacher development qualification have been required since 2009 to complete the Postgraduate Certificate in Higher Education before passing Interim Review. Faculty members with teaching responsibilities who have completed their PhD and have at least two to three years’ teaching experience may also take this programme.

Pre-requisites: Participants will be career track academics at LSE
Teaching and Learning Centre Courses   813

- generally assistant professors, assistant professorial lecturers and fellows. They should have teaching responsibilities in the year that they will be taking the PGCertHE.

**Course content:** This practice-based programme is tailored for academics teaching at LSE. It is designed to develop participants’ confidence in leading lectures, classes and seminars and in assessing student work. The programme also enables participants to reflect on their teaching and to explore diverse ways of gathering feedback on their practice from peers and students. The programme culminates in a course design project.

The programme comprises 3 modules:
- teaching in our disciplines
- evaluating teaching
- course design

The programme is assessed by a portfolio of coursework including:
- a set of short written tasks on disciplinary teaching and student learning;
- a short project on evaluating teaching;
- the design of a new course;
- two teaching observations;
- a reflective learning log.

Participants are strongly encouraged to draw on their previous teaching experience both during discussions and in their assignments and to consider how this informs their practice at LSE. Successful participants will be awarded the Postgraduate Certificate in Higher Education - and are eligible for fellowship of the Higher Education Academy (HEA).

**Teaching:** 6 hours of workshops in the MT. 7 hours and 30 minutes of workshops in the LT. 6 hours of workshops in the ST.

Teaching for this course will take the form of interactive workshops. Moodle will also be used as a learning environment.

Additionally, participants have the opportunity to attend regular workshops offered as part of LSE’s Academic Development Programme lse.ac.uk/intranet/SEServices/TLC/academicStaff/ AcademicDevelopmentProgramme.aspx which explore different aspects of teaching and learning linked to assignments.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the MT, 1 piece of coursework in the LT, 1 piece of coursework in the ST and 1 presentation in the LT or ST.

There are formative feedback points for each of the summative assignments.

Additionally, there are formative reflections at both the start and finish of the programme. These formative reflections, combined with the coversheets on the summative essays, make up the learning log element of the course and contribute to the final portfolio submission. Finally, participants present their course design work and receive formative feedback from both members of the PGCertHE teaching team and peers.

Throughout, the formative pieces are designed to encourage a reflexive approach to academic practice.

**Assessment:**
- Essay (34%, 2300 words) in January.
- Project (33%, 2000 words) in the LT.
- Essay (33%, 2000 words) in the ST.

This course is assessed entirely by coursework - formative and summative. There are no exams.

All assignments are marked on a Complete/Not Yet Complete basis and all assessment are viewed as developmental opportunities.

Participants are offered detailed feedback on all work and, where appropriate, they have the option of developing assignments further based of feedback from the teaching team and peers (Course design module).

The assignments include both essay-style written texts and reflective pieces.
