

## Leadership in Action Project Framework

Criteria	Evaluation question
<b>Objective Clarity &amp; SMART Goals</b>	Are there at least 3 SMART goals that provide an opportunity to put into practice the 3Cs?
<b>Community &amp; Cultural Alignment</b>	Are the project objectives informed by community needs and designed in partnership with the community?
<b>Community Impact</b>	How significant is the potential impact of the project on the disadvantaged community it aims to serve?
<b>Immersion</b>	To what extent will you be engaging with the local community?
<b>Challenging Environment</b>	Does the project place you in a new and challenging environment outside of academia and/or your comfort zone?
<b>Systemic Impact</b>	What is the likelihood that the project will contribute to a systems-level change in the community? (Systems-level change addresses the causes, rather than the symptoms, of a societal issue)
<b>UN SDGs</b>	How effectively does the project align with and contribute to the achievement of specific United Nations Sustainable Development Goals (UN SDGs)?
<b>Alignment with the 3 Cs Framework</b>	How effectively does the project enable you to enhance your Capacities, embody Change Maker Values, and develop your Character in alignment with the Leadership Framework's 3 Cs?
<b>Team Leadership</b>	What opportunities exist for you to lead others and deliver on SMART goals?
<b>Utilization of Scholar's Expertise</b>	How effectively does the project utilize the unique skills and knowledge you possess, that are not already present within the community?
<b>Cultural Sustainability</b>	Does the project allow you to learn about the local culture and enhance your global understanding?
<b>Political Sustainability</b>	To what extent does the project garner and maintain support from local political structures?
<b>Economic Sustainability</b>	Is the project financially viable and does it promote local economic growth?
<b>Managerial Sustainability</b>	Can the project develop local managerial capabilities to ensure effective continuation post-external support?
<b>Environmental Sustainability</b>	How well is the project designed to be ecologically sustainable, contributing to environmental preservation enhancement?
