

4 steps of marking calibration

1. Sample marking

All members of a team marking a sample of assessments (e.g. anonymised exemplars) using the marking criteria

2. Markers notes

Markers making a note of their marks and marking rationale (e.g. by highlighting relevant marking criteria)

3. Comparing marks

Markers comparing their marks with those of colleagues. This could be in-person or online meeting, or through engagement with a shared word or excel sheet.

4. Discussion of marking criteria

Opportunity for questions and critical discussion of marking criteria. This can be in person, online or via a shared OneNote.
