

Law Department: How to Live Sustainably within our Natural Environment

Investigating...

**Proper scope of
human activities**

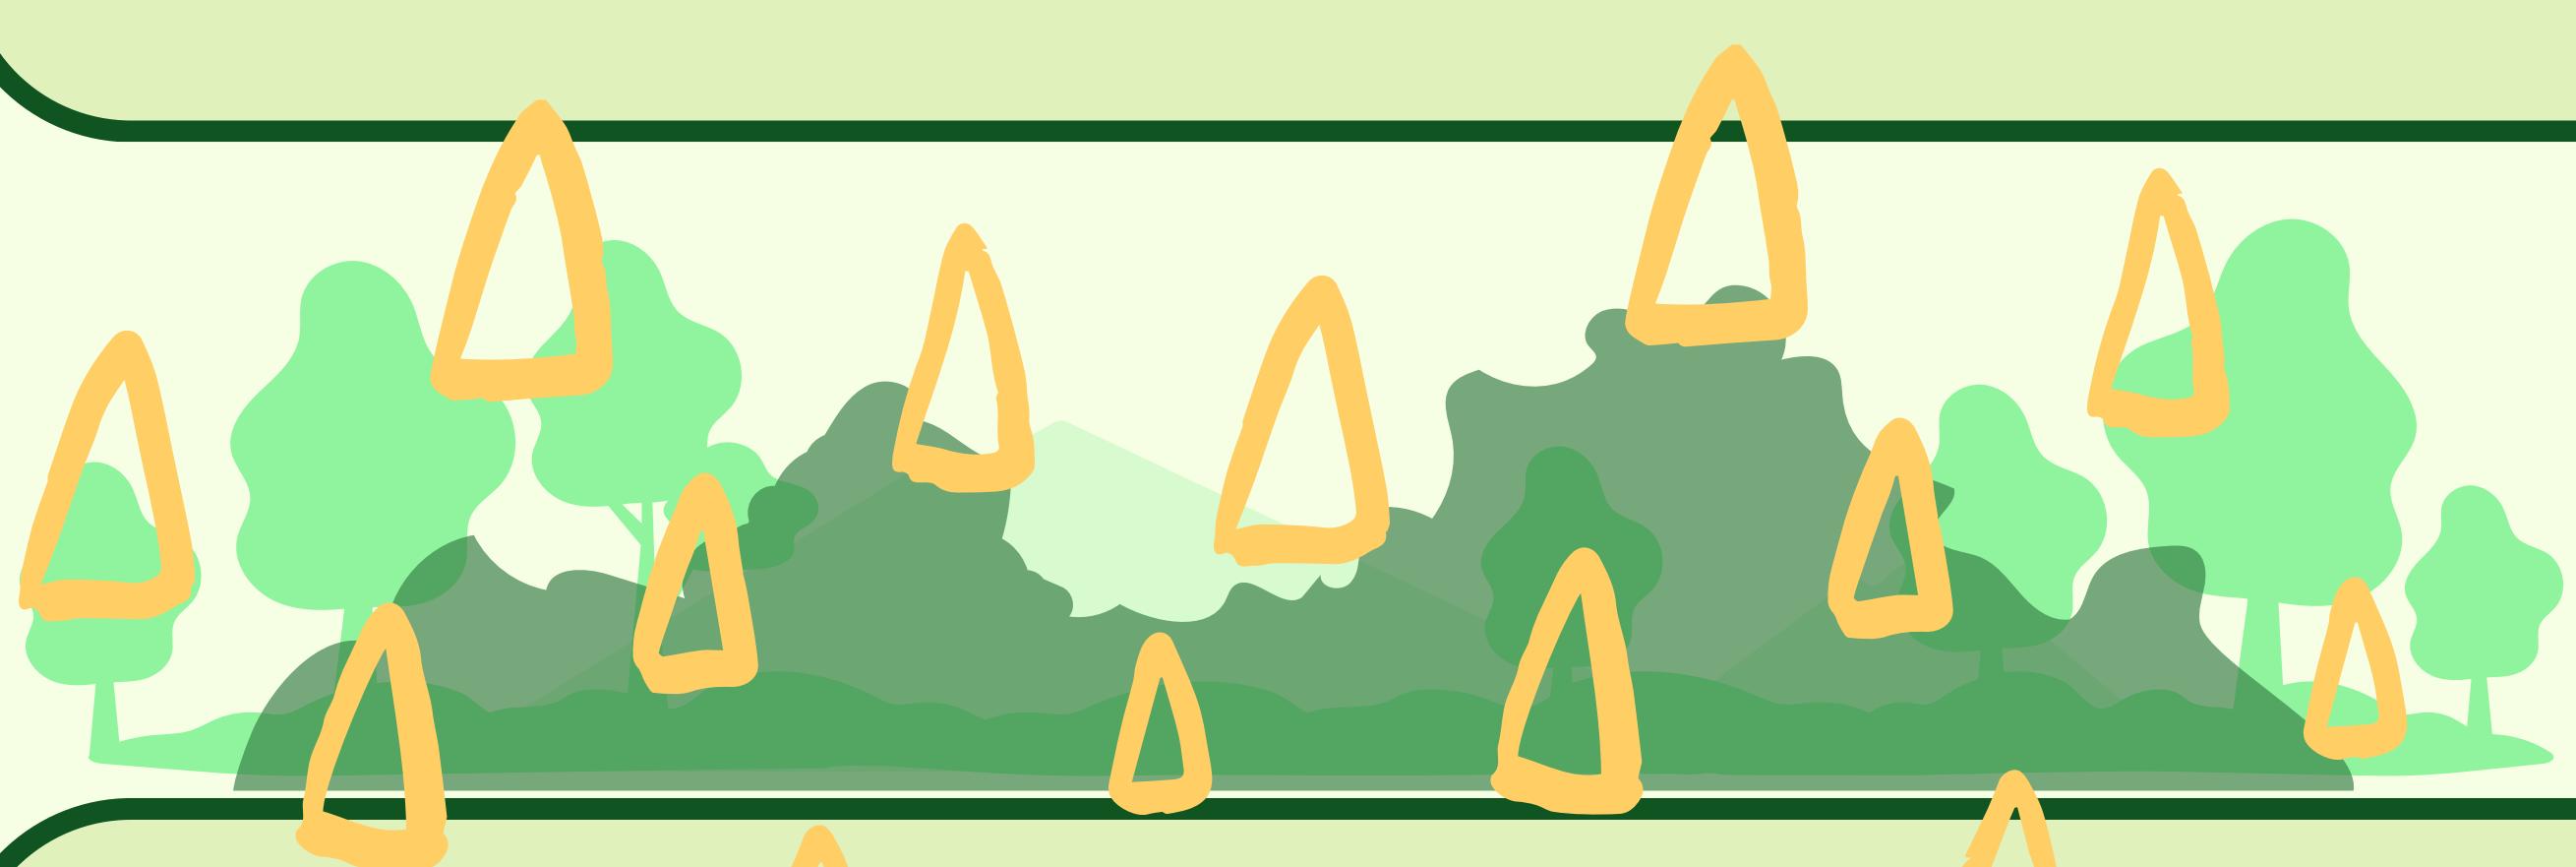

**Desired mode of
human activities**

LAW ACADEMICS INFLUENCE KEY DECISION-MAKERS BY COMMUNICATING...

Redefining Environmental Protection

Professor Veerle Heyvaert

- Must close existing gaps between the public and private aspects of transnational regulation & legislation on environmental protection with **new legislation**
- Environmental regulation studied through **transnationalisation of law** because of its increasing regulation happening beyond the state

Ensuring Marine Protection

Dr Siva Thambisetty

- Key actor in designing the world's first **High Seas Treaty**
- Outlines main principles, obligations and processes that all states must follow during involvement in the high seas to **safeguard marine life** and the **fair usage of marine genetic resources** collected whilst doing so
- Established principles & processes required for **equitable split of benefits** in the context of **intellectual property** and gains made from the high seas
- Ensured **developing countries also access a share of the profits** stemming from work on the high seas

Global norms for navigating conflicting interests

Oliver Hailes

- Suggests **limiting compensation awarded in investor-state arbitration**

Joana Setzer

- Empowers **public access** to global resources on the climate policy, legislation and litigation
- Showing that **climate litigation** reduced firm value by -0.41% on average

UNDER THE WATCH OF...

Accountability Mechanisms

Professor Veerle Heyvaert

- Shows how **regulatory intervention** should be proactive regarding the characteristics of systemic climate change risk creation
- Foresaw the rising prospect of **suing corporations** for climate change

WHILST VICTIMS MUST HAVE RECOURSE TO...

Climate Justice

Dr Marie Petersmann

- Investigates **reparative legal strategies** like facilitation of climate migration, financial system reform and loss and damage funds
- Scrutinises neo-colonial & **responsibility-denial tropes** employed by states
