Introduction

This document sets out the current payment options open to offer holders and students at the School.

In addition, this document sets out how students can access financial records including tuition fees, accommodation fees, payments, loans and scholarships.

Principles:

The School is committed to offering a simplified payment experience, which is both secure and safe.

All customers and students should expect the payment journey to be flexible, seamless and result in a positive experience.

We are committed to offering a world class payment experience and a variety of payment options.

LSE partner with Convera to administer online payment transactions, for further information please visit info.lse.ac.uk/convera

The School reserves the right to change, amend or alter payment options during the academic year if considered appropriate and necessary to do so. We will endeavour to advise the student community where payment options are removed.

How and when to pay your fees

All fees including tuition fees, accommodation fees and short course and summer school fees should be paid via the School's appropriate payment portals¹

- Offer holders and students who are self-funded and will be paying their fees from their own bank account/credit/debit card will be granted access to the **Student Payment Portal**.
- Offer holders and students that have a family member who would like to pay fees on their behalf will need to register the family member in the **Financial Undertaking Form**.
- Offer holders and students that have a sponsor paying fees on their behalf will need to register the Sponsor in the **Financial Undertaking Form**.

Offer holders can make payment once you have been advised that you have an offer and your account is created in School's finance system.

Family and sponsor payers can access and make payment once they have been registered by the student.

Payment Terms

You or your designated payer can pay in full or part prior to your enrolment at the school.

Offer holders/students who have not paid in full after enrolment will be placed on a termly payment plan. You can access your payment plan via the payment plan tile in the **Student Finance Hub**. Payment Plans will normally be available to view in the second week of October.

Payment dates for Standard Programmes are 28 October, 28 January and 28 April of each academic year.

Instalment options for Executive Programmes can vary and it is recommended you visit the following page for further information see the **Executive Payment Plan** webpage.

For further details please refer to the schools **Payment Policy**.

¹ Excludes: Language Centre course fees, TRIUM EMBA Programme fees and accommodation fees for students on short programmes residing in LSE Halls of Residences.

Security

For security reasons all users will be required to log in and authenticate prior to making a payment, access to the schools payment portal is subject to the Terms and Conditions set out in the **Payment Policy**.

Features and functionality

The Payment Portals present a summary of tuition fees, accommodation fees and short courses including Summer School if applicable.

The portal will itemise invoices and include the following key information:

- Invoice number
- Invoice date
- Due date
- Original invoiced amount
- Outstanding amount.

There are 3 payment options available in the portal:

Payment in Advance: If you wish to make a payment in advance of enrolling you can make a payment by selecting the Advance Payment option. Please ensure you select the correct invoice stream, as standard there will be three advance payment streams available in the portal; Tuition fees, short courses including Summer School and Accommodation fees.

Payment when invoiced: Currently invoices are only generated after enrolment. Once an invoice has been generated, payers have the option of paying each invoice in full or in part, if you choose to pay the invoice(s) in full you should select the Pay Whole Amount button. As you enter values to pay your basket total will automatically update so you can keep a track of the total fees you are going to pay.

Pre-registration invoice: Students, sponsors and family payers can pay a Pre-registration fees invoice for selected Executive programmes, a pre-registration invoice will be generated and visible when an offer has been issued, please see the Executive Programme page for further details.

The Payment portal functionality allows you to:

- 1** View and pay for multiple invoices across each stream, the invoices will reflect your payment plan or payment schedule if applicable.
- 2** View nominated family payers when logged in as a student.
- 3** View and download invoices and statements in PDF format.
- 4** Show/hide paid invoices.
- 5** Email Statement of Account to your registered email address.
- 6** Once you make payments against your invoices or instalments the outstanding amount will reduce until you have fully paid the invoice. Once an invoice or instalment has been paid and settled it will no longer automatically display on the payment page.

Please note the payment portal will not update immediately once you have made payment, please see processing times for guidelines on payment settlement times.

Note: If you have agreed an amended or extended payment plan, the new plan dates will not display in the payment portal. You can access full details of payment plans in the **Student Finance Hub**.

For further information on how to use the payment portals please refer to the **Student, Family and Sponsor Payment Portal Guidance**.

Bank Transfer, Credit or Debit Card and eWallet Payment Methods (Convera GlobalPay for Students)

convera

LSE proudly partners with Convera to offer you a simple, secure, and smart way to pay your fees online via bank transfer, credit or debit card and eWallet. Convera's platform is trusted by 900+ institutions worldwide to enable payments in 140+ currencies across 200+ countries and territories. You can access the LSE international payments platform: Convera GlobalPay for Students by logging onto either the [student](#), [family](#) or [sponsor](#) payment portal.

All payments should be settled by using the Pay Now option in the Student Payment Portal. This includes GBP to GBP settlements.

All fees are published by the school and are payable in pounds (GBP, £) sterling, unless otherwise stated, however if you select to pay your fees by wire or APM you can select the country you are paying from and local currency options will be available. For a full list of supported currencies please see appendix 1.

Price Comparison

The GlobalPay for Students Platform displays a range of quotes for each payment method, this enables the payer to select the most cost-effective payment option before making a payment.

Wire transfers, Open Banking and Alternative Payment Methods

Wire transfers, Open Banking Payment Service and Alternative Payment Methods (APMS) are generally the cheapest methods of payment, there are no hidden bank charges, and you will be guaranteed that an exact GBP settlement is received by LSE and is posted to your fees account.

Credit/Debit Cards

Card Payments may be quicker and convenient but may be more expensive. We highly recommend that you read the terms of and conditions of your card agreement prior to making a payment.

We accept all credit/debit cards with the exception of American Express. All fees are published by the School and are payable in pounds (GBP, £) sterling, unless otherwise stated.

GBP Card Payments with Non-UK Issued Cards

Converting funds from one currency to another is a relatively low-cost task for a financial services provider, however, transferring those funds across border is far more costly for the end merchant recipient. Foreign exchange providers often charge a foreign exchange margin to cover the costs of the transactions.

We **do not offer** the option to make a payment in GBP with a non-UK issued card as these transactions are expensive to process.

Our partner Convera offers multiple cheaper alternative payment options through GlobalPay for Students, these include bank transfers and alternative payment methods such as Open Banking or Alipay.

If you have already pre-funded a debit card with GBP, you can pay your fees by selecting the bank transfer option in GlobalPay for Students. We recommend that you review the alternative payment options available to you.

Credit Cards or forex cards: You **should not** pay via a foreign issued credit card. You should elect to pay using your overseas currency only.

Please note: This does not impact pounds sterling (GBP) payments with cards issued in the United Kingdom.

Your options

We strongly recommend that you avoid converting your local currency into GBP and onto a Credit Card, and instead:

- Convert and deposit the GBP funds into an accessible bank account where you can make payment to LSE via the GPfS platform by international bank transfer, ensuring you familiarise yourself with any associated transfer procedures and transfer costs that your bank/3rd party may charge.

Or

- Make payment using one of the alternative local currency options provided on the GlobalPay for Students platform.

If you require further assistance or support with your payment through the GPfS platform, then please feel free to contact our Customer Support Team or by contacting Convera directly using their **online form**.
