Klarna.

Klarna (or SOFORT) is an online banking payment service that enables you to use e-banking to make quick and secure bank transfers without incurring any charges. It is used by students who have a bank account in the UK and Europe.

In 2014 Sofort was acquired by Klarna, and the Klarna group was established. Following a major re-branding initiative in August 2017, the Sofort payment method became visually integrated under the Klarna product range.
Klarna Payment Process

This guide shows you the WU® GlobalPay for Students payment experience for LSE Students from the UK and Europe. They will use Klarna as the payment option.

1. Select the country you are paying from and the type of fees (Tuition, Accommodation, Pre-sessional Fees)

2. Once you have a quote, choose a way to pay.
3. Enter Student’s Details like ID, Name, Email Address.

If Someone else is making the payment, enter their Name, Email Address, and Billing Address.
Enter Payee's Bank Name and other details as requested.

On the Klarna portal, choose your country and bank and click Next.

In the next screen, you will get a prompt that the next step will take you to your bank payment portal to proceed and complete the payment process.
Enter your bank details and check the amount you’re paying.

**Note:** This is an example from Lloyds Bank Account and not necessarily the screen that you will see. The steps below may be different for you based on the bank you choose. From this step onwards, you will move to your own UK Bank Account Portal to complete the transaction.

Enter your password to continue.
10 Choose the account that you wish to pay from and confirm your details.
