

Fee Levels for 2019/20

The figures quoted are for the 2019/20 sessions at LSE only (one year of study), unless stated otherwise. If the duration of your programme is more than one year in length you will need to check subsequent Tables of Fees, e.g. the 2020/21 Table of Fees, for information of the fees payable in that academic year.

Please note that fees are paid in each year (academic session) for which you are registered, and normally rise in each year. They do not stay the same as the year in which you started. LSE reserves the right to alter the level of fee. You should check the following table for the latest fee levels. Where marked, fees are provisional.

Further information about the fee structures in operation for research programmes can be found at the end of this document and should be read alongside the fee levels listed below.

If your programme includes a period of study at another institution, e.g. MSc Global Media and Communications, the fees for that time will be set by the institution in question and payable there. Likewise, if your programme covers more than one year at LSE, the new fee levels for your second and succeeding years will be payable in due course.

If you register as a part time graduate student the fees quoted are for the first year of study only. In your second year you will pay fees proportionate to the appropriate full time fee at that time.

[Further information relating to fee levels can be found in the School's Tuition Fees Policy.](#)

MPHIL/PHD FEE STRUCTURE

The tuition fee structure for MPhil/PhD programmes can be found in **Table 1**. The tuition fee for the first three years of study will be subject to inflationary increases in each year. In the fourth year, no fee will be charged. If the School grants an extension to the registration period beyond the fourth year of study then the full research fee will be charged for that year and any subsequent years - i.e. from the fifth year onwards students will recommence paying fees.

Table 1 – MPhil/PhD fee structure

	Home/EU	Overseas
MPhil/PhD – Year 1	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 2	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 3	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 4	£0 fee	£0 fee
Registration beyond Year 4	£ Full research fee payable	£ Full research fee payable

Tuition fees are reviewed annually and subject to change. The relevant Table of Fees should be checked for the fee amount each year - e.g. for a student starting in 2020/21 the 2020/21 Table of Fees should be checked for fees payable in Year 1; the 2021/22 Table of Fees should be checked for fees payable in Year 2, and so on. The exact fees charged to each research student will take into account periods of interruption, changes in mode and other relevant factors (e.g. a proportion of the fee will be charged where special arrangements have been agreed for part-time study).

The maximum length of registration is four years for full-time research students. Exceptionally, the Research Degrees Subcommittee Chair may permit a student to continue to register beyond the maximum length of their programme. Students permitted to enter Year 5 will be liable to pay the full fee amount for each further year of study plus any inflationary increase. The only exceptions are:

- Students who have submitted their thesis and been examined but have a significant period of revisions to complete (i.e. 12 months), may be allowed to re-register with a zero fee while making the revisions;
- Students with disabilities may be allowed to register beyond the maximum period of study at a zero fee if this has been recommended by the School's Disability and Well-Being Service (DWS) as a reasonable adjustment and recorded in an Inclusion Plan. The Research Degrees Subcommittee Chair will consider cases on an individual basis in consultation with DWS.

MRES/PHD FEE STRUCTURES

The structure of MRes/PhD programmes at the School differs from the standard MPhil/PhD structure both in terms of programme length and the fees charged. There are three different MRes/PhD programmes at the School.

MRES/PHD 1 + 4 PROGRAMME

An initial MRes year followed by a four-year PhD programme. This structure applies to students entering with a taught postgraduate qualification on the following MRes/PhD programmes:

MRes/PhD Anthropology
MRes/PhD International Development
MRes/PhD Political Science
MRes/PhD Quantitative Economic History

As set out in **Table 2** below, students entering onto these programmes will be charged the full research fee for the MRes year; the full research fee for the first three years of the PhD; and a

zero fee for the final/fourth PhD year. If the School grants an extension to the registration period beyond the fourth year of PhD study the full research fee will be charged.

PhD – Year 3	£ Full research fee payable	£ Full research fee payable
PhD – Year 4	£0 fee	£0 fee
Registration beyond Year 4 of the PhD	£ Full research fee payable	£ Full research fee payable

Fees will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g. for a student starting in 2020/21 the 2020/21 Table of Fees should be checked for fees payable in Year 1, the 2021/22 Table of Fees should be checked for fees payable in Year 2, and so on.

MRES/PHD 2 + 3 PROGRAMME (FOR STUDENTS STARTING FROM 2020/21 ONWARDS)

Two MRes years followed by a three-year PhD programme. This structure applies to students entering with a taught postgraduate qualification on the following MRes/PhD programmes:

- MRes/PhD Management – Employment Relations and Human Resources**
- MRes/PhD Management - Organisational Behaviour**
- MRes/PhD Management - Marketing**

As set out in **Table 3** below, students entering onto these programmes will be charged the full research fee for both years of the MRes; the full research fee for the first two years of the PhD; and a zero fee for the final/third PhD year. If the School grants an extension to the registration period beyond the third year of PhD study the full research fee will be charged.

Fees will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g. for a student starting in 2020/21 the 2020/21 Table of Fees should be checked for fees payable in Year 1, the 2021/22 Table of Fees should be checked for fees payable in Year 2, and so on. Exceptions may apply relating to thesis revisions and disability as detailed in the MPhil/PhD section.

MRES/PHD 2 + 4 PROGRAMME

Two MRes years followed by a four-year PhD programme. This structure applies to students who typically enter with a taught postgraduate qualification on to the following programmes:

MRes/PhD Accounting
MRes Finance
MRes Economics

As set out in **Table 4** below, students entering onto these programmes will be charged the full research fee for both years of the MRes; the full research fee for the first three years of the PhD; and a zero fee for the final/fourth year of the PhD. If the School grants an extension to the registration period beyond the fourth year of PhD study then the full research fee will be charged.
