

# 2022/23 Fee Levels †

† New entrants to programmes in 2022/23 will be eligible for either Home or Overseas fee status. EU students who are new entrants to LSE programmes in 2022/23 will be classified as having Overseas fee status unless they fulfil UK immigration criteria. For further information on the criteria (including immigration criteria) please see these websites:

[UK Government "Studying in the UK: Guidance for EU Students"](#)

[UK Council for International Student Affairs "Home or Overseas fee: the basics"](#)

<https://www.lse.ac.uk/study-at-lse/international-students/fee-status-classification>

The fees quoted are for one year of study in 2022/23 only, unless stated otherwise. If the duration of your programme is more than one year you must check for information on fees payable in future years - e.g. the 2023/24 Table of Fees.

Please note that fees are paid in each academic year for which you are registered and normally rise each year, unless stated otherwise. LSE reserves the right to alter the fee level. Some fees may be provisional, and this will be indicated.

Further information about the fee structures for research programmes can be found at the end of this document and should be read alongside the fee levels listed below.

If your programme includes a period of study at another institution, the fees for that period will be set by that institution and payable there. Likewise, if your programme covers more than one year at LSE, the new fee levels for your second and succeeding years will be payable in due course.

[Further information relating to fee levels can be found in the School's Tuition Fees Policy.](#)

1. Two undergraduate programmes, BSc International Relations and Chinese and BSc Language, Culture and Society, include a compulsory year abroad in the third year of the programme. Information on the fees charged for a year abroad can be found at:

<https://info.lse.ac.uk/staff/divisions/Planning-Division/Table-of-Fees>

2. The fee level for new Home undergraduate entrants in 2022/23 has been confirmed by the UK Government. In February 2022, the Government confirmed this fee will be frozen at this level for 2023/24 and 2024/25.

3. Overseas Undergraduate students commencing their studies in 2022/23 will be charged a flat fee for each year of their programme, fixed from the year of entry. Fee levels for each **new** Overseas Undergraduate cohort will rise each year.

4. Undergraduate programmes are not available on a part-time basis. The fees shown relate to full-time students who are allowed to repeat tuition for part of their programme of study by the Repeat Teaching Panel:

<https://info.lse.ac.uk/current-students/services/repeat-teaching>

The total fee to be paid is dependent on the number of units repeated up to a maximum fee of £4,500

## **MPHIL/ PHD FULL-TIME FEE STRUCTURE**

The tuition fee structure for full-time MPhil/PhD programmes can be found in **Table 1**. The tuition fee for the first three years of study will be subject to inflationary increases in each year. In the fourth year, no fee will be charged. If the School grants an extension to the registration period beyond the fourth year of study, then the full research fee will be charged for that year and any subsequent years, i.e. from the fifth year onwards students will recommence paying fees.

**Table 1 – MPhil/PhD fee structure**

	Home/EU	Overseas
MPhil/PhD – Year 1	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 2	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 3	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 4	£0 fee	£0 fee
Registration beyond Year 4	£ Full research fee payable	£ Full research fee payable

Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g., for a student starting in 2022/23 the 2022/23 Table of Fees should be checked for fees payable in year 1, the 2023/24 Table of Fees should be checked for fees payable in year 2, and so on. The exact fees charged to each research student will consider any periods of interruption, changes in mode and other relevant factors. For example, a proportion of the fee will be charged where special arrangements have been agreed for part-time study.

The maximum length of registration is four years for full-time research students. Exceptionally, the Research Degrees Subcommittee Chair may permit a student to continue to register beyond the maximum length of their programme. Students permitted to enter year 5 will be liable to pay the full fee amount for each further year of study plus any inflationary increase. The only exceptions are:

- Students who have submitted their thesis, and have been examined, but have a significant period of revisions to make, i.e., 12 months, may be allowed to re-register with a zero fee while making the revisions.
- Students with disabilities may be allowed to register beyond the maximum period of study at a zero fee if this has been recommended by the Disability and Wellbeing Service at the School as being a reasonable adjustment and recorded in an Inclusion Plan. Cases will be considered on an individual basis by the Research Degrees Subcommittee Chair in consultation with the Disability and Wellbeing Service.

## **MRES/PHD FEE STRUCTURES**

The structure of MRes/PhD programmes at the School differs from the standard MPhil/PhD structure both in terms of programme length and the fees charged.

There are three different MRes/PhD structures operating at the School:

### **MRES/PHD 1 + 4 PROGRAMME**

An initial MRes year followed by a four-year PhD programme. This structure applies to students entering with a taught postgraduate qualification on the following MRes/PhD programmes:

**MRes/PhD Anthropology**  
**MRes/PhD International Development**  
**MRes/PhD Political Science**  
**MRes/PhD Quantitative Economic History**

The tuition fee structure for MRes/PhD 1 + 4 programmes can be found in **Table 2**. Students entering on to these programmes will be charged a full research fee for the MRes year, a full research fee for the first three years of their PhD and a zero fee for the remaining PhD year. If the School grants an extension to the registration period beyond the fourth year of PhD study, then the full research fee will be charged. Where fees are charged, they will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g., for a student starting in 2022/23 the 2022/23 Table of Fees should be checked for fees payable in year 1, the 2023/24 Table of Fees should be checked for fees payable in year 2, and so on. Exceptions may apply relating to thesis revisions and disability as detailed in the MPhil/PhD section.

PhD – Year 4	£0 fee	£0 fee
Registration beyond Year 4 of the PhD	£ Full research fee payable	£ Full research fee payable

### **MRES/PHD 2 + 3 PROGRAMME**

A two-year MRes programme followed by a three-year PhD programme. This structure applies to students entering with a taught postgraduate qualification on the following MRes/PhD programmes:

**MRes/PhD Accounting**

**MRes/PhD Management – Employment Relations and Human Resources**

**MRes/PhD Management - Organisational Behaviour**

**MRes/PhD Management - Marketing**

The tuition fee structure for MRes/PhD 2 + 3 programmes can be found in **Table 3**. Students entering on to these programmes will be charged a full research fee for both years of the MRes, the full research fee for the first three years of their PhD and a zero fee for the remaining PhD year. If the School grants an extension to the registration period beyond the fourth year of PhD study, then the full research fee will be charged. Where fees are charged, they will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g., for a student starting in 2022/23 the 2022/23 Table of Fees should be checked for fees payable in year 1, the 2023/24 Table of Fees should be checked for fees payable in year 2, and so on. Exceptions may apply relating to thesis revisions and disability as detailed in the MPhil/PhD section.

## **MRES/PHD 2 + 4 PROGRAMME**

Two MRes years and then four years of PhD study. This structure applies to students who typically enter with a taught postgraduate qualification on to the following programmes:

**MRes/PhD Economics**

**MRes/PhD Finance**

**MRes/PhD Management and Economics**

The tuition fee structure for MRes/PhD 2 + 4 programmes can be found in **Table 4**. Students will be charged the full research fee for the two MRes years, the full research fee for the first three years of the PhD and a zero fee for the remaining year of the PhD. If the School grants an extension to the registration period beyond the fourth year of PhD study, then the full research fee will be charged. Where fees are charged, they will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g., for a student starting in 2022/23 the 2022/23 Table of Fees should be checked for fees payable in year 1, the 2023/24 Table of Fees should be checked for fees payable in year 2, and so on.
