

2025/26 Fee Levels

New entrants to programmes from 2021/22 onwards are eligible for either Home or Overseas fee status. EU students who are new entrants to LSE programmes in 2025/26 will be classified as having Overseas fee status unless they fulfil UK immigration criteria. For further information on the criteria (including immigration criteria) please search these webpages:

- [UK Government - Studying in the UK: Guidance for EU Students](#)
- [UK Council for International Student Affairs - Home or Overseas fees: the basics](#)
- [LSE - Fee Status Classification](#)

The fees quoted are for one year of study in 2025/26 only, unless stated otherwise. If the duration of your programme is more than one year you must check information on fees payable in future years - e.g. the 2026/27 Table of Fees. Fees are paid in each academic year for which you are registered and normally rise each year, unless stated otherwise. LSE reserves the right to alter the fee levels under its control. Some fees are provisional (e.g. for the second year of two-year programmes and Double Degrees) and this will be indicated.

Further information about the fee structures for research programmes can be found at the end of this document in "MPhil/ PhD Full-Time Fee Structure", and should be read alongside the fee levels listed below.

If your programme includes a period of study at another institution, the fees for that period will be set by that institution and payable there. Likewise, if your programme covers more than one year at LSE, the new fee levels for your second and succeeding years will be payable in due course.

[Further information relating to fee levels can be found in the School's Tuition Fees Policy.](#)

1. Two undergraduate programmes, the BSc International Relations and Chinese and the BSc Language, Culture and Society, include a compulsory study year abroad and the 4-year BSc Actuarial Science includes a placement year. Information on the fees charged for study abroad and placement years can be found at: <https://info.lse.ac.uk/staff/divisions/Planning-Division/Table-of-Fees>
2. The School chooses to set its fee for Home undergraduates at the maximum level set by the UK Government. The fee for 2025/26 entry has not yet been announced but is expected to remain at £9,250.
3. Starting in 2023/24, new Overseas Undergraduate students pay a fee based on which tier their programme is in - see table "Overseas Undergraduate Fees by Programme for 2025/26 Entry". This fee will be fixed from the year of entry, so students will pay the same amount each year for the duration of their programme. Fee levels for each new Overseas Undergraduate cohort will rise each year.
4. Undergraduate programmes are not available on a part-time basis. The fees shown relate to full-time students who are allowed to repeat tuition for part of their programme of study by the Repeat Teaching Panel: <https://info.lse.ac.uk/current-students/services/repeat-teaching> The total fee to be paid is dependent on the number of units repeated up to a maximum fee of £4,625.

13. The LSE chooses to set its Home postgraduate research fee in line with the level set by the UK Research Councils. The amount of £4,905 shown here is provisional until confirmed by UKRI, expected in early 2025.

14. The fee for Visiting Research Students is calculated on a weekly basis (proportional to the annual fee).

MPHIL/ PHD FULL-TIME FEE STRUCTURE

The tuition fee structure for full-time MPhil/PhD programmes can be found in **Table 1**. The tuition fee for the first three years of study will be subject to inflationary increases in each year. In the fourth year, no fee will be charged. If the School grants an extension to the registration period beyond the fourth year of study, then the full research fee will be charged for that year and any subsequent years, i.e. from the fifth year onwards students will recommence paying fees.

Table 1 – MPhil/PhD fee structure

	Home/EU	Overseas
MPhil/PhD – Year 1	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 2	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 3	£ Full research fee payable	£ Full research fee payable
MPhil/PhD – Year 4	£0 fee	£0 fee
Registration beyond Year 4	£ Full research fee payable	£ Full research fee payable

Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g., for a student starting in 2025/26 the 2025/26 Table of Fees should be checked for fees payable in year 1, the 2026/27 Table of Fees should be checked for fees payable in year 2, and so on. The exact fees charged to each research student will consider any periods of interruption, changes in mode and other relevant factors. For example, a proportion of the fee will be charged where special arrangements have been agreed for part-time study.

The maximum length of registration is four years for full-time research students. Exceptionally, the Research Degrees Subcommittee Chair may permit a student to continue to register beyond the maximum length of their programme. Students permitted to enter year 5 will be liable to pay the full fee amount for each further year of study plus any inflationary increase. The only exceptions are:

- Students who have submitted their thesis, and have been examined, but have a significant period of revisions to make, i.e., 12 months, may be allowed to re-register with a zero fee while making the revisions.
- Students with disabilities may be allowed to register beyond the maximum period of study at a zero fee if this has been recommended by the Disability and Wellbeing Service at the School as being a reasonable adjustment and recorded in an Inclusion Plan. Cases will be considered on an individual basis by the Research Degrees Subcommittee Chair in consultation with the Disability and Wellbeing Service.

MRES/PHD FEE STRUCTURES

The structure of MRes/PhD programmes at the School differs from the standard MPhil/PhD structure both in terms of programme length and the fees charged.

There are three different MRes/PhD structures operating at the School:

MRES/PHD 1 + 4 PROGRAMME

An initial MRes year followed by a four-year PhD programme. This structure applies to students entering with a taught postgraduate qualification on the following MRes/PhD programmes:

MRes/PhD Anthropology
MRes/PhD International Development
MRes/PhD Political Science
MRes/PhD Quantitative Economic History

The tuition fee structure for MRes/PhD 1 + 4 programmes can be found in **Table 2**. Students entering on to these programmes will be charged a full research fee for the MRes year, a full research fee for the first three years of their PhD and a zero fee for the remaining PhD year. If the School grants an extension to the registration period beyond the fourth year of PhD study, then the full research fee will be charged. Where fees are charged, they will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g., for a student starting in 2025/26 the 2025/26 Table of Fees should be checked for fees payable in year 1, the 2026/27 Table of Fees should be checked for fees payable in year 2, and so on. Exceptions may apply relating to thesis revisions and disability as detailed in the MPhil/PhD section.

MRES/PHD 2 + 3 PROGRAMME

A two-year MRes programme followed by a three-year PhD programme. This structure applies to students entering with a taught postgraduate qualification on the following MRes/PhD programmes:

MRes/PhD Accounting

MRes/PhD Management – Employment Relations and Human Resources

MRes/PhD Management - Organisational Behaviour

MRes/PhD Management - Marketing

The tuition fee structure for MRes/PhD 2 + 3 programmes can be found in **Table 3**. Students entering on to these programmes will be charged a full research fee for both years of the MRes, the full research fee for the first three years of their PhD and a zero fee for the remaining PhD year. If the School grants an extension to the registration period beyond the fourth year of PhD study, then the full research fee will be charged. Where fees are charged, they will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g., for a student starting in 2025/26 the 2025/26 Table of Fees should be checked for fees payable in year 1, the 2026/27 Table of Fees should be checked for fees payable in year 2, and so on. MRES/PHD 2 + 4 PROGRAMME

Two MRes years and then four years of PhD study. This structure applies to students who typically enter with a taught postgraduate qualification on to the following programmes:

MRes/PhD Economics

MRes/PhD Finance

MRes/PhD Management and Economics

The tuition fee structure for MRes/PhD 2 + 4 programmes can be found in **Table 4**. Students will be charged the full research fee for the two MRes years, the full research fee for the first three years of the PhD and a zero fee for the remaining year of the PhD. If the School grants an extension to the registration period beyond the fourth year of PhD study, then the full research fee will be charged. Where fees are charged, they will increase by inflation each year. Tuition fees are reviewed annually and are subject to change. The relevant Table of Fees should be checked for the fee amount each year, e.g., for a student starting in 2025/26 the 2025/26 Table of Fees should be checked for fees payable in year 1, the 2026/27 Table of Fees should be checked for fees payable in year 2, and so on.
