<td>One of: Either EC220 Introduction to Econometrics or EC221 Principles of Econometrics or MG203 Organisational Theory and Behaviour (not available 2017/18), LL209 Commercial Law or MA231 Operational Research Methods</td>
</tr>
</tbody>
</table>

A student may take approved papers to the value of one unit from:
AC104  Elements of Accounting, Financial Institutions and Financial Management
FM212  Principles of Finance *
MA103  Introduction to Abstract Mathematics
MA203  Real Analysis

Or courses to the value of one unit - to be discussed with the academic advisor

Year 3
9  ST302  Stochastic Processes (H) and
   ST304  Time Series and Forecasting (H)
10  ST301  Actuarial Mathematics: Life (H) and
   ST306  Actuarial Mathematics: General (H)
11  ST330  Stochastic and Actuarial Methods in Finance
12  Courses to the value of one unit from:
   MA203  Real Analysis
   MA208  Optimisation theory
   MA209  Differential equations
   MA313  Probability of Finance
   MA318  History of Mathematics in Finance and Economics
   ST300  Regression and Generalised Linear Models (H) **
   ST303  Stochastic Simulation (H)
   ST308  Bayesian Inference (H) **
   ST312  Applied Statistics Project (H)

Notes
§ Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.
* FM212 could lead to an exemption of CT2 for students who have chosen AC104
** Either ST300 or ST308 needs to be chosen for exemption of CT6.

Students can replace Papers 10, 11 or 12 with subjects to the value of one unit approved by their tutor, but this will affect exemptions from examinations set by the Institute and Faculty of Actuaries.

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

This programme is externally accredited by the Institute and Faculty of Actuaries. Further information is available on the Department of Statistics website lse.ac.uk/statistics/study/Prospective/UG-Programmes/exemptions.aspx.

**Notes**
No more than one unit taken under Papers 8 and 12 may be selected from Anthropology Selection List A.

**Anthropology Selection List A**
AN205  The Anthropology of Melanesia
AN216  Cognition and Anthropology: Human Development in Cultural Environments (H)
AN221  The Anthropology of Christianity (H) (not available 2017/18)
AN223  The Anthropology of South East Asia (H) (not available 2017/18)
AN237  The Anthropology of Development (H)
AN238  Anthropology and Human Rights (H) (not available 2017/18)
AN240  Investigating the Philippines - New Approaches and Ethnographic Contexts (H) (not available 2017/18)
AN243  Children and Youth in Contemporary Ethnography (H) (not available 2017/18)
AN244  Anthropology and Media (H) (not available 2017/18)
AN245  Borders and Boundaries: Ethnographic Approaches (H)
AN247  The Anthropology of Ontology (H) (not available 2017/18)
AN250  The Anthropology of South Asia (H) (not available 2017/18)
AN251  Cognition and Anthropology: Learning and Thinking in Relation to Social Institutions (H)
AN252  Anthropological Approaches to Value (H)
AN269  The Anthropology of Amazonia (H)
AN274  Subjectivity and Anthropology (H) (not available 2017/18)
AN275  The Anthropology of Revolution (H)
AN276  Anthropology and the Anthropocene (H)
AN298  Research Methods in Social Anthropology (H)

An approved paper taught outside the Department

**Anthropology Selection List B**
AN200  The Anthropology of Kinship, Sex and Gender
AN256  Economic Anthropology (1): Production and Exchange (H)
AN357  Economic Anthropology (2): Transformation and Globalisation (H)

**Anthropology Selection List C**
AN300  Advanced Theory of Social Anthropology
AN301  The Anthropology of Religion

**Law Selection List**
LL201  Administrative Law
LL202  Commercial Contracts
LL203  Law of Business Associations
LL204  Advanced Torts
LL205  Medical Law
LL207  Civil Liberties and Human Rights
LL210  Information Technology and the Law
LL212  Conflict of Laws
LL221  Family Law
LL233  Law of Evidence
LL241  European Legal History
LL242  International Protection of Human Rights
LL250  Law and the Environment
LL251  Intellectual Property Law
LL253  The Law of Corporate Insolvency
LL257  Labour Law
LL259  Legal and Social Changes Since 1750
LL272  Outlines of Modern Criminology (H)
This programme is externally accredited by the Law Society. ### BSc in Business Mathematics and Statistics

**Programme Code:** UBBMS2  
**Department:** Statistics  
**For first year students in 2017/18.**

Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

**Paper** | **Course number and title**  
--- | ---  
See note LSE100 | The LSE Course: Understanding the causes of things  

**Year 1**

1. ST102 Elementary Statistical Theory  
2. MA100 Mathematical Methods  
3. **Either** EC100 Economics A* or EC102 Economics B §  
4. **Either** AC100 Elements of Accounting and Finance or MA103 Introduction to Abstract Mathematics

**Year 2**

5. MA212 Further Mathematical Methods  
6 & 7. **Either**  
   - ST202 Probability, Distribution Theory and Inference and ST211 Applied Regression (H) and one half unit from the list below:  
   - MA203 Real Analysis (H)  
   - MA208 Optimisation Theory (H)  
   - MA209 Differential Equations (H)  
   - MA210 Discrete Mathematics (H)  
   - MA211 Algebra and Number Theory (H)  
   - MA205 Sample Surveys and Experiments (H)  
   - MA226 Actuarial Investigations - Financial (H)  
   - MA227 Survival Models (H)  
   - **Or**  
   - ST206 Probability and Distribution Theory (H) and ST211 Applied Regression (H) and one half unit from the list below:  
   - MA203 Real Analysis (H)  
   - MA208 Optimisation Theory (H)  
   - MA209 Differential Equations (H)  
   - MA210 Discrete Mathematics (H)  
   - MA211 Algebra and Number Theory (H)  
   - MA205 Sample Surveys and Experiments (H)  
   - MA226 Actuarial Investigations - Financial (H)  
   - MA227 Survival Models (H)  
   - **Or**  
   - **Courses to the value of one unit from:**  
   - AC100 Elements of Accounting and Finance  
   - AC104 Elements of Accounting, Financial Institutions and Financial Management (if AC100 has not been taken)  
   - AC211 Managerial Accounting  
   - EC201 Microeconomic Principles I  
   - EC202 Microeconomic Principles II  
   - EC210 Macroeconomic Principles  
   - FM212 Principles of Finance  
   - MA231 Operational Research Methods  
   - MG203 Organisational Theory and Behaviour (not available 2017/18)  
   - MG206 firms, Management and Competitive Advantage (H)  

**Year 3**

9. **Courses to the value of one unit from the following:**  
   - ST300 Regression and Generalised Linear Models (H)  
   - ST301 Actuarial Mathematics: Life (H)  
   - ST302 Stochastic Processes (H)  
   - ST304 Time Series and Forecasting (H)  
   - ST306 Actuarial Mathematics: General (H)  
   - ST308 Bayesian Inference (H)  
   - ST312 Applied Statistics Project (H)  
   - ST330 Stochastic and Actuarial Methods in Finance (can only be taken in conjunction with ST302)  

10. **Courses to the value of one unit from the list below or from Paper 9 (above):**  
    - MA203 Real Analysis (H)  
    - MA208 Optimisation Theory (H)  
    - MA209 Differential Equations (H)  
    - MA210 Discrete Mathematics (H)  
    - MA211 Algebra and Number Theory (H)  
    - MA300 Game Theory (not if MA301 also taken)  
    - MA301 Game Theory I (H) (not if MA300 also taken)  
    - MA303 Chaos in Dynamical Systems (H)  
    - MA305 Optimisation in Function Spaces (H) (not available 2017/18)  
    - MA310 Mathematics of Finance and Valuation (H)  
    - MA313 Probability for Finance (H)  
    - MA314 Algorithms and Programming  
    - MA315 Algebra and its Applications (H)  
    - MA317 Complex Analysis (H)  
    - MA318 History of Mathematics in Finance and Economics (H)  
    - MA319 Partial Differential Equations (H)  
    - MA331 Practical Optimisation Modelling (H) (third year only) (not available 2017/18)  
    - MG308 Simulation Modelling and Analysis (H)  
    - ST307 Aspects of Market Research (H) (not if ST205 or ST327 is taken)  
    - ST327 Market Research: An Integrated Approach (not if ST307 is taken)  

11. **Courses to the value of one unit from papers 9 and 10 or from the list below:**  
    - AC211 Managerial Accounting  
    - AC310 Management Accounting, Financial Management and Organizational Control  
    - AC330 Financial Accounting, Analysis and Valuation  
    - AC340 Auditing, Governance and Risk Management  
    - EC202 Microeconomic Principles II  
    - EC210 Macroeconomic Principles  
    - EC321 Monetary Economics  
    - FM212 Principles of Finance  
    - FM300 Corporate Finance, Investments and Financial Mathematics  
    - FM320 Quantitative Finance  
    - LL209 Commercial Law  
    - LL210 Information Technology and the Law  
    - MA231 Operational Research Methods  
    - MG203 Organisational Theory and Behaviour (not available 2017/18)  
    - MG206 Firms, Management and Competitive Advantage (H)  
    - MG207 Managerial Economics  
    - MG212 Marketing (H)  
    - MG302 Topics in Management Research (H)  
    - MG307 International Context of Management (H) (cannot be taken with MG303)
MG315  Marketing Action Learning Project (H) (third year only)

Students may also take certain unlisted courses, including a Language course at least at intermediate level, with the approval of the Course Tutor.

Any courses to the value of one unit from the options listed under Papers 9 and 10 or from the list below:

12 AC211  Managerial Accounting
AC310  Management Accounting, Financial Management and Organisational Control
AC330  Financial Accounting, Analysis and Valuation
AC340  Auditing, Governance and Risk Management
EC202  Microeconomic Principles II
EC210  Macroeconomic Principles
EC221  Principles of Econometrics
EC313  Industrial Economics
EC321  Monetary Economics
FM212  Principles of Finance
FM300  Corporate Finance, Investments and Financial Markets
FM320  Quantitative Finance
ST202  Probability, Distribution Theory and Inference (if not already taken under Paper 7)
ST226  Actuarial Investigations: Financial (H)
ST227  Survival Models (H)

Notes

§ Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

BSc in Business Mathematics and Statistics

Programme Code: UBMMS2

Department: Statistics

For second year students in 2017/18.

Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

Paper Course number and title

See note LSE100  The LSE Course: Understanding the causes of things

Year 1

1 ST102  Elementary Statistical Theory
MA100  Mathematical Methods

Either

EC100 Economics A* or EC102 Economics B §

4 Either AC100 Elements of Accounting and Finance or MA103 Introduction to Abstract Mathematics

Year 2

5 MA212  Further Mathematical Methods

Either

ST202 Probability, Distribution Theory and Inference and ST211 Applied Regression (H) and one half unit from the list below:
MA203  Real Analysis (H)
MA208  Optimisation Theory (H)
MA209  Differential Equations (H)
MA210  Discrete Mathematics (H)
MA211  Algebra and Number Theory (H)
ST205  Sample Surveys and Experiments (H)
ST226  Actuarial Investigations - Financial (H)
ST227  Survival Models (H)

Or

ST206 Probability and Distribution Theory (H) and ST211 Applied Regression (H) and courses to the value of one full unit from the list below:
MA103  Introduction to Abstract Mathematics
MA203  Real Analysis (H)
MA208  Optimisation Theory (H)
MA209  Differential Equations (H)
MA210  Discrete Mathematics (H)

MA211  Algebra and Number Theory (H)
ST205  Sample Surveys and Experiments (H) and ST211 Applied Regression (H) and courses to the value of one full unit from the list below:

Year 3

9

Courses to the value of one unit from the following:
ST300  Regression and Generalised Linear Models (H)
ST301  Actuarial Mathematics: Life (H)
ST302  Stochastic Processes (H)
ST304  Time Series and Forecasting (H)
ST305  Actuarial Mathematics: General (H)
ST307  Aspects of Market Research (H) (not if ST205 or ST327 is taken)
ST308  Bayesian Inference (H)
ST312  Applied Statistics Project (H)
ST327  Market Research: An Integrated Approach (not if ST307 is taken)
ST330  Stochastic and Actuarial Methods in Finance (can only be taken in conjunction with ST302)

10 Courses to the value of one unit from the list below or from Paper 9 (above):
MA203  Real Analysis (H)
MA208  Optimisation Theory (H)
MA209  Differential Equations (H)
MA210  Discrete Mathematics (H)
MA211  Algebra and Number Theory (H)
MA300  Game Theory (not if MA301 also taken)
MA301  Game Theory I (H) (not if MA300 also taken)
MA302  Chaos in Dynamical Systems (H)
MA305  Optimisation in Function Spaces (H) (not available 2017/18)
MA310  Mathematics of Finance and Valuation (H)
MA313  Probability for Finance (H)
MA314  Algorithms and Programming (H)
MA315  Algebra and its Applications (H)
MA317  Complex Analysis (H)
MA318  History of Mathematics in Finance and Mathematics (H)

MA211  Algebra and Number Theory (H)
ST205  Sample Surveys and Experiments (H)
ST226  Actuarial Investigations - Financial (H)
ST227  Survival Models (H)

Or

ST205  Sample Surveys and Experiments (H) and ST211 Applied Regression (H) and courses to the value of one full unit from the list below:

MA103  Introduction to Abstract Mathematics
MA203  Real Analysis (H)
MA208  Optimisation Theory (H)
MA209  Differential Equations (H)
MA210  Discrete Mathematics (H)
MA211  Algebra and Number Theory (H)
ST206  Probability and Distribution Theory (H)
ST226  Actuarial Investigations - Financial (H)
ST227  Survival Models (H)
LSE100 is taken by all students in the Lent Term of Year 1.

Courses to the value of one unit from Papers 9 and 10 or from the list below:

- **AC211** Managerial Accounting
- **AC310** Management Accounting, Financial Management and Organizational Control
- **AC330** Financial Accounting, Analysis and Valuation
- **AC340** Auditing, Governance and Risk Management
- **EC202** Microeconomic Principles II
- **EC210** Macroeconomic Principles
- **EC321** Monetary Economics
- **FM212** Principles of Finance
- **FM300** Corporate Finance, Investments and Financial Mathematics
- **FM320** Quantitative Finance
- **LL209** Commercial Law
- **LL210** Information Technology and the Law
- **MA231** Operational Research Methods
- **MG203** Organisational Theory and Behaviour (not available 2017/18)
- **MG206** Firms, Management and Competitive Advantage (H)
- **MG207** Managerial Economics
- **MG212** Marketing (H)
- **MG302** Topics in Management Research (H)
- **MG307** International Context of Management (H) (cannot be taken with MG303)
- **MG315** Marketing Action Learning Project (H) (third year only)

Students may also take certain unlisted courses, including a Language course at least at intermediate level, with the approval of the Course Tutor.

Any courses to the value of one unit from the options listed under Papers 9 and 10 or from the list below:

- **AC211** Managerial Accounting
- **AC310** Management Accounting, Financial Management and Organizational Control
- **AC330** Financial Accounting, Analysis and Valuation
- **AC340** Auditing, Governance and Risk Management
- **EC202** Microeconomic Principles II
- **EC210** Macroeconomic Principles
- **EC321** Monetary Economics
- **FM212** Principles of Finance
- **FM300** Corporate Finance, Investments and Financial Mathematics
- **FM320** Quantitative Finance
- **LL209** Commercial Law
- **LL210** Information Technology and the Law
- **MA231** Operational Research Methods
- **MG203** Organisational Theory and Behaviour (not available 2017/18)
- **MG206** Firms, Management and Competitive Advantage (H)
- **MG207** Managerial Economics
- **MG302** Topics in Management Research (H)
- **MG307** International Context of Management (H) (cannot be taken with MG303)
- **MG315** Marketing Action Learning Project (H) (third year only)

Notes:

- Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.
- LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

AC211 Managerial Accounting
AC310 Management Accounting, Financial Management and Organisational Control
AC330 Financial Accounting, Analysis and Valuation
AC340 Auditing, Governance and Risk Management
EC202 Microeconomic Principles II
EC210 Macroeconomic Principles
EC211 Principles of Econometrics
EC221 Principles of Econometrics
Either EC210 Macroeconomic Principles
Or MA212 Further Mathematical Methods
Or Courses to the value of one unit from: MA203 Real Analysis (H) and an appropriate Mathematics second half module, with the permission of the Department Tutor
Or an approved paper taught outside the Department of Economics
Year 2
5 EC202 Microeconomic Principles II
6 EC221 Principles of Econometrics
7 Either EC210 Macroeconomic Principles
Or MA212 Further Mathematical Methods
Or Courses to the value of one unit from: MA203 Real Analysis (H) and an appropriate Mathematics second half module, with the permission of the Department Tutor
Or an approved paper taught outside the Department of Economics
Year 3
9 Either EC309 Econometric Theory or EC319 Games and Economic Behaviour or EC333 Problems of Applied Econometrics
10 One from the Selection list below
11 Either a further paper from Paper 9 above
Or an approved paper from the Selection list below
12 EC331 Project in Quantitative Economics
In exceptional circumstances a student may substitute an outside paper for Paper 11. This outside paper should be both of an advanced nature and coherent with the student’s other choice of papers. Permission to take such a paper should first be obtained from the Departmental Tutor who must countersign the Additional Permission For m. Any subsequent revision to the student’s choice of papers must also be countersigned by the Departmental Tutor.

Notes
§ Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

BSc in Econometrics and Mathematical Economics
Programme Code: UBEM
Department: Economics
For all first, second and third year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
1 EC100 Economics A Or
EC102 Economics B §
2 MA100 Mathematical Methods
3 ST102 Elementary Statistical Theory
4 An approved paper taught outside the Department of Economics

Year 2
5 EC202 Microeconomic Principles II
6 EC221 Principles of Econometrics
7 Either EC210 Macroeconomic Principles
Or MA212 Further Mathematical Methods
Or Courses to the value of one unit from: MA203 Real Analysis (H) and an appropriate Mathematics second half module, with the permission of the Department Tutor
8 Either ST202 Probability, Distribution Theory and Inference
Or an approved paper taught outside the Department of Economics

Year 3
9 Either EC309 Econometric Theory or EC319 Games and Economic Behaviour or EC333 Problems of Applied Econometrics
10 One from the Selection list below
11 Either a further paper from Paper 9 above
Or an approved paper from the Selection list below
12 EC331 Project in Quantitative Economics
In exceptional circumstances a student may substitute an outside paper for Paper 11. This outside paper should be both of an advanced nature and coherent with the student’s other choice of papers. Permission to take such a paper should first be obtained from the Departmental Tutor who must countersign the Additional Permission For m. Any subsequent revision to the student’s choice of papers must also be countersigned by the Departmental Tutor.

Econometrics and Mathematical Economics Selection list
AC211 Managerial Accounting
AC310 Management Accounting, Financial Management and Organisational Control
AC340 Auditing, Governance and Risk Management (Students may take only one of AC211, AC310 and AC340 in Year 3)
FM212 Principles of Finance
FM300 Corporate Finance, Investments and Financial Markets (if FM212 taken in second year)
FM320 Quantitative Finance (if FM212 taken in second year)
EC210 Macroeconomic Principles (if not taken under Paper 7 above)
EC301 Advanced Economic Analysis
EC302 Political Economy
EC303 Economic Policy Analysis (not available 2017/18)
EC307 Development Economics
EC310 Behavioural Economics
EC311 History of Economics: How Theories Change
BSc in Economic History
Programme Code: UBEH
Department: Economic History
For all first, second and third year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
1 EH101 The Internationalisation of Economic Growth, 1870 to the Present Day
2 Either EC100 Economics A or EC102 Economics B
3 EH102 Pre-industrial Economic History
4 An approved paper from outside the Department
   The unassessed course EH103 Making Economic History Count is strongly recommended for all first year students.

Year 2
5 EH237 Theories and Evidence in Economic History
6 & 7 Two from:
   EH204 Money and Finance: From the Middle Ages to Modernity
   EH207 The Making of an Economic Superpower: China since 1850
   EH211 Africa and the World Economy, 1500-2000 (not available 2017/18)
   EH225 Latin America and the International Economy
   EH238 The Industrial Revolution
   EH240 Business and Economic Performance since 1945: Britain in International Context
8 Another course from Papers 6 and 7, or a level 200 or 300 course from outside the Economic History Department

Year 3
9 & 10 Two from:
   EC311 History of Economics: How Theories Change
   EH304 The Economic History of North America: from Colonial Times to the Cold War
   EH306 Monetary and Financial History since 1750
   EH307 The Economic History of South Asia, 1600-2000 (not available 2017/18)
   EH308 Historical Economic Geography: Cities, Markets and Regions in the 19th and 20th Centuries
   EH309 Slavery from Ancient Greece to the Gulag (not available 2017/18)
   EH325 Issues of Modern Japanese Economic Development: Late Industrialisation, Imperialism and High Speed Growth (not available 2017/18)
   EH326 Innovation and its Finance in the 19th and 20th Centuries

Year 4
1 EH327 China's Traditional Economy and its Growth in the Very Long-Term (not available 2017/18)
11 A further paper taught by the Department of Economic History from those listed under Papers 7 or 9 & 10
12 EH390 Dissertation in Economic or Social History

Notes § Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

BSc in Economic History with Economics
Programme Code: UBEHWE
Department: Economic History
For all first, second and third year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
1 EC100 Economics A or
2 EC102 Economics B §
3 EH101 The Internationalisation of Economic Growth, 1870 to the Present Day
4 MA100 Mathematical Methods
5 An approved paper taught outside the Departments of Economics and Economic History
   The unassessed course EH103 Making Economic History Count is strongly recommended for all first year students.

Year 2
5 Either EC201 Microeconomic Principles I or
   EC202 Microeconomic Principles II or
   EC210 Macroeconomic Principles
6 EH237 Theories and Evidence in Economic History
7 One from:
   EH204 Money and Finance: From the Middle Ages to Modernity
   EH207 The Making of an Economic Superpower: China since 1850
   EH211 Africa and the World Economy, 1500-2000 (not available 2017/18)
   EH225 Latin America and the International Economy
   EH238 The Industrial Revolution
   EH240 Business and Economic Performance since 1945: Britain in International Context
8 An approved paper taught outside the Departments of Economic History and Economics (normally papers available to second and third year students) or a further paper from Paper 7 above

Year 3
9 One from:
   Either EC201 Microeconomic Principles I or
   EC202 Microeconomic Principles II or
   EC210 Macroeconomic Principles

Notes § Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Either a further paper from Paper 7 above or a further paper from Paper 10 above

Notes § Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

In exceptional circumstances a student may substitute an outside paper for Paper 12. This outside paper should be both of an advanced nature and coherent with the student's other choice of papers. Permission to take such a paper should first be obtained from the Departmental Tutor who must countersign the Additional Permission Form. Any subsequent revision to the student's choice of papers must also be countersigned by the Departmental Tutor.

EC327 China's Traditional Economy and its Growth in the Very Long Term (not available 2017/18)
EC328 The Economic History of South Asia, 1600-2000 (not available 2017/18)
EC329 Monetary and Financial History since 1750
EC331 History of Economics: How Theories Change
EC332 International Economics
EC333 Problems of Applied Econometrics

BSc in Environmental Policy with Economics

Programme Code: UBEPPOWEC
Department: Geography & Environment
For all first, second and third year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
1 GY120 Environmental Change: Past, Present and Future
2 GY121 Sustainable Development
3 EC100 Economics A or
   EC102 Economics B §
4 MA107 Quantitative Methods (Mathematics) (H) and
   ST107 Quantitative Methods (Statistics) (H)

Year 2
5 GY220 Environment: Science and Society
6 GY222 Applied Environmental Economics
7 One from:
EH225 Latin America and the International Economy
GH227 The Politics of Economic Policy
GV262 Contemporary Political Theory
GV263 Public Policy Analysis
GV264 Politics and Institutions in Europe
GV200 Economy, Society and Space
GV201 Urban and Spatial Economic Analysis I
GV202 Introduction to Global Development
GV205 Political Geographies, Policy and Space
GV240 Research Techniques (compulsory prerequisite for GY350 Independent Research Project)
IR200 International Political Theory
LL250 Law and the Environment
LL278 Public International Law
PH203 Philosophy of the Social Sciences
8 EC201 Microeconomic Principles I

Year 3
9 GY324 Environmental Governance
10 GY325 Environmental Economics
11 & 12 Two from:
   EC210 Macroeconomic Principles I
   EC315 International Economics
   EC325 Public Economics
   GY300 Theories of Development and Change
   GY301 The Political Geography of Development and the South
   GY302 Urban Development: Politics, Policy and Planning
   GY303 The Geography of Gender: Global Perspectives
   GY305 Urban and Spatial Economic Analysis II
   GY306 Geographies of Race
   GY350 Independent Research Project (GY240 compulsory prerequisite)
IR203 International Organisations
IR305 Strategic Aspects of International Relations

Notes
§ Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.
Level 1 courses and modern language courses are not permitted as part of this degree programme in Years 2 and 3. Students wishing to study a modern language are encouraged to take one of the LSE Language Centre’s extra-curricular courses.

BSc in Environment and Development
Programme Code: UBENDV
Department: Geography & Environment
For all first, second and third year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)
Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
1 GY120 Environmental Change: Past, Present and Future
2 GY121 Sustainable Development
3 GY100 Introduction to Geography
4 One from:
   Either EC100 Economics A or EC102 Economics B §
   AN100 Introduction to Social Anthropology
   EH101 The Internationalisation of Economic Growth, 1870 to the Present Day
   GY100 Introduction to Political Theory
   GY103 Contemporary Europe
   GY140 Introduction to Geographical Research
   IR100 Theories and Concepts of International Relations

BSc in Finance
Programme Code: UBFI
Department: Finance
For all students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)
Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
1 FM100 Introduction to Finance (H) and
2 AC102 Elements of Financial Accounting (H)
3 EC100 Economics A or
4 EC102 Economics B §
5 ST102 Elementary Statistical Theory
6 MA100 Mathematical Methods

Year 2
5 FM212 Principles of Finance
6 EC201 Microeconomic Principles I or
7 EC202 Microeconomic Principles II §
8 EC220 Introduction to Econometrics or
9 EC221 Principles of Econometrics §
10 FM200 Financial Systems and Crises (H) and
11 FM201 Macro-Finance (H)

Year 3
9 FM301 Market Anomalies and Asset Management (H) (not available 2017/18) and
LSE100 is taken by all students in the Lent Term of
Course allocation dependant on Economics A-level or
Course(s) to the value of one unit subject to approval; no
ST302 Stochastic Processes (H) (if MA322 is not
taken) (not available 2017/18)
MA322 Mathematics of Finance and Valuation (H) (if
ST326 Financial Statistics (H) (not available 2017/18)
MA323 Computational Methods in Financial
Mathematics (H) (not available 2017/18) and
ST326 Financial Statistics (H) (not available 2017/18)
MA321 Risk Management and Modelling (H) (not available
2017/18) and
MA305 Advanced Asset Markets (H) (not available
2017/18)
An approved paper taught outside the Department of
Finance
Notes LSE100 is taken by all students in the Lent Term of
Year 1 and the Michaelmas Term of Year 2. The course
is compulsory but does not affect the final degree
classification.
* With permission from the BSc in Finance Programme
Co-Director.
§ Course allocation dependant on Economics A-level or
equivalent background. See course guides for further
information.

BSc in Financial Mathematics and Statistics
Programme Code: UBFIMAST
Department: Mathematics, Statistics
For all first year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-
year BA/BSc degrees)
Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of
ing things
Year 1
1 EC100 Economics A or
EC102 Economics B §
2 MA100 Mathematical Methods
3 ST102 Elementary Statistical Theory
4 MA103 Introduction to Abstract Mathematics
Year 2
5 FM212 Principles of Finance
6 MA212 Further Mathematical Methods
7 ST202 Probability, Distribution Theory and Inference
8 MA203 Real Analysis (H) and
ST213 Introduction to Pricing, Hedging and
Optimization (H) (not available 2017/18)
Year 3
9 FM320 Quantitative Finance
10 MA323 Computational Methods in Financial
Mathematics (H) (not available 2017/18) and
ST326 Financial Statistics (H) (not available 2017/18)
11 Two from:
MA321 Measure Theoretic Probability (H) (not available
2017/18)
MA322 Mathematics of Finance and Valuation (H) (if
ST302 is not taken) (not available 2017/18)
ST300 Regression and Generalised Linear Models (H)
ST302 Stochastic Processes (H) (if MA322 is not
taken)
12 Course(s) to the value of one unit subject to approval; no
further FM courses are permitted.
§ Course allocation dependant on Economics A-level or
equivalent background. See course guides for further
information.
LSE100 is taken by all students in the Lent Term of
Year 1 and the Michaelmas Term of Year 2. The course
is compulsory but does not affect the final degree
classification.

BSc in Geography
Programme Code: UBGY2
Department: Geography & Environment
For all first, second and third year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-
year BA/BSc degrees)
Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of
ing things
Year 1
1 GY100 Introduction to Geography
2 GY140 Introduction to Geographical Research
3 Either GY103 Contemporary Europe or
GY120 Environmental Change: Past, Present and Future
or GY121 Sustainable Development
4 An approved paper taught outside the Department or
another paper from Paper 3 above
Year 2
5 GY2A0 Research Techniques (Spatial, Social and
Environmental)
6, 7 & 8 Three units from:
GY200 Economy, Society and Space
GY201 Urban and Spatial Economic Analysis I
GY202 Introduction to Global Development
GY205 Political Geographies, Policy and Space
GY220 Environment Science and Society
GY222 Applied Environmental Economics
GY244 London's Geographies
Or an approved LSE taught option (either within or
outside the Department of Geography but not a
Language course)
Year 3
9 GY350 Independent Research Project
10, 11 Three units from:
& 12 GY300 Theories of Regional Development and Change
GY301 The Political Geography of Development and
the South
GY302 Urban Development: Politics, Policy and
Planning
GY303 The Geography of Gender, Global Perspectives
GY305 Urban and Spatial Economic Analysis II
GY306 Geographies of Race
GY324 Environmental Governance
GY325 Environment and Development
One unit from Papers 6-8 (excluding an LSE taught
Outside Option)
Notes LSE100 is taken by all students in the Lent Term of
Year 1 and the Michaelmas Term of Year 2. The course
is compulsory but does not affect the final degree
classification.
Level 1 courses and modern language courses are not
permitted as part of this degree programme in Years 2
and 3. Students wishing to study a modern language are
encouraged to take one of the LSE Language Centre’s
extra-curricular courses.

BSc in Geography with Economics
Programme Code: UBGYWEC

IR373 China and the Global South (H)
IR377 The Politics of Governance, Development and Security in Sub-Saharan Africa (H)
IR398 Dissertation

LL242 International Protection of Human Rights *

A paper relevant to the study of International Relations approved by the candidate’s teachers from the Selection List below.
A further Language course from those listed under Paper 8 above at the intermediate, advanced or proficiency level.

Notes § Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.
* Prerequisite for this course is LL278 Public International Law.
# Prerequisite for this course is IR200 International Political Theory.
+ Prerequisite for this course is IR203 International Organisations.
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Selection List of Papers Approved by the Department as Relevant to the Study of International Relations
EC230 Economics in Public Policy
EH225 Latin America and the International Economy
GV227 The Politics of Economic Policy
GV245 Democracy and Democratisation
GV247 Theories and Problems of Nationalism (not available 2017/18)
GV251 Government, Politics and Public Policy in the European Union
GV262 Contemporary Political Theory
GV264 Politics and Institutions in Europe
GY202 Introduction to Global Development
GY220 Environment: Science and Society
GY301 The Political Geography of Development and the South
HY203 The Arab-Israeli Conflict: Nationalism, Territory, Religion (withdrawn 2017/18)
HY206 The International History of the Cold War, 1945-1989
HY226 The Great War, 1914-1918
HY242 The Soviet Union: Domestic, International and Intellectual History
HY319 Napoleon and Europe
HY320 Law and the Environment
LL250 Public International Law
PH203 Philosophy of the Social Sciences

Any other 200 or 300 level paper, not on the selection list, approved by the Departmental Tutor of the Department of International Relations.

BSc in International Relations and History
Programme Code: UBIRHY
Department: International History
For all first year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)
Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
Students take the following unassessed course which runs during Weeks 3, 4, 5, 7 & 8 of Michaelmas Term only:
HY119 Thinking Like a Historian
1 IR100 Theories and Concepts of International Relations
2 HY116 International History since 1890
3 & 4 Two from:
HY113 From Empire to Independence: The Extra-European World in the 20th Century
HY118 Faith, Power and Revolution: Europe and the Wider World, c.1500-c.1800
Year 3

9  Either IR202 or IR203, not taken above

10 Courses to the value of one full unit from the following:
GV247 Theories and Problems of Nationalism (not available 2017/18)
IR205 International History
IR206 International Political Economy
IR305 Strategic Aspects of International Relations
IR312 Genocide (H) (not available 2017/18)
IR313 Managing China's Rise in East Asia
IR314 Southeast Asia: Intra-regional Politics and Security
IR315 The Middle East and International Relations Theory
IR317 American Grand Strategy (H)
IR318 Visual International Politics (H)
IR319 Empire and Conflict in World Politics (H)
IR320 Europe’s Institutional Order (H) (not available 2017/18)
IR321 Revolutions and World Politics (H)
IR322 Sovereignty, Rights and Justice: Issues in International Political Theory (H)
IR323 Gender and International Politics (H)
IR324 The Practices of Transitional Justice (H)
IR325 The Situations of the International Criminal Court (H)
IR326 The Rule of Law: A Global History (H)
IR347 Political Economy of International Labour Migration (H) (not available 2017/18)
IR354 Governing International Political Economy: Lessons from the Past for the Future (H)
IR355 Economic Diplomacy (H)
IR367 Global Environmental Politics (H)
IR368 The Political Economy of Trade (H)
IR369 Politics of Money in the World Economy (H)
IR373 China and the Global South (H)
IR377 The Politics of Governance, Development and Security in Sub-Saharan Africa (H)

11 One course from the following:
HY311 Limited War During the Cold War Era: The US in Korea (1950-53) and Vietnam (1954-75) (not available 2017/18)
HY315 European Enlightenment, c1680-1799
HY319 Napoleon and Europe
HY320 The Cold War Endgame
HY321 The Struggle for the Persian Gulf, 1945-2003
HY322 Nazi Germany’s War: Violence and Occupation in Europe, 1939-1945
HY323 Travel, Pleasure and Politics: The European Grand Tour, 1670-1825 (not available 2017/18)
HY324 Muslim-Jewish Relations: History and Memory in the Middle East and Europe, 622-1945
HY325 Retreat from Power: British foreign and defence policy, 1931-68 (not available 2017/18)
HY326 Slavery, Capital, and Empire in the British World, 1700-1900 (not available 2017/18)
HY327 The Anglo-American Special Relationship, 1939-89
HY328 The Arab-Israeli Conflict: Nationalism, Territory, Religion
HY329 Independent India: Myths of Freedom and Development
HY330 From Tea to Opium: China and the Global Market in the Long Eighteenth Century

Notes
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

LLB
Programme code: UBLLL
Department: Law
For all first, second and third year students in 2017/18.
Classification scheme for the Bachelor of Laws
Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
1 LL104 Law of Obligations
2 LL105 Property I (H) and LL109 Introduction to The Legal System (H)
3 LL106 Public Law
4 LL108 Criminal Law

Year 2
5, 6, 7 & 11 Students take courses to the value of four full units.
8 Students must take at least three courses from Selection List A, and can take courses to the value of one full unit from Selection List B.

Notes
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Selection List A
AN226 Political and Legal Anthropology
LL201 Administrative Law
LL202 Commercial Contracts
LL203 Law of Business Associations
LL204 Advanced Torts
LL205 Medical Law
LL207 Civil Liberties and Human Rights
LL210 Information Technology and the Law
LL212 Conflict of Laws
LL221 Family Law
LL232 Law and Institutions of the European Union
LL233 Law of Evidence
LL241 European Legal History
LL242 International Protection of Human Rights
LL250  Law and the Environment
LL251  Intellectual Property Law
LL253  Law of Corporate Insolvency
LL257  Labour Law
LL259  Legal and Social Change Since 1750
LL275  Property II
LL278  Public International Law
LL293  Taxation
LL295  Media Law
LL300  Competition Law (Year Three students only)
LL301  Global Commodities Law
LL399 Full Unit Dissertation on an Approved Legal Topic (available to students in Year 3 only; cannot be taken in the same year as LL398) A course taught outside the Law Department, other than those on the exclusion list (only one can be selected over Years 2 and 3).

Selection List B
IR326  The Rule of Law: A Global History (H)
LL272  Outlines of Modern Criminology (H)
LL284  Topics in Sentencing and Criminal Justice (H)
LL398  Half Unit Dissertation on an Approved Legal Topic (available to students in Year 3; may be taken in Year 2 in exceptional circumstances with permission of the Departmental Tutor; cannot be taken in the same year as LL399)

This programme constitutes a qualifying law degree (QLD). QLDs are recognised by the Solicitors Regulation Authority www.sra.org.uk/consumers/consumers.page and the Bar Standards Board www.barstandardsboard.org.uk/ as meeting the requirements for completing the academic stage of legal education for solicitors or barristers. For further information contact the Law Department lawdepartment@lse.ac.uk.

BSc in Management
Programme Code: UB MG
Department: Management

For all first year students in 2017/18.

Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

Paper  Course number and title
See note LSE100  The LSE Course: Understanding the causes of things

Year 1

1  Either AC102 Elements of Financial Accounting (H) or AC103 Elements of Management Accounting and Financial Management (H) *
   FM101  Finance (H)
2  EC100  Economics A or
   EC102  Economics B §
3  MA107  Quantitative Methods (Mathematics) (H) and ST107 Quantitative Methods (Statistics) (H)
4  MG105  Organisational Behaviour and Leadership (H) and MG104 Operations Management (H)

Year 2

5  Any two of the following:
   MG212  Marketing (H)
   MG213  Information Systems (H)
   MG214  Human Resource Management (H)
   MG207  Managerial Economics
   MG205  Econometrics: Theory and Applications
   Courses to the value of one unit from the Options List below.

Year 3

9  MG301  Strategy
10 & 11 Courses to the value of two units from the Options List below.
12 Courses to the value of one unit from the courses in the Options List below not already taken under Papers 8, 10 or 11, or any course from the following list:
   SO208  Gender and Society
   EC317  Labour Economics
   MA301  Game Theory (H) and one half-unit from the Options List
   LL232  Law and Institutions of the European Union
   Or (subject to approval by the Departmental Tutor) any other paper which is normally available only to second or third year students taught within the School or at other colleges of the University where practicable (see Outside Options). Conditions under which the Departmental Tutor will approve papers are given in the BSc Management student handbook.

Notes
§ Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

* In Year 1 students choose between AC102 and AC103, on financial and management accounting respectively. Students MUST do ONE of these courses in Year 1; should they wish, they MAY choose to do the other in their second or third year as an option. All students are required to attend the first AC100 lecture to get an overview of the topics to be covered in each course. Students wishing to continue their studies with advanced financial accounting (AC330) in the second or third year should be advised to take AC102 in the first year. Students wishing to continue with advanced management accounting (e.g. AC211, AC310) in the second and third year should be advised to take AC103 in the first year. Should they wish to do both AC102 and AC103 in the course of their degree programme, it is recommended that they opt for the financial accounting unit (AC102) in the first year to ease their way through the management accounting and financial management unit (AC103).

Options List

Accounting
   AC102  Elements of Financial Accounting (H) (if not taken under Paper 1)
   AC103  Elements of Management Accounting and Financial Management (H) (if not taken under Paper 1)
   AC211  Managerial Accounting
   AC310  Management Accounting, Financial Management and Organisational Control
   AC330  Financial Accounting, Analysis and Valuation

Economics and Economic History
   EC210  Macroeconomic Principles
   EH240  Business and Economic Performance Since 1945: Britain in International Context

Finance
   FM212  Principles of Finance
   FM300  Corporate Finance, Investments and Financial Markets

Information Systems
   MG208  Business Transformation and Project Management (H)
   MG209  E-business (H)
   MG213  Information Systems (H) (if not taken under Paper 5)
   MG304  Digital Platform Innovation (H) (not available 2017/18)

Law
   LL209  Commercial Law

Management Science and Methodology
   MA207  Further Quantitative Methods (Mathematics) (H)
   MA231  Operational Research Methods
   MA331  Practical Optimisation Modelling (H) (third year only) (not available 2017/18)
   MG202  Analytical Methods for Management (not available 2017/18)
   MG308  Simulation Modelling and Analysis (H)
MG310  Analytics for Strategic Decisions (H) (third year only)
MG311  Behavioural Decision Science for Management and Policy (H) (third year only) (not available 2017/18)
ST201  Statistical Models and Data Analysis (H)
ST205  Sample Surveys and Experiments (H)

Managerial Economics and Strategy
MG206  Firms, Management and Competitive Advantage (H)
MG228  Managing the Stone-Age Brain (H)
MG302  Topics in Management Research (H)
MG303  International Business Strategy and Emerging Markets (H) (Cannot be taken with MG307)
MG305  Innovation and Technology Management (H)
MG307  International Context of Management (H) (Cannot be taken with MG303)

Marketing
MG212  Marketing (H) (if not taken under Paper 5)
MG315  Marketing Action Learning Project (H) (third year only)
ST307  Aspects of Market Research (H)
ST327  Market Research: An Integrated Approach

Organisational Behaviour and Employee Relations
MG210  Corporate Social Responsibility and International Labour Standards (H) (not available 2017/18)
MG214  Human Resource Management (H) (if not taken under Paper 5)
MG306  Managing Diversity in Organizations (H) (withdrawn 2017/18)
MG309  International Human Resource Management (H) (not available 2017/18)
MG312  Extreme Organisational Behaviour: Examining behaviour in non-normative organisational contexts (H)

Philosophy
PH225  Business and Organisational Ethics (H)
PH332  Effective Philanthropy: Ethics and Evidence (H) (available to second year students with permission from the lecturer)

BSc in Management
Programme Code: UBMG

Department: Management

For all second and third year students in 2017/18.

Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

Paper  Course number and title
See note

Year 1
1  Either AC102 Elements of Financial Accounting (H) or AC103 Elements of Management Accounting and Financial Management (H) *
   MG101  Core Business Disciplines: Finance and Operations Management (H) (withdrawn 2017/18)
   EC100  Economics A
   EC102  Economics B §
2
3  MA107  Quantitative Methods (Mathematics) (H) and ST107 Quantitative Methods (Statistics) (H)
4  MG100  Leadership and Communication in Teams (H) (withdrawn 2017/18) and MG102 Organisational Behaviour (H) (withdrawn 2017/18)

Year 2
5  Any two of the following:
   MG212  Marketing (H)
   MG213  Information Systems (H)
   MG214  Human Resource Management (H)
6
7  MG207  Managerial Economics
8  Courses to the value of one unit from the Options List below.

Year 3
9  MG301  Strategy
10 &11 Courses to the value of two units from the Options List below.
12 Courses to the value of one unit from the courses in the Options List below not already taken under Papers 8, 10 or 11, or any course from the following list:
   SO208  Gender and Society
   EC317  Labour Economics
   MA301  Game Theory (H) and one half-unit from the options list
   LL232  Law and Institutions of the European Union
   Or (subject to approval by the Departmental Tutor) any other paper which is normally available only to second or third year students taught within the School or at other colleges of the University where practicable (see Outside Options). Conditions under which the Departmental Tutor will approve papers are given in the BSc Management student handbook.

MG209  E-business (H)
MG213  Information Systems (H) (if not taken under Paper 5)
MG304  Digital Platform Innovation (H) (not available 2017/18)

Law
LL209  Commercial Law

Management Science and Methodology
MA207  Further Quantitative Methods (Mathematics) (H)
MA231  Operational Research Methods
MA331 Practical Optimisation Modelling (H) (third year only) (not available 2017/18)
MG202 Analytical Methods for Management (not available 2017/18)
MG308 Simulation Modelling and Analysis (H)
MG310 Analytics for Strategic Decisions (H) (third year only)
MG311 Behavioural Decision Science for Management and Policy (H) (third year only) (not available 2017/18)
ST201 Statistical Models and Data Analysis (H)
ST205 Sample Surveys and Experiments (H)

Managerial Economics and Strategy
MG206 Firms, Management and Competitive Advantage (H)
MG228 Managing the Stone-Age Brain (H)
MG302 Topics in Management Research (H)
MG303 International Business Strategy and Emerging Markets (H) (Cannot be taken with MG307)
MG305 Innovation and Technology Management (H)
MG307 International Context of Management (H) (Cannot be taken with MG303)

Marketing
MG212 Marketing (H) (if not taken under Paper 5)
MG315 Marketing Action Learning Project (H) (third year only)
ST307 Aspects of Market Research (H)
ST327 Market Research: An Integrated Approach

Organisational Behaviour and Employee Relations
MG210 Corporate Social Responsibility and International Labour Standards (H) (not available 2017/18)
MG214 Human Resource Management (H) (if not taken under Paper 5)
MG306 Managing Diversity in Organizations (H) (withdrawn 2017/18)
MG309 International Human Resource Management (H) (not available 2017/18)
MG312 Extreme Organisational Behaviour: Examining behaviour in non-normative organisational contexts (H)

Philosophy
PH225 Business and Organisational Ethics (H)
PH332 Effective Philanthropy: Ethics and Evidence (H) (available to second year students with permission from the lecturer)

BSc in Mathematics and Economics

Programme Code: UBMAEC
Department: Mathematics

For all first, second and third year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
1 EC100 Economics A or
EC102 Economics B §
2 MA100 Mathematical Methods
3 ST102 Elementary Statistical Theory
4 MA103 Introduction to Abstract Mathematics

Year 2
5 Either EC201 Microeconomic Principles I or
EC202 Microeconomic Principles II
6 MA212 Further Mathematical Methods
7 EC210 Macroeconomic Principles or EC221 Principles of Econometrics or FM212 Principles of Finance
8 MA203 Real Analysis (H)
And one of (i) MA208 Optimisation Theory (H) or
(ii) MA209 Differential Equations (H) or
(iii) MA210 Discrete Mathematics (H) or
(iv) MA211 Algebra and Number Theory (H)

Year 3
9 One from:
EC301 Advanced Economic Analysis (if EC210 was taken under Paper 7)

EC302 Political Economy
EC309 Econometric Theory (if EC221 was taken under Paper 7)
EC310 Behavioural Economics
EC313 Industrial Economics
EC319 Games and Economic Behaviour
EC321 Monetary Economics (if EC210 was taken under Paper 7)
EC325 Public Economics
EC333 Problems of Applied Econometrics (if EC221 was taken under Paper 7)

10 Courses to the value of one unit from the following, but no more than one from MA208/MA209/MA210/MA211:
MA208 Optimisation Theory (H) (if not taken under Paper 8 above or Paper 12 below)
MA209 Differential Equations (H) (if not taken under Paper 8 above or Paper 12 below)
MA210 Discrete Mathematics (H) (if not taken under Paper 8 above or Paper 12 below)
MA211 Algebra and Number Theory (H)
MA301 Game Theory I (H) (not to be taken with MA300 under Paper 11 below)
MA303 Chaos in Dynamical Systems (H)
MA305 Optimisation in Function Spaces (H) (not available 2017/18)
MA310 Mathematics of Finance and Valuation (H)
MA313 Probability for Finance (H)
MA314 Algorithms and Programming (H)
MA315 Algebra and its Applications (H)
MA316 Graph Theory (H)
MA317 Complex Analysis (H)
MA319 Partial Differential Equations (H)
MA320 Mathematics of Networks (H)

11 If FM212 was taken as Paper 7 then:
Either EC210 Macroeconomic Principles or
EC221 Principles of Econometrics
If EC210 or EC221 was taken under Paper 7 then one from:
EC210 Macroeconomic Principles
EC221 Principles of Econometrics
MA300 Game Theory (not to be taken with MA301 under Paper 10 above)
FM212 Principles of Finance
FM320 Quantitative Finance
ST202 Probability, Distribution Theory and Inference
Any paper listed under Paper 9 (if not already taken under Paper 9)

Another third year paper in Mathematics or Economics (MA3**) with the approval of the Departmental Tutor.

12 A further paper to the value of one unit from Papers 10 and 11. Note that no more than one from MA208/MA209/MA210/MA211 can be taken in Year 3. Also including:
MA231 Operational Research Methods
MA318 History of Mathematics in Finance and Economics (H)
Any other paper approved by the Departmental Tutor.

Notes § Course allocation dependent on Economics A-level or equivalent background. See course guides for further information.
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.
### BSc in Mathematics with Economics

**Programme Code:** UBMAWEC  
**Department:** Mathematics  

For all first, second and third year students in 2017/18.

Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees).

**Paper** | **Course number and title**  
---|---  
See note LSE100 | The LSE Course: Understanding the causes of things  
**Year 1** |  
1 | EC100 Economics A or  
   | EC102 Economics B  
2 | MA100 Mathematical Methods  
3 | ST102 Elementary Statistical Theory  
4 | MA103 Introduction to Abstract Mathematics  
**Year 2** |  
5 | Either EC201 Microeconomic Principles I or  
   | EC202 Microeconomic Principles II  
6 | MA212 Further Mathematical Methods  
7 | MA203 Real Analysis (H) and  
   | MA208 Optimisation Theory (H) or  
   | MA209 Differential Equations (H) or  
   | MA210 Discrete Mathematics (H) or  
   | MA211 Algebra and Number Theory (H)  
8 | Courses to the value of 1 unit from the following if not taken under Paper 7:  
   | MA208 Optimisation Theory (H)  
   | MA209 Differential Equations (H)  
   | MA210 Discrete Mathematics (H)  
   | MA211 Algebra and Number Theory (H)  
   | ST202 Probability, Distribution Theory and Inference  
   | Or any other course with the approval of the Departmental Tutor.

   | EC310 Behavioural Economics or  
   | EC313 Industrial Economics or  
   | EC319 Games and Economic Behaviour  
10 & 11 | Courses to the value of two units from the following, including at most one MA2xx course, at most two STxxx courses, and at least one MA3xx course:  
   | MA208 Optimisation Theory (H) (if not taken under Papers 7 or 8)  
   | MA209 Differential Equations (H) (if not taken under Papers 7 or 8)  
   | MA210 Discrete Mathematics (H) (if not taken under Papers 7 or 8)  
   | MA211 Algebra and Number Theory (H) (if not taken under Papers 7 or 8)  
   | MA231 Operational Research Methods  
   | ST202 Probability, Distribution Theory and Inference  
   | Or any other course with the approval of the Departmental Tutor.  

Notes:  
§ Course allocation dependent on Economics A-level or equivalent background. See course guides for further information.  
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

### BSc in Philosophy and Economics

**Programme Code:** UBPHEC  
**Department:** Philosophy, Logic and Scientific Method  

For all first, second and third year students in 2017/18.

Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees).

**Paper** | **Course number and title**  
---|---  
See note LSE100 | The LSE Course: Understanding the causes of things  
**Year 1** |  
1 | EC100 Economics A or  
   | EC102 Economics B  
2 & 3 | Either MA107 Quantitative Methods (Mathematics) (H)  
   | ST107 Quantitative Methods (Statistics) (H)  
   | PH101 Logic  
   | Or MA100 Mathematical Methods  
   | ST102 Elementary Statistical Theory  
4 | PH103 The Big Questions: An Introduction to Philosophy  
**Year 2** |  
5 | An approved paper from the Philosophy Option List below  
6 | Either PH104 Formal Methods of Philosophical Argumentation (must be taken if PH101 not taken under Paper 3)  
   | Or an approved paper from the Philosophy Option List below  
7 | Either EC201 Microeconomic Principles I or  
   | EC202 Microeconomic Principles II  
8 | EC210 Macroeconomic Principles  
**Year 3** |  
9 | An approved paper from the Philosophy Option List below  
10 | Either (a) an approved paper taught outside the Departments of Philosophy and Economics or  
   | (b) an approved paper from the Economics Option List or Philosophy Option List below  
11 | An approved paper from the Economics Option List below  
12 | PH311 Philosophy of Economics  

Notes:  
§ Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.  
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.
Philosophy Option List
PH201 Philosophy of Science
PH203 Philosophy of the Social Sciences
PH213 Scientific Revolutions: Philosophical and Historical Issues (not available 2017/18)
PH214 Philosophy, Morals and Politics

PH399 Dissertation in Philosophy (third year only)
LL305 Jurisprudence (third year only)
LN253 European Literature and Society

BSc in Philosophy, Politics and Economics
Programme code: UBPHPOLEC
Department: Philosophy, Logic and Scientific Method
For all first year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than three-year BA/BSc degrees)

Paper | Course number and title
--- | ---
See note LSE100 The LSE Course: Understanding the causes of things

Year 1
1 | Either MA107 Quantitative Methods (Maths) (H) and ST107 Quantitative Methods (Statistics) (H) or MA100 Mathematical Methods
2 | GV100 Introduction to Political Theory
3 | PH103 The Big Questions: An Introduction to Philosophy (with supplementary five week Philosophy and Argumentative Writing Seminar)
4 | EC100 Economics A or EC102 Economics B

Year 2
5 | Either EC220 Introduction to Econometrics (if MA107 and ST107 taken under Paper 1) or ST102 Elementary Statistical Theory (if MA100 taken under Paper 1)
6 | GV101 Introduction to Political Science
7 | PH104 Formal Methods of Philosophical Argumentation
8 | Either EC201 Microeconomic Principles I (if MA107 and ST107 taken under Paper 1) or EC201 Microeconomic Principles I (if MA100 taken under Paper 1) or EC202 Microeconomic Principles II (if MA100 taken under Paper 1)
In addition, students will also take EC240 PPE Interdisciplinary Research Seminar (LT) *

Year 3
9 | Courses to the value of one full unit from the Government Option List
10 | Courses to the value of one full unit from the Philosophy Option List
11 | EC210 Macroeconomic Principles
12 Either Courses to the value of one full unit from the Government Option List, Philosophy Option List, or Economics Option List (if MA107 and ST107 taken under Paper 1)
Or EC220 Introduction to Econometrics (if MA100 taken under Paper 1)
Or EC221 Principles of Econometrics (if MA100 taken under Paper 1)
In addition, students will also take EC340 PPE Interdisciplinary Research Seminar (MT & LT) *

Year 4
13 PH341 Philosophy, Politics and Economics: Applications (not available 2017/18)
14 GV342 Philosophy, Politics and Economics: Capstone and Research Project (not available 2017/18)
15 Any 200 or 300 level courses to the value of one full unit from the Government Option List, Philosophy Option List, or Economics Option List subject to timetabling constraints
16 Any 200 or 300 level courses to the value of one full unit from the Government Option List, Philosophy Option List, or Economics Option List or outside these departments with permission subject to timetabling constraints.

Notes § Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.
* EC240 and EC340 will be assessed in the same manner as LSE100. Marks of F, P, M, Di appear on the transcript but do not affect progression or the final degree classification.
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Economics Option List

SA105 Crime and Society * (withdrawn 2017/18)
SA204 Education Policy
SA217 Psychology of Crime and Criminal Justice
SA218 Criminological Perspectives (not available 2017/18)
SA221 Poverty, Social Exclusion and Social Change
SA223 Health and Social Care Policy
SA224 Introduction to Global Population Change (not available 2017/18)
SA250 Demographic Description and Analysis (withdrawn 2017/18)
SA302 Assessing Social Progress (not available 2017/18)
SA303 Sexuality, Everyday Lives and Social Policy in Developing Countries (H)
SA309 Crime Control: Ideas and Controversies

Notes
* Cannot be taken in Year 3.

BSc in Sociology
Programme Code: UBSO2
Department: Sociology
For all first, second and third year students in 2017/18.
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)

Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things
Year 1
1 SO102 Statistics in Society
2 SO100 Social Theory
3 SO110 Power, Inequality, and Difference: Contemporary Themes in Sociology
4 Either PS102 Social Psychology or an approved Level 1 paper taught outside the Department or another paper taught outside the Department subject to the approval of your personal tutor and the Department Tutor.

Year 2
5 SO221 Researching London: Methods for Social Research
6 SO201 Key Issues in Sociological Analysis
7 An approved Year 2 or 3 Sociology Option to the value of one full unit
8 Either an approved Year 2 or 3 Sociology Option to the value of one full unit or an approved paper from outside the Department

Year 3
9 SO302 The Sociological Dissertation
10 An approved Year 2 or 3 Sociology Option to the value of one full unit
11 An approved Year 2 or 3 Sociology Option to the value of one full unit
12 Either an approved Year 2 or 3 Sociology Option to the value of one full unit or an approved Year 2 or 3 paper taught outside the Department.

Notes
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Sociology Option List
SO203 Political Sociology
SO208 Gender and Society
SO210 Crime, Deviance and Control (cannot be taken with SA217, SA218 (not available 2017/18) or SA309)
SO211 Sociology of Health and Medicine (withdrawn 2017/18)
SO224 The Sociology of Race and Ethnicity
SO230 Digital Technology, Speed and Culture (not available 2017/18)
SO231 Knowledge, Power, and Social Change (H)
SO232 Sociology of Health and Illness (H)
SO233 Neoliberalism and Its Discontents: The Rise of Populism and Authoritarianism in the 21st Century (H)
SO308 Personal Life, Intimacy and the Family
SO309 Atrocity and Justice (H) (not available 2017/18)
SO310 The Sociology of Elites (H) (not available 2017/18)
SO311 Law and Violence (H) (available to students in Year 3 only)
SO312 Work, Inequality and Society (H)
SO313 Material Culture and Everyday Life (H)

BSc in Statistics with Finance
Programme Code: UBSTWF
Department: Statistics
For all second and third year students in 2017/18.
Last year of entry 2016/17
Classification scheme for the BA/BSc degrees (other than four-year BA/BSc degrees)
Paper Course number and title
See note LSE100 The LSE Course: Understanding the causes of things.

Year 1
1 ST102 Elementary Statistical Theory.
2 MA100 Mathematical Methods
3 EC100 Economics A or
EC102 Economics B §
4 AC104 Elements of Accounting, Financial Institutions and Financial Management* or
MA103 Introduction to Abstract Mathematics

* Note that AC104 is a pre-requisite for all AC courses at Levels 2 and 3.
LL210 Information Technology and the Law
MA231 Operational Research Methods
MG203 Organisational Theory and Behaviour (not available 2017/18)
MG206 Firms, Management and Competitive Advantage (H)
MG307 International Context of Management (H)
MG308 Simulation Modelling and Analysis (H)
MG315 Marketing Action Learning Project (H) (third year only)
PH201 Philosophy of Science
PH311 Philosophy of Economics (formerly PH211)
SA250 Demographic Description and Analysis (withdrawn 2017/18)
ST205 Sample Surveys and Experiments (H)
ST226 Actuarial Investigations: Financial (H)
ST227 Survival Models (H)

Notes

§ Course allocation dependant on Economics A-level or equivalent background. See course guides for further information.

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Outside options

Outside options for first year students
Where the regulations refer to an approved paper taught outside the department, this means that you may take any course in a subject other than the principal subject(s) of your degree, subject to any restrictions listed in the Course Guides. If your degree is for joint honours (e.g., Philosophy and Economics) or is a major/subject other than the two named in the title of your degree, subject to timetabling constraints and any restrictions listed in the Course Guides. An outside paper may be selected from the Undergraduate Course Guides, subject to the approval of the candidate's tutor and its code.

Please note that some course combinations are not allowed. Please see the Mutually Exclusive options list below.

The courses available for this purpose in your first year are:

(H) means a half-unit course
(not available 2017/18) means the course has been suspended and is not available in the 2017/18 academic year
* means available with permission

AC100 Elements of Accounting and Finance
AN100 Introduction to Social Anthropology
AN101 Ethnography and Theory: Selected Texts
AN102 Anthropology, Text and Film
EC100 Economics A (dependant on Economics A-level or equivalent background)
EC102 Economics B (dependant on Economics A-level or equivalent background)
EH101 The Internationalisation of Economic Growth, 1870 to the Present Day
EH102 Pre-industrial Economic History *

ST108 Statistical Methods for the Social Sciences

Outside options for second and third year students
Where undergraduate programme regulations refer to an approved paper taught outside the department this will be a paper in a subject other than the principal subject(s) of your degree, subject to timetabling constraints and any restrictions listed in the Course Guides. An outside paper may be selected from the Undergraduate Course Guides, subject to the approval of the candidate’s tutor and to the successful completion of prerequisites where necessary, with the following exceptions:

certain first-year courses are not available to students in
the second or third year of their degree;
some courses are not available as an outside option;
some papers are mutually exclusive and may therefore
not be combined.

The following are courses that are available to second and/or third
year students as an outside option where regulations permit.
(H) means a half-unit course
(not available 2017/18) means not available in the 2017/18
academic year
* means available with permission

AC100 Elements of Accounting and Finance

AC211 Managerial Accounting *

Undergraduate Course Guides
AC100  
Elements of Accounting and Finance  
This information is for the 2017/18 session.  
Teacher responsible: Mrs Sajipriya Kamath OLD 2.11 and Mrs Chrisoulla Constantinou 
Availability: This course is compulsory on the BSc in Accounting and Finance. This course is available on the BSc in Business Mathematics and Statistics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.  
This course cannot be taken with AC104 Elements of Financial Accounting, Management Accounting and Financial Management or FM101 Finance.  
Introduction to managerial accounting: The design, use and role of accounting information in the management of organisational activities. Costing and budgeting. The design and use of performance measurement systems.  
Introduction to finance: The financial system and flow of funds. Introductory financial formulae. The financial decisions of firms, capital budgeting. The recent global financial turmoil.  
Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 4 hours of lectures and 1 hour of classes in the ST.  
Formative coursework: Written answers to numerical problems and discussion questions will be expected weekly; two pieces of written work per term will be collected during classes for marking and feedback.  
Assessment: Exam (100%, duration: 3 hours and 15 minutes) in the main exam period. The first 15 minutes will be reading time.

AC102  
Half Unit  
Elements of Financial Accounting  
This information is for the 2017/18 session.  
Teacher responsible: Mrs Sajipriya Kamath OLD 2.11 and Mrs Chrisoulla Constantinou 
Availability: This course is compulsory on the BSc in Finance. This course is available on the BSc in Management. This course is not available as an outside option nor to General Course students.  
Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the LT. 1 hour of lectures and 1 hour of classes in the ST.  
Formative coursework: Written answers to numerical problems and discussion questions will be expected weekly; two pieces of written work per term will be collected during classes for marking and feedback.  
Indicative reading: Detailed reading lists will be made available at the beginning of the course. Illustrive texts include Peter Atrill and Eddie McClaney Financial Accounting for Decision Makers, 8th edn, Pearson, 2015.  
Assessment: Exam (100%, duration: 1 hour and 45 minutes) in the main exam period. The first 15 minutes will be reading time.

AC103  
Half Unit  
Elements of Management Accounting and Financial Management  
This information is for the 2017/18 session.  
Teacher responsible: Dr Yasmine Chahed OLD 3.30, Prof Richard Macve OLD 3.11 and Mrs Chrisoulla Constantinou 
Availability: This course is available on the BSc in Management. This course is not available as an outside option nor to General Course students.  
Teaching: 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.  
Formative coursework: Written answers to numerical problems and discussion questions will be expected weekly; some will be collected during classes for marking and feedback.  
Indicative reading: Detailed reading lists will be made available at the beginning of the course. Illustrive texts include: Peter Atrill and Eddie McClaney, Management Accounting for Decision Makers, 8th edn, Pearson (2015); Levinson, M The Economist Guide To Financial Markets (6th edition).  
Assessment: Exam (100%, duration: 1 hour and 45 minutes) in the main exam period. The first 15 minutes will be reading time.

AC104  
Elements of Accounting, Financial Institutions and Financial Management  
This information is for the 2017/18 session.  
Teacher responsible: Mrs Sajipriya Kamath OLD 2.11, Prof Richard Macve OLD 3.11, Dr Yasmine Chahed OLD 3.30 and Mrs Chrisoulla Constantinou 
Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics and BSc in Statistics with Finance. This course is not available as an outside option nor to General Course students.  
AC211
Managerial Accounting

This information is for the 2017/18 session.

Teacher responsible: Dr Tommaso Palermo KSW 3.07 and Mr Per Ahblom OLD 3.13

Availability: This course is compulsory on the BSc in Accounting and Finance.

Course content: The course analyses the roles and uses of management accounting practices in contemporary organisations and enterprises. Management accounting is extensively involved in the planning, coordination and control of complex organisations and networks of organisations competing on a global scale. The course explores key management accounting concepts and tools, and their economic, strategic, behavioural and organisational underpinnings. The course is organised around four topics:

Management Accounting for Decision Making examines how management accounting information can be used in the context of a variety of short- and long-term decision problems, ranging from costing to pricing, outsourcing and investment appraisal.

Management Accounting and Strategy looks at management accounting change and at the emerging role of management accounting in strategy making.

Management Accounting and Organisational Control examines intra-organisational planning and control issues, focusing on how managerial action is guided by practices such as budgeting, variance analysis and transfer pricing.

Performance Measurement addresses the use of financial and non-financial performance measures in complex organisational and managerial settings, with particular emphasis on their behavioural consequences and the limits of quantification.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 9 hours of classes in the LT. 1 hour of classes in the ST.

There will be a 2 hour revision lecture in week 11 of the LT. This course has a reading week in Week 6 of both MT and LT. The lecture time in week 6 of the LT will be used to explain the rationales and requirements of a mandatory assignment (a case analysis) that will be carried out in the second half of the LT.

Formative coursework: Students will be required to complete written assignments before each class. Three of these assignments, two in the MT and one in the LT, will be collected and graded by class teachers as part of formative coursework to provide feedback on analytical and writing skills ahead of the final exam. Course work may take the form of an essay, a case analysis or a numerical exercise and may also include in-class presentation and team-based work. Feedback on performance and progress will be provided during class, on written homework assignments, and during office hours.

Assessment: Exam (75%), case analysis (15%) and class participation (10%) in the LT. The case analysis will require students to work in small groups. Class participation will be assessed based on students’ engagement with course activities, including for example in-class discussions and class assignments.

AC310
Management Accounting, Financial Management and Organisational Control

This information is for the 2017/18 session.

Teacher responsible: Ms Nadine de Gannes, OLD 2.23

Availability: This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management and BSc in Statistics with Finance. This course is available with the permission of the Accounting Departmental Tutor.

Course content: The course addresses contemporary issues in management accounting, financial management, and organisational control. The course consists of four modules, all of which are taught by faculty with specific expertise in the area. The exact composition of the course may vary from year to year.

Pre-requisites: Students must have completed Elements of Accounting and Finance (AC100) or Elements of Management Accounting and Financial Management (AC103) or Elements of Accounting, Financial Institutions and Financial Management (AC104).

Course content: The course addresses contemporary issues in management accounting, financial management, and organisational control. The course consists of four modules, all of which are taught by faculty with specific expertise in the area. The exact composition of the course may vary from year to year.

Pre-requisites: Students must have completed Elements of Accounting and Finance (AC100) or Elements of Management Accounting and Financial Management (AC103) or Elements of Accounting, Financial Institutions and Financial Management (AC104).

Course content: The course addresses contemporary issues in management accounting, financial management, and organisational control. The course consists of four modules, all of which are taught by faculty with specific expertise in the area. The exact composition of the course may vary from year to year.

Pre-requisites: Students must have completed Elements of Accounting and Finance (AC100) or Elements of Management Accounting and Financial Management (AC103) or Elements of Accounting, Financial Institutions and Financial Management (AC104).

Course content: The course addresses contemporary issues in management accounting, financial management, and organisational control. The course consists of four modules, all of which are taught by faculty with specific expertise in the area. The exact composition of the course may vary from year to year.
year, but issues which are typically addressed include financial
controls, organisational structures, performance measurement
and incentive systems, budgetary control and public-sector and
non-profit financial management.

The Function of management control systems: The course starts
with the study of the quintessential role of management control
systems in decentralised organisations, with a focus on the
measurement and evaluation of the performance of organisational
types and their managers. Focusing on financial control systems,
this module analyses issues related to financial target setting
(as part of organisations’ planning and budgeting processes),
performance measurement and evaluation, and the assignment
of various forms of organisational rewards, such as bonuses and
promotions.

Management accounting, budgets and behaviour: Building on the
first module, this module focuses primarily on budgeting issues
and on understanding how budgets impact employee behaviours
and their decisions and actions. This module also discusses
‘beyond budgeting’ and capital budgeting. This is done through
the lens of different organisational theories, including contingency
theory.

Accounting in non-governmental organisations: Many of the
concepts from the prior two modules are then studied in the
context of NGOs, including measuring the performance and
effectiveness of NGOs, the use of ‘business-like’ management
control and financial management systems (like budgets),
the evaluation of programme efficiency and impact, and the
accountability to donors and beneficiaries.

Accounting in the new public sector: The final module studies
management accounting and financial management in the
new public sector, including performance measurement, cost
accounting, cost management and pricing; the roles of accounting
controls in the health system reforms in the UK and elsewhere.

Teaching: The first half of MT will comprise 10 hours of lectures
and 5 hours of classes. The second half of MT, the module on
‘Accounting in non-governmental organisations’ is taught using a
‘flipped-lecture’ approach, with a series of on-line lectures, and five
2-hour classes. In LT, there will be 20 hours of lectures and 9 hours
of classes. Please note that there is no Reading Week in AC310 in
either term.

Formative coursework: Case studies and applications will be
used extensively. Students will be expected to present cases and
contribute to in-class discussions. Students will also be expected
to produce four written assignments; two in MT and two in LT.
Assignment 2 in MT and Assignment 4 in LT will count towards
the final mark in the course.

Indicative reading: Detailed reading lists will be distributed at
the start of each Module of the course. Illustrative references include:
Bhimani and Bromwich, Management Accounting: Retrospect and
Prospect, Elsevier/CIMA (2009); Bhimani, Contemporary Issues in
Management Accounting, OUP (2006); Olson, Guthrie & Humphrey
(Eds), Global Warning: Debating International Developments in New
Public Financial Management, Cappelan Akademiisk Forlag As, Oslo
(1998), Merchant & Van der Steede, Management Control Systems:
Performance Measurement, Evaluation and Incentives, FT/Prentice
Hall (2013).

Assessment: Exam (80%, duration: 3 hours) in the main exam period.
Coursework (20%) in the MT and LT.
Exam (80%, duration: 3 hours) in the main exam period; the other
20% of the mark will be based on the two summative assignments
submitted during the year. Assignment 2 (MT) and Assignment 4
(LT) will each count for 10% of the final mark for this course.

AC330
Financial Accounting, Analysis and Valuation.

This information is for the 2017/18 session.

Teacher responsible: Dr Vasiliki Athanasakou OLD 2.20, Dr
Stefano Cascino OLD 3.32 and Prof Richard Macve OLD 3.11
Availability: This course is compulsory on the BSc in Accounting
and Finance. This course is available on the BSc in Business
Mathematics and Statistics, BSc in Management, BSc in Statistics
with Finance and Diploma in Accounting and Finance. This course
is available with permission as an outside option to students on
other programmes where regulations permit. This course is not
available to General Course students.

The course is available as an outside option, subject to the course
leader’s permission, if students have achieved a sufficient standard
of performance in the pre-requisite course AC100 Elements
of Accounting and Finance or AC102 Elements of Financial
Accounting or AC104 Elements of Accounting, Financial
Institutions and Financial Management or equivalent.

Pre-requisites: Students must have completed AC100 Elements
of Accounting and Finance, or AC102 Elements of Financial
Accounting, or AC104 Elements of Accounting, Financial
Institutions and Financial Management.

Course content: The course addresses the theory and practice
of financial reporting. Accounting practices are examined in
the light of historical development, regulatory requirements, theories
of income and capital and other approaches to accounting theory
and to the use of accounting information in business analysis and
valuation.

Financial accounting with particular reference to company
accounts. Issues in financial accounting including accounting for
business combinations under International Accounting Standards.
Implications of empirical research into stock market effects of
management choice of accounting policies. Business analysis
and valuation. Regulation of financial reporting. International
standardisation of accounting practice. A conceptual framework
for financial reporting. The measurement of income, costs and
depreciation. The valuation of assets. Accounting for changing
circumstances. Further details will be given at the start of the course.

Teaching: 20 hours of lectures and 9 hours of classes in the MT.
20 hours of lectures and 11 hours of classes in the LT.
There will be a revision class in week 1 of ST.

Formative coursework: Students should prepare weekly written
work for class discussion. At least two pieces per term will be
collected for marking and some of these assignments will count
towards the final mark for the course.

Indicative reading: Detailed reading lists of books and journal
articles will be provided during the course. No one book covers
the entire course. Recommended books include Whittington, G,
Inflation Accounting: an introduction to the debate, CUP (1983);
Baxter, WT, Inflation Accounting, Oxford, Philip Allan, (1984); Beaver,
(1998); Palepu, KG, Kealy, PM, Bernard, VL and Peek, E, Business

Assessment: Exam (80%, duration: 3 hours, reading time: 15
minutes) in the main exam period.
Other (10%) in the MT.
Other (10%) in the LT.

The two other assessments are presentation/essay assignments
comprising group work (total 20%).

AC340
Auditing, Governance and Risk Management.

This information is for the 2017/18 session.

Teacher responsible: Dr Liisa Kurunmaki KSW 3.04, Dr Nadia
Matringe KSW 3.05 and Dr Julia Morley OLD 3.09
Availability: This course is available on the BSc in Accounting
and Finance, BSc in Business Mathematics and Statistics, BSc in
Econometrics and Mathematical Economics, BSc in Economics,
BSc in Statistics with Finance and Diploma in Accounting and
Finance. This course is available with permission as an outside
option to students on other programmes where regulations permit
and to General Course students.

Pre-requisites: Students must have completed Elements of
Accounting and Finance (AC100) or Elements of Financial
Accounting (AC102) or Elements of Accounting, Financial
Institutions and Financial Management (AC104). Elements of Management Accounting and Financial Management (AC103) is recommended to complement AC102, but not required.

Course content: The course provides a critical analysis of auditing practices and their role in organisational governance and risk management. Auditing is demanded by, and provides assurance to, a variety of internal and external stakeholders, including corporate shareholders and regulators. As societal demands for accountability have increased, auditing has become both more important and more regulated itself. Auditing also remains controversial and this course will address contemporary debates. The course addresses the theoretical basis of auditing, its role as a risk management function, its practical methodologies and its legal, professional and social environment. The course is divided into four modules.

Internal Control and Risk Management critically examines recent developments in risk management and internal control practices, including the role of internal auditing and the problem of reporting on the effectiveness of control systems.

Corporate Financial Audit provides a basic overview and introduction to corporate auditing theory and practice. The module investigates the roles of corporate financial audit in contemporary society; discusses issues related to the collection of audit evidence and assurance of audit quality; and analyses recent national and international developments in audit regulation and standard setting.

Public Sector Auditing and Accounting considers variants of the audit function in the public sector context, such as value for money auditing.

Sustainability Accounting and Auditing addresses the broader accountability framework of the corporation and related environmental and social accounting and auditing issues. While the primary focus of the course is upon UK practice, international comparisons will also be made. There is also an intention to run a small number of practitioner lectures during the 2014-15 session. Further details will be provided at the start of the session.

Teaching: 15 hours of lectures and 8 hours of classes in the MT. 10 hours of lectures and 8 hours of classes in the LT. 2 hours of lectures in the ST.

This will be a reading week in week 6 of both MT and LT.

Formative coursework: Students will be expected to produce a minimum of four written essays per year and one class essay (15%, 2500 words) in the LT. Formative coursework on the effectiveness of control systems.

Assessment: Exam (70%, duration: 3 hours) in the main exam period. Essay (15%, 2500 words) in the MT. Essay (15%, 2500 words) in the LT.

AN100
Introduction to Social Anthropology

This information is for the 2017/18 session.

Teacher responsible: Dr Catherine Allerton OLD 6.13

Prof Katy Gardner OLD 5.07

Availability: This course is compulsory on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available on the BSc in Environment and Development. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides a general introduction to Social Anthropology as the comparative study of human societies and cultures. The Michaelmas Term will explore the relationship between nature and culture, drawing on classic and contemporary debates about human difference and similarity. For example: How do people understand birth and death? How are humans different to other animals, and what is the significance of language? The Lent term will address institutions and concepts that shape society in various contexts including: love and kinship, space, place and belonging, ethnicity and migration and different forms of inequality and hierarchy.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of both the MT and LT.

Formative coursework: Students are expected to prepare discussion material for presentation in the classes and are required to write assessment essays. Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.

Assessment: Exam (70%, duration: 3 hours) in the main exam period. Essay (15%, 2500 words) in the MT. Essay (15%, 2500 words) in the LT.

AN101
Ethnography and Theory: Selected Texts

This information is for the 2017/18 session.

Teacher responsible: Dr Harry Walker OLD 5.06B and Prof Matthew Engelke OLD 6.12

Availability: This course is compulsory on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course discusses important aspects of anthropological and sociological theory in relation to modern ethnographic texts. It ranges from the classical social theory by Marx, Durkheim and Weber to the most recent theoretical advances in the discipline. The course is intended to give students a sound grasp of central theoretical concepts and of their significance for empirical research.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of both the MT and LT.

Formative coursework: Students are expected to prepare discussion material for presentation in the classes and are required to write assessment essays. Anthropology students...
taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.

Detailed reading lists are provided at the beginning of the course.

Assessment: Exam (70%, duration: 3 hours) in the main exam period.
Essay (15%, 2500 words) in the MT.
Essay (15%, 2500 words) in the LT.

AN102
Anthropology, Text and Film

This information is for the 2017/18 session.

Teacher responsible: Dr Nicholas Long OLD 6.14
Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides training in the reading and interpretation of visual and textual anthropology. It introduces students to detailed, holistic study of social and cultural practices within particular geographic and historical contexts, and develops skills in bringing together the various elements of cultural and social life analysed by anthropologists. By the end of each term, successful students will have both a detailed knowledge of three important texts, and also have a rounded view of the three settings studied. They will also have developed the capacity to think critically about ethnographic writing and film-making. In addition, the course aims to enable students to examine in detail the process by which ethnographic texts are produced. The course brings students to a closer understanding of anthropological fieldwork and evidence, and the way in which it relates to the forms of knowledge and insight generated by other genres of social scientific enquiry, documentary, and art. Students will usually read three book-length ethnographic accounts (or the equivalent) per term, and will study a film (or pictorial, architectural or other visual material) associated with each text.

Teaching: 5 hours of lectures, 6 hours of lectures, 4 hours and 30 minutes of seminars and 7 hours of classes in the MT. 4 hours of lectures, 9 hours of lectures, 4 hours and 30 minutes of seminars and 7 hours of classes in the LT.

This course has a reading week in Week 6 of both MT and LT.

Formative coursework: Students will be required to read the three set texts per term, approximately 1/3 text (two-four chapters) each week, and it will be essential to do this in order to pass this course. The emphasis in classes and seminars will be on developing students’ abilities to read and analyse texts as a whole, and to relate them to the other material offered on the course. Supplementary readings may be provided during the term. Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.

Indicative reading: Detailed reading lists (including this year’s set texts) will be provided at the beginning of the course. For a general introduction to issues covered in the course, see the following: Engelke, M., ed. 2009. The Objects of Evidence: Anthropological Approaches to the Production of Knowledge.
AN205  Half Unit  The Anthropology of Melanesia

This information is for the 2017/18 session.
Teacher responsible: Dr Michael W. Scott, OLD 6.16
Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: This course provides an introduction to selected themes in the anthropology of the region in the Southwest Pacific Ocean known as Melanesia. It gives students a grounding in the contemporary anthropology of the region, primarily through a close reading of three book-length ethnographies. The three ethnographies, which are all new since 2013, are Christopher Wright's The Echo of Things, an account of what photography means to people in the western Solomon Islands; Alice Street's Biomedicine in an Unstable Place, an analysis of how persons and diseases are made visible or invisible in a hospital on the north coast of Papua New Guinea; and Alex Golub's Leviathans at the Gold Mine, a study of the relationship between indigenous landowners and a large international gold mine in their valley in the highlands of New Guinea. These ethnographies not only provide students with focused accounts of three very different contexts in Melanesia, they also address histories, dynamics, and concerns familiar to people living throughout the region. Furthermore, because the three authors draw on different intellectual antecedents and disciplinary traditions, their work provides an entree into the most influential theoretical debates animating Pacific anthropology today. Topics to be traced throughout the course include personhood and bodies, kinship and sociality, religion and cosmology, technology and infrastructure, development, globalization, and the state. The readings will be supplemented by ethnographic films and a visit to the British Museum.
Teaching: 10 hours of lectures and 10 hours of classes in the MT. This course has a reading week in Week 6 of MT.
Formative coursework: Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.
Assessment: Exam (70%, duration: 2 hours) in the main exam period. Essay (30%, 2500 words) in the MT.

AN221  Half Unit  Not available in 2017/18
The Anthropology of Christianity

This information is for the 2017/18 session.
Teacher responsible: Dr Fenella Cannell OLD 6.07
Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: The ethnography of local Christianities in the light of differing cultural and social situations including colonial conditions. The relationship between Christianity and the discipline of anthropology. The course will examine a number of anthropological and historical studies of local forms of Christianity, from a range including local forms of Catholicism, Mormonism, contemporary and historical Protestantisms including American Protestant forms and 'heretical' and other unorthodox Christianities. The course asks why anthropologists shied away from analysing Christianity long after studies of other world religions, such as Islam, Hinduism and Buddhism, had become widely established. It looks at the relationship between Christianity and the history of anthropological thought, and locates the place of Christianity in the writings of Mauss, Durkheim, Foucault and others, in order to defamiliarise the religion which Europeans and Americans especially often take for granted. Issues examined may include the nature and experience of belief, conversion and the appropriation of Christian doctrines by local populations, the problems of writing about religion, Christianity and the state, the nature of religious confession, Christian texts, and Scriptural reading practices, Christian objects and materialities, Christianity and women's religious and social experience (from Medieval women mystics to women priests), inquisitions and heretical beliefs, priests and alternative forms of mediation with divine power, miraculous saints, incorrupt bodies and 'non-eaters' and changing ideas about death, Heaven and Hell. Where possible, the course will include a student fieldwork weekend and forms of reflection and reporting on that experience. Please check with the course teacher in any given year whether this is planned as part of the year's programme.
Teaching: 15 hours of lectures and 10 hours of classes in the MT.
Formative coursework: Students are expected to prepare discussion material for presentation in the classes. Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher. Students are asked to participate in the fieldwork trip in years when this is available (please note that costs

AN216  Half Unit  Cognition and Anthropology: Human Development in Cultural Environments

This information is for the 2017/18 session.
Teacher responsible: Prof Rita Astuti OLD 6.11
Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Pre-requisites: Undergraduates taking this course should have completed an introductory course in anthropology unless granted exemption by the course teacher.
Course content: The course will examine the contribution that the study of human psychology can make to anthropology. After discussing why anthropologists should pay attention to psychology and why psychologists should pay attention to anthropology, we will examine a range of psychological findings (for example, on infant's knowledge of the physical and mental world) and their relevance to anthropology.
Teaching: 15 hours of lectures and 10 hours of classes in the MT. This course has a reading week in Week 6 of MT.
Formative coursework: Students are expected to prepare discussion material for presentation in the classes. Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.
Assessment: Exam (70%, duration: 2 hours) in the main exam period. Essay (30%, 2500 words) in the MT.
will be kept to a minimum and consideration will be given in any cases of financial hardship). Fieldnotes and other materials will be prepared by fieldtrip participants.

**Assessment:** Essay (30%, 2500 words) in the LT. Take home exam (70%) in the ST.

---

**AN223**  
**Half Unit**  
**Not available in 2017/18**

**The Anthropology of Southeast Asia**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Nicholas Long OLD 6.14

**Availability:** This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This course will introduce students to selected theoretical and ethnographic issues in the history and contemporary life of Southeast Asia (including Burma/Myanmar, Cambodia, Indonesia, Laos, Malaysia, Singapore, Thailand, The Philippines, and Vietnam).

The alleged distinctiveness of Southeast Asian gender relations, political leadership, and experiences of self and emotion have led to ethnographic studies of the region making major contributions to the anthropology of the state, sovereignty, globalisation, gender, identity, violence, and mental health. By providing a strong grounding in regional ethnographic materials, this course will equip students to critically evaluate such contributions and to consider possible further contributions that studies of Southeast Asia might make to anthropological debates. The course will also examine how anthropologists have responded to the interpretive challenges presented by selected aspects of Southeast Asia’s social and political life, such as the legacies of mass violence (e.g. the Cambodian genocide, the Vietnam War, or Indonesia’s massacre of suspected communists), its ethnic and religious pluralism, and the impact of international tourism.

The course also contains a strong visual anthropology element: each week’s lecture will be paired with a film screening, and students will be encouraged to examine whether and how this visual material contributes to, or indeed reframes, the theoretical debates at hand.

Upon successful completion of the course, students will be able to:

1. Describe the key features of Southeast Asian social and cultural systems, and identify their similarities and differences with social and cultural systems in other world regions.
2. Describe key events and patterns in Southeast Asia’s history, and evaluate the extent to which these influence contemporary social phenomena in the region.
3. Describe and evaluate the most influential paradigms that have been developed in anthropological studies of Southeast Asia over the past 60 years.
4. Apply anthropological concepts and theories to ethnographic materials from Southeast Asia, and evaluate the results.
5. Apply anthropological research findings and theories to social and policy issues in Southeast Asia.
6. Locate and use research findings from Southeast Asia in order to participate in, or advance the terms of, wider disciplinary debates.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Film screenings will also take place throughout the term.

**Formative coursework:** Students are expected to prepare material for discussion in the classes. Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. Non-Antropology students taking this course, a formative essay may be submitted to the course teacher.

Detailed reading lists are provided at the beginning of the course.

**Assessment:** Take home exam (100%) in the ST.

---

**AN226**  
**Political and Legal Anthropology**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Mukulika Banerjee OLD 5.09 and Ms Insa Koch NAB 7.17

**Availability:** This course is compulsory on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available on the LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The anthropological analysis of political and legal institutions as revealed in relevant theoretical debates and with reference to selected ethnography. The development of political and legal anthropology and their key concepts including forms of authority, forms of knowledge and power; political competition and conflict; colonial transformation of indigenous norms; writing legal ethnography of the ‘other’; folk concepts of justice; the theory of legal pluralism; accommodation of religious practices in secular laws of European states.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of MT and LT.

**Formative coursework:** Students are expected to prepare discussion material for presentation in the classes.

**Assessment:** Exam (70%, duration: 3 hours) in the main exam.
period.
Essay (15%, 2500 words) in the MT.
Essay (15%, 2500 words) in the LT.
Students are required to write an assessment essay of 2000-2500 words in Michaeldmas and Lent Term (15% each).

---

**AN237  Half Unit
The Anthropology of Development**

**This information is for the 2017/18 session.**

**Teacher responsible:** Professor Katy Gardner OLD 5.07

**Availability:** This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This course considers a range of contributions made by anthropologists to the analysis of development. It assesses the reconcilability of two divergent perspectives: development anthropology, with its corpus of writings by practitioners working on practical projects, and the ‘anthropology of development’, comprising a series of critiques of development theory and practice by anthropologists. It examines the historical background, showing how development and its discourses were made in the wake of the colonial encounter and exploring the role played by anthropologists in this process. Critiques of both state-planned and market-driven development are considered and weighed against the ethnographic evidence, and anthropological studies of development organisations, institutions and ‘the aid industry’ considered. The anthropology of planning and policy, actor-centred perspectives on development, NGOs and participatory approaches; microcredit and gender; and religion and development, are among the topics explored. Regional ethnographies used include those from various parts of Southern and West Africa, China, Latin America, South and South-East Asia.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. This course has a reading week in Week 6 of MT.

**Formative coursework:** Students are expected to prepare discussion material for presentation in the classes. Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, an essay may be submitted to the course teacher. Towards the end of the term the students will also have the opportunity to answer a quiz on the key concepts covered in the course which will be marked by the course teacher.

**Assessment:** Exam (70%, duration: 2 hours) in the main exam period.

---

**AN238  Half Unit  Not available in 2017/18
Anthropology and Human Rights**

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Matthew Engelke OLD 6.12

**Availability:** This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Undergraduates taking this course should have completed an introductory course in anthropology unless granted exemption by the course teacher

**Course content:** The tension between respect for 'local cultures' and 'universal rights' is a pressing concern within human rights activism. For well over two decades, anthropologists have been increasingly involved in these discussions, working to situate their understandings of cultural relativism within a broader framework of social justice. This course explores the contributions of anthropology to the theoretical and practical concerns of human rights work. The term begins by reading a number of key human rights documents and theoretical texts. These readings are followed by selections in anthropology on the concepts of relativism and culture as well as other key frameworks, such as identity and violence. Students will then be asked to relate their understandings of human rights to the historical and cultural dimensions of particular cases, addressing such questions as the nature of humanity, historical conceptions of the individual, colonialism and imperialism, the limits of relativism, and the relationship between human rights in theory and in practice. Case studies focus on Africa and Latin America.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT.

**Formative coursework:** Students are expected to prepare discussion material for classes/seminars and are required to write an assessment essay. Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.

**Assessment:** Exam (70%, duration: 2 hours) in the main exam period.

**Essay (30%, 2500 words)** in the MT.

The assessed essay must be between 2,000 – 2,500 words in length.

---

**AN240  Half Unit  Not available in 2017/18
Investigating the Philippines - New Approaches and Ethnographic Contexts**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Fenella Cannell OLD 6.07

**Availability:** This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other
programmes where regulations permit and to General Course students. This course is most suitable for second and third year students but interested first year external students may seek an exemption. Also available to General Course students.

**Course content:** This course offers the chance to look at the ethnography of one country in more detail than is usual for regional courses. It considers topics taken from the ethnography of the lowland and highland Philippines, with a focus on exciting new high quality writing, drawing on the recent renaissance in Philippine Studies. The course will balance works by expert non-Filipino ethnographers with the new writing of ‘native ethnographies’ by Filipino scholars resident both in the Philippines themselves and in the US. The course will be framed within the colonial, religious and social history of the archipelago, and will consider both new interpretations of Philippine history, and topics on contemporary social issues, as well as using classic works on the Philippines. Teaching each week will normally be organised around the reading of one outstanding ethnography, allowing students to look closely at particular cases. Topics in any year are likely to be drawn from the following list (although obviously only ten topics can be offered in one year): Migration, ‘mail-order’ brides, and the Philippine diaspora; New religious movements: Philippine colonialism and the processes of conversion. Healing, spirit possession, midwifery and local medicine: The contemporary Catholic Church; Violence in the Philippines; Ecology, landscape and environmental politics: Kinship and its transformations; Gender, Philippine queer theory and Philippine transvestitism. Ritual, drama and local performance traditions: Philippine architecture and material culture: Philippine cinema. Colonial politics, tribal politics and issues of self representation: Magic, sorcery and ‘anti-sorcery’, Tourism, symbolic economies and the impact of international capitalism.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. **Formative coursework:** Students are expected to prepare discussion material for classes/seminars. Students in the Anthropology Department have the opportunity to submit non-assessed essays to their tutor. Students external to the Department may submit a short piece of written work to the course teacher by arrangement.

**Assessment:** Exam (70%, duration: 2 hours) in the main exam period. Essay (30%, 2500 words) in the LT.

---

**AN244**  Half Unit  Not available in 2017/18  Anthropology and Media

This information is for the 2017/18 session.

**Teacher responsible:** Prof Matthew Engelke 6.12

**Availability:** This course is available as an outside option to General Course students.

**Course content:** This course introduces students to anthropological analyses of media, including books and other printed texts, photography, radio, television, film, and the internet. Although ‘the anthropology of media’ is often understood to be a relatively new subfield, there has been a long-standing interest in media technologies within the discipline. There is also an important manner, from an anthropological point of view, in which
'media technologies’ have to be understood not only as these cultural artefacts (radio, film) but also the more elementary senses they express (hearing, sight, etc.). We therefore investigate media both as a broad conceptual category and as specific technologies of communication. The course begins with a historical overview of anthropologists’ investigations of media technologies, broadly construed. We then move on to consider ethnographic case studies of media in context. Examples may include: photography in India, radio in Zambia, television and cassette circulation in Egypt, mobile phones in Jamaica, book groups in England, and ‘indigenous video’ in Brazil and Australia. Throughout the course, these case studies are framed in relation to some of the key theoretical debates that have shaped media studies in anthropology and related disciplines since the 1930s. Some attention is also given to the methodological problems involved in studying media, especially the extent to which it challenges the possibility of conducting fieldwork by participant observation.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

**Formative coursework:** Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking the course, a formative essay may be submitted to the course teacher.

**Indicative reading:**
- Ong)
- (M Dolar);

**Assessment:** Take home exam (100%) in the MT.
The take home exam will be held the week following the end of the MT.

### AN245 Half Unit  Borders and Boundaries: Ethnographic Approaches

This information is for the 2017/18 session.

**Teacher responsible:** Dr Mathijs Pelkmans OLD 5.08

**Availability:** This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** How do territorial borders influence human behaviour and thinking, and how, in turn, do people, create, manage, and manipulate such borders? These question have become pressing with the intensification and politicisation of global interconnectedness. While a few decades ago the tearing down of the Berlin Wall seemed to herald a border-less world, today the loudest politicians promise to create “huge, great, great, beautiful walls.” This course studies the numerous tensions accompanying global interconnectedness. Why is it so difficult to make borders impermeable? How do smuggling networks operate? What does the world look like from the perspective of undocumented migrants? What are the effects of new border fortification technologies? What is it like to live in a gated community? Are people boundary-drawing creatures? Why do borders play a central role in images of utopia? Why is it silly yet productive to ask: where is the border between Europe and Asia? These and other questions will be discussed by situating ourselves ethnographically in the borderlands, potentially making us realise that “the frontier is all around us.”

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. This course has a reading week in Week 6 of MT.

**Formative coursework:** Students are expected to prepare discussion materials for presentation in the classes. They will also have an opportunity to write tutorial essays on topics from the course which will be formatively assessed.

**Indicative reading:**
- Central Asia.

### AN247 Half Unit  The Anthropology of Ontology

This information is for the 2017/18 session.

**Teacher responsible:** Dr Michael W. Scott OLD6.16

**Availability:** This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** In Western thought, the study of the nature of being itself (Greek ontoς), including theories about how things come into being and how they are related to one another, is known as ontology. Building on, but broadening the scope of this Western tradition, the growing anthropological literature on questions of being seeks to document ethnographically and model theoretically the many different ontologies, or lived realities, that shape social practice in diverse historical, geographic, and cultural contexts. Twenty-first century anthropology has seen an ‘ontological turn’, or more broadly, the emergence of ‘the anthropology of ontology’ as a recognized sub-field. Increasingly, there is a convergence of anthropological discourses around the concept of ontology, yet there is no unified approach to this topic. The anthropology of ontology remains a set of loosely linked discussions. Working in different geographical regions and drawing on different intellectual antecedents, anthropologists interested in questions of being have developed different analytical vocabularies and models that are now in need of comparison and mutual interpretation. This course provides an orientation to the various backgrounds and points of similarity and difference that constitute this emergent sub-field. Through ethnographic readings from such contexts as Aboriginal Australia, Amazonia, Central Asia, China, Melanesia, Native Alaska, Polynesia, and the history of science, the course takes a comparative approach to the exploration of different ontologies and their relationship to practice, cultural change, ethics, and social conflict.

Questions and topics covered include: the relationship between ontology and cosmology; where and how - beyond myth and ritual - ontologies are available to ethnographic observation; theories of animism versus Western nature/culture dualism; Amazonian perspectivism; relationship to place and the environment as indices of ontology; the ontological status of ‘things’, dreams, illness, and curing as indices of different modalities of being; conflicting ontological assumptions in intercultural contexts; processes of ontological transformation; scientific ontologies; the ontological assumptions that have informed anthropology.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 1 hour of lectures in the ST.

**Formative coursework:** Anthropology students taking this course will have the opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.
This course focuses on human learning, thinking and cognitive development, specifically in relation to cultural-historical artefacts (such as writing) and social institutions (such as schools). The topics covered include: (1) cultural models and distributed cognition; (2) attachment behaviours and rites of passage; (3) emotions cross-culturally; (4) incest aversion and incest taboos; (5) morality and ethics cross-culturally; (6) numerical cognition and mathematics; (7) human logic and reason cross-culturally; (8) language and literacy; (9) training, schooling and expertise; (10) exchange, reciprocity and economic psychology.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. This course has a reading week in Week 6 of LT.

Formative coursework: Students are expected to prepare discussion material for presentation in classes. Students registered for Anthropology degrees will prepare tutorial essays on the subject matter of the course and receive feedback from their academic advisors. Students who are not registered for Anthropology degrees will be given the option of submitting essays to the course teacher and receiving feedback on them.

Indicative reading: Ed Hutchins, Cognition in the wild; Michael Cole, Cultural psychology; A. Wolf; P. Durham (eds), Inbreeding, incest and the incest taboo; Jack Goody, The domestication of the savage mind; D. Holland; M. Eisenhart, Educated in romance; Unni Wikan, Turbulent hearts; M. Lambek (ed.), Ordinary ethics; D. Holland, Education and the savage mind; D. Holland, Educated in romance; Unni Wikan, Turbulent hearts; M. Lambek (ed.), Ordinary ethics; Stanislas Dehaene, The number sense.

Assessment: Exam (70%, duration: 2 hours) in the main exam period.

Essay (30%, 2500 words) in the MT.

The assessed essay must be between 2,000 – 2,500 words in length.
students will engage both with theoretical writings and with a range of select ethnographies to gain a rounded understanding of relevant debates.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 1 hour of lectures in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Anthropology students taking this course will submit a tutorial essay for this course to their academic advisers.

Non-Anthropology students taking this course will submit a formative essay to the course teacher.

Assessment: Exam (70%, duration: 2 hours) in the main exam period. Essay (30%, 2500 words) in the LT.

Assessment: Exam (70%), duration: 2 hours) in the main exam period. Essay (30%, 2500 words) in the LT. The assessed essay must be between 2,000 – 2,500 words in length.

AN274 Half Unit Not available in 2017/18 Subjectivity and Anthropology

This information is for the 2017/18 session.

Teacher responsible: Dr Harry Walker OLD 5.06B

Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Unless granted an exemption by the course teacher, students taking this course should have completed an introductory course in anthropology.

Course content: This course will explore the nature and formation of the self and of subjective experience. It will draw together a range of anthropological, psychological and philosophical approaches to subjectivity and the social and cultural phenomena that shape and condition it, attending both to the particulars of individual lives and settings and to more general, existential dimensions of the human condition. The course will be structured around engagements with three principal paradigms: psychoanalysis, phenomenology, and subjectivation. A key aim of the course will be to understand the strengths and limitations of these approaches for anthropological analysis as well as potential sites of convergence and divergence. Specific topics to be covered include the unconscious, dreams, illness and healing, embodiment, sound, intersubjectivity, interpellation, the feminist subject, and altered states of consciousness.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. Ten hours of lectures and ten hours of classes in MT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Students registered for Anthropology degrees will submit a tutorial essay for this course to their academic advisers. Students who are not registered for Anthropology degrees will submit a formative essay to the course teacher.

Assessment: Take home exam (90%) in the ST. Class participation (10%) in the MT.

Assessment for this course will comprise a ‘take-home’ exam of up to five questions. Students will be asked to write a 2000-2500 word essay on two of the questions, drawing across the breadth of the course. The take home essay will be worth 90% of the total mark. 10% of marks will be given for general class participation. Those who give full attendance and make some effort to participate in class will be able to achieve first class marks.

AN275 Half Unit The Anthropology of Revolution

This information is for the 2017/18 session.

Teacher responsible: Dr Alpa Shah OLD 6.17A

Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Unless granted an exemption by the course teacher, students taking this course should have completed an introductory course in anthropology (AN100 Introduction to Social Anthropology).

Course content: This course will focus on the study of revolution from an anthropological perspective. It will concentrate on three different types of revolutionary struggle, in three different continents, through three different types of ethnographies: the Zapatista indigenous movement in Mexico, the Zimbabwean anti-colonial struggle, and the Maoist ‘People’s War’ in Nepal. In each case, students will be encouraged to critically consider the varying degrees of involvement of the anthropologist in the movements concerned, the theoretical premises of the anthropologists and how these affect the politics and ethics of writing. In this process, students will deepen their understandings of the theoretical debates around production and reproduction, social transformation, religion and secularism, activism and anthropology, and violence and ethics in radical social change. The course will demonstrate that although anthropologists were once criticised for ‘missing the revolution’ on their doorstep, in fact their long term engagement with communities who come to be affected by revolutionary struggles has much to offer to the theoretical and practical work of radical social transformation.

Teaching: 6 hours of lectures, 6 hours of classes and 8 hours of workshops in the MT.

This course has a reading week in Week 6 of MT.

Formative coursework: Students registered for Anthropology degrees will submit a tutorial essay for this course to their academic advisers. Students who are not registered for Anthropology degrees will submit a formative essay to the course teacher.

Assessment: Take home exam (100%) in the MT. The take home exam will be held the week following the end of the MT.

AN276 Half Unit Anthropology and the Anthropocene

This information is for the 2017/18 session.

Teacher responsible: Dr Gisa Weszkalnys

Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit and to
General Course students.

**Course content:** In August 2016, scientists participating in the Anthropocene Working Group put forward an official recommendation to rename our present time interval ‘the Anthropocene’. It postulates that humans now exert recognisable influences on the earth’s bio- and geophysical systems sufficient to warrant the naming of a distinct geological epoch encompassing the earth’s present, past, and indefinite future. The Anthropocene thus echoes contemporary anxieties about climate change, the deterioration of global ecologies, and other environmental crises on unprecedented scales, as well as humans’ capacity to devise adequate solutions to the problems they face. The scholarly and popular debate on the Anthropocene has exploded in recent years, with anthropologists contributing both theoretical and important ethnographic insight into how people apprehend and deal with the repercussions of anthropogenic environmental change. It now seems that the continued successful existence of humanity on this planet will require us to live differently both with each other and with the earth. ‘We will go onwards in a different mode of humanity or not at all’ (Val Plumwood 2007).

In this course, we will approach the Anthropocene as a contested category, with evident political and ethical implications. We will begin by examining the dramatic changes in the relationship between humans and their natural environments brought about by industrialisation, specifically, the increased exploitation of natural resources as well as the production and use of fossil fuels on a large scale. We will attend to the practices and cosmologies of people who in their everyday lives – for example, by digging, polluting, and wasting – participate in the work of anthropogenic alterations, drawing on case studies from across the world. We will consider alternative labels, such as the Capitalocene, Plantationocene, Plasticene, Eurocene, Misanthropocene, and Neologocene, each of which tells a different origin story for what Donna Haraway has called ‘the trouble’. However, we then move to ask whether the Anthropocene might be less a marker of an epochal transformation than a signal of a profound anti-political shift in discussions about the future of the planet. We will inspect the scientific and non-scientific controversies the Anthropocene has provoked, and the particular forms of power, authority, reason, imagination, and subjectivity it has generated.

Students will be expected to engage with a variety of resources, including online publications, blogs, documentary and feature films, and other media, and an emergent interdisciplinary literature, spanning the social and natural sciences, which we will read in relation to a more long-standing engagement with the environment within the anthropological discipline. This will lead us to interrogate established binaries of human/nonhuman, subject/object, and nature/culture, and, significantly, to ask about the critical valence of anthropologists’ enquiry into the ‘anthropos’ for an age so profoundly shaped by humans. What methods and modes of analysis are required to comprehend the diverse human/non-human interactions and seemingly incommensurable scales that the Anthropocene invokes? What types of collaboration, knowledge, and mutual care does an anthropocenic outlook make possible? How can we anchor the manifold theoretical proposals that have been put forward not just in ethnographic examples but also in our own experiments for living?*

**Teaching:** 7 hours of lectures, 7 hours of classes, 6 hours of classes and 4 hours of workshops in the LT.

The course is comprised of three cycles of three weeks plus an additional, concluding week. Each cycle consists of two weeks taught in the traditional lecture/class format, and a third week with a two-hour class bringing together the entire course cohort. While the one-hour classes will focus on core readings set by the lecturer, the two-hour class will, in addition, offer space for viewing other resources (films, online materials), discussing students independently researched material, student presentations, etc.

**Formative coursework:** Students will be expected to produce 1 essay, 1 presentation and 6 other pieces of coursework in the LT.

available on the BA in Anthropology and Law. This course is not available as an outside option. This course is available with permission to General Course students.

Pre-requisites: Students should have a substantial background in Social Anthropology.

Course content: The aim of this course is to train students to engage critically with classic and contemporary texts in the discipline, thereby deepening understandings of current trends and emerging debates. It will examine the theoretical implications of particular anthropological approaches by surveying their origins, their strengths and their critique. The course will take the form of an intensive reading group in which approximately six texts (three in each of MT and LT) will be discussed and analysed in depth, along with supplementary reading material where appropriate. Students will be expected to develop their own critical responses to each text, as well as an appreciation of the context in which it was written and its contribution to relevant theoretical discussions and debates.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. Lectures provide a general introduction to the text and relevant issues or debates. Classes probe more deeply into these topics and will comprise small group work as well as general conversations.

This course has a reading week in Week 6 in MT and LT.

Formative coursework: Students will be expected to produce 2 essays in the MT and LT.

- Verbal: all students are expected to come to class prepared to participate and everyone is expected to speak in every class. Anyone struggling to participate should meet with the course teacher to discuss ways to increase participation.

- Essays: A formative essay may be submitted to your academic advisor through the tutorial system. This essay can be used to develop ideas for the summative essay. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.

Assessment: Essay (100%, 7200 words) in the LT.
All students will produce a portfolio of six position pieces, to which they are expected to make a contribution after each three-week cycle. Each position piece will be around 1200 words, and will comprise a critical reflection on the text and its contribution to the wider anthropological literature. Portfolios will be assessed periodically throughout the year, with feedback provided to students on a regular basis. The final grade will be determined by the beginning of Summer Term.

AN301
The Anthropology of Religion

This information is for the 2017/18 session.

Teacher responsible: Dr Michael Scott OLD 6.16 and Prof Matthew Engelke OLD 6.12

Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is available on the BA in Anthropology and Law. This course is not available as an outside option. This course is available with permission to General Course students.

Pre-requisites: Students should have a substantial background in Social Anthropology.

Course content: This course covers selected topics in the anthropology of religion, focusing upon relevant theoretical debates. In the Michaelmas term, the focus will also be on understanding through specific ethnographic and empirical case-studies, the ways in which lived religious practice, and the understanding of religion, get constituted inside and outside ‘Western’ and modern contexts. We will also pay attention to cases in which Western and non-Western definitions are emerging in interplay with each other, including their relation to understandings of modernity and the secular. Current approaches to and reconsidereations of classic topics in the anthropology of religion are also presented; these may include ritual, belief, sacrifice, and the fetish. In the Lent term, we will consider topics such as shamanism, cargo cults, initiation, witchcraft and sorcery, cosmology, and human-nonhuman relations, primarily with reference to ongoing transformations of the indigenous traditions of Melanesia, Africa, Amazonia, Australia, and the circumpolar north. Recurring themes will be: transformations in the definition of ‘religion’ in relation to ‘science’, the nature of rationality, and the extent to which anthropology itself can be either – or both – a religious and a scientific quest to experience the wonder of unknown otherness.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.
This course has a reading week in Week 6 of the MT and LT.

Formative coursework: Students are expected to prepare discussion material for presentation in the classes and are required to write assessment essays. Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.

Assessment: Exam (70%, duration: 3 hours) in the main exam period.
Essay (15%, 2500 words) in the MT.
Essay (15%, 2500 words) in the LT.

AN357 Half Unit
Economic Anthropology (2): Transformation and Globalisation

This information is for the 2017/18 session.

Teacher responsible: Prof Laura Bear OLD 6.09

Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is available on the BA in Anthropology and Law. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines ‘the economy’, as an object of social scientific analysis and a domain of human action, focusing on the anthropology of globalisation. Scholars have various ways of analysing the new forms of production, consumption, exchange and circulation that have emerged since the 1980s. Some emphasise post-Fordist methods of flexible
production and neo-liberal elite projects. Others focus on trans-state processes of globalisation. For many theorists, shifts in state policies such as austerity, decentralised planning, public-private partnerships and the deregulation of financial markets are at the centre of analysis. Others address new forms of consumer society, popular desires for social mobility and transnational migration. Drawing from ethnographies and anthropological theory this course will cast a critical eye over these arguments. It will also revisit classic topics from the perspective of present realities — for example production and intimate economies; formal markets in relation to informalised, violent economies; circulation in relation to financial debt and risk; and consumption and consumer citizenship.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

This course has a reading week in Week 6 of LT.

**Formative coursework:** Anthropology students taking this course will submit a tutorial essay for this course to their academic advisers.

Non-Anthropology students taking this course will submit a formative essay to the course teacher.

**Assessment:** Exam (70%, duration: 2 hours) in the main exam period.

Essay (30%, 2500 words) in the LT.
EC201 
Microeconomic Principles I

This information is for the 2017/18 session.

Teacher responsible: Dr Margaret Bray 32L4.27
Professor Erik Eyster, 32L4.29

Availability: This course is compulsory on the BSc in Economics and Mathematical Economics, BSc in Economic History, BSc in Economics with Economics, BSc in Economics and Social Policy and Economics. This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economics, BSc in Economics and Economic History, BSc in Economics with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economics, BSc in Mathematics with Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, Diploma in Accounting and Finance and MSc in Economics (2 Year Programme). This course is available as a separate option on other programmes where regulations permit and to General Course students.

Pre-requisites: This is an intermediate course in microeconomics analysis. Students are expected to have completed Economics A (EC100) or Economics B (EC102). or an equivalent introductory course in economics based on textbooks such as D Begg, S Fischer & R Dombusch, Economics, P A Samuelson & W Nordhaus, Economics, or R G Lipsey, Positive Economics. Students are also expected to have completed an introductory mathematics course such Quantitative Methods (Mathematics) (MA107) and should revise calculus including partial derivatives and the use of Lagrangians.

Teaching: 20 hours of lectures and 20 hours of classes in the MT. 20 hours of lectures and 20 hours of classes in the LT. Two hours of revision lectures will be held in week 11 of both MT and LT.

Formative coursework: Students should complete the weekly web-based quizzes before attending classes. In addition, at least four pieces of written work will be required and marked by class teachers.

Indicative reading: A reading list will be provided at the start of the course. The main text for the course is Snyder, C. and Nicholson, W. "Microeconomic Theory: Basic Principles and Extensions". Reference is also made to other texts and to journal articles.

Assessment: Exam (25%, duration: 1 hour, reading time: 15 minutes) in the LT week 0. Exam (75%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

The Lent term examination is based on the Michaelmas term syllabus, and the Summer exam on 33% on the Michaelmas term syllabus and 67% on the Lent term syllabus.

EC202 
Microeconomic Principles II

This information is for the 2017/18 session.

Teacher responsible: Prof Frank Cowell 32L3.25A and Dr Andrew Ellis 32L3.15

Availability: This course is compulsory on the BSc in Econometrics and Mathematical Economics. This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Finance, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Statistics with Finance, Diploma in Accounting and Finance and MSc in Mathematics and Statistics (2 Year Programme). This course is available as an outside option on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed either Economics A (EC100) or Economics B (EC102). In addition they must have a suitable mathematical background: students who have thoroughly mastered mathematics to the level of Quantitative Methods (Mathematics) (MA107) should be able to follow the course, but would find it difficult. Mathematical Methods (MA100) would give a better grounding.

Course content: This is an intermediate course in microeconomic analysis. The coverage is similar to Microeconomic Principles I. However a greater mathematical facility will be assumed of the student permitting both greater depth and a number of additional topics, such as duality, to be covered. Further details are available.
on http://darp.lse.ac.uk/Frankweb/courses/ec202/.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT.

A one-hour revision lecture will be scheduled in the MT.

Formative coursework: Students are urged to attempt the assigned problems before attending classes. At least four pieces of written work will be required and marked by class teachers.

Indicative reading: The text for the course is Cowell, F.A. (2006) Microeconomics: Principles and analysis, Oxford University Press, Oxford. Additional readings to complement the lecture notes on specific topics from other books or articles will be indicated as needed.

Assessment: Exam (25%, duration: 1 hour, reading time: 15 minutes) in the LT week 0.
Exam (75%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

The Lent term examination is based 100% on the Michaelmas term syllabus, and the Summer exam on 33% of the Michaelmas term syllabus, and 67% of the Lent term syllabus.

---

**EC210**

**Macroeconomic Principles**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Kevin Sheedy 32L1.09 Professor Ricardo Reis 32L1.27

**Availability:** This course is compulsory on the BSc in Economics, BSc in Economics with Economic History, BSc in Geography with Economics, BSc in Government and Economics, BSc in Philosophy and Economics, BSc in Political and Economics, BSc in Politics, Economics and International Studies.

**Pre-requisites:** Students must have completed Economics A (EC100) or Economics B (EC102), or an equivalent introductory course in Economics. Students are also expected to have completed an introductory Mathematics course such as Basic Quantitative Methods (MA110).

**Course content:** This course will cover the fundamental principles of macroeconomics at an intermediate level. Topics include the study of economic growth, consumption, investment, unemployment, business cycles, inflation, monetary and fiscal policy, financial markets and international macroeconomics.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students are urged to attempt the assigned problems before attending classes. Two pieces of written work per term will be required and marked by class teachers.

**Indicative reading:** The main textbook for the course is Blanchard and D R Johnson, Macroeconomics, 6th ed., supplemented by other reading selected by the lecturers. A combined package will be available in the Economists’ Bookshop.

**Assessment:** Exam (25%, duration: 1 hour, reading time: 15 minutes) in the LT week 0.
Exam (75%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

The Lent term examination is based 100% on the Michaelmas term syllabus, and the Summer exam on 33% of the Michaelmas term syllabus and 67% of the Lent term syllabus.

---

**EC220**

**Introduction to Econometrics**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Greg Fischer 32L 3.09 (MT), Dr. Taisuke Otsu 32L 4.25 and Dr. Marcia Schafgans 32L 4.12 (LT)

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in Philosophy and Economics, BSc in Social Policy and Economics, Diploma in Accounting and Finance and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students. Availability to General Course students is with the permission of the lecturer.

**Pre-requisites:** Students must have completed Elementary Statistical Theory (ST102).

Those who have taken MA107/ST107 should consider taking EC220 only if they have obtained marks of 65 or better on both courses.

**Course content:** This course is an introduction to econometrics; it aims to present the theory and practice of empirical research in economics.

In MT, the focus of the course is on the empirical questions and students will work with the econometrics software packages R or Stata analysing actual data sets. Students will learn how various tools are used to answer causal “what-if” questions (e.g., “What is the effect of monetary policy on output?”) and prediction problems.

In LT, the focus of the course is on the underlying econometric theory: estimation, properties of estimators (unbiasedness, efficiency, sampling distribution, consistency) and hypothesis testing. Topics include: randomised experiments, program evaluation, matching; simple and multiple regression analysis; omitted variable bias; functional form; heteroskedasticity and weighted least squares; endogeneity (measurement error, simultaneity); instrumental variables and two-stage least squares; and stationary and non-stationary time series analysis.

**Teaching:** 30 hours of lectures and 10 hours of classes in the MT. 30 hours of lectures and 10 hours of classes in the LT.

A one hour revision lecture will be held in week 11 of both the MT and LT.

EC220 B for graduate students.

**Formative coursework:** Exercises are provided each week and are discussed in the classes. (MT) Students are required to hand in written answers to the exercises for feedback. (LT) While students are expected to attempt the weekly problem sets before each class, students will receive formal feedback on 4 occasions.

**Assessment:** Exam (12.5%, duration: 1 hour, reading time: 15 minutes) in the LT week 0.
Exam (75%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

Coursework (12.5%) in the MT.

---

**EC221**

**Principles of Econometrics**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Greg Fischer 32L 3.09 (MT) and Dr. Marcia Schafgans 32L 4.12 (LT)

**Availability:** This course is compulsory on the BSc in Econometrics and Mathematical Economics. This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and
EC230 Economics in Public Policy

This information is for the 2017/18 session.

Teacher responsible: Dr Mohan Bijapur 32L 1.31 and Dr Daniel Sturm 32L 2.25

Availability: This course is available on the BSc in Environment and Development, BSc in International Relations and BSc in International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

Course content: This course is a more advanced introduction to econometrics; it aims to present the theory and practice of empirical research in economics. Compared to EC220, in LT this course puts more emphasis on the underlying statistical theory and relies on the use of matrix algebra.

In MT, the focus of the course is on empirical questions and students will work with the econometrics software packages R or Stata analysing actual data sets. Students will learn how various tools are used to answer causal “what-if” questions (e.g., “What is the effect of monetary policy on output?”) and prediction problems. In LT, the focus of the course is on the underlying econometric theory: estimation, properties of estimators (unbiasedness, efficiency, sampling distribution, consistency) and hypothesis testing.

Topics include: randomised experiments; program evaluation; matching; simple and multiple regression analysis; omitted variable bias; functional form; heteroskedasticity and weighted least squares; endogeneity (measurement error, simultaneity); instrumental variables and two-stage least squares; and stationary and non-stationary time series analysis.

Teaching: 30 hours of lectures and 10 hours of classes in the MT.

Additional help lectures 10 x 1 hour in the LT.

A one hour revision lecture will be held in week 11 of both the MT and LT.

EC221.B for graduate students.

Formative coursework: Exercises are provided each week and are discussed in the classes. (MT) Students are required to hand in written answers to the exercises for feedback. (LT) While students are expected to attempt the weekly problem sets before each class, students will receive formal feedback on 3 occasions.

Assessment: Exam (12.5%, duration: 1 hour, reading time: 15 minutes) in the LT week 0.

Exam (75%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

Coursework (12.5%) in the LT.

EC240 Half Unit PPE Interdisciplinary Research Seminar

This information is for the 2017/18 session.

Teacher responsible: Prof Maitreesh Ghatak

Availability: This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students.

This course is only available to second year students on the BSc in Philosophy, Politics and Economics. The course will run from the beginning of Lent Term in year 2 and will continue as EC340 through to the end of Lent Term in year 3.

Course content: The course will include lectures given by top researchers from inside and outside LSE, including researchers from the public, private and third sector. The lectures will expose the students to research on the frontier in topics such as public economics, political economy and decision making in the public domain. This research and background reading will then be discussed in seminars.

Teaching: 7 hours and 30 minutes of lectures and 5 hours of seminars in the LT.

The course will run across three terms starting at the beginning of Lent term in year 2 of the PPE and continuing in Michaelmas and Lent term of year 3 of the PPE. Each term will consist of a series of biweekly lectures (5 x 90mins) and seminars (5 x 60mins).

Lectures will be given by outside speakers on a specific topic, such as inequality, and will allow for the opportunity to interact and ask questions. Depending on the availability of the speaker, there may be the opportunity for further discussion at an informal social event after the lecture. The seminars will discuss the previous lecture as well as examining background reading related to the topic.

Formative coursework: Students will be expected to produce 1 essay and 1 presentation in the LT.

Students will write a 2,500 word essays in groups in the LT of year 2 and MT of year 3 to prepare them for the individual assessment of year 3. In addition, students will discuss and present current research. Feedback on these essays and the presentation will help prepare students for the final individual essay and presentation.

Assessment: This information is for students in the first year of the PPE Interdisciplinary Research Seminar. Second year students please refer to the EC340 course guide.

Students will be assessed throughout the course, through essays, presentations and class participation. There will be one essay and one presentation per term in MT and LT of the third year of the PPE. The final summative grade will weigh together the presentations (20%), essays (70%) and class participation (10%) from all three terms (the essays will be weighted 15%, 15% and 40%, respectively).

The overall grade the students will receive will be one of four: fail, pass, merit and distinction.

EC301
Advanced Economic Analysis

This information is for the 2017/18 session.

Teacher responsible: Dr L. Rachel Ngai 32L 1.15
Dr Shengxing Zhang 32L 1.16

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in Mathematics and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Microeconomic Principles I (EC210) and Microeconomic Principles I (EC201). Mathematics to at least the level of Mathematical Methods (MA100). Microeconomic Principles II (EC202) is also accepted (in place of EC201).

Course content: This course is divided into two sections introducing recent developments in economic theory. The first section focuses on the relationship between the financial sector and the macroeconomy, considering such questions as why there exist financial crises and asset bubbles. To answer these questions, this section aims to equip students with frameworks to understand the role of the financial market, connect theories with real life observations about imperfections of the market. Topics covered in this section include financial frictions and capital misallocation, banking and financial stability, asset pricing and market liquidity. In the second section of the course we focus on economic growth, considering questions like these: Why was GDP per capita in the UK 15 times higher than China in 1960? Why did the factor of 15 decrease to 5 in 2000? To gain an understanding of the “whys” we have to ask deeper questions: what drives economic growth? Why do some economies grow faster and other slower? Thus this part of the course studies the determinants of economic growth through capital accumulation, reallocation of resources from agriculture into manufacturing and services and, technology innovation.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will submit, and receive feedback on, two problem sets per term.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

EC302
Political Economy

This information is for the 2017/18 session.

Teacher responsible: Prof Ronny Razin 32L4 01

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in Mathematics and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent.

Course content: The course seeks to introduce students to the major theoretical models of Political Economy and the available empirical evidence. Sample topics to be covered include: Social Choice theory and Preference aggregation; Comparative electoral systems; Political economy of income redistribution; Turnout in elections; Strategic and Sincere voting; Political Parties; Debates and Communication.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Two hours of revision lectures will be held in week 11 of LT.

Formative coursework: At least four exercises or pieces of written work will be required and assessed by class teachers.

Indicative reading: There is no set text covering all the material in the course. The following books are recommended as supplements to what is covered in the lectures. Analyzing Politics, Rationality, Behavior and Institutions, K.A. Shepsle and M.S. Bonchek. W. W. Norton & Company, New York, London. Liberalism Against Populism, W.H. Riker, Waveland Press, Prospect Heights, Illinois. For additional readings see http://econ.lse.ac.uk/courses/ec302/

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

EC303
Not available in 2017/18
Economic Policy Analysis

This information is for the 2017/18 session.

Teacher responsible: Prof Peter Sinclair
Dr Michael Vlassopoulos

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in...
Economics and Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in Philosophy and Economics and BSc in Social Policy and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Pre-requisites: Students should have completed Microeconomic Principles I or II (or equivalent) and Macroeconomic Principles (or equivalent).

Course content: The course will concentrate on selected important economic policy issues and relevant economic tools. It will treat the issues at a level appropriate for students with the knowledge of economics provided by the courses already taken. The specific topics will be of contemporary interest, and will be announced by the start of each year. In any year the topics covered are likely to include some of the following: Globalisation: effects on welfare, development and income distribution. ii Inequality iii. International negotiations and trade policies iv. Global imbalances v. World trade collapse vi. Tax, fiscal policy and unemployment vii. Monetary policy and exchange rate frameworks viii. Financial integration and currency unions ix. Financial crises and relevant policies x. Endogenous growth, exhaustible resources and relevant policies.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. Two hours of revision lectures will be held in week 11 of both the MT and LT.

Formative coursework: Students are urged to attempt the assigned problems before attending classes. At least four pieces of written work will be required.

Indicative reading: There is no course textbook. Detailed reading will be provided in the syllabus at the start of the year. Books that provided useful backgound reading Lent Term 2013/14 included:

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

EC309 Econometric Theory

This information is for the 2017/18 session.

Teacher responsible: Dr Tatiana Komarova 32L.4.24 and Prof Francisco Hidalgo 32L.4.20

Availability: This course is available on the BSc in Econometrics and Mathematical Economics and BSc in Mathematics and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Principles of Econometrics (EC221).

A good knowledge of linear algebra, calculus and statistical theory is essential, and therefore MA100 and ST102 or equivalent is required. Students taking this course who are not in BSc Econometrics and Mathematical Economics or BSc Mathematics and Economics must consult with Dr. Komarova before selecting this course

Course content: Introduction to the asymptotic theory of estimation and inference of economic models; Basics of large sample theory; Estimation of linear regression models (OLS, GMM, GLS); Testing hypotheses and model specifications; Estimation of nonlinear models (MLE, Nonlinear least squares); systems of equations, time series analysis.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

and Hayashi (2000), Econometrics.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC310**

**Behavioural Economics**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Matthew Levy 32L3.21

**Availability:** This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics with Economic History, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Philosophy and Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is not available to General Course students. Students taking the course as an outside option are required to meet the pre-requisites as detailed below.

**Pre-requisites:** Ideally, students will have completed EC202 (or equivalent). A highly motivated student who has done well in EC201 – as a guideline 65 or better – is welcome on the course, if he or she finds handling economics mathematically comes naturally. Any such student should see Dr Levy before the course starts. Fluency in calculus is essential, and some knowledge of methods of mathematical proof, including those using sets, is necessary.

**Course content:** The course will expose students to a number of major topics in Behavioural Economics, and will link theory with empirical applications. The first half of the course will focus on departures from neoclassical preferences, while the latter half will cover departures from rational expectations. The particular topics to be covered include:

- Reference Dependent Preferences and Loss Aversion
- Social Preferences
- Hyperbolic Discounting
- Naïveté and Self-Control
- Projection Bias
- Happiness and Adaptation
- Heuristics and Biases
- Inattention and Shrouding
- Nudging and Framing
- Behavioural Welfare Analysis

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 15 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** At least four exercises or pieces of written work will be required and assessed by class teachers.

---

**EC311**

**History of Economics: How Theories Change**

This information is for the 2017/18 session.

**Teacher responsible:** To Be Announced

**Availability:** This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economic History, BSc in Economics with Economic History, BSc in Economics, BSc in Economics with Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in Philosophy and Economics, BSc in Economics and BSc in Social Policy and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The course examines the ways in which economics has developed from the Mercantilists of the 17th century to the Neoclassical thinking of the later 20th century. The course will explore how the theories, concepts and methods of economics have changed over the last 250 years, focusing on Europe and North America. We will use the original texts in order to understand how economists of the past approached perennial questions (about, for example, the sources of growth or the role of money) and resolved them in the context of the economic conditions of their own time and place, and use theories about scientific change to understand the longer history of economics.

**Teaching:** 10 hours of lectures and 8 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to discuss assigned texts and produce several pieces of written work.

**Indicative reading:** A reading list of original texts and secondary literature will be given at the beginning of the course. For an introduction, students may read R L Heilbroner’s, The Worldly Philosophers; for general background, consult Roger E Backhouse’s, The Penguin History of Economics or David Colander & Harry Landreth’s, History of Economic Thought.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**EC313**

**Industrial Economics**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Martin Pesendorfer 32L 4.19

**Availability:** This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Mathematics and Economics, BSc in Economics with Economics, BSc in Philosophy, Politics and Economics, BSc in Social Policy and Economics. This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Economics, BSc in Economics with Economics, BSc in Philosophy, Politics and Economics, BSc in Social Policy and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students must have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) and Introduction to Econometrics (EC220) or Principles of Econometrics (EC221). Students who believe they have completed an equivalent course instead of one of these must receive permission from Prof Pesendorfer first.

**Course content:** The aim of the course is to provide students...
with a working knowledge of theoretical and empirical methods for industry studies. Topics may include: monopoly, price discrimination, pre-requisites in game theory, oligopoly theory, product differentiation, demand estimation, production function estimation, conduct in concentrated industries (cartel stability, limit pricing, etc.), empirical techniques for oligopoly models, identification of conduct, markets with asymmetric information, entry in strategic settings, advertising, auction markets, empirics of auction markets, winner's curse, insurance and contract design. The topics will be discussed with detailed applications for selected industries and considering competition policy questions.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** At least four problem sets will be required and assessed by class teachers.

**Indicative reading:** A detailed reading list will be provided at the beginning of the course. The primary text is Tirole's *The Theory of Industrial Organization*. Specific sections will be assigned (others are too advanced for this course). There will be additional required readings on empirical articles and case studies on competition policy.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC315 International Economics**

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Keyu Jin 32L 1.17

Prof Dennis Novy

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Environmental Policy with Economics, BSc in Government and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students should have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent and Macroeconomic Principles (EC210) or equivalent.

**Course content:** International Macroeconomics: This section of the course offers an introduction to international macroeconomic theory and develops the main tools for macroeconomic policy analysis. We start by studying the balance of payments and the causes and consequences of global imbalances, followed by an in-depth study of the determination of exchange rates, money, and prices in open economies. We discuss the costs and benefits of different nominal exchange rate regimes and their sustainability, as well as examine the causes and consequences of debt and default, speculative attacks and financial crises.

International Trade: This section of the course offers an introduction to international trade theory and develops the main tools for trade policy analysis. We start by studying the patterns of trade distinguishing between inter-industry and intra-industry trade flows. We then proceed to an in-depth analysis of the causes and the effects of those flows based on the concepts of absolute and comparative advantage, relative factor abundance and relative factor intensity, increasing returns to scale and imperfect competition. Finally we discuss the gains and losses from trade, their distribution among people and firms, and their implications for the debate on trade liberalization vs. protectionism.

**Teaching:** 15 hours of lectures and 10 hours of seminars in the MT. 15 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students will be expected to complete a problem set weekly, and two of these each term will be collected at random for marking and feedback.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC317 Labour Economics**

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Guy Michaels 32L2.10

Dr Pawel Bukowski 32L 2.01

**Availability:** This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Management, BSc in Philosophy and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students should have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent and Introduction to Econometrics (EC220) or equivalent.

**Course content:** This course is an introduction to the economic analysis of behaviour and institutions in the labour market. Primarily microeconomic models are applied to labour market phenomena, such as labour supply and participation, labour demand by firms, and wage determination under different institutional settings. Students learn how to distinguish alternative theories empirically using real world data. The course explores how models and empirical analysis can be applied to evaluate labour market policies, such as the minimum wage, welfare programmes, and immigration restrictions. We will also examine labour market inequality and the role of technological change. The goal of the course is to enable students to think independently about labour market issues, drawing on the models and tools developed during the course.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Problems sets in the course involve hands-on statistical analysis of real world data.

**Indicative reading:** G Borjas, *Labor Economics*. Additional reading, drawn from journals, will be suggested during the course.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC319 Games and Economic Behaviour**

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Andrew Ellis 32L 3.17 and Dr Francesco Nava 32L 3.20

**Availability:** This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Philosophy and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students should have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent. Fluency in calculus is essential, and some knowledge of analysis, linear algebra and set theory is advantageous. A highly motivated student with a less technical background could enrol on the course, if he or she finds handling economics mathematically comes naturally. Any such student should see Dr Nava or Dr Ellis before the course starts.

**Course content:** This course reviews fundamental concepts in Economic Theory and presents some of its most successful applications. The first part of the course consists of an introduction to Auction Theory. It presents standard auction
formats and discusses strategic behaviour in such environments. Auctions will be analysed both in private and interdependent value environments. Fundamental topics such as the revenue equivalence theorem, the optimal auction design problem and the linkage principle will be covered in detail. Departures from the standard model will be also considered allowing for heterogeneity among players, risk aversion, and budget constraints. The focus of the course is mainly theoretical, but when possible some evidence supporting the formal models will be discussed with references to relevant work in the field. The second part of the course will revise concepts in non-cooperative game theory and will introduce students to game theoretic models of bargaining, voting, and communication. After setting up the primitives of the game theory framework, different solution concepts will be analysed with an emphasis on different applications. In studying models of bargaining, both axiomatic and non-cooperative approaches will be examined, such as Nash's axiomatic approach and the Rubinstein-Stahl model.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. A revision lecture held in week 11 of Michaelmas term.

**Formative coursework:** Students are urged to attempt the assigned problems before attending classes. At least four pieces of written work will be required.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

### EC321 Monetary Economics

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Kevin Sheedy 32L1.09

**Professor Sir Charles Bean 32L 1.18**

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in Mathematics and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and BSc in Social Policy and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students should have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent and Macroeconomic Principles (EC210) or equivalent. Introduction to Econometrics (EC220) or Further Mathematical Methods (MA212) or equivalent are also strongly recommended. Students who have not taken either of these two courses are still welcome provided they can show other evidence of a strong quantitative background.

**Course content:** The course provides an introduction to monetary theory, to the effects of monetary variables on the macroeconomic system, the role of the central bank and the conduct of monetary policy. Subjects covered include: The nature and function of money; Asset prices and the term structure of interest rates; Classical monetary theory; neutrality and inflation; Interest-rate feedback rules; The interaction between monetary and fiscal policy; Theories of the demand for money; The market for reserves; Financial markets and financial intermediaries; The transmission mechanism of monetary policy and theories of the Phillips curve; The optimal rate of inflation and optimal stabilisation policy; The positive theory of inflation and the case for central bank independence; Policymaking in an uncertain environment; The role of banks in the transmission mechanism and the case for bank regulation; Financial crises and the role of the central bank as a lender of last resort; The 2007-8 financial crisis and unconventional monetary policies.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. A one-hour revision lecture will be held in week 11 of both MT and LT.

**Formative coursework:** Students are required to submit two essays or exercises in the MT and the LT. Feedback is provided on these by the class teacher.

**Indicative reading:** The most useful text books are M. Lewis & P. Mizen, Monetary Economics, and C Walsh, Monetary Theory and Policy 3rd edn. Other useful texts include: C Goodhart, Money, Information and Uncertainty, 2nd edn; D Laidler, The Demand for Money, 3rd edn; R Aliber and C Kindleberger, Manias, Panics and Crashes: A History of Financial Crises, 7th edn.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.
EC331
Quantitative Economics Project
This information is for the 2017/18 session.
Teacher responsible: Dr Matthew Levy 32L.3.21
Availability: This course is compulsory on the BSc in Econometrics and Mathematical Economics. This course is not available as an outside option nor to General Course students.
Pre-requisites: Students must have completed Principles of Econometrics (EC221) or exceptionally Introduction to Econometrics (EC220).
Course content: This course provides an opportunity to learn how to do independent quantitative economic research at an advanced level. Students are expected to pursue research on a question of their own choice under the supervision of a member of staff. They are expected to formulate an initial proposal near the start of MT in order to be matched with a supervisor, refining their choice into a manageable research question during that term. Following independent work during MT, a seminar in week 9 will review student progress. In the LT seminars, each student will present a preliminary outline of the results for comments by fellow students and teachers, and later a follow-up presentation on further, more final results and a draft dissertation. Seminars in LT are formally timetabled as classes.
Teaching: 4 hours of seminars in the MT. 20 hours of seminars in the LT. In week 11 of the MT and the LT students will work independently (with supervisory advice).
Formative coursework: Students are required to prepare material for their presentations in the seminar, but this is not formally graded. Students are additionally expected to participate in discussion on the presentations of other students' as this is part of the training of a research economist, but this is also not formally assessed.
Indicative reading: As each student chooses an individual research question, there is no common reading list for this course.
Assessment: Dissertation (100%, 10000 words) in the LT. A completed dissertation (up to 10,000 words, not including abstract, footnotes, bibliography and tables) on an approved subject will be required to be submitted by 25 April 2018. There is no written examination. The dissertation carries all the marks.

EC333
Problems of Applied Econometrics
This information is for the 2017/18 session.
Teacher responsible: Dr Guy Michaels 32L.2.10
Dr Rachael Meager 32L.3.13
Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History and BSc in Social Policy and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.
Pre-requisites: Students should have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent, and either Introduction to Econometrics (EC220) or Principles of Econometrics (EC221). Students who have completed EC220 rather than EC221 should refer to Dr Gentry for advice before starting the course regarding additional preparatory work for Lentin term course material.
Course content: The purpose of this course is to provide a solid grounding in recent developments in applied econometrics. A major feature of the course is the use of both analytical and computer-based (data) exercises for the classes, which will enable students to gain practical experience in analysing a wide variety of econometric problems. The topics covered in the Michaelmas term include analysis of experimental and non-experimental data, identification of average treatment effects and local average treatment effects, weak instrument problems, quantile regressions, and regression discontinuity. The Lent term will focus on topics in the analysis of cross section and panel data with static and dynamic models, including fixed and random effects, nonlinear models, issues of measurement error, selection and attrition in panel contexts, binary choice models, maximum likelihood estimation, and generalized method of moments.
Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.
Formative coursework: Michaelmas term: 2-3 problem sets, usually to include econometric questions and applications. Feedback to be provided by the class teacher. Lent term: 3 problem sets, usually to include econometric questions and applications. Feedback to be provided by the class teacher.
Indicative reading: A detailed reading list will be provided at the beginning of each term of the course. In parts of the Michaelmas we will use sections from the textbook "Mostly Harmless Econometrics" by Angrist and Pischke. There is no single text for the Lent term, but useful books (somewhat more advanced than the lectures) are Hsiao, "The Analysis of Panel Data" and Wooldridge, "Econometrics".
Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

EC340
PPE Interdisciplinary Research Seminar
This information is for the 2017/18 session.
Teacher responsible: Prof Charlie Bean 32L.1.18
Prof Erik Berglof
Availability: This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students.
Pre-requisites: This course is only available to third year students on the BSc in Philosophy, Politics and Economics. The course started at the beginning of Lent Term in year 2 as EC240 and continues as EC340 through to the end of Lent Term in year 3.
Course content: The course will include lectures given by top researchers from inside and outside LSE, including researchers from the public, private and third sector. The lectures will expose the students to research on the frontier in topics such as public economics, political economy and decision making in the public domain. This research and background reading will then be discussed in seminars.
Teaching: 7 hours and 30 minutes of lectures and 5 hours of seminars in the LT.
The course will run across three terms starting at the beginning of Lent Term in year 2 of the PPE and continuing in Michaelmas and Lent term of year 3 of the PPE. Each term will consist of a series of biweekly lectures (5 x 90 mins) and seminars (5 x 60 mins). Lectures will be given by outside speakers on a specific topic, such as inequality, and will allow for the opportunity to interact and ask questions. Depending on the availability of the speaker, there may be the opportunity for further discussion at an informal social event after the lecture. The seminars will discuss the previous lecture as well as examining background reading related to the topic.
Formative coursework: Students will be expected to produce one essay and one presentation each in the MT and LT. Students will write a 2,500 word essays in groups in the LT of year 2 and MT of year 3 and an individual essay of 2,000 words in LT in year 3. In addition, students will discuss and present current research. Feedback on these group essays and presentations will help prepare students for the final individual essay and presentation.
Indicative reading: Besley, Timothy and Torsten Persson, Pillars of Prosperity: The Political Economics of Development Clusters, Princeton University Press, 2011 (will be used as the core text book, and students will be asked to familiarise themselves with the core modelling framework developed in the book), Acemoglu, Daron and James Robinson, Why Nations Fail, Crown Books,
The overall grade the students will receive will be one of four: fail, Class participation in EC240 and EC340 (10%), Presentation (20%) and essay (70%, 2000 words) in the MT and L T essay per term and one presentation per term in MT and LT of the the PPE Interdisciplinary Research Seminar. First year students Availability: Dr Eric Schneider SAR.5.16 and Dr Sen, Amartya, The Idea of Justice, Allen Lane, 2009. An extensive list of required and further readings will be available on Moodle.

**Assessment:** This information is for students in the second year of the PPE Interdisciplinary Research Seminar. First year students please refer to the EC240 course guide. Students will be assessed throughout the course, through essays, presentations and class participation. There will be one summative essay per term and one presentation per term in MT and LT of the third year of the PPE. Presentation (20%) and essay (70%, 2000 words) in the MT and LT of year 3. Class participation in EC240 and EC340 (10%).
The overall grade the students will receive will be one of four: fail, pass, merit and distinction.

---

**EH101**

The Internationalisation of Economic Growth, 1870 to the present day

This information is for the 2017/18 session. **Teacher responsible:** Dr Eric Schneider SAR.5.16 and Dr Christopher Minns SAR.5.12 **Availability:** This course is compulsory on the BSc in Economic History, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is available on the BA in History, BSc in Environment and Development, BSc in International Relations and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The course examines the inter-relationships between the development of the international economy and the growth of national economies since the late nineteenth century. The course is designed to introduce students not only to a wide variety of topics and issues, but also to the wide variety of approaches used by historians. The course includes analyses of the original leading nation, Britain, and its replacement, the United States, as well as the emerging superpowers of the mid-twentieth century. The course also considers the economic implications of the Cold War, the development of the European Community and the implications of the 1973 oil crisis. The course will conclude with a consideration of the economic implications of the collapse of Communism and the opening up of China.

**Teaching:** 10 hours of lectures and 8 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Lectures: There is one lecture course (EH101) with 21 lectures in the MT, LT and ST. A lecture programme will be circulated at the first meeting. This course uses Moodle to provide a web based location for your core LSE course materials. The lectures are accompanied by weekly classes (EH101.A). Classes are given by several different teachers. They do not necessarily deal with the same topics each week but they all cover the same ground. There is a reading week in Week 6 of MT and LT.

**Indicative coursework:** Students are expected to write four very short papers during the year and two longer essays.

---

**EH102**

Pre-industrial Economic History

This information is for the 2017/18 session. **Teacher responsible:** Prof Oliver Volckart SAR 6.10 **Availability:** This course is compulsory on the BSc in Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Course content:** This course surveys long-term processes of growth and development in late medieval and early modern Europe (fourteenth to eighteenth centuries). It focuses on the transition from a hierarchical society of estates or corporate orders to a market society based on equality. There are two core questions: First, why did this transition occur in an evolutionary way in England and the Netherlands, whereas it was severely delayed in the rest of Europe? And second, how is it related to the ‘small divergence’ between the Dutch Republic and England on the one side and most of the Continent on the other, where the North-West enjoyed significantly higher living standards and per capita incomes than other countries even before industrialisation began? The course thus raises fundamental questions about societies and economies. Was pre-industrial economic growth transitory and regional? Or was it a recurrent, even normal phenomenon, which however could occasionally be reversed? Was Dutch and British success the result of their social and institutional features? Or was it a combination of geographical factors and good fortune? To what degree did early modern governments help or hinder economic development? Did Europe’s political fragmentation hold back the continent’s development, or did competition between states have beneficial consequences? In conclusion, can we define an optimal combination of social, political, and economic institutions that sustained growth in the past (and thus, perhaps, in the future)?

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 1 essay in the MT. Students will give presentations on topics that form part of the course content.

Students will receive structured feedback on their formative coursework (both on their essay and the presentation).

EH103
Making Economic History Count

This information is for the 2017/18 session.
Teacher responsible: Dr Debin Ma SAR 6.12
Availability: This course is available on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is not available as an outside option nor to General Course students.
Pre-requisites: None
Course content: This course provides students with a brief, non-technical introduction to the quantitative methods that economic historians use to understand the past. It assumes no prior statistical knowledge or experience. It will teach students basic statistics (descriptive statistics and inferential statistics) and how to implement and visualise these statistics with Excel. These skills will be essential for the independent research projects conducted in the second and third year and are highly desired skills on the job market. In addition, it will introduce students to regression analysis and teach them to interpret regression tables. Regression analysis is a very common methodology employed in the economic history and economics literature, so understanding how to interpret regressions will allow students to engage with readings for upper economics and economic history courses at a higher level. All first year Economic History students are strongly encouraged to take this course.
Teaching: 10 hours of lectures and 10 hours of classes in the MT. Some of the classes will take the form of computer based workshops.
Formative coursework: The formative coursework will consist of weekly exercises to give students practice with Excel and the methods being taught in the lecture. There will be a formative take home exam over Christmas Break (due week 2 of Lent Term) to test students' knowledge of the material.
Indicative reading: Feinstein, Charles and Mark Thomas, Making History Count: A Primer in Quantitative Methods for Historians (Cambridge, 2002).
Assessment: There is no summative assessment for this course.

EH207
The Making of an Economic Superpower: China since 1850

This information is for the 2017/18 session.
Teacher responsible: Dr Debin Ma SAR 6.12
Availability: This course is available on the BA in History, BSc in Accounting and Finance, BSc in Economic History, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: This course provides a survey of long-term economic change in China from the mid-nineteenth century to the present. It focuses on China's long path to becoming a major global economic power at the beginning of the new millennium. The course examines the importance of ideological and institutional change in bringing about economic transformations.
by surveying major historical turning points such as the opening of China in the mid-nineteenth century, the collapse of the Qing in 1911, the rise of the Communist regime in the 1950s and the adoption of a reform policy since the late 1970s. It examines both the constraints as well as the capacity of a giant traditional economy to respond and regenerate in the face of external challenge from outside since the Opium War of the mid-nineteenth century. The economic analysis of Chinese economic history will examine both macro and micro level questions.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Formative coursework: Students are expected to write four essays or equivalent pieces of written work.

Assessment: Exam (70%, duration: 2 hours) in the main exam period.

Essay (15%, 1500 words) in the ST.

Assessment:

EH225 Latin America and the International Economy

This information is for the 2017/18 session.

Teacher responsible: Dr Peter Sims, SAR.6.15

Availability: This course is available on the BA in History, BSc in Economic History, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economics History, BSc in Environmental Policy with Economics and BSc in International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course examines the development trajectory of Latin America and its relation with the international economy from the Early Modern period (c. 1700) to the present. It focuses on the political and economic factors that drove - and that resulted from- the region's engagement with the world attending to the environment, population and factor endowments, institutions and policies. The causes and outcomes of this 'engagement' will be explored in the following broad themes: the determinants of Latin American growth performance, the political economic legacy of European rule and of the formation of modern states and markets; the ambivalent relation with international markets and institutions, the continuous quest for development together with political and macroeconomic instability; the economic aspects of different political experiments and political culture - from authoritarian to democratic regimes and various generations of populism interspersed with military rule and direct democracy- and the short and long run impact on equality, poverty and the prospect for sustained intensive growth.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: Students are expected to write two essays or equivalent pieces of written work, and offer an oral presentation individually or in a team throughout the course.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.
EH237
Theories and Evidence in Economic History
This information is for the 2017/18 session.
Teacher responsible: Dr Patrick Wallis and Dr Eric Schneider
Availability: This course is compulsory on the BSc in Economic History, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.
Course content: The course examines theories and concepts used in economic history, and provides an introduction to the methods used by economic historians to collect evidence and generate inference on relevant historical questions. The course will begin with an examination the development of history as a subject and discipline. Consideration will be given to the assumptions made in economics and their principal applications in economic history. The course will also introduce students to essential methods for the design and execution of a research project. Students will be introduced to the analysis of historical arguments and the critical interpretation of primary and secondary sources. The course will also provide students with the basic quantitative skills required to pursue an independent research project, and to engage critically with current scholarship in economic history.
The course will include a non-assessed component that serves to prepare students for their final year dissertation, covering the formulation of the thesis question, primary and secondary sources, analysis of evidence, and structuring and writing up the thesis. Students are expected to submit a preliminary title for their final year dissertation before the end of ST and get this approved by their supervisors.
Teaching: 11 hours of lectures and 10 hours of classes in the MT. 11 hours of lectures, 14 hours of seminars and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.
There is reading week in Week 6 of MT and LT.
Formative coursework: Students are expected to write four essays or equivalent pieces of written work.
Assessment: Exam (70%, duration: 2 hours) in the main exam period.
Project (30%, 3000 words) in the LT.

EH240
Business and Economic Performance since 1945: Britain in International Context
This information is for the 2017/18 session.
Teacher responsible: Dr Peter Cirenza
Availability: This course is available on the BSc in Accounting and Finance, BSc in Economic History, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History and BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: The course examines the successes and failures of British business and industry, with an emphasis on the post-World War II period. It examines many of the hypotheses on why the UK economy grew more slowly than other OECD nations during this period. Explanations of relative economic decline are examined in the context of comparisons with other European nations and with the US and Japan. The course is organised to combine economy- wide factors, such as education, management organisation, labour relations, and membership in the EU, with case studies of industries as diverse as cotton, cars, banking and steel. By interacting themes and case studies, students get a sense of how national policies interact with business opportunities, and how governments can both aid and harm business. They also get a sense of why much – but not all – of British business history in the post-war period has been characterised as one of relative decline. The main attention is on the post-war period, including current performance, but the historical roots of Britain’s recent performance are also considered.
Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.
There will be a reading week in Week 6 of MT and LT.
Formative coursework: During the course students are expected to write three essays or equivalent pieces of written work.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.

EH304
The Economic History of North America: from Colonial Times to the Cold War
This information is for the 2017/18 session.
Teacher responsible: Dr Christopher Minns SAR 5.12
Availability: This course is available on the BSc in Economic History, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History and BSc in

To write four essays or equivalent pieces of written work.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.
**EH306 Monetary and Financial History since 1750**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Olivier Accominotti, SAR 5.14

**Availability:** This course is available on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is not available as an outside option nor to General Course students.

**Course content:** This course covers international Monetary and Financial History since the mid-18th century. The course is designed to introduce students to the key issues around globalised finance and money. It will look into the rise and eventual demise of the Gold Standard, the emergence and occurrence of financial crises, the globalisation and geography of financial markets, and changes in policy responses and regulation over time.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST. The two-hour seminar in ST will be a revision seminar.

**Teaching:** There will be a Reading Week in Week 6 of MT and LT.

**Formative coursework:** During the course students are expected to write three essays or equivalent pieces of written work.

**Indicative reading:**

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**EH308 Historical Economic Geography: Cities, Markets and Regions in the 19th and 20th Centuries**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Juan Roses Vendoiro, SAR 5.15

**Availability:** This course is available on the BSc in Economic History, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.

**Course content:** This course explores how and why the location of economic activities changes across time and space from industrialization up to the present. One goal for this course is to demonstrate the importance of history in the formation of the present-day economic landscape. An equally important goal is to demonstrate the applicability of the study of economic geography to the understanding of historical patterns of development and underdevelopment. The course is not organized chronologically but thematically. Particular attention focuses on four major issues: the development of cities, the creation of national markets, the historical basis for manufacturing agglomeration, and the historical evolution and sources of regional inequality.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT.

**Teaching:** There will be a reading week in Week 6 of MT and LT.

**Formative coursework:** All students are expected to write one formative essay, or similar piece of work, and make one formative presentation that will not be used in the final assessment.

**Indicative reading:** Combes, Pierre-Philippe, Thierry Mayer and Jacques-François Thisse, Economic Geography: The Integration of Countries into the World Economy.

**Assessment:** Essay (35%, 2500 words) in the MT. Essay (35%, 2500 words) in the LT. Presentation (30%) in the MT and LT.

---

**EH309** Not available in 2017/18

**Slavery from Ancient Greece to the Gulag**

**This information is for the 2017/18 session.**

**Teacher responsible:** Professor Oliver Volckart

**Availability:** This course is available on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Pre-requisites:** None

**Course content:** The course surveys slave labour-employing economies from a long-term and global perspective on the basis of the research literature and of primary source material. It covers the period from the fifth century BCE to the second half of the twentieth century and not only Ancient and Christian Europe but also the Islamic world and the Americas. Slavery in Classical Greece and in the Roman Empire will be discussed just as well as the employment of military slaves in the medieval and early modern Muslim empires. Further core topics are the early modern Atlantic slave trade, black slavery in the American South, the formal abolition of slavery and the use of slave or quasi slave labour in the totalitarian dictatorships of the twentieth century.

The course raises fundamental questions first about the nature of work in different historical periods, societies and economic systems, and second about the criteria that allow distinguishing economic systems. What was a slave? How did the work of a slave differ from that of a free person? Was slavery always inefficient? To what extent was it compatible with ‘feudalism’, a free market economy, or capitalism, and did it hold back technological progress and economic growth? One of the core hypotheses is that a clear-cut distinction between slavery and freedom is historically and geographically an exception: In most periods and cultures, there was a fluid transition, with labour being not either enslaved or free, but rather more or less free. The course will address the question of what this implies for the analysis of historical labour markets and their outcomes as reflected, for example in factor prices.

**Teaching:** 2 hours of lectures and 18 hours of seminars in the MT. 20 hours of seminars in the LT.

Following an introductory lecture in week 1 of the Michaelmas Term, the course will be taught over 19 two-hour seminars.

**Formative coursework:** Students will be expected to produce 1 presentation in the MT.

**Assessment:** Essay (75%, 5000 words) and presentation (25%) in the LT.

At the end of week 6 of the Lent Term, students submit a summative 5000-word essay that concerns one of the seminar questions; their mark on this counts 75 per cent toward their final mark. Their Lent Term presentation will be assessed, too; it counts for altogether 25 per cent.

---

**EH325** Not available in 2017/18

**Issues in Modern Japanese Economic Development: Late Industrialisation, Imperialism and High Speed Growth**

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Janet Hunter SAR 5.17

**Availability:** This course is available on the BSc in Economic History, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.

**Course content:** The course combines an examination of selected major themes and historiographical issues in modern Japanese development with a focus on particular empirical aspects of Japanese economic history since the mid-19th century. Topics will include pre-industrial growth and its legacy, economic growth before the Second World War, formal and informal empire, the Pacific War and the Occupation of Japan, trade and interaction with the international economy, consumption and living standards; gender in the modern Japanese economy; institutions and organisations.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST. 20 weekly two-hour seminars in MT and LT. One 2-hour seminar in ST.

(There will be a Reading Week in the 6th week of MT and LT.) Students are expected to do prior reading and preparation, to participate in group discussion and to make presentations.

**Formative coursework:** students will be expected to write two essays of no more than 2,500 words.

**Assessment:** Exam (70%, duration: 2 hours) in the main exam period.

Essay (30%, 3500 words) in the LT.

---

**EH326**

**Innovation and its Finance in the 19th and 20th Centuries**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Gerben Bakker SAR 5.09

**Availability:** This course is available on the BSc in Economic History, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students taking the course as an outside option must have completed at least one other economic history course.
Course content: The course explores the relationship between innovation and the financing of it in the nineteenth and twentieth centuries, the impact on economic growth and how policy makers managed (or failed) to encourage innovation investment and technology adoption. Technological change and organizational innovation are critical determinants of the pace of economic growth. This course looks at the specific ways in which innovation transformed industries around the world in the modern era. The course has a global reach though it will concentrate on countries in Northern Europe and the United States. Particular attention focuses on links between innovation and finance: finance is a fundamental input for almost every type of productive activity. The course will explore issues such as, the relationship between market size and structure and technological progress; how firms developed the capabilities to profit from new technologies; and how policy makers attempted to nurture institutions to stimulate investment and technology adoption. The course will therefore cover themes such as the process of invention, innovation typologies, the history of R&D management, anti-trust policy, corporate governance, organisational change, incentives, intellectual property rights and the regulation of technology and its finance more broadly.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: All students are expected to write three essays or equivalent pieces of written work

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

---

EH327 Not available in 2017/18 

China's Traditional Economy and its Growth in the Very Long-Term

This information is for the 2017/18 session.

Teacher responsible: Prof Kent Deng SAR 6.05

Availability: This course is available on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is not available as an outside option nor to General Course students.

Course content: The course explores the main aspects China’s economic growth in the very long term from c.1000 AD to 1800, It begins with a survey of general models/themes in Chinese economic history, followed by particular issues: the formation, expansion and the function of the Chinese empire; Confucian values and state economic policies; property rights; peasantry and the peasant economy; proto-industrialisation; commerce and trade; science and technology; demographic fluctuations; living standards; external shocks and foreign influence; internal rebellions and revolutions; reforms and modernisation.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures and 1 hour of seminars in the ST.

Students are expected to do prior reading and to make presentations on a regular basis.

There will be a reading week in Week 6 of MT and LT

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

---

EH390 Dissertation in Economic or Social History

This information is for the 2017/18 session.

Teacher responsible: Dr Peter Sims, SAR 6.15

Availability: This course is compulsory on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is available on the BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.

Course content: The subject of the dissertation should relate broadly to one of the economic history courses that have been chosen. The compulsory seminars cover the formulation of the thesis question, primary and secondary sources; analysis of evidence, and structuring and writing up the thesis. There will be no seminars in Week 6 of MT and LT, due to Reading Week.

Assessment: Dissertation (100%, 10000 words) in the LT. The dissertation must not exceed 10,000 words in length. After being marked, the dissertation will not be returned to the candidate. The title of the dissertation should be approved by the candidate’s supervisor early in MT and a title form signed by the supervisor must be submitted to the course organiser by mid-October.

---

FM100 Half Unit

Introduction to Finance

This information is for the 2017/18 session.

Teacher responsible: Prof Daniel Ferreira

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Course content: This course will provide a non-technical introduction to Finance and an overview of the Finance discipline. The aim of the course is to explain the importance of finance to individuals, firms, and society in general. Topics will include discounting and present value, risk and return, financial markets and trading, mutual and hedge funds, banks and other financial intermediaries, financial securities, capital structure, venture capital
FM101  Half Unit  
Finance  
This information is for the 2017/18 session.  
Teacher responsible: Dr Elisabetta Bertero OLD.M.2.13  
Availability: This course is compulsory on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.  
Pre-requisites: None  
Course content: This course includes an introduction to the financial decisions of firms, in particular capital budgeting; the financial decisions of households; the role of the financial system in the economy and the flow of funds; causes and consequences of the recent financial crises.  
Teaching: 10 hours of lectures and 9 hours of classes in the LT. 1 hour of lectures in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.  
Formative coursework: Classwork exercises will be set each week.  
Indicative reading: The main readings for this course are selected chapters from two textbooks combined in a customized textbook, Finance (2012), prepared specifically for this course by Dr E. Bertero. The book is available from the Economist's Bookshop on campus. The textbooks it draws from are: Hillier et al (2011) Fundamentals of Corporate Finance, European Edition, McGraw-Hill. Cecchetti et al (2011) Money, banking and financial markets, McGraw-Hill. Note that the original Hillier book contains a few typos which you can correct by downloading the sheet from Moodle. A few additional readings will be discussed during the lectures and posted on Moodle for downloading. See references in relevant lectures' handouts.  
Assessment: Exam (100%, duration: 2 hours) in the main exam period.  

FM200  Half Unit  
Financial Systems and Crises  
This information is for the 2017/18 session.  
Teacher responsible: Dr Jean-Pierre Ziggrand  
Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.  
Course content: This course will cover the historical development of financial markets and institutions. The topics include the historical evolution of forms of banking and of banking regulation, the evolution of financial exchanges and their regulation, financial crises, and the role of finance in long-run economic development.  
Teaching: 33 hours of seminars in the MT. This course will be taught in an interactive teaching format.  
Formative coursework: Students will be expected to produce 10 problem sets in the MT. The formative coursework will also include class participation.  

FM201  Half Unit  
Macro-Finance  
This information is for the 2017/18 session.  
Teacher responsible: Dr Paula Lopes  
Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.  
Pre-requisites: Students must have completed Economics A (EC100) or Economics B (EC102).  
Course content: This course will study the relationship between financial markets and the macro-economy. Topics include the behaviour of returns of different asset classes over the business cycle, the relationship between returns and inflation, and the implications for expected returns and portfolio choice.  
Teaching: 33 hours of seminars in the LT. This course will be taught in an interactive teaching format.  
Formative coursework: Feedback will be given on homework assignments.  
Indicative reading: Detailed course programme and reading lists are distributed at the start of the course. Illustrative texts include: Blanchard, Macroeconomics, 7th ed. and Mankiw, Macroeconomics, 9th ed.  
Assessment: Exam (60%, duration: 2 hours) in the main exam period.  
Coursework (40%) in the LT. The coursework will consist of homework and in class assignments throughout the LT.  

FM212  Principles of Finance  
This information is for the 2017/18 session.  
Teacher responsible: Prof Richard Payne and Dr Hongda Zhong  
Availability: This course is compulsory on the BSc in Accounting and Finance, BSc in Finance, BSc in Financial Mathematics and Statistics, BSc in Statistics with Finance and Diploma in Accounting and Finance. This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students. (Permission forms from General Course admin office should be submitted to the Department of Finance Student Information Centre OLD.2.04 with a copy of the transcript attached.)  
Pre-requisites: Students must have completed: one level 1 Economics course (either EC100 Economics A or EC102 Economics B), one level 1 Mathematics course and one level 1 Statistics course.  
Course content: The course examines the theory of financial decision-making by firms and examines the behaviour of the capital markets in which these decisions are taken. The topics covered are the theory of capital budgeting under certainty in perfect and imperfect capital markets, portfolio theory, equity and bond markets, the capital asset pricing model, efficient markets, derivative pricing, sources of funds, basic theory of capital structure and the cost of capital, company dividend decisions and financial markets and institutions.  
Teaching: 20 hours of lectures and 20 hours of classes in the MT.
corporate finance (FM212 or equivalent course).

Course content: This course is intended for third-year undergraduates and will be a broad-based follow-up to FM212 Principles of Finance. The goal is to broaden, and selectively deepen, students' understanding of finance, building on their existing knowledge of financial economics. The course will cover a broad range of topics, with both a theoretical and an empirical emphasis. These include topics in corporate finance, investments and performance evaluation and international finance. The course consists of two interchangeable ten-week components, one on investments and international finance, and the other on corporate finance.

The first component provides students with a way of thinking about investment decisions by examining the empirical behaviour of security prices. We first study the empirical evidence of the CAPM and other asset pricing models, and then analyse different tests of market efficiency focusing on event studies and investment anomalies. We also study the main empirical findings in behavioural finance. We then learn how to measure the performance of a portfolio manager and to attribute it to different types of skill. Finally, this section of the course introduces the foundations of international finance and explores issues related to international portfolio management.

The second component of the course examines theory and evidence concerning major corporate financial policy decisions. We focus particularly on the firm's decision to finance with debt vs. equity. We will start with the famous Modigliani and Miller proposition and will then analyse the impact of taxes, financial distress, agency frictions, and asymmetric information concerning major corporate financial policy decisions. It will focus particularly on the firm's decision to finance with debt vs. equity, the impact of taxes on such decisions, and the role of dividends. We will begin with the Modigliani and Miller proposition and discuss the firm's choice to raise capital using debt versus equity and the firm's choice to payout earnings using dividends versus repurchases. We will analyze the impact of taxes, financial distress, and asymmetric information on such decisions. We will also cover optimal managerial compensation, take on the role of the policy maker to learn about corporate governance mechanisms and discuss some recent corporate scandals. Finally, we will review empirical evidence from a wide range of international sources to support or refute the theories we discussed.

Teaching: 20 hours of lectures and 10 hours of classes in the MT.

Formative coursework: Students will be expected to produce 10 problem sets in the MT.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: Bodie, Kane & Marcus, Investments (Irwin) and Grinblatt & Titman, Financial Markets and Corporate Strategy (Irwin, McGraw-Hill).

Assessment: Exam (100%, duration: 1 hour and 30 minutes) in the main exam period.

---

FM302

Half Unit

Theories of Corporate Finance

This information is for the 2017/18 session.

Teacher responsible: Dr Michela Verardo

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed FM212 Principles of Finance.

Course content: This course examines theory and evidence concerning major corporate financial policy decisions. It will focus particularly on the firm's decision to finance with debt vs. equity, the impact of taxes on such decisions, and the role of dividends. We will begin with the Modigliani and Miller proposition and discuss the firm's choice to raise capital using debt versus equity and the firm's choice to payout earnings using dividends versus repurchases. We will analyze the impact of taxes, financial distress, and asymmetric information on such decisions. We will also cover optimal managerial compensation, take on the role of the policy maker to learn about corporate governance mechanisms and discuss some recent corporate scandals. Finally, we will review empirical evidence from a wide range of international sources to support or refute the theories we discussed.

Teaching: 20 hours of lectures and 10 hours of lectures in the LT.

Formative coursework: Students will be expected to produce 10 problem sets in the LT.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: Bodie, Kane & Marcus, Investments (Irwin) and Grinblatt & Titman, Financial Markets and Corporate Strategy (Irwin, McGraw-Hill).

Assessment: Exam (100%, duration: 1 hour and 30 minutes) in the main exam period.
Pre-requisites: Students must have completed Principles of Finance (FM212).

Course content: This course will illustrate and extend the topics covered in "Principles of Corporate Finance" with a range of case studies. The course focuses on core concepts in corporate finance, that can be divided into two main topics. The first topic is capital structure. It covers issues such as how do firms choose how much debt and equity to keep in their balance sheets and the process of issuing them. The second topic are corporate deals that re-shape the financial structure of a company such as mergers and acquisitions, divestitures, initial public offerings or debt restructuring. The teaching of both topics will be covered using a combination of lectures and case studies with a very applied approach.

Teaching: 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 10 problem sets in the LT.

Indicative reading: A course pack will be distributed that includes case studies as well as additional readings such as textbook chapters, and practitioner articles.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

---

**FM304** Half Unit  Not available in 2017/18

**Applied Corporate Finance**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Vicente Cunat

**Availability:** This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students must have completed Principles of Finance (FM212).

**Course content:** This course will cover the modern theories of asset valuation. Topics include the principle of no-arbitrage, martingales and state prices, valuation by arbitrage, option pricing and risk-neutral valuation, factor models and the arbitrage pricing theory, equilibrium pricing and capital asset pricing models, bond pricing and the term structure of interest rates.

**Teaching:** 20 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 10 problem sets in the LT.

**Indicative reading:** “Asset Pricing” by Cochrane.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**FM305** Half Unit  Not available in 2017/18

**Advanced Asset Markets**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Ian Martin

**Availability:** This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students must have completed Principles of Finance (FM212), Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

**Course content:** Introduction to Econometrics, Principles of Econometrics or other statistics courses where at least linear regression models are covered are recommended but not required. Students who have not taken Principles of Finance, but have an excellent quantitative background, may be allowed to take this course at the discretion of the course leader.

**Assessment:** This course is intended for third-year undergraduates and builds upon FM212 Principles of Finance. The main topics covered are financial risk analysis and financial risk management (first part of the course) and derivatives pricing (second part). As such, this course is complementary to FM300 Corporate Finance, Investments and Financial Markets, with minimal overlap.

The first part of the course provides students with a thorough understanding of market risk from both a practical and technical point of view. We discuss the empirical properties of market prices (fat tails, volatility clusters, etc.), forecasting of prices, concepts of financial risk (volatility, Value-at-Risk, etc.), volatility models (ARCH, GARCH, etc.), and we analyse how interactions and feedback between market players can generate endogenous risk and liquidity crises. Finally, we discuss credit markets and liquidity, with applications to the current situation in financial markets. This part of the course presents methods and models used by banks and other financial institutions in the management of risk and allocation of risk capital, as well as models of financial crises. Students apply the models to real financial data using Matlab, a computer software popular in both industry and academia. No prior knowledge of programming is assumed: students will learn-by-doing in class. Students will at times use data and software for classwork assignments.

The second part of the course focuses on derivatives, with a particular emphasis on equity derivatives (standard call and put options, exotic options), futures and forward contracts, and interest rate derivatives (swaps, caps and floors, swaptions). We systematically address three basic questions: how do these products work, i.e. what are their payoffs? How can they be used, for hedging purposes or as part of trading strategies? And above all: how are they priced? The course emphasizes a small number of powerful ideas: absence of arbitrage, replication, and risk-neutral pricing. These are typically introduced in the context of discrete-time models, but the course also covers some well-known continuous-time models, starting with a comprehensive treatment of the Black-Scholes model. The level of mathematics appropriate for third-year students with a solid quantitative background. Continuous-time stochastic processes and stochastic calculus will be introduced as we go.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT.

**Formative coursework:** Students will be expected to produce written work for classes and to make positive contributions to class discussion.

**Indicative reading:** J Danielsson, Financial Risk Forecasting: The Theory and Practice of Forecasting Market Risk will be the required textbook for the first half of the course. For the second half of the course, there is no required textbook, but the following is an excellent reference: J Hull, Options, Futures, and Other Derivatives.

**Assessment:** Exam (87.5%, duration: 3 hours) in the main exam period.

Project (10%) and coursework (2.5%) in the MT.

---

**FM320**

**Quantitative Finance**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Jon Danielsson and Dr Rohit Rahi

**Availability:** This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Mathematics and Economics, BSc in Statistics with Finance and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students must have completed Principles of Finance (FM212), Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

---

**FM321** Half Unit  Not available in 2017/18

**Risk Management and Modelling**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Jon Danielsson

**Availability:** This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students must have completed Principles of
Finance (FM212), Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

**Course content:** This course will develop the fundamental concepts of risk management, such as value at risk, drawdowns, portfolio insurance, hedging, and risk measurement. Students will become familiarised with these tools through an extensive set of computer (Matlab) exercises.

**Teaching:** 20 hours of lectures and 10 hours of lectures in the MT.

**Formative coursework:** Students will be expected to produce 10 problem sets in the MT.

**Indicative reading:** J Danielsson, Financial Risk Forecasting: The Theory and Practice of Forecasting Market Risk

**Assessment:** Exam (100%, duration: 1 hour and 30 minutes) in the main exam period.

---

**FM322 Half Unit** Not available in 2017/18

**Derivatives**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Rohit Rahi

**Availability:** This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students must have completed Principles of Finance (FM212), Mathematical Methods (MA100) and Elementary Statistical Theory (ST102)

**Course content:** This course will build on “Principles of Financial Markets” to study the theoretical foundations of financial derivatives on a variety of underlying assets including bonds, stocks, commodities, and currencies.

**Teaching:** 20 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 10 problem sets in the LT.

**Indicative reading:** J Hull, "Options, Futures, and Other Derivatives"

**Assessment:** Exam (100%, duration: 1 hour and 30 minutes) in the main exam period.

---

**GI200 Not available in 2017/18**

**Gender, Politics and Civil Society**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Mary Evans COL 5.04J

**Availability:** This course is available to all second and third year undergraduates who are permitted to take an outside option as part of their programme. This course is available to General Course students.

**Course content:**

**Term One**

An introduction to the history of the Women’s Library; issues of inclusion and exclusion in the holdings.

The making of the categories of ‘male’ and ‘female’, ‘masculinity’ and ‘femininity’, the ways in which ideas about these identities were formed by moral discourses; the emergence of cults of domesticity and family life.

The campaigns and the circumstances that changed ideas about gender and the making of the gendered citizen. The part that ideas, and ideals, about citizenship and the nation were informed by expectations about gender.

**Term Two**

The making of the British Empire: the negotiation and the transformation of gender in a globalising world; ‘settling’ the Empire and defining the boundaries of citizenship.

Politicising gender: the ways in which gender difference became a matter of politics and access to power. Fighting for, and against, transformations of gender roles and identities. The British campaign for suffrage and its connections with distinct traditions of social reform.

Representing gender: accounts, visual and written, of women and men; changing views about the body and sexuality. Sexuality and religion, the expression of symbolic power

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 1 presentation and 1 other piece of coursework in the MT.

**Assessment:** Dissertation (100%, 10000 words) in the ST.

---

**GV100 Introduction to Political Theory**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Chandran Kukathas and Prof Katrin Flikschuh

**Availability:** This course is compulsory on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available on the BSc in Environment and Development, BSc in Environmental Policy, BSc in International Relations and BSc in Social Policy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** An introduction to the study of politics and political theory through the thought and texts of some of the most important western political theorists. A study of the ideas of some of the major political theorists from the ancient Greeks to the 20th Century. Topics will include theories of human nature, the origin of government and law, man’s relation to society and the state, the rise, development and comparison of different constitutions (democracy, monarchy, republic etc), the nature of just and unjust in thinkers, classical and modern natural law and natural rights, the basis of political obligation, the idea of social contract and the theory of utility. The thinkers discussed this year will include Plato, Aristotle, Augustine, Machiavelli, Nietzsche, Hobbes, Locke, Rousseau, J S Mill, and Marx.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in Week 6 of both terms. The lecture in ST1 will be a revision lecture and the class in ST1 will be a revision class.

**Formative coursework:** Students are required to write two 1500 word essays in the Michaelmas Term and two 1500 word essays in the Lent Term. Specific reading lists referring to modern commentaries and historical contexts will be available on the Moodle page at the beginning of the course.

**Indicative reading:** D. Bouchard and P. Kelly, Political Thinkers: From Socrates to the Present (Oxford 2009); Plato, Republic; Aristotle, Politics; Cicero, The Republic and On Duties; Augustine, City of God; Aquinas, Political Writings; Machiavelli, The Prince; Hobbes, Leviathan; Locke, 2nd Treatise of Government; Rousseau, Discourse on the Origins of Inequality and The Social Contract; J S Mill, Utilitarianism, The Subjection of Women, and On Liberty; Marx, Selected Writings (Ed D McLellan); Nietzsche, Genealogy of Morals.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be
calculated as follows: 15% class participation, 80% formative coursework (each formative essay counts for 20% of the mark) and 5% attendance.

GV101
Introduction to Political Science

This information is for the 2017/18 session.
Teacher responsible: Prof Simon Hix
Availability: This course is compulsory on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available on the BSc in Social Policy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: The course is an introduction to politics in a globalised world, with a focus on how political science tries to understand and explain cross-country and cross-time differences. The course will begin by introducing students to some of the main empirical variations in political behaviour, political institutions, and outcomes across the world, focusing mainly on democratic and partially democratic countries (in both the developed and developing world), and introducing students to some of the basic theoretical ideas and research methods in political science. Each subsequent week will be devoted to a substantive topic, where a more detailed analysis of political behaviour, political institutions, or political outcomes will be presented and various theoretical explanations will be assessed. Most weeks will involve an interactive element. For example, students will be required to 'adopt a country', from the range of democratic or partially democratic countries across the world (which cannot be a student's home country). The aim is for a student to become an expert on the political behaviour, institutions and outcomes in his or her adopted country, particularly to provide material and knowledge for class discussions.
Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. There will be reading week in Week 6 of both terms.
Formative coursework: Formative Assessment:
• Problem set (MT)
• Essay (MT)
• Moodle entries on adopted country task (most/every week/s)
Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Essay (50%, 2000 words).
GV225
Public Choice and Politics

This information is for the 2017/18 session.
Teacher responsible: Dr Valentiono Larchenee
Professor David Soskice
Availability: This course is compulsory on the BSc in Government and Economics. This course is available on the BSc in Government, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Pre-requisites: Students will normally be expected to have taken GV101 Introduction to the Study of Politics, or equivalent, in a previous year. An introductory knowledge of economics would be useful.
Course content: This course is concerned with positive political economy and public choice theory applied to the study of political conflicts, democratic institutions and public policy. The course covers the main tools for the study of public choice (rational decision-making theory, game theory, social choice theory) and a number of both theoretical and applied topics, including the empirical study of institutions. This course will cover the main topics in positive political economy and institutional public choice. These include: the aggregation of preferences; voting paradoxes and cycles; electoral competition and voting behaviour; the problems of and solutions to collective action; welfare state and redistribution; the impact of information and mass media on voting behaviour and public policy; the theory of coalitions, the behaviour of committees and legislatures including agenda-setting and veto-player power; principal-agent problems in politics; models of bureaucracies.
Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST. There will be reading week in Week 6 of both terms.
Formative coursework: Students will complete at least one formative essay and at least one timed essay in each term to allow practice on problem sets and essay writing under exam conditions.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.
GENERAL COURSE STUDENTS ONLY: The Class Summary Grade for General Course students will be calculated as follows: 25% formative essay (best mark), 25% timed essay (best mark), 50% class participation (including presentations and attendance).

GV227
The Politics of Economic Policy

This information is for the 2017/18 session.
Teacher responsible: Professor Mark Thatcher CON 4.17
Availability: This course is available on the BSc in Economics, BSc in Environmental Policy with Economics, BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Relations, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is only available to General Course students.
Pre-requisites: Students will normally be expected to have taken GV101 Introduction to Political Science or equivalent, in a previous year. An introductory knowledge of economics would be useful.
Course content: The aim of this course is to look at political science explanations of changes in public policy, and to apply that literature to major cases of economic policy (both contemporary and historical). In particular, it aims to examine the extent to which economic policy change is affected by ideas, interests and
institutions, and the interaction between international and national factors. The material for the course is drawn mainly from the comparative literature on the politics of markets in industrialised countries.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 6 hours of lectures, 10 hours of classes and 4 hours of workshops in the LT. 1 hour of classes in the ST.

**Availability:** The Class Summary Grade for General Course students will be calculated as follows: 70% formative coursework, 20% class participation (including attendance and contribution).

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

**GENERAL COURSE STUDENTS ONLY:** The Class Summary Grade for General Course students will be calculated as follows: 70% formative coursework, 20% class presentation, 10% class participation (including attendance and contribution).

---

**GV245 Democracy and Democratisation**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Francesco Panizza

**Additional teaching:** Professor Sebastian Balfour, Professor Sumanta Bose, Dr John Chalcraft, Dr Vesselin Dimitrov, Professor John Sidel.

**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Relations, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students must have completed a suitable course in Anthropology, Sociology, Political Science, International Relations or History. Government students should have completed GV101 Introduction to Political Science.

**Course content:** This course considers debates concerning the increasing importance of nationalism and ethnic identity in modern history, their impact on political movements, states and international relations.

There are three principal concerns:
1. Theories of nationalism and ethnicity, including primordialist, ethno-symbolic, modernist and post-modernist approaches. These will be compared and critiqued.
2. The development of various kinds of nations, nation-states and nationalisms from pre-modern Europe to the global present, and a consideration of various concepts (e.g. civic/ethnic, political/cultural, Asian and African forms of nationalism) frequently used to understand as well as evaluate these historical and contemporary phenomena.
3. Nationalism and transnational politics, including problems of state sovereignty, secession and national self-determination; the European union, globalisation and religious fundamentalism.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Lectures will run from Weeks 1-5 and 7-11 in MT and LT. Classes will run from Weeks 2-5 and 7-11 in MT and Weeks 1-5 and 7-11 in LT.

**Formative coursework:** Two formative essays per term, one of which is a timed-essay set in exam-like conditions.

GV248
Power and Politics in the Modern World: Comparative Perspectives

This information is for the 2017/18 session.

Teacher responsible: Dr David Woodruff

Other members of Government Department staff will also teach on the course.

Availability: This course is available for all students.

Course content: This course will acquaint students with the contemporary study of comparative politics, focusing on theories susceptible to empirical testing with narrative historical evidence. Students will learn to address the methodological challenges of developing and testing such theories. The course will treat a wide variety of themes, including ethnic and political violence, the political impact of natural resources in developing countries, social movements and revolution, the political economy of distribution, and political ideologies. With respect to each theme, students will receive a grounding in theories of the topic and the sampling of application to empirical cases drawn from throughout the developed, developing, and post-Communist world.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Classes will run from Weeks 2-5 and 7-11 in MT and Weeks 1-5 and 7-11 in LT. There will be a reading week in Week 6 of both terms.

The Week 11 lecture in LT will be a revision lecture and there will be one revision class per group in Week 1 of ST.

Formative coursework: Students will be expected to produce 2 essays in the MT and 2 essays in the LT.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

GV249
Research Design in Political Science

This information is for the 2017/18 session.

Teacher responsible: Dr Thomas Leeper

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course will introduce students to the fundamentals of research design in political science. The course will cover a range of topics, starting from the formulation of research topics and research questions, the development of theory and empirically testable hypotheses, the design of data collection activities, and basic qualitative and quantitative data analysis techniques. The course will address a variety of approaches to empirical political science research including experimental and quasi-experimental designs, large-n survey research, small-n case selection, and comparative/historical comparisons. As a result, topics covered in the course will be varied and span all areas of political science including political behaviour, institutions, comparative politics, international relations, and public administration.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a Week 6 reading week in both terms.

Formative coursework: Students will be expected to produce 8 problem sets in the MT and LT. Approximately every other week throughout the course, students will complete a short “problem set” that allows them to apply material from the course to concrete political science examples (e.g., identifying design elements of a published research paper, proposing strategies for answering a given research question, etc.).

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 3000 words).
GV251
Government, Politics and Public Policy in the European Union
This information is for the 2017/18 session.

**Teacher responsible:** Dr Eiko Thielemann

**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Relations, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Introduction to Political Science (GV101).

**Course content:** The course is divided into two parts; (i) Government and Politics: the EU as a political system, the Council, the Commission and the Parliament in the policy process, Court of Justice and Judicial politics, public opinion and EP elections, parties and Europe, interest representation; (ii) Public Policy: the policy-making process, policy implementation, the single market, social and environmental policies, budgetary policies, EMU, migration policies, external relations policies.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in week 6 of the MT and LT for feedback and advice sessions and assessment preparation.

**Formative coursework:** Two essays per term; students’ preparedness for the examinations will depend on this written work and on private reading.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

**GENERAL COURSE STUDENTS ONLY:**

The Class Summmary Grade for General Course students will be calculated as follows: 15% class participation, 80% formative coursework (each formative essay counts for 20%) and 5% attendance.

---

GV262
Contemporary Political Theory
This information is for the 2017/18 session.

**Teacher responsible:** Mr David Axelien

**Availability:** This course is available on the BSc in Environmental Policy with Economics, BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Relations, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** GV101 Introduction to Political Science (or equivalent)

**Course content:** This course provides an advanced introduction to contemporary political theory. The course is divided into two parts. The first focuses on key political concepts, such as liberty, equality, justice, rights, authority and democracy. The second turns to particularly pressing ethical questions characterizing the political domain. Some of these questions arise within the domestic political arena (e.g., civil disobedience; animal rights; respect for minority cultures), others in the international/global one (e.g., global poverty relief; terrorism; global climate change). Although the course will be concept and problem-driven, along the way, students will also be exposed to the views of leading contemporary political theorists, including John Rawls, Robert Nozick, Ronald Dworkin and many others. This course will provide students with a good grounding in the methods and substantive concerns of contemporary political theory as well as familiarity with the works of major thinkers in the field.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be reading weeks in MT Week 6 and LT Week 6.

**Formative coursework:** Students will be expected to submit at least two formative essays per term, one of which will be a timed-essay conducted under exam-like conditions. The course requires ability to organize workload/do readings in advance/prepare for seminars. The course will present students with normative/ethical dilemmas they will need to tackle, and will enhance their analytical skills. As a course in political theory, verbal and written communication will be very much emphasized throughout.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

GV263
Public Policy Analysis
This information is for the 2017/18 session.

**Teacher responsible:** Prof Edward Page CON3.05

**Availability:** This course is available on the BSc in Environmental Policy with Economics, BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** GV101 Introduction to Political Science (or equivalent)

**Course content:** A systematic examination of the policy process in the context of developed nations. This course introduces key theories and models in the study of public policy and encourages a critical appreciation of the main trends in contemporary public policy-making. The course looks at the different stages of the ‘policy cycle’ (e.g. agenda-setting, implementation and evaluation), the determinants of public policy (for example, public opinion, political parties, technology) as well as central themes in the study and practice of public policy, such as corruption and risk management.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be reading weeks in Week 6 and Week 17.

GV264
Politics and Institutions in Europe

This information is for the 2017/18 session.

Teacher responsible: Prof Michael Bruter CON 4.06
Prof Simon Hix, Dr Vesselin Dimitrov, Dr Eiko Thielemann, Dr Julian Hoerner

Availability: This course is available on the BSc in Environmental Policy with Economics, BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Relations, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Introduction to Political Science (GV101).

Course content: The course aims to give students an understanding of the full range of leading topics and areas of debate and research relevant to the analysis of political institutions and politics in Europe. The course focuses on both traditional fields of comparative enquiry, such as the study of party competition and voting behaviour, and emerging fields of interest, such as national and European identities, immigration and Europeanisation. The course places particular emphasis on the diverse experiences of liberal democracy in different parts of Europe. The course covers not only long-established democracies in Western Europe, but also the relatively new democracies in Central and Eastern Europe. In the Lent Term, the course will study in depth a number of European countries, such as Britain, France, Germany and Italy, analysing the main developments in the country concerned in the last twenty years (elections, parties, governments), and then examining issues of particular interest related to that country. Course topics include: electoral behaviour; parties and party systems; government formation and coalitions; regionalism and federalism; national and European identities; immigration; and the challenge of Europeanisation.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. There will be reading weeks in Week 6 of the MT and Week 6 of the LT for private study and essay and assessment preparation.

Formative coursework: Students will be expected to produce 2 essays in the MT and 2 essays in the LT.

Indicative reading:

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

GV302
Key Themes in the History of Political Thought

This information is for the 2017/18 session.

Teacher responsible: Lucia Rubinelli

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

This course is capped at two groups. The deadline for enrolments is 12 noon on Friday 29 September 2017.

Pre-requisites: Students will normally be expected to have taken Introduction to Political Theory or equivalent, in a previous year.

Course content: A thematic study of political thought in Ancient, Medieval/Renaissance and Modern periods. This advanced course treats some of the major themes in the history of western European political thought as drawn from the writings of selected political philosophers of the ancient Greek, Roman, Medieval, renaissance, early modern and modern periods. The aim is to demonstrate, and explain, some of the continuities and discontinuities in ethical and political problems and their solutions over time and changing context. Examples of such themes: different views on the nature of “man” and the consequences for political agency of different perspectives on human reason, will, desire; debates on the origins of law and the purpose of legislation; changing conceptions of justice; different views on government and the state’s relation to the individual; on the sources of public authority and the nature of legitimate sovereignty; on the relation of property ownership to personal identity and to participation in collective governance; the historical and socio-political presuppositions behind the different constitutional regimes: democracy, monarchy, republic etc; on the role of religion in politics; the changing perspectives on the relationship between life in the family and a life of active citizenship; theories of natural law and natural rights; social contract theories; idealist political theory; utilitarianism; nationalism; liberal, conservative and socialist traditions of thought; anarchism and feminism. The themes, thinkers and primary texts will be selected each year to reflect the current debates in contemporary scholarly literature on them and the research interests of the lecturer. This year, we will focus on understandings and implications of the principle of popular power in Hobbes, Rousseau, thinkers of the French Revolution, Carl Schmitt.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST. There will be a reading week in week 6 of the MT and week 6 of the LT for private study and formative/summative assessment preparation.

Formative coursework: Two formative essays per term, one of which is a timed-essay set in exam-like conditions.

Indicative reading: Primary Sources: A selection of the following (this list should not be taken as exhaustive): Plato, Republic; Aristotle, Politics; Machiavelli, Discourses; Hobbes, Leviathan, Locke, Second Treatise on Civil Government, Rousseau, On The Social Contract, Hume, Political Writings, Kant, Political Writings, Hegel, The Philosophy of Right, Marx, The German Ideology, Sieyes,
GV306  Half Unit  Global Public Policy

This information is for the 2017/18 session.

Teacher responsible: Dr Mathias Koenig-Archibugi

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course is capped at 1 group. The deadline for enrolments is 12:00 noon, Friday 29 September, 2017.

Pre-requisites: N/A

Course content: The course examines the process and outcomes of policy-making at the global level. It considers a range of modes of policy-making, from classic intergovernmental cooperation to novel forms of governance beyond the state such as transgovernmental networks, multistakeholder initiatives, and regulation by non-state actors. The lectures provide an analytical toolbox and cover the following topics: (1) What is the meaning of “global”, “public”, and “policy”? Does global public policy really exist? (2) What types of actors participate in global public policy? (3) Who sets the global policy agenda and how? (4) What types of governance institutions exist? (5) How are governance institutions created or chosen, and what are the implications of their plurality and interplay? (6) What types of global public policies exist? (7) Who decides the content of global public policies and how? (8) How do global public policies implemented? (9) When can global public policy solve global problems? (10) When does global public policy have democratic legitimacy? The seminars apply the analytical tools provided in the lectures and readings to case studies, to be explored through teamwork. Students can choose an area of specialization from a range of global policy problems. Examples of relevant global policy problems include the surveillance and eradication of infectious diseases; access to essential medicines; tobacco control; food safety; labour standards; child labour and education; deforestation; protection of environmental commons; illicit financial flows; internet regulation; arms control; and other topics that may change from year to year.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 11 hours of lectures and 1 hour and 30 minutes of seminars in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Exam (50%, duration: 2 hours) in the main exam period. Essay (50%, 3000 words) in the LT.
GV308  Half Unit  Not available in 2017/18 Leadership in the Political World

This information is for the 2017/18 session.

Teacher responsible: Prof Torun Dewan

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy.

This course is not available as an outside option nor to General Course students.

This course is capped at one group. Deadline for enrolments is 12 noon Friday 30th September.

Pre-requisites: Students must have completed Public Choice and Politics (GV225).

Course content: Good leadership is central toward having effective organisations, well functioning institutions, and attaining desirable policy outcomes. But what is good leadership? What is successful leadership? Can we distinguish outcomes as causally related to the actions taken by good and successful leaders? And how important is a leader’s style? The course will look at both theoretical and empirical frameworks for analysing these questions developing in particular rational choice accounts of leadership. Different notions of leadership will be discussed including: (1) Leading by Example; (2) The Leader as a Focal Point and (3) The Leader as an information source. These will be illustrated by specific examples.

Teaching: 22 hours of seminars in the LT.

There will be a reading week in week 6 of the LT for private study and assessment preparation.

Formative coursework: Students will be expected to produce 1 presentation in the LT. 

Assessment: Essay (75%, 5000 words) and in class assessment (25%).

In preparation for each class, students will read one or two core texts on political leadership and write a one page piece that reflecting upon these readings. This will then be used as a basis for class discussion. This will be marked as follows: completion and quality of the weekly statements (10%) and in class participation (10%). Each student will also be asked to produce a brief outline and 5 min presentation on the final essay (5%)
Formative coursework: Students will be required to submit 2 unassessed essays in both the Michaelmas and Lent Terms.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

GV312 Not available in 2017/18 Advanced Topics in Government: Executive Politics

This information is for the 2017/18 session.

Teacher responsible: Prof Martin Lodge

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy.

This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

This course is capped at one group. The deadline for receipt of applications is Friday, 2 October 2015.

Pre-requisites: GV101 or GV100 or equivalent

Course content: This course offers an advanced consideration of select key themes in the study of executive politics. It focuses on the changing conditions in which politics takes places (demographic change, sovereign debt crisis, environmental change and societal values) and considers how these changes impact on national executives.

Teaching: 20 hours of classes and 2 hours of workshops in the MT. 20 hours of classes and 2 hours of workshops in the LT. The workshops will introduce and provide support for the assessed coursework projects.

Formative coursework: Three formative essays (2500 words) and project proposal for assessed essay component.

Assessment: Exam (50%, duration: 2 hours) in the main exam period. Essay (50%, 2500 words).

GV313 Half Unit Politics of Trade in Comparative Perspective

This information is for the 2017/18 session.

Teacher responsible: Dr Stephanie Rickard

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy.

This course is not available as an outside option nor to General Course students.

This course is capped at two groups. The deadline for enrolments is 12.00 noon, Friday 29 September, 2017.

Pre-requisites: A background in political economy would be advantageous.

Course content: The course focuses on the role of institutions, ideas and interests in trade, focusing predominantly on developed countries. We draw on theories from economics and political science and analyze these using both historical and contemporary examples, and do so from a comparative perspective, rather than an international relations perspective.

The primary focus of the course is on actual policy outcomes.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in Week 6.

Formative coursework: Weekly writing assignments.

Assessment: Essay (100%, 4000 words).

GV314 Empirical Research in Government

This information is for the 2017/18 session.

Teacher responsible: Prof Edward Page CON3.05

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy.

This course is not available as an outside option nor to General Course students.

This course is capped at one group. The deadline for receipt of applications is 12:00 noon on Friday 29 September, 2017.

Course content: The course introduces a variety of techniques and issues in the empirical study of political science and applies them to a practical research project in which students participate throughout the year. No prior knowledge of statistics or research methods is required. The focus of the course will be the practical research project. For 2017/18 the research project will explore international student perceptions of the UK as a place for study, though this is subject to change. At the theoretical level the course will cover questions relating to the utilization of policy research, forms of research design, sampling, questionnaire construction, coding and converting non-quantitative to quantitative indicators, response rates, elite interviewing and research ethics. As the practical research project progresses classes will cover the development of practical skills such as, principles of research report writing and, where appropriate for the project, use of text processing programmes, and basic routines in the widely-used Statistical Package for the Social Sciences (SPSS), such as those used for compiling cross-tabulations.

Teaching: 20 hours of seminars and 2 hours of workshops in the MT. 20 hours of seminars and 2 hours of workshops in the LT. 2 hours of seminars in the ST.

The two workshops will take place in the reading weeks (week
6 of MT and LT) and will consist of additional teaching activities to extend students' familiarity with the course content at which attendance will be voluntary.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period. Essay (25%, 2500 words) and research project (25%).

**GV315 Half Unit Voting and Elections in Developing Democracies**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Ryan Jablonski CON 4.14

**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

The course is capped at two groups. The deadline for enrolments is 12:00 noon on Friday 29 September 2017.

**Pre-requisites:** Government students should have completed GV101 Introduction to Political Science or equivalent.

**Course content:** Most governments in the developing world have adopted electoral institutions, many in the last few decades. However, these institutions vary considerably in their ability to hold politicians accountable. Emergent democracies are frequently plagued by violence, fraud, corruption, weak accountability, and clientelism. This seminar is a discussion of the nature of electoral institutions in developing democracies, with a particular focus on the causes and consequences of these ills. Among other things, we will see answers to the following questions: Why do governments adopt electoral institutions, but then fail to permit free and fair voting? When and why do governments use fraud and violence to win elections? What has been the impact of development aid, election monitoring and democracy assistance on elections and democratization? To answer these questions we will draw on an emerging political science literature on these issues, as well as several case studies. Students are expected to be active participants in this course, and will participate in several class debates and writing exercises.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. Each session will begin with a lecture, followed by a discussion and – in the latter half of the course – presentations by one or more students. There will be a Reading Week in Week 6 of LT.

**Formative coursework:** Students will be expected to produce 1 essay of 1,000 words in the LT.

**Assessment:** Essay (90%, 4000 words) in the ST. Presentation (10%) in the LT.

**GV316 Half Unit Advanced Issues in Applied Political Theory**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Kai Spiekermann CON 517

**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course is capped at one group. The deadline for enrolments is 12.00 noon, Friday 29 September 2017.

**Course content:** An investigation of contemporary questions in applied political theory. Taking as a starting point a pressing social and political challenge, the course instructs students to systematically apply different political theories to approach the problem, to understand and critically discuss different normative viewpoints, and to develop and defend their own position in these debates.

Examples of such themes include environmental and climate change, free speech, multiculturalism and tolerance, poverty and global justice, colonialism, or surveillance and privacy. The topics are selected each year to reflect current debates and the interests of the course convener. The course gives students the opportunity to experience research-led teaching, as the course convener will typically create a syllabus to reflect their current research projects. In 2017/18, this course applies theories and concepts from political theory to the problems of environmental change. Among the topics discussed will be climate change, overpopulation, food and water scarcity, deforestation, desertification and the loss of biodiversity. Looking at contributions from political theorists, we will ask: How should we balance the interests of current and future generations? How does climate change affect our obligations towards the global poor? How do we make policy decisions if the effects are uncertain but potentially severe? Are we individually or collectively responsible for causing climate change, and what follows from this? How do we relate to the environment and what precisely is valuable about preserving it?

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. During the reading week (week 6), all students are selected each year to reflect current debates and the interests of the course convener. The course gives students the opportunity for a one-on-one meeting with the convener to plan for their formative essay.

**Formative coursework:** Students will be expected to produce 1 essay.

**Assessment:** Essay (100%, 3000 words).

**GV317 Half Unit The Modern State - Theory and Practice**

**This information is for the 2017/18 session.**

**Teacher responsible:** Professor Patrick Dunleavy
GV318 Half Unit
Building Democracies from Conflict? Violence, Power-Sharing and Institutional Design

This information is for the 2017/18 session.

Teacher responsible: Dr Paul Mitchell

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students. This course is capped at 1 group. The deadline for enrolments is 12:00 noon, Friday 29 September, 2017.

Pre-requisites: Some background in at least one of these fields will be helpful: political theory, comparative politics, political sociology, public policy/economics, or international relations.

Course content: Since the 2008 financial crisis the modern state has re-emerged as a key actor in shaping the political identities, welfare and life-chances of its citizens; the strength and shape of a nation's economy; and much of the development of international policies. Some earlier expectations of the dwindling away of state institutions in the face of global forces or international institutions have been decisively refuted. Yet the operations of states as 'multi-systems', with many component parts, continues to generate theoretical controversy about whether and how they exist, and how their diversity can be ascribed unity of purpose or operations. The first five weeks examine the main theories of the modern, complex state and controversies about its unity and diversity.

After reading week, we move on to look at the integrating roles of budget systems, constitutional provisions, bureaucratic institutions and information policies, the 'regulatory state' and 'welfare state' institutions in shaping the overall evolution of states. The approach is comparative throughout, drawing mainly on the experience of OECD countries and advanced industrial societies.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Presentation (10%) in the Week 11. Essay (90%, 4000 words) in January.

GV319 Half Unit
Experimental Politics

This information is for the 2017/18 session.

Teacher responsible: Mr Thomas Leeper CON 3.21

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy.
This course is not available as an outside option nor to General Course students. This course is capped at one group. The deadline for enrolments is 12 noon on Friday 29 September 2017.

Pre-requisites: Familiarity with basic algebra required and comfort with basic statistics as covered by Research Design in Political Science (GV249) or an equivalent course in research design or introductory statistics (such as ST102, ST107, ST108, GY140, SA201) is recommended.

Course content: This course will introduce students to the use of experiments or randomised controlled trials (RCTs) in politics to evaluate policies, programmes, and theories. The course will introduce the art, science, and ethics of experimentation, debate the validity and utility of experiments as a tool of evaluation and as the basis for policymaking, and examine the findings of experimental research in several distinct political domains. Representative topics include:

1. Voter mobilisation
2. Campaign message testing
3. Social media
4. International development
5. Public health
6. Polling
7. Small-group deliberation
8. Policy nudges

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 1 hour of classes in the ST.

There will be no lecture during Week 6 and no class during Weeks 1 and 6. Reading week activities will include one-on-one meetings with the instructor to discuss final paper topics/proposals (and other course content) and set aside time for students to prepare formative presentations (which will occur in class sessions during Weeks 7-11).

Formative coursework: Students will be expected to produce 1 problem sets and 1 presentation in the MT. The problem set will be due at the end of Week 5 and the presentations will occur during Weeks 7 to 11.

Assessment: Exam (50%), duration: 1 hour and 30 minutes) in the main exam period. Essay (50%, 2250 words) in the LT. Assessment for the course will consist of a written exam (1 hour and 30 minutes) during the regular exam period (50%) and an individual case study essay (50%). The essay can take one of two forms: (a) a research design proposal that advances an original theoretical contribution to a political science literature, proposes an experimental test of that theory, and critically discusses related issues of research design, ethics, and implications; or (b) a case study that examines a real-world use of experimental methods to study a question relevant to political science by a government, firm, NGO, or other entity, describes the context for and design of the experiments, and evaluates the findings and use of experiments in this case context. Students have complete topical choice for the essay and will be expected to give a short presentation (one part of the formative assessment) on their chosen topic during class. Regardless of the form of essay chosen, the quantitative problem set will ensure that students have the skills necessary to propose a credible experimental design and/or evaluate an applied example of experimental research. One-on-one meetings during Reading Week will provide a checkpoint to obtain early feedback and presentations will invite both peer and instructor feedback near the end of the term.

GV320 Half Unit Populism

This information is for the 2017/18 session.

Teacher responsible: Professor Francisco Panizza CON 5.12

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students. This course is capped at one group. The deadline for enrolments is 12 noon on Friday 29th September 2017.

Pre-requisites: Students must have completed Democracy and Democratisation (GV245).

Democracy and Democratisation (GV245) is a pre-requisite for taking the course.

Course content: The course aims at bringing together the conceptual analysis of populism with comparative case studies in different regions of the world. It studies populism from a conceptual, theoretical and comparative perspective. Given the highly contested nature of populism, the first weeks will look in depth to different theories of populism, including institutional, ideological, discursive and socio-cultural understandings of populism. It will then move to explore the conditions of emergence of populism and the relations between populism and key political concepts, such as democracy and political participation. The second half of the course will seek to apply the conceptual tools presented in the first half of the course to regional case studies. Among the topics to be explored are: What is populism? Populism as a “thin ideology.” Populism as a mode of identification. The socio-cultural dimensions of populism. The socio-economic dimensions of populism. The conditions of emergence of populism. Populism, democracy and political participation. Populism in Europe. Populism in the USA. Populism in Latin America. Populism in Asia.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

On week 6 (reading week) it will be open to students to attend a session of short films and videos on populist politics. This session does not form part of the formal teaching of the course.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Formative coursework: 1 X 1,500 words essay to be submitted on week 7 of the LT. The formative essay will offer an outline of the final essay— including key indicative reading. The feedback will be used in two ways: 1) to guide students’ critical thinking in line with course learning outcomes; 2) to guide students on the key aspect of formatting an academic argument using literature and critical debate. Students will also be encouraged to reflect upon their learning from the presentation and use this to refine their summative essay.

**Assessment:** Presentation (10%) in the LT.
Essay (90%, 3500 words) in the ST.

The essay will be marked in line with departmental guidance on assessed essays. This will allow for a scale of outcomes in line with different levels of academic outputs. It will be marked for command of the literature, theories and empirical findings, analytical sophistication, use of evidence, critical judgement and originality. The individual class presentations will take the form of a 15 minute presentation followed by 30 minutes of questioning from both the class and the teacher. Particular value will be placed on the ability to present contending arguments in a clear and balanced way, the use of empirical evidence to support arguments and the capacity to raise relevant questions for class discussion.

---

**GV325  Half Unit  Not available in 2017/18**

**Advanced Issues in Political Economy**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Stephane Wolton

**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy.

This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at 1 group. The deadline for enrolments is 12 noon on Friday 30th September.

**Pre-requisites:** Students are expected to have taken GV225 Public Choice and Politics, or equivalent, in a previous year. An introductory knowledge of economics and econometrics would be useful.

**Course content:** This course is an advanced treatment of Political Economy. The course will cover some advanced concepts in game theory and their application to contemporary political issues. It will provide an overview of the empirical literature on the topics covered. The course material will expand students’ capacity to think about policy relevant issues and will cover democratic and autocratic politics. The course structure will be as follows:

Week 1 – Game theory refresher
Week 2 - Political accountability
Week 3 – Media and democracy
Week 4 - Behavioural political economy
Week 5 - Accountability in autocracies: The role of elite
Week 6 – Accountability in democracies: The role of institutions
Week 8 - Democritisation,
Week 9 – Terrorism
Week 10 - International conflicts
Week 11 - Revision lecture

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT.

There will be 9 one-hour lectures in Weeks 1-5 and Weeks 7-10 in MT and a one-hour revision lecture in Week 11. Classes will run in Weeks 2-5 and Weeks 7-11 in MT. Week 6 will be a Reading Week.

**Formative coursework:** Students will be expected to produce 1 problem sets and 1 other piece of coursework in the MT.

Students will complete one problem set to further their understanding of the concepts covered in the course and prepare for the take-home exam. There will also be a time exam in week 11 to allow practise on problem sets solving under exam conditions.

**Assessment:** Exam (60%, duration: 2 hours and 45 minutes, reading time: 15 minutes) in the main exam period. Coursework (40%) in the Week 9.

The exam will have two parts. Part A is a compulsory question. In Part B, candidates will answer two questions from three posed. The coursework will have four compulsory questions.

---

**GV335  Half Unit  African Political Economy**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Catherine Boone CON 6.04

**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy.

This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at 1 group. The deadline for enrolments is 12.00 noon, Friday 29 September, 2017.

**Course content:** This class is an introduction to the study of contemporary African political economy. The goal is to set major questions of state and economy in historical, geographic, and international context. Course readings and lectures stress marked unevenness in national and subnational trajectories and in the political-economic character of different African countries, and introduce students to theories that aim to identify causes of similarity and difference across and within countries. Students will come away with a better understanding of the possibilities and limits of structured, focused comparisons in comparative politics, and with an introduction to political economy approaches to questions of late development. They will also develop substantive knowledge of the political economy of sub-Saharan Africa and analytic tools to describe and make sense of its diversity.

**Teaching:** 20 hours of lectures and 20 hours of seminars in the MT.

This course shares lectures with DV435 African Political Economy. Seminar classes are separate for undergraduate students.

There will be a reading week in Week 6.

**Formative coursework:** There will be one 1,200 formative assignment (short essay).

**Indicative reading:** Texts used may include all or part of the following:

Fred Cooper, Africa Since 1940 (Cambridge U. Press)
Abidun Alao, Natural Resources and Conflict in Africa: The Tragedy of Endowment (University of Rochester Press, 2007).
Sara Berry, No Condition is Permanent: The Social Dynamics of Agrarian Change in Africa (U. of Wisconsin Press).
Crawford Young, The Postcolonial State in Africa: Fifty Years of Independence

**Assessment:** Essay (75%, 2000 words) in the LT.
In class assessment (25%). For the in-class assessment, students will be asked to write one-page feedback papers on selected weeks' readings and to participate in class discussions. In the last class meeting, each student will give a 5-minute overview of his/her plans for the final coursework essay. Participation assessment is designed to motivate students to keep up with the readings and to contribute actively to class discussions.

**GV342**  Not available in 2017/18

**Philosophy, Politics and Economics: Capstone and Research Project**

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Martin Lodge

**Con308**

**Availability:** This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Exclusive for fourth year BSc PPE students.

**Course content:** The course introduces students to team-based and individual research work. The MT will focus on the capstone project. The initial three weeks of the course will introduce students to the requirements of capstone projects, key research strategies and essential questions. During weeks four to nine, they will be required to research, as part of small teams, problems in public and private sector organisations. The completed research has to be presented to fellow students (and the client organisations) both in the form of a presentation as well as a research report.

In the LT, the focus shifts to the production of an individual academic paper. Students will be encouraged to develop an interdisciplinary research question and to complete a research paper and a poster on the conclusions of the paper by the end of the LT. The initial weeks' seminars during the LT will be focused on key questions for research design, with the following weeks focusing more on individual consultation and feedback sessions.

**Teaching:** 7 hours and 30 minutes of seminars and 9 hours of help sessions in the MT. 7 hours and 30 minutes of seminars and 9 hours of help sessions in the LT. 1 hour and 30 minutes of seminars in the ST.

The seminars will introduce the key issues and demands on the students. The help sessions will operate on the basis of feed-back and consultation sessions to support students' research efforts. The ST session will involve a poster exhibition that allows all students to exhibit and discuss their research projects.

**Formative coursework:** Students will be expected to produce 1 presentation in the MT and 1 presentation and 1 essay in the LT. The team and the individual research efforts will be supported during the help sessions. To support the development of presentational skills, students are required to prepare a draft presentation and will receive feedback in the MT. Equally, students will be required to prepare a poster outlining their research for week 4 in the LT. This will help the development of the research ideas, but also provide for feedback on the intended research and the design of posters more generally. They will also be asked to provide for a draft paper outline in week 9 to receive additional feedback.

**Indicative reading:**

- C. R. Cook, Just Enough Project Management (McGraw-Hill, 2004)

An extensive list of readings will be made available on Moodle.

**Assessment:** Project (30%, 5,000 words) and presentation (20%) in the MT.

**Presentation (20%) and research project (30%) in the LT.**

**GV366**

**Political Economy of the Developing World**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Steffen Hertog

**Con4.01**

**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy.

This course is not available as an outside option nor to General Course students.

This course is capped at one group. Deadline for enrolments is 12.00 noon on Friday 29 September, 2017.

**Pre-requisites:** Students must have completed Introduction to Political Science (GV101).

**Course content:** This course introduces students to the broad theoretical traditions in the study of political economies outside of the OECD world, and provides an empirical overview of a number of concrete phenomena that shape the interplay of the political and economic realms in different world regions. It will address puzzles like: Why did some developing countries grow much faster than others after WWII? Are some forms of corruption more compatible with development than others? Which impact do natural resource rents have on politics and development? Under which conditions can countries with a short history of independent statehood build efficient institutions?

GV366 will engage with broad theoretical traditions like modernization theory, dependency theory, and neo-patrimonialism, and with concrete empirical topics like state-business relations, the developmental state, corruption and clientelism, the politics of public enterprise, and the political economy of resource-rich countries.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT.

10 hours of lectures and 10 hours of classes in the LT.

1 hour of classes in the ST.

**Formative coursework:** One essay of 3,500 words to be submitted in the MT.

10 hours of lectures and 10 hours of classes in the LT.

1 hour of classes in the ST.

2 hours in the main exam period.

**Essay (50%, 3,500 words) in the main exam period.**

**GV390**

**Government Dissertation Option**

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Michael Bruter

**Availability:** This course is available on the BSc in Government,
GV398
Inside the Mind of a Voter: Research in Electoral Psychology

This information is for the 2017/18 session.

Teacher responsible: Prof Michael Bruter CON 4.06
Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course may be taken only in the third year. A BSc Government and History student cannot choose both HY300 and GV390; a BSc Politics and Philosophy student cannot choose both GV390 and PH399; and a BSc Politics and International Relations student cannot choose both GV390 and IR398.

Course content: A dissertation of not more than 10,000 words on a topic to be approved by a proposed dissertation advisor and the Course Convener. The topic should be chosen from any area within the field covered by the degree course and supported by a member of the academic staff from the Government Department willing to act as dissertation advisor. Following the dissertation information session organised by the Department in the second year of the students’ curriculum, candidates should approach their tutor during the Lent Term or Summer Term of their second year to discuss the possibility of a proposed dissertation topic. After having received approval for a topic by a prospective advisor, students must submit a dissertation form detailing the final title and synopsis/prospectus to the Course Convener for approval. Dissertation approval forms must be submitted no later than the end of Week 2 of Michaelmas term.

Teaching: 4 hours and 30 minutes of seminars in the MT. 4 hours and 30 minutes of seminars in the LT.

Six seminars split between the Michaelmas Term and Lent Term as well as individual supervision. Dissertation advisors can be expected to offer advice on reading and guidance on the organisation of the dissertation; they may also read and comment on a draft outline of up to 2,000 words. Tutors or other teachers are not permitted to read or comment on a draft of the whole dissertation. The number of individual meetings with the students will be agreed with the supervisor but should be at least once per term in the student’s third year. It should be stressed that no member of staff is under an obligation to agree to supervise any proposed dissertation.

Assessment: Dissertation (100%, 10000 words).

GY100
Introduction to Geography

This information is for the 2017/18 session.

Teacher responsible: Dr Claire Mercer STC418
Dr Alex Jaax
Dr Nancy Holman
Dr Michael Mason  
**Availability:** This course is compulsory on the BA in Geography, BSc in Environment and Development and BSc in Geography with Economics. This course is available on the BSc in Social Policy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This course provides students with an introduction to Geography at LSE. In Michaelmas Term we will examine human geography’s key concepts, including space, place, landscape, nature, globalization, mobility, society and city. In the Lent Term the course will move on to introductory sections on environmental geography and economic geography. The environmental section will cover topics such as the anthropocene, nature and culture, and global and local environmental problems. The economic geography section will introduce students to the changing location of economic activity, inequalities within and between countries, regions and cities, and the rationale, objectives and tools of local and regional development policies in a globalizing world.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. 18 hours of lectures and 9 hours of classes in the LT. 1 hour of lectures in the ST.

**Formative coursework:** Students will be expected to produce 4 essays and 1 presentation in the MT and LT.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**GY103**

**Contemporary Europe**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Simona Iammarino (on sabbatical for 2017-18)  
Dr Neil Lee  
Dr Alex Jaax

**Availability:** This course is available on the BA in Geography,  
BSc in Environment and Development and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This course aims at introducing students with little prior knowledge of European issues to some of the most important economic, social, and political challenges the European Union overcame in the past, and currently faces. The course develops a sound understanding of the determinants and the evolution of these challenges and the related public policies. Students will learn about strengths, weaknesses and lessons to be drawn from the most striking example of international integration as a result of historical forces and in the context of a globalised world. The course covers issues such as economic integration, competitiveness, cohesion, innovation and growth, enlargement, Euro crisis and Brexit, social policy, employment trends, poverty, migration, ageing, and social exclusion and inequality. Particular stress is laid upon the spatial constitution of these themes, at various levels of geography: supranational, national and subnational (regional) level.

**Teaching:** 20 hours of lectures and 9 hours of classes in the MT.  18 hours of lectures and 9 hours of classes in the LT. 2 hours of classes in the ST.

The 2 hour-class in the ST is Revision Session for the exam.

**Formative coursework:** Students will be expected to produce a minimum of two class essays during the year and will also be expected to give class presentations.

**Indicative reading:** Given the diversity of the subject, there is no one textbook that covers all of the topics. A mix of academic articles and chapters from textbooks is used in the course. Reading lists are provided electronically, and additional web sources will also be indicated during the lectures. Indicative textbooks are the following: A Rodriguez-Pose, The European Union: Economy, Society and Polity, 2000; R Baldwin and C Wyplosz, The Economics of the European Integration, 3rd edition, 2009; S Senior Nello, The European Union. Economics, Policies and History, 2nd edition, 2009; W Molle, European Cohesion Policy, 2007.

**Assessment:** Exam (75%, duration: 2 hours) in the main exam period.  
Essay (25%, 2000 words) in the LT.

---

**GY120**

**Environmental Change: Past, Present and Future**

This information is for the 2017/18 session.

**Teacher responsible:** Prof David Jones STC S417

**Availability:** This course is compulsory on the BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available on the BA in Geography and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** Many consider that ‘Climate Change’ is the greatest challenge currently facing human society, mainly because of the ‘Environmental Changes’ that it will cause. But what are ‘Climate Change’ and ‘Environmental Change’? What causes these changes? How much have they changed in the past and how do we know? How much is human activity responsible for the recent changes identified and when did this influence begin? How is the climate going to change in the next century and if water finds its own level, why does sea-level change vary over the Globe? To answer these questions requires that the course focuses on developing an appreciation of the Planet Earth as the home of human societies. The analysis focuses on the physical nature of the ‘natural’ or biophysical systems and involves consideration of how the solid earth, the gaseous atmosphere, the hydrosphere and the biosphere, were formed, have evolved, interact and have changed over time due to both external (extra-terrestrial) and internal factors, including humans. From this, an appreciation of change and evolution over differing time-scales is developed, which will serve as an essential basis for students when evaluating the contemporary two-way interaction between humans and the environment. The relevant science will be taught as and when required.

The course consists of the following sections:

- Introduction to Environmental Change:  
  The structure and functioning of the Earth as a set of systems (The Geosystem). The Scientific Method. The systems approach and its application to environmental studies. Ecosystem concept. Biogeochemical cycles. The nature and causes of Environmental Change; “Change” and “Variability”.

- Key Aspects of Environmental Change:  
  (iii) The Biosphere; Development and change of Biodiversity over time due to evolution through Natural Selection  
  - Quaternary Environmental Change: Environmental Change over the last 2.6 million years.

Establishment of the contemporary paradigm of Quaternary climate change, i.e.: the ‘Ice House - Hot House’ paradigm. Ice cores, ocean sediment cores, the Oxygen Isotope record; what causes glaciations and inter-glacials? The Milankovitch Mechanism. Milankovitch and sub-Milankovitch oscillations.

- Past, Present and Future Change
Merging the instrumental, historical and proxy records. Problems with dating. The growing influence of humans (the human impact).

The possibility of an Anthropocene / Anthropogene. Holocene Climate Change: The Post-Glacial Climatic Optimum, Medieval Warm Period and Little Ice-age. Mann et al’s ‘Hockey Stick’.

Human impacts on the Ecosphere and the Ruddiman Hypothesis.

Debates about Twentieth Century Warming.

Patterns of sea-level change: Past, Present and Future. Contemporary Climate/Environmental Change and future prospects to AD 2100.

Teaching: 20 hours of lectures and 9 hours of classes in the MT.
18 hours of lectures and 10 hours of classes in the LT.
Please note there is a Reading Week taking place in Week 6 in both Michaelmas and Lent Terms.

Formative coursework: Students will be expected to produce two essays during the year, one in each term, and give class papers.

Assessment: Exam (60%), duration: 2 hours) in the main exam period.
Essay (15%, 1500 words) and essay (25%, 2000 words) in the LT.

GY140
Introduction to Geographical Research

This information is for the 2017/18 session.

Teacher responsible: Dr Austin Zeiderman, Dr Murray Low, Dr Claire Mercer, Prof Henry Overman, Prof Gareth Jones, Prof Sylvia Chinn and Dr Richard Perkings

Availability: This course is compulsory on the BA in Geography. This course is available on the BSc in Environment and Development and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The main objective of this course is to introduce students to the production of geographical and environmental knowledge and to prepare them to become producers of such knowledge themselves. It provides students with a sound understanding of both the conceptual foundations and real-world applications of a variety of methodological approaches for conducting research. To appreciate why, how, and to what ends geographers conduct research on the social and spatial dimensions of human activity, the research process is examined from beginning to end: selecting a topic, performing a literature review, designing a project, collecting and analysing data, and communicating results. The process of producing knowledge about geography and the environment is also examined from a number of different perspectives: examining case studies of written work, engaging with internationally-renowned researchers, discussing the rationale for choosing a methodological approach, practicing the application of individual methods, and designing and executing a piece of independent research. Both quantitative and qualitative research methods are discussed in detail and fieldwork exercises in London give students the opportunity to apply various methods from the course in their own research.

Teaching: 10 hours of lectures and 18 hours of classes in the MT.
9 hours of lectures and 18 hours of classes in the LT.
Compulsory fieldwork exercises to be completed instead of lecture/class in Week 11 of Lent Term. No class to be scheduled for Week 1 in MT.

Formative coursework: Students will be given the opportunity to complete two formative assignments during the course of the year: one in MT that draws on qualitative research methods and one in LT draws on quantitative research methods.

Information on the formative assignments will be provided in the course outline.
GY200

Economy, Society and Space

This information is for the 2017/18 session.

Teacher responsible: Dr Alan Mace STC513a and Dr Ryan Centner STC601c

Availability: This course is available on the BA in Geography, BSc in Environment and Development, BSc in Environmental Policy, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines the inter-relatedness of economy and society and the spatiality of social and economic phenomena in contemporary societies. Themes include: spatial fixes, Fordism, the development project, suburbanisation, rural crisis and shrinking cities. Through these themes we examine relationships between economic and social restructuring; the geographies of privilege, exclusion and marginality; as well as responses through urban regeneration, urban renewal and city planning. At the end of the course students should be able to understand the relationship between the economic, social and spatial realms and communicate and apply these understandings to the contemporary geographies of everyday life.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 9 hours of classes in the LT.

Formative coursework: Students will be expected to prepare written work for weekly classes, and write one formative essay each term related to course readings.

Assessment: Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 2000 words) in the LT.

In the examination students answer three out of nine questions. Details of the style and layout of the essay will be provided at the start of the session.

Pre-requisites: Economics B (EC102) is normally required; Economics A (EC100) is essential.

Course content: This course provides students with a theoretical and empirical understanding of spatial economic processes and how these influence the behaviour of firms and households and the wider economy.

The course draws primarily on international and urban economics. Topics covered include: causes and consequences of international trade; the winners and losers from globalization; multinational companies; trade, firms, and productivity; offshoring and outsourcing; the function of cities and the urban system; cities as engines of growth; the sources of agglomeration and dispersion; the determinants of urban structure and the role of land markets and land market regulation.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to prepare for group discussion of some readings and hand in short essays and problem sets in both terms.

Assessment: Exam (75%, duration: 3 hours) in the main exam period.

GY202

Introduction to Global Development

This information is for the 2017/18 session.

Teacher responsible: Dr Claire Mercer S418 Dr Jayaraj Sundaresan

Availability: This course is compulsory on the BSc in Environment and Development. This course is available on the BA in Geography, BSc in Environmental Policy with Economics, BSc in Geography with Economics and BSc in International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: An introduction to analysing global development, focusing on key development theories, strategies, problems and trajectories. In Michaelmas Term we cover concepts and ideas of development, colonial development, theories of development including modernization, dependency and post-development, the rise of the neoliberal project, the debt crisis, structural adjustment and PRSPs, participatory development and NGOs. In Lent Term we examine poverty, informality, housing, water, sanitation, gender, conflict and development.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 9 hours of lectures and 9 hours of classes in the LT. 1 hour of lectures in the ST.

Formative coursework: Students will produce two essays during the MT and the LT.

Assessment: Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 2000 words) in the LT.
GY220 Environment: Science and Society
This information is for the 2017/18 session.
Teacher responsible: Dr Michael Mason STC.510 and Prof David Jones STC.417
Availability: This course is compulsory on the BA in Geography, BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available on the BA in Geography, BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: This course examines debates concerning the nature, cause, and effects of, and alternative solutions to, the key natural environmental degradation and pollution problems faced by human societies. It highlights the role of science in environmental understanding and governance. The course consists of three sections, although the specific content, order and relative proportion of teaching may change with staff availability. Part A: Introduction and Themes: this introduces students to social scientific perspectives on scientific knowledge and environmentalism. Part B: Environmental Risk and Science: this section examines the physical science basis of current regional and global environmental risks, including geohazards and global atmospheric pollution. Part C: Science and Environmental Governance: this final section of the course examines how environmental science is incorporated in global environmental governance. The course concludes with an examination of the notion of sustainability science.
Teaching: 20 hours of lectures and 9 hours of classes in the MT. 18 hours of lectures and 9 hours of classes in the LT. This course has a reading week in Week 6 of both MT and LT.
Formative coursework: Students will be expected to produce non-assessed coursework throughout the year that will include at least one essay and a series of quizzes, and may be asked to give class presentations.
Assessment: Exam (75%, duration: 3 hours) in the main exam period.
Essay (25%, 2000 words) in the LT.

GY222 Applied Environmental Economics
This information is for the 2017/18 session.
Teacher responsible: Prof Susana Mourato STC.503 and Dr Sefi Roth STC.421A
Availability: This course is compulsory on the BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available on the BA in Geography and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.
Course content: This course is an introduction to economic principles in the analysis of environmental change and natural resource use, and in designing appropriate policy responses. The first part of the course largely covers the concepts and tools of environmental economics, while the second part applies these concepts and tools to specific challenges for real world policy-making. Topics to be covered include: the evaluation of regulatory and market based instruments in controlling pollution; moral suasion and voluntary regulation; economics of natural resource use; economic growth, the environment and sustainable development; cost-benefit analysis and environmental valuation; economics of biodiversity and ecosystem services conservation; climate change economics; health and the environment; behavioural and happiness economics and the environment.
Teaching: 15 hours of lectures and 9 hours of classes in the MT. 15 hours of lectures and 9 hours of classes in the LT.
Formative coursework: Students will be expected to produce non-assessed coursework throughout the year that will include at least one essay and a series of quizzes, and may be asked to give class presentations.
Assessment: Exam (75%, duration: 3 hours) in the main exam period.
GY240
Research Techniques (Spatial, Social and Environmental)

This information is for the 2017/18 session.

**Teacher responsible:** Dr Murray Low

Additional teacher(s): Dr Felipe Carozzi, Dr Ryan Centner

**Availability:** This course is available on the BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is not available as an outside option nor to General Course students.

**Course content:** This course is similar to GY2A0 and shares most teaching arrangements with that course. It does not include the week long field-course associated with GY2A0. This course aims to prepare second year students, who already have some grounding in social science methodology, to undertake individual research projects. It examines the methodologies used in Geographical research and evaluates their application to different kinds of research problems. It considers the choice of methodology which may be used in the student’s own Independent Research Project (IRP) and how to plan research. It enables students to acquire familiarity with, and practice of, contemporary research techniques and to examine different ways of, and gain experience in, presenting research results. A further aim of the course is to enable students to evaluate critically the methodological validity of geographical literature.

The course covers a variety of different approaches to social science methodology including: (i) analysis of quantitative data using linear regression including hypothesis testing, (ii) analysis of quantitative spatial data using geographic information systems (GIS) software, (iii) techniques for qualitative data analysis including structured and unstructured interviewing, participant observation, and research ethics, including research ethics when conducting fieldwork, (vi) techniques for the economic analysis of environmental issues, and (v) techniques for designing, carrying out and presenting an Independent Research Project.

**Teaching:**
- 15 hours of lectures, 9 hours of workshops and 2 hours of workshops in the MT.
- 10 hours of lectures and 9 hours of classes in the LT.

GY240 shares most teaching arrangements with GY2A0. There are reading weeks in Week 6 of the MT and LT.

**Formative coursework:** In the MT classes, and during the field-course, students work on elements of the summative assessment for the course with opportunities for support and feedback from staff as they do so. In addition, there is one piece of formative assessment (no more than 1000 words) in each term.

**Assessment:**
- Project (50%) and other (15%) in the LT.
- Project (35%) in the ST.

(i) Quantitative methods/Geographical Information Systems project (50%)
It enables students to acquire familiarity with, and practice of, contemporary research techniques and to examine different ways of, and gain experience in, presenting research results. A further aim of the course is to enable students to evaluate critically the methodological validity of geographical literature.

The course covers a variety of different approaches to social science methodology including: (i) analysis of quantitative data using linear regression including hypothesis testing, (ii) analysis of quantitative spatial data using geographic information systems (GIS) software, (iii) techniques for qualitative data analysis including structured and unstructured interviewing, participant observation, and research ethics, including research ethics when conducting fieldwork (vi) application of qualitative research techniques in the field; and (v) techniques for designing, carrying out and presenting an Independent Research Project.

**Teaching:** 15 hours of lectures, 9 hours of workshops and 2 hours of workshops in the MT. 9 hours of lectures and 9 hours of classes in the LT.

There is a week-long fieldcourse associated with this course, normally overseas, and normally in the final week of the Lent Term. Students should be aware that, although the costs of this course are subsidised by the Department, they will be expected to make a substantial financial contribution themselves. There are bursaries available from the Department for students who can document financial need.

There will be reading weeks in week 6 of the MT and LT

**Formative coursework:** In the MT classes and during the field course, students work on elements of the summative assessment for the course with opportunities for support and feedback from staff as they do so. In addition, there is one piece of formative assessment (no more than 1000 words) each term.

**Assessment:** Project (50%) and coursework (15%) in the LT.

Research project (35%) in the ST.

(i) Quantitative methods/Geographical Information Systems project (50%)
(ii) Fieldwork component (35%)
(iii) Proposal for 3rd Year Independent Research Project (15%)

---

**GY301**

**The Political Geography of Development and the South**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Claire Mercer STC418 (Lecturer)

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

**Indicative reading:** No one book covers the syllabus. A detailed reading list is provided for each topic covered.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

**Formative coursework:** Students are expected to complete two class essays and one essay plan for their summative essay during the year.

**Indicative reading:** No one book covers the syllabus. A detailed reading list is provided for each topic covered.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

**Formative coursework:** Students are expected to complete two class essays and one essay plan for their summative essay during the year.

**Indicative reading:** No one book covers the syllabus. A detailed reading list is provided for each topic covered.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

**Formative coursework:** Students are expected to complete two class essays and one essay plan for their summative essay during the year.

**Indicative reading:** No one book covers the syllabus. A detailed reading list is provided for each topic covered.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

---

**GY300**

**Theories of Regional Development and Change**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Michael Storper
Dr Olmo Silva

**Availability:** This course is available on the BA in Geography, BSc in Economics, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students. The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Course content:** Analysis of theories and methods needed to understand territorial patterns of economic development in Europe, the US and other developed economies. Students will be given the basic toolkit needed to think about such issues as: why industries locate where they do; why there are tendencies toward geographical concentration and dispersion of economic activity, the reasons why economic activity concentrates in cities and metropolitan areas; why it leaves those areas; how existing trends toward globalization are affecting these processes. In addition, the course typically covers a range of policy-relevant topics relating to the economic performance of regions and countries around the world, including: human capital and education, innovation, international trade and quality of institutions.

**Teaching:** 20 hours of lectures and 9 hours of classes in the MT.

10 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce class essays during the year and will also be expected to give class presentations.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 2500 words) in the LT.
GY302 Urban Development: Politics, Policy and Planning

This information is for the 2017/18 session.

Teacher responsible: Dr Hyun Shin STC. S501f and Dr Murray Low STC. S512

Availability: This course is available on the BA in Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course covers theories and processes of urban politics and governance; urban problems and policy responses in developed and developing countries, within an institutional and political framework. Areas of study include:

1. Urban government in the UK and USA. Theories of urban politics. Management of urban social issues.
2. Urban policy and practice, e.g. speculative urbanisation, urban redevelopment, mega-event politics, gentrification, the right to the city. Case studies largely drawn from cities in mainland China and newly industrialised economies in East Asia.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures, 10 hours of classes and 2 hours of workshops in the LT.

Formative coursework: Students should produce two essays during the year.

Assessment: Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 2500 words) in the LT.

GY303 The Geography of Gender: Global Perspectives

This information is for the 2017/18 session.

Teacher responsible: Prof Sylvia Chant STC417a and Dr Martina Klett-Davies

Ms Jordana Ramalho

Availability: This course is available on the BA in Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: It would be an advantage if students have some grounding in gender and/or development issues from a second year course such as GY200 Economy, Society and Space, or GY202 Introduction to Development in the South.

Course content: An analysis of the geography of gender at a global scale covering high income countries, emerging economies and developing nations. The course focuses on the variability of gender roles and relations and their socio-spatial implications in different geographical contexts.

MT: Gender in high income and emerging economies: Gender inequality in a global context; Production and reproduction; Gender and identity; Theorising the changing organisation of work, gender divisions between paid and unpaid work; Global cities: polarisation and feminisation of work; Migrant workers and the global care chain. Changing gender divisions in high income and emerging economies – in the UK, USA, Germany, China and in the Scandinavian and Eastern European countries; Policies for gender equality.

LT: Gender in the Global South: ‘Engendering’ the development agenda; Conceptualising and measuring gender inequality; The UNDP gender indices and beyond; Fertility, reproduction and health; Households and families; Employment and the ‘informalisation’ and ‘feminisation’ of labour; Gender dimensions of national and international migration; Gender and development policy; Girls and GAD; Men and masculinities.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce one essay per term, and will also be expected to give class papers.

Assessment: Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 2500 words) in the LT.

GY305 Urban and Spatial Economic Analysis II

This information is for the 2017/18 session.

Teacher responsible: Dr Olmo Silva STC.S506a

Availability: This course is compulsory on the BSc in Geography with Economics. This course is available on the BA in Geography, BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students should have normally taken one or more from: EC100, GY201, GY222.

Course content: The aim of the course is to develop theoretical and empirical understanding of spatial economic processes in order to study and evaluate a wide range of issues and policies. Particular emphasis will be put on urban and regional economies and business and worker location decisions. More specifically, the first part of the course will study models of the location of economic and innovation activity with a particular emphasis on regional economies. The second part of the course continues to study location, but focuses more on household location decisions, personal mobility and their implications for spatial labour markets, housing markets and residential neighbourhoods.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 9 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Students will be expected to produce a
minimum of two essays during the year.

**Indicative reading:** A detailed reading list will be given out at the beginning of the course. Reading will predominantly include journal articles and policy documents.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.
Essay (25%, 2500 words) in the LT.

---

**GY306 Geographies of Race**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Austin Zeiderman

**Availability:** This course is available on the BA in Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** None

**Course content:** This course will critically analyze the intimate relationship between race and space in the modern world. Through a range of historical and contemporary examples, it will examine how interconnected forms of racial and spatial difference are produced, reproduced, and transformed. Focusing on the material and cultural formation of racialized geographies, students will learn to recognize how racially inflected discourses and practices shape the production of space and how geographical location matters to racial classification, identification, and discrimination. The course will be organized around a series of archetypal spaces: for example, the body, the nation, the colony, the city, the home, the prison, the plantation, the border, the school, and the street. In each case, students will examine the confluence of race and space within broader themes, such as colonialism, capitalism, urbanization, globalization, environmentalism, migration, and incarceration. Since race often intersects with other forms of difference, students will also learn to interrogate the influence of gender, class, religion, and sexuality on the production of space. Texts from human geography, critical race theory, colonial and postcolonial studies, history, sociology, and anthropology in addition to other media, such as film, literature, journalism, and photography, will provide students with conceptual resources and methodological tools. Ultimately, the objective is to advance a comparative, critical analysis of the relationship between race and space, past and present, and to explore the conditions of future possibility for the linked political projects of anti-racism and spatial justice.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT.

---

**GY324 Environmental Governance**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Michael Mason STC.510 and Dr Richard Perkins STC.413

**Availability:** This course is compulsory on the BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available on the BA in Geography and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This course seeks to explore and critically interrogate the evolving patterns and processes of environmental governance. The course begins by examining recent debates on the changing role of state and non-state actors in environmental governance, and outlines different explanations for market actors’ growing engagement with environmental sustainability. The next part focuses on the role of financial and corporate actors in environmental governance, outlining the motives, practices and outcomes of sustainable and responsible investment (SRI) and corporate social responsibility (CSR). Lent Term provision examines the issues, actors and processes that shape environmental governance at the transnational and global scales. Introductory lectures on the global environmental policy process introduce different scholarly perspectives informing current research (e.g. regime analysis, critical political economy and constructivism); these perspectives are referred to as subsequent lectures address particular actor groups and issues (e.g. sustainable energy transitions, climate security). Students are encouraged to think critically about the ways in which the regulation of global environmental risk is framed and politically contested.

**Teaching:** 15 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 9 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce a minimum of three 1,500 word formative essays/projects during the year.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.
Essay (25%, 2500 words) in the LT.

---

**GY325 Environment and Development**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Charles Palmer STC. S303
**Availability:** This course is compulsory on the BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available on the BA in Geography and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Applied Environmental Economics (GY222) and/or Intermediate Microeconomics (EC201)

**Course content:** This course explores the complex relationships between development, poverty and the environment. It covers a range of important natural resource and environmental issues in developing countries, and provides students with the necessary tools to critically evaluate how these issues have been addressed by different stakeholders and at different levels of governance. Using concepts and analytical tools grounded in political ecology and economics, the course will examine a range of topics, including: the politics of sustainable development; property rights and governance; the food-energy-water nexus; the resource curse; critical resource issues (including forestry, fresh water, and fisheries); biofuels, and urbanisation.

By the end of the course, students should be able to:
- Assess key debates related to sustainable development
- Critically evaluate relationships between development, poverty, natural resource use and the environment
- Understand the natural resource linkages between developing and developed countries

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 9 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce one 1,000 word formative essay in the MT and one 750 word essay plan in the LT.

**Indicative reading:**

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 4000 words) in the LT.
HY116
International History since 1890

This is for the 2017/18 session.

Teacher responsible: Prof David Stevenson 3.11 (SAR)

Availability: This course is compulsory on the BSc in International Relations and BSc in Government and History, BSc in Politics and International Relations and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course aims to equip students with a comprehensive knowledge of international politics since 1890, to provide a factual grounding and interpretive apparatus necessary to understand the contemporary world, and to survey the main historiographical debates. Lectures and classes examine the origins, course, and aftermath of the First World War, the Great Depression, appeasement, and the origins of the Second World War in East Asia and Europe; the course and aftermath of the Second World War and the global origins of the Cold War; and aspects of the Cold War world, including decolonization, European integration, the Arab-Israeli conflict, the ‘American war’ in Vietnam, and peaks and troughs of tension between the superpowers from the Cuban Missile Crisis to détente. The course closes with the end of the Cold War and the origins of the post-Cold War era.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a reading week in the Michaelmas and the Lent terms.

Formative coursework: Students will be required to write three 2,000-word essays during the course of the year, two in MT and one in LT, from topics chosen from a past examination paper or designated in the course reading list, and in addition to complete a one-hour mock examination in LT. Essays and mock examination do not form part of the final course assessment. However, they are required components of the course, and students must complete them in order to be admitted to the course examination.

Indicative reading: A detailed course outline and reading list, subdivided by weekly topics, will be found in the HY116 Moodle site. The following works offer useful background: students should consider reading one or more of the following: A. Best, J. Hanhimäki, J. Maiolo, K. E. Schulze, International History of the Twentieth Century and Beyond (2015); W R Keylor, The Twentieth Century World and Beyond: an International History since 1900 (2011).

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

HY118
Faith, Power and Revolution: Europe and the Wider World, c.1500–c.1800

This is for the 2017/18 session.

Teacher responsible: Dr Paul Keenan SAR 2.13

Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides an introduction to the international history of the early modern period by examining the complex political, religious, military and economic relationships between Europe and the wider world. The period between 1500 and 1800 enables the course to introduce students to a crucial period in international history. In political terms, it covers the rise of major dynastic states, with increasingly centralised institutions and concepts such as absolutism to promote the authority of the monarch, as well as the challenges to that authority and growing interest in political and social reform, culminating in the revolutions examined at the end of the course. Internationally, the period witnessed the gradual consolidation of leading European powers, as reflected in the Treaty of Westphalia (1648), with formerly peripheral states emerging to challenge their position by the early eighteenth century. At the same time, the rise of major Islamic empires in Eurasia and the growing contact between Europe and the wider world provide students with important points of comparison between European and non-European states. The intellectual, religious and cultural developments of this period provide an important context for these major political events. The course will discuss the influence of key movements, such as the Renaissance, the Scientific Revolution and the Enlightenment, which re-ignited an interest in the Classical past and fostered a culture of rational enquiry into the natural world. Yet religion remained a vital component in the world-view of contemporaries, whether Christian, Muslim, or Jewish. This world-view was subject to challenges throughout the period, as during the Reformation, and often sought to impose its own orthodoxy, whether through religiously-motivated conflicts or the persecution / conversion of certain groups. The course seeks to familiarise students with some of the most important issues and current debates on these aspects of this period. While its scope is necessarily broad in nature, the course will help students to deal with the dynamics of continuity and change over a long period of time.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures, 10 hours of classes and 1 hour of workshops in the LT. 1 hour of lectures in the ST.

There will be a reading week in the Michaelmas & Lent terms and a revision lecture in the Summer Term.

Formative coursework: Students will be expected to produce 2 essays in the MT and 1 essay in the ST.

The third formative essay is a mock exam answer, which will be written by students as part of their revision during the Easter break, then graded by teachers and given written feedback in the first week of Summer Term.

before Europe: Economy and Civilisation of the Indian Ocean from the Rise of Islam to 1750 (1990) DS339 C49

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period. Project (50%, 10000 words) in the LT.

Please note that this course has an assessed group project, which forms 50% of the final course grade. This project consists of a final piece of work, of no more than 10,000 words, which is written by all members of the group and submitted at the end of LT. The grade for this project is then shared by the group's members.

**HY119**

**Thinking Like A Historian**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Taylor Sherman SAR M.10

A permanent member of International History staff supervises this course. LSE Teaching Fellows lead the group-work sessions.

**Availability:** This course is compulsory on the BA in History and BSc in International Relations and History. This course is not available as an outside option. This course is available with permission to General Course students.

This course is optional for General Course students whose home department is International History. This course is optional for first year BSc Government and History students. Students for whom the course is optional must commit to the course when they choose it.

**Course content:** This course offers hands-on tutorials in the skills required to get the most out of classes and write essays for History courses. Students are taken through each of the skills required: reading well and taking good notes; asking good questions of sources, classmates and teachers; turning notes into essays; developing persuasive arguments in essays and presentations; identifying and using historiography; writing well; revision and improvement.

**Teaching:** 7 hours and 30 minutes of workshops in the MT. 1.5 hour workshop each week in weeks 3, 4, 5, 7 and 8 of Michaelmas Term only.

**Formative coursework:** There is no formative coursework for this course.

**Assessment:** There is no summative assessment for this course.

**HY200**

**The Rights of Man: the History of Human Rights Discourse from the Antigone to Amnesty International**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Timothy Hochstrasser Sardinia House 2.14

**Availability:** This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** Human Rights are often assumed to have a precise twentieth-century origin in the 1948 Universal Declaration or in the succeeding decades of increasing activism. However, the history of human rights discourse and its practical impact emerged as only the latest stage of a sequence of intellectual debates and real-life struggles in specific historical settings over political, religious, economic rights, broadly defined. Different cultural milieus have produced a variety of contexts for working out tensions between claims by individuals or minorities for autonomy on the one hand and the rival demands of collective obligation and identity on the other.

This course will seek to explore an (inevitably selective) range of these historical contexts in order to demonstrate the continuity of perennial themes of conflict between the claims of individual actors and corporate institutions, whether states, churches, empires or other institutions, while also showing how and when key changes take place in the recognition of rights of political action, conscience, property ownership, gender identity and workers’ rights etc. The growth of toleration and free speech, the abolition of slavery and torture, and the role of Declarations of Rights will all be examined, but less familiar subjects will also find their place. The contribution of the conceptual legacy and historical inspiration of Greece and Rome will be recognised as will the crucial role of the political thought of the High Middle Ages, and at the other end of the course specific connection will be made to the recent development of human rights organisations.

In each session a contrasted selection of contemporary writings will be studied to recover the intellectual framework of the discussion and the role of the dispositive political, social, and economic circumstances of the debate will also be considered.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

There will be a reading week in week 6 of the MT and the LT. Students will be expected to read essential primary and secondary material for each weekly meeting, to participate fully in class discussions and offer presentations. Both participation and presentations will form part of summative assessment.

**Formative coursework:** There will be one essay of 3,000 words to be submitted in the Michaelmas Term.

**Assessment:** Essay (35%, 3500 words) in the LT.

**Essay (35%, 3500 words) in the ST.**

Class participation (15%) and presentation (15%) in the MT and LT.
HY206
The International History of the Cold War, 1945-1989

This information is for the 2017/18 session.

Teacher responsible: Dr Piers Ludlow SAR 2.16

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The Cold War dominated the second half of the 20th century, but until recently we had only an imperfect sense of what it was all about. Historians wrote about it, of necessity, from within the event they were seeking to describe, so that there was no way to know its outcome. And because only a few Western countries had begun to open their archives, these accounts could only reflect one side of the story. Cold War history, hence, was not normal history. It was both asymmetrical and incomplete. The end of the Cold War and the subsequent partial opening of Soviet, Eastern European, and Chinese archives have revolutionised the field. Everything we thought we knew is up for reconsideration, whether because of the new documents available to us, or as a consequence of being able to reflect on how it all came out in new ways - given that the historical discipline has evolved methodologically as well.

The course will provide an introduction to key topics in the new, international history of the Cold War. The selected topics vary from the study of specific Cold War crises to the exploration of broader themes such as the roles of ideology and technology.

Course objectives: (i) To equip students with comprehensive knowledge of the international politics of the Cold War; (ii) To offer a firm basis for more advanced historical work in this area; (iii) To provide some of the factual grounding and conceptual apparatus necessary to understand the contemporary world.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Students are expected to keep up with readings for weekly seminars, and to participate in the class discussions. There will be a reading week in the Michaelmas and the Lent Terms.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Essay (35%, 3500 words) in the LT.

Essay (35%, 3500 words) in the ST.

Presentation (15%) in the MT and LT.

Class participation (15%) in the MT and LT.

HY221
The History of Russia, 1682-1825

This information is for the 2017/18 session.

Teacher responsible: Dr Paul Keenan SAR 2.13

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

May be taken by 3rd years, General Course students and as an outside option where regulations, timetabling constraints and teaching capacity permit.

Course content: The course provides an introduction to the history of Russia in all its major aspects from the reign of Peter I to the accession of Nicholas I. The following topics are studied: Russia in 1682; the impact of the reign of Peter I on the internal development and international position of Russia; the social and political developments of the period 1725-1762; popular revolt during the eighteenth century; the domestic and foreign policies of Catherine I; the impact of the Enlightenment and the French Revolution on Russia; Russia and the Napoleonic Wars; the failure of constitutional and social reform in the first quarter of the nineteenth century; the policies towards non-Russians within the empire; the Decembrist Revolt of 1825. The course is taught chronologically but several main themes are addressed throughout the period. These themes include: ‘tsarist rule as an instrument of both reform and reaction; the relationship between the ruler and the major social groups; the significance of serfdom for Russia’s economic, institutional and legal development; the ‘missing’ middle class; the nature and impact of Western ideas on Russia; the role of the Orthodox Church within the Russian state; the growth of a disaffected elite in Russia; the relationship between Russia and other European powers; the development of Russia as a ‘great power’; the policies towards the non-Russians in the multi-ethnic empire; the growth of a Russian national consciousness.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a reading week in Michaelmas and Lent terms. There will be a revision lecture in Summer Term.

Formative coursework: Students will be required to write three essays, one of which will be done under examination conditions.

Indicative reading: A full reading list will be provided at the start of the course. Useful introductory works include: J Hartley, A Social History of the Russian Empire 1650-1825; S Dixon, The Modernization of Russia 1682-1825; M Rafeff, Understanding Imperial Russia: State and Society in the Old Regime; J Billington, The Icon and the Axe: An Interpretive History of Russian Culture; A Kahan, The Plow, the Hammer and the Knout: An Economic History of 18th Century Russia; P Dukes, The Making of Russian Absolutism, 1613-1801; E Kimerling-Wirtschafter, Russia’s Age of Serfdom; D Saunders, Russia, in the Age of Reaction and Reform, 1801-1881.

Assessment: Exam (85%, duration: 3 hours) in the main exam period.

Presentation (15%).
HY232
War, Genocide and Nation Building. The History of South-Eastern Europe 1914-1990

This information is for the 2017/18 session.

Teacher responsible: Dr Andrea Mason
Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. May be taken by 3rd years where regulations permit.

Course content: The course aims to explain the history of these regions as expressed and moulded by the peoples and their leaders during a particularly turbulent period in European History. Attention will be paid to two European wars and the Russian Revolution, all of which had a profound impact on these countries’ freedom to determine their destiny. The study of the inter-war period will include a debate of the reasons for the collapse of democratic institutions, the emergence of patriotic and anti-Semitic movements, economic failures and responses to German and Italian aggression. The establishment, development and the collapse of Soviet domination of the region after the Second World War will be discussed on the background of ethnic and inter ethnic conflicts. In addition political, economic and cultural theories, which formed the background to the emergence of the independent states of Eastern and South Eastern Europe, will be considered. The course will develop these themes in the history of Poland, Czechoslovakia, Hungary, Bulgaria, Romania, Yugoslavia, Albania and the Baltic States. Final lectures will concentrate on the transition from Communism to democratic states. The break up of Yugoslavia and the wars in the Balkans will be considered in a separate lecture.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a reading week in Michaelmas and Lent terms, and revision session in Summer Term.

Formative coursework: One essay in the MT, one essay in the LT and a timed essay as exam preparation.

HY238
The Cold War and European Integration, 1947-1992

This information is for the 2017/18 session.
Teacher responsible: Dr Piers Ludlow SAR 2.16
Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: The course will investigate the evolution of both the cold war in Europe and the process of European integration, asking what the linkages were between these parallel developments. The Marshall Plan; the birth of NATO; the Schuman Plan; German Rermament and the EDC; the Western European Union; the US and Euratom, the other Community - the EEC, JFK’s Grand Design; De Gaulle’s rival vision, the ‘double crisis’ of 1965-6; Harmel, NATO and the WEU, Ostpolitik and the re-emergence of German foreign policy activism; enlargement, EPC, and Kissinger; Schmidt, Giscard and Carter; Euromissiles and Eurosclerosis; Genscher-Colombo and the revival of political Europe; Europe and the end of the cold war - spectator or actor?; a German Europe or a European Germany?; Paris, Berlin & Maastricht.
Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.
There will be a reading week in the Michaelmas and the Lent terms and a revision session in the Summer Term.
Formative coursework: Students will be required to submit three essays, the last one of which will be formally assessed. There will also be a mock exam in the Summer Term.
Assessment: Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 3000 words).

HY239  Not available in 2017/18
Latin America and the United States since 1898

This information is for the 2017/18 session.
Teacher responsible: Dr Tanya Harmer SAR M.11
Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: HY239 is designed to provide students with an introductory overview of the history of the Americas and inter-American relations from 1898 to the present day. Rather than focussing exclusively on U.S. policy towards Latin America, the course explores the international history of Latin America and the United States from a variety of U.S and Latin American perspectives. It also incorporates broader thematic and interpretive questions alongside country specific studies. Among the major themes covered on the course are the concepts of imperialism, neo-colonialism and anti-imperialism, revolution and counter-revolution, nationalism and interventionism, democracy and dictatorship, human rights and repression, development and dependency, the ‘war on drugs’ and migration. More specific topics covered in lectures and class discussions include: the Spanish-American War; Big Stick and Dollar Diplomacy; FDR’s ‘Good Neighbour’ policy; Juan Perón and Populism; the onset of the Cold War and post-war system in the Americas; Jacobo Arbenz’ Guatemala; the Cuban Revolution; JFK and the Alliance For Progress; the Brazilian Coup of 1964 and U.S. intervention in the Dominican Republic, 1965; Cuba’s Latin American policy and Che Guevara’s Bolivian mission; Salvador Allende’s Chile; the ‘Condor Years’; the Panama Canal Treaty and Carter’s opening to Cuba; the Nicaraguan Revolution and Reagan’s Central American interventions; ‘The Lost Decade’ and Debt crisis of the 1980s; the Washington Consensus, the War on Drugs, Hugo Chavez and the ‘Bolivarian Alternative for the Americas’ (ALBA).
Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.
There will be a reading week in the Michaelmas and Lent terms and a revision lecture in the Summer Term.
Formative coursework: Students will be required to do two presentations, to write one 2,000-word essay and one 1,000-1,500-word book review, to contribute to weekly Moodle discussion forums, and to submit a Mock exam at the start of the Summer Term. These assignments will not form part of the final assessment but they are a required component of the course, and students must complete them in order to be admitted to the course examination.
Indicative reading: A detailed course outline and reading list, subdivided by weekly topics, will be provided at the first lecture and will also be available on Moodle and in the departmental public folders. However, the following works are useful introductions and core texts for the course: E Williamson, The Penguin History of Latin America, Mark T Gilderhus, The Second Century: U.S.-Latin American Relations since 1899, Robert Holden and Eric Zolov, Latin America and the United States: A Documentary History, Walter Lafeber, Inevitable Revolutions: The United States in Central America, Alan McPherson, Intimate Ties, Bitter Struggles: U.S.-Latin American Relations Since 1945, Lars Schoultz, Beneath the United States: A History of U.S. Policy Towards Latin America, Peter H Smith, Talons of the Eagle: Dynamics of U.S.-Latin American Relations, Thomas Skidmore and Peter Smith, Modern Latin America, and Eduardo Galeano, Open Veins of Latin America.
Assessment: Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 3000 words) in the LT.

HY240
From Empire to Commonwealth:
war, race and imperialism in British History,
1780 to the present day

This information is for the 2017/18 session.
Teacher responsible: Dr Jack Hogan
Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: This course offers an advanced history of the British Empire that focuses on the metropolitan experience of building, running and then losing an empire. Its primary focus is on Africa. It covers the period from the loss of the American colonies to decolonisation and the survival of the Commonwealth. Within the context of Britain’s wider political, social and cultural history.
the course will examine the following: the extension of empire during the Victorian era, liberalism and racism; the expansion of colonies of white settlement; the role of missionaries; the scramble for Africa, the impact of empire at home, the running of empire overseas; gender and empire; managing national decline and empire; the contribution of empire to the First and Second World Wars; fast exit strategies; violent decolonisation; race and immigration; post-colonial dictators and the legacy of white settlers. Case studies include Britain and Zimbabwe; Idi Amin and Uganda; and the Mau Mau insurgency.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a reading week in the Michaelmas and the Lent terms and a revision lecture in the Summer Term.

**Formative coursework:** 2 essays; one mock exam; class presentations.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

100% Exam

**What is History? Methods and Debates**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Imaobong Umoren

**Availability:** This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** What is history? How and for what purposes do we study the past? What kinds of debates and controversies result from historical study? The purpose of this course is to provide undergraduate students with an introduction to these important issues. We will discuss the history of history from ancient times to the present and how it has changed as an intellectual pursuit over the years. We will think about different types of history – for example, international history, intellectual history, social history, economic history, cultural history or the history of religion – and we will discern their different concerns and priorities. We will analyse some of the most important themes in modern historical study: empires and colonialism, war and conflict, nationalism. We will outline different ideological frameworks for conducting historical research, for example Marxism, postmodernism, and gender studies. We will debate some of the key philosophical questions surrounding historical research: for example, how historians determine facts, and whether or not historical study can ever be truly objective? Finally, we will look at different ways of presenting the past, from traditional history books to museums and TV history. The course is highly recommended for all those students studying history, especially those completing a history-based dissertation.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in the Michaelmas and Lent terms and a revision session in the Summer Term.

**Formative coursework:** Students will be expected to produce 2 essays in the MT.

**Indicative reading:** A full reading list will be provided at the start of the course but will include the following introductory surveys: Berger, Feldner and Passmore, Writing History; D Cannadine (Ed), What is History now?, L. Jordanova, History in Practice; R Evans, In Defence of History; J Tosh, The Pursuit of the Past; M Bloch, The Historian's Craft; R G Collingwood, The Idea of History; T. Garton Ash, The File.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%) in the LT.

**HY242**

**The Soviet Union: Domestic, International and Intellectual History**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Vladislav Zubok SAR 3.13

**Availability:** This course is available on the BA in History, BSc in Government and History, BSc in International Relations and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This course will cover the history of the Soviet Union, from its inception as a combination of the Russian Revolution and a Bolshevik dictatorship, through the Stalinist terror and World War II, its role as an international centre of the ‘socialist camp’ during the Cold War, to the failure of Gorbachev’s reforms and a surprisingly peaceful demise in 1991. Many courses on Soviet history deal separately with politics, social history, foreign policy, and intellectual/cultural developments. This course seeks to connect disparate threads into one historical and analytical narrative by focusing on major issues confronting the interpretation of the Soviet Union and its role in the international history of the twentieth century. The course takes advantage of the extraordinary wealth of new sources about Soviet history that appeared in recent years. The following questions will be examined during this course. Was the Soviet Union a continuation or rejection of its Russian heritage? What were the sources of Soviet legitimacy, modernization, and expansionism? What was Stalinism about? Why and how did the Soviets win the war against the Nazis? Can Soviet history be better understood as a multinational, imperial, or transnational history? How did the outside world affect Soviet domestic evolution? Why did the militarily successful Soviet state that emerged strongly from the Second World War then collapse so suddenly only a few decades later? Finally, the course will examine the legacy of the Soviet Union and the extent to which there is a Soviet ‘path dependency’ for Putin’s Russia.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 9 hours of classes in the LT. 1 hour of classes in the ST.

There will be a reading week in the Michaelmas and the Lent terms and a revision class in the Summer Term.

**Formative coursework:** Students will be required to write two 2,000-word essays (one in MT and one in LT) and make two class presentations (one in MT and one in LT).

**Indicative reading:** Vladislav Zubok, A Failed Empire. The Soviet Union in the Cold War from Stalin to Gorbachev (2007); Vladislav Zubok, Zhivago’s Children: The Last Russian Intelligentsia (2009); Martin Malia, The Soviet Tragedy. A History of Socialism in Russia
HY243
Islamic Empires, 1400 - 1800

This information is for the 2017/18 session.
Teacher responsible: Dr Gagan D. S. Sood. SAR 2.07
Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Pre-requisites: None.
Course content: Following the Mongol upheavals of the thirteenth and fourteenth centuries, the Ottoman, Safavid and Mughal empires arose in India and the Islamic heartlands. These ‘Islamic’ empires would go on to rank among the wealthiest and most powerful regimes known to the early modern world. Supported by an array of provincial and local elites, they were at the zenith of their power in the sixteenth and seventeenth centuries, spanning a region that extended from the Mediterranean to the Bay of Bengal, from Yemen to the Crimea. Their populations were producers, consumers, importers and exporters of goods critical for global trade; their location accorded them a vital role in the flow of ideas and information; there was a remarkable flowering of the arts in the period; and conversion to the region’s dominant religious tradition, Islam, continued apace, forged new frontiers. By the eighteenth century, however, the Islamic empires had been reduced to shadows of their former selves, with power devolved to a variety of successor regimes vying with each other for supremacy. It is this struggle that paved the way for the region’s later incorporation into Europe’s global empires of modern times, and the emergence of today’s Middle East and South Asia. This course will examine the Ottoman, Safavid and Mughal empires, and the larger world of which they were part, from their origins in the fifteenth and early sixteenth centuries to their ‘decline’ in the eighteenth. We will study how temporal authority was expressed symbolically and through governance; the patterns of daily life found in urban and rural settings, and on the frontier; Islam in theory and in reality, and its relationship to the region’s other major religious traditions; diplomacy within and without the Islamic world; the new techniques and technologies of warfare; inherited and collective knowledge of other lands, near and far, and the everyday movement of people, goods and news; the signal achievements in the literary, visual and architectural realms; secular changes to the region’s societies and economies; early modern millenarianism, fundamentalism and reformism; and the reasons for the eighteenth-century demise of the Islamic empires as world powers.
Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.
In the ST, there will be a mock exam (1 hour) and revision class (1 hour). There will be a reading week in both MT and LT.
Formative coursework: Students are expected to submit two 2000-word essays (one in MT, one in LT), give an oral presentation in class, and sit a 1-hour mock exam in ST.
Assessment: Exam (90%, duration: 3 hours) in the main exam period. Class participation (10%) in the MT and LT.

HY245
The United States and the World since 1776

This information is for the 2017/18 session.
Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.
Course content: This course explores how the United States has engaged the wider world since 1776. Throughout, the course analyzes state-to-state policy-making alongside a wide array of non-state actors and institutions that have also shaped U.S. global power. It opens with foundational concerns in the field about the nature of American exceptionalism—the belief that the United States is fundamentally different than other nation-states and empires—before exploring themes such as settler colonialism, race, gender, capitalism, imperialism, immigration, and transnationalism. The course arc will begin in the earliest founding of the American Republic. Since independence, the nation looked outward to the vast expanse of territory westward across the continent. It spearheaded expansion through indigenous land dispossession and contests with competing European empires. When the United States met territorial limits to continental expansion at the end of the nineteenth century, it initiated an era of formal overseas imperialism in the Pacific and Caribbean. In and through two World Wars, the United States jockeyed for a lead role in constructing an international global order organized around commitments to self-determination. These commitments rang hollow, however, as the United States intervened across the Third World as part of a Cold War contest with the Soviet Union to win hearts, minds, and allies. With decolonization movements, the international order began to fragment, a process accelerated by a new era of globalization. The course will trace this arc and end by considering such transnational forces, including migration, environmentalism, humanitarianism, financialization, and terrorism, which have underscored the recent emergence of...
The dissertation must be submitted to the Undergraduate Assessment: comments on a sample of up to 3000 words. Scholarly literature, guidance on research and writing, and detailed to the Undergraduate Programmes Administrator by published or tutor) to supervise a suitable topic, and then submit a title Department of International History (who need not be their advisor year the agreement of a member of academic staff in the L T.

Teaching: 1 hour of workshops in the MT. 2 hours of workshops in sources, in printed, manuscript and/or digital form. The degree course. It should include the examination of primary to allow a detailed and thorough exploration of a topic of interest to the candidate. The topic should fall within the parameters of an outside option nor to General Course students.

A dissertation of not more than 10,000 words on HY300

Dissertation

This information is for the 2017/18 session.

Teacher responsible: Dr Antony Best SAR 3.14

Availability: This course is compulsory on the BA in History. This course is available on the BSc in Government and History and BSc in International Relations and History. This course is not available as an outside option nor to General Course students.

Course content: A dissertation of not more than 10,000 words on a topic to be approved by the candidate's supervisor. It is designed to be a detailed and thorough exploration of a topic of interest to the candidate. The topic should fall within the parameters of the degree course. It should include the examination of primary sources, in printed, manuscript and/or digital form.

Teaching: 1 hour of workshops in the MT. 2 hours of workshops in the LT. Candidates should secure in the course of the LT of their second year the agreement of a member of academic staff in the Department of International History (who need not be their advisor or tutor) to supervise a suitable topic, and then submit a title to the Undergraduate Programmes Administrator by published deadline. Supervisors can be expected to offer advice on the scholarly literature, guidance on research and writing, and detailed comments on a sample of up to 3000 words.

Assessment: Dissertation (100%, 10000 words) in the ST. The dissertation must be submitted to the Undergraduate Programmes Administrator by the published deadline in Week 1 of ST in the student's third year. It should be typewritten. Precise details on length, format, presentation and deadline will be issued by the Department through the workshops and Moodle. Candidates may be called for an oral examination if the Examiners wish to satisfy themselves that the dissertation is the candidate's own work.

Limited War During the Cold War Era: The US in Korea (1950-53) and Vietnam (1954-75)

This information is for the 2017/18 session.

Teacher responsible: Prof Steven Casey SAR 2.10

Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Based on a variety of primary sources, and a wide range of secondary reading, this course will explore US attitudes and policies towards and during the Korean and Vietnam Wars. The problems of limited war, the origins of the Korean War, Truman and the decision to intervene; Inchon and the decision to cross the 38th parallel; the Chinese intervention and its consequences; the US home front during the Korean War; the Truman-MacArthur Controversy; Korea and US Cold War strategy: NSC-68, NATO, and ‘The Great Debate’; fighting while negotiating, 1951-53, legacies; JFK and Vietnam; LBJ and the decision to escalate; LBJ as Commander in Chief; the war on the ground in Vietnam: ‘search and destroy’ versus ‘hearts and minds’; the Tet Offensive; the media and military at war; the US home front during the Korean War; Vietnam and US Cold War strategy: détente and triangular diplomacy; fighting while negotiating, 1969-73, legacies.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST. Students are expected to keep up with the readings (documents and secondary literature) for the weekly meetings, and to participate in seminar discussions. There will be a reading week in the Michaelmas and the Lent terms and a revision session in the Summer Term.

Formative coursework: Students will be required to write two essays and two gobbet exercises during the year.

Indicative reading: A detailed course outline and reading list, as well as handouts, will be available as the start of the course. The following works are recommended: Steven Casey, Selling the Korean War (2008); William Stueck, Rethinking the Korean War (2002); Burton I. Kaufman, The Korean War: Challenges in Crisis, Credibility and Command (1986, or later edition); Rosemary Foot, The Wrong War: American Policy and the Dimensions of the Korean Conflict, 1950-53 (1985); George Herring, America's Longest War (various editions); David L. Anderson, Shadow on the White House: Presidents and the Vietnam War (1993), David L. Anderson (ed), The Columbia History of the Vietnam War (2011); Robert J. McMahon, The Limits of Empire: The United States and Southeast Asia since World War II (1999).

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

HY315

The European Enlightenment, c.1680-1799

This information is for the 2017/18 session.

Teacher responsible: Dr Timothy Hochstrasser SAR 2.14

Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students a nationalist brand of anti-globalization in the United States and wider world. Throughout, we will ask, what historical conditions incited and enabled the projection of American power in the world? How have forces of globalization impacted the nation-state? Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6 of MT and LT.

Formative coursework: Students will be expected to produce 2 essays in the MT and LT. Two 2,000 word essays due throughout the year. A mock exam may be offered as part of exam revision arrangements.

Assessment: Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 3000 words) in the LT.
on other programmes where regulations permit and to General Course students.

**Course content:** The European Enlightenment of the eighteenth century is conventionally taken to be the period in which the disciplines of philosophy, history, economics and anthropology, and other social sciences began to emerge as discrete disciplines independent of state and church control. This course therefore sets out to explore the new ideas generated in these areas as a result of a fresh understanding of man's place in the physical world. But while the course aims to look at ideas and concepts in themselves it is also concerned with the way that they were applied in political practice and adapted to provide new understanding of social structures, or as contemporaries put it, a 'Science of Man'. The chronological context of the Enlightenment is taken to be Europe between the reign of Louis XIV and the end of the Directory in 1799. Within this broad framework the following large themes provide the subject matter of both lectures and classes in the Michaelmas Term: the impact of the Scientific Revolution upon institutionalised religion; the emergence of a 'Republic of Letters'; English and French critiques of absolutist monarchy; the creation of scientific approaches to the study of ethics and politics; the political theory of enlightened despotism; the intellectual origins of the French Revolution; intellectual encounters with the New World; the concept of a Counter-Enlightenment; and the move from a private to a public sphere of cultural inquiry. The contributions of Newton, Locke, Voltaire, Montesquieu, and Rousseau - among others - will be highlighted. In the Lent Term the focus will be more narrowly directed to the study of individual key authors and texts and on the impact of enlightened ideas in particular countries, notably England, France, Prussia, Russia and the Habsburg Monarchy. Space will also be found for an examination of the contribution of enlightened thought to the visual arts and music in the 18th century. The course gives students the chance to consider whether or not the Enlightenment was an era of European history that fostered the application of reason to political and social reform, an end to censorship, torture, and hierarchical social models, and a beginning to religious toleration and recognizably modern concepts of human rights, international law and social equality. The focus throughout will be on the writings of the philosophes themselves and their attempts to convert theoretical innovation into practical reform through the agency of bureaucracy and rulers.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

**Week 6 of the first term will be a reading week. Week 6 of the second term will contain a mock exam. There will be a revision lecture in week 1 of the Summer Term.**

**Formative coursework:** Two pieces of formative assessment are required, the first a source-criticism exercise in the Michaelmas Term (week 4), and the second a conventional essay in the Lent Term (week 4). In addition there will be a mock-exam in the reading week of the Lent Term.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period. Presentation (15%) and class participation (10%) in the MT and LT. Students MUST give an assessed presentation in either the MT or the LT. Class participation will be graded across both the MT and the LT.

**Napoleon and Europe**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Paul Keenan SAR 2.13

**Availability:** This course is available on the BA in History, BSc in Government and History, BSc in International Relations and BSc in International Relations and History. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The Napoleonic Empire was crucial in the formation of modern Europe. Much of Europe was covered by the Napoleonic Empire and its impact was felt across large parts of the non-European world. The influence of the emperor and his policies was most obvious in relation to the European international system, particularly through his military campaigns and his territorial reorganisation of Europe n the wake of his successes. However, the Napoleonic era also saw major developments in the legal, constitutional, social, and economic order of many states, whether allied or opposed to the Napoleonic project. Likewise, in the aftermath of the French Revolution, much attention is paid to the impact of the Napoleonic era on the relationship between Church and State and the rise of national consciousness, whether in political or cultural terms. By studying how Napoleon's empire was created, challenged, and ultimately defeated, the course will focus on the nature of power and legitimacy in this era. An attempt will be made to place the Napoleonic empire in a broader context, in part by comparing it to other contemporary, rival states, including Russia, Austria, and the United Kingdom. Finally, the course will begin and end with an assessment of the Napoleonic myth, both in terms of its contemporaries and for subsequent generations of historians.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT.

**There will be a reading week in the Michaelmas and the Lent terms.**

**Formative coursework:** Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.

**Indicative reading:** A full reading list will be provided at the beginning of the course. Useful introductory reading includes: M. Lyon, *Napoleon Bonaparte and the Legacy of the French Revolution*; G. Ellis, *The Napoleonic Empire*; C. Emsley, *Napoleon: Conquest, Reform and Reorganisation*; M. Broers, *Europe under Napoleon, 1799-1815*; C. Esdaile, *Napoleon's Wars*; S. J. Woolf, *Napoleon's Integration of Europe*; P. Dwyer (ed.), *Napoleon and Europe*; P. Geyl, *Napoleon, For and Against*.

**Assessment:** Essay (50%, 3000 words) in the ST. Other (20%) in the LT. Presentation (20%) and class participation (10%) in the MT and LT. The other assessment in the LT involves a 2000-word document analysis.

**The Cold War Endgame**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Robert Brier SAR M.13

**Availability:** This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** Based upon a variety of primary sources, this course will explore why and how in the second half of the 1980s the Cold War confrontation between the United States and the Soviet Union transformed itself so suddenly and peacefully into the collapse of (European) communism, German unification and the end of the USSR and her empire. In doing so, we will ask what was the correlation between "high" and "low politics"
Gulf after the Second World War, in the face of Arab and Iranian decline of the British Empire and the rise of American power in the struggle for mastery in the Gulf in three stages. It begins with the documentary primary sources, the course covers the history of this and local actors for regional supremacy. Through the use of the Persian Gulf as an ongoing struggle among external powers where regulations permit and to General Course students. This course examines the international history of this course include: nationalism in Mosaddeq's Iran and Qasim's Iraq; the Arab Cold War and the civil war in Yemen; the Cold War politics of reform in Mohammad Reza Shah's Iran and King Faisal's Saudi Arabia; the British withdrawal from the Persian Gulf between 1968 and 1971; Nixon and Kissinger in the Persian Gulf; the secret war between Iran and Iraq in Kurdistan from 1972 to 1975; the rise of OPEC and the 1973/74 energy crisis; the 1979 Iranian Revolution; the Iran-Iraq War of 1980 to 1988; the Persian Gulf War of 1991; the rise and fall of Iranian-American détente under Khatami; Saudi Arabia and the United States before and after 9/11; and the 2003 Anglo-American invasion of Iraq.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. There will be a reading week in MT and LT and a revision session in ST.

**Formative coursework:** Students are required to submit one essay of 3000 words in the MT, one set of gobbet answers during the LT; and one 1-hour timed mock exam in ST.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period. Essay (25%, 3000 words) in the LT.

**HY322**

**Nazism and the Holocaust, 1933-1945**

This information is for the 2017/18 session.

**Teacher responsible:** Dr David Motadel SAR M.16

**Availability:** This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at 15 students.

**Course content:** The Holocaust was the most destructive conflict in modern European history. At the height of the war, German soldiers occupied lands from the Channel Islands to the Caucasus and from Scandinavia to the Balearic peninsula. Across the continent, societies were torn apart by war, occupation, and civil war. Drawing on key secondary texts and primary sources, this course examines Nazism's war in Europe from a comparative perspective. It looks at the origins of the conflict, the course of the war, from the partition of Poland to the fall of Berlin, war crimes, Nazi occupation regimes; local collaboration and the recruitment of hundreds of thousands of non-Germans into Hitler's armies; resistance and partisan insurgency; ethnic cleansing and genocide; and the aftermath of the war. The focus is not only on political leaders, party functionaries, and generals, but also on ordinary people, such as soldiers, peasants, slave workers, and

Travel, Pleasure and Politics: The European Grand Tour, 1670-1825

This is not a history of the Palestinian-Israeli struggle, although its different approaches to the history and memory of Muslim-Jewish movements, art, architecture, and literature we will explore to historical events and personalities as well to religious texts, century Arabia to mid-twentieth-century Europe? Through attention and European history, from their earliest relations in seventh-century Arabia to mid-twentieth-century Europe? Through attention

History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Because of the Israeli-Palestinian conflict, most discussions of Muslim-Jewish relations focus on the period after 1948. Muslims and Jews, however, have engaged with one another for over 1,400 years. Just as at the beginning, when Muhammad first met Jewish Arabs in Medina in 622, Jewish and Muslim relations have spanned the whole range of human interaction. What approaches have historians taken to understand the connected histories of Jews and Muslims in Middle Eastern and European history, from their earliest relations in seventh-century Arabia to mid-twentieth-century Europe? Through attention to historical events and personalities as well to religious texts, language, law, ritual, sacred spaces, intellectual and spiritual movements, art, architecture, and literature we will explore different approaches to the history and memory of Muslim-Jewish relations in the Middle East and Europe, evenly divided between the pre modern and the modern period. Students are advised that this is not a history of the Palestinian-Israeli struggle, although its impact on the memory of Muslim-Jewish relations in history will be discussed.

Travel, Pleasure and Politics: The European Grand Tour, 1670-1825

This information is for the 2017/18 session.

Teaching responsible: Prof Marc Baer SAR 3.17

Available: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: Throughout the eighteenth century thousands of young British men and women embarked on extensive journeys to continental Europe – an activity known as the Grand Tour. ‘Travel, Pleasure and Politics: The European Grand Tour 1670-1825’ explores who these people were, where they went, and the reasons for their expeditions. For some, the Tour was the final stage of formal education; to others an opportunity for sexual adventures and pleasure-seeking. The course discusses the practical challenges of eighteenth-century travel, the political, religious, and cultural contexts of the Tour, as well as the key places to visit and the reasons for their popularity. It also considers what the Tourists brought back with them: from physical artefacts for public and private collections, to new ways of seeing and understanding the world. ‘Travel, Pleasure and Politics’ introduces students to the actual writings of the Tourists, showing how they experienced international travel and shaped the modern tourist industry.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

This course operates reading weeks in the MT and LT. There will be a revision session in Summer Term.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

Presentation (15%) The Presentation (15%) will be in MT or LT.

HY324 Muslim-Jewish Relations: History and Memory in the Middle East and Europe, 622-1945

This information is for the 2017/18 session.

Teacher responsible: Prof Marc Baer SAR 3.17

Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: Because of the Israeli-Palestinian conflict, most discussions of Muslim-Jewish relations focus on the period after 1948. Muslims and Jews, however, have engaged with one another for over 1,400 years. Just as at the beginning, when Muhammad first met Jewish Arabs in Medina in 622, Jewish and Muslim relations have spanned the whole range of human interaction. What approaches have historians taken to understand the connected histories of Jews and Muslims in Middle Eastern and European history, from their earliest relations in seventh-century Arabia to mid-twentieth-century Europe? Through attention to historical events and personalities as well to religious texts, language, law, ritual, sacred spaces, intellectual and spiritual movements, art, architecture, and literature we will explore different approaches to the history and memory of Muslim-Jewish relations in the Middle East and Europe, evenly divided between the pre modern and the modern period. Students are advised that this is not a history of the Palestinian-Israeli struggle, although its impact on the memory of Muslim-Jewish relations in history will be discussed.
Course content: The period between the onset of the Manchurian Crisis of 1931 and the decision of the Wilson Government in 1968 to accelerate the withdrawal from East of Suez saw Britain's position in the world transformed under the multiple pressures of economic decline, world war, nationalist opposition to colonial control, and the demands of Cold War confrontation with the Soviet Union and international communism more generally. This course examines how this change occurred by studying several central episodes in British foreign and defence policy. Its focus is predominantly on high-level policymaking in the diplomatic, military and economic realms, but it will all give attention to shifts in popular attitudes, parliamentary debates, the influence of electoral considerations, and the larger-scale transitions taking place in the international system. In common with other Level 3 courses, it will include study and discussion of primary sources throughout. Documents will be drawn from either published collections, including British Documents on Foreign Policy, 1919-1939, and Documents on British Policy Overseas, 1945; official publications such as Command papers (including such material as international agreements and Defence White Papers), the diaries of key politicians or officials, and copies of documents from The National Archives at Kew. Much use will be made of online sources. Specific topics include the Italian invasion of Ethiopia, the Munich Agreement of 1938 and appeasement; British strategy in the Second World War; Anglo-Soviet relations in the Second World War; the formation of NATO; the Korean War; the Malayan emergency; Suez crisis; the first application to join the EEC, and the withdrawal from East of Suez in the 1960s.

Formative coursework: Students will be expected to produce 1 essay in the MT. Students will be required to produce a formative essay during Michaelmas term as preparation for the assessed essay due Lent Term. Weekly written reading responses and oral reports in Michaelmas Term and Lent Term. Completion of these is mandatory, in order to facilitate good seminar discussions.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (35%, 3000 words) in the MT.

A 3,000 word essay due Lent Term. The essay will count for 35% of the final course assessment.

A two-hour unseen written examination in the ST. The final examination will count for 50% of the final course assessment.

HY326 Not available in 2017/18

Slavery, Capital, and Empire in the British World, 1700-1900

This information is for the 2017/18 session.

Teacher responsible: Dr Padraic Scanlan

Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: From the late sixteenth century until the early nineteenth century, Britain was one of Europe's most prolific slave-traders. British colonies in the West Indies and the colonies that eventually became the United States of America were among the most brutal and fully realized slave societies in world history. Yet, Britain was also the first major European state voluntarily to abolish its slave trade, and the first to resolve to emancipate its slaves. This tension, between an empire of slavery and an empire of freedom, is the puzzle at the heart of this course.

Using primary and secondary sources, this course explores the
interconnected histories of slavery, commerce, and capitalism in the history of Britain and the British world in the eighteenth and nineteenth centuries. The course explores how the British slave trade functioned both as political economy and as a system of everyday oppression, how it intertwined with trade in other commodities and financial products like bonds and insurance, how Britons profited by it, and how enslaved and free people resisted it. The course interrogates the limits of 'British' history in the context of a global system of trade, and investigates the complicated history of the end of slavery and continuities before and after abolition – what did it mean to be 'free' in the British empire?

**Teaching:** 20 hours of seminars in the MT, 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Each seminar is structured around analysis of an historical document, and debate about a problem or theme in the historiography. Students are expected to read essential primary and secondary materials for each meeting and to participate in discussion.

There will be reading weeks in MT and LT.

**Formative coursework:** Students will be expected to produce 1 exercise and 1 other piece of coursework in the MT and LT. Formative coursework includes a 250-word primary source analysis exercise and a 1,000-word review of a film related to course themes, as well as occasional short response papers and in-class writing assignments.

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period.

Essay (20%, 3000 words) and presentation (15%) in the LT. Other (15%) in the MT.

Students will be assessed on 750-word analysis of a document or other primary source (15%), as well as on a 3,000-word essay (20%) and a group presentation based on primary research (15%). In Summer Term, students will be assessed on a 2-hour unseen written examination, including 2 essays (50%).

**HY327**

**The Anglo-American Special Relationship, 1939–89**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Nigel Ashton SAR M.07

**Availability:** This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Primarily for 3rd year BA History, BSc International Relations and History, and BSc Government and History students, but may be taken by 2nd years where regulations permit. May also be taken as an outside option and by General Course students where regulations, timetabling constraints and capacity permit. Not to be taken in conjunction with HY325 Retreat from Power: British foreign and defence policy, 1931-68. This course is capped at 30 students.

**Course content:** This course will analyse the changing nature of the Anglo-American “special” relationship from its creation against the backdrop of the Second World War through to the end of the 1980s. It will illuminate the foundations of the relationship in terms of culture and ideology, and also the threat posed by common enemies in the Second World War and Cold War. The competitive dimension of the Anglo-American relationship will also be highlighted as a means of explaining instances of discord such as the Suez Crisis of 1956. Topics addressed include: the creation of the Anglo-American alliance, 1939-41; competitive co-operation in war strategy and politics, 1941-45; the American “occupation” of Britain during the Second World War; the emergence of the Cold War in Europe and Asia, 1945-54; the Palestine question; the Suez Crisis; nuclear relations; the Cuban Missile Crisis; European integration; decolonisation; the impact of the Vietnam War; the cultural Cold War; intelligence co-operation; Anglo-American relations in the 1970s; the Falklands War of 1982; and the revival of the special relationship under Thatcher and Reagan in the 1980s.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

In common with other Level 3 History courses, this course will include the study and discussion of primary sources in each weekly seminar. Documents will be drawn from published collections, including the Foreign Relations of the United States series and the Documents on British Policy Overseas, the diaries of key politicians or officials, copies of documents from the UK National Archives, the US National Archives and the relevant US Presidential Libraries.

The rest of each weekly seminar will consist of the class discussion of allocated questions on each seminar topic to provide the essential context for the primary sources and to illuminate the relevant historiographical debates in the secondary sources. There will be a reading week in the Michaelmas and Lent terms, and a revision session in the Summer Term.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay and 1 other piece of coursework in the LT.

Formative assessment will be through the submission of one essay in week 7 of the MT, and one essay in week 5 of the LT (each essay must be a maximum of 2000 words long and be drawn from a list supplied at the start of the course). One ‘gobbet’ answer, consisting of commentaries on two extracts, must also be submitted in week 9 of the LT.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.
The summative assessment will consist of a three-hour final examination, requiring candidates to write two essays selected from a list of questions, and two commentaries on extracts selected from the allocated primary sources.

HY328
The Arab-Israeli Conflict: Nationalism, Territory, Religion

This information is for the 2017/18 session.

Teacher responsible: Dr Kirsten Schulze M14 Sardinia House
Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Any students who have previously taken HY203 cannot take this course.

Course content: The 1948 Arab-Israeli War; Israeli foreign and defence policy; the 1956 Suez-Sinai Campaign; the 1967 Six-Day War; regime change in Egypt and Syria in 1970, 1970/71 Black September; the 1973 Yom Kippur War; the 1975 Lebanese civil war; the ascendance of the Likud; the Camp David Accords 1979; the invasion of Lebanon 1982; Palestinian resistance; the 1987 Intifada; the 1991 Madrid Peace Conference; the 1993 Oslo Accords; the 1994 Jordanian-Israeli Peace Treaty; the 2000 al-Aqsa intifada; and peace efforts since 2000.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Week 6 of both Michaelmas and Lent terms will be a Reading Week.

Formative coursework: Students are required to write two essays, including a one-hour timed essay.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Essay (35%) in the LT.

Class participation (15%).

HY329
Independent India: Myths of Freedom and Development

This information is for the 2017/18 session.

Teacher responsible: Dr Taylor Sherman SAR M.10
Availability: This course is available on the BA in History, BSc in Government and History and BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Focusing on the early decades after India gained independence in 1947, this course raises questions about the nature of freedom and the task of development faced by postcolonial nations. The course begins with a study of Jawaharlal Nehru, India's first prime minister. Students will survey his philosophy and his style of leadership while exploring the myth of the strong male leader. Students will then question the nature of secularism in India by examining the treatment of Muslims as well as the politicisation of India's Islamic monuments and their preservation. The course moves on to query how socialist India was by reading political theory from Communists, Socialists, Gandhians and others, as well as by exploring Indian programmes in education, health and family planning. Similarly, the course will question the nature and extent of economic development achieved in this period by studying famine, urbanisation and scientific advancement. Next, students will investigate how strong India's state was by scrutinising India's Constitution and surveying the problem of corruption in the ranks of the police and bureaucracy.

Finally, the course will cover India's foreign policy, asking students to probe the meaning of Non-Alignment, and inspect the character of India's relations with Indians Overseas and with its neighbours, including China and Pakistan. While the main focus is India, the course will involve comparative thinking about circumstances and policies in other countries around the world. Throughout the course we will watch films, read fiction and view art and architecture produced at the time to get a sense of the popular and artistic response to the challenges of freedom and development.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

There will be a reading week in the Michaelmas and the Lent terms.

Formative coursework: Students are expected to produce 1 essay in the MT and 1 piece of coursework in the LT.

Assessment: Essay (30%, 3000 words) in the LT.

Essay (35%, 3000 words) and other (20%) in the ST.

Other (15%) in the MT and LT.

Document Analysis (20%, 500 words) in the ST.

Fieldwork video gobbet (15%) in the MT and LT. The main theme of the course is political myths. For this project, students will be asked to find an object in London (or anywhere in the world, but they must visit it in person) that is related to one of the myths discussed in the course. Students will work in pairs to make a roughly 3-minute video describing the object and how it relates to the course. They will then upload the video and other students will comment on it on Moodle; the video and comments will be brought into seminar discussions.

HY330
From Tea to Opium: China and the Global Market in the Long Eighteenth Century

This information is for the 2017/18 session.

Teacher responsible: Dr Chung Yam Po SAR.2.18
Availability: This course is available on the BA in History, BSc in...
Government and History and BSc in International Relations and History. This course is available as an online option to students on other programmes where regulations permit and to General Course students.

**Course content:** Did China foster or resist the early wave of globalisation? How should we situate China within the global context prior to the First Opium War? Compared with the Dutch and the British, in what ways did the Chinese interact with the world that had been created by global trade? Had China already become the world factory in the eighteenth century? Using both primary and secondary sources, this seminar examines these questions by looking at the production, circulation and consumption of a variety of commodities that were exported from and imported to China. If we agree that a commodity has its own social life and history, then we can also examine its story in order to complicate our understanding of China’s role and significance in the global market throughout the long eighteenth century.

This seminar is divided into two parts. In Part I (the first five sessions) we will historicise the political, social and economic background of the Qing dynasty in the early modern period. From week to week, we will identify remarkable watersheds that changed or transformed the way that China engaged in or became disengaged from the global market, covering the China Seas, Indian Ocean, Atlantic and Pacific. We will also focus on port cities in China and Southeast Asia, so as to illustrate exactly how peoples and places facilitated the flow of commodities on a global scale.

In Part II (the remaining sixteen sessions) we will study a series of commodities that each fits under different featured themes, such as ‘When Silk was Gold’, ‘Pepper and Parley’, ‘Camphor and Taiwan’ and ‘Opium and Power’.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Weekly two-hour seminars. There will be a reading week in the Michaelmas Term and the Lent Term and a revision session in the Summer Term.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading:** Kenneth Pomeranz, Steven Topik, _The World that Trade Created_ (London and New York: Routledge, 2012).

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period.

Essay (35%, 3500 words) in the LT.

Presentation (15%) in the MT and LT.

**IR100 Theories and Concepts of International Relations**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr George Lawson CLM.5.12

**Availability:** This course is compulsory on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available on the BSc in Environment and Development. This course is available as an online option to students on other programmes where regulations permit and to General Course students.

**Course content:** An examination of the concepts designed to explain the nature of contemporary international relations.

1. The emergence of the discipline and the nature of its subject matter.
2. Key agential concepts in IR: state; empire; international and subnational agents; foreign policy.
3. Key structural concepts in IR: the states system; Euro-centrism; globalisation, post-colonialism; global governance; security.
4. Key institutional concepts in IR: international society; great powers; diplomacy; war; balance of power; international law and human rights.
5. Key sociological concepts in IR: power and sovereignty; intervention; gender; anarchy.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are required to write three essays of approximately 1,500 words. They will also be required to give at least one class presentation.

**Indicative reading:** A full course description and guide to reading will be provided: relevant course texts include J Baylis & S Smith (Eds), _Globalisation and World Politics_, 2nd edn, (Oxford UP, 2001); C Brown, _Understanding International Relations_, 2nd edn (Macmillan, 2001); R Jackson & G Sørensen, _Introduction to International Relations_ (OUP, revised edn., 2003).

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

Sample papers are included in the full course description.

**IR200 International Political Theory**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Jennifer Jackson-Preece COW.2.06

**Availability:** This course is compulsory on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available on the BSc in Environmental Policy with Economics. This course is available as an online option to students on other programmes where regulations permit and to General Course students.

**Course content:** The course consists of a two-part survey of international political theory. The first part deals with normative political theory. The focus is on debates provoked by classical thinkers such as Grotius, Hobbes, Kant and Marx. The second part of the course concerns contemporary IR theory. It explores the ways of explaining and understanding international relations associated with the major paradigms, such as realism, liberalism, and constructivist. Topics covered include war, peace, international law and order, international justice, intervention and non-intervention, sovereignty, diplomacy, revolution and counter-revolution, nationalism and national self-determination.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line
IR202
Foreign Policy Analysis 1

This information is for the 2017/18 session.

Teacher responsible: Prof Christopher Alden CLM.5.13

Availability: This course is compulsory on the BSc in International Relations and BSc in Politics and International Relations. This course is available on the BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course analyzes various theoretical perspectives on foreign policy, and the means of conduct of the main actors in the international system towards each other. It focuses mainly, but not entirely, on states. Foreign Policy Analysis as a sub-discipline of IR; the problem of formulating goals and choosing policy instruments; the role of leadership and psychological elements in policy making; the rational actor model; bureaucratic politics; the impact of history and identity on foreign policy; domestic sources of foreign policy including public opinion, pressure groups and constitutions; the motivations underpinning foreign policy; the role and influence of transnational actors in relation to foreign policy making; foreign policy crises. The discussion classes combine a discussion of these themes with their application to the foreign policies of major powers in the international system. A detailed programme of lectures will be provided at the start of the session.

Teaching: 10 hours of lectures and 8 hours of classes in the MT. 10 hours of classes in the LT. 1 hour of classes in the ST.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

IR202.2
Contemporary Foreign Policy in Practice

This information is for the 2017/18 session.

Teacher responsible: Prof Christopher Alden CLM.5.13

Availability: This course is compulsory on the BSc in International Relations. This course is available on the BSc in International Relations and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The foreign policies and foreign policy processes of selected major states since 1945, depending on examination requirements and teachers available. An analysis of the foreign policies of a selected group of major states, with due regard to their respective national interests, external commitments, traditional values and other relevant factors. The role of internal group interests and electoral considerations. Constitutional machinery for the formulation of foreign policy. Diplomatic services and techniques. Illustrative material will be drawn mainly from the post-1945 period. This year there will be lectures on Britain, China, the United States and the Soviet Union/Russia.

Teaching: 15 hours of lectures in the LT.

Indicative reading: Recommended texts include

IR203
International Organisations

This information is for the 2017/18 session.

Teacher responsible: Dr Ulrich Sedelmeier Room CLM.5.06.

Availability: This course is compulsory on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available on the BSc in Environmental Policy with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students should have a background in International Relations. Prior familiarity with international relations theory is an advantage, but not necessary.

Course content: The course draws on theories of international institutions to explain comparatively key aspects of the role of International Organisations in international politics. These questions include why states create International Organisations,
why states transfer certain powers to them, and what impact they have on the practice of international cooperation with regard to matters of concern to international society such as the maintenance of international peace and security, the management of international economic relations, the promotion of international environmental standards, or the protection of human rights. International organisations to be discussed include the United Nations, the International Monetary Fund, the World Bank, the World Trade Organization, NATO, and regional organisations like the European Union.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are expected to write two essays of a maximum length of 1,500 words. The first will be due in the Michaelmas Term and will provide the basis for feedback prior to the submission of the assessed coursework as well as preparation for the exam. The second will be due in the Lent Term and will provide the basis for feedback prior to the Summer Term exam. In addition, student will give at least one class presentation (introduction to discussion). Class teachers will mark the essays and provide feedback on student presentations.

**Assessment:** Exam (70%, duration: 2 hours) in the main exam period.

Essay (30%, 2000 words) in the MT.

The assessed essay will be from a fixed range of questions. The essay topics will be posted on Moodle in Week 9 of the MT and will focus on the theories and conceptual material covered in the first part of the course. The essay will be due in Week 11 of the MT.

**IR205 International Security**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Peter Trubowitz CLM.4.05 and Dr Milli Lake

**Availability:** This course is available on the BSc in International Relations, BSc in International Relations and History, BSc in International Relations and Mandarin and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The aim of this course is to give students a thorough introduction to the literature on international security, both theoretical and policy-oriented. This course is organised into three main parts. The first part introduces students to the concept of security, examines competing theoretical approaches to international security, and considers how the field has changed over time. The second section of the course analysis the causes of interstate and intrastate war and conflict as well as the processes of conflict management, war termination, and peacebuilding. The last part of the course takes up ‘new’ security issues, including humanitarian military intervention, terrorism and counter-terrorism, cybersecurity, and climate change. By exploring these and related issues, students will gain a greater understanding of how different traditions of analysis, from mainstream studies of deterrence and war, to constructivist treatments of securitisation, to recent developments in critical security studies, think about international security and contemporary international security issues.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Classes are compulsory. Students will be expected to contribute to class discussions and present papers each week.

In line with departmental policy, students on the course will have a reading week in Week 6.

**Formative coursework:** Students will submit two formative essays: one in Week 7 of the MT, one in Week 2 of the LT. Students may use these to develop ideas for their summative essay. Students will submit a 2 page outline of their assessed essay in the LT. This will consist of a research question, an overview of the argument, a draft structure and an indicative reading list. Feedback will be provided via email and/or individual meetings with students.

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period.

Essay (50%, 2500 words) in the LT.

---

**IR206 International Political Economy**

This information is for the 2017/18 session.

**Teacher responsible:** Dr M H Pearson 95A.1.12

**Availability:** This course is available on the BSc in Economics, BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Students from other degree programmes will be admitted by permission of the Course Coordinator, including BSc Economic History

**Course content:** The course examines the role of power and politics in international economic relations. Besides international structural factors, it emphasises the role of domestic political interests and their influence over foreign economic policies. Major approaches covered include historical views on international political economy, and contemporary systemic theories of international cooperation, interest groups politics. ideas and
institutions. The course provides an overview and explanation of the international monetary and trade systems since 1944. It also discusses current debates on trade, monetary policy, the political roots of financial crises, globalisation and the retreat of the state, and environmental protection.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST. An optional 10 hours lecture series ‘An Intro to Economics’ will be available to students on the course in the Michaelmas Term. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students write two essays of a maximum length of 1,500 words, and give at least one class presentation.

**Indicative reading:** Basic references are: J Frieden & D Lake, International Political Economy; T Oatley, International Political Economy; R Palan, Global Political Economy; Contemporary Theories; J Ravenhill, Global Political Economy; S Strange, States and Markets; A Walter & G Sen, Analyzing the Global Political Economy. A detailed reading list will be given at the beginning of the course.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

In the examination students will answer three questions chosen from twelve.

---

**IR305 Strategic Aspects of International Relations**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Christopher Coker CLM 5.09

**Availability:** This course is available on the BSc in Environmental Policy with Economics, BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. Also open to students from the other University of London institutions by arrangement with the teacher.

**Course content:** Analyses various perspectives on strategy and war, the way war is conducted by states and within states and focuses on the way different cultures understand strategic outcomes. The attempt to humanise war, the western way of warfare, non-western ways of war, including Asian/Middle East; asymmetrical warfare, Globalisation and Security; Clausewitz and the western way of warfare; war and the risk society, war in the developing world; war and genocide, terrorism, the ‘end of war’ thesis. The discussion classes combine a discussion of these topics with their application by states in the international system.

**Teaching:** 10 hours of lectures and 8 hours of classes in the MT. 6 hours of lectures and 9 hours of classes in the LT. The classes are compulsory. Students will be expected to contribute to class discussions and present papers each week. Students on this course will have a reading week in Week 6 in line with departmental policy.

**Formative coursework:** Students will be required to write three essays (c. 1,500 words each) in the course of the year, in MT and LT.

**Indicative reading:** Daniel Pick, The War Machine; Martin van Creveld, War and Technology; Charles Gray, Post-Modern War; Martin van Creveld, On Future War; John Keegan, A History of Warfare.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**IR312 Half Unit Not available in 2017/18 Genocide**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Jens Meierhenrich CLM 6.07

**Availability:** This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students. This course cannot be taken in conjunction with SO309 Atrocity and Justice.

This course will not be available 2017-18.

**Course content:** This lecture course provides an introduction to the study of genocide. The course’s disciplinary ambit ranges from anthropology to economics, from history to law, and from political science to sociology. Against the background of diverse disciplinary approaches, it explores major theoretical and empirical aspects of the role(s) of genocidal campaigns in international politics, inter alia, their origins, development, and termination; the manner of their perpetration, progression, and diffusion; their impact on the maintenance of international peace and security; their consequences for the reconstruction and development of states and the building of nations; and their adjudication in domestic and international courts and tribunals. Empirical cases to be discussed include Australia, Cambodia, China, the Democratic Republic of Congo, East Timor, Nazi Germany, Guatemala, Iraq, Northern Ireland, the Ottoman Empire, Rwanda, Uganda, the Soviet Union, Sudan, and the former Yugoslavia, among others. The course is designed to equip students with the analytic tools necessary for making sense of the evolution of the international system from the nineteenth century to the present - and for critically assessing the promise and limits of responding to collective violence.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are required to research and write one formative essay (1,500 words). In order to ensure a broad acquisition of knowledge, students should diversify the subject matter of their essays. In addressing a given essay topic, students must seek to integrate theory and history and bring empirical evidence to bear on the research question they have chosen. In constructing their answers, students may examine a number of cases, drawing comparisons among them, or may focus on a single case. Essays must be fully - and carefully - referenced using one of the major conventions consistently. Submissions are due in Week 8 and must be made in hard copy.

IR313  Half Unit  
Managing China's Rise in East Asia

This information is for the 2017/18 session.

Teacher responsible: Dr. Jurgen Haacke CLM 7.09  
Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available to General Course students.

Course content: The main focus of this class-based half-course on the contemporary international relations of East Asia is the management of China's rise. The course begins by exploring China's re-emergence as a major regional power, in part by discussing the economic, political and military dimensions of Chinese power, China's evolving identity, as well as the major aspects of its declaratory and substantive foreign and security policy. It also examines from different theoretical and political perspectives the implications that China's rise has been posing for East Asia. As regards the management of China's growing capabilities, status and ambitions, the course explores what political and security strategies vis-à-vis China have in turn been adopted by the key states that are either resident in or have a significant presence in the wider East Asia, such as the United States, Japan, Russia and India. The course also explores the ways in which China's rise has impacted on conflicts in the South China Sea and on the Korean peninsula, and the nature of the management of China's rise by states from continental and maritime Southeast Asia. It moreover examines how regional arrangements and institutional frameworks for dialogue and cooperation led by lesser regional states have served the management of China's rise. Concepts and theories from International Relations will be drawn upon as appropriate.

Teaching: 20 hours of classes in the LT. 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will write two essays with a maximum length of 2,000 words and present on class topics.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

IR314  Half Unit  
Southeast Asia: Intra-regional Politics and Security

This information is for the 2017/18 session.

Teacher responsible: Dr. Jurgen Haacke CLM 7.09  
Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available to General Course students.

Course content: This class-based half unit course examines key aspects of the contemporary international relations of Southeast Asia, with the primary focus being on the intramural relations of the member states of the Association of Southeast Asian Nations (ASEAN). In order to contextualise these intramural relations, the course first explores the different domestic political contexts in which Southeast Asian decision-makers operate, the historical backdrop to the region's major intrastate and interstate conflicts and disputes, and the key security issues and challenges affecting the region and individual states. The course also, secondly, engages in a comparative analysis of the foreign and security policies of the five original member states of ASEAN that will, for instance, take account of the influence of geographical factors, the relevance of ethnic politics and nationalism, political change, leadership ambitions, and the main economic and security interests pursued by governments. Finally the course explores how the respective domestic backdrop and foreign policy outlook of Southeast Asian states have shaped the nature, effectiveness and limits of ASEAN as a vehicle for intramural political-security cooperation. In this context, the course assesses the groupings' efforts to establish an ASEAN political-security community. The course will conclude by comparing the role played respectively by the ASEAN states and extra-regional powers in managing regional security and order. Concepts and theories drawn from International Relations, and especially Foreign Policy Analysis, will be applied as appropriate.

Teaching: 20 hours of classes in the MT. 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will write two essays with a maximum length of 2,000 words and present on class topics.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.
IR315  The Middle East and International Relations Theory

This information is for the 2017/18 session.

Teacher responsible: Dr Katerina Dalacoura
Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Prerequisites: Students must have completed International Political Theory (IR200). Or an equivalent course.

Course content: The course applies the theories and conceptual tools of the discipline of International Relations to the study of the Middle East region. It uses the empirical material offered by the history, politics, political economy and international politics of the region to explore these concepts and theories. More specifically, it concentrates on the areas of foreign policy analysis, international political economy, gender, the study of international norms and conflict and peace studies. It explores the applicability of various International Relations theories (for example, realism and neo-realism, neo-liberalism, constructivism, English School, neo-Marxism and structuralism; and post-colonialism) to the study of the region.

Teaching: 10 hours of lectures and 8 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

Formative coursework: Three essays of 1,500 words each.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

IR318  Half Unit  Visual International Politics

This information is for the 2017/18 session.

Teacher responsible: Prof William Callahan CLM 5.07
Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Prerequisites: Students must have completed International Political Theory (IR200).

Course content: We live in a visual age. Images play an increasingly important role in shaping international political events and our understanding of them. The objective of this course is to examine how visual sources - maps, photographs, film, television, new media - influence international political phenomena, our perception of them, and public responses to them. The course has conceptual, empirical, and practical objectives. At a conceptual level students will acquire knowledge of key theoretical and methodological debates necessary to study visual international politics. At an empirical level, students will gain a better understanding of several concrete instances where images helped to shape international political phenomena, from wars to humanitarian crises, from global social movements to alternative world orders. At a practical level, students will learn how to make a short documentary film.

Teaching: 9 hours of lectures and 20 hours of classes in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 case study and 1 essay in the LT.

Assessment: Project (50%) in the LT. Essay (50%, 2500 words) in the ST. The project will be a ten minute documentary film, which will be made by groups of 2 or 3 students.

IR317  Half Unit  American Grand Strategy

This information is for the 2017/18 session.

Teacher responsible: Prof Peter Trubowitz CLM 4.05
Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None

Course content: This course explores American foreign policy at the broadest level of analysis – the level known as grand strategy. The course showcases the main theoretical perspectives that inform the study of grand strategy and applies them to historical and contemporary cases of American statecraft. In this connection, we will assess the relevance of the U.S. experience and structuralism; and post-colonialism) to the study of the region.

Teaching: 10 hours of lectures and 15 hours of classes in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will write one short (1,200) words formative essay based on questions from previous exam papers.

The essay will be due in Week 7 of the LT. Students will be able to use the essay to explore ideas that they might wish to develop in their assessed essay.

Students will provide a 1-2 page outline of their assessed essay by the end of Week 9 LT. This will be returned with comments and feedback by the end of the LT.

Indicative reading:
• G. John Ikenberry and Peter L. Trubowitz, American Foreign Policy: Theoretical Essays (Oxford University Press, 2014)
• Gaddis
• Garfinkle

Assessment: Essay (100%, 2500 words) in the ST. Students will write a 2,500 word assessed essay selecting from a list of topics and questions provided by the course coordinator. The essay will be due at the end of Week 1 of the ST.
IR319 Half Unit Empire and Conflict in World Politics

This information is for the 2017/18 session.

Teacher responsible: Dr Martin Bayly CLM.4.08

Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed International Political Theory (IR200).

Course content: Many places and peoples in modern world politics have been shaped by relations and histories of imperialism. Across the social sciences and humanities, as in International Relations, there has been an explosion of interest in empire in recent decades. This course explores the violent dimensions of the imperial past and present. It covers histories and social relations of armed conflict in imperial context from "small war" to "counterinsurgency" and the War on Terror, it looks at the ways in which warfare shapes (and is shaped by) the societies, cultures and politics that populate world politics; and it considers some of the intellectual traditions that have arisen out of the experience of, and inquiry into, colonial violence, from the thought of resistance leaders to subaltern and postcolonial studies. The premise of the course is that warfare and violence have been generative forces in shaping world politics, well beyond the times and places of specific battles and killings.

This course aims to familiarise students with scholarship on empire and conflict in International Relations and related disciplines. This involves, first, understanding the limitations of the sovereign nation-state as the basic unit of world politics. For most people in most times and places, international relations have taken imperial form of one kind or another. What would it mean to take empire seriously in international political thought and inquiry? The course approaches this question by looking at the relations between empire and globalization in historical and theoretical context. Second, although much scholarship on empire concerns economy and culture, the history of empire is a history of continual warfare and armed resistance. Such "small wars" have shaped society and politics in both the core and periphery of the modern system, and often continue to do so long after the guns fall silent (as for example in the case of the US and the Vietnam War). The course will cover the histories, strategies and theories associated with such wars and their effects. Third and finally, the course will explore the intersection between empire and knowledge in political theory and social inquiry. Not only did anti-colonial resistance produce its own theorists, such as Frantz Fanon and Mao Zedong, but in recent decades empire has been the site of new turns in social and political theory and inquiry, as for example in subaltern studies and postcolonialism. The course will introduce students to this work and its applications to understanding world politics.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of this work and it applications to understanding world politics.

Additionally, there will be weekly film viewings starting in Week 2.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Lectures
1) Introduction: Empire and International Relations
2) Empire/History/Globalization
3) Empire, the Regions, and World Politics
4) Politics/Strategy/War
5) War and Society in Global Perspective
6) Orientalism and ‘Small war’
7) Revolutionary Guerrilla War
8) Counterinsurgency
9) Conflict and Development
10) The War on Terror in North/South Perspective

Undergraduate Class Topics
1) Globalization and History
2) Empire and the Making of Regions
3) War and Politics

IR320 Half Unit Not available in 2017/18 Europe's Institutional Order

This information is for the 2017/18 session.

Teacher responsible: Prof Karen Smith CLM 409

Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available to General Course students.

Pre-requisites: Students must have completed International Organisations (IR203).

Course content: Europe is the region with the highest density of organisations in the world. This course will analyse the importance of European organisations for both their member states and international relations in general. It will review the development of Europe's institutional order in the post-war era and its evolution since the end of the Cold War. Much emphasis will be placed on the evolution of West European organisations such as the Council of Europe, the European Union and NATO, but attention will also be given to European organisations in the former communist bloc, trans-European organisations, and sub-regional organisations. Lecture and class topics:

1. Theorising about Europe's Institutional Order
2. Building Europe's Institutional Order I
3. Building Europe's Institutional Order II
4. Building Europe's Institutional Order III
5. Europe's Institutional Order and the ending of the Cold War
6. Enlarging Europe's institutional order after the Cold War I
7. Integration in Europe after the Cold War
8. Enlarging Europe's institutional order after the Cold War II
9. Europe's security and defence institutions after the Cold War I
10. Europe's security and defence institutions after the Cold War II

Teaching: 15 hours of classes in the LT.

In line with departmental policy, students on the course will have a reading week in Week 6.

Independent study based on the readings is required. Classes provide an opportunity to discuss issues in depth in a small group setting. Attendance at classes is mandatory, as is adequate preparation for participation in each class discussion. Students will be required to give at least one presentation on one of the topics...
IR321  Half Unit  
Revolutions and World Politics

This information is for the 2017/18 session.

Teacher responsible: Dr George Lawson CLM 5.12

Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available with departmental policy.

Course content: Revolutions are often considered to be a ‘side order’ to the ‘main course’ of International Relations. But as this course explores, the lack of attention paid to revolutions is a mistake – revolutions have played a major part in the making of modern international order. From the ‘Atlantic Revolutions’ of the late 18th and early 19th centuries to the ‘colour revolutions’ of the early 21st century, revolutions have been constitutive of notions of sovereignty, order, justice, and more. Revolutions have also been tightly bound up with dynamics of war and peace. This course explores both the theory and practice of revolutions, teasing out their effects and examining the prospects for revolutionary change in the contemporary world.

List of Topics
Part 1  Thinking about revolutions
Week 1  What are revolutions?
Week 2  Key themes in the study of revolutions
Week 3  Revolutions and world politics

Part 2  The experience of revolution
Week 4  The Atlantic ‘age of revolutions’
Week 5  Socialist revolutions
(Week 6  Reading week – session on the assessed essay)
Week 7  ‘Third World’ revolutions
Week 8  The ‘last great revolution’?
Week 9  ‘Colour’ revolutions

Part 3  Revolution today

Week 10  The Arab uprisings

IR322  Half Unit  
Sovereignty, Rights and Justice: Issues in International Political Theory

This information is for the 2017/18 session.

Teacher responsible: Prof Christopher Brown SHF.3.02

Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with departmental policy.

Course content: Combines insights and concepts from political theory and international relations theory, and focuses on modern debates on sovereignty, the rights of states, individuals and peoples, and international justice.

Sovereignty and the norm of non-intervention; the contemporary international human rights regime; the ethics of war and violence; the politics of humanitarian intervention; the politics of international criminal law and the ICC; global social justice. Further details will be provided at the start of the session.

Teaching: 20 hours of seminars in the MT.

Formative coursework: Students will write one formative essay (1,500 words) due end of week 6; they can use this to develop ideas for the summative essay but students will not be allowed to ‘cut and paste’ their formative work into the summative essay. Students will produce a 2 page outline of the assessed essay in Week 10. This will set out the research question, an overview of the argument, a draft structure and indicative reading list. Students will receive approval of the research topic and feedback on the outline by the end of Week 11.

IR324  Half Unit
The Practices of Transitional Justice
This information is for the 2017/18 session.

Teacher responsible: Dr Jens Meierhenrich CLM 6.07

Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available with permission to General Course students.

Pre-requisites: Students must have completed International Organisations (IR203) and International Political Theory (IR200).

Course content: This taught seminar introduces students to the theory and history of transitional justice. It explores the logic of amnesties, apologies, memorials, lustrations, reparations, trials, truth commission, and related responses to genocide, crimes against humanity, and other mass atrocities. Examining the whole array of historical and contemporary solutions to the problems of 'radical evil' (Immanuel Kant), the seminar assesses the conditions for - and limitations to - achieving order, truth, and justices in domestic politics and international affairs. Utilising insights from political science, law, history, sociology, and philosophy, the seminar will compare alternative institutional designs and divergent choices and consider their real, and imagined, social, political and economic consequences across space and time, from Athens to South Africa to Libya.

Teaching: 20 hours of seminars in the LT. 1 hour of seminars in the ST.

In line with departmental policy, students on the course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Students are required to research and write one essay (2,500 words). In addressing a given essay topic, students must seek to integrate, where applicable, theory and history and bring empirical evidence to bear on the research question they have chosen.

Essays must be fully—and carefully—referenced using one of the major conventions consistently. Submissions are due in Week 8 and must be made in hard copy. Feedback is provided by the course teacher, who is responsible for marking essays.

Several criteria are applied in the evaluation of student essays, notably: (1) Originality of argument: How unexpected is the advanced claim? (2) Use of literature: Has relevant scholarship been digested and put to good use? (3) Soundness of analysis: Is the inquiry comprehensive and logically consistent? (4) Organisation of evidence: Have argument and evidence been introduced and presented in a compelling manner? (5) Validity of findings: Does the argument remain valid when applied empirically? (6) Clarity of presentation: Are grammar, punctuation, and references flawless?

Indicative reading: Indicative reading list:

Assessment: Exam (100%, duration: 2 hours) in the main exam period.
IR325  Half Unit  The Situations of the International Criminal Court

This information is for the 2017/18 session.

Teacher responsible: Dr Jens Meierhenrich  CLM 6.07

Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available with permission to General Course students.

Pre-requisites: Students must have completed International Political Theory (IR200) and International Organisations (IR203).

Course content: This taught seminar introduces students to the practices of the International Criminal Court (ICC). Focusing on the ICC's ongoing investigations and prosecutions - its so-called 'Situations' - the courses exemplifies the politics of international law in the context of one of the most embattled international organisations in the international system. On the foundation of 'practice theory', it blends methodological approaches from law, the social sciences and the humanities. By adopting an evolutionary perspective to the ICC, the seminar raises - and answers - pertinent theoretical questions about institutional design and development of in international politics. Empirical cases to be discussed include the settings of the ICC's nine Situations (the DRC, Uganda, the Central African Republic, Sudan, Kenya, Libya, Cote d'Ivoire, and Mali) as well as the territories of the ICC’s preliminary examinations (Afghanistan, Columbia, Georgia, Guinea, Iraq, Nigeria, Palestine, and Ukraine). Students will learn to work with both court documents and theoretical texts.

Teaching: 20 hours of seminars in the LT. 1 hour of seminars in the ST.

In line with departmental policy, students on the course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Students are required to research and write one essay (2,500 words). In addressing a given essay topic, students must integrate theory and history and bring empirical evidence to bear on the research question they have chosen. Essays must be fully - and carefully - referenced using one of the major conventions consistently. Submissions are due in Week 8 and must be in hard copy. Feedback is provided by the course teacher, who is responsible for marking essays.

Indicative reading: Indicative reading list:

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

IR326  Half Unit  The Rule of Law: A Global History

This information is for the 2017/18 session.

Teacher responsible: Dr Jens Meierhenrich  CLM 6.07 and Prof Martin Loughlin  NAB 712

Availability: This course is available on the BSc in International Relations, BSc in International Relations and History, BSc in Politics and International Relations and LLB in Laws. This course is not available as an outside option. This course is available with permission to General Course students.

Course content: This taught seminar course introduces students to the theory and history of the rule of law, one of the most frequently invoked—and least understood—ideas of political theory and practice. What exactly is the rule of law? Is it still a harbinger of liberty or just the latest manifestation of neocolonial domination? Is it a moral ideal or merely a means to an end? Can it really facilitate democracy, development, and economic growth? And why is the rule of law compatible with authoritarianism? In answer to these and related questions debated in law and the social sciences as well as in international organizations, governments, think tanks, and NGOs the world over, this interdisciplinary course introduces students to important advocates of the rule of law (from A. V. Dicey to the World Bank) and also to notable critics (including Thomas Hobbes, Carl Schmitt, Judith Shklar, and Eric Posner). Through close readings of seminal texts and a global analysis of historical cases and trajectories, students will gain an innovative and in-depth understanding of the promise—and limits—of one of the most foundational concepts of the modern world.

Teaching: 20 hours of seminars in the MT.

In line with departmental policy, students on the course will have a reading week in week 6.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Students will write one formative essay of 1,500 words on an assigned topic. This essay will be used to sketch out ideas for the summative essay. Feedback will be provided on the essay which will aid in the research and writing of the summative essay.

Assessment: Essay (100%, 4000 words) in the LT.

Students will submit a 4,000 word essay (100%) due in week 1 of the LT.

IR347  Half Unit  Political Economy of International Labour Migration

This information is for the 2017/18 session.

Teacher responsible: Dr Covadonga Meseguer  95 ALD 1.13

Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The mobility of workers is one of the pillars of globalisation. However and surprisingly, international political economists have paid less attention to the political causes and consequences of international migration in comparison to that
IR354  Half Unit  
Governing International Political Economy: Lessons from the Past for the Future  
This information is for the 2017/18 session.

Teacher responsible: Dr James Morrison 95 ALD 1.14

Availability: This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Some background knowledge of international political economy, such as that provided by IR204 ‘International Political Economy’, will be useful for students taking this course.

Course content: Who governs the global economy? How do they do so? And to what ends do they govern it? This course examines these questions by examining the canonical theories of—and state approaches to—the challenges of global economic governance across the last several centuries. While this course takes history seriously, the primary objective is to use the history to tease out generalisable insights into those challenges we face today.

More generally, this course of study will demonstrate the incomparable insights historical thinking offers in addressing contemporary challenges. History has always been central to the study and practice of international political economy. The most influential scholars and practitioners of international political economy have repeatedly turned to history both to explain, and to offer a fresh perspective on, the great challenges of their day. This course is designed to help students cultivate that invaluable skill and habit of mind.

Proceeding from the seventeenth century to the present, it examines: - seminal theorists’ particular treatments of international political economy - the ongoing, timeless debate between these theorists - the major shifts in the global economic order - the interaction between theories and policy in each shift The course begins with mercantilism and the ‘age of empires’. It then explores the great critics of mercantilism—Adam Smith and David Hume—and the relationship between their critique and the revolutions in IPE that followed. It goes on to analyse the rise of so-called ‘English’ political economy and the ‘First Era of Globalisation’ in the 19th Century.

The course then pivots to consider two major challenges to this hegemony of thought and practice. First, it traces the development of socialism from an internal critique through the writings of Marx & Engels to an instantiated alternative system in the early Soviet Union. Second, it considers the German Historical School’s return to mercantilism and the ascent of the American Empire onto the global stage. These clash of empires then leads to the cataclysm of the First World War.

In the interwar period, the course analyses the failed attempts to restore the global order. It analyses the radical challenge posed by fascist political economy. It also considers the variety of responses issued by different types of liberals. The course then transitions into a discussion of the several postwar orders, from Keynes’s neoliberal institutionalism to Gandhi’s rejection of Eurocentric political economy.

Past, the course turns to the modern era. It analyses the trajectories of the postwar global trade and financial systems. It then turns to contemporary issues, such as the post-Cold War order, the 2008 Global Financial Crisis, and the rise of emerging markets.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay and 1 presentation in the MT.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

The paper contains 8 questions, of which two are to be answered.

IR355  Half Unit  
Economic Diplomacy  
This information is for the 2017/18 session.

Teacher responsible: Dr Stephen Woolcock CLM 613

The course is coordinated by an LSE academic but is supported by an experienced practitioner of economic diplomacy Sir Nicholas Bayne, former UK foreign service and ambassador and Kenneth Heydon (formerly Deputy Director at the OECD in Paris).

Availability: This course is available on the BSc in International
IR367  Half Unit  Global Environmental Politics

This information is for the 2017/18 session.

**Teacher responsible:** Dr Robert Falkner CLM 5.05

**Availability:** This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Some background knowledge of international political economy, such as that provided in IR206 ‘International Political Economy’, will be useful to students taking this course.

**Course content:** The course introduces students to the theories and analytical frameworks relating to decision-making and negotiation in international economic relations and enables them to develop the skills needed to apply these to cases. It discusses the roles of the main actors, institutional settings and processes involved in domestic decision-making and international economic negotiations, and their interaction. It provides students with both academic and practitioner perspectives of economic diplomacy and offers participants an opportunity to understand the challenges faced by negotiators through the simulation of a current multilateral negotiation.

**Teaching:** 10 hours of lectures, 10 hours of classes and 1 hour and 30 minutes of workshops in the MT. 1 hour of classes in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Exam (70%, duration: 2 hours) in the main exam period.  
Essay (30%, 2000 words) in the MT.

IR368  Half Unit  The Political Economy of Trade

This information is for the 2017/18 session.

**Teacher responsible:** Dr Stephen Woolcock CLM 6.13

**Availability:** This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Some background knowledge of international political economy, such as that provided in IR206 International Political Economy, will be useful to students taking this course.

**Course content:** The course begins with a discussion the intellectual history of free trade and how this has shaped ideas that continue to shape policy today as well as of the core analytical models that assist in any analysis of trade and investment. It covers changes in the nature the of trade and investment in the 21st century, including among other things in the impact of the growth of global supply chains on the political economy of trade and investment. The domestic and international institutional frameworks within which trade and investment policy are conducted are discussed. The course then considers some of the underlying trends in trade towards the use of preferential and plurilateral rather than multilateral approaches. Finally the course covers some of the main topics in current negotiations including in particular agriculture and food security, trade in manufactures, services and investment as well as the inter-relationship between trade and sustainable development.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 1 hour of classes in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1
essay in the LT.

---

**IR369  Half Unit**

**Politics of Money in the World Economy**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Martin Hearson LCH.2.04

**Availability:** This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Some background knowledge of international political economy, such as that provided in IR206 International Political Economy, will be useful to students taking this course.

**Course content:** This course is designed as a component of the study of a global system in which the management and mismanagement of money and finance are matters of fundamental consequence for international relations. It is intended to be of particular relevance to students specialising in international political economy. This is a course in applied international political economy theory. It deals with the basic concepts regarding the creation, use and management of money and finance in the global system. Students are then introduced to the political foundations of international monetary governance. Issues covered include the use of national currencies as international money, the politics of exchange rate adjustment, the operations of banks and other institutions in international money and capital markets, the evolution of global financial markets, the relationship between states and markets in the arena of global finance, international monetary cooperation, and the choices of monetary and financial policies open to developed and developing countries. The course emphasises that contemporary issues, such as international financial crises, international financial regulation and the politics of IMF conditionality, are best understood in a broader theoretical and analytical context.

**Teaching:** 10 hours of lectures and 15 hours of classes in the MT. In line with departmental policy, students on the course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.

**Assessment:** Essay (80%, 3000 words) in the LT. Presentation (20%) in the MT. During the course of the seminars students will participate in a group presentation (20%) and submit a 3,000 word essay (80%) at the start of the LT.

---

**IR373  Half Unit**

**China and the Global South**

This information is for the 2017/18 session.

**Teacher responsible:** Prof John Alden CLM 513 and Prof Christopher Hughes 95A 115

**Availability:** This course is available on the BSc in International Relations, BSc in International Relations and History, BSc in International Relations and Mandarin and BSc in Politics and International Relations. This course is not available as an outside option. This course is available with permission to General Course students.

**Pre-requisites:** Foreign Policy Analysis (IR202)

**Course content:** This course focuses on the substantive role that China plays in the Global South where its preponderance of material power and putative developing country status confers upon it a dominant position in bilateral and regional political economies. China’s economic position, coupled to an astute use of finances flowing from its mercantilist policies, has enabled it to become the leading trading partner and a significant investor in the developing world. Moreover, the Global South is increasingly figuring in Beijing’s expanding security interests and soft power provisions. Interpretations embedded in prevailing academic discourses like socialisation, threat and peaceful rise take on new meaning when studied through the lens of ties with developing countries. Understanding how dynamics in this relationship are impacting upon a host of global and contemporary issues (BRICs, multilateralism, peacekeeping, the environment) is crucial to the shape of the 21st century.

**Teaching:** 10 hours of lectures and 15 hours of classes in the MT. In line with departmental policy, students on the course will have a reading week in Week 6.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**IR377  Half Unit**

**The Politics of Governance, Development and Security in Sub-Saharan Africa**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Milli Lake

**Availability:** This course is available on the BSc in International Relations, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available with permission to General Course students.

**Course content:** This course explores the politics of governance, peace, and security in sub-Saharan Africa as it relates to the broader global context. It will explore the divergent impacts of, and responses to, colonial policies in different locations and their legacies in the contemporary era. It will also explore the different political responses embraced by African leaders and politicians to some of the political, economic, and security challenges of the post-colonial period. In addition to emphasising diversity, the
course also pulls together common challenges such as rapid
decolonisation, the Cold War, structural adjustment, civil conflict,
human insecurity, humanitarian intervention, and foreign aid.

Teaching: 20 hours of seminars in the LT.
In line with departmental policy, students on the course will have a reading week in week 6.

Formative coursework: Students will be expected to produce 10 other pieces of coursework and 1 other piece of coursework in the LT.

Students on the course will produce a ‘journal’ composed of weekly short pieces of about 250-300 words focused on a particular country and related to the topic of that week's discussions. In addition, students will produce an assessed essay outline in week 10 consisting of a research question, an overview of the argument, a draft structure and an indicative reading list. Feedback will be provided via email and/or individual sessions with students.

Indicative reading:

Assessment:
- Essay (100%, 2500 words) in the ST.

Students will submit a 2,500 word essay (100%) due in week 1 of the ST.

IR398
Dissertation

This information is for the 2017/18 session.

Teacher responsible: Dr George Lawson CLM 5.12

Availability: This course is available on the BSc in International Relations and BSc in Politics and International Relations. This course is not available as an outside option nor to General Course students.

Course content: Candidates are required to submit a dissertation of up to 10,000 words, excluding bibliography, but including notes and any appendices and tables, by the beginning of May of their final year. The subject of the dissertation can be anything within the syllabus of the undergraduate degree in International Relations at the School. Candidates are required to submit the title of their dissertation for approval by the Course Co-ordinator before the last day of the Michaelmas Term of their third year. They are also required, by the same deadline, to submit to the Course Co-ordinator a brief plan of their proposed study.

Dissertations offer the chance to discover, and deal with, new and interesting material. Students are encouraged to participate in this challenge, which assesses different skills from examinations, and to use the opportunity to enhance their knowledge in an area of particular interest to them. The aim is to develop the ability to make independent judgements and decisions on extracting and analysing the most important and relevant material. The outcome will be the provision of a coherent, sustained, systematically developed, and well supported argument on a topic, predominantly empirical or theoretical, within the field of International Relations.

The dissertation may deal entirely with secondary literature. There is no requirement for the use of original material such as unpublished documents, archives, or personal interviews. The final text should contain a full bibliography of utilised sources. Direct quotations from published or unpublished work must be fully referenced. Standard scholarly practice with regard to referencing the ideas of other scholars should be followed. The completed dissertation must be typed with double spacing on one side of the paper and with a wide left-hand margin. The pages must be numbered consecutively and adequately secured. The first page should bear the full title, the candidate’s number (but not name), together with the rubric: ‘BSc International

Relations 2015/16. Dissertation submitted in partial fulfilment of the requirements of the degree.’ All students must add on the cover page of their dissertation a declaration which is required for all work submitted as part of the formal assessment of degrees other than work produced under examination conditions, to the effect that they have read and understood the School’s rules on plagiarism and assessment offences at http://www.lse.ac.uk/resources/calendar/academicRegulations/ RegulationsOnAssessmentOffences-Plagiarism.htm and that the work submitted is their own apart from properly referenced quotations. Further information including detailed information on footnote and referencing style can be found on the IR398 Moodle site.

Teaching: 2 hours of lectures and 4 hours and 30 minutes of classes in the MT. 2 hours of lectures and 1 hour and 30 minutes of workshops in the LT.

There will also be a 1 hour introductory lecture in the Summer Term of the preceding year for those interested in taking this option. IR398 contains lectures on how to formulate a research question, how to structure a dissertation, and how to find and use evidence. Classes explore how questions are formed, how literature is used, and how evidence is deployed. Tutorials are a chance for students to discuss outlines, as well as receive guidance on issues of structure, logic and evidence.

Advice and Assistance

The dissertation is unsupervised and must be entirely the candidate's own work. In no circumstances are teachers within the School or the wider university community, permitted to read or comment upon a draft of the dissertation or any part thereof. This does not mean, however, that students will be without guidance. The course Co-ordinator will provide guidance on the nature and process of writing a dissertation in the field of International Relations. He will also provide bibliographical guidance, and will be available for consultation throughout the year to help students address more specific problems as and when they arise. Students are encouraged to approach other teachers within the department for bibliographic and general guidance on topics falling within that teacher's particular field of expertise. Students will have ample opportunity to discuss aspects of their topic, general and particular, with fellow students and the Course Co-ordinator throughout the year.

Assessment: Dissertation (100%, 10000 words) in the LT.

Examiners of the dissertation look for a variety of skills and qualities such as: conceptual precision, skill in analysis, organisation of material, clarity of exposition, and capacity for logical reasoning. Examiners also attach weight to accuracy in English spelling, grammar, and punctuation. Candidates should ensure that their submitted dissertation does not exceed the word limit. A penalty will be deducted from the given mark for any dissertation that exceeds 10,000 words. The penalty will be a deduction of 5 points for each 500 words above the word limit (i.e. a 5 point reduction from 10,001 words; a further 5 points from 10,501, etc.). Dissertations over 12,000 words will automatically fail. There is no lower word limit, but students should be aware that it is very difficult to produce a sustained argument to the required standard in less than 8,000 words. For further details, please see the IR 398 Moodle site.

The dissertation must be handed in to room CLM 6.11 by 5 pm on Monday 23 April 2018.

Penalties for the late submission of course work:

(i) Where a course includes course work as part of its assessment, the LSE requires that all students must be given clear written instructions on what is required and the deadline for its submission,

(ii) if a student believes that s/he has good cause not to meet the deadline (e.g. illness), s/he should first discuss the matter with his/her academic advisor or Course Coordinator and seek a formal extension from the Chair of the Examination Sub-Board. Normally extensions will only be granted where there is a good reason backed by supporting evidence (e.g. medical certificate);

(iii) if a student misses the deadline for submission but believes that s/he has good cause which could not have been alerted
in advance s/he should first discuss the matter with his/her academic adviser or the Course Coordinator and seek a formal extension;

(iv) any extension should be confirmed in writing to the student;
(v) if a student fails to submit by the set deadline (or the extended deadline as appropriate) the following penalty will apply:

Five marks out of 100 will be deducted for a Dissertation submitted within 24 hours of the deadline and a further five marks will be deducted for each subsequent 24-hour period (working days only) until the Dissertation is submitted.

---

**LL104**

**Law of Obligations**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Charlie Webb, NAB6.26

**Availability:** This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** Introduction to the law of contract, including formation of contracts, express and implied terms, misrepresentation, exclusion clauses, remedies for breach of contract. Introduction to the principles of the law of restitution. Introduction to the law of torts: negligence and other specific torts, causation, defences, remedies for torts.

**Teaching:** 18 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

The lectures will be given by a number of different teachers. The basic work is done through the classes, and the lectures are designed to introduce the topics on the syllabus.

**Formative coursework:** Students will be expected to produce up to 4 assignments through the year, set and marked by their class teacher.

**Indicative reading:** A general reading list will be issued at the commencement of each term. Students should follow the advice of their class teachers as to the textbooks to be read.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**LL105**  **Half Unit**  

**Property I**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Tatiana Flessas NAB 5.15

**Availability:** This course is compulsory on the BA in Anthropology and Law and LLB in Law. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The aim is to introduce students to the role of property concepts in legal and social thought. Particular attention is paid to the context, development and function of property forms in contemporary legal systems. The course encompasses a broad range of established and emergent property forms, ranging from questions of copyright and share ownership to aspects of real property. Extensive use will be made of historical and other general commentaries on the question of property.

**Teaching:** 20 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** Murphy & Roberts, Understanding Property Law; Ryan, Property and Political Theory; Rifkin, The Age of Access.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

---

**LL106**

**Public Law**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Jo Murkens

**Availability:** This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The course covers: the conceptual framework of public law, central government and the executive; parliament; multi-layered government (the European Union, devolution and local government); judicial review; and civil liberties and human rights.

**Teaching:** 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**LL108**

**Criminal Law**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Peter Ramsay

**Availability:** This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The course examines the ‘general part’ of criminal law and selected areas of the special part of criminal law in the context of theories of the aims and functions of criminalisation. The course will discuss the limits to criminalization; the conceptual framework of criminal liability (conduct, responsibility, capacity, defences); criminal law’s construction and regulation of interests in property (with particular reference to the offences of theft and fraud), attempts, ‘pre-inchoate’ offences; regulatory offences (with special reference to drugs), homicide, sexual offences; non-fatal violence against the person; secondary participation in crime.

**Teaching:** 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---
LL109  Half Unit
Introduction to the Legal System

This information is for the 2017/18 session.

Teacher responsible: Dr Meredith Rossner, Ma Insa Koch and Prof Linda Mulcahy

Availability: This course is compulsory on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Outline: The course is designed as a foundation course to familiarise law students with the basic characteristics and functioning of legal systems.

The course will include:
1. What is law?
2. Reading Law: Statutory interpretation
3. Reading Law: Common law and judicial precedent
4. Legal pluralism
5. The vanishing trial and adjudication
6. Alternative dispute resolution
7. Restorative Justice
8. Punishment and democracy
9. The Legal profession and judicial diversity
10. Lay justice

Teaching: 20 hours of lectures and 9 hours of classes in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: This is a Moodle course, with the course materials, lecture outlines, class reading and suggestions for further reading set out through links to relevant sites. The main background book for the course is Carl F Stychin and Linda Mulcahy (eds), Legal Methods and Systems: Text and Materials, 4th ed (2010) Thomson (Sweet and Maxwell).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

- LL202  Commercial Contracts

This information is for the 2017/18 session.

Teacher responsible: Dr Paul Macmahon (Michaelmas Term) NAB6.02A and Dr Joseph Spooner (Lent and Summer Terms) NAB6.29

Additional Teachers: Dr Jo Braithwaite, Professor Ross Cranston, Professor Michael Lobban, Dr Nick Sage.

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

This optional LLB course is normally available to students who have completed Law of Obligations LL104.

Pre-requisites: Completion of LL104 - Law of Obligations is normally a prerequisite.

Course content: Objectives: LL202 Commercial Contracts comprises a study of the general principles of English law governing commercial contracts. Its examination of this subject-matter divides into two parts. Part 1, ‘Fundamentals of Commercial Contracting’ examines several important aspects of, or themes in, the law’s regulation of commercial contracting. The topics are chosen because of their intrinsic interest, and because of the opportunity offered for an advanced contextualised examination of contract law fundamentals. Part 1 therefore explores topics including the process of commercial contracting, multi-party transactions and agreed remedies. Part 2, ‘Fundamentals of Commercial Law’ examines core topics in commercial law. It focuses on an examination of the sale of goods contract, while also considering several important allied topics: money, payment and payment methods; credit, security and reservation of title; agency; and assignment. The course concludes with a discussion of dispute resolution in commercial contracts, particularly those of an international nature.

Topics are likely to include:

Part 1 – Fundamentals of Commercial Contracting
- Freedom of contract.
- The formation of commercial contracts and their interpretation.
- Pre-contractual duties.
- Mistakes in contracts.
- Frustration of contracts.
- Agreed remedies.

Part 2 – Fundamentals of Commercial Law
• Agency.
• Assignment.
• Contracts for the sale of goods.
• Credit and security.
• Money, payment and payment methods.
• Commercial dispute resolution.
• International contracting.

**Teaching:** 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

**Formative coursework:** Two formative essays per term.

**Indicative reading:** The principal textbooks for the course are:
• Chen-Wishart 5th edn OUP
• McKendrick, Goode on Commercial Law, 5th edn (Penguin 2017)

Students may also wish to consult:
• Beale, Bishop and Furmston, Contract: Cases and Materials, 5th edn (OUP 2007)
• Sealy and Hooley, Commercial Law: Text, Cases and Materials, 4th edn (OUP 2008)

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**LL203**

**Law of Business Associations**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Robert Kershaw

Additional Teachers: Visiting Professors Leslie Kosmin, QC and Mary Stokes (lectures).

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students. Experience suggests that third year students are more successful.

**Pre-requisites:** It is helpful to have studied or be studying Property II, although this is not a formal pre-requisite.

**Course content:** Outline:
This course examines the nature of the legal vehicles available for the carrying on of entrepreneurial activities, paying particular attention to the analysis of companies. It examines the core features of the company. These are: separate legal personality, limited liability, centralised management, the allocation of control rights, and free transferability of shares. The course analyses how the law implements these features and the policy trade-offs among them.

The course discusses the relationship between various groups with an interest in the affairs of the company – shareholders, directors, managers, financiers, trade creditors, employees, consumers and regulators - and the balance of power between them. The course looks beyond purely technical legal issues and encourages a critical examination of the system and proposals for reform.

Registered companies are creatures of statute and close attention to the Companies Acts and related legislation is essential. However, no attempt is made to deal with all, or even most, of the complex technical aspects of the legislation and non-statutory regulation. The course concentrates on the problems and policies underlying the legislation, with some more detailed consideration of selected provisions. The increasing influence of European Directives and Regulations on UK company law is also reflected.

Despite the importance of statute, common law and equitable principles have played a major role in the development of company law by the courts. This has relied heavily on principles of agency and the equitable principles relating to fiduciaries. Case analysis is therefore a major element of the course. Excellent case books are available.

This subject covers a wide range of businesses - from the one-person firm (the local greengrocer or plumber) to family companies, to major multinational groups listed on the Stock Exchange. This wide coverage plus the policy emphasis means that this course should appeal to all students with an interest in the economic, social and political aspects of business organisations and not only to those wishing to practise commercial law.

Topics usually covered are:
• Introductory concepts and themes including limited liability and corporate personality.
• Capacity of companies & the powers of individuals acting for companies.
• Shares and share capital.
• Directors: powers, duties and corporate governance issues.
• The role of shareholders in companies: rights, decision-making and governance.

**Teaching:** 20 hours of lectures and 8 hours of seminars in the MT. 20 hours of lectures and 14 hours of seminars in the LT. 4 hours of seminars in the ST.

Lectures are accompanied by fortnightly two-hour seminars, which follow the lectures closely. Reading lists provided by the lecturer in each topic are used as the basis for seminar work. Seminars are held in weeks 3,5,8,10,11 of MT and LT. The two revision classes are in week 1 ST.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

**Indicative reading:** Gower and Davies, Principles of Modern Company Law (9th edn, 2012); David Kershaw, Company Law in Context (2nd edn, 2012); Sealy and Worthington, Cases and Material on Company Law (10th edn, 2012)

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**LL204**

**Advanced Torts**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Emmanuel Voyiakis, NAB 6.17

Additional Teachers: Dr Paul MacMahon and Dr Charlie Webb.

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

**Pre-requisites:** Students must have completed Law of Obligations (LL104).

**Course content:** Our course aims to broaden and deepen your knowledge of tort law in two ways. First, it looks at a range of important torts that are not covered in the Law of Obligations course. Second, it tackles the ‘big’ theoretical questions of tort law. On finishing the course, you will not only have gained a better understanding of the rules and principles that govern specific torts, but you will also be able to engage critically with different views about the overall purpose and the moral and social function of tort law.

Here are some topics we usually cover:

1. Theories of tort law: what is the aim of tort law and do judges need a theory of it?
2. Tort law and the ‘compensation culture’
3. Tort law, moral responsibility and luck
4. Negligence focus: the position of public authorities; negligent endangerment
5. Wrongful life and wrongful birth
6. Interference with the person: assault; battery; harassment; the Wilkinson v Downton tort
7. Problems of causation: loss of chance
8. Illegality
9. Strict liability regimes: vicarious liability; liability for ultra-hazardous activities; liability for defective products; the justification of strict liability.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 1 hour of seminars in the ST.
### LL205 Medical Law

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Emily Jackson  
**Additional Teachers:**  
Dr Julie McCandless, Mr Antony Blackburn-Starza  

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Law. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Course content:** Medical law is a fast moving and increasingly controversial subject. The rationing of expensive new drugs, and the future of the NHS have become central political issues. New scientific developments, such as gene editing, face transplants and direct-to-consumer genetic testing, are invariably accompanied by demands for their regulation. In this course we examine the legal framework within which health services are provided, and we explore some of the complex ethical dilemmas that arise when determining the limits of medical innovation. Subjects include resource allocation; malpractice litigation; consent; capacity; confidentiality; genetics; clinical trials; regulation of medicines; organ transplantation; embryo and stem cell research; abortion; assisted conception; preimplantation genetic diagnosis, surrogacy, assisted dying.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

**Indicative reading:** For European Convention law there exists no textbook which deals with the issues in adequate depth, but interested students may want to take a look at Harris, O’Boyle and Warbrick, Law of the European Convention on Human Rights 3rd edn (OUP, 2014) for an overview. For the more theoretical aspects of the course, see K. Möller’s The Global Model of Constitutional Rights (OUP 2012; paperback edition 2015). For the second term, representative works include Conor Gearty, Civil Liberties (OUP, 2007); Tom Hickman, Public Law after the Human Rights Act (Hart, 2010) and Aileen Kavanagh, Constitutional Review under the UK Human Rights Act (CUP, 2009).

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

### LL207 Civil Liberties and Human Rights

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Kai Møller NAB 7.01  
**Additional Teachers:** Dr Thomas Poole, Dr Peter Ramsay.

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Law. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students. This course is capped at 50.

**Course content:** The course provides a challenging introduction to human rights law. The first term focuses on the European Convention on Human Rights with an in-depth analysis of the case law on several important rights, including but not limited to freedom of expression, freedom of association, freedom of religion, the right to respect for private life, and freedom from torture and inhumane or degrading treatment or punishment. The second term deals with the UK Human Rights Act and builds not only on the first term’s work but also on the knowledge that students have acquired in Public Law in year one. Thus, students must engage with the law of two legal systems here: the European Convention on Human Rights and U.K. law. The course takes a highly analytical approach; it will not be sufficient to approach the issues in a descriptive, "black letter" way. Rather, an overall aim is to enable students to critically assess the European Court’s and the U.K. Supreme Court’s arguments about the compatibility of a policy or administrative decision with human rights and the particularities of human rights adjudication within the U.K. legal system. To this end, the course will focus on the necessary doctrinal and conceptual framework – such as positive obligations, the margin of appreciation and proportionality –, an overview of the relevant case law, and in-depth analysis of selected problems in human rights law.

This course does not touch upon strategic or policy issues (such as the most effective ways to promote human rights, NGO practices, etc.); rather it focuses on the controversial and often difficult moral and political issues that arise in human rights adjudication and on unravelling the implications of the unusual (some would say idiosyncratic) way in which U.K. law has incorporated the ECHR. Regard will however be had to the current argument over whether or not the Act should be repealed. The teaching of this course is mainly case-based. To complete it successfully, students must prepare for each seminar by reading and thinking through the relevant cases; the seminars will be conducted on the basis of the expectation that the students are familiar with the materials. There is no comprehensive textbook available for this course.

**Syllabus:** The history of human rights protection in the UK; theoretical aspects of human rights; the Human Rights Act 1998; human rights and parliamentary sovereignty; human rights and standards of review; human rights and the common law; precedent and human rights law. The rights to life and freedom from torture; freedom of expression; freedom of association and ‘militant democracy’; freedom of religion; the right to respect for private and family life. Mental health and human rights. Terrorism, security and states of emergency; ‘social learning’. Anomalous zones.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

**Indicative reading:** For European Convention law there exists no textbook which deals with the issues in adequate depth, but interested students may want to take a look at Harris, O’Boyle and Warbrick, Law of the European Convention on Human Rights 3rd edn (OUP, 2014) for an overview. For the more theoretical aspects of the course, see K. Möller’s The Global Model of Constitutional Rights (OUP 2012; paperback edition 2015). For the second term, representative works include Conor Gearty, Civil Liberties (OUP, 2007); Tom Hickman, Public Law after the Human Rights Act (Hart, 2010) and Aileen Kavanagh, Constitutional Review under the UK Human Rights Act (CUP, 2009).

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.
**LL209 Commercial and Enterprise Law**

**This information is for the 2017/18 session.**

**Teacher responsible:** To be confirmed

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Economics, BSc in Management, BSc in Statistics with Finance and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** Commercial and Enterprise Law introduces the basic institutions of the market economy, and the governance of enterprise, in a post-financial crisis world: the law of contract, companies, labour and insolvency. It is the LSE’s oldest course (since 1895, originally named ‘Commercial and Industrial Law’) and probably the first in the world to teach labour law. Over the years it has attracted enquiring students from non-law departments, a number of whom became Nobel laureates.

Michelmas term is the law of contract. We examine how agreements become legally binding, the regulation of unfair terms and basic consumer protection laws. We see how a contract may be cancelled when fully informed and true consent is not present, including through misrepresentation or coercion, and examine remedies for breach of contract.

Lent term examines enterprise governance: introducing companies, labour relations and insolvency law. How are company directors accountable to shareholders, employees and other stakeholders? Which fiduciary duties and duties of care do directors owe a company? What voice does labour have in corporate governance? Should banks acquire privileges through securitised lending over other creditors? How will a corporate insolvency be administered, and the losses distributed? Finally, how can directors and shareholders be held to account after insolvency? The aim is to understand the operation of the basic institutions in the market segment of the economy.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

**LL210 Information Technology and the Law**

**This information is for the 2017/18 session.**

**Teacher responsible:** Professor Andrew Murray NAB 7.11
Dr. Orla Lynskey NAB 6.23

**Availability:** This course is available to LLB and Law and Anthropology students. It is also available as an outside option to students in other departments and to General Course Students. Students from other Universities should contact the course convenor regarding participation in this course.

**Pre-requisites:** This course does not require an in-depth understanding of contemporary computer technology – we are primarily interested in the implications of the use of information technology, and the intended and unintended consequences of regulating that use.

**Course content:** This survey course, which is divided into six modules, introduces students to a selection of fundamental legal issues in the field of Information Technology (IT) Law. It begins by examining ongoing debates regarding the appropriate theoretical framework applicable to internet regulation and governance, tackling questions such as whether the internet should be controlled and, if so, by whom. It then examines substantive legal topics, such as data protection, cybercrime, intellectual property and online freedom of expression, against this theoretical backdrop. In particular, students are encouraged to consider how the law has responded to the challenges of information technologies, and the extent to which legal issues have shaped the development of information society policy.

The focus will be initially on English law, although the increasingly global nature of IT law means that there are already strong EU and US legal influences upon the English system, so comparative aspects will be introduced in places, and readings will include materials drawn from, amongst others, US law journals.

At the end of the course, students should be able to assess critically ongoing developments in law relating to information technologies and to evaluate the internal coherence of these developments and their doctrinal and political implications.

**Indicative Content:**
- Michaelmas 2017
  - Introduction to Internet Regulation and Governance
  - Cybercrime
  - Intellectual Property Rights Online
- Lent 2018
  - E-Commerce
  - Data Protection and Online Surveillance
  - Freedom of Expression Online

For a more detailed outline, please visit the course Moodle page.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

**LL212 Conflict of Laws**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Jacobus Bomhoff NAB6.09

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Pre-requisites:** A good knowledge of law is required. The majority of students taking this course tend to be in their third year. That said, many second year students have done very well on this course over the past years.

**Course content:** Conflict of laws - also known as private international law - is the area of law concerned with cases in which the facts present one or more international elements. The field's three main questions are (1) jurisdiction (will an English court or a foreign court hear a case?), (2) choice of law (should the court apply its own law or that of a foreign country?), (3) the recognition and enforcement of foreign judgments. During the course, these three questions will frame reflection on a range of topics,
including commercial/practical issues (e.g. how can companies structure their cross-border transactions), but also questions of a more political nature (e.g. to what extent should States be able to regulate matters beyond their own borders?) or with a strong social/cultural dimension (e.g. how should foreign cultural understandings of justice be accommodated in domestic law?). Because of the growing role of the European Union in this area, the interaction between English and European approaches to conflict of laws issues will be an important running theme throughout the course.

Syllabus

• Jurisdiction: Brussels I Regulation 2012; English traditional rules; Comparative case studies (US and Canadian law); Choice of court agreements; Anti-suit injunctions.

• Choice of law: Contract and Tort (Rome I and Rome II Regulations); Comparative case studies; Public policy; Foreign illegality; Overriding mandatory rules.

• Foreign judgments: Brussels I Regulation 2012; English traditional rules; Comparative case studies.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be reading weeks in Week 6 of MT and Week 6 of LT.

Formative coursework: Students will be expected to produce 2 essays in the MT and LT.

Indicative reading: Students will be provided with a Course Reader, which is posted on Moodle in instalments throughout the year. The following texts may serve as sources of reference throughout the course: Jonathan Hill & Adeline Chong, International Commercial Disputes (Hart Publishing); Trevor Hartley, International Commercial Litigation (CUP); Peter North & James Fawcett, Cheshire & North’s Private International Law (OUP); Adrian Briggs, The Conflict of Laws (OUP). Always make sure you have the most recent edition.

Resources: www.conflictoflaws.net (Topical references, cases and reviews).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

### LL221 Family Law

This information is for the 2017/18 session.

**Teacher responsible:** Dr Julie Mccandless NAB.6.07

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Course content:** This is an exciting time to study Family Law! Maybe more than ever before, the family is in flux. With marriage rates tumbling, divorce rates escalating and reproductive technologies becoming normalised, record numbers of children are living outside the traditional nuclear family of their biological married mum and dad (the heteronormative family). What’s more, after centuries of exclusion, lesbians and gay men are on the brink of entering into the most sanctioned relationship of all — marriage. Is the traditional family dead, has it changed beyond all recognition, or is the family functioning much as it always has done? How does the law respond to the modern family, and how should the modern family be regulated? If you want to chew over these and a host of other fascinating questions, Family Law is the course for you.

**Term 1:** Adult Relations: 1. Introductory concepts: (a) Intervention in the family, (b) Discrimination against families, in the context of human rights legislation. 2. Marriage and Civil Partnerships: (a) the distinction; (b) Gender Recognition Act; (c) nullity. 3. Divorce and Dissolution 4. Financial provision: (a) conceptions of equality, (b) the legal framework for discretion. 5. Domestic violence: the legal framework, and the limits of legislation.

**Term 2:** Child Law: 1. Introductory concepts: (a) children’s welfare; (b) the welfare checklist; (c) legal parenthood; (d) parental responsibility: meaning and allocation. 2. Children and families: (a) legal framework; (b) regulation after relationship breakdown. 3. Children and the state: (a) care and supervision; (b) child abuse.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT.

**Indicative reading:** Students are provided with a detailed syllabus and reading list for class topics. Basic reading for each topic will be drawn from a number of sources including text books, cases and articles.

In case students wish to purchase any books the following are suggested:

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

Approved statutory materials may be taken into the examination in accordance with School Regulations.

### LL232 Law and Institutions of the European Union

This information is for the 2017/18 session.

**Teacher responsible:** Dr Michael Wilkinson and Dr Veerle Heyvaert

**Additional Teachers:** Orla Lynskey

**Availability:** This course is compulsory on the BA in Anthropology and Law. This course is available on the BSc in Management and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The course is an introduction to European Union Law. The course considers a legal and political system which has become the most formidable system of transnational government in modern times. It is also a system that has become, in recent years, a source of continual political conflict: both over the content of its measures and the presence of its involvement in many spheres of activity. Discussions on the democratic nature of the EU, its stance of the protection of fundamental rights, and the relationship between the welfare state and EU law, for example, will all be covered in this course.

This course covers three aspects of EU law. First, it covers the institutional and constitutional structure of the European Union. Second, it looks at the central policies of the European Union, notably the rights to free movement for goods, services, workers, and Union citizens. Third, it looks at some of the most topical policy areas in which EU law plays an increasingly important role: the area of freedom, security and justice (and in particular the Common European Asylum System), EU social policy, and the euro area crisis.

**Topics** will be taken from:

1. Evolution of the European Union
2. Institutions and Law-Making of the European Union
3. Sovereignty and EU Law
4. The Authority of EU Law outside the EU
5. Subsidiarity and the role of national parliaments

**LL232**

Course content:

This is an exciting time to study Family Law! Maybe more than ever before, the family is in flux. With marriage rates tumbling, divorce rates escalating and reproductive technologies becoming normalised, record numbers of children are living outside the traditional nuclear family of their biological married mum and dad (the heteronormative family). What’s more, after centuries of exclusion, lesbians and gay men are on the brink of entering into the most sanctioned relationship of all — marriage. Is the traditional family dead, has it changed beyond all recognition, or is the family functioning much as it always has done? How does the law respond to the modern family, and how should the modern family be regulated? If you want to chew over these and a host of other fascinating questions, Family Law is the course for you.

**Term 1:** Adult Relations: 1. Introductory concepts: (a) Intervention in the family, (b) Discrimination against families, in the context of human rights legislation. 2. Marriage and Civil Partnerships: (a) the distinction; (b) Gender Recognition Act; (c) nullity. 3. Divorce and Dissolution 4. Financial provision: (a) conceptions of equality, (b) the legal framework for discretion. 5. Domestic violence: the legal framework, and the limits of legislation.

**Term 2:** Child Law: 1. Introductory concepts: (a) children’s welfare; (b) the welfare checklist; (c) legal parenthood; (d) parental responsibility: meaning and allocation. 2. Children and families: (a) legal framework; (b) regulation after relationship breakdown. 3. Children and the state: (a) care and supervision; (b) child abuse.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT.

**Indicative reading:** Students are provided with a detailed syllabus and reading list for class topics. Basic reading for each topic will be drawn from a number of sources including text books, cases and articles.

In case students wish to purchase any books the following are suggested:

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

Approved statutory materials may be taken into the examination in accordance with School Regulations.
The course concentrates on criminal, rather than civil evidence, and emphasis is placed on matters of principle and conceptual issues. The aims of the course are to teach students how to reason about evidence, and to encourage them to reflect critically on the sort of material that we study. The examination will contain 10 questions of which some may be ‘either/or’ of which four are to be answered, and at least one question must be answered from each of two sections, which represent Lent and Michelmas term work respectively.

### LL233

**Law of Evidence**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Abenaa Owusu-Bempah

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Course content:** If a person is suspected of committing a crime, how does the prosecution go about proving that they are guilty? Are there any restrictions on the type of evidence that the prosecution can use to prove its case? What protections does the law offer to defendants in order to safeguard them against false conviction? These are among the central questions in the law of criminal evidence, that is, the set of rules governing the production and the use of evidence in criminal trials.

This course concentrates on criminal, rather than civil evidence, and emphasis is placed on matters of principle and conceptual issues. The aims of the course are to teach students how to reason about evidence, and to encourage them to reflect critically on the modern law of criminal evidence. We study the standard of proof, asking whether a high standard such as ‘proof beyond reasonable doubt’ is justified. We examine how the police gain confessions from suspects, and how the law regulates the admissibility of confessions. A central theme on the course is the question as to what makes a trial fair.

The European Convention on Human Rights is relevant to this question. In this context, we look at whether courts should admit improperly obtained evidence and we ask what the privilege against self-incrimination is and whether it can be justified. As you will learn, much of the law of evidence involves rules of admissibility. Among these we cover the rules regulating the admissibility of hearsay evidence (a topic that now has an important human rights angle) and of bad character evidence (can a defendant’s previous convictions be introduced against them at trial?). We also look at particular problems relating to testimony, ranging from the protections afforded to vulnerable witnesses to the admissibility and presentation of expert evidence.

While coverage may vary from year to year, we usually focus on the following topics:

**Reasoning with Evidence:**
- Analysing Evidence: Admissibility, Relevance and Exclusion of Evidence;
- The Burden of Proof and the Presumption of Innocence;
- The Standard of Proof;
- Trial Fairness and Pre-Trial Proceedings:
  - Improperly Obtained Evidence;
  - Eyewitness Identification;
  - Confessions;
  - The Privilege Against Self-Incrimination;
  - Drawing Inferences from Silence;
- Traditional Rules of Use:
  - Hearsay;
  - Confrontation;
  - Bad Character Evidence;
- Testimony:
  - Vulnerable Witnesses;
  - Sexual History Evidence;
  - Expert Testimony.

The course has a Moodle page. You are encouraged to consult it should you want more information on the themes, the topics, and the sort of material that we study.

**Teaching:** 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.
Christianity to the Roman constitution; and the decline of Rome and the rise of Byzantium as the ‘new Rome’.

In the second part of the course we will be considering how the Roman law tradition, now increasingly referred to by the English as Civil Law, transformed itself and continued to play a very central role in the imagination, thought and language of Europe. We will look at how Roman law became immensely influential once again, upon its reappearance, in new and different guises, at the end of the Middle Ages, the challenges new readings of the Digest presented to the existing law of the Christian Church, and to the medieval world more generally; the cultural revolution of the Italian Renaissance; the emergence of Humanism and of the scientific method, Enlightenment; the modern movement towards legal codification; and finally, the French Revolution, Napoleon and, as he put famously it, his 1804 Code Civil. The course will end there, at the on modernity, when the European legal tradition began to face the wider and wider challenges presented by an increasingly complex, interconnected world.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT.

No seminars in the ST.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

**Indicative reading:** The general textbooks for the course are Inventing the Individual (2014), by Larry Siedentop, and the short but iconic book by Peter Stein, Roman Law in European History (1999). In addition, students will be required to familiarize themselves with the content of a mixture of visual aids (designed specifically for this course by Dr Stramignoni), and of numerous readings complementing the two textbooks, including academic journal articles and chapters from other monographs. Those thinking to take this course are encouraged to explore the course Moodle page for more information.

**Assessment:**
- Assessment path 1
  - Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.
- Assessment path 2
  - Dissertation (100%, 12000 words) in the ST.

**LL242 International Protection of Human Rights**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Chaloka Beyani

**Availability:** This course is available on the BA in Anthropology and Law, BSc in International Relations and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Pre-requisites:** Students need to have already taken and done well in a course in Public International Law or in Civil Liberties Law.

**Course content:** This course aims to provide a comprehensive and analytical account of the application of human rights standards in international law, and the operation of the existing international machinery for the protection of human rights. The course is designed to be both theoretical and practical.

The course deals with important conceptual issues: What are human rights? What is their purpose and status in international law? Are they absolute or relative? Can they be of equal significance to societies at different stages of development? When may they be qualified? What is the relation between economic and social rights as well as civil and political rights? Are rights attributable to groups as well as to individuals? Why are there special categories of protection, e.g. minorities, indigenous peoples, children, women and refugees?

Extensive use is made of relevant case law, of the Civil and Political Covenant, the European Convention, the African Convention, the African Charter, and the International Court of Justice; and particular rights (such as those of persons belonging to minorities, the right to life, the prohibition of torture, the right to a fair trial, family life, and the fundamental freedoms) are studied in considerable detail.

The law of human rights reflects attempts made internationally to articulate basic legal standards for the protection of individuals and groups in their relations with the state, and to use the authority of international law, institutions, and procedures, to secure compliance with such standards. Human rights law is a modern phenomenon, but it has an ancient lineage. Some account of its evolution is given, from natural rights, civil liberties, the history of minorities protection, and the progressive development of human rights in public international law since 1945.

However, the major part of the course relates to post-1945 events concerning the protection of human rights. A section of the course deals with the role and reform of the United Nations to promote and secure the observance, on a universal basis, of international standards of human rights. The development of important legal standards (such as those of non-discrimination) is traced, and the work of various UN bodies in applying human rights is analysed.

The International Covenants on Human Rights are closely studied, with equal emphasis on the Committee under the Civil and Political Covenant, and the Committee under the Economic Covenant. Comparisons are also drawn with regional attempts to promote and protect human rights, with the European system, the Inter-American system and the African system receiving special attention as regards their treaties, their institutions, procedure, and case-law.

By the end of the course students should have a good understanding of the substantive content of contemporary human rights and of the existing and alternative means available for protecting these rights and fundamental freedoms.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Indicative coursework:** Students will be expected to produce 2 essays in the MT and LT.

**Assessment:**
- Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

**LL250 Law and The Environment**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Veerle Heyvaert NAB7.06

**Teacher responsible for 2017/18:** Dr Joana SETZER

**Availability:** This course is available on the BA in Anthropology and Law, BSc in Environment and Development, BSc in Environmental Policy with Economics, BSc in International Relations and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The aim of this course is to study and understand how law can be used as a tool to pursue environmental goals and to think critically about law’s contribution to local and global environmental protection.

**THEMES:**

I. General features of environmental law in the UK.

The introductory sessions examine how we understand ‘the value of the environment’ as an object of legal protection, and how environmental law evolved through time. We study the notions of ‘risk’ and ‘precaution’ as key concepts of environmental regulation, and examine how the relationship between Parliament, the Government and the Environment Agency affects the effectiveness of environmental laws and rules in the UK.

II. Controlling space
This section reviews legal strategies for environmental protection through the management of the built environment, parks and nature. It covers planning law, environmental impact assessment, and nature conservation law.

III. Controlling climate change

Studies international law and politics of climate change, the UK approach to climate change mitigation and adaptation, and discusses the pros and cons of market-based regulation as a response to the climate change challenge.

IV. Controlling enterprise

Section IV looks at how environmental harm can be prevented or limited by regulating particular industries (such as heavily polluting industries and the waste treatment sector), by targeting particular products (such as dangerous chemicals), or by focusing on particular activities (such as international trade). We examine how environmental regulation aims to balance between restricting hazardous activities on the one hand, and fostering free enterprise on the other, and review the court’s role in adjusting this balance.

V. Remediating environmental harm

The final section examines the role of both case law and regulation in the remediation of environmental harm, paying attention to clean-up of contaminated land, common law and human rights based approaches to compensation, and legal responses to international environmental disasters.

**Teaching:** 20 hours of seminars in the MT, 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Week 6 MT and week 6 LT will be reading weeks. Essays or equivalent writing assignments will be set around reading week to allow students to dedicate time to writing skills.

**Formative coursework:** Students are expected to write a formative essay, answer a problem set in writing, and participate in a mock exam.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

Candidates will be required to answer a total of three questions out of nine (one from each of three sections).
The Role and Objectives of Corporate Insolvency Processes and Procedures
Corporate Insolvency Processes and Procedures
(a) Informal Negotiation
(b) Liquidation
(c) Receivership
(d) Administration
(e) Pre-packaged administration
(f) Company voluntary arrangements
(g) Regulation
Realising the Assets and Distributing Them
(a) Setting aside transactions
(b) The pari passu principle
(c) Preferential claims
(d) Secured creditors
(e) Security devices for consumer creditors and commercial suppliers
(f) Company Directors
(g) Employees
(h) Corporate Groups

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT and LT.

Students will be expected to prepare for participation in weekly seminar discussion.

Indicative reading: Detailed reading lists will be provided during the course. The recommended book is V. Finch, Corporate Insolvency Law: Perspectives and Principles (2nd ed., 2009) (Cambridge University Press).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

The examination will be based on the full syllabus. Unmarked, unannotated versions of the relevant legislation may be taken into the examination.

LL257
Labour Law

This information is for the 2017/18 session.

Teacher responsible: Dr Astrid Sanders

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: This subject builds on contract and tort, and to some extent public law and EU law, but introduces the distinctive legal regulation of employment relations, such as the law of dismissal and discrimination law, and the institutional arrangements of industrial relations, including trade unions and collective bargaining. The course looks at these topics in an industrial relations context informed by sociology and economics. Labour law is an important area of legal practice, with employment law disputes representing one of the largest topics of civil litigation.

Syllabus:
- Contract of Employment: the duties of employer and employee; the variety of work relations; vulnerable workers and the personal scope of employment law
- Regulation of the Employment Relation: minimum wage, working time
- Dismissal: wrongful and unfair dismissal, economic dismissals
- Human Rights in the Workplace: civil liberties of employees at work
- Membership of Trade Unions, Worker Representation, and Collective Bargaining: freedom of workers to associate with each other and to act in association with each other
- Industrial disputes: strikes, other industrial action and lockouts; rights and liabilities of individual workers who take industrial action; civil liabilities for organising industrial action – the economic torts, the ‘golden formula’ immunities and loss of immunity – industrial action ballots.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: Students will be expected to produce 4 essays in the MT and LT.

Students may be expected to perform a moot instead of one of those essays.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

LL259
Legal and Social Change since 1750

This information is for the 2017/18 session.

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines developments in British legal history in the era from 1750 to 1914. Drawing on printed and electronic primary sources, as well as secondary literature, it will explore the changing nature of law in a number of areas. The course begins with an exploration of the nature of eighteenth century criminal justice, and how this was transformed in the nineteenth century. It will then examine the nature of the system of civil justice, and how this was reformed in the era before the Judicature Acts. In the second term, the course will explore topics relating to status, examining the attitude taken by the law to women, workers and slaves. A final set of topics will turn to explore the impact of law on economic change, looking at how the law facilitated the growth of a modern economy. The course will be taught by a combination of lectures and seminars in the Michaelmas and Lent Terms. Seminars take the form of a short introductory presentation by one or more students followed by class discussion in which all are expected to participate.

Lecture and Seminar Topics
Michaelmas term: The first term is devoted to an examination of the criminal and civil justice systems in the eighteenth and nineteenth centuries. Topics covered in the first term include the prosecution of crime in the era of the ‘Bloody Code’, the nature of the criminal trial before and after the arrival of criminal barristers in the courtroom, the reform of criminal punishments and the rise of the prison and modern policing. In the second half of the term, the course looks at the system of the civil courts, the nature of civil litigation and the reform of the major courts. It looks at topics including the ‘old corrupt’ court of Chancery depicted in Dickens’s Bleak House and its reform into the modern Chancery Division.

Lent term: The second term is devoted to exploring the impact of law on society and the economy. Topics explored include the law relating to married women and the custody of children, the law of slavery, and the law relating to workers and trade unions. The economic topics addressed include the law relating to the environment, the transformation of tort and contract law, and the law relating to business organisation.

Teaching: 20 hours of lectures and 5 hours of classes in the MT. 20 hours of lectures and 5 hours of classes in the LT. 4 hours of
lectures and 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT. Students who choose to be assessed by unseen examination must submit one essay each term. Those submitting a dissertation will produce outlines and drafts that will be used for formative coursework purposes.

**Indicative reading:** Reading will be suggested during the course.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

**LL275 Property II**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Neil Duxbury NAB 6.10

**Availability:** This course is compulsory on the BA in Anthropology and Law. This course is available on the LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

This course is available on the second year. This course is available on the LLB in Laws. This course is available on the LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Property I (LL105).

**Course content:** Property II examines principles of Land Law and the Law of Trusts. Land Law is taught in the first term and Trusts in the second term.

The Land Law component of Property II is designed to introduce students to the fundamental principles of the law of real property (i.e., land). The course examines the general principles governing the ownership and occupation of land, including concepts of estates and interests, legal and equitable ownership, title registration, and trusts of land (including constructive trusts). It also considers the law governing specific third party interests – licences, proprietary estoppel, easements, covenants and mortgages.

The Trusts component of the course focuses on general principles of trusts law and examines the circumstances in which trusts arise, the obligations of trustees, and the remedies available to beneficiaries when these obligations are breached. It also considers the nature and classification of trusts, including resulting and constructive trusts, and how the law of trusts relates to and impacts on the law of contract, wrongs and unjust enrichment.

**Teaching:** 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 9 hours of classes in the LT. 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 4 essays in the MT and LT.

**Indicative reading:** Advice on reading, including textbook recommendations, will be provided at the beginning of the first and second terms. An essay which students might profitably read before the commencement of the course is Peter Birks, ‘Before We Begin: Five Keys to Land Law’, in Land Law: Themes and Perspectives, ed. S. Bright & J. Dewar (Oxford: Oxford University Press, 1998), 457-86.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

**Students are required to answer questions on both the Land Law and Trusts components of Property II.**
students on other programmes where regulations permit and to General Course students.

**Course content:** This course provides an introduction to the concepts, principles, institutions and debates that define public international law today. We begin with an overview of the international legal system, considering how international law is made, how it relates to national legal systems, and what scope exists for pursuing those who violate it. In this connection we examine the work of the International Court of Justice, the International Criminal Court and the various ad hoc international criminal tribunals, along with judgments of national courts invoking international law. We then take up a range of topical issues of global concern, studying the ways in which they affect and are affected by public international law. The issues to be discussed include: war, trade and investment, climate change, and the protection of human rights, focusing in particular on the challenges presented by the current period of instability and uncertainty. We also investigate aspects of the history of international law, its role in relation to the establishment and retreat of European empires, and its contemporary significance and prospects. Overall, our aim is to lay the basis for an informed assessment of the contribution and limits of international law as a force in world affairs.

**Teaching:** 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT. Students are expected to participate actively in weekly classes in addition to writing assignments during the year. All formative coursework is set by class teachers.

**Indicative reading:** Reading lists will be provided for each topic on Moodle. You are asked to buy M. Evans (ed.), International Law (4th ed., 2014) and Blackstone’s International Law Documents. Some other works to which you may wish to refer include: D. Harris, International Law: Cases and Materials; H. Charlesworth and C. Chinkin, The Boundaries of International Law; M. Shaw, International Law, M. Koskenniemi, From Apology to Utopia; V. Lowe, International Law, and J. Crawford, Brownlie’s Principles of Public International Law.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**LL293 Taxation**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Michael Blackwell

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Available to second and third year LLB and BA Anthropology and Law students. It is also available as an outside option to second and third year students where regulations permit.

**Course content:** Taxation is a topic that has throughout history pervaded political debate and is encountered in every area of life. Taxation was one of the very first subjects to be taught at LSE. The teaching of tax law as an academic subject started at LSE, where it was introduced by Professor GSA Wheatcroft in 1957. On the LSE Taxation course, the approach to the subject includes a strong policy perspective. However, legal issues are still important. The UK tax code is long and complex. There are also many relevant cases that are required reading too. Accordingly, by taking this course you should develop the following skills and attributes (i) working with and analysing legislation; (ii) working with and analysing case law; (iii) research skills; (iv) communication skills; (v) professionalism.

Students taking this course should be prepared to use a variety of sources ranging from statute and case law to literature on public policy. The precise balance of materials used varies from topic to topic. All the readings set will be accessible and non-mathematical. NO COMPUTATION is required and no knowledge of any discipline other than law is required. The course is open to second and third year law students, and experience suggests that it is equally suitable for both years.

The syllabus is set out below, although there is some variation of topics selected from year to year, depending on the focus of current debate, and in the order of topics.

- General principles of taxation – objectives of a tax system, types of taxation, and the philosophical foundations of taxation: what gives the state the right to tax? Structure and administration; powers of HM Revenue and Customs. Outline of the British tax system.
- Employment income – taxation of salaries, wages and other remuneration of employees and officers.
- Tax treatment of capital – capital gains tax, other taxes on capital and on income from capital – objectives and effectiveness.
- Corporations – legal forms for carrying on a business, reasons for taxing corporations, corporation tax, integration with taxation of individuals, distributions to shareholders, taxation of shareholders on reorganisations and takeovers, taxation of groups of related companies.
- International aspects – the tax base, tax residence and domicile, double-tax relief, tax treaties and the consequences of British
LL295

Media Law

This information is for the 2017/18 session.

**Teacher responsible:** Dr Andrew Scott NAB6.25

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The course examines the legal and administrative regulation of the press and broadcast media. It focuses on three areas: the regulation of content to protect private interests (such as those in privacy and reputation), the regulation of content in the public interest, and the control of news-gathering practices. The course centres on law and regulation in the UK, as influenced by European law. The course is introduced with an overview of two overarching areas: first, the media landscape and the main social, technological and regulatory influences shaping its development, and secondly, the protection of freedom of expression and freedom of the press in national and international law. It then proceeds to review potential restrictions on these values that are aimed at promoting or preserving specific private and/or public interests. The key private interests included are those in reputation, privacy, confidentiality, and intellectual property. The key public interests included are those in preservation of the integrity of the judicial process, the fairness of political debate, the protection from offensive content, and the protection of consumers. The third part of the course focuses on the regulation of journalists' news-gathering practices, and covers such themes as harassment, surreptitious methods (the 'Dark Arts'), cheque-book journalism, protection of sources, and access to state-held information.

**Teaching:** 10 hours of seminars, 14 hours of classes and 20 minutes of help seminars in the MT, 8 hours of seminars, 16 hours of classes and 20 minutes of help sessions in the LT.

The intellectual content of the course is introduced in hour-long seminars held weekly throughout most of MT and LT. Classes - two hours in duration, and also held weekly throughout most of MT and LT - are occasions for working through group-based problem exercises that build progressively over three blocks of six weeks. Students also receive support in the writing of their individual research papers.

**Formative coursework:** Students will be expected to produce 5 problem sets in the MT and LT.

Each week, group-work in classes will focus on 2 sets of problem exercises, and 1 set of policy-focused themes. The problem exercises are designed to allow students to build the knowledge necessary to complete the summative problem-based assessment. The policy-focused sessions are intended to introduce students to themes that may be picked up as topics for the summative coursework.

**Indicative reading:** Supporting texts for the course include Millar and Scott, Newsgathering: Law, Regulation and the Public Interest (Oxford University Press, 2016), Parkes and Mullis (eds) Gatley on Libel and Slander (Rev 12th edn, Sweet & Maxwell, 2015), and Barendt et al, Media Law: Texts, Cases and Materials (Pearson, 2013), Leveson, An Inquiry Into the Culture, Practices and Ethics of the Press: Report, HC 780, 2012. These and other materials relevant to the course are generally made available via the BLPES electronic resources or online.

**Assessment:** Coursework (50%, 3000 words) in the MT and LT. Essay (50%, 4000 words) in the ST.

During the year, students must complete three problem exercises in groups, following extensive preparatory group-based problem exercises in classes. These group-based problem exercises are released at the beginning of each part of the course, and the answers developed progressively over the subsequent six weeks. Submission of the group-based answers will take place in week 7 MT, week 3 LT and week 10 LT respectively. The best two grades achieved in these three exercises will comprise 50% of the overall grade for each student for the course.

Each student must also complete one 4,000 word research paper on a theme to be agreed with seminar or class teachers. The grade achieved for this paper will comprise the remaining 50% of the overall grade for the course. This work is supported by the weekly seminars, by the policy-focused element of each class and by short supervision meetings in LT and ST as required.

LL300

Competition Law

This information is for the 2017/18 session.

**Teacher responsible:** Dr Pablo Ibáñez Colomo NAB5.16

**Availability:** This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Course content:** Competition is widely understood to be the best means to deliver better products at lower prices. The point of competition law is to preserve the process of rivalry between firms, thereby benefitting consumers and society at large. A broad range of corporate strategies are subject to this field of law. For instance, competition authorities enforce the law against powerful firms (such as Microsoft, Google, or Intel) that have the ability to influence market conditions and to exclude smaller rivals. Competition authorities also have the power to block mergers and acquisitions that have the potential to harm consumers (think of a merger creating a monopoly). Attempts by firms to avoid competing by means of secret arrangements (the so-called ‘cartels’) are another key area of enforcement.

Competition law regimes have progressively become a major feature of legal systems around the world. They have long applied in the US and Europe – including the UK – but have now been adopted (and/or actively enforced), inter alia, in jurisdictions like Brazil, Chile, China, Hong Kong, India, Malaysia, Singapore and South Africa. Unlike other legal disciplines, the relevant provisions in all of these regimes are virtually identical in their form and substance and are enforced in very much the same way. This is, in other words, a truly cosmopolitan field. After this module, you will be equipped to interpret and practice competition law almost anywhere in the world.

After an introduction in which competition law is put in its economic and institutional context, this module will address the main substantive and procedural aspects of the discipline. Topics
covered include the following:
• Anticompetitive agreements between firms (including ‘cartels’ and distribution agreements).
• Abusive practice by dominant firms.
• Mergers and acquisitions, including both mergers between competitors and vertical and conglomerate arrangements.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Formative coursework: Students will be expected to produce 2 essays in the MT and LT.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

LL301
Global Commodities Law

This information is for the 2017/18 session.

Teacher responsible: Dr Stephen Humphreys 6.15

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides a critical introduction to the legal regulation of global commodities, with a focus on the colonial histories of Asia, Africa and the Americas. Taking some of the world’s most heavily exchanged primary commodities as examples, we will track the development of their production and consumption from their domestic origins to their marketization and circulation in global trade today. The histories of some principal commodities – such as sugar, coffee, rubber, oil – tell the story, and provide the shape, of today’s global economy in microcosm. Most significantly, their evolving regulation has provided the base for central elements of the contemporary international and transnational legal architecture. In exploring this history, we will also touch on cross-cutting issues relating to some or all of the following: the law of the sea, human rights, WTO/trade law, environmental law, the laws of war, investment arbitration, labour law, climate change and animal welfare law. We will also be looking at theories of consumption and production more generally, adopting a broad definition of ‘commodity’ to enrich our understanding and discussion of these topics.

In Michaelmas term, we track the increasingly global circulation of certain basic commodities (spices, gold, sugar, tea, coffee) in the early modern period, and its centrality to the emergence of international law as well as to the formation of colonial relations at this time. Our examination of emerging commodity markets will remain cognizant of the state-formation processes, international law developments, and trans-global networking entailed in their consolidation. We will also look through some basic theoretical and historical texts and aim to have an overview of key legislative texts and vying historical theories of the economy. In Lent term, as well as student presentations and dissertation preparation, we bring our study forward to the industrial era (rubber, whales, oil, industrial metals, precious stones) through to emerging commodities such as carbon or data.

A caveat: The course is predominantly historical and theoretical in nature. It deals in the main with events from the colonial period (c.1515-1960) as they relate to the history of international and transnational law. It does not aim to prepare students for life as a commodity trader. While this class is complementary to LL278 (Public International Law), it is not necessary to have studied LL278 to take this class.

Following completion of the course, students can expect to have a broad understanding of the historical evolution of global markets, with specific knowledge of how certain commodities have contributed to and shaped the most important international law challenges of our time. Through individual presentations and research projects students are expected to develop critical perspectives on aspects of the topics covered throughout the year as well as hone presentation skills.

At the end of the course, students should be able to demonstrate:
• A broad understanding of the historical rise in trade of global commodities, and of the evolution of the early legal regimes; both international and transnational, for their regulation, especially during colonial times.
• An awareness of intersecting legal issues relating to, for example: human rights, trade disputes, law of the sea, laws of war, environmental law, labour, animal welfare and illegal trade.
• An understanding of the impact that historical patterns of production and consumption of commodities around the world have had on contemporary international law structures.
• An appreciation of the critical theory that informs existing scholarly analysis of the trade in global commodities.

Teaching: 20 hours of lectures in the MT. 20 hours of lectures in the LT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Essay (85%, 8000 words) in the LT and ST.

Project (15%) in the MT and LT.

Summative assessment will be in two parts:
• 85% for a 6,000-8,000 word long essay (proposal to be submitted in LT).
• 15% for participation in, and presentation of, a research project.

LL305
Jurisprudence

This information is for the 2017/18 session.

Teacher responsible: Dr Michael Wilkinson

Availability: This course is compulsory on the LLB in Laws. This course is available on the BA in Anthropology and Law, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.
LL398  Half Unit
Half-Unit Dissertation on an approved legal topic

This information is for the 2017/18 session.

Availability: This course is available on the LLB in Laws. This course is not available as an outside option nor to General Course students. This course is available to students in Year 3 only. It cannot be taken in the same year as LL399.

Course content: The half-unit dissertation should be taken in Part II but in exceptional circumstances permission may be sought to take it in Part I. Students wishing to do either a full or half-unit dissertation should first consult their Academic Adviser in the preceding Summer Term about:
1 whether a dissertation is a suitable option for the student;
2 the particular dissertation topic;
3 who might be an appropriate dissertation supervisor.

Because this option requires considerable independent study, it is generally not advisable to opt to write a full-unit dissertation unless the student has been achieving marks of an upper second class standard. The dissertation subject must be of a suitable academic character that has not already or will not have been explored in depth in any taught course taken by the student but is related to subjects taught in the School.

In light of discussions with their Academic Adviser, a student wishing to pursue this option should approach a potential supervisor for approval. Once they have their supervisor's approval, students should select the relevant dissertation course on LFY. They will then need to complete the 'Dissertation topic approval form' (available on LLB Dissertation Moodle page) which needs to be signed off by the student's proposed Dissertation Supervisor, Academic Adviser and the Chair of Examinations. This should be submitted to the Law Reception by the end of Week 4 of Michaelmas Term, 16.00.

Including the initial meeting, students will have four support meetings with their supervisor to guide them through the research process as follows:
1 One initial meeting to establish the broad topic.
2 A second meeting to agree a title, review an outline and see an initial bibliography.
3 A third meeting to discuss progress and difficulties (optional for half-unit essays).
4 A fourth meeting to give feedback on progress to date, to take place before the end of the Lent Term. In order for this feedback meeting to be of use, students will need to have made substantial progress with the preparation of a draft dissertation by the middle of the Lent Term. It is the student's responsibility to arrange these meetings with the supervisor.

Dissertations are normally submitted on the first day of the Summer Term of the academic session in which the dissertation is being written. There is discretion for an additional oral examination on the subject-matter of an essay which "may extend to cover the wider background aspects of the essay".

Teaching: 1 hour of lectures in the MT.

Beyond the one-to-one sessions held with the dissertation supervisor there is no formal teaching. However, there is a one hour session held in the Michaelmas term for all half-unit and full-unit dissertation students to orient them to the requirements of writing a dissertation.

Indicative reading: There is no essential reading as such, but there is a dedicated moodle site for the LLB dissertation options.

Assessment: Dissertation (100, 8000 words) in the ST.

LL399  Full-unit Dissertation on an approved legal topic

This information is for the 2017/18 session.

Availability: This course is available on the LLB in Laws. This course is not available as an outside option nor to General Course students.

Course content: The full-unit dissertation can only be taken in Part II (third year) when students are better prepared for it. Students wishing to do either a full or half-unit dissertation should first consult their Academic Adviser in the preceding Summer Term about:
1 whether a dissertation is a suitable option for the student;
2 the particular dissertation topic;
3 who might be an appropriate dissertation supervisor.

Because this option requires considerable independent study, it is generally not advisable to opt to write a full-unit dissertation unless the student has been achieving marks of an upper second class standard. The dissertation subject must be of a suitable academic character that has not already or will not have been explored in depth in any taught course taken by the student but is related to subjects taught in the School.

In light of discussions with their Academic Adviser, a student wishing to pursue this option should approach a potential supervisor for approval. Once they have their supervisor's approval, students should select the relevant dissertation course on LFY. They will then need to complete the 'Dissertation topic approval form' (available on LLB Dissertation Moodle page) which needs to be signed off by the student's proposed Dissertation Supervisor, Academic Adviser and the Chair of Examinations. This should be submitted to the Law Reception by the end of Week 4 of Michaelmas Term, 16.00.

Including the initial meeting, students will have four support meetings with their supervisor to guide them through the research process as follows:
1 One initial meeting to establish the broad topic.
2 A second meeting to agree a title, review an outline and see an initial bibliography.
3 A third meeting to discuss progress and difficulties (optional for half-unit essays).
4 A fourth meeting to give feedback on progress to date, to take
place before the end of the Lent Term. In order for this feedback meeting to be of use, students will need to have made substantial progress with the preparation of a draft dissertation by the middle of the Lent Term. It is the student’s responsibility to arrange these meetings with the supervisor.

Dissertations are normally submitted on the first day of the Summer Term of the academic session in which the dissertation is being written. There is discretion for an additional oral examination on the subject-matter of an essay which “may extend to cover the wider background aspects of the essay”.

**Teaching:** 1 hour of lectures in the MT.

Beyond the one-to-one supervision sessions held with the student’s dissertation supervisor there is no formal teaching as such. However, a one hour session will be held in the Michaelmas term for all full-unit and half-unit dissertation students to orient them to the dissertation requirements.

**Indicative reading:** There is no essential reading as such. There is a moodle site dedicated to the LLB half and full-unit dissertations.

**Assessment:** Dissertation (100%, 15000 words) in the ST.

---

**LN100 Russian Language and Society 3 (advanced)**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Olga Sobolev TW3 6.01A

**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

**Pre-requisites:** Completion of the Russian Language and Society 2 (intermediate) course (LN102), or a good pass at A Level or its equivalent is required. An interview with the course co-ordinator prior to registration is compulsory.

**Course content:** Advanced study of the Russian language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and web-based multi-media materials. The focus is on accuracy as well as communication that advance students’ language competence, transferable skills and cultural awareness.

**Teaching:** 40 hours of classes in the MT. 40 hours of classes in the LT. 4 hours of classes in the MT. 4 hours of classes in the ST. Four hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials. Structured activities during the reading week.

**Formative coursework:** Students will be required to complete weekly language exercises.

**Assessment:** Exam (40%, duration: 2 hours) in the main exam period. Oral examination (20%) in the ST. Continuous assessment (40%) in the MT and LT. Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

---

**LN101 Russian Language and Society 1 (beginner)**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Olga Sobolev TW3 6.01A

**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

**Pre-requisites:** No previous knowledge of Russian is required; students with limited prior knowledge may be considered for the course subject to an interview with the course co-ordinator.

**Course content:** Beginners to intermediate study of the Russian language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and web-based multi-media materials. The focus is on accuracy as well as communication that advance students’ language competence, transferable skills and cultural awareness.

**Teaching:** 60 hours of classes in the MT. 60 hours of classes in the LT. 6 hours of classes in the ST. Six hours per week, which will feature: (a) interactive topic work; (b) oral classes; (c) grammar classes; (d) tutorials; and (e) guided study using Language Showroom, IT and web-based materials. Students should note that the timetable will be held extremely flexible to accommodate students from all departments. Please contact the teacher responsible if you would like to follow this language course. Structured activities during the reading week.

**Formative coursework:** Students will be required to complete weekly language exercises.

**Assessment:** Exam (40%, duration: 2 hours) in the main exam period. Oral examination (20%) in the ST. Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

Week 11 in MT and LT structured activities. Three hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials.

**Formative coursework:** The students will be required to complete weekly language exercises

**Indicative reading:**
- F Matte Bon, Gramatica comunicativa del español, Tomo 1 y Tomo 2, Edelsa, 1998
- P Preston, Las Tres Españas del 36, 1997;
- P Preston, El Holocausto Español, Debate 2011;
- G Garcia Marquez, Fantasía y creación artística en América Latina y el Caribe 1981;
- N Chomsly, América Latina. de la Colonización a la Globalización, Cátedra, 2003;

Students will be advised to buy any relevant materials at the beginning of the course.

**Assessment:** Exam (40%, duration: 2 hours) in the main exam period.

- Oral examination (20%) in the ST.
- Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

**Pre-requisites:** Students must have completed French Language and Society 3 (advanced) (LN130).

AND / OR attend a compulsory interview with the course coordinator prior to registration.

**Course content:**
- Further advanced (up to proficiency) study of French language within the framework of social sciences and culture.
- Dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and studio-based multi-media materials.
- The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness.

**Teaching:** 30 hours of classes in the MT. 30 hours of classes in the LT. 3 hours of classes in the ST.

Three hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d)

---

**LN240**

**Mandarin Language and Society 4 (Proficiency)**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Hua Xiang Tower 3, 601B

**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

**Pre-requisites:** Students must have completed Mandarin Language and Society 3 (Advanced) (LN140).

Students must complete LN140 or reach equivalent language level. An interview with the course co-ordinator prior to registration is compulsory.

**Course content:** Further advanced (up to proficiency) study of the Mandarin language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and multi-media materials. The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness. At this level, the students are required to read and write up to 3500 Chinese characters.

**Teaching:** 30 hours of classes in the MT. 30 hours of classes in the LT. 3 hours of classes in the ST.

Three hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d)

LN250

English Literature and Society

This information is for the 2017/18 session.

**Teacher responsible:** Dr Angus Wrenn TW3 6.01A

**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations. This course is capped at 32 students.

**Pre-requisites:** An A-level pass or equivalent is recommended but not required (especially for General Course students).

**Course content:** (a) Study of 20th century British literature (prose, poetry and drama) in its socio-political context; Study of individual authors (in weekly lectures) - these form the basis of the examination assessment (b) Study of major cultural themes running through the century e.g. Literature of War; Imperialism; Feminism; Modernism; Postmodernism, Political writing - these form the basis of the student's extended coursework essay. (c) Several trips to theatre productions during the year; (d) Extensive use of archive recordings of authors, and video; (e) Students encouraged to draw upon background in their main discipline, and to read widely.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Two hours per week, featuring: (a) Lectures on a range of authors and themes; (b) Classes including students' presentations; (c) Revision Workshops; (d) Tutorials. Structured activities during the reading week

**Formative coursework:** Two essays per year, presentations.

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 2500 words) in the LT.

LN251

Comparative Literature and 20th Century Political History

This information is for the 2017/18 session.

**Teacher responsible:** Dr Olga Sobolev TW3 6.01A and Dr Angus Wrenn TW3 6.01A

**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

**Pre-requisites:** Although an A-level pass or equivalent in Literature is useful, it is not an absolute requirement (especially for General Course Students).

**Course content:** Comparative literature of the twentieth century leading up to and including the Cold War. (a) Study of major authors (prose, poetry and drama, in English translation where relevant) on both sides of the Iron Curtain with a focus on the recurrent cultural themes: Fabianism; Utopia/Dystopia; Socialist Realism/Art with a Social Function; Cold War (b) Use of video-recording related to the texts (c) Several related trips to galleries and theatre productions during the year; (d) Students encouraged to draw upon background in their main discipline, and to read widely.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Two hours per week, featuring (a) Lectures on a range of authors and themes; (b) classes including students' presentations; (c) revision workshops; (d) tutorials. Structured activities during the reading week

**Formative coursework:** Two essays per year, presentations.

**Indicative reading:** Jiao and Julian K Wheatley, 2010, The Routledge Advanced Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

### LN253

**European Literature and Philosophy**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Olga Sobolev TW3 6.01A and Dr Angus Wrenn TW3 6.01A

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

**Pre-requisites:** Although an A-level pass or equivalent in Literature is useful, it is not an absolute requirement (especially for General Course students).

**Course content:** (a) Literary treatment of the major philosophical trends of the twentieth century, including the aesthetics of Bergson and Nietzsche, the analytical school of Russell, political philosophy of Isaiah Berlin, the existentialism of Heidegger and Sartre, the paradox of the absurd of Camus, French and East European Phenomenology, Wittgenstein and philosophy of language (b) Related trips to galleries and theatre productions during the year; (c) Use of archive recordings of authors, and video; (d) Students encouraged to draw upon background in their main discipline, and to read widely.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Structured activities during the reading week

**Formative coursework:** Two essays per year, presentations.

**Indicative reading:** Dostoevsky Crime and Punishment & Notes from the Underground; Kafka Metamorphosis & The Trial; Nabokov Despair & Lolita, Celan Todesfuge and other poems; St-Exupery The Little Prince; Solzhenizyn One Day in the Life of Ivan Denisovich; Camus L’Étranger & The Myth of Sisyphus; Kundera The Unbearable Lightness of Being; Frayn Copenhagen; Stoppard Dogg’s Hamlet Cahoot’s Macbeth

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 2500 words) in the LT.

### LN254

**Literature and Aspects of Ethics**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Olga Sobolev TW3 6.01A and Dr Angus Wrenn TW3 6.01A

**Availability:** This course is available on the BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

**Pre-requisites:** Although an A-level pass or equivalent in Literature is useful, it is not an absolute requirement (especially for General Course students).

**Course content:** a) Literary treatment/projection of the aspects of ethics, focusing on the classical ideas of Aristotle and Kant, Schopenhauer, and Nietzsche, developed in modern times by Sartre, Lacan, Bernard Williams and Michel Foucault. The course will draw on a range of themes arising from the interface between literary and philosophical studies and will explore such issues as the objectivity of moral reasoning (the question whether the practices that are traditionally and factually legitimated by religion, law or politics are indeed worthy of recognition); the spiritual crisis of the modern world (desire, guilt and innocence); technological omnipotence versus determinism; and the illusion of liberty in a tolerant democracy based on consensus. It will also be concerned with such questions as whether philosophy and literature, when combined, can achieve more than the sum of the two parts. b) The course is based on a carefully chosen range of short stories from world literature (including such authors as Kafka, Murakami, Kundera, Borges, Bessie Head, Isabel Allende etc.) where there is either a direct allusion to or a strong parallel with the key ethical issues. c) Related trips to galleries and theatre productions during the year. d) Use of archive recordings of authors, and video. e) Students encouraged to draw upon background in their main discipline, and to read widely.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

Interdisciplinary structured research field-trips contextualising literature (visual and performance arts), which will contribute to students’ experience and develop their critical thinking and transferable skills.

**Formative coursework:** Students will be expected to produce 2 essays and 10 exercises in the MT and LT.

**Indicative reading:**

1. Bashevis Singer The Spinoza of Market Street
2. Franz Kafka In The Penal Colony
3. Isabel Allende The Guest Teacher
4. Thomas Mann Death in Venice
5. Jorge-Luis Borges Blue Tigers
6. Haruki Murakami The Ice Man
7. Jean-Paul Sartre The Wall
8. Guy de Maupassant The Model
9. Heinrich Böll To Work or not to Work
10. Bessie Head A Power Struggle

• Alex Voorhoeve, Conversations on Ethics (Oxford University Press, 2011)

• Brian Stock, Ethics through Literature: Ascetic and Aesthetic Reading in Western Culture (Brandeis, 2008)

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 2500 words) in the LT.
LN270  Society and Language: Linguistics for Social Scientists

This information is for the 2017/18 session.

**Teacher responsible:** Dr Peter Skrandies TW3.6.01f

**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

**Course content:** The course will introduce students to key (socio)linguistic concepts (semantic and pragmatic meaning, discourse, register, genre, dialect, idiolect, sociolinguist) employed in the analysis of language use as a social process. Students will explore the reciprocal relationship between language and specific social contexts and structures (class, gender, ethnicity), and study the role that language plays in the creation, maintenance and change of social relations and institutions. Important themes are changing attitudes to language and the prestige afforded to particular languages and language varieties. The use of language for academic purposes will be analysed, as will be situations of language contact, multilingualism and the role of translation in intercultural and international communication. The implications and consequences for less widely used languages of the emergence of English (and other widely spoken languages) as global lingua francas will be outlined and discussed.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Two hours per week, featuring: (a) Lectures on a range of concepts and themes; (b) classes including students’ presentations; (c) revision workshops; (d) tutorials. Students on this course will have a reading week in Week 6 of MT and LT.

**Formative coursework:** Short essays, linguistic analyses, presentations.

**Indicative reading:**

**Assessment:** Exam (60%, duration: 3 hours) in the main exam period.

Project (30%, 4000 words) in the ST.

Presentation (10%, 500 words) in the MT.

Study of the Spanish language through themes related to Spanish speaking societies within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and studio-based multi-media materials. The focus is on accuracy as well as communication that advance students’ language competence, transferable skills and cultural awareness.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Week 11 in MT and LT structured activities.

Two hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials

**Formative coursework:** The students will be required to complete weekly language exercises.

**Indicative reading:** The following works are core texts:
- Gabriel Garcia Marquez, Cien Años de Soledad;
- Carmen Laforet, Nada;
- Tomas Eloy Martinez, Santa Evita,
- Luis CERNUJA, “La realidad y el deseco”, Fondo Cultura Económica, Madrid, 1982,
- Poesia, Jaime GIL DE BIEDMA; Antología poética (2001); Alianza Editorial, SA; Fuguet, Alberto; Sergio Gomez (Eds),
- Presentación del país McOndo, En McOndo, Barcelona. Grijalbo, 1996;
- Amores Perros (2000) Filmak DVD;

Students will be advised to buy any relevant materials at the beginning of the course.

**Assessment:** Exam (40%, duration: 2 hours) in the main exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN330  French Language and Society 5 (mastery)

This information is for the 2017/18 session.

**Teacher responsible:** Mr Francois Simon TW3 6.01 K

**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

**Pre-requisites:** Students must have completed French Language and Society 4 (proficiency) (LN230).

AND / OR attend a compulsory interview with the course co-ordinator prior to registration.

**Course content:**
- Further advanced (up to the level of mastery) study of the French language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing - including grammar) through individual and group work, topical discussions, authentic and studio-based multi-media materials.
- The focus on accuracy, near native command of the target Language, maximisation of cultural awareness through the latest developments with a particular emphasis on using student centred approach in course delivery, preparing the students to be fully operational in a French speaking company or any other Organisation where near native command of French is an essential requirement.

LN320  Not available in 2017/18

**Spanish Language and Society 5 (mastery)**

This information is for the 2017/18 session.

**Teacher responsible:** Mr Rafael Penas Cruz TW3 6.01 L

**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

**Pre-requisites:** Completion of the Spanish Language and Society 4 (Proficiency) course (LN220) or its equivalent is required. An interview with the course co-ordinator prior to registration is compulsory.

**Course content:** Further advanced (up to the level of mastery) study of the Spanish language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and studio-based multi-media materials. The focus is on accuracy as well as communication that advance students’ language competence, transferable skills and cultural awareness.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Week 11 in MT and LT structured activities.

Two hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials

**Formative coursework:** The students will be required to complete weekly language exercises.

LN340
Mandarin Language and Society 5 (Mastery)

This information is for the 2017/18 session.

Teacher responsible: Dr Hua Xiang Tower 3, 601B

Availability: Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: Students must have completed Mandarin Language and Society 4 (Proficiency) (LN240).

This is a Mastery course, and in order to register, completion of Language and Society 4 or equivalent is required. An interview with the course co-ordinator prior to registration is compulsory.

Course content: Further advanced (up to the level of mastery) study of the Mandarin language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and multi-media materials. The focus is on accuracy as well as communication that advance students’ language competence, transferable skills and cultural awareness. At this level, the students are required to read and write up to 5000 Chinese characters.

Teaching: 20 hours of classes in the MT. 20 hours of classes in the LT. 2 hours of classes in the ST.

Two hours per week, which will feature: (a) interactive topical work; (b) oral practise. (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials. Structured activities in week 11 of MT and LT.

Formative coursework: The students will be required to complete weekly exercises. This includes newspaper reading, research projects and online communicative materials.

Indicative reading: Students are encouraged to make full use of the resources of language gateway at LSE and online magazine subscription. There will be guided authentic materials from newspaper, web and journals.

Assessment: Exam (40%, duration: 2 hours) in the main exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LSE100
The LSE Course: Understanding the causes of things

This information is for the 2017/18 session.

Teacher responsible: Dr Jessica Templeton KSW4.06

Academics from a range of LSE departments contribute to the course.

Availability: Compulsory course on all undergraduate programmes: students complete Term 1 in Lent Term of their first year and Term 2 in Michaelmas Term of their second year. The course is not available to General Course students or to second-year direct-entry students.

Course content: The course introduces students to the fundamental elements of thinking like a social scientist. As no complex issue can be fully understood through the lens of a single discipline, LSE100 explores pressing social issues from the perspective of different fields of social science. The goal of the course is to enable students to complement intellectual grounding in their discipline with a broad understanding of different ways of thinking. In four five-week modules, the course will ask ‘big’ questions, such as: ‘How should we address poverty and inequality?’ and ‘Should markets be constrained or unleashed?’ Using such questions as guides, students will explore different types of evidence, forms of explanation and strategies for abstraction and modelling that are used across the social sciences. The aim is not only to broaden students’ intellectual experience, but also to deepen their critical understanding of their own disciplines. LSE100’s focus on the core elements of social scientific reasoning will be accompanied by a strong emphasis on critical thinking, research and communication skills.

Teaching: 15 hours of classes and 5 hours of specialized online lectures, plus four optional workshops, in the MT. 15 hours of classes and 5 hours of specialized online lectures, plus four optional workshops, in the LT.

Formative coursework: Formative activities will be completed in class and may include writing assignments or data analysis tasks.

Indicative reading: Readings are module-specific. Class reading packs are provided in hard copy and are all available from the LSE100 Moodle site, along with additional reading and resource recommendations.

Assessment: In both terms, students will write a summatively-assessed persuasive academic argument and work with a group of their peers on a project and presentation related to one of the modules. Students will also complete a portfolio of work including weekly questions designed to support students’ reading, as well as a piece of reflective writing. These portfolio exercises are designed to support continuous learning throughout the term, and support students’ engagement with key theories and critical analysis of arguments or evidence. The group project will be completed in Weeks 4 and 5, the portfolio will be due in Week 10, and the written work will be due in Week 11. The written work and group projects are each worth 20% of the student’s final mark and the portfolio exercises are worth 10% per term. Students receive a numeric mark and overall grade for the course of Distinction, Merit, Credit or Fail.
MA100 Mathematical Methods

This information is for the 2017/18 session.

Teacher responsible: Dr Ioannis Kouletsis

Availability: This course is compulsory on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available on the BSc in Accounting and Finance, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and MSc in Economics (2 Year Programme). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: This course assumes knowledge of the elementary techniques of mathematics including calculus, as evidenced for example by a good grade in A Level Mathematics.

Course content: This is an introductory level course for those who wish to use mathematics seriously in social science, or in any other context. A range of basic mathematical concepts and methods in calculus of one and several variables and in linear algebra are covered and some applications illustrated. It is an essential pre-requisite for any mathematically orientated economics options and for many further mathematics courses. Topics covered: Matrices, reduced row echelon form, rank. Systems of linear equations, Gaussian elimination. Determinants. Vector spaces, linear independence, basis, dimension. Linear transformations, similarity. Eigenvalues. Diagonalization. Orthogonal diagonalization. Complex numbers. Vectors. Functions of several variables, derivatives, gradients, tangent hyperplanes. Optimisation including Lagrange’s method. Vector-valued functions, derivatives and their manipulation. Inverse functions, local inverses and critical points, use in transformations. Integration, differential and difference equations. Some applications of the above topics.

Teaching: 20 hours of lectures, 10 hours of classes and 20 hours of Workshops in the MT. 2 hours of lectures in the ST.

Formative coursework: Students will be expected to complete homework assigned weekly. Written answers to the homework questions are submitted to the appropriate class teacher for feedback. In addition, in-class open book practice sessions will be conducted weekly in class. These are also submitted to the appropriate class teacher for feedback. Success in this paper depends on dealing with the written work as it is assigned, in a regular and systematic manner.

Indicative reading: Ken Binmore & Joan Davies, Calculus, Concepts and Methods; Martin Anthony & Michele Harvey, Linear Algebra, Concepts and Methods.

Assessment: Exam (75%, duration: 3 hours) in the main exam period. Exam (25%, duration: 1 hour) in the LT week 0.

MA107 Half Unit Quantitative Methods (Mathematics)

This information is for the 2017/18 session.

Teacher responsible: Dr James Ward

Availability: This course is compulsory on the BSc in Management and BSc in Social Policy and Economics. This course is available on the BSc in Accounting and Finance, BSc in Environmental Policy with Economics, BSc in Geography with Economics, BSc in Government and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and Diploma in Accounting and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Pre-requisites: A-level Mathematics (or equivalent). Students with A-level Mathematics who are confident of their mathematical skills may also consider the full unit MA100 Mathematical Methods

Course content: The aim of this course is to develop the basic mathematical tools necessary for further study in economics and related disciplines. To this end we focus on: techniques of calculus (differentiation, partial differentiation, optimisation and integration), methods of linear algebra (use of matrices), and the solution of difference and differential equations. The ideas are taught systematically, with emphasis on their application to economic problems. Examples are used throughout the course for motivation and illustration.

Teaching: 20 hours of lectures, 10 hours of classes and 10 hours of workshops in the MT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: The course follows M Anthony & N L Biggs, Mathematics for Economics and Finance: Methods and Modelling, CUP, 1996. A useful background text which is the basis of a follow-on course is A Ostaszewski, Mathematics for Economics: Models and Methods, Blackwell, 1993. There are many other books with
ties like Mathematics for Economists but none of them are close enough for use in this course. Further information will be provided in the lectures.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA110
Basic Quantitative Methods

This information is for the 2017/18 session.

Teacher responsible: Dr James Ward and Dr Pavel Gapeev

Availability: This course is available on the BSc in Accounting and Finance and BSc in Government and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: GCSE or AS-level Mathematics (or equivalent). Students with A-level Mathematics (or equivalent) should take MA107 Quantitative Methods (Mathematics) or MA100 Mathematical Methods.

Course content: The course is designed to provide students with the elementary mathematical tools that are needed to study Economics. Students will be introduced to basic mathematical concepts and manipulations. Examples of applying these techniques to a variety of economical and management problems are given throughout the course. Content - Part A: Arithmetic operations, powers and roots; basic algebra; introduction to linear programming; logarithms and exponential growth; sets, functions and graphs; differentiation of functions of one variable; marginal cost and marginal revenue; optimisation of functions of one variable; difference equations; equilibrium and stability in dynamical models. Content - Part B: Introduction to integration; consumer and producer surplus; matrix algebra; systems of linear equations; functions of several variables; partial differentiation; optimisation and the Lagrange multiplier method.

Teaching: 20 hours of lectures, 10 hours of classes and 10 hours of workshops in the MT. 22 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: The course will be mostly taught from the lecturers’ notes. The following books can provide additional material: T Bradley & P Patton, Essential Mathematics for Economics and Business; E T Dowling, Mathematics for Economists (Schauri’s Outline Series); J Jacques, Mathematics for Economics and Business; M Rosser, Basic Mathematics for Economists; M Anthony & N L Biggs, Mathematics for Economists and Finance: Methods and Modelling, CUP, 1996.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

MA207
Half Unit
Further Quantitative Methods (Mathematics)

This information is for the 2017/18 session.

Teacher responsible: Dr James Ward

Availability: This course is available on the BSc in Accounting and Finance and BSc in Management. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students should have previously taken MA107 Quantitative Methods (Mathematics). It is not available to students who have taken MA100 Mathematical Methods, or equivalent, nor higher level methods courses.

Course content: This is a second course in quantitative methods, following on directly from Quantitative Methods (Mathematics) (MA107). This course will contain further algebra and calculus. As with the course MA107, the emphasis will be on applications in economics and finance. Topics covered: Matrix methods in portfolio analysis. Linear independence. Rank of a matrix. Eigenvalues and eigenvectors. Diagonalisation. Linear systems of recurrence equations. Markov process. Second-order recurrence equations. Macroeconomic models. Vector geometry. Gradient and directional derivative. Tangent hyperplanes and the optimal bundle. Resource allocation and Pareto efficiency. Orthogonal matrices and quadratic forms. Critical points of quadratic functions. Taylor’s approximation. Optimisation of functions of two or more variables.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.
MA208 Half Unit
Optimisation Theory

This information is for the 2017/18 session.
Teacher responsible: Prof Bernhard von Stengel COL 4.12
Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.
Pre-requisites: Mathematical Methods (MA100) and Introduction to Abstract Mathematics (MA103) are pre-requisites. Real Analysis (MA203) is desirable, and students who have not done MA203 should contact the teacher responsible.
Course content: The course describes various techniques of optimisation, gives a mathematical presentation of the relevant theory, and shows how they can be applied. Introduction and review of relevant mathematical background. Introduction to combinatorial optimisation; shortest paths in directed graphs; algorithms and their running time. Classical results on continuous optimisation: Weierstrass's Theorem on continuous functions on compact set; optimisation of differentiable functions on open sets; Lagrange's Theorem on equality constrained optimisation; Kuhn and Tucker's Theorem on inequality constrained optimisation. Linear programming and duality theory.
Teaching: 22 hours of lectures and 10 hours of classes in the LT.
Formative coursework: Written answers to set problems will be expected on a weekly basis.
Indicative reading: Good sources of literature are R K Sundaram, A First Course in Optimisation Theory, N L Biggs, Discrete Mathematics (2nd edition). Additional notes will be made available throughout the course.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA209 Half Unit
Differential Equations

This information is for the 2017/18 session.
Teacher responsible: Prof Jan van den Heuvel
Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.
Pre-requisites: Mathematical Methods (MA100) and Introduction to Abstract Mathematics (MA103) are pre-requisites. Real Analysis (MA203) and/or Further Mathematical Methods (MA212) are highly desirable, and students who have done neither MA203 nor MA212 should contact the lecturer.
Course content: The course concentrates on the theory and qualitative analysis of (ordinary) differential equations, although some solution techniques will be considered as well. Special attention will be paid to geometric concepts and the role of differential equations in the theory of dynamical systems. Specific topics covered are: First examples; illustrations of use of the computer package Maple. Existence and uniqueness of solutions. Autonomous 1 and 2 dimensional systems. Linear equations and systems: phase portraits; classification of systems in the plane; higher dimensional systems and higher order equations. Nonlinear systems in the plane: local and global behaviour; linearisation and stability at equilibrium points; Lyapunov functions; limit cycles. Control theory, linear systems; controllability.
Teaching: 22 hours of lectures and 10 hours of classes in the LT.
Formative coursework: Written answers to set problems will be expected on a weekly basis.

MA210 Half Unit
Discrete Mathematics

This information is for the 2017/18 session.
Teacher responsible: Dr Peter Allen
Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.
Pre-requisites: MA103 Introduction to Abstract Mathematics, or an equivalent course giving a background in rigorous mathematics.
Course content: This is a course covering a number of concepts and techniques of discrete mathematics. Topics covered: Counting: selections; inclusion-exclusion; generating functions; recurrence relations. Graph Theory: basic concepts; walks, paths, tours and cycles; trees and forests; colourings. Coding theory: basic concepts; linear codes.
Teaching: 22 hours of lectures and 10 hours of classes in the LT.
Formative coursework: Written answers to set problems will be expected on a weekly basis.
Indicative reading: PJ Cameron, Combinatorics (CUP 1994); NL Biggs, Discrete Mathematics (OUP 2004)
Extensive notes covering the course content will be distributed as well.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA211 Half Unit
Algebra and Number Theory

This information is for the 2017/18 session.
Teacher responsible: Prof Martin Anthony COL 3.13
Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.
Pre-requisites: Students must have completed Introduction to Abstract Mathematics (MA103) and Mathematical Methods (MA100).
Course content: The aim of this course is to continue (from MA103) the study of abstract algebraic structures. There are two main strands in the course. First, we develop further the theory of groups, using permutation groups as a key example. We investigate the important concepts of normal subgroups and quotient groups. Secondly, we introduce rings, and study factorisation in rings, where we also look at some connections with number theory. Groups: Review of basic group theory; permutations and permutation groups; homomorphisms; conjugation, normal subgroups and quotient groups; the first isomorphism theorem for groups. Rings: basic properties of rings and examples (including polynomial rings, matrix rings, and number rings); subrings, ideals and ring homomorphisms; divisibility in integral domains; greatest common divisors; Euclidean rings and unique factorisation; applications to number
theory, principal ideal domains.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the ST.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Introduction to Algebra, Peter J Cameron (OUP 1988); Rings, Fields and Groups: Introduction to Abstract Algebra, Reg Allenby (Butterworth-Heinemann, 2nd edition 1991)

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

### MA212 Further Mathematical Methods

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Jozef Skokan, Prof Adam Ostoja-Ostaszewski and Dr Arne Lokka

**Availability:** This course is compulsory on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available on the BSc in Accounting and Finance, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students should ideally have taken the course Mathematical Methods (MA100) or equivalent, entailing intermediate-level knowledge of calculus and linear algebra, linear independence, eigenvalues, diagonalisation, and proficiency in techniques of differentiation and integration.

**Course content:** This course develops ideas first presented in MA100. It is divided into two halves: calculus and linear algebra. The calculus half explores how integrals may be calculated or transformed by a variety of manipulations, and how they may be applied to the solution of differential equations. This aim is achieved by studying the following topics: Limit calculations. Riemann integral. Multiple integration. Improper integrals. Manipulation of integrals. Laplace transforms. Riemann-Stieltjes integral (permitting application of the Laplace transform to discrete and continuous probability distributions), to a level of detail dependent on time constraints. The linear algebra half covers the following topics: Vector spaces and dimension. Linear transformations, kernel and image. Real inner products. Orthogonal matrices, and the transformations they represent. Complex matrices, diagonalisation, special types of matrix and their properties. Jordan normal form, with applications to the solutions of differential and difference equations. Singular values, and the singular values decomposition. Direct sums, orthogonal projections, least square approximations, Fourier series. Right and left inverses and generalized inverses.

**Teaching:** 22 hours of lectures and 10 hours of classes in the MT. 22 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** A Ostaszewski, Advanced Mathematical Methods for both halves.

Useful background texts:

(i) for the calculus half: Ken Binmore & Joan Davies, Calculus, Concepts and Methods; M R Spiegel, Laplace Transforms; R A Adams, Calculus.

(ii) for the linear algebra half: Martin Anthony and Michele Harvey, Linear Algebra: Concepts and Methods (Cambridge University Press 2012).

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

### MA231 Operational Research Methods

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Gregory Sorkin and Dr Laszlo Vegh

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

The course code and some of its content changed in 2017/18. Previously, the course code was MG211.

**Pre-requisites:** Mathematics, Statistics and Probability Theory to the level of the courses MA107 Quantitative Methods (Mathematics) and ST107 Quantitative Methods (Statistics) is required. In particular, students should have covered elementary distribution theory and the Poisson Process, and have an elementary knowledge of linear algebra. Students must be prepared to use computer packages when required.

**Course content:** An introduction to all the main theoretical techniques of Operational Research. Linear optimisation: from the most basic introduction to sufficient conditions for optimality; duality; sensitivity of the solution; discovery of the solution to small problems by graphical methods, and proof of optimality by testing the sufficient conditions. The transportation programme: properties of solution, connections with graph theory, an algorithm for hand computation. Modelling real world problems using linear optimisation. Various other operational research techniques including: Shortest Paths, Critical Path Analysis, Markov Chains, Stable Matchings, Queueing Theory, Simulation, Inventory Management, Dynamic Programming, Decision Theory, Game Theory.

The course includes an assessed software component. The software used will be "Microsoft Excel" and the add-on packages "LP solve" to solve linear optimisation problems and "@ risk" to perform Monte Carlo simulation.

Full lecture notes are provided.

**Teaching:** 20 hours of lectures and 20 hours of classes in the MT. 10 hours of lectures, 10 hours of classes and 5 hours of computer workshops in the LT. 3 hours of lectures in the ST.

Students will receive 30 hours of lectures (20 in the MT and 10 in the LT) accompanied by 30 hours of classes. There will be 3 revision sessions in the summer term. Furthermore, during the LT there will be 5 non-compulsory computer workshops.

**Formative coursework:** Students will be expected to produce 8 problem sets in the MT and 1 project and 4 problem sets in the LT. Twelve short problem sets will need to be submitted as formative coursework. A mock project will be given, similar in format to the summative project, to be carried out by the same groups that will work on the final project. This is meant as a trial run of the group project, with a similar level of work but with no summative mark.

**Indicative reading:** Comprehensive lecture notes will be provided.

The course content largely follows the following textbook:

• Duxbury

• H P Williams, Model Building in Mathematical Programming, Wiley (2013).

**Assessment:** Exam (80%, duration: 2 hours and 45 minutes) in the main exam period.

Case analysis (20%) in the LT.

The group project will consist of a case study developed by lecturer and presenting a (simplified version of a) real world problem that is amenable to optimisation and simulation techniques that are taught in the course. The students will need to choose the appropriate techniques, develop a mathematical
model, implement it using the software taught in the course, and write a report describing the approach and reporting critically the results obtained from the solution of the model. The group project will be in randomly allocated groups of 3, and students will need to submit a teamwork evaluation form to assess whether the workload was fair and balanced.

MA300  Half Unit
Game Theory

This information is for the 2017/18 session.

Teacher responsible: Dr Paul Duetting, Prof Bernhard Von Stengel and Prof Olivier Gossner

Availability: This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Basic knowledge of matrices as covered in Mathematical Methods (MA100) or Quantitative Methods (MA107). Some knowledge of probability. Knowledge of economics as covered in Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202).

Course content: Concepts and methods of game theory with applications to economics. MA300.1: same as for Game Theory I (MA301). MA300.2: Coalitional game theory - central solution concepts with application: the core, Shapley value, stable sets, weighted majority games, market games, stable matching.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Lecture slides will be provided, as well as references to selected papers. Further reading: R Gibbons, A Primer in Game Theory, 1992; A Mas-Colell, M Whinston, J Green: Microeconomic Theory; M Osborne, A Rubinstein: A Course in Game Theory; M Maschler, E Solan, S Zamir: Game Theory.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

MA301  Half Unit
Game Theory I

This information is for the 2017/18 session.

Teacher responsible: Dr Paul Duetting and Prof Bernhard Von Stengel

Availability: This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Management, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Basic knowledge of matrices as covered in Mathematical Methods (MA100) or Quantitative Methods (MA107). Some knowledge of probability.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA303  Half Unit
Chaos in Dynamical Systems

This information is for the 2017/18 session.

Teacher responsible: Prof Graham Brightwell

Availability: This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Mathematical Methods (MA100) is a pre-requisite. Background in rigorous mathematical methods, such as provided in Introduction to Abstract Mathematics (MA103), is desirable. In particular, some familiarity with proving theorems would be useful.

Course content: Given a function f:X->X, what is the (iterative) behaviour of fn (x)=f(... f(f(x))) (f applied n times). What do 'orbits' of f look like - an orbit has the form x, f(x), f(f(x)), ... Particular emphasis is given to long-term evolution and stability analysis of such systems f:X->X. We explore connections with so-called fractal sets, which are roughly sets that look the same at any degree of magnification, and may have a dimension which is not an integer. We also discuss chaotic maps f, where fn (x) cannot be determined if there is any small uncertainty about x. Topics covered: Iteration of discrete maps. Orbit analysis. Contraction mapping theorem. Quadratic maps. Bifurcations. Definition of chaos. Sarkovskii's theorem. Fractal sets.

Teaching: 21 hours of lectures and 10 hours of classes in the MT. 1 hour of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Full lecture notes will be provided. The following may prove useful, R Devaney, A First Course in Chaotic Dynamical Systems; R Devaney, An Introduction to Chaotic Dynamical Systems; E Scheinerman, Invitation to Dynamical Systems. A fun and interesting read might be Gleick, J.,Chaos: Making a New Science.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA305  Half Unit
Optimisation in Function Spaces

This information is for the 2017/18 session.

Teacher responsible: Prof Adam Ostoja-Ostaszewski

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students should have attended a course in Mathematical Methods, ideally Further Mathematical Methods (MA212).
MA310  Half Unit
Mathematics of Finance and Valuation

This information is for the 2017/18 session.

Teacher responsible: Dr Johannes Ruf
Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: MA313 Probability for Finance is required.

Course content: Main mathematical ideas in the modelling of asset price evolution and the valuation of contingent claims (e.g., calls, puts); discrete methods will dominate. Introductory treatment of the Black-Scholes continuous-time model. This course introduces a range of mathematical concepts and techniques of modern finance. It considers discrete and continuous time models for the price dynamics of actively traded assets. It develops the basic principles of risk-neutral valuation of contingent claims, such as call and put options. The course contains some elements of stochastic analysis such as Brownian motion, stochastic integration, stochastic change of variable formula, change of probability measures. These analytic tools are used for the pricing of contingent claims in stochastic models of financial markets. Specific topics studied include: one-period and multi-period binomial tree models; the Black and Scholes model; self-financing replicating portfolios; martingales and conditional expectation; Itô calculus; risk-neutral valuation of call and put options in the absence of arbitrage; the Black and Scholes formula; option deltas, gammas, vegas, and other sensitivities.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Assessment: Oral examination (100%) in the ST.

MA313  Half Unit
Probability for Finance

This information is for the 2017/18 session.

Teacher responsible: Dr Christoph Czichowsky
Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Real Analysis (MA203).

Course content: The purposes of this course are (i) to explain the formal basis of abstract probability theory, and the justification for basic results in the theory, and (ii) to explore those aspects of the theory most used in advanced analytical models in economics and finance. The approach taken will be formal. Probability spaces and probability measures. Random variables. Expectation and integration. Markov chains. Convergence of random variables. Conditional expectation and martingales, in the discrete case.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Full lecture notes will be provided. The following may prove useful: J S Rosenthal, A First Look at Rigorous Probability Theory; G R Grimmett & D R Stirzaker, Probability and Random Processes; D Williams, Probability with Martingales. J Jacob & Ph Protter, Probability Essentials; A Kleneke Probability Theory: A Comprehensive Course.

Assessment: Oral examination (100%) in the ST.

MA314  Half Unit
Algorithms and Programming

This information is for the 2017/18 session.

Teacher responsible: Dr Paul Duetting
Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Introduction to Abstract Mathematics (MA103), or an equivalent course giving a background in rigorous mathematics.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Assessment: Exam (80%, duration: 2 hours) in the main exam period.

Coursework (20%) in the LT.
MA315  Half Unit
Algebra and its Applications

This information is for the 2017/18 session.

Teacher responsible: Prof Martin Anthony
Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Econometrics and BSc in Statistics with Finance. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have passed MA103 Introduction to Abstract Mathematics and, ideally, have taken MA211 Algebra and Number Theory. Students who have not taken MA211 may, in some cases, take the course with the lecturer’s permission. (A small amount of additional reading on their part will be required).

Course content: The aim of the course is to continue the study of abstract algebraic structures and show how these structures can be used to solve concrete problems. There are three strands: Group actions, Rings, polynomials and fields; Applications, including coding and cryptography. Group actions; revision of permutation groups; cosets and stabilizers, the orbit-stabilizer theorem; applications to counting problems. Rings, polynomials and Euclidean rings; revision of rings; quotient rings; polynomial rings and the Euclidean algorithm for polynomials; irreducible polynomials and factorisation of polynomials; fields, fields as quotients of polynomial rings; construction and properties of finite fields; Applications: Designs and orthogonal latin squares; Error-correcting codes, including linear codes, cyclic codes and perfect codes; cryptography.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA317  Half Unit
Complex Analysis

This information is for the 2017/18 session.

Teacher responsible: Dr Amol Sasane
Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Econometrics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Solid grounding in mathematics, especially analysis, in particular MA203 Real Analysis.

Course content: The course will cover the fundamental concepts and methods in complex analysis. The basic objects of study in the course will be complex differentiable functions in domains, and the far-reaching consequences of the notion complex differentiability will be dealt with in the course. The specific topics that will be covered are: the geometry of complex numbers, complex differentiation, Cauchy-Riemann equations, Cauchy’s integral theorem and its consequences, Taylor and Laurent series, and harmonic functions. The core results will be illustrated with computational examples and applications.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading:

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA318  Half Unit
History of Mathematics in Finance

This information is for the 2017/18 session.

Teacher responsible: Prof Jan van den Heuvel
Additional teachers: Prof June Barrow-Green, Prof Norman Biggs and Prof Robin Wilson
Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Econometrics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100).

General Course students may substitute an equivalent course.

Course content: This course surveys the development of mathematics from the beginning of history with an emphasis on its applications to finance and economics. Major themes are the development of arithmetic and geometry, the use of algebraic symbolism, the creation of the calculus, geometry, probability, and game theory. In order to give this course a distinctive flavour, we will illustrate these themes with examples taken from the social sciences, broadly interpreted. For example, the algorithms of arithmetic will be illustrated by their applications in finance, rather than astronomy.

Bollobas, Modern Graph Theory, Springer 1998.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA316  Half Unit
Graph Theory

This information is for the 2017/18 session.

Teacher responsible: Dr Julia Boettcher
Availability: This course is available on the BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: MA103 or equivalent course giving a background in rigorous mathematics.

Course content: This course examines the basic concepts and techniques of graph theory. The topics to be covered are: fundamental concepts, flows, connectivity and matchings, colourings, extremal problems. Optional topics include Ramsey theory, the probabilistic method, spectral graph theory, or matroids.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 1 hour of lectures in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

MA319 Half Unit Partial Differential Equations

This information is for the 2017/18 session.

Teacher responsible: Dr Amol Sasane

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Further Mathematical Methods (MA212) and Real Analysis (MA203).

Course content: The aim of the course is the study of partial differential equations. The focus will be on first order quasilinear equations, and second order linear equations. The method of characteristics for solving first order quasilinear equations will be discussed. The three main types of linear second order partial differential equations will be considered: parabolic (diffusion equation), elliptic (Laplace equation), and hyperbolic (wave equation). Techniques for solving these for various initial and boundary value problems on bounded and unbounded domains, using eigenfunction expansions (separation of variables, and elementary Fourier series), and integral transform methods (Fourier and Laplace transforms) will be treated. Elementary distributional calculus and the notion of weak solutions will also be considered. Applications and examples, such as the solution technique for Black-Scholes option pricing, will be discussed throughout the course.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 10 problem sets in the LT.

Written answers to set problems will be expected on a weekly basis.

Indicative reading:

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA320 Half Unit Mathematics of Networks

This information is for the 2017/18 session.

Teacher responsible: Dr Andrew Lewis-Pye

Availability: This course is available on the BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100) and Introduction to Abstract Mathematics (MA103).

Course content: Globalisation and the growth of the internet have meant not only an increasing need to understand the way in which social and communication networks form and operate, but also an unprecedented amount of data available to aid in this analysis. The last decade has seen a coming together of multiple scientific disciplines in an effort to understand how these highly connected systems function. The aim of this course will be to give an introduction to the study of networks, requiring as little background knowledge as possible. The course will begin with an analysis of some of the fundamental properties normally observed in real world networks, such as the small world property, high degrees of clustering and power law degree distributions. After reviewing required notions from game theory, we shall then apply these techniques to an analysis of the spread of behavioural change on networks, together with cascading effects and epidemic models. The final part of the course will be concerned with specific applications to the world wide web and page ranking.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading:

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

MA321 Half Unit Not available in 2017/18 Measure Theoretic Probability

This information is for the 2017/18 session.

Teacher responsible: Prof Martin Anthony COL 3.13

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Real Analysis (MA203).

Course content: This is a first course in measure-theoretic probability. It covers the following topics. Abstract probability spaces: sample space, sigma-algebra, probability measure, examples. Borel sigma-algebra, Lebesgue measure, Caratheodory’s extension theorem. Random variables, distribution functions, discrete and absolutely continuous distributions, examples. Construction of the Lebesgue integral, relation to ‘measure-theoretic induction’, convergence theorems, further properties, relation to Riemann integral. Different modes of convergence of random variables. Conditional expectation for simple, absolutely continuous and general random variables, construction and properties.

Teaching: 22 hours of lectures and 10 hours of classes in the MT.

Formative coursework: Students will be expected to produce 10 problem sets in the MT.

Indicative reading: Comprehensive lecture notes will be provided. The following books may prove useful: D Williams, Probability with Martingales. J. Jacob & P. Protter, Probability Essentials; A. Klenke Probability Theory: A Comprehensive Course

Assessment: Other (100%).

Exam (100%) in the ST.
MA322 Half Unit Not available in 2017/18
Mathematics of Finance and Valuation

This information is for the 2017/18 session.

Teacher responsible: Prof Martin Anthony COL 3.13
Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Measure Theoretic Probability (MA321).

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 10 problem sets in the LT.

Assessment: Other (100%). Exam (100%) in the ST.

MA331 Half Unit Not available in 2017/18
Practical Optimisation Modelling

This information is for the 2017/18 session.

Teacher responsible: Dr Xue Lu
Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have a knowledge of Mathematics and Statistics to the level of MA107 (Quantitative Methods - Mathematics) and ST107 (Quantitative methods - Statistics), or ST102 (Elementary Statistical Theory). MG211 is not a prerequisite but is advisable to be taken previously or in conjunction with the course.

Course content: Mathematical Optimisation is one of the most powerful and widely-used quantitative techniques for making optimal decisions. The course has a pragmatic focus and aims at enabling students to model and solve real-life management problems. An overview is provided on fundamental technique, most importantly linear and integer programming, emphasising modelling and solution concepts and methods (e.g. feasibility, optimality, duality, multiple objectives, using binary variables for modelling, network models). The students will learn to formalise management problems using linear and integer programming models, to implement these models using specialised optimisation software, and to analyse and interpret the results, reflecting on the limitations of the models.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of classes in the MT. 1 hour and 30 minutes of classes in the LT. 8 hours of computer help sessions in the MT. 2 hours of computer help sessions in the LT. Computer help sessions are optional. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will have the opportunity to submit a mock project for marking and feedback before the final assessed project is due. Students will also be given weekly homework exercises.

Assessment: Project (100%) in the LT.

MA332 Half Unit Not available in 2017/18
Computational Methods in Financial Mathematics

This information is for the 2017/18 session.

Teacher responsible: Prof Martin Anthony COL 3.13
Availability: This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is not available as an outside option. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Introduction to Pricing, Hedging and Optimization (ST213).

Course content: Random number generation, the fundamentals of Monte Carlo (MC) simulation, variance reduction techniques for MC simulation and related issues; numerical solutions to stochastic differential equations by means of MC simulation and their implementation, finite-difference schemes for the solution of partial differential equations arising in finance.

Teaching: 22 hours of lectures, 5 hours of classes and 10 hours of computer workshops in the LT.

Formative coursework: Students will be expected to produce 5 problem sets and 5 other pieces of coursework in the LT.

Assessment: Exam (75%, duration: 2 hours). Other (25%) in the ST.
MG103   Not available in 2017/18
Management, Labour and Work
This information is for the 2017/18 session.
Teacher responsible: Dr Eddy Donnelly
Availability: This course is available on the BSc in Social Policy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
This course was formerly known as ID100 Employment Relations
Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.
A supplementary learning activity may take place during reading week, in Week 6.
Formative coursework: As well as contributing to class discussion, students are expected to provide one piece of written work at the end of each term (MT and LT) in preparation for their final exam.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.

MG104   Half Unit
Operations Management
This information is for the 2017/18 session.
Teacher responsible: Dr David Newton
Availability: This course is compulsory on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Pre-requisites: None
Course content: This course provides students with an understanding of the drivers of organisational performance, conditional on a strategic objective. Aspects of Operations Management studied include process flow analysis, inventory management, assembly line balancing, supply chain management, quality management and scheduling.
Teaching: 10 hours of lectures and 9 hours of classes in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: One formative essay of 2000 words will be set in the Michaelmas Term.
Indicative reading:
   • Operations and Supply Chain Management, Jacobs and Chase.
   • Whelan Tensie Carly pag
   • Madeleine Svetlana
   • morim Marlene Moscoso Lago
   • D’Aveni
   • Frei
   • Linderman Liedtke Choo
   • Ranga Ramasesh MIT Sloan
   • Daly
Assessment: Project (100%, 3000 words) in the LT. Students will be randomly assigned to four-person groups for the summative assessment project.

MG105   Half Unit
Organisational Behaviour and Leadership
This information is for the 2017/18 session.
Teacher responsible: Dr Connon Locke
Availability: This course is compulsory on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
This course cannot be taken with MG203.
Pre-requisites: None
Course content: This course introduces students to social science theories, research and application related to understanding human behaviour in the workplace. That is, this course is about the people side of business and management. Each week focuses on a different topic investigating individual, group, and organisational issues. Weekly topics include: motivation, teams, careers, and leadership.
When studying theories of leadership, the course examines: power and influence; trait, behavioural and contingency theories of leadership; the dynamics between leaders and their followers; transformational and transactional forms of leadership; team leadership and co-leadership; leadership communication; leadership development.
Teaching: 15 hours of lectures and 9 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.
The Summer Term teaching will be revision sessions. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will be expected to produce one presentation and one essay in the LT.
Assessment: Exam (70%, duration: 2 hours) in the main exam period.
Essay (30%, 2000 words) in the LT.

MG202   Not available in 2017/18
Analytical Methods for Management
This information is for the 2017/18 session.
Teacher responsible: Prof Peter Abell and Dr Nuno Oliveira
Availability: This course is available on the BSc in Management. This course is not available as an outside option. This course is available on the BSc in Social Policy. This course cannot be taken with MG203 or MG205 in their second year.
Pre-requisites: ST107 or equivalent is recommended but not required.
Course content: This course will provide students with the knowledge and tools required to perform qualitative and quantitative analysis in support of managerial decision making,
and to read and interpret the management research literature. The course introduces the fundamentals of behavioural research design, and provides an introduction to various methods used to gather data, analyse data, and communicate results. In the course, students will: 1) acquire the knowledge needed to act as critical consumers of a wide range of academic and commercial research, 2) acquire some facility in designing valid research and reporting research results, and 3) be exposed to a range of stock knowledge regarding research design and research methods. A particular focus of the course will be on methods which are used in management research, and which are useful in doing applied research within a management context.

**Teaching:** 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

A supplementary learning activity may take place during reading week, Week 6.

**Formative coursework:** Students will be provided with regular opportunities to submit formative work, consisting of both quizzes and marked and commented on by course instructors.

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period. Essay (25%, 2000 words) in the LT. Project (25%, 3000 words) in the ST. Lent Term coursework will be an individual essay; Summer Term coursework will be a group project.

---

**MG205 Econometrics: Theory and Applications**

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Jordi Blanes i Vidal

**Availability:** This course is compulsory on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Quantitative Methods (Mathematics) (MA107) or equivalent and Quantitative Methods (Statistics) (ST107) or equivalent

**Course content:** Simple and Multiple Regression, Hypothesis Testing; Mechanics and Limitations of OLS; Causality, Natural, Field and Laboratory Experiments. Panel Data and Fixed Effect Models. Instrumental Variables Regression. The main aim of this course is to provide a thorough understanding of the quantitative techniques which guide evidence-based managerial decision-making. It seeks to develop a framework in which students can examine whether the predictions of managerial, social or economic theory are supported by empirical evidence. Particular emphasis is made on (a) illustrating the many ways in which evidence is abused in the academic or managerial debate, and (b) trying to establish causality in the relationship between variables. The approach is both formal, as the course makes extensive use of econometric theorems and techniques, and solidly grounded in intuition, as it provides numerous examples of tests of real-life relations. Many of these examples will be illustrated using the STATA software package, and the students will be expected to learn the basics of data manipulation and regression running. A solid base of introductory statistics and probability (equivalent to that provided by ST107) and introductory algebra and calculus (equivalent to that provided by MA107) will be expected.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 problem sets in the MT and 1 problem sets in the LT.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**MG203 Organisational Theory and Behaviour**

*This information is for the 2017/18 session.*

**Teacher responsible:** To be confirmed

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Management Sciences, BSc in Statistics with Finance and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with MG102.

**Course content:** Individual behaviour including: attitudes, motivation, personality, emotion, work-life balance and stress. Group and inter-group processes including: social networks, cohesion, power, and leadership. Organisational dynamics including: structure, learning, cross-cultural issues, responses to work-life conflict, and change. This course introduces students to social science theories and research regarding individual, group and organisational issues in order to analyse employee behaviour in the context of work organisations.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are required to submit three pieces of written work throughout the year, in the form of two.unassessed essays and one mock examination.

**Indicative reading:** A complete reading list will be provided at the start of the course. Sample texts include the following: J Child, Organisations; S Dawson, Analysing Organizations; S Robbins & T Judge, Organizational Behaviour; R Steers & L Porter, Motivation and Work Behaviour.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.
MG206  Half Unit
Firms, Management and
Competitive Advantage

This information is for the 2017/18 session.

**Teacher responsible:** Mr Nilesh Dattani NAB5.02

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics and BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed EC100 OR EC102 OR equivalent.

**Course content:** This is not a course on corporate strategy. It focuses on the evolution of thinking about firms and the activity of management and examines firm advantages through conceptual ideas and empirical knowledge. There will be an emphasis on analysing firms as reservoirs of resources and capabilities and topics to be covered will include distinctive capabilities of firms, organisational design, decision making in firms, organisational routines, managerial leadership and the role of ethics. Particular attention will be given to firms in technology-based industries and the management of innovation and contrasts will be made with public sector management.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are expected to produce one piece of written work and to do the weekly class exercises

**Indicative reading:** A reading list will be available to students taking the course.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

MG207  Half Unit
Managerial Economics

This information is for the 2017/18 session.

**Teacher responsible:** Dr Catherine Thomas NAB 5.27

**Availability:** This course is compulsory on the BSc in Management. This course is available on the BSc in Business Mathematics and Statistics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Economics A (EC100) or Economics B (EC102) or equivalent is a pre-requisite. This course cannot be combined with Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202).

**Course content:** The objective of the course is to provide students with insights from economic theory which are relevant to applications in managerial decision making. The emphasis is on applying microeconomics ideas to solve problems. Topics covered include consumer theory, production, applications to the labour market, market structure, monopoly, oligopoly, product differentiation, pricing, game theory, decision analysis, bargaining, auctions, and asymmetric information.

**Teaching:** 20 hours of lectures and 8 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are expected to prepare answers to set problems on a weekly basis. Some of this work will be assessed. Assiduous preparation for the weekly tutorials is essential to achieve a good exam performance.

**Indicative reading:** No textbook covers the whole course but Hal R Varian, Intermediate Microeconomics with Calculus (International Student Edition) is the best text book to use for the course. In addition students are advised to refer to T C Bergstrom & H R Varian, Workouts in Intermediate Microeconomics (1990), which contains practice problems.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

MG208  Half Unit
Business Transformation and
Project Management

This information is for the 2017/18 session.

**Teacher responsible:** Dr Susan Scott NAB 3.12

**Availability:** This course is available on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** Projects are the way that organizations manage change. This course aims to critically review the project management landscape with a particular focus on the processes involved in business transformation. It will cover history and foundations of project management, responding to changing environments, governance and control, contracting and relationships, managing risk and organisational learning. The course will focus on issues and challenges raised by business analysis and project management. Example topics of study include: questioning business transformation and projects as a mode of organising, understanding the dynamics and relations involved in IT-enabled business transformation; strategy formation; business process analysis; projects as an organisational form; project escalation; project management approaches and techniques; and change management. To develop students’ understanding of project management and provide insight into issues they are likely to encounter in possible future employment as business analysts / project managers students will participate in group work based on a ‘real-world’ scenarios of business transformation projects. They will also be required to sit a 2 hour exam.

To view the course guide video: http://richmedia.lse.ac.uk/management/20160606_UGcourse_MG208.mp4

**Teaching:** 20 hours of lectures, 7 hours and 30 minutes of classes and 12 hours of workshops in the LT. 2 hours of lectures in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** A variety of types of assignments are given for class discussion including exercises and case studies. Written feedback will be given on formative assessment related to the group project and to the examination.

**Assessment:** Exam (70%, duration: 2 hours) in the main exam period.

Project (30%, 1500 words) in the LT.

Please note that students will have the opportunity to form their own project groups within their allocated class, but the course teaching team will retain the right to make changes to group membership where necessary.

---

MG209  Half Unit
E-business

This information is for the 2017/18 session.

**Teacher responsible:** Dr Antonio Cordella NAB 3.30

**Availability:** This course is available on the BSc in Management.
The course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course presents an analysis of the management, economics and information systems theories and practices in online business. This is a management information systems course and not a technical course. It is mainly directed at undergraduate students. It focuses on the study of the impact of digital technologies on business strategies and market configurations. Internet-based systems offer new means to operate businesses and to compete in the global marketplace and it is important for future executives and entrepreneurs to understand the economic and managerial implications of these transformations. Students will gain a good understanding of why and how successful companies are taking advantage of e-business, as well as an understanding of the main challenges and risks associated with different e-business models and strategies in a fast changing technological and business environment.

The course is structured into four main sections:
1. Strategic, technological, and economic foundations of e-business
3. E-business: strategic and organisational challenges
4. Implementation of e-business strategies

Teaching: 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

A 2 hour revision session will be offered in the summer terms. Students will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will complete a formative assessment based on previous exam questions. Each student will receive feedback on the approach to the question, the structure of the presentation, and the argumentation they have proposed to discuss the assigned question. Aim of the formative work is to offer students the opportunity to self-evaluate their understanding of the subject, to test their preparation, to help them better understand what are the criteria of assessment, and to help them to better identify what is need to achieve the desiderated outcomes.

Indicative reading:

MG210  Half Unit  Not available in 2017/18

Corporate Social Responsibility and International Labour Standards

This information is for the 2017/18 session.

Teacher responsible: Prof Sarah Ashwin NAB 4.19

Availability: This course is available on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Any social science background

Course content: Corporate Social Responsibility (CSR) is becoming an expected element of business strategy. This course critically evaluates CSR from a number of perspectives, drawing on material from a variety of different disciplines. Students analyse the emergence of CSR, its theoretical basis, the business case for the adoption of CSR programmes, as well as the social impacts of such policies. The opening lectures of the course focus on globalisation and international labour standards, and provide an understanding of how CSR relates to international regulatory institutions such as the International Labour Organisation. Subsequent lectures focus on the different aspects of CSR mentioned above, as well as topics such as comparative CSR. In terms of the impact and design of CSR policies, the course mainly focuses on issues relating to labour standards. As well as traditional academic readings and case studies, students will critically examine publicly available material such as corporate policies and reports. Seminars will follow a mixture of formats including group activities and presentations. The course will include one interactive lecture from a CSR professional.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Exam (60%, duration: 2 hours) in the main exam period. Essay (40%, 2000 words) in the ST.
This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Organisational Behaviour and Leadership (MG105) or equivalent.

Course content: This course is designed to provide insights into Human Resource Management, especially in a way that appeals to students of management who are quite international in their orientation. After setting the broad scene of labour markets, Human Resources and organisational change in the twenty-first century, it then proceeds to look at the management of people in different national contexts. The focus then shifts down to the employment relationship – why firms hire workers and how they strategically manage them. Once workers are hired as employees, we begin to explore how the latter might be motivated and rewarded, and how the design of policies varies across organisations of different types. To help with this, we usefully draw on key ideas and models from the field of organisational studies that are also a prelude to thinking through the implications for HRM in environments where innovation and technology are prone to rapid change. This then allows us to gain an overview of the potential contribution that HRM can make to the dynamic capabilities of firms generally.

Topic outline
1. The global context of human resources in C21: migration, offshoring, supply chains and MNCs
2. The macro-context (enterprise governance, employer networks, skill and training, and employment relations
3. Stakeholders in firms and employee management (Corporate Social Responsibility and HR)
4. Cross-cultural management of employees: the complexities and opportunities
5. Firm strategy and international HR alignment
6. Identification of talent gap and solutions (expatriation and repatriation)
7. Global Talent Management (selection, training and development, performance appraisal and management, compensation)
8. Motivation and incentives (theories from Economics and Psychology)
9. Innovation, dynamic capabilities of firms and HRM – HR policies to promote diffusion of knowledge within a company
10. Managing HR in cross-border alliances, in particular international Mergers and Acquisitions and Joint Ventures

MG214 Half Unit
Human Resource Management

This information is for the 2017/18 session.

Teacher responsible: Jeffrey Thomas

Availability: This course is available on the BSc in Management.

This course is available on the BSc in Management.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 2 hours of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Assessment: Exam (60%, duration: 2 hours) in the main exam period.

Formative coursework: A formative assignment will be set consisting of one mock exam question. The purpose of the mock exam is to provide - as realistically as possible - a practise session for the final exam.

The summative coursework will be a group project. Students will have the opportunity to form their own project groups within their allocated class, but the course teaching team will retain the right to make changes to group membership where necessary.

### MG228 Half Unit
Managing the Stone-Age Brain

This information is for the 2017/18 session.

**Teacher responsible:** Dr Satoshi Kanazawa NAB 5.33

**Availability:** This course is available on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The course will introduce second- and third-year Management students to the new science of evolutionary psychology and explore the biological and evolutionary foundations of human behaviour. In the first few weeks, various critiques of and competing perspectives on evolutionary psychology, with regard especially to the relative importance of biological/evolutionary vs. social/cultural determinants of human behaviour and its sex differences will be discussed and debated. In later weeks, an evolutionary perspective will be applied to various topics in management such as organizational behaviour, occupational choice, productivity, and status hierarchy. The study of business and management is currently dominated by economic perspectives, supplemented by sociological and social psychological perspectives, in American business schools. The course will provide a necessary corrective to the dominance of economics perspectives in the study of business and management by providing biological and evolutionary perspectives and thereby throwing a new light on the old problems (and finding potential solutions for them) in organizations and organizational behaviour.

The course will provide evolutionary and biological perspectives on management and organizational behaviour. It will introduce the students to the following topics: Principles of evolution; Principles of evolutionary psychology; Sex differences in preferences, values, cognition, emotions, and behaviour; Physical attractiveness; General intelligence; Evolutionary constraints on human behaviour and their relevance to organizational behaviour.

**Teaching:**
- 10 hours of lectures and 10 hours of classes in the LT.
- 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Each student will give a class presentation on the week’s readings and their presentation will be evaluated by the course instructor and the feedback will be given to the student within one week. During the first few years of the course, mock examinations will be given to the students in order to familiarize them with the anticipated exam contents and format.

**Indicative reading:**

**Assessment:**
- Exam (60%, duration: 2 hours) in the main exam period.
- Project (40%) in the MT.

The summative coursework will be a group project. Students will have the opportunity to form their own project groups within their allocated class, but the course teaching team will retain the right to make changes to group membership where necessary.

### MG301 Strategy

This information is for the 2017/18 session.

**Teacher responsible:** Dr Ricardo Alonso NAB 5.31

**Availability:** This course is compulsory on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students should have completed Economics A (EC100) or Economics B (EC102) or equivalent, Quantitative Methods (Mathematics) (MA107) or equivalent and Quantitative Methods (Statistics) (ST107) or equivalent, and Economics for Management (MG207) or Microeconomic Principles I (EC201) or equivalent.

**Course content:** The first half of the course studies how firms compete with each other. More specifically, we will study strategic situations (competition and rivalry, competitive advantage (sources and sustainability), entry and entry deterrence, product differentiation, the role of information in markets, etc.) and formulate decision models of these situations. While the modelling and predictions are based on game theory, we will contrast our findings to real life games according to the growing empirical evidence.

The second half of the course studies how firms organize and the challenges they face in doing so. More specifically, we study the way managers interact with the different constituencies inside the firm- workers, board members, and other managers- and how those interactions shape the actual design of organizations. It presents, again with a heavy emphasis on the evidence, how the need to motivate organizational members and to coordinate their actions shape the provision of incentives, the allocation of authority, the ownership structure, acquisition and diffusion of knowledge, and patterns of communication.

Beyond the emphasis on the content of the course, the course also aims to be a course where students learn to think critically and analytically. Students will learn to identify trade-offs in how firms behave and the way they organize themselves, and critically evaluate the sources of those trade-offs by appealing to simple models of individual behaviors. Students will learn to read the primary literature, discuss papers in class, interpret the evidence etc. Students will learn to ask questions such as: What is the evidence? What evidence would convince me of the opposite hypothesis?

**Teaching:**
- 20 hours of lectures and 9 hours of classes in the MT.
- 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

There will be a reading week in Week 6 in line with departmental policy.

**Formative coursework:** Formative work such as problem sets and mock exam questions will be set.

**Indicative reading:** The basic readings for the course will be the lecture notes written by Dr. Alonso. These lecture notes can be complemented with the following additional readings:
Multinational firms have been an increasingly significant aspect of management topics, which operate on a global scale and their current and likely future interactions with emerging markets. It will combine the management research which will be used to encourage creative and logical thinking, and the group project will comprise a case write up, which will combine the development of conceptual frameworks primarily through the lectures with the analysis of key cases in the classes.

Course content:

- The course addresses various topics in management research and will begin by exploring the span of business innovation challenges and management literature which will be discussed. We will mainly deal with issues which are amenable to rigorous empirical investigation. The course is designed around a set of empirical research papers.
- Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance.
- The focus is on interpretation of findings rather than statistical or econometric techniques. The intellectual backbone of the course is applied and empirical economics (including behavioural economics) and finance but wherever appropriate contributions from the psychology, sociology and management literature will be discussed. We will mainly deal with issues which are amenable to rigorous empirical investigation.
- The course is designed around a set of empirical research papers.
- Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance.
- Topics vary each year (based on student feedback) but examples are Racial discrimination, Negotiation, Experiments on Incentives, Management topics, to evaluate statements in terms of evidence and to detect false reasoning or logic.
- Topics vary each year (based on student feedback) but examples are Racial discrimination, Negotiation, Experiments on Incentives, Management topics, to evaluate statements in terms of evidence and to detect false reasoning or logic.

Assessment:

- Exam (100%, duration: 2 hours) in the main exam period.
- Project (40%) in the LT.

MG304  Half Unit  Not available in 2017/18

Digital Platform Innovation

This information is for the 2017/18 session.

Teacher responsible: Dr Carsten Sorensen NAB 3.11

Availability: This course is available on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course provides students with both practical and theoretical insights into the dynamics of large-scale digital service platforms and their associated ecosystems. The course will begin by exploring the span of business innovation challenges from securing intimate user-technology relationships to the establishment and control of global service ecosystems based on digital platforms. The course examines the components, operations and trends of digital ecosystems, for example focusing...
on the role of large distributed datasets applied for organisational intelligence of various forms. The course, furthermore, considers social networks both in terms of large distributed datasets, and as innovation platforms relying on associated service ecosystems. The course addresses the general challenges of business digitalisation and platformisation with specific focus on mobile smartphone and tablet platforms. The course will conclude with a broader consideration of digital infrastructures and the dynamics associated with their innovation and growth.

**Teaching:** 15 hours of lectures and 15 hours of classes in the LT.

**Formative coursework:** The classes will engage students in discussions and they will form the foundation for checking, on a continuous basis, the progression of student understanding. Classes will entail small assignments and written and oral feedback will be given during the classes.

**Indicative reading:**

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MG305**  
**Half Unit**  
**Innovation and Technology Management**

This information is for the 2017/18 session.

**Teacher responsible:** Dr. Jonathan Liebenau NAB 5.14

**Availability:** This course is available on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The main focus of this course is on how innovative technologies are managed and their consequences. It includes technological innovation in areas such as telecoms, hi tech industries, pharmaceuticals, biotechnology, space technology, financial technologies. Aspects covered are how new industries are created, how existing industries can be transformed by new technologies, linkages between technological development and the creation of wealth, and implementation success and failure of technological systems. Topics include: technology and entrepreneurship, technology strategy, R&D management, patents and intellectual property, disruptive technologies, project escalation, technological disasters. Economic, systems, managerial and sociological approaches will be compared using a variety of case studies.

**Teaching:** 15 hours of lectures and 15 hours of classes in the MT.

**Formative coursework:** Classes are based around reading and discussing selected journal articles and case studies from the course study pack on Moodle. Formative feedback is provided on class participation.

**Indicative reading:**

**Assessment:**

- Exam (40%, duration: 2 hours) in the main exam period.
- Essay (50%, 5000 words) in January.

In class assessment (10%).

---

**MG307**  
**Half Unit**  
**International Context of Management**

This information is for the 2017/18 session.

**Teacher responsible:** Mr Nilesh Dattani NAB5.02

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Management and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with MG303.

**Course content:**
This course aims to apply social science theory to the analysis of the conduct and management of transnational activities; to critically appraise concepts such as globalisation, regionalisation, national competitiveness, transnationality of firms, etc. in the context of international management structures and processes; to delineate the international political, economic, social and legal structures and environments within which the activity of management takes place. The topics to be covered will include:
- the nature of the contemporary global political economy; the globalisation of business, finance and trade in goods and services; Global competition; the transnational corporation in the global economy; the tension between globalisation and regionalisation; the international trading order; the international monetary regime; the impact of culture on global business; the changing position of the state in the global economy; the new diplomacy of states and firms.

**Teaching:**
- 10 hours of lectures and 10 hours of classes in the MT.
- 1 hour of lectures and 1 hour of classes in the ST.

**Assessment:**
- Exam (100%, duration: 2 hours) in Week 6, in line with departmental policy.

**Formative coursework:** Students are expected to produce one piece of written work and do the weekly class exercises.

**Indicative reading:**

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**MG308**  
**Half Unit**  
**Simulation Modelling and Analysis**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Alicia Mejia-Salazar

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Management and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with MG303.

**Course content:**
This course aims to apply social science theory to the analysis of the conduct and management of transnational activities; to critically appraise concepts such as globalisation, regionalisation, national competitiveness, transnationality of firms, etc. in the context of international management structures and processes; to delineate the international political, economic, social and legal structures and environments within which the activity of management takes place. The topics to be covered will include:

- the nature of the contemporary global political economy; the globalisation of business, finance and trade in goods and services; Global competition; the transnational corporation in the global economy; the tension between globalisation and regionalisation; the international trading order; the international monetary regime; the impact of culture on global business; the changing position of the state in the global economy; the new diplomacy of states and firms.

**Teaching:**
- 10 hours of lectures and 10 hours of classes in the MT.
- 1 hour of lectures and 1 hour of classes in the ST.

**Assessment:**
- Exam (100%, duration: 2 hours) in Week 6, in line with departmental policy.

**Formative coursework:** Students are expected to produce one piece of written work and do the weekly class exercises.

**Indicative reading:**

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Elementary statistical concepts and experience of standard computer software is assumed.

**Course content:** The main characteristic of this course is that it is a hands-on course and of an extremely practical nature. Research shows that 90% of the largest organisations both in Europe and the USA use the techniques taught here to monitor their operations and especially in risk management. The aim of the course is to introduce students to the concepts, techniques and applied aspects of the development and analysis of simulation models. The course will cover two main approaches for modelling problems bound by uncertainty (stochastic behaviour): Monte-Carlo Simulation (static problems) and Discrete Event Simulation (dynamic problems). Topics covered will include: types of uncertainty; types of simulation modelling; sampling methods; the simulation process; structuring problems for simulation; running simulation models; analysing simulation outputs; risk analysis using simulated models; testing and validating simulation models; applications of simulation. Excel modelling is an integral part of Monte Carlo simulation and at the end of the course students will have a sound foundation on how to set up different Excel models. Additional tutorial examples will be provided both throughout the course, and posted on Moodle to help develop this very important skill.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. An Excel help class may be held during reading week in Week 6. Extended office hours to students who need it.

**Formative coursework:** Three individual or small-group assignments will be required during the course.

**Assessment:** Project (100%) in the ST. The project will have two components, a written document and an oral examination.

An individual management report (maximum 15 pages — excluding appendix) describing the modelling and results from a simulation study of a realistic decision problem. The problem will be defined by week 5 or 6 of the LT, the project should be completed by the beginning of the ST.

**MG309 Half Unit Not available in 2017/18 International Human Resource Management**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Virginia Doellgast

**Availability:** This course is available on the BSc in Management.

This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** None for students on the BSc Management degree. Students on other degrees and General Course students require permission of the instructor. Background in human resource management, employment relations, or sociology of work is recommended (e.g. ID1010, ID205, SO212).

**Course content:** This course examines the human resource management (HRM) strategies of global corporations, with the aim of understanding both the causes of different strategic choices and the consequences of these strategies for diverse stakeholders. In course modules, we will evaluate the strategic choices facing global corporations, including the choice between adopting highly centralized or predominantly decentralized HR policies; HR considerations in the outsourcing and offshoring of work; and the role of HRM in managing international mergers and acquisitions.

A central area of concern will be to analyze how institutional and cultural factors affect HRM policies and outcomes across the ‘global supply chains’ of MNCs.

**Teaching:** 20 hours of lectures and 15 hours of classes in the LT.

2 hours of lectures in the ST.

**Formative coursework:** Students will be expected to produce 1 presentation and 1 exercise in the LT.

**Assessment:** Exam (80%, duration: 2 hours) in the main exam period.

Essay (20%, 2000 words).

**MG310 Half Unit Analytics for Strategic Decisions**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Valentina Ferretti

**Availability:** This course is available on the BSc in Management.

This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Elementary statistical and mathematical concepts.

**Course content:** How to choose in tough situations where stakes are high, and there are multiple conflicting objectives? How do we perceive risk, and how to act when there are risks and uncertainties involved in a decision? How can we create options that are better than the ones originally available? Decision making is a central aspect of virtually every management and business activity, including marketing, strategic planning, marketing management, resource allocation, operations management, and investment. Moreover, important decisions are not only made by managers and entrepreneurs, but also by the consumers of their goods and services, and by their business rivals, partners and employees. The ability to make better decisions is an invaluable part of everyone's toolbox. It is this ability that will be developed in this course, which introduces students to the use of Risk and Decision Analysis as a form of analytics that supports decision making in private, voluntary and public organisations. The course shows how a consistent and realistic mix of data and judgement can help decision makers to better achieve their objectives. Based on sound theory underlying normative, descriptive and prescriptive decision-making research, the course emphasises the practical application of Risk and Decision Analysis for decision-making across many different contexts.

The course is designed to enhance the students’ decision capabilities when confronted with strategic or operational choices, when searching for decision opportunities, and when designing strategies and policies. It uses real-world Risk and Decision Analysis applications in organisations and public policy making, and employs several case-studies (supported by specialised decision software) to build students’ skills in decision modelling and analysis. It covers modelling and supporting decisions involving multiple stakeholders and conflicting objectives (multi-criteria decision analysis) as well as uncertainty (decision trees, influence diagrams, and risk analysis).

**Teaching:** 20 hours of lectures and 13 hours and 30 minutes of classes in the LT.
Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework: Two formal assignments:**
1. Group project plan presentation (i.e. personal decision context selected, due in week 7)
2. Individual review of an anonymous technical report developed from students who took this course last year. Students will have to review the report by following specific criteria and by completing a set of both descriptive and evaluative tasks (e.g. indicating the strongest part of the report, indicating sentences or paragraphs that seem out of order, incompletely explained or in need of revision, etc.). This review assignment will help students to improve their reading, writing and collaborative skills.

The topic of the project (i.e. a decision making problem to be modelled and analysed by means of Multicriteria Analysis) can be a personal decision (i.e. which job offer to accept when confronted with multiple ones, which master to apply for, etc.). Students will have to collect data, develop and apply a quantitative model, interpret the results and refer to the key scientific literature for the main steps in the development of the model. Students are allowed to work in groups of maximum 4/5 people. In the individual technical report of the group project, students will have to report on the developed process. This assignment will help students develop their operational problem solving skills by demonstrating their ability to apply a quantitative model to solve an operational problem, interpret its results, and develop sound recommendations.

**Assessment:**
- Presentation (40%) and other (60%).
- The presentation is a group project due in Week 11 of Lent Term. The other assessment is an individual technical report on the group project due in Week 1 of Summer Term.

**Pre-requisites:** An introductory quantitative course, such as MAT107 or ST107 or equivalent.

It is an advantage to have taken an introductory social science course in one of these fields: economics (e.g. EC101 or EC102), management, psychology or sociology.

**Course content:** This course develops your ability to make decisions or help others make decisions, with the help of ‘system 1’ – the fast, intuitive and (before this course) automatic way our brain makes decisions, and evaluates others’ decisions.

The aim is for you to become a better intuitive decision maker. In lectures, taught with MSc students, we examine how behavioural decision science came about and review a number of descriptive theories of decision making. We also focus on empirical research on heuristics, biases, decision style and other phenomena which can unconsciously affect decisions.

In seminars which are uniquely designed for undergraduates you answer to questions posed by the class teachers, and are guided to think about how behavioural insights apply to personal, managerial or policy decisions.

This is a course for undergraduates with a strong passion for behavioural science and a keen interest in the psychology of decision making and applications for management and policy.

Lectures are taught at an advanced level, and experientially (e.g., in-class experiments). It is suitable for 3rd year undergraduates who are keen to learn alongside master’s students in their first term at LSE, from diverse backgrounds and cultures. The course is a natural complement, and preparation for, MG310, which aims at improving the other side of the decision-making brain – the slow and analytic ability to make strategic decisions via modelling and decision analytic techniques.

**Teaching:** 18 hours of lectures and 9 hours of classes in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** A 500-word essay plan for one long essay (following the same structure as the summative essay) to be submitted AFTER reading week.

**Assessment:**
- Essay (100%, 3000 words) in the LT.

Assessment will be as follows:
- An essay of 3,000 words to be submitted no later than the beginning of week 7 of LT (100%)
- The essay will include two parts. In the first part (1,000 words), you will be asked to prepare a memorandum to the CEO of an organisation (be it public or private, an NGO, a business corporation or a third sector enterprise) giving a behavioural insight on some decision to make, or situation to improve, or goal to achieve. In the second part of the essay (2,000 words), you will justify the specific recommendations presented in the memorandum with reference to behavioural and decision science literature and theories. The first part of the essay will count for 50% of your mark while 50% will come from the second part.

---

**MG312**
**Half Unit**
**Extreme Organisational Behaviour:**
**Examining behaviour in non-normative organisational contexts**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Tara Reich and Dr Chia-Huei Wu
Availability: This course is available on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Organisational Behaviour and Leadership (MG105) or Organisational Theory and Behaviour (MG203) or equivalent.

Course content: Extreme OB seeks to understand atypical forms organisational phenomena. Alternative forms of organisations and unique individual circumstances have become more commonplace in recent years; however, OB theories—designed to apply to “typical” workplace behaviour and contexts—have not kept pace. The emphasis in this course will be on critically evaluating existing OB theories as they relate to extreme forms of workplace behaviour (e.g., workaholism, pro- and antisocial behaviour) and contexts (e.g., military, hospital, and artist culture). Weekly topics include isolated and high pressure work environments, passion work, virtual and flexible teams, and compliance and proactivity.

Teaching: 20 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 2 pieces of coursework (1 essay outline based on a case study and 1 presentation) in the MT.

Indicative reading: The course relies heavily on journal articles (for example, Academy of Management Journal, Journal of Applied Psychology, Journal of Organizational Behaviour, and Harvard Business Review). An extensive reading list is provided at the start of the course. Indicative readings include:

Johns, G. (2006). The essential impact of academic knowledge but also your practical problem-solving skills, a compelling marketing plan. This course will test not only your academic knowledge but also your practical problem-solving skills, resourcefulness, and creativity.

Teaching: 4 hours of lectures in the MT. 10 hours of lectures and 10 hours of classes in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 other piece of coursework and 2 other pieces of coursework in the LT.

i) One page memo drafting the scope of the project area
ii) Mid Term Report One — proposing the market segment to be targeted (based on relative attractiveness)
iii) Mid Term Report Two — Research Plan

Assessment: Project (90%, 5000 words) in the LT.

In class assessment (10%). The project will be completed in a group. A Group Evaluation Form will be required, where students’ comments on their peers can affect the final grade allocated. Please note that project group membership will be allocated by the course leader.

In the last class of the Lent Term students will be required to write, under exam conditions, a reflective piece on the work undertaken by their team and their contribution to it. The precise focus of students’ answers will be determined by the question that they have to address.

PH101 Logic

This information is for the 2017/18 session.

Teacher responsible: Dr Owen Griffiths, LAK 3.01

Availability: Students on the BSc in Philosophy, Logic & Scientific Method and on the BSc in Politics and Philosophy are required to take either this course or PH104. Students on the BSc in Philosophy and Econometrics who opt to take their logic paper in their first year may take either this course or PH104; those who opt to take their logic paper in their second year must take PH104 rather than this course. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: We reason or make deductions all the time - both in intellectual disciplines and in everyday life. For example, a scientist will test a particular theory by reasoning that if that theory were true then some other claim, one that can be checked observationally or experimentally, would have to be true as well - that is, by showing that some observationally testable claim is deductible from the theory. Mathematics is of course concerned with proofs and proofs are deductive inferences. Finally, philosophy is centrally concerned with arguments or deductions. To take one example, many have argued that the presence of evil in the world is incompatible with the existence of an all-powerful, all-knowing, all-merciful god as proposed in, for example, Judaic-Christian theology. That is, they have claimed that if you assumed that there is such a god, then it would follow, or you could infer that, there would be no evil in the world. But since there is evil, it follows that there can be no such god. More mundanely, we reason, or make inferences, all the time - though we don't always think of it that way. Deductive Logic is the study of such inferences - it therefore has an enormously broad scope. Different disciplines have different

MG315 Half Unit Marketing Action Learning Project

This information is for the 2017/18 session.

Teacher responsible: Dr Haider Ali

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Management and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Core Disciplines II: Marketing, Human Resource Management and Information Management (MG201) or Marketing (MG212).

Course content: This course will build on theoretical concepts taught in the pre-requisites, by applying these theories and concepts to a real-life situation. Working in teams, students will develop a marketing plan for a new product/service launch; from ideation through to marketing research and setting marketing launch budgets, and considering Return on Investment. With support from the course leader, students will gain the opportunity to use knowledge gleaned from many management courses to craft a compelling marketing plan. This course will test not only your academic knowledge but also your practical problem-solving skills, resourcefulness, and creativity.

Teaching: 4 hours of lectures in the MT. 10 hours of lectures and 10 hours of classes in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 other piece of coursework and 2 other pieces of coursework in the LT.

i) One page memo drafting the scope of the project area
ii) Mid Term Report One — proposing the market segment to be targeted (based on relative attractiveness)
iii) Mid Term Report Two — Research Plan

Assessment: Project (90%, 5000 words) in the LT.

In class assessment (10%).
ways of garnering information in the first place (the way that we arrive at a scientific theory is different from the way that we arrive at an axiom in mathematics or a thesis in philosophy), but the way that we reason from that information is the same no matter what the discipline. The main task of logic is to give an explicit characterisation of those inferences that are correct, or as we shall say, VALID (and hence differentiate them from those that are invalid). Logic tells you exactly when some conclusion really does follow from some premises and when it does not.

The course begins with a simple system called propositional or truth-functional logic, which despite its simplicity captures a great range of important arguments. The system of predicate logic that we study next is, however, still more powerful and provides the logical basis not only for ordinary inferences but also for inferences in the sciences. In both the case of propositional and of predicate logic, the course also covers other notions, such as the consistency of a set of sentences, and the independence of one sentence from a set of assumptions, that are closely related to validity of inference. Finally the course covers some issues in the foundations of logic - to do with truth and sets.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Formative coursework will take the form of a number of computer based quizzes and a number of regular exercises. Both of these will be set on the basis of the material covered in lectures. In the case of the computer based quizzes, students are required to complete them before a specific deadline; these will be discussed in class. In the case of the regular exercises, students are required to complete these and to be ready to present and discuss answers in the associated class; some of these will be formatively assessed by the class teachers. Successful completion of both the quizzes and the regular exercises is regarded as a prerequisite for admission to the examination for this course.

**Indicative reading:** Detailed course notes are provided and are intended to be sufficient reading for the course. However for those who like to have a book the one whose treatment is closest to that adopted in the lectures is P. Suppes Introduction to Logic (Van Nostrand).

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**PH103**

**The Big Questions: An Introduction to Philosophy**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Jonathan Birch and Dr Bryan W Roberts (co-teaching both MT and LT)

**Availability:** This course is compulsory on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** None

**Course content:** Philosophers formulate sharp ways of thinking about some of the world’s big questions. In this course, we explore 10 of the biggest such questions:

1. What do I know?
2. What is consciousness?
3. Who am I, and do I exist?
4. Do I have free will?
5. Does God exist?
6. What is space and time?
7. What are numbers?
8. What should I do?
9. What is justice?
10. What is the meaning of life?

You will be getting to the bottom of these questions, and to do so, we will be training you in the essential skills of a philosopher. There will be three main components. First, you will hone your ability to read philosophical texts, focusing on how to extract and present a philosophical thesis and argument in a clear, logical way. Second, you will practise creative, critical thinking and discussion on the fly, by participating in philosophical discussion with your peers. Finally, you will develop your ability to write philosophical arguments of your own in essay-form.

The questions of this course are some of the hardest that have ever been asked. Our plight as philosophers is that we still find them irresistible. Don’t let this worry you; we need not settle the answers once and for all. (The joke among philosophers is that, ‘At least we have all the questions!’) This course will nevertheless prepare you to make clear progress on big questions, and to think about them in a philosophical way.

**Teaching:** 10 hours of lectures, 5 hours of seminars and 10 hours of classes in the MT. 10 hours of lectures, 5 hours of seminars and 10 hours of classes in the LT.

Parallel to this course, students will take a 5-week writing “Seminar” in either Michaelmas Term or Lent Term, but not both. This seminar, called ‘Philosophy and Argumentative Writing’ (or “PAW”), will provide you with practical advice and exercises to improve your writing style. Students in the BSc in Philosophy and Economics, the BSc in Philosophy, Logic and Scientific Method, and the BSc in Philosophy, Politics and Economics are required to attend (5 hours of workshops in either MT or LT) and do all assignments. Other students are invited to do so.

**Formative coursework:** Students will be expected to write one formative essay in MT and two formative essays in LT.

**Indicative reading:** The readings will be articles and excerpts from books and will be made available via Moodle.

**Assessment:** Essay (50%, 1500 words) in the LT. Essay (50%, 1500 words) in the ST.

---

**PH104**

**Formal Methods of Philosophical Argumentation**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Owen Griffiths, LAK 3.01

**Availability:** This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is compulsory on the BSc in Philosophy, Politics and Economics (2nd year). It is compulsory on the BSc in Philosophy and Economics for those students who do not take PH101 in their first year. It is available as a more demanding alternative to PH101 for the BSc: Philosophy and Economics (1st year); BSc in Philosophy, Logic and Scientific Method and the BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Students are advised that it is a more demanding alternative to PH101. Only students with facility in formal reasoning (such as employed in mathematics or statistics) are advised to take this course rather than PH101 (where regulations permit this choice).

**Pre-requisites:** Although there are no formal prerequisites, facility in formal reasoning (such as employed in mathematics or statistics) will be presupposed.

**Course content:**

1. **Deductive Logic:** Philosophy is centrally concerned with arguments. The first question to be asked of any argument (or inference) is whether or not it is valid: that is, does its conclusion really follow from some premises?

   **Validity of inference** is the central problem of deductive logic. Logic has universal scope: different disciplines have different ways of garnering information (the way that we arrive at an axiom in mathematics or a thesis in philosophy), but the way that we reason deductively from that information is the same no matter what the discipline. The key to answering some other formal questions that often arise
in philosophy – such as whether a position (set of assumptions and claims) is consistent (let alone true) – is also provided by deductive logic.

This section of the course covers first a simple system called propositional or truth-functional logic, which despite its simplicity captures a great range of important arguments and provides a formal articulation of the key notions of validity and consistency. The main system covered, however, is (first order) predicate logic, which is powerful enough to capture not only simple inferences but also those involved in philosophy and the sciences.

The final section of this part of the course investigates more systematically how the formal techniques provided by these systems of logic relate to the invariably more informal arguments found in philosophy (and ordinary discourse).

2. Probability. In a valid deductive argument, the conclusion must be true if the premises are. Many inferences, however, conclude only that a certain claim is probable (or more probable than it would otherwise be). For example, we clearly cannot infer from the premise that someone smokes 40 cigarettes a day (together with background medical theories and data), that s/he will die early from smoking-related illness, but we can infer that it is much more probable that she will than if s/he did not smoke.

Issues about probabilities play many roles in current philosophical debates: in decision theory, philosophy of economics, philosophy of physics and many other areas. Building on the axiomatic development of probability that students will have covered in ST102, this section of the course will cover elements of probability logic together with some foundational issues. For example, it turns out that there are importantly different notions of probabilities, that is, different interpretations of the probability axioms. In particular, a subjective interpretation which sees probabilities as credences or degrees of belief in some proposition, and objective interpretations which see probabilities as properties of physical events (like the probability of a particular radioactive atom decaying in a given time interval). Some interesting difficulties arise with both interpretations.

The subjective interpretation has been developed into a full-blown and general “Bayesian” account of theory confirmation in science, the essentials of which will also be covered.

3. Formal Philosophical Devices. This final section of the course covers some of the formal, technical ideas that are often presupposed in contemporary philosophical work: including the notions of sets and infinities; theories of truth (and partial truth); analyticity and the a priori; possibility and necessity; and conditionals. Some of these notions have been clarified via analyses of celebrated ‘paradoxes’ that will also be covered in this section of the course.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

There are regular structured exercises on Moodle.

Formative coursework: Formative coursework will take the form of a number of computer-based quizzes and a number of regular exercises. Both of these will be set on the basis of the material covered in lectures. In the case of the computer-based quizzes, students are required to complete these before a specific deadline. In the case of the regular exercises, students are required to complete these and to be ready to present and discuss answers in the associated class; some of these will be formatively assessed by the class teachers. Successful completion of both the quizzes and the regular exercises is regarded as a prerequisite for admission to the examination. For later sections of the course, exercises will include questions requiring brief essay answers.

David Papineau, Philosophical Devices: Proofs, Probabilities, Possibilities and Sets. OUP 2012; Mark Sainsbury Paradoxes, CUP.

For Part 1: extensive notes are provided that are intended to be sufficient reading for this section of the course. Patrick Suppes, Introduction to Logic (Van Nostrand) is the book that most closely follows the system developed in the lectures.

For Part 3: David Papineau, Philosophical Devices: Proofs, Probabilities, Possibilities and Sets. OUP 2012, Mark Sainsbury Paradoxes, CUP.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

PH201 Philosophy of Science

This information is for the 2017/18 session.

Teacher responsible: Dr Ioannis Votsis

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics, BSc in Politics and Philosophy and RS/Stat and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None.

Course content: Science is shock full of miraculous predictions, shocking revolutions, and unexpected results that few science fiction writers could have ever dreamed of. What makes science so special? This course is a tour of the philosophical underpinnings of modern science. No background in any science is needed for this course; everything you need to know will be covered.

Indicative topics include: Theory and Observation: Hume's problem of induction and Goodman's new riddle of induction, Popper's falsificationism, underdetermination of theory by evidence, the positive instance account of confirmation, Bayesianism. Laws of Nature: the regularity view of laws, laws as universals, the best systems account, instrumentalism. Explanations: the DN model of explanation, statistical explanation, causal explanation, unification. Intertheory relations: reductionism and pluralism. Realism versus Antirealism: Scientific realism and antirealism, the no miracles argument, inference to the best explanation, the pessimistic meta-induction, reductive empiricism, constructive empiricism, the natural ontological attitude, entity realism, structural realism, Kuhn and scientific revolutions. Sociological approaches to science: Social constructivism, feminism. Causation: Hume's, Mill's, Mackie's accounts of causation, counterfactual theories, probabilistic causality and manipulability accounts, transcurrence accounts. Philosophy of a special science: Evidence-Based Medicine.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to write four essays (two in MT and two in LT), submit a few short answers before each class, and participate in class discussion.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

---

PH203 Philosophy of the Social Sciences

This information is for the 2017/18 session.

Teacher responsible: Dr Mattia Gallotti, LAK 3.01

Availability: This course is available on the BSc in Environmental Policy with Economics, BSc in International Relations, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in...
Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Pre-requisites: No formal pre-requisites, but PH103 The Big Questions: An Introduction to Philosophy or equivalent is recommended.

Course content: Philosophical issues concerning the nature of social scientific theory and its applications. Topics to be covered will include some or all of the following: the explanation and interpretation of action; naturalist and hermeneutic social theory; the nature of social facts; reductionism and methodological individualism; functional and structural explanations; rationality and relativism; the role of values in social science; social norms; the construction of social reality; methods of evolutionary explanation in the social sciences; philosophical and methodological critiques of evolutionary psychology. In additional, philosophical problems of particular social sciences such as anthropology, sociology, and economics will also be addressed.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to write three formative essays, two in Michaelmas term and one in Lent term. A mock exam will be given near the end of Lent term, with feedback provided. Class presentations may also be required depending on the pedagogical approach adopted by the class teacher.

Indicative reading: A detailed reading list may be found on the Moodle page for the course. Useful preliminary background readings include: The Philosophy of Social Science Reader, edited by Francesco Guala and Daniel Steel; Daniel Little, Varieties of Social Explanation; edited by Michael Martin and Lee Voorhoeve. A useful anthology is Readings in the Philosophy of Social Science, edited by Michael Martin and Lee McIntyre.

Assessment: Exam (67%, duration: 2 hours) in the main exam period. Essay (33%, 2000 words) in the LT.

---

PH213 Not available in 2017/18

Scientific Revolutions: Philosophical and Historical Issues

This information is for the 2017/18 session.

Teacher responsible: Prof John Worrall LAK 3.02

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is not available as an outside option. This course is available to General Course students.

Pre-requisites: No prior systematic knowledge of physical and biological science is presupposed.

Course content: The course examines a number of fundamental issues in philosophy of science, as they arise from instances of important theory-changes (so-called ‘scientific revolutions’) in the history of science. It is therefore by no means a ‘straight’ course in history of science: it looks at historical episodes to test and/or illustrate philosophical theses about science and its development. 1. The Copernican revolution. the switch from the Ptolemaic geocentric view of the world to the Copernican heliocentric one was probably the greatest revolution in human thought ever. What justified the switch? Was Ptolemaic theory definitively refuted by the data? Was Copernican theory simpler? Was the Church’s view that Copernican theory should only be thought of as an instrument for calculating astronomical data purely theologically motivated or does it have some scientific rationale? What role was played in the eventual acceptance of the Copernican view by predictive success? Do we need to invoke social or other non-intellectual factors to explain why this ‘revolution’ occurred? 2. Galileo: Galileo and the telescope: are all observations ‘theory-laden’ and does this mean that there is a subjective element to all theory-choices? Galileo and the argument for his law of free fall: can theories be ‘deduced from the phenomena’? 3. The Newtonian revolution: What was the relationship between Newton’s theory and Kepler’s and Galileo’s laws? What does this tell us about theory-change in general? 4.19th Century revolutions in Optics: the switches from the corpuscular theory to the wave theory of light and from the wave theory to the electromagnetic theory. What do these cases of theory-change tell us about the twin theses of scientific rationality and scientific realism? 5. The Darwinian Revolution: This revolution certainly ranks alongside the Copernican one in terms of its impact on man’s view of herself. But debates about the scientific credentials of Darwin’s theory began immediately on the publication of Darwin’s work and continue to this day. Is Darwinian theory unfalsifiable (or even just one big tautology)? Can ‘scientific’ creationists explain everything that Darwin can? What objections were raised by Darwin’s critics to particular aspects of Darwinian theory? Were these valid objections and, in so far as they were, have they now been resolved?

Teaching: 10 hours of lectures and 8 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 2 hours of classes in the ST.

Formative coursework: Students will be expected to write two essays per term of 1500 words maximum, and to give class papers.

Indicative reading: Background reading: T S Kuhn, The Structure of Scientific Revolutions; Imre Lakatos ‘Falsification and the Methodology of Scientific Research Programmes’ in his The Methodology of Scientific Research Programmes, Philosophical Papers 1; G Holton (revised by S Brush). Theories and Concepts in Physical Science. Recommended reading: The central text for the first part of the course is T S Kuhn, The Copernican Revolution, Harvard University Press; the central text for part 5 is Philip Kitcher: Abusing Science: the case against Creationism. MIT Press. There will be lecture slides on each topic including (i) a list of essential reading and suggestions for further reading and (ii) ‘study questions’ to guide your thought. Aside from the above reading for the section of the course on the Copernican revolution, reading for particular topics will be in the form of articles and selections from books. These will be made available through a combination of handouts, course pack and the Offprint Collection.

Assessment: Exam (67%, duration: 2 hours) in the main exam period. Essay (33%, 2000 words) in the ST.

---

PH214 Philosophy, Morals and Politics

This information is for the 2017/18 session.

Teacher responsible: Dr Alexander Voorhoeve

The course will be taught by Prof. Michael Otsuka (weeks 1-5 MT), Prof. Luc Bovens (weeks 6-10 MT), and Prof. Alex Voorhoeve (weeks 1-10 LT)

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None.

Course content: Michaelmas Term weeks 1-5 (Michael Otsuka): The ethics of harming and saving from harm. We will discuss the following topics in normative ethics regarding the morality of harming and saving from harm: (i) Should one save the greater number from harm? (ii) Can contractualism justify the saving
of the greater number when and only when we ought to? (iii) Should one be solely concerned with how badly off people are, or should one also care about inequality? (iv) Does it make a moral difference that a person is less well off than she could have been? (a.k.a. 'the non-identity problem'). (v) Why is it permissible to divert a tram so that it runs over one rather than five, whereas it is impermissible to kill a single individual in order to redistribute his vital organs to save the lives of five? (a.k.a. 'the trolley problem').

Michaelmas Term weeks 6-10 (Luc Bovens): Moral psychology.
We will study five topics in moral psychology, viz. hope, self-management, love, apologies and death. Hoping for something seems to be more than just believing it to be possible and desiring it—but what else is required for hope? Can it be reasonable to adapt our desires and beliefs to improve our quality of life? Or should be just dismiss this as sour grapes and self-deception? Should we conceive of romantic love foremost as a deep attraction to the features of a beloved, a commitment of caring for a beloved, or a desire to form a single identity with a beloved? What makes for a genuine apology? Why would one care that one be forgiven? What kind of hopes might people have in the face of death, if not eternal life? The core thread through our readings are various strategies of coping with life's challenges. We will also explore literary expressions and political dimensions of these concepts in moral psychology. The readings are a combination of chapters from a book manuscript by Luc Bovens and classical and contemporary sources.

Lent Term weeks 1-5 (Alex Voorhoeve): The good life, virtue, and the market. We will engage with two outstanding thinkers from the history of ethics: Aristotle and Hume. We will use their works to pursue the following questions in ethics: What is a good life? What makes a character trait a virtue or a vice? Why be moral? We will also consider social and political questions, including: what is the origin and role of property rights? Do markets corrupt us or make us better human beings?

Lent Term weeks 6-10 (Alex Voorhoeve): The moral law and social justice. In these weeks, we will draw on Kant's works to engage with the following moral questions: Are there moral laws that are binding on every rational being? What does respect for human beings require? Is impartial morality in tension with partial emotions like love? We will also use Rawls's work to pursue the following questions: What does justice require? Does it demand the redistribution of income from rich to poor in order to create a more egalitarian society?

Teaching: 10 hours of lectures and 10 hours of classes in the MT, 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 1 presentation in the LT and 3 essays in the MT and LT.

Assessment: Exam (60%), duration: 2 hours in the main exam period. Essay (30%, 2000 words) in the ST. Class participation (10%).
PH221
Problems of Analytic Philosophy

This information is for the 2017/18 session.

Teacher responsible: Prof Christian List and Dr Anna Mahtani

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed The Big Questions: An Introduction to Philosophy (PH103).

Course content: Short description: Some central topics in metaphysics, the philosophy of mind and action, epistemology, and the philosophy of language. Topics may vary by year. More detailed description: The aim of this course is to give an overview of some central themes in analytic philosophy, drawn from several areas: metaphysics, the philosophy of mind and action, and the philosophy of language. We will discuss questions such as the following:

Metaphysics: Is "physicism" -- the thesis that everything is ultimately produced by physical processes -- philosophically defensible? Are there any features of the world that go beyond physical ones? Is the world deterministic? Could there be true randomness? What is the nature of causation and causal laws? What is the role of time? What is it for one object (or person) to persist through time?

Mind and action: What does it mean to have a mind? What is an intentional agent? How can we make sense of the emergence of human and animal minds against the background of a physical world? What is consciousness, and how does it relate to physical properties?

Language: How do some patterns and noises have meaning? How do some words refer to objects in the world? How do we manage to imply things by what we say? And how can we handle the problem of vagueness?

Our emphasis will be on developing a sharp understanding of key concepts, arguments, and the logical relationships between different ideas, rather than providing an encyclopaedic historical or exegetical coverage. We aim to give students a conceptual toolbox for a rigorous analysis of some classic philosophical questions.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Lectures are taught alongside PH501 postgraduate students.

Formative coursework: Students will be expected to participate actively in their classes and to write 3 formative essays, each with a 2000 word limit. None of these may be a draft of the summative assignment.

Assessment: Exam (67%, duration: 2 hours) in the main exam period.

Essay (33%, 2000 words) in the ST.

PH222
Philosophy and Public Policy

This information is for the 2017/18 session.

Teacher responsible: Dr Campbell Brown

This course is taught by Prof. Alex Voorhoeve (weeks 1-5 of Michaelmas Term), Dr. Campbell Brown (weeks 6-10 of MT), Dr Johanna Thoma (weeks 1-5 of LT) and Prof. Michael Otsuka (weeks 6-10 of Lent Term).

Availability: This course is compulsory on the BSc in Politics and Philosophy. This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method and BSc in Philosophy, Politics and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course offers critical reflection on the design and evaluation of public policies from the perspective of moral and political philosophy. To this end, we study a range of theories and concepts that are used in policy evaluation. We often discuss and evaluate them by focusing on specific policy proposals. The course addresses questions such as the following.

• What is a correct public measure of well-being?
• Should we distribute resources in health care to produce the most well-being overall or should we also aim to limit inequalities?
• Should people be left to bear the consequences of their free choices?
• May the government force you to buy health insurance?
• Is torture ever justified?
• Do prosperous countries have a right to close their borders to immigrants from poor countries?
• Should hate speech be protected by freedom of speech?
• Should the development of new drugs be left to private companies rewarded by patent protection?
• What is the optimal population size and what policies may the state pursue in order to achieve it?
• Should higher education be financed by student loans or general taxation?
• Should we be free to act as we choose so long as we do not harm others?
• Is killing morally worse than letting die?

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.
In this introductory course to business ethics, we look at different topics covered include:

- Human nature: Does the concept of ‘human nature’ have any biological basis? Can we distinguish between those traits which are part of ‘human nature’ and those which are not? And is ‘human nature’ fixed, or can it be altered by technological means?
- Sex and gender: Are ‘sex’ and ‘gender’ the same thing? Are gender categories natural or social? Are there robust psychological differences between men and women? If so, are they explained by genes or by culture? And should we reconcile ourselves to these differences, or should we try to eliminate them?
- Race: Do races exist? Is there any objective biological basis for racial categorization, or are races socially constructed? Does the concept of ‘race’ have a legitimate role in medicine?
- Free will and responsibility: Has neuroscience debunked the notion of ‘free will’? If so, can we still be held responsible for our actions? Should neuroscientific data be used to predict—and prevent—wrongdoing?
- Right and wrong: Has neuroscience shown that morality is more a matter of emotion than reason? Can we use neuroscience to help us choose between ethical theories, and to help us improve our own behaviour?

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT.

**Lectures:** Weeks 1 - 10

**Classes:** Weeks 2 - 11

**Formative coursework:** A critical analysis exercise (1,000 words)

**Indicative reading:** Suggested introductory readings:

**Assessment:** Essay (45%, 1500 words) and wiki entry (10%) in the LT.
PH228  Half Unit
Emotion, Cognition and Behaviour: Science and Policy

This information is for the 2017/18 session.
Teacher responsible: Adrian Boutel

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides an introduction to the (i) philosophical and (ii) scientific foundations of contemporary cognitive science with a particular focus on its (iii) ethical, social and political implications. No background in either philosophy or cognitive science is required.

Topics covered include:
- Folk psychology and its discontents: We tend think of ourselves, and of others, as more-or-less rational instrumental deliberators, choosing actions that further our goals in light of our beliefs. But is this common-sense understanding a good psychological theory? Or is it, at best, a useful heuristic for dealing with something much more complex?
- Cognition as computation: Is the brain (like) a computer? Is computation sufficient for thought? Could computers potentially do all the things our minds do?
- Dual-process theories: Do our cognitive processes come in ‘fast’ and ‘slow’ varieties? Is the mind partitioned into two systems?
- Implicit bias: Could we be unaware of our own racial, gender and other biases? If so, are we responsible for the decisions they influence? What can we do about them?
- Thought outside the body: Are thoughts wholly ‘in the head’? How might they extend beyond it? Will augmented reality paint our minds onto the world?
- Happy societies: Should policymakers aim at increasing the happiness of society? What would this mean, and how would we go about it?
- Nonhuman thought: Do we share cognitive capacities with animals? What kind of value judgements are involved in answering that question? And if AI is possible, what happens to us when machines can think better than we can?

Teaching: 10 hours of lectures and 10 hours of classes in the MT.

Lectures: Weeks 1 - 10
Classes: Weeks 2 - 11

Formative coursework: One formative essay and comments on a draft of the assessed essay.

Indicative reading: Suggested introductory reading:

Assessment: Exam (67%, duration: 2 hours) in the LT week 0. Essay (33%, 1500 words).

PH230  Half Unit
Einstein for Everyone: From time travel to the edge of the universe

This information is for the 2017/18 session.
Teacher responsible: Dr Bryan Roberts

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: There are no prerequisites for this course; it is accessible to students of all backgrounds.

Course content: One of the most surprising discoveries of the 20th century is that many things can be described by tiny atoms moving randomly about. Thinking about the physical world in this way led...
to the invention of modern particle physics. Thinking about the financial world in this way led to modern financial modeling. This course is about some of the philosophical issues underlying the relationship between physics and finance.

Students in this course will explore some of the most important conceptual and philosophical questions underlying physics and finance, like: How are assumptions about randomness compatible with observed forms of determinism? What does it mean to be an atom? How does the quantum world differ from the everyday world? What explains why physical models have unexpected applications in finance? To what extent do such applications help to underpin how the prices of financial instruments are set? The course will proceed at a conceptual level that is suitable for students of all backgrounds. We begin by introducing the concept of atoms and of the random walk, and investigate the role it played in the development of statistical mechanics and quantum physics. We then explore how random walks and other models used in physics apply to understand financial ideas like rates of return, Black-Scholes option pricing, and stock market crashes, analysing the philosophical issues underlying this practice along the way.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 2 essays in the LT.

**Indicative reading:** Weekly essential readings will be provided on Moodle, selected individually from various book chapters and journal articles. Some indicative readings include:
- Malkin, Burton G. *A random walk down Wallstreet*, excerpts.
- Norton, John D. *Einsteins for Everyone*, Chapters 34-37 on Brownian motion and the origins of quantum theory.
- Weatherall, James O. *The Physics of Wallstreet* (optional further reading)

**Assessment:** Essay (50%, 1500 words) in the Week 11. Essay (50%, 1500 words) in the ST.

---

**PH301 Not available in 2017/18**

Rationality and Choice

_This information is for the 2017/18 session._

**Teacher responsible:** Prof Richard Bradley LAK2.03

**Availability:** This course is available on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students. Available only for 4th year students in the BSc. PPE

**Pre-requisites:** Students must have completed Formal Methods of Philosophical Argumentation (PH104).

Students must have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202)

**Course content:** This course introduces the three main components of rational choice theory: individual decision theory (including probability theory), game theory and social choice theory. Students will become familiar with the kinds of problems and solution techniques (the logical/mathematical machinery) that characterise these areas of rational choice. The primary aim of the course, however, is to philosophically examine the theories in question. To this end we examine the basic assumptions underlying the dominant decision, game and social choice models, and how these assumptions relate to the role(s) these models are supposed to play in various areas of philosophy (e.g. philosophy of science and ethics) and in the social sciences.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 2 essays and 2 problem sets in the MT and LT.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

The exam will consist of three sections. Section A will contain short questions of a technical nature. Sections B and C will contain longer essay questions

---

**PH311 Philosophy of Economics**

_This information is for the 2017/18 session._

**Teacher responsible:** Dr Johanna Thoma LAK 4.02 Dr Campbell Brown

**Availability:** This course is compulsory on the BSc in Philosophy and Economics. This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics, BSc in Politics and Philosophy and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Economics A (EC100).

Although it is a third-year course, second-year students can take it with permission.

**Course content:** This course provides a philosophical discussion of the methods and normative commitments of contemporary economics. The first term will focus on economic methodology and the foundations of utility theory, with an eye to important current debates in economics. We will discuss questions such as: What
is utility, and how do economists measure it? Does evidence of widespread ‘irrationality’ from behavioural economics undermine standard microeconomic theory? Can idealised models teach us anything about real-world phenomena? If yes, how? How should we measure important economic variables, such as inflation? How do we best find out what interventions work in development? Does macroeconomics need microfoundations? Is the economics profession to blame for its failure to predict the financial crisis? The second term will focus on welfare economics, and the ethical assumptions and implications of economics. We will cover questions such as: Is getting what you want always good for you? Can you be harmed by something if you never know about it? Does it make sense to say that eating pizza gives me more happiness than going to the movies gives you? Is it possible to combine the preferences of individuals into an overall ‘social’ preference? Does it matter if the well-being of some people is less than that of others? What are the moral limits of markets? How should we resolve collective-action problems? What is a fair distribution of the benefits from cooperation? Should there be barriers to international trade?

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 2 essays and 1 presentation in the MT and 1 essay and 1 presentation in the LT.

**Assessment:** Exam (65%, duration: 2 hours) in the main exam period. Essay (25%, 2000 words) in the ST.

**Class participation** (10%).

---

**PH332 Half Unit Effective Philanthropy: Ethics and Evidence**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Luc Bovens and Mr Stephan Chambers

Professor Bovens will deliver the weekly lectures and the seminars based on lecture material, Stephan Chambers, Marshall Institute Director, will arrange and chair the bi-weekly discussion with leaders in philanthropy.

**Availability:** This course is available on the BSc in Management, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. This is a 3-year level course, open to students from any degree in LSE. Interested second-year students can apply to the lecturer for permission to take the course.

**Course content:** The course will address key questions in philosophy and social science concerning philanthropy, including:

- Which motives actually drive philanthropy and which motives should drive it?
- What is the nature and extent of our moral obligations to philanthropy?
- Is the proper aim of philanthropy ‘to do the most good’?
- How should the good aimed at be conceived of and measured?
- How, if at all, should people’s rights and the risks of causing harm constrain the pursuit of the good?
- What are a charitable organisation’s duties of accountability towards its stakeholders, that is, the donors, the recipients and its employees?
- Do we need Randomised Controlled Trials as evidence for the efficacy of philanthropic interventions?

- Which career and personal choices should one make in order to further philanthropic aims?
- Which moral principles govern the relationship between the state and private philanthropy? Between corporations and charities?
- What is the role of foundations in support for the arts?
- How should the recipients of aid be represented in media campaigns of charities addressing global poverty?
- What behavioural techniques can be invoked to increase charitable giving and are these techniques respectful of the freedom and autonomy of the targeted donors?

**Learning aims:**

- Students will learn about key contemporary debates in the ethics of philanthropy through critical engagement with the philosophical literature.
- Students will learn how to use both social science and normative (ethical and methodological) reasoning to assess philanthropic organisations.
- Students will gain knowledge of philanthropy in action via case studies that highlight key methodological and ethical issues and via discussions with professionals with extensive experience of the sector in bi-weekly, supplementary talks and Q&A sessions.

**Teaching:** 10 hours of lectures, 5 hours of seminars and 10 hours of classes in the MT.

In Michaelmas term: 1 hour lecture per week (x 10), fortnightly 1 hour additional ‘philanthropy in practice’ guest lecture and seminar with leading figures in philanthropy organised by the Marshall Institute; seminars: 1 hour per week (maximum of 15 per seminar).

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

This formative essay has a word limit of 1500 words.

**Indicative reading:** Essential Readings:

Reading List:

Assessment: Exam (65%, duration: 2 hours) in the main exam period; Essay (25%, 1500 words) in the ST. In class assessment (10%) in the MT.

PH341: Not available in 2017/18

Philosophy, Politics and Economics: Applications

This information is for the 2017/18 session.

Teacher responsible: Dr Alexander Voorhoeve LAK 401

Availability: This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students. Available only to fourth-year PPE students.

Pre-requisites: The course will be available only to 4th-year PPE students.

Course content: This course will draw on concepts, theories and findings from Philosophy, Politics and Economics to tackle questions faced by decision-makers in public and private institutions. Each week will focus on a case study. Students will be expected to have had some prior exposure to the issues in previous courses--this course will stand out by being more interdisciplinary, in-depth and practical. Questions covered may include:

1. What measure(s) should governments use as the 'currency of distributive justice'? We will look at merits and drawbacks of various 'currencies' (including subjective satisfaction, the capability approach, the 'equivalent incomes' approach, and quality-adjusted life-years) and how they have been used.

2. How should we measure inequality and poverty? We will look at merits and drawbacks of various measures in the light of both (i) the nature of reasons to be concerned with inequality and poverty; and (ii) practical concerns.

3. How, if at all, should governments aid the disadvantaged 'at home'? We will consider the merits and drawbacks of conditional versus unconditional transfer programmes.

4. Should public services be provided for free 'in kind' or should citizens be granted 'vouchers' which they can 'top up' with their own money?

5. How should priorities be determined in aiding the global poor?

We will consider whether efforts should be guided by where they will 'do the most expected good' or whether they ought instead also to be directed to reforming unjust institutions.

We will consider what kinds of goods can be traded for money and which goods ought to remain 'market-inalienable'.

We will consider the justifiability of the use of 'traditional' paternalistic instruments such as taxes and prohibitions and the use of 'nudges'.

8. How should one respond to the 'Democratic Trilemma', i.e., the conflict between three central demands on good democratic procedures: 'robustness to pluralism', 'majoritarianism', and 'collective rationality'? Discussion will centre on the merits and demerits of the various types of democracy that result from giving up each of these demands.

9. When people disagree, what are the conditions under which a consensus can be achieved and how desirable is it to do so? We will consider some of the epistemic and moral reasons for and against reaching a consensus and consider how some public organisations proceed in the face of disagreement.

10. How can and should collective action problems be resolved? We will consider the nature of the obligations to address collective action problems and the ways in which they may be solved.

11. Why limit immigration? We will consider the moral reasons for and against limits on immigration and immigration’s political and economic consequences.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

The lectures will present theories and findings from the three disciplines relevant to the policy issue being studied in that week; they will also give the outline of a real-world case study. Classes will devote some time to clarifying concepts, theories and findings, but will focus especially on the practical policy question posed by the case study. At least three classes will involve team debates, in which students are assigned to teams which must argue for a particular solution to the dilemma posed by the case study. Two of these debates will be formative, and one summative.

Formative coursework: Students will be expected to produce 2 essays and 2 presentations in the MT and LT. Students will write at least two 2,000-word formative essays. At least twice, students will be assigned to a debate team, which must together present a case in class for a particular resolution of a policy dilemma. Feedback on these essays and the presentation will help prepare students for the final, summative essay and final, summative presentation.

Assessment: Exam (50%, duration: 2 hours) in the main exam period; Essay (30%, 2000 words) in the ST. Presentation (20%) in the LT. The grade for the presentation will normally be the same for all presentations. This is to incentivise working effectively together. Students will have two summative team presentations first before the formativc one, so will have time to
learn to work together effectively and get guidance from the class teacher where needed. All other marks are individual.

PH399 Dissertation in Philosophy

This information is for the 2017/18 session.
Teacher responsible: Dr Marie Milofsky
Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.
Course content: The dissertation may be on any topic for which a suitable supervisor in the Philosophy department can be found.
Selection of topic
Candidates should have the subject of their dissertation approved by their supervising member of department.
Arrangements for supervision
The dissertation is an opportunity to do extended independent research and writing and to present this work to one’s peers. It should reflect the candidate’s own views but must develop out of some established part of the philosophical literature. Students should carefully discuss their topic and approach with their supervisor who will also advise on reading and give feedback on written work. Students must have regular meetings with their supervisor, submit written work regularly, and keep a formal record of their work and progress. Students must also present an early version of their argument to fellow students and will be given feedback on the quality of their presentation as well as on the content of their arguments.
Teaching: 1 hour of seminars in the MT. 20 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the MT, 2 essays and 1 presentation in the LT and 1 piece of coursework in the ST.
The formative coursework sets out several steps towards the dissertation: a literature review (due in MT), a first 2,000 words (due in week 1 of LT), a subsequent 3,000 words (which may be in part a revision of the first 2,000 words), due in week 5 of LT; a presentation of the student’s arguments in LT; and a full draft of the dissertation, due in week 1 of ST. All written coursework must be submitted by email to both the student’s supervisor and the teacher responsible. Students who fail to submit this coursework on time may be barred from submitting the dissertation.
Assessment: Dissertation (90%, 7000 words) in the ST.
Class participation (10%).
Dissertations must be submitted in May 2018, exact date to be confirmed. They should be 5,000-7,000 words, and should be typewritten.

PS102 Social Psychology

This information is for the 2017/18 session.
Teacher responsible: Dr Sophie Von Stumm QUE 3.22
Availability: This course is available on the BSc in Social Policy and BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.
Course content: Theories and concepts such as: self and identity; attitudes, communication, influence and persuasion; groups, organisations and crowds; social cognition, e.g. how our expectations influence our perception of the social world, and how our culture and social world influences those expectations.

Applications such as: exploring the meaning of public opinion polls; the social and psychological sources of prejudice; rioting; crime and eyewitness testimony; media influence; leadership and motivation. This course’s emphasis on social and applied psychology distinguishes it from the broader introduction to cognitive, developmental, clinical and other branches of psychology provided by PS100.
Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.
Formative coursework: Students are expected to produce two assignments as coursework, one in MT and one in LT. The first assignment comprises of three separate short answers responding to a choice of questions, comprising up to 1,500 words in total. The second assignment is an essay of 1,500 words. These will be assessed by the class teachers. Students are expected to give class presentations.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.
The exam will consist of four short answer and two essay questions.

PS110 Not available in 2017/18

Foundations of Psychological Science

This information is for the 2017/18 session.
Teacher responsible: Dr Michael Muthukrishna QUE 3.15
Availability: This course is available to all first and second year undergraduates who are permitted to take an outside option as part of their programme. This course is available to General Course students.
This course will offer students and understanding of how psychology relates to and informs other disciplines concerned with humans and human behaviour. The course is therefore suitable to students enrolled in other programmes who wish to enrich their understanding by drawing on the psychological sciences.
Pre-requisites: None
Course content: This course provides an introduction to human cognition and behaviour, addressing foundational topics in psychological science. These foundational topics include key concepts such as evolution, genetics, neuroscience, human evolutionary biology and anthropology, and specific topics, such as perception, memory, heuristics and biases, decision-making, child development, psychopathology, personality and individual differences, emotion, attraction and sexuality, cross-cultural differences, social relations, stereotypes and prejudice, norms and attitudes, social learning, social influence and persuasion, and group processes.
The course will offer an integrated perspective on these topics, investigating the evolution and variation in human psychology over time, across cultures, and over the lifespan. The course will introduce the history of the study of humans and human psychology, offering students the historical context to trends in research. By the end of the course, students will have a broad knowledge of key topics in psychology and related disciplines. Students will be prepared for more in-depth investigations of more advanced topics in later courses.
Students will also understand how psychology relates to and
inform other disciplines concerned with humans and human behaviour. The course is therefore suitable to students enrolled in other programmes who wish to enrich their understanding by drawing on the psychological sciences.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 2 essays and 6 quizzes in the MT and LT.

In order to assess student performance and practice for the summative assessments, students will:
1. Write 2 mini-essays, one prior to each summative assessment.
2. Six pop quizzes of around 10 items will be given to students over the course of the year to help both the lecturer and students assess their progress. These quizzes will probably be administered via Moodle and will be administered quickly at the beginning of a lecture.

**Assessment:** Exam (40%), duration: 3 hours in the main exam period.

Other (40%) and other (20%) in the MT and LT.

Students will write two media/blog posts that summarise a key finding in psychology. This will result in more engagement, communication and summarizing of research as well as encouraging them to seek out new findings in the psychological and behavioural science, finding ways to connect them to the real world.

Students will create or edit a Wikipedia or Simple Wikipedia entry on a topic in psychology that is either incorrect, badly described, or missing. This will teach students critical thinking skills, not to take information at face value, and how to communicate research to a smart audience looking for both an overview and details. The final exam will consist of multiple choice questions plus a short answer section.

---

**SA101 Sociological and Social Policy**

**This information is for the 2017/18 session.**

**Teacher responsible:** Professor Lucinda Platt OLD 2.25

**Availability:** This course is compulsory on the BSc in Social Policy and BSc in Social Policy and Sociology. This course is available on the BSc in Social Policy with Government. This course is available permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Course content:** This course introduces students to sociological ideas and thinking and how they link to key social policy issues. The course is organised around six major social policy concerns: gender inequalities, educational opportunity and inequality, class mobility and stratification, social networks and social segregation, neighbourhood deprivation and housing, ethnic and racial inequalities. These are related to key classical and contemporary theoretical perspectives and concepts that have been used to describe and explain them, such as occupational segregation, discrimination, cultural and social capital, institutions, socialisation, identity and belonging, and intergenerational transmission of status, values and resources.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

**Formative coursework:** Students are expected to submit three pieces of written work (one in MT and two in LT), and to read for and prepare contributions to class discussion each week.

**Indicative reading:** P Alcock, T Haux, M May & S Wright (Eds), The Student’s Companion To Social Policy, 5th edn, 2016; J Baldock, N Manning, S Vickerstaff and L Mitton (Eds), Social Policy, 4th edn, 2011; H Dean, Social Policy, Short Introductions, 2nd edn, 2012; C Pierson, F G Castles & I Naumann (Eds), The Welfare State Reader, 3rd edn, 2014; M Daly, Welfare, 2011. These are introductory texts; a full reading list will be provided in the first lecture of MT.

**Assessment:** Exam (100%), duration: 3 hours in the main exam period.
SA104 Social Economics, Politics and Policy

This information is for the 2017/18 session.

Teacher responsible: Dr Kitty Stewart OLD 2.36

Availability: This course is compulsory on the BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Places on this course are limited to 45 and priority is given to Social Policy students in the first instance. If places remain available once Social Policy students have been accommodated, they will be offered on a first come first served basis to students from outside the Department. If you would like to take SA104 as an outside option, please contact the Undergraduate Programme Manager who will be able to advise you on availability (contact details available on the Social Policy web pages).

This course is not available to third year students.

Pre-requisites: No prior knowledge of economics is required.

Course content: This course provides an introduction to the economics of social policy and the economics of the income distribution. The course begins by introducing basic economic concepts and principles and discussing their application to different social policy areas, including health care, social care, education and housing. Key concepts include supply, demand and elasticities, externalities and market failure, private insurance and social insurance, and quasi-markets. The course goes on to analyse the distribution of household income and the drivers of poverty and inequality, including unemployment, low wages and wage inequality. It covers concepts of human capital and productivity and looks at a range of policy responses, including minimum wage legislation, trade union policy, government economic management, taxation and the social security system. Throughout, the course emphasises the importance of understanding political goals in assessing the effectiveness or justice of economic and social policies, and seeks to encourage students to draw on both theory and empirical evidence in addressing core questions. The course is taught without mathematics and is designed to be suitable both for students with no prior knowledge of economics and for those who have taken A level.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Four formative essays will be required during the year, and students will be expected to make at least two presentations to the class.

Assessment: Exam (75%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

Essay (25%, 1500 words) in the LT.

SA201 Research Methods for Social Policy

This information is for the 2017/18 session.

Teacher responsible: Prof Eileen Munro OLD 2.33 and Dr Amanda Sheely OLD 2.52

Availability: This course is compulsory on the BSc in Social Policy, BSc in Social Policy and Criminology, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course aims to give students a comprehensive introduction to methods of social research in social policy. It deals with the design and analysis of social policy research. The nature of social measurement. The concept of statistical inference. Data collection by means of social survey, depth interviews, participant observation and documentary methods. Descriptive and inferential statistics, including bivariate and multivariate techniques. Analysis of data particularly from surveys. The use of computers in data analysis. Ethics and politics of Social Policy Research. Strengths and weaknesses of commonly used research methods. Methods of analysing qualitative data.

Teaching: The course combines two elements:

SA201.2 Research Methods for Social Policy: Professor E Munro

MT Lectures: 10 x 1hr SA201.2. Classes: 10 x 1hr SA201.2. ST: Revision session 1hr

SA201.1 Data Analysis for Social Policy: Dr A. Sheely

Lectures: 10 x 1hr SA201.1. Classes: 14 x 1hr SA201.1. MT Lectures: weeks 8, 9, 10, 11 (MT); LT Lectures: weeks 1, 2, 3, 4, 5, 7 (LT) MT Classes: weeks 8, 9, 10, 11 (MT); LT Classes: weeks 1, 2, 3, 4, 5, 7, 8, 9, 10, 11 (LT)

Formative coursework: For the Research Methods class, students submit an essay by the end of the MT from a list of questions relating to their work on the summative project. For the Data Analysis class, students will use a computer to analyse data, and will be expected to produce summaries and interpretations of their results. Each week of the course, students will be assigned a formative homework assignment.

Assessment: Project (50%, 5000 words) in the ST. Essay (50%, 3000 words) in the LT.

The first assignment asks students to apply their learning from the Michaelmas Term to create a research proposal. This proposal will describe the type of study design, sampling strategy, and data collection method that will be used for the summative coursework due in Lent Term. This proposal will also include a critique of 3 research articles in depth, identifying the methods used, their appropriateness to the particular questions being addressed, the sample and measurements used and the validity of the conclusions reached. The second assignment is designed to illustrate the whole research process albeit on a small scale. In the Michaelmas Term, you will learn about the research process from having an area of interest, focusing on a specific research question relating to the gender wage gap, and collecting evidence to help you answer that question. In the classes, you will work in small groups to prepare a semi-structured survey instrument that you will each then administer to 4 adults in your life. There will be variation in the specific research question chosen by each small group.
group in relation to the broader issue of the gender wage gap but the instrument will also contain some closed questions common to all the instruments. This will produce both qualitative data and quantitative data. The assignment will include the analysis and discussion of both sets of data.

SA204 Education Policy

This information is for the 2017/18 session.

Teacher responsible: Prof Anne West OLD.2.30

Availability: This course is available on the BSc in Social Policy, BSc in Social Policy and Criminology, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides an introduction to the main issues in educational policy. It draws on interdisciplinary research literature and focuses on contemporary Britain although there is a comparative and international component. The course aims to show how major concepts in social policy can be applied to the study of education, for example, inequality, social justice and distribution of resources. The course focuses on broad issues of educational policy, including the 1944 Education Act, the 1988 Education Reform Act, the 1998 School Standards and Framework Act and the 2010 Academies Act. It also explores specific issues that have implications for equality of opportunity, equity and social justice: social class, ethnicity/ 'race' and gender, special educational needs/disability and financing education across different phases of education – early years, schools and higher education.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: One formative essay in MT and one formative essay in LT.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

SA217 Psychology of Crime and Criminal Justice

This information is for the 2017/18 session.

Teacher responsible: Dr Michael Shiner OLD.2.34

Availability: This course is available on the BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course examines the contribution that psychology has made to our understanding of crime and criminal justice. It explores what psychological theory and research have to tell us about the causes of crime and the ways in which we respond to such behaviour. Particular attention is paid to the development of individual criminality and criminal careers; drug and alcohol related crime; varieties of criminal behaviour including violence, sexual crime and stalking; mental disorder and crime; victims and victimisation; public attitudes towards punishment; public confidence in the criminal justice system; prejudice and discrimination; organisational dynamics and institutional change; offender profiling and criminal investigation; eye witness testimony and legal decision making, rehabilitation and imprisonment.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. There will be a reading week in the MT and LT. In addition one revision class will take place in the ST.

Formative coursework: One essay per term (MT and LT) will be required.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

SA218 Not available in 2017/18

Criminological Perspectives

This information is for the 2017/18 session.

Teacher responsible: Dr Leonidas Cheliotis, OLD M.22

Availability: This course is compulsory on the BSc in Social Policy and Criminal Justice. This course is available on the BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course critically analyses the key features of a broad range of theories developed to explain patterns of social order in society and to illuminate the nature of the ‘crime problem’. It will additionally consider the theories of punishment from the late eighteenth century to the present day.

Teaching: 10 hours of lectures and 9 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures and 1 hour of seminars in the ST.

In Weeks 6 of MT and LT there will be a reading week.

Formative coursework: Two essays will be required. Students will be expected to do the reading associated with the classes and may be asked to give one presentation per term.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

SA219 Comparative and International Social Policy

This information is for the 2017/18 session.

Teacher responsible: Dr Tirno Fleckenstein OLD.2.60

Availability: This course is compulsory on the BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

Pre-requisites: This course is available to students on other degrees who have completed Foundations of Social Policy (SA100).
Course content: The course introduces the comparative method in social policy research as well as the main analytical approaches to understanding social policy developments. It provides an overview of social policies in different areas of the world and enables students to identify global pressures on national policy environments. The course also examines the impact of key international and supranational institutions on social policy-making. It investigates the welfare and work nexus from a comparative perspective.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

Formative coursework: Students are expected to submit one piece of non-assessed written work and are expected to read for and prepare contributions to class discussion each week.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

SA223
Health and Social Care Policy

This information is for the 2017/18 session.

Teacher responsible: Prof Martin Knapp COW 4.03

Availability: This course is available on the BSc in Social Policy, BSc in Social Policy and Criminology, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course covers both the foundations of health and social care policy, and how they impact on our everyday lives. It covers the key policy issues in health and social care faced today in the UK, the USA, and in low- and middle-income countries. Comparative health system performance is also included. In the first term, students will be introduced to the main dimensions of and challenges facing health and social care systems today. These include the concepts of need and demand for health and social care; how to pay for health and social care (the challenges of health insurance, for example); and how to pay providers in ways that incentivise appropriate responses. We will look at health and behaviour (including nudging efforts); models of reform in the delivery of health and social care; and personal responsibility, choice and risk. Inequalities in health and healthcare will be a feature running through many topics.

In the second term, we will move on to look at a number of specific areas. These will include: mental health policy; child protection and health; the successes and challenges associated with ageing populations; pharmaceuticals policy; prevention and public health; and economic evaluation. There will also be a focus on the issues and challenges of health and social care policy in low- and middle-income country contexts.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

Formative coursework: One essay of 1000 words (excluding references).

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

SA224
Not available in 2017/18
Introduction to Global Population Change

This information is for the 2017/18 session.

Teacher responsible: Dr Tiziana Leone OLD2.56

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Environment and Development, BSc in Social Policy, BSc in Social Policy and Criminology, BSc in
Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. This course is also an option for third year students in social policy and outside the department, where regulations permit.

Pre-requisites: As a general introduction to Population Studies, it assumes no previous knowledge of the subject.

Course content: The course is concerned with inter-relationships between the population characteristics of a society (fertility, mortality and migration) and their economic and social context. Both the causes of population change and their consequences are examined. The approach of the course is comparative across time and space: it covers population issues across the developed and developing world, and examines trends over time in both regions. The course will address key global debates which include: is population growth sustainable; what is the relationship between population size and available resources; what are the social, biological and economic influences on population growth rates, especially the role of famine, disease and war. What role have family planning programmes in decreasing population size; is ageing a threat. A wide range of topics is covered, including the demographic and health transitions; HIV/AIDS; fertility decline; the changing characteristics of the family; global trends in population ageing and their social and economic consequences for the elderly; theories and trends in migration; urbanisation.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour and 30 minutes of lectures and 1 hour of classes in the ST.

Formative coursework: Students are expected to prepare at least one class presentation per term and complete two mock exams (one in each of LT and ST).

Indicative reading: Detailed reading lists are provided at the beginning of each term. Key overview texts include: M Livi-Bacci, A Concise History of World Population; H Jones, Population Geography; E A Wrigley, Population and History; W Lutz, The Future Population of the World.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

SA302 Not available in 2017/18 Assessing Social Progress

This information is for the 2017/18 session.

Teacher responsible: Prof Stephen Jenkins OLD2.29

Availability: This course is available on the BSc in Social Policy, BSc in Social Policy and Criminology, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Demonstrated familiarity with research methods to at least the level of SA201 (Research Methods for Social Policy) or equivalent.

Course content: The course aims to facilitate student understanding of key issues in assessing social progress. ‘Assessing’ is shorthand for developing a critical understanding of the relevant concepts and their policy relevance, practical issues associated with data collection and monitoring, and the policy implications of different findings. ‘Social progress’ is shorthand for ‘are we getting better off’? There are many potential benchmarks that could be used for answering this question: comparisons with the past, with other countries, or with some absolute standards (e.g. meeting some basic needs). And at the personal level, one might compare one’s self relative to other people within your ‘society’. There are multiple domains that are relevant too: ranging from conventional summary measures such as income to life satisfaction and happiness, employment, health, housing and education. Much information about ‘social progress’ already incorporated in official statistics (from national and international agencies), and in more specialist academic analysis. But other interpretations of what social progress exist and are not routinely incorporated in existing monitoring exercises, and some say they should be. The course aims to reflect this diversity – to critically analyse both existing approaches and others that have been proposed. The course starts with relatively conventional approaches to assessment including macroeconomic indicators such as GDP and cross-national comparisons, income and work, and then considers newer approaches and related measures. The course also considers progress in several specific life domains. For each of the topics considered, the course addresses a specific question relating to social progress. In providing answers to the question, the course considers, from a critical perspective, relevant analytical approaches, data sources and empirical findings, and also discusses policy implications.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Formative coursework: Two formative essays (one in MT and one in LT).

Assessment: Exam (75%, duration: 3 hours) in the main exam period.

Essay (25%, 2000 words) in the ST.

SA303 Half Unit Sexuality, Everyday Lives and Social Policy in Developing Countries

This information is for the 2017/18 session.

Teacher responsible: Dr Muzafferettin Seckinelgin OLD 2.57 and Dr Timothy Hildebrandt OLD 2.55

Availability: This course is available on the BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. This course requires a minimum of 12 students in order for the course to run.

Course content: This course aims to analyse and understand the way social policies deploy sexuality categories in regulating everyday life in developing countries, both in its public and private manifestations. Sexuality is a central part of human experience. Institutions created to deal with human life/wellbeing have considered sexuality as one of the reference points from which to regulate social relations. Perceptions on sexuality are formed in the intersection of socio-political, historical processes and everyday practices in particular societies. Particular perceptions of sexuality in turn influence the way people negotiate access to resources to address their well-being. In some central areas of social policy sexuality is used as one of the sorting mechanisms (in addition to gender, race among various other categories) to establish entitlements for resources (social, political and
economic). In this regard social policy is both informed by perceptions on sexuality and in turn social policy acts as a mechanism of social reproduction of these perspectives impacting people’s lives. And while globally high profile cases and rights abuses related to sexuality are important, a narrow global policy focus on these overlooks how more embedded and diverse social policy practices related to sexuality are impacting people’s lives in many developing countries. This course aims to explore sexuality and its importance for social policy for developing countries. It aims to consider social policy and particular interventions in their historical contexts, as a way of unpacking the construction of sexuality in the intersection of colonialism, gender, race, class and international policy frameworks in developing countries. The course also aims to interrogate the relationship between particular social policy prescriptions developed in most industrialized welfare societies and the way some of these are transferred to developing countries. The major concern of the analysis is to bring out the perceptions of sexuality that underwrite these policies and how these interact with existing perceptions of sexualities and their performances (identities, desires and bodily practices) in multiple developing country contexts. These policy areas include, among others, discussions of rights, entitlements, citizenship, same-sex marriage, sexually transmitted disease, HIV/AIDS, family policies, migration/border controls, criminality and employment-related policies.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT. The lectures for this course 10 X 60 min lecture will be joint lectures with MSc students who are taking SA4K2 as an option course. There will be a designated UG seminar for UG students 10 x 60 mins seminars in LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Assessment:** Policy memo (100%).

**SA349**

**Dissertation**

This information is for the 2017/18 session.

**Teacher responsible:** Departmental Tutor, Department of Social Policy.

**Availability:** This course is compulsory on the BSc in Social Policy, BSc in Social Policy and Criminology, and the BSc in Social Policy and Economics. This course is not available as an outside option nor to General Course students.

**Course content:** A dissertation of no more than 8,000 words on a topic to be approved by the candidate’s Academic Advisor. It is designed to allow a detailed and thorough exploration of an area of interest to the student. The dissertation should be on a topic area within the field of the degree programme; it may involve original fieldwork, or the analysis and appraisal of existing literature.

**Teaching:** 6 hours of classes in the MT. 4 hours of classes in the LT.

Students will be allocated an Academic Adviser who will supervise their dissertation.

**Formative coursework:** Students taking this course are required to agree their dissertation title with their Academic Advisor and submit it to the Departmental Tutor no later than Friday 1st December 2017.

**Assessment:** Essay (100%, 8000 words) in the ST. Submission is due on the first week of ST - full deadline details will be confirmed to all candidates. Precise details on format and presentation will be issued by the Department.
SO100
Social Theory
This information is for the 2017/18 session.
Teacher responsible: Prof Chetan Bhatt STC.S107 and Dr Monika Krause STC.S114
Availability: This course is compulsory on the BSc in Sociology. This course is available on the BSc in International Relations, BSc in Politics and International Relations and BSc in Social Policy and Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: The course aims to introduce students to sociological theory by examining the work and ideas of normally eight key thinkers in social thought. For each thinker, the course will provide an overview of their contribution to the discipline of sociology, examine in detail one or more of their important texts, and also consider how their analysis could be applied to contemporary social issues.
Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.
Reading weeks: week 6 MT and week 6 LT.
Formative coursework: Four 2,000 word formative essays or their equivalent (two in MT; two in LT), for feedback from class teachers.
Indicative reading: A detailed reading list will be available at the first lecture, but for general preparatory reading, students might wish to consult the following: D Lee & H Newby, The Problem of Sociology; Z Bauman, Thinking Sociologically; S Bruce, Sociology: A Very Short Introduction.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.
Attendance at all classes and submission of all set coursework is required.

SO102
Statistics in Society
This information is for the 2017/18 session.
Teacher responsible: Professor Fran Tonkiss STC.S205
Availability: This course is compulsory on the BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: This course explores how numbers are deployed in social settings, and how they are used in sociology to construct and challenge our understanding of the social world. The first part of the course (taught by Fabien ACCOMINITI) introduces students to the importance of quantification in modern societies, familiarizes them with the main instruments for the collection of quantitative data, and provides them with an overview of the methods used to treat such data in contemporary sociology. We cover both descriptive and explanatory methods, and we reflect on the vision of the social world implicitly associated with each of the methods we encounter. In the second part (taught by Jouni KUHA) students start learning basic descriptive skills of quantitative data analysis, notably how to download large data sets, how to manipulate variables and carry out descriptive statistical analyses with statistical software Stata, and how to present statistical information in tabular and graphical form.
Teaching: 10 hours of lectures, 5 hours of seminars and 10 hours of classes in the MT. 10 hours of lectures, 5 hours of seminars and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.
Reading weeks: week 6 MT and week 6 LT.
Formative coursework: One 2000 word essay asking students to reflect on the changing use of quantitative data in social scientific research.
Two practical exercises demonstrating basic knowledge of data processing and descriptive statistical analysis using statistical software.
Assessment: Exam (50%, duration: 3 hours) in the main exam period.
Essay (50%, 3000 words) in the ST.
Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO110
Power, Inequality, and Difference: Contemporary Themes in Sociology
This information is for the 2017/18 session.
Teacher responsible: Professor Fran Tonkiss STC.S205
Availability: This course is compulsory on the BSc in Sociology. This course is available on the BSc in Social Policy and BSc in Social Policy and Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Course content: The course provides an introduction to critical areas of theory and analysis in contemporary sociology. Students will gain an understanding of leading-edge research and debates within the discipline, and of how sociology engages with key real-world problems. The sociological issues covered in the course centre on the ways in which power relations, social and economic inequalities, forms of identity and difference are shaped in contemporary societies – focusing on both formal political and socio-economic structures and everyday experiences and identities. These issues include: class, capitals and social mobility; race, ethnicity and multi-culturalism; politics and the nation-state, social movements and social conflict; gender, sexuality and the body.
Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 4 hours of classes in the ST.
Reading weeks: week 6 (MT) and week 6 (LT)
Formative coursework: Two formative essays in MT, one formative essay in LT.
Assessment: Exam (70%, duration: 3 hours) in the main exam period.
Essay (30%, 3000 words) in the ST.
Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Tuesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all classes is required and submission of all set coursework is compulsory.

SO201
Key Issues in Sociological Analysis

This information is for the 2017/18 session.

Teacher responsible: Dr Rebecca Elliott STC S211

Availability: This course is compulsory on the BSc in Social Policy and Sociology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course engages key sociological issues through the critical reading of theoretically informed empirical research studies. The course examines the connections between theoretical arguments and the practice of social enquiry and analysis. The course is comprised of four blocks, each focused on a topic (e.g. culture, religion, bodies, migration, nature, economy, cities) and taught by a member of the LSE sociology faculty. Students will read a combination of foundational social theory texts and contemporary research studies.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. Reading weeks: week 6 MT and week 6 LT.

Formative coursework: One coursework submission each term is a course requirement.

Indicative reading: There is no set textbook for this course - each week’s teaching is based on the critical reading of key texts.

Assessment: Exam (50%, duration: 3 hours) in the main exam period.

Essay (50%, 3500 words) in the LT.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the submission day. The essay is due by the fourth Thursday of Lent Term. An additional copy of the essay is to be uploaded to Moodle no later than 18:00 on the same day it is due.

Attendance at all classes and submission of all set coursework is required.

SO208
Gender and Society

This information is for the 2017/18 session.

Teacher responsible: Dr Martina Klett Davies STC S105

Availability: This course is available on the BSc in Management, BSc in Social Policy and Sociology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course will explore the meaning of gender in contemporary society. It considers gendered relations of power and the articulation of gender with other kinds of social difference such as ‘race’, class and sexuality. A variety of theoretical perspectives will be applied to a number of substantive issues of contemporary concern.

Indicative topics are: gender and sexuality; the body; families; employment; violence; nation and citizenship; multiculturalism; reproductive technologies; globalisation; sex work; representation; body modification.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 4 hours of classes in the ST. Reading weeks: week 6 MT and week 6 LT.

Formative coursework: Students will be expected to prepare one essay per term and at least one class paper per term which will be written up and handed to the class teacher.

SO210
Crime, Deviance and Control

This information is for the 2017/18 session.

Teacher responsible: Dr Janet Foster

Availability: This course is available on the BSc in Social Policy and Sociology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course encourages students to think about and debate some of the major issues in Criminology. We explore the social construction of crime and deviance, the different sources of information about them; key factors that shape patterns, perspectives and experiences of crime and deviance, including social class, gender, ethnicity and the media; and different Criminological theories that have been used to explain crime and deviance. We also explore elements of social control including policing and prisons.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 13 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

All students are timetabled so that they are able to attend a 1 hour lecture in MT and LT and 1 hour weekly seminars in MT and LT.

Formative coursework: Students are required to complete two formative essays – one in MT and one in LT.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

Attendance at all classes and submission of all set coursework is required.

SO221
Researching London: Methods for Social Research

This information is for the 2017/18 session.

Teacher responsible: Dr Ioanna Gouseti STC.S105a

Availability: This course is compulsory on the BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course will provide students with a first understanding of research design issues and a dynamic introduction to research methods through practical exercises in the context of London’s social life. By the end of the course students will:
- Have engaged with practical research strategies and methods including the design of questionnaires, conducting qualitative interviews, ethnographic observation, and documentary and web based sources in the context of London.
- Have a sense of the urban sociology of London and a first-hand experience of its potential for exploring contemporary social issues.
- Be able to analyse different kinds of data, using quantitative methods, grounded theory, and visual analysis.
- Be able to assess the different methodological strategies employed on the basis of measurement concepts such as reliability, validity and generalizability.
- Understand the ethical issues involved in social research.
- Have developed a research proposal which will inform and strengthen their dissertation design.

Teaching: 25 hours of workshops in the MT. 25 hours of workshops in the LT.

Reading weeks: week 6 MT and week 6 LT.

Formative coursework: There are two pieces of formative assessment which will be marked and on which you will get feedback in the Michaelmas Term (MT).

Assessment: Essay (20%, 1,500 words) and presentation (30%) in the LT.

Research proposal (50%) in the ST.

Two hard copies of each assessment, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the submission day. The first assessment, a qualitative interview transcript and 1,500 word essay (20%), is due by the first Thursday of Lent Term. The second assessment, a group presentation (15 slides maximum) based on the agreed group survey (30%), will be carried out in Lent Term. Each group presentation will be marked in class by both the course convenor and the group GTAs, who will then discuss and moderate marks after all the group presentations took place. Marks will take into account the work done by each group in the previous six weeks (questionnaire design, survey data collection and data analysis) as well as the clarity of the presentation itself. The third assessment, a 2,000 word research proposal (50%), is due by the second Thursday of Summer Term. An additional copy of each essay is to be uploaded to Moodle no later than 18:00 on the same day each assessment is due. Attendance at all workshops and submission of all set coursework is required.

SO224
The Sociology of Race and Ethnicity

This information is for the 2017/18 session.

Teacher responsible: Dr Antonia Dawes STC.S218

Availability: This course is available on the BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Optional Course for BSc Sociology for 2nd and 3rd years and the Diploma in Sociology.

Course content: The course provides an introduction to theoretical, historical and contemporary debates around race, racism and ethnicity. It firstly explores the main theoretical perspectives which have been used to analyse racial and ethnic relations, in a historical and contemporary framework. It then examines in more detail the areas both theoretical and lived within our contemporary social and political climate where analyses of ‘race’, racism, culture, belonging and identity are urgently needed, focusing primarily on Britain, Europe and the US. Topics include:
race and ethnicity in historical perspective, race, class and gender multiculturalism; diaspora and hybridity; whiteness; mixed race; race; disease and contamination; race and the senses; race and popular culture; urban multicultural and the street; race, riots and youth culture; community cohesion; Muslim identities; asylum and new migrations; the Far Right and the white working class.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

Reading weeks: week 6 (MT) and week 6 (LT)

**Formative coursework:** Reading logs in addition to formative essay.

**Assessment:** Exam (30%, duration: 2 hours) in the main exam period.

Essay (45%, 2000 words) in the ST. Other (25%) in the LT.

Two hard copies of each assessment of 2000 words, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the submission day. The first assessed literature review is due on the first Thursday of Lent term and the second assessed essay is due by the third Thursday of Summer Term. An additional copy of each assessment is to be uploaded to Moodle no later than 18:00 on the same day each essay is due.

Attendance at all classes and submission of all set coursework is required.

---

**SO230** Not available in 2017/18

Digital Technology, Speed and Culture

This information is for the 2017/18 session.

**Teacher responsible:** Prof Judy Wajcman S203

**Availability:** This course is available on the BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This course aims to give students a detailed understanding of sociologically informed approaches to the social studies of science and technology. It will consider how macro theories of post-industrial society (from Bell to Castells) have conceptualised the role of technology in social change. It will then look at the development of STS as a field that highlights the constitutive role of objects and artefacts in social relations. In other words, it will reflect upon sociology’s traditional neglect of the social life of things or materiality. These broad themes will then be elaborated substantively. First, by considering the role of technology in reconfiguring time, speed, space and mobility. Second, by considering power relations and social inequalities embedded in digital technologies, such as the Internet and mobile phones. Third, by treating technology as a culture that shapes gender identities, such as those that first expression in the virtuality of cyberspace. The course will draw on examples from a variety of domains including information and communication technologies, robotics, cyborgs, sex, and weapons.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

**Formative coursework:** Students will be expected to produce one essay per term of 1500 – 2000 words and at least one presentation per term.

**Assessment:** Exam (70%, duration: 3 hours) in the main exam period.

Essay (30%, 2000 words) in the ST. Attendance at all classes and submission of all set coursework is required.

Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO231** Half Unit

Knowledge, Power, and Social Change

This information is for the 2017/18 session.

**Teacher responsible:** Dr Leon Wansleben STC208

**Availability:** This course is available on the BSc in Social Policy and Sociology and BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The aims of the course are threefold: First, the course will provide an introduction to how key sociological theories reflect upon the nature of knowledge in society, it will thereby strongly connect to other theory courses. Second, the course will explore knowledge and expertise as critical aspects of contemporary society, which contribute to the reproduction, as well as alteration, of social inequalities and relationships of power. Third, the course will provide a forum for thinking about our own roles, as sociologists, outside the university.

By the end of the course, students will feel capable of questioning the ‘taken-for-grantedness’ of authoritative knowledge and to critically analyse how social actors make knowledge claims. Second, students will be able to examine, evaluate, both in written and oral form, theories and debates within the sociological discourse on knowledge. Thirdly, students will be able to explore knowledge production and dissemination in contemporary society and develop corresponding sociological research projects (case studies) related these issues.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 case study and 1 essay in the MT.

Assessment: Essay (100%, 3000 words) in the LT.
Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Tuesday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO232 Half Unit
Sociology of Health and Illness

This information is for the 2017/18 session.

Teacher responsible: Dr Carrie Friese STC S213

Availability: This course is available on the BSc in Sociology.

This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: No specific pre-requisites, but this course is only open to second and third year students in Sociology and other programmes. It is not available as a first year option.

Course content: Sociology of Health and Illness explores the ways in which experiences of health and illness are socially organized. We will also ask how the management of health and illness organizes social life. To explore experiences of health and illness, we will look at how specific ‘medical disorders’ (e.g., ageing, cancer, Alzheimer’s disease, asthma, chronic fatigue syndrome, childbearing, menopause, etc.) are ‘embodied’ in socially patterned ways. Empirical studies of specific disorders will be read, in conjunction with analysis of other kinds of texts (e.g., popular writing, film, performance art, museum exhibits, etc.). To address how the management of health and illness organizes social life and vice versa, key theories in the sociology of health and illness will be explored. This will include Parsons’s sick role; Weberian and feminist understandings of professional dominance; medicalization, demedicalization and biomedicalization; and Foucaultian notions of surveillance, biopolitics and governmentality.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. Teaching will comprise of a one hour lecture and one hour class each week. A revision session will be held to prepare students for the unseen examination. Students on this course will have a reading week during Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

The assessed examination is supported by ONE take home, mock examination that is formative. Participation is supported by student’s first making ONE comment on the Moodle discussion board in Weeks 2-3 and responding to another student’s comment from Weeks 4-5.

Assessment: In class assessment (20%) in the LT.
Take home exam (80%) in the ST.

Weight 80%
Type –seen take-home exam where 3 questions need to be answered from 6 questions
Number of words: No more than 1,300 words per answer, and 3,600 words in total
Timing of submission: First Monday of Summer Term
AND

Weight 20%

SO233 Half Unit
Reactionary Radicalism: Populism and Authoritarianism in the 21st Century

This information is for the 2017/18 session.

Teacher responsible: Dr Michael McQuarrie STC S217a

Availability: This course is available on the BSc in Social Policy and Sociology and BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: No specific pre-requisites, but this course is only open to second and third year students in Sociology and other programmes. It is not available as a first year option.

Course content: This half-unit course will take up the emergence of a new brand of populist politics. The course will examine the link between political economic, demographic, and cultural changes and the rise of new varieties of ethnonationalist and anti-systemic populism. It will examine the nature of populism, why it is a prevalent language of political mobilization, and its limitations as a political project. The course will examine the relationship between populism and authoritarianism, populism and racism, populism and classism, populism and technocracy, and populism and neoliberalism. This discussion will be undertaken in the context of an overarching theme of the relationship between new varieties of populism and the economic geography and social structure of neoliberalism with an emphasis on the link between socio-economic transformation and political mobilization. Finally, the course will take up the issue of populism and its relationship to intellectuals and academics with a focus on the problems this creates for research.

Teaching: 25 hours of workshops in the LT.

Course Outline
1. Introduction: what is populism and why has it emerged as such a powerful political force in the early 21st century?
2. Who are the Populists? Voting patterns in the US, France, and Britain and the new economic geography of neoliberalism.
3. Inequality and Politics: The founding problem of capitalist democracies: integration without equality. The various institutional and ideological efforts to cope with this problem. We will focus on the technocratic welfare state, racism, populism, and fascism.
4. The included and the excluded: this class will juxtapose the neoliberal and welfare state eras with particular attention to the shifting logic for valorizing people and places.
5. Race, prejudice, and populism: here we take up the issue of race and difference directly. In general we will assess the hypothesis that populism is actually a new expression of racism in response to the emergence of immigration or the emergence of a more multicultural society.
6. The authoritarian personality: this class will focus on the Frankfurt School hypothesis, trends in authoritarian attitudes, and possible explanations for those trends.
7. From political moderation to political extremism: Here we return to some issues of conceptualization in understanding political motivation and political action with a particular interest in the limits and advantages of a rationalist framework. We examine the question of whether the emergence of extremist politics is because people were extremist all along or because circumstances have made extremist politics more attractive.
8. The Political Economy of Despair: This class will focus on changes in 21st century political economies and the institutional mechanisms that are designed to cope with the negative effects of those changes.
9. Parties and Populism: Here we take up the issue of established political parties and their response with a particular focus on their inability to police the boundaries of electoral politics.
10. The Rust Belt Revolt and its Challenge: This class will focus on the economic geography of the populist revolt but with a particular focus on its timing and its racially specific composition. We will then turn to contemporary debates about strategies for dealing with it on both the Right and the Left.

**Formative coursework:** Students are expected to read, and prepare in advance, for each of the workshops and to be working on their summative assignments over the course of the term.

**Assessment:** Essay (60%, 2500 words) in the ST. Other (20%) and other (20%) in the LT.

The essay (2,000-2,500 words) (60%) is to be submitted at the beginning of ST.

The other assessments are: 1) A presentation or poster (20%) to be completed over the course of the term, and 2) Essay outline, annotated bibliography, and thesis statement due at the end of LT (20%).

Assessed essay due Wednesday of Week 2 in ST. Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the day of submission. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO302**

**The Sociological Dissertation**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Fran Tonkiss STC S205

**Availability:** This course is compulsory on the BSc in Sociology. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students undertaking this course need to have completed the first two years of the BSc in Sociology.

**Course content:** The dissertation takes the form of an independent and extended research project of 10,000 words on a sociological topic of the students' choosing, subject to approval by the Department of Sociology. The topic should be chosen from any area within the discipline of sociology, preferably from an area covered by the BSc in Sociology. The process generally includes reviewing the literature in the chosen area, formulating a viable and sociologically-relevant research problem, collecting and analysing primary and/or secondary data (such as a case study, data set, fieldwork observation, survey results or interviews), and drafting the findings of their investigation into a research project.

Students' work on the dissertation is supervised in small-group and individual tutorials with their Academic Advisor over MT and LT. The Dissertation process is supported by a series of compulsory workshops in the MT and LT which focus on research project design. The workshops cover topics such as identifying a sociological problem for investigation, constructing a bibliography, research ethics, research access, data collection, data analysis, writing up and trouble-shooting.

**Teaching:** 7 hours and 30 minutes of seminars in the MT. 7 hours and 30 minutes of seminars in the LT.

Seminars will be structured as follows: 5 x 1.5 hour seminars in the MT. 5 x 1.5-hour seminars in the LT.

In addition, 5 x 1.5-hour small-group tutorials with Academic Advisors in MT. 2 x individual supervisions with Academic Advisors plus drop-in sessions in LT.

Academic Advisors can be expected to offer advice on preliminary reading, research design, data collection and analysis, and on organisation of the dissertation. They can also read and comment on an outline of the dissertation, or on one draft chapter. Academic Advisors are not permitted to read or comment on a final draft of the whole dissertation or any part of it.

**Formative coursework:** One piece of formative coursework in the MT.

**Assessment:** Research proposal (10%) in the MT. Research project (90%) in the ST.

**Assessment Particulars:**

Two hard copies of the 10,000 word dissertation must be submitted to the Sociology Administration Office, Room S116, by 4.30pm on the second Thursday of ST, with a third copy posted to Moodle by 18:00 on the same day. Accidental loss of data or text on a computer will not be accepted as a reason for non-submission.
SO308  
**Personal Life, Intimacy and the Family**  
This information is for the 2017/18 session.  
**Teacher responsible:** Dr Ursula Henz  
**STC S100B**  
**Availability:** This course is available on the BSc in Sociology.  
This course is available as an outside option to students on other programmes where regulations permit and to General Course students.  
**Course content:** The course provides an overview over the area of family sociology, drawing predominantly on literature about Britain and other Western societies. The course focuses on recent and ongoing transformations of family structure, family relationships and family life. Throughout the course various theoretical approaches will be considered. Issues related to gender, ethnicity and migration will be cross-cutting themes of the course. Indicative topics are: family structures and family relationships; childhood, adolescence, partnership formation, marriage, childlessness, motherhood, fatherhood, parenting, divorce, post-divorce families, family and work, family and education.  
**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.  
**Reading weeks:** week 6 MT and week 6 LT.  
**Formative coursework:** At least one class presentation and two formative essays (1,500 words each).  
**Indicative reading:**  
**Assessment:** Essay (40%, 2500 words) in the ST. Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Tuesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.  

SO309  
**Half Unit**  
**Atrocity and Justice**  
This information is for the 2017/18 session.  
**Teacher responsible:** Dr Claire Moon  
**STC S109**  
**Availability:** This course is available on the BSc in Social Policy and Sociology and BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students. Sociology students will be given priority.  
**Pre-requisites:** No specific pre-requisites, but this is open only to 2nd and 3rd year students in Sociology and other programmes. It is not available as a 1st year option.  
**Course content:** The course will cover a number of issues relevant to the study of atrocity and justice for atrocity. It looks at the social construction of atrocities, the Genocide Convention, structural approaches to understanding genocide (modernity, democracy and colonial rule), the perpetrators, victims and witnesses of atrocity, the problem of denial of state crimes, historical injustices in Austria, Canada and the US, forensic investigations of atrocity, retributive and restorative approaches to justice for atrocity, truth commissions and war crimes tribunals.  
**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.  
**Formative coursework:** Formative assessment will be as follows:  
1. Class presentation: students will conduct one class presentation and will receive detailed feedback which will focus on points for improvement for the assessed components;  
2. Practice essay: students will carry out one practice essay during week 6 (reading week) of the LT. They will receive detailed feedback for this in preparation for the summative assessments.  
**Assessment:** Exam (60%, duration: 2 hours) in the main exam period.  
Essay (40%, 2500 words) in the ST. Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Tuesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.  

SO310  
**Half Unit**  
**Not available in 2017/18**  
**The Sociology of Elites**  
This information is for the 2017/18 session.  
**Teacher responsible:** Prof Michael Savage  
**STC S210**  
**Availability:** This course is available on the BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.  
**Pre-requisites:** No specific pre-requisites, but this is only open to 3rd year students in Sociology and other programmes. It is not available as a 1st or 2nd year option.  
**Course content:** In the early 21st century, there is a new fascination with the super-rich, the 1%, the ‘elites’. This course therefore aims to expose students to the challenges and excitements of studying this small but very significant social class, using cutting edge research on recent trends as well as important older studies.  
**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.  
**Reading weeks:** Week 6 Lent Term.  
**Formative coursework:** Students will be expected to produce 1 essay in the LT.  
**Assessment:** Formative assessment will be through a 2000 word essay to be handed in on the Monday of Week 7, directly after Reading Week. Students will also be asked to give presentations in seminars, and informal feedback will be given on these.  
Assessment: Exam (100%, duration: 3 hours) in the main exam period.

SO311 Half Unit
Law and Violence

This information is for the 2017/18 session.
Teacher responsible: Dr Ayca Cubukcu STC.S113
Availability: This course is available on the BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. This course is available to students in Year 3 only.
Pre-requisites: N/A
Course content: Law and Violence is an intensive introduction to key theoretical texts that can inform a nuanced understanding of the controversial yet crucial nexus between law and violence. What is the relationship between law and violence? Are they mutually exclusive forms of human action? Is it a paradox that law employs violence in claiming to prevent or circumscribe the latter? Is it a contradiction that violence is often the means to establish or change the law? We will consider these questions within historical contexts of the nation-state and the global legal order. The case of refugees—often caught "outside" the law—will also be considered.
Teaching: 20 hours of seminars in the MT.
This course requires the practice of close reading. We will not read in large quantities. However, students are expected to engage with the assigned texts deeply, paying special attention to the presuppositions of the authors and the structures of their argumentation, identifying the weaknesses and the strengths of their theoretical constructions. By the end of the course, students are expected to make the texts speak with and against each other. Students in this course will have a reading week in week 6.
Formative coursework: Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.
Essay abstract (max 800 words) to be submitted in class in week 7. Students will get detailed feedback on their abstracts.
Assessment: Essay (75%, 3000 words) in the LT. Class Presentation (10%) and Online Blog (15%) in the MT.
Assessed essay due Wednesday of Week 1 in LT. Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the day of submission. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO312 Half Unit
Work, Inequality and Society

This information is for the 2017/18 session.
Teacher responsible: Dr Patrick McGovern STC.S313
Availability: This course is available on the BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.
Pre-requisites: No specific pre-requisites, but this course is only open to 2nd and 3rd year students in Sociology and other programmes. It is not available as a 1st year option.
Course content: Sociological perspectives on cross-national differences in employment and social inequality. Theoretical perspectives on inequality; gender in the labour market; occupational segregation; the ‘glass ceiling’; immigrant employment; race, ethnicity and discrimination; social class at work; class reproduction in elite firms; the rise of wage inequality; and income inequality in the mass media.
Teaching: 10 hours of lectures and 10 hours of classes in the MT.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: 1,500 word essay due in Week 8 of MT.
Further reading will be detailed in the course syllabus.
Assessment: Essay (75%, 3000 words) in the LT.
Class Presentation (10%) and Online Blog (15%) in the MT.
Assessed essay due Wednesday of Week 1 in LT. Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the day of submission. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO313 Half Unit
Material Culture and Everyday Life

This information is for the 2017/18 session.
Teacher responsible: Don Slater S310
Availability: This course is available on the BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.
Pre-requisites: No specific pre-requisites, but this course is only open to second and third year students on the BSc in Sociology, and as an outside option for students in other departments.
Course content: The course focuses on how ‘things’ enter into and mediate everyday social relations and practices. Students will consider all aspects of the social life of things, from design and production through use, consumption and everyday practices. This will allow them to address a range of long-standing theoretical and political concerns within sociology such as the role of objects and materiality in social life; social organizations of objects and exchange, such as consumer culture; design, technology and innovation; and the socio-political status of ‘everyday life’ itself. At the same time, there will be a strong methodological emphasis: not just how do we study objects in everyday life, but how might such studies impact on social research more generally.
The course will rely heavily on case studies. After mapping out central traditions in material culture studies, the course will focus on 2-3 strategically chosen objects to explore analytical and methodological issues (eg, mobile phones, water, bicycles, food, supermarkets, etc). Cross-cultural differences will be raised throughout but at least one of the cases will be predominantly focused on major global difference.
Teaching: 10 hours of lectures and 10 hours of classes in the LT.
Students on this course will have a reading week in Week 6, in line with departmental policy.
with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

1,500 word essay, due after reading week, in which students are asked to analyse an object from the standpoint of one of the theoretical perspectives introduced in the course. They will additionally submit a short research outline (probably 1-2 A4 sides) on which they can base their work towards the summative assessment.

**Assessment:** Other (100%) in the ST.

3,000 word research report (100%, due in ST) on an object of the student's choosing in which they are asked to address a clear list of considerations such as design, material properties, social practices and uses, methodological questions and so on.

Two hard copies of the research report, with submission sheets attached to each, to be submitted to the Administration Office, STC S116, no later than 16:30 on the first Thursday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

### ST102

**Elementary Statistical Theory**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr James Abdey COL.7.09

**Availability:** This course is compulsory on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available on the BSc in Accounting and Finance, BSc in Philosophy and Economics and BSc in Philosophy, Politics and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with ST107 Quantitative Methods (Statistics) or ST108 Statistical Methods for the Social Sciences.

**Pre-requisites:** A-level Mathematics.

No previous knowledge of statistics is assumed.

**Course content:** The course provides a precise and accurate treatment of introductory probability theory, statistical ideas, methods and techniques. Students will also be exposed to the Minitab statistical package. Topics covered are data visualisation and descriptive statistics, probability theory, random variables, common distributions of random variables, multivariate random variables, sampling distributions of statistics, point estimation, interval estimation, hypothesis testing, analysis of variance (ANOVA), linear regression, nonparametric tests, goodness-of-fit and independence tests.

**Teaching:** 22 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Students will finish off new material or revise in week 11.

**Formative coursework:** Weekly exercises will be set and students are expected to submit solutions to their class teacher each week for feedback.

### ST107

**Half Unit**

**Quantitative Methods (Statistics)**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr James Abdey COL.7.09

**Availability:** This course is compulsory on the BSc in Social Policy and Economics. This course is available on the BSc in Accounting and Finance, BSc in Environmental Policy with Economics, BSc in Geography with Economics, BSc in Government and Economics, BSc in Management, BSc in Philosophy and Economics and BSc in Philosophy, Politics and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with ST102 Elementary Statistical Theory or ST108 Statistical Methods for the Social Sciences.

**Pre-requisites:** A-level Mathematics.

**Course content:** The elementary statistical tools necessary for further study in management and economics with an emphasis on the applicability of the methods to management and economic problems. Topics covered are data visualisation and descriptive statistics, probability theory, discrete probability distributions, continuous probability distributions, sampling distributions of statistics, point estimation, interval estimation, hypothesis testing, contingency tables and the chi-squared test, correlation and linear regression.

**Teaching:** 22 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Students will finish off new material or revise in week 11.

**Formative coursework:** Weekly exercises will be set and students are expected to submit solutions to their class teacher each week for feedback.

**Indicative reading:** All course materials are made available via Moodle, including notes to accompany the lectures, but this can be supplemented with additional background reading. The recommended supplementary text is: Larsen R.J. and M.L. Marx (2011) *An Introduction to Mathematical Statistics and Its Applications* (fifth edition), Prentice-Hall (earlier editions are also fine).

**Assessment:** Exam (75%, duration: 3 hours) in the main exam period. Exam (25%, duration: 1 hour, reading time: 10 minutes) in the LT week 0.

### ST108

**Statistical Methods for the Social Sciences**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Nicholas Cron COL.2.04 and Dr Wicher Bergsma COL.6.06

**Availability:** This course is available on the BSc in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

The course is designed for students without a strong background in Mathematics, e.g. without A level Mathematics, and is suitable for students who wish to learn basic statistical methods for analysing social science data. This course cannot be taken with ST102 Elementary Statistical Theory or ST107 Quantitative...
Methods (Statistics).

**Pre-requisites:** A grade B in GCSE Mathematics or equivalent. No background in statistics is required.

**Course content:** A basic foundation in elementary statistical methods; theory and statistical reasoning. Basic use of computers to analyse data. Probability, random variable theory and distributions. Normal distribution, sampling concepts and sampling distributions. Estimation, significance tests and confidence intervals, one and two-sample methods. Test for proportions, simple contingency tables. Linear regression, correlation. Basic decision theory.

**Teaching:** 14 hours of lectures, 8 hours of classes and 2 hours of computer workshops in the MT. 20 hours of lectures, 10 hours of classes and 2 hours of computer workshops in the LT. 3 hours of lectures and 3 hours of classes in the ST.

Students will have a two hour computer workshop in week 6 of MT, and a further two hour computer workshop in week 9 of LT.

**Indicative reading:** Notes will be provided and form the basic reading material. Pointers will be given to further reading.

**Assessment:** Exam (80%, duration: 3 hours) in the main exam period. Continuous assessment (20%) in the MT and LT. At least a pass mark is required for both assessment components (i.e., the exam and the continuous assessment).

---

### ST201 Half Unit

#### Statistical Models and Data Analysis

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Nicholas Cron (COL2.04)

**Availability:** This course is available on the BSc in Accounting and Finance and BSc in Management. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. Also available to students who have studied statistics and mathematics to the level of MA107/ST107 Quantitative Methods or ST108 Statistical Methods for the Social Sciences.

**Course content:** A second course in statistics with an emphasis on problems of practical importance and statistical analysis using computers. Principles of modelling: data preparation, mathematical and statistical models, linear and non-linear models. Simple linear regression. Multiple regression: assumptions, transformations, diagnostics, model selection. Logistic regression: odds ratios and likelihood. The course will conclude with a brief introduction to time series.

**Teaching:** 20 hours of lectures and 16 hours of computer workshops in the LT. 4 hours of lectures in the ST. Students will be given their assessed project to start on in week 6 which is due in at the end of LT.

**Formative coursework:** Moodle quizzes and a quantitative research project.

**Assessment:** Exam (80%, duration: 2 hours) in the main exam period. Coursework (20%) in the LT.

---

### ST202 Half Unit

#### Probability, Distribution Theory and Inference

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Miltiadis Mavrakakis-Vassilakis

**Availability:** This course is compulsory on the BSc in Actuarial Science, BSc in Financial Mathematics and Statistics and BSc in Statistics with Finance. This course is available on the BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Elementary Statistical Theory (ST102) and Mathematical Methods (MA100). Students who have not taken these courses should contact Dr Mavrakakis.

**Course content:** The course covers the probability, distribution theory and statistical inference needed for third year courses in statistics and econometrics.

**Teaching:** 20 hours of lectures, 9 hours of seminars and 10 hours of help sessions in the MT. 20 hours of lectures, 10 hours of seminars and 10 hours of help sessions in the LT. 4 hours of lectures in the ST.

Week 6 in both terms will be used for class tests.

**Formative coursework:** Students will be expected to produce 4 pieces of coursework in the MT and LT.

**Indicative reading:** C C Casella & R L Berger, Statistical Inference (primary reading); R Bartoszynski & M Niewiadomska-Bugaj, Probability and Statistical Inference (stresses comprehension of concepts rather than mathematics, supplementary reading only); J Jacob & P Procter, Probability Essentials (for further reading, a more advanced text on probability, using measure-theoretic concepts and tools, still very accessible).

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.
ST206  Half Unit  Probability and Distribution Theory

This information is for the 2017/18 session.

Teacher responsible: Dr Miltiadis Mavrakakis-Vassilakis

Availability: This course is available on the BSc in Business Mathematics and Statistics. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed Elementary Statistical Theory (ST102) and Mathematical Methods (MA100).

Course content: The course covers the probability and distribution theory needed for third year courses in statistics and econometrics:

Teaching: 20 hours of lectures and 10 hours of seminars in the MT, 2 hours of lectures in the ST.

Formative coursework: Students will be expected to produce 4 pieces of coursework which will consist of written exercises aimed at practising calculations and understanding of theory.

A formative in class exam-style assessment will be done in Week 6.

Indicative reading: G C Casella & R L Berger, Statistical Inference (primary reading); R Bartoszynski & M Niewiadomska-Bugaj, Probability and Statistical Inference (stresses comprehension of concepts rather than mathematics, complimentary reading only); J Jacob & P Proter, Probability Essentials (for further reading, a more advanced text on probability, using measure theoretic concepts and tools, still very accessible).

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

ST211  Half Unit  Applied Regression

This information is for the 2017/18 session.

Teacher responsible: Dr Nicholas Cron (COL2.04)

Availability: This course is compulsory on the BSc in Business Mathematics and Statistics. This course is not available as an outside option to students on other programmes where regulations permit. This course is not available to General Course students. Specifically the course is available to Accounting and Finance students who have taken ST102.

Pre-requisites: ST102

Course content: Tabulation, Graphical representation, Regression, Detection of outliers, Model diagnostics, Analysis of Variance.

Teaching: 10 hours of lectures and 20 hours of lectures in the LT, 2 hours of lectures in the ST.

Students will be given their assessed project to start on in week 6 which is due in at the beginning of ST.

Formative coursework: Regular Moodle quizzes. Regular take home exercises.

Indicative reading:

Assessment: Exam (50%, duration: 2 hours) in the main exam period. Project (50%) in the ST.

ST213  Half Unit  Introduction to Pricing, Hedging and Optimization

This information is for the 2017/18 session.

Teacher responsible: Prof Pauline Barrieu

Availability: This course is available on the BSc in Financial Mathematics and Statistics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Course content: This course introduces the concepts of valuation, hedging and portfolio selection in a discrete-time environment with full technicalities, and then treats continuous-time markets in a slightly more heuristic fashion. It covers the following topics:

- Martingale theory in discrete time.
- The binomial model; pricing and hedging. Trinomial model and incompleteness, arbitrage-free price intervals.
- General discrete-time models and the FTAP.
- Passage to continuous-time Black & Scholes model; formal Itô calculus.
- Option-pricing with PDE methods, the Black & Scholes formula and Greeks; connections with risk-neutral measure, Feynman-Kac.
- Portfolio optimisation (Merton's problem) in the standard Black & Scholes market.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 9 problem sets in the LT.

Indicative reading: Lecture notes will be provided. Stochastic Calculus for Finance I: The Binomial Asset Pricing Model, by Steven Shreve, Springer

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

ST226  Half Unit  Actuarial Investigations: Financial

This information is for the 2017/18 session.

Teacher responsible: Dr Gelly Mitrodima COL7.04

Availability: This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

Course content: The application of compound interest techniques to financial transactions. Describing how to use a generalised cash-flow model to describe financial transactions such as a zero coupon bond, a fixed interest security, an index-linked security, cash on deposit, an equity, an interest only loan, a repayment loan, an annuity certain and others. The time value of money using the concepts of compound interest and discounting. Accumulation of payments and present value of future payments. Expressing interest rates or discount rates in terms of different time periods. Real and money interest rates. The calculation of the present value and the accumulated value of a stream of equal or unequal payments using specified rates of interest and the net present value at a real (possibly variable) rate of interest, assuming a constant rate of inflation. Compound interest rate functions, definitions and use. Equations of value with certain and uncertain payments and receipts; conditions for existence of solution. Describe how a loan may be repaid by regular instalments of interest and capital; flat rates and annual effective rates. Calculation of a schedule of repayments under a
loan and identification of the interest and capital components of annuity payments where the annuity is used to repay a loan for the case where annuity payments are made once per effective time period or p times per effective time period and identify the capital outstanding at any time. Discounted cash flow techniques and their use in investment project appraisal; internal rate of return, discounted payback period, money-weighted rate of return, time-weighted rate of return, linked internal rate of return. The investment and risk characteristics of fixed-interest Government borrowings, fixed-interest borrowing by other bodies, shares and other equity-type finance derivatives. The analysis of compound interest rate problems; the present value of payments from a fixed interest security where the coupon rate is constant and the security is redeemed in one instalment, upper and lower bounds for the present value of a fixed interest security that is redeemable on a single date within a given range at the option of the borrower, the running yield and the redemption yield from a fixed interest security, the present value or yield from an ordinary share and a property, given simple (but not necessarily constant) assumptions about the growth of dividends and rents, the solution of the equation of value for the real rate of interest implied by the equation in the presence of specified inflationary growth, the present value or real yield from an index-linked bond, the price of (or yield from) a fixed interest security where the investor is subject to deduction of income tax on coupon payments and redemption payments are subject to the deduction of capital gains tax.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the MT.

**Formative coursework:** Students will be expected to give written answers to a number of problem sets.

**Indicative reading:** J J McCutcheon & W J Scott, An Introduction to the Mathematics of Finance, Heinemann; Institute of Actuaries, Formulae and Tables for Actuarial Examinations. Core reading notes obtainable from the Institute of Actuaries.

**Assessment:** Exam (100%, duration: 3 hours) in the L T week 0.

---

**ST227  Half Unit**

**Survival Models**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Konstantinos Kardaras COL 6.07

**Availability:** This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics and BSc in Statistics with Finance. 

This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

**Course content:** An introduction to stochastic processes with emphasis on life history analysis and actuarial applications. Principles of modelling; model selection, calibration, and testing. Stochastic processes and their classification into different types by time space, state space, and distributional properties; construction of stochastic processes from finite-dimensional distributions, processes with independent increments, Poisson processes and renewal processes and their applications in general insurance and risk theory, Markov processes, Markov chains and their applications in life insurance and general insurance, extensions to more general intensity-driven processes, counting processes, semi-Markov processes, stationary distributions. Determining transition probabilities and other conditional probabilities and expected values; Integral expressions, Kolmogorov differential equations, numerical solutions, simulation techniques. Survival models - the random life length approach and the Markov chain approach; survival function, conditional survival function, mortality intensity, some commonly used mortality laws. Statistical inference for life history data, Maximum likelihood estimation for parametric models, non-parametric methods (Kaplan-Meier and Nelson-Aalen), regression models for intensities including the semi-parametric Cox model and partial likelihood estimation; Various forms of censoring; The technique of occurrence-exposure rates and analytic graduation; Impact of the censoring scheme on the distribution of the estimators; Confidence regions and hypothesis testing.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the L T. 3 hours of lectures and 1 hour of seminars in the ST.

Students on this course will have a reading week in week 6 where they will be given review exercises to work on based on the first 5 weeks of the course.

**Formative coursework:** Compulsory written answers to two sets of problems.

**Indicative reading:** S Ross, Stochastic Processes; R Norberg, Risk and Stochastics in Life Insurance; The Institute of Actuaries, Core reading Subject CT4. For full details of the syllabus of CT4, see http://stats.lse.ac.uk/angelos/guides/2004_CT4.pdf.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**ST300  Half Unit**

**Regression and Generalised Linear Models**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Xinghao Qiao

**Availability:** This course is compulsory on the BSc in Financial Mathematics and Statistics and BSc in Statistics with Finance.

This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed:

- EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206)
- AND Elementary Statistical Theory (ST102).

**Course content:** A solid coverage of the most important parts of the theory and application of regression models, generalised linear models and the analysis of variance. Analysis of variance models; factors, interactions, confounding. Multiple regression and regression diagnostics. Generalised linear models; the exponential family, the linear predictor, link functions, analysis of deviance, parameter estimation, deviance residuals. Model choice, fitting and validation. The use of a statistics package will be an integral part of the course. The computer workshops revise the theory and show how it can be applied to real datasets.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 9 hours of classes in the LT. 1 hour of lectures in the ST.

Week 6 reading week in MT will be for revision of taught materials, while week 6 reading week in LT will be for your project completion.

**Indicative reading:** D C Montgomery, E A Peck & G G Vining, Introduction to Linear Regression Analysis; D C Montgomery, Design and Analysis of Experiments; A J Dobson, An Introduction to Generalised Linear Models; P McCullagh & J A Nelder, Generalized Linear Models; A C Atkinson, Plots, Transformations and Regression; A C Atkinson & M Riani, Robust Diagnostic Regression Analysis; J J Faraway, Linear Models with R; J J Faraway, Extending the linear Model with R. Related items from the Institute of Actuaries, Core reading Subject CT6. For full details of the syllabus of CT6, see http://stats.lse.ac.uk/angelos/guides/2004_CT6.pdf.

**Assessment:** Exam (85%, duration: 2 hours) in the main exam period.

Project (15%) in the LT.
ST301  Half Unit

Actuarial Mathematics (Life)

This information is for the 2017/18 session.

Teacher responsible: Dr Angelos Dassios COL 6.14

Availability: This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics and BSc in Statistics with Finance. This course is not available as an outside option. This course is available to General Course students.

Pre-requisites: Students must have completed:
EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206)
AND Survival Models (ST227).

Course content: Single life mortality models, assurance and annuity contracts and their actuarial notation, computation of their present values and variances; relations among the present values of the various contracts. The equivalence principle: computation of net premiums for the main assurance policies. Prospective and retrospective reserves, Thiele's differential equation as the main tool for the computation of reserves. Expenses: gross premium and gross reserves. Selection effect and how it affects mortality tables. Multi-life assurance contracts: joint life and last survival life, computation of premiums and reserves for the main two-lives contracts. Multi-states mortality models: basic notions of continuous-time Markov chains, Kolmogorov backward and forward equations, application to multiple decrements and disability models, computation of transition intensities. Thiele differential equation for multi-states models, computation and analysis of reserves for main multi-state policies. With-profit policies, unit-linked assurance policies, pensions. Interplay between assurance and finance: embedded options, market consistent actuarial valuation.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Compulsory written answers to one set of problems.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

ST302  Half Unit

Stochastic Processes

This information is for the 2017/18 session.

Teacher responsible: Dr Umut Cetin COL 6.08

Availability: This course is compulsory on the BSc in Actuarial Science and BSc in Financial Mathematics and Statistics. This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed either Probability, Distribution Theory and Inference (ST202) or Probability and Distribution Theory (ST206).

Course content: A second course in stochastic processes and applications to insurance. Markov chains (discrete and continuous time), processes with jumps; Brownian motion and diffusions; Martingales; stochastic calculus; applications in insurance and finance. Content: Stochastic processes in discrete and continuous time; Markov chains; Markov property, Chapman-Kolmogorov equation, classification of states, stationary distribution, examples of infinite state space; filtrations and conditional expectation; discrete time martingales: martingale property, basic examples, exponential martingales, stopping theorem, applications to random walks; Poisson processes: counting processes, definition as counting process with independent and stationary increments, compensated Poisson process as martingale, distribution of number of events in a given time interval as well as inter-event times, compound Poisson process, application to ruin problem for the classical risk process via Gerber's martingale approach; Markov processes: Kolmogorov equations, solution of those in simple cases, stochastic semigroups, birth and death chains, health/sickness models, stationary distribution; Brownian motion: definition and basic properties, martingales related to Brownian motion, reflection principle, Itô-integral, Itô's formula with simple applications, linear stochastic differential equations for geometric Brownian motion and the Ornstein-Uhlenbeck process, first approach to change of measure techniques, application to Black-Scholes model. The items in the course content that also appear in the content of ST227 are covered here at greater depth. However, ST227 is not a pre-requisite for this course.

Teaching: 20 hours of lectures and 9 hours of seminars in the MT. Week 6 will be a reading week left free for students to revise by themselves.

Formative coursework: Compulsory written answers to two sets of problems.

Indicative reading: T Mikosch, Elementary Stochastic Calculus with Finance in View; Institute of Actuaries core reading notes.

Assessment: Exam (100%, duration: 3 hours) in the LT week 0.

ST303  Half Unit

Stochastic Simulation

This information is for the 2017/18 session.

Teacher responsible: Dr Angelos Dassios COL 6.14

Availability: This course is available on the BSc in Actuarial Science. This course is not available as an outside option nor to General Course students.

As numbers might need to be capped if it proves too popular, students from the Statistics and Mathematics departments should be given priority. Given the prerequisites, it is unlikely we will get many students from other departments anyway.

Pre-requisites: Students must have completed:
EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206)
AND Stochastic Processes (ST302).

While the course ST306 is not a formal pre-requisite some examples from this course will be used. Students that have not taken ST306 might have to do a bit of extra reading to familiarise themselves with them.

Course content: An introduction to using R for stochastic simulation as well as methods of simulating random variables, complicated quantities involving several random variables and paths of stochastic processes. Applications will focus on examples from insurance and finance.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT.

• Introduction to R with an emphasis on stochastic simulation.
• Monte-Carlo integration.
• Generating continuous random variables; inverse distribution function method.
• Generating continuous random variables; acceptance rejection method.
• Generating continuous random variables; sums of random variables.
• Generating continuous random variables; other methods. Normal and Inverse Gaussian distributions.
• Generating discrete random variables.
• Generating the paths of stochastic processes; Insurance loss process; Brownian motion; Ornstein-Uhlenbeck process.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Compulsory written answers to one set of problems.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.
• Various applications in insurance and finance.
• There will be a Q&A session on practical issues in week 11.

**Formative coursework:** Weekly exercises usually involving computing.

**Indicative reading:**
- Useful reading:
  - Asmussen
  - Glasserman

**Assessment:**
- Exam (50%, duration: 2 hours) in the main exam period.
- Project (25%) in the LT.
- Project (25%) in the ST.

---

**ST304 Half Unit**

**Time Series and Forecasting**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Matteo Barigozzi COL 7.11

**Availability:** This course is compulsory on the BSc in Actuarial Science and BSc in Statistics with Finance. This course is available on the BSc in Business Mathematics and Statistics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** 2nd year statistics and probability

**Course content:** The course introduces the student to the statistical analysis of time series data and simple models. What time series analysis can be useful for; autocorrelation; stationarity, trend removal and seasonal adjustment, basic time series models; AR, MA, ARMA; invertibility; spectral analysis; estimation; forecasting; introduction to financial time series and the GARCH models; unit root processes.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in week 6.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:**

**Assessment:**
- Exam (100%, duration: 2 hours) in the main exam period.

---

**ST306 Half Unit**

**Actuarial Mathematics (General)**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Luciano Campi

**Availability:** This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Probability, Distribution Theory and Inference (ST202) and Stochastic Processes (ST302).

**Course content:** An introduction to actuarial work in non-life insurance. Decision theory concepts: game theory, optimum strategies, decision functions, risk functions, the minimax criterion and the Bayes criterion. Loss distributions with and without limits and risk-sharing arrangements; suitable, moments and moment generating functions, the gamma, exponential, Pareto, generalised Pareto, normal, lognormal, Weibull, Burr and other distributions suitable for modelling individual and aggregate losses; statistical inference. Risk models involving frequency and severity distributions; the basic short-term contracts, moments, moment generating functions and other properties of compound distributions. Reinsurance treaties; proportional, excess of loss, stop-loss, deriving the distribution, moments, moment generating functions and other properties of the losses to the insurer and reinsurer under all the models above. Ruin theory for continuous and discrete models. Fundamental concepts of Bayesian statistics; Bayes theorem, prior distributions, posterior distributions, conjugate prior distributions, loss functions, Bayesian estimators. Credibility theory; Bayesian models. Experience rating models and applications. Claims resolving: run-off triangles. Monte-Carlo simulation and applications in insurance.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

There will be a reading week and a take home mock exam in week 6.

**Formative coursework:** Compulsory written answers to one set of problems. There will also be a mock exam during week 6.

**Indicative reading:** Notes are given out in the lectures. The Institute of Actuaries, Core reading Subject CT6.

For full details of the syllabus of CT6, see:

**Assessment:**
- Exam (100%, duration: 3 hours) in the LT week 0.

---

**ST307 Half Unit**

**Aspects of Market Research**

This information is for the 2017/18 session.

**Teacher responsible:** Dr James Abbe DOL 7.09

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Management and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Probability and statistics to the level of ST107.

**Course content:** The main ideas and applications of market research techniques. Topics covered are introduction to market research, defining the market research problem, research design, internal secondary data and the use of databases, qualitative research: focus group discussions, projective techniques, survey and quantitative observation techniques, measurement and scaling: fundamentals, comparative and non-comparative scaling, questionnaire design, sampling: design and procedures, final and initial sample size determination, cross-tabulation and hypothesis testing, analysis of variance and covariance, correlation and regression, and discriminant analysis.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT.

1 hour of classes in the ST.

Lectures will run in weeks 1-10 and classes in weeks 2-11.

**Formative coursework:** Students are given weekly exercises to work on for discussion in class.

**Indicative reading:**

**Assessment:**
- Exam (100%, duration: 2 hours) in the main exam period.

---

**ST308 Half Unit**

**Bayesian Inference**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Wai-Fung Lam COL 6.09

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit
and to General Course students. 

**Pre-requisites:** Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102). ST202 is also recommended.

**Course content:** Statistical decision theory: risk, decision rules, loss and utility functions, Bayesian expected loss, Frequentist risk. Bayesian Analysis: Bayes theorem, prior, posterior and predictive distributions, conjugate models (Normal-Normal, Poisson-Gamma, Beta-Binomial), Bayesian point estimation, credible intervals and hypothesis testing, Bayes factors and model selection. Comparison with Frequentist approaches.

Implementation: Asymptotic approximations (Laplace approximation, Monte Carlo methods, stochastic simulation), Markov Chain Monte Carlo (MCMC) simulation (Gibbs sampler, Metropolis-Hastings algorithm). Computer tools (R, WinBUGS). Illustration via applications in Regression (Linear, ANOVA, Multiple, Generalized Linear Models), Hierarchical/ Multilevel Models and Time Series.

**Teaching:** 20 hours of lectures and 9 hours of computer workshops in the LT. 2 hours of lectures in the ST. There will be no reading week in week 6, but there will be no lectures and classes in week 11.

**Formative coursework:** Optional problem sets and computer exercises.

**Indicative reading:**

**Assessment:**
- Exam (80%, duration: 2 hours) in the main exam period.
- Project (20%) in the ST.

---

**ST312 Half Unit Applied Statistics Project**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Wicher Bergsma COL 6.06

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics and BSc in Statistics with Finance. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students must have completed Elementary Statistical Theory (ST102).

**Course content:** Students will produce a project involving a critical investigation and collation of statistical data on a topic of their own interest.

**Teaching:** 9 hours of seminars and 3 hours of workshops in the MT. 7 hours of workshops in the ST.

Students on this course will have a research week in week 6 where they can look up data sources for their assessed project.

**Formative coursework:** Oral presentation at the end of MT.

**Indicative reading:**
- ukdataservice.ac.uk, www.google.com/
- publicdata, data.worldbank.org

**Assessment:**
- Project (90%) and presentation (10%) in the ST.

---

**ST326 Half Unit Not available in 2017/18 Financial Statistics**

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Pauline Barrieu COL 6.03

**Availability:** This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** ST202 Probability, Distribution Theory and Inference.

**Course content:** The course covers key statistical methods and data analytic techniques most relevant to finance. Hands-on experience in analysing financial data in the “R” environment is an essential part of the course. The course includes a selection of the following topics: obtaining financial data, low- and high-frequency financial time series, ARCH-type models for low-frequency volatilities and their simple alternatives, Markovitz portfolio theory and the Capital Asset Pricing Model, statistics and machine learning in financial forecasting, Value at Risk, simple trading strategies, statistics of fixed income finance, derivative instruments from the statistical viewpoint.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 9 problem sets in the MT.

**Indicative reading:** Lecture notes will be provided

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**ST327 Market Research: An Integrated Approach**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr James Abdey COL 7.09 and Mr Karsten Shaw

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Management and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed one of the following: Elementary Statistical Theory (ST102), Statistics for Management Sciences (ST203), Econometrics: Theory and Applications (MG205), Analytical Methods for Management (MG202), or equivalent. Not to be taken with ST307.

**Course content:** The main ideas and applications of market research techniques. ST327.1 Topics covered are introduction to market research, defining the market research problem, research design, internal secondary data and the use of databases, qualitative research: focus group discussions, projective techniques, survey and quantitative observation techniques, measurement and scaling: fundamentals, comparative and non-comparative scaling, questionnaire design, sampling: design and procedures, final and initial sample size determination, cross-tabulation and hypothesis testing, analysis of variance and covariance, correlation and regression, discriminant analysis, factor analysis, cluster analysis and conjoint analysis. ST327.2 Case Studies: Students use the information and techniques gained from ST327.1 to carry out a co-operative Market Research Case Study. Individual write up of the Case Study forms part of the assessment.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. 6 hours of lectures in the LT. 1 hour of classes in the ST. Lectures will run in weeks 1-10 and classes in weeks 2-11.

**Formative coursework:** Students are given weekly exercises to work on for discussion in class.

**Indicative reading:** Malhotra, N.K., D.F. Birks and P.A. Wills (2012) Marketing Research: An Applied Research (Fourth edition), Pearson (earlier editions are also fine)

**Assessment:** Exam (60%, duration: 2 hours) in the main exam period.

Coursework (25%) in the ST.

Presentation (15%) in the LT.
The assessed Case Study work is split into two parts; a group presentation and an individual piece of coursework.

**ST330**

**Stochastic and Actuarial Methods in Finance**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Pauline Barrieu COL 6.03 and Dr Erik Baurdoux COL 6.04

**Availability:** This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics and BSc in Statistics with Finance. This course is not available as an outside option. This course is available to General Course students.

**Pre-requisites:** Students must have completed:

EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206)

AND Stochastic Processes (ST302).

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT. Students will work on and submit formative coursework towards the end of MT and a second set of formative coursework towards the end of LT. Feedback and solutions will be provided.

**Formative coursework:** Two sets of hand-in exercises will also be given during the year.

**Indicative reading:** N H Bingham & R Kiesel, Risk Neutral Valuation; A Cerny, Mathematical Techniques in Finance: Tools for Incomplete Markets; J Hull, Options, Futures & Other Derivatives; R Jarrow & S Turnbull, Derivative Securities, D Luenberger, Investment Science; Institute of Actuaries core reading notes, Subject CT8.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

A combination of DV442 Key Issues in Development Studies (H) and one of the following:  
DV420 Complex Emergencies (H)  
DV421 Global Health and Development (H)  
DV424 International Institutions and Late Development (H)  
DV428 Managing Humanitarianism (H)
3 | Courses to the value of one unit not already taken under Paper 2 or from the following:  
DV407 Poverty (H)  
DV411 Population and Development: An Analytical Approach (H)  
DV413 Environmental Problems and Development Interventions (H)  
DV415 Global Environmental Governance (H)  
DV423 Global Political Economy of Development (H)  
DV424 International Institutions and Late Development (H)  
DV431 Development Management  
DV432 China in Developmental Perspective (H) (not available 2017/18)
4 | DV410 Research Design and Dissertation in International Development  
DV445 Research Themes in International Development (non-assessed)

**Notes**

* Students with a substantive and verifiable background in accounting must do as Paper 2 either (AC416 and AC417) or (AC411 and AC416) or (AC411 and AC415). Students with prior background in management accounting only must do as Paper 2 AC415 and AC491. # AC480 Quantitative Methods in Accounting and Finance is a pre requisite for this course. AC480 runs over a 9-day period before the start of MT.

The Bologna Process facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School’s taught master’s programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

4 | AN499 Dissertation

MSc in Applicable Mathematics

Programme Code: TMAPMA

Department: Mathematics

This information is for the 2017/18 session.

Full-year programme. Students must take courses to the value of
Full-year programme. Students must take one compulsory course, select optional courses to the value of two units, and write a dissertation, as shown below. Attendance at seminars and at non-assessed tutorials is compulsory. Students intending to use this degree to convert to a discipline in which they hope to qualify to do a research degree, should choose all their options (Papers 2 and 3) in that discipline. At least one option should be a general introduction to that discipline (e.g. Paper 2 courses) and others can be found on the departmental website the student is interested in. Otherwise students select courses from Paper 3 (these courses expect students from this MSc) or they can choose other options not listed below. In either case, the student must email the teacher responsible for the course, backing up their request to join it.

Paper | Course number and title
--- | ---
1 | AN447 China in Comparative Perspective
2 | Either
   | One full-unit course from the following:
   | AN404 Anthropology: Theory and Ethnography
   | EH482 Pre-Modern Paths of Growth: Europe and the Wider World, 11th to 19th Centuries
   | Or
   | For students who do not wish to advance their first degree in one of the disciplines above, courses to the value of one-full unit from Paper 3.
3 | Courses to the value of one-full unit from the following:
   | AN402 The Anthropology of Religion
   | AN405 The Anthropology of Kinship, Sex and Gender
   | AN436 The Anthropology of Development (H)
   | AN439 Anthropology and Human Rights (H) (not available 2017/18)
   | AN451 Anthropology of Politics (H)
   | AN456 Anthropology of Economy (1): Production and Exchange (H)
   | AN457 Anthropology of Economy (2): Transformation and Globalisation (H)
   | AN459 Anthropology and Media (H) (not available 2017/18)
   | AN473 Anthropological Approaches to Value (H)
   | DV411 Population and Development: an Analytical Approach (H)
   | DV413 Environmental Problems and Development Interventions (H)
   | DV415 Global Environmental Governance (H)
   | DV432 China in Developmental Perspectives (H) (not available 2017/18)
   | EH446 Economic Development in East and Southeast Asia (not available 2017/18)
   | EU443 European Models of Capitalism (H)
   | GV427 Democracy in East and South Asia (H)
   | GV432 Government and Politics in China (H)
   | GV467 Introduction to Comparative Politics (H)
   | GV4H1 Chinese Political Thought (H) (not available 2017/18)
   | HY438 Cities and Social Change in East Asia (H)
   | HY480 Remaking China: Geographical aspects of Development and Disparity (H) (not available 2017/18)
   | HY461 East Asia in the Age of Imperialism, 1839-1945
   | * HY472 China and the External World, 1711-1839
Courses to the value of one-full unit from MSc International Relations (Papers 2 & 3), subject to availability and the approval of the relevant course convenor. The following courses would be particularly appropriate:
   | IR411 Foreign Policy Analysis III
   | IR418 International Politics: Asia and the Pacific (not available 2017/18)
   | IR462 Introduction to International Political Theory (H)
   | IR463 The International Political Theory of Humanitarian Intervention (H) (withdrawn)
MSc in City Design and Social Science

Programme code: TMCIDSS
Department: Sociology

This information is for the 2017/18 session.

Full-year programme. Students must take the City Design: Research Studio course, two compulsory half-unit courses, an independent project, and one unit of optional courses.

Paper Course number and title
1 SO448 City Design: Research Studio
2 & 3 Courses to the value of one full unit from the following:
SO451 Cities by Design (H)
SO465 City-Making: the Politics of Urban Form (H)
SO477 Urban Social Theory (H)
4 Courses to the value of one full unit from the following:
GY409 Globalisation and Regional Development (H)
GY410 Economics of Local and Regional Development (H)
GY431 Cities, People and Poverty in the South (H)
GY432 Urban Ethnography (H)
GY438 Cities and Social Change in East Asia (H)
GY439 Cities, Politics and Citizenship (H)
GY441 The Politics of Housing (H)
GY446 Planning for Sustainable Cities (H) (not available 2017/18)
GY448 Social and Political Aspects of Regional and Urban Planning (H)
GY455 Economic Appraisal and Valuation (H)
GY479 Urban Revolutions (H)
SA429 Understanding Social (Dis)advantage (H)
SA4C6 International Housing and Human Settlements (H)
SA4F9 Housing, Neighbourhoods and Communities (H)
SO451 Cities by Design (H) (if not chosen under Papers 2 & 3)
SO465 City-Making: the Politics of Urban Form (H) (if not chosen under Papers 2 & 3)
SO473 Crime, Control and the City (H)
SO475 Material Culture and Design (H)
SO477 Urban Social Theory (H) (if not chosen under Papers 2 & 3)
SO480 Urban Inequalities (H)
SO483 Social Change Organizations (H)
5 SO449 Independent Project

Any other course in the Department of Sociology, or other departments §, by agreement with the course tutor

Notes * subject to space

MSc in Comparative Politics

Programme code: TMCP
Department: Government

This information is for the 2017/18 session.

Full-year programme. Students must take papers to the value of four full units as shown. All students are required to write a 10,000-word dissertation. Note that some of the courses must be taken together. Part-time students may take up to four courses in their first year. All students, except those opting for No Specialism, must choose one of the following streams: Democracy and Democratization, Nationalism and Ethnic Politics, Comparative Political Economy, Popular Politics, Comparative Political Institutions, Politics of the Developing World, and take a minimum of one full unit from within that stream.

Core Elements

Paper Course number and title
1 GV467 Introduction to Comparative Politics (H)
2 GV499 Dissertation

Specialisms

Democracy and Democratization

Paper Course number and title
3 GV4E1 Comparative Democratization in a Global Age (H)
4 Courses to the value of one half unit from the following:
GV427 Democracy in East and South Asia (H)
GV442 Globalisation and Democracy (H) (not available 2017/18)
GV444 Democracy and Development in Latin America (H)
GV4C9 Democratization and its Discontents in Southeast Asia (H)
GV4E2 Capitalism and Democracy (H)
GV4J4 Citizen Representation and Democracy in the European Union (H)
5 Courses to the value of 1.5 units, either from Paper 4 above, or from the approved paper option list.

Nationalism and Ethnic Politics

Paper Course number and title
3 Courses to the value of one full unit from the following:
EU457 Culture and Security in Global Politics (H)
GV439 Government and Politics in Central and Eastern Europe (H)
GV465 War, Peace and the Politics of National Self-Determination (H)
GV4B9 The Second Europe (H)
GV4C7 Warfare and National Identity (H) (not available 2017/18)
GV4E8 Conflict and Institutional Design in Divided Societies (H)
GV4G5 The History and Politics of the Middle East
GV4J9 Populism (H)
GV4H7 Subnational Politics in Comparative Perspective (H) (withdrawn 2017/18)
4 Courses to the value of 1.5 units, either from Paper 3 above, or from the approved paper option list.

Comparative Political Economy

Paper Course number and title
3 Courses to the value of 1 full unit from the following:
GV441 States and Markets (H)
GV4D4 The Politics of Inequality and Redistribution (H)
GV4E2 Capitalism and Democracy (H)
4 One half-unit from the following:
DV435 African Political Economy (H)
GV4D4 The Politics of Inequality and Redistribution (H)
GV4E2 Capitalism and Democracy (H)
GV4F8 Institutions in the Global Economy (H)
SA4M1 Politics of Social Policy: Welfare and Work in Comparative Perspective (H)
5 Courses to the value of 1 unit, either from Paper 4 above, or from the approved paper option list.

Popular Politics

Paper Course number and title
3 Courses to the value of one full unit from the
following:
GV4A2 Citizens’ Political Behaviour in Europe: Elections Public Opinion and Identities (H)
GV4C9 Democratization and its Discontents in Southeast Asia (H)
GV4D3 Local Power in an Era of Globalization, Democratization and Decentralization (H)
GV4F2 Popular Politics in the Middle East (H)
GV4J4 Citizen Representation and Democracy in the European Union (H)

4 Courses to the value of 1.5 units, either from Paper 3 above, or from the approved paper option list.

GV4G5 The History and Politics of the Modern Middle East (H)
GV4H7 Subnational Politics in Comparative Perspective (H) (withdrawn 2017/18)
DV428 Managing Humanitarianism
MSc in Criminal Justice Policy
Programme code: TMCJP
Department: Social Policy
This information is for the 2017/18 session.
Full-year programme. Students must take one compulsory course, non-assessed course SA4C1, optional courses to the value of two full units and a dissertation.

Paper | Course number and title
1 | SA403 Criminal Justice Policy
2 | Choose to the value of up to two full units from the following optional courses:
   LL4BC Policing and Police Powers (H) (withdrawn 2017/18)
   LL4BD Policing: Contemporary Issues and Controversies (H) (withdrawn 2017/18)
   LL4CL Explaining Punishment: Philosophy, Political Economy, Sociology (H)
   LL4K7 Mental Health Law: The Criminal Context (H)
   SA429 Understanding Social (Dis)advantage (H)
   SA488 Social Policy: Goals and Issues (H)
   SA489 Ethnicity, Race and Social Policy (H)
   SA4C9 Social Policy: Organization and Innovation (H)
   SA4G8 The Third Sector (H)
   SA4K5 Issues in Contemporary Policing (H)
   SA4L6 Illegal Drugs and Their Control: Theory, Policy and Practice (H)
   SA4L7 Policing, Security and Globalisation (H)
   SA4N8 Riots, Disorder and Urban Violence (H)
   SO473 Crime, Control and the City (H)
3 | If less than two units are taken from Paper 2, then choose from these further optional courses:
   LL4AR International Criminal Law: Core Crimes and Concepts (H)
   LL4AS International Criminal Law 2: Prosecution and Practice (H)
   LL4BK Corporate Crime (H)
   LL4BL Financial Crime (H)
   LL4CA Law and Social Theory (H)
   LL4CE Security and Criminal Law (H) *
   SA4N8 Riots, Disorder and Urban Violence (H)
4 | A course from another programme *
   SA465 Criminal Justice Policy - Long Essay
   SA4C1 Long Essay and the Research Process (non-assessed)

Notes
* May only be taken with the permission of your tutor, the MSc Programme Director and the Course Tutor.
† You must have a Law Degree as a prerequisite for taking LL4CE.

MSc in Data Science
Programme code: TMDS
Department: Statistics
This information is for the 2017/18 session.
Full-year programme. Students must take four compulsory courses, options to the value of one unit and a dissertation as shown.

Paper | Course number and title
1 | MY470 Computer Programming (H) *
2 | ST445 Managing and Visualising Data (H)
3 | ST447 Data Analysis and Statistical Methods (H) +
4 | ST443 Machine Learning and Data Mining (H)
5 | Choice of two from the following 0.5 unit optional courses
courses, including at least one ST course:
MA407 Algorithms and Computation (H)
MA424 Modelling in Operations Research (H)
MY459 Quantitative Text Analysis (H)
MY461 Social Network Analysis (H)
ST405 Multivariate Methods (H)
ST411 Generalised Linear Modelling and Survival Analysis (H)
ST422 Time Series (H)
ST429 Statistical Methods for Risk Management (H)
ST436 Financial Statistics (H)
ST444 Statistical Computing (H)
ST446 Distributed Computing for Big Data (H)
ST498 Capstone Project/Dissertation

Notes
* Students who can demonstrate equivalent prior knowledge of MY470 Computer Programming, via transcripts of prior qualifications, may skip this course and take a further half unit of options under Paper 5.
+ Students who can demonstrate equivalent prior knowledge to ST447 Data Analysis and Statistical Methods, via transcripts of prior qualifications, may skip this course and take a further half unit of options under Paper 5.

MSc in Development Management
Programme code: TMDVMN
Department: International Development
This information is for the 2017/18 session.
Full-year programme. Students must take courses to the value of three full units and a dissertation as shown.

Paper Course number and title
1 DV431 Development Management
2-3 Courses to the value of 2 units from the following:
AC470 Accounting in the Global Economy (H)

LL4CB Modern Legal History: Private Law and the Economy 1750-1950 (H)

Dissertation which is assessed as:

4 & 5 Research Dissertation A: Contextualisation, Theory and Research Design and

** These courses cannot be combined with EH422

FM4U1 Fixed Income Markets - Dissertation (H) or FM4T5 Portfolio Management - Dissertation (H) *
FM431M Corporate Finance A (H) and FM4T2Applied Corporate Finance - Dissertation (H)

Any other course in Economics approved by the candidate's teachers. Such approval will only be given in exceptional circumstances.

Notes
† Students must obtain the permission of the course proprietor.
* For the purposes of degree classification the Finance half unit courses are combined and averaged to produce a final mark.

The Bologna Process facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School’s taught master’s programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

MSc in Economics

Programme code: TMECT
Department: Economics

For all first and second year students in 2017/18.

Students without a strong background in economics are required to take the MSc programme over two years. The first year of the programme is governed by the ‘Regulations for Diplomas’, students who successfully complete the examinations at the end of the first year will be awarded a Diploma in Economics. In order to progress to the second year, which is governed by the ‘Regulations for Taught Master’s Degrees’, students must attain or exceed the progression threshold for each of the four courses they have taken. The progression threshold is 60% for courses EC201, EC210, EC220, and MA100, while the progression threshold is 55% in courses EC202, EC221, MA212 and other advanced MAXXX options. The Sub-Board of Examiners may, at its discretion, consider for progression candidates who fall marginally short of this requirement. However, students gaining the Diploma in a re-sit attempt are not eligible for progression onto the MSc, nor are students entitled to re-sit first year examinations already passed in order to achieve the progression standard.

Paper Course number and title

Year 1

1 EC201 Microeconomic Principles I or EC202 Microeconomic Principles II
2 EC210 Macroeconomic Principles
3 MA100 Mathematical Methods or MA212 Further Mathematical Methods
4 EC220 Introduction to Econometrics or EC221 Principles of Econometrics

Notes: Candidates may be allowed to substitute one other course for one of the above papers with the permission of the Programme Director.

Year 2

Students must take three compulsory courses, one unit of optional courses and an extended essay linked to the optional course as shown. Students are also required to attend EC400 Introductory Course in Mathematics and Statistics.

Paper Course number and title

1 EC413 Macroeconomics
2 EC411 Microeconomics or EC487 Advanced Microeconomics †
3 EC402 Econometrics
4 Courses to the value of one unit from the following: EC421 International Economics EC423 Labour Economics
### MSc in Economics and Management

**Programme code:** TMECMN  
**Department:** Management  

**This information is for the 2017/18 session.**

A ten-month programme. Students take three core courses, two half-unit options and a dissertation. Students are also required to attend EC400 Introductory Course in Mathematics and Statistics.

MSc in Environmental Policy and Regulation

Programme code: TMENPR
Department: Geography & Environment

This information is for the 2017/18 session.

Full-year programme. Students must take two compulsory courses, a dissertation, and either 1 or 1.5 units of optional courses.

Paper Course number and title
1 GY420 Environmental Regulation: Implementing Policy
2 GY423 Environment and Development or GY468 Environment and Development: Sustainability, Technology and Business (H)
3 Courses to the value of 1.5 units if taking GY468, or 1 unit if taking GY423 (under Paper 2 above): DV415 Global Environmental Governance (H) EU421 Policy-Making in the European Union (H) GY427 Climate Change: Science, Economics and Policy (H) GY446 Planning for Sustainable Cities (H) (not available 2017/18) GY455 Economic Appraisal and Valuation (H) IR467 Global Environmental Politics (H) LL4A6 Climate Change and International Law (H) LL4BV Transnational Environmental Law (H) SO425 Regulation, Risk and Economic Life SO469 Risk and Governance: A Sociological Approach (H)
4 GY499 Dissertation

MSc in Environment and Development

Programme code: TMENDV
Department: Geography & Environment

This information is for the 2017/18 session.

Full-year programme. Students must take courses to the value of four full units.

Paper Course number and title
1 GY423 Environment and Development
2 One full unit or two half units offered by the Department for International Development (Not DV431)
3 One full unit or two half units offered by the Department of Geography and Environment from the following: GI409 Gender, Globalisation and Development: An Introduction (H) GY400 The Economics of Urbanisation (H) GY403 Contemporary Debates in Human Geography (H) GY407 Globalization, Regional Development and Policy GY409 Globalization and Regional Development (H) GY413 Regional Development and Policy (H) GY420 Environmental Regulation: Implementing Policy GY421 Gender and Development: Geographical Perspectives (H) (not available 2017/18) GY427 Climate Change: Science, Economics and Policy (H) GY431 Cities, People and Poverty in the South (H) GY432 Urban Ethnography (H) GY438 Cities and Social Change in East Asia (H) GY439 Cities, Politics and Citizenship (H) GY455 Economic Appraisal and Valuation (H) GY459 Urban Theory and Policy in the Global South (H)

MSc in EU Politics

Programme code: TMEUPOIL
Department: European Institute

This information is for the 2017/18 session.

Students must take courses to the value of three units and a dissertation as shown. Additionally, all students must take EU465 Research Methods and Design in EU Politics, and if their timetable allows, EU450 Engaging with Europe: Professional Skills, in preparation for the dissertation.

Paper Course number and title
Part I: Foundation
1 Students must choose two out of the following three courses:
   EU421 Policy-Making in the European Union (H) (cannot be taken with IR431 - not available 2017/18)
   EU435 History and Theory of European Integration (H)
   IR416 The EU in the World
Part II: Optional courses
2 & 3 Any courses which in combination with the foundation courses bring the total list of courses to the value of three units. If students wish their optional courses to result in a degree specialism, their chosen optional courses must come to a total value of at least one full unit from that specialism. Only one specialism is permitted. Courses from the heading 'Methods' cannot result in a specialism.
Policy Making and Public Policy in the European Union EU440 The Balkans in Europe: Transition, Democratisation, Integration (H)
EU446 The Political Economy of European Monetary Integration (H)

   - EU499 Dissertation
MSc in Finance (full-time)

Programme code: TMFIFT

Department: Finance

This information is for the 2017/18 session.

Academic-year (10 month) programme (TMFIFT). Students must take two compulsory courses and optional courses to the value of two full units as shown. All students must submit a dissertation in one of the optional half unit courses and take an examination in the other three half unit courses. Admitted students are required to attend a pre-sessional course at the start of the programme in September. The dissertation must be submitted by the 3rd week of June. Students who choose to transfer to the Work Placement Pathway must undertake a work placement and assessment in addition to the courses listed above. Transferring to the Work Placement Pathway extends the duration of the programme to 12 months. Students have the option to transfer to the Work Placement Pathway upon receipt of an offer to undertake an internship placement, which must be approved by the Department. Students on this pathway are required to undertake a full-time internship or work placement during the summer and to submit an essay of 2000 words following the placement (see FM411 for details). The essay will be assessed on a pass/fail basis and students must pass the essay to graduate from the programme.

Paper Course number and title
1 FM422 Corporate Finance
2 FM423 Asset Markets
3 & 4 Students should select 4 half unit courses to the value of 2 full units. Students must select at least three courses from the dedicated list of options marked (*).
FM405 Fixed Income Securities and Credit Markets (H) (Dissertation code FM4U5)
FM406 Topics in Portfolio Management (H) (Dissertation code FM4T6)
FM407 Mergers, Buyouts and Corporate Restructurings (H) (Dissertation code FM4U7)
FM408 Financial Engineering (H) (Dissertation code FM4T8)
FM409 Risk Management in Financial Markets (H) (Dissertation code FM4U9)
FM412 Quantitative Security Analysis (H) (Dissertation code FM4U4)
FM414 Corporate Investment and Financial Policy (H) (Dissertation code FM4T4)
FM457 Applied Computational Finance **
FM472 International Finance (H) (Dissertation code FM4T9)
FM476 Entrepreneurial Finance (H)

In exceptional cases it may be possible to take an unlisted optional course with the approval of the Programme Director.

Work Placement Pathway

Paper Course number and title
5 FM411 Finance Work Placement and Assessment (non-credit bearing) ***

Notes

Students are required to write a 6,000 word dissertation (replacing the exam) in one of the half unit courses. Students will be required to attend teaching for the course which they choose to write their dissertation on. ** This course is not for credit and can be taken in addition to courses to the value of two full units selected from Paper 3 & 4. *** This element is not for credit, but is a requirement for students on the Work Placement Pathway and must be taken in addition to courses to the value of two full units selected from Papers 3 & 4. Successful completion of FM411 is a requirement for students to be eligible for the award of the degree.

The Bologna Process facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School’s taught master’s programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

MSc in Finance and Economics

Programme code: TMFIEC

Department: Finance

This information is for the 2017/18 session.

Academic-year (10 month) programme (TMFIEC). Students must take three compulsory full-unit core courses and two optional half-unit courses. All students must submit a 6,000 word dissertation in one of the optional courses and take a two-hour examination in the other. Students are also required to attend EC400 Introductory Course in Mathematics and Statistics. The dissertation must be submitted in the third week of June. Students who choose to transfer to the Work Placement Pathway must undertake a work placement and assessment in addition to the courses listed above. Transferring to the Work Placement Pathway extends the duration of the programme to 12 months. Students have the option to transfer to the Work Placement Pathway upon receipt of an offer to undertake an internship placement, which must be approved by the Department. Students on this pathway are required to undertake a full-time internship or work placement during the summer and to submit an essay of 2000 words following the placement (see FM411 for details). The essay will be assessed on a pass/fail basis and students must pass the essay to graduate from the programme.

Paper Course number and title
1 EC411 Microeconomics * or EC485 Macroeconomics for MSc F&E (H) # and EC486 Microeconomics for MSc F&E (H) #
2 FM436 Financial Economics
3 FM437 Financial Econometrics
4 Courses to the value of one full unit selected from the following (one to be examined by dissertation and one by examination).
FM404 Forecasting Financial Time Series (H) (Dissertation code FM4T1)
FM408 Financial Engineering (H) (Dissertation code FM4T9)
FM409 Risk Management in Financial Markets (H) (Dissertation code FM4U9)
FM412 Quantitative Security Analysis (H) (Dissertation code FM4U4)
FM413 Fixed Income Markets (H) (Dissertation code FM4U1)
FM421 Applied Corporate Finance (H) (Dissertation code FM4T2)
FM438 Advanced Asset Pricing (H) (Dissertation code FM4U3) (not available 2017/18)
FM442 Quantitative Methods for Finance and Risk Analysis (H) (Dissertation code FM4U2)
FM445 Portfolio Management (H) (Dissertation code FM4T5)
FM447 Global Financial Systems (H) (Dissertation code FM4T7)
FM457 Applied Computational Finance **
FM472 International Finance (H) (Dissertation code FM4T9)
FM476 Entrepreneurial Finance (H)

In exceptional cases, it may be possible to take an unlisted optional course with the approval of the Programme Director.

Work Placement Pathway

Paper Course number and title
5
Admitted students are required to attend the Quantitative Methods September course. The dissertation must be submitted by the third week in June.

Three of the following half unit courses (students must select at least two courses from the list of dedicated options marked *).

- **FM422** Corporate Finance
- **FM423** Asset Markets
- **FM410** Private Equity (H)

### Work Placement Pathway

**Notes:** Students who choose to transfer to the Work Placement Pathway must undertake a work placement and assessment in addition to courses to the value of two full units selected from Papers 3 & 4. Successful completion of FM411 is a requirement for students to be eligible for the award of the degree.

The Bologna Process facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

## MSc in Finance and Private Equity

**Programme code:** TMFIFE

**Department:** Finance

**This information is for the 2017/18 session.**

Academic-year (10 month) programme (TMFIFE). Students must take three compulsory courses (FM410 Private Equity includes a dissertation) and optional courses to the value of 1.5 units. Admitted students are required to attend the Quantitative Methods September course. The dissertation must be submitted by the third week in June.

Students who choose to transfer to the Work Placement Pathway must undertake a work placement and assessment in addition to the courses listed above. Transferring to the Work Placement Pathway extends the duration of the programme to 12 months. Students have the option to transfer to the Work Placement Pathway upon receipt of an offer to undertake an internship placement, which must be approved by the Department. Students on this pathway are required to undertake a full-time internship or work placement during the summer and to submit an essay of 2000 words following the placement (see FM411 for details). The essay will be assessed on a pass/fail basis and students must pass the essay to graduate from the programme.

### Notes:

* With the approval of the Programme Director, students who have already completed the equivalent of EC411 in their prior studies may be permitted to take EC413 Macroeconomics.

** This course is not for credit and can be taken in addition to courses to the value of one full unit selected from Paper 4.

Students may, with the approval of the Programme Director, Associate Programme Director and relevant Course Leaders, take half-units in Macroeconomics and Microeconomics, instead of the full unit EC411, Microeconomics. Students would be required to complete the EC400 introductory course, Maths for Macroeconomics, and must meet the relevant prerequisites for the Macroeconomics half unit.

*** This element is not for credit, but is a requirement for students on the Work Placement Pathway and must be taken in addition to courses to the value of two full units selected from Papers 3 & 4. Successful completion of FM411 is a requirement for students to be eligible for the award of the degree.

## MSc in Financial Mathematics

**Programme code:** TMFIMA

**Department:** Mathematics

**This information is for the 2017/18 session.**

Academic year programme (10 months). Students must take five compulsory half-unit courses and optional courses to the value of one-and-a-half units as shown.

There is also a two-week compulsory introductory course MA400 September Introductory Course relating to MA415 and MA417. Students must also take the non-assessed non-credit course MA432 Programming in C++.

MSc in Global Politics

Programme Code: TMGLP02
Department: Government

This information is for the 2017/18 session.

The MSc includes a core course, GV4A4 The Politics of Globalization (Paper 1) which all students must take. It draws on specialist knowledge from across the LSE’s Politics staff to offer a comprehensive introduction to the changing structure of the global order, and the contemporary challenges of global politics. The rest of the MSc allows considerable choice of options whilst seeking to blend a global focus with more detailed thematic or regional knowledge. All students must write a 10,000 word dissertation.

PLEASE NOTE: Due to staff sabbaticals and research leave, the School cannot guarantee that all the courses listed below will be available.
MSc in Health, Community and Development
(not available in 2017/18 or 2018/19)

Programme code: TMHEC007

Department: Psychological and Behavioural Science

This information is for the 2017/18 session.

Full-year programme. Students must take two compulsory courses, one unit of optional courses and a dissertation.

**Notes**

* By special permission only.

It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of International Development (ie not prefixed with 'DV').

---

**MSc in Health Policy, Planning and Financing**

*Programme code: TIHPPF*

**Department:** Health Policy

*This information is for the 2017/18 session.*

Full-year programme taught jointly with the London School of Hygiene and Tropical Medicine. Students must take courses to the value of five units as shown below, and undertake a 10,000 word dissertation. It is highly recommended that students select courses which spread the workload over the course of the year. The dissertation will be completed during the summer.

OR a related course from another department (outside option) (subject to approval by the programme director)
MSc in Human Resources and Organisations

Full-year programme. Students must take compulsory and optional courses to the value of three units and a full unit dissertation as shown below. The number of compulsory and optional units will vary depending on the specialism taken. All students take the following compulsory courses:

Paper Course number and title

| 1 | MG480 | Management of Human Resources: Strategies and Policy (H) |
| 6 | MG493 | Dissertation |

Specialism 1 - Organisational Behaviour

Programme code: TMHRORG3
Department: Management
This information is for the 2017/18 session.

Paper Course number and title

| 2 | MG4C2 | Organisational Behaviour (H) |
| 3 | MG475 | Organisational Theory (H) |
| 4 | | Three half-unit courses from the Options list |

Specialism 2 - Human Resource Management (CIPD)

Programme code: TMHRORG2
Department: Management
This information is for the 2017/18 session.

Paper Course number and title

| 2 | MG4C2 | Organisational Behaviour (H) |
| 3 | MG478 | Globalisation and Human Resource Management (H) |
| 4 | MG4A9 | Foundations of Business and Management for Human Resources (H) |
| 5 | | One half-unit course from the following: |
| | MG477 | Reward System: Key Models and Practices (H) |
| | MG4D5 | Leadership in Organisations: Theory and Practice (H) |
| 6 | | One half-unit course from the Options list |
| 7 | MG493 | Dissertation |
| 8 | MG4G8 | Human Resource Management Skills and Practitioner Speaker Series (non-assessed) |

Specialism 3 - International Employment Relations & Human Resource Management

Programme code: TMHRORG6
Department: Management
This information is for the 2017/18 session.

Paper Course number and title

| 2 | MG4D2 | International Employment Relations (H) |
| 3 | MG478 | Globalisation and Human Resource Management (H) |

4 One course from the following:
| MG473 | Negotiation Analysis (H) or |
| MG475 | Organisational Theory (H) or |
| MG4C2 | Organisational Behaviour (H) |
| MG4B5 | Business in the Global Environment (H) (withdrawn 2017/18) |

5 Two half-unit courses from the Options list

Options list

Paper Course number and title

| 1 | LL4H8 | Employment Law (H) |
| LL4H9 | Human Rights in the Workplace (H) (not available 2017/18) |
| MG423 | Leading Entrepreneurial Organisations in Global Markets (H) (not available 2017/18) |
| MG450 | Social Network Analysis and Strategies (H) (not available 2017/18) |
| MG474 | Managing Diversity in Organisations (H) (withdrawn 2017/18) |
| MG476 | Corporate Social Responsibility and International Labour Standards (H) (not available 2017/18) |
| MG477 | Reward System: Key Models and Practices (H) |
| MG4B6 | Design and Management of Organisations (H) |
| MG4B7 | Organisational Change (H) (Specialisms 2 & 3 only) |
| MG4D1 | International and Comparative Human Resource Management (H) |
| MG4D6 | Organisational Change (H) |
| PS428 | Knowledge Processes in Organisations (H) (not available 2017/18) |

**LLM**

**Programme codes:** TMLL2 (Full time)

**TMLL2PT** (Extended part time)

**Department:** Law

*This information is for the 2017/18 session.*

The general regulations for MA and MSc Degrees and the Code of Practice for Taught Master's Programmes on the online Calendar apply to the LLM programme except in the event of inconsistency when these regulations for the LLM take priority.

In order to obtain the degree, students must complete courses (see Courses list below) to the value of four full units, which will normally comprise eight half unit courses. One of these eight half units will be the compulsory half unit Legal Research Skills course, which will be assessed by a 10,000 word dissertation. This stand-alone dissertation will provide the element of extended writing for all LLM students. Students will be required to sign a statement on plagiarism when submitting this dissertation.

Students can complete the LLM course requirements in either one full-year programme, or as a part-time student in two years, or by extended part-time study within a maximum of six years. Courses should be chosen from the list below. Subject to availability and with the permission of the Programme Director of the LLM, one complementary course from other Master's courses at the School may be selected to replace one from the list below to the total equivalent of one half unit. Exceptionally, and subject to the same conditions courses to the total value of one full unit may be selected to replace two courses from the list below.

Part-time students must satisfy the same requirements as those applicable to full-time students. Part-time students must take courses to the value of two units in their first year and courses to the value of two units in their second year.

Extended part-time students must satisfy the same requirements as those applicable to full-time students. Students must take courses to the value of one unit in the first year and successfully complete this. Students who successfully complete four units within a period of six years will satisfy the requirements for the degree.

**Students registered before 2013-14**

The LLM programme regulations for students entering in or after 2013-14 differ from those in force in previous years. This reflects a move to half unit courses in 2013-14. Students registered before 2013-14 are covered by the regulations which were in operation at the time of their initial registration on the programme. For earlier editions of the regulations please refer to the page for previous academic sessions lse.ac.uk/resources/calendar/
LL4F9 Legal Research and Writing Skills (H)

Degree certificate
Students who successfully complete the LLM examination may elect to have one of the following titles attached to their degree certificate if, in the opinion of the Programme Director of the LLM, the title reflects the course of study followed by the student. This would mean taking a minimum of 4 courses within a specialist area. The possible titles are listed below with the courses attached.

- Corporate and/or Commercial Law
- Financial Crime (H)
- Financial Crime (H)
- Law of Corporate Finance: Securities Regulation (H)
- The Legal Protection of Inventions (H) (not available 2017/18)

7

GY470 Urban Africa (H)
GY475 Issues in Environmental Governance (H)
GY480 Remaking China: Geographical aspects of Development and Disparity (H) (not available 2017/18)

8

MY452M or MY452L Applied Regression Analysis (H)

Notes

A relevant course from another programme as approved by the Programme Director

Global MSc in Management (2 Year Programme)

Programme Code: TMGLMG2
Department: Management

For all first and second year students in 2017/18. These regulations apply to students entering in or after the 2016/17 academic year.

A two-year programme. Students take courses to the value of eight units.

The second year includes a dissertation. Students complete the course MG488 GMM Capstone Course - Management in Action (H) over both years, Part A (unassessed) in Year 1 and Part B (assessed) in Year 2.

All students are required to attend MG4A1 Introduction to Studying for GMM.

Students may choose to concentrate their electives in a certain topic area and may elect to have one of the elective titles attached to their degree certificate if the title reflects the course of study followed by the student. The possible titles are listed as headings within the Elective Courses below with the courses attached to those areas listed beneath them. If no such election is made, the degree certificate will state ‘Management’ without further specification.

Year 1

Core Courses

</tr>
</tbody>
</table>

Students also take the compulsory unassessed part of MG488:

MG488A GMM Capstone Course - Management in Action

Optional Courses

5 Students take courses up to the value of one half unit from the Elective Courses listed below.

It is not compulsory for students to take a half unit of optional courses under Paper 5 in the first year. Instead, students can elect to take a half unit of optional courses in Year 2, in addition to their second year optional courses taken under Paper 8. +

Notes

* Upon satisfactorily demonstrating that they have a degree in economics and have passed, as part of that degree, a course in managerial economics, microeconomics or industrial organisation, students may be exempted from this course and will be free to take an elective course, subject to the approval of the Programme Director.

** Upon satisfactorily demonstrating that they have already taken statistics at university level, students may be exempted from this course and will be free to take an elective course, subject to the approval of the Programme Director.

Year 2

</tbody>
</table>

Optional Courses

8 Courses to the value of 2.5 full units from the Elective Courses listed below.

Notes

+ Students who have not taken courses under Paper 5 in their first year, will also need to take a further half unit course in addition to Paper 8.

Elective Courses

Any of the courses listed within the Elective Courses section may be taken, subject to pre-requisites and course availability, by any GMIM student. However, students who wish to have one of the elective titles attached to their degree certificate should choose from within the appropriate sub-list those number of courses that will satisfy the unit requirement for that title.

Accounting and Finance

To qualify for this elective title to be attached to their
degree certificate, students must take courses to the value of 3.0 full units from the following. At least 1.0 unit of courses must be from the Department of Accounting and at least 1.0 unit of courses must be from the Department of Finance. Students who do not wish to qualify for this elective title are free to choose a different number of electives from this sub-list:

**Accounting**
- AC411  Accounting, Strategy and Control (H)
- AC412  Accountability, Organisations and Risk Management (H)
- AC415  Management Accounting for Decision Making (H)
- AC416  Topics in Financial Reporting (H) ***
- AC417  Corporate Financial Disclosure and Investor Relations (H)
- AC444  Valuation and Security Analysis (H)
- AC470  Accounting in the Global Economy (H)

**Finance**
- FM402  Financial Risk Analysis (H)
- FM413  Fixed Income Markets (H)
- FM421  Applied Corporate Finance (H) (pre-requisite: FM431L / FM431M or FM473M or FM473M / FM474L / FM474M must have also been taken previously)
- FM429  Asset Markets A (cannot be taken with FM473L / FM473M or FM474L / FM474M)
- FM430  Corporate Finance and Asset Markets
- FM431L  Corporate Finance A (H) (cannot be taken with FM430 / FM431L / FM431M)
- FM431M  Corporate Finance A (H) (cannot be taken with FM430 / FM474L / FM474M)
- FM432  Financial Risk Analysis (H)
- FM433  Fixed Income Markets (H)
- FM441  Derivatives (H)
- FM442  Quantitative Methods for Finance and Risk Analysis (H)
- FM445  Portfolio Management (H)
- FM447  Global Financial Systems (H)
- FM472  International Finance (H)
- FM473L  Finance I (H) (cannot be taken with FM429 or FM430)
- FM473M  Finance I (H) (cannot be taken with FM429 / FM430)
- FM474L  Managerial Finance (H) (cannot be taken with FM430 / FM431M)
- FM474M  Managerial Finance (H) (cannot be taken with FM430 / FM431L / FM431M)
- FM476  Entrepreneurial Finance (H)

**Human Resource Management**
To qualify for this elective title to be attached to their degree certificate, students must take courses to the value of at least 2.0 full units from the following.
- MG473  Negotiation Analysis (H)
- MG477  Reward System: Key Models and Practices (H)
- MG478  Globalisation and Human Resource Management (H)
- MG4A3  Incentives and Governance in Organisations (H)
- MG4B6  Design and Management of Organisations (H)
- MG4B7  Organisational Change (H)
- MG4D2  International Employment Relations (H)
- MG4D3  The Dark Side of the Organisation (H)
- MG4D5  Leadership in Organisations: Theory and Practice (H)
- PS428  Knowledge Processes in Organizations (H) (not available 2017/18)

**Information Systems and Digital Business**
To qualify for this elective title to be attached to their degree certificate, students must take courses to the value of at least 2.0 full units from the following.
- MG453  Managing Digital Business (H) (not available 2017/18)
- MG472  Global Strategy, Management and Information Systems (H)
- MG479  Information Systems for the Public Sector: Digital Government and Service Innovation (H)
- MG481  Innovating Organisational Information Technology (H)
- MG482  Innovation and Technology Management (H)
- MG483  eHealth: Policy, Strategy and Systems (H)
- MG484  Global Sourcing and Management of Business and IT Services (H) (not available 2017/18)
- MG485  Management and Economics of E-Business (H)
- MG486  Social Computing, Data and Information Services (H)
- MG487  Innovation and Information Systems: Concepts and Perspectives (H)
- MG492  Data Governance: Privacy, Openness and Transparency (H)
- MG4A8  Strategy for the Information Economy (H)
To qualify for this elective title to be attached to their degree certificate, students must take courses to the value of at least 2.0 full units from the following. Otherwise students are free to choose a different number of electives from this sub-list:

- MC408 Theories and Concepts in Media and Communication I (Key concepts and interdisciplinary approaches) (H)
- MG403 Pricing Strategy (H)
- MG404 Consumer Insights I: Behavioural Fundamentals (H)
- MG405 Behavioural Decision Science (H) (not available 2017/18)
- MG452 Behavioural Economics for Management (H)
- MG455 Consumer Insights II: Judgement and Decision Making (H)(not available 2017/18)
- MG456 Analytics for Strategic Decisions (H)
- MG473 Negotiation Analysis (H)
- MG4F2 Marketing Analytics II: Analytics for Managing Innovations, Products and Brands (H)
- MG4F3 New Media Marketing: Managing Online and Social Media (H)

**Strategy and International Business**

To qualify for this elective title to be attached to their degree certificate, students must take courses to the value of at least 2.0 full units from the following. Otherwise students are free to choose a different number of electives from this sub-list:

- MG401 Operations Management for Management Consultancy (H)
- MG405 Behavioural Decision Science (H) (not available 2017/18)
- MG421 International Business Strategy and Emerging Markets (H)
- MG422 Thinking Strategically (H)
- MG423 Leading Entrepreneurial Organisations in Global Markets (H) (not available 2017/18)
- MG436 Firms, Markets and Crises (H)(not available 2017/18)
- MG452 Behavioural Economics for Management (H)
- MG455 Consumer Insights II: Judgement and Decision Making (H)(not available 2017/18)
- MG456 Analytics for Strategic Decisions (H)
- MG472 Global Strategy, Management and Information Systems (H)
- MG473 Negotiation Analysis (H)
- MG477 Reward System: Key Models and Practices (H)
- MG478 Globalisation and Human Resource Management (H)
- MG4A3 Incentives and Governance in Organisations (H)
- MG4A4 Empirical Research Strategy for Managerial Economics (H) (not available 2017/18)
- MG4A8 Strategy for the Information Economy (H)
- MG4B1 Corporate Strategy (H)
- MG4B6 Design and Management of Organisations (H)
- MG4B9 The World Trading System (H)
- MG4G4 Topics in Management Research (H)

**Other courses available to be taken as electives:**

- AC490 Financial Reporting and Management: Management Accounting, Strategy and Control (H)
- AC491 Financial Reporting and Management: Financial Reporting (H)
- DV423 Global Political Economy and Development (H)
- DV424 International Institutions and Late Development (H)
- EU446 The Political Economy of European Monetary Integration (H)
- GI407 Globalisation, Gender and Development

---

**Global MSc in Management (CEMS MIM)**

**Programme code:** TMGLMGCEMS

**Department:** Management

For all first and second year students in 2017/18. These regulations apply to students entering in or after the 2016/17 academic year.

A two-year programme. Students are also awarded the CEMS Master's in International Management (MIM) degree, subject to successful completion of the CEMS MIM requirements. Students take courses to the value of eight units which includes: two units at a partner CEMS Institution (MG410 Term Abroad), CEMS compulsory MG463 CEMS Global Management Practice (H), a dissertation; and the course MG488 GMiM Capstone Course - Management in Action (H) taught over both years, Part A (unassessed) in Year 1 and Part B (assessed) in Year 2. All students are required to attend MG4A1 Introduction to Studying for GMiM.

**Notes**

* Lent Term students take courses to the value of 0.5 units from the options listed in Papers 2,3,4 plus the 1.0 unit CEMS Business Project.
from the Elective Courses listed below.

It is not compulsory for students to take a half unit of optional courses under Paper 5 in the first year. Instead, students can elect to take a half unit of optional courses in Year 2, in addition to their second year core courses taken under Papers 6, 7, and 8. +

Notes
* Upon satisfactorily demonstrating that they have a degree in economics and have passed, as part of that degree, a course in managerial economics, microeconomics or industrial organisation, students may be exempted from this course and will be free to take an elective course, subject to the approval of the Programme Director.
** Upon satisfactorily demonstrating that they have already taken statistics at university level, students may be exempted from this course and will be free to take an elective course, subject to the approval of the Programme Director.

### Year 2

GY447 The Economics of Regional and Urban Planning (H)

MBA Exchange
Programme code: TOMNMBA
Department: Management
This information is for the 2017/18 session.
A one term (Michaelmas or Lent Term only) exchange programme for visiting MBA Exchange students. The MBA exchange programme is attached to the Global MSc Management programme. Students from partner exchange schools (University of Michigan Ross School of Management, The Fuqua School of Business Duke University, Kellogg School of Management at Northwestern University, Guanghua School of Management Peking University, Emory University Goizueta Business School, Cornell University Johnson School of Management, University of Texas at Austin McCombs School of Business) spend one term at LSE and choose 4 half-unit courses from the list below, according to which term they attend. MBA exchange students are not here in the main examination period therefore are assessed during the term.

Students take half unit* courses to the value of two units. Student will not be required to complete summative assessments or examinations outside of their term of study. Students will be assessed during their term of study at the LSE.

*Students are not permitted to take one unit courses.

MSc in Management and Strategy

Programme code: TMMNST
Department: Management

This information is for the 2017/18 session.

Full-year programme. Students must take the four compulsory half-unit courses, optional courses to the value of three half units, and a half-unit dissertation.

Paper Course number and title
1 Four half-unit compulsory courses:
   MG4A3 Incentives and Governance in Organizations (H)
   MG4A5 The Analysis of Strategy A (H)
   MG4A6 The Analysis of Strategy B (H)
   MG4B6 Design and Management of Organisations (H)

2 Two half-unit courses from the following list:
   AC444 Valuation and Security Analysis (H)
   AC470 Accounting in the Global Economy (H)
   AC490 Management Accounting, Decisions and Control (H)
   AC491 Financial Accounting, Reporting and Disclosures (H)
   FM421 Applied Corporate Finance (H)
   FM429 Asset Markets A (H)
   FM431M Corporate Finance A (H) or FM431L Corporate Finance A (H)
   FM473L Finance I (H)
   FM473M Finance I (H)
   FM474L Managerial Finance (H)
   FM474M Managerial Finance (H)
   GV483 Public Management Theory and Doctrine (H)
   MG402 Public Management: A Strategic Approach (H)
   MG403 Pricing Strategy (H)
   MG409 Auctions and Game Theory (H)
   MG423 Leading Entrepreneurial Organisations in Global Markets (H) (not available 2017/18)
   MG452 Behavioural Economics for Management (H)
   MG473 Negotiation Analysis (H)
   MG4A4 Empirical Research Strategy for Managerial Economics (H) (not available 2017/18)
   MG4A8 Strategy for the Information Economy (H)
   MG4B1 Corporate Strategy (H)
   MG4B3 International Marketing: A Strategic Approach (H)
   MG4B5 Business in the Global Environment (H) (withdrawn 2017/18)
   MG4B8 Evolutionary Psychology and Management (H)
   MG4B9 The World Trading System (H)
   MG4G7 Contemporary Topics in Advanced Technology Management (H)

3 One other half-unit course listed under Paper 2, or, with the approval of the programme director, a half-unit course not on this list.

4 MG4G7 Dissertation: MSc Management and Strategy (H)

MSc in Management Science

Programme codes: TMMDS (Decision Sciences)
TMMSOR (Operational Research)

Department: Management

This information is for the 2017/18 session.

The Operations Research stream has been withdrawn in 2017/18.
Last intake 2016/17.

The Decision Sciences stream is not available in 2017/18.

Full-year programme with two disciplinary streams. Students are required to take compulsory and optional courses to the value of unit optional courses and a dissertation. Students are also required to attend an unassessed skills course: MG496 Study Skills and Research Methods.

Part-time students are required to take taught courses in the Michaelmas and Lent Terms of their two years and the work load will be split equally across both years (three half units per year). The dissertation will be completed in the Summer Term of the second year.

Paper Course number and title
1 MG487 Innovation and Information Systems: Concepts and Perspectives (H)
2 MG481 Innovating Organisational Information Technology (H)
3 MG472 Global Strategy, Management and Information Systems (H)

4 & 5 Two courses from the following:
   DV483 Information Communication Technologies and Socio-economic Development (H)
   MG460 Handling Disruption: Humanitarian Emergencies Management and Development (H)
   MG479 Information Systems for the Public Sector (H)
   MG483 eHealth: Policy, Strategy and Systems (H)
   MG484 Global Sourcing and Management of Business and IT Services (H) (not available 2017/18)
   MG486 Social Computing, Data and Information Services (H)
   MG485 Management and Economics of E-Business (H)
   MG492 Data Governance: Privacy, Openness and Transparency (H)
   MG4C3 Information Technology and Service Innovation (H)
   MG4G7 Contemporary Topics in Advanced Technology Management (H)

6 Either another course from Papers 4 & 5 above or one course from the following:
   AC490 Management Accounting, Decisions and Control (H)
   FM473L Finance I (H)
   FM473M Finance I (H)
   FM474L Managerial Finance (H)
   FM474M Managerial Finance (H)
   MA423 Fundamentals of Operations Research (H)
   MG4B7 Organisational Change (H)
   MG401 Operations Management for Management Consultancy (H)
   MG402 Public Management: A Strategic Approach (H)
   MG418 Open Innovation (H)
   MG423 Leading Entrepreneurial Organisations in Global Markets (H) (not available 2017/18)
   MG482 Innovation and Technology Management (H)
   PH425 Business and Organisational Ethics (H)

A course from another programme with permission of the Programme Director *

7 MG4D7 Dissertation in Management Information Systems and Digital Innovation (H)

MY401 Research Design for Studies in Digital Innovation (H)

Notes * means by special permission only.
### MSc in Marketing

**Programme Code:** TMMK  
**Department:** Management  

*This information is for the 2017/18 session.*  

Full-year programme. Students must take four compulsory courses and options to the value of two units as shown below. Students must also complete the pre-sessional course MG4E7 Business Fundamentals.

#### Disciplinary streams

**Operational Research (withdrawn 2017/18)**

3  MG4C1 Techniques of Operational Research (H) (withdrawn 2017/18)

4  MG4C8 Model Building in Mathematical Programming (H) (withdrawn 2017/18)

5  One of the following half-unit courses:

   - MG4O5 Behavioural Decision Science (H) (not available 2017/18)
   - MG4O9 Auctions and Game Theory (H)
   - MG4S5 Consumer Insights II: Judgement and Decision Making (H) (not available 2017/18)
   - MG4S6 Analytics for Strategic Decisions (H)
   - MG4A2 Operational Research and Decision Sciences in Practice (H) (not available 2017/18)

6 & 7  Two of the following half-unit courses:

   - AC491 Financial Accounting, Reporting and Disclosure (H)
   - MA419 Search Games (H) (not available 2017/18)
   - MG423 Leading Entrepreneurial Organisations in Global Markets (H) (not available 2017/18)
   - MG425 Global Business Management (H) (not available 2017/18)
   - ST422 Time Series (H)

Any course listed in Paper 5 above.

A course from any other MSc programme §

### Decision Sciences (not available 2017/18)

3  MG455 Behavioural Decision Science for Management and Policy (H) (not available 2017/18)

4  MG456 Analytics for Strategic Decisions (H)

5  One of the following half-unit courses:

   - MA430 Efficient Algorithms for Hard Optimisation Problems (H) (not available 2017/18)
   - MA431 Advanced Topics in Operational Research and Applicable Mathematics (H) (formerly MG4B1 Advanced Topics in Operational Research) (not available 2017/18)
   - MG405 Behavioural Decision Science (H) (not available 2017/18)
   - MG409 Auctions and Game Theory (H)
   - MG4A2 Operational Research and Decision Sciences in Practice (H) (not available 2017/18)
   - MG4C1 Techniques of Operational Research (H) (withdrawn 2017/18)

6 & 7  Two of the following:

   - MA402 Game Theory 1 (H)
   - MG401 Operations Management for Management Consultancy (H)
   - MG423 Leading Entrepreneurial Organisations in Global Markets (H) (not available 2017/18)
   - MG425 Global Business Management (H) (not available 2017/18)
   - PS445 Organizational and Social Decision Making (H)

Any other course listed in Paper 5.

A course from any other MSc programme §

MSc in Media and Communications
(Data and Society)

Programme Code: TMMECDS
Department: Media & Communications

This information is for the 2017/18 session.

Full-year programme. Students must take courses to the value of three full units and a dissertation as shown below.

1. MC408 Theories and Concepts in Media and Communications I (Key concepts and interdisciplinary approaches) (H)
   MC418 Theories and Concepts in Media and Communications II (Processes of communication in modern life) (H)

2. MC4M1 Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (H)

3. Optional courses to the value of 1.5 units from the following:
   LL4S1 Cyberlaw (H)
   MC409 Media, Technology and Everyday Life (H)
   MC422 Critical Studies in Media and Journalism (H)
   MC425 Interpersonal Mediated Communication (H)
   MC427 Digital Media Futures (H)
   MC433 Technology and Justice (H)
   MC434 Digital Platforms and Media Infrastructures:

4. MC499 Dissertation (10,000-12,000 words)*

Notes
* Passing this course is a requirement for passing the programme
MSc in Media and Communications (Research)
Programme Code: TMMECRE
Department: Media & Communications
This information is for the 2017/18 session.
Full year programme. Students must take courses to the value of three full units and a dissertation as shown below.

Paper Course number and title
1 MC408 Theories and Concepts in Media and Communications I (Key concepts and interdisciplinary approaches) (H)
2 MC4M2 Advanced Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) *
3 Courses to the value of 1.5 units from the following:
   MC404 Political Communication (H)
   MC407 International Media and The Global South (H)
   MC409 Media, Technology and Everyday Life (H)
   MC416 Representation in the Age of Globalisation (H)
   MC418 Theories and Concepts in Media and Communications II (Processes of communication in modern life) (H)
   MC422 Critical Studies in Media and Journalism (H)
   MC423 Global Media Industries (H)
   MC425 Interpersonal Mediated Communication (H) (not available 2017/18)
   MC426 Film Theory and World Cinema (H)
   MC427 Digital Media Futures (H) (not available 2017/18)
   MC432 Strategic Communication in Practice: Professional Perspective (H)
   MC433 Technology and Justice (H)
   MC434 Digital Platforms and Media Infrastructures: Socio-economic Development (H)
Students can take no more than one full unit of courses outside the Department of Media and Communications (non MC-prefixed courses) * Passing this course is a requirement for passing the programme.

4 MC499 Dissertation (10,000-12,000 words) *

Notes * Passing this course is a requirement for passing the programme.
Students can take up to one full unit of courses outside the Department of Media and Communications Department (non MC-prefixed courses)

MSc in Operations Research & Analytics
Programme code: TMORA
Department: Mathematics
This information is for the 2017/18 session.
Full-year programme. Students must take three compulsory courses, options to the value of 1.5 units and a project or dissertation as shown.

Paper Course number and title
1 MA423 Fundamentals of Operations Research (H)
2 MA424 Modelling in Operations Research (H)
3 ST447 Data Analysis and Statistical Methods (H)
4 One course from the following:
   MA407 Algorithms and Computation (H)
   MA421 Advanced Algorithms (H)
   MA427 Mathematical Optimisation (H)
   MA428 Combinatorial Optimisation (H)
   MA429 Algorithmic Techniques for Data Mining (H)
   MA430 Efficient Algorithms for Hard Optimisation Problems (H) (not available 2017/18)
5 One course from the following:
   MG401 Operations Management for Management Consultancy (H)
   MG403 Pricing Strategy (H)
   MG405 Behavioural Decision Science (H) (not available 2017/18)
   MG409 Auctions and Game Theory (H) *
   MG422 Thinking Strategically (H) *
   MG455 Consumer Insights II: Judgement and Decision Making (H) (not available 2017/18)
   MG456 Analytics for Strategic Decisions (H)
   MG481 Innovating Organisational Information Technology (H)
   MG483 International Marketing: A Strategic Approach (H)
Another course from the list under Paper 4 above, with approval of the Programme Director.
6 One course from the following:
   MA402 Game Theory I (H) *
   MA408 Discrete Mathematics and Graph Theory (H)
   MA409 Continuous Time Optimisation (H)
   MA410 Information, Communication and Cryptography (H)
   MA431 Advanced Topics in Operations Research and Applicable Mathematics (H) (formerly MG4B4 Advanced Topics in Operational Research) (not available 2017/18)
   ST409 Stochastic Processes (H)
   ST422 Time Series (H)
MSc in Organisational and Social Psychology

Programme code: TMOSOPS

Department: Psychological and Behavioural Science

This information is for the 2017/18 session.

Full-year programme. Students must take two compulsory courses, optional courses to the value of one unit and a dissertation as shown.

### MSc in Political Science and Political Economy

**Programme code:** TMPSPE  
**Department:** Government  
**This information is for the 2017/18 session.**

Full-year programme. Students must take courses to the value of three full units and a dissertation as shown below.

Students are strongly recommended to take the non-assessed pre-sessional course GV4J7. Students who wish to choose an option from Paper 6 must relate to GV414.

**Paper** | **Course number and title**  
--- | ---  
1 | GV481 Political Science and Political Economy (H)  
2 | GV4C8 Game Theory for Political Science (H)  
3 | MY452 Applied Regression Analysis (H)  
   | (Must be taken in Term 1. Course can be substituted with an option from Paper 6 if a student can demonstrate they have already taken a course with multivariate regression.)  
4 | MY457 Causal Inference for Observational and Experimental Studies (H)  
5 | One of the following:  
   | GV454 Parties, Elections and Governments (H) (not available 2017/18)  
   | GV482 Political Science and Political Economy: Advanced Topics (H) (not available 2017/18)  
   | GV4A2 Citizens' Political Behaviour in Europe: Elections Public Opinion and Identities (H)  
   | GV4A3 Social Choice Theory and Democracy (H) (not available 2017/18)  
   | GV4C4 Legislative Politics: US (H) (cannot be taken with GV4C6) (not available 2017/18)  
   | GV4C5 Politics of Economic Policy (H)  
   | GV4C6 Legislative Politics: European Parliament (H) (cannot be taken with GV4C4) (not available 2017/18)  
   | GV4F8 Institutions in the Global Economy (H)  
   | GV4G1 Applied Quantitative Methods for Political  
   | Science (H)  
   | GV4H6 Behavioural and Experimental Political Economy (H) (not available 2017/18)  
   | GV4J3 Public Opinion, Political Psychology and Citizenship (H)  
   | GV4J4 Game Theory for Research (H) (not available 2017/18)  

6 | One half unit course (or if MY452 is not taken under Paper 3, courses to the value of one full unit). A second course listed under Paper 5, above.  
   | GV431 Development Management  
   | GV491 Economic Development Policy II: Microeconomic Analysis (H)  
   | GV492 Economic Development Policy III: Government Policy Analysis (H)  
   | EH404 India and the World Economy, 1750-1950 (H)  
   | EH408 International Migration, 1500-2000: from slavery to asylum (H)  
   | EH409 Chinese Economy in Transition: 1850-1950 (H) (not available 2017/18)  
   | EH413 African Economic Development in Historical Perspective (H) (not available 2017/18)  
   | EH421 Economic History of Colonialism (H)  
   | EH423 Japan and Korea as Developing Economics (H)  
   | EH446 Economic Development in East and Southeast Asia (not available 2017/18)  
   | EH451 Latin American Development: Political Economy of Growth (H) (withdrawn 2017/18)  
   | EH452 Latin American Development and Economic History (H)  
   | EH454 Human Health in History  
   | EH486 Shipping and Sea Power in Asian Waters c1600-1860 (H)  
   | EH491 Dissertation in the Political Economy of Late Development (H) (6,000 words on a topic that must relate to EH414)  

7 | GV499 Dissertation  

**Notes**  
- * Courses with restricted access, which require the approval of the course convenor.
- Courses with restricted access, which require the approval of the Programme Convenor.
- Courses with restricted access, which require the approval of the course convenor.

### MSc in Political Sociology

**Programme code:** TMPSOSO  
**Department:** Sociology  
**This information is for the 2017/18 session.**

Full-year programme. Students must take three courses and a dissertation as shown.

**Paper** | **Course number and title**  
--- | ---  
1 | SO407 Politics and Society  
2 | One full unit or two half units from the following:  
   | EU425 Interest Representation and Economic Policy-Making in Europe (H) (not available 2017/18)  
   | EU447 Democracy, Ideology and the European State (H)  
   | EU460 European Society and Politics beyond the Nation State (H) (withdrawn 2017/18)  
   | EU481 The Future: Political Responses to a Challenge
MSc in Political Theory

Programme code: TMPOTY
Department: Government

This information is for the 2017/18 session.

Full-year programme. Students must take 2.5 course units, a compulsory course (0.5 units) and dissertation (1 unit) as shown. Part-time students may take up to four half unit courses in their first year.

Paper Course number and title
1,2,3,4 & 5 Courses to the value of 2.5 units but no more than
1.5 units in any one term:
• GV408 Contemporary Disputes about Justice (H)
• GV422 Globalisation and Democracy (H) (not available 2017/18)
• GV476 Twentieth-Century European Liberal Thought (H) (withdrawn 2017/18)
• GV498 Multiculturalism (H) (not available 2017/18)
• GV4A3 Social Choice Theory and Democracy (H) (not available 2017/18)
• GV4B6 Kant’s Political Philosophy (H)
• GV4B7 The Liberal Idea of Freedom (H)
• GV4D7 Dilemmas of Equality (H)
• GV4F5 Advanced Study of Key Political Thinkers (H)
• GV4F7 The Political Theory of Juergen Habermas (H) (withdrawn 2017/18)
• GV4G7 Marx and Marxism (H)
• GV4H1 Chinese Political Thought (H) (not available 2017/18)
• GV4H3 Feminist Political Theory (H)
• GV4H5 The Politics and Philosophy of Environmental Change (H)

• GV4M6 Modern African Political Philosophy (H)

Students can take courses to the value of one full unit from the following:
• IR462 Introduction to International Political Theory (H)
• IR463 The International Political Theory of Humanitarian Intervention (H) (withdrawn 2017/18)
• IR464 The Politics of International Law (H)
• PH416 Philosophy, Morals and Politics

A half-unit course from the Government or another department §

6 GV4H4 Foundations of Political Theory (H)
7 GV499 Dissertation

Notes § means by special permission only.

MSc in Politics and Communication

Programme code: TMPDCOM
Department: Media & Communications

This information is for the 2017/18 session.

Full-year programme. Students must take courses to the value of three full units and a dissertation as shown below.

Paper Course number and title
1 MC404 Political Communication (H)
MC408 Theories and Concepts in Media and Communications I (Key concepts and interdisciplinary approaches) (H)
2 MC419 Modern Campaigning Politics (H)
MC4M1 Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (H)
3 Options to the value of 1.0 units:
• MC401 Mediated Resistance and Citizens (H) (not available 2017/18)
• MC402 The Audience in Media and Communications (H)
• MC403 Contemporary Issues in Media and Communications Regulation (H)
• MC405 Policy and Practice in ICTs and Development (H)
• MC422 Critical Studies in Media and Journalism (H)
• MC425 Interpersonal Mediated Communication (H) (not available 2017/18)
• MC428 Media Culture and Neoliberalism in the Global South (H)
• MC432 Strategic Communication in Practice: Professional Perspectives (H)
• MC433 Technology and Justice (H)

Any other MSc-level course which is offered in the School, subject to the consent of the candidate’s programme convenor

4 MC499 Dissertation (10,000-12,000 words)*

Notes * Students can take no more than one full unit of courses from outside the Department of Media and Communications (non-MC-prefixed courses)

* Passing this course is a requirement for passing the programme.

MSc in Population and Development

Programme code: TMPNDV
Department: International Development

This information is for the 2017/18 session.

Full-year programme. Students must take courses to the value of three full units, non-assessed course SA4C1 and a dissertation as shown.

Paper Course number and title
1,2,3 Courses to the value of 3.0 units:
• GV499 Dissertation

4 GV499 Dissertation (10,000-12,000 words)*

Students can take course to the value of 0.5 units from the following courses:

• SA4C1 Development Economics (H)

Notes * Students can take no more than one full unit of courses from outside the Department of International Development and Economics (non-TMPNDV-prefixed courses)

* Passing this course is a requirement for passing the programme.
1. **DV400** Development: History, Theory and Policy or DV442 Key Issues in Development Studies (H) and one other half-unit DV course from Paper 3 below

2. **Two half-units from:**
   - DV411 Population and Development: An Analytic Approach (H)
   - DV456 Planning for Population and Development (H)
   - DV458 Demographic Change and Development (H) (not available 2017/18)
   - SA481 Population Analysis: Methods and Models (H)
   - SA4D2 Global Health and Population Change (H)

3. **Two half-units or one full unit from:**
   - Any courses not taken from Paper 2 above
   - DV400 Development: History, Theory and Policy (if not already taken under Paper 1)
   - DV407 Poverty (H)
   - DV413 Environmental Problems and Development Interventions (H)
   - DV418 African Development (H)
   - DV420 Complex Emergencies (H)
   - DV421 Global Health and Development (H)
   - DV428 Managing Humanitarianism (H)
   - DV442 Key Issues in Development Studies (H) (if not already taken under Paper 1)
   - DV455 Advocacy, Campaigning and Grassroots Activism (H)
   - DV457 Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (H)
   - GI414 Theorising Gender and Social Policy (H)
   - GI417 Gender, Population and Policy (H) (not available 2017/18)
   - GY421 Gender and Development: Geographical Perspectives (H) (not available 2017/18)
   - GY431 Cities, People and Poverty in the South (H)
   - HP403 Health Systems and Policies in Developing Countries (H)
   - PS418 Health Communication (H)
   - SA4F1 Migration: Current Research, Critical Approaches (H)
   - SA4H7 Urbanisation and Social Policy in the Global South (H)
   - SA4N5 Global Ageing (H) (not available 2017/18)

*Any other course approved by tutor*

4. **SA4C1** Long Essay and the Research Process (not assessed)

5. **DV459** Dissertation on Population and Development, to be handed in by 1 September

**Notes**
- By special permission only.
- It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of Social Policy (ie not prefixed with 'SA'). For further information please see lse.ac.uk/socialPolicyCourses.

### Master of Public Administration (MPA)

**Programme code:** TMMPA

**Policy stream codes:** TMEUPM (European Policy-Making)  
TMINDE (International Development)  
TMPEP (Public and Economic Policy)  
TMPFM (Public Policy and Management)  
TMSPP (Public and Social Policy)  
TMSOCI (Social Impact)

**Department:** Institute of Public Affairs

For first and second year students in 2017/18 except for second year Public Policy and Management students and second year European Public and Economic Policy students.

The programme is taught over two academic years (21 months).

- Some courses have a unit value of 1.0 and some have a unit value of 0.5 (H).
- To be awarded the degree, students must complete courses to the value of 8 units in total over two years.

There are three types of courses:
1. Compulsory courses, studied by all students;
2. Policy Stream courses, which students will take depending on which Policy Stream (specialism) they choose at the start of Year 2;
3. Optional courses

During Year 1 - All students must complete the three Compulsory Courses:

**Paper**  |  **Course number and title**
---|---
1 | EC440 Micro and Macro Economics (for Public Policy)
2 | EC455 Quantitative Approaches and Policy Analysis
3 | GI478 Political Science and Public Policy

In addition, in Year 1, all students must complete courses to the value of one unit from the list of options under Paper 4 of the Master of Public Administration (MPA)

**Notes**
- By special permission only.
- All students must complete the three Compulsory Courses.
- Any courses not taken from Paper 2 above
- Any course with a credit value of 1.0, or two courses which both have a credit value of 0.5.

### Year 2 at Columbia University, Sciences Po, the Hertie School of Governance, the Lee Kuan Yew School of Public Policy or the University of Tokyo Graduate School of Public Policy

On successful completion of the first year of that programme at LSE, students who have accepted an offer of a dual degree place will transfer to the MPA Dual Degree. See the MPA criteria for progression from Year 1 to Year 2. [https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/assets/Documents/Calendar/SchemeMPA-inOrAfter2011-12.pdf](https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/assets/Documents/Calendar/SchemeMPA-inOrAfter2011-12.pdf)

Students will follow the second year of the MPA programme at SIPA, Columbia University, the MPP programme at Sciences Po, the MPP programme at Hertie, the MPP programme at Lee Kuan Yew or the MPP/IP at the University of Tokyo Graduate School of Public Policy.

### Route 2

**Year 1 at Columbia University, Sciences Po, the Hertie School of Governance, the Lee Kuan Yew School of Public Policy or the University of Tokyo Graduate School of Public Policy**

Students will follow the first year of the MPA/MIA programme at SIPA, Columbia University, the MPP programme at Sciences Po, the MPP programme at Hertie, the MPP programme at Lee Kuan Yew or the MPP/IP at the University of Tokyo Graduate School of Public Policy.

**Year 2 at LSE**

Students must take courses to the value of four units as set out below:

**Paper**  |  **Course number and title**
---|---
1 | EC4B3 or GV4B3 or DV4B3 or EU4B3 or MG4K3 or SA4K3 MPA Capstone Project
2-4 | Plus one of the following: EC4V8 or DV4V8 or DV4A8 or EU4V8 or MG4V8 or SA4V8 MPA Policy Paper (H) and 2.5 units of optional courses or EC4B4 or DV4B4 or DV4A4 or EU4B4 or MG4K4 or SA4K4 MPA Dissertation and 2 units of optional courses
5 | Three units of optional courses

---

**MPA Dual Degree**

**Programme codes:**
- TMDMPA2 (LSE & Columbia) (21 months)
- TMDMPA3 (LSE & Sciences Po) (21 months)
- TMDMPA4 (LSE & Hertie) (21 months)
- TMDMPA5 (LSE & NUS / Lee Kuan Yew) (21 months)
- TMDMPA6 (LSE & Tokyo / GraSPP) (24 months)

**Department:** Institute of Public Affairs

These regulations apply to students entering in or after the 2014/15 academic year.

For all first and second year students in 2017/18.

**Route 1**

**Year 1 at LSE**

**Before Year 1** - All students attend the MPA pre-sessional course (EC408) unless exempted
3. Optional courses.
   Note that some courses on one Policy Stream may be optional courses on other Policy Streams.
   No interim award is available: students completing courses with a unit value of less than 8.0 receive no award, regardless of performance in the courses that have been successfully completed.

Students can apply to spend their second year at one of the LSE MPA Partner Institutions. If offered a place and upon successful completion of year one, the student will transfer onto the Dual MPA Programme.

Before Year 1
All students attend the MPA pre-sessional course EC408 (unless exempted).

</tbody>
</table>

**Notes**

Students may not take both the MPA Dissertation and the MPA Policy Paper.

Total unit value 8 = Compulsory courses (4) + Policy Stream courses (1 or 2 units depending on the stream) + Optional courses (3 or 2 units depending on which Policy Stream is chosen).

See the Scheme for the award of MPA degrees students entering in or after 2011/12 for MPA programme criteria for progression https://info.lse.ac.uk/Staff/Divisions/Academic-Registraeer-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeMPA-InOrAfter2011-12.pdf.
At the start of Year 2, all students must select one of the six Policy Streams: (i) Public and Economic Policy; or (ii) Public Policy and Management; or (iii) International Development; or (iv) European Policy-Making; or (v) Public and Social Policy; or (vi) Social Impact.

Policy Stream courses:

**Public and Economic Policy** - Students must complete two of the following three half unit courses:
- EC410 Public Economics for Public Policy (H) (designed for Year 2 students; only available in Year 1 with permission from the Programme Director)
- EC418 Globalisation and Economic Policy (H) (designed for Year 2 students; only available in Year 1 with permission from the Programme Director)
- EC419 Methods of Economic Policy Analysis (not available in Year 1)

**Public Policy and Management** - Students must complete two of the following four half-unit courses:
- GV434 Fiscal Governance and Budgeting (H)
- MG4E4 Analytic frameworks for policy evaluation (H)
- MG4E5 Governance, Markets and Competition in the Delivery of Public Services (H)
- MG4G3 Designing and Managing Change in the Public Sector (H)

**International Development** - Students must complete, or have completed in Year 1:
- DV448 Political Economy of Development I (H) and DV449 Political Economy of Development II (H) and EC454 Development Economics (not available in Year 1)

**European Public and Economic Policy** - Students must complete, or have completed in Year 1:
- EU452 Political Economy of Europe
- EU479 EU Policy-Making and International Cooperation (H) and EU480 Policy-Making in Europe: System Challenges

**Public and Social Policy** - Students must complete, or have completed in Year 1:
- SA4X6 Welfare Analysis and Measurement

Optional courses:

Courses from the MPA Options List

Notes:

Students may not take both the MPA Dissertation and the MPA Policy Paper. Total unit value 8 = Compulsory courses (4) + Policy Stream courses (1 or 2 units depending on the stream) + Optional courses (3 or 2 units depending on which Policy Stream is chosen).

See the Scheme for the award of MPA degrees students entering in or after 2011/12 for MPA programme criteria for progression. https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeMPA-InOrAfter2011-12.pdf.

**Master of Public Administration (MPA)**

**Programme code:** TMMPA  
**Policy stream codes:** TMEUPEP (European Public and Economic Policy)  
TMINDE (International Development)  
TMPEP (Public and Economic Policy)  
TMPPM (Public Policy and Management)  
TMPSP (Public and Social Policy)  
TMSSOI (Social Impact)

**Department:** Institute of Public Affairs  
These regulations apply to second year MPA in Public Policy and Management students only, who entered in the 2016/17 academic year. The regulations for all other MPA students are available here.

**For second year students in 2017/18.**

The programme is taught over two academic years (21 months). Some courses have a unit value of 1.0 and some have a unit value of 0.5 (H). To be awarded the degree, students must complete courses to the value of 8 units in total over two years. There are three types of courses:
1. Compulsory courses, studied by all students;
2. Policy Stream courses, which students will take depending on which Policy Stream (specialism) they choose at the start of Year 2;
3. Optional courses.

Note that some courses on one Policy Stream may be optional courses on other Policy Streams.

No interim award is available: students completing courses with a unit value of less than 8.0 receive no award, regardless of performance in the courses that have been successfully completed.

Students can apply to spend their second year at one of the LSE MPA Partner Institutions. If offered a place and upon successful completion of performance in the courses that have been successfully completed, the student will transfer onto the Dual MPA Programme.

Before Year 1

All students attend the MPA pre-sessional course EC408 (unless exempted).

Notes
** Because of the extremely demanding standard of LSE Economics, these options are available only to students with very good first degrees in Economics and with the permission of the Economics Department. Any student wishing to take these courses must be admitted to the September Introductory Course in Mathematics and Statistics (EC400) at the beginning of their first or second year and pass the course examinations. Students taking more than one Economics option must take one of EC402, EC411 or EC413.
MSc in Psychology of Economic Life

Programme code: TMPSECL
Department: Psychological and Behavioural Science

This information is for the 2017/18 session.

Full-year programme. Students are required to take two compulsory courses, optional courses to the value of one unit and a dissertation as shown. Students are also required to take PS443A Psychological and Behavioural Science.

Paper Course number and title
1 PS465 Psychology of Economic Life
   Students also take the unassessed course: PS443A Psychological and Behavioural Science
2 PS4A5 Methods for Social Psychology Research: Fundamental Qualitative and Fundamental Quantitative Methods

3 Courses to the value of one unit from the following:
   PS409 Political Psychology of Intercultural Relations (H)
   PS410 Social Representations (H)
   PS411 Current Communications Research (H)
   PS415 Social Psychology of Economic Life: Advanced Topics (H)
   PS418 Health Communication (H)
   PS421 Issues in Social Psychology: Group Dynamics (H)
   PS428 Knowledge Processes in Organizations (H) (not available 2017/18)
   PS438 Corporate Communications (H)
   PS439 Science, Technology and Resistance (H)

   PS466 Happiness (H)
   PS467 Behavioural Science (H)
   A course from another programme (subject to the approval of the Candidate's Programme Director)
   PS497 Dissertat

4 Notes * Failures in this course cannot be condoned. A bad fail is defined as a mark less than 29%.

MSc in Public Policy and Administration

Programme code: TMPPA
Department: Government

This information is for the 2017/18 session.

Full-year programme. Students must take courses to the value of 2.5 units and a skills course and dissertation as shown. Part-time students may take courses up to the value of two full course units in their first year. Candidates may, subject to the approval of their supervisor, substitute for up to two of the written papers listed under Paper 3 below, any paper which is offered in the MSc, LLM or MA which involves at least 20 weeks of an integrated teaching programme and which counts as one quarter (or one full unit) of the complete MSc programme in which it is offered. By choosing particular combinations of core courses, students can choose to have the title of a specialised stream added to the title of their degree:

MSc Public Policy and Administration (Comparative); or MSc Public Policy and Administration (Public Management).

Paper Course number and title
1 GV4E9 Approaches and Issues in Public Policy and Administration
2 Either
   GV477 Comparative Public Policy Change (H)
   GV483 Public Management Theory and Doctrine (H)
   Or
   GV4F4 Policy Advice in Theory and Practice (H)
   Or
   GV4C8 Game Theory for Political Science (H)
   GV4E4 Public Budgeting and Financial Management (withdrawn 2017/18)

MSc in Social Research Methods

*Programme code:* TMSORM

**Department:** Methodology

*This information is for the 2017/18 session.*

Full-year programme.

Part 1: Social Research Methods. Students must take courses to the value of two full units and a dissertation as shown.

Part 2: Optional courses. For all students other than those on the ‘Gender,’ ‘Population’ or ‘Social Policy’ streams of the MSc Social Research Methods, courses to the value of one full unit can be taken from the courses listed under the heading ‘Part 2 Optional Courses’ below. Students on the ‘Gender,’ ‘Population’ or ‘Social Policy’ streams of the MSc must select courses from the options listed under their respective headings at the foot of the ‘Part 2 Optional Courses’ section below.

**Part 1 Social Research Methods**

<table>

<tbody>
<tr>
<td>1</td>
<td>One of the following combinations of two half-unit courses: MY451M Introduction to Quantitative Analysis (H) and MY452L Applied Regression Analysis (H) MY452M or MY452L Applied Regression Analysis (H) And another half-unit course in advanced quantitative methods (MY45*, subject to the approval of the student’s Academic Adviser) § MY452M or MY452L Applied Regression Analysis (H) And another half-unit course in statistics (ST4**, subject to the approval of the student’s Academic Adviser) §</td>
</tr>
<tr>
<td>2</td>
<td>MY400 Fundamentals of Social Science Research Design (H) And</td>
</tr>
<tr>
<td>3</td>
<td>MY421M or MY421L Qualitative Research Methods (H) # MY499 Dissertation (August)</td>
</tr>
</tbody>
</table>

**Notes** It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of Social Policy (ie not prefixed with ‘SA’). For further information please see lse.ac.uk/socialPolicyCourses. Students outside the degree programme who opt to take SA4J8 will be required to take part in a three day residential workshop on applied social planning at Cumberland Lodge in Windsor Great Park, during the Lent term. The cost of this three day workshop is £200.
Notes § Exceptionally, students who can demonstrate an understanding of quantitative research methods commensurate with those covered in MY452 can substitute a more advanced MY45* course in for MY452. This would be subject to the approval of the student’s Academic Adviser. Please note that in such cases, the substitute course will be treated as a ‘course critical to assessment’ in place of MY452 (see Exam Sub-Board local rules for more information). Exceptionally students who can demonstrate an understanding of qualitative research methods commensurate with those covered in MY421 can substitute a more advanced MY42* course in for MY421. This would be subject to the approval of the student’s Academic Adviser. Please note that in cases where a student substitutes a course in for MY421, the substitute course will be treated as a ‘course critical to assessment’ in place of MY421 (see Exam Sub-Board local rules for more information).

Part 2 Optional Courses
Courses to the value of one unit from the following: (access is not guaranteed for any option and course choices are subject to timetabling constraints)

- MY405 Research Methods for Evaluation in Health, Development and Public Policy (H)
- MY426 Doing Ethnography (H)
- MY427 Qualitative Research With Non-Traditional Data (H)
- MY428 Qualitative Text Analysis (H) (not available 2017/18)
- MY454 Applied Statistical Computing using R (H)
- MY455 Multivariate Analysis and Measurement (H)
- MY456 Survey Methodology (H)
- MY457 Causal Inference for Observational and Experimental Studies (H)
- MY459 Special Topics in Quantitative Analysis: Quantitative Text Analysis (H)
- MY461 Social Network Analysis (H)
- MY472 Data Structures, Databases and Data Sharing (H) (not available 2017/18)
- DV434 Human Security (H) (not available 2017/18)
- MG405 Behavioural Decision Science (H)
- PS421 Issues in Social Psychology: Group Dynamics (H)
- SA451 Social Policy Research
- SO407 Politics and Society
- ST416 Multilevel Modelling (H)
- ST425 Statistical Inference: Principles, Methods and Computation
- ST442 Longitudinal Data Analysis (H) (not available 2017/18)

Or any other Graduate level courses from across the LSE (subject to approval of the student’s Academic Adviser). Please note that in such cases, the substitute course will be treated as a ‘course critical to assessment’ in place of MY421.

Gender Stream

One compulsory unit:

- GI402 Gender, Knowledge and Research Practice (H)
- GI424 Gender Theories in the Modern World: An Interdisciplinary Approach (H)

One optional half unit graduate level course (typically from the Department of Gender Studies) as agreed with your Academic Adviser.

Population Stream

One compulsory half-unit:

- SA441 Population Analysis: Methods and Models (H)

One half-unit from the following:

- DV411 Population and Development: an Analytical Approach (H)
- DV426 Planning for Population and Development (H)
- DV457 Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (H)
- DV458 Demographic Change and Development (H) (not available 2017/18)
- GI415 Gender and European Welfare States (H)
- GI417 Gender, Population and Policy (H) (not available 2017/18)
- SA401 Critical Population Health Issues in High and Middle-Income Countries (H)
- SA402 Global Health and Population Change (H)

Social Policy Stream

One compulsory unit:

- SA451 Social Policy Research

MSc in Sociology

The Bologna Process facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School’s taught master’s programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

MSc in Strategic Communications

Programme Code: TMSTRCOM

Executive Taught Master’s Programme Regulations
Executive MSc in Behavioural Science
Programme code: TMBSEX
Department: Psychological and Behavioural Science
For all first and second year students in 2017/18.
16 month, part-time modular programme consisting of three full units of taught courses and one full unit dissertation. Alternative exit points are available to students who are not able to complete the degree. An LSE Diploma is available on the completion of six taught courses and an LSE Certificate on the completion of four taught courses.

Paper Course number and title
Year 1
1 PS468E Behavioural Science and Policy (H)
2 MG406E Behavioural Decision Science (H)
3 PS469E Research Methods for Behavioural Science (H)
4 PS470E Policy Appraisal and Impact Assessment (H) or PS472E Corporate Behaviour and Decision Making (H)
5 PH426E Philosophy and Public Policy (H)
6 MG407E Goals and Motivation for Individuals and Teams (H)

Year 2
7 PS471E Dissertation in Behavioural Science

Executive MSc in Cities
Programme code: TMCIEX
Department: Sociology
For all first and second year students in 2017/18.
18 month programme. Students take four compulsory half-unit courses, one optional full-unit course and an Urban Consultancy Project.

Paper Course number and title
Year 1
1 SO4A1 Governing Cities in an Urban Age: Challenges and Opportunities (H)
2 SO4A2 Cities and Society: Design and Social Cohesion (H)
3 SO4A3 Cities and the Economy: Urban Economic Development and Finance (H)
4 SO4A4 Cities and the Environment: Urban Environmental Transitions (H)

Or
SO4A5 Urban Infrastructure and Strategic Planning
SO4A6 Urban Development and Masterplanning

Year 2
4 SO4A7 Urban Consultancy Project *
   * To progress to the Urban Consultancy Project, students will need to have passed any two of the four half unit compulsory courses.

Executive Global MSc in Management
Programme Code: TMGLMG
Department: Management
These regulations apply to students entering in or after the 2015/16 academic year.

For all first and second year students in 2017/18.
A 17 month programme. Students take eight compulsory half unit courses (four units in total) and two non-assessed courses in Leadership in Practice (MG454) and Foundations of Management 2: Financial Control and Governance (modular) (MG457).

Paper Course number and title
Year 1
1 MG440 Managerial Economics (modular) (H)
2 MG441 Foundations of Management (modular) (H)
3 MG443 Organisational Behaviour (modular) (H)
4 FM475 Financial Management (modular) (H)
5 MG445 Marketing Strategy (modular) (H)

Year 2
6 MG446 Strategy, Organisation and Innovation (modular) (H)
7 MG447 Foreign Direct Investment and Emerging Markets (modular) (H)
8 MG498 Dissertation/Capstone Project (modular) (H)

Executive Global Masters in Management - Progression Rules
Candidates who attain at least a Pass grade in MG440, MG441 and MG443 will be eligible to proceed into the second year. FM475 and MG445 are not required for progression.

A student who does not meet this criterion must resit all failed/deferred papers in accordance with the resit process detailed below. If, following the resit attempt, a student:
• has attained at least a Pass grade in each of the first year papers, he/she will be eligible to proceed into the second year.
• has attained at least a Pass grade in at least one of the first year papers, he/she will be eligible to proceed into the second year.
• at the discretion of the Chair of the Sub-Board of Examiners, and subject to ratification by the Graduate School Board of Examiners (GSBE).
• has failed all of the first year papers, he/she will not be eligible to proceed into the second year, as he/she will no longer be able to successfully complete the programme according to the School’s Scheme for the Award of a Taught Master's Degree (four units). The marks of any student who fails to pass two papers over the course of the programme will be subject to the penalty rules stipulated at paragraph 3.2 of the School's Scheme for the Award of a Taught Master’s Degree (four units).

Executive Global Masters in Management - Resit Process
A student shall normally be entitled to re-sit any failed courses only (on one occasion). For first year courses required for progression, where the individual assessment takes the form of an assignment or take home exam, once grades have been ratified, the faculty member responsible for the failed first year course will set the new paper and deadline for re-submission to take place as soon as possible and before the beginning of the second year. Results for resits and any subsequent progression will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be deemed to have failed the course.

The results of first year courses FM475 and MG445 will be formally ratified by the Sub-Board of Examiners and Graduate School Board of Examiners in November. If it is determined that as a result of a fail in one or both of these courses an award cannot be made the faculty member responsible for the failed course will set the new paper and deadline for re-submission to take place as soon as possible. A candidate resitting these courses cannot graduate until the July Sub-Board and Graduate School Board of Examiners has met to ratify their results.

For second year courses, once grades have been ratified by the Sub-Board of Examiners and it is determined that an award cannot be made, the faculty member responsible for the failed second year course will set the new paper and deadline for re-submission to take place as soon as possible. Results for resits and subsequent classification will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be...
deemed to have failed the course. Resits for second year courses will result in delayed Graduation.

Executive MSc in Health Economics, Policy and Management

Programme code: TMHEPMEX
Department: Health Policy

For all first and second year students in 2017/18. Students take four compulsory half unit courses, options to the value of two units, and a dissertation.

Executive LLM

Programme Code: TMLL2EX
Department: Law

This information is for the 2017/18 session.

1. The general regulations for MA and MSc Degrees and the Code of Practice for Taught Masters Programmes in the online Calendar apply to the Executive LLM programme except in the event of inconsistency when these regulations for the Executive LLM take priority.

2. In order to obtain the Degree, students must complete eight Executive LLM courses (see list below). Students must complete the requirements as a part-time student over a period of four years, or with the approval of the Programme Director within a period of six years. The minimum period within which the Degree can be completed is three years.

3. Alternative exit points are available to students who are not able to complete the Degree. An LSE Diploma in Legal Studies is available on completion of six courses and a Certificate of Legal Studies on the completion of four courses. There is no minimum period for completion of the alternative exit points of Certificate of Legal Studies or Diploma in Legal Studies.

4. Courses should be chosen from the list below and are subject to availability as not every course will be offered each year. Subject to the availability of teaching staff, it is intended that every course be offered at least once within the four year degree period. No other courses at LSE or elsewhere may be taken as part of the Executive LLM programme.

Intensive Teaching

5. The Executive LLM courses will be taught in short intensive week-long sessions, which will typically be taught in the first half of April, September and December. Each course will provide between 24 and 26 hours of contact teaching time. Teaching will normally run from Monday to Friday. However, in the exceptional event where a course cannot be taught on the set weekday/s (e.g. due to last minute teacher illness), teaching may be extended to the Saturday and Sunday morning of that week. Accordingly, students are expected to book trains or flights for the day before teaching commences and should, where possible, book return trains or flights on the Sunday afternoon or evening following the completion of the course.

6. Where there is student demand we may elect also to offer some courses in two intensive weekends. The two weekends will not be more than four weekends apart. Where courses are offered in the intensive weekend format the same course will also be offered in week-long intensive format at least once every four years.

Payment of Fees

7. All Executive LLM offer holders will be required to pay a Registration Fee within 14 days of receiving their offer of admission. The registration fee is non-refundable. Only on receipt of the registration fee, may students register onto the programme. Registered students are then required to pay a per course tuition fee in advance of their chosen course date, to secure their place. Students will only be permitted to attend a module if payment is received in time. Fee payment deadlines can be found at: lse.ac.uk/intranet/LEServices/financeDivision/feesAndStudentFinance/Payingfees/Executivprogrammes.aspx#llm

8. The registration fee is non-refundable. If you withdraw from the course before starting a session or are unable to attend a session for which you have registered, all module fees will be credited to a module in a later session. You must inform the Programme Manager if you are unable to attend a module you are registered for. In exceptional circumstances, at the Director’s discretion, the funds paid for that session will be refunded. Changes in fee levels may occur over the course of the programme. The student will remain liable for any difference between the fees chargeable at the later session and the fee credit from the module which the student withdrew from. Module fees are non-refundable, and will not be credited to another session, if you have attended classes but withdraw before the assessment.

9. It is our intention to offer each advertised module at least once during the four year degree period. This may not always be possible due, for example, to teacher illness or resignation. It is possible that a module may need to be cancelled at short notice, such as where the teacher is unavailable or participant numbers are very low. If this happens, students will be given the option of taking another module during the same session or, alternatively, the fees paid towards that module will be held in credit for your next chosen module/session or refunded if preferred. Students will be informed of the withdrawal of a module no later than two weeks prior to the commencement of the module.

Assessment

10. All Executive LLM courses are assessed by either take-home examination or 8,000 word extended essay.

11. To comply with the Department’s writing requirement at master’s level, all students are required to write one extended essay of 8,000 words as the assessment for one of their courses to obtain the Degree, the Diploma or the Certificate. Students are not permitted to take more than three courses assessed by extended essay to obtain the Degree or the Diploma or more than one course assessed by extended essay to obtain a Certificate.

12. Extended essays must not exceed the set word limit and must be submitted by a set deadline. Students must provide evidence of original work or a capacity for critical analysis. Students will be required, at the time of submission of their work, to sign a
statement on plagiarism. An oral examination may be held if the examiners so determine.
13. The take-home examinations will be set two months after the completion of the intensive teaching. The date of the examination will be provided at the date courses are available for selection. They will be uploaded and submitted electronically.
14. All students are required to write an extended essay of 8,000 words as the assessment for one of their courses to obtain the Degree, the Diploma or the Certificate. Students are not permitted to take more than three courses assessed by extended essay to obtain the Degree or the Diploma or more than one course assessed by extended essay to obtain a Certificate. The extended essay topic will be set by the course teacher. The student may propose essay topics and ideas to the teacher.
15. All students will be required to be online during the examination period in case there is any need to contact them.
16. Students will be able to re-sit a course examination once. A re-sit examination will be set as soon as possible after the student is notified of the failure. At the Programme Director’s sole discretion in lieu of a re-sit or deferred examination the student may be required to submit an 8,000 word essay. This can only occur when the student has not already completed the maximum of three 8,000 word essays.
17. Any student who fails an exam twice in the same course will not be able to proceed to complete the Executive LLM programme. Students will not be able to proceed to take further courses if at the first sit and the re-sit examination are both bad fails or if the failure is not a bad fail but the student has failed another course following the re-sit. If such a student has already successfully completed 4 courses or 6 courses prior to such a failure, the student will be awarded a Certificate of Legal Studies or Diploma of Legal Studies.

Registration
18. The maximum period of registration on the programme is six years. Therefore completion of all the degree requirements (or Diploma, Certificate) must be within a six year period.

Course Completion Rate
19. Students will be expected to take one to two courses per year. Any student who fails to take a course for a two year period will be asked to provide reasons for the failure to complete courses. Any student who following such a request either fails to provide a response to the Programme Director or fails to complete a course in the year following the giving of these reasons, may be deregistered from the programme.

Degree Certificate
20. Students who successfully complete the Executive LLM examination requirements may elect to have one of the following titles attached to their degree certificate if, in the opinion of the Programme Director of the LLM, the title reflects the course of study followed by the student. This would mean taking a minimum of 4 courses within a specialist area. The possible titles are listed below with the courses attached to those areas listed with them. If no such election is made, the LLM degree certificate will state ‘LLM’ without further specification.

Courses
Corporate and Commercial Law
LL400E European Capital Markets Law (H)
LL415E Fundamentals of International Commercial Arbitration (H)
LL416E Advanced Issues of International Commercial Arbitration (H)
LL417E International Commercial Contracts: General Principles (H)
LL418E Comparative Corporate Governance (H)
LL419E Law of Corporate Finance (H)
LL431E Takeover Regulation in the US and UK (H)
LL432E Mergers, Acquisitions and Restructurings (H)
LL433E State and Market in the EU (H)
LL438E Regulation of Financial Markets I (H)
LL439E UK Corporate Law (H)
LL441E Employment Law (H)
LL442E Insolvency Law-Principles, Rescue and Reconstruction Processes (H)
LL443E Corporate Bankruptcy (H)
LL445E Cultural Property and Heritage Law (H)
LL446E Art and Antiquities Law (H)

Financial Law and Regulation
LL400E European Capital Markets Law (H)
LL406E Regulation of Financial Markets I (H)
LL407E Regulation of Financial Markets II (H)
LL410E International Financial Law and Practice I (H)
LL411E International Financial Law and Practice II (H)
LL419E Law of Corporate Finance (H)
LL431E Takeover Regulation in the US and UK (H)
LL434E Regulation: Strategies, Theories and Implementation (H)
LL443E Corporate Bankruptcy (H)
LL445E Cultural Property and Heritage Law (H)
LL446E Art and Antiquities Law (H)

Regulating Innovation, Communication and Technology
LL423E Media Law. Regulating Publication (H)
LL424E Media Law. Regulating News Gathering (H)
LL425E Competition Law (H)
LL433E State and Market in the EU (H)
LL435E Innovation, Technology and Patent Law (H)
LL440E Digital Rights, Privacy and Security (H)
LL449E Cyberlaw (H)

Human Rights and Constitutional Law
LL403E International Human Rights: Concepts, Law and Practice (H)
LL404E European and UK Human Rights Law (H)
LL408E Comparative Constitutional Law: Institutions (H)
LL409E Comparative Constitutional Law: Rights (H)
LL426E Theory of Human Rights Law (H)
LL427E Constitutional Law and Theory (H)
LL436E Rethinking EU Law (H)
LL448E Terrorism and the Rule of Law (H)

International Law
LL401E Law of Armed Conflict (H)
LL402E Key Issues in Transnational Environmental Law (H)
LL403E International Human Rights: Concepts, Law and Practice (H)
LL412E International Economic Law I (H)
LL413E International Economic Law II (H)
LL420E International Law and Climate Change (H)
LL430E Investment Treaty Law (H)
LL437E International Criminal Law (H)
LL444E International Law and the Use of Force (H)
LL447E International Law: Courts and Tribunals (H)
LL448E Terrorism and the Rule of Law (H)

EU Law
LL403E European Capital Markets Law (H)
LL402E Key Issues in Transnational Environmental Law (H)
LL404E European and UK Human Rights Law (H)
LL425E Competition Law (H)
LL432E Mergers, Acquisitions and Restructurings (H)
LL441E Employment Law (H)
LL433E State and Market in the EU (H)
LL436E Rethinking EU Law (H)

Courses with no Specialism Area
LL405E Dispute Resolution and Advanced Mediation (H)
LL445E Cultural Property and Heritage Law (H)
LL446E Art and Antiquities Law (H)

Executive Master of Public Administration
Programme code: TMMPAEX
For all first and second year students in 2017/18.

The EMPA is a 19 month programme. Students must take courses to the value of eight half units as set out below.

Year 1 and 2 at LSE
Paper | Course number and title
--- | ---
1 | GV4G8E Public Policy in Practice Workshop I (EMPA) (H)
2 | GV4G7E Political Science and Public Policy (H)
3 | EC455E Empirical Methods for Public Policy (H)
4 | GV4G9E Public Policy in Practice Workshop II (EMPA) (H)
An LSE Diploma is available on the completion of six courses and an LSE Certificate on the completion of four courses.

Candidates who attain at least a Pass grade in each of the Year 1 courses GV4J1E, GV478E and EC455E will be eligible to progress to Year 2. The Year 1 course GV4J2E will not count towards progression but the grade will count towards the final degree classification.

Students wishing to defer the submission of one or more assessment components must seek permission according to the Regulations for Taught Masters Degrees prior to the assessment due date, except in the case of unforeseen and exceptional circumstances. Students deferring one or more assessment components in Year 1 may exceptionally progress to Year 2 and submit any deferred assessment at the next normal opportunity, if they complete and pass two of the three half units GV4J1E, GV478E and EC455E in Year 1.

Students failing one but not more than one of GV4J1E, GV478E and EC455E in Year 1 will normally be able to progress to Year 2, although this fail will count towards their degree classification according to the Scheme for the Award of a Taught Master’s Degree. Students failing more than one of GV4J1E, GV478E and EC455E in Year 1 have to re-sit relevant assessment components and pass the required number of half units before they can progress to Year 2. Students are permitted to re-sit failed exams in line with the School’s Regulations for Taught Master’s Degrees. The Sub-Board may recommend to the Graduate School Board of Examiners (GSBE) that a student can progress to year two of the programme even if they have not met the normal application of the progression rules. This can only be done on an exceptional basis where:

(a) the Sub-Board has determined that a student has demonstrated that their progression has been affected by circumstances beyond their control through the exceptional circumstances procedure and,

(b) the GSBE approves the Sub-Board’s recommendation.

---

### MSc in Political Economy of Europe

**Programme code:** TMPOECEU2

**Department:** European Institute

**This information is for the 2017/18 session.**

Full-year programme. Students must take one compulsory course, optional courses to the value of two units (at least one unit of courses listed under Paper 2) and a dissertation as shown. Additionally, all students must take EU410 Interdisciplinary Research Methods and Design and EU450 Engaging with Europe: Professional Skills, in preparation for the dissertation. Students without some background in economics are strongly encouraged to take EU409 Basic Economic Concepts for European Political Economy as an additional course to support their studies.

MSc in EU Politics

Programme code: TMEUPOL2
Department: European Institute

This information is for the 2017/18 session.

Students must take courses to the value of three units and a dissertation as shown. Additionally, all students must take EU465 Research Methods and Design in EU Politics, and if their timetable allows, EU450 Engaging with Europe: Professional Skills, in preparation for the dissertation.

Paper Course number and title
Part I: Foundation
1 Students must choose two out of the following three courses:
   EU421 Policy-Making in the European Union (H) (cannot be taken with IR431 - not available 2017/18)
   EU435 History and Theory of European Integration (H)
   IR416 The EU in the World

Part II: Optional courses
2 & 3 Any courses which in combination with the foundation courses bring the total list of courses to the value of three units. If students wish their optional courses to result in a degree specialism, their chosen optional courses must come to a total value of at least one full unit from that specialism. Only one specialism is permitted. Courses from the heading 'Methods' cannot be taken with IR431 - not available 2017/18)

529 Web Designs for Organizations (4, Fa/Sp)
530 Social Dynamics of Communication Technologies (4, Sp/Sm)
531 Communication and the International Economy (4, Fa)
532 Development of American Media Industry (4, Fa)
533 Emerging Communication Technologies (4, Fa/Sp)
534 The Culture of New Technologies (4, Fa/Sp)
535 Virtual Groups and Organizations (4, Fa/Sp)
540 Uses of Communication Research (4, Fa/Sp)
541 Integrated Communication Strategies (4, Sp)
542 Business Strategies of Communication and Entertainment Firms (4, Sp)
543 Managing Communication in the Entertainment Industry (4, Fa)
544 The Arts and New Media (4, Fa)
545 Communication and Global Competition (4, Sp)
546 Seminar in Diffusion Theory and Research (4, 2 years, Sp)
547 Distribution of Recordings: Media, Retail and Online Channels (4, Sp)
548 Issues in Children’s Media (4, Sp)
553 Political Economy of Global Telecommunications and Information (4, Sp)
557 Communication Policy in the Global Marketplace (4, Fa)
558 The International Entertainment Marketplace (4, Fa)
559 Globalization, Communication and Society (4, Fa)
560 Communications Policy (4, Fa/Sm)
562 Cognitive Approaches to Communication (4, 2 years, Fa)
565 Communication Law and Broadcasting (4, Fa/Sp)
566 Communication Law and New Technologies (4, Sp)
567 Internet Policy, Practice and Regulation (4, Fa/Sp)
570 Economics of the Communication Industries (4, Fa)
571 Communications Technologies (4, Fa/Sp)
572 Telephone, Data, and Video Telecommunication Systems (4, Sp)
573 Evaluating Communication Needs (4, Sp)
574 Tele-Media: A Strategic and Critical Analysis (4, Fa/Sp)
575 Advocacy and Social Change in Entertainment and the Media (4, Fa)
576 Communication Strategies for Conflict Management (4, Sm)
577 Media and Politics (4, Fa/Sp)
578 Media in Social Services: Design and Evaluation of Campaigns (4, Fa)
582 International Communication: National Development (4, Sm)
583 Global Entertainment Education Programs (4, Sp)
584 Seminar: Interpreting Popular Culture (4, Fa)
585 Organizational Communication (4, 2 years, Sp)
587 Audience Analysis (4, Fa)
605 Advanced Macro Theories of Communication I (4, 2 years, Sp)
610 Studies in Rhetorical Theory (4, max 8, Fa/Sp/Sm)
618 Mass Media Effects (4, Fa)
620 Communication in Organizations (4, 2 years, Sp)
625 Theory Construction in Communication (4, Sm)
629 Global Culture (4, Fa)
630 Communication Technology and Social Change (4, Sp)
631x Minds and Media (4, Sp)
635 Economics of Information (4, Sp)
636 Interpretive and Cultural Approaches in Organizational Communication (4, 2 years, Fa)
637 Current Readings in Organizational Communication (4, 2 years, Sp)
638 Global, International and Intercultural Communication in Organizations (4, 2 years, Fa)
640 Communication and Organizational Change (4, Fa)
645 Communication Networks (4, 2 years, Sp)
646 Negotiating Boundaries in Environmental Research (2)
647x Seminar on the Network Society (4, Fa)
650 Maximum on HEQF Level 7 (4000 level)
654 Two of the following:
655 Communication, Technology and Social Change (4, Sp)
656 Communication Law and New Technologies (4, Sp)
657 Internet Policy, Practice and Regulation (4, Fa/Sp)
658 Economics of the Communication Industries (4, Fa)
659 Communications Technologies (4, Fa/Sm)
660 Telephone, Data, and Video Telecommunication Systems (4, Sp)
661 Evaluating Communication Needs (4, Sp)
662 Cognitive Approaches to Communication (4, 2 years, Fa)
665 Communication Law and Broadcasting (4, Fa/Sp)
666 Communication Law and New Technologies (4, Sp)
667 Internet Policy, Practice and Regulation (4, Fa/Sp)
668 Economics of the Communication Industries (4, Fa)

Elective courses
Students select one F elective and one S elective course from the list below. Not all electives may be offered every year and only one elective may be on HEQF Level 8 (4000 level).§:

AM4007F Narrative Literary Journalism
FAM4010F Media Markets and Media Strategy
FAM4013F Political Communication
FAM4017F Advanced Television Analysis
FAM4032F Understanding Public Argumentation
FAM4033F Screenwriting

Taught Master’s Course Guides
AC411  Half Unit

Accounting, Strategy and Control

This information is for the 2017/18 session.

Teacher responsible: Prof Wim Van der Stede OLD 2.18

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Management, MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions and MSc in Law and Accounting.

This course is available with permission as an outside option to students on other programmes where regulations permit.

Other students may be admitted only with the agreement, in writing, of the MSc (Accounting) Course Tutor if they have sufficient relevant background knowledge.

The course is capped to three sections of around 55 students; ie 165 total.

Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, “must have” courses.

Late registration or changes to earlier course choices may be unsuccessful.

Course content: This course provides an advanced overview of current theoretical and practical developments in the area of organisational control, which is an essential function of management to ensure that the organisation’s objectives and strategies are carried out effectively. Good management control increases the probability of organisational success. Specifically, the course discusses what it means to have an organisation be in control, what alternatives managers have for ensuring good control, and how managers should choose from among various control system alternatives. Then we will focus on each of the elements of financial control systems, which provide the dominant form of control in the vast majority of decentralised organisations. These elements include financial target setting, performance measurement and evaluation and the assignment of various forms of organisational rewards, such as bonuses and promotions. The latter part of the course extends these key notions of management control from the intra-organisational level to the inter-organisational level, highlighting some of the difficulties involved in organisational control of new, fluid, inter-organisational settings and configurations, such as joint-ventures and various types of alliances, often involving global alliance partners.

The course will cover the following topics:

- Strategy and the design of management control systems, including strategic and operational plans and budgets
- Management control alternatives, including results controls, and organisational architecture
- Decision rights and results accountability in decentralised organisations
- Incentive compensation systems, including short-term and long-term incentive plans
- Performance measurement and evaluation, including objective and subjective performance evaluations
- Management control in inter-organisational relationships, including joint-ventures

As a final note, the discipline of management accounting is often partitioned into (1) management control systems and (2) cost and management accounting systems, where the latter is the key focus of another course, AC415. AC411 can, but is not required, to be taken with AC415. Students can take either AC411 or AC415, or both.

Teaching: 30 hours of seminars in the MT.

Note: Week 1 of MT is reserved for an intensive pre-session course for MSc Accounting and Finance students; therefore, main courses, including AC411, start in Week 2 of Michaelmas term; hence, teaching is during 10 weeks from Week 2 through 11. Specifically, AC411 consists of 10 principal topics delivered in two sessions of 1.5 hours each week. The first session each week typically provides an introduction, conceptual analysis, and discussion of the key features of the organisational control issues. The second session offers a further discussion and expansion of the issues through case studies.

The course study discussions permit the exploration of management control issues in a broad range of settings. The case method of instruction, however, requires good advance preparation by the students, and every person should be ready to contribute to the case discussions when called upon. Students should expect to be “cold called” and not count on being able to hide behind classmates who volunteer to participate. Active participation is also expected and encouraged during non-case sessions.

Formative coursework: Students are expected to come to each session prepared having done the assigned readings and having prepared the assigned cases.

Indicative reading: A detailed reading list is laid out for each session on the syllabus.

Assessment: Exam (70%, duration: 2 hours) in the LT week 0. Essay (15%) in the MT. Project (15%) in January.

Students are required to complete two essays during term-time (totaling 15% of the mark for the course), a group project, due in January (15%), and a final exam (70%).

AC412  Half Unit

Accountability, Organisations and Risk Management

This information is for the 2017/18 session.

Teacher responsible: Dr Martin Giraudreau KSW 3.08

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Accounting, MSc in Accounting and Finance, MSc in Economy, Risk and Society , MSc in Law and Accounting, MSc in Management and Regulation of Risk, MSc in Public Policy and Administration and MSc in Risk and Finance.

This course is available with permission as an outside option to students on other programmes where regulations permit.

Other students may be admitted only with the agreement, in writing, of the MSc (Accounting) Course Tutor.

Course content: This is an advanced course focusing on the organisational and institutional settings within which risk is managed.

The first five lectures explore the intersections of risk and corporate governance, by focusing on the risks that arise at top management and board of directors level, including lack of external oversight, executive pay issues, board interlocks, and strategic irreversibility. The last five lectures deal with key issues in organisational responses to risk and uncertainty, including the impact of disasters and accidents and the growing formalisation and standardisation of risk management practice. The overall purpose of the course is to provide students with a critical appreciation of the management of risk as an organisational and social process. The course is necessarily cross-disciplinary, drawing on scholarship within accounting, organisational sociology and regulation studies.

Teaching: 20 hours of lectures and 9 hours of classes in the LT. 2 hours of lectures in the ST.
In week 6 there will be a reading and feedback week.

**Formative coursework:** Two pieces of written work will be assessed during the term but the grades will not count towards the overall course assessment.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**AC415 Half Unit**

**Management Accounting for Decision Making**

This is for the 2017/18 session.

**Teacher responsible:** Prof Bjorn Jorgensen Old 2.17

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MPhil/PhD in Accounting, MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions and MSc in Law and Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course cannot be taken concurrently with: **AC490**

**Management Accounting, Decisions and Control**

Other students may be admitted only with the agreement, in writing, of the MSc (Accounting) Course Tutor if they have sufficient relevant background knowledge.

The course is capped to two sections of around 50 students; ie, 100 total. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, "must have" courses. Late registration or changes to earlier course choices may be unsuccessful.

**Course content:** This course is focused on management accounting, which is a key function in organisations that involves developing and using financial and non-financial information to support decision making, not only in a technical sense, but bearing in mind that the way in which management accounting systems are designed and implemented often determines whether employees will be motivated to act in ways that are congruent with the objectives of the organisation.

The discipline of management accounting is often partitioned into (1) cost and management accounting systems and (2) management control systems, where the latter is the key focus of another course, AC411. AC415 can, but is not required to, be taken with AC411. Students can take AC411 or AC415, or both. Returning to AC415, while financial accounting requires that product cost information be accumulated in particular ways for external reporting, the focus in AC415 is on cost and other accounting and non-accounting information systems that aid managerial decision making. This includes the study of management accounting systems in widespread use today as well as an analysis of the problems associated with these systems in today's business environment (such as their tendency to provide distorted product cost information), as well as approaches to mitigate these problems (eg, activity-based costing; use of non-financial information).

With the above brief overview in mind, this course analyses key concepts which form the discipline of management accounting:

- Product costing and pricing
- Activity-based costing/management (ABC/ABM)
- Profitability and variance analysis
- Transfer pricing including tax considerations for international transactions
- Performance measurement and incentive compensation systems
- ROI, EVA, and other performance metrics

**Teaching:** 33 hours of seminars in the LT.

That is, AC415 is delivered in two sessions of 1.5 hours each week. Each session is conducted in groups of circa 55 students and is almost exclusively taught by way of the case method of instruction. Case studies permit the exploration of management accounting issues in a broad range of settings. The case method of instruction, however, requires good advance preparation by the students, and every person should be ready to contribute to the case discussion when called upon. Students should expect to be "cold called" and not count on being able to hide behind classmates who volunteer to participate.

**Formative coursework:** Students are expected to come to each session prepared having done the assigned readings and having prepared the assigned cases.

**Indicative reading:** A detailed reading list is laid out for each session on the syllabus.

**Reference textbook:** Horngen, Sundem, Burgstahler, and Schatzberg, Introduction to Management Accounting, 16e (Prentice Hall, 2014).

**Assessment:** Exam (75%, duration: 2 hours) in the main exam period.

Other (10%) and other (15%) in the LT.

Other: Case Assignment (10%) during LT and Project (15%) during LT.

Thus, students are required to complete two assignments during term time (totalling 25% of the mark for the course) and a final exam (75%).

---

**AC416 Half Unit**

**Topics in Financial Reporting**

This is for the 2017/18 session.

**Teacher responsible:** Dr Maria Manuel Correia Old 3.12

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance and MSc in Law and Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit.

Other students may be admitted if they have knowledge of financial accounting acquired at undergraduate level, and only with the agreement, in writing, of the MSc (Accounting and Finance) Course Tutor.

The course is capped to four sections of around 50 students; ie, 200 total. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, "must have" courses. Late registration or changes to earlier course choices may be unsuccessful.

**Pre-requisites:** Students must have completed Quantitative Writing, of the MSc (Accounting) Course Tutor if they have prepared the assigned cases.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

Formative coursework: Two pieces of written work will be assessed during the term but the grades will not count towards the overall course assessment.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

Formative coursework: Two pieces of written work will be assessed during the term but the grades will not count towards the overall course assessment.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

Formative coursework: Two pieces of written work will be assessed during the term but the grades will not count towards the overall course assessment.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
Methods in Accounting and Finance (AC480). Prior knowledge of financial accounting is assumed. AC480 is a pre-requisite for students with no/little prior knowledge of financial accounting.

Course content: Corporate financial statements are a key source of information about the economic activities of a firm. This course is intended to enhance the student’s ability to relate economic events to financial statements and disclosures. It also seeks to aid in developing a coordinated set of concepts and principles to serve as a framework for analysing a wide variety of financial reporting issues. The goal is to enable students to understand the mapping between underlying economic events and the information in financial statements, and how this mapping affects inferences about the economic activities and position of the firm. The course also explores the regulatory environment and political climate, and how these link with the introduction of new standards and their underlying theories. Students are encouraged to relate economic events to diverse practices in financial statements, and to think critically of ongoing controversies and debates.

The emphasis of this course is on understanding and critical thinking, rather than bookkeeping. The course draws heavily on academic literature on the suggested topics.

The course objectives are achieved through teaching a variety of financial reporting issues and topics including the following: standard setting with respect to the conceptual frameworks; accounting for business combinations; accounting for value creation with special emphasis on cash flows statements and revenue recognition; capital markets efficiency; corporate disclosure, and corporate governance. Most topics are covered from an International Financial Reporting Standards and/or United States Generally Accepted Accounting Principles perspective. Detailed choice of topics will be determined by those lecturing on the course and may vary to some extent from year to year.

Knowledge of basic accounting is assumed.

Teaching: 30 hours of seminars in the MT.

Teaching is delivered in two one and a half hour sessions each week. Each session is conducted in groups of about 55 students, often involving case study analyses and group discussions. This mode of teaching requires good advance preparation by the students; hence, every student should be ready to contribute to the discussion when called upon. Active participation is expected and encouraged.

Formative coursework: Students will be expected to produce 2 problem sets in the MT.

Assessment: Exam (100%, duration: 1 hour and 30 minutes, reading time: 15 minutes) in the LT week 0.

Other students may be admitted if they have knowledge of financial accounting and finance acquired at undergraduate level, and only with the agreement, in writing, of the MSc (Accounting and Finance) Course Tutor.

The course is capped to two sections of around 55 students; ie, 110 total. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, “must have” courses. Late registration or changes to earlier course choices may be unsuccessful.

Course content: Investors view firms through the lens of financial accounting and reporting. This course aims to examine this lens by covering topics on the interaction of financial accounting and reporting with capital markets with a focus on corporate disclosure and communication strategies. The course views corporate financial reporting as an information system and reviews the theories and empirical regularities on the demand for and supply of accounting information in capital markets while also assessing the stock market impact of communication strategies.

Some of the topics covered in the course include: Determinants of accounting choices; Capital markets and the earnings game; Voluntary disclosure theory and practices; The signalling role of accounting information; Capital market consequences of accounting and disclosure choices; Financial reporting and corporate governance; The course is based on a number of theories, empirical applications, and case studies, so that students gain an understanding firm’s corporate information environment and communication strategies.

Detailed choice of subjects will be determined by those lecturing on the course and may vary to some extent from year to year. Knowledge of basic accounting and finance is assumed.

Teaching: 33 hours of seminars in the LT.

Teaching is delivered in three hour sessions each week. Each session is conducted in groups of about 50 students, often involving case study analyses, application exercises and group presentations and discussions. This mode of teaching requires good advance preparation by the students; hence, every student should be ready to contribute to the discussion when called upon. Active participation is expected and encouraged.

Formative coursework: Students will be expected to produce 2 case studies in the LT.

Formative assessment will be in the form of class exercises and case-studies on topics covered during the course. Students will be expected to hand in two assignments in the LT.

Assessment: Exam (60%, duration: 2 hours, reading time: 10 minutes) in the main exam period.

Project (20%) and class participation (20%).

AC417 Half Unit
Corporate Financial Disclosure and Investor Relations

This information is for the 2017/18 session.
Teacher responsible: Dr Vasiliki Athanasakou OLD 2 20 and Dr Pascal Frantz OLD 3 07
Availability: This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions and MSc in Law and Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit.

AC424 Accounting, Organisations and Institutions

This information is for the 2017/18 session.
Teacher responsible: Prof Michael Power KSW 3 12
Availability: This course is compulsory on the MSc in Accounting, Organisations and Institutions. This course is available with
permission as an outside option to students on other programmes where regulations permit.
This course is not available to other students except in special circumstances and with the written permission of the Course Director.
Pre-requisites: There are no specific pre-requisites and the course does not require a background in accounting. Pre-sessional training in the form of various intensive sessions prior to the start of term will be offered for those who need a brief 'technical' preparation for the Programme.

Course content: The objective of the course is to provide students with an advanced, social science based understanding of the changing role and position of accounting practices in organisations, both public and private, and in societies more generally. Students will be exposed to advanced thinking about how accounting practices are more than a collection of routine self-evident techniques but are shaped by their institutional contexts, have behavioural consequences and can represent different values. We will focus on how the fundamental assumptions of internal and external accounting practices are institutional in nature and are shaped by social and political aspirations. The role of accountants and other agents involved in the production and consumption of accounting numbers will also be addressed. The course will emphasise the inter-relations between technical, organisational and institutional issues. While some technical accounting knowledge will be helpful, it is not essential and each lecture will provide the necessary technical foundations.

Indicative topics, include: Foundations: Reporting, Calculation and Transparency; The Users of Accounting; Accounting and the Notion of "Entity"; Audit and Assurance: The Audit Society; Organisational Boundaries, Structure and Control; Accountability, Incentives and Performance; Accounting for Sustainability; Organisational Failure. Risk Management, Accountability and Corporate Governance; Disasters, Accidents and Errors; Organisations and the Management of Uncertainty; The Risk Management Process; Mapping and Communicating Risk in Organisations, Organisations, Security and Resilience; Corporate Governance: Board Functioning, Gatekeepers, Executive Compensation, Regulation.

Teaching: 30 hours of seminars and 2 hours of workshops in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 2 hours of lectures in the ST.
This course has a reading and feedback week in Week 6 of both MT and LT.

Formative coursework: Students will be required to produce two pieces of written work per term. This may take the form of either an essay, or the analysis of a case, and may also include in-class presentation and team-based work. This work will be assessed, but the grades will not count towards the overall course assessment.

Assessment: Exam (50%, duration: 2 hours) in the main exam period. Essay (50%, 6000 words) in the ST.
The Essay will be due early in the ST.

AC425 MSc Accounting, Organisations and Institutions: Pre-sessional course
This information is for the 2017/18 session.
Teacher responsible: Prof Michael Power KSW 3.12
Availability: This course is available on the MSc in Accounting, Organisations and Institutions. This course is available with permission as an outside option to students on other programmes where regulations permit.

Organisations and Institutions. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is available on the MSc in Accounting, Organisations and Institutions. This course is available with permission as an outside option to students on other programmes where regulations permit.
The course is normally only available to MSc Accounting, Organisations and Institutions students. The purpose of this pre-sessional is to acquaint students without any prior, or little, background in accounting to the basic approach to be adopted on the core course AC424. Students with some prior background in accounting will find the session to be useful as a "refresher" about accounting fundamentals, but are also advised to take AC480 Quantitative Methods in Accounting and Finance if they wish to take advanced accounting options.

Course content: Introduction to Accounting, Organizations and Institutions.
Teaching: The sessions are held in September before the start of MT.

Formative coursework: Study materials for the pre-sessional will be made available by means of selected handouts.

Assessment: There is no assessment.

AC444 Half Unit Valuation and Security Analysis
This information is for the 2017/18 session.
Teacher responsible: Dr Pascal Frantz OL D 3.07 and Mr Jose Carabias Palmeiro OLD 2.13
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions, MSc in Law and Accounting, MSc in Management and Regulation of Risk, MSc in Management and Strategy and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.
Other students may be admitted to the course if they have a reasonable knowledge of financial accounting and finance acquired at undergraduate or equivalent level, and only with the agreement, in writing, of the teacher responsible for this course. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available.

Organisations and Institutions students. The purpose of this pre-sessional is to acquaint students without any prior, or little, background in accounting to the basic approach to be adopted on the core course AC424. Students with some prior background in accounting will find the session to be useful as a "refresher" about accounting fundamentals, but are also advised to take AC480 Quantitative Methods in Accounting and Finance if they wish to take advanced accounting options.

Course content: The aim of this course is to introduce students to security analysis and valuation from both theoretical and empirical perspectives. Students are furthermore provided with an opportunity to apply their skills by valuing, in small groups, from the point of view of a "sell-side analyst", a firm’s equity of their choice using technologies based on the present values of free cash flows and economic value added. The course should appeal to students interested in investment analysis and fund management.
The course is presented in three parts. The first part, financial analysis, focuses on past and present performance evaluation,
which is used by financial analysts to generate expectations about future performance (prospective analysis). The second part, security valuation, focuses on the determination of intrinsic security prices, which, in efficient markets, reflect prospective performance. The third part, returns to fundamental and technical analysis, provides empirical evidence on returns to trading strategies based on either financial analysis or past stock returns.

**Teaching:** 30 hours of seminars in the LT.

Teaching is delivered in three hour sessions each week. Each session is conducted in groups of about 55 students, often involving case study analyses, individual or group presentations and discussions. This mode of teaching requires good advance preparation by the students; hence, every student should be ready to contribute to the discussion when called upon. Active participation is expected and encouraged.

**Assessment:** Exam (70%), duration: 2 hours) in the main exam period.

Project (30%) in the LT.

---

**AC470 Half Unit Accounting in the Global Economy**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Andrea Mennicken KSW 3.09

**Availability:** This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions, MSc in Development Management, MSc in International Political Economy, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Regulation and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit. The course is capped to one section of 55 students. Students on the waiting list will be admitted on a first-come first-served basis.

**Pre-requisites:** There are no specific pre-requisites and the course does not require a background in accounting.

**Course content:** This course examines the fast changing practices and institutions of accounting in the global economy, with a particular emphasis on the roles of accounting in global financial governance. International accounting and auditing standards have been advocated as a way of enhancing global financial stability, so as to stimulate the flow of cross-national investment, expand the scope for market-oriented development, and integrate local enterprises into global financial markets. This course critically examines dynamics of accounting regulation, including international standard-setting and consequences for financial statement users, business entities and wider local and global stakeholders.

**Topics include:** Political, institutional and economic influences in changing national and international financial reporting frameworks. The political economy of accounting standard-setting. The work of the International Accounting Standards Board (IASB), the European Union, national accounting bodies, and their political and economic environments. The effects of national financial reporting requirements and international Financial Reporting Standards (IFRS) on business entities and economic development, particularly developing and emerging economies (including the BRIC countries: Brazil, Russia, India, China). The enforcement of financial reporting requirements through auditors, securities regulators, the World Bank and others. Specific technical challenges (for example, impairment tests, derivatives and other financial instruments, fair value accounting and intangible assets).

The course explores issues from different theoretical perspectives through comparative empirical analysis.

**Teaching:** 30 hours of seminars in the MT. (Note: Week 1 of MT is reserved for an intensive pre-session course for MSc Accounting and Finance students; therefore, main courses, including AC470, start in Week 2 of MT; hence, teaching is for 10 weeks from weeks 2-11.)

A 2-hour essay workshop and also a revision session in week 11 of MT.

It is intended to run a small number of additional sessions with invited speakers who are centrally involved at a senior level in the setting, enforcement and convergence of international accounting regulations. Further details will be provided at the start of the session.

**Formative coursework:** Students are expected to come to each session prepared having done the assigned readings and having prepared the assigned class discussion questions. In addition, students are required to write an assessed essay of 3,500-4,000 words, to be submitted after the Christmas break. The word limit excludes the bibliography. This written work forms 40% of the overall assessment. A workshop will be held in preparation for the essay assignment. Individual feedback will be given on essay outlines. Further readings, exercises and case studies are set for class discussion each week.

**Indicative reading:** Detailed reading lists will be given out at the start of the session, and are largely based on academic journal articles. Other readings include policy briefings, regulatory documents, green and white papers, World Bank reports (ROSC). Relevant books: Camfferman & Zeff, Aiming for Global Accounting Standards, 2001-2011 (Oxford University Press, 2015), Botzem, The Politics of Accounting Regulation (Edward Elgar, 2012), Ramanna, Corporate Interest, Ideology and Leadership in the Shaping of Accounting Rules for the Market Economy (University of Chicago Press, 2015), Chapman, Cooper & Miller, Accounting, Organizations and Institutions (Oxford University Press, 2009), Djelic & Quack, Transnational Communities: Shaping Global Economic Governance (Cambridge University Press, 2010), Doupnik, International Accounting (McGraw-Hill, 2014); Nobes & Parker, Comparative International Accounting (Prentice Hall, 2016); Walter, Governing Finance: East Asia's Adoption of International Standards (Cornell University Press, 2008).

**Assessment:** Exam (60%, duration: 1 hour and 30 minutes) in the main exam period.

Essay (40%) in the LT.

Essay: (40%, 3,500-4,000 words) in LT. The 4,000 words exclude the bibliography.

---

**AC480 Quantitative Methods in Accounting and Finance**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Stefano Cascino OLD 3.32

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance and MSc in Law and Accounting. This course is not available as an outside option.

**Course content:** The objective of the course is to provide students with the necessary background required for core accounting and finance courses. The course is organised in three sections:

**Section 1 - “Accounting: Disclosure Principles and Practice”**
provides an overview of fundamental accounting concepts, practices and the main financial statements. This section emphasises users’ perspective rather than preparers’ perspective on financial reporting (eg, for valuation purposes).

**Section 2** “Finance: Quantitative Methods” provides the basic quantitative tools needed for technical MSc courses. This section consists of an introduction to Basic Calculus, Probability and Statistics.

**Teaching:** Teaching takes place over a 9-day period before the start of MT.

**Indicative reading:** A detailed reading list will be provided at the beginning of the course.

**Assessment:** This course is not assessed. However, students will be given a number of application exercises to complete on their own or in groups.

---

**AC490 Half Unit**

**Management Accounting, Decisions and Control**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Alnoor Bhimani

**Availability:** This course is compulsory on the MSc in Accounting, Organisations and Institutions. This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Economics and Management, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation and MSc in Regulation. This course is available with permission as an outside option to students on other programmes where regulations permit.

This introductory course may also be taken by MSc students who have not previously studied accounting subjects. Students in the MSc Accounting and Finance programme are not permitted to enrol in this course or in AC491. This course cannot be taken concurrently with AC415 Management Accounting for Decision Making.

The course is capped at 115 students.

**Course content:** Enterprises must today tackle markets that are affected by global economic and social forces and the extensive advances in internet-based technologies. They must seek success in the face of intense competition including the ever more sophisticated corporate strategies of their competitors. At the same time, the interface between business decisions and management accounting is regarded as becoming more complex and a more significant determinant of high corporate performance. This course provides students with an introduction to issues of accounting information and cost management, managerial decision making and performance measurement. It discusses also the interface between management accounting and technology, corporate strategy, e-business and marketing. The course includes both qualitative and quantitative material. Students should not expect the course to be purely calculations based.

The course will cover:

- established managerial accounting concepts such as cost-volume-profit relationships, overhead cost allocations, activity based costing, the balanced scorecard, target cost management and quality costing;
- the implications for accounting of flexible organisational technologies such as just-in-time systems, enterprise resource planning, computer integrated system and collaborative manufacturing;
- operational, marketing and corporate strategy issues including cost management, e-business and internet-based business models;
- organisational arrangements such as functional and multidivisional firms as well as strategic alliances, joint ventures and virtual enterprises;
- comparative international management accounting systems;
- accounting controls and organisational designs including responsibility centres, financial performance measurements, variance analysis, and incentives;
- strategic accounting tools and practices.

The course will provide participants with:

- an understanding of strategic, market and technological links to management accounting and control practices;
- the ability to apply cutting edge management accounting techniques within competitive business environments;
- a knowledge of interrelationships between behavioural, organisational and cultural issues and management accounting systems.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the LT. There will be a reading week in week 6 of LT. A 2-hour revision lecture will be held in ST or extra office hours will be held.

**Formative coursework:** Students are expected to produce several pieces of written work, including accounting exercises, analyses of case studies, and essays. At least two pieces of written work will be collected for feedback during the course. Students are also required to participate actively in a variety of discussions and debates as part of the class activities.

**Assessment:** Exam (100%, duration: 2 hours and 15 minutes) in the main exam period.

The first 15 minutes will be reading time.

---

**AC491 Half Unit**

**Financial Accounting, Reporting and Disclosure**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Alnoor Bhimani

**Availability:** This course is compulsory on the MSc in Accounting, Organisations and Institutions. This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Economics and Management, MSc in Law and Accounting, MSc in Management and Strategy. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course may also be taken by MSc students who have not previously studied accounting subjects. Students in the MSc Accounting and Finance programme are not permitted to enrol in this course or in AC490. This course cannot be taken concurrently with AC414 Financial Reporting, Capital Markets and Business Combinations or AC420 Financial Reporting in Capital Markets.

The course is capped at 115 students.

**Course content:** This course provides students with an introduction to financial accounting, and highlights aspects of reporting that are important to users of financial information. The course covers the preparation of key financial statements and the frameworks of accounting regulation. The course will also cover accounting issues related to depreciation, goodwill, intangible assets, equity, debt, fair value measurement and consolidation. Students will be introduced to financial statement analysis and research on the use of accounting information in financial markets.

**Teaching:** 20 hours of lectures and 8 hours of seminars in the MT. There will be a reading week in week 6 of MT. 2 hours of lectures in ST.

**Formative coursework:** Students are expected to produce several
AC493  Half Unit

Financial and Management Accounting for Managerial Decision Making

This information is for the 2017/18 session.

Teacher responsible: Dr Henry Eyring, OLD 3.10

Availability: This course is compulsory on the MSc in Management (1 Year Programme). This course is not available as an outside option.

Course content: This course covers introductions to both financial accounting and management accounting. The first part of this course provides students with an introduction to financial accounting, and highlights aspects of financial reporting that are important to users of financial information. It covers the preparation of key financial statements and the frameworks of accounting regulation. The second part of the course provides students with an introduction to management information and cost management, managerial decision making and performance measurement.

Specifically, then, the first half of AC493 is focused on financial accounting, which aims to familiarise students with the principles and some of the techniques of financial accounting and financial reporting as well as some aspects of current regulatory debates on the subject. After the first half of the course, students should be able to:

- Distinguish between cash accounting and accrual accounting, and explain traditional accounting concepts and conventions.
- Draw up simple balance sheets, income statements, cash flow statements, and group accounts, and understand how they are affected by different accounting treatments.
- Use these financial statements to perform financial analysis.
- Discuss the issue of "creative accounting" and frameworks of accounting regulation and the standard-setting process.
- Discuss market influences of accounting information and theories of accounting choice.

The second half of AC493 focuses on management accounting, which is a key function in organisations that involves developing and using financial and non-financial information to support decision making, not only in a technical sense, but bearing in mind that the way in which management accounting systems are designed and implemented often determines whether employees will be motivated to act in ways that are congruent with the objectives of the organisation. The discipline of management accounting is often partitioned into (1) cost and management accounting systems and (2) management control systems, and both components are covered in the second part of the course.

While financial accounting (covered in the first part of the course) requires that product cost information be accumulated in particular ways for external reporting, the focus in the second half of the course is on cost and other accounting and non-accounting information systems that aid managerial decision making.

This includes the study of management accounting systems in widespread use today as well as an analysis of the problems associated with these systems in today's business environment (such as their tendency to provide distorted product cost information), as well as approaches to mitigate these problems (e.g., activity-based costing, use of non-financial information).

Through the second half of the course, students should be able to:

1. Analyse key concepts which form the discipline of management accounting:

- Product costing and pricing;
- Activity based costing/management (ABC/ABM);
- Profitability and variance analysis;
- Performance measurement and evaluation;
- ROI, EVA, and other performance metrics.

2. Possess the skills necessary to use management accounting information to make business decisions.

3. Illustrate how management accounting information can be used to formulate and implement strategy in a variety of organisational settings.

4. Understand how the design and use of management accounting systems affect human behaviour in organisations.

Teaching: 33 hours of lectures in the LT.

This course consists of 11 principal weeks with topics delivered in sessions of 1½ hours twice a week. Each session is conducted in groups of about 65 students. Most sessions make use of case study analyses and real-world applications to bring the materials to life and to apply conceptual knowledge to problems faced in practice. The case study analyses and discussions permit the exploration of accounting issues in broader management perspectives (e.g., large and small firms, manufacturing and service firms, multinational firms, startups). The case method of instruction, however, requires good advance preparation by students, and every student should be ready to contribute to the class discussion when called upon. Students should expect to be 'cold called' and not count on being able to hide behind classmates who volunteer to participate.

Formative coursework: Students are expected to be prepared for the cases and/or other tasks for each session as indicated on the syllabus. Two of these (in Weeks 4 and 8) will be collected and graded as shown below under Assessment.

Indicative reading: Reference Textbook:

Assessment: Exam (80%, duration: 2 hours) in the main exam period.

Coursework (10%) in the Week 4.

Coursework (10%) in the Week 8.
**AC499**

**Dissertation**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Vasiliki Athanasakou OLD 2.20

**Availability:** This course is available on the MSc in Accounting and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will normally elect to take this as an option in paper 3 or 4. Permission to select the long essay option must be obtained from the Programme Director by the end of the third week of MT. Students wishing to select this option must first identify and secure agreement from a member of faculty who is willing to provide supervision for the dissertation. Approval for this option will not be granted if such an agreement is not obtained from an academic staff member.

**Course content:** The dissertation usually consists of an empirical investigation of a selected problem. Occasionally, the dissertation may consist of a survey and critical evaluation of the relevant literature.

The dissertation must identify relevant issues, sustain reasoned argument, and draw supportable conclusions. It must be arranged in an organised manner and include a full bibliography.

**Teaching:** There is no teaching associated with the dissertation, but students who select this option are encouraged to attend the dissertation workshop sessions organised by the Teaching and Learning Centre.

**Arrangements for supervision:** Students writing a dissertation will be supervised by a member of faculty who will not necessarily be their academic supervisor. Students are responsible for identifying an appropriate member of staff to supervise their dissertation essay, and for ensuring the member of staff agrees to provide supervision. As a general rule, supervisors of dissertations will not comment on the work after a discussion of the first draft.

**Assessment:** Dissertation (100%, 10000 words) in the ST. Two typewritten copies of the dissertation must be submitted to the MSc Programme Manager, due by 31 May. The dissertation should be double-spaced, on A4 paper, with a maximum world limit of 10,000 words, not including Appendices. Mark penalties will apply if the word limit is exceeded.

---

**AN402**

**The Anthropology of Religion**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Matthew Engelke OLD 6.12

**Dr Michael W. Scott OLD 6.76**

**Availability:** This course is compulsory on the MSc in Social Anthropology (Religion in the Contemporary World). This course is available on the MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Law, Anthropology and Society and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course covers selected topics in the anthropology of religion, focusing upon relevant theoretical debates. In the Michaelmas term, the focus will also be on understanding through specific ethnographic and empirical case-studies, the ways in which lived religious and social practice and the understanding of religion, get constituted inside and outside ‘Western’ and modern contexts. We will also pay attention to cases in which Western and non-Western definitions are emerging in interplay with each other, including their relation to understandings of modernity and the secular. Current approaches to and reconsiderations of classic topics in the anthropology of religion are also presented; these may include ritual, belief, sacrifice, and the fetish. In the Lent term, we will consider topics such as shamanism, cargo cults, initiation, witchcraft and sorcery, cosmology, and human-nonhuman relations, primarily with reference to ongoing transformations of the indigenous traditions of Melanesia, Africa, Amazonia, Australia, and the circumpolar north. Recurring themes will be: transformations in the definition of ‘religion’ in relation to ‘science’, the nature of rationality, and the extent to which anthropology itself can be either – or both – a religious and a scientific quest to experience the wonder of unknown otherness.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. This course has a reading week in Week 6 in MT and LT.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**AN404**

**Anthropology: Theory and Ethnography**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Laura Bear OLD 6.07 and Dr Mathijs Pelkmans OLD 5.08

**Availability:** This course is compulsory on the MSc in Social Anthropology and MSc in Social Anthropology (Learning and Cognition). This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Law, Anthropology and Society and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The main aim of this course is to examine the relationship between theory and ethnography in modern social and cultural anthropology; the course focuses mainly on the development of anthropology before circa 1980 during the MT, and after that date during the LT. The course starts with a mapping of the genealogies of British, French and American Anthropology. Tracing the origins of anthropology in social theory (Durkheim, Marx, and Weber), linguistic analysis (Boas, Sassure) and geography (Bastian, Fischer). It covers topics such as the origin of the concept of the social sciences as a distinct branch of knowledge, and key concepts and themes (for instance, 'kinship,' ‘religion’ ‘capitalism’ or the ‘environment’). It also explores specific schools of thought such as functionalism/structural functionalism; methodological individualism; conflict and the critique of functionalism; class consciousness and ideology, ethnic group and social stratification; and ‘elective affinities’ between cultural predispositions and economic action. It locates these in the historical experiences and debates of the time. The significance of foundational concepts for an understanding of current anthropology and key stages in its development is also a focus of the course. The second term covers topics which may
include structuralism; practice theory; interpretive anthropology; postmodernism; affect and actor network theory. The precise emphasis and distribution of topics may vary from year to year.

**Teaching:** 15 hours of lectures and 10 hours of seminars in the MT. 15 hours of lectures and 10 hours of seminars in the LT. 2 hours of workshops in the ST.

The course has a reading week in Week 6 of MT and LT.

**Formative coursework:** Formative coursework consists of participation in weekly seminars, and the opportunity to work on formative essays with the student's academic tutor, as per normal departmental arrangements.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**AN419 Half Unit Not available in 2017/18**

**The Anthropology of Christianity**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Fenella Cannell

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Religion in the Contemporary World and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The ethnography of local Christianities in the light of differing cultural and social situations including colonial conditions. The relationship between Christianity and the discipline of anthropology. The course examines a number of anthropological and historical studies of local forms of Christianity, from a range including local forms of Catholicism, Mormonism, and historical Protestantisms including American Protestant forms and ‘heretical’ and other unorthodox Christianities. The course asks why anthropologists shied away from analysing Christianity long after studies of other world religions, such as Islam, Hinduism and Buddhism, had become widely established. It looks at the relationship between Christianity and the history of anthropological thought, and locates the place of Christianity in the writings of Mauss, Durkheim, Foucault and others, in order to defamiliarise the religion which Europeans and Americans especially often take for granted. Issues examined may include the nature and experience of belief, conversion and the appropriation of Christian doctrines by local populations, the problems of writing about religion, Christianity and the state, the nature of religious confession, Christian texts, and Scriptural reading practices, Christian objects and materialities, Christianity and women’s religious and social experience (from Medieval women mystics to women priests), inquisitions and heretical beliefs, priests and alternative forms of mediation with divine power, miraculous saints, incorrupt bodies and ‘non-eaters’ and changing ideas about death, Heaven and Hell. Where possible, the course will include a student fieldwork weekend and forms of reflection and reporting on that experience. Please check with the course teacher in any given year whether this is planned as part of the year’s programme.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students are expected to prepare discussion material for presentation in the seminars. Students are asked to participate in the fieldwork trip in years when this is available (please note that costs will be kept to a minimum and consideration will be given in any cases of financial hardship). Fieldnotes and other materials will be prepared by fieldtrip participants.

---

**AN405 The Anthropology of Kinship, Sex and Gender**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Nicholas Long

**Availability:** This course is available on the MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Gender, MSc in Law, Anthropology and Society, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World).

This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course provides an examination of the relationship between Christianity and the history of anthropological thought, and locates the place of Christianity in the writings of Mauss, Durkheim, Foucault and others, in order to defamiliarise the religion which Europeans and Americans especially often take for granted. Commodity Fetishism in South America. Detailed reading lists are provided at the beginning of the course.

Assessment: Take home exam (100%) in the ST.

AN420  Half Unit  Not available in 2017/18

The Anthropology of Southeast Asia

This information is for the 2017/18 session.

Teacher responsible: Dr Nicholas Long OLD 6.14

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Religion in the Contemporary World and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course will introduce students to selected theoretical and ethnographic issues in the history and contemporary life of Southeast Asia (including Burma/Myanmar, Cambodia, Indonesia, Laos, Malaysia, Singapore, Thailand, The Philippines, and Vietnam).

The alleged distinctiveness of Southeast Asian gender relations, political leadership, and experiences of self and emotion have led to ethnographic studies of the region making major contributions to the anthropology of the state, sovereignty, globalisation, gender, identity, violence, and mental health. By providing a strong grounding in regional ethnographic materials, this course will equip students to critically evaluate such contributions and to consider possible further contributions that studies of Southeast Asia might make to anthropological debates. The course will also examine how anthropologists have responded to the interpretive challenges presented by selected aspects of Southeast Asia’s social and political life, such as the legacies of mass violence (e.g. the Cambodian genocide, the Vietnam War, or Indonesia’s massacre of suspected communists), its ethnic and religious pluralism, and the impact of international tourism.

The course also contains a strong visual anthropology element: each week’s lecture will be paired with a film screening, and students will be encouraged to examine whether and how this visual material contributes to, or indeed reframes, the theoretical debates at hand.

Upon successful completion of the course, students will be able to:
1. Describe the key features of Southeast Asian social and cultural systems, and identify their similarities and differences with social and cultural systems in other world regions.
2. Describe key events and patterns in Southeast Asia’s history, and evaluate the evidence by which these influence contemporary social phenomena in the region.
3. Describe and evaluate the most influential paradigmatic frameworks that have been developed in anthropological studies of Southeast Asia over the past 60 years.
4. Apply anthropological concepts and theories to ethnographic materials from Southeast Asia, and evaluate the results.
5. Apply anthropological research findings and theories to social and policy issues in Southeast Asia.
6. Locate and use research findings from Southeast Asia in order to participate in, or advance the terms of, wider disciplinary debates.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Film screenings will also take place throughout the Lent Term.

Formative coursework: Students are expected to prepare material for discussion in the seminars. Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.

Ethnographies

Assessment: Take home exam (100%) in the ST.

AN424  Half Unit

The Anthropology of Melanesia

This information is for the 2017/18 session.

Teacher responsible: Dr Michael W Scott, OLD 6.16

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course provides an introduction to selected themes in the anthropology of the region in the Southwest Pacific Ocean known as Melanesia. It gives students a grounding in the contemporary anthropology of the region, primarily through a close reading of three book-length ethnographies.

The three ethnographies, which are all new since 2013, are Christopher Wright’s The Echo of Things, an account of what photography means to people in the western Solomon Islands; Alice Street’s Biomedicine in an Unstable Place, an analysis of how persons and diseases are made visible or invisible in a hospital on the north coast of Papua New Guinea, and Alex Golub’s Leviathans at the Gold Mine, a study of the relationship between indigenous landowners and a large international gold mine in their valley in the highlands of New Guinea.

These ethnographies not only provide students with focused accounts of three very different contexts in Melanesia, they also address histories, dynamics, and concerns familiar to people living throughout the region. Furthermore, because the three authors draw on different intellectual antecedents and disciplinary traditions, their work provides an entree into the most influential theoretical debates animating Pacific anthropology today.

Topics to be traced throughout the course include personhood and bodies, kinship and sociality, religion and cosmology, technology and infrastructure, development, globalization, and the state. The readings will be supplemented by ethnographic films and a visit to the British Museum.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

This course has a reading week in Week 6 of MT.

Formative coursework: Students are expected to prepare discussion material for presentation in seminars.

Indicative reading: Christopher Wright, The Echo of Things: The Lives of Photographs in the Solomon Islands (2013); Alice Street, Biomedicine in an Unstable Place: Infrastructure and Personhood in a Papua New Guinean Hospital (2014); Alex Golub, Leviathans at the Gold Mine: Creating Indigenous and Corporate Actors in Papua
AN436 Half Unit
The Anthropology of Development
This information is for the 2017/18 session.
Teacher responsible: Professor Katy Gardner OLD 5.07
Availability: This course is compulsory on the MSc in Anthropology and Development and MSc in Anthropology and Development Management. This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in China in Comparative Perspective, MSc in Comparative Politics, MSc in Health, Community and Development, MSc in Human Rights, MSc in International Development and Humanitarian Emergencies and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course explores how anthropologists have evaluated, criticised and contributed to development. Focussing on both ‘Big D’ development (schemes of improvement or projects) and ‘little d’ development (change which occurs as the result of economic growth or modernisation) the course shows how anthropological insights have been used to change practices from within as well as critique development from the outside. From anthropological work which seeks pragmatic engagement to that which deconstructs development as an oppressive and power laden discourse, the course aims to give students a broad background to the field. Topics covered include the role of the state, participation and farmer first approaches; gender and development; development as discourse and ‘aidnogrophy’; neo liberalism and global capital; corporate social responsibility; markets and micro credit, and the relationship between ‘tradition’ and modernity. Throughout, the course will draw upon a broad range of ethnographic examples.
Teaching: 10 hours of lectures and 10 hours of seminars in the MT. This course has a reading week in Week 6 of MT.
Formative coursework: Students are expected to prepare discussion material for presentation in the seminars.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

AN437 Anthropology of Learning and Cognition
This information is for the 2017/18 session.
Teacher responsible: Prof Matthew Engelke OLD 6.12
Availability: This course is available on the MSc in Social Anthropology (Learning and Cognition). This course is available on the MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course will start by examining the contribution that the study of human psychology can make to anthropology. After discussing why anthropologists should pay attention to psychology and why psychologists should pay attention to anthropology, we will examine a range of psychological findings (for example, on infants’ knowledge of the physical and mental world) and their relevance to anthropology. Throughout, the course will focus on the relationship between mechanisms of cultural transmission, both informal and institutional, and what anthropologists have called ‘culture’ and ‘society’. We will look at the way universal human capabilities develop and are used during different stages of life to create unique cultural understandings. Topics covered include ‘innateness’, ‘theory of mind’, informal and formal education, emotions, expertise, and the nature of different types of beliefs. We will consider how themes of this kind - elaborated in cognitive anthropology and in cognitive science more generally - lead to a reconsideration of classic anthropological concerns, including kinship, religion, politics and economics.
Teaching: 15 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.
This course has a reading week in Week 6 in MT and LT.
Indicative reading: M Cole, Cultural Psychology, D Holland and N Quinn, Cultural Models in Language and Thought; E Hutchins, Cognition in the Wild; J Lave, Cognition in Practice; M Bloch, How We Think They Think; D Sperber, Explaining Culture; P Boyer, Religion explained; R Astuti, G Solomon and S Carey, Constraints on Conceptual Development; M Tomasello, The Cultural Origins of Human Cognition.
Assessment: Exam (100%, duration: 3 hours) in the main exam period.

AN439 Half Unit Not available in 2017/18
Anthropology of Human Rights
This information is for the 2017/18 session.
Teacher responsible: Prof Matthew Engelke OLD 6.12
Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Human Rights, MSc in Law, Anthropology and Society and MSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The tension between respect for ‘local cultures’ and ‘universal rights’ is a pressing concern within human rights activism. For well over two decades, anthropologists have been increasingly involved in these discussions, working to situate their understandings of cultural relativism within a broader framework of social justice. This course explores the contributions of anthropology to the theoretical and practical concerns of human rights work. The term begins by reading a number of key human rights documents and theoretical texts. These readings are followed by selections in anthropology on the concepts of relativism and culture as well as other key frameworks, such as identity and violence. Students will then be asked to relate their understandings of human rights to the historical and cultural dimensions of particular cases, addressing such questions as...
the nature of humanity, historical conceptions of the individual, colonialism and imperialism, the limits of relativism, and the relationship between human rights in theory and in practice. Case studies focus on Africa and Latin America.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Students are expected to prepare discussion material for seminars.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**AN442 Supervised Reading Course and Fieldwork Preparation**

**This information is for the 2017/18 session.**

**Teacher responsible:** Members of staff of the Anthropology Department (students’ supervisors).

**Availability:** This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

**Course content:** The programme of supervised reading aims to give students a detailed knowledge of the regional ethnographic literature relevant to their proposed research project, as well as providing them with a firm grounding in the theoretical literature relevant to their research objectives. The programme also aims to aid students in the practical organization of their field research (eg organizing language training, obtaining research permits and academic affiliations) through their supervisors’ personal guidance. The programme of supervised reading will be specific to each student. It will be agreed with his/her supervisors at the beginning of the academic year and it will be closely reviewed during the course of the academic year.

**Teaching:** Students should expect to meet with at least one of their supervisors at 2-3 weekly intervals during term time, and to submit essays relevant to the preparation of their Research Proposal (AN443).

**Formative coursework:** Students will be required to write essays for their supervisors throughout the academic year.

**Assessment:** Other (100%). Students’ progress will be monitored by their supervisors through verbal discussion of the submitted written work. The work they undertake for this course is expected to feed directly into the preparation of the Research Proposal (AN443) and will be formally examined through it.

---

**AN443 Research Proposal**

**This information is for the 2017/18 session.**

**Teacher responsible:** Members of staff of the Anthropology Department

**Availability:** This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

**Course content:** All students must prepare a formal Research Proposal of 8,000-10,000 words (excluding references) for submission to the Department on or before the deadline in June. The proposal is written under the guidance of their supervisors (as set out in AN442), and will normally draw on material studied as part of AN471 Qualitative and Quantitative Methods for Anthropologists and AN472 Evidence and Arguments in Anthropology and Other Social Sciences. It will be expected to demonstrate knowledge of the regional ethnography, and theoretical and methodological literatures, relevant to the proposed research.

**Assessment:** Research proposal (100%).

---

**AN444 Half Unit Not available in 2017/18 Investigating the Philippines - New Approaches and Ethnographic Contexts**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Fenella Connell OLD6.07

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Graduates taking this course will normally have taken or be taking a foundational course in anthropology. However, topics may be of interest to those in several disciplines. Exemptions may therefore be sought from the lecturer, e.g. for students external to the department, who wish to explore what anthropology can bring to bear on their own fields.

**Course content:** This course offers the chance to look at the ethnography of one country in more detail than is usual for regional courses. It considers topics taken from the ethnography of the lowland and highland Philippines, with a focus on exciting new high quality writing, drawing on the recent renaissance in Philippine Studies. The course will balance works by expert non-Filipino ethnographers with the new writing of ‘native ethnographers’ by Filipino scholars resident both in the Philippines themselves and in the US. The course will be framed within the colonial, religious and social history of the archipelago, and will consider both new interpretations of Philippine history, and topics on contemporary social issues, as well as using classic works on the Philippines. Teaching each week will normally be organised around the reading of one outstanding ethnography, allowing students to look closely at particular cases. Topics in any year are likely to be drawn from the following list (although obviously only ten topics can be offered in one year): Migration, ‘mail-order’ brides, and the Philippine diaspora; New religious movements: Philippine colonialism and the processes of conversion: Healing, spirit possession, midwifery and local medicine; The contemporary Catholic Church; Violence in the Philippines; Ecology, landscape and environmental politics: Kinship and its transformations; Gender, Philippine queer theory and Philippine transvestitism; Ritual, drama and local performance traditions: Philippine architecture and material culture; Philippine cinema: Colonial politics, tribal politics and issues of self-representation: Magic, sorcery and ‘anitismo’; Tourism, symbolic economies and the impact of international capitalism.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.

**Indicative reading:** Detailed reading lists are provided at the beginning of the course, these are a selection: Michell Rosaldo, Knowledge and Passion; Vicente Rafael, Contracting Colonialism; Fenella Connell, Power and Intimacy in the Christian Philippines; Sally-Ann Ness, Where Asia Smiles; Heather L Clausslen, Unconventional Sisterhood; M F Manalansan, Global Divas: Filipino Gay Men in the Diaspora; Vicente Rafael, White Love and Other Events in Filipino History; Nicole Constable, Maid to order in Hong Kong, Albert Alejo, Generating Energies in Mount Apo.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
**AN447  China in Comparative Perspective**

This information is for the 2017/18 session.  
**Teacher responsible:** Prof. Stephan Feuchtwang SHF 3.01 and Dr Andrea Pia KGS 3.07  
**Availability:** This course is compulsory on the MSc in China in Comparative Perspective. This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit. Places are limited and priority is given to MSc China in Comparative Perspective students.  
**Course content:** The main object of the course is to help students develop ways of putting the politics, economy and social life of China into a framework in which they can compare and juxtapose it with other major examples. Students will bring whatever theoretical approaches they have already learned and are continuing to learn in the disciplines they bring to the course. They will be expected to demonstrate and explain how they are using them as well as to listen to other approaches and disciplinary perspectives. The topics for each week are as follows:  
**Teaching:** 15 hours of lectures and 10 hours of seminars in the MT, 15 hours of lectures and 10 hours of seminars in the LT. 1 hour and 30 minutes of lectures and 1 hour of seminars in the ST. This course has reading week in Week 6 of both MT and LT.  
**Formative coursework:** Those who have registered for this degree (but not those who take this as a unit in another degree) will attend tutorials in groups of three to five every two weeks, starting in week 2. For these tutorials, students will write four essays, two in Michaelmas Term and two in Lent Term. These essays will not be assessed for the degree.  
**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

**AN451  Half Unit  Anthropology of Politics**

This information is for the 2017/18 session.  
**Teacher responsible:** Dr Mukulika Banerjee OLD 5.09  
**Availability:** This course is available on the MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Comparative Politics, MSc in Development Studies, MSc in Law, Anthropology and Society, MSc in Regulation, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Course content:** This course examines the notion of power and its cross-cultural application. Using Marxist, Weberian, and Foucauldian approaches it explores how power travels through different socio-cultural contexts, paying attention to issues such as domination and resistance, patron-client relations, the mafia, revolution and violence. A recurring theme throughout the course concerns the state. How should the state be studied anthropologically? Processes of state formation and disintegration, nationalism in its various guises, and state-society relations will be reviewed in order to understand how European, post-colonial, and post-socialist societies are governed.  
**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. This course has a reading week in Week 6 of both MT and LT.  
**Formative coursework:** Students will undertake collaborative discussion duties during seminars for which they will receive formative feedback. They will also have an opportunity to write tutorial essays on topics from the course which will be formatively assessed.  
**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

**AN456  Half Unit  Anthropology of Economy (1): Production and Exchange**

This information is for the 2017/18 session.  
**Teacher responsible:** Dr Gisa Weszkalnys OLD 6.08  
**Availability:** This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Studies, MSc in Inequality and Social Science, MSc in Law, Anthropology and Society, MSc in Regulation, MSc in Social Anthropology, MSc in Social Anthropology (Learning and Cognition) and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Course content:** This course examines ‘the economy’ as an object of scholarly analysis and a domain of social action. We start by asking how scholars have measured, described, modeled, and predicted its behaviour; what forms economic institutions take cross-culturally; and how these institutions were transformed as a result of their incorporation into a wider capitalist markets, state systems, and development initiatives. For example, we will examine the central place of households within capitalist economies, largely overlooked by mainstream economic
analyses, and the role that money can play in both dividing and uniting human societies. The course will familiarise students with fundamental aspects of the field and with core concepts used in anthropological analyses of economic life, such as production, consumption, exchange, property, alienation, scarcity, and value. But we will also try to break open the standard frames of the debate by highlighting, for example, the entanglement of nature in the capitalist expansion, and how economic life is rarely stable. What progress have anthropologists made in understanding booms, busts, prolonged pauses and delays?

What can ethnography tell us about how people cope with crises and instabilities, individually and collectively, and how they seek to anticipate what the future may hold? Throughout the course, students will engage both with theoretical writings and with a range of select ethnographies to gain a rounded understanding of relevant debates.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST.

This course has a reading week in Week 6 of MT.

**Formative coursework:** Students will do presentations during seminars for which they will receive formative feedback. They will also have an opportunity to write tutorial essays on topics from the course which will be formatively assessed.

**Indicative reading:**

  - detailed reading lists are provided at the beginning of the course.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**AN457 Half Unit**

**Anthropology of Economy (2): Transformation and Globalisation**

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Laura Bear OLD 6.09

**Availability:** This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** The course addresses topics in the anthropology of globalisation. Scholars in a wide range of disciplines have sought to understand the new forms of production, consumption, exchange and financial circulation that have emerged since the 1980s. Some emphasise post-Fordist methods of flexible production and neo-liberal elite projects. Others focus on trans-state processes of globalisation. For other theorists shifts in state policies such as austerity, decentralised planning, public-private partnerships and the deregulation of financial markets are at the centre of analysis. Others address new forms of consumer society, popular desires for social mobility and transnational migration. Drawing from ethnographies and anthropological theory this course equips students to evaluate these arguments. Importantly it also revisits classic topics in economic anthropology from the perspective of present realities — for example production and intimate economies; formal markets in relation to informalised, violent economies; circulation in relation to financial debt and risk; and consumption and consumer citizenship.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures in the ST.

This course has a reading week in Week 6 of LT.

**Formative coursework:** Students will do presentations during seminars for which they will receive formative feedback. They will also have an opportunity to write tutorial essays on topics from the course which will be formatively assessed.

**Indicative reading:**

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**AN458 Half Unit**

**Children and Youth in Contemporary Ethnography**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Catherine Allerton OLD 6.13

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Law, Anthropology and Society and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** For much of its history, and with some notable exceptions, anthropology has paid little serious attention to children. However, recent years have seen a growing interest in both ‘childhood’ as a historical and social construction, and in children’s engagement with their own social worlds. This course aims to introduce students to emerging ethnographic work on children and youth, in order to explore both its theoretical and methodological challenges. Ethnographic studies will cover a wide range of societies and regions, including anthropological work on children and childhood in the US and UK. The course will begin with an investigation of children’s place in anthropology, including early anthropological work on ‘Culture and Personality’ and ‘child socialisation’. The course will then move to consider a variety of topics that have been the focus of recent ethnographic study. These may include: children’s play, childhood identities and kinship, education and schooling, youth cultures and globalization, children’s work, street children and children’s competencies in contexts of crisis, including war.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT. 4 hours of film screenings in LT. 1 hour revision session in ST.

**Formative coursework:** In addition to preparing discussion material for seminars, students will normally write one tutorial essay for the course. Students will be supplied with a mock exam paper.

**Indicative reading:** R.A. LeVine and R.S. New (eds) 2008.

For non-Anthropology students taking this course, a formative essay will be submitted to the course teacher. For non-Anthropology students taking this course, a formative essay will be submitted to the course teacher.

For non-Anthropology students taking this course, a formative essay will be submitted to the course teacher.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures in the ST.

Formative coursework: Anthropology students taking this course will have an opportunity to submit a tutorial essay for this course to their personal tutors. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher.

AN463 Half Unit
Borders and Boundaries: Ethnographic Approaches

This information is for the 2017/18 session.
Teacher responsible: Dr Mathijs Pelkmans OLD 5.08
Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit.

Course content: How do territorial borders influence human behaviour and thinking, and how, in turn, do people create, manage and manipulate such borders? These questions have become pressing with the intensification and politicisation of global interconnectedness. While a few decades ago the tearing down of the Berlin Wall seemed to herald a border-less world, today the loudest politicians promise to create "huge, great, great, beautiful walls." This course studies the numerous tensions accompanying global interconnectedness. Why is it so difficult to make borders impermeable? How do smuggling networks operate? What does the world look like from the perspective of undocumented migrants? What are the effects of new border fortification technologies? What is it like to live in a gated community? Are people boundary-drawing creatures? Why do borders play a central role in images of utopia? The focus will be on understanding through specific ethnographic and empirical materials, the ways in which lived religious practice, and the understanding of religion, may differ radically inside and outside 'Western' and modern contexts. We will also pay attention to cases in which (as in all post-colonial settings, and in relation to other domains of life including politics, kinship and economy) the 'non-Western' definitions are emerging in interplay with each other.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. This course has a reading week in Week 6 of MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Take home exam (100%) in the MT. The take home exam will be held the week following the end of the MT.

AN466 Not available in 2017/18
Understanding Religion in the Contemporary World

This information is for the 2017/18 session.
Teacher responsible: Dr Fenella Cannell OLD 6.07, Prof Laura Bear OLD 6.09 and Dr Mathijs Pelkmans OLD 5.08
Availability: This course is compulsory on the MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course will consider the distinctive definition and understanding of ‘religion’ within the social sciences, asking the key question ‘what is the object of “religion” for the social sciences?’. The course will introduce students to the classical social science sources on religion (including, but not limited to, Durkheim, Weber and Marx) and the particular problems which their views on religion imply. There will be discussion of the different traditions of social scientific thinking about religion which flow from these foundational thinkers into current debates. Secondly, the course will focus on a range of empirical and ethnographic case studies, which illustrate some of the diversity of religious practice around the world, and some of the consequences which may flow from adopting particular definitions of what ‘religion’ is. One underlying theme in the course will be the need to pay attention to ways in which the category and the domain of religion are redefined, or claimed to be redefined, in modernity, in relation to other domains of life including politics, kinship and economy. The focus will be on understanding through specific ethnographic and empirical materials, the ways in which lived religious practice, and the understanding of religion, may differ radically inside and outside ‘Western’ and modern contexts. We will also pay attention to cases in which (as in all post-colonial settings, and in relation to so-called fundamentalisms) ‘Western’ and the ‘non-Western’ definitions are emerging in interplay with each other. The first term considers key themes and theoretical topics in the anthropology of religion literature in the light of these framings. The second term will include sustained case-studies drawing on current research within the LSE, and comparative thematic discussions. Students have the opportunity to work with their lecturers through lines of analysis and problems in evidence and reasoning drawn from the lecturers’ primary research, and to see at first hand how professional anthropologists move towards their conclusions.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 20 hours of seminars in the LT. 1 hour of lectures in the ST. In LT the format is one two-hour interactive seminar per week.

Formative coursework: Formative coursework will include 1) discussions and presentations during the dedicated seminar and 2) the writing of non-coursework essays which will be discussed in small-group tutorials within the anthropology department as described above.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

AN467 Half Unit Not available in 2017/18
The Anthropology of South Asia

This information is for the 2017/18 session.
Teacher responsible: Dr Mukulika Banerjee OLD5.09
Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development
AN469 Half Unit
The Anthropology of Amazonia

This information is for the 2017/18 session.
Teacher responsible: Dr. Agustin Diz
Availability: This course is available on the MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Learning and Cognition). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course will introduce students to selected themes in the anthropology of Amazonia. It will provide a grounding in the ethnographic literature of the region while seeking to engage with current theoretical debates, highlighting their potential importance to the discipline of anthropology. Topics to be covered include history, indigenous social movements; sexuality and gender; trade and inter-ethnic relations; politics and power; illness, well-being and death. Students will be encouraged to reflect on the broader relationship between ethnography and theory, and challenge common stereotypes of Amazonia and its inhabitants, and to explore ways in which the region has inscribed itself on the imagination of anthropologists and laypersons alike.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT. This course has a reading week in Week 6 of LT.
Formative coursework: Students registered for Anthropology degrees will have the opportunity to prepare tutorial essays on the subject matter of the course and receive feedback from their academic advisors. Students who are not registered for Anthropology degrees will be given the option of submitting formative essays to the course teacher.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.

AN470 Half Unit
Anthropology of Religion: Current Themes and Theories

This information is for the 2017/18 session.
Teacher responsible: Dr. Michael W. Scott
Availability: This course is available on the MSc in Social Anthropology (Religion in the Contemporary World). This course is not available as an outside option.
Course content: Through readings in contemporary ethnography and theory, this course will explore phenomena and questions classically framed as the anthropology of religion. We will consider topics such as shamanism, cargo cults, initiation, witchcraft and sorcery, cosmology, and human-nonhuman relations, primarily with reference to ongoing transformations of the indigenous traditions of Melanesia, Africa, Amazonia, Australia, and the circumpolar north. Recurring themes will be: transformations in the definition of ‘religion’ in relation to ‘science’, the nature of rationality, and the extent to which anthropology itself can be either – or both – a religious and a scientific quest to experience the wonder of unknown otherness.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in Week 6 of the LT.
Formative coursework: Discussions and presentations during seminars.
Assessment: Exam (100%, duration: 2 hours) in the main exam period.
AN471  Qualitative and Quantitative Methods for Anthropologists

This information is for the 2017/18 session.

Teacher responsible: Dr Mathijs Peikmans OLD 5.08
Availability: This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

Course content: The twofold aim of this course is to provide students with insights into the process by which anthropological knowledge is produced, and to train them in the collection and analysis of qualitative and quantitative data. In doing so it offers students a methodological framework for conceptualising and designing their own PhD research projects. The course discusses the nature of ethnographic data and evidence, its implications for research, and ways of incorporating empirical data in ethnographic texts. Special attention is paid to statistical analysis and sampling methods as a means to strengthen and enhance qualitative insights.

Teaching: 40 hours of seminars in the MT.
This course has a reading week in Week 6 of MT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the MT.

Assessment: Essay (30%, 3000 words), coursework (15%, 1000 words), coursework (15%, 1000 words), presentation (15%) and class participation (25%) in the MT.

AN472  Evidence and Arguments in Anthropology and Other Social Sciences

This information is for the 2017/18 session.

Teacher responsible: Prof Matthew Engelke OLD 6.12 and Dr Michael Scott OLD 6.16
Availability: This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

Course content: This seminar course considers research practices across a range of social and natural sciences in order to explore methodological issues which are specifically relevant to ethnography. In particular, it focuses on the relationship between evidence and the kinds of inferences and conclusions which are drawn by researchers in different social science fields. For one part of the course, case-studies taken from different disciplines will be considered in relation to the research practices of ethnographers. The disciplines covered may include: cognitive science & developmental psychology, philosophy; history; quantitative sociology; economics; literary criticism. For another part of the course, students will present their own draft research proposals to other both in written and oral form, focusing on (1) the questions they hope to explore in their dissertations; (2) the kinds of evidence they will need in order to adequately explore these questions; (3) the methods they will adopt in order to collect this evidence.

Teaching: 40 hours of seminars in the LT.
This course has a reading week in Week 6 of LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Essay (25%, 2500 words), presentation (50%) and class participation (25%) in the LT.

AN473  Half Unit  Anthropological Approaches to Value

This information is for the 2017/18 session.

Teacher responsible: Prof David Graeber OLD 6.10
Availability: This course is available on the MPhil/PhD in Accounting, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available as an outside option to students on other programmes where regulations permit.

Course content: In this course we will first take stock of the current anthropological theories of value in contemporary anthropology. After a critical appraisal of such theories, we will explore what an anthropological theory of value might actually look like. After a brief exploration of Kluckhohn’s “values project”, the formalist-substantivist arguments, and debates about the nature of the social role of money, up to the recent neoliberal resurgence in anthropological theory, we’ll be looking at the contrasting legacies of Karl Marx and Marcel Mauss. Looking at these as two very different approaches to many of the same problems will provide enormous opportunities for creative synthesis. The course will include some fairly extended case studies (of Tiv fetishism, wampum, and anthropological studies of consumption), to investigate how useful all this theory can actually be in throwing new light on familiar problems.

Teaching: 15 hours of lectures and 10 hours of seminars in the MT.
This course has a reading week in Week 6 of MT.

Formative coursework: Students registered for Anthropology degrees may submit formative tutorial essays on the course content and receive feedback from their academic advisors. Students who are not registered for Anthropology degrees will be given the option of submitting essays to the course teacher and receiving feedback on them.

Assessment: Take home exam (100%) in the MT.
The take home exam will be held the week following the end of the MT.

AN474  Half Unit  Not available in 2017/18
Subjectivity and Anthropology

This information is for the 2017/18 session.

Teacher responsible: Dr Harry Walker OLD 5.06B
Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Learning and Cognition). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Unless granted an exemption by the course teacher, students taking this course should have completed an introductory course in anthropology.

Course content: This course will explore the nature and formation of the self and of subjective experience. It will draw together a range of anthropological, psychological and philosophical approaches to subjectivity and the social and cultural phenomena that shape and condition it, attending both to the particulars of individual lives and settings and to more general, existential...
Teaching: 10 hours of lectures and 10 hours of classes in the MT. Ten hours of lectures and ten hours of classes in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT. Students registered for Anthropology degrees will submit a tutorial essay for this course to their academic advisers. Students who are not registered for Anthropology degrees will submit a formative essay to the course teacher.

Assessment: Take home exam (90%) in the ST. Class participation (10%) in the MT.

AN476 Half Unit
Anthropology and the Anthropocene

This information is for the 2017/18 session.

Teacher responsible: Dr Gisa Weszkalnys

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Learning and Cognition). This course is available as an outside option to students on other programmes where regulations permit. Optional for MSc students in Anthropology. Also available to students on other degree programmes as an outside option.

Course content: This course will focus on the study of revolution from an anthropological perspective. It will concentrate on three different types of revolutionary struggle, in three different continents, through three different types of ethnographies: the Zapatista indigenous movement in Mexico, the Zimbabwean anti-colonial struggle, and the Maoist ‘People’s War’ in Nepal. In each case, students will be encouraged to critically consider the varying degrees of involvement of the anthropologist in the movements concerned, the theoretical premises of the anthropologists and how these affect the politics and ethics of writing. In this process, students will deepen their understandings of the theoretical debates around production and reproduction, social transformation, religion and secularism, activism and anthropology, and violence and ethics in radical social change. The course will demonstrate that although anthropologists were once criticised for ‘missing the revolution’ on their doorstep, in fact their long term engagement with communities who come to be affected by revolutionary struggles has much to offer to the theoretical and practical work of radical social transformation.

Teaching: 6 hours of lectures, 6 hours of seminars and 8 hours of workshops in the MT.

Assessment: Take home exam (100%) in the MT.

AN475 Half Unit
The Anthropology of Revolution

This information is for the 2017/18 session.

Teacher responsible: Dr Alpa Shah

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Learning and Cognition). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course will focus on the study of revolution from an anthropological perspective. It will concentrate on three different types of revolutionary struggle, in three different continents, through three different types of ethnographies: the Zapatista indigenous movement in Mexico, the Zimbabwean anti-colonial struggle, and the Maoist ‘People’s War’ in Nepal. In each case, students will be encouraged to critically consider the varying degrees of involvement of the anthropologist in the movements concerned, the theoretical premises of the anthropologists and how these affect the politics and ethics of writing. In this process, students will deepen their understandings of the theoretical debates around production and reproduction, social transformation, religion and secularism, activism and anthropology, and violence and ethics in radical social change. The course will demonstrate that although anthropologists were once criticised for ‘missing the revolution’ on their doorstep, in fact their long term engagement with communities who come to be affected by revolutionary struggles has much to offer to the theoretical and practical work of radical social transformation.

Teaching: 6 hours of lectures, 6 hours of seminars and 8 hours of workshops in the MT.

Assessment: Take home exam (100%) in the MT.
AN497
Dissertation: Religion in the Contemporary World
This information is for the 2017/18 session.
Teacher responsible: Dr Mathijs Peikmans OLD 5.08
Availability: This course is compulsory on the MSc in Social Anthropology (Religion in the Contemporary World). This course is not available as an outside option.
Pre-requisites: As for the Programme.
Course content: The dissertation will address a topic in the social sciences of Religion in the Contemporary World. This will normally be a library-based dissertation, but may be supplemented by minor original research elements in consultation with the academic adviser. The topic should make central use of concepts in the study of religion in the social sciences drawn from approved courses on the programme, particularly from the core course, and should demonstrate a good understanding of those concepts and their implications. The dissertation may draw on empirical topic areas suggested by the taught core and option courses of this programme, but must demonstrate an element of originality in analysis, content or both. The dissertation will normally contain an inter-disciplinary element which may be in the combination of material, the combination of critical, analytical or theoretical concepts, or both. Guidance on standards of presentation etc will be given in the MSc handbook, and will conform to the current standard laid down for the dissertations in MSc social anthropology.
Teaching: A small group tutorial in both MT and LT. A dissertation workshop in ST.
Formative coursework: Small group tutorials, individual mentoring, discussion of abstracts: please see Programme Proposal. Presentations and class discussions in all programme courses will also contribute towards the formative preparation for the dissertation.
Assessment: Dissertation (100%, 10,000 words) in August. The dissertation must not exceed 10,000 words including text and footnotes (but excluding bibliography and appendices). Three bound copies and an electronic copy, with the 5-digit examination number on the front, must be submitted to the Departmental Office in late August.

AN498
Dissertation- MSc China in Comparative Perspective
This information is for the 2017/18 session.
Teacher responsible: Dr Andrea Pia KGS 3.07 and Prof Stephan Feuchtwang SHF 3.01
Availability: This course is compulsory on the MSc in China in Comparative Perspective. This course is not available as an outside option.
Course content: The dissertation must demonstrate an adequate knowledge of relevant social science literature and empirical material from China and elsewhere. It should elaborate a theoretical framework to compare Chinese and non-Chinese data. The topic should have been discussed with and approved by the academic adviser. Note that the dissertation must be based on published sources rather than primary research undertaken by the student.
Teaching: Students attend a one-hour dissertation workshop at the end of Lent Term. After deciding on a topic during the Lent term, in consultation with their academic advisers (and other members of staff where appropriate), students submit a one-page abstract in the first week of the Summer term. Each student attends a one-on-one dissertation tutorial with his/her academic adviser in the ST. During these, abstracts will be evaluated and commented upon. Students continue to consult their academic advisers during the Summer Term.
Assessment: Dissertation (100%, 10,000 words). The dissertation must not exceed 10,000 words including text and footnotes (but excluding bibliography and appendices). Three bound copies must be submitted to the Departmental Office and one electronic copy has to be uploaded to the LSE Moodle system in late August.
focus on one specific issue in anthropology, using existing ethnographic literature as appropriate. Note that the dissertation must be based on published sources rather than fieldwork undertaken by the student. For the MSc Social Anthropology, the problem should be framed with reference to literature from within the discipline of anthropology (drawn from mainstream journals or ethnographic texts). For the MSc Anthropology and Development and the MSc Anthropology and Development Management, the topic should span the fields of both Social Anthropology and Development Studies - it may cover, but need not be restricted to, the area of overlap, i.e. the anthropology of development as narrowly defined. For the MSc Social Anthropology (Learning and Cognition), the dissertation should draw not only on specifically anthropological literatures and engage with anthropological themes, but also make judicious use of non-anthropological literature from cognitive science, and therefore from related disciplines such as psychology and/or philosophy.

Teaching: 3 hours of workshops in the ST. After deciding on a topic during the Lent term, in consultation with their tutors (and other members of staff where appropriate), students submit a one-page abstract in the first week of the Summer term. Abstracts are circulated and students attend an AN499 workshop followed by a series of specific workshops for each of the four programmes. During these, abstracts will be evaluated and commented upon. Students continue to consult their tutors during the Summer term.

Assessment: Dissertation (100%, 10000 words) in August. The dissertation must not exceed 10,000 words including text and footnotes (but excluding bibliography and appendices). Three bound copies and an electronic copy, with the 5-digit examination number on the front, must be submitted to the Departmental Office in late August.

DV400
Development: History, Theory and Policy

This information is for the 2017/18 session.
Teacher responsible: Prof James Putzel CON.8.03 and Dr Rajesh Venugopal CON.8.09

Availability: This course is compulsory on the MSc in Development Studies. This course is available on the MSc in African Development, MSc in Anthropology and Development, MSc in Empires, Colonialism and Globalisation, MSc in Environment and Development, MSc in Health and International Development, MSc in Political Economy of Late Development, MSc in Population and Development and MSc in Urbanisation and Development.

Course content: This course integrates the concepts and perspectives of a range of disciplines to consider: major trends of development and change in modern history and interpretations of them in the social sciences and contemporary economic and social theory and their bearing on the policy and practice of development. During Michaelmas Term the course critically discusses concepts of 'development' and the historical evolution of paradigms of development thinking and policy. Through an examination of comparative historical experience, we explore the role of states and markets in development and underdevelopment, colonial legacies and path dependencies and the political economy of growth, poverty and freedom. We examine how differential experiences of financial crisis, state fragility, democratic and populist politics affect development thinking and possibilities. During Lent Term the course draws on recent research and policy documents to discuss current cutting edge policy issues and challenges in the developing world including: demographic change and its implications, poverty and inequality; industrialisation, international trade and industrial policy; agriculture, new technologies and agrarian reform policies; gendered development and responses; the impact of violent conflict; environmental threats and sustainability; and the evolution of development practice and aid.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT. 20 hours of lectures and 15 hours of seminars in the LT. In addition, there will be a three hour revision session in late LT.

Formative coursework: One 2,000 word essay with written feedback submitted in Michaelmas Term and at least two seminar presentations on literature (one in Michaelmas and one in Lent).

Assessment: Exam (80%, duration: 3 hours) in the main exam period. Essay (20%, 2000 words) in the LT.
Assessment: Take home exam (85%) in the ST. Presentation (15%) in the MT. The exam (85%, duration: 4 hours take home exam) will be held in the main exam period. The class presentation (15%, duration 20 mins) will be given in the class seminars. The paper will be released via the course Moodle site.

**DV410**

**Research Design and Dissertation in International Development**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Ernestina Coast OLD M 2.24

**Availability:** This course is compulsory on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is not available as an outside option.

**Course content:** The course introduces students to a selection of research methods used in development research. The objective is to enable students to conduct independent research, to assess the methods used to generate evidence, and to critically assess the quality and validity of research analysis and findings in development research and policy. Students will learn about: the challenges of conducting research; about research design, including how to generate a research question, how to select research methods, how to analyse data, and analytic rigour; what constitutes knowledge; the relative strengths and weaknesses of quantitative and qualitative research; some of the practical and ethical dos and don'ts of doing fieldwork; and, preparing for the dissertation.

**Teaching:** 30 hours of lectures in the MT. 9 hours of workshops in the ST.

The course combines a dissertation with lectures on research design, methods and use. Each student is assigned an Academic Advisor. The development of the dissertation is conducted under the supervision of a member of the International Development staff, through individual advice and feedback meetings in MT, LT and ST. Students are expected to submit a draft dissertation title and abstract (150-250 words) in the first half of Lent Term. This is followed by a more detailed dissertation proposal on a topic within Development Studies / Management / IDHE / African Development / Health and International Development. The proposal must be approved by the assigned Academic Adviser. The research proposal forms the basis for discussion, debate and feedback in the compulsory ST dissertation workshops, at which students present their research proposals, led by International Development staff.

**Formative coursework:** Students will take formative online Moodle tests, which will be made available in MT. All students are expected to pass these tests. They can be attempted multiple times.

**Assessment:** Dissertation (100%, 10000 words) in the ST. Students are required to submit a research proposal of not more than 2,000 words the week before the start of ST. Students will submit a dissertation of not more than 10,000 words, not including references, by midday on the date specified by the Department towards the end of August.

**DV411**  
Half Unit

**Population and Development: an Analytical Approach**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Tim Dyson, CON 8.04

**Availability:** This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Global Population Health, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Population and Development, MSc in Social Research Methods, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit. Please note that in case of over-subscription to this course priority will be given to students undertaking the MSc in Population and Development and students from the Department of International Development and its joint degrees (where their regulations permit).

**Course content:** Using the demographic transition as its framework, the course examines different analytic approaches to the main interrelationships between population change and socio-economic development. It draws on a variety of theoretical and historical experiences to address and explore these interconnections. It aims to provide balance between theoretical understanding, knowledge of empirical evidence and basic causal processes, and implications for policy.

The course begins by providing an overview of the world’s current demographic situation at both the global and the regional levels. It then addresses Malthusian and anti-Malthusian perspectives on the basic relationships linking population growth and economic growth. These contrasting perspectives are considered in the context of both historical and contemporary experience. The course then proceeds to assess demographic transition theories and their relationships to theories and processes of economic development, urbanisation and socio-structural change. Urban growth, migration, and urbanization receive special attention. The implications of population change for issues of employment, savings and investment are considered, as are issues relating to energy, food production and security, carbon emissions and climate change. Contemporary neo-Malthusian arguments, with their environmental components are also considered, as are issues relating to women’s empowerment, democratization, and population aging. Further details will be provided at the start of the session.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
DV413 Half Unit  
Environmental Problems and Development Interventions

This information is for the 2017/18 session.

Teacher responsible: Prof Timothy Forsyth

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Accounting, Organisations and Institutions, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Global Politics, MSc in Health and International Development, MSc in Health, Community and Development, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research), MSc in Population and Development, MSc in Public Policy and Administration and MSc in Regulation.

This course is available with permission as an outside option to students on other programmes where regulations permit. Also available to students taking MSc International Relations or MSc International Political Economy as part of the LSE Sciences Po Double Degree in Affaires Internationales programme. Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit). This course is capped at 60 students.

Pre-requisites: None

Course content: This course is for MSc students who wish to study social and political aspects of environmental change and its implications for international development. The aim is to summarise the key current debates about ‘environment and development’ from perspectives of social and political theory with special reference to institutional theory, livelihoods, and inclusive policy interventions.

The course is structured to analyse the challenges of making well-informed environmental interventions in the face of poverty and vulnerability, and then seeking practical solutions to these dilemmas. To begin with, the course considers the nature of environmental problems within a ‘development’ context, and what this means for environmental science and norms as applied in developing countries. Themes include assessing environmental science and expertise in development contexts, adaptation to population growth and resource scarcity, gender and environment, and vulnerability to ‘natural’ hazards. As the course progresses, it considers debates about policy interventions such as common property regime theory; theories of the state and environment (including resistance and social movements); community-based natural resource management and Sustainable Livelihoods; adaptation to climate change; forests; and urban environmental policy (these latter themes involve debates on multi-level, multi-actor governance involving the connections of local development and global environmental policy).

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures in the LT.

There is a ninety minute revision session in the LT.

Formative coursework: Students will have the opportunity to produce 1 essay in MT

Assessment: Exam (80% contribution: 2 hours) in the main exam period. Essay (20%, 2000 words) in the LT.

Set back summative assessment word count to 2000 from 1500 as per Dru’s email (22/05/17 OK)

DV415 Half Unit  
Global Environmental Governance

This information is for the 2017/18 session.

Teacher responsible: Prof Kathryn Hochstetler

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Accounting, Organisations and Institutions, MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Global Politics, MSc in Health, Community and Development, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research), MSc in Public Policy and Administration and MSc in Regulation.

This course is available with permission as an outside option to students on other programmes where regulations permit. Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit). This course is capped at 60 students.

Course content: This course is for any MSc student who wishes to study the politics of global environmental policy from the perspective of environmental governance and international development. The aim is to summarise debates about ‘global’ environmental problems and to review the contributions of debates about ‘governance’ to political solutions. The main theoretical focus of the course is on understanding the evolution of environmental policy regimes at multiple scales and with multiple actors. The guiding empirical focus is on the role of developing countries in global environmental governance and the effects of environmental policy regimes on their development strategies and outcomes. Some of this draws upon debates within International Relations, but this course also considers other literatures about environmental politics. Only part of global environmental governance takes place in formal spheres specifically devoted to environmental topics. Economic institutions like trade and financial institutions also play a key role and are covered here.

To make the course focused, it will consider primarily anthropocentric climate change, energy, and biodiversity and forests. In addition, these topics will be analysed from the perspective of the role of states and inter-state agreements; business actors and non-governmental organisations (NGOs); the regulation of trade; and the evolution of financial assistance, including from the World Bank.

Teaching: 16 hours and 30 minutes of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: A detailed reading list will be presented at the beginning of the term. There is no single textbook for this course, but we recommend the following as a basic reading list: Betsill, M. and Corell, E. (eds). 2007. NGO Diplomacy. The Influence of Nongovernmental Organizations in International Environmental Negotiations, MIT Press. Biermann, F. Pattberg, P. and Zelli, F. (eds).

Assessment: Exam (80%, duration: 2 hours) in the main exam period.

Essay (20%, 2000 words) in the ST.

DV418 Half Unit
African Development

This information is for the 2017/18 session.

Teacher responsible: Prof Thandika Mkandawire CON. 802

Availability: This course is compulsory on the MSc in African Development. This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Anthropology and Development, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in Health and International Development, MSc in Human Rights, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Population and Development, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is not available as an outside option.

Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit).

Course content: The major concern of the course is with the political economy of African development, to examine processes of economic, political, social and cultural change in Sub-Saharan Africa. It provides critical analysis of key development interventions and processes. It seeks to combine general theoretical overviews with country case studies illustrating the variety of experiences and trajectories. It does not aim to provide a comprehensive coverage of development issues or of regions. Course content will vary from year to year, depending on the specialities of staff.

Attention is paid to legacies of the colonial encounter; the constraints and opportunities presented by African countries' positions in the global economy; the political economy of industrialisation and agrarian transformation, resource mobilisation, trade diversification; institutional reforms and state capacity. Attention will also be paid to social policy with special focus on issues such as social social protection, cash transfers, Millennium Development Goals, horizontal inequality and conflict.

Teaching: 16 hours and 30 minutes of lectures and 15 hours of seminars in the LT.

There will be a ninety minute revision session in late LT.

Formative coursework: Students will write a 2,000 word essay chosen from class questions and in discussion with the course leader, to be submitted by the beginning of week 6 of Lent Term.

Indicative reading: A detailed weekly reading list will be provided at the first course meeting. The following readings provide an introduction to the course:

6. Mann, L. (Forthcoming) Corporations Left to Other Peoples’ Devices: A Political Economy Perspective on the Big Data Revolution in Development and Change.
### DV420 Half Unit
#### Complex Emergencies

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof David Keen CON. H715

**Availability:** This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in Health and International Development, MSc in Health, Community and Development, MSc in Human Rights, MSc in International Development and Humanitarian Emergencies, MSc in Population and Development, MSc in Social Policy and Development, MSc in Social Policy and Development: Non-Governmental Organisations, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is not available as an outside option.

Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit).

**Course content:** The course examines the consequences and causes of humanitarian disasters. It looks at the changing nature of civil conflicts, at the famine process, and at the benefits that may arise for some groups from war and famine. It examines some of the roots of violence in civil wars, as well as the information systems that surround and help to shape disasters.

**Teaching:** 16 hours and 30 minutes of lectures and 13 hours and 30 minutes of seminars in the LT. There will be a ninety minute revision session in late LT.

**Formative coursework:** Students will have the opportunity to receive feedback on formative work, in the form of a practice assessed essay.

**Indicative reading:** A detailed weekly reading list will be provided at the first course meeting. A useful text, which is designed in large part around the course, is David Keen, Complex Emergencies (Polity, 2008). Other texts of interest include David Keen, Useful Enemies: When Waging Wars is More Important than Winning Them (Yale University Press, 2012); Stathis Kalyvas, The Logic of Violence in Civil War (Cambridge University Press, 2006); David Keen, Conflict and Collusion in Sierra Leone (James Currey, 2006); David Keen, Endless War? Hidden Functions of the ‘War on Terror’ (Pluto, 2006); Michael Mann, The Dark Side of Democracy: Explaining Ethnic Cleansing (Cambridge University Press, 2005); Amartya Sen, Poverty and Famines (Oxford University Press, 1981); Frances Stewart and Valpy FitzGerald (eds.), War and Underdevelopment, Volumes 1 and 2 (Oxford University Press, 2001); and Jeremy Weinstein, Inside Violence: The Politics of Insurgent Violence (Cambridge University Press, 2007); Tim Allen, Trial Justice: The International Criminal Court and the Lord's Resistance Army (Zed Press, 2006); Chris Dolan, Social Torture: The Case of Northern Uganda, 1986-2006 (Berghahn, 2009); Zoe Marriage, Not Breaking the Rules, Not Playing the Game: International Assistance to Countries in Conflict (Hurst and Co., 2006); Christopher Cramer, Civil War is Not a Stupid Thing: Accounting for Violence in Developing Countries (Hurst and Co., 2006); Mats Berdal and David Malone, Greed and Grievance: Economic Agendas in Civil Wars (Lynne Rienner, 2000); Hugo Slim, Killing Civilians: Method, Madness and Morality in War (Hurst and Co., 2008).

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Global Politics, MSc in International Development and Humanitarian Emergencies and MSc in Political Economy of Late Development. This course is not available as an outside option.

Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit). The instructors reserve the right to limit enrolment on the course. At the instructors’ discretion, enrolment may be denied to any student on the basis of a pre-quiz. The course is capped at 75 students.

Course content: This course examines the politics of the national-level strategies (eg production, trade, FDI) for interaction with the global economy. It covers the performance of the world economy as a whole (trends in growth and shrink, inequality, poverty), international systems of production, trade, and finance; the rules or regimes which govern interaction between economies, states and firms (regimes such as Bretton Woods, and the Post Bretton Woods dollar standard), and several international organisations (such as the World Bank and IMF). Along the way it analyses the major financial/economic crises of 1997-99 and 2007-continuing. In contrast to much writing in International Political Economy, it looks at these things from the perspective of the low and middle-income countries (in the spirit of the Swahili proverb, “Until lions have their own historians tales of hunting will always glorify the hunters”), and does not assume that the G7 states provide a generally benign (win-win) environment for development in the rest of the world (“free trade and free entry for FDI benefits us all”).

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of lectures in the LT.

Assessment:
Indicative reading:
Assessment:

This information is for the 2017/18 session. This course is available with permission as an outside option to students on other programmes.
Global Civil Society

Course content: The course looks at international, national and local responses to conflict and natural disasters. Building on an analysis of the causes, construction and consequences of humanitarian disasters, this course focuses on humanitarian actors (including aid workers, journalists, physicians, government officials, soldiers, politicians and peace negotiators). It considers the principles and the politics of humanitarian action, exploring the overlaps and tensions between practices of humanitarian assistance and other forms of political and military intervention. It looks at how differing forms of humanitarianism relate to ideas of human rights and justice, the politics of securitisation and of neglect. It looks at the explanation as to why humanitarian organisations and governments respond to some crises and not to others and considers the critique of humanitarian assistance and the ways in which the UN and NGO communities have responded and sought to professionalise their activities. The course also looks at how recipients of humanitarian aid respond to these programmes, and in some cases subvert or transform them into quite different projects. Case studies will be drawn primarily from Africa, Central and South Asia and Latin America. However, there is also likely to be discussion of ongoing humanitarian emergencies, wherever they are located.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT. 2 hours of lectures in the LT.

The course will be taught in the Michaelmas Term and will consist of 10 lectures of 120 minutes each and ten seminars of one-and-a-half hours (various days and times). There will be a two hour revision session in late LT.

Formative coursework: Students will receive feedback on seminar group presentations and have the option to write a practice essay under take-home exam conditions, not exceeding 2,000 words. Essay topics will relate to seminar discussions and lecture material covered to date. Students will receive an indicative grade and written feedback before the end of the term.

Assessment: Take home exam (100%) in the ST.

The paper will be released via the course Moodle site. Please note that as this is a three-day take-home examination, extensions for disabilities will apply in exceptional circumstances. Students who cannot commit to be available for the exam period may NOT register for this course.

DV429 Global Civil Society

This information is for the 2017/18 session.

Teacher responsible: Prof Mary Kaldor

Availability: This course is available on the MSc in International Development and Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Civil society has come to be considered as an essential element of contemporary global politics, taken either as a normative concept linked to the idea of democracy or as a descriptive concept that refers to the activism of NGOs, social movements, and global advocacy networks. This course provides students with the conceptual and empirical background that allows them to critically engage with the complex debate over global civil society and to assess the potential and the challenges of civil society activism in the context of our increasingly globalising world.

The first part of the course covers the historical evolution of the concept of civil society and the relevance of different interpretation of civil society to our global age. It will include Enlightenment thinkers such as Hobbes, Locke or Adam Ferguson, the Marxist and Hegelian tradition, ideas drawn from classical Islam, and contemporary ways of understanding the concept especially in the Central European revolutions of 1989 and the Middle Eastern revolutions of 2011. The second part of the course is more practical and covers the characteristics, repertoires and impacts of key global civil society actors, such as NGOs, social movements, nationalist groups, religious movements and global advocacy networks; the relevance of the media and Internet activism; as well as the role of global civil society on key issues such as the economic crisis, the War on Terror and democracy.

Our readings cover key texts on civil society and globalisation, NGOs, social movements, nationalist and religious movements and advocacy networks.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.

Formative coursework: One non-assessed essay (not more than 1,200 words) during term and at least one presentation.

Assessment: Exam (40%, duration: 2 hours) in the main exam period.

Essay (60%, 5000 words) in the ST.

The course will be assessed by one 3-5,000-word essay (60%) due on the first day of Summer Term. The assessed essay can be an extension of the non-assessed one. A two-hour unseen examination in Summer Term (40%).

DV431 Development Management

This information is for the 2017/18 session.

Teacher responsible: Prof Jean-Paul Faguet CON.8.06, Dr Mayling Birney CON.8.14 and Prof Edwin Brett CON.8.12

Availability: This course is compulsory on the MSc in Development Management. This course is available on the MSc in African Development and MSc in Political Science and Political Economy. This course is not available as an outside option.

Course content: Why are some countries rich and others poor? Why are some governed well and others badly? This course employs a political economy approach to examine the causes of development, identify the underlying obstacles to development, and evaluate potential solutions. It focuses on the principles governing the institutions, politics, and organisations through which policies, programmes and projects are produced and implemented. Attention is given to the different kinds of authority, incentives and accountability mechanisms that govern the relationships between leaders, managers and recipients. It reviews ongoing debates about the best ways of designing state agencies, private firms and NGOs, by showing how centralised
bureaucracies, markets, participatory and solidarity agencies operate to provide services in practice. It explores the dynamics of different forms of democratic and authoritarian states, the determinants of good and poor governance, and how social, political and economic forces interact to drive change and stability. In order to enable students to make practical judgments about institutional reform programmes in various contexts, competing approaches to development are critically and constructively analyzed in light of case studies. The course is divided into four parts: (1) Analytical Assumptions, (2) Government and Governance, (3) Private Sector, and (4) Civil Society. On completing the course students should be able to: (i) use theory to identify the causes of actual development challenges, (ii) identify and assess relevant case study material to inform development practice; and (iii) employ the insights developed throughout the course to formulate policy recommendations and plans of action for improving development.

Teaching: 20 hours of lectures, 15 hours of seminars and 15 hours of workshops in the MT. 16 hours of lectures, 12 hours of seminars and 15 hours of workshops in the LT. 3 hours and 30 minutes of lectures in the ST.

There will be an introductory workshop, 18 two-hour lectures and 18 one-and-a-half hour seminars over the Michaelmas & Lent Terms. Students are expected to attend all these sessions. Lectures will focus on the theoretical debates driving current policy practice in the development community, while seminars will relate these to practical problems of implementation, drawing on case studies, class exercises, and the personal experience of participants. Seminars will discuss topics covered in the lecture, and will be conducted on the basis either of a student presentation or a class exercise.

MSc in Development Management and MSc in Anthropology and Development students (only) will also take part in and be assessed on the Development Management Project, a live consultancy exercise for real development agencies in consultation with International Development staff. Workshops will be organised to assist student groups to formulate their proposals and negotiate their projects with their commissioning agencies. These students will also be offered mandatory special sessions specifically on practical and professional aspects of the consultancy projects, development management workshops, and a development policy debate.

There will be a three and a half hour revision session in late LT or early ST.

Formative coursework: In the Michaelmas Term, all students are expected to produce one short essay on a topic agreed with an individual tutor, to prepare them for the final exam. In addition, MSc in African Development and MSc in Political Science and Political Economy students are expected to produce a formative case study analysis presentation in MT, to prepare them for their assessed presentation in LT.

Assessment: Assessment path 1
Exam (60%, duration: 3 hours) in the main exam period.
Project (40%) in the ST.
Assessment path 2
Exam (75%, duration: 3 hours) in the main exam period.
Presentation (25%) in the LT.
Assessment path 1 is for MSc in Development Management and MSc in Anthropology and Development Management students.
Assessment path 2 is for MSc in African Development and MSc in Political Science and Political Economy students. The presentation is a case study analysis presentation in the LT.

Students are required to pass the final exam in the main exam period in order to pass the course. A fail in the exam cannot be condoned by a pass in other elements of assessment.

DV432 Half Unit Not available in 2017/18
China in Developmental Perspective
This information is for the 2017/18 session.
Teacher responsible: Prof. Jude Howell CON. 8.11
Availability: This course is available on the CEMS Exchange, MBA Exchange, MPA in International Development, MSc in African Development, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in International Development and Humanitarian Emergencies and MSc in Social Policy and Development: Non-Governmental Organisations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course looks at China from a comparative developmental perspective, locating the discussion of China within the interdisciplinary field of development studies. It examines China's developmental trajectory since 1949, exploring the fundamental shift in developmental path from late 1978 onwards. It considers China's role in the so-called Third World, as a model of innovation, as a voice for developing country concerns and as an important aid donor. It reflects on China's recent achievements in reducing poverty and places these in comparative context.

The course considers the governance challenges posed by rapid economic reform, the attempts to reform the Party-state and to manage social tensions. It examines the social dimensions of rapid economic reform and the implications for social policies. It looks at the emergence of NGOs and other forms of civil society organising and considers changing state-society relations. Finally it considers China's role as aid donor and its emergence as a global economic and political power. The course will enable students to obtain an understanding of key developmental issues and discussions about China and to link these discussions to broader debates and theories in development studies.

Teaching: 20 hours of lectures and 13 hours and 30 minutes of seminars in the MT.

In addition, one introductory seminar session in MT and one essay preparation session in LT.

There will be a ninety minute revision session in late LT or early ST.

Formative coursework: Students have the opportunity to receive feedback on a formative essay of 1,500 words. Students will also receive feedback on their seminar performance. Students are welcome to come to course convener's office hours to discuss any issues.

Advanced and Less Developed Countries. Baltimore: John Hopkins

1. Formative coursework: Formative coursework will involve a 2,000 word essay during the term and at least one presentation.

Indicative reading: 1. Portes, Alejandro, Manuel Castells and Formative coursework: Formative coursework will involve a 2,000 word essay during the term and at least one presentation.  

Assessment: Exam (70%, duration: 2 hours) in the main exam period.

Essay (30%, 2500 words) in the ST.

DV433 Half Unit  Not available in 2017/18
The Informal Economy and Development
This information is for the 2017/18 session.
Teacher responsible: Dr Kathleen Meagher CON.711
Availability: This course is available on the CEMS Exchange, MBA Exchange, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in International Development and Humanitarian Emergencies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Contrary to standard development thinking, the informal economy has expanded rather than contracted in the face of liberalisation and globalisation, and now creates more jobs than the formal economy in most developing countries. Accounting for more than 50% of non-agricultural employment across much of the developing world, the informal economy is attracting growing policy attention. Practitioners, policy makers and academics seek a clearer understanding of its impact on poverty, employment, social exclusion, and governance. In a globalising environment, are large informal economies a poverty trap or an engine of growth? Do they stimulate entrepreneurship and popular empowerment, or promote criminality and exploitation? How does a greater understanding of the size and organization of informal economies affect policy on urban service provision, social policy or taxation? What are the implications of the informal economy for social cohesion and popular politics? This course will explore how high levels of informality in developing countries are shaping processes of growth and governance in the global south. The effect of informality on new policy narratives of inclusive growth will be a central theme in the course. Using a comparative institutional approach, we will examine informal economies in a range of regional contexts, including Africa, the Middle East, South and East Asia, and Latin America, highlighting variations in activities, relations with the state, global integration and development outcomes. Key issues covered in the course include the impact of the informal economy on labour markets, weak states, gender empowerment, urban services, social enterprise, social policy, taxation, and popular politics. Attention will be focused on the potential as well as risks of large informal economies in the face of contemporary development challenges, drawing on empirical evidence and comparative case studies from across the developing world.

Teaching: 16 hours and 30 minutes of lectures and 15 hours of seminars in the LT.

There will be a ninety minute revision session in late LT.

Formative coursework: Formative coursework will involve a 2,000 word essay during the term and at least one presentation.

Assessment: Exam (70%, duration: 2 hours) in the main exam period.

Essay (30%, 3000 words) in the ST.

DV434 Half Unit  Not available in 2017/18
Human Security
This information is for the 2017/18 session.
Teacher responsible: Prof Mary Kaldor
Dr Iavor Rangelov
Availability: This course is available on the MSc in African Development, MSc in Conflict Studies, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in International Development and Humanitarian Emergencies, MSc in International Migration and Public Policy, MSc in Social Research Methods and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.

No more than 5 students, per academic year, can be accepted from programmes other than the listed programmes. Capped at 30 students, first come, first served in order of priority.

Course content: This inter-disciplinary course will introduce students to the concept of human security. Human security refers to the security of individuals and communities as opposed to the security of the state. It combines physical security and material security, freedom from fear and freedom from want. The course will introduce students to the debates about the concept and its relevance in the contemporary era. It will combine political, military, legal and economic approaches to human security implementation. The course will cover topics including; intellectual foundations and debates over the concept of human security; new and old wars, persistent conflict; just war thinking and whether it can be applied to human security; international humanitarian law and human rights law; humanitarian intervention and the Responsibility to Protect; international capabilities for human
security; counterinsurgency, stabilisation, and statebuilding; transnational justice.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST. One Day Conference where group projects will be presented to peers and invited external experts.

**Formative coursework:** Students will be expected to undertake class essays, class presentations, and a case study based group project. Students will receive feedback on all of these.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**DV435   Half Unit**

**African Political Economy**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Catherine Boone

**Availability:** This course is compulsory on the MSc in African Development and MSc in Comparative Politics. This course is available on the CEMS Exchange, MBA Exchange, MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Development Management, MSc in Development Studies and MSc in International Development and Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This class is an introduction to the study of contemporary African political economy. The goal is to set major questions of state, national economy, development in historical, geographic, and international context. Course readings and lectures stress marked unevenness in national and sub-national trajectories and in the political-economic character of different African countries, drawing attention to causes of similarity and difference across and within countries. Students will come away with a better understanding of the economic and social underpinnings of order and conflict in African states.

**Teaching:** 20 hours of lectures and 15 hours of classes in the MT. 2 hours of lectures in the LT. There will be a revision session in LT.

This course shares lectures with GV335 African Political Economy. Seminar classes are separate for postgraduate students.

**Formative coursework:** Optional formative essay due in November.

**Assessment:** Exam (60%, duration: 2 hours) in the main exam period. Essay (40%, 3000 words) in the LT.

---

**DV442   Half Unit**

**Key Issues in Development Studies**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Elliott Green and other ID staff

**Availability:** This course is compulsory on the MSc in African Development, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Political Economy of Late Development, MSc in Population and Development and MSc in Urbanisation and Development. This course is not available as an outside option.

**Course content:** This course provides an overview of the key issues and debates in international development. It features lectures from leading LSE experts on subjects such as climate change, conflict, poverty, the financial crisis, demography and democratisation, among other topics.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures in the LT.

**Formative coursework:** Students will give at least one class presentation.

**Assessment:** Exam (75%, duration: 2 hours) in the main exam period. Essay (25%, 2000 words) in the LT.
DV445 Research Themes in International Development

This information is for the 2017/18 session.
Teacher responsible: Prof Duncan Green
Availability: This course is compulsory on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is not available as an outside option.
It is a compulsory course for all ID students.
Course content: The objectives of the course are: a) to introduce students to the practical world of development which will both facilitate their ‘career paths’ and also prepare them for the consultancy projects by becoming more familiar with how such organisations think and work; b) to introduce students to the interface between policy practice and development academia. Each week speakers from different development organisations will speak to students about policy and research work in their organisation, how their organisation uses research and for what purposes, and some of the hot topics.
Teaching: 20 hours of lectures in the LT.
Assessment: This course is not assessed.

DV447 Half Unit Not available in 2017/18
Public Affairs, International Development and Gendered Violence

This information is for the 2017/18 session.
Teacher responsible: Dr Rochelle Burgess and Dr Holly Porter
Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Studies and MSc in International Development and Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Previous study of the social sciences or humanities is preferred.
Course content: The framework for this course will see economic, social and private aspects of development and public policy as reference points to examine silences, biases and analyses of sex and violence against women. We will consider the sexually informed constructions of women's place in the home and in the public sphere, how development and public policy make assumptions about control over women's bodies, and the ways in which such are challenged or reinforced. We will look at war and conflict, humanitarian work and times of 'peace'. We will examine assumptions and judgements about (hetero)-sexuality, sexual control (by the self and by others) and how these have been drawn on by policy-makers and other actors, both in the public and domestic spheres. There will be discussions about the labour market and workplace, education, the household, family, marriage, reproduction and father-/motherhood and health. Violence – both physical and sexual – will be given attention. We will also explore issues relating to identity, religion and culture and power in relation to the grounding of concepts and expectations that infuse not only private life but also the thinking of policy-makers.
Teaching: 15 hours of lectures and 15 hours of classes in the LT.
There will be a ninety minute revision session in late LT or early ST.
Formative coursework: Students will be expected to write a short, paper of 800-1000 words on the topic on which they will lead a class.

Assessment: Exam (80%, duration: 2 hours) in the main exam period.
Essay (20%, 2000 words) in the LT.

DV448 Half Unit
Political Economy of Development I

This information is for the 2017/18 session.
Teacher responsible: Dr Lloyd Gruber CON.6.03
Availability: This course is compulsory on the MPA in International Development. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and MSc in Development Studies. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This half-unit MT course explores why governments and organisations pursue the development policies they do. Whenever experts get together to debate development policy, attention usually focuses on what all the relevant actors should be doing. Which policies should the leaders of developing countries be adopting (or discounting) to stimulate growth and reduce poverty? What new trade or aid strategies should policymakers in the industrialised world be implementing to help poorer countries develop? What should world leaders be doing to address climate change? In practice, however, people in positions of power do not always pursue the policy agendas that well-intentioned development experts say they should. Rather than let this be a source of frustration, students who take this course will come away with a deeper understanding of the political incentives that drive development forward, or sometimes backwards, in the real world. Attention will focus on the political pressures that motivate and constrain development policymakers at all levels of government - local, national and global - and across all sectors of the economy - public, private and non-profit. Students will be exposed to a wide variety of political economy concepts along the way. There will also be opportunities for students to apply these concepts to concrete cases of development management and mis-management. Why do the governments of some developing countries take good care of poor rural families and their children, for example, while other governments privilege urban elites? Why have inclusive democratic institutions taken root in some countries but not in others? If you are curious about the larger political forces driving some developing countries ahead while others stagnate or decline - and you want more experience putting cutting-edge political economy theories to work in solving current development problems - this course is for you.
Teaching: 22 hours of lectures and 16 hours and 30 minutes of seminars in the MT.
There will be a revision session before the take-home exam.
Formative coursework: Each student will be expected to deliver one practice presentation during the first few weeks of the course. Students can expect detailed feedback on the substance of these presentations as well as their delivery (presentations
will be videoed where possible). Each student will also be invited to submit an individually-authored policy memo on one of two different questions distributed in week 2. These memos will be handed back - with comments - shortly thereafter.

**Indicative reading:**
1. Paul Collier, The Bottom Billion: Why the Poorest Countries are Failing and What Can Be Done About It (Oxford, 2007)

**Assessment:** Essay (15%) and presentation (15%) in the MT. Take home exam (70%) in the LT.

All students will be required to take part in a Development Policy Application (DPA) project stretching over several weeks of the course. A specific – and current – issue of major importance to developing countries will be introduced in the first week of this exercise. Each student will then be asked to prepare an individually-authored policy memo on the topic. This memo will be worth 15% of the overall course mark.

In the second part of the exercise, students will be randomly assigned into small groups and begin preparing a jointly-delivered oral presentation outlining and defending their group's preferred policy. These presentations will take place towards the end of the term and will count for a further 15% of the overall course mark.

A final take-home examination will be administered via Moodle on the Friday of week 0 of Lent Term. Students will have a 12-hour window (from 09.00-21.00 GMT) within which to access the exam questions and complete the exam. Once they have logged into Moodle and downloaded the exam questions, students will have 2 hours and 30 minutes to prepare and upload their answers.

The exam will consist of two equally-weighted essay questions, one from Part A (broad thematic questions) and one from Part B (specific topics). Both questions will encourage students to think creatively about the ideas and arguments presented in the course. No outside research will be required. This last component of the assessment will count for 70% of the overall course mark.

---

**DV450 Half Unit**

**Policy, Bureaucracy and Development: Theory and Practice of Policy Design, Implementation and Evaluation**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Adnan Khan 4.03A, 32LIF

**Teaching assistant:** Dr Geoff Goodwin CON.8.15

**Availability:** This course is available on the CEMS Exchange, MBA Exchange, MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Studies, MSc in International Development and Humanitarian Emergencies and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Some knowledge of economics, especially microeconomics, is desirable but not essential.

**Course content:** The course will start with an introduction to policy and bureaucracy in the developing world, discussing how thinking on bureaucracy has changed and showing how cutting-edge research is helping us gain a better understanding of how states operate and perform. The first part of the course covers personnel economics and in particular incentive mechanisms and issues around selection of bureaucrats. The principal-agent model is introduced and applied to explore how best to recruit, train, motivate and monitor bureaucrats. Since policy formulation and implementation are embedded in politics, the course then covers political economy of government performance and introduces the long and short routes of accountability. Given the trade-off...
in delegation, the course explores the conditions under which politicians delegate to bureaucrats and hold them accountable for performance. The course then covers how evidence can inform formulation of policies.

The final part of the course will explore opportunities for pro-development policy change along several dimensions. Building on the analysis from the earlier parts covering personnel economics and political economy, we explore what incentive structures are required to encourage bureaucrats and politicians to introduce and successfully implement pro-development policy. Drawing on the latest research in the field, we then explore when policy actors can effectively use evidence to inform policy decisions and discuss cases where good evidence is produced, understood and acted upon to shape policy in critical ways. The course concludes with a discussion on creating, identifying and building on opportunities for policy change.

The course is aimed at anyone who is interested in public policy, economic development, and building more effective governments that are accountable to their citizens. It balances theory and practice and draws on policy questions and examples from the real world. The course is designed to engage development professionals and anyone interested in public policy in thinking more deeply about policy challenges and finding feasible solutions. The instructor brings to the class 15 years of experience as a bureaucrat in different policy positions and 10 years as a researcher, catalyst of other people's research and as someone who connects research and policy worlds on growth and development. The teaching assistant adopts innovative approaches to teaching and learning, drawing on his diverse research experiences in the developing world.

**Teaching:** 22 hours of lectures and 16 hours and 30 minutes of seminars in the MT.

**Formative coursework:** Students will be required to present in at least one seminar and will also be expected to write a formative policy memo and essay plan. Feedback will be provided on all elements of formative coursework.

**Indicative reading:**

**Assessment:**
- Essay (50%, 4000 words) in the LT.
- Project (35%) and other (15%) in the MT.
- Individual essay (50%) in the LT.
- 4,000 words paper that applies the concepts and framework of the course to a specific topic. Students to submit essay beginning of LT.

**Course content:**
- Students work on a consultancy report in Michaelmas Term and Lent Terms.
- Students will gain practical experience of dealing with current policy issues and best practice in the fields of humanitarian assistance or international development by working on a live consultancy team project for a real client.
- The consultations are based around an experiential learning format. Students also receive guidance through a series of three workshops in the Michaelmas Term and a supervision process.

**Consultancy Skills Workshops** - There will be a series of three skills-oriented lecture and group work sessions (each lasting three hours).

**Teaching:** 9 hours of lectures and 6 hours of workshops in the MT.

**Formative coursework:**
- Students will contribute to the Group consultation project for a real client.
- The consultations are based around an experiential learning format. Students also receive guidance through a series of three workshops in the Michaelmas Term and a supervision process.

**Assessment:**
- Project (80%, 6000 words), other (10%) and presentation (10%) in the LT.
- The other assessment is a 360 degree reporting and mentor assessment (10%) presentation (10%) in the LT.
- Consultancy group project report (6000-10000 words depending on the client's terms of reference and student group size), submitted at the end of Lent Term.
- Consultancy group project presentation to clients: (10%) at the end of Lent Term.
- Final client presentations are at the end of the Lent Term and are scheduled by the students in consultation with academic staff and the clients. Students should be aware that presentations to clients MAY have to take place during the first week of Easter Vacation. They will be informed as soon as possible, but should not make any travel plans until presentation dates are confirmed.
DV454  Half Unit
Gender, labour markets and social change in the Global South: theory, evidence, public action

This information is for the 2017/18 session.
Teacher responsible: Prof Naila Kabeer
Availability: This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies and MSc in International Development and Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: N/A

Course content: One of the longest running debates within the feminist literature, and one that has been replayed in the field of gender and international development, relates to the relationship between women’s access to labour market opportunities and their position within the family and community: the exploitation versus emancipation argument. These debates have been given fresh lease of life in the development literature as a result of the growing feminisation of labour markets in recent years in most regions of the Global South. They have been further complicated by additional claims that gender does not so much sit outside policy discourses as that greater gender equality in the labour market has enormous growth as well as emancipatory potential: ‘the smart thing to do as well as the right thing to do’. At the same time, a great deal of feminist literature as well as international campaigns, like the anti-sweatshop movement, highlight the extremely exploitative terms on which most women take up paid work and contest the view that increased access to paid work has been empowering for women. At the heart of these conflicting positions are conflicting views about how power, privilege, choice and agency play out in the market place.
This course will be organized around these debates. It aims to equip students with the ability to analyse and assess the competing claims around this critical set of issues by providing them with a firm grounding in theory, evidence and public action relating to gender and labour markets in the Global South. It will meet this objective through three main components.

The first component will focus on the different positions within these debates, the claims around the empowerment potential of labour market participation and the claims around growth. It will examine key concepts and theories relating to gender, households and labour markets which provide the underpinning to these claims. It will consider how inequality, power and difference is dealt with in these theories. It will also examine the different definitions of ‘work’ which feature in these theories and the extent to which they capture labour markets and livelihood strategies in different regions of the Global South.

The second component will draw together the empirical literature to consider the evidence relating to gendered patterns of labour market participation in different regions of the world. It will start out with a broad-brush account of the changes that have taken place in domestic and global labour markets over the last few decades and then consider in greater detail how these markets function at the local level in low and middle income countries. It will also analyse how market forces are restructuring some of the intimate aspects of family relations through the commodification of services that were previously provided as part of the marital contract. It will conclude by considering what these changing dynamics of the labour market tell us about women’s position within their families and the wider society and revisit the arguments about gender and growth.

The third component will evaluate various forms of public action by policy, corporations and civil society actors that have been taken up in response to their positions with regard to the gender dynamics in the economy. These include policy measures to promote greater gender equality in the labour market, minimum wage legislation, social protection and corporate social responsibility, anti-sweatshop movements, new forms of unionism and feminist activism.

Teaching: 16 hours and 30 minutes of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be required to submit a 1500 essay which will not count towards their final marks but which will allow them to receive feedback on their ability to read critically, to synthesise arguments and to ensure that their writing style meets the standards required by the school.

Assessment: Essay (80%, 4000 words) and essay (20%, 2000 words) in the ST.
Assessment 1 addresses Intended Learning Outcomes 1, 2 and 3
Assessment 2 addresses Intended Learning Outcomes 3 and 4

DV455  Half Unit
Advocacy, Campaigning and Grassroots Activism

This information is for the 2017/18 session.
Teacher responsible: Prof Duncan Green

Dr Duncan Green is Professor in Practice in the International Development Department, and Senior Strategic Adviser at Oxfam GB, an international NGO. His blog, From Poverty to Power (http://oxfamblogs.org/fp2p/) is one of the most widely read international development blogs. His most recent book, How Change Happens (OUP 2016) is the core text for this course.

Availability: This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in International Development and Humanitarian Emergencies and MSc in Population and Development. This course is not available as an outside option.

The course will be offered in Lent term and capped at 30 students. In case the number of applicants exceeds this number, applicants will be asked to submit 200 words on their background and why they want to take the course, to be assessed against interest, experience and passion. Access to the course is underpinned by equality of inclusion and this includes the criteria for entry. All students who meet the School requirements for masters level learning and submit an application will be considered on the strength of criteria that embrace equality and diversity.

Course content: There are two blocks in this course:
1. Understanding How Change Happens, including systems thinking and power analysis
2. The analytical frameworks used by INGOs and other change agents

This course introduces students to some of the analytical
frameworks and practical techniques used by INGOs such as Oxfam (where the course leader is senior strategic adviser) and other activists (broadly defined, including ‘change agents’ in governments and the private sector) in influencing political, social and economic policy and practice. Lectures will introduce the importance of systems thinking and power analysis in understanding and influencing processes of change and the role of civil society and advocacy in driving such change. These will be used to explore how activists and activist organizations use ‘theories of change’ as an organizing tool for influencing.

The course is designed for students who have been, or intend to become, active in driving change, whether as members of civil society organizations, in government, in aid donors or in the private sector. You will develop your understanding both of endogenous change processes in developing countries, and the role and limitations of deliberate efforts to bring about political, social and economic change. 

Students will be asked to come with an initial idea for an influencing exercise (for example a campaign, policy reform, or effort to shift public attitudes) and will apply the coursework to that case study, developing a Theory of Change at the end of the term that will be assessed. Students will be required to produce a blog post and vlogs (video blogs, as part of group work) summarizing their individual and group projects, which will also be summatively assessed (students will receive a ‘blogging for beginners’ lecture on writing for impact)

Teaching: 15 hours of lectures and 20 hours of seminars in the LT. Teaching will consist of a combination of lecture presentations, involving powerpoint, video and group discussion, and seminar discussions. There will be one lecture of 90 minutes each week of term. This will be followed up by 60 minutes of seminar work.

Reading week will occur in week 6, during which time there will be extended office hours available

Formative coursework: Students will be asked to submit initial proposals (1000 words max) for their individual assignments in week 6, for feedback from the course leader.

First drafts of the group assignment will be presented in seminars in weeks 6, 7 & 8 for verbal group/tutor feedback

Assessment: Project (45%, 2500 words), coursework (25%, 2000 words) and coursework (15%, 500 words) in January. Blog post (5%), presentation (5%) and blog post (5%) in the MT.

The summative assessment will consist of two assignments: a) Individual project proposals for an influencing project (individual) will be formatively assessed and feedback given. This will then inform the final project that will be summatively assessed in January. A blog or Vlog of the project will also be produced and summatively marked. b) Historical case study (as groups of 4 or 5). Group membership will be assigned in advance. Students will select from a range of historical change episodes – assign the groups, then give them a range of options and let them choose). Assessment will be in three parts - the shared written summary, individual written self-reflection; a shared group presentation and an individual blog or vlog will be produced, drawn from the group project and summatively marked.

DV456    Half Unit
Planning for Population and Development

This information is for the 2017/18 session.

Teacher responsible: Dr Tiziana Leone

Availability: This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Global Health, MSc in Global Population Health, MSc in Health and International Development, MSc in Population and Development, MSc in Social Policy (Research) and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Some familiarity with personal computers is required, but a high degree of technical proficiency is not required.

Course content: The course is practical in nature and overviews key methods used for planning in population and development. Key questions which will be answered in this course are: what is the future of the world population; What are the family planning needs of couples in low income countries; what will be the number of newly HIV infected in the next 15 years; what is a sustainable population growth the focus will be both on producing information as well as on searching and understanding data provided by key international agencies. Relevance will be given to methods used for assessing the implications of high levels of mortality in developing countries with specific reference to the HIV/AIDS pandemic; as well as the assessment of high fertility levels due to low uptakes of family planning methods. The approach is practical and complements the more theoretical population courses giving additional skills such as an understanding of key international projections and estimates. Students will undertake a number of computer-based assignments (using either Excel or Spectrum) which will follow the topics highlighted during the lectures. The course covers concepts used for population analysis; the role of population projections in the population planning and development process; the basis of projections made by international agencies such as the UN Population Division; the formulation of projection assumptions and methods of making projections; methods for projecting and assessing the impact of HIV/AIDS and the use of software such as AIM (AIDS Impact Model). The course will also give an overview of projections for particular sub-groups such as households, families, urban, sub-national and labour force ones and of the implications of uncertainty for the planning process. Emphasis will be given to the learning of analytical skills which include data and information searching on the internet as well as presentation of the information.

Teaching: 15 hours of lectures and 20 hours of seminars in the LT.

Formative coursework: Students will be expected to submit a formative essay before the end of term

Indicative reading: Relevant documents will be provided at the start of the course, mainly in the form of electronic documents. Suggested reading are Lutz “The future population of the world”; Cohen “ How many people can the earth support”

Assessment: Coursework (50%) in the LT.

Coursework (50%) in the ST.

Assessment will be by two coursework assignments, each of
coursework assignment to a maximum of 10 A4 pages, which will involve the formulation, execution and writing up of a project concerned with a model for population planning, which has been agreed with the course teacher.

DV457  Half Unit
Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation

This information is for the 2017/18 session.
Teacher responsible: Dr Ernestina Coast OLD 2.24
Availability: This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Health, MSc in Global Population Health, MSc in Health and International Development, MSc in Population and Development, MSc in Social Research Methods and MSc in Women, Peace and Security. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course is deals with the effectiveness of sexual and reproductive health programmes, especially those that deliver services. The key issues addressed are the design of programmes, their effective implementation, and their evaluation, addressing questions such as: What role can the mass media play in communicating reproductive health messages? What special sexual and reproductive needs do adolescents have? Should violence against women be considered a reproductive health issue? How appropriate is social marketing as a means of increasing contraceptive use? What are the main causes of maternal death?
The course covers a wide range of topics, including: the organisation of programmes; issues of strategic management; personnel training; logistics and commodity supply; the tools of management and evaluation, including management information systems; information, education and communication, including the role of the mass media, innovative approaches to reproductive health education, including an examination of the role of formal education and curriculum content; violence against women as a reproductive health issue; meeting the reproductive health needs of “special” groups, including adolescents and refugees; the use of social marketing; issues of quality in service delivery, techniques for evaluating programme effectiveness.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT.
Formative coursework: Students are expected to prepare a seminar presentation and a formative essay (circa 1,500 words) during the term.
Indicative reading: The course is supported by a VLE containing electronic reading lists. There is no single key text.
Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Coursework (50%) in the ST.
Coursework assignment to be a maximum of 10 A4 pages.

DV459  Dissertation: Population and Development

This information is for the 2017/18 session.
Teacher responsible: Dr Ernestina Coast and Dr Tiziana Leone
Availability: This course is compulsory on the MSc in Population and Development. This course is not available as an outside option.
Course content: The purpose is to allow students to explore a particular research topic in depth.
Arrangements for Supervision
An Academic Advisor will be appointed to advise each student. Students should also attend SA4C1.
Selection of Topic
The topic of the dissertation is selected in consultation with the student’s Academic Advisor.
Teaching: 2 hours of seminars in the MT, 2 hours of seminars in the LT.
Assessment: Dissertation (100%) in September. The length of the dissertation should be 45 pages maximum.

DV483  Half Unit
Information Communication Technologies and Socio-economic Development

This information is for the 2017/18 session.
Teacher responsible: Dr Shirin Madon CON.8.13
Availability: This course is compulsory on the MSc in Population and Development. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This is an interdisciplinary course about understanding the role played by Information & Communication Systems and Digital Innovation and MSc in Media, Communication and Development. This course is available on the MSc in Development Management, MSc in Management of Information Systems and Digital Innovation and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

DV485  Half Unit
Not available in 2017/18
Demographic Change and Development

This information is for the 2017/18 session.
Teacher responsible: Dr Tiziana Leone OLD 2.56
Availability: This course is available on the MSc in Development Management, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Population Health, MSc in Health and International Development, MSc in Population and Development, MSc in Social Policy (Research), MSc in Social Policy and Development, MSc in Social Policy and Development: Non-Governmental Organisations and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course provides an up-to-date and comprehensive account of demographic change and population trends in lower income countries by looking at recent changes in fertility, mortality and migration. The course considers the implications of these trends and some of the key demographic issues in these countries.
Topics that are covered include:
• The impact of education on changes in mortality and fertility
• Demography and gender
• Infant, child and maternal mortality
• Urbanisation and urban growth
• Communicable diseases
• The effects of changing age structures
No previous demographic knowledge is required.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT.
Formative coursework: Students are expected to prepare a seminar presentation and a formative essay (circa 1,500 words) during the term.
Indicative reading: The course is supported by a VLE containing electronic reading lists. There is no single key text and a detailed electronic reading list will be provided.
Assessment: Exam (50%, duration: 2 hours) in the main exam period.
Coursework (50%) in the ST.
Coursework assignment to be a maximum of 10 A4 pages.
those with more advanced skills in either one or both areas. Strong backgrounds, from those with no economics and statistics to engaging and challenging for students from a broad variety of top academic journal articles addressing issues from the lectures improve their skills by working through problem sets based on term give students an opportunity to repeatedly practice and in a sophisticated manner. The seminars in the second half of to understand and critically consume high-level applied research focus on teaching students from a broad range of backgrounds on developing rigorous intuition rather than technical details; we in the academic development literature. The emphasis will be focus on building analytical skills to read, interpret, and critique and international finance. Classes in the first half of term will theory, institutions and history, economic geography, globalization, development policy, with a strong emphasis on how the body of non-technical overviews of broad themes in long-run growth and introduction to advanced quantitative methods with applications This course explores the foundations of

Course content: This course explores the foundations of applied macroeconomic policy analysis by combining a rigorous introduction to advanced quantitative methods with applications to the theory and empirics of long-run growth in developing countries. Throughout the course, lectures provide analytical but non-technical overviews of broad themes in long-run growth and development policy, with a strong emphasis on how the body of knowledge has evolved over time via the synthesis of theoretical advances and rigorous empirical testing. Topics including growth theory, institutions and history, economic geography, globalization, balance of payments and financial crises, environmental policy and international finance. Classes in the first half of term will focus on building analytical skills to read, interpret, and critique econometric approaches to causal identification commonly used in the academic development literature. The emphasis will be on developing rigorous intuition rather than technical details; we focus on teaching students from a broad range of backgrounds to understand and critically consume high-level applied research in a sophisticated manner. The seminars in the second half of term give students an opportunity to repeatedly practice and improve their skills by working through problem sets based on top academic journal articles addressing issues from the lectures on macroeconomic development. While some background in economics and statistics is helpful, the course is designed to be engaging and challenging for students from a broad variety of backgrounds, from those with no economics and statistics to those with more advanced skills in either one or both areas. Strong analytical skills (whether quantitative or not) and a sturdy work ethic are the best predictors of success.

IMPORTANT: For students without strong skills in economics and statistics DV490 constitutes the foundational prerequisite for DV492 in the Lent term. Thus students wishing to most fully develop their skills in analytical policy analysis should plan to take this course in conjunction with DV492. Our experience is that the majority of students benefit most from a full academic year of repeated practice and exposure to the techniques covered to develop their intuition and ability. Furthermore, DV492 will cover additional empirical approaches more commonly employed in micro- and public economics, as well as providing an introduction to statistical programming in STATA (coordinated so that students taking both need not face repetition).

Teaching: 15 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be invited to submit an abstract of their summative essay for written comments.

Assessment: Exam (70%, duration: 2 hours) in the main exam period.

Essay (30%, 3000 words) in the ST.

DV490  Half Unit
Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development

This information is for the 2017/18 session.

Teacher responsible: Dr Diana Weinhold

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Political Science and Political Economy.

This course is available with permission as an outside option to students on other programmes where regulations permit. Enrolment will be controlled through the use of a pre-quiz.

Course content: This course explores the foundations of applied macroeconomic policy analysis by combining a rigorous introduction to advanced quantitative methods with applications to the theory and empirics of long-run growth in developing countries. Throughout the course, lectures provide analytical but non-technical overviews of broad themes in long-run growth and development policy, with a strong emphasis on how the body of knowledge has evolved over time via the synthesis of theoretical advances and rigorous empirical testing. Topics including growth theory, institutions and history, economic geography, globalization, balance of payments and financial crises, environmental policy and international finance. Classes in the first half of term will focus on building analytical skills to read, interpret, and critique econometric approaches to causal identification commonly used in the academic development literature. The emphasis will be on developing rigorous intuition rather than technical details; we focus on teaching students from a broad range of backgrounds to understand and critically consume high-level applied research in a sophisticated manner. The seminars in the second half of term give students an opportunity to repeatedly practice and improve their skills by working through problem sets based on top academic journal articles addressing issues from the lectures on macroeconomic development. While some background in economics and statistics is helpful, the course is designed to be engaging and challenging for students from a broad variety of backgrounds, from those with no economics and statistics to those with more advanced skills in either one or both areas. Strong analytical skills (whether quantitative or not) and a sturdy work ethic are the best predictors of success.

IMPORTANT: For students without strong skills in economics and statistics DV490 constitutes the foundational prerequisite for DV492 in the Lent term. Thus students wishing to most fully develop their skills in analytical policy analysis should plan to take this course in conjunction with DV492. Our experience is that the majority of students benefit most from a full academic year of repeated practice and exposure to the techniques covered to develop their intuition and ability. Furthermore, DV492 will cover additional empirical approaches more commonly employed in micro- and public economics, as well as providing an introduction to statistical programming in STATA (coordinated so that students taking both need not face repetition).

Teaching: 15 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be invited to submit an abstract of their summative essay for written comments.

Assessment: Exam (70%, duration: 2 hours) in the main exam period.

Essay (30%, 3000 words) in the ST.
including discussions on the importance of psychology in explaining economic behavior and how it can inform better development policy design.

Through in class discussions, lectures and coursework, students will develop analytical and quantitative skills for the study and practice of international development policy. These skills will enable students to interpret and critique both conceptual arguments and the empirical evidence used in the development economics literature and discourse. Coursework will include a combination of class discussions with guest lecturers engaged in international development, problem sets, presentations and computer-lab based sessions for students to explore programming and statistical skills.

Students are strongly encouraged to take DV492, as a highly complementary course that will also apply the empirical methods taught in DV490 to topics in government policy such as redistribution, taxation and social insurance.

Teaching: 20 hours of lectures and 15 hours of seminars in the LT. There will be a two hour revision session in late LT or early ST.

DV492 Half Unit
Economic Development Policy III:
Government Policy Analysis

This information is for the 2017/18 session.
Teacher responsible: Dr. Joana Narttomi CON 6.12
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Economic Development, MSc in Environmental Economics and Climate Change, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to MSc and MPA students from throughout the LSE subject to space constraints; specifically we reserve the right to limit enrolment of students from outside the Department of International Development. Entry onto the course might be limited at the discretion of the instructor.

Course content: This course explores key issues in government policies in developing countries. The course will draw on specific examples chosen from development cases worldwide to learn which policies have worked, which ones have not, and how a rigorous analysis of these experiences can inform the design of better economic development policies in the future. It begins introducing concepts from public economics to discuss the scope and impacts of government interventions. In particular, the course will cover issues related to market failures, redistribution, public goods and externalities. The course will also discuss theoretical and empirical work on the economic consequences of government interventions, with particular focus economic incidence, efficiency trade-offs and unintended consequences of policies. In the second part, it focuses on challenges in raising government revenue and delivering public service in the developing world context, where limited state and fiscal capacity impose important constraints in policymaking. Beyond these topics, the course will provide background on relevant analytical tools in quantitative research, and develop skills to interpret empirical evidence in development economics.

Coursework will include a combination of class discussions, problem sets, presentations and computer-lab based sessions for students to explore programming and statistical skills. Students are strongly encouraged to take DV491, as a highly complementary course that will also apply the empirical methods taught in DV490 to topics in Human Development, Institutions and Markets, Social Networks, Economic History and Cultural Economics, and Behavioural Economics and Development Policy Design.

Teaching: 20 hours of lectures and 15 hours of seminars in the LT. There will be a two hour revision session in late LT or early ST.

Formative coursework: Students will be expected to produce 3 exercises and 1 other piece of coursework in the LT.

Indicative reading:

Assessment: Exam (70%, duration: 2 hours) in the main exam period. Coursework (30%) in the LT. The course assessment will be based on a final exam (70%) and problem sets (30%).

DV4B4
MPA Dissertation

This information is for the 2017/18 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy and MPA in Social Impact. This course is not available as an outside option.

Course content: Students will undertake a group project (in teams usually of 3 to 6 people) relating to a public policy problem faced by an external organisation. Typical clients include public sector bodies, companies operating in the public management or public policy sector, international organisations or think tanks and NGOs. The group will have from October to March to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem.

Teaching: 7 hours and 30 minutes of seminars in the MT. 3 hours of seminars in the LT. Teaching comprises six seminars in the MT and LT. These seminars provide guidance on planning, structuring and presenting the Capstone report and the usage of research methods. Students are asked to participate in the Capstone Professional Development exercises designed to support effective and fair group work. Each Capstone group will be allocated a supervisor who will provide overall guidance on the project's development and assistance with client liaison. Other members of staff may also advise as required.

Formative coursework: Feedback will be provided on presentations of work-in-progress during MT and LT.

Assessment: Project (100%, 15000 words) in the LT. The project work is conducted in teams, and the assessment is based on a collective group mark for each component except in exceptional circumstances.

The group mark has three components:
1) 20% of the overall mark is assigned by the client organisation based on a group presentation and a submission of the project report.
2) 50% of the overall mark is given by two academic readers upon submission of the project report; and
3) the final 30% of the overall mark is allocated by the Capstone supervisor on the basis of the group's performance in terms of (i) scoping and project development (including coping with difficulties), (ii) group working and self-management as a team, and (iii) the overall output of the project (10% for each item).

Additionally, each group member must complete the Capstone evaluation and personal reflection exercise. This will be submitted individually and separately from the report.

**Assessment:** Dissertation (90%), 10,000 words in the ST. Other (10%) in the MT.

1) A 1,500 word dissertation proposal consisting of the title, abstract, research question and hypothesis, justification for research, feasibility of the dissertation topic, an explanation of sources, provisional structure and analytical framework will count for 10% of the overall dissertation mark. Students may only change their topic thereafter with the agreement of their Academic Adviser. Students will be given feedback on their proposal.

2) The full dissertation of no more than 10,000 words will account for the remaining 90% of the overall mark.

---

**DV4V8** Half Unit

**MPA Policy Paper**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Babken Babajanian SAR G.03

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is not available as an outside option.

Students may not take this course and an MPA dissertation.

**Course content:** The aim of the course is to enable students to plan, design and conduct independent analysis in an area of public policy. MPA students will write an individually-authored policy paper of no more than 6,000 words on a topic developed in consultation with their Academic Adviser. The paper will analyse a concrete policy problem in a specific setting and propose an evidence-based solution or course of amelioration. It must be addressed to a non-academic audience and should be clearly and directly written, suitable for consideration by policy-makers. The main body of the paper should include methodology, results of the analysis, discussion of different policy options, conclusions and policy recommendations. The policy paper must be accompanied by an Executive Summary. Policy papers can utilise quantitative and/or qualitative data and draw on secondary and/or primary research.

**Teaching:** 6 hours of seminars in the MT. 3 hours of seminars in the LT.

Teaching comprises six seminars in the MT and LT. These seminars provide academic and practical guidance on developing the policy paper topic and question; designing analytical frameworks; structuring and presenting policy analysis; and writing policy recommendations. The student's Academic Adviser will provide academic and guidance on this piece of work.

**Formative coursework:** A policy paper proposal (of no more than 750 words in total) consisting of the title, abstract, research question, justification for analysis, feasibility of the topic, an explanation of sources, structure and analytical framework must be submitted in the MT. Students may only change their topic thereafter with the agreement of their Academic Adviser. Students will be given feedback on their proposal.

**Assessment:** Other (100%) in the ST. 6,000 word policy paper.

---

**EC400**

**Introductory Course in Mathematics and Statistics**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Margaret Bray 32L 4.27, Dr Francesco Nava 32L 3.20, Dr Marcia Schafgans 32L 4.12 and Dr Shengxing Zhang 32L 1.16

**Availability:** This course is compulsory on the MPhil/PhD in Environmental Economics, MRes in Quantitative Economic History, MRes/PhD in Economics, MRes/PhD in Finance (Route 1), MSc in Economics, MSc in Economics (2 Year Programme), MSc in Economics and Management, MSc in Economics and Philosophy, MSc in Finance and Economics and MSc in Quantitative Economic History. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPhil/PhD in Accounting, MPhil/PhD in Economic Geography, MSc in Economic History, MSc in Environmental Economics and Climate Change, MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students on the MRes/PhD in Economics may be exempted from EC400 at the Department's discretion.

**Outstanding applications for EC400 must be made to the Department of Economics by the end of June. This applies to offer holders/students who do not have any EC4XX courses listed in their programme regulations for which EC400 is a pre-requisite. Please contact econ.msc@lse.ac.uk for more information.**

Students not on the compulsory programmes listed above who wish to continue studying Economics MSc-level courses must achieve an overall grade of 50% in EC400 with no one subject exam less than 40%. Non-MRes students wishing to study MRes-level courses must achieve an overall grade of 70% with no one subject exam less than 60%.

**Pre-requisites:** EC400 is an introduction to MSc level concepts in mathematics and statistics, and an undergraduate level understanding is assumed. EC400 is not intended as an introduction for students with little or no economics/mathematics background.

**Course content:** The aim of this introductory course is to provide students with the essential mathematical, statistical, economic and econometric background for the core Economics courses of these programmes. The course starts with mathematics revision sessions and progresses to sections covering mathematics for microeconomics, mathematics for macroeconomics, and probability and statistical inferences. MSc Finance and Economics
EC402
Econometrics
This information is for the 2017/18 session.
Teacher responsible: Dr Vassilis Hajvassiliou 32L.4.23, Dr Tatiana Komarova 32L.4.24 and Dr Rachael Meager
Availability: This course is compulsory on the MSc in Economics, MSc in Economics (2 Year Programme) and MSc in Quantitative Economic History. This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Accounting and MSc in Economics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400). Students should also have completed an undergraduate degree or equivalent in Economics and an introductory course in Econometrics.
In very exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk).
Course content: The course aims to present and illustrate the techniques of empirical investigation in economics.
- Regression models with fixed regressors (simple and multiple).
- Least squares and other estimation methods. Goodness of fit and hypothesis testing.
- Regression models with stochastic regressors.
- Asymptotic theory and its application to the regression model. Large sample approximations.
- The partitioned regression model, multicollinearity, misspecification, omitted and added variables, measurement errors.
- Heteroskedasticity, autocorrelation, and generalized least squares.
- Exogeneity, endogeneity, and instrumental variables.
- Nonlinear regression modelling and Limited Dependent Variables models.
- An introduction to Non-classical econometric inference.
- Autoregressive and moving average representations of time series. Stationarity and invertibility.
- Vector auto-regressions.
- Unit roots and co-integration.
- Estimating causal effects in panel data: differences in difference estimator, matching methods, and regression discontinuity.
- Panel data and static models: fixed and random effect estimators, specification tests, measurement errors.
- Panel data and dynamic models: generalized method of moments.
- Binary choice models with heterogeneity.
Teaching: Approximately 27.5 hours of lectures and 36 hours of classes.
Formative coursework: Students will be required to complete a set of self-testing exercises during the course.
Indicative reading: Students will be advised of recommended readings in the summer.
Assessment: Students will be required to complete a set of self-testing exercises during the course. At the end of the course, students on MSc Management and Economics and MSc Finance and Economics are examined on two mathematics modules (revision mathematics and mathematics for microeconomics) and probability and statistical inferences. All other students are examined on mathematics modules (revision mathematics, mathematics for microeconomics and mathematics for macroeconomics), and probability and statistical inferences.

EC408
Introduction to Quantitative Methods for the MPA Programme
This information is for the 2017/18 session.
Teacher responsible: Ms Alexandra Cirone
Availability: This course is compulsory on the Master of Public Administration. This course is not available as an outside option. Also available to other MPhil/PHD students with the agreement of the course tutor.
Course content: An introduction to basic mathematical and statistical concepts for use in MPA courses in economics and quantitative approaches. The course covers the following topics: Statistics: Discrete and continuous random variables, jointly distributed random variables, the Normal distribution, sampling and the Central Limit Theorem, properties of estimators, introduction to hypothesis testing. Mathematics: Linear functions, quadratic, logarithmic and exponential functions, the derivative of a function and rules of differentiation, unconstrained optimization with one variable, functions of several variables and their differentiation, unconstrained optimization with several variables, constrained optimization.
Teaching: The course runs over 8 days, during the two weeks prior to the start of the Michaelmas Term. In total, students will attend ten lectures and six classes during the two weeks of the course.
Indicative reading: Notes covering the course material will be made available at the beginning of the course. Students are strongly encouraged to read Charles Wheelan’s ‘Naked Statistics’ prior to the start of the course. It provides a readable and accessible background to the statistics portion of the course. Two widely used introductory statistics books that can be used as background reading for the statistics part are Newbold, Carlson and Thorne ‘Statistics for Business and Economics’ (6th edition) and Wisniewski and Wisniewski’s ‘Introductory Statistics for Business and Economics’ (4th edition). However, there are also many other introductory statistics textbooks that cover the same material.
Two widely used introductory mathematics books that can be used as background reading for the mathematics part are Ian Jacques’ ‘Mathematics for Economics and Business’ (5th edition) and Wisniewski’s ‘Introductory Mathematical Methods in Economics’ (2nd edition). Also in this case there are a large number of excellent alternative textbooks that cover the same material. Those who want a more advanced treatment of the same material can use Simon and Blume’s ‘Mathematics for Economists’, but this treatment is more formal than what we require for this course. We do not recommend buying a new textbook for this course, if you already own a textbook that covers similar material.
**EC410 Half Unit**

**Public Economics for Public Policy**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Johannes Spinnewijn 32L.3.24

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy and MPA in Social Impact. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have taken EC440 Macro and Microeconomics (for Public Policy) or an equivalent course.

**Course content:** This is a course in theoretical and applied public economics using intermediate economic theory. Topics include issues of equity and efficiency and alternative theories of the role of the state. Models of public goods and externalities, including environmental policy. Who really pays taxes: issues of tax incidence and tax evasion. Income inequality, poverty alleviation and the role of welfare programmes in theory and in practice.

Health and education policy. The effects of taxes and transfers on labour supply and migration; The optimal taxation of commodities and income; current topics in public finance. The main institutional references will be to the UK and the US, but some attention will also be given to broader international experience.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 presentation in the LT.

On developments in public spending in the UK, see H Glennerster (2003), Understanding the finance of welfare (Policy Press); or H Glennerster and J Hills (eds) (1998), The State of Welfare: The economics of social spending (Oxford) [CC HV245 S79].

On the structure of taxation in the UK, see IFS (2011) A Survey of the UK Tax System, Briefing Note no. 9 (http://www.ifs.org.uk/bns/bn09.pdf) and the HM Revenue and Customs website, (http://www.hmrc.gov.uk). The Institute for Fiscal Studies is an independent policy research institute and its website (http://www.ifs.org.uk) has a wide range of useful publications. The HMRC website includes information on the tax structure and statistics on tax payments (by income group, by type of tax, etc.) and overall revenues raised.

The UK Treasury website (http://www.hm-treasury.gov.uk/) provides a range of documents on economic policies and the public finances, including the annual publication, Financial Statement and Budget Report (the Red Book), published each year on Budget Day.

**Assessment:** Exam (100%, duration: 1 hour) as part of modular teaching.

The course will be assessed with a one hour test at the end of week two. The test result does not count towards the MPA final degree, but will be used in advising students on suitable option course choices.

**EC411 Microeconomics**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Francesco Nava 32L. 3.20 and Prof Martin Pesendorfer 32L. 4.19

**Availability:** This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Economics and Philosophy, MSc in Environmental Economics and Climate Change, MSc in Finance and Economics and MSc in Quantitative Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** The aim of the course is to develop the basic tools for analysing problems of resource allocation used by economists working in research, government and business. The course deals with positive and normative problems. It aims to include modern developments without being overly mathematical, and to develop a capacity to apply economic concepts to real-world problems. The first part of the course focuses on classical theories of market behaviour and strategic interaction. We begin by presenting foundations to utility maximization, by analysing the optimisation problems of price-taking consumers and firms, and by modelling market interactions and the formation of prices in perfectly competitive markets. We then introduce models of decision making under uncertainty and game theoretic solution concepts. Novel developments in these fields will be discussed in lectures. The second part of the course focuses on models of imperfect competition and information economics. We begin with an analysis of models of monopoly, oligopoly, product differentiation, and public goods. Then, we study markets with imperfect and incomplete information including search, adverse selection, auctions, signalling, screening, and moral hazard. Special emphasis will be given to economic applications.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** The course will draw on a variety of texts, the main ones being:

- J G Riley, Essential Microeconomics, Cambridge;

More detailed readings will be given at the beginning of the course and some notes will be provided where textbook coverage is inadequate.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 10 minutes) in the LT week 0.

Exam (50%, duration: 2 hours, reading time: 10 minutes) in the main exam period.
EC413
Macroeconomics
This information is for the 2017/18 session.
Teacher responsible: Prof Wouter Den Haan 32L.1.08A and Prof Alwyn Young 32L.2.20
Availability: This course is compulsory on the MSc in Economics and MSc in Economics (2 Year Programme). This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Economics and Philosophy, MSc in Finance and Economics and MSc in Quantitative Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).
In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face-to-face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.
Course content: The aim of the course is to give a wide-ranging overview of modern macroeconomics.
Economic growth (Michaelmas)
The Michaelmas term of EC413 is an introduction to the techniques needed to critically read and evaluate academic research in economic growth. Topics are facts about growth, the Solow growth model (theory and empirics), the Neoclassical Growth model (growth with dynamic optimization), and endogenous technological change.
Business Cycles (Lent)
The Lent term of EC413 focuses on the main characteristics of business cycle fluctuations with a special emphasis on what happened during the financial crisis and different macroeconomic models to study business cycles. The course covers the Real Business Cycle model, the New-Keynesian model, models with frictions in labour and financial markets, agent-based models, the role of money, self-fulfilling beliefs, the role of monetary and fiscal policy (and in particular non-conventional monetary policy), and (un)sustainable sovereign debt.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Two marked assignments per term. Exercises are discussed in each class.
Indicative reading: Primary reading will be journal articles and a couple chapters from Daron Acemoglu, Introduction to Modern Economic Growth. A full list will be available at the start of each term.
Assessment: Exam (50%, duration: 2 hours) in the LT week 0. Exam (50%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

EC417
Advanced Macroeconomics
This information is for the 2017/18 session.
Teacher responsible: Dr David Baqaee 32L.1.10 and Prof Wouter Den Haan 32L.1.08A
Availability: This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is not available as an outside option.
Pre-requisites: Students must have completed Introductory Course for MSc EME (EC451).
Course content: Course objectives and main course elements:
1. The course will teach you the terminology used in empirical and theoretical macroeconomics.
2. The course will teach you the main empirical business cycle characteristics of developed economies and the main empirical findings regarding the growth of developed and less developed nations.
3. This course teaches you the main techniques used to analyse modern macroeconomics models. In particular, the course will focus on techniques such as dynamic programming, value function iteration, and the linearization of first-order conditions.
4. This course teaches you (prototype versions of) macroeconomic models used to analyse key questions related to business cycles and economic growth. Examples are New Keynesian models, Real Business Cycle models, Overlapping Generations models, the Solow growth model, and first-generation endogenous growth models.
5. The course will also discuss some more advanced models that have recently been developed to explain recent economic events.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.
Some of the problem will sets will consist of computer assignments and students will be taught some basic programming skills.
Formative coursework: Each week, students are assigned problem sets. These problem sets focus on key elements of the lectures, but they will also promote creativity and critical thinking by going beyond the material explicitly discussed in the lectures. There will also be computer assignments. The problem sets will be discussed by the class teachers.
Indicative reading:
• Acemoglu, Daron, 2009, Introduction to Modern Economic Growth.
• Romer, David, 2011, Advanced Macroeconomics.
Assessment: Exam (50%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
Exam (50%, duration: 2 hours) in the LT week 0.

EC418 Half Unit
Globalisation and Economic Policy
This information is for the 2017/18 session.
Teacher responsible: Dr Thomas Sampson
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy and MPA in Social Impact. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: The expectation is that students will have previously taken EC440 and EC455 or other equivalent courses. Students that have not taken EC440 and EC455 will require permission from the course lecturer to attend the course.
Course content: Over the past fifty years the global economy has become increasingly interconnected. This course studies the policy implications of globalisation. The course considers both theoretical and empirical analyses of the causes and consequences of increasing international economic integration focusing particularly on the challenges and opportunities that globalisation creates for policy makers. Key areas covered include: international trade, capital flows, migration, technology diffusion and the relationship between globalisation and national sovereignty. The course builds on the knowledge developed in EC440 and EC455.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: The formative coursework will comprise a graded problem set. The formative coursework will take place during the first half of term.
**EC419** Half Unit  
Methods of Economic Policy Analysis  
This information is for the 2017/18 session.  
Teacher responsible: Dr Daniel Sturm  
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy and MPA in Social Impact. This course is available with permission as an outside option to students on other programmes where regulations permit.  
Pre-requisites: The expectation is that students will have previously taken EC440 and EC455 or other equivalent courses. Students that have not taken EC440 and EC455 will require permission from the course lecturer to attend the course.  
Course content: This course provides an advanced treatment of the empirical methods that are used to evaluate the effectiveness of public policies. The course builds closely on the course ‘Quantitative Approaches and Policy Analysis (EC455)’ and also Micro and Macroeconomics for Public Policy (EC440). The topics covered include the problem of causality, the theory and practice of randomised experiments, difference in differences, synthetic control method, regression discontinuity, robust and clustered standard errors, and calibration.  
Teaching: 20 hours of lectures and 10 hours of seminars in the MT.  
Formative coursework: The formative coursework will comprise a graded problem set.  
Indicative reading: There is no single textbook for the course and many of the key readings are journal articles. James Stock and Mark Watson ‘Introduction to Econometrics’ remains a useful reference particularly for the material at the beginning of the course. A very good source for background reading is Joshua Angrist and Jörn-Steffen Pischke ‘Mastering ‘Metrics: The Path from Cause to Effect’.  
Assessment: Exam (75%, duration: 2 hours) in the LT week 0. Project (25%, 2000 words) in the MT.

**EC420**  
Labour Economics  
This information is for the 2017/18 session.  
Teacher responsible: Prof Alan Manning 32L.2.36 and Ms Filipa Sa  
Availability: This course is available on the MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.  
Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400). In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.  
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.  
Formative coursework: Two marked assignments per term.  
Assessment: Exam (25%, duration: 2 hours) in the LT week 0. Exam (25%, duration: 2 hours, reading time: 10 minutes) in the main exam period.  
Essay (50%, 6000 words) in the ST.
discrimination, the changing distribution of earnings and the future of work, and immigration.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Two marked assignments per term.

Indicative reading: Most of the reading is from journal articles. A detailed reading list is available on Moodle.

Assessment: Exam (25%, duration: 2 hours, reading time: 15 minutes) in the LT week 0.
Exam (25%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
Essay (50%, 6000 words) in the ST.

The Lent Term Week 0 examination is based on the Michae!mas Term syllabus, and the Summer Term examination is based on the Lent Term syllabus.

EC424
Monetary Economics

This information is for the 2017/18 session.

Teacher responsible: Prof Ricardo Reis 32L.1.27 and Dr Kevin Sheedy 32L.1.09

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Environmental Economics and Climate Change, MSc in International Health Policy, MSc in International Health Policy (Health Economics), Master of Laws and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

Course content: The course aims to develop the student’s ability to undertake research in monetary economics by studying a number of current issues both theoretical and applied. In the MT, we begin by studying money’s role as a medium of exchange and the determination of the price level using money-in-the-utility-function and cash-in-advance models. We then look more carefully at the reasons for holding money by applying search theory. We also study money’s role as a unit of account and the consequences of nominal rigidities such as sticky prices. We analyse the costs of inflation and optimal monetary policy, and we also look at unconventional monetary policies when a central bank is constrained by the interest-rate lower bound. Finally, we study firms’ price-setting behaviour in more detail and its implications for the size of the real effects of monetary policy.

In the LT, we discuss the role of inflation expectations and financial markets in constraining monetary policy, and the design of central banks and their instruments. We study the interaction between fiscal and monetary policy, as well as the specification of the central bank objectives.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Two marked assignments per term.

Indicative reading: A reading list will be handed out by the lecturers at the beginning of their sessions.

Assessment: Exam (25%, duration: 2 hours, reading time: 15 minutes) in the LT week 0.
Exam (25%, duration: 2 hours, reading time: 15 minutes) in the main exam period.
Essay (50%, 6000 words) in the ST.

EC426
Public Economics

This information is for the 2017/18 session.

Teacher responsible: Prof Frank Cowell 32L.2.25A, Dr Johannes Spilman 32L.3.24 and Dr Camille Landais 32L.3.23

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Environmental Economics and Climate Change, MSc in International Health Policy, MSc in International Health Policy (Health Economics), Master of Laws and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements.

The Economics of Industry

This information is for the 2017/18 session.

Teacher responsible: Prof John Sutton 32L.4.32, Dr Pasquale Schiraldi 32L.4.22 and Prof Martin Pesendorfer 32L.4.19

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements.
and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

Course content: A graduate course in Industrial Organization, which aims to provide students with a working knowledge of current theoretical and empirical methods for industry studies. Applications of these methods are considered in industry case studies.

Topics include: Pre-requisites in Game Theory, An introduction to current developments in Oligopoly Theory. A formal analysis of conduct in concentrated industries (cartel stability, limit pricing, predatory pricing, etc), Demand estimation in homogenous and differentiated product industries, Production function estimation, Empirical techniques for oligopoly models and auction markets, Identification of conduct, Economies of Scale, R&D, Advertising, Vertical restraints. The topics will be discussed with detailed applications for selected industries and considering competition policy questions.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT, 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Two marked assignments per term.

Indicative reading: Two books which provide a basic framework are J Tirole, Theory of Industrial Organization, MIT Press, 1989 and Indicative reading: Two marked assignments per term.

Continuous assessment (30%) in the MT and LT.

Assessment: Exam (25%, duration: 2 hours) in the LT week 0. Exam (25%, duration: 2 hours, reading time: 10 minutes) in the main exam period.

Essay (50%, 6000 words) in the ST.

---

**EC428 Development and Growth**

This information is for the 2017/18 session.

Teacher responsible: Prof Maitreesh Ghatak 32L.3.08A and Dr Gujar Bhand 32L.3.10

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Development Studies, MSc in Economics, MSc in Economics (2 Year Programme) and MSc in Environmental Economics and Climate Change. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400). Students should have completed courses in intermediate level microeconomics, macroeconomics and econometrics.

Course content: This course will cover a number of topics at forefront of development economics. These include current methodological debates; the allocation of capital and labour across firms, space and sectors; structural change during the development process; finance, psychology and development; governance and accountability; conflict and civil war; motivation of civil servants; taxation and development; firms and markets; trade, infrastructure; energy and the environment; and climate change. Development economics is, arguably, the fastest growing and most vibrant field within economics. The course will enable the students to apply their econometric and theoretical skills to what are some the world’s most pressing problems. The experience of applying their economic knowledge to these topics will generate analytical skills that can be used in wide variety of applied settings.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT, 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Two marked assignments per term.

Indicative reading: Most of the reading is from journal articles which appear on reading lists distributed at the start of each part of the course. However, the following references may serve as an introduction to material included in the syllabus: D Ray, Development Economics, Princeton UP, 1998, Abhijit Banerjee and Esther Duflo’s Poor Economics, New York: Public Affairs, and the symposium on The Agenda for Development Economics - Journal of Economic Perspectives Volume 24, Number 3, Summer 2010. Articles by Deaton, Akerlof, Ray, Rodrik, and Rosenzweig.

Assessment: Exam (25%, duration: 2 hours) in the LT week 0. Exam (25%, duration: 2 hours) in the main exam period.

Essay (50%, 6000 words) in the ST.

---

**EC440 Microeconomics for MRes students**

This information is for the 2017/18 session.

Teacher responsible: Prof Michele Piccione 32L.4.07 and Prof Balazs Szentes 32L.4.05

Availability: This course is compulsory on the MRes in Economics, MRes/PhD in Finance (Route 1) and MRes/PhD in Finance (Route 2). This course is not available as an outside option.

---

**EC441 Macroeconomics for MRes students**

This information is for the 2017/18 session.

Teacher responsible: Dr Ethan Ilzetzki 32L.1.10

Availability: This course is compulsory on the Master of Public Administration. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo) and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: An introductory graduate course providing an economics background suitable for high-level public policy-making. The emphasis is on acquiring sound models and methods suitable for appraising policy-making issues and applicable in a wide variety of contexts. The first term (MT) covers microeconomics and the second term (LT) covers macroeconomics.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT, 20 hours of lectures and 10 hours of seminars in the LT. 20 hours of lectures in the ST.

Additionally, a 90-minute drop-in support class runs in weeks 2-11 of MT and LT.

Formative coursework: Students will complete weekly problem sets. Some of these will be marked to to provide indicative assessment.

Indicative reading: A full reading list will be distributed at the beginning of the course.

Assessment: Exam (70%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

Continuous assessment (30%) in the MT and LT.
Pre-requisites: A good undergraduate knowledge of economic theory and calculus is required.

Course content: The aim of the course is to:
- i. introduce the basic analytical tools that are necessary to conduct research in any field in economics;
- ii. give the students a full understanding of the classic Microeconomic Theory and of the modern developments of Microeconomic Theory;
- iii. enable students to address a microeconomic problem by structuring it as a mathematical model and enhance the understanding of economic issues though the use of mathematical tools.

Topics include: Consumer theory, producer theory, general equilibrium, welfare, choice under uncertainty, game theory, economics of information, agency theory, contracts, topics in mechanism design.

Teaching: 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT.

Formative coursework: Exercises are set for each class.

Indicative reading: The main text is Mas-Colell, Whinston & Green, Microeconomic Theory, OUP. Other sources include: D. Fudenberg & J. Tirole, Game Theory, MIT Press; D. M. Kreps, A Course in Microeconomic Theory, Harvester Wheatsheaf; H.R. Varian, Microeconomic Analysis (3rd edn), Norton; M.J. Osborne & A. Rubinstein, A Course in Game Theory, MIT Press; G.A. Jehle & P.J. Reny, Advanced Microeconomic Theory, Longman.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

EC442

Macroeconomics for MRes students

This information is for the 2017/18 session.

Teacher responsible: Dr Ethan Ilzetzki 32L.1.11, Prof Per Krusell 32L.1.19, Prof Francesco Caselli 32L.1.21 and Prof Wouter Den Haan 32L.1.08A

Availability: This course is compulsory on the MRes in Economics and MRes/PhD in Finance (Route 1). This course is available on the MRes/PhD in Finance (Route 2). This course is not available as an outside option.

Course content: The course will cover topics in advanced macroeconomics with emphasis on fundamentals and applications to recent theoretical advances:
- iv. Monetary Economics: models with credit frictions, sticky prices, search.

Teaching: 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT.

Formative coursework: Exercises are set for each class.

Indicative reading: A good general textbook that is mostly below the level of the course is: D. Romer, Advanced Macroeconomics, McGraw-Hill Advanced Series in Economics, New York, 1996.

For the growth part the main references are the textbooks by:

Other useful texts include:

More economic applications, with some required readings can be found in:

References for recent theoretical advances published in the journals will be given during the course.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

EC443

Econometrics for MRes students

This information is for the 2017/18 session.

Teacher responsible: Dr Vassilis Hajivassiliou 32L.4.23, Dr Tatiana Komarova 32L.4.24 and Dr Marcia Schafgans 32L.4.12

Availability: This course is compulsory on the MRes in Economics. This course is not available as an outside option.

Pre-requisites: Students should have completed an undergraduate level course in econometrics and statistical theory. Linear algebra and multivariate calculus will be used frequently.

Course content: The first part [Inference, Classical- and Generalized Linear Regression] begins with methods of estimation and optimality, followed by an introduction to asymptotic theory. It proceeds with statistical inference and the trinity of classical testing (Wald, Likelihood Ratio, and Lagrange Multiplier). It then discusses the classical linear regression model and commences the discussion of violation of the classical assumptions by discussing the Generalized Linear Regression Model (heteroskedasticity and autocorrelation).

The second part [Generalized Regression Methods] provides a further discussion of violations of the classical assumptions including measurement error, omitted variable models, simultaneity, missing data; non-linear regression models and instrumental variables. It proceeds to the Generalized Method of Moments and efficient estimation methods under conditional moment restrictions. It also covers the topics of quantile regression and bootstrapping.

The third part [Time-series, Panel-data, and Microeconometric Methods] begins with a discussion of Time-Series topics, including single equation theory for non-stationary variables; serially correlated errors with lagged dependent variables; unit roots; simultaneous equations for non-stationary variables; co-integration, and ARCH and GARCH models. It proceeds to Panel data methods such as fixed and random effects estimators and their extensions for applying to dynamic linear and non-linear panel data models. The next major topic presents models with Limited Dependent Variables.

The final part [Specialized Econometric Methods] discusses simulation-based inference, nonlinear panel data, and duration models. Finally, it covers the topics of program evaluation, nonparametrics, kernel estimation, and differences in differences.

Teaching: 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT.

Formative coursework: Exercises are set for each class.

Indicative reading: Lecture notes will be made available through the departmental website and in course-packs for each part of the course. Please note there is no set book for this course.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.
EC451
Introductory Course for MSc EME

This information is for the 2017/18 session.
Teacher responsible: Prof John Hardiman Moore 32L.4.14 and Prof Francisco Hidalgo 32L.4.20
Professor Erik Eyster 32L.4.29

Availability: This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is available on the MRes/PhD in Economics, MSc in Applicable Mathematics, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is not available as an outside option.

The course is split into three parts: Microeconomics, Macroeconomics, and Econometrics.

Non-EME students wishing to take EC487 Advanced Microeconomics as part of their programme must attend Week 1 of the EC451 course, Microeconomics, and sit the EC451 Microeconomics examination.

Non-EME students wishing to take EC484 Econometric Analysis as part of their programme must attend Week 3 of the EC451 course, Econometrics, and sit the EC451 Econometrics examination.

Non-EME students are not permitted to attend Week 2 of the EC451 course, Macroeconomics.

Course content: Microeconomics (Week 1): This introduction to microeconomic theory introduces the economic concepts of choice, preference and utility, including discussion of the revealed-preference approach to hedonics. It describes the consumer's problem and explores conditions under which consumer preferences, as well as policy preferences, can sensibly be aggregated. The course will also cover the mathematics of correspondences and fixed-point theorems.

Macroeconomics (Week 2): The prequel of the advanced macroeconomics core course focuses on topics in modern macroeconomic theory, starting with basic national income accounting and the real-business cycle model. Then sticky prices. Followed by matching frictions in the labour market. Finally credit and the real-business cycle model.

Econometrics (Week 3):
1 Matrix algebra. Basic concepts in asymptotic theory: Convergence in probability, second mean and in distribution.
2 Linear regression model: least squares and maximum likelihood methods.
3 Instrumental variable methods and GMM estimation.
4 GLS estimation and dynamic models.
5 Introduction to Simultaneous Equations Models.
6 Hypothesis testing.

Teaching: The course is taught in September. It consists of 55 hours of lectures and an additional 22 hours of classes, across a 3-week period.

Formative coursework: After each lecture, some exercises will be handed to students. They will be solved during the classes.

Assessment: At the end of the course, students will be examined on all three modules, microeconomics, econometrics and macroeconomics.

Students from programmes other than MSc: EME wishing to continue studying MSc: EME core courses must achieve at least 40% in each subject exam.

EC452

This information is for the 2017/18 session.
Teacher responsible: Prof Nava Ashraf

Availability: This course is compulsory on the MPA in Social Impact. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NiSU), MPA Dual Degree (LSE and Sciences Po), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in Public Policy and Administration and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

EC452 is compulsory on MPA Social Impact.

Pre-requisites: Students need to have taken the first year MPA economics courses EC440 Micro and Macroeconomics (for Public Policy) and EC455 Quantitative Approaches and Policy Analysis or equivalent courses including basic econometrics.

Course content: This course delivers insights from cutting edge research in psychology and economics, and asks students to use these insights to design solutions to significant social challenges. Students learn how to diagnose, design, deliver, and rigorously test products and services using the principles of behavioural economics and the methods of field experimentation.

The course begins by describing the principle of coproduction: outcomes in health, education and similar fields are not simply given to end-users, but are produced by end-users themselves, interacting with supply-side factors. Drawing on the insights from behavioural economics and using qualitative methods, students learn how to diagnose end-user needs, preferences and behaviour. The course then explores how the psychological aspects of behaviour can be combined with the tools and structure of economics to induce behaviour change and improve outcomes, including the challenge of setting prices and designing incentives. Throughout the course there is emphasis upon the critical importance of effective measurement in the context of the social sector, where traditional market feedback mechanisms are typically absent and where mission-driven leaders’ evaluation of organisational impact can itself be subject to cognitive bias and distortion. Appropriate measurement in turn informs improvements in diagnosis and design. The course concludes by exploring policy impact and how research can be translated into policy action. Real world case studies are used at every stage of the course.

This course is relevant to all those who wish to improve the effectiveness of social interventions and programmes across a range of diverse fields, whether such interventions are administered through the state or, increasingly, through private philanthropy and social entrepreneurship. The course tutor will be Professor of Economics and Director of Research at the LSE Marshall Institute.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Additional exercises which will include preparation of an essay of the discussion questions for HBS-style case discussion.

Indicative reading: There is no single textbook for the course. For an introduction to the field of behavioural economics, students should consult Nudge: Improving Decisions About Health, Wealth, and Happiness, by Richard Thaler and Cass Sunstein (2009, Penguin) and Thinking, Fast and Slow, by Daniel Kahneman (2012, Penguin). A full reading list with the readings for each topic will be made available at the beginning of the course, and a draft course syllabus is available.

Assessment: Exam (100%, duration: 3 hours, reading time: 10 minutes) in the main exam period.
**EC453 Political Economy**

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Stéphane Wolton CON 5.08

**Availability:** This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Environmental Economics and Climate Change, MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face-to-face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

Students should have completed courses in intermediate level microeconomics, macroeconomics and econometrics.

**Course content:** An advanced treatment of Political Economy, covering theory, evidence and current issues. The course material will expand students’ capacity to think about policy relevant issues at the intersection between economics and political science, and will cover democratic and autocratic politics. Topics include election as information aggregation; politics as a principal agent problem; political economy and public finance; constitutional rules and policy outcomes; bureaucracies; media; special interest group politics; legislatures; political parties; direct democracy; rebellion and terrorism; democratization; international conflicts.

**Teaching:** 22 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 11 hours of seminars in the LT.

**Formative coursework:** At least two written assignment for handing in per term (assignment will include some work with data sets provided by the instructor).

**Indicative reading:** Most of the reading comes from journal articles; lists will be supplied at the start of each term. Two books supply the basic framework: T. Besley, Principled Agents? Selection and Incentives in Politics, Oxford University Press, 2005 and T Persson & G Tabellini, Political Economics: Explaining Political Outcomes, MIT Press, 2000.

**Assessment:**
- **Assessment path 1**
  - Exam (25%, duration: 2 hours) in the LT week 0.
  - Exam (25%, duration: 2 hours) in the main exam period.
  - Essay (50%, 6000 words) in the ST.

- **Assessment path 2**
  - Exam (50%, duration: 2 hours) in the LT week 0.
  - Exam (50%, duration: 2 hours) in the main exam period.

Students taking MSc Economics must take Assessment path 1 and will be required to submit the extended essay at the beginning of the ST.

---

**EC454 Development Economics**

*This information is for the 2017/18 session.*

**Teacher responsible:** Prof Robin Burgess 32L.3.03 and Dr Gharad Bryan 32L.3.10

**Availability:** This course is compulsory on the MPA in International Development. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy and MPA in Social Impact. This course is not available as an outside option. Students may not take this course and EC428 Development and Growth.

**Course content:** An introductory graduate course providing the necessary development economics skills for high level public policy making. The focus is on acquiring the necessary theoretical and empirical skills to engage in the rigorous analysis of public policies in developing countries. Topics at the forefront of development economics will be covered. These include political economy, trade liberalization, growth, access to finance, technology adoption, education, health, infrastructure, property rights, land reform, gender, environment, mass media and political accountability. The emphasis will be on combining theory and data to evaluate the effectiveness of policies in these different areas.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT. 20 hours of lectures in the ST.

**Formative coursework:** Students will complete weekly exercises based on course readings with one of these exercises being marked in a given term.

**Indicative reading:** A reading list will be distributed at the start of the course.

**Assessment:**
- **Exam** (100%, duration: 3 hours, reading time: 15 minutes) in the main exam period.

---

**EC455 Quantitative Approaches and Policy Analysis**

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Jeremiah Dittmar and Dr Gregory Fischer

**Availability:** This course is compulsory on the Master of Public Administration. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po) and MPA Dual Degree (LSE and Tokyo). This course is not available as an outside option.

**Pre-requisites:** The course has no formal pre-requisites. A familiarity with basic statistical concepts and basic calculus are very useful. These topics are reviewed during the pre-sessional course of the MPA programme (EC408). Students not participating in the pre-sessional course need to provide evidence of comparable prior knowledge.

**Course content:** The course introduces students to the quantitative evaluation of public policies with the help of regression based evaluation methods and cost-benefit analysis. The course introduces students to basic multiple regression analysis including hypothesis testing, modelling of non-linear relationships, and dummy variables. From there, the course covers a number of regression based evaluation methods to assess the causal effectiveness of policy interventions. These include the use of randomized experiments, natural or quasi-experiments, panel data, difference-in-differences estimation, instrumental variables, matching and regression discontinuity designs. The final part of the course provides an overview of cost-benefit valuation methods for public policy.

**Teaching:** 20 hours of lectures and 11 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT. Additionally a 90 minute drop-in support class runs in weeks 2-11 of MT and LT.

**Formative coursework:** Students will complete weekly problem sets. Some of these will be marked to provide indicative assessment.

**Indicative reading:** Particularly useful textbooks are Joshua D. Angrist and Jorn-Steffen Pischke, “Mastering Metrics”, James Stock & Mark Watson, “Introduction to Econometrics”; and Jeffrey Wooldridge, “Introductory Econometrics”. The material in the textbooks will be complemented with recent research papers and chapters from other books. A full reading list will be distributed at the beginning of the course.
Assessment: Exam (60%, duration: 3 hours, reading time: 15 minutes) in the main exam period.
Coursework (30%) in the MT and LT.
Presentation (10%) in the LT.

EC465
Economic Growth, Development, and Capitalism in Historical Perspective

This information is for the 2017/18 session.
Teacher responsible: Dr. Jeremiah Dittmar 32L.2.22 and Dr Neil Cummins SAR.5.13
Availability: This course is available on the MSc in Economic History, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).
Students should also have completed courses in intermediate level microeconomics, macroeconomics, and econometrics.
In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.
Course content: This course will provide a rigorous introduction to the analysis of long run economic growth and development. The focus is on acquiring the necessary empirical skills to engage in advanced analysis of economic evidence, and to develop an understanding of how historical evidence can shape and inform economic theory.
Topics at the forefront of economics and economic history will be covered. These include political economy, technological change, economic growth, education, demography, the economics of law and property rights, gender, culture, and the distribution of income. The emphasis will be on combining theory and data to evaluate fundamental ideas in economics concerning the determinants of well-being and the dynamics of market economies.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 presentation and 1 exercise in the MT and LT.
The formative coursework will consist of a combination of student presentations, written exercises, data analysis, and problems.
Indicative reading: Most of the reading is from journal articles which appear on reading lists distributed at the start of each part of the course. However, the following references may serve as an introduction to material included in the syllabus: Nunn, "The Importance of History for Economic Development" (2009); Robinson and Acemoglu, "Why Nations Fail" (2012); Acemoglu, "Introduction to Modern Economic Growth" (Princeton, 2009); Hall and Jones, "The New Kaldor Facts: Ideas, Institutions, Population, and Human Capital" (2010), Mokyr, "Lever of Riches" (1988), Piketty (2013) "Capital in the Twenty-First Century".
Assessment: Exam (30%, duration: 2 hours) in the LT week 0.
Exam (30%, duration: 2 hours) in the main exam period.
Essay (40%, 5000 words) in the ST.
The summative assessment consists of an exam that reviews and synthesises all course materials and an essay. The essay will be a critical analytic essay providing an opportunity for original empirical research.

EC475
Quantitative Economics

This information is for the 2017/18 session.
Teacher responsible: Dr David Baqaee 32L.1.10
Dr Xavier Jaravel 32L.3.14
Availability: This course is available on the MSc in Econometrics and Mathematical Economics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course for MSc EME (EC451).
A knowledge of expected econometric theory and applied econometrics corresponding to Principles of Econometrics or Methods of Economic Investigation. Students must be prepared to read journal articles with a difficult mathematical and statistical content.
Course content: The course will focus on going through modern quantitative papers which demonstrate the application of econometric techniques to modelling the behaviour of individual economic agents (households and firms) and economies. The first part of this course will explore topics in applied macroeconomics, with emphasis on the intersection of empirical analysis and theory. It will cover different quantitative approaches for assessing macroeconomic models and theories. The topics covered will include models of consumption, investment, technological change and monetary policy. The thematic focus will be on understanding business cycles. The second half of the course will focus on papers in the empirical literature on productivity, innovation and intellectual property rights, illustrating the challenges of identification in both structural and reduced form models. The lectures will cover a wide range of topics in applied microeconometrics with a view to illustrating the interplay between models, data and methods.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Two marked assignments per term.
Indicative reading: Articles in economic journals will be assigned at the start of Michaelmas and Lent terms. The course will also draw on methodological topics covered in Wooldridge, Econometric Analysis of Cross Section and Panel Data (2nd edition, 2010), and Angrist and Pischke, Mostly Harmless Econometrics (2009).
Assessment: Exam (50%, duration: 2 hours) in the LT week 0.
Exam (50%, duration: 2 hours) in the main exam period.

EC476
Contracts and Organisations

This information is for the 2017/18 session.
Teacher responsible: Prof Gilat Levy 32L.4.31 and Prof Philippe Aghion 32L.2.02
Availability: This course is available on the MPhil/PhD in Accounting, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme) and MSc in Environmental Economics and Climate Change.
This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students on the MSc Econometrics and Mathematical Economics programme must have completed the Pre-sessional Course for MSc EME (EC451).
All other students must have completed the Introductory Course in Mathematics and Statistics (EC400).
In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.
Course content: The course will cover topics from: social...
learning, reputation and career concerns, strategic information transmission, contract theory, incomplete contracts, the economics of moral hazard and adverse selection in strategic settings, dynamic theory of incentive contracts, optimal auctions and regulation, and the theory of mechanism design with multiple agents (multiple agents screening and common agency).

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** No one book covers the entire syllabus; a list of references will be provided at the start of the course. The following textbooks provide a treatment of part of the material presented in the course: Jean-Jacques Laffont, The Economics of Uncertainty and Information, MIT Press; D. Fudenberg & J. Tirole, Game Theory, MIT Press; Jean-Jacques Laffont & Jean Tirole, A Theory of Incentives in Procurement Regulations, MIT Press; Bernard Salanié, The Economics of Contracts: A Primer, MIT Press; Bolton, P., and M. Dewatripont (2005), Contract Theory, MIT Press, Hart, O. (1995), Firms, Contracts, and Financial Structure, Oxford University Press.

**Assessment:** Assessment path 1
- Exam (50%, duration: 2 hours) in the LT week 0.
- Exam (50%, duration: 2 hours) in the main exam period.

Assessment path 2
- Exam (25%, duration: 2 hours) in the LT week 0.
- Exam (25%, duration: 2 hours) in the main exam period.
- Essay (50%, 6000 words) in the ST.

**MSc Econometrics and Mathematical Economics students must follow Assessment path 1.**

**Non-MSc Econometrics and Mathematical Economics students must follow Assessment path 2.**

### EC484

**Econometric Analysis**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Taisuke Otsu 32L. 4.25 and Professor Peter Robinson 32L. 4.13

**Availability:** This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is available on the MRes/PhD in Economics, MSc in Applicable Mathematics, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course for MSc EME (EC451).

**Course content:** This course gives an advanced treatment of the theory of estimation and inference for econometric models. Part (a) Background: asymptotic statistical theory: modes of convergence, asymptotic unbiasedness, uniform integrability, stochastic orders of magnitude, convergence in distribution, central limit theorems, applications to linear regression, extensions to time series, consistency and asymptotic distribution of implicitly defined extremum estimators.

Part (b) General asymptotic theorems, nonlinear regression, quantile regression, nonparametric methods (kernel and series methods), generalized method of moments, conditional moment restriction, many and weak instruments, limited dependent variables, treatment effect, bootstrap, and time series.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** No one book covers the entire syllabus; a list of references will be provided at the start of the course, and lecture notes and relevant articles will be circulated.

**Assessment:** Exam (50%, duration: 2 hours) in the LT week 0.
- Exam (50%, duration: 2 hours) in the main exam period.

### EC486

**Econometric Methods**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Pasquale Schiraldi 32L. 4.22 and Professor Alessandro Savazza, 32L. 4.21

**Availability:** This course is compulsory on the MSc in Economics and Management. This course is not available as an outside option.

**Course content:** This course aims to present the theory and practice of empirical research in economics. Beyond the theory, the course will put a substantial amount of effort in having the students work with Stata and other econometric software in analyzing actual data sets, reproducing and criticizing results in previous work and learning the actual practice of econometrics as undertaken by the best applied economists, both in general (in MT) and specifically within the IO field (in the LT). Topics include: (MT) Ordinary Least Squares, hypothesis testing, omitted and added variables, measurement error, the role of controls, and functional form. Panel data, fixed and random effects. Instrumental Variables. An introduction to the analysis of time series. The emphasis of the second part is on the identification of causal effects, and applications in microeconomics (Labour Economics, Public Policy, IO, etc.) are presented throughout. In LT you will learn the applications of many of these techniques to econometric questions in Industrial Organization, organizational economics and management.

**Teaching:** 20 hours of lectures and 8 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures and 2 hours of seminars in the ST.

**Formative coursework:** Students are required to complete answers to problem sets on a week by week basis.

**Indicative reading:** MT: James H. Stock and Mark W. Watson, Introduction to Econometrics; reading lists of chapters and journal articles will be supplied at the start of each term.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.
EC487 Advanced Microeconomics

This information is for the 2017/18 session.
Teacher responsible: Prof Leonardo Felli SAR.G.03
Professor Erik Eyster 32L.4.29
Availability: This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is available on the MSc in Applicable Mathematics, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit. Students on other programmes must get permission from the course conveners to take this course.
Pre-requisites: Students must have completed Introductory Course for MSc EME (EC451).
Course content: The aim of this course is to: (i) introduce and develop the analytical tools of graduate level Microeconomics with a special emphasis on mathematical models; (ii) provide the students with a firm grounding in classical Microeconomic Theory as well as its modern development. Topics include: Consumer theory, producer theory, general equilibrium, welfare, choice under uncertainty, game theory, oligopoly, economics of information, topics in mechanism design, topics in behavioural economics.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Problem sets will be discussed in class and two marked assignments will be given in MT and LT.
Indicative reading: The main texts are A Rubinstein Lecture Notes in Economic Theory, Princeton University Press (with the most up-to-date version available for free download from the author's website) and Mas-Colell, Whinston & Green, Microeconomic Theory, OUP. Other sources include: D M Kreps, Microeconomic Foundations I: Choice and Competitive Markets, Princeton University Press; Fudenberg and Tirole, Game Theory, MIT Press.
Assessment: Exam (50%, duration: 2 hours) in the LT week 0. Exam (50%, duration: 2 hours) in the main exam period. Note that EC451 material will be covered on the exam.

EC4B3 MPA Capstone Project

This information is for the 2017/18 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03
Availability: This course is compulsory on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. The course is not available as an outside option. Students may not take this course and an MPA Policy Paper.
Course content: Students will undertake a group project (in teams usually of 3 to 6 people) relating to a public policy problem faced usually of 3 to 6 people) relating to a public policy problem faced by an external organisation. Typical clients include public sector bodies, companies operating in the public management or public policy sector, international organisations or think tanks and NGOs. The group will have from October to March to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem. The group mark has three components:
1) 20% of the overall mark is assigned by the client organisation based on a group presentation and a submission of the project report;
2) 50% of the overall mark is given by two academic readers upon submission of the project report; and
3) the final 30% of the overall mark is allocated by the Capstone supervisor on the basis of the group's performance in terms of (i) scoping and project development (including coping with difficulties), (ii) group working and self-management as a team, and (iii) the overall output of the project (10% for each item). Additionally, each group member must complete the Capstone evaluation and personal reflection exercise. This will be submitted individually and separately from the report.

EC4B4 MPA Dissertation

This information is for the 2017/18 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is not available within the course conveners to take this course.
Course content: The aim of this course is to enable students to plan, design and conduct independent substantial research and/or analysis in an area of public policy. MPA students will write a dissertation of no more than 10,000 words on a topic of their choice to be agreed with their Academic Adviser. The dissertation must be concerned with the goal of policy improvement and, at the same time, it must contribute to a broader objective of knowledge- and theory-building. The main body of the dissertation should include literature review, method of investigation, results of the analysis, discussion of findings, conclusions and theoretical and policy implications. Dissertations can utilise quantitative and/or qualitative data and draw on primary and/or secondary research.
Teaching: 6 hours of seminars in the MT. 3 hours of seminars in the LT.
Teaching comprises six seminars in the MT and LT. These seminars provide academic and practical guidance on developing a research topic and question; designing an analytical framework; structuring and presenting policy analysis; and writing policy recommendations. The student's Academic Adviser will provide advice and guidance on this piece of work.
EC4B6 Half Unit
Microeconomics for MSc F&E

This information is for the 2017/18 session.
Teacher responsible: Dr Francesco Nava 32L.3.20
Availability: This course is available on the MSc in Finance and Economics. This course is not available as an outside option.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).

Course content: The aim of the course is to develop the basic tools for analysing problems of resource allocation used by economists working in research, government and business. The course deals with positive and normative problems. It aims to include modern developments without being overly mathematical, and to develop a capacity to apply economic concepts to real-world problems. The course focuses on classical theories of market behaviour and strategic interaction. We begin by presenting foundations to utility maximization, by analysing the optimisation problems of price-taking consumers and firms, and by modelling market interactions and the formation of prices in perfectly competitive markets. We then introduce models of decision making under uncertainty and game theoretic solution concepts. Novel developments in these fields will be discussed in lectures.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Two marked assignments.

Indicative reading: The course will draw on a variety of texts, the main ones being:

More detailed readings will be given at the beginning of the course and some notes will be provided where textbook coverage is inadequate.

Assessment: Exam (100%, duration: 2 hours) in the LT week 0.

EC4V8 Half Unit
MPA Policy Paper

This information is for the 2017/18 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is not available as an outside option.

Students may not take this course and an MPA Dissertation.

Course content: The aim of the course is to enable students to plan, design and conduct independent analysis in an area of public policy. MPA students will write an individually-authored policy paper of no more than 6,000 words on a topic developed in consultation with their Academic Adviser. The paper will analyse a concrete policy problem in a specific setting and propose an evidence-based solution or course of amelioration. It must be addressed to a non-academic audience and should be clearly and directly written, suitable for consideration by policy-makers. The main body of the paper should include methodology, results of the analysis, discussion of different policy options, conclusions and policy recommendations. The policy paper must be accompanied by an Executive Summary. Policy papers can utilise quantitative and/or qualitative data and draw on secondary and/or primary research.

Teaching: 6 hours of seminars in the MT. 3 hours of seminars in the LT.

Teaching comprises six seminars in the MT and LT. These seminars provide academic and practical guidance on developing
EH401 Half Unit
Historical Analysis of Economic Change

This information is for the 2017/18 session.
Teacher responsible: Dr Debin Ma SAR 612
Availability: This course is compulsory on the MSc in Economic History, MSc in Economic History (Research) and MSc in Quantitative Economic History. This course is not available as an outside option.

Course content: The course provides basic awareness of central themes and key methodological and theoretical issues in economic history; introduces students to important analytic tools used by economic historians, with an emphasis on their practical application in economic history research; and examines major ways in which economic historians collect, analyse and interpret evidence. The training is expected to inform dissertation work. The course covers two main areas. 1) Theory and Research: this section introduces theoretical approaches to major issues in economic history, and considers the practical application in historical analysis of concepts from economics (primarily) and related disciplines. The specific topics evolve but an illustrative list includes: processes of economic growth; economic development; culture and economic behaviour; the rational-choice institutionalist paradigm; imperfect information and incentive structures; modern macro-economic ideas (especially on money and finance); welfare outcomes. 2) Historical Methodology: this section introduces methodological issues in combining social science frameworks with historical materials. It considers problems of knowledge and explanation in economic history, and introduces quantitative and qualitative approaches to obtaining, analysing and interpreting evidence.

Teaching: 9 hours of seminars and 20 hours of computer workshops in the MT. MT only. Three hours per week.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are required to do weekly exercises and to submit one paper per term.

Assessment: Exam (100%, duration: 2 hours) in the LT week 0.

EH404 Half Unit
India and the World Economy

This information is for the 2017/18 session.
Teacher responsible: Prof Tirthankar Roy SAR 616
Availability: This course is available on the CEMS Exchange, MA Global Studies: A European Perspective, MBA Exchange, MRes in Quantitative Economic History, MSc in Economic History, MSc
EH408 Half Unit
International Migration, 1500-2000:
from slavery to asylum

This information is for the 2017/18 session.
Teacher responsible: Dr Christopher Minns SAR 512
Availability: This course is available on the MA Global Studies:
A European Perspective, MRes in Quantitative Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in International and World History (LSE & Columbia) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course focuses on historical migrations from the sixteenth century to the present day. It examines the causes, processes, and impacts of internal and international migrations, including forced and voluntary movements. The course will cover topics such as the motivations behind migrations, the experiences of migrants, and the impact of migration on societies and economies.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

EH409 Half Unit
Chinese Economy in Transition: 1850-1950

This information is for the 2017/18 session.
Teacher responsible: Dr Debin Ma SAR 612
Availability: This course is available on the MA Global Studies: A European Perspective, MSc in Economic History, MSc in Economic History (Research) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course provides a broad but selective survey of over 100 years of economic change in China leading towards the rise of the new Communist regime in 1950. With emphasis on the importance of ideological and institutional changes, the course gives in-depth coverage of some major debates and case studies on historical turning points such as the opening of China in mid-19th century, the collapse of Qing in 1911, economic transformation during China's Republican period. The course will consider the critical relevance of a long-term perspective on understanding both the constraints and capacity of Chinese economy to respond to past and future challenges and offers unique historical perspectives on the origin of Chinese modernization as well as the grand economic transformation during the past three decades.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EH413**  Half Unit  Not available in 2017/18

**African Economic Development in Historical Perspective**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Leigh Gardner SAR 507

**Availability:** This course is available on the CEMS Exchange, MA Global Studies: A European Perspective, MBA Exchange, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in International and World History (LSE & Columbia) and MSc in Political Economy of Late Development.

This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Africa's economic development challenges cannot be understood without looking back to the history of the continent. This course provides an introduction to the economic history of sub-Saharan Africa since the beginning of the Atlantic era. It begins by comparing levels of economic development in Africa c. 1500 to that of other world regions. It then examines how major shifts in the international economy, from the industrial revolution to the recent financial crisis, influenced patterns of economic development on the continent. Focusing on the longue durée, the course addresses issues which are remain current in studies of African development, including:

- The role of globalization and trade and promoting or undermining development
- Environmental challenges to expanding production
- The structure of state institutions and their impact on growth
- The impact of economic change on social structures

Close attention will be paid to the ways in which economic development is measured and assessed in different periods with the available data. Readings will include historical documents from the periods in question. The inclusion of primary sources on the reading list will allow students to build research skills while engaging with key questions about the historical origins of Africa's relative poverty.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

2-hour meetings weekly, with a flexible combination of lectures and seminars.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are required to make one class presentation and submit one paper during the term.

**Assessment:** Exam (100%, duration: 2 hours) in the LT week 0.

---

**EH414**  Half Unit  Not available in 2017/18

**Theories, Paths and Patterns of Late Development**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Debin Ma SAR.6.12

**Availability:** This course is compulsory on the MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course provides basic awareness of central themes and key methodological and theoretical issues in economic history, introduces students to important analytic tools used by economic historians, with an emphasis on their practical application in economic history research; and examines major ways in which economic historians collect, analyse and interpret evidence. The training is expected to inform dissertation work.

The course covers two main areas. 1) Theory and Research: this section introduces theoretical approaches to major issues in economic history, and considers the practical application in historical analysis of concepts from economics (primarily) and related disciplines. The specific topics evolve but an illustrative list includes: processes of economic growth; economic development; culture and economic behaviour; the rational-choice institutionalist paradigm; imperfect information and incentive structures; modern macro-economic issues (especially on money and finance); welfare outcomes. 2) Historical Methodology: this section introduces methodological issues in combining social science frameworks with historical materials. It considers problems of knowledge and explanation in economic history, and introduces qualitative and quantitative approaches to obtaining, analysing and interpreting evidence. The classes to follow the lecture will focus on how economic history as a discipline that helps explain the distinct growth trajectories of 'late-developing' countries, inform modern approaches to development policy and practice, and current controversies about obstacles to development.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.

Two-hour lecture (that is joint with EH401) and a weekly one hour seminar in MT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will produce one written paper (3,000 words) and are expected to collaborate in joint presentations.

**Assessment:** Exam (100%, duration: 2 hours) in the LT week 0.
EH421  Half Unit
Economic History of Colonialism

This information is for the 2017/18 session.
Teacher responsible: Dr Leigh Gardner SAR.5.07 and Prof Tirthankar Roy SAR.6.16

Availability: This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Debates about the effects of European colonial rule on the non-European world animated economic history scholarship since the 1850s when Karl Marx published essays on British rule in India in the New York Daily Tribune. The relationship between colonialism and economic development has an important place in a number of distinct literatures in economic history, including work on globalization, divergence, migration, global finance, environmental change, and the shaping of development policy after colonialism. The aim of the course is to introduce the key readings in these themes, build connections between the discourses, and lead students to an informed view of colonialism as a force in shaping the modern world.

The broad topics include, (a) trade and the origins of colonialism (b) institutions and governance, (c) connections forged through trade, investment, migration, and the transfer of knowledge of institutions and technologies, including informal empire; (d) growth of corporate enterprise such as companies, factories, and plantation complexes, and the connection between state power and private enterprise; (e) decolonization, proximity between indigenous business and nationalist politics, the changing power of expatriate capital, and the appeal of new developmental ideology in the interwar period; (f) environmental change, studying a scholarship that sees European empires, alternatively, as catastrophic in their impacts on the environment and as forerunners of governmental regulation of the commons.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: Students will be expected to produce 2 presentations and 1 exercise in the MT.

Assessment: Essay (100%, 3000 words) in the Week 11. The essay will be due at the end of Week 11.

EH422  Half Unit
Topics in Quantitative Economic History

This information is for the 2017/18 session.
Teacher responsible: Prof Albrecht Ritschel SAR.6.06
Dr Maria Lopez Uribe, SAR.6.15

Availability: This course is compulsory on the MSc in Quantitative Economic History. This course is available on the MA Global Studies: A European Perspective, MSc in Economic History and MSc in Economic History (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is particularly appropriate for those students who are considering following a quantitative economic history PhD thesis in the future.

Pre-requisites: Students enrolled for this course are expected to have completed the equivalent of undergraduate courses in econometrics and intermediate economic theory.

Course content: The course is organised on a topic basis, with subjects chosen to illustrate particular theoretical, quantitative or methodological issues. Such topics could include: long run comparative economic growth; human capital issues in economic history; the macroeconomics of the inter-war years; the political economy of trade; industrial economic history; technological change; quantitative approaches to the evolution of markets; the new economic history of institutional change; analysing historical welfare issues. The aims are to: examine the techniques used by economic historians and to assess their validity and whether they help to further our understanding of the particular historical issue to which they have been applied; and to teach students how to evaluate the relevance of historical hypotheses and the historical applicability of models from economic and other social scientific theory. Students are able to investigate in detail the analysis contained in important journal articles using appropriate computer packages.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

20 two-hour lectures/ seminar in the MT and LT; some of this Teaching will take the form of computing workshops.

Students on this course will have a reading week in Week 6 of each term, in line with departmental policy.

Formative coursework: Three or four papers or presentations during the session

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

EH423  Half Unit
Japan and Korea as Developing Economies

This information is for the 2017/18 session.
Teacher responsible: Prof Janet Hunter SAR.6.04

Availability: This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course will focus on selected issues of economic development that are of importance in contemporary debates and theories, and see how these issues were played out in Japan and Korea from the late 19th century to the latter half of the 20th century. The main topics discussed will be: natural endowments and climatic impact; changes in the agricultural and manufacturing sectors; the growth of market production; issues of state policy; economic institutions; colonialism and imperialism; integration into the international economy; income levels and consumption; gender and development, culture and economy.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 2 hours of seminars in the ST.

Twenty hours of lectures/seminars in the Michaelmas Term and...
two hours of revision seminars in the Summer Term.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EH426 Half Unit**

**Quantitative Topics in Economic History I: Cross-section and panel data**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Maria Lopez-Uribe, SAR.6.15

**Availability:** This course is available on the MA Global Studies: A European Perspective, MSc in Economic History and MSc in Economic History (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students enrolled for this course are expected to have completed at least introductory undergraduate courses in statistics and/or econometrics and economic theory. The course will begin with a revision of the main quantitative approaches but will not provide a comprehensive training in econometric methods or computer applications.

**Course content:** The course will provide an overview of quantitative approaches in economic history mainly using cross-section and panel data. The course will examine the use of quantitative techniques through practical exercises and critical discussion of their application in recent literature. Techniques discussed will include multiple regression analysis, regression diagnostics, instrumental variables, limited dependent variables, sample selection corrections, and panel data analysis. The course is organised on a topic basis, with subjects chosen to illustrate particular theoretical, quantitative and methodological issues.

**Teaching:** 20 hours of seminars in the MT.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EH428 Half Unit**

**History of Economics: Making Political Economy into a Social Science**

**This information is for the 2017/18 session.**

**Teacher responsible:** Mr Peter Sims

**Availability:** This course is available on the MA Global Studies: A European Perspective, MSc in Economic History; MSc in Economic History (Research); MSc in Economics and Philosophy, MSc in International and World History (LSE & Columbia) and MSc in Philosophy of the Social Sciences. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course aim is to understand how the nature of economics changed from the verbally argued accounts of political economy and moral philosophy in the 18th century to become a technical social science by the end of the 20th century. The course will explore the long-term changes over two hundred years in how economists came to know things about the economy by examining the history of their notion of the laws of economics, their analytical practices, and the evidence they used. Primary texts, chosen from a variety of European and American authors, will provide material for the study of these changes. Secondary literature will provide theoretical resources from history and philosophy of science to help analyse, understand and assess these changes in the nature of economics as a science.

**Teaching:** 20 hours of seminars in the MT.

20 hours over MT, mainly 2hour seminars, with an occasional lecture within that time slot. (Those students without previous study in the history of economics may wish to attend the lectures for EC311).

**Assessment:** Students on this course will have a reading week in Week 6, in line with departmental policy.

---

**EH427 Half Unit**

**Quantitative topics in economic history II: time series and economic dynamics**

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Albrecht Ritschi SAR.6.06

**Availability:** This course is available on the MA Global Studies: A European Perspective, MSc in Economic History and MSc in Economic History (Research). This course is not available as an outside option.

**Pre-requisites:** Students enrolled for this course are expected to have completed EH426 or the equivalent of undergraduate courses in econometrics and intermediate economic theory.

**Course content:** The course will provide an overview of quantitative approaches in economic history using primarily dynamic panel and time series. The course will examine the use of quantitative techniques through practical exercises and critical discussion of their application in recent literature. Techniques discussed will include the GMM estimator, discrete choice and hazard models, analysis of unit roots in panels and time-series and vector autoregressions. The course is organised on a topic basis, with subjects chosen to illustrate particular theoretical, quantitative or methodological issues.

**Teaching:** 20 hours of seminars in the LT.

**Assessment:** Students on this course will have a reading week in Week 6, in line with departmental policy.

---
EH429 Half Unit
History of Economics: Ideas, Policy and Performativity

This information is for the 2017/18 session.

Teacher responsible: Prof Mary Morgan SAR 6 0 9
Availability: This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic Policy, MSc in International and World History (LSE & Columbia) and MSc in Philosophy of the Social Sciences. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students can take this course independently of EH428.

Course content: The course aim is to understand how economics has been used to change the world. The course will bring to together the long tradition of analysis of economics as a policy science with more recent ideas about the performativity of economics. It will draw on the literatures of economic history, history of economics and sociology of accounting and finance to explore the aims and methods used in economics to influence the economy. The focus of study will be on particular episodes from 20th century where in which economics features as a technical art (e.g. the transition from colonial to independent economies; the Soviet and Cuban revolutions; and the reconstruction of depressed and damaged economies).

Teaching: 20 hours of seminars in the LT.
20 hours over LT, mainly 2 hour seminars with an occasional lecture within that time slot. (Those students without previous study in the history of economics may wish also attend the lectures for EC311.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce two pieces of written work during the term.

Indicative reading: Reading lists will be given out at the beginning of the course. Henry Spiegels The Growth of Economic Thought (various editions, Duke University Press) provides a general background text.

Assessment: Essay (100%, 3000 words) in the ST.

EH446 Not available in 2017/18
Economic Development of East and Southeast Asia

This information is for the 2017/18 session.

Teacher responsible: Prof Kent Deng SAR 6 0 5
Availability: This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global History, MSc in Global Politics and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: There are no pre-requisites: knowledge of Asian history of the relevant period and region would be an advantage.

Course content: The course deals with conditions and paths of economic development in East Asia (excluding Japan) and Southeast Asia in the past centuries. The first part of the course looks at the debate on Asian economic history, endowments available, and institutions technology and economies that evolved independently in Asia to support a large population with reasonable standards of living. The second part of the course examines reasons for the lack of indigenous modern growth in Asia, conditions and timing of miracle growth of the Asian Tigers, ASEAN and Mainland China after World War Two, and impact of such growth of the world economy.

Topics covered include: traditional economic patterns in the region by the 17th century; the impact of the early European maritime traders; the impact of the later Europeans traders backed by industrialisation; attempts and success of the Western colonisation; resistance to the change from the core area in East Asian Mainland. Reforms and modernisation in Asia, Asia and globalisation.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 20 hours of lectures in the ST.
20 seminars of two-hours each in the MT and LT. Written essays are circulated in advance.

Students on this course will have a reading week in Week 6 of each term, in line with departmental policy.

Formative coursework: Two essays (3,000 words each) are expected during the course. The first is due at the end of the 9th week (in the MT) and the second, the 17th week (in the LT).

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

EH452 Half Unit
Latin American Development and Economic History

This information is for the 2017/18 session.

Teacher responsible: Dr Maria Irigoin SAR 6 1 1
Availability: This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global History, MSc in History of International Relations, MSc in International and World History (LSE & Columbia), MSc in Political Economy of Late Development and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course will consider some of the major topics of development and economic history of Latin America. The topics to be explored will be the role of geography, the environment and factor endowments, the role of institutions and policies in the long run development path, problems of taxation and representation in the constitutional and political developments of the 19th and 20th century, the history of labour and migrations into and out of Latin America, the protracted character of Latin America's inequality, the macroeconomics of industrialization and the political economic nature of Latin American populist political culture, the recurrent financial crises and the persistent macroeconomic instability. Using reciprocal comparisons with the US, South East Asia, and between LA countries - and across time - the course will revisit the current interpretations of Latin American development in the long run and will frame the analysis of particular issues of policy-making of the present into the economic historical context.

Teaching: 20 hours of seminars in the LT.
Weekly two-hour seminars in LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are required to write one paper (around 2,000 words) during the term and produce oral presentations.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

**EH454 Human Health in History**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Eric Schneider SAR.5.18 and Dr Patrick Wallis SAR.5.11

**Availability:** This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global History and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course explores how human health has changed over time and tracks how the environment, society, public health infrastructure, medical practice and health systems have influenced health. The course begins with a three-seminar survey of how health has changed from the Neolithic era onwards. Subsequent thematic sets of seminars study the following topics in more detail:

- Health in the pre-Industrial world including discussion of plague, the Columbian Exchange and American slavery
- The epidemiological and health transition with weekly topics on the germ theory of disease, medical innovations, sanitation and the developmental origins of health
- The development of health systems from the early modern period to the present
- Combating disease with particular reference to smallpox, cholera and AIDS
- The influence of health on society and the economy including topics on health and economic growth, gender disparities in health and morbidity

One of the focuses of the course will be critical engagement with the sources and methods that historians have used to reconstruct health history. Students will also complete a 3,000 word research paper based on primary sources or data on a health history topic as part of the summative assessment.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 1 hour of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay and 1 project in the MT and 1 essay and 1 other piece of coursework in the LT.

- Formative essay (1,500 words) due in week 8 of Michaelmas Term
- Group research project

- We will introduce the project along with various datasets
- Then they will have reading week and the rest of term to develop their research project.
- They will give a 10-minute presentation of the project to the class in weeks 9-9 of Michaelmas Term.
- A 1,500 word essay will be due in week 11 of Michaelmas Term.
- Research project proposal (one page) due in week 2 of Lent Term
- Explain the historical question you will address
- Describe the data and methodology that you will use to address the question

**Formative essay (1,500 words) due in week 1 of Summer Term**

**Assessment:** Exam (50%, duration: 2 hours) in the main exam period.

Project (50%, 3000 words) in the LT.

The two-hour unseen exam will cover all topics of the course and take place during the main examination period.

The 3,000-word summative research project is an opportunity for students to conduct their own primary-source research into the history of health. Students can either use a primary source available as a dataset, or they can venture out to the archives to collect additional information as a basis for their project. The project must be historical (pre-1990) and cannot directly replicate studies in the literature using the same data. However, it can test another author’s result using new sources or use the same sources to test a different question. The project can use quantitative or qualitative methods (or both) based on each student’s preference.

The project will be due by 4:00 pm on Thursday of week 11 of Lent Term. More detailed guidance on the project will be disseminated early in Michaelmas Term.

**EH463 Half Unit**

**The Long-Run Analysis of Firms and Industries**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Gerben Bakker SAR 509

**Availability:** This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research) and MSc in Global History. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Prerequisites:** There are no prerequisites, but some knowledge and an interest in business and finance are advantageous.

**Course content:** This course comparatively explores the history of strategies, business organisations and industries since the nineteenth century. Different approaches to analyse this evolution are discussed, as well as the history of thinking about management and organisational structure and how this affected history itself. Introductory lecture(s) set the scene, discuss key concepts and various economic approaches to analyse the evolution of organisations. Subsequently the course looks at the origins of legal forms of organisation - such as the corporation, the private limited liability company and the cooperative - at the development of organisational structures, at the history of thinking
about them, and at evolution of industries.

**Teaching:** 20 hours of seminars in the LT.

The class meets for two-hours each week, in the Lent Term. Introductory lecture(s) are followed by student-led seminars. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are expected to produce one essay during the term and to sit a short mock examination paper at the end of the term.

**Indicative reading:**

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

**EH472 Half Unit**

**Essay in Quantitative Economic History**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Patrick Walls

**Availability:** This course is compulsory on the MSc in Quantitative Economic History. This course is not available as an outside option.

**Course content:** The topic of the Essay is chosen by the students in close consultation with their supervisors. The purpose of the essay is to introduce students to the practice of historical research through the completion of a small, self-contained project that involves the use of quantitative methods in the analysis of historical change. It builds on competencies acquired in the core economic history and economics courses of the MSc. It must demonstrate the ability to formulate and motivate a research question, reflect adequate knowledge of the relevant literature in economic history and economics, make effective use of appropriate quantitative methods, and show critical capacity in the interpretation of the evidence and findings. Selection of title: The title must be approved by the student’s supervisor. An agreed provisional title and an outline of the Essay must be submitted by week 3 of Lent Term.

**Teaching:** Starting in the first term, students will receive advice on choosing a topic and how to tackle it, both from the Department (in the form of a document) and, individually, from their supervisors. There will be four Essay sessions in Michaelmas Term for all students on the programme and meetings with supervisors during the course of the year.

**Formative coursework:** Students must submit a one page summary and draft work for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.

**Assessment:** Essay (100%, 6000 words).

The essay should be no longer than 6,000 words, excluding tables, references and bibliography. Submission on a date to be specified. Marks will be deducted for late submission or excessive length. The Essay counts for a half-unit in the four-unit MSc programme. The relevant marking criteria are set out in the Notes for Students.

**EH473 Research Paper in Quantitative Economic History**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Patrick Walls

**Availability:** This course is compulsory on the MRes in Quantitative Economic History. This course is not available as an outside option.

**Course content:** The Research Paper builds on the research training provided through the core courses of the MSc Quantitative Economic History and the MRes Quantitative Economic History, augmented by the optional economic history courses taken by students during the MRes. The topic of the Research Paper is chosen by the students in close consultation with their MRes supervisors who, normally, will be their prospective PhD supervisors. The Research Paper will present the results of an original enquiry into a clearly defined historical problem and use appropriate methods of quantitative analysis. It must demonstrate the ability to employ relevant concepts from economics and/
or the wider social sciences effectively, an understanding of and critical engagement with the relevant economic history literature, an appreciation of the nature of historical explanation and analysis, and the ability to identify, collect and critically examine relevant quantitative information. Apart from it being an integral core component of the MRes programme, the Research Paper also serves as a first step towards the production of one of the three publishable papers envisaged for the students’ prospective paper-based PhD thesis. Selection of title: The title must be approved by the student’s supervisor. An agreed provisional title and an outline of the Research Paper must be submitted by week 3 of Lent Term.

**Teaching:** Starting in the first term, students will receive advice on choosing a topic and how to tackle it, both from the Department (in the form of a document) and, individually, from their supervisors. There will be four Research Paper sessions in Lent Term for all students on the MRes and meetings with supervisors during the course of the year. Students are expected to submit a one page summary and a substantial draft for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date. This draft work forms the basis of the paper which students have to present at the MRes Quantitative Economic History workshop held in the last week of the Summer Term.

**Formative coursework:** Students must submit a one page summary and a substantial draft for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.

**Assessment:** Research project (100%). The Research Paper should be no longer than 10,000 words, excluding tables, references and bibliography. Submission on a date to be specified. Marks will be deducted for late submission or excessive length. The Research Paper counts for one full unit in the four-unit MRes programme. The relevant marking criteria are set out in the Notes for Students.

---

**EH474**

**Research Prospectus**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Patrick Wallis

**Availability:** This course is compulsory on the MRes in Quantitative Economic History. This course is not available as an outside option.

**Course content:** The Research Prospectus is a detailed, c. 5,000 words long outline ‘map’ of the prospective PhD thesis. It serves to demonstrate the feasibility of the thesis and, in conjunction with the results achieved in the examinable components of the MRes programme (including the Research Paper), as an indicator of the student’s readiness for further graduate work in economic history at PhD level. The Prospectus is non-examinable but subject to approval by a departmental board prior to progression into the PhD programme.

The Research Prospectus is expected (1) to set out the research questions and motivation of the three publishable papers students intend to produce in their prospective PhD thesis, (2) to demonstrate the thematic connections between the three papers, (3) to outline the conceptual/ theoretical frameworks and empirical approaches to be used, (4) to identify the main (data) sources to be exploited, and (5) to delineate the relevant historical and historiographical contexts of the thesis. Insights from the student’s ongoing work on the Research Paper (EH473), as a first step towards the production of one of the three papers, are expected to inform the Research Prospectus.

**Teaching:** Students are expected to work on the Research Prospectus throughout the year and in close consultation with their supervisors who, normally, will be their prospective PhD supervisors.

**Assessment:** The Research Prospectus is not formally assessed. However, it needs to be approved by the departmental Prospectus Review Board prior to progression to the PhD programme.

---

**EH476**

**Not available in 2017/18**

**The Economic History of War**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Max-Stephan Schulze SAR 614 and Mr Dudley Baines SAR 608

**Availability:** This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research) and MSc in Global History. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students enrolled on this course are expected to have completed the equivalent of undergraduate survey courses on European history. Knowledge of introductory undergraduate level economics is a distinct advantage.

**Course content:** This course explores the economic history of war(s) from the late Middle Ages to the 20th century within a comparative framework. Key themes examined include: long-term preparation for war - from bullionism to autarchy; state formation and deformation; organising warfare - from Renaissance condottiere to security firms; resource mobilisation - finance, material inputs, human capital; resource allocation - production and consumption; human and economic consequences of war; post-war reconstructions. The historical cases studied include the Hundred Years War, the Thirty Years War, the European wars of the 18th century, the Napoleonic Wars, the American Civil War, the First and Second World Wars.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There are no lectures on this course. Teaching will consist of 20 seminars of two-hours each in MT and LT; one revision session in LT. There will be pre-circulated papers for the seminars. Students on this course will have a reading week in Week 6 of both MT and LT, in line with departmental policy.

**Formative coursework:** Three 2,000 word essays and one class presentation

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.
EH479  Half Unit
Dissertation in Global History

This information is for the 2017/18 session.
Teacher responsible: Dr Patrick Wallis
Availability: This course is compulsory on the MSc in Global History. This course is available on the MA Global Studies: A European Perspective. This course is not available as an outside option.
This course is the default dissertation option for students following the MSc Global History. Students wishing to write a full-unit (10,000 word) dissertation may, with the approval of their academic adviser, request to take EH480 and fewer optional courses.
Course content: The subject of the dissertation should relate broadly to one of the global history taught courses taken by the student. It should be a critical survey of a well-defined problem in the literature. It must demonstrate adequate knowledge of appropriate literature in Global History and an ability to handle problems of evidence and explanation. The title must be approved by the student’s supervisor. A provisional title should be agreed by mid-LT.
Arrangements for supervision:
EH481 gives essential training for the dissertation. Starting in the first term, students will receive advice on the choice of topic and how to tackle it, both from the Department and, individually, from their tutor and from the teacher of the most relevant taught course. There will be meetings during the course of the year. The student must submit a one-page summary and draft work for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.
Teaching: 8 hours of lectures in the MT.
Assessment: Dissertation (100%, 6000 words) post-summer term. The dissertation should be no longer than 6,000 words, excluding tables, references and bibliography. The title must be approved in advance by the student’s supervisor. Marks will be deducted for late submission or excessive length.

EH480  Half Unit
Dissertation in Global History

This information is for the 2017/18 session.
Teacher responsible: Dr Patrick Wallis
Availability: This course is available on the MA Global Studies: A European Perspective and MSc in Global History. This course is not available as an outside option.
Students following MSc Global History may, with the permission of their academic adviser, request to take this full-unit dissertation course in place of EH479. Requests must be received, and approved, by the Friday of Week 5 of Michaelmas Term.
Course content: The dissertation should be an empirical study using primary source material to write on a topic in global history. The topic should relate broadly to one of the global history courses taken by the student.
Selection of title
The title must be approved by the student’s supervisor. A provisional title should be agreed by mid-LT.
Arrangements for supervision:
EH481 Economic Change in Global History: Approaches and Analysis gives essential training for the dissertation. Starting in the first term, students will receive advice on the choice of topic and how to tackle it, both from the Department (in the form of a document) and, individually, from their tutor and from the teacher of the most relevant taught course. There will be meetings during the course of the year.
Teaching: 8 hours of lectures in the MT. 2 hours of lectures in the ST.
Formative coursework: The student must submit a one-page summary and draft work for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.

EH481  Half Unit
Economic Change in Global History: Approaches and Analysis

This information is for the 2017/18 session.
Teacher responsible: Dr Debin Ma SAR 612
Availability: This course is compulsory on the MA Global Studies: A European Perspective and MSc in Global History. This course is available on the CEMS Exchange and MBA Exchange. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The ‘project’ of global history; comparison and connection; tools for global economic history: ideas from economic history, rational-choice economics and political economy, and from Marxism and ‘world systems’ theory; the industrial revolution as a conjuncture in global history; empires and globalization; meaning and evolution of the ‘world economy’; states and state systems; culture and economic change; the natural environment and global history; the post-modern challenge to metanarrative; strategies for writing global history. The course will introduce central themes and analytical tools in global history, focussing on the history of material progress and stasis, and considering the comparisons and connections between the histories of different regions of the world.
Teaching: 20 hours of lectures and 9 hours of seminars in the MT. 2 hours of lectures in the ST.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will be expected to produce two written papers during the course.
Indicative reading:
K Pomeranz, The Great Divergence (2000);
J Diamond, Guns, Germs and Steel (1998); E Jones, Growth Recurring: Economic Change in World History (1988, 2000);
Assessment: Exam (100%, duration: 2 hours) in the LT week 0.

EH482  Half Unit
Pre-Modern Paths of Growth: Europe and the Wider World, 11th to 19th Centuries

This information is for the 2017/18 session.
Teacher responsible: Dr Patrick Wallis
Availability: This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in China in Comparative Perspective, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation and MSc in Global History. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course surveys long-term processes of growth and development in pre-modern Europe and the wider
world. The course raises fundamental questions about the nature of pre-industrial societies and economies. First, it asks if stagnation and poverty were normal conditions in pre-industrial societies and growth an aberration. Were societies 'Malthusian', and what kind of growth and development did they experience? Second, it addresses debates over the origins of European industrialisation. Why was Britain first? Was British success from the 17th century the result of unique social, institutional, or cultural features? Was it the outcome of a centuries-long, cumulative process of change that relied as much on inputs from the rest of Europe and the wider world as much as specifically domestic features? Or was it the result of a fortunate conjunction? Third, it draws parallels for a comparison of development paths within European and beyond in those regions were Europeans got into contact in the course of the early modern period. The approach throughout is thematic. Themes include: population, agriculture, technology, manufacturing, labour regimes, economic effects of legal, political, and constitutional structures; political economy; trade and market integration, money, finances and commercial institutions, and the causes and effects of the European expansion overseas.

**Teaching**: 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 2-hour meetings weekly, with a flexible combination of lectures and seminars in MT and LT.

**Assessment**

Students on this course will have a reading week in Week 6 of each term, in line with departmental policy.

**Indicative reading**

**Assessment**: Exam (100%, duration: 3 hours) in the main exam period.

## EH483

### The Development and Integration of the World Economy in the 19th and 20th Centuries

**This information is for the 2017/18 session.**

**Teacher responsible**: Dr Neil Cummins SAR 513 and Mr Peter Sims

**Availability**: This course is compulsory on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Global History and MSc in Global Politics. This course is available on the MRes in Quantitative Economic History, MSc in Accounting, Organisations and Institutions, MSc in Empires, Colonialism and Globalisation and MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content**: This course aims to provide an overview of the development and integration of the world economy since the First Industrial Revolution. Global economic history over this period can be divided into four phases, around which the lectures will be based.

1. The birth of the modern world, 1780-1870
2. Globalisation, 1870-1914
3. Globalisation Backlash, 1914-195-
4. Globalisation since 1950

**Particular themes covered include**: 1. Catching-up, forging ahead and falling behind: analysis of reasons for success and failure in economic growth in different eras 2. The role of factor and trade flows in the development process 3. Demographic transitions and their links to economic factors 4. The international monetary system and financial crises 5. The wider role of institutions and institutional change

**Teaching**: 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures and 1 hour of seminars in the ST.

**Assessment**: Three pieces of written work are to be submitted for the course.

**Indicative reading**

**Assessment**: Exam (100%, duration: 3 hours) in the main exam period.

## EH486

### Half Unit

**Shipping and Sea Power in Asian Waters, c 1600-1860**

**This information is for the 2017/18 session.**

**Teacher responsible**: Prof Kent Deng SAR 5.17

**Availability**: This course is available on the MA Global Studies: A European Perspective, MRes in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global History, MSc in International and World History (LSE & Columbia) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content**: This course examines the development of shipping, sea power and maritime-related industries in East and Southeast Asia, c1600-1860. Topics include: Introduction to theories and models. Sailing conditions and sea routes in Asian waters. Strategic importance of Asian waters in the global sense. Development of shipping technology. Emergence of naval capacity. Function and pattern of long-distance trade; formation of regional markets and networks; linkages to the home economy. Migration. Investments and returns. Role of governments. Impact of modern capitalism.
Regional hegemony. The context of the process and impact of globalisation in Asia.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.
1 hour of lectures and 1 hour of seminars in the ST.
Taught during the LT. 10 weekly one hour lecture followed by one hour seminar in which student papers will be presented and discussed.

**Formative coursework:** Students will be expected to produce two essays of up to 2,000 words during the course, one due at the end of the 4th week and the other at the end of the 9th week (see below).

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EH491 Half Unit**

**Dissertation in the Political Economy of Late Development**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Patrick Wallis

**Availability:** This course is compulsory on the MSc in Political Economy of Late Development. This course is not available as an outside option.

**Course content:** The dissertation must present the results of an enquiry into a carefully defined problem in the field, whether by a critical survey of existing literature, or by the use of primary evidence. It must demonstrate adequate knowledge of relevant theoretical and empirical literature in Economic History and Development Studies, and an ability to handle problems of evidence and explanation.

Supervision: EH414 Theories, Paths and Patterns of Late Development gives essential training for the dissertation. Starting in the first term, students will receive advice on the choice of topic and how to tackle it, both in the form of a document from the Economic History Department and individual advice from their respective supervisors. There will be meetings during the course of the year. The student must submit a draft by the last Monday of that term. The draft will form the basis of a paper which the student must present to a dissertation workshop held later that week. Verbal feedback will be provided by teachers and fellow students. The student will also receive detailed written comments on this draft.

**Teaching:** 6 hours of lectures in the MT. 2 hours of lectures in the LT.

**Assessment:** Dissertation (100%, 6000 words) post-summer term.

The dissertation should not exceed 6,000 words, excluding tables, references, and bibliography. The title must be approved in advance by the student’s supervisor. The dissertation will not be returned to the student, who should therefore make a copy before submission.

---

**EH496-7**

**Dissertation- MSc Economic History (Research)**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Patrick Wallis

**Availability:** This course is compulsory on the MSc in Economic History (Research). This course is not available as an outside option.

**Course content:** The dissertation must draw upon the research training provided through the core courses for the MSc (Research) and the generic courses taken by the student, and present the results of an original enquiry into a carefully defined problem. Students are expected to show an ability to draw on relevant social scientific concepts, an understanding of the advanced literature in one or more areas of economic history, and of the nature of historical explanation and analysis. Where appropriate, students are also expected to show the ability to use relevant quantitative techniques for data collection and analysis. The dissertation is intended as preparation for a research degree. Students expecting to continue on the MPhil/PhD programme within the Department may write their MSc dissertation on a different topic from that on which they plan to research at MPhil/PhD level.

Selecting a topic: The subject and title of the dissertation must be approved by the student’s tutor.

**Teaching:** 8 hours of lectures in the MT. 2 hours of lectures in the ST.

Arrangements for supervision: Starting in the first term, students will receive advice on how to choose a topic, and how to tackle it, both from the Department and, individually, from their tutor and from the teacher of any relevant taught course. There will be meetings during the course of the year. The student must submit a draft of the dissertation by the last Monday of the Lent Term. This draft will form the basis of a presentation at the dissertation workshop held later that week, at which verbal feedback will be provided by teachers and fellow students. A nominated member of staff will also offer written comments on this draft providing it is submitted by the designated time.

**Formative coursework:** The student must submit a draft of the dissertation by the last Monday of the Lent Term. This draft will form the basis of the paper which the student must present to a dissertation workshop held later that week, at which verbal feedback will be provided by teachers and fellow students. A nominated member of staff will also offer written comments on this draft providing it is submitted by the designated time.

**Assessment:** Dissertation (100%, 15000 words) post-summer term.

The final dissertation, is equivalent to two full modules, and will be awarded two separate percentage marks. The first of these marks will be based on the formulation of the dissertation topic, its historical and historiographical context (including critical literature survey), its creativity and originality, and overall presentation. The second mark will relate to the student’s research design and discussion of methods, their collection and evaluation of primary and secondary sources, and the quality of analysis of evidence and interpretation. The dissertation should not exceed 15,000 words, excluding tables, references and bibliography. Presentation must be in accordance with appropriate academic conventions as laid down in the MSc Handbook. Work that fails to meet appropriate academic standards of presentation, including English language, will be subject to a maximum deduction of 15% from the first percentage mark. Marks will be deducted for late submission in accordance with the guidelines laid down in the MSc student handbook.

---

**EH498 Half Unit**

**Dissertation: MSc Economic History (Half Unit)**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Patrick Wallis

**Availability:** This course is compulsory on the MSc in Economic History. This course is not available as an outside option.
This course is the default dissertation option for students following the MSc Economic History. Students wishing to write a full-unit (10,000 word) dissertation may, with the approval of their academic adviser, request to take EH499 and fewer optional courses.

Course content: The subject of the dissertation should relate broadly to one of the economic history taught courses taken by the student. It should be a critical survey of a well-defined problem in the literature. It must demonstrate adequate knowledge of appropriate literature in Economic History and an ability to handle problems of evidence and explanation.

Selection of title: The title must be approved by the student's supervisor. A provisional title should be agreed by mid-LT.

Teaching: 8 hours of lectures in the MT. EH401 gives essential training for the dissertation. Starting in the first term, students will receive advice on the choice of topic and how to tackle it, both from the Department (in the form of a document) and, individually, from their tutor and from the teacher of the most relevant taught course. There will be meetings during the course of the year. The student must submit a one-page summary and draft work for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.

Formative coursework: Students must submit a one-page summary and draft work for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.

Assessment: Dissertation (100%, 6000 words) post-summer term. The dissertation should be no longer than 6,000 words, excluding tables, references and bibliography. Marks will be deducted for late submission or excessive length.

--

**EH499**

**Dissertation: MSc Economic History**

This information is for the 2017/18 session.

Teacher responsible: Dr Patrick Wallis

Availability: This course is available on the MSc in Economic History. This course is not available as an outside option.

Students following MSc Economic History may, with the permission of their academic adviser, request to take this full-unit dissertation course in place of EH498. Requests must be received, and approved, by the Friday of Week 5 of Michaelmas Term.

Course content: The dissertation should be an empirical study using primary source material to write on a topic of economic history. The topic should relate broadly to one of the economic history courses taken.

Selection of title: The title must be approved by the student's tutor.

Teaching: 8 hours of lectures in the MT. 2 hours of lectures in the ST.

EH401 gives essential training for the dissertation. Starting in the first term, students will receive advice on the choice of topic and how to tackle it, both from the Department (in the form of a document), and, individually, from their tutor and from the teacher of the most relevant taught course. There will be meetings during the course of the year. The student must submit a draft for comment by the end of the Summer Term.

Formative coursework: Students must submit a draft for comment by the end of the Summer Term.

Assessment: Dissertation (100%, 10000 words) post-summer term. The dissertation should not exceed 10,000 words, excluding tables, references, and bibliography. The title must be approved in advance by the student's supervisor. Marks will be deducted for late submission. The dissertation will not be returned to the student, who should therefore make a copy before submission.

--

**EU409**

**Basic Economic Concepts for European Political Economy**

This information is for the 2017/18 session.

Availability: This course is available on the MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is not available as an outside option. Students from other programmes within the European Institute can also follow the course. This course is for students with little economic background.

Course content: This is a Moodle-based course offering a series of instructional videos / recorded lectures (and related reading material / study guides) on some basic economics concepts and theory that are relevant to discussions concerning the political economy of Europe that students will come across in their other courses during their MSc degree. The course is not assessed and there is no formal instruction. Students are encouraged to work in teams and to develop discussions on Moodle - which will be partially moderated by the Course Convenor. The material is designed so as to be accessible to students with no previous knowledge of economics but students with some basic economics knowledge will also benefit from it. Example topics include: current account and budget deficits ("twin deficits"), inflation and unemployment ("Phillips Curve"), trade liberalisation and tariffs ("gains from trade"), competitiveness and unit labour costs ("internal devaluation"), and others.

Teaching: This is a Moodle-based course with no formal teaching. Students can arrange one-to-one sessions with the Course Convenor during Feedback Sessions/Office Hours. Depending on student demand, a limited number of "EU409 Surgeries" can be arranged.

Assessment: There is no examination for this course.

--

**EU410**

**Interdisciplinary Research Methods and Design**

This information is for the 2017/18 session.

Teacher responsible: Dr Waltraud Schelkle COW 1.06

Availability: This course is compulsory on the MSc in European Studies (Research), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is not available as an outside option.

Course content: This series of workshops and lectures offers an introduction to research methods and design for all students taking masters degrees in the European Institute. Themes discussed include: methods in the social sciences and in the humanities; common problems of research design; advice on writing coursework essays and dissertations; advice on critical reading and interpretation of texts; the logic of comparative case-studies; comparative research and an introduction to quantitative methods and data sources. Each session will consist of short lecture elements followed by group work in which students with their different backgrounds help each other to solve specific problems of research design.

Teaching: 4 hours of lectures and 3 hours of workshops in the MT. 4 hours of lectures and 3 hours of workshops in the LT. A total of 4 hours of lectures in both MT and LT. Two 1.5 hour workshops in Reading week 6 of MT and LT.

Assessment: There is no examination for this course.
EU420 Half Unit
European Law and Government

This information is for the 2017/18 session.
Teacher responsible: Dr Auke Willems COW.2.10
Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Environmental Policy and Regulation, MSc in European Social Policy, MSc in Media and Communications (Media and Communications Governance), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Public Policy and Administration (Research), MSc in Social Policy (European and Comparative Social Policy) and Master of Public Administration. This course is not available as an outside option.

Course content: Law seems to function as a programming language: only specialists know how to “speak” it. This is true especially for the EU, which is often accused of using law to obscure the policy choices made from the citizens that are affected by such choices. At the same time, law is so systemically engrained in the EU’s set-up that it is increasingly difficult to understand what the EU is and does, let alone criticise it or suggest alternatives, without a grasp of the role of law in the integration process. The course’s objective is to connect the legal and political science perspective on governance in the EU, and provide those with none, or a very limited, background in law with the tools to better understand the state of the Union.

The course provides an overview of how the EU is governed and – at the same time – of how it governs its citizens. You will come out of it with a detailed understanding of how the EU institutions work, how EU law is adopted at the European level, and how the EU interacts with governments on the national level. It challenges you to critically think about the interaction between law and politics, and the interaction between the EU and its Member States. The course both covers the institutional perspective, highlighting the role of the different institutions in the Union, and also focuses on those substantive issues that are currently topical in the EU – such as fundamental rights or the euro-crisis.

At no other time in the development of the EU has the interaction between law and government so fundamentally affected the direction of the integration process. The coming years will very probably see fundamental changes to the Union’s structure, which are informed as much by political dynamics as by legal mechanisms. This course prepares you to fully understand those changes – and allows you to analyse critically both their normative content and institutional structure.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One unassessed essay (2,000 words).

Indicative reading: C Bickerton, European Integration: From Nation-States to Member States (Oxford University Press 2012); G de Burca and J Weiler (eds), The Worlds of European Constitutionalism (Cambridge University Press 2012); S Hix and B Hayland, The Political System of the European Union 3rd ed (Palgrave 2011); P Lindseth, Power and Legitimacy: Reconciling Europe and the Nation-State (Oxford University Press 2010).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the main exam period.

EU425 Half Unit Not available in 2017/18
Interest Representation and Economic Policy-Making in Europe

This information is for the 2017/18 session.
Teacher responsible: Dr Stephen Coulter COW 1.07
Availability: This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and MSc in Political Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The focus of this course is on the representation of interests in Europe, and their role in Economic policy-making. Students will analyse the main theoretical issues and selected empirical questions on how interests are differently organised across countries and at the EU level, on the interplay between interest representation and electoral politics, and on the policy outcome after interest intermediation. The objective is to understand the dynamics of economic policy-making in comparative perspective, with an emphasis on the globalisation period.

EU421 Half Unit
Policy-Making in the European Union

This information is for the 2017/18 session.
Teacher responsible: Dr Eiko Thielemann
Availability: This course is compulsory on the MSc in EU Politics and MSc in EU Politics (LSE and Sciences Po). This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Environmental Policy and Regulation, MSc in European Social Policy, MSc in Media and Communications (Media and Communications Governance), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Public Policy and Administration (Research), MSc in Social Policy (European and Comparative Social Policy) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A solid knowledge of the role and functions of EU institutions is required.

Course content: This course offers the theoretically informed study of the EU policy-making across a selection of key issue areas. The principal aim of the course is to provide a detailed knowledge of how national and EU institutions interact in European policy making. To achieve this, the course is divided into two parts. The first introduces principal theories of policy making along three core policy dimensions: agenda setting, decision making and policy implementation. In the second part the conceptual insights gained will be used to analyse a number of substantive policy areas. These will typically include: the single market, cohesion policies, immigration and asylum policies, Common Agricultural Policy, Economic and Monetary Union, Justice and Home Affairs and EU foreign policy.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.
The second part of the course will address the West’s ‘Others’—specifically, ‘the Orient’, ‘the East’, and ‘the Balkans’. As we will see, all of these have proven liable concepts through which the defining features of a ‘West’ have emerged. Moreover, these are features that have been deployed in the context of colonialism, anti-colonialism, and postcolonial statebuilding, especially through projects of modernisation that were also projects of Westernisation. We will examine cases of modernisation and statebuilding in the Middle East, Russia, and the Balkans to tease out projects of reflexive Orientalisation that depended on an antagonistic and/or hierarchical relationship to an Occident—‘the West’. We will also look at the ways in which certain contradictions and paradoxes inherent to projects of modernisation as Westernisation continue to play out in contemporary geopolitics and in Western’ commentators’ characterisation of certain geopolitical conflicts as a ‘clash of civilisations’. This will include lectures on the making of the Post-Cold War world.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Two essays of 1,750-2,000 words, one seminar presentation.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EU426 Half Unit Not available in 2017/18 The West**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Rebecca Bryant COW 2.14

**Availability:** This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Empires, Colonialism and Globalisation, MSc in Global Europe: Culture and Conflict, MSc in History of International Relations, MSc in International Relations (Research), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

This is a capped course (30 students). Students are required to obtain permission from the teaching department to take this course.

**Course content:** This course is in two parts. The first will explore the transformation of a spatial direction into a sociopolitical concept and ideal, in other words the historical emergence of something that we know as ‘the West’. The second part of the course will explore the role that concept has played in narratives of modernity and progress that have defined the postcolonial world. The goal is not only to understand ‘the West’ as a concept, but to understand how, in the context of colonialism and global hierarchies, that concept continues to position a particular geopolitical space in relation to ‘the Rest’. The course will begin by examining ‘the West’ as a discursive concept that comes to signal a particular timespace, referring to a group of countries in Western Europe as the future of ‘the Rest’. In this sense, a ‘modern’ future becomes conceptually entangled with the politics and culture of the West and is often understood in the language of Westernisation. Over the course of the twentieth century, this has become most obvious in the ‘transatlantic alliance’ that incorporates the U.S. into this geohistorical imaginary.
and national levels.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Within these sessions the format will vary between lectures, seminar discussion and student presentations/projects.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** One 1,500 word assignment.

**Assessment:** Essay (100%, 5000 words) in the LT.

---

**EU431 Half Unit Not available in 2017/18**

**European Integration from a Global Perspective**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Mareike Kleine COW 1.01

**Availability:** This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in International Relations (Research), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Advanced knowledge of European institutions and of theories of international cooperation and Comparative Politics.

**Course content:** Distances on a world scale are shrinking through the emergence and thickening of networks of connection - a process commonly referred to as globalization. The process is far from complete with some regions like Europe being highly integrated and other regions lagging behind. Partial but increasing globalization produces discord and requires effective governance beyond the nation-state, that is, processes and institutions, that guide and constrain the collective activities of groups. How does governance work? How can we design effective institutions? How do we ensure that these institutions remain legitimate? Is the European Union at the vanguard of globalization and a model that other regions or the world, as a whole, will come to adopt? Can Europe, in turn, learn from alternative forms of governance on the regional or global scale? The course engages recent positive and normative scholarship in European Studies, International Relations, Comparative Politics, and Political Theory on governance in and beyond Europe. Putting European integration in this global and comparative perspective promises to illuminate current public and scholarly debates about the depth, the geographic scale, the legitimacy and the future of European integration. We study these questions by posing four issues: the nature of globalization; institutions and processes; actors and scope; and democracy and distribution. For each of them, European integration will serve as the principal case study to be discussed in light of developments in the rest of the world.

**Teaching:** 20 hours of seminars in the LT. 4 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** 1) A research proposal (due in week 5) of not more than 1,000 words for the long essay. The proposal is worked out in close cooperation with the seminar teacher. 2) Seven short memos based on the assigned reading. This memo should not be more than one page of bullet points.

---

**Assessment:** Other (90%) and other (10%).

One 4,000-5,000 word research paper to be submitted by the end of the LT (90%)

One critical comment of no more than 500 words on the assigned readings (10%)

---

**EU432 Half Unit**

**The Philosophy of Europe**

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Simon Glendinning COW 2.12

**Availability:** This course is available on the CEMS, MBA Exchange, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

This Course is available with permission as an outside option to students to other programmes where regulations permit.

**Pre-requisites:** None

**Course content:** In this course we will read and discuss texts that drew the history of Europe into relation with philosophy. In its most classical form the assertion of this relation belongs to an understanding of Europe's history as inseparable from the project of a life predicated on reason. Europe, insofar as its cultural identity is caught up with the Greek ideal of scientific rationality, is not simply the place where philosophy was first elaborated and developed. On the contrary, Europe first arises as a place only in and through the elaboration and development of philosophy. Of course, philosophy is, historically speaking, a European phenomenon - although one which concerns above all the question, in principle open to anyone, of what it is to be a human being as such. Equally, however, Europe is itself a philosophical phenomenon - its identity inseparable from the idea of a project that concerns rational ascension as such, and hence humanity as a whole.

The idea that Europe has a world-wide significance in virtue of its relation to philosophical thought is strikingly expressed in Kant's prediction of "a great political body of the future" emerging in Europe, a kind of league of nations, that will probably "legislate" - that is, at least serve as a guiding example - for all humanity. Indeed, the global "cosmopolitan existence" posited by Kant as the final end of world history is not just a philosopher's idea of humanity's collective political destiny: the very idea of a global human community is essentially philosophical. On this view, the (particular) history of the peoples of "our continent" has a relation to the (universal) destiny - the liberation or emancipation - of humanity world-wide. This is not simply because of the hegemonic political and economic ambitions of imperialist Europeans, but the world-wide movement of a cosmopolitan and humanist culture.

Starting with Kant's classic essay on "Idea for a Universal History with a Cosmopolitan Purpose" we will turn to the way in which Europe is understood and elaborated within the post-Kantian tradition: in Hegel, Marx, Husserl, Valéry, Berlin, Fukuyama, and Derrida.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Each seminar will be based around the discussion of a short essay or text which everyone in the class will be expected to have read. The texts will typically be available either online or as a photocopy. Students on this course will have a reading week in Week 6, in line
with departmental policy.

**Formative coursework:** One essay of 2,000 words.

**Indicative reading:** Immanuel Kant 'Idea of Universal History with a Cosmopolitan Purpose', in Political Writings; Edmund Husserl 'The Vienna Lecture', in The Crisis of European Sciences and Transcendental Phenomenology; Paul Valéry, in History and Politics; Jacques Derrida, 'Of the Humanities and the Philosophical Discipline. The right to philosophy from the cosmopolitical point of view (the example of an international institution)' (online).

**Assessment:** Take home exam (100%) in the ST.

---

**EU434 Half Unit Not available in 2017/18 The Political Economy of Southeast Europe**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Vassilis Monastiriotis COW 2.05

**Availability:** This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Local Economic Development, MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** A basic understanding of economics is desirable but not necessary.

**Course content:** This course examines the processes of transition, regional cooperation and European association in the SEE region and draws on theories of regionalism, economic integration and transition to assess the extent and prospects of regional cooperation and political-economic development in Southeast Europe. It explores the economic structures and political constraints of the region, the coordination of policies at the European and regional levels and the role of the EU in fostering regional cooperation and transition; developments in macro-economic performance with emphasis on trade, investment and growth; the main labour market and social-policy problems and the emerging agenda of structural reforms; the impact of the crisis and the political and economic challenges lying ahead for the countries in the region and for the region as a whole. Attention is paid to Greece as the historical EU partner in SE Europe and, more recently, as a source of instability in the region. The course relates the above issues to the question of policy harmonisation and Europeanisation of the region, in relation to the current and future waves of enlargement of the EU.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** One 1,500 word essay, a group presentation, various weekly in-class activities (briefing notes, multiple choice quizzes etc) and a mock-exam paper.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EU435 Half Unit History and Theory of European Integration**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Spyridon Economides

**Availability:** This course is compulsory on the MSc in EU Politics and MSc in EU Politics (LSE and Sciences Po). The course is available on the CEMS Exchange, MBA Exchange, MSc in European Studies (Research), MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in International Relations (Research) and MSc in International Relations Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course is an introduction to the causes and nature of European integration. The topic is presented from a historical, social scientific and normative perspective: We critically examine various theories of, and current debates about European integration by studying the process of integration, its effect on EU member states and third actors, the EU’s constitutional character and the crises it is facing. The first part of the course analyses different stages in the integration process, asking why and how member states surrendered more and more power to European institutions. The second part discusses a number of big questions that this transfer of power raises. For example, what are the consequences of the single market and currency on the relationship between states and market in the EU? What are the consequences of political and legal integration for the separation of powers at the national level? What is the source and nature of the EU’s power in world politics? We conclude by reflecting on the debate about Euroskepticism, the EU’s perceived democratic deficit and the future of European integration. At the end of this course you will have gained an overview and better understanding of the history of European integration, integration theories and their intellectual history, the EU’s political system, and current public and scholarly debates about EU politics.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Two 2,000-word essays are set and marked by the seminar teacher.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EU437 Half Unit Europe Beyond Modernity**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Simon Glendinning COW 2.12

**Availability:** This course is available on the CEMS Exchange, MBA Exchange, MSc in EU Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in International Relations (Research), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course engages with the deepest roots
and fundamental trajectory of the contemporary European world as identified by three major thinkers of the nineteenth and twentieth centuries: Nietzsche, Heidegger and Derrida. Taking up and problematising the claim made by Emmanuel Levinas that "Europe is the Bible and the Greeks", the course explores the idea that Europe today is a cultural and political movement in construction, a movement beyond its own modern self-understanding which might be summarised by Nietzsche's madman's pronouncement of the death of God. As Derrida, a leading theorist of this conception puts it, "one should, more prudently, say "Greek, Christian and beyond" to conceive the formation of the contemporary European heritage. This suggestion not only makes it possible to acknowledge many other important cultural sources in this heritage (Judaic and Islamic at the very least) but also, and above all, directs us towards what, in Nietzsche's wake, can be identified as "the passage beyond" - the movement in which the European tradition "tends of itself to break with itself". There is no suggestion that the heritage and future of Europe are disconnected in this "passage beyond", and none of the authors explored in this course seek to reject the European heritage or want simply to destroy it. On the contrary, and always in its name, the attempt is made in their writings to effect a renewal of the European world which could propel it in a new direction beyond Enlightenment modernity. The key themes in this renewal will be explored in relation to a "beyond modernity" condition becoming visible in philosophy, politics, technology and religion.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Two 2,000 word essays; seminar presentations.

Indicative reading: Friedrich Nietzsche, Beyond Good and Evil; Martin Heidegger, The Question Concerning Technology; Jacques Derrida, "Faith and Knowledge" in Religion (eds Derrida and Vattimo); Robert Pippin, Modernism as a Philosophical Problem.

Assessment: Take home exam (100%) in the ST.

**EU439 Half Unit**

**Political and Fiscal Integration and Disintegration in EU Member States**

This information is for the 2017/18 session.

Teacher responsible: Dr Joan Costa-Font OLD 2.37

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Local Economic Development, MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy, MSc in Social Policy (European and Comparative Social Policy), MSc in Urban Policy (LSE and Sciences Po) and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.

Course content: With the expansion of processes of economic integration and disintegration in the European Union the traditional economic role of the state requires redefinition. Monolithic states progressively become more flexible structures to respond to constituents demands. This is especially the case of those policy areas that are highly relevant for European citizens such as language, culture and welfare. This course attempts to uses the theory of public choice, fiscal federalism and social economics to describe these phenomena and its detailed effects on the institutional structure of European Union member states and the European Union as a whole. Given the European Union institutional structure is moving towards some form of federalism, the course discusses how theories of political and fiscal federalism can help to understand these phenomena. Furthermore, the constitutional design of the European Union brings up a large set of theoretical questions on the institutional design to be addressed from the perspective of constitutional political economy. The course covers the political economy economy of both fiscal and political decentralisation process with a European perspective, and particularly it examines inter-jurisdictional competition between different levels of government. Finally it examines the social economy that underpins the formation of a European policy, that is, economics approaches to 'language', 'culture', 'ideas', and 'values' and finally 'identity'. Topics include: Formal and Informal Institutional design. Club goods and Public Goods. Political and Fiscal Federalism, Race to the Bottom, Vertical and Horizontal Competition. Economics of language, Culture and the Welfare state.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Two essays of up to 1,500 words each

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

**EU440 Half Unit**

**The Balkans in Europe: Transition, Democratisation, Integration**

This information is for the 2017/18 session.

Teacher responsible: Dr Spyridon Economides COW 2.07 and Dr Vassilis Monastiriotis COW 2.05

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Conflict Studies, MSc in EU Policies, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: None

Course content: An examination of South East Europe from a politics, political economy and international relations perspective, with particular emphasis on post-1989 developments. Topics include: The Balkans in Europe and Historical Legacies; the Dissolution of Yugoslavia; The Western Balkans and economic transition; the EU and the Balkans: regionalism and economic integration, Democratisation, state-building and Europeanisation in the Western Balkans; Conditionality and the mechanics of accession, the SEE2020 strategy and the structural reforms agenda; the Balkans and other external actors.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Two 1,500 word essays.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

EU443  Half Unit
European Models of Capitalism
This information is for the 2017/18 session.
Teacher responsible: Dr Robert Hancke COW 2.09
Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in China in Comparative Perspective, MSc in Global Politics, MSc in Global Politics, MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Public Policy and Administration (Research) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students on the MSc in Global Politics who wish to take this course must seek approval from the teachers responsible.

Students are required to obtain permission from the teaching department to take this course.

Course content: The course consists of three parts. In the first part we will discuss the basic arguments and methodological considerations of the Varieties of Capitalism literature and conduct a comparative analysis of the core issue areas in the political economy of contemporary capitalism: how capital, labour and product markets are structured. The second part will build on these thematic treatments to discuss the structure of and dynamics of the main Western, Southern and Central European models of capitalism. In the final part of the course, we will examine policy areas from a comparative capitalism perspective.

Teaching: 1 hour of lectures and 20 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Assessment: Essay (100%, 5000 words) in the LT.

EU446  Half Unit
The Political Economy of European Monetary Integration
This information is for the 2017/18 session.
Teacher responsible: Dr Waltraud Schelkle COW 1.06
Availability: This course is available on the CEMS MIM, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (CEMS Exchange), MBA Exchange, MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A basic understanding of economic concepts is essential which is why the auditing of the EU409 Moodle course is highly recommended.

Course content: The purpose of this course is to analyse the process of European monetary integration and its implications for the institutions of economic governance in the EU. There will be a strong emphasis on using the experience of the financial and economic crises since 2008 as a source of evidence to assess both the performance of EMU and the theories about monetary integration. We consider the political and economic rationale for the establishment of EMU. We study the theory of optimal currency areas and its relevance today. Indicative questions addressed in this course include: how and why did the EU develop the EMU project?; did economic theories prepare us for the Euro area crisis of 2010-12?; what are the challenges for member states in adjusting to the discipline of the ‘Euro-zone’?; how does the Euro affect the ability of member states to adjust to periods of crisis and to external shocks?; is the sovereign debt crisis of 2010 indicative of imbalances within the EU?; how do the flaws in its institutional design? What are the collective action problems that explain the incompleteness of the monetary union? What is the role of the ECB in this process? Is a fiscal union necessary to make a monetary union sustainable in the long run?

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One 1,500-word essay and one group essay of up to 3,000 words.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

EU447  Half Unit
Democracy, Ideology and the European State
This information is for the 2017/18 session.
Teacher responsible: Dr Jonathan White COW 1.09
Availability: This course is available on the MSc in Comparative Politics, MSc in Comparative Politics, MSc in European Studies (Research), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and MSc in Political Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course investigates various ways in which the State's authority to act has been undermined in Europe, both ideologically and institutionally, in the modern period. It looks at how the State has been used to give expression to the democratic principle, and the ways this has been undermined or rejected.
The module aims to provide students with a deep analytical understanding of the changing role of the State in European society. There will be three parts: A) Theorising the political (including sessions on: the State, collective self-rule and the liberal-democratic compromise; ideology, public opinion and the idea of democracy), B) Democracy in post-War Europe (parties and the structuring of political conflict; the emergence and crisis of the Welfare State, 1968, 1989 and the rediscovery of civil society), and C) Contemporary European trends (ideological convergence and the politics of risk and security, political participation and populism; the challenge of transnational integration: ‘governance’, output legitimacy and the diffusion of State power). The course will conclude with an overview on possible trajectories to come, under the heading ‘post-ideological, post-democratic and post-statal? - Europe today and beyond.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** One 2,500 word unassessed essay

**Indicative reading:**

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EU449** Half Unit   Not available in 2017/18

**Emerging Markets, Political Transition and Economic Development in Central and Eastern Europe**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Abigail Innes COW 2.10

**Availability:** This course is available on the MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy and Master of Public Administration. This course is not available as an outside option.

**Pre-requisites:** EU409 Basic Economic Concepts for European Political Economy or equivalent.

**Course content:** This course applies concepts of political economy, economics and political science to its investigation of Central and Eastern Europe’s development from post-communist transition, through EU accession to their condition as highly open, FDI-dependent emerging markets within the European Single Market. Placing the region in the comparative context of both the EU15 and comparable emerging markets, the course investigates the ongoing challenges of political and institutional consolidation and the developmental consequences of the liberalization and the consumption and FDI-led growth model of the 1990s/2000s. The course examines the emerging strengths and persistent weaknesses of these political economies and considers their implications for the region’s emerging varieties of capitalism, relative international competitiveness and political stability. It considers the comparative political economy of the ‘middle income trap’, corruption and populism. The lectures aim to provide analytical frameworks and an overview of the major research findings and debates about systemic transformation, the influence of EU accession and the consolidation of democratic capitalism. The seminars link key concepts with the empirical evidence arising from comparative cases.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Two essays.

**Indicative reading:**

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EU450** Engaging with Europe: Professional Skills

This information is for the 2017/18 session.

**Teacher responsible:** Dr Jennifer Jackson Preece COW 2.06

**Availability:** This course is compulsory on the MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in European Studies (Research), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is not available as an outside option.

**Course content:** This innovative programme introduces European Institute students to professional skills for a successful career that engages with Europe. The course combines guest lectures from top professionals with hands on skills training workshops. The course helps ensure that European Institute students leave LSE with a competitive CV and connections with alumni and professional colleagues both in Europe and worldwide.

**Teaching:** 4 hours and 30 minutes of lectures and 12 hours of workshops in the MT. 4 hours and 30 minutes of lectures and 12 hours of workshops in the LT.

The lecture timetable will be circulated at the start of each term, based on availability of speakers and demand for topics.

**Assessment:** There is no examination for this course.
EU452  Half Unit  Political Economy of Europe

This information is for the 2017/18 session.

Teacher responsible: Dr Robert Hancke

Availability: This course is compulsory on the MPA in European Public and Economic Policy, MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo) and MSc in European Studies (Research). This course is not available as an outside option.

Course content: This course is the core course on the MSc Political Economy of Europe. It tries to understand how the relation between state and economy in both Western Europe and Central and Eastern Europe has evolved over the post-war period and through this prism examine the politics and economics of the formation, governance and continuing development (deepening and widening) of the EU. We look at how capitalism and democracy were reconciled in different socio-economic models of post-war Europe and what role European integration played in their evolution. Recent and past crises of economic and political integration will be analysed as well as the attempts to complete and reform the existing union.

Key debates in this regard include state-economy relations, democracy and welfare; economic systems, stability and change of policy paradigms; state competencies, policy delegation and theories of integration; EU enlargement and conditionality; economic governance in the EU (with emphasis on the Single Market and EMU); the political economy of policy-making in the EU and its interaction with Member State preferences and capacities; crisis and reform in historical perspective and the growth & reform agendas post-crisis. The course aims to provide students with both an analytical understanding of, and a systematic treatment of empirical issues related to, the evolution of the European political economy.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6 of each term, in line with departmental policy.

Formative coursework: Two individual essays, one group essay plus a mock examination.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

EU455  Half Unit  Concepts in Political Economy

This information is for the 2017/18 session.

Teacher responsible: Dr Robert Hancke

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in European Social Policy, MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy, MSc in Social Policy (European and Comparative Social Policy) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: None

Course content: The aim of the course is to apply concepts of economics and political economy to social policies in European welfare states. The lectures establish the theoretical context, summarise the findings of quantitative case studies and discuss European experience in the context of broader international experience. The seminars will further develop political-economic concepts, such as market and government failure, and apply them to qualitative case studies of welfare state arrangements in member states, considering in particular the role of social policy legislation and coordination at the EU level. The course will provide students with the conceptual and empirical background to enable them to answer questions such as: What does economic theory and political economy tell us about the design of welfare states? How do social policies in European welfare states reconcile equity and efficiency? What drives or stalls reform dynamics in member states? Is the EU gradually developing into a social union, through international mobility and the portability of social entitlements?

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures and 3 hours of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One individual formative essay of 1,500 words.

Assessment: Exam (75%, duration: 2 hours) in the main exam period.

Essay (25%, 2000 words) in the MT.

EU453  Half Unit  The Political Economy of European Welfare States

This information is for the 2017/18 session.

Teacher responsible: Dr Waltraud Schelkle

Availability: This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in European Social Policy, MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy, MSc in Social Policy (European and Comparative Social Policy) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: None

Course content: The aim of the course is to engage students with relevant concepts in political economy and their main applications in European studies. The course will anchor the degree in historical and current debates about the nature of political economy, the role of institutions and the pros and cons of different methodological approaches taken by political economists. The aim of the lectures is to outline key political economy concepts and their theoretical background while the seminars explore the uses and limits of the respective concepts through the systematic analysis of relevant research papers.

This course is particularly recommended for students who wish to pursue a research path in political economy. Among the topics covered are: concepts and theories in political economy; the role of ideas, interests and institutions; the tension between democracy and capitalism; rational choice versus behavioural political economy; two-level games; delegation to
independent agents, accountability and legitimacy in policymaking, veto players and joint-decision traps; representation and partisanship.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT: 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** One presentation per student. Two formative essays, each of 1,500 words. One of these essays will consist of the analysis of a research paper.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EU457  Half Unit**

**Culture and Security in Global Politics**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Jennifer Jackson-Preece COW 2.06

**Availability:** This course is compulsory on the MSc in Global Europe: Culture and Conflict and MSc in Global Europe: Culture and Conflict (LSE & Sciences Po). This course is available on the MSc in European Studies, MSc in Global Politics and MSc in Human Rights. This course is available with permission on the MSc in Conflict Studies, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Human Rights and MSc in International Migration and Public Policy. This course is not available as an outside option.

This is a capped course (30 students). Students are required to obtain permission from the teaching department to take this course.

**Course content:** This course will consider problems and practices of ethnic diversity in a world of nation-states including the rights of minorities and migrants, self-determination, ethnic cleansing and genocide, humanitarian intervention, and the role of the media in (de)constructing narratives of difference. In analysing these issues, particular attention will be paid to processes of securitization, desecuritization and security management.

**Teaching:** 15 hours of lectures and 10 hours of seminars in the MT. 3 hours of seminars in the LT.

Students on this course will have a reading week in Week 6 of MT but in LT there will be seminars scheduled.

**Formative coursework:** Topic proposal (500 words) (due Week 4 MT) and research proposal (2000 words) (due Week 10 MT).

**Assessment:** Essay (50%, 2500 words) and other (50%) in the LT.

---

**EU463  Half Unit**

**European Human Rights Law**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Kai Moller NAB 7.01

**Availability:** This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po) and Master of Public Administration.

This course is not available as an outside option.

This is a capped course (15 students). Students are required to obtain permission from the teaching department to take this course.

**Pre-requisites:** No prior knowledge of law in general or human rights law in particular is required.

**Course content:** The European Convention on Human Rights is an international treaty which was drafted shortly after the end of WW II and came into force in 1953. One of its remarkable features is that individuals who think that their human rights have been violated can take their case to the European Court of Human Rights in Strasbourg, which has the final authority on the interpretation of the Convention. In the past half century, the Strasbourg court has developed a comprehensive jurisprudence on human rights and has become one of the most important and most highly respected human rights courts in the world. This course will offer an introduction to the law of the Convention, in particular by studying and critically analysing the case law on certain important rights. In the final sessions we will take a more abstract perspective and study cutting-edge scholarship on the theory of European human rights law. Topics include: An introduction to the European Convention. Positive and negative obligations in Europe and the U.S and South Africa. The right to freedom of religion and the issues of religious dress (in particular: headscarves and burqas) and religious symbols (in particular:

---

**EU458  Half Unit**

**Public Policy and Cultural Narratives in a Global Europe**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Jennifer Jackson-Preece COW 2.06

**Availability:** This course is available on the MSc in Conflict Studies, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Human Rights and MSc in International Migration and Public Policy. This course is not available as an outside option.

This is a capped course (20 students). Students are required to obtain permission from the teaching department to take this course.

**Course content:** This course is concerned with cultural politics in contemporary states. In Europe today there is a growing rejection of multiculturalism and a reaffirmation of cultural cohesion and shared identity. Taking a narrative approach, this course will examine competing policy responses towards minorities and migrants. Europe will be a major focus. Nevertheless, students with interests and expertise outside of Europe should feel free to include this wider perspective in their seminar discussions and assignments.

**Teaching:** 12 hours of lectures and 12 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are required to submit one policy review and one video proposal.

**Assessment:** Essay (50%, 2500 words) and other (50%) in the LT.
crucifixes in classrooms). The right to freedom of expression and the protection of religious feelings (e.g. the Danish cartoons; Charlie Hebdo) and hate speech (expression that attacks a group on the basis of a characteristic such as race or sexual orientation). The right to private life and the protection of sexual liberty (gay, sex, sado-masochism, and incest). The right to vote and freedom of association, ‘militant democracy’, and the issues of banning political parties or preventing individual candidates from standing for election. Freedom from torture and inhuman or degrading treatment and the issue of deportation and extradition. Theories of European human rights law.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** One 2,000 word essay.

**Indicative reading:** There is no formal textbook, but interested students may find the following book helpful: Harris, O’Boyle and Warbrick, Law of the European Convention on Human Rights, 3rd ed, OUP 2015.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**EU464** Half Unit  
**International Migration: EU Policies and Politics**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Eiko Thielemann CON 3.14

**Availability:** This course is available on the MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in International Migration and Public Policy, MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

This is a capped course (30 students). Students are required to obtain permission from the teaching department to take this course.

**Pre-requisites:** A good knowledge of EU institutions and EU policymaking is required.

**Course content:** This course examines the management of ‘unwanted migration’ to Europe. In particular, it deals with the European Union’s governance of migratory flows of migrants such as asylum seekers and irregular migrants whose immigration status often seek to prevent or discourage. As the willingness of sovereign states to advance global governance in this area remains very low and unilateral national policy-responses are increasingly seen as limited in their effectiveness, interest in regional governance has grown. The European Union is without any doubt the front-runner in developing such regional initiatives. The course provides an in-depth treatment of the origins, evolution and major policy issues within this policy field which has been the fastest growing EU policy area since the 1990s. The course will normally focus on the following three policy areas: (1) the emerging EU asylum and refugee determination system; (2) external border control (FRONTEX), detention and deportation; and (3) responsibility allocation (the ‘Dublin system’), burden-sharing and solidarity.

Those taking the course will learn how to systematically examine the origins and impact of EU policy instruments and judgments by the European Courts. After completion, students will be able to answer questions such as: Why have Member States intensified cooperating on asylum and immigration issues? What is the relationship between international human rights law and EU law? Given the influence of the EU’s supranational institutions, do the Member States still effectively control policies on asylum and immigration? Has EU policy-making will lead to a convergence of ‘lowest common denominator’ policies? For their assessment, students will have the opportunity to conduct a case-study analysis, allowing them to apply the analytical skills developed in this course by analysing a specific EU policy of their choice.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** A prospectus for the assessed research project (case study).

**Assessment:** Project (100%, 5000 words) in the ST. The Project takes the form of a research project (policy case study).

---

**EU465**  
**Research Methods and Design in EU Politics**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Waltraud Schelkle

**Availability:** This course is compulsory on the MSc in EU Politics and MSc in EU Politics (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The purpose of this course is to acquaint students with general academic skills, to prepare them for the development of a research design and to introduce a range of research methods.

**Teaching:** 4 hours of lectures and 3 hours of workshops in the MT. 4 hours of lectures and 3 hours of workshops in the LT.

A total of 4 hours of lectures in both MT and LT. Two 1.5 hour workshops in Reading week 6 of MT and LT.

**Assessment:** This course is not assessed.

---

**EU473** Half Unit  
**Not available in 2017/18**

**Informal Governance**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Mareike Kleine COW 1.01

**Availability:** This course is available on the MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in European Studies (Research) and MSc in Global Politics. This course is available as an outside option to students on other programmes where regulations permit, subject to obtaining permission from the teaching department to take this course.

This is a capped course (30 students). Students are required to obtain permission from the teaching department to take this course.

**Pre-requisites:** A good knowledge of EU institutions and EU policymaking is required.

**Course content:** This course examines the management of ‘unwanted migration’ to Europe. In particular, it deals with the European Union’s governance of migratory flows of migrants such as asylum seekers and irregular migrants whose immigration status often seek to prevent or discourage. As the willingness of sovereign states to advance global governance in this area remains very low and unilateral national policy-responses are increasingly seen as limited in their effectiveness, interest in regional governance has grown. The European Union is without any doubt the front-runner in developing such regional initiatives. The course provides an in-depth treatment of the origins, evolution and major policy issues within this policy field which has been the fastest growing EU policy area since the 1990s. The course will normally focus on the following three policy areas: (1) the emerging EU asylum and refugee determination system; (2) external border control (FRONTEX), detention and deportation; and (3) responsibility allocation (the ‘Dublin system’), burden-sharing and solidarity.

Those taking the course will learn how to systematically examine the origins and impact of EU policy instruments and judgments by the European Courts. After completion, students will be able to answer questions such as: Why have Member States intensified cooperating on asylum and immigration issues? What is the relationship between international human rights law and EU law? Given the influence of the EU’s supranational institutions, do the Member States still effectively control policies on asylum and immigration? Has EU policy-making will lead to a convergence of ‘lowest common denominator’ policies? For their assessment, students will have the opportunity to conduct a case-study analysis, allowing them to apply the analytical skills developed in this course by analysing a specific EU policy of their choice.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** A prospectus for the assessed research project (case study).

**Assessment:** Project (100%, 5000 words) in the ST. The Project takes the form of a research project (policy case study).
Obtain permission from the teaching department to take this course.

**Pre-requisites:** Students should have some background knowledge about the European Union's institutions.

**Course content:** Informality might be the rule rather than the exception in politics. Behind the scenes and alongside official procedures seems to be where many important decisions are being made. In other words, it codified rules are often incomplete, if not entirely misleading, proxies for the game that states and bureaucrats really play. However, many scholars ignore actual decision-making practices, even or especially if these do not quite conform to the formal rules. As a result, we know little about why decision makers sometimes stick to formal rules and at other times seek a way around them. Where and why do these practices of informal governance exist? Why are they more prevalent in some institutional settings and issue areas than in others? Is informal governance a good or a bad thing? This course is about informal governance: the concept, its empirical manifestation, explanations and normative implications. After a review of a burgeoning literature in international relations, comparative politics, and EU studies, we take a closer look at the political system of the EU and other international organizations to examine if and why governments and bureaucrats sometimes follow, and at other times depart from the formal rules. The final weeks discuss how the concept of informal governance sheds new light on debates about transparency and the democratic deficit in European and global governance.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce one draft and one final research design by week 8 of the LT.

**Indicative reading:**

**Assessment:** Research project (90%) in the ST.

- Class participation (10%) in the LT.
- Successful participation includes active engagement in class and the production of 8 one-page memos on the weekly assigned readings.

**Not available in 2017/18**  
**Contested Ideas in EU Law and Government**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Jan Komarek COW 1.04

**Availability:** This course is available on the MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit. This is a capped course (15 students). Students are required to obtain permission from the teaching department to take this course.

**Course content:** When politicians or public intellectuals discuss European integration, they often use terms that have a certain meaning in EU law. Very rarely, however, they would be conscious of this, which contributes to many misunderstandings. The course will examine selected foundational concepts of EU law and government and show how different perspectives (those of constitutional and political theory, but also political economy and political science) inform their meaning – in law and beyond it. The topics covered will include state, sovereignty, federalism, democracy, fundamental rights, the rule of law, citizenship, market, common currency, justice, solidarity and equality.

The primary entry point will be law and the foundational provisions of the EU treaties, which contain many contested ideas to be covered by the course. It can therefore attract students in the European Institute's MSc programme interested in learning more about EU law in its political and social context. The range of materials we use includes scholarly literature, public interventions, EU legislation and the case law of European courts. Students will therefore get acquainted with the whole variety of sources used in work in different fields and professions related to Europe.

**Teaching:** 20 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 project in the LT.

**Indicative reading:**

**Assessment:** Essay (100%, 6000 words) in the ST.

---

**EU475**  
**Half Unit**  
**Muslims in Europe**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Esra Ozyurek Baer COW 2.08

**Availability:** This course is available on the MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Empires, Colonialism and Globalisation, MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in History of International Relations, MSc in International Migration and Public Policy, MSc in Social Anthropology (Religion in the Contemporary World) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Muslims are a well established minority in Europe, constituting approximately 5% of the European population. This course embraces an anthropological approach focuses on diverse experiences of Muslims in different West European countries, such as the UK, Germany, France where they came as migrants, and in East European countries, such as Bulgaria and Bosnia, where they are indigenous populations. We will especially focus on how Muslim life is heavily shaped by questions fundamental to European politics such as secularism, citizenship, racism, and gender relations. The last section of the class will be devoted to transnational connections Muslim communities in Europe have with Muslim communities outside Europe. During the course the students will do an interview with a European Muslim that focuses...
on one of the issues covered during the course and prepare a final research paper using that that interview as a case study.

**Teaching:** 20 hours of seminars in the LT. 1 hour of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Preparatory interview with another student in class and analysis of the interview. Poster in preparation for the research paper.

**Assessment:** Coursework (60%, 3000 words) and research project (40%) in the LT.

---

**EU477 Half Unit**

**Labour Markets and the Political Economy of Employment in Europe**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Vassilis Monastiriotis COW 2.05

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in European Studies (Research), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Local Economic Development, MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** A solid background in economics and knowledge of some basic calculus is required. Attendance of EU409 ‘Basic Economic Concepts for Political Economy’ is highly recommended irrespective of background.

**Course content:** The course offers an analytical treatment of key labour market issues, from unemployment and wage determination to skill formation and labour market regulation, within the context of processes of integration and governance in Europe. To do so, it combines a Labour Economics perspective on imperfect labour markets with a Political Economy perspective on EU institutions and policies. In the lectures, we address analytically policy-making questions on topics such as minimum wages, unions and collective bargaining, unemployment benefits, employment protection legislation, regulation of working hours, migration, and others. These topics are then linked in the seminars to the European policy-making context, and the challenges that this raises for labour market regulation and performance at the national and European levels. Examples of this include: EMU, optimum currency area theory, wage flexibility and internal devaluation; structural unemployment, labour market reforms, the European Employment Strategy and flexicurity; skills shortages, activation policies, European education policy and labour mobility; and others.

**Teaching:** 10 hours of lectures, 15 hours of seminars and 2 hours of workshops in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.

The course will have 10-1-hour lectures and 1.5-hour seminars in weeks 1-5 and 7-11. In week 6 students will make poster presentations on a preliminary draft of their group essay.

**Formative coursework:** Students will be expected to produce 6 problem sets and 2 other pieces of coursework in the LT and 1 presentation in the Week 6.

Formative assessment comprises a weekly set of problem sets / exercises; brief oral presentations on pre-allocated readings in the seminars; a poster presentation on a group project during the week-6 workshop; and submission of a draft / extended outline of the group project (following the poster presentation).

**EU476 Half Unit**

**Turkey and Europe**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Esra Ozyurek Baer COW 2.08

**Availability:** This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Local Economic Development, MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** None

**Course content:** The Ottoman Empire and modern Turkey have been an integral part of European power dynamics since the early modern period. This course aims to introduce the foundations of Modern Turkey and major social, political, and historical dynamics that shape her relationship to Europe. These include questions of secularism and religion; religious and ethnic minorities; role of the state; human rights; democracy; legal reforms; and Turkish immigrants in Europe. Students will be required to follow media reports on Turkey and be prepared to make a presentation about the background of an issue that is covered lately.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** A five minute presentation on a recent development students choose with the approval of the instructor. Mock Exam

**Assessment:** Exam (60%, duration: 2 hours) in the main exam period.

Essay (40%, 3000 words) in the LT.

Assessment: Exam (50%, duration: 2 hours) in the main exam period.

Project (50%, 4000 words) in the LT. Summative assessment comprises a group project (50% of the final mark; approx. 4,000 words, excluding tables and appendices), due one week after the end of Lent Term, and a two-hour exam in June (50% of the final mark, comprising one essay question and four short-answer questions).

EU478 Half Unit
The Culture of European Politics

This information is for the 2017/18 session.

Teacher responsible: Prof Simon Glendinning

Availability: This course is compulsory on the MSc in Global Europe: Culture and Conflict and MSc in Global Europe: Culture and Conflict (LSE & Sciences Po). This course is available on the CEMS Exchange, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in European Studies (Research), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Over the last three hundred years European societies have undergone a fundamental changeover from a traditional form, with a largely self-sufficient agrarian economy, into a modern, industrial and technological form based on international trade and tele-communication. This revolution developed in the seventeenth century first and only in Europe, but today it has spread worldwide and increasingly dominates the entire planet. This course explores one the basic dimensions of this unprecedented globalization: the culture of politics. We are used to speaking about globalization as a political-economic phenomenon, but its European origin makes it also an unavoidable cultural one. Europe's predominant cultural form – its double form, both Christian and secular – is not a neutral set-up, and other world cultures, perhaps especially Judaism and Islam, can find themselves alienated from and in revolt against everything that belongs to what might be called the Christianizing of the world. International migration and processes of European integration sharpen these concerns and add new ones. This is the background to our study of the culture of politics.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

There are two mock exam sessions in the Lent Term. The first session is the exam itself, the second session is to provide feedback.

Formative coursework: 2 essays of 2000 words.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

EU479 Half Unit
EU Policy-Making and International Cooperation

This information is for the 2017/18 session.

Teacher responsible: Dr Waltraud Schediwy COW 1.06

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and Master of Public Administration. This course is not available as an outside option.

Pre-requisites: Knowledge of economics at the undergraduate level is required but students get this from other courses in the programme.

Course content: This course introduces students to policy-making in the European Union. The EU is a standard and rule-setter beyond Europe and thus raises relevant questions of governance, sovereignty and integration for other parts of the world. Students learn who in the EU sets the agenda; who decides and how implementation and compliance is enforced. This will be applied to major areas of EU policy-making, such as trade in the Single Market, financial regulation and environmental protection. Presentations by practitioners involved in EU policy-making give students insights into the work of lobbyists, advisors and officials. Teaching is based on interactive seminars. The policy case studies are taught by specialists in a particular policy area and are complemented with group working sessions by the students.

1. Integration and disintegration in Europe
2. Is state sovereignty possible in the 21st century? Two level games in the European Union
3. EU Politics & Policy-making I: Who sets the agenda?
4. EU Politics & Policy-making II: Who decides?
5. EU Politics & Policy-Making III: Implementation and compliance
6. Reading week: formative essay
7. When, where and why are international institutions effective?
8-9. Policy analysis: from international negotiations to EU institutions and common policies
• Environment – new thinking for a good old planet
• Finance – regulatory models for too big and interconnected to fail
• Trade – the rise of global and regional value chains
10. Policy in practice: Life as a political adviser, official or lobbyist (EI Visiting Fellow as guest speaker)
11. Presentation of policy case studies

Teaching: 20 hours of seminars in the MT.

Tutorials/ extended office hours will be available during reading week when students have to prepare their formative essay on why a policy became closely integrated and how this was achieved.

Formative coursework: Formative essay on policy-making in the EU, to be prepared during reading week.

**Assessment:** Essay (100%, 5000 words) in the MT.

Summative essay of 5,000 words, based on group work but to be written up individually after presentation in class and feedback from course teacher.

---

**EU480**  
**Half Unit**  
**Policy-Making in Europe: System Challenges**

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Sara Hagemann

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po) and Master of Public Administration. This course is not available as an outside option. This course has controlled access and priority will be given to students on the MPA in European Public and Economic Policy, followed by all other MPA students.

**Pre-requisites:** Knowledge of economics at the undergraduate level is required but students get this from other courses in the programme.

**Course content:** This course introduces students to policy-making in Europe, with an emphasis on how diversity and interdependence of nation states affect it. The starting point is the tension inherent in capitalist democracies: political power is more equally distributed than economic power. We ask whether interstate and supranational cooperation attenuate or aggravate this tension in its various guises. A number of crises provide a lens through which students will look at the robustness of cooperative institutions and the repercussions on national democracies.

Teaching is based on interactive seminars. Lecture elements are complemented with group work by the students on different country cases. Panel discussions, by practitioners and by students, give insights into the different perspectives that have to be reconciled in crisis management. Students will organise a summit with stakeholders on two instances of collective crisis management.

**Sessions (indicative):**

1. How can democracy and capitalism be reconciled? European answers in the post-war era
2. Market forces and failures: supranational technocracy to the rescue?
3. Europeanisation in a diverse Union: the limits to governance?
5. Interest representation in the EU [Guest speaker]
6. Reading week: capstone-related work
7. Euro area crisis management: the Troika and national government
8. Populism and nationalism
9. Migration and the security scare [panel discussion of practitioners in the field]
10. Failed and failing states in Europe’s neighbourhood
11. EU crisis management on trial

**Teaching:** 20 hours of seminars in the LT. During reading week, extended assistance for capstone related work is made available.

**Formative coursework:** The formative essay in weeks 4-5 gives students skills in comparative and critical case study design that is relevant for policy evaluation.

**Indicative reading:**

---

**EU481**  
**Half Unit**  
**Not available in 2017/18**  
**The Future: Political Responses to a Challenge**

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Jonathan White COW 1.09

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Politics and MSc in Political Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The future is unknowable, but it can be made intelligible. It raises practical and conceptual problems, as well as reasons for conflict, but also promises to resolve contradictions. This course examines how the future is conceptualised in salient domains of contemporary politics, the implications arising for theory and practice, and the contestable assumptions on which perspectives rely. It investigates the methods by which the future is ordered, anticipated, and factored into the practice of government. The course begins historically, looking at the future as an emerging theme in eighteenth-century European Enlightenment thought, the socio-cultural developments that prompted this, and some of the key features of its thematisation in the high-modern period. It goes on to examine future-oriented ideas, ideologies and practices as they arise in contemporary settings. The three fields of administration, economy and society are considered in turn. Amongst the areas examined are: the changing time horizons of political institutions; risk analysis and emergency planning; state budgeting; debt and accumulation; demographic forecasting; climate change and sustainability; the contested rights of future generations; and the preservation of cultural heritage. The course should provide students with a cross-disciplinary grasp of how present-day public affairs are shaped by the ways the future is conceived and acted upon.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

As with my other courses, I will use the two-hour lecture/ seminar format, leading discussion in the first half and facilitating discussion in the second.

**Formative coursework:** Students will be expected to produce 1 essay and 1 presentation in the LT.

One 2000-word essay, written in response to one of eight questions, made available 24 hours before the submission deadline. Students will receive one-to-one feedback on their class presentation.

**Indicative reading:**

EU484  Half Unit
Europe's Role in Global Migration Governance
This information is for the 2017/18 session.
Teacher responsible: Dr Natascha Zaun
Availability: This course is available on the MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po) and MSc in International Migration and Public Policy. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: Week 1: Why have an external migration policy? The case of Europe
Week 2: Externallising Europe's border I: FRONTEX and shared border protection
Week 3: EU policies on smuggling and trafficking
Week 4: Externallising Europe’s border II: Visa policies as instruments of ‘remote control’
Week 5: The EU’s relation with IO’s such as UNHCR and IOM
Week 6: Reading Week
Week 7: Bilateral readmission agreements with third countries
Week 8: The migration-development nexus in EU external migration policies
Week 9: Mobility Partnerships: An effective tool of external migration governance?
Week 10: Diffusion without cooperation: Norm emulation between regional institutions and courts
Week 11: Europe and global responsibility-sharing in refugee protection

This course provides an overview of Europe’s role in global migration governance. The course will address different aspects in this regard, including the externalisation of EU and European Member States’ migration policies, bilateral and multilateral agreements with third countries, cross-references between regional bodies of integration as well as regional/international courts and Europe’s cooperation with international organisations such as the International Organization for Migration (IOM) and the United Nations High Commissioner for Refugees (UNHCR). Students will be equipped with a variety of theories to analytically assess these areas of European activity, including theoretical frameworks such as venue-shopping, diffusion and securitisation.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

Students will receive written and oral feedback on their formative essays shortly after their submission so they can improve their writing and argumentative skills throughout the course and apply the feedback they have received for the first essay already to the second one. In addition, students will get immediate feedback on media presentations and classroom debates.

Formative coursework: Formative coursework consists in regular (if-weekly) participation in the moodle debate; the submission of two essays of 1,500 words on a given topic, due in weeks 4 and 9; a short news presentation (5 minutes) on a recently published news article related to a topic from the course. One of the formative essays will be a mock take home exam, so students can prepare for their final take-home exam.

EU498  Dissertation
This information is for the 2017/18 session.
Teacher responsible: All teachers of taught courses within the European Institute.
Availability: This course is compulsory on the MSc in EU Politics and MSc in EU Politics (LSE and Sciences Po). This course is not available as an outside option.
Course content: MSc EU Politics and the LSE-Sciences Po Double Degree in European Studies (EU Politics) students are required to write a 10,000-word dissertation on a topic within the field of European politics. Those seeking further guidance on topic selection should approach their Academic Advisor in the first instance. The dissertation need not be an account of original research- in some cases it will rely exclusively on secondary sources- but it should be the product of work done independently by the student. In preparation for the dissertation, students must submit Dissertation Topic Proposal and Approval Forms and a 2,000 word essay. Failure to submit these documents will result in the student not being able to submit the Dissertation. Following the submission of the Dissertation Topic Approval Form, a student will receive notification in writing from the EI's Programmes and Events Office as to whether it has been finally approved or not- a student cannot progress to the submission of the dissertation without such approval. Students are strongly advised to attend the EU465 Research Methods and Design in EU Politics course on how to conduct research and write a dissertation. Detailed information on timing, deadlines and presentation can be found in the European Institute Handbook for Master’s Degree Students.

Teaching: Lectures are scheduled as part of EU465 Research Methods and Design in EU Politics with four hours of lectures in the Michaelmas Term and four hours of lectures in the Lent Term.

Formative coursework: A 2,000 word essay (prospectus) is to be submitted at the start of the Summer Term.
Assessment: Dissertation (100%, 10000 words) post-summer term.
EU499
Dissertation
This information is for the 2017/18 session.
Teacher responsible: All teachers of taught courses within the European Institute.
Availability: This course is compulsory on the MSc in European Studies (Research), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available on the MSc in Global Europe: Culture and Conflict and MSc in Global Europe: Culture and Conflict (LSE & Sciences Po). This course is not available as an outside option.
Course content: Students are required to write a 10,000-word dissertation on a topic within the field of their chosen programme. Those seeking further guidance on topic selection should approach their Academic Advisor in the first instance. The dissertation need not be an account of original research; in some cases it will rely exclusively on secondary sources but it should be the product of work done independently by the student. In preparation for the dissertation, students must submit Dissertation Title, Topic Proposal and Approval Forms and a 2,000 word essay. Failure to submit either document will result in the student not being able to submit the Dissertation. Following the submission of the Dissertation Topic Approval Form, a student will receive notification in writing from the EI’s Programmes and Events Office as to whether it has been finally approved or not - a student cannot progress to the submission of the dissertation without such approval. Students are strongly advised to attend the EU410 Interdisciplinary Research Methods and Design lectures on how to conduct research and write a dissertation. Detailed information on timing, deadlines and presentation can be found in the European Institute Handbook for Master’s Degree Students.
Teaching: Lectures are scheduled as part of EU410 Interdisciplinary Research Methods and Design with five lectures in Michaelmas Term and five lectures in Lent Term (weeks 2, 4, 6, 8 and 10).
Formative coursework: A 2,000 word essay (prospectus) is to be submitted at the start of the Summer Term.
Assessment: Dissertation (100%, 10000 words) post-summer term.

EU4B3
MPA Capstone Project
This information is for the 2017/18 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03
Availability: This course is compulsory on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy and MPA in Social Impact. This course is not available as an outside option.
Course content: Students will undertake a group project (in teams usually of 3 to 6 people) relating to a public policy problem faced by an external organisation. Typical clients include public sector bodies, companies operating in the public management or public policy sector, international organisations or think tanks and NGOs. The group will have from October to March to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem.
Teaching: 7 hours and 30 minutes of seminars in the MT. 3 hours of seminars in the LT.
Teaching comprises seven 1.5 hour Capstone seminars in the MT and LT. These seminars provide guidance on planning, structuring and presenting the Capstone report and the usage of research methods. Students are asked to participate in the Capstone Professional Development exercises designed to support effective and fair group work. Each Capstone group will be allocated a supervisor, who will provide overall guidance on the project’s development and assistance with client liaison. Other members of staff may also advise as required.
Formative coursework: Feedback will be provided on presentations of work-in-progress during MT and LT.
Assessment: Project (100%, 15000 words) in the LT.
The project work is conducted in teams, and the assessment is based on a collective group mark for each component except in exceptional circumstances.
The group mark has three components:
1) 20% of the overall mark is assigned by the client organisation based on a group presentation and a submission of the project report.
2) 50% of the overall mark is given by two academic readers upon submission of the project report; and
3) the final 30% of the overall mark is allocated by the Capstone supervisor on the basis of the group’s performance in terms of (i) scope of the project and project development (including coping with difficulties), (ii) group working and self-management as a team, and (iii) the overall output of the project (10% for each item).
Additionally, each group member must complete the Capstone evaluation and personal reflection exercise. This will be submitted individually and separately from the report.

EU4B4
MPA Dissertation
This information is for the 2017/18 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is not available as an outside option. Students may not take this course and an MPA Policy Paper.
Course content: The aim of this course is to enable students to plan, design and conduct independent substantial research and/or analysis in an area of public policy. MPA students will write a dissertation of no more than 10,000 words on a topic of their choice to be agreed with their Academic Adviser. The dissertation must be concerned with the goal of policy improvement and, at the same time, must contribute to a broader objective of knowledge- and theory-building. The main body of the dissertation should include literature review, method of investigation, results of the analysis, discussion of findings, conclusions and theoretical and policy implications. Dissertations can utilise qualitative and/or quantitative data and draw on primary and/or secondary research.
Teaching: 6 hours of seminars in the MT. 3 hours of seminars in the LT.
Teaching comprises six seminars in the MT and LT. These seminars provide academic and practical guidance on developing a research topic and question; designing an analytical framework;
structuring and presenting policy analysis, and writing policy recommendations. The students’ Academic Adviser will provide advice and guidance on this piece of work.

**Assessment:** Dissertation (90%, 10000 words) in the ST.

Other (10%) in the MT.

1) A 1,500 word dissertation proposal consisting of the title, abstract, research question and hypothesis, justification for research, feasibility of the dissertation topic, an explanation of sources, provisional structure and analytical framework will count for 20% of the overall dissertation mark. Students may change their topic thereafter with the agreement of their Academic Adviser. Students will be given feedback on their proposal.

2) The full dissertation of no more than 10,000 words will account for the remaining 90% of the overall mark.

---

**Half Unit**

**MPA Policy Paper**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Babken Babajanian SAR G.03

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is not available as an outside option.

Students may not take this course and an MPA dissertation.

**Course content:** The aim of the course is to enable students to plan, design and conduct independent analysis in an area of public policy. MPA students will write an individually-authored policy paper of no more than 6,000 words on a topic developed in consultation with their Academic Adviser. The paper will analyse a concrete policy problem in a specific setting and propose an evidence-based solution or course of amelioration. It must be addressed to a non-academic audience and should be clearly and directly written, suitable for consideration by policy-makers. The main body of the paper should include methodology, results of the analysis, discussion of different policy options, conclusions and policy recommendations. The paper must be accompanied by an Executive Summary. Policy papers can utilise qualitative and/or qualitative data and draw on secondary and/or primary research.

**Teaching:** 6 hours of seminars in the MT. 3 hours of seminars in the LT.

Teaching comprises six seminars in the MT and LT. These seminars provide academic and practical guidance on developing the policy paper topic and question, designing analytical frameworks; structuring and presenting policy analysis; and writing policy recommendations. The student’s Academic Adviser will provide advice and guidance on this piece of work.

**Formative coursework:** A policy paper proposal (of no more than 750 words in total) consisting of the title, abstract, research question, justification for analysis, feasibility of the topic, an explanation of sources, structure and analytical framework must be submitted in the MT. Students may only change their topic thereafter with the agreement of their Academic Adviser. Students will be given feedback on their proposal.

**Assessment:** Other (100%) in the ST.

6,000 word policy paper

**FM402**

**Half Unit**

**Financial Risk Analysis**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Yves Nosbusch

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance, MSc in Applicable Mathematics, MSc in Financial Mathematics, MSc in Risk and Finance, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research).

This course is not available as an outside option.

**Pre-requisites:** The course assumes a basic knowledge of finance theory, statistics and mathematics (calculus, linear algebra).

**Course content:** This course aims to provide an overview of the main theoretical concepts underlying the analysis of financial risk and to show how these concepts can be implemented in practice in a variety of contexts. This course shares some topics with FM442 Quantitative Methods in Finance and Risk Analysis. The course will include a selection of:

1. Conceptual foundations: diversification, hedging and their limits
2. Fixed income securities
3. Options and dynamic replication
4. Value at Risk
5. Endogenous risk
6. Ideas from Behavioural Finance
7. Credit risk (ratings based models, structural models, reduced form models)
FM403  Half Unit
Management and Regulation of Risk
This information is for the 2017/18 session.
Teacher responsible: Professor Kathy Yuan
Availability: This course is compulsory on the MSc in Risk and Finance. This course is not available as an outside option.
Course content: This course is designed to expose students to the breadth of risk management thinking and approaches across different areas. Section A. Risk and Regulation: Introduction and Overview: Sets out the problem of risk management and regulation. It formulates a general conceptual framework that can be used in devising solutions to risk either as a management problem or as a regulatory problem, or both. Section B. Financial Market and Regulation: Discusses the role of regulation in the financial sector, bank competition and moral hazard; distinguishes prudential regulation of banks and the regulation of insurance and pensions; the tools of microprudential regulation; the challenges of assessment of systemic risk and macroprudential regulation. Section C. Financial Risk Analysis: Examines issues in financial risk including risk and regulation in the insurance markets; tools of financial risk management, including diversification, hedging and capital provisions; risk measurement for financial instruments (market risk, value at risk), credit risk, ratings and credit derivatives; operational and business risk. Section D. Strategy, Control and Risk in Organisations: Provides a strategic management perspective on risk analysis and management, including an examination of strategic visioning. Also considers: issues of enforced self-regulation as a method of risk management with reference to occupational health and safety regulation; risk management and decision making in organisations; enterprise-wide risk management and auditing. Section E. Risk Analysis and the Psychology of Risk Bearing: Explores the meaning of risk as perceived by different agents; methods of dealing with risky situations; analysis of risk taking by groups, behavioural analysis of financial risk taking. Section F: Possible Specific areas of risk analysis: 1) Liquidity and operation risks in exchanges; 2) Counter-party risks in the OTC markets, potential triggers for market failure; 3) Legal analysis of risk, conditions when legal risk exists and how it can be mitigated, legal tools to influence conduct.
Teaching: 22 hours of lectures in the MT. 22 hours of lectures in the LT. 12 hours of case discussion and classes, and 10 hours of practitioner seminars across MT and LT.
Formative coursework: Students will be set and will be set weekly problem set assignments.
Assessment: Exam (40%, duration: 2 hours) in the main exam period. Essay (50%, 10000 words) in September. Class participation (10%).

FM404  Half Unit
Forecasting Financial time Series
This information is for the 2017/18 session.
Teacher responsible: Dr Christian Julliard
Availability: This course is available on the CEMS Exchange, MBA Exchange, MSc in Accounting and Finance, MSc in Finance and Economics, MSc in Finance and Private Equity, MSc in Financial Mathematics, MSc in Quantitative Methods for Risk Management, MSc in Risk and Finance, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Quantitative Methods for Finance and Risk Analysis (FM442).
The first half of FM437 Financial Econometrics, or alternatively FM442 Quantitative Methods for Finance and Risk Analysis, is a required prerequisite. Students who can demonstrate comparable background may be granted an exemption from this requirement.
Course content: This course will examine the techniques involved with forecasting key variables in finance, and how to incorporate model uncertainty into financial forecasts. Students will learn both the theory and the practice of forecasting in finance. The following topics will be covered: introduction to time series analysis; Maximum Likelihood Estimation (MLE) with time series data, and MLE based model selection; Bayesian inference, posterior probabilities, and Bayesian Model Averaging; Markov Chain Monte Carlo methods; present value regressions, vector autoregressios, causality, and cointegration, asset pricing and the Generalized Method of Moments (GMM); frequentist and Bayesian information theoretic alternatives to GMM. Additional information can be found on Moodle (for current students)
Teaching: 20 hours of lectures, 10 hours of classes and 10 hours of computer workshops in the LT.
Formative coursework: Regular problem sets.
Indicative reading: Lecture notes will be provided, and some journal articles may also be used.
Assessment: Exam (100%, duration: 3 hours and 15 minutes) in the main exam period.

FM405  Half Unit
Fixed Income Securities and Credit Markets
This information is for the 2017/18 session.
Teacher responsible: Dr Peter Kondor
Availability: This course is available on the MSc in Finance (full-time) and MSc in Finance and Private Equity. This course is not available as an outside option.
Pre-requisites: Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).
Course content:
FM406 Half Unit
Topics in Portfolio Management

This information is for the 2017/18 session.
Teacher responsible: Mr Domingos Romualdo
Availability: This course is available on the MSc in Finance (full-time) and MSc in Finance and Private Equity. This course is not available as an outside option.
Pre-requisites: Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).
Course content:
• Balancing Risk and Risk Premia for the Construction of Optimal Portfolios
• Dynamic Investment Strategies
• Selecting and Monitoring Portfolio Managers
• Transactions Costs and Liquidity Risk in Portfolio Construction
This course covers a wide range of topics in portfolio management, with a strong focus on empirical applications. The first part of the course starts with a theoretical and empirical overview of risk and risk premia in different segments of financial markets; it then focuses on the construction of optimal portfolios, with applications to equity, bond, and multi-asset portfolios. The second part of the course introduces students to the implementation of several dynamic investment strategies, such as value, momentum, carry, and others. The third part of the course focuses on selecting and monitoring mutual fund and hedge fund managers to form portfolios of managed funds. Finally, the course incorporates transactions costs and liquidity risk in the construction and evaluation of portfolios. The course is based on recent empirical studies and on applied exercises using financial data.

Teaching: 30 hours of lectures in the LT.
Formative coursework: Regular classworks will be completed, handed in and marked as part of formative assessment for this course.
Indicative reading: A study pack will include lecture notes and case studies. All relevant articles will be made available during the course. Useful references are Modern portfolio theory and investment analysis, by E. J. Elton, M. J. Gruber, S. J. Brown, and W. N. Goetzmann, Wiley Press; Investments, by Z. Bodie, A. Kane, and A. Marcus, McGraw-Hill Irwin; Modern investment management, by Bob Litterman and the Quantitative Resource Group, GSAM, Wiley Press.

FM407 Half Unit
Mergers, Buyouts and Corporate Restructurings

This information is for the 2017/18 session.
Teacher responsible: Dr Vicente Cuñat
Availability: This course is available on the MSc in Finance (full-time) and MSc in Finance and Private Equity. This course is not available as an outside option.
Pre-requisites: Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).
Course content:
• Financial Analysis of Firms and Corporate Transactions
• Mergers, Acquisitions and Leveraged Buyouts
• Distress, Bankruptcy and Corporate Restructuring
This course covers advanced topics in Corporate Finance. It focuses on the strategy, valuation and execution of corporate deals. In particular, the first part of the course covers mergers, divestitures, partial-divestitures (e.g. equity carve outs) and leveraged buyouts. The second part of the course provides a framework for analysis of the resolution of financial distress and bankruptcy. Each of the topics introduced in this course covers both institutional details and results of relevant academic research. It is furthermore supported by case studies and practitioner talks.

Teaching: 30 hours of lectures in the LT.
Formative coursework: Regular classworks will be completed, handed in and marked as part of formative assessment for this course.
Indicative reading: A course pack will be distributed that includes case studies as well as additional readings such as textbook chapters, and practitioner articles.
Assessment: Exam (70%, duration: 2 hours) in the main exam period.
Project (30%) in the LT.

FM408 Half Unit
Financial Engineering

This information is for the 2017/18 session.
Teacher responsible: Dr Jean-Pierre Zigrand
Availability: This course is available on the MSc in Finance (full-time), MSc in Finance and Economics and MSc in Finance and Private Equity. This course is not available as an outside option.
Pre-requisites: Students will be expected to show some familiarity with calculus and statistics.
Course content: Provides a thorough grounding in the theory and practice of financial engineering. The emphasis is on the application of derivatives pricing and hedging methodology to equity and volatility derivatives and to structured products. This syllabus lists and describes the topics covered in this course. In a nutshell, the course aims to cover the basics in derivatives theory, and to apply them to a multitude of financial securities and structured products, with a special emphasis on recent products in the equity and volatility derivative worlds. We review selected case studies in order to gain a better understanding of their practical usage. We also implement the models numerically in R and VBA.

Teaching: 30 hours of lectures in the LT.

**Assessment:** Exam (80%, duration: 2 hours) in the main exam period.
Project (20%) in the LT.

**FM409 Half Unit**
**Risk Management in Financial Markets**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Paul Whelan

**Availability:** This course is available on the MSc in Finance (full-time), MSc in Finance and Economics and MSc in Finance and Private Equity. This course is not available as an outside option.

**Pre-requisites:** Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).

**Course content:**
- Hedging in equity and fixed income markets
- Market Risk, Value at Risk and Expected Shortfall
- Endogenous Risk and Limits to Arbitrage
- Credit risk and structured products

The aim of this course is to give an introduction to the analysis and management of risk within financial markets. The objective of the course is to develop a conceptual framework for thinking about financial risk and to show how these concepts are implemented in practice in a variety of contexts. First, the course gives an overview of risk management in the context of portfolios of fixed income securities and derivatives. Next, will discuss the implementation and the merits of Value at Risk measures. We will spend some time on endogenous risk and limits to arbitrage. In the context of credit risk we will cover ratings based and structural models, as well as credit risk on portfolios and credit derivatives. A final topic covers regulation and the recent credit crisis. Throughout, the course spends a significant amount of time on practical applications of the theories that are introduced. Some limitations of current approaches are also discussed.

**Teaching:** 30 hours of lectures in the LT.

**Formative coursework:** Problem sets. In addition, students will have the opportunity to present the results of a case study to the class.

**Assessment:** Exam (90%, duration: 2 hours) in the main exam period.
Coursework (5%) and presentation (5%) in the LT.

**FM410 Half Unit**
**Private Equity**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Ulf Axelsson

**Availability:** This course is compulsory on the MSc in Finance and Private Equity. This course is not available as an outside option.

**Course content:**
- Evaluating and executing Private Equity Deals
- Business Plans, Venture Capital, and Entrepreneurial Finance
- Private Equity as an asset class and the private equity landscape

Provides a thorough grounding in the theory and recent developments in the field of private equity.

Starting by examining how private equity funds are raised and structured the course will examine how private equity can be used in start-ups, in scaling-up cash flow businesses, and in restructuring firms facing financial distress. It explores the link between private and venture capital on the one hand and public securities markets on the other. The course will examine the process through which private equity investors exit their investments. The course will also give a detailed analysis of the types of finance used in private equity and an evaluation of the short and long-run performance of private equity investments. The course will include an evaluation of the performance of different types of private equity investment and a comparison with other forms of ownership will be undertaken.

This course takes a rigorous theoretical examination of private equity, however also employs some case study teaching and is taught in conjunction with a range of practitioners in the field.

**Teaching:** 30 hours of lectures and 30 hours of seminars in the LT.

**Formative coursework:** Each week there will typically be a formative case study assignments (similar to summative cases). Students will also be given formative feedback on their class participation.

**Assessment:** Dissertation (60%, 6000 words) in the ST.
Coursework (20%) and class participation (20%) in the LT.

**FM412 Half Unit**
**Quantitative Security Analysis**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Christopher Polk

**Dr Vasant Naik**

**Availability:** This course is available on the MSc in Accounting and Finance, MSc in Finance (full-time), MSc in Finance and Economics, MSc in Finance and Private Equity and MSc in Risk and Finance. This course is not available as an outside option.

This course is available to the MSc in Accounting and Finance, with permission from the Department of Finance, should capacity allow.

**Pre-requisites:** None

**Course content:** The theoretical framework underlying the course will be Merton's model of viewing corporate securities as contingent claims on a firm's assets. We will use information in financial statements and macro-economic variables to come up with the inputs into Merton-type models. The course will involve lectures, cases, and a project. The course will be structured around the following topics:

1. Basic Analysis of Financial Statements
2. Merton's Framework of Corporate Securities as Contingent Claims on a Firm's assets
3. Valuation of Assets of Firms
   a. Valuation of assets-in-place
   b. Valuing growth and growth options
4. Valuation of Equity and Debt of Levered Firms
5. Valuation of Financial Institutions
6. Valuing Distressed Debt

**Teaching:** 30 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 3 case studies in the LT.

**Indicative reading:** Books:
### FM413 Half Unit

**Fixed Income Markets**

**This information is for the 2017/18 session.**

**Teacher responsible:** Dr Angeliki Andrikogiannopoulou

**Availability:** This course is compulsory on the MSc in Financial Mathematics. This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance, MSc in Finance and Economics, MSc in Risk and Finance, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is not available as an outside option.

**Pre-requisites:** Students taking this course are expected to be familiar with the theory of asset evaluation at the level of FM430 Corporate Finance and Asset Markets and the theory and practice of derivative pricing at the level of FM441 Derivatives.

**Course content:** This advanced course is designed for students seeking an understanding of fixed income valuation and hedging methods, and a basic familiarity with the major markets and instruments.

Provides a thorough grounding in recent developments in fixed income securities pricing, hedging and portfolio management. By the end of the course, the students will be familiar with a variety of topics, including: (i) the basic concepts of fixed-income instruments, such as yield, duration, convexity; (ii) the basic techniques to analyze and hedge fixed income products, such as “curve fitting”, “bootstrapping”, duration-based hedging and asset-liability management; (iii) the forces, or “factors”, driving the variation in the entire spectrum of interest rates at different maturities; (iv) the main evaluation tools, which can be applied to evaluate a wide range of products (trees, no arbitrage trees, calibration and some continuous time models); (v) the main fixed income products such as government bonds, corporate bonds (convertible, callable, puttable), and their evaluation; (vi) plain vanilla interest derivatives (caps, floors and collars, swaps, swaptions, etc.) and their evaluation; (vii) mortgage backed instruments; (viii) the analysis of the “destabilizing” effects related to the use of certain derivatives written on fixed income instruments.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 10 problem sets in the LT.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

### FM421 Half Unit

**Applied Corporate Finance**

**This information is for the 2017/18 session.**

**Teacher responsible:** Prof Ashwini Agrawal

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange,
FM422
Corporate Finance

This information is for the 2017/18 session.

Teacher responsible: Professor Amil Dasgupta
Dr Dirk Jenter

Availability: This course is compulsory on the MSc in Finance (full-time) and MSc in Finance and Private Equity. This course is not available as an outside option.

Pre-requisites: Aimed at people with a good undergraduate degree and good quantitative skills, with some knowledge of economics.

Course content:
- Financing
- Valuation

This core course provides a broad introduction to the key issues in corporate finance. The first half of the course, the Financing Module, investigates how companies should finance their activities by issuing securities (debt, equity and convertible claims) and the interaction of business policy with financial policy. The aim is to understand what factors determine optimal capital structure and how the interplay of these factors can affect financing decisions in a way that creates value. The second half of the course, the Valuation Module, covers firm and project valuation and establishes how companies should select among investable assets. The module focuses on fundamental valuation techniques based on discounting future cash flows. The course goes on to introduce further valuations methods, such as real options analysis, as well as key applications of valuation concepts to major corporate decisions such as mergers and acquisitions and initial public offerings. The course interweaves key conceptual material with a series of cases.

Teaching: 60 hours of lectures in the MT.

Formative coursework: Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

Indicative reading: The recommended textbooks for this course are Berk and DeMarzo, Corporate Finance and Higgins, Analysis for Financial Management. Other recommended readings from relevant journal articles will be included in a study pack.

Assessment: Exam (80%, duration: 3 hours) in the main exam period.
In class assessment (20%) in the MT.

FM423
Asset Markets

This information is for the 2017/18 session.

Teacher responsible: Dr Dong Lou and Dr Igor Makarov

Availability: This course is compulsory on the MSc in Finance (full-time) and MSc in Finance and Private Equity. This course is not available as an outside option.

Pre-requisites: Aimed at people with a good undergraduate degree and good quantitative skills, with some knowledge of economics.

Course content:
- Investments and Securities Valuation
- Portfolio choice and performance evaluation
- Derivatives

The aim of the course is to familiarize students with the workings of financial markets, and equip them with the fundamental tools of asset valuation. The course will focus on the three main asset classes - fixed income, stocks, and derivatives - giving a unified perspective of modern valuation methods. The starting point will be the present value formula. The course will then proceed to fixed-income securities, focusing mainly on government bonds. These will be valued off the term structure of interest rates, using the present value formula. The connection with the principle of no-arbitrage will be emphasized. The course will then move to stocks, starting with portfolio theory and then deriving the relation between risk and return (CAPM). The CAPM will provide a risk-adjusted discount rate that will be used to discount stocks' cash flows with the present value formula. Alternative pricing models such as the APT and multi-factor models will also be covered, and the models will be applied to issues of asset allocation and portfolio selection. The last topic will be derivatives, especially futures and options. After familiarizing students with the use of derivatives, the course will cover the main valuation methods (binomial model, Black-Scholes) emphasizing again the principle of no-arbitrage.

Teaching: 60 hours of lectures in the MT.

Formative coursework: Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

Assessment: Exam (80%, duration: 3 hours) in the main exam period.
In class assessment (10%) and in class assessment (10%) in the MT.
(2 Year Programme), MSc in Management and Strategy, MSc in Real Estate Economics and Finance, MSc in Risk and Finance, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

Outside students should consider the alternative option of FM473M/FM474L Finance I or FM474L/FM474M Managerial Finance. This course cannot be combined with FM473M Finance I or FM474M/FM474L Managerial Finance.

Pre-requisites: Basic Mathematics and Statistics knowledge. The course is self-contained but it covers a broad set of topics. Some prior knowledge of economics, finance and accounting is advised.

Course content: Aims to equip students with the fundamental concepts and tools underlying the asset markets side of modern finance. The course covers asset markets and valuation. The valuation of fixed-income securities is covered first, followed by the valuation of stocks, and derivatives such as futures and options. Concepts emphasized include the present-value formula, valuation by arbitrage, portfolio theory, the CAPM, market efficiency, and binomial and Black-Scholes models.

Teaching: 20 hours of lectures and 9 hours of seminars in the MT.

Formative coursework: Weekly problem sets covered in classes.

Full details of reading will be specified in the Course Programme and Reading List which will be distributed at the first lecture.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

Please note this examination is the full unit version of the exams taken on FM429 Asset Markets A (H) and FM431 Corporate Finance A (H).

FM430

Corporate Finance and Asset Markets

This information is for the 2017/18 session.

Teacher responsible: Dr Georgy Chabakauri

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Accounting and Finance, MSc in Applicable Mathematics, MSc in Econometrics and Mathematical Economics, MSc in Financial Mathematics and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Basic Mathematics and Statistics knowledge. The course is self-contained but it covers a broad set of topics. Some prior knowledge of economics, finance and accounting is advised. This course cannot be combined with FM429 Asset Markets A, FM431M/FM431L Corporate Finance A or FM474M/FM474L Managerial Finance.

Course content: Aims to equip students with the fundamental concepts and tools underlying modern finance, both in the asset markets and the corporate finance side. Provides a foundation for subsequent courses offered by the Department. In the Michaelmas Term, the course covers asset markets and valuation. The valuation of fixed-income securities is covered first, followed by the valuation of stocks, and derivatives such as futures and options. Concepts emphasized include the present-value formula, valuation by arbitrage, portfolio theory, the CAPM, market efficiency, and binomial and Black-Scholes models. In the Lent Term, the course covers corporate finance. This part starts with capital budgeting techniques, in relation to CAPM and other valuation instruments. The course then proceeds identifying the driving forces behind capital structure decisions and choices over debt and equity finance. Special consideration is given to the tax implications of those choices, the possible costs of financial distress, the incentive implications of financial decisions and the signalling impact of those for financial market participants. A final part of the course covers some specific topics in corporate finance: decision to go public, mergers and acquisitions and possibly (time permitting), dividend policy, corporate governance issues.

Teaching: 20 hours of lectures and 9 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT.

Formative coursework: Weekly problem sets covered in classes.

Full details of reading will be specified in the Course Programme and Reading List which will be distributed at the first lecture.

Assessment: Exam (100%, duration: 3 hours) in the main exam period.

Please note this examination is the full unit version of the exams taken on FM429 Asset Markets A (H) and FM431 Corporate Finance A (H).

FM431L Half Unit

Corporate Finance A

This information is for the 2017/18 session.

Teacher responsible: Dr Maria-Theresa Marchica

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MPA in European Public and Economic Policy, MPA in International Development, MPA in Public Policy and Strategy and MSc in Risk and Finance. This course is available as an outside option to students on other programmes where regulations permit.

Outside students should consider taking FM474 Managerial Finance as an alternative option. This course cannot be combined with FM430 Corporate Finance and Asset Markets.

Pre-requisites: Basic Mathematics and Statistics knowledge. The course is self-contained but it covers a broad set of topics. Some prior knowledge of economics, finance and accounting is advised. This course cannot be combined with FM430 Corporate Finance and Asset Markets or FM474 Managerial Finance.

Course content: This course covers a range of topics in corporate finance starting with capital budgeting techniques, in relation to CAPM and other valuation instruments. The course then proceeds identifying the driving forces behind capital structure decisions and choices over debt and equity finance. Special consideration is given to the tax implications of those choices, the possible costs of financial distress, the incentive implications of financial decisions and the signalling impact of those for financial market participants. A final part of the course covers some specific topics in corporate finance: decision to go public, mergers and acquisitions and start-up finance (time permitting).

Teaching: 20 hours of lectures and 9 hours of seminars in the LT.

Formative coursework: Students will be set weekly problem set assignments. Solutions and guidance will be provided during the weekly seminar classes. The final seminar class, students will solve a formative mock exam. Students will receive individual feedback on the mock exam prior to the final exam.

Indicative reading: J. Berk and P DeMarzo, Corporate Finance, Pearson International Edition. Full details of reading will be specified in the Course Programme and Reading List which will be distributed at the first lecture.

Assessment: Exam (100%, duration: 1 hour and 30 minutes) in the main exam period.

Please note this exam is the half unit version of the examination taken on FM430 Corporate Finance and Asset Markets.
student who takes both FM429 and FM431 will be re-registered to sit the FM430 full-unit exam paper in Summer Term.

**Corporate Finance A**

*This information is for the 2017/18 session.*  
**Teacher responsible:** Dr Juanita Gonzalez-Uribe  
**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting and Finance, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Economics and Management, MSc in Management and Strategy and MSc in Risk and Finance.  
This course is available with permission as an outside option to students on other programmes where regulations permit. Outside students should consider taking FM474M/FM474L Managerial Finance as an alternative option. This course cannot be combined with FM430 Corporate Finance and Asset Markets.  
**Pre-requisites:** Basic Mathematics and Statistics knowledge. The course is self-contained but it covers a broad set of topics. Some prior knowledge of economics, finance and accounting is advised. This course cannot be combined with FM430 Corporate Finance and Asset Markets or FM474 Managerial Finance  
**Course content:** The course covers range of topics in corporate finance starting with capital budgeting techniques, in relation to CAPM and other valuation instruments. The course then proceeds identifying the driving forces behind capital structure decisions and choices over debt and equity finance. Special consideration is given to the tax implications of those choices, the possible costs of financial distress, the incentive implications of financial decisions and the signalling impact of those for financial market participants. A final part of the course covers some specific topics in corporate finance: decision to go public, mergers and acquisitions and start-up finance (time permitting).  
**Teaching:** 20 hours of lectures and 9 hours of seminars in the MT.  
**Formative coursework:** Students will be set weekly problem set assignments. Solutions and guidance will be provided during the weekly seminar classes. The final seminar class, students will solve a formative mock exam. Students will receive individual feedback on the mock exam prior to the final exam.  
**Indicative reading:** J. Berk and P. DeMarzo, Corporate Finance, Pearson International Edition. Full details of reading will be specified in the Course Programme and Reading List which will be distributed at the first lecture.  
**Assessment:** Exam (100%, duration: 1 hour and 30 minutes) in the main exam period.  
Please note this exam is the half unit version of the examination taken on FM430 Corporate Finance and Asset Markets. Any student who takes both FM429 and FM431 will be re-registered to sit the FM430 full-unit exam paper in Summer Term.

---

**FM436  Financial Economics**

*This information is for the 2017/18 session.*  
**Teacher responsible:** Prof Ian Martin, Dr Igor Makarov and Dr Martin Dekhne  
**Availability:** This course is compulsory on the MRes/PhD in Finance (Route 1) and MSc in Finance and Economics (Research). This course is available on the MPhil/PhD in Accounting. This course is compulsory on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting and Finance, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Economics and Management, MSc in Management and Strategy and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit. Outside students should consider taking FM474M/FM474L Managerial Finance as an alternative option. This course cannot be combined with FM430 Corporate Finance and Asset Markets.  
**Pre-requisites:** Mathematical background at the level of the September Courses in Mathematics and FM458 Financial Economics Preparatory Course is assumed.  
**Course content:** Financial Economics provides students with an in-depth introduction to the theories of asset pricing and corporate finance. The course analyses investors’ behaviour, market equilibrium, the pricing of securities, the valuation of real assets, and capital structure choice. Topics in asset pricing will encompass portfolio choice, complete and incomplete markets, mean-variance portfolio theory and equilibrium asset pricing, pricing with no arbitrage, Black-Scholes and other contingent claims pricing models, and the behaviour of financial markets during crises. Topics in corporate finance will encompass valuation methods and financing decisions in the presence of taxation, agency frictions, and asymmetric information.  
**Teaching:** 40 hours of lectures and 20 hours of seminars in the MT.  
**Formative coursework:** Problem sets, covered in classes.  
**Indicative reading:** Will be based on: Teaching notes and journal articles, as well as J H Cochrane, Asset Pricing, Revised Edition, Princeton University Press.  
**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**FM438  Half Unit**  
**Advanced Asset Pricing**

*This information is for the 2017/18 session.*  
**Teacher responsible:** Dr Jean-Pierre Zigzard  
**Availability:** This course is available on the MSc in Finance and Economics. This course is not available as an outside option.  
**Pre-requisites:** Students must have completed Financial Economics (FM436).  
**Course content:** Advanced Asset Markets is the continuation of the asset pricing component of FM436, Financial Economics. It allows students to further explore pricing in continuous time
by applying the pricing and hedging methods of FM436 to more advanced products and to more complex environments. This course is ideal for the students who would like to apply the tools of continuous time finance learned in FM436 to the pricing and hedging of advanced real-life derivatives and structured products both in complete and in incomplete markets. The following topics will be covered: i. No-Arbitrage Pricing in complete and incomplete markets; ii. Local volatility modelling, including an excursion into local time; iii. Exotic derivatives and Structured Products; iv. Single- and multi-factor term structure modelling, v. Equilibrium pricing in complete and incomplete markets; and vi. Endogenous risk modelling with applications to trading and derivatives pricing.

Teaching: 20 hours of lectures, 10 hours of classes and 6 hours of workshops in the LT.

Indicative reading: A complete set of lecture notes will be distributed at the start of term. There is no textbook covering the entire material, though Bjork, ‘Arbitrage Theory in Continuous Time’ (Third Edition, 2009)) is a good read and a couple of chapters in Gatheral (‘Modelling the Volatility Surface. A Practitioner’s Perspective” (2007)) are optional and cover some of the the volatility modelling component of the course.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

### FM441 Half Unit Derivatives

This information is for the 2017/18 session.

**Teacher responsible:** Dr Rohit Rahi

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Finance, MSc in Accounting and Finance, MSc in Quantitative Methods for Risk Management, MSc in Risk and Finance, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is not available as an outside option.

**Pre-requisites:** A strong background in statistics and quantitative methods at the undergraduate level is required. Prior programming experience is helpful. Students without prior knowledge of Matlab are encouraged to take FM457A (Computational Tools in Finance) concurrently.

**Course content:** This graduate-level course covers important quantitative and statistical tools in applied finance. It studies financial markets risk, with a particular focus on models for measuring, assessing and managing financial risk. Students will be introduced to the application of these tools and the key properties of financial data through a set of computer-based homework assignments and classes.

The course aims to introduce quantitative concepts and techniques in many areas of finance. Sample topics include Risk Measures (e.g., Value-at-Risk and Expected Shortfall, including implementation and backtesting), univariate and multivariate volatility models, Factor Models, Principal Components Analysis, Options Pricing, Binomial Trees, Monte Carlo Simulations, and associated topics in Econometrics. This list is meant to be representative, but topics may be added or removed.

Implementing the models and tools in MATLAB is an essential part of the course. The homework assignments are designed to guide the students to all stages of the analytical process, from locating, downloading and processing financial data to the implementation of the tools and interpretation of results. Students will have the opportunity to explore the databases available at the LSE and to become comfortable working with real data.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Six homework assignments to be solved using MATLAB.

**Indicative reading:** No single text covers the course material. The relevant sections of the following readings would be appropriate for individual topics: Jon Danielsson (2011), Financial Risk Forecasting, Ruey Tsay (2010), Analysis of Financial Time Series, Pietro Veronesi (2010), Fixed Income Securities: Valuation, Risk, Forecasting; Ruey Tsay (2010), Analysis of Financial Time Series;

**Assessment:** Exam (75%, duration: 1 hour and 30 minutes) in the main exam period.

Project (20%, 2000 words) and presentation (5%) in the MT.

### FM442 Half Unit Quantitative Methods for Finance and Risk Analysis

This information is for the 2017/18 session.

**Teacher responsible:** Dr Domingos Romualdo

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting and Finance, MSc in Econometrics and Mathematical Economics, MSc in Financial Mathematics, MSc in Quantitative Methods for Risk Management, MSc in Risk and Finance, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is ideal for the students who would like to apply the tools of advanced real-life derivatives and structured products both in complete and in incomplete markets. The following topics will be covered: i. No-Arbitrage Pricing in complete and incomplete markets; ii. Local volatility modelling, including an excursion into local time; iii. Exotic derivatives and Structured Products; iv. Single- and multi-factor term structure modelling, v. Equilibrium pricing in complete and incomplete markets; and vi. Endogenous risk modelling with applications to trading and derivatives pricing.

Teaching: 20 hours of lectures, 10 hours of classes and 6 hours of workshops in the LT.

Indicative reading: A complete set of lecture notes will be distributed at the start of term. There is no textbook covering the entire material, though Bjork, ‘Arbitrage Theory in Continuous Time’ (Third Edition, 2009)) is a good read and a couple of chapters in Gatheral (‘Modelling the Volatility Surface. A Practitioner’s Perspective” (2007)) are optional and cover some of the the volatility modelling component of the course.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

---

### FM445 Half Unit Portfolio Management

This information is for the 2017/18 session.

**Teacher responsible:** Dr Domingos Romualdo

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting and Finance, MSc in Econometrics and Mathematical Economics, MSc in Economics and Management, MSc in Finance and Economics, MSc in Financial Mathematics and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course aims to cover the main topics in equity portfolio management. Some of the topics covered in the course include: Portfolio optimization techniques; Multi-factor models and their applications; Trading strategies; International portfolio management and currency hedging; Trading costs; Portfolio performance measurement and attribution; Style analysis; Mutual funds; Hedge funds. The course is based on a number of empirical applications and case studies, so that students can...
gain a better understanding of implementation issues related to managing an equity portfolio.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

**Indicative reading:** A study pack will include lecture notes and case studies. All relevant articles will be made available during the course. Useful references are Modern portfolio theory and investment analysis, by E. J. Elton, M. J. Gruber, S. J. Brown, and W. N. Goetzmann, Wiley Press; Modern investment management, by Bob Litterman and the Quantitative Resource Group, GSAM, Wiley Press; Investments, by Z. Bodie, A. Kane, and A. Marcus, McGraw-Hill Irwin.

**Assessment:** Exam (80%, duration: 2 hours) in the main exam period.

The 20% coursework comprises five homework assignments and one project.

---

**FM457**

**Applied Computational Finance**

**This information is for the 2017/18 session.**

**Teacher responsible:** Mr Bruce Iwadate

**Availability:** This course is available on the MSc in Quantitative Methods for Risk Management. This course is available with permission as an outside option to students on other programmes where regulations permit.

**FM457A** is intended for students taking FM442 Quantitative Methods for Finance and Risk Analysis and FM404 Forecasting Financial Time Series.

**FM457B** is available to students on the MSc Finance (Full-time), MSc Finance and Private Equity, MSc Finance and Economics and MSc Risk and Finance programmes.

**Course content:** This course is an introduction to computational methods in finance; the course mainly focuses on Matlab but then introduces other programming languages. We will begin with an introduction to basic Matlab. We will then learn how to simulate individual securities, with a special focus on the predictability and fat tails features of volatility. Simultaneously we will examine the data to test how well our models approximate the real world. Next we will move onto modeling portfolios of multiple securities and test the CAPM and the Fama-French three factor model; we will also test for long term predictability in asset prices. Finally we will use numerical techniques to price options and to construct a yield curve.

**Teaching:** FM457A: 10 hours of seminars in the MT. FM457B: 10 hours of seminars in the MT.

**Indicative reading:** Teaching notes will be distributed.

**Assessment:** This is an additional, non-assessed computer course to supplement MSc level courses in the Department of Finance.

---

**FM458**

**Financial Economics Preparatory Course**

**This information is for the 2017/18 session.**

**Teacher responsible:** Mr Brandon Han and Mr Lukas Kremens

**Availability:** This course is compulsory on the MSc in Quantitative Methods for Risk Management and Economics. This course is not available as an outside option.

**Course content:** The aim of this course is to supplement the essential quantitative methods for the core Finance course FM436. The course will introduce foundational material essential to the study of both asset pricing in continuous time and corporate finance theory.

**Teaching:** 30 hours of lectures in the MT.

**Indicative reading:** Mikosch, Elementary Stochastic Calculus (1998), World Scientific; Shreve, Stochastic Calculus for Finance I, II

---

**FM473L**

**Half Unit**

**Finance I**

**This information is for the 2017/18 session.**

**Teacher responsible:** Professor Michael Burkart

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting, Organisations and Institutions, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation, MSc in Real Estate Economics and Finance, MSc in Regulation and MSc in Risk and Finance. This course is available as an outside option to students on other programmes where regulations permit.

**Assessment:** Exam (80%, duration: 2 hours) in the main exam period.

Ten three-hour lecture and seminar sessions. This course is taught twice, in both Michaelmas and Lent Term. Students must either register for FM473M which is taught in Michaelmas Term, or FM473L which is taught in Lent Term.

**Indicative reading:** Brealey, Myers and Allen, Principles of Corporate Finance.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**FM473M**

**Half Unit**

**Finance I**

**This information is for the 2017/18 session.**

**Teacher responsible:** Professor Michael Burkart

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting, Organisations and Institutions, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation, MSc in Real Estate Economics and Finance, MSc in Regulation and MSc in Risk and Finance. This course is available as an outside option to students on other programmes where regulations permit.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

Ten three-hour lecture and seminar sessions. This course is taught twice, in both Michaelmas and Lent Term. Students must either register for FM473M which is taught in Michaelmas Term, or FM473L which is taught in Lent Term.

**Indicative reading:** Brealey, Myers and Allen, Principles of Corporate Finance.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

---

**FM473L**

**Half Unit**

**Finance I**

**This information is for the 2017/18 session.**

**Teacher responsible:** Professor Michael Burkart

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting, Organisations and Institutions, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation, MSc in Real Estate Economics and Finance, MSc in Regulation and MSc in Risk and Finance. This course is available as an outside option to students on other programmes where regulations permit.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.

Ten three-hour lecture and seminar sessions. This course is taught twice, in both Michaelmas and Lent Term. Students must either register for FM473M which is taught in Michaelmas Term, or FM473L which is taught in Lent Term.

**Indicative reading:** Brealey, Myers and Allen, Principles of Corporate Finance.

**Assessment:** Exam (100%, duration: 2 hours) in the main exam period.
Course content: A first course in financial analysis: this course explores the way that firms and the capital market function to channel savings toward productive investments. From the investor’s perspective it considers characteristics of the major financial contracts and the principles used in their valuation. It considers how investors should select their portfolios and the implications of this behaviour for pricing assets in stock and bond markets. It explores the question of whether stock markets are efficient in reflecting investors’ information. It applies these insights to the firm’s financial management decision of whether or not to invest in a risky project and how to select among alternative investments.

Teaching: 30 hours of lectures in the MT.

Ten three-hour lecture and seminar sessions. This course is taught twice, in both Michaelmas and Lent Term. Students must either register for FM473M which is taught in Michaelmas Term, or FM473L which is taught in Lent Term.

Indicative reading: Brealey, Myers and Allen, Principles of Corporate Finance.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

---

FM474L Half Unit
Managerial Finance

This information is for the 2017/18 session.

Teacher responsible: Professor Daniel Ferreira
Dr Hongda Zhong

Availability: This course is compulsory on the MSc in Management (1 Year Programme). This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting, Organisations and Institutions, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation and MSc in Regulation. This course is available as an outside option to students on other programmes where regulations permit.

This course is not open to students on the MSc Accounting and Finance or the MSc Finance and Economics.

Course content: The aim of the course is to provide a comprehensive overview of firms’ financial decision making. The course is designed to provide an applied and practical approach to finance, enabling the students to address topical issues that modern corporations face. In particular, the course builds on concepts such as valuation and capital structure theories, and applies those tools in a systematic and rigorous way to real-life financial management problems. After a brief introduction to financial markets, the course focuses on corporate finance and business valuation. Topics such as mergers and acquisitions and initial public offerings will also be covered.

Teaching: 30 hours of lectures in the MT.

Formative coursework: Weekly homeworks.

Indicative reading: Brealey, Myers and Allen, Principles of Corporate Finance.

Assessment: Exam (100%, duration: 2 hours) in the main exam period.

---

FM476 Half Unit
Entrepreneurial Finance

This information is for the 2017/18 session.

Teacher responsible: Professor Daniel Paravisini

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting and Finance, MSc in Finance (full-time), MSc in Finance and Economics, MSc in Finance and Private Equity and MSc in Risk and Finance. This course is not available as an outside option.

This course is only available on the MSc in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MIM) and Global MSc in Management (CEMS MIM) Programmes with permission from the Department.

Pre-requisites: Basic Mathematics and Statistics knowledge.

Course content: After introducing students to methods to assess business plans as well as methods to identify and value business ventures and growth opportunities in the opening part of the course, the next part of the course concentrates on obtaining financial resources. It covers a broad set of instruments (bank finance, angel finance, crowdsourcing) used by entrepreneurial firms. The final part of the course concentrates on Venture Capital (VC) financing. It describes the general structure and terms of a VC deal, the structure of a VC fund, the characteristics of venture debt and the exit strategies of VC funds.

Teaching: 30 hours of lectures in the MT.

Formative coursework: Students will be expected to produce 2 case studies in the LT, which will relate to the examination. The case studies, similar to the summative ones, will be graded and covered in class.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: ‘Venture Capital, Private Equity, and the Financing of Entrepreneurship’ J. Lerner, A. Leamon and F. Hardymon (Wiley); ‘The Oxford Handbook of Entrepreneurial Finance’ (OUP); ‘Entrepreneurial Finance’, J.C. Leach and R. Melcher (Cengage).

The course pack include lecture notes and case studies for summative
and formative assessments.

**Assessment:** Coursework (100%) in the LT. Coursework will take the form of two summative take-home assignments based on case studies (20%) and two in-class assignments (40% each, duration: 1 hour) during Lent Term teaching.

---

**FM481**

**Financial Econometrics for Research Students**

This information is for the 2017/18 session.

**Teacher responsible:** Dr Marcelo Fernandez

**Availability:** This course is compulsory on the MRes/PhD in Finance (Route 1). This course is available on the MPhil/PhD in Accounting. This course is available as an outside option to students on other programmes where regulations permit. Optional on MRes/PhD Economics.

**Pre-requisites:** Strong background in statistics and mathematics; some knowledge of Economics and Finance.

**Course content:** The Lent Term of FM481 is shared with FM404 Forecasting Financial Time Series:

Part 2 - Theory and application of regression analysis, covers estimation and inference theory for regression models. The topics covered are: least squares estimation, maximum likelihood estimation, instrumental variable estimation, and generalized method of moments estimation, with applications to linear models, many and weak instrument problems, limited dependent variable models, and panel data models.

Part 3 - The course provides a survey of the theory and application of time series methods in econometrics. The main objective of this course is to develop the skills needed to do empirical research in fields operating with time series data sets. The topics covered are: Hilbert spaces, projections, Wold theorems, ARMA models, Z-transform, convolution theorem, W-K prediction, Spectral analysis; Structural VAR Models; State Space Representations; Models with time-varying coefficients and stochastic volatility; Nonlinear filtering (particle filters); Unit Roots, Spurious Regressions and Cointegration, Predictability.

**Teaching:** 20 hours of lectures in the MT. 36 hours of lectures in the LT. 20 hours of lectures and 11 hours of seminars in the L T. MT. 20 hours of lectures and 11 hours of seminars in the LT. 2 hours of lectures and 1 hour of seminars in the ST.

**Formative coursework:** Weekly classwork and problem sets.

**Indicative reading:**
- Cameron and Trivedi: Microeconometrics. Methods and Applications.
- Campbell, Lo and MacKinlay: The Econometrics of Financial Markets
- Geweke: Contemporary Bayesian Econometrics and Statistics
- Greene: Econometric Analysis.
- Johannes and Polson: Computational Methods for Bayesian Inference.
- Hamilton: Time-Series Analysis.
- Hayashi: Econometrics
- Sargent, T., (1987), Macroeconomic Theory, chapters IX-XI.
- Wooldridge: Econometric Analysis of Cross-Section and Panel Data.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**FM482**

**Research paper in Finance**

This information is for the 2017/18 session.

**Teacher responsible:** Professor Michael Burkart

**Availability:** This course is compulsory on the MRes/PhD in Finance (Route 1) and MRes/PhD in Finance (Route 2). This course is not available as an outside option.

**Course content:** Students produce a research paper, between 6,000 and 8,000 words, related to the student’s designated major field, to be submitted at the end of September of Year 1 for Route 2 students, and at the end of September of Year 2 for Route 1 students.

**Teaching:** There are no direct teaching hours.

**Formative coursework:** Feedback on progress will be provided by the student’s PhD Supervisor.

**Assessment:** Other (100%). A research paper of 6-8,000 words in length (100%).

---

**FM492**

**Not available in 2017/18**

**Principles of Finance**

This information is for the 2017/18 session.

**Teacher responsible:** Prof Richard Payne

**Availability:** This course is not available as an outside option.

**Pre-requisites:** Students must have completed: one Economics course, one Maths course and one Statistics course at an undergraduate level.

**Course content:** This course examines the theory of financial decision-making by firms and examines the behaviour of the capital markets in which these decisions are taken. The topics covered are the theory of capital budgeting under certainty in perfect and imperfect capital markets, portfolio theory, equity and bond markets, the capital asset pricing model, efficient markets, derivative pricing, sources of funds, basic theory of capital structure and the cost of capital, company dividend decisions and financial markets and institutions. 

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 11 hours of seminars in the LT. 2 hours of lectures and 1 hour of seminars in the ST.

**Formative coursework:** Students are expected to produce written work for classes and to make positive contributions to class discussion.

**Indicative reading:** Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: Principles of Corporate Finance by Richard Brealey, Stewart Myers, and Franklin Allen, McGraw-Hill Inc.

**Assessment:** Exam (100%, duration: 3 hours) in the main exam period.

---

**FM499**

**Not available in 2017/18**

**Dissertation**

This information is for the 2017/18 session.

**Availability:** This course is available on the MSc in Accounting and Finance. This course is not available as an outside option. Only for students on the MSc Accounting and Finance programme, who elect to take this as an option in paper 3 or 4 and who wish to write a dissertation in a Finance topic. Permission to select the long essay option must be obtained from the MSc Accounting and Finance Programme Director by the end of the third week of MT. Students wishing to select this option must identify and secure agreement from a member of staff from the Department of Finance who is willing to provide supervision for the dissertation.

**Course content:** The dissertation may focus on analysing the relevant literature and other source material on a particular topic and writing a critical survey or commentary, indicating clearly the
main problems and their nature, or investigating and reporting on a selected problem, either by some small-scale empirical research, or by using information derived from secondary sources. The dissertation must identify relevant issues, sustain reasoned argument, and draw supportable conclusions. It must be arranged in an organised manner and include a full bibliography.

**Teaching:** There is no teaching associated with the dissertation, but students who select this option are encouraged to attend the dissertation workshop sessions organised by the Teaching and Learning Centre.

**Assessment:** Dissertation (100%, 10000 words) in the ST.

The dissertation outline must be approved in the LT by the supervisor. The submission deadline is Monday 5 June 2017.

---

**FM4T1**  
**Half Unit**  
Forecasting Financial Time Series - Dissertation

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Christian Julliard

**Availability:** This course is available on the MSc in Economics, MSc in Economics (2 Year Programme) and MSc in Finance and Economics. This course is not available as an outside option.

**Course content:** See entry for FM404

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Assessment:** Dissertation (100%, 6000 words) in the ST.

6,000 word dissertation on a topic to be agreed with the course teacher. The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Deadline is June 2018.

---

**FM4T2**  
**Half Unit**  
Applied Corporate Finance - Dissertation

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Ashwini Agrawal

**Availability:** This course is available on the MSc in Economics, MSc in Economics (2 Year Programme) and MSc in Finance and Economics. This course is not available as an outside option.

**Course content:** See entry for FM421

**Teaching:** 30 hours of lectures in the LT.

**Assessment:** Dissertation (90%, 6000 words) in the ST.

Coursework (10%) in the LT.

6,000 word dissertation (90%) on a topic to be agreed with the course teacher. The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Deadline is June 2018.

---

**FM4T4**  
**Half Unit**  
Corporate Investment and Financial Policy - Dissertation

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Pedro Chauffaille Saffi

**Availability:** This course is available on the MSc in Finance (full-time). This course is not available as an outside option.

**Course content:** See entry for FM414.

**Teaching:** 30 hours of seminars in the LT.

**Assessment:** Dissertation (70%, 6000 words) and coursework (30%) in the ST.

6,000 word dissertation in lieu of examination (70%) on a topic to be agreed with the course teacher, and coursework (30%). The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Deadline is June 2018.

---

**FM4T5**  
**Half Unit**  
Portfolio Management - Dissertation

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Domingos Romualdo

**Availability:** This course is available on the MSc in Economics, MSc in Economics (2 Year Programme) and MSc in Finance and Economics. This course is not available as an outside option.

**Course content:** See entry for FM445

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Assessment:** Dissertation (80%, 6000 words) in the ST.

Coursework (20%) in the LT.

6,000 word dissertation (80%) on a topic to be agreed with the course teacher. The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Deadline is June 2018. Please note that MSc Finance and Economics (Research) students can submit a dissertation of 6,000-10,000 words.

---

**FM4T6**  
**Half Unit**  
Topics in Portfolio Management - Dissertation

*This information is for the 2017/18 session.*

**Teacher responsible:** Dr Domingos Romualdo

**Availability:** This course is available on the MSc in Finance (full-time). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Topics in Portfolio Management (FM406).

**Course content:** See entry for FM406

**Teaching:** 30 hours of seminars in the LT.

GI402 Half Unit
Gender, Knowledge and Research Practice
This information is for the 2017/18 session.
Teacher responsible: Dr Jacob Breslow, Tower 1 11.01 L
Availability: This course is compulsory on the MPhil/PhD in Gender Studies, MSc in Gender and MSc in Gender (Research). This course is available on the MSc in Culture and Society, MSc in Gender, Development and Globalisation, MSc in Gender, Media and Culture, MSc in Gender, Policy and Inequalities and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course introduces students to the central issues at stake in designing and carrying out gender research at graduate and postgraduate level and beyond. The course maps the history of debates about gender and feminist research, and asks what difference it makes to take gender as the subject or object of research. Of particular concern are the ethical and political issues arising from doing gender research with respect to representing others and seeking to influence and engage with broader social contexts among other topics.
