No interim award is available: students completing courses with a unit value of less than 8.0 receive no award, regardless of performance in the courses that have been successfully completed.

The School of Public Policy has recoded their course codes to replace department codes (EC, GV, DV, EU, SA, MG) with PP codes for 2018/19. The majority of courses listed below with a PP code are not new courses but some may have changed code.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetable constraints and/or students meeting specific prerequisite requirements.

#### Paper Course number, title (unit value)

**Before Year 1**

- **Introductory course**
  - All students must attend the following MPA introductory course:
  - **PP408 Introduction to Quantitative Methods for the MPA Programme (0.0)**

**Year 1**

- **Paper 1**
  - PP440 Micro and Macro Economics (for Public Policy) (1.0)

- **Paper 2**
  - PP455 Quantitative Approaches and Policy Analysis (1.0)

- **Paper 3**
  - **PP478 Political Science for Public Policy (1.0)**

- **Paper 4**
  - Courses to the value of 1.0 unit from the list of Policy Stream courses or MPA Options List below:

**Policy Stream courses**

**MPA Options List**

**Year 2**

**Policy Stream: Public and Social Policy**

- **Introductory course**
  - Students who wish to choose a MSc in Economics course as an option in Year 2 are required to attend the following introductory course:
  - **EC400 Introductory Course in Mathematics and Statistics (0.0) #**

- **Paper 5**
  - PP4B3 MPA Capstone Project (1.0)

- **Papers 6, 7 & 8**
  - Students must take the course(s) required by their chosen Policy Stream detailed below, plus sufficient courses from the MPA Options List to ensure that they have taken courses to a total value of 8.0 units over Year 1 and Year 2.

**Policy Stream courses (Public and Social Policy)**

**MPA Options List**

**Policy Stream courses (Public and Social Policy)**

Students must complete, or have already completed in Year 1, both of the following courses:

- **PP4X6 Welfare Analysis and Measurement (1.0)**

**Exclusive Options**

* means available with permission

# means there may be prerequisites for this course. Please view the course guide for more information.

Total unit value 8.0 = Compulsory courses (4.0) + Policy Stream courses (Public and Social Policy) of 8.0 units over Year 1 and Year 2:

ensure that they have taken courses to a total value of 8.0 units over Year 1 and Year 2.

Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students lse.ac.uk/resources/calendar/
MPA in Public Policy and Management

Programme Code: TMPPM
Department: School of Public Policy

For students starting this programme of study in 2018/19
Classification scheme for the award of an MPA for students entering in or after 2011/12

Exam sub-board local rules lse.ac.uk/resources/calendar/
LocalRules/ExamSubboard.htm

The programme is taught over two academic years (21 months). Some courses have a unit value of 1.0 and some have a unit value of 0.5. To be awarded the degree, students must complete courses to the value of 8.0 units in total over two years.

There are three types of courses:
1. Compulsory courses, studied by all students;
2. Policy Stream courses, which students will take depending on which Policy Stream (specialism) they choose at the start of Year 2;
3. Option courses.

Note that some courses on one Policy Stream may be optional courses on other Policy Streams.

No interim award is available: students completing courses with a unit value of less than 8.0 receive no award, regardless of performance in the courses that have been successfully completed.

The School of Public Policy has recoded their course codes to replace department codes (EC, GV, DY, EU, SA, MG) with PP codes for 2018/19. The majority of courses listed below with a PP code are not new courses but some may have changed code.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

### Paper 1

**Before Year 1 Introductory course**

All students must attend the following MPA introductory course:

- **PP408** Introduction to Quantitative Methods for the MPA Programme (0.0)

### Year 1

- **PP440** Micro and Macro Economics (for Public Policy) (1.0)
- **PP455** Quantitative Approaches and Policy Analysis (1.0)
- **PP478** Political Science for Public Policy (1.0)
- **PP4E4** Courses to the value of 1.0 unit from the list of Policy Stream courses or MPA Options List below.

#### Policy Stream courses

MG487 Management of Organisations: Concepts and Perspectives (0.5)
MG4A3 Incentives and Governance in Organisations (0.5) #
Students may also seek approval from their Programme Supervisor and the Course Convenor to enrol on other MSc options.

Footnotes for MPA Options List

~A: PP454 is not available to students in their first year.
~B: Because of the extremely demanding standard of LSE Economics, the following options are available only to students with very good first degrees in Economics and with the permission of the Economics Department: EC402, EC411, EC413, EC421, EC424, EC426, EC427, EC428, EC453. Any student wishing to take these courses must be admitted to the September Introductory Course in Mathematics and Statistics (EC400) at the beginning of their second year and pass the course examinations. Students taking more than one Economics option must take one of EC402, EC411 or EC413.

Prerequisite Requirements and Mutually Exclusive Options for MPA Options List

~1: GV4C4 can not be taken with GV4C6
~2: GV4C6 can not be taken with GV4C4
~3: GV4B3 can not be taken with MG419

---

**MSc in Psychology of Economic Life**

**Programme Code:** TMPSECL

**Department:** Psychological and Behavioural Science

For students starting this programme of study in 2018/19 Classification scheme for the award of a taught master's degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registers-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Full-year programme. Students are required to take two compulsory courses, optional courses to the value of one unit and a dissertation as shown. Students are also required to take the non-assessed course PB400 Psychological and Behavioural Science.

The Department of Psychological and Behavioural Science has recorded their course codes from PS- to PB- for 2018/19. The majority of courses listed below with a PB- code are not new but some may have changed code. Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

### Paper 1

**MSc in Public Policy and Administration**

**Programme Code:** TMPPA

**Department:** Government

For students starting this programme of study in 2018/19 Classification scheme for the award of a taught master's degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registers-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Full-year programme. Students must take courses to the value of 2.5 units and a skills course and dissertation as shown. Part-time students may take courses up to the value of two full course units in their first year. Candidates may, subject to the approval of their supervisor, substitute for up to two of the written papers listed under Paper 3 below, any paper which is offered in the MSc, LLM or MA which involves at least 20 weeks of an integrated teaching
programme and which counts as one quarter (or one full unit) of the complete MSc programme in which it is offered. By choosing particular combinations of core courses, students can choose to have the title of a specialised stream added to the title of their degree:

MSc Public Policy and Administration (Comparative); or
MSc Public Policy and Administration (Public Management).

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper 1  Course number, title (unit value)
Paper 1   GV4E9 Approaches and Issues in Public Policy and Administration (1.0)

Paper 2  Courses to the value of 0.5 unit(s) from the following:
GV477 Comparative Public Policy Change (0.5)  
GV483 Public Management Theory and Doctrine (0.5)  
GV4F4 Policy Advice in Theory and Practice (0.5)  

Paper 3  Courses to the value of 1.0 unit(s) from the following:
Public Management:  
AC412 Accountability, Organisations and Risk Management (0.5)  
DV413 Environmental Problems and Development Interventions (0.5)  
DV415 Global Environmental Governance (0.5)  
GV4B3 Public Management Theory and Doctrine (0.5)  
GV4A2 Citizens’ Political Behaviour in Europe: Elections Public Opinion and Identities (0.5)  
GV4C8 Game Theory for Political Science (0.5)  
GV4K1 Transparency and Accountability in Government (0.5)  
LL4AT Regulation: Strategies and Enforcement (0.5)  
LL4AU Regulation: Legal and Political Aspects (0.5)  
MG402 Public Management: A Strategic Approach (0.5)  
PR415 Philosophy and Public Policy (1.0)  
PP4JS Fiscal Governance and Budgeting (0.5) (not available 2018/19)  

Comparative Public Policy and Administration:
EU421 Policy-Making in the European Union (0.5)  
EU443 European Models of Capitalism (0.5)  
EU481 The Future: Political Responses to a Challenge (0.5)  
GV403 Network Regulation (0.5) (not available 2018/19)  
GV411 States and Markets (0.5) (not available 2018/19)  
GV477 Comparative Public Policy Change (0.5)  
GV4A5 International Migration and Immigration Management (0.5)  
GV4C4 Legislative Politics: US (0.5) 1 (withdrawn 2018/19)  
GV4C5 Politics of Economic Policy (0.5) (not available 2018/19)  
GV4C6 Legislative Politics: European Parliament (0.5) 2 (withdrawn 2018/19)  
GV4C8 Game Theory for Political Science (0.5)  
GV4D4 The Politics of Inequality and Redistribution (0.5)  
GV4K1 Transparency and Accountability in Government (0.5)  
SA4F8 Behavioural Public Policy (0.5)  
SA4L1 The Governance of Welfare: The Nation State and the European Union (0.5) (withdrawn 2018/19)  
SA4M1 Politics of Social Policy: Welfare and Work in Comparative Perspective (0.5)  

Another course with the permission of the programme convenor.

Paper 4  Courses to the value of 0.5 unit(s) from the following:
MY451 Introduction to Quantitative Analysis (0.5)  
MY452 Applied Regression Analysis (0.5)  

Paper 5  GV499 Dissertation (1.0)  

Prerequisite Requirements and Mutually Exclusive Options
1: GV4C4 can not be taken with GV4C6  
2: GV4C6 can not be taken with GV4C4  

Footnotes
A  Public Management stream To qualify for this stream, the following courses must be taken: GV4E9 Approaches and Issues in Public Policy and Administration  
GV483 Public Management Theory and Doctrine (H)  
One half-unit from the Public Management courses under Paper 3.  
# means there may be prerequisites for this course. Please view the course guide for more information.
B  Comparative Public Policy and Administration stream To qualify for this stream, the following courses must be taken: GV4E9 Approaches and Issues in Public Policy and Administration  
GV477 Comparative Public Policy Change (H) or GV4F4 The Politics of Policy Advice (H)  
One half-unit from the Comparative Public Policy and Administration courses under Paper 3.  
# means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Quantitative Economic History

Programme Code: TMQEH  
Department: Economic History

For students starting this programme of study in 2018/19
Classification scheme for the award of a taught master’s degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf  
Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Students are required to attend EC400 Introductory Course in Mathematics and Statistics.

Students complete and are examined in courses to the value of four full units.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper 1  Course number, title (unit value)
Paper 1   EC400 Introductory Course in Mathematics and Statistics (0.0)  

Paper 2  EH401 Historical Analysis of Economic Change (0.5)  

Paper 2  EH422 Topics in Quantitative Economic History (1.0)  

Paper 3  EC411 Microeconomics (1.0)  
EC413 Macroeconomics (1.0)  

Paper 4  EC402 Econometrics (1.0)  
EH472 Essay in Quantitative Economic History (0.5)  

# means there may be prerequisites for this course. Please view the course guide for more
MSc in Quantitative Methods for Risk Management

Programme Code: TMQMRM  
Department: Statistics

For students starting this programme of study in 2018/19

CourseAndProgrammeInfo/updatedPGFuture.htm.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper 1  Course number, title (unit value)

Paper 1  MA400  September Introductory Course (Financial Mathematics and Quantitative Methods for Risk Management) (0.0)

Paper 2  ST409  Stochastic Processes (0.5) #

Paper 3  ST429  Statistical Methods for Risk Management (0.5) #

Paper 3  ST433  Computational Methods in Finance and Insurance (0.5) #

Students can also take the following non-assessed non-compulsory course:

Paper 4  MA432  Programming in C++ (0.0)

Paper 5  ST439  Stochastics for Derivatives Modelling (0.5) #

Paper 5  ST440  Recent Developments in Finance and Insurance (0.5) #

Paper 6  Courses to the value of 0.5 unit(s) from the following:

MA411  Probability and Measure (0.5) #

MA416  The Foundations of Interest Rate and Credit Risk Theory (0.5) #

MA420  Quantifying Risk and Modelling Alternative Markets (0.5) #

ST422  Time Series (0.5) #

ST426  Applied Stochastic Processes (0.5)

ST435  Advanced Probability Theory (0.5) #

ST436  Financial Statistics (0.5) #

ST441  Introduction to Markov Processes and their Applications (0.5) # (not available 2018/19)

ST443  Machine Learning and Data Mining (0.5) #

ST449  Artificial Intelligence and Deep Learning (0.5)

ST451  Bayesian Machine Learning (0.5) #

Courses to the value of 1.0 unit(s) from the following:

FM404  Forecasting Financial time Series (0.5) #

FM441  Derivatives (0.5) #

FM442  Quantitative Methods for Finance and Risk Analysis (0.5) #

MA409  Continuous Time Optimisation (0.5) #

Further half-units(s) from the Paper 6 options list, or from other appropriate MSc courses subject to the approval of the Programme Director and the teacher responsible for the course.

Paper 6 options list

Additional course 1

Students taking FM442 can apply for a place on the following non-assessed computer course:

FM457  Applied Computational Finance (0.0)

Additional course 2

Students can also take the following non-assessed course taken in addition to the required five compulsory half unit courses and three half units of optional courses detailed above:

MA422  Research Topics in Financial Mathematics (0.0)

Paper 6 options list

MA411  Probability and Measure (0.5) #

MA416  The Foundations of Interest Rate and Credit Risk Theory (0.5) #

MA420  Quantifying Risk and Modelling Alternative Markets (0.5) #

ST422  Time Series (0.5) #

ST426  Applied Stochastic Processes (0.5)

ST435  Advanced Probability Theory (0.5) #

ST436  Financial Statistics (0.5) #

ST441  Introduction to Markov Processes and their Applications (0.5) # (not available 2018/19)

ST443  Machine Learning and Data Mining (0.5) #

ST448  Insurance Risk (0.5) #

ST449  Artificial Intelligence and Deep Learning (0.5)

ST451  Bayesian Machine Learning (0.5) #
MSc in Real Estate Economics and Finance

**Programme Code:** TMREEF

**Department:** Geography & Environment

For students starting this programme of study in 2018/19 Classification scheme for the award of a taught master's degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Full-year programme. Students must take three compulsory courses, in addition to either FM429 or FM473L / FM473M, one optional half-unit course and a dissertation as shown. Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

PH425 Business and Organisational Ethics (0.5)
SO425 Regulation, Risk and Economic Life (1.0)
SO469 Risk and Governance: A Sociological Approach (0.5) (not available 2018/19)
ST409 Stochastic Processes (0.5) #
Any other paper with the approval of the Programme Director.

Prerequisite Requirements and Mutually Exclusive Options
1: FM431L cannot be taken with FM431M
2: FM431M cannot be taken with FM431L
A: Includes dissertation.
B: Students taking this course can apply for a place on FM457 lse.ac.uk/resources/calendar/...courseGuides/FM/2017_FM457.htm Applied Computational Finance, a non-assessed computer course.
# means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Social and Cultural Psychology
Programme Code: TMSCPS
Department: Psychological and Behavioural Science
For students starting this programme of study in 2018/19
Classification scheme for the award of a taught master's degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf
Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm
Full-year programme. Students are required to take two compulsory courses, one unassessed course (PB400), optional courses to the value of one unit and a dissertation as shown. The Department of Psychological and Behavioural Science has recoded their course codes from PS- to PB- for 2018/19. The majority of courses listed below with a PB- code are not new courses but some may have changed code.
Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper 1 Course number, title (unit value)
Paper 1 PB401 Contemporary Social and Cultural Psychology (1.0)
Students also take the unassessed course:
PB400 Psychological and Behavioural Science (0.0)

Paper 2 PB411 Methods for Social Psychology Research: Qualitative and Quantitative Methods (1.0)

Paper 3 Courses to the value of 1.0 unit(s) from the following:
PB413 Experimental Design and Methods for the Behavioural Science (0.5)
PB415 Behavioural Science (0.5) (not available 2018/19)
PB416 Cognition and Culture (0.5)
PB417 Consumer Psychology (0.5)
PB418 Corporate Communications (0.5)
PB419 Creativity and Innovation (0.5) # (not available 2018/19)
PB420 Current Communication Research (0.5) # (not available 2018/19)
PB421 Happiness (0.5)
PB422 Health Communication (0.5) (not available 2018/19)
PB424 Issues in Organizational and Social Psychology: Organizational Life (0.5) (not available 2018/19)
PB425 Issues in Social Psychology: Group Dynamics (0.5) #
PB426 Knowledge Processes in Organizations (0.5)
PB427 Organisational and Social Decision Making (0.5)
PB428 Political Psychology: Inequality & Prejudice (0.5) #
PB429 Science, Technology and Resistance (0.5)
PB430 Social Influence (0.5) #
PB431 Social Psychology of Economic Life: Advanced Topics (0.5)
MSc in Social and Public Communication

Programme Code: TMSOPUCO

Department: Psychological and Behavioural Science

For students starting this programme of study in 2018/19

Classification scheme for the award of a taught master’s degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf

Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Full year programme. Students are required to take two compulsory courses, one unassessed course (PB400), optional courses to the value of one unit and a dissertation as shown. The Department of Psychological and Behavioural Science has recorded their course codes from PS- to PB- for 2018/19. The majority of courses listed below with a PB- code are not new

Courses to the value of 1.0 unit(s) from another programme (subject to the approval of the Candidate’s Programme Director).

Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm.

Courses to the value of 0.5 unit(s) from another programme (subject to the approval of the Candidate’s Programme Director).

Paper 4

Footnotes

A: Failures in this course cannot be condoned. A bad fail is defined as a mark less than 29%. # means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Social Anthropology

Programme Code: TMAN

Department: Anthropology

For students starting this programme of study in 2018/19

Classification scheme for the award of a taught master’s degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf

Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Full year programme. Students must take courses to the value of three full units and a dissertation as shown. Attendance at seminars and at non-assessed tutorials is compulsory.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper 1

Course number, title (unit value)

PB410  Dissertation (1.0) A

Footnotes

A: Failures in this course cannot be condoned. A bad fail is defined as a mark less than 29%. # means there may be prerequisites for this course. Please view the course guide for more information.

Students who complete PB404 (formerly PS429) and PB418 (formerly PS438) can be granted exemption from up to two CIPR Diploma units. Further information is available from the Department of Psychological and Behavioural Science website lse.ac.uk/socialPsychology/Home.aspx.
Paper 3
Courses to the value of 1.0 unit(s) from a paper under paper 2 above not already taken or from the following:
AN419 The Anthropology of Christianity (0.5)
AN420 The Anthropology of Southeast Asia (0.5)

Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

**Full-year programme.**

Part 1: Social Research Methods. Students must take courses to the value of two full units and a dissertation as shown.

Part 2: Optional courses. For all students other than those on the 'Gender,' 'Population' or 'Social Policy' streams of the MSc Social Research Methods, courses to the value of one full unit can be taken from the courses listed under the heading 'Part 2 Optional Courses' below. Students on the 'Gender,' 'Population' or 'Social Policy' streams of the MSc must select courses from the options listed under their respective headings at the foot of the 'Part 2 Optional Courses' section below.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements. 

**Paper 1 - Course number, title (unit value)**

**Paper 1**

One of the following combinations of two half-unit courses:

- **MY451** Introduction to Quantitative Analysis (0.5) and **MY452** Applied Regression Analysis (0.5) #A

Or

- **MY452** Applied Regression Analysis (0.5) #B  
  AND another half-unit course in advanced quantitative methods (MY45*) or in statistics (ST4**), subject to the approval of the student's Academic Mentor. Exceptionally, students who can demonstrate an understanding of quantitative research methods commensurate with those covered in MY452 can substitute a more advanced MY45* course from the following list for MY452. This would be subject to the approval of the student's Academic Mentor. Please note that in such cases, the substitute course will be treated as a 'course critical to assessment' in place of MY452 (see Exam Sub-Board local rules lse.ac.uk/resources/calendar/LocalRules/MScSocialResearchMethods.htm for more information):

- **MY454** Applied Statistical Computing using R
MY421

Research Design (0.5)

Skills (0.5)

and Computation (1.0) #

ST442

Longitudinal Data Analysis (0.5) #

Or any other Graduate level courses from across the LSE (subject the approval of your Academic Mentor and the MSc Social Research Methods Programme Director).

**Gender Stream**

One half-unit from the following:

GI402

Gender, Knowledge and Research Practice (0.5)

GI424

Gender Theories in the Modern World: An Interdisciplinary Approach (0.5)

And one optional half unit graduate level course (typically from the Department of Gender Studies) as agreed with your Academic Mentor.

**Population Stream**

One compulsory half-unit:

SA481

Population Analysis: Methods and Models (0.5) #

And courses to the value of 0.5 units from the following:

DV411

Population and Development: an Analytical Approach (0.5)

DV444

Global Health and Population Change (0.5) #

DV456

Population, Health and Development: Evidence and Projections (0.5) #

DV457

Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)

DV458

Demographic Change and Development Dissertation (1.0) (not available 2018/19)

GI415

Gender and European Welfare States (0.5)

GI417

Gender, Population, and Policy (0.5)

SA4D1

Critical Population Health Issues in High and Middle-Income Countries (0.5) #

(not available 2018/19)

**Social Policy Stream**

One compulsory full-unit:

SA451

Social Policy Research (1.0) #

**Prerequisite Requirements and Mutually Exclusive Options**

**Footnotes**

A. Students must register for MY451M which is taught in Michaelmas Term, and MY452L which is taught in Lent Term.

B. Students may register for either MY452M which is taught in Michaelmas Term, or MY452L which is taught in Lent Term.

C. Students may register for either MY421M which is taught in Michaelmas Term, or MY421L which is taught in Lent Term.

D. The Dissertation is due in August.

# means there may be prerequisites for this course. Please view the course guide for more information.

Examsub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Academic-year programme. Students must take courses to the value of four full units.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper 1

Course number, title (unit value)

SO491 Quantitative Social Research Methods (0.5) or

SO492 Qualitative Social Research Methods (0.5)

Paper 2 & 3

Courses to the value of 2.5 unit(s) from the following:

GV479 Nationalism (1.0) (withdrawn 2018/19)

SO407 Politics and Society (1.0)

SO424 Approaches to Human Rights (1.0)

SO425 Regulation, Risk and Economic Life (1.0)

SO426 Classical Social Thought (0.5)

SO427 Modern Social Thought (0.5) (not available 2018/19)

SO430 Economic Sociology (0.5)

SO451 Cities by Design (0.5)

SO454 Families and Inequalities (0.5) (not available 2018/19)

SO457 Political Reconciliation (0.5) (not available 2018/19)

SO458 Gender and Societies (0.5) (not available 2018/19)

SO468 International Migration and Migrant Integration (0.5)

SO469 Risk and Governance: A Sociological Approach (0.5) (not available 2018/19)

SO470 The Sociology of Markets (0.5) (not available 2018/19)

SO471 Technology, Power and Culture (0.5)

SO473 Crime, Control and the City (0.5)

SO475 Material Culture and Design (0.5) (not available 2018/19)

SO477 Urban Social Theory (0.5) (not available 2018/19)

SO481 Class, Politics and Culture (0.5)

SO483 Social Change Organizations (0.5)

SO489 Family and Migration (0.5)

SO490 Contemporary Social Thought (0.5)

SO491 Quantitative Social Research Methods (0.5)

SO492 Qualitative Social Research Methods (0.5)

Paper 4

SO499 MSc in Sociology Dissertation (1.0)

Footnotes

Paper 1

ST425 Statistical Inference: Principles, Methods and Computation (1.0) #

Paper 2 & 3

Courses to the value of 2.0 unit(s) from the following:

ST405 Multivariate Methods (0.5) #

ST409 Stochastic Processes (0.5) #

ST416 Multilevel Modelling (0.5) #

ST418 Non-Linear Dynamics and the Analysis of Real Time Series (0.5) # (not available 2018/19)

ST421 Developments in Statistical Methods (0.5) # (withdrawn 2018/19)

ST422 Time Series (0.5) #

ST426 Applied Stochastic Processes (0.5)

ST435 Advanced Probability Theory (0.5) #

ST442 Longitudinal Data Analysis (0.5) #

ST443 Machine Learning and Data Mining (0.5) #

ST444 Statistical Computing (0.5)

ST449 Artificial Intelligence and Deep Learning (0.5)

Paper 4

ST451 Bayesian Machine Learning (0.5) #

Courses to the value of 1.0 unit from the following:

ST405 Multivariate Methods (0.5) #

ST409 Stochastic Processes (0.5) #

ST411 Generalised Linear Modelling and Survival Analysis (0.5) #

ST416 Multilevel Modelling (0.5) #

ST418 Non-Linear Dynamics and the Analysis of Real Time Series (0.5) # (not available 2018/19)

ST421 Developments in Statistical Methods (0.5) # (withdrawn 2018/19)

ST422 Time Series (0.5) #

ST426 Applied Stochastic Processes (0.5)

ST435 Advanced Probability Theory (0.5) #

ST442 Longitudinal Data Analysis (0.5) #

ST443 Machine Learning and Data Mining (0.5) #

ST444 Statistical Computing (0.5)

ST449 Artificial Intelligence and Deep Learning (0.5)

ST451 Bayesian Machine Learning (0.5) #

EC484 Econometric Analysis (1.0) #A

MA407 Algorithms and Computation (0.5) #

MY456 Survey Methodology (0.5) #

MY457 Causal Inference for Observational and Experimental Studies (0.5) #

SA481 Population Analysis: Methods and Models (0.5) #

Other courses may be taken with permission, except for: ST433, ST436, ST439, ST440, MA415, MA416, MA420 and any courses indexed FM. A: Statistics students taking EC484 will be required to register in early September in order to attend the econometrics component of the introductory course EC451. Students must pass an exam taken at the end of the introductory course in order to proceed to EC484.

# means there may be prerequisites for this course. Please view the course guide for more information.

The total value of all non-ST courses should not exceed one unit.

This programme is externally accredited by the RSS. Further information is available on the Department of Statistics website. lse.ac.uk/collections/statistics

The Bologna Process lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm facilitates comparability and compatibility between higher education systems across the European Higher Education systems.

Programme Code: TMSTSS
Department: Statistics

For students starting this programme of study in 2018/19 Classification scheme for the award of a taught master's degree (four units) http://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf
Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Academic-year programme. Students must take two compulsory courses and options to the value of 2.5 units as shown below.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper 1 Course number, title (unit value)

Paper 2 ST411 Generalised Linear Modelling and Survival Analysis (0.5) #

And Courses to the value of 0.5 unit(s) from the following:
ST405 Multivariate Methods (0.5) #
ST416 Multilevel Modelling (0.5) #
ST442 Longitudinal Data Analysis (0.5) #

Paper 3 Courses to the value of 1.0 unit(s) from the following:
ST405 Multivariate Methods (0.5) #
ST416 Multilevel Modelling (0.5) #
ST421 Developments in Statistical Methods (0.5) # (withdrawn 2018/19)
ST442 Longitudinal Data Analysis (0.5) #
ST443 Machine Learning and Data Mining (0.5) #
ST444 Statistical Computing (0.5)
ST449 Artificial Intelligence and Deep Learning (0.5)
ST451 Bayesian Machine Learning (0.5) #

Courses to the value of 1.0 unit(s) from the following:
ST405 Multivariate Methods (0.5) #
ST416 Multilevel Modelling (0.5) #
ST442 Longitudinal Data Analysis (0.5) #

Paper 4 Courses to the value of 1.0 unit(s) from the following:
ST405 Multivariate Methods (0.5) #
ST416 Multilevel Modelling (0.5) #
ST442 Longitudinal Data Analysis (0.5) #

MSc in Statistics (Social Statistics) (Research)

Programme Code: TMSTSSRE
Department: Statistics

For students starting this programme of study in 2018/19 Classification scheme for the award of a taught master's degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf
Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Full-year programme. Students must take two compulsory courses, options to the value of 1.5 units and a dissertation as shown below.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper 1 Course number, title (unit value)

Paper 2 ST411 Generalised Linear Modelling and Survival Analysis (0.5) #

And Courses to the value of 0.5 unit(s) from the following:
ST405 Multivariate Methods (0.5) #
ST416 Multilevel Modelling (0.5) #
ST442 Longitudinal Data Analysis (0.5) #

Paper 3 Courses to the value of 1.0 unit(s) from the following:
ST405 Multivariate Methods (0.5) #
ST416 Multilevel Modelling (0.5) #
ST421 Developments in Statistical Methods (0.5) # (withdrawn 2018/19)
ST442 Longitudinal Data Analysis (0.5) #
ST443 Machine Learning and Data Mining (0.5) #
ST444 Statistical Computing (0.5)
ST449 Artificial Intelligence and Deep Learning (0.5)
ST451 Bayesian Machine Learning (0.5) #

Courses to the value of 1.0 unit(s) from the following:
ST405 Multivariate Methods (0.5) #
ST416 Multilevel Modelling (0.5) #
ST442 Longitudinal Data Analysis (0.5) #

Paper 4 Courses to the value of 1.0 unit(s) from the following:
ST405 Multivariate Methods (0.5) #
ST416 Multilevel Modelling (0.5) #
ST442 Longitudinal Data Analysis (0.5) #
MSc in Strategic Communications

Programme Code: TMSTROM
Department: Media & Communications

For students starting this programme of study in 2018/19
Classification scheme for the award of a taught master's degree
(four units) https://info.lse.ac.uk/Staff/Divisions/Academic-
Registrars-Division/Teaching-Quality-Assurance-and-Review-
Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf
Exam sub-board local rules lse.ac.uk/resources/calendar/
LocalRules/ExamSubboard.htm

Full-year programme. Students must take three compulsory
courses, courses to the value of 1.5 units and a dissertation as
shown below.

Please note that places are limited on some optional courses.
Admission onto any particular course is not guaranteed and may be
subject to timetabling constraints and/or students meeting specific
prerequisite requirements.

Paper Course number, title (unit value)

Paper 1

MC408 Theories and Concepts in Media and Communications I (Key concepts and interdisciplinary approaches) (0.5)

And one of the following 0.5 unit courses:
MC4M1 Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (0.5) or
MC4M7 Methods of Research in Media & Communications (including Qualitative Analysis & Applied Regression Analysis) (0.5) A

Paper 2

MC431 Critical Approaches to Strategic Communications (0.5)

Paper 3

Courses to the value of 1.5 unit(s) from the following:
MC402 The Audience in Media and Communications (0.5)
MC404 Political Communication in Democracies (0.5)
MC425 Interpersonal Mediated Communication (0.5)
MC429 Humanitarian Communication:

Note for prospective students:
For future sessions lse.ac.uk/resources/calendar/
CourseAndProgrammeInfo/updatedPGFuture.htm. Changes to course and programme
information for future academic sessions can be
found on the graduate summary page for
future students lse.ac.uk/resources/calendar/
CourseAndProgrammeInfo/updatedPGProspective.htm.

Footnotes
A: MY452 is an advanced Applied Regression Analysis course offered by the Department of Methodology and must be taken by students who select MC4M7. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject
to timetabling constraints.
# means there may be prerequisites for this
course. Please view the course guide for more
information.
The total value of all non-ST courses should not exceed one unit.

MSc in Theory and History of International Relations

Programme Code: TMTHYIR2
Department: International History

For students starting this programme of study in 2018/19
Classification scheme for the award of a taught master's degree
(four units) https://info.lse.ac.uk/Staff/Divisions/Academic-
Registrars-Division/Teaching-Quality-Assurance-and-Review-
Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf
Exam sub-board local rules lse.ac.uk/resources/calendar/
LocalRules/ExamSubboard.htm

Full-year programme. Students must take courses to the value of four
units, including a dissertation as shown.

Please note that places are limited on some optional courses.
Admission onto any particular course is not guaranteed and may be
subject to timetabling constraints and/or students meeting specific
prerequisite requirements.

Paper Course number, title (unit value)

MC432 Strategic Communication in Practice: Professional Perspectives (0.5)
MC434 Digital Platforms and Media Infrastructures (0.5) #
MC436 Mediating the Past (0.5)
MG479 Information Systems for the Public Sector: Digital Government and Service Innovation (0.5) (not available 2018/19)
MG4B3 International Marketing: A Strategic Approach (0.5)
MG4F2 Marketing Analytics II: Analytics for Managing Innovations, Products and Brands (0.5)
MG4F3 New Media Marketing: Managing Online and Social Media (0.5) #
PB402 Organisational Social Psychology (1.0)
PB418 Corporate Communications (0.5)
PB427 Organisational and Social Decision Making (0.5)

Any other course which is offered in the School at master's level, subject to the consent of the candidate's programme director.

Paper 4

MC499 Dissertation: Media and Communications (1.0)

Paper 5

CourseAndProgrammeInfo/updatedPGProspective.htm.
### Paper 1
Courses to the value of 1.0 unit(s) from the following:

**HY400** Crisis Decision-Making in War and Peace 1914-2003 (1.0) #

**HY422** Presidents, Public Opinion, and Foreign Policy, from Roosevelt to Reagan, 1933-89 (1.0)

**HY429** Anglo-American Relations from World War to Cold War, 1939-91 (1.0)

**HY435** Political Islam: From Ibn Taymiyya to ISIS (1.0)

**HY436** Race, Violence and Colonial Rule in Africa (1.0)

**HY461** East Asia in the Age of Imperialism, 1839-1945 (1.0) #

**HY463** The Origins of the Cold War, 1917-1962 (1.0)

**HY465** The International History of the Balkans

### Paper 2
Courses to the value of 1.0 unit(s) from the following:

**IR411** Foreign Policy Analysis III (1.0) #

**IR412** International Institutions (1.0)

**IR415** Strategic Aspects of International Relations (1.0) #

**IR416** The EU in the World (1.0) #

**IR418** International Politics: Asia & the Pacific (1.0) (not available 2018/19)

**IR419** International Relations of the Middle East (1.0) #

**IR431** European Union Policy Making in a Global-Context (0.5) (withdrawn 2018/19)

**IR449** Conflict and Peacebuilding (0.5) #

**IR455** Economic Diplomacy (0.5)

**IR462** Introduction to International Political Theory (0.5) (not available 2018/19)

**IR464** The Politics of International Law (0.5)

**IR466** Genocide (0.5) (not available 2018/19)

**IR479** Russia in World Politics (0.5) #

**IR480** Globalisation and the State in Developing Countries (0.5)

**IR481** Europe, the US and Arab-Israeli Relations (0.5) # (not available 2018/19)

**IR482** Russia and Eurasia: Foreign and Security Policies (1.0) # (withdrawn 2018/19)

**IR498** Dissertation: LSE-PKU Double Degree MSc in International Affairs; MSc Theory and History of International Relations (1.0)

### Paper 3
Courses to the value of 1.0 unit(s) from the following:

**EH452** Latin American Development and Economic History (0.5)

**EU426** The West (0.5) (withdrawn 2018/19)

**EU475** Muslims in Europe (0.5)

**EU476** Turkey and Europe (0.5) #

**GV479** Nationalism (1.0) (withdrawn 2018/19)

**HY411** European Integration in the Twentieth Century (1.0) #

**HY432** From Cold Warriors to Peacemakers: the End of the Cold War Era, 1979-1999 (1.0)

**HY434** The Rise and Fall of Communism in Europe 1917-1990 (1.0) (not available 2018/19)

**HY439** War Cultures, 1890-1945 (1.0) # (withdrawn 2018/19)

**HY440** The Emergence of Modern Iran: State, Society and Diplomacy (1.0) (not available 2018/19)

**HY441** Islam, State and Conflict in Southeast Asia (1.0) (not available 2018/19)

**HY444** The Cold War in Latin America (1.0)

**HY448** Living with the Bomb: An International History of Nuclear Weapons and the Arms Race from the Second World War to the end of the Cold War (1.0)

**HY459** The Ottoman Empire and its Legacy, 1299-1950 (1.0)

**HY461** East Asia in the Age of Imperialism, 1839-1945 (1.0) #

**HY463** The Origins of the Cold War, 1917-1962 (1.0)

**HY465** The International History of the Balkans

**HY469** Maps, History and Power: The Spaces and Cultures of the Past (1.0)

**HY471** European Empires and Global Conflict, 1935-1948 (1.0) (not available 2018/19)

**HY472** China and the External World, 1711-1839 (1.0)

**HY473** The GDR and Communist Parties in Europe 1949-1990 (1.0) (withdrawn 2018/19)

Executive Taught Master’s Programme Regulations
### Executive MSc in Behavioural Science

**Programme Code:** TMBSEX  
**Department:** Psychological and Behavioural Science

For students starting this programme of study in 2018/19, the Department of Psychological and Behavioural Science has recoded their course codes from PS- to PB- for 2018/19. The courses listed below with a PB- code are not new courses but have been recoded. It is important to note that some may have changed code.

16 month, part-time modular programme consisting of three full units of taught courses and one full unit dissertation. Students take four compulsory half-unit courses, two optional half unit courses to the value of two units, and one optional full unit course to the value of one unit. The dissertation is a research project. An LSE Diploma is available on the completion of six taught courses and an LSE Certificate on the completion of four taught courses.

#### Paper 1
- **Course number, title (unit value):** PB450E, Behavioural Science and Policy (0.5)  
- **Month:** September

#### Paper 2
- **Course number, title (unit value):** MG406E, Behavioural Decision Science (0.5)  
- **Month:** January

#### Paper 3
- **Course number, title (unit value):** PB471E, Research Methods for Behavioural Science (0.5)  
- **Month:** March/April

#### Paper 4
- **Course number, title (unit value):** PB453E, Corporate Behaviour and Decision Making (0.5)  
- **Month:** May/June

#### Paper 5
- **Course number, title (unit value):** PB454E, Policy Appraisal and Ethics (0.5)  
- **Month:** July/August

#### Paper 6
- **Course number, title (unit value):** PB455E, Organisational Culture (0.5)  
- **Month:** September

#### Paper 7
- **Course number, title (unit value):** PB456E, Research Methods for Behavioural Science (0.5)  
- **Month:** October/November

#### Year 2
- **Course number, title (unit value):** PB451E, Dissertation in Behavioural Science (1.0)  
- **Month:** December/January

---

### Executive Taught Master’s Programme Regulations

For students starting this programme of study in 2017/18, the Executive Taught Master’s Programme Regulations apply. Please view the course guide for more information.

---

### Executive MSc in Cities

**Programme Code:** TMCIEX  
**Department:** Sociology

For students starting this programme of study in 2018/19, the Department of Sociology has recoded their course codes from PS- to PB- for 2018/19. The courses listed below with a PB- code are not new courses but have been recoded. It is important to note that some may have changed code.

18 month programme. Students must take four compulsory half-unit courses, one optional full-unit course and an Urban Consultancy Project.

#### Paper 1
- **Course number, title (unit value):** SO4A1, Governing Cities in an Urban Age: Challenges and Opportunities (0.5)  
- **Month:** January

#### Paper 2
- **Course number, title (unit value):** SO4A2, Cities and Society: Design and Social Cohesion (0.5)  
- **Month:** February

#### Paper 3
- **Course number, title (unit value):** SO4A4, Cities and the Environment: Urban Environmental Transitions (0.5)  
- **Month:** March

#### Paper 4
- **Course number, title (unit value):** SO4A5, Urban Infrastructure and Strategic Planning (1.0)  
- **Month:** April

#### Year 2
- **Course number, title (unit value):** SO4A6, Urban Development and Master Planning (1.0)  
- **Month:** May

---

### Executive MSc in Cities

**Programme Code:** TMCIEX  
**Department:** Sociology

For students starting this programme of study in 2017/18, the Executive Taught Master’s Programme Regulations apply. Please view the course guide for more information.

---

### Executive Taught Master’s Programme Regulations

For students starting this programme of study in 2017/18, the Executive Taught Master’s Programme Regulations apply. Please view the course guide for more information.
MSc in Finance (part-time)

Programme Code: TMFI

Department: Finance

For students starting this programme of study in 2018/19 Classification scheme for the award of a taught master's degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf Exam sub-board local rules lse.ac.uk/resources/calendar/

Academic year programme lasting 21 months. Students must take two full unit compulsory courses in the first year and four of the half-unit options available in the second year. They must then attend a dissertation in one of the optional half-unit courses and take an examination in the other three half-unit courses.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or student meeting specific prerequisite requirements.

List 2 - Courses assessed by Dissertation

Courses cannot be selected from this list if the course with the equivalent title has already been selected from List 1. Dedicated list of options:

- FM4T4E Private Equity, Venture Capital and Entrepreneurship - Dissertation (0.5)
- FM4T6E Topics in Portfolio Management - Dissertation (0.5)
- FM4T8E Financial Engineering - Dissertation (0.5)
- FM4U5E Fixed Income Securities and Credit Markets - Dissertation (0.5)
- FM4U7E Mergers, Buyouts and Corporate Restructurings - Dissertation (0.5)
- FM4U9E Risk Management in Financial Markets - Dissertation (0.5)

Other options:
- FM4T9 International Finance - Dissertation (0.5)
- FM4U4 Quantitative Security Analysis - Dissertation (0.5)

Footnotes

A: You will be required to write a 6,000 word dissertation (replacing the exam) in one of your half unit courses. You are expected to attend the course teaching on the half-unit that you chose to write your dissertation on.

# means there may be prerequisites for this course. Please view the course guide for more information. FM412 and FM4T9 are taught during the daytime only. To take these courses students must be able to attend teaching during the day.

Executive Global MSc in Management

Programme Code: TMGLMG

Department: Management

For students starting this programme of study in 2018/19 Classification scheme for the award of a taught master's degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf Exam sub-board local rules lse.ac.uk/resources/calendar/

A 17 month programme. Students take eight compulsory half unit courses (four units in total) and two non-assessed courses in Leadership in Practice (MG454) and Foundations of Management 2: Financial Control and Governance (modular) (MG457).
Executive Global Masters in Management - Progression Rules

Candidates who attain at least a Pass grade in MG440, MG441 and MG443 will be eligible to proceed into the second year. FM475 and MG445 are not required for progression. A student who does not meet this criterion must resit all failed/deferred papers in accordance with the rest process detailed below. If, following the rest attempt, a student:

- has attained at least a Pass grade in each of the first year papers, he/she will be eligible to proceed into the second year.
- has attained at least a Pass grade in at least one of the first year papers, he/she will be eligible to proceed into the second year: at the discretion of the Chair of the Sub-Board of Examiners; and - subject to ratification by the Graduate School Board of Examiners (GSBE).

A student who has failed all of the first year papers, he/she will not be eligible to proceed into the second year, as he/she will no longer be able to successfully complete the programme according to the School's Scheme for the Award of a Taught Master's Degree (four units). The marks of any student who fails up to two papers over the course of the programme will be subject to the penalty rules stipulated at paragraph 3.2 of the School's Scheme for the Award of a Taught Master's Degree (four units).

Executive Global Masters in Management - Retest Process

A student shall normally be entitled to re-sit any failed courses only (on one occasion).

For first year courses required for progression, where the individual assessment takes the form of an assignment or take home exam, once grades have been ratified, the faculty member responsible for the failed first year course will set the new paper and deadline for re-submission to take place as soon as possible and before the beginning of the second year. Results for resits and any subsequent progression will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be deemed to have failed the course. The results of first year courses FM475 and MG445 will be formally ratified by the Sub-Board of Examiners and Graduate School Board of Examiners in November. If it is determined that as a result of a fail in one or both of these courses an award cannot be made the faculty member responsible for the failed course will set the new paper and deadline for re-submission to take place as soon as possible. A candidate resitng these courses cannot graduate until the July Sub-Board and Graduate School Board of Examiners has met to ratify their results.

For second year courses, once grades have been ratified by the Sub-Board of Examiners and it is determined that an award cannot be made, the faculty member responsible for the failed second year course will set the new paper and deadline for re-submission to take place as soon as possible. Results for resits and subsequent classification will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be deemed to have failed the course. Resits for second year courses will result in delayed Graduation.

**Executive LLM**

**Programme Code:** TMLL2EX

**Department:** Law

For students starting this programme of study in 2018/19

Exam sub-board local rules lse.ac.uk/resources/calendar/

LocalRules/ExamSubboard.htm

1. The general regulations for MA and MSc Degrees and the Code of Practice for Taught Masters Programmes in the online Calendar apply to the Executive LLM programme except in the event of inconsistency when these regulations for the Executive LLM take priority.

2. In order to obtain the Degree, students must complete eight Executive LLM courses (see list below). Students must complete the requirements as a part-time student over a period of four years, or with the approval of the Programme Director within a period of six years. The minimum period within which the Degree can be completed is three years.

3. Alternative exit points are available to students who are not able to complete the Degree. An LSE Diploma in Legal Studies is available on completion of six courses and a Certificate of Legal Studies on the completion of four courses. There is no minimum period for completion of the alternative exit points of Certificate of Legal Studies or Diploma in Legal Studies.

4. Courses should be chosen from the list below and are subject to availability as not every course will be offered each year. Subject to the availability of teaching staff, it is intended that every course be offered at least once within the four year degree period. No other courses at LSE or elsewhere may be taken as part of the Executive LLM programme.

**Intensive Teaching**

5. The Executive LLM courses will be taught in short intensive week-long sessions, which will typically be taught in the first half of April, September and December. Each course will provide between 24 and 26 hours of contact teaching time. Teaching will normally run from Monday to Friday. In the exceptional event where a course cannot be taught on the set weekday/s (e.g. due to last minute teacher illness), teaching may be extended to the Saturday and Sunday morning of that week. Accordingly, students are expected to book trains or flights for the day before teaching commences and should, where possible, book return trains or flights on the Sunday afternoon or evening following the completion of the course.

6. Where there is student demand we may elect also to offer some courses in two intensive weekends. The two weekends will not be more than four weekends apart. Where courses are offered in the...
intensive weekend format the same course will also be offered in week-long intensive format at least once every four years.

Payment of Fees
7. All Executive LLM offer holders will be required to pay a Registration Fee within 14 days of receiving their offer of admission. The registration fee is non-refundable. Only on receipt of the registration fee, may students register onto the programme. Registered students are then required to pay a per course tuition fee in advance of their chosen course date, to secure their place. Students will only be permitted to attend a module if payment is received in time. Fee payment deadlines can be found at lse.ac.uk/intranet/LSEServices/financeDivision/feesAndStudentFinance/Paying%20fees/Executive%20programmes.aspx#llm
8. The registration fee is non-refundable. If you withdraw from the course before starting a session or are unable to attend a session for which you have registered, all module fees will be credited to a module in a later session. You must inform the Programme Manager if you are unable to attend a module you are registered for. In exceptional circumstances, at the Director’s discretion, the funds paid for that session will be refunded. Changes in fee levels may occur over the course of the programme. The student will remain liable for any difference between the fees chargeable at the later session and the fee credit from the module which the student withdrew from. Module fees are non-refundable, and will not be credited to another session, if you have attended classes but withdraw before the assessment.
9. It is our intent to offer each advertised module at least once during the four year degree period. This may not always be possible due, for example, to teacher illness or resignation. It is possible that a module may need to be cancelled at short notice, such as where the teacher is unavailable or participant numbers are very low. If this happens, students will be given the option of taking another module during the same session or, alternatively, the fees paid towards that module will be held in credit for your next chosen module/session or refunded if preferred. Students will be informed of the withdrawal of a module no later than two weeks prior to the commencement of the module.

Assessment
10. All Executive LLM courses are assessed by either take-home examination or 8,000 word extended essay.
11. To comply with the Department’s writing requirement at master’s level, all students are required to write one extended essay of 8,000 words as the assessment for one of their courses to obtain the Degree, the Diploma or the Certificate. Students are not permitted to take more than three courses assessed by extended essay to obtain the Degree or the Diploma or more than one course assessed by extended essay to obtain a Certificate.
12. Extended essays must not exceed the set word limit and must be submitted by a set deadline. Students must provide evidence of original work or a capacity for critical analysis. Students will be required, at the time of submission of their work, to sign a statement on plagiarism. An oral examination may be held if the examiners so determine.
13. The take-home examinations will be set two months after the completion of the intensive teaching. The date of the examination will be provided at the date courses are available for selection. They will be uploaded and submitted electronically. Students will be informed of the withdrawal of a module no later than two weeks prior to the commencement of the module.
14. All students are required to write an extended essay of 8,000 words as the assessment for one of their courses to obtain the Degree, the Diploma or the Certificate. Students are not permitted to take more than three courses assessed by extended essay to obtain the Degree or the Diploma or more than one course assessed by extended essay to obtain a Certificate. The extended essay topic will be set by the course teacher. The student may propose essay topics and ideas to the teacher.
15. All students will be required to be online during the examination period in case there is any need to contact them.
16. Students will be able to re-sit a course examination once. A re-sit examination will be set as soon as possible after the student is notified of the failure. At the Programme Director’s sole discretion in lieu of a re-sit or deferred examination the student may be required to submit an 8,000 word essay. This can only occur when the student has not already completed the maximum of three 8,000 word essays.
17. Any student who fails an exam twice in the same course will not be able to proceed to complete the Executive LLM programme. Students will not be able to proceed to take further courses if at the first sit and the re-sit examination are both bad fails or if the failure is not a bad fail but the student has failed another course following the re-sit. If such a student has already successfully completed 4 courses or 6 courses prior to such a failure, the student will be awarded a Certificate of Legal Studies or Diploma of Legal Studies.

Registration
18. The maximum period of registration on the programme is six years. Therefore completion of all the degree requirements (or Diploma, Certificate) must be within a six year period.

Course Completion Rate
19. Students will be expected to take one to two courses per year. Any student who fails to take a course for a two year period will be asked to provide reasons for the failure to complete courses. Any student who following such a request either fails to provide a response to the Programme Director or fails to complete a course in the year following the giving of these reasons, may be deregistered from the programme.

Degree Certificate
20. Students who successfully complete the Executive LLM examination requirements may elect to have one of the following titles attached to their degree certificate if, in the opinion of the Programme Director of the LLM, the title reflects the course of study followed by the student. This would mean taking a minimum of 4 courses within a specialist area. The possible titles are listed below with the courses attached to those areas listed with them. If no such election is made, the LLM degree certificate will state ‘LLM without further specification’.

</tr>
<tr>
<td>Paper 8</td>
<td>PP409E Public Policy in Practice Workshop III (EMPA) (0.5) #</td>
</tr>
</tbody>
</table>

# means there may be prerequisites for this course. Please view the course guide for more information.

An LSE Diploma is available on the completion of six courses and an LSE Certificate on the completion of four courses. Candidates who attain at least a Pass grade in each of the Year 1 courses PP4G8E, PP478E and PP455E will be eligible to progress to Year 2. The Year 1 course PP4G9E will not count towards progression but the grade will count towards the final degree classification.

Students wishing to defer the submission of one or more assessment components must seek permission according to the Regulations for Taught Master’s Degrees prior to the assessment due date, except in the case of unforeseen and exceptional circumstances. Students deferring one or more assessment components in Year 1 may exceptionally progress to Year 2 and submit any deferred assessment at the next normal opportunity, if they complete and pass two of the three half units PP4G8E, PP478E and PP455E in Year 1. Students failing one but not more than one of PP4G8E, PP478E and PP455E in Year 1 will normally be able to progress to Year 2, although this fail will count toward the degree classification according to the Scheme for the Award of a Taught Master’s Degree. Students failing more than one of PP4G8E, PP478E and PP455E in Year 1 have to re-sit relevant assessment components and pass the required number of half units before they can progress to Year 2. Students are permitted to re-sit failed exams in line with the School’s Regulations for Taught Master’s Degrees.

The Sub-Board may recommend to the Graduate School Board of Examiners (GSBE) that a student can progress to year two of the programme even if they have not met the normal application of the progression rules. This can only be done on an exceptional basis where:

(a) the Sub-Board has determined that a student has demonstrated that their progression has been affected by circumstances beyond their control through the exceptional circumstances procedure and;

(b) the GSBE approves the Sub-Board’s recommendation.
Executive Master of Public Administration

# means there may be prerequisites for this course.
Please view the course guide for more information.

An LSE Diploma is available on the completion of six courses and an LSE Certificate on the completion of four courses.

Students wishing to defer the submission of one or more assessment components must seek permission according to the Regulations for Taught Master's Degrees prior to the assessment due date, except in the case of unforeseen and exceptional circumstances. Students deferring one or more assessment components in Year 1 may exceptionally progress to Year 2 and submit any deferred assessment at the next normal opportunity, if they complete and pass two of the three half units PP4G8E, PP478E and PP455E in Year 1.

Students failing one but not more than one of PP4G8E, PP478E and PP455E in Year 1 will normally be able to progress to Year 2, although this fail will count towards their degree classification according to the Scheme for the Award of a Taught Master's Degree. Students failing more than one of PP4G8E, PP478E and PP455E in Year 1 have to re-sit relevant assessment components and pass the required number of half units before they can progress to Year 2. Students are permitted to re-sit failed exams in line with the School's Regulations for Taught Master's Degrees.

The Sub-Board may recommend to the Graduate School Board of Examiners (GSBE) that a student can progress to year two of the programme even if they have not met the normal application of the progression rules. This can only be done on an exceptional basis where:
(a) the Sub-Board has determined that a student has demonstrated that their progression has been affected by circumstances beyond their control through the exceptional circumstances procedure and;
(b) the GSBE approves the Sub-Board's recommendation.

Executive Master of Public Policy

Programme Code: TMMPPEX

Department: School of Public Policy

Or

Another course from Paper 6 above
# means there may be prerequisites for this course. Please view the course guide for more information. An LSE Diploma is available on the completion of six courses and an LSE Certificate on the completion of four courses.

Candidates who attain at least a Pass grade in each of the Year 1 courses PP4J1E, PP478E and PP455E will be eligible to progress to Year 2. The Year 1 course PP4J2E will not count towards progression but the grade will count towards the final degree classification. Students wishing to defer the submission of one or more assessment components must seek permission according to the Regulations for Taught Master’s Degrees prior to the assessment due date, except in the case of unforeseen and exceptional circumstances. Students deferring one or more assessment components in Year 1 may exceptionally progress to Year 2 and submit any deferred assessment at the next normal opportunity, if they complete and pass two of the three half units PP4J1E, PP478E and PP455E in Year 1.

Students failing one but not more than one of PP4J1E, PP478E and PP455E in Year 1 will normally be able to progress to Year 2, although this fail will count toward their degree classification according to the Scheme for the Award of a Taught Master’s Degree. Students failing more than one of PP4J1E, PP478E and PP455E in Year 1 have to re-sit relevant assessment components and pass the required number of half units before they can progress to Year 2. Students are permitted to re-sit failed exams in line with the School’s Regulations for Taught Master’s Degrees.

The Sub-Board may recommend to the Graduate School Board of Examiners (GSBE) that a student can progress to year two of the programme even if they have not met the normal application of the progression rules. This can only be done on an exceptional basis where:
(a) the Sub-Board has determined that a student has demonstrated that their progression has been affected by circumstances beyond their control through the exceptional circumstances procedure and;
(b) the GSBE approves the Sub-Board’s recommendation.

Executive MSc in Social Business and Entrepreneurship

**Programme Code:** TMMSBEEX  
**Department:** Management

For students starting this programme of study in 2018/19

12 month programme. Students must take six compulsory half-unit courses and a full unit Altruistic Entrepreneur Project.

<table>
<thead>
<tr>
<th>Paper</th>
<th>Course number, title (unit value)</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

**Resit process:** Once all grades have been ratified by the Sub-Board of Examiners and it is determined that an award cannot be made, the faculty member responsible for the failed course will set the new paper and deadline for re-submission to take place as soon as possible. Results for resits and subsequent classification will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be deemed to have failed the course. Resits will result in delayed Graduation
from December to July.

**Note for prospective students:**
For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm. Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm.

For students starting this programme of study in 2017/18

Classification scheme for the award of a taught master’s degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf

Exami sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Students must take courses to the value of three units and a dissertation as shown. Additionally, all students must take EU465 Research Methods and Design in EU Politics, and if their timetable allows, EU450 Engaging with Europe: Professional Skills, in preparation for the dissertation.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper 1

Part I: Foundation

Students must choose two out of the following three courses:

- EU421 Policy-Making in the European Union (0.5)
- EU435 History and Theory of European Integration (0.5)
- IR416 The EU in the World (1.0)

Part II: Optional courses

Any courses which in combination with the foundation courses bring the total list of courses to the value of three units. If students wish their optional courses to result in a degree specialism, their chosen optional courses must come to a total value of at least one full unit from that specialism. Only one specialism is permitted. Courses from the heading 'Methods' cannot result in a specialism.

Policy Making and Public Policy in the European Union

EU425 Interest Representation and Economic Policy- Making in Europe (0.5)
EU440 The Balkans in Europe: Transition, Democratisation, Integration (0.5)

MSc in Global Media and Communications (LSE and UCT)

Programme Code: TMGLMECO3
Department: Media & Communications
For students starting this programme of study in 2018/19
Year 1 at LSE
Students take a total of three LSE units and a dissertation as shown.

Paper 1 MC408 Theories and Concepts in Media and Communications (I (Key concepts and interdisciplinary approaches) (0.5)
And one of the following 0.5 unit courses:
MC4M1 Methods of Research in Media & Communications (including Qualitative &
FAM4031S Quantitative Analysis (0.5) or
FAM4M7 Methods of Research in Media & Communications (including Qualitative Analysis & Applied Regression Analysis) (0.5) A

Paper 2
MC411 Media and Globalization (0.5)

Courses to the value of 1.5 unit(s) from the following:
DV429 Global Civil Society (0.5) (withdrawn 2018/19)
GI422 Sexuality, Gender and Globalisation (1.0)
MC405 Policy and Practice in ICTs and Development (0.5) (not available 2018/19)
MC407 International Media and The Global South (0.5)
MC416 Representation in the Age of Globalisation (0.5)
MC420 Identity, Transnationalism and the Media (0.5) (not available 2018/19)
MC423 Global Media Industries (0.5)
MC426 Film Theory and World Cinema (0.5)
MC428 Media Culture and Neoliberalism in the Global South (0.5) (not available 2018/19)
MC429 Humanitarian Communication: vulnerability, discourse and power (0.5)
MC433 Technology and Justice (0.5) #
MC435 Disruptive Digital Worlds: Competing Economic and Political Economy Explanations (0.5)
MC436 Mediating the Past (0.5)
Any other MSc-level course which is offered in the School, subject to the consent of the candidate's programme director. NOTE: Students can take no more than one full unit of courses from outside the department of Media and Communications (non MC-prefixed courses).

Paper 3
MC499 Dissertation: Media and Communications (1.0) B

Year 2 at UCT

Students are required to complete a minor dissertation research project or creative production, two compulsory taught courses and two elective taught courses of which no more than one can be at HEQF Level 8 (4000 level). One of the two elective courses may be taken in another cognate UCT department such as the Centre for African Studies, Historical Studies, Political Studies, or Anthropology:
AM4007F Narrative Literary Journalism
FAM4010F Media Markets and Media Strategy
FAM4013F Political Communication
FAM4017F Advanced Television Analysis
FAM4032F Understanding Public Argumentation
FAM4033F Screenwriting
FAM5039F Approaches to African Cinema
FAM4004S Avant-Garde Film
FAM4014S Political Journalism
FAM401SS Environmental Documentary
FAM4016S Wildlife Documentary
FAM4031S South African Public Rhetoric

Elective courses
Students select one F elective and one S elective course from the list below. Not all electives may be offered every year and one elective may be on HEQF Level 8 (4000 level). One of the two elective courses may be taken in another cognate UCT department such as the Centre for African Studies, Historical Studies, Political Studies, or Anthropology:
AM4007F Narrative Literary Journalism
FAM4010F Media Markets and Media Strategy
FAM4013F Political Communication
FAM4017F Advanced Television Analysis
FAM4032F Understanding Public Argumentation
FAM4033F Screenwriting
FAM5039F Approaches to African Cinema
FAM4004S Avant-Garde Film
FAM4014S Political Journalism
FAM401SS Environmental Documentary
FAM4016S Wildlife Documentary
FAM4031S South African Public Rhetoric

FAM4034S Forms and Theories of Adaptation
FAM5011S Media and the Public Domain
FAM5016S Creative Non-Fiction
FAM5036S Rhetoric of SA Social Memory
FAM5038S Mobile Media and Communications
FAM5040S Conceptualising SA Cinema

Paper 3
MC411 Media and Globalization (0.5)

Courses to the value of 1.5 unit(s) from the following:
DV429 Global Civil Society (0.5) (withdrawn 2018/19)
GI422 Sexuality, Gender and Globalisation (1.0)
MC405 Policy and Practice in ICTs and Development (0.5) (not available 2018/19)
MC407 International Media and The Global South (0.5)
MC416 Representation in the Age of Globalisation (0.5)
MC420 Identity, Transnationalism and the Media (0.5) (not available 2018/19)
MC423 Global Media Industries (0.5)
MC426 Film Theory and World Cinema (0.5)
MC428 Media Culture and Neoliberalism in the Global South (0.5) (not available 2018/19)
MC429 Humanitarian Communication: vulnerability, discourse and power (0.5)
MC436 Mediating the Past (0.5)
Any other MSc-level course which is offered in the School, subject to the consent of the candidate's programme director. NOTE: Students can take no more than one full unit of courses from outside the department of Media and Communications (non MC-prefixed courses).

Paper 4
MC499 Dissertation: Media and Communications (1.0) B

Paper 5
Students are required to complete a minor dissertation research project or creative production, two compulsory taught courses and two elective taught courses of which no more than one can be at HEQF Level 8 (4000 level). One of the two elective courses may be taken in another cognate UCT department such as the Centre for African Studies, Historical Studies, Political Studies, or Anthropology:
AM4007F Narrative Literary Journalism
FAM4010F Media Markets and Media Strategy
FAM4013F Political Communication
FAM4017F Advanced Television Analysis
FAM4032F Understanding Public Argumentation
FAM4033F Screenwriting
FAM5039F Approaches to African Cinema
FAM4004S Avant-Garde Film
FAM4014S Political Journalism
FAM401SS Environmental Documentary
FAM4016S Wildlife Documentary
FAM4031S South African Public Rhetoric

FAM4034S Forms and Theories of Adaptation
FAM5011S Media and the Public Domain
FAM5016S Creative Non-Fiction
FAM5036S Rhetoric of SA Social Memory
FAM5038S Mobile Media and Communications
FAM5040S Conceptualising SA Cinema

Footnotes
A: MY452 is an advanced Applied Regression Analysis course offered by the Department of Methodology and must be taken by students who select MC4M7. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject to timetabling constraints.
B. The dissertation must be between 10,000 and 12,000 words). Passing MC499 is a requirement for passing the programme.

MSc in Global Media and Communications (with Fudan, USC or UCT)

Programme Code: TMGLMECO2
Department: Media & Communications
For students starting this programme of study in 2017/18

Year 1 at LSE
Students take a total of three LSE units and a dissertation as shown.

Paper 1
MC408 Theories and Concepts in Media and Communications I (Key concepts and interdisciplinary approaches) (0.5)
MC4M1 Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (0.5)

Paper 2
MC411 Media and Globalization (0.5)

Paper 3
MC411 Media and Globalization (0.5)

Courses to the value of 1.5 unit(s) from the following:
DV429 Global Civil Society (0.5) (withdrawn 2018/19)
GI422 Sexuality, Gender and Globalisation (1.0)
MC405 Policy and Practice in ICTs and Development (0.5) (not available 2018/19)

Any other MSc-level course which is offered in the School, subject to the consent of the candidate's programme director. NOTE: Students can take no more than one full unit of courses from outside the department of Media and Communications (non MC-prefixed courses).

Paper 4 MC499 Dissertation: Media and Communications (1.0) A

Year 2 at USC

Students take a total of 24 USC units.

Paper 5 COM 598 Global Communication Research Practicum (4 USC units)

20 USC units (normally total of 5 courses; all Communication courses 4 units each):

500 Managing Communication (4, Sp/Sm)
501 Communication Management Pro-Seminar (4, Fa/Sp)
502 Strategic Corporate Communication (4, Sp)
504x Seminar in Interpersonal Communication (4, Fa, even years)
505 Communication in Work Settings (4, Fa)
506 Images and Image Management (4, Sp)
507 Information Management (4, Fa)
508x Power, Politics and Conflict in Communication (4, 2 years, Sp)
509x Seminar in Classical Rhetorical Theory (4, Fa)
510 Communication, Values, Attitudes, and Behavior (4, Fa/Sp)
511x Seminar in Contemporary Rhetorical Theory (4, Sp)
512x Seminar in Rhetorical Criticism (4, Fa)
513x Seminar in Neoclassical Rhetorical Theory (4, 2 years, Sm)
514x Seminar: Social Movements as Rhetorical Form (4, 2 years, Sp)
515x Seminar in Postmodern Rhetorical Theory (4, 2 years, Fa)
516x Seminar: Feminist Theory and Communication (4, 2 years, Sp)
517x Seminar in Rhetorical Theory and Culture (4, Sp)
518x American Public Address (4, Sp, odd years)
519x Seminar: Cultural Studies in Communication (4, 2 years, Fa)
520 Social Roles of Communication Media (4, Fa/Sp)
521x Seminar in Argumentation (4, 2 years, Sp)
522x Seminar in Kenneth Burke's Dramatistic Theory (4)
524x Seminar in Small Group Process (4, Sp, even years)
528 Web Designs for Organizations (4, Fa/Sp)
530 Social Dynamics of Communication Technologies (4, Sp/Sm)
531 Communication and the International Economy (4, Fa)
532 Development of American Media Industry (4, Fa)
533 Emerging Communication Technologies (4, Fa/Sp)
534 The Culture of New Technologies (4, Fa/Sp)
535 Virtual Groups and Organizations (4, Fa/Sp)
540 Uses of Communication Research (4, Fa/Sp)
541 Integrated Communication Strategies (4, Sp)
542 Business Strategies of Communication and Entertainment Firms (4, Sp)
543 Managing Communication in the Entertainment Industry (4, Fa)
544 The Arts and New Media (4, Fa)
545 Communication and Global Competition (4, Sp)
546 Seminar in Diffusion Theory and Research (4, 2 years, Sp)
547 Distribution of Recordings: Media, Retail and Online Channels (4, Sp)
548 Issues in Children's Media (4, Sp)

MSc in Global Media and Communications (LSE and USC)

Programme Code: TMGLMECO
Department: Media & Communications

For students starting this programme of study in 2017/18

University of Chicago: Executive MA in Public and Health Policy

Students must take six compulsory courses and a dissertation as shown.

**Notes:**
- A: The dissertation must be between 10,000 and 12,000 words. Passing MC499 is a requirement for passing the programme.

### LSE-LSHTM MSc in Health Policy, Planning and Financing

**Programme Code:** TIHHPPF

**Department:** Health Policy

For students starting this programme of study in 2018/19

Classification scheme for the award of a taught master’s degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf

Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Full-year programme taught jointly with the London School of Hygiene and Tropical Medicine (LSHTM). Students must take courses to the value of four units as shown below, and undertake a 6,000 word dissertation. It is highly recommended that students select courses which spread the workload over the course of the year. The dissertation will be completed during the summer.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

### Year 2 at University of Chicago

May

Paper 12 | Analytical Politics: The Policy-Making Process |

Notes:
- The award of this programme is subject to the regulations as set out at each institution.

In order to progress to year two of the programme LSE must receive confirmation from the University of Chicago that the student has passed Paper 8 “Microeconomics for Health Policy I”. Students cannot progress to year two until this course is passed. This course title and indication of Pass will appear on the LSE transcript but the LSE degree classification shall only be calculated on the marks achieved in the four LSE course units. An LSE award can only be made when a student has successfully completed all LSE and University of Chicago assessments.

Where a student fails an LSE assessment they are permitted one attempt to resubmit this assessment at the next appropriate opportunity which is normally during the next academic year during the equivalent assessment period. Where a student is required to resubmit an assessment, their overall LSE degree will be capped at a Pass.
be taken):
(LSHTM) 1107 Health Services (0.5)
(LSHTM) 1117 Health Policy, Process and Power (0.5)
(LSHTM) 1123 Issues in Public Health (0.5)
(LSHTM) 2001 Basic Epidemiology (0.5)
Papers 5, 6 & 7
Three courses from the following range of options: A
HP402 Measuring Health System Performance (0.5)
HP403 Health Systems and Policies in Developing Countries (0.5)

(LSHTM) 1501 Economic Evaluation (0.5)
(LSHTM) 1503 Globalisation and Health (0.5)
(LSHTM) 1504 Economic Analysis for Health Policy (0.5)
(LSHTM) 1606 Analytical Models for Decision Making (0.5)
(LSHTM) 1808 Health Systems (0.5)
Another LSE course (not listed above) with permission.
Another LSHTM course (not listed above) with permission.

Paper 8
Footnotes
A: At least one course must be taken at LSE and at least one course must be taken at LSHTM in Papers 5, 6 & 7. It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of Health Policy (i.e. not prefixed with 'HP').

Note for prospective students:
For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm. Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm.

Regarding Economic History (EH) courses only: it may be possible to take further options among EH courses with the agreement of the course teacher responsible and the Academic Coordinator of the Double Degree.

One of the above may be replaced by a further course from other LSE departments (subject to agreement with tutor and teacher responsible for the course).
from other LSE departments (subject to agreement with tutor and teacher responsible for the course).

**Compulsory Language Requirement**

Students can fulfil the language requirement of the dual Master's degree in three different ways:

1) By taking two years of language training while at Columbia and the London School of Economics.
2) By taking, and passing, two translation exams. (Both translation exams must be taken at Columbia. See sample translation exams on the CU History Department website).
3) By taking, and passing, one translation exam and studying a language for one year, either at Columbia or at the LSE Language Centre.

Executive Taught Master’s Programme Regulations  461

University of Pennsylvania Law School LLM

Visiting Students

A one term (Michaelmas) exchange programme for visiting Penn Law students. The Penn-LSE exchange programme is attached to the LLM programme. Students from Penn Law will spend one term at LSE and choose 4 half-unit courses from the list below. There is no guarantee that students will be able to enrol on any specific course. Penn-LSE exchange students are not here in the main examination period therefore are assessed during Michaelmas term.

Students take half unit courses to the value of two units.

Student will not be required to complete summative assessments or examinations outside of their term of study. Students will be assessed during their term of study at the LSE.

Students are not permitted to take one unit courses.

Please note that places are limited on some optional courses. 

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

1: GV4C4 cannot be taken with GV4C6
2: GV4C6 cannot be taken with GV4C4

For either the MSc in Local Economic Development, or MSc in Regional and Urban Planning Studies, or MSc in Urbanisation and Development as follows:

**Programme Code:** TMURPO

**Department:** Geography & Environment

For students starting this programme of study in 2018/19 MSc in Local Economic Development

Full-year programme. Students must take courses to the value of three full units as shown and a dissertation (1 unit). A total of 4 units.

**Paper 1 & 2**

- GY404 Local Economic Development: Jobs, Poverty, Policy (0.5) *
- GY410 Economics of Local and Regional Development (0.5)
- GY413 Regional Development and Policy (0.5) *
- GY415 Local Capacity and Economic Development Policy (0.5)

**Paper 3**

Courses to the value of 1.0 unit(s) from the following:
- EU434 The Political Economy of Southeast Europe (0.5) # (withdrawn 2018/19)
- EU439 Political and Fiscal Integration and Disintegration in EU Member States (0.5)
- EU477 Labour Markets and the Political Economy of Employment in Europe (0.5) # (not available 2018/19)
- GY400 The Economics of Urbanisation (0.5) *
- GY420 Environmental Regulation: Implementing Policy (1.0)
- GY428 Applied Quantitative Methods (0.5) *
- GY431 Cities, People and Poverty in the South (0.5) *
- GY438 Cities and Social Change in East Asia (0.5) *
- GY447 The Economics of Regional and Urban Planning (0.5) *
- GY455 Economic Appraisal and Valuation (0.5)
- GY460 Techniques of Spatial Economic Analysis (0.5) *
- GY465 Concepts in Environmental Regulation (0.5)
- GY470 Urban Africa (0.5)
- GY475 Issues in Environmental Governance (0.5)
- GY480 Remaking China: Geographical aspects of Development and Disparity (0.5) # (not available 2018/19)
- MY452 Applied Regression Analysis (0.5) *

A relevant course from another programme as approved by the Programme Director.

**Paper 4**

- GY499 Dissertation (1.0)
- GY500 MSc in Regional and Urban Planning Studies

Full-year programme. Students must take courses to the value of three full units and a dissertation. Additionally all students are required to take GY450 Planning Practice and Research. This programme is externally accredited by the RICS. Further information is available on the Geography and Environment Department lse.ac.uk/collections/geographyAndEnvironment/ website (see Quick Links to Regional and Urban Planning Studies).

**Paper 5**

**Prerequisite Requirements and Mutually Exclusive Options**

1: GI409 Gender, Globalisation and Development: An Introduction (0.5)
2: GI420 Globalisation, Gender and Development: Theorising Policy and Practice (0.5)
3: GI400 The Economics of Urbanisation (0.5) *
4: GI403 Contemporary Debates in Human Geography (0.5)
5: GI409 Globalization and Regional Development (0.5) (not available 2018/19)

Taught Master’s Course Guides
AC411  Half Unit
Accounting, Strategy and Control

This information is for the 2018/19 session.
Teacher responsible: Prof Wim Van der Stede OLD 2.18, supported by various professors who teach blocks of materials on the course.

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPhil/PhD in Accounting, MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions and MSc in Law and Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit. Other students may be admitted only with the agreement, in writing, of the MSc Programme Director, if they have sufficient relevant background knowledge.

The course is capped to three sections of around 55 students; ie 165 total. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, "must have" courses. Late registration or changes to earlier course choices may be unsuccessful.

Course content: This course provides an advanced overview of current theoretical and practical developments in the area of organisational control, which is an essential function of management to ensure that the organisation's objectives and strategies are carried out effectively. Good management control increases the probability of organisational success. Specifically, the course discusses what it means to have an organisation be in control, what alternatives managers have for ensuring good control, and how managers should choose from among various control system alternatives. Then the course turns to focusing on each of the elements of financial control systems, which provide the dominant form of control in the vast majority of decentralised organisations. These elements include financial target setting, performance measurement and evaluation and the assignment of various forms of organisational rewards such as bonuses and promotions. The latter part of the course extends these key notions of management control from the intra-organisational level to the inter-organisational level, highlighting some of the difficulties involved in organisational control of new, fluid, inter-organisational settings and configurations, such as joint-ventures and various types of alliances, often involving global alliance partners.

The course will cover the following topics:
• Strategy and the design of management control systems, including strategic and operational plans and budgets
• Management control alternatives, including results controls, and organisational architecture
• Decision rights and results accountability in decentralised organisations
• Incentive compensation systems, including short-term and long-term incentive plans
• Performance measurement and evaluation, including objective and subjective performance evaluations
• Management control in inter-organisational relationships, including joint-ventures

As a final note, the discipline of management accounting is often partitioned into (1) management control systems and (2) cost and management accounting systems, where the latter is the key focus of another course, AC415. AC411 can, but is not required, to be taken with AC415. Students can take either AC411 or AC415, or both.

Teaching: 30 hours of seminars in the MT.
Note: Week 1 of MT is reserved for an intensive pre-session course for MSc Accounting and Finance students; therefore, main courses, including AC411, start in Week 2 of Michaelmas term, hence, teaching is during 10 weeks from Week 2 through 11. Specifically, AC411 consists of 10 principal topics delivered in two sessions of 1.5 hours each week. The first session each week typically provides an introduction, conceptual analysis, and discussion of the key facets of the topic. The second session offers a further discussion and expansion of the issues through case study analysis and real-world applications. Each session is conducted in groups of about 55 students. The case study discussions permit the exploration of management control issues in a broad range of settings. The case method of instruction requires good advance preparation by the students, and every person should be ready to contribute to the case discussion when called upon. Students should expect to be ‘cold called’ and cannot count on being able to hide behind classmates who volunteer to participate. Active participation is also expected and encouraged during non-case sessions. Blocks of sessions are taught by various notable professors in the relevant topic areas and the subject of management controls generally.

Formative coursework: Students are expected to come to each session prepared having done the assigned readings and having prepared the assigned cases.

Indicative reading: A detailed reading list is laid out for each session on the syllabus.

Assessment: Exam (70%, duration: 2 hours) in the January exam period.
Essay (15%) in the MT.
Project (15%) in January.
Students are required to complete two essays during term-time (totaling 15% of the mark for the course), a group project, due in January (15%), and a final exam in LT week 0 in early January 2019 (70%).

AC412  Half Unit
Accountability, Organisations and Risk Management

This information is for the 2018/19 session.
Teacher responsible: Prof Michael Power KSW.3.12 and Dr Tommaso Palermo KSW.3.07

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Accounting, MSc in Accounting and Finance, MSc in Economy, Risk and Society, MSc in Law and Accounting, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Risk and Finance and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Other students may be admitted only with the agreement, in writing, of the MSc (Accounting) Course Tutor.

Course content: This is an advanced course focusing on the organisational and institutional settings within which risk is managed.

On the one hand, the course explores the intersections of risk and corporate governance, by focusing on the risks that arise at top management and board of directors level, including lack of external
oversight, executive pay issues, board interlocks, and strategic irreversibility. The course deals, on the other hand, with key issues in organisational responses to risk and uncertainty, including the impact of disasters and accidents and the growing formalisation and standardisation of risk management practice. The overall purpose of the course is to provide students with a critical appreciation of the management of risk as an organisational and social process. The course is necessarily cross-disciplinary, drawing on scholarship within accounting, organisational sociology and regulation studies.

**Teaching:** 33 hours of seminars in the LT.

**Formative coursework:** Two pieces of written work will be assessed during the term but the grades will not count towards the overall course assessment.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**AC415 Half Unit**

**Management Accounting for Decision Making**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Bjorn Jorgensen Old 2.17

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MPhil/PhD in Accounting, MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions and MSc in Law and Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course cannot be taken concurrently with **AC490 Management Accounting, Decisions and Control**.

Other students may be admitted only with the agreement, in writing, of the MSc (Accounting) Course Tutor if they have sufficient relevant background knowledge.

The course is capped to two sections of around 50 students; ie, 100 total. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to mitigate these problems (eg, activity-based costing; use of non-financial information). The course is necessarily cross-disciplinary, drawing on scholarship within accounting, organisational sociology and regulation studies.

Topics in Financial Reporting

This information is for the 2018/19 session.

**Teacher responsible:** Dr Maria Manuel Correia OLD 3.12

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions and MSc in Law and Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit.

Other students may be admitted if they have knowledge of financial accounting acquired at undergraduate level, and only with the agreement, in writing, of the MSc (Accounting and Finance) Course Tutor.

The course is capped to four sections of around 50 students; ie, 200 total. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted
on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, "must have" courses. Late registration or changes to earlier course choices may be unsuccessful.

Pre-requisites: Prior knowledge of financial accounting is assumed. AC480 (Qualitative Methods in Accounting and Finance) is a pre-requisite for students with no/little prior knowledge of financial accounting.

Course content: Corporate financial statements are a key source of information about the economic activities of a firm. This course is intended to enhance the student's ability to relate economic events to financial statements and disclosures. It also seeks to aid in developing a coordinated set of concepts and principles to serve as a framework for analysing a wide variety of financial reporting issues. The goal is to enable students to understand the mapping between underlying economic events and the information in financial statements, and how this mapping affects inferences about the economic activities and position of the firm. The course also explores the regulatory environment and political climate, and how these link with the introduction of new standards and their underlying theories. Students are encouraged to relate economic events to diverse practices in financial statements, and to think critically of ongoing controversies and debates.

The emphasis of this course is on understanding and critical thinking, rather than bookkeeping. The course draws heavily on academic literature on the suggested topics. The course objectives are achieved through teaching a variety of financial reporting issues and topics including the following: standard setting with respect to the conceptual frameworks; accounting for business combinations; accounting for value creation with special emphasis on cash flows statements and revenue recognition; capital markets efficiency; corporate disclosure, and corporate governance. Most topics are covered from an International Financial Reporting Standards and/or United States Generally Accepted Accounting Principles perspective. Detailed choice of subjects will be determined by those lecturing on the course and may vary to some extent from year to year. Knowledge of basic accounting is assumed.

Teaching: 30 hours of seminars in the MT.
Teaching is delivered in two one and a half hour sessions each week. Each session is conducted in groups of about 55 students, often involving case study analyses and group discussions. This mode of teaching requires good advance preparation by the students; hence, every student should be ready to contribute to the discussion when called upon. Active participation is expected and encouraged.

Formative coursework: Students will be expected to produce 2 problem sets in the MT.

Indicative reading: Detailed reading lists are handed out at the start of the course, and will be largely based on papers in academic journals. Relevant books covering specific parts of the course are: Financial Reporting and Analysis, by Revsine, Collins, Johnson and Mittelstaedt (McGraw Hill, 5th ed.); Financial Accounting: An Introduction to Concepts, Methods and Uses, by Stickney, Weil, Schipper and Francis (Thomson Learning, South-Western, 14th ed.).

Assessment: Exam (80%, duration: 2 hours) in the January exam period.
Other (20%) in the MT.
Other = Group projects which will require students to search the press for issues of relevance to the topic they have been assigned and produce a five-page report which they will present in class.

---

AC417 Half Unit

Corporate Financial Disclosure and Investor Relations

This information is for the 2018/19 session.

Teacher responsible: Dr Ken Lee OLD 3.29 and Dr Pascal Frantz OLD 3.07

Availability: This course is available on the Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions and MSc in Law and Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit.

Other students may be admitted if they have knowledge of financial accounting and finance acquired at undergraduate level, and only with the agreement, in writing, of the MSc (Accounting and Finance) Course Tutor.

The course is capped to two sections of around 55 students; ie, 110 total. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, student on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, "must have" courses. Late registration or changes to earlier course choices may be unsuccessful.

Course content: Investors view firms through the lens of financial accounting and reporting. This course aims to examine this lens by covering topics on the interaction of financial accounting and reporting with capital markets with a focus on corporate disclosure and communication strategies. The course views corporate financial reporting as an information system and reviews the theories and empirical regularities on the demand for and supply of accounting information in capital markets while also assessing the stock market impact of communication strategies.

Some of the topics covered in the course include: Determinants of accounting choices; Capital markets and the earnings game; Voluntary disclosure theory and practices; The signalling role of accounting information; Capital market consequences of accounting and disclosure choices; Financial reporting and corporate governance; The course is based on a number of theories, empirical applications, and case studies, so that students gain an understanding firm's corporate information environment and communication strategies.

Detailed choice of subjects will be determined by those lecturing on the course and may vary to some extent from year to year. Knowledge of basic accounting and finance is assumed.

Teaching: 33 hours of seminars in the LT.
Teaching is delivered in three hour sessions each week. Each session is conducted in groups of about 50 students, often involving case study analyses, application exercises and group presentations and discussions. This mode of teaching requires good advance preparation by the students; hence, every student should be ready to contribute to the discussion when called upon. Active participation is expected and encouraged.

Formative coursework: Formative assessment will be in the form of class exercises and case-studies on topics covered during the course. Students will be expected to hand in two assignments in the LT.

Assessment: Exam (60%, duration: 2 hours) in the summer exam period. Class participation (20%) and other (20%) in the LT. Other = Group work.

AC424
Accounting, Organisations and Institutions

This information is for the 2018/19 session.
Teacher responsible: Prof Michael Power KSW 3.12
Availability: This course is compulsory on the MSc in Accounting, Organisations and Institutions. This course is not available as an outside option.
This course is not available to other students except in special circumstances and with the written permission of the Course Director.
Pre-requisites: There are no specific pre-requisites and the course does not require a background in accounting. Pre-sessional training in the form of various intensive sessions prior to the start of term will be offered for those who need a brief 'technical' preparation for the Programme.
Course content: The objective of the course is to provide students with an advanced, social science based understanding of the changing role and position of accounting practices in organisations, both public and private, and in societies more generally. Students will be exposed to advanced thinking about how accounting practices are more than a collection of routine self-evident techniques but are shaped by their institutional contexts; have behavioural consequences and can represent different values. We will focus on how the fundamental assumptions of internal and external accounting practices are institutional in nature and are shaped by social and political aspirations. The role of accountants and other agents involved in the production and consumption of accounting numbers will also be addressed. The course will emphasise the inter-relations between technical, organisational and institutional issues. While some technical accounting knowledge will be helpful, it is not essential and each lecture will provide the necessary technical foundations. Indicative topics, “include:
Indicative reading: “include:
- Foundations: Reporting, Calculation and Transparency; The Users of Accounting; Accounting and the Notion of “Entity”; Audit and Assurance: The Audit Society; Organisational Boundaries, Structure and Control; Accountability, Incentives and Performance; Accounting for Sustainability; Organisational Failure; Risk Management, Accountability and Corporate Governance; Disasters, Accidents and Errors; Organisations and the Management of Uncertainty; The Risk Management Process; Mapping and Communicating Risk in Organisations; Organisations, Security and Resilience; Corporate Governance: Board Functioning, Gatekeepers, Executive Compensation, Regulation.
Teaching: 30 hours of seminars and 2 hours of workshops in the MT. 33 hours of seminars in the LT. 2 hours of lectures in the ST.
This course has a reading and feedback week in Week 6 of MT only.
Formative coursework: Students will be required to produce two pieces of written work per term. This may take the form of either an essay, or the analysis of a case, and may also include in-class presentation and team-based work. This work will be assessed, but the grades will not count towards the overall course assessment.

AC425
MSc Accounting, Organisations and Institutions: Pre-sessional course

This information is for the 2018/19 session.
Teacher responsible: Prof Michael Power KSW 3.12
Availability: This course is compulsory on the MSc in Accounting, Organisations and Institutions. This course is not available as an outside option.
The course is only available to MSc Accounting, Organisations and Institutions students. The purpose of this pre-sessional is to acquaint students without any prior, or little, background in accounting to the basic approach to be adopted on the core course AC424. Students with some prior background in accounting will find the session to be useful as a “refresher” about accounting fundamentals, but are also advised to take AC480 Quantitative Methods in Accounting and Finance if they wish to take advanced accounting options.
Course content: Introduction to Accounting, Organizations and Institutions
Teaching: The sessions are held in September before the start of MT.
Formative coursework: Study materials for the pre-sessional will be made available by means of selected handouts.
Assessment: There is no assessment.

AC444
Half Unit
Valuation and Security Analysis

This information is for the 2018/19 session.
Teacher responsible: Dr Xi Li, OLD 2.16
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MPhil/PhD in Accounting, MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions, MSc in Law and Accounting, MSc in Management and Strategy and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.
Other students may be admitted to the course if they have a reasonable knowledge of financial accounting and finance acquired at undergraduate or equivalent level, and only with the agreement, in writing, of the teacher responsible for this course. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, “must have” courses. Late registrations or late changes to this course choice may be unsuccessful.
Pre-requisites: Students will be assumed to have a solid understanding of corporate finance as well as financial accounting principles, techniques and methods. Completion of AC416 is recommended for this course.
Course content: The aim of this course is to introduce students to security analysis and valuation from both theoretical and empirical perspectives. Students are furthermore provided with an opportunity to apply their skills by valuing, in small groups, from the point of view of a ‘sell-side analyst’, a firm’s equity of their choice using technologies based on the present values of free cash flows and economic value added. The course should appeal to students interested in investment analysis and fund management.

The course is presented in three parts. The first part, financial analysis, focuses on past and present performance evaluation, which is used by financial analysts to generate expectations about future performance (prospective analysis). The second part, security valuation, focuses on the determination of intrinsic security prices, which, in efficient markets, reflect prospective performance. The third part, returns to fundamental and technical analysis, provides empirical evidence on returns to trading strategies based on either financial analysis or past stock returns.

Teaching: 30 hours of seminars in the LT

Teaching is delivered in three hour sessions each week. Each session is conducted in groups of about 55 students, often involving case study analyses, individual or group presentations and discussions. This mode of teaching requires good advance preparation by the students; hence, every student should be ready to contribute to the discussion when called upon. Active participation is expected and encouraged.

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Project (30%) in the LT.

AC470 Half Unit

Accounting in the Global Economy

This information is for the 2018/19 session.

Teacher responsible: Dr Andrea Mennicken KSW 3.09

Availability: This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPH/PhD in Accounting, MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions, MSc in Development Management, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Regulation, MSc in Risk and Finance and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is capped to one section of 55 students. Students on the waiting list will be admitted on a first-come first-served basis.

Pre-requisites: There are no specific pre-requisites and the course does not require a background in accounting.

Course content: This course examines the fast changing practices and institutions of accounting in the global economy, with a particular emphasis on the roles of accounting in global financial governance. International accounting and auditing standards have been advocated as a way of enhancing global financial stability, so as to stimulate the flow of cross-national investment, expand the scope for market-oriented development, and integrate local enterprises into global financial markets. This course critically examines dynamics of accounting regulation, including international standard-setting and consequences for financial statement users, business entities and wider local and global stakeholders.

Topics include: Political, institutional and economic influences in changing national and international financial reporting frameworks. The political economy of accounting standard-setting. The work of the International Accounting Standards Board (IASB), the European Union, national accounting bodies, and their political and economic environments.

The effects of national financial reporting requirements and International Financial Reporting Standards (IFRS) on business entities and economic development, particularly developing and emerging economies (including the BRIC countries: Brazil, Russia, India, China). The enforcement of financial reporting requirements through auditors, securities regulators, the World Bank and others. Specific technical challenges (for example, impairment tests, derivatives and other financial instruments, fair value accounting and intangible assets).

The course explores issues from different theoretical perspectives through comparative empirical analysis.

Teaching: 30 hours of seminars in the MT. (Note: Week 1 of MT is reserved for an intensive pre-session course for MSc Accounting and Finance students; therefore, main courses, including AC470, start in Week 2 of MT; hence, teaching is for 10 weeks from weeks 2-11.)

A 2-hour essay workshop and one-to-one essay feedback sessions in week 11 of MT.

It is further intended to run a small number of additional sessions with invited speakers who are centrally involved at a senior level in the setting, enforcement and convergence of international accounting regulations. Further details will be provided at the start of the session.

Formative coursework: Students are expected to come to each session prepared having done the assigned readings and having prepared the assigned class discussion questions. In addition, students are required to write an assessed essay of 3,500-4,000 words, to be submitted after the Christmas break. The word limit excludes the bibliography. This written work forms 40% of the overall assessment. A workshop will be held in preparation for the essay assignment. Individual feedback will be given on essay outlines. Further readings, exercises and case studies are set for class discussion each week.

Indicative reading: Detailed reading lists will be given out at the start of the session, and are largely based on academic journal articles. Other readings include policy briefings, regulatory documents, green and white papers, World Bank reports (ROSC). Relevant books: Aerts & Walton, Global Financial Accounting and Reporting (Cengage, 2017); Camfferman & Zeff, Accounting for Global Accounting Standards, 2001-2011 (Oxford University Press, 2015); Botzem, The Politics of Accounting Regulation (Edward Elgar, 2012); Ramann, Political Standards: Corporate Interest,Ideology and Leadership in the Shaping of Accounting Rules for the Market Economy (University of Chicago Press, 2015); Chapman, Cooper & Miller, Accounting, Organizations and Institutions (Oxford University Press, 2009); Djelic & Quack, Transnational Communities: Shaping Global Economic Governance (Cambridge University Press, 2010); Nobes & Parker, Comparative International Accounting (Pearson, 2017); Nobes International Classification of Financial Reporting (Routledge 2018); Walter, Governing Finance: East Asia’s Adoption of International Standards (Cornell University Press, 2008).

Assessment: Exam (60%, duration: 1 hour and 30 minutes) in the summer exam period.

Essay (40%) in the LT.

Essay: (40%, 3,500-4,000 words) in LT. The 4,000 words exclude the bibliography.
AC480  
Quantitative Methods in Accounting and Finance

This information is for the 2018/19 session.
Teacher responsible: Dr Stefano Cascino OLD 3.32 and Dr Maria Manuel Correia OLD 3.12
Dr Jose Carabias Palmeiro, OLD 2.13
Availability: This course is available on the MSc in Accounting and Finance and MSc in Accounting, Organisations and Institutions. This course is not available as an outside option.
Course content: The objective of the course is to provide students with the necessary background required for core accounting and finance courses. The course is organised in three sections: Section 1 - "Accounting: Disclosure Principles and Practice" provides an overview of fundamental accounting concepts, practices and the main financial statements. This section emphasises users' perspective rather than preparers' perspective on financial reporting (eg, for valuation purposes). Section 2 - "Finance: Quantitative Methods" provides the basic quantitative tools needed for technical MSc courses. This section consists of an introduction to Basic Calculus, Probability and Statistics.
Teaching: Teaching takes place over a 9-day period before the start of MT.
Indicative reading: A detailed reading list will be provided at the beginning of the course.
Assessment: This course is not assessed. However, students will be given a number of application exercises to complete on their own or in groups.

AC490  Half Unit
Management Accounting, Decisions and Control

This information is for the 2018/19 session.
Teacher responsible: Prof Ainhoa Bhimani OLD 3.08
Availability: This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Accounting, Organisations and Institutions, MSc in Economics and Management, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation, MSc in Regulation and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
This introductory course may also be taken by MSc students who have not previously studied accounting subjects. Students in the MSc Accounting and Finance programme are not permitted to enrol in this course or in AC491. This course cannot be taken concurrently with AC415 Management Accounting for Decision Making.
The course is capped at 115 students.
Course content: Enterprises must today tackle markets that are affected by global economic and business forces and the extensive advances in internet-based technologies. They must seek success in the face of intense competition including the ever more sophisticated corporate strategies of their competitors. At the same time, the interface between business decisions and management accounting is regarded as becoming more complex and a more significant determinant of high corporate performance. This course provides students with an introduction to issues of accounting information and cost management, managerial decision making and performance measurement. It discusses also the interface between management accounting and technology, corporate strategy, e-business and marketing. The course includes both qualitative and quantitative material. Students should not expect the course to be purely calculations based.
The course will cover:
• established managerial accounting concepts such as cost-volume-profit relationships, overhead cost allocations, activity-based costing, the balanced scorecard, target cost management and quality costing;
• the implications for accounting of flexible organisational technologies such as just-in-time systems, enterprise resource planning, computer integrated systems and collaborative manufacturing;
• operational, marketing and corporate strategy issues including cost management, e-business and internet-based business models;
• organisational arrangements such as functional and multidivisional firms as well as strategic alliances, joint ventures and virtual enterprises;
• comparative international management accounting systems;
• accounting controls and organisational designs including responsibility centres, financial performance measurements, variance analysis, and incentives;
• strategic accounting tools and practices.
The course will provide participants with:
• an understanding of strategic, market and technological links to management accounting and control practices;
• the ability to apply cutting edge management accounting techniques within competitive business environments;
• a knowledge of interrelationships between behavioural, organisational and cultural issues and management accounting systems.
Teaching: 20 hours of lectures and 9 hours of seminars in the LT. There will be a reading week in week 6 of LT. A 2-hour revision lecture will be held in ST or extra office hours will be held.
Formative coursework: Students are expected to produce several pieces of written work, including accounting exercises, analyses of case studies, and essays. At least two pieces of written work will be collected for feedback during the course. Students are also required to participate actively in a variety of discussions and debates as part of the class activities.
Indicative reading: A detailed reading list will be given out at the start of the course. The following two books will be extensively used: Bhimani A, Horngren C, Datar S and Rajan M Management and Cost Accounting (Pearson, 2015) and Bhimani A, Financial Management for Technology Start-ups, Kogan Page, 2017.
Assessment: Exam (100%, duration: 2 hours and 15 minutes, reading time: 15 minutes) in the summer exam period. The first 15 minutes will be reading time.

AC491  Half Unit
Financial Accounting, Reporting and Disclosure

This information is for the 2018/19 session.
Teacher responsible: Prof Ane Miren Tamayo OLD.5.05
Availability: This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Accounting, Organisations and Institutions, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation, MSc in Regulation and Master of Public Administration. This course is available with permission as an outside option to students on other
AC493 Half Unit
Financial and Management Accounting for Managerial Decision Making

This course is compulsory on the MSc in Management (1 Year Programme). This course is not available as an outside option.

Course content: This course covers introductions to both financial accounting and management accounting. The first part of this course provides students with an introduction to financial accounting, and highlights aspects of financial reporting that are important to users of financial information. It covers the preparation of key financial statements and the frameworks of accounting regulation. The second part to the course provides students with an introduction to management information and cost management, managerial decision making and performance measurement.

Specifically, then, the first half of AC493 is focused on financial accounting, which aims to familiarise students with the principles and some of the techniques of financial accounting and financial reporting as well as some aspects of current regulatory debates on the subject. After the first half of the course, students should be able to:

1. Distinguish between cash accounting and accrual accounting, and explain traditional accounting concepts and conventions.
2. Draw up simple balance sheets, income statements, cash flow statements, and group accounts, and understand how they are affected by different accounting treatments.
3. Use these financial statements to perform financial analysis.
4. Discuss the issue of “creative accounting” and frameworks of accounting regulation and the standard-setting process.
5. Discuss market influences of accounting information and theories of accounting choice.

The second half of AC493 focuses on management accounting, which is a key function in organisations that involves developing and using financial and non-financial information to support decision making, not only in a technical sense, but bearing in mind that the way in which management accounting systems are designed and implemented often determines whether employees will be motivated to act in ways that are congruent with the objectives of the organisation. The discipline of management accounting is often partitioned into (1) cost and management accounting systems and (2) management control systems, and both components are covered in the second part of the course.

While financial accounting (covered in the first part of the course) requires that product cost information be accumulated in particular ways for external reporting, the focus in the second half of the course is on cost and other accounting and non-accounting information systems that aid managerial decision making.

This includes the study of management accounting systems in widespread use today as well as an analysis of the problems associated with these systems in today's business environment (such as their tendency to provide distorted product cost information), as well as approaches to mitigate these problems (e.g., activity-based costing, use of non-financial information).

The second half of the course, students should be able to:

1. Analyse key concepts which form the discipline of management accounting:
   - Product costing and pricing;
   - Activity based costing/management (ABC/ABM);
   - Profitability and variance analysis;
   - Performance measurement and evaluation;
   - ROI, EVA, and other performance metrics.

2. Possess the skills necessary to use management accounting information to make business decisions.

3. Illustrate how management accounting information can be used to formulate and implement strategy in a variety of organisational settings.

4. Understand how the design and use of management accounting systems affect human behaviour in organisations.

Teaching: 33 hours of lectures in the LT.

This course consists of 11 principal weeks with topics delivered in sessions of 1½ hours twice a week. Each session is conducted in groups of about 65 students. Most sessions make use of case study analyses and real-world applications to bring the materials to life and to apply conceptual knowledge to problems faced in practice. The case study analyses and discussions permit the exploration of accounting issues in broader management perspectives (e.g., large and small firms, manufacturing and service firms, multinational firms, startups). The method of instruction, however, requires good advance preparation by students, and every student should be ready to contribute to the case discussion when called upon. Students should expect to be "cold called" and not count on being able to hide behind classmates who volunteer to participate.

Formative coursework: Students are expected to be prepared for the cases and/or other tasks for each session as indicated on the syllabus. Two of these will be collected and graded as shown below under Assessment.

Indicative reading: Reference Textbook
AC499

Dissertation

This information is for the 2018/19 session.

Teacher responsible: Prof Ane Miren Tamayo OLD 5.05

Availability: This course is available on the MSc in Accounting and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit. Students will normally elect to take this as an option in paper 3 or 4. Permission to select the long essay option must be obtained from the Programme Director by the end of the third week of MT. Students wishing to select this option must first identify and secure agreement from a member of faculty who is willing to provide supervision for the dissertation. Approval for this option will not be granted if such an agreement is not obtained from an academic staff member.

Course content: The dissertation usually consists of an empirical investigation of a selected problem. Occasionally, the dissertation may consist of a survey and critical evaluation of the relevant literature. The dissertation must identify relevant issues, sustain reasoned argument, and draw supportable conclusions. It must be arranged in an organised manner and include a full bibliography.

Teaching: There is no teaching associated with the dissertation, but students who select this option are encouraged to attend the dissertation workshop sessions organised by the Teaching and Learning Centre.

Arrangements for supervision

Students writing a dissertation will be supervised by a member of faculty who will not necessarily be their academic supervisor. Students are responsible for identifying an appropriate member of staff to supervise their dissertation essay, and for ensuring the member of staff agrees to provide supervision. As a general rule, supervisors of dissertations will not comment on the work after a discussion of the first draft.

Assessment: Dissertation (100%, 10000 words) in the ST. Two typed written copies of the dissertation must be submitted to the MSC Programme Manager, due by 31 May. The dissertation should be double-spaced, on A4 paper, with a maximum world limit of 10,000 words, not including Appendices. Mark penalties will apply if the word limit is exceeded.

AN402

The Anthropology of Religion

This information is for the 2018/19 session.

Teacher responsible: Dr Michael Scott OLD 6.16 and Dr Nicholas Evans KGS 3.07

Availability: This course is compulsory on the MSc in Social Anthropology (Religion in the Contemporary World). This course is available on the MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Law, Anthropology and Society and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course covers selected topics in the anthropology of religion, focusing upon relevant theoretical debates. In the Michaelmas term, we will consider topics such as shamanism, cargo cults, initiation, witchcraft and sorcery, cosmology, and human-nonhuman relations, primarily with reference to ongoing transformations of the indigenous traditions of Melanesia, Africa, Amazonia, Australia, and the circumpolar north. Recurring themes will be: transformations in the definition of 'religion' in relation to 'science'; the nature of rationality; and the extent to which anthropology itself can be either – or both – a religious and a scientific quest to experience the wonder of unknown otherness. In the Lent term, we will further explore the category of 'religion' in its western and non-western contexts. What were the historical processes through which particular constellations of beliefs and practices were grouped together as 'religions'? In what way are different religious traditions comparable to each other? Why do we call some traditions 'religion' and others 'cults'? Students will examine categories such as orthodoxy and heresy and they will explore the relationship between religion and secularism in modern society. Current approaches to and reconsiderations of classic topics in the anthropology of religion are also presented; these may include myth, ritual, belief and doubt, sacrifice, authority and charisma.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. This course has a reading week in Week 6 in MT and LT.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Assessment: Essay (50%, 5000 words) in the LT. Essay (50%, 5000 words) in the ST.
AN404  Anthropology: Theory and Ethnography  
This information is for the 2018/19 session.  
Teacher responsible: Dr Mathijs Pelkmans OLD 5.08 and Prof Deborah James OLD 6.06  
Availability: This course is compulsory on the MSc in Social Anthropology and MSc in Social Anthropology (Learning and Cognition). This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Law, Anthropology and Society and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.  
Course content: The main aim of this course is to examine the relationship between theory and ethnography in modern social and cultural anthropology; the course focuses mainly on the development of anthropology before circa 1980 during the MT, and after that date during the LT. The course starts with a mapping of the genealogies of British, French and American Anthropology. Tracing the origins of anthropology in social theory (Durkheim, Marx, and Weber) and, linguistic analysis (Boas, Saussure). It covers topics such as the origin of the concept of the social sciences as a distinct branch of knowledge, and key concepts and themes (for instance, ‘kinship’, ‘religion’, ‘politics’, ‘economy’ or ‘capitalism’). It also explores specific schools of thought such as functionalism/structural functionalism; methodological individualism; conflict and the critique of functionalism; class consciousness and ideology, ethnic group and social stratification; and the ‘elective affinities’ between cultural predispositions and economic action. It locates these in the historical experiences and debates of the time. The significance of foundational concepts for an understanding of current anthropology and key stages in its development is also a focus of the course. The second term covers topics which may include structuralism; practice theory; interpretive anthropology, postmodernism, affect and actor network theory. The precise emphasis and distribution of topics may vary from year to year.  
Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 2 hours of workshops in the ST.  
The course has a reading week in Week 6 of MT and LT.  
Formative coursework: Formative coursework consists of participation in weekly seminars, and the opportunity to discuss one formative essay in each of the MT and LT with the course convener or the student’s academic mentor, as per normal departmental arrangements.  
Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

AN405  The Anthropology of Kinship, Sex and Gender  
This information is for the 2018/19 session.  
Teacher responsible: Dr Nicholas Long OLD 6.14 and Prof Rita Astuti OLD 6.11  
Availability: This course is available on the MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Gender, MSc in Law, Anthropology and Society, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.  
Course content: This course provides an examination of the cultural frameworks and social aspects of kinship systems, gender roles, personhood and human sexuality, analysed through ethnographic examples from a diverse range of settings. It aims to equip students with the analytical tools to engage in theoretical debates concerning core concepts such as ‘kinship’, ‘marriage’, ‘gender’, ‘sex’, ‘the person’, and the relationship between ‘nature’ and ‘culture’, as well as exploring how the experiences of kinship, sex and gender vary according to the regimes of politics, law and materiality in which they are embedded. The course charts the history of anthropological debates on kinship, relatedness, sex and gender, and familiarises students with a range of contemporary approaches to these themes, placing ethnographic materials into a critical dialogue with recent developments in feminist theory, queer theory, the anthropology of colonialism, cognitive science, and psychoanalysis.  
Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. This course has a reading week in Week 6 in MT and LT.  
Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.  
Assessment: Essay (50%, 5000 words) in the LT. Essay (50%, 5000 words) in the ST.

AN419  Half Unit  
The Anthropology of Christianity  
This information is for the 2018/19 session.  
Teacher responsible: Dr Fenella Cannell OLD 5.07  
Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.  
Course content: This course provides an examination of the ethnographic and historical studies of local forms of Christianity, from a range including local forms of Catholicism, Mormonism, contemporary and historical Protestantisms including American Protestant forms and ‘heretical’ and other unorthodox Christianities. The course asks why anthropologists shied away from analysing Christianity long after studies of other world religions, such as Islam, Hinduism and Buddhism, had become widely established. It looks at the relationship between Christianity and the history of anthropological thought, and locates the place of Christianity in the writings of...
Mauss, Durkheim, Foucault and others, in order to defamiliarise the religion which Europeans and Americans especially often take for granted. Issues examined may include the nature and experience of belief, conversion and the appropriation of Christian doctrines by local populations, the problems of writing about religion, Christianity and the state, the nature of religious confession, Christian texts, and Scriptural reading practices, Christian objects and materialities, Christianity and women’s religious and social experience (from Medieval women mystics to women priests),quisitions and heretical beliefs, priests and alternative forms of mediation with divine power, miraculous saints, incorrupt bodies and ‘non-eaters’ and changing ideas about death, Heaven and Hell. Where possible, the course will include a student fieldwork weekend and forms of reflection and reporting on that experience. Please check with the course teacher in any given year whether this is planned as part of the year’s programme.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

There will be a reading week in Week 6 of the MT.

**Formative coursework:** Students are expected to prepare discussion material for presentation in the seminars. Students will be expected to produce 1 essay in the MT.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**AN420 Half Unit**

**The Anthropology of Southeast Asia**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Nicholas Long OLD 6.14

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course will introduce students to selected theoretical and ethnographic issues in the history and contemporary life of Southeast Asia (including Burma/Myanmar, Cambodia, Indonesia, Laos, Malaysia, Singapore, Thailand, The Philippines, and Vietnam).

The alleged distinctiveness of Southeast Asian gender relations, political leadership, and experiences of self and emotion have led to ethnographic studies of the region making major contributions to the anthropology of the state, sovereignty, globalisation, gender, identity, violence, and mental health. By providing a strong grounding in regional ethnographic materials, this course will equip students to critically evaluate such contributions and to consider possible further contributions that studies of Southeast Asia might make to anthropological debates. The course will also examine how anthropologists have responded to the interpretive challenges presented by selected aspects of Southeast Asia’s social and political life, such as the legacies of mass violence (e.g. the Cambodian genocide, the Vietnam War, or Indonesia’s massacre of suspected communists), its ethnic and religious pluralism, and the impact of international tourism.

The course also contains a strong visual anthropology element: each week’s lecture will be paired with a film screening, and students will be encouraged to examine whether and how this visual material contributes to, or indeed reframes, the theoretical debates at hand.

Upon successful completion of the course, students will be able to:

1. Describe the key features of Southeast Asian social and cultural systems, and identify their similarities and differences with social and cultural systems in other world regions.
2. Describe key events and patterns in Southeast Asia’s history, and evaluate the extent to which these influence contemporary social phenomena in the region.
3. Describe and evaluate the most influential paradigms that have been developed in anthropological studies of Southeast Asia over the past 60 years.
4. Apply anthropological concepts and theories to ethnographic materials from Southeast Asia, and evaluate the results.
5. Apply anthropological research findings and theories to social and policy issues in Southeast Asia.
6. Locate and use research findings from Southeast Asia in order to participate in, or advance the terms of, wider disciplinary debates.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST.

**Formative coursework:** Students are expected to produce 1 essay in the MT.

**Indicative reading:** Useful histories of Southeast Asia / Southeast Asian anthropology. M.C. Ricklefs, B. Lockhart, A. Lau, P. Reyes, and M.A. Thwin, A New History of Southeast Asia (2010); V.T. King and W.D. Wilder, The Modern Anthropology of South-East Asia: An Introduction (2003).

Detailed reading lists are provided at the beginning of the course.

**Assessment:** Coursework (100%, 5000 words) in the LT.

Students will be asked to write a research essay on a topic covered in the course, and a synoptic essay speaking to themes that connect multiple weeks of the course. Each of these should be up to 2500 words in length, and each of these essays will comprise 50% of the final mark.

---

**AN424 Half Unit**

Not available in 2018/19

**The Anthropology of Melanesia**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Michael W Scott, OLD 6.16

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course provides an introduction to selected...
themes in the anthropology of the region in the Southwest Pacific Ocean known as Melanesia. It gives students a grounding in the contemporary anthropology of the region, primarily through a close reading of three book-length ethnographies. The three ethnographies, which are all new since 2013, are Christopher Wright’s The Echo of Things, an account of what photography means to people in the western Solomon Islands; Alice Street’s Biomedicine in an Unstable Place, an analysis of how persons and diseases are made visible or invisible in a hospital on the north coast of Papua New Guinea; and Alex Golub’s Leviathans at the Gold Mine, a study of the relationship between indigenous landowners and a large international gold mine in their valley in the highlands of New Guinea. These ethnographies not only provide students with focused accounts of three very different contexts in Melanesia, they also address histories, dynamics, and concerns familiar to people living throughout the region. Furthermore, because the three authors draw on different intellectual antecedents and disciplinary traditions, their work provides an entrance into the most influential theoretical debates animating Pacific anthropology today. Topics to be traced throughout the course include personhood and bodies, kinship and sociality, religion and cosmology, technology and infrastructure, development, globalization, and the state. The readings will be supplemented by ethnographic films and a visit to the British Museum.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

This course has a reading week in Week 6 of MT.

**Formative coursework:** Students are expected to prepare discussion material for presentation in seminars.

**Indicative reading:** Christopher Wright, The Echo of Things: The Lives of Photographs in the Solomon Islands (2013), Alice Street, Biomedicine in an Unstable Place: Infrastructure and Personhood in a Papua New Guinean Hospital (2014), Alex Golub, Leviathans at the Gold Mine: Creating Indigenous and Corporate Actors in Papua New Guinea (2014). Detailed reading lists are provided at the beginning of the course.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**AN436 Half Unit**

**The Anthropology of Development**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Clara Devlieger OLD 6.08

**Availability:** This course is compulsory on the MSc in Anthropology and Development and MSc in Anthropology and Development Management. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Comparative Politics, MSc in Human Rights, MSc in International Development and Humanitarian Emergencies, MSc in Social Anthropology and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course explores how anthropologists have evaluated, criticised and contributed to development. Focussing on both ‘Big D’ development (schemes of improvement or projects) and ‘little d’ development (change which occurs as the result of economic growth or modernisation) the course shows how anthropological insights have been used to change practices from within as well as critique development from the outside. From anthropological work which seeks pragmatic engagement to that which deconstructs development as an oppressive and power laden discourse, the course aims to give students a broad background to the field. Topics covered include the role of the state, participation and farmer first approaches, gender and development, development as discourse and ‘aidnography’, neo liberalism and global capital, corporate social responsibility, markets and micro credit, and the relationship between ‘tradition’ and modernity. Throughout, the course will draw upon a broad range of ethnographic examples.

**Teaching:** 10 hours of lectures and 20 hours of seminars in the MT.

This course has a reading week in Week 6 of MT.

**Formative coursework:** Students are expected to prepare discussion material for presentation in the seminars. Formative work will include a mock exam question.

Detailed reading lists are provided at the beginning of the course.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**AN442**

**Supervised Reading Course and Fieldwork Preparation**

This information is for the 2018/19 session.

**Teacher responsible:** Members of staff of the Anthropology Department (students' supervisors).

**Availability:** This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

**Course content:** The programme of supervised reading aims to give students a detailed knowledge of the regional ethnographic literature relevant to their proposed research project, as well as providing them with a firm grounding in the theoretical literature relevant to their research objectives. The programme also aims to aid students in the practical organization of their field research (eg organizing language training, obtaining research permits and academic affiliations) through their supervisors’ personal guidance. The programme of supervised reading will be specific to each student. It will be agreed with his/her supervisors at the beginning of the academic year and it will be closely reviewed during the course of the academic year.

**Teaching:** Students should expect to meet with at least one of their supervisors at 2-3 weekly intervals during term time, and to submit essays relevant to the preparation of their Research Proposal (AN4443).

**Formative coursework:** Students will be required to write essays for their supervisors throughout the academic year.

**Assessment:** Other (100%). Students’ progress will be monitored by their supervisors through verbal discussion of the submitted written work. The work they undertake for this course is expected to feed directly into the preparation of the Research Proposal (AN4443) and will be formally examined through it.
AN443 Research Proposal

This information is for the 2018/19 session.
Teacher responsible: Members of staff of the Anthropology Department

Availability: This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

Course content: All students must prepare a formal Research Proposal of 8,000-10,000 words (excluding references) for submission to the Department on or before the deadline in June. The proposal is written under the guidance of their supervisors (as set out in AN442), and will normally draw on material studied as part of AN471 Qualitative and Quantitative Methods for Anthropologists and AN472 Evidence and Arguments in Anthropology and Other Social Sciences. It will be expected to demonstrate knowledge of the regional ethnography, and theoretical and methodological literatures, relevant to the proposed research.

Assessment: Research proposal (100%).

AN444 Half Unit Not available in 2018/19

Investigating the Philippines - New Approaches and Ethnographic Contexts

This information is for the 2018/19 session.
Teacher responsible: Dr Fenella Cannell OLD6.07

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Graduates taking this course will normally have taken or be taking a foundational course in anthropology. However, topics may be of interest to those in several disciplines. Exemptions may therefore be sought from the lecturer, e.g. for students external to the department, who wish to explore what anthropology can bring to bear on their own fields.

Course content: This course offers the chance to look at the ethnography of one country in more detail than is usual for regional courses. It considers topics taken from the ethnography of the lowland and highland Philippines, with a focus on exciting new high quality writing, drawing on the recent renaissance in Philippine Studies. The course will balance works by expert non-Filipino ethnographers with the new writing of ‘native ethnographies’ by Filipino scholars resident both in the Philippines themselves and in the US.

The course will be framed within the colonial, religious and social history of the archipelago, and will consider both new interpretations of Filipino history, and topics on contemporary social issues, as well as using classic works on the Philippines. Teaching each week will normally be organised around the reading of one outstanding ethnography, allowing students to look closely at particular cases. Topics in any year are likely to be drawn from the following list (although obviously only ten topics can be offered in one year): Migration, ‘mail-order’ brides, and the Philippine diaspora; New religious movements: Philippine colonialism and the processes of conversion: Healing, spirit possession, midwifery and local medicine: The contemporary Catholic Church; Violence in the Philippines; Ecology, landscape and environmental politics: Kinship and its transformations; Gender, Philippine queer theory and Philippine transvestitism; Ritual, drama and local performance traditions: Philippine architecture and material culture; Philippine cinema: Colonial politics, tribal politics and issues of self-representation; Magic, sorcery and ‘anitismo’; Tourism, symbolic economies and the impact of international capitalism.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students may be required to prepare discussion material for seminars.

Indicative reading: Detailed reading lists are provided at the beginning of the course, these are a selection: Michell Rosaldo, Knowledge and Passion; Vicente Rafael, Contracting Colonialism; Fenella Cannell, Power and Intimacy in the Christian Philippines; Sally-Ann Ness, Where Asia Smiles; Heather L. Claussen, Unconventional Sisterhood; M F Manalansan, Global Divas: Filipino Gay Men in the Diaspora; Vicente Rafael, White Love and Other Events in Filipino History; Nicole Constable, Maid to order in Hong Kong; Albert Alejo, Generating Energies in Mount Apo.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

AN447 China in Comparative Perspective

This information is for the 2018/19 session.
Teacher responsible: Prof Stephan Feuchtwang, Dr Johannes Steinmuller OLD 5.06a and Dr William Matthews POR 2.02

Availability: This course is compulsory on the MSc in China in Comparative Perspective. This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Places are limited and priority is given to MSc China in Comparative Perspective students.

Course content: The main object of the course is to help students develop ways of putting the politics, economy and social life of China into a framework in which they can compare and juxtapose it with other major examples. Students will bring whatever theoretical approaches they have already learned and are continuing to learn in the disciplines they bring to the course. They will be expected to demonstrate and explain how they are using them as well as to listen to other approaches and disciplinary perspectives. The topics for each week are as follows:

Teaching: 15 hours of lectures and 10 hours of seminars in the MT. 15 hours of lectures and 10 hours of seminars in the LT. 1 hour and 30 minutes of lectures and 1 hour of seminars in the ST.

This course has reading week in Week 6 of both MT and LT.

Formative coursework: Formative coursework consists of participating in weekly seminars, and the opportunity to discuss one formative essay in each of the MT and LT with the course convener or the student’s academic mentor.

Prof Stephan Feuchtwang, Dr Johannes Steinmuller OLD 5.06a and Dr William Matthews POR 2.02

Teacher responsible: This course is compulsory on the MSc in China in Comparative Perspective. This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.
**AN451** Half Unit  
**Anthropology of Politics**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Mathisz Pelkmans OLD 5.08

**Availability:** This course is available on the MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Comparative Politics, MSc in Development Studies, MSc in Law, Anthropology and Society, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course focuses on the notion of power and its cross-cultural application. Using Marxist, Weberian, and Foucauldian approaches it explores how power travels through different socio-cultural contexts, paying attention to issues such as domination and resistance, patron-client relations, the mafia, revolution and violence. A recurring theme throughout the course concerns the state. How should the state be studied and its cross-cultural application in different socio-cultural contexts? Paying attention to issues such as domination and resistance, patron-client relations, the mafia, revolution and violence, a recurring theme throughout the course concerns the state. How should the state be studied and its cross-cultural application? Processes of state formation and disintegration, nationalism in its various guises, and state-society relations will be reviewed in order to understand how European, post-colonial, and post-socialist societies are governed.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. This course has a reading week in Week 6 of MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**AN457** Half Unit  
**Anthropology of Exchange**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Agustin Diz SHF 3.01

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Studies, MSc in Inequalities and Social Science, MSc in Law, Anthropology and Society, MSc in Regulation, MSc in Social Anthropology, MSc in Social Anthropology (Religion in the Contemporary World) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course examines the economy as an object of scholarly analysis and a domain of social action. We start by asking how scholars have measured, described, modeled, and predicted its behaviour, what forms economic institutions take cross-culturally, and how these institutions were transformed as a result of their incorporation into a wider capitalist markets, state systems, and development initiatives. For example, we will examine the central place of households within capitalist economies, largely overlooked by mainstream economic analyses, and the role that money can play in both dividing and uniting human societies. The course will familiarise students with fundamental aspects of the field and with core concepts used in anthropological analyses of economic life, such as production, consumption, exchange, property, alienation, scarcity, and value. But we will also try to break open the standard frames of the debate by highlighting, for example, the entanglement of nature in the capitalist expansion, and how economic life is rarely stable. What progress have anthropologists made in understanding booms, busts, prolonged pauses and delays? What can ethnography tell us about how people cope with crises and instabilities, individually and collectively, and how they seek to anticipate what the future may hold? Throughout the course, students will engage both with theoretical writings and with a range of select ethnographies to gain a rounded understanding of relevant debates.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**AN456** Half Unit  
**Anthropology of Economy (1): Production and Exchange**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Luke-Heslop OLD 6.17A

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Studies, MSc in Inequalities and Social Science, MSc in Law, Anthropology and Society, MSc in Regulation, MSc in Social Anthropology, MSc in Social Anthropology (Religion in the Contemporary World) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course has a reading week in Week 6 of MT.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

Course content: The course addresses topics in the anthropology of globalisation. Scholars in a wide range of disciplines have sought to understand the new forms of production, consumption, exchange and financial circulation that have emerged since the 1980s. Some emphasise post-Fordist methods of flexible production and neo-liberal elite projects. Others focus on trans-state processes of globalisation. For other theorists shifts in state policies such as austerity, decentralised planning, public-private partnerships and the deregulation of financial markets are at the centre of analysis. Others address new forms of consumer society, popular desires for social mobility and transnational migration.

Drawing from ethnographies and anthropological theory this course equips students to evaluate these arguments. Importantly it also revisits classic topics in economic anthropology from the perspective of present realities — for example production and intimate economies; formal markets in relation to informalised, violent economies; circulation in relation to financial debt and risk; acr consumption and consumer citizenship.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

This course has a reading week in Week 6 of LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

AN459 Half Unit Not available in 2018/19 Anthropology and Media

This information is for the 2018/19 session.

Teacher responsible: Prof Matthew Engelke OLD 6.12

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China Comparative Perspective, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course introduces students to anthropological analyses of media, including books and other printed texts, photography, radio, television, film, and the internet. Although ‘the anthropology of media’ is often understood to be a relatively new subfield, there has been a long-standing interest in media technologies within the discipline. There is also an important manner, from an anthropological point of view, in which ‘media technologies’ have to be understood not only as these cultural artefacts (radio, film) but also the more elementary senses they express (hearing, sight, etc). We therefore investigate media both as a broad conceptual category and as specific technologies of communication. The course begins with a historical overview of anthropologists’ investigations of media technologies, broadly construed. We then move on to consider ethnographic case studies of media in context. Examples may include: photography in India, radio in Zambia, television and cassette circulation in Egypt, mobile phones in Jamaica, book groups in England, and ‘indigenous video’ in Brazil and Australia. Throughout the course the case studies are framed in relation to some of the key theoretical debates that have shaped media studies in anthropology and related disciplines since the 1930s. Some attention is also given to the methodological problems involved in studying media, especially the extent to which it challenges the possibility of conducting fieldwork by participant observation.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. 4 hours of film screenings in LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Coursework (100%, 5000 words) in the ST.

AN458 Half Unit Children and Youth in Contemporary Ethnography

This information is for the 2018/19 session.

Teacher responsible: Dr Catherine Allerton OLD 6.13

Availability: This course is compulsory on the MSc in Social Anthropology (Learning and Cognition). This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Law, Anthropology and Development, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: For much of its history, and with some notable exceptions, anthropology has paid little serious attention to children. However, recent years have seen a growing interest in both ‘childhood’ as a historical and social construction, and in children’s engagement with their own social worlds. This course aims to introduce students to emerging ethnographic work on children and youth, in order to explore both its theoretical and methodological challenges. Ethnographic studies will cover a wide range of societies and regions, including anthropological work on children and childhood in the US and UK. The course will begin with an investigation of children’s place in anthropology, including early anthropological work on ‘Culture and Personality’ and ‘child socialisation’. The course will then move to consider a variety of topics that have been the focus of recent ethnographic study. These may include: children’s play, childhood identities and kinship, education and schooling, youth cultures and globalisation, children’s work, street children and children’s competencies in contexts of crisis, including war.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT.

This course has a reading week in Week 6 of LT. 4 hours of film screenings in LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

to their personal tutors. For non-Anthropology students taking this course, a formative essay will be submitted to the course teacher.

**Indicative reading:**
- Domestication of the Savage Mind (J Goody); Imagined Communities (B Anderson), The Work of Art in the Age of Mechanical Reproduction (W Benjamin); Media Worlds (F Ginsburg, L Abu-Lughod, and B Larkin, eds); Understanding Media (M McLuhan); Understanding Media (D Boyer); 'Anthropology and the Mass Media' (D Spulnik); 'Anthropology and its contributions to studies of Mass Media' (S Dickey); Media Rituals (N Coudry); A Voice: And Nothing More (M Dolar); The Presence of the Word (W Ong).

**Assessment:**
- Exam (100%, duration: 2 hours) in the summer exam period.

---

**AN461 Half Unit**

**Anthropological Approaches to Questions of Being**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Michael W. Scott OLD6.16

**Availability:** This course is available on the MSc in Anthropology and Development Management, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:**
- In Western thought, the study of the nature of being itself (Greek onto), including theories about how things come into being and how they are related to one another, is known as ontology. Building on, but broadening the scope of this Western tradition, the growing anthropological literature on questions of being seeks to convey ethnographically and conceptualize theoretically the many different ontologies, or lived realities, that shape social practices in diverse historical, geographic, and cultural contexts. This literature also urges us to reconsider reflexively what anthropology is, does, and might become.
- Twenty-first century anthropology has seen an ‘ontological turn’ or ‘turns’, or more broadly, the emergence of anthropologies of ontology. Increasingly, a variety of anthropological discourses invoking the concept of ontology have come into dialogue, yet ontology-oriented approaches remain diverse. Over the past decade, these discourses have been sites of divisive debate, strong contestation, pointed polemic, and at times personal critique. While this has generated a lot of interest, arguably these debates have created more heat than light. In the wake of these debates, and keeping them in view, this course aims to illuminate current work around ontology by reading three recent and influential books, each of which takes a distinctive anthropological approach to questions of being.
- Morten Axel Pedersen’s ethnography, Not Quite Shamans (2011), explores spirits, shamans – or the relative lack of shamans – and postsocialism among the Darhad people of northern Mongolia. Pedersen focuses on the ontological uncertainties that can attend sweeping social transformations; in so doing, he challenges us to rethink the assumptions about being that inform mainstream anthropological analyses.
- Marisol de la Cadena’s ethnography, Earth Beings (2015), offers a person-centred, conversation-driven account of people, place, and indigenous cosmopolitics in the Andes. De la Cadena engages with the Quechua people’s political struggles in ways that prompts us to question modernity’s dominant nature/human dualism. Giving us access to a context where mountains are wilful actors, she invites us to reconceptualize politics as ontological disagreement.
- Stuart McLean’s book, Fictionalizing Anthropology (2017), develops a comparative approach to anthropology by juxtaposing diverse folkloric, historical, literary, and ethnographic accounts – primarily from the North Atlantic. McLean seeks to persuade us that storytelling is a mode of ‘ontological poiesis’; it does not simply reflect – or even reflect on – aspects of the world as given; it participates in the very making of worlds. In the same way, he suggests, the stories anthropologists tell and the comparisons they make may be ontologically generative, part of the becoming of new possibilities for human and other-than-human being.

These three works – focused on very different contexts, using very different modes of research, and written in very different styles – introduce students to the central questions, dynamics, and debates that constitute anthropological approaches to questions of being.

**Teaching:**
- 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

**Formative coursework:**
- Students will be expected to produce 1 essay in the LT.

**Indicative reading:**
- Morten Axel Pedersen, Not Quite Shamans: Spirit Worlds and Political Lives in Northern Mongolia (2011);
- Marisol de la Cadena, Earth Beings: Ecologies of Practice across Andean Worlds (2015);

**Assessment:**
- Coursework (100%, 5,000 words) in the ST.

The assessed essay must be between 4,500 – 5,000 words in length.

---

**AN463 Half Unit**

**Borders and Boundaries: Ethnographic Approaches**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Mathijs Pelkmans OLD 5.08

**Availability:** This course is available on the MSc in Anthropology and Development Management, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:**
- How do territorial borders influence human behaviour and thinking, and how, in turn, do people create, manage and manipulate such borders? These questions have become pressing with the intensification and politicisation of global interconnectedness. While a few decades ago the tearing down of the Berlin Wall seemed to herald a border-less world, today the loudest politicians promise to create “huge, great, great, beautiful walls.” This course studies the numerous tensions accompanying global interconnectedness. Why is it so difficult to make borders impermeable? How do smuggling networks operate? What does the world look like from the perspective of undocumented migrants? What are the effects of new border fortification technologies? What is it like to live in a gated community? Are people boundary-drawing creatures? Why do borders play a central role in images of utopia? Why is it silly yet productive to ask: where is the border between Europe and Asia? These and other questions will be discussed by situating ourselves ethnographically in the borderlands, potentially making us realise that “the frontier is all around us.”

**Teaching:**
- 10 hours of lectures and 10 hours of seminars in the MT. This course has a reading week in Week 6 of MT.

**Formative coursework:**
- Students will be expected to produce 1 essay in the MT.

Students are expected to prepare discussion material for presentation in the seminars. They will also have an opportunity to write tutorial essays on topics from the course which will be formatively assessed.

**Indicative reading:**
AN467  Half Unit
The Anthropology of South Asia

This information is for the 2018/19 session.
Teacher responsible: Dr Mukulika Banerjee OLD 5.09
Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course will aim to address issues of citizenship, inequality and social justice, religious faith and practices, migration and labour and consumption patterns in rural and urban South Asia. The course will cover both classic and current literature and weekly sessions will be organised thematically. We will start by looking at the history of South Asia’s democracies and consider the challenges posed to them. South Asia is an ideal setting to examine many paradoxes that exist elsewhere - alongside some of the highest rates of economic growth there is growing inequality, there is a growing middle class but high rates of precarious poverty, the countries remain largely rural yet they will hold the largest urban population in the world in less than ten years and so on. In order to understand these paradoxes, it is essential that issues of macro economic policy, social inequality, infrastructural development, political mobilisation and popular culture, mobilisation along religious lines in each country and the rise of the ‘threatened majorities’ that behave like minority populations - be examined in greater detail. Using a rich body of anthropological research on South Asia, this course will examine several of these issues and more in this course. The literature on India is the largest available but every attempt will be made to cover the anthropological literature on Pakistan, Nepal, Sri Lanka and Bangladesh alongside. All these issues and more will be addressed in this course through the rich corpus of anthropological literature on the subject alongside examples from India’s vibrant media and popular culture.
Teaching: 10 hours of lectures and 15 hours of seminars in the LT. Attendance at film screenings are essential for this course. Sessions will be scheduled at the start of term for a weekday evening (3 hours). The course has a reading week in Week 6 of the LT.
Formative coursework: Students will be expected to produce 1 essay in the LT.
Indicative reading: Please do at least TWO of the following background reading before the start of the course and certainly by the end of the second week of the course.
Sunil Khilnani The Idea of India
Ramachandra Guha India After Gandhi
Sen The Argumentative Indian
Rana Dasgupta Capital
Fiction:
Vikram Seth A Suitable Boy
Rohinton Mistry A Fine Balance
Assessment: Take home exam (100%) in April.

AN469  Half Unit  Not available in 2018/19
The Anthropology of Amazonia

This information is for the 2018/19 session.
Teacher responsible: Dr Agustin Diz OLD 6.06
Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course will introduce students to selected themes in the anthropology of Amazonia. It will provide a grounding in the ethnographic literature of the region while seeking to engage with current theoretical debates, highlighting their potential importance to the discipline of anthropology. Topics to be covered include history, indigenous social movements; sexuality and gender; trade and inter-ethnic relations; politics and power; illness, well-being and death. Students will be encouraged to reflect on the broader relationship between ethnography and theory, to challenge common stereotypes of Amazonia and its inhabitants, and to explore ways in which the region has inscribed itself on the imagination of anthropologists and laypersons alike.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT. This course has a reading week in Week 6 of LT.
Formative coursework: Students registered for Anthropology degrees will have the opportunity to prepare tutorial essays on the subject matter of the course and receive feedback from their academic advisors. Students who are not registered for Anthropology degrees will be given the option of submitting formative essays to the course teacher.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

AN471  Qualitative Methods for Anthropologists

This information is for the 2018/19 session.
Teacher responsible: Dr Mathijs Pelkmans OLD 5.08
Availability: This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.
Course content: The twofold aim of this course is to provide students with insights into the process by which anthropological knowledge is produced, and to train them in the collection and analysis of qualitative and quantitative data. In doing so it offers students a methodological framework for conceptualising and designing their own PhD research projects. The course discusses the nature of ethnographic data and evidence, its implications for research, and ways of incorporating empirical data in ethnographic texts.
Teaching: 40 hours of seminars in the MT. This course has a reading week in Week 6 of MT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the MT.
AN472 Evidence and Arguments in Anthropology and Other Social Sciences

This information is for the 2018/19 session.

Teacher responsible: Dr Nicholas Evans KGS 3.07 and Dr Luke Heslop OLD 6.17A

Availability: This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

Course content: This seminar course considers research practices across a range of social and natural sciences in order to explore methodological issues that are specifically relevant to ethnography. In particular, it focuses on the relationship between evidence and the kinds of inferences and conclusions which are drawn by researchers in different social science fields. For one part of the course, case-studies taken from different disciplines will be considered in relation to the research practices of ethnographers. The disciplines covered may include: cognitive science & developmental psychology; moral philosophy; photographic theory; archival research; quantitative sociology; economics; development studies; literary criticism. For another part of the course, students will present their own draft research proposals to other both in written and oral format, focusing on (1) the questions they hope to explore in their dissertations; (2) the kinds of evidence they will need in order to adequately explore these questions; (3) the methods they will adopt in order to collect this evidence.

Teaching: 40 hours of seminars in the LT

This course has a reading week in Week 6 of LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Essay (50%, 2500 words), presentation (25%) and class participation (25%) in the LT.

AN473 Anthropological Approaches to Value

This information is for the 2018/19 session.

Teacher responsible: Prof David Graeber OLD 6.10

Availability: This course is available on the MPhil/PhD in Accounting, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available as an outside option to students on other programmes where regulations permit.

Course content: In this course we will first take stock of the current anthropological theories of value in contemporary anthropology. After a critical appraisal of such theories, we will explore what an anthropological theory of value might actually look like. After a brief exploration of Kluckhohn’s ‘values project’, the formalist-substantivist arguments, and debates about the nature of the social role of money, up to the recent neoliberal resurgence in anthropological theory, we’ll be looking at the contrasting legacies of Karl Marx and Marcel Mauss. Looking at these as two very different approaches to many of the same problems will provide enormous opportunities for creative synthesis. The course will include some fairly extended case studies (of Tiv fetishism, wampum, and anthropological studies of consumption), to investigate how useful all this theory can actually be in throwing new light on familiar problems.

Teaching: 15 hours of lectures and 10 hours of seminars in the MT.

This course has a reading week in Week 6 of MT.

Formative coursework: Students registered for Anthropology degrees may submit formative tutorial essays on the course content and receive feedback from their academic advisors. Students who are not registered for Anthropology degrees will be given the option of submitting essays to the course teacher and receiving feedback on them.

Assessment: Take home exam (100%) in the MT.

The take home exam will be held the week following the end of the MT.

AN474 Subjectivity and Anthropology

This information is for the 2018/19 session.

Teacher responsible: Dr Harry Walker OLD 5.06B

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Unless granted an exemption by the course teacher, students taking this course should have completed an introductory course in anthropology.

Course content: This course will explore the nature and formation of the self and of subjective experience. It will draw together a range of anthropological, psychological and philosophical approaches to subjectivity and the social and cultural phenomena that shape and condition it, attending both to the particulars of individual lives and settings and to more general, existential dimensions of the human condition. The course will be structured around engagements with three principal paradigms: psychoanalysis, phenomenology, and subjectivation. A key aim of the course will be to understand the strengths and limitations of these approaches for anthropological analysis as well as potential sites of convergence and divergence. Specific topics to be covered include the unconscious, dreams, illness and healing, embodiment, sound, intersubjectivity, interpellation, the feminist subject, and altered states of consciousness.

Teaching: 15 hours of lectures and 10 hours of seminars in the MT.

Ten hours of lectures and ten hours of classes in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Students registered for Anthropology degrees will submit a tutorial essay for this course to their academic advisers. Students who are not registered for Anthropology degrees will submit a formative essay to the course teacher.

AN475  Half Unit  Not available in 2018/19

The Anthropology of Revolution

This information is for the 2018/19 session.

Teacher responsible: Dr Alpa Shah ODL 6 17A

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course will focus on the study of revolution from an anthropological perspective. It will concentrate on three different types of revolutionary struggle, in three different continents, through three different types of ethnographies: the Zapatista indigenous movement in Mexico, the Zimbabwean anti-colonial struggle, and the Maoist ‘People’s War’ in Nepal. In each case, students will be encouraged to critically consider the varying degrees of involvement of the anthropologist in the movements concerned, the theoretical premises of the anthropologists and how these affect the politics and ethics of writing. In this process, students will deepen their understandings of the theoretical debates around production and reproduction, social transformation, religion and secularism, activism and anthropology, and violence and ethics in radical social change. The course will demonstrate that although anthropologists were once criticised for ‘missing the revolution’ on their doorstep, in fact their long term engagement with communities who come to be affected by revolutionary struggles has much to offer to the theoretical and practical work of radical social transformation.

Teaching: 6 hours of lectures, 6 hours of seminars and 8 hours of workshops in the MT.

This course has a reading week in Week 6 of MT.

Formative coursework: Anthropology students taking this course will submit a tutorial essay for this course to their academic advisers. Non-Anthropology students taking this course will submit a formative essay to the course teacher.

Assessment: Take home exam (100%) in the MT.

The take home exam will be held the week following the end of the MT.

AN476  Half Unit  Not available in 2018/19

Anthropology and the Anthropocene

This information is for the 2018/19 session.

Teacher responsible: Dr Gisa Weszkalnys

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: In August 2016, scientists participating in the Anthropocene Working Group put forward an official recommendation to rename our present time interval the Anthropocene’. It postulates that humans now exert recognisable influences on the earth’s bio- and geophysical systems sufficient to warrant the naming of a distinct geological epoch encompassing the earth’s present, recent past, and indefinite future. The Anthropocene thus echoes contemporary anxieties about climate change, the deterioration of global ecologies, and other environmental crises on unprecedented scales, as well as humans’ capacity to devise adequate solutions to the problems they face. The scholarly and popular debate on the Anthropocene has exploded in recent years, with anthropologists contributing both theoretical and important ethnographic insight into how people apprehend and deal with the repercussions of anthropogenic environmental change. It now seems that the continued successful existence of humanity on this planet will require us to live differently both with each other and with the earth. ‘We will go onwards in a different mode of humanity or not at all’ (Val Plumwood 2007).

In this course, we will approach the Anthropocene as a contested category, with evident political and ethical implications. We will begin by examining the dramatic changes in the relationship between humans and their natural environments brought about by industrialisation, specifically, the increased exploitation of natural resources as well as the production and use of fossil fuels on a large scale. We will attend to the practices and cosmologies of people who in their everyday lives – for example, by digging, polluting, and wasting – participate in the work of anthropogenic alterations, drawing on case studies from across the world.

We will consider alternative labels, such as the Capitalocene, Plantationocene, Plasticene, Eurocene, Misanthropocene, and Neologocene, each of which tells a different origin story for what Donna Haraway has called ‘the trouble’. However, we then move to ask whether the Anthropocene might be less a marker of an epochal transformation than a signal of a profound anti-political shift in discussions about the future of the planet. We will inspect the scientific and non-scientific controversies the Anthropocene has provoked, and the particular forms of power, authority, reason, imagination, and subjectivity it has generated.

Students will be expected to engage with a variety of resources, including online publications, blogs, documentary and feature films, and other media, and an emergent interdisciplinary literature, spanning the social and natural sciences, which we will read in relation to a more long-standing engagement with the environment within the anthropological discipline. This will lead us to interrogate established binaries of human/nonhuman, subject/object, and nature/culture, and, significantly, to ask about the critical valence of anthropologists’ enquiry into the ‘anthropos’ for an age so profoundly shaped by humans. What methods and modes of analysis are required to comprehend the diverse human/non-human interactions and seemingly incommensurable scales that the Anthropocene invokes? What types of collaboration, knowledge, and mutual care does an anthropocenic outlook make possible? How can we anchor the manifold theoretical proposals that have been put forward not just in ethnographic examples but also in own ‘experiments for living’?

Teaching: 7 hours of lectures, 7 hours of seminars, 6 hours of seminars and 4 hours of workshops in the LT.

The course is comprised of three cycles of three weeks plus an additional, concluding week. Each cycle consists of two weeks taught in the traditional lecture/seminar format, and a third week with a two-hour seminar bringing together the entire course cohort. While the one-hour seminars will focus on core readings set by the lecturer, the two-hour seminar will, in addition, offer space for viewing other resources (films, online material), discussing students independently researched material, student presentations, etc.

Formative coursework: Students will be expected to produce 1 essay, 1 presentation and 6 other pieces of coursework in the LT.
AN477  Half Unit
Topics in the Anthropology of sub-Saharan Africa

This information is for the 2018/19 session.
Teacher responsible: Prof Deborah James OLD 6.06
Professor Karin Barber

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: It is preferred that students will normally have done preliminary courses in Anthropology or have a Social Science background, but there is some flexibility. Students should consult the course lecturer.

Course content: This course gives students a critical understanding of ethnographic and theoretical writing on Africa. Grounded in some classic debates around tradition and modernity (kinship-based polities vs states; studies on occult knowledge vs rationally-oriented political economy approaches; relationality and communality vs developmentally-oriented progress; ‘objective’ class vs forms of identification such as tribe or race), it explores questions about how the continent’s societies orient themselves, and respond to new precarities, in a postcolonial and neoliberal age. Are there specifically African forms of knowledge — and what is the role of the occult? What is postcolonial about the ‘postcolony’? Do youth have a future of work in post-industrial Africa, or are familial or welfare dependencies the only way forward? Is Europe ‘evolving towards Africa’, as has been maintained?

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

Students are expected to prepare discussion material for presentation in the classes. They will also have an opportunity to write a formative review, incorporating their insights from an event visit (see below) and incorporating some reading matter from the course, which will be discussed with the class teacher. The weekly lectures for this course, laying out essential background for understanding the readings, will be shared with a group of undergraduate students. The weekly seminars of 90 minutes, based on the close reading of at least 3 articles and led by the professor teaching the course, will not be shared but will be held for Masters’ students exclusively.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Students will be asked to write one formative review during termtime, to be discussed with and evaluated by the course lecturer. The formative review will allow for students’ individuality and expression and allow them to bring their own interest in current debates into interplay with course materials.
AN479 Half Unit Not available in 2018/19

Anthropology of Law

This information is for the 2018/19 session.

Teacher responsible: Dr Insa Koch NAB 7.17

Availability: This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is not available as an outside option.

Course content: The aim of this course is to introduce students to major developments and debates in legal anthropology both across time and space. The course is divided into three parts. The first part introduces students to the origins and early developments of the discipline. Students will learn about legal anthropology’s encounter with colonialism, its post-colonial critics and the legacy these debates have left on the sub-discipline today. The second part moves on to core debates in contemporary legal anthropology, including on human rights, citizenship and violence and law. In the third part of the course, you will learn about the limits of the law and law’s relationship to other social, economic and political domains. Topics will include the policing of the migrant crisis, the criminalisation of poverty and indigenous peoples’ struggles over cultural recognition.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

The course will be taught through a combination of weekly lectures and seminars. During reading week (week 6), students will also be asked to conduct a court visit and to write up a short ethnographic project. This will be discussed in seminar after reading week.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: Some useful background/overview readings include:
- Snyder, Françoise 1993. Law and Anthropology: A Review. Florence: European University Institute. Working Papers in Law 93/4. There are also a number of edited collections that are useful:

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

AN497

Dissertation: Religion in the Contemporary World

This information is for the 2018/19 session.

Teacher responsible: Dr Mathijs Pelkmans OLD 5.08

Availability: This course is compulsory on the MSc in Social Anthropology (Religion in the Contemporary World). This course is not available as an outside option.

Pre-requisites: As for the Programme.

Course content: The dissertation will address a topic in the social sciences of Religion in the Contemporary World. This will normally be a library-based dissertation, but may be supplemented by minor original research elements in consultation with the academic adviser. The topic should make central use of concepts in the study of religion in the social sciences drawn from approved courses on the programme, particularly from the core course, and should demonstrate a good understanding of those concepts and their implications. The dissertation may draw on empirical topic areas suggested by the taught core and option courses of this programme, but must demonstrate an element of originality in analysis, content or both. The dissertation will normally contain an inter-disciplinary element which may be in the combination of material, the combination of critical, analytical or theoretical concepts, or both. Guidance on standards of presentation etc will be given in the MSc handbook, and will conform to the current standard laid down for the dissertations in MSc social anthropology.

Teaching: 1 hour of lectures in the MT. 3 hours of lectures in the LT. 3 hours of workshops in the ST.

There will be lecture on note taking and avoiding plagiarism in the MT. In addition to the two lectures in the LT and the dissertation workshop in the ST, students will discuss their projects and receive guidance during meetings with their mentors in MT, LT, and ST.

Formative coursework: Small group tutorials, individual mentoring, discussion of abstracts: please see Programme Proposal. Presentations and class discussions in all programme courses will also contribute towards the formative preparation for the dissertation.

Assessment: Dissertation (100%, 10000 words) in August. The dissertation must not exceed 10,000 words including text and footnotes (but excluding bibliography and appendices) to be submitted to the Department in late August.

AN498

Dissertation- MSc China in Comparative Perspective

This information is for the 2018/19 session.

Teacher responsible: Dr Johannes Steinmuller OLD 5.06A

Availability: This course is compulsory on the MSc in China in Comparative Perspective. This course is not available as an
outside option.

Course content: The dissertation must demonstrate an adequate knowledge of relevant social science literature and empirical material from China and elsewhere. It should elaborate a theoretical framework to compare Chinese and non-Chinese data. The topic should have been discussed with and approved by the academic adviser. Note that the dissertation must be based on published sources rather than primary research undertaken by the student.

Teaching: 1 hour of workshops in the MT. 1 hour of workshops in the LT.

There will be lecture on note taking and avoiding plagiarism in the MT.

Students attend a one-hour dissertation workshop at the end of Lent Term. After deciding on a topic during the Lent term, in consultation with their academic advisers (and other members of staff where appropriate), students submit a one-page abstract in the first week of the Summer term. Each student attends a one-on-one dissertation tutorial with his/her academic mentors in the ST. During these, abstracts will be evaluated and commented upon. Students continue to consult their academic mentors during the Summer Term.

Assessment: Dissertation (100%, 10000 words).

The dissertation must not exceed 10,000 words including text and footnotes (but excluding bibliography and appendices) to be submitted to the Department in late August.

### AN499

**Dissertation**

This information is for the 2018/19 session.

Teacher responsible: Dr Mathijs Pelkmans OLD 5.08

Availability: This course is compulsory on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Learning and Cognition). This course is not available as an outside option.

Course content: The dissertation must demonstrate an adequate knowledge of relevant theoretical literature and the ethnography of one or more contexts. It should attempt to consolidate a theme introduced during the course, developing a sustained research focus on one specific issue in anthropology, using existing ethnographic literature as appropriate. Note that the dissertation must be based on published sources rather than fieldwork undertaken by the student. For the MSc Social Anthropology, the problem should be framed with reference to literature from within the discipline of anthropology (drawn from mainstream journals or ethnographic texts). For the MSc Anthropology and Development and the MSc Anthropology and Development Management, the topic should span the fields of both Social Anthropology and Development Studies - it may cover, but need not be restricted to, the area of overlap, i.e. the anthropology of development as narrowly defined. For the MSc Social Anthropology (Learning and Cognition), the dissertation should draw not only on specifically anthropological literatures and engage with anthropological themes, but also make judicious use of non-anthropological literature from cognitive science, and therefore from related disciplines such as psychology and/or philosophy.

Teaching: 1 hour of lectures in the MT. 3 hours of lectures in the LT. 3 hours of workshops in the ST.

There will be lecture on note taking and avoiding plagiarism in the MT. In addition to the two lectures in the LT and the dissertation workshop in the ST, students will discuss their projects and receive guidance during meetings with their mentors in MT, LT, and ST.

Assessment: Dissertation (100%, 10000 words) in August.

The dissertation must not exceed 10,000 words including text and footnotes (but excluding bibliography and appendices) to be submitted to the Department in late August.

### DV400

**Development: History, Theory and Policy**

This information is for the 2018/19 session.

Teacher responsible: Prof James Putzel CON.8.03 and Dr Rajesh Venugopal CON.8.09

Availability: This course is compulsory on the MSc in Development Studies and MSc in Political Economy of Late Development. This course is available on the MPhil/PhD in Development Studies, MSc in African Development, MSc in Anthropology and Development, MSc in Empires, Colonialism and Globalisation, MSc in Environment and Development, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: None

Course content: The course integrates the concepts and perspectives of a range of disciplines to consider: major trends of development and change in modern history and interpretations of them in the social sciences and contemporary economic and social theory and their bearing on the policy and practice of development. During Michaelmas Term the course critically discusses concepts of ‘development’ and the historical evolution of paradigms of development thinking and policy. Through an examination of comparative historical experience, we explore the role of states and markets in development and/underdevelopment, colonial legacies and path dependencies and the political economy of growth, poverty and freedom. We examine how differential experiences of financial crisis, state fragility, democratic and populist politics affect development thinking and possibilities. During Lent Term the course draws on recent research and policy documents to discuss current cutting edge policy issues and challenges in the developing world including: demographic change and its implications, poverty and inequality; industrialisation, international trade and industrial policy; agriculture, new technologies and agrarian reform policies; gendered development and responses; the impact of violent conflict; environmental threats and sustainability; and the evolution of development practice and aid.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT. 18 hours of lectures and 15 hours of seminars in the LT.

A three hour revision session in the final week of LT

There will be a Reading Week in week 6 of MT and LT.

Formative coursework: One 2,000 word essay with written feedback submitted in Michaelmas Term and at least two seminar presentations on literature (one in Michaelmas and one in Lent).

Indicative reading: The following are recommended basic readings for the course:

- HJ Chang, Kicking Away the Ladder: Development Strategy in Historical Perspective (Anthem, 2002).
- M. Jerven, Poor Numbers: How we are misled about African development statistics and what to do about it (Cornell, 2013).

Assessment: Exam (80%, duration: 3 hours) in the summer exam period.

Essay (20%, 2000 words) in the LT.
**DV407  Half Unit  Not available in 2018/19**

**Poverty**

This information is for the 2018/19 session.
Teacher responsible: Dr Mahvish Shami CON.8.12
Availability: This course is available on the MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is not available as an outside option.

Course content: The course is an interdisciplinary analysis of poverty, where the focus is on poverty both as a dependent variable (what causes poverty) and an independent variable (what poverty causes). The course will draw from a variety of disciplines but will pay special attention to the political economy of poverty; however, no prior mathematical or statistical qualification is required.

The topics to be covered begin with an examination into the definition and measurement of poverty. We focus as well on the relationship between poverty and inequality, education, gender and human development, with special attention to the relationship between poverty, violence, and democracy. We also examine the origins of modern famines and whether democratization contributes to poverty reduction. We close with further thoughts on poverty reduction and the Millennium Development Goals.

Teaching: 20 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 2 hours of lectures in the LT.

Assessment: Take home exam (85%) in the ST. Presentation (15%) in the MT.

The exam (85%, duration: 4 hours take home exam) will be held in the main exam period.

The class presentation (15%, duration 20 mins) will be given in the class seminars.

The paper will be released via the course Moodle site.

---

**DV410  Research Design and Dissertation in International Development**

This information is for the 2018/19 session.
Teacher responsible: Dr Diana Weinhold CON.7.10
Availability: This course is compulsory on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is not available as an outside option.

Course content: DV410 and MY410 together provide students a coordinated introduction to research design and a selection of research methods used in development research. The objective is to enable students to conduct independent research, to assess the methods used to generate evidence, and to critically assess the quality and validity of research analysis and findings in development research and policy. Students will learn about:

the challenges of conducting research; about research design, including how to generate a research question and how to select a research method; the relative strengths and weaknesses of alternative research methods; some of the practical and ethical dos and don'ts of doing fieldwork; and, preparing for the dissertation.

Teaching: DV410: 6 hours of lectures in the MT. 8 hour workshop in the ST.
MY410: 15 hours of lectures and 15 hours of seminars in the MT. The development of the dissertation is conducted via a coordinated, joint collaboration between the individual student, his or her academic mentor in ID, instructors and seminar leaders in MY410, and dissertation workshop leaders. Additional support and feedback is also available from other ID faculty via the Department’s open-door policy, and from individual and group sessions provided through LSE Life throughout the academic year.

In the MT students will attend both MY410 lectures and seminars on research design, as well as three DV410 lectures on LSE Life and library resources, and ethics issues for MSc research.

Students will also meet with their academic mentor at least twice per term. In MT week 11 students will submit a 1000-word research proposal#1 for summative assessment.

In LT week 3 students will receive a mark and written feedback on research proposal#1. Throughout the term they are expected to meet with their academic mentor, other ID faculty, and/or MY410 Fellows on a regular basis as they develop their longer 3000-word dissertation proposal#2. A preliminary draft of dissertation proposal#2 will be submitted a week before the beginning of ST.

In ST1 students will attend a full day dissertation workshop in week 1 and receive oral and written feedback on their draft dissertation proposal#2. In ST week 3 they will submit their (revised) 3000-word dissertation proposal#2 for summative assessment. Students will receive a provisional mark and written feedback on their dissertation proposal#2 by the end of ST.

There will be a reading week in Week 6.

Formative coursework: Formative oral feedback of dissertation ideas and proposals are provided throughout the academic year from students’ academic mentor and ID faculty. Formative coursework and feedback will be provided in MY410 seminars, and formative oral on dissertation proposal#2 will be provided in the ST dissertation workshop.

Every student will have to complete the ethics review process by end of ST7. Where appropriate, students requiring risk assessment, will have to complete this by end of ST7.

Assessment: Dissertation (70%, 10000 words) in the ST.

Two pieces of Coursework (30%, 1000 words in MT and 3000 words in ST).

Students will attend compulsory MY410 lectures and seminars and submit two MY410 dissertation proposals which comprise 30% of the total course mark as follows:

MY410 Dissertation Proposal 1 is 10.5% of the total mark.
MY410 Dissertation Proposal 2 is 19.5% of the total mark.

Students will submit a dissertation of no more than 10,000 words, not including references, by midday on the date specified by the Department towards the end of August.

---

**DV411  Half Unit  Not available in 2018/19**

**Population and Development: an Analytical Approach**

This information is for the 2018/19 session.
Teacher responsible: Prof Tim Dyson, CON.8.04
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in China in Comparative Perspective, MSc in Development Management, MSc
in Development Studies, MSc in Global Population Health, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Social Research Methods, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit).

**Course content:** Using the demographic transition as its framework, the course examines different analytic approaches to the main interrelationships between population change and socio-economic development. It draws on a variety of theoretical and historical experiences to address and explore these interconnections. It aims to provide balance between theoretical understanding, knowledge of empirical evidence and basic causal processes, and implications for policy.

The course begins by providing an overview of the world’s current demographic situation at both the global and the regional levels. It then addresses Malthusian and anti-Malthusian perspectives on the basic relationships linking population growth and economic growth. These contrasting perspectives are considered in the context of both historical and contemporary experience. The course then proceeds to assess demographic transition theories and their relationships to theories and processes of economic development, urbanisation and socio-structural change. Urban growth, migration, and urbanization receive special attention. The implications of population change for issues of employment, savings and investment are considered, as are issues relating to energy, food production and security, carbon emissions and climate change. Contemporary neo-Malthusian arguments, with their environmental components are also considered, as are issues relating to women’s empowerment, democratization, and population aging. Further details will be provided at the start of the session.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of lectures in the LT.

There will be a reading week in Week 6.

**Formative coursework:** Students will be given the opportunity to undertake a ‘mock examination’. This will be graded and accompanied by written feedback within two weeks of its submission.

**Assessment:** Exam (100%), duration: 2 hours in the summer exam period.

---

**DV413 Half Unit Environmental Problems and Development Interventions**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Timothy Forsyth CON.8.05

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Accounting, Organisations and Institutions, MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Global Politics, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Social Innovation and Entrepreneurship and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Also available to students taking MSc: International Relations or MSc International Political Economy as part of the LSE-Sciences Po Double Degree in Affaires Internationales programme. Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit). This course is capped at 60 students.

**Pre-requisites:** None

**Course content:** This course is for MSc students who wish to study social and political aspects of environmental change and its implications for international development. The aim is to summarise the key current debates about ‘environment and development’ from perspectives of social and political theory with special reference to institutional theory, livelihoods, and inclusive policy interventions.

The course is structured to analyse the challenges of making well-informed environmental interventions in the face of poverty and vulnerability, and then seeking practical solutions to these dilemmas. The course first considers the nature of environmental problems within a ‘development’ context, and what this means for environmental science and norms as applied in developing countries. Themes include assessing environmental science and expertise in concerning adaptation to population growth, resource scarcity, deforestation, desertification, vulnerability to ‘natural’ disasters, and risks associated with climate change, including questions of gender and environment. As the course progresses, it considers debates about policy interventions such as common property regime theory; theories of the state and environment (including resistance and social movements); community-based natural resource management and Sustainable Livelihoods; adaptation to climate change; forests; and urban environmental policy (these latter themes involve debates on multi-level, multi-actor governance involving the connections of local development and global climate change policy).

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures in the LT.

There is a ninety minute revision session in the LT.

There will be a reading week in Week 6

**Formative coursework:** Students will have the opportunity to produce 1 essay in MT

**Indicative reading:** A detailed weekly reading list will be provided at the first course meeting. Students are not advised to buy a single textbook for this course but to read selectively and critically from various sources. The following books might be useful introductions. Adams, W.M. 2009 Green Development: environment and sustainability in a developing world. 3rd ed. London.
DV415    Half Unit
Global Environmental Governance

This information is for the 2018/19 session.

Teacher responsible: Prof Kathryn Hochstetler

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Accounting, Organisations and Institutions, MSc in African Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Policy and Regulation, MSc in Global Politics, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Regulation and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit). This course is capped at 60 students.

Course content: This course is for any MSc student who wishes to study the politics of global environmental policy from the perspective of environmental governance and international development. The aim is to summarise debates about ‘global’ environmental problems and to review the contributions of debates about ‘governance’ to political solutions. The main theoretical focus of the course is on understanding the evolution of environmental policy regimes at multiple scales and with multiple actors. The guiding empirical focus is on the role of developing countries in global environmental governance and the effects of environmental policy regimes on their development strategies and outcomes. Some of this draws upon debates within International Relations, but this course also considers other literatures about environmental politics. Only part of global environmental governance takes place in formal spheres specifically devoted to environmental topics. Economic institutions like trade and financial institutions also play a key role and are covered here. To make the course focused, it will consider primarily anthropocentric climate change, energy, and biodiversity and forests. In addition, these topics will be analysed from the perspective of the role of states and inter-state agreements; business actors and non-governmental organisations (NGOs); the regulation of trade; and the evolution of financial assistance, including from the World Bank.

Teaching: 16 hours and 30 minutes of lectures and 15 hours of seminars in the LT. There will be a Reading Week in week 6.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: A detailed reading list will be presented at the beginning of the term. There is no single textbook for this course, but we recommend the following as a basic reading list:

Assessment: Exam (80%, duration: 2 hours) in the summer exam period. Essay (20%, 2000 words) in the LT.

DV418    Half Unit
African Development

This information is for the 2018/19 session.

Teacher responsible: Dr Laura Mann CON. 6.19 (co-convenor)
Prof Thandika Mkandawire CON 8.02 (co-convenor)

Availability: This course is compulsory on the MSc in African Development. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Policy and Regulation, MSc in Global Politics, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Regulation and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit). This course is capped at 60 students.

Course content: The major concern of the course is with the political economy of African development, to examine processes of economic, political, social and cultural change in Sub-Saharan Africa. It provides critical analysis of key development interventions and processes. It seeks to combine general theoretical overviews with country case studies illustrating the variety of experiences and trajectories. It does not aim to provide a comprehensive coverage of development issues or of regions. Course content will vary from year to year, depending on the specialities of staff. Attention is paid to legacies of the colonial encounter, the constraints and opportunities presented by African countries’
positions in the global economy, the political economy of industrialisation and agrarian transformation, resource mobilisation, trade diversification, institutional reforms and state capacity. Attention will also be paid to social policy with special focus on issues such as social protection, cash transfers, Millennium Development Goals, horizontal inequality and conflict.

**Teaching:** 16 hours and 30 minutes of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST. There will be a ninety minute revision session in early ST. There will be a reading week in Week 6.

**Formative coursework:** Students will write a 2,000 word essay chosen from class questions and in discussion with the course leader, to be submitted by the beginning of week 6 of Lent Term.

**Indicative reading:** A detailed weekly reading list will be provided at the first course meeting. The following readings provide an introduction to the course:

**Assessment:** Exam (80%, duration: 2 hours) in the summer exam period.

Essay (20%, 2000 words) in the ST. 

---

**DV420 Half Unit Complex Emergencies**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof David Keen CON.7.15

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Anthropology and Development, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in Health and International Development, MSc in Human Rights, MSc in International Development and Humanitarian Emergencies, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is not available as an outside option. Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit).

**Course content:** The course examines the consequences and causes of humanitarian disasters. It looks at the changing nature of civil conflicts, at the famine process, and at the benefits that may arise for some groups from war and famine. It examines some of the roots of violence in civil wars, as well as the information systems that surround and help to shape disasters. The course is interdisciplinary and looks at political, economic and psychological functions of violence.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour and 30 minutes of lectures in the ST. There will be a ninety minute revision session at the beginning of ST.

There will be a reading week in Week 6.

**Formative coursework:** Students will have the opportunity to receive feedback on formative work, in the form of a practice assessed essay.

**Indicative reading:** A detailed weekly reading list will be provided at the first course meeting. A useful text, which is designed in large part around the course, is David Keen, Complex Emergencies (Polity, 2008). Other texts of interest include David Keen, Useful Enemies: When Waging Wars is More Important than Winning Them (Yale University Press, 2012); Stathis Kalyvas, The Logic of Violence in Civil War (Cambridge University Press, 2006); David Keen, Conflict and Collusion in Sierra Leone (James Currey, 2005); David Keen, Endless War? Hidden Functions of the ‘War on Terror’ (Pluto, 2006); Michael Mann, The Dark Side of Democracy:

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

---

DV421  Half Unit
Global Health and Development

This information is for the 2018/19 session.

Teacher responsible: Dr Filipa Mladovsky CON.6.13

Availability: This course is compulsory on the MSc in Health and International Development. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Global Health Policy, MSc in Global Politics, MSc in International Development and Humanitarian Emergencies, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course is concerned with inter-relationships between challenges to human health and health systems in the developing world and their socio-economic, cultural, historic and political context. Both the causes of health threats and their consequences are examined. The approach of the course is to discuss specific (re-)emerging health threats, and to critically assess their determinants and impacts, and policies and interventions to address their spread. A wide range of topics is covered, including: the relationship between health, population and development; the demographic and epidemiological transitions; biological, behavioural, socio-economic, cultural and environmental influences on health outcomes; legacies of colonialism in global health; the causes and consequences of the HIV/AIDS pandemic; Neglected Tropical Diseases (NTDs); non-communicable diseases; mental health; and, local and international health intervention efforts and policies, with a focus on health systems and universal health coverage. Case studies are drawn mainly from sub-Saharan Africa, Latin America, and Asia. By the end of the course, students should be able to: understand the complex relationships between health and poverty / inequality in and across low and middle-income countries; evaluate multi-disciplinary evidence on a range of global health issues and interventions and apply this evidence to policy analysis and development; and understand how politics, power and moral frameworks influence global health policy, with a focus on governments, NGOs and bilateral and multilateral donors.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT.

There will be an additional 1.5 hour lecture and ‘question and answer’ session on essay writing in week 11 of the LT. There will be a reading week in Week 6.

Formative coursework: At least one class presentation. Submit one essay plan due 5pm on 15th February 2019 (1,000 words). Essay questions released 28th January 2019.

Indicative reading: A detailed weekly reading list will be provided at the first lecture. The readings for this course are from journals and select book chapters in the fields of international development, public health and epidemiology, health systems, public policy, demography, sociology, philosophy, and anthropology, political science and economics among others. Readings will also include case studies of disease prevention and control efforts in various countries and reports, papers and articles published by international organisations, think-tanks, and a variety of other sources.

Assessment: Take-home essay (100%, 3,000 words) due 5pm on 5th April 2019. Essay questions released 15th March 2019

---

DV423  Half Unit
Global Political Economy of Development

This information is for the 2018/19 session.

Teacher responsible: Prof Robert Wade CON.7.07

Availability: This course is available on the Global MSc in Management, Global MSc in Management (MBA Exchange), MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Global Health Policy, MSc in Global Politics, MSc in International Development and Humanitarian Emergencies, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is not available as an outside option.

Please note that undergraduate economics is a big help, though not essential. In case of over-subscription priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit). The instructors reserve the right to limit enrolment on the course. At the policy instructors’ discretion, enrolment may be denied to any student on the basis of a pre-quiz. The course is capped at 70 students.

Pre-requisites: Undergraduate economics gives a big advantage, but is not pre-requisite.

Course content: The course examines the political economy of ‘North-South’ or ‘core-periphery’ relations, focusing on how changes in international organisations and the international policy framework affect developing countries’ economic trajectories and national-level strategies (eg in production, trade, FDI, finance) for interaction with the global economy. It covers the performance of the world economy as a whole (trends in growth and shrink, inequality, poverty), international systems of production, trade, and finance; the rules or regimes which govern interaction between economies, states and firms (regimes such as Bretton Woods, and the Post Bretton Woods dollar standard); and several international organisations (such as the World Bank, IMF, UNCTAD, G20). Along the way it analyses the major financial/economic crises of 1997-99 and 2007-09. In contrast to much writing in International Political Economy, it looks at these things from the perspective of the low and middle-income countries (in the spirit of the Swahili proverb, “Until lions have their own historians, tales of hunting will always glorify the hunters”), and does not assume that the G7 states provide a generally benign (win-win) environment for development in the rest of the world (as in the G7 mantra “free trade and free entry for FDI benefits us all”).
In concluding the course, taking a step back and reviewing the term's material from a "birds-eye view," we analyse contrasting trajectories of change in two development regimes, one regarding "industrial transformation" and mobility in the international division of labour, and another regarding "humanitarianism" and poverty reduction.

**Teaching:** 32 hours of lectures and 15 hours of seminars in the MT. 2 hours of lectures in the LT.

The course will be taught in the Michaelmas Term and will consist of 10 lectures of 120 minutes each and ten seminars of one-and-a-half hours (various days and times). There will be a two hour revision session in late LT.

Five to six 'Voice of Experience' lectures of up to two hours (from

**DV424** Half Unit

**International Institutions and Late Development**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Kenneth Shadlen CON.7.08

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Media, Communication and Development, MSc in Political Economy of Late Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit). DV424 is not a prerequisite for this course, students have the option of taking both courses or either.

**Course content:** This course examines the politics of the international economy. We analyse the overarching rules and regulations that structure the international economy, and thereby provide context for development policy, and we assess the role of a range of actors (e.g. governments, firms, non-state actors) in shaping and reshaping the international economic order. We are particularly interested in understanding the ways that developing countries respond to and participate in international regimes and organisations, and how changes in global economic governance affect opportunities for economic development. The first week, which synthesises a variety of explanations of the role that international organisations play in global politics, establishes the theoretical spine for the course. We then examine governance in international sovereign debt and finance, public and private.

We analyse the politics of debt relief for the poorest and most heavily-indebted countries, where most of the debt is owed to public creditors, and we analyse the politics of debt restructuring for middle-income countries where significant shares of the debt is owed to private/commercial creditors. The course then turns to the politics of international trade, investment, and intellectual property.

This cluster of five sessions is organised around a dialogue between multilateral and regional frameworks for integration into the global economy, with the World Trade Organisation (WTO) serving as our principal point of reference. We examine the emergence of the WTO, both in terms of the substance of the Uruguay Round agreements and as an inter-governmental organisation with its own set of procedures for agenda-setting, rule-making, and dispute-settlement. We then examine emerging arrangements for global governance in the areas of foreign investment and intellectual property. And, then we focus explicitly on the resurgence of new, North-South, bilateral and regional trade agreements, considering the implications of such agreements for development and the factors that contribute to their proliferation.
disabilities will apply only in exceptional circumstances. Students that as this is a three-day take-home examination, extensions for The paper will be released via the course Moodle site. Please note

Dr Jonathan Weigel
Availability: This course is compulsory on the MSc in Anthropology and Development Management and MSc in Development Management. This course is available on the MSc in African Development and MSc in Political Science and Political Economy. This course is not available as an outside option.
Course content: Why are some countries rich and others poor? Why are some governed well and others badly? This course employs a political economy approach to examine the causes of development, identify the underlying obstacles to development, and evaluate potential solutions. It focuses on the principles governing the institutions, politics, and organisations through which policies, programmes and projects are produced and implemented. Attention is given to the different kinds of authority, incentives and accountability mechanisms that govern the relationships between leaders, managers and recipients. It reviews ongoing debates about the best ways of designing state agencies, private firms and NGOs, by showing how centralised bureaucracies, markets, participatory and solidaristic agencies operate to provide services in practice. It explores the dynamics of different forms of democratic and authoritarian states, the determinants of good and poor governance, and how social, political and economic forces interact to drive change and stability. In order to enable students to make practical judgments about institutional reform programmes in various contexts, competing approaches to development are critically and constructively analyzed in light of case studies. The course is divided into several parts: Analytical Assumptions, Government and Governance, Private Sector, and Civil Society. On completing the course students should be able to: (i) use theory to identify the causes of actual development challenges, (ii) identify and assess relevant case study material to inform development practice; and (iii) employ the insights developed throughout the course to formulate policy recommendations and plans of action for improving development.

Teaching: 20 hours of lectures, 15 hours of seminars and 12 hours of workshops in the MT. 18 hours of lectures, 13 hours and 30 minutes of seminars and 9 hours of workshops in the LT. 3 hours and 30 minutes of lectures in the ST. There will additionally be an introductory workshop at the start of MT. Students are expected to attend all these sessions. Lectures will focus on the theoretical debates driving current policy practice in the development community, while seminars will relate these to practical problems of implementation, drawing on case studies, class exercises, and the personal experience of participants. Seminars will discuss topics covered in the lecture, and will be conducted on the basis either of a student presentation or a class exercise.
MSc in Development Management and MSc in Anthropology and Development students (only) will also take part in and be assessed on the Development Management Project, a live consultancy exercise for real development agencies in consultation with International Development staff. Workshops will be organised to assist student groups to formulate their proposals and negotiate their projects with their commissioning agencies. These students will also be offered mandatory special sessions specifically on practical and professional aspects of the consultancy projects, development management workshops, and a development policy debate.
There will be a three and a half hour revision session in early ST. There will be a reading during Week 6.
Formative coursework: In the Michaelmas Term, all students are expected to produce one short essay on a topic agreed with an individual tutor, to prepare them for the final exam. In addition, MSc in Political Science and Political Economy students are expected to produce a formative case study analysis presentation in MT, to prepare them for their assessed presentation in LT.
Assessment: Assessment path 1
Exam (60%, duration: 3 hours) in the summer exam period.
Project (40%) in the ST.
Assessment path 2
Exam (75%, duration: 3 hours) in the summer exam period.
Presentation (25%) in the LT.
Assessment path 1 is for MSc in Development Management and MSc in Anthropology and Development Management students. Assessment path 2 is for MSc in Political Science and Political Economy students. The presentation is a case study analysis presentation in the LT.
Students are required to pass the final exam in the main exam period in order to pass the course. A fail in the exam cannot be conditioned by a pass in other elements of assessment.
China in Developmental Perspective

This information is for the 2018/19 session.

Teacher responsible: Prof Jude Howell CON. 8.02

Availability: This course is available on the CEMS Exchange, MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in International Development and Humanitarian Emergencies and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Excellent reading and speaking skills (~IELTS 7 minimum)

Course content: This course looks at China from a comparative developmental perspective, locating the discussion of China within the interdisciplinary field of development studies. It examines China’s developmental trajectory since 1949, explaining the fundamental shift in developmental path from late 1978 onwards. It considers China’s role in the so-called Third World, as a model of innovation, as a voice for developing country concerns and as an important aid donor. It reflects on China’s recent achievements in reducing poverty and places these in comparative context. The course considers the governance challenges posed by rapid economic reform, the attempts to reform the Party-state and to manage social tensions. It examines the social dimensions of rapid economic reform and the implications for social policies. It looks at the emergence of NGOs and other forms of civil society, organising and considering changing state-society relations. Finally it considers China’s role as aid donor and its emergence as a global economic and political power. The course will enable students to obtain an understanding of key developmental issues and discussions about China and to link these discussions to broader debates and theories in development studies.

Teaching: 22 hours of lectures and 15 hours of seminars in the MT.

In addition, one introductory seminar session in MT, one essay preparation session in MT and one exam revision session in MT.

Formative coursework: Students have the opportunity to receive feedback on a formative essay of 1,500 words. Students will also receive feedback on their seminar performance. Students are welcome to come to course convenor’s office hours to discuss any issues.

Assessment: Essay (30%, 2500 words) and take home exam (70%) in the LT.

This course will be assessed by an 8 hour take-home exam and 2500 word essay.

The Informal Economy and Development

This information is for the 2018/19 session.

Teacher responsible: Dr Kate Meagher CON. 7.11

Availability: This course is available on the CEMS Exchange, MBA Exchange, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in International Development and Humanitarian Emergencies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Contrary to standard development thinking, the informal economy has expanded rather than contracted in the face of liberalisation and globalisation, and now creates more jobs than the formal economy in most developing countries. Accounting for more than 50% of non-agricultural employment across much of the developing world, the informal economy is attracting growing policy attention. Practitioners, policy makers and academics seek a clearer understanding of its impact on poverty, employment, social exclusion, and governance. In a globalising environment, are large informal economies a poverty trap or an engine of growth? Do they stimulate entrepreneurship and popular empowerment, or promote criminality and exploitation? How does a greater understanding of the size and organization of informal economies affect policy on urban service provision, social policy or taxation? What are the implications of the informal economy for social cohesion and popular politics in developing countries? This course will explore how high levels of informality in developing countries are shaping processes of growth and governance in the global south. The effect of informality on new policy narratives of inclusive growth will be a central theme in the course. Using a comparative institutional approach, we will examine informal economies in a range of regional contexts, including Africa, the Middle East, South and East Asia, and Latin America, highlighting variations in activities, relations with the state, global integration and development outcomes. Key issues covered in the course include the impact of the informal economy on labour markets, weak states, gender empowerment, urban services, social enterprise, social policy, taxation, and popular politics. Attention will be focused on the potential as well as risks of large informal economies in the face of contemporary development challenges, drawing on empirical evidence and comparative case studies from across the developing world.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.

There will be a ninety minute revision session in Summer Term. There will be a Reading Week in Week 6.

Formative coursework: Formative coursework will involve a 2,000 word essay during the term and at least one presentation.

**Assessment:** Exam (70%), duration: 2 hours in the summer exam period.

**Essay (30%, 3000 words) in the ST.**

---

**DV434 Half Unit**

**Human Security**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Mary Kaldor
Dr Iavor Rangelov

**Availability:** This course is available on the MSc in African Development, MSc in Conflict Studies, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in International Development and Humanitarian Emergencies, MSc in International Migration and Public Policy, MSc in Social Research Methods and MSc in Women, Peace and Security.

This course is available with permission as an outside option to students on other programmes where regulations permit. No more than 5 students, per academic year, can be accepted from programmes other than the listed programmes. Capped at 30 students, first come, first served in order of priority.

**Course content:** This inter-disciplinary course will introduce students to the concept of human security. Human security refers to the security of individuals and communities as opposed to the security of the state. It combines physical security and material security, freedom from fear and freedom from want. The course will introduce students to the debates about the concept and its relevance in the contemporary era. It will combine political, military, legal and economic approaches to human security implementation. The course will cover topics including; intellectual foundations and debates over the concept of human security; new and old wars; persistent conflict; just war thinking and whether it can be applied to human security; international humanitarian law and human rights law; humanitarian intervention and the Responsibility to Protect; international capabilities for human security; countermunitions, stabilisation, and statebuilding; transitional justice.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the MT. 2 hours of lectures in the LT. There will be a revision session in LT. There will be a reading week in Week 6. **Formative coursework:** Optional formative essay due in November.

**Assignment:** Exam (100%, duration: 2 hours) in the summer exam period.
### DV442 Half Unit

**Key Issues in Development Studies**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Elliott Green CON.8.07 and other ID staff

**Availability:** This course is compulsory on the MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is available on the MSc in African Development, MSc in Anthropology and Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Political Economy of Late Development, MSc in Urban Policy (ISE and Sciences Po) and MSc in Urbanisation and Development. This course is not available as an outside option.

**Course content:** This course provides an overview of the key issues and debates in international development. It features lectures on subjects such as conflict, poverty, aid, inequality, health, demography and democratisation, among other topics.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures in the ST.

**Assessment:**
- Exam (60%, duration: 2 hours) in the summer exam period.
- Essay (40%, 3000 words) in the LT.

### DV444 Half Unit

**Global Health and Population Change**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Arjan Gjonca OLD.2.45

**Availability:** This course is available on the MSc in African Development, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Global Health Policy, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** No pre-requisites are required for this course.

**Course content:** This course aims at looking at the relationship of population change and global health. This course brings together the key issues on the social and environmental determinants of population health in low and middle income countries from a multidisciplinary approach including social sciences, demography, development studies and public health. The course does not only take a theoretical approach, but it is also evidence based. This relationship between population change and health will be analysed in its dynamic, through different transitions such as demographic, epidemiological, and nutritional transition. Another important aspect of the course is that it will focus on what will happen in the future of global health as a result of anticipated population changes.

**Some of the main topics covered are:** urbanisation and implications for health, poverty, population change and inequalities; maternal and child health; achievements and setbacks?; the double burden of disease and its consequences: the roles of nutrition and obesity, the dynamics of HIV/AIDS and future developments; population growth, environmental challenges and the impact on health; priorities for health and mortality improvements in low and middle income countries.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures in the ST.

**Formative coursework:** One 1,500 word formative essay in MT.

**Indicative reading:**

**Assessment:**
- Exam (75%, duration: 2 hours) in the summer exam period.
- Essay (25%, 2000 words) in the LT.

### DV445

**Cutting Edge Issues in Development Thinking & Practice**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Duncan Green, Prof Edwin Brett and Prof James Putzel

**Availability:** This course is compulsory on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is available as an outside option to students on other programmes where regulations permit.

**It is a compulsory course for all ID students.**

**Course content:** The objectives of the course are: a) to introduce students to the practical world of development, which will both facilitate their “career paths” and also prepare them for the consultancy projects by becoming more familiar with how such organisations think and work; b) to introduce students to the interface between policy practice and development academe. Each week speakers from different development organisations or research institutes will speak to students about a “hot topic” in
development policy and research work and how their organisation uses research and for what purposes. Previous speakers have included senior economists, serving and former Government Ministers, NGO chief executives and senior staff, innovative academic researchers and consultants, among others.

**Teaching:** 18 hours of lectures in the MT. 20 hours of lectures in the LT.

Lectures followed by open discussion and debate. There will be a reading week in Week 6.

**Assessment:** This course is not assessed.

---

**DV447  Half Unit  Not available in 2018/19**

**Public Affairs, International Development and Gendered Violence**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Rochelle Burgess and Dr Holly Porter

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MSc in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Studies, MSc in Gender (Sexuality), MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Previous study of the social sciences or humanities is preferred.

**Course content:** The framework for this course will see economic, social and private aspects of development and public policy as reference points to examine silences, biases and analyses of sex and violence against women. We will consider the sexually informed constructions of women’s place in the home and in the public sphere, how development and public policy make assumptions about control over women’s bodies, and the ways in which such are challenged or reinforced. We will look at war and conflict, humanitarian work and times of ‘peace’. We will examine assumptions and judgements about (hetero)-sexuality, sexual control (by the self and by others) and how these have been drawn on by policy-makers and other actors, both in the public and domestic spheres. There will be discussions about the labour market and workplace, education, the household, family, marriage, reproduction and father-/motherhood and health. Violence – both physical and sexual – will be given attention. We will also explore issues relating to identity, religion and culture and power in relation to the grounding of concepts and expectations that infuse not only private life but also the thinking of policy-makers.

**Teaching:** 15 hours of lectures and 15 hours of classes in the LT.

**Formative coursework:** Students will be expected to write a short paper of 800-1000 words on the topic on which they will lead a class.

**Assessment:** Exam (80%, duration: 2 hours) in the summer exam period. Essay (20%, 2000 words) in the LT.

---

**DV453  Half Unit**

**International Development Consultancy Project**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Stuart Gordon CON.8.10

**Availability:** This course is available on the MSc in African Development, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is not available as an outside option.

Places for MSc Development Studies and MSc African Development students requesting to take this course as an option, are strictly limited.

**Course content:** Students will gain practical experience of dealing with current policy issues and best practice in the fields of humanitarian assistance or international development by working on a live consultancy team project for a real client. The consultancies are based around an experiential learning format. Students receive guidance through a structured supervision process and work on the consultancy report in Michaelmas Term and Lent Terms with support from a staff mentor. Students are allocated to consultancy teams comprising between three and five people. Students are able to express preferences for particular clients but may not be allocated to one of these. Past project sponsors have included the UK Department of International Development (DFID), the ICRC, MSF, the Disasters and Emergency Committee (DEC), Christian Aid, the UK Stabilisation Unit and NATO.

The consultancy project begins in Michaelmas Term with client reports due at the end of Lent Term. The client report and final presentation form part of the assessment.

**Consultancy Skills Workshops:** There will be up to three skills-oriented lecture and group work sessions (each lasting three hours).

**Teaching:** 9 hours of lectures and 6 hours of workshops in the MT. There will be a reading week in Week 6.

**Formative coursework:** Students will contribute to the Group inception, interim and final reports/presentations and will be given feedback and indicative grades for each of these. At the end of Michaelmas Term there is a progress board for each consultancy group.

**Assessment:** Project (80%, 6000 words), other (10%) and presentation (10%) in the LT.

Consultancy group project report (6000-10000 words depending on the client’s terms of reference and student group size), submitted at the end of Lent Term (80%). The ‘other’ assessment is personal performance assessed through 360 degree reporting and mentor assessment (10%). Consultancy group presentation to clients: (10%) at the end of Lent Term.

Final client presentations are at the end of the Lent Term and are scheduled by the students in consultation with academic staff AND the clients. Students should be aware that presentations to clients MAY have to take place during the first week of Easter Vacation. They will be informed as soon as possible, but should
not make any travel plans until presentation dates are confirmed.

DV454 Half Unit
Gender, labour markets and social change in the Global South: theory, evidence, public action

This information is for the 2018/19 session.
Teacher responsible: Prof Naila Kabeer
Availability: This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: N/A
Course content: One of the longest running debates within the feminist literature, and one that has been replayed in the field of gender and international development, relates to the relationship between women’s access to labour market opportunities and their position within the family and community: the exploitation versus emancipation argument. These debates have been given fresh lease of life in the development literature as a result of the growing feminisation of labour markets in recent years in most regions of the Global South. They have been further complicated by additional claims that have had a great deal of traction in policy circles that greater gender equality in the labour market has enormous growth as well as emancipatory potential: ‘the smart thing to do as well as the right thing to do’. At the same time, a great deal of feminist literature as well as international campaigns, like the anti-sweatshop movement, highlight the extremely exploitative terms on which most women take up paid work and contest the view that increased access to paid work has been empowering for women. At the heart of these conflicting positions are conflicting views about how power, privilege, choice and agency play out in the market place.

This course will be organized around these debates. It aims to equip students with the ability to analyse and assess the competing claims around this critical set of issues by providing them with a firm grounding in theory, evidence and public action relating to gender and labour markets in the Global South.

It will meet this objective through three main components.

The first component will focus on the different positions within these debates, the claims around the empowerment potential of labour market participation and the claims around growth. It will examine key concepts and theories relating to gender, households and labour markets which provide the underpinning to these claims. It will consider how inequality, power and difference is dealt with in these theories. It will also examine the different definitions of ‘work’ which feature in these theories and the extent to which they capture labour markets and livelihood strategies in different regions of the Global South.

The second component will draw together the empirical literature to consider the evidence relating to gendered patterns of labour market participation in different regions of the world. It will start out with a broad-brush account of the changes that have taken place in domestic and global labour markets over the last few decades and then consider in greater detail how these markets function at the local level in low and middle income countries. It will also analyse how market forces are restructuring some of the intimate aspects of family relations through the commodification of services that were previously provided as part of the marital contract. It will conclude by considering what these changing dynamics of the labour market tell us about women’s position within their families and the wider society and revisit the arguments about gender and growth.

The third component will evaluate various forms of public action by policy, corporations and civil society actors that have been taken up in response to their positions with regard to the gender dynamics in the economy. These include policy measures to promote greater gender equality in the labour market, minimum wage legislation, social protection and corporate social responsibility, anti-sweatshop movements, new forms of unionism and feminist activism.

Teaching: 16 hours and 30 minutes of lectures and 15 hours of seminars in the LT.

There will be a reading week in Week 6.

Formative coursework: Students will be required to submit a 1500 essay which will not count towards their final marks but which will allow them to receive feedback on their ability to read critically, to synthesise arguments and to ensure that their writing style meets the standards required by the school. It will also address learning outcomes 1 and 4.

Assessment: Essay (100%, 4000 words) in the ST.
Assessment 1 addresses Intended Learning Outcomes 1, 2 and 3

DV455 Half Unit
Advocacy, Campaigning and Grassroots Activism

This information is for the 2018/19 session.
Teacher responsible: Prof Duncan Green
Dr Duncan Green is Professor in Practice in the International Development Department, and Senior Strategic Adviser at Oxfam GB, an international NGO. His blog, From Poverty to Power (http://oxfamblogs.org/wp2p/) is one of the most widely read international development blogs. His most recent book, How Change Happens (OUP, 2016) is the core text for this course.

Availability: This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course will be offered in Lent term and capped at 45 students.

In case the number of applicants exceeds this number, applicants will be asked to submit 200 words on their background and why they want to take the course, to be assessed against interest, experience and passion. Access to the course is underpinned by equality of inclusion and this includes the criteria for entry. All students who meet the School requirements for masters level learning and submit an application will be considered on the strength of criteria that embrace equality and diversity.
If there are any spare spaces, the course is available as an outside option.

**Course content:** There are two blocks in this course:
1. Understanding How Change Happens, including systems thinking and power analysis
2. The analytical frameworks used by INGOs and other change agents

This course introduces students to some of the analytical frameworks and practical techniques used by INGOs such as Oxfam (where the course leader is senior strategic adviser) and other activists (broadly defined, including ‘change agents’ in governments and the private sector) in influencing political, social and economic policy and practice.

Lectures will introduce the importance of systems thinking and power analysis in understanding and influencing processes of change and the role of civil society and advocacy in driving such change.

These will be used to explore how activists and activist organizations use ‘theories of change’ as an organizing tool for influencing.

The course is designed for students who have been, or intend to become, active in driving change, whether as members of civil society organizations, in government, in aid donors or in the private sector. You will develop your understanding both of endogenous change processes in developing countries, and the design and limitations of deliberate efforts to bring about political, social and economic change.

Students will be asked to come with an initial idea for an influencing exercise that they would personally like to design and implement (for example a campaign, policy reform, or effort to shift public attitudes) and will apply the coursework to that case study, developing a project proposal at the end of the term that will be assessed.

Students will be required to produce a blog post and/or vlogs (video blogs, as part of group work) summarizing their individual and group projects, which will also be summatively assessed (students will receive a ‘blogging for beginners’ lecture on writing for impact).

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

Teaching will consist of a combination of lecture presentations, involving powerpoint, video and group discussion, and seminar discussions. There will be one lecture of 120 minutes each week of term. This will be followed up by 60 minutes of seminar work. Reading week will occur in week 6, during which time there will be extended office hours available.

**Formative coursework:** Students will be asked to submit initial formative proposals (1000 words max) for their individual assignments in week 6, for feedback from the course leader. Following feedback, students will present their individual proposals to the seminar groups for further discussion.

First drafts of the group assignment will be presented in seminars in weeks 7 & 8 for verbal group/tutor feedback

**Assessment:** Project (50%, 2500 words), coursework (40%) and blog post (10%) in April.

The summative assessment will consist of both individual and group assignments:

a) Individual project proposals for an influencing project (individual) will be formatively assessed and feedback given. This will then inform the final project that will be summatively assessed in April. A blog or Vlog of the project will also be produced and summatively marked.

b) Historical case study (as groups of 3 or 4). Group membership will be assigned in advance. Students will select from a range of historical change episodes. Assessment will be in three parts - the shared written summary; individual written self-reflection; and a shared group presentation based on the group project and summatively marked.

---

**DV456 Half Unit**

**Population, Health and Development: Evidence and Projections**

This information is for the 2018/19 session.

**Teacher responsible:** Ms Ewa Batyra CON.8.11

**Availability:** This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Global Health Policy, MSc in Global Population Health, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Social Policy (Research) and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Prerequisites:** Some familiarity with personal computers is required, but a high degree of technical proficiency is not required.

**Course content:** The course is practical in nature and overviews key methods used for planning in population and development. Key questions which will be answered in this course are: what is the future of the world population; what are the family planning needs of couples in low income countries; what will be the number of newly HIV infected in the next 15 years; what is a sustainable population growth. The focus will be on producing information as well as on searching and understanding data provided by key international agencies. Relevance will be given to methods used for assessing the implications of high levels of mortality in developing countries with specific reference to the HIV/AIDS pandemic, as well as the assessment of high fertility levels due to low uptakes of family planning methods. The approach is practical and complements the more theoretical population courses giving additional skills such as an understanding of key international projections and estimates. Students will undertake a number of computer-based assignments (using either Excel or Spectrum) which will follow the topics highlighted during the lectures. The course covers concepts used for population analysis; the role of population projections in the population planning and development process; the basis of projections made by international agencies such as the UN Population Division; the formulation of projection assumptions and methods of making projections; methods for projecting and assessing the impact of HIV/AIDS and the use of software such as AIM (AIDS Impact Model). The course will also give an overview of projections for particular sub-groups such as households, families, urban, sub-national and labour force ones and of the implications of uncertainty for the planning process. Emphasis will be given to the learning of analytical skills which include data and information searching on the internet as well as presentation of the information.

**Teaching:** 15 hours of lectures and 20 hours of seminars in the MT.

**Formative coursework:** Students will be expected to submit a
formative assessment before the end of term. 

Indicative reading: Relevant documents will be provided at the start of the course, mainly in the form of electronic documents. Suggested reading are Lutz "The future population of the world", Cohen "How many people can the earth support".

Assessment: Coursework (85%) in the LT Week 2. Coursework worth 85% - will be a 10 A4 page report. This will involve the formulation, execution and writing up of a project concerned with a model for population planning, to be agreed with the course teacher. This must be submitted by the second week of LT.

### DV457 Half Unit

**Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Ernestina Coast CON.8.15

**Availability:** This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Gender, MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Health Policy, MSc in Global Population Health, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Social Research Methods and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course aims to equip students with the knowledge and skills to be able to critically appraise data and evidence for assessing sexual and reproductive health programmes. This course deals with the effectiveness of sexual and reproductive health programmes, especially those that deliver services. The key issues addressed are the design of programmes, their effective implementation, and their evaluation. The course focuses on the critical production and consumption of data and evidence – both quantitative and qualitative – for assessing sexual and reproductive health programmes. The course takes a global approach, incorporating evidence from a range of contexts, countries and populations.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT. There will be a reading week in Week 6.

**Formative coursework:** Students are expected to prepare a seminar presentation and an annotated bibliography during the term.

**Indicative reading:** Lecture and seminar electronic reading lists are available in Moodle.

**Assessment:** Coursework (100%) in the ST. Coursework assignment to be a maximum of 10 A4 pages.

### DV458 Half Unit

**Demographic Change and Development**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Tiziana Leone OLD 2.56

**Availability:** This course is available on the MSc in Development Studies, MSc in Gender, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Health and International Development, MSc in Social Policy (Research) and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** The course provides an up-to-date and comprehensive account of demographic change and population trends in lower income countries by looking at recent changes in fertility, mortality and migration. The course considers the implications of these trends and some of the key demographic issues in these countries.

**Topics that are covered include:**
- The impact of education on changes in mortality and fertility
- Demography and gender
- Infant, child and maternal mortality
- Urbanisation and urban growth
- Communicable diseases
- The effects of changing age structures

No previous demographic knowledge is required.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT.

**Formative coursework:** Students are expected to prepare a seminar presentation and a formative essay (circa 1,500 words) during the term.

**Indicative reading:** The course is supported by a VLE containing electronic reading lists. There is no single key text and a detailed electronic reading list will be provided.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Coursework (50%) in the ST.

Coursework assignment to be a maximum of 10 A4 pages.

### DV460 Half Unit

**Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Tasha Fairfield CON 6.02

**Availability:** This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research), MSc in International Social and Public Policy and MSc in International Social and Public Policy (Development). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** This course has no prerequisites. Students do not need any previous exposure to either Bayesian analysis or qualitative methods literature.

**Course content:** The way we intuitively approach qualitative case research is similar to how we read detective novels. We consider various different hypotheses to explain what occurred—whether the emergence of democracy in South Africa, or the death of Samuel Ratchett on the Orient Express—drawing on the literature we have read (e.g. theories of regime change, or other Agatha Christie mysteries) and any salient previous experiences we have had. As we gather evidence and discover new clues, we continually update our beliefs about which hypothesis provides the best explanation—or we may introduce a new alternative that occurs to us along the way.

Bayesianism provides a natural framework that is both logically rigorous and grounded in common sense, that governs how we should revise our degree of belief in the truth of a hypothesis—e.g., “mobilisation from below drove democratization in South Africa by altering economic elites' regime preferences,” (Wood 2001), or “a lone gangster sneaked onboard the train and killed Ratchett as revenge for being swindled”—given our relevant prior knowledge and new information that we obtain during our investigation.

Bayesianism is enjoying a revival across many fields, and it offers a powerful tool for improving inference and analytic transparency in qualitative research.

This course introduces basic principles of Bayesian reasoning with the goal of helping us leverage our common-sense understandings...
of inference and hone our intuition when conducting causal analysis with qualitative evidence. We will examine the foundations of Bayesian probability as well as concrete applications to single case studies, comparative case studies, comparative historical analysis, and multi-methods research. Students will practice applying Bayesian reasoning to assess the strength and quality of inferences in published studies, drawing on exemplars of qualitative research from various fields of socio-political analysis including development studies, comparative politics, international relations, and policy analysis. Students will also apply Bayesian principles to various aspects of their own dissertation research in progress—e.g., generating or revising hypotheses, selecting cases, identifying weaknesses in salient background literature, and assessing the inferential weight of available evidence.

Upon completing the course, students will be equipped with a concrete set of Bayesian-inspired best practices to deploy in their own research, as well as widely-applicable analytic skills that will help them to better evaluate and critique socio-political analysis. Students will choose a case-study article that is relevant to their dissertation topic and apply Bayesian reasoning to critique the article's inferences. This exercise entails assessing how the author's argument has been specified, identifying a plausible rival alternative, and applying Bayesian reasoning to assess the strength and quality of inferences in published studies, drawing on exemplars of qualitative research from various fields of socio-political analysis including development studies, comparative politics, international relations, and policy analysis. Students will also apply Bayesian principles to various aspects of their own dissertation research in progress—e.g., generating or revising hypotheses, selecting cases, identifying weaknesses in salient background literature, and assessing the inferential weight of available evidence.

In addition, students will receive oral feedback on the first section of their final project, which will set up rival hypotheses to be compared in light of case evidence.

**Indicative reading:** Methodological foundations:

**Assessment:**
- Project (100%; 3000 words) in the ST. Students will complete a case-study article that is relevant to their dissertation topic and apply Bayesian reasoning to critique the article's inferences. This exercise entails assessing how the author's argument has been specified, identifying a plausible rival hypothesis (which may or may not be provided by the author), identifying the most salient pieces of evidence presented, and qualitatively evaluating the inferential weight the evidence provides in favour of the author's hypothesis relative to the rival.

**Available:** This course is available on the MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is also available with permission as an outside option to students on other programmes where regulations permit.

Please note that in case of over-subscription to this course, priority will be given to students from the Department of International Development and its joint degrees.

**Pre-requisites:** So specific course pre-requisites. A good social science background will be very helpful, especially politics and economics.

**Course content:** Revolutions break things, but do they also build? If so, what precisely? What causes revolutions? What do revolutions cause? This course examines the successes and failures of revolution as a model of change in generating large and sustainable improvements in economic, political and social development. We begin by defining 'revolution' as a discrete, analytically distinct model of change. We then examine revolutions per se -- abrupt, significant, and often violent changes in governance and the distribution of power and wealth in society. Likely examples include the Glorious Revolution, and the French, Mexican, Russian, Chinese, Bolivian and Vietnamese Revolutions. We evaluate the immediate and long-term costs of these episodes in light of changes that resulted in each country's development trajectory. We contrast these cases with more gradual processes of change (revolutions', often called "reform"). Examples include episodes of rapid growth, improving living standards, and increasing political incorporation in France, China, Bolivia, and Vietnam, as well as the US, Japan, Germany, Finland, New Zealand/Australia, and Argentina. We focus on the conditions that sustained revolutionary vs. non-revolutionary processes of change across these cases, and then on the ability of each model of change to cause lasting improvements in societies' economic, political and social development.

**Teaching:** 22 hours of lectures, 13 hours and 30 minutes of seminars and 1 hour and 30 minutes of workshops in the MT. Lectures will present key theoretical insights and lay out the contours of major debates from the literature. Seminars will be student-led, and will probe each week's topic in more detail, both to clarify concepts and test them against evidence, some of which students will draw up and present independently. The workshop is a different sort of exercise, intended to give thorough review to students' research proposals in a constructively critical, collegial atmosphere. Each student will present their research proposal and then receive feedback from fellow students and faculty. This includes a 2 hour revision session in MT.

**Formative coursework:** Students will be expected to produce 1 presentation and 1 other piece of coursework in the MT. In preparation for their research essay, students will submit a formative research proposal, which they will present in a research workshop in MT. This will receive detailed written feedback, and also oral feedback intended to improve the proposal. They will then revise the proposal and re-submit as summative work.

Students will also complete seminar presentations, individually or in pairs (depending on student numbers), which will receive formative feedback.

DV490  Half Unit

Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development

This information is for the 2018/19 session.

Teacher responsible: Dr Diana Weinhold

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Social Impact, MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Enrolment will be controlled through the use of a pre-quiz.

Course content: This course explores the foundations of applied macroeconomic policy analysis by combining a rigorous but intuitive introduction to advanced econometric methods with applications to the theory and empirics of long-run growth in developing countries. Throughout the course, lectures provide analytical but non-technical overviews of broad themes in long-run growth and development policy, including growth theory, institutions and history, economic geography, globalization, inequality, balance of payments and financial crises, debt, environmental policy and international aid. There is a strong emphasis on how the body of knowledge has evolved over time via the synthesis of theoretical advances and rigorous empirical testing.

Seminars in the first half of term will introduce students to the statistical foundations of econometric analysis and build analytical skills to read, interpret, and critique econometric approaches to causal identification commonly used in the academic development literature. We engage directly with quantitative methodology and regression analysis, developing rigorous intuition rather than learning technical formulas, with the focus on teaching students from a broad range of backgrounds to understand and critically consume high-level applied research in a sophisticated manner. The seminars in the second half of term give students an opportunity to repeatedly practice and improve their analytical skills by working through methodologically-focused problem sets based on top academic journal articles addressing issues from the lectures on macroeconomic development. While some background in economics and/or statistics is helpful, the course is designed to be engaging and challenging for students from a broad variety of backgrounds, from those with no economics and statistics to those with more advanced skills in either one or both areas. Strong analytical skills (whether quantitative or not) and a sturdy work ethic are the best predictors of success.

Important: For students without strong skills in economics and statistics DV490 constitutes the foundational prerequisite for DV491 in the Lent term. Students without a (very) strong background in economics and statistics are highly recommended to take both DV490 and DV491 and consider them together as a full 1 course. Our experience is that the majority of students benefit most from a minimum of a full academic year of repeated practice and exposure to the techniques covered to develop their intuition and ability, and students who take only the first half unit with thus be at a distinct disadvantage. In addition, while DV490 will build a foundational knowledge, DV491 will cover additional empirical approaches more commonly employed in micro-development economics, as well as providing an introduction to statistical programming in STATA, thus rounding out students’ exposure to...
empirical methods more fully. Students who would like to take DV490 or DV491 in isolation are invited to take a "Parachuter’s Exam" at the beginning of MT to assess their quantitative skills. More information on the Parachuter’s Exam can be found on the DV490 and/or DV491 Moodle page or from the course instructors.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the MT. 2 hours of lectures in the ST. There will be two hours of lectures in the ST. There will be a Reading Week in week 6.

**Indicative reading:** The bulk of the course will be taught using journal articles. A reading list will be handed out by the lecturers at the beginning of their sessions. Useful reference texts include Mastering ‘Metrics: the Path from Cause to Effect, by Angrist & Pischke, Princeton University Press (2014); and The Quest for Growth by W. Easterly, MIT Press (2001)

**Assessment:** Exam (70%, duration: 2 hours) in the summer exam period.

In class assessment (30%) in the MT.

---

**DV491  Half Unit**

**Economic Development Policy II: Microeconomic Analysis**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Sandra Sequeira

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Entry onto the course might be limited at the discretion of the instructor.

**Pre-requisites:** Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development (DV490) or equivalent background in statistics and economics.

For students without strong skills in economics and statistics DV490 constitutes the foundational prerequisite for DV491 in the Lent term. Students without a (very) strong background in economics and statistics are highly recommended to take both DV490 and DV491 and consider them together as a full 1 course. Our experience is that the majority of students benefit most from a minimum of a full academic year of repeated practice and exposure to the techniques covered to develop their intuition and ability, and students who take only the first half unit with thus be at a distinct disadvantage. In addition, while DV490 will build a foundational knowledge, DV491 will cover additional empirical approaches more commonly employed in micro-development economics, as well as providing an introduction to statistical programming in STATA, thus rounding out students’ exposure to empirical methods more fully.

Students who would like to take DV490 or DV491 in isolation are invited to take a "Parachuter’s Exam" at the beginning of MT to assess their quantitative skills. More information on the Parachuter’s Exam can be found on the DV490 and/or DV491 Moodle page or from the course instructors.

**Course content:** This course examines the microeconomic foundations of economic policy-making in developing countries. Classes will combine economic theory and rigorous empirical analysis to better understand the impact of economic development policy on development goals. We will focus on specific examples chosen from development cases worldwide to learn which policies have worked, which ones have not, and how a rigorous analysis of these experiences can inform the design of better economic development policies in the future.

The course is structured around three main themes:

(i) Human Development: health policy, education policy and intra-household dynamics

(ii) Institutions and Markets: labour markets, state capacity for public service delivery and private sector development

(iii) Behavioural Economics and Development Policy Design: the importance of psychology in explaining economic behaviour and how it can inform better development policy design

**Teaching:** 20 hours of lectures and 15 hours of seminars in the LT. There will be a two hour revision session in late LT or early ST. There will be a Reading Week in week 6.

**Assessment:** Exam (70%, duration: 2 hours) in the summer exam period.

In class assessment (30%) in the LT.

---

**DV492  Half Unit**

**Economic Development Policy III: Government Policy Analysis**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Joana Naritomi CON.6.12

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Sciences Po). It is also available as an outside option to students on other programmes where regulations permit.

This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Sciences Po). It is also available as an outside option to students on other programmes where regulations permit.

**Exam (70%, duration: 2 hours) in the summer exam period.**

In class assessment (30%) in the LT.
Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Anthropology and Development, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to MSc and MPA students from throughout the LSE subject to space constraints; specifically we reserve the right to limit enrolment of students from outside the Department of International Development.

Entry onto the course might be limited at the discretion of the instructor.

Course content: This course explores key issues in government policies in developing countries. The course will draw on specific examples chosen from development cases worldwide to learn which policies have worked, which ones have not, and how a rigorous analysis of these experiences can inform the design of better economic development policies in the future. It begins introducing concepts from public economics to discuss the scope and impacts of government interventions. In particular, the course will cover issues related to market failures, redistribution, public goods and externalities. The course will also discuss theoretical and empirical work on the economic consequences of government interventions, with particular focus economic incidence, efficiency trade-offs and unintended consequences of policies. In the second part, it focuses on challenges in raising government revenue and delivering public service in the developing world context, where limited state and fiscal capacity impose important constraints in policymaking. Beyond these topics, the course will provide background on relevant analytical tools in quantitative research, and develop skills to interpret empirical evidence in development economics.

Coursework will include a combination of class discussions, problem sets, presentations and computer-lab based sessions for students to explore programming and statistical skills.

Students are strongly encouraged to take DV491, as a highly complementary course that will also apply the empirical methods taught in DV490 to topics in Human Development, Institutions and Markets, Social Networks, Economic History and Cultural Economics, and Behavioural Economics and Development Policy Design.

Teaching: 20 hours of lectures and 15 hours of seminars in the LT. There will be a two hour revision session in late LT or early ST.

Formative coursework: Students will be expected to produce 3 exercises and 1 other piece of coursework in the LT.

Indicative reading:

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Coursework (30%) in the LT.

The course assessment will be based on a final exam (70%) and problem sets (30%).

EC400

Introductory Course in Mathematics and Statistics

This information is for the 2018/19 session.

Teacher responsible: Dr Margaret Bray 32L.4.27, Dr Francesco Nava 32L.3.20, Dr Marcia Schafagans 32L.4.12 and Dr Shengxing Zhang 32L.1.16

Availability: This course is compulsory on the MPhil/PhD in Accounting, MRes/PhD in Economics, MRes/PhD in Finance, MRes/PhD in Quantitative Economic History, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Economics and Management, MSc in Economics and Philosophy, MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway) and MSc in Quantitative Economic History. This course is available on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Economics, MRes/PhD in International Development, MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. Students on the MRes/PhD in Economics may be exempted from EC400 at the Department’s discretion. Master of Public Administration students may only apply to take EC400 at the beginning of their second year.

Outside applications for EC400 must be made to the Department of Economics by the end of June. This applies to offer holders/ students who do not have any EC4X4 courses listed in their programme regulations for which EC400 is a pre-requisite. Please contact econ.msc@lse.ac.uk for more information.

Students not on the compulsory programmes listed above who wish to continue studying Economics MSc-level courses must achieve an overall grade of 50% in EC400 with no one subject exam less than 40%. Non-MRes students wishing to study MRes-level courses must achieve an overall grade of 70% with no one subject exam less than 60%.

Pre-requisites: EC400 is an introduction to MSc level concepts in mathematics and statistics, and an undergraduate level understanding is assumed. EC400 is not intended as an introduction for students with little or no economics/mathematics background.

Course content: The aim of this introductory course is to provide students with the essential mathematical, statistical, economic and econometric background for the core Economics courses of these programmes. The course starts with mathematics revision sessions and progresses to sections covering mathematics
EC402
Econometrics
This information is for the 2018/19 session.
Teacher responsible: Dr Vassilis Hajivassiliou 32L 4.23, Dr Tatiana Komarova 32L 4.24 and Dr Rachael Meager 32L 3.13
Availability: This course is compulsory on the MSc in Economics and MSc in Economics (2 Year Programme). This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Accounting, MPhil/PhD in Environmental Economics, MSc in Economics and Philosophy, MSc in Quantitative Economic History and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400). Students should also have completed an undergraduate degree or equivalent in Economics and an introductory course in Econometrics. In very exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk).
Course content: The course aims to present and illustrate the techniques of empirical investigation in economics.
• Regression models with fixed regressors (simple and multiple).
• Least squares and other estimation methods. Goodness of fit and hypothesis testing.
• Regression models with stochastic regressors.
• Asymptotic theory and its application to the regression model. Large sample approximations.
• The partitioned regression model, multicollinearity, misspecification, omitted and added variables, measurement errors.
• Heteroskedasticity, autocorrelation, and generalized least squares.
• Exogeneity, endogeneity, and instrumental variables.
• Nonlinear regression modelling and Limited Dependent Variables models.
• An introduction to Non-classical econometric inference.
• Autoregressive and moving average representations of time series. Stationarity and invertibility.
• Vector auto-regressions.
• Unit roots and co-integration.
• Estimating causal effects in panel data: differences in difference estimator, matching methods, and regression discontinuity.
• Panel data and static models: fixed and random effect estimators, specification tests, measurement errors.
• Panel data and dynamic models: generalized method of moments.
• Binary choice models with heterogeneity.
Teaching: 30 hours of lectures and 10 hours of classes in the MT. 30 hours of lectures and 10 hours of classes in the LT.
Formative coursework: Two marked assignments per term. Exercises are provided each week and are discussed in classes. In order to have any chance of completing the course successfully, these exercises must be attempted. Special test exercises will be set at three points during the year. These will be carefully marked and the results made available.
Assessment: Exam (50%, duration: 2 hours, reading time: 10 minutes) in the January exam period. Exam (50%, duration: 2 hours, reading time: 10 minutes) in the summer exam period.

EC411
Microeconomics
This information is for the 2018/19 session.
Teacher responsible: Dr Francesco Nava 32L 3.20 and Prof Martin Pesendorfer 32L 4.19
Availability: This course is compulsory on the MPhil/PhD in Environmental Economics. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Accounting, MPhil/PhD in Environmental Economics, MSc in Economics and Philosophy, MSc in Quantitative Economic History and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400). In exceptional circumstances, students may enrol in the course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (at a face-to-face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.
Course content: The aim of the course is to develop the basic tools for analysing problems of resource allocation used by economists working in research, government and business. The course deals with positive and normative problems. It aims to include modern developments without being overly mathematical, and to develop a capacity to apply economic concepts to real-world problems. The first part of the course focuses on classical theories of market behaviour and strategic interaction. We begin by presenting foundations to utility maximization, by analysing the optimisation problems of price-taking consumers and firms,
and by modelling market interactions and the formation of prices in perfectly competitive markets. Then we study models of decision making under uncertainty and game theoretic solution concepts. Novel developments in these fields are also discussed in lectures. The second part of the course focuses on models of imperfect competition and information economics. We begin with an analysis of models of monopoly, oligopoly, product differentiation, and public goods. Then, we study markets with imperfect and incomplete information including search, adverse selection, auctions, signalling, screening, and moral hazard. Special emphasis will be given to economic applications.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Two marked assignments per term.

Indicative reading: The course will draw on a variety of texts, the main ones being:
1. J G Riley, Essential Microeconomics, Cambridge;
2. J R Green, A Mas-Colell Whinston

More detailed readings will be given at the beginning of the course. Some notes will be provided where textbook coverage is inadequate.

Assessment: Exam (50%, duration: 2 hours, reading time: 10 minutes) in the January exam period.
Exam (50%, duration: 2 hours, reading time: 10 minutes) in the summer exam period.

---

EC417

Advanced Macroeconomics

This information is for the 2018/19 session.

Teacher responsible: Prof Wouter Den Haan 32L 1.08A
Dr Petr Sedláček

Availability: This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is not available as an outside option.

Pre-requisites: Students must have completed Introductory Course for MSc EME (EC451).

Course content: Course objectives and main course elements:
1. The course will teach you the terminology used in empirical and theoretical macroeconomics.
2. The course will teach you the main empirical business cycle characteristics of developed economies and the main empirical findings regarding the growth of developed and less developed nations.
3. The course teaches you the main techniques used to analyse modern macroeconomics models. In particular, the course will focus on techniques such as dynamic programming, value function iteration, and the linearization of first-order conditions.
4. The course teaches you (prototype versions of) macroeconomic models used to analyse key questions related to business cycles and economic growth. Examples are New Keynesian models, Real Business Cycle models, Overlapping Generations models, the Solow growth model, and first-generation endogenous growth models.
5. The course will also discuss some advanced models that have recently been developed to explain recent economic events.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

Some of the problem will sets will consist of computer assignments and students will be taught some basic programming skills.

Formative coursework: Each week, students are assigned problem sets. These problem sets focus on key elements of the lectures, but they will also promote creativity and critical thinking by going beyond the material explicitly discussed in the lectures. There will also be computer assignments. The problem sets will be discussed by the class teachers.

Indicative reading:
- Romer, David, 2011, Advanced Macroeconomics.

Assessment: Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
Exam (50%, duration: 2 hours) in the January exam period.
EC421
International Economics

This information is for the 2018/19 session.

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

Course content: An advanced course in labour economics issues, including theory, evidence and policy. The aim of the course is to familiarise students with main theoretical and empirical issues in current labour economics, and to provide them with the tools for developing independent research interests. The course has a strong applied focus. For each major topic covered we will derive testable implications, provide insights into the research methodology, discuss the advantages and limitations of existing empirical work, and draw policy conclusions. Topics include: labour supply, labour demand, market power of firms and workers, wage determination, unemployment, minimum wage, compensating differentials, human capital and returns to schooling, discrimination, the changing distribution of earnings and the future of work, and immigration.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Two marked assignments per term.

Indicative reading: Most of the reading is from journal articles. A detailed reading list is available on Moodle.

Assessment: Exam (25%, duration: 2 hours, reading time: 15 minutes) in the January exam period. Exam (25%, duration: 2 hours, reading time: 15 minutes) in the summer exam period. Essay (50%, 6000 words) in the ST.

The Lent Term Week 0 examination is based on the Michaelmas Term syllabus, and the Summer Term examination is based on the Lent Term syllabus.

EC424
Monetary Economics

This information is for the 2018/19 session.

Teacher responsible: Dr Kevin Sheedy 32L.1.09
Dr Saleem Bahaj

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

The Lent Term Week 0 examination is based on the Michaelmas Term syllabus, and the Summer Term examination is based on the Lent Term syllabus.

EC423
Labour Economics

This information is for the 2018/19 session.

Teacher responsible: Prof Alan Manning 32L.2.36 and Dr Guy Michaels 32L.2.10

Availability: This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

Course content: The course aims to develop the student's ability to undertake research in monetary economics by studying a number of current issues in both theoretical and applied.

In the MT, we begin by studying money's role as a medium of exchange and the determination of the price level using money-in-the-utility-function and cash-in-advance models. We then look more carefully at the reasons for holding money by applying search theory. We also study money's role as a unit of account and its use in money creation. We study the consequences of nominal rigidities such as sticky prices. We then study the costs of inflation and optimal monetary policy, and we also look at unconventional monetary policies when a central bank is constrained by the interest-rate lower bound. Finally, we study
firms’ price-setting behaviour in more detail and its implications for the size of the real effects of monetary policy.

In the LT, we discuss the role of inflation expectations and financial markets in constraining monetary policy, and the design of central banks and their instruments. We study the interaction between fiscal and monetary policy, as well as the specification of the central bank objectives.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Two marked assignments per term.

**Assessment:** A reading list will be handed out by the lecturers at the beginning of their sessions.

**Assessment:** Exam (25%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

Exam (25%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.

---

**EC426 Public Economics**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Frank Cowell 32L.2.25A, Prof Xavier Jaravel 32L.3.18 and Prof Camille Landais 32L.3.23

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Environmental Economics and Climate Change, MSc in International Health Policy (Health Economics), Master of Public Administration and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** A graduate course in the principles of public economics and topics in public economics. Principles of public economics cover: Welfare analysis, concepts of fairness, equity and efficiency, social welfare. Policy design: social insurance, income taxation. Taxation, household and firm behaviour.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** Most of the readings will be in the form of journal articles, but some use will also be made of the following texts: A Auerbach & M S Feldstein (Eds), Handbook of Public Economics, Vols I-III, North-Holland; A B Atkinson & J E Stiglitz, Lectures on Public Economics, McGraw-Hill, 1980; G Myles, Public Economics, Cambridge University Press, 1995.

**Assessment:** Exam (25%, duration: 2 hours) in the January exam period.

---

**EC427 The Economics of Industry**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof John Sutton 32L.4.32, Dr Pasquale Schiraldi 32L.4.22 and Prof Martin Pesendorfer 32L.4.19

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** A graduate course in Industrial Organization, which aims to provide students with a working knowledge of current theoretical and empirical methods for industry studies. Applications of these methods are considered in industry case studies.

Topics include: Pre-requisites in Game Theory; An introduction to current developments in Oligopoly Theory; A formal analysis of conduct in concentrated industries (cartel stability, limit pricing, predatory pricing, etc); Demand estimation in homogenous and differentiated product industries; Production function estimation, Empirical techniques for oligopoly models and auction markets, Identification of conduct; Economies of Scale, R&D, Advertising, Vertical restraints. The topics will be discussed with detailed applications for selected industries and considering competition policy questions.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** Two books which provide a basic framework are J Tirole, Theory of Industrial Organization, MIT Press, 1989 and J Sutton, Technology and Market Structure, MIT Press, 1998. A full reading list will be supplied at the beginning of the course.

**Assessment:** Exam (25%, duration: 2 hours) in the January exam period.

Exam (25%, duration: 2 hours, reading time: 10 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.

---

**EC428 Development and Growth**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Maitreesh Ghatak 32L.3.08A and Dr Bharat Bryan 32L.3.10

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development and Growth, MPA in International Health Policy (Health Economics), Master of Public Administration and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

Exam (25%, duration: 2 hours, reading time: 10 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.
Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Development Studies, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Environmental Economics and Climate Change and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400). Students should have completed courses in intermediate level microeconomics, macroeconomics and econometrics.

Course content: This course will cover a number of topics at forefront of development economics, combining theoretical and empirical analysis with a clear focus on policy implications. These include economic growth, poverty traps, inequality and occupational choice, credit markets, microfinance, property rights, land markets current methodological debates; the allocation of capital and labour across firms, space and sectors; structural change during the development process; finance, psychology and development; governance and accountability; conflict and civil war; motivation of civil servants; taxation and development; firms and markets; trade; infrastructure; energy and the environment; and climate change.

Development economics is, arguably, the fastest growing and most vibrant field within economics. The course will enable the students to apply their econometric and theoretical skills to what are some the world’s most pressing problems. The experience of applying their economic knowledge to these topics will generate analytical skills that that can be used in wide variety of applied settings.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Two marked assignments per term.

Indicative reading: Most of the reading is from journal articles which appear on reading lists distributed at the start of each part of the course. However, the following references may serve as an introduction to material included in the syllabus. D Ray, Development Economics, Princeton UR 1998, Abhijit Banerjee and Esther Duflo's Poor Economics, New York: Public Affairs, 2011, and the symposium on The Agenda for Development Economics - Journal of Economic Perspectives Volume 24, Number 3, Summer 2010. Articles by Deaton, Acemoglu, Ray, Rodrik, and Rosenzweig.

Assessment: Exam (25%, duration: 2 hours, reading time: 15 minutes) in the January exam period. Exam (25%, duration: 2 hours, reading time: 15 minutes) in the summer exam period. Essay (50%, 6000 words) in the ST.

EC441
Microeconomics for MRes students

This information is for the 2018/19 session.

Teacher responsible: Prof Michele Piccione 32L.4.07 and Prof Balazs Szentes 32L.4.05

Availability: This course is compulsory on the MRes/PhD in Economics and MRes/PhD in Finance. This course is not available as an outside option.

Pre-requisites: A good undergraduate knowledge of economic theory and calculus is required.

Course content: The aim of the course is to:

i. introduce the basic analytical tools that are necessary to conduct theoretical research in many fields in economics.

ii. give the students a full understanding of the classic Microeconomic Theory and of the modern developments of Microeconomic Theory.

iii. enable students to address a microeconomic problem by structuring it as a mathematical model and enhance the understanding of economic issues though the use of mathematical tools.

Topics include: Consumer theory, producer theory, general equilibrium, welfare, choice under uncertainty, game theory, economics of information, agency theory, contracts, topics in mechanism design.

Teaching: 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT.

Formative coursework: Exercises are set for each class.

Indicative reading: The main text is Mas-Collet, Whinston & Green, Microeconomic Theory, OUP.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC442
Macroeconomics for MRes students

This information is for the 2018/19 session.

Teacher responsible: Prof Per Krusell 32L.1.19, Dr Ethan Illecztki 32L.1.11, Prof Wouter Den Haan 32L.1.08A and Prof Francesco Caselli 32L.1.21

Prof Jordi Gali

Availability: This course is compulsory on the MRes/PhD in Economics and MRes/PhD in Finance. This course is not available as an outside option.

Course content: The course will cover topics in advanced macroeconomics with emphasis on fundamentals and applications to recent theoretical advances:

ii. Search and Matching: The Matching Model, Efficiency Wages, Monetary Economics: models with credit frictions, sticky prices, search.

Teaching: 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT.

Formative coursework: Exercises are set for each class.

Indicative reading: A good general textbook that is mostly below the level of the course is:

More economic applications, with some required readings can be found in:

References for recent theoretical advances published in the journals will be given during the course.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.
EC443 Econometrics for MRes students

This information is for the 2018/19 session.

Teacher responsible: Dr Vassilis Hajivassiliou 32L.4.23, Dr Tatiana Komarova 32L.4.24 and Dr Marcia Schafgans 32L.4.12

Availability: This course is available on the MRes/PhD in Economics and MRes/PhD in Management (Marketing). This course is not available as an outside option.

Pre-requisites: Students should have completed an undergraduate level course in econometrics and statistical theory. Linear algebra and multivariate calculus will be used frequently.

Course content:

- First part [Inference, Classical- and Generalized Linear Regression] begins with methods of estimation and optimality, followed by an introduction to asymptotic theory. It proceeds with statistical inference and the trinity of classical testing (Wald, Likelihood Ratio, and Lagrange Multiplier). It then discusses the classical linear regression model and commences the discussion of violation of the classical assumptions by discussing the Generalized Linear Regression Model (heteroskedasticity and autocorrelation).

- Second part [Generalized Regression Methods] provides a further discussion of violations of the classical assumptions including measurement error, omitted variables, simultaneity, missing data, non-linear regression models and instrumental variables. It proceeds to the Generalized Method of Moments and efficient estimation methods under conditional moment restrictions. It also covers the topics of quantile regression and bootstrapping.

- Third part [Time-series, Panel-data, and Microeconometric Methods] begins with a discussion of Time-Series topics, including single equation theory for non-stationary variables; serially correlated errors with lagged dependent variables; unit roots; simultaneous equations for non-stationary variables; co-integration; and ARCH and GARCH models. It proceeds to Panel data methods such as fixed and random effects estimators and their extensions for applying to dynamic linear and non-linear panel data models. The next major topic presents models with Limited Dependent Variables.

- Final part [Specialized Econometric Methods] discusses simulation-based inference, nonlinear panel data, and duration models. Finally, it covers the topics of program evaluation, nonparametrics, kernel estimation, and differences in differences.

Teaching: 30 hours of lectures and 15 hours of classes in the LT.

Formative coursework: Exercises are set for each class.

Indicative reading: Lecture notes will be made available through the departmental website and in course packs for each part of the course. Please note there is no set book for this course. Recommended books are:

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC451 Introductory Course for MSc EME

This information is for the 2018/19 session.

Teacher responsible: Prof Francisco Hidalgo 32L.4.20
Prof Taisuke Otsu 32L.4.25
Prof Michele Piccone 32L.4.07
Prof John Moore 32L.4.14

Availability: This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is not available as an outside option.

The course is split into three parts: Microeconomics, Macroeconomics and Econometrics.

Non-EME students wishing to take EC487 Advanced Microeconomics as part of their programme must attend Week 1 of the EC451 course, Microeconomics, and sit the EC451 Microeconomics examination.

Non-EME students wishing to take EC484 Econometric Analysis as part of their programme must attend Week 3 of the EC451 course, Econometrics, and sit the EC451 Econometrics examination.

Non-EME students are not permitted to attend Week 2 of the EC451 course, Macroeconomics.

Course content: Microeconomics (Week 1):

This introduction to microeconomic theory introduces the economic concepts of choice, preference and utility, including discussion of the revealed-preference approach to hedonics. It describes the consumer’s problem and explores conditions under which consumer preferences, as well as policy preferences, can sensibly be aggregated. The course will also cover the mathematics of correspondences and fixed-point theorems.

Macroeconomics (Week 2):

The prequel of the advanced macroeconomics core course focuses on topics in modern macroeconomic theory, starting with basic national income accounting and the real-business cycle model. Then sticky prices. Followed by matching frictions in the labour market. Finally credit market imperfections.

Econometrics (Week 3)

Day 1-4 (Prof Otsu). This part introduces basic concepts and theory for mathematical statistics and probability. This part mostly focuses on linear regression model and covers the topics, such as (i) Conditional expectation and projection, (ii) Algebra of least Squares, (iii) Finite sample theory, (iv) Maximum likelihood (v) Introduction to asymptotic theory, and (vi) Hypothesis testing. Also, some background mathematical results are reviewed.

Day 5 (Prof Hidalgo). Last day is devoted to introduction to MT part of EC484. Further concepts and results on convergence of variables are discussed.

Teaching: The course is taught in September. It consists of 45 hours of lectures and an additional 22 hours of classes, across a 3-week period.

Formative coursework: After each lecture, some exercises will be handed to students. They will be solved during the classes.

Indicative reading: Prof Bruce Hansen’s lecture note at University of Wisco. nsin-Madison (1st year PhD level), downloadable at: https://www.ssc.wisc.edu/~bhansen/econometrics/

Assessment: At the end of the course, students will be examined on all three modules, microeconomics, econometrics and macroeconomics.

Students from programmes other than MSc EME wishing to continue studying MSc EME core courses must achieve at least 40% in each subject exam.

EC453 Political Economy

This information is for the 2018/19 session.

Teacher responsible: Dr Stephane Wolton CON 5.08

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year...
EC465 Economic Growth, Development, and Capitalism in Historical Perspective
This information is for the 2018/19 session.
Teacher responsible: Dr. Jeremiah Dittmar 32L.2.22 and Dr Neil Cummins SAR 5.13
Availability: This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Economic History, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).

Students should also have completed courses in intermediate level microeconomics, macroeconomics, and econometrics.

Course content: This course will focus on going through modern quantitative papers which demonstrate the application of econometric techniques to modelling the behaviour of individual economic agents (households and firms) and economies. The first half of the course will focus on papers in the empirical literature on productivity, innovation and intellectual property rights, illustrating the challenges of identification in both structural and reduced form models. The lectures will cover a wide range of topics in applied micro-econometrics with a view to illustrating the interplay between models, data and methods.

The second part of the course focuses on macroeconomic questions using data and tools from applied microeconomics. We cover four styles of empirical work: (1) 'reduced-form' approaches...
EC476
Contracts and Organisations

This information is for the 2018/19 session.
Teacher responsible: Prof Gilat Levy 32L.4.31 and Prof Philippe Aghion 32L.2.02
Availability: This course is available on the MPhil/PhD in Accounting, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), and MSc in Environmental Economics and Climate Change. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course in Economics for more information.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Two marked assignments per term.
Indicative reading: Articles in economic journals will be assigned at the start of Michaelmas and Lent terms. The course will also draw on methodological topics covered in Wooldridge, Econometric Analysis of Cross Section and Panel Data (2nd edition, 2010), and Angrist and Pischke, Mostly Harmless Econometrics (2009).
Assessment: Exam (50%, duration: 2 hours) in the Michaelmas Term, please contact econ.msc@lse.ac.uk for more information.
Pre-requisites: Students must have completed Introductory Course for MSc EME (EC451).
Exams: (50%, duration: 2 hours) in the summer exam period.

EC484
Econometric Analysis

This information is for the 2018/19 session.
Teacher responsible: Prof Javier Hidalgo 32L.4.20 and Prof Taisuke Otsu 32L.4.25
Availability: This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is available on the MRes/PhD in Economics, MSc in Applicable Mathematics, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Research), MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course for MSc EME (EC451).
Exams: (50%, duration: 2 hours) in the January exam period.

EC485
Further Topics in Econometrics

This information is for the 2018/19 session.
Teacher responsible: Prof Francisco Hidalgo 32L.4.20 and Dr Tatiana Komarova 32L.4.24
Availability: This course is available on the MSc in Econometrics and Mathematical Economics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Introductory Course for MSc EME (EC451).
Exams: (50%, duration: 2 hours) in the summer exam period.
Exams: (25%, duration: 2 hours) in the January exam period.

Note: All exams are 2 hours in duration, and have received approval from the course conveners (via a face-to-face meeting), the MSc Economics Programme Director, and their own Programme Director.
to face meeting), the MSc EME Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

Course content: The aim of the course is to introduce the student to topics at the frontier of econometric research of importance both at a theoretical and empirical level. The course consists of four series of ten lectures on specialised topics in econometrics. These lectures change from year to year. Presently they include: Bootstrap methods; non-parametric and semi-parametric estimation; dependence in economics: an overview; panel data models.

Teaching: 20 hours of lectures in the MT. 20 hours of lectures in the LT.

Indicative reading: No one book covers the entire syllabus; lists of references will be provided and lecture notes circulated.

Assessment: Exam (50%, duration: 2 hours) in the January exam period.

Exam (50%, duration: 2 hours) in the summer exam period.

---

**EC486 Econometric Methods**

This information is for the 2018/19 session.

Teacher responsible: Dr Pasquale Schiraldi 32L 4.22
Mr Alessandro Gavazza, 32L 4.21

Availability: This course is compulsory on the MSc in Economics and Management. This course is not available as an outside option.

Course content: This course aims to present the theory and practice of empirical research in economics. Beyond the theory, the course will put a substantial amount of effort in helping the students work with Stata and other econometric software in analyzing actual data sets, reproducing and criticizing results in previous work and learning the actual practice of econometrics as undertaken by the best applied economists, both in general (in MT) and specifically within the IO field (in the LT). Topics include: (MT) Ordinary Least Squares, hypothesis testing, omitted and added variables, measurement error, the role of controls, and functional form. Panel data, fixed and random effects. Instrumental Variables. An introduction to the analysis of time series. The emphasis of this part is on the identification of causal effects, and applications in microeconomics (Labour Economics, Public Policy, IO, etc) are presented throughout. In LT you will learn the applications of many of these techniques to econometric questions in Industrial Organisation, organizational economics and management.

Teaching: 20 hours of lectures and 8 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures and 2 hours of seminars in the ST.

Formative coursework: Students are required to complete answers to problem sets on a week by week basis.

Indicative reading: MT: James H. Stock and Mark W. Watson, Introduction to Econometrics; reading lists of chapters and journal articles will be supplied at the start of each term.

Assessment: Exam (66%, duration: 2 hours) in the summer exam period.

Other (17%) in the MT.

Other (17%) in the LT.

Two problem sets, one per term, with a weight of 17% each towards the final overall grade.

The exam includes four questions, two for each term; the students have to answer three questions, at least one for each term. Each question carries 22% of the final overall grade.

---

**EC487 Advanced Microeconomics**

This information is for the 2018/19 session.

Teacher responsible: Dr. Rafayal Ahmed and Prof. Balazs Szentes

Availability: This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is available on the MSc in Applicable Mathematics, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit. Students on other programmes must get permission from the course conveners to take this course.

Pre-requisites: Students must have completed Introductory Course for MSc EME (EC451). EC451 takes place prior to the start of Michaelmas Term, please contact econ.msc@lse.ac.uk for more information.

Course content: The aim of this course is to: (i) introduce and develop the analytical tools of graduate level Microeconomics with a special emphasis on mathematical models; (ii) provide the students with a firm grounding in classical Microeconomic Theory as well as its modern development. Topics include: Consumer theory, producer theory, general equilibrium, welfare, choice under uncertainty, game theory, oligopoly, economics of information, topics in mechanism design, topics in behavioural economics.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Problem sets will be discussed in class and two marked assignments will be given in MT and LT.

Indicative reading: The main texts are A Rubinstein Lecture Notes in Economic Theory, Princeton University Press (with the most up-to-date version available for free download from the author’s website) and Mas-Colell, Whinston & Green, Microeconomic Theory, OUP. Other sources include: D M Kreps, Microeconomic Foundations I: Choice and Competitive Markets, Princeton University Press; Fudenberg and Tirole, Game Theory, MIT Press.

Assessment: Exam (50%, duration: 2 hours) in the January exam period.

Exam (50%, duration: 2 hours) in the summer exam period. Note that EC451 material will be covered on the exam.

---

**EC485 Half Unit Macroeconomics for MSc F&E**

This information is for the 2018/19 session.

Teacher responsible: Prof Wouter Den Haan 32L 1.08A

Availability: This course is available on the MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.

Pre-requisites: Students must have completed Introductory Course in Mathematics and Statistics (EC400).

Course content: The Lent term of EC413 focuses on the main characteristics of business cycle fluctuations with a special emphasis on what happened during the financial crisis and different macroeconomic models to study business cycles. The course covers the Real Business Cycle model, the New-Keynesian model, models with frictions in labour and financial markets, agent-based models, the role of money, self-fulfilling beliefs, the role of monetary and fiscal policy (and in particular non-conventional monetary policy), and (un)sustainable sovereign debt.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Two marked assignments per term. Exercises are discussed in each class.

networks, Journal of Economic Perspectives 28(4), 23-48. More readings will be provided at the start of the course. 
**Assessment:** Exam (100%, duration: 2 hours; reading time: 15 minutes) in the summer exam period.

---

**EC4B6  Half Unit**  
**Microeconomics for MSc F&E**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Francesco Nava 32L.3.20  
**Availability:** This course is available on the MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.  
**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).  
**Course content:** The aim of the course is to develop the basic tools for analysing problems of resource allocation used by economists working in research, government and business. The course deals with positive and normative problems. It aims to include modern developments without being overly mathematical, to develop a capacity to apply economic concepts to real-world problems. The course focuses on classical theories of market behaviour and strategic interaction. We begin by presenting foundations to utility maximization, by analysing the optimisation problems of price-taking consumers and firms, and by modelling market interactions and the formation of prices in perfectly competitive markets. Then we study models of decision making under uncertainty and game theoretic solution concepts. Novel developments in these fields are also discussed in lectures.  
**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.  
**Formative coursework:** Two marked assignments.  
**Indicative reading:** The course will draw on a variety of texts, the main ones being:  
1. J G Riley, Essential Microeconomics, Cambridge;  
2. J R Green, A Mas-Colell, Whinston  
More detailed readings will be given at the beginning of the course. Some notes will be provided where textbook coverage is inadequate.  
**Assessment:** Exam (100%, duration: 2 hours; reading time: 10 minutes) in the January exam period.

---

**EH401  Half Unit**  
**Historical Analysis of Economic Change**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Debin Ma SAR 612  
**Availability:** This course is compulsory on the MSc in Economic History, MSc in Economic History (Research) and MSc in Quantitative Economic History. This course is available on the MPhil/PhD in Economic History. This course is not available as an outside option.  
**Course content:** The course provides basic awareness of central themes and key methodological and theoretical issues in economic history, introduces students to important analytic tools used by economic historians, with an emphasis on their practical application in economic history research; and examines major methodological and theoretical issues in combining social science frameworks with historical materials. It considers problems of knowledge and explanation in economic history, and introduces quantitative and qualitative approaches to obtaining, analysing and interpreting evidence.  
**Teaching:** 20 hours of lectures and 9 hours of seminars in the MT. 1 hour of lectures in the ST.  
Students on this course will have a reading week in Week 6, in line with departmental policy.  
**Formative coursework:** Students are required to make one class presentation and also to submit one paper on an additional topic during the term.  
**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.

---

**EH402  Half Unit**  
**Research Design and Quantitative Methods in Economic History**  
This information is for the 2018/19 session.  
**Teacher responsible:** Mr Peter Sims SAR.6.07  
**Availability:** This course is available on the MPhil/PhD in Economic History, MSc in Economic History, MSc in Economic History (Research) and MSc in Global Economic History (Erasmus Mundus). This course is not available as an outside option.  
**Course content:** This course is concerned with how economic historians have used quantitative methods and with how researchers design and structure a research project. In terms of quantitative methods the emphasis is on the applied and practical rather than the theoretical and will range from the use of simple summary descriptive statistics to multiple regression. The course will start with a consideration of broad issues in research design, this might include, for example, models, narrative and case studies. The rest of the course will then be concerned with quantitative issues, the problems of analysing and interpreting quantitative historical evidence. It will consider topics such as sampling and statistical distributions, correlation, simple and multiple regression, specification problems, hypothesis testing, logit and probit analysis, non-parametric tests, and modern time series analysis, although the content may vary slightly from year to year. The course will also provide students with training in using an econometrics software package. An important component of the course is the deconstruction of historical articles that have used quantitative techniques.  
**Teaching:** 9 hours of seminars and 20 hours of computer workshops in the MT. MT only. Three hours per week. Students on this course will have a reading week in Week 6, in line with departmental policy.  
**Formative coursework:** Students are required to do weekly exercises and to submit one paper during the term.  
**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.
### EH404 Half Unit

**India and the World Economy**

*This information is for the 2018/19 session.*

**Teacher responsible:** Prof Tirthankar Roy SAR 616

**Availability:** This course is available on the CEMS Exchange, MBA Exchange, MRes/PhD in Quantitative Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global Economic History (Erasmus Mundus), MSc in International and World History (LSE & Columbia) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** From the eighteenth century, the South Asia region played an important part in international transactions in goods, people, and money. The world economy, in turn, shaped potentials for economic growth in the region. The aim of the course is to impart an understanding of the global factors that shaped economic change in the South Asia region in the 18th through the early-20th century. It will also deal with the principal ways in which South Asia contributed to economic change in the rest of the world. The political context of globalization, especially imperialism and colonial policies, will be considered. The course will be divided into a set of topics, which together cover a large ground, but a selection from which will be discussed in the class. Lectures and seminars will centre on the readings assigned to each topic.

**Topics to be covered:**
- Introductory: India and the world economy in the eighteenth and nineteenth centuries - how each shaped the other; textiles in eighteenth-century India: scale - organization - impact on global consumption and innovation - trade and territorial politics; nineteenth century market integration: de-industrialization and the artisans; nineteenth century market integration: Agrarian exports, land rights, and the peasantries - Trade and famines; Government finance in colonial setting: The drain controversy - public debt; overseas migration in the nineteenth century: Who went where, how many, and why - private gains and losses - social effects: slavery and indentures, women, nature of work and skill-training - labour and non-labour migrants compared; foreign capital and industrialization; balance of payments and the monetary system; overview: Globalization and economic growth.

**Teaching:** 20 hours of seminars in the LT.

**2-hour meetings weekly, with a flexible combination of lectures and seminars.**

**Students on this course will have a reading week in Week 6, in line with departmental policy.**

**Formative coursework:** Students will be required to make class presentations, and prepare an outline of the assessed essay, which will be discussed with the instructor.

**Assessment:** Essay (100%, 3000 words) in the ST.

### EH408 Half Unit

**International Migration, 1500-2000:**

*from slavery to asylum*

*This information is for the 2018/19 session.*

**Teacher responsible:** Prof Christopher Minnis SAR 512

**Availability:** This course is available on the MRes/PhD in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global Economic History (Erasmus Mundus), MSc in International Migration and Public Policy, MSc in International and World History (LSE & Columbia) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course examines major issues in international migration over the last 500 years. The course will consider free and coerced migration in the early modern period, the emergence (and eventual decline) of mass migration in the later 19th century, and the rise of ‘managed’ migration in the post World War II period. The course will examine the economic foundations of indentured servitude and slavery in the early modern period, and the interactions between these two types of labour. The contribution of economic and demographic forces to the rise of mass migration on destination and source labour markets, the determinants of immigrant destination choice, and the interplay between migration and exogenous crises in Europe. In the post World War II environment, the focus will be on the political impact of mass migration on developing economies in the present day. In this part of the course, we will consider how historical episodes of migration can inform the present day.

**Teaching:** 20 hours of seminars in the LT.

**Students on this course will have a reading week in Week 6, in line with departmental policy.**

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

### EH409 Half Unit

**Chinese Economy in Transition: 1850-1950**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Debin Ma SAR 612

**Availability:** This course is available on the MSc in Economic History, MSc in Economic History (Research), MSc in Global Economic History (Erasmus Mundus) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Course content: This course provides a broad but selective survey of over 100 years of economic change in China leading towards the rise of the new Communist regime in 1950. With emphasis on the importance of ideological and institutional changes, the course gives in-depth coverage of some major debates and case studies on historical turning points such as the opening of China in mid-19th century, the collapse of Qing in 1911, economic transformation during China’s Republican period. The course showcases the critical relevance of a long-term perspective on understanding both the constraints and capacity of Chinese economy to respond to past and future challenges and offers unique historical perspectives on the origin of Chinese modernization as well as the grand economic transformation.
EH413  Half Unit  Not available in 2018/19
African Economic Development in Historical Perspective

This information is for the 2018/19 session.
Teacher responsible: Dr Leigh Gardner SAR 507
Availability: This course is available on the CEMS Exchange, MBA Exchange, MRes/PhD in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global Economic History (Erasmus Mundus), MSc in International and World History (LSE & Columbia) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Africa's economic development challenges cannot be understood without looking back to the history of the continent. This course provides an introduction to the economic history of sub-Saharan Africa since the beginning of the Atlantic era. It begins by comparing levels of economic development in Africa c. 1500 to that of other world regions. It then examines how major shifts in the international economy, from the industrial revolution to the recent financial crisis, influenced patterns of economic development on the continent. Focusing on the longue durée, the course addresses issues which are remain current in studies of African development, including:

• The role of globalization and trade and promoting or undermining development
• Environmental challenges to expanding production
• The structure of state institutions and their impact on growth
• The impact of economic change on social structures

Close attention will be paid to the ways in which economic development is measured and assessed in different periods with the available data. Readings will include historical documents from the periods in question. The inclusion of primary sources on the reading list will allow students to build research skills while engaging with key questions about the historical origins of Africa's relative poverty.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 2-hour meetings weekly, with a flexible combination of lectures and seminars. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are required to make one class presentation and submit one paper during the term.

Indicative reading: Readings for this course reflect current trends in research on African economic history and development. The main text is Emmanuel Akyeampong et al (eds), Africa's Development in Historical Perspective (Cambridge, 2014). Other such readings will include recent contributions in journals such as the Economic History Review special issue on African economic history (November 2014).

We will supplement this with country- or region-specific studies such as Hopkins, Economic History of West Africa (1973) and Feinstein, Conquest, Discrimination and Development: An Economic History of South Africa (Cambridge, 2005). For a general overview of African history over the period, see R.J. Reid, A History of Modern Africa (2009), J. Iliffe, Africans: The History of a Continent (1995).

Assessment: Exam (100%, duration: 2 hours) in the January exam period.

EH414  Half Unit
Theories, Paths and Patterns of Late Development

This information is for the 2018/19 session.
Teacher responsible: Dr Debin Ma SAR 6.12
Availability: This course is compulsory on the MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course provides basic awareness of central themes and key methodological and theoretical issues in economic history, introduces students to important analytic tools used by economic historians, with an emphasis on their practical application in economic history research; and examines major ways in which economic historians collect, analyse and interpret evidence. The training is expected to inform dissertation work. The course covers two main areas. 1) Theory and Research: this section introduces theoretical approaches to major issues in economic history, and considers the practical application in historical analysis of concepts from economics (primarily) and related disciplines. The specific topics evolve but an illustrative list includes: processes of economic growth; economic development; culture and economic behaviour; the rational-choice institutional paradigm; imperfect information and incentive structures; modern macro-economic ideas (especially on money and finance); welfare outcomes. 2) Historical Methodology: this section introduces methodological issues in combining social science frameworks with historical materials. It considers problems of knowledge and explanation in economic history, and introduces quantitative and qualitative approaches to obtaining, analysing and interpreting evidence. The classes to follow the lecture will focus on how economic history as a discipline that helps explain the distinct growth trajectories of 'late-developing' countries, inform modern approaches to development policy and practice, and current controversies about obstacles to development.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. Two-hour lecture (that is joint with EH401) and a weekly one hour seminar in MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will produce one written paper (3,000 words) and are expected to collaborate in joint presentations.

Assessment: Exam (100%, duration: 2 hours) in the January exam period.

**EH422 Topics in Quantitative Economic History**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Albrecht Ritschl SAR, 6.06 and Prof Christopher Minns

**Availability:** This course is compulsory on the MSc in Quantitative Economic History. This course is available on the MSc in Economic History, MSc in Economic History (Research) and MSc in Global Economic History (Erasmus Mundus). This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is particularly appropriate for those students who are considering following a quantitative economic history PhD thesis in the future.

**Pre-requisites:** Students enrolled for this course are expected to have completed the equivalent of undergraduate courses in econometrics and intermediate economic theory.

**Course content:** The course is organised on a topic basis, with subjects chosen to illustrate particular theoretical, quantitative or methodological issues. Such topics could include: long run comparative economic growth; human capital issues in economic history; the macroeconomics of the inter-war years; the political economy of trade; industrial economic history; technological change; quantitative approaches to the evolution of markets; the new economic history of institutional change; analysing historical welfare issues. The aims are to: examine the techniques used by economic historians and to assess their validity and whether they help to further our understanding of the particular historical issue to which they have been applied; and to teach students how to evaluate the relevance of historical hypotheses and the historical applicability of models from economic and other social scientific theory. Students are able to investigate in detail the analysis contained in important journal articles using appropriate computer packages.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT.

20 two-hour lectures/ seminar in the MT and LT; some of this Teaching will take the form of computing workshops.

Students on this course will have a reading week in Week 6 of each term, in line with departmental policy.

**Formative coursework:** Three or four papers or presentations during the session

**Assessment:** Essay (35%, 3000 words) and presentation (15%) in the LT.

Essay (35%, 3000 words) in the ST. Presentation (15%) in the MT. The summative essays are expected to modify, extend or criticise existing research in the literature. The presentations will cover work other than the subject matter of the essays and will be given in class during the MT and LT.
EH423 Half Unit Not available in 2018/19
Japan and Korea as Developing Economies

This information is for the 2018/19 session.
Teacher responsible: Prof Janet Hunter SAR 6.04
Availability: This course is available on the MRes/PhD in Quantitative Economic History, MSC in Economic History, MSc in Economic History (Research), MSc in Global Economic History (Erasmus Mundus) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course will focus on selected issues of economic development that are of importance in contemporary debates and theories, and see how these issues were played out in Japan and Korea from the late 19th century to the latter half of the 20th century. The main themes discussed will be: natural endowments and climatic impact; changes in the agricultural and manufacturing sectors; the growth of market production; issues of state policy; economic institutions; colonialism and imperialism; integration into the international economy; income levels and consumption; gender and development; culture and economy.
Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 2 hours of seminars in the ST.
Twenty hours of lectures/seminars in the Michaelmas Term and two hours of revision seminars in the Summer Term.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

EH426 Half Unit
Quantitative Topics in Economic History I: Cross-section and panel data

This information is for the 2018/19 session.
Teacher responsible: Prof Albrecht Ritschl and Prof Christopher Minns
Availability: This course is available on the MSc in Economic History, MSc in Economic History (Research) and MSc in Global Economic History (Erasmus Mundus). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students enrolled for this course are expected to have completed EH426 or the equivalent of undergraduate courses in econometrics and intermediate economic theory.
Course content: The course will provide an overview of quantitative approaches in economic history using primarily dynamic panel and time series. The course will examine the use of quantitative techniques through practical exercises and critical discussion of their application in recent literature. Techniques discussed will include the GMM estimator, discrete choice and hazard models, analysis of unit roots in panels and time-series and vector autoregressions. The course is organised on a topic basis, with subjects chosen to illustrate particular theoretical, quantitative or methodological issues.
Teaching: 20 hours of seminars in the LT.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Two presentations during the term; fortnightly quantitative exercises.
Assessment: Essay (70%, 3000 words) in the ST. Presentation (30%) in the LT.
The summative essay is expected to modify, extend or criticise existing research in the literature. The presentation will cover work other than the subject matter of the essays and will be given in class during the MT.

EH427 Half Unit
Quantitative topics in economic history II: time series and economic dynamics

This information is for the 2018/19 session.
Teacher responsible: Prof Albrecht Ritschl SAR.6.06
Availability: This course is available on the MSc in Economic History, MSc in Economic History (Research) and MSc in Global Economic History (Erasmus Mundus). This course is not available as an outside option.
Pre-requisites: Students enrolled for this course are expected to have completed EH426 or the equivalent of undergraduate courses in econometrics and intermediate economic theory.
Please note that EH427 can not be taken with EH422.
Course content: The course will provide an overview of quantitative approaches in economic history using primarily dynamic panel and time series. The course will examine the use of quantitative techniques through practical exercises and critical discussion of their application in recent literature. Techniques discussed will include the GMM estimator, discrete choice and hazard models, analysis of unit roots in panels and time-series and vector autoregressions. The course is organised on a topic basis, with subjects chosen to illustrate particular theoretical, quantitative or methodological issues.
Teaching: 20 hours of seminars in the LT.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Two presentations during the term; fortnightly quantitative exercises.
Assessment: Essay (70%, 3000 words) in the ST. Presentation (30%) in the LT.
The summative essay is expected to modify, extend or criticise existing research in the literature. The presentation will cover work other than the subject matter of the essays and will be given in class during the MT.

EH428 Half Unit
History of Economics: Making Political Economy into a Social Science

This information is for the 2018/19 session.
Availability: This course is available on the MSc in Economic History, MSc in Economic History (Research), MSc in Economics
and Philosophy, MSc in Global Economic History (Erasmus Mundus), MSc in International and World History (LSE & Columbia) and MSc in Philosophy of the Social Sciences. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course aim is to understand how the nature of economics changed from the verbally argued accounts of political economy and moral philosophy in the 18th century to a technical social science by the end of the 20th century. The course will explore the long-term changes over two hundred years in how economists came to know things about the economy by examining the history of their notion of the laws of economics, their analytical practices, and the evidence they used. Primary texts, chosen from a variety of European and American authors, will provide material for the study of these changes. Secondary literature will provide theoretical resources from history and philosophy of science to help analyse, understand and assess these changes in the nature of economics as a science.

Teaching: 20 hours of seminars in the MT. 20 hours over MT, mainly 2hour seminars, with an occasional lecture within that time slot. (Those students without previous study in the history of economics may wish to attend the lectures for EC311). Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce two pieces of written work (around 2000 words each) during the term.

Indicative reading: The main domain of the course material is explained in “Economics” in T.M.Porter and D.Ross The Cambridge History of Science, Vol 7, The Modern Social Sciences, pp 275-305 (Cambridge University Press). Henry Spiegel’s The Growth of Economic Thought (various editions, Duke University Press) provides a general background text for the history of economics. Full reading lists will be given out at the beginning of the course.

Assessment: Essay (100%, 3000 words) in the LT.

---

**EH430 Monetary and Financial History**

This information is for the 2018/19 session.

Teacher responsible: Dr Natacha Postel-Vinay SAR.6.13

Availability: This course is available on the MSc in Economic History, MSc in Economic History (Research) and MSc in Political Economy of Late Development. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: There are no specific pre-requisites for this course. Nevertheless, some preliminary background in introductory macroeconomics and introductory statistics could be useful.

Course content: Where does money come from? How did financial markets first develop and integrate? What has been the impact of financial markets on economic development, growth, and business cycle fluctuations? When did financial crises first arise, and how did they develop in the twentieth century, up to the subprime and Euro crises of 2008-2015? This course offers an opportunity to delve into these questions and analyse the evolution of the role of money in Western economies over centuries, from the Middle Ages to the 2000s.

The first part of the course will allow students to acquire a broad overview of the origins of financial markets from 800 to the eve of World War 1. It will explore the creation of mints and central banks, the role of finance in processes of long-run growth such as the Industrial Revolution, how financial bubbles and banking panics first arose, and how financial markets integrated in the 19C with the Gold Standard. The second part of the course will start with a focus on the financial turmoil of the Great Depression, looking at the mechanisms leading to hyperinflation, bank failures, debt crises and capital flight on both sides of the Atlantic. It will then move on to analysing the evolution of financial institutions under Breton Woods, sovereign debt crises, the 1990s bubbles, and the Great Recession in the US and in the Euro area. In the end, students will have a firm grasp of the evolution of financial markets over centuries up until now.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. There will be a Reading Week in Week 6 of MT and LT.

Formative coursework: Students will be expected to produce 1 presentation and 9 other pieces of coursework in the MT and LT. The weekly memo will consist in a 500-word attempt to answer the class question based on the readings. It will be submitted at the beginning of each class, and will be handed back to the students with brief comments.

Assessment: Essay (50%, 3500 words) in the MT. Essay (50%, 3500 words) in the LT.
EH446
Economic Development of East and Southeast Asia
This information is for the 2018/19 session.
Teacher responsible: Prof Kent Deng SAR 605
Availability: This course is available on the MRes/PhD in Quantitative Economic History, MSc in China in Comparative Perspective, MSc in Development Studies, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global Economic History (Erasmus Mundus), MSc in Global Politics and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: There are no pre-requisites: knowledge of Asian history of the relevant period and region would be an advantage.
Course content: The course deals with conditions and paths of economic development in East Asia (excluding Japan) and Southeast Asia in the past centuries. The first part of the course looks at the debate on Asian economic history, endowments available, and institutions technology and economies that evolved independently in Asia to support a large population with reasonable standards of living. The second part of the course examines reasons for the lack of indigenous modern growth in Asia, conditions and timing of miracle growth of the Asian Tigers, ASEAN and Mainland China after World War Two, and impact of such growth of the world economy.
Topics covered include: traditional economic patterns in the region by the 17th century; the impact of the early European maritime traders; the impact of the later Europeans traders backed by industrialisation; attempts and success of the Western colonisation; resistance to the change from the core area in East Asian Mainland. Reforms and modernisation in Asia; Asia and globalisation.
Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.
20 seminars of two-hours each in the MT and LT. Written essays are circulated in advance.
Students on this course will have a reading week in Week 6 of each term, in line with departmental policy.
Formative coursework: Two essays (3,000 words each) are expected during the course. The first is due at the end of the 9th week (in the MT) and the second, the 17th week (in the LT).
Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

EH452 Half Unit
Latin American Development and Economic History
This information is for the 2018/19 session.
Teacher responsible: Dr Maria Irigoin SAR 6.11
Availability: This course is available on the MRes/PhD in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global Economic History (Erasmus Mundus), MSc in History of International Relations, MSc in International and World History (LSE & Columbia), MSc in Political Economy of Late Development and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course will consider some of the major topics of economic development and economic history of Latin America. The topics to be explored will be the role of geography, the environment and factor endowments, the role of institutions and policies in the long run development path, problems of taxation and representation in the constitutional and political developments of the 19th and 20th century, the history of labour and migrations into and out of Latin America, the protracted character of Latin America’s inequality, the macroeconomics of industrialization and the political economic nature of Latin American populist political culture, the recurrent financial crises and the persistent macroeconomic instability. Using reciprocal comparisons with the US, South East Asia, and between LA countries - and across time - the course will revisit the current interpretations of Latin American development in the long run and will frame the analysis of particular issues of policymaking of the present into the economic historical context.
Teaching: 20 hours of seminars in the LT. Weekly two-hour seminars in LT.
Formative coursework: Students are required to write one paper (around 2,000 words) during the term and produce oral presentations.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

EH454
Human Health in History
This information is for the 2018/19 session.
Teacher responsible: Dr Eric Schneider SAR 5.18 and Dr Patrick Wallis SAR 5.11
Availability: This course is available on the MRes/PhD in Quantitative Economic History, MSc in Economic History, MSc in Empires, Colonialism and Globalisation, MSc in Global Economic History (Erasmus Mundus) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course explores how human health has changed over time and tracks how the environment, society, public health infrastructure, medical practice and health systems have influenced health. The course begins with a three-seminar survey of how health has changed from the Neolithic era onwards. Subsequent thematic sets of seminars study the following topics in more detail:
• Health in the pre-Industrial world including discussion of plague,
the Columbian Exchange and American slavery
• The epidemiological and health transition with weekly topics on the
germ theory of disease, medical innovations, sanitation and the
developmental origins of health
• The development of health systems from the early modern period to the present
• Combating disease with particular reference to smallpox, cholera and AIDS
• The influence of health on society and the economy including topics on health and economic growth, gender disparities in health and morbidity

One of the focuses of the course will be critical engagement with the sources and methods that historians have used to reconstruct health history. Students will also complete a 3,000 word research paper based on primary sources or data on a health history topic as part of the summative assessment.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 1 hour of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay and 1 project in the MT and 1 essay and 1 other piece of coursework in the LT.

Formative essay (1,500 words) due in week 8 of Michaelmas Term
• Choose one of three practice exam questions
• Group research project

We will introduce the project along with various datasets
• Then they will have reading week and the rest of term to develop their research project.
• They will give a 10-minute presentation of the project to the class in week 8 of Michaelmas Term.
• A 1,500 word essay will be due in week 11 of Michaelmas Term.

Research project proposal (one page) due in week 2 of Lent Term
• Explain the historical question you will address
• Describe the data and methodology that you will use to address the question

Formative essay (1,500 words) due in week 1 of Summer Term

**Indicative reading:** Floud, Roderick, Robert W. Fogel, Bernard Harris and Sok Chul Hong, The Changing Body: Health, Nutrition, and Human Development in the Western World since 1700

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Project (50%, 3000 words) in the LT.
The two-hour unseen exam will cover all topics of the course and take place during the main examination period.
The 3,000-word summative research project is an opportunity for students to conduct their own primary-source research into the history of health. Students can either use a primary source available as a dataset, or they can venture out to the archives to collect additional information as a basis for their project. The project must be historical (pre-1990) and cannot directly replicate studies in the literature using the same data. However, it can test another author’s result using new sources or use the same sources to test a different question. The project can use quantitative or qualitative methods (or both) based on each student’s preference.
The project will be due by 4:00 pm on Thursday of week 11 of Lent Term. More detailed guidance on the project will be disseminated early in Michaelmas Term.

---

**EH463 Half Unit**

**The Long-Run Analysis of Firms and Industries**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Gerben Bakker SAR 509

**Availability:** This course is available on the MPhil/PhD in Accounting, MRes/PhD in Quantitative Economic History, MSc in Accounting, Organisations and Institutions, MSc in Economic History, MSc in Economic History (Research) and MSc in Global Economic History (Erasmus Mundus). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** There are no prerequisites, but some knowledge and an interest in business and finance are advantageous.

**Course content:** This course comparatively explores the history of strategies, business organisations and industries since the nineteenth century. Different approaches to analyse this evolution are discussed, as well as the history of thinking about management and organisational structure and how this affected history itself. Introductory lecture(s) set the scene, discuss key concepts and various economic approaches to analyse the evolution of organisations. Subsequently the course looks at the origins of legal forms of organisation - such as the corporation, the private limited liability company and the cooperative - at the development of organisational structures, at the history of thinking about them, and at evolution of industries.

**Teaching:** 20 hours of seminars in the LT.

The class meets for two-hours each week, in the Lent Term. Introductory lecture(s) are followed by student-led seminars. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students are expected to produce one essay during the term and to sit a short mock examination paper at the end of term.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**EH464 Half Unit**

**The Historical Context of Business**

This information is for the 2018/19 session.

**Teacher responsible:** Mr Peter Sims

**Availability:** This course is available on the CEMS Exchange, MBA Exchange, MRes/PhD in Quantitative Economic History, MSc in Accounting, Organisations and Institutions, MSc in Economic History, MSc in Economic History (Research) and MSc in Global Economic History (Erasmus Mundus). This course is available with permission as an outside option to students on other programmes where regulations permit.
**EH472**  
**Half Unit**  
**Essay in Quantitative Economic History**  

**This information is for the 2018/19 session.**  

**Teacher responsible:** Dr Eric Schneider  

**Availability:** This course is compulsory on the MSc in Quantitative Economic History. This course is not available as an outside option.  

**Course content:** The topic of the Essay is chosen by the students in close consultation with their supervisors. The purpose of the essay is to introduce students to the practice of historical research through the completion of a small, self-contained project that involves the use of quantitative methods in the analysis of historical change. It builds on competencies acquired in the core economic history and economics courses of the MSc. It must demonstrate the ability to identify, collect and critically examine relevant quantitative information. Apart from it being an integral core component of the MRes programme, the Essay also serves as a first step towards the production of one of the three publishable papers envisaged for the students’ prospective paper-based PhD thesis. Selection of title: The title must be approved by the student’s supervisor. An agreed provisional title and an outline of the Essay must be submitted by week 3 of Lent Term.  

**Teaching:** Starting in the first term, students will receive advice on choosing a topic and how to tackle it, both from the Department (in the form of a document) and, individually, from their supervisors. There will be four Essay sessions in Lent Term for all students on the MRes and meetings with supervisors during the course of the year. Students are expected to submit a one page summary and a substantial draft for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date. This draft work forms the basis of the paper which students have to present at the MRes Quantitative Economic History workshop held in the last week of the Summer Term.  

**Formative coursework:** Students must submit a one page summary and a substantial draft for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.  

**Assessment:** Research project (100%). The Research Project should be no longer than 10,000 words, excluding tables, references and bibliography. Submission on a date to be specified. Marks will be deducted for late submission or excessive length. The Research Paper counts for one full unit in the four-unit MRes programme. The relevant marking criteria are set out in the Notes for Students.

**EH473**  
**Research Paper in Quantitative Economic History**  

**This information is for the 2018/19 session.**  

**Teacher responsible:** Dr Eric Schneider  

**Availability:** This course is compulsory on the MRes/PhD in Quantitative Economic History. This course is not available as an outside option.  

**Course content:** The Research Paper builds on the research training provided through the core courses of the MSc Quantitative Economic History and the MRes Quantitative Economic History, augmented by the optional economic history courses taken by students during the MRes. The topic of the Research Paper is chosen by the students in close consultation with their MRes supervisors who, normally, will be their prospective PhD supervisors. The Research Paper will present the results of an original enquiry into a clearly defined historical problem and use appropriate methods of quantitative analysis. It must demonstrate the ability to employ relevant concepts from economics and/or the wider social sciences effectively, an understanding of and critical engagement with the relevant economic history literature, an appreciation of the nature of historical explanation and analysis, and the ability to identify, collect and critically examine relevant quantitative information. Apart from it being an integral core component of the MRes programme, the Research Paper also serves as a first step towards the production of one of the three publishable papers envisaged for the students’ prospective paper-based PhD thesis. Selection of title: The title must be approved by the student’s supervisor. An agreed provisional title and an outline of the Research Paper must be submitted by week 3 of Lent Term.  

**Teaching:** Starting in the first term, students will receive advice on choosing a topic and how to tackle it, both from the Department (in the form of a document) and, individually, from their supervisors. There will be four Research Paper sessions in Lent Term for all students on the MRes and meetings with supervisors during the course of the year. Supervisors will not normally provide comments on drafts submitted after that date. This draft work forms the basis of the paper which students have to present at the MRes Quantitative Economic History workshop held in the last week of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date. This draft work forms the basis of the paper which students have to present at the MRes Quantitative Economic History workshop held in the last week of the Summer Term.  

**Formative coursework:** Students must submit a one page summary and a substantial draft for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.  

**Assessment:** Research project (100%). The Research Project should be no longer than 10,000 words, excluding tables, references and bibliography. Submission on a date to be specified. Marks will be deducted for late submission or excessive length. The Research Paper counts for one full unit in the four-unit MRes programme. The relevant marking criteria are set out in the Notes for Students.
at PhD level. The Prospectus is non-examinable but subject to approval by a departmental board prior to progression into the PhD programme.

The Research Prospectus is expected (1) to set out the research questions and motivation of the three publishable papers students intend to produce in their prospective PhD thesis, (2) to demonstrate the thematic connections between the three papers, (3) to outline the conceptual/ theoretical frameworks and empirical approaches to be used, (4) to identify the main (data) sources to be exploited, and (5) to delineate the relevant historical and historiographical contexts of the thesis. Insights from the student’s ongoing work on the Research Paper (EH473), as a first step towards the production of one of the three papers, are expected to inform the Research Prospectus.

Teaching: Students are expected to work on the Research Prospectus throughout the year and in close consultation with their supervisors who, normally, will be their prospective PhD supervisors.

Assessment: The Research Prospectus is not formally assessed. However, it needs to be approved by the departmental Prospectus Review Board prior to progression to the PhD programme. Submission to the departmental Prospectus Review Board on a date in Summer Term to be confirmed.

---

**EH476 The Economic History of War**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Max-Stephan Schulze SAR 614

**Availability:** This course is available on the MRes/PhD in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research) and MSc in Global Economic History (Erasmus Mundus). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students enrolled on this course are expected to have completed the equivalent of undergraduate survey courses on European history. Knowledge of introductory undergraduate level economics is a distinct advantage.

**Course content:** This course explores the economic history of war(s) from the late Middle Ages to the 20th century within a comparative framework. Key themes examined include: long-term preparation for war - from bullionism to autarchy, state formation and deformation, organising warfare - from Renaissance condottiere to security firms; resource mobilisation - finance, material inputs, human capital; resource allocation - production and consumption; human and economic consequences of war; post-war reconstructions. The historical cases studied include the Hundred Years War, the Thirty Years War, the European wars of the 18th century, the Napoleonic Wars, the American Civil War, the First and Second World Wars.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There are no lectures on this course. Teaching will consist of 20 seminars of two-hours each in MT and LT, one revision session in LT. There will be pre-circulated papers for the seminars.

Students on this course will have a reading week in Week 6 of both MT and LT, in line with departmental policy.

**Formative coursework:** Three 2,000 word essays and one class presentation

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

---

**EH479 Half Unit**

**Dissertation in Global History**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Eric Schneider

**Availability:** This course is available on the MSc in Global Economic History (Erasmus Mundus). This course is not available as an outside option.

**Course content:** The subject of the dissertation should relate broadly to one of the global history taught courses taken by the student. It should be a critical survey of a well-defined problem in the literature. It must demonstrate adequate knowledge of appropriate literature in Global History and an ability to handle problems of evidence and explanation. The title must be approved by the student’s supervisor. A provisional title should be agreed by mid-LT.

**Arrangements for supervision:** EH481 gives essential training for the dissertation. Starting in the first term, students will receive advice on the choice of topic and how to tackle it, both from the Department and, individually, from their tutor and from the teacher of the most relevant taught course. There will be meetings during the course of the year. The student must submit a one page summary and draft work for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.

**Teaching:** 8 hours of lectures in the MT.

**Assessment:** Dissertation (100%, 6000 words) post-summer term. The dissertation should be no longer than 6,000 words, excluding tables, references and bibliography. Marks will be deducted for late submission or excessive length.

---

**EH480**

**Dissertation in Global History**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Eric Schneider

**Availability:** This course is available on the MSc in Global Economic History (Erasmus Mundus). This course is not available as an outside option.

**Course content:** The dissertation should be an empirical study using primary source material to write on a topic in global history. The topic should relate broadly to one of the global history courses taken by the student.

**Selection of title**

The title must be approved by the student’s supervisor. A provisional title should be agreed by mid-LT.

**Arrangements for supervision**

EH481 Economic Change in Global History: Approaches and Analysis gives essential training for the dissertation. Starting in the first term, students will receive advice on the choice of topic and how to tackle it, both from the Department (in the form of a document) and, individually, from their tutor and from the teacher.
Students will be expected to produce two formative coursework.

**Teaching:** 8 hours of lectures in the MT. 2 hours of lectures in the ST.

**Formative coursework:** The student must submit a one page summary and draft work for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.

**Assessment:** Dissertation (100%, 10000 words) post-summer term. The dissertation should be no longer than 10,000 words, excluding tables, references and bibliography. The title must be approved in advance by the student's supervisor. Marks will be deducted for late submission or excessive length.

---

**EH482 Pre-Modern Paths of Growth: Europe and the Wider World, 11th to 19th Centuries**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Patrick Wallis

**Availability:** This course is available on the MRes/PhD in Quantitative Economic History, MSc in China in Comparative Perspective, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation and MSc in Global Economic History (Erasmus Mundus). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course surveys long-term processes of growth and development in pre-modern Europe and the wider world. The course raises fundamental questions about the nature of pre-industrial societies and economies. First, it asks if stagnation and poverty were normal conditions in pre-industrial societies and growth an aberration. Were societies 'Malthusiari', and what kind of growth and development did they experience? Second, it addresses debates over the timing and causes of Western economic growth and its connections with the region's expanding political and military power. Why British or European success from the 17th century the result of unique social, institutional, or cultural features? Was it the outcome of a centuries-long, cumulative process of change that relied as much on inputs from the rest of Europe and the wider world as much as specifically domestic features? Or was it the result of a 'fortunate conjunction'? Third, it explores the range of alternative development paths within Europe and in other regions of the world, such as premodern China and India, considering both regions' internal economic dynamics and the impact of interactions with European powers as contact grew over the course of the early modern period. The approach throughout is thematic. Themes include: population, agriculture, technology, manufacturing, labour regimes, economic effects of legal, political, and constitutional structures; political economy, trade and market integration, money, finances and commercial institutions, and the causes and effects of the European expansion overseas.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 2-hour meetings weekly, with a flexible combination of lectures and seminars in MT and LT. Students on this course will have a reading week in Week 6 of each term, in line with departmental policy.

**Formative coursework:** All students are expected to write four essays: one by the end of the fifth week of the MT, one by the end of the ninth week of the MT, one by end of the fifth week of the LT, and one by the end of the ninth week of the LT.

**Indicative reading:**

**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.
**EH483**  
_The Development and Integration of the World Economy in the 19th and 20th Centuries_

_This information is for the 2018/19 session._  
**Teacher responsible:** Dr Neil Cummins SAR 513 and Miss Natacha Postel-Vinay

**Availability:** This course is available on the MRes/PhD in Quantitative Economic History, MSc in Accounting, Organisations and Institutions, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global Economic History (Erasmus Mundus) and MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course examines the development of shipping, sea power and maritime-related industries in East and Southeast Asia, c1600-1860. Topics include: Introduction to theories and models. Sailing conditions and sea routes in Asian waters. Strategic importance of Asian waters in the global sense. Development of shipping technology. Emergence of naval capacity. Function and pattern of long-distance trade; formation of regional markets and networks; linkages to the home economy. Migration. Investments and returns. Role of governments. Impact of modern capitalism. Regional hegemony. The context of the process and impact of globalisation in Asia.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures and 1 hour of seminars in the ST. Taught during the LT 10 weekly one hour lecture followed by one hour seminar in which student papers will be presented and discussed.

**Formative coursework:** Students will be expected to produce two essays of up to 2,000 words during the course, one due at the end of the 4th week and the other at the end of the 9th week (see below).

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

_Dissertation in the Political Economy of Late Development_

_This information is for the 2018/19 session._  
**Teacher responsible:** Dr Eric Schneider

**Availability:** This course is compulsory on the MRes/PhD in Quantitative Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Global Economic History (Erasmus Mundus), MSc in International and World History (LSE & Columbia) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The dissertation must present the results of an enquiry into a carefully defined problem in the field, whether by a critical survey of existing literature, or by the use of primary evidence. It must demonstrate adequate knowledge of relevant theoretical and empirical literature in Economic History and Development Studies, and an ability to handle problems of evidence and explanation.

**Supervision:** EH414 Theories, Paths and Patterns of Late Development gives essential training for the dissertation. Starting in the first term, students will receive advice on the choice of topic and how to tackle it, both in the form of a document from the
EH496
Research Dissertation A: Contextualisation, Theory and Research Design

This information is for the 2018/19 session.
Teacher responsible: Dr Eric Schneider
Availability: This course is compulsory on the MSc in Economic History (Research). This course is not available as an outside option.

Course content: The dissertation must draw upon the research training provided through the core courses for the MSc (Research) and the generic courses taken by the student, and present the results of an original enquiry into a carefully defined problem. Students are expected to show an ability to draw on relevant social scientific concepts, an understanding of the advanced literature in one or more areas of economic history, and of the nature of historical explanation and analysis. Where appropriate, students are also expected to show the ability to use relevant quantitative techniques for data collection and analysis. The dissertation is intended as preparation for a research degree. Students expecting to continue on the MPhil/PhD programme within the Department may write their MSc dissertation on a different topic from that on which they plan to research at MPhil/PhD level.

Selection of title: The subject and title of the dissertation must be agreed by the student’s tutor.

Teaching: 8 hours of lectures in the MT. 2 hours of lectures in the LT.

Co-taught with EH497.

Arrangements for supervision: Starting in the first term, students will receive advice on how to choose a topic, and how to tackle it, both from the Department and, individually, from their tutor and from the teacher of any relevant taught course. There will be meetings during the course of the year. The student must submit a draft of the dissertation by the last Monday of the Lent Term. This draft will form the basis of a presentation at the dissertation workshop held later that week, at which verbal feedback will be provided by teachers and fellow students. A nominated member of staff will also offer written comments on this draft providing it is submitted by the designated time.

Formative coursework: The student must submit a draft of the dissertation by the last Monday of the Lent Term. This draft will form the basis of the paper which the student must present to a dissertation workshop held later that week, at which verbal feedback will be provided by teachers and fellow students. A nominated member of staff will also offer written comments on this draft providing it is submitted by the designated time.

Assessment: Dissertation (100%, 6000 words) post-summer term.

The final dissertation, is equivalent to two full modules (EH496 and EH497), and will be awarded two separate percentage marks. The first of these marks (EH496) will be based on the formulation of the dissertation topic, its historical and historiographical context (including critical literature survey), its creativity and originality, and overall presentation. The second mark (EH497) will relate to the student’s research design and discussion of methods, their collection and evaluation of primary and secondary sources, and the quality of analysis of evidence and interpretation. The dissertation should not exceed 15,000 words, excluding tables, references and bibliography. Presentation must be in accordance with appropriate academic conventions as laid down in the MSc Handbook. Work that fails to meet appropriate academic standards of presentation, including English language, will be subject to a maximum deduction of 15% from the first percentage mark. Marks will be deducted for late submission in accordance with the guidelines laid down in the MSc student handbook.

EH497
Research Dissertation B: Implementation, Analysis and Contribution

This information is for the 2018/19 session.
Teacher responsible: Dr Eric Schneider
Availability: This course is compulsory on the MSc in Economic History (Research). This course is not available as an outside option.

This course is taken in conjunction with EH496.

Course content: The dissertation must draw upon the research training provided through the core courses for the MSc (Research) and the generic courses taken by the student, and present the results of an original enquiry into a carefully defined problem. Students are expected to show an ability to draw on relevant social scientific concepts, an understanding of the advanced literature in one or more areas of economic history, and of the nature of historical explanation and analysis. standards of presentation, including English language, will be subject to a maximum deduction of 15% from the first percentage mark. Marks will be deducted for late submission in accordance with the guidelines laid down in the MSc student handbook.

**EH498 Half Unit**

**Dissertation: MSc Economic History (Half Unit)**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Eric Schneider  
**Availability:** This course is available on the MSc in Economic History. This course is not available as an outside option. This course is the default dissertation option for students following the MSc Economic History. Students wishing to write a full-unit (10,000 word) dissertation may, with the approval of their academic adviser, request to take EH499 and fewer optional courses.

**Course content:** The subject of the dissertation should relate broadly to one of the economic history taught courses taken by the student. It should be a critical survey of a well-defined problem in the literature. It must demonstrate adequate knowledge of appropriate literature in Economic History and an ability to handle problems of evidence and explanation. Selection of title: The title must be approved by the student's supervisor. A provisional title should be agreed by mid-LT.

**Teaching:** 8 hours of lectures in the MT. EH401 gives essential training for the dissertation. Starting in the first term, students will receive advice on the choice of topic and how to tackle it, both from the Department (in the form of a document) and, individually, from their tutor and from the teacher of the most relevant taught course. There will be meetings during the course of the year. The student must submit a one-page summary and draft work for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.

**Formative coursework:** Students must submit a one page summary and draft work for comment by the end of the Summer Term. Supervisors will not normally provide comments on drafts submitted after that date.

**Assessment:** Dissertation (100%, 6000 words) post-summer term. The dissertation should be no longer than 6,000 words, excluding tables, references and bibliography. Marks will be deducted for late submission or excessive length.

**EU409 Basic Economic Concepts for European Political Economy**

This information is for the 2018/19 session.  
**Teacher responsible:** Mr Pieter Tuytens COW 2.10  
**Availability:** This course is available on the MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is not available as an outside option. Students from other programmes within the European Institute can also follow the course. This course is for students with little economic background.

**Course content:** This is a Moodle-based course offering a series of instructional videos / recorded lectures (and related reading material / study guides) on some basic economics concepts and theory that are relevant to discussions concerning the political economy of Europe that students will come across in their other courses during their MSc degree. The course is not assessed and there is no formal instruction. Students are encouraged to work in teams and to develop discussions on Moodle- which will be partially moderated by the Course Convenor. The material is designed so as to be accessible to students with no previous knowledge of economics but students with some basic economics knowledge will also benefit from it. Example topics include: current account and budget deficits (“twin deficits”), inflation and unemployment (“Phillips Curve”), trade liberalisation and tariffs (“gains from trade”), competitiveness and unit labour costs (“internal devaluation”), and others.

**Teaching:** This is a Moodle-based course with no formal teaching. Students can arrange one-to-one sessions with the Course Convenor during Feedback Sessions/Office Hours. Depending on student demand, a limited number of EU409 Surgeries can be arranged.

**Assessment:** There is no examination for this course.

**EU410 Interdisciplinary Research Methods and Design**

This information is for the 2018/19 session.  
**Teacher responsible:** Dr Waltraud Schelkle COW 1.06  
**Availability:** This course is compulsory on the MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is not available as an outside option.

**Course content:** This series of workshops and lectures offers an introduction to research methods and design for all students taking masters degrees in the European Institute. Themes discussed include: methods in the social sciences and in the humanities; common problems of research design; advice on
writing coursework essays and dissertations, advice on critical reading and interpretation of texts; the logic of comparative case-studies; comparative research and an introduction to quantitative methods and data sources. Each session will consist of short lecture elements followed by group work in which students with their different backgrounds help each other to solve specific problems of research design.

**Teaching:** 4 hours of lectures and 3 hours of workshops in the MT. 4 hours of lectures and 3 hours of workshops in the LT. A total of 4 hours of lectures in both MT and LT. Two 1.5 hour workshops in Reading week 6 of MT and LT.

**Assessment:** There is no examination for this course.

EU425 Half Unit
Interest Representation and Economic Policy- Making in Europe

This information is for the 2018/19 session.
Teacher responsible: Dr Robert Hancke COW 2.09
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Sociology and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The focus of this course is on the representation of interests in Europe, and their role in Economic policy-making. Students will analyse the main theoretical issues and selected empirical questions on how interests are differently organised across countries and at the EU level, on the interplay between interest representation and electoral politics, and on the policy outcome after interest intermediation. The objective is to understand the dynamics of economic policy-making in comparative perspective, with an emphasis on the globalisation period.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.
Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One presentation per student and one 2,500 word essay.

Assessment: Essay (25%, 2500 words) in the LT.
Online assessment (75%) in the ST.

The online assessment for this course will be administered via Moodle. A review session will take place in Week 1 of the ST in preparation for this assessment. Assessment questions will be administered via Moodle in Week 2 of the ST. Students will choose 2 of 8 questions. Answers to questions will be submitted in Week 5 of the ST.

EU430 Half Unit
Europeanization: The Comparative Politics of Domestic Change

This information is for the 2018/19 session.
Teacher responsible: Dr Miriam Sorace COW 1.01
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Political Economy of Europe (LSE and Sciences Po) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course examines the effect of European Union membership on member states' policies, institutions and societies. The consequences of EU membership, as well as how and why we experience membership differently across our national political systems are increasingly important elements of the debate about the future of Europe. Crises of legitimacy, capability, and impact have been identified. Following this lead, this course evaluates the influence of European integration on member states, highlighting differences between policy mechanisms and sectors; institutional capacities and settings; and political (party and electoral) behaviour. The discussion and analysis is framed by the notion of ‘Europeanization’, to consider the linkages between the European and national levels.

Teaching: 20 hours of seminars in the MT. Within these sessions the format will vary between lectures, seminar discussion and student presentations/projects.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Up to 3 response papers on weekly readings (maximum 500 words each)

Indicative reading:
- Exadaktylos, Claudio M. Radaelli (2012) Research Design in European Studies: Establishing Causality in Europeanization Palgrave;
- K Featherstone & C Radaelli (Eds), The Politics of Europeanization, Oxford University Press, (2003);
- K Goetz & S Hix (Eds), Europeanised Politics? European Integration and National Political Systems, Frank Cass, (2001);
- M Green Cowles, J Caporaso & T Risse (Eds), Transforming Europe: Europeanization and Domestic Change, Ithaca, Cornell UP;

Assessment: Essay (30%, 1500 words) and presentation (10%) in the MT.

Essay (60%, 3000 words) in the LT
Further information:
- Essay 1: Policy analysis essay (30% - 1500 words maximum)
- Class presentation (10%)
- Essay 2: Country case study essay (60% - 3000 words maximum)
EU431  Half Unit  Not available in 2018/19
European Integration from a Global Perspective

This information is for the 2018/19 session.
Teacher responsible: Dr Mareike Kleine COW 1.01
Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Politics, MSc in International Relations (Research), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Advanced knowledge of European institutions and of theories of international cooperation and Comparative Politics.

Course content: Distances on a world scale are shrinking through the emergence and thickening of networks of connection - a process commonly referred to as globalization. The process is far from complete with some regions like Europe being highly integrated and other regions lagging behind. Partial but increasing globalization produces discord and requires effective governance beyond the nation-state, that is, processes and institutions, that guide and constrain the collective activities of groups. How does governance work? How can we design effective institutions? How do we ensure that these institutions remain legitimate? Is the European Union at the vanguard of globalization and a model that other regions or the world, as a whole, will come to adopt? Can Europe, in turn, learn from alternative forms of governance on the regional or global scale? The course engages recent positive and normative scholarship in European Studies, International Relations, Comparative Politics, and Political Theory on governance in and beyond Europe. Putting European integration in this global and comparative perspective promises to illuminate current public discussions about the depth, the geographic scale, the legitimacy and the future of European integration. We study these questions by posing four issues: the nature of globalization; the legitimacy and the future of European integration; and democracy and distribution. For each of them, European integration will serve as the principal case study to be discussed in light of developments in the rest of the world.

Teaching: 20 hours of seminars in the LT. 4 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: 1) A research proposal (due in week 5) of not more than 1,000 words for the long essay. The proposal is worked out in close cooperation with the seminar teacher. 2) Seven short memos based on the assigned reading. This memo should not be more than one page of bullet points.

Assessment: Other (90%) and other (10%).

One 4,000-5,000 word research paper to be submitted by the end of the LT (90%)

One critical comment of no more than 500 words on the assigned readings (10%)

EU432  Half Unit  The Philosophy of Europe

This information is for the 2018/19 session.
Teacher responsible: Prof Simon Glendinning COW 2.12
Availability: This course is available on the CEMS Exchange, MBA Exchange, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Politics, MSc in International Relations (Research), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: None

Course content: In this course we will read and discuss texts that draw the history of Europe into relation with philosophy. In its most classical form the assertion of this relation belongs to an understanding of Europe's history as inseparable from the project of a life predicted on reason. Europe, insofar as its cultural identity is caught up with the Greek ideal of scientific rationality, is not simply the place where philosophy was first elaborated and developed. On the contrary, Europe first arises as a place only in and through the elaboration and development of philosophy. Of course, philosophy is, historically speaking, a European phenomenon - although one which concerns above all the question, in principle open to anyone, of what it is to be a human being as such. Equally, however, Europe is itself a philosophical phenomenon - its identity inseparable from the idea of a project that concerns rational animality as such, and hence humanity as a whole.

The idea that Europe has a world-wide significance in virtue of its relation to philosophical thought is strikingly expressed in Kant's prediction of "a great political body of the future" emerging in Europe, a kind of league of nations, that will probably "legislate" - that is, at least serve as a guiding example - for all humanity. Indeed, the global "cosmopolitan existence" posited by Kant as the final end of world history is not just a philosopher's idea of humanity's collective political destiny: the very idea of a global human community is essentially philosophical. On this view, the (particular) history of the peoples of "our continent" has a relation to the (universal) destiny - the liberation or emancipation - of humanity world-wide. This is not simply because of the hegemonic political and economic ambitions of imperialist Europeans, but the world-wide movement of a cosmopolitan and humanist culture.

Starting with Kant's classic essay on "Ideal of a Universal History with a Cosmopolitan Purpose" we will turn to the way in which Europe is understood and elaborated within the post-Kantian tradition. In Hegel, Marx, Husserl, Valéry, Berlin, Fukuyama, and Derrida.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of seminars in the ST.

Each seminar will be based around the discussion of a short essay or text which everyone in the class will be expected to have read. The texts will typically be available either online or as a photocopy.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One essay of 2,000 words.

Indicative reading: Immanuel Kant 'Ideal of Universal History with a Cosmopolitan Purpose', in Political Writings, Edmund Husserl 'The Vienna Lecture', in The Crisis of European Sciences and Transcendental Phenomenology, Paul Valéry, in History and Politics, Jacques Derrida, Of the Humanities and the Philosophical Discipline. The right to philosophy from the cosmopolitical point of view (the example of an international institution) (online).

Assessment: Online assessment (100%) in the ST.

The online assessment for this course will be administered via Moodle. A review session will take place in Week 1 of the ST in preparation for this assessment. Assessment questions will be administered via Moodle in Week 2 of the ST. Students will answer 2 of 8 questions. Answers to questions will be submitted in Week 5 of the ST.

EU435  Half Unit  History and Theory of European Integration

This information is for the 2018/19 session.
Teacher responsible: Dr Sara Hagemann COW 1.05
Availability: This course is available on the CEMS Exchange, MBA
EU439 Half Unit
Political and Fiscal Integration and Disintegration in EU Member States

This information is for the 2018/19 session.

Teacher responsible: Dr Joan Costa-Font OLD 1.16
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), and MSc in Global Europe: Culture and Conflict (LSE & Sciences Po).

Pre-requisites: None

Course content: This course is an introduction to the causes and nature of European integration and - more recent - challenges of disintegration. The topic is presented from a historical, social scientific and normative perspective: We critically examine various theories of, and current debates about European integration by studying the process of integration, its effect on EU member states and third actors, the EU's constitutional character and the crises it is facing. The first part of the course analyses different stages in the integration process, asking why and how member states surrendered more and more power to European institutions. The second part discusses a number of big questions that this transfer of power raises. For example, what are the consequences of the single market; the currency on the relationship between states and market in the EU? What are the consequences of political and legal integration for the separation of powers at the national level? What is the source and nature of the EU's power in world politics? We conclude by reflecting on the debate about Euroskepticism and Brexit, the EU's perceived democratic deficit and the future of European integration. At the end of this course you will have gained an overview and better understanding of the history of European integration, integration theories and their intellectual history, the EU's political system, and current public and scholarly debates about EU politics.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Two essays of up to 1,500 words each

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

EU440 Half Unit
The Balkans in Europe: Transition, Democratisation, Integration

This information is for the 2018/19 session.

Teacher responsible: Dr Spyridon Economides COW 2.07
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Conflict Studies, MSc in EU Politics, MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: None

Course content: An examination of South East Europe from a politics, economic and international relations perspective, with particular emphasis on post-1989 developments. Topics include: The Balkans in Europe and Historical Legacies; the Dissolution of Yugoslavia, The Western Balkans and economic transition; the EU and the Balkans: regionalism and economic integration; development; state-building and Europeanisation in the Western Balkans; Conditionality and the mechanics of accession; the SEE2020 strategy and the structural reforms agenda; the Balkans and other external actors.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One 1,500 word essay and one group policy document review
Indicative reading:
- M. Todorova, Imagining the Balkans, Oxford University Press, 1997;
- S Woodward, Balkan Tragedy, Brookings Institute, 1995;
- Lavigne M. (1999), The Economics of Transition, 2nd edition;
- A. Elbasani, European Integration and Transformation in the Western Balkans: Europeanization or business as usual?, Routledge, 2013;
- Anastasakis O., Sanfey P. and Watson M. (eds) (2013), Defining a New Reform Agenda: paths to sustainable convergence in South East Europe, South East European Studies at Oxford, St Antony's College, University of Oxford; EBRD (2013);

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

EU446 Half Unit
The Political Economy of European Monetary Integration

This information is for the 2018/19 session.
Teacher responsible: Prof Paul De Grauwe COW 1.03
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A basic understanding of economic concepts is essential, which is why the auditing of the EU409 Moodle course is highly recommended.

Course content: The purpose of this course is to analyse the process of European monetary integration and its implications for the institutions of economic governance in the EU. There will be a strong emphasis on using the experience of the financial and economic crises since 2008 as a source of evidence to assess both the performance of EMU and the theories about monetary integration. We consider the political and economic rationale for the establishment of EMU. We study the theory of optimal currency areas and its relevance today. Indicative questions addressed in this course include: how and why did the EU develop the EMU project?, did economic theories prepare us for the Euro area crisis of 2010-12?; what are the challenges for member states in adjusting to the discipline of the 'Euro-zone'?; how does the Euro affect the ability of member states to adjust to periods of crisis and to external shocks?, is the sovereign debt crisis of 2010 indicative of imbalances within the EU and basic flaws in its institutional design? What are the collective action problems that explain the incompleteness of the monetary union ? What is the role of the ECB in this process? Is a fiscal union necessary to make a monetary union sustainable in the long run?

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One 2,000-word essay and one group essay of up to 3,000 words.

Assessment: Online assessment (100%) in the ST.

The online assessment for this course will be administered via
Moodle. A review session will take place in Week 1 of the ST in preparation for this assessment. Assessment questions will be made available via Moodle in Week 2 of the ST. Students will answer 2 of 8 questions. Answers to questions will be submitted in Week 5 of the ST.

**EU449 Half Unit**

Emerging Markets, Political Transition and Economic Development in Central and Eastern Europe

This information is for the 2018/19 session.

**Teacher responsible:** Dr Abigail Innes COW 2.10

**Availability:** This course is available on the MPA in Public Policy and Management, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics, MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy and Master of Public Administration. This course is not available as an outside option.

**Pre-requisites:** EU409 Basic Economic Concepts for European Political Economy or equivalent.

**Course content:** This course applies concepts of political economy, economics and political science to its investigation of Central and Eastern Europe's development from post-communist transition, through EU accession to their condition as highly open, FDI-dependent markets within the European Single Market. Placing the region in the comparative context of both the EU15 and comparable emerging markets, the course investigates the ongoing challenges of political and institutional consolidation and the developmental consequences of the liberalization and the consumption and FDI-led growth model of the 1990s/2000s. The course examines the emerging strengths and persistent weaknesses of these political economies and considers their implications for the region's emerging varieties of capitalism, relative international competitiveness and political stability. It also considers the comparative political economy of the 'middle income trap', corruption and nationalist populism. The lectures aim to provide analytical frameworks and an overview of the major research findings and debates about systemic transformation, the influence of EU accession and the difficulties of consolidating democratic capitalism in open emerging markets in a globalised world. The seminars link key concepts with the empirical evidence arising from comparative cases.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** One 1500 word essay

**Indicative reading:**

The reading list above is intended to encourage students to pick a few texts that they feel will inspire them, rather than to feel obliged to somehow complete all of them before arrival. These are relevant texts for the whole course and you have eleven weeks to read them in depth. Our belief is that the most useful background/preparatory reading that interested students can undertake for this course is to familiarise yourselves with the diverse historical political and economic developments of individual countries in the region, notably from the communist era to the present day. This preparation will deepen the empirical knowledge you can deploy to critically judge the comparative theory with which the course then engages.

**Assessment:** Essay (25%, 2000 words) in the LT. Online assessment (75%) in the ST.

The online assessment for this course will be administered via Moodle. A review session will take place in Week 1 of the ST in preparation for this assessment. Assessment questions will be made available via Moodle in Week 2 of the ST. Students will answer 2 of 8 questions. Answers to questions will be submitted in Week 5 of the ST.

---

**EU450**

**Engaging with Europe: Professional Skills**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Julian Hoerner COW 1.02 and Dr Jennifer Jackson Preece COW 2.06

**Availability:** This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in European Studies (Research), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in International Migration and Public Policy, MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is not available as an outside option.

**Course content:** This innovative programme introduces European Institute students to professional skills for a successful career that engages with Europe. The course combines guest lectures with hands on skills training workshops. The course helps ensure that European Institute students leave LSE with a competitive CV and connections with alumni and professional colleagues both in Europe and worldwide.

**Teaching:** The lecture timetable will be circulated at the start of each term, based on availability of speakers and demand for topics. Students are not required to attend every session, they are only required to attend the relevant workshops. Workshop timetables will vary over both terms.

**Formative coursework:** Formative work will vary based on the workshops attended. All students will create a Mahara portfolio, which will be used to display their formative work.

**Assessment:** There is no examination for this course. Students may qualify for a certificate of participation for some workshops upon completion of formative work.

---

**EU452**

**Political Economy of Europe**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Robert Hancke COW 2.09

**Availability:** This course is compulsory on the MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available on the MPA in European Policy-Making and MSc in European Studies (Research). This course is not available as an outside option.

**Course content:** This course is the core course on the MSc Political Economy of Europe. It tries to understand how the relation between state and economy in both Western Europe and Central and Eastern Europe has evolved over the post-war period and through this prism examine the politics and economics of the formation, governance and continuing development (deepening — widening) of the EU. We look at how capitalism and democracy were reconciled in different socio-economic models of post-war Europe and what role European integration played in their evolution. Recent and past crises of economic and political integration will be analysed as well as the attempts to complete and reform the existing union.

Key debates in this regard include state-economy relations, democracy and welfare; economic systems, stability and change of policy paradigms; state competencies, policy delegation and theories of integration; EU enlargement and conditionality; economic governance in the EU (with emphasis on the Single Market and EMU); the political economy of policy-making in the EU and its interaction with Member State preferences and capacities; crisis and reform in historical perspective and the growth & reform agendas of the post-crisis. The course aims to provide students with both an analytical understanding of, and a systematic treatment of empirical issues related to, the evolution of the European political economy.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6 of each term, in line with departmental policy.

**Formative coursework:** Two individual essays, one group essay plus a mock examination.

**Indicative reading:**

**Assessment:** Online assessment (100%) in the ST.

The online assessment for this course will be administered via Moodle. A review session will take place in Week 1 of the ST in preparation for this assessment. Assessment questions will be made available via Moodle in Week 2 of the ST. Students will answer 3 of 12 questions. Answers to questions will be submitted in Week 5 of the ST.

---

**EU453**

**Half Unit**

**The Political Economy of European Welfare States**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Waltraud Schelkle COW 1.06

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** None
Course content: The aim of the course is to apply concepts of economics and political economy to social policies in European welfare states. The lectures establish the theoretical context, summarise the findings of quantitative case studies and discuss European experience in the context of broader international experience. The seminars will further develop political-economic concepts, such as market and government failure, and apply them to qualitative case studies of welfare state arrangements in member states, considering in particular the role of social policy legislation and coordination at the EU level. The course will provide students with the conceptual and empirical background to enable them to answer questions such as: What does economic theory and political economy tell us about the design of welfare states? How do social policies in European welfare states reconcile equity and efficiency? What drives or stalls reform dynamics in member states? Is the EU gradually developing into a social union, through international mobility and the portability of social entitlements? 

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures and 3 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One individual formative essay of 1,500 words.

Assessment: Essay (25%, 2000 words) in the MT. Online assessment (75%) in the ST.

The online assessment for this course will be administered via Moodle. A review session will take place in Week 1 of the ST in preparation for this assessment. Assessment questions will be made available via Moodle in Week 2 of the ST. Students will answer 2 of 8 questions. Answers to questions will be submitted in Week 5 of the ST.

EU457  Half Unit

Culture and Security in Global Politics

This information is for the 2018/19 session.

Teacher responsible: Dr Joseph Downing COW G.05

Availability: This course is compulsory on the MSc in Global Europe: Culture and Conflict and MSc in Global Europe: Culture and Conflict (LSE & Sciences Po). This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in European Studies (Research), MSc in Global Politics and MSc in Human Rights. This course is available with permission as an outside option to students on other programmes where regulations permit. This is a capped course. Students are required to obtain permission from the teaching department to take this course

Course content: This course will consider problems and practices of ethnic diversity in a world of nation-states including the rights of minorities and migrants, self-determination, ethnic cleansing and genocide, humanitarian intervention, and the role of the media in (de)constructing narratives of difference. In analysing these issues, particular attention will be paid to processes of securitization, desecuritization and security management.

Teaching: 15 hours of lectures and 10 hours of seminars in the MT. 3 hours of seminars in the LT.

Students on this course will have a reading week in Week 6 of MT but in LT there will be seminars scheduled.

Formative coursework: Topic proposal (500 words) and research proposal (2000 words) both due in MT

A more detailed reading list is available from Dr. Jackson-Preece.

Assessment: Essay (80%, 5000 words) in the ST.

Research proposal (20%) in the LT.

The research proposal will take the form of a poster presentation session in the LT.

EU455  Half Unit

Concepts in Political Economy

This information is for the 2018/19 session.

Teacher responsible: Dr Waltraud Schelkies COW 1.06

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPInf/Phd in European Studies, MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The aim of the course is to engage students with relevant concepts in political economy and their main applications in European studies. The course will anchor the degree in historical and current debates about the nature of political economy, the role of institutions and the pros and cons of different methodological approaches taken by political economists. The aim of the lectures is to outline key political economy concepts and their theoretical background while the seminars explore the uses and limits of the respective concepts through the systematic analysis of relevant research papers.

This course is particularly recommended for students who wish to pursue a research path in political economy, but also for those who have no background in political science and therefore not familiar with conceptual debate. Among the topics covered are: concepts and theories in political economy; the role of ideas, interests and institutions; the tension between democracy and capitalism; rational choice versus behavioural political economy; two-level games; delegation to independent agents; accountability and legitimacy in policy-making; veto players and joint-decision traps; representation and partisanship.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One presentation per student. Two formative essays, each of 1,500 words. One of these essays will consist of the analysis of a research paper.

Assessment: Essay (40%, 2000 words) and class participation (10%) in the MT.

Online assessment (50%) in the ST.

The online assessment for this course will be administered via Moodle. A review session will take place in Week 1 of the ST in preparation for this assessment. Assessment questions will be available via Moodle in Week 2 of the ST. Students will answer 2 of 8 questions. Answers to questions will be submitted in Week 5 of the ST.
EU458 Half Unit
Public Policy and Cultural Narratives in a Global Europe

This information is for the 2018/19 session.

Teacher responsible: Dr Joseph Downing COW G.05
Availability: This course is available on the MSc in Conflict Studies, MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Human Rights and MSc in International Migration and Public Policy. This course is not available as an outside option.

This is a capped course. Students are required to obtain permission from the teaching department to take this course.

Course content: This course is concerned with cultural politics in contemporary states. In Europe today there is a growing rejection of multiculturalism and a reaffirmation of cultural cohesion and shared identity. Taking a narrative approach, this course will examine competing policy responses towards minorities and migrants. Europe will be a major focus. Nevertheless, students with interests and expertise outside of Europe should feel free to include this wider perspective in their seminar discussions and assignments.

Teaching: 12 hours of lectures and 12 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are required to submit one policy review and one video proposal.

Assessment: Essay (50%, 2500 words) and other (50%) in the LT. Students will produce a short video in the LT.

EU463 Half Unit
European Human Rights Law

This information is for the 2018/19 session.

Teacher responsible: Dr Kai Moller NAB 7.01
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Human Rights and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This is a capped course (15 students). Students are required to obtain permission from the teaching department to take this course where space permits.

Pre-requisites: No prior knowledge of law in general or human rights law in particular is required.

Course content: The European Convention on Human Rights is an international treaty which was drafted shortly after the end of WW II and came into force in 1953. One of its remarkable features is that individuals who think that their human rights have been violated can take their case to the European Court of Human Rights in Strasbourg, which has the final authority on the interpretation of the Convention. In the past half century, the Strasbourg court has developed a comprehensive jurisprudence on human rights and has become one of the most important and most highly respected human rights courts in the world. This course will offer an introduction to the law of the Convention, in particular by studying and critically analysing the case law on certain important rights. In the final sessions we will take a more abstract perspective and study cutting-edge scholarship on the theory of European human rights law. Topics include: An introduction to the European Convention; Positive and negative obligations in Europe and the U.S and South Africa. The right to freedom of religion and the issues of religious dress (in particular: headscarves and burqas) and religious symbols (in particular: crucifixes in classrooms). The right to freedom of expression and the protection of religious feelings (e.g the Danish cartoons; Charlie Hebdo) and hate speech ( expression that attacks a group on the basis of a characteristic such as race or sexual orientation). The right to private life and the protection of sexual liberty (gay sex, sado-masochism, and incest). The right to vote and freedom of association, ‘militant democracy’, and the issues of banning political parties or preventing individual candidates from standing for election. Freedom from torture and inhuman or degrading treatment and the issue of deportation and extradition. Theories of European human rights law.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One 2,000 word essay.

Indicative reading: There is no formal textbook, but interested students may find the following book helpful: Harris, O’Boyle and Warbrick, Law of the European Convention on Human Rights, 3rd ed, OUP 2015.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

EU464 Half Unit
International Migration: EU Policies and Politics

This information is for the 2018/19 session.

Teacher responsible: Dr Eiko Thielemann CON 3.14
Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in International Migration and Public Policy, MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

This is a capped course. Students are required to obtain permission from the teaching department to take this course.

Pre-requisites: A good knowledge of EU institutions and EU policy-making is required.

Course content: This course examines the management of ‘unwanted migration’ to Europe. In particular, it deals with the European Union’s governance of migratory flows of migrants such as asylum seekers and irregular migrants whose immigration status often seek to prevent or discourage. As the willingness of sovereign states to advance global governance in this area remains very low and unilateral national policy-responses are increasingly seen as limited in their effectiveness, interest in regional governance has grown. The European Union is without any doubt the front-runner in developing such regional initiatives. The course provides an in-depth treatment of the origins, evolution and major policy issues within this policy field which has been the fastest growing EU policy area since the 1990s. The course will normally focus on the following three policy areas: (1) the emerging EU asylum and refugee determination system; (2) border management, detention and deportation; and (3) responsibility allocation (the ‘Dublin system’), burden-sharing and solidarity.

Those taking the course will learn how to systematically examine the origins and impact of EU policy instruments and judgments by the European Courts. After completion, students will be able to
answer questions such as: Why have Member States intensified cooperating on asylum and immigration issues? What is the relationship between international human rights law and EU law? Given the influence of the EU’s supranational institutions, do the Member States still effectively control policies on asylum and immigration? Has EU policy-making lead to a convergence of “lowest common denominator” policies? For their assessment, students will have the opportunity to conduct a case-study analysis, allowing them to apply the analytical skills developed in this course by analysing a specific EU policy of their choice.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** A prospectus for the assessed research project (policy case study).

**Assessment:** Project (90%, 5000 words) in the ST.

Class participation (10%) in the LT. The Project takes the form of a research project (policy case study). It will be due in the first week of the ST.

---

**EU473**

**Half Unit**

**Not available in 2018/19**

**Informal Governance**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Mareike Kleine COW 1.01

**Availability:** This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po) and MSc in Global Politics.

This course is available as an outside option to students on other programmes where regulations permit.

This is a capped course (15 students). Students are required to obtain permission from the teaching department to take this course.

**Pre-requisites:** Students should have some background knowledge about the European Union’s institutions.

**Course content:** The concept, its empirical manifestation, explanations and normative implications. After a review of a burgeoning literature in international relations, comparative politics, and EU studies, we take a closer look at the political system of the EU and other international organizations to examine if and why governments and bureaucrats sometimes follow, and at other times seek a way around them. Where and why do these practices of informal governance exist? What are they more prevalent in some institutional settings and issue areas than in others? Is informal governance a good or a bad thing? This course is about informal governance throughout the world.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce one draft and one final research design by week 8 of the LT.

**Assessment:** Research project (90%) in the ST.

Class participation (10%) in the LT.

Successful participation includes active engagement in class and the production of 8 one-page memos on the weekly assigned readings.

---

**EU465**

**Research Methods and Design in EU Politics**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Waltraud Schellke COW 1.06

**Availability:** This course is compulsory on the MSc in EU Politics and MSc in EU Politics (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The purpose of this course is to acquaint students with general academic skills, to prepare them for the development of a research design and to introduce a range of research methods.

**Teaching:** 4 hours of lectures and 3 hours of workshops in the MT. 4 hours of lectures and 3 hours of workshops in the LT. A total of 4 hours of lectures in both MT and LT. Two 1.5 hour workshops per week in MT and LT.

**Assessment:** This course is not assessed.

**Assessment:** Research project (90%) in the ST.

Class participation (10%) in the LT.

Successful participation includes active engagement in class and the production of 8 one-page memos on the weekly assigned readings.
EU76 Half Unit

**Turkey and Europe**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Eray Caiyl COW 3.12

**Availability:** This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in Global European Studies: Culture and Conflict, MSc in Global Studies and Conflict (LSE & Sciences Po), MSc in History of International Relations, MSc in International Migration and Public Policy, MSc in Social Anthropology (Religion in the Contemporary World) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Muslims are a well-established minority in Europe, constituting approximately 5% of the European population. This course embraces an anthropological approach focuses on diverse experiences of Muslims in different Western European countries, such as the UK, Germany, France where they came as migrants, and in East European countries, such as Bulgaria and Bosnia, where they are indigenous populations. We will especially focus on how Muslim life is shaped by questions fundamental to European politics such as secularism, citizenship, racism, and gender relations. During the course, students will do an interview with a European Muslim and write a paper that analyses the interview in relation to one or more topics covered in class, and prepare a final essay on one of the topics covered in class.

**Teaching:** 20 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Preparatory interview with another student in class and analysis of the interview. Weekly response papers to readings.

**Assessment:** Essay (60%, 3000 words) in the ST.

**Other (40%) in the LT.**

Other assessment worth 40% is an interview project (2000 word report plus 1500 word transcript as appendix).

---

**EU477 Half Unit**

**Labour Markets and the Political Economy of Employment in Europe**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Vassilis Monastiriotis COW 2.05

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Local Economic Development, MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Science and Political Economy, MSc in Urban Policy (LSE and Sciences Po) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** A solid background in economics and knowledge of some basic calculus is required. Attendance of EU409 ‘Basic Economic Concepts for Political Economy’ is highly recommended irrespective of background.

**Course content:** The course offers an analytical treatment of key labour market issues, from unemployment and wage determination to skill formation and labour market regulation, within the context of processes of integration and governance in Europe. To do so, it combines a Labour Economics perspective on imperfect labour markets with a Political Economy perspective on EU institutions and policies. In the lectures, we address analytically policy-making questions on topics such as minimum wages, unions and collective bargaining, unemployment benefits, employment protection legislation, regulation of working hours, migration, and others. These topics are then linked in the seminars to the European policy-making context, and the challenges that this raises for labour market regulation and performance at the national and European levels. Examples of this include: EMU, optimum currency area theory, wage flexibility and internal devaluation; structural unemployment, labour market reforms, the European Employment Strategy and flexicurity; skills shortages, activation policies, European education policy and labour mobility; and others.

**Teaching:** 10 hours of lectures, 15 hours of seminars and 2 hours of related current affairs.

**Assessment:**
- Essay (60%, 3000 words) in the LT.
- Essay (20%, 3000 words) in the LT.
- Duration of student presentation is 15 minutes.

---

**Indicative reading:**
- Zurcher, Eric J. 2004, Turkey: A Modern History;
- Ozurek, Esra. 2006, Nostalgia for the Modern;
- Cihan. 2010, The Silent Revolution;
- White, Jenny. 2012, Muslim Life in Twenty-first Century Turkey: The Other Side of Tolerance;

---

**Assessment:**
- Presentation (20%) in the MT.
- Essay (80%, 3000 words) in the LT.
- Duration of student presentation is 15 minutes.

---

**EU76 Half Unit**

**Assessment:**
- Presentation (20%) in the MT.
- Essay (80%, 3000 words) in the LT.
- Duration of student presentation is 15 minutes.
of workshops in the LT. 1 hour of lectures and 1 hour and 30
minutes of seminars in the ST.
The course will have 10 1-hour lectures and 1.5-hour seminars
in weeks 1-5 and 7-11. In week 6 students will make poster
presentations on a preliminary draft of their group essay.

Formative coursework: Students will be expected to produce 6
problem sets and 2 other pieces of coursework in the LT and 1
presentation in the Week 6.

Formative assessment comprises a weekly set of problem sets
/exercises; brief oral presentations on pre-allocated readings in
the seminars; a poster presentation on a group project during the
week-6 workshop, and submission of a draft / extended outline of
the group project (following the poster presentation).

Indicative reading:

Assessment: Exam (50%, duration: 2 hours) in the summer
exam period.
Project (50%, 4000 words) in the LT.
Summative assessment comprises a group project (50% of the
final mark; approx. 4,000 words, excluding tables and appendices),
due one week after the end of Lent Term, and a two-hour exam in
June (50% of the final mark, comprising one essay question and
four short-answer questions).

EU479 Half Unit Not available in 2018/19
EU Policy-Making and International Cooperation

This information is for the 2018/19 session.
Teacher responsible: Dr Waltraud Schekik OOW 1.06

Availability: This course is available on the MPA Dual Degree
(LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA
Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences
Po), MPA Dual Degree (LSE and Tokio), MPA in International
Development, MPA in Public Policy and Management, MPA in
Public and Economic Policy, MPA in Public and Social Policy, MPA
in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and
Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in
Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in
Political Economy of Europe, MSc in Political Economy of Europe
(LSE and Sciences Po) and Master of Public Administration. This
course is not available as an outside option.

Pre-requisites: Knowledge of economics at the undergraduate
level is required but students get this from other courses in the
programme.

Course content: This course introduces students to policy-
making in the European Union. The EU is a standard and rule-
setter beyond Europe and thus raises relevant questions of
governance, sovereignty and integration for other parts of the
world. Students learn who in the EU sets the agenda, who decides
and how implementation and compliance is enforced. This will be
applied to major areas of EU policy-making, such as trade in
the Single Market, financial regulation and environmental protection.
Presentations by practitioners involved in EU policy-making give
students insights into the work of lobbyists, advisors and officials.
Teaching is based on interactive seminars. The policy case
studies are taught by specialists in a particular policy area and are
complemented with group working sessions by the students.

1. Integration and disintegration in Europe
2. Is state sovereignty possible in the 21st century? Two level
games in the European Union
3. EU Politics & Policy-making I: Who sets the agenda?
4. EU Politics & Policy-making II: Who decides?
5. EU Politics & Policy-Making III: Implementation and compliance
6. Reading week: formative essay
7. When, where and why are international institutions effective?
8-9. Policy analysis: from international negotiations to EU
institutions and common policies
• Environment – new thinking for a good old planet
• Finance – regulatory models for too big and interconnected to fail
The course introduces students to policy-making in the European Union (EU), to be prepared during reading week.

### Formative coursework

**Formative coursework:** Formative essay on policy-making in the EU, to be prepared during reading week.

### Indicative reading

### Assessment

**Assessment:** Essay (100%, 5000 words) in the MT.

Summative essay of 5,000 words, based on group work but to be written up individually after presentation in class and feedback from course teacher.

---

**EU480 Half Unit Not available in 2018/19 Policy-Making in Europe: System Challenges**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Sara Hagemann

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po) and Master of Public Administration. This course is not available as an outside option.

This course has controlled access and priority will be given to students on the MPA in European Public and Economic Policy, followed by all other MPA students.

**Pre-requisites:** Knowledge of economics at the undergraduate level is required but students get this from other courses in the programme.

**Course content:** This course introduces students to policy-making in Europe, with an emphasis on how diversity and interdependence of nation states affect it. The starting point is the tension inherent in capitalist democracies: political power is more equally distributed than economic power. We ask whether interstate and supranational cooperation attenuate or aggravate this tension in its various guises. A number of crises provide a lens through which students will look at the robustness of cooperative institutions and the repercussions on national democracies.

Teaching is based on interactive seminars. Lecture elements are complemented with group work by the students on different country cases. Panel discussions, by practitioners and by students, give insights into the different perspectives that have to be reconciled in crisis management. Students will organise a summit with stakeholders on two instances of collective crisis management.

**Sessions (indicative):**

1. How can democracy and capitalism be reconciled? European answers in the post-war era
2. Market forces and failures: supranational technocracy to the rescue?
3. Europeanisation in a diverse Union: the limits to governance?
5. Interest representation in the EU [Guest speaker]
6. Reading week: capstone-related work
7. Euro area crisis management: the Troika and national government
8. Populist and nationalism
9. Migration and the security scare [panel discussion of practitioners in the field]
10. Failed and failing states in Europe's neighbourhood
11. EU crisis management on trial

**Teaching:** 20 hours of seminars in the MT.

During reading week, extended assistance for capstone related work is made available.

**Formative coursework:** The formative essay in weeks 4-5 gives students skills in comparative and critical case study design that is relevant for policy evaluation.

**Indicative reading:**

**Assessment:** Essay (100%, 5000 words) in the ST.

Summative essay of 5,000 words, based on group work but to be written up individually after moot court and feedback from class as well as course teacher.

---

**EU481 Half Unit The Future: Political Responses to a Challenge**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof. Jonathan White COW 1.09

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Politics, MSc in Political Sociology and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The future is unknowable, but it can be made intelligible. It raises practical and conceptual problems, as well as reasons for conflict, but also promises to resolve contradictions. This course examines how the future is conceptualised in salient domains of contemporary politics, the implications arising for theory and practice, and the contestable assumptions on which perspectives rely. It investigates the methods by which the future is ordered, anticipated, and factored into the practice of government. The course begins historically, looking at the future as an emerging
Theme in eighteenth-century European Enlightenment thought, the socio-cultural developments that prompted this, and some of the key features of its thematisation in the high-modern period. It goes on to examine future-oriented ideas, ideologies and practices as they arise in contemporary settings. The three fields of administration, economy and society are considered in turn. Amongst the areas examined are: the changing time horizons of political institutions; risk analysis and emergency planning; state budgeting; debt and accumulation; demographic forecasting; climate change and sustainability; the contested rights of future generations; and the preservation of cultural heritage. The course should provide students with a cross-disciplinary grasp of how present-day public affairs are shaped by the ways the future is conceived and acted upon.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:**
- One 2000-word essay, written in response to two of eight questions. This timed assessment will be administered via Moodle.
- A class presentation, on which students will receive one-to-one feedback.

**Indicative reading:**

**Assessment:** Online assessment (100%) in the ST.

The online assessment for this course will be administered via Moodle. A review session will take place in Week 1 of the ST in preparation for this assessment. Assessment questions will be made available via Moodle in Week 2 of the ST. Students will answer 2 of 8 questions. Answers to questions will be submitted in Week 5 of the ST.

---

**EU484 Half Unit**

**Europe's Role in Global Migration Governance**

This information is for the 2018/2019 session.

**Teacher responsible:** Dr Natasha Zanu COW 1.10

**Availability:** This course is available on the MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po) and MSc in International Migration and Public Policy. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course provides an overview of Europe's role in global migration governance. The course will address different aspects in this regard, including the externalisation of EU and European Member States' migration policies, bilateral and multilateral agreements with third countries, cross-references between regional bodies of integration as well as regional/international courts and Europe's cooperation with international organisations such as the International Organization for Migration (IOM) and the United Nations High Commissioner for Refugees (UNHCR). Students will be equipped with a variety of theories to analytically assess these areas of European activity, including theoretical frameworks such as venue-shopping, diffusion and securitisation.
Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.

Students will receive written and oral feedback on their formative essays shortly after their submission so they can improve their writing and argumentative skills throughout the course and apply the feedback they have received for the first essay already to the second one. In addition, students will get immediate feedback on media presentations and classroom debates.

Formative coursework: Formative coursework consists in regular (i.e. weekly) participation in the Moodle debate; the submission of one essay of 1,500 words on a given topic, due in week 4 and the submission of a mock exam (answering two out of eight questions with 1,000 words per question) in week 9.

Indicative reading:
- Betts, A./Milner EU COMPAS pp.
- Lavenex, S. and Uçarer Lanham
- Thouez, C. and Channac pp.

Assessment: Presentation (10%) in the MT.

Online assessment (90%) in the ST.

The online assessment for this course will be administered via Moodle. A review session will take place in Week 1 of the ST in preparation for this assessment. Assessment questions will be made available via Moodle in Week 2 of the ST. Students will answer 2 of 8 questions. Answers to questions will be submitted in Week 5 of the ST.

EU499 Dissertation

This information is for the 2018/19 session.

Teacher responsible: All teachers of taught courses within the European Institute.

Availability: This course is compulsory on the MSc in European Studies (Research), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in International Migration and Public Policy, MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is not available as an outside option.

Course content: Students are required to write a 10,000-word dissertation on a topic within the field of their chosen programme. Those seeking further guidance on topic selection should approach their Academic Advisor in the first instance. The dissertation need not be an account of original research - in some cases it will rely exclusively on secondary sources - but it should be the product of work done independently by the student.

In preparation for the dissertation, students must submit Dissertation Topic Proposal and a Dissertation Prospectus. Failure to submit the required documents and to complete the research ethics review checklist will result in the student not being able to submit the Dissertation. Following the submission of the Dissertation Topic Approval Form, a student will receive notification in writing from the EI’s Programmes and Events Office as to whether it has been finally approved or not - a student cannot progress to the submission of the dissertation without such approval. Students are strongly advised to attend the relevant methodology course for their programme on how to conduct research and write a dissertation. Detailed information on timing, deadlines and presentation can be found in the EU499 Moodle page. Students are required to read any additional information relevant to their particular programme.

Teaching: Students taking MSc in European Studies (Research), MSc in Political Economy of Europe and MSc in Global Europe: Culture and Conflict are expected to attend EU410 Interdisciplinary Research Methods and Design. Students taking MSc in International Migration and Public Policy are expected to attend SO476 Researching Migration: Research Questions and Research Methods.

Formative coursework: A written essay (prospectus) is required as part of the approval process.

Assessment: Dissertation (100%, 10000 words) post-summer term.

EU4A1 Half Unit
The Politics and Policies of 'Brexit': The UK's changing relationship with the European Union

This information is for the 2018/19 session.

Teacher responsible: Prof Kevin Featherstone COW 2.02 and Prof Antony Travers CON 6.06

Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Political Economy of Europe and MSc in Political Economy of Europe (LSE and Sciences Po). This course is available with permission as an outside option to students on other
programmes where regulations permit.

Course content: This course will provide students with a critical understanding of the key issues underlying the agenda of the UK's intended exit from the European Union ('BREXIT'). In doing so, it will place the case in its appropriate historical context (the UK's previous relations with the EU) and it is intended that the course will continue beyond the point at which the UK ceases to be an EU member. At this stage, the EU will continue to have an important, although different, role in the UK's political economy. The course will adopt a broad disciplinary perspective - covering the political, political sociology, political economy, constitutional, and foreign policy/external relations dimensions. As such, it will place the key issues within the relevant theoretical and conceptual debates. While 'BREXIT' is a dynamic and uncertain agenda, it prompts a series of challenges to existing knowledge that demand critical analysis of the emerging empirical evidence and modelling.

The following is an indicative outline of each week's topics. Note that the seminar questions differ for the UG and MSc students.

1. Placing 'BREXIT' in historical context: the UK's post-1945 relations with the rest of Europe.
   a. What was 'BREXIT' a symptom of? How far are these conditions found elsewhere?
2. Generation 'BREXIT':
   a. Are differing attitudes towards 'BREXIT' amongst the young, evidence of an electoral turning point? What are the implications?
   b. Why has Europe proved a problem for the Conservatives?
3. Differences visions: Party politics and 'BREXIT':
   a. Why was 'BREXIT' so difficult?
   b. What might a 'LEXIT' mean?
4. The UK constitutional order and 'BREXIT':
   a. What are the implications of 'BREXIT' for the UK Parliament and the devolved governments?
5. Managing 'BREXIT': the impact on Whitehall
   a. What challenges are posed from 're-patriating' policies such as immigration, agriculture, industrial strategy?
   b. Managing secession: the EU and its external ties in Europe
   a. Why is 'BREXIT' so difficult?
   b. What are the implications for the EU?
6. The macro-economic implications of 'BREXIT':
   a. What is the likely impact on the City?
   b. What are the implications for the EU?
7. The micro-economic implications of 'BREXIT':
   a. What are the implications for the UK's industrial strategy / and labour market?
8. How significant are the opportunities and threats for the UK?
   a. What are the implications for CFSP and defence cooperation?
9. The implications for the City?
   a. What are the implications for the EU?
10. Options and dynamic replication
   a. What is the likely impact on the City?
   b. What are the implications for the EU?

Assessment: The LSE project: 'Generation BREXIT'.

Summative assessment is guided by a prior formative essay and group presentations, allowing scope for breadth, as well as the original investigation of a specific, challenging policy issue. Assessments foster communication skills; group collaboration; investigative information-gathering and evaluation; the ability to originate, design and implement a full policy paper. The scheduling of work with an early formative essay facilitates timely feedback; the drafting of a policy paper and the discussion with the Tutor provides support before its implementation; the later submission of the policy paper allows the student to create and deliver a paper with some original investigation and evidence.
FM403 Management and Regulation of Risk

This information is for the 2018/19 session.
Teacher responsible: Mr Domingos Romualdo
Availability: This course is compulsory on the MSc in Risk and Finance. This course is not available as an outside option.
Course content: This course is designed to expose students to the breadth of risk management thinking and approaches across different areas. The course material is divided into the following areas:

Section A. Risk and Regulation - Introduction and Overview:
Sets out the problem of risk management and regulation. It formulates a general conceptual framework that can be used in devising solutions to risk either as a management problem or as a regulatory problem, or both.

Section B. Financial Market and Regulation - Discusses the role of regulation in the financial sector, bank competition and moral hazard, distinguishes prudential regulation of banks and the regulation of insurance and pensions; the tools of microprudential regulation; the challenges of assessment of systemic risk and macroprudential regulation.

Section C. Financial Risk Analysis - Examines issues in financial risk including risk and regulation in the insurance markets; tools of financial risk management, including diversification, hedging and capital provisions; risk measurement for financial instruments (market risk, value at risk); credit risk, ratings and credit derivatives; operational and business risk.

Section D: Strategy, Control and Risk in Organisations - Provides a strategic management perspective on risk analysis and management, including an examination of strategic visioning. Also considers: issues of enforced self-regulation as a method of risk management with reference to occupational health and safety regulation; risk management and decision making in organisations; enterprise-wide risk management and auditing.

Section E: Risk Analysis and the Psychology of Risk Bearing - Explores the meaning of risk as perceived by different agents; methods of dealing with risky situations; analysis of risk taking by groups; behavioural analysis of financial risk taking.

Section F: Possible Specific areas of risk analysis - 1) Liquidity and operation risks in exchanges; 2) Counter-party risks in the OTC markets, potential triggers for market failure; 3) Legal analysis of risk, conditions when legal risk exists and how it can be mitigated, legal tools to influence conduct.

Teaching: 22 hours of lectures in the MT. 22 hours of lectures in the LT. 12 hours of case discussion and classes, and 10 hours of practitioner seminars across MT and LT.

Formative coursework: Students will be given weekly problem set assignments.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

FM404 Half Unit Forecasting Financial time Series

This information is for the 2018/19 session.
Teacher responsible: Dr Andrea Tamoni
Availability: This course is available on the MSc in Accounting and Finance, MSc in Finance and Economics, MSc in Finance and Private Equity, MSc in Finance and Private Equity (Work Placement Pathway), MSc in Financial Mathematics, MSc in Quantitative Methods for Risk Management, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Quantitative Methods for Finance and Risk Analysis (FM442). The first half of FM437 Financial Econometrics, or alternatively FM442 Quantitative Methods for Finance and Risk Analysis, is a required prerequisite. Students who can demonstrate comparable background may be granted an exemption from this requirement.

Course content: This course will examine the techniques involved with forecasting key variables in finance, and how to incorporate model uncertainty into financial forecasts. Students will learn both the theory and the practice of forecasting in finance.

• The following topics will be covered: introduction to time series analysis; Maximum Likelihood Estimation (MLE), and MLE based model selection; Bayesian inference, posterior probabilities, and Bayesian Model Averaging; Markov Chain Monte Carlo methods; Present value regressions; Multivariate models and Bayesian Vector Autoregressions; Cointegration, Asset pricing and the Generalized Method of Moments (GMM), Dynamic factor models and their connection with principal components; Introduction to Machine Learning and Finance.

Additional information can be found on Moodle (for current students)

Teaching: 20 hours of lectures, 10 hours of classes and 10 hours of computer workshops in the LT.

Formative coursework: Regular problem sets.

Indicative reading: Lecture notes will be provided, and some journal articles may also be used.

Assessment: Exam (90%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Coursework (10%).

Summative coursework during term time teaching in LT.

FM405 Half Unit Fixed Income Securities and Credit Markets

This information is for the 2018/19 session.
Teacher responsible: Dr Peter Kondor
Availability: This course is available on the MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway), MSc in Finance and Private Equity and MSc in Finance and Private Equity (Work Placement Pathway). This course is not available as an outside option.

Course content: This course will examine the techniques involved with forecasting key variables in finance, and how to incorporate model uncertainty into financial forecasts. Students will learn both the theory and the practice of forecasting in finance.

• The following topics will be covered: introduction to time series analysis; Maximum Likelihood Estimation (MLE), and MLE based model selection; Bayesian inference, posterior probabilities, and Bayesian Model Averaging; Markov Chain Monte Carlo methods; Present value regressions; Multivariate models and Bayesian Vector Autoregressions; Cointegration, Asset pricing and the Generalized Method of Moments (GMM), Dynamic factor models and their connection with principal components; Introduction to Machine Learning and Finance.

Additional information can be found on Moodle (for current students)

Teaching: 20 hours of lectures, 10 hours of classes and 10 hours of computer workshops in the LT.

Formative coursework: Regular problem sets.

Indicative reading: Lecture notes will be provided, and some journal articles may also be used.

Assessment: Exam (90%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Coursework (10%).

Summative coursework during term time teaching in LT.
The course is not available as an outside option.

**Pre-requisites:** Students must have completed either Asset Markets (FM423) and Corporate Finance (FM422) or Financial Economics (FM436)

**Course content:**
- Interest rate modelling and derivatives
- Credit risk
- Credit derivatives and risk management

This course provides a thorough grounding in recent developments in fixed income securities pricing, hedging and portfolio management.

By the end of the course, the students will be familiar with the fixed income state of the art business practice and a variety of topics including (i) an analysis of the main products traded in the credit markets, such as Government and corporate bonds, bond options, swaps, caps, floors, swaptions, callable, puttable and convertible bonds, and an analysis of the main credit derivatives such as total-return swaps, spread options and credit default swaps; (ii) the specific tools used in the industry practice to evaluate and hedge these products, which range from no-arbitrage trees and the calibration of yield curve derivatives to the main tools used to monitor and manage credit risk; (iii) the process of securitization, with particular reference to collateralized default obligations and mortgage-based securities.

**Teaching:** 30 hours of lectures in the LT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive.

**Indicative reading:** The primary source for this course is a comprehensive set of Lecture Notes, tutorials and case studies and the main reference is Pietro Veronesi: Fixed Income Securities, (Wiley 2010).

**Assessment:** Exam (80%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Coursework (20%) in the LT.

---

**FM407  Half Unit**

**Mergers, Buyouts and Corporate Restructurings**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Vicente Cuñat

**Availability:** This course is available on the MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance and Private Equity and MSc in Finance and Private Equity (Work Placement Pathway). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).

**Course content:**
- Financial Analysis of Firms and Corporate Transactions
- Mergers, Acquisitions and Leveraged Buyouts
- Distress, Bankruptcy and Corporate Restructuring

This course covers advanced topics in Corporate Finance. It focuses on the strategy, valuation and execution of corporate deals. In particular, the first part of the course covers mergers, divestitures, partial-divestitures (e.g. equity carve outs) and leveraged buyouts. The second part of the course provides a framework of analysis for the resolution of financial distress and bankruptcy. Each of the topics introduced in this course provides both institutional details and results of relevant academic research. It is further supported by case studies and practitioner talks.

**Teaching:** 30 hours of seminars in the LT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive.

**Formative coursework:** Regular coursework will be completed, handed in and marked as part of formative assessment for this course.

**Indicative reading:** A course pack will be distributed that includes case studies as well as additional readings such as textbook chapters, and practitioner articles.

**Assessment:** Exam (70%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Coursework (30%) in the LT.
This course provides a thorough grounding in the theory and practice of financial engineering. The emphasis is on the application of derivatives pricing and hedging methodology to equity and volatility derivatives and to structured products. The course aims to cover the basics in derivatives theory, and to apply them to a multitude of financial securities and structured products, with a special emphasis on recent products in the equity and volatility derivative worlds. We review selected case studies in order to gain a better understanding of their practical usage. We also implement the models numerically in R and VBA.

**Teaching:** 30 hours of lectures in the LT. This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive.

**Assessment:** Exam (70%, duration: 2 hours) in the summer exam period. Project (30%) in the LT.

---

**FM409  Half Unit  Risk Management in Financial Markets**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Christian Juliard

**Availability:** This course is available on the MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway), MSc in Finance and Private Equity and MSc in Finance and Private Equity (Work Placement Pathway). This course is not available as an outside option.

**Pre-requisites:** Students must have completed either Asset Markets (FM423) and Corporate Finance (FM422) or Financial Economics (FM436)

**Course content:**

- Hedging in equity and fixed income markets
- Market Risk, Value at Risk and Expected Shortfall
- Endogenous Risk and Limits to Arbitrage
- Credit risk and structured products

The aim of this course is to offer an introduction to the analysis and management of risk within financial markets. The course develops a conceptual framework for thinking about financial risk and shows how these concepts are implemented in practice in a variety of contexts. First, the course offers an overview of risk management in the context of portfolios of fixed income securities and derivatives. Next, we discuss the implementation and the merits of Value at Risk measures. We will spend some time on endogenous risk and limits to arbitrage. In the context of credit risk we will cover ratings based and structural models, as well as credit risk on portfolios and credit derivatives. A final topic covers regulation and the recent credit crisis. Throughout, the course spends a significant amount of time on practical applications of the theories that are introduced. Some limitations of current approaches are also discussed.

**Teaching:** 30 hours of lectures in the LT. This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive.

**Formative coursework:** Problem sets. In addition, students will have the opportunity to present the results of a case study to the class.

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period. Coursework (5%) and presentation (5%) in the LT.

---

**FM410  Half Unit  Private Equity**

*This information is for the 2018/19 session.*

**Teacher responsible:** Prof Ulf Axelson

**Availability:** This course is compulsory on the MSc in Finance and Private Equity and MSc in Finance and Private Equity (Work Placement Pathway). This course is not available as an outside option.

**Course content:**

- Evaluating and executing Private Equity Deals
- Business Plans, Venture Capital, and Entrepreneurial Finance
- Private Equity as an asset class and the private equity landscape

This course provides a thorough grounding in the theory and recent developments in the field of private equity. Starting by examining how private equity funds are raised and structured the course will examine how private equity can be used in start-ups, in scaling-up cash flow businesses, and in restructuring firms facing financial distress. The course explores the link between private and venture capital on the one hand and public securities markets on the other. The course will examine the process through which private equity investors exit their investments. The course will also give a detailed analysis of the types of finance used in private equity and an evaluation of the short and long-run performance of private equity investments. The course will include an evaluation of the performance of different types of private equity investment and a comparison with other forms of ownership will be undertaken.

This course takes a rigorous theoretical examination of private equity. It also employs some case study teaching and is taught in conjunction with a range of practitioners in the field.

**Teaching:** 30 hours of lectures and 30 hours of seminars in the LT. This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive.

**Formative coursework:** Each week there will typically be a formative case study assignments (similar to summative cases). Students will also be given formative feedback on their class participation.

Coursework (20%) and class participation (20%) in the LT.

Teacher responsible: Dr Vasanttilak Naik

This information is for the 2018/19 session.

Designated as: Teaching only option.

Availability: This course is available on the Global MSc in Management, MSc in Accounting and Finance, MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance (part-time), MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway), MSc in Finance and Private Equity, MSc in Finance and Private Equity (Work Placement Pathway) and MSc in Risk and Finance. This course is not available as an outside option.

Global MSc in Management (Accounting and Finance concentration only).

This course is not available as an outside option.

Pre-requisites: Some familiarity with finance and accounting.

Course content: This course is an applied course on quantitative analysis of investment opportunities in public debt and equity markets. We consider valuation of macro assets (such as government bonds, and diversified portfolios of equities and corporate bonds) as well as the valuation of equities of individual firms and of their risky debt. We rely on theoretical concepts that students have learnt in their core courses (such as the CAPM, no-arbitrage pricing of option and models of corporate debt as contingent claims on a firm’s asset) and also examine in depth the historical behaviour of asset returns. The focus is on applying theoretical and empirical models of asset markets to evaluate investment opportunities in realistic, sometimes, live situations.

The course involves in-class analysis of investment questions, extensive analysis of financial data, study of financial statements and analyst reports and two projects. The course is structured around the following topics:

1. Valuation of macro assets I: Global Yield Curves
2. Valuation of macro assets II: Global Equity Indices
3. Valuation of macro assets III: Volatility and Credit Risk Premium
4. Identifying value in individual equities: capturing breadth via quantitative screening systems
5. Digging deep in search of value: case studies on firm-level equity valuation
6. Fair value of growth
7. Valuing single name credit opportunities: investment-grade and high-yield debt
8. Valuation of the capital structure of banks

Teaching: 30 hours of seminars in the LT.

Formative coursework: Students will be expected to complete 2 group projects. In the first project, students analyse and value the equity of a publicly traded firm, evaluate its risks and make an investment recommendation. This project is done in two parts: first part focuses on a historical performance analysis of the chosen firm and second on a forward-looking valuation analysis. The second project requires the students to study and critically examine the investment decisions and style of a well-known value investor.

Indicative reading: Books

Academic Articles (Equities)

Academic Articles (Risky debt)

Insights from theoretical models: based on articles such as

Numerous articles written by well-known practitioners and policy makers

Assessment: Project (50%) in the LT.

In-class assessment (50%).

FM413 Half Unit

Fixed Income Markets

This information is for the 2018/19 session.

Teacher responsible: Dr Andrea Tamoni

Availability: This course is compulsory on the MSc in Financial Mathematics. This course is available on the Global MSc in Management, MSc in Accounting and Finance, MSc in Finance and Economics (Work Placement Pathway), MSc in Risk and Finance, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is not available as an outside option.

Global MSc in Management (‘Accounting and Finance’ and ‘Finance’ concentrations only).

This course is available with permission on the Diploma in Accounting and Finance with the approval of the Programme Director.

This course is available to other students from the Departments of Economics, Mathematics, and Statistics where regulations permit.

This course is not available as an outside option.

Pre-requisites: Students taking this course are expected to be familiar with the theory of asset evaluation at the level of FM429 Asset Markets A.

Course content: This advanced course is designed for students seeking an understanding of fixed income valuation and hedging methods, and a basic familiarity with the major fixed income markets and instruments.

By the end of the course, the students will be familiar with a variety of topics, including (i) the basic concepts of fixed-income instruments, such as yield, duration, convexity; (ii) the basic techniques to analyse and hedge fixed income products, such as “curve fitting”, “bootstrapping”, duration-based hedging and asset-liability management; (iii) the forces, or “factors”, driving the variation in the entire spectrum of interest rates at different maturities; (iv) the main evaluation tools, which can be applied to evaluate a wide range of products (trees, no arbitrage trees, calibration and some continuous time models); (v) the main fixed income products such as government bonds, corporate bonds (convertible, callable, puttable), and their evaluation; (vi) plain vanilla interest derivatives (caps, floors and collars, swaps, swaptions, etc.) and their evaluation; (vii) mortgage backed securities and credit risk transfers; (viii) the analysis of the ‘destabilizing’ effects related to the use of certain derivatives written on fixed income instruments.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 10 problem sets in the LT.

Indicative reading: The primary source for this course is a comprehensive set of Lecture Notes, tutorials and case studies, and a reading pack containing chapters from the following
FM414  Half Unit
Corporate Investment and Financial Policy

This information is for the 2018/19 session.
Teacher responsible: Prof Daniel Ferreira
Availability: This course is available on the MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance and Private Equity and MSc in Finance and Private Equity (Work Placement Pathway). This course is not available as an outside option.
Pre-requisites: Students must have completed Asset Markets (FM423) and Corporate Finance (FM422).
Course content:
• Supporting the firm’s strategy with Long-term and short-term financial management
• Real options and strategic investment decisions
• Family firms, IPOs, and corporate governance
• Risk management, International valuation, and currency exposure

This is a case-based course aimed at deepening the understanding of how to apply corporate finance concepts in a wide variety of business situations. In particular, we will try to build on concepts in business strategy, valuation techniques, and capital structure theories covered in previous courses, and see how to apply those tools in a systematic and rigorous way when approaching complicated real-life corporate finance problems. Examples of topics include working capital management, capital structure, risk management, real options, initial public offerings, international corporate finance, and family firms. Students will have to read up on cases before class and be prepared to discuss them interactively in class.
Teaching: 30 hours of seminars in the LT.
This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive.
Formative coursework: 5 formative case study assignments (similar to summative cases).
Indicative reading: Berk and DeMarzo, “Corporate Finance”. Around 10 case studies. A number of related scientific articles
Assessment: Exam (70%, duration: 2 hours) in the summer exam period.
Coursework (10%) and class participation (10%) in the LT.

FM421  Half Unit
Applied Corporate Finance

This information is for the 2018/19 session.
Teacher responsible: Dr Ashwini Agrawal
Teachers on this course will be Dr Ashwini Agrawal and Dr Pedro Saffi, who will each teach different streams of the same course.
Availability: This course is available on the Global MSc in Management, MSc in Accounting and Finance, MSc in Econometrics and Mathematical Economics, MSc in Economics and Management, MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway) and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.
Students on the Global MSc in Management (‘Accounting and Finance’ and ‘Finance’ concentrations only), MSc in Econometrics and Mathematics Economics, MSc Economics, MSc Economics (Two Year Programme), and MSc in Economics and Management may take this course only if they have fulfilled the compulsory prerequisites.
Students may only take this course if they have taken at least one of the following courses in Michaelmas Term: FM473M Financial Markets, FM474M Managerial Finance or FM431M Corporate Finance A.
There will be no exceptions to this rule.
Pre-requisites: This is an advanced applied course and a thorough understanding of the major theoretical issues and concepts is required.
Students on the MSc in Econometrics and Mathematics Economics, MSc in Economics and Management, MSc in Management and Strategy may take this course if they have fulfilled the compulsory prerequisites. These students may only take this course if they have taken at least one of the following courses in Michaelmas Term: FM473M Financial Markets, FM431M Corporate Finance A.
Course content: This course provides a broad introduction to the key issues in corporate finance. The first half of the course, the Financing Module, investigates how companies should finance their activities by issuing securities (debt, equity and convertible claims) and the interaction of business policy with financial policy. The aim is to understand what factors determine optimal capital structure and how the interplay of these factors can affect financing decisions in a way that creates value. The second half of the
course, the Valuation Module, covers firm and project valuation and establishes how companies should select among investable assets. The module focuses on fundamental valuation techniques based on discounting future cash flows. The course goes on to introduce further valuations methods, such as real options analysis, as well as key applications of valuation concepts to major corporate decisions such as mergers and acquisitions and initial public offerings. The course interweaves key conceptual material with a series of cases.

**Teaching:** 60 hours of lectures in the MT.
This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

**Formative coursework:** Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

**Indicative reading:** The recommended textbooks for this course are Berk and DeMarzo, Corporate Finance and Higgins, Analysis for Financial Management. Other recommended readings from relevant journal articles will be included in a study pack.

**Assessment:** Exam (80%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.
In class assessment (10%) and in class assessment (10%) in the MT.

---

**FM423 Asset Markets**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Dong Lou and Dr Igor Makarov

**Availability:** This course is compulsory on the MSc in Finance (full-time), MSc in Finance and Private Equity (Work Placement Pathway), MSc in Finance and Private Equity and MSc in Finance and Private Equity (Work Placement Pathway). This course is not available as an outside option.

**Pre-requisites:** Aimed at people with a good undergraduate degree and good quantitative skills, with some knowledge of economics.

**Course content:**
- Investments and Securities Valuation
- Portfolio choice and performance evaluation
- Derivatives

The aim of the course is to familiarize students with the workings of financial markets, and equip them with the fundamental tools of asset valuation. The course will focus on the three main asset classes - fixed income, stocks, and derivatives - giving a unified perspective of modern valuation methods. The starting point will be the present value formula. The course will then proceed to fixed-income securities, focusing mainly on government bonds. These will be valued off the term structure of interest rates, using the present value formula. The connection with the principle of no-arbitrage will be emphasized. The course will then move to stocks, starting with portfolio theory and then deriving the relation between risk and return (CAPM). The CAPM will provide a risk-adjusted discount rate that will be used to discount stocks' cash flows with the present value formula. Alternative pricing models such as the APT and multi-factor models will also be covered, and the models will be applied to issues of asset allocation and portfolio selection. The last topic will be derivatives, especially futures and options. After familiarizing students with the use of derivatives, the course will cover the main valuation methods (binomial model, Black-Scholes) emphasizing again the principle of no-arbitrage.

**Teaching:** 20 hours of lectures in the MT.
This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

**Formative coursework:** Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

---

**Indicative reading:** The organisation of topics of the course follows closely the treatment in Berk and DeMarzo, Corporate Finance, 3rd Global Edition, Pearson International, and Bodie, Kane, and Marcus, Investments, 10th Edition, McGraw Hill. Other recommended readings and case studies will be included in a study pack.

**Assessment:** Exam (80%, duration: 3 hours, reading time: 10 minutes) in the summer exam period.
In class assessment (10%) and in class assessment (10%) in the MT.

---

**FM429 Half Unit Asset Markets A**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Georgy Chabakauri

**Availability:** This course is available on the Global MSc in Management, MSc in Accounting and Finance, MSc in Applicable Mathematics, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Financial Mathematics, MSc in Real Estate Economics and Finance, MSc in Risk and Finance, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is not available as an outside option.

**Global MSc in Management (Accounting and Finance Concentration only)**
This course is available with permission on the Diploma in Accounting and Finance with the approval of the Programme Director.

This course is available to other students from the Departments of Mathematics and Statistics where regulations permit.

This course is not available as an outside option.

This course cannot be combined with FM473 Financial Markets or FM474 Managerial Finance.

Outside students should consider the alternative option of FM473 Financial Markets or FM474 Managerial Finance.

**Pre-requisites:** Basic Mathematics and Statistics knowledge. The course is self-contained but it covers a broad set of topics. Some prior knowledge of economics, finance and accounting is advised.

**Course content:** This course aims to equip students with the fundamental concepts and tools underlying the asset markets side of modern finance. The course covers asset markets and valuation. The valuation of fixed-income securities is covered first, followed by the valuation of stocks, and derivatives such as futures and options. Concepts emphasized include the present-value formula, valuation by arbitrage, portfolio theory, the CAPM, market efficiency, and binomial and Black-Scholes models.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the MT.

**Formative coursework:** Weekly problem sets covered in classes.

**Assessment:** Exam (100%, duration: 1 hour and 30 minutes, reading time: 10 minutes) in the summer exam period.
Please note this exam is the half unit version of the examination taken on FM430 Corporate Finance and Asset Markets. Any student who takes both FM429 and FM431 will be re-registered to sit the FM430 full-unit exam paper in Summer Term.

---

**FM430 Corporate Finance and Asset Markets**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Georgy Chabakauri

**Availability:** This course is available on the MSc in Accounting and
Finance, MSc in Econometrics and Mathematical Economics, MSc in Financial Mathematics, MSc in Real Estate Economics and Finance and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Basic Mathematics and Statistics knowledge. The course is self-contained but it covers a broad set of topics. Some prior knowledge of economics, finance and accounting is advised.

Course content: This course aims to equip students with the fundamental concepts and tools underlying modern finance, both in the asset markets and the corporate finance side. Provides a foundation for subsequent courses offered by the Department. In the Michaelmas Term, the course covers asset markets and valuation. The valuation of fixed-income securities is covered first, followed by the valuation of stocks, and derivatives such as futures and options. Concepts emphasized include the present-value formula, valuation by arbitrage, portfolio theory, the CAPM, market efficiency, and binomial and Black-Scholes models. In the Lent Term, the course covers corporate finance. This part starts with capital budgeting techniques, in relation to CAPM and other valuation instruments. The course then proceeds identifying the driving forces behind capital structure decisions and choices over debt and equity finance. Special consideration is given to the tax implications of those choices, the possible costs of financial distress, the incentive implications of financial decisions and the signalling impact of those for financial market participants. A final part of the course covers some specific topics in corporate finance: decision to go public, mergers and acquisitions and start-up finance (time permitting).

Teaching: 20 hours of lectures and 9 hours of seminars in the LT.

Formative coursework: Weekly problem sets covered in classes.

Indicative reading: J. Berk and P. DeMarzo, Corporate Finance, Pearson International Edition. Full details of reading will be specified in the Course Programme and Reading List which will be distributed at the first lecture.

Assessment: Exam (100%, duration: 1 hour and 30 minutes, reading time: 10 minutes) in the summer exam period.

Please note this exam is the half unit version of the examination taken on FM430 Corporate Finance and Asset Markets. Any student who takes both FM429 and FM431 will be re-registered to sit the FM430 full-unit exam paper in Summer Term.

**FM431M Half Unit**

**Corporate Finance A**

This information is for the 2018/19 session.

Teacher responsible: Dr Radoslava Nikolowa

Availability: This course is compulsory on the MSc in Economics and Management. This course is available on the Global MSc in Management, MSc in Accounting and Finance, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme) and MSc in Risk and Finance. This course is not available as an outside option.

Global MSc in Management (‘Accounting and Finance’ and ‘Finance’ concentrations only).

This course is available with permission on the Diploma in Accounting and Finance with the approval of the Programme Director. This course is not available as an outside option.

Outside students should consider taking FM474 Managerial Finance as an alternative option.

This course cannot be combined with FM430 Corporate Finance and Asset Markets or FM474 Managerial Finance.

Pre-requisites: Basic Mathematics and Statistics knowledge. The course is self-contained but it covers a broad set of topics. Some prior knowledge of economics, finance and accounting is advised.

Course content: The course covers range of topics in corporate finance starting with capital budgeting techniques, in relation to CAPM and other valuation instruments. The course then proceeds identifying the driving forces behind capital structure decisions and choices over debt and equity finance. Special consideration is given to the tax implications of those choices, the possible costs of financial distress, the incentive implications of financial decisions and the signalling impact of those for financial market participants. A final part of the course covers some specific topics in corporate finance: decision to go public, mergers and acquisitions and start-up finance (time permitting).

Teaching: 20 hours of lectures and 9 hours of seminars in the MT.

Formative coursework: Students will be set weekly problem set assignments. Solutions and guidance will be provided during the weekly seminar classes. The final seminar class, students will solve a formative mock exam. Students will receive individual feedback on the mock exam prior to the final exam.

Indicative reading: J. Berk and P. DeMarzo, Corporate Finance,
Financial Econometrics

This information is for the 2018/19 session.
Teacher responsible: Prof Ian Martin, Dr Igor Makarov and Dr Vicente Cunat
Availability: This course is compulsory on the MRes/PhD in Finance, MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is available on the MPhil/PhD in Accounting. This course is not available as an outside option.
Pre-requisites: Mathematical background at the level of the September Courses in Mathematics and FM458 Financial Economics Preparatory Course is assumed.
Course content: Financial Economics provides students with an in-depth introduction to the theories of asset pricing and corporate finance. The course analyses investors’ behaviour, market equilibrium, the pricing of securities, the valuation of real assets, and capital structure choice. Topics in asset pricing will encompass portfolio choice, complete and incomplete markets, mean-variance portfolio theory and equilibrium asset pricing, pricing with no arbitrage, Black-Scholes and other contingent claims pricing models, and the behaviour of financial markets during crises. Topics in corporate finance will encompass valuation methods and financing decisions in the presence of taxation, agency frictions, and asymmetric information.
Teaching: 40 hours of lectures and 20 hours of seminars in the MT.
Formative coursework: Problem sets, covered in classes.
Indicative reading: Readings will be based on teaching notes and journal articles.
Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Quantitative Methods for Finance and Risk Analysis

This information is for the 2018/19 session.
Teacher responsible: Dr Domingos Romualdo
Availability: This course is available on the Global MSc in Management, MSc in Accounting and Finance, MSc in Applicable Mathematics, MSc in Econometrics and Mathematical Economics, MSc in Financial Mathematics, MSc in Quantitative Methods for Risk Management, MSc in Risk and Finance, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is not available as an outside option.
Pre-requisites: This is an advanced course. Students will be expected to have a good grasp of basic probability theory and multivariate calculus.
Course content: The course provides a thorough grounding in the theory of derivatives pricing and hedging. Both discrete-time and continuous-time models will be covered, including a comprehensive treatment of the Black-Scholes model. A special feature of the course is its emphasis on the modern theory of no-arbitrage pricing using martingale methods. These methods will be applied to the pricing of equity options, forwards, futures and interest rate derivatives. The uses of derivatives in hedging and risk-management will be discussed as well.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Weekly problem sets in classes (10).
Indicative reading: Teaching notes will be distributed. No one book covers the entire course, but the following is an excellent reference: John C Hull, Options, Futures and Other Derivatives.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.
Pre-requisites: A strong background in statistics and quantitative methods at the undergraduate level is required. Prior programming experience is helpful. Students without prior knowledge of Matlab are encouraged to take FM457A (Computational Tools in Finance) concurrently.

Course content: This graduate-level course covers important quantitative and statistical tools in applied finance. It studies financial markets risk, with a particular focus on models for measuring, assessing and managing financial risk. Students will be introduced to the application of these tools and the key properties of financial data through a set of computer-based homework assignments and classes. The course aims to introduce quantitative concepts and techniques in many areas of finance. Sample topics include Risk Measures (e.g., Value-at-Risk and Expected Shortfall, including implementation and backtesting), univariate and multivariate volatility models, Factor Models, Principal Components Analysis, Options Pricing, Binomial Trees, Monte Carlo Simulations, and associated topics in Econometrics. This list is meant to be representative, but topics may be added or removed. Implementing the models and tools in MATLAB is an essential part of the course. The homework assignments are designed to guide the students to all stages of the analytical process, from locating, downloading and processing financial data to the implementation of the tools and interpretation of results. Students will have the opportunity to explore the databases available at the LSE and to become comfortable working with real data.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Six homework assignments to be solved using MATLAB.

Indicative reading: No single text covers the course material. The relevant sections of the following readings would be appropriate for individual topics: Jon Danielsson (2011), Financial Risk Forecasting; Ruey Tsay (2010), Analysis of Financial Time Series; Pietro Veronesi (2010), Fixed Income Securities: Valuation, Risk, and Risk Management.

Assessment: Exam (75%, duration: 1 hour and 30 minutes, reading time: 10 minutes) in the summer exam period. Project (20%, 2000 words) and presentation (5%) in the MT.

---

**FM457**

**Applied Computational Finance**

This information is for the 2018/19 session.

Teacher responsible: Mr Bruce Iwadate

Availability: This course is available on the MSc in Accounting and Finance, MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway), MSc in Finance and Private Equity, MSc in Finance and Private Equity (Work Placement Pathway) and MSc in Quantitative Methods for Risk Management. This course is available with permission as an outside option to students on other programmes where regulations permit.

FM457A is intended for students taking FM442 Quantitative Methods for Finance and Risk Analysis and FM404 Forecasting Financial Time Series.

FM457B is available to students on the MSc Finance (Full-time), MSc Finance and Private Equity, MSc Finance and Economics and MSc Risk and Finance programmes.

Course content: This course is an introduction to computational methods in finance, the course mainly focuses on Matlab but then introduces other programming languages. We will begin with an introduction to basic Matlab. We will then learn how to simulate individual securities, with a special focus on the predictability and fat tails features of volatility. Simultaneously we will examine the data to test how well our models approximate the real world. Next we will move onto modeling portfolios of multiple securities and test the CAPM and the Fama-French three factor model; we will also test for long term predictability in asset prices. Finally we will use numerical techniques to price options and to construct a yield curve.

Teaching: FM457A: 10 hours of seminars in the MT. FM457B: 10 hours of seminars in the MT.

Indicative reading: Teaching notes will be distributed.

Assessment: This is an additional, non-assessed computer course to supplement MSc level courses in the Department of Finance.

---

**FM445**

**Half Unit**

**Portfolio Management**

This information is for the 2018/19 session.

Teacher responsible: Mr Domingos Romualdo

Availability: This course is available on the Global MSc in Management, MSc in Accounting and Finance, MSc in Econometrics and Mathematical Economics, MSc in Economics and Management, MSc in Financial Mathematics and MSc in Risk and Finance. This course is not available as an outside option. Global MSc in Management (‘Accounting and Finance’ and ‘Finance’ concentrations only).

This course is available to other students from the Departments of Economics, Mathematics, and Statistics where regulations permit. This course is not available as an outside option.

Course content: This course aims to cover the main topics in equity portfolio management. Some of the topics covered in the course include: Portfolio optimization techniques; Multi-factor models and their applications; Trading strategies; International portfolio management and currency hedging; Trading costs; Portfolio performance measurement and attribution; Style analysis; Mutual funds; Hedge funds. The course is based on a number of empirical applications and case studies, so that students can gain a better understanding of implementation issues related to managing an equity portfolio.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

---

**FM458**

**Financial Economics Preparatory Course**

This information is for the 2018/19 session.

Teacher responsible: Mr Karamfil Todorov

Availability: This course is compulsory on the MSc in Finance and Economics. This course is not available as an outside option.

Course content: The aim of this course is to supplement the Economics pre-sessional course and provide students with the essential quantitative methods for the core Finance course FM436. The course will introduce foundational material essential to the study of both asset pricing in continuous time and corporate finance theory.

Teaching: 30 hours of lectures in the MT.

Indicative reading: Mikosch, Elementary Stochastic Calculus
**FM473M  Half Unit**

**Financial Markets**

This information is for the 2018/19 session.

**Teacher responsible:** Professor Michael Burkart

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation, MSc in Real Estate Economics and Finance and MSc in Regulation.

This course is available as an outside option to students on other programmes where regulations permit.

Students on the MSc in Accounting, Organisations and Institutions need permission from the Programme Director to enrol in this course.

This course is not open to students in the MSc Accounting and Finance and students from the following departments: Economics, Finance, Mathematics, and Statistics.

This course cannot be combined with FM429 Asset Markets A or FM430 Corporate Finance and Asset Markets.

**Pre-requisites:** The course assumes no previous knowledge of finance, economics and statistics, and requires only basic knowledge of mathematics. However, the course is quantitative and students must be willing to learn and work with new concepts in mathematics and statistics. Course work will involve a significant amount of algebra and numerical exercises. Students should be comfortable with ‘High School’ level Mathematics and simple algebra, e.g. the ability to solve linear systems of two equations and two unknowns.

**Course content:** This course is a self-contained introduction to finance and it covers roughly the same topics as FM429. The course explores the way that firms and the capital market function to channel savings toward productive investments. From the investor’s perspective it considers characteristics of the major financial contracts and the principles used in their valuation. It considers how investors should select their portfolios and the implications of this behaviour for pricing assets in stock and bond markets. It explores the question of whether stock markets are efficient in reflecting investors’ information. It applies these insights to the firm’s financial management decision of whether or not to invest in a risky project and how to select among alternative investments.

The course is also related to FM474 (Managerial Finance): both are introductory courses in Finance. FM473 focuses mostly on understanding the workings of financial markets, the determination of asset prices, and the decisions made by financial investors. FM474 studies financial decisions from the perspective of firms (i.e., “Corporate Finance”). Although there is some small amount of overlap between FM473 and FM474, both courses can be taken simultaneously or sequentially, in any order.

**Teaching:** 30 hours of lectures in the LT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive.

There will be 10 three-hour sessions. Attendance is required.

This course is taught twice, in both Michaelmas and Lent Term. Students must either register for FM473M which is taught in Michaelmas Term, or FM473L which is taught in Lent Term.

**Indicative reading:** Brealey, Myers and Allen, Principles of Corporate Finance.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**FM473L  Half Unit**

**Financial Markets**

This information is for the 2018/19 session.

**Teacher responsible:** Professor Michael Burkart

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation, MSc in Real Estate Economics and Finance and MSc in Regulation.

This course is available as an outside option to students on other programmes where regulations permit.

Students on the MSc in Accounting, Organisations and Institutions need permission from the Programme Director to enrol in this course.

This course is not open to students in the MSc Accounting and Finance and students from the following departments: Economics, Finance, Mathematics, and Statistics.

This course cannot be combined with FM429 Asset Markets A or FM430 Corporate Finance and Asset Markets.

**Pre-requisites:** The course assumes no previous knowledge of finance, economics and statistics, and requires only basic knowledge of mathematics. However, the course is quantitative and students must be willing to learn and work with new concepts in mathematics and statistics. Course work will involve a significant amount of algebra and numerical exercises. Students should be comfortable with ‘High School’ level Mathematics and simple algebra, e.g. the ability to solve linear systems of two equations and two unknowns.

**Course content:** This course is a self-contained introduction to finance and it covers roughly the same topics as FM429. The course explores the way that firms and the capital market function to channel savings toward productive investments. From the investor’s perspective it considers characteristics of the major financial contracts and the principles used in their valuation. It considers how investors should select their portfolios and the implications of this behaviour for pricing assets in stock and bond markets. It explores the question of whether stock markets are efficient in reflecting investors’ information. It applies these insights to the firm’s financial management decision of whether or not to invest in a risky project and how to select among alternative investments.

The course is also related to FM474 (Managerial Finance); both are introductory courses in Finance. FM473 focuses mostly on understanding the workings of financial markets, the determination of asset prices, and the decisions made by financial investors. FM474 studies financial decisions from the perspective of firms (i.e., “Corporate Finance”). Although there is some small amount of overlap between FM473 and FM474, both courses can be taken simultaneously or sequentially, in any order.

**Teaching:** 30 hours of lectures in the LT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive. There will be ten three-hour sessions. Attendance is required.

This course is taught twice, in both Michaelmas and Lent Term. Students must either register for FM473L which is taught in Michaelmas Term, or FM473L which is taught in Lent Term.

**Indicative reading:** Brealey, Myers and Allen, Principles of Corporate Finance.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**FM474L  Half Unit**

**Managerial Finance**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Hongda Zhong and Dr Mioqi Groen-Xu

**Availability:** This course is available on the CEMS Exchange,
This course cannot be combined with FM430 Corporate Finance and Asset Markets or FM431 Corporate Finance A.

Course content: This course is a self-contained introduction to finance and it covers roughly the same topics as FM431. The aim of the course is to provide a comprehensive overview of firms' financial decision making. The course is designed to provide an applied and practical approach to finance, enabling the students to address topical issues that modern corporations face. In particular, the course builds on concepts such as valuation and capital structure theories, and applies those tools in a systematic and rigorous way to real-life financial management problems. After a brief introduction to financial markets, the course focuses on corporate finance and business valuation. Topics such as mergers and acquisitions and initial public offerings will also be covered. The course is also related to FM473 (Finance I): both are introductory courses in Finance. FM473 focuses mostly on understanding the workings of financial markets, the determination of asset prices, and the decisions made by financial investors. FM474 studies financial decisions from the perspective of firms (i.e., "Corporate Finance"). Although there is some small amount of overlap between FM473 and FM474, both courses can be taken simultaneously or sequentially, in any order.

Teaching: 30 hours of lectures in the LT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

This course will be taught in two separate groups. Each group will meet for a single block of three hours once a week. Each student will be assigned to one group. Students will not be allowed to choose their groups or to switch groups.

The course requires weekly in-class activities and discussions. Students must prepare for class activities in advance. Attendance is required.

Formative coursework: Weekly homeworks.
Indicative reading: Brealey, Myers and Allen, Principles of Corporate Finance.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

---

**FM474M Half Unit Managerial Finance**

This information is for the 2018/19 session.

Teacher responsible: Dr Angie Andrikogiannopoulou

Availability: This course is compulsory on the MSc in Management (1 Year Programme). This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting, Organisations and Institutions, MSc in Law and Accounting, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation and MSc in Regulation. This course is available as an outside option to students on other programmes where regulations permit.

This course is not open to students in the MSc Accounting and Finance and students from the following departments: Economics, Finance, Mathematics, and Statistics.

This course cannot be combined with FM430 Corporate Finance and Asset Markets or FM431 Corporate Finance A.

**FM476 Half Unit Entrepreneurial Finance**

This information is for the 2018/19 session.

Teacher responsible: Professor Daniel Parasivini

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting and Finance, MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway), MSc in Finance and Private Equity, MSc in Finance and Private Equity (Work Placement Pathway), MSc in Management (1 Year Programme), MSc in Risk and Finance and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Basic Mathematics and Statistics knowledge. N.B. - It is mandatory to attend the first week's class in Lent Term in order to register for FM476 Entrepreneurial Finance. Students who did not attend these classes will not be permitted to then join the course.

Course content: After introducing students to methods to assess business plans as well as methods to identify and value business ventures and growth opportunities in the opening part of the course, the next part of the course concentrates on obtaining financial resources. It covers a broad set of instruments (bank finance, angel finance, crowdfunding) used by entrepreneurial firms. The final part of the course concentrates on Venture Capital (VC) financing. It describes the general structure and terms of a VC deal, the structure of a VC fund, the characteristics of venture debt, and the exit strategies of VC funds.
Formative coursework: Students will be expected to produce 2 case studies in the LT, which will relate to the examination. The case studies, similar to the summative ones, will be graded and covered in class.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: 'Venture Capital, Private Equity, and the Financing of Entrepreneurship' J.Lerner, A. Leamon and F.Hardyron (Wiley); 'The Oxford Handbook of Entrepreneurial Finance' (OUP); 'Entrepreneurship' J.Lerner, A. Leamon and F.Hardymon (Wiley); 'Entrepreneurial Finance', J.C.Leach and R.Melicher (Cengage). The course pack include lecture notes and case studies for summative and formative assessments.

Assessment: Continuous assessment (100%). Summative assessment will take the form of individual reports, group reports, business plan exercises and peer evaluation.

---

**FM481**

Financial Econometrics for Research Students

This information is for the 2018/19 session.

Teacher responsible: Dr Andrea Tamoni

Professor Alexey Onatskiy

Availability: This course is compulsory on the MRes/PhD in Finance. This course is available on the MPhil/PhD in Accounting. This course is available as an outside option to students on other programmes where regulations permit.

Optional on MRes/PhD Economics.

Pre-requisites: Strong background in statistics and mathematics; some knowledge of Economics and Finance.

Course content: The Lent Term of FM481 is shared with FM404 Forecasting Financial Time Series.

Part 2 – Theory and application of regression analysis, covers estimation and inference theory for regression models. The topics covered are least squares estimation, maximum likelihood estimation, instrumental variable estimation, and generalized method of moments estimation, with applications to linear models, many and weak instrument problems, limited dependent variables models, and panel data models.

Part 3 – The course provides a survey of the theory and application of time series methods in econometrics. The main objective of this course is to develop the skills needed to do empirical research in fields operating with time series data sets. The topics covered are: Hilbert spaces, projections, Wold theorems, ARMA models, Z-transform, convolution theorem, W-K prediction, Spectral analysis; Structural VAR Models; State Space Representations; Models with time-varying coefficients and stochastic volatility; Nonlinear filtering (particle filters), Unit Roots, Spurious Regressions and Contemp orary Predictability.

Teaching: 22 hours of lectures in the MT. 22 hours of lectures in the LT.

Formative coursework: Weekly classwork and problem sets.

Indicative reading:
- Cameron and Trivedi: Microeconometrics. Methods and Applications.
- Campbell, Lo and MacKinlay: The Econometrics of Financial Markets
- Geweke: Contemporary Bayesian Econometrics and Statistics
- Greene: Econometric Analysis.
- Johannes and Polson: Computational Methods for Bayesian Inference.
- Hamilton: Time-Series Analysis.
- Hayashi: Econometrics
- Sargent, T. (1987), Macroeconomic Theory, chapters IX-XI.
- Wooldridge: Econometric Analysis of Cross-Section and Panel Data.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

---

**FM482**

Research paper in Finance

This information is for the 2018/19 session.

Teacher responsible: Professor Michael Burkart

Availability: This course is compulsory on the MRes/PhD in Finance. This course is not available as an outside option.

Course content: Students produce a research paper, between 6,000 and 8,000 words, related to the student's designated major field, to be submitted at the end of September.

Teaching: There are no direct teaching hours.

Formative coursework: Feedback on progress will be provided by the student's PhD Supervisor.

Assessment: Other (100%). A research paper of 6-8,000 words in length (100%).

---

**FM492**

Not available in 2018/19

Principles of Finance

This information is for the 2018/19 session.

Teacher responsible: Dr Hongda Zhong

Availability: This course is not available as an outside option.

Pre-requisites: Students must have completed: one Economics course, one Maths course and one Statistics course at an undergraduate level.

Course content: This course examines the theory of financial decision-making by firms and examines the behaviour of the capital markets in which these decisions are taken. The topics covered are the theory of capital budgeting under certainty in perfect and imperfect capital markets, portfolio theory, equity and bond markets, the capital asset pricing model, efficient markets, derivative pricing, sources of funds, basic theory of capital structure and the cost of capital, company dividend decisions and financial markets and institutions.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 11 hours of seminars in the LT. 2 hours of lectures and 1 hour of seminars in the ST.

Formative coursework: Students are expected to produce written work for classes and to make positive contributions to class discussion.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: Principles of Corporate Finance by Richard Brealey, Stewart Myers, and Franklin Allen, McGraw-Hill Inc.
Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

---

**FM499  Not available in 2018/19**

**Dissertation**

This information is for the 2018/19 session.

**Availability:** This course is available on the MSc in Accounting and Finance. This course is not available as an outside option. Only for students on the MSc Accounting and Finance programme, who elect to take this as an option in paper 3 or 4 and who wish to write a dissertation on a Finance topic. Permission to select the long essay option must be obtained from the MSc Accounting and Finance Programme Director by the end of the third week of MT. Students wishing to select this option must identify and secure agreement from a member of staff from the Department of Finance who is willing to provide supervision for the dissertation.

**Course content:** The dissertation may focus on analysing the relevant literature and other source material on a particular topic and writing a critical survey or commentary, indicating clearly the main problems and their nature, or investigating and reporting on a selected problem, either by some small-scale empirical research, or by using information derived from secondary sources. The dissertation must identify relevant issues, sustain reasoned argument, and draw supportable conclusions. It must be arranged in an organised manner and include a full bibliography.

**Teaching:** There is no teaching associated with the dissertation, but students who select this option are encouraged to attend the dissertation workshop sessions organised by the Teaching and Learning Centre.

**Assessment:** Dissertation (100%, 10000 words) in the ST. The dissertation outline must be approved in the LT by the supervisor. The submission deadline is Monday 5 June 2017.

---

**FM4T1  Half Unit**

**Forecasting Financial Time Series - Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Andrea Tamoni

**Availability:** This course is available on the MSc in Economics, MSc in Economics (2 Year Programme), MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.

**Course content:** See entry for FM404

**Teaching:** See entry for FM404

**Assignment:** Dissertation (90%, 6000 words) in the ST.

Coursework (10%).

6,000 word dissertation on a topic to be agreed with the course teacher. The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student's supervisor. Submission deadline is towards the end of Summer Term.

---

**FM4T2  Half Unit**

**Applied Corporate Finance - Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Ashwini Agrawal

**Availability:** This course is available on the MSc in Economics, MSc in Economics (2 Year Programme), MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.

**Course content:** See entry for FM421

**Teaching:** See entry for FM421

**Assessment:** Dissertation (90%, 6000 words) in the ST.

Coursework (10%) in the LT.

6,000 word dissertation (90%) on a topic to be agreed with the course teacher. The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student's supervisor. Submission deadline is towards the end of Summer Term.

---

**FM4T4  Half Unit**

**Corporate Investment and Financial Policy - Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Daniel Ferreira

**Availability:** This course is available on the MSc in Finance (full-time) and MSc in Finance (full-time) (Work Placement Pathway). This course is not available as an outside option.

**Course content:** See entry for FM414.

**Teaching:** See entry for FM414.

**Assessment:** Dissertation (70%, 6000 words) in the ST.

Coursework (20%) in the LT.

Class participation (10%).

6,000 word dissertation in lieu of examination (70%) on a topic to be agreed with the course teacher, and coursework (30%). The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student's supervisor. Submission deadline towards the end of Summer Term.

---

**FM4T5  Half Unit**

**Portfolio Management - Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Domingos Romualdo

**Availability:** This course is available on the MSc in Economics, MSc in Economics (2 Year Programme), MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.

**Course content:** See entry for FM445

**Teaching:** See entry for FM445

**Assessment:** Dissertation (80%, 6000 words) in the ST.

Coursework (20%) in the LT.

6,000 word dissertation (80%) on a topic to be agreed with the course teacher. The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student's supervisor. Submission deadline is towards the end of Summer Term.

---

**FM4T6  Half Unit**

**Topics in Portfolio Management - Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Michela Verardo

**Availability:** This course is available on the MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Topics in Portfolio Management (FM406).

**Course content:** See entry for FM406

**Teaching:** See entry for FM406

**Assessment:** Essay (70%, 6000 words) in the ST.

Coursework (30%) in the LT.

6,000 word dissertation in lieu of exam (70%) on a topic to be agreed with the course teacher, and coursework (30%).
dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Submission deadline is towards the end of Summer Term.

---

**FM4T8  Half Unit**

**Financial Engineering - Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Jean-Pierre Zigrand

**Availability:** This course is available on the MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.

**Course content:** See entry for FM408

**Teaching:** See entry for FM408

**Assessment:** Dissertation (75%, 6000 words) in the ST.

Coursework (25%) in the LT.

6,000 word dissertation in lieu of examination (70%) on a topic to be agreed with the course teacher, and coursework (30%). The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Submission deadline is towards the end of Summer Term.

---

**Teacher responsible:** Dr Vicente Cuñat

**Availability:** This course is available on the MSc in Finance (full-time) and MSc in Finance (full-time) (Work Placement Pathway). This course is not available as an outside option.

**Course content:** See entry for FM407

**Teaching:** See entry for FM407

**Assessment:** Dissertation (70%, 6000 words) in the ST.

Coursework (30%) in the LT.

6,000 word dissertation in lieu of exam (70%) on a topic to be agreed with the course teacher, and coursework (30%). The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Submission deadline will be towards the end of Summer Term.
FM4U9  Half Unit  
Risk Management in Financial Markets - Dissertation

This information is for the 2018/19 session.
Teacher responsible: Dr Christian Julliard
Availability: This course is available on the MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.
Course content: See entry for FM409
Teaching: See entry for FM409
Assessment: Dissertation (90%, 6000 words) and coursework (5%) in the ST.
Presentation (5%).
6,000 word dissertation in lieu of examination (90%) on a topic to be agreed with the course teacher, and coursework (10%). The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Submission deadline will be towards the end of Summer Term.

GI402  Half Unit  
Gender, Knowledge and Research Practice

This information is for the 2018/19 session.
Teacher responsible: Dr Jacob Breslow
Availability: This course is compulsory on the MPhil/PhD in Gender, MSc in Gender and MSc in Gender (Research). This course is available on the MSc in Culture and Society, MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Media and Culture, MSc in Gender, Policy and Inequalities and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course introduces students to the central issues at stake in designing and carrying out gender research at graduate and postgraduate level and beyond. The course maps the history of debates about gender and feminist research, and asks what difference it makes to take gender as the subject or object of research. Of particular concern are the ethical and political issues arising from doing gender research with respect to representing others and seeking to influence and engage with broader social contexts among other topics. The course is interdisciplinary, introducing students to a range of perspectives on knowledge production and research practice. It offers critiques of existing knowledge practices, and highlights the specific challenges to ‘mainstream knowledge’ that come from gendered and feminist perspectives. It explores how knowledge is produced and offers critical assessments of the dominant debates in gendered research practice, asking how we ensure that we conduct research ethically. Finally, the course focuses on the methodological challenges arising within interdisciplinary research.
Teaching: 15 hours of lectures and 10 hours of seminars in the MT. The course is taught in weekly 1.5 hour lecture, 1 hour seminar in MT. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Essay (1500-2000 words) to be submitted during class in Week 5 of the MT.
Indicative reading:
• Nina Lykke (2005) “Transformative Methodologies in Feminist Studies”, special issue of European Journal of Women’s Studies 12: 3;
Assessment: Essay (100%, 4000 words) in the LT.

GI403  Half Unit  
Gender and Media Representation

This information is for the 2018/19 session.
Teacher responsible: Dr Sadie Wearing, Pankhurst House.11.01C
Availability: This course is compulsory on the MSc in Gender, Media and Culture. This course is available on the CEMS Exchange, MBA Exchange, MPhil/PhD in Gender, MSc in Culture and Society, MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Policy and Inequalities and MSc in Organisational and Social Psychology. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course aims to enable students: to think critically about representations of gender in a range of different media; to apply a range of theoretical and methodological approaches to the study of the media; to examine changing representations of gender in the context of wider social changes and to explore questions concerning the interpretation and use of different media formats and content. The course focuses on examples largely drawn from Anglo-American media and usually includes topics such as news media and gender; gendered approaches to contemporary cinema; online environments and gender and critically explores terms such as ‘postfeminism’ in relation to media content. The course also considers themes such as the nature of contemporary celebrity and questions of media representations of gender in relation to dimensions such as sexuality, class, race, age and (dis)ability. Students will be expected to maintain familiarity with contemporary UK media, although there is opportunity to research and write on other national contexts.
Teaching: 15 hours of lectures, 15 hours of seminars and 6 hours of classes in the MT.
The classes are compulsory film screenings. Lectures will incorporate audio-visual material. There will be occasional screenings of material to be discussed in class. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Essay (1500-2000 words) to be submitted during class in Week 5 of the MT.
Indicative reading:
Assessment: Essay (100%, 4000 words) in the LT.

GI407  Globalisation, Gender and Development

This information is for the 2018/19 session.
Teacher responsible: Dr Anouk Patel-Campillo, Prof Niala Kabeer and Dr Ece Kocabicak
Availability: This course is compulsory on the MSc in Gender, Development and Globalisation. This course is available on the
Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MPhil/PhD in Gender, MSc in Development Management, MSc in Development Studies, MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Policy and Inequalities and MSc in Human Rights. This course is available as an outside option to students on other programmes where regulations permit.

This course cannot be taken alongside GI409 Gender, Globalisation and Development: An Introduction, or GI420 Globalisation, Gender and Development: Theorising Policy and Practice.

**Course content:** This course will provide students with a thorough knowledge of two key interconnected and intersecting literatures: gender and development and gender and globalisation. We begin by defining and theorising gender, development and globalisation and their operation in material spaces, policy and practice. The first part of the course considers contemporary theories of globalisation and development and the differences that a gender perspective makes. A particular focus is on how globalisation is associated with widening social, spatial and gender inequalities, illustrated by case studies of global integration and uneven development. Specific reference is made to the global division of labour, employment, environmental change, carework and migration and their implications for social and gender inequalities. The final session brings the issues raised in the first part of the course to a conclusion by addressing some alternative visions of social change in the context of a globalised world.

The second half of the course is concerned with theorising policies and practice in the field of gender and international development. The course outlines key contributions to the analysis of power within public policy making processes and examines feminist visions of social change which draw on ideas about capabilities, empowerment, citizenship and gender justice to engage with these policy processes. This is explored in greater detail through case studies of feminist struggles over recognition, redistribution and representation as they play out in relation to particular policy issues, namely violence against women, sexual and reproductive rights, microfinance, social protection, gender quotas and collective action.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 15 hours of lectures and 10 hours of seminars in the LT.

There will be a reading week in both terms in week 6 in line with departmental policy.

**Formative coursework:** Essay (1500 words) in the MT.

**Indicative reading:**
- Agarwal, B. (2016) Gender Challenges (Vol 1, 2 and 3). India: Oxford University Press.

In addition a range of institutional reports will be referred to including for example:

**Assessment:** Essay (50%, 4000 words) in the LT. Essay (50%, 4000 words) in the ST.

**GI409 Half Unit**

**Gender, Globalisation and Development: An Introduction**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Ece Kocabicak PAN, 11.01

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA
GI410 Half Unit Not available in 2018/19

Screening the Present: contemporary cinema and cultural critique

This course is available on the MA in Cinema and Cultural Studies, MSc in Gender, MSc in Culture and Society, MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality) and MSc in Gender, Development and Globalisation. This course is available in the LT in the MSc in Gender, Development and Globalisation.

Teaching: 10 hours of lectures, 10 hours of seminars and 20 hours of classes in the LT.

Course content: The aims of the course are to offer students the opportunity to critically explore contemporary international cinema as a site for the interrogation of contested contemporary social and political processes such as migration, globalisation and conflict. The course links cinematic representations to the social and political processes such as migration, globalisation and conflict. The course introduces students to a range of international film and will develop the critical tools for the analysis of both mainstream and marginal (or marginalised) cultural productions. It explores a range of critical and theoretical writing on film, considering questions such as cinema as oppositional practice, the emergence of transnational cinema, questions of representation, global spectatorship and ‘witnessing’ and the affective dimensions of cinema. Indicative films are: Unknown Pleasures (dir. Jia Zhang-Ke), Persepolis (dir. Marjane Satrapi), Black Skin White Mask (dir. Isaac Julien), Waltz with Bashir (dir. Ari Folman), Cache (dir. Michael Haneke), The Road to Guantanamo (dir. Michael Winterbottom).

Teaching: 10 hours of lectures, 10 hours of seminars and 20 hours of classes in the LT.

production and the transnational imaginary.

**Assessment:** Essay (100%, 4000 words) in the ST.

---

**GI411  Half Unit  Not available in 2018/19**

**Gender, Postcoloniality, Development: Critical Perspectives and New Directions**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Suni Madhok Pankhurst House, 11.01N.  
**Availability:** This course is available on the MPhil/PhD in Gender, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Empires, Colonialism and Globalisation, MSc in Gender, MSc in Gender (Research), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Human Rights, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research) and MSc in International Relations Theory.

**Course content:** The aim of this course is to introduce students to the growing body of scholarship that critically interrogates gender and developmentalism at various postcolonial sites. It provides an opportunity for students to encounter and engage with canonical works within postcolonial theory alongside those of gender and feminist theory in order to examine the historical and contemporary policy and practices in relation to gender and development. As such, the course combines a study of the historical/textual/cultural/political and philosophical in relation to and alongside the political-economic in order to explore questions of developmentalism, subalternity, orientalism, representation, agency, neoliberalism, globalisation, human rights and humanitarainianism. Finally, the course also introduces students to new directions in contemporary theoretical thinking that are either explicit critiques of postcolonial scholarship, i.e. texts such as ‘Empire’ and ‘Ethics’ or are critical engagements and even critical extensions of postcolonial thinking into new directions e.g. Transnationalism.

**Teaching:** 15 hours of lectures and 10 hours of seminars in the MT.

**Indicative reading:**
- Grewal, Inderpal and Carmen Kaplan (1994) Scattered Hegemonies

**Assessment:** Essay (100%, 4000 words) in the LT.

**GI413  Half Unit**

**Gender and Militarisation**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Marsha Henry Fawcett House.10.01E

**Availability:** This course is compulsory on the MSc in Women, Peace and Security. This course is available on the MPhil/PhD in Gender, MSc in Comparative Politics, MSc in Conflict Studies, MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Human Rights, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research) and MSc in International Relations Theory.

**Course content:** This course will provide students with an overview of militarisation and its gendered basis and effects. Students will be introduced to critiques of militarisation; the concept of militarised masculinities; different gendered experiences of conflict, violence and war; ‘diversity’ issues within a variety of national militaries; representations of gender and terror; peacekeeping; and the politics of peace and anti-militarism activities.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**There will be a reading week in week 6 in line with departmental policy.**

**Formative coursework:** Essay (1500 words) in the MT and Blog post (250 words) in the MT.

**Indicative reading:**

**Assessment:** Project (100%, 4000 words) in the LT.

This will be an essay-diary.
GI414    Half Unit
Theorising Gender and Social Policy
This information is for the 2018/19 session.
Teacher responsible: Professor Wendy Sigle, Pankurst House 11.01D
Availability: This course is compulsory on the MSc in Gender, Policy and Inequalities. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Gender (Sexuality), MSc in Social Policy (Research) and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course aims to equip students with an understanding of how feminist scholars use theoretical and analytic concepts to engage with social policy issues and debates. The course provides an overview of mainstream theoretical explanations for the structure and evolution of social policies, and feminist critiques and modifications of that literature. Students will develop an understanding of how key concepts like citizenship, work, and well-being have been conceptualized and applied in the academic literature to document and explain gendered inequalities. The use of gender as a category of analysis is examined and attention is paid to the potentially modifying effects of other social hierarchies such as race and class.
Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST.
There will be a reading week in week 6, in line with departmental policy.
Formative coursework: Group work. Students will be asked to work as part of a group to discuss papers and to complete assignments (presentations, assessments of papers, answers to questions) in preparation for seminars. Students are asked to submit a 1,500 formative exercise which should include a self-assessment form attached as a coversheet during MT.
Assessment: Project (100%, 4000 words) in the ST.

GI417    Half Unit
Gender, Population, and Policy
This information is for the 2018/19 session.
Teacher responsible: Prof Wendy Sigle PANKURST HOUSE 11.01D
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Gender (Sexuality), MSc in Gender, Policy and Inequalities, MSc in Social Policy (Research), MSc in Social Research Methods, MSc in Women, Peace and Security and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course investigates the ways in which gender is incorporated into national welfare states and the impact of national structures on the patterns and prevalence of gender inequalities. The course covers the theory and methodology of comparative studies and considers their applicability to the analysis of gender, including how well existing typologies of welfare states fare when gender is the focus of analysis. Additionally, the course interrogates the role of the European Union in the development of gendered policies and outcomes in EU countries. A number of key patterns of inequality and policy areas are studied, including: the organisation of caring services; migration, family policy, provisions for lone parents; the labour market and labour market policies; the practices and roles of men, especially regarding fatherhood; and fertility and aging. In looking at these areas students will be encouraged to compare and contrast different welfare systems and consider the particularism of national approaches.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. There will be a reading week in week 6 in line with departmental policy.
Formative coursework: Students will be asked to prepare seminar facilitation activities in group work and submit an essay (2000 words) due in the LT.
Assessment: Essay (100%, 4000 words) in the ST.

GI415    Half Unit
Gender and European Welfare States
This information is for the 2018/19 session.
Teacher responsible: Dr Anna Plomien, Pankurst House 11.01F
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Gender (Sexuality), MSc in Gender, Policy and Inequalities, MSc in Social Policy (Research), MSc in Social Research Methods, MSc in Women, Peace and Security and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.
Course content: Although population change cannot be described, understood, or responded to without taking into account the wider – and profoundly gendered – social, political and economic context, gender theory has had relatively limited impact on the development and direction of demographic research. This course explores the implications both theoretically and practically. Examining the complex inter-relationship between population issues and policy, students will develop an appreciation of the potential contribution and impact that a feminist and gendered perspective has to offer. It will also explore the ways that feminists can use demographic tools and research to redress social and gender injustices.
GI418  Half Unit

Feminist Economics and Policy: An Introduction

This information is for the 2018/19 session.

Teacher responsible: Dr Ania Plomien (PAN 11.01F) and Prof Naila Kabeer (CON 7.13)

Availability: This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities and MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management). This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: The course is run by the Department of Gender Studies – an interdisciplinary department. One of the key objectives is to bring a multi-perspectival approach to understanding of economic processes. As economic processes have a profound influence on social life, gender relations and gender equality, and vice versa, this course seeks to expose students interested in gender to the work of Feminist Economists. An interest in gender issues is essential and undergraduate level course in economics would be an advantage.

Course content: Recent decades have seen the emergence of gender equality as a key policy concern and Feminist Economics as a sub discipline. The purpose of the course is to engage with the theoretical foundations and intellectual contributions of Feminist Economics and to develop an analytical understandings of gender issues with respect to economic processes and policies operating at macro and micro levels. At the macro level, the course explores the implications of contemporary economic and financial governance from a gender perspective, the gender bias in macroeconomic analyses, and the gendered impact of austerity policies. At the micro level, the course analyses the gender dynamics of household and labour market inequalities, engages with the economic foundations and explanations of gender inequality within employment and within the household, focusing on wage and productivity differences and the gender division between ‘productive’ and ‘reproductive’ work. Attention to gender as economically significant marker of identity is contextualised, where possible, in relation to race, social class, sexuality and migrant status. Attention is also given to the way in which individual well-being is influenced by the level of development and transnational trade relations. Accordingly, the course seeks to bridge the macro-micro divide by drawing together the gendered critique of existing biases in economic thinking and to provide an analytical foundation for alternative approaches to policies that aim to contribute towards securing sustainable development and gender equal well-being.

Teaching: 13 hours and 30 minutes of lectures, 9 hours of seminars and 8 hours of workshops in the LT. 2 hours of workshops in the ST.

In certain weeks the lectures, seminars or workshops will be integrated.

There will be a reading week in week 6 in line with departmental policy.

Formative coursework: Essay (2000 words) in the LT.

Indicative reading:

Assessment: Essay (70%, 2500 words) in the ST. Presentation (30%) in the LT.

GI420  Half Unit

Globalisation, Gender and Development: Theorising Policy and Practice

This information is for the 2018/19 session.

Teacher responsible: Prof Naila Kabeer CON 7.13

Availability: This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Policy and Inequalities, MSc in Global Politics, MSc in Human Geography and Urban Studies (Research), MSc in Human Rights, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Women, Peace and Security. This course is available as an outside option to students on other programmes where regulations permit.

This course cannot be taken alongside GI407 Globalisation, Gender and Development.

There will be limited availability on this course - 34 places.

Course content: This course is concerned with theorising policies and practice in the field of gender and international development. The course outlines key contributions to the analysis of power...
within public policy making processes and examines feminist visions of social change which draw on ideas about capabilities, empowerment, citizenship and gender justice to engage with these policy processes. This is explored in greater detail through case studies of feminist struggles over recognition, redistribution and representation as they play out in relation to particular policy issues, namely violence against women, sexual and reproductive rights, microfinance, social protection, gender quotas and collective action. 

**Teaching:** 15 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in week 6 in line with departmental policy.

**Formative coursework:** One essay of 1500 words to be handed in midway through the LT.

**Indicative reading:**

In addition a range of institutional reports will be referred to including for example

[Note this is an edited collection of classic articles – take a look at these – you may find some on the reading list – but also see the recently written introduction by Silke Staab and Shazra Razavi]

**Assessment:** Essay (100%, 4000 words) in the ST.

---

**GI421 Half Unit**

**Sexuality, Gender and Culture**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Clare Hemmings Pankurst

**House 11.01J**

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Culture and Society, MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender Policy and Inequalities, MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Politics, MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students wanting to take GI421 but who are not part of a listed degree programme should provide a statement about their reasons for wanting to follow the course. This should include background in sexuality or gender studies, areas of related interest and experience, or other conceptual or theoretical grounding that might be relevant. GI421 is an interdisciplinary course with a high theory content, and students who do not provide evidence - e.g. prior courses in gender and/or sexuality, professional or political experience in related areas - of being at the appropriate level in this regard will not be admitted to the course.

**Course content:** 'Sexuality, Gender and Culture', introduces students to historical and theoretical components of the field, and explores case studies of the development of sexual cultures, identities and social movements from the late 19th century to the present. The course provides theoretical foundations in this area through a case-study based approach. Indicative topics include: colonialism and sexuality, sexualisation of culture; transformation of intimacy, abortion and migration, transgender studies and bisexuality; queer theory and social movements. The transformation is interdisciplinary and demands a high level of student participation, but does not require a background in the field. It is also available as a first half of a full unit ‘Sexuality, Gender and Globalisation’.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. Seminars come before lectures.

**Formative coursework:** One 1500 word critical analysis to be submitted at the end of week 5 and an essay outline to be submitted at the end of week 9 (for written feedback and discussion in office hours).

**Indicative reading:**
This is to alert students to the actual timing of the assessment. The assessment is due at the beginning of LT.

Availability: House.11.01J

Teacher responsible: This information is for the 2018/19 session.

GI422
Sexuality, Gender and Globalisation

This information is for the 2018/19 session.

Teacher responsible: Prof Clare Hemmings Pankhurst

House: 1.10.1J

Availability: This course is compulsory on the MSc in Gender (Sexuality). This course is available on the LLM (extended part-time), MSc in Gender, MSc in Gender (Research), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Global Politics, MSc in Human Rights, MSc in International Migration and Public Policy, MSc in Women, Peace and Security and University of Pennsylvania Law School ULM Visiting Students. This course is available as an outside option to students on other programmes where regulations permit.

Course content: ‘Sexuality, Gender and Globalisation’ takes a case-study approach to questions of sexuality, gender and culture (in the first term) and to sexuality in the contexts of globalization (in the second). The full unit considers a variety of ways in which sexuality is central to any understanding of the social world. It is an interdisciplinary course within which feminist and critical race perspectives are used to interpret particular sexual phenomena and contexts – rights, citizenship, fertility, representation, kinship, asylum and technology, for example. The course will allow a thorough grounding in sexuality and gender studies and includes a high element of student participation. Although it is interdisciplinary, it does not have a pre-requisite.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 20 hours of classes in the LT.

Formative coursework: One 2500 word critical analysis to be submitted at the beginning of week 6 (MT), submission of draft abstract for conference presentation by the beginning of week 6 (LT).

Assessment: Essay (100%, 4000 words) in the LT. Other (30%) in the LT. Other (20%) in the LT.

The two other assessments will be:

A paper, which will be assessed at a student conference at the end of LT, including the previous submission of a 300-500-word abstract (30%)

A critical evaluation of a cultural event (public lecture, exhibition, performance; conference) in London, submitted at the end of MT, of 2000 words (20%)

GI423

Half Unit

Globalisation and Sexuality

This information is for the 2018/19 session.

Teacher responsible: Dr Jacob Breslow

Availability: This course is available on the MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Politics, MSc in Human Rights and MSc in Women, Peace and Security. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students wanting to take GI423 but who are not part of a listed degree programme should provide a statement about their reasons for wanting to follow the course. This should include background in sexuality or gender studies, areas of related interest and experience, or other conceptual or theoretical grounding that might be relevant. GI423 is an interdisciplinary course with a high theory content, and students who do not provide evidence – e.g. prior courses in gender and/or sexuality, professional or political experience in related areas - of being at the appropriate level in this regard will not be admitted to the course.

Course content: ‘Globalisation and Sexuality’ explores the importance of sexuality for global politics and society. Starting from the assumption that ‘sexuality matters’ in today’s globalised world, the course considers histories, theories and contexts within which the role of sexuality is pivotal. Since sexual identities, rights and health are central to citizenship and to how nations and states relate to one another contemporarily, this course combines theory and case study to think through how as well as why sexuality has become so important. Students will be introduced to theories, including those of sexual citizenship and rights, homonationalism and homophobia, affect and fantasy, sexuality and labour, and use these to explore topics such as sex tourism, reproductive technologies, lesbian and gay asylum, abortion, sexual violence and sexual cultures globally. The course is interdisciplinary and takes a transnational approach to sexuality and globalisation. Students will join existing students taking the full unit GI422 for lectures, but may have separate seminars.

Teaching: 15 hours of lectures and 10 hours of classes in the LT. Seminars precede lectures on the same day.

Formative coursework: An abstract of the student essay (up to 300 words) submitted on Friday of week 5, with written feedback; a detailed outline (up to 2000 words) of the essay to be submitted by Monday of week 9, with written and in person feedback in office hours before the end of term.

GI424  Half Unit

Gender Theories in the Modern World: An Interdisciplinary Approach

This information is for the 2018/19 session.

Teacher responsible: Dr Sadie Wearing, Pankhurst House 11.01C

Availability: This course is compulsory on the MPhil/PhD in Gender, MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Media and Culture and MSc in Gender, Policy and Inequalities. This course is available on the MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course aims to enable students to: become familiar with the fullest range of gender theories with particular attention to the intersections of gender, sexuality and race; develop a critical appreciation of these different theories of gender; use gender theories to inform their appreciation of existing work in their own disciplines and in an interdisciplinary context; use the analysis of gender relations as a basis for case study evaluation and research.

It is a half unit course which runs for 15 weeks. It begins with a review of the formative influences on the development of gender theory, including the sex/gender distinction, race and intersectionality, economics and production/reproduction, structure and agency, theories of power and the relations between the psyche and the social. Building on these foundations it enables students to consider the implications for analysis of a variety of sites and topics including post/coloniality, representation, sexuality and nation, and rights. The course considers the impact of gender analysis on key areas of social science investigation, and develops these with particular attention to location, ethics and the importance of global and transnational dimensions. Our expectation is that this course provides a thorough grounding for work across all other courses and for the dissertation module.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 7 hours and 30 minutes of lectures and 7 hours and 30 minutes of seminars in the LT. The course is taught in 15 x one-and-a-half hour sessions, plus 15 x one-and-a-half hour seminars. It is divided into blocks of related lectures and linked seminars.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Timed assessment to be written during the first term.

Assessment: Other (100%) in the LT. Fixed period timed assessment.

GI425  Half Unit

Women, Peace and Security

This information is for the 2018/19 session.

Teacher responsible: Dr Marsha Henry FAW.10.01E

Availability: This course is compulsory on the MSc in Women, Peace and Security. This course is available on the MSc in Conflict Studies, MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Human Rights, MSc in Inequalities and Social Science, MSc in International Development and Humanitarian Emergencies and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course provides a critical examination of peace and security issues affecting women in conflict and post-conflict contexts. Specifically, the course focuses on the UN Women, Peace and Security (WPS) agenda, which originated in Security Council Resolution 1325 (2000) followed by a series of subsequent resolutions to date. The course covers the main pillars of the WPS agenda, namely women's participation; protection from gendered violence; the prevention of conflict and violence; and gendered approaches to relief and recovery in conflict and post-conflict settings. The course examines a range of issues through a gender and feminist lens.

Topics include: the socio-legal context of the Women, Peace and Security agenda; the history of Women, Peace and Security laws and policies; definitions and scope of gender-based and sexual violence in conflict; combating impunity and addressing accountability; peace processes and women’s participation; gender, peacekeeping and humanitarian assistance; and evaluation of a range of different critiques of the Women, Peace and Security agenda.

Teaching: 15 hours of lectures and 10 hours of seminars in the MT.

Students will have a reading week in Week 6 in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Essay (100%, 4000 words) in the LT.

Summative assessment to be submitted in the first week of LT.
GI426 Half Unit
Gender and Human Rights

This information is for the 2018/19 session.
Teacher responsible: Dr Sumi Madhok COL:11.01N
Availability: This course is compulsory on the MSc in Women, Peace and Security. This course is available on the LLM (extended part-time), LLM (full-time), MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Human Rights, MSc in International Relations (Research), MSc in International Relations Theory and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: A background in the Humanities and/or the Social Sciences with a basic familiarity with human rights and/or gender studies.
Course content: This course will provide the students with a transnational gender perspective on contemporary theories and practices of human rights and humanitarianism. It brings together different sets of scholarship: gender theories, queer and postcolonial scholarship, theoretical perspectives on human rights along side with legal and policy perspectives - and will be of interest to students wanting to study the question of human rights in an interdisciplinary manner but also one that is crucially sutured to the question of gender. Consequently, the course will introduce students to several key theorists: Hannah Arendt, Giorgio Agamben, Jacques Ranciere, Gayatri Spivak, Judith Butler, Christine Chinkin, Catherine MacKinnon, Wendy Brown among others while drawing attention to the evolution and working of international legal frameworks for securing women's rights and other marginal groups. The course will pay special attention to the struggles over ‘human rights’ and ‘civilisation’ as well as to tensions between citizenship rights (now thought in terms of global citizenship) and human rights, and the transformation of the former in the light of the latter. It will also focus on feminist demands and struggles over rights such as those to sexuality, sexual rights, bodily rights, culture and citizenship, entitlements to material resources, to gendered protections in conflict, peacekeeping and war, and to vulnerability and precariousness under neoliberal economic and political regimes.
Teaching: 15 hours of lectures and 10 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Review of a key theorist that students have read on the course.
Assessment: Essay (100%, 4000 words) in the ST.
One essay (4000 words) to be submitted at the beginning of week 3 of ST.

GI427 Half Unit
Advanced Issues in Women, Peace and Security

This information is for the 2018/19 session.
Teacher responsible: Dr Marsha Henry FAW:10.01E
Availability: This course is compulsory on the MSc in Women, Peace and Security. This course is not available as an outside option.
This course is for MSc in Women, Peace and Security students only. Students registered on other programmes are welcome to apply for GI425 Women, Peace and Security, where programme regulations and capacity allows.
Pre-requisites: Students must have completed Women, Peace and Security (GI425).
Must be registered on MSc Women Peace and Security.
Course content: Advanced Issues in Women, Peace and Security will provide an in-depth examination of peace and security issues affecting women in a global world. The course will explore emerging areas of research and policy related to the four pillars of the UN women peace and security agenda and specifically areas not covered in the prerequisite (GI425) course, including: strategies towards implementation of the WPS agenda; international legal and theoretical approaches to conflict-related sexual and other forms of violence; emerging areas of policy that may include issues such as preventing violent extremism; men, peace and security, transitional justice and humanitarian response. Throughout the course students will critically consider current issues and debates and the political and legal nature and context of the global women, peace and security agenda.
Teaching: 30 hours of seminars in the LT.
The seminars will use an integrated lecture/seminar structure. Students will have a reading week in week 6 in line with departmental policy.
Formative coursework: Essay title, abstract and workshop: Students can produce an essay title and abstract for which they will receive written feedback and guidance. Students can present this work at a full day workshop at the end of term. Students will be organised into panels and present to the full group and provide peer feedback to each other’s work. GI427 students and also other invited students and faculty, and members of the Centre for Women, Peace and Security will attend the workshop.
The workshop will be filmed, for the instruction and encouragement of future cohorts. With permission, some presentations may be used to publicly profile the work of Centre for Women, Peace and Security students.
Assessment: Essay (100%, 4000 words) in the ST.
Students will develop a 4000 word research essay with a topic of their choice, as approved by course convenor early in term (100%). This essay can be linked to the earlier abstract work or students may choose a different topic.
GI428 Half Unit
Bodies, Culture and Politics
This information is for the 2018/19 session.
Teacher responsible: Dr Leticia Ines Alexandre Sabsay Pankurst
House 11.01
Availability: This course is available on the MSc in Gender, MSc in Gender (Research), MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation and MSc in Gender, Policy and Inequalities. This course is available as an outside option to students on other programmes where regulations permit.
Course content: ‘Bodies, Culture and Politics’ explores different conceptions and understandings of gendered and sexualised bodies, with a focus on how these have been mobilised by transnational artistic and cultural practices and politics of resistance. Bodies have been at the centre of renewed debates in the light of the emergence of new critical approaches within the social sciences and the humanities and the developments of the natural sciences. Parallel to these debates, increasing attention has been paid to the significance of bodies in contemporary democratic politics. In the last decades, the uses of bodies and the arts in popular mobilisations and political activism have acquired renewed relevance, hand in hand with transnational dialogues and exchanges. Focusing on these trends, the course considers different theoretical approaches to bodies and embodiment (i.e. phenomenological, deconstructivist, materialist, psychoanalytic), and a set of related areas of inquiry, including the materiality of bodies, the differential value socially assigned to bodies, the affective dimension of embodiment, intersectional processes of racialisation, gendering and sexualisation, vulnerability, beauty ideals, and (dis)ability. These questions will inform our exploration of the imaginaries of bodies mobilised by feminist and queer political art, activism, and cultural practices, as well as popular mobilisations and anti-racist and anti-austerity social movements, among others.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. The course runs in weeks 1-11. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will be expected to produce 1 essay and 1 presentation in the LT. An essay (1,500 words) to be submitted on Friday of Week 7, and a presentation in class during the LT.
Assessment: Essay (100%, 4000 words) in the ST. Essay to be submitted in the first week of the ST.

GV403 Half Unit Not available in 2018/19
Network Regulation
This information is for the 2018/19 session.
Teacher responsible: Prof Mark Thatcher CON417
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Regulation and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.
This course is capped at two groups. The deadline for applications is 1pm, Friday, 29 September 2017. You will be informed of the outcome by 12 noon, Monday, 2 October 2017.
Course content: The course explores analytic issues in network regulation from a generic and comparative perspective. The course explores in cross-sectoral and cross-national perspective the regulation of utilities (in particular telecommunications, electricity, gas, water and railways), covering issues such as privatisation and ownership, regulatory reform in the comparative context of several countries, as well as regulation in the context of regional integration. The course considers generic themes in network regulation, such as the rationale for regulatory agencies, as well as the linkages and trade-offs between issues of liberalisation, universal service and security of supply. Topics include: The nature of utilities and network service and the rationale for regulation; processes and styles of privatisation and regulatory reform in cross-national and cross-sectoral perspective in the context of developed and lesser developed countries; network regulation and development; the design of regulatory regimes.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
Formative coursework: All students are expected to submit a non-assessed essay and a detailed plan of their assessed essay.
Indicative reading: D Newberry, Privatisation, Restructuring and Regulation of Network Utilities, MIT Press (2000); J. Gomez-Ibánez,

**Assessment:** Exam (75%, duration: 2 hours) in the summer exam period.

Consists of two parts: (i) a two-hour unseen written examination in the ST accounting for 75% of the marks; (ii) a single essay for assessment to be submitted in the ST.

---

**GV408**  
**Half Unit**  
**Contemporary Disputes about Justice**

*This information is for the 2018/19 session.*

**Teacher responsible:** Mr David Axelsen  
**Availability:** This course is available on the MSc in Human Rights and MSc in Political Theory. This course is available as an outside option to students on other programmes where regulations permit. This course is capped at two groups. The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

**Pre-requisites:** None, though some previous exposure to normative political theory may be an advantage

**Course content:** The course offers a critical analysis of key debates about distributive justice which have followed the publication of John Rawls’ A Theory of Justice in 1971. The first part of the course focuses on Rawlsian and post-Rawlsian methods of normative justifications in relation to (distributive) justice in general and on the problematic extension of Rawls’ domestic theory of justice to the global domain. Particular attention will be paid in which issues of global justice introduce new methodological and substantive issues into normative theorizing and how these have been dealt with. The second part of the course delves into more specific issues concerning possible obligations of justice arising from global inequality and poverty. For example, we shall discuss whether and the extent to which there are universal values - and analyse the theoretical arguments for and against having such values institutionalized in the form of human rights. We shall consider the extent to which collective solidarity is limited to (and constrained by) nation-states, and how feelings of solidarity can be said to bear on obligations across borders. And we shall ask whether relations of trade, (colonial) history, cultural and linguistic similarity, and/or geographical proximity influence such obligations.

**Teaching:** 20 hours of seminars in the LT.  
There will be a reading week in week 6 of the LT for private study and formative/summative assessment preparation.

**Formative coursework:** All students are expected to submit one non-assessed essay of up to 2500 words, which will be marked and commented on but does not count towards formal assessment of this course.

**Assessment:** Essay (100%, 4000 words).

---

**GV427**  
**Half Unit**  
**Not available in 2018/19**  
**Democracy in East and South Asia**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Chun Lin  
**Availability:** This course is available on the MSc in China in Comparative Perspective, MSc in Comparative Politics and MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit. Entry to this course may be restricted.

**Course content:** This course is concerned with recent political developments in South and East Asia in their historical, international and geopolitical contexts (Southeast Asia is covered by other courses). We are in particular interested in exploring how and why the idea of democracy has evolved and contested in various forms and patterns in the region, catalysing social and institutional changes and, in some cases, regime transformation. We look at how democracy as a dynamic political project has interacted with forces of market, nationalism, modernisation and globalisation, with class, gender, ethnic, religious, and spatial identities, and with diverse local and cultural traditions. We examine conflicts, crises and uncertainties in political ideologies and policy processes relevant to the competing interpretations and conceptions of democracy. Comparatively tracing contemporary developments in the region, we learn how democracy in theory and practice is informed by discursive struggle, contentious politics, social movements and newer information technology; and why democracy must be studied historically and critically. At the end of the course, students are expected to be familiar with contemporary politics in the region, competent in discussing at least two country cases with detailed historical and empirical knowledge, and adapted to writing with a measure of disciplinary fluency in social sciences.

**Teaching:** 25 hours of seminars in the LT. This course will be taught in Lent Term, constituting 10 weeks of 2.5 hour seminars and one reading week (week 6 of the LT) for essay preparation and learning support activities.

**Formative coursework:** One seminar presentation and one 1,500-word essay.

**Indicative reading:** D Beetham, Defining and Measuring Democracy (1994); J Dower, Embracing Defeat (1999); S Bose, Transforming India (2013); P Anderson, The Indian Idea (2013); B Cumings, Korea’s Place in the Sun (2005); M Woo-Cumings (ed), The Developmental State (1999); DA Bell, The China Model (2016); M Dimitrov, What Communism did not Collapse (2013); W Kymlicka & B He (eds), Multiculturalism in Asia (2005); A Nathan & Y Chu, How East Asians View Democracy (2009); J Kingston (ed), Asian Nationalism Reconsidered (2016); M Beeson, Regionalism and Globalisation in East Asia (2014).

**Assessment:** Essay (100%, 4000 words).

**GV432**  
**Half Unit**  
**Government and Politics in China**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Chun Lin  
**Availability:** This course is available on the MSc in China in Comparative Perspective, MSc in Comparative Politics and MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit. Entry to this course may be restricted.

**Course content:** Contemporary contradictions of socioeconomic and political transformations of China since 1949 and especially 1978; their rival explanations and interpretations: Often in comparison with other postcommunist transitions, other Asian states and other national developing trajectories, our discussions will cover the evolving historical, international and geopolitical contexts of China’s development, its social and political
demography, state power at all levels of governance, central-local relations, and semi-federalism; bureaucracy as tradition and as invention; political economy and market transition as global integration; social structure and organisation; class, ethnic, and gender relations; ideology, cultural politics, and issues concerning democracy and legitimacy; nationalism, "one country, two systems", the Taiwan question; and China's military, security, and changing foreign policy and global position. Students are expected to gain extensive historical and empirical knowledge about the PRC and be capable of tackling related conceptual and theoretical questions.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. This course is offered in LT, constituting 10 teaching weeks and one reading week (week 6 of the LT) for essay and learning support activities.

**Formative coursework:** Students are required to give at least one seminar presentation, and to write one 1,500 word essay.

**Indicative reading:** M Meisner, The Deng Era (1996); J Gray, Revolutions and Revolutions (2003); C Bramall, Chinese Economic Development (2008); CK Lee, Against the Law (2007); W Sun and Y Guo, Unequal China (2013); W Tang, Populist Authoritarianism (2016); K Brown, China’s World (2017).

**Assessment:** Essay (100%, 4000 words).

---

**GV439 Half Unit Government and Politics in Central and Eastern Europe**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Vesselin Dimitrov CON 3.06

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in EU Politics and MSc in EU Politics (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course provides an analytical assessment of the transition from communism to liberal democracy in Central and Eastern Europe and integration with the European Union, including the Eurozone. It offers an in-depth analysis of institutions, party systems, government and public administration, nationalism, and EU integration, including the Eurozone. Topics covered include: The Communist system. Constitution-making and the development of democratic party systems. Reform of executive institutions and public administration. (Mis)management of ethnic conflict: the case of Yugoslavia. Integration with the European Union, including the Eurozone.

**Teaching:** 10 hours of lectures and 20 hours of seminars in the LT. There will be a reading week in Week 6 of the LT.

**Formative coursework:** Students are required to produce two seminar presentations, and to write one 1,500 word essay.

**Indicative reading:** V Dimitrov, K H Goetz and H Wollmann, Governing after Communism: Institutions and Policymaking; A Przeworski, Democracy and the Market; H Grabbe, The EU's Transformative Power: Europeanization through Conditionality in Central and Eastern Europe; J Elster et al, Institutional Design in Post-Communist Societies; R Taras (Ed), Postcommunist Presidents; R Crampton, Eastern Europe in the Twentieth Century. 2nd edn; G Schoppin, Politics in Eastern Europe; S White, J Batt & P Lewis (Eds), Developments in Central and East European Politics 3.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**GV441 Half Unit States and Markets**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof David Soskice

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Development Studies, MSc in Global Politics, MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available as an outside option to students on other programmes where regulations permit.

This course is capped at 2 groups. Priority will be given to MSc Comparative Politics students. The deadline for applications is 1pm, Friday, 29 September 2017. You will be informed of the outcome by 12 noon, Monday, 2 October 2017.

**Course content:** To introduce politics students to basic economic theorising; to discuss the nature of markets; review contemporary discussions regarding the role of the state in the economy; provide a comparison of the relationship of states and markets in different political settings and historical contexts. Topics: The state and the institutional foundations of markets; states and markets in the Great Depression; domestic and international monetary institutions; varieties of capitalism and change in varieties of capitalism; economics and politics of market bubbles; politics and policy in the financial crisis of 2007-2009; the Eurozone crisis.

**Teaching:** 20 hours of lectures and 20 hours of seminars in the LT. There will be a reading week in Week 6 of the LT.

**Formative coursework:** All students are expected to submit one non-assessed essay.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**GV442 Half Unit Globalisation and Democracy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Sarah Goff CON 4.11

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Comparative Politics, MSc in Empires, Colonialism and Globalisation, MSc in Global Politics, MSc in Human Rights, MSc in International Migration and Public Policy, MSc in Political Theory and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 2 groups – access to the course guaranteed for MSc Global Politics and MSc Global Politics and Civil Society. The deadline for applications is 1pm, Friday, 2 October 2015. In your application on LSE4U, please state your MSc programme and (briefly) your reason for taking the course.

**Course content:** The contemporary debate about globalisation raises profound questions about the changing nature and form of politics today. This course examines two dimensions of the debate: the impact of various forms of globalisation on democratic and democratising states, and the prospects for the democratisation of global politics.

The course covers the following topics: 1) how democracy can be understood as a concept, and what makes democracy valuable;
2) how democracy within states, both in affluent and developing countries, is affected by various dimensions of globalisation, notably international trade and financial flows, migration, and international institutions; and 3) whether and how global politics can be made more democratic, including an examination of the roles played by international organisations, transnational civil society, and novel governance initiatives.

**Teaching:** 20 hours of seminars in the MT. There will be a reading week in week 6 of the MT for private study and assessment preparation.

**Formative coursework:** Students will produce one 2,000 word essay.

**Indicative reading:**

**Assessment:** Essay (100%, 5000 words).

---

**GV443 Half Unit The State and Political Institutions in Latin America**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Francesco Panizza CON 5.12

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Comparative Politics, MSc in Global Politics and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

For MSc Comparative Politics, MSc Global Politics, MSc Media, Communication and Development and MPA Programme (all streams) and other graduate students may follow the course with permission from the course convener. The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

**Course content:** This is a course on contemporary Latin American politics. Its aim is to study the principal institutions and forms of organization influencing politics in the region since transition to democracy in the 1980s. Although due attention is given to country differences, the course approaches the study of politics in the region thematically rather than on a country by country basis. At the end of the course students should have a good understanding of the working of the region's formal and informal political institutions, including the state, accountability and the rule of law, presidentialism, populism, political parties, civil society and popular movements, human rights, crime and the "unrule of law" and the condition of democracy in the region. Focus on plurality of theories and frameworks of analysis with the aim of developing skills for independent analysis of the advances and setbacks of democracy in the region.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

Lectures and seminars will run from weeks 1-5 and 7-11 in MT. There will be a reading week in week 6.

**Formative coursework:** All students are expected to submit one non-assessed essay.

**Indicative reading:**

**Assessment:** Exam (75%, duration: 2 hours) in the January exam period. Essay (25%, 3000 words).

---

**GV444 Half Unit Democracy and Development in Latin America**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Francesco Panizza CON 5.12

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Comparative Politics, MSc in Global Politics and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Other postgraduate students may follow the course with permission. This course is capped at 1 group. The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

**Course content:** The course studies the relations between democracy and economic reform in contemporary Latin America. It starts mid-point through the period under study, in 1994, when there was a strong consensus about the mutually reinforcing benefits of liberal democracy, free market economics and hemispheric trade integration. It then traces back the origins of this consensus to the 1980s and discusses how it was generated by looking at the role of ideas, interests and institutions in processes of economic change. The second part of the course looks at the backlash against free market economics (also know as neoliberalism) and the rise of the left in the early 21st century as an alternative to neoliberalism. The final three sessions look at the social and economic transformation of the region in the 21st century, including the impact of the commodity boom, the rise of a new middle class and the increasing importance of economic relations with China and other Asian countries.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in week 6 of the LT for dissertation preparation and advice.

**Formative coursework:** All students are expected to submit two non-assessed essays and make at least one seminar presentation.

**Indicative reading:**
- ECLAC, Preliminary Overview of the Economies of Latin America and the Caribbean 2017 (www.cepal.org);
- ECLAC Social Panorama of Latin America 2017 (www.cepal.org);
GV450 Half Unit
European Politics: Comparative Analysis

This information is for the 2018/19 session.
Teacher responsible: Dr Vesselin Dimitrov CON 3.06
Prof Simon Hix, Prof Michael Bruter, Dr Eiko Thielemann, Dr Julian Hoerner

Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSB and Sciences Po) and MSc in European Studies (Research). This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course is intended to provide students with a systematic introduction to central conceptual and theoretical debates in the comparative politics of politics and government in Europe. The core syllabus focuses on both traditional fields of comparative enquiry, such as the study of party competition and voting behaviour, and emerging fields of interest, such as European identity, immigration, Central banks, and Europeanisation. The course takes a thematic approach and places particular emphasis on the diverse experiences of liberal democracy in individual European countries.

The main themes addressed include: Transformation of European politics; elections and electoral behaviour; party systems and representation; government formation and coalitions; regionalism and federalism; courts and central banks; European identity; immigration; European integration and domestic institutional change.

Teaching: 10 hours of lectures and 18 hours of seminars in the MT.

There will be a reading week in Week 6 of the MT for private study and assessment preparation.

Formative coursework: All students are expected to submit one formative essay and make one seminar presentation.

Indicative reading: Readings include: M Gallagher et al, Representative Government in Modern Europe, 5th ed; P Heywood et al (Eds), Developments in European Politics; M Bruter, Citizens of Europe; S Hix, The Political System of the European Union, 2nd edition; J Hayward & A Menon (Eds), Governing Europe; A Liphart, Patterns of Democracy; Y Deloye & M Bruter (Eds) Encyclopaedia of European Elections; K Shepsle & P Bonchek, Analysing Politics; G Cox, Making Votes Count; G Tsebelis, Veto Players.

Assessment: Essay (100%; 3000 words).

GV454 Half Unit Not available in 2018/19
Parties, Elections and Governments

This information is for the 2018/19 session.
Teacher responsible: Prof Torun Dewan CON6.07
Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po) and MSc in Political Science and Political Economy. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: There are no formal prerequisites.
Course content: The course focuses on key topics in political science concerning voting and representation. Topics covered include:
• Party and Candidate Strategy
• The Role and Origins of Parties
• Government Formation and Termination
• Electoral Systems: Franchise, Ballot, and Allocation formulas
• Leadership
• Political Careers
• Government Accountability

Examples will be drawn from a wide range of democracies.

Teaching: 20 hours of seminars in the LT.

In week 11 of LT students will sit a two hour mock exam.

Formative coursework: All students are expected to submit one non-assessed essay.

GV465 Half Unit
War, Peace and Politics of National Self-Determination

This information is for the 2018/19 session.
Teacher responsible: Prof Sumantra Bose CON-407
Availability: This course is available on the CEMS Exchange, MBA Exchange, MSc in Comparative Politics, MSc in Empires, Colonialism and Globalisation, MSc in Global Politics, MSc in Human Rights and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.

Priority consideration will be given to students taking the MSc Comparative Politics and the MSc Global Politics. Students on other programmes (including MSc Human Rights, MSc Empires, Colonialism, Globalisation, MSc: International Relations and MA/MSc History of International Relations) are welcome to apply and will be admitted subject to availability of space. Students on all programmes are required to obtain permission from the teaching department to take this course.

This course is capped at 4 groups, and admission cannot be guaranteed. ALL interested students must apply online via LSEForYou (LFY) as per the stipulated procedure and by the deadline which is Wednesday of MT Week 1. Students should write a brief, one-paragraph rationale for wishing to take the course in the application.

Course content: This course examines some of the most intractable and violent disputes over sovereignty and national self-determination in the world today, and inquires into the prospects of moving from war to peace through accommodation and compromise. The conflicts studied are drawn from the Middle East (Israel and Palestine), South Asia (Kashmir, Sri Lanka), the Balkans (former Yugoslavia and within it, Bosnia-Herzegovina and Kosovo) and the EU area (Northern Ireland, Cyprus). Students are exposed to the specific histories and contexts of these cases but are also encouraged to think comparatively across countries and regions.

The course materials are online on Moodle, the LSE’s electronic teaching and learning system. Are disputes arising from conflicting claims to national self-
determination inherently of a zero-sum nature, or can they be resolved? If the latter, how? What factors drive conflict at the local level? Which sorts of institutional arrangements might be able to anchor peace settlements? Can we draw useful comparative lessons from the experience of peace processes that have sought or seek to craft solutions to this type of conflict in diverse parts of the contemporary world? What roles can international actors—influential or interested foreign states, regional alliances of states, multilateral institutions—play in such processes and their outcomes?

**Teaching:** 13 hours and 30 minutes of lectures, 2 hours of lectures and 9 hours of seminars in the MT.

Ten lectures and nine seminars in the MT. The first lecture is a set-up and introductory session and lasts two hours. The other nine lectures are 1.5 hours each. There will be a reading week in week 6 of the MT for private study and assessment preparation.

**Formative coursework:** Students will be required to prepare and make one seminar presentation and write one unassessed essay of 1,500 words.

**Assessment:** Essay (100%, 5000 words) in the ST.

A paper of 5,000 words, due in the ST, will determine 100% of the final grade. Students have wide latitude in choosing the topic of their assessed paper, in consultation with the instructor. Students can choose to write on one of the assigned seminar presentation questions, or modify one of those questions, or formulate a research question of their choice.

---

**GV477 Half Unit Comparative Public Policy Change**

This information is for the 2018/19 session.

**Teacher responsible:** Charlotte Haberstroh

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Regulation and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Optional for MSc China in Comparative Perspective. This course is available on the MPA Dual Degree and MSc in Public Administration and Government.**

**Pre-requisites:** Students should normally be taking GV4E9 Approaches and Issues in Public Policy and Administration or already have a good knowledge of comparative public policy. Waiving of these requirements will be at the discretion of the course teacher.

**Course content:** The course examines explanations of policy change using cross-national comparison. The course will focus on cases in key policy domains (chosen according to the literature available and interest for wider analytical questions, as well as the expertise available, but in the examination and assessed essay, any set of (2) countries or international jurisdictions such as the EU can be used as examples. Key topics include: theoretical approaches to comparison and policy change; neo-liberalism; privatisation; regulatory reform; varieties of capitalism; the changing size and role of the state.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT.

There will be a reading week in Week 6.

**Week 11 will focus on revision.**

**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.

---

**GV467 Half Unit Introduction to Comparative Politics**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Steffen Hertog

**Availability:** This course is compulsory on the MSc in Comparative Politics. This course is available on the MSc in China in Comparative Perspective. This course is available with permission as an outside option to students on other programmes where regulations permit.

Optional for MSc China in Comparative Perspective (space permitting).

**Course content:** This course serves as the ‘core’, compulsory course for the MSc in Comparative Politics and is intended to provide an overarching theoretical and methodological backdrop for all of the diverse course offerings available to students on this programme. The course introduces students to the field of Comparative Politics as represented in contemporary journals like Comparative Politics, Comparative Political Studies, and Comparative Studies in Society and History, and among the various members of the Comparative Politics Group in the Government Department here at the LSE. Students examine the theoretical and methodological underpinnings of Comparative Politics, important critiques of these underpinnings, and diverse examples of ‘best practice’ in research and writing in this sub-field of the discipline of Politics or Political Science.

Lectures and seminar discussions focus both on important areas of research in comparative politics and methodological challenges involved. Readings treat such variegated topics of inquiry and debate in comparative politics as democracy, ethnic conflict, civil society, and revolutions.

The course does not follow a ‘great books’ approach nor rely on a textbook. Instead, the course treats examples of real existing Comparative Politics as practiced - and published - by leading scholars in the field in recent years. These examples are chosen to cover diverse forms of comparison, diverse modes of analysis, diverse topic areas, and diverse countries and regions of the world. Cutting across these forms of diversity are a set of questions that will be addressed throughout the course. These questions concern the possibilities and limitations of various methods of comparative analysis for explaining observable patterns in politics.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT.

There will be a reading week in Week 6.

**Week 11 will focus on revision.**

**Formative coursework:** One unassessed essay of roughly 1,500 words.

**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.
GV481 Half Unit
Political Science and Political Economy

This information is for the 2018/19 session.
Teacher responsible: Dr Valentino Larcinese
Availability: This course is compulsory on the MSc in Political Science and Political Economy. This course is available on the MPhil/PhD in Accounting. This course is not available as an outside option.
Course content: This course examines public policy formation, political processes and political institutions. The emphasis is on introducing some key formal models to simplify and analyze broad classes of situations. Students are not only expected to be familiar with these models but also to be able to use them to solve problems of a technical nature. The course will also emphasize rigorous empirical testing of formal models. We will focus on collective action, voting, elections, interest groups, legislative organization, political agency and bureaucracies.
Teaching: 20 hours of lectures and 9 hours of seminars in the MT. 2 hours of lectures in the ST.
There will be a reading week in Week 6.
Formative coursework: Three problem sets.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

GV482 Half Unit
Political Science and Political Economy: Advanced Topics

This information is for the 2018/19 session.
Teacher responsible: Dr Valentino Larcinese
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Regulation and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students should either have attended GV481 or be able to show a sufficiently strong background in political economy and in statistics in order to take this course.
Course content: This course presents cutting-edge research material on some specific topics. The topics vary each year and, in the past, have included identification and causality in empirical research, mass media and voting behaviour, the design of electoral systems, text analysis, the repeal of corn laws, deliberation and in statistics in order to take this course.
Teaching: 20 hours of seminars in the LT. There will be reading week in Week 6.
Formative coursework: Students are expected to give at least one presentation and to submit a piece of formative work (problem set/ essay).
Indicative reading: Mostly journal articles. The reading list varies each year.
Assessment: Essay (100%, 5000 words) in the ST.

GV483 Half Unit
Public Management Theory and Doctrine

This information is for the 2018/19 session.
Teacher responsible: Prof Martin Lodge CON.3.08 Chase Foster CON.3.10
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Regulation and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Other postgraduates require permission of teachers responsible.
Course content: The course offers an intensive introduction into key areas of public management with reference to both developed and lesser developed world contexts. Topics include administrative doctrine, implementation, organizational change and inertia, capacity building, performance-management, leadership, institution creation, transparency and risk management. Public management is treated as an interdisciplinary field of study, with a particular emphasis on the administrative practices and change as well as the critical analysis of practical arguments about Public Management.
Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT.
Week 6 will be a Reading Week. Week 11 in MT will be used for individual advice sessions.
Formative coursework: Students are expected to complete two formative essays.
Assessment: Essay (100%, 3000 words) in the LT.

GV488 Half Unit
Law and Politics of Regulation

This information is for the 2018/19 session.
Teacher responsible: Prof Martin Lodge CON.3.08 and Dr Veerle Heyvaert NAB.7.06 Chase Foster CON.3.10
Availability: This course is compulsory on the MSc in Regulation. This course is not available on the MPhil/PhD in Accounting. This course is not available as an outside option. This course is compulsory for all MSc Regulation students.
Course content: The course aims to give students an essential grounding in theories of regulation encountered in the legal, political science and law and economics literatures. It examines
competing explanations of the origins, development and reform of regulation; the styles and processes of regulation; issues surrounding enforcement; the inter-organisational and international aspects of regulation; and questions of evaluation and accountability. Some specific cases will be explored through the medium of an additional practitioner seminar series, which will be led by experienced practitioners invited on a one-off basis. The course focuses on the following key themes: contrasting perspectives on regulation, differences in regulatory styles, dynamics and processes, regulatory standard-setting, regulatory enforcement, evaluating regulation.

**Teaching:** 8 hours of seminars and 20 hours of seminars in the MT. 10 hours of seminars and 20 hours of seminars in the LT. The course is taught: (a) by 20 two-hour sessions in variable format (some lecture-discussions, student-paper led discussions, debates, preparation for the dissertation) comprising the academic core, (b) by eight seminars on ‘economics of regulation’ and ‘research design’ in the Michaelmas term and (c) a number of practitioner seminars in the Lent term, drawing on practitioners from a variety of regulated sectors. There will be reading weeks in week 6 of both the Michaelmas and Lent terms for structured learning activities.

**Formative coursework:** All students are expected to produce three written essays.

**Assessment:** Exam (75%, duration: 3 hours) in the summer exam period. Essay (25%) in the ST.

---

**GV499**  
**Dissertation**

**This information is for the 2018/19 session.**

**Availability:** This course is compulsory on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Global Politics, MSc in Political Science and Political Economy, MSc in Political Theory, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is not available as an outside option.

**Course content:** A compulsory 10,000 word dissertation is required to be submitted as part of the assessment for each Government MSc programme. The dissertation is due by 5:00 pm on Tuesday 20 August 2019.

**Assessment:** Dissertation (100%, 10000 words) in August.

---

**GV4A2**  
**Half Unit**

**Citizens’ Political Behaviour in Europe: Elections Public Opinion and Identities**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Michael Bruter

**Availability:** This course is available on the MSc in Comparative Politics, MSc in EU Politics; MSc in EU Politics (LSE and Sciences Po), MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 1 group. The deadline for applications is 12.00 noon on Friday 5 October 2018. You will be informed of the outcome by 12.00 noon on Monday 8 October.

Note that students from Masters or Doctoral programmes not listed above may still take the course subject to approval by the course convener.

**Pre-requisites:** In order to be accepted on the course, all students must submit a research project idea by the end of MT Week 2. The document should be around 1-2 pages in length and should at least do two things: first, indicating a course-related research topic and a specific research question and explain what makes it interesting, and second suggesting the methodology the student intends to use to answer this question empirically. You may, but are not obliged to include references from existing literature (which would be a good thing to do); please also include a mini-bibliography.

**Course content:** This course intends to familiarise students with the study of electoral psychology and psychological behaviour in Europe in a broad sense. The three main objects of study in political science are institutions, policies, and citizens, and the study of political behaviour and political psychology is the field that centres on the third. A very important part of political behaviour is electoral participation and vote choice. We will explore general models of voting behaviour, electoral psychology, and participation, as well as specific aspects such as extremist politics. We will look closely at public opinion, how it is formed and how it can be studied. In the final part of the course, special consideration is given to political identities and how they are related to political behaviour.
Teaching: 20 hours of seminars in the LT. 4 hours of seminars in the ST.

Assessment: Project (80%, 5000 words) in the ST. Class participation (20%) in the LT. One empirical research project on a topic relevant to the course and approved by the course co-ordinator with a word limit of 5,000 words (80%).

GV4A5 Half Unit International Migration and Immigration Management

This information is for the 2018/19 session.

Teacher responsible: Dr Eiko Thielemann CON3.14

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Political Economy, MPA in Social Impact, MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Politics, MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in International Migration and Public Policy, MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course has limited availability and requires that students (regardless of Department or MSc programme) obtain permission from the teacher responsible via the ‘LSE For You’ capped course management system. This is a core course on the MSc International Migration and Public Policy. Priority will be given to students on that programme. Last year, very few students from other programmes could be accommodated on this course.

This course is capped at 2 groups. The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

Course content: This course offers a theoretically informed account of the challenges posed by international migration and resulting policy responses. The focus is on the comparative analysis of immigration control policies in OECD countries. The course is structured in three parts. The first introduces a number of theoretical models that seek to explain the dynamics of international migration, migration control and migrant integration, addressing questions such as: Why do people migrate? Why do states accept migration? The second, comparative part deals with national public policy responses to the issue of asylum & refugees, ‘illegal’ migration & human trafficking and (legal) immigration. The final part focuses on the analysis of multilateral policy initiatives on migration management at the global, regional and bi-lateral level.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.

There will be a reading week in week 6 of the MT for advice and feedback sessions.

Formative coursework: All students are expected to submit two non-assessed essays.

Indicative reading: There is no single textbook but the following texts are useful introductions:

GV4A3 Half Unit Social Choice Theory and Democracy

This information is for the 2018/19 session.

Teacher responsible: Prof Christian List

Availability: This course is available on the MSc in Applicable Mathematics, MSc in Political Science and Political Economy and MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 1 group. The deadline for enrolments will be 12 noon, Monday 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday 5 October 2016.

Pre-requisites: An interest in analytic reasoning is required, but no prior knowledge of social choice theory or of mathematics is presupposed. Technical ideas will be presented in an introductory and pedagogical way, suitable for anyone who enjoys logical thinking.

Course content: This course gives an introduction to social choice theory and related debates in the theory of democracy. On the social-choice-theoretic side, the course introduces students to key results, including (1) May’s theorem and Condorcet’s jury theorem, which are two classic formal results on majority rule, (2) Arrow’s impossibility theorem and the Gibbard-Satterthwaite theorem, which are two much-discussed impossibility results, suggesting that rational collective decision-making may be difficult or impossible, and (3) possible escape-routes from these negative results. On the normative side, the course covers some central issues in contemporary democratic theory, which are likely to include (but need not be restricted to) (1) deliberative democracy, (2) procedural versus outcome-based or epistemic justifications of democracy, and (3) the legitimacy of democratic decisions. While all students are required to understand the implications of the main social-choice-theoretic results, they can approach these either from a more formal perspective or from a more normative perspective and make philosophical aspects of democratic theory their main focus.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Seminars in LT will include some lecture components. Seminars in ST are held for revision purposes.

There will be a reading week in week 6 of LT for private study and assessment preparation.

Formative coursework: Students will be expected to give a short presentation and to write a formative essay. Feedback will be given on this material, but it does not count towards final assessment. Students will also have the opportunity to submit an outline for the assessed essay for comments. The outline itself will not be assessed.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 2500 words).
and Terrorism

contribution to discussions, in class and on Moodle.
The in-class assessment will include a class presentation and

GV4A8    Half Unit
Nationalist Conflict, Political Violence and Terrorism

This information is for the 2018/19 session.
Teacher responsible: Prof James Hughes CON5.05
Availability: This course is available on the MSc in Conflict Studies.
This course is available with permission as an outside option to
students on other programmes where regulations permit.
This course is capped at three groups. The deadline for
applications is 12:00 noon on Friday 5 October 2018. You will be
informed of the outcome by 12:00 noon on Monday 8 October.
Course content: How can we distinguish legitimate resistance and
political violence from terrorism? What is the relationship between
war and terror? What distinguishes a combatant from non-
combatant? Do counterinsurgency methods based on force and
the securitization of the state work? Should we erode civil liberties and
democratic values to fight terrorism? What consequences follow from the prominent role of psychologists in the study of
political violence and terrorism? This course attempts to answer
these and similar questions by a comparative examination of the
theories and ethics of political violence and the root causes,
nature and types, and dynamics of violence. This course also
evaluates different political and security policies and methods of
conflict resolution as change agents. A number of case studies of
historical and contemporary conflicts are examined to illustrate the
theoretical and policy dilemmas. The course has two parts.
Firstly, it examines definitions and concepts, the root causes and
factors of radicalization in political violence, the ethical
dilemmas, the principles and efficacy of the laws and norms of
armed conflict, repertoires of political violence, and the evolution from the era of decolonization of state counterinsurgency
(COIN) and counterterrorism policies. Key motifs in COIN and
counterterrorism will be examined including coercive versus
cooperative approaches, the spectrum of dealing with communal
resistance from genocide to cooption, policies of criminalization,
and the balance between security and liberty. Secondly, it explores
the key issues and debates through a number of case studies that
analyse political violence and terrorism in democracies and
non-democracies, including the insurgency and counterinsurgency
in Northern Ireland and Iraq, and the new transnational challenges
posed by Al Qaeda and ISIS. Throughout the course comparisons
will be made and lessons drawn from the performance of different
regime types (colonial, democratic, transitional democratic, and
authoritarian) in managing political violence. This is a Moodle
course.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of
seminars in the MT. 1 hour and 30 minutes of lectures in the ST.
There will be a reading week in week 6 of the MT for private study
and assessment preparation.

Formative coursework: One essay of 2,500 words. Students must also contribute to a group presentation.

Indicative reading: Tore Borgo ed. Root Causes of Terrorism, Routledge (2005); Andrew Silke ed. Terrorists, Victims and Society,
Psychological Perspectives on Terrorism and its Consequences, Wiley (2003); David Whittaker, The Terrorism Reader, Routledge
(3rd edn, 2007); Michael Walzer, Just and Unjust Wars: A Moral Argument with Historical Illustrations, Basic Books (1992), Arguing
about War, Yale University Press (2004); Michael Ignatieff The

(2016); Jeff Victoroff and Arie W. Kruglanski eds, Psychology of
Terrorism. Classic and Contemporary Insights, Psychology Press
(2009).

Assessment: Exam (100%, duration: 2 hours) in the summer exam
period.

GV4B6    Half Unit
Kant’s Political Philosophy

This information is for the 2018/19 session.
Teacher responsible: Prof Katrin Flikschuh CON6.08
Availability: This course is available on the MSc in Political Theory.
This course is available with permission as an outside option to
students on other programmes where regulations permit.
Optional for MSc Political Theory; open to others as an outside option on request.
This course is capped at 2 groups.
The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on
Monday 8 October.
Pre-requisites: None, though an appetite for abstract philosophical thought will be an advantage (however, no previous experience is required).

Course content: An introduction to and critical appraisal of Immanuel Kant’s political philosophy. Despite the enormous
influence which Kant’s moral philosophy has exerted on debates in contemporary liberal thinking, his political philosophy has until
recently been largely ignored. This is beginning to change: Kant’s political philosophy is beginning to be studied in its own right.
Such study shows that his political thinking diverges in many of its central aspects from contemporary liberal thinking: the impact
of Kant’s thought upon the latter must, therefore, be re-assessed. Through close reading and analysis of the primary texts, this
course introduces students to Kant’s distinctive approach to
to political thinking. Core texts will include selected passages from the Doctrine of Right (Part 1 of the Metaphysics of Morals), Kant’s
celebrated essay, ‘On Perpetual Peace’, and his less well known, but no less important essay ‘On the Common Saying: “This may
be true in theory, but does it work in Practice?”. The analytic and substantive focus will be on three interrelated themes: Kant’s idea
of freedom as an idea of reason; his account and justification of
individual property rights and related conception of state authority; and his cosmopolitan conception of justice. Although the analytic
and philosophical focus will be on Kant’s own political thinking, we shall compare and contrast Kant’s position with contemporary
Kantian liberalism wherever appropriate.

Teaching: 20 hours of seminars in the LT.
There will be a reading week in week 6 of the LT for private study and formative/summative assessment preparation.

Formative coursework: Students are expected to come well
prepared and take an active role in seminar discussion. Students are expected to write one formative essay (of up to 2500 words).
These will be marked and commented, but do not count towards
formal assessment for this course.

**Assessment:** Essay (100%, 5000 words).

---

**GV4B7 Half Unit**

**The Liberal Idea of Freedom**

**This information is for the 2018/19 session.**

**Teacher responsible:** Mr David Axelsen

**Availability:** This course is available on the MSc in Human Rights and MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at two groups. The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

**Pre-requisites:** Basic familiarity with concepts and methods in normative political theory.

**Course content:** The concept of freedom is often invoked in political life. Many policies and broader political agendas are justified in its name. In fact, an entire political ideology, ‘liberalism’ (arguably the dominant one in the Western world) appears to be built around the idea of freedom. But what, exactly, does freedom mean? Is freedom best understood in terms of absence of interference or in terms of non-domination? Is one made unfree only when one’s rights are violated? Does poverty constitute a constraint on freedom? And could citizens of an authoritarian regime be described as free? These are some of the questions addressed in this module. Depending on the particular year in which the module is taught, the approach taken may be either historical or contemporary-analytic or a combination of the two. Consequently, authors discussed may include key historical thinkers such as Hobbes, Locke, Rousseau, and Kant, as well as contemporary scholars such as Isaiah Berlin, Charles Taylor, Philip Pettit, Quentin Skinner, Amartya Sen and others. The overall aim of the course is to enable students to assess the quality and strength of different theorists’ conceptions of freedom and to deploy those conceptions in the analysis and justification of some core institutions within the liberal state.

**Teaching:** 20 hours of seminars in the MT. Two-hour weekly sessions in the MT. There will be a reading week in week 6 of the MT for advice and feedback.

**Formative coursework:** All students are expected to submit one formative (non-assessed) essay.

**Assessment:** Essay (100%, 4000 words). The extended essay will be based on a topic examined in the course.

---

**GV4B8 Half Unit**

**Contemporary Civil Wars: Comparative Case Studies**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr William Kissane CON5.06

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Conflict Studies and MSc in Women, Peace and Security. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** The course examines social science explanations of the origins, intractability and outcomes of civil wars. It does this through the comparative analysis of various cases. These cases may vary from year to year. Particular stress is on: The Concept of Civil War. Patterns of civil war since 1945. Large N approaches. Decolonisation, Democratisation, and State-Building as causes of civil war. The emergence of security dilemmas. Theories of conflict resolution, reconstruction and the settlement of civil wars.

**Teaching:** 15 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in week 6 of the LT for private study and assessment preparation.

**Formative coursework:** All students are expected to submit one non-assessed essay.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**GV4B9 Half Unit**

**The Second Europe**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Vesselin Dimitrov CON 3.06

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in European Studies (Research), MSc in Global Europe: Culture and Conflict and MSc in Global Europe: Culture and Conflict (LSE & Sciences Po).

This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course explores the problems of delayed modernisation, problematic democratisation, conflictual nation-building and geopolitical insecurity in the European semi-periphery, including countries such as Russia, Poland, Spain, Italy, Austria-Hungary, and Sweden. It analyses the socio-economic structures, political issues and problems shared by the European semi-periphery from the first wave of liberal globalisation and the emergence of mass politics in the late 19th century to European integration in the early 21st century. It analyses the strategies adopted by political elites and social classes in the face of modernisation, imperial decline, nationalism, and European integration.

Course topics include: The emergence of core and semi-periphery in Europe; Problems of modernisation; Ruling elites and structures of power; State nationalism, sub-state nationalism and problems of nation-state building; Religion: the socio-political power of the church; Political parties and ideologies; Fascism and varieties of right-wing authoritarianism in the 1920s and 1930s; Communism; Empire and EU integration.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. There will be a reading week in Week 6 of the LT for private study and assessment preparation.

**Formative coursework:** Students are required to submit one formative essay of 2000 words.

GV4C2 Half Unit Not available in 2018/19
Globalisation, Conflict and Post-Conflict Reconstruction

This information is for the 2018/19 session.
Teacher responsible: Dr Denisa Kostovicova CON 4.15
Additional teaching: Dr Vesna Bojic-Dzelilovic
Availability: This course is available on the MSc in African Development, MSc in Comparative Politics, MSc in Conflict Studies, MSc in Global Politics, MSc in Human Rights, MSc in International Development and Humanitarian Emergencies and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.
The students of MSc in Conflict Studies, MSc in Global Politics, MSc in Global Politics (Global Civil Society), and MSc in Comparative Politics have priority access to the course. This course has limited availability (is capped), and requires that students (regardless of Department or MSc programme) obtain permission from the teacher responsible. It is capped at 2 groups. The deadline for applications is 1pm, Friday, 29 September 2017. You will be informed of the outcome by 12 noon, Monday, 2 October 2017.
Course content: The course offers a theoretically informed account of the challenges faced by post-totalitarian transition countries emerging out of totalitarian regimes in the era of globalisation, and examines them empirically in reference to examples from the Balkans, the Caucasus and the Middle East. The regions chosen are those which have experienced particular difficulties in effecting a peaceful process of transition to democracy, market economy and integration in a multinational system. The course will start with an introduction to theories of globalisation and the reasons why the legacy of totalitarianism is different from the legacy of classic authoritarian states. The course is structured around three issue areas: political ideologies and state breakdown, transition economy and organised crime; post-totalitarian society. It looks at nationalism linked to global diasporas and fundamentalist networks, new wars in the context of international intervention, and international protectorates. Transition economy includes both an introduction to transition strategies (privatisation, liberalisation and macro-economic stabilisation) as well as the perverse effects of illegal economic networks and organised crime stemming both from the totalitarian past and the impact of globalisation. The last block of questions investigates post-totalitarian societies from the perspective of transition justice, (un)civil societies and new minorities. While analysing these issues accompanied with relevant regional illustrations particular attention is made to grasp unique aspects of post-totalitarianism triggered by the simultaneity of transition and globalisation.
Teaching: 15 hours of lectures and 15 hours of seminars in the MT.
Formative coursework: All students are expected to produce one written essay, plus one short presentation on topics assigned to them.

GV4C5 Half Unit Not available in 2018/19
Politics of Economic Policy

This information is for the 2018/19 session.
Teacher responsible: Prof Cheryl Schonhardt-Bailey CON6.05
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
It is capped at 1 group, and is approved by process of application. The deadline for applications will be 1:00 pm, Friday 29 September, 2017. You will be informed of the outcome by 12 noon, on Monday 2 October 2017.
Course content: This course provides an advanced policy-oriented analysis of the politics of economic policymaking in advanced industrialized countries drawing on both contemporary, historical and comparative introduction into the politics of economic policy. It applies explicitly the frameworks of interests-based, ideational and institutional approaches to the study of economic policies. It seeks to explore both the independent and interactive effects of interests, ideas and institutions on economic policies. These policies include macroeconomic policy areas such as financial stability and financial crises, independent central banking, as well as trade policy (contemporary and classic case studies), and economic aspects of Brexit.
Teaching: 10 hours of lectures and 15 hours of seminars in the MT.
Early weeks present the theoretical frameworks of interests, ideas and institutions, as applied to the politics of economic policymaking more generally. The remaining weeks focus on specific economic policies, including independent central banking, financial stability and financial crises, trade and Brexit. Three of the course lectures will be given jointly with the undergraduate course, Politics of Money and Finance in Comparative Perspective (GV309).
There will be a reading week in week 6 of the MT for private study...
and assessment preparation.

**Formative coursework:** Students will be required to submit one formative essay in the MT.

**Assessment:** Essay (90%, 5000 words) and in class assessment (10%).
10 % in-class seminar presentation; 90 % essay (5000 words),

---

GV4C8  Half Unit
Game Theory for Political Science

This information is for the 2018/19 session.

**Teacher responsible:** Dr Kostantinos Matakos

**Availability:** This course is compulsory on the MSc in Political Science and Political Economy. This course is available on the MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

MSc Political Science and Political Economy students will be granted priority access as this is a compulsory course on this programme. Other postgraduates wanting to take the course (space permitting) require the permission of the teachers responsible.

**Course content:**
Introduction to game theory for graduate students of political science
1. The ingredients of games. Static games of complete information.
   Normal form and extensive form representation.
   Dominant strategies. Iterated deletion of strictly dominated strategies.
   Nash equilibrium. Mixed strategies.
4. Applications to Political Science.

**Teaching:** 20 hours of lectures and 8 hours of seminars in the MT.
1 hour of seminars in the ST.

In addition students will sit a two hour mock exam in week 11 of MT.

**Formative coursework:** Weekly problem sets to be completed and discussed in class.

**Indicative reading:**
Martin van Bruinesen (ed.), Contemporary Developments in Indonesian Islam: Explaining the "Conservative Turn" (Singapore: Institute of Southeast Asian Studies, 2013);

**Assessment:** Exam (50%, duration: 2 hours) in the January exam period.

---

GV4C9  Half Unit
Globalization and Democratization in Southeast Asia

This information is for the 2018/19 session.

**Teacher responsible:** Prof John Sidel CON4.02

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Development Management, MSc in Development Studies, MSc in Global Politics and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at one group. The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

**Course content:**
This course focuses on the diverse processes of globalization and democratization observed in Southeast Asia over the past few decades. Special attention is paid to democracy in Indonesia and the Philippines, regression from democracy to military rule in Thailand, recent movements towards democracy in Myanmar, and 'creeping pluralism' and 'creeping constitutionalism' in Vietnam. The course examines important trends and developments accompanying globalization and democratization in the region - in government-business relations, in local politics, in civil society, in religious practices, in inter-communal relations, and in the organization and use of violence in politics. Throughout the course, the countries examined are treated as cases suitable for analysis and comparison in the light of the broader Comparative Politics and Global Politics literatures on globalization and democratization.

The course begins by situating globalization and democratization in Southeast Asia against a comparative historical and sociological backdrop, paying close attention to the variegated patterns of class, state, and religious formation in the region. The course compares processes and patterns of globalization and democratization across the Philippines, Thailand, Indonesia, and Myanmar. Lectures, readings, and seminar discussions then turn to key trends accompanying democratization in Southeast Asia. The trends examined include campaigns against 'corruption' and in support of 'the rule of law' and 'good governance', social movements and struggles for popular empowerment; the democratization of religious practices and institutions; religious violence, and separatist mobilization. These trends are treated through comparative analysis of different cases within Southeast Asia and in the light of relevant theoretical literatures drawn from Comparative Politics and Global Politics.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

There will be a reading week in week 6 of the MT for complementary structured learning activities.

**Formative coursework:** One non-assessed 1,000 word essay.

**Indicative reading:**

**Assessment:** Essay (90%, 5000 words) and in class assessment (10%).
10 % in-class seminar presentation; 90 % essay (5000 words),
GV4D3  Half Unit
Local Power in an Era of Globalization, Democratization, and Decentralization

This information is for the 2018/19 session.

**Teacher responsible:** Prof John Sidel CON4.02

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Development Studies and MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course has limited availability (is capped), and requires that students (regardless of Department or MSc programme) obtain permission from the teacher responsible. It is capped at 2 groups.

The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

**Course content:** Over the course of the past two decades, the inter-related processes of globalization, democratization, and decentralization are said to have generated new social forces and political freedoms in localities around the world. Market reforms and village elections in China, the end of Communist Party rule in Russia and Eastern Europe, and trends of (re)democratization in Asia, Africa, and Latin America have all offered new opportunities for local people to effect change in local politics around the world.

Yet academic, journalistic, and policy accounts have highlighted the rise and resilience of “local despotisms” – “authoritarian enclaves,” “bosses,” “caciques,” “chiefs,” “clans,” “local strongmen,” “mafias,” “warlords” – in the midst of this restructuring of market, electoral, and administrative circuits. This course focuses on this phenomenon of what scholars have come to call “subnational authoritarianism,” competing explanations for its emergence and entrenchment, the diversity of its manifestations, and various challenges mounted against its perpetuation. The goals of the course are twofold. First, the course offers a critical examination of competing accounts of the emergence and trends of (re)democratization in localities in diverse settings across the world. Second, the course helps students think more carefully, critically, and creatively about local politics more broadly, and to do so with an eye towards the comparative analysis of local power structures rooted in local economies and societies. The course begins with an examination of an emerging new political-science literature on “subnational authoritarianism” and a more established body of scholarship on clientelism and machine politics. The course then turns to case studies in diverse settings, ranging from southern Italy to China, India, Indonesia, Nigeria, and Russia, and extending to cases of “warlordism” in contexts such as contemporary Afghanistan, Iraq, and Somalia. The readings allow students to examine and evaluate competing explanations for the rise and entrenchment of local bosses, chiefs, clans, and mafias, diverging descriptions of their modes of domination, and alternative accounts of their disappearance, evolution, or transformation in the face of economic, social, and political change.

Successive weeks also explore the links between constellations of local politics on the one hand, and patterns of economic development, ethnic conflict, and religious mobilization on the other. The final weeks of the course shift attention to the efforts to challenge entrenched local power structures and to create “countervailing power” through popular mobilization, political participation, and social empowerment in localities in diverse settings across the world.

**Teaching:** 10 hours of lectures and 13 hours and 30 minutes of seminars in the LT. There will be a reading week in week 6 of the LT for complementary structured learning activities.

**Formative coursework:** One non-assessed 1,000 word essay.

**Assessment:** Examinations (50%, duration: 2 hours) in the summer exam period. Essay (50%, 3000 words).

GV4D4  Half Unit
The Politics of Inequality and Redistribution

This information is for the 2018/19 session.

**Teacher responsible:** Dr Jonathan Hopkin CON5.18

**Availability:** This course is available on the MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Politics, MSc in Inequalities and Social Science, MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at two groups.

The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

**Course content:** This course provides an overview of contemporary redistributive politics in the rich democracies. The objective is to explain why the distribution of wealth, income and opportunities differs so much between democratic countries with similar levels of economic development. The course draws largely on literature from the field of comparative politics, although perspectives from other disciplines - such as economics and social policy - are brought in as appropriate. The focus is on tracing the interactions between political institutions such as political parties and elections, labour market institutions, and the redistributive institutions of the welfare state. This approach is used to examine the growth of the public sector in the twentieth century, the differences between Social Democratic and Christian Democratic welfare states, the impact of wage bargaining institutions, the redistributive implications of age, gender and territorial location, and redistribution through corruption and rent-seeking. By tracing interactions between constitutional arrangements, electoral politics, and the institutions of the welfare system and the labour market, explanations can be provided for the striking differences in social cohesion and human development amongst the world’s rich democracies.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. Lecture will run weeks 1-5 and 7-11. Seminars will run weeks 1-5 and 7-11. There will be a reading week in Week 6.

**Formative coursework:** All students are expected to submit one non-assessed essay.

**Assessment:** Essay (100%, 4000 words).
**GV4D7**  Half Unit
Dilemmas of Equality

This information is for the 2018/19 session.
Teacher responsible: Dr Sarah Goff

Availability: This course is available on the MSc in Gender, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Human Rights, MSc in Inequalities and Social Science and MSc in Political Theory. This course is available as an outside option to students on other programmes where regulations permit.

This course is capped at 2 groups. The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

Course content: The course starts with the general questions of why equality matters and what is to be equalized. It then introduces some of the major debates in the contemporary egalitarian literature: equality of opportunity versus equality of outcome; luck egalitarianism versus relational equality; and social equality versus global equality. Throughout the course, and particularly in the latter half, we consider concrete social problems and dilemmas faced by those who are committed to the ideal of equality. Topics covered this year include discrimination, and policies that aim to reduce inequalities between social groups.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT.
There will be a reading week in Week 6 of the LT for private study and assessment preparation.

Formative coursework: Students will submit a short formative essay (up to 1500 words) and will be given feedback on this before submitting their assessed coursework.

Assessment: Essay (100%, 5000 words).

**GV4E1**  Half Unit
Comparative Democratization in a Global Age

This information is for the 2018/19 session.
Teacher responsible: Dr William Kissane

Availability: This course is compulsory on the MSc in Comparative Politics. This course is available on the MSc in Comparative Politics, MSc in Conflict Studies and MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: To introduce students to the fundamental political science debates about the phenomenon of democratization, to explore the explanatory strength of key paradigms, and to compare distinct modes of democratization. Specific topics are: Definitions of democratization and democratic consolidation; capitalist development and democratization, civil society, elite transitions and international interventions, post-communist transitions, post-civil war democracy, democratic revolutions, constitutional modernization regimes.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of seminars in the LT.
There will be a reading week in week 6 of the MT for private study and assessment preparation.

Formative coursework: All students are expected to submit one non-assessed essay.

Indicative reading: D Potter et al, Democratization, J. Grugel, Democratization, Rueschmeyer, Stephens and Stephens, Capitalist Development and Democracy, J Linz and A S Stepan, Problems of Democratic Transition and Consolidation

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.
the Western Balkans, North and South Caucasus, and Central Asia, including Afghanistan. Themes considered include: state collapse of the USSR and Yugoslavia, theories and forms of state-building, democratization, nationalism and nation-state building, internal armed conflicts; conceptualising 'failed state'; nationalist mobilisation and the 'nationalising' state; ethnic democracies; authoritarian state-building; succession and national and ethnic conflict management; the political economy of armed conflicts; democracy promotion, international conditionality and intervention, in particular by the EU and U.S.; the politics and security challenges posed by 'frozen conflicts'. As an LSE Moodle course, most of the weekly essential readings are available online.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT.

There will be a reading week in week 6 of the MT.

**Formative coursework:** Students are expected to submit one essay outline (1000 words) in preparation for the assessed essay, and prepare one group seminar presentation.

**Assessment:** Essay (100%, 5000 words).

---

GV4E9  
**Half Unit  
Not available in 2018/19**

**Conflict and Institutional Design in Divided Societies**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Paul Mitchell CON5.14

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Politics and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Priority will be given to students on the MSc in Conflict Studies. This course is capped at 2 groups.

The deadline for applications is 1pm, Friday, 29 September 2017. You will be informed of the outcome by 12 noon, Monday, 2 October 2017.

**Course content:** The internal resolution of serious ethnic and national conflicts almost inevitably involves some form of power sharing and/or power division (autonomy and federalism). While power sharing is often invoked in normative and comparative accounts of conflict resolution, it is less frequently systematically examined. Conflict and Institutional Design (CID) is a comparative analysis of the making, maintenance and too often breaking of power sharing agreements. When and how are peace agreements negotiated? Does UN peacekeeping make a positive difference? What role than transitional justice mechanisms perform? Do they help? What type of power-sharing and federal designs are available? Under what conditions is power sharing likely to help contain conflict, and when does it fail? The course will pay particular attention to what happens after a power-sharing agreement is reached. The institutional focus will include analysis of electoral system design for divided societies, the dynamics of electoral and party competition within ethnic segmentation and consociational governance (power-sharing constitutions, executives, legislatures and federations). Why do some power-sharing regimes succeed while others fail?

**Teaching:** 20 hours of lectures and 15 hours of seminars in the LT.

There will be reading week in Week 6 of the LT.

**Formative coursework:** Two briefing papers on pre-selected key concepts/cases.

**Assessment:** Essay (100%, 5000 words) in the ST.

The research essay will be on a topic of your choice. Having said that the topic will be discussed between each of you and myself and I must approve the topic. The research paper should ideally examine a research question using relevant concepts and theories, and must have an empirical dimension that is relevant to the themes of the course. Empirical is understood in the broadest sense: your material could be a case study set in an appropriate theoretical framework, in which you examine a theory. In comparative case studies, it could be quantitative or qualitative. Whatever is deemed appropriate to the research question at hand. Bear in mind though that broad surveys are generally not a good idea. After all 5000 words is about half the standard size of a journal article. Much more advice about the essay will be given as the course progresses both collectively and in individual meetings with each of you. One of the aims in asking participants to write a paper is to help you to think about research questions and appropriate research design. Thus we are aiming at more than a traditional essay (which largely summarizes what significant others have said), and to begin to make the transition towards ‘postgraduate research’ in which you help develop new insights and/or new empirical knowledge. This should also help you when approaching the planning and writing of your MSc dissertation. Since you will be working on something that really interests you I hope that this will be an enjoyable experience.

---

GV4E9

**Approaches and issues in Public Policy and Administration**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Edward Page CON 3.05

**Dr Daniel Berliner**

**Availability:** This course is compulsory on the MSc in Public Administration and Government (LSE and Peking University) and
MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course is designed to introduce MSc students to major issues in understanding public administration and policy advice. It will be divided into three classes. 18 of the lectures will reflect the topics to be covered in the weekly classes (18 plus 1 revision class) addressing key themes in Public Policy and Public Administration. Some of these lectures may be given by other colleagues teaching on the MSc degree as well as by outside speakers. 2 lectures and classes will cover dissertation writing (for GV499) in the field of public policy and administration. Compulsory for students on MSc Public Policy and Administration and the LSE-PKU Double Degree in Public Administration and Government.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST. There will be a reading week in week 6 of the MT and the LT for private study and assessment preparation.

Formative coursework: Three formative essays, two in the Michaelmas Term and one in the Lent Term.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period. Essay (25%, 3000 words).

GV4F4 Half Unit Policy Advice in Theory and Practice

This information is for the 2018/19 session.

Teacher responsible: Prof Edward Page CON 3.05

Availability: This course is available on the MSc in International Migration and Public Policy, MSc in Public Administration and Government (LSE and Peking University) and MSc in Public Policy and Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 2 groups. The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.

Course content: Many masters graduates in public policy and administration go on to work in organizations that produce or consume policy advice. With this in mind, this course will look at how policy advice is produced and used. It has three objectives: to introduce students to a range of theoretical and empirical scholarship on the issues involved in producing and using policy advice; to develop the practical policy analysis, advice and communication skills required of policy advisors, and to expose students to practitioners who produce and use policy advice.

Students will develop their policy analysis and communication skills by working through real-world cases during the seminars and in the formative and assessed coursework.

Teaching: 8 hours of lectures and 15 hours of seminars in the LT. In addition there will be between two and five guest speaker sessions.

Formativeworkcourse: Two formative essays (2,000 words) designed to help students in developing their project work, two presentations, and a mock examination.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period. Project (50%, 2000 words).
GV4F5  Half Unit
Advanced Study of Key Political Thinkers
This information is for the 2018/19 session.
Teacher responsible: Dr Signy Gutnick Allen CON.7.03
Availability: This course is available on the MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 1 group.
The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.
Pre-requisites: An advanced undergraduate course in the History of Political Thought or Political Philosophy, or following consultation with the course teacher.
Course content: This course provides an opportunity to study the work of Thomas Hobbes in-depth. It will focus on his major works, with an emphasis on themes in his political theory: authorisation and the state, free will, the nature of the law, political resistance, the international sphere, and the relationship between civil and religious authority. We will situate Hobbes’s arguments in their political and theoretical context, as well as exploring both how subsequent theorists understood and employed his ideas, and the major contemporary critical debates in Hobbes scholarship. The seminar will therefore blend intellectual history and political theory. In our final seminar, we will consider how a trio of controversial twentieth-century thinkers (Carl Schmitt, Hannah Arendt and Giorgio Agamben) responded to Hobbes’s theory of political sovereignty.
Teaching: 20 hours of seminars in the LT.
There will be a reading week in week 6 of the LT for private study and assessment preparation.
Formative coursework: Students will be encouraged to submit one formative essay of no more than 1500 words.
Assessment: Essay (100%, 4000 words).

GV4F9  Half Unit
The Challenges of Governance and Conflict in Sub-Saharan Africa
This information is for the 2018/19 session.
Teacher responsible: Dr Omar Mcdoom
Availability: This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Global Politics and MSc in Work, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at two groups.
The deadline for applications is 12:00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.
Course content: The course is organized around a set of ten ‘big’ normative and empirical questions that have confronted the continent’s leaders and peoples and engaged scholars and policymakers since the end of colonial rule. Specifically:
Q1. What has been the legacy of colonial rule and where does the responsibility of Africa’s own leaders for both the continent’s misfortunes and achievements begin? Q2. Should we always see clientelism and patronalism as antithetical to building a modern state, strong institutions, and the rule of law? Q3. What have been the effects of promoting liberal democracy in sub-Saharan Africa and how seriously should we take alternative indigenous models of governance? Q4. Are Africa’s civil wars primarily attributable to the relative feasibility of rebellion against the state or are they tied to societal grievances? Q5. Why may Africa’s wealth of natural resources be seen as both a curse and blessing? Q6. Is it simply trite to say aid, particularly the western neoliberal model, has hurt Africa more than it has helped? Q7. Should the international community assume a responsibility to protect when confronted with massive human rights violations or does intervention in the continent’s conflicts in fact do more harm? Q8. Should the re-orientation of some African states towards non-western partners such as China and India be viewed as a positive shift? Q9. Should we take ‘Islamist’ violence – Boko Haram, Al Qaeda in the Maghreb, and Al Shabaab - in SSA more seriously than other forms of political violence? Q10. What has been the significance of Rwanda’s genocide for the engagement of the international community with the continent?
Linking all of these questions is an underlying inquiry into what assures the political and social stability of some sub-Saharan states but threatens ordered rule in others. Which of the myriad explanations proffered – natural resource abundance, high ethnic diversity, poor geography, weak state capacity, arbitrary borders, inter-group inequalities, among others – best accounts for sub-Saharan Africa’s high incidence of civil wars and communal violence? The overarching goal of the course is to equip students who work or seek to work in the policy-making arena with both an understanding of the major theories and an appreciation of the limits of extant empirical research relating to each of these questions so that they may look critically yet constructively at current strategies for meeting the challenges of governance on the continent. The course will tackle each of these questions through country case studies selected from the major country groupings

Institutions and Global Trade
This information is for the 2018/19 session.
Teacher responsible: Dr Stephanie Rickard CON.6.11
Availability: This course is available on the MSc in Comparative Politics and MSc in Political Science and Political Economy. This course is not available as an outside option.
Course content: This course examines the role institutions play in global trade. Theories from both economics and political science are used to understand how formal institutions shape states’ trade policies. Both domestic and international institutions influence countries’ trade policies. Therefore, this course examines domestic political institutions, such as electoral systems, as well as international institutions, such as the World Trade Organization.
Teaching: 15 hours of lectures and 10 hours of seminars in the LT.
There will be a reading week in week 6 of the LT for private study and assessment preparation.
Formative coursework: Students will be asked to complete weekly writing assignments.
Assessment: Essay (100%, 4000 words) in the ST.
to minimize the risk of students forming a regionally-skewed perspective on a diverse continent. The course will also draw on a range of methodological approaches - quantitative, historical, and qualitative - though students will not need any prior specialized training.

Teaching: 15 hours of lectures and 20 hours of seminars in the LT. 1 hour and 30 minutes of lectures and 2 hours of seminars in the ST. There will be a reading week in week 6 of the LT for private study and assessment preparation.

Formative coursework: Students will be required to complete one formative essay (1,500 words).

**GV4G4 Half Unit**

**Comparative Conflict Analysis**

This information is for the 2018/19 session.

Teacher responsible: Prof James Hughes, Dr William Kissane, Dr Denisa Kostovicova and Dr Paul Mitchell

Availability: This course is compulsory on the MSc in Conflict Studies. This course is not available as an outside option. Compulsory core course for and entry restricted to MSc Conflict Studies students only. It is capped at 3 groups. The deadline for enrollments is 12:00 noon on Friday 5 October 2018.

Course content: What is intra-state conflict? How should we investigate and measure political violence? What causes national and ethnic conflict and other forms of political violence and why does it take particular forms? What are the most effective means of conflict resolution? This course will introduce students to the core theoretical debates on intra-state conflict and political violence by analysing the major research in the field, both quantitative and qualitative. The course is structured around three categories of analysis and explanation: causation, dynamics and outcomes. Central themes include: the role of violence in state formation, development and collapse; theories of legitimacy, contentious politics and control regimes; the causes, dynamics and consequences of civil war; the interaction of group identities, interests and political violence; macro- and micro-analyses of conflict; and top-down and bottom-up methods for ending violent conflict, including intervention, the role of civil society, and institutional designs. The course offers students the opportunity to engage with the main methodological approaches to the study of conflict, including critical case studies, process tracing, small n and large n research, which will enhance their skills for the dissertation. In the weekly lectures and seminars the themes will be explored through a mix of theory-based readings and works which provide in-depth case studies.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT.

There will be a reading week in Week 6.

Formative coursework: Students are required to complete one formative essay of 2,000 words.

GV4G7  Half Unit  Marx and Marxism

This information is for the 2018/19 session.
Teacher responsible: Prof Lea Yip
Availability: This course is available on the MSc in Political Theory. This course is also available as an outside option to students on other programmes where regulations permit.
This course is capped at 2 groups.
The deadline for applications is 12.00 noon on Friday 5 October 2018. You will be informed of the outcome by 12:00 noon on Monday 8 October.
Course content: The course is an advanced level course providing the opportunity to read original texts in the history of Marxism and engage with the more recent normative literature related to these texts. The course will cover key issues in the study of Marxism such as the materialist conception of history, the idea of class and class struggle, the role of the state, the analysis of exploitation, the defence of revolution, the role of the party, the analysis of imperialism. It will introduce you to the thought of an author that is often referred to in a range of literatures and will provide the opportunity to read original texts and engage with scholarly controversies (both historical and normative) generated by these texts.
Teaching: 10 hours of lectures and 10 hours of seminars in the MT. There will be a reading week in week 6 of the MT for private study and assessment preparation.
Formative coursework: One formative essay of around 2,500 words.
Assessment: Essay (100%, 4000 words).

GV4H1  Half Unit  Chinese Political Thought

This information is for the 2018/19 session.
Teacher responsible: Prof Leigh Jenco CON4.13
Availability: This course is available on the MSc in China in Comparative Perspective and MSc in Political Theory. This course is also available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at one group. The deadline for enrolments will be 12 noon, Monday, 3 October 2016. You will be informed of the outcome by 12 noon, Wednesday, 5 October 2016.
Course content: This course will introduce students to recurring debates and concepts within Chinese political thought. We focus on the germinal texts of the Warring States period (circa 400 BCE), such as the Analects of Confucius and the Dao De Jing of Laozi, which continue to shape political debate in East Asia. Reading texts in translation, we will critically examine the variety of normative frameworks that have structured political thinking in Chinese history, with a particular focus on the relationship between personal agency and political outcomes. This is NOT a history course; its broader goal is to help students use Chinese thought to think critically and creatively about political and social life in general and not just in ‘Chinese’ contexts. This course is suitable for students interested in political theory, philosophical approaches to politics, Chinese studies, and/or the history of political thought. Readings are entirely in English and NO prior knowledge of Chinese or China is required.
Teaching: 15 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in Week 6.
Formative coursework: Students will be required to make one in-

GV4H2  Half Unit  Contemporary India: The World’s Largest Democracy in the Early 21st Century

This information is for the 2018/19 session.
Teacher responsible: Prof Sumantra Bose
Availability: This course is available on the MSc in Comparative Politics and MSc in Global Politics. This course is also available with permission as an outside option to students on other programmes where regulations permit.
Priority will be given to students taking the MSc Comparative Politics and the MSc Global Politics. Students on other Master’s programmes, in all Departments of the School, are welcome to apply to take the course and will be considered subject to availability of space. This course is capped at 30 students (two seminar groups).
The deadline for applications is 1pm, Friday, 29 September 2017. You will be informed of the outcome by 12 noon, Monday, 2 October 2017.
All students, regardless of programme and department, must apply via LFY to take this course by the stipulated deadline.
Course content: This course is an advanced introduction to the politics and international relations of contemporary India, the world’s most populous and diverse democracy and one of the “rising powers” of the 21st century.
After the first week’s introductory and overview session, the next six weeks cover in depth the evolution of India’s democracy since the 1950s. The emphasis is on political changes and transitions since the 1990s. Key topics include the transitions from a polity dominated by a single party to a highly plural and competitive polity defined by the rise of “regional” parties in many of the 29 states of the Indian Union, and from a relatively centralized to a federal polity. Two current challenges with deep roots in the past are also surveyed: the Maoist insurgency in some parts of India and the chronic discontent in the Kashmir Valley.
The final three weeks look at India’s role in the international politics of the early 21st century. The focus is on India’s three most important (and interconnected) external relationships: with China, the United States, and Pakistan.
Teaching: 20 hours of seminars in the MT. There will be a reading week in week 6 of the MT for private study and assessment preparation.
Formative coursework: One review essay of a secondary source from the course reading list, 750-1000 words; One formative essay of 1500 words maximum excluding footnotes and bibliography, on an assigned topic.
Assessment: Essay (100%, 4000 words).
GV4H3  Half Unit  Feminist Political Theory

This information is for the 2018/19 session.

Teacher responsible: Prof Anne Phillips

Availability: This course is available on the MPhil/PhD in Gender, MSc in Gender, MSc in Gender (Research), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities and MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course covers some of the central debates in contemporary feminist political theory, with a particular emphasis on the legacy and usefulness of liberalism. The course focuses on debates and differences within feminist political theory, rather than justifications for, or defences of, feminist political theory. Among the problems raised are conceptions of the individual and individual autonomy; the relative invisibility of gender issues in mainstream literature on justice and equality; the tendency to conceive of equality in sex-blind terms; the tendency to presume a universally applicable set of norms. We consider the theoretical debates in relation to a number of contemporary political issues. Topics likely to be addressed include: feminism and contract, individualism and autonomy, identity politics, equality and the politics of difference, marriage, multiculturalism, and universalism.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

There will be a reading week in week 6 of the MT for advice and feedback sessions.

Formative coursework: Students will be required to submit a short essay of roughly 1,500 words. Students will be given a list of questions to choose from, and should choose a topic other than the one they choose for their final assessment.

Assessment: Essay (100%, 4000 words).

GV4H4  Half Unit  Foundations of Political Theory

This information is for the 2018/19 session.

Teacher responsible: Prof Lea Ypi and Mr David Axelsen

Availability: This course is compulsory on the MSc in Political Theory. This course is not available as an outside option.

Course content: This course provides an introduction to the philosophical and methodological foundations of political theory. It aims to give participants a conceptual toolbox that can be brought to bear on many different substantive problems and research questions in political theory and neighbouring fields. The course introduces some central methodological debates in contemporary political theory, explores the links between political theory and related disciplines, and familiarises students with different approaches to political theorising.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

Week 6 will be a reading and feedback week.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Essay (100%, 3000 words) in the LT.

GV4H5  Half Unit  Not available in 2018/19

The Political Philosophy of Environmental Change

This information is for the 2018/19 session.

Teacher responsible: Dr Kai Spiekermann CON.517

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Environmental Economics and Climate Change, MSc in Political Theory and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course analyses political and philosophical questions arising in the context of environmental change. The approach will be interdisciplinary. While the focus is on normative-philosophical issues, we will also make use of positive-analytical and empirical literature. Among the topics discussed will be climate change, overpopulation, food and water scarcity, deforestation, desertification and the loss of biodiversity. Some of the questions to be discussed are: How should we balance the interests of current and future generations? How does climate change affect our obligations towards the global poor? How do we make policy decisions if the effects are uncertain but potentially severe? Are we individually or collectively responsible for causing climate change, and what follows from this? How do we relate to...
the environment and what precisely is valuable about preserving it?

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. Week 17 (week 6 of the LT) will be a reading and feedback week.

**Formative coursework:** Students will be expected to produce 2 essays in the LT.

**Assessment:** Essay (100%, 4000 words).

---

**GV4H6  Half Unit  Behavioural and Experimental Political Economy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Rafael Hortala-Valve.

**Availability:** This course is available on the MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** It is required that students have some familiarity with formal models (game theory) and basic statistical concepts.

**Course content:** In this course we will introduce behavioural concepts and use them at explaining decisions of politicians, candidates for political office, voters, lobbyists, and other actors in the political and policymaking arena. The focus of the course will be academic but we will also visit the recent development by public policy practitioners — both the UK and the US — that are a part of the NHS, and the insights of teams working closely with the executive branch. We will analyse the different political phenomena that do not perfectly fit our rational choice models. We will cover issues such as turnouts in large elections, populist policies, framing of public policies to influence public opinion, attribution of blame to politicians, opt-in/opt-out policies and paternalism in policy recommendations, etc. By introducing insights from psychology to our classical political economy models we will study the effects of social, cognitive, and emotional factors on political decisions. Parallel to this formal analysis we will also introduce experimental methods.

**Teaching:** 20 hours of seminars and 4 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 9 problem sets in the LT. Every week some students will have to present the week’s readings. Also every week students will have to solve a short problem set.

**Assessment:** Take home exam 50% in the ST.

---

**GV4H9  Half Unit  Not available in 2018/19**

**Armed Groups: Violence, Governance, and Mobilization**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr. des. Livia Schubiger

**Availability:** This course is available on the MSc in Conflict Studies and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course introduces students to the social-scientific analysis of violence, governance, and mobilization in intra-state armed conflict and civil wars. The primary focus lies on how armed groups interact with the civilian population and how they mobilize followers, how and why armed groups’ internal institutions and their strategies of violence vary across conflicts, and what the consequences of these patterns and arrangements are. The course engages with a variety of theoretical and empirical approaches that will familiarize students not only with cutting-edge research on these issues, but also their relation to ‘big debates’ in conflict research and comparative politics. Students are introduced, in particular, to the following core themes:

• Recruitment and Mobilization in Armed Conflict: The course assesses the insights and limitations of existing research in uncovering the incentives of groups and communities to engage in violent collective action, the choices of ordinary citizens to join insurgent or counterinsurgent armed groups, as well as the strategies of armed group leaders to enlarge their constituencies.

• Order and Governance in Civil War: Students are introduced to a novel research agenda that has started to explore how social and political order is established in times of civil war, when and how armed groups aspire to govern the daily lives of civilians, and how some armed groups manage to establish and maintain high levels of internal cohesion and control while others do not.

• Causes and Consequences of Wartime Violence against Civilians: The course critically reviews theories and recent empirical studies that have set out to explain the puzzling variation in violence against civilians across conflicts, armed groups, and over time, as well as the consequences of civilian victimization for subsequent conflict dynamics and post-conflict recovery.

Empirically, the course engages with both quantitative and qualitative studies and a wide variety of ongoing, recent, and historical cases from civil wars around the globe, including the conflicts in Colombia, El Salvador, Northern Ireland, Peru, Sierra Leone, and Syria, among others.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. Lent term: 10 x 1 hour lectures, 10 x 1.5 hour seminars. There will be a reading week in week 6.

**Formative coursework:**

• 1 presentation: The presentations critically assess and compare the theoretical, methodological, and empirical contributions of selected mandatory and/or recommended readings for one specific course topic and/or case.

• 1 essay: The essay (1000 words) proposes an original argument
related to one of the course subjects.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

**GV4J4 Half Unit**

**Citizen Representation and Democracy in the European Union**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Sara Hobolt CON 6.11

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Politics, MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 1 group. The deadline for applications is 1pm, Friday, 29 September 2017. You will be informed of the outcome by 12 noon on Monday 8 October. You will be informed of the outcome by 12.00 noon on Friday 5 October 2018. You will be informed of the outcome by 12.00 noon on Monday 8 October.

**Course content:** This course offers the theoretically and empirically informed study of citizen representation in the European Union. The principal aim of the course is to develop a better understanding of the functioning of democracy in European Union and provide the analytical tools to evaluate proposals for reform to alleviate the Union’s so-called ‘democratic deficit’. This course will examine both how citizens are represented in the European Union and how the EU shapes democratic politics in the member states. The first part of the course assesses pathways of representation and accountability in the European Union, focusing on representation of citizens’ interests in the Council, Commission and the European Parliament as well other avenues for citizen influence, such as referendums and the Citizens’ initiative. The second part of the course examines political conflict over European integration at the domestic level, focusing on the role of European integration in national politics and public opinion, including the study of euroscepticism. The final part of the course evaluates different proposals for reform with the aim of strengthening democracy and representation in the EU, and students will have the opportunity to develop their own reform proposal.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Indicative reading:**

**Assessment:** Exam (75%, duration: 2 hours) in the summer exam period. Essay (25%, 2500 words) in the LT.

---

**GV4J6** Half Unit  Not available in 2018/19

**Game Theory for Research**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Stephane Wolton

**Availability:** This course is available on the MRes/PhD in Political Science and MSc in Political Science and Political Economy.

This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Some knowledge of game theory at the level of GV4C8.

**Course content:** Advanced treatment of game theory. The course will cover: Nash Equilibrium in static and repeated games, Subgame Perfect Nash Equilibrium, Perfect Bayesian Equilibrium and its refinements. The course will also discuss the implications of formal theory models for empirical analysis (comparative statics, equilibrium selection, omitted variable bias). Students will be exposed to both technical concepts and applications of these concepts in selected papers.

**Teaching:** 22 hours of lectures in the LT.

**Formative coursework:** Students will meet with the instructor to discuss their research project twice during the LT.

**Indicative reading:** A game theory textbook to be determined. A reading list for applications of the main concepts covered in class will be provided to students at the beginning of the term.

**Assessment:** Exam (40%, duration: 2 hours) in the summer exam period.

Presentation (30%) in the LT. Other (30%) in the ST.

Students will be assessed on a class presentation on a paper decided in advance with the instructor (weight 30%), a small research project using the methodological concepts developed in the course (weight 30%), and a two-hour examination during the main period (weight 40%).

---

**GV4J7** Introductory Mathematics for Political Science

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Mehmet Ismail

**Availability:** This course is available on the MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is strongly recommended for MSc Political Economy and Political Science students. It is available for students from other programmes with permission of the instructor.

**Course content:** The aim of this pre-sessional course is to provide students with the essential mathematical background for the core courses in the MSc PSPE programme. The course will cover key concepts in algebra (definition of function, derivation, limits), maximization problems (constrained and unconstrained, Envelope and Implicit Function Theorems), and some notions of probability (Bayes’ rule, random variables).

**Teaching:** 10 hours of lectures in the MT.

Please note that all the teaching for this course will take place in the first week of Michaelmas term.

**Indicative reading:** There is no required reading for this course.

---

**GV4J8** Half Unit

**Middle East Politics in Transnational Perspective**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof. John Chalcraft CON S.16

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Conflict Studies and MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is available on the MSc in Comparative Politics, MSc in Conflict Studies, MSc in Global Politics and MSc in Political Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course offers an advanced introduction to the contemporary politics of the Middle East and North Africa in transnational perspective. It takes a critical, sociological, historically-informed, and qualitative approach. It focuses particularly on cross-border structures of power and forms of resistance. We study such topics as transnational revolutionary movements, the new religious politics, neoliberalism, monarchy and migration, feminism, counter-insurgency, authoritarianism across borders, the regional uprisings of 2011, and horizontalism and radical democracy. Students will develop an advanced introductory understanding of the transnational politics of the region.

**Teaching:** 16 hours and 30 minutes of lectures and 10 hours of seminars in the MT.

The lecture in Week 6 is an essay writing workshop.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Essay (100%, 5000 words).

Essay (100%, 5000 words).
GV4K1 Half Unit
Transparency and Accountability in Government

This information is for the 2018/19 session.
Teacher responsible: Dr Daniel Berliner CON 6.10
Availability: This course is available on the MSc in Development Studies, MSc in Political Science and Political Economy and MSc in Public Policy and Administration. This course is available as an outside option to students on other programmes where regulations permit.

Course content: Is “sunlight the best disinfectant”? Can information empower citizens to hold their government accountable? How have information technologies been used to enable civic engagement and participation? What are the relationships between transparency, secrecy, corruption, and accountability?

This course will familiarise students with the theory and practice of transparency and accountability in government, enabling them to critically address these questions and engage meaningfully in fast-moving contemporary policy debates.

The course will offer a grounding in theories of democracy, representation, and accountability, as well as debates over the merits of different transparency policies in light of competing values like secrecy and privacy. The course will also enable students to evaluate the role played by different forms of information in political systems, as well as to critically assess the theories of change and assumptions behind information-based policy initiatives, and to evaluate the evidence base supporting such initiatives.

The course has a global scope, focusing on applications in both developed and developing countries, and on policy types including freedom of information, information-based regulation, participatory budgeting, crowdsourced policymaking, “civic tech,” open data, campaign finance and state disclosures, and applications of transparency to sectors like extractive industries, the environment, and public health.

Teaching: 15 hours of lectures and 10 hours of seminars in the LT.

There will be a Reading Week in Week 6 of LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Students will be expected to produce 1 essay of 1,500 words in the LT, and to meet with the instructor regarding the plan for their summative research essay.

Assessment: Essay (90%, 3000 words) in the ST.

Presentation (10%) in the LT.

---

GV4K4 Half Unit
The Politics of Globalization

This information is for the 2018/19 session.
Teacher responsible: Dr Mathias Koenig-Archibugi
Availability: This course is compulsory on the MSc in Global Politics. This course is available with permission as an outside option to students on other programmes where regulations permit. Students on the MSc Global Politics are guaranteed access.

Course content: This is the core course of the MSc Global Politics. It examines the nature, the causes and the political consequences of globalization in a variety of domains, including security, culture, the economy, and the environment. The course aims at enabling students to assess the extent of continuity and transformation in key areas of global politics.

The course will analyse how globalization shapes and in turn is shaped by, politics within countries, between countries and beyond countries. It will introduce the main approaches to the study of globalization and examine how it affects patterns of conflict, cooperation and competition between a range of politically relevant actors, including governments, political parties and citizens: great powers: intergovernmental and nongovernmental organizations: global companies and other non-state groups. These patterns of patterns of conflict, cooperation and competition will be illustrated with examples drawn from a variety of policy domains, such as security, economy, environment, health and migration. The course will also assess the challenges to and opportunities for democracy in a global age.

Teaching: 11 hours of lectures and 15 hours of seminars in the MT.

There will be a reading week in week 6 of the MT for private study and assessment preparation.

Formative coursework: Students will be expected to produce 1 essay and 1 presentation in the MT.

A reading list with further readings will be provided at the beginning of the teaching term.

Assessment: Essay (100%, 5000 words).
GV4M6  Half Unit
Modern African Political Philosophy

This information is for the 2018/19 session.
Teacher responsible: Prof Katrin Flikschuh CON 6.08
Availability: This course is available on the MSc in Political Theory. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at two groups. The deadline for applications is 12.00 noon on Friday 5 October 2018. You will be informed of the outcome by 12.00 noon on Monday 8 October.
Pre-requisites: N/A
Course content: This course introduces students of political theory to post-independent African philosophical and political thinking. The chief objective of the course is to get students to engage with the intellectual heritage of the African continent and critically to re-think historically ingrained misperceptions about its peoples and cultures. Please note that this course focuses on African philosophical thinking. It will suit students who enjoy the analysis and interpretation of abstract ideas. The orientation is not anthropological or developmental; nor is this a course in ‘post-colonial studies’ more broadly conceived. There will be three broad blocks:

1. Methodology: ‘What is African Philosophical Thinking?’ We will examine the development from an oral to a written tradition and the particular methodological challenges involved.
2. Substantive Issues: ‘Personhood, Agency, and Community’. We will discuss African thinkers’ claims to the distinctiveness of African cultures’ conceptions of self and society, and how these in turn impact conceptions of moral and political agency.
3. Implications: We shall ask how African thinkers conceive their social and political contexts and how their views do or do not cohere with Western thinking about African developmental challenges.

Teaching: 20 hours of seminars in the MT.
There will be a maximum of two seminar groups with 10 weekly sessions of 2 hours each. There will be a reading week in Week 6 of MT, during which there will be no seminar. Instead, there will be extended office hours for individual tutorials to discuss planned course work. The seminars will be discussion based, with 30 minute introductory lectures that introduce the weekly reading material and establish the intended focus of discussion. There will be some assigned group work within some of the weekly sessions.

Formative coursework: Students will be expected to produce 1 formative essay in the MT.
The formative assessment will consist of an essay of maximally 2500 words in length. A list of essay questions will be made available by Week 3 of MT. Students may design their own essay questions, if they prefer to do so. However, they must clear their proposed essay question with the course convener beforehand. Course work must be submitted by the end of Week 7. The essay will be read and commented on. It will be assigned a grade-mark but will not form part of the summative assessment. Essays substantially above 2500 words will not be read.

GV400  Half Unit
The Economics of Urbanisation

This information is for the 2018/19 session.
Teacher responsible: Prof. John Henderson Stc.506b
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhi/PhD in Economic Geography, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: No specific LSE course requirements. At a minimum, students must have an analytical 1 unit course in intermediate micro economics (or equivalent) and a basic statistics or econometrics course. A more advanced econometrics course would be very helpful.

Course content: This MSc course will offer students the opportunity to learn some of the conceptual foundations and empirical regularities involved in studying why countries urbanise, the nature of structural and spatial transformation involved in the urbanisation process and the development of systems of cities. Complementing this will be a study of the internal spatial transformation of cities, the evolution of the location of production activities, the formation and role of slums, and the evolution of land market regulations and property right assignments. Critical to understanding these processes will be learning about the role of regulation and political processes, as well as policy initiatives, in shaping outcomes. The course will also examine the current process of urbanisation in Asia and Africa in the various special contexts of different regions and countries, drawing from lessons of the past as experienced in Latin America and parts of the developed world.

Teaching: 20 hours of lectures and 20 hours of seminars in the LT.
The first two weeks of seminars will involve a review of basic statistical methods to help prepare students for class and lecture material.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.
Presentation (30%) in the LT.

GY404  Half Unit
Local Economic Development:
Jobs, Poverty, Policy

This information is for the 2018/19 session.
Teacher responsible: Dr Murray Low STC S512
Other teacher involved: Dr Ryan Centner
Availability: This course is compulsory on the MPhil/PhD in Human Geography and Urban Studies and MSc in Human Geography and Urban Studies (Research). This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in International Migration and Public Policy, MSc in Regional And Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available as an outside option to students on other programmes where regulations permit.
Compulsary for MPhil/PhD Human Geography and Urban students without MSc Human Geography and Urban Studies.
Course content: This is a reading seminar course, organised around key works pertinent to cities, development and human geography. While by no means comprehensive, the syllabus provided in the first week of the course will detail some key debates in geography, urban studies and development studies, which we explore in some detail over the term. The readings will reflect a range of approaches to the disciplines of human geography, urban studies and development studies, in order to convey the dynamic interplay between these three areas of scholarship. Discussions with colleagues in these areas of research, alongside readings of foundational texts, will be aimed at exploring how theory and evidence connect in critical geographical research.
Teaching: 10 hours of lectures in the MT. 10 hours of lectures in the LT.
10 x two-hour directed reading lecture/seminars meeting in MT and LT. Students (including those auditing the course) are expected to read, circulate critical comments, and participate actively in discussion.
Formative coursework: A 2,500 word essay
Indicative reading: Readings focused on in this course will vary from session to session. A detailed syllabus will be provided at the beginning of the course, but would include works such as T Cresswell (2013) Geographic Thought; D Gregory et al, The Dictionary of Human Geography (5th edn), 2009; D Harvey, Social Justice and the City, 2009; D Harvey, The Enigma of Capital, 2010; N Smith, Uneven Development, 2008; D Massey, Space, Place and Gender, 1994; E Soja, Seeking Spatial Justice, 2010; R Peet and M Watts, Liberation Ecologies, 2004; J Ferguson, The Antipolitics Machine, 1994; T Mitchell, Rule of Experts, 2002; A Roy, Poverty Capital, 2010; and D Gregory and Allan Pred, Violent Geographies, 2006.
Assessment: Essay (100%, 5000 words) in the ST.

GY407  Not available in 2018/19
Globalization, Regional Development and Policy

This information is for the 2018/19 session.
Teacher responsible: Prof Andres Rodriguez-Pose and Prof Michael Storper
Availability: This course is available on the MSc in African Development, MSc in Development Management, MSc in Environment and Development and MSc in Regional And Urban Planning Studies. This course is available with permission as an outside option to students on other programmes where regulations permit.
The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.
Pre-requisites: A good background is required in one of the fields of management, economics, economic geography, regional and urban studies.
Course content: This course analyses the theory and practice
of economic development focusing on response to change, stimulation of development, and methods of local or regional delivery. Term A: Theories of regional economic development, location, and trade are applied to the contemporary process known as globalization, and used to decipher this phenomenon and its effects on development, employment, and political institutions. A number of major issues for regional and industrial policy are considered, including trade, convergence/divergence, corporate power, knowledge and technology, governance, and inter-place competition. Term B: This section of the course deals with the management and institutions of local and regional economic development. It dwells on the socio-economic implications of the emergence of local and regional governments and institutions as key actors in the design and implementation of economic development strategies across the world. In particular, the first section of the course analyses the consequences for economic efficiency and equality of the gradual but relentless shift of development responsibilities from the national and the supranational to the local and regional scale, linked of political and fiscal decentralisation. The second section of the course focuses, from a theoretical and empirical perspective, on the strategies being implemented by subnational governments across the world in order to cope and redress development problems. Strategies based on the building of infrastructure, the attraction of foreign direct investment, the support to local production and the promotion of local human resources are analysed in different institutional and governance contexts. The course draws on examples from Europe, the US, Latin America, and Asia.

**Teaching:** 20 hours of lectures and 15 hours of lectures in the MT. 20 hours of lectures and 20 hours of seminars in the LT.

**Formative coursework:** Students will be expected to participate in group debates throughout the course, with written presentation slides required. Feedback is provided in the sessions.

**Assessment:** Essay (25%, 2500 words) in the LT. Take home exam (75%) in the ST.

This course is freely available to all MSc students in the Department of Geography & Environment. The course is available subject to availability for all other MSc students.

**Course content:** This course deals with the analysis of theoretical and institutional issues, empirical evidence, development pre-requisites and economic development policies in the context of actions to stimulate the economic development of local and regional economies. The course is split in two parts. Both are concerned with the analysis of local economic development theories and policies. The first part of the course (MT) is concerned with ‘bottom-up’ approaches and focuses on locally initiated and managed processes which may involve a wide range of actors in shaping and implementing local economic development initiatives. The second part of the course (LT) is focused on the macro and meso-level determinants of regional and local economic development and on the design and implementation of the corresponding ‘top-down’ policies.

Michaelmas Term: This section of the course is aimed at understanding the micro foundations of local economic development, that is the determinants and effects of the behaviour, strategies and choices of key economic actors: local firms, both small and large, multinational enterprises, universities and other education and research organisations, government bodies, industry associations, NGOs, local communities, etc. The study of theoretical approaches, empirical evidence and implications of the behaviour of such actors, and their interactions and linkages, will help building up the analytical framework to interpret the genesis of localised economic systems, their dynamics and evolution over time and the policy options, particularly, but not exclusively, from a bottom-up perspective. The lectures and workshops make use of an extended array of empirical examples and case studies across regions and industries, both in advanced and emerging economies, and consider the transferability of lessons and insights across space and time.

Lent Term: This section of the course is generally focused on the macro and meso-level determinants of regional and local economic development and on the capacity of ‘top-down’ policies to exert an influence on these drivers, promoting growth and social and territorial cohesion. The section starts by examining the existing disparities in regional economic performance in a number of industrial, emerging and developing countries, illustrating the scope and justification for government intervention in this area. Students will consider different theories and approaches to local and regional economic development identify different macro and meso determinants of economic performance and, consequently, suggest differentiated sets of ‘top-down’ development policies. With these analytical tools in place, the EU regional policy is used as a case study to discuss the benefits of a ‘balanced’ approach to the analysis, design and implementation of regional development policies, overcoming the limitations of the one-sided approaches presented in the earlier part of the course. In this context, special attention will also be devoted to the cases of the United States, China and India in a comparative perspective.

**Teaching:** 20 hours of lectures and 18 hours of workshops in the MT. 20 hours of lectures and 27 hours of seminars in the LT. 4 hours of workshops in the ST.

Michaelmas Term: The lectures (two-hour) will be followed by workshops (2-hour), in which students will work on case studies/presentations in small groups of 4-5 people. The ST session concerns only the first part of the course in the Michaelmas Term (GY408 (MT)/GY415) and consist of Revision and Q&A sessions. Lent Term: Seminar teaching is based on a combination of seminars and debates.

**Formative coursework:** One optional Mock exam in each MT and LT terms to be submitted, timings will be announced during the teaching. Feedback and indicative classification will be provided.

**Indicative reading:** Both terms’ reading lists are mainly based on journal articles available in electronic format. Some of the readings will be chapters from the following books/publications: OECD, Competitive Cities in the Global Economy, 2006; R Capello, Regional Economics, Routledge, 2007; A Pike, A Rodriguez-Pose, Regional and Urban Economics, Routledge, 2007.
This course is compulsory on the MSc in Local Economic Development and MSc in Urban Policy (LSE and Sciences Po). This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Economic Geography, MSc in African Development, MSc in City Design and Social Science, MSc in Development Management, MSc in Environmental Economics and Climate Change, MSc in Human Geography and Urban Studies (Research) and MSc in Urban Policy (LSE and Sciences Po).

Formative coursework: Students will be expected to participate in group debates throughout the course, with written presentation slides required. Feedback is provided in the sessions.

Indicative reading: P Aghion; J G Williams, Growth, Inequality and Globalization, Cambridge University Press, 1998; S Brakman, H Garretsen, C van Marrewijk, The New Introduction to Geographical Economics, Cambridge University Press, 2009; G Clark, M Gertler, Garretsen; C van Marrewijk, The New Introduction to Geographical Economics of Cities, Regions and Nations. Theories of regional economic development, location, and trade are applied to the contemporary process known as "globalization", and used to decipher this phenomenon and its effects on development, employment, and political institutions. A number of major issues for regional and industrial policy are considered, including trade, convergence/divergence, corporate power, knowledge and technology, governance, and inter-place competition.

Teaching: 20 hours of lectures and 15 hours of lectures in the MT.

Assessment: Take home exam (100%) in the ST.
GY413 Half Unit
Regional Development and Policy

This information is for the 2018/19 session.
Teacher responsible: Prof Andrés Rodríguez-Pose STC S4.07
Availability: This course is compulsory on the MSc in Local Economic Development and MSc in Urban Policy (LSE and Sciences Po). This course is available on the MPhil/PhD in Economic Geography, MSc in Environment and Development, MSc in Inequalities and Social Science, MSc in Regional And Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available as an outside option to students on other programmes where regulations permit.
The number of students that can be accommodated is limited.
If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created.
For further details, please contact your relevant Programme Coordinator.
Pre-requisites: A good background is required in one of the fields of management, economics, economic geography, regional and urban studies.
Course content: This course deals with the management and institutions of local and regional economic development. It dwells on the socio-economic implications of the emergence of local and regional governments and institutions as key actors in the design and implementation of economic development strategies across the world. In particular, the first section of the course analyses the consequences for economic efficiency and equality of the gradual but relentless shift of development responsibilities from the national and the supranational to the local and regional scale, linked of political and fiscal decentralisation. The second section of the course focuses, from a theoretical and empirical perspective, on the strategies being implemented by subnational governments across the world in order to cope and redress development problems. Strategies based on the building of infrastructure, the attraction of foreign direct investment, the support to local production and the promotion of local human resources are analysed in different institutional and governance contexts. Teaching: 20 hours of lectures and 20 hours of seminars in the LT.
Formative coursework: Students will be expected to participate in group debates throughout the course, with written presentation slides required. Feedback is provided in the sessions.
Assessment: Take home exam (100%) in the ST.

Availability: This course is compulsory on the MSc in Local Economic Development and MSc in Urban Policy (LSE and Sciences Po). This course is available on the MSc in Regional And Urban Planning Studies. This course is not available as an outside option.
If you are taking an Environment Programme, please note that your dissertation surgeries of Week 6 would likely clash with the fieldtrip, please consult with your Programme Director.
Course content: This course is aimed at understanding the micro foundations of local economic development, that is the determinants and effects of the behaviour, strategies and choices of key economic actors: local firms, both small and large, multinational enterprises, universities and other education and research organisations, government bodies, NGOs, local communities, etc. The study of different theoretical approaches, empirical evidence and implications of the behaviour of such actors, and their interactions and linkages, will help building up the analytical framework to interpret the genesis of local economic systems, their dynamics and evolution over time and the policy options available, particularly, but not exclusively, from a bottom-up perspective. We will make use of an extended array of empirical examples and case studies – and the transferability of their lessons over space and time – across regions and industries, both in advanced and emerging economies.
There is a 3-day field-trip (not including travel time) to L’Aquila, Italy, associated with this course. The field-trip will take place during the first half of the Michaelmas Term Reading Week (Week 6). Students should be aware that, as participation is voluntary they will need to fund themselves. Participation is encouraged however it will not be assessed in any way. Students who decide they do not want to participate will not be detrimentally affected on the course.
Further information will be provided during the first workshop of GY415 in Week 1. Estimated costs will be communicated to all offer holders in advance of registration.
Teaching: 30 hours (1 and a half hours of lecture and 1 and a half hours of workshop with teamwork and student presentations) in the MT. 3-hour overall per week, from Week 1 to 11, with the exception of Week 6 (Reading week) for the fieldtrip. In the final Week 11 of the MT there will also be an additional 4-hour revision and drop-in session for the assessed coursework.
Formative coursework: Written feedback on group presentations to help prepare for the assessed Policy Report.
Indicative reading: The course is mainly based on academic articles and papers, all available through @reading list. Some chapters will also be used from books such as: A. Pike, A Rodríguez-Pose & J. Tomaney, Local and Regional Development, 2006; B-A. Lundvall, KJ Joseph, C. Chaminade & J. Yang (eds.), Handbook of Innovation Systems and Developing Countries, 2009; J Cantwell & E Amann (eds.), Innovative Firms in Emerging Market Countries, 2012; S Iammarino & P McCann Multinationals and Economic Geography. Location, Technology and Innovation, 2013.
In general, all readings are electronically available from the LSE Library unless otherwise indicated.
Assessment: Other (100%) in the MT.
A 2,000 word Policy Report (100%) is due at the end of MT.

GY420 Environmental Regulation: Implementing Policy

This information is for the 2018/19 session.
Teacher responsible: Dr Richard Perkins STC S413, Dr Michael Mason STC S510 and Dr Kasia Paprocki
Availability: This course is compulsory on the MSc in Environmental Policy and Regulation. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Accounting,
MPhil/PhD in Environmental Policy and Development, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Regulation, MSc in Risk and Finance, MSc in Urban Policy (LSE and Sciences Po) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

This course cannot be taken with GY465 Concepts in Environmental Regulation or GY475 Issues in Environmental Governance.

Course content: This course provides critical insights into the characteristics, processes and evolving dynamics of environmental policy, regulation and governance. In MT, the course considers the rationale for public policy intervention, and the factors that shape the influence of different interest groups over government policy making. It proceeds to examine the nature, design and performance of different policy instruments, together with the various influences governing policy implementation processes. In LT, the course highlights key themes in environmental regulation informed by the concept of multi-level governance. This concept suggests new alignments and forms of regulation within and across state borders: the themes chosen to explore this concept include collective action, international negotiations, governance beyond the state, and different rationalities of regulation (science, ethics and justice).

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 10 hours of lectures and 13 hours and 30 minutes of seminars in the LT.

Formative coursework: Students are expected to prepare one formative essay, as well as give one presentation on a specified topic, in the MT: feedback will be provided on both. In the LT, students are required to give one presentation on an agreed topic: this will be graded with feedback.

Indicative reading: While there is no single text that covers all aspects of the course, you are strongly advised to consult the following:

Assessment: Exam (75%), duration: 3 hours in the summer exam period.

Essay (25%, 3000 words) in the LT.

---

GY423 Environment and Development

This information is for the 2018/19 session.

Teacher responsible: Dr Benjamin Groom STC. S420, Dr Charles Palmer STC. S303, Dr Richard Perkins STC. S413 and Prof Giles Atkinson STC. S302

Availability: This course is compulsory on the MSc in Environment and Development. This course is available on the MPhil/PhD in Accounting, MPhil/PhD in Environmental Policy and Development, MSc in African Development, MSc in Development Management, MSc in Development Studies and MSc in Environmental Policy and Regulation. This course is available with permission as an outside option to students on other programmes where regulations permit. The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created.

Pre-requisites: A knowledge of development and/or gender in the Global South would be a distinct advantage.

Course content: An analysis of gender roles, relations and inequalities in developing world regions, with particular emphasis on the variability of these in different geographical contexts, and their intersections with poverty, especially in urban areas. Specific themes include: the incorporation of gender into development analysis and practice; data on, and indicators of, gender inequality; households and families, domestic inequalities and carework; fertility, family planning and reproductive rights; health, healthcare and housing; gender divisions in urban labour markets; female labour force participation; internal and international migration; Gender and Development (GAD) policy; ‘Smart Economics’; female empowerment and participation; girls in GAD; men and masculinities in GAD

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce one essay during the course as well as to prepare presentations for seminars (usually in pairs) and to be actively engaged in seminar discussions, including as discussants and rapporteurs.

Assessment: Take home exam (100%) in the ST.

---

GY421 Half Unit Not available in 2018/19

Gender and Development: Geographical Perspectives

This information is for the 2018/19 session.

Teacher responsible: Prof Sylvia Chant STC417a

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Social Impact, MSc in African Development, MSc in Development Studies, MSc in Environment and Development, MSc in Gender, MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Politics, MSc in Regional And Urban Planning Studies, MSc in Regulation, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A knowledge of development and/or gender in the Global South would be a distinct advantage.

Course content: An analysis of gender roles, relations and inequalities in developing world regions, with particular emphasis on the variability of these in different geographical contexts, and their intersections with poverty, especially in urban areas. Specific themes include: the incorporation of gender into development analysis and practice; data on, and indicators of, gender inequality; households and families, domestic inequalities and carework; fertility, family planning and reproductive rights; health, healthcare and housing; gender divisions in urban labour markets; female labour force participation; internal and international migration; Gender and Development (GAD) policy; ‘Smart Economics’; female empowerment and participation; girls in GAD; men and masculinities in GAD

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce one essay during the course as well as to prepare presentations for seminars (usually in pairs) and to be actively engaged in seminar discussions, including as discussants and rapporteurs.

Assessment: Take home exam (100%) in the ST.
For further details, please contact your relevant Programme Coordinator.

**Pre-requisites:** Students who have not completed a course in first year undergraduate level Economics might find it useful to audit EC100 Economics A.

**Course content:** Environment and Development explores the complex relationship between environment and development using the concepts and tools used in applied economic analysis: ecological, developmental, environmental, and institutional economics. Focusing on a number of selected topics and issues of contemporary policy relevance, this relationship is examined in the MT at a more macro scale before moving to a micro-scale investigation of key ecosystem services and cross-cutting themes in LT.

MT: Theories of economic development, well-being, wealth and the challenge of sustainability; Nature, natural capital and economic development; Measuring progress towards sustainability; Economic growth and the environment; Trade, investment and the environment; Technological lock-in, system transformation and the innovation of green technologies; Corporate social responsibility: Drivers, strategy and outcomes.

LT: Environment-poverty trap and the role of population growth; Institutions and natural resource management; Biodiversity and economic development; Agriculture and food security; Water management and economic development; The energy transition and low-carbon development; Biofuels: food, fuel, and the environment; Tropical deforestation and dealing with market failure; Urban environment development; Policy design and evaluation for environment and development.

**Teaching:** 15 hours of lectures and 9 hours of seminars in the MT. 15 hours of lectures and 10 hours of seminars in the LT.

**Assessment:**
- **Exam (75%, duration: 3 hours):** in the summer exam period.
- **Essay (25%, 3000 words):** in the LT.
- **Assignment (2,500 words):** in Michaelmas Term, on which they will receive written feedback. The assignment of 2,500 words in Michaelmas Term, on which they will receive written feedback.

**Detailed reading lists will be provided to support each course component.** The following texts will be used, and a number of further readings will be recommended: Edward Elgar, 2014. M Blowfield and A Murray, Corporate Social Responsibility: A Critical Introduction, Oxford University Press, 2nd edition, 2003; Conrad, J., Resource Economics, Cambridge University Press, (2005); Kolstad, C., Environmental Economics, Oxford: Oxford University Press, (2000).

**GY426 Half Unit Environmental and Resource Economics**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Benjamin Groom (STC 4.20)

**Additional teacher(s):** Pr G Atkinson, Dr S Roth, Dr C Palmer, Pr Susana Mourato

**Availability:** This course is compulsory on the MSc in Environmental Economics and Climate Change. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Environment and Development, MSc in Environmental Policy and Regulation and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** A background in economics and calculus is desirable.

**Course content:** Environmental and resource economics is at the forefront of the response to local, national and global environmental problems. As such, it has become an essential part of the thinking and actions of national and regional governments, as well as international agencies and organizations. This course seeks to develop a rigorous treatment of the theory of environmental and natural resource economics, and to show how formal economic thinking can assist real world policymaking in areas such as climate change, ecosystem & biodiversity conservation and water resource management.

The course consists of four components which cluster together the principal areas of interest and research in environmental and natural resource economics. These are: (i) foundations of environmental and resource economics; (ii) economics of pollution control; (iii) economics of renewable and non-renewable resources; and (iv) the study of international environmental problems and agreements.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

**Assessment:**
- **Exam (75%, duration: 3 hours):** in the summer exam period.
- **Essay (25%, 3000 words):** in the LT.

**GY427 Half Unit Climate Change: Science, Economics and Policy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr James Rasing

**Availability:** This course is compulsory on the MSc in Environmental Economics and Climate Change. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Environment and Development, MSc in Environmental Policy and Regulation and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**The number of students that can be accommodated is limited.** If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. Priority will be given to students on the MSc in Environmental Economics and Climate Change followed by students on the MSc in Environment and Development and MSc in Environmental Policy and Regulation. Students on the MPA will only be offered a place if spaces are available. For further details, please contact your relevant Programme Coordinator.

**Course content:** A comprehensive guide to the issue of climate change, from fundamental concepts in climate science, through estimating the future impacts of climate change on economies and societies, to cutting greenhouse gas emissions by using economic instruments such as carbon trading. Interdisciplinary, but with an emphasis on economic analysis, albeit taught in a non-technical style.

**Teaching:** 22 hours of lectures and 7 hours and 30 minutes of seminars in the MT.

**Assessment:**
- **Exam (75%, duration: 3 hours):** in the summer exam period.
- **Essay (25%, 3000 words):** in the LT.

**Formative coursework:** Students will write one essay (unassessed), on which they will receive written feedback. The essay serves as a mock exam, there is no word limit, but students should time themselves to write it in 50 minutes.

**Indicative reading:** Detailed reading lists will be provided to support each course component. The following texts will be particularly useful: Intergovernmental Panel on Climate Change (2014). Climate Change 2014: Fifth Assessment Report of...
GY428 Half Unit
Applied Quantitative Methods

This information is for the 2018/19 session.

Teacher responsible: Dr Benjamin Groom (STC 420) and Dr Daniele Fanelli (COL 7.07)

Availability: This course is compulsory on the MSc in Environmental Economics and Climate Change. This course is available on the MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Economics, MPhil/PhD in Regional and Urban Planning Studies, MSc in Local Economic Development and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created.

For further details, please contact your relevant Programme Coordinator.

Pre-requisites:
A background in undergraduate statistics or econometrics is required.

Course content: This course will provide an introduction to quantitative methods in use in modern environmental and resource economics. Emphasis will be placed on the practical use of empirical tools. This applied focus will be complemented by the investigation of assumptions and proofs that can improve the understanding of empirical results. Students will apply the methods taught using statistical/econometric software and data documenting some topical public policy questions. These applications will take place in ten seminars of one hour each.

During the seminars the students will gain understanding of the software STATA. Additionally, in the lectures and sometimes seminars, selected papers in quantitative environmental economics will be critically discussed. In general the course will attempt to use examples from relevant and topical empirical papers published in the area of applied econometrics and environmental economics. The module will cover several estimators. We will start with the standard linear regression model, its assumptions, violations and testing procedures. Some non-Linear models will also be presented, including Multivariate Probit and Logit Models (Maximum Likelihood).

Extensions of the Linear regression model to incorporate panel data estimators and Instrumental Variables (IV) approaches (e.g. Two Stage Least Squares and Fixed and Random Effects models) will be also covered. The course will conclude with a discussion of programme evaluation methods and randomised control trials (RCTs).

Teaching: 20 hours of lectures and 9 hours of seminars in the MT. 2 hours of lectures in the ST.

Formative coursework: A selection of seminar exercises will be marked for formative appraisal.

Indicative reading: Detailed reading lists will be provided to support each course component. The following texts will be particularly useful:

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.
### GY432  Half Unit  Not available in 2018/19

**Urban Ethnography**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Gareth Jones S506

**Availability:** This course is available on the MSc in African Development, MSc in City Design and Social Science, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course considers the role of ethnography to how we understand cities. We will look in detail at different types of ethnography and compare with other means of representing the city, through the novel and film, starting with Rem Koolhaas on Lagos. Specific themes will cover the urban flâneur and ethnographer, street ethnography, culture of poverty and marginality, time and waiting, bodies and sex, infrastructure and mobility, gates and the middle class; drugs, the gang and violence, and slums. The course will consider the role of ethnography in developing world cities in particular but also draw from studies of developed world. The course offers an opportunity to reflect on urban places in a way which does not reduce them to arenas for technical, policy-driven planning, and so as to consider the urban experience more broadly. The course will raise issues of methodology.

**Teaching:** 20 hours of seminars and 4 hours of workshops in the LT.

**Formative coursework:** A 2,000 word essay or review of readings on a chosen topic from class list.

### GY438  Half Unit

**Cities and Social Change in East Asia**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Hyun Shin STC. S601f

**Availability:** This course is available on the CEMS Exchange, MBA Exchange, MSc in China in Comparative Perspective, MSc in City Design and Social Science, MSc in Development Studies, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available as an outside option to students on other programmes where regulations permit. The number of students able to be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Pre-requisites:** N/A

**Course content:** This is an interdisciplinary urban course that encourages students to develop a critical understanding of how urban space is transformed in diverse social, economic and political settings, and what social implications are made upon the powerless and the poor. Examining the process of socio-spatial transformation in times of condensed urbanisation and economic development, this course makes use of Asia as an empirical site to unsettle Western notions of urban development. Various examples of urban policies and practices will be drawn from cities across East and Southeast Asia, with emphasis on newly industrialised capitalist economies as well as transitional economies such as mainland China.

Focusing on urban questions in particular, the course comprises of lectures and seminars on the following themes:

- the political economy of urbanisation;
- the politics of land;
- global gentrifications;
- displacement and dispossession;
- cities of spectacle and mega-events;
- urban social movements

Students will also have opportunities to view and discuss various sources of audiovisual materials and documentaries related to these themes.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.

There are nine 90-minute seminars, starting from Week 2.

**Formative coursework:** Students are expected to complete one essay plan for their assessed essay and blog.

**Assessment:** Essay (100%, 5000 words) in the ST.

**Assessment:** Coursework (25%, 1000 words) and essay (60%, 3000 words) in the ST.

Course class participation (15%) in the LT.

Coursework (25%) refers to a blog piece. Students are to submit regular reading responses via Moodle as part of class participation. Further details will be included in the course guide.

---

### GY439 Half Unit

**Cities, Politics and Citizenship**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Murray Low STC.S.512

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in City Design and Social Science, MSc in Culture and Society, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Perspectives on contemporary urban politics.

The course will equip students interested in urban change and development to understand and critically assess the variety of ways in which urban politics and policies are imagined and discussed in universities as well as in the world of policy. It will also develop their understandings of key debates and themes in contemporary urban political life.

Topics covered will include: imagining urban politics; theories of urban politics; 'globalisation' and urban political life; urban governance; civil society and urban social movements; urban dimensions of citizenship and migration; policing, violence and urban politics; urban politics and 'neoliberalism.'

**Teaching:** 20 hours of lectures in the LT. 2 hours of lectures in the ST.

This course has a reading week in LT Week 6

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

### GY441 Half Unit

**The Politics of Housing**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Romola Sanyal

**Availability:** This course is available on the MSc in City Design and Social Science, MSc in Regional And Urban Planning Studies, MSc in Social Policy (Research), MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** The aim of this course is to examine the politics of housing from a transnational and comparative perspective.

The course will link the empirical analyses on housing to theoretical discussions on class, community, gender, ethnicity and design. It will analyse housing issues ranging from informality, homelessness and gated communities to housing tenure, architectural design and housing as a humanitarian tool. This is an interdisciplinary course, drawing upon debates in fields such as Architecture, Urban Planning, Geography, Sociology, Anthropology and Development Studies. The course will help students develop a broad knowledge of the politics of housing in different countries and how they intersect with issues such as urban development, housing finance and public policy. It will also encourage students to think about housing issues relationally and globally.

**Themen**

Some of the themes covered in this course include: Traditional Housing, Community and Housing Design, Gender and Housing, Race and Ethnicity and Housing, Homelessness, Housing and Emergencies etc.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

1 1500 word essay and 4 one page reading responses

**Assessment:** Essay (80%, 5000 words) in the ST. Presentation (20%).

---

### GY446 Half Unit

**Planning for Sustainable Cities**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Nancy Holman STC315b

**Availability:** This course is available on the MSc in City Design and Social Science, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc in Human Geography and Urban Studies (Research), MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** A critical examination of the issues involved in planning for sustainable development at the urban level together with a review of policies and practice; the course focus largely on the problems facing developed countries. The course comprises ten lectures covering issues of physical, economic, and social measures to promote sustainability alongside understandings of how this may be measured in an urban context.

**Teaching:** 15 hours of lectures and 9 hours of seminars in the MT.

**Formative coursework:** Students are expected to prepare a seminar paper and presentation.

**Indicative reading:** Detailed reading on specific policy areas will be provided. J Agyeman & B Evans (Eds), Local Environmental Policies and Strategies, 1994; S. Wheeler. Planning for Sustainability: Creating livable, equitable, and ecological communities, 2004; Y, Rydin, Governing for Sustainable Urban Development, 2010; S. Davoudi, J. Crawford and A. Mehmoord
(Eds), Planning for Climate Change: Strategies for Mitigation and Adaptation for Spatial Planners, 2009.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

**GY447 Half Unit**

**The Economics of Regional and Urban Planning**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Felipe Carozzi S416

**Availability:** This course is compulsory on the MSc in Regional And Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available on the CEMS Exchange, MBA Exchange, MPhil/PhD in Economic Geography, MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Pre-requisites:** Students should normally have completed an introductory course in economics. Students without this background may wish to attend the micro-economic section of EC100 Economics A together with the Pre-sessional GY447 and GY447.1 workshops.

**Course content:** The course aims to provide an economic framework in which to analyse the structure of economic activity within the urban and regional context; the impact of this structure on urban form; the role of government at the local level and local economic policy applications. Topics include: The determinants of industrial, commercial and residential location. The interaction between activities within a spatial context. The economics of land markets and of the development process. The determinants of rents and densities. Economic models of urban structure. Sources of market failure in the urban economy. The rationale of government intervention. Techniques of intervention in the urban and environmental context. The role of the public sector: pricing, allocation, production and investment decisions. Urban and regional economic policy issues.

**Teaching:** 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour of workshops and 2 hours of workshops in the LT. 2 hours of lectures in the ST.

There will also be 5 hours of pre-sessional classes in Week 0 provided mainly for those without a previous economic background. The MT workshop is also aimed at those without a previous economic background.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

**Indicative reading:**
1) A O’Sullivan Urban Economics;
2) J F McDonald and Daniel P. McMillen, Urban Economics and Real Estate;
3) J Stiglitz, Economics of the Public Sector;
4) Pindyck & Rubinfeld Microeconomics, Suslow & Hamilton Study Guide.
5) D DiPasquale & W C Wheaton, Urban Economics and Real Estate Markets;
6) R W Vickerman, Urban Economics;
7) M Fujiya, Urban Economic Theory;
8) H Dunkerley (Ed), Urban Land Policy: Issues and Opportunities;

More detailed readings will be provided during the course.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

**GY448 Half Unit**

**Social and Political Aspects of Regional and Urban Planning**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Alan Mace STC315a

**Availability:** This course is compulsory on the MSc in Regional And Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available on the MSc in City Design and Social Science and MSc in Human Geography and Urban Studies (Research). This course is available as an outside option to students on other programmes where regulations permit.

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Course content:** The course will explore the relationship between key social, political and economic processes and urban planning. These relationships will be considered at national, regional and local scales with a focus on planning as a function of governance. Key concepts covered in the course include: claims for and against urban planning; the relationship between planning and markets; the role of neighbourhood and community; and, the effect of institutional structures on the planning system. The topics are supported through engagement with key strands of planning theory and the use of examples from planning practice.

**Teaching:**
10 hours of lectures and 13 hours and 30 minutes of seminars in the MT.

**Assessment:** Essay (100%, 4500 words) in the LT.

**GY449 Half Unit**

**Urban Futures**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Austin Zeiderman

**Availability:** This course is available on the MSc in Human Geography and Urban Studies (Research), MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is strictly capped at 34. Students are required to apply through Graduate Course Choice on LSE for You by providing a short written explanation of why they are interested in taking the course. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. Priority will be given to those on the Geography and Environment MSc programmes listed above. For further details, please contact your relevant Programme Coordinator.

**Course content:** By now we are accustomed to hearing that, for the first time in history, the majority of the world’s population lives in cities. We may also be aware that more than one billion people now live in the urban slums and shantytowns of the global South, and that this is where the majority of world population growth will take place. But what sort of futures are being imagined for the cities of the twenty-first century? In response to this question, GY449 Urban Futures will critically analyze how the future of cities, and the cities of the future, have been thought about and acted upon in different times and places. Students will learn to adopt a geographical and historical approach to urban futures by exploring how ways of envisioning the future of cities differ across time and space. Treating the future as a social, cultural, and political reality with a profound influence on the present, the
course will examine how urban areas are planned, built, governed, and inhabited in anticipation of the city yet to come. Each week will be organised around a particular model for the future of the city: the ideal city, the dystopian city, the modernist city, the colonial city, the capitalist city, the socialist city, the organic city, the global city, and the secure city. These models will be examined through concrete examples and will enable the discussion of broader theoretical perspectives in urban studies, with a specific focus on the critical analysis of urban futures. Though grounded in urban geography, this course will draw upon texts and other materials from anthropology, sociology, history, cultural studies, literature, film, philosophy, social theory, architecture, art, and city planning. Its primary objective is to equip students with sophisticated, critical ways of thinking about the future of cities, since doing so has real significance for the kind of city we want to, and eventually will, ourselves inhabit.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Students will be expected to produce 1 presentation in the MT.

The formative presentation will be an opportunity for students to begin preparing for the assessed essay and to receive feedback from peers and from the lecturer. Presentations will be delivered in a workshop setting during seminar.

Assessment: Essay (60%, 2500 words) and research proposal (20%) in the ST. Presentation (20%) in the LT.

**GY454 Half Unit**

**Urban Policy and Planning**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Nancy Holman S315b and Dr Alan Mace S215a

**Availability:** This course is compulsory on the MSc in Regional And Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Pre-requisites:** Students must have completed Social and Political Aspects of Regional and Urban Planning (GY448).

**Course content:** The course provides a synthesised approach to the analysis of urban policy-making and plan formulation. It will explore the way in which economic, political and social forces interact to effect policy approaches in different spatial settings. We will cover urban regeneration policy and community development as they relate to neighbourhood planning. The aim is also to gain an understanding of the causes of similarity and difference in policy approaches. Students will undertake a group research project based on a London neighbourhood including an assessment of local planning policy.

**Teaching:** 18 hours of lectures and 10 hours and 30 minutes of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** Urban Task Force, Urban Renaissance;DETR, Our Towns and Cities: The future; R Atkinson ; G Moon, Urban Policy in Britain; P Hall ; C Ward, Sociable Cities; E Blakely ; M Snyder, Fortress America;D Judd ; S Fanstein, The Tourist City; J Manning, Fantasy City;T Hall ; P Hubbard, The Entrepreneurial City.

**Assessment:** Essay (90%, 4000 words). Presentation (20%) in the LT. A 4000 word essay linked to the London neighbourhood planning project. A group presentation and short film based on the London neighbourhood planning project.

**GY455 Half Unit**

**Economic Appraisal and Valuation**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Giles Atkinson S302 and Prof Susana Mourato S303

**Availability:** This is course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Accounting, MSc in City Design and Social Science, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Risk and Finance, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Course content:** This course is concerned with the foundations and practical use of applied economics in the context of project appraisal and policy evaluation. Course content will be drawn from the following. Introduction to economic aspects of project appraisal and cost-benefit analysis: Efficiency, equity and distributional concerns. Measurement of costs and benefits with a specific emphasis on practical methods to value non-market goods and services. The use of appraisal and evaluation in policy processes. The application of project appraisal and policy evaluation methods to policy sectors such as transport, health and the environment. Seminars and lectures will focus on applied case studies and the tools involved in the appraisal of projects by for example development agencies such as The World Bank, European Commission and national governments. Examples particularly from environmental, health, development and transport policy in the developed and developing world.

**Teaching:** 12 hours of lectures and 8 hours of seminars in the LT.

**Indicative reading:** Detailed reading lists will be provided to support each course component. Emphasis will be placed on texts, case study material and state-of-the-art contributions to, for example, the literature on non-market valuation. For an overview and introduction to the main issues covered by the course, students may wish to consult the following: G Atkinson and S Mourato, “Cost-Benefit Analysis and the Environment”, OECD Environment Working Paper No. 97; AE Boardman et al, Cost-Benefit Analysis: Concepts and Practice, 2011 (chapters 1 and 2); N Hanley and EB Barbier Pricing Nature: Cost-Benefit Analysis and Environmental Policy, 2009; G de Rus Introduction to Cost-Benefit Analysis: Looking for Reasonable Shortcuts, 2011.

**Assessment:** Essay (100%, 4000 words) in the LT. A 4000 word essay linked to real-life examples of economic appraisal and valuation.

**GY457**

**Applied Urban and Regional Economics**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Christian Hilber

**Availability:** This course is compulsory on the MSc in Real Estate Economics and Finance. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhiliPhD in Accounting, MSc in City Design and Social Science, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Risk and Finance, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Economic Geography and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

Pre-requisites: The course assumes that students already have knowledge of economics equivalent to a good first degree in the subject. It is available as an option to students who can show that they are suitably qualified.

Course content: This course aims to provide students with a theoretical and empirical understanding of urban economic processes and price determination in land and real property markets within an institutional context. Examples of topics covered include: the functioning of cities and the urban system; the determinants of urban structure; patterns of urban land use; the determinants of urban growth - theory and evidence; land and real property markets; the impact of land market regulation including the economic impact of land use planning; local public finance and house price capitalisation; real estate cycles; homeownership; commercial real estate. The institutional frame of reference within which the course is taught relates mainly to Western Europe and the United States.

Teaching: 22 hours of lectures and 13 hours and 30 minutes of seminars in the MT, 20 hours of lectures, 15 hours of seminars and 2 hours of workshops in the LT.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

GY459 Half Unit
Urban Theory and Policy in the Global South

This information is for the 2018/19 session.
Teacher responsible: Prof Gareth Jones S506, Dr Alexandre Abello Colak and Prof Sylvia Chant
Availability: This course is compulsory on the MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Environment and Development and MSc in Human Geography and Urban Studies (Research). This course is available with permission as an outside option to students on other programmes where regulations permit. The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

Pre-requisites: None.

Course content: This course aims to provide a grounding in key debates in urban studies and policy with reference to the Global South. It highlights the interconnections between evolving urban ideas and research and policy. Anticipated topics include The City and the Urban Paradigm; Social Life of Cities; Gender, Poverty and the city, Inequality and Slums; Class and Elite spaces; Governance and Rights to the City; Resilience and Environmental Justice, Violence, conflict and security. Dedicated lectures will draw from staff research, with particular emphasis on Brazil, Colombia, India, Mexico, South Africa and The Gambia.

Teaching: 20 hours of lectures and 10 hours of seminars in the
MT.

**Formative coursework:** One essay of 1,500 words (formative).

**Assessment:**
- **Exam (75%, duration: 2 hours)** in the summer exam period.
- **Essay (25%, 2500 words)** in the LT.

---

**GY460 Half Unit**

**Techniques of Spatial Economic Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Steve Gibbons S511

**Availability:** This course is available on the MPhil/PhD in Economic Geography, MPhil/PHD in Regional and Urban Planning Studies, MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Statistics (Social Statistics), MSc in Statistics (Social Statistics) (Research) and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Pre-requisites:** Students must have a good understanding of statistics and applied micro-econometrics, an undergraduate level or, for example, have studied Applied Quantitative Methods (GY428) in Michaelmas term or another course which introduces topics such as instrumental variables and panel data methods. It is advisable to look at the first two key readings listed below before signing up for this course. Students who are comfortable working with computers, data and already have basic familiarity with STATA or other statistics/econometrics software will get the most out of this course.

**Course content:**
- The aim of the course is to develop the technical tools necessary to understand and analyse spatial economic and social phenomena and to apply quantitative techniques to analyse economic and social problems, processes and policies at the urban and regional scale. The course also provides a hands-on introduction to using Geographical Information Systems and other spatial computer applications for research purposes, but you should not expect to get a full training in GIS from this course. Topics typically include: Spatial representation, spatial data and Geographical Information Systems; spatial weights, aggregation and smoothing methods; spatial econometric models and neighbourhood effects; answering causal questions in the spatial context; spatial interaction and discrete choice models; spatial cluster and point pattern analysis; inequality, competition and diversity.

**Teaching:** 10 hours of lectures and 20 hours of seminars in the LT.

30 hours of teaching in LT comprising computer classes and lectures, plus 2 hour practical surgery for projects in the ST. The majority of sessions will take place in a computer classroom and these sessions combine lecture and practical material. Formative feedback will be available on submitted answers to seminar exercises and/or a past exam paper. There is an additional practical surgery for projects early in the summer term.

**Formative coursework:** Throughout the term, students are given the opportunity to provide answers to problem sets, written answers to class exercises and computer workshop tasks, and past examination questions, on which feedback will be given.

**Assessment:**
- **Project (100%, 5000 words)** in the ST. A quantitative research project of not more than 5000 words to be handed in at a specified date in the ST (100%). This project is carried out independently, but with guidance and support from teaching staff.

---

**GY462 Half Unit**

**Real Estate Finance**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Olmo Silva S506A

**Availability:** This course is compulsory on the MSc in Real Estate Economics and Finance. This course is available on the MSc in Accounting and Finance, MSc in Risk and Finance and MSc in Urban Policy (LSE and Sciences Po). This course is available with permission as an outside option to students on other programmes where regulations permit.

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Course content:** This course aims to provide students with concepts and techniques for analysing financial decisions in real estate development and investment. Topics include: basic real estate investment analysis and financial leverage; real options approach applied to real estate; real estate investment performance and portfolio considerations; fixed and flexible rate mortgage loans and mortgage payment issues; debt securitisation (secondary mortgage market & mortgage backed securities); real estate investment analysis and financial leverage; real estate investment analysis and financial leverage; real estate development and investment. Topics include: basic real estate investment analysis and financial leverage; real options approach applied to real estate; real estate investment performance and portfolio considerations; fixed and flexible rate mortgage loans and mortgage payment issues; debt securitisation (secondary mortgage market & mortgage backed securities); tax transparent real estate investment vehicles (REITs), and international real estate (time permitting).

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

2 hours of lectures in the ST.

External interventions by real estate practitioners will be scheduled when feasible.

**Formative coursework:** Students will be expected to complete in-class exercises and up to two take-home case-studies.

**Assessment:**
- **Exam (70%, duration: 2 hours, reading time: 10 minutes)** in the summer exam period.
- Presentation (30%) in the LT.
70% of the students’ final grade will come from a two-hour closed book examination. The exam will consist of three questions and students will have to answer two out of these three questions. These questions will assess the material covered by the lecturers during the Lent Term as well as the topics discussed by the external speakers (two to three external interventions are planned every year; these are subject to confirmation). 30% of students’ final grade will come from a group work and presentation on a ‘case study’ in real estate financial investment. Students will be provided with some material and instructions towards the second or third week of the term and will be assigned to groups of 4-5 students. They will have to work both on an x1 cash flow analysis of this real estate investment opportunity as well as on a short (20min) presentation they will give as a group. They will then be allocated some time during one of the classes to present their solution as a group and will be assessed both on their presentation skills and the technical understanding of the cash flow analysis used in their financial investment decision.

**GY464 Half Unit**  
**Race and Space**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Romola Sanyal  
**Availability:** This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Empires, Colonialism and Globalisation, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in International Migration and Public Policy, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This postgraduate course considers the relationship between race and space linking critical race, colonial and postcolonial studies and critical human geography. The question of race cannot be meaningfully delinked from other identity politics such as gender, class, caste and religion, hence, this course studies these in tandem with each other. We consider a series of events at the interface of racial and spatial control, through themes such as colonialism, immigration, forms of apartheid, segregation and varieties of ‘ghettos’ and the political economy of incarceration. The course uses social theory to develop a situated, comparative analysis of racial geographies in the contemporary world. It will also draw on recent work in colonial, postcolonial and critical race studies. The central questions of the course are: How have racial geographies been made, reproduced, and transformed in connected ways, and what critical tools are necessary for the linked work of anti-racism and spatial justice?  

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.  
**Formative coursework:** A 2,500 word essay and 4 one page reading responses.  
**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

**GY465 Half Unit**  
**Concepts in Environmental Regulation**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Richard Perkins STC S413  
**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Regulation, MSc in Risk and Finance, MSc in Urban Policy (LSE and Sciences Po) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.  

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.  
**Course content:** This course provides critical insights into the nature, dynamics and practice of environmental regulation. It considers the rationale for policy intervention and the influence of different interest groups on environmental policy making. The course proceeds to examine the characteristics, design and performance of different policy instruments, together with the various influences governing policy implementation processes.  
**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT.  
**Formative coursework:** Students are expected to prepare one formative essay, as well as give one presentation on a specified topic, in the MT: feedback will be provided on both.  
**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

**GY467 Half Unit**  
**Global Migration and Development**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Claire Mercer STC S418  
**Availability:** This course is available on the MSc in African Development, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Empires, Colonialism and Globalisation, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in International Migration and Public Policy, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Course content:** The aim of this course is to examine the relationship between migration, diaspora and development with a particular focus on migrants’ and diasporas’ contributions to development in the Global South. The course encourages
students to develop a critical understanding of the role of different diasporas in political, social and economic development. This is achieved through (i) a critical consideration of theoretical debates in geography, sociology, anthropology and development studies on diaspora, migration and development, (ii) an engagement with contemporary migration and development policies, (iii) an examination of diasporas’ developmental work including economic and social remittances, and political activities. The final part of the course examines these debates in the context of the African diaspora.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Assessment:** Exam (75%, duration: 2 hours) in the summer exam period.

**Essay (25%, 2500 words) in the LT.**

---

**GY469 Half Unit**

**Environment and Development: Ecosystem Services and the Global South**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Charles Palmer STC. S303 and Dr Benjamin Groom STC. S420

**Availability:** This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies and MSc in Environmental Economics and Climate Change. This course is available with permission as an outside option to students on other programmes where regulations permit.

The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Pre-requisites:** Students who have not completed a course in first year undergraduate level Economics might find it useful to audit EC100 Economics A.

**Course content:** The demand for and supply of energy, food, and water have important implications for resource use and the environment. They also serve as building blocks for economic development. With a focus on individuals and countries in the global south, this course is evidence based and primarily utilises the concepts and tools of environmental economics and development economics. It aims to impart knowledge and develop critical thinking about a number of selected topics concerned with the interface between environment and development. Structured over 10 weeks, the course is divided into three distinct parts. After introducing the course (week 1), Part I concentrates on two topics, which play a key role in conditioning the supply of ecosystem services, institutions (week 2) and biodiversity (week 3). Part II devotes a week each to food (week 4), water (week 5), and energy (week 7), with special attention paid to issues of contemporary policy relevance, for example, food security, climate adaptation, and the energy transition. Part III focuses on three selected topics, which cut across many of the themes covered in the first two parts of the course: biofuels (week 8); forests (week 9), and, urban (week 10). The course concludes with a closer examination of policy used to manage the some of the trade-offs between environment and development studied earlier in the course (week 11).

**Teaching:** 15 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** There is no single textbook, which covers the content of the whole course. The following provides some indicative reading: R Lopez and M Toman, Economic Development and Environmental Sustainability. Columbia University Press, 2006. E Barbier, Natural resources and economic development, Cambridge University Press, 2005.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**GY468 Half Unit**

**Environment and Development: Sustainability, Technology and Business**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Richard Perkins S413, Prof Giles Atkinson and Dr Charles Palmer

**Availability:** This course is available on the MSc in African Development, MSc in Development Management, MSc in Development Studies and MSc in Environmental Policy and Regulation. This course is available with permission as an outside option to students on other programmes where regulations permit. The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department’s discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

**Pre-requisites:** Students who have not completed a course in first year undergraduate level Economics might find it useful to audit EC100 Economics A.

**Course content:** Theories of economic development, well-being, wealth and the challenge of sustainability; Nature, natural capital and development; Measuring progress towards sustainability; Economic growth and the environment; Trade, investment and the environment; Technological lock-in, system transformation and the innovation of green technologies; Corporate social responsibility: Drivers, strategies and outcomes

**Teaching:** 15 hours of lectures and 9 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**GY470 Half Unit**

**Urban Africa**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Claire Mercer STC.418

**Availability:** This course is available on the MSc in African Development, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to students in other departments and on other programmes where their regulations allow, and if there is
space on the course.

Course content: This course begins with an overview of the ideas and debates on urban Africa in theory and policy. The rest of the course looks at key issues currently facing African cities, drawing on contemporary policy debates and research in human geography, African studies, development studies, urban studies, anthropology, sociology and planning studies. These include: urban pasts, urban economies, informality, rural-urban connections, planning, land, housing and infrastructure.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. There will be a Reading Week in Week 6.

Formative coursework: Students will be expected to produce 1 essay and 1 other piece of coursework in the LT. Formative assessment [1] will prepare students for the summative assessment [1], the policy brief. Students will prepare a draft of the final brief for feedback. Formative assessment [2] students will prepare a draft of the assessed essay for feedback.

Assessment: Coursework (40%, 1500 words) in the LT. Essay (60%, 3000 words) in the ST. Summative assessment [1] – 40% of overall mark – students will submit a 4 x A4 policy brief on an issue of urban development covered in the course, in an African city of their choice. Summative assessment [2] – 60% of overall mark – a 3000 word essay – students will submit a 3000 word essay addressing an issue of urban development in an African city or cities from a critical scholarly perspective using ideas and literature from the course.

GY475 Half Unit

Issues in Environmental Governance

This information is for the 2018/19 session.

Teacher responsible: Dr Richard Perkins S413, Dr Michael Mason S510 and Dr Kasia Paprocki

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in City Design and Social Science, MSc in Culture and Society, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in Regional and Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course uses the concept of "urban revolutions" as an organizing principle to introduce students to key theories impacting on environmental regulation across different scales of governance. While the emphasis is on global and transnational policy processes, attention is also paid to the implications of these processes at regional and local scales. The organising framework of "multi-level governance" suggests new alignments and forms of regulation which require us to consider environmental decision-making within and beyond the territorial authority of a single state. The indicative themes chosen explore distinctive challenges for multi-level governance - collective action, international negotiations, governance beyond the state, and different rationalities of regulation (science, ethics and justice). These themes, which will be explored in student-led seminars, run explicitly or implicitly through many environmental policy debates.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the LT.

Formative coursework: All students are required to make one presentation on an agreed topic: this will be graded with feedback for individual students.

Indicative reading:

When there is no one single text that covers all aspects of the course, students are advised to consult the following:

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

Course content: This Lent Term course is designed to highlight key themes impacting on environmental regulation across different scales of governance. While the emphasis is on global and transnational policy processes, attention is also paid to the implications of these processes at regional and local scales. The organisational framework of ‘multi-level governance’ suggests new alignments and forms of regulation which require us to consider environmental decision-making within and beyond the territorial authority of a single state. The indicative themes chosen explore distinctive challenges for multi-level governance - collective action, international negotiations, governance beyond the state, and different rationalities of regulation (science, ethics and justice). These themes, which will be explored in student-led seminars, run explicitly or implicitly through many environmental policy debates.

Formative coursework: All students are required to make one presentation on an agreed topic: this will be graded with feedback for individual students.

Indicative reading:

When there is no one single text that covers all aspects of the course, students are advised to consult the following:

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

GY479 Half Unit

Urban Revolutions

This information is for the 2018/19 session.

Teacher responsible: Dr Ryan Centner

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in City Design and Social Science, MSc in Culture and Society, MSc in Environment and Development, MSc in Human Geography and Urban Studies (Research), MSc in Regional and Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course uses the concept of "urban revolutions" as an organizing principle to introduce students to key theories and debates related to societies undergoing rapid urban change. Course lectures examine "urban revolution" in three senses. The first pertains to Henri Lefebvre's use of the term to signify the "complete urbanization of society" – a historical process by which social life, even outside of cities, becomes urbanized. This means addressing the relationship between the country and the city, the idea of the urban in historical perspective, and the relationship between urban life in the global North and South. The second treatment of "urban revolution" considers the city as a site for radical political change and social experimentation. This means studying cities as spaces of movement, resistance, and innovation, with an emphasis on urban experiments in the South. Thirdly, urban revolution is analysed in terms of the explosion of theorizations about the nature of the urban, how to study it,
and how to make a difference in "the urban," both intellectually and materially, within a global economy. Through these three overlapping lenses — history, politics, and theory — the course aims to equip students with a conceptual and empirical foundation for analyzing city transformations and globalized urbanization, with particular attention to emerging urbanisms in the global South. Topics covered may include the following: industrialization and immigration; processes of suburbanization, ghettoization, and gentrification; global cities; the colonial and postcolonial city; the right to the city; urban uprisings; urban informality; urban violence; the geopolitics of urban theory.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT. A short essay of 2000 words (maximum). Critically explore the applicability of one week's readings from the first 5 weeks of the course to an empirical case outside the course reading. This will be due in Week 7 of MT.

**Assessment:** Essay (100%, 5000 words) in the LT.

Due in Week 1 of LT. This essay of 5000 words (maximum) will be based on a small set of options for questions provided by the instructor. Some options will be very specific about certain issues or regions, whereas others will be more conceptual and open for student exploration. Across all these options, there will be a wide enough scope for students with different academic backgrounds and thematic or geographical interests to be accommodated, while still hewing to the organizing topics of the course.

**GY499**

**Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Susana Mourato S503

Programme Director of relevant MSc programme.

**Availability:** This course is compulsory on the MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc in Human Geography and Urban Studies (Research), MSc in Local Economic Development, MSc in Real Estate Economics and Finance, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSA and Sciences Po) and MSc in Urbanisation and Development. This course is available on the MSc in Environment and Development. This course is not available as an outside option.

**Course content:** The dissertation may be on any topic within the field of the MSc programme studied. Approval for the topic must be obtained from the relevant Programme Director.

**Teaching:** Teaching comprises a set of lectures and workshops which vary according to the particular Master’s programme being undertaken: MSc Environment & Development; MSc Environmental Policy & Regulation; MSc Environmental Economics & Climate Change: 1 general two-hour lecture in MT on dissertation guidance; 1 x 3-hour workshops in MT for each of the environment programmes (choosing a topic and managing research); 3 x 3-hour joint methods workshops (optional) in LT. MSc Real Estate Economics & Finance: 1 x 2-hour Lecture in MT on dissertation guidance. MSc Local Economic Development: 1 x 3-hour Lecture in MT on dissertation guidance. MSc Urbanisation & Development: 1 x 2-hour Workshop in MT on dissertation preparation. MSc Regional & Urban Planning Studies: see course GY450, Planning Practice and Research.

**Assessment:** Assessment path 1

Dissertation (100%, 10000 words) post-summer term.

Assessment path 2

Dissertation (95%, 10000 words) post-summer term.

Other (5%) in the LT.

**GY499** is the Dissertation code for all MSc Programmes within the Department of Geography and Environment.

Students enrolled on the MSc Environment and Development, MSc Environmental Policy and Regulation or MSc Environmental Economics and Climate Change will follow ‘Assessment Path 2’
and be assessed via a 1,500 word dissertation plan (worth 5%) and then a 10,000 word dissertation (worth 95%). All other Geography and Environment MSc Programmes will follow ‘Assessment Path 1’ and be assessed by a 10,000 word dissertation only (100%).

HP400  Half Unit
Financing Health Care
This information is for the 2018/19 session.
Teacher responsible: Prof Elias Mossialos COW.4.08
Availability: This course is compulsory on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course aims to give students a thorough grounding in health financing policy. It focuses on the health financing functions of collecting revenue, pooling funds and purchasing services, as well as on policy choices concerning coverage, resource allocation and market structure. The course mainly draws on examples from health financing policy in European countries, but the general principles studied apply internationally.

The course provides an overview of key health financing policy issues, including the advantages and disadvantages of different ways of raising revenue for health; the role of private financing mechanisms; the importance of pooling; decisions about whom to cover, what services to cover, and how much of service cost to cover; allocating resources to purchasers, purchasing market structure and the principles of strategic purchasing; the incentives associated with different methods of paying providers; and the issue of financial sustainability.

Teaching: 22 hours of lectures and 8 hours of lectures in the MT. 2 hours of lectures in the ST.
This course will be delivered through 20 hours of lectures and 4 seminars (2 hours each). In addition there will be a two-hour revision session in the MT and a two-hour revision session in the ST.
Formative coursework: Students will write a 1,500 formative essay. The essay topic will be provided by the end of October and students expected to submit by the end of November. Seminar leaders will provide written feedback on the essays by the end of the Michaelmas term.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.
Essay (40%, 2500 words) in the summer exam period.

HP402  Half Unit
Measuring Health System Performance
This information is for the 2018/19 session.
Teacher responsible: Dr Irene Papanicolas COW.3.05
Availability: This course is compulsory on the MSc in International Health Policy. This course is available on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course aims to present a framework to measure performance in health systems. It introduces concepts and tools relating to health system performance in terms of efficiency, effectiveness, equity, and access. It examines the measurement of performance in high-income countries but draws on the experience of other countries as well.

Teaching: This course will be delivered through 20 hours of lectures and 4 seminars (2 hours each). In addition, there will be a two-hour revision session in the MT and a two-hour revision session in the ST.
Formative coursework: Students will have the option to produce an outline of their essay plan for feedback before submission. Students will sit a mock written exam in the last week of term.

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.
Essay (40%, 2500 words) in the autumn exam period.

HP401  Half Unit
Introduction to Health Policy and Politics
This information is for the 2018/19 session.
Teacher responsible: Dr Mrigesh Bhatia OLD 1.17 and Dr Justin Parkhurst COW.3.08
Availability: This course is compulsory on the MSc in Global Health Policy and MSc in International Health Policy. This course is available on the MSc in Global Population Health, MSc in Health Policy, Planning and Financing, MSc in International Health Policy (Health Economics) and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.

Course content: A comparative approach to the development of health and healthcare policies in high, middle, and low income country settings, emphasising the goals of health policymaking, public health approaches, the political nature of health policy issues, and core concepts from policy studies that can be used to conceptualise policy change dynamics in health care. The course will introduce concept of risk and risk reducing strategies, theories of planning, and priority setting techniques in health care. In addition, the course will examine the processes and forces shaping the development and implementation of health policy. The course will examine core concepts such as power, the role of the state and other policy stakeholders (e.g. NGOs, international organisations, etc.), institutions, and evidence, in shaping health policy agendas or choices.
Teaching: 15 hours of lectures and 10 hours of seminars in the MT. 2 hours of help sessions in the ST.
Students will participate in presenting at least one seminar presentation.

Formative coursework: Students will have the option to produce an outline of their essay plan for feedback before submission. Students will sit a mock written exam in the last week of term.

Indicative reading: Papanicolas I, Smith P (Eds) Health System

Assessment: Presentation (20%) and coursework (30%, 1000 words) in the LT.

This information is for the 2018/19 session.

Availability: Dr Mrigesh Bhatia OLD 1.17

Essay (50%, 3000 words) in the ST.
The coursework consists of a written policy brief based on the group presentations.

This is a similar course as HP402 Measuring Health System Performance (modular) but it has different teaching and assessment arrangements.

---

HP403 Half Unit
Health Systems and Policies in Developing Countries

This information is for the 2018/19 session.

Teacher responsible: Dr Mrigesh Bhatia OLD 1.17

Availability: This course is available on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing, MSc in Health and International Development, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.

Course content: In recent years, debates in health policy have moved to consider a system-wide approach to understanding the demands and challenges of health in low and middle income settings. Importantly, systemic barriers remain to health care, centred around institutions, organisations and resources. In particular, a system-wide approach focuses on the importance of developing and strengthening broader healthcare infrastructure, rather than a focus on disease specific interventions. This course will be based around three key areas of the health system in low income settings; the physical, financial and human. The physical will consider the delivery of health in developing countries - examining the role of the public, for profit and non profit sectors, decentralisation (and recentralisation) and physical access to primary healthcare. The financing arm will consider options for financing healthcare in low income settings, including the role of user fees, results based financing and community financing schemes. The human element will analyse the acute shortages of health workers, brain drain and capacity building in the workforce. As part of this three pronged approach, this course will consider a range of health policies and health sector reforms which have been implemented to overcome challenges in resource poor settings. It will examine the assumptions upon which health system reforms are based, and an assessment of their success. Finally, the course will consider some case studies for health systems and policy analysis in developing countries, including maternal health and system resilience to health crises.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 3 hours of lectures in the ST.

Indicative coursework: An essay of not more than 2,000 words.

Assessment: Exam (75%, duration: 2 hours) in the summer exam period.

Essay (25%, 2000 words) in the LT.

---

HP404 Half Unit
Global Health Policy: Institutions, Actors and Politics

This information is for the 2018/19 session.

Teacher responsible: Dr Clare Wenham COW 3.07

Availability: This course is compulsory on the MSc in Global Health Policy. This course is available on the MSc in Global Population Health, MSc in Health Policy, Planning and Financing, MSc in Health and International Development, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.

Course content: Globalization has not only impacted on the nature of emerging global health but the policy responses to these challenges. This module critically examines the transnational institutions and actors involved in global health policy and the interplay between them. The governance of global health issues has traditionally been carried out by states and various United Nations agencies (namely, the World Health Organisation), but given the transboundary nature of many global health issues, a diverse range of actors, including the private sector, civil society organizations and national governments, are now integrally involved. The funding of global health programmes and policies, for example, has shifted from primarily bi-/multilateral donors to include private and public sectors and philanthropists in a global health governance mosaic. The module will use a number of case studies to examine the organisation and role of global health institutions, the challenges and opportunities presented by these governance arrangements, and their (intended and unintended) impacts on global health policy and practice. In doing so, the module will draw on contributions from a range of social sciences including sociology, political science and health services research.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. Ten one hour lectures and five two hour seminars.

Indicative coursework: One essay (1000 words) focusing on different approaches to framing global health

HP405  Half Unit
Social Determinants of Health

This information is for the 2018/19 session.

Teacher responsible: Dr Justin Parkhurst COW.3.08

Availability: This course is available on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing, MSc in Health and International Development, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course introduces the social determinants of health from a global perspective. Social determinants are defined in the course. The key determinants of health are poverty, education, gender, and the built environment. Specific health and social determinants are then introduced, before final lectures consider the policies of policy responses dealing with social determinants. It then goes into specific social determinants and issues such as poverty, education, gender and the built environment. Specific health and social determinants are then introduced, before final lectures consider the policies of policy responses dealing with social determinants. A set of 6 seminars compliment the lectures with the final seminar linked to assessment.

Assessment:

25% of the grade will be based on small group presentations in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

An outline or early draft of the term essay will be submitted in week 8 to allow feedback and guidance from teaching staff before final submission.

Assessment: Essay (75%, 3500 words) in the ST.

25% of the grade will be based on small group presentations in the final seminars. 75% of the grade will be based on a term essay (3500 words) that requires them to address a key health concern facing a population in a specific country of interest from a social and political perspective. They will need to write a policy brief that reviews literature, considers policy responses in relation to critical conceptual approaches covered, and proposes potential approaches to the problem.

HP406  Half Unit
Principles of Modern Epidemiology

This information is for the 2018/19 session.

Teacher responsible: Mr Allan Hackshaw

Availability: This course is available on the MSc in Health Policy and MSc in Global Population Health. This course is available with permission as an outside option to students on other programmes where regulations permit.

An optional course for students taking MSc Global Health and available to other students taking relevant MSc programmes, particularly Health, Population and Society and Health and Population Development

Course content: The course provides students with an understanding of key epidemiological concepts associated with describing disease/mortality or other health-related features of a population (such as causes of disease or early death), and evaluating ways to treat disease, or prevent disease or early death. This will include: (a) tools for descriptive epidemiology (incidence, prevalence and survival); (b) measures of association, using relative and absolute measures; and (c) confounding and bias. The course introduces the concepts associated with the design and analysis of research studies that are used to examine features of population health and burden of disease. It also introduces students to the principles of causality and risk factors. Students will cover the most common types of research studies used to evaluate human health (observational studies and clinical trials).

The course includes fundamentals of data interpretation, including effect sizes, and data analysis (e.g. regression modelling). Teaching is structured in the form of lectures and seminars. Lectures introduce students to key epidemiological concepts and methods, and complemented by seminars. Most lectures and seminars are based around specific published papers in epidemiology, used to illustrate the concepts. These articles would be sent to students in advance of each class, and students are expected to prepare a short review of the article, using an accompanying set of questions on the study design and interpretation.

Summative assessment is based on an examination to assess student's understanding of epidemiological concepts and their ability to interpret study results. Summative assessment also includes a research proposal in which students are expected to apply the basic principles of epidemiology in the context of a well-defined research question.

Assessment: Exam (75%, duration: 2 hours) in the summer exam period.

Teaching:

Four 2-hour lectures, six 1-hour lectures, and 5 2-hour seminars in the LT. One 3-hour revision seminar in the ST.

Formative coursework: Students will be expected to produce 1 project in the LT.

Students will be expected to produce one project in the LT, based on designing a research study, using a topic chosen by the student. In week 6, students would submit a draft report (up to 2000 words) of their project so far (not assessed, but feedback provided), as formative coursework. After this, the report would be expanded and finalised (~3000 words). In the report, students are expected to: (i) identify an epidemiological research question of relevance to global health, with justification, (ii) provide a summary of the key literature, and identify gaps in knowledge, and (iii) describe an epidemiological study to address their research question, including the methods.

Indicative reading:

Assessment: Exam (75%, duration: 2 hours) in the summer exam period.
HP407  Half Unit  Evidence Review and Synthesis for Decision Making

This information is for the 2018/19 session.
Teacher responsible: Dr Rocco Friebel OLD 1.07
Availability: This course is available on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit. This course is relevant to all students with an interest in the health and social care interventions.
Course content: Evidence review and synthesis methods (such as systematic reviews and meta-analyses) are increasingly used to evaluate the relative benefits and harms of healthcare interventions. In situations where direct, head-to-head comparisons of interventions do not exist, researchers also increasingly perform indirect comparisons (e.g., network meta-analyses) of two or more interventions to address comparative effectiveness questions. A broad range of decision making bodies across the health care sector (including health technology assessment bodies, drug and medical device licensing agencies, biopharmaceutical industry, and hospitals) need individuals equipped with the methods of reviewing and synthesising the existing body of evidence by performing systematic reviews and meta-analyses.
This course will be focused on the principles of reviewing and synthesising the existing body of literature. The course will have three components. The first will provide the rationale for adopting a systematic approach for evidence review and synthesis. It will equip students with the methods to undertake risk of bias assessments of randomised and non-randomised studies. The second component will focus on the quantitative synthesis of multiple studies in meta-analysis. The third component will discuss the opportunities and challenges of using evidence for decision-making.
The intended learning outcomes of this course will be the following:
• Describe the rationale for adopting a systematic approach to literature review
• Define the principal threats to validity both in individual studies and collections of studies
• Critically evaluate the quality of randomised and non-randomised studies in oral and written form
• Assess heterogeneity in a collection of studies
• Design and perform a systematic review and meta-analysis evaluating a health care intervention in a group setting
• Describe the opportunities and challenges of using systematic review and meta-analysis findings for decision making
Teaching: 15 hours of lectures, 10 hours and 30 minutes of seminars and 4 hours and 30 minutes of computer workshops in the LT. 2 hours of help sessions in the ST.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Formative assessment:
• Systematic review and meta-analysis protocol (submitted individually) - feedback provided by course instructor

HP420  Half Unit  Health Economics

This information is for the 2018/19 session.
Teacher responsible: Prof Andrew Street COW 3.03
Availability: This course is compulsory on the MSc in International Health Policy. This course is available on the MSc in Health Policy, Planning and Financing, MSc in International Health Policy (Health Economics) and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.
In allocating places in this course, students enrolled in the MSc in International Health Policy and MSc in International Health Policy (Health Economics) have priority. Any remaining places are allocated on a first-come-first-served basis.
Course content: This course develops basic economic concepts as they are applied to the health sector, provides for specialisation in health economics. Nature of health care as an economic commodity. How markets and insurance markets work, and how they can fail for health care and health care insurance. The economics of paying providers and different approaches taken by governments in different countries. Incentive mechanisms and Diagnostic Related Group payment schemes and yardstick competition. Labour markets in health care. Economic evaluation as a regulatory tool.
Teaching: 15 hours of lectures and 18 hours of seminars in the MT. 2 hours of lectures in the ST. Five x 2hr optional evening lectures in first half of MT for students with no background in economics.
Formative coursework: In-class progress test in the MT.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

HP421  Half Unit  Economic Analysis for Health Policy in Low- and Middle-Income Countries

This information is for the 2018/19 session.
Teacher responsible: Dr Mylene Lagarde COW.3.02
Availability: This course is compulsory on the MSc in Global Health Policy. This course is available on the MSc in Health Policy, Planning and Financing, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course will provide a broad understanding of the economic challenges faced by low and middle-income countries regarding health status of their populations and health care delivery options. It will also provide students with a strong economic framework to understand how individuals involved in health care systems (patients, providers, insurers) make decisions.
which affect the utilisation and delivery of health care services. The course will then provide students with an understanding of how economic concepts can help policy-makers define which policies are likely to provide adequate answers. The course will present key theoretical concepts and use empirical evidence particularly relevant for policy questions in low- and middle-income settings. The course will be very applied in nature, and students will be exposed to different types of empirical studies that have been used by (health) economists to analyse problems in health arising in Low- and Middle-Income countries.

By the end of this course, students will be able to:
- define fundamental principles and concepts of health economics relevant to health policy challenges in low- and middle-income countries;
- understand the economic models of decisions made by individuals on the demand- and supply-side of health care markets in low and middle-income countries;
- apply economic reasoning and models to identify problems and to recommend relevant health care policies;
- refer to seminal literature and evidence in the health economics and health policy fields in low- and middle-income countries;
- be able to interpret simple results from empirical economic studies, and formulate policy recommendations.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT. 3 hours of help sessions in the ST.

Ten 1.5 hour lectures and ten 1.5 hour seminars, plus a three-hour revision seminar in the ST.

**Formative coursework:** Coursework assessed throughout the LT and mock exam.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**HP423 Half Unit Advanced Health Economics**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Alistair McGuire COW.4.05

**Availability:** This course is compulsory on the MSc in International Health Policy (Health Economics). This course is available on the MSc in Health Policy, Planning and Financing and MSc in International Health Policy. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Health Economics (HP420).

Alternative introductory economics courses are acceptable.

**Course content:** The course will cover: international comparisons of health care expenditure, individual health-seeking behaviour, health care insurance, contract theory applied to the health care sector (including principal-agent theory and incentive payment mechanisms), and equity in health care.

Students may find material from the half unit HP426 Applied Health Econometrics, to be beneficial to studying this course. See the HP426 course guide for further detail.

**Teaching:** 15 hours of lectures and 20 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.

All lectures and seminars will be taught by Professor Alistair McGuire. The lectures will be from weeks 2 through 11 (including reading week). The seminars will be weekly from week 3 through to the end of the term.

**Formative coursework:** A piece of formative coursework will be set and students will receive feedback on their work based on a 1,500 word essay

**Assessment:** Exam (60%, duration: 2 hours) in the summer exam period.

Essay (40%, 2500 words) in the ST.
HP424  Half Unit
Pharmaceutical Economics and Policy
This information is for the 2018/19 session.
Teacher responsible: Dr Panagiotis Kanavos COW G.04
Availability: This course is compulsory on the MSc in International Health Policy. This course is available on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing, MSc in International Health Policy (Health Economics) and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.
Course content: The aim of this course is to introduce students to the economics of pharmaceutical markets and related policies that affect national and international markets broadly. The course will
• Provide students with an understanding of basic features of pharmaceutical markets, how pharmaceutical markets work and how competition manifests itself in different parts of pharmaceutical markets.
• Illustrate to students how the pharmaceutical market is linked to the health care market, why it is often the focus of much regulation, and to help students understand the multidimensional goals of pharmaceutical policies.
• Introduce students to the economic and policy problems encountered in managing pharmaceutical markets and how to evaluate the impact of alternative policy approaches. The course will also give students some experience in critically evaluating the impact of policy on market outcomes.
• Facilitate consideration of various country-specific political, cultural and economic factors that may drive governments’ approaches to pharmaceutical regulation. In this context, this course will help students consider the extent to which policies may be transferable.
• Enable students to analyse pharmaceutical markets from the perspectives of several main actors: governments, third party payers, the pharmaceutical industry, doctors, patients, pharmacists and wholesalers. Literature from Health Economics, Industrial Organisation and Health Policy will be incorporated into lectures, discussions and seminars.
• Introduce students to the economics of pricing and reimbursing pharmaceutical products, to explore different models of pricing and reimbursing medicines in OECD countries, including rate of return regulation, value-based pricing, cost-plus pricing, external price referencing and internal reference pricing, among others.
Teaching: 14 hours of lectures and 10 hours of seminars in the LT. 3 hours of lectures in the ST. A 3 hour scheduled revision lecture will take place in the ST.
Formative coursework: A formative essay under exam conditions (1 question in 1 hour) will be a requirement and is to be submitted immediately after the revision session.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

HP425  Half Unit
Statistical Methods in Health Care Economic Evaluation
This information is for the 2018/19 session.
Teacher responsible: Prof Alistair McGuire Cowdray House 4.05
Availability: This course is compulsory on the MSc in International Health Policy (Health Economics). This course is available on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing and MSc in International Health Policy. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: This course assumes knowledge of elementary mathematics and statistics. Students who wish to take HP425, but who have not taken an introductory university course in statistics or econometrics, may wish to consider auditing MY451 (Introduction to Quantitative Analysis) in Michaelmas Term in order to prepare themselves for this course. Students who are unsure whether they have the requisite background are encouraged to approach the Lecturer before the start of Lent Term. This course is envisaged to be complementary to HP422 (Cost-Effectiveness Analysis in Health Care), which is offered in Michaelmas Term.
Course content: This course develops the statistical and modelling techniques necessary to apply economic evaluation to the health care sector. Introduction to random variables and probability distribution, linear regression analysis, logistic regression analysis, survival analysis for health outcomes, survival analysis for treatment costs, parametric and non-parametric approaches for missing data, economic evaluation and clinical trials. Estimation of confidence intervals for cost-effectiveness ratios. Transformation of ratios - net benefit approach. Presentation of results, acceptability curves.
This is the same course as HP4B5E Statistical Methods in Health Care Economic Evaluation (modular), but it has different teaching and assessment arrangements.
Teaching: 20 hours of lectures and 20 hours of computer workshops in the LT. 1 hour of lectures in the ST.
Formative coursework: 1,500 word essay
Indicative reading: A full reading list is provided at the start of the course. The course makes use of selected parts of the following texts:
• Drummond Schulpher ‘Methods for the Economic Evaluation of Health Care Programmes.
• Siegel Weinstein Cost-Effectiveness in Health and Medicine OUP.
• Evaluating Health Risks: An Economic Approach
Assessment: Project (50%, 2500 words) and essay (50%, 2500 words) in the LT.
The project will consist of a Stata based exercise, where a statistical problem will be set using data the students will have used in prior computer workshops. The aim of the exercise will be to assess the students’ ability to undertake some statistical estimation, present the output and comment on the interpretation of the estimators.
Both assessments will be due towards the end of the LT / beginning of the ST. More information will be given at the beginning of the course.

HP426  Half Unit
Applied Health Econometrics
This information is for the 2018/19 session.
Teacher responsible: Dr Elisabetta De Cao OLD 1.11
Availability: This course is compulsory on the MSc in International Health Policy (Health Economics). This course is available on the MSc in International Health Policy. This course is available with permission as an outside option to students on other programmes
HP427 Half Unit  Not available in 2018/19

US Health Policy

This information is for the 2018/19 session.
Teacher responsible: Dr Adam Oliver COW 3.06
Availability: This course is available as an outside option to students on other programmes where regulations permit.

The course is of value to those wishing to work as health policy analysts or health advocates after graduation, be that in academia, government, industry, or management and practice.

Course content: The course offers an understanding of the major issues in the United States health care policy debate, which is important given that the US health care system is the largest in the world, and that many of its policy innovations are exported abroad. The course is interdisciplinary in nature, covering historical, political, discursive economics and philosophical considerations, among others.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT.

HP428 Half Unit

Randomised evaluations of health programmes: from design to implementation

This information is for the 2018/19 session.
Teacher responsible: Dr Mylene Lagarde COW 3.02
Availability: This course is available on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Randomised trials have long been used in the clinical world to test the efficacy of medical treatments. Recently, social scientists have started using the same approach, using random assignment to allocate resources or implement a policy intervention differently to different groups, in order to determine the causal effects of the policy of interest. The popularity of randomised evaluations has grown especially, but not exclusively, among researchers and policymakers in low- and middle-income settings.

Conducting a successful randomised evaluation involves many inter-related steps and a good understanding of a few statistical concepts. Randomised evaluations also usually require to design and organise the data collection of relevant and useful information, which involves a number of critical steps to avoid pitfalls. It is therefore essential to understand these different steps to design and implement randomised evaluations adequately, or to be able to critically analyse them.

This course proposes a hands-on and intuitive approach to designing and conducting a randomised evaluation. In the first half of the course, we will discuss reasons for undertaking randomised evaluations; how to design the randomised experiment to ensure it answers the question(s) of interest (including issues of statistical power and sample size calculation); how to deal with threats to randomisation. In the second half of the course, we will discuss practical issues raised by primary data collection, including how to best measure outcomes of interest; how to design good tools and how to conduct and manage fieldwork.

Seminars will be designed to encourage students to critically engage with the topics and apply the technical skills taught. Each seminar will be closely aligned with the lecture content to give students the opportunity to apply the new knowledge. Case studies will be chosen from various cultural backgrounds, to allow the presentation of a diverse range of settings and issues.

Teaching: 2 hours of lectures in the ST.

Formative coursework: Students will be given a progress test at the end of LT – this will be a 50 minute test in which they answer one essay question from a choice of three. This is perfect practice for what the students might expect in the final exam.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

The essay will be due for submission in Week 11 of LT.

HP427 Half Unit  Not available in 2018/19

US Health Policy

This information is for the 2018/19 session.
Teacher responsible: Dr Adam Oliver COW 3.06

The essay will be due for submission in Week 11 of LT.

HP428 Half Unit

Randomised evaluations of health programmes: from design to implementation

This information is for the 2018/19 session.
Teacher responsible: Dr Mylene Lagarde COW 3.02
Availability: This course is available on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Randomised trials have long been used in the clinical world to test the efficacy of medical treatments. Recently, social scientists have started using the same approach, using random assignment to allocate resources or implement a policy intervention differently to different groups, in order to determine the causal effects of the policy of interest. The popularity of randomised evaluations has grown especially, but not exclusively, among researchers and policymakers in low- and middle-income settings.

Conducting a successful randomised evaluation involves many inter-related steps and a good understanding of a few statistical concepts. Randomised evaluations also usually require to design and organise the data collection of relevant and useful information, which involves a number of critical steps to avoid pitfalls. It is therefore essential to understand these different steps to design and implement randomised evaluations adequately, or to be able to critically analyse them.

This course proposes a hands-on and intuitive approach to designing and conducting a randomised evaluation. In the first half of the course, we will discuss reasons for undertaking randomised evaluations; how to design the randomised experiment to ensure it answers the question(s) of interest (including issues of statistical power and sample size calculation); how to deal with threats to randomisation. In the second half of the course, we will discuss practical issues raised by primary data collection, including how to best measure outcomes of interest; how to design good tools and how to conduct and manage fieldwork.

Seminars will be designed to encourage students to critically engage with the topics and apply the technical skills taught. Each seminar will be closely aligned with the lecture content to give students the opportunity to apply the new knowledge. Case studies will be chosen from various cultural backgrounds, to allow the presentation of a diverse range of settings and issues.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: A draft protocol. Students will be asked to submit a short 1,500 word draft protocol by week 8. While some aspects of their work may still be work in progress (e.g. using bullet points), students will be expected to write up the first
half of their protocol in a more detailed way. The outlines will be graded and feedback given to students. This allows students to get valuable experience of writing at MSc level at LSE, and they will also understand more specifically the expectations of the summative assessment. Students will be able to use this feedback in their writing of the summative work.

**Indicative reading:**

**Assessment:** Research proposal (100%) in the LT. The objective of the research protocol (4,000 words max) will be to plan the randomised evaluation of a particular health programme. Students will be asked to pick one programme from a proposed list. They will also be given the option to choose their own intervention (pending agreement by their seminar leader).

---

**HP429 Half Unit**

**Behavioural Incentive Design in Health and Health Care**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Joan Costa-Font OLD.1.16

**Availability:** This course is available on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing, MSc in International Health Policy and MSc in International Health Policy (Health Economics).

**Course content:** The course covers the role of social and monetary incentives in modifying related health behaviour, and especially prevention and health care use. It will primarily draw on theoretical frameworks from several social sciences including applied microeconomics and behavioural economics, psychology, and sociology to provide an integrated framework about how to think about incentives in health and health care. The course will extend health economics teaching to cover quasi-rational and behavioural economics issues, and it will primarily focus on non-experimental evidence, although it will sometimes draw from policy and quasi-experiments. Its main purpose will be to discuss key theoretical and empirical background to guide the design of health and health care policies. The course will focus on the following issues: Quasi-rational actor and motivation. Risk-benefit decision-making framework. Monetary and non-monetary incentives. Esteem, Stigma. Obesity and payments. Monetary Incentives, co-payment design, Social Incentives. Reference Points. Risk preferences and perceptions. Locus of Control and Health and Health Care Behaviour. Anchoring and social cues. Taxes and Health: the role of Sin Taxes. Subsidies and Health: the role of conditional cash transfers. Myopia and Insurance Purchase: the case of long-term care insurance. Default and Presumed Consent. Motivation Crowding-Out and organ Donation. Information provision: risk information campaigns on food labelling, GM food. Stigma and Esteem: Smoking, Obesity. Cultural economics of health and health care: the role of traditional medicines. Body Self-Identity and Anorexia. Sleep and working time trade-off. Media, narratives and health-related behaviour. Culture, social norms: use of traditional medicine. Identity and blood donation, Food disorders. Health Inequality Aversion and Attitudes to Health Care. Behavioural incentives private and public health insurance design.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the Week 5. The essay will have a word limit of 1,500 words and the feedback from formative course work will provide the feedback for students to prepare for summative coursework, and especially to prepare for the exam.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Project (50%, 4500 words) in the MT Week 8. The project will be a group work project.

---

**HP431 Half Unit**

**Dissertation in Health Policy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Justin Parkhurst COW 3.08

**Availability:** This course is compulsory on the MSc in Global Health Policy, MSc in Health Policy, Planning and Financing, MSc in International Health Policy and MSc in International Health Policy (Health Economics). This course is not available as an outside option.

**Course content:** The dissertation could be on any topic relevant to topics studied in the student MSc. It should attempt to integrate approaches and knowledge learned across courses and present results to address a health policy issue or a problem identified through the use of either primary or secondary data. It must demonstrate adequate knowledge of relevant theoretical and empirical literature in the field. In addition, careful analysis of the policy implications and formulation of policy recommendations is essential. The main body of the dissertation should, in principle, include the background to the research, method of investigation, results of the analysis, discussion and policy implications and recommendations.

**Teaching:** 6 hours of workshops in the LT.

These will be complemented by sessions of individual supervision. The course comprising a total of 3 2-hour lectures that will focus on results pertaining to the dissertation (topic selection, structure, methods, result reporting, ethics approval), as well as general guidance on potential methodological approaches. The course will serve as a means to assist students with the preparation and finalisation of their dissertation proposals. In this context, students will also receive feedback and assistance from their supervisors, with whom they will need to meet separately.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT. Students will be expected to produce 1 piece of coursework in LT. Students will submit a dissertation proposal to their supervisor by the end of LT. This will be subject to review and supervisors will provide feedback by the end of May.

**Assessment:** Dissertation (100%, 6000 words).
HY400
Crisis Decision-Making in War and Peace 1914-2003

This information is for the 2018/19 session.
Teacher responsible: Prof Nigel Ashton SAR M.07
Availability: This course is compulsory on the MSc in International Affairs (LSE and Peking University). This course is available on the MSc in History of International Relations, MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: The course is intended for students with or without a detailed knowledge of the international relations of the twentieth century. Students without a detailed knowledge are advised to undertake preliminary background reading.
Course content: The history of international relations from the First World War to the Iraq War. Particular stress is placed upon key turning points and on crisis decision-making. Topics examined in this course include German decision-making in 1914; peacemaking, 1919; the Ruhr occupation crisis, Manchuria, Abyssinia, and the crises of collective security; the Munich agreement; the Nazi-Soviet Pact and the outbreak of war in 1939; Hitler’s decision to invade the Soviet Union; the outbreak of the Pacific War; the creation of the state of Israel, 1948-49; the Berlin Blockade; the outbreak and escalation of the Korean War, the Suez Crisis; the Cuban Missile Crisis; the US and Vietnam, 1961-65; the Arab-Israeli Wars of 1967 and 1973; German reunification and the collapse of the Soviet bloc; the origins of the Gulf War, 1990-91; the road to the 2003 Iraq War.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 1 hour of seminars in the ST.
The course will be taught in 20 weekly seminars of two hours’ duration. There is one reading week in the MT and one in the LT and a revision session in the Summer Term. Students will be expected to read widely in documentary and other primary sources, and to participate actively in the seminars, which will address the historiographical debates raised in the secondary literature on the topics covered.
Formative coursework: Students will write four essays. Three of the essays will be up to 3,000 words in length and draw upon primary sources. The fourth will be a shorter timed essay produced in class
Assessment: Exam (100%, duration: 3 hours) in the summer exam period.
There will be one three-hour written examination in the ST.
Questions on the earlier and the later topics are in separate sections of the examination paper. Candidates are expected to answer three questions, with at least one taken from each section of the paper.

HY411
European Integration in the Twentieth Century

This information is for the 2018/19 session.
Teacher responsible: Dr Piers Ludlow SAR 2.16
Availability: This course is available on the MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: A prior knowledge of 20th century European history will be an advantage. Students unfamiliar with the subject should do some preliminary reading. A reading knowledge of French and/or German will be useful but in no sense essential.
Course content: The antecedents and development of Western European integration from the First World War to the 1990s. European integration before 1914; German and Allied projects during the First World War; inter-war developments and the Briand Plan; the Nazi New ‘Order’: Resistance and Allied planning during the Second World War; the impact of the Marshall Plan; Federalism and Christian Democracy; the Schuman Plan and the Coal and Steel Community; the European Defence Community project; the Treaties of Rome; the Common Agricultural Policy; the integration policies of the Six and Britain, de Gaulle and the Communities; enlargement; monetary integration; developments in the 1970s and 1980s; Maastricht.
Teaching: 7 hours of lectures and 15 hours of seminars in the MT. 3 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.
There will be a reading week in the Michaelmas and the Lent Terms and a revision session in the Summer Term.
Formative coursework: Three essays will be required in the course of the year. The essay in the LT will be an assessed piece of work counting towards the final assessment. In addition there will be a mock exam.
Assessment: Exam (75%, duration: 3 hours) in the summer exam period.
Essay (25%) in the LT.
75% of the final mark will be determined by an unseen three-hour written exam held in the ST. Candidates will be expected to answer three questions, at least one from each of two sections. In addition the fourth piece of written work, produced during the LT, will be assessed and will account for the remaining 25% of the mark.
HY422
Presidents, Public Opinion, and Foreign Policy, from Roosevelt to Reagan, 1933-89

This information is for the 2018/19 session.
Teacher responsible: Prof Steven Casey SAR 2.10
Availability: This course is available on the MSc in History of International Relations, MSc in International Affairs (LSE & Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: Using a range of secondary sources, the course explores the dynamic interaction between presidents, public opinion, and foreign policymaking in order to test a range of common assumptions about the determinants of American foreign policy in the period from 1933 to 1989. The course explores the interaction between opinion and policy in three periods: First, the Roosevelt era, with emphasis on FDR's response to American isolationism, the media and public attitudes towards Nazi Germany and the Second World War, and the influence of public pressures upon US policy. Second, the period of consensus on the Cold War, examining how Americans viewed the Communist world before, during and after the Korean War, the influence of the atomic bomb upon popular thinking, the limits of dissent in the period of McCarthyism, and the impact of public opinion upon policy-making during the Berlin and Cuban crises. Third, the period when the Cold War consensus broke down, focusing not just on the opposition to the Vietnam war and the new cleavages that emerged within US society but also on the changing nature of the American media and the very different attempts made by Nixon, Carter and Reagan to respond to this new environment.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.
20 seminars of two-hours. Students are expected to keep up with readings for the weekly meetings and to participate in the seminar discussions.
There will be a reading week in the Michaelmas and the Lent terms and a revision session in the Summer Term.
Formative coursework: Students are required to produce two 3,000 word essays during the year. There will also be a mock exam (a one-hour timed essay).
Indicative reading: A full bibliography accompanies the course and the teacher will advise on reading.
Assessment: Exam (100%, duration: 3 hours) in the summer exam period.
A three-hour unseen written examination in the ST. The final examination will count for 100% of the final course assessment.

HY423
Empire, Colonialism and Globalisation

This information is for the 2018/19 session.
Teacher responsible: Dr Taylor C. Sherman SAR M.10
Availability: This course is compulsory on the MSc in Empires, Colonialism and Globalisation. This course is available on the MSc in Global and Mediterranean History and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: None.
Course content: This course covers the comparative history of empires from the fifteenth century to the present day. Students will study the Ottoman, Mughal, Qing, Spanish, British and American empires in depth. We explore different approaches to these empires, and the dynamics of their rise and fall. We also explore the extent to which the imperial past has helped shape the processes of globalisation in early modern, modern and contemporary times. A number of major themes are addressed, including: gender and Islam in the Ottoman Empire, cultural cosmopolitanism in the Mughal Empire, religious conversion in the Spanish Empire, governing through ethnicity in the Qing Empire; regulating religion in the British Empire in India, colonial Medicine in Africa, and settler colonialism in Australia. The course is structured so as to encourage general and comparative discussions rooted in specific case studies.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.
There will be a reading week in the Michaelmas and the Lent terms.
Formative coursework: Students are expected to submit 1 draft essay (1200 words) in the MT, and one essay (2500 words) in the MT
Assessment: Essay (45%, 5000 words) in the LT. Essay (45%, 5000 words) in the ST.
Class participation (10%) in the MT and LT.

HY424
The Napoleonic Empire: The Making of Modern Europe

This information is for the 2018/19 session.
Teacher responsible: Dr Paul Keenan SAR 2.13
Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations and MSc in International and World History (LSE & Columbia). This course is available as an outside option to students on other programmes where regulations permit.
Course content: The Napoleonic Empire was crucial in the formation of modern Europe. Much of Europe was dominated by the Napoleonic Empire and its impact was felt across the continent and in parts of the non-European world. Through an analysis of both those areas directly incorporated into the Napoleonic empire and of those that lay beyond it, this course will examine the extent of the direct and indirect influence of this era on the development of what we understand by a modern European society and a modern state system. The course analyses how this empire was created, as well as the states and societies that it forged. The varied and sometimes contradictory elements of this era will be analysed - from the impact of the growth of secularisation, constitutionalism and the codification of laws to the beginnings of Romanticism, manifestations of early nationalism and monarchial reaction after 1815. The course will also assess the significance
of both the reality and the 'myth' of empire, in the assessment of contemporary observers and also in the later nineteenth and twentieth centuries.

The course will cover the following topics: the origins of the Empire; changes in armies and warfare; analysis of the changing nature of the Napoleonic Empire from the core to the periphery; the impact of the Empire on countries that remained beyond it; Europe's relationship with the non-European world during this period; the diplomacy of war and the 'system' that emerged after 1815; the impact of the Napoleonic era on the modernisation of society, the economy, law and the state; early manifestations of nationalism in the Italian and German lands, Spain and Russia; reaction against the Napoleonic 'system' after 1815. The course will also assess the significance of both the reality and the 'myth' of Napoleon and his empire, for contemporary commentators and also in the later nineteenth and twentieth centuries.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in the MT and the LT.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and 1 essay in the ST. The third essay will be a mock exam answer, which can be completed by students over the Easter break. It will be graded and students given written feedback in the first week of Summer Term.

**Indicative reading:** A detailed Reading List will be issued at the beginning of the course. Useful introductory works include: G. Ellis, Napoleon; G. Ellis, The Napoleonic Empire; M. Broers, Europe under Napoleon 1799-1815; S. J. Woolf, Napoleon's Integration of Europe; P. Dwyer (ed), Napoleon and Europe; C. Esdaile, Napoleon's Wars: An International History; O. Connelly, Napoleon's Satellite Kingdoms; P. Geyl, Napoleon, For and Against.

**Assessment:** Exam (65%, duration: 2 hours) in the summer exam period.

Essay (35%, 3500 words) in the LT.

**HY429**

**Anglo-American Relations from World War to Cold War, 1939-91**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Nigel Ashton SAR M.07

**Availability:** This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course analyses the changing nature of the Anglo-American "special" relationship from its creation against the backdrop of the Second World War in Europe through to the end of the Cold War. It will illuminate the foundations of the relationship in terms of culture and ideology, and also the threat posed by common enemies in the Second World War and Cold War. The competitive dimension of the Anglo-American relationship will also be highlighted as a means of explaining instances of discord such as the Suez Crisis of 1956.

The topics covered include: Anglo-American relations in historical perspective; the creation of the Anglo-American alliance, 1939-41; competitive co-operation in war strategy and politics, 1941-45; the American "Occupation" of Britain during the Second World War; the emergence of the Cold War in Europe, 1945-49; the Cold War in Asia, 1945-54; the Palestine question; the Suez Crisis, 1956; nuclear relations and the Skybolt Crisis; Kennedy, Macmillan and the Cuban Missile Crisis; Anglo-American relations and European integration, decolonisation and Anglo-American relations since 1945; the impact of the Vietnam War; the Cultural Cold War; intelligence co-operation; Anglo-American relations in the 1970s; Thatcher, Reagan and the Cold War in the 1980s; the Falklands War; the significance of personal relations at the top; retrospect and prospects for Anglo-American relations.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

The course will be taught by means of 20 seminars of two hours duration during the MT and LT. There will be one reading week in the MT and one in the LT. There will be a revision session in Summer Term.

**Formative coursework:** Three pieces of written work must be submitted by students taking this course. These consist of two essays of up to 3,000 words in length and one timed class essay.

**Indicative reading:** For an introduction to Anglo-American relations, students should consult the following texts: D Reynolds & D Dimbleby, An Ocean Apart: the Relationship between Britain and America in the Twentieth Century (1988); J Dumbrell, 'A Special Relationship': Anglo-American Relations from the Cold War to Iraq (2006); C Bartlett, The Special Relationship: A Political History of Anglo-American Relations Since 1945 (1992; W R Louis & H Bull (Eds), The Special Relationship: Anglo-American Relations since 1945 (1984); D C Watt, Succeeding John Bull: America in Britain's Place, 1900-75 (1984). A detailed reading list will be issued at the start of the course.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

---

**HY432**

**From Cold Warriors to Peacemakers: the End of the Cold War Era, 1979-1999**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Una Bergmane

**Availability:** This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Western (European) diplomacy in the 1980s to the mid-1990s examining tensions, rivalries and linkages not merely between the western and communist blocs, but also within them, as well as studying the events reflecting the shift from the Cold War to the post-Cold War world. The aim is to address from a historical perspective the diplomacy of the end of the East-West conflict, German reunification, the Yugoslavian wars, European integration, and NATO enlargement. The domestic political bases of, and the political relations between, the leading figures (Gorbachev, Yeltsin, Reagan, Bush, Thatcher, Major, Mitterrand, Delors and Kohl) will be covered as well as the diplomacy of the period. Major topics will include Thatcherism, Reaganomics, Gorbachev's new thinking, the reunification of Germany; the collapse of the Soviet Union and its wider empire; the Gulf War and Yugoslavian Wars; America and her Western European partners; the Single European Act, the Maastricht Treaty and the Euro; the security arrangements of Russia and NATO after the fall of communism.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in MT and LT and a revision session in ST.

**Formative coursework:** Short class papers; engagement in role play; a number of discussions on Moodle, and two 3,000 word essays during the year. There will be a one-hour timed essay (Mock Exam).

**Indicative reading:** A full bibliography will be provided at the first meeting of the class and is available on Moodle. Key books include: Margaret Thatcher, The Downing Street Years; EHH Green, Thatcher, Julius W Friend, The Long Presidency, France in the Mitterrand Years; Martin McCauley, Gorbachev; Hannes Adomeit, Imperial Overstretch; Saki Dockrill, The End of the Cold War Era, George Bush & Brent Scowcroft, A World Transformed;
HY434 Not available in 2018/19
The Rise and Fall of Communism in Europe 1917-1990
This information is for the 2018/19 session.
Teacher responsible: Dr Andrea Mason SAR M.09
Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course will examine the rise, survival and collapse of the Soviet Communist ideology and Communist regimes based in Russia and Eastern Europe during the period 1917-1990. The course will also deal with the struggle for Communist influence in Western Europe during the same period. The course will start with the study of the Russian revolution and the civil war to the establishment of the Stalinist regime in the Soviet Union. This will be followed by the study of the history of Soviet involvement in the Second World War and the extension of Soviet influence into Eastern Europe after the Second World War. An examination of the installation of Soviet style regimes in that region will be followed by the analysis of Soviet post-war objectives and Soviet objectives towards Germany. The death of Stalin and the Soviet responses to the Polish and Hungarian events in 1956 is linked to the study of Khrushchev and the Brezhnev eras. Additionally the course analyses the extension of Communist influence into Western Europe through the Comintern and the Cominform. The course concludes with a consideration of detente, the Gorbachev period, and the collapse by the end of 1990 of the Soviet Union and other Communist regimes in Europe.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.
Presentation (15%) and class participation (15%) in the MT.
Essay (35%, 3500 words) in the LT.

HY435 Political Islam: From Ibn Taymiyya to ISIS
This information is for the 2018/19 session.
Teacher responsible: Dr Kirsten Schulze SAR 2.12
Availability: This course is available on the MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia), MSc in Social Anthropology (Religion in the Contemporary World) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course has six objectives: i. To examine the evolution of political Islam as a set of ideas. ii. To compare and contrast different models of Islamic State. iii. To explore the strategies used by Islamist movements to Islamise a state as well as state strategies to prevent this. iv. To explore the phenomena of transnational Islamism and international jihadism. v. To analyse and evaluate the relationship between Islam and the West. vi. To familiarise the student with some of the primary sources (in translation) and the historiographical controversies. This course looks at the evolution of Islamist philosophy and movements, focusing on ideas as well as intellectual, religious and political leaders. The key areas covered are: Islamist thinkers - Ibn Taymiyya, Wahab, Afgani, Abdu, Rida, al-Banna, Qutb, Maududi, Khomeini, Faraj, Azzam and Zawaheri, Models of Islamic State - Iran, Pakistan, Afghanistan, Malaysia and Turkey, Islamist Movements – the Muslim Brotherhood, Islamic Jihad, Hizb’allah, Hamas, the Islamic Salvation Front, and Boko Haram, transnational Islam and international jihadism - Al-Qaeda, Jama’at Islamiyya, and ISIS.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.
Formative coursework: One formative essay (3,500 words) in Michaelmas Term.
Assessment: Essay (35%, 3500 words) in the LT.
Essay (25%, 3500 words) in the LT. Presentation (15%) and class participation (15%) in the MT and LT.

HY436 Race, Violence and Colonial Rule in Africa
This information is for the 2018/19 session.
Teacher responsible: Dr Jack Hogan SAR M.13
Availability: This course is available on the MSc in Conflict Studies, MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International Migration and Public Policy, MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course examines the nature of colonial rule in Africa and its impact. It is focused upon the violence inherent in this encounter, its different forms and origins. It is essentially a political history but includes cultural, social and economic aspects. The primary focus is on the British empire in Africa. Topics covered include Victorian racism; the ‘Scramble for Africa; white settler culture; the origins of apartheid South Africa; the development...
of the colonial state; indirect rule; the rise of nationalism in West Africa; the Mau Mau uprising in Kenya; the Congo crisis and the assassination of Lumumba; the rise and fall of ‘white’ Rhodesia; the wars of liberation in Mozambique; the end of the apartheid state; the genocide in Rwanda; the civil war in Sierra Leone; Mupabi and Zimbabwe; and Somalian warlordism.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in the Michaelmas and Lent terms and a revision session in the Summer Term.

Formative coursework: Each student is required to write two essays (3,000 words each) and one mock exam.

Assessment: Exam (80%, duration: 3 hours) in the summer exam period.

HY440 Not available in 2018/19

The Emergence of Modern Iran: State, Society and Diplomacy

This information is for the 2018/19 session.

Teacher responsible: Dr Roham Alvandi SAR M.12

Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

Please note that students taking this course cannot take GV4E7

Islamic Republic of Iran: Society, Politics, the Greater Middle East (H).

Course content: This course examines the emergence of modern Iran against the backdrop of Iran's political, social and diplomatic history from the 16th century to 2003. It covers three inter-related topics: the history of the modern Iranian state; the interaction between state and society in modern Iran; and Iran's diplomatic history. The course is divided into three sections. The first section examines the emergence of modern Iran under the Safavid and Qajar dynasties, with a particular focus on reform, revolution and Iran's encounter with European imperialism. The second section deals with the Pahlavi era and the attempts by both Pahlavi monarchs to strengthen the Iranian state while confronting social resistance at home and asserting Iran's power abroad. The third section deals with the origins of the Iranian revolution of 1978/79 and the transformation of the Iranian state under the Islamic Republic. Here we consider how war and peace shaped the domestic politics and foreign policy of revolutionary Iran, with a particular focus on US-Iran relations and the rise and fall of the reform movement.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in the MT and the LT.

Formative coursework: Students are required to submit one 3,000 word essay in the Michaelmas Term. There will also be a mock exam (a one-hour timed essay) in the Summer Term

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Essay (25%, 3000 words) in the LT.

HY441 Not available in 2018/19

Islam, State and Conflict in Southeast Asia

This information is for the 2018/19 session.

Teacher responsible: Dr Kirsten Schulze SAR 2.12

Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course looks at Indonesia, Malaysia, and the Philippines from the colonial period to the present day. It focuses on Islam, state and conflict, starting with a broader discussion of the Islamisation of Southeast Asia and the entry of the European colonial powers. This is followed by a closer analysis of the relationship between Islam and the colonial state with seminars on the Dutch East Indies, Britain's Malaya, and the 'Spanish' Philippines. The course then looks at the rise of nationalism and the interplay of Islam and nationalism in the Muslim-majority states of Indonesia and Malaysia as well as the Muslim-minority state of the Philippines. In the second term this course studies the dynamics of Islam, the state, and local society in the Darul Islam rebellions (Indonesia), the Aceh conflict (Indonesia), the Mindanao conflict (the Philippines), as well as the Bosom and Ambon conflicts (Indonesia). It also looks at Islam and social conflict in Malaysia and Indonesia as well as the rise of regional and international jihadism with Jemaah Islamiyya and the Southeast Asian affiliates of ISIS.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Formative coursework: One formative essay (3,500 words) in Michaelmas Term.

Assessment: Essay (35%, 3500 words) in the LT.

Essay (35%, 3500 words) in the ST.

Presentation (15%) and class participation (15%) in the MT and LT.

HY444

The Cold War in Latin America

This information is for the 2018/19 session.

Teacher responsible: Dr Anna Cant

Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is...
available as an outside option to students on other programmes where regulations permit.

**Course content:** This seminar is designed to introduce students to new historical approaches to the Cold War in Latin America. It responds to new research and debates that have arisen in recent years regarding the meaning of the Cold War in Latin American context. Students will examine the conflict’s origins, who its protagonists were, the extent to which the superpowers were involved in it and its significance at a local, regional, and global level. The course places particular emphasis on the role of ideas and ideological struggles, the intersection between these ideas and the challenges of modernity and economic development; the causes of revolutionary and counter-revolutionary upheaval; the manifestations of violence and its effects; and the cultural Cold War. Students will be especially encouraged to explore the intra-regional and transnational dynamics of the Cold War in Latin America. They will study how events in one part of Latin America (for example, the overthrow of Jacobo Arbenz in Guatemala, the Cuban Revolution, the Brazilian and Chilean coups or the Central American crises in the 1980s) impacted upon other areas of region. The seminar will also devote three weeks to looking at Latin America’s experience of the Cold War from a global comparative perspective, particularly in contrast to other parts of the Third World. Although the seminar will mostly involve intensive reading and discussion of secondary sources, students will also be encouraged to reflect on new online archival material, published writings of principal thinkers and oral histories as a means of understanding key concepts and ideas.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. There will be a reading week in the Michaelmas and Lent terms.

**Formative coursework:** Students are required to write one 3,000 word formative essay in the Michaelmas Term and one formative discussion post at the beginning of the year.

**Assessment:** Essay (50%, 6000 words) in the ST. Other (35%) and class participation (15%).

---

**HY448 Living with the Bomb: An International History of Nuclear Weapons and the Arms Race from the Second World War to the end of the Cold War**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Matthew Jones SAR 3.09

**Availability:** This course is available on the MSc in History of International Relations, MSc in International Affairs (LSER & Peking University), MSc in International and World History (LSER & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course takes as a prime focus the nuclear policies pursued by some of the major powers in the international system from the initial use of nuclear weapons against Japan in 1945 until the collapse of the Soviet Union in 1991. It introduces and explores three main themes: how the advent of nuclear weapons came to influence national strategies and crisis behaviour, why the development of nuclear weapons and their delivery systems fuelled an arms race that became one of the defining features of the Cold War; and how major powers have attempted to curb the testing of such weapons, the numbers contained in their arsenals, and their spread, through measures of arms control and non-proliferation. After examining the controversy over the atomic bombing of Japan in 1945, including the moral and ethical questions raised by nuclear use, the course includes consideration of some of the most important events and debates in post-war nuclear history—the course is not designed or intended to be a potted history of the Cold War, but rather looks at the influence and role of nuclear weapons (and the strategic thinking that accompanied their development). The movement to ban the testing of nuclear weapons is also covered, and attention given to the Chinese, British and French national nuclear programmes, as well as those of the Soviet Union and United States. The last portion of the course offers close analysis of the international negotiations over arms control and non-proliferation that have featured since the late 1960s. Throughout the course students will engage with contemporary writings and study primary source documents which will accompany each topic.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of help sessions in the ST.

Students will be expected to read essential primary and secondary material for each weekly class, to deliver presentations, and to participate in seminar discussions. Reading week will take place in week 6 of MT and LT.

**Formative coursework:** Students will be required to produce a 2,000 word formative essay during week 6 of the Michaelmas Term.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Essay (25%, 3000 words) in the LT.

Essay (25%, 3000 words) in the LT.

Assessment will be through two methods:

An unseen two hour examination paper, where students will have to write two essays drawn from a list of questions covered in the weekly classes (50%).

Two summative essays, each maximum 3,000 words, and taken from a set list of questions (25% for each essay).
HY458
LSE-Columbia University Double Degree Dissertation
This information is for the 2018/19 session.
Teacher responsible: Dr Taylor C. Sherman, SAR M.10
Availability: This course is compulsory on the MSC in International and World History (LSE & Columbia). This course is not available as an outside option.
Pre-requisites: During their first year at Columbia University, students will identify a topic for the dissertation and will submit a detailed dissertation proposal form to their LSE supervisor. They will also have undertaken substantial research over the course of the summer, have written a Dissertation Research Report before arriving at LSE and be in a position to talk in a detailed manner with regards to their dissertation. These and the completion of other formal requirements for year one of the Double Degree will be needed before students can proceed to the second year of the programme at LSE.
Course content: The individual dissertation will be supervised and assessed at LSE in accordance with the Department's MSC regulations. It will be in the form of a thesis of no more than 15,000 words. The dissertation workshop will complement this by offering sessions on methodological topics, and 7 sessions in which the students will each present updates on their research over the summer (MT) and a 3,000 word extract from their dissertations for group discussion, evaluation and analysis (LT).
Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT.
Formative coursework: Students will be requested to submit a Dissertation Research Report for discussion in the MT. Students are also required to circulate a 3000-word extract of their dissertation for discussion in the LT.
Indicative reading: A reading list will be provided at the start of the course but will include the following introductory surveys: Berger, Feldner and Passmore, Writing History; D Cannadine (Ed), What is History now?; L Jordanova, History in Practice; R Evans, In Defence of History; J Tosh, The Pursuit of the Past; M Bloch, The Historian's Craft; R G Collingwood, The Idea of History.
Assessment: Dissertation (100%, 15,000 words) in the ST.

HY459
The Ottoman Empire and its Legacy, 1299-1950
This information is for the 2018/19 session.
Teacher responsible: Dr Noemi Lévy-Aksu
Availability: This course is available on the MSC in Empires, Colonialism and Globalisation, MSC in History of International Relations, MSC in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSC in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The Ottoman Empire (1299-1923) was one of the longest lasting and most territorially extensive of all empires in history. Yet today few know about its nature, whether in Turkey or abroad. Who were the Ottomans? How did they run their empire? How did they manage diversity? How did their understanding and practice of Islam change over time? What was the secret of their success, and what ultimately caused the empire’s fall? How do the Ottomans compare to other contemporary empires? What is the Ottoman legacy, especially in Turkey and Greece? What is the significance of the Ottoman Empire for world history?
In order to answer these questions we will study the following topics: three pillars of Ottoman inheritance: Byzantium, Islam, Mongols; the origins and rise of the Ottoman Empire; the conquest of Constantinople and its significance for world history; Ottoman state institutions in the “classic age,” gendering Ottoman History; the Ottomans and the Renaissance; the Ottomans and the Age of Exploration; the Ottoman-Safavid-Habsburg struggle for supremacy; Ottoman Jews: model minority?; sixteenth- and seventeenth-century transformations; pietism, conversion, and interreligious relations; reform and repression, 1839-1908; Orientalism and the Ottomans; the Young Turks and the revolution of 1908; World War I and the Armenian genocide; Atatürk: the “Father” of Modern Turkey and the new Turkish Republic; the Kurdish issue; the legacy of the Ottoman Empire in comparative perspective; and the Ottoman past in Turkish historical fiction.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.
There will be a reading week in the Michaelmas and the Lent terms and a revision session in the Summer Term.
Formative coursework: Students will be expected to produce 1 essay in the MT.
Weekly written and oral reading reports in MT and LT. Completion of these is mandatory, in order to facilitate good seminar discussions.
Assessment: Exam (70%, duration: 3 hours) in the summer exam period.
Presentation (15%) and class participation (15%) in the MT and LT. The participation grade will be based on the quality of the student’s contribution to seminar discussions, and weekly posting of reading responses.

HY461
East Asia in the Age of Imperialism, 1839-1945
This information is for the 2018/19 session.
Teacher responsible: Dr Peter Millwood
Availability: This course is available on the MSc in China in Comparative Perspective, MSC in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSC in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSC in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: There are no formal pre-requisites for this course, but some knowledge of the international history of East Asia would be useful.
Course content: The course looks at the origins and the political, strategic, economic and cultural consequences of the arrival of Western imperialism in East Asia. Subjects covered by the course include the clash between the Westphalian and Sinocentric international orders; the opium wars; the fall of the Tokugawa shogunate; the Japanese, Korean and Chinese responses to the arrival of the West; the history of Western imperialism in China and the rise of Chinese nationalism; the rise of Japanese imperialism; the Russo-Japanese War and its consequences; pan-Asianism, race and immigration; the Chinese revolution of 1911-12; the rise of intra-Asian trade; the effect of Wilsonian and communist internationalism; Japan’s move towards aggressive expansion in the 1930s; the outbreak of the Pacific War.
Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of seminars in the ST.
Students on this course will have a reading week in Week 6 of MT and LT.
One revision class in the Summer Term.

**Formative coursework:** Students will be required to write three essays over the academic year. The second essay will be assessed and the third essay will be a mock examination.

**Indicative reading:** A detailed reading list will be issued at the start of the course, but the following provides a useful introduction to the themes, events and historiography: Shigeru Akita (ed.), Gentlemanly Capitalism, Imperialism and Global History (Basingstoke, 2002); Warren Cohen, (ed.), Pacific Passage: The Study of American-East Asian Relations on the Eve of the Twenty-First Century (New York, 1996); Merle Goldman & Andrew Gordon, (ed.), Historical Perspectives on Contemporary East Asia (Cambridge, Mass. 2000); Akira Iriye, Japan and the Wider World: From the Mid-Nineteenth Century to the Present (London, 1997); Jonathan Spence, The Search for Modern China (1999); Chushichi Tsuzuki, The Pursuit of Power in Modern Japan 1825-1995 (Oxford, 2000).

**Assessment:** Exam (75%, duration: 3 hours) in the summer exam period. Essay (25%, 3000 words).

A three-hour unseen examination in ST (75%) and the second essay during the academic year (3,000 words) will be assessed and make up the remaining 25%.

---

**HY463**

**The Origins of the Cold War, 1917-1962**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Vladimir Zubok SAR 3.13

**Availability:** This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course examines the origins of the Cold War and its dynamics of its rise during the period from World War II to the Cuban Missile Crisis in 1962. It looks at long-term trends as well as specific events in order to elucidate how the Cold War originated and evolved. It deals with the Cold War as an international history, covering the period from a variety of geographical and national angles: while some meetings necessarily centre on an individual state or a bilateral relationship, there will be others that deal with a wider region or with global trends. Intellectually, therefore, the course stresses the transformation of the field from the study of (primarily American) national foreign policy to a broader international approach.

**Teaching:** 10 hours of lectures and 20 hours of seminars in the MT. 10 hours of lectures and 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Twenty-two-hour seminar and twenty one-hour survey lectures. The twofold emphasis of the seminars is on working with primary sources and working with the historiography, in particular the recent ‘New Cold War History’, in order to understand how historians have interpreted (and re-interpreted) the origins of the Cold War in light of their access to new sources. The lectures are joint with HY206.

There will be a reading week in the Michaelmas and the Lent terms and a revision session in the Summer Term.

**Formative coursework:** Students are required to make brief historiographical notes for each seminar starting from week 3, to give two oral presentations during the year and to submit one 3000-word formative essay in the Michaelmas Term (the second essay is assessed, see below).

**Assessment:** Exam (75%, duration: 3 hours) in the summer exam period. Essay (25%, 3000 words) in the LT.

---

**HY465**

**The International History of the Balkans since 1939: State Projects, Wars, and Social Conflict**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Svetozar Rajak SAR 3.15

**Availability:** This course is available on the MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course examines the history of the Balkans in the second half of the Twentieth century and on the threshold of the Twenty First century. It is not, however, designed to provide a simple historical overview of the region during this period. The course aims to integrate broader themes and interpretations of the Cold War and its legacy, and of deeper civilizational undercurrents of the second half of the Twentieth Century, with the study of the region and its only federation, Yugoslavia. To do so, it will invoke three main themes that will also facilitate insight into the interaction between the global, regional, and country specific: Firstly, the course will explore the regional and inter-bloc dynamics within the structured Cold War system by looking at the impact the Cold War had on the region and, in turn, at the influence the Balkans, in particular the Greek Civil War and Yugoslavia’s conflict with the USSR exercised on the institutionalization and the dynamics of the Cold War during its nascent decade. Secondly, the course will look into the unique role Yugoslavia played in the creation of the alternatives and challenges to the bipolar structure and rigidity of the Cold War world, namely the Non-aligned Movement, and the ideological heresy, the so called “Yugoslav road to Socialism” that created a schism within one of the ideological poles of the Cold War, the Soviet Communism. Thirdly, the course will offer insight into the dramatic impact the end of the Cold War on the developments in the region, in particular on the collapse of the Yugoslav federation; at the same time, it will assess the role that the disintegration of Yugoslavia and the subsequent wars...
of secession had on the creation of the concepts that became the building blocks of the post-Cold War international system, namely nation-building, humanitarian intervention, international community, conflict-resolution, limited sovereignty, decreasing role of the UN, American hegemony, etc.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:** Students are required to write one 3,000 word essay in the Michaelmas term. There will also be a mock exam (a one-hour essay) in the end of the Lent term.

**Indicative reading:**
- Todorova Maria, Imagining the Balkans, Oxford University Press, 1997.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Essay (25%, 3000 words) in the ST.

Class participation (15%) and presentation (10%) in the MT and LT.

**Course content:**
- This course will explore the history of the modern global history.
- The course will focus on the ways in which the conflict shaped societies and political orders in Africa, Asia, and beyond. Drawing on key secondary texts, primary sources, and visual material, the course will provide a broad introduction to the most destructive and cataclysmic conflict in modern global history.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT.

There will be a revision session in Summer Term.

**Formative coursework:** Students will be required to submit two 3,000 word formative essays (one per term). They will also have the opportunity to sit a mock exam.

**Indicative reading:**
- David Turnbull, Maps are Territories, Science is an Atlas (Chicago: Chicago University Press, 1993).

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

**HY471** Not available in 2018/19

**European Empires and Global Conflict, 1935-1948**

This information is for the 2018/19 session.

**Teacher responsible:** TBC

**Availability:** This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course examines the history of the European empires in the Second World War. It covers the history of the war fought in the imperial world and its impact on the lives of millions of colonial civilians; the political, military, and social history of colonial soldiers who fought in Europe's multi-ethnic and multi-religious armies; the history of anti-colonial movements during the war, from Ho Chi Minh’s Viet Minh to Gandhi’s Quit India movement; and the history of the war’s impact on decolonisation and the twentieth century world order. Overall, the course explores the non-European experience of the Second World War, examining the ways in which the conflict shaped societies and political orders in Africa, Asia, and beyond. Drawing on key secondary texts, primary sources, and visual material, the course provides a broad introduction to the most destructive and cataclysmic conflict in modern global history.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT.

There will be reading weeks in MT and LT.

**Formative coursework:** Students will be expected to produce one essay (2,500 to 3,000 words) in MT; one presentation in MT; and one presentation in LT. Students will also be required to prepare short summaries of the readings (bullet points) for the weekly meetings.

**Indicative reading:**

HY472
China and the External World, 1711-1839

This information is for the 2018/19 session.
Teacher responsible: Dr Chung Yam Po SAR 2.18

Availability: This course is available on the MSc in China in Comparative Perspective, MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be capped at one group. Places are limited and priority will be given to International History students over those of other departments.

Course content: This course provides an overview of the history of Qing China from the early eighteenth to the mid-nineteenth centuries, tracing political, institutional, cultural, and social continuities and changes, particularly in China's land and maritime frontiers. Beginning in the Qianlong period, the Qing Empire became involved in an ever-growing network of commerce and cultural exchange, extending from Manchuria to Inner Asia, and from the East Sea to the Indian Ocean. Following the bloody suppression of the Lhasa riots in 1750, a series of events further connected China to the external world: the infamous Dzungar genocide, China's invasion of Burma, European encroachment in Asian seas, the rise of port cities in Southeast Asia that were dominated by Chinese entrepreneurs, and increasing tension between China and Western powers over sea lanes and maritime boundaries. This course will use China's shifting frontiers as a fulcrum to re-examine Chinese history in the modern era, factoring in the movement of people, commodities, ideas, cultural meanings, and imaginaries, which clearly indicate "China's outwardness." This challenges the common perception of China as isolated and inward-looking.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Ten weekly two-hour seminar meetings in Michaelmas Term and Lent Term, with a reading week in week 6 of both terms. Revision session in the Summer Term.

Formative coursework: One formative essay in the Michaelmas Term; one mock exam.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.
Essay (35%, 3500 words) in the LT.
Presentation (15%) in the MT and LT.

HY474
Slavery and Emancipation in the British World

This information is for the 2018/19 session.
Teacher responsible: Dr Padraic Scanlan SAR.3.05

Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course explores the history of slavery and freedom in Britain and the British world from 1600 to 1900. In the liberal tradition, slavery and freedom are framed as theoretical and rhetorical opposites. In practice, the lines between slavery and freedom were blurry and ambiguous. In the seventeenth and eighteenth centuries, sugar grown and processed in the British colonies of the Caribbean by enslaved African workers was a cornerstone of the imperial economy. Britain's North American colonies were caught in the economic and political orbit of the sugar islands. At the end of the eighteenth century, the American, French and Haitian Revolutions transformed, but did not end, the political economy of slavery in the British world. In 1807, Britain abolished its slave trade. In 1834, slavery was abolished in the British empire. Abolition did not, however, end Britain's close association with slavery. Cotton produced by enslaved people in the American South provided Britain with crucial raw material during the industrial revolution. British investments kept the empire imbricated in the global trade in enslaved people and the commodities their labour produced. And yet, even as the British empire became entrenched in the nineteenth-century world of slavery, reformers placed ever greater faith in liberal ideas of freedom, bureaucratic transparency, free labour, and free markets. This course offers an opportunity to examine the place of slavery and emancipation in the history of the British world, and the ambiguities and paradoxes of a liberal empire built on the backs of enslaved people.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Presentation (15%) in the MT and LT.
10 x two-hour seminars in the MT and the LT. There will be a reading week in the MT and the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT. 2500 word formative essay in the Michaelmas term.

**Assessment:** Essay (50%, 5000 words) in the LT. Essay (50%, 5000 words) in the ST.

**HY477**

**Race, Gender and Reproduction in the Caribbean, 1860s-1980s**

This information is for the 2018/19 session. 
Teacher responsible: Dr Imaobong Umoren SAR 3.07

**Availability:** This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** In the wake of slavery, debates about the intersecting politics of race, gender, and reproduction arose in the Francophone, Anglophone, and Hispanic Caribbean and continued well into the 1960s. This module explores the ways in which the formerly enslaved as well as former planters, imperial officials, newly indentured labourers from South Asia, philanthropists, medical professionals, and welfare workers contributed to and shaped colonial social welfare, health policies, and ideas surrounding racial uplift and improvement. Students will engage in comparative intellectual and social history by drawing on primary and secondary sources to consider the influence of European and American imperialism in the Caribbean. A range of topics will be explored including post-emancipation population decline; infant mortality; illegitimacy; venereal disease; birth control; inter- and extra regional migration; eugenics; tropical medicine; interwar population increase and the impact these issues had on the First and Second World Wars, decolonisation, departmentalisation and other independence struggles. Each week students will focus on a topic in relation to different Caribbean islands. All primary sources will be available in English.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 10 x 2-hour seminars in the MT; 10 x 2-hour seminars in the LT. There will be a reading week in the MT and the LT.

**Formative coursework:** Students will be expected to produce one essay (2,500 to 3,000 words) in MT; and one presentation in either the MT or the LT. Students will also be required to prepare short summaries of the readings for the weekly meetings.

**Assessment:** Essay (50%, 5000 words) in the LT. Essay (50%, 5000 words) in the ST.

---

**HY478**

**The Origins of the Modern World: Europe, China and India, 1600-1800**

This information is for the 2018/19 session. 
Teacher responsible: Dr Gagan D. S. Sood SAR 2.07

**Availability:** This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course is about the developments which led to the emergence of our modern world. A variety of conditions have been highlighted by historians as responsible for this, including government reform, agricultural practices, empirical rationality, consumption patterns, military conflict, property rights, family arrangements, territorial conquest, revenue administration, and sheer accident. Although scholarly consensus on the leading-edge conditions still eludes us, there is broad agreement that the polities of northwestern Europe, eastern China and northern India played critical roles, and that the fateful step change occurred between the seventeenth and early nineteenth centuries. We will examine the main polities of these regions - Early Modern Britain, Qing China and Mughal India - and the relations between them from two distinct but complementary perspectives, which define the two terms of the course. One is historiographical and centres on received interpretive frameworks, the other is historical and builds on our best current knowledge of Eurasia in the period. In the Michaelmas Term, we will study the paradigms and narratives that have been elaborated by historians to make sense of the step change which occurred from the seventeenth
course. Each crystallises a specific set of structures and gives
primaly to different polities of Eurasia, with a particular stress on
Early Modern Britain, Qing China and or Mughal India. In studying
these frameworks, we will gain familiarity with the most significant
attributes of these polities, and how they have been interpreted by
scholars for their general import. In the Lent Term, we will study
the ways in which the three polities addressed the near-universal
problems faced in all complex states and societies. The solutions
that were historically proposed, attempted and enacted powerfully
shaped their future trajectories, and had a direct bearing on
relations between Europe, China and India. By recovering the most
consequential structures and solutions over the two terms of this
course, there then arises the prospect of apprehending the origins
of the modern world.

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the
LT.

There will be a reading week in both the MT and the LT. As no prior
knowledge of the course's subject is either assumed or required, it
is essential for students to do the set readings and assignments, attend the seminars and engage actively in discussion. It is also
strongly recommended that students meet informally outside the
class setting to compare notes and learn from each other.

**Formative coursework:** A 3000-word essay will be due towards
the end of MT on a historiographical topic decided in consultation
with the instructor. Each week, students will work through a core
reading that provides important background information, as well
as selected further readings in line with their developing interests.
These tasks will be supplemented with short response papers or
memos to be posted on Moodle before the weekly seminars and
unassessed debates and oral presentations during the seminars
themselves.

**Indicative reading:** For general surveys, students may consult:
David B. Abernethy, The Dynamics of Global Dominance: Europe
Overseas Empires, 1415-1980 (New Haven, CT, 2000); Christopher
A. Bayly, The Birth of the Modern World, 1780-1914: Global
Connections and Comparisons (Oxford, 2004); John Darwin, After
contributions to the subject include: Fernand Braudel, Civilization
and Capitalism, 15th-18th Century, 3 vols (New York, 1981-1984);
Marshall G. S. Hodgson, Rethinking World History: Essays on
Europe, Islam, and World History (Cambridge, 1993); Antony G.
Hopkins (ed.), Globalization in World History (London, 2002); Victor
Lieberman, Strange Parallels: Southeast Asia in Global Context, c.
800-1830, 2 vols (Cambridge, 2003-2009); Geoffrey Parker, Global
Crisis: War, Climate Change and Catastrophe in the Seventeenth
Century (New Haven, NH, 2013); Kenneth Pomperanz, Great
Divergence: Europe, China and the Making of the Modern World

**Assessment:** Essay (40%, 4000 words) in the LT.
Essay (45%, 4000 words) in the ST.
Class participation (15%) in the MT and LT.
Assessment will be via course participation (15%) and two 4000-
word essays (40% and 45%, respectively). Students will be required
to submit a formative essay in MT and an essay plan in LT as
preparation for the assessed essays. The first assessed essay will
be due in Week 8 of the LT, the second in Week 1 of the ST. The questions
for these essays will be selected from an approved list supplied at
the start of the course.

**HY479**

**Environmental History in a Global Context**

This information is for the 2018/19 session.

**Teacher responsible:** Assistant Professor Megan Black SAR 3.06

**Availability:** This course is available on the MSc in Empires,
Colonialism and Globalisation, MSc in History of International
Relations, MSc in International Affairs (LSE and Peking University),
MSc in International and World History (LSE & Columbia) and MSc
in Theory and History of International Relations. This course is
available with permission as an outside option to students on other
programmes where regulations permit.

**Course content:** This course will consider how environmental
ideas and practices have shaped relations between nation-
states and the wider world throughout history. Diplomatic and
environmental historians have struggled to speak to each other
despite a shared interest in the world—a world defined largely by
political boundaries in one vision and by environmental features
in the other. However, recently, historians have begun to explore
how environmental ideas and processes, from resource scarcity
to climate change, became an object of international relations,
as well as how environmental conditions shaped the field of
possible action in the enactment of foreign relations. This course
will therefore consider how industrialized nations, especially the
United States, thought about nature and impacted ecosystems
at home and abroad in the modern era. It briefly reviews early
colonial encounters between peoples and environments across the
Americas and Asia, before turning to late-nineteenth and twentieth-
century attempts to engineer and conserve nature across the
globe in the image of Western modernity and postwar debates
about over-population, resource scarcity, nuclear contamination,
chemical toxins, and Anthropogenic climate change. We
will engage an array of topics of relevance to international
history, including colonialism, imperialism, war, modernization,
development, multilateral institutions, and nongovernmental
organizations and examine a growing array of scholarship in U.S.
Environmental History, International History, Globalization Studies,
Political Economy, and Postcolonial Studies that have brought the
environment from the background to the center of their analyses.
Students will be prepared to analyse historical debates over how
humans, corporations, and governments have interacted with
nonhuman nature on a global scale, and how nonhuman nature
shaped interactions overtime. Along the way, we will ask, how
did officials and decision-makers try to define and manage a
borderless nature? How might an environmental lens help us to
better understand historical relationships between nations?

**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the
LT.
10 x 2-hour seminars in the MT; 10 x 2-hour seminars in the LT.
There will be a reading week in the Michaelmas and the Lent
Terms.

**Formative coursework:** Students will be expected to produce 1
essay, 1 presentation and 1 other piece of coursework in the MT.
A 1,000-word book review, a 1,500-word keyword essay, a class
facilitation presentation.

Assessment: Essay (35%, 3000 words) in the MT. Essay (35%, 3000 words) in the ST.
Class participation (15%) and presentation (15%) in the MT and LT.
3000-word historiographical essay due in Michaelmas Term (35%); 3000-word state-of-the-field essay due in Summer Term (35%); Seminar participation (15%); Presentation (15%).

HY480
Cold War Public Diplomacy: United States Cultural Battles Abroad

This information is for the 2018/19 session.
Teacher responsible: Dr Victoria Phillips
Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: The course is intended for students with or without a detailed knowledge of the Cold War and public diplomacy. However, students without a detailed knowledge of Cold War history are advised to undertake preliminary background reading.
Course content: Because the Cold War was a series of ideological battles for the "hearts and minds of mankind," culture became a weapon. This seminar examines the United States' export of its ideals to counter communism abroad. Although the course focuses on American-led projects, soft power, and psychological warfare, the reach was global and thus offers the opportunity to examine US operations world-wide. The class opens with an examination of American political power from the 19th-century's claims about the frontier through the American Century and Cold War conceptions of "truth," "propaganda," and "informational" practices. The intersection of American governmental branches and clandestine operations with international private foundations, the press, advertising agencies, universities, corporations, and private individuals unpack the complexity of export operations. The course continues to explore cultural diplomacy through radio, music, modernist art, dance, literature, books, magazines, film, television, architecture, and sports. It examines the power of race, gender, and religion. The concept of soft power is challenged by its intersection with military operations, hot wars, or the threat of nuclear attacks in case studies of Korea, Berlin, Cuba, and Vietnam. Cultural exports are examined in the context of secondary source readings and primary sources including conventional archival documents as well as examples of art, film, and performances.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.
20 hours of seminars in the MT. 20 hours of seminars in the LT. There will be a reading week in the Michaelmas and the Lent terms.
Formative coursework: Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.
Students are required to produce one formative essay (3,000 words maximum) by the conclusion of the reading week in the MT. A formative primary source analysis exercise will be due at the conclusion of the MT.
Assessment: Essay (55%, 5000 words) in the ST. Presentation (10%), class participation (10%) and online assessment (25%) in the MT and LT.
On alternate weeks, students will post a brief essay on the syllabus topic (500 word-maximum – 25%) and participate in the seminar discussions (10%). During either the MT or LT, each student will give an in-class presentation relating to the week's agenda (maximum fifteen minutes, 10%). In lieu of a final exam, students will write one maximum 5,000 word essay (including footnotes) based on a primary and secondary source analysis due in the ST (55%).

HY481
A Gender History of National Socialism – History, Memory, Debates

This information is for the 2018/19 session.
Teacher responsible: Professor Johanna Gehmacher
Availability: This course is available on the MSc in Empires, Colonialism and Globalisation, MSc in History of International Relations, MSc in International Affairs (LSE and Peking University), MSc in International and World History (LSE & Columbia) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: Women's- and Gender history of National Socialism, which has developed into a differentiated field of research in the last four decades, has clearly shown that Gender is highly relevant to the analysis of National Socialist ideology and politics in many respects. This applies to gendered hierarchies of the political public, to gendered strategies of the war economy, as well as to the racial politics of reproduction that affected women's lives in unequivocal ways. Gender is also extremely relevant to analysing specific forms of participation of men and women in crimes against humanity, war crimes and genocide. When, however, gender policies of the National Socialist regime are addressed in a broader public phantasmatic images that identify submission with femality are widespread and in popular TV documentaries voyeuristic perspectives on the wives and mistresses of Nazi leaders often figure rather prominently. This course will contrast such popular perceptions with a reflexive approach to the wide range of scholarly literature on the gender history of the National Socialism. It will also address gender as a category for the analysis of National Socialism which cannot be discussed without regard to the category of race—to which it is subordinated in National Socialist ideology and politics. The course will reflect the vibrant and controversial field of research from its beginnings in the 1970s up to the present, and thereby combine the approaches of social and gender history, discourse analysis and the history of memory.
The course will both address the historiography of the field and
discuss central analytic concepts. It will look into the history of fascist movements in Germany and Austria and examine the participation of women as well as the movements’ gendered concepts of society. Students will learn about different aspects of the installation of the National Socialist regime in Germany in the 1930s and discuss various aspects of the gender history of the regime (e.g., the intersection between racial laws and family policies, the changing policies on the female work force during the war, the gendered history of genocidal extermination policy or gendered strategies of resistance) using a variety of analytical texts as well as (translated) original sources. The course will also confront the history of public memory of National Socialism and tackle the peculiar role of specific gendered images in memory politics as well as in popular history.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Formatative coursework: Students will be expected to produce 1 essay, 1 exercise, 1 presentation and 1 other piece of coursework in the MT.

A 1,500-word book review, a 2,000-word essay, a 500-word analysis of primary source, a class facilitation presentation.

Assessment: Essay (25%, 3000 words) and case analysis (15%) in the LT.

Essay (25%, 3000 words) in the ST.

Presentation (15%) and class participation (20%) in the MT and LT.

3000-word historiographical essay due in Lent Term (25%), 3000-word state-of-the-field essay due in Summer Term (25%), 500-word analysis of primary source (15%), participation (20%); presentation (15%).

HY499 Dissertation

This information is for the 2018/19 session.

Teacher responsible: Dr Padraic Scanlan SAR 3.05

Availability: This course is compulsory on the MSc in Empires, Colonialism and Globalisation and MSc in History of International Relations. This course is not available as an outside option.

Course content: The HY499 dissertation is an exercise in using primary sources to write on a precise topic in International History. The only formal limit on the choice of subject is that it must fall within the syllabus - i.e. it has to be a topic in International History, and the dissertation has to be a study in the discipline of history. Dissertations that represent contributions to disciplines outside history, such as International Relations or Politics, will not be approved or accepted. Dissertations must therefore be based substantially on a critical analysis of primary sources, and candidates should aim to include an element of originality in the argument and/or the treatment of the evidence. The subject must involve an element of engagement with the analysis of relations between states and/or societies; alternatively it may involve the study of the history of attitudes and/or policies in one society towards others or comparative studies involving at least two states and/or societies. The topic must not be confined purely to the domestic affairs of one society or state. The dissertation supervisor is the final judge of whether a particular topic falls within the syllabus.

Teaching: 4 one-hour sessions in MT.

HY499 teaching is provided through HY499 Dissertation workshop sessions and through the individual supervision of dissertation projects by supervisors in the Department of International History. Students should use the Michaelmas Term to find, decide on, and develop a suitable dissertation topic and consider possible dissertation supervisors. Help with this process is available from the students’ personal advisers. Students are then required to complete the HY499 Dissertation Proposal Form and to seek approval for their project from their dissertation supervisor. It is the students’ responsibility to locate a supervisor. They should meet with the potential supervisor in late Michaelmas term (every member of staff has weekly office hours) to discuss their dissertation proposal, and then ask the supervisor to sign the HY499 Dissertation Proposal Form before the published deadline. It is the students’ responsibility to contact their supervisor to arrange at least one but no more than three meetings in the Summer Term to discuss their dissertation. At this stage the supervisor will be prepared to read and give feedback on a draft table of contents and a draft chapter, or a section or a detailed plan of the dissertation of no more than 1,000 words. Students should note that if they submit a dissertation proposal after the deadline the Teacher Responsible for the course may need to allocate them to a non-subject-specialist supervisor, if no specialists are available.

Assessment: Dissertation (100%, 10000 words) in September. 100% by dissertation. A Fail cannot be compensated, and a degree cannot be awarded unless HY499 has been passed. Dissertations must not exceed 10,000 words, including text and footnotes but excluding the cover page, the table of contents, the list of abbreviations, the bibliography and appendices. Two bound copies and one electronic copy must be submitted by the published deadline.

IR410 International Politics

This information is for the 2018/19 session.

Teacher responsible: Dr Peter Wilson

Availability: This course is compulsory on the MSc in International Relations and MSc in International Relations (LSE and Sciences Po). This course is not available as an outside option.

Course content: This course has 5 objectives: (i) to enquire
into the nature of international politics and the role of general theory in advancing our understanding of it; (ii) to introduce the main contributions to the general theory of international politics; (iii) to provide students with a range of concepts, ideas, and perspectives to enable them to widen and deepen their understanding of international politics; (iv) to encourage critical, independent, thought; (v) to ascertain the extent to which progress has been made in our understanding of international politics, and more tentatively to what degree international politics itself can be deemed intrinsically or latently progressive. The primary pedagogical device of the course is a close reading of 13 seminal IR texts. Students are encouraged to investigate the epistemological assumptions underlying these texts, the methods of analysis they employ, their importance in the canon of IR, and their value for thinking about international politics today.

**Teaching:** 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 7 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students deliver seminar papers and write three 2,000-word essays for their seminar teachers on topics notified at the beginning of the session.

**Indicative reading:**
- V. Woolf, Three Guineas (1938).

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

The paper contains about 12 questions, of which three are to be answered.

**IR411**

**Foreign Policy Analysis III**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Christopher Hughes 95A.1.15

**Availability:** This course is available on the MSc in China in Comparative Perspective, MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** You. Admission is not guaranteed.

**You. Admission is not guaranteed.**

**Pre-requisites:** Students need not have studied Foreign Policy Analysis before, but some familiarity with theories of International Relations and modern international history is essential.

**Course content:** The ways in which states formulate decisions and strategies for dealing with other members of the international community. Critical examination of theoretical perspectives on foreign policy, involving the analysis of the foreign policy behaviour of a broad range of states through selective use of case studies.

Development of the discipline of Foreign Policy Analysis; the interplay between domestic and external forces; the organisation, psychology and politics of decision-making; the impact of public opinion and state type upon foreign policy; the foreign policies of the major and middle powers as well as small/weak states; conventional and critical theories of FPA; ethical foreign policy. Seminars discuss and expand on these topics, covering also questions of choice, rationality and identity and the significance of history and culture in foreign policy, as well as methodological issues, as appropriate. Students are expected to combine an interest in theoretical and comparative aspects of the subject with a solid knowledge of the main foreign policy issues and events of the contemporary era and the twentieth and twenty-first centuries.

A detailed programme of lectures will be provided at the start of the session. Watch a short introductory video on this course: [http://www2.lse.ac.uk/internationalRelations/video/IR411-FPA-video.aspx](http://www2.lse.ac.uk/internationalRelations/video/IR411-FPA-video.aspx)

**Teaching:** 10 hours of lectures and 12 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** All students who attend the seminar will be expected to write three 2,000 word essays for their seminar leader. Each student will also be expected to present at least one seminar topic.

**Indicative reading:** The following books are a necessary but not sufficient reading requirement. They provide access to most of the main themes of the course as well as to a considerable amount of empirical material: Chris Alden and Amon Aran, Foreign Policy Analysis: New Approaches: Understanding the diplomacy of war, profit and justice, Routledge, 2011; Valerie M. Hudson, Foreign Policy Analysis: Classic and Contemporary Theory, Rowman and Littlefield, 2007; Graham Allison and Philip Zelikour, Essence of Decision, 2nd ed., Longman, 1999; Christopher Hill, The Changing Politics of Foreign Policy, Palgrave, 2003; Yuen Foong Khong, Analogies at War: Korea, Munich, Dien Bien Phu and the Vietnam Decisions of 1965, Princeton University Press, 1992; Steve Smith, Amelia Hadfield and Timothy Dunne (Eds), Foreign Policy: Theories, Actors, Cases, Oxford University Press, 2012; A more detailed reading list will be provided at the beginning of the course.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

**IR412**

**International Institutions**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Mathias Koening-Archipugi CON.4.08

**Dr Uli Sedelmeier CLM.5.06**

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International
IR415

Strategic Aspects of International Relations

This information is for the 2018/19 session.

Teacher responsible: Prof Christopher Coker CLM.4.09

Availability: This course is available on the MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is not available as an outside option.

Course content: The development of the external activities of the European Communities, now the European Union, since 1957, including the development of European Political Cooperation and the Common Foreign and Security Policy, and trade and development policy. The relationship between the member states and these external activities, in particular the impact of the evolution of EU institutions and policies on national foreign policies. Relations between the EU and non-EU states and regions, including the United States, Russia, the Middle East, Asia and Africa. Watch a short introductory video on this course: http://www.lse.ac.uk/internationalRelations/video/IR416-EUW-video.aspx

Teaching: 10 hours of lectures and 12 hours of seminars in the MT. 9 hours of lectures and 12 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Three 2,000-word essays will be set and marked by the seminar teacher.

IR416

The EU in the World

This information is for the 2018/19 session.

Teacher responsible: Prof Karen Smith CLM.4.09

Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is not available as an outside option.

All students, except those registered on the MSc in EU Politics, are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Pre-requisites: Some basic knowledge of international relations as an academic discipline is desirable, together with some acquaintance with the general evolution of world politics over the last one hundred years.

Course content: The development of the external activities of the European Communities, now the European Union, since 1957, including the development of European Political Cooperation and the Common Foreign and Security Policy, and trade and development policy. The relationship between the member states and these external activities, in particular the impact of the evolution of EU institutions and policies on national foreign policies. Relations between the EU and non-EU states and regions, including the United States, Russia, the Middle East, Asia and Africa. Watch a short introductory video on this course: http://www.lse.ac.uk/internationalRelations/video/IR416-EUW-video.aspx

Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 9 hours of lectures and 12 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Three 2,000-word essays during the course, to be marked by seminar leaders. These do not count towards the final mark.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.
IR418  Not available in 2018/19
International Politics: Asia & the Pacific

This information is for the 2018/19 session.
Teacher responsible: Prof Christopher Hughes ALD 1.15
Availability: This course is available on the MSc in China in Comparative Perspective, MSc in Development Studies, MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available as an outside option to students on other programmes where regulations permit.
Course content: The international political experience of major powers and post-colonial states in a region beset by recurrent conflict and external intervention during the Cold War and subject to a novel multilateralism in its wake. The inter-linkages between the global, regional and local, the interests and role of the US, foreign and security policies of the major regional powers in relation to East Asia-Pacific; the impact of the legacies of colonialism, and external intervention; the sources of bilateral and intra-regional conflict; the problem of regional order with reference to East and South-East Asia; the emergence and development of regional institutions.
Teaching: 10 hours of lectures and 14 hours of seminars in the MT. 8 hours of lectures and 10 hours of seminars in the LT. 2 hours of seminars in the ST.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will be expected to write three 2,000-word essays by dates stipulated by the teachers responsible.
Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

IR419
International Relations of the Middle East

This information is for the 2018/19 session.
Teacher responsible: Prof Fawaz Gerges CLM.4.06
Availability: This course is available on the MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
The course is intended primarily for students on programmes run by the Department of International Relations (IR). Students on the MSc in Comparative Politics and MSc in Global Politics may take the course, but this is subject to students demonstrating that they have a grasp of International Relations theory, or have made efforts to cover this ground before starting the course.
All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed; students external to the IR department must clearly outline the extent to which they are familiar with IR theory/ efforts they will make to familiarise themselves with this area before the course begins.
Pre-requisites: A knowledge of the international political system, of the major issues in its contemporary development, and at least a basic understanding of core International Relations theory, is required. Background in IR and/or political science and/or history is a prerequisite.
Course content: The course is intended to provide an analysis of the regional politics of the Middle East since 1918, and of their interaction with problems of international security, global resources and great power/super power/ hyperpower politics.
Topics covered include: The emergence of the state system in the Middle East during the inter-war period; the interplay of domestic politics, regional conflicts and international rivalries; the Cold War and post-Cold War significance of the Middle East in global politics; the importance of oil and other economic factors and interests; conflict in the Gulf and the Arab-Israeli conflict; the foreign policies of major Middle Eastern states and the Lebanese civil war; the role of ideologies and social movements: Arab nationalism, militarism, political Islam and global jihadism; state and non-state actors; democracy and human rights issues, the Arab Spring uprisings; and international relations theory and its significance for the study of Middle East politics.
Teaching: 10 hours of lectures and 12 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Seminar attendees will be expected to submit three 2,500-word essays, based on past examination papers, to be marked by their seminar teacher, and to give presentations in both the MT and LT.
Indicative reading: Students are strongly advised to read before the beginning of the course: F. Halliday, The Middle East in International Relations: Power, Politics and Ideology, Fawaz A. Gerges, The Superpowers and the Middle East: Regional and International Politics, M.E. Yapp, The Near East Since the First World War, Fawaz A. Gerges, Making the Arab World: Nasser, Qutb, and the Clash That Shaped the Middle East; and Z. Lockman, Contending Visions of the Middle East: The History and Politics of Orientalism. In addition they are recommended to consult: R Hinnebusch & A Ehteshami (Eds), The Foreign Policies of Middle East States; B Korany & A Dessouki (Eds), The Foreign Policies of Arab States; and Fawaz A. Gerges (ed.), The New Middle East: Protest and Revolution in the Arab World. A detailed reading list will be available on Moodle once course admissions have been confirmed.
Assessment: Exam (100%, duration: 3 hours) in the summer exam period.
There is one three-hour examination in the ST.

IR433  Half Unit
The International Politics of EU Enlargement

This information is for the 2018/19 session.
Teacher responsible: Prof Karen Smith CLM.4.09
Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in International Affairs
IR434 Half Unit
European Defence and Security

This course examines the ways that different theories conceive, analyse and explain the character of international relations. The purpose of the course is to provide a thorough interrogation of these theories, exploring debates both within and between them. Theoretical approaches to be considered include: classical and neo-realism; liberal institutionalism and neo-liberalism; Marxism; constructivism; English School theory; critical theory; post-structuralism; and feminism. The course also interrogates issues relating to the philosophy of science and philosophy of history.

Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalrelations/video/IR436-IRT-video.aspx

Teaching: 10 hours of lectures and 2 hours of seminars in the MT. 10 hours of lectures and 20 hours of seminars in the LT. 1 hour of lectures and 2 hours of seminars in the ST.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

IR436 Theories of International Relations

This information is for the 2018/19 session.

Teacher responsible: Dr Katharine Millar - CLM 4.10

Availability: This course is compulsory on the MSc in International Relations (Research) and MSc in International Relations Theory. This course is not available as an outside option. It may not be combined with IR410 International Politics.

Course content: This course examines the ways that different theories conceive, analyse and explain the character of international relations. The purpose of the course is to provide a thorough interrogation of these theories, exploring debates both within and between them. Theoretical approaches to be considered include: classical and neo-realism; liberal institutionalism and neo-liberalism; Marxism; constructivism; English School theory; critical theory; post-structuralism; and feminism. The course also interrogates issues relating to the philosophy of science and philosophy of history.

Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalrelations/video/IR436-IRT-video.aspx

Teaching: 10 hours of lectures and 20 hours of seminars in the MT. 10 hours of lectures and 20 hours of seminars in the LT. 1 hour of lectures and 2 hours of seminars in the ST.
IR445
China and the World

This information is for the 2018/19 session.

Teacher responsible: Prof William Callahan CLM 5.07 and Prof Christopher Hughes 95A.1.15

Availability: This course is available on the MSc in International Relations, MSc in International Relations (LSE and Sciences Po) and MSc in International Relations (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Course content: This course will provide students with an historical overview of the development of Chinese foreign and security policy, the theoretical concepts used for analysing the making of Chinese foreign policy, and an up-to-date consideration of China’s evolving relations around the world. The first five weeks will be dedicated to providing a long historical perspective, and use a number of case studies to show how basic factors used in foreign policy analysis shape policy outcomes, including economic factors, the role of perception, geopolitical influences, bureaucratic politics, nationalism, and socialisation into the international system. The remainder of the course will involve analysing case studies of how China uses its economic, military and soft power in its relations with the United States, Asia, Europe, and middle powers (Australia, Norway, Canada), and with international institutions such as the WTO, the UN and various regional organizations. The course also examines China’s foreign policy in terms of alternative world orders.

Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalrelations/video/IR445-CFSP-video.aspx

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 22 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will complete three 2,000 word essays during the course and will make two presentations to the seminar. It is permissible for the presentations to be on the same topics as the essays.

Indicative reading:
• Liao Xuanli L69

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 4000 words) in the ST.

IR447  Half Unit
Political Economy of International Labour Migration

This information is for the 2018/19 session.

Teacher responsible: Dr Covadonga Meseguer

Availability: This course is available on the MSc in Development Studies, MSc in International Affairs (LSE and Sciences Po), MSc in International Migration and Public Policy, MSc in International Political Economy, MSc in International Political Economy (Research), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research) and MSc in International Relations Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: No pre-requisites

Course content: The mobility of workers is one of the pillars of globalization. However and surprisingly, international political economists have paid less attention to the political causes and consequences of international migration in comparison to that paid to other aspects of globalization such as trade or finance. In this course, we shall employ a political economy perspective to study the historical evolution of migration policy, the relationship between trade and migration, and the political causes and consequences of migration flows. I shall place special emphasis on the study of the political consequences of migration for sending (rather than receiving) countries. We shall also pay attention to an important capital flow associated to international migration: remittances. Rather than focusing on the economic/developmental consequences of remittances, we shall discuss how remittances impact political outcomes as diverse as democratization, the survival of dictatorships, political clientelism, corruption, political participation, and political accountability.

Course Outline
Week 1. Overview and Introduction.
Week 5. The Making of Migration Policy (I): Interests and Institutions.
Week 6. Reading Week
Week 8. International Migration and International Cooperation.
Week 9. Economic Consequences of International Migration for Sending Countries: Remittances.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT.
The essay will be due at the end of Week 1 of the ST. A list of topics and questions provided by the course coordinator. Students will write a 4,000-word assessed essay selecting from a list of topics and questions provided by the course coordinator. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

Pre-requisites: A basic background knowledge of the subject would be an advantage.

Course content: This course is intended for those interested in theoretical and practical approaches to the question of peace, the problems of conflict and violence, and responses to them. Particular emphasis will be placed on the relevance of liberal peacebuilding and statebuilding. The seminars explore the nexus between theory and practice. Although the course and its readings are mainly theoretical and conceptual rather than empirical, students are encouraged to apply the ideas to actual cases, past and present.

Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalRelations/video/IR422-CPS-video.aspx

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One mandatory 2,000-word essay, marked by the seminar teacher. One two-page outline of assessed essay.

Indicative reading: A detailed reading guide will be provided at the first meeting. Useful survey texts are: Oliver Rambotham, Hugh Miall and Tom Woodhouse, Contemporary Conflict Resolution: The Prevention, Management and Transformation of Deadly Conflicts, 3rd ed (Poltiy, 2011); Chester Crocker, Fen Osler Hampson and Pamela Aall (eds), Leashing the Dogs of War (USIP, 2007); David Keen, Complex Emergencies (Poltiy, 2007); Karen Ballantine and Jake Sherman (eds), The Political Economy of Armed Conflict: Beyond Greed and Grievance (Lynne Rienner, 2004); Oliver Richmond, The Transformation of Peace (Palgrave, 2006); Chester Crocker, Fen Osler Hampson and Pamela Aall (eds), Herding Cats: Multiparty Mediation in a Complex World (USIP, 1999); Peter Wallensteen, Understanding Conflict Resolution, 2nd ed (London: Sage, 2007); David Chandler, International Statebuilding: The Rise of Post-Liberal Governance (Routledge 2010); Roland Paris, At War’s End: Building Peace after Civil Conflict (Cambridge University Press 2004); Mark Duffield, Development, Security and Unending War (Poltiy Press 2007).

Assessment: Essay (100%, 5000 words) in the ST.

IR448 Half Unit
American Grand Strategy

This information is for the 2018/19 session.
Teacher responsible: Prof Peter Trubowitz CLM 4.05
Availability: This course is available on the MSc in International Relations, MSc in International Relations (Research) and MSc in International Relations Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course will explore American foreign policy at the broadest level of analysis - the level known as grand strategy. The course will showcase the main theoretical perspectives that inform the study of US grand strategy and apply them to historical and contemporary cases of American statecraft. In this connection, we will assess the relevance of the US experience for theorizing about power politics and the implications of alternative theories for thinking critically about American behavior. Students will gain an appreciation of the debates and controversies that animate the study of US foreign policy, as well as of the unique challenges posed by making foreign policy in the American political, economic, and cultural context.

Teaching: 10 hours of lectures and 20 hours of seminars in the LT. Students in this class will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will write one short (1,500 words) essay based on questions from previous exam papers. The essay will be due in Week 7 of the LT. Students will be able to use the essay to explore ideas that they might wish to develop in their assessed essay.

Students will provide a 1-2 page outline of their assessed essay by the end of Week 9 LT. This will be returned with comments and feedback by the end of the LT.

Indicative reading:
- Peter Trubowitz, Politics and Strategy (Princeton 2011)
- Linda Weiss, America Inc.? (Cornell 2014)
- Fareed Zakaria, From Wealth to Power (Princeton 1998)

Assessment: Essay (100%, 4000 words) in the ST.

IR449 Half Unit
Conflict and Peacebuilding

This information is for the 2018/19 session.
Teacher responsible: Dr David Rampton
Availability: This course is available on the MSc in Conflict Studies, MSc in Global Politics, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory, MSc in Theory and History of International Relations and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are expected to write one essay (2000 words). Students are expected to make one class presentation.

Assessment: Essay (100%, 3500 words).

IR452 Half Unit
Empire and Conflict in World Politics

This information is for the 2018/19 session.
Teacher responsible: Dr Tarak Barkawi CLM 4.07
Availability: This course is available on the CEMS Exchange, MBA Exchange, MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in International Relations, MSc in International Relations (Research), MSc in International Relations Theory, MSc in Theory and History of International Relations and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: Many peoples and places in modern world politics have been shaped by histories of empire. This course explores the violent dimensions of the imperial past and present. It covers armed conflict in imperial context from "small war" to "counterinsurgency" and the War on Terror; it looks at the ways in which warfare shapes (and is shaped by) the societies, cultures and polities that populate world politics; and it considers some of the intellectual traditions that have arisen out of the experience of colonial violence, from the thought of resistance leaders to subaltern and postcolonial studies. The premise of the course is that warfare and violence have been generative forces in shaping world politics.

This course aims to familiarise students with scholarship on empire and conflict in International Relations and related disciplines. This involves, first, understanding the limitations of the sovereign nation-state as the basic unit of world politics. For most people in most times and places, international relations have taken imperial form of one kind or another. What would it mean to take empire seriously in international thought and inquiry? The course approaches this question by looking at the relations between empire and globalization in historical and theoretical context.

Second, although much scholarship on empire concerns economy and culture, the history of empire is a history of continual warfare and armed resistance. Such "small wars" have shaped society and politics in both the core and periphery of the international system, and often continue to do so long after the guns fall silent (as for example in the case of the US and the Vietnam War). The course will cover the histories, strategies and theories associated with such wars and their effects. Third and finally, the course will explore the intersection between empire and knowledge in political theory and social inquiry. Not only did anti-colonial resistance produce its own theorists, such as Frantz Fanon and Mao Zedong, but in recent decades empire has been the site of new turns in social and political theory, as for example in subaltern studies and postcolonialism. The course will introduce students to this work and its applications to understanding world politics.

Lectures

1) Introduction: Empire and International Relations
2) Empire/History/Globalization
3) Empire, the Regions, and World Politics
4) Politics/Strategy/War
5) War and Society in Global Perspective
6) Orientalism and 'Small war'
7) Revolutionary Guerrilla War
8) Counterinsurgency
9) Conflict and Development
10) The War on Terror in North/South Perspective

MSc Seminars

The seminars will develop students' abilities to read, digest, and critique monograph length texts. Each will be based upon a single book. Students will be expected to read the assigned book in its entirety before each seminar. Every student will be expected to come to seminar prepared to participate. There will be no individual seminar presentations. Every student is expected to speak in every seminar. Students should be prepared to comment on the main argument of each book; to place each text in a wider intellectual context, concerning for example the debates and audiences the book is speaking to; and to offer a critical assessment of the book's contributions. There will be some variation in the texts assigned to MSc students each year.

Teaching: 10 hours of lectures and 18 hours of seminars in the MT. 10 hours of lectures in the ST.

10 lectures and 10 seminars on the following topics:

1. Introduction: global business in international relations
2. Globalisation and the rise of MNCs
3. Economic theories of the global firm
4. The political economy of MNC-state relations
5. International rules for MNCs: trade and investment
6. International rules for MNCs II: taxation and offshore finance
7. The UN and global business regulation
8. MNCs, FDI and developing countries
9. MNCs and environmental protection
10. MNCs, corporate social responsibility and human rights

Formative coursework: Students will be expected to produce 2 essays in the LT.

IR454 Half Unit
Governing International Political Economy: Lessons from the Past for the Future

This information is for the 2018/19 session.
Teacher responsible: Dr. James Morrison 95 ALD 1.14
Availability: This course is available on the MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in International Relations, MSc in International Relations (LSE and Sciences Po) and MSc in International Relations (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: History has always been central to the study and practice of international political economy. The most influential scholars and practitioners of international political economy have repeatedly turned to history both to explain, and to offer a fresh perspective on, the great challenges of their day. This course is designed to help students cultivate that invaluable skill and habit of mind.

Proceeding from the seventeenth century to the present, it examines:
• seminal theorists’ particular treatments of international political economy
• the ongoing, timeless debate between these theorists
• the major shifts in the global economic order
• the interaction between theories and policy in each shift

The course begins with mercantilism and the ‘age of empires.’ It then explores the great critics of mercantilism—Adam Smith and David Hume—and the relationship between their critique and the revolutions in IPE that followed. It goes on to analyse the rise of so-called ‘English’ political economy and the ‘First Era of Globalisation’ in the 19th Century.

The course then pivots to consider two major challenges to this hegemony of thought and practice. First, it traces the development of socialism from an internal critique through the writings of Marx & Engels to an instantiated alternative system in the early Soviet Union. Second, it considers the German Historical School’s return to mercantilism and the ascent of the American Empire onto the global stage. The clash of empires then leads to the cataclysm of the First World War.

In the interwar period, the course analyses the failed attempts to restore the global order. It analyses the radical challenge posed by fascist political economy. It also considers the variety of responses issued by different types of liberals. The course then transitions into a discussion of the several postwar orders, from Keynes’s neoliberal institutionalism to Gandhi’s rejection of Eurocentric political economy.

Last, the course turns to the modern era. It analyses the trajectories of the postwar global trade and financial systems. It then turns to contemporary issues, such as the post-Cold War order, the 2008 Global Financial Crisis, and the rise of emerging markets.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 essay and 2 presentations in the MT.

Assessment: Essay (100%, 2000 words) in the LT.

IR455 Half Unit
Economic Diplomacy

This information is for the 2018/19 session.
Teacher responsible: Dr Stephen Woolcock CLM 6.13
The course is coordinated by an LSE academic but is supported by an experienced practitioner of economic diplomacy Sir Nicholas Bayne, former UK foreign service and ambassador and Kenneth Heydon (formerly Deputy Director at the OECD in Paris). Other full time staff currently teaching the course include Dr James Morrison.

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Sciences Po), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in Theory and History of International Relations and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students will be required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for you. Admission to the course is not guaranteed. The course is primarily for students on the IPE Masters and LSE-Sciences-po Double Degree masters.

Course content: The course introduces students to the theories and analytical frameworks relating to decision-making and negotiation in international economic relations and to apply these to cases. It includes coverage of the respective roles of the main actors, institutional settings and processes involved in domestic decision-making and international negotiation, and their interaction with each other.

The course provides students with both academic and practitioner perspectives of economic diplomacy through the integration of practitioner analysis of case studies into the course. The course is concerned with the process of international economic negotiations. This focus distinguishes it from other optional courses that cover more on the substance of trade, finance, money, environment, etc. No prior knowledge of economics is required to take this course. The course is concerned with decision-making and negotiation in international economic relations and to apply these to cases.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

There will also be a series of speakers on cases in economic diplomacy in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Essay (30%, 2000 words) in the MT.
IR461
Islam in World Politics
This information is for the 2018/19 session.
Teacher responsible: Prof. John Sidel CON 4.02
Availability: This course is available on the MSc in African Development, MSc in Conflict Studies, MSc in Global Europe: Culture and Conflict, MSc in Global Global Political Economy, MSc in Global Politics, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in Global Politics, MSc in International Relations, MSc in International Relations (Research), MSc in International Relations Theory and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.
All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection LSE for You. Admission is not guaranteed.
Course content: The course focuses on the role of Islam in world politics, posing two inter-related questions: First, how can we explain the varying nature and strength of Islam as a discursive and mobilizational force in world politics? Second, how should we understand the impact of changes in world politics on the institutions, authority structures, and identities associated with Islam? In this course, the approach to these questions is comparative. The course begins with an examination of the distinctive transnational structures of Islam as compared with another major world religion: Christianity. The trajectory of Islam as a force in international relations since the late 19th century is examined across successive periods in world history. The course covers the rise of transnational Islamist networks from the late Ottoman era through the tumultuous years of mass mobilisation in the interwar era, demobilisation with the formation of new nation-states in the early Cold War era, and the revival of Islam in world politics by the 1970s with the Iranian Revolution and developments elsewhere in the Muslim world. But most of the course covers the contemporary post-Cold War era, examining the varying role of Islam in diverse regional settings - Asia, Africa, the Middle East, and Europe - and in the contexts of globalization and democratization, mass migration, separatist struggles and regional conflicts. Close attention is paid to the role of Saudi Arabia and Iran and the rise of sectarian conflict between Sunnis and Shi’as. The course also focuses important cases like Al Qa’ida and the Taliban in Afghanistan and Pakistan, civil wars in settings as varied as Chechnya and Somalia, the rise of the so-called ‘Islamic State’ in Iraq and Syria as well as important trends in Western Europe, including the UK.
Teaching: 10 hours of lectures and 12 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. Professor Sidel will be solely responsible for the lectures and the seminars. Students will be divided into seminar discussion groups at the beginning of the course.
Formative coursework: Students are expected to submit two essays of 2,000-3,000 words in length - one in Michaelmas term; one early in Lent term. These essays will help students develop their knowledge of specific topics of particular interest to them and to receive feedback and guidance from Professor Sidel. Students will also produce a 2-3 page outline of their assessed essay in Week 7 of the Lent Term. The outline should include a research question, an overview of the argument, a draft structure and an indicative reading list. Advice and approval will be provided within two weeks of submission of essay outlines.
Assessment: Essay (100%, 5000 words) in the ST. Assessed essay of 5,000 words (100%) due on the Monday of Week 2 of the Summer Term. The essay topic must be approved by the course convener and focus on observable patterns and/or processes of mobilisation in the name of Islam in world politics.

IR462  Half Unit  Not available in 2018/19
Introduction to International Political Theory
This information is for the 2018/19 session.
Teacher responsible: Dr Kirsten Ainley CLM 7.07
Availability: This course is available on the MSc in China in Comparative Perspective, MSc in Global Politics, MSc in Human Rights, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations Theory and MSc in Social Anthropology (Religion in the Contemporary World). This course is not available as an outside option.
All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection LSE for You. Admission is not guaranteed.
Course content: The background to International Political Theory; the moral standing of the state; international human rights; critiques of human rights and universal values; the ethics of war and violence; international humanitarianism, international law and international politics; global social justice. Watch a short introductory video on this course: http://www2.lse.ac.uk/internationalRelations/video/IR462-IPT-video.aspx
Teaching: 18 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: 1 x 800 word book report 1 x 2000 word essay
Assessment: Essay (100%, 4000 words) in January.
Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.
Students will produce one 2,000 word formative essay due in week 6 of the Michaelmas Term. The essay question is to be selected from past exam papers. The purpose of the essay is to provide evidence of summarising succinctly and engaging with complex empirical and theoretical material, develop research and writing skills necessary for the assessed essay, and to assist in the development of ideas and arguments for the assessed essay. Independent study, based on the readings indicated on the reading list, is required.
Students will also produce a 1.5-2 page outline of their summative essay in week 9. The outline will include the essay question/title, an overview of the argument, a draft of the structure, and an indicative
**IR464 Half Unit**

**The Politics of International Law**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Kirsten Ainley

**Availability:** This course is available on the MSc in China in Comparative Perspective, MSc in Global Politics, MSc in Human Rights, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory, MSc in Political Theory and MSc in Theory and History of International Relations. This course is not available as an outside option.

**Course content:** An introduction to the politics of the creation and implementation of international law, intended for non-lawyers. The course focuses on the areas of international law most relevant to International Political Theory: human rights, the use of force and international crime, and examines the increasing legalization of international politics, the tensions between international politics and international law, alternatives to international law and international law post 9/11.

Watch a short introductory video on this course: [http://www2.lse.ac.uk/internationalRelations/video/IR464-PIL-video.aspx](http://www2.lse.ac.uk/internationalRelations/video/IR464-PIL-video.aspx)

**Teaching:** 20 hours of seminars in the LT. 4 hours of seminars in the ST.

There are no lectures on the course, but there are a number of voluntary workshops as well as a voluntary class trip to international courts in The Hague. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** A 2000-2500 word essay.

**Assessment:** Essay (100%, 4000 words) in the ST.

---

**IR465 Not available in 2018/19**

**The International Politics of Culture and Religion**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Katerina Dalacoura CLM. 4.11

**Availability:** This course is available on the MSc in Global Europe: Culture and Conflict, MSc in Global Politics, MSc in Human Rights, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**All students are required to obtain permission from the Teacher Responsible by completing the online application form linked to course selection on LSE for You. Admission is not guaranteed.**

**Pre-requisites:** Background in International Relations or a related discipline.

**Course content:** Approaches to understanding the role of culture and religion in the discipline of IR. Culture and religion in IR theory; their influence on the practice of international relations. Case study: Islam.

The course will be divided into two parts. In the first part, the contribution of a number of international relations theories to our understanding of culture and religion will be explored. The focus here will be on the English School and constructivism; critical theory, post-modernism and post-colonialism, cosmopolitanism, liberalism and communitarianism. The second part of the course will examine the role that cultural and religious issues play in the practice of international relations and in particular their influence on international norms, gender, foreign policy, conflict, negotiation and war.

**Teaching:** 18 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:** Students will be expected to write three 2,000 word essays by dates stipulated by their seminar leader.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

**IR466 Half Unit**

**Not available in 2018/19**

**Genocide**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Jens Meierhenrich CLM 6.07

**Availability:** This course is available on the MSc in Conflict Studies, MSc in Global Politics, MSc in Human Rights, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory, MSc in Theory and History of International Relations and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is available as an outside option. All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

**Course content:** This seminar course provides an introduction to the study of genocide. The course's disciplinary ambit ranges from anthropology to economics, from history to law, and from political science to sociology. Against the background of diverse disciplinary approaches, it explores major theoretical and empirical aspects of the role(s) of genocidal campaigns in international politics, inter alia, their origins, development, and termination; the manner of their perpetration, progression, and diffusion; their impact on the maintenance of international peace and security; their consequences for the reconstruction and development of states and the building of nations; and their adjudication in domestic and international courts and tribunals. Empirical cases to be discussed include Australia, Cambodia, China, the Democratic Republic of Congo, East Timor, Nazi Germany, Guatemala, Iraq, Northern Ireland, the Ottoman Empire, Rwanda, Uganda, the Soviet Union, Sudan, and the former Yugoslavia, among others.

The course is designed to equip students with the analytic tools...
necessary for making sense of the evolution of the international system from the nineteenth century to the present-and for critically assessing the promise and limits of responding to collective violence.

**Teaching:** 20 hours of seminars in the MT.

**Formative coursework:** One x 2,000 word essay.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**IR467 Half Unit**

**Global Environmental Politics**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Robert Falkner TOW2.11.01F

**Availability:** This course is available on the MSc in Environmental Economics and Climate Change, MSc in Environmental Policy and Regulation, MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in International Relations, MSc in International Relations (Research), MSc in Political Science and Political Economy and MSc in Regulation. This course is available with permission as an outside option to students on other programmes where regulations permit. All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

**Course content:** An introduction to concepts and issues in the study of global environmental politics, with special emphasis on the political economy of environmental protection. Environmentalism and the greening of international society; ecological perspectives on international political economy; domestic sources of environmental diplomacy; environmental leadership in international negotiations; international environmental regimes and their effectiveness; the role of nonstate actors (business, NGOs); corporate environmentalism; private environmental governance; trade and environment; international environmental aid; greening foreign direct investment; climate change; biosafety regulation; deforestation.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**IR468 Half Unit**

**The Political Economy of Trade**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Stephen Woolcock CLM 6.13

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in International Affairs (LSE and Peking University), MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course begins with a discussion of the idealational factors that have shaped and continue to shape trade policy, before introducing some of the core analytical models that assist understanding of the political economy of trade. The course then proceeds to discuss the nature of trade and investment in the 21st century, including among other things the impact of the growth of global supply chains on the political
economy of trade and investment. The domestic and international institutional frameworks within which trade and investment policy are conducted are discussed. The course then considers some of the underlying trends in trade towards the use of preferential and plurilateral rather than multilateral approaches. Finally, after a discussion of the links between trade and development, the course covers some of the main topics in current negotiations including in particular agriculture and food security, trade in manufactures, services and investment as well as the inter-relationship between trade and sustainable development.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Exam (70%, duration: 2 hours) in the summer exam period. Essay (30%, 2000 words) in the LT. Student will submit an assessed essay of 2000 words (30%) on an approved topic in Week 1 of the LT. The final examination (70%) lasts 2 hours and students will be asked to answer 2 out of 8 questions.

---

**IR469  Half Unit**

**Politics of Money in the World Economy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Martin Hearnson LCH 210

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in International Affairs (LSE and Peking University), MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the Student Statement box on the online application form linked to course selection on LSE for You. Admission is not guaranteed.

**Course content:** This course is designed as a component of the study of a global system in which the management and mismanagement of money and finance are matters of fundamental consequence for international relations. It is intended to be of particular relevance to students specialising in international political economy. This is a course in applied international political economy theory. It deals with the basic concepts regarding the creation, use and management of money and finance in the global system. Students are then introduced to the political foundations of international monetary governance. Issues covered include the use of national currencies as international money, the politics of exchange rate adjustment, the operations of banks and other institutions in international money and capital markets, the evolution of global financial markets, the relationship between states and markets in the arena of global finance, international monetary cooperation, and the choices of monetary and financial policies open to developed and developing countries. The course emphasises that contemporary issues, such as international financial crises, international financial regulation and the politics of IMF conditionality, are best understood in a broader theoretical and analytical context.

**Teaching:** 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST. Students intending to take the course should have a strong background in monetary economics.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

Students are expected to make presentations on topics of their choice and to write one 2000-word essays, to be marked by the seminar teacher.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period. There is a two-hour formal examination in the ST based on the lecture course and work covered in the seminars. The paper contains about 10 questions, of which two are to be answered.

---

**IR470  Half Unit**

**International Political Economy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr James Morrison

**Availability:** This course is compulsory on the MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po) and MSc in International Political Economy (Research). This course is not available as an outside option.

**Course content:** An advanced introduction to concepts and contending contending theoretical, analytical, and methodological approaches in international political economy, and an overview of contemporary issues in international economic relations. This course is the core course for MSc International Political Economy. It aims to introduce students to various approaches to the study of international political economy (IPE), and to apply theories to important contemporary empirical issues. The first part of the course introduces students to the main theoretical concepts in and analytical approaches to political economy, emphasising the overlap between international and comparative approaches. After surveying the main schools of thought in the subject, it examines more recent theoretical developments, including the comparative and domestic approaches that have become increasingly prominent in the literature. The second part of the course addresses contemporary issues related to multinational corporations, globalisation and developing countries. The third part of the course focuses on methodological approaches to international political economy, exploring research design and qualitative and quantitative methods. Previous background in international relations, international economics, comparative politics and history is helpful but is not a requirement. Students with no previous background in the subject should read Walter and Sen, ‘Analyzing the Global Political Economy’ (2009), Oatley, ‘International Political Economy’ and Ravenhill, ‘Global Political Economy’ by the end of the first term.

Watch a short introductory video on this course: http://www2.lse.
Students will also receive feedback on their seminar participation.

**Formative coursework:** One 2,000-word essay will be set and marked by the seminar teacher. Students will also give a presentation delivered during the seminars.

**Indicative reading:** It is advisable to begin reading before the lectures start, and the following general texts are recommended. A more complete source-list is provided in the course outline.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

Students will be asked to answer two out of eight questions.

---

**IR471 Half Unit Not available in 2018/19**

### The Situations of the International Criminal Court

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Jens Meierhenrich CLM 609

**Availability:** This course is available on the MSc in Global Politics, MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations Theory, MSc in Theory and History of International Relations and MSc in Women, Peace and Security. This course is available to obtain permission as an outside option to students on other programmes where regulations permit. All students are required to obtain permission from the Teacher Responsible by completing the online application linked to the course selection on LSE for You. Admission to the course is not guaranteed.

**Course content:** This taught seminar introduces students to the practices of the International Criminal Court (ICC). Focusing on the ICC's ongoing investigations and prosecutions - its so-called 'Situations' - the courses exemplifies the politics of international law in the context of one of the most embattled international organisations in the international system. On the foundation of 'practice theory', it blends methodological approaches from law, the social sciences and the humanities. By adopting an evolutionary perspective to the ICC, the seminar raises - and answers - pertinent theoretical questions about institutional design and development of international politics. Empirical cases to be discussed include the settings of the ICC's nine Situations (the DRC, Uganda, the Central African Republic, Sudan, Kenya, Libya, Cote d'Ivoire, and Mali) as well as the territories of the ICC's preliminary examinations (Afghanistan, Columbia, Georgia, Guinea, Iraq, Nigeria, Palestine, and Ukraine). Students will learn to work with both court documents and theoretical texts.

**Teaching:** 20 hours of lectures in the LT.

In line with departmental policy, students on the course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 1 essay in the LT. Students will also receive feedback on their seminar participation. Students are required to research and write one essay (2,500 words). In addressing a given essay topic, students must integrate theory and history and bring empirical evidence to bear on the research question they have chosen. Essays must be fully - and carefully - referenced using one of the major conventions consistently. Submissions are due in Week 6 and must be in hard copy. Feedback is provided by the course teacher, who is responsible for marking essays.

Several criteria are applied in the evaluation of student essays, notably: (1) originality of argument (2) use of literature: has relevant scholarship been digested and put to good use? (3) soundness of analysis: is the inquiry comprehensive and logically consistent? (4) organisation of evidence: have argument and evidence been introduced and presented in a compelling manner? (5) validity of findings: does the argument remain valid when applied empirically? (6) clarity of presentation: are grammar, punctuation and references flawless?

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**IR472 Half Unit**

### Advanced Topics in International Politics - 'The International Relations of the Asia-Pacific'

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof. Stephan Haggard

**Availability:** This course is available on the MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research) and MSc in International Relations Theory. This course is not available as an outside option. All students are required to obtain permission from the Teacher Responsible by completing the online application linked to the course selection on LSE for You. Admission to the course is not guaranteed.

**Course content:** This course provides an overview of the international relations of the Asia-Pacific. It is oriented around a consideration of core IR theories, particularly power transition models and their critics. The course begins with a consideration of US grand strategy toward the Asia-Pacific before turning to key alliance and other bilateral relationships and the Southeast Asian system centred on ASEAN. It closes with a consideration of a...
number of functional issues, including the political economy of the region, the military balance and emerging issues such as the cyber domain.

**Teaching:** 20 hours of seminars in the LT.
In line with departmental policy, students on the course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 2 essays in the LT.

**Assessment:** Essay (100%, 5000 words) in the ST.

---

**IR473 Half Unit**

**China and the Global South**

This information is for the 2018/19 session.

**Teacher responsible:** Prof John Alden CLM 513 and Prof Christopher Hughes 95A 115

**Availability:** This is course is available on the MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research) and MSc in International Relations Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission of the Teacher Responsible by completing the online application linked to LSE for You. Admission to the course is not guaranteed.

**Course content:** This course focuses on the substantive role that China plays in the Global South where its preponderance of material power and putative developing country status confers upon it a dominant position in bilateral and regional political economies. China’s economic position, coupled to an astute use of finances flowing from its mercantilist policies, has enabled it to become the leading trading partner and a significant investor in the developing world. Moreover, the Global South is increasingly figuring in Beijing’s expanding security interests and soft power provisions. Interpretations embedded in prevailing academic discussions like socialisation, threat and peaceful rise take on new meaning when studied through the lens of ties with developing countries. Understanding how dynamics in this relationship are impacting upon a host of global and contemporary issues (BRICs, multilateralism, peacekeeping, the environment) is crucial to the shape of the 21st century. Students will acquire a deeper appreciation of the concept of agency linked to the varied response of countries and regional organisations in the Global South, from policy elites to local communities, to China’s growing structural power, as well as placing Chinese engagement within the context of other ‘traditional’ and emerging powers. This will offer a deeper analysis of the way in which the dynamics of China’s economic and political model impact on its relationship with the Global South.

**Teaching:** 10 hours of lectures and 20 hours of seminars in the MT.
In line with departmental policy, students on the course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.
A 1,500 word essay will be due in Week 7 of the term. The essay can be used to develop ideas for the summative essay.

Students will submit a 2 page outline of the assessed essay in Week 10, receiving comments and feedback in Week 11.

**Assessment:** Essay (80%, 5000 words) in the LT. Presentation (20%) in the MT.

During the course of the seminars students will participate in a group presentation (20%) and submit a 5,000 word essay (80%) at the start of the LT.

---

**IR474 Half Unit**

**Revolutions and World Politics**

This information is for the 2018/19 session.

**Teacher responsible:** Dr George Lawson CLM 512

**Availability:** This course is available on the MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research) and MSc in International Relations Theory. This course is not available as an outside option.

All students are required to obtain permission of the Teacher Responsible by completing the online application linked to LSE for You. Admission to the course is not guaranteed.

**Course content:** Revolutions are often considered to be a ‘side order’ to the ‘main course’ of International Relations. But as this course explores, the lack of attention paid to revolutions is a mistake – revolutions have played a major part in the making of the modern international order. From the ‘Atlantic Revolutions’ of the late 18th and early 19th centuries to the ‘colour revolutions’ of the early 21st century, revolutions have been constitutive of notions of sovereignty, order, justice, and more. Revolutions have also been tightly bound up with dynamics of war and peace. This course explores both the theory and practice of revolutions, teasing out their effects and examining the prospects for revolutionary change in the contemporary world.

**List of Topics:**

1. Part 1: Thinking about revolutions
2. What are revolutions?
3. Key themes in the study of revolutions
4. Revolutions in world politics
5. Part 2: The experience of revolutions
6. The Atlantic ‘age of revolutions’
7. Socialist revolutions
8. Reading week
9. ‘Colour’ revolutions
10. ‘Third World’ revolutions
11. The ‘last great revolution?’

**Teaching:** 10 hours of lectures and 20 hours of seminars in the LT.

The main aim of the course is to provide an opportunity for students to make informed judgements about how and in what ways revolutions have impacted on core features of modern
international order. Additional aims include assessment of the place of revolutions in the contemporary world and, more generally, the ability to connect theoretical arguments about revolutions with the substantive experience of revolutions.

In line with departmental policy, students on the course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 1 essay in the LT. Students will also submit a 2-3 page outline of the assessed essay in Week 10, receiving comments and feedback in Week 11.

**Indicative reading:**

**Assessment:**
- Essay (70%, 4000 words) in the ST.
- Weekly blog posts of 250 words each (15%)
- A group seminar presentation (15%).

---

**IR475 Half Unit**

**Gender/ed/ing International Politics**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Katherine Millar

**Availability:** This course is available on the MSc in International Relations, MSc in International Relations (Research) and MSc in International Relations Theory. This course is not available as an outside option.

**Course content:**

- The course foregrounds gender - as noun, verb and structure - in understanding the practices/events studies as global politics and the discipline/study of international relations.
- The course is grounded in feminist theory and provides students with an introduction to feminist epistemologies and methodologies. It proceeds in two sections, moving from theoretical foundations to an examination of gender and the macro, transnational and historical processes of global politics: Each ‘macro’ examination of the gendering of international politics is followed by a corresponding examination of several substantive areas of international politics, including security, development, NGOs and transnational social movements and international law/organisations. These overarching topics are balanced with issue-specific case studies (eg sexual/sexualised violence in conflict; gendering of the informal economy), derived from current events, to be discussed in seminars. Particular thematic attention will be paid to the on-going construction (and transmission) of global/transnational hierarchies that are gendered and gendering.

**Teaching:**

- 10 hours of lectures and 15 hours of seminars in the MT.
- In line with departmental policy, students on the course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.

**Indicative reading:**
- B Ackerly, J True and M Stern (eds), Feminist Methodologies for International Relations (CUP: 2006).
- C Weber, *Queer International Relations: sovereignty, sexuality and the will to knowledge* (OUP:2016)

**Assessment:**

- Essay (90%, 4000 words) in the LT.
- Coursework (10%) in the MT.
- The coursework entails weekly short reaction pieces (300 words maximum) engaging with the week’s topics/readings to be submitted in advance of the seminar. These will prepare students to fully engage with the seminar discussions. Most importantly, they will familiarise students with the feminist epistemological commitments to critique and self-reflection.

---

**IR477 Half Unit**

**Sub-Saharan Africa: Governance, Peace, and Security**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Milli Lake

**Availability:** This course is available on the MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research) and MSc in International Relations Theory. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:**

- This course examines contemporary sub-Saharan African politics and society in three parts, exploring some of the toughest challenges the continent has faced in the post-independence period. It begins with a review of twentieth century African politics, exploring the experiences and legacies of colonial occupation, and what these tell us about the present day.
- Following this, it turns to the common challenges of the post-independence period, as newly created states struggle to establish and maintain authority at home while finding their place in the international system. Finally, it explores humanitarian governance and development aid in the twenty-first century, drawing from literature spanning a wide variety of subfields and epistemological traditions. This component of the course considers the nature of public and private authority, as well as the role played by countries in the global north in intervening in the domestic political affairs of sovereign states.

**Teaching:**

- 20 hours of seminars in the LT.
- In line with departmental policy, students on the course will have a reading week in week 6.

**Formative coursework:** Students will be expected to produce 1 essay and 6 other pieces of coursework in the LT.

- For six of the ten sessions, students on the course will submit a one-page reading memo of approximately 600 words, pulling together key themes from that week’s discussions.

- In addition, students will produce an assessed essay outline in week 10 consisting of a research question, an overview of the argument, a draft structure and an indicative reading list. Feedback will be provided via email and/or individual sessions with students.

**Indicative reading:**

IR478  Half Unit

Critical War Studies

This information is for the 2018/19 session.

Teacher responsible: Dr Tarak Barkawi CLM 407

Tarak Barkawi is Professor in the Department of International Relations at the London School of Economics and Political Science. He studies warfare between the West and the non-European world, past and present. He writes on the pivotal place of armed force in globalization, imperialism, and modernization, and on the neglected significance of war in social and political theory. He is author of Soldiers of Empire, Globalization and War and many scholarly articles.

Availability: This course is available on the MSc in International Relations, MSc in International Relations (Research) and MSc in Theory and History of International Relations (LSE and Sciences Po), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in Global Politics, MSc in International Affairs (LSE and Peking University).

Course content: War transforms the social and political orders in which we live, just as it obliterates our precious certainties. Nowhere is this more obvious than in the fate of truths offered for granted. There are no formal prerequisites but some knowledge of social science methods and an interest in Russian politics will be taken for granted.

Teaching: 10 hours of lectures and 18 hours of seminars in the LT.

This course consists of ten lectures, nine seminars and eight film evenings. It is primarily a book-based graduate seminar. The lecture series provides concepts, ideas and histories—intellectual scaffolding—against which to read the course books. Each of the nine seminars for this course will be based upon a single book. The seminars will develop students' abilities to read, digest, and critique monograph length texts. Students will be expected to read the assigned book in its entirety before each seminar. Every student will be expected to come to seminar prepared to participate. There will be no individual seminar presentations. Every student is expected to speak in every seminar. Students should be prepared to comment on the main argument of each book; to place each text in a wider intellectual context, concerning for example the debates and audiences the book is speaking to; and to offer a critical assessment of the book's contributions.

The optional film series provides an opportunity for sociability and the exploration of course themes in popular cultures. Films are an important way in which war has shaped modern culture. The course coordinator will briefly introduce each film and a short discussion will follow the screening.

Formative coursework: To help them prepare for their summative essay, students will write two 2000 word book reviews of seminar books of their choosing.

Indicative reading:
1. New Strachan, Clausewitz's On War (New York: Grove Press, 2007)
7. Debbie Lisle, Holidays in the Danger Zone: Entanglements of War and Tourism (Minneapolis: University of Minnesota Press, 2016)

Assessment: Essay (100%, 5000 words) in the LT.
The course will be 100% assessed by essay due after the end of term and based on a topic of the student's choosing.

IR479  Half Unit

Russia in World Politics

This information is for the 2018/19 session.

Teacher responsible: Professor Tomila Lankina

Availability: This course is available on the MSc in EU Politics, MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Political Economy (LSE and Sciences Po), MSc in International Relations (Research) and MSc in Theory and History of International Relations. This course is not available as an outside option.

The course offers an analysis of key issues in the development of Russian foreign and security policies and the role that it plays in global politics. It is primarily intended for the courses listed above and is available as an outside option on the MSc in Comparative Politics students with permission from the course convenor.

Pre-requisites: There are no formal prerequisites but some knowledge of social science methods and an interest in Russian politics will be taken for granted.

Course content: The course covers the various factors shaping Russian foreign and security policy. It will explore both the traditional foreign policy and security issues, such as Russia’s recent military build-up, economic power projection, the geopolitics of oil and gas, as well as soft power and soft security aspects.
of Russia’s foreign policy, including the role of the media and propaganda; hybrid warfare; the role of ideas and norms; we will also explore the historical legacies influencing how Russia sees the world and its neighbours. Each of the ten topics covered will speak to the major theoretical debates on the factors shaping security and foreign policy and students will be encouraged to evaluate the merits of the various theories based on available evidence. The background seminar focuses on the domestic and international context preceding Russia’s emergence as a successor to the Soviet Union. The subsequent sessions analyse post-communist Russian foreign policy with a special focus on foreign policy under President Putin, including the military interventions in Georgia and Ukraine, the securitisation of Russia’s media and Russia’s attempts to influence politics in the EU and beyond. Some of the questions to be addressed in the course of the ten seminars are. How have domestic institutions and political regime change following the collapse of the USSR impacted on foreign policy making and thinking? How has Russia sought to use traditional security mechanisms, hard power and soft power to influence the “near abroad”? What explains the failure of “reset” policy between the US and Russia? Has Russian engagement with Europe and its main institutions, the EU and NATO, suggested that it is part of or apart from Europe? What are the key mechanisms of Western influence on Russia’s foreign policy? What kind of a relationship has Russia forged with China and what are the factors shaping this relationship? What drives the nuances of Russia’s policy in the Middle East? What role do energy politics play in Russia’s relations with its neighbours and in Russia’s foreign policy globally? The final section will address the question of the longer-term historical influences shaping the foreign policy of Russia.

Teaching: 20 hours of seminars in the LT
1. There will be ten two-hour student-led seminars. An outline of the seminar topics is posted separately on the Moodle site. Please confirm details of scheduling on the Sessional Timetable. The seminars are organised around topics, listed on the Seminar Program document on the Moodle site and at the end of the consolidated reading list. The allocation of topics for student presentations and book / article reviews will be agreed at the first, organisational, session. All seminars are compulsory, as is active class participation.
2. Students who are new to international politics are advised to attend the lectures for IR202, Foreign Policy Analysis.
3. Students are expected to engage in independent study, using the reading list to deepen their knowledge and understanding of the subject.
Formative coursework: Students will be expected to produce 1 presentation, 1 other piece of coursework and 1 other piece of coursework in the LT.
Each student will write a review of one of the required readings in no more than 500 words.
In the course of the academic term, each student will be also expected to make one presentation on a given topic. Presenters will be expected to distribute, via email, a 1 paragraph summary of the main points of their presentations to Professor Lankina and students in advance of the seminars. Students will also produce a 2-3 page outline of their assessed essay by Week 6 of the Lent term, in the week following the Reading Week. This will include a research question, an overview of the argument, a draft structure and an indicative reading list. Students will receive approval of their research question and feedback on the outline by the end of Week 7.

Assessment: Essay (80%, 5000 words) in the LT.
Class participation (20%) in the LT.
By week 2 of ST, students should submit 1 essay of 5000 words (including notes and citations). Students will also produce a 2-3 page outline of their assessed essay by Week 6 of the Lent term, in the week following the Reading Week. This will include a research question, an overview of the argument, a draft structure and an indicative reading list. Students will receive approval of their research question and feedback on the outline by the end of Week 7. The purpose of the essay is to provide experience of summarising arguments succinctly and engaging with complex material.
Criteria for assessment of essays: The extended essay will be assessed based on demonstration of ability to summarise the key arguments in the debate around particular topics covered in the class, and to present and defend evidence supporting a given perspective, in a succinct manner. A guide to essay questions will be provided at the beginning of the term and students will chose 1 out of 4 questions.
The essay will constitute 80% of the summative assessment mark. Students are expected to participate actively in class discussions. Class participation will constitute 20% of the summative assessment mark.

IR480  Half Unit
Globalisation and the State in Developing Countries
This information is for the 2018/19 session.
Teacher responsible: Natalya Naqi
Availability: This course is available on the MSc in Global Politics, MSc in International Affairs (LSE and Peking University), MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Political Economy (Research), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations (Research) and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: What role should the state play in economic development? How has globalisation effected what the state can still actually do to promote economic development? Between the 50s and 80s, the East Asian ‘developmental state’ model delivered rapid industrialisation through extensive state intervention, seemingly refuting not only the claims of free market economics, but also of dependency theory: that poor countries could never develop due to the very nature of the capitalist world system. Since the 80s, the applicability of the East Asian model was challenged in new ways. Structural changes in the global political economy, including the end of fixed exchange rates, increased capital mobility, the development of international financial markets, privatisation of the commanding heights of the economy, the proliferation of restrictive trade and investment agreements, and the rise of global value chains, led many to argue that even if it was economically beneficial for other countries to implement the East Asian model, this was no longer possible because globalisation had dramatically constrained the power of the nation state. Others argued that concerns over the constraints posed by globalisation were overblown, and that domestic interests, institutions, and ideas were responsible for holding back structural transformation of the economy.
This course will combine debates in IPE, over how the process of globalisation has transformed the capacity for state action, with debates in the political economy of development over the role of the state in the process of late development. Students will gain an
understanding not only of the debate over how much domestic policy autonomy developing countries have after globalisation, but also of the kinds of policies they need this policy space for. Problems of underdevelopment are approached through the prism of both core-periphery power relations, and power relations arising from the domestic productive structure.

Teaching: 20 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 presentation and 1 other piece of coursework in the LT. The 10 weekly writings (see summative assessment) also contain a formative element.

Indicative reading:
- Kicking Away the Ladder, Ha Joon Chang
- States and Markets, Susan Strange
- States Versus Markets, Herman Schwartz
- Globalisation in Question, Hirst, Thompson and Bromley
- The Myth of the Powerless State, Linda Weiss
- Reclaiming Development Economics, Chang and Grabel
- The Developmental State, Woo-Cummings
- Business and the State in Developing Countries, Maxfield and Schneider

Assessment: Essay (90%, 4000 words) in the ST.

Weekly writings: 10%
10 Weekly 1-page bullet point outlines answering one of the assigned seminar questions.
Essay (4000 words): 90%

Students choose one region or country and discuss how changes in the international system in one of the above issue areas has impacted on prospects for development – relying on the theoretical perspectives we discussed in week 2.

**IR481** Half Unit Not available in 2018/19

**Europe, the US and Arab-Israeli Relations**

This information is for the 2018/19 session.

Teacher responsible: Dr Federica Bicchi CLM. 4.13

Availability: This course is available on the MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Global Europe: Culture and Conflict, MSc in Global Europe: Culture and Conflict (LSE & Sciences Po), MSc in International Relations, MSc in International Relations (Research), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit.

All students are required to obtain permission from the Teacher Responsible by completing the online application form linked to the course selection on LSE for You. Admission is not guaranteed.

Pre-requisites: A knowledge of post-1945 world history of the European Union governance system and of Middle East politics is required.

Course content: The course focuses on the foreign policy of the EU and of EU member states towards Arab-Israeli relations (with a special emphasis on Palestinian-Israeli relations), in comparison with the US foreign policy. The main focus will be on the European perspective, but it would be impossible to analyse this subject without taking into account the US position and, to some extent, Transatlantic relations. After an overview of Palestine during the British mandate, the course will cover the period from 1948 to nowadays with a particular emphasis on contemporary issues. The British mandate on Palestine. The partition of Israel and the birth of Israel. Early support for Israel. The Suez crisis. The evolution of European and US policy towards Israel. The birth of the “special relationship” between the US and Israel. The 1973 war, the energy crisis and the Euro-Arab Dialogue. The Venice Declaration. The US and European contribution to the Arab-Israeli peace process in the 1990s. The Euro-Mediterranean Partnership and the European Neighborhood Policy. Western democracy promotion and trade. Western aid to the Palestinians. The legalisation of relations with Israel. The collapse of the peace process and attempts at reviving it.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One 2000-word essay during the course and one presentation (or alternatively two 2000-word essays), to be marked by seminar teachers. These do not count towards the final mark.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period

The normal length of the examination paper is eight questions, of which candidates are invited to answer any two.

**IR499**

**Dissertation**

This information is for the 2018/19 session.

Teacher responsible: Dr Katharine Millar CLM.4.10, Dr Katerina Dalacoura CLM.4.11 and Dr James Morrison 95A.1.14

Dr Chris Alden CLM.5.13

Availability: This course is compulsory on the MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in International Relations (Research), MSc in International Relations, MSc in International Relations (LSE and Sciences Po), MSc in International Relations Theory and MSc in Theory and History of International Relations. This course is not available as an outside option.

Course content: Refer to Assessment below.

Teaching: 1 hour of lectures in the MT.

Additional dissertation advice and support sessions will be arranged by MSc Programme Directors during the Lent Term. Details will vary by Programme and students will be notified by email towards the end of the Michaelmas Term.

Assessment: Dissertation (100%, 10000 words) in the LT.

MSc IR, MSc IR (Research), MSc IPE, and MSc IPE (Research) and MSc IRT students are required to write a 10,000-word Dissertation on a topic within the field of IR/IPE/IRT approved by the student’s academic adviser. The Dissertation need not be an account of original research and may rely on secondary sources. Dissertation supervision consists of oral feedback at two points in the dissertation writing process: first when students submit the initial topic and research question in early LT, and second when students have submitted a more detailed 4-5 page plan in late LT. The Department will further supplement this supervision with a series of bespoke dissertation workshops focusing on research design, methodologies and the writing up process.
LL440 Corporate Law and Accounting

This information is for the 2018/19 session.
Teacher responsible: Dr Julia Morley and Ms Sarah Paterson
Availability: This course is compulsory on the MSc in Law and Accounting. This course is available on the MPhil/PhD in Accounting. This course is not available as an outside option.
Course content: The purpose of this course is to examine areas in which law and accounting intersect in promoting an efficient market economy. It is interdisciplinary in focus, and provides students from varying backgrounds with new perspectives and leads to in-depth study by way of a Dissertation. Topics in Michaelmas term may include: An introduction to law and regulation in the accounting context; the legal requirement for accounts and audit, and the role of accounting standards; "true and fair view" as the cornerstone of financial reporting and auditing, the strategic report; tax and accounting; groups in law and group accounting; auditor liability; law, accounting and equity: capital maintenance; law, accounting and debt: financial covenants; the regulation of the professions. Other issues in accounting and the law may be substituted/added during this term. Lent term will focus on preparation for the Dissertation. It will start with a series of seminars on the research process, which may include: overview and finding a title; developing a research question; methodology, finding and using sources. Other topics relating to the research process may be substituted/added during the first part of the term. The second half of the term will comprise a series of seminars in which students will present their preliminary research proposal and receive feedback from the course convenors and their peers.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.
Two meetings with each individual student’s Long Essay supervisor. There will be a reading week in week 6.
Formative coursework: All students will be expected to contribute to class discussion. Feedback on performance and progress will be provided during class, on two written homework assignments, in two formal meetings with individual student’s Dissertation Supervisor, and during office hours.
Indicative reading: No one book covers the entire syllabus. Detailed reading lists will be provided during the course and will include articles from law, accounting, economics and sociology journals and books. Students will also be provided with relevant examples of practitioner reports, policy papers, and referred to relevant websites.
Assessment: Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period. Essay (50%, 10000 words) in August.
Law and Accounting Prize
The international law firm Herbert Smith Freehills sponsors a prize for the best examination performance on the MSc Law and Accounting. The prize is awarded at the Herbert Smith Freehills reception in November each year.

LL468 Half Unit European Human Rights Law

This information is for the 2018/19 session.
Teacher responsible: Dr Dalia Palombo
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Conflict Studies, MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students.
Course content: This course will provide an overview of the origin, development and current standing of the European Convention on Human Rights and Fundamental Freedoms. Its primary focus will be on the case-law of the European Court of Human Rights, though the cases of other jurisdictions will also be referred to where appropriate. The course will analyse the Convention from the perspective of selected rights within it, but will also engage with the subject thematically, subjecting such concepts as the ‘margin of appreciation’ and proportionality to close scrutiny. The goal of the course is to give students a good critical understanding of the Convention, the case-law of the Strasbourg court and the Convention’s place within the constitutional and political structure of ‘Greater Europe’.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST. There will be a Reading Week in week 6 of MT.
Formative coursework: There will be a formative assessment, its format to be confirmed at the start of the course.
Indicative reading: It is imperative that students read BEFORE the seminar and come to class prepared. There is no single text covering the course and required readings will be uploaded on Moodle before the seminar. However, the following background readings may be useful: Jacobs, White and Ovey, The European Convention on Human Rights 6th edn (OUP, 2014) Harris, O’Boyle and Warbrick, Law of the European Convention on Human Rights 3rd edn (Oxford, 2014). Also useful is Mowbray, Cases and Materials on the European Convention on Human Rights 3rd edn (Oxford, 2012). A strong European perspective is to be found in van Dijk, van Hoof, van Rijn and Zwaak (eds), Theory and Practice of the European Convention on Human Rights 4th edn (Intersentia, 2006). Very good edited books include Brems and Gerards (eds), Shaping Rights in the ECHR (Cambridge, 2013) and Follesdal, Peters and Ulfstein (eds), Constituting Europe (Cambridge 2013).
C A Gearty, On Fantasy Island. Britain, Strasbourg and Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students.
Course content: This course will provide an overview of the origin, development and current standing of the European Convention on Human Rights and Fundamental Freedoms. Its primary focus will be on the case-law of the European Court of Human Rights, though the cases of other jurisdictions will also be referred to where appropriate. The course will analyse the Convention from the perspective of selected rights within it, but will also engage with the subject thematically, subjecting such concepts as the ‘margin of appreciation’ and proportionality to close scrutiny. The goal of the course is to give students a good critical understanding of the Convention, the case-law of the Strasbourg court and the Convention’s place within the constitutional and political structure of ‘Greater Europe’.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST. There will be a Reading Week in week 6 of MT.
Formative coursework: There will be a formative assessment, its format to be confirmed at the start of the course.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period. This subject is examined by one two-hour paper, composed of at least six questions of which two must be attempted. There will be a fifteen minute reading time during which the exam paper may be written on.
LL469  Half Unit
UK Human Rights Law
This information is for the 2018/19 session.
Teacher responsible: Prof Conor Gearty NAB.6.11
Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students.
Course content: This course will be made up of a detailed study of the UK Human Rights Act. The origins and the political background to the Act will be explained, and the structure of the measure will be fully elaborated, relying on the text of the Act itself but also on the burgeoning case law that accompanies the measure. The course will identify the principles that underpin the Act and explain its proper place in English law. It will also explore the wider constitutional implications of the measure, looking at its effect on the relationship between courts and Parliament. The political context in which the measure has had to operate will be considered, and the relationship with the change to human rights protection likely to follow the UK’s proposed departure from the EU will be considered.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
There will be a reading week in week 6.
Formative coursework: One 2,000 word essay.
Indicative reading: The key text is now C A Gearty, On Fantasy Island. Britain, Strasbourg and Human Rights (OUP 2016). See also R Costigian and R Stone, Civil Liberties and Human Rights (11th edn, OUP; 2017); Kavanagh, Constitutional Review under the UK Human Rights Act (Cambridge, 2009); Hickman, Public Law After the Human Rights Act (Hart, 2010); Gearty, Principles of Human Rights Adjudication (Oxford University Press, 2004). While these books will be referred to, students will also be expected to read cases: they will receive a detailed Reading list for each topic.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
This subject is examined by one two-hour paper, composed of at least six questions of which two must be attempted. There will be a fifteen minute reading time during which the exam paper may be written on.

LL475  Half Unit
Terrorism and the Rule of Law
This information is for the 2018/19 session.
Teacher responsible: Prof Conor Gearty NAB.6.11
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Conflict Studies, MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 60 students.
Course content: This course will provide a theoretical and historical introduction to the concept of terrorism. It will critically consider definitions of terrorism, and analyse the relationship between terrorism and the right to rebel, and the right to engage in civil disobedience. The historical development of the idea of ‘terrorism’ from the late eighteenth century through to the present will then be traced, with the emphasis on locating the practice of political terror in its political and military/ quasi-military context. The role of international law generally and international human rights law in particular in the context of terrorism and anti-terrorism action will be considered in detail. The course will teach the material in context, so the subject will be analysed by reference to particular situations where necessary, eg Northern Ireland, the Palestine/Israel conflict and the post 11 September ‘war on terror’. The recent extension of state controls from terrorism to ‘extremism’ will be analysed. The aim of the course is to give the student a good critical understanding of this most controversial of subjects, and also to impart an understanding of the role of law in shaping the fields of terrorism and of counter-terrorism.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
There will be a reading week in week 6.
Formative coursework: One 2,000 word essay.
Indicative reading: There is no set text though reliance is made on the work of authors such as Richard English, Adrian Guelke, Lawrence Freedman, Igor Primoratz, Paul Wilkinson and the course teacher Conor Gearty. Students will receive a detailed Reading list for each topic, which will include legal cases from time to time. Two recommended texts are Gearty, Liberty and Security (Polity Press, February 2013) and English, Terrorism How to respond (Oxford 2009).
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
This subject is examined by one two-hour paper, composed of at least six questions of which two must be attempted. There will be a fifteen minute reading time during which the exam paper may be written on.

LL499
Dissertation: MSc Regulation
This information is for the 2018/19 session.
Availability: This course is compulsory on the MSc in Regulation.
Course content: Refer to assessment below.
Assessment: Dissertation (100%, 10,000 words).
The dissertation is due by 5:00 pm on Tuesday 20 August 2019.

LL4A6  Half Unit
Climate Change and International Law
This information is for the 2018/19 session.
Teacher responsible: Dr Stephen Humphreys NAB6.15
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Environment and Development, MSc in Environmental Policy and Regulation, MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEForYou.
Course content: This course covers the international law dealing with climate change with a view to assessing how the harms and burdens associated with climate change are governed and allocated in different legal regimes. The course adopts the stance that the political and legal questions raised by climate change cannot be addressed by reference to climate change law or international environmental law alone. Climate change gives rise to a series of profound problems touching upon a range of bodies of law (trade, human rights, migration, investment, state responsibility) in a complex political and ethical environment. In approaching climate change as a concrete concern relevant to these various bodies of law and practice, the course will address the normative bases for choosing between actions designed to prevent and/or manage climate change and its consequences, given developmental imperatives and the concerns raised by the ‘fragmented’ nature of international law. Projected seminars include: climate change science, politics and ethics; the theory of international law; international environmental law; trade law;
human rights law; migration law. The course includes two case studies, from among the following: climate technology transfer; carbon markets; food security. **Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST. There will be a reading week in week 6. **Formative coursework:** One 1,800 word essay to be submitted by the end of week 6. **Indicative reading:** IPCC, Fifth Assessment Report, Cambridge UP (2013-14); Rosemary Rayfuse and Shirley Scott (eds), International Law in the Era of Climate Change, Edward Elgar (2011); Stephen Gardiner, Simon Caney, Dale Jameson and Henry Shue (Eds.), Climate Ethics: Essential Readings, Oxford UP (2010); Nicholas Stern, The Economics of Climate Change: The Stern Review, Cambridge UP (2007), Stephen Humphreys (ed.), Climate Change and Human Rights, Cambridge UP (2010); Larry Lohmann, Carbon Trading, Dag Hammerskjold Foundation (2006); Lavanya Rajamani, Differential Treatment in International Environmental Law, Oxford UP (2006); Margaret Young (ed.), Regime Interaction in International Law. Facing Fragmentation, Cambridge UP (2012). **Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4A8**  
**Half Unit**  
**International Law and the Use of Force**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Devika Hovell NAB6.32  
**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Conflict Studies, MSc in Human Rights, MSc in Women, Peace and Security and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** Some prior knowledge of international law is useful but not essential.  
**Course content:** This half-unit course examines the law relating to when it is permissible to use force (jus ad bellum). The aim of this course is to develop an understanding of the principles of international law that regulate the use of force in international society. It concentrates on the prohibition of resort to force in Article 2(4) of the United Nations Charter and the exceptions to that prohibition. It looks in detail at the right of self-defence, humanitarian intervention and the responsibility to protect, pro-democratic intervention, the protection of nationals and the criminalization of aggression. The use of force by or with the authorization of the United Nations is also considered.  
**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST. There will be a reading week in Week 6 of Michaelmas Term.  
**Formative coursework:** One 2,000 word essay.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4AA**  
**Half Unit**  
**Not available in 2018/19 Global Copyright Policy: Contemporary Issues**

**This information is for the 2018/19 session.**

**Teacher responsible:** Ms Anne Barron NAB6.05  
**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: Competition, Innovation, and Trade Law; Corporate and/or Commercial Law; Information Technology, Media and Communications Law; Intellectual Property Law. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

**Pre-requisites:** Students must take Principles of Copyright Law (LL4N6) in parallel with this course unless exempted by the course convenor.  
**Course content:** The aim of this course is to equip students with the skills to reflect critically on global copyright policy today. “Global copyright policy” in turn is interpreted broadly to include not only the purposes and strategies underlying the formal treaties and trade arrangements that shape national copyright laws, but also those motivating the many alternative (and radically alternative) agendas for copyright’s future that are currently under...
consideration around the world. Discussion in seminars will be theoretically informed but organised around particular topics of contemporary concern.

**Teaching:** 20 hours of seminars and 2 hours of help sessions in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy. A help session is however offered in week 6 to assist with planning the summative essay. The help session will be designed to support students’ summative essay-writing work. All students will be invited to attend this session, during which expectations for the essays will be explained.

**Formative coursework:** One 1500 word essay.

**Indicative reading:** There is no set text. Readings will be assigned week-by-week and most will be available electronically via the Moodle site that accompanies this course. Students will be expected to read a wide range of material drawn from a number of disciplines. The following sources are indicative: Peter Baldwin, The Copyright Wars: Three Centuries of Trans-Atlantic Battle (Princeton UP, 2014); Ronald Bettig, Copyrighting Culture (Westview Press, 1996); James Boyle, The Public Domain (Yale UP, 2008); Patrick Burkart, Pirate Politics: The New Information Policy Contests (MIT Press 2014); Julie E. Cohen, Configuring the Networed Self: Law, Code, and the Play of Everyday Practice (Yale UP, 2012); Laurence Helfer and Graeme Austin, Human Rights and Intellectual Property: Mapping the Global Interface (Cambridge University Press, 2011), Tarleton Gillespie, Wired Shut: Copyright and the Shape of Digital Culture (MIT Press 2008); David Hesmondhalgh, The Cultural Industries 3rd ed. (Sage 2012); Adrian Johns, Piracy: The Intellectual Property Wars from Gutenberg to Gates (University of Chicago Press 2011); Jessica Litman, Digital Copyright (Prometheus, 2006); Kernbrew McLeod et al, Creative License: The Law and Culture of Digital Sampling (Duke UP, 2011); Neil W. Netanel, Copyright’s Paradox (OUP 2008); Hector Postigo, The Digital Rights Movement (MIT Press, 2012); Aram Sinnreich, The Piracy Crusade: How the Music Industry’s War on Sharing Destroys Markets and Erodes Civil Liberties (University of Massachusetts Press, 2014); Stephen Witt, How Music Got Free (Viking 2015)

**Assessment:** Essay (100%, 8000 words) in the ST.

**LL4AF Half Unit**  
**Principles of Global Competition Law**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Niamh Dunne  
**Availability:** This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.  

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.  

Students are expected to have done the set reading and be willing to participate in seminar discussion.

There will be a reading week in week 6.

**Formative coursework:** One 2,000 word essay.  
**Indicative reading:** Reading lists will be provided for each seminar on Moodle. Relevant readings are likely to include: David Kennedy, Of War and Law; Sundhya Pahuja, Decolonising International Law: Development, Economic Growth and the Politics of Universalality; and Balakrishnan Rajagopalan, International Law from Below: Development, Social Movements and Third World Resistance.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**ll4ae Half Unit**  
**Rethinking International Law: International Legal Thought**  
This information is for the 2018/19 session.  
**Teacher responsible:** Prof Gerry Simpson NAB 6.13  
**Availability:** This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.  

Students are expected to have done the set reading and be willing to participate in seminar discussion.

There will be a Reading Week in Week 6.

**Formative coursework:** One 2,000 word essay.

**Indicative reading:** Reading lists will be provided for each seminar on Moodle. Readings likely to be set include: a selection of international legal texts (including work-in-progress and "new authors") and readings from the fields of intellectual history, 18th century literature and political theory. The key works, apart from the usual contemporary international lawyers, are by Paul Jessup, Carl Schmitt, Friedrich Schiller and David Scott.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4AD Half Unit**  
**Rethinking International Law: International Law and Contemporary Problems**  
This information is for the 2018/19 session.  
**Teacher responsible:** Prof Susan Marks NAB 7.14  
**Availability:** This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is part of the following LLM specialism: Public International Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

**Pre-requisites:** There are no formal pre-requisites.

**Course content:** This course is primarily designed for students who have already had some exposure to public international law and a different global issue or theme, such as war, poverty, terrorism, humanity, and territory. Course readings will encompass both legal scholarship and relevant writing by scholars from other disciplines (geography, anthropology, philosophy, literary studies, etc.).

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.  

Students are expected to have done the set reading and be willing to participate in seminar discussion.

There will be a reading week in week 6.
available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: Competition, Innovation and Trade; Corporate and/or Commercial Law; European Law; International Business Law. This course is capped at 60 students. Students must apply through Graduate Course Choice on LSEforYou.

**Course content:** This module provides an overview of the major features of contemporary competition law regimes. This is a discipline that has gone through a remarkable process of expansion in the past two decades. Competition law is actively enforced in a growing number of jurisdictions. Instead of focusing on a particular regime, the module puts an emphasis on the fundamental debates underlying the adoption and evolution of this field, addressed in comparative perspective. Examples drawn from EU and US competition law will be generally used by way of illustration, with references to other regimes where relevant. The course assumes no prior knowledge of competition law or economics, but aims to equip students to understand and analyse the key substantive elements found within most competition regimes, including:

- Competition Policy and Economics;
- Anti-competitive agreements, including cartels and vertical restraints;
- Unilateral conduct rules, including refusal to deal and exclusionary practices;
- Merger control, including horizontal and vertical mergers;
- Institutions and enforcement

**Teaching:** 20 hours of seminars and 3 hours of classes in the MT. 2 hours of seminars in the ST. There will be a reading week in week 6.

**Formative coursework:** All students are expected to produce one 1,500-word formative essay during the course.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4AG  Half Unit**

**Competition Law: Challenges and Prospects**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Pablo Ibanez Colomo

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MPhil/PhD in Accounting, MSc in Law and Accounting, MSc in Regulation and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students (or two groups of 30 students each, i.e. 60 students depending on demand). LLM Specialisms This course will be relevant to the following LLM specialisms: Corporate and/or Commercial Law; Corporate and Securities Law; International Business Law.

**Pre-requisites:** Students should have some knowledge of corporate law.

**Course content:** This course will focus on the corporate governance of companies. The course will be taught largely on a comparative basis, focussing on English and German law. We will also cover the relevant EU materials. Topics such as the following will be discussed:

1. Corporate governance: law, codes and theory
2. Allocation of decision making within the company
3. Board structure (one tier boards/two tier boards/board committees) and board remuneration
4. Directors’ duties – proper purpose
5. Directors’ duties – duty of care/business judgement
6. Directors’ duties – related party transactions and corporate opportunities
7. Auditors
8. Stakeholders
9. Extended reporting and employee interests
10. Shareholder activism/stewardship

These topics may slightly change from year to year reflecting current developments.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST. There will be a reading week in week 6. Summer term is a review and revision session.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4AH  Half Unit**

**Corporate Governance**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Eva Micheler

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MPhil/PhD in Accounting, MSc in Law and Accounting, MSc in Regulation and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students (or two groups of 30 students each, i.e. 60 students depending on demand). LLM Specialisms This course will be relevant to the following LLM specialisms: Corporate and/or Commercial Law; Corporate and Securities Law; International Business Law.

**Pre-requisites:** Students should have some knowledge of corporate law.

**Course content:** This course will focus on the corporate governance of companies. The course will be taught largely on a comparative basis, focussing on English and German law. We will also cover the relevant EU materials. Topics such as the following will be discussed:

1. Corporate governance: law, codes and theory
2. Allocation of decision making within the company
3. Board structure (one tier boards/two tier boards/board committees) and board remuneration
4. Directors’ duties – proper purpose

**LL4AJ  Half Unit**

**Insolvency Law: Principles, Rescue and Reconstruction Processes**

This information is for the 2018/19 session.

**Teacher responsible:** Ms Sarah Paterson

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Corporate and/or Commercial Law. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

**Course content:** This course focuses on registered companies and is concerned with the rescue of financially distressed companies and businesses. The formal legal procedures available for rescuing companies and businesses in financial distress are analysed as are informal approaches to corporate failure. Topics include: rescuing the business and assets of a company as a going concern; restructuring and small companies; restructuring and large companies; theory of rescue and restructuring.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

A variable format: some lecture-discussions, some student-paper-led discussions and some debates. Week 6 will take the form of a reading week.

**Formative coursework:** One 1,500 word essay.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4AL  Half Unit**

**International Business Transactions:**

**Commercial Litigation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Jacco Bomhoff NAB 6.09

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Specialism International business law.**

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** Knowledge of conflict of laws (private international law) would be useful but is not essential. A good general understanding of commercial law is essential.

**Course content:** Jurisdictional problems arising in litigation resulting from international business transactions. The following topics will be studied from the point of view of European Union law, English (common and statute) law, Canadian law and US law: a. General jurisdiction over companies and individuals; b. Jurisdiction over branches and agents; c. Specific jurisdiction over contract and tort claims; d. Constitutional limitations on jurisdiction in the United States.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in Week Six of the MT.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4AK  Half Unit**

**Insolvency Law: Company Liquidation and Stakeholder Interests**

This information is for the 2018/19 session.

**Teacher responsible:** Ms Sarah Paterson

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

**Pre-requisites:** It is recommended that students have completed Insolvency Law: Principles, Rescue and Reconstruction Processes (LL4AJ), although this is not essential.

**Course content:** This course focuses on registered companies and is concerned with the principles and policies underlying the realisation and distribution of assets in an insolvency. The impact of these procedures and approaches on third parties such as corporate groups, secured and unsecured creditors, directors and employees, is also considered. Topics include: settling aside transactions; the Pari Passu principle and the distributional order of priority in insolvency; secured creditors and security devices; the problem of corporate groups; company directors in troubled times; employees in distress; and EC and international recognition of insolvency proceedings.

---

**LL4AM  Half Unit**

**International Business Transactions:**

**Advanced Procedure and Tactics**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Trevor Hartley NAB 5.11

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Specialism International business law.**

This course is capped at 30 students. Students must apply through
Graduate Course Choice on LSEforYou.

Pre-requisites: Students must have completed International Business Transactions: Commercial Litigation (LL4AL). Students must have taken LL4AL International Business Transactions: Commercial Litigation or obtained equivalent knowledge elsewhere. Knowledge of conflict of laws (private international law) would be useful but is not essential. Non-LLM students must have a full law degree (a degree which fulfils the degree requirement for becoming a lawyer in your country).

A good general understanding of commercial law is essential.

Course content: Litigation resulting from international business transactions. The following topics will be studied from the point of view of European Union law, English law, Canadian law and US law: choice-of-court agreements; forum non conveniens and lis pendens; antisuit injunctions, freezing orders; arbitration and the Brussels Regulation; obtaining evidence abroad; recognition and enforcement of foreign judgments.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in Week 6 of LT.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4AP  Half Unit
International Business Transactions: Contracts and Property

This information is for the 2018/19 session.

Teacher responsible: Prof Trevor Hartley NAB 5.11

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: Knowledge of conflict of laws (private international law) would be useful but is not essential. Good general understanding of commercial law is essential. Non-LLM students must have a full law degree (a degree which fulfils the degree requirement for becoming a lawyer in your country).

Course content: The following topics will be studied from the point of view of European Union law, English (common and statute) law, Canadian law and US law: 1) Principles and theories of choice of law; 2) Proof and application of foreign law; 3) Contracts: applicable law; 4) The international reach of legislation for the regulation of business and the protection of consumers and employees; 5) The private international law aspects of boycotts and embargoes; 6) Exchange controls; 7) Currency problems in international contracts; 8) The international aspects of property transactions; 9) The recognition of foreign expropriations and other governmental acts affecting property (including financial assets).

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in week 6.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4AN  Half Unit
International Business Transactions: Conflict of Laws, Extraterritoriality, and Global Governance

This information is for the 2018/19 session.

Teacher responsible: Dr Jacco Bornhoff NAB 6.09

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: Knowledge of conflict of laws (private international law) would be useful but is not essential.

Course content: States often aim to regulate activities that transcend their own borders. When such measures are challenged governmental acts affecting property (including financial assets). Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in Week 6 of LT.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
LL4AQ  Half Unit

Constitutional Theory

This information is for the 2018/19 session.
Teacher responsible: Prof Martin Loughlin NAB 7.12
Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Human Rights Law, Legal Theory, Public Law.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: This course examines the role of constitutions and the nature of constitutional discourse. It considers the ways in which theorists have advanced understanding of constitutions and devised solutions to a range of constitutional questions. The course addresses the following topics: constitutions, constitutional order, constitutional foundation; constitutionalism: constitutional exception; constitutional rights; constitutional democracy; constitutional adjudication; constitutional recognition; and cosmopolitan constitutionalism.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the LT.
There will be a reading week in week 6.
Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.
Indicative reading: Much of the reading for the course consists of readings available online and the course is delivered through Moodle. A background text is Martin Loughlin, The Idea of Public Law (OUP, 2003).
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4AR  Half Unit

International Criminal Law: Core Crimes and Concepts

This information is for the 2018/19 session.
Teacher responsible: Prof Gerry Simpson NAB 6.13
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Criminal Justice Policy, MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Criminology and Criminal Justice, Public International Law, Human Rights Law.
This course is capped at 30 students.
Course content: The course looks at the rules, concepts, principles, institutional architecture, and enforcement of what we call international criminal law or international criminal justice, or, sometimes, the law of war crimes. The focus of the course is the area of international criminal law concerned with traditional “war crimes” and, in particular, four of the core crimes set out in the Rome Statute (war crimes, torture as a crime against humanity, genocide and aggression). It adopts a historical, philosophical and practical focus throughout, though the course is mainly directed at the conceptual problems associated with the prosecution of war criminals and, more broadly, legalised retribution. Attention, in this respect, will be directed towards the moral and jurisprudential dilemmas associated with bureaucratic criminality and individual culpability. Topics include Pre-History (Vitoria, Grotius, Gentili, Cicero), Versailles, Nuremberg and Tokyo, the Trial of Adolf Eichmann, Crimes Against Humanity, the Crime of Aggression, Anti-Anti-Impunity, International Criminal Law’s Historical Method.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

LL4AS  Half Unit

International Criminal Law: Prosecution and Practice

This information is for the 2018/19 session.
Teacher responsible: Dr Devika Hovell
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Criminal Justice Policy, MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Criminology and Criminal Justice, Public International Law, Human Rights Law.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: This course examines the practice and procedure of international criminal law. Rather than examining the history and core crimes, the course focuses on the fora for prosecution of international crimes and the practice, procedure and politics of international prosecutions.
In terms of the forum for prosecution, we examine the ad hoc international criminal tribunals for Rwanda and the former Yugoslavia and hybrid tribunals such as the Special Tribunal for Lebanon, the Extraordinary Chambers in the Courts of Cambodia and the Special Court for Sierra Leone. We then consider the opportunities for prosecution of international crimes in domestic courts, looking in particular at the principle of universal jurisdiction. Finally, we turn to the International Criminal Court. We consider the foundation of authority of international criminal tribunals, the relationship between the various international criminal tribunals and controversial questions about jurisdiction in current cases. In terms of practice and procedure, we examine the modes, limits, exclusion and enforcement of individual criminal responsibility. We will look at questions, theory and case law surrounding modes of liability, immunities, defences and state cooperation.
Finally, we will consider future challenges for the prosecution of international crimes. The course will respond to current controversial issues in international criminal law, such as Palestine’s accession to the Rome Statute, the selectivity of international criminal prosecutions, the relationship between domestic legal systems such as Libya and the ICC and the implications of these issues for the legitimacy of the international criminal law project.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
There will be a reading week.
Formative coursework: One 2,000 word essay.
LL4AT  Half Unit  Regulation: Strategies and Enforcement

This information is for the 2018/19 session.
Teacher responsible: Dr Veerle Heyvaert NAB7.06
Also taught by: Prof. Nicola Lacey NAB 6.12
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Public Policy and Administration, Master of Public Administration and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is NOT available for students of the MSc Regulation programme.

This course will be relevant to the following LLM specialisms: Banking Law and Financial Regulation; Corporate and/or Commercial Law, Criminology and Criminal Justice; Information Technology, Media and Communications Law; Intellectual Property Law, Legal Theory; and Public Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEForYou.

Course content: The course provides an introduction to key topics relating to regulatory strategies and their implementation. It deals with issues from a systemic and comparative perspective and draws on approaches encountered in public administration, socio-legal studies and institutional economics. Topics include:

• Introduction: What is Regulation and why regulate?
• Categories of Regulation: Command-and-control; alternative approaches including emissions trading; and self-regulation
• Regulatory Strategies: risk regulation; regulating through rules, standards and principles
• Enforcement: tools, strategies and principles
• Regulatory Policy: Cost/Benefit Assessment, Regulatory Impact Assessment and Better Regulation; regulatory competition; and transnational Regulation

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
Teaching is offered through a combination of short lecture segments and seminar discussion. There are frequent opportunities for discussion in small groups and student-led presentations.

Formative coursework: One 1,500 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4AV  Half Unit  Not available in 2018/19

Global Trade Governance: Contemporary Issues

This information is for the 2018/19 session.
Teacher responsible: Prof Andrew Lang NAB 6.19
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, Master of Public Administration and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is NOT available for students of the MSc Regulation programme.

This course will be relevant to the following LLM specialisms: Banking Law and Financial Regulation; Corporate and/or Commercial Law, Criminology and Criminal Justice; Information Technology, Media and Communications Law; Intellectual Property Law, Legal Theory; and Public Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: Students must have taken Regulation: Strategies and Enforcement (LL4AT).

Course content: The course aims to give students an essential grounding in theories of regulation as these relate to the evaluation of regulatory regimes and the challenges of accounting for regulatory practice. Different ways of understanding regulatory developments will be discussed as well as the set of challenges that arise when regulation is carried out by numbers of regulators at different levels of government. Topics dealt with will include:

• What is Good Regulation?
• Accountability & Regulation
• Regulation and Cost Benefit Analysis
• The Better Regulation Movement
• Self-Regulation
• Rules, Standards and Principles
• Regulatory Competition
• Regulatory Networks
• Lenses for Viewing Regulation
• The Future of Regulation

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
There will be a reading week in week 6.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou. This course will be relevant to the following LLM specialisms: Competition, Innovations and Trade Law, Public International Law, International Business Law.

Pre-requisites: Students must have completed Foundations of International Economic Law (LL4B1).

Course content: The aim of this course is to allow students with a particular interest in global economic governance to explore a greater diversity of topics than is possible in one term only. At one level, this involves covering a greater range of WTO agreements, including this TBT Agreement, Subsidies Agreement, GATS, TRIPs and others. In addition, however, there is a much greater emphasis in this course (as compared to the Core Principles course) on using issues of contemporary trade governance to explore broader questions concerning the modalities of contemporary economic governance at the global level. Core themes of concern will include: international legal pluralism; the role of knowledge practices and the aesthetics of expertise in international economic governance, international economic law 'after the crisis', the emergence of new 'developmentalism' and its prospects, and spaces and modalities of contestation in contemporary global economic governance. Class Schedule (Indicative Only) 1. The WTO and global food governance: the SPS Agreement and the Agreement on Agriculture 2. Contemporary issues in subsidies regulation 3. Trade remedies and contingent protection 4. The TBT Agreement 5. Advanced issues in WTO dispute settlement 6. The new regionalism: TTIP and TPP 7. The new developmentalism 8. The WTO and the global financial crisis

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Indicative reading: Detailed reading lists and class outlines for each week are available through Moodle for this course. You are expected to come to class having read the Essential Reading for that week, all of which is readily available either in electronic form, or in hard-copy in the library. The items listed under Further Reading will assist those of you who wish to research more deeply into a particular topic, either in the context of exam preparation or the writing of a dissertation. There are two textbooks for this course, and you may purchase either. One is Trebilcock and Howse, The Regulation of International Trade, 4th ed., (Routledge, 2013). The other is Van den Bossche, The Law and Policy of the World Trade Organization: Texts, Cases and Materials, 3rd ed., (Cambridge University Press, 2013). You must also purchase a copy of The Legal Texts: The Results of the Uruguay Round of Multilateral Trade Negotiations, (Cambridge University Press). This contains most of the basic documents required for the course. An unmarked version of this text will be the only text allowed into the examinations. Students should ensure that they refrain from marking the text. You may find it helpful to own or have ready access to a copy of Lester and Mercurio, World Trade Law: Text, Materials and Commentary (2nd ed, 2012).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4AX**  
**Half Unit**

**Selected Topics in International Human Rights Law**

This information is for the 2018/19 session.  
**Teacher responsible:** Prof Susan Marks NAB 7.14  
**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Development Studies, MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: None

Course content: This course explores the contribution and limits of international human rights law through a range of contemporary topics. We consider such phenomena as torture, counter-terrorism and the death penalty, and also investigate the bearing of international human rights law for such issues as hunger, development and climate change. Through the study of relevant concepts, norms, processes and debates, students are encouraged to develop an informed and critical assessment of the significance of international human rights law as a force for emancipatory change.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in week 6.

Formative coursework: One 2,000 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4AW**  
**Half Unit**

**Foundations of International Human Rights Law**

This information is for the 2018/19 session.  
**Teacher responsible:** Prof Susan Marks NAB 7.14  
**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Development Studies, MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is part of the following LLM specialisms: Public International Law, Human Rights Law. This course is capped at 30 students.

Pre-requisites: None

Course content: The course provides an introduction to the historical developments, institutional arrangements and central principles that have given shape to the regime of international human rights law. We consider enduring debates around the foundations and universality of human rights, and look at a range of issues relating to the interpretation and application of human rights treaties. We also examine ongoing efforts to reform the institutions and procedures of international human rights law. Through the study of relevant concepts, norms, processes and debates, students are encouraged to develop an informed and critical assessment of the significance of international human rights law as a force for emancipatory change.

Teaching: 20 hours of lectures in the MT. 2 hours of lectures in the ST.

There will be a reading week in week 6.

Formative coursework: One 2,000 word essay.

LL4AY  Half Unit  
**International Tax Systems**

This information is for the 2018/19 session.  
**Teacher responsible:** Mr Eduardo Baistrocchi NAB 7 33  
**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Pre-requisites:** Students should have at least a basic knowledge of a tax system of a country (not necessarily the UK) or be studying LL4Z1 Business Taxation.  
**Course content:** This course examines how taxation applies to transactions in the international context. The focus is on rules that operate at an international or supra-national level, though we will look at some domestic rules that are important to international taxation and that can be found in a number of important tax systems. The course will look at a series of international transactions, starting with the very basic example of an export and import of goods and culminating with the treatment of some complex and artificial structures. The features of tax systems will be studied through these transactions, particularly those features found in double tax conventions and in the law of the European Union. In the first part of the course this will be supplemented by introductions to some key foundation concepts that are needed in the study of international taxation. Throughout the course examples will be drawn from the tax systems of a range of countries.  
**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST. This is based on a format of lecture-discussions with the possibility of guest speakers where appropriate and depending on numbers. Students on this course will have a reading week in Week 6, in line with departmental policy.  
**Formative coursework:** Students are asked to submit one 2,000 word essay.  
**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4B1  Half Unit  
**Foundations of International Economic Law**

This information is for the 2018/19 session.  
**Teacher responsible:** Mr Christopher Thomas  
**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Development Studies and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.  
**This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.**  
**Pre-requisites:** Students should have at least a basic knowledge of a tax system of a country (not necessarily the UK) or be studying LL4Z1 Business Taxation.  
**Course content:** This course will look at a series of international transactions, focusing on the treatment of some complex and artificial structures. They include base erosion, profit shifting and the resolution of transfer pricing disputes. Throughout the course examples will be drawn from the tax systems of a range of countries from the OECD and non-OECD worlds.  
**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST. This is based on a format of lecture-discussions with the possibility of guest speakers where appropriate and depending on numbers, corresponding fortnightly one-hour classes. There will be a reading week in week 6.  
**Formative coursework:** Students are asked to submit one 2,000 word essay.  
**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4BA  Half Unit**

**International Law and the Movement of Persons within States**

This information is for the 2018/19 session.

Teacher responsible: Dr Chaloka Beyani NAB7.04  
Associate Professor of Law and former UN Special Rapporteur on the Human Rights of Internally Displaced Persons 2010-2016. Member of the UN Secretary General's Human Rights Up Front 2014 and continuing.

Availability: This course is available on the LLM (extended part-time), LLB (full-time), MSc in Human Rights, MSc in International Migration and Public Policy and University of Pennsylvania Law School LLB Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Public International Law and Human Rights Law.

This course is capped at 60 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: The course provides a detailed study of the international legal framework in which the causes, problems, policies, standards, techniques and institutions concerning the movement of persons within States and protection of internally displaced persons are situated. The course explores the overlap between International Human Rights Law, International Humanitarian Law and Humanitarian Assistance with respect to internally displaced persons. It covers: the definition of internally displaced persons; individual criminal responsibility for forcible displacement before ad hoc Tribunals with criminal jurisdiction and the International Criminal Court; standards applicable in international law to the protection of internally displaced persons, the regime of humanitarian assistance to displaced persons; and finally the institutional protection of internally displaced persons by the United Nations Special Rapporteur on the Human Rights of Internally Displaced Persons, the United Nations High Commissioner for Human Rights, and the United Nations High Commissioner for Human Refugees. Topics include:

- Regulation of movement within States in International Law
- Territorialism, movement, and displacement
- Internally displaced persons and the role of the UN Special Rapporteur on the Human Rights of Internally Displaced Persons
- Protection of Internally Displaced Persons in International Human Rights Law
- Protection of Internally Displaced Persons in International Humanitarian Law
- The Regime of Climate Change induced Displacement
- Individual Criminal Responsibility for Forcible Displacement
- Institutional Protection and Humanitarian Assistance
- Internally Displaced Persons in Post-Conflict Situations
- Remedies and ‘durable’ solutions for Internally Displaced Persons

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

This will be based on a seminar format with structured discussions, debates, and presentations by students and guest speakers where appropriate. There will be a reading week in week 6.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4BB  Half Unit**

**International Law and the Movement of Persons Between States**

This information is for the 2018/19 session.

Teacher responsible: Dr Chaloka Beyani NAB7.04  
Associate Professor of Law and former UN Special Rapporteur on the Human Rights of Internally Displaced Persons 2010-2016. Member of the UN Secretary General's Human Rights Up Front 2014 and continuing.

Availability: This course is available on the LLM (extended part-time), LLB (full-time), MSc in Human Rights, MSc in International Migration and Public Policy and University of Pennsylvania Law School LLB Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Public International Law and Human Rights Law.

This course is capped at 60 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: The course provides a detailed study of the international legal framework in which the causes, problems, policies, standards, techniques and institutions concerning the protection of asylum seekers, refugees and refugee women, and migrants are situated. The course explores the overlap between International Refugee Law, International Human Rights Law, International Criminal Law, the phenomenon of Migration, including Human Trafficking in the context of refugees, legal and illegal migrants. It covers: the definition of refugees, legal and illegal migrants, including trafficking in human beings; the concepts of ‘well-founded fear’ of persecution and group eligibility to refugee protection; procedures for determining refugee status on an individual and group basis, in Africa, Asia, Australia, the European Union, North America, and Latin America; temporary protection; the process of exclusion from refugee protection; the role, in refugee law and human rights, of the principle of non-refoulement in refugee protection; the cessation of refugee status, voluntary repatriation, and safe return; standards applicable in international law to the protection of refugees, migrants, and evolving standards against human trafficking; the regulation of migration in regional economic and political unions, namely the European Union, East African Community, the Union of West African States, the Caribbean Community and the Southern African Development Community; and finally the institutional protection of refugees, and migrants by the United Nations High Commissioner for Refugees and the, the International Organisation for Migration. Topics include:

- International Law and the Movement of Persons Between States
- Definition of Refugees
- The Right to Seek and Obtain Asylum and Determination of Refugee Status
- Exclusion from Refugee Protection
- Protection of asylum seekers and refugees from Refoulement
- Standards of Protection and cessation of refugee status
- Definition of Migrants
- Protection of Migrants in International Human Rights Law
- Regional Integration and Migration
- Trafficking in Human Beings and Human Smuggling

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
also a voluntary mock exam.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4BF  Half Unit
International Financial Regulation

This information is for the 2018/19 session.
Teacher responsible: Dr Philipp Paech NAB 7.05
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MPA in Public and Social Policy, MPA in Public and Economic Policy, MPA in Public Administration and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course focuses on the micro- and macro-prudential regulation of financial institutions and the financial system. It examines the prudential regulation of banks, bank resolution schemes, the regulation of shadow banking and other regulatory attempts to ensure financial stability. The focus will be on the regulation of national and international aspects of financial institutions and the financial system, rather than on private law and transactional aspects.

No previous knowledge of financial market regulation or background in economics is required for those wishing to follow this course. For non-lawyers, a willingness to engage in legal analysis will be necessary, although a legal background is not required.

The syllabus may include the following topics:
The Rational of International, EU and UK Regulatory Structures
Core concepts of Financial Regulation, pre- and post-Crisis Financial Stability – Policy Issues, Principles and Global Standard Setters
Prudential Regulation of Banks – The Basel Accords
The EU Banking Union
National and Cross-border Resolution of Failing Banks
Regulating Shadow Banks
Regulating Alternative Investment Funds
Regulating Credit Rating Agencies

Teaching: 22 hours of seminars in the LT.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4BG  Half Unit
Rethinking EU Law

This information is for the 2018/19 session.
Teacher responsible: Dr Michael Wilkinson NAB 6.28
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course examines the philosophical and theoretical underpinnings of the EU and European Union law: it explores issues such as the nature and evolution of the EU and its legal order, its relationship to international law, its democratic and constitutional credentials, the place of fundamental rights and their relationship to market freedoms the idea of a European economic constitution, and the impact of the Euro-crisis and Brexit. It offers students a deeper understanding of the structures and systems that inform EU law but also an opportunity to think about how European integration informs our ideas of law and the modern state.

Teaching: 22 hours of seminars in the LT.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Essay (100%) in the LT.

LL4BH  Half Unit
Law and Government of the European Union

This information is for the 2018/19 session.
Teacher responsible: Dr Floris De Witte
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

For the LLM (Specialisms: European Law, Public Law, Human Rights Law)
Course content: "If the euro fails, Europe fails," warned the German chancellor, Angela Merkel in 2011, at the (first) apex of the sovereign debt crisis. Since then the European Union has faced many more potential failures — and crises.

The course has two aims: first, to analyse the crises and challenges Europe is facing and prospects of the Union to stand up to them. Second, in order to understand the many crises in Europe, we need to understand Europe and European integration. We will therefore study some of its foundational values and concepts that form its legal and political vocabulary.

What kind of crises and challenges? Which values and concepts? Financial crisis, of course — but that has given way in public discourse to another crisis: the "refugee crisis." So far the European states — and their Union — were not capable to deal with it and the Union is more and more seen as a source, and not the solution to it. But there is a deeper issue here as well, going to the very heart of what Europe stands (or wants to stand) for: irregular migrants "are treated as both security threats to Europe and as lives that are threatened and in need of saving." How this tension is (not) being solved suggests something about the importance of borders and security for the legitimacy of the government, "governmentality" and technologies of power in today's Europe.

With the border crisis another boundary re-emerged in the political discourse: that between West and East, or liberal-democratic Europe and Europe at the "end of post-communism." Easterners are yet again being told to learn the terms of their membership in the EU, which contain also "solidarity": with the refugees ("the lives to be saved") and the states that bear a disproportionate burden ("lives as liabilities"). What does solidarity mean in today's Europe and which place it does have in the whole integration project?

There are other problems in the East: after the Union failed to prevent the rise of an illiberal (and increasingly authoritarian) regime in Hungary, it wants to do better this time: on 13 January of this year the Commission decided to start "the structured dialogue under the Rule of Law Framework" with Poland — a first step which may eventually end with imposing sanctions on Poland for the violation of the Union's foundational values prescribed by Article 7 TEU.

Is this Europe's role, however, given its own problems with democracy and political legitimacy? Isn't this yet another sign of the German dominance in Europe, something the integration project had been succeeding in preventing, but today seems rather to contribute to? Do we have German Europe today rather than European Germany?

Is not the Union best understood as a cooperative enterprise among the member states aimed principally at securing economic prosperity through free trade promotion, as many people in the UK seem to believe? The debate around Brexit, as well as the Transatlantic Trade and Investment Partnership (TTIP) currently negotiated between the Union and the United States both provide a focal point for such debate.

We will therefore discuss the challenge of Europe's purpose, identity and its relationship to the people of Europe too — all related to the issues mentioned above.

Teaching: 22 hours of seminars in the MT.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course. The formative essay serves as a basis for the assessed essay.

Assessment: Essay (100%, 8000 words) in the ST.
LL4BL  Half Unit
Financial Crime

This information is for the 2018/19 session.
Teacher responsible: Mr Jonathan Fisher

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Accounting and Finance, MSc in Criminal Justice Policy, MSc in Law and Accounting, MSc in Regulation, MSc in Risk and Finance and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Banking Law and Financial Regulation Corporate and/or Commercial Law Corporate and Securities Law Criminology and Criminal Justice International Business Law.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course focuses on financial crime committed within the commercial and business environment and explores current perspectives in the detection, investigation and prosecution of these cases in the wake of the global financial crisis. The introductory session explores the taxonomy of financial crime, examining the nature and extent of financial crime, its social and economic impact and the perceived ambivalence to the prosecution of financial crime offenders. The course explores a definition of fraud through a consideration of notions of dishonesty and deception, examining the role of consent and the interaction between the criminal law and civil law notions of property and trust. Cybercrime is the most prevalent way in which fraud is committed today. In addition to exploring its nature and scale, the course considers how the criminal law is deployed to combat cybercrime. The engagement between financial crime and the global financial crisis is a critically important topic and the course examines offences such as insider dealing and misleading the financial markets. In addition, the course explores the potential criminality of other practices such as manipulating the financial markets, short selling and reckless risk taking. International initiatives to promote asset confiscation and penalise money laundering have featured heavily in the fight against financial crime. The course examines the tensions which arise when these initiatives are implemented into domestic law. Finally, the course explores the difficulties encountered by the enforcement authorities when investigating financial crime cases and the potential incompatibility between the exercise of compulsory interrogation powers and privacy issues. The course concludes with a seminar on the principles of sentencing and the course examines offences such as insider dealing and misleading the financial markets. There is no overlap between this course and the course on Corporate Crime in the Michaelmas (first) Term. Corporate Crime is not a pre-requisite for this course.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
The first half of the session is lecture format, the second half seminar format. Students have an opportunity to work with other students in the presentation of seminars. Week 6 is a reading week. There is one revision session in the summer term.

Formative coursework: One 2,000 word essay.
Indicative reading: Reading is prescribed for each lecture and seminar. There are no core textbooks available for the course; however, all the reading material is available from resources easily accessible through LSE Moodle, LSE Electronic Library and the internet. Preliminary reading is not required but for an understanding of the areas covered in the course students may read Green: Lying, Cheating and Stealing: A Moral Theory of White Collar Crime, 2005, Oxford University Press; Ryder: Financial Crime in the 21st Century, Law and Policy, 2011, Edward Elgar; Edelbacher, Kratcoski, Theil: Financial Crimes, A Threat to Global Security, 2012, CRC Press Taylor & Francis Group.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4BM  Half Unit
The Legal Protection of Inventions

This information is for the 2018/19 session.
Teacher responsible: Dr Siva Thambisetty NAB 7.29

Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Information Technology, Media and Communications Law, Intellectual Property Law, Corporate and Commercial Law, International Business Law, and Competition, Innovation and Trade Law.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: This course provides an advanced and comprehensive introduction to the legal protection of invention through patents. Legally defined inventions are everywhere - in the velcro used to fasten a gym bag, in the tap or touch of a smartphone, in the food we eat, the medicines we take, the clothes we wear and in the buildings we live in. There are yet more inventions in the innovation pipeline and some that live only in our fertile technical imagination. Patent rights over such inventions increasingly intersect with diverse values such as competitive innovation, income equality, universal healthcare, regulation of risky technologies and the autonomy to pursue scientific prospects. In this course we will study the basics of patent prosecution as well as the theoretical and actual relationship between patents and innovation, both in law and in economics. Students will address central patentability criteria as well as patent eligibility for inventions that incorporate software, biotechnology or morally controversial technologies. These topics often call for a comparative approach based on UK, EU and US patent law. The aims of this course are to gain in-depth knowledge of patent law doctrine, familiarity with widely different contexts of innovation and a sound critical approach to the general principles of the legal protection of inventions. Students do not need a scientific background and will be supported in learning the relevant technical aspects.
Topics covered include: Novelty, inventive step, person skilled in the art, industrial applicability, sufficiency of disclosure, computer implemented inventions and business methods, biotechnology, exclusions (such as animal varieties, diagnostic methods, on grounds of morality) and the fundamentals of claim construction. This course is a pre-requisite for LL4BN and students are encouraged to consider taking both courses.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
This is a Michaelmas term course, and consists of 10 weekly two-hour seminars in variable format including lecture-discussions and student-led seminars. There will be a Reading Week in week 6 of MT.
Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.
Assessment: Essay (100%, 8000 words) in the LT.
**LL4BN**  Half Unit  Not available in 2018/19

**Innovation, Technology and Patent Law**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Siva Thambisetty NAB 7.29

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Intellectual Property Law; Legal Theory and Competition, Innovation and Trade Law.

**Course content:**

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** Students must have completed The Legal Protection of Inventions (LL4BM).

**Course content:**

This course will build on the comprehensive and advanced introduction to patent law provided in LL4BN to address sophisticated issues of law and public policy through multiple perspectives. Thematic focus in seminars may include institutional theory, understanding of technology cycles, competition policy, international powers of norm-setting and trade related coercion, the reasonableness and confusion surrounding the demands of the global pharmaceutical industry, the utilitarian balance between patent rights and the freedom to conduct research, the meaning of efficiency in patent law and bioethics. Some of the case studies that will be covered include infringement and the freedom to repair, plant variety rights, synthetic biology, TRIPS and access to patented medicines, the research use exception, patent offices, patent litigation and the need for a unitary patent court, competition law and policies in the technology and pharmaceutical sector. This course complements several areas of national and international law and policy.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

This is a Lent term course, and consists of 10 weekly two-hour seminars in variable format including lecture-discussions, student-led seminars and guest lecturers where appropriate. Students are expected to participate in class discussions and critically explore further implications of the reading covered each week.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Indicative reading:**

- Weekly readings will include book chapters, law review articles, reports and studies as well as cases. Robert Merges Justifying Intellectual Property Law HUP 2011.
- James Boyle The Public Domain: Enclosing the Commons of the Mind Yale University Press 2008 (free access online).
- Boldrin and Boyle The Public Domain: Enclosing the Commons of the Mind.

**Assessment:**

Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**Current Issues in Intellectual and Cultural Property Law**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Robert Pottage NAB 7.21

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law, Anthropology and Society and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Intellectual Property Law; Information Technology, Media and Communications Law.

**Pre-requisites:** None

**Course content:**

This course will be relevant to the following LLM specialisms: Intellectual Property Law; Information Technology, Media and Communications Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

This course will be relevant to the following LLM specialisms: Intellectual Property Law; Legal Theory and Competition, Innovation and Trade Law.

**Course content:**

This course takes a broadly historical, theoretical and contextual approach to the study of intellectual and cultural property law. It focuses on a set of topical questions that illuminate paradigms, institutional models and social and economic formations that cut across the diversity of intellectual and cultural property regimes; questions about the nature of property in intangible things, about the implications of the transnational expansion of intellectual property forms and institutions, about the role of comparative analysis in the study of intellectual property, or about how regimes forged in the era of industrialization have adapted to new modes of production and distribution. These expansive questions are not asked in abstraction. Seminars will focus on specific case studies of institutions, transactional forms and social effects. Many of these studies are chosen for their topicality, so the contents of the course will evolve from year to year, but seminar topics might include: the emergence of new regimes of open source biotechnology, the evolution of non-conventional trade marks such as scents, textures and shapes; the effects of regime-shifting between different international frameworks for the regulation of questions of intellectual property; the bases of emerging markets in cultural property and heritage; the re-emergence of old tensions between droit d'auteur and copyright in the context of open source licensing or human rights negotiations; the nature of ‘negative spaces’ (the fashion industry, magicians, manga and stand up comedy) within the otherwise pervasive order of intellectual property; the nature of the link between legal incentives and technological innovation; the usefulness of economic models in understanding the proprietary value of patents. The object of the course is to introduce key themes in critical debates about intellectual property, and to offer a set of conceptual resources that might be drawn upon in more specialized LLM courses in intellectual property.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Indicative reading:**

**Assessment:**

Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4BQ**  Half Unit

**Trade Mark Law**

This information is for the 2018/19 session.

**Teacher responsible:** Alain Pottage

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting, MSc in Law, Anthropology and Society and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Intellectual Property Law; Information Technology, Media and Communications Law.

**Pre-requisites:** None

**Course content:**

This foundation course offers an in depth analysis of legislation and case law concerning registered trademarks in the UK and EU, against the backdrop of relevant developments in international and comparative law. Topics covered include: an
introduction to national, regional and international trade mark registration systems; the background of unfair competition law, registration requirements; absolute grounds and relative grounds of refusal of registration; the scope of trade mark rights; the tests for infringement - confusion and dilution; exceptions and defences.

**Teaching:** 20 hours of seminars in the MT. There will be a Reading Week in week 6 of MT.

**Formative coursework:** One 2,000 word essay.

**Indicative reading:** Core Textbook - L Bently and B Sherman Intellectual Property 4th ed (OUP, Oxford 2014). Students will be expected to read widely in designated journals and books. All of the recommended cases and journal articles are available in electronic form and additional materials will be made available on the Moodle website which supports this course. A detailed reading list will be provided for the course, but the following are indicative:

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4BR** Half Unit  Not available in 2018/19

**Trade Marks, Brands and Branding: Contemporary Issues**

**This information is for the 2018/19 session.**

**Teacher responsible:** Anne Barron

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting, MSc in Law, Anthropology and Society and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Competition, Innovation and Trade Law, Corporate and/ or Commercial Law, Information Technology, Media and Communications Law, Intellectual Property Law.

**Pre-requisites:** None

**Course content:** This course situates the key concepts of trade mark law in relation to analyses of brands and branding offered by leading contemporary social scientists. Topics to be covered include histories of brands, branding and trade marks; connections and disconnections between trade marks and brands; the new salience of non-traditional trade marks; sensory marks and sensory marketing; offensive marks and banned brands; trade marks and ‘distinction’; the consumer psychology of trademark law; the role of trademark law in propertising brands; limits to propertisation; and legal implications of ‘alter-branding’ and related phenomena. Throughout, emphasis is placed on the law’s role in underpinning marketing processes that now structure everyday life in ever more intense and intimate ways, and consideration is given to the links between these processes and wider changes in economy and society such as globalisation, financialisation and informationalisation.

**Teaching:** 20 hours of seminars and 2 hours of help sessions in the LT. The help session will be designed to support students’ summative essay-writing work. All students will be invited to attend this session. Expectations for the essays will be explained, and sample essays discussed.

**Formative coursework:** One 1500-word essay.

**Indicative reading:** There is no set text: readings will be assigned on a weekly basis. The core reading will include legislative texts and leading cases, but also journal articles and book chapters, and these will range across a number of disciplines including media and communication studies, cultural studies, economic sociology, business studies and anthropology. The following list is indicative: Melissa Aronczyk and Devon Powers, Blowing Up the Brand. Critical Perspectives on Promotional Culture (Peter Lang, 2010); Adam Arvidsson, Brands: Meaning and Value in Media Culture (Routledge, 2006); Lionel Bently and Brad Sherman Intellectual Property Law 4th ed. (OUP Oxford 2014); Rita Clifton, Brands and Branding (2nd ed.) (Economist Books, 2009); Rosemary Coombe, The Cultural Life of Intellectual Properties (Duke UP, 1998); Graeme Dinwoodie and Mark Janis (eds.), Trade Mark Law and Theory: A Handbook of Contemporary Research (Edward Elgar, 2008), Paul du Gay and Michael Pryke, Cultural Economy: Cultural Analysis and Commercial Life (Sage, 2002), Jonathan Gabay, Brand Psychology: Consumer Perceptions, Corporate Reputations (Kogan Page, 2015), Martin Kornberger, Brand Society: How Brands Transform Management and Lifestyle (Cambridge University Press 2010), MPI, Study on the Overall Functioning of the European Trademark System (2011), Naomi Klein, No Logo. Taking Aim at the Brand Bullies (Flamingo, 2000); Celia Lury, Brands: The Logos of the Global Economy (Routledge, 2004); Liz Moor, The Rise of Brands (Berg, 2007), Alexander von Muhlendahl et al., Trade Mark Law in Europe (3rd ed.) (OUP, 2016); Ilanah Simon H frema, Trade Mark Dilution in Europe and the United States (OUP, 2011).

**Assessment:** Essay (100%, 8000 words) in the ST.

---

**LL4BT** Half Unit  

**Cultural Property and Heritage Law**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Tatiana Flessas NAB.5.15

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law, Anthropology and Society and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Intellectual Property Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

**Course content:** This course looks at cultural property and heritage law from legal, social theoretical and practice-oriented perspectives. It provides an overview of existing and emerging cultural property and heritage legislation (domestic and international). We will be looking in particular at the development of cultural property legislation in the 20th century and emerging international cultural property and heritage initiatives under the auspices of the UN and UNESCO. Topics to be covered include the origins of cultural property law, the problems in defining cultural property and heritage, current issues and cases in repatriation and restitution of cultural objects, the National Trust and other heritage protection regimes, and intangible cultural heritage. The course also addresses the creation and management of museums and heritage sites, primarily within the UK, but also including sites in North and South America, Europe and Asia. We consider how the issues that we’ve identified throughout the course arise in the ongoing construction, protection, and (primarily economic) uses of heritage. Along with specialist seminars, the course includes visits to museums and contact with practising experts in the field.

**Teaching:** 20 hours of seminars and 2 hours of seminars in the MT. 2 hours of seminars in the ST. Week 6 in the MT is a Reading Week.

**Formative coursework:** One 2,000 word essay or other type of formative assessment.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4BU  Half Unit**

**Art Law**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Tatiana Flessas NAB.5.15

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law, Anthropology and Society and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: Intellectual Property Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

**Course content:** This course engages in a discussion of specific cases and issues regarding acquisition, ownership, and restitution of works of art, and the problems that arise in regulating markets in art and cultural artefacts. We will look at domestic (UK and US) and international legislation regulating the art trade. Against this legislative background, the course examines important cases in disputes regarding commodification and sale of cultural goods, including the issues that arise in the operation of the art market (dealers, museums, collectors and auction houses). ‘Art Law’ is a specialized area of practice and an emerging area of theory and scholarship. We will look at some of the cases and theory of art and law, including the practices of dealers and auction houses in valuing (and mis-valuing) art for sale; the recent developments in addressing the restitution of art taken during the Nazi era; museum loans and the cross-border movement of art; the restoration and conservation debate(s) and then turn to a scholarly and interpretive approach to the issues that arise in considering the art market. We will also return to the questions that arise in dealer, auction house and museum policies more generally. Finally, practitioners in these areas, museum and auction house professionals, archaeologists, and art experts will be contributing to the seminars on the emerging legal issues in this area.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

**Week 6 in the LT is a Reading Week.**

**Formative coursework:** One 2,000 word essay.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4BV  Half Unit**

**Transnational Environmental Law**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Veerle Heyvaert NAB7.06

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Environmental Policy and Regulation, MSc in Regulation and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: European Law, Public International Law, Public Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

**Course content:** The course instructs students on key issues in environmental law and governance beyond the state. Through the study of recent developments in international environmental law, regional law (including EU law) and private environmental regulation, the course investigates how new transnational environmental laws are made, what the role is of science in environmental decision-making and dispute resolution, how transnational environmental law is implemented and enforced, and whether transnational corporations can be held accountable for environmental damage. The questions are illustrated through case studies relating to, among others, climate change, biodiversity protection and chemical risk control.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in week 6.

**Formative coursework:** One 2,000 word essay.

The students are given an opportunity to sit a mock exam at the end of MT.

**Indicative reading:** A detailed reading list will be provided for each seminar. The overwhelming majority of readings are electronically available as e-books or in e-journals. Essential reference works include the journal Transnational Environmental Law; Kingston, Heyvaert & Cavoski, European Environmental Law (CUP, 2017); Lee, EU Environmental Law, Governance and Decision-Making (2nd ed, Hat, 2014); Sands & Peel, Principles of International Environmental Law (3rd ed, CUP, 2012); Bodansky, The Art and Craft of International Environmental Law (2010, Harvard University Press); Bodansky, Brunnee & Hey, The Oxford Handbook of International Environmental Law (OUP, 2007); and the Stern Review Executive Summary (online).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4BW  Half Unit**

**Not available in 2018/19**

**Law and Political Thought**

This information is for the 2018/19 session.

**Teacher responsible:** Professor Thomas Poole

**Availability:** This course is available on the LLM (extended part-
time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou. This course will be relevant to the following LLM specialisms: Human Rights Law, Legal Theory and Public Law.

Pre-requisites: None.

Course content: This course examines the relationship between law and political theory. It does so through the study of classic texts of political thought: typically Hobbes, Leviathan, Rousseau, Social Contract; Burke, Reflections on the Revolution in France; Schmitt, Constitutional Theory; Oakeshott, On Human Conduct; Hayek, Law, Legislation and Liberty. In this way, the course deals with major topics of theoretical and juridical interest, such as the rule of law, liberalism and republicanism, cultural pluralism, theories of authority and legitimacy, revolution and the state, nationalism and cosmopolitanism.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST. There will be a reading week in week 6.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Indicative reading: The reading for the course consists of classic texts in political thought. Many are available online and the course is delivered through Moodle.

Assessment: Essay (100%, 8000 words) in the ST.

LL4BX  Half Unit  Not available in 2018/19

Corporate Governance - Advanced Topics

This information is for the 2018/19 session.

Teacher responsible: Dr Eva Micheler NAB735

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MPhil/PhD in Accounting, MSc in Accounting, Organisations and Institutions, MSc in Risk and Finance and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 60 students. Students must apply through Graduate Course Choice on LSE for You. This course will be relevant to the following specialism: Corporate and/or Commercial Law.

Course content: This course will focus on the corporate governance of companies. The course will be taught largely on a comparative basis, focussing on English and German law. We will also cover the relevant EU materials. The following topics will be discussed:

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: Students are asked to submit one 2,000 word essays.

Indicative reading: Reading will be prescribed for each seminar. Preliminary reading can be found in P Davies, Introduction to Company Law (ch 5-9, 2002); R Kraakman et al, The Anatomy of Corporate Law (2d ed 2009); A Cahn and D C Donald, Comparative Company Law: Text and Cases on the Laws Governing Corporations in Germany, the UK and the USA (2010); B Cheffins, Company Law: Theory, Structure and Operation (Parts I and III, 1997); M Roe, Political Determinants of Corporate Governance (2003); K Hopf et al, (Eds), Comparative Corporate Governance (1998); J Parkinson, Corporate Power and Responsibility (1993).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4C2  Half Unit

World Poverty and Human Rights

This information is for the 2018/19 session.

Teacher responsible: Dr Margot Salomon Law Department

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Development Studies, MSc in Global Politics, MSc in Human Rights, MSc in Inequalities and Social Science and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: Some knowledge of public international law is required.

Course content: This course examines world poverty and inequality in light of international law aimed at the protection of human rights. Drawing on rights and obligations, the course considers the duties of states and non-state actors and the ways in which they may be implicated in the deprivation which has 2.7 billion people concentrated in the South, and many in the North, unable to exercise even their minimum essential levels of human rights. The course is interested in studying conceptual, normative, and critical approaches to human rights today and will draw on literature that situates human rights and development in broader interdisciplinary contexts. It will explore the role of international actors and institutions that impact positively or negatively on human rights today, as well as examine the global developments and the application of legal standards to some areas of outstanding concern. Topics to be covered may include: Poverty as a human rights issue

- Human rights, economics, and development
- The right to development and claims against the public international order
- The scope, content and limits of the obligation of international cooperation
- Inequality and democracy
- The work of the UN Committee on Economic, Social and Cultural Rights
- Human rights and the World Bank, IMF, international trade, investment, and finance
- Interrogating the Sustainable Development Goals.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST. In 2015-16 this course will have two seminars every two weeks, instead of one seminar per week. Please see timetables for further details.

Formative coursework: Students will receive feedback on work completed during the course.

A detailed reading list will be issued at the first seminar.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4C5**  Half Unit

**Fundamentals of International Commercial Arbitration**

This information is for the 2018/19 session.

Teacher responsible: Dr Jan Kleinheisterkamp NAB 7.09

Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 60 students.

Course content: This course offers the fundamentals of international commercial arbitration, the most important dispute resolution method for international transactions. The course provides a complete introduction to the functioning of arbitration in theory and in practice. London being one of the main centres of arbitration in the world, this course focuses mainly on English arbitration law which is put into a comparative perspective and contrasted especially with the UNCITRAL Model Law on International Commercial Arbitration and French law. Special attention is given to the different types of rules that may have to be taken into consideration in an international arbitration. This course prepares for LL4C6 Advances Issues of International Commercial Arbitration and provides for some of the procedural basics for LL4E7 Investment Treaty Law.

Teaching: 20 hours of lectures and 5 hours of classes in the MT. 2 hours of lectures in the ST.

Reading week in week 6

Formative coursework: One 2,500 word essay after week 6 on previous exam questions (choice of 1 out of 3).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4CA**  Half Unit  Not available in 2018/19

**Law and Social Theory**

This information is for the 2018/19 session.

Teacher responsible: Dr Umberto-Igor Stramignoni NAB 7.34

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Criminal Justice Policy, MSc in Law, Anthropology and Society, MSc in Regulation and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. LLM Specialisms This course will be relevant to the following LLM specialism: Legal Theory

Course content: Social theory is rapidly evolving into a key cross-disciplinary field of inquiry exploring both philosophical analyses and social science descriptions about, in one important case, the place of law in modern societies. The focus of such an inquiry in this course is on the interplay of law and space. Often unexamined notions of “space” at the heart of some of today’s hottest debates, such as the politics of place, our engagement with nature, globalisation, and the city and its complexities. However, how does the law understand the link between itself and the space in which it operates? Does it understand it in the same way as do architects, urban planners, geographers, governments, policy makers, advocacy groups, or economists, for example, when speaking of the natural or the built environment, such as mountains, rivers, roads, airports, prisons, courthouses, or immigration detention centres? Moreover, do we

**LL4C6**  Half Unit

**Advanced Issues of International Commercial Arbitration**

This information is for the 2018/19 session.

Teacher responsible: Dr Jan Kleinheisterkamp NAB 7.09

Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 60 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: Students must have completed Fundamentals of International Commercial Arbitration (LL4C5).

Or a course on arbitration in previous studies or solid practical experience in the field.

Course content: This course aims at giving students who already are acquainted with the fundamentals of arbitration the possibility to go into depth into selected problems of international commercial arbitration. The course is based on student presentations and intense discussions of these problems in order to raise the sensitivity for the issues at stake. The course is highly relevant for those wanting to specialise in arbitration practice, as the theoretical problems have a significant impact on practical solutions. The course will treat a selection of topical contemporary issues of international commercial arbitration, such as the law applicable to arbitration agreements, the scope of the competence-competence principle, the role of internationally mandatory rules of law arbitration & insolvency, arbitration and fraud and corruption, or the enforcement of awards set aside abroad. The course seeks to be as topical as possible, so that content may change in the light of new developments.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in week 6

Formative coursework: One group presentation in the seminar and an essay of 2,500 words.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
understand space in the same way? What if bodily habits, traits of character, idioms, and abiding habits of thought, have a role in shaping our individual and collective sense of space? What would it mean to frame talk about space in terms of ‘dwelling’, for example, or ‘embodiment’, or ‘enplacement’, and so on? Could it be that the very attempt of making sense of law’s place in society is problematically caught up with a specific cultural heritage no longer necessarily able to unpick the full complexity of the topos of law, its visuality, or even its materiality? Put it simply, is space always and everywhere the same place, as Copernicus, Galileo, Newton, Bacon and Descartes once thought, or is it something potentially so diverse as to call for new ways of going about it and, from there, about the place of law in society?

In this course, we will survey several perspectives on the elusive spatiality of modernity, debating the extent to which we can continue to treat space as the impassive repository of human affairs portrayed by tradition. Could it be that, if law is everywhere in space, on an altogether different level space is – paradoxically though it might sound at first – everywhere in law?

**Teaching:** 22 hours of seminars in the LT.

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**LL4CB Half Unit**

Modern Legal History: Private Law and the Economy 1750-1950

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Michael Lobban

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Economic History, MSc in Economic History (Research), MSc in Law, Anthropology and Society, MSc in Regulation and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**LLM Specialisms** This course will be relevant to the following LLM specialisms: Legal Theory.

**Course content:** This course will examine how the common law aided or hindered economic growth in the era between 1750 and 1950, by focusing in particular on the development of doctrines of private law. The course will concentrate on a number of themes and topics. It will begin with a discussion of the nature of the common law, and the modes of common law reasoning, to establish what kind of legal system economic actors were dealing with. It will then look at the developing law of contract, to explore how far the ideology of ‘freedom of contract’ assisted growth. It will further explore the law relating to civil wrongs (including the law relating to compensation for accidents and pollution) and unjust enrichment (particularly in the context of business failures). It will also explore some specific topics, including the law relating to corporate enterprise, bankruptcy and insurance.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**There will be a reading week in week 6.**

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.

LL4CD  Half Unit  Not available in 2018/19

European Company Law

This information is for the 2018/19 session.

Teacher responsible: Mt Edmund-Philipp Schuster NAB 6.30

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting, MSc in Regulation and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You. This course will be relevant to the following LLM specialisms: Corporate and/or Commercial Law, Corporate and Securities Law; European Law.

Pre-requisites: There are no formal prerequisites, but some understanding of European law and EU law-making is of advantage.

Course content: This course will examine the EU harmonization programme for companies. It will analyse the framework of primary EU law within which companies and national legislators must operate (the Treaty provisions on the right of establishment and the free movement of capital), as well as secondary measures of EU law regulating companies and relevant soft law initiatives. The course will also deal with the most important European forms of company, notably the SE (Societas Europaea or European Company) and investigate the implications that corporate mobility within the EU has for regulating companies at the national level.

Topics include:
- EU company law harmonization programme
- 1st Company Law Directive: formation and disclosure
- Right of establishment: primary and secondary establishment, transfer of seat; jurisprudence of the European Court of Justice (in particular: Centros, Uberseerung, SEVIC, Cartesio, VALE)
- Free movement of capital: golden shares jurisprudence of the European Court of Justice, BAA, KPN/TPG, VW; proportionality principle in the EU
- 2nd Directive and capital structure: minimum capital; payment for shares; publicity; distributions; stock repurchase; increases in capital and capital reductions; serious loss of capital; case law interpreting the 2nd Directive; reform initiatives (e.g., SLIM Working Group)
- Corporate governance regulation in the EU: abandoned 5th Directive; Recommendation on the role of non-executive or supervisory directors of listed companies; remuneration policies; Shareholder Rights Directive
- European Company Law Forms: European company (SE) and European private company
- State of European company law harmonisation; potential for regulatory competition and regulatory arbitrage

Teaching: 20 hours of lectures in the MT. 2 hours of lectures in the ST.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4CE  Half Unit

Security and Criminal Law

This information is for the 2018/19 session.

Teacher responsible: Prof Peter Ramsay NAB 6.27

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Criminal Justice Policy and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: Undergraduate study of criminal law (or equivalent).

Course content: This is a course in advanced criminal law theory. The central concern of contemporary criminal justice policy is public protection. The course examines leading texts in Anglo-American criminal law theory in order to investigate the interests that are protected by the structure of the criminal law.

Seminars cover:
- the concept of security;
- the concept of criminal law;
- state punishment;
- the presumption of innocence;
- actus reus;
- criminal responsibility;
- criminal defences;
- public welfare offences;
- pre-emptive offences;
- security and human rights.

The reading materials for this course are primarily philosophical and theoretical. The course contrasts the different perspectives of moral and political theories of criminal justice and criminal law, and investigates what they tell us about the scope and limits of criminal law as a security system. The course therefore provides an introduction to normative criminal law theory in the common law world. At the same time, this introduction adopts an innovative approach to that theory by situating it in the context of the contemporary policy pressures on criminal law.

Each seminar consists of a student presentation on a key question, class discussion and a teacher presentation. There is a reading week in Week 6.

Teaching: 20 hours of seminars in the MT. There will be a Reading Week in week 6 of MT.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
LL4CF  Half Unit  Not available in 2018/19

UK Corporate Law
This information is for the 2018/19 session.
Teacher responsible: Prof. David Kershaw
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is not available as an outside option.
This course is capped at 60 students. This course will be relevant to the following LLM specialisms: Corporate and Securities Law; Corporate and/or Commercial Law
Course content: 1. The Evolution of the UK company. This session will address the evolution of the corporate form from the mid-19th century, and outline the partnership based conception of UK company. It will contrast the partnership conception with the corporate / entity conception. 2. Legal personality, formation and structure – considering the implications and function of separate legal personality and the scope to disregard the corporate veil; the process of formation; and the constitutional make-up of the company. 3. Corporate Actions – considering how the company acts in contract, tort and crime. 4. The distribution of power in a UK company – considering the location and contractual distribution of power in a UK corporation; the problem of separation of ownership and control / the agency problem; mandatory versus default rules; core mandatory rights: removal of directors and calling shareholder meetings. 5. Director’s duties I: the nature of duties; who owes them; to whom; the corporate objective; the duty to promote the success of the company. 6. Directors Duties II: the duty of care / business judgments, business process, monitoring, systems and controls, risk management. 7. Directors Duties III: the duty of loyalty (self-dealing transactions, corporate opportunities, competing with the company, bribes and commissions). 8. Company law and creditor protections – shareholder incentives to exploit creditors; the scope for unlimited liability, duties to creditors, wrongful trading. 9. Derivative Actions: the rule in Foss v Harbottle; the new derivative action mechanism; indemnity orders and contingency fees; reflective loss. 10. Minority shareholder protections – common law restraints on the exercise of majority shareholder power and influence; statutory constraints on the exercise of such power and influence (122(g) Insolvency Act 1986 and section 994 Companies Act 2006)
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
Assessment: Exam (100%, duration: 2 hours, reading time: 30 minutes) in the summer exam period.

LL4CG  Half Unit

Understanding Tax Law and Policy
This information is for the 2018/19 session.
Teacher responsible: Dr Ian Roxan NAB 7.25 and Mr Eduardo Baistrocchi NAB 7.33
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is required for the following LLM specialism: Taxation. NB: the monthly Taxation Seminars are available to all with an interest in taxation including LLM and MSc students. Students wishing to attend the Taxation Seminars are very welcome. For more information, see the Law Department or LSE Financial Markets Group web pages.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites: Students will be expected to be taking other tax courses or to have a good background in taxation.
Course content: Taxation is fundamental to modern government and is pervasive in society. Lawyers in many fields have to be aware of the impact of taxation on their work, and tax lawyers have to consider the operation of tax law in many fields: corporate and commercial law, family law, labour and employment law, law of wills and trusts, environmental law, intellectual property law and law relating to the digital economy. In addition, as taxpayers seek to minimise their tax burdens, whether legally or by less than legal means, tax law becomes more complex in response. How can tax lawyers better understand tax law so that they can apply it with sophistication and creativity for their clients, whether private clients or governments? How can those interested in tax policy achieve social goals effectively through tax law?
This course will explore the key principles of tax policy, and different perspectives through which tax law and policy can be understood, such as law itself, economics, economic analysis of law, politics, sociology and anthropology. Seminars discussing these principles and perspectives will be integrated with the monthly LSE Taxation Seminars during the Michaelmas Term, which will provide students with direct exposure to leading speakers from a wide range of backgrounds on current debates in taxation. The LSE Taxation Seminars series, established since the 1960s, brings together a wide variety of participants, including lawyers, economists, accountants and government officials. The Seminars provide an important forum for topical discussion on taxation. This course will give students the opportunity to participate actively in the Taxation Seminars and to link insights from them to the methods of understanding tax law and policy studied in the course.
Teaching: 22 hours of seminars in the MT. 2 hours of seminars in the ST.
Weekly two-hour seminars in the Michaelmas Term in a variable format, including seminar-discussions and monthly Taxation Seminars attended by a range of tax professionals. 1 X 2 hour seminar in the ST.
There will be a reading week in Week 6 of the MT.
Formative coursework: Students are expected to submit one 2,000-word formative essay.
Detailed reading lists will be provided during the course via Moodle.
Assessment: Essay (100%, 4000 words).
LL4CH  Half Unit
Current Issues in Taxation
This information is for the 2018/19 session.
Teacher responsible: Dr Ian Roxan
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites: Students should be familiar with the UK tax system, or have working knowledge of another system of business taxation, and otherwise should take LL4Z1 Business Taxation.
Course content: The course examines the principles governing the taxation of corporate and other business transactions. The course will take a comparative approach to examining the business tax systems of the United Kingdom and other countries. The main tax system studied will be that of the United Kingdom (primarily corporation tax together with income tax and capital gains tax), but the tax systems of the United States will also be examined and typically that of Germany or another country as well. This course will introduce the national tax systems being studied and provide an in-depth look at a key advanced topic central to corporate taxation, such as the treatment of shares, the treatment of groups of companies, or the taxation of corporate finance.
Teaching: 20 hours of seminars in the MT.
10 weekly two-hour seminars in the Michaelmas Term, including seminars led by national tax experts. 2 hours of seminars in the ST.
There will be a reading week in Week 6 of the MT.
Formative coursework: Students are expected to submit a group assignment on a major part of the course, with the option of submitting a 2,000-word formative essay, or to submit an equivalent assignment during the course.
Detailed reading lists will be provided during the course via Moodle. Recommended preliminary reading: Hugh Ault et al, Comparative Income Taxation (Kluwer Law International 3rd ed. 2010).
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
An OPEN BOOK examination. Candidates will be permitted to take into the examination room any written material they wish.

LL4CJ  Half Unit
Comparative Corporate Taxation
This information is for the 2018/19 session.
Teacher responsible: Dr Ian Roxan
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course will be relevant to the following LLM specialisms: Corporate and/or Commercial Law; International Business Law; Taxation.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites: Students must have completed Comparative Corporate Taxation (LL4CJ).
Students must have completed Comparative Corporate Taxation (LL4CJ) or have permission of the course convenor.
Students should be familiar with the UK tax system, or have
working knowledge of another system of business taxation. Otherwise, students should take LL4Z1 Business Taxation beforehand.

Course content: The course examines the principles governing the taxation of corporate and other business transactions. The course will take a comparative approach to examining the business tax systems of the United Kingdom and other countries. The main tax system studied will be that of the United Kingdom (primarily corporation tax together with income tax and capital gains tax), but the tax system of the United States will also be examined and typically that of Germany or another country as well. Continuing on from the topics studied in LL4CJ, this course will look in-depth at a number of key advanced topics that are central to corporate taxation, such as the treatment of shares, the taxation of corporate finance, the treatment of groups of companies, and the taxation of corporate reorganisations (broadly defined).

Teaching: 20 hours of lectures in the LT. 2 hours of lectures in the ST. 10 weekly two-hour seminars in the Lent Term, including seminars led by national tax experts. 2 hours of seminars in the ST. There will be a reading week in Week 6 of the LT.

Formative coursework: Students are expected to submit a group assignment on a major part of the course, with the option of submitting a 2,000-word formative essay, or to submit an equivalent assignment during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period. An OPEN BOOK examination. Candidates will be permitted to take into the examination room any written material they wish.

LL4CM Half Unit Not available in 2018/19
Law in the Economy

This information is for the 2018/19 session.
Teacher responsible: Prof Andrew Lang NAB6.19
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting, MSc in Law, Anthropology and Society, MSc in Regulation and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Legal regimes of market regulation are based on particular ideas about the nature of ‘markets’: what markets are, how they arise, what forms they take, and what dynamics they exhibit. As our ideas about the nature of markets have evolved over the course of the last two centuries, the way we govern the market through law has evolved with them. In the period since the global financial crisis of 2007, we are currently living through another period of ideational change, as mainstream ways of thinking about markets have been discredited and policy-makers look explicitly for new and better ways of understanding how markets work and what they are.

The aim of this course is to enable students to engage with this intellectual moment, by introducing them in a systematic way to the major competing traditions of thought about the nature of markets, with particular attention to the question of the relationship between markets and law, and the proper purposes to which law should be deployed in economic life. In what sense are markets ‘spontaneous’ social forms, and to what extent do they rely on the prior creation of complex legal and other institutions? Are economic actors naturally ‘rational’ or do they have to be taught to be rational, and if so how? What is the role of social networks and social norms in shaping the dynamics of markets, and what can that teach us about the proper forms of law in the market?

Students will be introduced to a wide variety of economic schools of thought from the early 20th century onwards, including mainstream neoclassical economics, behavioural economics, institutional economics, new institutional economics, as well as varieties of economic sociology and economic anthropology. We will consider the reception of these schools of thought within legal scholarship, from the legal realists, to law and economics. The focus will be on canonical texts from across the spectrum, drawing from writers such as Hayek, Polanyi, Friedman, North, Bourdieu, Foucault, Hale, Veblen, Knight, Callof and many others. The course will therefore involve close engagement with core theoretical texts, but care will be taken to ground the discussion of such texts with illustrations taken from contemporary spheres of regulation. These

LL4CL Half Unit
Explaining Punishment: Philosophy, Political Economy, Sociology

This information is for the 2018/19 session.
Teacher responsible: Prof Peter Ramsay NAB 6.27
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Criminal Justice Policy, MSc in Social Policy (Research) and University of Pennsylvania Law School LLM Visiting Students. This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course aims to provide students with a comprehensive overview of the theories that explain the practice of punishment, a practice that defines the criminal law. It will do this by introducing students to philosophical, sociological, political economy and comparative approaches to punishment. It will involve the discussion of all the major philosophical justifications and critiques of state punishment, and sociological and political economy explanations and critiques of punishment. After an introduction discussing the different approaches to punishment, three seminars will discuss the classical philosophical justifications of punishment and a fourth the contemporary critiques of those classical approaches. Seminars 5 and 6 will discuss punishment from the perspective of sociology and political economy. Seminar 7 will consider comparative approaches to punishment. Seminars 8 and 9 will look at two key aspect of the sociology of punishment, punishment as a cultural phenomenon and punishment as an exercise of power and authority. The final seminar considers the relationship between these different perspectives.

Teaching: 20 hours of seminars in the MT. There will be a Reading Week in week 6 of the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading:
• B Hudson, Understanding Justice (Open University Press 2003)
• J Simon and R Sparks (eds), The Sage Handbook of Punishment and Society (Sage 2013)
• D Garland, Punishment and Modern Society: A Study in Social Theory (Oxford University Press 1990)

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
are likely to change from year to year.  

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in week 6.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4CN Half Unit Not available in 2018/19**

**New Technologies in Law and the Body**

This information is for the 2018/19 session.  

**Teacher responsible:** Dr Tatiana Flessas NAB 7.27  
Additional Teacher(s): Professor Emily Jackson, NAB 7.10

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law, Anthropology and Society and University of Pennsylvania Law School LLM Visiting Students.  
This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.  
For the LLM (Specialisms: Legal Theory)

**Course content:** The course addresses the interrelation of law, technology and the ‘body’. Within the broad categories of ‘Beginnings’, ‘Bodies’ and ‘Endings’, we look at emerging medical technologies and their effect on social and theoretical conceptions of the body and its capacities.

1. Introduction (Professor Emily Jackson; Dr Tatiana Flessas)  
   - Beginnings:  
   - Assisted Conception;  
   - Fertility Markets;  
   - Surrogacy.

2. Bodies:  
   - Regulating Obesity;  
   - Enhancements;  
   - Gender and the Body.

3. Endings:  
   - Incapacity;  
   - Law in the Neonatal Intensive Care Unit;  
   - Assisted Dying.

**Teaching:** 20 hours of seminars in the MT.  
There will be a Reading Week in week 6 of MT.

**Formative coursework:** Students are invited to submit one 2,000 word essay.

**Indicative reading:** A detailed reading list will be provided.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4CO Half Unit**

**Taxation of Wealth**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Andrew Summers NAB 6.02

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Inequalities and Social Science, MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students.  
This course is available with permission as an outside option to students on other programmes where regulations permit.

Students must apply through Graduate Course Choice on LSE for You.

**Pre-requisites:**  
This course is suitable for students who have not previously studied taxation. Some prior familiarity with principles of tax design is advantageous but not essential.

**Course content:** The course examines the taxation of wealth from a variety of interdisciplinary perspectives, drawing on research from political theory, economics, sociology and law. The main aims of the course are to explain why taxes on transfers, returns and holdings of wealth currently play a relatively minor role in most tax systems (compared, for example, with taxes on labour income and consumption), and to evaluate the options for taxing wealth. The focus is on the UK and US contexts although comparisons are also made with other jurisdictions.

Part I of the course introduces key debates from across the social sciences relevant to the taxation of wealth. Seminars 1-5 cover:  
(i) defining and measuring wealth;  
(ii) inequality and distributive justice;  
(iii) property rights;  
(iv) economic perspectives;  
(v) social and political perspectives. Part II applies these debates to specific wealth tax policies. Seminars 6-10 cover:  
(i) taxes on transfers: inheritance or estate tax, gift tax, comprehensive income tax;  
(ii) taxes on returns: capital gains tax, capital income tax and (iii) taxes on holdings: property tax, land-value tax, annual wealth tax.

**Teaching:** 20 hours of seminars in the MT.  
There will be a reading week in Week 6 MT.

**Formative coursework:** Students will receive formative feedback on two essay-plans (comprising 300-word abstract, outline of subheadings, and bibliography) based on past or sample summative essay titles.

**Assessment:** Essay (50%, 3000 words) and essay (50%, 3000 words) in the ST.

For each essay, students will choose a title from a set of options published at the end of the MT.

---

**LL4CP Half Unit**

**Tax Avoidance**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Michael Blackwell (NAB 7.30)

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS),
LL4CQ Half Unit
Legal Aspects of Private Equity and Venture Capital

This information is for the 2018/19 session.
Teacher responsible: Ms Sarah Paterson New Academic Building 6.06 and Dr Simon Witney NIA
Sarah Paterson and Simon Witney will co-teach this course.
Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course will equip students with a detailed understanding of the legal structures and issues arising in international private equity and venture capital. It is founded on deep academic analysis of pertinent theoretical and legal issues complemented by insights from relevant practitioners. It will have a pan-EU focus, but with comparative global perspectives.
Class 1: Introduction to private equity and venture capital
This introductory session will include a critical discussion of the academic research suggesting that private equity outperforms other asset classes.
Optional practitioner talk: “Why we invest in private equity: a leading UK investor explains the attraction of the asset class”
Class 2: Fund structures: the limited partnership and other international structures
This class looks at the structures adopted, and the reasons why, with particular emphasis on the legal, tax and regulatory characteristics of limited partnerships.
Class 3: Management vehicles and the UK LLP
This class will look at the objectives in structuring the management entity for the fund, with a particular emphasis on the legal and tax characteristics of LLPs, including the UK LLP Act and recent case law.
Class 4: Private equity fund (and manager) regulation
This session looks at UK and EU regulatory initiatives, and critically evaluates the provisions of the Alternative Investment Fund Managers Directive which affect private equity funds.
Class 5: Venture capital investments
Starting from a theoretical perspective, we will analyse the terms of a typical venture capital investment into a portfolio company by reference to example documents. We will also examine various aspects of contract and company law which have particular relevance to VC structures.
Class 6: The VC deal: feedback from a practitioner
This week the students will discuss the key points arising from a venture capital investment case study with a leading VC lawyer. We will focus on key points which have a legal as well as a commercial aspect, and connect these to the theoretical discussions in Class 5.
Class 7: The leveraged buyout: corporate governance issues
This class will examine the structure of a buyout and how it differs from a VC investment. We will focus on pertinent company law rules and academic corporate governance theory.
Class 8: Financing
This will look at the leveraged finance model, advantages of leverage, the LMA Leveraged Loan Agreement, High Yield Bonds, the Inter-creditor Agreement and “covenant-lite” and incurrence covenants.
Optional lunchtime talk: “The anatomy of a buyout deal: a leading private equity lawyer talks about a recent high profile deal.”
Class 9: Distress
Discussions on the implications of distress for the PE firm, valuation, the new money decision, the role of the inter-creditor agreement and the PE firm as the loan-to-own investor.
Optional practitioner talk: “Case study of a recent buyout deal: the general counsel from a leading private equity firm explains key issues arising on a recent transaction.”
Class 10: This week we will analyse a suite of leveraged loan deal documentation for a typical private equity buyout. Students will be provided with a fact pattern and asked to apply the theory that they have studied in weeks 8 and 9 to the deal documentation.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
The course will consist of 10 x 2 hour seminars in LT, together with a revision class in ST. There will be a reading week in Week 6. There will also be optional talks by practitioners which students may choose to attend, but which will not be examined.

Formative coursework: A formative essay will be due in Week 7 and detailed feedback will be provided shortly after. The essay will have a word limit of 1,500 and will provide invaluable preparation for the summative assessment.

Indicative reading: Example core readings:
- Witney, S., Private Equity Finance and Buyouts, in Dunne, P., (ed). Company Acquisitions Handbook (Tottel Publishing Ltd, 2007), p. 651. Additional weekly readings will be provided to the students at the beginning of the course.

Assessment: Take home exam (100%) in the ST.
Students will be given a period of time in which to complete and return a take home exam, with penalties for late submission.
Students will be asked to complete 2 questions from a possible 6 (with a requirement to choose one question from Part 1 and one question from Part 2) and each answer will be limited to 1,500 words, with penalties for exceeding the word limits. For more information regarding penalties, please refer to the LLM Handbook.

---

LL4E6   Half Unit
International Dispute Resolution: Courts and Tribunals

This information is for the 2018/19 session.
Teacher responsible: Dr Devika Hovell NAB6.32
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites: Some prior knowledge of international law is useful but not essential.
Course content: Increasingly, international law is developed, applied and amended through litigation in international, regional and domestic courts. Richard Goldstone, former Prosecutor of the Yugoslav Tribunal, has gone so far as to say, ‘it seems to me that if you don’t have international tribunals, you might as well not have international law’. In this course, we examine key courts and tribunals operating on the world stage, including the International Court of Justice, the International Criminal Court, the European Court of Human Rights and the WTO Dispute Settlement Body. We look at the theory, politics and practical difficulties of international dispute resolution in these courts.
The course has practical and theoretical aspects. For those interested in a career in international law, we will have the opportunity to hear from a range of interesting and eminent practitioners currently working in the courts and tribunals we study. Interested students can engage in a ‘mini¬ moot before our guest speakers, providing an opportunity to hone their advocacy skills.

The theoretical dimension of the course involves three main elements:
1. First, the course examines the structure and work of the International Court of Justice, the principal judicial organ of the United Nations, focusing on jurisdiction/admissibility, contentious cases and advisory opinions.
2. Secondly, the course introduces a variety of other international courts and tribunals, such as the International Criminal Court, domestic and regional courts dealing with international law and human rights, including the European Court of Human Rights and the European Court of Justice, the WTO Dispute Settlement Body and investment treaty arbitral tribunals. Using contemporary and controversial case studies, the course will critically analyze and contrast the institutional design and jurisdiction of these courts and tribunals.
3. Thirdly, throughout the course we explore key theoretical controversies surrounding the adjudication of international law, focusing in particular on (a) how these courts and tribunals relate to one another (hierarchy, specialization and fragmentation); (b) what criteria should be used in assessing the legitimacy and effectiveness of these courts and tribunals; and (c) whether and how these courts and tribunals create international law.
Teaching: 20 hours of lectures in the MT. 2 hours of lectures in the ST.
There will be a reading week in Week 6 of Michaelmas term.

Formative coursework: Students are asked to choose from EITHER an oral moot presentation and written submissions OR one 2,000 word formative essay

---

LL4E7   Half Unit
Investment Treaty Law

This information is for the 2018/19 session.
Teacher responsible: Mr Christopher Thomas NAB7.18 and Dr Jan Kleinheisterkamp NAB7.09
Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: The aim of the course is to introduce students to international investment law and dispute settlement, the latter emphasizing developments in investment treaty arbitration. The course focuses on the public international law rules and institutions that govern investments and investment treaty disputes. The course has four components: (1) the historical, theoretical and policy background behind investment treaties and dispute settlement by arbitration; (2) the rules governing jurisdiction and admissibility of investor-state arbitration cases; (3) the substantive principles and standards - such as national
LL4E8 Not available in 2018/19
Law in Society: A Joint Course in Law and Anthropology

This information is for the 2018/19 session.
Teacher responsible: Prof Robert Pottage NAB 7.21
Availability: This course is compulsory on the MSc in Law, Anthropology and Society. This course is available on the LLM (extended part-time), LLM (full-time), MSc in Human Rights, MSc in Regulation and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course offers a foundation in those elements of anthropological and social theory essential to an understanding of law in society. This course draws on anthropological themes and texts to develop an innovative perspective on contemporary legal norms and institutions. It aims to document legal institutions and practices as concrete ethnocultural phenomena, focusing on the techniques of writing and documentation, the legal production of persons and things, and the legal framing of institutions. It combines abstract social theory with concrete ethnographic method in the study of ritual, kinship, property and communicative technologies in formal law. The course may include the following topics: Law, anthropology, and the production of the social: an introduction to the links between legal and anthropological scholarship, exploring juridical concepts of power, agency and social personality and anthropology's models of society. Legal and political ritual: selected theoretical analyses of modern legal ritual examined against the background of anthropological debates concerning the general nature of ritual; The communication of power in writing: the representation and construction of social institutions in administration; Legal time and evidence: ethnographic analysis of narrative, evidence and proof in different legal cultures; Persons and things: legal forms of personification and objectification in systems of ownership and inheritance, with particular attention to the law governing reproductive resources; Legal collectivities, the modern corporation and its others: ethnographies of the social and legal construction of collective agency; The uses of anthropology in law and politics: the role of anthropology in contemporary contests over indigenous title, cultural property, common property resources, and alternative dispute resolution.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 4 hours of seminars in the ST.
There will be a reading week in week 6 of MT.
Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL4E9 Not available in 2018/19
Dissertation: MSc Law, Anthropology and Society

This information is for the 2018/19 session.
Teacher responsible: Prof Robert Pottage NAB 7.21
Availability: This course is compulsory on the MSc in Law, Anthropology and Society. This course is not available as an outside option.
Course content: Topics to be determined in consultation with programme teachers.
Teaching: 20 hours of seminars in the LT. Dissertation meetings with programme teachers
Assessment: Dissertation (100%, 10000 words) post-summer term.

LL4F1 Half Unit Not available in 2018/19
Secured Financing in Commercial Transactions

This information is for the 2018/19 session.
Teacher responsible: Prof Michael Bridge NAB 6.21
Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: An examination of the proprietary and security aspects of commercial transactions. This course considers the significance of property and the special protection the law affords to proprietary interests (mainly in movable property). It examines various types of commercial transactions involving the transfer of property, the use of property, the taking of security and certain quasi-security transactions having a similar effect to security. It explores the different types of security and other transactions that may be available in the context of various types of asset, as well as priority issues when there are conflicting interests. The course will also consider proposals for reforming the law and alternative approaches that might be taken. The course is based upon the principles of English law but reference may also be made to other systems of law and to international initiatives sponsored by Unidroit and UNCITRAL.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST. There will be a reading week in week 6 of MT.
Indicative reading: A detailed reading list will be distributed during the course. For preliminary reading on the basic principles see M Bridge, Personal Property Law (3rd Edn.) (especially chapters 6-7); M Bridge, The English Law of Real Security [2002] European

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

One two-hour open book examination paper.

---

**LL4F2**  
**Half Unit**  
**The Law and Practice of International Finance**

This information is for the 2018/19 session.

**Teacher responsible:** Dr. Joanne Braithwaite NAB7.28

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 90 students. Students must apply through Graduate Course Choice on LSEforYou.

**Course content:** LL4F2 examines the legal issues which arise in international financial markets based in London. This course looks at various types of financial transactions and structures which are widely used in the financial markets, such as derivatives and syndicated loans. We make reference to certain sets of trade association drafted terms throughout the course. With an emphasis on private law, the course considers the relevant legal, commercial and regulatory background and the risks and protections available to participants in the global financial markets. The course is based upon an analysis of the relevant issues under English law with some reference to other systems for comparative purposes. The subject matter ties in well with the LLM evening seminars in financial and corporate law. The course will be underpinned by discussion of the legal principles involved in international finance, but the case studies referenced will be topical. In this sense, the content of the course will be adapted to the fast moving developments affecting international markets in capital and in risk (for example, in recent sessions the course has examined the legal basis of prime brokerage relationships, the related Lehman Brothers litigation and the ongoing regulatory reform of the OTC derivatives markets, including the new requirement of mandatory CCP clearing, triggered by the G20 statement in 2009).

**Teaching:** 20 hours of lectures and 5 hours of seminars in the LT. 2 hours of lectures in the ST.

There will be a teaching week in week 6 of LT.

**Formative coursework:** Students will be asked to submit one essay, which may be completed in exam conditions. The course also involves group presentations and other classwork.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4F3**  
**Half Unit**  
**Mergers, Acquisitions and Restructurings in Europe**

This information is for the 2018/19 session.

**Teacher responsible:** Mr Edmund-Philipp Schuster NAB6.30

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 60 students. Students must apply through Graduate Course Choice on LSEforYou.

**Course content:** This course will look at the regulation of the market for corporate control in the United Kingdom and the United States. The course focuses in particular on the regulation of the bid process and takeover defence regulation in the UK and the US.
For a full topic and reading list, see the Moodle web site. 

Teaching: 20 hours of seminars in the MT; 2 hours of seminars in the ST.

There will be a Reading Week in week 6 of MT.

Formative coursework: 1,500 word essay.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4F9 Half Unit  
Legal Research and Writing Skills

This information is for the 2018/19 session.

Availability: This course is compulsory on the LLM (extended part-time) and LLM (full-time). This course is not available as an outside option.

Course content: This course on Legal Research and Writing has a taught component focusing on research and writing skills and a stand-alone dissertation (details about which may be found in the LLM Handbook), to be written in a substantive law area of the student’s choice. 

The two components will be carefully integrated. Over the taught part of the course, students should gain a better understanding of: 

- the nature of research in general; the distinctive features of legal research and the range of questions and research methodologies to be found within legal scholarship; 
- how to conduct legal research, including research design, refining a research question, resource identification and searching for relevant materials; legal referencing and citation skills; 
- how to develop legal writing skills, relating to both the process of writing, as well as the end-product; integrating a literature review, and presenting findings to a scholarly audience, etc.

Topics for the lectures will be: (1) Choosing your dissertation topic; (2) Research methods; (3) Writing skills; (4) Library skills, referencing and plagiarism.

The two tutorials will have a small group format (usually 4-5 students in each tutorial) and will focus on: (1) developing your research proposal; and (2) writing skills. One of the aims of the tutorials will be to prepare students for their dissertation supervision with faculty members.

The course will also offer the opportunity to participate in workshops. For example, there are skills sessions run by the LSE Library designed for students on this course to develop their legal research skills and awareness of the resources on offer in the LSE Library and beyond. The course also links in closely to the programme of workshops and events offered by the LSE Life centre, and the most relevant of these support sessions will be referenced on this course.

Teaching: 20 hours of seminars in the MT; 2 hours of seminars in the ST.

Other Workshops and drop-in sessions may be advertised during the course.

Formative coursework: Students will be invited to prepare a short writing samples and dissertation plans, etc., for their tutorials.

Assessment: Dissertation (100%, 10000 words) post-summer term. See the LLM handbook for full details and regulations about the dissertation.

LL4G8 Half Unit  
Law of Corporate Finance

This information is for the 2018/19 session.

Teacher responsible: Prof Michael Bridge NAB6.21

Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 20 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: The course examines the private law rules governing how companies raise finance. The issues covered include e.g. capital structures, identifying and protecting shareholder rights, issuing shares and debt, initial capital and alternatives, dividends, reduction of capital and share buy-backs, property rights in shares, and insider dealing and market manipulation.

Teaching: 20 hours of lectures and 4 hours of seminars in the MT; 2 hours of lectures in the ST.

Formative coursework: Students will have the opportunity to write a formative essay for each of the classes. All students are strongly encouraged to write at least one essay.
**LL4H2** Half Unit

**Media Law: Regulating Publication**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Andrew Scott NAB6.25

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Media and Communications (Media and Communications Governance) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course examines the legal and administrative regulation of mass media publication (principally the press, the broadcast media, and institutionalised Internet publication). The course is introduced with consideration of a number of themes that underpin the rest of the syllabus: the role(s) of the media in society (including conceptions of the 'public interest'); the main social, technological and regulatory influences that shape media publication practise, and rights jurisprudence (in particular, the freedom of expression and freedom of the press in national and international law). The course then examines potential restrictions on publication that are aimed at promoting or preserving specific private and/or public interests. The key private interests considered are those in reputation (defamation), privacy, and confidentiality. The key public interests considered are the integrity of the judicial process and reporting restrictions), the impartiality of political representations, the avoidance of offence (obscenity and religion), and national security.

**Teaching:** 20 hours of seminars in the MT. There will be a reading week in week 6. 10 weekly two-hour seminars in MT. The course is also supported by a series of specialist seminars with outside speakers, and by an online discussion forum.

**Formative coursework:** Students must submit an essay plan and working bibliography for the assessed essay. All students are expected to contribute to a series of class and online exercises, and to submit one 1,500 word formative essay.

**Indicative reading:** Supporting texts for the course include Millar and Scott, Newspapers: Law, Regulation and the Public Interest (Oxford University Press, 2016); Leveson, An Inquiry Into the Culture, Practices and Ethics of the Press: Report, HC 780, 2012, Warby, Moreham and Christie (eds), Tugendhat and Christie: The Law of Privacy and the Media, (3rd ed, OUP, 2015), Flat Earth News (Chatto & Windus, 2008); de Burgh, Investigative Journalism (Routledge, 2nd ed, 2008). Many of these and other materials relevant to the course are made available via the BLPES electronic resources or online.

**Assessment:** Essay (100%, 8000 words) in the ST.

---

**LL4H4** Half Unit

**International Financial Law**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Philipp Paech NAB7.05

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 60 on a 'first come first served' basis.

**Course content:** The traditional financial market sectors of insurance, commercial banking, derivatives, capital markets and asset management are converging in practice, but their academic analysis is still largely sector-based. This course offers a cross-sectoral, functional analysis, permitting students to grasp the big picture. It highlights certain anomalies in differing legal treatment of the respective sectors, and considers key trends. The course provides an overview of the substantive law aspects (UK, EU and international) of international financial and business transactions. The focus is mainly on broad principles and policy issues rather than a detailed examination of statute, case law and drafting. However, where appropriate, legal concepts and market practice will be explained by reference to case law and other legal sources. The course is designed to be as topical as possible, and the content may change in the light of developments. While the precise topics covered will vary from year to year they typically will include the following:

- Introduction:
  - Logic and players of the financial market
  - Overview of types of financial transactions
  - Reasoning and sources of financial law and regulation
The types of risk and the role of financial law
- European and global legal and regulatory architecture
- Raising capital: taking risk through funded positions
  - The nature of banks, deposit taking, loans, syndicated loans
  - Issuance of debt securities, eurobonds and equity
  - Investment funds
  - Cross-comparison of funded positions, common patterns and differences
- Mitigating financial risk: simple financial positions
  - Guarantee and insurance
  - Derivatives and credit default swaps
  - Structured finance, securitisation
  - Cross-comparison and the risk of recharacterisation
- Mitigating financial risk through net and asset-backed positions
  - Set-off and netting
  - Security interests, quasi-security and financial collateral
  - Insolvency policy and preferential treatment of financial firms
- Cross-jurisdictional analysis
  - Private international law analysis in financial law
  - Example 1: intermediated securities and cross-border collateral
  - Example 2: cross-jurisdictional netting
  - Common patterns and difficulties

Teaching: 20 hours of lectures and 5 hours of seminars in the MT. 2 hours of lectures in the ST.

The course will comprise a two hour weekly lecture in MT and small group follow-up seminars in weeks 3,5,7,9 and 11. There will be a Reading Week in week 6 of the MT. There will be a revision lecture in ST.

Formative coursework: Students will be asked to submit a 2,000 word essay during LT. A voluntary mock exam is also offered.

Indicative reading: A detailed reading list will be made available on Moodle prior to teaching.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Assessment is by closed book written examination. The exam is two hours plus 15 minutes reading time.

LL4H7 Half Unit Not available in 2018/19

Foundations of Legal Theory

This information is for the 2018/19 session.

Teacher responsible: Ms Anne Barron NAB6.05

Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Legal Theory.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Pre-requisites: None

Course content: Drawing on major themes of modern European philosophy, this course re-frames the questions that have been taken as defining jurisprudential inquiry. What accounts for the foundations of legal orders and their durability across space and time? How and why do legal norms change? What explains the normativity of law? What is the connection between sovereignty and legal validity? Is there a connection between democracy and legal validity? Is it part of the definition of a legal norm’s validity that it advances morality or the common good? Is it part of law’s essence that it institutionalizes individual rights, and if so, which ones? Throughout, these questions are addressed in relation to the philosophical tradition that links Kant, Hegel and Habermas; hence the focus of the course is on how, and how far, modern law enables the realisation of the ideals of autonomy and mutual recognition.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4H8 Half Unit

Employment Law

This information is for the 2018/19 session.

Teacher responsible: Dr Astrid Sanders

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Inequalities and Social Science, MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

Course content: Regulation of the content and the form of the employment relation. The contract of employment, including express and implied terms and the scope of employment law. Regulation of minimum wage and working time. Protection against discrimination in the workplace. Discipline and protection from dismissal and termination of employment. Business reorganisation and Force: Essays on Kant’s Legal Philosophy (Hart, 2017); Allen Wood, Hegel’s Ethical Thought (Cambridge University Press, 1990).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

2018/19
LL4H9  Half Unit
Human Rights in the Workplace
This information is for the 2018/19 session.
Teacher responsible: Dr Astrid Sanders
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Human Rights, MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: The sources and application of human rights in the workplace, including international and European laws and conventions. Civil liberties of employees. Social and economic rights of workers. Protection from discrimination in the labour market and employment. As well as detailed examination of legal materials, the approach involves discussion of theories of human rights and comparisons between legal systems.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
Formative coursework: One 2,000 word essay and one presentation.
Indicative reading: A detailed syllabus of weekly readings will be available and the materials can all be accessed through Moodle Preliminary reading: Hugh Collins, Employment Law, 2nd edn (Oxford University Press, 2010), Chapters 9-10.
Assessment: Essay (100%, 8000 words) in the ST.

LL4J1  Half Unit  Not available in 2018/19
Critical Perspectives on Legal Theory
This information is for the 2018/19 session.
Teacher responsible: Ms Anne Barron NAB6.05
Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: Legal Theory. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites: Students must have completed LL4H7 (Foundations of Legal Theory) unless exempted from this requirement by the course convenor.
Course content: The aim of this course is to consider aspects of the phenomenon of law that have arguably been insulated from critical scrutiny by traditional jurisprudence. The questions structuring the seminars will accordingly include the following: What are the material conditions for law’s existence as a putatively legitimate structure of authoritative norms? What are the connections between law and other modalities of power that are not encoded in the form of sovereignty? What is the relationship between law and violence? What is the relationship between law and freedom? Are the forms of subjectivity and mutual recognition institutionalized by the legal order always linked with emancipatory social change, or can they also be complicit with processes of domination and exploitation? Is law necessary for individual and collective self-determination? These questions are approached from a variety of critical perspectives, including Marxist, post-Marxist, post-structuralist, and post-colonialist perspectives. Accordingly, the course will encourage reflection on the normative grounds for social criticism generally, and in particular on the role that ideas of progress and emancipation can or should play in a critical legal theory.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.
There will be a reading week in week 6.
Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4K4  Half Unit
The International Law of Self-Determination
This information is for the 2018/19 session.
Teacher responsible: Dr James Irving
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Human Rights and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites: Some prior knowledge of international law is useful but not essential.
Course content: This course will provide a general introduction to the doctrine of self-determination in international law. Self-determination will be historically contextualised from its intellectual progenitors in the Enlightenment through to its political birth at the 1919 Paris Peace Conference and its formal induction into international law by virtue of the 1945 UN Charter. Both the detail of the doctrine’s content and the dynamic governing its development will be explored. The relationship between self-determination and state formation (including decolonisation and secession), minority rights, aboriginal rights, women’s rights and the nascent right to democratic governance will be central topics. Reference will also be made to the interplay between self-determination and economic rights, including permanent sovereignty over natural resources, the right to development and the “third generation rights” movement more generally. Self-determination’s influence upon the international rules governing the use of force will be discussed, but these rules will not be a primary focus. Upon completion of the course students will be in a position to legally analyse contemporary fact patterns and to identify both strengths and weaknesses in the existing legal framework. Students will have considered new and novel approaches to self-determination and will be able to situate the doctrine in relation to international law and human rights. Those taking the course will gain an appreciation for self-determination’s particular contribution to political and economic liberty.
Teaching: 20 hours of seminars in the MT.
(Please note that week six will be a reading week.)
Formative coursework: Students will be asked to submit one 2,000 word essay.

LL4K5 Half Unit
International Commercial Contracts - General Principles

This information is for the 2018/19 session.
Teacher responsible: Dr Jan Kleinheisterkamp NAB7.09
Availability: This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Pre-requisites:
Firm knowledge in contract law and/or international sale of goods from previous studies.
Course content:
The course treats what can be called the general part of transnational contract law, i.e. the general principles of law which are of relevance in any kind of international contract, be it sale, construction, shipping, financing, or joint venture. These general principles relate to contractual formation and negotiations, interpretation, transversal general principles, changed circumstances and hardship, agency, third parties, assignment, self-help and set-off, direct performance and damages and penalties. At present, such contracts are governed either by uniform rules of international conventions or by the national laws applicable by virtue of conflict of law rules. The course puts the existing national and international solutions in a comparative perspective so as to work with the sources of such generally accepted principles. Where there are divergences between existing solutions, the course focuses on the elaboration of new efficient solutions that are internationally acceptable and have the potential of becoming general principles in the future. For these purposes, special attention is given to the UNIDROIT Principles on International Commercial Contracts and, where appropriate, the European Principles of Contract Law. Other national laws, however, are drawn upon from time to time. Students are also encouraged, in both classes and examination, to reflect upon the similarities and differences between their own national laws and the UNIDROIT Principles.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a Reading Week in Week 6.
Formative coursework: One 2,500 word essay after week 6 on previous exam questions (choice of 1 out of 3).

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4K7 Half Unit
Mental Health Law: The Criminal Context

This information is for the 2018/19 session.
Teacher responsible: Prof Jill Peay NAB.5.08
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Criminal Justice Policy and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students.
Course content: This course aims to integrate a practical and theoretical understanding of mental health law, as it relates to mentally disordered offenders. It is not intended to provide a comprehensive understanding of the detail of the relevant law in England and Wales, but rather aims at broader conceptual understanding of the problem areas that are likely to bedevil law relating to those with mental disabilities who have offended across many jurisdictions. The course makes reference to both the Mental Health Act 1983 and the Criminal Justice Act 2003.
Teaching: 22 hours of seminars in the MT. 2 hours of seminars in the ST.

There will be a reading week in week 6. Summer term is a review and revision session.
Formative coursework: One 2,000 word essay.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
Two-hour unseen examination in ST (100%).

LL4K8 Half Unit Not available in 2018/19
Law of Corporate Finance: Securities Regulation

This information is for the 2018/19 session.
Teacher responsible: Prof Niamh Moloney NAB6.08
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 60 students.
Course content: The course examines the legal issues arising out of the operation of the capital markets as intermediaries between investors and issuers; it focuses on the regulation of capital-raising through the markets. The topics covered include: disclosure theory; the role of trading markets in finance-raising and their regulation; prospectus disclosure; ongoing disclosure; market abuse; and the internationalization of capital-raising and harmonization. The course will focus primarily on English law. Course coverage may vary slightly from year to year.
Teaching: 22 hours of lectures and 5 hours of seminars in the LT.
Teaching on this course takes the form of weekly two-hour lectures in LT. Five classes/seminars (of one-hour duration) will also take place as scheduled in the LL4K8 timetable.
Formative coursework: A mock examination will be held at a time to be advised during LT.
LL4K9  Half Unit  European Capital Markets Law
This information is for the 2018/19 session.
Teacher responsible: Prof Niamh Moloney NAB6.18a
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting, MSc in Regulation and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: The course examines the EU’s regulation of the capital markets. It considers the harmonized regulatory regime which applies to capital market actors across the Member States and which supports the integrated market. The topics which may be covered include: the rationale for integration and the role of law and the evolution of the integration project, including the impact of the financial crisis; the deregulation, liberalization, harmonization, and re-regulation mechanisms used to integrate and regulate the EU market; market access and the passport for investment services; the liberalization of order execution and the regulation of trading markets; the UCITS mutual funds regime; retail investor protection; the prospectus and disclosure regime; the regulation of gatekeepers; and the institutional structure supporting regulation and supervision, including the role of the European Securities and Markets Authority. Course coverage may vary slightly from year to year.
Teaching: 22 hours of seminars in the LT.
The teaching for this course takes the form of 10 X 2 hour seminars held weekly across LT in weeks 1-5 and weeks 7-11. In week 6, the teaching will take the form of a mandatory in-class formative assessment. An additional one hour revision session will be held in week 11. More detail will be available on the LL4K9 timetable.
Formative coursework: A mandatory in-class formative assessment (in the form of a timed exam question) will be held in week 6.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL4L5  Half Unit  Socio-legal Theory and Practice
This information is for the 2018/19 session.
Teacher responsible: Dr Meredith Rosser NAB 6.33
Availability: This course is compulsory on the MPhil/PhD in Law (Socio-Legal Theory). This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. Proposed +4 ESRC PhD students registered in the law department (and in other departments with permission).
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: This course will explore the interface between social theory, methodology and socio-legal practice. After an initial engagement with literature on the history, scope and nature of doctrinal, realist, critical and socio-legal approaches to law, the course will focus on seminal empirical studies of law and legal phenomena. In particular students will be asked to identify how specific theoretical frameworks for research have influenced choice of methodology, methods and the subsequent interpretation of data. Empirical studies exploring central legal concepts such as rights, regulation, access to justice, judgment, neutrality, due process and equality will be selected for in-depth analysis. An important feature of the course is that authors of leading socio-legal research outputs will be invited to lead ‘master classes’ in order to discuss the intellectual origins of their work and how this impacted on design and implementation.

LL4L1  Half Unit  Not available in 2018/19  The Theory and Practice of Dispute Resolution
This information is for the 2018/19 session.
Teacher responsible: Prof Linda Mulcahy NAB 7.15
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law, Anthropology and Society and University of Pennsylvania Law School LLM Visiting Students.
This course is available with permission as an outside option to students on other programmes where regulations permit. This course will be relevant to the following LLM specialisms: Legal Theory
This course is capped at 60 students. Students must apply through Graduate Course Choice on LSE for You.
Pre-requisites: None, but The Theory and Practice of Dispute Resolution is a pre-requisite for Advanced Mediation
Course content: This course focuses on the dynamics of disputes and distinctions between the principle methods of dispute resolution. Students on this course will be asked to look at a variety of theories of dispute resolution which draw on insights offered by law, sociology, anthropology, psychology and economics. Topics include 1. What prompts and fuels disputes? 2. Typologies of third party roles in disputes 3. Negotiation theory and practice: bargaining in the shadow of the law 5. International civil justice reforms and their impact on the litigation process 6. Histories of informalism and ADR movements 7. Facilitative Mediation 8. Mediation role plays. The course is designed to complement the option on Commercial Arbitration and Advanced Negotiation and Mediation.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
There will be a Reading Week in week 6 of MT.
Formative coursework: One 2,000 word essay.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a Reading Week in Week 6.

Formative coursework: Students will be asked to prepare a poster presentation outlining the theoretical framework, methodological choices, ethical implications and practical obstacles for a research project they would like to undertake. The ‘ideas map’ they present will be used as a plan for the formal summative assessment. Each student will present their poster to the class before week seven of the term and will receive detailed feedback on their presentation by the end of the same term. This will give students the time to reflect on the comments made before writing up their ideas in their course dissertation A fuller version of the presentation will later be submitted as the coursework component of the course. This is an unusual form of assessment for law students but is used extensively in other disciplines. Students will be directed to websites which provide guidance in preparing a poster presentation and will also be given the opportunity to study examples of posters collected by the course convenor.

Assessment: Essay (100%, 8000 words) in the ST.

The essay will take the form of a research proposal (100%).

LL4L7  Half Unit  Not available in 2018/19
Advanced Mediation

This information is for the 2018/19 session.
Teacher responsible: Prof Linda Mulcahy NAB7.15

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law, Anthropology and Society and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Legal Theory. This course is capped at 60 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: Students wishing to take Advanced Mediation must have taken The Theory and Practice of Dispute Resolution

Course content: This course examines the various models of mediation and the contexts in which each is used. It also considers contemporary debates about power in mediation. Practicing mediators will be invited to a number of the classes in order to facilitate discussion of the interface between theory and practice.

Topics include 1. Distinctive features of mediation e.g., facilitative, evaluative, narrative/transformative and transactional 2. The cultural context of mediation 3. Gender and mediation 4. Power and mediation 5. The lawyer's role in mediation 6. Case studies of the use of mediation in particular fields may include commercial, family, personal injury international and community mediation. 7. The shift towards compulsory mediation The course is designed to complement the options on Commercial Arbitration and Advanced Negotiation and Mediation and The Theory and Practice of dispute resolution.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Seminars will take the form of a mini lecture followed by in-depth discussion of the reading. In addition students will undertake a series of role play exercises and analyses of filmed mediations in which they are asked to explore the interface between theory and practice.

There will be a Reading Week in Week 6.

Formative coursework: One 2,000 word essay.

Assessment: Essay (100%, 8000 words) in the ST.

LL4N6  Half Unit  Not available in 2018/19
Principles of Copyright Law

This information is for the 2018/19 session.
Teacher responsible: Ms Anne Barron NAB6.05

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be relevant to the following LLM specialisms: Competition, Innovation and Trade Law, Corporate and/ or Commercial Law; Information Technology, Media and Communications Law; Intellectual Property Law.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSE for You.

Pre-requisites: None

Course content: The course provides an introduction to copyright law in Britain The American Sociologist, Vol 32, no 2, June 2001.
law aimed at those who have not studied the subject in detail before. The starting point will be UK copyright law (as shaped to date by relevant EU Directives and international agreements), but US, French and German law will serve as occasional bases for comparative analysis. Topics to be covered will include the history and evolution of copyright, copyright’s protected objects (‘works’) and subjects (authors, publishers and producers of works), the principles governing the ownership of copyright, and the nature and scope of the rights comprised in copyrights and authors’ moral rights.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

**Students on this course will have a reading week in Week 6, in line with departmental policy.**

**Formative coursework:** One 2,000 word essay.

**Indicative reading:** Reading lists will be issued on a weekly basis. UK and EU legislation, cases and soft law instruments will make up most of the required reading for this course. All of this material is available in electronic form via the Moodle site which supports the course. Useful texts include Lionel Bently and Brad Sherman, Intellectual Property Law 4th ed. (OUP, 2014); Thomas Dreier and P Bernt Hugenholtz (eds) Concise European Copyright Law (Kluwer, 2016); and Paul Goldstein and P Bernt Hugenholtz, International Copyright Law 3rd ed. (OUP 2012).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4S2 Half Unit E-Commerce Law**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Andrew Murray NAB 7.11

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course is to introduce students from a legal background to the specialised legal structure which surrounds e-commerce. The course looks at the specific problems an e-commerce start-up must overcome in order to begin trading, including arranging hosting agreements, designing terms and conditions of service and delivery, and arranging distribution agreements. From here the course will develop to examine the problems of more mature e-commerce businesses including jurisdiction, payment systems and rules on marketing and privacy. Special classes on internet auctions and social networks will complete the analysis. The course is designed to act as an interface between ICT law and commercial law and practice in that it examines in detail the close sub-set of online transactions which are clearly commercial in nature.

**Teaching:** 20 hours of seminars in the MT. 2 hours of seminars in the ST.

**Formative coursework:** Students should submit an essay plan and working bibliography for the assessed essay. All students are expected to contribute to a series of class and online exercises, and to submit one 2,000 word formative essay.

**Assessment:** Essay (100%, 8000 words) in the ST.
Course content: Personal data is an important factor of production in data-driven economies, and the processing of personal data can generate significant economic and social benefits. However, personal data processing can also have a detrimental impact on established rights and values, such as autonomy, privacy and data protection. As a result, legal frameworks to regulate personal data processing have been enacted across the world, with the EU legal model used as a blueprint. Yet, despite the development of such legal frameworks, critical questions remain unanswered. For instance, the objectives of data protection frameworks differ with some prioritising a fundamental-rights approach to data protection regulation while others frameworks are based on an economic free-trade rationale. Disagreement also persists regarding how the balance should be struck between effective data protection and other rights (such as freedom of expression and freedom of information) and interests (such as innovation and national security). This course will critically evaluate the legal framework applicable to personal data processing. It will be do this predominantly with reference to the EU framework, as this has served as a model for over 100 other jurisdictions. Participants will be introduced to techniques and technologies for monitoring and processing personal data in the information society. In order to bring key issues to life, a number of case studies will be considered, including the application of data protection rules to online behavioural advertising and the right to respect for private life to State surveillance.

Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.

Formative coursework: All students are expected to contribute to a series of class exercises and to submit one piece of formative work for assessment.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

This is an open-book exam.

LL4S5 Half Unit

Piracy, Content and Ownership in the Information Society

This information is for the 2018/19 session.

Teacher responsible: Prof Andrew Murray NAB7.11

Availability: This course is available on the LLM (extended part-time), LLM (full-time) and MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou. Students from other Departments are allowed to apply with permission of the course convener.

Course content: This course looks at three related themes: (1) approaches to comparing laws and legal institutions from different legal systems and traditions (comparative law); (2) understanding legal regulation beyond the state (transnational law); and (3) ideas about what it is that makes legal phenomena ‘legal’ (legalism). Combining these three elements allows to ask questions like: “Why are courts in some legal systems more powerful or more trusted than courts in other systems?”; “Why do people go to court to pursue more often in some countries than in others?”; “Why do some countries send far more people to prison than others?”; “How is ‘law’ in non-state contexts similar to and different from state law?”; “How did lawyers come to be such powerful actors in organizations like the European Union?”, “What sorts of problems of ‘translation’ can arise when lawyers from one country look at law in another country?”, “What might happen when forms of ‘Western’ law are transplanted to other parts of the world?”.

The course combines attention to theory - theories of legal comparisons, and of the ‘transnationalization of law’, in particular - with detailed practical case studies in selected areas from different fields of law (comparative constitutional law, comparative private law, comparative criminal justice, EU law and, commercial arbitration, among others). The course might be especially interesting for students already taking other courses with a comparative- or a transnational law dimension, and for all students interested in the ways law works and does not work, and in how lawyers think, in different parts of the world.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a Reading Week in Week 6.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course. This essay is due in Week 7.

**Assessment:** Take home exam (100%) in the ST. The take home exam will consist of 2 essay questions (out of 6 set), each with a 3000 word limit. Students will be given their exam questions at 9:00 am on Wednesday morning of Week 1 Summer Term, via Moodle, and will have until 5:00 pm on Thursday afternoon of Week 2 Summer Term to submit the exam. The length of time set for this assessment already takes into account that students may also have one or more other exams during this period.

---

**LL4Z1 Half Unit Business Taxation**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Ian Roxan NAB.7.25 and Mr Eduardo Baistrocchi NAB.7.33

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** The course is suitable both for students who have not studied taxation before and for those who have. It is recommended for students who have not studied taxation previously, as well as for those who are studying any of the other tax courses offered at LLM/MSc level.

**Course content:** This course looks at how tax systems work and the principles that lie behind tax systems. Topics covered include the reasons for taxation and the main types of tax, how income is taxed, how the tax administration operates, the interpretation of tax legislation and tax avoidance. The course uses examples from the tax systems of the UK and other countries to illustrate the issues discussed. The course is suitable for those who have not studied taxation before, as well as for those with a background in tax who are interested in studying the principles of taxation in greater depth.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:** One 2,000 word essay.

**Indicative reading:** Appropriate readings from journal articles and from books including: Avi-Yonah, Sartori and Marian, Global Perspectives on Income Taxation Law; Messere et al., Tax Policy: Theory and Practice in OECD Countries, Tanzi and Zee, Tax Policy for Developing Countries; Ault and Arnold, Comparative Income Taxation: A Structural Analysis; Thuronyi, Comparative Tax Law; James and Nobes, The Economics of Taxation; Mirrlees et al., Tax by Design. Further materials include: Morse and Williams, Davies Principles of Tax Law; Kay and King, The British Tax System; Thuronyi, Tax Law Design and Drafting. Detailed reading lists will be provided during the course via Moodle. Recommended preliminary reading: Avi-Yonah, Sartori and Marian, Global Perspectives on Income Taxation Law (Oxford University Press, 2011).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4Z2 Half Unit Not available in 2018/19**

**Principles of Taxation**

**This information is for the 2018/19 session.**

**Teacher responsible:** Mr Eduardo Baistrocchi NAB.7.33

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Pre-requisites:** The course is suitable both for students who have not studied taxation before and for those who have. It is recommended for students who have not studied taxation previously, as well as for those who are studying any of the other tax courses offered at LLM/MSc level.

Detailed reading lists will be provided during the course via Moodle. Recommended preliminary reading: Avi-Yonah, Sartori and Marian, Global Perspectives on Income Taxation Law (Oxford University Press, 2011).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
The course is suitable for students who are interested in taking one course in taxation, including students who have little previous background in taxation, as well as for tax specialists.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:** One 2,000-word formative essay or an equivalent assignment.

**Recommended preliminary reading:** James and Nobes, The Economics of Taxation or Tanzie and Zee, Tax Policy for Developing Countries; Ebrill et al., The Modern VAT (International Monetary Fund, 2001), or Alan A. Tait, Value Added Tax: International Practice and Problems (IMF, 1988).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4Z5 Half Unit**

**EU State Aid Law**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Pablo Ibanez Colomo NAB5.16

**Recommended preliminary reading:** James and Nobes, The Economics of Taxation or Tanzie and Zee, Tax Policy for Developing Countries; Ebrill et al., The Modern VAT (International Monetary Fund, 2001), or Alan A. Tait, Value Added Tax: International Practice and Problems (IMF, 1988).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4Z6 Half Unit**

**Comparative Constitutional Law**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Jo Murkens NAB7.31

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.

**Course content:** This course examines the central issues in comparative constitutional law across a range of jurisdictions and from a variety of perspectives. The course opens with an introduction on the purpose of comparative constitutional law. The first substantive part discusses various approaches to the study of CCL as well as the migration of constitutional ideas (and related notions of constitutional borrowing, transplants etc). The second part of Term 1 deals with key constitutional concepts (constitution; rule of law; presidentialism, parliamentarism) which are discussed from a historical and comparative perspective. The point of these sessions is not to compare for the sake of comparing, but to equip you (the researcher) with the conceptual tools to do insightful, critical, and original comparative work of your own. The third part challenges the assumptions of liberal constitutionalism by examining constitutions in divided societies as well as authoritarian constitutionalism. The overall aim of the course is to develop students’ understanding and use of many general theoretical explanations surrounding debates in CCL, and to develop students’ critical/analytical approach to many of the questions facing judges and scholars in the next decade.

**Teaching:** 22 hours of seminars in the MT.

**Formative coursework:** One 2,000 word essay.

**Indicative reading:** There is no set book for this course. All materials will be made available in advance on Moodle.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

**LL4Z7 Half Unit**

**Comparative Constitutional Rights**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Kai Moller NAB7.01

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time) and University of Pennsylvania Law School LLM Visiting Students. This course is not available as an outside
LL4Z9 Half Unit Not available in 2018/19
Banking Law

This information is for the 2018/19 session.
Teacher responsible: Dr Joanne Braithwaite NAB7.28
Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Law and Accounting and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
This course is capped at 30 students. Students must apply through Graduate Course Choice on LSEforYou.
Course content: This course focuses on the private law of banking as it relates to the core banking activities not covered elsewhere on the LLM (ie, on courses about the financing activities of banks and the regulation of banking activities). In particular, we look at the deposit-taking relationship, and the legal issues surrounding bank payment services. The course aims to be both domestic and international in perspective, though the emphasis will be on English law. Topics include: 1. The deposit-taking relationship; 2. Money, transfers of money and payment including the development of new digital currencies and decentralised payment systems; 3. Bank payment methods: funds transfers and unauthorised payments; and 4. Bank payment services in international trade.
Teaching: 20 hours of seminars in the MT. 2 hours of seminars in the ST.
There will be a reading week in week 6.
Formative coursework: Students will be asked to submit one essay, which may be written in exam conditions. Students will also be expected to take part in group presentations during the course.
Indicative reading: For introductory purposes, students may find the following book helpful: V Jackson and M Tushnet, Comparative Constitutional Law, 3rd edition, 2014.
Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

MA402 Half Unit Game Theory I

This information is for the 2018/19 session.
Teacher responsible: Prof Olivier Gossner and Dr Paul Duetting
Availability: This course is available on the CEMS Exchange, MBA Exchange, MSc in Applicable Mathematics, MSc in Financial Mathematics, MSc in Management Science (Decision Sciences) and MSc in Operations Research & Analytics. This course is available as an outside option to students on other programmes where regulations permit.
It is not available to students who have taken Game Theory (MA300) or Game Theory I (MA301).
Pre-requisites: Students must know basics of linear algebra (matrix multiplication, geometric interpretation of vectors) and probability theory (expected value, conditional probability, independence of random events).
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 2 hours of lectures in the ST.
Formative coursework: Weekly exercises are set and marked.
Indicative reading: Lecture notes will be provided. Supplementary reading: K Binmore, Playing for Real: Game Theory CUP, 2007; E Mendelson, Introducing Game Theory and Its Applications, CRC 2004
MA407 Half Unit
Algorithms and Computation

This information is for the 2018/19 session.
Teacher responsible: Dr Konrad Swanepoel
Availability: This course is available on the MSc in Applicable Mathematics, MSc in Data Science, MSc in Operations Research & Analytics, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is compulsory for students on the MSc Applicable Mathematics and MSc in Operations Research & Analytics. It is optional for students on the MSc Applicable Mathematics who take the advanced course.

Pre-requisites: Good general knowledge of mathematics, including familiarity with abstract concepts. A willingness to cope with technical details of computer usage, and with a rapid introduction to programming.

Teaching: 20 hours of lectures, 20 hours of seminars, 9 hours of workshops and 10 hours of help sessions in the MT. 2 hours of lectures in the ST.

Formative coursework: Weekly exercises are set and marked.

Indicative reading: T H Cormen, C E Leiserson, R L Rivest and C Stein, Introduction to Algorithms; R Sedgewick, K Wayne, Introduction to programming in Java; D Flanagan, Java in a Nutshell.

Assessment: Exam (75%, duration: 2 hours and 30 minutes) in the summer exam period.
Coursework (25%) in the MT.

MA408 Half Unit
Discrete Mathematics and Graph Theory

This information is for the 2018/19 session.
Teacher responsible: Prof Jozef Skokan
Availability: This course is available on the MSc in Applicable Mathematics and MSc in Operations Research & Analytics. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students should be taking the course MA407 Algorithms and Computation or have taken an equivalent course to provide a basic knowledge of algorithms, and should have experience with proofs and proof techniques used in pure mathematics.

Course content: This course provides an introduction to discrete mathematics, particularly graph theory. Emphasis will be placed on the algorithmic aspects of the area.

Topics to be covered include: Brief Introduction to discrete mathematics and graph theoretic terminology; Ramsey's Theorem; matchings and Hall's Theorem; graph search algorithms; stable marriages and the Gale-Shapley Theorem; network flows and the Ford-Fulkerson Theorem; connectivity and Menger's Theorems; graph colouring and Brooks' Theorem; and other topics that may vary from year to year.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT. 2 hours of lectures in the ST.

Formative coursework: Students will be expected to produce 10 exercises in the MT.
Weekly exercises are set and marked.

Indicative reading: Norman L. Biggs, Discrete Mathematics, Oxford University Press; T H Cormen, C E Leiserson & R Rivest and C Stein, Introduction to Algorithms, Cambridge University Press; R Diestel, Graph Theory, Springer; H S Wilf, Algorithms and Complexity, Prentice Hall. Several of these texts are available online. More information, plus additional notes, will be provided during the course.

Assessment: Exam (75%, duration: 2 hours) in the summer exam period.
Coursework (25%) in the MT.

MA409 Half Unit
Continuous Time Optimisation

This information is for the 2018/19 session.
Teacher responsible: Prof Adam Ostoya-Ostaszewski
Availability: This course is available on the MSc in Applicable Mathematics, MSc in Operations Research & Analytics and MSc in Quantitative Methods for Risk Management. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students will need adequate background in linear algebra (facility with diagonalization of matrices for the purposes of solving simultaneous first-order differential equations is key here), knowledge of the relation between the range of a matrix transformation and the kernel of its transpose would be helpful), and in advanced calculus (manipulation of Riemann integrals such as 'differentiation under the integral' and the associated Leibniz Rule). Students unsure whether their background is appropriate should seek advice from the lecturer before starting the course.

Course content: This is a course in optimisation theory using the methods of the Calculus of Variations. No specific knowledge of functional analysis will be assumed and the emphasis will be on examples. It introduces key methods of continuous time optimisation in a deterministic context, and later under uncertainty. Calculus of variations and the Euler-Lagrange Equations.

Teaching: 24 hours of lectures, 4 hours of seminars and 12 hours of seminars in the LT. 2 hours of seminars in the ST.

Background review of (i) elementary methods for solving differential equations, and (ii) pertinent linear algebra (diagonalization) will be included in the the seminars of Weeks 1 and 2.

Four of the 24 lecture hours are dedicated to Exam Revision

Indicative reading: A full set of lecture notes will be provided.

Theories with Applications; Horwood; A Sasane, Optimization in Function Spaces, Dover.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA410 Half Unit
Information, Communication and Cryptography
This information is for the 2018/19 session.
Teacher responsible: Dr Andrew Lewis-Pye
Availability: This course is available on the MSc in Applicable Mathematics and MSc in Operations Research & Analytics. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students should be taking the course MA407 Algorithms and Computation or have taken an equivalent course to provide a basic knowledge of algorithms, and should have experience with proofs and proof techniques used in pure mathematics.
Course content: This course provides an introduction, for students with a mathematical background, to the applications of mathematics in information theory, coding theory, cryptography, and related areas. The course will cover mathematical aspects of the following topics: Noiseless coding, the Kraft-McMillan criterion, optimal coding, entropy, Shannon's first theorem; Noisy channels, capacity, system entropy; Error-correcting codes, decoding rules, bounds, construction and properties of linear and cyclic codes; Structure of natural languages, redundancy, the frequency table, making and breaking cryptosystems, historic examples; Public-key cryptography, complexity issues, the RSA system, authentication schemes, the ElGamal system, elliptic curve cryptography.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 2 hours of lectures in the ST.
Assessment: Exam (90%, duration: 2 hours) in the summer exam period.
Coursework (10%) in the MT.

MA411 Half Unit
Probability and Measure
This information is for the 2018/19 session.
Teacher responsible: Dr Pavel Gapeev
Availability: This course is available on the MSc in Applicable Mathematics, MSc in Financial Mathematics and MSc in Quantitative Methods for Risk Management. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: Some background in real analysis is essential.
Course content: The purposes of this course are (a) to explain the formal basis of abstract probability theory, and the justification for basic results in the theory, and (b) to explore those aspects of the theory most used in advanced analytical models in economics and finance. The approach taken will be formal. Probability spaces and probability measures. Random variables. Expectation and integration. Convergence of random variables. Conditional expectation. The Radon-Nikodym Theorem. Martingales. Stochastic processes. Brownian motion. The Itô integral.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST.
The lecture in the Summer Term is a Revision Lecture.
Indicative reading: Full lecture notes will be provided. The following may prove useful: J S Rosenthal, A First Look at Rigorous Probability Theory; G R Grimmett & D R Stirzaker, Probability and Random Processes; D Williams, Probability with Martingales; M Caplinski & E Kopp, Measure, Integral and Probability, J Jacod & P Protter, Probability Essentials.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA412 Half Unit
Functional Analysis and its Applications
This information is for the 2018/19 session.
Teacher responsible: Dr Robert Simon
Availability: This course is available on the MSc in Applicable Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students should have taken a course in finite dimensional linear algebra which includes diagonalisation and inner products. General knowledge of real analysis and calculus would be helpful.
Course content: This course aims at familiarizing the student with the basic concepts, principles and methods of functional analysis and its applications. The topics covered are: normed and Banach spaces, continuous linear transformations, inner product and Hilbert spaces, compact operators, Hahn-Banach and Baire Category Theorems, applications to differential equations, numerical analysis, and approximation theory with illustrative examples.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 2 hours of lectures in the ST.
Assessment: Exam (90%, duration: 2 hours) in the summer exam period.
Coursework (10%) in the LT.

MA413 Half Unit
Games of Incomplete Information
This information is for the 2018/19 session.
Teacher responsible: Dr Robert Simon COL 4.07
Availability: This course is available on the MSc in Applicable Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students should be familiar with the related mathematics of topology and functional analysis. Some degree of mathematical maturity is expected.
Course content: The techniques and results of game theory are increasingly important to economic analysis. This course focuses on the problems of information incompleteness and information asymmetry. This is a relatively new but rapidly expanding area of game theory with connections to several areas of economic theory, for example conflict resolution, auctions, principal-agent problems, and the logic of knowledge. The course is divided into three parts, I Basic Results, II Repeated Games, III Bayesian Games. For the first part we cover the Min-max Theorem and Nash's Theorem of Equilibrium Existence, Extensive Form and Discounted Games. For the second part we cover Zero-sum Games with Vector Payoffs, The Value of the Zero-sum Repeated Game of Incomplete Information on One Side, Non-Zero-Sum Games with Incomplete
The mathematics of the Black & Scholes methodology follow; the concepts of replication and martingale probability measures. The binomial tree model for a risky asset, the course introduces development of the risk-neutral valuation theory. In the context of the corresponding discounted payoffs, pricing formulae for expectations with respect to the risk-neutral probability measure in particular, the expression of European contingent claims as the Black & Scholes PDE are derived. A class of exotic options is then considered. In particular, pricing formulas for lookback and barrier options are derived using PDE techniques as well as the reflection property of the standard Brownian motion. The course also introduces a model for foreign exchange markets and various foreign exchange options.

Teaching: 20 hours of lectures and 20 hours of seminars in the MT.

The MA415 course has 30 compulsory hours of teaching with an additional 10 hours which are optional and reserved for covering advanced material and/or applications chosen by students. Students are strongly encouraged to attend the additional hours offered.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA414    Half Unit
Stochastic Analysis
This information is for the 2018/19 session.
Teacher responsible: Dr Arne Lokka
Availability: This course is available on the MSc in Applicable Mathematics and MSc in Financial Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: ST409 or MA411.
Course content: This course is concerned with a rigorous introduction to the area of stochastic analysis with emphasis on Itô calculus. The course begins necessary preliminaries, followed by a construction of the standard Brownian motion and a study of its properties. Subsequently, Lévy's characterisation of Brownian motion, martingale representation theorems and Girsanov's theorem are established. The course then expands on a study of stochastic differential equations.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT.
Indicative reading: Full lecture notes will be provided. The following may prove useful: I Karatzas and S E Shreve, Brownian Motion and Stochastic Calculus, Springer; B Øksendal, Stochastic Differential Equations: An Introduction with Applications, Springer; D Revuz and M Yor, Continuous Martingales and Brownian Motion, Springer; L C G Rogers and D Williams, Diffusions, Markov Processes, and Martingales, Cambridge.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA415    Half Unit
The Mathematics of the Black and Scholes Theory
This information is for the 2018/19 session.
Teacher responsible: Dr Albina Danilova and Dr Johannes Ruf
Availability: This course is compulsory on the MSc in Applicable Mathematics. This course is compulsory on the MSc in Financial Mathematics. This course is available on the MSc in Quantitative Methods for Risk Management (MA400).
Pre-requisites: Students must have completed September Introductory Course (Financial Mathematics and Quantitative Methods for Risk Management) (MA400).
Course content: This course is concerned with a mathematical development of the risk-neutral valuation theory. In the context of the binomial tree model for a risky asset, the course introduces the concepts of replication and martingale probability measures. The mathematics of the Black & Scholes methodology follow; in particular, the expression of European contingent claims as expectations with respect to the risk-neutral probability measure of the corresponding discounted payoffs, pricing formulae for European put and call options, and the Black & Scholes PDE are

MA416    Half Unit
The Foundations of Interest Rate and Credit Risk Theory
This information is for the 2018/19 session.
Teacher responsible: Prof Mihail Zervos
Availability: This course is compulsory on the MSc in Financial Mathematics. This course is available on the MSc in Quantitative Methods for Risk Management, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Stochastic Processes (ST409).
Course content: This course is concerned with the mathematical foundations of interest rate and credit risk theory. The course starts with a development of the multi-dimensional Black & Scholes theory with stochastic market data. This is then used to show how discount bond dynamics modelling can be approached by (a) the modelling of the short-rate process and the market price of risk, which underlies the family of short-rate models, or (b) the modelling of the market price of risk and the discount bond volatility structure, which gives rise to the Heath-Jarrow-Morton (HJM) framework. The course then expands on the theory of interest rate market models and credit risk.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Two sets of written homework will be marked with feedback provided.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.
MA417  Half Unit
Computational Methods in Finance

This information is for the 2018/19 session.
Teacher responsible: Dr Luitgard Veraart and Dr Tugkan Batu
Availability: This course is compulsory on the MSc in Financial Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed September Introductory Course (Financial Mathematics and Quantitative Methods for Risk Management) (MA400) and Programming in C++ (MA432).
Course content: The purpose of this course is to (a) develop the students' computational skills, and (b) introduce a range of numerical techniques of importance to financial engineering. The course starts with random number generation, the fundamentals of Monte Carlo simulation and a number of related issues. Numerical solutions to stochastic differential equations and their implementation are considered. The course then addresses finite-difference schemes for the solution of partial differential equations arising in finance.
Teaching: 20 hours of lectures, 4 hours of seminars and 10 hours of computer workshops in the LT.
Formative coursework: Weekly exercises and practicals are set and form the basis of the seminars.
Assessment: Exam (50%), duration: 2 hours) in the summer exam period.
Project (50%) in the ST.

MA418  Half Unit
Preferences, Optimal Portfolio Choice, and Equilibrium

This information is for the 2018/19 session.
Teacher responsible: Dr Albina Danilova
Availability: This course is available on the MSc in Applicable Mathematics and MSc in Financial Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed either Stochastic Processes (ST409) or Probability and Measure (MA411) or The Mathematics of the Black and Scholes Theory (MA415).
Course content: This course is concerned with the theory of optimal investment and consumption. The course starts with the derivation of utility functions from the axioms of an agent's preferences. Utility functions are then used as a measure of portfolio performance in a financial market. Optimal investment and consumption strategies are obtained for various utility functions in both complete and some types of incomplete markets. Equilibrium and asset price formation are considered in the context of complete and informationally incomplete markets.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT.
Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

MA419  Half Unit
Not available in 2018/19
Search Games

This information is for the 2018/19 session.
Teacher responsible: Dr Thomas Lidbetter
Availability: This course is available on the MSc in Applicable Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: In Search Theory, a mobile Searcher wishes to minimise the time T taken to find something, which we call the Hider, in a known search space Q. The Hider may be stationary or mobile. In the zero sum game context (first half of the course), the Hider does not want to be found, or at least wants to maximise T. In the second half of the course we consider the Rendezvous Search Problem, in which the Hider also wants to minimise T. In both contexts the search space Q will often be taken as a finite network.
In Search Theory, a unit-speed Searcher wishes to minimise the time T required to find (meet) a lost object or agent hidden in a known search region Q. This course concentrates on cases where the lost object is an agent who has motives of his own. The course content will be based on both Search Games (zero-sum games where a T-minimising Searcher seeks a T-maximising Hider) and Rendezvous Games (common-interest games where two lost searchers want to minimise T). The first part of the course will consider Search Games. We begin with the case where the Hider is immobile - he picks his position in Q at the start of the game. We solve this game for the case where Q is a tree or a 'weakly Eulerian' network, assuming the Searcher starts in a location known to the Hider; then we remove this restriction. We then study Search Games where the Hider is mobile, the so-called 'Princess and Monster' games of R. Isaacs. Several special games are then studied, for example the case of an unknown search region (maze), and games in which the Searcher has to find several hidden objects.
The second part of the course studies the Rendezvous Search Problem. We begin with the player-asymmetric form of the problem, where the two Searchers may meet before the game to decide what strategy each will adopt. We then consider the player-symmetric form, where the Searchers are constrained to follow a common mixed strategy. Finally, we consider the incomplete information problem where a Searcher seeks an agent who might be a Hider (T-maximiser) or another Searcher (T-minimiser).
Teaching: 22 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: An assignment is set each week and marked by the lecturer with feedback. Problem areas will be discussed in class.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA420  Half Unit
Quantifying Risk and Modelling Alternative Markets

This information is for the 2018/19 session.
Teacher responsible: Dr Christoph Czichowsky

MA421 Half Unit
Advanced Algorithms

This information is for the 2018/19 session.
Teacher responsible: Dr Tugkan Batu
Availability: This course is available on the MSc in Applicable Mathematics and MSc in Operations Research & Analytics. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Algorithms and Computation (MA407) or have taken an equivalent course to provide a basic knowledge in analysis of algorithms: running time and correctness of an algorithm, basic knowledge in computer programming, preferably, in Java language, and should have experience with proofs and proof techniques used in pure mathematics.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.
Formative coursework: Weekly exercises are set and marked. Some of these will require implementation of programming exercises in Java.
Indicative reading: T H Cormen, C E Leiserson, R L Rivest, and C Stein, Introduction to Algorithms; V Vazirani, Approximation Algorithms; R Motwani and P Raghavan, Randomized Algorithms.
Assessment: Exam (75%, duration: 2 hours and 30 minutes) in the summer exam period. Coursework (25%) in the ST.

MA422 Half Unit
Research Topics in Financial Mathematics

This information is for the 2018/19 session.
Teacher responsible: Dr Christoph Czichowsky
Availability: This course is available on the MPhil/PhD in Mathematics, MSc in Financial Mathematics and MSc in Quantitative Methods for Risk Management. This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: Co-requisite: Students must also complete Stochastic Processes (ST409).
Course content: This course is concerned with various issues arising in the context of investment risk specification as well as with the mathematical theory of so-called alternative markets, such as commodity and energy markets. In particular, the course considers the structural credit risk models and the quantification of risk by means of copulas and risk measures. Also, the course expands on the modeling of alternative markets and addresses the problem of valuation of investments in real assets.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT.
Formative coursework: Two sets of written homework will be marked with feedback provided.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA423 Half Unit
Fundamentals of Operations Research

This information is for the 2018/19 session.
Teacher responsible: Dr Katerina Papadaki COL 2.05
Availability: This course is compulsory on the MSc in Operations Research & Analytics. This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange and MSc in Management of Information Systems and Digital Innovation. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must know basics of linear algebra (matrix multiplication, geometric interpretation of vectors), probability theory (expected value, conditional probability, independence of random events) and calculus (derivatives, limits).
Course content: An introduction to a range of Operations Research techniques, covering: foundations of linear programming, including the simplex method and duality; integer programming; markov chains; queueing theory; dynamic programming; inventory models; game theory.
Teaching: 20 hours of lectures and 15 hours of seminars in the MT. 2 hours of lectures in the ST.
Formative coursework: Students will be expected to produce 2 problem sets in the MT.
Indicative reading: The course will be taught from lecture notes and slides.
Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

MA424 Half Unit
Modelling in Operations Research

This information is for the 2018/19 session.
Teacher responsible: Dr Victor Verdugo
Availability: This course is compulsory on the MSc in Management Science (Decision Sciences) and MSc in Operations Research & Analytics. This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange) and MSc in Data Science. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must know basics of linear algebra (matrix multiplication, geometric interpretation of vectors) and probability theory (expected value, conditional probability, independence of random events). Students taking the course as an outside option are also expected to have a basic knowledge of linear programming. For students in the MSc in Operations Research & Analytics this will be covered in MA423 Fundamentals of Operations Research.

Course content: The course will be in 2 parts, covering the two most prominent tools in operational research: simulation, the playing-out of real-life scenarios in a (computer-based) modelling environment, and mathematical optimisation, the application of sophisticated mathematical methods to make optimal decisions. Simulation (8 lecture hours): This part develops simulation modelling skills, understanding of the theoretical basis which underpins the simulation methodology, and an appreciation of practical issues in managing a simulation modelling project. Topics include Monte Carlo simulation, Markov processes, discrete event simulation, and variance reduction. The course will teach students how to use a simulation modelling software package. Optimisation (12 lecture hours): This part enables students to model and solve real-life management problems as Mathematical Optimisation problems. In providing an overview of the most relevant techniques of the field, it teaches a range of approaches to building Mathematical Optimisation models and shows how to solve them and analyse their solutions. Content includes: The modelling life-cycle and modelling environments; formulation of management problems using linear and network models; solution of such problems with a special-purpose programming language; interpretation of the solutions; limitations of such models; and formulation and solution of nonlinear models including some or all of binary, integer, convex and stochastic programming models.

Teaching: 20 hours of lectures, 13 hours and 30 minutes of seminars and 10 hours of computer workshops in the MT. 8 hours of computer workshops in the LT.

Computer workshops are not mandatory. They are help sessions, where an instructor is available to students in the computer cluster while they work on their assignment.

Formative coursework: Students will be expected to produce 1 project in the MT.

Feedback will be provided on the weekly homework. Additional feedback will be provided on a one-on-one basis to students attending the optional computer help sessions.

Indicative reading: Full lecture notes will be provided to students for both parts.

Recommended readings:
Simulation
- M Pidd, Computer Simulation in Management Science, Wiley (5th ed., 2006);
Optimisation

Assessment: Project (100%) in the LT.

The project will be on Simulation, Mathematical Optimisation, or a combination of the two. The deliverable is a report of at most 12 pages (main report, excluding executive summary and technical appendices), along with a soft copy of any computer code and solver output.

MA426
Dissertation in Operations Research & Analytics

This information is for the 2018/19 session.
Teacher responsible: Dr Laszlo Vegh and Dr Katerina Papadaki
Availability: This course is available on the MSc in Management Science (Decision Sciences) and MSc in Operations Research & Analytics. This course is not available as an outside option. Cannot be taken with MA426 Dissertation in Operations Research & Analytics.
Course content: The student will carry out and report upon a substantial practical piece of Management Science. The project will either be found by the course leader or may be suggested by the student, with the approval of his/her teachers.
Teaching: 8 hours of lectures in the MT. 6 hours of lectures in the LT.
Formative coursework: Each student will be assigned an internal project supervisor who will monitor his/her progress on a continuing basis and give tutorial advice as required.
Indicative reading: Detailed suggestions for reading will be provided in the course of supervision.
Assessment: Project (100%).
Assessment is based entirely on the project report.

The student is expected to work on this full-time from early June to end of August. Two paper copies and one electronic copy must be submitted on a specified date in late August/early September. The page limit for the report is 40 pages, excluding appendices.

A degree cannot be awarded unless MA425 Project in Operations Research & Analytics or MA426 Dissertation in Operations Research & Analytics have been passed.

MA425
Project in Operations Research & Analytics

This information is for the 2018/19 session.
Teacher responsible: Dr David Newton

MA427
Half Unit
Mathematical Optimisation

This information is for the 2018/19 session.
Teacher responsible: Dr Giacomo Zambelli
Availability: This course is available on the Global MSc in
The course introduces fundamental machine learning methods and algorithms for basic data analytics problems. These methods include algorithms for classification and regression problems, such as tree construction, support vector machines, nearest-neighbour methods, Bayesian networks. The course will also cover unsupervised learning methods such as association rule mining, association rule mining and clustering.

The methods are illustrated on practical problems arising from various fields. The course will use data mining packages in R.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the LT. Two hours of lectures in the ST.

**Formative coursework:** There will be weekly homework assignments, some of which will be submitted for formative feedback, and some for summative assessment (10% of the course mark). A mock project will be given, as preparation for the summative group project.

**Indicative reading:**
- James, Witten, Hastie, Tibshirani, An Introduction to Statistical Learning: with Applications in R (2016)
- Torgo, Data Mining with R: Learning with Case Studies (2010)
- Introduction to Statistical Learning: with Applications in R (2016)
including expectations and independence. If in doubt, please consult the instructor or attend the first lecture.

**Course content:** Many problems, from the "Traveling Salesman Problem" to train scheduling, are easy to state but hard to solve, in a mathematically well-defined sense. In practical operations research, though, one must solve such problems, and the issues involved are mathematically interesting. The course will introduce the underlying computational concepts (polynomial-time computation and NP-completeness); introduce canonical problem models including graph problems and formula satisfiability; and explore various ways of addressing these problems, including heuristics, randomized and approximation algorithms, average-case analysis, and relatively efficient exponential-time algorithms.

**Teaching:** 20 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 2 hours of lectures in the ST.

**Assessment:** Exam (85%, duration: 2 hours and 30 minutes, reading time: 15 minutes) in the summer exam period. Coursework (15%) in the LT.

### MA431 Half Unit Not available in 2018/19

**Advanced Topics in Operational Research and Applicable Mathematics**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Laszlo Vegh NAB3.05

**Availability:** This course is available on the CEMS Exchange, MBA Exchange, MSc in Applicable Mathematics, MSc in Management Science (Decision Sciences) and MSc in Operations Research & Analytics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** An examination of the new trends in Operational Research. The topics selected differ year to year, the topic for 2014/15 will be Data Mining. Information is available on Moodle or from the Management Science Group administration office.

**Teaching:** 20 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

**Formative coursework:** Details will be provided at the start of the course.

**Indicative reading:** Detailed suggestions for reading will be given before the start of the course.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Project (50%) in the ST.

### MA432 Programming in C++

This information is for the 2018/19 session.

**Teacher responsible:** Dr Tugkan Batu COL.4.04

**Availability:** This course is compulsory on the MSc in Financial Mathematics. This course is available on the MSc in Quantitative Methods for Risk Management. This course is available with permission as an outside option to students on other programmes where regulations permit.

There may be limited availability to students in MSc in Applicable Mathematics and other programmes, subject to resource constraints such as computer room capacity.

**Course content:** This course in an introduction to programming with the C++ programming language. We will cover the lexical basis of C++, fundamental types and basic operators, control structures, functions, pointers and arrays, dynamic memory management, classes, data hiding, constructors and destructors, operator overloading, simple inheritance, libraries, standard input and output.

**Teaching:** 10 hours of lectures and 20 hours of computer workshops in the MT.

**Formative coursework:** Students will work through worksheets provided in the computer workshops.

**Indicative reading:** D.M. Capper, Introducing C++ for Scientists, Engineers and Mathematicians, Springer. B. Stroustrup, The C++ Programming Language, Addison Wesley.

### MA498 Dissertation in Mathematics

This information is for the 2018/19 session.

**Teacher responsible:** Andrew Lewis-Pye

**Availability:** This course is compulsory on the MSc in Applicable Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The Dissertation in Mathematics is an individual, substantial project as an introduction to mathematical research methods. The student will investigate and study an area of mathematical research or application of advanced mathematical techniques, and to write a report on their findings. The project may include some programming. The dissertation topic will normally be proposed by the Department.

**Teaching:** 10 hours of seminars and 3 hours of seminars in the MT. 9 hours of seminars in the LT. 3 hours of seminars in the ST.

The seminars include a mixture of lecture time, presentations and discussion. The ratio of lecture time and seminar time varies each week. Seminars do not include personal supervision time, which is scheduled independently with student supervisors.

Several seminars will include presentations by members of the Department of Mathematics on proposed topics for dissertations that they would be interested in supervising. Additional seminars will cover important aspects of writing a dissertation in mathematics, including: what plagiarism is and how to avoid it, the use of libraries for research, electronic research, general aspects of writing mathematics, and preparing a manuscript using mathematical text processing software (in particular, LaTeX).

Each student will be assigned a supervisor who will monitor their progress and provide appropriate guidance thorough the LT, ST, and over the summer.

**Formative coursework:** Students will be expected to produce an initial report (in LT) for which feedback will be provided.

**Indicative reading:** Detailed suggestions for reading will be provided by the supervisor.

**Assessment:** Dissertation (90%) in the LT and ST.

Oral examination (10%) in the ST.

Assessment is primarily based entirely on the Dissertation, three hard copies and one electronic copy of which must be submitted by 1st September 2018. (The report may include some software relating to the project.) Detailed information about the required format for this submission will be provided during the Seminars. At the end of summer term, each student will give a presentation to an audience including their supervisor on the topic of their dissertations. This will be graded and worth 10% of the course grade. Students will be given support in the seminars on how to prepare, how to present and what is expected.

### MC401 Half Unit

**Mediated Resistance and Activism**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Bart Cammaerts FAW-601c
with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted.

**Course content:** This course examines a variety of social, cultural and psychological issues as they relate to the audiences for mass and social media. It analyses people's everyday engagement with a mediated world. We will review the history of audiences and audience research from the vantage point of the present digital age, also examining key theories of audiences' and users' interpretation, engagement, fandom and creativity in a global and cross-media perspective. Students will be encouraged to read widely, to forge links with other aspects of media, communications and cultural studies in order to critically examine the positioning of audiences and users within the field, and to debate the nature and future of audiences in a changing media landscape.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** All students are expected to complete advanced reading, prepare seminar presentations and submit one essay of 1,500 words.

**Indicative reading:**

**Assessment:** Essay (100%, 3000 words) in the LT.

---

**MC402 Half Unit**

**The Audience in Media and Communications**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Sonia Livingstone FAW.7.01L

**Availability:** This course is available on the MPhil/PhD in Data, Networks and Society, MSc in Culture and Society, MSc in Marketing, MSc in Media and Communications, MSc in Media and Communications (Research), MSc in Politics and Communication and MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted.

**Course content:** This course aims to examine the various ways in which citizens, activists and social movements use, appropriate media and communication technologies to resist and mobilise for resistance, but also how resistance is represented and mediated, by activists themselves through movement media as well as by the mainstream media. The course will address several aspects of the intricate relationship between media and communication, resistance and activism. The course is organised around the core-concept of the ‘mediation opportunity structure’ referring to the opportunities for agency through media and communication, as well as the structural constraints preventing agency and stifling dissent. Both Information and Communication Technologies (ICT’s) and more traditional media will be considered and a dialectical perspective on power and the relationship between agency and structure is adopted with a particular emphasis on strategies of resistance. The different lectures will focus on various aspects of the mediation opportunity structure, including mainstream media representation, self-mediation, counter-hegemony, networked opportunities - using examples from various regions in the world. Some case-studies will be situated at a local level of analysis, others at a national, while again others might relate to regional contexts or even transnational levels of governance.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** All students are expected to complete advanced reading, prepare seminar presentations and submit one essay of 1,500 words.

**Indicative reading:**

- Segerber personalization
- Uldam, Julie and Anne Vestergaard (eds) Civic Engagement and Social Media - Political Participation Beyond the Protest. Basingstoke: Palgrave Macmillan.

**Assessment:** Essay (100%, 3000 words) in the LT.
MC404   Half Unit
Political Communication in Democracies

This information is for the 2018/19 session.
Teacher responsible: Dr Nick Anstead PEL.7.01F
Availability: This course is available on the MSc in Media and Communications, MSc in Media and Communications (Research), MSc in Politics and Communication and MSc in Strategic Communications. This course is available as an outside option to students on other programmes where regulations permit.
This course is available to other students from the Department of Media and Communications, and students from other departments at the LSE. Students from the Department of Government are particularly welcome.
Please note however that places are limited. In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped. This means that there is a limit to the number of students who can be accepted. While we do our best to accommodate all requests, we cannot guarantee places on the course.

Course content: This course examines five areas of public communication in contemporary democracies, including campaigning, political marketing and branding, political reporting, and issues of public diplomacy.

Assessment: Essay (100%, 3500 words) in the ST.
Course content: Policy and practice in ICTs and development do not always align. What are day-to-day ICT practices of users, particularly in the Global South? And how does one design an ICT (information and communication) policy which is as inclusive as possible? What are the decision-making processes involved in policy – for example, in mobile regulation, digital labour, payments and transfers and e-waste, just to take a few examples? This course will examine ICT policies and their relationship with society and development, drawing on multi-disciplinary theories and mutual learning from other modules (for example, MC424, MC403, MC421). We discuss issues including competition and regulation, ICTs and development, overcoming affordability barriers, information rights, the value of data, data sovereignty and privacy, mobile internet use, and ICT waste. For example, some of the topics we have discussed in the past include competition and regulation in Bhutan, mobile internet and income generation for women in China, policy-making surrounding the political economy of billing in South Africa and international practices and (lack of) policy on global flows of e-waste.

Course objectives are: to examine the juxtaposition and gaps between current common ICT practices (e.g. using WhatsApp to sell homemade goods), and formal policies and accountable stakeholders (who regulates this?); to understand current experience and the application of policy development and research methods in these areas; and to illustrate these issues from practical experience.

Teaching: 5 hours of lectures and 20 hours of seminars in the LT. This class is taught in flexible way and requires every student to attend a two-hour seminar each week and a one-hour guest lecture every other week. The guest lecture series is shared with MC405/403 and students are strongly encouraged to attend all 10 guest lectures.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one mid-term formative 1500 word formative essay.

Assessment: Essay (100%, 3000 words) in the ST.

MC407 Half Unit International Media and The Global South

This information is for the 2018/19 session.

Teacher responsible: Dr Shakanulla Banaji FAW.7.01F

Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Research) and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted.

Course content: This course challenges students to raise questions about the power and role of international media - including media originating in the global south - in shaping global discourses about development, citizens and the global south. Building on empirical examples, the lectures aim to demonstrate that the reporting and discussion of poverty, disasters, political unrest, underdevelopment and development by international media organizations has implications, not only for the way the global south and its diverse populations are imagined and represented, but also for the arena of international and national policy and politics. From different theoretical perspectives, the course critically investigates key questions concerning the role of international, national, NGO and subaltern media in development, including the failure of the dominant modernization paradigm to ‘pass away’. The course offers insight into how to approach the study of media constructions, discourses and representations of, and about, the global south and its critical framings. This involves: (a) introduce debates about how media power shapes international development discourses and political realities for citizens in the global south; (b) Link dominant development theories to the paradigms of mediated NGO development interventions; (c) Provide a postcolonial critique of the study of representations of poverty, development, participation and the global south; (d) Critically assess aspects of the political economy of international media production within the contexts in which both local media groups and NGOs research, package and produce information about international development, especially in and about the global south and (e) Investigate whether and in what ways new and mobile technologies, and small and participatory media formats enable alternative voices and its critical framings to be heard from the global south to be heard. The course is organized into three sections: 1) a historical and theoretical overview of international media, development and the global south locating the debate(s) around development and communication within postcolonial and other critical frameworks, 2) Critical perspectives, drawn selectively from studies of development theory, political economy and cultural studies and pertaining to identity, ideology, representation, regulatory frameworks, good governance and democracy and 3) Cases and practices in reporting development, poverty, inequality and humanitarian issues. Cross-cutting themes will include a consideration of gender, NGO communications, ethnic and social conflict, tourism campaigns, social media and ICTs in the context of international media and change in the global south.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

MC408 Half Unit
Theories and Concepts in Media and Communications I (Key concepts and interdisciplinary approaches)

This information is for the 2018/19 session.
Teacher responsible: Dr Bart Cammaerts FAW.6.01C
Availability: This course is compulsory on the MSc in Global Media and Communications (LSI and Fudan), MSc in Global Media and Communications (LSI and UCT), MSc in Global Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Media, Communication and Development, MSc in Politics and Communication and MSc in Strategic Communications. This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBAM Exchange), MPhil/PhD in Data, Networks and Society, MPhil/PhD in Media and Communications, MSc in Culture and Society, MSc in Gender, Media and Culture and MSc in Political Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.
In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.
Course content: This course addresses key theoretical and conceptual issues in the study of media and communications, within a broadly interdisciplinary social science perspective. It grounds the analysis of media and communications phenomena within broader sociological and political theories of social order and social change, thereby revealing the shifting significance of the media environment for relations among the state, market and public sphere in a globalising knowledge society. The course is divided into two main sections. The first part examines what we study, which ranges from content, infrastructures to audiences. The second part explores selected critical perspectives which have proved influential in the field of media and communications and which provide answers to the question why we study what we study.
As a team-taught course that combines weekly lectures and seminars, its purpose is to expose students to a range of research-led debates at an advanced level, and to enable students to develop their understanding and critical appraisal of the relation between media and power at the levels of institutions, culture and social processes.
The course also includes an invited speaker series (‘Media Agenda Talks’) which addresses the interface between academic issues taught on the Media and Communications programmes and professional issues facing the media and communications industry. Speakers will normally include a mix of journalists and executives working for UK and global media companies or in the NGO-sector in London. The purpose is to provide an opportunity for students to relate the topics and themes addressed within their academic studies to the debates and concerns currently facing practitioners.
Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT.
Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words during MT.
Indicative reading: A reading list will be provided for each topic.
MC409 Half Unit
Media, Technology and Everyday Life

This information is for the 2018/19 session.
Teacher responsible: Dr Leslie Haddon
Availability: This course is available on the MPhil/PhD in Data, Networks and Society, MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications, MSc in Media and Communications (Research), MSc in Media, Communication and Development, MSc in Politics and Communication and MSc in Strategic Communications. This course is compulsory on the MSc in Global Media and Communications (LSI and Fudan), MSc in Global Media and Communications (LSI and UCT), MSc in Global Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Media, Communication and Development, MSc in Politics and Communication and MSc in Strategic Communications. This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBAM Exchange), MPhil/PhD in Data, Networks and Society, MPhil/PhD in Media and Communications, MSc in Culture and Society, MSc in Gender, Media and Culture and MSc in Political Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.
In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Assessment: Essay (100%, 3000 words) in the ST.
MC411 Half Unit
Media and Globalization

This information is for the 2018/19 session.
Teacher responsible: Dr Ellen Helsper
Availability: This course is compulsory on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT) and MSc in Global Media and Communications (LSE and USC). This course is not available as an outside option.

Course content: The aim of this course is to explore and demonstrate the role of the media and communications in the processes of globalisation by introducing the relevant literature, by examining various theories of globalisation and by identifying their relevance in understanding the media. Topics taught include: Globalisation theories, Media imperialism, Global generations, Global media production, Cosmopolitanism, Global representations, Global consumption, and Comparative research.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

Assessment: Essay (100%, 3000 words) in the LT.

MC413 Half Unit
Information, Communication and Knowledge Systems

This information is for the 2018/19 session.
Teacher responsible: Prof Robin Mansell FAW.6.01E
Availability: This course is available on the MPhil/PhD in Data, Networks and Society, MSc in Media and Communications (Media and Communications Governance) and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: This course examines how innovation and policy influence the development of digital technologies and the information, communication and knowledge environment they support. It critically assesses media and communications (and internet) policy and practice which aim to secure public benefit that is equitable, just and inclusive. Policy and practice influence, and are influenced by, institutional arrangements in distinctive political, social and cultural contexts. This course offers an opportunity to acquire an understanding of critical approaches to policy analysis in relation to information / knowledge societies and their contributions to the Sustainable Development Goals. It explores dominant and alternative perspectives, comparing and contrasting their discourses and consequences. Students will critically assess developments in their own regions/countries and examine the reasons that policy formation and implementation are contested in this area, resulting in both empowering and disempowering outcomes.

Provisional Lectures:
1) Introduction: What are information or knowledge societies?
2) Digital Technologies and the Sustainable Development Goals (SDGs): Mainstream Views
3) Dominant Strategies for Assessing the Contribution of Digital Technologies to the SDGs
4) What is Critical Policy Analysis?
5) Using Critical Policy Analysis to Critiques Mainstream Views of the Contribution of Digital Technologies to the SDGs - Reading Week
7) Critical Reflections on Digital Applications and SDGs I: Policy Communities and the Capacities Approach
8) Critical Reflections on Digital Applications and SDGs II: Power Relations and Discourse Analysis
9) Applying Critical Policy Analysis to Digital Divide Debates
MC416 Half Unit

Representation in the Age of Globalisation

This information is for the 2018/19 session.

Teacher responsible: Dr Shani Orgad PEL.7.01G

Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Media and Communications (LSE and USC), MSc in Media and Communications and MSc in Media and Communications (Research). This course is available with permission as an outside option to students on other programmes where regulations permit. In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: Images and stories circulated in the media play a central role in informing how we imagine the world, others and ourselves. We become increasingly dependent, often exclusively, on what we see, read and hear in the news, on social media, our favourite television drama series, in advertisements, and films, or on the radio. This course focuses on the way media representations are implicated in the exercise of power over how we think and feel through the construction of meaning. It explores the opportunities that media representations present for the creation of a global and interconnected space, which enables the people living in it to conduct their social, cultural, political and economic lives in positive, just and inclusive ways. At the same time, the course discusses some of the critical challenges, limits and threats those visual and textual representations present. The discussion focuses on the representation of the Other and the production of difference, the representation of gender, suffering and migration - timely issues which are ever more urgent in contemporary public life. It examines how transformations in the contemporary media landscape, such as the expansion of social media platforms, the increasing commodification and global scope of communication, shape the ways in which public issues are framed, imaged, and constructed, the consequences this may have for the moral judgements people make and the possibilities for disrupting dominant narratives and imaginaries.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

MC418 Half Unit

Theories and Concepts in Media and Communications II (Processes of communication in modern life)

This information is for the 2018/19 session.

Teacher responsible: Prof Myria Georgiou FAW.7.01G

Availability: This course is compulsory on the MSc in Media and Communications. This course is available on the MPhil/PhD in Data, Networks and Society, MPhil/PhD in Media and Communications, MSc in Media and Communications and MSc in Media and Communications (Research). This course is not available as an outside option. In order to accommodate academic staff leave, and in order to maintain smaller group sizes, this course is capped, meaning there is a limit to the number of students who can be accepted.

Course content: This course examines key concepts and critical perspectives on the processes of communication that underpin social, economic and cultural relations across diverse spheres of modern life. It takes an interdisciplinary and theoretical perspective, comparing the claims and contribution of selected key theories of communication in order to understand and critique the symbolic and material power of communication media. With a substantive focus on the shifts from mass to networked media and from national to globalised communication processes, the course offers a selective introduction to key theories in communication. It examines a series of critical perspectives, drawing on current research debates in the field of media and communications and beyond. The course is team taught by active researchers in the field of media and communications and aims to enable students to develop their critical understanding of the communication processes central to the contemporary media and communications environment.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit an essay of 1,500 words. In addition, there will be a one-hour theories and concept mapping exercise in class in last week of term.

MC420 Half Unit Not available in 2018/19

Identity, Transnationalism and the Media

This information is for the 2018/19 session.

Teacher responsible: Dr Myria Georgiou FAW.701G

Availability: This course is available on the MSc in Culture and Society, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: This course examines the relationship between identity and the media in the context of diaspora and transnationalism. The course explores meanings of identity at present times, especially as these are formed through experiences of mediated and physical transnational mobility. As migration and symbolic mobility, especially through the media, inform each other it becomes almost impossible to understand identity outside the context of mediation. The course is organised in three main thematic units. The first unit provides the conceptual entry point to the course. The second unit focuses on the modes of transnational communication: television, cinema and the internet. The third unit focuses on the spaces of transnational communication: the city, the nation and the transnational space. Each unit and lecture contributes to the understanding of identity in a world that is increasingly interconnected and networked.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

Assessment: Essay (100%, 3000 words) in the ST.
MC421 Half Unit
Critical Approaches to Media, Communication and Development

This information is for the 2018/19 session.

Teacher responsible: Dr Shikuntala Banaji FAW.7.01F

Availability: This course is compulsory on the MSc in Media, Communication and Development. This course is available on the MSc in Inequalities and Social Science. This course is not available as an outside option.

In order to accommodate academic staff research leave and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted.

Course content: The content of the course addresses the history of and tensions between ‘media for development’ and ‘communication for development’, while challenging mainstream development perspectives on aid, modernisation, and the role of media and communication in low income countries and unequal social contexts. It achieves this aim by emphasising the conflictual relationships between economic and political power structures and the empowerment of individuals, as well as among collective groupings within their local and regional contexts. In particular, paying attention to issues of history, colonisation, race and gender, this course questions the epistemological basis of modernisation approaches to Media, Communication and Development. It explores the ways in which the concepts of ideology, discourse, orientalism, reflexivity and power can enable a critical understanding of social life, participation and change in the global south. The course also offers a sharp critique of scholarly and policy oriented literature that regards the media, information, and communication strategies, and information and communication technology applications, as obvious means of alleviating poverty and fostering democracy and human rights in low-income countries. It offers alternative theorisations of the contested way in which developments in these areas become embedded in the cultural and social fabric, especially where poverty and unequal power relations influence the capacities of individuals to make changes in their lives.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.

Film viewing: 3 hours in MT.

Formative coursework: All students are expected to complete advance reading, participate in case studies and discussions on moodle forums, prepare seminar presentations, attend practitioner seminars and film/documentary viewings and submit one essay of 1,500 words.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

This is a seen examination, and the questions are made available to students up to seven days prior to the sitting.

MC422 Half Unit
Critical Studies in Media and Journalism

This information is for the 2018/19 session.

Teacher responsible: Prof Charles Beckett FAW.7.01K

Availability: This course is available on the MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research), MSc in Politics and Communication and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted.

Course content: The news media is vital not just for the dissemination information but as a forum for debate. Journalism shapes our individual and community lives. It frames ideological disputes and is a site of contestation. But journalism and the news itself is changing because of technological, social, economic and political forces. This course led by a media professor with 20 years of experience as a journalist, takes an ethical perspective on media change. It asks what impact journalism has, what kind of journalism do we want, and how will journalism reconstruct itself according to competing national, cultural, or political contexts. On completion of this course, students should be able to: understand the role of journalism in society today; critically discuss different theoretical conceptions of journalism as practiced in a wide variety of social and political contexts; compare and contrast the role of journalism in contexts ranging from mainstream to alternative media outlets; evaluate the normative and empirical connections between media journalism, the production of news and ethical considerations, critically assess contemporary debates about the changing nature of journalism and its implications for cultural understanding and democracy.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

MC423  Half Unit
Global Media Industries

This information is for the 2018/19 session.

Teacher responsible: Dr Bingchun Meng FAW 7.01H

Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research) and MSc in Media, Communication and Development.

This course is not available as an outside option.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted.

Course content: This course aims to present a critical view of theories, research and practices of media industries in the context of globalization. The central theme of the course is how media industries have been transformed by the recent political economic, cultural and technological changes on a global scale and how such transformation impact the content circulating across media platforms. Topics of interest include: new ways of organizing media production and distribution, digital media as a potential source of both resistance and control, media industries and creative cities; media policy and regulation at the global level. We will not only discuss key issues of media industries such as convergence, commodification, digital platforms, creative labour etc., but will also utilize different approaches such as political economy, cultural studies and sociology to analyze cases of media production.

Course objectives: This course aims to help you:

• Understand different approaches to the study of media industries
• Examine the transformation of media industries in the context of globalization
• Critically analyse the relationship between institutional arrangements of media industries and the content being produced and disseminated
• Critically evaluate global regulatory attempts to establish a new communication order and the dynamics of alternative media

Topics are structured as follows:

• Media production and distribution in a globalised era
• The many lives of media commodities
• Creative labour in media industries
• Convergence: Top-down and bottom-up
• Policy and regulation
• Political economy of film industry
• The neoliberal theatre of Reality TV
• Media industries and creative cities
• Sociology of news production
• Summary and dissection

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: All students are expected to complete advance reading, prepare seminar presentations, and submit one essay of 1,500 words.

Assessment: Essay (100%, 3000 words) in the LT.

MC424  Half Unit
Media and Communication Governance

This information is for the 2018/19 session.

Teacher responsible: Dr Damian Tambini FAW 7.01J

Availability: This course is compulsory on the MSc in Media and Communications (Media and Communications Governance). This course is available on the MPhil/PhD in Data, Networks and Society. This course is not available as an outside option.

Course content: Should the internet be governed? How should law and policy on the press and the media be reformed in the light of technological change? This course lays the foundation to enable students to approach these and related questions in an informed, authoritative way. Communication governance includes all attempts by public bodies to fund, licence or otherwise regulate or govern communication services or the providers of those services, usually for an alleged public benefit. The process of governance includes public policy debate and discussion and the processes of self-regulation and legal regulation. The term ‘governance’ refers to the norms, rules and resources together with their theoretical underpinnings that inform the production and consumption of media and communication services. The course covers the key concepts required to gain an understanding of the processes through which public authorities, corporations and the public are involved in setting rules, building institutions and providing public resources for the provision of media and communication services. This course begins from the assumption that media and communication can only be fully understood if their ‘governance’ and its implications for citizens and consumers as well as producers, are understood. Illustrations are drawn from UK, European and international developments, thereby presenting a multi-levelled analytical approach to governance issues in the field. The first half of the course maps key elements of communication governance including key concepts and institutions. The second half of the course examines contemporary issues and debates in communication governance.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST.

Formative coursework: All students who can be accepted.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.
MC425 Half Unit  
**Interpersonal Mediated Communication**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Ellen Helsper FAW.7.01E

**Availability:** This course is available on the MPhil/PhD in Data, Networks and Society, MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Research), MSc in Politics and Communication and MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. **Students are asked to write a short personal statement** on LSE for You indicating why they want to take this course. Whilst we do our best to accommodate all requests, we cannot guarantee you a place on this course.

**Course content:** Communication media have been blamed for a breakdown of social relationships and have simultaneously been hailed as powerful social tools that can connect people from all walks of life. This course addresses the ways in which interpersonal relationships and communication are influenced by mediation. The aim of this course is to provide students with a critical understanding of mediated communication within small groups and dyadic relationships. The course examines the influence of media on three key fields of interpersonal interaction which are identified as personal, social and professional communication.

The first half of the course addresses the history of media in interpersonal communication as well as general interpersonal communication and relationship theories. The second half looks in more detail at how the interaction between media and interpersonal communication has been studied in relation to the cross-cutting themes of privacy/trust, isolation/socialisation and multi-modality. These central concepts of the course are reflected upon through theories of social norms, affordances, social capital and supplementation/substitution, and discussed from the perspective of different disciplinary and methodological paradigms. Application of theory to practitioner and policy examples will give students the tools to understand what the practical implications are of the ways in which these different paradigms suggest that interpersonal communication processes vary depending on the type of platform this communication takes place on as well as the type of relationship that is under investigation in the context in which this relationship develops. As a result of the course the students will be able to evaluate the weaknesses and strengths of the theories that aim to explain apparently contradictory observations about the practice of interpersonal mediated communication. This can be applied to professional areas such as User Experience Design, intra-organisational communication, moderation and regulation of social media and discussion forums.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** All students are expected to complete advance reading, participate in the creation of a course wiki, prepare group seminar presentations and write an individual essay (1,500 words) based on the presentation and the material provided for the wiki (due the week after the week in which the student is responsible for the wiki).

**Assessment:** Essay (100%, 3000 words) in the ST.

---

MC426 Half Unit  
**Film Theory and World Cinema**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Shakuntala Banaji FAW.7.01F

**Availability:** This course is available on the MSc in Gender (Sexuality), MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Research) and MSc in Media, Communication and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted.

**Course content:** This course is designed to enable a consistent, informed and plausible reading of popular film representations, discourses and cultures of consumption in specific geopolitical contexts. Introducing theories from the humanities and the social sciences, lectures offer alternative approaches to theorising sexuality, gender, race, class, religion, national identity, childhood, history and politics in popular commercial films and their interpretation by audiences. The impact of unequal power relations - on how representations are reproduced, spectatorship is theorised and censorship policies are formulated - will be demonstrated and analysed. While the course offers a particular focus on Bollywood, Hong Kong,商业 cinema, as an example of World cinema, it refers more widely to examples from other National Cinemas such as those of China, Korea, Australia, Spain and Iran. A key learning method is the extensive interrogation of audiovisual materials. To this end, there will be five film screenings alongside the lectures and seminars. Additionally, films referred to on the course will be made available through the library or can be downloaded and watched from popular film sites on the internet.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** All students are expected to complete advance reading, participate in moodle forums, present in seminar discussions, attend 5 film screenings in the MT.

**Assessment:** Essay (100%, 3000 words) in the ST.

---

**5 three-hour film screenings in the MT.**

MC427    Half Unit

Digital Media Futures

This information is for the 2018/19 session.

Teacher responsible: Dr Alison Powell PEL.7.01J

Availability: This course is available on the MSc in Media and Communications, MSc in Media and Communications (Data and Society) and MSc in Media and Communications (Research). This course is available as an outside option to students on other programmes where regulations permit.

In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.

Course content: This course provides an historical, theoretical and methodological basis through which to assess the social and cultural transformations related to digital media infrastructures and related social practices. It focuses on the materiality and affordances of new media, as well as on the social transformations that have co-evolved, including open source media production practices and peer to peer organizing practices. It critiques and questions the assumptions about the transformation of social and cultural life but also attempts to help students develop conceptual strategies beyond critique. A central focus of the course will be the claims made about the implication for collaborative work and culture of the qualities of digital data, considered through topics including but not limited to: peer to peer and open source cultural movements, the political economy and ecology of digital media, the politics of algorithms, remembering and forgetting, as well as the shift towards ‘data as media’ and its implications for media publics and media power. Students will be invited to consider the broader contexts of all of these media futures, including those related to policy and governance.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will complete a 1,500 word formative essay based on a case study. They will also receive formative feedback on class participation and on participation in creating a shared, online ‘Encyclopedia of Media Futures’ modelled on Wikipedia.

Assessment:Essay (100%, 3000 words).
MC429 Half Unit
Humanitarian Communication: vulnerability, discourse and power

This information is for the 2018/19 session.
Teacher responsible: Dr Samuel Mejias
Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media, Communication and Development and MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Today more than ever, images and narratives of vulnerable people in zones of disaster, violence and conflict routinely populate everyday lives in the West. Taking our starting point on these images and narratives produced by a number of actors (NGOs, journalists, citizens, militants or regular armies) and appearing in a large number of digital platforms (NGO websites, news networks, social media and celebrity advocacy), we explore the changing practices of humanitarian communication in the 21st century — broadly understood to encompass disaster communication and conflict reporting (but also increasingly human rights appeals). We do so by addressing questions such as: What are the histories of humanitarian communication? How is it changing today and why? What are the tensions and dilemmas that organizations face as they struggle to communicate the plight of distant others? What kind of politics of visibility and voice is played out in the mediation of distant suffering? Which ethical norms inform the digital narratives and spectacles of vulnerable others in those zones? And finally, which are the challenges of 21st century humanitarian communication and can we do it better? To explore these issues, the course adopts an interdisciplinary and case-based approach that enables students both to debate the theoretical links between vulnerability, discourse and power and to reflect on concrete examples of the communication of humanitarian messages and conflict news today. The course consists of three parts: the politics of mediating distant suffering; humanitarian communication in disaster zones; conflict reporting in ‘humanitarian’ wars.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 essay in the LT.
All students are expected to complete advance reading, prepare reading-based seminar presentations, and submit one essay of 1,500 words.

Indicative reading:

Assessment: Essay (100%, 3000 words) in the ST.

MC430 Half Unit
Data in Communication and Society

This information is for the 2018/19 session.
Teacher responsible: Dr Alison Powell PEL.7.01J
Availability: This course is compulsory on the MSc in Media and Communications (Data and Society). This course is available on the MPhil/PhD in Data, Networks and Society. This course is not available as an outside option.

Course content: This course investigates the significance of data in communications, social and cultural life. It introduces core theoretical perspectives on data and information from a social scientific perspective, and outlines research approaches that take account of the contemporary influence of data within communication and society. The course begins with the social history of data, providing a strong baseline from which to analyse the contemporary position of data. The course will provide students with conceptual tools that will help unpack the logic of data, and train them to critically analyse phenomena such as big data, algorithmic regulation and augmented civic space. Its focus on contemporary issues allows an investigation of the politics and culture of data production, and the use of data as evidence in a range of fields including politics, advocacy and audience research. Some of the questions addressed through the course include: Who owns data? Who makes data? Who makes sense of data? Is data public or private? How do different actors get access to data? How is data protected and regulated? What significance do new analysis methods have for the influence of data? These and other questions reflect the course’s focus on developing a critical account of how data is implicated in the structures that shape social life. How does culture both rely upon and push back against data-based communication?

Teaching: 10 hours of lectures and 10 hours of classes in the MT.
Formative coursework: Students will be expected to produce 1 presentation (group project, student-led session) in the MT, along with written formative work.
There are two options for written formative coursework on this course.
Students can choose:
EITHER a 1500 word essay
OR a 1000 word proposal for case analysis and recommendation

Indicative reading:

Assessment path 1

Assessment: Assessment path 1

Assessment path 2

Assessment: Assessment path 2

Project (100%, 3000 words) in the LT.

Project (100%, 3000 words) in the LT.

There are two options for summative assessment on this course.
The project comprises of a case analysis and recommendation:
1 Description of case
2 Analysis
3 Recommendations
4 Theoretical and normative contextualization

Case study analysis and recommendation: Students choose a current data-related product, service or use case, providing an analysis of how data are theoretically constructed, valued, managed and conceived within the project, using relevant theoretical material. The case study must identify an area of ethics,
governance or social justice that this product, service or use case could improve, and provide a concrete set of recommendations, grounded in the existing theoretical, historical and empirical literature. This analysis and recommendation will be accompanied by a critical reflection that highlights the theoretical and normative aspects of the case, your analysis and your recommendation. This section should be grounded in the relevant theoretical material.

**MC431   Half Unit**  
**Critical Approaches to Strategic Communications**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Lee Edwards, PEL.7.01.B  
**Availability:** This course is compulsory on the MSc in Strategic Communications. This course is not available as an outside option.  
**Course content:** This course provides an advanced understanding of theoretical knowledge in the field of media and communication as this relates to strategic communications and its key promotional industries of advertising, branding and public relations. The focus is on the role, scope and activities of strategic communications in contemporary societies and in the context of globalisation and the digital age. Topics cover the context, practices and challenges of strategic communications, and are likely to include: the advance of promotional culture in and across public, political, non-profit and corporate institutions; professional structures and identities of the strategic communications industries; discourses of strategic communications, including reputation and relationship management; technologies of strategic communications; globalisation and strategic communications; strategic communications and inequalities (gender, ‘race’, class), and the ethics of strategic communications.  
**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.  
**Formative coursework:** Students will be expected to produce 1 x 1,500 word essay in the MT.  
**MC432   Half Unit**  
**Strategic Communication in Practice: Professional Perspectives**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Lee Edwards, PEL.7.01.B  
**Availability:** This course is available on the MSc in Media and Communications, MSc in Media and Communications (Research), MSc in Politics and Communication and MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.  
In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted. Whist we do our best to accommodate all requests, we cannot guarantee you a place on this course.  
**Course content:** This course will be delivered as a combination of academic lectures and presentations from leading industry practitioners, in order to facilitate a cross-fertilisation between professional experience, academic perspectives, public debates and research. Students will be expected to critically engage with ideas from practice in the seminars, developing reflexivity and analytical skills through the course.  
The professional lecturers will be experts working on various forms of strategic communication in a wide range of sectors, including the corporate sector; the not-for-profit sector such as global NGOs and activist organisations; the voluntary sector; government and public sector organisations; and journalists. The course will culminate in a group-based practical presentation from students of their own campaigns, which will form part of the course assessment. The topics covered will change each year depending on speaker availability, but as an illustration, the range of topics could include: connecting with elusive audiences, social marketing/nudge marketing, global media industries: global NGOs; fundraising and strategic communications; communicating in complex contexts; communicating change; communicating government policy, crisis communication, communication, consultation and citizenship.  
**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.  
**Formative coursework:** Students will be expected to produce 1 x 1,500 word essay in the LT.  
**Assessment:** Presentation (20%) and project (30%, 2500 words) in the LT.  
**Essay (50%, 2000 words) in the ST.**  
The presentation and project are linked, group-based assessments: the project is the written campaign proposal for the campaign described in the group presentation.

**MC433   Half Unit**  
**Technology and Justice**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Seeta Gangadharan FAW 7.01I  
**Availability:** This course is available on the MPhil/PhD in Data, Networks and Society, MSc in Global Media and Communications.

MC434 Half Unit
Digital Platforms and Media Infrastructures
This information is for the 2018/19 session.
Teacher responsible: Dr Jean-Christophe Plantin, PEL. 701.
Availability: This course is available on the MPhil/PhD in Data, Networks and Society, MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research) and MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.
In order to accommodate academic staff research leave and sabbaticals, and in order to maintain smaller seminar group sizes, this course is capped, meaning that there is a limit to the number of students who can be accepted.
Pre-requisites: No pre-requisites
Course content: This course analyses digital platforms through their complex interactions with existing media infrastructures that organise the circulation of media, knowledge and information in society, through a process we present as ‘platformisation’. It relies on key readings in media & communications studies and on contemporary examples of digital media platforms to provide an historical account on the rise of platforms, to analyse their material properties, and to reflect on the social and political consequences of their increasing use alongside existing media infrastructures. It provides students with both theoretical and empirical resources to critically assess the complexity of media transformations induced by platforms.
Students will explore the multiple facets of this process, by critically analysing how platforms replace, conflict with, or influence existing media infrastructures, and what are the social,
Disruptive Digital Worlds: Competing Economic and Political Economy Explanations

This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society) and MSc in Media and Communications (Media and Communications Governance). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Two important trends are expected to influence the world economy over the next decade - rising income and wealth disparity and increasing dependency on digital systems. This course will help students to understand responses to these developments. There is little agreement about the consequences of high levels of digital industry concentration, job losses due to artificial intelligence, whether citizens and consumers can control their digital environment, or how to respond. For some, digital transformation is a welcome sign of progress; for others, it brings risks of threats. Growing dependency on digital platforms, automation, the Internet of Things, online monitoring, and big data analytics, is often depicted as inevitable and as a sign that market reform is needed, or it is claimed that radical change is needed to protect citizens and consumers. Examples of failures to protect citizens/consumers abound in everyday life, e.g. compromised bank accounts, large breaches in the security of social media user data, and the release of mobile operator customer records. Students will learn about the differences between free market (neoclassical), market reform (institutional) and political economy theories of disruptive digital transformation. They will learn how to critically read and interpret the claims of companies, policy makers and citizen advocacy groups and the claims in the academic literature and the popular and trade press. Students will compare and contrast the questions asked and assumptions made in different approaches to disruptive innovation and the consequences of the different approaches for the kinds of changes that may be advocated by different stakeholders.

The course will consider the history of and expectations about the future of digital platforms, social media and mobile services. Does everyone have to adapt to rapid technological change? What is the link between rising inequality and digital technologies? Who, if anyone, has the power to change contemporary trends in the digital world? Are the goals of economic growth in the digital industry in conflict with the goals of equity, inclusive socio-economic outcomes and preserving human dignity?

Lecture topics:

Week 1: Introduction: Why Digital Disruption Matters
Week 2: Digital Transformation History and Future Expectations - Theoretical Perspectives
Week 3: Digital Platforms Everywhere - What They Do and Why it Matters
Week 4: Old Media Industries and New Big Players - Business Strategies and Market Concentration
Week 5: Digital Service Quality Standards and Consumer/Citizen Protections
Week 6: (reading week - students will receive support for the preparation of team project presentations)
Week 7: Case 1: Artificial Intelligence, Automation and Employment
Week 8: Case 2: Investment in Digital Capacity (Networks and Services): Catching Up and Falling Behind
Week 9: Case 3: Transformation in the Audio-visual Digital Market
Week 10: Case 4: Transformation in Mobile Service Markets
Week 11: Conclusion: Comparing Economic Perspectives on Digital Transformation

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

A 1,500 word essay on a topic selected from a list of questions.

The first part of the course will introduce the theoretical framework, based on media and communications scholarship analysing the rise of platforms through their relations to existing media infrastructures. The second part illustrate these interactions through case studies, for example social media platforms and news production, platforms data used for scientific research, or geolocated platforms for urban mobility. The third part addresses current social debates around platformisation: such as the transformation of online participation, new forms of platform-based activism and citizenship, and the alternatives to corporate platforms in access to knowledge.

At the end of the course, students will be able to critically assess what platformisation is and to identify the challenges platforms bring in terms of access to communication, knowledge and democratic life.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: EITHER a 1,500-word formative essay on current theoretical debates around media platforms and society.

OR a 1,500-word proposal for a case study analysis of a media platform.

Indicative reading:

- Helmond Platformization

Assessment: Essay (100%) in the ST.

Final summative essay (100%)

-EITHER (1) a 3,000-word essay on current theoretical debates around media platforms and society. Five questions, addressing key issues around the topic, will be distributed in advance, and this essay will constitute a response to one of them.

-OR (2) a 3,000-word case study analysis of a current media platform. It will consist of a detailed investigation of a digital platform, using relevant literature and original research design to contribute to the general analysis of the platformisation of social life.

MC435 Half Unit

This information is for the 2018/19 session.

Teacher responsible: Prof Robin Mansell FAW.6.01E

Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society) and MSc in Media and Communications (Media and Communications Governance). This course is available with permission as an outside option to students on other programmes where regulations permit.
MC436  Half Unit
Mediating the Past
This information is for the 2018/19 session.
Teacher responsible: Dr Omar Al-Ghazzi
Availability: This course is available on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Media, Communication and Development, MSc in Politics and Communication and MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.

Week 1 Collective memory & nostalgia
Week 2 History & historiography
Week 3 Colonial, de-colonial & post-colonial time
Week 4 War, trauma & temporality
Week 5 Nationalism & commemoration
Week 6 – Reading Week
Week 7 Collective action, generations & the mobilization of time
Week 8 Speed, technology & experiences of time
Week 9 Journalism pasts & futures
Week 10 Social media time
Week 11 Popular culture & the representation of time

Course content: This course starts with the premise that the understanding of the past and the future is socially-constructed, mediated, and shaped by power relations within the present. It critically explores cultural, political and technological issues in relation to the passing of time. It addresses questions such as: How do power relations shape understandings and experiences of time? How do we learn about history through media and why does that matter? How did the experience of colonialism impact collective understandings of history and national futures? In addressing these questions, this course makes creative connections between various topics in media and communication studies. It introduces students to the field of collective memory, differentiating it from history and historiography. It then considers critical issues within the relation between history, memory and politics, which are colonialism/ postcolonialism, trauma, nationalism, and collective action. The second part of the course focuses on the analysis of technology and media in the ways they contribute to the social construction of time. It addresses how privilege and access to technology regulate the speed and slowness of people’s lives. It moves on to exploring how particular media conventions represent temporality, with a focus on news media and social media. The course concludes with a discussion of the social and political significance of popular culture representations of the past and the future. By the end of the course, students will be able to identify key debates in the study of time and temporality, particularly as approached from the disciplinary perspective of communications and media studies.

Teaching: 10 hours of lectures in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Essay (10%, 3000 words).

MC499  Dissertation: Media and Communications
This information is for the 2018/19 session.
Teacher responsible: Dr Omar Al-Ghazzi FAW.7.01.C
Availability: This course is compulsory on the MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in...
MC4M1  Half Unit

Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis)

This information is for the 2018/19 session.

Teacher responsible: Dr Ellen Helsper (MT) and Dr Jean-Christophe Plantin (LT and ST)

Availability: This course is available on the MSc in Gender, Media and Culture, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media, Communication and Development, MSc in Politics and Communication and MSc in Strategic Communications. This course is not available as an outside option.

Course content: The aims of the course are to provide students with a general training in research methods and techniques, including research design, the collection, analysis and interpretation of data, and to enable students to evaluate critically their own research and that of professional researchers.

The course has three components:

i. Principles of Research in Media and Communications: a series of lectures offered by media and communications staff in MT. The lectures will normally cover the following topics central to research design across the social sciences, with a specific emphasis on their application to media and communications contexts: the general nature of research as social inquiry, interviewing, critical discourse analysis, social network analysis, content analysis, visual analysis, survey design/questionnaires, case studies, ethnography and participant observation, as well as research ethics.

ii. Principles of Social Research: a series of five three-hour workshops (each comprised of two 1.5-hour sessions) offered by media and communications staff in the LT. Students are required to participate in two of the workshops.

iii. Quantitative Analysis: Students have to take the following core course offered by the Department of Methodology: MY464 Introduction to Quantitative Methods for Media and Communications. Please note that this course is compulsory and automatically included within the MC4M1 course.

Teaching:

MC499.1: Compulsory Teaching and Supervision
MC499.1A
Two lectures in LT for all students.
MC499.1B
(i) Group Supervision Sessions (three): each supervisor holds group supervision sessions for their supervisees in LT and again in ST.
(ii) Individual Supervision Sessions: ad hoc sessions for each student with their supervisor that can be organised during feedback and consultation hours in LT and ST.
MC499.2: Dissertation Skills – Optional Sessions
MC499.2A
A lecture in LT on dissertation preparation skills (literature reviews, ethics, etc).
MC499.2B
Workshops led by Graduate Teaching Assistants in MT and LT. Places in these workshops are limited.

Formative coursework: Students are required to submit Ethics Checklist, Literature Review and Dissertation Plans to their supervisor in LT and ST.

Indicative reading: There are no formal reading lists, but students are encouraged to consult departmental handbooks on how to write dissertations.

Assessment: Dissertation (100%, 12000 words).

The dissertation must be submitted in August.
This course confronts you with your own biases; it shows how using different methodologies and ways of observing the world lead to asking different questions and, therefore, different answers and relates this to the ethical and moral implications of doing research.

MC4M2
Advanced Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis)

This information is for the 2018/19 session.
Teacher responsible: Dr Ellen Helsper
Availability: This course is compulsory on the MSc in Media and Communications (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

Students taking non-research track media and communications MSc programmes may take this course instead of MC4M1 subject to their own degree regulations and with the agreement of the teacher responsible.

Course content: i. Principles of Research in Media and Communications: a series of lectures offered by media and communications staff in LT. The lectures will normally cover the following topics: principles of research design, the collection, analysis and interpretation of data, and to enable students to evaluate critically their own research and that of professional researchers.

ii. Principles of Social Research Workshops: All students are expected to complete advance readings and submit workshop assignments.

iii. Quantitative Analysis: Most statistics courses require weekly assignments.

iv. Methodology pilot drop in clinic: Workshop (two hours) x 1 LT and ST.

Formative coursework: i. Principles of Research in Media and Communications: All students are expected to complete advance readings and submit one essay of 1,500 words to their supervisors in week 11 of MT.

ii. Principles of Social Research Workshops: All students are expected to complete advance readings and submit workshop assignments.

iii. Quantitative Analysis: Most statistics courses require weekly assignments.

Indicative reading:

MC4M7
Half Unit
Methods of Research in Media & Communications (including Qualitative Analysis & Applied Regression Analysis)

This information is for the 2018/19 session.
Teacher responsible: Dr Ellen Helsper (MT) and Dr Jean-Christophe Plantin (LT and ST)
Availability: This course is available on the MSc in Gender, Media and Culture, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media, Communication and Development, MSc in Politics and Communication and MSc in Strategic Communications. This course is not available as an outside option.

Course content: The aims of the course are to provide students with a general training in research methods and techniques, including research design, the collection, analysis and interpretation of data, and to enable students to evaluate critically their own research and that of professional researchers.
The course has three components:

i. **Principles of Research in Media and Communications**: a series of lectures offered by media and communications staff in MT. The lectures will normally cover the following topics central to research design across the social sciences, with a specific emphasis on their application to media and communications contexts: the general nature of research as social inquiry, interviewing, critical discourse analysis, social network analysis, content analysis, visual analysis, survey design/questionnaires, case studies, ethnography and participant observation, as well as research ethics.

ii. **Principles of Social Research**: a series of five three-hour workshops (each comprised of two 1.5-hour sessions) offered by media and communications staff in the LT. Students are required to participate in two of the workshops.

iii. **Quantitative Analysis**: Students have to take the following course offered by the Department of Methodology: MY452M Applied Regression Analysis. Please note that this course is compulsory and automatically included in the MC4M7 course.

**Teaching:**

i. Principles of Research in Media and Communications: Lecture (one hour) x 10 MT; Lecture on Writing Methodological Critiques (one hour) x 1 LT.

ii. Principles of Social Research: Workshop (three hours) x 2 LT (each comprised of two separate 1.5 hour sessions).

iii. Applied Regression Analysis MY452: Lecture (two hours) x 10 MT; Computer class (one hour) x 10 MT.

iv. Methodology pilot drop in clinic: Workshop (two hours) x 1 LT and ST.

**Formative coursework**: i. Principles of Research in Media and Communications: All students are expected to complete advance readings and submit one essay of 1,500 words to their supervisors in week 11 of MT.

ii. Principles of Social Research: All students are expected to complete advance readings and submit workshop assignments.

iii. Applied Regression Analysis: Most statistics courses require weekly assignments

**Indicative reading:**

**Assessment**: Exam (20%, duration: 2 hours) in the summer exam period.

Coursework (80%, 3000 words) in the ST.

Description of assessment:

1. Coursework: One written assignment of not more than 3,000 words, relating to the combination of Principles of Research in Media and Communications and Principles of Social Research to be submitted in ST Week 1 (80%).

2. A two-hour examination in the ST relating to Applied Regression Analysis (MY452M) (20%). Students have to complete both assessments (written assignment and statistics exam) on this course. This course confronts you with your own biases; it shows how using different methodologies and ways of observing the world lead to asking different questions and, therefore, different answers and relates this to the ethical and moral implications of doing research.

**MG401 Half Unit Not available in 2018/19**

**Operations Management for Management Consultancy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Richard Steinberg NAB3.08

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Management (1 Year Programme), MSc in Management Science (Decision Sciences), MSc in Management of Information Systems and Digital Innovation and MSc in Operations Research & Analytics. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** There is a pre-assignment that is due at the first lecture of Lent term 2018. The specification of the pre-assignment will be posted to Moodle on the last day of Michaelmas term 2017. Note that the pre-assignment is compulsory and cannot be accepted late.

**Course content:** The course covers eight topics: (1) Process Flow Analysis, (2) The Toyota Production System, (3) Inventory Management, (4) Assembly Line Balancing, (5) Project Management, (6) Quality Management for Services, (7) Forecasting, and (8) Scheduling. The course is structured in three parts. Part I is called 'Cases', and is based around a set of five readings: three Harvard Business School cases and two articles. Part II is called 'Techniques'. Part III is called 'The Goal', which takes place during the final 2-hour session, and consists of an in-depth discussion of the book, The Goal, by E.M. Goldratt and J. Cox.

**Teaching:** 16 hours of lectures and 12 hours of seminars in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** In addition to the pre-assignment students will have six assignments throughout the term covering the material in the course, and will be expected to work as a group on each assignment. The problems comprising each assignment will be discussed in the seminar classes, and each student will be individually responsible for answering all the problems for each assignment.

**Indicative reading:**

1. Case: 'National cranberry cooperative (abridged)'
2. Case: 'Toshiba: Ome works'
4. Article: 'Controlling variation in health care: a consultation from Walter Shewhart'
5. Article: 'Monitoring patients using control charts: systematic review'

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.
MG402  Half Unit

Public Management: A Strategic Approach

This information is for the 2018/19 session.
Teacher responsible: Professor Michael Barzelay NAB 3.19
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in African Development, MSc in Development Management, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is not available to students registered on Strategy and Change in Public Sector Management. Students should take either MG402 Public Management: A Strategic Approach or Strategy and Change in Public Sector Management. Students are prohibited from taking both together.

Course content: The course provides a management dimension to the study of public administration and public program planning. The course focuses on using purposive theories of directing, planning, coordinating and controlling – plus design-precedents from case studies -- to devise jointly-enabling mechanisms to tackle challenges in performing the management function in public programs and organizations. Through class discussions and case assignments, the course develops the intellectually-disciplined competences of design-focused problem-solving, including sense-making, scenario and system designing, holistic practical reasoning, and written and in-person presentation. It also develops an ability to broker usable knowledge about managing in public programs and institutions, resulting from combining rigorous analysis of purposive theories of mechanism-intent phenomena with methodical interpretation of research case studies. The course also considers the past and future of public management as a professional discipline.

Teaching: 30 hours of lectures in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Indicative reading:

Assessment:

Essay (50%, 2500 words) and class participation (10%) in the LT.

Case analysis (40%) in the ST.

The assessment for the course consists of the following:

A 2,500 word individual essay (50% of overall mark)
A 2,000 word case analysis (40% of overall mark)
Class participation (10% of overall mark)

MG404  Half Unit

Consumer Insights: Behavioural Fundamentals

This information is for the 2018/19 session.
Teacher responsible: Dr Heather Kappes NAB5.04
Availability: This course is compulsory on the MSc in Marketing. This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MSA Exchange and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: For many companies, non-profit organisations, and political figures, success relies on understanding the "consumers." What is it that they really want, and why? What information will they attend to, and what will they ignore? How do they make decisions, why do they sometimes make bad ones, and how can we help them make better ones? It can be tempting to answer these questions intuitively, based on your own experiences as a consumer. However, intuitions about human psychology are often wrong.

- Chronic and temporary sources of customer needs, desires, and motivations
- How customers search for information, acquire, and process information
- How customers allocate attention and how to attract it
- Customer decision-making processes, and the heuristics and biases that play a role
- The formation of attitudes and intentions, and processes for persuasively changing them
- Social influences on intentions and behaviour, including

MG403  Half Unit

Pricing Strategy

This information is for the 2018/19 session.
Teacher responsible: Prof Om Narasimhan NAB5.06
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MSA Exchange, MSc in Management (1 Year Programme), MSc in Management and Strategy and MSc in Marketing. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The content of the course is organised into two principal modules: (1) pricing strategy and fundamentals and (2) pricing tactics and implementation. The first module of the course covers the fundamental analytical tools, theories, and conceptual frameworks needed for price strategy formulation. Basic principles from marketing, economics, and psychology will be briefly reviewed and extended. The module provides an in-depth treatment of the role of price in the firm's value proposition to the customer and the determination of customer response to price. The second module of the course covers pricing tactics and opportunities for achieving price customisation.

Teaching: 30 hours of seminars in the LT.

Formative coursework: Students will be engaged in analysing a number of cases, doing numerical problems, as well as analysing data sets using the techniques learned in class. This will set the stage for their group project (gathering and analysing data) as well as the take-home assignment (which will involve numerical problems, case analysis, and analysing data sets).

Indicative reading:

Is it time to rethink your pricing strategy? (2012): Andreas Hinterhuber and Stephan Liozu, Sloan Management Review
Pricing Information: How to customize both the product and the price (1998): Carl Schaprio and Hal Varian, Harvard Business School Chapters
Is it time to rethink your pricing strategy? (2012): Andreas Hinterhuber and Stephan Liozu, Sloan Management Review

Assessment: Coursework (45%), project (45%) and class participation (10%) in the LT.

Individual Take-home assignment (45%), due within 1 week of when it is assigned.

Group project (45%)
unconscious determinants
• Why intentions are or are not translated into behaviour, and what strategies can be used to narrow the intention-behaviour gap.

**Teaching:** 30 hours of seminars in the MT.
This course has a reading week in Week 6 of MT.

**Formative coursework:** One essay prior to the summative essays; one quiz prior to the summative quizzes.

**Assessment:** Essay (30%, 1500 words), essay (30%, 1500 words) and in class assessment (40%) in the MT. Two essays (30% each, 1500 words each) in the MT. Two quizzes (20% each) in the MT.

---

**MG409 Half Unit Not available in 2018/19**

**Auctions and Game Theory**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Richard Steinberg NAB 3.08

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), MBA Exchange, MSc in Applicable Mathematics, MSc in Economics and Management, MSc in Management (1 Year Programme), MSc in Management Science (Decision Sciences), MSc in Management and Strategy and MSc in Operations Research & Analytics. This course is available as an outside option to students on other programmes where regulations permit.

This course is capped at 45. Students on the waiting list will be selected based on their academic background.

**Pre-requisites:** Students should have a course equivalent to the LSE course Quantitative Methods (Mathematics) (MA107), which covers techniques of calculus (differentiation, partial differentiation, optimisation and integration), methods of linear algebra (use of matrices), with emphasis on their application to economic problems. Students should also have some knowledge of probability.

**Course content:** The course provides an introduction to auctions and game theory. Topics covered are: noncooperative games, cooperative games, social choice, sequential games, auctions, and combinatorial auctions. There is also a case study, ‘Auction Vignettes’, which will form the basis of a class discussion. Finally, there will be a research presentation by the course leader.

**Teaching: **16 hours of lectures and 12 hours of seminars in the LT. 2 hours of lectures in the ST.

A reading week will take place during Week 6. There will be no teaching during this week.

**Formative coursework:** Very full lecture notes are provided, and every week a set of problems is given out in the lecture. These are discussed in the following seminars.

**Indicative reading:**
• Book: P. Cramton, Y. Shoham, and R. Steinberg, eds., Combinatorial Auctions

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**MG411 Half Unit**

**Firms and Markets**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof John Sutton

**Availability:** This course is compulsory on the MSc in Economics and Management. This course is not available as an outside option.

**Course content:** A graduate course in microeconomic analysis, geared towards those parts of the subject that are of primary importance in the Management area. The first section focuses on competition between firms, using standard game theoretic models. This leads to a general treatment of market competition by reference to the concept of firms’ capabilities. The next section traces the basis of firms’ capabilities to the set of elements of know-how possessed by the individuals comprising the firm, and by the mode of internal organization of those individuals. The analysis draws on the several strands in the modern literature on the theory of the firm. The final section of the course deals with the link between strategy and structure, and with the formulation of strategies in environments characterized by complexity and uncertainty.

**Teaching:** 20 hours of lectures and 20 hours of seminars in the MT. 20 hours of lectures and 20 hours of seminars in the LT. A weekly seminar devoted to problem sets. A weekly seminar devoted to case studies.

**Indicative reading:** Milgrom and Roberts, Economics, Organization and Management; Sutton, Sunk Costs and Market Structure

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

---

**MG412 Half Unit**

**Globalization and Strategy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof John Sutton

**Availability:** This course is available on the MSc in Economics and Management. This course is not available as an outside option.

**Course content:** The course studies the strategies of multinational corporations in an international context, with reference to make or buy, organization, and location choices. It studies current developments in the global economy with a focus on the key decisions that multinationals make in framing their global strategies:

2. Production: What determines the strategies multinationals adopt - product range; generic strategies.
3. Location: Competitive advantage of different countries; growth in outsourcing and Offshoring; particularly emphasizing India and China and analyzing their increasing role in the global economy.
4. Organization: how multinationals combine the necessary local adaptation with the need to standardize to achieve efficiency.
5. The Globalization Debate.
6. The Prospects for sub-Saharan Africa.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students are required to make two class presentations and submit written reports on selected case studies

**Indicative reading:** A reading list will be provided at the start of the course.
MG417  Half Unit
Extended Essay
This information is for the 2018/19 session.
Teacher responsible: Various (depending on title chosen).
Availability: This course is compulsory on the MSc in Economics and Management. This course is not available as an outside option.
Course content: Students will undertake an extended essay which should normally be based on one of the two option courses taken. Students can, with special permission, base this piece of work on one of the compulsory courses.
Teaching: A supervisor will be allocated to individual students based on the essay title chosen who will provide students with supervision for this piece of work.
Assessment: Essay (100%, 6000 words) in the ST. Extended essay of no more than 6,000 words to be submitted the week before Summer Term commences.

MG418  Half Unit
Open Innovation
This information is for the 2018/19 session.
Teacher responsible: Dr Nadia Millington NAB 3.14
Availability: This course is available on the Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MSc in Management of Information Systems and Digital Innovation and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: Open innovation is a fresh take on innovation whereby a firm looks beyond its boundaries to exploit the creative power of users, communities and customers to co-develop new products, services and processes. Whether it is the fortune 500 companies that have used open innovation to transform their businesses (e.g. Proctor and Gamble and IBM) or even start-ups (such as iStock Photo); Open Innovation, through tools like crowdsourcing or open sourcing is disrupting markets and altering the nature of industries.
This course is divided into 2, a lecture stream and a consulting stream.
During the lecture stream (roughly the first 5 weeks of the course) students will:
(1) Learn about the emergence of OI and how OI differs from other sources of external innovation.
(2) Learn to differentiate between the different types of OI tools (Crowdsourcing, Lead Users, Innovation Intermediaries, Design intermediaries, Innomediaries, Open Source) and to choose the right OI tool for different problem sets.
(3) Explore an emerging range of companies using open business models (e.g. Google, Facebook) in contrast to more traditional business approaches.
(4) Learn about the challenges of implementing OI and the drivers of success, not only based on practitioner sources but also in the context of organisational behaviour, innovation and network theory. During the consulting stream (roughly the last 5 weeks of the course) students work on a real live OI project for a for-profit client (eg PWC, KPMG, IBM, Barclays) or not-for-profit client (eg Barnados, Hope and Homes), developing solutions via the implementation of one or more open innovation tools. These last five weeks will be guided by our Innovation partners (from companies like Ludic Group/ KPMG) and in the final week of the term students will present their final solution to their clients and classmates.
Teaching: 30 hours of lectures in the LT.
In addition, students will also be expected to attend
• Two 30-minute group sessions to help them scope their project and develop their solutions
• A meet and greet session with their client partners which lasts approximately 2 hours after class. This is usually held after class in the 4th week of the semester and refreshments are provided. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will be provided with a formative essay, either in week 3 or 4 of the semester and grades and comments will be provided during week 7.
Assessment: Essay (45%, 2000 words), project (45%, 5000 words) and class participation (10%) in the LT.
Students will undertake a peer assessment during the course, providing feedback on the other members of their project group.

MG419  Not available in 2018/19
Public Management - Strategy, Innovation and Delivery
This information is for the 2018/19 session.
Teacher responsible: Prof Michael Barzelay
Dr Alberto Asquer
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course develops the practical knowledge and analytical skill to make sense of field problems faced by public managers, and to design and implement strategic and effective practical action in the public sector. In Michaelmas Term, the course focuses on making sense of the fuzzy problem-messes faced by public managers, and introduces students to the graphical and theoretical tools used to represent and reverse engineer the dynamic social systems involved. In Lent Term, the course focuses on the strategic design, evaluation and implementation of various organisational activities, such as policy interventions, managerial control systems, and strategic planning. Overall, the course provides a foundation for further coursework about management in the public sector as well as the ability to engage constructively and critically in the development of public management practice.
Teaching: 30 hours of seminars in the MT. 30 hours of seminars in the LT.
Formative coursework: Students will be expected to produce two essays - one in MT and one in LT.

Assessment: Essay (30%, 3000 words) in the LT. Essay (40%, 4000 words) in the ST. Presentation (30%) in the MT and LT. The 30% presentation mark is composed of two group presentations, one in MT and one in LT (15% each).

MG420 Half Unit
Dissertation
This information is for the 2018/19 session.
Teacher responsible: Dr Jonathan Liebenau NAB 5.14
In addition, all students will be allocated an individual dissertation supervisor in year two.
Availability: This course is compulsory on the Global MSc in Management, Global MSc in Management (CEMS MIM) and Global MSc in Management (MBA Exchange). This course is not available as an outside option. Students on other Department of Management postgraduate programmes are welcome to attend the preparation sessions.
Course content: Dissertations are based on a research question which students are required to agree with their assigned dissertation supervisor in year two. Research questions may be investigated by:
(a) Framing the question via a literature review and examining the problem in more detail through a small scale empirical research project, using either primary or secondary data sources; OR
(b) Carrying out an extended literature review to provide a rigorous analysis of existing research investigating the problem.
Teaching: 3 hours of lectures in the MT. 4 hours and 30 minutes of lectures in the LT. Students are required to attend a course of five lectures during MT and LT.
Students on this course will have reading weeks in Week 6 of MT and Week 6 of LT. In line with departmental policy

MG421 Half Unit
International Business Strategy and Emerging Markets
This information is for the 2018/19 session.
Teacher responsible: Prof Saul Estrin NAB4.32 and Dr Christine Cote NAB4.05
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Economics and Management, MSc in Management (1 Year Programme) and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: An undergraduate or graduate course in micro-economics or competitive strategy. Pre-requisites to be assessed by teacher responsible.
Course content: This course analyses the emergence of firms which operate on a global scale and their current and likely future interactions with emerging markets. It will combine the development of conceptual frameworks primarily through the lectures with the analysis of key cases in the classes. There will also be some external speakers from large international firms and from the banking and consulting community to bring contemporary views and arguments to bear.
Multinational firms have been an increasingly significant aspect of the corporate environment in developed countries since the 1960s, and are responsible for a high proportion of global output, exports and investment, as well as the bulk of foreign direct investment. In the past few decades their activities have been increasingly focused to developing economies, notably those which have liberalised and entered a more rapid growth phase. These economies, emerging markets, include some important world economies including China, India, transition economies such as Russia, and Latin American countries such as Brazil and Argentina. The "new institutional economics" has recently developed as a field to understand the impact of variation in institutions on economies’ performance.
This course will focus on how the institutional characteristics of emerging markets affect the choices and behaviour of multinational firms, now and into the future. We commence with the basic framework of analysis of the behaviour of multinational enterprises (MNEs), outlining models of the MNE which draw on transaction cost economics, the eclectic OLI paradigm of Dunning, and more recent concept such as the resource based view. We will provide an analysis of economic performance and growth in emerging markets building on the new institutional economics and working with a large variety of data sets and sources. The course will then turn to key topics. These will include the determinants of FDI; the effects of FDI on the host economy; entry mode choices; measures of institutional and cultural distance; and the growing importance of multinationals from emerging markets.
Students will work with case material as well as the required reading, and the group project will comprise a case write up, which will be presented prior to submission in class for comment and discussion.
Teaching: 20 hours of lectures and 15 hours of seminars in the LT. 2 hours of lectures in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will be required to write a 1,000 word essay and will be provided with feedback. They will also be required to present their group project in class.
Assessment: Exam (50%, duration: 2 hours) in the summer exam period.
Project (40%) and class participation (10%) in the summer exam period.
MG422  Half Unit  Thinking Strategically
This information is for the 2018/19 session.
Teacher responsible: Prof Ignacio Palacios-Huerta NAB5.24
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Economics and Management, MSc in Management (1 Year Programme) and MSc in Operations Research & Analytics. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: A knowledge of basic algebra is necessary to take this course.
Course content: This course is concerned with strategic thinking. The course is an interaction of game theory, economics and business strategic management. The focus is the study of situations in which two or more decision-makers (e.g., individuals, firms, political parties, etc) interact in a strategic manner. Understanding strategic situations that involve conflict and/or cooperation has proven critical in many areas of economics, business, political science, sports, law and other areas. The emphasis is to provide the fundamental thinking of good strategic making in these situations, rather than a mathematical and formal analysis.
The purpose of this course is threefold: (1) first, to introduce relevant tools of game theory in order to capture the key elements of different strategic situations and determine the most likely outcome in each situation; (2) second, to study various real-life applications and case-studies where thinking strategically has proven critical; (3) third, to cover modern developments in behavioural game theory, in particular in the areas of intertemporal choices and strategies, decision-making under risk and uncertainty, and experiments in strategic interaction.
Students should note that this course will involve weekly calculations and numerical reasoning.
Teaching: 20 hours of lectures and 8 hours of seminars in the LT. 2 hours of lectures in the ST.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will have to complete 5-8 written assignments throughout the course, handing in 1-2 of them, and feedback will be provided.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG425  Half Unit  Not available in 2018/19
Global Business Management
This information is for the 2018/19 session.
Teacher responsible: Prof Leslie Willcocks NAB3.13 and Dr Susan Scott NAB3.12
Availability: This course is available on the MBA Exchange, MSc in Management Science (Decision Sciences) and MSc in Marketing. This course is not available as an outside option.
Added CEMS Exchange and MBA Exchange (08.08.17 JO)
Course content: This course studies the varieties of management practices across regions, and how business management can be conducted internationally. Our teaching approach is, within dynamic global, regional and national contexts, to emphasise the interrelationship between international strategy and global operations. Having identified distinctive global business management strategies, and market entry approaches, we explore how these are enabled through organizational structures and information infrastructures, and implemented through marketing, human resource, R&D, and sourcing operational sub-strategies. The course provides an examination of how emerging trends in strategy and operations are entangled with current processes of globalization (including technological capabilities) and what these conditions of possibility mean going forward. The course focuses on: Perspectives on Globalization; Political Economic, Cultural and Legal Environments and Differences; Strategy in Global Context; Organization Foundations; Technological Architecture; Entry Strategy and Strategic Alliances; Global Sourcing and Logistics Strategy; International Management Challenges especially Projects, Technology, R and D and Innovation; Global Information Systems and Digital Business Management; Managing Across Boundaries; Corporate Social Responsibility and Business Ethics; Regional Business Strategies and International Trade; Regional Strategies and International Trade; Global Digital Business.
Teaching: 15 hours of lectures, 13 hours and 30 minutes of seminars and 3 hours of seminars in the LT.
Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: In classes students will be making presentations of course readings or cases in small teams of two or three as practice for the assessed group presentations, and they will receive feedback on these class presentations.
Assessment: Essay (65%, 3000 words) and project (35%, 1500 words) in the LT.

MG430  Half Unit  Strategy, Organisation and Innovation
This information is for the 2018/19 session.
Teacher responsible: Mr Rocco Macchiavello NAB5.28
Availability: This course is compulsory on the Global MSc in Management, Global MSc in Management (CEMS MIM) and Global MSc in Management (MBA Exchange). This course is not available as an outside option.
Course content: This course applies tools from microeconomics, industrial organisation and organisation economics to the analysis of strategy. The emphasis is on the application of these concepts to business situations, and as such the course relies heavily on the analysis of case studies.
The course is divided into two parts. The first part focuses on the external context of strategy. It first reviews basic tools for understanding industry economics and the determinants of industry-wide profitability, focusing on positional aspects. It then applies basic game theory to analyse competitive interactions when the number of players is small and the industry profitability is largely determined by these players’ interactions. This tool is used to analyse issues such as bargaining power, price competition and entry and exit decisions.
The second part studies the internal content of strategy. Topics vary from year to year and include, among others, strategic reasoning in the presence of standard setting and network effects, the scope of the firm, outsourcing and supply chain organizations, corporate governance in adding value and capturing synergies, internal management practices. This part relies on the application of both game theory, principal-agent problems and the analysis of empirical academic papers.

The course is heavily based on case discussions. For each class meeting, study questions will be assigned concerning a case study. We will discuss these questions and the material in the case during the class discussions. Students will need to prepare for class discussions by reading the assigned case and analysing it in view of the assignment questions. For each case, students are expected to prepare short slide deck discussing the case and be ready, if asked, to present their slides in the classroom to lead the discussion. Required cases and supplementary readings will be available on Moodle. The textbook, together with the lectures, contains the concepts necessary to analyse the cases.

Teaching: 20 hours of lectures and 12 hours of seminars in the LT. 15 minutes of classes in the ST.

Students on this course will have a reading week in Week 6 of LT, in line with departmental policy

Formative coursework: Students are expected to prepare for classes and actively participate in case discussions. Students will receive feedback on their class participation. Students might be asked to present during the class discussion to practice in view of the assessment. They will also be given the opportunity to discuss their preparation for the individual and group cases that count toward assessment during office hours devoted to this.

As mentioned above, cases and additional readings will be made available online.

Assessment: Other (40%) and class participation (10%) in the LT. Other (50%) in the ST.

Individual case assignment (40%) and class participation (10%) in the LT.

Group case assignment (50%) in the ST.

(Class participation will be evaluated based on the quality and quality of the student's participation in class.)

MG431 Half Unit
Managerial Economics

This information is for the 2018/19 session.

Teacher responsible: Prof Ignacio Palacios-Huerta

Availability: This course is available on the Global MSc in Management, Global MSc in Management (CEMS MiM) and Global MSc in Management (MBA Exchange). This course is not available as an outside option.

Course content: A graduate-level introduction to the foundations of managerial economics. Topics include:

1. Economics as a theory of organisation.

2. Economic Agents: Rationality and the coordination powers of the market (Demand and supply and equilibrium: the determinants of consumers' and firms' market responses and the nature of non-strategic interaction).

3. Strategic interaction and dynamic competition.

4. Information and efficiency.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6 of MT, in line with departmental policy

Formative coursework: A problem set will be assigned and is due two weeks later. It will be marked for feedback purposes only.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG434 Half Unit
Organisational Behaviour

This information is for the 2018/19 session.

Teacher responsible: Dr Uta Bindl NAB 4.01 and Dr Emma Soane NAB 4.02

Availability: This course is compulsory on the Global MSc in Management, Global MSc in Management (CEMS MiM) and Global MSc in Management (MBA Exchange). This course is not available as an outside option.

Course content: This course seeks to understand individual attitudes and behaviour in an organisational context. It does this by reviewing psychological theories, demonstrating the contribution of a psychological perspective to understanding behaviour at work, and critically evaluating empirical evidence. The course will balance theory and practice by applying the theories to organisations.

Topics covered will include personality and individual differences, work motivation; rewards systems and the design of work; performance, health and well-being at work; creativity and innovation; groups and teams; leadership; power and politics at work; organisational culture; managing organisational decision processes and risk.

Teaching: 20 hours of lectures and 15 hours of seminars in the LT. 2 hours of lectures and 1 hour and 30 minutes of seminars in the ST.

The teaching includes lectures and seminars. The teaching style is highly participative. Group work in seminars is an integral part of the course and students are expected to actively contribute to all group exercises. The course requires student commitment and willingness to engage fully with the readings and with class activities.

Students on this course will have a reading week in Week 6 of LT, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Exam (75%, duration: 2 hours) in the summer exam period.

Presentation (25%) in the LT.

Students will work in groups to prepare and deliver a presentation that applies organisational behaviour concepts to a real organisation. Each group will select one specific organisation to focus on. Presentations must cover two topics from the course and must include clear application of a minimum of three OB-related theories. Presentations will be evaluated on the depth of subject knowledge, quality of theoretical application, structure and style of the presentation, including quality of the materials and delivery of the presentation.
MG439  Half Unit
Organisational Behaviour for Master's in Management

This information is for the 2018/19 session.

Teacher responsible: Dr Shoshana Dobrow Riza NAB 4.1.4
Availability: This course is compulsory on the MSc in Management (1 Year Programme). This course is not available as an outside option.

This course is a core course for the one year MiM.

Course content: This course is about the people side of business. Although skills in finance, accounting, marketing and operations are crucial for organisational success, the ability to manage and understand an organisation, its groups, and its individuals is equally crucial. Technical skills may help you land a job, but people skills are likely to determine whether or not you keep it, and how much you can accomplish in your career.

In this course, we will explore a variety of perspectives and theories that explain the dynamics of individual, interpersonal, group, and organisational processes. Learning about these ideas will help you develop and apply insights about human behaviour in organisational settings. The course material will be useful in planning careers, managing relationships with others, making complex decisions, designing jobs, becoming a leader, and making sense of today’s – and tomorrow’s – corporate world.

This course will also help you understand some of the challenges involved in both managing and being managed. Ultimately, the tools and skills developed in this course should equip you to become more effective contributors to the organisations that you join. Much of our learning in this course will be through case studies, exercises, and class discussions.

Teaching: 30 hours of lectures in the LT.

The format of the course is highly participatory and interactive and will involve a combination of case studies, interactive exercises, discussions and readings. Students are expected to attend course sessions and to participate actively in the discussions. Students learning in this course is directly related to their willingness to expose their ideas and conclusions to the critical judgement of the class, and to their efforts to build on and evaluate the comments of classmates.

Full preparation for each session is essential. Students are to complete readings prior to the session for which they are assigned. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce one essay in the LT.

The formative assignment will be to write an outline version of a case analysis. Details of the assignment will be provided during the teaching term.

Indicative reading: There is no set text for this course. The following are examples of articles that will be assigned: Harvard Business School case studies, academic journal articles, Harvard Business Review articles. Students will be given electronic access to cases, texts and articles during the teaching term.

Assessment: Project (35%), take home exam (50%) and class participation (15%) in the LT.

The summative project (35%) , called the Reflected Best Self Exercise, will be directly related to all stated learning goals of the course.

The Take Home Exam (50%) will be a written case analysis, details of the case analysis will be provided in the teaching term. This will be a 48 hour exam.

MG452  Half Unit  Not available in 2018/19
Behavioural Economics for Management

This information is for the 2018/19 session.

Teacher responsible: Dr Kristof Madarasz NAB 5.36
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Economics and Management and MSc in Management and Strategy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Graduate level Microeconomics, Game Theory or Managerial Economics, Graduate level Econometrics or Quantitative Analysis is required.

Course content: The course covers formal (mathematical) models of behavioural economics and discusses both experimental and field evidence that motivate and test various aspects of these models.

This course is a post-graduate introduction to behavioural economics and strategy. The topics to be discussed are

2. Procrastination, Self Control and Choice over Time.
4. Processing Information and Mistakes in Cognition
5. Naivite and Heuristics in Strategic Thinking
6. Happiness and Welfare

Teaching: 30 hours of lectures in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: A mock exam comprising of problem sets.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG454  Leadership in Practice (modular)

This information is for the 2018/19 session.

Teacher responsible: Dr Emma Soane NAB 4.02
Availability: This course is compulsory on the Executive Global MSc in Management. This course is not available as an outside option.

The information in this course guide pertains to the 2018-2020 cohort.

Course content: This course will provide you with insights into the foundations for leadership, how leadership skills can be developed, and you can create optimum environments for effective leadership and performance. Sessions will be interactive and participative.

There will also be group exercises within the sessions to encourage debate and reflection upon how to put these concepts into practice.

Teaching: Five 3.5-hour sessions spread out over three LSE modules.

The course will run between the following dates:
26 August - 08 September 2018
MG455  Half Unit
Decisions, Biases and Nudges

This information is for the 2018/19 session.
Teacher responsible: Dr Barbara Fasolo
Availability: This course is compulsory on the MSc in Management Science (Decision Sciences). This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MSc in Marketing and MSc in Risk and Finance. This course is available as an outside option to students on other programmes where regulations permit.

This course is available as an outside option to students on all other Management and LSE programmes (both post-graduate and advanced undergraduate) where regulations permit, and is complementary to other behavioural courses offered at LSE.

Pre-requisites: It is an advantage to have had an introductory social science course in one of these fields: economics, management, psychology or sociology.

It is important to be comfortable with multi-disciplinary research.

Course content: This course introduces students to Behavioural Decision Science: the science that explains and predicts how humans make decisions (the decision ‘process’) and how well (the decision ‘outcome’). The course will focus on the process, and unveil the subtle and sometimes unconscious influences played by our mind (biases) and the context in which decisions are faced: is there risk and uncertainty? What has been chosen in the past? Is the decision maker in a positive or negative mood? Is the decision made offline or online, from a ‘menu’ or from memory? All of these (and more) are factors that often determine how information is searched before choosing, how decisions are made and the quality of the decision made.

The course is entirely seminar-based, and will alternate teaching with interactive activities designed to experience first-hand the process of decision making, before reviewing behavioural decision theories and evidence from lab and field studies. Teaching will cover experiments and applications across different ‘domains’ (managerial, policy, organisations, consumer, and even personal, like choice of career or a partner). The aim of the course is to offer a balanced view of the strengths and weaknesses that humans have when making any decision and cover successful interventions of “nudges” which are being implemented around the world in private and public organisations to help consumers and the public make it easier to make good decisions without complex systems or support. The assessment will give students the opportunity to apply their skills to spot strengths and weaknesses of a decision of their choosing, as well as to produce a “state-of-art behavioural report” that reviews in a rigorous and scholarly manner the literature and empirical evidence on a specific aspect of the intuitive decision process under scrutiny.

Teaching: 25 hours of seminars in the LT.

Students on this course will have a reading week in line with departmental policy.

Formative coursework: Students will be expected to produce 1 presentation and 1 exercise in the LT.
1. A short and timed group presentation (after Reading Week). You will work as a group and spot the biases in a real decision that you will select. You will give a brief group presentation of the biases and the mechanism that requires correction (via debiasing or nudging). After the presentation you will receive feedback as a group. This feedback will help you prepare for the summative assessment.
2. Individual review of an anonymous essay (End of LT). Students will play the role of the “assesor” and review an anonymous behavioural report (submitted by one of the students from a previous year) by implementing the different evaluation criteria which are used in this course. This exercise will help you review your own and your course-mates’ behavioural reports, and improve your summative assessment.

Indicative reading:

Assessment: Coursework (100%, 3000 words) in the ST.

Summative (due beginning of ST): The summative assessment will be a ‘Behavioural Report’ which comprises two parts. in the first part (no more than 1000 words), you will be asked to report on the decision, the bias and the nudging or debiasing intervention designed by you and your group. In the second part of the report (no more than 2000 words), you will focus on one of the processes/aspect of the essay that you have covered in the first part of the essay and complete a scholarly review on it, with reference to the literature, theories and concepts: the first part of the essay will count for 25% of your work while 75% will come from the second part. You will be required to provide full essay-style referencing. Although the summative assessment will tackle decision makers’ presented in groups, all students will write both parts of the summative essay on their own and receive an individual mark.

PDAM skills
• self-management
• team working
• problem solving
• application of information skills
• communication

MG456  Half Unit
Analytics for Strategic Decisions

This information is for the 2018/19 session.
Teacher responsible: Prof Valentina Ferretti NAB 3.04
Availability: This course is compulsory on the MSc in Management Science (Decision Sciences). This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MSc in Marketing, MSc in Risk and Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is complementary to any behavioural course offered at LSE.

Pre-requisites: Elementary statistical and mathematical concepts.
Course content: How to choose in tough situations where stakes are high, and there are multiple conflicting objectives? How do we perceive risk, and how to act when there are risks and uncertainties involved in a decision? How can we create options that are better than the ones originally available? Decision making is a central aspect of virtually every management and business activity, including marketing, strategic planning, project management, resource allocation, operations management, and investment. The ability to make better decisions is thus an invaluable part of everyone's toolbox, particularly for rising stars that will be in positions of leadership in the future. It is this ability that will be developed in this course, which introduces students to the use of Risk and Decision Analysis as a form of analytics that integrates hard data and judgments to develop winning strategies. Through this course students will learn how to better understand, represent, communicate and take decisions across many different contexts, both private and public. They will discover what are the key behavioural traps that prevent smart decisions to be made and what are the corresponding cutting edge analytical solutions. The course uses real-world Risk and Decision Analysis applications in organisations and public policy making, and employs several case-studies to build students’ skills in decision modelling and analysis. It covers structuring and modelling decisions involving multiple stakeholders and conflicting objectives (multi-criteria decision analysis) as well as uncertainty (decision trees, influence diagrams, and risk analysis). This course is open to anyone with a keen interest towards discovering the vital ingredients to smart decision-making processes.

Teaching: 20 hours of lectures and 13 hours and 30 minutes of seminars in the LT. A reading week will take place in Week 6. There will be no teaching during this week.

Formative coursework: Students will be expected to produce 1 presentation and 1 essay in the LT. There are two pieces of formative assignments:

1. Group project plan presentation (i.e. personal decision context selected, due in week 7)
2. Individual review of an anonymous technical report developed from students who took this course last year. Students will have to review the report by following specific criteria and by completing a set of both descriptive and evaluative tasks (e.g. indicating the strongest part of the report, indicating sentences or paragraphs that seem out of order, incompletely explained or in need of revision, etc.). This review assignment will help students to improve their reading, writing and collaborative skills. The topic of the project (i.e. a decision making problem to be modelled and analysed by means of Multicriteria Analysis) can be a personal decision (i.e. which job offer to accept when confronted with multiple ones, which master to apply for, etc.) or a real world case. Students will have to collect data, develop and apply a quantitative model, interpret the results and refer to the key scientific literature for the main steps in the development of the model. Students are allowed to work in groups of maximum 4/5 people. In the individual technical report of the group project, students will have to report on the developed process. This assignment will help students develop their operational problem solving skills by demonstrating their ability to apply a quantitative model to solve a strategic problem, interpret its results, and develop sound recommendations.

Assessment: Project (25%) in the LT. Essay (75%) in the ST.

The presentation is of the group project is due in Week 11 of Lent Term. The individual technical report for the group project is due in Week 1 of Summer Term.

MG457 Foundations of Management 2: Financial Control and Governance (modular)

This information is for the 2018/19 session.

Teacher responsible: Dr Yally Avarahampour NAB 4.37

Availability: This course is compulsory on the Executive Global MSc in Management. This course is not available as an outside option.

The information in this course guide pertains to the 2018-2020 cohort.

Course content: This course teaches, over two modules, topics relating to financial accounting and management accounting. In so doing the course also examines the relationship between the exercise of financial control within organizations and the setting of external standards relating to governance, and the implications of this for the organization of firms. In the first module the course covers topics such as the construction of the financial statements, and then considers topics relating to measurement, for example the contrast between historical cost and fair value and the recognition of intangible assets. In the second module the course examines topics relating to the determination of the cost of a product or service, balanced performance measurement, economic value added and strategic control.

Teaching: 8 sessions of 3.5 hours each, composed of lecture and case discussion spread out equally over two LSE modules.

The course will run between the following dates:
- 26 August - 08 September 2018
- 15-20 December 2018

Formative coursework: Formativa assignment after module 2.

Assessment:

This course will not be assessed.

MG458 Half Unit Foundations of Management I

This information is for the 2018/19 session.

Teacher responsible: Prof Alexander Pepper NAB 4.30 and Mr Armando Castro NAB 4.29

Availability: This course is compulsory on the Global MSc in
MG460  Half Unit

Handling Disruption: Humanitarian Emergencies Management and Development

This information is for the 2018/19 session.
Teacher responsible: Dr Atta-Armakye Addo NAB 3.04 and Dr Shirin Madon NAB 3.36

Availability: This course is available on the CEMS MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Management (Information Systems and Innovation), MSc in Development Management, MSc in Development Studies, MSc in International Development and Humanitarian Emergencies, MSc in Management (1 Year Programme), MSc in Management of Information Systems and Digital Innovation and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course content is anchored on two observations: First, disasters and humanitarian emergencies are most frequent and most challenging and have the most devastating and long lasting socio-economic effects in poor counties with weak physical and institutional infrastructures. Therefore the course studies the management of emergency interventions in the broader context of socio-economic development. Second, information and communication technology (ICT) continues to open new possibilities for the mitigation, preparedness and response to disasters, but its effective use requires change in the collaboration of humanitarian organisations and affected communities. In this course we will examine critically the potential opened by ICT innovation for the handling of disruptions. More specifically, the course will cover the following thematic areas:

a) The challenge of humanitarian emergencies and our capacity to address it: the link of episodic emergencies and long term development; ICT innovation and the development of organisational capabilities for effective emergency action.
b) Managing emergencies: emergency logistics and supply chains; ICT innovations in humanitarian emergencies and information systems infrastructures to address mitigation, preparedness and response. Case studies and readings will examine emerging topics such as crowdsourcing and geographic and geodetic intelligence.

Teaching: 10 hours of lectures and 20 hours of seminars in the LT. Students on this course will have a reading week in Week 6 of LT, in line with departmental policy.

Assessment: Essay (25%, 1500 words) in the summer exam period.

---

MG459  Half Unit

Foundations of Management 2

This information is for the 2018/19 session.
Teacher responsible: Dr Yally Avrahampour NAB 4.37

Availability: This course is compulsory on the Global MSc in Management, Global MSc in Management (CEMS MIM) and Global MSc in Management (MBA Exchange). This course is not available as an outside option.

Course content: The aims of this course are to provide a basic grounding in the management literatures covering disciplines relating to financial control and management science, and of the literatures on the evolving managerial, organisational and professional contexts within which these disciplines are practiced. Students will be provided with an overview of each discipline with the aim that they acquire a basic working knowledge of each. The course will cover origins and disciplinary boundaries, the foundations of these disciplines in the social sciences, core concepts, practical applications and current state of play and debate. Weekly topics include:

1. Making Business Decisions that Commit Capital
2. Representing a Firm’s Financial Condition: 1
3. Valuing and Managing Costs
4. Balanced Performance Measurement
5. Measuring Shareholder Value

Formative coursework: Students will be expected to produce 1 essay in the MT.

Assessment: Exam (75%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

---

MG459  Half Unit

Foundations of Management 2

This information is for the 2018/19 session.
Teacher responsible: Dr Yally Avrahampour NAB 4.37

Availability: This course is compulsory on the Global MSc in Management, Global MSc in Management (CEMS MIM) and Global MSc in Management (MBA Exchange). This course is not available as an outside option.

Course content: This course is designed to equip students with a holistic understanding of the evolution of management theory and organisational forms and practices since the emergence of modern industrial organisations in the 19th century. Students will be provided with an overview of the development of management as a practice and as a subject of study, and will develop an understanding of the disciplinary anchors in Sociology, Psychology and Economics. Within each field we will cover origins, disciplinary boundaries, triggers for growth, core concepts and the current state of play and debate. Weekly topics cover:

1. Course Introduction and the Origins of Management
2. Management and the Firm
3. Taylorism, Motivation, and Performance
4. The Rise and Decline of Labour
5. The Rise of Human Resources Management
6. Decision Making
7. Understanding Organisational Structures
8. The Origins of Modern Strategy
9. Contemporary Strategic Management: Firms as Bundles of Resources
10. Financialisation and Capitalism's Crisis

Teaching: 20 hours of lectures, 15 hours of seminars and 15 hours of classes in the MT.

Lectures will cover theoretical materials and concepts. Case discussions (classes) will apply content covered in lectures to a business situation.

Seminars will cover the assigned readings in more depth and develop critical thinking and writing skills for postgraduate study.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

A full reading list will be provided at the beginning of the course.

Assessment: Coursework (75%, 3000 words) in the LT.

In class assessment (25%) in the LT.

The 'in class assessment' takes the form of a group presentation of a case.
MG462 Half Unit

Qualitative Analysis in Management

This information is for the 2018/19 session.

Teacher responsible: Mr Noam Yuchtman

Availability: This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM) and Global MSc in Management (MBA Exchange). This course is not available as an outside option.

Course content: This course provides students with a critical understanding of qualitative management research and problem solving, with an emphasis on methods and techniques which will be useful and relevant to them in their future careers. A range of methods will be used and critically appraised, including case study research, ethnography, narrative analysis, and internet-based methods. The course will cover research design, data collection, data handling techniques, methods of analysis; constructing a contribution, and authoring a research report. These are methods, skills and techniques which are used both formally and informally in academia, consultancy and the workplace.

Teaching: 15 hours of lectures and 9 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST. Students on this course will have a reading week in Week 6 of LT, in line with departmental policy

Assessment: Project (50%, 5000 words) in the summer exam period.

Project (50%, 3500 words) in the LT.

MG463 Half Unit

CEMS Global Management Practice

This information is for the 2018/19 session.

Teacher responsible: Dr Esther Canonicco Martin

Availability: This course is compulsory on the CEMS Exchange and Global MSc in Management (CEMS MIM). This course is not available as an outside option.

As a compulsory course for the CEMS MIM: Master’s in International Management this course is available only to, and compulsory for, those students on the CEMS MIM programme.

Prerequisites: It is assumed that the students have already taken introductory Organisational Behaviour or Global Business courses.

The 2nd year Global Master’s in Management students are offered these prerequisites during their 1st year.

Course content: This course aims to answer the question “How internationally operating companies such as multinational companies (MNCs) build efficient and effective organisations in order to realise the company’s international objectives?” The
focus of the course is on cooperation and management in an international context.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Assessment:** Essay (30%, 1500 words), essay (30%, 1500 words) and project (40%) in the LT.

---

**MG464 Half Unit**

**CEMS Global Business Strategy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Christine Cote NAB.4.05

**Availability:** This course is compulsory on the CEMS Exchange. This course is not available as an outside option.

This course is compulsory for, and only available to, visiting CEMS students.

**Course content:** The course examines how firms shape their international strategies in an ever-changing global environment. It will consider the context of globalisation with a focus on the relationship between international trade and investment, the emergence of global supply chains and the transformative role played by technology and innovation. It will focus on examining the processes, planning techniques and tools for strategic analysis, strategy formulation and implementation in this global setting. It will seek to understand why and how firms internationalise as well as how they can create and sustain competitive advantage while operating across borders and in different institutional environments. Themes covered in this course will include the growing importance of emerging markets, the role of disruptive technologies in transforming industries, exploiting firm’s resources and capabilities and sustaining cross border competitive advantage through strategies of global integration or local adaptation, managing staff across borders and creating shareholder value while ensuring corporate social responsibility.

**Teaching:** 30 hours of lectures in the MT.

Students on this course will have a reading week in Week 6 of LT, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Essay (40%, 2000 words), project (50%) and class participation (10%) in the MT.

For the group project the total mark (50%) will be comprised of 40% from group mark, with an additional 10% from peer review scores of individual contribution.

---

**MG465 Half Unit**

**Operations and Managerial Economics**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Ricardo Alonso

**Availability:** This course is compulsory on the MSc in Management (1 Year Programme). This course is not available as an outside option.

**Course content:** This course will explore the fundamental foundations of management theory and practice, with a focus on Operations and Managerial Economics.

The first part of the course, Managerial Economics, will teach a rigorous way of thinking about problems, issues and decisions that managers face in each of the functional areas of the organisation, as well as enabling a better understanding of the external business environment in which an organisation operates. This part of the course develops tools that are the foundation of courses in Marketing, Business Strategy, and Finance, which students will take in core courses throughout the rest of the year.

The second part of the course, Operations, will first cover how organisations developed out of Scientific Management, and then focus on productivity and quality. Productivity is concerned with the relationship between inputs and outputs, and how to develop strategies for increasing productivity. Specific topics will include the Seven Sources of Waste, the Financial Value of Productivity, Key Performance Indicators and KPI Trees. Quality covers the common reasons for defects, and implementation techniques for addressing problems of quality and ensuring reliability and standards.

**Teaching:** 30 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 4 problem sets in the MT.

**Assessment:** Exam (85%, duration: 3 hours) in the summer exam period.

Class participation (15%) in the MT.

---

**MG466 Half Unit**

**Supply Chain Management**

**This information is for the 2018/19 session.**

**Teacher responsible:** Anran Li

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Management (1 Year Programme) and MSc in Management of Information Systems and Digital Innovation.

This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** None

**Course content:** Supply chain management is concerned with matching supply with demand. Excess supply is too costly, inadequate supply adversely impacts both current revenue and future demand. The course will cover the following key topics: the manufacturer-retailer supply chain, centralised vs decentralised supply chains, sourcing policy and the buyer-supplier relationship, global sourcing and supplier management. The course will also discuss tools for managing supply chains, re-engineering the supply chain, and the role of IT in supply chain integration.

**Teaching:** 18 hours of lectures and 12 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 6
exercises in the LT. 
Six exercises in the last six weeks of the course.

Indicative reading:
- "Barilla Spa (A)," Harvard Business School, Case 9-694-046.
- "Northco (A)," Harvard Business School, Case 9-697-017.

Assessment: Essay (70%, 3000 words) and presentation (30%) in the LT.

The presentation will be completed in groups of no more than three students per group.

---

**MG467  Half Unit**

**Strategy and Change in Public Sector Management**

This information is for the 2018/19 session.

Teacher responsible: Prof Michael Barzelay

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management (1 Year Programme), MSc in Management and Strategy and MSc in Management of Information Systems and Digital Innovation.

This course is available as an outside option to students on other programmes where permission permits. This course cannot be combined with MG402 Public Management: A Strategic Approach

Pre-requisites: N/A

Course content: The course concerns the challenges of developing strategy for public programmes and managing strategic change in public organisations. The course shows how to use theories of management practice for any organisation when making strategy and managing change in the public sector. It focuses on the initiation, follow-through, and coupling of strategy-development and change projects. The course strengthens the problem-solving competences of sense-making, designing, argumentation, dramatization, and decision-making. The pedagogical approach is case- and problem-oriented.

Teaching: 30 hours of lectures in the LT.

It will be open to students on this course to attend a writing skills workshop in Week 6 on foundations of understanding and presenting mechanism-intent argumentation about enterprises and managing. This session does not form part of the formal teaching on the course.

Formative coursework: Students will be expected to produce 1 essay in the LT and 1 essay in the ST.

Assessment: Class participation (10%) and policy memo (50%) in the LT.

Policy memo (40%) in the ST.

Policy memos will be part of a ‘design challenge’ which explores the creative strategy of this course.

---

**MG472  Half Unit**

**Global Strategy, Management and Information Systems**

This information is for the 2018/19 session.

Teacher responsible: Prof Leslie Willcocks NAB 3.23 and Dr Susan Scott NAB 3.12

Availability: This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM) and Global MSc in Management (MBA Exchange). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A basic understanding of business strategy and management and a basic knowledge of information and communication technologies. Students are expected to have a basic understanding of the challenges of implementing and managing information systems in organisations.

Course content: The objective of this core course on the MSc MISDI programme is to address how organizations formulate global strategy and manage its execution in a rapidly digitizing business world. Whether organizations operate globally, regionally or nationally they are highly dependent on digital innovations produced by information and communication technologies for fulfilling their missions. This course reviews the foundations of global business management and examines key insights about the emerging roles of ICTs and digital innovation in contemporary organizations operating internationally. To manage effectively it is important to recognize the varieties of management practices across regions and the different approaches involved in international business management.
On this course we examine how the interrelationship between international strategy, digitization and global operations plays out in dynamic global, regional and national contexts. Having reviewed distinctive global business management strategies and market entry approaches, we identify contemporary issues of critical importance for information systems management including: the relative importance of culture versus institutions in conducting international digital business; the need to identify practices that enable us to manage across boundaries; the challenge of corruption and role that CSR/stakeholding play in sustainable business ethics; the effects of information security breaches; the decisions points in formulating robust sourcing operational sub-strategies; and how international project management can support learning in organizations. The course provides a strategic overview of the management of information systems and innovation. We review frameworks and approaches used in practice and consider them alongside the academic literature on processes of globalization, information systems strategy, organization studies and institutional theory. Students studying this course will gain an understanding of how trends in strategy and operations are entangled with current processes of digitization and what these conditions of possibility mean going forward for globalizing.

At the end of the course participants will be able to:
1. Understand global, business and digital issues in strategy formulation
2. Analyse business environments at competitive, country, regional and global/societal levels
3. Understand and analyse regional differences and how regional and international trade is conducted
4. Use analytical frameworks for arriving at business and digital strategy
5. Recognise and make recommendations on the strategic potential and impact of information systems and digital innovation in different organizational contexts.
6. Decide how organizations can best enter and evolve in new international markets.
7. Analyse international management issues in operational areas of human resources, marketing, logistics, sourcing, R&D, and project management
8. Apply ethical standards to issues of corporate social responsibility, sustainability, and digital security and privacy.
9. Participate in managing culture, difference, diversity, across borders.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures in the ST.

A reading week will take place in W6. There will be no teaching on MG472 during this week.

**Formative coursework:** Classes are based around reading and discussing selected journal articles from the course reading list. Formative feedback is provided on class participation. A mock examination, with questions from MG472, MG481 and MG487 will be held.

**Indicative reading:**

Essential Readings to be done on a weekly basis to build up general knowledge:
- The Economist – weekly news and regular relevant special studies.
- The Financial Times – daily world commentary, regular regional/theme special issues and archive.

The main journals that students may wish to search for additional articles on globalization, business strategy, management and digital business are:
- Academy of Management Executive
- Academy of Management Review
- Strategic Management Journal
- Long Range Planning
- Journal of Management Studies
- Journal of International Business Studies
- Journal of Management
- Management Information Systems Quarterly
- Executive
- Journal of Strategic Information Systems
- Organization Science
- Management International Review
- Harvard Business Review
- Sloan Management Review
- California Management Review

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Coursework (10%) in the MT.

The individual course assessment will be made based on two pieces of individual course work:
1. An in-class presentation of a key course reading. The student will be assessed on the presentation, the Powerpoint slides and a two page summary of the reading submitted in advance of the presentation.
2. An in-class presentation of a key class case study. The student will be assessed on the presentation, the Powerpoint slides and a two page summary of the case study submitted in advance of the presentation.

**MG473 Half Unit**

**Negotiation Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Prof David Marsden NAB4.22

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Management (Employment Relations and Human Resources), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Management (1 Year Programme), MSc in Management and Strategy and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course highlights the importance of power, tactics, strategy, information and trust in shaping the structure and outcomes of negotiations. It covers basic negotiation concepts such as distributive and integrative bargaining, sometimes called pie-slicing and pie-expanding approaches, two-party and multi-party negotiation, as well as more advanced issues such as the impact of culture and the psychology of judgement and decision-making. Students will engage in weekly negotiation simulation exercises to help them understand the concepts and develop their negotiating skills.

**Teaching:** 30 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will compile a weekly learning log reflecting on their experience in the negotiation exercises and linking that to the concepts and theories in the literature. Formative feedback is provided on class participation. Students will also complete a formative essay.
**Indicative reading:** The main text, covering most of the material in the course is: Leigh Thompson, The Mind and Heart of the Negotiator, 6th edn, Pearson, Harlow, 2014. The following are also useful: Roger Fisher and William Ury, Getting to Yes: Negotiating Agreement Without Giving In, Penguin Books, New York, 1981; Ken Binmore, Game theory: A Very Short Introduction, Oxford University Press, Oxford, 2007; and Andrew M. Colman, Game Theory and its Application to the Aociial and Biological Sciences. Routledge, Hove, 1999. Students will be expected to read widely in appropriate journals, and a list of references will be provided at the start of the course.

**Assessment:** Essay (75%, 2000 words) and other (25%) in the LT. The other assessment (25%) is a Learning Log due in LT.

---

**MG475  Half Unit**

**Organisational Theory**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Mariana Bogdanova

**Availability:** This course is compulsory on the MSc in Human Resources and Organisations (Organisational Behaviour). This course is available on the MRes/PhD in Management (Employment Relations and Human Resources) and MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Organisations exert a central force in contemporary work and society. From the rise of large, machine-like bureaucracies in the 19th century to the flat, networked firms of nowadays, different assemblages of people and technology have produced a rich ecology of organisational forms – multinationals, social enterprise and charities, R&D laboratories etc. Organisational theory examines these multifarious arrangements with respect to their internal and external environment elements and dynamics - e.g. organisational culture and identities, power and politics, inter-organisational collaboration, effect of globalisation on organisational activities etc. The course readings include a selection of classic views and more recent research on organisation theory with the aim of helping students understand organisations as entities, how they influence the life of their members, and how they affect work and society more generally.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will complete a formative assessment using a sample exam question. Details will be provided in class.

**Assessment:** Exam (65%, duration: 2 hours) in the summer exam period.

---

**MG477  Half Unit**

**Reward System: Key Models and Practices**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Alexander Pepper NAB4.37

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management) and MSc in Human Resources and Organisations (Organisational Behaviour). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course will provide an analysis of the types of reward systems commonly used in private and public sector organisations, drawing on economic, psychological and sociological principles, covering all-employee reward, senior executive reward, fixed pay, short-term incentives, long-term incentives, benefits and pensions.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. Students are expected to prepare for, and contribute to, the seminars. Students will include group work, preparing and giving presentations, case analyses, small group discussions, and self-

---

**MG476  Half Unit**

**Corporate Social Responsibility and International Labour Standards**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Sarah Ashwin NAB 4.19

**Availability:** This course is available on the MSc in Accounting, Organisations and Institutions, MSc in Global Politics, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Human Rights and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Any social science background.

**Course content:** Corporate Social Responsibility (CSR) is becoming an expected element of business strategy. This course critically evaluates CSR from a number of perspectives, drawing on material from a variety of different disciplines. Students analyse the emergence of CSR, its theoretical basis, the business case for the adoption of CSR programmes, as well as the social impacts of such policies. The opening lectures of the course focus on globalisation and international labour standards, and provide an understanding of how CSR relates to international regulatory institutions such as the International Labour Organisation. Subsequent lectures focus on the different aspects of CSR mentioned above, as well as topics such as comparative CSR. In terms of the impact and design of CSR policies, the course mainly focuses on issues relating to labour standards, but supplementary material on sustainability is also included. As well as traditional academic readings and case studies, students will critically examine publically available material such as corporate policies and reports. Seminars will follow a mixture of formats including group activities and presentations. The course will include one lecture from a CSR professional.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

**Formative coursework:** One 2,000 word essay in LT.

**Assessment:** Exam (60%, duration: 2 hours) in the summer exam period.

Essay (35%, 2000 words) and class participation (5%).
assessments. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be required to prepare a short paper (maximum 1500 words) during week 7 in connection with the material covered during that week and will receive feedback on their understanding of the issues.

**Indicative reading:** Course text books
General reading

**Assessment:** Exam (60%), duration: 2 hours) in the summer exam period.
Essay (30%, 2000 words).
Class participation (10%) in the LT.

**Globalisation and Human Resource Management**

- **This information is for the 2018/19 session.**
- **Teacher responsible:** Prof Sarosh Kuruvilla NAB3.07
- **Availability:** This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/ CIPD) and MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management). This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Human Resources and Organisations (Organisational Behaviour) and MSc in Management (1 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.
- **Course content:** This course focuses on the management of human resources in global corporations. The central theme in the course is the link between HR strategy and business strategy. The course involves an examination of how diverse global firms articulate and execute global HR strategies and how these strategies are reflected in a variety of HR practices such as global compensation, global talent management, global performance management, global value chains and labour standards, global diversity policies, global employment relations, and the management of HR in global mergers and acquisitions. Given the absence of empirical studies of HR practices in global corporations, the method of instruction is through the analysis of cases, supplemented by lectures and guest lectures from Global HR leaders. This is a more practical course, but informed by HR theories that students would have been exposed to in the introductory HRM course (MG480 Management of Human Resources: Strategies and Policy), as well as other courses. Students without the required theoretical background will be provided with supplementary readings. In the course modules, we will:
  - Understand HR considerations in the outsourcing and offshoring of work, and the role of HRM in managing international mergers and acquisitions.
  - Analyse how institutions and culture affect the HR practices and employment relations in diverse global corporations from advanced and emerging market countries.
  - Analyse the challenges faced by global corporations in structuring global assignments with specific reference to global mobility (expatriation and repatriation of global managers), and how corporations are dealing with global talent management.
  - Taking a global value chain approach, examine how global firms extend their HRM/ER policies to their supply chain, and evaluate the efficacy of methods to improve labour standards and human rights in global supply chains.

**Teaching:** 11 hours of lectures and 20 hours of seminars in the LT. Teaching will be supplemented by guest lectures from leading industry practitioners. These are optional but highly recommended. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** During the first week of classes, students will be instructed in the art of case analysis, and will be instructed as to what is required in case memos. Students may elect to write case memos for Week 2, which will be unassessed, but instructors will provide collective feedback. A formative take-home case analysis will be given in Week 4, which will be graded during the reading week and written feedback provided by the marker. This case analysis is a time-limited project that requires an analysis of the case problem, a solution to the case, and a statement of broad take-aways (anchored in either practice or theoretical literature). In particular, students should be able to articulate what are the key lessons from the case for HR theory and practice. The case will be made available to the students on Monday morning of Week 4. The deadline for submission will be Friday afternoon of Week 4 at 4pm. The objective of the case analysis is to develop students' ability to analyse concrete company experiences in order to generate insights for both the practice of HRM in global companies and the development of new theory.

**Assessment:** Class participation (10%), case analysis (30%) and take home exam (60%). For the case analysis memos, each student will be expected to provide an individual solution to the case and articulate the lessons learned from the case. The take home exam will consist of a case and a comprehensive reflective essay question. The take home exam questions will be released to students in Week 1 of ST and will be due for submission the following week.

**Information Systems for the Public Sector: Digital Government and Service Innovation**

- **This information is for the 2018/19 session.**
- **Teacher responsible:** Dr Antonio Cordella NAB3.30
- **Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy,
MG480 Half Unit
Management of Human Resources: Strategies and Policy

This information is for the 2018/19 session.

Teacher responsible: Dr Jonathan Booth NAB4.20

Availability: This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/ CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management) and MSc in Human Resources and Organisations (Organisational Behaviour). This course is not available as an outside option.

Course content: The course examines central issues pertinent to the theory and practice of Human Resource Management (HRM). It introduces students to a range of theoretical perspectives which underpin the ways in which organisations manage the employment relationship through the deployment of HRM strategy and policy. From a practice perspective, it reviews challenges involved in the design, implementation and evaluation of both overall HRM strategy and specific practice areas. In this respect we review HR policy and practice in the areas of recruitment and selection, job redesign, pay and rewards, training and development, employee voice and conflict, engagement, retention and attrition, performance management and appraisal, and strategic HRM.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: Students are expected to read widely in the appropriate journals; a detailed reading list will be provided at the

**Assessment:** Exam (60%, duration: 2 hours) in the summer exam period.

**Essay (40%, 1500 words) in the LT.**

---

**MG481 Half Unit**

**Innovating Organisational Information Technology**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Carsten Sorensen NAB 3.11 and Dr William Venters NAB 3.13

**Availability:** This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange and MSc in Operations Research & Analytics. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** A basic knowledge of computing, including hardware and software. Students are expected to have a basic understanding of the challenges of implementing and managing information systems in organisations.

**Course content:** The course provides students with a practical and theoretical insight into the processes and practices of developing contemporary Information Systems. The course reflects the diversity of contemporary information systems contexts, discussing how we should manage the development of complex Internet enabled systems and services. The course focuses on new technologies and practices including cloud, open-source development, Software as a Service, Web2.0 mashups, mobile and ubiquitous information technology, technology to support knowledge work, innovating customer relationship management, mediating mutual adjustment and mass-scale mediated communities. The changing architectures of information systems towards an Internet based cloud are key themes of the course. Attention is however also given to the development of traditional ERP and information management systems which remain important in enterprises. The course also discusses the development challenges in small start-ups leveraging existing development platforms. Particular attention is given to problem structuring and problem design issues within such complex settings using Soft Systems Methodology and the Unified Modeling Language as a toolkit. Agile methods form a core part of the teaching, with Extreme Programming, Rapid Application Development and Internet-speed development contrasted with development formalism such as the Rational Unified Model and Capability Maturity Models. To ensure that students gain practical experience we include a one-week intensive "bootcamp" group Sprint project run during reading week in which outside consultants present a "real-world" case study of systems development and the groups undertake to rapidly analyse and design a proposal for a technical solution. This allows students to support their theoretical understanding with a strong practical experience of the pressures and difficulties of systems development today. The "bootcamp" group sprint project provides a realistic experience of developing systems within a consulting role, and is supported by classes and question and answer session and face to face discussion. Students gain an understanding of the benefits and difficulties of working within a small team under pressure.

**Teaching:** 20 hours of lectures, 5 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST. 8 hours of these lectures, and 5 hours of classes will occur be during the "Bootcamp" Sprint week which runs during reading week (Week 6) of MT.

**Formative coursework:** Students discuss articles, practice systems development techniques, and critically evaluate their success. Formative feedback is provided on class participation. A mock examination, with questions from MG472, MG481 and MG487 will be held.

**Indicative reading:**

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Project (50%) in the MT.

A two-hour unseen examination taken in the ST (50%). The team ‘boot camp’ project in Week 6 of the MT (50%).

**MG482 Half Unit**

**Innovation and Technology Management**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Jonathan Liebenau MABS 1.4

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Management (1 Year Programme) and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The main focus of this course is on how innovative technologies are managed and their consequences. It includes technological innovation in areas such as telecoms, hi-tech industries, pharmaceuticals, biotechnology, space technology,
financial technologies. Aspects covered are how new industries are created, how existing industries can be transformed by new technologies, linkages between technological development and the creation of wealth, and implementation success and failure of technological systems. Topics include: technology and entrepreneurship, technology strategy, R&D management, patents and intellectual property, disruptive technologies, project escalation, technological disasters. Economic, systems, managerial and sociological approaches will be compared using a variety of case studies.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Classes are based around reading and discussing selected journal articles and case studies available on or through the course Moodle site. Formative feedback is provided on class participation. In addition, students will present an essay plan in preparation for the final case-based essay, on which formative feedback will be provided.

**Indicative reading:**
- P Hall, Great Planning Disasters, 1982.
- P Hall, Great Planning Disasters, 1982.

**Assessment:**
- Essay (80%, 5000 words) in the LT.
- Presentation (20%) in the MT.

---

**MG483  Half Unit**

**eHealth: Policy, Strategy and Systems**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Elzbieta Taylor NAB3.37

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Management (Information Systems and Innovation) and MSc in Management of Information Systems and Digital Innovation. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** There are no prerequisites. Students should have some appreciation of information management and systems implementation issues, and some understanding of healthcare systems. A short set of readings will be provided for students who require this background understanding.

**Course content:** This course explores the principal issues faced by healthcare policy makers, healthcare organizations, entrepreneurs and supplier organisations as they plan for and develop healthcare information systems and infrastructures. The course considers systems oriented towards both administrative and clinical activities from the simplest apps to national eHealth infrastructures.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.

A reading week will take place in W6. There will be no teaching during this week.

**Formative coursework:** Seminars are based around reading and discussing selected journal articles. Formative feedback is provided on class participation. In addition, students complete a formative proposal for their essay on which written feedback is provided. Feedback on the first coursework will inform the second coursework (essay).

**Indicative reading:**

**Assessment:**
- Coursework (20%, 600 words), essay (70%, 4000 words) and class participation (10%) in the LT.

The assessment for this course is made up of a blog post (20%), essay (70%) and class participation (10%).

---

**MG484  Half Unit**

**Global Sourcing and Management of Business and IT Services**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Leslie Willcocks NAB 3.23

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Management (Information Systems and Innovation), MSc in Management (1 Year Programme) and MSc in Management of Information Systems and Digital Innovation.

This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** None, but a basic understanding of sourcing principles and of management in organisations is useful. A list of selected readings will be provided for students who require this background understanding.

**Course content:** The course focuses on global sourcing strategies and practices of corporations and government agencies. It examines these in Europe, Americas and Asia Pacific in the context of increasing globalisation of organisational intent, capabilities and sources of service supply. The course provides an understanding
of how international business is pursued, convergence and differences across organisations and countries, business strategies and fit with IT governance and sourcing approaches, and how sourcing of business and IT services is managed, focusing especially on outsourcing and offshoring decisions and implementation.

Teaching: 20 hours of lectures and 9 hours of seminars in the LT. A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Classes are based around reading and discussing selected journal articles and teaching cases from the course study pack. Formative feedback is provided on weekly class preparation and participation. There is a mock examination.

Indicative reading:

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

MG485  Half Unit
Management and Economics of E-Business

This information is for the 2018/19 session.
Teacher responsible: Dr Stephen Smithson NAB3.31 and Dr Antonio Cordella NAB3.30

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange and MSc in Management of Information Systems and Digital Innovation. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: None, but a basic understanding of information systems within organisational contexts is assumed. Students are expected to have a basic understanding of the challenges of implementing and managing information systems in organisations.

Course content: The course discusses managerial, economics and innovation aspects of online business. History and foundations of online business are introduced to discuss the managerial challenges of the different e-business practices: Business-to-consumer (B2C) and Business-to-business (B2B) systems; e-marketing; intermediation; and IT in supply chain management. Economic theories, such as transaction costs and principal agent, are used to discuss the impact of e-business on market structure and organisation. The course introduces practical and management aspects of the impact of diverse technologies on interorganisational relationships, new organisational forms, such as networked organisations, and electronic markets. Strategies for e-business innovation including web 2.0 and similar developments are also discussed.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Students will be expected to produce 1 essay in the LT. Classes are based around reading and discussing selected journal articles from the course reading list and case studies. Formative feedback is provided through class presentations and a formative essay of 1000 words on which feedback will be provided.

Indicative reading:
MG486  Half Unit
Social Computing, Data and Information Service

This information is for the 2018/19 session.

Teacher responsible: Prof Jannis Kallinikos NAB 3.24

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Management (Information Systems and Innovation), MSc in Management (1 Year Programme), MSc in Management Systems and Digital Innovation and MSc in Media and Communications (Data and Society). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course is about the growing importance of social computing. Ordinary users assume in spinning the fabric of the Web and supporting the operations of social media platforms and networks. This social transformation of the Web that is often referred to as social computing is closely associated with the diffusion of potent lightweight technologies such as smart phones, tablet computers and wearables and the continuing development of advanced interactive software applications. It is also linked to architectural and other software-based innovations that help construct interoperable information systems and infrastructures. Taken together, these trends set the stage for the transition from a transaction-based Web (e.g. buying items) to a Web in which online interaction, talk and communication become the backbone activities for the production of data and the generation of economic value.

In this context, social media platforms emerge as key entities that mark the social transformation of the Web and the production of services that accommodate a great deal of stakeholders, such as platform owners, platform users and third parties such as advertisers and digital analytics companies. The course deals with the ways by which social media platforms operate as data platforms by analysing the ways by which they engineer user participation to produce a computable data footprint that is subsequently used to develop a range of data-based resources and services. The course also shows how social media deploy personalization strategies and how personalization is inherently connected to big data and, more particularly, social data. The course takes a unique approach to social media by examining the data-work they perform and the innovative economic practices they promote. Social media powered networks, platforms, and infrastructures are at the heart of today's digital economy.

The course blends theories, ongoing research insights and real-life examples to analyse the social and economic implications of these significant developments.

- Explain the drives behind social computing
- Describe the technological developments and the architectural principles that govern social computing and the growing involvement of lay publics in the Web
- Link data-based practices with social systems and the digital economy
- Explain how social media platforms operate as business organisations
- Understand information infrastructures and the role they play in sustaining social media platforms and the digital economy
- Describe social media as important actors in the digital economy
- Understand personalization strategies and their implications
- Acquire critical awareness of social data and big data

Teaching: 20 hours of lectures and 9 hours of seminars in the LT. There is a Reading Week in Week 6. There will be no teaching during this week.

Classes are based around reading and discussing selected journal articles and case studies from the course reading list.

Formative coursework: Students are expected to produce 1 essay in the LT.

Indicative reading:

MG487  Half Unit
Innovation and Information Systems: Concepts and Perspectives

This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Management (Information Systems and Digital Innovation), MSc in Management (1 Year Programme), MSc in Management Systems and Digital Innovation and MSc in Media and Communications (Data and Society). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course explores the theoretical foundations for the study of organizational and social innovation and the particular role of information systems in such change. It integrates concepts and perspectives of innovation from a range of disciplines. In completing this course students should be able to draw critically from existing theories in order to address issues of technology-based innovation, organizational change and information systems management.

The lectures cover literature related to three broad themes: innovation and organizational change, information technology and organizational change, and information technology innovation and socio-economic change. For each of these themes we identify and discuss relevant theoretical concepts and perspectives. The discussion of theories is structured in terms of technical/strategic and socially embedded approaches.

Teaching: 10 hours of lectures, 18 hours of seminars and 5 hours of workshops in the MT. 1 hour of lectures in the ST.

A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Students are expected to produce 1 essay in the MT.

Seminars are based around reading and discussing selected
One meetings with a member of the Capstone team from the practice. A deeper understanding of how to apply theory to organisational activities in order to receive attendance credit. It is recommended that students attend the 10 Capstone lectures in the first year of study. Each group will receive feedback on their assignment. There will also be one 20-minute session for each blog group to discuss the development of their blog with a member of the Capstone team. A schedule of blog group meetings will be made available at the start of the first year. In the second year, students will attend sessions that will introduce the term's business projects. Students are also encouraged to attend at least one business project presentation by another team. Second year students apply the theoretical knowledge and business management skills gained in the first year by working on a business project. This takes place in either MT or LT and culminates in a presentation by each project team to their company sponsors, LSE faculty and student peer group. At the start term of students will be allocated to a client project team, typically comprising 5 or 6 students, supported by a sponsoring executive and a faculty coach, to carry out research on a business question posed by the client company. The actual topic is for the sponsoring organisation to decide and questions have historically been very diverse. Students have the option of proposing companies as business project company sponsors ("self-sponsored projects") or of developing a viable business plan for an entrepreneurial idea ("entrepreneurial business projects"), although these options must be agreed in advance with the faculty member responsible for business projects to ensure their suitability. Students will produce an individual essay which considers the links between theory and practice. Essay titles will be made available in MT of the first year. Essays will be submitted in LT of the first year. Department of Management to discuss issues relating to Capstone lectures. In addition to attending sessions, in the first year, each student is assigned to a group of approximately 5 students. Each group will produce a blog on one of the Capstone lecture topics. A schedule for the group blogs will be made available at the start of the first year. Each group will receive feedback on their assignment. There will also be one 20-minute session for each blog group to discuss the development of their blog with a member of the Capstone team. A schedule of blog group meetings will be made available at the start of the first year.

**Indicative reading:**
- Brynjolfsson E (2010), Wired for innovation; The MIT Press, Cambridge, MA

**Assessment:**
- Essay (50%, duration: 2 hours) in the summer exam period.
- Essay (25%, 2000 words) in the MT.

**MG488A**

**GMiM Capstone Course - Management in Action**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Emma Soane NAB4.02 and Dr Rebecca Newton

**Availability:** This course is compulsory on the Global MSc in Management, Global MSc in Management (CEMS MiM) and Global MSc in Management (MBA Exchange). This course is not available as an outside option.

**Course content:** The GMiM Capstone Course builds connections between management theory and practice and equips students with the skills necessary to succeed in their managerial careers. MG488 runs throughout the Global Master’s in Management’s first and second years.

MG488A programme comprises ten Capstone lectures throughout the first year. Capstone lectures run fortnightly in MT and LT, and will include sessions led by the course teachers and guest speakers from a range of organisations. Lectures will cover a range of topics such as leadership, strategy and entrepreneurship. Each lecture will contribute to the overall goal of achieving a deeper understanding of how to apply theory to organisational practice.

The remaining five sessions per term comprise optional one to one meetings with a member of the Capstone team from the Department of Management to discuss issues relating to Capstone lectures. In addition to attending sessions, in the first year, each student is assigned to a group of approximately 5 students. Each group will produce a blog on one of the Capstone lecture topics. A schedule for the group blogs will be made available at the start of the first year. Each group will receive feedback on their assignment. There will also be one 20-minute session for each blog group to discuss the development of their blog with a member of the Capstone team. A schedule of blog group meetings will be made available at the start of the first year.

In the second year, students will attend sessions that will introduce the term's business projects. Students are also encouraged to attend at least one business project presentation by another team. Second year students apply the theoretical knowledge and business management skills gained in the first year by working on a business project. This takes place in either MT or LT and culminates in a presentation by each project team to their company sponsors, LSE faculty and student peer group. At the start term of students will be allocated to a client project team, typically comprising 5 or 6 students, supported by a sponsoring executive and a faculty coach, to carry out research on a business question posed by the client company. The actual topic is for the sponsoring organisation to decide and questions have historically been very diverse. Students have the option of proposing companies as business project company sponsors ("self-sponsored projects") or of developing a viable business plan for an entrepreneurial idea ("entrepreneurial business projects"), although these options must be agreed in advance with the faculty member responsible for business projects to ensure their suitability.

**Teaching:**
- 7 hours and 30 minutes of lectures and 7 hours and 30 minutes of help sessions in the MT. 7 hours and 30 minutes of lectures and 7 hours and 30 minutes of help sessions in the LT.

**Project (65%) and class participation (10%) in the MT.**

**Assessment:**
- Project (65%) and class participation (10%) in the MT and LT.
- Attendance at Capstone lectures - 10% of total course marks.
- Presentations for students working on their business projects in the second year.
- Essays must consider application of management theory and practice. Students may choose to attend sessions. Additionally there is a 60 minute Q&A session in Lent Term to help students prepare for their essays.

Students on this course will have a reading week in Week 6 of MT and week 6 of LT, in line with departmental policy.

**Indicative reading:** Recommended readings will be provided for Capstone lectures when relevant.

**Assessment:**
- Essay (25%, 2000 words) in the LT. Students will produce an individual essay which considers the links between theory and practice. Essay titles will be made available in MT of the first year. Essays will be submitted in LT of the first year.

**Assessment:**
- Exam (50%, duration: 2 hours) in the summer exam period.
- Essay (25%, 2000 words) in the MT.
MG488B Half Unit
GMiM Capstone Course - Management in Action

This information is for the 2018/19 session.
Teacher responsible: Dr Emma Soane NAB4.02 and Dr Rebecca Newton
Availability: This course is compulsory on the Global MSc in Management (CEMS MiM) and Global MSc in Management (MBA Exchange). This course is available on the Global MSc in Management. This course is not available as an outside option. Pre-requisites: Students must have completed GMiM Capstone Course - Management in Action (MG488A).
Course content: The GMiM Capstone Course builds connections between management theory and practice and equips students with the skills necessary to succeed in their managerial careers. MG488 runs throughout the Global Master’s in Management’s first and second years.
First year students are prepared for MG488B by attending MG488A sessions during the first year of the programme. The MG488A programme comprises five speaker-led sessions for each of MT and LT. The remaining five sessions per term can be used by students to have one to one meetings with a Careers Consultant or a member of the Capstone team from the Department of Management. Second year students are welcome to attend MG488A sessions. Second year students in MG488B apply the theoretical knowledge and business management skills gained in the first year by working on a business project. This takes place in either MT or LT and culminates in a presentation by each project team to their company sponsors, LSE faculty and student peer group. At the start term of students will be allocated to a client project team, typically comprising 5 or 6 students, supported by a sponsoring executive and a faculty coach, to carry out research on a business question posed by the client company. The actual topic is for the sponsoring organisation to decide and questions have historically been very diverse.
Students have the option of proposing companies as business project company sponsors ("self-sponsored projects") or of developing a viable business plan for an entrepreneurial idea ("entrepreneurial business projects"), although these options must be agreed in advance with the faculty member responsible for business projects to ensure their suitability.
Teaching: 7 hours and 30 minutes of lectures and 7 hours and 30 minutes of help sessions in the MT. 7 hours and 30 minutes of lectures and 7 hours and 30 minutes of help sessions in the LT. GMiM Capstone Lectures run once a fortnight throughout the Michaelmas and Lent Terms. First year students are expected to attend all sessions. Second year students may choose to attend sessions.
There are two additional introductory sessions of 60-90 minutes each in early MT and LT in which the Business Projects for that term are introduced, as well as a 60 minute Q&A session on the subject of the summative essay in LT.
Students on this course will have a reading week in Week 6 of MT and week 6 of LT, in line with departmental policy.
Formative coursework: The formative assessment will have been completed in the first year in line with the MG488A course guide.
Indicative reading: Recommended readings will be provided for Capstone lectures when relevant.
Assessment: Project (65%) and other (10%) in the MT and LT. Essay (25%, 2000 words) in the LT.
Attendance at Capstone lectures - 10% of total course marks. Students are required to attend 10 Capstone lectures over the two years of the programme, with credits for attendance attached pro-rata to each session. Students must engage fully with session activities in order to receive attendance credit. It is recommended that students attend the 10 Capstone lectures in the first year of the programme.
Individual Summative Assignment – 25% of the total course marks. In year 2 students will write an academic essay on one of the Capstone lecture topics. Essay questions will be provided by the MG488 course team and will be made available in LT of the second year. Essays must consider application of management theory and practice. Students will submit their essays in MT of the second year.
Group Business Project - 65 % of total course marks. All business projects take place during the second year of study. Business projects are assessed on a group basis under three headings: quality of group presentation; quality of research (including application of theoretical concepts); quality of outcomes (recommendations and solutions) and other deliverables. Presentations for students working on their business projects in MT take place during LT. Presentations for students working on their business projects in the LT take place during the first week of ST.

MG492 Half Unit
Data Governance: Privacy, Openness and Transparency

This information is for the 2018/19 session.
Teacher responsible: Dr Edgar Whitley NAB3.32
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Management (Information Systems and Innovation), MSc in Management (1 Year Programme), MSc in Management of Information Systems and Digital Innovation and MSc in Media and Communications (Data and Society). This course is available as an outside option to students on other programmes where regulations permit.
Course content: The course provides a detailed consideration of the key elements of the concept of informational privacy, the open data movement and transparency. These topics lie at the intersection of diverse contemporary issues including, public sector reform, human rights, digital ecosystems and social networking, and the global and national regulation of business.
The course content is international in focus, and reviews contemporary issues arising from new technologies, new policies of governments, new practices and business models in the private sector. Topics include personal privacy and identity systems; motivations for information sharing and transparency and its potential for driving beneficial change; transformations in the management of government information and processing practices; the technological and regulatory challenges faced by public sector and business; the protection of sensitive personal data including medical and financial information; data-mining in the context of national security and anti-terrorism policies; communications surveillance policies; behavioural studies of privacy attitudes and the evolution of trust and consent in online environments.
The course enables students to develop their understanding of the challenges presented by new informational regimes, their regulatory development and emerging governance structures.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. A reading week will take place during Week 6. There will be no teaching during this week.
Formative coursework: Classes are based around reading and discussing selected journal articles. Formative feedback is provided on class participation. In addition, students will complete a formative essay plan on which feedback will be provided.
Indicative reading:
deliverables/privacy-data-protection-by-design).  
  Assessment: Coursework (20%, 800 words) and essay (70%, 5000 words).  
  Class participation (10%) in the LT.  
  10% class participation.  
  20% 800 word “blog” article that summarises the key argument of the research essay.  
  70% 5000 word research essay on an approved topic.

MG493  
Dissertation  
This information is for the 2018/19 session.  
Teacher responsible: Various  
Availability: This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/CPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management) and MSc in Human Resources and Organisations (Organisational Behaviour). This course is not available as an outside option.  
Course content: This course consists of an academic dissertation in which students explore a research question that is grounded in the academic literature. While students will be assigned a dissertation supervisor, the supervisor will only provide guidance as needed – students are expected to take the lead and demonstrate their ability to conduct independent research. Students can also apply for a Links project and, if accepted, will conduct research on an HR question posed by the Links sponsor. More information about Links projects will be provided in class.  
Teaching: 12 hours of lectures in the MT. 4 hours of lectures in the LT. 12 hours of lectures in the MT during Weeks 1 to 4 inclusive. Lectures will explain dissertation requirements and expectations. 4 hours of lectures in LT will introduce students to quantitative and qualitative research methods. Students will be expected to work independently on preparing a dissertation proposal, to be submitted at the end of MT. Supervisors will be assigned during the first few weeks of LT.  
Formative coursework: Students will work with their dissertation supervisors in order to gauge their progress.  
Indicative reading: Students will be instructed on how to conduct literature searches in order to find readings relevant to their research project.  
Assessment: Dissertation (100%).

MG496  
Study Skills and Research Methods  
This information is for the 2018/19 session.  
Teacher responsible: Dr Stephen Smithson NAB3.31  
Availability: This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is not available as an outside option.  
Course content: This course provides students with both a broader context for the study of information systems as well as the essential skills relevant to the MISDI programme. Various views of the changing nature and environment of information technology. Research and study skills, team working and other practical skills. Guidance for the dissertation. Seminars by various visiting speakers from academia and industry who discuss a wide range of issues relevant to contemporary information systems.  
Teaching: 20 hours of lectures in the MT.  
Indicative reading: T Cornford & S Smithson, Project Research in Information Systems, Macmillan, 2nd edn, 2005. Other books and journal articles will be recommended.  
Assessment: The course is not formally assessed.

MG497  
Half Unit  
Dissertation: MSc Management and Strategy  
This information is for the 2018/19 session.  
Teacher responsible: Dr Jorn Rothe NAB5.01  
Availability: This course is compulsory on the MSc in Management and Strategy. This course is not available as an outside option.  
Course content: The dissertation consists of a research project within the subject of management. Students work on this project individually under the guidance of a dissertation advisor. The dissertation should make a contribution towards understanding a topic or question related to management based on original analysis and empirical evidence.  
Teaching: There will be an introductory meeting, which will set out the requirements for the dissertation, the process, caution of plagiarism, etc. After this meeting students are welcome to approach staff with preliminary ideas in one-to-one meetings.  
Formative coursework: Students will receive feedback on a preliminary proposal (to be submitted by the end of Michaelmas Term) and will be allocated a dissertation advisor, under whose guidance they will complete a detailed project proposal by the end of Lent Term. Students work on their dissertation over the summer, with supervision available until the end of the Summer Term.  
Assessment: Dissertation (100%, 6000 words) post-summer term.

MG4A1  
Introduction to Studying for GMiM  
This information is for the 2018/19 session.  
Teacher responsible: Prof Alexander Pepper NAB 4.30  
Availability: This course is compulsory on the Global MSc in Management, Global MSc in Management (CEMS MiM) and Global MSc in Management (MBA Exchange). This course is not available
as an outside option.

Course content: The course is divided into three separate subjects: Statistics, and Quantitative and Writing Skills for Postgraduates. The Statistics course is for all students and covers basic probability and statistics, hypothesis testing, analysis of variance, association, correlation and regression. Students in the final portion of the course can opt for one of two options: Quantitative Skills, or Writing Skills for Postgraduates. The Quantitative portion of the course is an introductory mathematics course which covers the following topics with application reference to economics and business: Functions, Linear Equations, Natural Logarithm, Comparative Statics Analysis. The Writing Skills sessions are intended to help students who have backgrounds outside the social sciences and humanities make the transition to postgraduate work. Topics covered will include identifying and making an argument and the fundamentals of essay writing.

Teaching: 20 hours of lectures in the two weeks prior to the Michaelmas Term. There will also be some workshops and tutorial sessions for the statistics portion of the course, to support students preparing practical exercises. Rounding out the schedule is a full programme of talks and activities designed to smooth your transition to postgraduate study at LSE.

Assessment: No formal assessment. Students will sit a mock exam at the end of the statistics course based upon the material to aid learning.

MG4A3 Half Unit Incentives and Governance in Organisations

This information is for the 2018/19 session.

Teacher responsible: Dr Simon Bowmaker

Availability: This course is compulsory on the MSc in Management and Strategy. This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Marketing and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A knowledge of Mathematics and Economics.

Course content: The course uses economic theory to gain insight into issues related to internal organisation, structure, and management of firms. The course will draw on various fields including management science, industrial organisation and microeconomics. The course deals with three main topics: (i) the provision of incentives in organisations, (ii) the use of information in markets and firms, and (iii) the relationship between corporate finance and organisational decisions. A major theme concerns the question of how to provide incentives efficiently in organisations. Other important themes include efficiency, coordination, incompleteness of contracts and the use of the market versus internal exchange. A section of the course deals with capital structure. The implications of asymmetric information are examined. Corporate governance is discussed in a principal-agent framework.

Teaching: 20 hours of lectures and 9 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with Departmental policy.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG4A2 Half Unit Not available in 2018/19 Operational Research and Decision Science in Practice

This information is for the 2018/19 session.

Teacher responsible: Prof Lawrence Phillips and Prof Jonathan Rosenhead

Availability: This course is available on the MSc in Management Science (Decision Sciences). This course is not available as an outside option.

Course content: This course focuses on the key skills needed to be an effective practitioner in Operational Research (OR) and Decision Sciences (DS), and the structured approaches available for formulating (as opposed to solving) problems of complexity, uncertainty and conflict. It is designed to complement the technical methods introduced in the operational research and decision science compulsory courses with both facilitation and process skills, and methods for handling 'wicked' problems. I Students will acquire an appreciation of the different conditions under which OR & DS applications take place in practice, and the skills and methods that are needed to make effective interventions in the decision making of organisations. The history and development of OR & DS, as well as its current practice, will be examined to identify key issues affecting the practice of OR & DS and the role of the OR and DS consultant. Students will identify different kinds of organisation in which OR & DS make important contributions. The structure of these organisations will be studied together with organisational behaviours. The nature of decision making at both the strategic and operational levels will be examined. Students will be provided with an opportunity to explore their own work preferences enabling them to understand how they can best contribute to a work group so it becomes a high-performing team. Students will be introduced to the range of participative problem structuring methods appropriate to problem situations with multiple stakeholders facing uncertainty and conflicting objectives. These methods are aimed at developing a shared view of the problem among the clients, and a joint commitment to action. Students will have opportunities to develop their skills in problem structuring, and to identify the contributions that they can make when working in teams as well as individually.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST.

Formative coursework: There will be opportunities in MT to provide answers to test examination questions.

Additional reading matter will be issued for specific sessions.

Assessment: Exam (80%, duration: 2 hours) in the summer exam period.

Essay (20%, 2500 words) in the ST.
MG4A4  Half Unit  Not available in 2018/19

Empirical Research Strategy for Managerial Economics

This information is for the 2018/19 session.

Teacher responsible: Prof Yona Rubinstein NAB 5.31

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange and MSc in Management and Strategy. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course addresses the link between a research question, the nature of the available data, the appropriate statistical and econometric methods and the interpretation of the empirical findings.

Using datasets from current research in managerial economics, the course will explain how conceptual ideas are transformed into an empirical research project, and how this project is then implemented.

Topics will include:
1. The statistical modelling of research questions;
2. Identification in controlled experiments;
3. Identification strategies in observational data:
   a. cross section: instrumental variables, regression discontinuity design;
   b. panel data: fixed and random effects models, differences-in-differences;
   c. sample selection: structural models and non-parametric approach.

Teaching: 20 hours of lectures in the LT.

Students on this course will have a reading week in Week 6, in line with Departmental policy.

Indicative coursework: One formative essay (review of an empirical paper, 1000 words), one problem set, mock exam.

Indicative reading: Books:

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Essay (40%, 1000 words).

 MG4A5  Half Unit

The Analysis of Strategy A

This information is for the 2018/19 session.

Teacher responsible: Dr Kristof Madarasz NAB 5.05

Availability: This course is compulsory on the MSc in Management and Strategy. This course is not available as an outside option.

Course content: The objective of the two courses (A and B) is to provide students with a critical appreciation of behavioural economics and game theory relevant for strategic management. These two courses will help students to understand how managers in the real world ought to read situations from an economic and strategic angle. Attention will be given to conceptual underpinnings.

The course focuses on decision making in individual and strategic settings also through the lens of behavioural economics. It is an amalgam of insights from economics, game theory, and strategic management. Some lectures will discuss key aspects of choice under uncertainty, risk perceptions, choice over time, and the social aspects of value. A powerful tool to study strategic situations is game theory. Lectures will then also be devoted to developing the basic concepts of game theory including Nash and sub-game-perfect Nash equilibrium. These issues will be deepened further in the accompanying seminars.

Teaching: 20 hours of lectures and 9 hours of seminars in the MT.

Students on this course will have a reading week in Week 6, in line with Departmental policy.

Indicative reading:

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

 MG4A6  Half Unit

The Analysis of Strategy B

This information is for the 2018/19 session.

Teacher responsible: Dr Jom Rothe NAB 5.01

Availability: This course is compulsory on the MSc in Management and Strategy. This course is not available as an outside option.

Pre-requisites: Students must have completed The Analysis of Strategy A (MG4A5).

Course content: In this course we continue, deepen and extend the analysis of strategy. The success of a firm depends on the decisions it makes, and these decisions have to take the behaviour of competitors into account who themselves try to make optimal decisions. Thus the firm faces a problem of strategic interaction, and game theory takes this interaction consistently into account. This course aims at a strategic understanding of these situations and the decisions firms face. We will study general principles of strategic thinking, the application of these principles to specific problems and general conclusions we can draw in these situations. This part of the course focuses on the strategic aspects of competing against other firms within the same industry. We start by analysing market structure and various dimensions of competition - pricing, capacity choices, research and development and advertising. We will then discuss different aspects of strategic commitment and the commitment aspects of pricing, investment and financing decisions. We then focus on the dynamic aspect of pricing rivalry, in particular collusion and price wars. We will finally discuss the incentives for innovation and market entry and exit decisions. Our approach will emphasise both the power and the limits of a game-theoretic approach. We will use simple models to clarify the logic of strategic reasoning, and case studies to illustrate the link between the analysis of strategy and managerial decision making.

Teaching: 20 hours of lectures and 8 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with Departmental policy.

Indicative reading: There is no fully adequate textbook for this course. The most important text is D Besanko, D Dranove & M Shanley and S Schaefer, The Economics of Strategy, John Wiley (6th edition, 2012). Among the other sources are: L M B Cabral, Introduction to Industrial Organization, MIT Press (2000); P
MG4A9  Half Unit  Foundations of Business and Management for Human Resources

This information is for the 2018/19 session.

Teacher responsible: Prof Alexander Pepper NAB4 37

Availability: This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/CIJP). This course is available on the MRes/PhD in Management (Employment Relations and Human Resources). This course is not available as an outside option.

Course content: A basic grounding in the key management disciplines for students specialising in Human Resource Management. The aim of the course is for students to acquire a general understanding of the business and managerial context in which human resource management takes place.

Course contents include management theory, theory of the firm, business strategy, accounting and finance. Successful students will become intelligent discussion partners on these subjects and critical readers of financial information and the financial press.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 3 hours of lectures and 3 hours of seminars in the ST.

Students are expected to prepare for, and contribute to, the seminars. Seminars will include group work, preparing and giving presentations, case analyses, small group discussions, and self-assessment exercises. Students on this course will have a reading week in Week 6, in line with departmental policy.

Assessment: Exam (90%, duration: 2 hours) in the summer exam period.

MG4A8  Half Unit  Strategy for the Information Economy

This information is for the 2018/19 session.

Teacher responsible: Dr Jorn Rothe

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Economics and Management, MSc in Management and Strategy and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Basic knowledge of economics.

Course content: The internet has created many new market opportunities. Web-based technology allows for new kinds of market interactions and products. Understanding the design and functioning of these new markets is central for business strategy. This course develops the relevant economic principles and applies them to the formulation of strategies for the provision of information goods and the design of online market platforms. The first part of the course is concerned with strategic aspects of the provision of information goods (such as music, software, product reviews, search results). Topics include the pricing of information goods, versioning, switching costs, network effects, lock-ins and the discussion of e-commerce institutions and business models. The second part of the course covers the use and design of online-market transaction mechanisms for business-to-consumer and business-to-business e-commerce. Topics include principles of market engineering, design of standard (online-)auction markets and multi-unit auction markets, reputation and collusion in online markets and matching markets. The course provides a theoretical background and relates theory to various examples and case-studies (such as the design of Google’s ad-auctions).

Teaching: 10 hours of lectures and 9 hours of seminars in the MT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with Departmental policy.

Formative coursework: Two exercise sets with a mixture of qualitative and quantitative questions.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG4B1  Half Unit  Corporate Strategy

This information is for the 2018/19 session.

Teacher responsible: Dr Jordi Blanes I Vidal NAB 5.18

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Management (1 Year Programme) and MSc in Management and Strategy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students will need to have some understanding of microeconomics and knowledge of basic statistical methods would be an advantage.

Course content: This course is an introduction to the strategic management of modern diversified firms. It studies how the firm’s portfolio of products and its internal organisation can be designed to maximise corporate performance.

The course addresses the following questions facing modern managers: what products and activities should the firm focus on? Which tasks should be subcontracted and which should be carried out inside the firm? How should the firm be organised internally in order to coordinate and motivate employees, managers and other stakeholders? How should the firm’s scope and internal organisation adapt to changes in the environment?

Teaching: 30 hours of lectures in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be required to undertake the analysis of two Corporate Strategy problems which will be marked and handed back with feedback.

Assessment: Exam (90%, duration: 2 hours) in the summer exam period.

Class participation (10%).
MG4B3  Half Unit
International Marketing: A Strategic Approach

This information is for the 2018/19 session.
Teacher responsible: Prof Amitav Chakravarti NAB5.13
Availability: This course is available on the CEMS Exchange, MBA Exchange, MSc in Management and Strategy, MSc in Operations Research & Analytics, MSc in Social Innovation and Entrepreneurship and MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course is a rigorous examination of the key analytical frameworks, technical tools, and concepts that are essential in building an effective marketing strategy. The aim is to develop a widely applicable analytical tool-kit that relies on: (a) anticipating decisions that managers frequently face, (b) bringing to bear a wide range of fundamental, often competing social science theories to inform these decisions, (c) knowledge about empirical generalizations, and (d) knowledge about moderating conditions. Also, emphasis is placed on the use of a simulated case study to develop participant’s skills at analysing and making sense of complex real world business situations.

Teaching: 30 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with Departmental policy.

Further references will be provided at the commencement of the course.

Assessment: Other (50%), other (40%) and class participation (10%) in the MT.
Individual take home assignment (50%), to be completed in 1 week at the end of the course
Group Project (40%) - a non-assessed presentation and an assessed project report 2,500 word max
Class participation (10%) What makes a successful entrepreneur? Are managers subject to human biases in decision making? Our starting point is that entrepreneurs and managers are human. We neglect neither general heuristics nor biases exhibited by individuals and groups and their impact on firms’ performance. We further recognise that they make decisions in situations in which information is not perfect and not symmetrically shared, neither internally with their employees nor externally. We also consider the capabilities of organisations to design management strategies to cope with that.

How can firms attract and select the ‘right’ employees? Can pay and promotions be structured to screen the best workers and extract their efforts? Should firms develop employees’ talent and if so, how? Why do firms from teams and how these are used most effectively? Do experts follow the crowd? Why they turn to be ‘yes-men’? Can pay incentives be structured to motivate experts to share their private knowledge?

Design and Management of Organisations introduces students to a set of conceptual tools to cope with these key managerial challenges and critically evaluate contemporary management approaches.

The organising principle of much of the content of the course has its conceptual origins in economic strategy and behavioral economics applied to issues that are relevant to management. Additionally we draw upon findings from psychology and sociology. The course complements MG4A3 (Incentives and Governance in Organisations) but can be taken as a stand-alone course.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with Departmental policy.

Formative coursework: Students will be expected to produce 1 problem sets in the LT.

Multiple exercises will be provided throughout the term and will be discussed during lectures and review sessions. In addition a major problem set will be circulated at the end of the week 5. This problem set will be discussed in class for feedback purposes only.

Indicative reading: The first set of slides will be provided during lecture 1 and subsequent sets will be posted online. These slides constitute the backbone of the course. You are expected to flesh out the slides using models, graphs, and examples discussed during the lectures.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG4B6  Half Unit
Design and Management of Organisations

This information is for the 2018/19 session.
Teacher responsible: Prof Yona Rubinstein NAB 5.31
Availability: This course is compulsory on the MSc in Management and Strategy. This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MBA Exchange and MSc in Management (1 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: In this course we investigate aspects of management and the internal organisation of the firm from birth to end.
MG4B7  Half Unit  Organisational Change

This information is for the 2018/19 session.
Teacher responsible: Prof Jacqueline Coyle-Shapiro
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MPA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MRes/PhD in Management (Employment Relations and Human Resources), MSc in African Development, MSc in Development Management, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management (1 Year Programme), MSc in Management of Information Systems and Digital Innovation and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course adopts a psychological framework to explore the content, process and outcomes of organisational change. The aim of the course is to provide students with different psychological theories to understand the process and consequences of organisational change and in doing so addresses the following issues: type of organisational change, creating readiness for organisational change and leading change, the change agent, strategies for change, resistance to change and evaluation of and institutionalization of change. Models and frameworks for analyzing and diagnosing change; the role of the change agent, leading change from the top, bottom up change specific interventions; strategies of change; a justice perspective on organisational change; understanding recipients reactions to change; theory and methods of evaluation of organisational change and reinforcing change interventions.
Teaching: 21 hours of lectures and 12 hours of seminars in the LT. 5 hours of lectures and 1 hour and 30 minutes of seminars in the ST. The teaching is highly participative and includes lectures and seminars. Group working is an integral part of the course and students are expected to actively contribute to their syndicate group throughout the year. The course is demanding of students and depends partly upon commitment and willingness to participate fully. The course is taught in the LT. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: Students will take part in a mock exam in the LT.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG4B9  Half Unit  Not available in 2018/19  The World Trading System

This information is for the 2018/19 session.
Teacher responsible: Dr Veronica Rappoport
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MPA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Economics and Management, MSc in Management and Strategy, MSc in Risk and Finance and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Basic Knowledge of Mathematics and Economics
Course content: The course studies a key component of the 'globalization' process: the negotiation, implementation and implications of international trade agreements (ITAs). These include the World Trade Organisation and the fast-growing web of regional trade agreements. We analyse the challenges and opportunities faced by companies engaged in the global economy in this context. The course relies on recent theoretical and empirical research to gain insight into the motivations for ITAs and their consequences for consumers and firms. Globalisation - trends in the international economy and overview of their causes and effects. The sources of international trade. Trade barriers - restrictions to international trade and their consequences. The economics and politics of international trade agreements. The rules, accomplishments and shortcomings of the GATT/WTO system. Regional trade agreements - motivation, implications, and recent trends. The costs and benefits from exporting for individual firms. Challenges and opportunities for national and multinational firms in the global economy.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures in the ST. Students on this course will have a reading week in Week 6, in line

MG4B8  Half Unit  Not available in 2018/19  Evolutionary Psychology and Management

This information is for the 2018/19 session.
Teacher responsible: Dr Satoshi Kanazawa
Availability: This course is available on the MSc in Management and Strategy. This course is available as an outside option to students on other programmes where regulations permit.
Course content: Principles of evolutionary psychology. The nature and limitations of the human brain as an evolved and adapted organ. Evolutionary origins of cognitive biases, and their effects on organisational behaviour. Sex differences in organisational behaviour. The importance of physical attractiveness and general intelligence in organisational behaviour. "Discrimination" in labour market. Evolutionary psychological perspectives on cooperation, reciprocity, altruism, hierarchy, and leadership in modern corporations. Evolutionary origins of organisationally relevant emotions such as envy, spite, and positional bias. This course introduces the evolutionary psychological perspective on business and management. The emerging science of evolutionary psychology sheds entirely new light on, and offers different solutions to, old problems of management, such as glass ceiling, occupational sex segregation, sexual harassment and suboptimal decision making, and points to new potential problems.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.
Formative coursework: One class presentation and one essay based on the class presentation.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.
with departmental policy.

**Formative coursework:** In-class exercises.

**Assessment:** Coursework (50%), class participation (10%) and other (40%) in the MT.

Group assignments (40%)

Peer evaluation and class participation (10%) individual assignment during the last week of the term (50%)

---

**MG4C2  Half Unit  Organisational Behaviour**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Hyun-Jung Lee NAB4 12

**Availability:** This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/ CIPD) and MSc in Human Resources and Organisations (Organisational Behaviour). This course is available on the CEMS Exchange, MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MRes/PhD in Management (Employment Relations and Human Resources), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Marketing and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is available in the Michaelmas Term only.

**Course content:** This course seeks to understand individual attitudes and behaviour in an organisational context. Specifically, we primarily take a psychological perspective to understanding human behaviour at work by reviewing psychological theories as they apply to organisations and critically evaluating the associated empirical evidence.

Key topics include: personality and individual differences, work motivation, decision-making, rewards systems, leadership, group processes and organisational culture.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures and 1 hour and 30 minutes of seminars in the ST.

The teaching is highly participative and includes lectures and seminars. The course is demanding of students and its success depends partly upon student commitment and willingness to participate fully.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

---

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**MG4C3  Half Unit  Information Technology and Service Innovation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Carsten Sorensen

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MRes/PhD in Management (Information Systems and Innovation), MSc in Management (1 Year Programme) and MSc in Management of Information Systems and Digital Innovation. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is limited to 60 students.

**Course content:** The course aims to give the students theoretical and practical insights into the key issues informing the design of contemporary digital technology (IT). The course relates to the diversity of the design challenges facing contemporary IT development. It embraces the shifting conditions for small teams of developers to design significant services in the context of technology-based startups, or as part of entrepreneurship within an existing enterprise or public institution. The design challenges relate to constantly shifting possibilities, for example, for the capture and processing of digital data previously beyond reach, the ability to leverage existing boundary resources (APIs, SDKs etc), and the expanding possibilities for reaching end-users in new ways. The course is constructed as the meeting of theory and practice. The former is constituted by the presentation and discussion of theoretical themes aimed at sharpening the student’s ability to reason fundamentally about contemporary design challenges and opportunities. This aspect is also examined through an individual essay. The practical design skills are primarily honed through a group design project running throughout the course. Conducting this group design project will engage students in highly detailed and constructive design discussions leading to the submission of a designed IT artifact. The practical design skills sought practiced in the course are related to but largely independent from skills solely aimed at setting and analysing requirements on the one hand, and expressing the design through programming, on the other. The course, therefore neither requires, nor teaches detailed programming techniques, but instead focuses on teaching design skills through practices and to sensitise these design skills through the discussion of pertinent theoretical themes. These themes take their outset in the increasing complexity of designing IT artifacts as the granularity of technology and data capture is decreasing to enable increasing tracking of more and more granular aspects of human activities. These relate to a variety of personal-, local-, and global communications infrastructures, as well as a variety of possible multi-sided platforms, and software middleware layers enabling rapid prototyping of complex designs. Topics addressed will be: Digital infrastructure innovation; Digital platform strategies; Designing technology affordability diversity; Understanding technology performances; Individual interaction intimacy; Amplified teams; The technological organisation; Global crowd innovation with IT; Global technology innovation tussles; Business innovation with information technology; and decentralised consensus arrangements through blockchains. The weekly seminars will consist of presentations and discussions offering students opportunity to critically reflect on theoretical and pragmatic issues related to the subject matter of the course, such as, the IT artifact and ecosystem, the role of IT in business innovation, understanding the paradoxes of technology performances, intimate technology experiences, IT mediated teamworking, the IT-enabled organisation, innovating global IT mediated crowds, innovation as organisational tussles, and the role of IT-based innovation for business development.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. A reading week will take place in W6. There will be no teaching during this week.

Formative coursework: Classes are based around both the design group projects, as well as reading and discussing selected journal articles. Formative feedback is provided on class participation.

Indicative reading:
- Ciborra, C. (2002): The Labyrinths of Information. OUP
- Mansell, R. (2012): Imaging the Internet

Assessment: Project (50%) and coursework (50%).

The course has two summative elements: an individual essay (50%), and from the group design project, a technical report and a separate submission of a designed artefact jointly comprise one summative component (50%).

MG4D2 Half Unit
International Employment Relations

This information is for the 2018/19 session.
Teacher responsible: Prof Carola Frege - NAB 5.20
Dr Frido Wenton - NAB 4.04

Availability: This course is compulsory on the MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management). This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange and MRes/PhD in Management (Employment Relations and Human Resources). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: A general knowledge of the social sciences is required.

Course content: The course aims to provide an introduction to the comparative analysis of work and employment relations at national, firm and workplace level throughout the world. It will introduce the dynamics of employment relations across the increasingly global markets, the key concepts and topics surrounding it (such as employee voice, dignity of work, outsourcing, labour conflicts, labour productivity, skills), and the theories required to understand it. The strategies and policies of the main actors will be explored through cross-national comparative analysis. The course will also introduce the main ‘models’ of employment relations: the US/British, Japanese and European Social Models, as well as models of employment relations in the transitional economies.

The aim of the classes will be to provide an introduction to the comparative analysis of employment relations in a global world. It also ensures that students have both the conceptual and empirical grounding they need to take the options offered in international comparative human resource management and cross-cultural management.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. The teaching is highly participative and includes lectures and seminars. Group working is an integral part of the course and students are expected to actively contribute to their class groups. The course is demanding of students and depends for its success partly upon their commitment and willingness to participate fully. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are required to submit an essay outline by the end of week 4, matching the topic of their first summative essay.

Assessment: Essay (40%, 2500 words) in the MT. Essay (50%, 2500 words) in the LT. Class participation (10%).

MG4D3 Half Unit
The Dark Side of the Organisation

This information is for the 2018/19 session.
Teacher responsible: Dr Jonathan Booth NAB 4.20

Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Management (Employment Relations and Human Resources), MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations and
Human Resource Management) and MSc in Human Resources and Organisations (Organisational Behaviour). This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Introductory OB course required. MG4C2, MG434, MG105, or equivalent course in another institution. Students will be required to write a paragraph about their motivation for taking this course.

**Course content:** In this seminar, students will learn about a variety of topics related to the dark side of the organisation, (e.g. workplace aggression, retaliation, discrimination, substance abuse, corporate corruption, extreme stakeholder responses to organisations, and the dark side of impression management/ emotional intelligence). In organisational behaviour courses, topics generally cover the ‘light side’ of the organisation and often explore how employee motivation and behaviour can promote beneficial outcomes for the organisation, as well as investigate the precursors to these more positive behaviours. However, not all workplace behaviours and outcomes are beneficial and positive for employees and their organisations. Dark side behaviours typically lead to negative outcomes. Those who engage in these negative behaviours generally are aware that their actions can cause harm to others, their employer, and/or to them; hence, the instigator usually has intent. It is imperative that we more fully understand these behaviours and their antecedents and consequences so that we can identify these behaviours, as well as control, prevent, mitigate, or ameliorate their occurrences.

**Teaching:** 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Essay (35%, 2000 words) and class participation (15%).

**MG4D4** Half Unit

**Cross Cultural Management**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Hyun-Jung Lee NAB4.12

**Availability:** This course is available on the MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MRes/PhD in Management (Employment Relations and Human Resources), MSc in Human Resources and Organisations (Human Resource Management/ CIPD), MSc in Human Resources and Organisations (International Employment Relations and Human Resource Management), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Management (1 Year Programme), MSc in Social Innovation and Entrepreneurship and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Some background in psychology and organisational behaviour, and/or international business is useful, but not required.

**Course content:** The ability to communicate cross-culturally and to understand the diverse perspectives of people from different cultures is a necessity in order to achieve a competitive advantage in the global economy. The aims of the course are to understand the impact of culture on management; to identify the areas in which cultural differences pose challenges as well as opportunities in managing people across cultures; and, to become more self-aware of our cultural conditioning, individual biases and assumptions.

Topics include i) understanding my own and others’ cultural conditioning, ii) analytical frameworks of cross-cultural comparisons, iii) multicultural teams, iv) managing global organisations, v) ethical dilemmas and global responsibility of multinational corporations, vi) cross-cultural communication and negotiation, vii) global leadership and cultural intelligence, viii) international assignments and global careers.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT. 3 hours of seminars in the ST.

Experiential learning is emphasised and team working is an integral part of the course. The teaching is highly participative. Students will be asked to make presentations and participate in exercises. The course is demanding of students and success depends partly upon student commitment and willingness to participate fully. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** The following reading list contains some easily accessible introductory discussions. Most of the course reading is taken from journals. A full reading list will be issued at the start of the course. B. Gerhke and M-T Claes (eds.) (2014), Global leadership practices: A cross cultural management perspective, Palgrave Macmillan. R. Steers et al. (2013), Management across cultures, Cambridge University Press; R Nisbett (2003), The geography of thought, Nicholas Brealey Publishing

**Assessment:** Essay (50%), project (40%) and class participation (10%).

The essay is completed individually, and the project is completed as part of a group.
MG4D7  Half Unit
Dissertation: MSc MISDI
This information is for the 2018/19 session.
Teacher responsible: All members involved with MSc MISDI are involved in dissertation support.
Availability: This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is not available as an outside option.
Course content: The aim of the dissertation is for students to pursue an independent piece of research within the field of information systems. The dissertation is a quantitative or qualitative, theoretically informed, piece of research of IS-related questions. Students must obtain the approval of their advisor before embarking on any research. The course MG496 Study Skills and Research Methods and the course MY401 on research design provide guidance and background material on undertaking dissertation work.
Advisors will normally be allocated according to student dissertation proposals. The dissertation advisor will advise the student, help provide information and bibliography and identify likely problems with the proposed research.
Referencing: Details on Group requirements for referencing and paraphrasing and the presentation of the dissertation are given during the MG496 Study Skills and Research Methods course. Students with any queries on this area should contact their dissertation advisor or the MSc Tutor.
Teaching: Teaching for the dissertation comprises two components: MY401: Research Design for Studies in Digital Innovation and MG496: Study Skills and Research Methods. Students must follow both of these courses.
Formative coursework: Students will present their research question, conceptual framework and research design. They will receive feedback from their supervisor and fellow peers.
Assessment: Dissertation (100%, 8000 words) post-summer term. Two paper copies of the dissertation must be handed in on a specified date in late August. An electronic version of the dissertation must also be submitted. Penalties will be applied to any late submission. The word limit for the dissertation is 8000 words. The dissertation is critical to assessment on the programme.

MG4E2  Half Unit
Marketing Management
This information is for the 2018/19 session.
Teacher responsible: Dr Haider Ali
Availability: This course is compulsory on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange) and MSc in Management (1 Year Programme). This course is not available as an outside option.
Course content: This course is a rigorous examination of the key analytical frameworks, technical tools, and concepts that are essential in building an effective marketing strategy. Participants are introduced to the subject at both strategic and operational levels. This course combines LSE’s premier standing in the social sciences with cutting-edge management practices. By using a wide range of concepts, interactive lectures, videos, hands-on exercises, and case studies, we will share key analytical frameworks and tools that are essential to a good marketing strategy. The aim is to develop a widely applicable analytical tool-kit that relies on: (a) anticipating decisions that managers frequently face, (b) bringing to bear a wide range of fundamental, often competing social science theories to inform these decisions, (c) knowledge about empirical generalizations, and (d) knowledge about moderating conditions. Also, emphasis is placed on the use of case studies to develop participant’s skills at analysing and making sense of complex real world business situations.
Teaching: 30 hours of seminars in the MT. 2 hours of seminars in the ST.
Course instruction will be conducted using lectures, case discussions, readings, and analysis of data sets.
Formative coursework: Students will be expected to produce 1 piece of coursework in the MT. The formative will be an in-depth case analysis, with two components to it. One component will help prepare participants for the Marketing Project (i.e., more conceptual applications, using social science theories and frameworks to make sense of real-life “messy” cases), and the other component will help prepare participants for the Final Exam (i.e., application of theoretical as well as more analytical frameworks and data analysis that has a more clear pattern of right or wrong answers).
Assessment: Exam (50%, duration: 3 hours) in the summer exam period.
Project (50%) in the MT.

MG4E7  Business Fundamentals
This information is for the 2018/19 session.
Teacher responsible: Prof Amitav Chakravarti NAB 5.31 and Prof Om Narasimhan NAB 5.06
Availability: This course is compulsory on the MSc in Marketing. This course is not available as an outside option.
This is a non-assessed introductory course.
Course content: The aim of the introductory Core is to deliver some critical business prerequisites to incoming MSc Marketing students. Broadly, there will be four kinds of course materials covered during these two weeks: (1) Some modules are intended to strengthen participants’ analytical skills. These modules comprise sessions on microeconomics/business economics that enables participants to analyze firms and markets in more depth, and sessions that impart basic knowledge in analytics/statistics that is becoming absolutely essential in the current age of Big Data, (2) Some other modules will expose participants to the fundamentals of other functional areas like Accounting, Finance, & Controls, Leadership, Organizational Behavior, and Team Building, (3) Some modules will look deeper into one of the fundamental skills that marketing managers try to hone—understanding and elicit consumer insights; and finally, (4) The remaining modules will assist in career planning, coaching for marketing problem solving (e.g., as is common in consulting and/or case study-based interviews), with a broad understanding of the numerous options for internships, employment, companies, functions, and roles.
Teaching: 20 hours of teaching over two weeks prior to the Michaelmas Term. Full details of this will be sent to offer holders as part of their offer pack. The schedule will also include a full
MG4E8 Half Unit Principles of Marketing

This information is for the 2018/19 session.
Teacher responsible: Prof Amitav Chakravarti NAB 5.13
Availability: This course is compulsory on the MSc in Marketing. This course is not available as an outside option.

Pre-requisites:
Completion of the MSc in Marketing pre-sessional course, MG4E7 Business Fundamentals.

Course content: This course is a rigorous examination of the key analytical frameworks, technical tools, and concepts that are essential in building an effective marketing strategy. Participants are introduced to the subject at both strategic and operational levels. This course combines LSE's premier standing in the social sciences with cutting-edge management practices. By using a wide range of concepts, interactive lectures, videos, hands-on exercises, and case studies, we will share key analytical frameworks and tools that are essential to a good marketing strategy. The aim is to develop a widely applicable analytical tool-kit that relies on: (a) anticipating decisions that managers frequently face, (b) bringing to bear a wide range of fundamental, often competing social science theories to inform these decisions, (c) knowledge about empirical generalizations, and (d) knowledge about moderating conditions. Also, emphasis is placed on the use of case studies and data analysis to develop participant's skills at analysing and making sense of complex real world business situations.

Teaching: 30 hours of lectures in the MT.
Indicative reading:
• Alex Chernin (2011), Strategic Marketing Management (6th edition), Cerebellum Press
• Philip Kotler and Gary Armstrong (2001), Principles of Marketing (9th edition), Prentice Hall
• Philip Kotler and Kevin Keller (2011), Marketing Management (14th edition), Pearson Prentice Hall

London: Palgrave Macmillan
Further references, especially for journal articles and HBS case studies, will be provided at the commencement of the course.
Assessment: Coursework (50%), project (40%) and class participation (10%) in the MT.
Group Project (40%) - a non-assessed presentation and an assessed project report 2,500 word max
Individual take home assignment (50%), to be completed in 1 week at the end of the course.

MG4E9 Half Unit Marketing Analytics I: Consumer Analysis Fundamentals

This information is for the 2018/19 session.
Teacher responsible: Dr Adam Smith
Availability: This course is compulsory on the MSc in Marketing. This course is not available as an outside option.

Pre-requisites:
Completion of the MSc in Marketing pre-sessional course, MG4E7 Business Fundamentals.

Course content: This course lays down the foundations of Marketing Analytics which is an absolute essential in the age of Big Data. The broad objective of this course is to provide a fundamental understanding of marketing analytics and research methods employed by well-managed firms. The course focuses on integrating problem formulation, research design, questionnaire construction, sampling, data collection and data analysis to yield the most valuable information. The course also examines the proper use of statistical applications as well as qualitative methods, with an emphasis on the interpretation and use of results. Since analytics is the discovery and communication of meaningful patterns in data, this course will also provide students with an analytics toolkit, reinforcing basic probability and statistics while throughout emphasizing the value and pitfalls of reasoning with data. Applications will focus on connections among analytical tools, data, and business decision-making. Advanced analytical tools will be discussed in-depth in the follow-up course Marketing Analytics II.

Teaching: 30 hours of lectures in the MT.
Formative coursework: Students will be expected to produce 1 case study in the MT.
Indicative reading:
• Lehmann, Donald, Market Research and Analysis, Homewood, IL: Irwin (1989)

Assessment: Coursework (50%), project (40%, 2500 words) and class participation (10%) in the MT.
Group Project (40%) - a non-assessed presentation and an assessed project report 2,500 word max
Individual take home assignment (50%), to be completed in 1 week at the end of the course.
Class participation (10%)
from a marketing value-creation point of view, and (b) Section 2 provides data-based, scientific analysis of what the firm could do better for a more sustainable and competitive future.

**Teaching:** 2 hours of lectures in the LT.

One formal lecture, plus individual appointments through LT and ST with groups to discuss their chosen projects.

**Indicative reading:**
- Building a Marketing Plan, by Ho Yin Wong; Kylie Radel; Roshnee Ramsaran-Fowda, Harvard Business School Publishing.
- The Marketing Plan Handbook Paperback – 1 Sep 2011 by Alexander Chernev

**Assessment:** Project (95%) in August.

Class participation (5%) in the LT and ST.

Students will undertake a peer reviewing providing feedback on the other members of their project group.

---

**MG4F2** Half Unit

**Marketing Analytics II: Analytics for Managing Innovations, Products and Brands**

This information is for the 2018/19 session.

Teacher responsible: Prof Om Narasimhan NAB.5.06

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Management (1 Year Programme), MSc in Marketing and MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Marketing managers make ongoing decisions about product features, prices, advertising (online and offline), distribution, sales compensation plans, and so on. In making these decisions, managers choose from among alternative courses of action in a complex and uncertain world. Increasingly, in this age of Big Data, companies that emerge as market leaders tend to be the ones that employ sophisticated Marketing Analytics. This sequel course in Marketing Analytics will entail a deep-dive into the state-of-the-art Marketing Analytics models that allow managers to make scientific decisions regarding launching new products or innovations and managing more mature products and brands. This course will focus upon the use of cutting-edge data analytic techniques to understand and inform managerial decision making with a primary focus on the formulation of dynamic marketing policies. The course is structured to enable the student to gain familiarity with techniques for scraping the web for data, sentiment analysis, multivariate regression, discrete choice modelling, probability models for customer management, causal inference through A/B testing, classification and regression trees, and introductory machine learning.

**Teaching:** 30 hours of lectures in the LT.

**Formative coursework:** Students will be engaged in analysing a number of data sets using the techniques learned in class. This will set the stage for their group project (gathering and analysing data) as well as the take-home assignment (which will involve analysing data sets given to them).

**Indicative reading:**

**Assessment:** Other (45%), other (45%) and class participation (10%) in the LT.

Individual Take-home assignment (45%), due within 1 week of when it is assigned.

Group project (45%)

Individual Class participation (10%)
MG4F4  Half Unit
Strategy and Innovation in a Global Context

This information is for the 2018/19 session.
Teacher responsible: Dr Lourdes Sosa NAB 5.19
Availability: This course is compulsory on the MSc in
Management (1 Year Programme). This course is not available as
an outside option.

Course content: This course focuses on understanding the drivers
of differences in profitability among firms in our economy, both
in the short and long term. The overarching teaching objective
is to learn to design managerial recommendations that can
help a firm improve and defend its competitive advantage both
immediately and for its future. Consequently, the course's topics
are in a necessary sequence moving from short-term concepts
such as industry factors to long-term concepts such as disruptive
innovation.

A suggested list of topics to be covered by lecture is as follows:
1. Introduction and the Concept of Business Model
2. Average Industry Profitability and Competition
3. Value Proposition and Strategic Resources
4. Cumulative Resources and Internal Organization
5. The Effect of Innovation on Competition and the Concept of
Value Innovation
6. Disruptive Innovation and Competence Destruction
7. The Concept of Value Chain and Business Model Innovation
8. Organizational Ambidexterity and Dynamic Capabilities
9. Organizational Complexity and Strategy as "Simple Rules"
10. Fundamentals of Corporate Strategy and Final Remarks

This course provides an introduction to strategic analysis aiming
to explain the design of managerial recommendations to improve
and defend the competitive advantage of a firm both immediately
(cross-sectional analysis) and in the future (longitudinal analysis).
It requires significant use of analytical reasoning as well as the
ability to switch between considering the big picture and the fine-
gained detail. A key step for the learning objectives of the course
is the completion of a 1-week trip to an economy where students
will be able to see strategy in the making in its full natural context.

Teaching: 10 x 180 minute seminars in the period after exams and
summer term plus a week study trip abroad.

Formative coursework: Students will be expected to produce 1
presentation in July.

Indicative reading:
   Academy of Management Executive.
2. Christensen, C.M., Bower, J.L. 1996. Customer Power,
   Strategic Investment and the Failure of Leading Firms. Strategic
   Management Journal.
3. Dierickx, I., Cool, K. 1989. Asset Stock Accumulation and
   Sustainability of Competitive Advantage. Management Science.
   Competence Access: Evidence from the Comparison of Two
   Management Journal.

Assessment: Essay (90%, 2000 words) post-summer term.
Class participation (10%) in the ST.

This course is assessed on a report that makes use of the
concepts from the course and their application illustrated in the
international trip. Details will be discussed during lectures.

MG4F6  Leadership in Practice

This information is for the 2018/19 session.
Teacher responsible: Mr Dan White
Availability: This course is compulsory on the MSc in
Management (1 Year Programme). This course is not available as
an outside option.

This is a core, non-assessed module in the summer.

Course content: This is a leadership development course intended
to build specific skills required by leaders in organisations. Each
session of this course will focus on a different skill, including
coaching, team leadership, performance management,
presentation skills, upward management, giving and receiving
feedback, and facilitating creativity. The instructor will provide
a framework for learning the skill, then students will engage in
interactive exercises to practice the skill and give each other
feedback. By the end of the course, students will have acquired
a set of leadership skills along with individual feedback from their
peers that helps them gauge how well they have learned those
skills.

MG4F5  Half Unit
Business in the Global Environment

This information is for the 2018/19 session.
Teacher responsible: Dr Veronica Rappoport-Redondo NAB 5.29
Availability: This course is compulsory on the MSc in
Management (1 Year Programme). This course is not available as
an outside option.

Course content: In this course we study two key components
of the process called ‘globalisation’. First, we consider the
negotiation, implementation and implications of international trade
agreements. These include the World Trade Organisation and the
fast-growing web of regional trade agreements. Second, we look
at the process of globalisation at the level of industries, firms and
nations. We seek a solid understanding of the external, economy-
wide factors that affect the performance and management of
firms in today's global economy. The course relies on recent
theoretical and empirical research. Topics include the changing
structure of industries, the response of companies, both those
based in the advanced industrial countries and those based in
emerging markets, to increasing international competition; and the
differences between countries in their institutions and policies.

Course topics:
1) Globalisation: trends in the global economy, overview of their
   causes and effects
2) The workings, accomplishments and shortcomings of the
   GATT/WTO system
3) Trade barriers: causes and consequences of restrictions to
   international trade
4) The economics and politics of international trade agreements
5) Implications of trade agreements for national and multinational
   firms
6) Location of Production: Theory of Comparative Advantages
7) Location of Production: Factor Endowments across countries
8) Location of Production: Testing empirically the predictions of the
   theory
9) Location of Production: Empirical Analysis, institutions as a
   source of competitive advantage
10) Foreign Direct Investment and International Contracts

Teaching: 10 x 180 minute seminars in the period after exams and
summer term

Formative coursework: Students will be expected to produce 1
piece of coursework in July.

Indicative reading:

Assessment: Continuous assessment (15%), research project
(20%), research project (20%) and in class assessment (45%) in the
ST.

The in-class assessment will be run under exam conditions and it
will take place at the end of the course.
The two projects will be group projects based on the core syllabus.
Teaching: 6 x 180 minute seminars in the period after exams and summer term.

**Formative coursework:** Students will practice the leadership skills in class and receive feedback from their peers and the instructor. They will keep a learning log and use that information to complete a personal development plan (PDP) at the end of the course.

**Indicative reading:** There is no required textbook for this course. For students who are interested, a recommended textbook is: Yukl, G.A. (2012) Leadership in Organizations, 8th ed. Essex: Pearson Education Limited.

**Assessment:** This is a non-assessed course.

---

**MG4F8  Half Unit  Business Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Noam Yuchtman

**Availability:** This course is compulsory on the MSc in Management (1 Year Programme). This course is not available as an outside option.

**Course content:** The course is designed to achieve an understanding of fundamental notions of data presentation and data analysis and to use statistical thinking in the context of business problems. The course deals with modern methods of data exploration (designed to reveal unusual or problematic aspects of databases), the uses and abuses of the basic techniques of inference, and the use of regression as a tool for management and for financial analysis.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 project in the MT. The formative will be an in-depth coursework, with two components to it. One component will help prepare participants for the Project (i.e., an application of a statistical technique to solve a company problem or research question), and the other component will help prepare participants for the Final Exam (i.e., a small problem set on which they will be tested).

**Indicative reading:**

- Basic Econometrics, Oct 8, 2008 by Damodar Gujarati and Dawn Porter

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period. Project (35%, 3000 words) and class participation (15%) in the MT. The coursework will be due in week 10 of MT.

---

**MG4F7  Half Unit  Business Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Noam Yuchtman

**Availability:** This course is compulsory on the MSc in Management (1 Year Programme). This course is not available as an outside option.

**Course content:** The course is designed to achieve an understanding of fundamental notions of data presentation and data analysis and to use statistical thinking in the context of business problems. **MG4F8  Half Unit  Managerial Economics and Quantitative Measurement for Social Entrepreneurs**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Saul Estrin NAB 4.24 and Dr Yally Avrahampour NAB 4.37

**Professor Saul Estrin - Managerial Economics**

**Dr Yally Avrahampour - Quantitative Measurement**

**Availability:** This course is compulsory on the MSc in Social Innovation and Entrepreneurship. This course is not available as an outside option.

**Course content:** This course comprises an Economics and Accounting stream.

---

A: Managerial Economics

The course will start with an introduction to economics for social entrepreneurs, with attention focused on markets and market failures, notably externalities and public goods. Questions of social welfare and income inequality will also be discussed. We then move to a series of economics topics of particular relevance in analysing the problems of social entrepreneurs, namely the representation and analysis of firm costs, revenues and profits; measures of efficiency and company performance; analysis of consumer demand and finally firm strategy.

---

B: Quantitative Measurement

The course will continue by introducing topics relating to the measurement and disclosure of information regarding the performance of the social enterprise. We will introduce techniques used to measure and monetize social impact, adopted by performance measures such as Social Return on Investment (SROI). We will critically assess the SROI performance measure by introducing topics such as investment appraisal, costing and performance measurement. We will also consider alternative performance measures to SROI.

**Course Objectives**

Students should learn:

- Key theoretical approaches in two streams, namely, economics and accounting, which includes related quantitative methods, to understanding social innovation and entrepreneurship;
- Empirical findings - typically from recent economics, accounting and management research.
- The most important economic, accounting and quantitative/statistical insights, concepts, theoretical approaches required to set-up, manage, and scale up social innovation and enterprises;
- To relate theoretical and methodological insights, concepts and frameworks for social innovation and enterprise to real world phenomena and social problems through the use of case studies.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the LT. 2 hours of lectures in the ST.

Theoretical material and analytical frameworks from accounting and economics respectively of relevance to social entrepreneurs will be taught in the lecture slots, while the seminars will cover a relevant case study each week. Although the course covers two distinct disciplines, there will be an effort, where possible, to treat the issues in an integrated manner.

In addition students are expected to attend:

- Two introductory sessions, for the quantitative measurement part of the course, each lasting two hours
- An exam revision session in ST

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

The formative essay is a voluntary ‘pre-run’ of the examination questions, where the academic insights of the course are combined and synthesised with new insights sourced from academic literature by the student. Students receive feedback on their formative essay.

**Indicative reading:** Each week we draw on a variety of required and further readings. We also make suggestions regarding textbooks that provide background for the concepts outlined in the course.

For **Quantitative Measurement** the textbooks representing these background readings are:

**Introductory Reading**

There are also a number of books that inform the field, that students might wish to read in advance or during the course as background material:

**Assessment:** Exam (90%), duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Class participation (10%) in the LT.

---

**MG4F9  Half Unit**

**Organisational Behaviour and Marketing for Social Entrepreneurs**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Haider Ali and Dr Uta Bindl

Dr Haider Ali - Marketing
Dr Uta Bindl - Organisational Behaviour

**Availability:** This course is compulsory on the MSc in Social Innovation and Entrepreneurship. This course is not available as an outside option.

**Course content:** The course is a rigorous examination of key insights, concepts and theoretical frameworks that are essential in understanding social innovation and enterprises from the perspectives of Marketing and Organisational Behaviour (OB).

Students learn to understand, synthesise and relate these insights, concepts and theoretical frameworks to real-life phenomena and problems through interactive lectures, cases, empirical studies and videos. In a very practical sense, students will test this knowledge in a group marketing project as well as will apply it to effecting social change in relation to such topics as motivation, team management, and organisational culture, in the OB portion of the course.

More specifically, students learn:

- Key theoretical approaches (through the lenses of organisational behaviour and marketing) to understanding social innovations and entrepreneurship;
- Empirical findings - typically from recent management research and related fields, this is a young field - on how Marketing and OB aspects of social innovations and enterprises are associated with social impact;
- A rigorous synthesis of the most important marketing and organisational behaviour insights, concepts, theoretical approaches to set-up, manage, and scale up social innovation and enterprises;
- Relating theoretical and methodological insights, concepts and frameworks for social innovation and enterprise to real world phenomena and social problems, through a group project (in Marketing), as well as through applied case-related individual essays (in OB);
- Also importantly this course provides essential knowledge for the individual design or consulting projects on actual management problems for social innovation and enterprise in the capstone/dissertation course.

This course comprises a Marketing and Organisational Behaviour stream.

A. Marketing

- Application of marketing concepts to social enterprises
- Evaluating stakeholder exchanges
- Attitudes, beliefs & values, models of buyer behaviour
- Segmentation, targeting and positioning strategy for ventures
- Developing a product & promotion strategy

B. Organisational Behaviour

- Personality and Individual Differences
- Motivation and Rewards
- Organisational Culture, Ideological Currency & Making a difference
- Well-being at Work
- Leadership and Self-Initiative

**Teaching:** 30 hours of lectures and 3 hours of workshops in the MT.

Five weeks (15hrs) will focus on Marketing and five weeks (15hrs) will focus on core insights from Organisational Behaviour, with the aim of imparting key managerial knowledge and skills required to catalyse the changes required to launch and lead successful entrepreneurial ventures in social innovation. Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

The topic of the formative essay will be based on the Marketing section of the course.

**Indicative reading:** For Marketing:

For Organisational Behaviour:

**Assessment:**

- Project (45%, 2500 words) and class participation (10%) in the MT.
- Essay (45%, 2000 words) in the LT.

---

**MG4G1  Half Unit**

**Understanding Social Problems for Innovation and Entrepreneurship**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Harm Barkema NAB 4.24

**Availability:** This course is compulsory on the MSc in Social Innovation and Entrepreneurship. This course is not available as an outside option.

**Course content:** A key insight of social innovation and enterprise is that the type of management solution (unlike traditional management solutions) depends entirely on – and varies with – the type of social problem at hand. Hence, social innovation and enterprise starts with understanding the social problem it seeks to address. This course starts with a rigorous examination of key insights, concepts and theoretical frameworks (economic, psychological, sociological perspectives) that are essential in understanding social problems for social innovation. Applied to globally identified core challenges: the Sustainable Development Goals (on poverty, health, education, and the natural environment). The theory will be taught through interactive lectures, FB discussions where students post and discuss new contributions, cases, empirical studies, and so on.

Next, the course continues with classes teaching (qualitative) methodologies, methods and tools, which are applied by student
teams to a real-life case/problem in one of the SDG domains in an emerging economy and presented and discussed in class as a pedagogical device. Students go over in the reading week for actual field work and data collection (i.e., roughly half of the team; the other half will go over in the Lent term for additional field work and data collection, as part of the Social Design course, MG4G2). Finally, we will have integration classes, where student teams synthesize and further apply theory (insights, concepts, frameworks) and methodology (methods, tools) to their real-life case/problem and develop an initial proposal for social innovation and enterprise, anchored in an evidence-based understanding of the relevant social problem, to be presented and discussed in class, for feedback.

During the course, students will also be introduced to core ideas and insights about the social entrepreneur’s ‘learning journey’ towards achieving major social impact. More specifically, students learn:

• Key theoretical approaches (economic, psychological, sociological) to understanding social problems underlying social innovation and entrepreneurship;

• How to apply these core theoretical approaches to a broad but important class of real life challenges, as addressed by the Sustainable Development Goals;

• Empirical findings – from social science research – on how social problems differ across contexts (cultural, economic, sociological, political); Core methodological approaches (methods and tools of qualitative analysis) to analyse real-life social problems; Synthesizing and relating theoretical and methodological insights, concepts, and frameworks, to understanding social problems, as applied to a real-life case;

• More fundamentally, learning how and why management solutions in the domain of social innovations and social enterprise are not generic but always ‘contextualized,’ and depend on the specific social problem, and how core theoretical approaches and methodologies can be used to develop an evidence-based understanding of the local social problem at hand, as a starting point for designing social innovations and enterprises (developed further in MG4G2 Social Innovation Design);

• Core insights regarding the social entrepreneur’s learning journey towards major social impact: learning from successes but also from failures (how, why, and when: under which conditions), learning from others (vicarious learning), and so on.

Teaching: 18 hours of lectures and 15 hours of classes in the LT. In addition to 15hrs of lectures and 15hrs of seminars of standard teaching, students will attend a 3hr group dynamics workshop.

Formative coursework: Students will be expected to produce 1 essay in the MT.

MG4G2 Half Unit
Social Innovation Design

This information is for the 2018/19 session.

Teacher responsible: Prof Harm Barkema NAB 4.24

Availability: This course is compulsory on the MSc in Social Innovation and Entrepreneurship. This course is not available as an outside option.

Course content: The course provides a rigorous overview of insights, concepts, frameworks, methods, tools and evidence for social innovation design. The pedagogy implies interactive class and FB discussions (with other students and our social innovation and enterprise alumni), cases, and most importantly, applying and synthesizing insights and relating them to real life social (or environmental) problems by designing a new social enterprise, with your group. This course – in the Lent term – directly builds on the MT courses MG4G1 Understanding Social Problems for Innovation and Entrepreneurship. The course will have the same student teams as in MG4G1 Understanding Social Problems for Innovation and Entrepreneurship that culminated in developing an actual, initial idea/proposal for problem-based intervention, based on an in-depth understanding of a key social problem. This proposed idea is the starting point for the management design project in this course. Student teams also present parts of their social design in class at subsequent stages, for feedback. As part of their evidence-based design, students will have the opportunity to go over for field work and data collection (i.e., those students who did not go on the first field trip in MG4G1).

More specifically, students learn:

• Key theoretical approaches (insights, concepts, methodologies/ frameworks, tools) related to social and economic goals, value propositions, revenue models, partners/alliances/ ecosystems, own organizational characteristics) for designing innovative social organizations for major social impact;

• Empirical findings and evidence-based insights – typically from recent management research and related fields, this is a young field – on social implications of a variety of social innovation designs; moderators; how these implications differ across contexts (cultural, economic, sociological, political);

• A rigorous framework synthesizes insights, concepts, methodologies/frameworks, and tools for social innovation design, including for extreme affordability (based on the course material developed at the LSE over the past ten years in MG437 and MG438, and other LSE courses);

• Synthesizing and relating theoretical and methodological insights, concepts, and frameworks for social innovation and enterprise to real world phenomena and problems, by designing an actual social enterprise;

• How social innovation designs are contingent – and can vary strongly – depending on the identified social problem.

• How to scale up your social enterprise for major social impact.

Teaching: 18 hours of lectures and 15 hours of classes in the LT. In addition to 15hrs of lectures and 15hrs of seminars of standard teaching, students will attend a 3hr group dynamics workshop.

Formative coursework: Students will be expected to produce 1 essay in the LT.

**Assessment:** Project (45%) and class participation (10%) in the LT. Essay (45%, 1500 words) in the ST.

MG4G7  Half Unit

**Contemporary Topics in Advanced Technology Management**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Edgar Whitley NAB 3.32

**Availability:** This course is available on the CEMS Exchange, MBA Exchange, MSc in Management (1 Year Programme), MSc in Management of Information Systems and Digital Innovation, MSc in Media and Communications (Data and Society) and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** This course has a strong management focus and assumes a general knowledge of information systems and their management equivalent to MG472 Global Strategy, Management and Information Systems.

**Course content:** This course introduces students to two Contemporary Topics in Advanced Technology Management. It uses academic perspectives on the topics to provide a detailed contextualisation of technology's historical and intellectual development and combines this with practitioner perspectives to highlight the management challenges associated with these technological developments.

The topics are expected to be Artificial intelligence and Machine learning and Financial Technologies including Open Banking, Distributed Ledgers and Blockchains.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the LT. Lecture durations vary by week and a detailed schedule is available on Moodle.

A reading week will take place during Week 6. There will be no teaching during this week.

**Formative coursework:** Students will be present two draft presentations and evolving essay plans in the LT.

**Indicative reading:** The reading list will be technology specific, and determined by the guest academics. As such, they are likely to vary from year to year. Detailed readings will be made available on Moodle.

**Artificial intelligence and Machine learning**

**Financial Technologies including Distributed Ledgers and Blockchains**

**Assessment:** Essay (50%, 2500 words), presentation (40%) and class participation (10%) in the LT.

The individual essay will focus on the emergent management challenges introduced by one advanced technology not covered in the lectures. Two group presentations will make up the 40% presentation mark: Group Presentation 1 (15%) and Group Presentation 2 (25%).

MG4G8  Human Resource Management Skills and Practitioner Speaker Series

This information is for the 2018/19 session.

**Teacher responsible:** Dr Juan Lopez-Cotarello

**Availability:** This course is compulsory on the MSc in Human Resources and Organisations (Human Resource Management/ CIPD). This course is not available as an outside option.

**Course content:** The course has a taught component, which is compulsory for all students in the stream, and a free-configuration component where students can choose among a variety of sessions that target specific skill development needs they have identified through their Skills Development Portfolio. There is also a Group Project that runs between weeks 2 and 5 in MT.

**Group project**
The group project is intended to build skills that will be useful in the workplace: the ability to work in culturally-diverse teams, think critically about a work-related issue, and make realistic and achievable recommendations. These are relevant to several of the 7SBL learning outcomes, and will therefore contribute to your Skills Development Portfolio. The group project is assessed through a group submission due in week 5, and an individual reflective statement due in week 7. Additionally, there will be a peer assessment survey where students can provide feedback to their fellow team members on their team working skills. All details, including team allocations and the project brief will be disclosed during a compulsory project launch session in week 2.

**Taught sessions**
There are six 2-hour weekly sessions during Michaelmas Term (weeks 5 and 7-11). A prospective list of topics includes the following. Evaluating and Costing HR initiatives, Project Management for HRM, Diversity and Inclusion Management, Selection Interviewing, Difficult Conversations, and Ethics in HRM.

**Skills Development Portfolio**
Students will plan their own individualised skills development, including the MG4G8 free-configuration sessions, through the Skills Development Portfolio. The aim of this tool is to help each student identify gaps in their general and HRM management skills (as defined in CIPD’s 7SBL module), plan for their development during their studies, and document achievements and newly developed skills at the end of the programme. Two submissions are required.
MG4G4 Half Unit

Topics in Management Research

This information is for the 2018/19 session.

Teacher responsible: Prof Diane Reyniers NABS.22

Availability: This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Economics and Management and MSc in Management and Strategy. This course is available as an outside option to students on other programmes where regulations permit. Students must have prior knowledge of microeconomics and econometrics.

Pre-requisites: Microeconomics and econometrics (equivalent to LSE UG courses MG207 and MG205).

Course content: This course addresses various topics in management research which will be used to encourage creative and logical thinking, structuring of clear arguments and critical assessment of evidence. The focus is on interpretation of findings rather than statistical or econometric techniques. The intellectual backbone of the course is applied and empirical economics (including behavioural economics) and finance but wherever appropriate contributions from the psychology, sociology and management literature will be discussed. We will mainly deal with issues which are amenable to rigorous empirical investigation. The course is designed around a set of empirical research papers. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether steeper incentives lead to better performance. The main objective of the course is to enable students to comprehend and critically assess the literature on selected management topics, to evaluate statements in terms of evidence and to detect false reasoning or logic.

Topics vary each year (based on student feedback) but examples are Racial discrimination, Negotiation, the IKEA effect, Placebo effects of price, Leadership.

Teaching: 10 hours of lectures and 9 hours of seminars in the MT. 2 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with Departmental policy.

Formative coursework: Two mock exams in the MT.

Indicative reading: A course pack containing all materials (lecture slides, articles, seminar sheets) will be available to students taking the course. The following readings are indicative only as topics vary:

Lecture 1: The IKEA effect and ideas

Lecture 2: Choking

Lecture 3: Does Management Matter?

Lecture 4: Racial discrimination

Lecture 5: Behavioural economics at work

Lecture 6: Marketing and placebos

Lecture 7: Creativity and cheating

Lecture 8: The dark side of leadership

Lecture 9: Do we know what we want?

Lecture10: Negotiation

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

**MG4G4**  
**Half Unit**  
**Topics in Management Research**

This information is for the 2018/19 session.  
**Teacher responsible:** Prof Diane Reyniers NAB5.22  
**Availability:** This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Economics and Management and MSc in Management and Strategy. This course is available as an outside option to students on other programmes where regulations permit. Students must have prior knowledge of microeconomics and econometrics.  
**Pre-requisites:** Microeconomics and econometrics (equivalent to LSE UG courses MG207 and MG205).  
**Course content:** This course addresses various topics in management research which will be used to encourage creative and logical thinking, structuring of clear arguments and critical assessment of evidence. ---

**MG4J1**  
**Introduction to Mathematics and Data Analysis for Managers**

This information is for the 2018/19 session.  
**Teacher responsible:** Dr Ricardo Alonso NAB 5.31  
**Availability:** This course is compulsory on the MSc in Management (1 Year Programme). This course is not available as an outside option.  
**Course content:** The course is divided into two separate subjects: Data Analysis (Statistics) and Mathematics for Managers. The Data Analysis (Statistics) course is for all students and covers basic probability and statistics, hypothesis testing, analysis of variance; association, correlation and regression. It also includes basic training on data analysis software (STATA). It provides students with the basic analytical tools required in MG4F7 Business Analysis to analyse business data for decision making. The Mathematics for Managers course is an introductory mathematics course which covers the following topics with application reference to economics and business: Functions, Linear Equations, Basic Calculus, and Comparative Statics Analysis. It provides students with the basic analytical tools required in MG465 Operations and Managerial Economics to analyse supply chain models and models of product market and factor markets competition.  
**Teaching:** 20 hours of lectures in the two weeks prior to the Michaelmas Term. There will also be some workshops and tutorial sessions for the statistics portion of the course, to support students preparing practical exercises. Rounding out the schedule is a full programme of talks and activities designed to smooth your transition to postgraduate study at LSE.  
**Assessment:** No formal assessment. Students will sit a mock
exam at the end of the statistics course based upon the material to aid learning.

**MY400  Half Unit**

**Fundamentals of Social Science Research Design**

This information is for the 2018/19 session.

Teacher responsible: Prof Benjamin Lauderdale COL8.10

Availability: This course is compulsory on the MSc in Applied Social Data Science. This course is available on the MPhil/PhD in Demography/Population Studies, MPhil/PhD in International Relations, MPhil/PhD in Social Policy, MPhil/PhD in Social Research Methods, MPhil/PhD in Sociology, MSc in Applied Social Data Science, MSc in Gender (Research), MSc in Human Geography and Urban Studies (Research), MSc in International Migration and Public Policy, MSc in Social Research Methods and MSc in Statistics (Research). This course is available as an outside option to students on other programmes where regulations permit.

Research students please see MY500.

**Course content:** Research design necessitates trade-offs between the strengths and weaknesses of different feasible options. This course aims to introduce the broad range of design options and to foster an appreciation of these alternatives for particular research objectives. Drawing on a variety of examples from the social scientific literature, this course will explore design considerations and options across quantitative and qualitative research, including issues of data quality, analysis, reporting and reproducibility. At the end of the course, students will be able to read a wide variety of empirical social science with a critical and balanced perspective and will be better equipped to implement and make arguments defending the methods they use in their dissertations.

**Teaching:** 15 hours of lectures and 12 hours of seminars in the MT.

Week 6 is a Reading Week during which students work independently on their first assignment.

**Assessment:** Research proposal (30%) and class participation (10%) in the MT.

Other (60%) in the ST.

Research Proposal assignment (1500 words), submitted in week 11 of MT (30%). Research Design (4000 words), submitted in Week 1 of ST (60%).

**MY401  Half Unit**

**Research Design for Studies in Digital Innovation**

This information is for the 2018/19 session.

Teacher responsible: Prof Chrisanthi Averou NAB 3.22 and Dr Eleanor Power COL7.09

Availability: This course is compulsory on the MSc in Management of Information Systems and Digital Innovation. This course is available on the MSc in Applied Social Data Science. This course is not available as an outside option.

This course is compulsory on the MSc in Management of Information Systems and Digital Innovation.

**Course content:** This course will deliver the core methodological training for students completing a dissertation for the MSc in Management of Information Systems and Digital Innovation. It covers issues of research design and research methods for information systems studies, including sessions on the collection and analysis of both qualitative and quantitative data. Lectures will introduce the principles of a range of research design issues and methodological approaches, while classes will contextualise this teaching in relation to information systems research. Drawing on a variety of examples in Information Systems, the course will provide the platform for students to consider a range of design options, as well as methodological techniques, to adopt in their own dissertations. By the end of the course, students will be familiar with a range of research design options and will be better equipped to not only design, but also to collect and analyse data for, their own dissertations.

The list of topics covered would consist of:

1. Introduction
2. Inference, causation, and treatment controls
3. Relationship between theory and data
4. Operationalization and measurement
5. Overview of Fixed versus flexible designs (survey of qualitative and quantitative strategies)
6. READING WEEK
7. Case study methods
8. Interviews and focus groups
9. Thematic analysis
10. Quantitative inference
11. The Analysis of Online and social media

**Teaching:** 20 hours of lectures, 13 hours and 30 minutes of seminars and 3 hours of workshops in the LT.

Students will also be encouraged to attend additional non-compulsory workshops in LT which will offer more specific advice for their research proposals.

Lectures for this course will be delivered by staff in the Department of Methodology. To help to contextualise the materials covered in the course for the students, and to ensure a good fit with the requirements of the MISDI dissertation, the seminars will be led by staff from the Department of Management.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

A formative assignment will be assigned for the middle of the teaching term (LT) for which students will be expected to submit a 1,000 word initial proposal for their dissertation.

**Assessment:** Essay (100%, 3000 words) in the LT and ST.

**MY405  Half Unit**

**Research Methods for Evaluation in Health, Development and Public Policy**

This information is for the 2018/19 session.

Teacher responsible: Dr David Hendry COL7.05

Availability: This course is available on the MPhil/PhD in Health Policy and Health Economics, MSc in Applied Social Data Science, MSc in Global Health Policy, MSc in Health and International Development, MSc in Human Geography and Urban Studies (Research), MSc in Marketing and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: There are no prerequisites but some familiarity with qualitative research methods is expected. Please contact the course convenor if unsure.

**Course content:** This course aims to equip students with the methodological knowledge and research skills to be able to design and critically appraise evaluation research. In the context of the rise of evidence-based policy, the course is designed to extend students’ abilities to use evaluative information carefully and critically. The course takes a mixed methods approach. It covers the major quantitative designs, including randomized experiments and observational (i.e. non-randomized) research designs such
as selection on observables, difference-in-differences, and the regression discontinuity design. It covers qualitative and participatory research designs and their contribution to formative research, process evaluation, process evaluations, interpreting outcomes, and assessing transferability to other settings. As well as the major design issues, the course addresses practical and ethical issues of evaluation research, how to write a study protocol, and how to draw lessons from a body of evidence through reviewing and synthesising evidence. Examples from the fields of health, international development and public policy will be used throughout the lectures and seminars.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.
10 x 1.5 hour lectures
9 x 1.5 hour seminars

**Formative coursework:** Students will be expected to produce 1 essay in the LT.
Students write a critical review (1,500 words) of a published evaluation report.

**Indicative reading:**

**Assessment:**
Coursework (50%, 2500 words) in the LT.
Essay (50%, 2500 words) in the ST.

50% group-based coursework. Students work in groups to develop an evaluation design, and write it up individually (2,500 words). 50% essay. Students are given a choice of essay questions, in response to which they write one essay (2,500 words).

---

**MY410**

**Fundamentals of Research Design for International Development**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Flora Cornish COL8.09 and Dr Diana Weinhold CON7.10

**Availability:** This course is compulsory on the MSc in African Development, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is not available as an outside option.

This course is compulsory for all MSc students in International Development.

**Pre-requisites:** No prerequisites are required.

**Course content:** This course introduces MSc students in the Department of International Development to theoretical and practical foundations of social science research design. It is neither qualitative nor quantitative in focus, but rather is concerned with core interdisciplinary principles of research design that span disciplinary and methodological traditions.

Grounded in examples from International Development research, the logic of the course is to start with principles of research design for narrowly-defined questions. As the course proceeds we then build from these foundations to consider design approaches for ever more broadly-defined questions. Each week we expand the scope of inquiry, considering increasingly flexible and exploratory research designs and "bottom-up" approaches to research and theory.

The course will provide a platform for students to consider a range of research design options, as well as methodological techniques, to adopt in their own dissertations. By the end of the course, students will be familiar with a variety of research design options and will be better equipped to embark on their own research projects. The course is not designed to provide students with all the skills and techniques they need, i.e. it is not an explicitly "methodology" course, but it will familiarize students with the trade-offs involved in adopting particular approaches and incorporating various forms of evidence and information into their dissertations. In doing so, it should also help students become more informed consumers of research, and thus make positive contributions to students' learning experience in other courses they take in ID (and elsewhere at LSE).

The teaching on the course is premised on the idea that how we do research ultimately depends on the nature of the particular research question and the type and kinds of evidence that are available. There are strengths, weaknesses, and trade-offs to most of the decisions we make when planning and doing research, and as the weeks of the course progress, the strengths and weaknesses, and thus the implicit trade-offs, of the research designs we consider will vary. Our goal is for students to better understand the consequences of these research design decisions, both in the published research that they read, and that they will need to make in their own research.

The precise topics to be covered, including the order and readings, is to be finalized during the LT and ST 2018 by a team ("content committee") consisting of staff from ID, MY, and the Teaching and Learning Centre. For now, here is a list of potential topics:

- Introduction: Overview of research questions and research designs
- The challenges of understanding causality in social science research
- Observational research designs
- The challenges of defining concepts and making observations in quantitative and qualitative research
- Exploratory and "flexible" research designs
- The insights gained from case study research
- Why and how do some researchers use mixed-methods approaches
- The role and position of the researcher
- The relationship between theory and data
- The contributions of primary and secondary sources
- The role of literature reviews in dissertations
- Research ethics and writing-up

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT.

Lectures for this course will be delivered primarily by staff from the Department of Methodology (though some lectures may be delivered by ID staff).

To help contextualize the materials covered in the course for the students, and to ensure a good fit with the requirements of student needs in International Development, the seminar materials and research examples will be co-developed by MY and ID.

Seminars will be led by LSE Fellows employed by MY but recruited jointly by ID and MY, to assure experience in and familiarity with international development research. Some seminars may be led by ID core academic staff too, in lieu of or in addition to ordinary teaching duties.

**Formative coursework:** Students receive two types of formative assessment:

- Written formative assessment will be provided on in-class exercises, such as annotated bibliographies and short essays that analyze the research design choices of course readings, in the MT.
- Oral formative assessment will be provided on the first draft of the dissertation proposal, in the dissertation workshops in the ST. (Formally this latter assessment is DV410, but this should be regarded as an illustration of the integration of these two modules, MY410ID and DV410.)

**Indicative reading:** As indicated above (3.1), the content of the course is being finalized by a group of staff from MY, ID, and the TLC. What follows is an indicative list of some key texts:

**Assessment:** Coursework (35%, 1000 words) in the MT. Coursework (65%, 3000 words) in the ST. 35 percent: short research proposal (1000 words, due MT1) 65 percent: dissertation proposal (3000 words, due ST3)

---

**MY421 Half Unit**

**Qualitative Research Methods**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Eleanor Knott COL 7.08 (MT) and Dr Jennifer Tarr COL 8.06 (LT)

**Availability:** This course is available on the MPhil/PhD in Demography/Population Studies, MPhil/PhD in Psychological and Behavioural Science, MSc in Applied Social Data Science, MSc in Comparative Politics, MSc in Conflict Studies, MSc in Gender (Research), MSc in Global Health Policy, MSc in Human Geography and Urban Studies (Research), MSc in Inequalities and Social Science, MSc in Marketing and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** None.

**Course content:** This course presents the fundamentals of qualitative research methods. The course has the dual aims of equipping students with conceptual understandings of current academic debates regarding qualitative methods, and with practical skills to put those methods into practice. It prepares students to design, carry out, report, read and evaluate qualitative research projects. First, students learn how to collect data using methods including interviews, focus groups, participant observation, and selecting documents and new media data. Second, we cover analysis, using thematic, content, and discourse analysis. Issues of research design, quality indicators, epistemology and ethics are addressed. This is a generalist, introductory course and we invite students who have little previous experience of qualitative methods. Students with prior training in qualitative methods might be interested in more specialist alternatives offered by the Department of Methodology, such as MY425 Case Studies and Comparative Methods for Qualitative Research, MY426 Doing Ethnography, MY427 Qualitative Research with Non-Traditional Data, or MY428 Qualitative Text Analysis. Lectures introduce the main conceptual and practical issues. Seminars provide practical experience with the methods.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.

The course runs twice per year: in MT (MY421M) and again in LT (MY421L). The content of the course is exactly the same in each term. Week 6 is a Reading Week during which students work independently on their formative assignments.

**Formative coursework:** Students submit a portion of their practical work, with some written commentary, for formative assessment in Week 7.

**Indicative reading:**

Please Note: No single publication covers the whole content of the course.

**Assessment:** Project (100%, 3000 words) in the ST.

The summative assignment is a project report, demonstrating skills in using some of the qualitative methods covered during the course. It takes the form of a project report, with detailed appendices documenting the methods of data collection and analysis used.

---

**MY425 Half Unit**

**Case Studies and Comparative Methods for Qualitative Research**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Eleanor Knott COL 7.08

**Availability:** This course is available on the MPhil/PhD in Social Policy, MPhil/PhD in Social Research Methods, MSc in Comparative Politics, MSc in Conflict Studies, MSc in Political Sociology and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

This course is freely available to any MSc, MRes or PhD student interested in case study research designs.

**Pre-requisites:** There are no pre-requisites for this course.

**Course content:** This course focuses on the approach and practice of designing and conducting case study and comparative research. Thinking outside of the areas of interest and specialisms and topics, students will be encouraged to develop the concepts and comparative frameworks that underpin these phenomena. In other words, students will begin to develop their research topics as cases of something. The course will cover questions of design and methods of case study research, from single-n to small-n case studies including discussions of process tracing and Mill’s methods. The course will address both the theoretical and methodological discussions that underpin research design as well as the practical questions of how to conduct case study research, including gathering, assessing and using evidence. Examples from the fields of comparative politics, IR, development studies, sociology and European studies will be used throughout the lectures and seminars.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.

Students will receive 10 lectures (1.5 hours) and 9 seminars (1.5 hours) with a reading week in week 6. Lectures will provide students with the key concepts, ideas and approaches to case study and comparative research. Seminars will provide students with practical experience of assessing the approaches of case study and comparative research design, as well as opportunities to design and develop their own research projects.

**Formative coursework:** Students will be expected to produce 1 presentation, 1 essay and 1 other piece of coursework in the LT.

1 presentation: every week 1-2 students will present on a key reading and lead subsequent discussion of the reading and its research design

1 formative paper: literature review and project outline (1-2 pages) due in week 8. Students will receive written feedback on this by week 11.

1 peer marking exercise: in-class oral peer feedback session for students to exchange ideas on formative assignment (week 9)

**Indicative reading:** Key texts:

- Lund, Christian. 2014. “Of What is This a Case? Analytical
• Mahoney, James, and Dietrich Rueschemeyer. 2003. Comparative historical analysis in the social sciences.

Example readings for discussion:

Assessment: Project (90%, 4000 words) in April.
Class participation (10%) in the LT.
Research design proposal (Project 4000 words) due at the beginning of ST (90%). It is recommended that students base the research design proposal on their dissertation topic (or a related topic, e.g. a PhD proposal). Where students also take MY400 (which has a similar summative assessment), students will be guided towards a modified version of the research proposal (e.g. a different research question) to avoid self-plagiarism between assignments.
Weekly participation grade (10%) preparation and active participation in seminars and group presentation.

MY426  Half Unit  Not available in 2018/19

Doing Ethnography

This information is for the 2018/19 session.
Teacher responsible: Dr Chana Teeger COL7:06
Availability: This course is available on the MSc in Applied Social Data Science, MSc in Comparative Politics, MSc in Gender (Research), MSc in Human Geography and Urban Studies (Research), MSc in Marketing, MSc in Social Policy (Research) and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: There are no prerequisites but some prior training in qualitative research methods is expected. Please contact the course convener if unsure.
Course content: Doing ethnography enables us to examine how social order is produced as people go about their everyday interactions. Multiple sources of naturally-occurring data are used to understand how communities, organisations and institutions work, informally as well as formally. Contemporary conditions of globalisation, individualisation, bureaucratisation and digitisation introduce new challenges for such fieldwork. This interdisciplinary course equips students with a practical understanding of how to do, and to think about, contemporary ethnography. Core conceptual, ethical and methodological debates are introduced through in-depth engagement with book-length exemplars, and through students' experience of fieldwork. Fieldwork is a key component of the course, with students collecting data locally (interesting sites are chosen each year, e.g. the Occupy encampment at St Paul's, protests around London, volunteering activities), followed by data analysis and presentation activities. Methodological concerns regarding case selection, establishing rigour, reflexivity, representing others, and ethical issues are addressed in detail. Practical issues addressed include identifying and accessing study sites, studying elite and marginalised groups, alternative sources of data, and writing field notes. Emphasising that ethnography relies on the researcher-as-research-instrument, the course aims to develop students' sensitivity and rigour as ethnographic researchers.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Project (90%, 4000 words) should be submitted and will receive formative assessment.

MY427  Half Unit  Not available in 2018/19

Qualitative Research with Non-Traditional Data

This information is for the 2018/19 session.
Teacher responsible: Dr Jennifer Tarr COLB:06
Availability: This course is available on the MSc in Applied Social Data Science, MSc in Culture and Society, MSc in Gender (Research), MSc in Gender, Media and Culture, MSc in Human Geography and Urban Studies (Research), MSc in Marketing and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is also available to PhD students, please see MY527.

Pre-requisites: There are no prerequisites but some prior training in qualitative research methods is expected, equivalent to the level of MY421. Please contact the course convener if unsure.
Course content: Most qualitative research is in the form of written or spoken texts, produced through interviews and field notes or collection and analysis of documents. However, new technologies now offer a range of new tools for producing, gathering and analysing new kinds of data. This course will focus primarily on digital and visual methods and how they are reshaping qualitative research. Topics will include mobile methods, social network analysis; social media; emojis, memes and gifs; photo elicitation; video; and visual analysis. Key example readings will be assigned, discussed and assessed each week. Seminars provide practical skills through hands on exercises of data collection and analysis, closely tied with the lecture content. These skills will be developed further in a final research project on a topic of the students' choosing to be submitted at the beginning of summer term.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Week 6 will be a Reading Week during which students work independently on their formative assignment.

Formative coursework: Seminar activities will receive in-class feedback. A brief proposal for final summative coursework (c. 1000 words) should be submitted and will receive formative assessment.
feedback and guidance.

**Assessment:** Project (100%, 4000 words) in the ST. One 4000-4500 word research project related to the course material, on a topic selected by the student (100%).

---

**MY428 Half Unit**

**Qualitative Text Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Audrey Alejandro COL.7.14

**Availability:** This course is available on the MSc in Applied Social Data Science, MSc in Gender, Media and Culture, MSc in Human Geography and Urban Studies (Research) and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit. The course is also available to PhD students, please see MY528.

**Pre-requisites:** There are no prerequisites but some prior training in qualitative research methods is expected. Please contact the course convenor if unsure

**Course content:** The goal of this course is to provide students with the skills to systematically identify and extract information from texts and discourses for social scientific purposes. While acquiring those skills, students also learn how to interpret textual data by exploring the concepts and case studies developed across disciplines. The course both establishes a theoretical foundation for text/discourse analysis and takes a practical and applied approach, so that students can acquire greater independence and confidence when conducting their research project. The first part of the course discusses the major paradigms and traditions of qualitative text analysis and focuses on the application of specific analytical techniques to qualitative data. The main methods of qualitative text analysis, including content analysis and thematic analysis, will be explored with specific emphasis on discourse analysis. The second part of the course places the in-depth analysis of texts in the broader context of research methods. It aims to help students in building critical thinking around qualitative text analysis by familiarising them with a variety of mixed-methods research designs that can be used when studying texts and discourses. Lectures introduce the main conceptual and practical issues. Seminars provide practical experience of implementing the methodology. Students will be working directly with qualitative data and performing their own analyses on a diverse range of materials, such as political speeches and news articles, as well as cultural texts such as movie scripts and songs.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. Week 6 is a Reading Week during which students work independently on their Summative Assignment.

**Formative coursework:** A project proposal (c.1000 words). Students write a proposal for the project that will comprise their summative assessment.

**Assessment:** Essay (100%, 4000 words) in the LT.

---

**MY451 Half Unit**

**Introduction to Quantitative Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Jonathan Jackson Col.8.05 and Dr Eleanor Power Col.7.09

**Availability:** This course is available on the MPhil/PhD in Demography/Population Studies, MSc in Applied Social Data Science, MSc in Comparative Politics, MSc in Conflict Studies, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Gender (Research), MSc in Inequalities and Social Science, MSc in International Migration and Public Policy, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit. The course is also available to research students as MY551.

**Course content:** An intensive introduction to quantitative data analysis in the social sciences. The course is intended for students with no previous experience of quantitative methods or statistics. It covers the foundations of descriptive statistics and statistical estimation and inference. At the end of the course students should be able to carry out univariate and bivariate data analysis and have an appreciation of multiple linear regression. The computer classes give ‘hands-on’ training in the application of statistical techniques to real social science research problems. No prior knowledge of any statistical software is necessary.

**Teaching:** 20 hours of lectures and 9 hours of computer workshops in the MT. 20 hours of lectures and 9 hours of computer workshops in the LT. 2 hours of lectures in the ST. There will be no lectures or computer classes in Week 6 of the term. This course is taught in Michaelmas Term, or MY451L which is taught in Lent Term.

**Formative coursework:** Exercises from the weekly computer classes can be submitted for feedback.

**Indicative reading:** A course pack will be available for download online and can be purchased as a hard copy. Additional reading: many introductory statistics books are available. But we particularly recommend Alan Agresti and Christine Franklin (2009) Statistics: The Art and Science of Learning from Data. Pearson Education. Or Alan Agresti and Barbara Finlay (2009, 4th edition) Statistical Methods for the Social Sciences. Pearson Education (note that the second book is more advanced and is particularly useful if you are planning to take MY451 and MY452.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

A two hour unseen examination in ST. Students are permitted to bring a limited quantity of written notes into the examination.

---

**MY452 Half Unit**

**Applied Regression Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Indranee Sircar COL7.04 and Dr Daniele Fanelli COL7.07

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MPhil/PhD in Demography/Population Studies, MPhil/PhD in Psychological and Behavioural Science, MSc in Applied Social Data Science, MSc in Comparative Politics, MSc in Conflict Studies, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po), MSc in Gender (Research), MSc in Human Geography and Urban Studies (Research), MSc in International Migration and Public Policy, MSc in Local Economic Development, MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Social Research Methods and MSc in Urban Policy (LSE and Sciences Po).
Po). This course is available with permission as an outside option to students on other programmes where regulations permit. MY452 is open to any and all post-grad students around the School who have already have a grounding in quantitative methods.

Pre-requisites: Students are required to have completed MY451 or an equivalent level statistics course.

Course content: The course is designed for students with a good working knowledge of elementary descriptive statistics; sampling distributions; one and two sample tests for means and proportions; correlation and the linear regression model with one or more predictor variables. The course is concerned with deepening the understanding of the generalized linear model and its application to social science data. The main topics covered are linear regression modelling and binary, multinomial and ordinal logistic regression.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the MT. 20 hours of lectures and 10 hours of computer workshops in the LT.

This course is given twice per session, starting in the first week of each of the MT and LT. Students must either register for MY452M which is taught in Michaelmas Term, or MY452L which is taught in Lent Term. There will be no lectures or computer classes in Week 6 of term.

Formative coursework: Exercises from the weekly computer classes can be submitted for feedback.

Indicative reading: A Agresti & B Finlay, Statistical Methods for the Social Sciences. A course pack will be available for download online. Additional reading will be recommended.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

Two hour unseen examination in ST. Students are permitted to bring a limited quantity of written notes into the examination.

MY454 Half Unit Not available in 2018/19
Applied Statistical Computing using R

This information is for the 2018/19 session.
Teacher responsible: Dr Benjamin Lauderdale COL.8.10
Availability: This course is available on the MSc in Applied Social Data Science and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit. The course is also available to research students, as MY554.

Pre-requisites: Students must have taken Applied Regression Analysis (MY452) or an equivalent intermediate regression course.

Course content: This course will cover basic statistical programming for social science research as well as several associated data analysis methods. Programming topics include basic programming, data structures, optimisation, and simulation. Applied statistical topics include nonparametric density estimation and regression, additive models, cross-validation, the bootstrap, and permutation/randomisation inference. Lectures, class exercises and homework will be based on the use of the R statistical software package but will assume no background knowledge of that language.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT. 2 hours of lectures in the ST.

Formative coursework: Students will be expected to produce 5 problem sets in the LT.

Each problem set is associated with a computer classes, and may be submitted for marking and feedback.

Indicative reading: Keele, L. Semiparametric Regression for the Social Sciences
Matloff, N. The Art of R Programming

Assessment: Exam (50%, duration: 2 hours, reading time: 5 minutes) in the summer exam period.
Coursework (50%) in the ST.

MY455 Half Unit
Multivariate Analysis and Measurement

This information is for the 2018/19 session.
Teacher responsible: Dr Jouni Kuha COL.8.04
Availability: This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Psychological and Behavioural Science, MSc in Applied Social Data Science, MSc in Human Geography and Urban Studies (Research), MSc in Marketing, MSc in Political Science and Political Economy and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is also available to research students as MY555.

Pre-requisites: The course will assume a knowledge of standard linear regression models, to the level covered in MY452 (Applied Regression Analysis).

Course content: An introduction to the application of modern multivariate methods used in the social sciences, with particular focus on latent variable models for continuous observed variables, and their application to questions of measurement in the social sciences. At least the following topics will be covered: principal components analysis, exploratory factor analysis, confirmatory factor analysis and structural equation models. In addition, a selection from the following topics will be covered: cluster analysis, correspondence analysis, multidimensional scaling, latent class models, latent trait models.

Teaching: 20 hours of lectures and 8 hours of computer workshops in the LT. 1 hour of lectures in the ST.

Formative coursework: Exercises from the computer classes can be submitted for marking.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MY456 Half Unit
Survey Methodology

This information is for the 2018/19 session.
Teacher responsible: Dr Jouni Kuha COL.8.04
Availability: This course is available on the MPhil/PhD in Psychological and Behavioural Science, MSc in Applied Social Data Science, MSc in Human Geography and Urban Studies (Research), MSc in Marketing, MSc in Social Research Methods, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Knowledge of basic descriptive and inferential statistics, to the level of MY452 or equivalent. MY456 can also be taken in parallel with MY452L. Familiarity with notions of research design in the social sciences, to the level of MY400 or equivalent.

Course content: This course provides an introduction to the methodology of the design and analysis of social surveys. It is intended both for students who plan to design and conduct their own surveys, and for those who need to understand and use data from existing large-scale surveys. Topics covered include basic ideas of target populations, survey estimation and inference, sampling error and nonsampling error; sample design and sampling theory; methods of data collection; survey interviewing; cognitive processes in answering survey questions; design and evaluation of survey questions; nonresponse error and imputation for item nonresponse; survey weights; analysis of data from complex surveys; accessing, preparing and working with secondary data from existing social surveys. The course includes
computer classes, using the statistical computer package Stata; no previous knowledge of Stata is required.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. There will be no lectures or computer classes in Week 6 of term.

**Formative coursework:** Exercises from the some of the seminars and computer classes are submitted for feedback

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Project (50%, 2500 words). The project is a report of approximately 20 to 30 pages, including tables and figures, or approximately 2,500 words, reporting the data analysis of a given research question and data set.

---

**MY457  Half Unit**

**Causal Inference for Observational and Experimental Studies**

This information is for the 2018/19 session.

**Teacher responsible:** Dr David Hendry

**Availability:** This course is compulsory on the MSc in Political Science and Political Economy. This course is available on the MPhil/PhD in Accounting, MSc in Applied Social Data Science, MSc in Human Geography and Urban Studies (Research), MSc in Social Research Methods, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Knowledge of multiple linear regression and some familiarity with generalised linear models, to the level of MY452 or equivalent. Familiarity with notions of research design in the social sciences, to the level of MV400 or equivalent.

**Course content:** This course provides an introduction to statistical methods used for causal inference in the social sciences. Using the potential outcomes framework of causality, topics covered include research designs such as randomized experiments and observational studies. We explore the impact of noncompliance in randomized experiments, as well as nonignorable treatment assignment in observational studies. To analyze these research designs, the methods covered include matching, instrumental variables, difference-in-difference, and regression discontinuity. Examples are drawn from different social sciences. The course includes computer classes, where standard statistical computer packages (Stata or R) are used for computation.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the LT.

**Formative coursework:** Exercises from the computer classes are submitted for feedback.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**MY459  Half Unit**

**Special Topics in Quantitative Analysis:**

**Quantitative Text Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Pablo Barbera Aranguena COL7.10

**Availability:** This course is available on the MSc in Applied Social Data Science, MSc in Data Science, MSc in Human Geography and Urban Studies (Research), MSc in Political Science and Political Economy and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is also available to research students as MY559.

**Pre-requisites:** Students must have completed Applied Regression Analysis (MY452).

**Course content:** The course surveys methods for systematically extracting quantitative information from text for social scientific purposes, starting with classical content analysis and dictionary-based methods, to classification methods, and state-of-the-art scaling methods and topic models for estimating quantities from text using statistical techniques. The course lays a theoretical foundation for text analysis but mainly takes a very practical and applied approach, so that students learn how to apply these methods in actual research. The common focus across all methods is that they can be reduced to a three-step process: first, identifying texts and units of texts for analysis; second, extracting from the texts quantitatively measured features - such as coded content categories, word counts, word types, dictionary counts, or parts of speech - and converting these into a quantitative matrix; and third, using quantitative or statistical methods to analyse this matrix in order to generate inferences about the texts or their authors. The course systematically surveys these methods in a logical progression, with a practical, hands-on approach where each technique will be applied using appropriate software to real texts.

Lectures, class exercises and homework will be based on the use of the R statistical software package but will assume no background knowledge of that language.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the LT.

**Formative coursework:** Exercises from the computer classes can be submitted for marking.

**Assessment:** Project (40%, 3000 words) and coursework (60%, 2000 words) in the ST.

---

**MY461  Half Unit**

**Social Network Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Eleanor Power COL7.09 and Dr Milena Tsvetkova COL8.03

**Availability:** This course is available on the MSc in Applied Social Data Science, MSc in Data Science, MSc in Human Geography and Urban Studies (Research), MSc in Media and Communications (Data and Society) and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

Priority will be given to students in the MSc in Applied Social Data Science, MSc in Data Science, the MSc in Social Research Methods, and then to students from Statistics and Media and Communications (in particular the MSc in Media and Communications (Data and Society) track).

**Course content:** This course focuses on data about connections, forming structures known as networks. Networks and network data describe an increasingly vast part of the modern world, through connections on social media, communications, financial transactions, and other ties. This course covers the fundamentals
of network structures, network data structures, and the analysis and presentation of network data. Students will work directly with network data, and structure and analyze these data using R. Social networks have always been at the centre of human interaction, but especially with the explosive growth of the internet, network analysis has become increasingly central to all branches of the social sciences. How do people influence each other, bargain with each other, exchange information (or germs), or interact online? A diverse array of deep questions about human behaviour can only be answered by examining the social networks encompassing and shifting around us. Network analysis has emerged as a cross-disciplinary science in its own right, and has in fact proven to be of even greater generality and broader applicability than just the social, extending to ecology, physics, economics, health, psychology, history, or business. The core of the course will comprise the essential tools of network analysis, from centrality, homophily, and community detection, to random graphs, network formation, and information flow. Alongside this we will read a series of substantive and seminal papers, shaped in part by the interests of the students and their various backgrounds, with a particular focus on the difficult task of causal inference in social networks. The course will also provide an introduction to network modelling, analysis and visualisation using R.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the LT.

**Formative coursework:** Students will be expected to produce 5 problem sets in the LT.

**Type:** Structured problem sets which will be marked in Weeks 3, 5, 8, 9 and 10 with a beginning component to be started in the staff-led lab sessions, to be completed by the student outside of class. Answers should be formatted and submitted for assessment.

**Indicative reading:**

**Assessment:**
- In class assessment (50%) and take home exam (50%) in the LT.
- Student problem sets will be marked in weeks 3, 5, 8, 9 and 10. These will constitute 50% of the final overall mark.

---

**MY464**

**Introduction to Quantitative Methods for Media and Communications**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Jonathan Jackson COL.8.05

**Availability:** This course is available on the MPhil/PhD in Data, Networks and Society, MPhil/PhD in Media and Communications, MSc in Gender, Media and Culture, MSc in Global Media and Communications (LSE and Fudan), MSc in Global Media and Communications (LSE and UCT), MSc in Global Media and Communications (LSE and USC), MSc in Media and Communications, MSc in Media and Communications (Data and Society), MSc in Media and Communications (Media and Communications Governance), MSc in Media and Communications (Research), MSc in Media, Communication and Development, MSc in Politics and Communication and MSc in Strategic Communications. This course is not available as an outside option.

**Course content:** An intensive introduction to quantitative data analysis in the social sciences, with illustrative examples and class exercises drawn from the field of Media and Communications. The course is intended for students with no previous experience of quantitative methods or statistics. It covers the foundations of descriptive statistics and statistical estimation and inference. At the end of the course students should be able to carry out univariate and bivariate data analysis and have an appreciation of multiple linear regression. The computer classes give ‘hands-on’ training in the application of statistical techniques to real social science research problems using the SPSS computer package (no prior knowledge of SPSS is necessary).

**Teaching:** 20 hours of lectures and 9 hours of computer workshops in the MT. 2 hours of lectures in the ST.

**Formative coursework:** Students will be expected to produce 9 exercises in the MT.

**Indicative reading:** A course pack will be available for download online.

**Assessment:**
- Exam (100%, duration: 2 hours).
- You are allowed to bring to the examination one A4 sheet (both sides) of your own notes.

---

**MY465**

**Half Unit**

**Intermediate Quantitative Analysis**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Jonathan Jackson COL.8.05

**Availability:** This course is available on the MSc in Applied Social Data Science and MSc in Human Geography and Urban Studies (Research). This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Participants should have studied introductory statistics or quantitative methods before, up to an introduction to descriptive statistics and basic statistical inference. Students with no previous studies in quantitative analysis should take instead Introduction to Quantitative Analysis (MY451).

Because of the overlaps between these courses, it is not possible to take both this course and either of Introduction to Quantitative Analysis (MY451) or Applied Regression Analysis (MY452) as assessed courses.

**Course content:** The course is intended for students with some (even if limited) previous experience of quantitative methods or statistics. Using examples from psychological research, it covers first a review of the foundations of descriptive statistics and statistical inference, in the context of the analysis of two-way contingency tables and comparisons of means between two groups. The main topic of the course is linear regression modelling and related methods, including scatterplots, correlation, simple and multiple linear regression, and analysis of variance and covariance. An introduction to binary logistic regression modelling is also included. The computer classes give hands-on training in the application of these statistical techniques.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the MT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6. Online quizzes will be provided on Moodle to aid revision during the reading week.

**Formative coursework:** Students will be expected to produce 9 exercises in the MT.

**Indicative reading:** A course pack will be available for download online.

**Assessment:**
- Exam (100%, duration: 2 hours) in the January exam.
period. Students are permitted to bring a limited quantity of written notes into the examination.

---

### MY470 Half Unit

**Computer Programming**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Milena Tsvetkova COL8.03 and Dr Pablo Barbera Aranguena COL7.10

**Availability:** This course is compulsory on the MSc in Applied Social Data Science. This course is available on the MSc in Applied Social Data Science, MSc in Data Science and MSc in Human Geography and Urban Studies (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

Compulsory unit for MSc in Applied Social Data Science and MSc Data Science who will be given priority. Available with permission as an outside option to students on other programmes where regulations permit and places are available.

**Course content:** This course introduces students to the fundamentals of computer programming as students design, write, and debug computer programs using the programming language Python and R. The course will also cover the foundations of computer languages, algorithms, functions, variables, object-orientation, scoping, and assignment.

**Teaching:** 20 hours of lectures and 15 hours of classes in the MT. Students will learn how to design algorithms to solve problems and how to translate these algorithms into working computer programs. Students acquire skills and experience as they learn Python and R through programming assignments with an approach that integrates project-based learning. This course is an introduction to the fundamental concepts of programming for students who lack a formal background in the field, but will include more advanced problem-solving skills in the later stages of the course. Topics include algorithm design and program development; data types; control structures; functions and parameter passing; recursion; data structures; searching and sorting; and an introduction to the principles of object-oriented programming. The primary programming languages used in the course will be Python and R.

**Formative coursework:** Students will be expected to produce 10 problem sets in the MT.

Type: Weekly, structured problem sets with a beginning component to be started in the staff-led lab sessions, to be completed by problem sets in the MT.

Students will be expected to produce 10 hours of lectures and 15 hours of computer workshops in the MT.

**Assessment:** Take home exam (50%) and in class assessment (50%) in the MT.

Student problem sets will be marked each week, and will provide 50% of the mark.

---

### MY472 Half Unit

**Data for Data Scientists**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Pablo Barbera Aranguena COL7.10

**Availability:** This course is available on the MSc in Applied Social Data Science, MSc in Human Geography and Urban Studies (Research), MSc in Media and Communications (Data and Society) and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

Priority will be given to students in the MSc in Applied Social Data Science and the MSc in Data Science, followed by students from the MSc in Media and Communications (Data and Society) track.

**Course content:** This course covers the principles of digital methods for storing and structuring data, including data types, relational and nonrelational database design, and query languages. Students will learn to build, populate, manipulate and query databases based on datasets relevant to their fields of interest. The course will also cover workflow management for typical data transformation and cleaning projects, frequently the starting point and most time-consuming part of any data science project. This course uses a project-based learning approach towards the study of online publishing and group-based collaboration, essential ingredients of modern data science projects. The coverage of data sharing will include key skills in on-line publishing, including the elements of web design, the technical elements of web technologies and web programming, as well as the use of revision-control and group collaboration tools such as GitHub. Each student will build one or more interactive website based on content relevant to his/her domain-related interests, and will use GitHub for accessing and submitting course materials and assignments.

**Teaching:** 20 hours of lectures and 15 hours of computer workshops in the MT.

In this course, we introduce principles and applications of the electronic storage, structuring, manipulation, transformation, extraction, and dissemination of data. This includes data types, database design, data base implementation, and data analysis through structured queries. Through joining operations, we will also cover the challenges of data linkage and how to combine datasets from different sources. We begin by discussing concepts in fundamental data types, and how data is stored and recorded electronically. We will cover database design, especially relational databases, using substantive examples across a variety of fields. Students are introduced to SQL through MySQL, and programming assignments in this unit of the course will be designed to insure that students learn to create, populate and query an SQL database. We will introduce NoSQL using MongoDB and the JSON data format for comparison. For both types of database, students will be encouraged to work with data relevant to their own interests as they learn to create, populate and query data. In the final section of the data section of the course, we will step through a complete workflow including data cleaning and transformation, illustrating many of the practical challenges faced at the outset of any data analysis or data science project.

Online publishing and collaboration tools forms the second part of this course, along with the tools and technologies that underlie them. Students will develop interactive, secure and powerful projects for the World Wide Web using both client and server side technologies. Collaboration and the dissemination and submission of course assignments will use GitHub, the popular code repository and version control system. The course begins with an indepth look at the markup languages that form the foundations of building web sites with a study of HTML and CSS. Students next study basic programming in JavaScript, to provide client and server side tools including the customization of web content using Bootstrap and Jekyll to publish web pages, which will provide the basis for a class project.

**Formative coursework:** Students will be expected to produce 10 problem sets in the MT.

Type: Weekly, structured problem sets with a beginning component to be started in the staff-led lab sessions, to be completed by...
the student outside of class. Answers should be formatted and submitted for assessment.

**Assessment:** Take home exam (50%) and in class assessment (50%). Student problem sets will be marked each week, and will provide 50% of the mark.

**MY498**

**Capstone Project**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Pablo Barberá (COL 7.10)

**Availability:** This course is compulsory on the MSc in Applied Social Data Science. This course is not available as an outside option.

**Course content:** The Capstone course is a dissertation project that represents the final element in the construction of a student's data science masters education. Work with a staff supervisor, and developed in a seminar, the dissertation provides students the means to combine all they have learned and embark on a self-guided project that will serve as their MSc study’s crowning achievement.

**Teaching:** A series of around 4 dissertation seminars during MT and LT. The seminars cover methodological issues such as the literature review, sources of secondary quantitative data, topic guides for interviews, and sources of textual material. There is no teaching for the Capstone project outside of supervision and our development seminars (currently MY499).

**Formative coursework:** Each student will be required to give a short presentation outlining the subject of his/her dissertation and the proposed argument of the dissertation in a session organised for all students during ST.

**Indicative reading:** NA - will differ with every student project

**Assessment:** Dissertation (100%, 10000 words) post-summer term. The dissertation will be a 10,000 word Capstone project to be submitted by 5pm August 8th 2019.

---

**MY499**

**Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Eleanor Knott COL 7.08

**Dissertation supervisors.**

**Availability:** This course is compulsory on the MSc in Social Research Methods. This course is not available as an outside option.

**Course content:** Students are required to write a 10,000 word dissertation. The dissertation is based on an empirical investigation of an issue relevant to the programme content and on a topic within the field covered by their specialist subject and agreed with their supervisor.

**Teaching:** A series of 3-4 dissertation seminars during MT and LT. The seminars cover issues pertinent to writing a dissertation such as reviewing the literature, using secondary quantitative data, and research ethics.

**Formative coursework:** Each student will be required to give a short presentation outlining the subject of his/her dissertation and the proposed argument of the dissertation in a session organised for all students during ST (usually May).

**Assessment:** Dissertation (100%, 10000 words) post-summer term.

The 10,000 word dissertation must be submitted via Moodle by 5pm on Thursday August 8th 2019.
