Teacher responsible: Prof Sandra Jovchelovitch QU.3.25
Availability: This course is compulsory on the MSc in Social and Cultural Psychology. This course is available on the MPhil/PhD in Psychological and Behavioural Science. This course is available with permission as an outside option to students on other programmes where regulations permit.
Availability as an outside option is also dependent on numbers.
Course content: Selected topics in cultural and modern social psychology. The interface mind, society and culture, with a core focus on: 1) the relationship individual-society and 2) culture as a universal and as a particular context for human cognition, emotion and behaviour. In addition: cultural transmission; ontogenesis and sociogenesis, intersubjectivity, perspective, thought and lanugage, action and joint intentionalty; mediation and artefacts; culture and the cross-cultural; global identities; intergroup relations; self and community; theory and research relevant to different fields of application including communication, education, racism and multiculturalism, health community development, social exclusion and disadvantage, mass media, amongst others. Topics are explored at different levels of analysis of social and cultural psychology: ontogenetic (individual self), sociogenetic (social interaction, inter-group relations); phylogenetic ( evolutionary history of homo sapiens). Central to the syllabus is to sensitize and train students’ to understand and manage cultural and societal variation in cognition, emotion and behaviour. Please note that fields of application and applied content may vary depending on faculty research.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT.
Students taking PB401 will also be required to attend PB400 lectures, 10 x 120 mins (MT), and 9 x 60 mins discussion groups.
Formative coursework: Students will be expected to produce 1 essay in the MT.
Assessment: Essay (100%, 5000 words) in the MT.

PB402
Organisational Social Psychology
This information is for the 2018/19 session.
Teacher responsible: Dr Tom Reader QUE.3.10 and Dr Lucia Garcia QUE.3.23
Availability: This course is compulsory on the MSc in Organisational and Social Psychology. This course is available on the MPhil/PhD in Psychological and Behavioural Science and
MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course addresses both the social psychology of organisations and social psychological processes within organisations. It also provides multidisciplinary coverage of the organisational contexts in which social psychologists may work in a variety of professional domains. A basic familiarity with social psychological methods is assumed, but their application within organisational processes and contexts will be examined in detail within the course. Issues and techniques in organisational analysis, discourse, decision-making and change management are covered with emphasis on their social psychological aspects. Lectures/seminars in the MT: These will cover key social psychological concepts and theories and their application to the understanding of organisations and the implementation of change processes. The specific topics covered include: 1) Introduction: critique of the tradition and logic underlying organisational psychology; history and frameworks in organisational analysis; “Scientific” management; Taylorism and Fordism; the Human Relations movement and the Socio-Technical approach; 2) Frameworks for analysis: for example, the cultural image of organisations; culture and identity in organisations; power, knowledge and organising; 3) People organising: for example, motivation; work groups and teams; decision-making, leadership, networking and collaborative work; 4) Implications for practice: for example, managing organisational change.

Professional Seminar Series in the MT: These will centre on discussion of practical and research applications in domains where organisational social psychological investigation and analysis may play a leading role. Each topic will be presented by an external expert working practically in the domain.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Formative essay to be submitted in MT.

Assessment: Essay (100%, 5000 words) in the MT.

PB403

Psychology of Economic Life

This information is for the 2018/19 session.

Teacher responsible: Prof Saadi Lahlou QUE 3.26

Dr Frédéric Basso QUE 3.14

Availability: This course is compulsory on the MSc in Psychology of Economic Life. This course is not available as an outside option.

Course content: Human activity is goal-oriented and social; it is evaluated at individual level in terms of emotions and well-being—a heritage of our Primate nature. Humans have now grown outside of the initial “natural” ecological condition of small tribes of hunters-gatherers to which their body and psyche were adapted. They have socially constructed socio-economic systems (“Production-Consumption Systems” –PCS). In these PCS, individual satisfaction and resources are obtained through participating into a labor division following institutional rules. While this institutionalized system enables channelizing positively some explosive characteristics of humans (competition, hierarchy, preference for the present etc.), the growth of such PCS in a limited world poses urgent problems of sustainability. Some of the most blatant limitations to the current system come from human drives (competition, aggression, desire for more, inter-group rivalry, short-termism, etc.). The problem addressed by the Psychology of Economic Life is therefore to explore new ways of constructing sustainable PCS, and to manage the transition from the current state to a more sustainable one. This exploration must be informed by a realistic psychology, which is the object of this course.

Teaching: The course is delivered in Michaelmas Term over 10 lectures of 2h (2 per week, over weeks 1 to 5), 5 weekly seminar sessions of 1.5 hours (weekly over weeks 1 to 5) and three special seminar sessions of 2 hours (weeks 7, 8, 9). Students taking PB403 will also be required to attend PB400 lectures, 10 x 120 mins (MT), and 9 x 60 mins seminars/discussion groups (MT).

Formative coursework: Students will be expected to produce 1 mini-essay in the Michaelmas Term.

Assessment: Essay (80%, 5000 words) and essay (20%, 1000 words) in the MT.

The 5000 word essay is written in groups, which will be marked collectively (i.e. all students in one group will receive the same mark). The 1000 word essay is an individual essay which will be marked separately.

Assessment is part of the learning process. Students must demonstrate their knowledge of theories learned in the course, and apply them to analyse a real case of economic phenomenon (business model, organization, public policy...) - and eventually propose realistic recommendations for an improvement of sustainability. The case must be different from cases studied in the option courses, and from the dissertation. This work is collective. The students will be assembled in groups and produce a case study collectively.

Both assessments are prepared by an unmarked formative.
PB404

The Social Psychology of Communication

This information is for the 2018/19 session.
Teacher responsible: Dr Bradley Franks QUE.3.05 and Prof Martin Bauer QUE.3.04
Availability: This course is compulsory on the MSc in Social and Public Communication. This course is available on the MPhil/PhD in Psychological and Behavioural Science and MSc in Media and Communications (Data and Society). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course examines core theories towards a social psychology of communication. Issues raised will refer to verbal and non-verbal, face-to-face, rumours and mass mediated, as well as private and public, communal and strategic forms of communication. The second half of the course will provide an overview of applied communication research in various professional areas of public communication. Theories of communication covered in the course include evolutionary theory, classical rhetoric, diffusion research, pragmatics and relevance theory, semiotics and system theory and the theory of communicative action. Issues will be raised as to the critical analysis and the design of communicative action. Issues will be raised as to the critical analysis and the design of communication efforts in professional fields such as business corporations, NGOs, scientific professional bodies, health promotion, governments and political parties, police campaigns, and international organisations.
Teaching: 20 hours of lectures and 10 hours of seminars in the MT. Students taking PB404 will also be required to attend PB400 lecture and discussion groups. (PB400 lecture 10 x 120 mins (MT) and 9 x 60 mins discussion groups)
Formative coursework: Students will complete one formative assignment in the MT.
Indicative reading: No one book covers the entire syllabus; students will be expected to read widely in appropriate journals, and a list of references will be provided at the start of the course.
Assessment: Essay (100%, 5000 words) in the MT.

PB411

Methods for Social Psychology Research: Qualitative and Quantitative Methods

This information is for the 2018/19 session.
Teacher responsible: Dr Ilka Gleibs
Availability: This course is compulsory on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is not available as an outside option.
Course content: This course is for MSc students in the Department of Psychological and Behavioural Science. It will:
1) provide an overview of methodological issues for Psychological research;
2) cover core skills in research design in Psychology; and
3) provide training in core psychological methods of analysing quantitative and qualitative data.
By the end of the course as a whole, students will be equipped with methodological skills that will enable them to conduct empirical research for their MSc dissertation and possibly research after the MSc.
Teaching: Teaching takes place in the MT, LT and ST. The course has four components:
1) 13 hours of lectures on methodological issues and research design, as preparation for completing the course, PB410 Dissertation (LT)
2) MY421M Qualitative Research Methods (MT)
3) MY465 Intermediate Quantitative Analysis (MT)
4) A series of non-compulsory and non-assessed specialist workshops in LT and ST on specific research methods that students can choose to attend for preparation of their dissertation.
Formative coursework: Students will follow the formative work requirements on the MY course(s) that they take under each stream.
Assessment: Other (100%).
PB411: Not assessed
PB413  Half Unit
Experimental Design and Methods for the Behavioural Science

This information is for the 2018/19 session.
Teacher responsible: Dr Matteo Galizzi
Dr Dario Krpan
Availability: This course is available on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Behavioural science is the scientific study of human behaviour, and it combines research techniques from psychology and economics. The course offers an integrated training in advanced behavioural science methods by introducing students to state-of-the-art techniques that stretch across the spectrum of both disciplines. The course covers the following topics: randomised controlled experiments in behavioural science, causality, selection bias; behavioural science experiments spanning the continuum spectrum from the lab to the field; principles of experimental design; best practices in modern behavioural science experiments; measuring preferences, attitudes, beliefs, willingness-to-pay; behavioural game theory and experimental games of strategic interaction; designing behavioural priming experiments and measures that tap into implicit cognition; state-of-the-art physiological research techniques; tests of hypotheses and sample size calculations for experiments in theory and practice; p-curve; regression analysis of experimental data in theory and practice; understanding the mechanisms behind behavioural effects by employing experimental-causal-chain, measurement-of-mediation, and moderation-of-process designs.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.
The course is delivered in Michaelmas Term over 10 lectures of 1 hour (1 per week, over weeks 1-5, and 7-11) and 10 weekly seminar sessions of 1 hour (1 per week, over weeks 1-5, and 7-11). Students on this course will have a reading week in Week 6, in line with departmental policy.

Lectures and Seminars:
Week 1
Lecture 1: Introduction to the Course [MG, DK]. The Beauty of Behavioural Science Experiments: Why Randomization Solves the Selection Bias [MG].
Seminar 1: Building a Simple Behavioural Science Experiment Using Qualtrics [DK].
Week 2
Seminar 2: Best Experimental Practices in Practice [MG, DK].
Week 3
Lecture 3: Principles of Experimental Design [MG].
Seminar 3: Introduction to z-Tree [MG].
Week 4
Lecture 4: Strategic Decision-Making: Introduction to Behavioural Game Theory [MG].
Seminar 4: Building a Simple Game of Strategic Interaction Using z-Tree [MG].
Week 5
Lecture 5: Behavioural Priming Techniques [DK].
Seminar 5: Designing Behavioural Priming Experiments [DK].
Week 6
No lecture: Reading week
Week 7
Lecture 6: System 1 in Action: Capturing Implicit Cognition [DK].

Formative coursework: Students will be expected to produce 1 presentation in the LT.

For the formative assignment, you will work in small groups (3-4 students) to produce a presentation in which you will need to propose a design and implementation of a behavioural science experiment entailing the use of (at least) two different software packages introduced in the seminars. The structure of the presentation will be as follows: a) Introduce a viable research question (on a topic of your choice) that will guide your experimentation; b) Describe how you would design and implement behavioural science research to answer the question; and c) Explain which statistical approaches covered in lectures and seminars you would use to analyse the data. For the presentation, you will need to follow the lines of a pre-analysis plan (PAP) which is increasingly common in behavioural science (for an example, see www.psychologicalscience.org/publications/psychological_science/preregistration).

At the end of the presentation, each of you will need to clarify your exact contribution to the group work. This will involve specifying the aspect of the formative assignment that was under your lead. You will be expected to divide the groupwork amongst yourselves in such a way that each of you has a different task and leads the contribution to the whole groupwork in relation to that task. The expected length of the presentation is 15 minutes. The presentation will be delivered in a video format: you will be given a clear step-by-step guide describing how to produce a video presentation (we will go through this guide during a seminar to make sure it is clear to everyone how the video file should be produced). Where needed, we will be able to secure webcams for producing the presentations as well as the space for recording them. You will be expected to submit the formative assignment by the end of Week 7 in the Lent Term.

To assist you throughout the group work process and increase the effectiveness of your teamwork experience, we will provide you with resources that will make the organizational part of the group work easier. The resources will involve a teamwork checklist and guidelines for managing the groupwork process.

Assessment: Other (100%) in the ST.

You will be expected to write a 3,000 word report to be submitted at the end of Summer Term. The reports will need to be submitted individually and will require you to report on your own contribution to the groupwork undertaken as part of the formative assignment. More precisely, you will start by giving a brief overview of how your group tackled the three points crucial to the formative task: a) Introduce a viable research question (on a topic of your choice) that will guide your experimentation; b) Describe how you would design and implement behavioural science research to answer the question, and c) Explain which statistical approaches covered in lectures and seminars you would use to analyse the data. Then, you will proceed by providing an in-depth exposition of your own contribution to the groupwork in relation to the task you oversaw. In the report, we will expect you to use in-text scholarly citations and provide a reference list at the end. You will be expected to submit the summative report by the beginning of the Summer Term.

PB415 Half Unit Not available in 2018/19

Behavioural Science

This information is for the 2018/19 session.

Teacher responsible: Prof Paul Dolan QUE 3.08

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Environmental Economics and Climate Change, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social Policy (Research), MSc in Social and Cultural Psychology, MSc in Social and Public Communication and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.

This course is available as an outside option to students on other programmes where regulations permit. This is a capped course. In teaching Week 1 places will be allocated to students from the Department of Psychological and Behavioural Science on a first come first served basis. At the start of Week 2 any remaining places will be allocated to students from other departments, again on a first come first served basis.

Course content: This course aims to introduce students to the main concepts and tools of behavioural science. To achieve this aim, the course is based around ten lectures covering: 1) what is behavioural science?; 2) choices under risk and uncertainty; 3) intertemporal decisions; 4) social and moral preferences; 5) biases and heuristics and rules of thumb; 6) the role of emotions in decision making; 7) dual-process models of behaviour; 8) the power of nudges; 9) compensating behaviours; 10) ethical considerations.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

PB416 Half Unit Cognition and Culture

This information is for the 2018/19 session.

Teacher responsible: Dr Bradley Franks QUE 3.05

Availability: This course is compulsory on the MSc in Social Anthropology (Learning and Cognition). This course is available on the MSc in Culture and Society, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social Anthropology (Religion in the Contemporary World), MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available as an outside option to students on other programmes where regulations permit.

Course content: The course examines recent directions in research relating to the relationships between mind and culture. Specific content will include a variety of theoretical issues; for example, relationships between social facts and psychological facts, rationalistic and non-rationalistic concepts of culture, symbolic culture; cultural relativity and universals; evolutionary and developmental constraints on the relations between mind and culture; communication, cultural transmission and change. These issues will be discussed with reference to specific domains of investigation, such as: emotions, representations of religion, race and national kinds; pragmatics and communication; and social divisions of labour in meaning and representation, including deference and expertise.

Teaching: 15 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 3 presentations, 1 quiz and 1 other piece of coursework in the LT.

i. a plan for an answer to an essay or case study question
ii. group presentations of core readings over the term
iii. a self-administered multiple choice quiz

**PB417 Half Unit**

**Consumer Psychology**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Michael Muthukrishna QUE.3.15

**Availability:** This course is available on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped.

**Course content:** The objectives of the course are: 1) to provide students with an understanding of the social psychological and cognitive processes behind the consumption of goods and services; 2) to explore alternative modes of relationship with users/consumers that are currently ones which are based mostly on market and competition; and 3) to prepare students to build better business models (e.g. social entrepreneurship, more sustainable, and so on) for the provision of goods and services.

The course will address the psychology of consumption at different levels of analysis: individual, group and societal. It will try to ground this psychology in fundamental theories that will allow students to develop a mental model of human behaviour as it relates to consumption.

This is not a standard marketing or consumer research course. It is not just about brand territories and market shares, but about how understanding various psychological processes in conjunction with these other forces can provide us with tools to improve the world.

**Teaching:** 10 hours of lectures, 4 hours of seminars and 6 hours of seminars in the LT.

The course is delivered in Lent Term over 10 lectures of 1h (2 per week, over weeks 1 to 5); 4 weekly seminar sessions of 1 hour (in weeks 2, 3, 4, and 5) and three special seminar sessions of 2 hours (weeks 7, 8, and 9). The special seminars occur after all lecture material has been delivered and will focus on applying this knowledge to real world case studies.

**Formative coursework:** Essay plan submitted in the LT.

**Assessment:** Essay (100%, 3000 words) in the LT.

The assignment is understood as part of the learning, to provide the transferable skills of analysing a real case and making sound recommendations to make the world a better place. In the first part, ‘memorandum’ (1,000 words), you will be asked to prepare a memorandum or open letter to the head of an organisation of your choice, with recommendations that improve the organisation in a way that makes the world a better place. The recommendations must be realistic, including making being achievable and making business sense. In the second part of the essay, ‘justification’ (2,000 words), you will justify the specific recommendations presented in the memorandum with reference to the theoretical and empirical literature and concepts. You can read examples of previous years assignments at http://www.lse.ac.uk/DPBS/videos/PS456.aspx. We encourage the best essays to be published as open letters.

**PB418 Half Unit**

**Corporate Communications**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Ben Shenoy, KSW.5.13

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MiM), Global MSc in Management (CEMS MiM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology, MSc in Social and Public Communication and MSc in Strategic Communications. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students from other programmes may access this course subject to availability.

**Course content:** The different activities encompassed by the concept of corporate communication affect each one of us in various guises: as employees, customers, citizens, investors or, more generally, as observers of today’s world. It is therefore essential to develop a critical understanding of the different practices associated with corporate communication. Future practitioners also need this critical perspective so as to understand better the challenges involved in the development and implementation of corporate communication programmes. The objectives of the course are two-fold: 1) to provide an introduction to corporate communication, here understood as a set of activities undertaken by organisations in order to establish favourable corporate images and reputations with all of an organisation’s stakeholder groups; and 2) to underline how a better understanding of key social psychological concepts can contribute to the overall management and effectiveness of organisations and corporate communication.

This course is designed to apply relevant social psychological theory to gain insight into the changing world of corporate communication.

**Teaching:** 15 hours of lectures and 5 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 case study in the LT.

**Assessment:** Essay (100%, 3000 words) in the LT.
PB419 Half Unit Not available in 2018/19
Creativity and Innovation

This information is for the 2018/19 session.
Teacher responsible: Dr Alex Gillespie QUE.3.03
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Marketing, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available as an outside option to students on other programmes where regulations permit.
This course is available to any graduate student within the Department of Psychological and Behavioural Science. This course is available as an outside option to students' on other programmes were regulations permit.
Pre-requisites: An undergraduate degree in a social science related discipline or equivalent.
Course content: This course examines creativity and innovation from a social psychological standpoint. The first lectures of the course examine creativity, focusing on the social conditions which lead to new ideas. Then we will examine the way in which new ideas and technologies are instituted and resisted. The role of play and materiality in creative production are discussed next, followed by creative problem solving and the societal transmission of innovation. The course will end with a focus on societal creativity, utopias and imagining the future. Guiding questions will be: How do new ideas and technologies come about? What social contexts are conducive to creativity and innovation? Can the resistance to innovation lead to innovation? What is the human imagination? Why do humans enjoy play, games and fiction? What leads to insightful problem solving? How does perspective-taking help us understand if something new is creative, productive or useful? The course will cover the social conditions (i.e., face-to-face or online, one-to-one or group, autocratic or democratic, specialisation or integration, etc.) conducive to creativity and innovation, including the social conditions for socialisation creative individuals and the social and institutional factors which enable productive novelty to be recognised and instituted. Specific topics will include: theories of creativity, play & imagination, insight and problem solving, identifying good ideas, materiality, cultural evolution, the resistance to innovation, user innovation, utopias and how people imagine the future.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.
Assessment: Essay (100%, 3000 words) in the LT.

PB420 Half Unit Not available in 2018/19
Current Communication Research

This information is for the 2018/19 session.
Teacher responsible: Dr Bradley Franks QUE.3.05
Availability: This course is available on the MSc in Culture and Society, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit. Students on degrees without a psychology or communications component may only attend subject to numbers, their own degree regulations and at the discretion of the teacher responsible.
Pre-requisites: None
Course content: The course content changes every year. It can either be a full thematic course or a collection of current research topics, and will involve contributions of staff members from the Department of Psychological and Behavioural Science and of visiting academics to the Department. The course provides research-led teaching on communication, using a range of theoretical approaches and addressing a wide variety of practical issues.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 3 presentations and 1 other piece of coursework in the LT.
Formative assessment involves:

  i. ONE written plan for an answer to an essay question, selected from a range of topics

  ii. THREE group presentations on core readings

Indicative reading: The reading list varies according to the particular contents taught in each year. Indicative readings will be made available during MT.
The reading list varies according to the particular contents taught in each year.
Indicative readings will be made available during MT.
Assessment: Essay (100%, 3000 words) in the LT.
Summative assessment for this course comprises a 3000 word essay, submitted at the end of LT.

PB421 Half Unit
Happiness

This information is for the 2018/19 session.
Teacher responsible: Prof Paul Dolan QUE.3.08
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Environmental Economics and Climate Change, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social Policy (Research), MSc in Social and Cultural Psychology, MSc in Social and Public...
Communication and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.

This course is available as an outside option to students on other programmes where regulations permit and subject to the size of the room that is allocated for it. This is a capped course. In teaching week 1 places will be allocated to students from the Department of Psychological and Behavioural Science on a first come first served basis. At the start of week 2 any remaining places will be allocated to students from other departments, again on a first come first served basis.

Course content: This course aims to introduce students to the main concepts and tools of the science of happiness. To achieve this aim, the course is based around ten lectures covering: 1) what is wellbeing?, 2) research on happiness; 3) evaluations of happiness; 4) experiences of happiness; 5) adaptation and attention; 6) mistakes about happiness; 7) happiness by design; 8) valuing non-market goods using preferences; 9) valuing non-market goods using happiness; 10) happiness as a (the?) policy objective.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. There are ten topics, and the seminars allow for in depth discussion and analysis of the issues raised in the lectures. Formative coursework: Students will be expected to produce 1 essay (1000 words) in the LT.

PB422 Half Unit Not available in 2018/19

Health Communication

This information is for the 2018/19 session. Teacher responsible: Dr Jennifer Sheehy-Skeffington QUE 3.20 Availability: This course is available on the MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in Global Population Health, MSc in Health and International Development, MSc in Media, Communication and Development, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course centres on the application of social psychology to the challenge of health communication in a global context. While considering both health and communication in their widest sense, it focuses primarily on the practice of health promotion and its conceptual underpinnings. We will begin with an introduction to health psychology and expert-led approaches to health communication, before moving on to consider health and illness in their wider social and societal context. The final section of the course considers community development and social justice approaches that put empowerment and participation at their centre, enabling us to close with a critical yet hopeful appraisal of the future of health communication. Throughout, we will view the individual as a bio-psycho-social system, located within families, workplaces, communities, local and global cultures, unequal power hierarchies, and rapidly changing social settings. Through lectures, readings and seminar discussions, we will encounter theoretical debates about determinants of health and health-related behaviours, the nature of health communication, and the processes through which communication impacts on health. At the same time, we will consider the implications of these debates for health promotion campaigns and policies, learning about real-world examples through guest lectures, and gaining hands-on experience in designing and critiquing health communication campaigns through practical exercises.

Teaching: 15 hours of lectures and 10 hours of seminars in the LT. Changed to 90 minutes lectures

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Assessment: Essay (100%, 3000 words) in the LT.

PB423 Not available in 2018/19

Health, Community and Development

This information is for the 2018/19 session. Teacher responsible: Prof Catherine Campbell STC.303 and Dr Jenevieve Mannell STC.367

Availability: This course is available on the MPhil/PhD in Psychological and Behavioural Science. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course examines the psycho-social determinants of community health and social development, in the context of health inequalities and social marginalisation in the global North and South. In particular it explores the role of participation, partnerships and collective action in facilitating health, well-being, the management of illness (including prevention, service access, care and treatment) and health-enabling social change. Attention is given to promoting behaviours that facilitate both physical and mental health and well-being more generally, viewing health as a phenomenon that spans the individual, community and social levels of analysis. The challenges of facilitating health, and health-enhancing collective action, are explored with reference to social
identities, social representations and local knowledge, dialogue, empowerment, critical thinking, gender, social capital and social change. All this material is contextualised within wider debates about the global nature of public health, mainstream vs. alternative development policy, the respective roles of local and global social movements, and the potential for participation to alleviate the negative health impacts of social inequalities. Particular attention is given to the links between health and inequalities related to poverty, gender and sexuality, ethnicity, age (children and the elderly) and disability.

The over-riding ethos of the course is an interest in the links between theory and practice. Attention is given to providing students with actionable conceptual tools for the challenges of designing and evaluating community-focused programmes in the fields of public health, health promotion and health-supporting social transformation.

**Teaching:** 20 hours of lectures and 5 hours of seminars in the MT.

**Formative coursework:** A mini-essay submitted in MT.

**Assessment:** Exam (50%, duration: 3 hours) in the summer exam period.

Essay (50%, 5000 words) in the MT.

**Course content:** In recent years, much has been made of the demise of the traditional work organisation and with it, traditional organisational life. In popular rhetoric, globalisation, the rise of the knowledge economy, ICT and the credit crunch have all trumpeted the dawn of a very different world. The reality of the situation would seem to be far more complex.

So how do we understand and explain this complexity? This basic question has prompted huge soul searching within the social sciences as comfortable assumptions about the analysis of our world have been shown wanting. For many the current behavioural ‘turn’ throughout many of our disciplines act as an alternative lens for making sense of our reality - this has as its core the tools and approaches of social psychology.

The aim of the course is to give a social psychological perspective on the elements of continuity and change surrounding contemporary organisational life. It will focus in particular on the blurring of boundaries within our key organizational relationships: with employees, customers, clients, and stakeholders. Its primary objective is to facilitate students in developing a critical and reflective understanding of these emerging processes.

The course is informed throughout by a dual mandate. A rigorous approach to theory will be developed within the context of contemporary organisational issues, and current topics of debate. This essential relationship between theory and practice is a central feature of the course - outside speakers and practitioners are used throughout to supplement the learning for each topic and various forms of social media are employed to connect with an extended community of practice.

The course will address emerging organisational questions such as:

- Perspectives: how do we make sense of the complexity of organisational Life?
- Why do we work? How do different generations engage with work?
- The rise of the BlackBerry: have we moved from the workplace to the 24/7 workspace?
- Organisational time: is work life-balance a pipe dream?
- After multiculturalism where now for organisational equality, diversity and inclusion?
- Corporate Social Responsibility: how do organisations relate to wider stakeholders?
- Customer, client or ‘partner’? Co-creation as the dynamic for growth.
- Beyond the ‘ivory tower’: how do we relate organisational theory to wider stakeholders?

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** One formative piece of coursework to be submitted in the LT.

**Indicative reading:** Detailed references and class topics are distributed in the first lecture of the series. The following represents some key readings from the course:

PB425 Half Unit
Issues in Social Psychology: Group Dynamics

This information is for the 2018/19 session.
Teacher responsible: Dr Ilka Gleibs, QUE 3.21
Availability: This course is available on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social Research Methods, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students who come to this course without any background in social psychology are expected to familiarise themselves with the relevant literature. To this end, we strongly suggest that those students read the following books:

Course content: Group dynamics and interpersonal skills are an essential element in any successful organisation (in the broadest sense) and often provide a competitive advantage in managing organisations. Group dynamics directly affect the ability of a team to think, learn, and innovate together.

This course provides students with a critical understanding of the different theories and practices associated with group dynamics. The objectives of the course are two-fold:

• To introduce past and present theories of group dynamics by introducing concepts used by psychologists to understand and improve group behaviour.
• To apply and critically evaluate how group dynamics theories help us to explain and predict real-life experiences.

Therefore the course aims at highlighting that a better understanding of key social psychological concepts can contribute to the overall management and effectiveness of organisations and groups in various settings.

Some topics that will be covered include: Why group dynamics? Influence and Power; Identity and Inclusion; Crowds and collective behaviour; The 'Social Cure': importance of groups for health; Performance and Power; Identity and Inclusion; Crowds and collective behaviour: Groups in various settings.

Teaching: 15 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Indicative reading: Introduction to the topic:

Assessment: Essay (100%, 3000 words) in the LT.

PB426 Half Unit
Knowledge Processes in Organizations

This information is for the 2018/19 session.
Teacher responsible: Dr Lucia Garcia-Lorenzo QUE 3.23
Availability: This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course focuses on the processes of knowing and learning to examine the varied ways in which people work together in a number of contexts, from project teams within single organisations to inter-organisational partnerships, networks and alliances. It offers students a theoretical and practical understanding about how organisations construct, disseminate and share knowledge in those settings.

Concretely, the course addresses the following questions: 1) What is organisational knowledge? Lectures will explore the differences and overlaps between personal, social/organisational and cultural knowledge and between the processes of learning and knowing. 2) How do we create new knowledge in organisations? To answer this question we will look into processes of learning, creativity, innovation and entrepreneurship. 3) How can we efficiently share and transmit knowledge in organisations? The course will address the challenges generated through the use of new technologies in the workplace, the use of stories and narratives as a mode of knowledge transmission, the development of collaborative practices, power relations in organisations, etc. 4) How do we store and use current organisational and personal knowledge? To answer this question lectures will address the use of organisational history and memory as well as look into how we practice knowledge in everyday organisational work.

The focus of the course is both theoretical and practical. Students will be expected to engage with both current theoretical debates and emerging practical issues in organisational life.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. Students will be expected to make extended use of the course intranet - for online discussions and group presentations.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

PB427 Half Unit
Organisational and Social Decision Making

This information is for the 2018/19 session.
Teacher responsible: Dr Thomas Reader QUE.310
Availability: This course is available on the CEMS Exchange,
PB428 Half Unit
Political Psychology: Inequality & Prejudice
This information is for the 2018/19 session.
Teacher responsible: Dr Cathy Nicholson
Availability: This course is available on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students from all departments may attend subject to numbers, their own degree regulations and at the discretion of the teacher responsible.
Course content: This course teaches on theory and research from the field of organisational and social decision-making. It is primarily focused on high-risk organisational settings, and explores contexts where there is uncertainty, high-consequences for failure, and complex social systems. PB427 provides a historical introduction to decision-making, and introduces the core concepts used by social psychologists to understand (and improve) decision-making processes in organisations. It draws upon the social, cognitive and organisational psychology literatures, and considers the core concepts and tools used to understand, research, and support decision-making in organisations. These theories and tools are contextualized through empirical and case study examples taken from domains such as finance, healthcare, the energy industry, government, and the military. Students will be encouraged to take a critical perspective, and to consider how the principles taught on the course can be applied to (and used to improve) a variety of social or organisational scenarios. The course will cover psychology (or ‘Human Factors’) concepts such as intuitive and analytical forms of decision-making, individual traits and cognitive factors that influence decision-makers (e.g. biases and emotions), human error and decision-failures, rule breaking, and group decision-making processes (e.g. teamwork, leadership). It will teach on methods for analysing decision errors, identifying decision-making competencies, observing decision-making, and supporting group decision processes.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 case study in the LT.

PB429 Half Unit
Science, Technology and Resistance
This information is for the 2018/19 session.
Teacher responsible: Prof Martin Bauer QUE.3.04
Availability: This course is available on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: The course concerns the social psychological underpinnings of contemporary inequality and conflict between groups. It introduces students to political psychology through theories focused on individual attitudes, intergroup dynamics, and ideological discourse. It then applies these theories to the understanding of contemporary issues concerning intergroup inequality. We will explore the psychosocial processes underpinning racism and prejudice, asking why some conflicts are so intractable, and why some people turn to extremism and violence. We will consider political participation in its conventional and non-conventional forms, asking why people vote the way they do, and when they will turn to the streets to protest. We will also apply a political psychology lens to examine contemporary challenges such as migration, populism, and economic inequality. Students will be equipped with the conceptual tools to consider the psychological antecedents and consequences of inequality in its various forms: to understand why intergroup hierarchy is so persistent, and how it might change. Lectures aim to achieve a balance between theoretical and applied issues, critically investigating the ways in which psychology can enhance our understanding of intergroup relations and inequality, and also contribute to broader social and political debates. Through integrating evolutionary, cognitive, social, ideological, and societal perspectives, we will be in a position to take stock of the field of political psychology and where it might go.
Teaching: 10 hours of lectures and 10 hours of seminars in the LT.
PB430  Half Unit

Social Influence

This information is for the 2018/19 session.

Teacher responsible: Prof Martin Bauer QUE.3.04

This is taught jointly with Dr Gordon Sammut, Lecturer at University of Malta, and Visiting Fellow to the Department of Psychological and Behavioural Science.

Availability: This course is available on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: The course is primarily intended for MSc and PhD students in Social Psychology, in particular those who follow PB404 Social Psychology of Communication or equivalent core modules in Social Psychology. But, conditional to available space, it will be open to any interested MSc or Research Student from across the school.

Course content: This course explores the many modes and modalities of social influence which social psychology has studied and developed concepts for. Modalities of social influence cover processes by which social groups and actors normalise, assimilate and accommodate private and public opinion, attitudes, social stereotypes, institute normative expectations and ways of life, and achieve recognition and social change. We will discuss the social psychological traditions such as rhetoric, crowd behaviour, public opinion, leadership, norms, opinion and attitude formation, majority and minority influence, resistance and obedience to authority, dual-processes of persuasion, mass media effect models; fait accompli, inter-subjectivity and inter-objectivity. This discussion will unfold under three parallel perspectives: 1) the theoretical and empirical grounding of influence models; 2) the socio-historical context of their formulation, many models came out of WWII and Cold War; and 3) in the mirror of current formulations which often deploy new language without necessarily treading new ground. The course will discuss current ideas and models in comparison with canonical paradigms in order to assess ‘real progress’ of what often seems ‘old wine in new bottles’. The course builds a theoretical integration of modalities of influence in the ‘cycle of normativity and common sense’ including the normalisation, assimilation and accommodation of social diversity (Sammut & Bauer, 2011). The moral ambiguity of social influence treads a fine line between promoting wellbeing and social recognition, and manipulating beliefs, opinion and attitudes. This raises ethical issues involved in the study and exercise of social influence in the modern public spheres.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Teaching arrangement: the course will be taught as a combination of weekly lecture and discussion seminar. Participants are expected to prepare at least one seminar discussion.

Formative coursework: Students will be expected to produce 1 essay and 1 presentation in the LT. Participants will contribute to the reading seminars with a presentation, and they will be able to present an essay plan for formative feedback before the end of term.

Indicative reading: Some key references:

- Billig M
- Habermas J
- Paicheler
- Pratkanis
- Sloane T d Encyclopedia OUP
- Sammut D W ds Communication Palgrave pp87-106.

Each session will have its own particular readings, divided into essential texts and additional readings. This will be revised on an annual basis. No one book covers the entire syllabus; students will be expected to read widely in appropriate journals, and a list of references will be provided at the start of the course.

Assessment: Essay (100%, 3000 words) in the LT.
PB431  Half Unit  
Social Psychology of Economic Life: Advanced Topics

This information is for the 2018/19 session.
Teacher responsible: Dr Frederic Basso, QU.3.14
Availability: This course is available on the MRes/PhD in Management (Organisational Behaviour), MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students on degrees without a psychology may only attend subject to numbers, their own degree regulations and at the discretion of the teacher responsible.

Course content: The course takes the position that social psychology is the key to understanding real-world economic life by taking in account cognitive, affective and social processes. Main concepts: analytic/experiential systems in decision-making, metaphors, images, stories/storytelling, self/extended self in consumption, dramaturgy/staging, social roles, face-to-face interactions, emotional labour/dissonance, gift economy, sharing economy, social group (inclusion/exclusion), stigma, social norms, nudging, disenchantment of the economic world, post-modern hyper-realities, experience economy, resistance to persuasion (inertia, scepticism, reactance), resistance to consumption (avoidance, minimisation, boycott/active rebellion).

Teaching: 15 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.
Indicative reading: Reading lists will be provided for each topic, the following are of general use; S E G Lea, R M Tarpy & P Webley, The Individual in the Economy, Cambridge University Press, 1987; A Lewis, P Webley & A Furnham, The New Economic Mind: The social psychology of economic behaviour, Harvester, 1995.
Assessment: Essay (100%, 3000 words) in the LT.

PB432  Half Unit  
Social Representations

This information is for the 2018/19 session.
Teacher responsible: Prof Sandra Jovchelovitch QUE.3.25
Availability: This course is available on the MSc in Culture and Society, MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course focuses on social representation as a theory in social and cultural psychology and as phenomena in social life. It explores concepts, empirical studies and fields of application of social representations. The course aims to equip students with in-depth understanding of the production, transformation and contestation of representations in public spheres. Through an examination of concepts and key studies in the field, the course explores the dynamics of social thinking and the power of representations to construct meanings and social realities. It highlights process of communication and contestation between different knowledge systems and the dynamics of social change. The course covers: 1) origins and theoretical roots of social representations in the field of socio-cultural psychology and situated cognition; 2) processes and functions of social representation, including dialogicality, cognitive polyphasia, relating to the unfamiliar, semantic enablers and barriers, and

Assessment: Essay (100%, 3000 words) in April.

PB433  Half Unit  Not available in 2018/19
Theory and Practice of Organisation Development

This information is for the 2018/19 session.
Teacher responsible: Dr Caryn Solomon, KSW.5.13
Availability: This course is available on the MSc in Human Resources and Organisations (Organisational Behaviour), MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is not available as an outside option.

Course content: The organisation is a social system that is complex, dynamic and ever changing. This course attempts to explore the management of organisational change and development in a practical way. It does this by recognising that there are research-based methodologies for ensuring that the potential inherent in change is harnessed, and that the capacity and potential of the organisation, in the pursuit of a broad range of organisational objectives, are enabled. While it is informed by a number of key theoretical frameworks, Organisation Development comes into its own in application. The aim of the course, therefore, is to help students to explore the body of core theory underpinning the practice; second, to examine the practice of Organisation Development as a process (not a ‘product’ or a ‘programme’) which fundamentally influences and is influenced by the specific organisational context within which it takes place. Drawing on key theoretical frameworks and the approaches of major practitioners, the course also examines a range of current, best practice socio-psychological interventions. Students will be actively encouraged to relate key theoretical perspectives to organisational challenges covering a range of contemporary issues and contexts.
Teaching: 15 hours of lectures and 10 hours of seminars in the LT. Lecture and seminar sessions will be fully integrated, combining theory and practice throughout. This means that, in order to cover
all the material required for this course, the entire class will be required to attend all sessions — morning and afternoon. There will be no separate, small-group seminars.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

**Assessment:** Presentation (45%), essay (45%) and class participation (10%) in the LT.

---

**PB434 Half Unit**

**Behavioural Science in an Age of New Technology**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Dario Krpan

**Availability:** This course is available on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is not available as an outside option.

**Course content:** When psychology and economics got "married", the product was behavioural science. Although this discipline was behavioural science. Although this discipline has elevated theoretical and practical understanding of human behaviour to previously unseen heights, recent technological developments have produced new insights in understanding and predicting people's actions that not only supplement traditional tools of behavioural science but also go beyond them. The future of the discipline will therefore likely depend on how effectively behavioural scientists can harness new developments in technology to understand and change the way people act. The aim of this course is to a) Introduce major technological advancements that are relevant for predicting, influencing, and understanding human behaviour; b) outline how they supplement and extend commonly used tools of behavioural change; and c) examine how they can be used to propel behavioural science into the future. The course will tackle behavioural science in relation to motion tracking, virtual environments, social robotics, social networks, and other relevant developments in information technology.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT. The course is delivered in Lent Term over 10 lectures of 1 hour (1 per week, over weeks 1-5, and 7-11) and 10 weekly seminar sessions of 1 hour (1 per week, over weeks 1-5, and 7-11). Students on this course will have a reading week in Week 6, in line with departmental policy.

**Lectures**

**Week 1**

1. Lecture 1: Understanding minds by reading bodies: Implications of motion tracking for behavioural science [DK]
2. Lecture 2: Understanding minds by reading bodies: Implications of motion tracking for behavioural science 2 [DK]

**Week 3**

1. Lecture 3: Changing behaviour through gamification [DK]

**Week 5**

1. Lecture 5: Behavioural science in virtual worlds [DK]
2. Lecture 6: Behavioural informatics [DK]
3. Lecture 7: Change thyself: Using technology to influence our own behaviour [DK]
4. Lecture 8: Digital footprints and human behaviour [DK]
5. Lecture 9: Psychological targeting in digital age [DK]
6. Lecture 10: The ethics of emerging technologies in the context of behavioural science [DK]

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT. Formative coursework will serve as your preparation for the summative assignment. You will need to create a 5-minute presentation on the topic of the summative assignment: Propose an intervention that relies on technological tools that were either covered throughout the course or that you identified through personal search to create behavioural change in an applied setting of your choice (e.g. your organisation, personal life; you can select any setting you desire). In the presentation, you will need to a) Introduce the behaviour you want to tackle and argue why changing this behaviour would be important; b) Present your intervention that uses technological tools to change the behaviour and c) argue why this intervention would be effective based on your knowledge of behavioural science gained through the class material and personal literature search.

Similar to the summative assignment, the presentation will be delivered in a video format: you will be given a clear step-by-step guide describing how to produce the presentation in a video format (we will go through this guide during a seminar to make sure it is clear to everyone how the summative assignment should be produced). The main aim of the formative assignment is for me to evaluate your approach to tackling points a), b), and c) mentioned above so I can give you relevant feedback that will help you when preparing the summative presentation, and also for you to get comfortable with producing the video presentation.

The deadline for submitting the formative assignment will be during week 11 (Lent term). The exact date of submission will be given to you closer to the start of the course.

The aim of the summative assessment will be to propose an intervention that relies on technological tools that were either covered throughout the course or that you identified through personal search to produce behavioural change in an applied setting of your choice (e.g. your organisation, personal life; you can select any setting you desire). This intervention will be conveyed in the form of a 15 minute presentation that will count as your summative assignment. More precisely, in the presentation, you will need to a) Introduce the behaviour you want to tackle and argue why changing this behaviour would be important; b) Present your intervention that uses technological tools to change the behaviour and c) argue why this intervention would be effective based on your knowledge of behavioural science gained through the class material and personal literature search. The presentation will be delivered in a video format: you will be given a clear step-by-step guide describing how to produce the presentation in a video format (we will go through this guide during a seminar to make sure it is clear to everyone how the summative assignment should be produced). Together with the video presentation, you will need to submit an annotated bibliography that contains a) a list of scientific references you used for the presentation; and b) a short text below each reference (1-2 sentences) describing why exactly the reference is important in the context of your presentation. The main purposes of the annotated bibliography will be to demonstrate the academic background upon which your presentation was based.

The deadline for submitting the summative assignment will be in Week 4 of the summer term. The exact date of submission will be given to you closer to the start of the course.

PB452  Half Unit  Not available in 2018/19

Behavioural Science for Health

This information is for the 2018/19 session.

Teacher responsible: Dr Matteo Galizzi Old 2.35
Dr Matteo M Galizzi

Availability: This course is available on the MSc in Organisational and Social Psychology, MSc in Psychology of Economic Life, MSc in Social and Cultural Psychology and MSc in Social and Public Communication. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: No pre-requisites required.

Course content: The course aims to introduce to students the main tools and principles of behavioural sciences and the key state-of-the-art applications to health economics, policy, practice, and management. The course is designed to enhance students’ abilities to apply rigorously and critically behavioural science tools to concrete challenges in the health area, to critically identify and measure the behavioural mechanisms potentially leading to heterogeneity in behavioural change, and to account for them in the design and interpretation of the behavioural science intervention. It covers principles of behavioural science, behavioural health economics and policy, and behavioural experiments in health; behavioural principles for information policies in health; financial and non-financial incentives in health; nudging behavioural change in health; behavioural principles for regulation of health and healthcare; risk preferences and health; time preferences and health; social preferences and health; behavioural spillovers in health.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. The course is delivered in Lent Term over 10 lectures of 1 hour (1 per week, over weeks 1-5, and 7-11) and 10 weekly seminar sessions of 1 hour (1 per week, over weeks 1-5, and 7-11). Students on this course will have a reading week in Week 6, in line with departmental policy.

This extended content has been included for the information of the GSSC. A shortened version of this content will be provided for the published course guide:

Lectures and Seminars:

Week 1

Seminar 1: How to practically use principles of behavioural science in health and healthcare contexts: the MINDSPACE, EAST, and SALIENT mnemonics.

Week 2

Lecture 2: Behavioural health policy: an operational definition. Behavioural insights and behavioural methods. Randomised controlled experiments in health: a taxonomy and a toolkit spanning the lab to the field. Behavioural experiments in health: online, lab, lab-field, artefactual field, framed field, natural field, and naturally occurring experiments. Population-level randomised controlled natural field experiments in health: the RAND Health Insurance experiment, the Oregon Health Insurance experiment, the China Rural Health Care and Health Care Reforms experiments. Ten misunderstandings about behavioural experiments in health, and ten directions for research and policy applications. A taxonomy of behavioural health policies: information policies, financial and non-financial incentives, nudges, and behavioural regulation in health.

Seminar 2: When and how to practically use the different types of behavioural experiments in health and healthcare contexts: the MINDSPACE, EAST, and SALIENT mnemonics.

Week 3

Lecture 3: Behavioural principles for information policies in health. Designing information policies in health around behavioural principles: saliency, framing, labelling, anchoring, priming, simplification, curiosity, information avoidance, default options. The role of reminders. Behavioural experiments on health information policies: a review of lab and field evidence on nutrition, weight loss, physical exercise, smoking cessation, flu vaccination, HIV prevention, cancer screening, medications adherence, drugs and treatment compliance, attendance of medical and diagnostic appointments, health insurance behaviour, blood and organs donation, physicians’ decisions and behaviour.

Seminar 3: How to practically use behavioural science principles for information policies in health: saliency, framing, labelling, anchoring, priming, simplification, curiosity, information avoidance, default options, reminders.

Week 4

Lecture 4: Financial and non-financial incentives in health. Incentives for health behaviours and for healthcare professionals. Monetary incentives (e.g. cash payments, deductions, matching) and non-monetary incentives (e.g. in-kind transfers, vouchers) in health. Linear and non-linear monetary incentives in health. One-off and repeated monetary incentives in health. Short-run and long-run incentives in health. Monetary, ‘symbolic’, and ‘behaviorally super-charged’ incentives in health. Designing incentives in health around behavioural principles: saliency, risk aversion, loss aversion, bracketing, social norms, peer pressure, regret aversion, over-
weighting of small probabilities, over-confidence, over-optimism, time-inconsistency, curiosity. Behavioural experiments on incentives in health: a review of lab and field evidence on nutrition, weight loss, physical exercise, smoking cessation, flu vaccination, HIV prevention, cancer screening, medications adherence, drugs and treatment compliance, attendance of medical and diagnostic appointments, health insurance behaviour, blood and organs donation, physicians’ decisions and behaviour, healthcare management and financing.

Seminar 4: How to practically use incentives in health applications: incentive design, saliency, risk aversion, loss aversion, bracketing, social norms, peer pressure, regret aversion, over-weighting of small probabilities, over-confidence, over-optimism, time-inconsistency, curiosity.

Week 5
Lecture 5: Nudging behavioural change in health. Designing nudges in health around behavioural principles: choice architecture, saliency, priming, reference dependence, anchoring, simplification, default options. The role of time-inconsistency, commitment, and pre-commitment devices, implementation intentions, and habits formation. Behavioural experiments on nudges in health: a review of lab and field evidence on nutrition, weight loss, physical exercise, smoking cessation, flu vaccination, HIV prevention, cancer screening, medications adherence, drugs and treatment compliance, attendance of medical and diagnostic appointments, health insurance behaviour, blood and organs donation, physicians’ decisions and behaviour, healthcare management and financing.

Seminar 5: How to practically use nudges in health applications: choice architecture, saliency, priming, reference dependence, anchoring, simplification, default options, commitment and pre-commitment devices, implementation intentions, and habits formation. Behavioural experiments on nudges in health: a review of lab and field evidence on nutrition, weight loss, physical exercise, smoking cessation, flu vaccination, HIV prevention, cancer screening, medications adherence, drugs and treatment compliance, attendance of medical and diagnostic appointments, health insurance behaviour, blood and organs donation, physicians’ decisions and behaviour, healthcare management and financing.

Week 6
No lecture: Reading week

Week 7
Lecture 6: Behavioural principles for regulation of health and healthcare. Behavioural experiments on health and healthcare regulation: lab and field evidence on sin taxes (e.g. ‘fat taxes’, ‘soda taxes’), ‘thin subsidies’, food super-sizing, food advertising, smoking bans, vaccination and prevention policies, generic drugs, transport and urban planning, health insurance behaviour, blood and organs donation, end of life decisions, healthcare management and financing. Behavioural mechanisms potentially leading to heterogeneity in behavioural change: risk preferences, time preferences, social preferences, behavioural spillovers.

Seminar 6: Group presentations.

Week 8

Seminar 7: How to practically measure risk preferences in health and healthcare contexts: the Domain-Specific Risk Taking scale, the scale-based self-assessed measure for willingness to take risks, the trade-off method, the multiple lotteries choice, the balloon task, the binary choice battery, the investment game, the binary lotteries multiple price list method, the bomb risk elicitation task.

Week 9

Seminar 8: How to practically measure time preferences in health and healthcare contexts: the smaller-sooner larger-later binary options multiple price list approach, the converting delay into risk method, the convex time budget method, the binary lottery method, the inter-temporal design of the binary lotteries multiple price list approach, the direct method.

Week 10

Seminar 9: How to practically measure social preferences in health and healthcare contexts: dictator game, ultimatum game, trust game, public good game, and coordination games in health.

Week 11
Lecture 10: Behavioural spillovers in health. A definition and a taxonomy: promoting, permitting, and purging behavioural spillovers in health. Unintended consequences and spillover effects of informational policies, incentives, and nudges in health. The un-tapped potential of longitudinal lab and field experiments and ‘behavioural data linking’ for testing and measuring behavioural spillovers in health. Behavioural experiments on behavioural spillovers in health: a review of lab and field evidence on nutrition, physical exercise, smoking, health insurance behaviour. Behavioural spillovers as behavioural mechanisms potentially leading to heterogeneity in behavioural change. Accounting for behavioural spillovers when designing information policies, financial and non-financial incentives, nudges, and behavioural regulation in health. Wrap-up of the course.

Seminar 10: How to practically test and measure behavioural spillovers in health applications: longitudinal lab, field, and lab-field experiments; linking behavioural experiments to longitudinal surveys; administrative records; online panels; biomarker banks, smart cards and scan data, and other big data sources.

Formative coursework: Students will be expected to produce 15 presentations in the LT.

For the formative assignment, you will work in small groups (3-4 students) to produce a presentation in which you will need to propose a design and implementation of a possible behavioural science intervention in health. The structure of the presentation will be as follows: a) Introduce the healthcare settings and institutional constraints, the health policy or management challenges, and the specific research question; b) Describe how to design and implement a behavioural science intervention to answer that question; and c) Explain which research design, which specific behavioural science principles, and which practical implementation tools will be employed.

At the end of the presentation, each of you will need to clarify your
exact contribution to the group work. This will involve specifying the aspect of the formative assignment that was under your lead. You will be expected to divide the groupwork amongst yourselves in such a way that each of you has a different task and leads the contribution to the whole groupwork in relation to that task. The expected length of the presentation is 15 minutes. You will be expected to submit the formative assignment in the last seminar of the course.

To assist you throughout the group work process and increase the effectiveness of your teamwork experience, we will provide you with resources that will make the organizational part of the group work easier. The resources will involve a teamwork checklist and guidelines for managing the groupwork process.

**Assessment:** Coursework (100%, 3000 words) in the LT.

You will be expected to write a 3,000 word report to be submitted at the end of Lent Term. The reports will need to be submitted individually and will require you to report on your own contribution to the groupwork undertaken as part of the formative assignment. More precisely, you will start by giving a brief overview of how your group tackled the four points crucial to the formative task: a) Introduce the healthcare settings and institutional constraints, the health policy or management challenges, and the specific research question; b) Describe how to design and implement a behavioural science intervention to answer that question; and c) Explain which practical implementation tool(s) will be employed; d) Discuss the behavioural mechanisms potentially leading to heterogeneity in behavioural change, and how the behavioural science intervention aims at measuring them and accounting for them; e) Discuss the contribution of the behavioural health intervention in the context of the evaluation and synthesis of the existing evidence on the effectiveness of similar behavioural interventions. Then, you will proceed by providing an in-depth exposition of your own contribution to the groupwork in relation to the part you oversaw. In the report, we will expect you to use in-text scholarly citations and provide a reference list at the end. You will be expected to submit the summative report by the end of the Lent Term.
special? This course is a tour of the philosophical underpinnings of modern science. No background in any science is needed for this course; everything you need to know will be covered.

Indicative topics include: Theory and Observation: Hume's problem of induction and Goodman's new nudge of induction; Popper's falsificationism, underdetermination of theory by evidence, the positive instance account of confirmation, Bayesianism. Laws of Nature: the regularity view of laws, laws as universals, the best systems account, instrumentalism. Explanation: the DN model of explanation, statistical explanation, causal explanation, unification. Intertheory relations: reductionism and pluralism. Realism versus Antirealism: Scientific realism and antirealism, the no miracles argument, inference to the best explanation, the pessimistic meta-induction, reductive empiricism, constructive empiricism, the natural ontological attitude, entity realism, structural realism, Kuhn and scientific revolutions. Sociological approaches to science. Social constructivism, feminism. Causation: Hume's, Mill's, Mackie's accounts of causation, counterfactual theories, probabilistic causality and manipulability accounts, transference accounts. Philosophy of a special science: Space and Time in Newton's physics.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. Formative coursework: Students will be expected to write four essays (two in MT and two in LT), submit a few short answers before each seminar, and participate in seminar discussion. Indicative reading: T S Kuhn, The Structure of Scientific Revolutions, K R Popper, Conjectures and Refutations; B van Fraassen, The Scientific Image; N Cartwright, How the Laws of Physics Lie. Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

PH404 Not available in 2018/19

Scientific Revolutions: Philosophical and Historical Issues

This information is for the 2018/19 session. Teacher responsible: Prof John Worrall

Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is not available as an outside option.

Pre-requisites: None

Course content: The course examines a number of fundamental issues in philosophy of science, as they arise from instances of important theory-changes (so-called 'scientific revolutions') in the history of science. It is therefore by no means a 'straight' course in history of science: it looks at historical episodes to test and/or illustrate philosophical theses about science and its development.

1. The Copernican revolution: the switch from the Ptolemaic geocentric view of the world to the Copernican heliocentric one was probably the greatest revolution in human thought ever. What justified the switch? Was Ptolemaic theory definately refuted by the data? Was Copernican theory simpler? Was the Church's view that Copernican theory should only be thought of as an instrument for calculating astronomical data purely theologically motivated or does it have some scientific rationale? What role was played in the eventual acceptance of the Copernican view by predictive success? Do we need to invoke social or other non-intellectual factors to explain why this 'revolution' occurred?

2. Galileo: Galileo and the telescope: are all observations 'theory-sick'? Galileo and the argument for his law of free fall: can theories be 'deduced from the phenomena'? 3. The Newtonian revolution: What was the relationship between Newton's theory and Kepler's and Galileo's laws? What does this tell us about theory-change in general?

4. The chemical revolution: What were Priestley and Lavoisier's experiments, and what exactly lead scientists to supplant phlogiston by oxygen? What does this tell us about theory change in general? In particular, in what sense was the replacement of phlogiston by oxygen rational?

5. 19th Century revolutions in Optics: the switches from the corpuscular theory to the wave theory of light and from the wave theory to the electromagnetic theory. What do these cases of theory-change tell us about the twin theses of scientific rationality and scientific realism?

6. The Darwinian Revolution: This revolution certainly ranks alongside the Copernican one in terms of its impact on man's view of herself. But debates about the scientific credentials of Darwin's theory began immediately on the publication of Darwin's work and continue to this day. Is Darwinian theory unfalsifiable (or even just one big tautology)? Can 'scientific' creationists explain everything that Darwin can? What objections were raised by Darwin's critics to particular aspects of Darwinian theory? Were these valid objections and, in so far as they were, have they now been resolved?

Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Formative coursework: Formative coursework: 2 x 1500 word essays per term.

Indicative reading: Background reading: T S Kuhn, The Structure of Scientific Revolutions; I Lakatos 'Falsification and the Methodology of Scientific Research Programmes' in his The Methodology of Scientific Research Programmes, Philosophical Papers 1; G Holton (revised by S Brush): Theories and Concepts in Physical Science; P Duhem The Aim and Structure of Physical Theory; P Kitcher Abusing Science: The Case against Creationism, K R Popper, Conjectures and Refutations; P Feyerabend Against Method. Recommended reading: The central text for the first part of the course is T S Kuhn, The Copernican Revolution, Harvard University Press. The central text on the Darwinian revolution will be P Kitcher, Abusing Science, the Case Against Creationism. MIT Press. There will be lecture slides on each topic including (i) a list of essential reading and suggestions for further reading and (ii) 'study questions' to guide your thought. Aside from the above reading for the section of the course on the Copernican revolution and the Darwinian revolution, reading for particular topics will be in the form of articles and selections from books. These will be made available electronically on Moodle. Assessment: Exam (67%, duration: 2 hours) in the summer exam period.

PH405 Philosophy of the Social Sciences

This information is for the 2018/19 session. Teacher responsible: Dr Mattia Gallioti

Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course examines philosophical problems of social science concerning the nature of social facts and social scientific theory. The first part of the course will focus on traditional questions of scientific method about the nature of understanding and the kind of knowledge the social sciences should, or can, aim for, as well as on questions of ontology pertaining to the nature of the social world and the classic dispute about 'what there is' in society. The overarching goal is to provide an intellectual geography of the philosophy of the social sciences, to which students will refer in the second part of the course when specific philosophical issues will be closely analysed and discussed. Contents to be covered in the second term will be structured around three main themes: action, rationality and intelligibility; the relationship between mind and society; the scope,
aim and prospects of critical and normative approaches to social science theory and practice.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT.

**Formative coursework:** Students will be expected to write three essays: two in Michaelmas term and one in Lent term.

**Indicative reading:** A detailed reading list will be provided at the beginning of the course. Indicative readings include: Alex Rosenberg, Philosophy of Social Science (Fifth edition); Harold Kincaid, Philosophical Foundations of the Social Sciences; Daniel Steel and Francesco Guala (eds.), The Philosophy of Social Science Reader; Michael Martin and Lee McIntyre (eds.), Readings in the Philosophy of Social Science.

**Assessment:** Exam (65%, duration: 2 hours) in the summer exam period. Essay (25%, 2000 words) in the ST.

**Presentation (10%) in the LT.**

---

**PH415**

**Philosophy and Public Policy**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Campbell Brown

This course is taught by Prof. Alex Voorhoeve (weeks 1-5 of Michaelmas Term), Prof. Michael Otsuka (weeks 6-10 of MT), Dr. Johanna Thoma (weeks 1-5 of Lent Term), and Dr Campbell Brown (weeks 6-10 of Lent Term).

**Availability:** This course is compulsory on the MSc in Philosophy and Public Policy. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science, MSc in Philosophy of the Social Sciences and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** The course offers critical reflection on the design and evaluation of public policies from the perspective of moral and political philosophy. To this end, we study a range of theories and concepts that are used in policy evaluation. We often discuss and evaluate them by focusing on specific policy proposals. The course addresses questions such as the following.

- What is a correct public measure of well-being?
- Should we distribute resources in health care to produce the most well-being overall or should we also aim to limit inequalities?
- Should people be left to bear the consequences of their free choices?
- May the government force you to buy health insurance?
- Is torture ever justified?
- Do prosperous countries have a right to close their borders to immigrants from poor countries?
- Should hate speech be protected by freedom of speech?
- Should the development of new drugs be left to private companies rewarded by patent protection?
- What is the optimal population size and what policies may the state pursue in order to achieve it?
- Should higher education be financed by student loans or general taxation?
- Should we be free to act as we choose so long as we do not harm others?
- Is killing morally worse than letting die?

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 2 essays and 1 presentation in the MT and 1 essay in the LT.

**Indicative reading:** A detailed list of readings will be available on moodle. The following is an indicative sample of readings that may be discussed in the course.

• John Stuart Mill (1859), On Liberty
• Jonathan Wolff (2011), Ethics and Public Policy: A Philosophical Inquiry

Additional readings will be available on Moodle.

Assessment: Exam (67%, duration: 2 hours) in the summer exam period.
Essay (33%, 2000 words) in the ST.

PH416 Philosophy, Morals and Politics
This information is for the 2018/19 session.
Teacher responsible: Prof Michael Otsuka LAK.3.03
The course is taught by Prof. Michael Otsuka (weeks 1-5 MT and 1-10 LT) and Dr. Campbell Brown (weeks 6-10 MT).
Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in the Social Sciences and MSc in Political Theory.
This course is available as an outside option to students on other programmes where regulations permit.

Course content: Michaelmas Term: Morals (Michael Otsuka weeks 1-5; Campbell Brown weeks 6-10)
In weeks 1-5 of MT, Michael Otsuka will discuss the following topics in normative ethics regarding the morality of harming and saving from harm: (I) Should one save the greater number from harm?, (ii) Can contractualism justify the saving of the greater number when and only when we ought to?, (iii) Should one be solely concerned with how badly off people are, or should one also care about inequality?, (iv) Does it make a moral difference that a person is less well off than she could have been? (a.k.a. ‘the non-identity problem’), (v) Why is it permissible to divert a tram so that it runs over one rather than five, whereas it is impermissible to kill a single individual in order to redistribute his vital organs to save the lives of five? (a.k.a. ‘the trolley problem’).
In weeks 6-10 of MT, Campbell Brown, will provide an introduction to metaethics. This branch of philosophy explores the fundamental nature of morality. When we contemplate ‘first-order’ moral questions – e.g., ‘Is torture always morally wrong?’ – we are often led to ‘second-order’, or metaethical, questions. Do first-order questions have objectively correct answers? If one person believes torture is always wrong, while another person denies this, must one of these people be mistaken? Can such disagreements be resolved by rational argument and scientific investigation? Or are these merely matters of opinion, where one person’s belief is not more or less ‘true’ than any other’s? Can the members of one culture legitimately criticise the moral norms of another culture? If morality is not objective, does it follow that public policy should not be based on morality?

Lent Term: Politics (Michael Otsuka all ten weeks)
Lent Term will be devoted to the topics of justice and legitimacy.
We will begin with the following questions: What does justice require? Does it demand the redistribution of income from rich to poor in order to create a more egalitarian society? We’ll discuss the answers to these question that John Rawls and Robert Nozick have provided. Rawls argues that such taxation is just, since it would be endorsed under fair conditions in which people are deprived of knowledge of whether they happen to be rich or poor, talented or unskilled. Nozick argues that redistributive taxation is unjust because on a par with forced labour. In addition, we’ll consider their answers to the following questions: When is it unjust to constrain the liberties of some in order to prevent harm to others? What sort of equality of opportunity for jobs and university places does justice require? Are people entitled to compensation for historical injustices? What are the just conditions of acquisition of unowned natural resources? In answering the last question, we will also draw on the writings of John Locke, whose related views in his Second Treatise on the legitimacy of government we will also consider, along with the Locke-inspired views of Thomas Jefferson.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. Seminars PH416 20 x one and-a-half hours (MT, LT). Students are strongly advised to attend PH214 Morality and Values lectures, 20 x one hour (MT, LT).

Formative coursework: Students will be expected to produce 3 essays in the MT and LT.

Assessment: Exam (67%, duration: 2 hours) in the summer exam period.
Essay (33%, 2000 words) in the ST.

PH418 Dissertation Seminar - Economics and Philosophy
This information is for the 2018/19 session.
Teacher responsible: Prof Richard Bradley LAK.203
Availability: This course is compulsory on the MSc in Economics and Philosophy. This course is not available as an outside option.

Course content: The course is intended to develop the ability to make philosophical arguments, to write good philosophical essays, and to present ideas effectively. It covers topics in the philosophy of economics and will serve to prepare students for research and for writing their dissertation.

Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 presentation in the MT, 1 presentation in the LT and 1 essay in the ST.

Indicative reading: Readings will be chosen by the seminar participants.

Assessment: This course is not assessed.

PH419 Set Theory and Further Logic
This information is for the 2018/19 session.
Teacher responsible: Professor David Makinson, LAK 3.03
Availability: This course is available on the MPhil/PhD in Philosophy of the Social Sciences, MSc in Economics and Philosophy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Introductory level logic to a level equivalent to a grade of at least 65 in either Logic (PH101) or Formal Methods of Philosophical Argumentation (PH419).

Course content: The aim of the course is to familiarize students of philosophy with the essentials of naive set theory and formal logic. From set theory, the course covers both ‘working’ set theory as a tool for use in formal reasoning, and ‘conceptual’ set theory of philosophical interest in its treatment of infinite sets, cardinals and
ordinals. From logic, it begins by reviewing and extending basic material on propositional and first-order logic from both semantic and axiomatic viewpoints, continues with the celebrated limiting theorems of Tarski and Godel, and ends with introductions to modal, intuitionistic and relevance logics. Throughout, a balance is sought between formal proof and intuition, as also between technical competence and conceptual reflection.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** In each term, students are required to submit solutions to two problem-sets, and write one, 1,500 word essay on a topic from a list proposed by the student and approved by the instructor.

**Indicative reading:** Textbooks: Makinson, David Sets, Logic and Maths for Computing (2nd edition 2012 Springer); Halmos, Paul Naive Set Theory (Springer reprint 2011); Sider, Theodore Logic for Philosophy (OUP 2010). Specific sections of these textbooks that are relevant to the weekly topics will be indicated on the Moodle page for the course.

Complementary reading: Cameron, Peter Sets, Logic and Categories (Springer 1999); Crossley, John What is Mathematical Logic? (Dover reprint 1991); Goble, Lou (ed) The Blackwell Guide to Philosophical Logic (Blackwell 2001). Additional material on specific topics (notable Godel's theorem, relevance logic) will be be posted on Moodle.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

---

**PH421**

**Dissertation Seminar - Philosophy and Public Policy**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Susanne Buri

**Availability:** This course is compulsory on the MSc in Philosophy and Public Policy. This course is not available as an outside option.

**Course content:** Aim: This course helps students on the MSc in Philosophy and Public Policy develop their philosophical research and writing skills. It clarifies expectations surrounding the MSc dissertation, which is an extended piece of writing that students are expected to complete over the summer. One of the course’s main aims is to help student settle for a relevant dissertation topic that they feel comfortable with.

**Teaching:** 10 hours of seminars in the MT. 20 hours of seminars in the LT.

The course starts with a five hour module on argumentative writing in philosophy (weeks 1-5). This is followed by discussions of past MSc dissertations, and short student presentations on possible research ideas (weeks 6-10). During Lent Term, students are required to present their MSc dissertations as work in progress.

**Formative coursework:** Presentation of own dissertation as work in progress

Optional draft of up to 6000 words due at the end of June

**Indicative reading:** None.

**Assessment:**

This course is not assessed.

---

**PH422**

**Dissertation Seminar - Philosophy of Social Science**

This information is for the 2018/19 session.

**Teacher responsible:** Prof. J. McKenzie Alexander, LAK 5.01

**Availability:** This course is compulsory on the MSc in Philosophy of the Social Sciences. This course is not available as an outside option.

---

**PH423**

**Not available in 2018/19**

**Scientific Method and Policy**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Katie Steele

**Availability:** This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit.

The course is also open to all LSE MSc and research students.

**Course content:** Policy decisions should be responsive to our best evidence. But what does this mean? How should we negotiate conflicting sources of evidence? And whose responsibility is it to link policy and evidence? These questions reflect the two main topics of the course.

The first topic concerns the quality, strength and relevance of the available evidence with respect to a given policy question. This is a central issue in the ‘evidence-based’ policy-and-medicine movement. Are randomised controlled trials really the gold standard? Can evidence be statistically significant without being scientifically or practically significant, and vice versa? What is the role of quantitative versus qualitative evidence in establishing causal claims? How do general causal laws bear on individual cases, and vice versa? Can some evidence be disregarded due to cultural and political biases?

The second topic concerns the roles and responsibilities of scientists, policy-makers and citizens alike in enhancing evidence-based policy making. What does it mean to say that there is a scientific consensus? Does expert knowledge of scientists constitute a threat to democratic processes? What is the ‘Precautionary Principle’ and does it provide a way forward when there is little evidence available? To what extent should individual rights be compromised to enable scientific research? What issues arise when scientists interpret and measure ethically-loaded concepts like poverty, well-being or bio-diversity? Is science a ‘public good’ and what does this mean for how it should be managed?

Examples referred to in the course are drawn from various areas of science in policy-making, including climate, conservation, international development, poverty, education, and health.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 3 essays and 1 presentation in the MT and LT.

PH425  Half Unit  
Business and Organisational Ethics

This information is for the 2018/19 session.  
Teacher responsible: Dr Susanne Burri  
Availability: This course is available on the CEMS Exchange, MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Economics and Philosophy, MSc in Management of Information Systems and Digital Innovation, MSc in Philosophy and Public Policy, MSc in Philosophy of Science, MSc in Philosophy of the Social Sciences, MSc in Risk and Finance and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.  
Course content: Some tough-minded people believe that "business ethics" is a contradiction in terms. They argue that business is like a game where winning means making as much money as possible. These tough-minded people claim that whoever thinks otherwise — whoever thinks that business is also about treating others respectfully — is either naive, or deluded, or both. What people who think in this way don't usually realise is that they are, in fact, making an argument within business ethics while they are denying that "business ethics" exists. To assert that business is a game where winning means making as much money as possible is to claim that when it comes to business, everyone should, or is at least permitted to, pay attention only to their personal gain. This statement may be correct, or it may be false. But it is definitely an ethical statement, simply because it makes claims about how people may permisibly behave. In this introductory course to business ethics, we look at different types of ethical theories, and we apply them to problems that tend to arise in business contexts. The primary aim of the course is not to present you with solutions or dogmatic guidance, but to enable you to think critically, so that towards the end of the course, you will no longer be satisfied with simple answers to difficult problems. Participating in this course will help you sharpen your analytical skills. You will also become more experienced at expressing your thoughts clearly and concisely, both in writing and in discussion.  
Topics discussed in the context of this course include:  
• What are the moral responsibilities of managers? Is Milton Friedman correct that the main purpose of business is to increase profits?  
• What, if anything, is wrong with exploitation? If sweatshop workers voluntarily choose to work under bad conditions because it is their best shot at having a decent life, isn't it wrong to outlaw sweatshop labour and rob the workers of this opportunity?  
• If you want to live a morally good life, what makes your career a success? Is William MacAskill right that you should consider working for a hedge fund, and then give a large part of your earnings away to charities?  
• Do employers have a duty to promote employee happiness? According to the ancient Greek philosopher Aristotle, happiness is the ultimate goal of all human beings. But is everyone responsible for their own happiness, or are employers required to make their employees happy as well?  
• To what extent are the large pay packages that CEOs receive justified? What makes a wage fair? Required readings amount to about two to three papers per week.  
Teaching: 10 hours of lectures and 15 hours of seminars in the LT.  
Formative coursework: One essay of 2000 words.  
Assessment: Exam (67%, duration: 2 hours) in the summer exam period.  
Essay (33%, 2000 words) in the ST.

PH427  Half Unit  
Genes, Brains and Society

This information is for the 2018/19 session.  
Teacher responsible: Dr Jonathan Birch  
Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit.  
Pre-requisites: None.  
Course content: This course examines, from a philosophical perspective, the ways in which recent developments in genetics and neuroscience challenge our conceptions of what we are — and what we could become. Topics covered include:  
• Human nature: Does the concept of 'human nature' have any biological basis? Can we distinguish between those traits which are part of 'human nature' and those which are not? Should we attempt to improve human nature by means of technologies such as gene editing?  
• Gender and the brain: Are 'sex' and 'gender' the same thing? Are gender categories natural or social? Are there robust psychological differences between men and women? If so, are they explained by genes or by culture? Is gender 'hardwired' into the brain or the product of socialization?  
• Race and the gene: Do races exist? Is there any objective biological basis for racial categorization, or are races socially constructed? Does the concept of 'race' have a legitimate role in medicine?  
• Animals and people: What is the evidence for animal sentience? What are the ethical issues surrounding the use of animals in biomedical research? If we could reduce animal suffering through gene editing, should we? If we could replace animal-based meat with artificial meat, should we?  
Right and wrong: Has neuroscience shown that morality is more a matter of emotion than reason? Can we use neuroscience to help us choose between ethical theories, or even to help us improve our own moral behaviour?  
Teaching: 10 hours of lectures and 15 hours of seminars in the LT. Lectures: Weeks 1 - 10. Seminars: Weeks 1 - 10.  
Formative coursework: A critical analysis exercise (1000 words)  
Assessment: Essay (45%, 2000 words) and wiki entry (10%) in the LT.  
Essay (45%, 2000 words) in the ST.  
There is no exam for this half-unit. There will be two summative essays, each worth 45% of the final mark. 10% of the final mark will...
PH428  Half Unit
Emotion, Cognition and Behaviour: Science and Policy

This information is for the 2018/19 session.
Teacher responsible: Adrian Boutel
Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit. 

Course content: This course provides an introduction to the (i) philosophical and (ii) scientific foundations of contemporary cognitive science with a particular focus on its (iii) ethical, social and political implications. No background in either philosophy or cognitive science is required.

Topics covered include:
- Folk psychology and its discontents: We tend think of ourselves, and of others, as more-or-less rational instrumental deliberators. Choosing actions that further our goals in light of our beliefs. But is this common-sense understanding a good psychological theory? Or is it, at best, a useful heuristic for dealing with something much more complex?
- Cognition as computation: Is the brain (like) a computer? Is computation sufficient for thought? Could computers potentially do all the things our minds do?
- Dual-process theories: Do our cognitive processes come in fast and slow varieties? Is the mind partitioned into two systems? Implicit bias: Could we be unaware of our own racial, gender and other biases? If so, are we responsible for the decisions they influence? What can we do about them?
- Thought outside the body: Are thoughts wholly in the head? How might they extend beyond it? Will augmented reality paint our minds onto the world?
- Nonhuman thought: Do we share cognitive capacities with animals? What kind of value judgements are involved in answering that question? And if AI is possible, what happens to us when machines can think better than we can?

Teaching: 10 hours of lectures and 15 hours of seminars in the MT.

Assessment:
- Formative coursework: Students will be expected to produce 1 essay in the MT.
- Indicative coursework: Students will complete a few short reading questions each week to prepare for discussion in class.
- Indicative reading: All weekly readings will all be made available to students on Moodle. As an indicative reading, see Norton, John D. (2017) Einstein for Everyone.
- Assessment: Essay (50%, 1500 words) in the MT.

PH431  Half Unit
Physics and the City: From Quantum Jumps to Stock Market Crashes

This information is for the 2018/19 session.
Teacher responsible: Dr Bryan Roberts LAK 5.03
Availability: This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: There are no prerequisites for this course; it is accessible to students of all backgrounds.

Course content: One of the most surprising discoveries of the 20th century is that many things can be described by tiny atoms moving randomly about. Thinking about the physical world in this way led to the invention of modern particle physics. Thinking about the financial world in this way led to modern financial modeling. This course is about some of the philosophical issues underlying the relationship between physics and finance.

Students in this course will explore some of the most important conceptual and philosophical questions underlying physics and finance, like: How are assumptions about randomness compatible with observed forms of determinism? What does it mean to be an atom? How does the quantum world differ from the everyday world? What explains why physical models have unexpected applications in finance? To what extent do such applications help to underpin how the prices of financial instruments are set?

The course will proceed at a conceptual level that is suitable for students of all backgrounds.
Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 

Formative coursework: Students will be expected to produce 1 essay in the LT. 

In addition to the formative essay due mid-term, students must complete 2-4 short weekly reading questions to prepare for discussion in class. 

Indicative reading: Weekly essential readings will be provided on Moodle, selected individually from various book chapters and journal articles. Some indicative readings include: 

- Malkin, Burton G. A random walk down Wallstreet, excerpts. 
- Norton, John D. Einstein for Everyone, Chapters 34-37 on Brownian motion and the origins of quantum theory. 
- Weatherall, James O. The Physics of Wallstreet. 
- Derman, E. My Life as a Quant. Excerpts. 

Assessment: Essay (50%, 1500 words) in the LT. Essay (50%, 1500 words) in the ST. 

PH432 Half Unit  Not available in 2018/19 

Effective Philanthropy: Ethics and Evidence 

This information is for the 2018/19 session. 

Teacher responsible: Prof Luc Bovens and Mr Stephan Chambers. Professor Bovens will deliver the weekly lectures and the seminars based on lecture material, Stephen Chambers, Marshall Institute Director, will arrange and chair the bi-weekly discussion with leaders in philanthropy. 

Availability: This course is available on the MSc in Economics and Philosophy, MSc in International Development and Humanitarian Emergencies, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option to students on other programmes where regulations permit. 

Pre-requisites: None. 

Course content: The course will address key questions in philosophy and social science concerning philanthropy, including: 

- Which motives actually drive philanthropy and which motives should drive it? 
- What is the nature and extent of our moral obligations to philanthropy? 
- Is the proper aim of philanthropy to ‘do the most good’? 
- How, if at all, should people’s rights and the risks of causing harm constrain the pursuit of the good? 
- What are a charitable organisation’s duties of accountability towards its stakeholders, that is, the donors, the recipients and its employees? 
- Do we need Randomised Controlled Trials as evidence for the efficacy of philanthropic interventions? 
- Which career and personal choices should one make in order to further philanthropic aims? 
- Which moral principles govern the relationship between the state and private philanthropy? Between corporations and charities? 
- What is the role of foundations in support for the arts? 
- How should the recipients of aid be represented in media campaigns of charities addressing global poverty? 
- What behavioural techniques can be invoked to increase charitable giving and are these techniques respectful of the freedom and autonomy of the targeted donors? 

Learning aims: 

- Students will learn about key contemporary debates in the ethics of philanthropy through critical engagement with the philosophical literature. 
- Students will learn to employ both social scientific research and normative (ethical and methodological) reasoning to assess philanthropic organisations. 
- Students will develop independent research skills. In particular, they will learn how to search for relevant social scientific data and cases. 
- Students will develop skills in independent and original philosophical questioning and argumentation. In particular, they will be encouraged to set their own research question and develop independent and original perspectives on existing philosophical theories. 
- Students will learn team research for a joint summative research presentation. 
- bi-weekly seminars 

Teaching: 10 hours of lectures, 5 hours of seminars and 10 hours of seminars in the MT. 

1 hour lecture per week (× 10), fortnightly 1 hour additional ‘philanthropy in practice’ guest lecture and seminar with leading figures in philanthropy organised by the Marshall Institute; seminars: 1 hour per week (maximum of 15 per seminar). 

Formative coursework: Students will be expected to produce 1 essay in the MT. 

This formative essay has a word limit of 2000 words. 

PH445
Dissertation Seminar - Philosophy of Science

This information is for the 2018/19 session.

**Teacher responsible:** Prof Roman Frigg

**Availability:** This course is compulsory on the MSc in Philosophy of Science. This course is not available as an outside option.

**Course content:** The course is intended to develop the ability to construct sharp analytic philosophical arguments and to write structured philosophical essays. It will help students to choose the topic of their dissertation, help with how to go about researching the topic and how to write the dissertation (by presentation and criticism of preliminary drafts). The course starts with reviewing the structure and content of an MSc dissertation in Philosophy, and the grading scheme used for marking dissertations. This is followed by presentations by students on topics intended as possible topics of their dissertations. The presentations will be extensively discussed in the seminar by fellow students and in subsequent private meetings with the seminar leader. In Lent Term each student will read two former MSc dissertations with topics close to the interest of the student, and each student will report in the seminar on the merits and weaknesses of the selected works, trying to understand why the chosen dissertations received the marks they did. In the final part of the seminar students will again give presentations on the progress of their research.

**Teaching:** 10 hours of seminars in the MT. 20 hours of seminars in the LT.

**Formative coursework:** A number of assignments - at least one per term - whose completion will aid the research into and writing of the dissertation will be set.

**Assessment:**
- The course is not assessed.

PH456
Rationality and Choice

This information is for the 2018/19 session.

**Teacher responsible:** Prof Richard Bradley

**Availability:** This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available as an outside option where regulations permit.

**Course content:** The course examines the theory of rationality and rational decision making. It is in two parts (i) Probability and Decision: Probabilistic thinking, different interpretations of probability, decision making under risk, ignorance and uncertainty, the measurement of belief and desire, paradoxes of expected utility theory. (ii) Social Choice: May's theorem and arguments for majority rule; Arrow's Theorem, the Gibbard-Satterthwaite theorem; interpersonal comparability and Utilitarianism; the theory of judgement aggregation.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 15 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students will submit a piece of written work each term and/or complete a number of exercises.

**Assessment:**
- Exam (100%, duration: 3 hours) in the summer exam period.

PH458
Half Unit
Evidence and Policy

This information is for the 2018/19 session.

**Teacher responsible:** Dr Lam Kofi Bright

**Availability:** This course is compulsory on the MPhil/PhD in Philosophy of the Social Sciences. This course is available on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is available with permission as an outside option to students on other programmes where regulations permit.

Although the emphasis throughout will be on ideas rather than formal techniques and although all the ideas will be explained simply and intuitively, some of the evidence relevant for policy is evidence about probabilities and so the course will involve issues about the correct interpretation of probability and statistics. Although no detailed formal manipulations will be required, students will need to feel happy thinking about the intuitive ideas underlying probability and statistics.

**Course content:** Good policy decisions - whether concerning climate, conservation, international development, poverty, education, medicine, or health - require rational deliberation over whether the proposed policy will (or is likely to) bring about the intended outcome. For instance, we might wonder if lowering CO2 emissions will reduce global warming? Or whether smaller class sizes enhance scholastic achievement? The obvious suggestion is that answers to such questions are the result of rational deliberation just in case they are based on good evidence and appropriate reasoning. But what counts as good evidence and appropriate reasoning? And what happens when different kinds of evidence pull in opposite directions? Are certain types of evidence more telling than others? And if so, why? Does evidence that the policy works in one country mean that we should have confidence that it will work in another country? Can the requirements of democracy conflict with respect for expertise? Do the competing value judgements that are at stake in our political or social decisions make a difference to the forms of reasoning that is appropriate? These are some of the central issues addressed in the course. In this course, you can learn how to be ‘evidence-savvy’, how to ask the right questions about evidence and reasoning as well as how to think about risk-assessment and its relation to policy.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Assessment:**
- Exam (67%, duration: 2 hours) in the summer exam period.

Essay (33%, 2000 words) in January.
PH499
Dissertation
This information is for the 2018/19 session.
Teacher responsible: Dr Susanne Burri, Prof Richard Bradley, Prof Miklos Redei and Dr Campbell Brown
Availability: This course is compulsory on the MSc in Economics and Philosophy, MSc in Philosophy and Public Policy, MSc in Philosophy of Science and MSc in Philosophy of the Social Sciences. This course is not available as an outside option.
Course content: Students are required to write a 10,000-word dissertation (7,000 for MSc Economics and Philosophy) on a topic within the field covered by their course of study and approved by the Department of Philosophy, Logic and Scientific Method.
Assessment: Dissertation (100%, 10000 words) post-summer term.
The course is assessed 100% by Dissertation. Dissertations must be submitted on a specified date in late August in the academic year registered. (Part-time students are required to submit their dissertations in the August of their second year of part-time registration). All details are given in the Departmental course booklet.

PP408
Introduction to Quantitative Methods for the MPA Programme
This information is for the 2018/19 session.
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is not available as an outside option.
Also available to other MPhil/PhD students with the agreement of the course tutor.
Course content: An introduction to basic mathematical and statistical concepts for use in MPA courses in economics and quantitative approaches. The course covers the following topics: Statistics: Discrete and continuous random variables, jointly distributed random variables, the Normal distribution, sampling and the Central Limit Theorem, properties of estimators, introduction to hypothesis testing. Mathematics: Linear functions, quadratic, logarithmic and exponential functions, the derivative of a function and rules of differentiation, unconstrained optimization with one variable, functions of several variables and their differentiation, unconstrained optimization with several variables, constrained optimization.
Teaching: The course runs over 8 days, during the two weeks prior to the start of the Michaelmas Term. In total, students will attend ten lectures and six classes during the two weeks of the course.
Indicative reading: Notes covering the course material will be made available at the beginning of the course. Students are strongly encouraged to read Charles Whelan’s ‘Naked Statistics’ prior to the start of the course. It provides a readable and accessible background to the statistics portion of the course.
Two widely used introductory statistics books that can be used as background reading for the statistics part are Newbold, Carlson and Thorne ‘Statistics for Business and Economics’ (6th edition) and Wonnacott and Wonnacott ‘Introductory Statistics for Business and Economics’ (4th edition). However, there are also many other introductory statistics textbooks that cover the same material.
Two widely used introductory mathematics books that can be used as a background reading for the mathematics part are Ian Jacques’ ‘Mathematics for Economics and Business’ (5th edition) and Wisniewski’s ‘Introductory Mathematical Methods in Economics’ (2nd edition). Also in this case there are a large number of excellent alternative textbooks that cover the same material. Those who want a more advanced treatment of the same material can use Simon and Blume’s ‘Mathematics for Economists’, but this treatment is more formal than what we require for this course. We do not recommend buying a new textbook for this course, if you already own a textbook that covers similar material.
Assessment: In class assessment (100%) in September. The course will be assessed with a one hour in-class assessment at the end of the second week of teaching. The assessment result does not count towards the MPA final degree, but can be used by students to identify their key areas for future learning. All students are expected to take the assessment.

PP410 Half Unit
Public Economics for Public Policy
This information is for the 2018/19 session.
Teacher responsible: Dr Daniel Reck
Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have taken PP440 (formerly EC440) Macro and Microeconomics (for Public Policy) or an equivalent course.
Course content: This is a course in theoretical and applied public economics using intermediate economic theory. Topics include issues of equity and efficiency and alternative theories of the role of the state. Models of public goods and externalities, including environmental policy. Who really pays taxes: issues of tax incidence and tax evasion. Income inequality, poverty alleviation and the role of welfare programmes in theory and in practice. Health and education policy. The effects of taxes and transfers on labour supply and migration; The optimal taxation of commodities and incomes. Current topics in public finance. The main institutional references will be to the UK and the US, but some attention will also be given to broader international experience.
Teaching: 20 hours of lectures and 10 hours of seminars in the LT.
Formative coursework: Students will be expected to produce 1 presentation in the LT.
On the structure of taxation in the UK, see IFS (2011) A Survey of the UK Tax System, Briefing Note no. 9 (http://www.ifs.org.uk/bns/bn09.pdf) and the HM Revenue and Customs website, (http://www.hmrc.gov.uk). The Institute for Fiscal Studies is an independent policy research institute and its website (http://www.ifs.org.uk) has
a wide range of useful publications. The HMRC website includes information on the tax structure and statistics on tax payments (by income group, by type of tax, etc.) and overall revenues raised. The UK Treasury website (http://www.hm-treasury.gov.uk/) provides a range of documents on economic policies and the public finances, including the annual publication, Financial Statement and Budget Report (the ‘Red Book’), published each year on Budget Day. For comparative international fiscal data, information and analysis, useful sources include the International Monetary Fund, IMF (http://www.imf.org/), the World Bank (http://www.worldbank.org/) and the Organisation for Economic Cooperation and Development, OECD (http://www.oecd.org).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

---

PP418  Half Unit
Globalisation and Economic Policy

This information is for the 2018/19 session.

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: The expectation is that students will have previously taken PP440 (formerly EC440) and PP455 (formerly EC455) or other equivalent courses. Students that have not taken PP440 (or the former EC440) and PP455 (or the former EC455) will require permission from the course lecturer to attend the course.

Course content: Over the past fifty years the global economy has become increasingly interconnected. This course studies the policy implications of globalisation. The course considers both theoretical and empirical analyses of the causes and consequences of increasing international economic integration focusing particularly on the challenges and opportunities that globalisation creates for policy makers. Key areas covered include: international trade, capital flows, migration, technology diffusion and the relationship between globalisation and national sovereignty. The course builds on the knowledge developed in PP440 (formerly EC440) and PP455 (formerly EC455).

Teaching: 20 hours of lectures and 10 hours of seminars in the L T.

Formative coursework: The formative coursework will comprise a graded problem set. The formative coursework will take place during the first half of term.

Indicative reading: There is no textbook for the course and many of the key readings are journal articles. James Stock and Mark Watson “Introduction to Econometrics” remains a useful reference particularly for the material at the beginning of the course. A very good source for background reading is Joshua Angrist and Jörn-Stepfen Pischke “Mastering ‘Metrics: The Path from Cause to Effect”. A full reading list will be distributed at the beginning of the course.

Assessment: Exam (75%, duration: 2 hours) in the January exam period.

Project (25%, 2000 words) in the MT.

---

PP419  Half Unit
Methods of Economic Policy Analysis

This information is for the 2018/19 session.

Teacher responsible: Professor Daniel Sturm

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: The expectation is that students will have previously taken PP440 (formerly EC440) and PP455 (formerly EC455) or other equivalent courses. Students that have not taken PP440 (or the former EC440) and PP455 (or the former EC455) will require permission from the course lecturer to attend the course.

Course content: This course provides an advanced treatment of the empirical methods that are used to evaluate the effectiveness of public policies. The course builds closely on the course Quantitative Approaches and Policy Analysis (PP455) and also Micro and Macroeconomics for Public Policy (PP440). Topics covered include the problem of causality, the theory and practice of randomised experiments, difference-in-differences, synthetic controls, regression discontinuity, robust and clustered standard errors, and calibration.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: The formative coursework will comprise a graded problem set.

Indicative reading: There is no single textbook for the course and many of the key readings are journal articles. James Stock and Mark Watson “Introduction to Econometrics” remains a useful reference particularly for the material at the beginning of the course. A very good source for background reading is Joshua Angrist and Jörn-Stepfen Pischke “Mastering ‘Metrics: The Path from Cause to Effect”. A full reading list will be distributed at the beginning of the course.

Assessment: Exam (75%, duration: 2 hours) in the January exam period.

Project (25%, 2000 words) in the MT.

---

PP440  Micro and Macro Economics (for Public Policy)

This information is for the 2018/19 session.

Teacher responsible: Dr Ethan Ilzetzki and Professor Daniel Sturm

Availability: This course is compulsory on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course is an introductory graduate course providing an economics background suitable for high-level public policy-making. The emphasis is on acquiring sound models and methods suitable for appraising policy-making issues in a wide variety of contexts. The first term (MT) covers microeconomics and the second term (LT) covers macroeconomics.

MT Microeconomics: demand and supply in competitive markets: consumer optimisation and demand for goods: firms, optimisation and the supply of goods; market power, externalities
Political Economy of Development I

This information is for the 2018/19 session.
Teacher responsible: Dr Lloyd Gruber CON.6.03
Availability: This course is compulsory on the MPA in International Development. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Development Studies and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This half-unit MT course explores why governments and organisations pursue the development policies they do. Whenever experts get together to debate development policy, attention usually focuses on what all the relevant actors should be doing. Which policies should the leaders of developing countries be adopting (or discarding) to stimulate growth and reduce poverty? What new trade or aid strategies should policymakers in the industrialised world be implementing to help poorer countries develop? What should world leaders be doing to address climate change? In practice, however, people in positions of power do not always pursue the policy agendas that well-intentioned development experts say they should. Rather than let this be a source of frustration, students who take this course will come away with a deeper understanding of the political incentives that drive development forward, or sometimes backwards, in the real world. Attention will focus on the political pressures that motivate and constrain development policymakers at all levels of government - local, national and global - and across all sectors of the economy - public, private and non-profit. Students will be exposed to a wide variety of political economy concepts along the way. There will also be opportunities for students to apply these concepts to concrete cases of development management and mis-management. Why do the governments of some developing countries take good care of poor rural families and their children, for example, while other governments privilege urban elites? Why have inclusive democratic institutions taken root in some developing countries but not in others? If you are curious about these questions distributed in week 2. These memos will be handed back - with comments - shortly thereafter.

Indicative reading:
1. Paul Collier, The Bottom Billion: Why the Poorest Countries are Failing and What Can Be Done About It (Oxford, 2007)

Assessment: Presentation (15%) and policy memo (15%) in the MT.
Other (70%) in the LT.
All students will be required to take part in a Development Policy Application (DPA) project stretching over several weeks of the course. A specific – and current – issue of major importance to developing countries will be introduced in the first week of this exercise. Each student will then be asked to prepare an individually-authored policy memo on the topic. This memo will be worth 15% of the overall course mark.

In the second part of the exercise, students will be randomly assigned into small groups and begin preparing a jointly-delivered oral presentation outlining and defending their group’s preferred policy. These presentations will take place towards the end of the term and will count for a further 15% of the overall course mark. The ‘other’ 70% will be a final take-home timed assessment administered via Moodle on a nominated day during week 9 of Lent Term. Students will have a 12-hour window (from 09.00-21.00 GMT) within which to access the assessment questions and complete the assessment. Once they have logged into Moodle and downloaded the assessment questions, students will have 2 hours and 30 minutes to prepare and upload their answers. The assessment will consist of two equally-weighted essay questions, one from Part A (broad thematic questions) and one from Part B (specific topics). Both questions will encourage students to think creatively about the ideas and arguments presented in the course. No outside research will be required. This last component of the assessment will count for 70% of the overall course mark.

Political Economy of Development II

This information is for the 2018/19 session.
Teacher responsible: Dr Tasha Fairfield
Availability: This course is compulsory on the MPA in International Development. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in...
Social Impact, MSc in Development Studies and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course examines key issues in comparative political economy, with an emphasis on developing countries, and the politics of policymaking. Who get the policies they want, when, and how? Throughout, we will pay close attention to actors, interests, institutions, and power. Understanding the politics of policymaking is critical for development specialists and policy practitioners. Policies recommended by technical experts are not always politically feasible, and progress may require implementing second-best solutions. Moreover, approaches that work in one case may not work in another. Drawing on real-world examples from a range of policy domains including taxation and social spending, we will discuss strategies for enacting pro-development reforms that might otherwise be politically infeasible. The course will also introduce students to key issues in conceptualization and measurement by examining indices and indicators of governance and democracy that are widely used by development practitioners. Note: the subject matter complements material covered in PP448 and can be taken either in conjunction with, or separately from that course. Upon completing the course, students can expect to (1) be able to critically engage with the key debates in comparative politics and development, (2) be able to identify political constraints that may impede implementation of pro-development policies, (3) apply political economy theories to explain ‘real world’ cases of development policy successes and failures, and (4) design strategies that can help make pro-development policies more politically feasible in a given country context.

**Teaching:** 22 hours of lectures and 20 hours of seminars in the LT.

**Formative coursework:** Students will receive feedback on formative assignments in seminars that will prepare them for the assessed DPA at the end of the term. The two-hour revision session in LT will prepare students for the assessed exam.

**Indicative reading:**
1. Jeffrey Winters, 2013, ‘Oligarchy and Democracy in Indonesia’, Indonesia 96, pp.11-33

**Assessment:** Exam (60%, duration: 2 hours, reading time: 15 minutes) in the summer exam period. Other (40%) in the LT.

All students will be required to take part in a Development Policy Application (DPA) project stretching over several weeks of the course. An issue of major importance to developing countries will be introduced early in the term. Students will be assigned into small groups, and each group will pick a country of its choice for the project. The DPA will count for 40% of the course mark. A cumulative, 2-hour final exam will be given in the Summer Term. The exam will count for 60% of the course mark.

---

**PP452 Half Unit**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Nava Ashraf

**Availability:** This course is compulsory on the MPA in Social Impact. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy and Master of Public Administration. This course is not available as an outside option.

**Pre-requisites:** A rigorous understanding of statistics, economics and econometrics is important for this course, in order to be able to absorb the economics journal articles and methods covered. Students will be required to have achieved marks of 55 or higher in EC440 and EC455 to be eligible for the course. Students with marks of 50-54 in EC440 and EC455 will be considered on a case by case basis.

**Course content:** This course delivers insights from cutting edge research in psychology and economics, and asks students to use these insights to design solutions to significant social challenges. Students learn how to diagnose, design, deliver, and rigorously test products and services using the principles of behavioural economics and the methods of field experimentation. The course begins by describing the principle of coproduction: outcomes in health, education and similar fields are not simply given to end-users, but are produced by end-users themselves, interacting with supply-side factors. Drawing on the insights from behavioural economics and using qualitative methods, students learn how to diagnose end-user needs, preferences and behaviour. The course then explores how the psychological aspects of behaviour can be combined with the tools and structure of economics to induce behaviour change and improve outcomes, including the challenge of setting prices and designing incentives. Throughout the course there is emphasis upon the practical importance of effective measurement in the context of the social sector, where traditional market feedback mechanisms are typically absent and where mission-driven leaders’ evaluation of organisational impact can itself be subject to cognitive bias and distortion. Appropriate measurement in turn informs improvements in diagnosis and design. The course concludes by exploring policy impact and how research can be translated into policy action. Real world case studies are used at every stage of the course.

This course is relevant to all those who wish to improve the effectiveness of social interventions and programmes across a range of diverse fields, whether such interventions are administered through the state or, increasingly, through private philanthropy and social entrepreneurship. The course tutor will be Professor of Economics and Director of Research at the LSE Marshall Institute.

**Teaching:** 30 hours of workshops in the MT.

Teaching sessions will include both a Harvard Business School-style case study session and a lecture on the related research articles behind the case and discussion in 10 x 3-hour workshops in Michaelmas Term. There will also be a drop-in weekly hour-long technical support session.

**Formative coursework:** Additional exercises which will include preparation of an essay of the discussion questions for HBS-style case discussion.

**Indicative reading:** There is no single textbook for the course. For an introduction to the field of behavioural economics, students should consult Nudge: Improving Decisions About Health, Wealth, and Happiness, by Richard Thaler and Cass Sunstein (2009, Penguin) and Thinking, Fast and Slow, by Daniel Kahneman (2012, Penguin). We will also be reading several scientific articles from top-tier economics journals. A full reading list with the readings for each topic will be made available at the beginning of the course, and a draft course syllabus is available.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 10 minutes) in the summer exam period.
PP454

Development Economics

This information is for the 2018/19 session.

Teacher responsible: Prof Robin Burgess 32L.3.03 and Dr Gharad Bryan 32L.3.10

Availability: This course is compulsory on the MPA in International Development. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is not available as an outside option. Students may not take this course and EC428 Development and Growth.

Pre-requisites: The expectation is that students will have previously taken EC440 and EC455 or other equivalent courses. Students who have not taken EC440 and EC455 will require permission from the course lecturer to attend the course.

Course content: In this course, students will apply their understanding of economics and econometrics to the task of policy making in developing countries. The focus is on acquiring the necessary theoretical and empirical skills to engage in the rigorous analysis of public policies in developing countries. Topics at the forefront of development economics will be covered. These include political economy, trade liberalization, growth, access to finance, technology adoption, education, health, infrastructure, property rights, land reform, gender, environment, mass media and political accountability. The emphasis will be on combining theory and data to evaluate the effectiveness of policies in these different areas.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students to complete weekly problem sets based on course readings with one of these exercises being marked in a given term.

Indicative reading: A reading list will be distributed at the start of the course.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

PP455

Quantitative Approaches and Policy Analysis

This information is for the 2018/19 session.

Teacher responsible: Dr Jeremiah Dittmar and Prof Mark Schankerman

Availability: This course is compulsory on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo). This course is not available as an outside option.

Course content: The course introduces students to the quantitative evaluation of public policies with the help of regression based evaluation methods and cost-benefit analysis. The course introduces students to basic multiple regression analysis including hypothesis testing, modelling of non-linear relationships, and dummy variables. From there, the course covers a number of regression based evaluation methods to assess the casual effectiveness of policy interventions. These include the use of randomized experiments, natural or quasi-experiments, panel data, difference-in-differences estimation, instrumental variables, matching and regression discontinuity designs. The final part of the course provides an overview of cost-benefit valuation methods

PP478

Political Science for Public Policy

This information is for the 2018/19 session.

Teacher responsible: Prof Simon Hix

Availability: This course is compulsory on the MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA Dual Degree (LSE and Tokyo) and MPhil/PhD in Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: In this course we develop tools to understand and analyse important political phenomena including political behaviour (such as voting behaviour, elections and lobbying), political institutions (such as electoral systems, parliamentary and presidential government and central banks) and political outcomes (such as economic policies, development aid and ethnic conflict).

The course combines a review of the main empirical regularities across time and across country in each of these areas, with an introduction to key theoretical arguments about how to understand how actors interact and how institutions shape strategic behaviour, and an introduction to the latest empirical (and causal) estimation techniques for testing the key theoretical ideas.

Teaching: 20 hours of lectures and 16 hours and 30 minutes of seminars in the MT. 20 hours of lectures and 16 hours and 30 minutes of seminars in the LT. 2 hours of lectures in the ST.

Formative coursework: Formative work includes, for example, each term a two-page reading response and a problem set that reviews core concepts in empirical and theoretical models of political economy.

Indicative reading: Analysing Politics by Shepsle and Bonchek (W.W. Norton, 2010, 2nd edition) provides an excellent starting point and can be used as the main reference for many topics. A full reading list will be distributed at the beginning of the course.

Assessment: Exam (60%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Essay (20%, 2000 words).

Other (20%) in the MT and LT.

The 20% ‘other’ assessment are application exercises carried out in groups.
PP4B3

MPA Capstone Project

This information is for the 2018/19 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03

Availability: This course is compulsory on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is not available as an outside option.

Course content: Students will undertake a group project (in teams usually of 3 to 6 people) relating to a public policy problem faced by an external organisation. Typical clients include public sector bodies, companies operating in the public management or public policy sector, international organisations or think tanks and NGOs. The group will have from October to March to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem.

Teaching: 4 hours and 30 minutes of seminars in the MT. Teaching comprises three 1.5 hour Capstone seminars in the MT. These seminars provide guidance on planning, structuring and presenting the Capstone report and the usage of research methods. Students are asked to participate in the Capstone Professional Development exercises designed to support effective and fair group work. Each Capstone group will be allocated a supervisor, who will provide overall guidance on the project’s development and assistance with client liaison. Additional guidance will be provided through drop-in surgeries based on student need relevant to the Capstone projects. Other members of staff may also advise as required.

Formative coursework: Feedback will be provided on presentations of work-in-progress during MT and LT.

Assessment: Project (100%), 15000 words) in the LT.

The project work is conducted in teams, and the assessment is based on a collective group mark for each component except in exceptional circumstances.

The group mark has three components:
1) 20% of the overall mark is assigned by the client organisation based on a group presentation and a submission of the project report.
2) 50% of the overall mark is given by two academic readers upon submission of the project report; and
3) the final 30% of the overall mark is allocated by the Capstone supervisor on the basis of the group’s performance in terms of (i) scopeing and project development (including coping with difficulties), (ii) group working and self-management as a team, and (iii) the overall output of the project (10% for each item). Additionally, each group member must complete the Capstone evaluation and feedback exercise. This will be submitted individually and separately from the report.

PP4B4

MPA Dissertation

This information is for the 2018/19 session.
Teacher responsible: Dr Babken Babajanian SAR.G.03

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Social Impact and Master of Public Administration. This course is not available as an outside option.

Course content: The aim of this course is to enable students to plan, design and conduct independent substantial research and/or analysis in an area of public policy. MPA students will write a dissertation of no more than 10,000 words on a topic of their choice to be agreed with their Academic Mentor. The dissertation must be concerned with the goal of policy improvement and, at the same time, it must contribute to a broader objective of knowledge and theory-building. The main body of the dissertation should include literature review, method of investigation, results of the analysis, discussion of findings, conclusions and theoretical and policy implications. Dissertations can utilise quantitative and/or qualitative data and draw on primary and/or secondary research.

Teaching: 4 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the LT.

Teaching comprises four seminars in the MT and LT. These seminars provide academic and practical guidance on developing a research topic and question; designing an analytical framework; structuring and presenting policy and writing policy recommendations. The student’s Academic Mentor will provide advice and guidance on this piece of work.

Assessment: Dissertation (90%, 10000 words) in the ST.

Other (10%) in the MT.

1) A 1,500 word dissertation proposal consisting of the title, abstract, research question and hypothesis, justification for research, feasibility of the dissertation topic, an explanation of sources, provisional structure and analytical framework will count for 10% of the overall dissertation mark. Students may only change their topic thereafter with the agreement of their Academic Mentor. Students will be given feedback on their proposal.

2) The full dissertation of no more than 10,000 words will account for the remaining 90% of the overall mark.
PP4E4  Half Unit  Not available in 2018/19
Analytic frameworks for policy evaluation

This information is for the 2018/19 session.
Teacher responsible: Dr Christine Cote and Prof Richard Bevan
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Priority will be given to students from the Department of Management's MSc programmes for any outside option spaces.
Pre-requisites: Students must have previously studied microeconomics.
Course content: The course will focus on concepts and cases relevant to understanding how to assess costs and benefits of policy options to enable governments to make hard choices. This entails accounting for: costs and benefits across different criteria and at different times, risk and uncertainty, and distributional effects; and designing evaluation to relate to the political process of making decisions.
The course examines three methods of evaluation: cost benefit analysis (CBA), cost effectiveness analysis (CEA), multicriteria decision analysis (MCDA). It explains the principles of each method and examines case studies to show their strengths and weaknesses. The aim is for students to learn that, for policy analysis, that the concepts of micro-economics are necessary but not sufficient by relating the issues that emerge from the case studies to major intellectual arguments of the 20th Century. These are arguments over the nature of science, positivism, power, efficiency, equity, and justice. The objective is for students to learn what characterises policy analysis that is likely to succeed or fail in enabling governments to make hard choices.
Teaching: 15 hours of lectures and 15 hours of seminars in the MT.
Formative coursework: Students will be expected to produce 2 pieces of coursework in the MT.
A presentation as a member of a seminar group in the second week of term.
A detailed essay plan on two pages with introduction, one key paragraph and conclusion written in full on the principle of using markets to assess costs and benefits and problems with this approach.
Material on cases studies including: N Stern, Why are we waiting?: The logic, urgency, and promise of tackling climate change, MIT Press, 2015.
Assessment: Essay (50%, 3000 words) in the LT. Other (20%) and other (30%) in the MT.
The essay (50%, 3000 words) is a critique of the methods used in a case study relevant to an issue in the student’s country. The other (20%) consists of four group presentations as a member of a seminar group in the weekly seminars. The other (30%) is a policy brief for a minister on a hard choice.

PP4E5  Half Unit
Innovations in the governance of public services delivery

This information is for the 2018/19 session.
Teacher responsible: Dr Simon Bastow and Professor Gwyn Bevan
Availability: This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.
Priority will be given to students from the Department of Management’s MSc programmes for any outside option spaces.
Students may find that previous study of microeconomics is helpful.
Course content: The course examines innovations in different models of governance for the delivery of public services. Governance in this sense is defined broadly as the overarching mechanisms that organise the delivery of public services, and in this course we look at variations across three key governance models in particular - hierarchy, markets and networks. We cover innovations in each of these models in recent decades, and assess their strengths and limitations. We focus on a wide range of core public services, including healthcare, education, criminal justice, public utilities, and with equal reference to developed and developing countries.
Many public sectors globally have seen a broad shift from traditional hierarchial bureaucracy towards integration of markets and networks. Markets can offer powerful mechanisms for correcting public sector failure, however governments have often struggled in recent decades with managing the new risks and problems that market failure in the public sector can bring. Many countries have experienced, and will continue to experience, extensive marketisation of public services, and we cover key innovations and their impacts. We look at the use of ‘quasi-markets’, voucher systems, full-scale privatisations, Private Finance Initiatives (PFIs) and Public-Private Partnerships (PPPps), Payment by Results (PBR) and Social Impact Bonds (SIBs), and assess their impact on public services. We also look at innovations in networked, mutual or collaborative forms of governance, particularly the relevance of new concepts and paradigms such as ‘sharing economy’, ‘reputation economy’, ‘digital economy’ and social media.
A central theme of the course is the relationship between institutions and innovative mechanisms for change. Markets and networks offer a wide range of innovative mechanisms, but their success or failure is often determined by the institutional context in which they are implemented. Looking across different models of governance, the course will consider issues around optimisation of design and integration of models, and the impact of institutional

### PP4G3 Half Unit

**Designing and Managing Change in the Public Sector**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Simon Bastow SAR G.05

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Priority will be given to students from the Department of Management’s MSc programmes for any outside option spaces.**

**Course content:** The course examines important challenges for governments and public sector organisations in being able to design and manage transformative change in public services. Two key aspects of change are considered:

- **the instrumental** capacity of government to design and implement policy and programme change in coherent, sustainable and successful ways, and
- **the adaptive** capacity of government to respond to change in their external environment, and avoid problems of obsolescence or ‘out-of-touch’ policies.

We look at this dual challenge across developed and developing country contexts, and across core areas of government policy and public services. The course is primarily about government and public sector, rather than private or third sector, however an important element is looking at the capacity of governments to coordinate with these other sectors in designing and managing transformative change.

From the outset we discuss how governments can develop coherent responses to so-called ‘wicked’ public policy and management (PPM) problems. These tend to be complex, multi-faceted and intractable problems, ones that require well-designed and complementary measures. We look at the interplay of different governance factors such as the impact of politics, bureaucracy, culture, incentives and motivations, administrative capacity, amongst others, and explore the potential for and limitations on transformative change. The course works through key aspects of holistic change: including culture, motivation and coordination, leadership, social-technical systems, resilience, and policy and organizational learning.

The course aims to provide students with key concepts and approaches to designing coherent action in response to complex public policy problems. We look at these challenges primarily from the perspective of the senior government or public sector official, working at the interface of high politics, policy making, and operational delivery. The course will be useful for students who are interested in working in government, or for those who work in other ‘social impact’ roles that involve working closely with government and public authorities.

The syllabus draws on concepts from public policy, political science, institutional economics, and organizational and system design, and organizational behaviour. We cover a wide range of sectors and policy areas, particularly core areas of public sector services such as criminal justice, health, welfare, education and defence. The course emphasises dialogue between concepts and cases, and aims for strong applied and practical relevance.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT.

Students on this course will have a reading week during Week 6.

**Formative coursework:** Students will receive feedback on class seminar presentations in the MT. Students will have the option to submit a formative essay by the end of the MT.

Assessment: Essay (70%, 4000 words) in the LT. Presentation (10%) and other (20%) in the MT.

An essay of 4000 words in response to one of the set essay questions – to be submitted by end of Week 6 in the Lent Term (70%)

An individual presentation in seminar on a set topic (four slides max.) to be submitted by week 1 in the Lent Term (10%)

Written analysis of 1,500 words to accompany the slides to be submitted by week 1 in the Lent Term (20%)

PP4J2 Half Unit
New Institutions of Public Policy: Strategic Philanthropy, Impact Investment and Social Enterprise

This information is for the 2018/19 session.
Teacher responsible: Dr Jonathan Roberts Marshall Institute, 5 Lincoln’s Inn Fields
Other teachers: Professor Julian Le Grand and Professor Stephan Chambers, Marshall Institute

Availability: This course is compulsory on the MPA in Social Impact. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy and Master of Public Administration. This course is not available as an outside option.

The course is available in the first instance to students taking the MPA in Social Impact. It is also open to students taking other MPA programmes. This course is only available to MPA students in Year 2 of their programme. The course is a collaboration between the Marshall Institute and the School of Public Policy.

Course content: Private actions for public benefit - whether called philanthropy, charity, associationalism, social entrepreneurship or social business - have long been significant within societies. This arena of private action is currently experiencing both resurgence and disruption. This course takes a policy-oriented approach towards these new dynamics of private social action. It explores innovative mechanisms of financing, organisation and delivery, including impact investing, new coalitions for social impact (for instance, social impact bonds), venture philanthropy and social enterprise. A central focus is the opportunity created by bringing together market and business mechanisms and the social – but also the consequent challenge and complexity of achieving social impact through organisations, hybrid funding streams and hybrid mechanisms of coordination. Cross-cutting themes are how to design incentive structures which respond to the complex web of motivations of actors in this field, and the organisational tension inherent in responding to double or triple bottom lines. Using analytical frameworks drawn from economics, sociology and political economy, the course will critically evaluate the challenges and advantages of these emerging institutions and mechanisms. Examples of the types of question that we will investigate include: what is social enterprise? How can social enterprises support social innovation and impact? Can we combine financial return, social impact and environmental sustainability? Why should an organisation be a non-profit, for-profit or other ownership form? How can the state, market and private altruistic action combine to achieve social impact? How can we design organisations and structures which nurture and capitalise on values and altruism? What are the differences between the culture, practice and motivations of state, commercial and charitable organisations, and what are the consequent challenges of implementation and management in hybrid organisations? The answers to these questions are contested and the course seeks to give participants the critical skills to make their own determination.

Teaching: 15 hours of lectures, 15 hours of seminars and 6 hours of workshops in the LT.

The course comprises of one 90 minute lecture and one 90 minute seminar each week. In addition there will be four 90 minute ‘private action in practice’ workshops organised by the Marshall Institute.

Formative coursework: Students will be expected to produce 1 essay and 1 presentation in the LT.

Formative assessment will consist of one 2,000 word essay, submitted in the middle of the LT. Students will also receive formative feedback on seminar presentations.

Indicative reading:

Assessment: Coursework (30%, 2000 words) and essay (70%, 3000 words) in April.

PP4J4 Half Unit
Designing and Implementing Evidence-Informed Policies and Programmes

This information is for the 2018/19 session.
Teacher responsible: Dr Babken Babajanian SAR G.03

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is available with permission as an outside option to students on
other programmes where regulations permit. This course is capped at 30 students.

Course content: The aim of this half-unit course is to help students develop knowledge, critical analysis and skills necessary for evidence-informed policy making. It will enable students to assess, analyse, interpret and use evidence to design relevant and effective interventions. The course particularly emphasises the need to recognise the complexity of economic, social, institutional and political context and incorporate contextual analysis of social relations, gender inequalities, interests and incentives of societal actors in policy design and implementation arrangements. The course will equip students with the knowledge and skills to critically appraise how government agencies, international organisations and other actors generate and utilise evidence to design and implement policies and programmes.

The course covers evidence generation and use during three main stages of the policy cycle: policy design, implementation, and monitoring and evaluation. It introduces theory-based approaches and examines the use of social, gender, governance and political-economy analysis to inform policy design and implementation. It discusses the role of monitoring and evaluation in producing nuanced policy-relevant evidence.

The course draws on policies and programmes in the field of social policy and social development in a global context. In seminars, students will review and critically assess policy reports and research studies of actual policies and programmes. They will scrutinise different assessment tools developed and used by government agencies and international organisations (e.g. DFID, World Bank) for gathering policy relevant evidence.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT.
10 x 1.5 hour lectures (MT weeks 1-10)
10 x 1.5 seminars (MT weeks 2-11)

Formative coursework: Students will be expected to produce 1 presentation and 1 other piece of coursework in the MT. Students will work in groups to deliver seminar presentations on assigned topics and contribute to seminar discussions. As well as enabling students to practise essential team working and presentation skills, this exercise is an important preparation for the final summative assessment. It will enable students to practise their ability to analyse and evaluate policies and programmes, prepare and present critiques, and use literature to frame and contextualise analysis.

Students will write a short individually-authored policy report (1,000 words, MT week 7) in preparation for the summative assessment. This assignment will develop students' ability to design and present analytical frameworks and to appraise policies and programmes. Students will receive personalised feedback and suggestions for future improvement.

Assessment: Essay (30%, 1,500 words) in the MT.

Students will be required to complete two assignments designed to support the main learning outcomes of the course:

1. A three-part individually authored essay (30%), in which students answer pre-assigned questions, drawing on literature and course material (500 words for each answer, maximum 1,500 words in total, MT week 11). This assessment will support student learning of the main debates, issues and critiques and will help consolidate their disciplinary and methodological knowledge.

2. An individually-authored policy report (70%) drawing on policy documents, evaluation reports and relevant literature (maximum 3,000 words, LT week 1).

This assessment will develop students’ ability to appraise policies and programmes; evaluate, analyse, interpret and use evidence; design analytical frameworks; prepare and present written critiques; and write policy reports.

PP4V8 Half Unit

MPA Policy Paper

This information is for the 2018/19 session.

Teacher responsible: Dr Babken Babajanian SAR.G.03

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact and Master of Public Administration. This course is not available as an outside option.

Students may not take this course and an MPA Dissertation. This course is only available to MPA students in Year 2 of their programme.

Course content: The aim of the course is to enable students to plan, design and conduct independent analysis in an area of public policy. MPA students will write an individually-authored policy paper of no more than 6,000 words on a topic developed in consultation with their Academic Mentor. The paper will analyse a concrete policy problem in a specific setting and propose an evidence-based solution or course of amelioration. It must be addressed to a non-academic audience and should be clearly and directly written, suitable for consideration by policy-makers. The main body of the paper should include methodology, results of the analysis, discussion of different policy options, conclusions and policy recommendations. The policy paper must be accompanied by an Executive Summary. Policy papers can utilise quantitative and/or qualitative data and draw on secondary and/or primary research.

Teaching: 4 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the LT.

Teaching comprises four seminars in the MT and LT. These seminars provide academic and practical guidance on developing the policy paper topic and question; designing analytical frameworks; structuring and presenting policy analysis; and writing policy recommendations. The student’s Academic Mentor will provide advice and guidance on this piece of work.

Formative coursework: A policy paper proposal (of no more than 750 words in total) consisting of the title, abstract, research question, justification for analysis, feasibility of the topic, an explanation of sources, structure and analytical framework must be submitted in the MT. Students may only change their topic thereafter with the agreement of their Academic Mentor. Students will be given feedback on their proposal.

**Assessment:** Other (100%) in the ST.

6,000 word policy paper

---

**PPX46**

**Welfare Analysis and Measurement**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Stephen Jenkins OLD2.29 and Dr Berkay Ozcan OLD2.32

**Availability:** This course is compulsory on the MPA in Public and Social Policy. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in European Policy-Making, MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Social Impact, MSc in Inequalities and Social Science, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations), MSc in Social Policy (Research) and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.

This course has no formal pre-requisites. Because much of the empirical evidence referred to in the course is quantitative in nature, a familiarity with basic statistical concepts and basic calculus is useful but not essential.

**Course content:** This course provides an introduction to the analysis and measurement of the welfare of individuals and societies, examining concepts, measurement and data, as well as providing illustrations. The aims are to provide an understanding of the main tools used to measure and monitor individuals and social welfare, and to develop skills for assessing academic research and official statistics (as produced by national or international agencies) and for undertaking one's own analysis. The first half of the course focuses on univariate monetary measures of economic wellbeing notably 'income', and on the experience of OECD countries (especially the UK, EU, and USA), but the aim is also to place these in the context of developments based on other approaches and in other countries including middle- and low-income nations. The topics covered include measurement of inequality, poverty, and mobility; setting poverty thresholds and equivalence scales; data sources and their quality, empirical illustrations considering assessments of trends within countries, cross-national differences, and global poverty and inequality. The second half of the course broadens the perspective to consider a range of non-monetary, multidimensional, and subjective measures of welfare for individuals and societies. Examples include occupational and socio-economic status (SES), anthropometric measures, the Human Development Index and related indices of development, and measures of happiness and life satisfaction.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST. The course provides a reading week in Week 6 of Michaelmas and Lent Terms.

**Assessment:** Exam (75%, duration: 3 hours, reading time: 10 minutes) in the summer exam period.

Essay (25%, 2000 words) in the LT.

---

**SA403**

**Criminal Justice Policy**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Leonidas Cheliotis OLD 2.51

**Availability:** This course is compulsory on the MSc in Criminal Justice Policy. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be capped at 30 students with preference given to MSc Criminal Justice Policy (CJP) students in the first instance. Any additional places will be given according to student statement's submitted through LSE for You upon application. Priority after CJP students will be given to students on other Social Policy Programmes; and if there are places available, for those on the Master of Laws and Master of Laws (extended part-time study). Only after these students applications have been considered will students from elsewhere in LSE be offered a place.

**Course content:** The course provides a detailed and critical introduction to the study of criminal justice institutions, practices and participants. It begins with an introduction to the nature of crime and contemporary criminal justice policy. It then examines the main elements of modern criminal justice systems (police, courts, prisons, probation, the media, and private security). Special emphasis is given to current issues such as restorative justice and increasing rates of incarceration. The course combines up-to-date empirical work with theoretical perspectives and also emphasises the role of historical and comparative perspectives in understanding current trends.

**Teaching:** 15 hours of lectures, 13 hours and 30 minutes of seminars and 1 hour and 30 minutes of workshops in the MT. 15 hours of lectures and 15 hours of seminars in the LT. Lectures: SA403.1 20 weekly one and a half hour lectures, MT and LT. Seminars: SA403.2, 19 weekly one and a half hour seminars, MT and LT. Workshop: SA403.3, 1 session of one and a half hours in MT. There will be a reading week in Weeks 6 of MT and LT. There will be a revision session and mock exam in ST.

**Formative coursework:** Michaelmas Term – formative essay and one-to-one feedback. Summer term – mock exam (one question).

**Indicative reading:** There are two set texts for the course: M Maguire, R Morgan & R Reiner (eds) (2012), The Oxford Handbook of Criminology, 5th edn; and T Newburn (2012), Criminology, 2nd edn.

**Assessment:** Exam (75%, duration: 3 hours) in the summer exam period.

Essay (25%, 2000 words) in the ST.

---

**SA409**

**Half Unit**

**Social Security Policies**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Kitty Stewart OLD2.36

**Availability:** This course is available on the MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-
Governmental Organisations) and MSc in Social Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course analyses the purposes, design and impact of social security policies, meaning policies that protect and support household income at times when income from the labour market does not suffice. The need for social security arises both from demographic factors that affect nearly everyone during their life course – childhood, parenthood, old age – and from risk factors that will end up affecting only some – unemployment, sickness and disability. The course takes a comparative approach, examining differences in the design of social security policies across welfare regimes and drawing on examples from different countries. Students will develop an understanding of the challenges and trade-offs that arise in designing social security policies to meet multiple goals, will further their knowledge about the ways systems function in practice, and will develop the tools for assessing the structure and effectiveness of social security in any given country. The course will also consider how successfully social security systems are adapting to meeting the challenges of the twenty-first century, including an ageing population, migration, and the changing nature of employment brought about by rapid technological change.

Most of the examples in the lectures and readings relate to higher- and middle-income countries, but the course aims to be of interest and relevance to students from all countries. Students will be encouraged to further their understanding of social security in their country of origin, or another country of their choice, and to draw on this knowledge in classes.

Teaching: 12 hours and 30 minutes of lectures and 15 hours of seminars in the MT, 2 hours of seminars in the ST.

Weekly lectures will set the agenda for the week and provide students with an overview of the key issues at stake. Classes will be made up of two main components. All students will be expected to give a short presentation during the course of the term on an aspect of social security or a recent social security reform in a country they are interested in (perhaps their country of origin). In the remainder of the class, students will debate propositions related to the week’s required readings, which will often offer differing perspectives on the topic.

Formative coursework: Students will be required to write one formative essay during the course of the term, which will enable them to deepen their understanding of the course material and practice critical thinking skills in preparation for the summative essay assignment. Written feedback will be given.

Assessment: Exam (75%, duration: 2 hours) in the summer exam period.

Essay (25%, 2000 words) in the LT.

---

SA451 Social Policy Research

This information is for the 2018/19 session.

Teacher responsible: Dr Tania Burchardt

Availability: This course is compulsory on the MSc in Social Policy (Research) and MSc in Social Research Methods. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Demography/Population Studies, MPhil/PhD in Social Policy, MSc in Social Research Methods and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. The course is currently capped at 60 places. Offers of places will be made on the basis of applicants’ statements. Priority for places is given to students on Social Policy MSc programmes and to students on the MSc Inequalities and Social Science. Students from departments other than the Department of Social Policy may be accepted onto a waiting list. Places remaining available three days before the start of the course will not be held back for late applicants from Social Policy programmes but offered to students from the waiting list.

Course content: This course addresses the emergence, maintenance and dynamics of social advantage and disadvantage in different areas of life across different societies and across different social groups. It explores inequalities in income, poverty & wealth, labour market position, family resources, education, crime, and life chances, with reference to social groups defined according to their gender, class, ethnicity, citizenship and migration status, disability, and country or neighbourhood of residence. It pays specific attention to intersectional, cumulative and relational processes in the reproduction of inequalities.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.

Formative coursework: A formative essay submitted in Week 6 of the Lent Term

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

---

SA429 Half Unit

Understanding Social (Dis)advantage

This information is for the 2018/19 session.

Teacher responsible: Professor Lucinda Platt

Availability: This course is available on the MSc in Criminal Justice Policy, MSc in Inequalities and Social Science, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in Social Policy (Research).

This course is available with permission as an outside option to students on other programmes where regulations permit.

SA451 Social Policy Research

This information is for the 2018/19 session.

Teacher responsible: Dr Tania Burchardt

Availability: This course is compulsory on the MSc in Social Policy (Research) and MSc in Social Research Methods. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MPhil/PhD in Demography/Population Studies, MPhil/PhD in Social Policy, MSc in Social Research Methods and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit. The course is currently capped at 30 students. All students for whom the course is compulsory will be allocated a space. Any remaining places will be allocated on the basis of the statements provided by students on LSE for You. Priority for these additional places will be given to Social Policy students. No places will be offered until the date listed on LSE for you.

Pre-requisites: None

Course content: The course equips you with transferable research design skills, including the design of policy evaluations, and an in-depth understanding of the role of different types of research in the social policy-making process. Lectures are given by leading academics engaged in research using the methods under consideration, many of whom have achieved substantial policy impact. Students are encouraged to critically assess applications of a wide range of research methods to contemporary national and international social policy questions. Topics include: the uses and abuses of quantitative and qualitative research, mixed methods,
policy evaluation (including Randomised Controlled Trials); innovations in research; longitudinal analysis; micro-simulation techniques; systematic reviews, meta-analysis and meta-ethnographies; and small area, geographical and internationally comparative research. The relationship between research and policymaking is a theme that runs throughout the course.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the MT. 12 hours and 30 minutes of lectures, 13 hours and 30 minutes of seminars and 15 minutes of help sessions in the LT. 2 hours and 30 minutes of lectures and 15 minutes of help sessions in the ST. In the first half of the course (MT), SA451 lectures are held jointly with SA44B Researching International Social and Public Policy. The second half of the course (LT) considers more advanced topics and is SA451 only. Dedicated SA451 seminar groups are held throughout and examine social policy applications of research exemplifying the approach and the issues raised in the preceding lecture. The help sessions are one-to-one tutorial sessions with the seminar leader to discuss feedback on essays and progress on the course.

**Formative coursework:** There will be three compulsory formative pieces of coursework. In addition, there will be one optional formative assignment. These formative assignments are designed to prepare students for both the summative coursework and the exam. Written and verbal feedback will be provided.

**Assessment:** Exam (75%, duration: 3 hours) in the summer exam period.
Essay (25%, 3000 words) in the ST.
For the summative coursework essay, students will be asked to design a research project to address a specified social policy research question, and provide a justification for their proposed design.
The exam focuses on assessing students’ abilities to critique social policy research approaches. Students will be asked to answer 3 out of a choice of 9 questions based on the research approaches we have studied during the course.

---

**SA466 European and Comparative Social Policy - Long Essay**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Timo Fleckenstein OLD 2.60

**Availability:** This course is compulsory on the MSc in Social Policy (European and Comparative Social Policy). This course is not available as an outside option.

**Course content:** The purpose is to allow students to study a topic in depth by researching the literature and analysing a subject. Often these essays involve original perspectives or empirical research.

**Teaching:** An appropriate supervisor will be appointed to advise each candidate and comment on draft elements of the dissertation.

**Selection of Topic**
The dissertation should conform to one of the following formats
- a study of a single EU state (or region, city etc) and one or more policy areas focusing on the impact of EU level social policy. This state should not be the student’s own country. Within this format the focus may also be at the sub-national level (regions, cities etc).
- a comparative study of two or more states (or their subnational levels) focusing on one or more policy areas. The sample may include the student’s own country. The sample may include non-EU countries as well as the student’s own country.
- a study of an element of EU-level social policy or EU processes of social policy making.

The general subject area of the dissertation should be approved by the MSc programme director and dissertation supervisor by the sixth week of the Michaelmas Term. This will facilitate a specific research topic for the dissertation to be subsequently formalised. This topic may only be changed by agreement with programme director and supervisor and, in any case, no later than the end of the Lent Term.

**Assessment:** Dissertation (100%, 10000 words).
The dissertation must not exceed 10,000 words, bibliography and tables will not be included in this total.

---

**SA470 Dissertation - International Social & Public Policy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Tim Newburn OLD 2.40a

**Availability:** This course is compulsory on the MSc in Criminal Justice Policy. This course is not available as an outside option. Those taking the course part-time must submit the dissertation in their second year.

**Course content:** The objective is to write an original dissertation on an approved topic in the field. The selection of the topic is a matter primarily for the student, though the approval of the supervisor is needed for topic registration.

**Teaching:** The designated supervisor should discuss the selection of the topic and its title with the student, advise about preliminary reading, methods and broad analytical approach; and comment on the draft version. At their discretion, supervisors may give additional advice and comments.

**Assessment:** Dissertation (100%, 10000 words).
Dissertations should be no more than 10,000 words in length, excluding notes and appendices and should be typed. Formal titles should be registered with the Course Director in early December.

---
Dissertations should be no more than 10,000 words in length (100% of this unit), excluding the bibliography. Two hard copies of the Dissertation must be submitted to the Social Policy Administrative hub by the Departmental Dissertation deadline. The Dissertation must also be submitted electronically via Moodle by this deadline.

SA471
Social Policy and Planning - Long Essay
This information is for the 2018/19 session.
Teacher responsible: Dr Timo Fleckenstein OLD.2.60
Availability: This course is compulsory on the MSc in Social Policy (Research) and MSc in Social Policy (Social Policy and Planning). This course is not available as an outside option.
Course content: The purpose is to allow students to study a topic in depth researching the literature and analysing a subject: often these dissertations involve original perspectives or research and some have been subsequently published.
Teaching: The general subject area of the dissertation should be approved by the tutor by the middle of the second term and the title should be submitted to the course convenor by the end of that term.
Arrangements for Supervision
An appropriate tutor will be appointed to advise each candidate and comment on the first draft of the dissertation.
Assessment: Dissertation (100%, 10000 words). The dissertation must not exceed 10,000 words.

SA472
Dissertation - Social Policy and Development
This information is for the 2018/19 session.
Teacher responsible: Dr Armine Ishkanian OLD.2.54, Dr Timothy Hildebrandt OLD.2.56, Dr Sunil Kumar OLD.2.55, Prof David Lewis and Dr Hayley Jones
Availability: This course is compulsory on the MSc in Social Policy and Development. This course is not available as an outside option.
Course content: The 10,000 word dissertation enables students to analyse in greater depth an issue relevant to social policy and development from a government-centred perspective.
Teaching: Academic advisors will provide regular supervision and feedback throughout the three terms (MT, LT, and ST). 4 x 90 Minute sessions in the LT (in conjunction with SA470).
Formative coursework: The area of study is defined by the student, in consultation with their academic advisor. An outline proposal is developed on SA472 and submitted via Moodle. The proposal is discussed with the academic adviser early in the Lent Term. Guidance is provided in dissertation writing and research skills.
Assessment: Dissertation (100%, 10000 words). Dissertations should be no more than 10,000 words in length (100% of this unit), excluding the bibliography.

SA478
Half Unit
Population Analysis: Methods and Models
This information is for the 2018/19 session.
Teacher responsible: Prof. Michael Murphy, OLD.2.61
Availability: This course is compulsory on the MSc in Social Research Methods. This course is available on the MSc in Development Studies, MSc in Global Population Health, MSc in Health and International Development, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations), MSc in Statistics, MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students should have basic numeracy, but the course does not require advanced mathematical knowledge. Some practical sessions will involve use of the spreadsheet EXCEL. IT Training provides numerous self-paced student supervised workshops on EXCEL and downloadable course guides. Students with no prior experience of EXCEL are advised to attend one of these workshops before the course.
Course content: This course provides an introduction to the key concepts and methods required for population analysis. The course will explain the dynamics of population change and enable students to learn basic methods for measuring population structure and the determinants of population size and change (fertility, mortality and migration). The course will also provide an introduction to population projections and describe and evaluate how demographic data are collected and used. Emphasis is placed on the understanding and interpretation of demographic data, as well as methods of population analysis.
Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures in the ST.
Formative coursework: Students will be expected to complete exercises, write one essay and complete multiple choice questionnaires during the term.
SA4AA Half Unit
International Social & Public Policy

This information is for the 2018/19 session.
Teacher responsible: Dr Sonia Exley OLD 2.64
The course will be taught by a team of faculty members with complementary areas of expertise, and specialisation in both the global north and south who have all contributed to the development of the core course.
Availability: This course is compulsory on the MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration) and MSc in International Social and Public Policy (Non-Governmental Institutions). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course engages with the social & public policy challenges facing states and citizens across the world. It introduces students to core issues, concepts, actors and debates shaping our understanding of social & public policy, its drivers and impacts. It outlines the questions raised by efforts to ensure a healthy, educated and productive population, to protect those without other means of support, and to reduce inequalities of e.g. gender, class, and ethnicity. It discusses diverse policy approaches to these issues, their ideological underpinnings, and the varying configurations of actors involved in the policy process - the state, the market, civil society, the family, and international organisations. The course explores applications to a range of policy domains, such as education, urbanisation, health, family, social care, migration, inequality and redistribution, and to varied country contexts. The course is informed by an international and comparative approach that considers both rich and poor country contexts and international dimensions and locates these within a historical understanding of both national and global processes.
Teaching: 16 hours and 30 minutes of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of lectures in the ST.
One of the lectures in the MT will be a Study Skills session at the start of term.
Formative coursework: Students will be expected to produce 1 essay in the MT.
The formative coursework in the form of 1500 word essay to be submitted before the end of the MT will require the students to apply the principles covered in the course, to a specified case. This will prepare them for the summative coursework which will require them to select and develop their own case study application.
Assessment: Exam (50%, duration: 2 hours) in the summer exam period.
Essay (50%, 2000 words) in the LT.
The essay provides students with the opportunity to apply their learning from the course to a specific case that they select.
The exam enables students to demonstrate that they have synthesised their understanding of the topics covered across the course.

SA4AB Half Unit
Researching International Social & Public Policy

This information is for the 2018/19 session.
Teacher responsible: Dr Berkay Ozcan OLD.2.33
Availability: This course is compulsory on the MSc in International Social and Public Policy. MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration) and MSc in International Social and Public Policy (Non-Governmental Organisations). This course is not available as an outside option.
Course content: The course aims to provide an understanding of issues associated with the research process in the context of MSc in International Social & Public Policy dissertations. It includes an examination of philosophical issues underpinning research methods in social policy, the place of different research methods (qualitative and quantitative) in international social & public policy, the use of research and the role of evidence in informing social & public policy, and the process of writing a social policy dissertation.
Teaching: 15 hours of lectures and 15 hours of seminars in the MT.
Formative coursework: Students will undertake a group presentation during the course discussing approaches in researching social policy. They will receive written feedback on this presentation, and it will form the basis of the first part of their summative assessment. They will also undertake a short (1000 word) account of research paper aimed at summing the key points, contributions and methods involved for a non-academic audience.
Assessment: Essay (75%) in the MT.
Other (25%) in the MT.
The course is intended to inform the student’s dissertation in terms of underpinning issues, concepts, methodological choices and the role of research in social and public policy implementation.
Assessment comprises 1) an individual write up of a group presentation on the role of different forms of research in international social & public policy (MT week 7, 25%) and 2) a short essay discussing how the issues covered in the course relate to a specific research application, chosen by the student (LT week 1, 75%).

SA4B3 MSc Global Population Health Dissertation

This information is for the 2018/19 session.
Teacher responsible: Dr Arjan Gjonca Old. M.2.25
Availability: This course is compulsory on the MSc in Global Population Health. This course is not available as an outside option.
Course content: The purpose is to allow students to explore
SA4B5  Half Unit  Not available in 2018/19
International Planning and Children's Rights

This information is for the 2018/19 session.

Teacher responsible: Prof Eileen Munro OLD2.33 and Dr Armine Ishkanian OLD1.13

Availability: This course is available on the MSc in Human Rights, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration) and MSc in International Social and Public Policy (Non-Governmental Organisations). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This is an interdisciplinary course that explores the links between child rights and child poverty at all levels of development in rich and poor countries. The social and economic as well as the civil and political rights of children, as defined in recent international laws, charters and Conventions, are examined in relation to the conditions, especially poverty and multiple deprivation, experienced by many children. Human rights theories as a basis for international and social policies will be a focus of attention. There has to be universal planning and not only specific proposals to deal with serious violations of rights. Issues of child labour, the violations of war, cultural discrimination against girl children and the right to a minimally adequate family income will be discussed in relation to the roles played by international agencies, Trans National Corporations, governments and NGOs.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour and 30 minutes of lectures in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT.

SA4B8  Half Unit
Ethnicity, Race and Social Policy

This information is for the 2018/19 session.

Teacher responsible: Dr Coretta Phillips OLD.2.28

Availability: This course is available on the MSc in Criminal Justice Policy, MSc in Gender, Policy and Inequalities, MSc in International Migration and Public Policy, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in Social Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course will be capped at 20 students, with preference given first to students on MSc programmes in the Department of Social Policy, then from MSc International Migration and Public Policy and MSc Gender, Policy and Inequalities. If spaces are still available, students from other MSc programmes, where regulations permit, will be selected.

Course content: Understanding Key Concepts; Disciplinary Frameworks; Migration and Citizenship; Theorising Multiculturalism; Ethnic Settlement and Housing Inequalities; Education; Employment, Poverty and Underclass; Criminalisation and Incarceration; Discrimination and the Role of the State I: Positive and Affirmative Action, Discrimination and the Role of the State II: Legislative Frameworks, Diversity, and Service Delivery.

Teaching: 15 hours of lectures, 15 hours of seminars and 2 hours of workshops in the MT. In Week 6 there will be an essay-writing workshop.

Formative coursework: 2000 word essay due in MT.

Assessment: Essay (100%, 4000 words) in January. The summative essay will be due in early LT.
SA489  Half Unit
Education Policy, Reform and Financing
This information is for the 2018/19 session.  
Teacher responsible: Dr Sonia Exley OLD 2.64
Availability: This course is available on the MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in Social Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This course considers education policy, reform and financing across a range of countries. It uses concepts and tools from a number of academic disciplines – social policy, sociology, economics, politics and philosophy – to scrutinise education. Throughout the course, there is particular focus on equity, social justice and the distribution of resources, issues to be addressed include: the impact of social characteristics on educational outcomes (class, gender and race and ethnicity, with a cross-cutting focus on special educational needs and ideas of ‘inclusion’) and related policy reforms; accountability and market-oriented reforms in education; privatisation and the changing role of the state; power and the politics of educational policy making; global policy transfer in education; early years education, school-based education and post-compulsory education. Not all of these issues are covered as separate weekly topics.
Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 3 hours of seminars in the ST.
Formative coursework: One formative essay in LT.
Indicative reading: Specialist lists for each topic will be provided.
The following introductory books are recommended:
Assessment: Exam (75%, duration: 2 hours) in the summer exam period.
Essay (25%, 2500 words) in the ST.

SA4C2  Half Unit  Not available in 2018/19
Basic Education for Social Development
This information is for the 2018/19 session.
Teacher responsible: Prof Anthony Hall OLD2.28
Availability: This course is available on the MSc in Development Management, MSc in Development Studies and MSc in Social Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
The course is capped at 30 students
Pre-requisites: Work experience in a developing country is highly desirable but not essential.
Course content: The course is designed to examine the role of basic education in developing countries as it relates to social development and social policy. Content of the course includes: the history of education and current problems in developing countries, links between basic education and socio-economic development, primary schooling, decentralization policies, non-formal and vocational education, adult literacy, popular education for grassroots development, environmental education, ICT, and foreign aid in supporting basic education.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.
Formative coursework: In addition to seminar presentations and the assessed essay, students are required to write an unassessed (formative) essay for the course.
Assessment: Exam (75%, duration: 2 hours) in the summer exam period.
Essay (25%, 2500 words) in the ST.
Students are required to choose a topic of their own interest for the essay.

SA4C6  Half Unit  Not available in 2018/19
International Housing and Human Settlements; Conflicts and Communities
This information is for the 2018/19 session.
Teacher responsible: Prof Anne Power OLD 2.57
Availability: This course is available on the MSc in City Design and Social Science, MSc in Regional And Urban Planning Studies and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.
This is a capped course. If it is oversubscribed places will be allocated by random ballot, first amongst Social Policy students then amongst other students for any remaining places. The first ballot will be held on Tuesday of MT week 1.
Course content: The course is an introduction to the global housing challenges of a fast urbanising world in the context of rapidly growing cities worldwide. There are 5 key themes: the push and pull factors in urban growth; the key actors in housing provision; slums and self-help; the environmental impact of low income settlements; the problems of poverty and exclusion in low income and informal settlements. The course includes 10 lectures in LT and one in ST. The main topics of the lectures are: housing needs and demand; contrasting patterns of housing development; owner occupation, renting and self-help; government intervention and finance; planning and renewal; international agencies, aid and NGOs; bottom-up shelter models and community-led initiatives; social exclusion and urban pressures; basic services and public infrastructure; participation and women's roles in low income settlements; environment of cities; urban and housing design; theories and practice in upgrading urban settlements. Case studies are used to illustrate arguments, policies and practical responses.
Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures and 3 hours of seminars in the ST.
Additional activity: occasional informal discussion sessions are organised at students' request.
Formative coursework: Students will be expected to participate actively in seminars and to complete one formative essay using case studies to illustrate their arguments. Students are also expected to prepare case studies for the seminar.
Assessment: Exam (75%, duration: 2 hours) in the summer exam period.
SA4C8  Half Unit  Not available in 2018/19
Global Social Policy and International Organizations

This information is for the 2018/19 session.
Teacher responsible: Dr Hakan Seckinelgin, OLD.2.27
Availability: This course is available on the MSc in China in Comparative Perspective, MSc in Global Health Policy, MSc in Human Rights, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration) and MSc in International Social and Public Policy (Non-Governmental Organisations). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: What do the, the Catholic Church, Bill and Melissa Gates, UNICEF and the World Bank have in common? They are in one way or another involved in social policy that goes beyond the nation state. Policy could be seen as the exercise of political power and this political power has often been concentrated within the nation state. Far from the traditional study of policy this includes the effect of globalization on a variety of actors in social policy. This course examines how globalization has changed the way we perceive areas such as health, education, social care and other areas that concern social citizenship. The course examines the international policy environment, particularly intergovernmental organisations; bilateral and multilateral aid agencies and non-governmental organizations (NGOs), which influence the social policy environment in developing countries. The impact of the inter-governmental policy process on policy outcomes is examined. The same goes for religious groups, social movements and corporations that all play a role in global social policy. The main goal of the course is not only to open up the understanding of social policy and globalization but also to show the complexity of goals and actors of social policy. It is expected that the students will devote considerable time to reading and preparing for the seminars.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. Revision session(s) will be scheduled in the ST.

Formative coursework: Students will write a long essay.

SA4D3  Half Unit  Not available in 2018/19
Behavioural Economics and the Valuation of Health Outcomes

This information is for the 2018/19 session.

Teacher responsible: Dr Adam Oliver OLD.2.35

Availability: This course is available on the CEMS Exchange, MBA Exchange and MSc in Global Health Policy. This course is available as an outside option to students on other programmes where regulations permit.

The course is of value to those wishing to work as health policy analysts or economists/behavioural economists after graduation, be that in academia, government, industry, or management and practice.

Course content: This course offers a thorough understanding of how economists tend to value health and explores some of the problems inherent in these valuations. As such, the course offers teaching in many aspects of behavioural economics, with specific health-related application.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT.

Formative coursework: Students will be given a progress test at the end of MT--this will be a 50 minute test in which they answer one essay question from a choice of three. This is perfect practice for what the students might expect in the final exam.

SA4D5  Half Unit  Not available in 2018/19
Social Rights and Human Welfare

This information is for the 2018/19 session.
Teacher responsible: Prof Hartley Dean OLD.2.59
Availability: This course is available on the MSc in Human Rights and MSc in Social Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is currently capped at 30 places. Offers of places will be made on the basis of applicants' statements. Initial priority for places is given to students on Social Policy MSc programmes and students on the MSc Human Rights. Other students may be accepted onto a waiting list. Places remaining available three days before the start of the course will not be held back for late applicants from the Department of Social Policy or the Human Rights programmes but offered to students from the waiting list.
Pre-requisites: none
Course content: The course will examine the basis of social or welfare rights as a component of human rights. It will situate social/welfare rights in an historical and comparative context and explore a range of debates concerning the relevance and effectiveness of a rights based approach to poverty alleviation and social welfare provision, both in the developed and the developing world. It will address the practical limitations of and the constraints upon social/welfare rights. Specifically, it will address concepts of social rights and welfare citizenship; human needs and human rights; social/welfare rights in global context; critiques of social/welfare rights as human rights; the scope and substance of social/welfare rights; social/welfare rights and mechanisms of redress; rights based approaches to poverty alleviation; social development and social/welfare rights; constitutional instruments and social/welfare rights; human rights and the ethics of welfare.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the LT. 1 hour and 30 minutes of lectures.
Formative coursework: Students have the option of submitting a formative essay.
Assessment: Exam (75%), duration: 2 hours) in the summer exam period.
Essay (25%, 1500 words) in the LT.

SA4F1  Half Unit
Migration: Current Research, Critical Approaches

This information is for the 2018/19 session.
Teacher responsible: Dr Isabel Shutes OLD 2.58
Prof Lucinda Platt OLD.2.25
Availability: This course is compulsory on the MSc in International Social and Public Policy (Migration). This course is available on the MSc in Global Population Health, MSc in Inequalities and Social Science, MSc in International Migration and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in Social Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This interdisciplinary course addresses contemporary global migration issues with reference to both developing and developed country contexts; international migration patterns and forms of migration; migration and inequalities; migration, transnationalism and the transformation of welfare systems. Teaching across the course integrates critical theoretical approaches to migration with applications using different migration-related research methods.

Course outline: Global migration trends and processes; Defining migrants and migration; Citizenship, migration policies and the unequal movement of people; Migration motivations, types and processes; Gender and migration; Researching migration; Migration, transnationalism and welfare; The impacts of migration; What does migration mean for social and public policy.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT.
Formative coursework: Students are expected to participate actively in seminars and to prepare a group presentation, and to write a formative essay linked to their written assignment.
Indicative reading: Readings across the course include: Castles, de Haas & Miller (2013) The Age of Migration, Shachar (2009) The Birthright Lottery: Citizenship and Global Inequality, Luthra, and Public Policy, MSc in International Social and Public Policy (Migration) and MSc in International Social and Public Policy (Non-Governmental Organisations). This course is available with permission as an outside option to students on other programmes where regulations permit.

SA4E6  Half Unit
Rural Development and Social Policy

This information is for the 2018/19 session.
Teacher responsible: Prof David Lewis OLD.2.40
Availability: This course is available on the MSc in African Development, MSc in Development Studies, MSc in Environmental Economics and Climate Change, MSc in International Development and Humanitarian Emergencies, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Migration) and MSc in International Social and Public Policy (Non-Governmental Organisations). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Knowledge of rural areas and relevant work experience is desirable but not essential. Knowledge of sociological and anthropological approaches to rural development also desirable.

Course content: Theories of rural development, history of rural development policy, changing rural livelihoods, land and agrarian reform, agricultural research and extension, the roles of private and non-governmental actors, natural resource management, food security, climate change and rural-urban linkages.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures and 1 hour and 30 minutes of seminars in the ST.
Formative coursework: A formative 1500 word essay is required at the end of Week 6, and feedback will be given.
Assessment: Essay (100%, 3500 words) in the ST.
Students are required to write an assessed essay of 3,500 words.
SA4F8  Half Unit  Behavioural Public Policy

This information is for the 2018/19 session.

Teacher responsible: Dr Adam Oliver OLD.2.35

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Environmental Economics and Climate Change, MSc in International Social and Public Policy, MSc in Social Impact, MSc in Environmental Economics and Climate Change, MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations), MSc in Political Science and Political Economy, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Regulation, MSc in Social Policy (Research) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

This is a capped course. Places will be allocated to students on the basis of a short statement that is submitted during course choice, outlining the student's suitability for and interest in the course. Priority will be given to Social Policy students.

Course content: The aim of the course is to explore ways of changing behaviour to achieve the aims of public policy. One half of the course will be concerned with the behaviour of professionals who work in public services. How can doctors, teachers and social workers be motivated to provide the best possible care for their patients, pupils or clients? Should we rely upon professionalism and the public service ethos? Should we set up targets and league tables for performance, penalising those who fail to achieve the target or who drop down the table? Or should we rely upon patient or parental choice and competition to provide incentives to improve? The second half of the course explores ways of changing individuals' and households' behaviour in areas of policy concern such as smoking, obesity, and the environment. How can people be persuaded to stop smoking, to take more exercise, to eat less, to reduce their carbon emissions? Should we rely upon punitive measures such as bans, on positive incentives such as financial rewards, or on 'nudge' policies that change the choice architecture? Should government intervene at all, if the only people harmed by their own activities are themselves? In trying to answer these questions, the course will draw on recent developments in behavioural economics, motivational and behavioural studies in psychology, and the philosophy of paternalism, including libertarian paternalism and the 'nudge' agenda. It will discuss evidence from a wide range of areas of public policy, but especially health care, education and social care, using illustrations and evidence from Europe, North America and Australasia.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: All students will be required to present work in progress on their summative assignments during seminar class time. In addition, by the end of the reading weeks, students will be required to present to the course convenor a two page plan for their summative assessment, on which they will receive written and oral feedback.

Assessment: Coursework (100%) in the LT.

SA4F9  Half Unit  Housing, Neighbourhoods and Communities

This information is for the 2018/19 session.

Teacher responsible: Prof John Hills 32LIF 3.32

Availability: This course is available on the MSc in City Design and Social Science, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in Social Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit. This is a capped course. If it is oversubscribed priority will be given to Social Policy Students. Places will be allocated by the Course Convenor according to the 'statement' submitted by students when they apply for a place on LSE for You.

Pre-requisites: There are no prerequisites to take this course.

Course content: This course introduces MSc students to the links between housing, neighbourhoods and social and public policies, in the context of housing systems in the UK, Europe and North America. It examines: how housing and neighbourhoods have evolved in UK and Europe, and contrasts in the USA; the rise of mass housing estates, the role of government and housing management; housing markets – supply, demand, need and affordability; owner-occupation and taxation; sustaining neighbourhoods through upgrading, and dangers of segregation and gentrification; housing wealth and assets, inheritance and polarisation; private renting, housing benefits and regulation; social housing, subsidies, rents and affordability, community-led and community-based housing; sustainable housing solutions, retrofit, fuel poverty and energy saving. The course uses live case studies to illustrate the main themes.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT. 3 hours of lectures and 2 hours of seminars in the ST. There are also organised site/project visits in MT. The course provides many case study examples for students to draw on.

Formative coursework: Students participate actively in seminars, make two class presentations and complete one formative essay, drawing on case study evidence. Students are invited to join site visits which illustrate key housing themes.

SA4G8 Half Unit
Social Movements, Activism, and Social Policy

This information is for the 2018/19 session.
Teacher responsible: Dr Armine Ishkanian OLD.2.54 and Dr Timothy Hildebrandt
Availability: This course is available on the MSc in Criminal Justice Policy, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in Social Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course begins by examining theories of social movements, collective action, and contentious politics. It then moves on to examine how social movements engage with the policy process and the ways in which social movement activism informs social policy formulation and implementation. It examines the nature, past and present roles of social movements and their potential capacity in shaping social policy in developed and developing countries, and in democratic, hybrid, or authoritarian regimes. The course covers theoretical arguments and examines empirical examples and case studies.

The course examines the following topics: the role and impact of social movement activism in identifying and meeting needs; the role of grassroots mobilizations and solidarity; how movements are affected by regulatory frameworks; how and when movements achieve their objectives; movements relations with other actors (including, NGOs, trade unions, political parties, etc.); populism. It considers the development, transformation, autonomy, interdependence, and prolife of social movements. The course draws on examples of social movements in different periods, countries, and areas of activity to examine and analyse how change happens and the obstacles to change.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of seminars in the ST. 16 hours and 30 minutes of lectures and 16 hours and 30 minutes of seminars in the L T. 1 hour and 30 minutes of seminars in the L T.

Formative coursework: Students will be expected to participate actively in seminars and to complete one piece of written formative coursework.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

SA4H7 Half Unit
Urbanisation and Social Policy in the Global South

This information is for the 2018/19 session.
Teacher responsible: Dr Sunil Kumar OLD.2.55
Availability: This course is available on the MSc in Development Studies, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in Social Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is for postgraduate students interested in urbanisation and social policy in the Global South. The course is also open to students on other MSc Programmes dependent on spaces being available. Priority will be given to Social Policy students. Some knowledge and experience of urban issues are desirable. To apply for a place on this course, students will have to upload a statement not exceeding 250-words on LFY stating: (i) why they would like to take this course, (ii) what they can bring to the course, and (iii) how they intend to use the knowledge gained (for example, for their dissertation or future employment or research).

Course content: The course examines the social, economic and political challenges in the urban Global South from a range of theoretical and conceptual perspectives, and the policies and planning practices aimed at addressing them. Some of the themes explored in the course are urbanisation and social change, theoretical perspectives on the city, migration and the rural-urban interface, urban poverty and livelihoods, urban labour markets, urban housing and tenure, urban social movements, urban basic services and urban management and governance. Students are expected to read the essential readings and also read widely. They are expected to undertake a number of weekly activities, such as: My_City (short desk-based research pieces on key issues arising from the lecture with the view to gauge how much information is available and to refer to this information in the seminar that follows); and My_Forethought about 100 words on what the student expects to gain from the lecture.

Teaching: 16 hours and 30 minutes of lectures and 16 hours and 30 minutes of seminars in the LT. 1 hour and 30 minutes of lectures in the ST.

1 Dr Sunil Kumar will use the lecture slot in week 6 (reading week) to present his recent research.

2 The seminar slots in reading week will be used for students to present their ideas for the summative essay for the course. All registered students are expected to attend the lecture and seminar slots.

Formative coursework: Students taking this course will have to write a 1,000-word formative essay (excluding references) as a draft of the summative essay. The learning pedagogy and learning outcome is to receive feedback on what may become the summative essay. Given that the formative is intended to lead to a summative essay, students will not receive a grade but will receive written feedback. The deadline for the formative essay will be in week 8 or 9 of the term in which the course is taught. Students should take part in the range of seminar activities. Students are required to contribute to the seminars on a weekly basis by undertaking un-assessed activities called My_City and My_Forethought, details of which will be available on Moodle.

**Assessment:** Exam (40%, duration: 2 hours) in the summer exam period.

Essay (60%, 3500 words) in the ST.

Summative essays are required to address urban issues in the global South. They can be: (1) an academic critique of an urban policy (existing or proposed); (2) the identification of an urban issue that does not have a policy but requires one; (3) a critique of a conceptual framework that has been used to address an urban challenge. Students should note that i-iii are intended as starting points in approaching the summative essay, they are welcome to combine two or three of these starting points. Those students approaching the essay from starting points 1 and 2 are required to propose broad policy solutions and address key barriers to the adoption of the proposed policy. Those who would like to approach their essay from the perspective of point 3 will have to propose improvements to the conceptual framework being critiqued namely, how the critique changes the ‘framing of the problem’ and the associated policy implications. Students can also critique urban policy and conceptual frameworks in the global North as long as they use policy examples and concepts from the global South. In doing so, they are required to suggest policy and conceptual improvements to urban challenges in the global North. This is designed to overcome the North-South divide and foster the transfer of principles. Students who choose this option will have to demonstrate that the transfer of policy ideas or conceptual critiques, using literature from the urban South to the urban North, are feasible in terms of context, institutions and politics, for instance.
everyday life in developing countries, both in its public and private manifestations. It aims to consider social policy and particular interventions in their historical contexts, as a way of unpacking the construction of sexuality in the intersection of colonialism, gender, race, class and international policy frameworks in developing countries. The course also aims to interrogate the relationship between particular social policy prescriptions developed in most industrialized welfare societies and the way some of these are transferred to developing countries. The major concern of the analysis is to bring out the perceptions of sexuality that underwrite these policies and how these interact with existing perceptions of sexualities and their performances (identities, desires and bodily practices) in multiple developing country contexts. These policy areas include, among others, discussions of rights, entitlements, citizenship, same-sex marriage, sexually transmitted disease, HIV/AIDS, family policies, migration/border controls, criminality and employment-related policies.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be expected to submit a formative essay (2,000 words), which is to be handed in by the end of week eight of Lent Term.

Indicative reading:

Assessment: Essay (100%, 3000 words) in the LT.

SA4K5 Half Unit Not available in 2018/19
Issues in Contemporary Policing

This information is for the 2018/19 session.

Teacher responsible: Prof Tim Newburn OLD 2.40a

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Criminal Justice Policy, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in Social Policy (Research). This course is available as an outside option to students on other programmes where regulations permit.

While not specifically counting towards a specialism on the LLM, this course would complement the following specialisms: Criminology and Criminal Justice, Legal Theory and Public Law.

Pre-requisites: Some familiarity with sociology and/or criminology would be an advantage, but is not a formal prerequisite. Anyone unfamiliar with criminology can find a full introduction to the subject in: Newburn, T. (2017) Criminology, London: Routledge, 3rd Edition

Course content: The flourishing sub-discipline of ‘police studies’ reflects the increasing centrality of policing in political debate and popular culture, and as a major concern of government policy. This course aims to familiarise students with the formidable volume of research knowledge that has now been built up. The course will enable students to understand the development and functioning of police organisations as well as providing them with an understanding of some of the key issues and debates affecting contemporary policing. The topics covered will include: the role and purposes of policing; the media and policing, governance and legitimacy; integrity and corruption; and policing and (in)equality.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be required to write and submit two pieces of formative coursework. The first will be an essay outline - in effect an outline of a answer to a potential examination question, including a full introductory paragraph. The second will be a written assessment of a published book review - as the basis for the summative work to come.

Assessment: Essay (80%, 3000 words) in January.

Project (20%, 1000 words) in the MT Week 7.

The summative assessment will comprise a 3,000 essay involving a critical assessment of a minimum of two substantive issues covered in the course (80%), and a 1,000 word book review (20%).

SA4L Half Unit
Illegal Drugs and Their Control: Theory, Policy and Practice

This information is for the 2018/19 session.

Teacher responsible: Dr Michael Shiner OLD 2.34

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Criminal Justice Policy, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in Social Policy (Research) and University of Pennsylvania Public Policy (Migration), MSc in International Social and Public Policy (Research). This course is available to students on other programmes where regulations permit.

If this course is oversubscribed places will be allocated firstly to MSc Criminal Justice Policy students, then other Social Policy students and then students from other departments on a first come first served basis.
SA4L7  Half Unit
Policing, Security and Globalisation

This information is for the 2018/19 session.
Teacher responsible: Prof Tim Newburn OLD 2.40a
Availability: This course is available on the LLM (extended part-time), MSc in Criminal Justice Policy, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations), MSc in Social Policy (Research) and University of Pennsylvania Law School LLM Visiting Students. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: Some familiarity with criminology or sociology would be an advantage, but is not a formal prerequisite. Anyone unfamiliar with criminology can find a full introduction in: Newburn, T. (2017) Criminology, London: Routledge, 3rd Edition

Course content: This multi-disciplinary course draws on sociology, psychology, criminology and law to examine the place and meaning of illegal drug use in late modern societies and associated policy responses. It begins by considering drug use and subcultural formations; the ‘normalisation’ of drug use; drug tourism; the role of addiction; and the organisation of drug markets. It then goes onto consider the making of drugs policy; drugs, policing and the law; treatment and harm reduction; drugs as a development and human rights issue; decriminalisation and alternatives to prohibition.

Teaching: 10 x 1.5 hours of lectures and 10 x 1.5 hours of seminars in the LT.

Formative coursework: Students will be asked to submit a formative essay (2,000 words), which is to be handed in by the end of week eight of MT.

Assessment: Essay (100%, 3000 words) in the LT.

to be handed in during the first week of the LT.

SA4L8  Half Unit
Punishment and Penal Policy (Masters)

This information is for the 2018/19 session.
Teacher responsible: Dr Leonidas Cheliotis OLD 2.51
Availability: This course is available on the MSc in Criminal Justice Policy. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: N/A

Course content: This course will run as a half-unit option, and will explore punishment and penal policy from a range of comparative perspectives. Focusing on Anglophone jurisdictions and the rest of the world in equal measure, the course will consider in depth a wide variety of historical and international comparative studies of punishment and penal policy, both from the field of criminology and beyond. In so doing, the course will critically examine theoretical frameworks and empirical research on such issues as:

• the forms state punishment has assumed over time and in different national and regional contexts;
• the array and relative significance of the reasons why punishment and penal policy may develop, qualitatively as well as quantitatively, in particular ways at given historical junctures and in different jurisdictions;
• the relationship between political systems and punishment, with particular reference to processes of democratisation;
• the links between penal policy and different forms of economic organisation, from preindustrial capitalism to welfare capitalism and neoliberalism; and
• the role of punishment in society as explained through psychosocial theories and research

Thanks to its substantive foci and broad comparative approach, the course will enhance existing provision in the School in the field of penology (e.g., the course ‘Explaining Punishment: Philosophy, Political Economy, Sociology’ (LL4CL), taught by Professors Lacey and Ramsay in the Law Department).

Indicative course content

1 The Contours of State Punishment
2 Continuity and Change in Punishment and Penal Policy: Historical Comparative Perspectives
3 Convergences and Contrasts in Punishment and Penal Policy: International Comparative Perspectives
4 Political Systems and Punishment, Part I: Democracy
5 Political Systems and Punishment, Part II: Democratization
6 Reading Week
7 The Political Economy of Punishment: Marxist and Neo-Marxist Perspectives from the Global North and the Global South
8 Punishment, Politics and the Economy: Institutional Perspectives from around the World
9 The Cultural Uses of Punishment
10 The Emotional Lives of Punishment
11 Cultural Representations of Punishment

Teaching: 10 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

In Week 6 of the term, students will be required to submit a 1,500-word essay on any of the weekly topics addressed in the course. Formative coursework will be designed to feed into later summative assessments, giving students an opportunity to develop critical thinking and presentational skills.

Assessment: Essay (70%, 3000 words) and presentation (30%). A 3000 essay on one of the substantive topics covered and a presentation to demonstrate critical appreciation of a specific theoretical argument or empirical study.

SA4M1 Half Unit
Politics of Social Policy: Welfare and Work in Comparative Perspective

This information is for the 2018/19 session.

Teacher responsible: Dr Timo Fleckenstein OLD.2.60

Availability: This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MPA in International Development, MPA in Public Policy and Management, MPA in Public and Economic Policy, MPA in Public and Social Policy, MPA in Social Impact, MSc in Comparative Politics, MSc in EU Politics, MSc in EU Politics (LSE and Sciences Po). MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations), MSc in Political Economy of Europe, MSc in Political Economy of Europe (LSE and Sciences Po), MSc in Political Sociology, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Social Policy (Research) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course explores the politics of social policy in advanced political economies. In the first part of the course, the main analytical approaches for the cross-national analysis of welfare states are introduced (such as the industrialism thesis, the power resources model, new institutionalism, feminist theory and the globalisation thesis). These will be examined in the context of the rise of modern welfare states and their transformations since the end of the ‘Golden Age’ in the mid-1970s. These analyses and the theoretical approaches to cross-national study of welfare states will be harnessed in the second part of the course when the focus shifts towards more recent policy developments since the 1990s. The empirical focus is on the welfare-and-work nexus. The course analyses the development of labour market and family policies in Nordic countries, Continental Europe, Anglo-phone countries and East Asia.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Seminar members will be expected to make presentations to the seminar, and submit a formative essay of 1,500 words.

SA4N8 Half Unit
Riots, Disorder and Urban Violence

This information is for the 2018/19 session.

Teacher responsible: Tim Newburn (OLD 240a)

Availability: This course is available on the LLM (extended part-time), LLM (full-time), MSc in Criminal Justice Policy, MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations), MSc in Social Policy (Research) and University of Pennsylvania Law School LLM Visiting Students. This course is available as an outside option to students on other programmes where regulations permit.

Course content: This course focuses on urban or collective violence, or what more colloquially tend to be referred to as ‘riots’. The course will consider the various approaches that have been taken to this subject - via history, psychology and sociology - and, focusing on particular examples, the course will examine some of the core issues in the field including: the causes of riots; psychological versus sociological explanations; the role of race/ ethnicity; the impact of traditional and new social media on the nature and organisation of rioting; the role and changing nature of the policing of urban disorder, and how riots might be understood both historically and comparatively.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT. There was strong and consistent feedback from students this year (the first year of the course) to increase the lecture time from 60 minutes to 90 minutes (in line with a number of other taught MSc modules in Social Policy).

Formative coursework: Students will be required to write and submit two pieces of formative coursework for assessment and
peer feedback. The first will be an essay outline - in effect an outline of a answer to a potential examination question, including a full introductory paragraph. The second will be an outline of their intended case study. Both pieces of formative coursework will be shared via Moodle and all students will be encouraged to offer constructive feedback to each other as well, of course, as receiving feedback from the course director. Peer feedback will be utilised as a means of encouraging a degree of group work and collective endeavour among course participants.

Assessment: Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.
Coursework (40%) and presentation (10%).
The coursework (40%) will comprise a single summative essay offering an analytical case study of a modern riot and the presentation (10%) will comprise a poster presentation at an end of term mini academic conference.

SO407
Politics and Society

This information is for the 2018/19 session.
Teacher responsible: Dr Robin Archer STC:S114a
Availability: This course is compulsory on the MSc in Political Sociology. This course is available on the MSc in Social Research Methods and MSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit.
Course content: This course aims to explore some of the great debates about the relationship between politics and society. It will examine the interaction between political institutions, economic interests and cultural ideas, especially in societies that are both democratic and capitalist. The course will explore some of the classic empirical and historical controversies that have animated political sociologists. Each week, we will discuss questions like: What gave rise to states and nations? Why are some social movements more successful than others? How does social change shape party elections? Do repressive states give rise to radicalism? Why are welfare states more developed in some countries than others? Why is there no Labor Party in the United States? Under what conditions does democracy develop? What explains the growth of populism? And has neo-liberalism become hegemonic? The course will also look at the canonical writings of authors like Marx, Weber and Toqueville, as well as critically explore the use of some political concepts. In addition, it will enable you to build up your knowledge of a number of countries and to assess the strengths and weaknesses of some of the main theories and approaches that have dominated the study of political sociology. These include functionalist, rational choice, and institutionalist theories, as well as historical and comparative approaches.

Indicative reading: S. Anderson. Imagined Communities; R. Archer, Why is There No Labour Party in the United States?, M. McQuarrie et al, Democratizing Inequalities; P Evans et al, Bringing the State Back In; S M Lipset, ‘The Social Requisites of Democracy Revisited’, American Sociological Review, vol 59, S Lukes, Power: A Radical View; D McAdam, Comparative Perspectives on Social Movements; M Mann, The Sources of Social Power; M Olson, The Logic of Collective Action; T Skocpol, Protecting Soldiers and Mothers; C. Tilly, Coercion,Capital and European States; L. Weiss, The Myth of the Powerless State.

Assessment: Exani (70%, duration: 3 hours) in the summer exam period.
Essay (30%, 3000 words) in the ST.
Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Thursday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all seminars and submission of all set coursework is required.

SO424
Approaches to Human Rights

This information is for the 2018/19 session.
Teacher responsible: Prof Chetan Bhatt STC:S107
Availability: This course is compulsory on the MSc in Human Rights. This course is available on the LLM (extended part-time), LLM (full-time), MSc in International Migration and Public Policy, MSc in Political Sociology, MSc in Sociology, MSc in Women, Peace and Security and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.
The course is capped but a limited number of places are usually available to students from outside the MSc in Human Rights who wish to take this as an option. Priority is given to postgraduate students in the Sociology Department and those registered on the LLM. The course is also available as an outside option for other
MSc degrees where regulations and numbers permit. Students from other programmes who wish to apply for a place on SO424 must complete the online application form on LSEforYou stating reasons for wishing to take the course.

**Course content:** This is a multi-disciplinary course that provides students with rigorous and focused engagement with different disciplinary perspectives on the subject of human rights including philosophy, sociology and international law. It provides students with contending interpretations of human rights as an idea and practice from the different standpoints that the disciplines present and investigates the particular knowledge claims and modes of reasoning that the respective disciplines engage. The course applies the insights of international law, philosophy and sociology to understand key human rights issues such as universality, the right to life, free speech, humanitarian intervention, war, genocide, human rights activism, globalization, and states of emergency.

**Teaching:** 10 hours of lectures and 18 hours of seminars in the MT. 10 hours of lectures and 20 hours of seminars in the LT. 2 hours of seminars in the ST.

**Reading weeks:** week 6 MT and week 6 LT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

**Assessment:** Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 3000 words) in the ST.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, STC S116, no later than 16:30 on the first Tuesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO425 Regulation, Risk and Economic Life**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Rebecca Elliott STC S211 and Prof Nigel Dodd STC S106

**Availability:** This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course introduces students to sociological perspectives on economic life and risk regulation in advanced industrial societies. Topics include economic sociology, state risk regulation including regulatory variations, enforcement and business responses, economic and civil society sources of regulation, organizational risk management, science, experts and risk regulation, globalization, and trends in risk regulation. The course will draw upon a broad international literature on social and economic regulation and case studies from the environmental, financial and public health domains.

**Teaching:** 25 hours of seminars in the MT. 25 hours of seminars in the LT. 2 hours and 30 minutes of seminars in the ST.

**Reading weeks:** reading week: week 6 MT and week 6 LT.

**Assessment:** Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 3000 words) in the MT.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, STC S116, no later than 16:30 on the first Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all seminars and submission of all set coursework is required.

---

**SO426 Half Unit **

**Classical Social Thought**

**This information is for the 2018/19 session.**

**Teacher responsible:** Professor Nigel Dodd Room STC S106 & Dr Sara Salem Room TBD

**Availability:** This course is available on the MSc in Culture and Society, MSc in Political Sociology and MSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** A critical review of classical social theory. The origins and development of classical sociological theory; exploring the work of Marx, Weber, Simmel, Durkheim and De Bois through a close reading and interpretation of primary texts. This course will also explore subsequent developments within these theoretical traditions, including their elaboration into alternative ‘canons’ of social theory. It is not assumed that students have a basic grounding in classical social theory, although it is expected that students who register for this course will be prepared to develop their understanding through primary readings, and not rely on textbooks.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

Reading week: week 6 (MT)

**Formative coursework:** 1000-word formative memo, due in Week 6 of MT.

**Indicative reading:** Relevant books that provide an overview include: A Callinicos, Social Theory, N Dodd, Social Theory and Modernity, A Giddens, Capitalism and Modern Social Theory, G Ritzer, Sociological Theory. The reading list for each seminar will be divided up into essential and additional reading. Students will be asked to read between 50 and 100 pages of primary text per week. The following is a sample list of readings: Marx, K. The Communist Manifesto & Grundrisse & Capital (sections of vols 1 & 3); Weber, M. The Protestant Ethic and the Spirit of Capitalism & ‘Science as a Vocation’; Simmel, G. The Philosophy of Money (various sections) & various essays such as ‘The Metropolis and Mental Life’, ‘The
SO427  Half Unit   Not available in 2018/19
Modern Social Thought

This information is for the 2018/19 session.
Teacher responsible: Prof Nigel Dodd STC S106
Availability: This course is available on the MSc in Political Sociology and MSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit.
Course content: Contemporary social theory. An introduction to the historical background, context and output of Walter Benjamin, Theodor Adorno, Michel Foucault, and Jean Baudrillard, and a close reading and study of some of their most significant texts.
Teaching: 20 hours of seminars in the LT.
Reading week: week 6 (LT)
Formative coursework: One formative essay in LT
Indicative reading: The following is merely a sample list of some of the texts to be covered: Benjamin, W: 'Theses on the philosophy of history' & The Arcades Project (Section N); Adorno, T: ‘Theses against Cultivism’ & Negative Dialectics (various sections); Foucault, M: The History of Madness & The Order of Things (various sections); Baudrillard, J: Symbolic Exchange and Death (mainly chapter 5) & The Spirit of Terrorism. A number of secondary readings will be recommended, but students will be strongly discouraged from relying on these.
Assessment: Essay (100%, 5000 words) in the ST.
Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Tuesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO430  Half Unit
Economic Sociology

This information is for the 2018/19 session.
Teacher responsible: Dr Rebecca Elliott - STC S211
Availability: This course is available on the MPhil/PhD in Accounting, MSc in Economy, Risk and Society, MSc in Political Sociology and MSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: Are we really rational utility-maximisers? What is the ‘economy’ and what is its relationship to society? How does economic life reflect and enact moral categories? How can we understand the production of economic ‘winners’ and ‘losers’?
This course offers a general introduction to the theoretical foundations of economic sociology, providing an opportunity to engage questions like these through both sociologically grounded accounts of economic phenomena and sociological critiques of the analytical assumptions and research procedures common in mainstream economics.

Topics covered in the course include: critical approaches to economy and society; economic rationality; the sociology of economics; morals and markets; valuation and worth; sociology of consumption; credit and debt; class and inequality.
Teaching: 25 hours of seminars in the LT.
Reading Week in Week 6 in line with Department policy
Formative coursework: A project overview due in week 7 of LT.
Indicative reading: Recommended general texts: M Granovetter & R Swedberg (Eds), The Sociology of Economic Life; D Slater & F Tonkiss, Market Society: Markets and Modern Social Theory; N Smelser & R Swedberg (Eds), The Handbook of Economic Sociology; V Nee & R Swedberg (Eds), The Economic Sociology of Capitalism. A detailed reading list will be provided at the beginning of the course.
Assessment: Project (100%, 4000 words) in the ST.
Two hard copies of the assessed project, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.
Attendance at all workshop sessions and submission of all set coursework is required.

SO434  Cultural Theory and Cultural Forms

This information is for the 2018/19 session.
Teacher responsible: Dr Donald Slater STC S310
Availability: This course is compulsory on the MSc in Culture and Society. This course is available as an outside option to students on other programmes where regulations permit.
Course content: Cultural Theory and Cultural Forms is the core course for the MSc Culture and Society. The aim is to introduce you to a wide range of approaches, debates and issues that loom large in the study of cultural processes. By the end of this course you should have a reasonable map of different aspects and approaches to researching cultural processes; and you should feel able to formulate your own research questions and strategies within the diverse traditions of culture theory and cultural research.
In Term 1 we introduce the diverse approaches to cultural theory and the central debates that have structured the field, with particular attention to the ways in which these link to central sociological themes. The second focuses on approaching these theoretical debates from the vantage of empirical research and a concern with methodologies for studying cultural processes.
Teaching: 10 hours of lectures and 20 hours of seminars in the MT. 10 hours of lectures and 20 hours of seminars in the LT.
Reading weeks: week 6 (MT) and week 6 (LT)
Formative coursework: All students are expected to submit one piece of non-assessed written work per term and prepare seminar presentations.
Assessment: Essay (50%, 5000 words) in the LT.
Essay (50%, 5000 words) in the ST.
Two hard copies of each assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the submission day. The first essay is...
due by the second Thursday of Lent Term and the second essay is due by the second Thursday of Summer Term. An additional copy of each essay is to be uploaded to Moodle no later than 18:00 on the same day each essay is due. Attendance at all seminars and submission of all set coursework is required.

SO448
City Design: Research Studio
This information is for the 2018/19 session.
Teacher responsible: Dr Suzanne Hall STC.S212
Availability: This course is compulsory on the MSc in City Design and Social Science. This course is not available as an outside option.
Course content: The City Design Research Studio is the central unit of the MSc programme, linking the critical issues raised in the core and optional lecture courses, including questions of power and social justice, with the practical analysis of issues of city design and proposals for urban intervention. This course promotes a practical understanding of the city as a social and built environment. Through a mixed-methods engagement with site-based issues, the research studio explores the different ways city design relates to policy formation, planning processes, legal frameworks, financing mechanisms, local forms of organisation and the emerging needs of complex urban societies. It will provide students with an appreciation of the complexities of urban design and development processes, and with interdisciplinary tools for addressing specific urban challenges. The course addresses design as both informed and imaginative modes of research and practice that shapes urban environments, responds to urban problems, and connects visual, social and material dimensions of the city. It aims to integrate the physical, economic, social and political aspects of urban contexts, and develop ways to analyse these visually, textually and verbally. The studio-based approach to learning is an immersion in site-based research and experimental, strategic and pragmatic forms of design intervention. The course comprises of group based fieldwork in a London site, followed by an international fieldtrip.
Teaching: The Studio course runs for one full day each teaching week in MT and LT through lectures, workshops and regular small-group tutorials; additional specialist seminars and workshops are scheduled throughout the Studio course. Studio groups are expected to work together during the scheduled Studio hours, and prepare collectively for regular workshops and tutorials. In MT, the Studio course focuses on methods and approaches of social and spatial research and analysis. In the first four weeks of LT, Studio groups work intensively on a detailed analysis of a specific urban context, and develop a practical proposal for intervention in that site. The last six weeks of LT comprise of an international field trip, and individual work on a related written assignment.
Formative coursework: Group presentations for faculty and guest critics. 1 x research presentation and site analysis. (MT)
Assessment: Other (50%), other (25%) and other (25%).
The assessment consists of:
One Studio group submission (6000 words, 50%)
Individual tutor assessment based on contribution to Studio group work (25%)
Individual field trip assignment (3000 words, 25%)
Two copies of the Studio group submission, with submission sheets attached to each, to be submitted to the Administration Office, STC S116, no later than 16:30 on the 15th of August 2019 if you are a student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO449
Independent Project
This information is for the 2018/19 session.
Teacher responsible: Dr Suzanne Hall STC.S212
Availability: This course is compulsory on the MSc in City Design and Social Science. This course is not available as an outside option.
Course content: The independent project enables students to develop an original and extended piece of work on any approved topic within the field of the MSc programme - students are encouraged, but not required, to develop work on themes or sites introduced in their Studio or core courses. The project may focus on a small-scale urban research study or on a practical proposal for urban intervention. Approval for the topic must be obtained from your academic advisor.
Teaching: In LT students attend a project workshop and then submit a provisional project abstract; academic advisors for the independent project are assigned on the basis of the abstract. In ST, each student has regular supervisory meetings with their academic advisor, and one day of final group reviews with members of faculty. Students are also encouraged to consult with other members of faculty during regular office hours.
Formative coursework: Students are required to submit one project abstract, and to produce regular formative project work in consultation with their academic advisor.
Assessment: Project (100%, 10000 words) post-summer term. Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:00 on the 15th of August 2019 if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.
Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

SO451
Cities by Design
This information is for the 2018/19 session.
Teacher responsible: Dr Suzanne Hall STC.S212
Availability: This course is available on the MPphiPhD in Cities Programme, MSc in City Design and Social Science and MSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit. SO451 is a capped course and we can only accept 32 students. If you are not registered on the MSc City Design and Social Design please submit an e-mail to Suzanne Hall motivating your inclusion on the course, ONCE you have attended the first introductory lecture where we will be available to respond to individual questions.
Course content: The course examines the relationship between built form and its political, social and cultural relations in contemporary urban landscapes. By introducing students to established and emerging approaches to design, the course investigates how the design of our complex urban environments shapes and is shaped by the people who live in them, and the urgencies of time and place. The course focuses on current urban research across diverse urban contexts and attempts to reconcile the often complex inter-connections between urban theory, research, policy and practice. A range of contemporary cities form the base for the course, and these are explored through urban design milieu and architectures including: design as ideology, design as observation, and the architectures of infrastructure, evidence and insurgency.
Teaching: 10 hours of lectures and 20 hours of seminars in the MT.
Reading week: week 6
Formative coursework: Students are expected to produce 1
essay in the MT.
Written feedback is given within two weeks of the essay submission, and in addition a writing seminar is incorporated in the course in preparation for the summative assessed essay.  
**Indicative reading:** A detailed reading list will be distributed at the beginning of the course. We simultaneously engage with literatures by architects (as a broadly defined practice) and a range of social scientists. These include architects exploring new modes of practice and research, for example: Bremner, Burdett, Davis, Easterling, Hall, Hernandez, Lokko, King, Kurjan, Mehrotra and Weizmann, as well as social scientists exploring design and city space, for example: Datta, Hayden, Holston, Jacobs, Madden, Roy, Sennett, Scott, Simone, and Tonkiss.
**Assessment:** Essay (75%, 5000 words) in the LT. Presentation (25%) in the MT.

An illustrated course essay of not more than 5000 words to be submitted by 4pm on the first Tuesday of LT. Two hard copies of the assessed essay, with submission sheets attached to all copies, to be handed in to the Administration Office, S116. An additional copy to be uploaded to Moodle no later than 18:00 on the same day. Attendance at seminars and submission of all set coursework is required.

**SO454**  
**Half Unit**  
**Not available in 2018/19**  
**Families and Inequalities**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Ursula Henz STC S100B

**Availability:** This course is available on the MSc in International Migration and Public Policy and MSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** The course provides an introduction into selected issues of family sociology, focusing on families in contemporary Western societies. It explores inequalities within and between families and the role of families in reproducing social inequality. Major themes include: childhood; adolescence, partnership formation and dissolution, parenthood; gender roles and the division of paid and unpaid work; intergenerational transfers.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

Reading week: week 6

**Formative coursework:** Essay (1500 words) in the LT.

**Assessment:** Essay (100%, 5000 words) in the LT.

Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day. Attendance at all seminars and submission of all set coursework is required.

---

**SO457**  
**Half Unit**  
**Not available in 2018/19**  
**Political Reconciliation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Claire Moon STC S109

**Availability:** This course is available on the MSc in Human Rights, MSc in International Migration and Public Policy, MSc in Political Sociology, MSc in Sociology and MSc in Women, Peace and Security. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is capped.

**Course content:** The course introduces students to current issues in the field of transitional justice and historical injustice, and draws upon a range of examples from Africa, Latin America, post-communist Europe, Australia and the US. Topics include transitional justice as a field of practice and a field of knowledge; historical injustice - apologies and reparations; state crimes; retributive and restorative justice; perpetration; theology and therapy in reconciliation; memory and atrocity. The course explores the politics of reconciliation by identifying and examining its key themes, the practices and institutions in which it is embedded and the political subjects of reconciliation discourse. It is an interdisciplinary course that draws upon literature from sociology, law, political theory, anthropology and philosophy amongst others, in order to understand and interpret the wide social and political reach of reconciliation, as well as its limitations.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

Reading week: week 6

**Formative coursework:** One formative essay to be returned in week seven of the MT (does not contribute towards the overall mark for the course).

**Assessment:** Exam (70%, duration: 2 hours) in the summer exam period.

Essay (30%, 3000 words) in the LT.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to Sara Ulfsparre, Centre for the Study of Human Rights, PEL B.02, no later than 16:30 on the first Wednesday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day. Attendance at all seminars, completion of set readings and submission of set coursework is required.

---

**SO458**  
**Half Unit**  
**Not available in 2018/19**  
**Gender and Societies**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Suki Ali STC S102

**Availability:** This course is available on the MSc in Gender (Sexuality), MSc in Gender, Policy and Inequalities, MSc in Political Sociology and MSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit.

---
Course content: The course introduces theoretical debates and contemporary issues in the sociological study of gender. Topics include femininities/masculinities, sexualities; nation and family; work; education; violence; transnational feminism; politics, representation. NB topics may change slightly from year to year.

Teaching: 30 hours of seminars in the MT.

Reading week: week 6

Assessment: Essay (100%, 5000 words) in the LT. Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all seminars and submission of all set coursework is required.

SO465 Half Unit
City-Making: the Politics of Urban Form

This information is for the 2018/19 session.

Teacher responsible: Dr Philipp Rode FAW 8.01K and Dr Savvas Verdis FAW 8.01D

Availability: This course is available on the MSc in City Design and Social Science, MSc in Regional And Urban Planning Studies and MSc in Urban Policy (LSE and Sciences Po). This course is available as an outside option to students on other programmes where regulations permit.

Course content: This case study-led course provides a critical understanding of major urban development initiatives and programmes in international city contexts. It is designed for students with a particular interest in urban development practices and how these connect with broader political debates. It will introduce students to the following knowledge and skills:

• general understanding of political theories underlying urban development models
• ability to situate major urban development initiatives within different development cultures and socio-economic policy agendas
• understanding the role of public, private and third party actors and formal and informal urban development processes
• perspectives on decision making at the strategic and pre-design stage for urban development initiatives and ability to relate urban policy to spatial outcomes, operating at different scales
• knowledge of key evaluation approaches and analytic frameworks used in the analysis of proposed and existing urban developments
• understanding of how urban development objectives, phases and processes can be integrated and how policy making, economic development, urban planning, city design, architecture, and engineering are related.

The course content is based on contemporary projects and urban trends examined in the context of cities throughout the world. These range from policies such as congestion charging (London) and Progressive City Development (Medellin) to urban development trends such as extreme urbanism in Mumbai and privatist planning (Canary Wharf, London and Santa Fe, Mexico City). Such projects will be examined through critical frameworks that include utilitarianism, cost-benefit analysis, social and environmental justice, citizenship theory and the capabilities approach. The course will focus on negotiation, politics, financing, appraisals and decision-making for cities by inviting practitioners, experts and policy makers to join individual sessions for presentations and debate. Seminars and assessed project work for the course will be based on the analysis of Development Strategies and City Design briefs.

Further information on the course can be found on: www.citymaking.com

Teaching: 10 hours of lectures and 20 hours of seminars in the LT.

Reading week: week 6

Formative coursework: 1 x contribution to student debate OR 1 x critical statement following a guest lecture AND submission of a 1,000 word position statement.

Assessment: Project (100%, 5000 words) in the ST.

Two hard copies of the project, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO468 Half Unit
International Migration and Migrant Integration

This information is for the 2018/19 session.

Teacher responsible: Dr Patrick McGovern STC.S214

Availability: This course is available on the MSc in International Migration and Public Policy, MSc in Political Sociology and MSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Coverage of contemporary sociological perspectives on migrant integration including admissions, policy, labour market incorporation; welfare and social rights; ‘assimilation’ and social integration; national models of integration; multiculturalism, religion and ethnicity; and the second generation.
Additional copy to be uploaded to Moodle no later than 18:00 on S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to each, to be handed in to the Administration Office, will be available to students taking this course.

Assessment: Exam (90%, duration: 2 hours) in the summer exam period. Presentation (10%) in the MT. Exam will be held during the Summer Term exam session.

SO469  Half Unit  Not available in 2018/19
Risk and Governance: A Sociological Approach

This information is for the 2018/19 session.
Teacher responsible: Prof Bridget Hutter STC S102
Availability: This course is available on the MSc in Sociology, MSc in Politics, and MSc in Risk and Finance.

Assessment: Exam (100%, 5000 words) in the LT.

Reading week: week 6.
Formative coursework: A 500 word essay is required.
Indicative reading: There is no recommended textbook. Books of a general nature that cover substantial parts of the syllabus are: S. Castles and M. J. Miller (2013) The Age of Migration (5th edn); P. Kvist and T. Faist (2010) Beyond A Border and A. Portes (2014) Immigrant America (4th edn). A more comprehensive bibliography will be available to students taking this course.

Course content: This course aims to give students an advanced understanding of the various ways in which risk is governed in modern societies and an appreciation of the complexities of different levels of risk governance. It will consider three main areas. First, state based risk governance regimes; second, risk governance beyond the state; and third, transnational risk governance. The topics under consideration include a critical discussion of what is regarded as risk evidence and the role of experts in policy making; how state regulators incorporate risk based approaches into their governance regimes; the role of insurance companies and other business organizations in risk governance; the role of the public; and attempts to governance risks which traverse national borders. The course will draw on examples from a variety of domains including the environment, finance, biotechnology and food.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT.
Reading week: week 6.
Formative coursework: Students should hand in one 2,000 word formative essay.

Assessment: Essay (100%, 5000 words) in the LT.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO470  Half Unit  Not available in 2018/19
The Sociology of Markets

This information is for the 2018/19 session.
Teacher responsible: Dr Leon Wansleben STC S208
Availability: This course is available on the MRes/PhD in Management (Organisational Behaviour), MSc in Economy, Risk and Society, MSc in Political Sociology and MSc in Sociology.

Context: This course offers an introduction to the sociology of markets. We will look at this topic from two different sides: On the one hand, we will explore different theoretical issues in economic sociology, such as market structure, valuation, and the role of the state. Here, the underlying question is what sociology can contribute to a theoretical understanding of markets. On the other hand, we will explore particular case studies, such as illegal markets or markets for fine art; students will get the chance to study one of these cases in-depth. By the end of the course, students will be versed in the sociological and larger debates about markets, and they will be equipped to contribute to these debates with small, innovative case studies.

Reading week: week 6.
Formative coursework: A 1500 word essay is required.

Assessment: Essay (100%, 5000 words) in the ST.

Assessment will consist of an essay analysis of two case studies along with the submission of a portfolio (100%). Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Attendance at all workshop sessions and submission of all set coursework is required.

SO471  Half Unit  Technology, Power and Culture
Technology, Power and Culture

This information is for the 2018/19 session.
Teacher responsible: Prof Judy Wajcman STC S203
Availability: This course is available on the MSc in Culture and Society.

Assessment: Essay (100%, 5000 words) in the LT.

Formative coursework: Students should hand in one 2,000 word formative essay.

Assessment: Essay (100%, 5000 words) in the LT.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.
such as those that find expression in the virtuality of cyberspace. The course will draw on examples from a variety of domains including the environment, the internet, robotics, sex, and weapons.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**SO473 Half Unit Crime, Control and the City**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Janet Foster

**Availability:** This course is available on the MSc in City Design and Social Science, MSc in Criminal Justice Policy, MSc in Regional And Urban Planning Studies and MSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This half unit course examines crime and disorder in city landscapes, the relationship between crime, space and place, and the complex mix of informal and formal social controls that influence different types and levels of crime. Drawing on a range of comparative literature from different cities, and using a mixture of classic and contemporary texts, we examine the importance of informal social control in maintaining social order in cities, the role of policing, and what happens when formal and informal social controls fail using the riots, gangs and homicide as examples. We also explore the principles of crime prevention – both physical and social – and use public housing as a case study to critically examine the relationship between crime and design.

**Teaching:** 25 hours of seminars in the MT.

Reading week: week 6.

**Assessment:** Essay (100%, 5000 words) in the ST.

Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO475 Half Unit Not available in 2018/19 Material Culture and Design**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Donald Slater STC S310

**Availability:** This course is available on the MSc in City Design and Social Science, MSc in Culture and Society, MSc in Econony, Risk and Society and MSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course focuses on designed entities in everyday life, looking at the ways in which materials are configured into things, practices, spaces and forms, and at the assemblage of objects across production, design, consumption and use. Though aiming to produce expertise in specifically social science research, the course will bring together literatures and debates that cross the social sciences, humanities and science/technology, drawing particularly on actor-network theory, material culture studies, sociology of consumption, practice theory, urban and architectural studies, cultural theory and design studies. There will also be a strong emphasis on methodology: what tools are available to social scientists to investigate the emergent properties and impacts of designed objects. Case studies will be central to the teaching, developing theoretical and methodological strategies through a (changing) set of empirical cases that are likely to include: digital objects (software, games); media objects; lights and lighting; fashion; domestic interiors.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

Reading week: week 6.

**Formative coursework:** One 2,500 essay applying a theoretical approach to a specific case study.

**Assessment:** Essay (100%, 5000 words) in the LT.

Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO476 Researching Migration: research questions and research methods**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Patrick McGovern STC S214

**Availability:** This course is compulsory on the MSc in International Migration and Public Policy. This course is not available as an outside option.

**Course content:** Having introduced the students to a range of possible research strategies, the students will be asked to prepare informal seminar presentations on their proposed research in the MT and LT. In addition, they will submit a one hundred word topic
summary towards the end of the MT and a 400 word research proposal before the end of the LT. They will also prepare and deliver a formal presentation on their research for a workshop early in the ST. At each stage, participants will be encouraged to use feedback from the course convenors and fellow students to revise their research plans. A final proposal will be submitted after the ST workshop.

**Teaching:** Lectures 3 x 1 hour (3); Seminars 2 x 2 hours (4); Workshop 5 hours (5). Total 12 hours

**Formative coursework:** Students will be expected to produce 3 presentations in the MT, LT and ST.

**Assessment:** This course is not assessed.

---

**SO478** Half Unit Not available in 2018/19

**Social Scientific Analysis of Inequalities**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Sam Friedman STC S216 and Prof Michael Savage STC S210

**Availability:** This course is compulsory on the MSc in Inequalities and Social Science. This course is not available as an outside option.

**Course content:** The course will consider interdisciplinary approaches to inequality, focusing on (a) how inequality can be conceptualised and explained, (b) how it can be measured and (c) ethical and political issues. Topics to be covered include patterns and trends in economic inequalities, gender, ethnicity, class and age; cultural aspects of inequality; social and intergenerational mobility; global and comparative perspectives; geographical and neighbourhood polarisation; health and educational inequalities; media representation of inequalities; ethical and philosophical approaches; the impact of government, law and social policy.

**Teaching:** 15 hours of lectures and 10 hours of seminars in the MT. 15 hours of lectures and 15 hours of seminars in the LT. 3 hours of classes in the ST.

The course is taught in 20 x one-and-a-half hour lectures, plus 10 x one-hour seminars in MT and 10 x one and a half hour seminars in LT. It is divided into blocks of related lectures and linked seminars. The ST class is a revision class.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 mock exam in the LT.

**Assessment:** Essay (30%, 3000 words) and presentation (20%) in the LT.

Take home exam (50%) in the ST.

The presentation will be from a group exercise in the LT.

Two hard copies of the assessed essay with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Lent Term. An additional copy to be uploaded to Moodle no later than 18.00 on the same day.
regulations permit.

**Course content:** Drawing on postcolonial theory and critique, this course explores how human rights and international law came to be institutionalized in the context of European colonialism, and what the contemporary implications of this historical fact may be today. Engaging with the fields of socio-legal studies, intellectual history and social theory, the course also asks why, and with what consequences, human rights tend to monopolize the political language through which many social movements throughout the world articulate their desires for social and global justice.

**Teaching:** 25 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

**Indicative reading:**
- David Harvey, Cosmopolitanism and the Geographies of Freedoom (New York: Columbia University Press, 2009).

**Assessment:** Essay (90%, 5000 words) in the ST.

Class participation (10%) in the LT.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, STC S116, no later than 16:30 on the second Thursday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO480 Half Unit**

**Urban Inequalities**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Fran Tonkiss STC S205

**Availability:** This course is available on the MSc in City Design and Social Science, MSc in Inequalities and Social Science, MSc in Regional And Urban Planning Studies, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course offers a critical introduction to key issues and processes in the study of contemporary urban inequalities. Recent urban analysis has highlighted the growing share of the global population that now lives in cities; this course puts such growth in the context of another major urban trend: deepening patterns of inequality in many cities across the world. It examines the continuing role of ‘older’ bases of urban inequality - access to land and property, gender inequality, ethnic and racial discrimination, legal exclusion and informality – as well as significant emerging patterns, including extreme concentrations of wealth at the top, middle-class stagnation, privatisation and spatial secession, immigration and insecurity. It also examines the complex of ways in which urban inequality is experienced, not only in terms of income or property, but also in consumption inequalities, inequities in access to housing, transport, urban services and legal protections, spatial disparities and environmental risks and injustices. The course considers the range of social, economic, environmental and political factors that shape, and also might help to address, urban inequality in these different contexts.

The course will:
- provide a critical introduction to current and emerging patterns of urban inequality
- consider the production of urban inequalities through social, economic, political and spatial processes
- explore common themes and critical differences across cities in developed and developing economies
- address key debates in a range of urban disciplines, and situate these in specific urban contexts and examples
- Key themes
  - Urban growth and the growth of inequality
  - Wealth, income and inequality
  - Spatial injustice: segregation and access
  - Environment and inequalities
  - Informality and insecurity
  - Social inequality in the city: gender, race and legal exclusions
  - Governing inequality

**Teaching:** 10 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

1 x 2000-word essay

**Indicative reading:**

**Assessment:** Essay (100%, 5000 words) in the ST.

Two hard copies of the project, with submission sheets attached to each, to be submitted to the Administration Office, STC S116, no later than 16:30 on the first Wednesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

---

**SO481 Half Unit**

**Class, Politics and Culture**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Sam Friedman STC216

**Availability:** This course is available on the MSc in Culture and Society, MSc in Inequalities and Social Science, MSc in Political Sociology and MSc in Sociology. This course is not available as an outside option.

**Course content:** The course will begin by introducing traditional theories of social class and stratification before going on to examine the history and political significance of class in Britain,
and how this compares with other countries throughout the world. It will then look at the place of class in a contemporary political context, critically examining the claim made by some ‘postmodern’ writers, and prominent politicians, that class boundaries have been irrevocably eroded. The course will then move on to look at the seminal work of French sociologist Pierre Bourdieu and his supposition that class boundaries are most clearly discernible from examining people’s cultural taste, with the privileged using their preferences for ‘highbrow’ culture as a means of expressing their superiority over the working classes, who tend to prefer more ‘lowlbrow’ culture. We interrogate how these arguments relate today, where the lines between high and low culture are increasingly blurred, where strong cross-cultural differences persist between Europe and the U.S, and where new taste distinctions exist even in traditionally lowbrow art forms, such as comedy and pop music. We then take a more detailed look at class-based boundaries in taste and lifestyle. In particular, we discuss on the way in which the middle classes demarcate sections of the working class based on what they consider to be ‘pathological’ consumption choices – focusing in particular on the ‘Chav’ phenomenon in Britain. We go on to explore both the meaning and consequences of such overt class prejudice, both in Britain but also using research from the U.S, the Netherlands and other international contexts. Finally, the module will ask to what extent class boundaries are malleable? How easy is it for people to escape their backgrounds and move upward or downward in social space? This final section of the course thus looks at contemporary patterns of social mobility, examining the social benefits and challenges that mobility implies, increasing closure within global elites, and the rise of the middle classes in developing countries like China, Brazil and South Africa.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures and 1 hour of seminars in the ST.

Reading week: week 6.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Assessment: Essay (100%, 5000 words) in the LT.

Two hard copies of the assessed essay with submission sheets on each, to be handed in to the Administration Office, S116, no later than 16:30 on the second Thursday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

SO483   Half Unit   Social Change Organizations

This information is for the 2018/19 session.

Teacher responsible: Dr Michael McQuarrie STC.S217a

Availability: This course is available on the MSc in City Design and Social Science, MSc in Human Rights, MSc in Political Sociology and MSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit.

Course content: The purpose of this class is to familiarise students with organisational sociology from the perspective of organisations other than firms or governments. Organisations are one of the primary tools society has for realising values and interests. However, organisations are not simply tools. They constrain and enable action for social change in a variety of ways and shape the outcomes of our efforts. Attempting to realise
social change using organisations creates a set of dilemmas that must be managed and dealt with for efforts to be successful. The course will focus on social movement organisations, NGOs, associations, cooperatives, communes, and the dilemmas that these organisations confront in attempting to realise their goal of a better society. The course will also familiarise students with the theoretical and analytical tools sociologists use to understand social change organisations.

**Teaching:** 20 hours of seminars in the LT.

The class format will be a combination of lectures, guest Q&A with leaders of social change organisations, and seminar discussion. Week 6 is a reading week.

**Formative coursework:** Formative coursework will consist of preparing and leading discussions, in-class analytical writing, and assignments meant to advance student work on the final essay.

**Assessment:** Essay (100%, 4000 words) in the ST.

For their assessment students will complete an essay that does not exceed 4000 words in length. The essay will either be a review essay of the sociological literature on a topic related to social change organisations or an analysis of a social change organisation using the tools learned in the class.

Two hard copies of the assessed essay, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:30 on the first Tuesday of Summer Term. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

**SO493 MSc in Culture and Society Dissertation**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Donald Slater STC S310 and Prof Nigel Dod STC S106

**Availability:** This course is compulsory on the MSc in Culture and Society. This course is not available as an outside option.

**Course content:** This workshop will guide students through the process of conducting an independent dissertation project in the MSc Culture and Society.

**Teaching:** 1 hour and 30 minutes of seminars in the MT. 1 hour and 30 minutes of seminars in the LT.

There will be three workshops during MT for ALL MSc students based in the Sociology department. These will be taught in conjunction with LSE Life and programme convenors, and aim to provide some basic guidance about planning your dissertation, such as selecting a suitable topic, reviewing the existing literature, devising a research question and designing a research method.

**Indicative reading:** This is a workshop and has no specific reading list.

**Assessment:** Dissertation (100%, 10000 words) in August.

Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:00 on Thursday 15th of August 2019 if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

**SO494 MSc in Political Sociology Dissertation**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Donald Slater STC S310 and Prof Nigel Dod STC S106

**Availability:** This course is compulsory on the MSc in Political Sociology. This course is not available as an outside option.

These seminars are for students on the MSc Political Sociology only.

**Course content:** These seminars aim to help you to begin the process of writing your dissertation. At the end of MT we will have four seminars that aim to get students thinking at a meta-level about research in political sociology. The seminars can, of course, only address a small selection of approaches. Examples might include rational choice and institutionalist theories, or comparative and case study methods. But please note that the MSc in Political Sociology takes a pluralist approach and does not seek to prescribe these or any other particular theories or methods. In LT we will hold dissertation workshop seminars that aim to give individually tailored guidance on proposed research questions in small groups with fellow students who are working on similar topics or using similar methods. Every student is required to make
a formal presentation once during the term.

**Teaching:** 6 hours of seminars in the MT. 15 hours of workshops in the LT.

4 x 1.5 hours seminars in MT. 10 x 1.5 hours workshops in LT.

There will be three workshops during MT for ALL MSc students based in the Sociology department. These will be taught in conjunction with LSE Life and programme convenors, and aim to provide some basic guidance about planning your dissertation, such as selecting a suitable topic, reviewing the existing literature, devising a research question and designing a research method.

**Formative coursework:** Students will be expected to produce 1 presentation in the LT.

Students will: (1) assess the strengths and weakness of selected theories and methods; (2) formulate a clearly specified research question and set out the rationale for researching this question and a proposed approach; and (3) give a presentation which develops one or two of the main arguments they anticipate will be important to their project.

**Assessment:** Dissertation (100%, 10000 words) post-summer term.

Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:00 on Thursday 15th of August 2019 if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

---

**SO495**

**MSc in Economy, Risk and Society Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Chetan Bhatt STC.S107

The Programme Convenor is responsible for overseeing the Dissertation.

**Availability:** This course is compulsory on the MSc in Human Rights. This course is not available as an outside option. This course is only available to MSc Human Rights students, and is a compulsory course for students on the programme.

**Course content:** The dissertation is an extended piece of written work that is your own independent research investigation of a social issue or problem, undertaken with the guidance of your dissertation supervisor. These workshops are meant to prepare you to produce an original piece of research. We will cover the expectations for the dissertation, as well as provide general guidance for deriving a research question that is appropriately situated in the themes of the programme; for developing an empirical strategy to study topics in risk, economic sociology, and/or regulation; and for writing up conclusions that can speak to enduring questions in our area. In addition to consultation with faculty, in these sessions students will work in smaller groups to peer review their work-in-progress.

**Teaching:** 2 hours of lectures in the MT. 3 hours of seminars in the LT. 2 hour of seminars in the ST.

There will be one Introductory lecture in MT for all MSc Human Rights students, on the challenges and requirements of doing independent research for dissertation purposes, and different methodologies available for an inter-disciplinary programme. The Introductory session will also cover fieldwork and research ethics. This will be followed by 5 seminars/workshops in smaller groups, in which students present and discuss possible research questions and strategies, along with preparing dissertation proposal and timeline.

There will be three workshops during MT for ALL MSc students based in the Sociology department. These will be taught in conjunction with LSE Life and programme convenors, and aim to provide some basic guidance about planning your dissertation, such as selecting a suitable topic, reviewing the existing literature, devising a research question and designing a research method.

**Formative coursework:** Students are required to submit two pieces of work; one topic proposal during MT, and a formal abstract at end of LT.

**Indicative reading:**

- Clive Seale, The Quality of Qualitative Research (London: Sage, 1999)
- Howard Becker, Writing for Social Scientists (Chicago: University of Chicago, 1986)

**Assessment:** Dissertation (100%, 10000 words) post-summer term.

Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Administration Office, S116, no later than 16:00 on Thursday 15th of August 2019 if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

---

**SO496**

**MSc in Human Rights Dissertation**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Chetan Bhatt STC.S107

The Programme Convenor is responsible for overseeing the Dissertation.

**Availability:** This course is compulsory on the MSc in Human Rights. This course is not available as an outside option. This course is only available to MSc Human Rights students, and is a compulsory course for students on the programme.

**Course content:** The dissertation is an extended piece of written work that is your own independent research investigation of a human rights issue or problem, undertaken with the guidance of your dissertation supervisor. In the dissertation, you will critically appraise evidence, arguments and debates to reach a conclusion your research question. The key requirement is that the dissertation should demonstrate a high level of independent critical ability. You must show your ability to organise your material clearly and logically and to sustain a reasoned and cogent argument from beginning to end. Where appropriate you should explain clearly the research method(s) that you have applied and the reasons for your choice of approach. You should show awareness of any shortcomings of your study in relation to methods employed and where relevant, quality or quantity of the data, and disciplinary approach.

**Teaching:** 2 hours of lectures in the MT. 3 hours of seminars in the LT. 2 hour of seminars in the ST.

There will be one Introductory lecture in MT for all MSc Human Rights students, on the challenges and requirements of doing independent research for dissertation purposes, and different methodologies available for an inter-disciplinary programme. The Introductory session will also cover fieldwork and research ethics. This will be followed by 5 seminars/workshops in smaller groups, in which students present and discuss possible research questions and strategies, along with preparing dissertation proposal and timeline.

There will be three workshops during MT for ALL MSc students based in the Sociology department. These will be taught in conjunction with LSE Life and programme convenors, and aim to provide some basic guidance about planning your dissertation, such as selecting a suitable topic, reviewing the existing literature, devising a research question and designing a research method.

**Formative coursework:** Students are required to submit a topic proposal at the end of MT and a fuller dissertation proposal at end of LT. During the seminars and in dissertation supervisions, students receive formative feedback on their ideas and research plans. The summative assessment is the submission of a completed dissertation in August.

**Indicative reading:** Alan Bryman, Social Research Methods

Assessment: Dissertation (100%, 10000 words) post-summer term.

Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Administration Office, STC S116, no later than 16:00 on Thursday 15th August 2019 if you are a full-time student and in the subsequent year if you are a part-time student. An additional copy to be uploaded to Moodle no later than 18:00 on the same day.

Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

SO499
MSc in Sociology Dissertation

This information is for the 2018/19 session.

Teacher responsible: Dr Sam Friedman STC S216 and Prof Michael Savage STC S210

Availability: This course is compulsory on the MSc in Sociology.

Course content: The dissertation may be on any topic within the field of the MSc programme studied. Approval for the topic must be obtained from the relevant Programme Tutor.

Teaching:

Dissertation Preparation

The dissertation must be a report of a research project, whether it comprises primary empirical material, secondary empirical material or theoretical/exegetical work on a body of social thought: i.e. there must be an identifiable and clear research question governing the research project; there must be critical reflection on the methods used (including their limits and the reasons why they warrant the kinds of claims made); and substantive analysis of empirical or analytical material. Even where the topic is substantively a literature or policy-review exercise, candidates are expected to offer original reasoned argument and interpretation and to show evidence of a competence in research methods. Guidance on topic selection and methods will normally be provided by the candidate’s tutor. The dissertation is primarily a reflection of the candidate’s own work and so feedback will not be given on draft versions of the dissertation. The dissertation should reflect the candidate’s own views.

There will be 1 hour and 30 minutes of seminars in the LT. 1 hour and 30 minutes of seminars in the ST.

Dissertation Particulars

The dissertation should be word-processed and be fully referenced using a recognised citation system. Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.
**SO4A1**  
**Governing Cities in an Urban Age: Challenges and Opportunities**

This information is for the 2018/19 session.  
**Teacher responsible:** Prof Richard Burdett FAW 8.01J and Prof Antony Travers CON6.06  
**Availability:** This course is compulsory on the Executive MSc in Cities. This course is not available as an outside option.  
This course is only available to students registered in the Executive MSc in Cities.  
**Course content:** Governing Cities in an Urban Age is an intensive introduction to global urbanisation and the state of cities. The course explores different stages of urban development in cities and regions across the world. It provides students with an understanding of the key challenges facing both mature and rapidly-developing metropolitan areas. It will locate the key challenges facing large cities, notably the persistent levels of social inequality, poverty, unsustainable resource use and constraints to economic efficiency. The course introduces the key tools for intervention such as planning, governance and management of land and infrastructure in response to critical pressures linked to economic development, globalisation, migration, social inclusion, climate change, resource efficiency, and resilience. The key purpose of the course will be to give participants a comprehensive framework for understanding the challenges which cities are facing today.  
Topics include: global urbanisation, development and design, urban change, population growth, urban productivity, urban expansion, urban sprawl, densification, intensification, sociability, urban governance, urban institutions, budgets and responsibilities.  
**Teaching:** 7 hours and 30 minutes of lectures, 15 hours of seminars and 7 hours and 30 minutes of workshops in the MT. The course will be taught over a period of one week in the MT.  
**Formative coursework:** Students will be expected to produce 1 essay in the MT. Submission of a 500 word non-assessed formative statement outlining the key political, environmental and socioeconomic challenges in the student’s city that will shape the content of the 2,000 word assessed report.  
**Assessment:** Essay (70%, 2000 words) and presentation (30%) in the MT. A presentation and submission of a 2,000 word report in MT of how the student’s city or organisation is dealing with some of the challenges and opportunities presented in the course.

---

**SO4A2**  
**Cities and Society: Design and Social Cohesion**

This information is for the 2018/19 session.  
**Teacher responsible:** Prof Richard Burdett 8.01J  
**Availability:** This course is compulsory on the Executive MSc in Cities. This course is not available as an outside option.  
This course is only available to students registered in the Executive MSc in Cities.  
**Course content:** Cities and Society: Design and Social Cohesion looks at some of the major drivers of urban inequality and poverty and the key actions that cities are taking to reduce urban inequalities through urban design, infrastructure and policy. This is a heavily applied course providing students with tools to analyse the socio-demographic profile of households and neighbourhoods and their relation to spatial distribution and clustering in cities of the developing and developed world. Students are introduced to traditional measures of poverty and inequality such as income and wealth as well more recent multi-dimensional poverty measures such as health and education, and provided with analytical and mapping tools to identify areas of concentration of deprivation. A particular emphasis is placed on identifying spatial strategies that can alleviate the concentration of urban poverty and inequality by optimising access to jobs, housing, education, health, public space, transport and community infrastructure.  
Cities and Society will also look at the macro-economic forces that are producing uneven regional and urban development and the key planning methods to reduce levels of inequality. These include spatially blind policies such as taxation and redistribution; spatially connective policies such as infrastructure links between high and low income neighbourhoods and finally spatially targeted policies where private and public investment is targeted at the most deprived urban areas.  
Topics include: inequality and GINI coefficients; from income to multi-dimensional measures of poverty; the Human Development Index and its urban relevance; affordable housing, social infrastructure; equity planning (examples include London, Barcelona, Medellin and Bogota; the London model of urban regeneration; infrastructure and equity, health and well-being, migration.  
**Teaching:** 4 hours and 30 minutes of lectures, 3 hours of seminars and 1 hour and 30 minutes of workshops in the MT. The course will be taught over a period of three sessions.  
**Formative coursework:** Students will be expected to produce 1 essay in the MT. 500 word submission identifying the social research methods used in the assessment of a policy or project of your choice.  

**Assessment:** Essay (70%, 2000 words) and presentation (30%) in the LT.

Design and present a research method to assess a project or policy of your choice (30%) and submission of an essay looking critically at the social research methods used in the assessment of an existing policy or project (70%).

---

**SO4A3**  
Cities and the Economy: Urban Economic Development and Finance

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Savvas Verdis FAW 8.01E

**Availability:** This course is compulsory on the Executive MSc in Cities. This course is not available as an outside option. This course is only available to students registered in the Executive MSc in Cities.

**Course content:** Cities and the Economy forms part of the Executive MSc in Cities. This is an applied course looking at how cities position themselves in a competitive global economy and on the role of city government and firms in driving local economic development. The course introduces key methodologies to measure and analyse the city economy as well as policies and tools available to attract investment and finance as well as improve growth and competitiveness.

From a global economic level, we will look at the forces shaping urban development and the capacity of national, regional and local policies to influence these drivers. From a more local economic level, we will look at the make-up and sectorial composition of a city economy; how we can measure the economic impact of policies and projects and finally how we can finance and fund complex infrastructure projects.

Topics include: measuring growth and competitiveness over time, comparative vs competitive advantage, key performance indicators of a city economy, local growth coalitions, the role of infrastructure and megaprojects in driving competitiveness, managing city budgets, financing your city, global city indexes, special economic zones and other incentives, preparing an economic development strategy.

**Teaching:** 4 hours and 30 minutes of lectures, 3 hours of seminars and 1 hour and 30 minutes of workshops in the MT. 10 hours and 30 minutes of lectures, 6 hours of seminars and 3 hours of workshops in the LT.

The course will be taught over a period of three sessions.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

500 word submission describing the financing strategy of a project of your choice.

**Assessment:** Essay (70%, 2000 words) in the ST.

Presentation (30%) in the LT.

Pitch a financing strategy for a selected case study area to an expert panel (30%) and submission of a 2,000 word written report analysing the financing strategy of a project of your choice (70%).

---

**SO4A4**  
Cities and the Environment: Urban Environmental Transitions

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Philipp Rode FAW 8.01I

**Availability:** This course is compulsory on the Executive MSc in Cities. This course is not available as an outside option. This course is only available to students registered in the Executive MSc in Cities.

**Course content:** Cities and the Environment explores critical aspects of environmental sustainability in relation to both urbanisation globally and urban change in individual cities. This is an applied course giving students the relevant tools to measure, analyse and assess environmental impact. It introduces debates on different green city paradigms and focuses specifically on approaches to urban climate change mitigation and adaptation. The course further examines implications for urban planning, governance and management.

Cities and the Environment aims to provide the students with an analytical understanding of environmental challenges linked to urban development. Based on these, students are introduced to planning approaches, policy instruments and governance arrangements enabling environmental sustainability and resilience, facilitating the transition to a green economy in cities.

Topics include: environmental sustainability, green economy, environmental impact assessments, climate change adaptation and mitigation in cities, climate resilience, urban environmental transition, resource consumption, pollution, biodiversity.

**Teaching:** 4 hours and 30 minutes of lectures, 3 hours of seminars and 1 hour and 30 minutes of workshops in the MT. 10 hours and 30 minutes of lectures, 6 hours of seminars and 3 hours of workshops in the LT.

The course will be taught over a period of three sessions.

**Formative coursework:** Students will be expected to produce 1 essay in the LT. 500 word submission detailing the implementation logic of an urban environmental strategy of your choice.

Prentice Hall.

SO4A5
Urban Infrastructure and Strategic Planning
This information is for the 2018/19 session.
Teacher responsible: Dr Philipp Rode FAW 8.011 and Prof Antony Travers CON6.06
Availability: This course is available on the Executive MSc in Cities. This course is not available as an outside option.
This course is only available to students registered in the Executive MSc in Cities and is offered as an option.
Course content: Urban infrastructure and strategic planning is a workshop based course providing practical insights on infrastructure development and strategic planning for cities. The course combines a series of lectures with studio-based group work on a case study city. Students are introduced to all key components of urban infrastructure, cutting across transport, energy, water, waste and digital network systems. A particular focus of this course is the interrelationship of transport infrastructure and urban form. This relationship forms the basis for an inquiry into strategic planning approaches and practical applications in cities around the world. Furthermore, the course covers important aspects of infrastructure governance, finance and regulation and examines implications for large-scale physical infrastructure as well as digital, smart city technologies. Infrastructure and strategic planning aims to provide the students with a praxis-oriented understanding of urban infrastructure development and strategic planning. The workshop-based nature of the course facilitates learning and skills development in relation to strategic development planning.
Topics include: urban infrastructure, transport, energy, water, waste, digital networks, strategic planning, smart cities, finance, privatisation, municipalisation, public private partnerships, design life, lock-in, phasing.
Teaching: 3 hours of lectures and 1 hour and 30 minutes of seminars in the LT. 6 hours of lectures, 3 hours of seminars and 9 hours of workshops in the ST.

The course will be taught during the lent and summer terms through hands-on team based workshops
Formative coursework: Students will be expected to produce 1 essay in the LT.
Prepare a 500 word brief for your project indicating key deliverables
A group project report not exceeding 5,000 words, which will count for 80% of the final grade.
Additionally, each group member must write a personal reflection on their contribution in no more than 600 words, and should include specific details of the student’s contributions to the project.

SO4A6
Urban Development and Master Planning
This information is for the 2018/19 session.
Teacher responsible: Prof Richard Burdett FAW 8.01J and Dr Savvas Verdis FAW 8.01E
Availability: This course is available on the Executive MSc in Cities. This course is not available as an outside option.
This course is only available to students registered in the Executive MSc in Cities and is offered as an option.
Course content: Urban Development and Master Planning is an applied group project based on a major regeneration site. Groups of no more than six students will be introduced to one of the regeneration sites project teams which will include: local planning officers, developers, planners, designers and financing teams. The groups will first immerse themselves in the offices of the host organisation as well as the site and understand some of the project challenges. The groups will then work in a collaborative environment in order to develop solutions to the challenges set by the project teams. Using some of the key assessment and planning tools developed in courses SO4A1, SO4A2, SO4A3 & SO4A4 of the Executive MSc in Cities, this project will encourage students to apply the most appropriate analysis, planning and finance methods to an actual development site.
Topics covered: land ownership, development goals, developing the brief, urban design and master planning strategies, wider urban context, phasing, capturing value, mix of uses, public vs private space, financing projects, residual values, negotiations between developers and public agencies, planning constraints and policies, affordable housing, lifecycle assessment, built form, density and integration.
Teaching: 3 hours of lectures and 1 hour and 30 minutes of seminars in the LT. 6 hours of lectures, 3 hours of seminars and 9 hours of workshops in the ST.
The course will be taught during the lent and summer terms using
a mixture of hands-on workshops and lectures.

Formative coursework: Students will be expected to produce 1 essay in the ST. Prepare a 500 word brief for your project indicating key deliverables.

Assessment: Essay (80%, 5000 words) and presentation (20%) in the ST.

This project is conducted in groups, and the assessment is based on a collective group mark for the following three components.

1 A presentation to the project team and LSE Cities staff, which counts for 20% of the total mark.
2 A group project report not exceeding 5,000 words, which will count for 80% of the final grade.
3 Additionally, each group member must write a personal reflection on their contribution in no more than 600 words, and should include specific details of the student's contributions to the project.

SO4A8 Half Unit Leadership and Social Change

This information is for the 2018/19 session.

Teacher responsible: Prof Beverley Skeggs PAN.8.01

Availability: This course is available on the MSc in Inequalities and Social Science. This course is not available as an outside option. This course is not available as an outside option and is available only to Atlantic Fellows for Social and Economic Equity MSc students. This is a compulsory course for these students and non-AFSEE Fellows will not permitted to take this course.

Course content: The course responds to the needs of the AFSEE Fellows to develop critical skills and understandings of leadership within various contexts and themes indexed to transforming global inequality. This approach marries a structural analysis of global inequality and its manifestations with practical and cognitive skills that will provide our students with the tools to bring such systemic change into being. Crucially, the course is heavily rooted in theories of practice, in which Fellows are introduced to and demonstrate a sound knowledge and critical appreciation of their field and its associated practice and research techniques, and show that these techniques can be successfully applied in revealing or challenging injustice and inequality. The course will consist of lectures, presentations, seminars and workshops. Lectures will introduce Fellows to key concepts, approaches and techniques for understanding and challenging inequality. Workshops and seminars will help Fellows clarify and deepen their understanding of points and issues raised in the lectures, through practical work carried out individually and in groups.

Teaching: 6 hours of lectures and 10 hours of workshops in the LT. 6 hours of lectures and 10 hours of workshops in the ST.

Week 2 - 16-20 June - Digital Futures and Social Change

Formative coursework: The formative coursework for both assessments will comprise of presentations of ideas and works-in-progress that are critiqued and given feedback. Fellows will present abstracts for their essays/thinkpieces and offer rationale for their choice of subject, motivation and its relationship both to the themes of the week and the values of the programme, but equally its relationship to their own practice, experience and ambitions for future work, campaigns and activism. This will be presented to the class and short, 5-10 minute pitches where both the lecturers...
and peers will offer feedback on the ideas presented this will then form the basis for the poster design and presentation (Summative Assessment).

Similarly, for the poster presentation, Fellows will be offered feedback on their ideas once they have assembled into their project groups. They will present a vignette of their ideas and seek directional support from the lecturer on its themes, methodology, division of labour and teamwork principles and the relationship between the poster presentation and the key learning outcomes.

SO4A9 Half Unit
White Screens/Black Images: The Sociology of Black Cinema

This information is for the 2018/19 session.

Teacher responsible: Dr Clive James Nwonka Room PAN.8.01A

Availability: This course is available on the MSc in Culture and Society. This course is available with permission as an outside option to students on other programmes where regulations permit. This course will also be available to students from Media and Communications

Course content: The aim of this course is to consider the politics of race in contemporary Black British and American cinema and visual practice and reflect on almost 60 years of black cinema vis-a-vis the social, institutional, textual, cultural and political shifts that have occurred during this period. These considerations are to be explored through the optic of film and moving image, from sociological, political and cultural studies perspectives. From the Black-led community films of the 1980’s that sought to expose British state-led racism, to the new forms of filmic representation that emerged in the 2000’s, to the mainstream, Hollywood attempts to create space for cultural diversity, the term ‘Black film’ remains a significant, potent but contested concept with a range of interpretations and expressions within it. The course will explore these varying definitions through past, emerging and future forms of black cinema and how these forms have and continue to both penetrate and subvert mainstream definitions. But what is Black British and American cinema? How do such films, however defined, produce meaning through visual culture, and what are the political, social and aesthetic motivations and effects? How are the new forms of Black British and American film facilitating new modes of representation, authorship and socio-political engagement? Seminars will draw upon a range of case studies that reveal change and continuity in contemporary representations of race and blackness and identity, and also the socio-political and institutional agendas that underpin them.

Teaching: 20 hours of seminars in the LT. The course will comprise of a two hour seminar each week. This will offer the students a theoretical grounding in the subject, whilst also encouraging students to critically engage with the case studies and key reading texts.

Formative coursework: Students will be expected to produce 1 essay in the LT. The formative assessment will comprise of a 1000 word outline of the student’s summative essay, to include a 200 word abstract. Students will be expected to refer to the key texts, readings and theoretical frameworks explored throughout the course through an analysis on a film text of their choice that is germane to the courses themes. Students will be expected to present this outline during week 10, where they will receive both verbal and written feedback for their ideas. Further, students will be expected to critically engage and discuss fellow student’s outlines and offer constructive feedback, with reference to the course teachings and key readings.

ST405 Half Unit
Multivariate Methods

This information is for the 2018/19 session.

Teacher responsible: Dr Yunxiao Chen

Availability: This course is available on the MPhil/PhD in Statistics, MSc in Data Science, MSc in Marketing, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: Students must have completed Further Mathematical Methods (MA212) and Probability, Distribution Theory and Inference (ST202).

Course content: An introduction to the theory and application of modern multivariate methods used in the Social Sciences: Multivariate normal distribution, principal components analysis, factor analysis, latent variable models, latent class analysis and structural equations models.

Teaching: 20 hours of lectures and 8 hours of computer workshops in the LT.

Week 6 will be used as a reading week.

Formative coursework: Coursework assigned fortnightly and returned to students via Moodle with comments/feedback before
the computer workshops.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**ST409 Half Unit**

**Stochastic Processes**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Kostas Kardaras COL 6.07

**Availability:** This course is compulsory on the MSc in Financial Mathematics and MSc in Quantitative Methods for Risk Management. This course is available on the MSc in Applicable Mathematics, MSc in Econometrics and Mathematical Economics, MSc in Operations Research & Analytics, MSc in Risk and Finance, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Further Mathematical Methods (MA212).

**Course content:** A broad introduction to stochastic processes for postgraduates with an emphasis on financial and actuarial applications. The course examines Martingales, Poisson Processes, Brownian motion, stochastic differential equations and diffusion processes. Applications in Finance. Actuarial applications.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. Week 6 will be used as a reading week.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**ST411 Half Unit**

**Generalised Linear Modelling and Survival Analysis**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Jouni Kuha COL 8.04

**Availability:** This course is compulsory on the MSc in Statistics (Social Statistics) (Research). This course is available on the MPhil/PhD in Data Networks and Society, MPhil/PhD in Media and Communications, MSc in Inequalities and Social Science, MSc in Social Research Methods, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** A knowledge of probability and statistical theory, including linear regression and logistic regression.

**Course content:** A practical introduction to multilevel modelling with applications in social research. This course deals with the analysis of data from hierarchically structured populations (e.g. student nested within classes, individuals nested within households or geographical areas) and longitudinal data (e.g. repeated measurements of individuals in a panel survey). Multilevel (random-effects) extensions of standard statistical techniques, including multiple linear regression and logistic regression, will be considered. The course will have an applied emphasis with computer sessions using appropriate software (e.g. Stata).

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the LT. Week 6 will be used as a reading week.

**Formative coursework:** Coursework assigned fortnightly and returned to students via Moodle with comments/feedback before the computer lab sessions.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.
**ST418  Half Unit  Not available in 2018/19**

**Non-Linear Dynamics and the Analysis of Real Time Series**

This information is for the 2018/19 session.

**Teacher responsible:** Dr. Wai-Fung Lam

**Availability:** This course is available on the MSc in Applicable Mathematics, MSc in Econometrics and Mathematical Economics, MSc in Statistics, MSc in Financial Statistics, MSc in Statistics (Research), and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** It is recommended that students have completed Time Series (ST422).

**Course content:** An introduction to the analysis of actual time series observations of real-world processes. The course casts both modern nonlinear methods and more traditional linear methods in a geometric approach. It introduces the properties of nonlinear mathematical models, covers chaos and the dynamics of uncertainty, and demonstrates the fundamental limitations in applied analysis which arise from model inadequacy. Fundamental aspects of predictability are addressed. Decision support under uncertainty is considered, with examples of economic impacts of forecasting, including weather and climate. The student will leave with a toolkit for the analysis and modelling of real data, with insights into how to evaluate which methods to employ (linear/non-linear, deterministic/stochastic) in a given problem, how to interpret the results in context, and how to avoid over interpreting nice theorems in practical circumstances. Concrete applications in economics (price time series, electricity demand, energy futures) and environment (weather, climate) as well as analytically tractable illustration from mathematics are considered.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the LT. 1 hour of lectures in the ST. Week 6 will be used as a reading week.

**Assessment:** Exam (70%), duration: 2 hours) in the summer exam period.

Project (30%) in the ST.

---

**ST425  Half Unit**

**Statistical Inference: Principles, Methods and Computation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr. Wicher Bergsma COL.6.06

**Availability:** This course is compulsory on the MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available on the MRes/PhD in Management (Marketing) and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** A knowledge of probability and statistics to the equivalent level of ST102 Elementary Statistical Theory.

**Course content:** The course will provide a comprehensive coverage on some fundamental aspects of probability and statistics methods and principles. It also covers linear regression analysis. Data illustration using statistical package R constitutes an integral part throughout the course, therefore provides the hands-on experience in simulation and data analysis.

**Teaching:** 38 hours of lectures, 4 hours and 30 minutes of lectures, 11 hours of seminars and 10 hours of computer workshops in the MT. Week 11 will be used as a revision week.

**Formative coursework:** Students will complete weekly assessed problem sheets. They will also complete R practice following instructions from the weekly computing workshop.

**Assessment:** Exam (85%, duration: 3 hours) in the January exam period.

Project (15%) in the MT.

---

**ST422  Half Unit**

**Time Series**

This information is for the 2018/19 session.

**Teacher responsible:** Dr. Wai-Fung Lam

**Availability:** This course is compulsory on the MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available on the MSc in Applicable Mathematics, MSc in Data Science, MSc in Econometrics and Mathematical Economics, MSc in Financial Mathematics, MSc in Marketing, MSc in Operations Research & Analytics, MSc in Quantitative Methods for Risk Management, MSc in Statistics and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Good undergraduate knowledge of statistics and probability.

**Course content:** A broad introduction to statistical time series analysis for postgraduates: what time series analysis can be useful for; autocorrelation; stationarity; causality; basic time series models: AR, MA, ARMA; ARCH and GARCH models for financial time series; trend removal and seasonal adjustment; invertibility; spectral analysis; estimation; forecasting. We will also discuss nonstationarity and multivariate time series if time permits.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.

Exercises will be given out to do at home during Week 6.

**Formative coursework:** Weekly exercises will be given.

**Indicative reading:** Brockwell & Davis, Time Series: Theory and Methods; Brockwell & Davis, Introduction to Time Series and Forecasting; Box & Jenkins, Time Series Analysis, Forecasting and Control, Shumway & Stoffer, Time Series Analysis and Its Applications.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**ST426  Half Unit**

**Applied Stochastic Processes**

This information is for the 2018/19 session.

**Teacher responsible:** Dr. Erik Baurdoux COL.6.04

**Availability:** This course is available on the MSc in Financial Mathematics, MSc in Quantitative Methods for Risk Management, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course builds on material discussed in ST409 (Stochastic Processes). In particular, elements of the general theory of semi-martingales will be covered and emphasis will be given on presenting a variety of models involving processes with general dynamics, including jumps. The theory will be applied...
to a range of topics in mathematical finance and insurance, as well as financial economics.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST. Week 6 will be used as a reading week; exercises will be given out to students to do at home.

**Formative coursework:** A set of coursework similar to the exercises that will appear in the exam will be assigned. Additional formative exercise will be available through Moodle.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**ST429 Half Unit**

**Statistical Methods for Risk Management**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Hao Xing COL 7.12

**Availability:** This course is compulsory on the MSc in Quantitative Methods for Risk Management. This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Data Science, MSc in Financial Mathematics, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Probability, Distribution Theory and Inference (ST202) and Stochastic Processes (ST302).

**ST202, ST302, or equivalent**

**Course content:** A self-contained introduction to probabilistic and statistical methods in risk management. This course starts with risk factors models and loss distributions, which are illustrated via examples in stocks, derivatives, and bonds portfolios. Axioms of coherent risk measures are introduced. Value at risk and other risk measures are introduced and their relation with coherent risk measures is discussed. Multivariate factor models are introduced and analysed; covariance and correlation estimations, multivariate normal distributions and their testing, normal mixture distributions and their fitting to data. The theory of copulas is introduced: meta distributions, tail dependence, fitting copulas to data. Some limitations of copulas are also discussed. The extreme value theory is introduced: generalized extreme value distribution, threshold exceedances and generalized Pareto distribution, modelling and measures of tail risk. Applications to insurance with large loss are also discussed. Students will be exposed to financial data via sets of computer-based classes and exercises.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.

A exercise/problem-solving session will take place in Week 6.

**Formative coursework:** A set of exercises which are similar to problems appearing in the exam will be assigned. A set of coding exercises which are similar to examples in computer lab sessions will be assigned.

**Indicative reading:** A McNeil, R Frey, P Embrechts, Quantitative Risk Management: Concepts, Techniques, Tools; Princeton Series in Finance

**Assessment:** Exam (75%, duration: 2 hours) in the January exam period.

Project (25%, 2000 words).

---

**ST433 Half Unit**

**Computational Methods in Finance and Insurance**

*This information is for the 2018/19 session.*

**Teacher responsible:** Prof Umut Cetin COL6.08

**Availability:** This course is compulsory on the MSc in Quantitative Methods for Risk Management. This course is available on the MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed September Introductory Course (Financial Mathematics and Quantitative Methods for Risk Management) (MA400).

**Course content:** The purpose of this course is to (a) develop the students’ computational skills, (b) introduce a range of numerical techniques of importance in actuarial and financial engineering, and (c) develop the ability of the students to apply the theory from the taught courses to practical problems, work out solutions including numerical work, and to present the results in a written report.

**Teaching:** 20 hours of lectures and 10 hours of workshops in the LT.

Week 6 will be used as a reading week.

**Formative coursework:** Weekly exercises and practicals are set and form the basis of the classes.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Project (50%) in the ST.

---

**ST435 Half Unit**

**Advanced Probability Theory**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Beatrice Acciaio COL 6.02

**Availability:** This course is available on the MSc in Quantitative Methods for Risk Management, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research) and MSc in Statistics (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is offered as a regular examinable half-unit as well as a service to students and academic staff.

**Pre-requisites:** Analysis and algebra at the level of a BSc in pure or applied mathematics and basic statistics and probability theory with stochastic processes. Knowledge of measure theory is not required as the course gives a self-contained introduction to this branch of analysis.

**Course content:** The course covers core topics in measure theoretic probability and modern stochastic calculus, thus laying a rigorous foundation for studies in statistics, actuarial science, financial mathematics, economics, and other areas where uncertainty is essential and needs to be described with advanced probability models. Emphasis is on probability theory as such...
rather than on special models occurring in its applications. Brief review of basic probability concepts in a measure theoretic setting: probability spaces, random variables, expected value, conditional probability and expectation, independence, Borel-Cantelli lemmas Construction of probability spaces with emphasis on stochastic processes. Operator methods in probability: generating functions, moment generating functions, Laplace transforms, and characteristic functions. Notions of convergence: convergence in probability and weak laws of large numbers, convergence almost surely and strong laws of large numbers, convergence of probability measures and central limit theorems. If time permits and depending on the interest of the students topics from stochastic calculus might be covered as well. 

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.

Week 6 will be used as a reading/revision week.

**Formative coursework:** Exercises are set weekly and solutions are discussed in the lectures. There will be one set of compulsory written coursework in the MT which will be marked.

**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.

---

**ST439 Half Unit**

**Stochastics for Derivatives Modelling**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Luciano Campi COL 5.04

**Availability:** This course is compulsory on the MSc in Quantitative Methods for Risk Management. This course is available on the MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Stochastic Processes (ST409).

**Course content:** Valuation and hedging of derivative securities: general principles of mathematical finance; asset price models; static vs dynamic option pricing; connection with PDEs; exotic options; volatility derivatives; mean-variance hedging.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. Week 11 will be used as a revision week.

**Formative coursework:** Weekly homework will be set. Students are not expected to submit this homework but will go over the exercises in the following seminar with the lecturer.

**Indicative reading:** Steven Shreve, Stochastic Calculus for Finance II: Continuous-Time Models, Springer. Selected papers from scientific journals. Thorsten Rheinlander and Jenny Sexton, Hedging Derivatives, World Scientific.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**ST440 Half Unit**

**Recent Developments in Finance and Insurance**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Beatrice Acciaio COL 6.02

**Availability:** This course is compulsory on the MSc in Quantitative Methods for Risk Management. This course is available on the MSc in Financial Mathematics, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Stochastic Processes (ST409).

**Course content:** Recent developments in the theory of stochastic processes and applications in finance and insurance and their interface. A variety of topics will be chosen, from robust evaluation; optimal hedging; evaluation via utility criteria; optimal risk sharing; minimal capital requirement according to the Basel Accords and the Solvency Directives; life insurance.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT. Weeks 9 and 10 will be devoted to students’ presentations, using material which will have been provided in week 1 or 2, as well as to discuss in groups solutions to problems that will have been set in class.

Week 6 will be used as a reading week.

**Formative coursework:** A set of coursework similar to the exercises that will appear in the exam will be assigned as well as a mock exam.

**Indicative reading:** H. Foellmer and A. Schied: Stochastic finance. An introduction in discrete time. (3rd ed.), de Gruyter. Selected papers from scientific journals.

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Presentation (10%) in the MT Week 9.
ST441  Half Unit  Not available in 2018/19
Introduction to Markov Processes and their Applications

This information is for the 2018/19 session.
Teacher responsible: Prof Umut Cetin COL 6.08
Availability: This course is available on the MSc in Financial Mathematics, MSc in Quantitative Methods for Risk Management, MSc in Statistics (Financial Statistics) and MSc in Statistics (Financial Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Students must have completed Stochastic Processes (ST409).
Teaching: 20 hours of lectures and 10 hours of seminars in the LT. Week 6 will be used as a reading week.
Formative coursework: A weekly set of homework will be set. Students are not expected to submit this homework but will go over the exercises in the following seminar with the lecturer. Students will also complete one or two sets of formative coursework during the year which will be marked. Feedback will be provided.
Assessment: Exam (80%, duration: 2 hours) in the summer exam period.
Project (20%) in the ST.

ST442  Half Unit
Longitudinal Data Analysis

This information is for the 2018/19 session.
Teacher responsible: Prof Fiona Steele COL 7.12
Availability: This course is available on the MSc in Inequalities and Social Science, MSc in Social Research Methods, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: A knowledge of probability and statistical theory, including linear regression and logistic regression.
Course content: A practical introduction to methods for the analysis of repeated measures data, including continuous and binary outcomes. Topics include: longitudinal study designs, models for two measurements, (random effects) growth curve models, marginal models, missing data, latent class models and dynamic (autoregressive) models. The course will have an applied emphasis with fortnightly computer classes using the Stata software.
Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT. Week 6 will be used as a reading week.
Formative coursework: Coursework assigned fortnightly and returned to students with comments/feedback during the computer sessions.
Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

ST443  Half Unit
Machine Learning and Data Mining

This information is for the 2018/19 session.
Teacher responsible: Dr Xinghao Qiao
Availability: This course is compulsory on the MSc in Data Science. This course is available on the MSc in Applied Social Data Science, MSc in Marketing, MSc in Quantitative Methods for Risk Management, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: The course will be taught from a statistical perspective and students must have a solid understanding of linear regression models.
Students are not permitted to take this course alongside Algorithmic Techniques for Data Mining (MA429)
Course content: Machine learning and data mining are emerging fields between statistics and computer science which focus on the statistical objectives of prediction, classification and clustering and are particularly orientated to contexts where datasets are large, the so-called world of ‘big data’. This course will start from the classical statistical methodology of linear regression and then build on this framework to provide an introduction to machine learning and data mining methods from a statistical perspective. Thus, machine learning will be conceived of as ‘statistical learning’, following the titles of the books in the essential reading list. The course will aim to cover modern non-linear methods such as spline methods, generalised additive models, decision trees, random forests, bagging, boosting and support vector machines, as well as more advanced linear approaches, such as ridge regression, the lasso, linear discriminant analysis, k-means clustering, nearest neighbours.
Teaching: 20 hours of lectures and 10 hours of computer workshops in the MT.
The first part of the course reviews regression methods and covers linear and quadratic discriminant analysis, cross-validation, variable selection, nearest neighbours, shrinkage, dimension reduction methods. The second part of the course introduces non-linear models and covers, splines, generalized additive models, tree methods, bagging, random forest, support vector machines, principal components analysis, k-means, hierarchical clustering.
Week 6 will be used as a reading week.
Formative coursework: Students will be expected to produce 5 problem sets and 1 project in the MT.
The problem sets will consist of some theory questions and data problems that require the implementation of different methods in class using a computer package.
Assessment: Exam (70%, duration: 2 hours) in the summer exam period.
Project (30%) in the MT Week 11.
**ST444**  Half Unit  
**Statistical Computing**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Yining Chen  
**Availability:** This course is available on the MSc in Data Science, MSc in Operations Research & Analytics, MSc in Statistics, MSc in Financial Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Course content:** An introduction to the use of numerical linear algebra, optimisation, numerical integration and simulation in statistical computation, with their applications in statistical methods, including least squares; maximum likelihood, principle component analysis, LASSO, etc. If time permits, more advanced topics such as kernel methods and graphical LASSO will also be covered. Throughout the course, students will gain practical experience of implementing these computational methods in a programming language. Learning support will be provided for at least one programming language, such as R, Python or C++, but the choice of language supported may vary between years, depending on judged benefits to students, whether in terms of pedagogy or resulting skills. This year, the default choice is Python.  
**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the LT.  
Lectures will cover:  
(1) **Introduction to Tools in Numerical Analysis:** linear algebra (Gaussian elimination, Cholesky decomposition, matrix inversion and condition), numerical optimization (bi-section, steepest descent, Newton's method, quasi-Newton methods, stochastic search), convex optimization (coordinate descent, ADMM), numerical integration.  
(2) **Introduction to Tools in Numerical Simulation:** random number generation (inverse CDF, rejection, Box-Muller, etc), introduction to Monte-Carlo methods.  
(3) **Applications in Statistics:** linear regression and least squares; generalised linear models; principle component analysis (PCA); Page rank; LASSO.  
(4) **Other advanced topics** if time allows: bootstrapping; kernel density estimation; graphical models and graphical LASSO.  
Week 6 will be used as a reading week.  
**Formative coursework:** Students will be expected to produce 5 problem sets in the LT.  
Bi-weekly exercises, involving computer programming and some related to the running of the course.  
**Assessment:** Exam (70%), duration: 2 hours) in the summer exam period. Project (30%) in the LT.  

**ST449**  Half Unit  
**Artificial Intelligence and Deep Learning**  
This information is for the 2018/19 session.  
**Teacher responsible:** Prof Milan Vojnovic  
**Availability:** This course is available on the MSc in Applied Social Data Science, MSc in Data Science, MSc in Quantitative Methods for Risk Management, MSc in Statistics, MSc in Financial Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Course content:** The course will introduce the basic principles and algorithms used in artificial intelligence systems, with a focus on statistical and machine learning foundations, including the design and training of deep neural networks and reinforcement learning algorithms. These algorithms will be applied to classification tasks such as image recognition, speech recognition, natural language processing, as well as to strategic game playing. Use of Python and open source software libraries for machine intelligence such as Tensorflow constitutes an integral part of the course, allowing students to gain hands-on experience in data analysis and use of modern computational tools.  
**Teaching:** 20 hours of lectures and 15 hours of computer workshops in the LT.  
The course will start with an introduction to basic concepts of artificial intelligence systems that include search algorithms, game playing, knowledge representation, and supervised and unsupervised learning. It will then cover basic concepts of deep neural network models covering the topics of deep forward networks, learning XOR, gradient-based learning, architecture of deep neural networks and the concept of hidden units. The course will also cover the topic of optimisation for deep learning including concepts such as back-propagation, parameter norm penalties, dataset augmentation, early stopping and dropout. Special architectures of deep neural networks will be studied in more depth including convolutional networks, explaining the intuition underlying their design, the concept of pooling and efficient convolution algorithms. Other architectures will be studied as well including those used for sequence modelling, such as recurrent neural networks, deep recurrent networks, the long-short term memory and other gated recurrent neural networks. The course will cover the main principles of reinforcement learning algorithms, explaining the main concepts such as rewards and punishments, exploration versus exploitation, Markov decision processes, and Q-learning and its convergence.  
Examples and use cases will be drawn from various application domains including classical applications in the domains of computer vision, speech recognition, natural language processing and strategic game playing. Students will have an option to study application of deep learning using a dataset in the application domain of their interest including those in the area of social and economic systems.  
The course will be based on using modern software frameworks for learning deep neural networks including open source Tensorflow library and possibly other such as Microsoft Cognitive Toolkit. Students will develop their code using Jupyter notebooks. The course will use GitHub platform for maintaining a repository of lecture material, homework and project assignments and anything related to the running of the course.  
**Formative coursework:** Students will be expected to produce 10 problem sets in the LT.  
**Indicative reading:**  
- I. Goodfellow Bengio Courville MIT  
- R. Sutton and A. C. Barto MIT  
- F. Chollet, Deep Learning with Python, Manning, 2018  
- A. Geron, Hands-on Machine Learning with Scikit-Learn and Tensorflow, O’Reilly, 2017  
**Assessment:** Continuous assessment (10%), continuous assessment (10%) and research project (80%) in the LT.  
Two problems sets submitted by students will be assessed (20% in total). In addition, there will be a graded take-home research project (80%) which will completed on an individual basis in which they will demonstrate the ability to apply and train an appropriate model to a specific problem and dataset using principles they have learnt in the course. This may be done by publishing the code to a GitHub repository and GitHub pages website.
ST499

Dissertation

This information is for the 2018/19 session.
Teacher responsible: Dr Jouni Kuha COL. 8.04, Dr Wai-Fung Lam COL. 6.09 and Dr Konstantinos Kalogeropoulos COL. 6.10
Availability: This course is compulsory on the MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Research) and MSc in Statistics (Social Statistics) (Research). This course is not available as an outside option.
Course content: Independent project work on a subject chosen by the student.
Assessment: Dissertation (100%) in August.
(50 page limit).

ST450

Advanced Lectures on Special Topics in Statistics

This information is for the 2018/19 session.
Teaching: 20 hours of seminars in the LT.

ST451    Half Unit

Bayesian Machine Learning

This information is for the 2018/19 session.
Teacher responsible: Dr Konstantinos Kalogeropoulos
Availability: This course is available on the MSc in Applied Social Data Science, MSc in Data Science, MSc in Quantitative Methods for Risk Management, MSc in Statistics, MSc in Statistics (Financial Statistics), MSc in Statistics (Financial Statistics) (Research), MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research). This course is available as an outside option to students on other programmes where regulations permit.
Pre-requisites: Basic knowledge in probability and first course in statistics such as ST202 or equivalent Probability Distribution Theory and Inference; basic knowledge of the principles of computer programming is sufficient (e.g. in any of Python, R, Matlab, C, Java). This is desired rather than essential.
Course content: The course will introduce the basic principles and algorithms used in Bayesian machine learning. This will include the Bayesian approach to regression and classification tasks, introduction to the concept of graphical models, and Bayesian statistical inference, including approximate inference methods such as variational approximation and expectation propagation, and various sampling-based methods. The course will include also a module on the Bayesian modelling and inference for sequential data. The examples will include timely applications found in the context of content recommendation systems, fraud detection, and skill rating systems.
Teaching: 20 hours of lectures and 15 hours of computer workshops in the LT.

Here is a tentative syllabus:
Bayesian inference concepts
• Prior and posterior distributions
• Bayes estimators, credible intervals, Bayes factors
• Bayesian forecasting, Posterior Predictive distribution
Linear models for regression
• Linear basis function models
• Bayesian linear regression
• Bayesian model comparison
Linear models for classification
• Probabilistic generative models
• Probabilistic discriminative models

• The Laplace approximation
• Bayesian logistic regression
• Graphical models
• Bayesian networks
• Conditional independence
• Markov random fields
• Inference in graphical models
• Mixture models and Expectation Maximization
• K-means clustering
• Mixtures of Gaussians
• The EM algorithm
• Approximate inference
• Variational inference
• Variational logistic regression
• Expectation propagation
• Sampling methods
• Basic sampling algorithms
• Markov chain Monte Carlo
• Gibbs sampling
• Sequential data
• Markov models
• Hidden Markov models
• Linear dynamical systems

If time permits also
• Gaussian processes – Bayesian non-parametrics
• Gaussian processes for regression.
• Gaussian processes for classification.

Formative coursework: Students will be expected to produce 10 problem sets in the LT. 10 problem sets in LT to prepare students for both summative assessment components. They will include theoretical exercises, targeting for learning outcomes a and b, as well as computer-based assignments (for learning outcome c) that will need to be presented in suitable form for the purposes of learning outcome d. Additionally, mostly related to learning outcome b, students will be encouraged to share and compare their responses in some challenging parts of the problem sets, through the use of dedicated Moodle forums.

Indicative reading:
• C. M. Bishop, Pattern Recognition and Machine Learning, Springer 2006
• D. Barber, Bayesian Reasoning and Machine Learning, Cambridge University Press 2012

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.
Project (50%) in the ST.
Executive Taught Master’s Course Guides
## EC452E  Half Unit  Applying Behavioural Economics for Social Impact: Design, Delivery and Policy

This information is for the 2018/19 session.

**Teacher responsible:** Prof Nava Ashraf 32L.3.18

**Availability:** This course is compulsory on the Executive MSc in Social Business and Entrepreneurship. This course is not available as an outside option.

**Course content:** This course delivers insights from cutting edge research in psychology and economics, and asks students to use these insights to design solutions to significant social challenges. Students learn how to design, deliver, and rigorously test products and services using the principles of behavioural economics and the methods of field experimentation.

The course begins by describing the principle of coproduction: outcomes in health, education and similar fields are not simply given to end-users, but are produced by end-users themselves, interacting with supply-side factors. Drawing on the insights from behavioural economics and using qualitative methods, students learn how to diagnose end-user needs, preferences and behaviour. The course then explores how the psychological aspects of behaviour can be combined with the tools and structure of economics to induce behaviour change and improve outcomes, including the challenge of setting prices and designing incentives. Throughout the course there is emphasis upon the critical importance of effective measurement in the context of the social sector, where traditional market feedback mechanisms are typically absent and where mission-driven leaders’ evaluation of organisational impact can itself be subject to cognitive bias and distortion. Appropriate measurement in turn informs improvements in diagnosis and design. This emphasis on appropriate measurement reinforces students’ learning in earlier modules of the programme, where they will be introduced to the principles and concepts of rigorous social impact evaluation. The course concludes by exploring policy impact and how research can be translated into policy action. Real world case studies are used at every stage of the course.

This course is relevant to all those who wish to improve the effectiveness of social interventions and programmes across a range of diverse fields, whether such interventions are administered through the state or, increasingly, through private philanthropy and social entrepreneurship. The course tutor is Director of Research at the Marshall Institute.

**Teaching:** Ten sessions of three hours each, delivered across a two week module (teaching block).

**Formative coursework:** Formative assessment will be through short case commentaries written by students on the basis of lecture/seminars. These will be submitted and feedback given during the course.

**Indicative reading:** There is no single textbook for the course. For an introduction to the field of behavioural economics, students should consult Nudge: Improving Decisions About Health, Wealth, and Happiness by Richard Thaler and Cass Sunstein (2009, Penguin) and Thinking, Fast and Slow, by Daniel Kahneman (2012, Penguin).

Other indicative readings are:
- Camerer Loewenstein Behavioral
- Glennerster Takavarasha Behavioral randomized
- Hirschman20th
- Kamenica Behavioral

Further readings relevant to specific case studies will be provided during the course.

**Assessment:** Take home exam (85%) and class participation (15%). Assessment will be through a take home exam (85%) and class participation (15%).

## EU497E  Half Unit  Not available in 2018/19  Dissertation

This information is for the 2018/19 session.

**Course content:** Students in the Executive MSc Political Economy of Europe are required to write a dissertation on a topic within the field of their programme. Preparation for the Dissertation will commence with a week-long seminar (9 x 3 hours) on aspects of research, writing, etc., followed by at least two research proposal drafts within two-month intervals, including (virtual) office hours, leading to a final dissertation project outline after 6 months (from December to July). The dissertation deadline is the second Monday in September of the second year.

**Teaching:** The course will run between 4-8 January 2016.

**Assessment:** Dissertation (100%).

## FM405E  Half Unit  Fixed Income Securities and Credit Markets

This information is for the 2018/19 session.

**Teacher responsible:** Dr Michela Verardo

**Availability:** This course is available on the MSc in Finance (part-time). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Corporate Finance (FM422E) and Asset Markets (FM423E).

**Course content:**
- Interest rate modelling and derivatives
- Credit risk
- Credit derivatives and risk management

This course provides a thorough grounding in recent developments in fixed income securities pricing, hedging and portfolio management. By the end of the course, the students will be familiar with the fixed income state of the art business practice and a variety of topics including (i) an analysis of the main products traded in the credit markets, such as Government and corporate bonds, bond options, swaps, caps, floors, swaptions, callable, puttable and convertible bonds, and an analysis of the main credit derivatives such as total-return swaps, spread options and credit default swaps; (ii) the specific tools used in the industry practice to evaluate and hedge these products, which range from no-arbitrage trees and the calibration of yield curve derivatives to the main tools used to monitor and manage credit risk; (iii) the process of securitization, with particular reference to collateralized default obligations and mortgage-based securities.

**Teaching:** 30 hours of lectures in the MT. This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive.

**Indicative reading:** The primary source for this course is a comprehensive set of Lecture Notes, tutorials and case studies and the main reference is Pietro Veronesi: Fixed Income Securities, (Wiley 2010).

**Assessment:** Exam (80%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

**Coursework (20%)** in the LT.

## FM406E  Half Unit  Topics in Portfolio Management

This information is for the 2018/19 session.

**Teacher responsible:** Dr Michela Verardo

**Availability:** This course is available on the MSc in Finance (part-time). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Corporate Finance (FM422E) and Asset Markets (FM423E).
Course content:
- Portfolio optimization and the Black-Litterman model
- Dynamic Investment Strategies
- Selecting and Monitoring Portfolio Managers: Mutual funds and hedge funds
- Transactions Costs and Liquidity Risk
The course covers a wide range of topics in portfolio management, with a strong focus on empirical applications. The first part of the course reviews the basics of portfolio theory and develops the Black-Litterman approach to portfolio optimization. The second part of the course introduces students to the implementation of several dynamic investment strategies and to the estimation of their performance; portfolio strategies include size, value, momentum, betting-against-beta, and quality-minus-junk. The third part of the course focuses on selecting and monitoring portfolio managers, with particular emphasis on the identification of selectivity, allocation, and timing skills for mutual funds and hedge funds. The last part of the course examines trading costs and liquidity risk, as well as their impact on the profitability of investment strategies. The course is based on recent empirical studies and applied exercises using financial data.

Teaching: 30 hours of lectures in the MT.

Formative coursework: Regular coursework will be completed, handed in and marked as part of formative assessment for this course.

Indicative reading: A study pack will include lecture notes and case studies. All relevant articles will be made available during the course. Useful references are: Investments, by Z. Bodie, A. Kane, and A. Marcus, McGraw-Hill Irwin; Modern portfolio theory and investment analysis, by E. J. Elton, M. J. Gruber, S. J. Brown, and W. N. Goetzmann, Wiley Press; Modern investment management, by Bob Litterman and the Quantitative Resource Group, GSAM, Wiley Press.

Assessment: Exam (70%, duration: 2 hours, reading time: 10 minutes) in the summer exam period.
Coursework (30%) in the LT.

FM408E  Half Unit
Financial Engineering
This information is for the 2018/19 session.
Teacher responsible: Dr Jean-Pierre Zigrand
Availability: This course is available on the MSc in Finance (part-time). This course is not available as an outside option.
Pre-requisites: Students must have completed Corporate Finance (FM422E) and Asset Markets (FM423E).
Students will be expected to show some familiarity with calculus (including stochastic calculus) and statistics
Course content: This course provides a thorough grounding in the theory and practice of financial engineering. The emphasis is on the application of derivatives pricing and hedging methodology to equity and volatility derivatives and to structured products. The course aims to cover the basics in derivatives theory, and to apply them to a multitude of financial securities and structured products, with a special emphasis on recent products in the equity and volatility derivative worlds. We review selected case studies in order to gain a better understanding of their practical usage. We also implement the models numerically in R and VBA.
Teaching: 30 hours of lectures in the MT.
This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.
Indicative reading: Based on a set of extensive lecture notes.
Assessment: Exam (70%, duration: 2 hours) in the summer exam period.
Project (30%) in the LT.

FM409E  Half Unit
Risk Management in Financial Markets
This information is for the 2018/19 session.
Teacher responsible: Dr Christian Julliard
Availability: This course is available on the MSc in Finance (part-time). This course is not available as an outside option.
Pre-requisites: Students must have completed Corporate Finance (FM422E) and Asset Markets (FM423E).
Course content:
- Hedging in equity and fixed income markets
- Market Risk, Value at Risk and Expected Shortfall
- Endogenous Risk and Limits to Arbitrage
- Credit risk and structured products
The aim of this course is to offer an introduction to the analysis and management of risk within financial markets. The course develops a conceptual framework for thinking about financial risk and shows how these concepts are implemented in practice in a variety of contexts. First, the course offers an overview of risk management in the context of portfolios of fixed income securities and derivatives. Next, we discuss the implementation and the merits of Value at Risk measures. We will spend some time on endogenous risk and limits to arbitrage. In the context of credit risk we will cover ratings based and structural models, as well as
credit risk on portfolios and credit derivatives. A final topic covers regulation and the recent credit crisis. Throughout, the course spends a significant amount of time on practical applications of the theories that are introduced. Some limitations of current approaches are also discussed.

**Teaching:** 30 hours of lectures in the LT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

**Formative coursework:** Problem sets. In addition, students will have the opportunity to present the results of a case study to the class.

**Indicative reading:** Course readings will vary from year to year depending upon the topics covered. The main reference is: John C. Hull, Risk Management and Financial Institutions, Wiley, 2015, 4th edition.

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Coursework (5%) and presentation (5%) in the MT.

---

**FM414E** Half Unit

**Private Equity, Venture Capital and Entrepreneurial Finance**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Ulf Axelson

**Availability:** This course is available on the MSc in Finance (part-time). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Corporate Finance (FM422E) and Asset Markets (FM423E).

**Course content:**

- Evaluating and executing Private Equity Deals
- Business Plans, Venture Capital, and Entrepreneurial Finance
- Private Equity as an asset class and the private equity landscape

The course provides a thorough grounding in the theory and recent developments in the field of private equity. Starting by examining how private equity funds are raised and structured, the course will examine how private equity can be used in start-ups, in scaling-up cash flow businesses, and in restructuring firms facing financial distress. The course explores the link between private and venture capital on the one hand and public securities markets on the other. The course will examine the process through which private equity investors exit their investments. The course will also give a detailed analysis of the types of finance used in private equity and an evaluation of the short and long-run performance of private equity investments. The course will include an evaluation of the performance of different types of private equity investment and a comparison with other forms of ownership will be undertaken.

**Teaching:** 30 hours of seminars in the MT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

**Formative coursework:** Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

**Indicative reading:** The recommended textbooks for this course are Berk and DeMarzo, Corporate Finance and Higgins, Analysis for Financial Management. Other recommended readings from relevant journal articles will be included in a study pack.

**Assessment:** Exam (70%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Class participation (10%) in the MT and LT.

In class assessment (10%) in the MT.

In class assessment (10%) in the LT.

---

**FM422E**

**Corporate Finance**

This information is for the 2018/19 session.

**Teacher responsible:** Professor Amil Dasgupta

Dr Dirk Jenter

**Availability:** This course is compulsory on the MSc in Finance (part-time). This course is not available as an outside option.

**Pre-requisites:** Aimed at people with a good undergraduate degree and good quantitative skills, with some knowledge of economics.

**Course content:**

- Financing
- Valuation

This core course provides a broad introduction to the key issues in corporate finance. The first half of the course, the Financing Module, investigates how companies should finance their activities by issuing securities (debt, equity, and convertible claims) and the interaction of business policy with financial policy. The aim is to understand what factors determine optimal capital structure and how the interplay of these factors can affect financing decisions in a way that creates value.

The second half of the course, the Valuation Module, covers firm and project valuation and establishes how companies should select among investable assets. The module focuses on fundamental valuation techniques based on discounting future cash flows. The course goes on to introduce further valuation methods, such as real options analysis, as well as key applications of valuation concepts to major corporate decisions such as mergers and acquisition and initial public offerings. The course interweaves key conceptual material with a series of cases.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

**Indicative reading:** The recommended textbooks for this course are Berk and DeMarzo, Corporate Finance and Higgins, Analysis for Financial Management. Other recommended readings from relevant journal articles will be included in a study pack.

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Class participation (10%) in the MT and LT.

In class assessment (10%) in the MT.

In class assessment (10%) in the LT.

---

**FM423E**

**Asset Markets**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Dong Lou and Dr Igor Makarov

**Availability:** This course is compulsory on the MSc in Finance (part-time). This course is not available as an outside option.

**Pre-requisites:** Aimed at people with a good undergraduate degree and good quantitative skills, with some knowledge of economics.

**Course content:**

- Investments and Securities Valuation
- Portfolio choice and performance evaluation
- Derivatives

The aim of the course is to familiarize students with the workings of financial markets, and equip them with the fundamental tools
of asset valuation. The course will focus on the three main asset classes - fixed income, stocks, and derivatives - giving a unified perspective of modern valuation methods. The starting point will be the present value formula. The course will then proceed to fixed-income securities, focusing mainly on government bonds. These will be valued off the term structure of interest rates, using the present value formula. The connection with the principle of no-arbitrage will be emphasized. The course will then move to stocks, starting with portfolio theory and then deriving the relation between risk and return (CAPM). The CAPM will provide a risk-adjusted discount rate that will be used to discount stocks’ cash flows with the present value formula. Alternative pricing models such as the APT and multi-factor models will also be covered, and the models will be applied to issues of asset allocation and portfolio selection. The last topic will be derivatives, especially futures and options. After familiarizing students with the use of derivatives, the course will cover the main valuation methods (binomial model, Black-Scholes) emphasizing again the principle of no-arbitrage.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT. This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are “sessions” only, and the pedagogical approach in each session is interactive.

**Formative coursework:** Regular classworks will be completed, handed in and marked as part of formative assessment for this course.

**Indicative reading:** The organisation of topics of the course follows closely the treatment in Berk and DeMarzo, Corporate Finance, 3rd Global Edition, Pearson International, and Bodie, Kane, and Marcus, Investments, 10th Edition, McGraw Hill. Other recommended readings and case studies will be included in a study pack.

**Assessment:** Exam (70%, duration: 3 hours, reading time: 10 minutes) in the summer exam period. In class assessment (10%) in the MT. In class assessment (10%) in the LT. Class participation (10%).

---

**FM472 Half Unit International Finance**

This course examines key issues in international finance, focusing on recent developments and incorporating theoretical, empirical, policy and institutional dimensions. The course uses exchange rates as a unifying theme and considers them from four perspectives: theory, policy, global risk and international investors. The course examines models of exchange rate determination and related empirical evidence. It analyses the choice and coordination of exchange rate regimes, including the European Monetary Union. It examines exchange rates as one of the sources of global financial instability. It considers the risk exposure for investors arising from exchange rate volatility and its hedging with currency instruments. The course also explores the arts in each area, to current developments such as the internationalisation of the Chinese Renminbi, the EMU sovereign debt crisis, the recent financial crisis and global imbalances, forex carry trades and the high volatility of short term exchange rates.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the LT.

**Formative coursework:** Students are required to undertake a group research project on a given topic in international finance.

**Indicative reading:** A selection of journal articles; background reading from a textbook such as Keith Pilbeam International Finance (Palgrave, 2013, 4th edition)

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

**FM475 Half Unit Financial Management (modular)**

This course is designed to provide a comprehensive overview of firms' financial decision making. The course is designed to provide an applied and practical approach to finance, enabling the students to address topical issues that modern corporations face. In particular, the course builds on concepts in business strategy, valuation techniques, and capital structure theories, and applies those tools in a systematic and rigorous way to real-life financial management problems. After a brief introduction to financial management, the course focuses on corporate finance and business valuation. Topics such as mergers and acquisitions and initial public offerings will also be covered.

**Teaching:** Taught during module three - 10 interactive lectures of 3
hours each (1-13 April 2019):
1. Introduction to financial management
2. Debt and equity
3. Capital structure – Case discussion
4. Tax shields – Case discussion
5. Capital markets and the pricing of risk
6. Initial public offerings – Case Discussion
7. Valuation – Discounted Cash Flow techniques
8. Valuation – Practical aspects
9. Mergers and Acquisitions
10. Valuing companies – Case discussion

Formative coursework: Feedback on class participation.
Assessment: Essay (20%, 1500 words), project (65%) and class participation (15%).
The essay is an assessed, 1,500 word group essay. The project is a take-home individual project.

FM4T4E  Half Unit
Private Equity, Venture Capital and Entrepreneurship - Dissertation

This information is for the 2018/19 session.
Teacher responsible: Prof Ulf Axelson

FM4T9  Half Unit
International Finance - Dissertation

This information is for the 2018/19 session.
Teacher responsible: Dr Elisabetta Bertero
Availability: This course is available on the MSc in Finance (full-time), MSc in Finance (full-time) (Work Placement Pathway), MSc in Finance (part-time), MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.
Course content: See entry for FM472
Teaching: 30 hours of seminars in the LT.
See entry for FM472.
Assessment: Dissertation (100%, 6000 words) in the ST. 6,000 word dissertation on a topic to be agreed with the course teacher. The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student's supervisor. Submission deadline is towards the end of Summer Term.

FM4U5E  Half Unit
Fixed Income Securities and Credit Markets - Dissertation

This information is for the 2018/19 session.
Teacher responsible: Dr Peter Kondor
Availability: This course is available on the MSc in Finance (part-time). This course is not available as an outside option.
Course content: See entry for FM405E.
Teaching: See entry for FM405E.
Assessment: Dissertation (80%, 6000 words) in the ST. Coursework (20%) in the LT. 6,000 word dissertation in lieu of exam (80%) on a topic to be agreed with the course teacher, and coursework (20%). The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student's supervisor. Submission deadline is towards the end of Summer Term.

FM4U5E  Half Unit
Global Financial Systems - Dissertation

This information is for the 2018/19 session.
Teacher responsible: Dr Jon Danielsson

Availability: This course is not available as an outside option.
Course content: See entry for FM447
Teaching: See entry for FM447
Assessment: Dissertation (100%, 6000 words) in the ST. 6,000 word dissertation on a topic to be agreed with the course teacher. The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student's supervisor. Submission deadline is towards the end of Summer Term.
of Summer Term.

**FM4U7E  Half Unit**  
**Mergers, Buyouts and Corporate Restructurings - Dissertation**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Vicente Cuñat  
**Availability:** This course is available on the MSc in Finance (part-time). This course is not available as an outside option.  
**Course content:** See entry for FM407E.  
**Teaching:** See entry for FM407E  
**Assessment:** Dissertation (70%, 6000 words) in the ST. Coursework (30%) in the LT.  
6,000 word dissertation in lieu of exam (70%) on a topic to be agreed with the course teacher, and coursework (30%). The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Submission deadline towards the end of Summer Term.

**FM4U9E  Half Unit**  
**Risk Management in Financial Markets - Dissertation**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Christian Julliard  
**Availability:** This course is available on the MSc in Finance (part-time). This course is not available as an outside option.  
**Course content:** See entry for FM409E.  
**Teaching:** See entry for FM409E  
**Assessment:** Dissertation (90%, 6000 words) and coursework (5%) in the ST. Presentation (5%).  
6,000 word dissertation in lieu of examination (90%) on a topic to be agreed with the course teacher, and coursework (10%). The dissertation option is to be chosen in only one half unit module, with its outline approved in LT by the course teacher who will act as the student’s supervisor. Submission Deadline at the end of Summer Term.

**HP4A1E  Half Unit**  
**Financing Health Care**  
This information is for the 2018/19 session.  
**Teacher responsible:** Prof Elias Mossialos COW-4.08  
**Availability:** This course is compulsory on the Executive MSc in Health Economics, Policy and Management. This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.  
**Pre-requisites:** None  
**Course content:** This course aims to give students a thorough grounding in health financing policy. It focuses on the health financing functions of collecting revenue, pooling funds and purchasing services, as well as on policy choices concerning coverage, resource allocation and market structure. The course mainly draws on examples from health financing policy in European countries, but the general principles studied apply internationally. The course provides an overview of key health financing policy issues, including the advantages and disadvantages of different ways of raising revenue for health; the role of private financing mechanisms; the importance of pooling; decisions about whom to cover, what services to cover, and how much of service cost to cover; allocating resources to purchasers, purchasing market structure and the principles of strategic purchasing; the incentives associated with different methods of paying providers; and the issue of financial sustainability.  
**Teaching:** This course will be delivered through 18 hours of lectures and 3 seminars (2 hours each).  
**Formative coursework:** The in class group work and presentation discussed under summative assessments will be the formative coursework on this course.  
**Indicative reading:** WHO, World Health Report 2010 - Health systems financing: the path to universal coverage (2010); E Mossialos, A Dixon, J Figueras & J Kutzin (eds), Funding health care: options for Europe, Open University Press (2002), J Kutzin, Health financing policy: a guide for decision-makers, World Health Organization (2008); T Rice, The economics of health reconsidered, Health Administration Press (3rd edn, 2009). Students will be given access to essential readings before the course begins through the pre-sessional reading programme on Moodle. They will be expected to read these prior to the first day of class.  
**Assessment:** Take home exam (100%) in the ST.

**HP4A2E  Half Unit**  
**Health Administration and Management**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Irene Papanicolas COW3.05  
In addition, Professor Nancy Kane and Mariam Krikorian (Harvard Business School) will be teaching on the course.  
**Availability:** This course is compulsory on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.  
**Course content:** This course is intended to provide the student an orientation and overview on managing organizations within health systems. The governance, execution, information management, quality of care, and sustaining human resources will be discussed, including an examination of the uses of accounting and other forms of reporting to manage health services. This is an introductory course, appropriate for students with no formal inpatient health care management experience. The course will cover the following topics: principle responsibilities of a health care system and organizations within the system; issues and strategies for enabling health care organizations to be responsive to their environment; concepts for supporting and implementing governance decisions; strategies for performance measurement and information, and analytical activities related to planning, finance, and information needs; characteristics and development of systems to assure quality of clinical services.  
**Teaching:**  
10 hours of lectures and 10 hours of seminars.  
**Formative coursework:** In-class formative assessments. Students will be given questions to answer to help them learn to think critically about a focal case and then asked to discuss in discussion breakout sessions.  
**Indicative reading:**  
**Assessment:** Essay (75%, 3000 words) in August. Presentation (25%) in June.  
The presentation component is an in-class assessment of the
HP4A3E Half Unit  
**Resource Allocation and Cost-effectiveness Analysis**

This information is for the 2018/19 session.  
**Teacher responsible:** Dr Irene Papanicolas COW3.05  
In addition, Professor M Drummond (Professor of Health Economics, University of York) will be teaching on the course.  
**Availability:** This course is compulsory on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.  
**Course content:** The aim is to give an overview of the theory underlying economic evaluation as applied to the health care sector; to consider the different forms of economic evaluation; to give an understanding of the techniques associated with economic evaluation as applied to health care; to give an understanding of the interpretation of the results gained from economic evaluation; to provide the main practical tools necessary to undertake economic evaluation using computer-based programs. The course will cover the following topics: Conceptual rationales for economic evaluation in the health care sector (Pareto efficiency, Social Welfare, extra-welfarism and decision-making); Introduction to the methods of economic evaluation: cost-effectiveness analysis, cost-utility analysis, and Cost-benefit analysis; Cost data; Incremental cost-effectiveness analysis; Quality Adjusted Life Years gained and other outcome measures; Discounting; Uncertainty and sensitivity analysis; Economic evaluation and clinical trials; Policy decision-making using economic evaluation.  
**Teaching:** 10 hours of lectures and 10 hours of seminars, including computer-based practical workshops.  
**Formative coursework:** Mock exam given after teaching session with feedback from course organiser.  
**Assessment:** Take home exam (100%) in August.

---

HP4B1E Half Unit  
**Pharmaceutical Economics and Policy**

This information is for the 2018/19 session.  
**Teacher responsible:** Dr Panagiotis Kanavos COW.G.04  
**Availability:** This course is available on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.  
**Course content:** The aim of this course it to introduce students to the economics of pharmaceutical markets and related policies that affect national and international markets broadly.  
- To provide students with an understanding of basic features of pharmaceutical markets and how pharmaceutical markets work and how competition manifests itself in different parts of pharmaceutical markets.  
- To illustrate to students how the pharmaceutical market is linked to the health care market, why it is often the focus of much regulation, and to help students understand the multidimensional goals of pharmaceutical policies.  
- To introduce students to the economic and policy problems encountered in managing pharmaceutical markets and how to evaluate the impact of alternative policy approaches. The course will also give students some experience in critically evaluating the impact of policy on market outcomes.  
- To facilitate consideration of various country-specific political, cultural and economic factors that may drive governments’ approaches to pharmaceutical regulation. In this context, this course will help students consider the extent to which policies may be transferable.  
- To enable students to analyse pharmaceutical markets from the perspectives of several main actors: governments, third party payers, the pharmaceutical industry, doctors, patients, pharmacists and wholesalers. Literature from Health Economics, Industrial Organisation and Health Policy will be incorporated into lectures, discussions and seminars.  
- To introduce students to the economics of pricing and reimbursing pharmaceutical products, to explore different models of pricing and reimbursing medicines in OECD countries, including rate of return regulation, value-based pricing, cost-plus pricing, external price referencing and internal reference pricing, among others.  
**Teaching:** The course will comprise 10 x 1-hour interactive lectures, 1 x 1-hour revision session and 5 x 2-hour interactive seminars, where students will discuss specific case studies.  
**Formative coursework:** A 2000 word formative essay, to mirror an exam question, to be written during seminar time.  
**Assessment:** Take home exam (100%) in the ST.
This is the same course as HP424 Pharmaceutical Economics and Policy (H) but it has different teaching and assessment arrangements.

HP4B2E  Half Unit
Health Care Quality Management

This information is for the 2018/19 session.
Teacher responsible: Dr Irene Papanicolas COW G.04
This course will be led by Dr. Michael Holland, Medical Director and Consultant Psychiatrist, South London and Maudsley NHS Foundation Trust.
Availability: This course is available on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Course content: An introduction and overview of quality improvement methodology as used in healthcare settings internationally. The course will cover the following areas:
1) History of quality management: The course will start with an overview of key theories in quality management such as those described Taylor, Shewhart, Deming and Juran. An overview of quality assurance systems used in healthcare, such as ISO 9000, Magnet, Baldridge award and their role in quality improvement. It will also include a discussion and overview of value-based healthcare.
2) A critical assessment of the mainstream schools of thought of quality as part of the production process - this will include a study of the relationship between supply chain procurement management and quality as well as the requirements for good production models and the critique of evidence-based decision-making in the clinical setting.
3) Quantitative methods in quality management - This course will examine a number of tools for quality management purposes - both how to do them as well as how they fit into the various schools of thought on quality management. It will cover statistical process control which is a method of statistical analysis of time series data that is used in quality management. This method shows whether there is variability in processes and gives the user an ability to both measure improvements and declines in performance of both processes and outcomes and to understand whether processes are performing within acceptable limits. An overview of the quality improvement methodology known as Design of Experiments will also be given. The role of case mix adjustment in quality assessment will also be discussed.
4) Process Mapping - Understanding the value and power of mapping processes both at a systems level and at the individual process level. They will also be given an example of a process map from a healthcare environment to work on optimising.
5) Theories of capacity and flow management and examples of this in both in-patient and outpatient settings will be discussed. This will also include how DRG/HRG payment has a role within organisations of capacity management.
6) A critical overview of Lean, Six Sigma and Model for Improvement. While these models can be useful in healthcare management, these are not deep philosophies of organisation and many of the things which make healthcare unique (e.g. asymmetry of information, difficulty of measuring quality, patient behaviour and societal preferences for fairness) are sometimes not accounted for in these models.

Teaching: 5 lectures (5 x 2 hours) and 5 workshops (5 x 2 hours). The 5 workshops will focus on analysing case studies with of view of giving students a practical understanding of approaches to quality management in healthcare settings.

Formative coursework: A case study will be provided for the students to analyse and write an essay answering questions relating to it. Feedback will be provided on this essay by the seminar leader.

Assessment: Essay (50%, 2500 words) and essay (50%, 2500 words).
Two 2,500 word case study essays (50% each).

HP4B3E  Half Unit
Measuring Health System Performance

This information is for the 2018/19 session.
Teacher responsible: Dr Irene Papanicolas COW 3.05
Availability: This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences and Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Course content: This course aims to present a framework to discuss the opportunities and challenges with performance measurement in health care, examine the various dimensions and levels of health system performance, identify the measurement instruments and analytic tools needed, and examine the implications of these issues for policy makers and regulators. Lectures generally focus on measuring health system performance in high-income countries but draw on the experience of other countries where relevant.

After taking this course students are expected to:
• understand the principles of performance measurement
• appreciate the challenges, approaches, and opportunities in performance measurement in four dimensions: population health, patient outcomes, equity, quality and appropriateness of care, and productivity
• understand the methodological issues facing performance measurement relating to risk adjustment, developing composite measures, and measuring attribution and causality
• identify key issues relevant to policy makers relating to: developing targets and reporting on progress to the public, and developing incentives to improve performance

Teaching: 2 lectures (2 hours), 4 lectures (1.5 hours) and 5 seminars (2 hours).

Formative coursework: In-class exercise during seminar time. Students will receive feedback on it from their seminar leader after completion.

programme on Moodle, which they will be expected to read prior to the first day of class.

**Assessment:** Essay (75%, 3000 words) and in-class assessment (25%).

In-class assessment (25%) and assessed piece of coursework (75%).

In-class assessment on a presentation where students apply principles taught to construct an argument around a theory-based question informed from real world data. They would be assessed on their presentation as well as their ability to apply the conceptual material taught in class to practical data. Coursework is the production of a report where students are asked to evaluate and interpret key performance data for a particular country.

---

**HP4B4E**  Half Unit

**Principles of Evidence-Based Medicine and Clinical Trials**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Irene Papanicolas COW3.05

In addition, Professor Allan Hackshaw (Deputy Director, Cancer Research UK and UCL Cancer Trials Centre, UCL) will be teaching on this course.

**Availability:** This course is available on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

**Course content:** A large amount of medical research is conducted, with variable quality. Also, health claims are frequently reported in the media, and it can be difficult to determine which is based on reliable evidence and which is not. It is therefore essential to be able to interpret study results and conclusions appropriately, in order to change clinical practice or develop public health policy. This is achieved by Evidence-Based Medicine. The module will enable students to evaluate risk factors for disease or early death, and methods of disease prevention or treatment. The module will provide students with practical skills in the following key areas:

- Understanding the different types of research that can be conducted in humans and their strengths and limitations, i.e. observational studies and a focus on clinical trials.
- Interpreting research results and conclusions using aspects of epidemiology and medical statistics, and how to communicate study findings.
- Reading and understanding published journal articles or pharmaceutical company reports.
- Examining the efficacy and safety of health care interventions (an important part of a complete health economic evaluation of a clinical trial).
- Familiarity with systematic reviews (i.e. how several studies are combined, and the importance of looking at the evidence as a whole).

**Teaching:** 10 interactive seminars/workshops, each 2-3 hours long.

**Formative coursework:** Students will be given two short exercises before the course begins, via Moodle, to help prepare for the course. The tutor will go over these during the contact week, and address any queries from the students. However, detailed written answers are provided, so the students can access these if they undertake any of the exercises after the contact week. The tutor is also available for one-to-one email contact with any student.

**Indicative reading:**

Students will be given access to essential readings before the course begins through the pre-sessional reading programme on Moodle.

**Assessment:** Other (50%) and other (50%) in the LT.

---

**HP4B5E**  Half Unit

**Statistical Methods in Health Care Economic Evaluation**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Maria Raikou

**Availability:** This course is available on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

**Course content:** This course develops the statistical and modelling techniques necessary to apply economic evaluation to the health care sector. Introduction to statistical methods, linear regression analysis, logistic regression analysis, survival analysis for health outcomes, survival analysis for treatment costs, economic evaluation and clinical trials. Estimation of confidence intervals for cost-effectiveness ratios. Transformation of ratios - net benefit approach. Missing data, parametric and non-parametric approaches. Presentation of analysis, acceptability curves.

**Teaching:** 13 hours of lectures and 8 hours of seminars (computer based)

**Formative coursework:** In-class exercise during seminar time.

Students will receive feedback on it from their seminar leader after completion.

**Indicative reading:** The following are basic reading for the course:
- M Drummond & A McGuire (Eds), Economic Evaluation in Health Care: Merging Theory with Practice, OUP, 2002;
- M Gold, J Siegel, L Russell & M Weinstein, Cost-Effectiveness in Health and Medicine, OUP, 1996;

Students will be given access to essential readings before the course begins through the pre-sessional reading programme on Moodle, which they will be expected to read prior to the first day of class.

**Assessment:** Take home exam (100%).

This is the same course as HP425 Statistical Methods in Health Care Economic Evaluation (H) but it has different teaching and assessment arrangements.

---

**HP4B7E**  Half Unit

**Advanced Health Economics**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Alistair Mcguire COW4.05

**Availability:** This course is available on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

**Course content:** The course will cover: international comparisons of health care expenditure, health care insurance, contract theory applied to the health care sector (including (principal-agent) theory and incentive payment mechanisms), equity in health care, health behaviour and an introduction to econometric analysis applied to health care data.

**Teaching:** 19 hours of lectures.

**Formative coursework:** 1,500 word essay
Assessment: Essay (100%, 3000 words).

HP4B9E  Half Unit
Dissertation in Health Economics, Policy and Management
This information is for the 2018/19 session.
Teacher responsible: Dr Irene Papanicolas COW3.05
Availability: This course is compulsory on the Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.
Course content: The aim of the dissertation is for students to pursue an independent piece of research that will contribute to the field of health economics, health policy or health management. The contribution of the work to the chosen field must be made clear. The output will be a piece of work of 5000 words or less that is written in an article format that is suitable for submission to a peer reviewed journal. Students must obtain the approval of their supervisor before embarking on any research.
Arrangements for supervision
Students’ tutors will act as their dissertation supervisor in the first instance. If the specific topic a student wishes to cover for his/her dissertation requires a different supervisor, a MSc programme director can arrange this change. The dissertation supervisor will advise the student, help provide information and bibliography and identify likely problems with the proposed research.
Teaching: The dissertation process is supported by three teaching sessions.
Formative coursework: Students will have an opportunity to have one draft of their thesis proposal read by their supervisor in December of Year 2. In addition, they will have an opportunity to have a 1000 word outline of their thesis read by their supervisor.
Assessment: Dissertation (100%, 5000 words).
The dissertation paper copies must be handed in to the Department by the specified deadline of the second year of the MSc programme. An electronic version of the dissertation must be also submitted. Penalties will be applied to any late submission. The world limit for the dissertation is 5,000 words (excluding references and tables) and it must be in a journal article format.

HP4C2E  Half Unit
Quality and Outcomes in Cardiovascular Sciences
This information is for the 2018/19 session.
Teacher responsible: Mr Huseyin Naci COW 3.01
Availability: This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.
Course content: Against a backdrop of great technological advances and delivery system innovations, healthcare systems are facing daunting challenges. Over the past half-century, research on cardiovascular diseases has manifested remarkable advances in the prevention and treatment of cardiovascular diseases. Yet, great challenges remain, primarily due to a lack of strong research evidence about how best to improve the quality, outcomes, and efficiency in health systems with a focus on cardiovascular diseases. Outcomes research aims to produce such evidence. This will include 10 x 90 minutes of interactive lectures and 5 x 120 minutes of case-study based seminars.
Formative coursework: An 800-word “mock” blog entry for The Conversation, which covers policy-relevant issues and often has academic contributors. A series of topics will be provided to students to choose from.
Assessment: Other (70%) and other (30%).
Two assessments will be:
1. “Journal referee report” for a health economics paper, which will include 2 elements: a summary and critical appraisal of the paper (1500 words) and a peer-review report with suggestions for improving the paper (1000 words). This assessment will evaluate the students’ ability in summarising, applying, and critically appraising the relevance of health economics concepts to a health policy.
2. Individual-based video presentation. Students will be asked to record a video on their own on a topic that will be assigned to them. This will assess the students’ ability to describe, summarise, apply, critically appraise, and communicate the concepts learned in class to a particular case study.

HP4C1E  Half Unit
Economic Analysis for Health Policy
This information is for the 2018/19 session.
Teacher responsible: Prof Andrew Street COW 3.03
Availability: This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.
Course content: The course will serve as an introduction to major issues in the economics of health and health care. It will provide participants with a strong understanding of the role economics can play in health policy and health system administration. It will provide a framework with which to understand the demands placed on the health care system, the changing nature of health care supply and delivery, the interactions between patients and providers of health care, and the performance and productivity of the health system. Participants will also be introduced to essential statistical concepts in the evaluation of clinical interventions. Seminar sessions will focus on current policy debates in health care drawing on the theory and evidence from the lectures, augmented by readings from both academic and popular sources.
Teaching: 15 hours of lectures and 10 hours of seminars in the MT.

This will include 10 x 90 minutes of interactive lectures and 5 x 120 minutes of case-study based seminars.
Assessment: Other (70%) and other (30%).
• Define the principal threats to validity in studies evaluating quality
• Design an evaluation strategy for a quality improvement policy or intervention in a group setting
• Critically evaluate empirical evaluations of quality and outcomes in health care research in oral and written form.

Teaching: 12 hours of lectures and 12 hours of seminars in the MT.

Formative coursework: Formative feedback on group presentations.

Assessment: Essay (100%, 3000 words) in the LT.

---

**HP4C4E** Half Unit

**Systematic Review and Meta-analysis**

This information is for the 2018/19 session.

Teacher responsible: Ms Leeza Osipenko COW 4.10

Availability: This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

Course content: Systematic review and meta-analysis methods are increasingly used to evaluate the relative benefits and harms of healthcare interventions. A broad range of decision making bodies across the health care sector (including health technology assessment bodies, drug and medical device licensing agencies, biopharmaceutical industry, and hospitals) need experts equipped with the methods of reviewing and synthesizing the existing body of evidence.

This course will be focused on the principles of reviewing and synthesizing the existing body of literature. The course will first provide the rationale for adopting a systematic approach for evidence review and synthesis. It will then equip students with the methods to undertake risk of bias assessments of individual randomized controlled trials and also collections of randomized controlled trials. In addition to providing an overview of methods for quantitatively synthesizing multiple randomized controlled trials in meta-analysis, the course will present the opportunities and challenges of using evidence for decision-making in health care.

Learning outcomes:

• Describe the rationale for adopting a systematic approach to literature review
• Define the principal threats to validity both in individual randomized controlled trials and collections of randomized controlled trials
• Randomized
• Randomized
• Design and perform a systematic review and meta-analysis evaluating a health care intervention in a group setting
• Describe the opportunities and challenges of using systematic review and meta-analysis findings for decision making

Teaching: 20 hours of seminars and 4 hours of computer workshops in the ST.

Formative coursework:

• Course convener will provide feedback on group presentations on the last day of the in-person teaching session
• Course convener will also provide written feedback on project outlines.

Assessment: Research project (100%) in the ST.

---

**HP4C5E** Half Unit

**Using Health Economics to Analyse and Inform Policy and Practice**

This information is for the 2018/19 session.

Teacher responsible: Prof Andrew Street COW 3.03

Availability: This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

Course content: Systematic review and meta-analysis methods are increasingly used to evaluate the relative benefits and harms of healthcare interventions. A broad range of decision making bodies across the health care sector (including health technology assessment bodies, drug and medical device licensing agencies, biopharmaceutical industry, and hospitals) need experts equipped with the methods of reviewing and synthesizing the existing body of evidence.

This course will be focused on the principles of reviewing and synthesizing the existing body of literature. The course will first provide the rationale for adopting a systematic approach for evidence review and synthesis. It will then equip students with the methods to undertake risk of bias assessments of individual randomized controlled trials and also collections of randomized controlled trials. In addition to providing an overview of methods for quantitatively synthesizing multiple randomized controlled trials in meta-analysis, the course will present the opportunities and challenges of using evidence for decision-making in health care.

Learning outcomes:

• Describe the rationale for adopting a systematic approach to literature review
• Define the principal threats to validity both in individual randomized controlled trials and collections of randomized controlled trials
• Randomized
• Randomized
• Design and perform a systematic review and meta-analysis evaluating a health care intervention in a group setting
• Describe the opportunities and challenges of using systematic review and meta-analysis findings for decision making

Teaching: 20 hours of seminars and 4 hours of computer workshops in the ST.

Formative coursework:

• Course convener will provide feedback on group presentations on the last day of the in-person teaching session
• Course convener will also provide written feedback on project outlines.

Assessment: Research project (100%) in the ST.
Dissertation: This course is not available as an outside option.

Course content: The health care sector is extremely complex, and this gives rise to concerns about how the health system should be organised, how incentives should be designed, and how performance should be evaluated. The objective of the course is to give students an introduction to how health systems are constructed, and how the various parts of the system interact; the role of regulation, resource allocation, payment arrangements, and performance measurement; the complexities of evaluating policy and performance; and the contribution that health economics can make to the evaluation and development of health policy. Participants are introduced to a variety of econometric methods as the course progresses.

Teaching: 15 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: The formative assessment is a 500 word outline of the summative assessment essay question.

Indicative reading:
- Busse, Reinhard vol 3 (1977) 3 (1977) DOI
- Organizations ed

Assessment: Essay (100%, 3500 words) in the LT.

The course will be assessed on the basis of a 3500 word essay on a specific topic. In writing this essay, students will be able to demonstrate and synthesise what they have learned from the lectures, reading material, group discussions and their own independent research and thinking. The content of the assessments will lead on from the illustrative case studies that have been used in the seminars.

Formative assessment will be based on a 500 word outline of the essay. This will give students an opportunity to develop their thoughts ahead of the summative assessment and will allow feedback from course teachers that will guide students when they work on their longer answers.

Due to the executive nature of the course and the 1 week nature of the module, this method of assessment will allow students to work away from campus alongside their professional roles.

HP4D1E Half Unit
Introduction to Management in Health Care

This information is for the 2018/19 session.

Teacher responsible: Dr Brittany Jones NAB 4.04
Availability: This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences and Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Pre-requisites: No Prerequisites

Course content: The course aims to introduce students to the main principles of management and strategy and related issues that impact on organisational change, group decision making, innovation and leadership. Key models and academic tools will be presented and their application to real world situations discussed. The course aims to give students a strong academic understanding and also enable them to apply this knowledge to their practice.

The course outline is below
1. Strategy and Managerial Work

In this session, we will explore the development of the modern practice of 'strategy' and what it means today. Along the way, we will show how organisational practices like planning meeting emerging ideas in academia, especially in economics, to develop new tools and ways of thinking that transformed the practice of management in the late 20th century. The development of strategic management and planning tools and the competitive environment in which they emerged will be discussed and the application of these tools will be examined in competitive markets.

2. Innovation Management

This part of the course will introduce the topic of innovation management. In particular, it introduces participants to the conceptualization of innovation as a means to affect the competitive process. Participants will be introduced to the basics of the competitive process and the effect of innovation on the competitive process. Participants will be active in analysing the competitive process surrounding their organization and the competitive position their organization occupies within it and activities will be used to promote thinking about how innovations, small or large, can defend and/or improve their competitive position.

3. How Individuals and Groups Organise and Make Decisions and Take Risk

This part of the course will introduce issues related to working as individuals within an organisation and as a group. It will look at the "benefits" and "harms" of group decision making processes – especially with reference to health care where collaborative multi-disciplinary teams are commonplace – and also discuss how group decisions making can be undermined by systematic biases.

4. Behaviour Change and Social Marketing

This part of the course will introduce the drivers and mechanisms of behaviour change in organisations. In particular, we will

HP4C9E Half Unit
Dissertation in Health Economics, Outcomes, and Management in Cardiovascular Sciences

This information is for the 2018/19 session.

Teacher responsible: Dr. Huseyin Naci and supervisors

Availability: This course is compulsory on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

Course content: The dissertation could be on any topic in the field of health economics, outcomes research, comparative effectiveness research, policy, and management. It should attempt to demonstrate and synthesise what they have learned from the seminars. This will give students an opportunity to develop their thoughts ahead of the summative assessment and will allow feedback from course teachers that will guide students when they work on their longer answers.

Due to the executive nature of the course and the 1 week nature of the module, this method of assessment will allow students to work away from campus alongside their professional roles.

method of investigation, results of the analysis, discussion and policy implications and recommendations.

Teaching: 5 hours of lectures in the ST.

In addition to the lectures, students will be given individual support by their allocated supervisor.

Assessment: Dissertation (100%, 5000 words).
discuss how different organizational-level factors may influence behaviour change, including resistance to change from various levels and sustainability of changes across time, and how organizational behaviour change can be measured. Models of organisational behaviour change will be introduced and the principles of managing and leading change in established systems will be discussed with a focus on the stages of planning and implementation of change. Alongside this appropriate tools and resources will be introduced to aid future organisational changes. The coverage of social marketing will deal with the formulation and execution of strategies designed to influence behaviour change amongst groups at risk of cardiovascular disease.

5. Culture and Leadership

This part of the course will explore the definition of culture within organisations and leaders’ role in creating and supporting successful teams. Key components of leadership, like the ability to establish direction and motivate and inspire a workforce as well as handle relationships with external stakeholders, will then be introduced with a consideration of how they affect culture and working practices.

Teaching: 10 hours of lectures, 10 hours of seminars and 1 hour of help sessions in the ST.

Given the executive nature of this course, it will be offered as an intensive, accelerated, and compressed module with a 1-week duration consisting of 5x2-hour lectures and 5x2-hour seminars (in addition to a 1x1-hour online help session).

Formative coursework: Students will be expected to produce 1 essay in the ST.

The formative assessment is a 500 word outline of the summative assessment essay question.

Assessment: Essay (100%, 2500 words) post-summer term.

The course will be assessed on the basis of a 2500 word essay in the ST.

Stressful events within organisations and leaders’ role in creating and supporting successful teams. This part of the course will explore the definition of culture within organisations and leaders’ role in creating and supporting successful teams. Key components of leadership, like the ability to establish direction and motivate and inspire a workforce as well as handle relationships with external stakeholders, will then be introduced with a consideration of how they affect culture and working practices.

Teaching: 10 hours of lectures, 10 hours of seminars and 1 hour of help sessions in the ST.

Given the executive nature of this course, it will be offered as an intensive, accelerated, and compressed module with a 1-week duration.

Formative coursework: Students will be expected to produce 1 essay in the ST.

A selection of multiple choice and open-ended questions to test extent of knowledge and understanding of syllabus

Assessment: Research project (100%) post-summer term.

A 3,000-word (excluding references) case study on a specific topic of a health technology in a systematic, transparent, unbiased, and robust manner. Health Technology Assessment differs in its governance, data and evidence requirements, assessment methods, and operational arrangements across different settings and contexts. This course is aimed at introducing the key principles of Health Technology Assessment, its operational modalities, the different models of value assessment and how they link to decision-making.

Outline of the course is included below:

1. The role of Health Technology Assessment in health care decision making
2. Models of Health Technology Assessment and their application in different jurisdictions - a comparative perspective
3. Governance issues (position in health care decision-making, topic selection, assessment process, stakeholder involvement)
4. Data and evidence requirements for value assessment
5. Health Technology Assessment and value assessment: focus on clinical benefit assessment
6. Health Technology Assessment and value assessment: focus on clinical-cost-effectiveness
7. Assessment methods in Health Technology Assessment
8. Explaining similarities and differences in Health Technology Assessment recommendations – a toolkit
9. The role of multiple criteria decision analysis in value assessment
10. Beyond Health Technology Assessment: links to risk-sharing and special purchasing arrangements

Teaching: 10 hours of lectures, 10 hours of seminars and 1 hour of help sessions in the ST.

Given the executive nature of this course, it will be offered as an intensive, accelerated, and compressed module with a 1-week duration.

Formative coursework: Students will be expected to produce 1 essay in the ST.

A selection of multiple choice and open-ended questions to test extent of knowledge and understanding of syllabus

Assessment: Research project (100%) post-summer term.

A 3,000-word (excluding references) case study on a specific topic

HP4D2E Half Unit Principles of Health Technology Assessment

This information is for the 2018/19 session.

Teacher responsible: Dr Panagiotis Kanavos COW G.04

Availability: This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences and Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.

Course content: Health Technology Assessment: a multidisciplinary process that summarises information about the medical, social, economic, and ethical issues related to the use

HP4D5E Half Unit Research Design for Evaluating Health Programs and Policies

This information is for the 2018/19 session.

Teacher responsible: Dr Elisabetta De Cao OLD 1.11

Availability: This course is available on the Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences. This course is not available as an outside option.

Course content: The objective of this course is to teach students how to design and critically appraise research studies evaluating policies, programmes, and interventions. This course will provide an overview of the principles and models of evaluation, and the role of theories, concepts, and hypotheses.
In terms of research design, it will cover study design choices in light of bias, validity and other design trade-offs. The core of the course will focus on experimental and quasi-experimental designs for evaluating health interventions, programmes and policies aimed at achieving high quality care, reducing costs, and improving health outcomes. Data and measurement considerations for quantitative studies will be discussed alongside briefly touching upon qualitative methods, mixed-methods and triangulation for interpreting findings and taking a critical approach to the results of evaluation. The course will conclude with practical and ethical issues when undertaking evaluation studies.

Teaching: 10 hours of lectures and 10 hours of seminars in the ST.
Given the executive nature of this course, it will be offered as an intensive, accelerated, and compressed module with a 1-week duration.

Formative coursework: Students will be expected to produce 1 project in June.
Students will receive feedback on their project report outlines.

Assessment: Research project (70%) and presentation (30%) post-summer term.
Project (70%, 2,000 words)
Group presentation (30%)
Assessment is through a project that students will undertake in small groups and write up individually (2,000 word paper), to be submitted 10 weeks after the completion of the course. Group presentation will account for the remaining 30% of the grade.

---

**HP4E1E  Half Unit**

**Global Health Policy**

This information is for the 2018/19 session.

Teacher responsible: Dr Clare Wenham COW 3:07

Availability: This course is compulsory on the Executive MSc in Health Economics and Policy (LSE and Chicago). This course is not available as an outside option.

Course content: Health policy is no longer purely a government activity, but globalisation and global organisations have impacted on the nature of global health, and the policies created to manage the health needs of the global population. This module critically examines global health policy and normative shifts in understanding global health which impact upon it. The multi-actor framework of global health actors involved in the provision and practice of health policy now includes United Nations agencies (WHO, UNICEF, UNAIDS etc), a number of NGOs, civil society organisations, private sector, foundations, public private partnerships. Each actor has their own priorities for setting the global health agenda, and this module examines the role of each and their impact on health policy at national, regional and global levels. The module will analyse a range of case studies of global health events and global health policies and the governance arrangements made by them. In doing so, this module will draw on contributions from international relations, political science, sociology and public health research.

Teaching: 12 hours of lectures and 8 hours of seminars in the MT.
All students will have the opportunity to participate in additional lectures undertaken by external guests. These lectures will be run every Monday and Wednesday from 6pm to 8pm during the teaching period at LSE.
In addition, students will be given the option to participate in a three-hour webinar hosted at least 10 days before the due date of the take-home assessment. The webinar will consist of two-hours of lectures and one hour of question time.

Formative coursework: Students will be expected to produce 1 essay in the MT – 1 X 1000 word essay. Students will be asked to submit a short 1000 word essay (on the topic that they are writing on for the summative, but a different question) at the end of January.
These will be graded and feedback given to students. This allows students to get valuable experience of writing at MSc level at LSE, and the expectations of the summative assessment. This then allows students to take this feedback and use it in their writing of the summative work. For example, if a student’s formative work flagged particular concerns this could be addressed ahead of the summative submission.

Indicative reading:

Assessment: Essay (85%, 4000 words) in the LT.
Presentation (15%) in the MT.
1 x 4000 word essay due in LT (after lecture/seminar programme in December) – 85% of grade
Students will be asked to pick one essay question from a list of 8 topics. They are also given the option to choose their own essay topic (after discussion with their seminar leader) if they would prefer. The questions will be broad, allowing for student individuality to come across in their answers. For example: What role should the WHO play in the future of global health policy?
1 x seminar presentation and leading of group debate in class – 15% of grade
Students will each pick a seminar to lead / present on. This will be from the list of designated topics for seminars each on a particular area of global health policy. The assessment will be on the content and presentation of the topic to their classmates. Each student in the session will provide feedback (via Padlet) on the presentation which will be returned to the presenter (s). They will also offer a grade for the presentation, which will be aggregated with the seminar leader’s grading.

---

**HP4E2E  Half Unit**

**Paying for Healthcare**

This information is for the 2018/19 session.

Teacher responsible: Prof Elias Mossialos Cowdry 4.08

Availability: This course is compulsory on the Executive MSc in Health Economics and Policy (LSE and Chicago). This course is not available as an outside option.

Pre-requisites: There are no pre-requisites for this course.

Course content: This course aims to introduce students to a comparative approach to analysing the development of health care financing, both in theory and in practice, with an emphasis on critical assessment of current and future policy options and issues. It focuses on the health financing functions of collecting revenue,
pooling funds and purchasing services, as well as on policy choices concerning coverage, resource allocation and market structure. The course mainly draws on examples from health financing policy in developed countries, given these systems are the most advanced, have extensive readily available literature, and are based on best practice principles. However, healthcare system financing in developing countries will also be discussed, albeit to a lesser extent.

**Teaching:** 15 hours of lectures and 6 hours of seminars in the MT. All students will have the opportunity to participate in additional lectures undertaken by external guests. These lectures will be run every Monday and Wednesday from 6pm to 8pm during the teaching period at LSE.

In addition, students will be given the option to participate in a three-hour webinar hosted at least 10 days before the due date of the take-home assessment. The webinar will consist of two-hours of lectures and one hour of question time.

**Formative coursework:** Students will be expected to produce 1 essay in the MT. Students will be provided with an option to complete a practise essay (up to 1,000 words), with topics provided by the lecturer. The essay will be reviewed by a seminar tutor, which will grade the exam as if it were the final. Comments will be provided to students to assist them in their final exam.

**Assessment:** Take home exam (100%) in the LT.

The assessment is a take-home assessment. It will outline six topics covering the course content. Students will be required to complete two of the six topics, which will need to be at least 1,500 words in length. Students will have 72 hours to complete the take-home exam.

---

**HP4E3E Half Unit Evidence Review and Synthesis**

**This information is for the 2018/19 session.**

**Teacher responsible:** Mr Huseyin Naci COW 3.01

**Availability:** This course is compulsory on the Executive MSc in Health Economics and Policy (LSE and Chicago). This course is not available as an outside option.

**Course content:** The content for this course will closely parallel SA4M9E and SA4P1, which are taught by the same instructor and offered on the Executive MSc Health Economics, Outcomes and Management in Cardiovascular Sciences, and the full-time MSc programmes (Global Health, International Health Policy, and Health Policy, Planning and Financing), respectively.

Evidence review and synthesis methods (such as systematic reviews and meta-analyses) are increasingly used to evaluate the relative benefits and harms of healthcare interventions. A broad range of decision making bodies across the health care sector (including health technology assessment bodies, drug and medical device licensing agencies, biopharmaceutical industry, and hospitals) need individuals equipped with the methods of reviewing and synthesising the existing body of evidence by performing systematic reviews and meta-analyses.

This course will be focused on the principles of reviewing and synthesising the existing body of literature. The course will have three components. The first will provide the rationale for adopting a systematic approach for evidence review and synthesis. It will equip students with the methods to undertake risk of bias assessments of randomised and non-randomised studies. The second component will focus on the quantitative synthesis of multiple studies in meta-analysis. The third component will discuss the opportunities and challenges of using evidence for decision-making.

The intended learning outcomes of this course will be the following:

- Describe the rationale for adopting a systematic approach to literature review
- Explain the principal threats to validity both in individual studies and collections of studies
- Critically evaluate the quality of randomised and non-randomised studies
- Assess heterogeneity in a collection of studies
- Design and perform a systematic review and meta-analysis evaluating a health care intervention in a group setting
- Describe the opportunities and challenges of using systematic review and meta-analysis findings for decision making

**Teaching:** 15 hours of lectures, 5 hours of seminars and 3 hours of computer workshops in the MT.

All students will have the opportunity to participate in additional lectures undertaken by external guests. These lectures will be run every Monday and Wednesday from 6pm to 8pm during the teaching period at LSE.

In addition, students will be given the option to participate in a three-hour webinar hosted at least 10 days before the due date of the take-home assessment. The webinar will consist of two-hours of lectures and one hour of question time.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the MT.

**Summative assessment:**

- Students will receive feedback from the course instructor on their systematic review and meta-analysis protocol.
- The word-limit for the protocol (to be developed individually) is 1,000 words.
- This protocol is based on a non-assessed presentation delivered by a group of students at the last day of class and feedback received on this presentation by the course instructor and members of other groups. This protocol closely parallels PRISMA protocols that need to be developed and registered prior to starting a systematic review and meta-analysis focused on health care subjects.

**Indicative reading:**

**Assessment:** Coursework (100%, 3000 words) in the LT.

**Summative assessment:**

- Systematic review and meta-analysis report resembling an original article submission to a peer-reviewed journal.

---

**IR442 Diplomacy and Challenges**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Michael Cox PAN 9.01A

**Availability:** This course is compulsory on the MSc in International Strategy and Diplomacy. This course is not available as an outside option.

**Course content:** This course looks at six key aspects of diplomacy: the tools of diplomacy and negotiation; new international security and policy challenges; such as climate change, global flashpoints, such as Brexit, the South China Sea and Syria; policy assessment
on a major current international problem; simulations on crisis management and diplomatic negotiations; the future of diplomacy and international affairs.

**Teaching:** 30 hours of lectures, 20 hours of seminars and 20 hours of workshops in the LT.

**Formative coursework:** One formative policy paper (2,000 words) with a pre-arranged task. Feedback will involve a meeting with each student to discuss their formative policy paper. We will aim to ensure that students are able to: critically evaluate different kinds of evidence; assess the strengths and weaknesses of competing policy options; formulate arguments and policy recommendations in a coherent and balanced fashion.

**Indicative reading:**

**Assessment:** Project (100%, 3000 words) in the LT. 3,000 word assessed policy paper setting out a detailed strategy to implement a policy.

---

**IR443**

**Strategy in a Changing World**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Michael Cox PAN.9.01A

**Availability:** This course is compulsory on the MSc in International Strategy and Diplomacy. This course is not available as an outside option.

**Course content:** In this course we will be examining through lectures, seminars and workshops major foreign policy decisions, the diplomatic background to each of these and the strategic thinking behind them. We will be asking the students through group exercises to prepare a strategy and policy paper relevant to the day.

**Teaching:** 8 hours of seminars in the ST.

The course is taught over 48 hours. This includes 3 intense sessions - a weekend of assessing strategic decisions involving drafting and crafting papers, a second weekend of formulating strategic decisions and briefing sessions on methodology. All these will lay the foundations for the dissertation plan.

**Formative coursework:** Group discussion and formulation of strategy/policy papers.

**Indicative reading:** Readings vary each year depending on the cases, scenarios and policy issues examined during each policy session. Readings will be provided to registered students in the pre-arranged title due in the MT. Feedback will involve a meeting with each student to discuss their formative essay. In the process, we will aim to ensure that students are able to: critically evaluate different kinds of evidence; assess the strengths and weaknesses of competing explanatory paradigms; formulate arguments in a coherent and balanced fashion.

**Indicative reading:**

**Assessment:** Essay (100%, 4000 words).

---

**IR444**

**Half Unit**

**Strategy in Action**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Michael Cox PAN.9.01A

In the process, we will aim to ensure that students are able to: critically evaluate different kinds of evidence; assess the strengths and weaknesses of competing explanatory paradigms; formulate arguments in a coherent and balanced fashion.

**Indicative reading:**

**Assessment:** Essay (100%, 4000 words).
Using the dissertation plan (IR444), the dissertation will include (H).

This course is taken in conjunction with IR444 Strategy in Action in conjunction with IR496 Dissertation: MSc Diplomacy and a literature review and the methodology. This module is taken in conjunction with IR496 Dissertation: MSc Diplomacy and International Strategy (1.5 units).

**IR496 One and Half Unit**

**Dissertation: MSc International Strategy and Diplomacy (1.5 units)**

*This information is for the 2018/19 session.*

**Teacher responsible:** Prof Michael Cox PAN 9.01A

**Availability:** This course is compulsory on the MSc in International Strategy and Diplomacy. This course is not available as an outside option.

**Course content:** The dissertation will address a topic in the social sciences drawn broadly from the three core courses. The topic should make central use of concepts in the study of International Relations, strategy and diplomacy and should demonstrate a good understanding of these concepts and implications. The dissertation will draw on empirical topic areas but should also demonstrate a high degree of conceptual originality. Guidance on standards of presentation will be given in the handbook and conform to the standard laid down for MSc dissertations in the International Relations Department. The subject and title of the dissertation must be approved by the dissertation supervisor.

**Teaching:** Arrangements for supervision. Students will receive advice on how to choose a topic and how to write a dissertation from a 1.5 hour workshop and from three half hour individual supervision sessions.

**Formative coursework:** Students submit a 3,000 dissertation plan on which they receive written feedback (see the details of the IR444 course, taken in conjunction with IR496).

**Assessment:** Dissertation (100%, 15000 words) in the LT.

A 15,000 word dissertation (100%) to be submitted in September. This course is taken in conjunction with IR444 Strategy in Action (H).

Using the dissertation plan (IR444), the dissertation will include an introduction, theoretical framework, a literature review and methodology followed by chapters, conclusion and bibliography.

**LL401E Half Unit**

**The Law of Armed Conflict**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Stephen Humphreys NAB5.12

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

**Assessment path 1**

**Essay (100%, 8000 words).**

**Assessment path 2**

**Take home exam (100%).**

**LL400E Half Unit**

**European Capital Markets Law**

*This information is for the 2018/19 session.*

**Teacher responsible:** Professor Niamh Moloney

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course covers the international law governing the conduct of hostilities (jus in bello), which is a separate course. The course will take a critical approach to the international regulation and facilitation of armed conflict. As well as the laws governing the means and methods of war (‘ Hague law), the ‘protected’ groups hors de combat (‘Geneva’ law), and the distinction between international and non- international armed conflict, the course will cover ‘lawfare’ more generally: the recourse to law as a means of waging war. It will examine the application of the laws of war, including occupation law, in recent conflicts, including the wars in Iraq, Afghanistan and Syria, the ‘war on terror’, and the Palestinian Occupied Territories. Students can expect to have a thorough grasp of the principles and regulations governing the conduct of hostilities, the context and efficacy of enforcement mechanisms, and a critical understanding of the normative and political stakes of international law in this area.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing
a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:**
- Assessment path 1
  - Essay (100%, 8000 words).
- Assessment path 2
  - Take home exam (100%).

**LL402E  Half Unit**  
**Key Issues in Transnational Environmental Law**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Veerle Heyvaert NAB7.06

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** The course focuses on key developments in environmental law beyond the State, which includes both the European and international level. It reviews the main law and policy principles that inspire transnational environmental developments, and identifies opportunities for and obstacles to the effectiveness of transnational environmental law. Then, the course turns the spotlight on the most important environmental challenges of our time and examines the role of transnational law in managing or resolving them. The course is structured as follows:

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Assessment:**
- Assessment path 1
  - Essay (100%, 8000 words).
- Assessment path 2
  - Take home exam (100%).
LL404E  Half Unit
European and UK Human Rights Law

This information is for the 2018/19 session.
Teacher responsible: Prof Conor Gearty NAB 6:11
Availability: This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The principal focus of the course is upon methods of resolving disputes other than adjudication. The course brings together theory and observation of practice and is divided into two parts. In the first section students examine what motivates people to enter into disputes and the range of outcomes they seek, the history of the “informal justice” movement and the transformation of attitudes to dispute resolution in the UK and beyond. The emphasis in this part of the course is also on looking at the two primary forms of dispute resolution, negotiation and mediation. In the second part of the course specialist practitioners work with the class in exploring the interface between theory and practice and the different dynamics of disputes and their resolution in specific subject areas such as commercial law, community disputes, international law and family law. The course is designed to complement the option on Commercial Arbitration.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Indicative reading: Students will also find it useful to access the following books which provide important context for debate about the civil litigation system and negotiation tactics: Henry Brown and Arthur Marriot, (2012) ADR: Principles and Practice, London. Sweet and Maxwell. This is written by practitioners but also makes reference to a number of seminal academic sources. It provides a good framework within which to position the more in-depth arguments contained in the academic articles set each week.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL405E  Half Unit
Dispute Resolution and Advanced Mediation

This information is for the 2018/19 session.
Teacher responsible: Prof Linda Mulcahy NAB 7.15

Course content: This course (Part I and Part II) examines the regulatory structures governing financial markets and investment services. It covers the main principles of international, EU and UK financial regulation, with the aim of developing a critical understanding of the dynamics and conceptual framework of financial regulation. The course does not aim to provide a detailed comparative account of financial regulation across countries, but international comparisons may be made where these are useful. In this context, students are encouraged to draw on their knowledge of their own national systems of regulation in making comparisons, and to apply the analytical perspectives suggested to those systems. The focus will be on the regulation of national and international aspects of financial services and markets, rather than on private law and transactional aspects. No previous knowledge of financial market regulation or background in economics is required for those wishing to follow this course. Indeed, the course provides a good background for further study of both financial and economic law and economic analysis of law.

The course might be regarded as complimentary to a number of other courses, including Law of Corporate Finance or International Financial Law and Practice I & II.

The first part of this course will address the following topics:
- Anatomy of the Financial Market and the Great Financial Crisis
- Building Blocks of the Regulatory World
- Rationales for its Regulation
- Systemic Stability
- Market Integrity
- Principle-Agent Competition
- Key Elements of Financial Regulation
- Disclosure
- Resilience
- Risk Modelling and Regulation inside Firm
- Global and EU Regulatory Structures
- Financial Stability – Policy Issues, Principles and Global Standard Setters
- Prudential Regulation of Banks – The Basel Accords
- The EU Banking Union
- Deposit Guarantees
- Bank Resolution and Insolvency

Teaching: 24-26 hours of contact time (for each half unit)

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Indicative reading: A full reading list will be distributed during the course and essential materials will be made available to the students, where possible. In addition, the students will be invited to do independent reading. Good general introductions to financial markets and their regulation include: A Turner et al, The Future of Finance: The LSE Report (2010); S Valdez and P. Molyneaux, Introduction to Global Financial Markets (7th edn).

Assessment: Assessment path 1
- Essay (100%, 8000 words)
- Assessment path 2
- Take home exam (100%)

LL407E Half Unit
Regulation of Financial Markets II

This information is for the 2018/19 session.

Teacher responsible: Dr Philipp Paech NAB7.05
Availability: This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course examines the regulatory structures governing financial markets and financial services. It covers the main principles of international, EU and UK financial regulation with the aim of developing a critical understanding of the conceptual framework for financial regulation. This half unit focuses on financial stability, including macro and micro-prudential regulation, regulation of trading and market infrastructure, and on new and emerging issues in financial regulation.

The course does not aim to provide a detailed comparative account of financial regulation across countries, but international comparisons may be made where these are useful. In this context, students are encouraged to draw on their knowledge of their own national systems of regulation in making comparisons, and to apply the analytical perspectives suggested to those systems. The focus will be on the regulation of national and international aspects of financial services and markets, rather than on private law and transactional aspects.

No previous knowledge of financial market regulation or background in economics is required for those wishing to follow this course. Indeed, the course provides a good background for further study of both financial and economic law and economic analysis of law.

For non-lawyers, a willingness to engage in legal analysis will be necessary, although a legal background is not required. The course might be regarded as complimentary to a number of other courses, including Law of Corporate Finance or International Financial Law and Practice I & II.

Topics include:
1. Unpicking the Great Financial Crisis
2. Mapping regulation for financial stability
3. States, Banks and Global Markets: the macroeconomic Background
4. The next Financial Crisis
5. Ethics in Finance
6. Market Integrity
7. The role of Consumers
8. Consumer Protection
9. Securities markets and Conduct of Business
10. Fast, global, decentralized– the Challenges of the Future

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Indicative reading: A full reading list will be distributed during the course and essential materials will be made available to the students, where possible. In addition, the students will be invited to do independent reading. Good general introductions to financial markets and their regulation include: A Turner et al, The Future of Finance: The LSE Report (2010); S Valdez and P. Molyneaux, Introduction to Global Financial Markets (7th edn).

Assessment: Assessment path 1
- Essay (100%, 8000 words)
- Assessment path 2
- Take home exam (100%)

LL408E Half Unit
Comparative Constitutional Law

This information is for the 2018/19 session.

Teacher responsible: Dr Jo Murkens NAB7.31
Availability: This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course examines the central issues in comparative constitutional law across a range of jurisdictions and from a variety of perspectives. The course opens with an introduction on the purpose of comparative constitutional law. The first substantive part discusses various approaches to the study of CCL as well as the migration of constitutional ideas (and
related notions of constitutional borrowing, transplants etc). The second part deals with key constitutional concepts (constitution; rule of law; presidentialism, parliamentarism) which are discussed from a historical and comparative perspective. The point of these sessions is not to compare for the sake of comparing, but to equip you (the researcher) with the conceptual tools to do insightful, critical, and original comparative work of your own. The third part looks challenges the assumptions of liberal constitutionalism by examining constitutions in divided societies and authoritarian constitutionalism. The overall aim of the course is to develop students’ understanding and use of many general theoretical explanations surrounding debates in CCL, and to develop students’ critical/analytical approach to many of the questions facing judges and scholars in the next decade.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Indicative reading:** There is no set book for this course. All materials will be made available in advance on Moodle.

**Assessment:**
- Assessment path 1
  - Essay (100%, 8000 words).
- Assessment path 2
  - Take home exam (100%).

---

**LL409E Half Unit**

**Comparative Constitutional Rights**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Kai Moller NAB.7.01

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option. Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course examines a range of controversial issues in human and constitutional rights law from a comparative perspective. These issues include: Abortion, ‘Deviant’ Sex; Sexology; Sado-Masochistic Sex; and Incest; Same-Sex Marriage; Religion in the Public Sphere; Hate Speech and Denial of the Holocaust; Obscenity. We will approach them by comparing and contrasting judgments from courts all over the world, with a certain emphasis on cases from the U.S. Supreme Court, the Canadian Supreme Court, the South African Constitutional Court, the European Court of Human Rights, the U.K. Supreme Court, and the German Federal Constitutional Court. The goals of the course are, first, to introduce the students to the jurisprudence of those extremely powerful and influential courts, and, second, to invite them to think about and critically analyse some of the most controversial, difficult, and important rights issues of our time.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Indicative reading:** The course is mainly case-based; however, interested students may find the following book helpful: V Jackson and M Tushnet, Comparative Constitutional Law, 3rd edition, 2014.

**Assessment:**
- Assessment path 1
  - Essay (100%, 8000 words).
- Assessment path 2
  - Take home exam (100%).

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL412E Half Unit
International Economic Law I

This information is for the 2018/19 session.
Teacher responsible: Prof Andrew Lang NAB6.19
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The aim of the course is to introduce students to the field of international economic law: its principles, rules, practices, and institutions, and the debates which attend each. The course focuses on the public international law rules and institutions which govern international trade. Students will be given a grounding in the jurisprudence of the WTO, but will also be introduced to interdisciplinary material on the broader political, economic, institutional and normative contexts in which international economic law operates. Key themes will include the question of development and developing countries, the role of expertise in global economic governance, and institutional aspects of judicial international dispute settlement. Students will be expected to engage with the principles and practice of international economic law both at the technical level, and at the level of critical reflection.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).

LL411E Half Unit
International Financial Law and Practice II

This information is for the 2018/19 session.
Teacher responsible: Dr Philipp Paech NAB7.05
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Pre-requisites: There are no specific prerequisites for taking this course. While this course is complimentary to LL410E prior completion of the latter is not necessary to take LL411E.

Course content: This course explores contemporary issues of the commercial law of international financial markets. These include • the future of English law as reference law for international finance after Brexit • financial markets and modern trends in conflict-of-laws • the legal characteristics of the various types of networks used in financial markets (central, decentral, distributed) • the disruption of law caused by • the legal challenges flowing from the increasing use of ‘big data’ and artificial intelligence in financial services • the future role of commercial law in managing risk • the nature of so-called smart contracts and their role in standard documentation, risk management and due diligence • legal issues associated with cryptocurrencies and crypto-money. As the course is conceived to be very topical, some of the course content may change.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).
Assessment path 2
Take home exam (100%).

**LL413E  Half Unit**

**International Economic Law II**

This information is for the 2018/19 session.

Teacher responsible: Prof Andrew Lang NAB6.19

Availability: This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course is a continuation of LL412E. In International Economic Law II, topics to be covered may include: Trade Remedies (Antidumping, Countervailing duties and Safeguards); Trade and Global Value Chains; State-owned Enterprises; Advanced Issues in WTO Dispute Settlement; Digital Trade; Trade and Taxation; and others. In both courses, we will set aside time to consider topical issues, for example around public international regulation of global finance, regional economic integration, development and developing countries in the trading system, and environmental aspects of international trade.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words)
Assessment path 2
Take home exam (100%).

**LL415E  Half Unit**

**Fundamentals of International Commercial Arbitration**

This information is for the 2018/19 session.

Teacher responsible: Dr Jan Kleinheisterkamp NAB7.09

Availability: This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Pre-requisites: Fundamentals of International Commercial Arbitration (LL415E) or equivalent course in previous studies or relevant practical experience with international arbitration

Course content: This course aims at giving students who already are acquainted with the fundamentals of arbitration the possibility to go into depth into selected problems of international commercial arbitration. The course is designed to allow intense discussions of these problems in order to raise the sensitivity for the issues at stake and to lead to a research oriented approach. Despite its academic outset, the course is highly relevant for those wanting to specialise in arbitration practice, as the theoretical problems have a most significant impact on practical solutions. The course will treat a selection of topical contemporary issues of international commercial arbitration, such as the role of internationally mandatory rules of law, arbitration & insolvency, the scope of the competence-competence principle, arbitration and fraud and corruption, or the enforcement of awards set aside abroad. The course seeks to be as topical as possible, so that content may change in the light of developments.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

LL417E  Half Unit
International Commercial Contracts: General Principles

This information is for the 2018/19 session.
Teacher responsible: Dr Jan Kleinheisterkamp NAB7.09
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.
Pre-requisites: Firm knowledge of contract law and/or international sales law from previous studies.
Course content: The course treats what can be called the general part of transnational contract law, i.e. the general principles of law which are of relevance in any kind of international contract, be it sale, construction, shipping, financing, or joint venture. These general principles relate to contractual formation and negotiations, interpretation, transversal general principles, changed circumstances and hardship, agency, third parties, assignment, self-help and set-off, direct performance and damages and penalties. At present, such contracts are governed either by uniform rules of international conventions or by the national laws applicable by virtue of conflict of law rules. The course puts the existing national and international solutions in a comparative perspective so as to work with the sources of such generally accepted principles. Where there are divergences between existing solutions, the course focuses on the elaboration of new efficient solutions that are internationally acceptable and have the potential of becoming general principles in the future. For these purposes, special attention is given to the UNIDROIT Principles on International Commercial Contracts and the European Principles of Contract Law. Other national laws, however, are drawn upon from time to time. Students are also encouraged, in both examination and classes, to reflect upon the similarities and differences between their own national laws and the UNIDROIT Principles.
Teaching: 24-26 hours of contact time.
Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.
Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL418E  Half Unit
Comparative Corporate Governance

This information is for the 2018/19 session.
Teacher responsible: Dr Carsten Gerner Beuerle NAB5.08
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.
Course content: This course will focus on the role of boards of directors in large public companies and groups of companies. It will deal with the legal regulation of agency problems arising between the board and shareholders as a class; between the board/majority shareholders and minority shareholders; and between the board and other stakeholder groups, notably creditors and employees. Although the main focus will be on board and shareholder relationships, the aim of the course is to develop and apply a framework of analysis which illuminates relations between the board and all stakeholder groups. The course will be taught largely on a comparative basis, focusing on English, US, German and French law.
Teaching: 24-26 hours of contact time.
Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.
Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL419E  Half Unit
Law of Corporate Finance

This information is for the 2018/19 session.
Teacher responsible: Dr Eva Micheler NAB7.35
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.
Course content: The course examines the private law rules governing how companies raise finance. The issues covered include e.g. capital structures, identifying and protecting shareholder rights, issuing shares, initial legal capital and alternatives, dividends, reduction of capital and share buy-backs, reform and moving to a solvency test and financial assistance. The course will focus on English Law but reference will be made to the relevant EU rules.
Teaching: 24-26 hours of contact time.
Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.
**LL420E  Half Unit**

**International Law and Climate Change**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Stephen Humphreys NAB6.15

**Assessment:** This course is available on the Executive LLM. This course is not available as an outside option. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course covers the international law dealing with climate change with a view to assessing how risks and uncertainties caused by climate change are governed and allocated in different legal regimes. The course adopts the stance that the political and legal questions raised by climate change cannot be addressed by reference to climate change law (or indeed international environmental law) alone. Climate change gives rise to a series of profound problems touching upon a range of bodies of law (international economic law, human rights law, state responsibility, international migration law) in a complex, political and ethical environment. In approaching climate change as a concrete concern relevant to these various bodies of law and practice, the course will address the normative and/or ethical bases for choosing between actions designed to prevent and/or manage climate change and its consequences, attentive to developmental imperatives and the theoretical concerns raised by the 'fragmented' nature of international law.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Assessment path 1**

Essay (100%, 8000 words).

**Assessment path 2**

Take home exam (100%).

**LL423E  Half Unit**

**Media Law: Regulating Publication**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Andrew Scott NAB6.25

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** The course examines the legal and administrative regulation of mass media publication (principally the press, the broadcast media, and institutionalised Internet publication). The course is introduced with consideration of a number of themes that underpin the rest of the syllabus: the role(s) of the media in society (including conceptions of the ‘public interest’); the main social, technological and regulatory influences that shape media publication practice, and rights jurisprudence (in particular, the freedom of expression and freedom of the press in national and international law). The course then examines potential restrictions on publication that are aimed at promoting or preserving specific private and/or public interests. The key private interests considered are those in reputation (defamation), privacy, and confidentiality. The key public interests considered are the integrity of the judicial process (contempt and reporting restrictions), the impartiality of political representations, the avoidance of offence (obscenity and religion), national security, and the protection of children.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Assessment:** Assessment path 1

Essay (100%, 8000 words).

**Assessment path 2**

Take home exam (100%).

**LL424E  Half Unit**

**Media Law: Regulating Newsgathering**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Andrew Scott NAB6.25

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course examines the legal and administrative regulation of newsgathering and content production practices undertaken by journalists and others working in the media sector.
The course is introduced with consideration of a number of themes that underpin the rest of the syllabus: the role(s) of the media in society (including conceptions of the 'public interest'); the main social, technological and regulatory influences that shape media interactions; and rights jurisprudence (in particular, the freedom of expression and freedom of the press in national and international law). The course then examines a number of newspapering practices that are either facilitated or proscribed by law and/or other forms of regulation. These include protection of sources (in general; vis-a-vis police and security interests; payment of sources); access to information held by the state (official secrets; news management; freedom of information); access to the justice system (secret justice / physical access to courts; access to court documents; technology and the courts - text-based reporting and broadcasting; access to prisoners); media-police interaction; harassment and media intrusion, and surreptitious newspapering practices (hacking, tapping and subterfuge).

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:** Assessment path 1

- Essay (100%, 8000 words)
- Assessment path 2

- Take home exam (100%).

---

**LL425E  Half Unit  
Competition Law**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Pablo Ibanez Colomo

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** The course is a comprehensive study of the main features of competition law. While the focus is on EU competition law, reference will be made to the laws of other jurisdictions (e.g. the United States and the UK) when these offer relevant points for comparison. The first part of the course examines the history and aims of competition law. It considers the role of economic analysis and its limitations in the light of non-economic considerations. The second part is a review of the major substantive fields: restrictive practices; the regulation of monopolies and dominant positions; distribution and cooperation agreements and merger control. The third part addresses the public and private enforcement of competition law.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Assessment:**

- Assessment path 1
  - Essay (100%, 8000 words)
- Assessment path 2
  - Take home exam (100%).

---

**LL426E  Half Unit  
Theory of Human Rights Law**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Kai Moller NAB7.01

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** The course will provide an introduction to the philosophy of human rights and theoretical issues in human rights law. The emphasis is on a combination of law and theory; to this end, each seminar will rely on a mixture of cases from various jurisdictions and theoretical and philosophical materials. The overarching questions to be examined are to what extent current philosophical theories of human rights can illuminate our understanding of the cases and legal doctrines, and to what extent the cases and doctrines can help improving the theoretical and philosophical understanding of human rights. Topics to be discussed will include: Interest Theories of Human Rights; Ronald Dworkin’s Theory of Rights as Trumps; Balancing and Proportionality; Human Rights and Judicial Review I (The American Perspective); Human Rights and Judicial Review II (The European Perspective); Absolute Rights.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

**Indicative reading:** The course will rely on both cases from various jurisdictions and articles and book chapters from authors including Ronald Dworkin, Robert Alexy, James Griffin, Mattias Kumm, Jeremy Waldron and Frances Kann.

**Assessment:**

- Assessment path 1
  - Essay (100%, 8000 words)
- Assessment path 2
  - Take home exam (100%).
in which theorists have advanced understanding of constitutions and devised solutions to a range of constitutional questions. The course deals with the following topics: the scope of constitutional theory; the constitution of government; constitutional politics; representation; sovereignty; constituent power; constitutional rights; the rule of law; liberalism and republicanism; constitutional adjudication; cultural pluralism; theories of federalism; the cosmopolitan polity.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Indicative reading: Much of the reading for the course consists of classic texts in political thought. Many are available online and the course is delivered through Moodle. Indicative reading includes: Hobbes, Leviathan; Rousseau, The Social Contract; Montesquieu, The Spirit of the Laws; Burke, Reflections on the Revolution in France; Tocqueville, Democracy in America; Schmitt, Constitutional Theory; Oakeshott, On Human Conduct; Hayek, The Constitution of Liberty.

Assessment: Assessment path 1
Essay (100%, 8000 words)
Assessment path 2
Take home exam (100%).

LL431E  Half Unit
Takeover regulation in the UK and US
This information is for the 2018/19 session.
Teacher responsible: Prof Robert Kershaw NAB7.16
Availability: This course is available on the Executive LLM. This course is not available as an outside option.

This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The course will look at the regulation of the bid process and at takeover defence regulation in the UK and the US. The course will look at: transaction structures used in private equity deals; the function and effects of the market for corporate control; takeover process regulation; the extra-territorial effects of US process regulation; takeover defence regulation; deal protections; and regulating conflicts of interest in going private transactions.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words)
Assessment path 2
Take home exam (100%).

LL430E  Half Unit
Investment Treaty Law
This information is for the 2018/19 session.
Teacher responsible: Mr Christopher Thomas NAB 7.18
Availability: This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: The aim of the course is to introduce students to international investment law and dispute settlement, the latter emphasizing developments in investment treaty arbitration. The course focuses on the public international law rules and institutions that govern investments and investment treaty disputes. The course has five main elements: (1) the historical, theoretical and policy background behind investment treaties and dispute settlement by arbitration; (2) the rules governing jurisdiction and admissibility of investor-state arbitration cases; (3) the substantive principles and standards – such as national treatment, most-favoured-nation treatment, expropriation, and the minimum standard in international law – that may apply to the investor-state relationships; (4) recognition and enforcement of investor-state arbitral awards and interaction between international tribunals and national courts; and (5) the discussion of the future of international investment law.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words)
Assessment path 2
Take home exam (100%).
EU law offers a range of legal vehicles for achieving such aims, and it is these vehicles we will explore throughout the term. In particular, we will look at re-incorporations of EU companies based on the relevant Treaty provisions; takeovers of (listed) EU companies; domestic (“statutory”) mergers; de-mergers and spin-offs; cross-border mergers in the EU, and the European Company.

Content overview:
- The market for corporate control, corporate ownership structures and transaction structures for takeovers and restructurings in Europe
- European takeover regulation
- Domestic mergers
- Divisions & spin-offs
- Cross-border mergers
- Employee participation (board-level co-determination) and board structures, and their relevance for corporate transactions
- The European Company (SE)
- Brief introduction to taxation of corporate transactions and tax-related drivers and incentives for intra-group reorganisation and company migration

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

LL433E  Half Unit
State and Market in the EU

This information is for the 2018/19 session.
Teacher responsible: Dr Pablo Ibañez Colomo NAB5.16
Availability: This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: Member States of the EU are not free to award subsidies to their national companies or to support them in a comparable way (by, inter alia, securing favourable supply conditions to the companies, granting loans at favourable rates or providing unlimited guarantees). In the wake of the recent financial crisis, for instance, bailout measures adopted across the EU had to be cleared by the European Commission in accordance with Articles 107 and 108 TFEU. The first part of the course explores the economic rationale underpinning the control of State aid in the European Union (the reasons why similar regimes are not implemented at the national level in federal countries facing similar issues, such as the United States, will also be explored). The second part examines (i) the notion of State aid within the meaning of Article 107(1) TFEU and (ii) the conditions under which measures falling under the scope of that provision may be deemed compatible with the internal market. The third part provides an overview of the application of the law in some sectors (including the financial and the communications sectors) or for some purposes (e.g. research and development, regional aid). The fourth part is devoted to the procedural aspects of the discipline.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.

Assessment: Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).
**LL435E  Half Unit**  
**Innovation, Technology and Patent Law**  

This information is for the 2018/19 session.  
**Teacher responsible:** Dr Siva Thambisetti NAB 7.29 
**Availability:** This course is available on the Executive LLM. This course is not available as an outside option. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.  
**Course content:** This course critically examines UK and European patent law from different perspectives including the economic case for incentivising innovation, industry and technology-specific legal doctrine, international economic and political frameworks, institutional features, and national, regional and international pressures to harmonise patent law. Case studies from comparable jurisdictions such as US, India or Latin America will be used where appropriate. The course aims to deliver a sound grounding in legal principles while exploring unprecedented challenges raised by emerging technologies through appropriate case studies. Topics include: 1) The economics of innovation and patenting/ Jurisprudential rationale for patents, legislative overview – international and domestic. 2) Priority, Novelty and Inventiveness 3) Industrial Application, disclosure and Genomic Inventions 4) The rationale for subject matter exclusions (Methods of medical treatment, diagnostic methods, computer programs, business methods, mental acts, discoveries, genetically modified animals, human embryonic stem cells) 5) Claim drafting, purposive construction and the doctrine of equivalents. 6) Direct/indirect infringement – international concerns 7) The research use exception and its application to post-genomics science 8) The TRIPS Agreement and the global pharmaceutical industry 9) The problem of patent enforcement 10) Patent offices and the property parameters of patents 11) Synthetic biology 12) Competition policy in the technology and pharmaceutical sector. This course complements a number of areas of national and international law and policy. Students do not need a scientific background and will be supported in learning technical aspects.  
**Teaching:** 24-26 hours of contact time.  
**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.  
**Assessment:** Assessment path 1  
Essay (100%, 8000 words).  
Assessment path 2  
Take home exam (100%).

**LL436E  Half Unit**  
**Rethinking EU Law**  

This information is for the 2018/19 session.  
**Teacher responsible:** Dr Michael Wilkinson NAB6.28  
**Availability:** This course is available on the Executive LLM. This course is not available as an outside option. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.  
**Course content:** EU law is a fast-moving, dynamic area of law. The course will address core aspects of EU law and develop a number of key themes in the public law and policy of the EU and its Member States. It will provide a sophisticated understanding of the legal, political and constitutional issues surrounding the central debates in the EU, from its origins to the recent crises, including the Euro-crisis and Brexit. Topics will include: - Law and Politics of European Integration - Fundamental Freedoms - Collective Autonomy and Social Justice - Authority of EU Law - Sovereignty, Identity and Pluralism - Political Economy - Future of the EU. The course will use general theoretical accounts in law and related disciplines in order to situate EU law in its economic, political and social context. It uses the LSE’s unique interdisciplinary expertise in European law, constitutional theory, public law, and legal theory for a rich and varied study of the challenges facing the EU and its future development.  
**Teaching:** 24-26 hours of contact time.  
**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module’s teaching session by email.  
**Indicative reading:** Chalmers et al., European Union Law (CUP, 2014); Craig and Deburca, EU Law: Text, Cases and Materials (OUP 2015); Craig and DeBurca (eds.) The Evolution of EU Law (OUP 2011); Maduro and Azoulai (eds.) The Past and Future of EU Law (Hart, 2010); Dickson and Eleftheriadis (eds.) Philosophical Foundations of EU Law (OUP, 2012); Tuori and Tuori, The Eurozone crisis: A Constitutional Analysis (CUP, 2013)  
**Assessment:** Assessment path 1  
Essay (100%, 8000 words).  
Assessment path 2  
Take home exam (100%).

**LL437E  Half Unit**  
**International Criminal Law**  

This information is for the 2018/19 session.  
**Teacher responsible:** Dr Stephen Humphreys NAB6.15  
**Availability:** This course is available on the Executive LLM. This course is not available as an outside option. Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.  
**Pre-requisites:** Some background in public international law is helpful for this course. If an introduction or refresher is needed, a standard textbook such as Malcolm Shaw’s International Law is recommended.  
**Course content:** The course looks at the history of and background to international criminal law and at its substantive content—its origins in the early Twentieth Century, its purported
objectives, and the core crimes set out in the Rome Statute over which the International Criminal Court has jurisdiction (war crimes, crimes against humanity, genocide). The course will then examine in more detail a number of areas of contemporary interest (at least two from among the following: universal jurisdiction, immunity, torture, terrorism, international tribunals). The course is mainly directed at the conceptual problems associated with the prosecution of war criminals and, more broadly, legalised retribution.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:** Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

**LL438E  Half Unit**  
**Commercial Remedies**

*This information is for the 2018/19 session.*

**Teacher responsible:** Dr Solene Rowan NAB 7.26 and Dr Charles Webb NAB 6.26

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

**Pre-requisites:** Undergraduate contract and tort law

**Course content:** The objective of the course is to provide students with a detailed understanding of remedies in a commercial context. The reading addresses both case law and academic commentary. Here is an indicative list of the issues that will be considered on the course:

1. The aims of commercial remedies: What interests and other policies may be served by the law when remedying commercial disputes?
2. The function of contract damages: How do the courts assess damages for breaches of contract? Should the courts do more to protect the claimant’s interest in performance? What limits are placed on the recovery or measure of damages?
3. Punishment: Is punishment of a defaulting defendant ever a legitimate aim in commercial remedies? Should punitive damages be given a greater role in English commercial law?
4. Agreed remedies: To what extent are commercial parties free to fix the remedies available to them in the event of breach? Does freedom of contract extend to the parties’ secondary obligations?
5. Unjust enrichment: What is the law of unjust enrichment? What is its relationship to the law of contract? What can commercial parties recover under the law of unjust enrichment?
6. Comparative law: How do other jurisdictions deal with these questions? What might the common law learn from civil law systems?

**Teaching:** 24 hours

**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course. Formative assessment opportunities will be provided (essay or problem questions)

Andrews, Clarke, Tettenborn and Virgo, Contractual Duties: Performance, Breach, Termination and Remedies (Sweet & Maxwell 2012)

Peel, Treitel: The Law of Contract (14th edn 2015)

Chitty on Contracts (32nd edn Sweet & Maxwell 2015)

**Assessment:**

Assessment path 1
Essay (100%, 8000 words).

Assessment path 2
Take home exam (100%).

Take home exam (100%).
**LL440E** Half Unit  
**Digital Rights, Privacy and Security**

This information is for the 2018/19 session.  
**Teacher responsible:** Dr Orla Lynskey (NAB 6.23)  
**Professor Andrew Murray (NAB 7.11)**  
**Availability:** This course is available on the Executive LLM. This course is not available as an outside option. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.  
**Pre-requisites:** Basic knowledge of EU law is desirable but not essential for this course.  
**Course content:** Personal data is an important factor of production in data-driven economies, and the processing of personal data can generate significant economic and social benefits. Personal data processing can also have a detrimental impact on established rights and values, such as autonomy, privacy and data protection. As a result, legal frameworks to regulate personal data processing have been enacted across the world, with the EU legal model used as a blueprint. Yet, despite the development of such legal frameworks across the globe, critical questions remain unanswered. For instance, the objectives of data protection frameworks differ with some prioritising a fundamental-rights approach to data protection regulation while other frameworks are based on an economic free-trade rationale. Disagreement also persists regarding how the balance should be struck between effective data protection and other rights (such as freedom of expression and freedom of information) and interests (such as innovation and national security).  
This course will critically evaluate the legal framework applicable to personal data processing. It will do this predominantly with reference to the EU framework, as this has served as a model for over 100 other jurisdictions. However we will also examine the US legal framework as it differs considerably from other global legal regimes. Participants will be introduced to techniques and technologies for monitoring and processing personal data in the information society. In order to bring key issues to life, a number of case studies will be considered, including the application of data protection and privacy rules to online behavioural advertising and to State surveillance.  
**Teaching:** 24-26 hours of contact time.  
**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.  
**Assessment:** Assessment path 1  
Essay (100%, 8000 words).  
Assessment path 2  
Take home exam (100%).

**LL442E** Half Unit  
**Corporate Restructuring**

This information is for the 2018/19 session.  
**Teacher responsible:** Ms Sarah Paterson NAB6.06  
**Availability:** This course is available on the Executive LLM. This course is not available as an outside option. Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.  
**Course content:** This course is concerned with the principles and policies underlying the rescue of financially distressed companies and businesses. The course considers formal legal procedures available for dealing with companies and businesses in financial distress as well as informal approaches to rescue. Topics include: Chapter 11 as a Rescue Procedure. Corporate Rescue Procedures in the UK. Informal and Formal Procedures. Recognition of Rescue Procedures: EC and International: The Theory and Philosophy of Rescue.  
**Teaching:** 24-26 hours of contact time.  
**Formative coursework:** All students are expected to produce one 2,000 word formative essay during the course.  
**Indicative reading:** A full Reading List will be distributed during the course. The recommended text is V. Finch, Corporate Insolvency Law: Perspectives and Principles (Cambridge University Press, 2009) (2nd edition). Wider background reading will include some comparative law reform and other material including: R. Olivares-
LL443E  Half Unit
Corporate Bankruptcy

This information is for the 2018/19 session.
Teacher responsible: Ms Sarah Paterson NAB6.06
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Course content: This course is concerned with the principles and policies underlying the legal treatment of corporate bankruptcy. The impact of these procedures and approaches on third parties, for example corporate groups, secured and unsecured creditors, directors and employees, is also considered. Topics include: Setting aside transactions, The pari passu principle and preferential claims, Secured creditors and security devices; Quasi-security devices for the unsecured creditor; The problem of corporate groups; Company directors in troubled times; Employees in distress and EC and international recognition in corporate bankruptcy

Teaching: 24-26 hours of contact time.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course.

Indicative reading: A detailed reading list will be distributed during the course. The recommended text is V. Finch, Corporate Insolvency Law: Perspectives and Principles (Cambridge University Press, 2009) (2nd edition).

Essay (100%, 8,000 words).
Assessment path 2
Take home exam (100%).

LL444E  Half Unit
International Law and the Use of Force

This information is for the 2018/19 session.
Teacher responsible: Mr Christopher Thomas NAB7.18
Availability: This course is available on the Executive LLM. This course is not available as an outside option.
Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

Pre-requisites: Executive version of an existing taught masters course (LL4A8).

Course content: This course examines the international law relating to when it is permissible to use force (jus ad bellum). The aim of this course is to develop an understanding of the principles of international law that regulate the use of force in international society. It concentrates on the prohibition of resort to force in Article 2(4) of the United Nations Charter and the exceptions to that prohibition. It looks in detail at the right of self-defence, humanitarian intervention and the responsibility to protect, pro-democratic intervention, the protection of nationals and the criminalization of aggression. The use of force by or with the authorization of the United Nations is also considered.

Teaching: 24-26 hours of contact time.

Formative coursework: Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

Indicative reading: Neil Cookson, Archaeological Heritage Law (2000 Barry Rose); John Henry Merryman and Albert E. Eisen, Law, Ethics and the Visual Arts (2002 Kluwer Law International); Lyndel V. Prott & P.J. O'Keefe, Law and the Cultural Heritage Vol 1 (1984 Abingdon); Lyndel V. Prott & P.J. O'Keefe, Law and the Cultural Heritage Vol 3 (1989 Butterworths); J.E. Tunbridge and G.J. Ashworth, Dissonant Heritage: the management of the past as a cultural property and heritage law from legal, social theoretical and practice-oriented perspectives. It provides an overview of existing and emerging cultural property and heritage legislation (domestic and international). We will be looking in particular at the development of cultural property legislation in the 20th century and emerging international cultural property and heritage initiatives under the auspices of the UN and UNESCO. Topics to be covered include the origins of cultural property law, the problems in defining cultural property and heritage, current issues and cases in repatriation and restitution of cultural objects, the National Trust and other heritage protection regimes, and intangible cultural heritage. The course also addresses the creation and management of museums and heritage sites, primarily within the UK, but also including sites in North and South America, Europe and Asia. We consider how the issues that we’ve identified throughout the course arise in the ongoing construction, protection, and (primarily economic) uses of heritage. Along with specialist seminars, the course includes visits to museums and contact with practising experts in the field.

Teaching: Courses are taught over 5 days (Mon-Fri) with approximately 5 hours teaching per day. There is a morning and an afternoon session, so 10 sessions in total with the overall contact time being 24-26 hours.

Formative coursework: All students are expected to produce one 2,000 word formative essay during the course. The use of force by or with the authorization of the United Nations is also considered. The use of force by or with the authorization of the United Nations is also considered.

Assessment: Assessment path 1
Essay (100%, 8,000 words).
Assessment path 2
Take home exam (100%).

**Assessment:** Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

### LL446E Half Unit
Art and Antiques Law

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Tatiana Flessas NAB7.27

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period.

The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course engages in a discussion of specific cases and issues regarding acquisition, ownership, and restitution of antiquities and works of art, and the problems that arise in regulating markets in art, antiques and cultural artefacts. We will look at domestic (UK and US) and international legislation regulating the art and antiquities trades. Against this legislative background, the course examines important cases in disputes regarding looting and provenance of antiquities, and questions of commodification and sale of cultural artefacts and antiquities, including the issues that arise in the operation of the art market (dealers, museums, collectors and auction houses).

‘Art Law’ is a specialized area of practice and an emerging area of theory and scholarship. We will look at some of the cases and theory of art and law, including the practices of dealers and auction houses in valuing (and mis-valuing) art for sale, the recent developments in addressing the restitution of art taken during the Nazi era, museum loans and the cross-border movement of art, the restoration and conservation debate(s) and then turn to a scholarly and interpretive approach to the issues that arise in considering the art market. ‘Antiquity Law’ is an engagement with the problems of the market(s) in antiquities and the legal and ethical burdens on the participants in this trade. We will look at the practices and constraints that arise in the context of both private purchasers/dealers and museums acquiring antiquities. We will focus on the case that the government of Italy brought against Marion True, the erstwhile Curator of Antiquities at the Getty Museum, and we will consider how that ground-breaking prosecution changed some of the practices in this area, as well as added to the toolbox for nations seeking repatriation of cultural objects. We will also return to the questions that arise in dealer, auction house and museum policies more generally. Finally, practitioners in these areas, museum and auction house professionals, archaeologists, and art experts will be contributing to the seminars on the emerging legal issues in this area.

**Teaching:** Courses are taught over 5 days (Mon-Fri) with approximately 5 hours teaching per day. There is a morning and an afternoon session, so 10 sessions in total with the overall contact time being 24-26 hours.

**Formative coursework:** Students will have the option of producing a formative exam question of 2000 words to be delivered one month from the end of the module's teaching session by email.

**Assessment:** Assessment path 1
Essay (100%, 8000 words).
Assessment path 2
Take home exam (100%).

### LL447E Half Unit
International Law: Courts and Tribunals

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Devika Hovell NAB6.32

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period.

The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law's intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** The course introduces students to the practice and theory of international legal dispute resolution, focusing on dispute settlement before courts and tribunals. The former Prosecutor of the Yugoslav Tribunal, Richard Goldstone, resolved that: ‘it seems to me that if you don’t have international tribunals, you might as well not have international law’. Given the proliferation of courts and tribunals applying and enforcing international law, certain scholars have argued we are witnessing the emergence of an ‘international judicial system’ (Martinez). The course involves three main elements:

1. Firstly, the course examines the structure and work of the International Court of Justice, the principal judicial organ of the United Nations, focusing on jurisdiction/admissibility, contentious cases and advisory opinions.
2. Secondly, the course introduces a variety of other international courts and tribunals, such as the International Criminal Court, domestic and regional courts dealing with international law and human rights, including the European Court of Human Rights and the European Court of Justice, the WTO Dispute Settlement Body and investment treaty arbitral tribunals. Using contemporary and
controversial case studies, the course will critically analyze and contrast the institutional design and jurisdiction of these courts and tribunals.

3. Thirdly, throughout the course we explore key theoretical controversies surrounding the adjudication of international law, focusing in particular on (a) how these courts and tribunals relate to one another (hierarchy, specialization and fragmentation); (b) what criteria should be used in assessing the legitimacy and effectiveness of these courts and tribunals; and (c) whether and how these courts and tribunals create international law.

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** Students are encouraged to produce one 2,000 word formative essay during the course.

**Assessment:** Assessment path 1
- Essay (100%, 8000 words).
- Assessment path 2
- Take home exam (100%).

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course will provide a theoretical and historical introduction to the concept of terrorism. It will critically consider definitions of terrorism, and analyse the relationship between terrorism and the right to rebel, and the right to engage in civil disobedience. The historical development of the idea of ‘terrorism’ from the late eighteenth century through to the present will then be traced, with the emphasis on locating the practice of political terror in its political and military/semi-military context. The role of international law generally and international human rights law in particular in the context of terrorism and anti-terrorism action will be considered in detail. The course will teach the material in context, so the subject will be analysed by reference to particular situations where necessary, eg Northern Ireland, the Palestine/Israel conflict and the post 11 September ‘war on terror’. The aim of the course is to give the student a good critical understanding of this most controversial of subjects, and also to impart an understanding of the role of law in shaping the fields of terrorism and of counter-terrorism (and, latterly, the emerging field of extremism).

**Teaching:** 24-26 hours of contact time.

**Formative coursework:** All students are encouraged to produce one 2,000 word formative essay during the course.

**Indicative reading:** There are four pieces ideally to be read before we meet:

(Note both of these books are in paperback, and short!)

(iii) Conor Gearty, ‘Terrorism and Human Rights’ in Gearty, Selected Essays on Human Rights and Terrorism (Cameron May 2008), ch 24 – I have a PDF available.

Please try to ensure that you have completed this reading prior to the module.

Further reading:

(v) A marvellous fund of information is at: http://www.parliament.uk/topics/Terrorism.htm

(ix) Conor Gearty, ‘Human Rights in an Age of Counter-terrorism’ Oxford Amnesty Lecture 2006, in C Miller (ed) visiting Professor in the department of Government of the LSE The War on Terror (Manchester University Press, 2009) and also to be found in ch 23 of Gearty, Selected Essays on Human Rights and Terrorism (Cameron May 2008).

(xi) David Omand, Securing the State (Hurst 2012).

(xiii) Gearty “Political violence and civil liberties” in McCruden and Chambers, eds, Individual rights and the law in Britain ch 5.

**Assessment:** Either a take-home examination or 8,000 word assessed essay (100%).

---

**LL449E Half Unit**

**Cyberlaw**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Andrew Murray NAB7.11

**Availability:** This course is available on the Executive LLM. This course is not available as an outside option.

Available to Executive LLM students only. This course will be offered on the Executive LLM during the four year degree period. The Department of Law will not offer all Executive LLM courses every year, although some of the more popular courses may be offered in each year, or more than once each year. Please note that whilst it is the Department of Law’s intention to offer all Executive LLM courses, its ability to do so will depend on the availability of the staff member in question. For more information please refer to the Department of Law website.

**Course content:** This course critically analyses the regulation of the Internet and digital devices (such as smart devices and tablets).

It begins by providing a theoretical framework for the regulation of the Internet, examining questions such as whether the internet is capable of regulation, whether such regulation should be neutral and who should assume the task of regulating the online
environment. Students taking the course will be expected to develop knowledge and understanding of the different values and interests brought to bear in the regulation of information technologies and communities. Armed with this theoretical background, students will then be asked to consider how these values are reflected in the regulatory design of the online environment. This examination will be conducted by considering a number of case studies relating to online privacy, defamation, criminal activity and market power. The course concludes by examining the topical and politically charged question of whether Internet Service Providers should be allowed to vary service conditions by types of content.

Teaching: 24-26 hours of contact time.

Formative coursework: All students are encouraged to produce one 2,000 word formative essay during the course.

Assessment: Either a take-home examination or 8,000 word assessed essay (100%).

---

**LL4COE  Half Unit**

**Taxation of Wealth**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Andrew Summers NAB.6.02

**Availabilty:** This course is available on the Executive LLM. This course is not available as an outside option.

**Course content:** The course examines the taxation of wealth from a variety of interdisciplinary perspectives, drawing on research from political theory, economics, sociology and law. The main aims of the course are to explain why taxes on transfers, returns and holdings of wealth currently play a relatively minor role in most tax systems (compared, for example, with taxes on labour income and consumption), and to evaluate the options for taxing wealth. The focus is on the UK and US contexts although comparisons are also made with other jurisdictions.

Part I of the course introduces key debates from across the social sciences relevant to the taxation of wealth. Seminars 1-5 cover: (i) defining and measuring wealth; (ii) inequality and distributive justice; (iii) property rights; (iv) economic perspectives; and (v) social and political perspectives. Part II applies these debates to specific wealth tax policies. Seminars 6-10 cover: (i) taxes on transfers: inheritance or estate tax, gift tax, comprehensive income tax; (ii) taxes on returns: capital gains tax, capital income tax and (iii) taxes on holdings: property tax, land-value tax, annual wealth tax.

**Teaching:** 25 hours of seminars in the ST.

**Formative coursework:** Students will be expected to produce 2 pieces of coursework in the ST.

Students will receive formative feedback on two essay-plans (comprising 300-word abstract, outline of subheadings, and bibliography) based on past or sample summative essay titles.

**Indicative reading:** Atkinson, Inequality: What can be Done?
MG406E  Half Unit
Behavioural Decision Science
This information is for the 2018/19 session.
Teacher responsible: Dr Barbara Fasolo
Availability: This course is compulsory on the Executive MSc in Behavioural Science. This course is not available as an outside option.
Course content: This course introduces students to the fascinating field of behavioural ‘decision’ science. We will explore a selection of current research topics relevant to personal and managerial decision making as well as policy-making. For each topic students will get acquainted with key psychological phenomena and principles of behavioural decision science through interactive lectures, and become alert to cognitive biases and learn how to overcome them. Students will read pre-assigned scientific articles and in class discuss lessons learned, limitations and implications of these concepts for the development of decision making competence in their organisation (e.g. via design of policies, training programmes, or tools). Topics will include: Origin of Behavioural Decision Science; the Building Blocks of Behavioural Decision Science: Preferences, Utility and Value; Probability, Uncertainty and Risk; Choice Architecture and Behavioural Change; Heuristics and Biases in Decisions about Money, Health, Consumer Products and People.
Teaching: 15 hours of lectures and 8 hours of seminars in the MT.
Formative coursework: The formative assignment will take place on the final day of the course after all the lectures and seminars have been completed. The assignment will consist of a plenary presentation in which students divided into small groups will be asked to give a short presentation discussing an intervention (de-biasing technique, nudging, or choice architecture) that can be used to tackle the most important biases in a decision making problem of their choice. Student groups will develop their plenary presentations during seminars while interacting with the course teachers and other students. The formative feedback will be given at a team level, and will focus on the rigour and use of behavioural science concepts learned in the course.
Assessment: Coursework (100%, 3000 words) in the MT.
The summative assignment will include two parts. In the first part (no more than 1,000 words), you will be asked to describe and critically evaluate how the decision problem as well as the intervention presented for the formative assessment came about. This part will be less academic because we will expect you to use individual reflection, and academic references will not be needed. In the second part of the essay (no more than 2,000 words), you will justify the specific nudging or debiasing intervention, with reference to behavioural literature, and theories. The first part of the essay will count for 25% of your mark while 75% will come from the second part.

MG440  Half Unit
Managerial Economics (modular)
This information is for the 2018/19 session.
Teacher responsible: Dr. Ricardo Alonso
Availability: This course is compulsory on the Executive Global MSc in Management. This course is not available as an outside option.
The information in this course guide pertains to the 2018-2020 cohort.
Course content: A graduate-level introduction to the foundations of managerial economics and its application to high-level business decisions. Topics include:
1. Economics as a theory of organisation.
2. Demand, supply, and equilibrium: the determinants of consumers’ and firms’ market responses, the nature of non-strategic interaction, government intervention, international trade
3. Externalities and market failure
4. Strategic interaction and Game Theory
5. Choice under uncertainty: attitudes towards risk
6. Information and efficiency: adverse selection
7. Price discrimination: nonlinear pricing, social economics
8. Horizontal and Vertical Differentiation
9. Competition
Teaching: Scheduled over one module. Nine 3.5 hour sessions plus two review sessions.
The course will run between the following dates:
26 August - 08 September 2018
Formative coursework: Students will be expected to produce 1 problem set in the MT.
Indicative reading: Optional textbook: B. Douglas Bernheim and Michael D. Whinston, Microeconomics, McGraw Hill, 2008. Further readings will be provided at the beginning of the course.
Assessment: Coursework (20%), class participation (15%) and take home exam (65%).

MG441  Half Unit
Foundations of Management (modular)
This information is for the 2018/19 session.
Teacher responsible: Prof Paul Willman
Availability: This course is compulsory on the Executive Global
MG443 Half Unit
Organisational Behaviour (modular)

This information is for the 2018/19 session.

Teacher responsible: Dr Connson Locke

Availability: This course is compulsory on the Executive Global MSc in Management. This course is not available as an outside option. This information in this course guide pertains to the 2018-2020 cohort.

Course content: The course seeks to understand individual attitudes and behaviour in an organizational context. It does this by reviewing psychological theories as they apply to organisations, demonstrating the contribution of a psychological perspective to understanding human behaviour at work, and critically evaluating the empirical evidence. The course attempts to strike a balance between theory and practice by applying the theories to practical problems in organizations. Topics include personality and individual differences, motivation and rewards, intrinsic motivation, creativity, organizational justice, cross-cultural management, organisational culture and change.

Teaching: 35 hours of teaching spread over the first 3 modules. 10 sessions of 3.5 hours each. The teaching is highly participative and includes breakout discussions and exercises.

The course will run between the following dates:
26 August - 08 September 2018
15-20 December 2018
01 - 13 April 2019

Assessment:
Formative coursework: A practice exam will be provided and feedback will be given on this assignment.

Indicative reading: The course relies on journal articles (for example, Journal of Applied Psychology, Journal of Organizational Behaviour). A complete reading list will be provided at the start of the course. There is no required textbook. The following textbook is recommended for students who would like further reading: French, R., Rayner, C., Rees, G. & Rumbles, S. (2011) Organizational Behaviour, 2nd edition. John Wiley & Sons, Ltd.

Assessment: Essay (20%), class participation (15%) and take home exam (65%).

Class participation - based on group presentations. Take home exam - final essay.

---

MG445 Half Unit
Marketing Strategy (modular)

This information is for the 2018/19 session.

Teacher responsible: Prof Om Narasimhan

Availability: This course is compulsory on the Executive Global MSc in Management. This course is not available as an outside option. The information in this course guide pertains to the 2017-2019 cohort.

Course content: This course is a rigorous examination of the key analytical frameworks, technical tools, and concepts that are essential to building an effective marketing strategy. Peter Drucker, the father of business consulting once famously remarked, "Because the purpose of business is to create a customer, the business enterprise has two--and only two--basic functions: marketing and innovation". In today's highly competitive business environment these words ring even more true: a well-designed marketing strategy can make all the difference between success and failure in the marketplace. While marketing is commonly associated with consumer goods companies (e.g., Unilever) it would be myopic to restrict the relevance of marketing to such instances alone. Marketing, ultimately, is about understanding and shaping behaviour. Accordingly, banks and other financial institutions, as well as governmental, medical, and not-for-profit organisations - from those that design and sell financial products, to those that implement public policy (e.g., those dedicated to reducing drunk driving, increasing literacy, and encouraging safe contraception), have all found that a well-thought out marketing strategy can be a critical arbiter of success even in this "ideas marketplace."

By using a wide range of quantitative as well as qualitative methods, interactive lectures, videos, hands-on exercises, and case studies, we will share key analytical frameworks and tools that are essential to a good marketing strategy. The aim is to develop an analytical tool-kit that will be applicable to a wide range of industries and functions.

Teaching: Scheduled over two modules – one of which will take place overseas. Teaching will be spread across 10 sessions of up to 4 hours each.

Module 3 (1-13 April 2019) and module 4 (9-14 June 2019).

Formative coursework: Case write up.

Indicative reading: There is no required textbook. Further references will be provided at the commencement of the course.

Assessment: Take home exam (55%), class participation (15%) and other (30%).

The other assessment consists of a Summative Group Assignment (30%).
MG446 Half Unit
Strategy, Organisation and Innovation (modular)
This information is for the 2018/19 session.
Teacher responsible: Dr Lourdes Sosa
(Three sessions will be taught by a guest teacher - Dr Mia de Kuijper)
Availability: This course is compulsory on the Executive Global MSc in Management. This course is not available as an outside option.
The information in this course guide pertains to the 2017-2019 cohort.
Course content: The course seeks to understand differences in profitability across (for-profit) firms with the objective of designing strategic recommendations for managers to improve (and defend) their firms’ competitive positions. To do so we will first review industry-wide as well as firm-specific determinants of short-term profitability. On that foundation we will look at long-term determinants of profitability including dynamic capabilities and innovative ability. The course aims to balance exposure to general strategic principles and specific practical applications. To that purpose, we will use theoretical frameworks to analyse practical cases from a wide array of firms in varied countries. Topics include business models, industry structure and cooperation, value proposition, strategic resources and inimitability, dynamic capabilities, disruptive innovation, power nodes strategy and scenario planning.
Teaching: Taught over 10 3.5-hour sessions spread over 2 modules. The teaching is highly participative and includes lectures, breakout discussion and exercises.
The course will run between the following dates:
03 – 08 September 2018
07 – 12 January 2019
Formative coursework: Feedback will be given on one short essay, preparing students for the exam, as well as on in-class exercises.
Assessment: Essay (30%), class participation (10%) and take home exam (60%).

MG447 Half Unit
Foreign Direct Investment and Emerging Markets (modular)
This information is for the 2018/19 session.
Teacher responsible: Prof Saul Estrin
Dr Christine Cote
Availability: This course is compulsory on the Executive Global MSc in Management. This course is not available as an outside option.
The information in this course guide pertains to the 2017-2019 cohort.
Course content: This course analyses the emergence of firms which operate on a global scale and their current and likely future interactions with emerging markets. Multinational firms have been an increasingly significant aspect of the corporate environment in developed countries since the 1960s, and are responsible for a high proportion of global output, exports and investment, as well as the bulk of foreign direct investment. In the past few decades their activities have been increasingly focused to developing economies, notably those which have liberalised and entered a more rapid growth phase. These economies, emerging markets, include some important world economies including China, India, transition economies such as Russia, and Latin American countries such as Brazil and Argentina. The new institutional economics has recently developed as a field to understand the impact of variation in institutions on economies performance. This course will focus on how the institutional characteristics of emerging markets affect the choices and behaviour of multinational firms, now and into the future. We commence with the basic framework of analysis of the behaviour of institutional enterprises (MNEs), outlining models of the MNE which draw on transaction cost economics, the eclectic OLI paradigm of Dunning, and more recent concept such as the resource-based view. We will then provide an analysis of economic performance and growth in emerging markets building on the new institutional economies and working with a large variety of datasets and sources. The remainder of the course is devoted to specific topics of MNEs in emerging markets. These include the determinants and impact of FDI, entry mode choices; measures of institutional distance; outsourcing, and emerging market multinationals.
Teaching: Scheduled over three modules, one of which will take place overseas – 10 sessions of up to 3.5 hours.
The course will run between the following dates:
03 – 08 September 2018
04 – 10 November 2018
07 – 12 January 2019
Formative coursework: Students will be expected to produce 1 essay in the MT.
Assessment: Take home exam (60%) in the LT; Presentation (30%) in the MT; Class participation (10%) in the MT and LT.

MG498 Half Unit
Dissertation/Capstone Project (modular)
This information is for the 2018/19 session.
Teacher responsible: Various
Availability: This course is compulsory on the Executive Global MSc in Management. This course is not available as an outside option.
Course content: This course consists of a project which will be undertaken throughout the second year of the degree. Students will choose between an academic dissertation or a capstone project. The academic dissertation will explore a question that is grounded in academic theory and literature. The capstone project will explore a business idea or venture. In both projects, students will collect original data relevant to their research question or business idea and must analyse the data, discuss limitations, and draw conclusions.
Teaching: Students are required to participate in 20 hours of scheduled seminar sessions from module 3 onwards which will provide guidance and support in developing their dissertation or capstone project. Separate seminars will be conducted to provide support for those who choose the academic dissertation and those who choose the capstone project. Students will be allocated
a faculty advisor who will support and guide them. The course will run throughout the year.

**Formative coursework:** Students will be required to agree their dissertation/capstone topic with a faculty advisor and provide a plan which they will receive feedback on.

**Indicative reading:** Relevant reading will be provided by academic advisors.

**Assessment:** Dissertation (100%, 6000 words).

---

**MG4H1E  Half Unit**

**Foundations of Social Business I**

This information is for the 2018/19 session.

**Teacher responsible:** Mr Stephan Chambers Marshall Institute, 5 Lincoln’s Inn Fields

**Availability:** This course is compulsory on the Executive MSc in Social Business and Entrepreneurship. This course is not available as an outside option.

**Course content:** This course focuses on three critical aspects of social business: entrepreneurship, social finance, and accounting for social return. It focuses on both existing organisations and start-ups, as vehicles for social change. It aims to support ‘intrapreneurs’ as well as entrepreneurs. Its purpose is to bring students’ understanding of the worlds of opportunity and venture into clear organisational focus. It begins to sensitise students to the challenges of starting and running mission-based organisations, explores established vehicles for combining social and commercial purpose, and looks in detail at the various mechanisms for funding (impact finance, social finance, grant finance).

Students will be introduced to the main elements of entrepreneurial planning including opportunity identification and evaluation, rapid prototyping and resource-gathering. They will be introduced to the business model canvas and ideas of lean start-up as well as the varieties of financing available to social ventures. They will examine ways of accounting for social value as the second and third bottom-line, and a view of managerial reporting as value-laden. Critiques of over-simplified, heroic or ‘solutionist’ models will be explored, as well as to both market and non-market critiques of social returns on investment.

The course draws on the literature of entrepreneurship, social entrepreneurship, social finance and social accounting.

**Teaching:** There will be ten integrated lecture/seminars of three hours each, delivered across two modules.

**Formative coursework:** A practice case analysis midway through the course; submission of an outline draft plan for the group presentation summative task.

**Indicative reading:**

**Assessment:** Take home exam (70%) and presentation (30%). Assessment will be through a take home exam (70%) and a group presentation (30%).
MG4H3E  Half Unit
Social Impact and Its Evaluation

This information is for the 2018/19 session.
Teacher responsible: Prof Julian Le Grand Marshall Institute, S Lincoln’s Inn Fields and Dr Jonathan Roberts Marshall Institute, S Lincoln’s Inn Fields
Availability: This course is compulsory on the Executive MSc in Social Business and Entrepreneurship. This course is not available as an outside option.
Course content: Those who want to improve society face three immediate dilemmas – first, what is the public benefit? How can I define, with clarity, my moral purpose? Second, how can I decide between different courses of action in order to pursue the public benefit? And third, how can I know that what I do makes any real contribution to the public benefit? What is the evidence? This innovative course sets out to support students in coming to their own resolutions of these dilemmas. Its goal is to introduce the concepts and techniques of impact measurement from the perspective of – and through specific examples of interest to – organisational leaders and policymakers and those who intend to commission social business and social enterprise interventions. A first section challenges students to consider and discuss the nature of the public benefit. It introduces students to different philosophical conceptions of the good, including libertarianism, utilitarianism, Rawls’ theory of justice and Sen’s capabilities approach. It will also discuss whose conception of the good is the more important: the actor or agent, the beneficiary, the government or the wider society.

Our choices of outcomes and impact measures are in turn not neutral, but are infused with moral choices about the definition of the public good. The second (and larger section) of the course introduces students to key concepts and skills in developing and assessing evidence of social impact. It introduces students to a framework that will enable them to be intelligent commissioners of interventions for the public good and critical assessors of evidence and published research. Concepts to which students will be introduced include the distinction between correlation and causation, the counterfactual, opportunity costs, trade-offs, spillovers and substitution effects. Students will be introduced to techniques through which the effectiveness of social interventions can be evaluated, including randomised experiments, quantitative evaluation of non-experimental data, cost-benefit and cost-effectiveness analyses and realistic evaluation approaches; the strengths and weaknesses of these methods are considered. It will also consider the politics of impact measurement.

Teaching: Ten sessions of three hours each, delivered across one module (teaching block).
Formative coursework: Two formative assessments will be provided - a data analysis exercise and a short essay (1,000 words).
Indicative reading:
Assessment: Take home exam (50%) and case analysis (50%). Assessment will comprise data analysis exercises (50%) and a take home exam (50%).

MG4H4E  The Altruistic Entrepreneur Project

This information is for the 2018/19 session.
Teacher responsible: Mr Stephan Chambers The Marshall Institute, S Lincoln’s Inn Fields
Availability: This course is compulsory on the Executive MSc in Social Business and Entrepreneurship. This course is not available as an outside option.
Course content: This course crystallises the academic learnings from across the degree programme into an applied experience. It runs concurrently with course delivery across all modules. Students will work in groups of four or five, supported by faculty, to develop an entrepreneurial business proposal for social impact, moving through idea generation, initial design and formal proposal. The proposal may be a new organisation or an activity within an existing organisation with explicit social benefit.

The project creates a space for real world application of students’ learning, development of the project concurrently with programme delivery enables substantive interaction between project work and reflection. Students will work in groups of four or five, supported by faculty, to develop an entrepreneurial business proposal for social impact, moving through idea generation, initial design and formal proposal. The proposal may be a new organisation or an activity within an existing organisation with explicit social benefit.

Working in a group is an essential component of this course. Students will be expected to reflect on how their groups form, how they establish principles for working effectively, and how they resolve conflict or disagreement. They will be asked to reflect on their own group dynamic and how it might be a function of culture, mission, and measurement. Students will be asked explicitly to reflect in their essays on the process of selecting a topic and assigning roles. Since so much of their professional life will involve impromptu and non-elective group working we consider this aspect of the course particularly important.

Teaching: Teaching will take place over the duration of the programme. There will be six whole cohort sessions of three hours, plus four tutorial meetings for each project group (one per teaching block).
Formative coursework: Formative work, through presentations and short pieces of written work, will be continual for the duration of the programme. Students will be asked to submit a draft outline of their final summative essay.
Assessment: Essay (50%), presentation (35%) and proposal (15%). Assessment will be through a group presentation (35%), group composition of a business model canvas (15%), and an extended essay of 5,000 words at the end of the project (50%).

MG4H5E  Half Unit
The Altruistic Leader

This information is for the 2018/19 session.
Teacher responsible: Dr Consson Locke NAB 4.16
Availability: This course is compulsory on the Executive MSc in Social Business and Entrepreneurship. This course is not available as an outside option.
Course content: This course focuses on leadership, particularly core skills learning. The course mirrors the development of the programme overall by requiring students to address questions of context (and relation to state and private actors), questions of strategy and market development, financing, and reporting as well as personal leadership, communications and persuasion. Projects are designed in the expectation of potential real world implementation.

Course content: This course focuses on leadership, particularly core skills learning. The course mirrors the development of the programme overall by requiring students to address questions of context (and relation to state and private actors), questions of strategy and market development, financing, and reporting as well as personal leadership, communications and persuasion. Projects are designed in the expectation of potential real world implementation.

Teaching: Ten sessions of three hours each, delivered over two
modules (teaching blocks).

**Formative coursework:** Students will be given a practice case analysis to prepare them for the summative case analysis. For the group project, groups will submit their choice of presentation topic in order to receive formative feedback.

**Indicative reading:**

Additional readings will be available on Moodle.

**Assessment:** Case analysis (55%), presentation (30%) and in-class assessment (15%).

Assessment will be done through a 1,500 word case analysis (55%), group presentation (30%) and in-class quizzes (15%).

---

**MG4H6E  Half Unit**

**The Hybrid Economy**

**This information is for the 2018/19 session.**  
**Teacher responsible:** Prof Julian Le Grand Marshall Institute, 5 Lincoln's Inn Fields and Dr Jonathan Roberts Marshall Institute, 5 Lincoln's Inn Fields  
**Availability:** This course is compulsory on the Executive MSc in Social Business and Entrepreneurship. This course is not available as an outside option.  
**Course content:** Following the failure of both states and markets to resolve persistent social problems, a hybrid economy is emerging in which new organisational forms and new multi-actor collaborations blend outcomes, behaviours and structures drawn from different sectors with the aim of achieving both social and financial returns. Examples of organisations and activities in this emerging economy include corporate firms that internalise social purpose, business-oriented philanthropists, private organisations that spin out of the state sector (public service mutuals), social impact investment, and complex collaborative financial instruments such as social impact bonds.  
This course explores the economics and politics of this emerging phenomenon. It provides students with knowledge of the newly developing institutions, organisations and mechanisms, and with the critical and analytic skills through which to evaluate them. It assesses the historic and contemporary failures by the state, market and voluntary sector in developed and developing economies; and it considers the competitive advantage and disadvantage of the hybrid social business as a remedy for these failures. The course focuses specifically on motivation and incentive theory, exploring how we can design organisations and wider institutions that both nurture and capitalise upon altruism, but that also acknowledge more self-directed motivations. The course explores the scope and nature of the political relationship between hybrid organisations and the state, exploring whether the function of the social business is best conceived as a complement to state services, a replacement for state services in conditions of austerity and exponentially growing demand, or separately as an innovative laboratory for social interventions. It concludes by exploring ethical criticisms of the hybrid economy, focusing in particular on controversies about the introduction (or intrusion) of the market and business into the social or public realm.

**Teaching:** Ten integrated lecture/seminars of three hours each, delivered across two modules (teaching blocks).

**Formative coursework:** Two formative assessment exercises will be offered: first, a practice take home exam; second, submission of a draft plan for the group presentation summative task.

**Indicative reading:**

**Assessment:** Take home exam (75%) and presentation (25%). Assessment will be through a group presentation (25%) and a take home exam at the end of the course (75%).

---

**PB413E  Half Unit**

**Frontiers in Behavioural Science Methods**

**This information is for the 2018/19 session.**  
**Teacher responsible:** Dr Matteo Galizzi  
Dr Dario Krpans  
**Availability:** This course is compulsory on the Executive MSc in Behavioural Science. This course is not available as an outside option.

**Course content:** Behavioural science is the scientific study of human behaviour, and it combines research techniques from psychology and economics. The course offers an integrated training in advanced behavioural science methods by introducing students to state-of-the-art techniques that stretch across the spectrum of both disciplines. The course covers the following topics: measuring preferences, attitudes, beliefs, willingness-to-pay; determining evidential value of behavioural science research; behavioural game theory and experimental games of strategic interaction; designing behavioural priming experiments and measures that tap into implicit cognition; state-of-the-art physiological research techniques; understanding the mechanisms behind behavioural effects by employing experimental-causal-chain, measurement-of-mediation, and moderation-of-process designs.

**Teaching:** 2 hours and 30 minutes of lectures, 2 hours of lectures, 6 hours of lectures, 6 hours of lectures, 1 hour and 30 minutes of lectures and 6 hours of seminars in the ST.

**The course is delivered over 5 intensive days of teaching:**
Day 1
- Lecture 1 (2h 30min): Intro; Advances in Experimental Design; Mechanisms, Moderators, Mediators; Mediation and Moderation in a Regression Framework; Understanding the Mechanisms Behind Behaviour Change: Experimental-causal Chain, Moderation-of-process, and Measurement-of-Mediation Designs [MG, DK]
- Lecture 2 (2h): Measuring Preferences, Attitudes, Beliefs: the State-of-the-art [MG]

Day 2
- Lecture 3 (1h 30min): Strategic Decision-Making: Introduction to Behavioural Game Theory [MG]
- Lecture 4 (1h 15min): Behavioural Game Theory: Applications [MG]
- Seminars (2h, 2 groups): Moderation and Mediation Using Stata [MG, DK]

Day 3
- Lecture 5 (1h 30min): Behavioural Priming Techniques [DK]
- Lecture 6 (1h 15min): System 1 In Action: Capturing Implicit Cognition: [DK]
- Seminars (2h, 2 groups): Building a Simple Game of Strategic Interaction Using ZTree [MG]

Day 4
- Lecture 7 (1h 30min): Determining evidential value of behavioural science research: undisclosed flexibility in data collection, dance of p-values, p-curve [DK]
- Lecture 8 (1h 15min): Determining evidential value of behavioural science research: computing p-curve, p-curve vs. meta-analysis [DK]
- Seminars (2h, 2 groups): Building a Simple Task to Measure Implicit Cognition [DK]

Day 5
- Lecture 9 (1h 30min): Advances in Survey Design for Online, Lab, and Field Experiments [MG]
- Lecture 10 (1h 15min): Beyond Economics and Psychology: State-of-the-art Physiological Research Techniques [MG, DK]
- Seminars (1h 30min, 2 groups): Building a Simple Behavioural Science Experiment Using Qualtrics Survey Software [MG, DK]

Formative coursework: Students will be expected to produce 1 piece of coursework in the ST.

For the formative assignment, you will need to produce a brief research proposal plan (500 words) that will serve as the basis for the full research proposal (3000 words) that will constitute your summative assignment. In the research proposal plan, you will propose a design and implementation of a behavioural science experiment entailing the use of (at least) two different software packages introduced in the seminars. The structure of the proposal should be as follows: a) Introduce a viable research question (on a topic of your choice) that will guide your experimentation; b) Describe how you would design and implement behavioural science research to answer the question; c) Explain which statistical approaches covered in lectures and seminars you would use to analyse the data. To write the research proposal, please follow the lines of a pre-analysis plan (PAP) which is increasingly common in behavioural science (for an example, see www.psychologicalscience.org/publications/psychological_science/preregistration). In the proposal, we will expect you to use in-text scholarly citations and provide a reference list at the end. The summative assignment should allow you to not only demonstrate your knowledge regarding the present course, but also to gain deeper insights into experimental analysis and design that should help you in producing a high-quality dissertation.

PB434E Half Unit

Behavioural Science in an Age of New Technology

This information is for the 2018/19 session.
Teacher responsible: Dr Dario Krpan
Availability: This course is available on the Executive MSc in Behavioural Science. This course is not available as an outside option.
Course content: When psychology and economics got “married”, the product was behavioural science. Although this discipline has elevated theoretical and practical understanding of human behaviour to previously unseen heights, recent technological developments have produced new insights in understanding and predicting people’s actions that not only supplement traditional tools of behavioural science but also go beyond them. The future of the discipline will therefore likely depend on how effectively behavioural scientists can harness new developments in technology to understand and change the way people act. The aim of this course is to a) introduce major technological advancements that are relevant for predicting, influencing, and understanding human behaviour; b) outline how they supplement and extend commonly used tools of behavioural change; and c) examine how they can be used to propel behavioural science into the future. The course will tackle behaviour change in relation to motion tracking, virtual environments, social robotics, social networks, and other relevant developments in information technology. Emphasis will be placed on how the technological tools covered throughout the course can be used to change behaviour in applied settings, and students will be encouraged to discuss implications for their organisations and other areas of interest.
Teaching: 12 hours of lectures, 2 hours and 30 minutes of lectures, 2 hours of lectures and 8 hours of seminars in the ST.
Lecture 1 (2.5h): Course introduction. Understanding minds by
reading bodies: Implications of motion tracking for behavioural science

Lecture 2 (2h): Understanding minds by reading bodies: Implications of motion tracking for behavioural science 2

Day 2

Lecture 3 (1.5h): Changing behaviour through gamification
Lecture 4 (1.5h): Social robots: Our new friends?
Seminar 1 (2h)

Day 3

Lecture 5 (1.5h): Behavioural science in virtual worlds
Lecture 6 (1.5h): Behavioural informatics
Seminar 2 (2h)

Day 4

Lecture 7 (1.5h): Change thyself: Using technology to influence our own behaviour
Lecture 8 (1.5h): Digital footprints and human behaviour
Seminar 3 (2h)

Day 5

Lecture 9 (1.5h): Psychological targeting in digital age
Lecture 10 (1.5h): The ethics of emerging technologies in the context of behavioural science
Seminar 4 (2h)

Formative coursework: Students will be expected to produce 1 presentation in the ST. Formative coursework will serve as your preparation for the summative assignment. You will need to create a 5 minute presentation on the topic of the summative assignment. Propose an intervention that relies on technological tools that were either covered throughout the course or that you identified through personal search to create behavioural change in an applied setting of your choice (e.g. your organisation, personal life; you can select any setting you desire). In the presentation, you will need to a) Introduce the behaviour you want to tackle and argue why changing this behaviour would be important; b) Present your intervention that uses technological tools to change the behaviour and c) argue why this intervention would be effective based on your knowledge of behavioural science gained through the class material and personal literature search. Similar to the summative assignment, the presentation will be delivered in a video format: you will be given a clear step-by-step guide describing how to produce the presentation in a video format (we will go through this guide during a seminar to make sure it is clear to everyone how the summative assignment should be produced). The main aim of the formative assignment is for me to evaluate your approach to tackling points a), b), and c) mentioned above so I can give you relevant feedback that will help you when preparing the summative presentation, and also for you to get comfortable with producing the video presentation.

Assessment: Presentation (100%) post-summer term. The aim of the summative assessment will be to propose an intervention that relies on technological tools that were either covered throughout the course or that you identified through personal search to produce behavioural change in an applied setting of your choice (e.g. your organisation, personal life; you can select any setting you desire). This intervention will be conveyed in the form of a 15-20 minute presentation that will count as your summative assignment. More precisely, in the presentation, you will need to a) Introduce the behaviour you want to tackle and argue why changing this behaviour would be important; b) Present your intervention that uses technological tools to change the behaviour and c) argue why this intervention would be effective based on your knowledge of behavioural science gained through the class material and personal literature search. The presentation will be delivered in a video format: you will be given a clear step-by-step guide describing how to produce the presentation in a video format (we will go through this guide during a seminar to make sure it is clear to everyone how the summative assignment should be produced). Together with the video presentation, you will need to submit an annotated bibliography that contains a) a list of scientific references you used for the presentation; and b) a short text below each reference (1-2 sentences) describing why exactly the reference is important in the context of your presentation. The main purposes of the annotated bibliography will be to demonstrate the academic background upon which your presentation was built.

Assessment: Other (100%) in the MT.

PB451E
Dissertation in Behavioural Science

This information is for the 2018/19 session.
Teacher responsible: Dr Matteo Galizzi QUE.3.16
Availability: This course is compulsory on the Executive MSc in Behavioural Science. This course is not available as an outside option.
Course content: The aim of the dissertation is for students to pursue an independent piece of research within the field of behavioural science. The dissertation can consist of: an empirical analysis of existing data; a collection and analysis of new data; a randomised controlled experiment (lab, field, online); a systematic review of the literature. Students must obtain the approval of their supervisor before embarking on any research.
Teaching: 3 hours of classes in the LT.
Formative coursework: Students will be expected to produce 1 piece of coursework in the ST.
Indicative reading: Relevant reading will be provided by supervisors.
Assessment: Dissertation (100%, 10000 words) in the MT.

PB452E  Half Unit
Behavioural Science for Health

This information is for the 2018/19 session.
Teacher responsible: Dr Matteo Galizzi QUE.3.16
Availability: This course is available on the Executive MSc in Behavioural Science, Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences and Executive MSc in Health Economics, Policy and Management. This course is not available as an outside option.
Not available
Pre-requisites: No prerequisites
Course content: The course aims to introduce to students the main principles, methods, measures, and insights of behavioural sciences, and the key state-of-the-art applications to health economics, policy, practice, and management. The course is designed to enhance students’ abilities to apply rigorously and critically behavioural science tools to concrete challenges in the health and healthcare area. It covers principles of behavioural science; heterogeneity and behavioural economics; behavioural health economics and policy; methods of behavioural science; behavioural experiments in health (field, lab, lab-field, online, mobile); behavioural data linking; measures of behavioural science; risk preferences and health; time preferences and health; social preferences and health; behavioural insights for information policies in health; financial and non-financial incentives in health; behaviourally supercharged incentives in health; nudging behavioural change in health; behavioural spillovers in health; behavioural insights for regulation and taxation in health, healthcare, and risky health behaviours; behavioural insights for healthy behaviours (diet and nutrition, physical exercise, alcohol abuse, tobacco and drug use, medication, screening, infectious diseases, vaccination); behavioural insights for blood and organ donations; behavioural insights for health practice, management, and policy challenges.
Teaching: 18 hours of lectures and 4 hours and 30 minutes of seminars in the ST.
6 x 3 hour lectures (18 hours)
3 x 1.5 hour seminars (4.5 hours each seminar group)
Formative coursework: Students will be expected to produce 1 presentation and 1 other piece of coursework in the ST.
Assessment: Essay (75%, 3000 words) and presentation (25%) in the ST.

PB453E  Half Unit
Corporate Behaviour and Decision Making

This information is for the 2018/19 session.
Teacher responsible: Dr Grace Lordan OLD M 2.26
Availability: This course is available on the Executive MSc in Behavioural Science. This course is not available as an outside option.
Course content: Lecture 1: Introduction
This lecture will give an overview of rational decision making from an economics perspective. Rationality should already be familiar to the students (from compulsory PS468E and MG406E), so they will simply re visiting this. Attention will also be paid to how students can identify credible empirical evidence from experiments (brief recap what was done in PS469E) and beyond (cover natural experiments). We will also recap on the interpretation, advantages and disadvantages of observational studies.
Lecture 2: Finding a Job
This lecture will cover the unconscious biases that are encountered corporate firms in:
1) Job Search
2) Job Advertising
3) Interview panels
Seminar 1: Lecture 2 will be complemented with a linked seminar which focuses on how these biases in job search and hiring can affect success by gender in the labour market and in top tier jobs. Particular attention will be paid to increasing diversity on interview boards.
Lecture 3: Day to Day Work
We will discuss biases in allocated bonuses, promotions, deciding who is viewed as ‘great’ and the allocations of prestigious projects in corporate firms. We will also cover biases in how different types of people are ‘heard’ and ‘seen’ in business, and biases in what a ‘successful’ person looks like. We will brainstorm, with the help of received literature in behavioural economics, viable interventions to combat blind spots in promotions and bonus allocations in the corporate setting.
Seminar 2: Lecture 3 will be complemented with a linked seminar where particular attention will be paid to empirical evidence that relates to:
1) In-group/out groups at work
2) Herding and the implications for decisions in business.
3) Social norms

Lecture 4: When at Work: Trading and Investment
This behavioral finance lecture will cover psychological biases in trade and high stake investment decisions in finance. It will cover the efficient markets hypothesis and outline the behavioral biases in finance that will likely disrupt its predictions. We will also cover how these biases impact on forward futures and options markets, leverage cycles and corporate stocks.

Seminar 3: So far, we have focused on cognitive biases, this lecture will have a linked seminar that will cover the potential for biology to disrupt rational decision making within financial firms when making investment choices.

Lecture 5: When at Work: Complying with the Rules
We will begin by discussing the decision to comply to a firm's policies and procedures within a cost benefit framework. In practice, compliance depends on a number of factors, including employee behavior which is subject to biases already covered. This lecture will cover the insights from behavioral science, which can be used to encourage compliance in the face of these biases.

Seminar 4: Lecture 5 will have a linked seminar which considers high profile compliance issues in finance.

Seminar 5: Wrap up – bringing together of all the messages learned in the course. Student presentations based on group work on 'what was learned' each day.

Teaching: 12 hours and 30 minutes of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 case study in the LT.
Case study with short questions that matches the style of the summative assessment

Teaching: 17 hours and 30 minutes of lectures and 5 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Indicative reading:
- Atkinson G. et al. (2008). Are We Willing to Pay Enough to 'Back the Bid'? Urban Studies, 45, 419-444.

Assessment: Coursework (100%, 4000 words) in the ST.

PB454E  Half Unit
Policy Appraisal and Ethics

This information is for the 2018/19 session.

Teacher responsible: Prof Paul Dolan

Availability: This course is available on the Executive MSc in Behavioural Science. This course is not available as an outside option.

This course is one of two options.

Course content: This course aims to introduce students to the main concepts and tools of policy appraisal and yield insight into key moral and political values that are essential for policy-makers when they draw on behavioural science. The course covers the following topics: 1) Architecture of Cost-benefit analysis for market and non-market goods; 2) Elicitation of monetary values through revealed and stated preference methods, and adjustments for time discounting, risk and uncertainty; 3) Welfare analysis of policy interventions: efficiency, equity and asymmetric paternalism; 4) Evaluating welfare beyond monetary choices: the subjective well-being approach to valuation; 5) Moral problems associated with libertarian paternalism or Nudge, and how this approach compares to other policy mechanisms, such as regulation, taxation and subsidies, and social advertisement. The course offers practical examples and applications to key policy sectors, such as health and the environment.

Teaching: 17 hours and 30 minutes of lectures and 5 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Indicative reading:
- Atkinson G. et al. (2008). Are We Willing to Pay Enough to 'Back the Bid'? Urban Studies, 45, 419-444.

Assessment: Coursework (100%, 4000 words) in the ST.

PB457E  Half Unit
Organisational Culture

This information is for the 2018/19 session.

Teacher responsible: Dr Thomas Reader

Availability: This course is available on the Executive MSc in Behavioural Science. This course is not available as an outside option.

Pre-requisites: No prerequisites.

Course content: The course aims to introduce to students the concept of Organisational Culture, its relationship with behaviour in institutional settings, and methodologies for utilising this knowledge to elicit behavioural change. The course will draw on a mixture of seminal research, state-of-the-art literature, and research being conducted at the LSE. Course content will include the following:

Part 1: Organisational culture: what is it, and why does it matter?
In this first phase of the course, the concept of organisational culture will be introduced. Student will be made familiar with key models on organisational culture (e.g. Schein, Hofstede, Cameron & Quinn), the distinction between organisational culture
and climate, and academic literature investigating the cultural properties of organisations that lead them to be more competitive, safer, and nicer places to work. Students will be asked to reflect on the culture of their own organisation (or another that is relevant to them), and to consider where it 'fits' within the academic models being presented.

Part 2: What comes first: culture or behaviour? Here, the course will examine more precisely how organisational culture influences behaviour. In particular, we will examine how 'cultures' of decision-making, risk-taking, ethical practices, and citizen activity emerge within organisations. Furthermore, we will examine how these behaviours in turn feed and shape the culture of an organisation. Material from the course leader's work (in aviation, heavy industries, and finance) will be used to explore this. Students will be asked to consider how their own decision-making behaviour, and the behaviour of others, is shaped by organisational culture in their organisation.

Part 3: Measuring the intangible: assessing organisational culture. In this part of the course, we examine exactly how organisational culture can be measured. First, we examine traditional methodologies of culture measurement: including interviews, observations, and surveys. We will explore what makes a 'good measure', how you interpret culture data, and the limitations of using observations from 'within' an organisation to measure culture. Second, we explore novel and cutting-edge forms of culture measurement. In particular, we will focus on research at the LSE exploring 'unobtrusive indicators of culture' (e.g. complaints, annual reports). The purpose is to reflect on the value of utilising external observations to measure culture (and the importance of this for an 'honest' picture). Students will be asked to design a culture measurement battery for their organisation.

Part 4: When cultures collide (and fragment). Leading from culture measurement, we examine some of the nuances around organisational culture, and in particular its contested nature. Specifically, we will draw on research examining what happens to 'culture' when two organisations merge together, when managers and employees strongly disagree in their view of culture (and what should be prioritised), and when a multi-national cooperation attempts to create a 'standardised' culture in societies that are very different. We will explore how you find common ground, and the 'right' culture. Students will be asked to consider examples of culture conflict (or fragmentation), and to consider why this occurred, and how it might be ameliorated.

Part 5: Changing culture and behaviour. Finally, we will consider how culture, and through this behaviour, can be changed. Specifically, we will focus on the role of leadership, regulation and policy, and collaborative activity as a catalyst to culture change. Students will be asked to design a culture change strategy for their organisation.

Teaching: 15 hours of lectures and 7 hours and 30 minutes of seminars in the ST.

Day 1
Lecture 1: Organisational Culture: An Introduction
Day 2
Lecture 3: The relationship between organisational culture and performance
Lecture 4: Organisational culture as a predictor of behaviour

Day 3
Lecture 5: Traditional methodologies for measuring organisational culture (surveys, interviews)
Lecture 6: Non-traditional methodologies for measuring organisational culture (external viewpoints)

Day 4
Lecture 7: Merging of organisational cultures
Lecture 8: Divergences in perspectives of organisational culture

Day 5
Lecture 9: Leadership and organisational culture

Lecture 10: Policy and organisational culture
Seinar 5

Assessment: Case study (100%) in the ST.

The course will be assessed through a 3000-word case study produced individually by each student. Submission of the summative assessment will be at the end of the summer term. Students will be asked to i) identify a real-life institution where organisational culture is the 'ingredient' for success or failure, ii) explain - using the concepts taught on the course - why this is the case (with a particular focus on behaviour), and iii) devise a strategy for measuring (and improving) culture within that organisation.

Feedback on essays 2 and 3 will be written, and particular to each essay 1 will be verbal, summarising trends across the class.
**PB471E** Half Unit

Research Methods for Behavioural Science

This information is for the 2018/19 session.

**Teacher responsible:** Dr Matteo Galizzi

**Course content:** The course aims to introduce students to the main methodological concepts and tools in behavioural science. To achieve this objective, the course combines rigorous conceptual discussion with hands-on practical applications. The course covers: The beauty of experiments; how randomization solves the sample selection bias; randomized controlled experiments from the lab to the field; taxonomy, principles, best practices; online and lab-field experiments; Statistical tools: distributions and their moments, the inference problem; Experimental design: between-subjects design, block/stratified randomization, matched-pair design, within-subjects design, cluster randomization; The mechanics of randomization; Introduction to econometrics: simple and multiple linear regression models, econometric analysis of experimental data; Tests of hypothesis: principles and practices, parametric and non-parametric tests in practice; Sampling: optimal sample size calculation in practice, useful rules of thumbs; Experimental best practices and challenges: ethics, recruitment, informed consent form, attrition, non-compliance, external validity, behavioural data-linking; When randomization is not possible: before and after, matching, natural experiments, difference-in-difference, regression discontinuity design; Outcomes and behavioural measures in experiments, survey design. The seminars involve hands-on practical applications using Stata, R, and Qualtrics.

**Teaching:** 17 hours and 30 minutes of lectures and 5 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

**Indicative reading:**
- Kohler, U., Kreuter, F. (2012). Data Analysis Using Stata. College Station, TX: Stata Press.
- randomized

**Assessment:** Other (100%) in the LT.

Students will be asked to submit a “portfolio” of hands-on practical tasks related to the main stages of a behavioural science project option.

**Pre-requisites:** There are no pre-requisites for this course.

**Course content:** The policy workshop applies the analytical tools that are taught in the week-long modules of the Executive MPA to specific policy areas. Teaching is based on a series of case studies. The case studies are taught by specialists in a particular policy area and are complemented with group working sessions by the students and presentations by policy practitioners involved in the policy area.

**Teaching:** A three-day modular teaching block.

**Formative coursework:** One optional mock policy exercise will be provided.

**Indicative reading:** Readings that are specific to each policy area will be distributed at the beginning of the course.

**Assessment:** Essay (100%, 2000 words).

Assessment will consist of a 2,000 word reflective essay due 10 days after module teaching concludes. Further details will be provided at the Executive MPA programme induction.

**PP410E** Half Unit

Public Economics for Public Policy

This information is for the 2018/19 session.

**Teacher responsible:** Professor Camille Landais

Dr Daniel Reck

Dr Xavier Jaravel

**Availability:** This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.

**Pre-requisites:** There are no formal pre-requisites, but the course is only available by prior agreement with Executive MPA and Executive MPP Programme Directors if students haven’t completed Empirical Methods for Public Policy (E455E) and Economic Policy Analysis (EC440E) prior to this course.

**Course content:** This is a course in theoretical and applied public economics using intermediate economic theory. Topics include issues of equity and efficiency and alternative theories of the role of the state. Models of public goods and externalities, including environmental policy. Who really pays taxes: issues of tax incidence and tax evasion. Income inequality, poverty alleviation and the role of welfare programmes in theory and in practice. Health and education policy. The effects of taxes and transfers on labour supply and migration, The optimal taxation of commodities and incomes. Current topics in public finance. The main institutional references will be to the UK and the US, but some attention will also be given to broader international experience.

**Teaching:** A one-week modular teaching block.

**Formative coursework:** One mock examination will be offered.

**Indicative reading:** A full reading list will be distributed prior to the beginning of the course.

**Assessment:** Project (50%, 2000 words) and online assessment (50%).

Please note that online assessments take place on the third Friday after module teaching concludes. The project will consist of a 2,000 word data analysis exercise. Data analysis exercises are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPP/ Executive MPA programme inductions.

**PP421E** Half Unit

Global Market Economics

This information is for the 2018/19 session.

**Teacher responsible:** Professor Andrew Bernard

**Availability:** This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: There are no formal pre-requisites, but the course is only available by prior agreement with the Executive MPA and Executive MPP Programme Directors if students haven't completed Empirical Methods for Public Policy (PP455E) and Economic Policy Analysis (PP440E).

Course content: This course focuses on the economic interdependence between countries in a global economy. The first part of the course examines the structure and geography of world trade and examines popular hypothesis such as the “global village” or “flat earth”. The second part of the course analyses macroeconomic issues such as the magnitude and effects of international capital flows, the debate over fixed versus flexible exchange rates and the economics of a common currency

Teaching: A one-week modular teaching block.

Formative coursework: One mock essay opportunity will be provided.

Indicative reading: A full reading list will be distributed at the beginning of the course.

Assessment: Essay (50%, 2000 words) and online assessment (50%).

Please note that online assessments take place on the third Friday after module teaching concludes. Assessed essays are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA/ Executive MPP programme inductions.

PP440E Half Unit
Economic Policy Analysis

This information is for the 2018/19 session.

Teacher responsible: Dr Ethan Ilzetzki and Dr Sandra Sequeira

Availability: This course is compulsory on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.

Pre-requisites: There are no pre-requisites for this course.

Course content: The course is an introductory graduate course providing an economics background suitable for high-level public policy-making. The emphasis is on acquiring sound models and methods suitable for appraising policy-making issues and applicable in a wide variety of contexts. The course will cover both key microeconomic policy issues, such as externalities, public goods and principal-agent problems and macroeconomic issues such as unemployment, fiscal and monetary policies, international trade and finance and the determinants of long-run growth.

Teaching: A one-week modular teaching block.

Formative coursework: One mock examination will be provided.

Indicative reading: A full reading list will be distributed at the beginning of the course.

Assessment: Project (50%, 2000 words) and online assessment (50%).

Please note that online assessments take place on the third Friday after module teaching concludes. Assessed essays are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA/ Executive MPP programme inductions.

PP454E Half Unit
Development Economics

This information is for the 2018/19 session.

Teacher responsible: Prof Robin Burgess LRB R524 and Prof Oriana Bandiera LRB R526

Availability: This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.

Pre-requisites: There are no formal pre-requisites, but the course is only available by prior agreement with the Executive MPA and Executive MPP Programme Directors if students haven't completed Empirical Methods for Public Policy (PP455E) and Economic Policy Analysis (PP440E) prior to this course.

Course content: The main focus of this course is on acquiring the necessary theoretical and empirical skills to engage in the rigorous analysis of public policies in developing countries. Topics at the forefront of development economics will be covered. These include growth and poverty, governance and accountability, motivation of bureaucrats, firms and markets, determinants of productivity, jobs and labour markets, shocks and insurance, infrastructure, connectivity, education and health, trade and globalization, the value of exporting, delivering public services, incentivising teachers and health workers, environment and climate change, management of natural resources, taxation and state capacity. The emphasis will be on combining theory and data to evaluate the effectiveness of policies in these different areas.

Teaching: A one-week modular teaching block.

Formative coursework: One mock essay opportunity will be provided.

Indicative reading: A full reading list will be distributed at the start of the course.

Assessment: Essay (50%, 2000 words) and online assessment (50%).

Please note that online assessments take place on the third Friday after module teaching concludes. Essays are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA/ Executive MPP programme inductions.

PP455E Half Unit
Empirical Methods for Public Policy

This information is for the 2018/19 session.

Teacher responsible: Dr Daniel Sturm and Dr Gregory Fischer

Availability: This course is compulsory on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.

Pre-requisites: There are no formal pre-requisites, but recommended advance readings will be distributed ahead of the course. Familiarity with the material covered in the EM/MA/ EMPP Mathematics and Statistics Refresher module is assumed.

Course content: The course introduces students to the quantitative evaluation of public policies. The focus of the course is on practical applications of techniques to test the effectiveness of public policy interventions. The course begins with an overview of the key benefits of randomized experiments in the evaluation of public policies. Next the course covers a number of techniques that are widely used in the evaluation of public policies, including difference-in-differences regressions, regression discontinuity approaches and matching. It concludes with an introduction to cost-benefit analysis.

Teaching: A one-week modular teaching block.

Formative coursework: One mock examination will be provided.

Indicative reading: A full reading list will be distributed at the beginning of the course.

Assessment: Project (50%, 2000 words) and online assessment (50%).

Please note that online assessments take place on the third Friday after module teaching concludes. The project will consist of a 2,000 word data analysis exercise due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA/ Executive MPP programme inductions.
PP478E  Half Unit
Political Science and Public Policy

This information is for the 2018/19 session.
Teacher responsible: Prof Simon Hix CON3.07
Availability: This course is compulsory on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: There are no pre-requisites, but recommended advance reading is given below.
Course content: This course introduces students to core concepts and problems in politics and policymaking. Among the questions we address: What determines political preferences and electoral outcomes? How are interests represented? How do political institutions shape policy outcomes? We focus on tools that students should be able to apply broadly in analyzing the political world.
Teaching: A one-week modular teaching block.

PP488E  Half Unit
Regulatory Analysis

This information is for the 2018/19 session.
Teacher responsible: Prof Martin Lodge CON3.08
Availability: This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: There are no pre-requisites, but recommended advance reading is given below.
Course content: The course examines contemporary issues in regulation in OECD countries and elsewhere. The focus is on exploring competing approaches towards regulation in the context of different domains, ranging from utility, environmental to health and safety regulation. Particular attention will be paid to issues such as institutional design, enforcement and compliance, as well as the relationship between politicians, regulators, business and other actors. Topics include institutional design, development and regulation, standard-setting, enforcement, 'better regulation', and accountability.
Teaching: A one-week modular teaching block.

PP483E  Half Unit
Executive MPP Capstone Project

This information is for the 2018/19 session.
Teacher responsible: Dr Joachim Wehner and Dr Daniel Sturm
Availability: This course is available on the Executive Master of Public Policy. This course is not available as an outside option.
Pre-requisites: There are no pre-requisites for this course.
Course content: Students will undertake a group project (in teams usually of 3 to 5 people) relating to a public policy problem faced by the Civil Service. The group will have a period of approximately 3 months to work on an issue defined by the client organisation, investigating and developing a workable solution to the problem.
Teaching: Each Capstone group will be allocated a supervisor, who will provide overall guidance on the project’s development and assistance with client liaison. Other members of staff may also advise as required.

PP4G8E  Half Unit
Public Policy in Practice Workshop I (EMPA)

This information is for the 2018/19 session.
Teacher responsible: Dr Daniel Sturm 32L2.25 and Dr. Joachim Wehner CON4.10
Availability: This course is compulsory on the Executive Master of Public Administration . This course is not available as an outside option.
Pre-requisites: There are no pre-requisites for this course.
Course content: The policy workshop applies the analytical tools that are taught in the week-long modules of the Executive MPA to specific policy areas. Teaching is based on a series of case studies. The case studies are taught by specialists in a particular
policy area and are complemented with group working sessions by the students and presentations by policy practitioners involved in the policy area.

**Teaching:** A three-day modular teaching block.

**Indicative reading:** Readings that are specific to each policy area will be distributed at the beginning of the course.

**Assessment:** Project (100%, 3000 words).

Assessment will consist of a 3,000 policy exercise. Policy exercises are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPP programme induction.

---

**PP4G9E  Half Unit**  
**Public Policy in Practice Workshop II (EMPA)**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Daniel Sturm and Dr Joachim Wehner

**Availability:** This course is compulsory on the Executive Master of Public Administration. This course is not available as an outside option.

**Pre-requisites:** There are no pre-requisites for this course.

**Course content:** The policy workshop applies the analytical tools that are taught in the week-long modules of the Executive MPP to specific policy areas. Teaching is based on a series of case studies. The case studies are taught by specialists in a particular policy area and are complemented with group working sessions by the students and presentations by policy practitioners involved in the policy area.

**Teaching:** A three-day modular teaching block.

**Indicative reading:** Readings that are specific to each policy area will be distributed at the beginning of the course.

**Assessment:** Project (100%, 3000 words).

Assessment will consist of a 3,000 policy exercise. Policy exercises are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPP programme induction.

---

**PP4J1E  Half Unit**  
**Public Policy in Practice Workshop I (EMMP)**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Joachim Wehner and Dr Daniel Sturm

**Availability:** This course is compulsory on the Executive Master of Public Policy. This course is not available as an outside option.

---

**PP4J5E  Half Unit**  
**Fiscal Governance and Budgeting**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Joachim Wehner and Dr Paolo de Renzio

**Availability:** This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.

**Pre-requisites:** There are no pre-requisites, but recommended advance reading is given below.

**Course content:** The course examines contemporary issues in fiscal governance and public budgeting in OECD countries and elsewhere. The focus is on executive and legislative actors and the institutional structures within which they make budgetary choices. Following an introduction to theoretical approaches to the study of budgeting, topics include medium-term frameworks, top-down budgeting, fiscal rules and fiscal councils, performance budgeting,
legislative budgeting, fiscal decentralisation, budget transparency, audit and accountability.

**Teaching:** A one-week modular teaching block.

**Formative coursework:** One mock examination opportunity will be provided.

**Indicative reading:** Fiscal Governance in Europe by Mark Hallerberg, Rolf Strauch and Jürgen von Hagen (Cambridge University Press, 2009) introduces an important theoretical approach and is a good reference for several topics. The OECD Journal on Budgeting http://www.oecd.org/gov/budget/journal discusses current issues in applied budgeting. A full reading list will be distributed at the beginning of the course.

**Assessment:** Essay (50%, 2000 words) and online assessment (50%).

Please note that online assessments take place on the third Friday after module teaching concludes. Essays are due on the sixth Friday after module teaching concludes. Further details will be provided at the Executive MPA/Executive MPP programme inductions.

---

**PP4V8E**  Half Unit

**Policy Paper**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Daniel Sturm and Dr Joachim Wehner

Participating students will be assigned an academic supervisor with relevant knowledge of the topic and supervision experience.

**Availability:** This course is available on the Executive Master of Public Administration and Executive Master of Public Policy. This course is not available as an outside option.

**Pre-requisites:** There are no formal pre-requisites but the course is only available by prior agreement with the Executive MPA and Executive MPP Programme Directors.

**Course content:** The aim of the course is to enable students to plan, design and conduct independent analysis in an area of public policy. Executive MPA/EMPP students will write an individually-authored policy paper of no more than 6,000 words on a topic developed in consultation with an Academic Adviser. The paper will analyse a concrete policy problem in a specific setting and propose an evidence-based solution or course of amelioration. It must be addressed to a non-academic audience and should be clearly and directly written, suitable for consideration by policy-makers. The main body of the paper should include methodology, results of the analysis, discussion of different policy options, conclusions and policy recommendations. The policy paper must be accompanied by an Executive Summary. Policy papers can utilise quantitative and/or qualitative data and draw on secondary and/or primary research.

**Teaching:** The student's Academic Adviser will provide advice and guidance on this piece of work as required during the duration of the assessment.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the MT, LT and ST.

A policy paper proposal (of no more than 750 words in total) consisting of the title, abstract, research question, justification for analysis, feasibility of the topic, an explanation of sources, structure and analytical framework must be submitted well in advance of the assessment deadline. Students may only change their topic thereafter with the agreement of the Academic Adviser/Programme Directors. Students will be given feedback on their proposal.

- Paper 4: Compulsory non-examined courses:
- Paper 5: AN500 Seminar on Anthropological Research (0.0)
- Paper 5: AN503 Thesis Writing Seminar (0.0)

**Award of the MRes in Anthropology**

The award and classification of the MRes degree is consistent with the School’s Scheme for the Award of a four-unit Taught Master’s Degree. For students entering in or before 2016/17: Classification for students with mark profiles falling under Paragraphs 3.3.2 or 3.3.4 will always be determined to the advantage of the student. From 2017/18 students with mark profiles falling under Paragraphs 3.3.2 or 3.3.4 shall be classified as follows:

- Distinction: Merit borderline (scheme paragraph 3.3.2): 3.3.2 (c) marks of a Distinction grade in courses to the value of 2.5 units and a mark of a Merit grade in a course of 0.5 unit value will obtain an overall classification of a Distinction;
- 3.3.2 (d) marks of a Distinction grade in courses to the value of 2.0 units and marks of a Merit grade of at least 65 in courses to the value of 2.0 units; OR, marks of a Distinction grade in courses to the value of 2.0 units, marks of a Merit grade in courses to the value of 2.0 units, and an overall aggregate mark of at least 275 will obtain an overall classification of a Distinction.

**Merit/Pass borderline (scheme paragraph 3.3.4):** 3.3.4 (h) marks of a Merit grade in courses to the value of 2.5 units will obtain an overall classification of a Merit; 3.3.4 (i) marks of a Distinction grade in courses to the value of 1.0 unit, marks of a Merit grade in courses to the value of 1.0 unit, and marks of a Pass grade of at least 55 to the value of 2.0 units will obtain an overall classification of Merit.

The marks for AN471 and AN472 will count respectively as 25% of the total mark for the year. The research proposal, worth 50% of the total mark for the MRes year, will be examined (and the examination includes a viva). In order to be upgraded to PhD registration and allowed to commence fieldwork, students (a) must earn an average of 60 or more across all units; (b) must earn a minimum mark of 60 on the research proposal.

**Progression to the PhD**

If the above MRes requirements are met, students will be upgraded to PhD registration and will commence the fieldwork phase of the programme. The mandatory first year progress review of PhD students will be based on written reports about the early phase of fieldwork. The mandatory third year progress review for students in Anthropology is held in the third term (or, exceptionally, in the fourth term) after their return from fieldwork; this entails a viva with both supervisors and one external examiner.

**Programme Structure - PhD**

**Programme code:** RPAN2

In the programme regulations below Years 1 and 2 are listed as “fieldwork”, with Years 3 and 4 being post-fieldwork, although in practice the timing/duration of these stages may vary to some extent between students.

**Year 1 - Fieldwork**

**Year 2 - Fieldwork**

**Year 3**

- Paper 1: AN505 Advanced Professional Development in Anthropology (1.0)
- Paper 2 & 3: AN500 Seminar on Anthropological Research (0.0)
- Paper 4: AN503 Thesis Writing Seminar (0.0)

**Year 4**

- Papers 4: Compulsory non-examined courses:
- Paper 5: AN500 Seminar on Anthropological Research (0.0)
- Paper 5: AN503 Thesis Writing Seminar (0.0)

**MRes/PhD in Economics**

A PhD in Economics consists of two years of coursework, followed by a thesis which is expected to take three years. The coursework requirement involves three PhD-level core courses in microeconomics, macroeconomics and econometrics, three field courses and a supervised research paper.

A place on the MSc Economics or the MSc Econometrics and Mathematical Economics will include a conditional offer of progression to the MRes/PhD in Economics, subject to the attainment of a Distinction grade in the MSc. Those who meet the progression requirement and decide to progress are registered as MRes students and undertake the same two-year MRes course requirement as with all other MRes/PhD students.

**Programme Structure - MRes**

**Programme code:** TMRESEC

**Department:** Economics

**Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**MRes/PhD Programme Regulations**

(H) means a half-unit course
(C) means this course is capped
(n/a 18/19) means not available in the 2018/19 academic year
(M) means Michaelmas Term
(L) means Lent Term
(S) means Summer Term
First Year MRes

Introductory course
All students are required to attend the following introductory course in Year 1:

- EC400 Introductory Course in Mathematics and Statistics (0.0)

Students are required to take the following MRes core courses:

Paper 1: EC441 Microeconomics for MRes students (1.0)
Paper 2: EC442 Macroeconomics for MRes students (1.0)
Paper 3: EC443 Econometrics for MRes students (1.0) or EC484 Econometric Analysis (1.0) # A

Students who have completed EC484 to the required standard as part of their MSc do not have to take the course again. To substitute for EC484, students will take one course from the following Field Selection List. The EC484 mark will be carried forward to count as the Paper 3 mark for progression to PhD registration. It will not count towards the award of the MRes degree.

Field Selection List

Second year or higher MRes

- Students are required to take:
  - Paper 4: EC599 Research Paper in Economics (1.0) B
- Papers 5 & 6 Courses to the value of 2.0 unit(s) from the following:

Field Selection List

Students are required to attend:

A. The following seminar where they must present their research:
   - EC501 Work in Progress Seminars (0.0)
B. The weekly departmental seminar series closest to their major field.

Field Selection List

- EC518 Topics in Advanced Econometrics for Research Students (1.0)
- EC532 International Economics for Research Students (1.0)
- EC533 Labour Economics for Research Students (1.0)
- EC534 Public Economics for Research Students (1.0)
- EC535 Development Economics for Research Students (1.0)
- EC536 Economics of Industry for Research Students (1.0)
- EC537 Microeconomic Theory for Research Students (1.0)
- EC538 Macroeconomics for Research Students (1.0)
- EC540 Political Economy for Research Students (1.0)

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

Footnotes

A : Permission must be obtained to sit EC484; it is intended for students with a strong econometric background and an interest in pursuing a PhD with econometrics as the primary field.

B : The EC599 Research Paper must be 5,000 - 10,000 words in length.

# means there may be prerequisites for this course. Please view the course guide for more information.

Programme Structure - PhD

Programme code: RPEC2

First year PhD Programme

Students who have been upgraded to PhD are required to work on their research and write a PhD thesis. In addition they are required to take:

- Paper 7: Courses to the value of 1.0 unit(s) from the following:

Field Selection List

Students are also required to attend:

A. The following seminar where they must present their research:
   - EC501 Work in Progress Seminars (0.0)
B. The weekly departmental seminar series closest to their major field.

Students are required to work on their research and to write a PhD thesis.

Field Selection List

- EC518 Topics in Advanced Econometrics for Research Students (1.0)
- EC532 International Economics for Research Students (1.0)
- EC533 Labour Economics for Research Students (1.0)
- EC534 Public Economics for Research Students (1.0)
- EC535 Development Economics for Research Students (1.0)
- EC536 Economics of Industry for Research Students (1.0)
- EC537 Microeconomic Theory for Research Students (1.0)
- EC538 Macroeconomics for Research Students (1.0)
- EC540 Political Economy for Research Students (1.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

Progression to Year 2 of MRes in Economics

In order to progress unconditionally from the first to the second year of MRes registration, students are required to achieve pass marks of 50% or higher in Papers 1, 2 and 3. With the permission of the MRes Programme Director, students who do not attain this standard may proceed to the second year with up to one resit paper (with the restriction that they can sit a maximum of four exams, including resits and EC599 in Year 2).

Award of the MRes in Economics

The award and classification of the MRes degree is consistent with the School’s Scheme for the Award of a five-unit Taught Master’s Degree. Students are required to achieve a pass mark of 50% in Papers 1, 2, 3, 4 and in one of the Papers 5 or 6. The marks for Papers 1 - 4 and the highest mark from Papers 5 or 6 will be used to determine the degree classification. A fail in one of these classification papers (but not a bad fail of 29% or less) can be compensated by a mark of 60% or higher in another paper, or an aggregate mark of 220 in the non-failed papers. If compensated, a fail shall result in a drop in the overall award classification where a Distinction or Merit would otherwise have been awarded. It shall have no further impact where a Pass is to be awarded.

Progression to PhD registration

For PhD registration students are required to achieve four marks of 60% or higher and two marks of 50% or higher in MRes Papers 1, 2, 3, 4, 5 and 6, with at least two of the 60% marks achieved in the MRes core Papers 1, 2, and 3.

Condoning marks:

A mark between 55 - 59% in one of the Papers 1, 2 or 3 can be condoned by a mark of +70% in another from Papers 1, 2 or 3. A mark between 50 - 59% in one of the Papers 1, 2 or 3 can be condoned by a mark of +70% in the EC599 research paper.

Students missing the overall progression requirement by one paper are permitted to progress to PhD registration, but will subsequently need to re-sit and pass the paper to the necessary standard to continue their PhD registration.

Students missing the progression requirement by more than one paper are required to pass those papers to the necessary standard before PhD registration can be permitted.

Students failing a paper or missing a progression mark will have to retake that paper within one year of the original examination. In exceptional circumstances, the Graduate Studies Sub-Committee can grant permission to a candidate to resit a paper at the next available opportunity. Students can resit each paper only once.

Students registered for the PhD remain subject to the relevant MRes regulations for any courses or examinations they are completing. Students who have been permitted to progress onto the PhD without satisfying the complete progression standard will have their PhD registration discontinued if they fail to reach this
MRes/PhD in Finance
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Programme Structure - MRes
Programme code: TMRESF11
Department: Finance

For students starting this programme of study in 2018/19
Classification scheme for the award of a taught master’s degree (five units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMaster-FiveUnits.pdf
Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm
Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Year 1
Introductory course
Students are required to attend the following before commencing the MRes/PhD programme:
EC400  Introductory Course in Mathematics and Statistics (0.0)
Training courses
Compulsory (examined):

Paper 1  EC441  Microeconomics for MRes students (1.0)
Paper 2  EC442  Macroeconomics for MRes students (1.0)
Paper 3  FM481  Financial Econometrics for Research Students (1.0)
Transferable skills courses
Compulsory (not examined):
A. FM436  Financial Economics (1.0)
B. Capital Markets Workshop
Optional (not examined):
C. MY592  Workshop in Information Literacy: finding, managing and organising published research and data (0.0)
D. Any relevant seminars in related areas.

Year 2
Training courses
Compulsory (examined):
Paper 4  FM502  Corporate Finance for Research Students (1.0)
Paper 5  FM503  Asset Pricing for Research Students (1.0)
Paper 6  FM482  Research paper in Finance (1.0) A
Transferable skills courses
Compulsory (not examined):
A. FM505  PhD Seminar in Finance (1.0) B
B. Capital Markets Workshop
Optional (not examined):
C. Any relevant seminars in related areas.

Footnotes
A. The FM482  Research Paper must be 6,000 - 8,000 words in length.
B. Presentation requirements: Students are required to do an FM505  seminar presentation in the second year.
C. means there may be prerequisites for this course. Please view the course guide for more information.

Programme Structure - PhD
Programme code: RPF12
Year 3
(if upgraded to PhD)
Training courses
Compulsory (examined):
Paper 7  FM505  PhD Seminar in Finance (1.0) A
Transferable skills courses
Compulsory (not examined):
A. Capital Markets Workshop

Footnotes
A. Students need to pass Paper 7 with a mark of 65% or higher.
Progression and upgrade requirements
In order to progress unconditionally from the first to the second year of MRes registration students are required to achieve pass marks of 50% or higher in papers 1, 2 and 3. Students who do not attain this standard may proceed to the second year with up to two resit papers, only with the permission of the MRes Programme Director, with the restriction that they can sit a maximum of four exams in year 2, which must be the two resits, either paper 4 or 5, and paper 6.

Award of the MRes in Finance
The award and classification of the MRes degree is consistent with the School’s Scheme for the Award of a five-unit Taught Masters Degree. Students are required to achieve a pass mark of 50% in 5 of full-unit papers, which must include Paper 6 (Research paper) and four papers from Papers 1, 2, 3, 4, and 5. One failed paper (but not a bad fail of 29% or less) can be compensated by a mark of 60% or higher in another paper.

Progression to PhD registration
For PhD registration students are required to achieve marks of 50% or higher in Papers 1, 2, and 3, marks of 60% or higher in papers 4 to 7 and a mark of 65% or higher in Paper 6. Students missing the overall progression requirement by one paper are permitted to progress to PhD registration, but will subsequently need to re-sit and pass the paper to the necessary standard to continue their PhD registration. Students missing the progression requirement by more than one paper are required to pass those papers to the necessary standard before PhD registration can be permitted.
Throughout the coursework portion of the MRes or MRes/PhD programme, students failing a paper or missing a progression mark will have to retake that paper within one year of the original examination. Students can resit each paper only once. Students registered for the PhD remain subject to the relevant MRes regulations for any courses or examinations they are completing. Students who have been permitted to progress onto the PhD without satisfying the complete progression standard will have their PhD registration discontinued if they fail to reach this standard at re-sit.

MRes/PhD in International Development

Programme Structure - MRes
 Program code: TMRESDV

For students starting this programme of study in 2018/19

Classification scheme for the award of a taught master’s degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf
Exami sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

Please note that places are limited on some optional courses.
Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Year 1

Compulsory courses
1. DV501 Development History, Theory and Policy for Research Students (0.5)
2. Methodology course choice to the value of one full unit (at the 400 and 500 level). Course choices must be approved by the supervisor and Doctoral Programme Director.
3. Methodology or Theory course choice to the value of 1.5 units (at the 400 and 500 level). Courses may be chosen from the list of optional courses below or an unlisted course. Course choices must be approved by the supervisor and Doctoral Programme Director.
4. DV510 Research Design and Proposal in International Development (1.0)
5. DV500 Research Seminar in Development Studies (0.0)

Optional courses
6. The following course is a prerequisite for 400 and 500 level EC courses for students planning to make use of advanced quantitative methods in their PhD research:

EC400 Introductory Course in Mathematics and Statistics (0.0)

7. The following courses are recommended options under Paper 3 above:
DV518 African Development (0.5)
DV520 Complex Emergencies (0.5)
DV528 Managing Humanitarianism (0.5)
DV531 Development Management (1.0)
DV545 Research Themes in International Development (0.5)
DV560 Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference (0.5)
DV590 Economic Development Policy I (0.5)
DV591 Economic Development Policy II (0.5)

# means there may be prerequisites for this course. Please view the course guide for more information.

Award of the MRes in International Development

The award and classification of the MRes degree is consistent with the School’s Scheme for the Award of a four-unit Taught Master’s Degree.

Programme Structure - PhD
 Program code: RPDV2
 Upgrade to PhD

MRes/PhD in Management (Employment Relations and Human Resources)

(This programme is not available in 2018/19)

For the MRes component of this programme (Years 1 and 2), students must take courses to the value of 5.0 units over two years, as shown below. Please refer to the Classification scheme160 https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForTaughtMasters-InOrAfter2009-10.pdf which should be read in conjunction with these programme regulations. During the MRes, students are covered by the Regulations for taught master’s degrees for students entering in or after the 2009/10 academic year https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForTaughtMasters-InOrAfter2009-10.pdf. Continuation on to the PhD is dependent on meeting the progression requirements as stated below.

For the PhD component of this programme, in addition to progressing with their research, students are expected to take seminars and workshops as shown below. When students progress on to the PhD part of the programme (Years 3-6) the academic regulations that apply to them change from the regulations for taught master’s to the Regulations for research degrees https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForResearchDegrees.pdf.

Programme Structure - MRes
 Program code: TMRESMGHERH
 Department: Management
 For students starting this programme of study in 2018/19

Please note that places are limited on some optional courses.
Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Year 1

Paper 1 MG518 Employment Relations and Human Resource Management Seminar (0.5) and MY500 Fundamentals of Social Science Research Design (0.5)

Paper 2 MG505 Research in Organisational Behaviour (1.0) (not available 2018/19)
Paper 3  MY551 Introduction to Quantitative Analysis (0.5) and MY521 Qualitative Research Methods (0.5)

Year 2

Paper 4  Courses to the value of 0.5 unit(s) from the following:
     DV501 Development History, Theory and Policy for Research Students (0.5)
     GV517 Comparative Political Economy: New Approaches and Issues in CPE (0.5) (not available 2018/19)
     MG576 Corporate Social Responsibility and International Labour Standards (0.5) (not available 2018/19)

Paper 5  Courses to the value of 0.5 unit(s) from the following:
     MG436 Firms, Markets and Crises (0.5) (withdrawn 2018/19)
     MG473 Negotiation Analysis (0.5)
     MG475 Organisational Theory (0.5)
     MG4A9 Foundations of Business and Management for Human Resources (0.5)
     MG4B7 Organisational Change (0.5)
     MG4C2 Organisational Behaviour (0.5)
     MG4D1 International and Comparative Human Resource Management (0.5) (withdrawn 2018/19)
     MG4D2 International Employment Relations (0.5)
     MG4D3 The Dark Side of the Organisation (0.5)
     MG4D4 Cross Cultural Management (0.5)
     MG4D5 Leadership in Organisations: Theory and Practice (0.5)

Paper 6  MG599 Research Paper in Management (1.0) (not available 2018/19)

# means there may be prerequisites for this course. Please view the course guide for more information.

Programme Structure - PhD
Programme code: RPMGERHR
Non-examined courses Years 3-6
1. Relevant workshops from the following:
   MY530 Advanced Qualitative Research Workshops (0.0)
2. At least one Department of Management Research Seminar each year
   All PhD projects involve a qualitative stage, including fieldwork, for theory generation and a quantitative stage for theory testing and analysis. This will normally take place in Years 3 and 4.
# means there may be prerequisites for this course. Please view the course guide for more information.

A: FOR PROGRESSION FROM THE FIRST YEAR TO THE SECOND YEAR OF THE MRES IN MANAGEMENT (ORGANISATIONAL BEHAVIOUR)

Students must achieve marks of 65% in each first year core course in order to progress to year two of the MRes programme. Students who do not achieve this standard may progress to the second year having failed (but not a Bad Fail) or received a mark between 50-59, or 60-64 mark, in a maximum of half a unit of courses only as long as they obtain the permission of the MRes Programme Director. Where the student receives a fail mark (but not a Bad Fail mark) or a mark between 50-59, or 60-64 mark in a half unit in total, they will be required to resit this work at the end of the programme in order to progress on to the PhD unless they achieve the compensation conditions set out at 3.2.3 above.

Where a student has been awarded an MRes according to the classification scheme https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForTaughtMasters-InOrAfter2009-10.pdf and is required to resit an element of assessment in order to meet the PhD progression requirements the resit mark will not supersede the original attempt or result in an adjustment to the award.

A student who passes all courses but fails to achieve the required standard in more than half a core course unit cannot progress and fails the degree without the opportunity to resit. A student who receives fail marks (including Bad Fails) in more than half a unit cannot progress to year two until those fails have been resit and they then meet the progression requirements as set out above.

A student may only resit an assessment on one occasion only.

B: FOR PROGRESSION FROM MRES TO PHD

The award and classification of the MRes shall be based on the 5 unit classification scheme https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForTaughtMasters-InOrAfter2009-10.pdf. In order to progress on to the PhD registration students are required to achieve marks of 60% in all 5 course unit marks by the end of the programme.

1 failed unit (but not Bad Fails) or passed unit with marks in the range of 50-59, or a 60-64 mark can be compensated by achieving marks of at least 70% in courses of an equivalent value. Or, by achieving an aggregate mark of 260 in the non-failed courses.

Students who fail to achieve marks of 60% or above and are unable to compensate these marks must resit these courses at the next available opportunity on one occasion only. Results obtained following a repeated attempt at assessment will not supersede the original attempt or result in an adjustment to the classification where a student has previously achieved a pass mark in that course or an award has already been made.

Students who progress to PhD registration can resit up to half a unit only in order to attempt to satisfy the progression requirements. They need to achieve a pass mark of 60 or above in this work to continue their PhD registration. Students failing to meet this standard will have their PhD registration discontinued. A student may only resit an assessment on one occasion only.

See the Calendar lse.ac.uk/resources/calendar/ for further information about Programme Regulations, Course Guides, School and Academic Regulations.

MRes/PhD in Management (Information Systems and Innovation)

(This programme is not available in 2018/19)

For the MRes component of this programme (Years 1 and 2), students must take courses to the value of 5.0 units over two years, as shown below. Please refer to the Classification scheme https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForTaughtMasters-InOrAfter2009-10.pdf which should be read in conjunction with these programme regulations. During the MRes, students are covered by the Regulations for taught master’s degrees for students entering in or after the 2009/10 academic year https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForTaughtMasters-InOrAfter2009-10.pdf. Continuation on to the PhD is dependent on meeting the progression requirements as stated below.

For the PhD component of this programme, in addition to progressing with their research, students are expected to take seminars and workshops as shown below. When students progress on to the PhD part of the programme (Years 3-6) the academic regulations that apply to them change from the regulations for taught master’s to the Regulations for research degrees https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForResearchDegrees.pdf. Students on the MRes or PhD programme must comply with the General Academic Regulations https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations.pdf.
Programme Structure - MRes
Programme code: TMRESM6GI6
Department: Management

For students starting this programme of study in 2018/19 Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Year 1

Paper 1  MG502 Foundations of Social Research in Information Systems: Paradigms and Traditions (0.5) (not available 2018/19) and MG503 Interpretations of Information (0.5) (not available 2018/19)

Paper 2  MY551 Introduction to Quantitative Analysis (0.5) and MY521 Qualitative Research Methods (0.5)

Paper 3  MY500 Fundamentals of Social Science Research Design (0.5)

And courses to the value of 0.5 units from the following:
MG460 Handling Disruption: Humanitarian Emergencies Management and Development (0.5)
MG479 Information Systems for the Public Sector: Digital Government and Service Innovation (0.5) (not available 2018/19)
MG483 eHealth: Policy, Strategy and Systems (0.5)
MG484 Global Sourcing and Management of Business and IT Services (0.5) (not available 2018/19)
MG486 Social Computing, Data and Information Service (0.5)
MG492 Data Governance: Privacy, Openness and Transparency (0.5)
MG4C Information Technology and Service Innovation (0.5)

Students may also take appropriate MSc or PhD level courses from within the Department of Management or from another department as agreed with their supervisor and programme director and subject to timetabling constraints.

Year 2

Paper 4  MG509 Managing Digital Platform Innovation (0.5) (not available 2018/19) and MG511 Technology, Practice and Institutions (0.5) (not available 2018/19)

Paper 5  MG599 Research Paper in Management (1.0) (not available 2018/19)

Workshops
In addition, students are required to attend the following on a weekly basis, which are compulsory but not examined:
MG500 Information Systems PhD Seminar Series and Workshops (0.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

Programme Structure - PhD
Programme code: RPMGISI

Non-examined courses Years 3-6
1. Weekly attendance at the following:
MG500 Information Systems PhD Seminar Series and Workshops (0.0)
2. At least one relevant workshop of the following:
MY530 Advanced Qualitative Research Workshops (0.0)
3. At least one Department of Management Research Seminar each year

# means there may be prerequisites for this course. Please view the course guide for more information.

A: FOR PROGRESSION FROM THE FIRST YEAR TO THE SECOND YEAR OF THE MRES IN MANAGEMENT (INFORMATION SYSTEMS AND INNOVATION)

Students must achieve marks of 65% in each first year core course in order to progress to year two of the MRes programme. Students who do not achieve this standard may progress to the second year having failed (but not a Bad Fail) or received a mark between 50-59, or 60-64 mark, in a maximum of half a unit of courses only as long as they obtain the permission of the MRes Programme Director. Where the student receives a fail mark (but not a Bad Fail mark) or a mark between 50-59, or 60-64 mark in a half unit in total, they will be required to resit this work at the end of the programme in order to progress on to the PhD unless they achieve the compensation conditions set out at 3.2.3 above.

**Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm**

**Programme Structure - MRes**

**Programme code:** TMRESPOLSC

**Department:** Government

**For students starting this programme of study in 2018/19**

Students complete and are examined in courses to the value of four full units.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

**Paper 1**

**Research Design**

GV5X1 Research Design in the Social Sciences (1.0)

**Methods courses**

Students take courses under A, B or C to the value of one unit:

- A) Quantitative research topics
  - MY552 Applied Regression Analysis (0.5)
  - MY557 Causal Inference for Observational and Experimental Studies (0.5)
  - GV4G1 Applied Quantitative Methods for Political Science (0.5)
  - GV4J6 Game Theory for Research (0.5) (not available 2018/19)

- B) Qualitative research topics
  - GV513 Qualitative Methods in the Study of Politics (0.5)
  - MY551 Introduction to Quantitative Analysis (0.5)
  - GV504 Research Methods in Political Theory (1.0)

If these courses have already been taken, other methods courses may be substituted with the approval of the Doctoral Programme Director.

**Paper 2**

**Field seminars**

Courses to the value of 1.0 unit from the following:

- GV517 Comparative Economic Policy: New Approaches and Issues in CPE (0.5) (not available 2018/19)
- GV5X2 Research Paper in Comparative Politics (1.0)
- GV5X3 Research Paper in European Politics and Policy (1.0)
- GV5X4 Research Paper in Global Politics (1.0)
- GV5X5 Research Paper in Political Science and Political Economy (1.0)
- GV5X6 Research Paper in Political Theory (1.0)
- GV5X7 Research Paper in Public Policy and Administration (1.0)

Any research methods course taught anywhere in the School, with the approval of the Course Convenor and the Doctoral Programme Director, or any course from the following if not already taken under Paper 2 above:

**Paper 2 options list**

**Paper 4**

**Research Prospectus**

**Programme Structure - PhD**

**Programme code:** RPPOLSCI

**Second, third, fourth and fifth year**

A) Research and write a dissertation

B) Participate in at least one Doctoral Workshop in the Government Department or elsewhere in the School in each year. For example:

- GV501 Doctoral Workshop: Political Theory (0.0)
- GV503 Political Philosophy Research Seminar (0.0)
- GV510 Ethnicity and Nationalism Research Workshop (0.0) (withdrawn 2018/19)
- GV514 Political Science and Political Economy Doctoral Workshop (0.0)
- GV515 Researching People, Politics and Organisations (0.0) (withdrawn 2018/19)
- GV555 Political Economy and Public Policy Workshop (0.0) (not available 2018/19)

C) Second year students have the option of taking the following course. Permission to attend is at the discretion of the course convenor:

EC540 Political Economy for Research Students (1.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

**Award of the MRes**

The award and classification of the MRes is consistent with the School's Scheme for the Award of a four-unit Taught Master's Degree.

**Conditions for progression to PhD**

1. Award of the MRes with at least a Merit, **AND**

2. Award of GV599 with at least a Merit, **AND**

   Successfully passing an oral hearing, consisting of a short presentation by the student and questions from the Research Prospectus Approval Committee.

   The Research Prospectus Approval Committee will look for: a clear explanation of the research question(s) and motivation(s); an account of relevant related scholarly work; a discussion of methods, approaches, or challenges; and a plan to conduct the work within four years. The Department will publish more detailed guidance on assessment criteria.

   The Research Prospectus Approval Committee normally consists of one supervisor or advisor of the student, at least one member of the Department's Doctoral Programme Committee, and an external assessor (usually the External Examiner for the MRes in Political Science). The Doctoral Programme Director chairs the Research Prospectus Approval Committee.

   The Research Prospectus Approval Committee will make one of four decisions: Unconditional Approval, Conditional Approval, Revise and Resubmit, and Fail. Students with Conditional Approval have to submit a revised Research Prospectus to their Supervisor, normally within four weeks. The Doctoral Programme Director decides whether the conditions have been met, in consultation with the supervisor. Students who are required to Revise and Resubmit are usually expected to resubmit within three months. Resubmitted work is assessed by at least two members of the Research Prospectus Approval Committee. The Committee has discretion to conduct a second oral hearing if this is deemed necessary for the upgrade decision. If a second hearing is conducted, at least two members of the committee take part. Students who fail to pass, either at the first oral hearing or after Revise and Resubmit, will not
be upgraded to PhD status. In exceptional circumstances, the Research Prospectus Approval Committee can recommend to the Research Degrees Subcommittee to upgrade students who do not meet progression condition 1 (Award of MRes degree with at least a Merit). Such a recommendation must be based on very strong performance in certain subjects that offset weaknesses in others and an exceptionally strong Research Prospectus. Personal circumstances affecting assessment performance may also be taken into account.

**Award of the PhD**
The PhD is awarded according to the rules of LSE.

---

**MRes/PhD in Quantitative Economic History**

**Programme Structure - MRes**

**Programme code:** TMRESQE

**Department:** Economic History

For students starting this programme of study in 2018/19

Classification scheme for the award of a taught master's degree (four units) https://info.lse.ac.uk/Staff/Divisions/Academic Registrars-Division/Teaching-Quality-Assurance-and-Review Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf

Exam sub-board local rules lse.ac.uk/resources/calendar/LocalRules/ExamSubboard.htm

MRes

Students complete and are examined in courses to the value of four full units. Students are also required to attend EC400 Introductory Course in Mathematics and Statistics. Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

**Introductory course**

EC400 Introductory Course in Mathematics and Statistics (0.0)

Papers 1 & 2 Courses to the value of 2.0 unit(s) from the following:

- EH404 India and the World Economy (0.5)
- EH408 International Migration, 1500-2000: from slavery to asylum (0.5) (not available 2018/19)
- EH413 African Economic Development in Historical Perspective (0.5) (not available 2018/19)
- EH421 Economic History of Colonialism (0.5)
- EH423 Japan and Korea as Developing Economies (0.5) (not available 2018/19)
- EH446 Economic Development of East and Southeast Asia (1.0)
- EH452 Latin American Development and Economic History (0.5)
- EH454 Human Health in History (1.0)
- EH463 The Long-Run Analysis of Firms and Industries (0.5) (not available 2018/19)
- EH464 The Historical Context of Business (0.5)
- EH476 The Economic History of War (1.0)
- EH482 Pre-Modern Paths of Growth: Europe and the Wider World, 11th to 19th Centuries (1.0)
- EH483 The Development and Integration of the World Economy in the 19th and 20th Centuries (1.0)
- EH486 Shipping and Sea Power in Asian Waters, c 1600-1860 (0.5)

**Paper 3**

One of the following: A
- EC411 Microeconomics (1.0) or
- EC413 Macroeconomics (1.0)

**Paper 4**

EH473 Research Paper in Quantitative Economic History (1.0)

**Paper 5**

EH474 Research Prospectus (0.0) B

---

**Footnotes**

A: If not already taken under Paper 3 of the MSc in Quantitative Economic History.

B: Not examined but subject to departmental approval.

# means there may be prerequisites for this course. Please view the course guide for more information.

**Award of the MRes Quantitative Economic History**

The award and classification of the MSc degree is consistent with the School's scheme for the award of a four-unit Taught Master's Degree. Students are required to achieve a pass mark of 50% in Papers 1, 2, 3 and 4 and submit paper 5 (EH474 Research Prospectus, not examined half unit). Where a candidate receives a Fail mark in any course, the penalty rules are set out in https://info.lse.ac.uk/Staff/Divisions/Academic Registrars-Division/Teaching-Quality-Assurance-and-Review Office/Assets/Documents/Calendar/SchemeTaughtMasters.pdf (see paragraph 3.2) apply. A Bad Fail (39% or lower) in any course of any unit value will result in an overall Fail for the degree.

**Progression from the MRes Quantitative Economic History to the PhD**

To progress from the MRes to the PhD programme, students need to achieve at least a Merit overall in the MRes and at least 65% in the (full unit) Research Paper in Quantitative Economic History (EH473). In addition, their Research Prospectus (EH474) needs to be approved by the departmental Prospectus Review Committee following a viva. If a student fulfils all other progression requirements but his/her Research Prospectus does not meet the expectations set out in the EH474 course description, the Prospectus Review Committee will grant an extension of up to three months to submit a revised version. If this revised version fails the required standards, the candidate will not be admitted to the PhD programme.

**Programme Structure - PhD**

**Programme code:** RPQEH

**Years 1-4**

**Non-examined course**

EH590 Thesis Workshop in Economic History (0.0)
MPhil/PhD Programme Regulations
MPhil/PhD in Accounting

Programme Code: RPAC
Department: Accounting

For students starting this programme of study in 2018/19

The Department of Accounting offers an MPhil/PhD Accounting programme with two tracks. The aim is to ensure the highest quality in the development of research students, in their research skills and to support their progression to the completion and defence of high quality theses in their respective specialisms.

Track 1 is devoted to the study of interrelationships between accounting, organisations and institutions. Research in this track examines how accounting practices are much more than a collection of routine techniques, but are shaped by their institutional contexts, have behavioural consequences and can represent different values. Efforts to design internal and external accounting practices are both a function of specific economic and political interests, but are also shaped by social and political aspirations. Research in this track includes a wide variety of accounting topics examined through this lens using primarily qualitative methods, such as studies in management accounting, analyses of accounting systems in the private and public sector, transformations of auditing and risk regulation regimes, historical studies of accounting, as well as broader contributions to social theory.

Track 2 primarily examines accounting and financial reporting issues from an economics perspective. Research in this track covers a wide range of accounting topics including design and choices between alternative accounting methods, the use of accounting numbers for internal reporting, performance measurement, incentive systems, and in economic decision making, assessment of financial reporting quality, the economic consequences of financial reporting and performance measurement, and the interactions between financial reporting, legal and economic institutions, and corporate governance. While much research in these areas takes the form of empirical archival analysis, theoretical analysis and field research can also be relevant in some cases. When making an application, MPhil/PhD students in Accounting will choose to follow either Track 1 or Track 2 as detailed below.

Track 1

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper   Course number, title (unit value)
Year 1   Training courses

Compulsory (not examined):
AC500   Accounting, Organisations and Society (0.0)

Compulsory (examined):
AC502   Foundations of Accounting, Organizations and Institutions (0.5)
Methodology Training: At least one examined methodology course to the value of one half unit including courses offered by the Department of Methodology, either in their first and/or second year of the programme.

Courses to the value of 1.5 units from the following normally to be taken in the first year (one course may need to be taken in Year 2): AC411   Accounting, Strategy and Control (0.5)

AC412   Accountability, Organisations and Risk Management (0.5)
AC415   Management Accounting for Decision Making (0.5)
AC444   Valuation and Security Analysis (0.5)
AC470   Accounting in the Global Economy (0.5)
AN473   Anthropological Approaches to Value (0.5) (not available 2018/19)
EH429   History of Economics: Ideas, Policy and Performativity (0.5)
EH463   The Long-Run Analysis of Firms and Industries (0.5) (not available 2018/19)
GV481   Political Science and Political Economy (0.5)
GV488   Law and Politics of Regulation (1.0)
GY420   Environmental Regulation: Implementing Policy (1.0)
GY423   Environment and Development (1.0)
GY455   Economic Appraisal and Valuation (0.5)
LL440   Corporate Law and Accounting (1.0)
LL4AH   Corporate Governance (0.5)
LL4BX   Corporate Governance - Advanced Topics (0.5) (not available 2018/19)
PP478   Political Science for Public Policy (1.0)
SO425   Regulation, Risk and Economic Life (1.0)
SO430   Economic Sociology (0.5)
Any other graduate-level course available in the School with permission from the PhD Programme Director.

Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs) and Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
AC501   Empirical Financial Accounting and Capital Markets (1.0)
Other research workshops and seminars held across the Department, relevant seminars in related areas elsewhere in the School, and appropriate international workshops and colloquia.

Year 2

Training courses

Compulsory (not examined):
AC500   Accounting, Organisations and Society (0.0)

Compulsory (examined):
Students who have completed less than 2.5 examined graduate-level course units in Year 1 will take additional courses, so that at the end of Year 2 all students have completed at least 2.5 examined graduate-level course units.

Optional:
As needed students may take course(s) or research training session(s) offered by the Department of Methodology. Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs) and Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
Other research workshops and seminars held across the Department, relevant seminars in related areas elsewhere in the School, and appropriate international workshops and colloquia.

Year 3

Training courses

Compulsory (not examined):
AC500   Accounting, Organisations and Society (0.0)

Optional:
As needed students may take course(s) or research training session(s) offered by the Department of Methodology. Transferable skills courses

Compulsory (not examined):
Department of Accounting Research Forums (ARFs) and Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):
Other research workshops and seminars held across the...
Department, relevant seminars in related areas offered elsewhere in the School, and appropriate international workshops and colloquia.

**Year 4**

**Training courses**

**Compulsory (not examined):**

AC500   Accounting, Organisations and Society (0.0)

Optional:

As needed students may take course(s) or research training session(s) offered by the Department of Methodology. Transferable skills courses

**Compulsory (not examined):**

Department of Accounting Research Forums (ARFs) and Accounting, Organisations and Institutions Research Seminars and Workshops

Optional (not examined):

Other research workshops and seminars held across the Department, relevant seminars in related areas offered elsewhere in the School, and appropriate international workshops and colloquia.

**Track 2**

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

---

**Paper **

**Course number, title (unit value)**

**Year 1**

**Training courses**

**Compulsory introductory course (examined):**

EC400  Introductory Course in Mathematics and Statistics (0.0)

Optional (not examined):

AC501  Empirical Financial Accounting and Capital Markets (1.0)

**Compulsory (examined):**

Courses to the value of 1.5 course units, normally taken from the following list in the first year of study (exceptionally one course may need to be taken in the second year of study):

AC411 Accounting, Strategy and Control (0.5)

AC415 Management Accounting for Decision Making (0.5)

AC444 Valuation and Security Analysis (0.5)

EC402 Econometrics (1.0)

EC476 Contracts and Organisations (1.0)

FM436 Financial Economics (1.0)

FM437 Financial Econometrics (1.0)

FM481 Financial Econometrics for Research Students (1.0)

FM502 Corporate Finance for Research Students (1.0)

FM503 Asset Pricing for Research Students (1.0)

LL440 Corporate Law and Accounting (1.0)

MY457 Causal Inference for Observational and Experimental Studies (0.5)

Any other graduate-level course available in the School with permission from the PhD Programme Director.

Transferable skills courses

**Compulsory (not examined):**

Department of Accounting Research Forums (ARFs) and Empirical Financial Accounting Research Seminars and Workshops

Optional (not examined):

AC500   Accounting, Organisations and Society (0.0)

Other research workshops and seminars held across the Department, relevant seminars in related areas elsewhere in the School, and appropriate international workshops and colloquia.

**Year 2**

**Training courses**

**Compulsory (examined):**

AC501  Empirical Financial Accounting and Capital Markets (1.0)

Students who have completed less than 1.5 examined graduate-level course units in Year 1 will take additional courses, so that at the end of Year 2 all students have completed at least 2.5 examined graduate-level course units.

Optional:

As needed students may take course(s) or research training session(s) offered by the Department of Methodology. Transferable skills courses

**Compulsory (not examined):**

Department of Accounting Research Forums (ARFs) and Empirical Financial Accounting Research Seminars and Workshops

Optional (not examined):

Other research workshops and seminars held across the Department, relevant seminars in related areas elsewhere in the School, and appropriate international workshops and colloquia.

**Year 3**

**Training courses**

**Compulsory (not examined):**

AC501  Empirical Financial Accounting and Capital Markets (1.0)

Optional:

As needed students may take course(s) or research training session(s) offered by the Department of Methodology. Transferable skills courses

**Compulsory (not examined):**

Department of Accounting Research Forums (ARFs) and Empirical Financial Accounting Research Seminars and Workshops

Optional (not examined):

Other research workshops and seminars held across the Department, relevant seminars in related areas offered elsewhere in the School, and appropriate international workshops and colloquia.

**Year 4**

**Training courses**

**Compulsory (not examined):**

AC501  Empirical Financial Accounting and Capital Markets (1.0)

Optional:

As needed students may take course(s) or research training session(s) offered by the Department of Methodology. Transferable skills courses

**Compulsory (not examined):**

Department of Accounting Research Forums (ARFs) and Empirical Financial Accounting Research Seminars and Workshops

Optional (not examined):

Other research workshops and seminars held across the Department, relevant seminars in related areas offered elsewhere in the School, and appropriate international workshops and colloquia.

**Footnotes**

A: EC400 is an introductory course starting in September. All students are normally required to attend EC400, the September Introductory Course in Mathematics and Statistics, before commencing the Track 2 MPhil/PhD Programme in Accounting. # means there may be prerequisites for this course. Please view the course guide for more information.

**Progression and upgrade requirements for Tracks 1 and 2:**

**Progression requirements:** The departmental MPhil/PhD Assessment Review Committee will reach a decision on progression for each student at the end of Years 1, 2 and 3, and progression from the introductory course (for students on Track 2). All MPhil/PhD Accounting students are normally required to achieve a mark of at least 65% in each of the 2.5 examined graduate-level course units required for progression on both tracks of the programme. The Committee may, in exceptional circumstances, condone a marginal fail if a student has demonstrated strength in other examined courses. Students failing an examined course can, at the discretion of the Committee, and taking into account overall performance, re-sit that course on one occasion only. The Committee may also decide to substitute an alternative assessment to redress any mark deficiencies and has the discretion to set additional requirements for progression where appropriate.

Students are required to make a seminar presentation in each year of their programme. These are formatively assessed. Performance
at the seminar presentations will be taken into account by the
MPhil/PhD Assessment Review Committee when reaching
decisions on progression.
Upgrade: Students will initially be registered for the MPhil. Upgrade
to PhD registration will normally happen at the end of Year Two. In
order to progress to PhD registration, students must normally have
met the progression requirements above (a mark of at least 65% in
each of the required 2.5 examined graduate-level course units), and
have made satisfactory progress in their research, which normally
is understood to mean a solid draft of one complete chapter, plus
a detailed outline for the rest of the dissertation with abstracts
for each proposed chapter. Materials submitted for upgrade
must include a clear framework for the research and a timetable
for completion. Students will be provided with an opportunity to
defend their submitted written materials orally. The departmental
MPhil/PhD Assessment Review Committee will review the
progress of each research student, and recommendations for
upgrading to PhD will be made on a case-by-case basis.
Award of the PhD in Accounting: Award of the PhD is contingent on the
completion and defence of an original research thesis, in
accordance with LSE regulations.
Teaching Experience
Students in Tracks 1 and 2 are required to gain teaching experience
with appropriate training in years two and three, and they are
encouraged to take presentation skills and other training offered by the
Teaching and Learning Centre.

MPhil/PhD in Cities Programme
Programme Code: RPSCP
Department: Sociology
For students starting this programme of study in 2018/19
In addition to progressing with their research, students are
expected to take the listed training and transferrable skills courses. Students may take courses in addition to those listed, and should
discuss this with their supervisor.

Paper 1 Course number, title (unit value)
Year 1
Training courses
Compulsory (examined):
SO500 Research Class for MPhil Students (1.0)
Students may also be asked to attend and pass the assessment
for up to one further course unit (or two half units) chosen with their supervisor on the basis of an assessment of their research
training needs.
Optional (examined):
MY500 Fundamentals of Social Science Research Design (0.5)
MY521 Qualitative Research Methods (0.5)
MY526 Doing Ethnography (0.5) (not available 2018/19)
Selection of additional courses, with agreement of supervisor,
including:
Other courses from Sociology master's programmes
Specialist research courses:
SO491 Quantitative Social Research Methods (0.5)
SO492 Qualitative Social Research Methods (0.5)
SO511 Research Seminar in Political Sociology (0.0)
SO521 Research Seminar on Cities and Space (0.0)
Specialist course on urban theory and urban life (for auditing):
SO451 Cities by Design (0.5)
Transferrable skills courses
Optional (not examined):
MY591 Computing Packages for Applied Analysis (0.0)
MY592 Workshop in Information Literacy: finding, managing and
organising published research and data (0.0)

Year 2
Training courses
Optional (not examined):
SO501 Data Analysis Workshop (0.0) A

Year 3
Training courses
Compulsory (not examined):
SO505 Becoming a Professional Sociologist (0.0)

Footnotes
A: SO501 is strongly recommended. # means there may be prerequisites for this course. Please view the
course guide for more information.

Progression and upgrade requirements
In the Summer term of each year the progress of each student registered
in the Department is discussed at the MPhil/PhD Board, which is a general meeting of all research student supervisors.
This Board decides whether to recommend to the School that
students be permitted to proceed to the next year of study. If
progress is unsatisfactory, a course of action to assist students to
reach performance standards deemed appropriate by supervisors
may be required, or a recommendation may be made that the
student not be allowed to re-register.
By the end of Year 2, students are expected to have completed
their fieldwork, and to be ready to submit two draft chapters for
upgrade. All full-time research students are expected to have made
the transition from the MPhil to PhD (upgrading) within two years of
first registration and to have submitted their PhD thesis within
four years. Part-time students are expected to be upgraded to PhD
by the end of their third year, and to submit their thesis within six
years.
The decision to upgrade from MPhil to PhD is taken by a panel
consisting of two academics from the Department or the School,
with the supervisor(s) in attendance and available to be consulted
by the panel. For upgrade, students submit three draft chapters of
their thesis, plus thesis abstract and outline schedule for
completion. This material is then assessed by viva voce and a
written report is made by the panel.
Students should aim to have a complete first draft of their thesis in
years three to four and allow three to six months for revision and
submission.

MPhil/PhD in Data, Networks and Society
Programme Code: RPDNS
Department: Media & Communications
For students starting this programme of study in 2018/19
These regulations apply to students entering in or after the
2017/18 academic year.
In addition to progressing with their research, students are
expected to take the listed training and transferrable skills courses.
Students may take courses in addition to those listed, and should
discuss this with their supervisor.

Paper 1 Course number, title (unit value)
Year 1
Training courses
Compulsory (examined):
Any two of the following:
MC402 The Audience in Media and Communications (0.5)
MC408 Theories and Concepts in Media and Communications I (Key concepts and interdisciplinary approaches) (0.5)
MC409 Media, Technology and Everyday Life (0.5)
MC413 Information, Communication and Knowledge Systems (0.5)
MC418 Theories and Concepts in Media and Communications II (Processes of communication in modern life) (0.5)
MC424 Media and Communication Governance (0.5)
MC425 Interpersonal Mediated Communication (0.5)
MC430 Data in Communication and Society (0.5)
MC433 Technology and Justice (0.5)
MC434 Digital Platforms and Media Infrastructures (0.5)

Plus:
MC5M2 Advanced Methods of Research in Media &
MPhil/PhD in Demography/Population Studies

Programme Code: RPDEPS
Department: Social Policy
For students starting this programme of study in 2018/19

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper | Course number, title (unit value)
--- | ---

**Year 1**

Training courses
Optional (not examined):
If not already taken previously:
MY400 Fundamentals of Social Science Research Design (0.5)
MY421 Qualitative Research Methods (0.5)
MY451 Introduction to Quantitative Analysis (0.5)
SA451 Social Policy Research (1.0)

Students will discuss with their supervisors any other methodological training that may be relevant for the successful completion of the MPhil/PhD programme.

Transferable skills courses

Compulsory (not examined):
SA550 Research Student Seminar (0.0)

Optional (not examined):
Relevant courses provided by the Library, Teaching and Learning Centre and Methodology Institute.

**Year 2**

Training courses
Optional (not examined):
MY452 Applied Regression Analysis (0.5)
MY455 Multivariate Analysis and Measurement (0.5)

Transferable skills courses

Compulsory (not examined):
SA550 Research Student Seminar (0.0)

**Year 3**

Transferable skills courses

Optional (not examined):
SA550 Research Student Seminar (0.0)

**Year 4**

Transferable skills courses

Optional (not examined):
SA550 Research Student Seminar (0.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

Progression and Upgrade requirements:
Each student is required to undertake Major Review in the summer term of their first year (second year for part-time students). For Major Review they must submit a 10,000 word document with a detailed thesis proposal, their research question, a literature review, a description of their methodology, their plans for data collection and a timetable through to completion. They are interviewed on this document by senior staff who make the decision on upgrading.

Each year post-Major Review, every student is expected to submit a 1,000 to 2,000 word progress report, approved by supervisors, to the Research Students’ Programme Director.

Each pre-Major Review student is expected to make a presentation on their proposed research to the SA550 seminar prior to the submission of their major review document and to address issues raised by the Research Students’ Programme Director(s).
### MPhil/PhD in Development Studies

**Programme Code:** RPDEV  
**Department:** International Development  
**For students starting this programme of study in 2018/19**

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

<table>
<thead>
<tr>
<th>Paper Course number, title (unit value)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Year 1</strong> Training courses</td>
</tr>
</tbody>
</table>
| **Compulsory (examined):**  
All students will be required to take either a full or two half unit courses in research methods in the School's Department of Methodology. The precise courses taken will be decided in consultation with the student’s primary supervisor.  
**Compulsory (not examined):**  
DV500 Research Seminar in Development Studies (0.0)  
Students who have not received their MSc Development Studies from the LSE will be required to attend the lectures for the following core course:  
DV400 Development: History, Theory and Policy (1.0)  
All first year students are required to attend a special seminar for research students.  
**Optional (not examined):**  
Further appropriate graduate level courses in the Department of International Development and agreed with supervisor.  
**Optional (not examined):**  
MPhil/PhD students will find it advantageous to attend the weekly Visiting Lecture Series in Development Studies in Michaelmas Term.  
**By Year 4** Research Students are expected to have completed their research.  
# means there may be prerequisites for this course. Please view the course guide for more information.  

**Progression and Upgrade requirements**

Students will be required to achieve a minimum mark of 65% in the Methodology courses. Failure to do so may mean that you are unable to progress onto the PhD programme and will remain at MPhil until you have either completed a further methodology course or achieved an improved grade.  
All students will be interviewed during the Michaelmas Term of their second year by the Graduate Review Committee. Continued registration for a second year will be conditional on the work presented being of a satisfactory standard and if satisfactory, will be upgraded from MPhil to PhD. By the end of Summer Term of the second year students should have finished all fieldwork (where applicable). By the end of the third year students should be able to complete their dissertation.

### MPhil/PhD in Economic Geography

**Programme Code:** RPECYG  
**Department:** Geography & Environment  
**For students starting this programme of study in 2018/19**

In addition to progressing with their research, students are expected to take the courses listed below. Students may take courses other than those listed but must discuss this with their supervisor.

<table>
<thead>
<tr>
<th>Paper Course number, title (unit value)</th>
</tr>
</thead>
<tbody>
<tr>

</table>
| **Compulsory (not examined):**  
GY502 Staff / Research Students Seminars (0.0)  
**Compulsory (examined):**  
1. Relevant subject-specific training courses to the value of 1.0 unit:  
GY400 The Economics of Urbanisation (0.5)  
GY404 Local Economic Development: Jobs, Poverty, Policy (0.5)  
GY409 Globalization and Regional Development (0.5)  
GY410 Economics of Local and Regional Development (0.5)  
GY413 Regional Development and Policy (0.5)  
GY447 The Economics of Regional and Urban Planning (0.5)  
GY457 Applied Urban and Regional Economics (1.0)  
EC411 Microeconomics (1.0)  
Other relevant subject-specific training courses can be chosen subject to supervisor and course manager approval.  
Students who select EC411 are also required to take the following introductory course:  
EC400 Introductory Course in Mathematics and Statistics (0.0)  
**Note:** Students who join the PhD programme after having completed either MSc in Local Economic Development or MSc in Real Estate Economics and Finance cannot retake the same courses or be waived the one unit of subject-specific training.  
2. Relevant advanced research methods courses to the value of 1.0 unit:  
GY428 Applied Quantitative Methods (0.5)  
GY460 Techniques of Spatial Economic Analysis (0.5)  
MY500 Fundamentals of Social Science Research Design (0.5)  
MY521 Qualitative Research Methods (0.5)  
MY526 Doing Ethnography (0.5) (not available 2018/19)  
MY527 Qualitative Research With Non-Traditional Data (0.5) (not available 2018/19)  
MY556 Survey Methodology (0.5)  
MY557 Causal Inference for Observational and Experimental Studies (0.5)  
MY559 Special Topics in Quantitative Analysis: Quantitative Text Analysis (0.5)  
Other relevant advanced research methods courses can be chosen subject to supervisor and course manager approval.  
**Transferable skills courses**  
**Compulsory (not examined):**  
GY500 Research Project Seminar (0.0)  
MY592 Workshop in Information Literacy: finding, managing and organising published research and data (0.0)

# means there may be prerequisites for this course. Please view the course guide for more information.  

**Progression and upgrade requirements:**

Once on the MPhil/PhD programme students will go through a First Year Progress Review, taking place in the Summer Term of the first year.  
For the First Year Progress Review, students must submit a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and motivation for the research, aims and objectives/
research questions, contribution to knowledge, summary of methods to be used, and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year. Normally, there will be a progress review meeting between the student and the supervisors (main supervisor and review supervisor) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress. There is provision for a second Supplementary Review in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year. Progression to the second year (third year of the 1+3 programme) is also dependent on students having passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops.

All research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. The exact timing depends on the student’s progress. Students are required to submit a formal written upgrade report consisting of an extensive revised research proposal, two substantive draft papers/chapters, of which one can be a literature review, and a detailed plan for completion. Students are asked to discuss their research paper/thesis outline during an Upgrade Meeting in front of an Upgrading Committee normally formed by main supervisor, review supervisor and a third member of staff with relevant expertise. The material is evaluated by the Upgrading Committee, who will recommend transfer to PhD registration if the work is judged to be of sufficient quality and quantity. The upgrade is also dependent on students having completed all required training courses and having made a satisfactory research presentation in their doctoral presentation workshop.

In addition to these formal arrangements, each year during the Summer Term and throughout the course of their studies, all PhD students and their supervisors have to complete a yearly Progress Report Form, detailing progress made, problems arising and plan/timeline for completion. The forms are sent to the Director of Postgraduate Studies for approval before students are able to re-register for the following session. If perceived lack of progress is identified, it can trigger a more formal annual review of progress in which the student is asked to produce specific written documents to be evaluated by a review panel.

MPhil/PhD in Economic History

Programme Code: EH60

Department: Economic History

For students starting this programme of study in 2018/19

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper Course number, title (unit value)

Year 1

Training courses

Compulsory (examined):

<table>
<thead>
<tr>
<th>Course number, title (unit value)</th>
</tr>
</thead>
<tbody>
<tr>
<td>EH401 Historical Analysis of Economic Change (0.5)</td>
</tr>
<tr>
<td>EH402 Research Design and Quantitative Methods in Economic History (0.5)</td>
</tr>
<tr>
<td>EH520 Approaches to Economic and Social History (0.0)</td>
</tr>
</tbody>
</table>

And, where appropriate, a pre-sessional statistics course.

Optional (not examined):

Supervisors may require students in their first or subsequent years of study to take other relevant economic history courses, methodological courses provided by the Department of Methodology or the Institute of Historical Research or skills training courses as required for their thesis topic.

Transferrable skills courses

Compulsory (not examined):

<table>
<thead>
<tr>
<th>Course number, title (unit value)</th>
</tr>
</thead>
<tbody>
<tr>
<td>EH590 Thesis Workshop in Economic History (0.0)</td>
</tr>
</tbody>

<thead>
<tr>
<th>Course number, title (unit value)</th>
</tr>
</thead>
<tbody>
<tr>
<td>EH590 Thesis Workshop in Economic History (0.0)</td>
</tr>
</tbody>
</table>

Progression and upgrade requirements

During the Summer Term students are required to submit at least one draft thesis chapter and a 3-5 page thesis outline to the department's Graduate Review Committee. Students taking one or more MSc examination may, with the support of their supervisor, apply to defer their submission of work to no later than the start of the 7th week of the Summer Term. The Committee will interview all students during the Summer Term, and re-registration for a second year will be conditional on the work presented being of a satisfactory standard. All students are expected to gain broad knowledge of the subject from graduate level course work in their first year and active participation in workshops, seminars and conferences to complement the expertise gained from intense thesis research.

By the Summer Term of the second year the Graduate Review Committee will normally expect to see about half the thesis in draft. The Committee will interview students, and if the submitted work is of an acceptable standard, students will be upgraded from MPhil to PhD. Students may defer the upgrade decision until their third year for fieldwork or other reasons, but only with the support of their supervisor.

MPhil/PhD in Environmental Economics

Programme Code: RPENEC

Department: Geography & Environment

For students starting this programme of study in 2018/19

In addition to progressing with their research, students are expected to take the courses listed below to the value of 2 examined units. Students may take courses other than those listed, but must discuss this with their supervisor and seek the agreement of the Programme Director.

Paper Course number, title (unit value)

Year 1

Training courses

Compulsory (not examined):

<table>
<thead>
<tr>
<th>Course number, title (unit value)</th>
</tr>
</thead>
<tbody>
<tr>
<td>GY502 Staff / Research Students Seminars (0.0)</td>
</tr>
</tbody>
</table>

Compulsory (examined):

3 units in total:

1. EC411 Microeconomics (1.0)

Students must also take the following introductory course:

EC400 Introductory Course in Mathematics and Statistics (0.0)

2. GY426 Environmental and Resource Economics (1.0)

Note: students who have graduated from the MSc in Environmental Economics and Climate Change cannot repeat courses taken as part of their master’s programme and therefore cannot take GY426. These students may take an alternative course but must discuss this with their supervisor.

3. Advanced research methods courses (s) to the value of 1.0 unit.

Typical course choices include:

GY428 Applied Quantitative Methods (0.5)A

GY526 Advanced Methods in Environmental and Resource
Students may take courses other than those listed, but must discuss this with their supervisor and seek the agreement of the Programme Director.

Transferable skills courses
Compulsory (not examined):
GY500 Research Project Seminar (0.0) and MY592 Workshop in Information Literacy: finding, managing and organising published research and data (0.0)

Year 2
Training courses
Compulsory (not examined):
GY502 Staff / Research Students Seminars (0.0)
Transferable skills courses
Compulsory (not examined):
GY500 Research Project Seminar (0.0)

Year 3
Training courses
Optional (not examined):
GY502 Staff / Research Students Seminars (0.0)
Transferable skills courses
Optional (not examined):
GY500 Research Project Seminar (0.0)

Footnotes
A: Students who have graduated from the MSc in Environmental Economics and Climate Change cannot repeat courses taken as part of their master’s programme and therefore cannot take GY428 from the list above.
# means there may be prerequisites for this course. Please view the course guide for more information.

Progression and Upgrade requirements for Routes 1 and 2
Once on the MPhil/PhD programme, students will go through a First Year Progress Review taking place in the Summer Term of their first year.
For the First Year Progress Review, students must submit a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and motivation for the research; aims and objectives/research questions; contribution to knowledge; summary of methods to be used; and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year.
There will be a progress review meeting between the student and the supervisor(s) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress. There is provision for a second Supplementary Review in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year. Importantly, progression is also dependent on students having passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops.
All research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. The exact timing depends on the student's progress. Students are required to submit a formal written upgrade report consisting of an extensive revised research proposal, two substantive draft papers/chapters, of which one can be a literature review, and a detailed plan for completion. The material is evaluated by an upgrading committee that will recommend transferal to PhD registration if the work is judged to be of sufficient quality and quantity.
The upgrading committee is normally formed by the student’s supervisor(s), and a third member of staff with relevant expertise.
The upgrade is also dependent on students having completed all required training courses and having made a satisfactory research presentation in their doctoral presentation workshop.
In addition to these formal arrangements, each year during the Summer Term and throughout the course of their studies, all PhD students and their supervisors have to complete a yearly Progress Report Form, detailing progress made, problems arising and plan/timeline for completion. The forms are sent to the Director of Post-Graduate Studies for approval before students are able to re-register for the following session. If perceived lack of progress is identified, it can trigger a more formal annual review of progress in which the student is asked to produce specific written documents to be evaluated by a review panel.

MPhil/PhD in Environmental Policy and Development
Programme Code: RPENDP
Department: Geography & Environment
For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper Course number, title (unit value)
Year 1
Training courses
Compulsory (not examined):
GY502 Staff / Research Students Seminars (0.0)
Relevant subject-specific training to the value of one unit.
Compulsory (examined):
GY420 Environmental Regulation: Implementing Policy (1.0)
or
GY423 Environment and Development (1.0)
NOTE: Students who join the PhD programme after having completed either MSc Environmental Policy and Regulation or MSc Environment & Development cannot retake the same course or be waived the one unit of subject-specific training. They should instead discuss with their supervisor a relevant subject-specific training course available in Geography and Environment or elsewhere in the School. This selection is subject to supervisor and programme director approval.
Compulsory (examined):
Relevant advanced research methods course(s) to the value of 1.0 unit from the following:
MY500 Fundamentals of Social Science Research Design (0.5)
MY521 Qualitative Research Methods (0.5)
MY526 Doing Ethnography (0.5) (not available 2018/19)
MY527 Qualitative Research With Non-Traditional Data (0.5) (not available 2018/19)
MY529 Special Topics in Qualitative Research: Introspection-based Methods in Social Research (0.5) (withdrawn 2018/19)
Transferable skills courses
Compulsory (not examined):
GY500 Research Project Seminar (0.0) and MY592 Workshop in Information Literacy: finding, managing and organising published research and data (0.0)
Progression and Upgrade requirements

Once on the MPhil/PhD programme, students will go through a First Year Progress Review taking place in the Summer Term of their first year. For the First Year Progress Review, students must submit a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and justification for the research; aims and objectives/research questions; contribution to knowledge; summary of methods to be used; and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year. Normally, there will be a progress review meeting between the student and the supervisors (main supervisor and review supervisor) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress. There is provision for a second Supplementary Review in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year. Progression to the second year is also dependent on students having passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops.

All research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. The exact timing depends on the student’s progress. Students are required to submit a formal written upgrade report consisting of an extensive revised research proposal, two substantive draft papers/chapters, of which one can be a literature review, and a detailed plan for completion. The material is evaluated by an upgrade committee that will recommend transfer to PhD registration if the work is judged to be of sufficient quality and quantity. The upgrading committee is normally formed by the student’s main supervisor, review supervisor and a third member of staff with relevant expertise. The committee will recommend transfer to PhD registration if the work is judged to be of sufficient quality and quantity. The upgrade is also dependent on students having completed all required training courses and having made a satisfactory research presentation in their doctoral presentation workshop.

In addition to these formal arrangements, each year during the Summer Term and throughout the course of their studies, all PhD students and their supervisors have to complete a yearly Progress Report Form, detailing progress made, problems arising and plan/timeline for completion. The forms are sent to the Director of Post-Graduate Studies Director for approval before students are able to re-register for the following session. If perceived lack of progress is identified, it can trigger a more formal annual review of progress in which the student is asked to produce specific written documents to be evaluated by a review panel.

MPhil/PhD in European Studies

Programme Code: RPEU
Department: European Institute
For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed research training and transferable skills courses. Students may take courses in addition to those listed and should discuss this with their supervisor. For a complete list of courses please refer to the Handbook for Research Degree Students.

Paper Course number, title (unit value)
Year 1
Training courses
Compulsory (not examined):
EU550 Research Workshop in European Studies (0.0)
Optional (examined):
EU555 Political Economy and Public Policy Workshop (0.0) (not available 2018/19)
Transferable skills courses
Optional (not examined):
EU455 Concepts in Political Economy (0.5)
Relevant courses provided by the Library, Teaching and Learning Centre and Methodology Institute.

Year 2
Training courses
Compulsory (not examined):
EU550 Research Workshop in European Studies (0.0)
Optional (not examined):
If not taken in Year 2, the following relevant research seminar:
EU555 Political Economy and Public Policy Workshop (0.0) (not available 2018/19)
GY555 Political Economy and Public Policy Workshop (0.0) (not available 2018/19)
Transferable skills courses
Optional (not examined):
EU455 Concepts in Political Economy (0.5)

Year 3
Training courses
Compulsory (not examined):
EU550 Research Workshop in European Studies (0.0)
Optional (not examined):
EU555 Political Economy and Public Policy Workshop (0.0) (not available 2018/19)

Year 4
Transferable skills courses
Optional (not examined):
EU550 Research Workshop in European Studies (0.0)
# means there may be prerequisites for this course. Please view the course guide for more information.
Upgrading to PhD/Targets for Progress

Year 1 - For a standard thesis: a research proposal (approximately 2,500 words) and abstract of the whole thesis (one page); a sample chapter (approximately 8,000 words), a chapter synopsis, and a timetable for completion. For a thesis as a series of publishable papers: a research proposal (approximately 2,500 words) and an abstract covering the three prospective papers; a full draft of the introduction or a full draft of one of the papers (approximately 8,000 words); and a timetable for completion.

Year 2 - For a standard thesis: at least two further substantive chapters (of approximately 5,000-7,000 words each). For a thesis as a series of publishable papers: at least one fully written paper (approximately 10,000 words); and outlines of the other two papers (approximately 2,000 words).

Year 3 - For a standard thesis: a full draft of all core chapters and agreed timetable for completion. For a thesis as a series of publishable papers: full drafts of all three papers and agreed timetable for completion of the thesis.

MPhil/PhD in Gender

Programme Code: RPGE
Department: Gender Studies

For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper Course number, title (unit value)

Year 1
Training courses
Compulsory (examined):
Aims and Methods (first year programme)

Compulsory (not examined):
Lectures only:
GI424 Gender Theories in the Modern World: An Interdisciplinary Approach (0.5)

Lectures, seminars and workshops:
GI402 Gender, Knowledge and Research Practice (0.5)

Optional (not examined):
GI499 Dissertation (1.0)
Quantitative and/or qualitative training courses provided in the Department of Methodology, as agreed with supervisor.

Audit any course from the Department of Gender Studies menu:
GI403 Gender and Media Representation (0.5)
GI407 Globalisation, Gender and Development (1.0)
GI409 Gender, Globalisation and Development: An Introduction (0.5)
GI410 Screening the Present: contemporary cinema and cultural critique (0.5) (not available 2018/19)
GI411 Gender, Postcoloniality, Development: Critical Perspectives and New Directions (0.5) (not available 2018/19)
GI413 Gender and Militarisation (0.5)
GI499 Dissertation (1.0)
GV4H3 Feminist Political Theory (0.5)

Audit of relevant courses on other master's programmes with agreement of the supervisor.

Transferable skills courses
Compulsory (not examined):
GI500 Doctoral Workshop: Department of Gender Studies (0.0)

Year 2
Training courses
Optional (students should agree with their supervisor whether the courses taken will also be examined):
Quantitative and/or qualitative training courses provided in the Department of Methodology as agreed with supervisor.

Audit any course from the Department of Gender Studies menu as above.
Audit of relevant courses on other master's programmes with agreement of the supervisor.

Transferable skills courses
Compulsory (not examined):
GI500 Doctoral Workshop: Department of Gender Studies (0.0)

Year 3
Training courses
Optional (students should agree with their supervisor whether the courses taken will also be examined):
Quantitative and/or qualitative training courses provided in the Department of Methodology and/or Department of Gender Studies as agreed with supervisor.

Audit any course from the Department of Gender Studies menu as above.
Audit of relevant courses on other master's programmes with agreement of the supervisor.

Transferable skills courses
Compulsory (not examined):
GI500 Doctoral Workshop: Department of Gender Studies (0.0)

Year 4
Training courses
Optional (examined/not examined):
Quantitative and/or qualitative training courses provided in the Department of Methodology, as agreed with supervisor.

Audit any course from the Department of Gender Studies menu as above.
Audit of relevant courses on other master's programmes with agreement of the supervisor.

Transferable skills courses
Compulsory (not examined):
GI500 Doctoral Workshop: Department of Gender Studies (0.0)

Progression and upgrade requirements
In the first year students will go through their Aims and Methods examination. This is held in the summer term and materials should be submitted by the end of the second week of summer term. Students submit a draft chapter and a research proposal for consideration by a panel of their supervisor and advisor (and occasional one other person with appropriate expertise). The research proposal follows a specific template and includes research objectives, the methodology and short research rationale. The nature of the chapter should be agreed with the supervisor. Both parts of the assessment focus on the student's own research and draw on material and debates engaged in GI424 and GI402 where relevant. Students must pass Aims and Methods before progressing to their second year. If unsuccessful at first sit, students have the opportunity to retake Aims and Methods once more at the end of September.

Research students make the transition from MPhil to PhD (Upgrading) by the end of the MT of their second year. In order to upgrade, students must have passed their Aims and Methods. For Upgrade students submit a detailed outline for their thesis (including the anticipated division into chapters), two substantive draft chapters (usually a literature review, methodology or introductory chapter, in discussion with supervisor), and a timetable for completion. The Upgrade is examined in a viva and the committee consists of the main and advisory supervisors and one other person who is not familiar with the student's work. Part-time student submissions are calculated pro-rata for both Aims and Methods and Upgrading.

Expectations for successful Aims and Methods and Upgrading:
• Satisfactory completion of materials for submission and appropriate academic presentation of the same
• Completion of compulsory courses, attendance and contribution to Doctoral Workshop
• Development of appropriate LSE courses in discussion with
MPhil/PhD in Health Policy and Health Economics

Programme Code: RPHPHE
Department: Health Policy

For students starting this programme of study in 2018/19

In addition to progressing with their research, students are expected to take training, research methodology, and transferable skills courses. 

Paper Course number, title (unit value)

Year 1
Training courses
Compulsory (examined):
HP500 Advanced Health Policy and Health Economics (1.0)

Optional (examined):

Students are expected to take two relevant half-unit courses, as agreed with their Supervisors. The options include those listed below:

- Graduate-level courses offered by the Department of Health Policy
- Or

  - MY405 Research Methods for Evaluation in Health, Development and Public Policy (0.5)
  - MY500 Fundamentals of Social Science Research Design (0.5)
  - MY521 Qualitative Research Methods (0.5)
  - MY551 Introduction to Quantitative Analysis (0.5)
  - MY552 Applied Regression Analysis (0.5)
  - MY565 Intermediate Quantitative Analysis (0.5)
  - ST501 Multilevel Modelling (0.5)
  - ST542 Longitudinal Data Analysis (0.5)

- Or

  - Where regulations permit and subject to Supervisor and Doctoral Programme Director approval, students may take courses instead of those listed above.

Year 2
Training courses
Compulsory (examined):
HP500 Advanced Health Policy and Health Economics (1.0)

Optional (examined/not examined):
Audit of relevant courses from those offered in the Department of Health Policy, as agreed with Supervisors.

Audit of relevant courses on other MSc programmes, where regulations permit and as agreed with Supervisors.

Year 3
Transferable skills courses
Optional (not examined):

- Attendance and participation at Research Seminars held across the Department, details to be made available to student by email and on website.
- Departmental and research seminar series
- Training offered by the PhD Academy, Teaching and Learning Centre, and LSE LIFE.

Year 4
Training courses
Compulsory (examined):
HP500 Advanced Health Policy and Health Economics (1.0)

Optional (examined/not examined):
Audit of relevant courses from those offered in the Department of Health Policy, as agreed with Supervisors.

Audit of relevant courses on other MSc programmes, where regulations permit and as agreed with Supervisors.

Transferable skills courses
Optional (not examined):

Department and research seminar series

Training offered by the PhD Academy, Teaching and Learning Centre, and LSE LIFE.

# means there may be prerequisites for this course. Please view the course guide for more information.

The Department encourages students throughout their PhD programme to attend, and where appropriate, present at conferences in relation to their particular research topic.

Progression rules

Students are initially registered as MPhil, and will be able to upgrade to PhD registration following their first year of full-time enrolment, subject to successful completion of the Major Review. Progress is assessed by the student's Supervisors in consultation with the Doctoral Programme Director.

In the ST of every academic year, the progress of each student registered in the Department is discussed with the Supervisory Panel. The Panel decides whether to recommend to the School that students be permitted to proceed to the next year of study.

If progress is unsatisfactory, a course of action to assist students to reach performance standards deemed appropriate by Supervisors may be required, or a recommendation may be made that the student not be allowed to re-register.

Upgrade requirements

Each student is required to undergo Major Review (also known as Upgrade) at the end of their first year of full-time study. In order to earn the Upgrade, the candidate –

1. Must have attended a minimum of 80% of the compulsory course in Advanced Health Policy and Health Economics (based on their time at LSE).
2. Must have achieved a minimum average grade of 60% across the two taught MSc courses;
3. Must have submitted a 5,000-word thesis proposal including a research question, literature review, description of methodology, plans for data collection, and a timetable through to completion.

Where relevant, there will be assessment of any ethics review required for the student's research undertaken in accordance with the School's research ethics policies.

Candidates are subject to a viva voce and marking of their thesis proposal by two non-supervisory members of the Department, where students will be required to earn a minimum grade of 60%. Following Major Review, a decision is taken whether to upgrade the student from MPhil to the PhD programme.

Targets for progress

For students who successfully upgrade to PhD enrolment there will be another review in the second and third years of full-time study. Progression will be conditional upon fulfilling the requirements agreed and approved by the Supervisors and the Doctoral Programme Director.

Year 2

For a thesis as a monograph: submission of a thesis document, including an abstract of the whole thesis, a chapter synopsis, and a substantive first chapter (approx. 10,000 words), and an updated timetable through to completion.

For a thesis as a series of publishable papers: submission of an abstract for each of the three prospective papers, a full draft of the introduction or a full draft of one of the papers (approx. 10,000 words), and an updated timetable through to completion.

Year 3

For a thesis as a monograph: submission of full draft with all core chapters, and agreed timetable through to completion of the thesis.

For a thesis as a series of publishable papers: full drafts of all three papers and agreed timetable for the completion of the thesis.

Teaching opportunities

The Department employs Graduate Teaching Assistants (GTAs) to teach and lead seminars on a number of postgraduate courses.
First-year MPhil/PhD students are normally not permitted to teach. Research students are encouraged to undertake some teaching following successful Major Review. Students who undertake teaching are offered the opportunity to pursue a Postgraduate Certificate in Higher Education.

MPhil/PhD in Human Geography and Urban Studies

**Programme Code:** RPHUGY  
**Department:** Geography & Environment  
**For students starting this programme of study in 2018/19**

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

**Paper Course number, title (unit value)**

**Year 1**

**Training courses**

**Compulsory (not examined):**
- GY502 Staff / Research Students Seminars (0.0)

**Compulsory (examined):**
1. The following core course:
   - GY403 Contemporary Debates in Human Geography (0.5)

   **Note:** Students who have graduated from MSc Human Geography and Urban Studies cannot repeat courses taken as part of their master’s programme. In order to fulfill their obligation to sit for one full unit of subject-specific training, students who have already taken GY403 must instead take courses to the value of one unit from the list of options on the relevant MSc degrees.

2. Course(s) to the value of a half unit from the list of options available on MSc in Human Geography and Urban Studies (Research).

3. Relevant advanced qualitative research methods course(s) to the value of 1.0 unit from the following:
   - MY500 Fundamentals of Social Science Research Design (0.5)
   - MY521 Qualitative Research Methods (0.5)
   - MY526 Doing Ethnography (0.5) (not available 2018/19)
   - MY527 Qualitative Research With Non-Traditional Data (0.5) (not available 2018/19)
   - MY529 Special Topics in Qualitative Research: Introspection-based Methods in Social Research (0.5) (withdrawn 2018/19)

**Transferable skills courses**

**Transferable skills courses**

Optional (not examined):
- GY500 Research Project Seminar (0.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

**Progression and Upgrade requirements**

Once on the MPhil/PhD programme, students will go through a First Year Progress Review taking place in the Summer Term of their first year.

For the First Year Progress Review, students must submit a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and motivation for the research; aims and objectives/research questions; contribution to knowledge; summary of methods to be used; and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year.

Normally, there will be a progress review meeting between the student and the supervisor(s) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress to the second year. There is provision for a second Supplementary Review in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year. Progression is also dependent on students having passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops.

All research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. The exact timing depends on the student’s progress. Students are required to submit a formal written upgrade report consisting of an extensive revised research proposal, two substantive draft papers/chapters, of which one can be a literature review, and a detailed plan for completion. The material is evaluated by an upgrading committee that will recommend transferral to PhD registration if the work is judged to be of sufficient quality and quantity.

The upgrading committee is normally formed by the student’s supervisors and a third member of staff with relevant expertise. The upgrade is also dependent on students having completed all required training courses and having made a satisfactory research presentation in their doctoral presentation workshop. In addition to these formal arrangements, each year during the Summer Term and throughout the course of their studies, all PhD students and their supervisors have to complete a yearly Progress Report Form, detailing progress made, problems arising and plan/timeline for completion. The forms are sent to the Director of Post-Graduate Studies for approval before students are able to re-register for the following session. If perceived lack of progress is identified, it can trigger a more formal annual review of progress in which the student is asked to produce specific written documents to be evaluated by a review panel.

MPhil/PhD in International History

**Programme Code:** RPIH  
**Department:** International History

**For students starting this programme of study in 2018/19**

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

**Paper Course number, title (unit value)**

**Year 1**

**Training courses**

**Compulsory (not examined):**
- HY501 International History Research Student Workshop (0.0)

**Year 2**
Training courses

Optional (not examined):
- HY509 International History Research Seminar (0.0)
- HY510 Cold War History Research Seminar (0.0)

Year 3

Training courses

Optional (not examined):
- HY509 International History Research Seminar (0.0)
- HY510 Cold War History Research Seminar (0.0)

Year 4

Training courses

Optional (not examined):
- HY509 International History Research Seminar (0.0)
- HY510 Cold War History Research Seminar (0.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

Progression and upgrade requirements

On being admitted, all students are formally registered for an MPhil. By 13 June (Week 8 Summer Term) of their first year (1 March of their second year for part-time students) they are required to submit three hardcopies of their dossier containing (1) the provisional title of their thesis, together with the provisional titles of their chapters; (2) a bibliography, setting out as comprehensively as possible the primary published and unpublished sources they intend to use, along with the books, articles, unpublished theses and other sources they will consult; (3) an historiographical essay, evaluating the contributions of other scholars to their subject, and indicating clearly how their own thesis will contribute to it; and (4) a draft chapter of approximately 10,000 words based largely upon primary sources. The dossier will be read by three members of the Department, and students will be required to undergo a 20-30 minute viva. After the viva you will be informed of the outcome and will receive a joint report from the panel. If the Committee deems the dossier/viva satisfactory, the Department will recommend the student for transfer of registration from MPhil to PhD status. If it is less than satisfactory it will be examined by the Committee who will determine whether the student should be allowed to resubmit revised upgrade materials, which may be permitted once. The review and viva process is designed to determine whether the student is likely to meet the requirements of a PhD, and whether the chosen topic is suitable for a doctoral dissertation.

MPhil/PhD in International Relations

Programme Code: RPIR
Department: International Relations

For students starting this programme of study in 2018/19

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper Course number, title (unit value)

Year 1

Training courses

Compulsory (not examined):
- IR501 Methods in International Relations Research (0.0)
- IR509 International Relations Research Design Workshop (0.0)

Year 2

Training courses

Compulsory (not examined):
- IR509 International Relations Research Design Workshop (0.0)

Optional (examined/not examined):

The subject workshops offered by the International Relations Department comprise international relations theory; security and statecraft; international institutions, law and ethics; international political economy; Asia-Pacific; and the Middle East Relevant courses provided by the Methodology Institute and agreed with supervisor, including:
- DV560 Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference (0.5)
- MY400 Fundamentals of Social Science Research Design (0.5)
- MY521 Qualitative Research Methods (0.5)
- MY530 Advanced Qualitative Research Workshops (0.0)
- MY551 Introduction to Quantitative Analysis (0.5)
- MY555 Multivariate Analysis and Measurement (0.5)
- MY559 Special Topics in Quantitative Analysis: Quantitative Text Analysis (0.5)
- MY591 Computing Packages for Applied Analysis (0.0)
- MY599 Department of Methodology Seminar (0.0)

Transferable skills courses

MY592 Workshop in Information Literacy: finding, managing and organising published research and data (0.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

Progression and upgrade requirements

Early in the Summer Term first- and second-year research students will have their progress reviewed by a Research Panel. They may also be held at the end of the third or subsequent years of registration at the request of a supervisor or student. Supervisors will not attend Research Panels but will provide reports on progress. Panel members may attend student presentations at the Research Design Seminar (IR509). Students are expected for the first Panel to submit an outline of their proposed research and one draft chapter. Students who are deemed not to have made satisfactory progress will either be refused permission to re-register or will be required by the Research Panel to produce written work over the summer as a condition for re-registration in the autumn. In the event of conditions to re-registration being set, a further Research Panel may be reconvened in the September prior to re-registration.

For the second Panel, which will decide on the question of upgrading from MPhil to PhD, students will be expected to submit two additional draft chapters. The two chapters should be substantially new work, but may include revised material from year one. Students who have not made sufficient progress to be converted from MPhil to PhD registration by the end of their second year will normally have re-registration made conditional on further progress (details to be decided by the Panel) or may, exceptionally, be prohibited from re-registering.

MPhil/PhD in Law

Programme Code: RPLL
Department: Law

For students starting this programme of study in 2018/19

In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper Course number, title (unit value)

Year 1

Training courses

Compulsory:

1. The following core course:
   - LL500 Doctoral Research Seminar (0.0)

2. Law Department lunchtime seminar series

3. One other relevant course offered by any department or other unit within the School

Year 2

Training courses

Compulsory (not examined):

Minimum of three workshops of the following:
- MY530 Advanced Qualitative Research Workshops (0.0)
MPhil/PhD Programme Regulations

Optional (not examined):
Staff Seminar Series

Year 3
Training courses
Compulsory (not examined):
PhD lunchtime seminar series
Optional (not examined):
Staff Seminar Series

Year 4
Transferable skills courses
Optional (not examined):
Staff Seminar Series
# means there may be prerequisites for this course. Please view the course guide for more information.

Progression and upgrade requirements
Upgrade to PhD takes place at the end of the first year, progression being conditional on submission of a satisfactory statement of the research question and a satisfactory sample chapter towards the end of the Summer Term.

MPhil/PhD in Mathematics
Programme Code: RPMA
Department: Mathematics
For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper Course number, title (unit value)
Year 1
Training courses
Compulsory (not examined):
1. The following core course:
   LL500 Doctoral Research Seminar (0.0)
2. The following core course:
   LL4L5 Socio-legal Theory and Practice (0.5)
3. Law Department lunchtime seminar series
4. One relevant course selected from those offered by the Department for Methodology

Transferable skills courses
Compulsory (not examined):
MA500   Mathematics: Seminar on Combinatorics, Games and Optimisation (0.0)
MA501   Research Student Seminar (0.0)
Optional (not examined):
MA422   Research Topics in Financial Mathematics (0.0)

Year 2
Training courses
Optional (not examined):
Students have the option of attending advanced courses organized by the London Taught Course Centre or the London Graduate School in Mathematical Finance.

Transferable skills courses
Compulsory (not examined):
MA500 Mathematics: Seminar on Combinatorics, Games and Optimisation (0.0)
MA501 Research Student Seminar (0.0)
Optional (not examined):
MA422 Research Topics in Financial Mathematics (0.0)

Year 3
Training courses
Optional (not examined):
Students have the option of attending advanced courses organized by the London Taught Course Centre or the London Graduate School in Mathematical Finance.

Transferable skills courses
Compulsory (not examined):
MA500 Mathematics: Seminar on Combinatorics, Games and Optimisation (0.0)
MA501 Research Student Seminar (0.0)
Optional (not examined):
MA422 Research Topics in Financial Mathematics (0.0)

Year 4
Training courses
Optional (not examined):
Students have the option of attending advanced courses organized
by the London Taught Course Centre or the London Graduate School in Mathematical Finance.

Transferable skills courses
Compulsory (not examined):
MA500  Mathematics: Seminar on Combinatorics, Games and Optimisation (0.0)
MA501  Research Student Seminar (0.0)
Optional (not examined):
MA422  Research Topics in Financial Mathematics (0.0)

Teaching opportunities:
All students are offered the opportunity to teach for the department, subject to a successful interview and language requirements.

Progression and upgrade requirements
Students are initially registered for the MPhil, and will be able to upgrade to PhD registration during their second year, dependent on satisfactory progress. Progress is assessed regularly by the student’s supervisors, in consultation with the Doctoral Programme Director, on the basis of the extent to which the agreed research goals have been achieved. Any upgrade is dependent on the successful completion of a Major Review, the date of which is determined by the Doctoral Programme Director in consultation with the lead supervisor.

MPhil/PhD in Media and Communications

Programme Code: RPME
Department: Media & Communications

For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper  Course number, title (unit value)
Year 1  Training courses
Compulsory (examined):
MC408  Theories and Concepts in Media and Communications I (Key concepts and interdisciplinary approaches) (0.5) and MC418 Theories and Concepts in Media and Communications II (Processes of communication in modern life) (0.5) A
MC5M2  Advanced Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (1.0)
MC5M2  includes the following courses:
MY464  Introduction to Quantitative Methods for Media and Communications (0.0) and MY552 Applied Regression Analysis (0.5)

By agreement, the Department of Methodology components (MY464 and/or MY552) can be replaced by other, more advanced, statistics courses or an advanced qualitative course taught at the Department of Methodology. At least one half-unit course of statistics needs to be included.

Optional (examined/not examined):
Other graduate courses relevant to research subject and agreed with supervisor.
Transferable skills courses
Compulsory (not examined):
MC500  Research Seminar for Media, Communications & Culture (0.0)
Optional (not examined):
LN988  Thesis Writing (0.0)
Modern Foreign Language courses offered by the Language Centre.
Other graduate seminars of relevance to research subject.

Presentation requirements:
At least one presentation annually at the following:
MC500 Research Seminar for Media, Communications & Culture (0.0)

Year 2  Training courses
Optional (examined/ not examined):
Either MY530 or MY555
MY530  Advanced Qualitative Research Workshops (0.0)
MY555  Multivariate Analysis and Measurement (0.5)
And/or the following:
MY559  Special Topics in Quantitative Analysis: Quantitative Text Analysis (0.5)
ST416  Multilevel Modelling (0.5)
Other graduate courses relevant to research subject and agreed with supervisor.
Transferable skills courses
Compulsory (not examined):
MC500  Research Seminar for Media, Communications & Culture (0.0)
Annual Joint PhD Symposium for Second Years and above, at Goldsmiths, Westminster and City.
Optional (not examined):
Other graduate seminars of relevance to research subject.

Year 3  Transferable skills courses
Optional (not examined):
MC500 Research Seminar for Media, Communications & Culture (0.0)

Year 4  Research
Students are expected to complete their research.

Footnotes
A  : For students without the appropriate background.
#  means there may be prerequisites for this course. Please view the course guide for more information.

Progression and upgrade requirements
Students will be required to submit a full Thesis Proposal of 10,000 words to their Thesis Committee by 1 June in their first year (part-time students can submit their Proposal by 1 March in their second year). This paper will include a substantive statement of the aims, theories and methods proposed for the thesis, a tentative chapter outline, an indicative bibliography and a timetable for its completion. Together with the Methods (MC5M2) and Theories & Concepts (MC408/418) examinations, this paper will form part of the evaluation process, and, together with an oral examination based on the Thesis Proposal, will determine whether students are permitted to upgrade from MPhil to PhD and continue into their second year.

MPhil/PhD in Philosophy

Programme Code: RPPH
Department: Philosophy, Logic and Scientific Method

For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor. All programmes of study should be agreed with the supervisor at the start of the year.

Paper  Course number, title (unit value)
Year 1  Training courses
Compulsory (examined/ not examined):
PH501  Philosophical Problems Seminar (0.0)
Students who have never taken a paper in formal logic at degree must take the following (examined):
PH502  Reasoning and Logic (1.0)
Students who have already taken a formal logic course should choose one further MSc course not already taken as part of an MSc degree. Students can either decide to be examined in this course or instead choose to write two assessed essays, one at the end of each of the first two terms. This with the exception of students who choose PH419 Set Theory and Further Logic, in
which case the examination is compulsory.

Either
A further MSc course (again one not taken as part of the MSc course) plus one term unit of PhD level seminars. The seminars on offer are:

- PH500 Research Methods in Philosophy (0.0)
- PH551 Research Seminar in the Philosophy of Natural Sciences (0.0)
- PH555 Research Seminar in the Philosophy of Economics and Social Sciences (0.0)

If students choose to take a further MSc course, they can either decide to be examined or instead choose to write two assessed essays, one at the end of each of the first two terms. PhD level seminars are not examined and assessment is solely based on essays.

Or
Three term units of PhD level seminars with associated coursework. Taking three term units means that students can either take all three terms of one of these seminars or ‘mix and match’ by taking different seminars in different terms. Seminars must be taken with associated course work.

Transferable skills courses
Optional (not examined):
Transferable skills courses offered by the Teaching and Learning Centre or the Department of Methodology.

Year 2
Training courses
Optional (not examined):
- PH500 Research Methods in Philosophy (0.0)
- PH551 Research Seminar in the Philosophy of Natural Sciences (0.0)
- PH555 Research Seminar in the Philosophy of Economics and Social Sciences (0.0)

Optional (examined/not examined):
Transferable skills courses offered by the Teaching and Learning Centre or the Department of Methodology.

Year 3
Training courses
Optional (not examined):
- PH500 Research Methods in Philosophy (0.0)
- PH551 Research Seminar in the Philosophy of Natural Sciences (0.0)
- PH555 Research Seminar in the Philosophy of Economics and Social Sciences (0.0)

Optional (examined/not examined):
Transferable skills courses offered by the Teaching and Learning Centre or the Department of Methodology.

Year 4
Training courses
Optional (not examined):
- PH500 Research Methods in Philosophy (0.0)
- PH551 Research Seminar in the Philosophy of Natural Sciences (0.0)
- PH555 Research Seminar in the Philosophy of Economics and Social Sciences (0.0)

Optional (examined/not examined):
Transferable skills courses offered by the Teaching and Learning Centre or the Department of Methodology.

Progression and upgrade requirements
Successful completion of work required for each year is a necessary condition for re-registration in the following year; and for upgrading from MPhil to PhD status. During the first year students must write a first chapter of the thesis as well as an outline (research plan) of the rest of the thesis. The chapter should be around 40 pages; the research plan around 10 pages. Both have to be handed in to the Departmental Office by 1 September. This upgrading will normally take place after the successful completion of Year 1 requirements in Case A, and after the successful completion of Year 2 requirements in Case B. In both cases once you are registered for the PhD that registration will be backdated to the start of your MPhil/PhD studies.

MPhil/PhD in Philosophy of the Social Sciences
Programme Code: RPHSS
Department: Philosophy, Logic and Scientific Method
For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor. All programmes of study should be agreed with the supervisor at the start of the year.

Paper Course number, title (unit value)
Year 1
Training courses
Compulsory (examined/not examined):
1. MY551 Introduction to Quantitative Analysis (0.5)
2. MY552 Applied Regression Analysis (0.5)
3. MY521 Qualitative Research Methods (0.5)
4. One of the following:
   - PH419 Set Theory and Further Logic (1.0)A
   - PH502 Reasoning and Logic (1.0)B
5. PH458 Evidence and Policy (0.5)
6. Students also attend a Research Seminar in the Department.

Year 2
Training courses
Compulsory (examined):
7. MY555 Multivariate Analysis and Measurement (0.5)
8. MY500 Fundamentals of Social Science Research Design (0.5)

Years 3 & 4
Thesis Completion of the thesis.

Footnotes
A: If students have previous logic training
B: If no logic training
Means there may be prerequisites for this course. Please view the course guide for more information.

Progression and upgrade requirements
Successful completion of work required for each year is a necessary condition for re-registration in the following year; and for upgrading from MPhil to PhD status. During the first year students must write a first chapter of the thesis as well as an outline (research plan) of the rest of the thesis. The chapter should be around 40 pages; the research plan around 10 pages. Both have to be handed in to the Departmental Office by 1 September. This upgrading will normally take place after the successful completion of Year 1 requirements. Once you are registered for the PhD that registration will be backdated to the start of your MPhil/PhD studies.

MPhil/PhD in Psychological and Behavioural Science
Programme Code: RPPB
Department: Psychological and Behavioural Science
For students starting this programme of study in 2018/19
The MPhil/PhD programme includes taught courses on both methodology and theory. The precise courses students are required to attend varies and exemptions may apply depending on prior experience and qualifications. These matters should be discussed and agreed with the supervisor in the first formal supervision meeting.

Paper Course number, title (unit value)
Year 1
Training courses
Compulsory (students should agree with their supervisor whether the courses taken will also be examined):
- MY421 Qualitative Research Methods (0.5)
- MY456 Survey Methodology (0.5)
One of the following:
- MY452 Applied Regression Analysis (0.5)
- MY455 Multivariate Analysis and Measurement (0.5)
One of the following:
- PB401 Contemporary Social and Cultural Psychology (1.0)
- PB402 Organisational Social Psychology (1.0)
- PB404 The Social Psychology of Communication (1.0)
- PB423 Health, Community and Development (1.0) (not available 2018/19)
For PB401, PB402, PB404 and PB423, students also take the following unassessed course:
- PB400 Psychological and Behavioural Science (0.0)

Transferable skills courses
Compulsory (not examined):
- PB500 Current Research in Social Psychology (0.0)

Optional (examined/not examined):
Students can take further compulsory courses which they should discuss with their supervisor (students should agree with their supervisor whether the courses taken will also be examined).

Year 2
Training courses
Compulsory (students should agree with their supervisor whether the courses taken will also be examined):
Quantitative pathway
- MY452 Applied Regression Analysis (0.5)
- MY455 Multivariate Analysis and Measurement (0.5)
Qualitative pathway
- MY455 Multivariate Analysis and Measurement (0.5)

Combined pathway
- MY452 Applied Regression Analysis (0.5)
- MY455 Multivariate Analysis and Measurement (0.5)
- MY456 Survey Methodology (0.5)
- MY455 Multivariate Analysis and Measurement (0.5)
Optional (examined/not examined):
Students can take further optional courses which they should discuss with their supervisor (students should agree with their supervisor whether the courses taken will also be examined).

Transferable skills courses
Compulsory (not examined):
- PB500 Current Research in Social Psychology (0.0)

Optional (examined/not examined):
Students can take further optional courses which they should discuss with their supervisor (students should agree with their supervisor whether the courses taken will also be examined).

Year 3
Training courses
Compulsory (examined/not examined):
Students can take further compulsory courses which they should discuss with their supervisor (students should agree with their supervisor whether the courses taken will also be examined).
Optional (examined/not examined):
Selection of courses taken at more advanced level than those in Years 1 and 2.

Transferable skills courses
Compulsory (not examined):
- PB500 Current Research in Social Psychology (0.0)

Year 4
Training courses
Students can take further courses following discussion with their supervisor.

Transferable skills courses
Compulsory (not examined):
- PB500 Current Research in Social Psychology (0.0)

Optional (examined/not examined):

Students can take further optional courses which they should discuss with their supervisor.

Footnotes
A: If MY421 taken in Year 1
B: If MY452 taken in Year 1
C: If MY421 taken in Year 1
D: If MY452 taken in Year 1
E: If MY455 taken in Year 1

# means there may be prerequisites for this course. Please view the course guide for more information.

Progression and upgrade requirements
The first year Extended Essay and the second year Upgrade chapters (see below) are examined by a three-person thesis committee, which includes the student's supervisor, as well as two other academic colleagues.

Targets for progress
Year 1: Extended Essay of 6,000 words, submitted on first day of Lent Term.
Year 2: Upgrade viva. Two draft chapters of 10,000 words each (total of 20,000 words), submitted on first day of Lent Term. These chapters form the basis of an oral examination by three person thesis committee usually four to six weeks after submission. Success in this examination results in upgrade from MPhil to PhD status.
Year 3: Completed first draft by end of three years.

Teaching experience
Graduates will usually gain some teaching experience and have had the opportunity to develop teaching skills.

MPhil/PhD in Regional and Urban Planning Studies

Programme Code: RPRP
Department: Geography & Environment

For students starting this programme of study in 2018/19
In addition to progressing with your research, you are expected to take the courses listed below. You may take courses other to those listed but must discuss this with your supervisor.

Paper Course number, title (unit value)
Year 1
Training courses
Compulsory (not examined):
- GY502 Staff / Research Students Seminars (0.0)
Compulsory (examined):
1. Courses to the value of one unit from the relevant MSc degrees
2. Relevant subject-specific training courses to the value of 1.0 unit:
- GY428 Applied Quantitative Methods (0.5)
- GY460 Techniques of Spatial Economic Analysis (0.5)
- MY330 Fundamentals of Social Science Research Design (0.5)
- MY521 Qualitative Research Methods (0.5)
- MY526 Doing Ethnography (0.5) (not available 2018/19)
- MY527 Qualitative Research With Non-Traditional Data (0.5) (not available 2018/19)
- MY529 Special Topics in Qualitative Research: Introspection-based Methods in Social Research (0.5) (withdrawn 2018/19)
- MY556 Survey Methodology (0.5)
- MY557 Causal Inference for Observational and Experimental Studies (0.5)
- MY559 Special Topics in Quantitative Analysis: Quantitative Text Analysis (0.5)

NOTE: Students who join the PhD programme after having completed an MSc Regional and Urban Planning Studies or another Department of Geography MSc cannot retake the same courses or be waived the one unit of subject-specific training.

Transferable skills courses
Compulsory (not examined):
Progression and upgrade requirements:
Once on the MPhil/PhD programme you will go through a First Year Progress Review, taking place in the Summer Term of your first year.
For the First Year Progress Review, students must submit a written progress report containing an extensive and updated research proposal (typically including an introduction to the topic and motivation for the research; aims and objectives/research questions; contribution to knowledge; summary of methods to be used; and outline of the work to be done) and either a comprehensive literature review or a substantive draft of a chapter/paper as evidence of progress made during the year. Normally, there will be a progress review meeting between the student and the supervisors (main supervisor and review supervisor) to discuss the written material presented. The work has to reach an acceptable standard to enable the student to progress. There is provision for a second Supplementary Review in cases where there are doubts as to whether progress has been sufficient to allow the student to enter the second year. Progression to the second year (third year of the 1+3 programme) is also dependent on students having passed all required examinations and obtained at least one merit, and having presented their work satisfactorily in the doctoral presentation workshops. All research students are initially registered for an MPhil and have to be upgraded to PhD status. The upgrade from MPhil to PhD usually occurs during the second year of full-time registration. The exact timing depends on the student’s progress. Students are required to submit a formal written report consisting of an extensive revised research proposal, two substantive draft papers/chapters, of which one can be a literature review, and a detailed plan for completion. Students are asked to discuss their research paper/thesis outline during an Upgrade Meeting in front of an Upgrading Committee normally formed by main supervisor, review supervisor and a third member of staff with relevant expertise. The material is evaluated by the Upgrading Committee, who will recommend transferal to PhD registration if the work is judged to be of sufficient quality and quantity. The upgrade is also dependent on students having completed all required training courses and having made a satisfactory research presentation in their doctoral presentation workshop. In addition to these formal arrangements, each year during the Summer Term and throughout the course of their studies, all PhD students and their supervisors have to complete a yearly Progress Report Form, detailing progress made, problems arising and plan/timeline for completion. The forms are sent to the the Director of Post-Graduate Studies for approval before students are able to re-register for the following session. If perceived lack of progress is identified, it can trigger a more formal annual review of progress in which the student is asked to produce specific written documents to be evaluated by a review panel.

MPhil/PhD in Social Policy
Programme Code: RPSA
Department: Social Policy
For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper  Course number, title (unit value)
Year 1
Training courses
SA451  Social Policy Research (1.0)
Optional (not examined):
SA550  Research Student Seminar (0.0)

Year 3
Transferable skills courses
Optional (not examined):
SA550  Research Student Seminar (0.0)

Year 4
Transferable skills courses
Optional (not examined):
SA550  Research Student Seminar (0.0)

Progression and upgrade requirements
Each student is required to undertake Major Review in the summer term of their first year (second year for part-time students). For Major Review they must submit a 10,000 word document with a detailed thesis proposal, their research question, a literature review, a description of their methodology, their plans for data collection and a timetable through to completion. They are interviewed on this document by senior staff who make the decision on upgrading. Each year post-Major Review, every student is expected to submit a 1,000 to 2,000 word progress report approved by supervisors, to the Doctoral Programme Director(s).

Each pre-Major Review student is expected to make a presentation on their proposed research to the SA550 seminar prior to the submission of their major review document and to address issues raised by the Doctoral Programme Director(s).
MPhil/PhD in Social Research Methods

Programme Code: RPMI
Department: Methodology

For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper Course number, title (unit value)

Year 1
Training courses
Optional (students should agree with their supervisor whether the courses taken will also be examined):
A selection of:
MY400 Fundamentals of Social Science Research Design (0.5)
MY425 Case Studies and Comparative Methods for Qualitative Research (0.5)
MY521 Qualitative Research Methods (0.5)
MY551 Introduction to Quantitative Analysis (0.5)
MY552 Applied Regression Analysis (0.5)
MY555 Multivariate Analysis and Measurement (0.5)
MY556 Survey Methodology (0.5)
MY557 Causal Inference for Observational and Experimental Studies (0.5)
MY561 Social Network Analysis (0.5)
MY570 Computer Programming (0.5)
MY572 Data for Data Scientists (0.5)
MY573 Managing and Visualising Data (0.5) (withdrawn 2018/19)
A typical selection would be to take MY400, MY521, MY552 and MY555 in the first year, but students may be excused from some or all of them if they have previously taken graduate-level courses covering the same material.
Students who use quantitative methods in their research, are also encouraged to take the following course in their first or second year:
MY559 Special Topics in Quantitative Analysis: Quantitative Text Analysis (0.5)
The courses students take may also include ones from other institutes or departments at LSE, dependent on their needs.

Transferable skills courses
Compulsory (not examined):
MY599 Department of Methodology Seminar (0.0)
Relevant courses provided by the Library, Teaching and Learning Centre and Methodology Institute.

Year 2
Transferable skills courses
Compulsory (not examined):
MY599 Department of Methodology Seminar (0.0)

Year 3
Transferable skills courses
Compulsory (not examined):
MY599 Department of Methodology Seminar (0.0)

Year 4
Transferable skills courses
Compulsory (not examined):
MY599 Department of Methodology Seminar (0.0)
# means there may be prerequisites for this course. Please view the course guide for more information.

Progression and upgrade requirements
In the Summer Term of their first year, candidates will produce a 10,000 word ‘first year review’ that outlines the aims and methods of their thesis: this means summarising the key literature(s), motivating their specific research questions, and highlighting the planned contributions of their work. A first year review document typically includes a general introduction, a comprehensive literature review (covering relevant empirical and theoretical work), a motivation of the research questions and hypotheses, and an indication of the literature(s) that the candidate is seeking to contribute to (i.e. the gaps in knowledge that will be addressed). Candidates will also give an oral presentation of their proposal at the Department of Methodology PhD day.
Written and oral work will be assessed by two academics (not on the supervisory team), normally members of Department of Methodology staff. This work has to reach an acceptable standard to enable them to progress to the second year. It is particularly important that the first year review clearly states the objectives of the doctoral research and indicates how the empirical work will be carried out. If the panel deems the first year review to be not suitably clear, they can choose not to accept the submitted document and give the candidate up to a month to clarify. This decision will be made after one maximum one week after the Department of Methodology PhD Day. Examples of unclear work might include (but not be limited to):
• A first year review that does not state clear research questions;
• A first year review that does not appropriately review the specific literatures that the empirical work is contributing to;
• A first year review that does not give enough methodological detail, showing how the design will produce data that allows the candidate to address the theoretical issues at stake in a systematic and rigorous way.
After the first year candidates will spend more time on independent study under the guidance of their supervisor(s). This will involve the collection, organization and analysis of data, and writing up the results. During their second year of registration, they will typically submit three (minimum) draft chapters of their thesis plus a short introduction and a detailed plan for its completion. The three draft chapters will typically include a detailed literature review, specification of research problem(s) and two empirical chapters. If candidates are pursuing a paper-based thesis, their upgrading documents will typically include a short introduction, a literature review and at least two empirical papers. Whether a traditional or paper-based thesis, the material will be evaluated by an examining committee (two academics, not necessarily of the Department of Methodology or even the LSE) who will recommend transfer to PhD registration if their work is judged to be of sufficient quality and quantity.
Throughout the MPhil/PhD and PhD, candidates will attend the Institute’s research seminar and other specialist workshops and seminars related to their interests. The student must present at every Department of Methodology PhD day.

MPhil/PhD in Sociology

Programme Code: RPSO
Department: Sociology

For students starting this programme of study in 2018/19
In addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper Course number, title (unit value)

Year 1
Training courses
Compulsory (examined):
SO500 Research Class for MPhil Students (1.0)
Students may also be asked to attend and pass the assessment for up to one further course unit (or two half units) chosen with their supervisor on the basis of an assessment of their research training needs.
Optional (examined):
MY400 Fundamentals of Social Science Research Design (0.5)
MY521 Qualitative Research Methods (0.5)
MY551 Introduction to Quantitative Analysis (0.5)
MY552 Applied Regression Analysis (0.5)
Other courses from Sociology Masters programmes
Specialist research courses:
SO491 Quantitative Social Research Methods (0.5)
SO492  Qualitative Social Research Methods (0.5)
SO511  Research Seminar in Political Sociology (0.0)
SO521  Research Seminar on Cities and Space (0.0)

Transferable skills courses
Optional (not examined):
MY591  Computing Packages for Applied Analysis (0.0)
MY592  Workshop in Information Literacy: finding, managing and organising published research and data (0.0)

Year 2
Training courses
Optional (not examined):
SO501  Data Analysis Workshop (0.0) A

Footnotes
A: SO501 is strongly recommended.
# means there may be prerequisites for this course. Please view the course guide for more information.

Progression and upgrade requirements In the Summer term of each year the progress of each student registered in the Department is discussed at the MPhil/PhD Board, which is a general meeting of all research student supervisors. This Board decides whether to recommend to the School that students be permitted to proceed to the next year of study. If progress is unsatisfactory, a course of action to assist students to reach performance standards deemed appropriate by supervisors may be required, or a recommendation may be made that the student not be allowed to re-register.

By the end of Year 2, students are expected to have completed their fieldwork, and to be ready to submit two draft chapters for upgrade. All full-time research students are expected to have made the transition from the MPhil to PhD (upgrading) within two years of first registration and to have submitted their PhD thesis within four years. Part-time students are expected to be upgraded to PhD by the end of their third year, and to submit their thesis within six years.

The decision to upgrade from MPhil to PhD is taken by a panel consisting of two academics from the Department or the School, with the supervisor(s) in attendance and available to be consulted by the panel. For upgrade, students submit three draft chapters of their thesis, plus thesis abstract and outline schedule for completion. This material is then assessed by viva voce and a written report is made by the panel.

Students should aim to have a complete first draft of their thesis in years three to four and allow three to six months for revision and submission.

MPhil/PhD in Statistics
Programme Code: RPST
Department: Statistics
For students starting this programme of study in 2018/19
in addition to progressing with their research, students are expected to take the listed training and transferable skills courses. Students may take courses in addition to those listed, and should discuss this with their supervisor.

Paper  Course number, title (unit value)
Year 1
Training courses
Optional (not examined):
Courses offered by the London Graduate School in Mathematical Finance.
Courses offered by the London Taught Course Centre.
Optional (examined):
Masters level courses relevant to research and agreed by supervisor in department, the School or University of London College - particularly the following:
ST405  Multivariate Methods (0.5)
ST411  Generalised Linear Modelling and Survival Analysis (0.5)
ST421  Developments in Statistical Methods (0.5) (withdrawn 2018/19)
ST501  Multilevel Modelling (0.5)
ST542  Longitudinal Data Analysis (0.5)

Transferable skills courses
Compulsory (not examined):
Annual Research Presentation Event.
Optional (not examined):
Departmental Seminar Series.
Joint Econometrics and Statistics Workshops with the Department of Economics.
Risk and Stochastics Seminar/Workshop.
London Graduate School in Mathematical Finance Seminar Day.
Poster Presentations.
The department encourages students to attend and, where the opportunity arises, present a paper or poster at conferences during their PhD programme in relation to their particular research topic.
Optional (examined):
Courses provided by the Department of Methodology.

Year 2
Training courses
Optional (not examined):
Courses offered by the London Graduate School in Mathematical Finance.
Courses offered by the London Taught Course Centre.
Optional (examined):
Masters level courses relevant to research and agreed by supervisor in department, the School or University of London College - particularly the following:
ST405  Multivariate Methods (0.5)
ST411  Generalised Linear Modelling and Survival Analysis (0.5)
ST421  Developments in Statistical Methods (0.5) (withdrawn 2018/19)
ST501  Multilevel Modelling (0.5)
ST542  Longitudinal Data Analysis (0.5)

Transferable skills courses
Compulsory (not examined):
Annual Research Presentation Event.
Annual Research Presentation Event.

Optional (not examined):
Departmental Seminar Series.
Joint Econometrics and Statistics Workshops with the Department of Economics.
Risk and Stochastics Seminar/Workshop.
London Graduate School in Mathematical Finance Seminar Day.
Poster Presentations.
The department encourages students to attend and, where the opportunity arises, present a paper or poster at conferences during their PhD programme in relation to their particular research topic.

Optional (examined):
Courses provided by the Department of Methodology.

Year 4 Training courses

Optional (not examined):
Courses offered by the London Graduate School in Mathematical Finance.
Courses offered by the London Taught Course Centre.

Optional (examined):
Masters level courses relevant to research and agreed by supervisor in department, the School or University of London College - particularly the following:
ST405  Multivariate Methods (0.5)
ST411  Generalised Linear Modelling and Survival Analysis (0.5)
ST421  Developments in Statistical Methods (0.5) (withdrawn 2018/19)
ST501  Multilevel Modelling (0.5)
ST542  Longitudinal Data Analysis (0.5)

Transferable skills courses

Optional (not examined):

Poster Presentations.
The department encourages students to attend and, where the opportunity arises, present a paper or poster at conferences during their PhD programme in relation to their particular research topic.

Optional (examined):
Courses provided by the Department of Methodology.

# means there may be prerequisites for this course. Please view the course guide for more information.

Progression and upgrade requirements Formal assessment is made towards the end of each Summer Term. This assessment is based on statements made by the student and the supervisors in the progress report form. Students are also required to complete a supplementary report of 1-2 pages (A4), providing in more detail an outline of their current research.
The review to upgrade to the PhD normally takes place within two years of full time registration. Progress is assessed by the first and/or second supervisor in consultation with the PhD programme director and another expert in the field of the research undertaken by the student. If satisfactory progress has been made, the programme director will recommend that registration be upgraded to PhD status. The department's research committee also monitors the progress of PhD students.

Teaching opportunities The department employs Graduate Teaching Assistants (GTAs) to teach a number of its undergraduate and postgraduate courses. In particular ST102, Elementary Statistical theory, and ST107, Quantitative Methods, are taught to a large number of students across the School and require a significant number of classes. Research students are encouraged to undertake some teaching from year two onwards. First year MPhil/PhD students are normally not permitted to teach, although some marking may be available during the year or for the external degree at the end of the year. A Postgraduate Certificate in Higher Education is offered to those who wish to pursue this.
Research Course guide
AC500
Accounting, Organisations and Society
This information is for the 2018/19 session.
Teacher responsible: Dr Andrea Mennicken KSW 3.09 and Prof Michael Power KSW 3.12
Availability: This course is compulsory on the MPhil/PhD in Accounting. This course is available on the MPhil/PhD in Accounting and MRes/PhD in Management (Organisational Behaviour). This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This is an advanced course for doctoral and postdoctoral students focusing on the institutional and organisational context of accounting practices in their broadest sense. The seminars are generally based on key readings at the interface between accounting, organisation studies, regulation and management. Discussions will be focused on the analysis of accounting and calculative practices in context drawing on a wide range of approaches.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.
There will be a reading week in week 6 of both MT and LT.
Indicative reading: There is no single text for this course and the seminars will be based on pre-distributed readings.
Assessment: Assessment will be based on written work as agreed with the Course Director.

AC501
Empirical Financial Accounting and Capital Markets
This information is for the 2018/19 session.
Teacher responsible: Dr Maria Manuel Correia OLD 3.12 and Dr Xi Li OLD 2.16
Availability: This course is compulsory on the MPhil/PhD in Accounting. This course is available with permission as an outside option to students on other programmes where regulations permit.
Course content: This is a readings based course dealing with advanced issues in accounting research methods. Its primary focus is to study accounting and financial reporting issues from an economics perspective. While much research studied in the course will be empirical archival in nature, the course also aims to provide students with an advanced understanding of the changing role and position of accounting practices in organisations, both public and private, and societies more generally. Students will be exposed to advanced thinking about how accounting practices are much more than a collection of routine techniques but are shaped by their institutional contexts, have behavioural consequences and can represent different values. We will focus on how efforts to design internal and external accounting practices are both a function of specific economic and political interests, but are also shaped by social and political aspirations. The role of accountants and other agents will be addressed.
The course emphasises the inter-relations between technical, organisational and institutional issues. While some technical accounting knowledge will be helpful, it is not essential and each lecture will provide the necessary technical foundations.
Indicative topics include:
- Foundations of Reporting, Calculation and Disclosure: Transnational Regulation and Standardisation; Accounting and the Notion of “Entity”; Audit and Assurance: The Audit Society; Organisational Boundaries, Structure and Control; Performance, Accountability Incentives; Accounting for Sustainability; Organisational Failure as a Process.
- Teaching: 10, 3-hour seminars in weeks 1-10 of MT and a 2-hour essay workshop in week 11 of MT.
- Formative coursework: Students will be required to produce two pieces of written work. This may take the form of either an essay, or the analysis of a case, and may also include in-class presentations and team-based work. This work will be assessed, but the grades will not count towards the overall course assessment.
- Assessment: Essay (100%, 6000 words) in the ST.
- MPhil/PhD in Accounting students must pass the course assessment, normally with high Merit (at least 65%) or Distinction marks, to proceed to the next year of the programme.

AN500
Seminar on Anthropological Research
This information is for the 2018/19 session.
Teacher responsible: Dr Johannes Steinmuller OLD 5.06A, Prof Deborah James OLD 6.06 and Prof Laura Bear
Availability: This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.
Course content: Seminar on Anthropological Research.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 14 hours of seminars in the ST.
There is a reading week in Week 6 of the MT and LT.
Assessment: This course is not assessed.
AN503  
Thesis Writing Seminar  
This information is for the 2018/19 session.  
Teacher responsible: Prof David Graeber OLD 6.10, Dr Michael Scott OLD 6.16 and Dr Clara Devlieger  
Availability: This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option. This seminar is for 3rd and 4th year post-fieldwork students.  
Course content: Students present draft dissertation chapters to their cohort.  
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 14 hours of seminars in the ST.  
This course has reading week in Week 6 of the MT and LT.  
Assessment: This course is not assessed.

AN505  
Advanced Professional Development in Anthropology  
This information is for the 2018/19 session.  
Teacher responsible: Prof Charles Stafford OLD6.02  
Availability: This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.  
Course content: This seminar course has two main aims. First, it examines key theoretical concepts and approaches in Anthropology at an advanced level that may be relevant to post-fieldwork doctoral candidates. It may focus on widely ranging thematic areas, e.g. recent developments in cognitive anthropology and/or in material culture studies and/or in anthropological studies of ontology. The aim is to enhance the ability of students to engage with such debates at an advanced level. Second, the course aims to enhance the professional development of doctoral students by providing them with advanced training in writing and presentation skills, and more generally in relation to skills relevant to their career progression.  
Teaching: 14 hours of seminars in the MT. 14 hours of seminars in the LT. 12 hours of seminars in the ST.  
Assessment: This course is not assessed.

DV500  
Research Seminar in Development Studies  
This information is for the 2018/19 session.  
Teacher responsible: Dr Elliott Green CON8.07  
Availability: This course is compulsory on the MPhil/PhD in Development History, Theory and Policy for Research Students. This course is available with permission as an outside option to students on other programmes where regulations permit.  
Course content: This course is designed as a forum for discussing theoretical and methodological issues in Development Studies research. Modules are organized around broad methodological issues (e.g. research design, case studies, causal inference) and presentations of research, with the former featuring heavily in the MT and the latter in the LT and ST. Research presentations at the seminar are made by DESTIN research students and also by staff, with some invited speakers from outside. All research students are expected to attend the seminar while in residence in London. First year students are required to present a draft of their research proposal to the seminar during the LT or ST. Continuing students are invited to make presentations based on a report of their research, draft chapters or even their final draft of the dissertation. In making their presentations students are asked to provide (a) background material about the particular issue at hand, (b) a clear statement of the research questions and/or hypotheses that are being addressed, and (c) discussion of the research methods to be employed. Students should inform their supervisor(s) of the date when they are scheduled to make a presentation.  
Teaching: 15 hours of seminars in the MT. 15 hours of seminars in the LT. 10 hours and 30 minutes of seminars in the ST.  
Assessment: This course is not assessed.

DV501  
Half Unit  
Development History, Theory and Policy for Research Students  
This information is for the 2018/19 session.  
Teacher responsible: Prof James Putzel  
Availability: This course is compulsory on the MRes/PhD in International Development. This course is available on the MRes/PhD in Management (Employment Relations and Human Resources) and MRes/PhD in Management (Organisational Behaviour). This course is available with permission as an outside option to students on other programmes where regulations permit.  
Course content: The course integrates the concepts and perspectives of a range of disciplines to consider: major trends of development and change in modern history and interpretations of them in the social sciences and contemporary economic and social theory and their bearing on the policy and practice of development. During Michaelmas Term the course critically discusses concepts of ‘development’ and the historical evolution of paradigms of development thinking and policy. Through an examination of comparative historical experience, we explore the role of states and markets in development and underdevelopment, colonial legacies and path dependencies and the political economy of growth, poverty and freedom. We examine how differential experiences of financial crisis, state fragility, democratic and populist politics affect development thinking and possibilities. During Lent Term the course draws on recent research and policy documents to discuss current cutting edge policy issues and challenges in the developing world including: demographic change and its implications, poverty and inequality; industrialisation, international trade and industrial policy; agriculture, new technologies and agrarian reform policies; gendered development and responses; the impact of violent conflict; environmental threats and sustainability; and the evolution of development practice and aid.  
Teaching: 20 hours of lectures and 20 hours of seminars in the MT.  
Students will attend the Michaelmas Term lectures for DV400 and an associated weekly seminar for research students only.  
Formative coursework: Students will be expected to produce 2 presentations in the MT.  
Indicative reading: The following are recommended basic readings for the course:  
Assessment: Essay (100%, 5000 words) in January.
DV510  
Research Design and Proposal in International Development

This information is for the 2018/19 session.

Teacher responsible: Dr Elliott Green

Availability: This course is compulsory on the MRes/PhD in International Development. This course is not available as an outside option.

Course content: Students will work with their academic supervisors to structure a doctoral research proposal that has the potential to make a significant contribution to knowledge and that reflects a sophisticated mastery of advanced theoretical and methodological tools from one or more academic disciplines related to international development. They will learn how to identify good research questions that are embedded in the current academic literature, and how to apply recognisable, defensible and academically sophisticated methodologies to address those questions. The doctoral research proposal itself will identify a key research question(s) for investigation, a justification well embedded in existing academic literature for why the topic is theoretically and empirically important, and a well-developed theoretical and methodological framework for researching the question(s).

Teaching: Students will meet their supervisors three times a term during their first year of study in accordance with the LSE's regulations for Research Degrees. Their proposals will be developed over the course of these meetings.

Formative coursework: Students will be expected to produce 3 pieces of coursework in the MT, LT and ST. Students will submit drafts of their proposal to their supervisors and receive feedback.

Indicative reading: The reading list for each student will be determined by the research they propose undertaking.

Assessment: Other (100%) in the ST.

DV51  Half Unit  
African Development

This information is for the 2018/19 session.

Teacher responsible: Prof David Keen CON 7.16, Dr Diana Weinhold CON 7.10, Prof Thandika Mkandawire CON 8.02 and Dr Laura Mann CON 6.19

Head of Department, Doctoral Programme Directors, MSc Course Convenor and PhD Supervisor

Availability: This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

Course content: The major concern of the course is with the political economy of African development, to examine processes of economic, political, social and cultural change in Sub-Saharan Africa. It provides critical analysis of key development interventions and processes. It seeks to combine general theoretical overviews with country case studies illustrating the variety of experiences and trajectories. It does not aim to provide a comprehensive coverage of development issues or of regions. Course content will vary from year to year, depending on the specialities of staff.

Attention is paid to legacies of the colonial encounter, the constraints and opportunities presented by African countries’ positions in the global economy; the political economy of industrialisation and agrarian transformation, resource mobilisation, trade diversification, institutional reforms and state capacity. Attention will also be paid to social policy with special focus on issues such as social social protection, cash transfers, Millennium Development Goals, horizontal inequality and conflict.

Teaching: 16 hours and 30 minutes of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval

Assessment: Essay (100%, 5000 words) in the ST.
**DV520 Half Unit**  
**Complex Emergencies**

This information is for the 2018/19 session.

**Teacher responsible:** Prof David Keen CON 7.16 and Dr Elliott Green CON 8.07

Head of Department, Doctoral Programme Directors, MSc Course Convener and PhD Supervisor

**Availability:** This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

**Course content:** The course examines the consequences and causes of humanitarian disasters. It looks at the changing nature of civil conflicts, at the famine process, and at the benefits that may arise for some groups from war and famine. It examines some of the roots of violence in civil wars, as well as the information systems that surround and help to shape disasters. The course is interdisciplinary and looks at political, economic and psychological functions of violence.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 1 hour and 30 minutes of lectures in the ST. There will be a reading week in week 6.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval

**Indicative reading:** A detailed weekly reading list will be provided at the first course meeting. A useful text, which is designed in large part around the course, is David Keen, Complex Emergencies (Polity, 2008). Other texts of interest include David Keen, Useful Enemies: When Waging Wars is More Important than Winning Them (Yale University Press, 2012). Stathis Kalyvas, The Logic of Violence in Civil War (Cambridge University Press, 2006); David Keen, Conflict and Collusion in Sierra Leone (James Currey, 2005). David Keen, Endless War? Hidden Functions of the ‘War on Terror’ (Pluto, 2006); Michael Mann, The Dark Side of Democracy: Explaining Ethnic Cleansing (Cambridge University Press, 2005); Amartya Sen, Poverty and Famines (Oxford University Press, 1981); Frances Stewart and Valpy FitzGerald (eds.), War and Underdevelopment, Volumes 1 and 2 (Oxford University Press, 2001), and Jeremy Weinstein, Inside Violence: The Politics of Insurgent Violence (Cambridge University Press, 2007); Tim Allen, Trial Justice: The International Criminal Court and the Lord’s Resistance Army (Zed Press, 2006), Chris Dolan, Social Torture: The Case of Northern Uganda, 1986-2006 (Berghahn, 2009); Zoe Marriage, Not Breaking the Rules, Not Playing the Game: International Assistance to Countries in Conflict (Hurst and Co., 2006); Christopher Cramer, Civil War is Not a Stupid Thing: Accounting for Violence in Developing Countries (Hurst and Co., 2006); Mats Berdal and David Malone, Greed and Grievance: Economic Agendas in Civil Wars (Lynne Rienner, 2000); Hugo Slim, Killing Civilians: Method, Madness and Morality in War (Hurst and Co., 2008).

**Assessment:** Essay (100%, 5000 words) in the ST. 1 x 5000 word research paper to be submitted on the first Friday of the Lent Term. The research paper will be co-marked by the course convener and the student’s PhD supervisor.

---

**DV531 Development Management**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Jean-Paul Faguet CON 8.06, Dr Elliott Green CON 8.07 and Dr Mathvish Shami CON 8.12

Dr Jonathan Weigel. Head of Department, Doctoral Programme Directors, MSc Course Convener and PhD Supervisor

**Availability:** This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

This course is available to students in Year 2 or above of the MRes/PhD in International Development only. It is available to students in Year 1 of the MRes/PhD in International Development on a case-by-case basis.

**Course content:** Why are some countries rich and others poor? Why are some governed well and others badly? This course employs a political economy approach to examine the causes of development, identify the underlying obstacles to development, and evaluate potential solutions. It focuses on the principles governing the institutions, politics, and organisations through which policies, programmes and projects are produced and implemented. Attention is given to the different kinds of authority, incentives and accountability mechanisms that govern the relationships between leaders, managers and recipients. It reviews ongoing debates about the best ways of designing state

---

**DV528 Half Unit**  
**Managing Humanitarianism**

This information is for the 2018/19 session.

**Teacher responsible:** Prof David Keen CON 7.16, Dr Diana Weinhold CON 7.10 and Dr Darron Gordon CON 8.10

Head of Department, Doctoral Programme Directors, MSc Course Convener and PhD Supervisor

**Availability:** This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

**Course content:** The course looks at international, national and local responses to conflict and natural disasters. Building on an analysis of the causes, construction and consequences of humanitarian disasters, this course focuses on humanitarian actors (including aid workers, journalists, medics, government officials, soldiers, politicians and peace negotiators). It considers the principles and the politics of humanitarian action, exploring the overlaps and tensions between practices of humanitarian assistance and humanitarian intervention and how humanitarian institutions shape and are shaped by global governance and state power. It asks how humanitarianism relates to ideas about human rights and justice, and the politics of securitisation. It considers why humanitarian organisations and governments respond to some crises and not to others as well as the critique of humanitarian assistance and the ways in which the UN and NGO communities have sought to professionalise their activities. The course also looks at how recipients of humanitarian aid respond to these programmes, and in some cases subvert or transform them into quite different projects. Case studies will be drawn primarily from Africa, Central and South Asia and Latin America. However, there is also likely to be discussion of ongoing humanitarian emergencies, wherever they are located.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the MT. 2 hours of lectures in the LT.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the MT.

A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval

**Assessment:** Essay (100%, 5000 words) in the LT.

1 x 5000 word research paper to be submitted on the first Friday of the Lent Term. The research paper will be co-marked by the course convener and the student’s PhD supervisor.
agencies, private firms and NGOs, by showing how centralised bureaucracies, markets, participatory and solidaristic agencies operate to provide services in practice. It explores the dynamics of different forms of democratic and authoritarian states, the determinants of good and poor governance, and how social, political and economic forces interact to drive change and stability. In order to enable students to make practical judgments about institutional reform programmes in various contexts, competing approaches to development are critically and constructively analyzed in light of case studies. The course is divided into several parts: Analytical Assumptions, Government and Governance, Private Sector, and Civil Society. On completing the course, students should be able to: (i) use theory to identify the causes of actual development challenges, (ii) identify and assess relevant case study material to inform development practice; and (iii) employ the insights developed throughout the course to formulate policy recommendations and plans of action for improving development.

Teaching: 20 hours of lectures and 15 hours of seminars in the MT. 18 hours of lectures and 13 hours and 30 minutes of seminars in the LT. There will additionally be an introductory workshop at the start of MT. Students are expected to attend all these sessions. Lectures will focus on the theoretical debates driving current policy practice in the development community, while seminars will relate these to practical problems of implementation, drawing on case studies, class exercises, and the personal experience of participants. Seminars will discuss topics covered in the lecture, and will be conducted on the basis either of a student presentation or a class exercise.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval

Indicative reading: A detailed weekly reading list is provided at

Assessment: Assessment path 1

Essay (100%, 10,000 words) in the summer exam period.

Essay (40%, 5000 words) in the ST.

The research paper will be co-marked by the course convenor and the student's PhD supervisor.

Availability: This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

This course is available as an option for students enrolled on the MRes/PhD in International Development only.

Course content: The objectives of the course are: a) to introduce students to the practical world of development which will both facilitate their 'career paths' and also prepare them for the consultancy projects by becoming more familiar with how such organisations think and work; b) to introduce students to the interface between policy practice and development acade

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval

Indicative reading: Indicative reading

Assessment: Essay (100%, 5000 words) in the ST.

1 x 5000 word research paper to be submitted on the first Friday of the Summer Term. The research paper will be co-marked by the course convenor and the student's PhD supervisor.

DV545 Half Unit
Research Themes in International Development

This information is for the 2018/19 session.

Teacher responsible: Dr Elliott Green

Head of Department, Doctoral Programme Directors, MSc Course Convenors and student's PhD Supervisor

DV560 Half Unit
Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference

This information is for the 2018/19 session.

Teacher responsible: Dr Tasha Fairfield

CON 6.02

Availability: This course is available on the MPhil/PhD in International Relations and MRes/PhD in International Development.

This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: This course has no prerequisites.

Students do not need any previous exposure to either Bayesian analysis or qualitative methods literature.

Course content: The way we intuitively approach qualitative case research is similar to how we read detective novels. We consider various different hypotheses to explain what occurred—whether the emergence of democracy in South Africa, or the death of Samuel Ratchett on the Orient Express—drawing on the literature we have read (e.g. theories of regime change, or other Agatha Christie mysteries) and any salient previous experiences we have had. As we gather evidence and discover new clues, we continually update our beliefs about which hypothesis provides the best explanation—or we may introduce a new alternative that occurs to

DV560 Half Unit
Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference

This information is for the 2018/19 session.

Teacher responsible: Dr Tasha Fairfield

CON 6.02

Availability: This course is available on the MPhil/PhD in International Relations and MRes/PhD in International Development.

This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: This course has no prerequisites.

Students do not need any previous exposure to either Bayesian analysis or qualitative methods literature.

Course content: The way we intuitively approach qualitative case research is similar to how we read detective novels. We consider various different hypotheses to explain what occurred—whether the emergence of democracy in South Africa, or the death of Samuel Ratchett on the Orient Express—drawing on the literature we have read (e.g. theories of regime change, or other Agatha Christie mysteries) and any salient previous experiences we have had. As we gather evidence and discover new clues, we continually update our beliefs about which hypothesis provides the best explanation—or we may introduce a new alternative that occurs to
Bayesianism provides a natural framework that is both logically rigorous and grounded in common sense, that governs how we should revise our degree of belief in the truth of a hypothesis—e.g., “mobilisation from below drove democratization in South Africa by altering economic elites’ regime preferences,” (Wood 2001), or “a lone gangster sneaked onboard the train and killed Ratchett as revenge for being swindled”—given our relevant prior knowledge and new information that we obtain during our investigation. Bayesianism is enjoying a revival across many fields, and it offers a powerful tool for improving inference and analytic transparency in qualitative research.

This course introduces basic principles of Bayesian reasoning with the goal of helping us leverage our common-sense understandings of inference and hone our intuition when conducting causal analysis with qualitative evidence. We will examine the foundations of Bayesian probability as well as concrete applications to single case studies, comparative case studies, comparative historical analysis, and multi-methods research. Students will practice applying Bayesian reasoning to assess the strength and quality of inferences in published studies, drawing on exemplars of qualitative research from various fields of socio-political analysis including development studies, comparative politics, international relations, and policy analysis. Students will also apply Bayesian principles to various aspects of their own dissertation research in progress—e.g., generating or revising hypotheses, selecting cases, identifying weaknesses in salient background literature, and assessing the inferential weight of available evidence.

Upon completing the course, students will be equipped with a concrete set of Bayesian-inspired best practices to deploy in their own research, as well as widely-applicable analytic skills that will help them to better evaluate and critique socio-political analysis.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT. Students will attend [CP-880] lectures and seminars in LT. Additional teaching and learning support in writing the final project will be agreed between the instructor and the student’s PhD supervisor.

**Formative coursework:** Students will be expected to produce 1 exercise and 1 project in the LT. Students will receive written and oral formative assessment on in-class exercises, which will ask them to explain key Bayesian concepts (e.g., the “weight of evidence”) in their own words and apply them to concrete examples (e.g. use Bayes' rule to derive an inference from several pieces of evidence). In addition, students will receive oral feedback on the first section of their final project, which will set up rival hypotheses to be compared in light of case evidence.

**Indicative reading:**

Methodological foundations:

Qualitative research exemplars:

**Assessment:** Project (100%, 5000 words) in the ST. Students can choose from two options in consultation with the course instructor and the PhD supervisor, taking into account how far along they are in the research process:

(a) Conduct a full Bayesian scrutiny of a published work relevant to their dissertation topic, preferably one that analyses more than a single case. Students will be asked to pay attention to some nuanced aspects of Bayesian inference, including logical dependence among multiple pieces of evidence, and they will provide quantified assessments of priors, weight of evidence, and their posterior degree of confidence in the author’s argument relative to rival explanations in light of the evidence.

(b) Directly apply Bayesian reasoning to their own dissertation research in progress. Students will devise at least two rival hypotheses to compare (preferably three), assess and justify priors in light of salient background literature they have read, and assess the weight of any available evidence they possess from their preliminary research and/or provide a Bayesian rationale for case selection. Students will be asked to pay attention to some nuanced aspects of Bayesian inference, including logical dependence among multiple pieces of evidence, and they will provide quantified assessments of the weight of evidence and their degree of confidence in each hypothesis relative to the rivals in light of their background information and preliminary evidence.

**DV590 Half Unit**

**Economic Development Policy I**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Diana Weinhold CON 7.10 and Dr Elliott Green, Head of Department, Doctoral Programme Directors, MSc Course Convenor and PhD Supervisor

**Availability:** This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

This course is available as an option for students enrolled in the MRes/PhD in International Development only.

**Course content:** This course explores the foundations of applied macroeconomic policy analysis by combining a rigorous introduction to advanced quantitative methods with applications to the theory and empirical topics of long-run growth in developing countries. Throughout the course, lectures provide analytical but non-technical overviews of broad themes in long-run growth and development policy, with a strong emphasis on how the body of knowledge has evolved over time via the synthesis of theoretical advances and rigorous empirical testing. Topics including growth theory, institutions and history, economic geography, globalization, balance of payments and financial crises, environmental policy and international finance. Classes in the first half of term will focus on building analytical skills to read, interpret, and critique econometric approaches to causal identification commonly used in the academic development literature. The emphasis will be on developing rigorous intuition rather than technical details; we focus on teaching students from a broad range of backgrounds to understand and critically consume high-level applied research in a sophisticated manner. The seminars in the second half of term give students an opportunity to repeatedly practice and improve their skills by working through problem sets based on top academic journal articles addressing issues from the lectures on macroeconomic development. While some background in economics and statistics is helpful, the course is designed to be engaging and challenging for students from a broad variety of backgrounds, from those with no economics and statistics to those with more advanced skills in either one or both areas. Strong analytical skills (whether quantitative or not) and a sturdy work ethic are the best predictors of success.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

A plan for the research paper (1500-2000 words) on which the
student will receive feedback and topic approval

Indicative reading: Indicative reading: The bulk of the course will be taught using journal articles. A reading list will be handed out by the lecturers at the beginning of their sessions. Useful reference texts include D Ray, Development Economics (1998) which will serve as the course text, W Easterly, The Quest for Growth;

Assessment: Essay (100%, 5000 words) in the ST.

1 x 5000 word research paper to be submitted on the first Friday of the Summer Term. The research paper will be co-marked by the course convenor and the student’s PhD supervisor

DV591  Half Unit  Economic Development Policy II

This information is for the 2018/19 session.

Teacher responsible: Dr Diana Weinhold CON 7.10, Dr Sandra Sequeira CON 7.09 and Dr Elliott Green CON 8.07

Head of Department, Doctoral Programme Directors, MSc Course Convener and PhD Supervisor

Availability: This course is available on the MRes/PhD in International Development. This course is not available as an outside option.

This course is available as an option for students enrolled in the MRes/PhD in International Development only.

Course content: This course examines the microeconomic foundations of economic policy-making in developing countries. Classes will combine economic theory and rigorous empirical analysis to better understand the impact of economic development policy on development goals. We will focus on specific examples chosen from development cases worldwide to learn which policies have worked, which ones have not, and how a rigorous analysis of these experiences can inform the design of better economic development policies in the future.

The course is structured around three main themes:

(i) Human Development: health policy, education policy and intra-household dynamics

(ii) Institutions and Markets: labour markets, state capacity for public service delivery and private sector development

(iii) Behavioural Economics and Development Policy Design: the importance of psychology in explaining economic behaviour and how it can inform better development policy design

Through in class discussions, lectures and coursework, students will develop analytical and quantitative skills for the study and practice of international development policy. These skills will enable students to interpret and critique both conceptual arguments and the empirical evidence used in the development economics literature and discourse.

Coursework will include a combination of class discussions with guest lecturers engaged in international development, problem sets, presentations and computer-lab based sessions for students to explore programming and statistical skills.

Students are strongly encouraged to take DV492, as a highly complementary course that will also apply the empirical methods taught in DV490 to topics in government policy such as redistribution, taxation and social insurance.

Teaching: 20 hours of lectures and 15 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

A plan for the research paper (1500-2000 words) on which the student will receive feedback and topic approval

Indicative reading: Indicative reading: The bulk of the course will be taught using journal articles. A reading list will be handed out by the lecturers at the beginning of their sessions. Useful reference texts include D Ray, Development Economics (1998) which will serve as the course text, W Easterly, The Quest for Growth;

Assessment: Essay (100%, 5000 words) in the ST.

1 x 5000 word research paper to be submitted on the first Friday of the Summer Term. The research paper will be co-marked by the course convenor and the student’s PhD supervisor

EC501  Work in Progress Seminars

This information is for the 2018/19 session.

Teacher responsible: Various.

Availability: This course is compulsory on the MRes/PhD in Economics. This course is not available as an outside option.

Course content: Research students present their work to faculty and peers in the designated field. Outside speakers are also invited from time to time.

Teaching: Seminars EC501: seminar groups covering the major PhD field options, i.e. Capital Markets, Development and Growth, Econometric Theory, Industrial Economics, International Economics, Labour Economics, Macroeconomics/Monetary Economics, Microeconomic Theory, Political Theory, Public Economics. The frequency of meetings to be determined according to the number of students in each specialism, but generally each group will meet weekly throughout the session.

Assessment: This course is not examinable.

EC518  Topics in Advanced Econometrics for Research Students

This information is for the 2018/19 session.

Teacher responsible: Prof Francisco Hidalgo 32L.4.20 and Prof Taisuke Otsu 32L 4.25

Availability: This course is available on the MRes/PhD in Economics. This course is not available as an outside option.

Course content: See course content for EC485. Additionally, this course will examine more advanced theories and applications in Econometric Theory. Recent developments in the field will be discussed, giving students an insight into the process by which research is conducted, and suggesting fruitful areas for research.

Teaching: 20 hours of EC485 Topics in Advanced Econometrics lectures and 10 hours of EC518 lectures in each of the MT and the LT.

Indicative reading: See reading list for EC485. Additional readings will be recommended at the start of the course.

Assessment: Exam (50%, duration: 2 hours) in the January exam period.

Exam (50%, duration: 2 hours) in the summer exam period.

EC532  International Economics for Research Students

This information is for the 2018/19 session.

Teacher responsible: Dr Swati Dhingra 32L.2.31, Dr Keyu Jin 32L.1.17 and Dr Catherine Thomas NAB.5.27

Dr Vania Stavrekeva

Availability: This course is available on the MRes/PhD in Economics. This course is not available as an outside option.

Course content: This course is concerned with the latest developments in international economics. The course builds on techniques introduced in MSc International Economics (EC421) to take students to the research frontier. One term covers international trade and the other term covers international macroeconomics.

The course is based around research papers. Topics covered vary from year as the research frontier expands. A list of representative topics in international trade includes: micro-econometric studies of international trade, theories of heterogeneous firms and trade, theories of incomplete contracts and trade, and the political economy of trade policy. A list of representative topics in international macroeconomics includes international business cycles, determinants of international capital flows, portfolio choice and risk sharing, monetary and fiscal policy in open economies, theoretical and empirical work on the real exchange rate and
international financial crises (e.g., currency attacks and sovereign defaults).

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Indicative reading:** Readings will be from journal articles; a list will be supplied at the start of term.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

----------

**EC533**

**Labour Economics for Research Students**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Guy Michaels 32L.2.10, Prof Stephen Machin 32L.2.06A and Prof Yona Rubinstein NAB.5.32

**Availability:** This course is available on the MRes/PhD in Economics and MRes/PhD in Management (Marketing). This course is not available as an outside option.

**Course content:** The aim of the course is to familiarise students with main theoretical and empirical issues in current labour economics, to provide them with the tools for carrying out independent research in the field, and to provide a perspective on areas of ongoing research. The course has a strong applied focus. For each major topic covered we will investigate the main available theories in light of their testable implications, and discuss the advantages and limitations of existing empirical work and assess policy options.

Topics include:
- Labour supply, household behaviour, and the allocation of time
- Labour demand and monopsony
- Search, matching, labour market frictions, unions, and unemployment
- Wage determination, compensating differentials, race and gender gaps, and wage inequality
- Human capital, returns to schooling, and training
- Contracts and incentives in the labour market

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** One piece of work per term will be required and feedback given by teachers.

**Indicative reading:** Readings will be mainly from journal articles; a list will be supplied at the start of term.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

----------

**EC534**

**Public Economics for Research Students**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Daniel Reck 32L.3.16, Prof Camille Landais 32L.3.23 and Mr Xavier Jaravel 32L.3.14

**Availability:** This course is available on the MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** The course will cover the economics of the public sector, including material on taxation, public expenditures and political economics. The course, which covers both theory and empirics, aims to give students a broad overview of this growing field and bring them to the research frontier. The specific topics covered may vary from year to year, but the following general areas would typically be included:
- Behavioural responses to taxes and transfers
- Optimal taxation
- Dynamic taxation
- Behavioural public economics
- Social insurance
- Federalism
- Privatization and regulation
- Voting
- The role of communication in politics
- Special-interest politics
- Political institutions
- Political accountability

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** One piece of work per term will be required and feedback given by teachers.

**Indicative reading:** Readings will be mainly from journal articles; a list will be supplied at the start of the term. Although the course will not be based on a textbook as such, it will make extensive use of the Handbook of Public Economics Vol. 1-4 (A.J. Auerbach and M. Feldstein, eds.) and of T Persson and G. Tabellini, Political Economy, MIT Press, 2002.

**Assessment:** Other (40%) and other (30%) in the MT and LT.

Take home exam (30%) in the ST.

The assessment for this course is as follows:
1) 4 problem sets due throughout the MT and LT terms (40%) 2) An "extended replication exercise" (30%) which would consist of:
   i) writing a referee report on that paper (MT)
   ii) replicating a paper (empirical paper or paper based on simulations), (beginning of LT)
   iii) starting an extension of that paper (which requires developing a research design, positioning the question of the extension in the literature, etc.) ; (end of LT, start of ST)
3) A take-home exam in the ST (30%)

----------

**EC535**

**Development Economics for Research Students**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Maitreesh Ghatak 32L.3.08A, Prof Nava Ashraf 32L.3.18, Dr Gharad Bryan 32L.3.10 and Prof Tim Besley 32L.3.37

**Availability:** This course is available on the MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** The course will cover advanced topics in development economics where current research is active. It is intended to introduce research students in economics to the latest research in development economics and to serve as an input into the research work of these students.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** One piece of work per term will be required and feedback will be given by teachers.

**Indicative reading:** Readings will be mainly from journal articles; a list will be supplied at the start of term.

**Assessment:** Other (100%) in the MT and LT.

There will be six take home problem sets, three in MT and three in LT. Problem set questions may include an empirical exercise analysing data, a computation exercise, solving a theoretical exercise, or evaluating a recent unpublished working paper. Each problem set will carry equal weight.

----------

**EC536**

**Economics of Industry for Research Students**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Pasquale Schiraldi 32L.4.21, Prof Martin Pesendorfer 32L.4.19

**Availability:** This course is available on the MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** The main goal is to familiarize students with selected theoretical and empirical topics in industrial organization and to put students in a position to do their own research. Classical IO theory, well established empirical techniques including estimation of demand, production and models of strategic
interaction and topics at the forefront of current IO research will be covered.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** One piece of work per term will be required and feedback given by teachers.

**Indicative reading:** Readings will be mainly from journal articles; a list will be supplied at the start of term.

**Assessment:** Other (100%) in the MT and LT.

8 take home problem sets (two for each part - four in MT and four in LT). Each problem set will carry equal weight. Problem set questions may include an empirical exercise analysing data, a computation exercise, solving an analytical problem or evaluating a recent unpublished working paper.

---

**EC537**

**Microeconomic Theory for Research Students**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Matthew Levy 32L.3.21, Prof Balazs Szentes 32L.4.05 and Dr Andrew Ellis 32L.3.15

**Availability:** This course is available on the MRes/PhD in Economics. This course is not available as an outside option.

**Pre-requisites:** Students must have completed Microeconomics for MRes students (EC441).

**Course content:** The objective of this course is to provide students with a graduate level introduction to advanced topics and contemporary developments in Microeconomic Theory. Topics will include:

- Classic static and dynamic game theory
- Contract theory
- Bounded rationality
- Psychology and economics.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** One piece of work per term will be required and assessed by teachers.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

---

**EC539**

**Macroeconomics for Research Students**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Shengxing Zhang 32L.1.16, Prof Ricardo Reis 32L.1.27 and Prof Philippe Aghion 32L.2.30

**Availability:** This course is available on the MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** Surveys the most recent development in macroeconomics, with an emphasis on technical detail and directions for further research opened up by the material. The goal is to put the students on the research path by bringing them to the research frontier.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** One piece of work per term will be required and feedback given by teachers.

**Indicative reading:** Readings will be mainly from journal articles; a list will be supplied at the start of term.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

---

**EC540**

**Political Economy for Research Students**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Torsten Persson, Prof Gilat Levy 32L.4.31, Dr Ethan Ilzetzki 32L.1.11 and Prof Torun Dewan CON.6.07

**Availability:** This course is available on the MRes/PhD in Economics, MRes/PhD in Management (Organisational Behaviour) and MRes/PhD in Political Science. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** MRes Economics first year core courses for Economics students, EC400 and adviser’s approval for Government students: EC400, EC411 (or equivalent) and course convenor’s approval for all other students.

**Course content:** The course will provide students with the economic methodology and tools for the analysis of political decision making and its effect on public policy. We will consider how political institutions shape economic policy, e.g., how do institutions such as election, legislative bargaining, political parties or non-democratic regimes shape redistributive policies, fiscal policies, and the size of government. We will also consider how in the absence of institutions, political attitudes, beliefs and norms shape policies. The course will focus on analytical models and their testable implications.

**Teaching:** 30 hours of lectures in the MT. 30 hours of lectures in the LT.

**Formative coursework:** Students will discuss papers in lectures and will be given the opportunity to solve problem sets.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

---

**EC599**

**Research Paper in Economics**

This information is for the 2018/19 session.

**Teacher responsible:** Various.

**Availability:** This course is compulsory on the MRes/PhD in Economics. This course is not available as an outside option.

**Course content:** A research paper, between 5,000 and 10,000 words, related to the student’s designated major field, to be submitted early in Summer term.

**Assessment:** Dissertation (100%, 10000 words) in the ST.

---

**EH510**

**Seminar on Modern Economic History**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Neil Cummins and Dr Eric Schneider

**Availability:** This course is available on the MPhil/PhD in Economic History. This course is available as an outside option to students on other programmes where regulations permit.

For research students. Also open to other EH graduate students and attended by LSE and other faculty.

**Course content:** The seminar provides a context in which research
students can discuss with a range of seminar presenters from inside and outside LSE presentations of different aspects of economic development during the modern period.

Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT. 4 hours of seminars in the ST.

---

**EH518  Not available in 2018/19**

**The Economic History of Firms & Industries Seminar**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Gerben Bakker SAR 5.09

**Availability:** This course is available on the MRes/PhD in Management (Organisational Behaviour). This course is available as an outside option to students on other programmes where regulations permit.

For research students. Also open to other EH graduate students and attended by LSE and other faculty.

**Course content:** The seminar provides a context in which research students can discuss with a range of seminar presenters from inside and outside LSE presentations of different aspects of economic development. Presentations in this seminar relate particularly to economic development issues beyond the N American-European area, including aspects of global economic history.

**Teaching:** 6 hours of seminars in the MT. 6 hours of seminars in the LT. 6 hours of seminars in the ST.

---

**EH520**

**Approaches to Economic and Social History**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Mary Morgan SAR 6D9

**Availability:** This course is available on the MPhil/PhD in Economic History. This course is not available as an outside option. This course is restricted to 1st year MPhil students in the Department of Economic History, for whom attendance is compulsory.

**Course content:** Approaches to Economic and Social History

**Teaching:** 20 hours of seminars in the MT. 16 hours of seminars in the LT.

**Indicative reading:** There is no indicative reading list for this course as readings are updated annually to reflect students' interests.

**Assessment:** Assessment is by two pieces of written work, each approximately 1,500 words, on nominated topics to be submitted by the end of the Lent Term.

---

**EH590**

**Thesis Workshop in Economic History**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Neil Cummins and Dr Eric Schneider

**Availability:** This course is compulsory on the MRes/PhD in Quantitative Economic History. This course is not available as an outside option.

**Course content:** Thesis workshop in Economic History.

**Teaching:** 26 hours of seminars in the MT. 34 hours of seminars in the LT. 8 hours of seminars in the ST

**Assessment:** This course is not examined.

---

**EU550**

**Research Workshop in European Studies**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Spyridon Economides COW 2.07, Dr Waltraud Schelkle COW 1.06, Dr Sara Hagemann COW 1.05 and Dr Robert Hancke COW 2.09

**Availability:** This course is compulsory on the MPhil/PhD in European Studies. This course is available on the MPhil/PhD in European Studies. This course is not available as an outside option.

This course is compulsory for all first, second and third year European Institute MPhil/PhD students. The course is also recommended for those second and third year PhD students in the Government Department whose research focuses on European topics.

**Course content:** Presentation and detailed discussion of PhD theses, outlines and progress. Discussion of thesis chapters and related doctoral research. Discussion of research design and methodology. Practice conference panel sessions. A detailed syllabus is fixed at the start of each term.

**Teaching:** 15 hours of seminars in the MT. 15 hours of seminars in the LT.

**Assessment:** There is no examination for this course. Regular attendance and active participation is required. All students are required: to present at least one substantial chapter/paper draft; to act as a discussant on another paper; and to make a contribution to a conference panel session.

---

**EU555  Not available in 2018/19**

**Political Economy and Public Policy Workshop**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Sara Hagemann, Prof Mark Thatcher, Dr Stephen Woolcock and Dr James Morrison

**Availability:** This course is available on the MPhil/PhD in European Studies. This course is available with permission as an outside option to students on other programmes where regulations permit.

This workshop is jointly organised by the European Institute, the Government Department and the International Relations Department for research students of these departments working in the general area of political economy and public policy and who have usually passed their first year. Research students from other departments wishing to attend should contact the teachers responsible. It should be noted that the course has three codes - EU555, GV555 and IR555.

**Course content:** Presentation and intense discussion of thesis outlines, chapters and related work. A detailed programme is fixed at the start of the year. Seminar presentations by outside speakers may be added.

**Teaching:** 7 hours and 30 minutes of seminars in the MT. 7 hours and 30 minutes of seminars in the LT.

**Syllabus is fixed at the start of each term.**

**Assessment:** There is no examination for this course. Regular attendance and active participation by all students is required. All students are required: to present at least one substantial chapter/paper draft; to act as a discussant on another paper; and to make a contribution to a conference panel session.

---

**FM502**

**Corporate Finance for Research Students**

This information is for the 2018/19 session.

**Teacher responsible:** Professor Michael Burkart CON 1.01, Prof Daniel Paravisini Maggi CON 1.01 and Dr Ashwini Agrawal CON 1.01

**Availability:** This course is compulsory on the MRes/PhD in Finance. This course is available on the MPhil/PhD in Accounting.
This course is available with permission as an outside option to students on other programmes where regulations permit. Doctoral students in the Departments of Finance and Economics, and other students with the permission of the PhD Finance Programme Director.

Course content: The first half of this course focuses on the theory of corporate finance. The theory half of the course can, in turn, be subdivided into two parts. The first part reviews some of the classical concepts in corporate finance, using tools from game and contract theory to study incentive and information problems at the level of the firm, examining how financial contracts can be designed to mitigate these problems. This part of the course also considers how takeovers and ownership concentration can help to mitigate conflict of interests among insiders and investors in firms. The second part focuses on the theory of financial intermediation. This component reviews classic theories of financial intermediation and will introduce students to some recent work in this field. The second half of the course will consider empirical research in corporate finance. Several lectures will be devoted to research methodologies, such as data collection methods, randomized control trials, the use of instrumental variables in linear regressions, regression discontinuity designs, event studies, and structural estimation techniques. There will also be extensive discussion of current and established topics within empirical corporate finance, such as firm financing decisions, investment behaviour, control transactions, corporate governance, financial intermediation, household finance, and overlapping topics with industrial organization and labour economics.

Teaching: 30 hours of lectures in the MT. 30 hours of lectures in the LT.

Indicative reading: Readings will be mainly based on books and journal articles including:

Assessment: Exam (75%, duration: 3 hours) in the summer exam period. Project (25%) in the LT.

FM505
PhD Seminar in Finance

This information is for the 2018/19 session.

Availability: This course is compulsory on the MRes/PhD in Finance. This course is not available as an outside option.

Course content: This is a seminar course for PhD students in the early stages of their research to present their work in progress. Outside speakers may also be invited from time to time.

Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT.

Other meetings to be arranged as necessary.

Assessment: Essay (100%, 10000 words) in the LT.

A 10,000 word essay on a topic to be agreed with the student’s supervisor. This essay is to be submitted by the end of the ST of the third year of registration.

GI500
Doctoral Workshop: Department of Gender Studies

This information is for the 2018/19 session.

Teacher responsible: Professor Clare Hemmings and Professor Wendy Sigle

Availability: This course is compulsory on the MPhil/PhD in Gender. This course is not available as an outside option.

Course content: The aim of this course is to give students experience and practice in presenting chapters or papers related to their current research for critical discussion. The focus of the seminar is on the research process and students are expected to present at least once per year. Some summer term sessions may be used for professional training, such as CV preparation, conference paper preparation, publishing and teaching organisation.

Teaching: 13 one-and-a-half hour seminars held fortnightly in the MT, LT and ST. First year students must also audit GI424 Gender Knowledge and Research Practice (full participation in course). All students are expected to participate in courses run by the Department of Methodology, LSE Gender or within the School as advised by their supervisors. Students are also expected to participate in research seminars and public lectures. GI500 is team taught by faculty across the department.

Indicative reading: PhD chapters and articles suggested by students relevant to their topic.

Assessment: No summative assessment, but attendance and participation is considered part of the overall formal assessment of progress, including upgrade at the end of the first year and annually thereafter. Students are normally expected to attend GI500 until the end of their third year. Students should refer to the PhD handbook for advice on milestones.

GV501
Doctoral Workshop: Political Theory

This information is for the 2018/19 session.

Teacher responsible: Prof Katrin Flikschuh and Prof Lea Ypi

Availability: This course is available on the MRes/PhD in Political Science. This course is not available as an outside option.
Compulsory for PhD students in the Government Department specialising in political theory.

Course content: An opportunity for students to present chapters or papers related to their current research for critical discussion.

Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT. 4 hours of seminars in the ST.

There are typically 5 sessions in MT and 5 sessions in LT, and a variable number of sessions in ST. The precise schedule will be made available at the start of each term.

GV503 Political Philosophy Research Seminar
This information is for the 2018/19 session.
Teacher responsible: Dr Laura Valentini
Dr Lucia Rubinelli
Availability: This course is available on the MRes/PhD in Political Science. This course is available with permission as an outside option to students on other programmes where regulations permit. Compulsory for all PhD students in the Government Department specialising in political theory. Other interested students are welcome to attend, if numbers permit.

Course content: This course provides an introduction to the philosophical and methodological foundations of political theory. It aims to give doctoral students a comprehensive conceptual toolbox that can be brought to bear on many different substantive problems and research questions in political theory and neighbouring fields and will prepare doctoral students for choosing and reflecting on their methodological approach. The course runs in concurrence with the Political Philosophy Research Seminar and the Doctoral Workshop in Political Theory, complemented by a reading group in the Lent Term on methodological questions in political theory.

Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT. 4 hours of seminars in the ST.

Assessment: No assessment

GV504 Research Methods in Political Theory
This information is for the 2018/19 session.
Teacher responsible: Prof Lea Yip
Availability: This course is available on the MRes/PhD in Political Science. This course is available with permission as an outside option to students on other programmes where regulations permit. Compulsory for all PhD students in the Government Department specialising in political theory. Other interested students are welcome to attend, if numbers permit.

Course content: This course introduces and critically evaluates, at the advanced postgraduate level, a key range of qualitative techniques and methods in political science. It aims to build students’ capability to evaluate such methods and to select, reject, and deploy them in research design and practice. The course begins with debates over the place of qualitative methods in political science, and the question of how to match ideas to methods. The rest of the course is devoted to exploring a range of qualitative techniques, including case selection, case studies and process tracing, comparisons, interviews and field research, qualitative comparative analysis, and ‘mixed methods’. The content of each week will be integrated as closely as possible with participants’ own research projects (even if qualitative work constitutes only a small part thereof). The course is relevant for political scientists, but also students of development and international relations.

Teaching: 20 hours of seminars in the MT.

Formative coursework: Regular presentations in the reading group.

Assessment: Essay (30%, 2500 words) in the MT.

Project (70%, 3000 words) in the LT.

(1) A thorough critique of an article which uses one of the methods discussed in the course (2500 words) and (2) EITHER a complete ‘mock’ research design, preferably (although not necessarily) on their own research question (3000 words) OR a discussion of the advantages and limitations of a specific empirical technique, based on a review of at least two pieces of published research (3000 words).

GV513 Half Unit Qualitative Methods in the Study of Politics
This information is for the 2018/19 session.
Teacher responsible: Dr Steffen Hertog CON4.01
Availability: This course is available on the MRes/PhD in Political Science. This course is available with permission as an outside option to students on other programmes where regulations permit. Other PhD students must request permission from the class teacher, which is routinely granted subject to capacity.

Course content: This course introduces and critically evaluates, at the advanced postgraduate level, a key range of qualitative techniques and methods in political science. It aims to build students’ capability to evaluate such methods and to select, reject, and deploy them in research design and practice. The course begins with debates over the place of qualitative methods in political science, and the question of how to match ideas to methods. The rest of the course is devoted to exploring a range of qualitative techniques, including case selection, case studies and process tracing, comparisons, interviews and field research, qualitative comparative analysis, and ‘mixed methods’. The content of each week will be integrated as closely as possible with participants’ own research projects (even if qualitative work constitutes only a small part thereof). The course is relevant for political scientists, but also students of development and international relations.

Teaching: 20 hours of seminars in the MT.

Formative coursework: Regular presentations in the reading group.

Assessment: Essay (50%, 4000 words) in the LT.

Essay (50%, 4000 words) in the ST.

GV514 Political Science and Political Economy Doctoral Workshop
This information is for the 2018/19 session.
Teacher responsible: Dr Stephane Wolton CON 5.08
Availability: This course is available on the MRes/PhD in Political Science. This course is available as an outside option to students on other programmes where regulations permit. Mainly for second and subsequent year research students and staff in Government and elsewhere in the School involved in research in political science and/or political economy. First year MRes and research students are welcome to attend.

Course content: The PSPE Doctoral Workshop/Work in Progress Seminar is intended as a setting in which Research Students from the Government Department present and receive feedback on early stage and ongoing research projects. In weeks when research
students do not present, LSE PhD students, LSE staff, and visiting
scholars from other departments will present. The Seminar aims
to foster a strong and lively research community and as such,
welcome empirical or theoretical work linked in any way to politics
or political economy.

Teaching: 16 hours and 30 minutes of seminars in the MT. 16
hours and 30 minutes of seminars in the LT. 10 hours and 30
minutes of seminars in the ST.
The workshop will meet every week.
Assessment: Not assessed.

GV517  Half Unit  Not available in 2018/19
Comparative Political Economy: New Approaches and Issues in CPE

This information is for the 2018/19 session.
Teacher responsible: Prof David Soskice and Prof Catherine Boone.
Availability: This course is available on the MRes/PhD in
Management (Employment Relations and Human Resources) and
MRes/PhD in Political Science. This course is available with
permission as an outside option to students on other programmes
where regulations permit.
This course is open to research students from any of the LSE
departments.
Pre-requisites: This course will be open to research students (PhD
students) from any of the LSE departments.
Course content: This half-unit reading seminar will survey a set
of major topics in the Comparative Political Economy (CPE) of
advanced capitalist and developing countries. We will consider
different analytic strategies for conceptualizing variation in national
economic structure, explaining change in economic structure, and
understanding the political causes and effects thereof. The seminar
is designed for PhD students (research students) across the School
wanting to familiarize themselves with some of the major themes,
controversies, and research frontiers in CPE. Our goal is to nurture
innovation in doctoral-level CPE research at the LSE.
While situating our analyses in the context of a changing
global economy, our focus will be on describing and explaining
transformation at the level of nation states. Drivers of change
will be found in the locus and organization of political power, in
technological change, and/or in the dynamics of capital. Our
seminar will explore both productive connections and tensions that
emerge across these explanatory models.
Course materials are organized around three major topic areas
(though like most else in CPE they are interrelated): redistribution, accumulation, and domestic regimes. A great many questions fit
into these areas and our idea is that the seminars should enable
students to raise issues related to their research.
Teaching: 30 hours of seminars in the LT.
Formative coursework: For formative work, feedback will be
provided on a dissertation proposal or chapter.
Indicative reading: Ben Ansell, From the Ballot to the Blackboard: The
Redistributive Political Economy of Education Reform, CUP 2014.
Berkowitz, Hausmann, Kitschelt and Kriesi eds. The Politics of
Advanced Capitalism CUP 2015. Brynjolfsson & McAfee, The
Stagnation: Facts, Causes and Cures CEPR 2014 (chaps by
Summers, Eichengreen, Krugman, Gordon, Glaeser, Mokyr, Crafts).
Kimberly Morgan, "Path Shifting of the Welfare State: Electoral
Competition and the Expansion of Work-Family Policies in Western
Europe", World Politics, Jan 2013. Ellen Meikins Woods, "Unhappy
Families: Global Capitalism in a World of Nation-States," Monthly
Review, 51/3 (1999). Acmoglu, Daron, and James A. Robinson,
Economic Origins of Dictatorship and Democracy (Cambridge:
Cambridge University Press, 2006), chapters 2-3 (pp. 15-87). Ali
Kadri, Arab Development Denied: Dynamics of Accumulation by
Wars of Encroachment (Anthem 2014). Richard F. Doner, The
Politics of Uneven Development: Thailand's Economic Growth in
Comparative Perspective (Cambridge U. Press, 2009). Harvey, D.

The New Imperialism: Accumulation by Dispossession, Monthly
Ross Schneider, Hierarchical Capitalism in Latin America: Business,
Labor, and the Challenges of Equitable Development (CUP 2013).

Assessment: Coursework (100%, 5000 words) in the LT.
Each student will submit a 20-25 page (double spaced) research
paper, dissertation proposal, or draft dissertation chapter as the
basis of assessment for this course.

GV555  Not available in 2018/19
Political Economy and Public Policy Workshop

This information is for the 2018/19 session.
Teacher responsible: Prof Mark Thatcher, Dr Stephen Woolcock,
Dr James Morrison and Dr Sara Hagemann
Availability: This course is available on the MPhil/PhD in European
Studies and MRes/PhD in Political Science. This course is available
as an outside option to students on other programmes where
regulations permit.
This workshop is jointly organised by the European Institute,
the Government Department and the International Relations
Department for research students of these departments working
in the general area of political economy and public policy and
who have usually passed their first year. Research students from
other departments wishing to attend should contact the teachers
responsible.
It should be noted that the course has three codes- EU555, GV555
and IR555.
Course content: Presentation and intense discussion of
thesis outlines, chapters and related work. A detailed programme
is fixed at the start of the year. Seminar presentations by outside
speakers may be added.
Teaching: 7 hours and 30 minutes of seminars in the MT. 7 hours
and 30 minutes of seminars in the LT.
Seminars take place every other week throughout MT and LT. There
is also a mini-conference in the ST, organised by the students
themselves.
Assessment: There is no examination for this course. Regular
attendance and active participation by all students is required.
Each attending student has to give at least one presentation of
their thesis research.

GV599  Research Prospectus in Political Science

This information is for the 2018/19 session.
Teacher responsible: Dr Laura Valentini
Availability: This course is compulsory on the MRes/PhD in
Political Science. This course is not available as an outside option.
For MRes/PhD students in Political Science only.
Course content: A research paper, not to exceed 10,000 words,
related to the student’s designated major field, to be submitted in
August.
Assessment: Research project (100%, 10000 words) in August.

GV5X1  Research Design in the Social Sciences

This information is for the 2018/19 session.
Teacher responsible: Dr Laura Valentini, Dr Steffen Hertog and Dr
Daniel Berliner
Availability: This course is compulsory on the MRes/PhD in
Political Science. This course is available as an outside option to
students on other programmes where regulations permit.
Course content: The aim of this course is to help PhD students
develop a research design. Students will learn how to find their research questions, choose a feasible data collection or modelling strategy, and match data collection and analytic methods to the aims of the PhD project. We also consider the relation of political theory and political science and explore research methodologies in normative theory. This course is therefore designed to be a primer in asking the right questions, exploring the options available to us and understanding the consequences of the design decisions that we make. Accordingly, this course is ultimately about turning good research questions into systematic projects that deliver interesting and worthwhile results. We also debate issues in research ethics and provide advice on publication strategies.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 7 hours of workshops in the ST.
This course has a reading week in Week 6 of both MT and LT. The Michaelmas term submit in Week 1 of the Lent term; modules on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Lent term submit in Week 1 of the Summer term). The Michaelmas term submit in Week 1 of the Summer term). The Michaelmas term submit in Week 1 of the Lent term; modules on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Lent term submit in Week 1 of the Summer term). The Michaelmas term submit in Week 1 of the Lent term; modules on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Lent term submit in Week 1 of the Summer term). The Michaelmas term submit in Week 1 of the Lent term; modules on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Lent term submit in Week 1 of the Summer term). The Michaelmas term submit in Week 1 of the Lent term; modules on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Lent term submit in Week 1 of the Summer term). The Michaelmas term submit in Week 1 of the Lent term; modules on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Lent term submit in Week 1 of the Summer term).

Teaching: Attend the lectures, seminars and reading week activities (if applicable) of the relevant MSc course. Formative coursework: A plan for the research paper (1,500 words) on which the students receive feedback and topic approval. Assessment: Essay (20%, 2500 words) in the MT. Essay (20%, 2500 words) in the LT. Research project (60%) in the ST.

GV5X3
Research Paper in European Politics and Policy
This information is for the 2018/19 session.
Teacher responsible: MRes/PhD Political Science Programme Director
Availability: This course is available on the MRes/PhD in Political Science. This course is not available as an outside option. Students on the MRes/PhD in Political Science only.
Course content: Attend a GV-prefixed course from the MSc in Comparative Politics and write a research paper on a topic agreed by the convenor of the MSc course and the student’s PhD supervisor. Students must obtain permission from the relevant MSc course convenor to attend the course concerned under this option. Regular attendance and active contributions to the seminars are required.
Teaching: Attend the lectures, seminars and reading week activities (if applicable) of the relevant MSc course.
Assessment: Other (100%). Either a 5,000 word research paper (for a half-unit course) or a 10,000 word research paper (for a full-unit course), to be submitted on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Michaelmas term submit in Week 1 of the Lent term; modules taken in the Lent term submit in Week 1 of the Summer term). The research paper will be co-marked by the convenor of the relevant MSc course and the PhD supervisor of the student.

GV5X4
Research Paper in Global Politics
This information is for the 2018/19 session.
Teacher responsible: MRes/PhD Political Science Programme Director
Availability: This course is available on the MRes/PhD in Political Science. This course is not available as an outside option. Students on the MRes/PhD in Political Science only.
Course content: Attend a GV-prefixed course from the MSc in Global Politics and write a research paper on a topic agreed by the convenor of the MSc course and the student’s PhD supervisor. Students must obtain permission from the relevant MSc course convenor to attend the course concerned under this option. Regular attendance and active contributions to the seminars are required.
Teaching: Attend the lectures, seminars and reading week activities (if applicable) of the relevant MSc course.
Assessment: Other (100%). Either a 5,000 word research paper (for a half-unit course) or a 10,000 word research paper (for a full-unit course), to be submitted on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Michaelmas term submit in Week 1 of the Lent term; modules taken in the Lent term submit in Week 1 of the Summer term). The research paper will be co-marked by the convenor of the relevant MSc course and the PhD supervisor of the student.

GV5X5
Research Paper in Political Science and Political Economy
This information is for the 2018/19 session.
Teacher responsible: MRes/PhD Political Science Programme Director
Availability: This course is available on the MRes/PhD in Political Science. This course is not available as an outside option. Students on the MRes/PhD in Political Science only.
Research Course Guides 965

Course content: Attend a GV-prefixed course from the MSc in Political Science and Political Economy and write a research paper on a topic agreed by the convenor of the MSc course and the student’s PhD supervisor. Students must obtain permission from the relevant MSc course convenor to attend the course concerned under this option. In some instances, students will be expected to complete the assessment method specified by the course convenor where a research paper is not appropriate. Regular attendance and active contributions to the seminars are required.

Teaching: Attend the lectures, seminars and reading week activities (if applicable) of the relevant MSc course.

Formative coursework: A plan for the research paper (1,500 words) on which the students receive feedback and topic approval where applicable.

Assessment: Other (100%). Either a 5,000 word research paper (for a half-unit course) or a 10,000 word research paper (for a full-unit course), to be submitted on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Michaelmas term submit in Week 1 of the Lent term; modules taken in the Lent term submit in Week 1 of the Summer term). The research paper will be co-marked by the convenor of the relevant MSc course and the PhD supervisor of the student.

GV5X6
Research Paper in Political Theory

This information is for the 2018/19 session.

Teacher responsible: MRes/PhD Political Science Programme Director

Availability: This course is available on the MRes/PhD in Political Science. This course is not available as an outside option.

Students on the MRes/PhD in Political Science only.

Course content: Attend a GV-prefixed course from the MSc in Political Theory and write a research paper on a topic agreed by the convenor of the MSc course and the student’s PhD supervisor. Students must obtain permission from the relevant MSc course convenor to attend the course concerned under this option. Regular attendance and active contributions to the seminars are required.

Teaching: Attend the lectures, seminars and reading week activities (if applicable) of the relevant MSc course.

Formative coursework: A plan for the research paper (1,500 words) on which the students receive feedback and topic approval.

Assessment: Other (100%). Either a 5,000 word research paper (for a half-unit course) or a 10,000 word research paper (for a full-unit course), to be submitted on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Michaelmas term submit in Week 1 of the Lent term; modules taken in the Lent term submit in Week 1 of the Summer term). The research paper will be co-marked by the convenor of the relevant MSc course and the PhD supervisor of the student.

GV5X7
Research Paper in Public Policy and Administration

This information is for the 2018/19 session.

Teacher responsible: MRes/PhD Political Science Programme Director

Availability: This course is available on the MRes/PhD in Political Science. This course is not available as an outside option.

Students on the MRes/PhD in Political Science only.

Course content: Attend a GV-prefixed course from the MSc in Public Policy and Administration and write a research paper on a topic agreed by the convenor of the MSc course and the student’s PhD supervisor. Students must obtain permission from the relevant MSc course convenor to attend the course concerned under this option. Regular attendance and active contributions to the seminars are required.

Teaching: Attend the lectures seminars and reading week activities (if applicable) of the relevant MSc course.

Formative coursework: A plan for the research paper (1,500 words) on which the students receive feedback and topic approval.

Assessment: Other (100%). Either a 5,000 word research paper (for a half-unit course) or a 10,000 word research paper (for a full-unit course), to be submitted on Tuesday Week 1 of the subsequent term (i.e., modules taken in the Michaelmas term submit in Week 1 of the Lent term; modules taken in the Lent term submit in Week 1 of the Summer term). The research paper will be co-marked by the convenor of the relevant MSc course and the PhD supervisor of the student.

GY500 Research Project Seminar

This information is for the 2018/19 session.

Teacher responsible: Prof Olmo Silva STC 5.06A, Dr Ryan Low STC 5.12 and Dr Benjamin Groom STC 4.20

Availability: This course is compulsory on the MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Economics, MPhil/PhD in Environmental Policy and Development, MPhil/PhD in Human Geography and Urban Studies and MPhil/PhD in Regional and Urban Planning Studies. This course is not available as an outside option.

Course content: Presentations by research students of aspects of their own research, stressing problems of theory, methodology and techniques.

Teaching: A series of workshops, running throughout the year, organised by each of the three research clusters in the Department of Geography & Environment (Economic Geography, Environmental Economics & Policy; Urbanisation, Planning and Development).

Formative coursework: All students attending this course will be required to present their own research once each year.

Assessment: This course is not intended as preparation for any particular examination.

GY502 Staff / Research Students Seminars

This information is for the 2018/19 session.

Teacher responsible: Dr Sef Roth STC4.21a, Dr Ryan Centner STC 6.01c and Dr Felipe Carozzi, STC 4.16

Availability: This course is compulsory on the MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Economics, MPhil/PhD in Environmental Policy and Development, MPhil/PhD in Human Geography and Urban Studies and MPhil/PhD in Regional and Urban Planning Studies. This course is available on the MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Economics and MPhil/PhD in Human Geography and Urban Studies. This course is not available as an outside option.

Course content: Topical seminar series involving presentations by speakers from both inside and outside the Department on aspects of their own research.

Teaching: There are three different seminar series taking place regularly throughout the year, organised by each of the three research clusters in the Department of Geography & Environment. The Economic Geography cluster seminar series is organized in conjunction with the Spatial Economics Research Centre (SERC); the Environmental Economics & Policy cluster seminar series is organized together with the Grantham Research Institute on...
Climate Change and the Environment, and the Urbanisation, Planning and Development seminar series. The timing and length of each seminar series vary across research clusters. Urbanisation, Planning and Development Cluster: *8 x one-and-a-half hour seminars in MT and 8 x one-and-a-half hour seminars in LT. Economic Geography Cluster: *10 x one-and-a-half hour seminars in MT and 10 x one-and-a-half hour seminars in LT. Environmental Economics and Policy Cluster: *11 x one-and-a-half hour seminars in MT, LT and ST. *Note that the actual seminar schedule is subject to change due to availability of speakers.

**Assessment:** This course is not intended as preparation for any particular examination. But, students will find it useful in increasing their awareness of current research and the application of research methods across the discipline.

---

**GY526  Half Unit**

**Advanced Methods in Environmental and Resource Economics: Time, Risk and Environmental Policy**

This information is for the 2018/19 session.

**Teacher responsible:** Dr Antony Millner FAW Grantham Research Institute and Dr Beniamin Groom STC 420

**Availability:** This course is available on the MPhil/PhD in Environmental Economics. This course is available with permission as an outside option to students on other programmes where regulations permit.

A strong background in economics is required to take this course for credit. A Master's degree in economics or equivalent will usually be required. Students from the MSc in Environmental Economics and Climate Change and those enrolled on GY426: Environmental and Resource Economics are allowed to audit the course.

**Pre-requisites:** The course will be core training for the PhD in Environmental Economics. A background in Economics is therefore required to take this course. Students taking the MSc in Environmental Economics and Climate Change or students enrolled on the GY426: Environmental and Resource Economics can audit the course.

**Course content:** Many of the most important environmental problems require us to choose between policy options with very uncertain, very long-run, consequences. Climate change provides an archetypal example, but this is also true of e.g. biodiversity loss and the decline in global fisheries. This half unit course will introduce you to the decision tools economists use to inform long-run, uncertain, policy choices. We will critically examine these tools, and how they are applied in environmental economics. The aim is to provide you with enough technical background to be able to read current research papers in the field, evaluate their claims for yourself, and begin to formulate your own research questions. Topics will include intertemporal choice and discounting, risk, uncertainty and learning, catastrophes, and some more advanced discussion of dynamic optimization. We will connect some of the economics literature on these topics to parallel discussions in philosophy. We will illustrate the theory we cover with applications to common-pool resource problems, climate change, and renewable and exhaustible resource management.

There will be 5 x 2 hour lectures:
1) Inter-temporal Decision Making;
2) Risk and Uncertainty;
3) Information and Learning;
4) The Economics of Catastrophes;
5) Elements of Dynamic Optimisation.

**Teaching:** 10 hours of lectures and 5 hours of seminars in the LT. There will be 5 x 2 hour lectures:
1) Inter-temporal Decision Making;
2) Risk and Uncertainty;
3) Information and Learning;
4) The Economics of Catastrophes;
5) Elements of Dynamic Optimisation.

**Assessment:** Project (100%, 5000 words) in the ST. The summative assessment project counts for 100% of the overall grade for the course. This project will test understanding of the theoretical methods and their application to real world problems.

---

**HP500**

**Advanced Health Policy and Health Economics**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Andrew Street COW 3.03 and Dr Mylene Lagarde COW 3.02

**Availability:** This course is compulsory on the MPhil/PhD in Health Policy and Health Economics. This course is not available as an outside option.

**Pre-requisites:** Admission to the Department of Health Policy's PhD programme in Health Policy and Health Economics

**Course content:** The PhD programme will be centred around this core course. Alongside a set of traditional and bespoke lectures, the course includes a series of seminars given by faculty in the Department of Health Policy and external speakers, thereby guaranteeing exposure to different materials, research areas, and theoretical and analytical techniques. The course will provide students with insights into the breadth of work in the areas of health and social care policy and health economics, and will act as a supportive critical forum for discussion of each PhD student's work-in-progress. The course features a journal club where key articles are critically appraised.

In the second and third years of enrolment, full-time students will be required to participate in work-in-progress seminars where students present work relating to their theses and contribute fully to discussions on their colleagues’ work, and will be encouraged to attend external conferences.

**Teaching:** 5 hours of lectures and 10 hours of seminars in the MT. 5 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures and 2 hours of seminars in the ST.

**Assessment:**
- Project (100%, 5000 words) in the ST.
- Project (100%, 5000 words) in the LT.

**Indicative reading:**
- Tu: Health Economics (Palgrave Macmillan 2014).

**Indicative reading:**

**Assessment:** Project (100%, 5000 words) in the ST. The summative assessment project counts for 100% of the overall grade for the course. This project will test understanding of the theoretical methods and their application to real world problems.

---

**Indicative reading:**

**Assessment:** Project (100%, 5000 words) in the ST. The summative assessment project counts for 100% of the overall grade for the course. This project will test understanding of the theoretical methods and their application to real world problems.

**Assessment:** Oral examination (100%).

Summative assessment in the first year of full-time PhD enrolment will consist of a 5,000 word thesis document detailing students’ thesis proposal, including research question, a literature review, a description of their methodology, their plans for data collection and a timetable through to completion. Students are subject to a viva voce and marking of this document by the two non-supervisory members of the department who make the decision on upgrading. Students will be required to achieve a minimum grade of 60%.

---

**HY501**  
**International History Research Student Workshop**  
This information is for the 2018/19 session.  
**Teacher responsible:** Prof Vladislav Zubok SAR 3.13  
**Availability:** This course is compulsory on the MPhil/PhD in International History. This course is not available as an outside option.  
**Course content:** The workshop aims to introduce students to effective archival research, issues in the preparation of a thesis and means of launching a career in academic or related fields; and the opportunity to present research in progress. Students yet to pass their upgrade from MPhil to PhD attend the Introductory Workshop, which meets weekly in the Michaelmas term. Meetings are devoted to research and interviewing techniques and mainly practical issues of historical research. Students due to be upgraded attend the Advanced Workshop held in the Lent and Summer terms, the frequency of meetings depending upon the number of participants. The meetings are intended primarily as a forum for reviewing research in progress, with a view to enabling students to pass their upgrade.  
**Teaching:** 20 hours of seminars in the MT. 4 hours of seminars in the LT.  
**Assessment:** This course is not assessed.

---

**HY509**  
**International History Research Seminar**  
This information is for the 2018/19 session.  
**Teacher responsible:** Prof Vladislav Zubok SAR 3.13  
**Availability:** This course is available on the MPhil/PhD in International History. This course is not available as an outside option.  
**Pre-requisites:** Students need to have passed their upgrade to PhD.  
**Course content:** Second, third and fourth year PhD students will present their research for discussion. There will also be seminars by staff from within and outside the department on their own research with relevance for PhD students either in terms of subject and/or methodology.  
**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 10 hours of seminars in the ST.  
**Assessment:** This course is not assessed.

---

**HY510**  
**Cold War History Research Seminar**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Svetozar Rajak SAR 3.15  
**Availability:** This course is available on the MPhil/PhD in International History. This course is available with permission as an outside option to students on other programmes where regulations permit.  
**Course content:** Second and third year PhD students will present their research for discussion. There will also be seminars by staff from within and outside the department on their own research with relevance for PhD students either in terms of subject and/or methodology.  
**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT. 10 hours of seminars in the ST.  
**Assessment:** The course is not assessed.

---

**IR501**  
**Methods in International Relations Research**  
This information is for the 2018/19 session.  
**Teacher responsible:** Dr Mathias Koenig-Archibugi CON 4.08  
**Availability:** This course is compulsory on the MPhil/PhD in International Relations. This course is not available as an outside option.  
**Course content:** The main objective of this course is to familiarise students with the principal approaches to contemporary research in the main branches of International Relations and to help students identify the appropriate methodology for their project. The course is not a technical course on methods. Unless they have taken courses on methodology and methods in their prior studies, students are encouraged to attend appropriate courses at the Department of Methodology. The course will encourage awareness of the relationship between theory and method in the conduct of research. It will highlight trade-offs when choosing specific methods or research designs. Our aim is to train well-rounded academic professionals, who are able to comprehend, critically interrogate, and engage with scholarship employing diverse methodological toolkits. The course therefore aims to expose students to, and generate awareness of, a variety of research methods in the discipline irrespective of the particular approach employed in their doctoral work. The course will aim to promote an environment of mutual support and encouragement amongst first year research students, maximising the potential for cross fertilization between different projects. The course will develop students’ presentational skills in a group setting. In addition, sessions on professional development will be offered in the context of the course.  
**Teaching:** 20 hours of seminars in the MT. 20 hours of seminars in the LT.  
In addition, professional development sessions will be offered.  
**Formative coursework:** Students will be expected to prepare presentations on examples of published research, commenting on the methodology adopted and the way in which it is applied. Moreover, students are required to submit a short written piece describing and justifying the methodological choices for their PhD. The aim is to practice writing about methodological choices with a view to the chapter students are going to submit to their Research Panel in the Summer Term. More indications about presentations and the written piece will be provided at the beginning of the course.  
**Assessment:** This course is not assessed.
IR502
International Relations Theory Research Workshop
This information is for the 2018/19 session.
Teacher responsible: Dr Kirsten Ainley CLM.4.05 and Dr George Lawson CLM.5.12
Availability: This course is available on the MPhil/PhD in International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit. It is open to all interested research students and faculty with the Department and is available with permission to students on other programmes.
Course content: IR502 is part of the research-training programme for all research students working in the area of international theory, broadly defined to include work in rationalist, constructivist and critical traditions. The workshop's principal objective is to foster intellectual exchange by showcasing new and innovative work from leading and emerging scholars developing innovative theoretical approaches to better explain, understand and critique world politics. The workshop will provide a forum in which research students can present their work, discuss the theoretical and methodological problems involved, discuss common challenges in conducting research in this area and obtain feedback on their work. The papers are circulated in advance.
Teaching: 12 hours of seminars in the MT. 15 hours of seminars in the LT.
Assessment: This course is not assessed.

IR504
Security and Statecraft Research Workshop
This information is for the 2018/19 session.
Teacher responsible: Prof Peter Trubowitz CLM.4.05 and Dr Milli Lake
Availability: This course is available on the MPhil/PhD in International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit. It is open to all interested research students and faculty with the Department and is available with permission to students on other programmes.
Course content: IR504 is part of the research-training programme for all research students working in the area of security and statecraft broadly defined. The workshop's principal objective is to foster intellectual exchange by showcasing new and innovative work from leading and emerging scholars. The workshop will provide a forum in which research students can present their work, discuss the theoretical and methodological problems involved, discuss common challenges in conducting research in this area and obtain feedback on their work. Research in this area draws on diverse theoretical and methodological approaches, and ranges across levels of analysis, regions, and eras. Specific foci of research include diplomacy, foreign and security relations, foreign policy analysis, comparative strategy, identity and security, war and society, state-building, peace-building and conflict resolution, revolutions, human security and genocide.
Teaching: 12 hours of workshops in the MT. 15 hours of workshops in the LT.
Assessment: This course is not assessed.

IR507
International Institutions, Law and Ethics Research Workshop
This information is for the 2018/19 session.
Teacher responsible: Prof Karen Smith CLM.4.09
Availability: This course is available on the MPhil/PhD in International Relations. This course is not available as an outside option.
It is open to all interested research students and faculty with the Department and is available with permission to students on other programmes.
Course content: IR507 is part of the research-training programme for all research students working on the theory, history or practice of international institutions, international law and ethics. The workshop's principal objective is to foster intellectual exchange by showcasing new and innovative work from leading and emerging scholars. The workshop will provide a forum in which research students can present their work, discuss the theoretical and methodological problems involved, discuss common challenges in conducting research in this area and obtain feedback on their work. Research in this area runs from the study of intergovernmental and nongovernmental institutions and global governance, to the politics of international law, to the ethical and normative dimensions of global politics. It includes, but is not limited to, the study of international institutions such as the European Union, North Atlantic Treaty Organisation, and the International Criminal Court and international issues such as human rights, humanitarian intervention, climate change, and international crime.
Teaching: 12 hours of seminars in the MT. 15 hours of seminars in the LT.
Assessment: This course is not assessed.

IR509
International Relations Research Design Workshop
This information is for the 2018/19 session.
Teacher responsible: Dr Torina Lankina (for first year research students), Professor Margot Light (for second year research students).
Availability: This course is compulsory on the MPhil/PhD in International Relations. This course is not available as an outside option. This workshop is compulsory for all first year and second year International Relations Department (IRD) research students and open to other interested IRD research students.
Course content: In the first year, this workshop will address issues concerning the formulation and design of the PhD research project. Its principal objective is to assist first year research students in designing a well-thought out and manageable thesis. It seeks to do so by providing a forum in which first year students discuss their research topic, the particular set of questions they intend to address and the methods they wish to use with other members of the workshop. Its aim is to provide students with constructively critical observations about their research project and the problems they may confront. It also seeks to promote an esprit d’corps amongst the first-year research students by familiarising them with the work of their peers.
In the second year, the focus will be on preparing students for their upgrade Research Panel in the summer. Exactly how the workshop will proceed will be decided by the members in their first session, but the aim is to give students the opportunity to update and refine their research proposals, get peer reactions to the draft chapters on which the decision to upgrade will be based, and also to talk to each other about the common problems they face. There will also be some sessions to consider such ‘professional concerns’ as the balance to be struck between teaching and research, the role of presentations at conferences, seminars and similar professional gatherings.
Teaching: In the first year, the workshop will meet starting in week 1 of Lent Term. There will be initial discussions of various theoretical traditions and different approaches to research design within International Relations. All first-year students are required to give a presentation outlining their research to the seminar, a
copy of their research proposal (of no more than 5,000 word) being circulated in advance to the workshop participants. There will be two presentations per meeting. Students must also attend IR501 Research Methods Training Seminar and participate in at least one of the Department's other research workshops.

In the second year, the workshop will meet starting in week five of the MT. All members of the workshop are required to present one or more draft chapters of their theses. They will need to provide a copy of the chapter for prior circulation to the workshop participants. Students must also participate in at least one of the Department's other research workshops.

Assessment: This course is not assessed.

IR555
International Political Economy Research Workshop

This information is for the 2018/19 session.
Teacher responsible: Dr James Morrison 95 ALD.1.14, Dr Ranjit Lall and Dr Covadonga Meseguer
Availability: This course is available on the MPhil/PhD in European Studies. This course is available with permission as an outside option to students on other programmes where regulations permit. It is open to all interested research students and faculty with the Department and is available with permission to students on other programmes.

This workshop is run with the Government Department and European Institute (GVSS and EUS55).
Course content: IR555 is part of the research-training programme for all research students working in the area of international political economy: the relationship between states and markets in a global context. The workshop’s principal objective is to foster intellectual exchange by showcasing new and innovative work from leading and emerging scholars. The workshop will provide a forum in which research students can present their work, discuss the theoretical and methodological problems involved, discuss common challenges in conducting research in this area and obtain feedback on their work. Research in this area works at multiple levels of analysis and draws on an array of theoretic and methodological approaches from several disciplines. Both historical and contemporary questions are addressed across a range of issues including: trade, migration, global environmental politics, international economic organisations, economic diplomacy, international finance, foreign investment, exchange rates, and monetary relations.

Teaching: 12 hours of seminars in the MT. 15 hours of seminars in the LT.
Assessment: This course is not assessed.

LL500
Doctoral Research Seminar

This information is for the 2018/19 session.
Teacher responsible: Prof Susan Marks NAB.7.14
Availability: This course is compulsory on the MPhil/PhD in Law and MPhil/PhD in Law (Socio-Legal Theory). This course is not available as an outside option.
Course content: The course aims to equip students with the skills required to undertake advanced legal research. The focus in the MT is on methodological and theoretical issues arising in legal scholarship. The focus in the LT is on the various stages of the PhD process, and on preparation for professional life in academic law beyond the PhD. In the ST an Upgrade Conference is held at which first year research students present their work-in-progress.

Teaching: 22 hours of seminars in the MT. 22 hours of seminars in the LT.
There will be a Reading Week in week 6 of MT and LT.
Assessment: There are no examination arrangements. However, attendance is compulsory for first year research students. Research students in other years may also attend.

MA500
Mathematics: Seminar on Combinatorics, Games and Optimisation

This information is for the 2018/19 session.
Teacher responsible: Dr Julia Boettcher, Dr Laszlo Vegh and Dr Paul Duetting
Availability: This course is compulsory on the MPhil/PhD in Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit. Other members of the research community are welcome to attend.
Course content: The seminar ranges over many areas of pure and applied mathematics. The emphasis is on topics in discrete mathematics, operations research and game theory. The seminar is regarded as an important part of research students’ formal training and they are expected to attend and contribute.
Teaching: 33 hours of seminars and 33 hours of seminars in the MT. 33 hours of seminars and 33 hours of seminars in the LT. 21 hours of seminars and 21 hours of seminars in the ST.

MA501
Research Student Seminar

This information is for the 2018/19 session.
Teacher responsible: Dr Peter Allen COL 4.05, Dr Christoph Czichowsky COL 3.11, Dr Pavel Gapeev COL 4.10, Prof Jozef Skokan COL 3.04, Dr Laszlo Vegh NAB.3.05, Dr Julia Boettcher COL 4.03, Dr Paul Duetting COL 3.08 and Dr Albina Danilova COL 4.09
Availability: This course is compulsory on the MPhil/PhD in Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit. Other members of the research community are welcome to attend.
Course content: The seminars range across many areas of pure, applied and financial mathematics. The emphasis is on topics in discrete mathematics, algorithms, operations research, game theory, financial mathematics and control theory. The seminars are regarded as an important part of research students’ formal training and they will all be expected to attend and contribute. Throughout the academic year, students are also invited to give presentations. There are additional reading groups aimed at students working in financial mathematics and discrete mathematics. These are compulsory for students working in this area but other students of the MPhil/PhD in Mathematics are welcome to attend. See http://www2.lse.ac.uk/maths/Seminars/Financial_Mathematics_Reading_Group.aspx and http://www.lse.ac.uk/maths/Seminars/PhD-Seminar-on-Combinatorics,-Games-and-Optimisation.aspx
Teaching: PhD Seminar on Combinatorics, Games and Optimisation (MA501.1): 11 one-and-a-half-hour seminars in the MT and LT. 7 one-and-a-half-hour seminars in the MT and LT. 7 one-and-a-half-hour seminars in the ST.
LGSMF Portfolio Optimisation Seminar (MA501.2): 11 three-hour seminars in the LT. 7 three-hour seminars in the ST.
Financial Mathematics Reading Group Seminar (MA501.3): 11 three-hour seminars and 11 one-hour seminars in the MT and LT. 7 three-hour seminars and 7 one-hour seminars in the ST.
Discrete Mathematics Reading Group Seminar (MA501.4): 11 three-hour seminars in the MT and LT. 7 three-hour seminars in the ST.
Approximately 80-90 meetings of between 1 and 3 hours throughout the MT, LT and ST, dependent on speakers. See http://www2.lse.ac.uk/maths/Seminars/Research_Seminars.aspx for schedule and more details.
MC500
Research Seminar for Media, Communications & Culture
This information is for the 2018/19 session.
Teacher responsible: Prof Lilie Chouliaraki FAW.7.01D
Availability: This course is compulsory on the MPhil/PhD in Data, Networks and Society and MPhil/PhD in Media and Communications. This course is not available as an outside option. For Research Students. The course is compulsory for students in the first and second years of the Doctoral Programmes in the Department of Media and Communications. All Research Students in the Department are welcome and encouraged to attend.
Course content: The aim of the course is to raise awareness of theoretical, conceptual and methodological issues in the interdisciplinary field of media and communications research and to develop students’ skills with respect to theory building, research design and implementation. The course focuses, in particular, on the key conceptual issues and analytical strategies required in media and communication research, with special reference to the study of the changing environment of media production, dissemination and consumption, under conditions of globalization and digitization of information.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.
Compulsory for first and second year students and open to others. There may be additional seminars or workshops in Summer Term.
Indicative reading:
• Mansell R. (2012) Imagining the Internet, Oxford: OUP
Assessment: This course is based predominantly on student presentations on their work in progress. Students are expected to use MC500 seminars as a key resource towards their thesis proposal at the end of their first year of study.

MC5M2
Advanced Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis)
This information is for the 2018/19 session.
Teacher responsible: Dr Ellen Helsper
Availability: This course is compulsory on the MPhil/PhD in Media and Communications. This course is available on the MPhil/PhD in Data, Networks and Society. This course is not available as an outside option.
Course content:
• Principles of Research in Media and Communications: a series of lectures offered by Department of Media and Communications faculty in Michaelmas Term. The lectures will normally cover the following topics central to research design across the social sciences, with a specific emphasis on their application to media and communications contexts: the general nature of research as social inquiry, interviewing, discourse analysis, social network analysis, content analysis, visual analysis, survey design/questionnaires, case studies, ethnography and participant observation, as well as research ethics.
• Specialist workshops: Workshops (three hours) x 5 Lent Term (each comprised of one 3-hour session), offered by Department of Media and Communications faculty in Lent Term. Students are required to participate in all five workshops.
• Principles of Social Research Analysis: Students have to take at least one quantitative analysis course offered by the Department of Methodology (MY464 is the basic option). In addition, students need to take either another quantitative or a qualitative analysis course offered by the Department of Methodology. The combination of courses must be approved by the supervisor and discussed with the MC5M2 convenor.
Teaching:
• Principles of Research in Media and Communications: Lecture (one hour) x 10 Michaelmas Term; Lecture on Writing Methodological Chapters and Papers (one hour) x 1 Lent Term
• Specialist workshops: Workshops (three hours) x 5 Lent Term (each comprised of one 3-hour session)
• Principles of Social Research Analysis: Quantitative analysis course in Michaelmas Term: Lecture (two hours) x 9 Michaelmas Term; Computer class (one hour) x 9 Michaelmas Term; Quantitative or Qualitative Analysis course in Lent Term (Varies depending on the course): Lecture (two hours) x 9 Lent Term; Computer class or Seminar (one hour) x 9 Lent Term.
• Teaching: Principles of Research in Media and Communications: All students are expected to complete advance readings and submit one essay of 1,500 words in week 11 of MT.
• Principles of Social Research: All students are expected to complete advance readings and submit workshop assignments.
• Principles of Social Research Analysis: Most quantitative analysis courses require weekly assignments. The qualitative analysis courses vary in their formative assessment.
Indicative reading:
• Silverman, D. (2013). Doing Qualitative Research: A Practical

Assessment:
Description of assessment:
1. Coursework: One written assignment of either 5,000 or 7,000 words using two methods (including one from the course taken at the Department of Methodology) to be submitted in Summer Term, depending on the MY courses selected.
2. One two-hour examination in Summer Term relating to Quantitative Analysis (e.g. MY551)
Note: Summative assignments differ depending on the components of the methodological training taken by the students. Students must pass all components of MC5M2.

MG500
Information Systems PhD Seminar Series and Workshops

This information is for the 2018/19 session.
Teacher responsible: Prof Jannis Kallinikos NAB3.24 and Dr Susan Scott NAB3.12
Availability: This course is compulsory on the MRes/PhD in Management (Information Systems and Innovation). This course is available on the MRes/PhD in Management (Information Systems and Innovation). This course is not available as an outside option. This course consists of a series of seminars and workshops at which PhD students present their work in progress.
Course content: This seminar series provides a forum for research students in management to present work in progress. Outside speakers may be invited from time to time.
Teaching: 20 hours of lectures in the LT. 20 hours of lectures in the MT. For 2018/19 this will consist of a weekly, two hour, student-led seminar in weeks 2-10 of Michaelmas and Lent Term. There will also be one full-day PhD workshop with a guest speaker MT & LT. Details of these workshops are to be emailed to students and staff as they are arranged.
Assessment: There is no formal assessment but all students are expected to attend the one day workshops and must email the course teacher to explain any absences. Attendance at the weekly seminars is more flexible but students should make an effort to attend as many as possible and to be involved in the organisation of at least one per year.

MG502
Half Unit
Not available in 2018/19

Foundations of Social Research in Information Systems: Paradigms and Traditions

This information is for the 2018/19 session.
Teacher responsible: Prof Jannis Kallinikos NAB3.24
Availability: This course is compulsory on the MRes/PhD in Management (Information Systems and Innovation). This course is available with permission as an outside option to students on other programmes where regulations permit. Compulsory for MPhil/PhD Informations Systems and Innovation students in their first year. Students from related PhD programmes who are interested in epistemological paradigms may be able to join the course with the teacher’s permission.
Course content: The course introduces the foundations of social research and the key issues concerning the status of knowledge and the forms by which it is acquired. The course deals with the principal paradigms/traditions in the philosophy of science and epistemology and the answers they have provided to the basic questions concerning the status of knowledge claims and the forms by which valid knowledge claims can be made. The main focus of the course concerns the ways by which these key epistemological paradigms have been applied in the fields of Information Systems and Organization Studies. The course is structured around the following basic epistemological paradigms:

- Positivism
- Critical Realism
- Constructivism
- Hermeneutics
- Phenomenology
- Critical Theory
- Structuralism
- Postmodernism

Teaching: 2 hours of lectures, 9 hours of lectures and 9 hours of seminars in the MT.
Assessment: Essay (100%, 7000 words) in the LT. An essay of between 5000-7000 words to be submitted by the end of March.

MG503
Half Unit
Not available in 2018/19

Interpretations of Information

This information is for the 2018/19 session.
Teacher responsible: Prof Jannis Kallinikos NAB3.24, Dr Edgar Whitley and Dr Carsten Sorensen
Availability: This course is compulsory on the MRes/PhD in Management (Information Systems and Innovation). This course is available with permission as an outside option to students on other programmes where regulations permit.
Pre-requisites: Other MSc students may follow this course but a good knowledge of information technology is required.
Course content: The course explores the theoretical foundations of information and the technological and institutional processes by which information is increasingly becoming a pervading and crucial element of organizational and economic life. A central theme of the course is how information and the technologies by which it is produced and disseminated are involved in the constitution and coordination of organizational operations and the control of professional practices and organizational outcomes.
Teaching: 20 hours of seminars in the LT
Indicative reading: Indicative readings are given below. A full reading list will be provided at the start of the course.

MG509  Half Unit  Not available in 2018/19
Managing Digital Platform Innovation

This information is for the 2018/19 session.

Teacher responsible: Prof Jannis Kallinikos NAB 3.24 and Dr Carsten Sorensen NAB 3.11

Availability: This course is compulsory on the MRes/PhD in Management (Information Systems and Innovation). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: The course deals with the dynamics of large-scale digital service platforms and their associated ecosystems. It is based on the extant research into modularity, platforms, boundary resources, and digital ecosystems across the fields of management, innovation, and information technology studies. The aim to ground the students in the traditional conceptualisations of IS and use this as the base for exploring the theoretical challenges brought about by a variety of digital and layered-modular multi-sided platforms. The course further examines the components, operations and trends of digital ecosystems, for example focusing on the role of large distributed datasets applied for organisational intelligence of various forms. Social networks forms a key example of such large, distributed, datasets, and of innovation platforms relying on associated service ecosystems. The course also addresses the particular challenges of business digitalisation and platformisation for the distributed provision of mobile apps, and uses this example as a basis for a broader consideration of platform innovation dynamics.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT.

MG511  Half Unit  Not available in 2018/19
Technology, Practice and Institutions

This information is for the 2018/19 session.

Teacher responsible: Prof Jannis Kallinikos NAB 3.24

Availability: This course is compulsory on the MRes/PhD in Management (Information Systems and Innovation). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: This course seeks to provide PhD students with a foundational understanding of established research in Organisational Behaviour with the objective of encouraging them to design novel research that advances the field. Specifically, this course will introduce students to the evaluation of established research in micro- and macro-level Organisational Behaviour, progressing through units of analysis from psychology research to organisational theory.

Teaching: 30 hours of seminars in the MT. 30 hours of seminars in the LT.

Formative coursework: Formative feedback on the individual presentation and essay will be provided throughout the course. Students will be expected to review their plan for presentation in office hours beforehand, and to informally present work in progress throughout the course for continuous feedback.

Indicative reading: Indicative readings include:

Assessment: Essay (40%, 4000 words) in the MT. Essay (40%, 4000 words) in the LT.

Presentation (20%) in the MT and LT.

Formative coursework: Students will be expected to produce 1 presentation and 1 essay in the MT.

One PowerPoint presentation on a course theme to be handed in week 2 for feedback and one 1500 word essay on the same theme to be handed in for assessment by week 6.

Assessment: Class participation (30%) in the MT.

In class assessment (70%) in December.
The two hour examination in December will be run as an in-class assessment.

One hour assessment in December.

Indicative coursework: Indicative coursework may be submitted in the form of a report or a presentation. It is expected that students will complete at least one form of coursework during the semester.

Indicative readings: Indicative readings will be provided through the course website.

Assessment: Assessment will be conducted through a combination of coursework and examination.
Management (Information Systems and Innovation). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course will deal with the restructuring of social practices associated with the involvement of technologies of computing and communication in social and organisational life. These ideas will be explored within the context of established institutional fields such as finance, law or health care but it will consider as well the advent of new practices (social media, big data) and the organisational forms within which such practices are accommodated.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Assessment:** Essay (100%, 7000 words) in the MT.

---

**MG513 Half Unit Not available in 2018/19 Marketing: Quantitative Modelling**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Om Narasimhan NAB 5.06

**Availability:** This course is compulsory on the MRes/PhD in Management (Marketing). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** Requiring some understanding of calculus, probability, statistics and matrix algebra, the course is designed to develop the quantitative foundations for marketing decisions. Both theoretical models which help analyse marketing issues, and decision-support models will be covered. Features of the course include a focus all marketing decisions: product, pricing, advertising, salesforce and distribution. All necessary analysis tools from resource allocation models to NEIO (New Empirical Industrial Organization) models will be discussed. A comprehensive set of exercises will enable students to test their knowledge of models and their understanding of the material covered in class. The course will also incorporate recent research findings in all aspects of marketing including online marketing and social media marketing.

**Teaching:** 30 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 essay and 1 essay in the LT.

**Indicative reading:**

**Assessment:** Essay (40%, 2500 words), essay (40%, 2500 words), essay (5%, 1200 words), essay (5%, 1200 words), essay (5%, 1200 words) and essay (5%, 1200 words) in the MT.

Participants will be required to (a) write 4 short, 2-page critiques of a paper from the reading lists in order to demonstrate their understanding of an area/topic, and (b) develop 2 new research ideas (throughout MT) that will help participants advance the current state of knowledge. An additional preliminary critique paper and research idea paper will be used as formative assessments. The latter two new research idea papers, weighted 40% and 40% respectively, will be used as the summative assessment components. The balance 20% of the grade will be based on the last 4 short, 2-page critiques of specific papers in the reading list.

---

**MG512 Half Unit Not available in 2018/19 Marketing: Consumer Behaviour**

This information is for the 2018/19 session.

**Teacher responsible:** Prof Amitav Chakravarti NAB 5.13

**Availability:** This course is compulsory on the MRes/PhD in Management (Organisational Behaviour). This course is available on the MRes/PhD in Management (Marketing). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course objective is to familiarize students with research in cognitive psychology, social psychology, and marketing on information processing and judgment and decision making related topics to better understand and develop marketing strategies that affect consumer behavior. There are two main aims of this course: (1) to give students a strong foundation for critical thinking in the area of consumer behavior, and (2) to enable students to conceptualize, develop and operationalize research ideas. Therefore, the focus is on understanding current theoretical and methodological approaches to various aspects of consumer behavior, as well as advancing this knowledge by developing testable hypotheses and theoretical perspectives that build on the current knowledge base. This means that students have to actively read prior research in different areas – try to understand the authors’ ideas and develop the habit of constructive criticism of the research. To encourage this habit, the role of author of certain papers may be assigned to some students in the class and the role of reviewer assigned to others.

**Teaching:** 30 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 essay and 1 essay in the MT.

**Indicative reading:**

**Assessment:** Essay (40%, 2500 words), essay (40%, 2500 words), essay (5%, 1200 words), essay (5%, 1200 words), essay (5%, 1200 words) and essay (5%, 1200 words) in the MT.

Participants will be required to (a) write 4 short, 2-page critiques of a paper from the reading lists in order to demonstrate their understanding of an area/topic, and (b) develop 2 new research ideas (throughout MT) that will help participants advance the current state of knowledge. An additional preliminary critique paper and research idea paper will be used as formative assessments. The latter two new research idea papers, weighted 40% and 40% respectively, will be used as the summative assessment components. The balance 20% of the grade will be based on the last 4 short, 2-page critiques of specific papers in the reading list.
ideas (throughout MT) that will help participants advance the current state of knowledge. An additional preliminary critique paper and research idea paper will be used as formative assessments. The latter two new research idea papers, weighted 40% and 40% respectively, will be used as the summative assessment components. The balance 20% of the grade will be based on the last 4 short, 2-page critiques of specific papers in the reading list.

**MG515  Half Unit  Not available in 2018/19 Social Organisation**

This information is for the 2018/19 session.

Teacher responsible: Prof Harm Barkema

Availability: This course is available on the MRes/PhD in Management (Organisational Behaviour). This course is available with permission as an outside option to students on other programmes where regulations permit.

Course content: Management research – and more specifically, OB and OMT – in the 21st century, is broadening its focus at an increasing pace (as measured by the number of papers recently published in our top journals, and ‘in press’), by also studying organizations with social goals. For instance, corporations with social goals (e.g., CSR programs, supply chains with social goals), social enterprises or entrepreneurship under broader social programs (e.g., to increase employment, or women's empowerment), NGOs, charities, social movements, incubators with social goals, and – at a more micro-level – ‘calling’ of workers, moral contracting and ideological currency. The course helps PhD students to understand key theoretical and methodological aspects of this emerging research, including of non-Western contexts, and to develop the insights and skills to formulate their own research agenda in this domain.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

The formative assignment will be to develop an “outline” version of the conceptual paper to be written for the summative assignment (rather than a full write-up). The goal of this assignment is to enable students to begin thinking through how to formulate a research agenda in this domain. We will devote our last course session to debriefing and providing peer feedback on these outlines.

Indicative reading: Each faculty presenter will select his/her own reading list, which will rely heavily on journal articles (for example, Academy of Management Journal, Academy of Management Review, Journal of Applied Psychology). An extensive reading list is provided at the start of the course.

Assessment: Coursework (100%, 5000 words) in the MT.

**MG518  Half Unit  Employment Relations and Human Resource Management Seminar**

This information is for the 2018/19 session.

Teacher responsible: Prof David Marsden NAB 4.22

Availability: This course is compulsory on the MRes/PhD in Management (Employment Relations and Human Resources). This course is available on the MRes/PhD in Management (Organisational Behaviour). This course is not available as an outside option.

This course is available with permission to students on other tracks of the MRes/PhD in Management where regulations permit.

Course content: The MRes seminar in Employment Relations and HRM draws upon Employment Relations, Human Resource Management and organisational theories to advance an understanding of individual, group and firm behaviour, as well as that of representative organisations of workers and management. The course covers a number of issues at an advanced level, and introduces students to emerging topics in various related topics including employment systems, employee voice, status, trust, social exchange theory, organisational justice, ethics and ethical climate, and corporate social responsibility. The seminar discussions will be led by a combination of faculty at the ER/HR group within LSE and prestigious visiting faculty. Throughout the course, students will be exposed to the methodological issues related to conducting research in up-and-coming areas where the research questions may be less known.

The course also involves attendance of the Employment Relations and Human Resources Group research workshops. This serves to familiarise students with the normal process of presenting and discussing academic papers with experienced faculty, and to integrate them more into the faculty.

The course will spread over the Michaelmas and Lent terms so that students build up a progressive understanding of the research process from the works of established scholars in the field, including both LSE faculty and academic visitors.

Teaching: 20 hours of seminars spread across the Michaelmas and Lent terms.

Assessment: Essay (80%, 4000 words) in the LT. Other (20%) in the MT and LT.

The other assessment will be based on a compilation of a fortnightly Learning Log designed to build up a systematic reflection on what has been learned from the seminars and faculty workshops.
MG576  Half Unit  Not available in 2018/19
Corporate Social Responsibility and International Labour Standards
This information is for the 2018/19 session.
Teacher responsible: Prof David Marsden NAB 4.22
Availability: This course is available on the MRes/PhD in Management (Employment Relations and Human Resources). This course is not available as an outside option.
Course content: This course examines the human resource management (HRM) and employment relations (ER) strategies of global corporations, with the aim of understanding both the causes of different strategic choices and the consequences of these strategies for diverse stakeholders. It takes the perspective that HRM/ER strategies are influenced by a range of variables, including internal business strategy and resources, as well as external factors such as national legislation, business systems and culture, and regional and global institutions. The lecture and group-work content are the same as for MG476, but with a special tutorial-style additional programme of work for the doctoral students taking this elective. Assessment will be by the summer examination for MG478 and a 3500 word extended essay.
Teaching: 10 hours of lectures, 15 hours of seminars and 7 hours of help sessions in the LT.
Lectures: 10 hours
Group work: 15 hours (Auditing MG478 classes)
Doctoral tutorials: 7 hours (two-weekly intervals)
Formative coursework: Students will be expected to produce 1 essay in the LT.
Assessment: Exam (40%, duration: 2 hours) in the summer exam period.
Essay (60%, 3500 words) in the ST.

MG599  Not available in 2018/19
Research Paper in Management
This information is for the 2018/19 session.
Teacher responsible: Prof Amitav Chakravarti NAB 5.13
Availability: This course is compulsory on the MRes/PhD in Philosophy of the Social Sciences, MRes/PhD in Management (Employment Relations and Human Resources), MRes/PhD in Management (Information Systems and Innovation) and MRes/PhD in Management (Organisational Behaviour). This course is available on the MPhil/PhD in Cities Programme, MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Policy and Development, MPhil/PhD in Health Policy and Health Economics, MPhil/PhD in Human Geography and Urban Studies and MPhil/PhD in Regional and Urban Planning Studies. This course is available as an outside option to students on other programmes where regulations permit. The course is available to all research students.
Course content: Research design necessitates trade-offs between the strengths and weaknesses of different feasible options. This course aims to introduce the broad range of design options and to foster an appreciation of these alternatives for particular research objectives. Drawing on a variety of examples from the social scientific literature, this course will explore design considerations and options across quantitative and qualitative research, including issues of data quality, analysis, reporting and reproducibility. At the end of the course, students will be able to read a wide variety of empirical social science with a critical and balanced perspective and will be better equipped to implement and make arguments defending the methods they use in their PhD theses.
Teaching: 15 hours of lectures and 12 hours of seminars in the MT.
Week 6 is a Reading Week during which students work independently on their formative assignments.
Assessment: Research proposal (30%) in the MT.
Other (60%) in the ST.
Class participation (10%).
Research Proposal (1500 words), submitted in week 11 of MT (30%). Research Design (4000 words), submitted in Week 1 of ST (60%).

MY500  Half Unit
Fundamentals of Social Science Research Design
This information is for the 2018/19 session.
Teacher responsible: Dr Benjamin Lauderdale COLB.10

MY505  Half Unit
Research Methods for Evaluation in Health, Development and Public Policy
This information is for the 2018/19 session.
Teacher responsible: Dr David Hendry COL7.05 and Dr Alasdair Jones COLB.12
Availability: This course is open to any Research level student.
Pre-requisites: There are no prerequisites but some familiarity with qualitative research methods is expected. Please contact the course convenor if unsure.
Course content: This course aims to equip students with the methodological knowledge and research skills to be able to design and critically appraise evaluation research. In the context of the rise of evidence-based policy, the course is designed to extend students’ abilities to use evaluative information carefully and critically. The course takes a mixed methods approach. It covers the major quantitative designs, including randomized experiments and observational (i.e. non-randomized) research designs such as selection on observables, difference-in-differences, and the regression discontinuity design. It covers qualitative and participatory research designs and their contribution to formative research, process evaluation, realist evaluations, interpreting outcomes, and assessing transferability to other settings. As well as the major design issues, the course addresses practical and ethical issues of evaluation research, how to write a study protocol, and how to draw lessons from a body of evidence through reviewing and synthesising evidence. Examples from the fields of health, international development and public policy will be used throughout the lectures and seminars.
Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.
MY521 Half Unit
Qualitative Research Methods

This information is for the 2018/19 session.
Teacher responsible: Dr Jen Tarr, COLB.06 (MT) and Dr Eleanor Knott, COL.7.08 (LT)
Availability: This course is compulsory on the MPhil/PhD in Philosophy of the Social Sciences, MRes/PhD in Management (Employment Relations and Human Resources), MRes/PhD in Management (Information Systems and Innovation) and MRes/PhD in Management (Organisational Behaviour). This course is available on the MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Policy and Development, MPhil/PhD in Health Policy and Health Economics, MPhil/PhD in Human Geography and Urban Studies, MPhil/PhD in International Relations, MPhil/PhD in Regional and Urban Planning Studies, MPhil/PhD in Social Policy, MPhil/PhD in Social Research Methods and MPhil/PhD in Sociology. This course is available as an outside option to students on other programmes where regulations permit.

The course is available to all research students.

Course content: This course presents the fundamentals of qualitative research methods. The course has the dual aims of equipping students with conceptual understandings of current academic debates regarding qualitative methods, and with practical skills to put those methods into practice. It prepares students to design, carry out, report, read and evaluate qualitative research projects. First, students learn how to collect data using methods including interviews, focus groups, participant observation and using documents and new media data. Second, we cover analysis, using thematic, content, and discourse analysis. Issues of research design, quality indicators, epistemology and ethics are addressed.

This is a generalist, introductory course and we invite students who have little previous experience of qualitative methods. Students with prior training in qualitative methods might be interested in more specialist alternatives offered by the Department of Methodology, such as MY526 Doing Ethnography, MY527 Qualitative Research with Non-Traditional Data, or MY528 Qualitative Text Analysis. Lectures introduce the main conceptual and practical issues. Seminars provide practical experience with the methods.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.

The course runs twice per year: in MT and again in LT. The content of the course is exactly the same in each term. Week 6 is a Reading Week, during which students work independently on their formative assignments.

Formative coursework: Students submit a portion of their practical work, with some written commentary, for formative assessment in Week 7.

Indicative reading:

Assessment: Project (100%, 5000 words) in the ST.
One final written project of 4000-5000 words, based on seminar exercises (100%). It takes the form of a research project report, with detailed appendices documenting the methods of data collection and analysis used.

MY526 Half Unit Not available in 2018/19

Doing Ethnography

This information is for the 2018/19 session.
Teacher responsible: Dr Chana Teeger COL.7.06
Availability: This course is available on the MPhil/PhD in Cities Programme, MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Policy and Development, MPhil/PhD in Human Geography and Urban Studies and MPhil/PhD in Regional and Urban Planning Studies. This course is available as an outside option to students on other programmes where regulations permit. This course is available to all research students.

Pre-requisites: There are no prerequisites but some prior training in qualitative research methods is expected. Please contact the course convenor if unsure.

Course content: Doing ethnography enables us to examine how social order is produced as people go about their everyday interactions. Multiple sources of naturally-occurring data are used to understand how communities, organisations and institutions work, informally as well as formally. Contemporary conditions of globalisation, individualisation, bureaucratisation and digitisation introduce new challenges for such fieldwork. This interdisciplinary course equips students with a practical understanding of how to do, and to think about, contemporary ethnography. Core conceptual, ethical and methodological debates are introduced through in-depth engagement with book-length exemplars, and through students’ experience of fieldwork. Fieldwork is a key component of the course, with students collecting data in a setting closely related to their PhD topic. Data collection is followed by data analysis and presentation activities. Methodological concerns regarding case selection, establishing rigour, reflexivity, representing others, and ethical issues are addressed in detail. Practical issues addressed include access to study sites, studying elite and marginalised groups, innovative sources of data, and writing field notes. Emphasising that ethnography relies on the researcher-as-research-instrument, the course aims to develop students’ sensitivity and rigour as ethnographic researchers.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. Week 6 is a Reading Week during which time students work independently on their formative assignments.

Formative coursework: An excerpt of field-notes from the field visit undertaken as part of the course (up to 2,500 words). Field-notes should record rich details of observations (the data), researcher reflections and brief interpretations of the significance of these observations. Written feedback will be provided.

MY527  Half Unit  Not available in 2018/19  Qualitative Research With Non-Traditional Data

This information is for the 2018/19 session.
Teacher responsible: Dr Jennifer Tarr COL8.06
Availability: This course is available on the MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Policy and Development, MPhil/PhD in Human Geography and Urban Studies and MPhil/PhD in Regional and Urban Planning Studies. This course is available with permission as an outside option to students on other programmes where regulations permit.

Pre-requisites: There are no prerequisites but some prior training in qualitative research methods is expected, to the equivalent of MY421. Please contact the course convenor if unsure.

Course content: Most qualitative research is in the form of written or spoken texts, produced through interviews and field notes or collection and analysis of documents. However, new technologies now offer a range of new tools for producing, gathering and analysing new kinds of data. This course will focus primarily on digital and visual methods and how they are reshaping qualitative research. Topics will include mobile methods; social network analysis; social media; emojis, memes and gifs; photo elicitation; video; and visual analysis. Key example readings will be assigned, discussed and assessed each week. Seminars provide practical skills through hands on exercises of data collection and analysis, closely tied with the lecture content. These skills will be developed further in a final research project on a topic of the students’ choosing to be submitted at the beginning of summer term.

The course aims to understand how qualitative methods can be used in relation to these emerging streams of data. The course is aimed at students who are considering one or more of these elements as part of their dissertation research design and/or who are interested in gaining more advanced skills in qualitative research.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. Week 6 is a Reading Week during which students work independently on their formative assignment. An optional enrichment activity will be assigned.

Formative coursework: Seminar activities will receive in-class feedback. A brief proposal for final summative coursework (c. 1000 words) should be submitted and will receive formative feedback and guidance.

Indicative reading: Note: No one textbook covers the whole course.

Assessment: Project (100%, 7000 words).
One 5500-7000 word research project related to the course material, on a topic selected by the student (100%).

MY528  Half Unit  Qualitative Text Analysis

This information is for the 2018/19 session.
Teacher responsible: Dr Audrey Alejandro COL 7.14
Availability: This course is available to all research students who are permitted to take an outside option as part of their programme.

Pre-requisites: There are no prerequisites but some prior training in qualitative research methods is expected. Please contact the course convenor if unsure.

Course content: The goal of this course is to provide students with the skills to systematically identify and extract information from texts and discourses for social scientific purposes. While acquiring those skills, students also learn how to interpret textual data by exploring the concepts and case studies developed across disciplines. The course both establishes a theoretical foundation for text/discourse analysis and takes a practical and applied approach, so that students can acquire greater independence and confidence when conducting their research project.

The first part of the course discusses the major paradigms and traditions of qualitative text analysis and focuses on the application of specific analytical techniques to qualitative data. The main methods of qualitative text analysis, including content analysis and thematic analysis, will be explored with specific emphasis on discourse analysis. The second part of the course places the in-depth analysis of texts in the broader context of research methods. It aims to help students in building critical thinking around qualitative text analysis by familiarising them with a variety of mixed-methods research designs that can be used when studying texts and discourses.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. Week 6 is a Reading Week during which students work independently on their summative assignment.

Formative coursework: A project proposal (c.1,000 words). Students write a proposal for the project that will comprise their summative assessment.

Assessment: Essay (100%, 4000 words) in the LT.

MY530  Advanced Qualitative Research Workshops

This information is for the 2018/19 session.
Teacher responsible: Dr Alasdair Jones COL 8.12
Availability: This course is available on the MPhil/PhD in Data, Networks and Society, MPhil/PhD in International Relations, MPhil/PhD in Law, MPhil/PhD in Law (Socio-Legal Theory), MPhil/PhD in Media and Communications, MRes/PhD in Management (Employment Relations and Human Resources), MRes/PhD in Management (Information Systems and Innovation), MRes/PhD in Management (Marketing) and MRes/PhD in Management (Organisational Behaviour). This course is available as an outside option to students on other programmes where regulations permit. Research students who are undertaking projects using qualitative methods.

Pre-requisites: Some prior training in qualitative methods (eg: MY400 and MY421 or equivalent). Students who have no prior training in qualitative methods should consider taking MY521M or MY521L.

Course content: MY530 is a series of workshop modules that provide hands-on, in-depth and advanced training for specific methodologies of qualitative data collection, analytic techniques and research design issues. Research students can sign up to as many workshops as they wish. The programme includes topics
such as in-depth interviews, focus groups, ethnography and participant observation, narrative interviewing and analysis, visual methods, classical content analysis, thematic analysis, etc. Each workshop consists of two sessions of two hours. The second session is practical. These interdisciplinary sessions provide a space for students to develop advanced methodological skills and exchange ideas with peers.

**Teaching:** Sessions to be held throughout the year, beginning in week 8 of MT and continuing throughout LT; Participants sign up via MOODLE.

**Indicative reading:** Each session will provide its own recommended reading list, available on Moodle.

**Assessment:** This course is non-examinable.

---

### MY551  Half Unit  Introduction to Quantitative Analysis

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Jonathan Jackson Col.8.05 and Dr Eleanor Power Col.7.09

**Availability:** This course is compulsory on the MPhil/PhD in Philosophy of the Social Sciences, MRes/PhD in Management (Employment Relations and Human Resources) and MRes/PhD in Management (Information Systems and Innovation). This course is available on the MPhil/PhD in Health Policy and Health Economics, MPhil/PhD in International Relations, MPhil/PhD in Social Policy, MPhil/PhD in Social Research Methods, MPhil/PhD in Sociology and MRes/PhD in Political Science. This course is available as an outside option to students on other programmes where regulations permit. The course is available to all research students.

**Course content:** An intensive introduction to quantitative data analysis in the social sciences. The course is intended for students with no previous experience of quantitative methods or statistics. It covers the foundations of descriptive statistics and statistical estimation and inference. At the end of the course students should be able to carry out univariate and bivariate data analysis and have an appreciation of multiple linear regression. The computer classes give hands-on training in the application of statistical techniques to real social science research problems. No prior knowledge of any statistical software is necessary.

**Teaching:** 20 hours of lectures and 9 hours of computer workshops in the MT. 20 hours of lectures and 9 hours of computer workshops in the LT. 2 hours of lectures in the ST. There will be no lectures or computer classes in Week 6 of term. This course is given twice per session, starting in the first week of each of the MT and LT. Students must either register for MY551M which is taught in Michaelmas Term, or MY551L which is taught in Lent Term. There will be no lectures or computer classes in Week 6 of term.

**Formative coursework:** Exercises from the weekly computer classes can be submitted for feedback.

**Indicative reading:** A course pack will be available for download online and can be purchased as a hard copy. Additional reading: many introductory statistics books are available. But we particularly recommend Alan Agresti and Christine Franklin (2009) Statistics: The Art and Science of Learning from Data. Pearson Education. Or Alan Agresti and Barbara Finlay (2009, 4th edition) Statistical Methods for the Social Sciences. Pearson Education (note that the second book is more advanced and is particularly useful if you are planning to take MY551 and MY552).

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period. Two hour unseen examination in ST. Students are permitted to bring a limited quantity of written notes into the examination.

---

### MY552  Half Unit  Applied Regression Analysis

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Daniele Fanelli COL.7.07 and Dr Indraneel Sircar COL.7.04

**Availability:** This course is compulsory on the MPhil/PhD in Philosophy of the Social Sciences. This course is available on the MPhil/PhD in Data, Networks and Society, MPhil/PhD in European Studies, MPhil/PhD in Health Policy and Health Economics, MPhil/PhD in Media and Communications, MPhil/PhD in Social Policy, MPhil/PhD in Social Research Methods, MPhil/PhD in Sociology, MRes/PhD in Management (Marketing), MRes/PhD in Management (Organisational Behaviour) and MRes/PhD in Political Science. This course is available as an outside option to students on other programmes where regulations permit. Research students where programme regulations allow.

**Pre-requisites:** Students are required to have completed MY451/ MY551 Introduction to Quantitative Analysis or an equivalent level statistics course.

**Course content:** The course is designed for students with a good working knowledge of elementary descriptive statistics; sampling distributions; one and two sample tests for means and proportions; correlation and the linear regression model with one or more predictor variables. The course is concerned with deepening the understanding of the generalized linear model and its application to social science data. The main topics covered are linear regression modelling and binary, multinomial and ordinal logistic regression.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the MT. 20 hours of lectures and 10 hours of computer workshops in the LT. This course is given twice per session, starting in the first week of each of the MT and LT. Students must either register for MY552M which is taught in Michaelmas Term, or MY552L which is taught in Lent Term.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period. Two hour unseen examination in ST. Students are permitted to bring a limited quantity of written notes into the examination.

---

### MY554  Half Unit  Not available in 2018/19  Applied Statistical Computing using R

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Benjamin Lauderdale COL.8.10

**Availability:** This course is available to all research students. The course is also available to taught masters students with different assessment, as MY454.

**Pre-requisites:** Students must have taken Applied Regression Analysis (MY452) or an equivalent intermediate regression course.

**Course content:** This course will cover basic statistical programming for social science research as well as several associated data analysis methods. Programming topics include basic programming, data structures, optimisation, and simulation. Applied statistical topics include nonparametric density estimation and regression, additive models, cross-validation, the bootstrap, and permutation/randomisation inference. Lectures, class exercises and homework will be based on the use of the R statistical software package but will assume no background knowledge of that language.

**Teaching:** 20 hours of lectures and 10 hours of computer workshops in the LT. 2 hours of lectures in the ST.

**Formative coursework:** Students will be expected to produce 5
problem sets in the LT. Each problem set is associated with a computer class, and may be submitted for marking and feedback.

Indicative reading: Keele, L. Semiparametric Regression for the Social Sciences. Matloff, N. The Art of R Programming

Assessment: Coursework (100%) in the ST.

A single piece of coursework (100%) in the ST applying the methods covered in the course to a topic in the area of the student’s research. The topic and scope of the assignment will be developed in discussion with the teacher responsible for the course during LT.

MY555 Half Unit Multivariate Analysis and Measurement

This information is for the 2018/19 session.

Teacher responsible: Dr Jouni Kuha COL8.04

Availability: This course is compulsory on the MPhil/PhD in Philosophy of the Social Sciences. This course is available on the MPhil/PhD in Data, Networks and Society, MPhil/PhD in Environmental Economics, MPhil/PhD in International Relations, MPhil/PhD in Media and Communications, MPhil/PhD in Social Policy, MPhil/PhD in Social Research Methods, MRes/PhD in Management (Marketing) and MRes/PhD in Management (Organisational Behaviour). This course is available as an outside option to students on other programmes where regulations permit.

The course is available to research students.

Pre-requisites: The course will assume a knowledge of standard linear regression models, to the level covered in MY452/MY552 (Applied Regression Analysis).

Course content: An introduction to the application of modern multivariate methods used in the social sciences, with particular focus on latent variable models for continuous observed variables, and their application to questions of measurement in the social sciences. At least the following topics will be covered: principal components analysis, exploratory factor analysis, confirmatory factor analysis and structural equation models. In addition, a selection from the following topics will be covered: cluster analysis, correspondence analysis, multidimensional scaling, latent class models, latent trait models.

Teaching: 20 hours of lectures and 8 hours of computer workshops in the LT.

Formative coursework: Exercises from the computer classes can be submitted for marking.

Assessment: Research project (100%).

Research paper of 25-30 pages, including tables and figures, or approximately 3,000-4,000 words, reporting the data analysis of a given research question and data set (100%).

MY556 Half Unit Survey Methodology

This information is for the 2018/19 session.

Teacher responsible: Dr Jouni Kuha COL8.04

Availability: This course is available on the MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Economics, MPhil/PhD in Regional and Urban Planning Studies and MPhil/PhD in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

This course is available to research students.

Pre-requisites: Knowledge of basic descriptive and inferential statistics, to the level of MY452/MY552 or equivalent. MY556 can also be taken in parallel with MY452L/MY552L. Familiarity with notions of research design in the social sciences, to the level of MY400/MY500 or equivalent.

Course content: This course provides an introduction to the methodology of the design and analysis of social surveys. It is intended both for students who plan to design and collect their own surveys, and for those who need to understand and use data from existing large-scale surveys.

Topics covered include basic ideas of target populations, survey estimation and inference, sampling error and nonsampling error; sample design and sampling theory; methods of data collection; survey interviewing; cognitive processes in answering survey questions; design and evaluation of survey questions; nonresponse error and imputation for item nonresponse; survey weights; analysis of data from complex surveys; accessing, preparing and working with secondary data from existing social surveys. The course includes computer classes, using the statistical computer package Stata; no previous knowledge of Stata is required.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

There will be no lectures or seminars in Week 6 of term.

Formative coursework: Exercises from the seminars can be submitted for marking.

Assessment: Research project (100%).

Research paper of 25-30 pages, including tables and figures, or approximately 3,000-4,000 words, reporting the data analysis of a given research question and data set (100%).

MY557 Half Unit Causal Inference for Observational and Experimental Studies

This information is for the 2018/19 session.

Teacher responsible: Dr David Hendry

Availability: This course is available on the MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Economics, MPhil/PhD in Regional and Urban Planning Studies, MPhil/PhD in Social Research Methods, MRes/PhD in Management (Marketing) and MRes/PhD in Political Science. This course is available as an outside option to students on other programmes where regulations permit.

Available to all research students.

Pre-requisites: Knowledge of multiple linear regression and some familiarity with generalised linear models, to the level of MY452/MY552 or equivalent. Familiarity with notions of research design in the social sciences, to the level of MY400/MY500 or equivalent.

Course content: This course provides an introduction to statistical methods used for causal inference in the social sciences. Using the potential outcomes framework of causality, topics covered include research designs such as randomized experiments and observational studies. We explore the impact of noncompliance in randomized experiments, as well as nonignorable treatment assignment in observational studies. To analyze these research designs, the methods covered include matching, instrumental variables, difference-in-difference, and regression discontinuity. Examples are drawn from different social sciences. The course includes computer classes, where standard statistical computer packages (Stata or R) are used for computation.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT.

There will be no lectures or computer classes in Week 6 of term.

Formative coursework: Exercises from the computer classes can be submitted for marking.

Assessment: Coursework (100%, 4000 words).
MY559  Half Unit
Special Topics in Quantitative Analysis:
Quantitative Text Analysis
This information is for the 2018/19 session.
Teacher responsible: Dr Pablo Barbera Aranguena COL7.10
Availability: This course is available on the MPhil/PhD in Data, Networks and Society, MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Economics, MPhil/PhD in International Relations, MPhil/PhD in Media and Communications, MPhil/PhD in Regional and Urban Planning Studies and MPhil/PhD in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit. The course is available to all research students.
Pre-requisites: The course will assume knowledge of linear and logistic regression models, to the level covered in MY452.
Course content: The course surveys methods for systematically extracting quantitative information from text for social scientific purposes, starting with classical content analysis and dictionary-based methods, to classification methods, and state-of-the-art scaling methods and topic models for estimating quantities from text using statistical techniques. The course lays a theoretical foundation for text analysis but mainly takes a very practical and applied approach, so that students learn how to apply these methods in actual research. The common focus across all methods is that they can all be reduced to a three-step process: first, identifying texts and units of texts for analysis; second, extracting from the texts quantitatively measured features - such as coded content categories, word counts, word types, dictionary counts, or parts of speech - and converting these into a quantitative matrix; and third, using quantitative or statistical methods to analyse this matrix in order to generate inferences about the texts or their authors. The course systematically surveys these methods in a logical progression, with a practical, hands-on approach where each technique will be applied using appropriate software to real texts.
Lectures, class exercises and homework will be based on the use of the R statistical software package but will assume no background knowledge of that language.
Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT.
Formative coursework: Exercises from the computer classes can be submitted for marking.
Assessment: Coursework (100%, 4000 words).

MY560 Workshop in Advanced Quantitative Analysis
This information is for the 2018/19 session.
Teacher responsible: Prof Jonathan Jackson COL8.05 and Dr Benjamin Lauderdale COL8.10
Availability: MY560 is a series of workshops available to any postgraduate student who signs up via Moodle.
Course content: It is intended to provide research students with an introduction to specific advanced research methods and hands-on training in the use of these tools.
Teaching: One-day introductory workshops consisting of a morning lecture and afternoon computer session during the MT, LT and ST. Participants will sign up via MOODLE.

MY561  Half Unit
Social Network Analysis
This information is for the 2018/19 session.
Teacher responsible: Dr Eleanor Power COL 7.09 and Dr Milena Tsvetkova COL 8.03
Availability: This course is available on the MPhil/PhD in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to research students only.
Course content: This course focuses on data about connections, forming structures known as networks. Networks and network data describe an increasingly vast part of the modern world, through connections on social media, communications, financial transactions, and other ties. This course covers the fundamentals of network structures, network data structures, and the analysis and presentation of network data. Students will work directly with network data and structure and analyze these data using R. Social networks have always been at the center of human interaction, but especially with the explosive growth of the internet, network analysis has become increasingly central to all branches of the social sciences. How do people influence each other, bargain with each other, exchange information (or germs), or interact online? A diverse array of deep questions about human behavior can only be answered by examining the social networks encompassing and shifting around us. Network analysis has emerged as a cross-disciplinary science in its own right, and has in fact proven to be of even greater generality and broader applicability than just the social, extending to ecology, physics, genetics, computer science, and other domains. This course will examine the key papers in the development of social network analysis, and will develop the theory and methodological tools needed to model and predict social networks and use them in social sciences as diverse as sociology, political science, economics, health, psychology, history, or business. The core of the course will comprise the essential tools of network analysis, from centrality, homophily, and community detection, to random graphs, network formation, and information flow. Alongside this we will read a series of substantive and seminal papers, shaped in part by the interests of the students and their various backgrounds, with a particular focus on the difficult task of causal inference in social networks. The course will also provide an introduction to network modelling, analysis, and visualization using R.
Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT.
Social networks have always been at the center of human interaction, but especially with the explosive growth of the internet, network analysis has become increasingly central to all branches of the social sciences. Assessment: This course is non-examinable.
and seminal papers, shaped in part by the interests of the students and their various backgrounds, with a particular focus on the difficult task of causal inference in social networks. The course will also provide an introduction to network modeling and analysis using R and network visualization using R and Gephi.

**Formative coursework:** Students will be expected to produce 10 problem sets in the MT.

- **Type:** Weekly, structured problem sets with a beginning component to be started in the staff-led lab sessions, to be completed by the student outside of class. Answers should be formatted and submitted for assessment.
- **Assessment:** Take home exam (50%) and in class assessment (50%) in the MT. Student problem sets will be marked each week, and will provide 50% of the mark.

### MY565 Half Unit Intermediate Quantitative Analysis

**This information is for the 2018/19 session.**

- **Teacher responsible:** Prof. Jonathan Jackson COL8.05
- **Availability:** This course is available on the MPhil/PhD in Health Policy and Health Economics. This course is available as an outside option to students on other programmes where regulations permit.

This course is available to all research students where regulations permit.

- **Pre-requisites:** Participants should have studied introductory statistics or quantitative methods before, up to an introduction to descriptive statistics and basic statistical inference. Students with no previous studies in quantitative analysis should take instead Introduction to Quantitative Analysis (MY451).
- **Course content:** The course is intended for students with some (even if limited) previous experience of quantitative methods or statistics. Using examples from psychological research, it covers first a review of the foundations of descriptive statistics and statistical inference, in the context of the analysis of two-way contingency tables and comparisons of means between two groups. The main topic of the course is linear regression modelling and related methods, including scatterplots, correlation, simple and multiple linear regression, and analysis of variance and covariance. An introduction to binary logistic regression modelling is also included. The computer classes give hands-on training in the application of these statistical techniques. Class exercises and homework are carried out using the Stata package.
- **Teaching:** 20 hours of lectures and 15 hours of computer workshops in the MT. 2 hours of lectures in the ST.
- **Assessment:** Take home exam (50%) and in class assessment (50%) in the MT. Student problem sets will be marked each week, and will provide 50% of the mark.

### MY570 Half Unit Computer Programming

**This information is for the 2018/19 session.**

- **Teacher responsible:** Dr Milena Tsvetkova COL8.03 and Dr Pablo Barbera Aranguena COL7.10
- **Availability:** This course is available on the MPhil/PhD in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is available to all research students where regulations permit.

- **Course content:** This course introduces students to the fundamentals of computer programming as students design, write, and debug computer programs using the programming language Python and R. The course will also cover the foundations of computer languages, algorithms, functions, variables, object-orientation, scoping, and assignment.
- **Teaching:** 20 hours of lectures and 15 hours of computer workshops in the MT.

Students will learn how to design algorithms to solve problems and how to translate these algorithms into working computer programs. Students acquire skills and experience as they learn Python and R, through programming assignments with an approach that integrate project-based learning. This course is an introduction to the fundamental concepts of programming for students who lack a formal background in the field, but will include more advanced problem-solving skills in the later stages of the course. Topics include algorithm design and program development; data types; control structures; functions and parameter passing; recursion; data structures; searching and sorting; and an introduction to the principles of object oriented programming. The primary programming languages used in the course will be Python and R.

- **Formative coursework:** Students will be expected to produce 10 problem sets in the MT. Weekly, structured problem sets with a beginning component to be started in the staff-led lab sessions, to be completed by the student outside of class. Answers should be formatted and submitted for assessment.

MY572  Half Unit
Data for Data Scientists

This information is for the 2018/19 session.

Teacher responsible: Dr Pablo Barbera Aranguena COL7.10

Availability: This course is available on the MPhil/PhD in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to all research students where regulations permit.

Course content: This course will cover the principles of digital methods for storing and structuring data, including data types, relational and nonrelational database design, and query languages. Students will learn to build, populate, manipulate and query databases based on datasets relevant to their fields of interest. The course will also cover workflow management for typical data transformation and cleaning projects, frequently the starting point and most timeconsuming part of any data science project. This course uses a project-based learning approach towards the study of online publishing and group-based collaboration, essential ingredients of modern data science projects. The coverage of data sharing will include key skills in on-line publishing, including the elements of web design, the technical elements of web technologies and web programming, as well as the use of revision-control and group collaboration tools such as GitHub. Each student will build one or more interactive website based on content relevant to his/her domain-related interests, and will use GitHub for accessing and submitting course materials and assignments.

Teaching: 20 hours of lectures and 15 hours of computer workshops in the MT.

In this course, we introduce principles and applications of the electronic storage, structuring, manipulation, transformation, extraction, and dissemination of data. This includes data types, database design, data base implementation, and data analysis through structured queries. Through joining operations, we will also cover the challenges of data linkage and how to combine datasets from different sources. We begin by discussing concepts in fundamental data types, and how data is stored and recorded electronically. We will cover database design, especially relational databases, using substantive examples across a variety of fields. Students are introduced to SQL through MySQL, and programming assignments in this unit of the course will be designed to ensure that students learn to create, populate and query an SQL database. We will introduce NoSQL using MongoDB and the JSON data format for comparison. For both types of database, students will be encouraged to work with data relevant to their own interests as they learn to create, populate and query data. In the final section of the data section of the course, we will step through a complete workflow including data cleaning and transformation, illustrating many of the practical challenges faced at the outset of any data analysis or data science project.

Online publishing and collaboration tools forms the second part of this course, along with the tools and technologies that underlie them. Students will develop interactive, secure and powerful projects for the World Wide Web using both client and server side technologies. Collaboration and the dissemination and submission of course assignments will use GitHub, the popular code repository and version control system. The course begins with an indepth look at the markup languages that form the foundations of building web sites with a study of HTML and CSS. Students next study basic programming in JavaScript, to provide client and server side tools including the customization of web content using Bootstrap and Jekyll to publish web pages, which will provide the basis for a class project.

Formative coursework: Students will be expected to produce 10 problem sets in the MT.

Type: Weekly, structured problem sets with a beginning component to be started in the staff-led lab sessions, to be completed by the student outside of class. Answers should be formatted and submitted for assessment.

Assessment: Take home exam (50%) and in class assessment (50%) in the MT.

Student problem sets will be marked each week, and will provide 50% of the mark. Marking of these assessments will be at a level appropriate for PhD students.

MY591  Computing Packages for Applied Analysis

This information is for the 2018/19 session.

Teacher responsible: Dr Eleanor Power COL7.09

Availability: This course is available on the MPhil/PhD in Cities Programme, MPhil/PhD in International Relations and MPhil/PhD in Sociology. This course is available as an outside option to students on other programmes where regulations permit. For students who intend to use qualitative and quantitative computer packages in their research. This course is available as an outside option where regulations permit.

Course content: It is intended to provide research students with an appreciation of various computer packages through introduction and hands-on training in the use of these tools.

Teaching: 63 hours of seminars in the MT. 75 hours of seminars in the LT. 30 hours of seminars in the ST.

Half-day introductory training courses on computer packages such as, Nvivo, ALCESTE, QDA Miner/Wordstat/Simstat, Stata and SPSS during the MT and LT. Participants will sign up via MOODLE.

Formative coursework: NA.

Assessment: This course is non-examinable.

MY592  Workshop in Information Literacy: finding, managing and organising published research and data

This information is for the 2018/19 session.

Teacher responsible: Miss Maria Bell R102.

Maria Bell (Course Convener), Academic Support Librarian; Dr Jane
**PH500 Research Methods in Philosophy**

**This information is for the 2018/19 session.**

**Teacher responsible:** Prof Richard Bradley

**Availability:** This course is compulsory on the MPhil/PhD in Philosophy. This course is not available as an outside option.

**Course content:** Topics in contemporary philosophy.

**Teaching:** Seminars PH500 15 x two-hour (MT, LT, ST). Different members of the department will lead the seminar in each of the three terms. A more detailed syllabus will be posted at the beginning of each term.

**Assessment:** This course is non-examinable.

---

**PH501 Philosophical Problems Seminar**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Anna Mahtani and Prof Christian List

**Availability:** This course is compulsory on the MPhil/PhD in Philosophy of the Social Sciences. This course is not available as an outside option.

**Course content:** In this course, we will read and carefully discuss a range of classic papers in contemporary analytic philosophy that might not otherwise be covered in LSE Philosophy Department courses. Topics are selected from metaphysics, the philosophy of mind and action, epistemology, and the philosophy of language. This list is illustrative.

**Teaching:** 15 hours of seminars in the MT. 15 hours of seminars in the LT.

**Assessment:** Two essays of 5000 words each over the course of the two terms. Either or both of these essays may be replaced by two shorter essays each of 2500 words.

---

**PH502 Reasoning and Logic**

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Laurenz Hudetz

**Availability:** This course is available on the MPhil/PhD in Philosophy and MPhil/PhD in Social Sciences. This course is not available as an outside option.

**Course content:** This course concerns formal methods of reasoning in philosophy. 1. Deductive Logic. Philosophy is centrally concerned with arguments. The first question to be asked of any argument (or inference) is whether or not it is valid: that is, does its conclusion really follow from its cited premises. Validity of inference is the central problem of deductive logic. Logic has universal scope: different disciplines have different ways of garnering information, but the way that we reason deductively from that information is the same no matter what the discipline. The key to answering some other formal questions that often arise in philosophy - such as...
whether some set of assumptions is consistent - is also provided by
deductive logic. This section of the course covers first a simple
system called propositional or truth-functional logic, which, despite
its simplicity, captures a great range of important arguments and provides
a formal articulation of the notions of validity of inference and
consistency of a set of sentences. The main system covered,
however, is (first order) predicate logic, which is powerful enough to
capture not only simple inferences but also those involved in
philosophy and the sciences. The final section of this first part of the course investigates more
systematically how the formal techniques provided by these
systems of logic relate to the more informal arguments found in
philosophy (and ordinary discourse).

2. Probability. In a valid deductive argument, the conclusion must
be true if the premises are. However many inferences conclude
only that a certain claim is probable (or more probable than it
would otherwise be). For example, we clearly cannot conclude from
the premise that someone smokes 40 cigarettes a day that
s/he will die early from a smoking-related illness, but we can infer
that such an early death is much more probable than if s/he did
not smoke.

Issues about probabilities play many roles in current philosophical
debates: in decision theory, philosophy of economics, philosophy
of physics and many other areas. This section of the course
introduces the axioms of probability theory and then turns to
foundational issues. It turns out that there are different
interpretations of the probability axioms: in particular, a subjective
interpretation which sees probabilities as credences or degrees of
belief in the truth of some proposition, and objective interpretations
which see probabilities as properties of physical events (such
as the decay of a particular radioactive molecule in a given time
interval. Interesting difficulties arise with both interpretations. The
subjective interpretation has been developed into a full-blown,
general Bayesian account of theory-confirmation in science - the
essentials of this account will also be covered.

3. Formal Philosophical Devices. The final section of the course
covers some of the formal, technical ideas that are often
presupposed in contemporary philosophical work: including
the notions of sets and infinities; theories of truth (and partial
truth); analyticity and the a priori; possibility and necessity, and
conditionals. Some of these notions have been clarified via
analyses of some celebrated 'paradoxes' that will also be covered
in this section of the course.

Teaching: 15 hours of lectures in the MT. 15 hours of lectures in the
LT. Appropriate back-up teaching will be arranged with individual
students.

Formative coursework: Regular exercises will be set on the basis of
the material covered in lectures.

Indicative reading: Extensive lecture notes will be provided
covering the first part of the course. Further reading for parts 2
and 3 will be listed on the weekly worksheets available on Moodle.

Assessment: Exam (100%, duration: 3 hours, reading time: 15
minutes) in the summer exam period.

PH555
Research Seminar in the Philosophy of
Economics and Social Sciences

This information is for the 2018/19 session.
Teacher responsible: Prof Richard Bradley LAK2.03
Availability: This course is available on the MPhil/PhD in
Philosophy. This course is not available as an outside option.

Course content: Philosophical issues in economics and the social
sciences.

Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the
LT. 10 hours of seminars in the ST.

Formative coursework: Students will be expected to write one
essay per term and to give seminar presentations.

SA550
Research Student Seminar

This information is for the 2018/19 session.
Teacher responsible: Prof Anne West OLD 2.30
Availability: This course is compulsory on the MPhil/PhD in
Demography/Population Studies and MPhil/PhD in Social Policy.

This course is available on the MPhil/PhD in Demography/
Population Studies and MPhil/PhD in Social Policy. This course is
not available as an outside option.

For all MPhil/PhD students in the Department of Social Policy.

Course content: The course for first year students provides
structured sessions for MPhil students (e.g. the MPhil/PhD
process, ethics, risk). It also provides the forum in which first year
time and second year part-time MPhil students must present
their work to fellow students and staff in advance of submitting
their major review (upgrade) document. The course for second and third year students provides the forum
where third year full-time (or equivalent) PhD students must
present their work to fellow students and staff in advance of
submitting their third year review document.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the
LT.

First year: 20 hours of seminars in the MT. 20 hours of seminars in the
LT.

Second and third year: 20 hours of seminars in the MT. 20 hours of seminars in the LT.
SO500
Research Class for MPhil Students
This information is for the 2018/19 session.
Teacher responsible: Dr Carrie Friese STC213
Availability: This course is compulsory on the MPhil/PhD in Cities Programme and MPhil/PhD in Sociology. This course is not available as an outside option.
Course content: The research seminar aims to provide students with a conceptual and practical framework within which to think through planning their research. This includes devising research questions, how to do a literature review, selecting appropriate methods for research, linking theory and practices, ethical issues and writing. The course will comprise workshops and student presentations. By the end of the course students should be able to formulate clear aims and methods for their own research. All first year MPhil students must attend.
Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.
Reading weeks: week 6 (MT) and week 6 (LT).
Assessment: Other (100%) in the ST.
5,000 word paper on the ‘Aims and Methods’ of the thesis, and a viva voce examination. For full-time students, three copies of this typed and paginated essay must be submitted to the Sociology Administration Office, Room S116, by the first Friday in May. Satisfactory completion of the ‘Aims and Methods’ paper, and the viva are necessary in order to proceed to the next stage of the course. Part-time students may elect to be evaluated in May or September of their first year or May of their second year.

SO501
Data Analysis Workshop
This information is for the 2018/19 session.
Teacher responsible: Dr Carrie Friese STC213
Availability: This course is available on the MPhil/PhD in Cities Programme and MPhil/PhD in Sociology. This course is not available as an outside option.
Only available to sociology research students in the second and subsequent years of their MPhil/PhD.
Course content: Seminars will focus on doing data analysis using materials made and collected as part of PhD research. Each student will present data to the group at least one time. Students may submit the following types of data: (part of) a qualitative interview to code OR a collection of interview sections coded as ‘X’ to be analysed according to a specified method (e.g., narrative analysis, grounded theory); fieldnotes for coding or for reflections on what is needed for ‘thick description’; an image or text to code or analyse according to a specified method (e.g., discourse analysis); a map of the research situation (e.g., situational analysis, network analysis); a regression analysis that requires interpretation, etc. All students will be asked to read the data before the workshop. The workshop will start with the student briefly presenting their data and contextualizing it within their research question, data set and methodological approach. As a group, that piece of data will be closely analysed using the method specified by the student.
Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT.
Fortnightly seminars in the MT and LT for all sociology research students in their second and subsequent years.
Assessment: There is no formal assessment, but participants are asked to present research materials; read other students’ research materials, and contribute to discussion.

SO505
Becoming a Professional Sociologist
This information is for the 2018/19 session.
Teacher responsible: Dr Carrie Friese STC.S213
Availability: This course is compulsory on the MPhil/PhD in Cities Programme and MPhil/PhD in Sociology. This course is not available as an outside option.
This course will be available for Year 3 and 4 students as an optional training course for 2018/19. It is not available to PhD students outside the department.
Pre-requisites: Students must have completed Research Class for MPhil Students (SO500).
Students will have completed SO500 and passed Aims and Methods. Ideally they will have completed SO501. However, exceptions will be made for students who were outside of London in Year 2 for fieldwork and intend to complete their PhD in three years. In that instance students can take SO501 and SO502 simultaneously.
Course content: This half-unit course will provide a workshop environment to discuss key aspects of developing a career as a Sociologist. These may include: 1. Writing, submitting and revising journal articles; 2. Writing a book proposal; 3. Applying for research funding/jobs; 4. Using social media; 5. Developing CVs.
Students will:
• Gain an understanding of the different aspects involved in developing a career in academic Sociology
• Gain practical understanding of how to pursue the different elements of a sociological career in order to be in a good position in the job market and for postdoctoral funding
• Provide support for students as they are finishing their PhD and move into the next stage of their career as sociologists
Teaching: 15 hours of workshops in the MT.
Formative coursework: There is no formative assessment for this course.
Indicative reading: There is no reading list for this course.
Assessment: There is no summative assessment for this course.
The course is a pass/fail and is dependent on attendance.

SO511
Research Seminar in Political Sociology
This information is for the 2018/19 session.
Teacher responsible: Dr Robin Archer STC.S114a
Availability: This course is available on the MPhil/PhD in Cities Programme and MPhil/PhD in Sociology. This course is not available as an outside option to students on other programmes where regulations permit.
MPhil/PhD students whose research is in the field of political sociology. Students from all departments are welcome.
Course content: Political sociologists seek to understand fundamental political phenomenon by studying them in their social context. This seminar seeks to provide a small, friendly forum in which research students can discuss important recent publications and debates in this field. It often spends a number of weeks reading recent prize-winning books and articles in the field, and sometimes examines a topical theme for part of a term. There are also occasional guest lectures. In recent years, for example, there were lectures by Michael Mann (UCLA) on the rise and fall of neo-liberalism. Theda Skocpol (Harvard) on the future of American politics, and Andreas Wimmer (Princeton) on ethnic conflict and state formation. The seminar also provides an opportunity to develop individual research projects. In each seminar, a twenty or thirty minute presentation is followed by discussion.
Teaching: 8 hours of seminars in the MT. 10 hours of seminars in the LT. 6 hours of seminars in the ST.
Fortnightly in MT and LT.
SO521 Research Seminar on Cities and Space

This information is for the 2018/19 session.

Teacher responsible: Dr Suzanne Hall STC S212 and Dr David Madden STC S209

Availability: This course is available on the MPhil/PhD in Cities Programme and MPhil/PhD in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit.

For MPhil/PhD students doing research on urban and spatial issues in the Cities Programme/Department of Sociology. If space is available, other graduate students may apply.

Course content: This graduate seminar is based on discussion of key readings in the fields of urban social theory and spatial analysis. It also provides a forum for discussion of research issues relating to the study of cities and space.

Teaching: 10 hours of seminars in the MT. 10 hours of seminars in the LT.

One two-hour seminar every two weeks in the MT and LT.

Assessment: This course is not assessed.

ST501 Half Unit Multilevel Modelling

This information is for the 2018/19 session.

Teacher responsible: Dr Miltiadis Mavrakakis-Vassilakis

Availability: This course is available on the MPhil/PhD in Health Policy and Health Economics and MPhil/PhD in Statistics. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: A knowledge of probability and basic statistical theory, including linear regression and logistic regression.

Course content: A practical introduction to multilevel modelling with applications in social research. This course deals with the analysis of data from hierarchically structured populations (e.g., students nested within schools, individuals nested within households or geographical areas) and longitudinal data (e.g., repeated measurements of individuals in a panel survey). Multilevel (random-effects) extensions of standard statistical techniques, including multiple linear regression and logistic regression, will be considered. The course will have an applied emphasis with computer sessions using appropriate software (e.g., Stata).

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 5 exercises in the LT.

Formative assessment is based on data analysis problems that require the use of the statistical software to apply the statistical techniques taught in the lectures and computer classes.

Coursework is given to students every two weeks and returned with feedback and comments.

Assessment: Coursework (100%, 4000 words).

Assessment is by 100% coursework given to students in week 8 of the course.

ST542 Half Unit Longitudinal Data Analysis

This information is for the 2018/19 session.

Teacher responsible: Prof Fiona Steele COL 7.12

Availability: This course is available on the MPhil/PhD in Health Policy and Health Economics and MPhil/PhD in Statistics. This course is available as an outside option to students on other programmes where regulations permit.

Pre-requisites: A knowledge of probability and basic statistical theory, including linear regression and logistic regression.

Course content: A practical introduction to methods for the analysis of repeated measures data, including continuous and binary outcomes. Topics include: longitudinal study designs, models for two measurements, (random effects) growth curve models, marginal models, missing data, latent class models and dynamic (autoregressive) models. The course will have an applied emphasis with fortnightly computer classes using the Stata software.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the LT.

Week 6 will be a reading week.

Formative coursework: Students will be expected to produce 4 exercises in the LT.

Formative assessment is based on data analysis problems that require the use of the statistical software to apply the statistical techniques taught in the lectures and computer classes.

Coursework is given to students every two weeks and returned with feedback and comments.

Assessment: Coursework (100%, 4000 words) in the ST.

Assessment is by 100% coursework which is given to students in week 8.
Language Centre Courses
Modern Foreign Language Certificate Courses

LN701
Arabic: Level One (Standard)
This information is for the 2018/19 session.
Teacher responsible: Mr Nadim Ben Mohamed Mahjoub PEL.6.01
Pre-requisites:
• No previous knowledge of Modern Standard Arabic required.
• Students should demonstrate commitment to regular attendance, completion of homework, completion of the dossier and all assessments.
• Students should dedicate at least two hours per week for coursework in addition to classes.
• This course is suitable for students wanting to learn Modern Standard Arabic.
Course content:
Course aims
• To develop the ability to use Modern Standard Arabic at survival level.
• To give an insight into one of the major dialects of the Arabic language.
• The course introduces the students to the Arabic writing system and enables them to read and write words and basic sentences.
• To deal with a range of predictable simple language tasks using a limited range of language.
• To establish the skills, language and attitudes required to promote and facilitate further study of Arabic.
• To bring the students to level A1- of Common European Framework.
Communicative content
• Greetings
• Asking for and giving personal information
• Talking about your immediate family
• Talking about studies and jobs
• Say where you live
• Talking about your city and country
• Talking about present actions
Structural content
• Alphabet
• Joining letters
• Pronunciation
• Feminine and masculine words
• Roots
• Present tense
• The definitive article
• Independent pronouns and pronoun suffixes
• Nouns-adjective phrases
• Numbers
• Plural
• Dual
• Word order
• Demonstrative: this (masc./fem.)
• Possessive pronouns
• Interrogatives (where, when, what, in which, etc.)
• Prepositions: in, between, etc
• Nisba (nationality)
• Idafa (genitive construction)
• Introduction to Past Tense
• Use of “also, where, in the same, etc.”

**Teacher responsible:** Mr Halim Benzine PEL 6.01, Miss Florence Niclot PEL 6.01D and Mr Francois Simon PEL 6.01K

**Pre-requisites:**
- This level is suitable for students from the Courtauld Institute of Art who learnt French for some time (a few years) a long time ago (secondary school).
- A good foundation but find it difficult to express themselves mostly orally.
- This level can also be taken by GCSE students from LSE.

**Speaking:**
- Use simple phrases and sentences to describe where they live and people they know.
- Speak about what they study (history of art, arts), and be able to function within a range of basic activities relating to work, study or time spent in the country.

**Writing:**
- Write short, simple greetings.
- Fill in forms with personal details, basic communication in e-mails, or short descriptions or paragraphs relating to an area of interest in arts.

**Listening:**
- Recognise familiar words and very basic phrases concerning self, family and immediate concrete surroundings when people speak slowly and clearly.
- Understand short excerpts from current affairs, programmes or news items on TV and Radio.

**Reading:**
- Understand the gist of and some details of original text extracts, for example on notices, posters, in newspapers, adverts and on the web, and in simple articles relating to the Social Sciences.
- Admission to the course upon completion of online level test and tutor's approval during needs analysis.
- For students who are able to interact in a variety of familiar contexts without major difficulties but who do need to review and consolidate their French.

**Course content:**

**Course Aim:**
To bring students to level B1 of CEFR.

**Speaking and spoken interaction:**
- Use a series of phrases and sentences to describe in simple terms family and other people, living conditions, educational background and present or most recent work.
- Produce talks on simple topics relating to Art.
- Communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar topics and express opinions in discussion of familiar topics.

**Writing:**
- Write short simple notes, messages and e-mails relating to matters in areas of immediate need or paragraphs or short essays in areas of interest relating to Art.

**Listening:**
- Understand phrases and the highest frequency vocabulary related not only to areas of most immediate personal relevance (e.g. personal and familiar information, shopping, local geography, and employment), but also to topic areas relating to the world of Culture and Art.

**Reading:**
- Read short and simple texts related to news and current issues, find specific, predictable information in simple everyday material such as advertisements, prospectuses, menus and timetables, and understand items of both personal and professional written communication e.g. Email and web-based material + art related articles.

To bring students to level B1 of CEFR.

**Communicative content:**
- Introduce oneself, talk about opinions, beliefs, political views.
- Talk about daily activities. Make an appointment, reschedule, accept, refuse.
- Give your opinion and justify it. Talk about a past event, past experiences...
- Take/ give advice and make/respond to suggestions.
- Future plans and projects. Express a wish, a will. Express doubt, certainty, possibility.
- Express cause, consequence, obligation, aim.

**Structural content:**
- Consolidation of major grammatical points (direct, indirect pronouns y & en...).
- Perfect, past tenses, conditional. Present tense irregular verbs consolidation.
- Question formation with a wide range of tenses.
- Adjectives, place, agreement. Express duration (depuis, pendant, pour).
- Use of relative pronouns (qui/que, ce qui/ce que).

**Teaching:**
- 20 hours of classes in the MT. 20 hours of classes in the LT. 2 hours of classes in the ST.
- This is a 46 hour-course. Please refer to the LSE timetable for course teaching arrangements.

**Indicative reading:**
- A study pack, provided by LSE.
- A dictionary and a grammar book as recommended by your teacher

**Assessment:** Continuous assessment (70%) in the MT, LT and ST. Oral examination (30%) in the LT and ST.

---

**LN727**

**French: Level Three (Standard)**

This information is for the 2018/19 session.

**Teacher responsible:** Mr Francois Simon TW.6.01D and Miss Florence Niclot TW6.01D

**Pre-requisites:** Students should have successfully completed LSE Level 2 course or have learned equivalent content, see the description of “Communicative content” and “Structural Content” of Level 2 course (LN723 or LN724). Students should: Demonstrate full commitment to regular attendance, completion of homework, and all pieces of continuous assessment. Dedicate at least two hours per week for coursework, in addition to classes. Admission into the course after completion of the online test and upon tutor’s approval during the Needs Analysis Interview. For students who are able to interact in a variety of familiar contexts without major difficulties but who do need to review and consolidate their French. This level can also be taken by GCSE students.

- Arguing in favour or against possible actions
Structural content: Developing a communicative and contextual
understanding of a range of grammatical structures:
- Syntax of compound and complex sentences, use of connectors,
  valency of verbs
- Active and passive voice constructions in all tenses
- Use of indirect speech, and the subjunctive
LN753
German: Level Four (Fast Track)
This information is for the 2018/19 session.

Teacher responsible: Mrs Susanne Muller-Menckens PEL.6.01
Pre-requisites: AS-level or A-level, or equivalent skills and knowledge at the B1/B2 level of the Common European Reference Framework for Languages.

Participants should:
• demonstrate commitment to regular attendance, completion of homework and all assessments;
• dedicate at least two hours per week for coursework in addition to classes.

All participants must take the online aptitude test and gain permission of the tutor in the Needs Analysis Interview to take this course.

Course content:
Course Aims:
• To enhance and expand previously acquired communicative skills.
• To develop the ability to use German effectively for purposes of communication and comprehension in a variety of academic, social and work-related contexts.
• To develop a high degree of linguistic independence and flexibility in German.
• To enable students to understand authentic newspaper texts and audio-visual contents related to political, social and economic issues in German-speaking countries.
• To enable students to converse fluently about a range of topics with native speakers.
• To enable students to express themselves in writing about a range of familiar topics related to political, social and economic issues.
• To enable students to express standpoints and opinions related to topical debates in German-speaking countries and to argue about the pros and cons of possible actions.
• To develop an advanced understanding of different structural aspects of the language (i.e. by using meta-language such as grammatical terms etc.).
• To bring students to level B2 CEFR.

Communicative content:
• Communicating about jobs and professional life in detail;
• Communicating about social, political and economic topics;
• Communicating about future plans;
• Expressing emotions and describing the behaviour of people;
• Communicating about studies and research;
• Communicating about a variety of texts, e.g. literary, journalistic, academic etc.;
• Communicating about cultural and social events;
• Expressing your opinion in discussions and arguments

Structural content: Developing a communicative and contextual understanding of a range of grammatical structures encountered in authentic language:
• Syntax of compound and complex sentences, use of connectors, valency of verbs
• Active and passive voice constructions in all tenses
• Use of indirect speech, and the subjunctive
• Participle constructions

Teaching: 16 hours of classes in the MT. 22 hours of classes in the LT. 2 hours of classes in the ST.
This is a 40 hour-course. Please refer to the LSE timetable for course teaching arrangements.

Indicative reading: There is no set course book, but the tutor will provide a selection of print and audio-visual material from a variety of media sources. Students will also be able to make use of the online resources provided by the course Moodle site. Students might want to acquire the following printed resources recommended for the advanced study of German:
• Wolski, Werner (2012). Pons Kompaktwörterbuch Deutsch als Fremdsprache, Stuttgart: Klett Verlag

Assessment: Continuous assessment (70%) in the MT and LT. Oral examination (30%) in the LT.

LN754
German: Level Five (Current Issues)
This information is for the 2018/19 session.

Teacher responsible: Mr Florian Fischer
Pre-requisites: Students are expected to
• demonstrate commitment to regular attendance, completion of homework and all assessments;
• dedicate at least two hours per week for coursework in addition to classes.

All students must take the online aptitude test and gain permission of the tutor to take this course after attending the Needs Analysis Interview.

Course content:
Course aims:
• To retain, enhance and expand previously acquired communicative skills;
• To increase the ability to use German effectively for the purposes of advanced communication and comprehension in a variety of everyday, academic, and professional contexts;
• To develop an advanced understanding of German grammar;
• To develop the ability to communicate confidently in German about a wide range of subjects related to the field of Social Sciences;
• To bring course participants to level C1 of CEFR.

Communicative content:
• Discussing and analysing contemporary social, political and cultural issues and developments in German-speaking countries and societies;
• Keeping up-to-date about developments in German-speaking countries by using German print and audio-visual media;
• Talking and writing about people and their professions in greater detail;
• Talking and writing about future research/study plans;
• Reading and discussing a variety of texts, e.g. literary, journalistic, academic etc.
• Expressing your opinion freely in discussions and arguments;
• Agreeing and disagreeing, negotiating;
• Speaking about events, explaining circumstances, causes and consequences;
• Debating and interacting confidently in a discussion.

Structural content:
• In the context of the topics outlined above: revision of the most important grammatical structures and introduction to the lexical-grammatical characteristics of different registers and literary styles;
• Focus on forms and structures related to German for Academic Purposes.

Teaching: 16 hours of classes in the MT. 22 hours of classes in the LT. 2 hours of classes in the ST.
This is a 40 hour-course. Please refer to the LSE timetable for
course teaching arrangements.

Indicative reading: A Reading List will be drawn up following discussions with the students in the first and second week of teaching and the tutor will provide material from a variety of print, audio and electronic sources. Please make use of the online resources provided by the course Moodle site. Students might want to acquire the following printed resources recommended for advanced study of German:

• Wolski, Werner (2012). Pons Kompaktwörterbuch Deutsch als Fremdsprache, Stuttgart: Klett Verlag

Assessment: Continuous assessment (70%) in the MT and LT. Oral examination (30%) in the LT.

LN758
Italian: Level One (Standard)

This information is for the 2018/19 session.
Teacher responsible: Mrs Anna Giuffria PEL. 6.01
Availability: This is a non-credit bearing course available to all LSE students, staff, alumni and external clients.
Pre-requisites: No previous knowledge required. All students welcome but they should: Demonstrate commitment to regular attendance, completion of homework, completion of the dossier and all assessments. Dedicate at least one hour per week for coursework in addition to classes. Students do not need to be experience language learners to take this standard course.

Course content:
Course Aim:
• To develop the ability to use Italian effectively for purposes of practical communication at a survival level.
• To improve the 4 skills with special focus on listening and speaking.
• To be able to interact in Italian common situations.
• To acquire a good range of vocabulary.
• To have a good basis to continue in the study of the language at higher levels.
• To bring the students to level A1 of CEFR

Communicative content:
From the beginning of the course students will be encouraged to use the language and to learn and practise vocabulary.

Functional content:
• Asking for and giving personal information.
• Giving personal details, telephone number, asking where and when an event will take place.
• Introducing someone formally and informally, ask and give information on work, learning how to fill in forms.
• Talking about the family.
• Asking for and giving directions and information in situations such as: town, hotels, airport, etc.
• Talking about your daily routine.
• Talking about hobbies and free time.
• Express likes and dislike.

Structural content: The course aims to provide the students with the basic grammar required to the construction of sentences which will enable them to carry on a short conversation on the topic mentioned above. The structural content is broken down as follows:
• Nouns (gender and number).
• Adjectives.
• Definite and indefinite articles.
• Present, regular and irregular verbs.
• Conditional of volere.
• Simple and compound prepositions.
• Uses of the verb piacere.
• Direct pronouns.

Teaching: 16 hours of classes in the MT. 22 hours of classes in the LT. 2 hours of classes in the ST.
This is a 40 hour-course. Please refer to the LSE timetable for course teaching arrangements.

Assessment: Continuous assessment (70%) in the MT and LT. Oral examination (30%) in the LT.

LN759
Italian: Level One (Fast Track)

This information is for the 2018/19 session.
Teacher responsible: Mrs Anna Giuffria PEL. 6.01
Pre-requisites: No previous knowledge required. It may be suitable for re-starters. Demonstrate full commitment to regular attendance, completion of coursework, completion of portfolio and all assessments. Dedicate at least two hours per week for coursework, in addition to classes. Students should be able to demonstrate a successful track record of learning languages.

Course content:
Course Aim:
To develop the ability to use Italian effectively for purposes of practical communication at a survival level.
• To improve the 4 skills with special focus on listening and speaking.
• To be able to interact in Italian common situations.

Rapid Reading in Chinese – Elementary (Hanyu Yuedu Sucheng-Jichu pian) by Zheng Rui, Beijing Language and Culture University Press. 2002
The materials provided by the teacher in Moodle.

**Assessment:** Continuous assessment (70%) in the MT and LT.
Oral examination (30%) in the LT.

LN719
Mandarin: Level 5 (Standard)

**This information is for the 2018/19 session.**

**Teacher responsible:** Dr Lijing Shi PEL 601H

**Pre-requisites:** Students should have successfully completed LSE Level 4 course or have learned equivalent content, see the description of "Communicative content" and "Structural Content" of Level 4 course (LN717 or LN718). Students are expected to demonstrate a high level of commitment to the course: Regular attendance, Completion of homework, and all pieces of continuous assessment. Dedicate at least two hours per week to coursework in addition to classes. Admission into the course after completion of the online test and upon tutor's approval during the Needs Analysis Interview. A very high level of fluency and the ability to do independent research into a chosen topic is expected, i.e. several years of intensive study of Mandarin at higher level, and also a keen interest in current issues.

**Course content:**

**Course Aim:**
- To attain competence in a broad range of complex and non-routine tasks across a wide variety of contexts.
- To practise the ability to use Chinese effectively for purposes of practical communication and reading comprehension dealing with linguistically challenging tasks.
- To establish the skills, language and attitudes required to promote and facilitate further study of Chinese.
- To understand/analyse fairly complex texts about current issues and Chinese culture.
- To involve students in planning the course contents according to their specific needs and interests.
- To bring students to the equivalent of level C1/C2 CEFR.

Learners will have opportunities to practise:
- Communication in the workplace, at university and in everyday situations.
- Participation in problem solving discussions.
- Exchanging specific information.
- Writing short essays.
- Participating in discussions: expressing an opinion, agreement, disagreement.
- Logical argumentation.
- Reading and summarising texts from various sources.
- Using language strategies selected from an extensive repertoire in order to meet changing requirements.
- Using language strategies to cope with specialised topics: i.e. business, law, culture, politics, management, current issues.
- Advanced language tasks with reference to Chinese society, contemporary issues, international relations, history and culture.
- Regular (group/individual) oral presentations.
- Group work discussion.
- Reading and summarising complex texts.
- Specific grammatical aspects of topical texts.
- Relevant grammatical issues for advanced and specialised communication.
- Students are to undertake independent research in their particular area of interest.
- Project work.
- Reading comprehension.
- Oral presentation.

This course will include revision of major grammatical points and key grammatical issues. The course will also introduce 580 words and 212 Chinese characters.

**Teaching:** 16 hours of classes in the MT. 22 hours of classes in the LT. 2 hours of classes in the ST.
This is a 40 hour-course. Please refer to the LSE timetable for course teaching arrangements.

**Indicative reading:** Key textbook:
New practical Chinese Reader, textbook, vol. 4, by Liu Xun, Beijing Language and Culture University Press, 2007 (the textbook comes with DVD or audio materials)

**Assessment:** Continuous assessment (70%) in the MT and LT.
Oral examination (30%) in the LT.

LN808

**Additional:**
LN776
Russian: Level Four (Standard)
This information is for the 2018/19 session.
Teaching responsible: Dr Olga Sobolev PEL 6.01A and Mrs Elena Dearden
Pre-requisites: For all students who aim to reach proficiency in Russian.
Language skills and knowledge of Russian at the B1 level of the Common European Reference Framework for Languages; 250 hours of language learning (including self-study).
All students must gain permission of the tutor in the Needs Analysis Interview to take this course.
Course content:
Course Aim:
• To consolidate students' command of written and spoken Russian.
• To gain an insight into aspects of social, political and cultural life in Russia and other Russian speaking countries.
• To establish linguistic skills and attitudes required for promoting and facilitating further study of Russian.
• To bring the students to level B2 of CEFR.
Communicative content: At the end of the programme students will be able to demonstrate competence in the use of communicative functions in the four skills (oral, aural, reading, writing) by:
• showing competence in the use of complex and technical language in a variety of contexts and with a substantial requirement to select and adapt appropriate language strategies;
• being able to respond to a wide range of spontaneous foreign language interventions;
• being able to produce, in a coherent and structured way, an oral language intervention;
• handling factual knowledge within specific perspective;
• being able to produce, in a coherent and structured way, an oral presentation and a written work within the framework of studied topics;
• being able to grasp the main ideas of a document in a target language and produce a coherent summary in English.
Structural content:
• This course is focused on discussion, gist translation and essay work, based on extracts from newspaper articles, recorded materials and topical texts.
• All major grammatical areas are revisited and covered in depth; particular attention is paid to syntax. In written work the emphasis is on structure and register of the language.
• The language command in these areas is expected to be appropriate to the level and task with the emphasis on active usage.
Teaching: 16 hours of classes in the MT. 22 hours of classes in the LT. 2 hours of classes in the ST. This is a 40 hour-course. Please refer to the LSE timetable for course teaching arrangements.
Indicative reading: The course is based on the current Russian press and media materials.
Optional:
Assessment: Continuous assessment (70%) in the MT and LT. Oral examination (30%) in the LT.

LN815
Russian: Level One (Fast Track)
This information is for the 2018/19 session.
Teacher responsible: Dr Olga Sobolev C614 and Mrs Elena Forbes C614
Pre-requisites: No previous knowledge of Russian required, but students should: demonstrate commitment to regular attendance, completion of homework and all assessments; dedicate at least two hours per week for coursework in addition to classes. Students are expected to be experienced language learners and/or to have a good command in two languages.
Course content:
Course Aim:
• To bring students' knowledge of written and spoken Russian up to low intermediate level, corresponding to A1/A2 of CEFR.
• To develop an ability to use Russian effectively for the purposes of practical communication in familiar work and social contexts.
• To deal with a variety of predictable simple language tasks (using limited vocabulary and linguistic structures) to meet the needs of everyday situations and topics.
• To establish linguistic skills and attitudes required for promoting and facilitating further study of Russian.
Communicative content: The course is focused on the following aspects:
• Exchanging personal information, including studies, daily routine and outside interests;
• Interpreting documents and data, containing some topical facts and figures of a country/place;
• Expressing preferences and intentions;
• Giving advice; giving simple descriptions of people, objects places and weather;
• Demonstrating awareness and ability to use formal and informal registers in a limited social context; handling a variety of survival situations at a elementary linguistic level.
Structural content: The course covers elementary vocabulary required for communicative functions and focuses on the following linguistic structures (the command in these areas is expected to be appropriate to the level and task with the emphasis on active usage):
• Gender of nouns; nouns & personal pronouns;
• Adjectives & possessive adjectives in singular in all cases;
• Formation of plural; expression of possession;
• Basic usage of short adjectives;
• Present, past & future tense of the verbs;
• Imperative; reflexive verbs; basic verbs of motion;
• Cardinal & basic ordinal numerals;
• Wider range of adverbs;
• Simple impersonal constructions;
• Expressions of time.
Teaching: 16 hours of classes in the MT. 22 hours of classes in the LT. 2 hours of classes in the ST. This is a 40 hour-course. Please refer to the LSE timetable for course teaching arrangements.
Indicative reading:
Assessment: Continuous assessment (70%) in the MT and LT. Oral examination (30%) in the LT.

LN816
Russian: Level Three (Fast Track)
This information is for the 2018/19 session.
Teacher responsible: Dr Olga Sobolev C614 and Mrs Natalia Bershadski C614

Course aims:
• To attain competence in a broad range of complex and non-routine tasks in a variety of contexts.
• To extend the ability to use Spanish effectively for purposes of general communication in a great variety of academic, social and work-related contexts.
• To develop a high degree of linguistic independence and flexibility in Spanish.
• To understand and analyse complex literary texts.
• To bring the students to level C2 of CEFR.

Communicative content: Advanced Spanish language study with reference to Spanish speaking societies, history and culture. The course provides learning contexts and language tasks relevant to demands that may be made on the student’s ability to speak, understand and write in Spanish during their academic and/or working life at a mastery level.

Structural content: Contextualised revision of structural content of LN803

Teaching: 8 hours of classes in the MT. 11 hours of classes in the LT. 1 hour of classes in the ST.
This is a 20 hour-course. Please refer to the LSE timetable for course teaching arrangements.

Indicative reading: Use of a selection of original written work from key authors, films, video footage and resources available on the World Wide Web.

Assessment: Continuous assessment (70%) in the MT and LT. Oral examination (30%) in the LT.
English for Academic Purposes Insessional Support Programme

**LN900  Not available in 2018/19**

*Academic English for LSE100*

**This information is for the 2018/19 session.**

**Teacher responsible:** Mr Christopher Sciberras PEL.6.0.1g

**Pre-requisites:** For undergraduate students from Finance, Accounting, Mathematics, Statistics and Economics for whom English is not a first language.

**Course content:** The course aims to develop the ability to speak, read and listen more effectively for academic purposes and to develop the ability to write more effectively for academic purposes. By the end of this course, students will have: (a) explored and clarified style in academic discourse and (b) developed their own written and spoken fluency, accuracy and style.

**Teaching:** 9 hours of classes in the MT. 9 hours of classes in the LT.

**LN950  Not available in 2018/19**

*Improvisation*

**This information is for the 2018/19 session.**

**Teacher responsible:** Ms Ines Alonso-Garcia KSW.G.03 and Ms Helen Mayer KSW.G.03

**Pre-requisites:** This course is for students who speak English as a foreign language.

**Course content:** Improvisation uses a series of exercises, games and teamwork to improve communication and listening skills. The classes help to develop confidence, fluency and spontaneity when using English.

**Teaching:** 4 hours of seminars in the MT. 4 hours of seminars in the LT.

This course will be offered at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10

**LN951  Not available in 2018/19**

*Argumentation and Style*

**This information is for the 2018/19 session.**

**Teacher responsible:** Ms Alison Standring PEL.6.01e

**Pre-requisites:** This course is for students who speak English as a foreign language.

**Course content:** This course will focus on argumentation and style in written and oral communication. Students will analyse written and oral texts to improve their discourse management, language accuracy and language range.

**Teaching:** 4 hours of classes in the MT. 4 hours of classes in the LT.

This course will be offered at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10

**LN952  Not available in 2018/19**

*Discussion*

**This information is for the 2018/19 session.**

**Teacher responsible:** Ms Alison Standring PEL.6.01e

**Pre-requisites:** This course is for students who speak English as a foreign language.

**Course content:** This course will enable students to improve their fluency, accuracy and confidence when discussing academic and non-academic topics. Students will acquire useful grammar, vocabulary and strategies, and will receive feedback on language and style.

**Teaching:** 4 hours of classes in the MT. 4 hours of classes in the LT.

This is a 4-hour course (1 hour per week). It will be repeated at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10.

**LN953  Not available in 2018/19**

*Academic Reading*

**This information is for the 2018/19 session.**

**Teacher responsible:** Ms Alison Standring PEL.6.01e

**Pre-requisites:** This course is for students who speak English as a foreign language.

**Course content:** These classes will give students effective strategies for reading complex academic texts in English including: reading selectively, reading purposively, understanding core academic vocabulary, and effective note-taking.

**Teaching:** 4 hours of classes in the MT. 4 hours of classes in the LT.

This course will be offered at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10

**LN954  Not available in 2018/19**

*Informal Vocabulary*

**This information is for the 2018/19 session.**

**Teacher responsible:** Ms Alison Standring PEL.6.01e

**Pre-requisites:** This course is for students who speak English as a foreign language.

**Course content:** Students will improve their knowledge and understanding of informal English vocabulary including use of puns, metaphors, idioms and collocations.

**Teaching:** 4 hours of classes in the MT. 4 hours of classes in the LT.

This course will be offered at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10

**LN955  Not available in 2018/19**

*Academic Vocabulary*

**This information is for the 2018/19 session.**

**Teacher responsible:** Ms Alison Standring PEL.6.01e

**Pre-requisites:** This course is for students who speak English as a foreign language.

**Course content:** Students will improve their knowledge and understanding of academic English vocabulary including: stylistic choices, noun-phrases, verb-phrases, collocations and metaphor.

**Teaching:** 4 hours of classes in the MT. 4 hours of classes in the LT.

This course will be offered at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10

**LN956  Not available in 2018/19**

*Grammar for Academic Purposes*

**This information is for the 2018/19 session.**

**Teacher responsible:** Ms Alison Standring PEL.6.01e

**Pre-requisites:** This course is for students who speak English as a foreign language.

**Course content:** Students will enhance their knowledge of English grammar in academic contexts and will improve their grammatical range and accuracy through a combination of text analysis and oral/written tasks.

**Teaching:** 4 hours of classes in the MT. 4 hours of classes in the LT.

This course will be offered at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10.
**LN957  Not available in 2018/19  
Semantic Skills**

This course will be offered at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10

**Teaching:** 4 hours of classes in the MT. 4 hours of classes in the LT.

This course will be offered at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10

**Pre-requisites:** This course is for students who speak English as a foreign language.

**Course content:** This course will focus on pronunciation and voice. Students will work on individual sounds, word and sentence stress, intonation and pausing.

**Teaching:** 4 hours of classes in the MT. 4 hours of classes in the LT.

This course will be offered at four different times during the academic year namely: MT Wks 2-5; MT Wks 7-10; LT Wks 2-5; LT Wks 7-10

**Teacher responsible:** Ms Alison Standring PEL.6.01.e

**Language Centre Courses 1029**
**LN994 Academic Writing Skills**

This information is for the 2018/19 session.  
**Teacher responsible:** Mr James Pavitt PEL.6.0.1g  
**Pre-requisites:** For students from the departments of Media & Communications and Psychological and Behavioural Science who speak English as a foreign language and require support with academic writing including coursework essays, exams and dissertations.  
**Course content:** By the end of the course, students will: (a) be familiar with the conventions of academic writing in English (b) have improved the accuracy, clarity and coherence of their written English (c) have practised clear organisation of texts and appropriate paragraphing (d) have extended their range of lexical and grammatical expression (e) be able to evaluate their own writing (f) be able to write more fluently and confidently.

Teaching and Learning Centre Courses

Key to MRes/PhD Regulations
(H) means a half-unit course
(C) means this course is capped
(n/a 18/19) means not available in the 2018/19 academic year
(M) means Michaelmas Term
(L) means Lent Term
(S) means Summer Term

Academic Development Programme - Atlas
This information is for the 2018/19 session.
Teacher responsible: Teaching and Learning Centre and Learning Technology and Innovation staff
Availability: All LSE academic and research staff are welcome and all events are free of charge, but booking for each event is required.
Pre-requisites: For some events, participants are requested to bring along current work and/or be prepared to participate actively.
Course content: This year-long series of standalone interdisciplinary workshops is designed for academic and research staff who are keen to pursue professional development and enhance the impact of their teaching and research. Workshop subjects include:
• Understanding student learning: theory and practice;
• The core elements of good course design;
• Lecturing at LSE: new ideas and approaches;
• Research methods: teaching practice and exchange;
• Using the voice to engage and inspire.
Teaching: All events follow the dates of the LSE teaching year. Further details, and links to booking pages, can be found on the Atlas page.
Assessment: There is no formal assessment for this course.

TC501 2.0 Units
Introduction to Teaching:
Associate Fellowship Programme
This information is for the 2018/19 session.
Teacher responsible: Dr Colleen McKenna
Pre-requisites: Participants are required to be teaching for a minimum of 10 hours during the academic year in which they are enrolled.
Course content: The TC501 ‘Introduction to Teaching’ represents the first phase of the LSE PGCertHE and completion of this programme results in Associate Fellowship of the Higher Education Academy, which is part of AdvanceHE.
In this programme, you will:
• Develop an Opening Year Statement (OYS) in which you reflect on your approach to teaching and student learning
• Participate in workshops in Module 1: ‘Teaching in our disciplines’
• Prepare a written assignment for Module 1
• Have 2 teaching observations – one from a member of LSE Teaching and Learning Centre and one from a peer
• Develop an End of Year Statement (EYS) in which you reflect on how the teaching year has gone and your intentions for future development.
These materials are drawn together, along with feedback on your teaching from both TQARO and formative surveys, into a portfolio that is submitted in Summer Term or the following Michaelmas Term. Once the portfolio is deemed complete it is submitted to a Board of Examiners.
Teaching: 12 hours of workshops in the MT. 3 hours of workshops in the ST.
Teaching for this course will take the form of 2-hour, interactive workshops. Moodle will also be used as a learning environment.
Formative coursework: There are formative feedback points for each of the summative assignments.
Additionally, there are formative reflections at both the start and finish of the programme. These formative reflections, combined with the coversheets on the essay, make up the learning log, element of the course and contribute to the final portfolio submission. Throughout, the formative texts are designed to encourage a reflexive approach to academic practice.
Assessment:
• Assessment path 1
  Essay (34%, 2500 words) in January.
  Essay (33%, 2500 words) in the LT.
  Essay (33%, 2500 words) in the LT and ST.
  Assessment path 2
  Coursework (34%) in January.
  Essay (33%, 2500 words) in the LT.
  Essay (33%, 2500 words) in the LT and ST.
  A practical written assignment and reflective pieces. (100%, in January and June.)
This course is assessed entirely by coursework - formative and summative. There are no exams.
All assignments are assessed on a Complete/Not Yet Complete basis, and all assessments are viewed as developmental opportunities. Participants are offered detailed feedback for all assignments and, where appropriate, they have the option of developing assignments further based on feedback from the teaching team.
The assignment is based on evidence-based written texts, or posters, and reflective pieces.

TC503 2.0 Units
Postgraduate Certificate in Higher Education
This information is for the 2018/19 session.
Teacher responsible: Dr Colleen McKenna
Availability: The PGCertHE is practice-based programme and is aimed at early career academics, including assistant professors, LSE fellows, assistant professorial lecturers and graduate teaching
assistant who have completed the Introduction to Teaching: Associate Fellowship Programme (TC501) as well as other colleagues who have substantive responsibilities for student learning.

The PGCertHE is a requirement for newly appointed career-track colleagues with fewer than 3 years of teaching experience. Additionally, colleagues who are experienced academics but relatively new to UK higher education are encouraged to join the programme.

Pre-requisites: This is a practice-based programme. You need to be teaching at least 20 hours across the year in a context in which you can be observed – once by a member of LSE Teaching and Learning Centre and once by a peer. The observations can occur either in Michaelmas or Lent terms.

You are eligible to join the programme if you:
- can attend at least 20 hours of PGCertHE sessions. Please note: the completion of the Introduction to Teaching (TC501) counts for 10 hours towards this total.
- can be observed teaching at LSE, and
- have at least 20 hours of scheduled teaching during the year of enrolment (not including preparation time or office hours).

*For career-track participants, completion of the New Academic Induction Programme fulfils your attendance requirement.

Course content: In this programme, you will work on 3 modules:
- Module 1: Teaching in our Disciplines (required) *
- Module 2: Course Design (required) plus one module from the following list:
  - Module 3: Student learning
  - Module 4: Assessment and feedback
  - Module 5: Contemporary issues in HE
  - Module 6: Independent enquiry
- If you have previously completed the TC501 Introduction to Teaching pathway, this module will be carried over and does not need to be repeated.

To complete the programme, you will:
- Develop an opening year statement (OYS) in which you reflect on your approach to teaching and student learning
- Participate in workshops
- Prepare written assignments (or equivalent) for the 3 modules
- Have 2 teaching observations – one from a member of LSE Teaching and Learning Centre and one from a peer
- Develop an end of year statement (EYS) in which you reflect on how the teaching year has gone and your intentions for future development

These materials are drawn together, along with feedback on your teaching from both TQARO and formative surveys, into a portfolio that is submitted in Summer Term or the following Michaelmas Term. Once the portfolio is deemed complete it is submitted to a Board of Examiners.

Teaching: Modules 1 and 2 are compulsory and your final number of teaching hours will depend on which optional module you choose.
- Module 1, 12hrs, MT
- Module 2, 8hrs, MT or LT or ST
- Module 3, 6hrs, LT
- Module 4, 6hrs, MT or LT
- Module 5, 4hrs plus an Atlas workshop, LT
- Module 6, 4-8hrs, MT, LT and ST

Reviewing your teaching year, 3hrs, ST

Teaching for this course will take the form of interactive workshops. Moodle will also be used as a learning environment. Additionally, participants have the opportunity to attend regular workshops offered as part of LSE’s Atlas programme, which explore different aspects of teaching and learning linked to assignments.

Formative coursework: There are formative feedback points for each of the summative assignments. Additionally, there are formative reflections at both the start and finish of the programme. These formative reflections, combined with the coversheets on the summative essays, make up the learning log element of the course and contribute to the final portfolio submission. Finally, participants present their course design work and receive formative feedback from both members of the PGCertHE teaching team and peers.

Throughout, the formative pieces are designed to encourage a reflexive approach to academic practice.

Assessment:
- Written assignments for Module 1, Module 2 and for your optional module
- A practical written assignment for module 1 (34%, 2300 words) due in January.
- Project for module 2 (33%, 2000 words) in the MT, LT or ST*
- Essay, project or blog posts depending on the module (33%, 2000 words) in MT, LT or ST*

*Participants have flexibility as to when they undertake this project. The assignments include both essay-style written texts and reflective pieces. Additionally there are some opportunities for choice within the assessment diet. Depending on module selection, participants may also prepare a poster, blog posts or podcasts.

This course is assessed entirely by coursework: formative and summative. There are no exams.

All assignments are marked on a Complete/Not Yet Complete basis and all assessment are viewed as developmental opportunities. Participants are offered detailed feedback on all work and, where appropriate, they have the option of developing assignments further based of feedback from the teaching team and peers (Course design module).
