Undergraduate Programme Regulations

Key to Undergraduate Regulations
(H) means a half-unit course
(C) means this course is capped
(n/a 19/20) means not available in the 2019/20 academic year
(M) means Michaelmas Term
(L) means Lent Term
(S) means Summer Term

BSc in Accounting and Finance

Programme Code: UBAF

Department: Accounting

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 AC100 Elements of Accounting and Finance (1.0)

Paper 2 EC100 Economics A (1.0) # **or**

EC102 Economics B (1.0) # A

Papers 3 & 4 **Route A** - For students without Mathematics beyond GCSE level or equivalent:

MA110 Basic Quantitative Methods (1.0) # **and**
 ST108 Statistical Methods for the Social Sciences (1.0) #

Or

Route B - For students with Mathematics beyond GCSE level or equivalent, one of the following options:

Either

Both of the following plus courses to the value of 1.0 unit from the Year 1 options list:

MA107 Quantitative Methods (Mathematics) (0.5) #

and ST107 Quantitative Methods (Statistics) (0.5) #

Year 1 options list

Or

Both of the following:

MA100 Mathematical Methods (1.0) # **and** ST102
 Elementary Statistical Theory (1.0) #

Year 2

Paper 5 AC200 Accounting Theory and Practice (1.0) #

Paper 6 FM212 Principles of Finance (1.0) # **or**

FM213 Principles of Finance (1.0) B #

Paper 7 One of the following options:

EC201 Microeconomic Principles I (1.0) # **or**

EC210 Macroeconomic Principles (1.0) #

Paper 8 Courses to the value of 1.0 unit from the following (if not already taken under Paper 7):

Year 2 options list

Year 3

Paper 9 AC331 Contemporary Issues in Financial Reporting (0.5) # (not available 2019/20)

And either:

AC311 Financial Management and Organisational Control (0.5) (not available 2019/20) **or**

AC341 Auditing, Risk Management and Governance (0.5) # (not available 2019/20)

Paper 10 Courses to the value of 1.0 unit from the following (if not already taken under Paper 9):

AC311 Financial Management and Organisational Control (0.5) # (not available 2019/20)

AC312 Contemporary Issues in Management Accounting (0.5) # (not available 2019/20)

AC332 Financial Statement Analysis and Valuation (0.5) # (not available 2019/20)

AC341 Auditing, Risk Management and Governance (0.5) # (not available 2019/20)

AC342 Accounting, Corporate Responsibility and Sustainability (0.5) # (not available 2019/20)

Paper 11 FM300 Corporate Finance, Investments and Financial Markets (1.0) #

Paper 12 Courses to the value of 1.0 unit from the following (if not already taken under Paper 9 or Paper 10):

Year 3 options list

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Notes

Year 1 options list

GV101 Introduction to Political Science (1.0)

GY121 Sustainable Development (1.0)

LL104 Law of Obligations (1.0)

MG104 Operations Management (0.5) # **and** MG105

Organisational Behaviour and Leadership (0.5) #

PH101 Logic (1.0)

Year 2 options list

EC201 Microeconomic Principles I (1.0) #

EC210 Macroeconomic Principles (1.0) #

EC220 Introduction to Econometrics (1.0) #

EC230 Economics in Public Policy (1.0) #

EH240 Business and Economic Performance since 1945: Britain in International Context (1.0) #

GV227 The Politics of Economic Policy (1.0) # (not available 2019/20)

GY202 Introduction to Global Development (1.0) #

GY222 Applied Environmental Economics (1.0) #

LL203 Law of Business Associations (Company Law) (1.0) #

MA231 Operational Research Methods (1.0) #

MG205 Econometrics: Theory and Applications (1.0) #

MG212 Marketing (0.5)

ST201 Statistical Models and Data Analysis (0.5) #

Year 3 options list

AC311 Financial Management and Organisational Control (0.5) # (not available 2019/20)

AC312 Contemporary Issues in Management Accounting (0.5) # (not available 2019/20)

AC332 Financial Statement Analysis and Valuation (0.5) # (not available 2019/20)

AC340 Auditing, Governance and Risk Management (1.0) #

AC341 Auditing, Risk Management and Governance (0.5) # (not available 2019/20)

AC342 Accounting, Corporate Responsibility and Sustainability (0.5) # (not available 2019/20)

FM320 Quantitative Finance (1.0) #

GY326 Sustainable Business and Finance (0.5)

GY327 Global Environmental Governance (0.5) #

LL293 Tax and Tax Avoidance (1.0) #

MA300 Game Theory (1.0) #

MG303 International Business Strategy and Emerging Markets (0.5) #

MG305 Innovation and Technology Management (0.5)

ST309 Elementary Data Analytics (0.5) #

Prerequisite Requirements and Mutually Exclusive Options

1 : EC220 can not be taken with MG205

2 : MG205 can not be taken with EC220

Footnotes

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guide for further information.

B: FM212 and FM213 course choice depends on Mathematics and Statistics courses taken by students in their first year. See course guides for further information.

means there may be prerequisites for this course.

6 Undergraduate Programme Regulations

Please view the course guide for more information.

Accreditation: Accredited by the following bodies for the purpose of exemptions from some professional examinations:

- Association of Chartered Certified Accountants (ACCA).
- Chartered Institute of Management Accountants (CIMA) through the Accredited degree accelerated route.
- Chartered Institute of Public Finance and Accountancy (CIPFA).
- Institute of Chartered Accountants in England and Wales (ICAEW).

Further information is available from the Department of Accounting (accounting@lse.ac.uk) or the BSc in Accounting and Finance homepage lse.ac.uk/study-at-lse/Undergraduate/Degree-programmes-2018/BSc-Accounting-and-Finance.

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

8 Undergraduate Programme Regulations

MG206	Firms, Management and Competitive Advantage (0.5)
MG302	Topics in Management Research (0.5)
SO203	Political Sociology (1.0)
ST201	Statistical Models and Data Analysis (0.5)
ST307	Aspects of Market Research (0.5)
ST308	Bayesian Inference (0.5)

Notes

Undergraduate Outside Options List (Years 2 & 3)

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

Footnotes

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guide for further information.

B: ST108 must be taken by those students who have not studied Mathematics beyond GCSE level or equivalent.

C: MA100 must be selected if ST102 was taken in Paper 3.

D: MA110 must be taken by those students who have not studied Mathematics beyond GCSE level or equivalent. It must be selected if ST108 was taken in Paper 3.

E: FM212 and FM213 course choice depends on Mathematics and Statistics courses taken by students in their first year. See course guides for further information.

F: A student may take approved papers to the value of one unit from the Undergraduate Outside Options List (normally papers available only to second or third year students), but permission must be sought from the Departmental Tutor.

G: In exceptional circumstances a student may take a course from the undergraduate outside options list (normally papers available only to second or third year students), but permission will need to be sought from the Departmental Tutor.

means there may be prerequisites for this course. Please view the course guide for more information. Graduates from this programme may be eligible for exemptions subject to certain requirements as set by professional bodies such as the ACCA, CIMA, CIPFA and ICAEW. Further information is available from the Department of Accounting (accounting@lse.ac.uk) or the BSc in Accounting and Finance webpage lse.ac.uk/Study-at-LSE/Undergraduate/Degree-programmes-2017/BSc-Accounting-and-Finance.

BSc in Actuarial Science

Programme Code: UBACT2

Department: Statistics

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 ST102 Elementary Statistical Theory (1.0)

Paper 2 MA100 Mathematical Methods (1.0)

Paper 3 Courses to the value of 1.0 unit(s) from the following:

AC102 Elements of Financial Accounting (0.5)

and AC103 Elements of Management Accounting, Financial Management and

Financial Institutions (0.5)

EH101 The Internationalisation of Economic Growth, 1870 to the present day (1.0)

MA103 Introduction to Abstract Mathematics (1.0)

PB102 Social Psychology (1.0)

Paper 4

EC100 Economics A (1.0) # **or**

EC102 Economics B (1.0) # A

Year 2

Paper 5

ST202 Probability, Distribution Theory and Inference (1.0)

Paper 6

MA212 Further Mathematical Methods (1.0)

Paper 7

ST226 Actuarial Investigations: Financial (0.5) **and** ST227 Survival Models (0.5)

Paper 8

Courses to the value of 1.0 unit(s) from the following:
B

AC102 Elements of Financial Accounting (0.5)

AC103 Elements of Management Accounting, Financial Management and Financial

Institutions (0.5)

EH101 The Internationalisation of Economic

Growth, 1870 to the present day (1.0)

FM213 Principles of Finance (1.0)

MA103 Introduction to Abstract Mathematics (1.0)

MA203 Real Analysis (0.5)

PB102 Social Psychology (1.0)

Undergraduate Outside Options List (Years 2 & 3)

Year 3

Paper 9

ST301 Actuarial Mathematics (Life) (0.5) **and** ST302 Stochastic Processes (0.5)

Paper 10

ST330 Stochastic and Actuarial Methods in Finance (1.0)

Or

Courses to the value of 1.0 unit(s) from the following: (please note that students can replace Papers 10, 11 or 12 with subjects to the value of one unit approved by their tutor from the Undergraduate Outside Options List, but this will affect exemptions from examinations set by the Institute and Faculty of Actuaries)

Undergraduate Outside Options List (Years 2 & 3)
Courses to the value of 1.0 unit(s) from the following:
ST300 Regression and Generalised Linear Models (0.5)

ST303 Stochastic Simulation (0.5)

ST304 Time Series and Forecasting (0.5)

ST306 Actuarial Mathematics (General) (0.5)

ST308 Bayesian Inference (0.5)

ST326 Financial Statistics (0.5)

Or

Courses to the value of 1.0 unit(s) from the following: (please note that students can replace Papers 10, 11 or 12 with subjects to the value of one unit approved by their tutor from the Undergraduate Outside Options List, but this will affect exemptions from examinations set by the Institute and Faculty of Actuaries)

Undergraduate Outside Options List (Years 2 & 3)

Paper 11

Courses to the value of 1.0 unit(s) from the following:
ST300 Regression and Generalised Linear Models (0.5)

ST303 Stochastic Simulation (0.5)

ST304 Time Series and Forecasting (0.5)

ST306 Actuarial Mathematics (General) (0.5)

ST308 Bayesian Inference (0.5)

ST326 Financial Statistics (0.5)

Or

Courses to the value of 1.0 unit(s) from the following:

Paper 12

Courses to the value of 1.0 unit(s) from the following:
MA203 Real Analysis (0.5)

MA208 Optimisation Theory (0.5)

MA209 Differential Equations (0.5)

MA313 Probability for Finance (0.5) (withdrawn 2019/20)

MA318 History of Mathematics in Finance and Economics (0.5)

ST300 Regression and Generalised Linear Models (0.5)

ST303 Stochastic Simulation (0.5)

ST306 Actuarial Mathematics (General) (0.5)

ST308 Bayesian Inference (0.5)

ST312 Applied Statistics Project (0.5)

ST326 Financial Statistics (0.5)

Or

Courses to the value of 1.0 unit(s) from the following:

(please note that students can replace Papers 10, 11 or 12 with subjects to the value of one unit approved by their tutor from the Undergraduate Outside Options List, but this will affect exemptions from examinations set by the Institute and Faculty of Actuaries)

Notes**Undergraduate Outside Options List (Years 2 & 3)**

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

Footnotes

A: EC102 course allocation dependent on Economics A-level or equivalent background. Please view the course guides for further information.

B: Courses chosen from the Undergraduate Outside Options List must be discussed with the Academic Mentor.

means there may be prerequisites for this course. Please view the course guide for more information.

Exemptions: FM213 could lead to an exemption of CB1 (CT2 for pre-2019 syllabus) for students who have chosen AC102 and AC103 (or AC104).

Either ST300 or ST306 or ST308 needs to be chosen for exemption of CS1.

Two courses among ST303, ST304, ST306, ST326 need to be chosen for exemption of CS2.

Both ST226 and ST301 need to be chosen for exemption of CM1.

Both ST306 and ST330 need to be chosen for exemption of CM2.

Accreditation: Accredited by the Chartered Institute of Management Accountants (CIMA) for the purpose of exemption from some professional examinations through the Accredited degree accelerated route. Accredited by the Institute and Faculty of Actuaries for the purpose of exemption from some professional examinations. Accredited by the Royal Statistical Society (RSS) for the purpose of eligibility for Graduate Statistician status. Further information is available on the Department of Statistics website lse.ac.uk/statistics/study/prospective/UG-Programmes/exemptions.aspx or on the Undergraduate programme accreditation and exemptions website lse.ac.uk/Statistics/Study/BSc-programmes/Undergraduate-programme-accreditation-and-exemptions.

10 Undergraduate Programme Regulations

List, but this will affect exemptions from examinations set by the Institute and Faculty of Actuaries)

Notes
Undergraduate Outside Options List (Years 2 & 3)
 LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.
 Prerequisite Requirements and Mutually Exclusive Options
 * means available with permission

Footnotes
 A: EC102 course allocation dependent on Economics A-level or equivalent background. Please view the course guides for further information.
 B: Courses chosen from the Undergraduate Outside Options List must be discussed with the Academic Mentor.
 # means there may be prerequisites for this course. Please view the course guide for more information.
Exemptions: FM213 could lead to an exemption of CB1 (CT2 for pre-2019 syllabus) for students who have chosen AC102 and AC103 (or AC104). Either ST300 or ST306 or ST308 needs to be chosen for exemption of CS1.
 Two courses among ST303, ST304, ST306, ST326 need to be chosen for exemption of CS2.
 Both ST226 and ST301 need to be chosen for exemption of CM1.
 Both ST306 and ST330 need to be chosen for exemption of CM2.
Accreditation: Accredited by the Chartered Institute of Management Accountants (CIMA) for the purpose of exemption from some professional examinations through the Accredited degree accelerated route. Accredited by the Institute and Faculty of Actuaries for the purpose of exemption from some professional examinations. Accredited by the Royal Statistical Society (RSS) for the purpose of eligibility for Graduate Statistician status. Further information is available on the Department of Statistics website lse.ac.uk/statistics/study/prospective/UG-Programmes/exemptions.aspx or on the Undergraduate programme accreditation and exemptions website lse.ac.uk/Statistics/Study/BSc-programmes/Undergraduate-programme-accreditation-and-exemptions.

BSc in Actuarial Science

Programme Code: UBACT2

Department: Statistics

For students starting this programme of study in 2017/18

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 ST102 Elementary Statistical Theory (1.0)

Paper 2 MA100 Mathematical Methods (1.0)

Paper 3 Courses to the value of 1.0 unit(s) from the following:

AC104 Elements of Accounting, Financial Institutions and Financial Management (1.0)
 A (withdrawn 2018/19) **or**

MA103 Introduction to Abstract Mathematics (1.0)

Paper 4 EC100 Economics A (1.0) **# or**

EC102 Economics B (1.0) **# B**

Year 2

Paper 5 ST202 Probability, Distribution Theory and Inference (1.0)

Paper 6 MA212 Further Mathematical Methods (1.0)

Paper 7 ST226 Actuarial Investigations: Financial (0.5) **and** ST227 Survival Models (0.5)

Paper 8 Courses to the value of 1.0 unit(s) from the following:
 C

AC102 Elements of Financial Accounting (0.5)

AC103 Elements of Management Accounting, Financial Management and Financial Institutions (0.5)

EH101 The Internationalisation of Economic Growth, 1870 to the present day (1.0)

FM213 Principles of Finance (1.0) **# D**

MA103 Introduction to Abstract Mathematics (1.0)

MA203 Real Analysis (0.5)

PB102 Social Psychology (1.0)

Undergraduate Outside Options List (Years 2 & 3)

Year 3

Paper 9 ST302 Stochastic Processes (0.5) **and** ST301 Actuarial Mathematics (Life) (0.5)

Paper 10 ST330 Stochastic and Actuarial Methods in Finance (1.0)

Or

Courses to the value of 1.0 unit(s) from the following: (please note that students can replace Papers 10, 11 or 12 with subjects to the value of one unit approved by their tutor from the Undergraduate Outside Options List, but this will affect exemptions from examinations set by the Institute and Faculty of Actuaries)

Undergraduate Outside Options List (Years 2 & 3)

Paper 11 Courses to the value of 1.0 unit(s) from the following:

ST300 Regression and Generalised Linear Models (0.5)

ST303 Stochastic Simulation (0.5)

ST304 Time Series and Forecasting (0.5)

ST306 Actuarial Mathematics (General) (0.5)

ST308 Bayesian Inference (0.5)

ST326 Financial Statistics (0.5)

Or

Courses to the value of 1.0 unit(s) from the following: (please note that students can replace Papers 10, 11 or 12 with subjects to the value of one unit approved by their tutor from the Undergraduate Outside Options List, but this will affect exemptions from examinations set by the Institute and Faculty of Actuaries)

Undergraduate Outside Options List (Years 2 & 3)

Paper 12 Courses to the value of 1.0 unit(s) from the following:

MA203 Real Analysis (0.5)

MA208 Optimisation Theory (0.5)

MA209 Differential Equations (0.5)

MA313 Probability for Finance (0.5) (withdrawn 2019/20)

MA318 History of Mathematics in Finance and Economics (0.5)

ST300 Regression and Generalised Linear Models (0.5) **# E**

ST303 Stochastic Simulation (0.5)

ST306 Actuarial Mathematics (General) (0.5)

ST308 Bayesian Inference (0.5) **# F**

ST312 Applied Statistics Project (0.5)

ST326 Financial Statistics (0.5)

Or

Courses to the value of 1.0 unit(s) from the following: (please note that students can replace Papers 10, 11 or 12 with subjects to the value of one unit approved by their tutor from the Undergraduate Outside Options List, but this will affect exemptions from examinations set by the Institute and Faculty of Actuaries)

Year 1

Paper 1 SP170 Crime and Society: Representations and Realities (1.0) *(not available 2019/20)*

Paper 2 SP171 Identities, Crime and Criminal Justice (1.0) *(not available 2019/20)*

Paper 3 Courses to the value of 1.0 unit(s) from the following:
 PB101 Foundations of Psychological Science (1.0)
 PB102 Social Psychology (1.0)
 SP112 Politics of Social Policy Making (1.0)
 SP172 Policing and Security (0.5) *(not available 2019/20)*
 SP173 Politics and Crime (0.5) *(not available 2019/20)*

Paper 4 Courses to the value of 1.0 unit(s) from the following:
Additional course(s) from the Paper 3 Options List
Criminology Year 1 Options List
Undergraduate Outside Options List (Year 1)

Year 2

Paper 5 SP201 Research Methods for Social Policy (1.0)

Paper 6 SP270 Understanding Crime and Punishment (1.0) *(not available 2019/20)*

Papers 7 & 8 Courses to the value of 2.0 unit(s) from the following: (up to one full unit of approved outside options only)
Criminology Year 2 Options List
Undergraduate Outside Options List (Years 2 & 3)

Year 3

Paper 9 SP398 Dissertation (BSc Criminology) (1.0) *(not available 2019/20)*

Paper 10 SP370 Criminological Controversies (0.5) *(not available 2019/20)*
 SP371 Interrogating Criminological Research (0.5) *(not available 2019/20)*

Papers 11 & 12 Courses to the value of 2.0 unit(s) from the following: (up to one full unit of approved outside options only)
Criminology Year 3 Options List
Undergraduate Outside Options List (Years 2 & 3)

Notes

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Additional course(s) from the Paper 3 Options List

PB101 Foundations of Psychological Science (1.0)
 PB102 Social Psychology (1.0)
 SP112 Politics of Social Policy Making (1.0)

SP172 Policing and Security (0.5) *(not available 2019/20)*
 SP173 Politics and Crime (0.5) *(not available 2019/20)*

Criminology Year 1 Options List

SP100 Understanding International Social and Public Policy (1.0)
 SP110 Sociology and Social Policy (1.0)
 SP111 Social Economics and Policy (1.0)

Criminology Year 2 Options List

PB101 Foundations of Psychological Science (1.0)
 PB102 Social Psychology (1.0)
 SO235 The Sociology of Homicide (0.5)
 SP100 Understanding International Social and Public Policy (1.0)
 SP110 Sociology and Social Policy (1.0)
 SP111 Social Economics and Policy (1.0)
 SP112 Politics of Social Policy Making (1.0)
 SP172 Policing and Security (0.5) *(not available 2019/20)*
 SP173 Politics and Crime (0.5) *(not available 2019/20)*
 SP210 Development and Social Change (1.0) *(not available 2019/20)*
 SP230 Education Policy (1.0)
 SP231 Poverty, Inequality, and Social Policy (1.0)
 SP232 Health and Social Care Policy (1.0)
 SP271 Psychology of Crime and Criminal Justice (1.0)
 SP273 Comparative Criminology (0.5) *(not available 2019/20)*

Criminology Year 3 Options List

SO235 The Sociology of Homicide (0.5)
 SP210 Development and Social Change (1.0) *(not available 2019/20)*
 SP230 Education Policy (1.0)
 SP231 Poverty, Inequality, and Social Policy (1.0)
 SP232 Health and Social Care Policy (1.0)
 SP271 Psychology of Crime and Criminal Justice (1.0)
 SP273 Comparative Criminology (0.5) *(not available 2019/20)*
 SP331 Sexuality, Everyday Lives and Social Policy in Developing Countries (0.5)
 SP332 Social Security Policies (0.5)
 SP335 Migration: Current Research, Critical Approaches (0.5)
 SP372 Punishment and Penal Policy (0.5) *(not available 2019/20)*
 Prerequisite Requirements and Mutually Exclusive Options
 * means available with permission
 # means there may be prerequisites for this course. Please view the course guide for more information. It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of Social Policy (ie not prefixed with 'SP').
Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

BSc in Econometrics and Mathematical Economics

Programme Code: UBEM

Department: Economics

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
See note	LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1	EC100 Economics A (1.0) # or EC102 Economics B (1.0) # A
Paper 2	MA100 Mathematical Methods (1.0)
Paper 3	ST102 Elementary Statistical Theory (1.0)
Paper 4	Courses to the value of 1.0 unit(s) from the following: Undergraduate Outside Options List (Year 1)

Year 2

Paper 5	EC202 Microeconomic Principles II (1.0)
Paper 6	EC210 Macroeconomic Principles (1.0)
Paper 7	EC221 Principles of Econometrics (1.0) # 1
Paper 8	Courses to the value of 1.0 unit(s) from the following: Undergraduate Outside Options List (Years 2 & 3)

Year 3

Paper 9	Courses to the value of 1.0 unit(s) from the following: EC309 Econometric Theory (1.0) EC319 Games and Economic Behaviour (1.0) EC333 Problems of Applied Econometrics (1.0)
Paper 10	Courses to the value of 1.0 unit(s) from the following: Econometrics and Mathematical Economics Selection List
Paper 11	Courses to the value of 1.0 unit(s) from the following: B EC309 Econometric Theory (1.0) EC319 Games and Economic Behaviour (1.0) EC333 Problems of Applied Econometrics (1.0)

Econometrics and Mathematical Economics Selection List

Undergraduate Outside Options List (Years 2 & 3)

Paper 12	EC331 Quantitative Thesis (1.0)
----------	---------------------------------

Notes
LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Econometrics and Mathematical Economics Selection List

AC211	Managerial Accounting (1.0) (withdrawn 2019/20)
AC310	Management Accounting, Financial Management and Organisational Control (1.0)
AC340	Auditing, Governance and Risk Management (1.0) A
EC301	Advanced Economic Analysis (1.0)
EC302	Political Economy (1.0)
EC307	Development Economics (1.0)
EC310	Behavioural Economics (1.0)
EC311	History of Economics: How Theories Change (1.0)
EC313	Industrial Economics (1.0)
EC315	International Economics (1.0)
EC317	Labour Economics (1.0)
EC321	Monetary Economics (1.0)
EC325	Public Economics (1.0)
FM213	Principles of Finance (1.0)
FM300	Corporate Finance, Investments and Financial Markets (1.0) B
FM320	Quantitative Finance (1.0) C
MA231	Operational Research Methods (1.0)
MA300	Game Theory (1.0)
MA331	Practical Optimisation Modelling (0.5) D (<i>not available 2019/20</i>)
PH311	Philosophy of Economics (1.0)
ST202	Probability, Distribution Theory and Inference (1.0)

Footnotes

Selection List A: Students may take only one of AC211, AC310 and AC340 in Year 3. B: FM300 can only be taken if FM213 is taken in the second year. C: FM320 can only be taken if FM213 is taken in the second year. Students may take only one of FM213,

FM300 and FM320 in Year 3. D: MA331 is available in the third year only.

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

1 : EC221 can not be taken with MG205

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.

B: In exceptional circumstances a student may substitute a paper from the Undergraduate Outside Options List for Paper 11. This outside paper should be both of an advanced nature and coherent with the student's other choice of papers. Permission to take such a paper should first be obtained from the Departmental Tutor who must countersign the Additional Permission Form. Any subsequent revision to the student's choice of papers must also be countersigned by the Departmental Tutor.

means there may be prerequisites for this course.

Please view the course guide for more information.

FM213	Principles of Finance (1.0)
FM300	Corporate Finance, Investments and Financial Markets (1.0) # 3B
FM320	Quantitative Finance (1.0) # 4C
PH311	Philosophy of Economics (1.0)

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

1 : EC220 can not be taken with MG205

2 : EC221 can not be taken with MG205

3 : Before taking FM300 you must take FM213

4 : Before taking FM320 you must take FM213

Footnotes

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.

B: Only one of FM300 and FM320 may be chosen for Papers 9, 10 & 11; students wishing to choose both must select the second as Paper 12.

C: Only one of FM300 and FM320 may be chosen for Papers 9, 10 & 11; students wishing to choose both must select the second as Paper 12.

D: Third year only

means there may be prerequisites for this course. Please view the course guide for more information.

Accreditation: Accredited by the Chartered Institute of Management Accountants (CIMA) for the purpose of exemption from some professional examinations through the Accredited degree accelerated route. Either EC100 or EC102 needs to be chosen for exemption of BA1 Fundamentals of Business Economics.

For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

BSc in Economics

Programme Code: UBEC

Department: Economics

For students starting this programme of study in 2018/19

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
See note	LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1	EC100 Economics A (1.0) # or EC102 Economics B (1.0) # A
Paper 2	MA100 Mathematical Methods (1.0)
Paper 3	ST102 Elementary Statistical Theory (1.0)
Paper 4	Courses to the value of 1.0 unit(s) from the following: Undergraduate Outside Options List (Year 1)

Year 2

Paper 5	EC201 Microeconomic Principles I (1.0) # or EC202 Microeconomic Principles II (1.0)
Paper 6	EC210 Macroeconomic Principles (1.0)
Paper 7	EC220 Introduction to Econometrics (1.0) # or EC221 Principles of Econometrics (1.0)
Paper 8	Courses to the value of 1.0 unit(s) from the following: Undergraduate Outside Options List (Years 2 & 3) Or FM213 Principles of Finance (1.0)

Year 3

Papers 9, 10 & 11	Courses to the value of 3.0 unit(s) from the following: Economics Selection List
Paper 12	Courses to the value of 1.0 unit(s) from the following: AC211 Managerial Accounting (1.0) (withdrawn 2019/20) AC310 Management Accounting, Financial Management and Organisational Control (1.0) AC340 Auditing, Governance and Risk Management (1.0) EH207 The Making of an Economic Superpower: China since 1850 (1.0) EH225 Latin America and the International Economy (1.0) EH240 Business and Economic Performance since 1945: Britain in International Context (1.0) EH304 The Economic History of North America: from Colonial Times to the Cold War (1.0) GV227 The Politics of Economic Policy (1.0) (<i>not available 2019/20</i>) GY209 The Economic Geography of Trade, Production and Development (0.5) GY210 The Economics of Cities (0.5) GY307 Regional Economic Development (0.5) GY308 The Economic Geography of Growth and Development (0.5) IR206 International Political Economy (1.0) LL209 Commercial and Enterprise Law (1.0) (withdrawn 2018/19) MA212 Further Mathematical Methods (1.0) MA231 Operational Research Methods (1.0) MA300 Game Theory (1.0) MA331 Practical Optimisation Modelling (0.5) # D (<i>not available 2019/20</i>)

Economics Selection List**Or**

In exceptional circumstances a student may select a course from the Undergraduate Outside Options List below. This outside paper should be both of an advanced nature and coherent with the student's other choice of papers. Permission to take such a paper should first be obtained from the Departmental Tutor who must countersign the Additional Permission Form. Any subsequent revision to the student's choice of papers must also be countersigned by the Departmental Tutor.

Undergraduate Outside Options List (Years 2 & 3)

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Notes**Economics Selection List**

EC301	Advanced Economic Analysis (1.0)
EC302	Political Economy (1.0)

Paper 8 Courses to the value of 1.0 unit from the following: B
 EC230 Economics in Public Policy (1.0)
 LL250 Law and The Environment (1.0)
 SP231 Poverty, Inequality, and Social Policy (1.0)
 SP233 Introduction to Global Population Change (1.0) (withdrawn 2019/20)

Or

Courses to the value of 1.0 unit(s) from the list under Paper 7 (if not studied under paper 7):

Paper 7 options list

Or

An approved language course:

Language Courses List 2

Year 3

Papers 9 & 10 Courses to the value of 2.0 unit(s) from the following:
 GY309 The Political Geography of Development (0.5)
 GY312 Geographies of Gender in the Global South (0.5)
 GY326 Sustainable Business and Finance (0.5)
 GY327 Global Environmental Governance (0.5)
 GY328 Political Ecology of Development (0.5)
 GY329 Applied Economics of Environment and Development (0.5)

Papers 11 & 12 Courses to the value of 2.0 unit(s) from the following:
 GY307 Regional Economic Development (0.5)
 GY308 The Economic Geography of Growth and Development (0.5)
 GY310 Urban Politics (0.5)
 GY311 The Political Economy of Urbanisation (0.5)
 GY315 Geographies of Race (0.5) (*not available 2019/20*)
 GY316 Gender in High Income and Emerging Economies (0.5)
 GY331 Geographies of Global Migration (0.5)
 GY350 Dissertation (1.0) # C

Notes

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Paper 7 options list

GY205 Political Geographies (1.0)
 GY206 Urban Geography and Globalisation (0.5)
 GY207 Economy, Society and Place (0.5)
 GY209 The Economic Geography of Trade, Production and Development (0.5)
 GY210 The Economics of Cities (0.5)
 GY222 Applied Environmental Economics (1.0)
 GY245 Quantitative Methods in Geography (0.5)
 GY248 Field Methods in Geography & Environment (0.5)

Footnotes

A: EC102 course allocation dependent on Economics

A-level or equivalent background. See course guide for further information.

B: Approved courses to the value of 1.0 unit can be selected from the Language Courses **List 2**. A language option may be chosen if it is a continuation of a language studied at A level (or equivalent) or Year 1. The appropriate course level is determined by the Language Centre.

C: Before taking GY350 students must take one of the following prerequisites in Year 2: GY245 or GY248.

means there may be prerequisites for this course. Please view the course guide for more information.

Level 1 courses are not permitted as part of this degree programme in Years 2 and 3.

Language courses are not allowed in Year 3.

Students wishing to study a modern language in Year 3 are encouraged to take one of the LSE Language Centre's extra-curricular courses.

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

BSc in Environment and Development

Programme Code: UBENDV

Department: Geography & Environment

For students starting this programme of study in 2017/18

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
See note	LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1	GY120 Environmental Change: Past, Present and Future (1.0)
Paper 2	GY121 Sustainable Development (1.0)
Paper 3	GY100 Introduction to Geography (1.0)
Paper 4	Courses to the value of 1.0 unit(s) from the following: AN100 Introduction to Social Anthropology (1.0) EC100 Economics A (1.0) # 1 EC102 Economics B (1.0) # 2A EH101 The Internationalisation of Economic Growth, 1870 to the present day (1.0) GV100 Introduction to Political Theory (1.0) GY103 Contemporary Europe (1.0) GY140 Introduction to Geographical Research (1.0) IR100 International Relations: Theories, Concepts and Debates (1.0)

Year 2

GY103	Contemporary Europe (1.0)
GY120	Environmental Change: Past, Present and Future (1.0)
GY121	Sustainable Development (1.0)
GY144	The London Lab: Geography in the City (1.0)

Footnotes

A: Approved courses to the value of 1.0 unit can be selected from the Language Courses **List 1**. A language option may be chosen if the student is new to the language or if the course is a continuation of a language studied at A level (or equivalent). The appropriate course level is determined by the Language Centre.

B: Approved courses to the value of 1.0 unit can be selected from the Language Courses **List 2**. A language option may be chosen if it is a continuation of a language studied at A level (or equivalent) or Year 1. The appropriate course level is determined by the Language Centre.

C: Approved courses to the value of 1.0 unit can be selected from the Language Courses **List 3**, for students wishing to receive a language specialism attached to their degree certificate and transcript. The appropriate course level is determined by the Language Centre and must be a progression from course studied in Year 1 and 2.

means there may be prerequisites for this course. Please view the course guide for more information. Level 1 courses are not permitted as part of this degree programme in Years 2 and 3.

Language Specialism: Students who have taken and passed one language course in each year of their degree (i.e. 25% of their overall programme of study) will receive a language specialism attached to their degree certificate and transcript. Students must take all courses in the same language (French, Spanish, German, Mandarin or Russian) in order to qualify for the specialism. The three courses must also be consecutively harder in level, for example: beginner, intermediate and advanced. Students who choose language courses in each year according to these rules will receive a language specialism. Degree certificates which include a language specialism will state the language in the title, for example: **BA in Geography with French**.

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be

found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

BA in Geography

Programme Code: UBGY2

Department: Geography & Environment

For students starting this programme of study in 2018/19 Students on this programme have the opportunity to receive a language specialism attached to their degree certificate and transcript. See the details at the bottom of this page for more information.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

GY329	Applied Economics of Environment and Development (0.5)
GY331	Geographies of Global Migration (0.5)

Language Courses List 3

Notes

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Paper 3 options list

GY103	Contemporary Europe (1.0)
GY120	Environmental Change: Past, Present and Future (1.0)
GY121	Sustainable Development (1.0)
GY144	The London Lab: Geography in the City (1.0)

Footnotes

A: Approved courses to the value of 1.0 unit can be selected from the Language Courses **List 2**. A language option may be chosen if it is a continuation of a language studied at A level (or equivalent) or Year 1. The appropriate course level is determined by the Language Centre.

B: Approved courses to the value of 1.0 unit can be selected from the Language Courses **List 3**, for students wishing to receive a language specialism attached to their degree certificate and transcript. The appropriate course level is determined by the Language Centre and must be a progression from course studied in Year 1 and 2.

means there may be prerequisites for this course. Please view the course guide for more information. Level 1 courses are not permitted as part of this degree programme in Years 2 and 3.

Language Specialism: Students who have taken and passed one language course in each year of their degree (i.e. 25% of their overall programme of study) will receive a language specialism attached to their degree certificate and transcript. Students must take all courses in the same language (French, Spanish, German, Mandarin or Russian) in order to qualify for the specialism. The three courses must also be consecutively harder in level, for example: beginner, intermediate and advanced. Students who choose language courses in each year according to these rules will receive a language specialism. Degree certificates which include a language specialism will state the language in the title, for example: **BA in Geography with French**.

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

BA in Geography

Programme Code: UBGY2

Department: Geography & Environment

For students starting this programme of study in 2017/18
Students on this programme have the opportunity to receive a language specialism attached to their degree certificate and transcript. See the details at the bottom of this page for more information.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

EH207 The Making of an Economic Superpower: China since 1850 (1.0) **or**
EH225 Latin America and the International Economy (1.0)

History List A

History List B

Paper 8 Courses to the value of 1.0 unit(s) from the following:
Undergraduate Outside Options List (Years 2 & 3)

Year 3

Papers 9 & 10 Courses to the value of 2.0 unit(s) from the following:
A

History List A

History List B

Paper 11 Courses to the value of 1.0 unit(s) from the following:
History List A
History List B

Undergraduate Outside Options List (Years 2 & 3)

Paper 12 HY300 Dissertation (1.0)

Notes

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Papers 1 & 2 options list

EH101	The Internationalisation of Economic Growth, 1870 to the present day (1.0)
HY113	From Empire to Independence: The Extra-European World in the Twentieth Century (1.0)
HY116	International Politics since 1914: Peace and War (1.0)
HY118	Faith, Power and Revolution: Europe and the Wider World, c.1500-c.1800 (1.0)
HY120	Historical Approaches to the Modern World (1.0) (<i>not available 2019/20</i>) Prerequisite Requirements and Mutually Exclusive

	Options * means available with permission
Footnotes	A: One course in Papers 9 & 10 must be from History List B if no course from this list was already taken at Paper 5 or Paper 7. # means there may be prerequisites for this course. Please view the course guide for more information. Language Specialism: Students who have taken and passed at least one language course in each year of their degree (i.e. 25% of their overall programme of study) will be offered the opportunity to receive a language specialism attached to their degree certificate and transcript. Students must take all courses in the same language (French, Spanish, German, Mandarin or Russian) in order to qualify for the specialism. The three courses must also be consecutively harder in level, for example: beginner, intermediate and advanced. Students who choose to take language courses are not obligated to receive a specialism, but have the option if they wish. Degree certificates which include a language specialism will state the language in the title, for example: BA in History with French . Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm . Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm .

BA in History

Programme Code: UBHY2

Department: International History

For students starting this programme of study in 2018/19 Students on this programme have the opportunity to receive a language specialism attached to their degree certificate and transcript. See the details at the bottom of this page for more information.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
See note	LSE100 The LSE Course: Understanding the causes of things

Year 1

Papers 1 & 2	Students take the following unassessed course which runs during Weeks 3, 4, 5, 7 & 8 of Michaelmas Term only: HY119 Thinking Like A Historian (0.0) And courses to the value of 2.0 unit(s) from the following: EH101 The Internationalisation of Economic Growth, 1870 to the present day (1.0) HY113 From Empire to Independence: The Extra-European World in the Twentieth Century (1.0) HY116 International Politics since 1914: Peace and War (1.0) HY118 Faith, Power and Revolution: Europe and the Wider World, c.1500-c.1800 (1.0)

* means available with permission

1 : Before taking IR320 you must take IR203

2 : Before taking IR323 you must take IR200

3 : Before taking IR324 you must take IR203

Before taking IR324 you must take IR200

4 : Before taking IR325 you must take IR200

Before taking IR325 you must take IR203

5 : Before taking LL342 you must take LL278

Footnotes

A: Courses selected from the Undergraduate Outside Options List must be relevant to the study of International Relations and approved by the candidate's Academic Mentor and the Departmental Tutor.

B: EC102 course allocation dependent on Economics A-level or equivalent background. See course guide for further information.

C: A maximum of 1.0 unit can be taken from the following courses under Papers 9, 10 & 11: IR200, IR202, IR203, IR205, IR206.

D: Courses selected from the Undergraduate Outside Options List must be at level 200 or level 300 and be approved by the Departmental Tutor of the Department of International Relations. Language courses must also be approved by the Department Tutor.

means there may be prerequisites for this course. Please view the course guide for more information.

Language Specialism: Students who have taken and passed at least one language course in each year of their degree (i.e. 25% of their overall programme of study) will be offered the opportunity to receive a language specialism attached to their degree certificate and transcript. Students must take all courses in the same language (French, Spanish, German, Mandarin or Russian) in order to qualify for the specialism. The three courses must also be consecutively harder in level, for example: beginner, intermediate and advanced. Students who choose to take language courses are not obligated to receive a specialism, but have the option if they wish. Degree certificates which include a language specialism will state the language in the title, for example: **BSc in International Relations with French.**

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be

found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

BSc in International Relations and Chinese

Programme Code: UBIRCHI

Department: Language Centre

For students starting this programme of study in 2019/20

This is a four year programme with a one year abroad element at the end of year two. Students spend years one, two and four at the LSE. The overall degree will be based on marks obtained during those three years at LSE under the three-year classification scheme. In order to be eligible for the award of the degree students must also successfully pass all elements of assessment at Fudan University. Fudan University will provide all successful students with a certificate and transcript with information about their year abroad.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Skills Course Students take the following non-assessed course:
IR102 Thinking Globally: Studying International Relations (0.0)

Paper 11	LN342 Academic Chinese for International Relations (1.0) (<i>not available 2019/20</i>)
Paper 12	LN341 Mandarin in the Global Workplace (1.0) (<i>not available 2019/20</i>)
Notes	LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification. # means there may be prerequisites for this course. Please view the course guide for more information. Progression Rules: Students must satisfy the LSE's progression rules before they are permitted to enrol on their year abroad at Fudan; namely, students must pass 7 out of 8 units of courses that they have attempted in year one and year two. Failure to progress: Where a student fails to meet the progression requirements they must resit the failed assessments and cannot progress to Fudan until they have passed 7 out of 8 units. Please note students are allowed three attempts to pass an assessment in year one and only two attempts to pass an assessment in year two. Where a student fails to meet the progression requirements and has run out of attempts to resit, they will fail the degree. Failure to pass all courses at Fudan University: Students must pass all assessments set by Fudan University in order to be eligible for the award of the degree. Where a student fails an assessment they will be provided a resit either in Fudan at the end of the year abroad or when they are back in London at the start of the final year of the programme. Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/

CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

Footnotes A: Students can select a maximum of one approved language (LN) course and a maximum of one approved paper taught outside the Department.

means there may be prerequisites for this course. Please view the course guide for more information.

BSc in International Social and Public Policy

Programme Code: UBISPP

Department: Social Policy

For students starting this programme of study in 2019/20

Students may elect to qualify for a specialism in Development and to have this title attached to their degree certificate and transcript. See the details at the bottom of this page for more information.

For 2019/20 all current Department of Social Policy course codes have changed from an SA-prefixed code to one prefixed with 'SP'. For details of the new codes please see the 'Course code changes from 2019/20' section of the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
See note	LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1	SP100 Understanding International Social and Public Policy (1.0)

ISPP Selection List 2

Recommended Year 2 Outside Options List (ISPP)

Undergraduate Outside Options List (Years 2 & 3)

Year 3

Paper 9 SP399 Dissertation (1.0)
Papers 10, 11 & 12 Courses to the value of 3.0 unit(s) from the following:
(up to one full unit of approved outside options only)

ISPP Selection List 2**ISPP Selection List 3****Undergraduate Outside Options List (Years 2 & 3)****Notes**

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

1 : Before taking SP200 you must take SP100

means there may be prerequisites for this course.

Please view the course guide for more information.

It is not always possible to offer students a place on

each of their preferred courses. This is particularly

the case where courses are offered outside the

Department of Social Policy (ie not prefixed with 'SP').

Development Specialism: In order to qualify for the Development Specialism, students must meet three requirements:

- Completion of SP210 Development and Social Change at papers 7 and 8;
- Their dissertation will need to focus on a question relevant to the specialism; and
- Completion of two other approved full units which relate to Development.

Degree certificates which include a Development specialism will state the following in the title:

BSc in International Social and Public Policy (Development)

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

BSc in International Social and Public Policy and Economics

Programme Code: UBISPPPEC

Department: Social Policy

For students starting this programme of study in 2019/20

For 2019/20 all current Department of Social Policy course codes have changed from an SA-prefixed code to one prefixed with 'SP'. For details of the new codes please see the 'Course code changes from 2019/20' section of the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

BSc in Language, Culture and Society

Programme Code: UBLNCUSO

Department: Language Centre

For students starting this programme of study in 2019/20

This is a four year programme with a one year abroad element at the end of year two. Students spend years one, two and four at the LSE. The overall degree will be based on marks obtained during those three years at LSE under the three-year classification scheme. In order to be eligible for the award of the degree students must also successfully pass all elements of assessment at the overseas Institution. The overseas Institution will provide all successful students with a certificate and transcript with information about their year abroad.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Notes	LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.		
Footnotes	A: As long as not previously selected as paper 8. # means there may be prerequisites for this course. Please view the course guide for more information. Progression Rules: Students must satisfy the LSE's progression rules before they are permitted to enrol on their year abroad; namely, students must pass 7 out of 8 units of courses that they have attempted in year one and year two. Failure to progress: Where a student fails to meet the progression requirements they must resit the failed assessments and cannot progress to the overseas Institution until they have passed 7 out of 8 units. Please note students are allowed three attempts to pass an assessment in year one and only two		

attempts to pass an assessment in year two. Where a student fails to meet the progression requirements and has run out of attempts to resit, they will fail the degree.

Failure to pass all courses at the overseas Institution:

Students must pass all assessments set by the overseas Institution in order to be eligible for the award of the degree. Where a student fails an assessment they will be provided a resit either at the overseas Institution at the end of the year abroad or when they are back in London at the start of the final year of the programme.

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

LLB in Laws

E: LL398 is available to students in Year 3; it may be taken in Year 2 in exceptional circumstances with permission of the Departmental Tutor; it cannot be taken in the same year as LL399.
F: Students can take courses to the value of 1.0 unit(s) from the Undergraduate Options List in Year 3 but only if they did not take any outside options in Year 2.
means there may be prerequisites for this course. Please view the course guide for more information. This programme constitutes a qualifying law degree (QLD). QLDs are recognised by the Solicitors

Regulation Authority www.sra.org.uk/consumers/consumers.page and the Bar Standards Board www.barstandardsboard.org.uk/ as meeting the requirements for completing the academic stage of legal education for solicitors or barristers. For further information contact the Law Department lawdepartment@lse.ac.uk.

BSc in Management

Programme Code: UBMG

Department: Management

For students starting this programme of study in 2019/20

Students who have taken and passed all courses in their first year of the BSc in Management programme will be offered the opportunity to apply to take an international exchange year between the second and third years of the programme. See the details at the bottom of this page for more information.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 FM101 Finance (0.5)

And one of the following:

AC102 Elements of Financial Accounting (0.5) **or**

AC103 Elements of Management Accounting, Financial Management and Financial Institutions (0.5)

Paper 2 EC100 Economics A (1.0) # **or**

EC102 Economics B (1.0) # A

Paper 3 MA107 Quantitative Methods (Mathematics) (0.5)

and ST107 Quantitative Methods (Statistics) (0.5)

Paper 4 MG104 Operations Management (0.5) **and** MG105 Organisational Behaviour and Leadership (0.5)

Year 2

Paper 5 Courses to the value of 1.0 unit(s) from the following:

MG212 Marketing (0.5)

MG213 Information Systems (0.5)

MG214 Human Resource Management (0.5)

Please view the course guide for more information.

International Exchange Year: Students successful in securing a place on the optional exchange will spend a full academic year studying on one of the leading business programmes in Asia, Europe or the USA. Students carrying any failed or deferred assessments for first or second year courses studied at LSE will not be eligible for the exchange. The exchange year will not count towards the classification of the BSc in Management programme and courses studied abroad will not be credit bearing, however the exchange year will be recognised on students' LSE transcripts providing they meet the standards set by their host institution. Partner schools will issue a separate transcript to confirm marks and grades achieved on courses studied overseas. Students will not have the option to resit assessment they have failed or been unable to attempt while overseas. Following the exchange, students will return to LSE to complete the third year of the BSc in Management programme.

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

Footnotes A: In Year 1 students choose between AC102 and AC103, on financial and management accounting respectively. Students MUST do ONE of these courses in Year 1; should they wish, they MAY choose to do the other in their second or third year as an option. All students are required to attend the first AC100 lecture to get an overview of the topics to be covered in each course. Students wishing to continue their studies with advanced financial accounting (AC330) in the second or third year should be advised to take AC102 in the first year. Students wishing to continue with advanced management accounting (e.g. AC211, AC310) in the second and third year should be advised to take AC103 in the first year. Should they wish to do both AC102 and AC103 in the course of their degree programme, it is recommended that they opt for the financial accounting unit (AC102) in the first year to ease their way through the management accounting and financial management unit (AC103). B: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information. C: If not already taken under Papers 8, 10 or 11. # means there may be prerequisites for this course. Please view the course guide for more information.

International Exchange (1 Term)

Programme Code: UOMNIMEX3

Department: Management

For students starting this programme of study in 2019/20

A one term (Michaelmas or Lent Term only) exchange programme for visiting BSc in Management students.

Students from partner exchange schools spend one term at LSE and choose 4 half-unit courses from the list below, according to which term they attend. Visiting students should be aware that the term in which these elective courses run may be subject to change. Visiting students will not be required to complete summative assessments or examinations outside of their term of study as they are not here in the main examination period. Therefore, assessment details for visiting students may differ from those listed in the course guide. Assessment methods for visiting students are confirmed no later than Week 6 of the course.

Students take half unit courses to the value of two units. Students are not permitted to take one unit courses.

Where the prerequisite of a course is prior study on a specific LSE course, applications from exchange students with equivalent academic experience will be considered. Decisions regarding admission to courses will be made by the relevant course leader on a case by case basis.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

International Exchange (Full Year)

Programme Code: UOMNIMEX2

Department: Management

For students starting this programme of study in 2019/20

A two term (both Michaelmas and Lent Term) exchange programme for visiting BSc in Management students.

Students from partner exchange schools spend two terms at LSE and choose courses to the value of 4.0 units from the list below.

Visiting students will not be required to complete summative assessments or examinations outside of their term of study as they are not here in the main examination period. Therefore, assessment details for visiting students may differ from those listed in the course guide. Assessment methods for visiting students are confirmed no later than Week 6 of the course.

Where the prerequisite of a course is prior study on a specific LSE course, applications from exchange students with equivalent academic experience will be considered. Decisions regarding admission to courses will be made by the relevant course leader on a case by case basis.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

MT

Michaelmas Term

MG104 Operations Management (0.5)

MG212 Marketing (0.5)

MG214 Human Resource Management (0.5)

MG302 Topics in Management Research (0.5)

MG305 Innovation and Technology Management (0.5)

MG307 International Context of Management (0.5)
(not available 2019/20)

MG312 Extreme Organisational Behaviour:
Examining behaviour in non-normative organisational contexts (0.5) (not available 2019/20)

ST205 Sample Surveys and Experiments (0.5)

ST307 Aspects of Market Research (0.5)

LT

Lent Term

MG105 Organisational Behaviour and Leadership (0.5)

MG206 Firms, Management and Competitive Advantage (0.5)

MG208 Business Transformation and Project Management (0.5) (not available 2019/20)

MG209 E-business (0.5)

MG210 Corporate Social Responsibility and International Labour Standards (0.5)

MG213 Information Systems (0.5)

MG228 Managing the Stone-Age Brain (0.5) (not available 2019/20)

MG303 International Business Strategy and Emerging Markets (0.5)

MG308 Simulation Modelling and Analysis (0.5)

MG310 Strategic Decision Making (0.5)

MG311 Foundations of Behavioural Decision Science (0.5)

MG315 Marketing Action Learning Project (0.5)

MG316 Brand Strategy (0.5)

PH225 Business and Organisational Ethics (0.5)

means there may be prerequisites for this course.

Please view the course guide for more information.

BSc in Mathematics and Economics

Programme Code: UBMAEC

Department: Mathematics

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 EC100 Economics A (1.0) # **or**

EC102 Economics B (1.0) # A

Paper 2 MA100 Mathematical Methods (1.0)

Paper 3 ST102 Elementary Statistical Theory (1.0)

Paper 4 MA103 Introduction to Abstract Mathematics (1.0)

Year 2

Paper 5 EC201 Microeconomic Principles I (1.0) # **or**

EC202 Microeconomic Principles II (1.0)

Paper 6 MA212 Further Mathematical Methods (1.0)

Paper 7 Courses to the value of 1.0 unit(s) from the following:

EC210 Macroeconomic Principles (1.0)

EC221 Principles of Econometrics (1.0)

FM213 Principles of Finance (1.0)

MA203 Real Analysis (0.5)

Paper 8 **And** courses to the value of 0.5 unit(s) from the following:

MA208 Optimisation Theory (0.5)

MA209 Differential Equations (0.5)

MA210 Discrete Mathematics (0.5)

MA211 Algebra and Number Theory (0.5)

Year 3

Paper 9 Courses to the value of 1.0 unit(s) from the following:

EC301 Advanced Economic Analysis (1.0) # 1

EC302 Political Economy (1.0)

EC309 Econometric Theory (1.0) # 2

EC310 Behavioural Economics (1.0)

EC313 Industrial Economics (1.0)

EC319 Games and Economic Behaviour (1.0)

EC321 Monetary Economics (1.0) # 3

EC325 Public Economics (1.0)

EC333 Problems of Applied Econometrics (1.0) # 4

Paper 10 Courses to the value of 0.5 unit(s) from the following:

MA208 Optimisation Theory (0.5)

MA209 Differential Equations (0.5)

MA210 Discrete Mathematics (0.5)

MA211 Algebra and Number Theory (0.5)

MA301 Game Theory I (0.5) # 5

MA303 Chaos in Dynamical Systems (0.5)

MA305 Optimisation in Function Spaces (0.5) (not available 2019/20)

MA314 Algorithms and Programming (0.5)

MA315 Algebra and its Applications (0.5)

MA316 Graph Theory (0.5)

MA317 Complex Analysis (0.5)

MA319 Partial Differential Equations (0.5)

MA320 Mathematics of Networks (0.5)

MA321 Measure Theoretic Probability (0.5)

MA322 Mathematics of Finance and Valuation (0.5)

And courses to the value of 0.5 unit(s) from the following:

MA301 Game Theory I (0.5)

MA303 Chaos in Dynamical Systems (0.5)

MA305 Optimisation in Function Spaces (0.5) (not available 2019/20)

MA310 Mathematics of Finance and Valuation (0.5) (withdrawn 2019/20)

MA313 Probability for Finance (0.5) (withdrawn 2019/20)

MA314 Algorithms and Programming (0.5)

MA315 Algebra and its Applications (0.5)

	MA316 Graph Theory (0.5)
	MA317 Complex Analysis (0.5)
	MA319 Partial Differential Equations (0.5)
	MA320 Mathematics of Networks (0.5)
	MA321 Measure Theoretic Probability (0.5)
	MA322 Mathematics of Finance and Valuation (0.5)
Paper 11	If FM213 was taken at Paper 7 then one of the following:
	EC210 Macroeconomic Principles (1.0)
	EC221 Principles of Econometrics (1.0)
	Or
	If EC210 or EC221 was taken under Paper 7 then one of the following:
	EC210 Macroeconomic Principles (1.0)
	EC221 Principles of Econometrics (1.0)
	FM213 Principles of Finance (1.0)
	FM320 Quantitative Finance (1.0)
	MA300 Game Theory (1.0) # 6
	ST202 Probability, Distribution Theory and Inference (1.0)

Any paper from the Paper 9 options list, or another third year paper in Mathematics or Economics (MA3** or EC3**) with the approval of the Departmental Tutor:

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.

B: Courses chosen from the Economics or Mathematics Third Year Options Lists are only permitted with approval from the Departmental Tutor.
C: No more than one from MA208, MA209, MA210 or MA211 can be taken in Year 3.

means there may be prerequisites for this course.

Please view the course guide for more information.

BSc in Mathematics with Economics

Programme Code: UBMAWEC

Department: Mathematics

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes

of things

Year 1

Paper 1	EC100 Economics A (1.0) # or
	EC102 Economics B (1.0) # A
Paper 2	MA100 Mathematical Methods (1.0)
Paper 3	ST102 Elementary Statistical Theory (1.0)
Paper 4	MA103 Introduction to Abstract Mathematics (1.0)

Year 2

Paper 5	EC201 Microeconomic Principles I (1.0) # or
	EC202 Microeconomic Principles II (1.0)
Paper 6	MA212 Further Mathematical Methods (1.0)
Paper 7	MA203 Real Analysis (0.5)
	And courses to the value of 0.5 unit(s) from the following:
	MA208 Optimisation Theory (0.5)
	MA209 Differential Equations (0.5)
	MA210 Discrete Mathematics (0.5)
	MA211 Algebra and Number Theory (0.5)
Paper 8	Courses to the value of 1.0 unit(s) from the following if not taken under Paper 7: B
	MA208 Optimisation Theory (0.5)
	MA209 Differential Equations (0.5)
	MA210 Discrete Mathematics (0.5)
	MA211 Algebra and Number Theory (0.5)
	MA231 Operational Research Methods (1.0)
	ST202 Probability, Distribution Theory and Inference (1.0)

Undergraduate Outside Options List (Years 2 & 3)**Year 3**

Paper 9	Courses to the value of 1.0 unit(s) from the following:
	EC210 Macroeconomic Principles (1.0)
	EC221 Principles of Econometrics (1.0)
	EC302 Political Economy (1.0)
	EC310 Behavioural Economics (1.0)
	EC319 Games and Economic Behaviour (1.0)
Papers 10 & 11	Courses to the value of 2.0 unit(s) from the following:
	C
	MA208 Optimisation Theory (0.5)
	MA209 Differential Equations (0.5)
	MA210 Discrete Mathematics (0.5)
	MA211 Algebra and Number Theory (0.5)
	MA231 Operational Research Methods (1.0)
	MA300 Game Theory (1.0)
	MA301 Game Theory I (0.5)
	MA303 Chaos in Dynamical Systems (0.5)
	MA305 Optimisation in Function Spaces (0.5) (<i>not available 2019/20</i>)
	MA314 Algorithms and Programming (0.5)
	MA315 Algebra and its Applications (0.5)
	MA316 Graph Theory (0.5)
	MA317 Complex Analysis (0.5)
	MA318 History of Mathematics in Finance and Economics (0.5)
	MA319 Partial Differential Equations (0.5)
	MA320 Mathematics of Networks (0.5)
	MA321 Measure Theoretic Probability (0.5)
	MA322 Mathematics of Finance and Valuation (0.5)
	ST300 Regression and Generalised Linear Models (0.5)
	ST302 Stochastic Processes (0.5)
	ST304 Time Series and Forecasting (0.5)
	ST308 Bayesian Inference (0.5)
Paper 12	If course(s) from the Undergraduate Outside Options List were chosen under Paper 8, then courses to the value of 1.0 unit(s) from the following:
	MA208 Optimisation Theory (0.5)
	MA209 Differential Equations (0.5)
	MA210 Discrete Mathematics (0.5)
	MA211 Algebra and Number Theory (0.5)
	MA231 Operational Research Methods (1.0)
	ST202 Probability, Distribution Theory and Inference (1.0)

Or

If MA208, MA209, MA210, MA211, MA231 or ST202 were chosen under Paper 8, then courses to the value of 1.0 unit(s) from the following: D

Undergraduate Outside Options List (Years 2 & 3)**Notes**

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

Footnotes

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.

B: Courses selected from the Undergraduate Outside Options List require the approval of the Departmental Tutor.

C: Courses selected in Papers 10 & 11 must include at most one MA2xx course, at most two STxxx courses, and at least one MA3xx course.

D: Courses selected from the Undergraduate Outside Options List require the approval of the Departmental Tutor.

means there may be prerequisites for this course. Please view the course guide for more information.

BSc in Mathematics with Economics

Programme Code: UBMAWEC

Department: Mathematics

For students starting this programme of study in 2018/19

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 EC100 Economics A (1.0) # or

EC102 Economics B (1.0) # A

Paper 2 MA100 Mathematical Methods (1.0)

Paper 3 ST102 Elementary Statistical Theory (1.0)

Paper 4 MA103 Introduction to Abstract Mathematics (1.0)

Year 2

Paper 5 EC201 Microeconomic Principles I (1.0) # or

EC202 Microeconomic Principles II (1.0)

Paper 6 MA212 Further Mathematical Methods (1.0)

Paper 7 MA203 Real Analysis (0.5)

And courses to the value of 0.5 unit(s) from the following:

MA208 Optimisation Theory (0.5)

MA209 Differential Equations (0.5)

MA210 Discrete Mathematics (0.5)

MA211 Algebra and Number Theory (0.5)

Paper 8 Courses to the value of 1.0 unit(s) from the following if not taken under Paper 7: B

MA208 Optimisation Theory (0.5)

MA209 Differential Equations (0.5)

MA210 Discrete Mathematics (0.5)

MA211 Algebra and Number Theory (0.5)

MA231 Operational Research Methods (1.0)

ST202 Probability, Distribution Theory and Inference (1.0)

Undergraduate Outside Options List (Years 2 & 3)**Year 3**

Paper 9 Courses to the value of 1.0 unit(s) from the following:

EC210 Macroeconomic Principles (1.0)

EC221 Principles of Econometrics (1.0)

EC302 Political Economy (1.0)

EC310 Behavioural Economics (1.0)

EC319 Games and Economic Behaviour (1.0)

Papers 10 & 11 Courses to the value of 2.0 unit(s) from the following:

C

MA208 Optimisation Theory (0.5)

MA209 Differential Equations (0.5)

MA210 Discrete Mathematics (0.5)

MA211 Algebra and Number Theory (0.5)

MA231 Operational Research Methods (1.0)

MA300 Game Theory (1.0)

MA301 Game Theory I (0.5)

MA303 Chaos in Dynamical Systems (0.5)

MA305 Optimisation in Function Spaces (0.5) (*not available 2019/20*)

MA314 Algorithms and Programming (0.5)

MA315 Algebra and its Applications (0.5)

MA316 Graph Theory (0.5)

MA317 Complex Analysis (0.5)

MA318 History of Mathematics in Finance and Economics (0.5)

MA319 Partial Differential Equations (0.5)

MA320 Mathematics of Networks (0.5)

MA321 Measure Theoretic Probability (0.5)

MA322 Mathematics of Finance and Valuation (0.5)

ST300 Regression and Generalised Linear Models (0.5)

ST302 Stochastic Processes (0.5)

ST304 Time Series and Forecasting (0.5)

ST308 Bayesian Inference (0.5)

Paper 12

If course(s) from the Undergraduate Outside Options List were chosen under Paper 8, then courses to the value of 1.0 unit(s) from the following:

MA208 Optimisation Theory (0.5)

MA209 Differential Equations (0.5)

MA210 Discrete Mathematics (0.5)

MA211 Algebra and Number Theory (0.5)

MA231 Operational Research Methods (1.0)

ST202 Probability, Distribution Theory and Inference (1.0)

Or

If MA208, MA209, MA210, MA211, MA231 or ST202 were chosen under Paper 8, then courses to the value of 1.0 unit(s) from the following: D

Undergraduate Outside Options List (Years 2 & 3)**Notes**

BSc in Mathematics, Statistics, and Business

Programme Code: UBMSB

Department: Statistics

For students starting this programme of study in 2019/20

This programme was previously titled **BSc in Business Mathematics and Statistics**.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 ST102 Elementary Statistical Theory (1.0)
Paper 2 MA100 Mathematical Methods (1.0)
Paper 3 EC100 Economics A (1.0) # **or**
EC102 Economics B (1.0) # A

Paper 4

Either

AC102 Elements of Financial Accounting (0.5) **and** AC103 Elements of Management Accounting, Financial Management and Financial Institutions (0.5)

Or

MA103 Introduction to Abstract Mathematics (1.0)

Year 2

Paper 5 MA212 Further Mathematical Methods (1.0)

Papers 6 & 7

Either
ST202 Probability, Distribution Theory and Inference (1.0) **and** ST211 Applied Regression (0.5)

And courses to the value of 0.5 units from List 1 or List 2:

List 1 - For students who took MA103 under Paper 4:

MA203 Real Analysis (0.5)
 MA208 Optimisation Theory (0.5) # B
 MA209 Differential Equations (0.5) # C
 MA210 Discrete Mathematics (0.5)
 MA211 Algebra and Number Theory (0.5)
 ST205 Sample Surveys and Experiments (0.5)
 ST226 Actuarial Investigations: Financial (0.5)
 ST227 Survival Models (0.5)

List 2 - For students who took AC102 and AC103 under Paper 4:

ST205 Sample Surveys and Experiments (0.5)
 ST226 Actuarial Investigations: Financial (0.5)
 ST227 Survival Models (0.5)

Or

ST206 Probability and Distribution Theory (0.5) *and*
 ST211 Applied Regression (0.5)

And courses to the value of 1.0 unit from List 1 or List 2:

List 1 - For students who took MA103 under Paper 4:

MA203 Real Analysis (0.5)
 MA208 Optimisation Theory (0.5)
 MA209 Differential Equations (0.5)
 MA210 Discrete Mathematics (0.5)
 MA211 Algebra and Number Theory (0.5)
 ST205 Sample Surveys and Experiments (0.5)
 ST226 Actuarial Investigations: Financial (0.5)
 ST227 Survival Models (0.5)

List 2 - For students who took AC102 and AC103 under Paper 4:

ST205 Sample Surveys and Experiments (0.5)
 ST226 Actuarial Investigations: Financial (0.5)
 ST227 Survival Models (0.5)

Paper 8 Courses to the value of 1.0 unit(s) from the following:
 D

AC102 Elements of Financial Accounting (0.5)
 AC103 Elements of Management Accounting, Financial Management and Financial Institutions (0.5)
 AC211 Managerial Accounting (1.0) # 1 (withdrawn 2019/20)
 EC201 Microeconomic Principles I (1.0)
 EC202 Microeconomic Principles II (1.0)
 EC210 Macroeconomic Principles (1.0)
 EC221 Principles of Econometrics (1.0)
 FM213 Principles of Finance (1.0)

Undergraduate Outside Options List (Years 2 & 3)

Year 3
 Paper 9 Courses to the value of 1.0 unit(s) from the following:
Paper 9 options list

Paper 10 Courses to the value of 1.0 unit(s) from the following:
Paper 9 options list

Paper 10 options list

Paper 11 Courses to the value of 1.0 unit(s) from the following:
Paper 9 options list

Paper 10 options list**Paper 11 options list**

Paper 12 Courses to the value of 1.0 unit(s) from the following:
Paper 9 options list

Paper 10 options list**Paper 11 options list****Undergraduate Outside Options List (Years 2 & 3)**

Notes

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Paper 9 options list

ST300 Regression and Generalised Linear Models (0.5)
 ST301 Actuarial Mathematics (Life) (0.5) 1
 ST302 Stochastic Processes (0.5)

ST304 Time Series and Forecasting (0.5)
 ST306 Actuarial Mathematics (General) (0.5) 2
 ST308 Bayesian Inference (0.5) A
 ST326 Financial Statistics (0.5)
 ST330 Stochastic and Actuarial Methods in Finance (1.0) 3 B

Footnotes

For Paper 9 options list A: ST202 is a desirable prerequisite for ST308. B: ST330 can only be taken if ST302 is taken under Paper 10. Prerequisite Requirements and Mutually Exclusive Options for Paper 9 options list 1 : Before taking ST301 you must take ST227 2 : Before taking ST306 you must take ST202 Before taking ST306 you must take ST302 3 : ST330 can not be taken with FM320

Paper 10 options list

MA203 Real Analysis (0.5) 1
 MA208 Optimisation Theory (0.5) 2 A
 MA209 Differential Equations (0.5) 3 B
 MA210 Discrete Mathematics (0.5) 4
 MA211 Algebra and Number Theory (0.5) 5
 MA300 Game Theory (1.0) 6 C
 MA301 Game Theory I (0.5) 7
 MA303 Chaos in Dynamical Systems (0.5) D
 MA305 Optimisation in Function Spaces (0.5) (*not available 2019/20*)
 MA310 Mathematics of Finance and Valuation (0.5) E (*withdrawn 2019/20*)
 MA313 Probability for Finance (0.5) 8 (*withdrawn 2019/20*)
 MA314 Algorithms and Programming (0.5) 9
 MA315 Algebra and its Applications (0.5) 10
 MA316 Graph Theory (0.5)
 MA317 Complex Analysis (0.5)
 MA318 History of Mathematics in Finance and Economics (0.5)
 MA319 Partial Differential Equations (0.5) 11
 MA320 Mathematics of Networks (0.5)
 MA331 Practical Optimisation Modelling (0.5) F (*not available 2019/20*)
 ST302 Stochastic Processes (0.5) G
 ST303 Stochastic Simulation (0.5)
 ST307 Aspects of Market Research (0.5) 12
 ST309 Elementary Data Analytics (0.5)
 ST312 Applied Statistics Project (0.5)
 ST327 Market Research: An Integrated Approach (1.0) 13

Footnotes

For Paper 10 options list A: MA203 is a desirable prerequisite for MA208. B: MA203 is a desirable prerequisite for MA209. C: EC201 or EC202 are desirable prerequisites for MA300. D: MA103 is a desirable prerequisite for MA303. E: MA310 can be taken if MA313 is taken in MT. F: Third year only G: ST302 must be taken if ST330 was taken under Paper 9. Prerequisite Requirements and Mutually Exclusive Options for Paper 10 options list 1 : Before taking MA203 you must take MA103 2 : Before taking MA208 you must take MA103 3 : Before taking MA209 you must take MA103 4 : Before taking MA210 you must take MA103 5 : Before taking MA211 you must take MA103 6 : MA300 can not be taken with MA301 7 : MA301 can not be taken with MA300 8 : Before taking MA313 you must take MA203 9 : Before taking MA314 you must take MA103 10 : Before taking MA315 you must take MA103 11 : Before taking MA319 you must take MA203 12 : ST307 can not be taken with ST205, ST327 13 : ST327 can not be taken with ST307

Paper 11 options list

AC211 Managerial Accounting (1.0) 1 (*withdrawn 2019/20*)
 AC330 Financial Accounting, Analysis and Valuation. (1.0) 2
 EC202 Microeconomic Principles II (1.0)
 EC210 Macroeconomic Principles (1.0)

EC221	Principles of Econometrics (1.0)
EC302	Political Economy (1.0) A
EC310	Behavioural Economics (1.0) B
EC319	Games and Economic Behaviour (1.0) C
EC325	Public Economics (1.0) D
FM213	Principles of Finance (1.0)
FM300	Corporate Finance, Investments and Financial Markets (1.0) E
FM320	Quantitative Finance (1.0) 3 F
Footnotes	<p>For Paper 11 options list A: EC302 can be taken if either EC201 or EC202 has been taken under Paper 8. B: EC310 can be taken if EC202, or EC201 with a good mark, has been taken under Paper 8. C: EC319 can be taken if EC201 or EC202 has been taken under Paper 8. D: EC325 can be taken if EC201 or EC202 has been taken under Paper 8. E: FM300 can be taken if FM213 has been taken under Paper 8. F: FM320 can be taken if FM213 has been taken under Paper 8. Prerequisite Requirements and Mutually Exclusive Options for Paper 11 options list 1 : Before taking AC211 you must take AC103 2 : Before taking AC330 you must take AC102 3 : FM320 can not be taken with ST330</p> <p>Prerequisite Requirements and Mutually Exclusive Options</p> <p>* means available with permission</p> <p>1 : Before taking AC211 you must take AC102 Before taking AC211 you must take AC103</p> <p>A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.</p> <p>B: If MA208 is taken, then it is also desirable that MA203 is taken under Papers 6 & 7.</p> <p>C: If MA209 is taken, then it is also desirable that MA203 is taken under Papers 6 & 7.</p> <p>D: Students may take certain courses from the Undergraduate Outside Options List, with the approval of the Course Tutor.</p> <p># means there may be prerequisites for this course. Please view the course guide for more information.</p> <p>Accreditation: Accredited by the Chartered Institute of Management Accountants (CIMA) for the purpose of exemption from some professional examinations through the Accredited degree accelerated route. Accredited by the Royal Statistical Society (RSS) for the purpose of eligibility for Graduate Statistician status. Further information is available from the BSc in Mathematics, Statistics, and Business homepage lse.ac.uk/Statistics/Study/BSc-programmes/BSc-Mathematics-Statistics-and-Business. Either EC100 or EC102 needs to be chosen for exemption of BA1 Fundamentals of Business Economics.</p> <p>Either AC100, AC102, AC103 or AC104 needs to be chosen for exemption of BA2 Fundamentals of Management Accounting.</p> <p>Either AC100, AC102, AC103 or AC104 needs to be chosen for exemption of BA3 Fundamentals of Financial Accounting.</p> <p>Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. BSc in Mathematics, Statistics, and Business

Programme Code: UBMSB

Department: Statistics

For students starting this programme of study in 2018/19

This programme was previously titled **BSc in Business Mathematics and Statistics**.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
See note	LSE100 The LSE Course: Understanding the causes of things
Year 1	
Paper 1	ST102 Elementary Statistical Theory (1.0)
Paper 2	MA100 Mathematical Methods (1.0)
Paper 3	EC100 Economics A (1.0) # or EC102 Economics B (1.0) # A
Paper 4	Either AC102 Elements of Financial Accounting (0.5) and AC103 Elements of Management Accounting, Financial Management and Financial Institutions (0.5)
	Or MA103 Introduction to Abstract Mathematics (1.0)
Year 2	
Paper 5	MA212 Further Mathematical Methods (1.0)
Papers 6 & 7	Either ST202 Probability, Distribution Theory and Inference (1.0) and ST211 Applied Regression (0.5)
	And courses to the value of 0.5 units from List 1 or List 2:
	List 1 - For students who took MA103 under Paper 4:
	MA203 Real Analysis (0.5)
	MA208 Optimisation Theory (0.5) # B
	MA209 Differential Equations (0.5) # C
	MA210 Discrete Mathematics (0.5)
	MA211 Algebra and Number Theory (0.5)
	ST205 Sample Surveys and Experiments (0.5)
	ST226 Actuarial Investigations: Financial (0.5)
	ST227 Survival Models (0.5)
	List 2 - For students who took AC102 and AC103 under Paper 4:
	ST205 Sample Surveys and Experiments (0.5)
	ST226 Actuarial Investigations: Financial (0.5)
	ST227 Survival Models (0.5)
	Or
	ST206 Probability and Distribution Theory (0.5) and ST211 Applied Regression (0.5)
	And courses to the value of 1.0 unit from List 1 or List 2:
	List 1 - For students who took MA103 under Paper 4:
	MA203 Real Analysis (0.5)
	MA208 Optimisation Theory (0.5)
	MA209 Differential Equations (0.5)
	MA210 Discrete Mathematics (0.5)
	MA211 Algebra and Number Theory (0.5)
	ST205 Sample Surveys and Experiments (0.5)
	ST226 Actuarial Investigations: Financial (0.5)
	ST227 Survival Models (0.5)
	List 2 - For students who took AC102 and AC103 under Paper 4:
	ST205 Sample Surveys and Experiments (0.5)
	ST226 Actuarial Investigations: Financial (0.5)
	ST227 Survival Models (0.5)
Paper 8	Courses to the value of 1.0 unit(s) from the following: D AC102 Elements of Financial Accounting (0.5)

76 Undergraduate Programme Regulations

AC103	Elements of Management Accounting, Financial Management and Financial Institutions (0.5)
AC211	Managerial Accounting (1.0) # 1 (withdrawn 2019/20)
EC201	Microeconomic Principles I (1.0)
EC202	Microeconomic Principles II (1.0)
EC210	Macroeconomic Principles (1.0)
EC221	Principles of Econometrics (1.0)
FM213	Principles of Finance (1.0)

Undergraduate Outside Options List (Years 2 & 3)

Year 3

Paper 9 Courses to the value of 1.0 unit(s) from the following:
Paper 9 options list

Paper 10 Courses to the value of 1.0 unit(s) from the following:
Paper 9 options list
Paper 10 options list

Paper 11 Courses to the value of 1.0 unit(s) from the following:
Paper 9 options list
Paper 10 options list
Paper 11 options list

Paper 12 Courses to the value of 1.0 unit(s) from the following:
Paper 9 options list
Paper 10 options list
Paper 11 options list
Undergraduate Outside Options List (Years 2 & 3)

Notes LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Paper 9 options list

ST300	Regression and Generalised Linear Models (0.5)
ST301	Actuarial Mathematics (Life) (0.5) 1
ST302	Stochastic Processes (0.5)
ST304	Time Series and Forecasting (0.5)
ST306	Actuarial Mathematics (General) (0.5) 2
ST308	Bayesian Inference (0.5) A
ST326	Financial Statistics (0.5)
ST330	Stochastic and Actuarial Methods in Finance (1.0) 3 B

Footnotes For Paper 9 options list A: ST202 is a desirable prerequisite for ST308. B: ST330 can only be taken if ST302 is taken under Paper 10. Prerequisite Requirements and Mutually Exclusive Options for Paper 9 options list 1 : Before taking ST301 you must take ST227 2 : Before taking ST306 you must take ST202 Before taking ST306 you must take ST302 3 : ST330 can not be taken with FM320

Paper 10 options list

MA203	Real Analysis (0.5) 1
MA208	Optimisation Theory (0.5) 2 A
MA209	Differential Equations (0.5) 3 B
MA210	Discrete Mathematics (0.5) 4
MA211	Algebra and Number Theory (0.5) 5
MA300	Game Theory (1.0) 6 C
MA301	Game Theory I (0.5) 7
MA303	Chaos in Dynamical Systems (0.5) D
MA305	Optimisation in Function Spaces (0.5) (<i>not available 2019/20</i>)
MA310	Mathematics of Finance and Valuation (0.5) E (withdrawn 2019/20)
MA313	Probability for Finance (0.5) 8 (withdrawn 2019/20)
MA314	Algorithms and Programming (0.5) 9
MA315	Algebra and its Applications (0.5) 10
MA316	Graph Theory (0.5)
MA317	Complex Analysis (0.5)
MA318	History of Mathematics in Finance and Economics (0.5)
MA319	Partial Differential Equations (0.5) 11
MA320	Mathematics of Networks (0.5)

MA331	Practical Optimisation Modelling (0.5) F (<i>not available 2019/20</i>)
ST302	Stochastic Processes (0.5) G
ST303	Stochastic Simulation (0.5)
ST307	Aspects of Market Research (0.5) 12
ST309	Elementary Data Analytics (0.5)
ST312	Applied Statistics Project (0.5)
ST327	Market Research: An Integrated Approach (1.0) 13

Footnotes

For Paper 10 options list A: MA203 is a desirable prerequisite for MA208. B: MA203 is a desirable prerequisite for MA209. C: EC201 or EC202 are desirable prerequisites for MA300. D: MA103 is a desirable prerequisite for MA303. E: MA310 can be taken if MA313 is taken in MT. F: Third year only G: ST302 must be taken if ST330 was taken under Paper 9.

Prerequisite Requirements and Mutually Exclusive Options for Paper 10 options list 1 : Before taking MA203 you must take MA103 2 : Before taking MA208 you must take MA103 3 : Before taking MA209 you must take MA103 4 : Before taking MA210 you must take MA103 5 : Before taking MA211 you must take MA103 6 : MA300 can not be taken with MA301 7 : MA301 can not be taken with MA300 8 : Before taking MA313 you must take MA203 9 : Before taking MA314 you must take MA103 10 : Before taking MA315 you must take MA103 11 : Before taking MA319 you must take MA203 12 : ST307 can not be taken with ST205, ST327 13 : ST327 can not be taken with ST307

Paper 11 options list

AC211	Managerial Accounting (1.0) 1 (withdrawn 2019/20)
AC330	Financial Accounting, Analysis and Valuation. (1.0) 2
EC202	Microeconomic Principles II (1.0)
EC210	Macroeconomic Principles (1.0)
EC221	Principles of Econometrics (1.0)
EC302	Political Economy (1.0) A
EC310	Behavioural Economics (1.0) B
EC319	Games and Economic Behaviour (1.0) C
EC325	Public Economics (1.0) D
FM213	Principles of Finance (1.0)
FM300	Corporate Finance, Investments and Financial Markets (1.0) E
FM320	Quantitative Finance (1.0) 3 F

Footnotes

For Paper 11 options list A: EC302 can be taken if either EC201 or EC202 has been taken under Paper 8. B: EC310 can be taken if EC202, or EC201 with a good mark, has been taken under Paper 8. C: EC319 can be taken if EC201 or EC202 has been taken under Paper 8. D: EC325 can be taken if EC201 or EC202 has been taken under Paper 8. E: FM300 can be taken if FM213 has been taken under Paper 8. F: FM320 can be taken if FM213 has been taken under Paper 8. Prerequisite Requirements and Mutually Exclusive Options for Paper 11 options list 1 : Before taking AC211 you must take AC103 2 : Before taking AC330 you must take AC102 3 : FM320 can not be taken with ST330

Prerequisite Requirements and Mutually Exclusive Options
* means available with permission
1 : Before taking AC211 you must take AC102
Before taking AC211 you must take AC103

Footnotes

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.
B: If MA208 is taken, then it is also desirable that MA203 is taken under Papers 6 & 7.
C: If MA209 is taken, then it is also desirable that MA203 is taken under Papers 6 & 7.
D: Students may take certain courses from the

Undergraduate Outside Options List, with the approval of the Course Tutor.

means there may be prerequisites for this course. Please view the course guide for more information.

Accreditation: Accredited by the Chartered Institute of Management Accountants (CIMA) for the purpose of exemption from some professional examinations through the Accredited degree accelerated route. Accredited by the Royal Statistical Society (RSS) for the purpose of eligibility for Graduate Statistician status. Further information is available from the BSc in Mathematics, Statistics, and Business homepage lse.ac.uk/Statistics/Study/BSc-programmes/BSc-Mathematics-Statistics-and-Business.

Either EC100 or EC102 needs to be chosen for exemption of BA1 Fundamentals of Business Economics.

Either AC100, AC102, AC103 or AC104 needs to be chosen for exemption of BA2 Fundamentals of Management Accounting.

Either AC100, AC102, AC103 or AC104 needs to be chosen for exemption of BA3 Fundamentals of Financial Accounting.

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

BSc in Mathematics, Statistics, and Business

Programme Code: UBMSB

Department: Statistics

For students starting this programme of study in 2017/18

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
See note	LSE100 The LSE Course: Understanding the causes of things
Year 1	
Paper 1	ST102 Elementary Statistical Theory (1.0)
Paper 2	MA100 Mathematical Methods (1.0)
Paper 3	EC100 Economics A (1.0) # or EC102 Economics B (1.0) # A
Paper 4	AC100 Elements of Accounting and Finance (1.0) or MA103 Introduction to Abstract Mathematics (1.0)
Year 2	
Paper 5	MA212 Further Mathematical Methods (1.0)
Papers 6 & 7	Either ST202 Probability, Distribution Theory and Inference (1.0) and ST211 Applied Regression (0.5) And courses to the value of 0.5 unit(s) from the following: MA203 Real Analysis (0.5) MA208 Optimisation Theory (0.5) MA209 Differential Equations (0.5) MA210 Discrete Mathematics (0.5) MA211 Algebra and Number Theory (0.5) ST205 Sample Surveys and Experiments (0.5) ST226 Actuarial Investigations: Financial (0.5) ST227 Survival Models (0.5) Or ST206 Probability and Distribution Theory (0.5) and

ST211 Applied Regression (0.5)

And courses to the value of 1.0 unit(s) from the following:

MA103 Introduction to Abstract Mathematics (1.0)
MA203 Real Analysis (0.5)
MA208 Optimisation Theory (0.5)
MA209 Differential Equations (0.5)
MA210 Discrete Mathematics (0.5)
MA211 Algebra and Number Theory (0.5)
ST205 Sample Surveys and Experiments (0.5)
ST226 Actuarial Investigations: Financial (0.5)
ST227 Survival Models (0.5)

Paper 8 Courses to the value of 1.0 unit(s) from the following:

B
AC102 Elements of Financial Accounting (0.5)
AC103 Elements of Management Accounting, Financial Management and Financial Institutions (0.5)
AC104 Elements of Accounting, Financial Institutions and Financial Management (1.0) (withdrawn 2018/19)
AC211 Managerial Accounting (1.0) (withdrawn 2019/20)
EC201 Microeconomic Principles I (1.0)
EC202 Microeconomic Principles II (1.0)
EC210 Macroeconomic Principles (1.0)
FM213 Principles of Finance (1.0)
MA231 Operational Research Methods (1.0)
MG203 Organisational Theory and Behaviour (1.0) (withdrawn 2018/19)
MG206 Firms, Management and Competitive Advantage (0.5)
MG207 Managerial Economics (1.0)
MG302 Topics in Management Research (0.5)
SP233 Introduction to Global Population Change (1.0) (withdrawn 2019/20)

Undergraduate Outside Options List (Years 2 & 3)

Year 3

Paper 9

Courses to the value of 1.0 unit(s) from the following:
ST300 Regression and Generalised Linear Models (0.5)

ST301 Actuarial Mathematics (Life) (0.5)
ST302 Stochastic Processes (0.5)
ST304 Time Series and Forecasting (0.5)
ST306 Actuarial Mathematics (General) (0.5)
ST308 Bayesian Inference (0.5)
ST326 Financial Statistics (0.5)
ST330 Stochastic and Actuarial Methods in Finance (1.0)

Paper 10

Courses to the value of 1.0 unit(s) from the following:

MA203 Real Analysis (0.5)
MA208 Optimisation Theory (0.5)
MA209 Differential Equations (0.5)
MA210 Discrete Mathematics (0.5)
MA211 Algebra and Number Theory (0.5)
MA300 Game Theory (1.0) # 1
MA301 Game Theory I (0.5) # 2
MA303 Chaos in Dynamical Systems (0.5)
MA305 Optimisation in Function Spaces (0.5) (*not available 2019/20*)
MA310 Mathematics of Finance and Valuation (0.5) (withdrawn 2019/20)
MA313 Probability for Finance (0.5) (withdrawn 2019/20)
MA314 Algorithms and Programming (0.5)
MA315 Algebra and its Applications (0.5)
MA316 Graph Theory (0.5)
MA317 Complex Analysis (0.5)
MA318 History of Mathematics in Finance and Economics (0.5)
MA319 Partial Differential Equations (0.5)
MA331 Practical Optimisation Modelling (0.5) # C

(not available 2019/20)

ST303	Stochastic Simulation (0.5)
ST307	Aspects of Market Research (0.5) # 3
ST309	Elementary Data Analytics (0.5)
ST312	Applied Statistics Project (0.5)
ST327	Market Research: An Integrated Approach (1.0) # 4
ST330	Stochastic and Actuarial Methods in Finance (1.0) # 56

Paper 9 options list

Paper 11	Courses to the value of 1.0 unit(s) from the following: D
AC211	Managerial Accounting (1.0) (withdrawn 2019/20)
AC310	Management Accounting, Financial Management and Organisational Control (1.0)
AC330	Financial Accounting, Analysis and Valuation. (1.0)
AC340	Auditing, Governance and Risk Management (1.0)
EC202	Microeconomic Principles II (1.0)
EC210	Macroeconomic Principles (1.0)
EC321	Monetary Economics (1.0)
FM213	Principles of Finance (1.0)
FM300	Corporate Finance, Investments and Financial Markets (1.0)
FM320	Quantitative Finance (1.0) # 7
LL209	Commercial and Enterprise Law (1.0) (withdrawn 2018/19)
LL210	Information Technology and the Law (1.0)
MA231	Operational Research Methods (1.0)
MG203	Organisational Theory and Behaviour (1.0) (withdrawn 2018/19)
MG206	Firms, Management and Competitive Advantage (0.5)
MG207	Managerial Economics (1.0)
MG212	Marketing (0.5)
MG302	Topics in Management Research (0.5)
MG307	International Context of Management (0.5) 8 <i>(not available 2019/20)</i>
MG315	Marketing Action Learning Project (0.5) # E

Paper 9 options list**Paper 10 options list****Undergraduate Outside Options List (Years 2 & 3)**

Paper 12	Courses to the value of 1.0 unit(s) from the following:
AC211	Managerial Accounting (1.0) (withdrawn 2019/20)
AC310	Management Accounting, Financial Management and Organisational Control (1.0)
AC330	Financial Accounting, Analysis and Valuation. (1.0)
AC340	Auditing, Governance and Risk Management (1.0)
EC202	Microeconomic Principles II (1.0)
EC210	Macroeconomic Principles (1.0)
EC221	Principles of Econometrics (1.0)

Footnotes

For Paper 10 options list A: Third year only
Prerequisite Requirements and Mutually Exclusive Options for Paper 10 options list 1 : MA300 can not be taken with MA301 2 : MA301 can not be taken with MA300 3 : ST307 can not be taken with ST205, ST327 4 : ST327 can not be taken with ST307 5 : Before taking ST330 you must take ST302 6 : ST330 can not be taken with FM320

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

1 : MA300 can not be taken with MA301

2 : MA301 can not be taken with MA300

3 : ST307 can not be taken with ST205, ST327

4 : ST327 can not be taken with ST307

5 : Before taking ST330 you must take ST302

6 : ST330 can not be taken with FM320

7 : FM320 can not be taken with ST330

8 : MG307 can not be taken with MG303

9 : FM320 can not be taken with ST330

Footnotes

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.

B: Students may take certain courses, include a Language course at least at intermediate level, from the Undergraduate Outside Options List, with the approval of the Course Tutor.

C: Available in the third year only.

D: Students may take certain courses, include a Language course at least at intermediate level, from the Undergraduate Outside Options List, with the approval of the Course Tutor.

E: Available in the third year only.

means there may be prerequisites for this course. Please view the course guide for more information.

This programme has been retitled to BSc in Mathematics, Statistics, and Business for 2018/19. Last year of entry 2017/18.

BSc in Philosophy and Economics

Programme Code: UBPHEC

Department: Philosophy, Logic and Scientific Method

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
See note	LSE100 The LSE Course: Understanding the causes of things
Year 1	
Paper 1	EC100 Economics A (1.0) # or EC102 Economics B (1.0) # A
Papers 2 & 3	Either MA107 Quantitative Methods (Mathematics) (0.5) and PH101 Logic (1.0) and ST107 Quantitative Methods (Statistics) (0.5) Or MA100 Mathematical Methods (1.0) and ST102 Elementary Statistical Theory (1.0)
Paper 4	PH103 The Big Questions: An Introduction to Philosophy (1.0)
Year 2	
Paper 5	Courses to the value of 1.0 unit(s) from the following: Philosophy Options List
Paper 6	If PH101 was not taken under Paper 3, then students must take: PH111 Introduction to Logic (0.5) and PH112 Intermediate Logic (0.5) Or If PH101 was taken under Paper 3, then courses to the value of 1.0 unit(s) from the following: Philosophy Options List
Paper 7	EC201 Microeconomic Principles I (1.0) # or EC202 Microeconomic Principles II (1.0)
Paper 8	One of the following options: EC210 Macroeconomic Principles (1.0) Or If a grade of 65 or above on both ST107 and MA107 has been received, or if MA100 and ST102 were taken in Year 1, then students can select the following: EC220 Introduction to Econometrics (1.0) Or If MA100 and ST102 were taken in Year 1, then students can select the following: EC221 Principles of Econometrics (1.0)
Year 3	
Paper 9	Courses to the value of 1.0 unit(s) from the following: Philosophy Options List
Paper 10	Courses to the value of 1.0 unit(s) from the following: Undergraduate Outside Options List (Years 2 & 3) Or Courses to the value of 1.0 unit(s) from the following: Philosophy Options List Or Courses to the value of 1.0 unit(s) from the following: Economics Options List
Paper 11	Courses to the value of 1.0 unit(s) from the following: Economics Options List
Paper 12	PH311 Philosophy of Economics (1.0)
Notes	LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Economics Options List

EC220	Introduction to Econometrics (1.0) # 1
EC221	Principles of Econometrics (1.0) # 2
EC301	Advanced Economic Analysis (1.0)
EC302	Political Economy (1.0)
EC307	Development Economics (1.0)
EC310	Behavioural Economics (1.0)
EC311	History of Economics: How Theories Change (1.0)
EC315	International Economics (1.0)
EC317	Labour Economics (1.0)
EC319	Games and Economic Behaviour (1.0)
EC321	Monetary Economics (1.0)
EC325	Public Economics (1.0)

Philosophy Options List

LL305	Jurisprudence (1.0) B
LN253	European Literature and Philosophy (1.0)
LN254	Literature and Aspects of Ethics (1.0)
PH201	Philosophy of Science (1.0)
PH203	Philosophy of the Social Sciences (1.0)
PH213	Scientific Revolutions: Philosophical and Historical Issues (1.0) (withdrawn 2019/20)
PH214	Philosophy, Morals and Politics (1.0)
PH217	Set Theory and Further Logic (1.0)
PH220	Scientific Method and Policy (1.0) (withdrawn 2019/20)
PH221	Problems of Analytic Philosophy (1.0)
PH222	Philosophy and Public Policy (1.0)
PH225	Business and Organisational Ethics (0.5)
PH227	Genes, Brains and Society (0.5) (not available 2019/20)
PH228	Emotion, Cognition and Behaviour: Science and Policy (0.5) (withdrawn 2019/20)
PH230	Einstein for Everyone: From time travel to the edge of the universe (0.5)
PH232	Physics and the City: From Quantum Jumps to Stock Market Crashes (0.5)
PH311	Philosophy of Economics (1.0)
PH332	Effective Philanthropy: Ethics and Evidence (0.5) (not available 2019/20)
PH333	Philosophy of Gender and Race (0.5)
PH399	Dissertation in Philosophy (1.0) C Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

1 : EC220 can not be taken with EC221

2 : EC221 can not be taken with EC220

Footnotes
A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.

B: LL305 can be taken in the third year only.

C: PH399 cannot be taken in Year 1 or Year 2.

means there may be prerequisites for this course.

Please view the course guide for more information.

Paper 11	Courses to the value of 1.0 unit(s) from the following: Economics Options List
----------	--

Paper 12 PH311 Philosophy of Economics (1.0)

Notes LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Economics Options List

EC220	Introduction to Econometrics (1.0) # 1
EC221	Principles of Econometrics (1.0) # 2
EC301	Advanced Economic Analysis (1.0)
EC302	Political Economy (1.0)
EC303	Economic Policy Analysis (1.0) (withdrawn 2018/19)
EC307	Development Economics (1.0)
EC310	Behavioural Economics (1.0)
EC311	History of Economics: How Theories Change (1.0)
EC315	International Economics (1.0)
EC317	Labour Economics (1.0)
EC319	Games and Economic Behaviour (1.0)
EC321	Monetary Economics (1.0)
EC325	Public Economics (1.0)

Philosophy Options List

LL305	Jurisprudence (1.0) B
LN253	European Literature and Philosophy (1.0)
LN254	Literature and Aspects of Ethics (1.0)
PH201	Philosophy of Science (1.0)
PH203	Philosophy of the Social Sciences (1.0)

PH213	Scientific Revolutions: Philosophical and Historical Issues (1.0) (withdrawn 2019/20)
PH214	Philosophy, Morals and Politics (1.0)
PH217	Set Theory and Further Logic (1.0)
PH220	Scientific Method and Policy (1.0) (withdrawn 2019/20)
PH221	Problems of Analytic Philosophy (1.0)
PH222	Philosophy and Public Policy (1.0)
PH225	Business and Organisational Ethics (0.5)
PH227	Genes, Brains and Society (0.5) (not available 2019/20)
PH228	Emotion, Cognition and Behaviour: Science and Policy (0.5) (withdrawn 2019/20)
PH230	Einstein for Everyone: From time travel to the edge of the universe (0.5)
PH232	Physics and the City: From Quantum Jumps to Stock Market Crashes (0.5)
PH311	Philosophy of Economics (1.0)
PH332	Effective Philanthropy: Ethics and Evidence (0.5) (not available 2019/20)
PH333	Philosophy of Gender and Race (0.5)
PH399	Dissertation in Philosophy (1.0) C

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

1 : EC220 can not be taken with EC221

2 : EC221 can not be taken with EC220

Footnotes

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.

B: LL305 can be taken in the third year only.

C: PH399 cannot be taken in Year 1 or Year 2.

means there may be prerequisites for this course.

Please view the course guide for more information.

BSc in Philosophy and Economics

Programme Code: UBPHEC

Department: Philosophy, Logic and Scientific Method

For students starting this programme of study in 2017/18

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
See note	LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1	EC100 Economics A (1.0) # or
	EC102 Economics B (1.0) # A

Papers 2 & 3

Either
MA107 Quantitative Methods (Mathematics) (0.5) **and** ST107 Quantitative Methods (Statistics) (0.5) **and** PH101 Logic (1.0)

Or

MA100 Mathematical Methods (1.0) **and** ST102 Elementary Statistical Theory (1.0)

Paper 4	PH103 The Big Questions: An Introduction to Philosophy (1.0)
---------	--

Year 2

Paper 5	Courses to the value of 1.0 unit(s) from the following: Philosophy Options List
---------	---

Paper 6	If PH101 was not taken under Paper 3, then students must take:
---------	--

PH104 Formal Methods of Philosophical Argumentation (1.0)

Or

If PH101 was taken under Paper 3, then courses to the value of 1.0 unit(s) from the following:

Philosophy Options List

Paper 7	EC201 Microeconomic Principles I (1.0) # or
---------	--

- Paper 8 EC202 Microeconomic Principles II (1.0)
One of the following options:
EC210 Macroeconomic Principles (1.0)
Or
If a grade of 65 or above on both ST107 and MA107 has been received, or if MA100 and ST102 were taken in Year 1, then students can select the following:
EC220 Introduction to Econometrics (1.0)
Or
If MA100 and ST102 were taken in Year 1, then students can select the following:
EC221 Principles of Econometrics (1.0)

Year 3

- Paper 9 Courses to the value of 1.0 unit(s) from the following:

Philosophy Options List

- Paper 10 Courses to the value of 1.0 unit(s) from the following:

Undergraduate Outside Options List (Years 2 & 3)**Or**

- Courses to the value of 1.0 unit(s) from the following:

Philosophy Options List**Or**

- Courses to the value of 1.0 unit(s) from the following:

Economics Options List

- Paper 11 Courses to the value of 1.0 unit(s) from the following:

Economics Options List

- Paper 12 PH311 Philosophy of Economics (1.0)

Notes

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Economics Options List

- EC220 Introduction to Econometrics (1.0) # 1
EC221 Principles of Econometrics (1.0) # 2
EC301 Advanced Economic Analysis (1.0)
EC302 Political Economy (1.0)
EC303 Economic Policy Analysis (1.0) (withdrawn 2018/19)
EC307 Development Economics (1.0)
EC310 Behavioural Economics (1.0)
EC311 History of Economics: How Theories Change (1.0)
EC315 International Economics (1.0)
EC317 Labour Economics (1.0)
EC319 Games and Economic Behaviour (1.0)
EC321 Monetary Economics (1.0)
EC325 Public Economics (1.0)

Philosophy Options List

- LL305 Jurisprudence (1.0) B
LN253 European Literature and Philosophy (1.0)
LN254 Literature and Aspects of Ethics (1.0)
PH201 Philosophy of Science (1.0)
PH203 Philosophy of the Social Sciences (1.0)
PH213 Scientific Revolutions: Philosophical and Historical Issues (1.0) (withdrawn 2019/20)
PH214 Philosophy, Morals and Politics (1.0)
PH217 Set Theory and Further Logic (1.0)
PH220 Scientific Method and Policy (1.0) (withdrawn 2019/20)
PH221 Problems of Analytic Philosophy (1.0)
PH222 Philosophy and Public Policy (1.0)
PH225 Business and Organisational Ethics (0.5)
PH227 Genes, Brains and Society (0.5) (*not available 2019/20*)
PH228 Emotion, Cognition and Behaviour: Science and Policy (0.5) (withdrawn 2019/20)
PH230 Einstein for Everyone: From time travel to the edge of the universe (0.5)
PH232 Physics and the City: From Quantum Jumps to Stock Market Crashes (0.5)
PH311 Philosophy of Economics (1.0)
PH332 Effective Philanthropy: Ethics and Evidence (0.5) (*not available 2019/20*)

- PH333 Philosophy of Gender and Race (0.5)
PH399 Dissertation in Philosophy (1.0) C
Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

1 : EC220 can not be taken with EC221

2 : EC221 can not be taken with EC220

Footnotes

A: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.

B: LL305 can be taken in the third year only.

C: PH399 cannot be taken in Year 1 or Year 2.

means there may be prerequisites for this course.

A: LL305 can be taken in the third year only.

B: PH399 cannot be taken in Year 1 or Year 2.

means there may be prerequisites for this course.

Please view the course guide for more information.

Language Specialism: Students who have taken and passed at least one language course in each year of their degree (i.e. 25% of their overall programme of study) will be offered the opportunity to receive a language specialism attached to their degree certificate and transcript. Students must take all courses in the same language (French, Spanish, German, Mandarin or Russian) in order to qualify for the specialism. The three courses must also be consecutively harder in level, for example: beginner, intermediate and advanced. Students who choose to take language courses are not obligated to receive a specialism, but have the option if they wish. Degree certificates which include a language specialism will state the language in the title, for example: **BSc in Philosophy, Logic and Scientific Method with French.**

Note for prospective students: For changes to undergraduate course and programme information for the next academic session, please see the undergraduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGProspective.htm. Changes to course and programme information for future academic sessions can be found on the undergraduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedUGFuture.htm.

BSc in Philosophy, Politics and Economics

Programme Code: UBPHPOLEC

Department: Philosophy, Logic and Scientific Method

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 **Either**
MA107 Quantitative Methods (Mathematics) (0.5)
and ST107 Quantitative Methods (Statistics) (0.5)

Or

MA100 Mathematical Methods (1.0)
Paper 2 GV101 Introduction to Political Science (1.0)
Paper 3 PH103 The Big Questions: An Introduction to Philosophy (1.0) # A

Paper 4 EC100 Economics A (1.0) # **or**
EC102 Economics B (1.0) # B

Year 2

Paper 5 If MA107 and ST107 were taken under Paper 1 then students may select the following:

GV249 Research Design in Political Science (1.0)

Or

If MA107 and ST107 were taken under Paper 1 (and if a grade of 65 or above is achieved on both courses), then students may select the following:

EC220 Introduction to Econometrics (1.0)

Or

If MA100 was taken under Paper 1, then students must select the following:

ST102 Elementary Statistical Theory (1.0)

GV100 Introduction to Political Theory (1.0)

Paper 6 If MA107 and ST107 were taken under Paper 1, then students must select the following:

PH104 Formal Methods of Philosophical Argumentation (1.0)

Or

If MA107 and ST107 were taken under Paper 1, then students may select either of the following:

PH101 Logic (1.0) **or**

PH104 Formal Methods of Philosophical Argumentation (1.0)

Paper 8 If MA107 and ST107 were taken under Paper 1, then students must select the following:

EC201 Microeconomic Principles I (1.0)

Or

84 Undergraduate Programme Regulations

If MA100 was taken under Paper 1, then students must select one of the following:
 EC201 Microeconomic Principles I (1.0)
 EC202 Microeconomic Principles II (1.0)
 Additional course In addition, students will also take the following course in LT:
 EC240 PPE Interdisciplinary Research Seminar (0.5)
 C

Year 3

Paper 9 Courses to the value of 1.0 unit(s) from the following:
Government List A
Government List B

Paper 10 Courses to the value of 1.0 unit(s) from the following:
Philosophy Options List

Paper 11 EC210 Macroeconomic Principles (1.0)
 Paper 12 If MA107 and ST107 were taken under Paper 1, then courses to the value of 1.0 unit(s) from the following:

Economics Options List
Philosophy Options List
Government List A
Government List B
Or

If MA100 was taken under Paper 1, then students must select one of the following:

EC220 Introduction to Econometrics (1.0)
 EC221 Principles of Econometrics (1.0)

Additional course In addition, students will also take the following course in MT & LT:
 EC340 PPE Interdisciplinary Research Seminar (1.0)
 H

Year 4

Paper 13 PH341 Philosophy, Politics and Economics: Applications (1.0)

Paper 14 GV342 Philosophy, Politics and Economics: Capstone and Research Project (1.0)

Paper 15 Courses to the value of 1.0 unit(s) from the following:
 I

Economics Options List
Philosophy Options List
Government List B

Paper 16 Courses to the value of 1.0 unit(s) from the following:
 J

Economics Options List
Philosophy Options List
Government List B
Or

Courses to the value of 1.0 unit(s) from the following:
 K

Undergraduate Outside Options List (Years 2 & 3)

Notes LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Economics Options List

EC301 Advanced Economic Analysis (1.0)
 EC302 Political Economy (1.0)
 EC307 Development Economics (1.0)
 EC311 History of Economics: How Theories Change (1.0)
 EC313 Industrial Economics (1.0)
 EC315 International Economics (1.0)
 EC321 Monetary Economics (1.0)
 EC325 Public Economics (1.0)

Philosophy Options List

LL305 Jurisprudence (1.0) E
 LN253 European Literature and Philosophy (1.0)
 LN254 Literature and Aspects of Ethics (1.0)
 PH201 Philosophy of Science (1.0)
 PH203 Philosophy of the Social Sciences (1.0)
 PH213 Scientific Revolutions: Philosophical and Historical Issues (1.0) (withdrawn 2019/20)

PH214 Philosophy, Morals and Politics (1.0)
 PH217 Set Theory and Further Logic (1.0)
 PH220 Scientific Method and Policy (1.0) (withdrawn 2019/20)
 PH221 Problems of Analytic Philosophy (1.0)
 PH222 Philosophy and Public Policy (1.0)
 PH225 Business and Organisational Ethics (0.5)
 PH227 Genes, Brains and Society (0.5) (*not available 2019/20*)
 PH228 Emotion, Cognition and Behaviour: Science and Policy (0.5) (withdrawn 2019/20)

PH230 Einstein for Everyone: From time travel to the edge of the universe (0.5)

PH232 Physics and the City: From Quantum Jumps to Stock Market Crashes (0.5)

PH301 Rationality and Choice (1.0) # F (*not available 2019/20*)

PH311 Philosophy of Economics (1.0)

PH332 Effective Philanthropy: Ethics and Evidence (0.5) (*not available 2019/20*)

PH333 Philosophy of Gender and Race (0.5)

PH399 Dissertation in Philosophy (1.0) G
 Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

Footnotes A: PH103 includes a supplementary five week Philosophy and Argumentative Writing Seminar.

B: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides for further information.

C: EC240 and EC340 will be assessed in the same manner as LSE100. Marks of F, P, M, DI appear on the transcript but do not affect progression or the final degree classification.

D: Available on the BSc in Philosophy, Politics and Economics only. Not available to students on other programmes.

E: LL305 can be taken in the third year only.

F: PH301 is only available to students in Year 4 of the BSc in Philosophy, Politics and Economics.

G: PH399 cannot be taken in Year 1 or Year 2.

H: EC240 and EC340 will be assessed in the same manner as LSE100. Marks of F, P, M, DI appear on the transcript but do not affect progression or the final degree classification.

I: Selection from the Government, Philosophy or Economics Options Lists is subject to timetabling constraints.

J: Selection from the Government, Philosophy or Economics Options Lists is subject to timetabling constraints.

K: Courses selected from the Undergraduate Outside Options List require permission. Selection from the Undergraduate Outside Options List is subject to timetabling constraints.

means there may be prerequisites for this course. Please view the course guide for more information.

		Footnotes	
		A: PH103 includes a supplementary five week Philosophy and Argumentative Writing Seminar.	
		B: EC102 course allocation dependent on Economics A-level or equivalent background. See course guides	

for further information.

C: EC240 and EC340 will be assessed in the same manner as LSE100. Marks of F, P, M, DI appear on the transcript but do not affect progression or the final degree classification.

D: Available on the BSc in Philosophy, Politics and Economics only. Not available to students on other programmes.

E: LL305 can be taken in the third year only.

F: PH301 is only available to students in Year 4 of the BSc in Philosophy, Politics and Economics.

G: PH399 cannot be taken in Year 1 or Year 2.

H: EC240 and EC340 will be assessed in the same manner as LSE100. Marks of F, P, M, DI appear on the transcript but do not affect progression or the final degree classification.

I: Selection from the Government, Philosophy or Economics Options Lists is subject to timetabling constraints.

J: Selection from the Government, Philosophy or Economics Options Lists is subject to timetabling constraints.

K: Courses selected from the Undergraduate Outside Options List require permission. Selection from the Undergraduate Outside Options List is subject to timetabling constraints.

means there may be prerequisites for this course. Please view the course guide for more information.

BSc in Philosophy, Politics and Economics

Programme Code: UBPHPOLEC

Department: Philosophy, Logic and Scientific Method

For students starting this programme of study in 2017/18

Four-year classification scheme for BA/BSc degrees for all students from the 2018/19 academic year <https://info.lse.ac.uk//staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/BA-BSc-Four-Year-scheme-for-students-from-2018.19.pdf>

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 **Either**
MA107 Quantitative Methods (Mathematics) (0.5)
and ST107 Quantitative Methods (Statistics) (0.5)

Or

Paper 2 MA100 Mathematical Methods (1.0)
Paper 3 GV100 Introduction to Political Theory (1.0)
PH103 The Big Questions: An Introduction to Philosophy (1.0) # A

Paper 4 EC100 Economics A (1.0) # **or**
EC102 Economics B (1.0) # B

Year 2

Paper 5 If MA107 and ST107 were taken under Paper 1, then students may select the following:
GV249 Research Design in Political Science (1.0)

Or

If MA107 and ST107 were taken under Paper 1 (and if a grade of 65 or above is achieved on both courses), then students may select the following:
EC220 Introduction to Econometrics (1.0)

Or

If MA100 was taken under Paper 1, then students must select the following:
ST102 Elementary Statistical Theory (1.0)

Paper 6 GV101 Introduction to Political Science (1.0)
Paper 7 If MA100 was taken under Paper 1, then students must select the following:

PH104 Formal Methods of Philosophical Argumentation (1.0)

Or

If MA107 and ST107 were taken under Paper 1, then students may select either of the following:

PH101 Logic (1.0) **or**
PH104 Formal Methods of Philosophical Argumentation (1.0)

Paper 8 If MA107 and ST107 were taken under Paper 1, then students must select the following:

EC201 Microeconomic Principles I (1.0)

Or

If MA100 was taken under Paper 1, then students must select one of the following:

EC201 Microeconomic Principles I (1.0)
EC202 Microeconomic Principles II (1.0)

Additional course

In addition, students will also take the following course in LT:

EC240 PPE Interdisciplinary Research Seminar (0.5)
C

Year 3

Paper 9 Courses to the value of 1.0 unit(s) from the following:

Government List A

Government List B

Paper 10

Courses to the value of 1.0 unit(s) from the following:

Philosophy Options List

Paper 11

EC210 Macroeconomic Principles (1.0)

Paper 12

If MA107 and ST107 were taken under Paper 1, then courses to the value of 1.0 unit(s) from the following:

Economics Options List

Philosophy Options List

Government List A

Government List B

Or

If MA100 was taken under Paper 1, then students must select one of the following:

EC220 Introduction to Econometrics (1.0)
EC221 Principles of Econometrics (1.0)

Additional course

In addition, students will also take the following course in MT & LT:

EC340 PPE Interdisciplinary Research Seminar (1.0)
H

Year 4

Paper 13 PH341 Philosophy, Politics and Economics: Applications (1.0)

Paper 14 GV342 Philosophy, Politics and Economics: Capstone and Research Project (1.0)

Paper 15 Courses to the value of 1.0 unit(s) from the following:

Economics Options List

Philosophy Options List

Government List B

Paper 16

Courses to the value of 1.0 unit(s) from the following:

Economics Options List

Philosophy Options List

Government List B

Or

Courses to the value of 1.0 unit(s) from the following:
K

Undergraduate Outside Options List (Years 2 & 3)

Notes

LSE100 is taken by all students in the Lent Term of Year 1 and the Michaelmas Term of Year 2. The course is compulsory but does not affect the final degree classification.

Economics Options List

EC301 Advanced Economic Analysis (1.0)
EC302 Political Economy (1.0)
EC303 Economic Policy Analysis (1.0) (withdrawn 2018/19)
EC307 Development Economics (1.0)

EC311	History of Economics: How Theories Change (1.0)
EC313	Industrial Economics (1.0)
EC315	International Economics (1.0)
EC321	Monetary Economics (1.0)
EC325	Public Economics (1.0)

Philosophy Options List

LL305	Jurisprudence (1.0) E
LN253	European Literature and Philosophy (1.0)
LN254	Literature and Aspects of Ethics (1.0)
PH201	Philosophy of Science (1.0)
PH203	Philosophy of the Social Sciences (1.0)
PH213	Scientific Revolutions: Philosophical and Historical Issues (1.0) (withdrawn 2019/20)
PH214	Philosophy, Morals and Politics (1.0)
PH217	Set Theory and Further Logic (1.0)
PH220	Scientific Method and Policy (1.0) (withdrawn 2019/20)
PH221	Problems of Analytic Philosophy (1.0)
PH222	Philosophy and Public Policy (1.0)
PH225	Business and Organisational Ethics (0.5)
PH227	Genes, Brains and Society (0.5) (<i>not available 2019/20</i>)
PH228	Emotion, Cognition and Behaviour: Science and Policy (0.5) (withdrawn 2019/20)
PH230	Einstein for Everyone: From time travel to the edge of the universe (0.5)
PH232	Physics and the City: From Quantum Jumps to Stock Market Crashes (0.5)
PH301	Rationality and Choice (1.0) # F (<i>not available 2019/20</i>)
PH311	Philosophy of Economics (1.0)
PH332	Effective Philanthropy: Ethics and Evidence (0.5) (<i>not available 2019/20</i>)
PH333	Philosophy of Gender and Race (0.5)
PH399	Dissertation in Philosophy (1.0) G

* means available with permission

AN269	The Anthropology of Amazonia (0.5)
AN277	Topics in the Anthropology of sub-Saharan Africa (0.5) <i>(not available 2019/20)</i>

Footnotes

A: Language Specialism: Students who have taken and passed one language course in each year of their degree (i.e. 25% of their overall programme of study) will receive a language specialism attached to their degree certificate and transcript. Students must take all courses in the same language (French, Spanish, German, Mandarin or Russian) in order to qualify for the specialism. The three courses must also be consecutively harder in level, for example: beginner, intermediate and advanced. Students who choose language courses in each year according to these rules will receive a language specialism. Degree certificates which include a language specialism will state the language in the title, for example: BA in Social Anthropology with French.

B: Approved courses to the value of 1.0 unit can be selected from the Language Courses list. Language options may be chosen if they are a continuation of a language studied in Year 1, and must be above Level 1.

C: Approved courses to the value of 1.0 unit can be selected from the Language Courses list for students wishing to receive a language specialism attached to their degree certificate and transcript. Language options may be chosen if they are a continuation of a language studied in Years 1 and 2. Language options must be above Level 2.

means there may be prerequisites for this course. Please view the course guide for more information.

Level 1 courses are not permitted as part of this degree programme in Years 2 and 3.

Ethnographic options

Courses to the value of 0.5 unit(s) from the following:

AN205 The Anthropology of Melanesia (0.5)
AN223 The Anthropology of Southeast Asia (0.5) (*not available 2019/20*)
AN240 Investigating the Philippines - New Approaches and Ethnographic Contexts (0.5)
AN250 The Anthropology of South Asia (0.5) (*not available 2019/20*)
AN269 The Anthropology of Amazonia (0.5)
AN277 Topics in the Anthropology of sub-Saharan Africa (0.5) (*not available 2019/20*)

Footnotes

A: Language Specialism: Students who have taken and passed one language course in each year of their degree (i.e. 25% of their overall programme of study) will receive a language specialism attached to their degree certificate and transcript. Students must take all courses in the same language (French, Spanish, German, Mandarin or Russian) in order to qualify for the specialism. The three courses must also be consecutively harder in level, for example: beginner, intermediate and advanced. Students who choose language courses in each year according to these rules will receive a language specialism. Degree certificates which include a language specialism will state the language in the title, for example: BA in Social Anthropology with French.

B: Approved courses to the value of 1.0 unit can be selected from the Language Courses list. Language options may be chosen if they are a continuation of a language studied in Year 1, and must be above Level 1.

C: Approved courses to the value of 1.0 unit can be selected from the Language Courses list for students wishing to receive a language specialism attached to their degree certificate and transcript. Language options may be chosen if they are a continuation of a language studied in Years 1 and 2. Language options must be above Level 2.

means there may be prerequisites for this course. Please view the course guide for more information.

Level 1 courses are not permitted as part of this degree programme in Years 2 and 3.

BA in Social Anthropology

Programme Code: UBANA2

Department: Anthropology

For students starting this programme of study in 2017/18 Students on this programme have the opportunity to receive a language specialism attached to their degree certificate and transcript. See the details at the bottom of this page for more information.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

See note LSE100 The LSE Course: Understanding the causes of things

Year 1

Paper 1 AN100 Introduction to Social Anthropology (1.0)

Paper 2 AN101 Ethnography and Theory: Selected Texts (1.0)

Paper 3 AN102 Anthropology, Text and Film (1.0)

Paper 4 Courses to the value of 1.0 unit(s) from the following:
Undergraduate Outside Options List (Year 1)

Year 2

Paper 5 AN200 The Anthropology of Kinship, Sex and Gender (1.0)

Paper 6 AN226 Political and Legal Anthropology (1.0)

Papers 7 & 8 AN256 Economic Anthropology (1): Production and Exchange (0.5) **and** AN298 Research Methods in Social Anthropology (0.5)

And courses to the value of 1.0 unit from the following:

Anthropology Selection List A

Ethnographic options

Year 3

Paper 9 AN300 Advanced Theory of Social Anthropology (1.0)

Paper 10 AN301 The Anthropology of Religion (1.0)

Papers 11 & 12 AN357 Economic Anthropology (2): Transformation and Globalisation (0.5) **and** AN398 Special Essay Paper in Social Anthropology (0.5)

Students must take ethnographic options to the value of at least one half unit under Papers 7 & 8 and Papers 11 & 12. If no ethnographic option is selected under Papers 7 & 8 then one must be selected under Papers 11 & 12. An exception to this requirement is for students pursuing the language specialism. See **footnotes** for details. A

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

1 : S0210 can not be taken with SP271, SP270

Footnotes

A: S0311 is available to students in Year 3 only.
 # means there may be prerequisites for this course. Please view the course guide for more information.

Language Specialism: Students who have taken and passed a 1.0 unit language course in each year of their degree (i.e. 25% of their overall programme of study) will be offered the opportunity to receive a language specialism attached to their degree certificate and transcript. Students must take all courses in the same language (French, Spanish, German, Mandarin or Russian) in order to qualify for the specialism. The three courses must also be consecutively harder in level, for example: beginner, intermediate and advanced. Students who choose to take language courses are not obligated to receive a specialism, but have the option if they wish. Degree certificates which include a language specialism will state the language in the title, for example: **BSc in Sociology with French**.

BSc in Sociology**Programme Code:** UBSO2**Department:** Sociology

For students starting this programme of study in 2018/19
Students on this programme have the opportunity to receive a language specialism attached to their degree certificate and transcript. See the details at the bottom of this page for more information. <https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeBA-BSC-InOrAfter2007-08-OtherThanFourYear.pdf>

Please note that places are limited on some optional courses.**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Management

- MG104 Operations Management (0.5)
- MG105 Organisational Behaviour and Leadership (0.5)
- MG205 Econometrics: Theory and Applications (1.0)
- MG206 Firms, Management and Competitive Advantage (0.5)
- MG207 Managerial Economics (1.0) # *
- MG208 Business Transformation and Project Management (0.5) *(not available 2019/20)*
- MG209 E-business (0.5)
- MG210 Corporate Social Responsibility and International Labour Standards (0.5)
- MG212 Marketing (0.5)
- MG213 Information Systems (0.5)
- MG214 Human Resource Management (0.5) # *
- MG228 Managing the Stone-Age Brain (0.5) *(not available 2019/20)*

MG301	Strategy (1.0) # *
MG302	Topics in Management Research (0.5)
MG303	International Business Strategy and Emerging Markets (0.5)
MG305	Innovation and Technology Management (0.5)
MG307	International Context of Management (0.5) <i>(not available 2019/20)</i>
MG308	Simulation Modelling and Analysis (0.5)
MG310	Strategic Decision Making (0.5)
MG311	Foundations of Behavioural Decision Science (0.5)
MG312	Extreme Organisational Behaviour: Examining behaviour in non-normative organisational contexts (0.5) <i>(not available 2019/20)</i>
MG315	Marketing Action Learning Project (0.5)
MG316	Brand Strategy (0.5) *

Philosophy, Logic & Scientific Method

PH101	Logic (1.0)
PH103	The Big Questions: An Introduction to Philosophy (1.0)
PH104	Formal Methods of Philosophical Argumentation (1.0)
PH201	Philosophy of Science (1.0)
PH203	Philosophy of the Social Sciences (1.0)
PH213	Scientific Revolutions: Philosophical and Historical Issues (1.0) <i>(withdrawn 2019/20)</i>
PH214	Philosophy, Morals and Politics (1.0)

SP271	Psychology of Crime and Criminal Justice (1.0) *
SP331	Sexuality, Everyday Lives and Social Policy in Developing Countries (0.5) *
SP332	Social Security Policies (0.5) *
SP335	Migration: Current Research, Critical Approaches (0.5) *

Sociology

SO100	Key Concepts: Introduction to Social Theory (1.0)
SO102	Data in Society: Researching Social Life (1.0)
SO110	Power, Inequality, and Difference: Contemporary Themes in Sociology (1.0)
SO201	Key Concepts: Advanced Social Theory (1.0)
SO203	Political Sociology (1.0)
SO208	Gender and Society (1.0)
SO210	Crime, Deviance and Control (1.0)
SO224	The Sociology of Race and Empire (1.0)
SO231	Knowledge, Power, and Social Change (0.5) * <i>(not available 2019/20)</i>
SO232	Sociology of Health and Illness (0.5) # *
SO233	Reactionary Radicalism: Populism and Authoritarianism in the 21st Century (0.5) # * <i>(not available 2019/20)</i>
SO234	Digital Technology, Speed and Culture (0.5) # *
SO235	The Sociology of Homicide (0.5) # *
SO236	Urban Society (0.5) *
SO308	Personal Life, Intimacy and the Family (1.0) <i>(not available 2019/20)</i>
SO309	Atrocity and Justice (0.5)
SO310	The Sociology of Elites (0.5) # *
SO311	Law and Violence (0.5) <i>(not available 2019/20)</i>
SO312	Work, Inequality and Society (0.5) # *
SO313	Material Culture and Everyday Life (0.5)

Statistics

ST102	Elementary Statistical Theory (1.0)
ST107	Quantitative Methods (Statistics) (0.5)
ST108	Statistical Methods for the Social Sciences (1.0)
ST201	Statistical Models and Data Analysis (0.5)
ST202	Probability, Distribution Theory and Inference (1.0)
ST205	Sample Surveys and Experiments (0.5)
ST206	Probability and Distribution Theory (0.5)
ST213	Introduction to Pricing, Hedging and Optimization (0.5) # *
ST226	Actuarial Investigations: Financial (0.5)
ST227	Survival Models (0.5)
ST300	Regression and Generalised Linear Models (0.5) # *
ST301	Actuarial Mathematics (Life) (0.5)
ST302	Stochastic Processes (0.5)
ST304	Time Series and Forecasting (0.5)
ST306	Actuarial Mathematics (General) (0.5)
ST307	Aspects of Market Research (0.5)
ST308	Bayesian Inference (0.5)
ST309	Elementary Data Analytics (0.5) # *
ST326	Financial Statistics (0.5) # *
ST327	Market Research: An Integrated Approach (1.0)
ST330	Stochastic and Actuarial Methods in Finance (1.0)

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

Footnotes

A: LL342 can only be taken in Year 3.

means there may be prerequisites for this course.

Please view the course guide for more information.

Erasmus Reciprocal Programme of Study

Programme Code: UOEXERA

Department: Undefined Department

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

The courses below are available to Erasmus students

Course List

Accounting

- AC102 Elements of Financial Accounting (0.5) *
- AC103 Elements of Management Accounting, Financial Management and Financial Institutions (0.5) *
- AC200 Accounting Theory and Practice (1.0) # *
- AC211 Managerial Accounting (1.0) # * (withdrawn 2019/20)
- AC310 Management Accounting, Financial Management and Organisational Control (1.0)
- AC340 Auditing, Governance and Risk Management (1.0) # *

Anthropology

- AN100 Introduction to Social Anthropology (1.0)
- AN101 Ethnography and Theory: Selected Texts (1.0)
- AN102 Anthropology, Text and Film (1.0)
- AN200 The Anthropology of Kinship, Sex and Gender (1.0)
- AN205 The Anthropology of Melanesia (0.5)
- AN216 Cognition and Anthropology: Human Development in Cultural Environments (0.5) (not available 2019/20)
- AN221 The Anthropology of Christianity (0.5) (not available 2019/20)
- AN223 The Anthropology of Southeast Asia (0.5) (not available 2019/20)
- AN226 Political and Legal Anthropology (1.0)
- AN237 The Anthropology of Development (0.5)
- AN240 Investigating the Philippines - New Approaches and Ethnographic Contexts (0.5)
- AN243 Children and Youth in Contemporary Ethnography (0.5) (not available 2019/20)
- AN244 Anthropology and Media (0.5) * (withdrawn 2019/20)
- AN245 Borders and Boundaries: Ethnographic Approaches (0.5) (not available 2019/20)
- AN247 Anthropological Approaches to Questions of Being (0.5) (not available 2019/20)
- AN250 The Anthropology of South Asia (0.5) (not available 2019/20)
- AN251 Cognition and Anthropology: Learning and Thinking in Relation to Social Institutions (0.5) (not available 2019/20)
- AN252 Anthropological Approaches to Value (0.5)
- AN256 Economic Anthropology (1): Production and Exchange (0.5)
- AN269 The Anthropology of Amazonia (0.5)
- AN274 Subjectivity and Anthropology (0.5) (not available 2019/20)
- AN275 The Anthropology of Revolution (0.5) (not

available 2019/20)

- AN276 Anthropology and the Anthropocene (0.5) * (not available 2019/20)
- AN277 Topics in the Anthropology of sub-Saharan Africa (0.5) # * (not available 2019/20)
- AN278 Anthropology and Global History (0.5) (not available 2019/20)
- AN280 Public Anthropology (0.5) # *
- AN281 Health and Welfare: Anthropological Perspectives (0.5)
- AN300 Advanced Theory of Social Anthropology (1.0) # *
- AN301 The Anthropology of Religion (1.0) # *
- AN357 Economic Anthropology (2): Transformation and Globalisation (0.5)

Economics

- EC100 Economics A (1.0)
- EC102 Economics B (1.0)
- EC201 Microeconomic Principles I (1.0) # *
- EC202 Microeconomic Principles II (1.0) # *
- EC210 Macroeconomic Principles (1.0)
- EC220 Introduction to Econometrics (1.0) # *
- EC221 Principles of Econometrics (1.0) # *
- EC230 Economics in Public Policy (1.0)
- EC301 Advanced Economic Analysis (1.0)
- EC302 Political Economy (1.0)
- EC307 Development Economics (1.0)
- EC309 Econometric Theory (1.0) # *
- EC311 History of Economics: How Theories Change (1.0) *
- EC313 Industrial Economics (1.0) # *
- EC315 International Economics (1.0)
- EC317 Labour Economics (1.0)
- EC319 Games and Economic Behaviour (1.0)
- EC321 Monetary Economics (1.0) # *
- EC325 Public Economics (1.0)
- EC333 Problems of Applied Econometrics (1.0) # *

Economic History

- EH101 The Internationalisation of Economic Growth, 1870 to the present day (1.0)
- EH102 Pre-industrial Economic History (1.0)
- EH204 Money and Finance: From the Middle Ages to Modernity (1.0)
- EH207 The Making of an Economic Superpower: China since 1850 (1.0)
- EH208 Economic History Lab: Cities, Economy and Society, 1550-1750 (1.0) * (not available 2019/20)
- EH211 Africa and the World Economy, 1500-2000 (1.0)
- EH225 Latin America and the International Economy (1.0)
- EH238 The Origins of Growth (1.0)
- EH240 Business and Economic Performance since 1945: Britain in International Context (1.0)
- EH309 Slavery from Ancient Greece to the Gulag (1.0) (not available 2019/20)
- EH312 Knowledge, Technology and Economy from the Middle Ages to Modernity (1.0) *
- EH316 Atlantic World Slavery (1.0)

Finance

- FM101 Finance (0.5)
- FM212 Principles of Finance (1.0) # *
- FM300 Corporate Finance, Investments and Financial Markets (1.0)
- FM320 Quantitative Finance (1.0) # *

Government

- GV100 Introduction to Political Theory (1.0)

- GV101 Introduction to Political Science (1.0)
 GV225 Public Choice and Politics (1.0)
 GV227 The Politics of Economic Policy (1.0) (*not available 2019/20*)
 GV245 Democracy and Democratisation (1.0)
 GV248 Power and Politics in the Modern World: Comparative Perspectives (1.0) # *
 GV249 Research Design in Political Science (1.0) *
 GV251 Government, Politics and Public Policy in the European Union (1.0)
 GV262 Contemporary Political Theory (1.0)
 GV263 Public Policy Analysis (1.0)
 GV264 Politics and Institutions in Europe (1.0)
 GV302 Key Themes in the History of Political Thought (1.0) # *
 GV307 Conflict and Cooperation: A Few Provocative Debates (0.5) (*not available 2019/20*)
 GV317 The Modern State - Theory and Practice (0.5) # *
 GV318 Building Democracies from Conflict? Violence, Power-Sharing and Institutional Design (0.5) # *
 GV322 Knowledge Economies: Global Innovation Networks and Segregated Societies (0.5)
 GV323 Transparency and Accountability in Government (0.5) *
 GV324 Applied Quantitative Methods for Political Science (0.5)
 GV325 Advanced Issues in Political Economy (0.5)
 GV328 Middle East Politics in Transnational Perspective (0.5) # *
 GV335 African Political Economy (0.5)

Geography & Environment

- GY100 Introduction to Geography (1.0)
 GY103 Contemporary Europe (1.0)
 GY120 Environmental Change: Past, Present and Future (1.0)
 GY121 Sustainable Development (1.0)
 GY140 Introduction to Geographical Research (1.0)
 GY144 The London Lab: Geography in the City (1.0)
 GY202 Introduction to Global Development (1.0)
 GY205 Political Geographies (1.0)
 GY206 Urban Geography and Globalisation (0.5)
 GY207 Economy, Society and Place (0.5)
 GY209 The Economic Geography of Trade, Production and Development (0.5)
 GY210 The Economics of Cities (0.5)
 GY220 Environment: Science and Society (1.0)
 GY222 Applied Environmental Economics (1.0)
 GY307 Regional Economic Development (0.5) *
 GY308 The Economic Geography of Growth and Development (0.5) *
 GY309 The Political Geography of Development (0.5)
 GY310 Urban Politics (0.5)
 GY311 The Political Economy of Urbanisation (0.5) *
 GY312 Geographies of Gender in the Global South (0.5)
 GY313 Firms and Economic Geography: Location, Technology and Innovation (0.5) # *
 GY314 The Economics of Housing Markets and Migration (0.5) # *
 GY315 Geographies of Race (0.5) (*not available 2019/20*)
 GY316 Gender in High Income and Emerging Economies (0.5)
 GY326 Sustainable Business and Finance (0.5)
 GY327 Global Environmental Governance (0.5)
 GY328 Political Ecology of Development (0.5)
 GY329 Applied Economics of Environment and Development (0.5)

- GY331 Geographies of Global Migration (0.5) *

International History

- HY113 From Empire to Independence: The Extra-European World in the Twentieth Century (1.0)
 HY116 International Politics since 1914: Peace and War (1.0)
 HY118 Faith, Power and Revolution: Europe and the Wider World, c.1500-c.1800 (1.0)
 HY119 Thinking Like A Historian (0.0) *
 HY200 The Rights of Man: the History of Human Rights Discourse from the Antigone to Amnesty International (1.0) *
 HY206 The International History of the Cold War, 1945-1989 (1.0)
 HY221 The History of Russia, 1682-1825 (1.0)
 HY226 The Great War 1914-1918 (1.0)
 HY232 War, Genocide and Nation Building. The History of South-Eastern Europe 1914-1990 (1.0)

Statistics

ST102 Elementary Statistical Theory (1.0)
 ST107 Quantitative Methods (Statistics) (0.5)
 ST108 Statistical Methods for the Social Sciences (1.0)
 ST201 Statistical Models and Data Analysis (0.5)
 ST202 Probability, Distribution Theory and Inference (1.0)
 ST205 Sample Surveys and Experiments (0.5)
 ST206 Probability and Distribution Theory (0.5)
 ST213 Introduction to Pricing, Hedging and Optimization (0.5) # *
 ST226 Actuarial Investigations: Financial (0.5)
 ST227 Survival Models (0.5)
 ST300 Regression and Generalised Linear Models (0.5) # *
 ST301 Actuarial Mathematics (Life) (0.5)
 ST302 Stochastic Processes (0.5)
 ST304 Time Series and Forecasting (0.5)
 ST306 Actuarial Mathematics (General) (0.5)
 ST307 Aspects of Market Research (0.5)
 ST308 Bayesian Inference (0.5)
 ST309 Elementary Data Analytics (0.5) # *
 ST327 Market Research: An Integrated Approach (1.0)
 ST330 Stochastic and Actuarial Methods in Finance (1.0)

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

A: LL342 can only be taken in Year 3.

means there may be prerequisites for this course.

Please view the course guide for more information.

Footnotes

Exchange Programme for Students from University of California, Berkeley

Programme Code: UOEXBE

Department: Undefined Department

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

The courses below are available to Exchange students

Course List **Accounting**

AC102 Elements of Financial Accounting (0.5) *
 AC103 Elements of Management Accounting, Financial Management and Financial Institutions (0.5) *
 AC200 Accounting Theory and Practice (1.0) # *
 AC211 Managerial Accounting (1.0) # * (withdrawn 2019/20)
 AC310 Management Accounting, Financial Management and Organisational Control (1.0)
 AC340 Auditing, Governance and Risk Management (1.0) # *

Anthropology

AN100 Introduction to Social Anthropology (1.0)
 AN101 Ethnography and Theory: Selected Texts (1.0)
 AN102 Anthropology, Text and Film (1.0)
 AN200 The Anthropology of Kinship, Sex and Gender (1.0)
 AN205 The Anthropology of Melanesia (0.5)
 AN216 Cognition and Anthropology: Human Development in Cultural Environments (0.5)
(not available 2019/20)
 AN221 The Anthropology of Christianity (0.5) *(not available 2019/20)*
 AN223 The Anthropology of Southeast Asia (0.5)
(not available 2019/20)
 AN226 Political and Legal Anthropology (1.0)
 AN237 The Anthropology of Development (0.5)
 AN240 Investigating the Philippines - New Approaches and Ethnographic Contexts (0.5)
 AN243 Children and Youth in Contemporary Ethnography (0.5) *(not available 2019/20)*
 AN244 Anthropology and Media (0.5) * (withdrawn 2019/20)
 AN245 Borders and Boundaries: Ethnographic Approaches (0.5) *(not available 2019/20)*
 AN247 Anthropological Approaches to Questions of Being (0.5) *(not available 2019/20)*
 AN250 The Anthropology of South Asia (0.5) *(not available 2019/20)*
 AN251 Cognition and Anthropology: Learning and Thinking in Relation to Social Institutions (0.5) *(not available 2019/20)*
 AN252 Anthropological Approaches to Value (0.5)
 AN256 Economic Anthropology (1): Production and Exchange (0.5)
 AN269 The Anthropology of Amazonia (0.5)
 AN274 Subjectivity and Anthropology (0.5) *(not available 2019/20)*
 AN275 The Anthropology of Revolution (0.5) *(not available 2019/20)*
 AN276 Anthropology and the Anthropocene (0.5) * *(not available 2019/20)*
 AN277 Topics in the Anthropology of sub-Saharan Africa (0.5) # * *(not available 2019/20)*
 AN278 Anthropology and Global History (0.5) *(not available 2019/20)*
 AN280 Public Anthropology (0.5) # *

- AN281 Health and Welfare: Anthropological Perspectives (0.5)
 AN300 Advanced Theory of Social Anthropology (1.0) # *
 AN301 The Anthropology of Religion (1.0) # *
 AN357 Economic Anthropology (2): Transformation and Globalisation (0.5)

Economics

- EC100 Economics A (1.0)
 EC102 Economics B (1.0)
 EC201 Microeconomic Principles I (1.0) # *
 EC202 Microeconomic Principles II (1.0) # *
 EC210 Macroeconomic Principles (1.0)
 EC220 Introduction to Econometrics (1.0) # *
 EC221 Principles of Econometrics (1.0) # *
 EC230 Economics in Public Policy (1.0)
 EC301 Advanced Economic Analysis (1.0)
 EC302 Political Economy (1.0)
 EC307 Development Economics (1.0)
 EC309 Econometric Theory (1.0) # *
 EC311 History of Economics: How Theories Change (1.0) *
 EC313 Industrial Economics (1.0) # *
 EC315 International Economics (1.0)
 EC317 Labour Economics (1.0)
 EC319 Games and Economic Behaviour (1.0)
 EC321 Monetary Economics (1.0) # *
 EC325 Public Economics (1.0)
 EC333 Problems of Applied Econometrics (1.0) # *

Economic History

- EH101 The Internationalisation of Economic Growth, 1870 to the present day (1.0)
 EH102 Pre-industrial Economic History (1.0)
 EH204 Money and Finance: From the Middle Ages to Modernity (1.0)
 EH207 The Making of an Economic Superpower: China since 1850 (1.0)
 EH208 Economic History Lab: Cities, Economy and Society, 1550-1750 (1.0) * (*not available 2019/20*)
 EH211 Africa and the World Economy, 1500-2000 (1.0)
 EH225 Latin America and the International Economy (1.0)
 EH238 The Origins of Growth (1.0)
 EH240 Business and Economic Performance since 1945: Britain in International Context (1.0)
 EH309 Slavery from Ancient Greece to the Gulag (1.0) (*not available 2019/20*)
 EH312 Knowledge, Technology and Economy from the Middle Ages to Modernity (1.0) *
 EH316 Atlantic World Slavery (1.0)

Finance

- FM101 Finance (0.5)
 FM212 Principles of Finance (1.0) # *
 FM300 Corporate Finance, Investments and Financial Markets (1.0)
 FM320 Quantitative Finance (1.0) # *

Government

- GV100 Introduction to Political Theory (1.0)
 GV101 Introduction to Political Science (1.0)
 GV225 Public Choice and Politics (1.0)
 GV227 The Politics of Economic Policy (1.0) (*not available 2019/20*)
 GV245 Democracy and Democratisation (1.0)
 GV248 Power and Politics in the Modern World: Comparative Perspectives (1.0) # *
 GV249 Research Design in Political Science (1.0) *

- GV251 Government, Politics and Public Policy in the European Union (1.0)
 GV262 Contemporary Political Theory (1.0)
 GV263 Public Policy Analysis (1.0)
 GV264 Politics and Institutions in Europe (1.0)
 GV302 Key Themes in the History of Political Thought (1.0) # *
 GV307 Conflict and Cooperation: A Few Provocative Debates (0.5) (*not available 2019/20*)
 GV317 The Modern State - Theory and Practice (0.5) # *
 GV318 Building Democracies from Conflict? Violence, Power-Sharing and Institutional Design (0.5) # *
 GV322 Knowledge Economies: Global Innovation Networks and Segregated Societies (0.5)
 GV323 Transparency and Accountability in Government (0.5) *
 GV324 Applied Quantitative Methods for Political Science (0.5)
 GV325 Advanced Issues in Political Economy (0.5)
 GV328 Middle East Politics in Transnational Perspective (0.5) # *
 GV335 African Political Economy (0.5)

Geography & Environment

- GY100 Introduction to Geography (1.0)
 GY103 Contemporary Europe (1.0)
 GY120 Environmental Change: Past, Present and Future (1.0)
 GY121 Sustainable Development (1.0)
 GY140 Introduction to Geographical Research (1.0)
 GY144 The London Lab: Geography in the City (1.0)
 GY202 Introduction to Global Development (1.0)
 GY205 Political Geographies (1.0)
 GY206 Urban Geography and Globalisation (0.5)
 GY207 Economy, Society and Place (0.5)
 GY209 The Economic Geography of Trade, Production and Development (0.5)
 GY210 The Economics of Cities (0.5)
 GY220 Environment: Science and Society (1.0)
 GY222 Applied Environmental Economics (1.0)
 GY307 Regional Economic Development (0.5) *
 GY308 The Economic Geography of Growth and Development (0.5) *
 GY309 The Political Geography of Development (0.5)
 GY310 Urban Politics (0.5)
 GY311 The Political Economy of Urbanisation (0.5) *
 GY312 Geographies of Gender in the Global South (0.5)
 GY313 Firms and Economic Geography: Location, Technology and Innovation (0.5) # *
 GY314 The Economics of Housing Markets and Migration (0.5) # *
 GY315 Geographies of Race (0.5) (*not available 2019/20*)
 GY316 Gender in High Income and Emerging Economies (0.5)

 SP171 Identities, Crime and Criminal Justice (1.0) * (not available 2019/20)
 SP172 Policing and Security (0.5) * (not available 2019/20)
 SP173 Politics and Crime (0.5) * (not available 2019/20)
 SP200 Comparative and International Social Policy (1.0) # *
 SP230 Education Policy (1.0) *
 SP231 Poverty, Inequality, and Social Policy (1.0) *
 SP232 Health and Social Care Policy (1.0) *
 SP233 Introduction to Global Population Change (1.0) (withdrawn 2019/20)
 SP270 Understanding Crime and Punishment (1.0) (not available 2019/20)
 SP271 Psychology of Crime and Criminal Justice (1.0) *
 SP331 Sexuality, Everyday Lives and Social Policy in Developing Countries (0.5) *
 SP332 Social Security Policies (0.5) *
 SP335 Migration: Current Research, Critical Approaches (0.5) *

Sociology

SO100 Key Concepts: Introduction to Social Theory (1.0)
 SO102 Data in Society: Researching Social Life (1.0)

SO110 Power, Inequality, and Difference: Contemporary Themes in Sociology (1.0)
 SO201 Key Concepts: Advanced Social Theory (1.0)
 SO203 Political Sociology (1.0)
 SO208 Gender and Society (1.0)
 SO210 Crime, Deviance and Control (1.0)
 SO224 The Sociology of Race and Empire (1.0)
 SO231 Knowledge, Power, and Social Change (0.5) * (not available 2019/20)
 SO232 Sociology of Health and Illness (0.5) # *
 SO233 Reactionary Radicalism: Populism and Authoritarianism in the 21st Century (0.5) # * (not available 2019/20)
 SO234 Digital Technology, Speed and Culture (0.5) # *
 SO235 The Sociology of Homicide (0.5) # *
 SO236 Urban Society (0.5) *
 SO308 Personal Life, Intimacy and the Family (1.0) (not available 2019/20)
 SO309 Atrocity and Justice (0.5)
 SO310 The Sociology of Elites (0.5) # *
 SO311 Law and Violence (0.5) (not available 2019/20)
 SO312 Work, Inequality and Society (0.5) # *
 SO313 Material Culture and Everyday Life (0.5)

Statistics

ST102 Elementary Statistical Theory (1.0)
 ST107 Quantitative Methods (Statistics) (0.5)
 ST108 Statistical Methods for the Social Sciences (1.0)
 ST201 Statistical Models and Data Analysis (0.5)
 ST202 Probability, Distribution Theory and Inference (1.0)
 ST205 Sample Surveys and Experiments (0.5)
 ST206 Probability and Distribution Theory (0.5)
 ST213 Introduction to Pricing, Hedging and Optimization (0.5) # *
 ST226 Actuarial Investigations: Financial (0.5)
 ST227 Survival Models (0.5)
 ST300 Regression and Generalised Linear Models (0.5) # *
 ST301 Actuarial Mathematics (Life) (0.5)
 ST302 Stochastic Processes (0.5)
 ST304 Time Series and Forecasting (0.5)
 ST306 Actuarial Mathematics (General) (0.5)
 ST307 Aspects of Market Research (0.5)
 ST308 Bayesian Inference (0.5)
 ST309 Elementary Data Analytics (0.5) # *
 ST326 Financial Statistics (0.5) # *
 ST327 Market Research: An Integrated Approach (1.0)
 ST330 Stochastic and Actuarial Methods in Finance (1.0)

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

A: LL342 can only be taken in Year 3.

means there may be prerequisites for this course. Please view the course guide for more information.

Footnotes

Mutually exclusive options

The following courses may not be taken together i.e. students can only take one or other of the listed courses (and as programme regulations permit):

Course	Mutually exclusive course(s)
AC100 Elements of Accounting and Finance Management (withdrawn)	AC104 Elements of Accounting, Financial Institutions and Financial FM101 Finance
AC104 Elements of Accounting, Financial Institutions and Financial Management (withdrawn)	AC100 Elements of Accounting and Finance
EC100 Economics A	EC102 Economics B
EC102 Economics B	EC100 Economics A
EC201 Microeconomic Principles I	MG207 Managerial Economics EC202 Microeconomic Principles II
EC202 Microeconomic Principles II	MG207 Managerial Economics EC201 Microeconomic Principles I
EC220 Introduction to Econometrics	ST203 Statistics for Management Sciences (withdrawn) ST205 Sample Surveys and Experiments EC221 Principles of Econometrics ST201 Statistical Models and Data Analysis
EC221 Principles of Econometrics	ST201 Statistical Models and Data Analysis EC220 Introduction to Econometrics ST203 Statistics for Management Sciences (withdrawn) ST205 Sample Surveys and Experiments
FM101 Finance	AC100 Elements of Accounting and Finance
FM212 Principles of Finance	FM213 Principles of Finance
FM213 Principles of Finance	FM212 Principles of Finance
GY200 Economy, Society and Space (withdrawn)	GY206 Urban Geography and Globalisation GY207 Economy, Society and Space
GY201 Urban and Spatial Economic Analysis I (withdrawn)	GY209 The Economic Geography of Trade, Production and Development GY210 The Economics of Cities
GY206 Urban Geography and Globalisation	GY200 Economy, Society and Space (withdrawn)
GY207 Economy, Society and Space	GY200 Economy, Society and Space (withdrawn)
GY209 The Economic Geography of Trade, Production and Development	GY201 Urban and Spatial Economic Analysis I (withdrawn)
GY210 The Economics of Cities	GY201 Urban and Spatial Economic Analysis I (withdrawn)
GY240 Research Techniques (Spatial, Social and Environmental) (withdrawn)	GY245 Quantitative Methods in Geography GY246 Field Methods in Geography GY247 Field Methods in Geography & Environment
GY245 Quantitative Methods in Geography	GY240 Research Techniques (Spatial, Social and Environmental) (withdrawn)

	GY2A0 Research Techniques (Spatial, Social and Environmental) (withdrawn)

Undergraduate Outside Options List (Year 1)

Where the regulations refer to an approved paper taught outside the department, this means that you may take any course in a subject other than the principal subject(s) of your degree, subject to timetabling constraints and any restrictions listed in the Course Guides. If your degree is for joint honours (e.g. Philosophy and Economics) or is a major/minor combination (e.g., Geography with Economics), a course outside the department means a course taught in any department other than the two named in the title of your degree. The home department of each course is indicated by the first two letters in its code.

Please note that some course combinations are not allowed. Please see the Mutually Exclusive Options list.

The courses available as outside options where regulations permit are:

Outside Options for students in Year 1:

AC102	Elements of Financial Accounting (0.5)
AC103	Elements of Management Accounting, Financial Management and Financial Institutions (0.5)
AN100	Introduction to Social Anthropology (1.0)
AN101	Ethnography and Theory: Selected Texts (1.0)
AN102	Anthropology, Text and Film (1.0)
EC100	Economics A (1.0) #
EC102	Economics B (1.0) #
EH101	The Internationalisation of Economic Growth, 1870 to the present day (1.0)
EH102	Pre-industrial Economic History (1.0) *
FM101	Finance (0.5) #
GV100	Introduction to Political Theory (1.0)
GV101	Introduction to Political Science (1.0)
GY100	Introduction to Geography (1.0)
GY103	Contemporary Europe (1.0)
GY120	Environmental Change: Past, Present and Future (1.0)
GY121	Sustainable Development (1.0)
GY140	Introduction to Geographical Research (1.0)
HY113	From Empire to Independence: The Extra-European World in the Twentieth Century (1.0)
HY116	International Politics since 1914: Peace and War (1.0)
HY118	Faith, Power and Revolution: Europe and the Wider World, c.1500-c.1800 (1.0)
IR100	International Relations: Theories, Concepts and Debates (1.0)
LL104	Law of Obligations (1.0)
LL105	Property I (0.5)
LL106	Public Law (1.0)
LL108	Criminal Law (1.0)
LL109	Introduction to the Legal System (0.5)
LN100	Russian Language and Society 3 (advanced) (1.0) #
LN101	Russian Language and Society 1 (beginner) (1.0) #
LN102	Russian Language and Society 2 (intermediate) (1.0) #
LN104	Mandarin Language and Society Level 1 (Beginner) (1.0) #
LN110	German Language and Society 3 (advanced) (1.0) #
LN112	German Language and Society 2 (Intermediate) (1.0) #
LN115	Intercultural Communication and Management (1.0) # *
LN120	Spanish Language and Society 3 (advanced) (1.0) #
LN121	Spanish Language and Society 1 (beginner) (1.0) #
LN122	Spanish Language and Society 2 (intermediate) (1.0) #
LN130	French Language and Society 3 (advanced) (1.0) #
LN131	French Language and Society 1 (beginner) (1.0) #
LN132	French Language and Society 2 (intermediate) (1.0) #
LN140	Mandarin Language and Society 3 (Advanced) (1.0) #
LN142	Mandarin Language and Society 2 (Intermediate) (1.0) #
LN200	Russian Language and Society 4 (proficiency) (1.0) #
LN210	German Language and Society 4 (proficiency) (1.0) #
LN220	Spanish Language and Society 4 (proficiency) (1.0) #
LN230	French Language and Society 4 (proficiency) (1.0) #
LN240	Mandarin Language and Society 4 (Proficiency) (1.0) #
LN250	English Literature and Society (1.0) #
LN251	Comparative Literature and 20th Century Political History (1.0) #
LN252	Contemporary Literature and Global Society (1.0) #

LN253	European Literature and Philosophy (1.0) #
LN254	Literature and Aspects of Ethics (1.0) #
LN270	Society and Language: Linguistics for Social Scientists (1.0)
LN320	Spanish Language and Society 5 (mastery) (1.0) #
LN330	French Language and Society 5 (mastery) (1.0) #
LN340	Mandarin Language and Society 5 (Mastery) (1.0) #
MA100	Mathematical Methods (1.0) #
MA103	Introduction to Abstract Mathematics (1.0) #
MA107	Quantitative Methods (Mathematics) (0.5) # *
MA110	Basic Quantitative Methods (1.0) #
MG104	Operations Management (0.5) #
MG105	Organisational Behaviour and Leadership (0.5) #
PB100	Foundations of Behavioural Science (1.0) *
PB101	Foundations of Psychological Science (1.0) * ~A
PB102	Social Psychology (1.0)
PH101	Logic (1.0)
PH103	The Big Questions: An Introduction to Philosophy (1.0) #
PH104	Formal Methods of Philosophical Argumentation (1.0) #
SO100	Key Concepts: Introduction to Social Theory (1.0)
SO102	Data in Society: Researching Social Life (1.0) *
SO110	Power, Inequality, and Difference: Contemporary Themes in Sociology (1.0)
SP100	Understanding International Social and Public Policy (1.0)
SP110	Sociology and Social Policy (1.0)
SP111	Social Economics and Policy (1.0) #
SP112	Politics of Social Policy Making (1.0)
SP170	Crime and Society: Representations and Realities (1.0) * (not available 2019/20)
SP171	Identities, Crime and Criminal Justice (1.0) * (not available 2019/20)
SP172	Policing and Security (0.5) * (not available 2019/20)
SP173	Politics and Crime (0.5) * (not available 2019/20)
SP233	Introduction to Global Population Change (1.0) # (withdrawn 2019/20)
ST102	Elementary Statistical Theory (1.0) #
ST107	Quantitative Methods (Statistics) (0.5) #
ST108	Statistical Methods for the Social Sciences (1.0) #

Undergraduate Outside Options List (Years 2 & 3)

Where the regulations refer to an approved paper taught outside the department, this means that you may take any course in a subject other than the principal subject(s) of your degree, subject to timetabling constraints and any restrictions listed in the Course Guides. If your degree is for joint honours (e.g. Philosophy and Economics) or is a major/minor combination (e.g., Geography with Economics), a course outside the department means a course taught in any department other than the two named in the title of your degree. The home department of each course is indicated by the first two letters in its code.

Please note that some course combinations are not allowed. Please see the Mutually Exclusive Options list.

An outside paper may be selected from the Undergraduate Course Guides, subject to the approval of the candidate's tutor and to the successful completion of prerequisites where necessary, with the following exceptions:

- certain first-year courses are not available to students in the second or third year of their degree;
- some courses are not available as an outside option; and
- some papers are mutually exclusive and may therefore not be combined.

The courses available as outside options where regulations permit are:

Outside Options for students in Year 2 and Year 3:

AC102	Elements of Financial Accounting (0.5)
AC103	Elements of Management Accounting, Financial Management and Financial Institutions (0.5)
AC200	Accounting Theory and Practice (1.0) # *

Undergraduate Course Guides

Undergraduate Course Guides

AC100

Elements of Accounting and Finance

This information is for the 2019/20 session.

Teacher responsible: Dr Saipriya Kamath OLD 2.11, Mr Farooq Mahmood and Dr Elisabetta Bertero OLD M2.13

Availability: This course is compulsory on the BSc in Accounting and Finance. This course is not available as an outside option nor to General Course students.

Course content: This is a one-unit course that introduces students to fundamental principles of accounting and finance. The course consists of three parts: financial accounting (for external reporting), management accounting (for internal decision making), and finance (to provide funding).

Financial Accounting: The course starts with a discussion of the framework of financial accounting: its nature, intents and purposes, and the context and environment in which it operates. This includes, and eventually entails, the need for, and various sources of, accounting regulation and “accounting standards”. AC100 also unpacks various core financial accounting concepts and conventions. The course also looks into the processes used to record, summarise, and present financial accounting information as well as, crucially, its interpretation. Thus, and essentially, this part of the course focuses on the preparation, interpretation, and limitations of company financial statements for external reporting, and the regulatory framework in which financial reports are prepared.

Management Accounting: This part of AC100 moves into internal decision making and starts with an introduction to management and cost accounting. This includes the discussion of key concepts of cost calculation and various techniques of costing (such as absorption and variable costing approaches), as well as other alternative costing systems relevant for decision making. The aim is to help students understand how accounting information can help managers to make crucial decisions, such as about the pricing of products or services, or even whether to offer or discontinue a product or service, or whether to expand the product/service range or to invest in new product development. In summary, this part of the course focuses on the basic knowledge of management accounting—specifically, costing.

Finance: The final part of AC100 provides an introduction to key concepts in finance and an overview of the financial system. It introduces fundamental techniques of finance such as computation of time value of money, and valuation of projects and securities. The course also considers the relationship between risk and return. In summary, this part of the course focuses on the basic ideas and techniques to solve problems in finance—that is, to provide the needed funds, and an evaluation of the bases on which to effectively do so, for organisations.

Teaching: 20 hours of lectures, 10 hours of classes and 10 hours of help sessions in the MT. 22 hours of lectures, 10 hours of classes and 10 hours of help sessions in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Formative coursework: There will be several online tests (“quizzes”) to test the student’s knowledge and progress on a formative basis for feedback. Written answers to numerical problems and discussion questions will be expected weekly; some of the written work will be collected during classes for marking and feedback.

Indicative reading: A detailed reading list will be made available on Moodle for each part of the course nearer the time of its scheduled start. Illustrative texts include Atrill, P. and McLaney, E. (2016) *Financial Accounting for Decision Makers*, 8th edition, Pearson; Atrill, P. and McLaney, E. (2018) *Management Accounting for Decision Makers*, 9th edition, Pearson; and Atrill, P. (2017) *Financial Management for Decision Makers*, 8th edition, Pearson.

Assessment: Exam (70%, duration: 3 hours, reading time: 15

minutes) in the summer exam period.

Class participation (10%) in the MT and LT.

Case analysis (10%) and online assessment (10%) in the LT.

The exam duration is 3 hours and 15 minutes. The first 15 minutes will be reading time.

AC102 Half Unit

Elements of Financial Accounting

This information is for the 2019/20 session.

Teacher responsible: Dr Saipriya Kamath OLD 2.11
Mrs Chris Constantinou (Course Leader)

Availability: This course is compulsory on the BSc in Finance. This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Management, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Course content: This is a half-unit course that introduces students to fundamental principles of financial accounting for the purposes of external reporting. The course starts with a discussion of the framework of financial accounting: its nature, intents and purposes, and the context and environment in which it operates. This includes, and eventually entails, the need for, and various sources of, accounting regulation and accounting standards.

AC102 unpacks various core financial accounting concepts and conventions, but the course also looks into the processes used to record, summarise, and present financial accounting information as well as, crucially, its interpretation. This course thus essentially focuses on the preparation, interpretation, and limitations of company financial statements for external reporting, and the regulatory framework in which financial reports are prepared.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures and 1 hour of classes in the ST.

Formative coursework: Written answers to numerical problems and discussion questions will be expected weekly; two pieces of work per term will be submitted for marking and feedback.

Indicative reading: Detailed reading lists will be made available at the beginning of the course. Illustrative texts include Peter Atrill and Eddie McLaney *Financial Accounting for Decision Makers*, 9th edn, Pearson, 2019.

Assessment: Exam (100%, duration: 1 hour and 30 minutes, reading time: 15 minutes) in the summer exam period.

The exam duration is 1 hour and 45 minutes. The first 15 minutes will be reading time.

AC103 Half Unit

Elements of Management Accounting, Financial Management and Financial Institutions

This information is for the 2019/20 session.

Teacher responsible: Mr Farooq Mahmood
Mrs Chris Constantinou (Course Leader)

Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Management, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Course content: This is a half-unit course that introduces students

to fundamental principles of management accounting, financial management and, because it allows the study of some core financial concepts, the accounts of pension funds and insurance companies.

AC103 begins by focusing on internal decision making by way of an introduction to cost and management accounting. This includes a discussion of key concepts of cost calculation and various costing systems relevant for decision making. The aim is to help students understand how accounting information can help managers make crucial decisions, such as about the pricing of products or services, or even whether to offer or discontinue a product or service, or whether to expand the product/service range or to invest in new product development. AC103 then develops into key concepts of financial management including the role of the financial system in relation to sources of finance. Because it allows the study of some core financial concepts, AC103 finally covers the accounts of pension funds and insurance companies which also play an increasingly important role in the financing of organisations.

Teaching: 22 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Formative coursework: Written answers to numerical problems and discussion questions will be expected weekly; some will be collected during classes for marking and feedback.

Indicative reading: Detailed reading lists will be made available at the beginning of the course in a syllabus. Illustrative texts include Atrill, P. and McLaney, E. (2018) *Management Accounting for Decision Makers*, 9th edition, Pearson; Atrill, P. (2017) *Financial Management for Decision Makers*, 8th edition, Pearson.

Assessment: Exam (100%, duration: 1 hour and 30 minutes, reading time: 15 minutes) in the summer exam period. The exam duration is 1 hour and 45 minutes. The first 15 minutes will be reading time.

AC200

Accounting Theory and Practice

This information is for the 2019/20 session.

Teacher responsible: Dr Pik Kun Liew OLD 3.34 and Dr Per Ahlstrom OLD.3.13

Availability: This course is compulsory on the BSc in Accounting and Finance. This course is available on the BSc in Management and Diploma in Accounting and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Please seek permission from BSc in Accounting and Finance Programme Director.

Pre-requisites: Students must have completed either (1) *Elements of Accounting and Finance* (AC100), or (2) *Elements of Financial Accounting* (AC102) and *Elements of Management Accounting, Financial Management and Financial Institutions* (AC103), or (3) equivalent.

Course content: This is a one-unit course that builds on the foundation laid by the first-year accounting courses. AC200 is also intended to provide students with the conceptual knowledge and technical skills necessary for final-year courses in accounting. The course considers the major theoretical and practical approaches to accounting and consists of two main components: financial accounting and management accounting.

Financial Accounting: The course begins with an evaluation of the regulatory environment in which financial accounting operates. This part of the course focuses on the preparation and analysis of the published financial statements of limited companies operating on their own, or within group structures. The function and content of published financial statements, the issues posed by consolidated accounts, and the analysis of financial statements to evaluate corporate performance will also be examined. A range of specific areas of financial accounting issues will be looked at,

for example, reporting of earnings, problems associated with the treatment of taxation, valuation of tangible and intangible assets, and provisions.

Management Accounting: The course then explores theoretical concepts, practices, designs and wider issues of cost and management accounting. The characteristics and use of various systems and models, such as cost-driver analysis and activity-based costing, in organisational decision-making at both operating and strategic levels will be introduced and critically evaluated. This part of the course also considers ways in which non-financial information can be used to complement financial accounting information in order to enable a more holistic approach aimed at providing relevant and useful information to management for the purposes of planning, decision-making, and organisational control.

Teaching: 33 hours of seminars in the MT. 30 hours of seminars in the LT. 2 hours of seminars in the ST.

The course will be delivered by:

- 10 three-hour seminars in MT (weeks 1-10);
- 1 three-hour summative assessment session in MT (week 11);
- 10 three-hour seminars in LT (weeks 1-5, and weeks 7-11 where week 6 is a reading week); and,
- 1 two-hour revision session in ST (week 1).

There will be no seminars in week 11 of MT but students will be required to participate in a summative assessment this week as scheduled in the timetable.

Formative coursework: Students are expected to come to each seminar prepared where the assigned course materials have been read and attempted. There will also be several online quizzes to assess student's knowledge and progress in the MT on a formative basis for feedback. Feedback on performance and progress will be provided during class, on written homework assignments, and during office hours.

Indicative reading: Detailed course programmes and reading lists will be distributed before the first lecture of each term. A range of academic papers, professional reports and news articles will be used in the course.

Assessment: Exam (60%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Presentation (15%) in the MT.

Project (15%) in the LT.

Class participation (10%) in the MT and LT.

Class participation will be assessed based on students' engagement with course activities, including for example in-class discussions and class assignments.

AC310

Management Accounting, Financial Management and Organisational Control

This information is for the 2019/20 session.

Teacher responsible: Dr Liisa Kurunmaki KSW 3.04

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Statistics with Finance and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. Available to students on other undergraduate/Diploma programmes with the permission of the Accounting Departmental Tutor.

Pre-requisites: Students must have completed *Elements of Accounting and Finance* (AC100) or *Elements of Management Accounting and Financial Management* (AC103) or *Elements of Accounting, Financial Institutions and Financial Management* (AC104).

Course content: The course addresses contemporary issues in management accounting, financial management, and organisational control. The course consists of four modules, all of which are taught by faculty with specific expertise in the area. The exact composition of the course may vary from year to

year, but issues which are typically addressed include financial controls, organisational structures, performance measurement and incentive systems, budgetary control and public-sector and non-profit financial management.

The Function of management control systems: The course starts with the study of the quintessential role of management control systems in decentralised organisations, with a focus on the measurement and evaluation of the performance of organisational entities and their managers. Focusing on financial control systems, this module analyses issues related to financial target setting (as part of organisations' planning and budgeting processes), performance measurement and evaluation, and the assignment of various forms of organisational rewards, such as bonuses and promotions.

Management accounting and human behaviour: Building on the first module, this module focuses primarily on budgeting issues and on understanding how budgets impact employee behaviours and their decisions and actions. This module also discusses "beyond budgeting" and capital budgeting. This is done through the lens of different organisational theories, including contingency theory.

Accounting in the new public sector: This module studies management accounting and financial management in the 'new public sector', including performance measurement, cost accounting, cost management and pricing; the roles of accounting controls in the health system reforms in the UK and elsewhere.

Accounting in non-governmental organisations: Many of the concepts from the prior modules are studied in the context of NGOs, including measuring the performance and effectiveness of NGOs, the use of 'business-like' management control and financial management systems (like budgets), the evaluation of programme efficiency and impact, and the accountability to donors and beneficiaries.

Teaching: The MT and the first half of LT will be comprised of weekly 2-hour lectures and 1-hour classes. The second half of LT, the module on 'Accounting in non-governmental organisations', is taught using a 'flipped-lecture' approach, with a series of on-line lectures, and five 2-hour classes.

Please note that there is no Reading Week in AC310 in either term.

Formative coursework: Case studies and applications will be used extensively. Students will be expected to present cases and contribute to in-class discussions. Students will also be expected to produce four written assignments; two in MT and two in LT. Assignment 2 in MT and Assignment 3 in LT will count towards the final mark in the course.

Indicative reading: Detailed reading lists will be distributed at the start of each Module of the course. Illustrative references include: Bhimani and Bromwich, *Management Accounting: Retrospect and Prospect*, Elsevier/CIMA (2009); Bhimani, *Contemporary Issues in Management Accounting*, OUP (2006); Olson, Guthrie & Humphrey (Eds), *Global Warning: Debating International Developments in New Public Financial Management*, Cappelan Akademisk Forlag As, Oslo (1998); Merchant & Van der Stede, *Management Control Systems: Performance Measurement, Evaluation and Incentives*, Pearson (2017).

Assessment: Exam (80%, duration: 3 hours) in the summer exam period.

Coursework (20%) in the MT and LT.

Exam (80%, duration: 3 hours) in the main exam period; the other 20% of the mark will be based on the two summative assignments submitted during the year. Assignment 2 (MT) and Assignment 4 (LT) will each count for 10% of the final mark for this course.

AC330

Financial Accounting, Analysis and Valuation.

This information is for the 2019/20 session.

Teacher responsible: Dr Stefano Cascino OLD 3.32 and Dr Jose Carabias Palmeiro OLD 2.13

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, BSc in Mathematics, Statistics, and Business, BSc in Statistics with Finance and Diploma in Accounting and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

The course is available as an outside option, subject to the course leader's permission, if students have achieved a sufficient standard of performance in the pre-requisite course **AC100 Elements of Accounting and Finance** or **AC102 Elements of Financial Accounting** or **AC104 Elements of Accounting, Financial Institutions and Financial Management** or equivalent.

Pre-requisites: Students must have completed AC100 Elements of Accounting and Finance, or AC102 Elements of Financial Accounting, or AC104 Elements of Accounting, Financial Institutions and Financial Management.

Course content: The course addresses the theory and practice of financial reporting from a valuation perspective. Accounting practices are examined in the light of historical development, regulatory requirements, theories of income and capital and other approaches to accounting theory and to the use of accounting information in business analysis and valuation. The course objectives are achieved through teaching a variety of financial reporting and valuation issues and topics including the following: Financial accounting with particular reference to company accounts; Issues in financial accounting including accounting for business combinations under International Accounting Standards; Implications of empirical capital markets research. Business analysis and valuation. The measurement of income, costs and depreciation. The valuation of assets. Further details will be provided at the start of the course.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. There will be a revision class in week 1 of ST.

Formative coursework: Students are expected to come to each class prepared having done the assigned readings and having prepared the assigned exercises

Indicative reading: Detailed reading lists of reference textbooks and journal articles will be provided during the course.

Assessment: Exam (80%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Group assignment (10%) in the MT.

Group assignment (10%) in the LT.

The two group assignments will be presentation/essay assignments comprising group work (total 20%).

AC340

Auditing, Governance and Risk Management

This information is for the 2019/20 session.

Teacher responsible: Dr Liisa Kurunmaki KSW 3.04

Availability: This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics and BSc in Statistics with Finance. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Elements of Accounting and Finance (AC100) or Elements of Financial Accounting (AC102) or Elements of Accounting, Financial Institutions and Financial Management (AC104). Elements of Management Accounting and Financial Management (AC103) is recommended to complement AC102, but not required.

Course content: The course provides a critical analysis of auditing practices and their role in organisational governance and risk management. Auditing is demanded by, and provides assurance to, a variety of internal and external stakeholders, including corporate shareholders and regulators. As societal demands for accountability have increased, auditing has become both more important and more regulated itself. Auditing also remains controversial and this course will address contemporary debates. The course addresses the theoretical basis of auditing, its role as a risk management function, its practical methodologies and its legal, professional and social environment. The course is divided into four modules.

Internal Control and Risk Management critically examines recent developments in risk management and internal control practices, including the role of internal auditing and the problem of reporting on the effectiveness of control systems.

Corporate Financial Audit provides a basic overview and introduction to corporate auditing theory and practice. The module investigates the roles of corporate financial audit in contemporary society; discusses issues related to the collection of audit evidence and assurance of audit quality; and analyses recent national and international developments in audit regulation and standard setting.

Public Sector Auditing and Accounting considers variants of the audit function in the public sector context, such as value for money auditing.

Sustainability Accounting and Auditing addresses the broader accountability framework of the corporation and related environmental and social accounting and auditing issues. While the primary focus of the course is upon UK practice, international comparisons will also be made. There is also an intention to run a small number of practitioner lectures during the 2018-19 session. Further details will be provided at the start of the session.

Teaching: 15 hours of lectures and 8 hours of classes in the MT. 10 hours of lectures and 8 hours of classes in the LT. 2 hours of lectures in the ST.

There will be a reading week in week 6 of both MT and LT.

Formative coursework: Students will be expected to produce a minimum of four written essays per year and one class presentation. All students will be expected to contribute to class discussion. Feedback on performance and progress will be provided during class, on written homework assignments, and during office hours.

Two written assignments will count towards the final mark for the course. Students must pre-designate which two essays to submit for this.

Indicative reading: No one book covers the entire syllabus. In addition to professional and academic journal articles, reading will cover the following:

- Gray I, Manson S, & Crawford L, *The Audit Process*, Cengage, 2019; and refer to
- Power M, *The Audit Explosion*, Demos, 1996 and *The Audit Society*, OUP, 1999.

Background reading for the fourth module may be found in:

- Henriques, A, *Corporate Truth: The Limits to Transparency* (Earthscan 2007).

Students will also be provided with relevant examples of corporate and other reports and referred to relevant websites. Detailed course programmes and reading lists will be distributed at the first lecture of the course.

Assessment: Exam (80%, duration: 3 hours) in the summer exam period.

Assignment (20%) in the MT and LT.

The assignment will be based on two of the four formative written assignments submitted during the year. Students must decide at the time they submit an assignment, whether it is to be considered for summative marking.

AN100

Introduction to Social Anthropology

This information is for the 2019/20 session.

Teacher responsible: Dr Catherine Allerton OLD 6.13 and Dr Gisa Weszkalnys

Availability: This course is compulsory on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available on the BA in Geography, BSc in Environment and Development and BSc in Psychological and Behavioural Science. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides a general introduction to Social Anthropology as the comparative study of human societies and cultures. Students will be introduced to key themes and debates in the history of the discipline. Ethnographic case studies will be drawn from work on a variety of societies, including hunter-gatherers, farmers, industrial labourers, and urban city-dwellers. The Michaelmas Term will explore the relationship between nature and culture, drawing on classic and contemporary debates about human difference and similarity. The term is divided into three blocks: 1) Culture, fieldwork and history; 2) Rites of passage; 3) Bodies and Difference.

The Lent term will address different kinds of relations between and among people, animals and things, and how these are mediated in different ways. The term is also divided into three blocks: 1) Relations & difference, 2) Senses of Place, 3) Society & Technology.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of both the MT and LT.

Formative coursework: Students are expected to prepare discussion material for presentation in the classes and are required to write assessment essays. Anthropology students taking this course will have an opportunity to submit one tutorial essay for this course to their academic mentor in the MT and one in the LT. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher in the MT and in the LT.

Indicative reading: M Engelke, *Think Like an Anthropologist* (2017) R Astuti et al (eds.), *Questions of Anthropology* (2007), M Carrithers, *Why Humans Have Cultures* (1992), T Eriksen, *Small Places, Large Issues: An Introduction to Social and Cultural Anthropology* (2001). M Bloch, *Prey into Hunter* (1996). L Tuhiwai Smith *Decolonizing Methodologies: Research and Indigenous Peoples* (1999). B Larkin, *Signal and Noise: Media, Infrastructure, and Urban Culture in Nigeria* (2008). R. Govindrajana, *Animal Intimacies: Interspecies Relatedness in India's Central Himalayas* (2018). K. Stewart, *A Space on the Side of the Road: Cultural Poetics in an "Other" America* (1996)

Assessment: Essay (50%, 2500 words) in the LT.

Essay (50%, 2500 words) in the ST.

AN101

Ethnography and Theory: Selected Texts

This information is for the 2019/20 session.

Teacher responsible: Prof David Graeber OLD 6.10 and Dr Johannes Steinmuller OLD 5.06A

Availability: This course is compulsory on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course discusses important aspects of anthropological theory in relation to ethnographic research. It covers the development of anthropological thought from the second half of the 19th century to today. Anthropology is situated within its context, including the social conditions of scholarship, as well as the histories of empires, nation-states, and capitalism. The course is intended to give students a sound grasp of central

theoretical concepts and of their significance for empirical research.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of both MT and LT.

Formative coursework: Students are expected to prepare discussion material for presentation in the classes. Anthropology students taking this course will have an opportunity to submit one tutorial essay for this course to their academic mentor in the MT and one in the LT. For non-Anthropology students taking this course, a formative essay may be submitted to the course teacher in the MT and in the LT.

Indicative reading: A Barnard, *History and Theory in Anthropology*, J Clifford, *The Predicament of Culture*; M Engelke, *Think like an anthropologist*; EE Evans-Pritchard, *A History of Anthropological Thought*; C Geertz, *The Interpretation of Cultures*; A. Kuper, *Anthropology and Anthropologists*; GW Stocking, *Observers Observed*; GW Stocking, *Victorian Anthropology*; B Malinowski *Argonauts of the Western Pacific*; R Benedict, *Patterns of Culture*; EE Evans-Pritchard, *Witchcraft oracles and magic among the Azande*; V Turner, *The Forest of Symbols*; M Sahlin, *Culture and Practical Reason*. Detailed reading lists are provided at the beginning of the course.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

AN102

Anthropology, Text and Film

This information is for the 2019/20 session.

Teacher responsible: Dr Andrea Pia OLD 6.09

Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides training in the reading and interpretation of visual and textual anthropology. It introduces students to detailed, holistic study of social and cultural practices within particular geographic and historical contexts, and develops skills in bringing together the various elements of cultural and social life analysed by anthropologists. By the end of each term, successful students will have both a detailed knowledge of three important texts, and also have a rounded view of the three settings studied. They will also have developed the capacity to think critically about ethnographic writing and film-making. In addition, the course aims to enable students to examine in detail the process by which ethnographic texts are produced. The course brings students to a closer understanding of anthropological fieldwork and evidence, and the way in which it relates to the forms of knowledge and insight generated by other genres of social scientific enquiry, documentary, and art. Students will usually read three book-length ethnographic accounts (or the equivalent) per term, and will study a film (or pictorial, architectural or other visual material) associated with each text.

Teaching: 2 hours of lectures, 12 hours of lectures, 6 hours of seminars and 6 hours of classes in the MT. 4 hours of lectures, 9 hours of lectures, 4 hours and 30 minutes of seminars and 7 hours of classes in the LT.

In the MT there are 12 hours of 'lectures' that combine a lecture and a film screening.

In LT there are 9 hours of 'lectures' that will be film screenings.

This course has a reading week in Week 6 of both MT and LT.

Formative coursework: Students will be required to read the three set texts per term, approximately 1/3 text (two-four chapters) each week, and it will be essential to do this in order to pass this course. The emphasis in classes and seminars will be on developing students' abilities to read and analyse texts as a whole, and to relate them to the other material offered on the course. Supplementary readings may be provided during the term.

Indicative reading: Detailed reading lists (including this year's set

texts) will be provided at the beginning of the course.

For a general introduction to issues covered in the course, see the following: Engelke, M., ed. 2009. *The Objects of Evidence: Anthropological Approaches to the Production of Knowledge*. Oxford: Wiley-Blackwell. Grimshaw, A., and A. Ravetz. 2009. *Observational Cinema: Anthropology, Film, and the Exploration of Social Life*. Bloomington: Indiana University Press. MacDonald, S. 2013. *American Ethnographic Film and Personal Documentary: The Cambridge Turn*. Berkeley: University of California Press. Marcus, G. E., and M. M. J. Fischer. 1986. *Anthropology as Cultural Critique: An Experimental Moment in the Human Sciences*. Chicago: University of Chicago Press. Wolf, M. 1992. *A Thrice-Told Tale: Feminism, Postmodernism, and Ethnographic Responsibility*. Stanford: Stanford University Press.

Assessment: Coursework (100%, 4800 words) in the MT and LT. All students will produce a portfolio of position pieces (worth 100% of the total mark), to which they are expected to make a contribution after each cycle. Portfolios will be assessed periodically throughout the year, with the final grade determined at the end of Lent Term. The final mark will be the average of the 4 pieces with the highest grade.

AN200

The Anthropology of Kinship, Sex and Gender

This information is for the 2019/20 session.

Teacher responsible: Dr Nicholas Long OLD 6.14 and Dr Catherine Allerton OLD 6.13

Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is available on the BA in Anthropology and Law, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides an examination of the cultural frameworks and social aspects of kinship systems, gender roles, personhood and human sexuality, analysed through ethnographic examples from a diverse range of settings. It aims to equip students with the analytical tools to engage in theoretical debates concerning core concepts such as 'kinship', 'marriage', 'gender', 'sex', 'the person', and the relationship between 'nature' and 'culture', as well as exploring how the experiences of kinship, sex and gender vary according to the regimes of politics, law and materiality in which they are embedded. The course charts the history of anthropological debates on kinship, relatedness, sex and gender, and familiarises students with a range of contemporary approaches to these themes, placing ethnographic materials into a critical dialogue with recent developments in feminist theory, queer theory, the anthropology of colonialism, cognitive science, and psychoanalysis.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of both MT and LT.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Indicative reading: Carsten, J. *After Kinship* (2003); Chodorow, N. *The Power of Feelings: Personal Meaning in Psychoanalysis, Gender and Culture* (1999); Donnan, H. and Magowan, F. *The Anthropology of Sex* (2010); Levi-Strauss, C. *The Elementary Structures of Kinship* (1969); Moore, H. L. *A Passion for Difference: Essays in Anthropology and Gender* (1994); Schneider, D. *A Critique of the Study of Kinship* (1984); Stone, L. *Kinship and Gender: An Introduction* (2006).

Assessment: Essay (50%, 3000 words) in the LT. Essay (50%, 3000 words) in the ST.

AN205 Half Unit**The Anthropology of Melanesia****This information is for the 2019/20 session.****Teacher responsible:** Dr Michael W. Scott, OLD 6.16

Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology, BSc in Social Anthropology, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides an introduction to selected themes in the anthropology of the region in the Southwest Pacific Ocean known as Melanesia. It gives students a grounding in the contemporary anthropology of the region, primarily through a close reading of three book-length ethnographies.

The three ethnographies, which are all new since 2013, are Christopher Wright's *The Echo of Things*, an account of what photography means to people in the western Solomon Islands; Alice Street's *Biomedicine in an Unstable Place*, an analysis of how persons and diseases are made visible or invisible in a hospital on the north coast of Papua New Guinea; and Alex Golub's *Leviathans at the Gold Mine*, a study of the relationship between indigenous landowners and a large international gold mining operation in their valley in the highlands of New Guinea.

These ethnographies not only provide students with focused accounts of three very different contexts in Melanesia, they also address histories, dynamics, and concerns familiar to people living throughout the region. Furthermore, because the three authors draw on different intellectual antecedents and disciplinary traditions, their work provides an entree into the most influential theoretical debates animating Pacific anthropology today.

Topics to be traced throughout the course include personhood and bodies, kinship and sociality, religion and cosmology, technology and infrastructure, development, globalization, and the state. Engagement with these three books will be enhanced and supplemented by other readings (including works by Pacific Islanders), ethnographic films, and a visit to the British Museum.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. This course has a reading week in Week 6 of LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: Christopher Wright, *The Echo of Things: The Lives of Photographs in the Solomon Islands* (2013); Alice Street, *Biomedicine in an Unstable Place: Infrastructure and Personhood in a Papua New Guinean Hospital* (2014); Alex Golub, *Leviathans at the Gold Mine: Creating Indigenous and Corporate Actors in Papua New Guinea* (2014).

Assessment: Essay (100%, 3000 words) in the ST. The assessed essay must be between 2,500 – 3,000 words in length.

AN226**Political and Legal Anthropology****This information is for the 2019/20 session.****Teacher responsible:** Dr Insa Koch NAB 7.17 and Dr Mukulika Banerjee OLD 5.09

Availability: This course is compulsory on the BA in Anthropology and Law, BA in Social Anthropology and BSc in Social Anthropology. This course is available on the Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne), Exchange Programme for Students in Anthropology (Tokyo) and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The anthropological analysis of political and legal

institutions as revealed in relevant theoretical debates and with reference to selected ethnography. The development of political and legal anthropology and their key concepts including forms of authority; forms of knowledge and power; political competition and conflict; colonial transformation of indigenous norms; writing legal ethnography of the 'other'; folk concepts of justice; the theory of legal pluralism; accommodation of religious practices in secular laws of European states.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of MT and LT.

Formative coursework: Students are expected to prepare discussion material for presentation in the classes, and to submit one essay in the MT and one mock exam question in the LT to their class teacher on which they will receive formative feedback.

Indicative reading: Leach, E, 1954, *The Political Systems of Highland Burma*; Sharma, A and Gupta, A, 2006, *The Anthropology of the State*; Verdery, K, 1999, *The Political Lives of Dead Bodies*; Wolf, E. 1999. *Envisioning Power: Ideologies of Dominance and Crisis*; Moore, S F, 1978, *Law as Process*; Malinowski, B, 1916, *Crime and Custom in Savage Society*; Bohannan, P, 1957, *Justice and Judgement among the Tiv*; Comaroff J and Roberts S, 1981, *Rules and Processes*. Detailed reading lists are provided at the beginning of the course.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

AN237 Half Unit**The Anthropology of Development****This information is for the 2019/20 session.****Teacher responsible:** Dr Clara Devlieger OLD 6.08

Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology, BSc in Social Anthropology, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course considers a range of contributions made by anthropologists to the analysis of development. It assesses the reconcilability of two divergent perspectives: development anthropology, with its corpus of writings by practitioners working on practical projects, and the 'anthropology of development', comprising a series of critiques of development theory and practice by anthropologists. It examines the historical background, showing how development and its discourses were made in the wake of the colonial encounter and exploring the role played by anthropologists in this process. Critiques of both state-planned and market-driven development are considered and weighed against the ethnographic evidence, and anthropological studies of development organisations, institutions and 'the aid industry' considered. The anthropology of planning and policy; actor-centred perspectives on development; NGOs and participatory approaches; microcredit and gender; and religion and development, are among the topics explored. Regional ethnographies used include those from various parts of Southern and West Africa, China, Latin America, South and South-East Asia.

Teaching: 10 hours of lectures and 15 hours of classes in the MT. This course has a reading week in Week 6 of MT.

Formative coursework: Students are expected to prepare discussion material for presentation in the classes based on the core ethnographies covered in the course. Formative work will include a mock exam question.

Indicative reading: Gardner and Lewis 2015, *Anthropology and Development: Twenty First Century Challenges*; Ferguson, J. 1990 *The Anti-Politics Machine: Development, Depoliticisation and Bureaucratic Power in Lesotho*; Cambridge University Press; Li, T,

2014 Land's End: Capitalist Relations on an Indigenous Frontier; Karim, L., 2011 Micro-Finance and its Discontents: Women and Debt in Bangladesh; Elyachar, J. 2005; Markets of Dispossession: NGOs, the Market and the State in Cairo; Scherz, C. 2014. Having People, Having Heart: Charity, Sustainable Development, and Problems of Dependence in Central Uganda; Scott, J. 1998, Seeing Like a State: How Certain Schemes to Improve the Human Condition have Failed.

Detailed reading lists are provided at the beginning of the course.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

AN240 Half Unit

Investigating the Philippines - New Approaches and Ethnographic Contexts

This information is for the 2019/20 session.

Teacher responsible: Dr Fenella Cannell OLD 6.07

Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology, BSc in Social Anthropology, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is most suitable for second and third year students but interested first year external students may seek an exemption. Also available to General Course students.

Course content: This course offers the chance to look at the ethnography of one country in more detail than is usual for regional courses. It considers topics taken from the ethnography of the lowland and highland Philippines, with a focus on exciting new high quality writing, drawing on the recent renaissance in Philippine Studies. The course will balance works by expert non-Filipino ethnographers with the new writing of 'native ethnographies' by Filipino scholars resident both in the Philippines themselves and in the US. The course will be framed within the colonial, religious and social history of the archipelago, and will consider both new interpretations of Philippine history, and topics on contemporary social issues, as well as using classic works on the Philippines. Teaching each week will normally be organised around the reading of one outstanding ethnography, allowing students to look closely at particular cases. Topics in any year are likely to be drawn from the following list (although obviously only ten topics can be offered in one year) ; Migration, 'mail-order' brides, and the Philippine diaspora ; New religious movements: Philippine colonialism and the processes of conversion: Healing, spirit possession, midwifery and local medicine: The contemporary Catholic Church; Violence in the Philippines; Ecology, landscape and environmental politics: Kinship and its transformations; Gender, Philippine queer theory and Philippine transvestitism: Ritual, drama and local performance traditions: Philippine architecture and material culture.: Philippine cinema: Colonial politics, tribal politics and issues of self-representation: Magic, sorcery and "anitismo"; Tourism, symbolic economies and the impact of international capitalism.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. There will be a reading week in Week 6 of the LT.

Formative coursework: Students are expected to prepare discussion material for classes/seminars. Students taking this course will be expected to produce one essay in the LT.

Indicative reading: Selected/ indicative texts: Renato Rosaldo Ilongot Headhunters; Vicente Rafael Contracting Christianity; Fenella Cannell Power and Intimacy in the Christian Philippines; Sally-Ann Ness Where Asia Smiles; Heather L. Claussen, Unconventional Sisterhood; J.Neil C. Garcia Philippine Gay Culture: the Last Thirty Years; M. F. Manalansan Global Divas: Filipino Gay Men in the Diaspora; Vicente Rafael White Love and Other

Events in Filipino History; Evelyn Tan Cullemar Babaylanism in Negros; Benito M Vergera Displaying Filipinos: Photography and Colonialism in Early 20th Century Philippines; Renaldo Clemena Iloilo Pasyon and Revolution; K.F. Wiegele, Investing in Miracles: El Shaddai and the Transformation of Popular Catholicism in the Philippines; Nicole Constable Maid to Order in Hong Kong; Albert Alejo Generating Energies in Mount Apo: Cultural Politics in a Contested Environment; Catherine Ceniza Choy Empire of Care: Nursing and Migration in Filipino American History; Esther C.M. Yau and Kyung Hyun Kim Asia/Pacific Cinema; Caroline S. Hau, Necessary Fictions; Philippine Literature and the Nation. Detailed reading lists are provided at the beginning of the course.

Assessment: Essay (100%, 3000 words) in the LT.

Students will complete written work on one or more topics from the course, with a total word count of 3,000 words. Specific guidance and advice will be given during the course but for example, students may choose to pursue one topic in depth and with the use of additional and external materials, or to write on two topics more closely related to the course work and course outline. Further guidance and a range of suggested topics and questions will be provided during the course.

AN252 Half Unit

Anthropological Approaches to Value

This information is for the 2019/20 session.

Teacher responsible: Professor David Graeber OLD.6.10

Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology, BSc in Social Anthropology, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: In this course we will first take stock of the current anthropological theories of value in contemporary anthropology. After a critical appraisal of such theories, we will explore what an anthropological theory of value might actually look like. After a brief exploration of Kluckhohn's "values project", the formalist-substantivist arguments, and debates about the nature of the social role of money, up to the recent neoliberal resurgence in anthropological theory, we'll be looking at the contrasting legacies of Karl Marx and Marcel Mauss. Looking at these as two very different approaches to many of the same problems will provide enormous opportunities for creative synthesis. The course will include some fairly extended case studies (of Tiv fetishism, wampum, and anthropological studies of consumption), to investigate how useful all this theory can actually be in throwing new light on familiar problems.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. This course has a reading week in Week 6 of MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Students registered for Anthropology degrees may submit formative tutorial essays on the course content and receive feedback from their academic advisors. Students who are not registered for Anthropology degrees will be given the option of submitting essays to the course teacher and receiving feedback on them.

(1998) The World of the Gift. De Angelis, M. (2007) The Beginning of History: Value Struggles and Global Capitalism. Appadurai, A. (2013) The Future as Cultural Fact: Essays in the Global Condition. Turner, T. (1984) "Value, production and exploitation in simple non-capitalist societies". Munn, N. (1986) The fame of Gawa: A symbolic study of value transformation in a Massim (Papua New Guinea) society

Assessment: Take home exam (100%) in the MT. The take home exam will be held the week following the end of the MT.

AN256 Half Unit

Economic Anthropology (1): Production and Exchange

This information is for the 2019/20 session.

Teacher responsible: Dr Luke Heslop OLD 6.17A

Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is available on the BA in Anthropology and Law, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines 'the economy' as an object of scholarly analysis and a domain of social action. We start by asking how scholars have measured, described, modeled, and predicted its behaviour; what forms economic institutions take cross-culturally; and how these institutions were transformed as a result of their incorporation into a wider capitalist markets, state systems, and development initiatives. For example, we will examine the central place of households within capitalist economies, largely overlooked by mainstream economic analyses, and the role that money can play in both dividing and uniting human societies. The course will familiarise students with fundamental aspects of the field and with core concepts used in anthropological analyses of economic life, such as production, consumption, exchange, property, alienation, scarcity, and value. But we will also try to break open the standard frames of the debate by highlighting, for example, the entanglement of nature in the capitalist expansion, and how economic life is rarely stable. What progress have anthropologists made in understanding booms, busts, prolonged pauses and delays? What can ethnography tell us about how people cope with crises and instabilities, individually and collectively, and how they seek to anticipate what the future may hold? Throughout the course, students will engage both with theoretical writings and with a range of select ethnographies to gain a rounded understanding of relevant debates.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 1 hour of lectures in the ST.

This course has a reading week in Week 6 of MT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the MT.

Indicative reading: J.G. Carrier and D. Miller (1998) *Virtualism: A New Political Economy*. M Sahlins (1974), *Stone Age Economics*; J Parry and M Bloch (Eds) (1989), *Money and the Morality of Exchange*; K. Polanyi (1944) *The Great Transformation*. K Ho (2010) *Liquidated: an Ethnography of Wall Street*. S. Mintz (1985) *Sweetness and Power: The Place of Sugar in Modern History*; E. Shever (2012) *Resources for Reform: Oil and Neoliberalism in Argentina*; C.Hann and K.Hart (2011) *Economic Anthropology: History, Ethnography, Critique*. This is an indicative reading list: detailed reading lists are provided at the beginning of the course.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

AN269 Half Unit

The Anthropology of Amazonia

This information is for the 2019/20 session.

Teacher responsible: Dr Harry Walker OLD 5.06B

Availability: This course is available on the BA in Anthropology

and Law, BA in Social Anthropology, BSc in Social Anthropology, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Unless granted an exemption by the course teacher, students taking this course should have completed an introductory course in anthropology.

Course content: The course will introduce students to selected themes in the anthropology of Amazonia. It will provide a grounding in the ethnographic literature of the region while seeking to engage with current theoretical debates, highlighting their potential importance to the discipline of anthropology. Topics to be covered include history, indigenous social movements; sexuality and gender; trade and inter-ethnic relations; politics and power; illness, well-being and death. Students will be encouraged to reflect on the broader relationship between ethnography and theory, to challenge common stereotypes of Amazonia and its inhabitants, and to explore ways in which the region has inscribed itself on the imagination of anthropologists and laypersons alike.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. This course has a reading week in Week 6 of MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Students registered for Anthropology degrees will prepare tutorial essays on the subject matter of the course and receive feedback from their academic advisors. Students who are not registered for Anthropology degrees will be given the option of submitting essays to the course teacher and receiving feedback on them.

Indicative reading: Clastres, Pierre. 1987. *Society Against the State: Essays in Political Anthropology*. Overing, Joanna. & Alan Passes (eds). 2000. *The Anthropology of Love and Anger: The Aesthetics of Conviviality in Native Amazonia*. Lévi-Strauss, Claude. 1984. *Tristes Tropiques*. Conklin, Beth. 2001. *Consuming Grief: Compassionate Cannibalism in an Amazonian Society*.

Assessment: Take home exam (100%) in the MT.

The take home exam will be held the week following the end of the MT.

AN280 Half Unit

Public Anthropology

This information is for the 2019/20 session.

Teacher responsible: Dr Andrea Pia

Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology, BSc in Social Anthropology, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

In deciding whether to admit students from the General Course and/or other departments, consideration will be given to preliminary/general training in anthropology and/or cognate social science disciplines.

Pre-requisites: Students must have completed Introduction to Social Anthropology (AN100) and Ethnography and Theory: Selected Texts (AN101).

It is preferred that students will normally have done preliminary/

first-year courses in Anthropology as noted above, but there is some flexibility (e.g. in the case of General Course students). Students should consult the course lecturer.

Course content: What and how does anthropology contribute to public life? Do anthropologists have a responsibility to meaningfully contribute to communities beyond the academy that make the study of anthropology possible? This module explores the challenges, difficulties, and stakes of having ethnographic research encounter various publics, ranging from journalists, legal experts, and policymakers to activist groups, local populations, and other scholars. Students of this module engage critically with a variety of media (books, newspaper articles, documentaries, podcasts, social platforms and interactive digital tools) with a view of analysing the ways in which anthropological ideas are conveyed to broader audiences, reflecting on how to improve their representation and effectiveness, and proposing new ways of disseminating these ideas to different publics.

Teaching: 6 hours of lectures, 3 hours of seminars, 8 hours of classes and 12 hours of workshops in the LT.

The course is divided into ten weeks, consisting of a combination of lectures/movie workshops/classes. Each week students read excerpts from selected ethnographic texts across geographical areas that have spurred public interest for the sensitiveness of their subject matter or the questionability of their research ethics. Workshops introduce students to the public buzzes generated by these studies and ask them to reflect on the politics and situatedness of ethnographic research and on the relatability of its findings. In some of the seminars a 'local expert' will be present to serve as a resource in the discussion of the issues.

The focus of this module is on the relationship between anthropological theory, the power fields in which it is inserted and its diverse publics. The types of questions this module address are both of critical and applied nature: to what extent can ethnographic studies of the food production system, waste management and water and energy provisions make global social infrastructures fairer? To what extent structure/agency debates in anthropology (and cognate disciplines) may move public perceptions of criminality and marginality towards more sympathetic positions? How effective have ethnographic-based critiques of trickle-down economics and social mobility really been, and why? How can anthropological accounts of systemic inequality take root into public representations of otherness?

The course ends by examining recent anthropological proposals within academia for a more vocal and engaged anthropology. It asks student to critically reflect on whether the discipline's colonial past may still weigh on today's attempts at engaging new publics. What disciplinary benchmarks of successful engagement should anthropologists set up for their own scholarship?

Formative coursework: Students will be expected to produce 1 essay in the LT.

Students will have the opportunity to write a (unmarked) formative essay on a 'public issue' of their choosing (in week 5) and will be invited to discuss feedback during office hours.

Indicative reading: Low, Setha and Sally Engle Merry 2010. *Engaged Anthropology: Diversity and Dilemmas*, *Current Anthropology* 51(2): S203-226. Sanford, Victoria and Asale Angel-Ajani 2006. *Engaged Observer: Anthropology, Advocacy, and Activism*. Rutgers. Scheper-Hughes, Nancy 2009. *Making anthropology public*. *Anthropology Today* 25(3): 1-3. Beck, Sam and Carl Maida 2015 *Public Anthropology in a Borderless World*. Berghahn Books. Goffman, Alice 2014. *On the Run: Fugitive Life in an American City*. University of Chicago Press.

Fassin, Didier 2013. *Enforcing Order: An ethnography of Urban Policing*. Blackwell's.

Assessment: Take home exam (100%).

The take-home exam asks students to answer, within 8 hours, one question from a set of synoptic questions which will cover all ten weeks of teaching. The take home exam will be submitted after the end of LT.

AN281 Half Unit Health and Welfare: Anthropological Perspectives

This information is for the 2019/20 session.

Teacher responsible: Dr Clara Devlieger OLD 6.08

Availability: This course is available on the BA in Anthropology and Law, BA in Social Anthropology, BSc in Social Anthropology, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course will focus on the study of health and welfare from an anthropological perspective. The course departs from a focus on biomedicine, examining how anthropologists have analysed the individualising medical gaze and the consequences of biopolitics. We consider how understandings of illness, care and healing are socially defined in different socio-cultural contexts, paying attention to issues such as disease, old age, disability, and mental health. Such issues of health are increasingly shifting towards broader conceptions of 'well-being'. As we progress, therefore, we turn to examine how such ideas of health increasingly intersect with the policies and values of welfare, as the political management of well-being. Welfare is both a description of life, as well as a form of intervention that aims to improve those lives. We therefore consider how ethnographic approaches to redistributive work touch on issues concerned with what it means to fare well and how that might be secured in a world defined by inequalities. Ethnographic case studies here may include ethnographies of austerity, dependency and sharing.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. This course has a reading week in Week 6 of LT.

Formative coursework: Students will be expected to produce 1 presentation and 1 other piece of coursework in the LT.

Indicative reading: Corsín Jiménez, Alberto, ed. 2008. *Culture and Well-Being: Anthropological Approaches to Freedom and Political Ethics*. London; Ann Arbor, MI: Pluto Press. English-Lueck, J.A. 2010. *Being and Well-Being: Health and the Working Bodies of Silicon Valley*. Stanford University Press. Ferguson, James. 2013. "Cosmologies of Welfare." Song, Jesook. 2009. *South Koreans in the Debt Crisis: The Creation of a Neoliberal Welfare Society*. Durham, NC: Duke University Press. Widlok, Thomas. 2016. *Anthropology and the Economy of Sharing*. London: Routledge.

Assessment: Essay (100%, 3000 words) in the LT.

AN298 Half Unit**Research Methods in Social Anthropology**

This information is for the 2019/20 session.

Teacher responsible: Prof Rita Astuti OLD 6.11

Availability: This course is compulsory on the BA in Social Anthropology, BSc in Social Anthropology and Exchange Programme for Students in Anthropology (Melbourne). This course is available on the BA in Anthropology and Law, Exchange Programme for Students in Anthropology (Fudan) and Exchange Programme for Students in Anthropology (Tokyo). This course is not available as an outside option nor to General Course students.

Course content: The aim of this course is to guide and support students as they identify, execute and write-up their own ethnographic project in London. In parallel with their research activities, students will develop research skills for the collection, analysis and representation of ethnographic data. The course will provide training in ethnographic observation, participation, listening, questioning, interviewing, analysing and writing. One session will be dedicated to the discussion of a range of actual ethical dilemmas encountered by PhD students in the Anthropology Department during the course of ethnographic research.

Students will demonstrate their research skills by applying them to the research questions pursued in their ethnographic project. They will write a 4,500 to 5,000- word essay reporting on their research activities and findings.

Teaching: 1 hour of lectures in the MT. 20 hours of seminars in the LT.

This course has a reading week in Week 6 of LT.

Formative coursework: A short description of the student's proposed research project will be discussed in LT week 1 in a student-led workshop. Students will then produce a 1000-word report due between weeks 5 and 7, describing the progress made on the research, including a sample ethnographic description and an explanation of the methods used to date. Students will receive feedback on the report within two weeks of submission.

Indicative reading: Narayan, K. *Alive in the Writing: Crafting Ethnography in the Company of Chekhov* (2012); DeWalt, K.M. & DeWalt, B.M *Participant Observation: A guide for fieldworkers* (2010); Bernard. H.R. *Research Methods in Anthropology*, 5th edition (2011).

Assessment: Essay (100%, 5000 words) in the ST.

AN300**Advanced Theory of Social Anthropology**

This information is for the 2019/20 session.

Teacher responsible: Dr Fenella Cannell OLD 5.07 and Prof Deborah James OLD 6.06

Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is available on the BA in Anthropology and Law, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is not available as an outside option. This course is available with permission to General Course students. Places are limited and the course may only be suitable for external students in unusual cases. Any student who wishes to make an exceptional request to be considered should please contact the course teachers for advice on suitability and availability of places.

Pre-requisites: Students should have a substantial background in Social Anthropology.

Course content: The aim of this course is to train students to engage critically with classic and contemporary texts in the discipline, thereby deepening understandings of current trends and emerging debates. It will examine the theoretical implications of particular anthropological approaches by surveying their origins, their strengths and their critique. The course will take the form

of lectures and classes conducted as an intensive reading group in which approximately six texts (three in each of MT and LT) will be discussed and analysed in depth, along with supplementary reading material where appropriate. Students will be expected to develop their own critical responses to each text, as well as an appreciation of the context in which it was written and its contribution to relevant theoretical discussions and debates. Students taking this course will develop their capacity to meet the distinctive demands of reading and analysing longer (typically book-length) texts.

Teaching: 4 hours of lectures and 18 hours of classes in the MT. 4 hours of lectures and 18 hours of classes in the LT.

Lectures provide a general introduction to the text and relevant issues or debates, which may include background and contextual issues, comparative materials (published, visual, primary text etc as appropriate) and in some instances debates about what is at stake in the different ways in which we learn to think and write. This course has a reading week in Week 6 in MT and LT.

Indicative reading: Anna Lowenhaupt Tsing (2017) *The Mushroom at the End of the World - On the Possibility of Life in Capitalist Ruins* Gillian Feeley-Harnik. Selection of articles, including chapters in S.Mckinnon and F. Cannell eds. (2013) *Vital Relations* and in S. Franklin and S.Mckinnon eds. (2001) *Relative Values*.

You are advised to start independent reading with these texts. Further readings to be announced during the Michaelmas Term.

Assessment: Coursework (100%, 6000 words) in the MT and LT. All students will produce a portfolio of position pieces (worth 100% of the total mark), to which they are expected to make a contribution after each cycle. Portfolios will be assessed periodically throughout the year, with the final grade determined after the end of Lent Term. The final mark will be the average of the 2 pieces with the highest grade from each term.

Students are welcome to come and discuss their summative coursework plans individually with course teachers in office hours, in addition to the guidance that will be given in lectures and classes.

AN301**The Anthropology of Religion**

This information is for the 2019/20 session.

Teacher responsible: Dr Michael Scott OLD 6.16 and Dr Nicholas Evans KGS 3.07

Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is available on the BA in Anthropology and Law, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is not available as an outside option. This course is available with permission to General Course students.

Pre-requisites: Students should have a substantial background in Social Anthropology.

Course content: This course covers selected topics in the anthropology of religion, focusing upon relevant theoretical debates. In the Michaelmas term, we will consider topics such as shamanism, cargo cults, initiation, witchcraft and sorcery, cosmology, and human-nonhuman relations, primarily with reference to ongoing transformations of the indigenous traditions of Melanesia, Africa, Amazonia, Australia, and the circumpolar north. Recurring themes will be: transformations in the definition of 'religion' in relation to 'science'; the nature of rationality; and the extent to which anthropology itself can be either – or both – a religious and a scientific quest to experience the wonder of unknown otherness. In the Lent term, we will further explore the category of 'religion' in its western and non-western contexts. What were the historical processes through which particular constellations of beliefs and practices were grouped together as 'religions'? In what way are different religious traditions comparable to each other? Why do we call some traditions 'religion' and others

'cults'? Students will examine categories such as orthodoxy and heresy and they will explore the relationship between religion and secularism in modern society. Current approaches to and reconsiderations of classic topics in the anthropology of religion are also presented; these may include myth, ritual, belief and doubt, sacrifice, authority and charisma.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of the MT and LT.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Indicative reading: M. Weber 1905 The protestant ethic and the spirit of capitalism; E. Durkheim 1915 (and later editions), The elementary forms of the religious life; S. Mahmood 2005, Politics of Piety; C. Taylor 2007, A Secular Age; B Latour 2009 The modern cult of the factish god; H Hubert and M Mauss 1960, On Sacrifice; V. Turner 1969 The ritual process: structure and anti-structure; T. Masuzawa 2005 The invention of world religions, or, How European universalism was preserved in the language of pluralism; J. Robbins 2004 Becoming sinners: Christianity and moral torment in a Papua New Guinea society; S. Ahmed 2015 What Is Islam?: The Importance of Being Islamic; A. Abramson and M. Holbraad (eds.) 2014, Framing Cosmologies: The Anthropology of Worlds; G. Bateson and M. C. Bateson 1987, Angels Fear: Towards an Epistemology of the Sacred; B. Kapferer (ed.) 2002, Beyond Rationalism: Rethinking Magic, Witchcraft and Sorcery; L. Lévy-Bruhl 1926, How Natives Think; M. A. Pedersen 2011, Not Quite Shamans: Spirit Worlds and Political Lives in Northern Mongolia; P. Ingman, T. Utrianinen, et al. (eds.) 2016, The Relational Dynamics of Enchantment and Sacralization: Changing the Terms of the Religion Versus Secularity Debate; H. Whitehouse and J. Laidlaw (eds.) 2007, Religion, Anthropology, and Cognitive Science; R. Willerslev 2007, Soul Hunters: Hunting, Animism, and Personhood among the Siberian Yukaghirs; D. E. Young and J-G. Goulet (eds.) 1994, Being Changed: The Anthropology of Extraordinary Experience. Detailed reading lists provided at the start of each term.

Assessment: Essay (50%, 3500 words) in the LT.

Essay (50%, 3500 words) in the ST.

AN357 Half Unit

Economic Anthropology (2): Transformation and Globalisation

This information is for the 2019/20 session.

Teacher responsible: Prof Laura Bear OLD 6.07

Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is available on the BA in Anthropology and Law, Exchange Programme for Students in Anthropology (Fudan), Exchange Programme for Students in Anthropology (Melbourne) and Exchange Programme for Students in Anthropology (Tokyo). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines 'the economy', as an object of social scientific analysis and a domain of human action, focusing on the anthropology of globalisation. Scholars have various ways of analysing the new forms of production, consumption, exchange and circulation that have emerged since the 1980s. Some emphasise post-Fordist methods of flexible production and neo-liberal elite projects. Others focus on trans-state processes of globalisation. For other theorists shifts in state policies such as austerity, decentralised planning, public-private partnerships and the deregulation of financial markets are at the centre of analysis. Others address new forms of consumer society, popular desires for social mobility and transnational migration. Drawing from ethnographies and anthropological theory this course will cast a critical eye over these arguments. It will also revisit classic topics from the perspective of present realities – for example production and intimate economies; formal markets in

relation to informalised, violent economies; circulation in relation to financial debt and risk; and consumption and consumer citizenship.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

This course has a reading week in Week 6 of LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: J Inda and R Rosaldo (eds) *The Anthropology of Globalisation* (2007); M Edelman and A Haugerud (eds) *The Anthropology of Development and Globalization* (2004); J Collier and A Ong (eds) *Global Assemblages: Technology, Politics and Ethics as Anthropological Problems* (2004); C. Freeman, *High Tech and High Heels in the Global Economy: women, work and pink-collar identities in the Caribbean* (2000); M Mills, *Thai Women and the Global Labour Force: consuming desires, contested selves* (1999); A Wilson, *The Intimate Economies of Bangkok: Tomboys, Tycoons and Avon Ladies in the Global City* (2004); A Aneesh, *Virtual Migration: the Programming of Globalisation* (2004); N Constable, *Migrant Workers in Asia: Distant Divides, Intimate Connections* (2010); M O'Dougherty, *Consumption Intensified: the politics of middle class daily life in Brazil* (2002); A Tsing, *Friction: an Ethnography of Global Connection* (2004); C Hann, *Life in Debt: Times of Care and Violence in Neo-Liberal Chile* (2012); K Ho, *Liquidated: an Ethnography of Wall Street* (2010). This is an indicative reading list: detailed reading lists are provided at the beginning of the course.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

AN398 Half Unit

Special Essay Paper in Social Anthropology

This information is for the 2019/20 session.

Teacher responsible: Prof Deborah James OLD.6.06

Availability: This course is compulsory on the BA in Social Anthropology and BSc in Social Anthropology. This course is not available as an outside option nor to General Course students.

Pre-requisites: Undergraduates taking this course need to have completed the first two year of either the BA/BSc Social Anthropology or the BA Anthropology and Law.

Course content: The course gives students the opportunity to write an extended essay which addresses an anthropological theme of their own choosing. The extended essay should be based on library research conducted on a topic that is suitable for anthropological analysis. Students should ensure that there is an adequate body of relevant literature available for analysis, and that the topic as defined is not unmanageably large.

There is no formal course content. Students will be expected to draw widely on their readings from other anthropology courses.

Teaching: 2 hours of lectures in the MT. 2 hours of seminars in the LT. 1 hour of lectures in the ST.

Guidance on dissertation research and writing will be given in a one-hour session in ST (to students finishing their 2nd year), and two-hour sessions in MT and LT (to students in their 3rd year).

Formative coursework: Students will submit an abstract and preliminary bibliography to the course teacher at the beginning of MT (using a template published on Moodle). They will then work with their academic mentor who will advise them during their normal tutorial meetings on the chosen topic, the empirical and analytical scope of the essay, and relevant readings.

Indicative reading: There is no formal course content. Students will be expected to draw widely on their readings from other anthropology courses.

Assessment: Dissertation (100%, 8000 words) in the ST.

The essay is 7,000 to 8,000 words of main text, including footnotes and appendices but excluding bibliography. The essay should be typed, double spaced, and should follow the reference procedures of *The Journal of the Royal Anthropological Institute*. The essay must be handed in to the Anthropology Departmental Office by the date announced in the Department's Handbook, normally by May 1st.

EC100

Economics A

This information is for the 2019/20 session.

Teacher responsible: Prof Alan Manning 32L 2.36A

Dr L. Rachel Ngai 32L 1.15

Availability: This course is available on the BA in Geography, BSc in Accounting and Finance, BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economic History, BSc in Economic History and Geography, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Environment and Development, BSc in Environmental Policy with Economics, BSc in Finance, BSc in Financial Mathematics and Statistics, BSc in Geography with Economics, BSc in Government and Economics, BSc in International Social and Public Policy and Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and International Relations, BSc in Psychological and Behavioural Science, BSc in Social Policy, BSc in Social Policy and Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: This is an introductory course in microeconomics and macroeconomics. It may not be taken if **Economics B** (EC102) has already been taken and passed. No previous knowledge of economics is assumed. The treatment will be non-mathematical, but students are expected to be able to interpret graphs. Entrance on to EC100 and EC102 is dependent on Economics A-level or equivalent background. Students with A-level economics (or equivalent) are not allowed to take EC100.

Course content: This course provides a foundation in micro and macroeconomics, primarily to those without background in the subject. Microeconomics is the focus of Michaelmas Term: This term aims to provide students with methods of economic analysis that can enable them to think about when markets work well, when they are likely to fail and what policies might improve outcomes. Macroeconomics is the focus of Lent Term, which covers topics such as economic growth, unemployment, inflation, monetary & fiscal policy, and international macroeconomics.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT.

Handouts of the slides are distributed.

Formative coursework: Weekly feedback is given on the multiple choice questions which form the weekly quizzes. Individual written feedback is given on at least one essay question per term. Students are expected to make positive contributions to class discussions.

Indicative reading: Daron Acemoglu, David Laibson and John List (2016) *Economics*, Pearson Education.

Assessment: Exam (50%, duration: 2 hours) in the January exam period.

Exam (50%, duration: 2 hours) in the summer exam period.

The Lent term examination is based on the Michaelmas term syllabus, and the Summer exam on the Lent term syllabus.

EC102

Economics B

This information is for the 2019/20 session.

Teacher responsible: Prof Francesco Caselli 32L.1.21 and Prof Ronny Razin 32L.4.01

Availability: This course is available on the BA in Geography, BSc in Accounting and Finance, BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economic History, BSc

in Economic History and Geography, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Environment and Development, BSc in Environmental Policy with Economics, BSc in Finance, BSc in Financial Mathematics and Statistics, BSc in Geography with Economics, BSc in Government and Economics, BSc in International Social and Public Policy and Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and International Relations, BSc in Psychological and Behavioural Science, BSc in Social Policy and Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: This is an introductory course in microeconomics and macroeconomics. Students without a mathematical background may consider taking an introductory mathematics course, such as Basic Quantitative Methods, at the same time. EC102 is unavailable to anyone who has passed **Economics A** (EC100). Entrance on to EC100 and EC102 is dependent on Economics A-level or equivalent background. Students without A-level economics (or equivalent) are not allowed to take EC102.

Course content: Part A Consumer and Producer Theory; Markets and Competition; Welfare; Game Theory; Adverse Selection and Moral Hazard. Part B Measurement of the aggregate economy; growth and development, economic fluctuations; stabilization policy; money and inflation; unemployment; financial and sovereign crises.

Teaching: 20 hours of lectures and 10 hours of classes in the MT.

20 hours of lectures and 10 hours of classes in the LT.

Revision lectures will be offered in week 11 of both the

Michaelmas and Lent terms.

Formative coursework: MT: Students will submit two problems sets on which written feedback will be provided. Feedback will also be provided on weekly Moodle quizzes.

LT: There will be weekly assignments consisting of a set of open-ended questions and a number of multiple-choice questions. Full solutions will be provided.

Indicative reading: There is no mandatory textbook in either term.

Students may find it useful to consult the following:

Part A: Acemoglu, D. Laibson, D. and J. A. List (2016)

Microeconomics, Pearson. Part B: N Gregory Mankiw,

Macroeconomics, Worth, 8th edition.

Assessment: Exam (50%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

The Lent term examination is based on the Michaelmas term syllabus, and the Summer exam on the Lent term syllabus.

EC201

Microeconomic Principles I

This information is for the 2019/20 session.

Teacher responsible: Dr Dimitra Petropoulou 32L 2.29 and Prof Timothy Besley 32L 3.37

Availability: This course is compulsory on the BSc in Environmental Policy with Economics, BSc in Geography with Economics, BSc in Government and Economics, BSc in International Social and Public Policy and Economics and BSc in Social Policy and Economics. This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Finance, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business, BSc

in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics, Diploma in Accounting and Finance and MSc in Economics (2 Year Programme). This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: This is an intermediate course in microeconomic analysis. Students are expected to have completed Economics A (EC100) OR Economics B (EC102), or an equivalent introductory course in economics based on textbooks such as Morgan W., M. Katz and H. Rosen, *Microeconomics*. Students are also expected to have completed an introductory mathematics course such as Quantitative Methods (Mathematics) (MA107) and should revise calculus including partial derivatives and the use of Lagrangians.

Course content: This is an intermediate course in microeconomic analysis giving a broad overview of economic principles including some recent developments in thinking. Students should expect to find the course challenging and by the end of it should be able to apply the tools of microeconomics to thinking about concrete economic problems. It will cover the following topics:

I. Consumer Theory – the analysis of decision-making under constraints: preferences and utility; utility maximisation and uncompensated demand; expenditure minimisation and compensated demand; income and substitution effects; welfare analysis. Selected applications to savings and labour supply.
 II. Behavioural Economics I – Anomalies in decision-making; time-inconsistency. III. Decision-making with Risk – expected utility theory; risk-sharing, risk-pooling and insurance; prospect theory. IV. Producer Theory – Production and cost functions; firm and industry supply; market structure. V. Strategic Choice – Game theory: simultaneous and sequential games; subgame perfection; repeated games. Selected applications to oligopoly; auctions. VI. The Market System as a General Equilibrium – Efficiency, distribution and inequality; social welfare. VII. Living Interdependently – Public goods and externalities; the role of government intervention. VIII. Behavioural Economics II – Analysis of markets; the role of government. IX. Political Economy – Effectiveness of government; preference aggregation; constraints on the power of the state, X. Asymmetric Information – Contracts and markets with moral hazard and adverse selection. XI. Innovation – product innovation; the role of government intervention.

Teaching: 20 hours of lectures and 20 hours of classes in the MT. 20 hours of lectures and 20 hours of classes in the LT. Two hours of revision lectures will be held in week 11 of both MT and LT

Formative coursework: Students should complete the weekly web-based quizzes before attending classes. In addition, at least four pieces of written work will be required and marked by class teachers.

Indicative reading: Lecture material will be complemented with required additional reading from journal articles. There is no set textbook for this course, though chapters from suitable intermediate textbooks will be recommended for those who may wish to consult a text (though this is not required). Students will be expected to discuss critically the theoretical ideas and models taught by engaging with the required reading alongside working through microeconomic problems. The readings will be discussed in the weekly classes.

Assessment: Exam (25%, duration: 1 hour, reading time: 15 minutes) in the January exam period.

Exam (75%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

The Lent term examination is based on the Michaelmas term syllabus, and the Summer exam on 33% on the Michaelmas term syllabus and 67% on the Lent term syllabus.

EC202

Microeconomic Principles II

This information is for the 2019/20 session.

Teacher responsible: Prof Frank Cowell 32L3.25A and Dr Andrew Ellis 32L3.15

Availability: This course is compulsory on the BSc in Econometrics and Mathematical Economics. This course is available on the BSc in Business Mathematics and Statistics, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Finance, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics, BSc in Statistics with Finance, Diploma in Accounting and Finance and MSc in Economics (2 Year Programme). This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have a suitable economics background: for those other than General Course students and 2-year MSc students, this means that they must have completed either Economics A (EC100) or Economics B (EC102). In addition, students must have a suitable mathematical background: students who have thoroughly mastered mathematics to the level of Quantitative Methods (Mathematics) (MA107) should be able to follow the course, but would find it difficult. Mathematical Methods (MA100) would give a better grounding.

Course content: This is an intermediate course in microeconomic analysis. Topics covered include Producer Theory, Consumer Theory, General Equilibrium, the Economics of Uncertainty, Welfare Economics and Game Theory, with applications to oligopoly, auctions, moral hazard, and adverse selection. A greater mathematical facility will be assumed of the student, permitting both greater depth and a number of additional topics than Microeconomic Principles I to be covered. Further details are available on <http://darp.lse.ac.uk/Frankweb/courses/ec202/>.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. A one-hour revision lecture will be scheduled in the MT.

Formative coursework: Students are urged to attempt the assigned problems before attending classes. At least four pieces of written work will be required and marked by class teachers.

Indicative reading: The text for the course is Cowell, F.A. (2018) *Microeconomics: Principles and Analysis* (second edition), Oxford University Press, Oxford. Additional readings to complement the lecture notes on specific topics from other books or articles will be indicated as needed.

Assessment: Exam (22.5%, duration: 1 hour, reading time: 15 minutes) in the January exam period.

Exam (67.5%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Coursework (10%) in the MT and LT.

10% course engagement, assessed on submitted coursework and, where relevant, class presentations.

The Lent term examination is based 100% on the Michaelmas term syllabus, and the Summer exam on 33% of the Lent term syllabus and 67% of the Lent term syllabus.

EC210

Macroeconomic Principles

This information is for the 2019/20 session.

Teacher responsible: Dr Kevin Sheedy 32L1.09
 Professor Ricardo Reis 32L1.27

Availability: This course is compulsory on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics with Economic History, BSc in Government and Economics, BSc in Philosophy, Politics and Economics and MSc

in Economics (2 Year Programme). This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Economic History with Economics, BSc in Economics and Economic History, BSc in Environmental Policy with Economics, BSc in Geography with Economics, BSc in International Social and Public Policy and Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business, BSc in Philosophy and Economics, BSc in Politics and Economics, BSc in Social Policy and Economics, BSc in Statistics with Finance and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Economics A (EC100) or Economics B (EC102), or an equivalent introductory course in Economics. Students are also expected to have completed at least an introductory Mathematics course such as Basic Quantitative Methods (MA110).

Course content: This course will cover the fundamental principles of macroeconomics at an intermediate level. Topics include the study of economic growth, consumption, investment, unemployment, business cycles, inflation, monetary and fiscal policy, financial markets and international macroeconomics.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students should attempt the assigned problems before attending classes, as they will have to hand them in every week, and will receive feedback from the class teachers on approximately half of them.

Students are expected to make positive contributions to class discussions.

Indicative reading: There is no single textbook for the course, as we will follow several different readings from different textbooks. For the Michaelmas term, a combined package containing chapters from the relevant textbooks will be available in the Economists' Bookshop.

Assessment: Exam (25%, duration: 1 hour, reading time: 15 minutes) in the January exam period.

Exam (75%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

The Lent term examination is based 100% on the Michaelmas term syllabus, and the Summer exam on 33% of the Michaelmas term syllabus and 67% of the Lent term syllabus.

EC220

Introduction to Econometrics

This information is for the 2019/20 session.

Teacher responsible: Dr Canh Thien Dang, room TBC (MT), Prof Taisuke Otsu 32L 4.25 and Dr. Marcia Schafgans 32L 4.12 (LT)

Availability: This course is available on the BSc in Accounting and Finance, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Finance, BSc in Geography with Economics, BSc in Government and Economics, BSc in International Social and Public Policy and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics, BSc in Social Policy and Economics, Diploma in Accounting and Finance and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students. Availability to General Course students is with the permission of the lecturer.

Pre-requisites: Students must have completed Elementary Statistical Theory (ST102).

Those who have taken MA107/ST107 should consider taking EC220 only if they have obtained marks of 65 or better on both courses

Course content: This course is an introduction to econometrics; it aims to present the theory and practice of empirical research in economics. Compared to EC221, in LT this course relies on

calculus instead of matrix algebra and follows Wooldridge closely. In MT, the focus of the course is on empirical questions and students will work with the econometrics software packages R or Stata analysing actual data sets. Students will learn how various tools are used to answer causal "what-if" questions (e.g., "What is the effect of monetary policy on output?") and prediction problems. In LT, the focus of the course is on the underlying econometric theory: estimation, properties of estimators (unbiasedness, standard error formula, sampling distribution, consistency) and hypothesis testing.

Topics include: randomised experiments; program evaluation; matching; simple and multiple regression analysis; omitted variable bias; functional form; heteroskedasticity and weighted least squares; endogeneity (omitted variables and simultaneity); instrumental variables and two-stage least squares; binary choice models; and time series analysis.

Teaching: 30 hours of lectures and 10 hours of classes in the MT. 30 hours of lectures and 10 hours of classes in the LT.

A one hour revision lecture will be held in week 11 of both the MT and LT.

EC220.B for graduate students.

Formative coursework: Exercises are provided each week and are discussed in the classes. (MT) Students are required to hand in written answers to the exercises for feedback. (LT) While students are expected to attempt the weekly problem sets before each class, students will receive formal feedback on 4 occasions.

Indicative reading: J. W. Wooldridge *Introductory Econometrics. A Modern Approach*, 6th Edition, South-Western. J. D. Angrist and J. S. Pischke *Mastering 'Metrics. The Path from Cause to Effect*, Princeton University Press. Further materials will be available on the EC220 Moodle page.

Assessment: Exam (25%, duration: 1 hour, reading time: 15 minutes) in the January exam period.

Exam (75%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

The Lent term examination is based 100% on the Michaelmas term syllabus, and the Summer exam on 33% of the Michaelmas term syllabus and 67% of the Lent term syllabus.

EC221

Principles of Econometrics

This information is for the 2019/20 session.

Teacher responsible: Dr Canh Thien Dang, (MT) and Dr. Marcia Schafgans 32L 4.12 (LT)

Availability: This course is compulsory on the BSc in Econometrics and Mathematical Economics. This course is available on the BSc in Business Mathematics and Statistics, BSc in Economics, BSc in Economics with Economic History, BSc in Finance, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Statistics with Finance and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

Course content: This course is a more advanced introduction to econometrics; it aims to present the theory and practice of empirical research in economics. Compared to EC220, in LT this course puts more emphasis on the underlying statistical theory and uses matrix algebra extensively.

In MT, the focus of the course is on empirical questions and students will work with the econometrics software packages R or Stata analysing actual data sets. Students will learn how various tools are used to answer causal "what-if" questions (e.g., "What is the effect of monetary policy on output?") and prediction problems. In LT, the focus of the course is on the underlying econometric theory: estimation, properties of estimators (unbiasedness,

efficiency, sampling distribution, consistency) and hypothesis testing.

Topics include: randomised experiments; program evaluation; matching; simple and multiple regression analysis; omitted variable bias; functional form; heteroskedasticity and weighted least squares; endogeneity (omitted variables and simultaneity); instrumental variables and two-stage least squares; MLE and binary choice models and Trinity of Testing; and time series analysis.

Teaching: 30 hours of lectures and 10 hours of classes in the MT. 30 hours of lectures and 10 hours of classes in the LT.

Additional help lectures 10 x 1 hour in the LT.

A one hour revision lecture will be held in week 11 of both the MT and LT.

EC221.B for graduate students.

Formative coursework: Exercises are provided each week and are discussed in the classes. (MT) Students are required to hand in written answers to the exercises for feedback. (LT) While students are expected to attempt the weekly problem sets before each class, students will receive formal feedback on 3 occasions.

Indicative reading: J. W. Wooldridge *Introductory Econometrics*.

A Modern Approach, 6th Edition, South-Western. J. D. Angrist and J. S. Pischke *Mastering 'Metrics. The Path from Cause to Effect*, Princeton University Press. Further materials will be available on the Moodle website. Other useful texts include: W. Greene, *Econometric Analysis*, 7th Edition, Pearson; J. Johnston and J. Dinardo, *Econometric Methods*, 4th Edition, McGraw-Hill; G.S. Maddala and K. Lahiri, *Introduction to Econometrics*, 4th Edition, John Wiley; J.H. Stock and M.W. Watson, *Introduction to Econometrics*, 3rd Edition, Pearson; C. Heij et al., *Econometric methods with Applications in Business and Economics*, Oxford University Press.

Assessment: Exam (25%, duration: 1 hour, reading time: 15 minutes) in the January exam period.

Exam (75%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

The Lent term examination is based 100% on the Michaelmas term syllabus, and the Summer exam on 33% of the Michaelmas term syllabus and 67% of the Lent term syllabus.

EC230

Economics in Public Policy

This information is for the 2019/20 session.

Teacher responsible: Dr Mohan Bijapur 32L.1.31
Prof. Daniel Sturm 32L.2.25

Availability: This course is available on the BSc in Accounting and Finance, BSc in Environment and Development, BSc in International Relations, BSc in International Social and Public Policy and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

The course is not open to students on the BSc Economics and joint BSc programmes between Economics other departments.

Pre-requisites: Students normally will have completed Economics A (EC100) or Economics B (EC102) or their equivalent.

Course content: This course uses economic analysis to explore important questions in contemporary public policy. The first term focuses on microeconomic policy problems while the second term focusses on macroeconomic policies. The use of mathematics is minimal (in particular with no calculus) and the emphasis of instruction is on graphical analysis and economic intuition. Precise topics and readings will be announced and are selected to be of current interest. Last year's topics included externalities from road transportation; the implications of high income taxes in Scandinavian countries; the trade-off behind unemployment insurance systems; the effectiveness of policies to support peripheral regions; the effects of international economic integration; the patterns of long-run income and wealth inequality; the economics of global warming; Why did the UK government grant independence to the Bank of England in 1997

and adopt an inflation target?; What caused the global financial crisis and how can policy prevent future crises?; How was global financial regulation reformed in the aftermath of the crisis?; What unconventional tools of monetary policy did central banks implement?; What causes currency crises, how can policy prevent them and what sparked the Trump trade war?; Why has the US been a more successful currency union than the Eurozone, what caused the European sovereign debt crisis and how is it related to Brexit?; How should governments deal with a debt crisis - did Greece make the right choice?; What drives convergence in income levels across countries, why do some countries stay poor and what can policy do about it?

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

A one hour revision lecture will be held in week 11 of the MT and week 11 of the LT.

Formative coursework: Four pieces of written work to be handed in to the class teacher. Students are expected to make positive contributions to class discussions.

Indicative reading: There is no set course textbook. A list of selected texts and readings will be provided at the start of term.

Assessment: Exam (50%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

The Lent term examination is based on the Michaelmas term syllabus, and the Summer exam on the Lent term syllabus.

EC240

PPE Interdisciplinary Research Seminar

This information is for the 2019/20 session.

Teacher responsible: Michael Callen

Availability: This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students.

This course is only available to second year students on the BSc in Philosophy, Politics and Economics.

Course content: The seminars will engage students with research on the frontier in topics such as public economics, political economy and decision making in the public domain. This research and background reading will then be further discussed in the following week's seminar. Attendance is required in all seminars.

Teaching: 7 hours and 30 minutes of seminars and 5 hours of classes in the LT.

Seminars which take place in weeks 1, 3, 5, 7, and 9, are 1.5 hours to allow time for Q&A; subsequent discussion classes, which take place in weeks 2, 4, 6, 8 and 10, are 1 hour each. Attendance is mandatory in both seminars and classes.

Seminars in weeks 1, 3, 5, 7, and 9 will be given on a specific topic, such as inequality, universal basic income, or limits of markets, and will allow for the opportunity to interact and ask questions. The subsequent discussion classes will discuss the previous week's seminar as well as examining background reading related to the topic.

Formative coursework: Seminar participation and all coursework for this course will be assessed summatively (see below).

Indicative reading: Acemoglu, Daron and James Robinson, *Why Nations Fail*, Crown Books, 2012; Besley, Timothy and Torsten Persson, *Pillars of Prosperity: The Political Economics of Development Clusters*, Princeton University Press, 2011 (will be used as the core text book, and students will be asked to familiarise themselves with the core modelling framework developed in the book);

An extensive list of required and further readings will be available on Moodle.

Assessment: Students will be assessed by one essay and class participation. The final summative grade will weigh together the essay (60%) and class participation (40%).

The overall grade the students will receive will be one of four: fail,

pass, merit and distinction. This mark is reported on the transcript, but does not count towards the degree classification.

EC301

Advanced Economic Analysis

This information is for the 2019/20 session.

Teacher responsible: Dr L. Rachel Ngai 32L 1.15

Dr Shengxing Zhang 32L 1.16

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in International Social and Public Policy and Economics, BSc in Mathematics and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Macroeconomic Principles (EC210) and Microeconomic Principles I (EC201). Mathematics to at least the level of Mathematical Methods (MA100). Microeconomic Principles II (EC202) is also accepted (in place of EC201).

Course content: This course is divided into two sections introducing recent developments in economic theory. The first section focuses on the relationship between the financial sector and the macroeconomy, considering such questions as why there exist financial crises and asset bubbles. To answer these questions, this section aims to equip students with frameworks to understand the role of the financial market, connect theories with real life observations about imperfections of the market. Topics covered in this section include financial frictions and capital misallocation, banking and financial stability, asset pricing and market liquidity. In the second section of the course we focus on economic growth, considering questions like these: Why was GDP per capita in the UK 15 times higher than China in 1960? Why did the factor of 15 decrease to 5 in 2000? To gain an understanding of the "whys" we have to ask deeper questions: what drives economic growth? Why do some economies grow faster and other slower? Thus this part of the course studies the determinants of economic growth through capital accumulation, reallocation of resources from agriculture into manufacturing and services and, technology innovation.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will submit, and receive feedback on, two problem sets per term.

Indicative reading: The course is mainly based on lecture notes and journal articles. As an example of the level and content of the reading in economics articles, students may wish to look at the following: Allen, Franklin, and Douglas Gale. *Understanding financial crises*. Oxford University Press, 2009: 1-26. Lucas, R. 2000. "Some Macroeconomics for the 21st Century." *Journal of Economic Perspectives*, 14: 159-168. Ngai, L. R. 2004. "Barriers and the Transition to Modern Growth". *Journal of Monetary Economics* 51:1353-1383. A good textbook reference for economic growth is: Jones, C. and D. Vollrath (2013), *Introduction to Economic Growth*. W. W. Norton & Co.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC302

Political Economy

This information is for the 2019/20 session.

Teacher responsible: Prof Ronny Razin 32L4.01 and Prof Timothy Besley 32L3.37

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in International Social and Public Policy and Economics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: This course makes use of key concepts in economic theory as well as econometric analysis. We welcome all students with a strong background and proven record in quantitative courses such as econometrics, statistics, microeconomics, mathematics, other advanced economics courses.

Course content: The course seeks to introduce students to the major theoretical models of Political Economy and the available empirical evidence. Sample topics to be covered include: Social Choice theory and Preference aggregation; Comparative electoral systems; Political economy of income redistribution; Turnout in elections; Strategic and Sincere voting; Political Parties; Debates and Communication; The political economy of transfers and public good provision; state capacity; the dynamics of political institutions, democracy versus autocracy.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Two hours of revision lectures will be held early in the Summer Term.

Formative coursework: Four pieces of written work (two per term) will be handed in and assessed by class teachers.

Indicative reading: There is no text book covering all the material in the course. The following books are recommended as supplements to what is covered in the lectures:

- Analyzing Politics, Rationality, Behavior and Institutions, K.A. Shepsle and M.S. Bonchek. W. W. Norton & Company, New York, London.
- Liberalism Against Populism, W.H. Riker, Waveland Press, Prospect Heights, Illinois.

For additional readings see: <http://econ.lse.ac.uk/courses/ec302/>

Assessment: Exam (90%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Group project (10%) in the LT.

In the LT students will be assessed by a group project, consisting of an essay of no more than 3000 words, and a 20-minute presentation on the essay topic - 10 minutes to present the main ideas and 10 minutes of Q&A. All students will be expected to contribute to both the essay and the presentation, including providing responses during the Q&A. Students will work in groups of no more than 5. Groups will be assigned by the class teacher.

EC307

Development Economics

This information is for the 2019/20 session.

Teacher responsible: Prof Oriana Bandiera 32L.3.02 and Prof Robin Burgess 32L.3.03

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Geography with Economics, BSc in Government and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics and MSc in Development Studies. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: This course makes use of key concepts in economic theory as well as econometric analysis. We welcome

all students with a strong background and proven record in quantitative courses such as econometrics, statistics, microeconomics, mathematics, other advanced economics courses.

Course content: This course explores the microeconomic foundations of economic development. We will discuss economic growth, inequality, poverty traps, labor markets, capital markets, education, health, gender, service delivery, taxation, the role of the state, governance and accountability, conflict, access to finance, infrastructure, trade, firms and markets, energy, environment and climate change. In studying each of these topics, we will ask: what determines the decisions of households and firms in less developed countries? What constraints do they face? Is there scope to improve livelihoods and productivity through the actions of governments, international organizations, NGOs, or market participants? What policies have been tried? How have they fared? This course combines theory and empirics but maintains a strong applied focus. Under each theme, we will derive testable implications from the theory, subject these predictions to econometric testing, comment on the robustness of the results obtained, and seek to draw policy conclusions.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Feedback is provided for four assignments (two in MT and 2 in LT)

Indicative reading: Teaching in the course will be done mainly from journal articles drawn from the forefront of theoretical and applied research in development economics. Background texts for the course are A. Banerjee and E. Duflo, *Poor Economics*, Public Affairs, 2011 and D. Ray, *Development Economics*, Princeton UP, 1998.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC309

Econometric Theory

This information is for the 2019/20 session.

Teacher responsible: Dr Tatiana Komarova 32L4.24 and Prof Francisco Hidalgo 32L4.20

Availability: This course is available on the BSc in Econometrics and Mathematical Economics and BSc in Mathematics and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Principles of Econometrics (EC221).

A good knowledge of linear algebra, calculus and statistical theory is essential, and therefore MA100 and ST102 or equivalent is required. Students taking this course who are not in BSc Econometrics and Mathematical Economics or BSc Mathematics and Economics must consult with Dr. Komarova before selecting this course

Course content: Introduction to the asymptotic theory of estimation and inference of economic models; Basics of large sample theory; Estimation of linear regression models (OLS, GMM, GLS); Testing hypotheses and model specifications; Estimation of nonlinear models (MLE, Nonlinear least squares); systems of equations; time series analysis.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis. Students are also expected to make positive contributions to class discussions.

Indicative reading: The main text for the lectures is R Davidson & J G MacKinnon, *Econometric Theory and Methods*, Oxford University Press (2004). Other useful texts include Davidson (2000), *Econometric Theory* Amemiya (1985), *Advanced Econometrics*; and Hayashi (2000), *Econometrics*.

Assessment: Exam (100%, duration: 3 hours, reading time: 15

minutes) in the summer exam period.

EC310

Behavioural Economics

This information is for the 2019/20 session.

Teacher responsible: Dr Matthew Levy 32L3.21

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics with Economic History, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business, BSc in Philosophy and Economics and BSc in Psychological and Behavioural Science.

This course is available as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

Students taking the course as an outside option are required to meet the pre-requisites as detailed below.

Pre-requisites: Ideally, students will have completed EC202 (or equivalent). A highly motivated student who has done well in EC201 -- as a guideline 65 or better -- is welcome on the course, if he or she finds handling economics mathematically comes naturally. Any such student should see Dr Levy before the course starts. Fluency in calculus is essential, and some knowledge of methods of mathematical proof, including those using sets, is necessary.

Course content: The course will expose students to a number of major topics in Behavioural Economics, and will link theory with empirical applications. The first half of the course will focus on departures from neoclassical preferences, while the latter half will cover departures from rational expectations. The particular topics to be covered include:

- Reference Dependent Preferences and Loss Aversion
- Social Preferences
- Hyperbolic Discounting
- Naiveté and Self-Control
- Projection Bias
- Happiness and Adaptation
- Heuristics and Biases
- Inattention and Shrouding
- Nudging and Framing
- Behavioural Welfare Analysis

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: At least four exercises or pieces of written work will be required and assessed by class teachers.

Indicative reading: Congdon, William, Jeffrey Kling, and Sendhil Mullainathan. *Policy and Choice: Public Finance Through the Lens of Behavioral Economics* (selected chapters). Brookings Institution Press: Washington, D.C. 2011. [Free eBook download at <http://www.brookings.edu/press/Books/2011/policyandchoice.aspx>]. Rabin, Matthew. 'Psychology and Economics', *Journal of Economic Literature*, 36(1), 1998: 11-46. DellaVigna, Stefano. 'Psychology and Economics: Evidence from the Field', *Journal of Economic Literature*, 47(2), 2009: 315-372. Fehr, Ernst and Simon Gächter. 'Fairness and Retaliation: The Economics of Reciprocity', *Journal of Economic Perspectives*, 14(3), 2000: 159-181. Laibson, David. 'Golden Eggs and Hyperbolic Discounting', *The Quarterly Journal of Economics*, 112(2), 1997: 443-477. Camerer, Colin, Linda Babcock, George Loewenstein, and Richard Thaler. 'Labor Supply of New York City Cabdrivers: One Day at a Time', *The Quarterly Journal of Economics*, 112, 1997: 407-441. Gabaix, Xavier and David Laibson. 'Shrouded Attributes, Consumer Myopia, and Information Suppression in Competitive Markets', *The Quarterly Journal of Economics*, 121(2): 505-540. Bernartzi, Shlomo and Richard Thaler. 'Save More Tomorrow: Using Behavioral Economics to Increase Employee Saving', *Journal of Political Economy*, 112(1), 2004: S164-S187. Kahneman, Daniel and Amos Tversky. 'Prospect Theory: An Analysis of Decision under Risk', *Econometrica*, 47(2), 1979: 263-292.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC311

History of Economics: How Theories Change

This information is for the 2019/20 session.

Teacher responsible: To Be Announced

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economic History, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in International Social and Public Policy and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics and BSc in Social Policy and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course examines the ways in which economics has developed from the Mercantilists of the 17th century to the Neoclassical thinking of the later 20th century. The course will explore how the theories, concepts and methods of economics have changed over the last 250 years, focusing on Europe and North America. We will use the original texts in order to understand how economists of the past approached perennial questions (about for example, the sources of growth or the role of money) and resolved them in the context of the economic conditions of their own time and place; and use theories about scientific change to understand the longer history of economics.

Teaching: 10 hours of lectures and 8 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in Week 6 of MT and LT

Formative coursework: Students will be expected to discuss assigned texts and produce several pieces of written work.

Indicative reading: A reading list of original texts and secondary literature will be given at the beginning of the course. For an introduction, students may read R L Heilbroner's, *The Worldly Philosophers*; for general background, consult Roger E Backhouse's, *The Penguin History of Economics* or David Colander & Harry Landreth's, *History of Economic Thought*. Reading will be made available in a course reading pack.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

EC313

Industrial Economics

This information is for the 2019/20 session.

Teacher responsible: Prof Martin Pesendorfer 32L.4.19

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in International Social and Public Policy and Economics, BSc in Mathematics and Economics, BSc in Philosophy, Politics and Economics, BSc in Social Policy and Economics and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) and Introduction to Econometrics (EC220) or Principles of Econometrics (EC221). **Students who believe they have completed an equivalent course instead of one of these must receive permission from Prof Pesendorfer first.**

Course content: The aim of the course is to provide students with a working knowledge of theoretical and empirical methods for industry studies. Topics may include: monopoly, price discrimination, pre-requisites in game theory, oligopoly theory, product differentiation, demand estimation, production function estimation, conduct in concentrated industries (cartel stability, limit pricing, etc.), empirical techniques for oligopoly models, identification of conduct, markets with asymmetric information, matching models, entry in strategic settings, advertising, auction markets, empirics of auction markets, winner's curse, and insurance. The topics will be discussed with detailed applications for selected industries and considering competition policy questions.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: At least four problem sets will be required and assessed by class teachers.

Indicative reading: A detailed reading list will be provided at the beginning of the course. The key text is Tirole's *The Theory of Industrial Organization*. Specific sections will be assigned (others are too advanced for this course). There will be additional required readings on empirical articles and case studies on competition policy.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC315

International Economics

This information is for the 2019/20 session.

Teacher responsible: Dr Keyu Jin 32L.1.17 and Dr Swati Dhingra 32L.2.31

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Environmental Policy with Economics, BSc in Government and Economics, BSc in International Social and Public Policy and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students should have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent and Macroeconomic Principles (EC210) or equivalent.

Course content: International Macroeconomics: This section of the course offers an introduction to international macroeconomic theory and develops the main tools for macroeconomic policy analysis. We start by studying the balance of payments and the causes and consequences of global imbalances, followed by an in-depth study of the determination of exchange rates, money, and prices in open economies. We discuss the costs and benefits of different nominal exchange rate regimes and their sustainability, as well as examine the causes and consequences of debt and default, speculative attacks and financial crises.

International Trade: This section of the course offers an introduction to international trade theory and develops the main tools for trade policy analysis. We start by studying the patterns of trade distinguishing between inter-industry and intra-industry trade flows. We then proceed to an in-depth analysis of the causes and the effects of those flows based on the concepts of absolute and comparative advantage, relative factor abundance and relative factor intensity, increasing returns to scale and imperfect competition. Finally we discuss the gains and losses from trade, their distribution among people and firms, and their implications for the debate on trade liberalization vs. protectionism.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to complete a problem set weekly, and two of these each term will be collected at

random for marking and feedback.

Indicative reading: Paul Krugman, Marc Melitz and Maurice Obstfeld; *International Economics: Theory and Policy*, 10th ed.

Assessment: Assessment path 1

Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Assessment path 2

Exam (50%, duration: 1 hour and 30 minutes, reading time: 10 minutes) in the summer exam period.

Essay (50%, 1500 words) in the LT Week 5.

The short essay will be on a topic covered during the course of the MT and can be on a topic of students' own choosing based on the material covered in the MT. The essay components are as follows:

1. Maximum word length: 1500 words
2. Four parts: Abstract, Introduction, Content, Conclusion.
3. Abstract: Include an abstract of 100 words or fewer.
4. Introduction: The essay would consist of an introduction which clearly states the question being studied, the motivation for examining the question and the contribution that the essay plans to make to the study of this question (relative to other work in the area).
5. Content: Having specified the question, the essay would contain theoretical and/or empirical evidence for the answer being proposed. The answer consists of an explanation and a maximum of four exhibits. An exhibit refers to a graph, table, figure, proposition or set of equations (limit to under three in each exhibit) that contains the theoretical or empirical evidence for the answer.
6. Conclusion: The essay would end with a concluding paragraph that states the answer to the question or broader implications of it.

EC317

Labour Economics

This information is for the 2019/20 session.

Teacher responsible: Dr Guy Michaels 32L2.10

Dr Pawel Bukowski 32L 2.01

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in International Social and Public Policy and Economics, BSc in Philosophy and Economics and BSc in Social Policy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students should have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent and Introduction to Econometrics (EC220) or equivalent.

Course content: This course is an introduction to the economic analysis of behaviour and institutions in the labour market. Primarily microeconomic models are applied to labour market phenomena, such as labour supply and participation, labour demand by firms, and wage determination under different institutional settings. Students learn how to distinguish alternative theories empirically using real world data. The course explores how models and empirical analysis can be applied to evaluate labour market policies, such as the minimum wage, welfare programmes, and immigration restrictions. We will also examine labour market inequality and the role of technological change. The goal of the course is to enable students to think independently about labour market issues, drawing on the models and tools developed during the course.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Problems sets in the course involve hands-on statistical analysis of real world data.

Indicative reading: G Borjas, *Labor Economics*. Additional reading, drawn from journals, will be suggested during the course.

Assessment: Exam (85%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Class participation (15%) in the MT and LT.

EC319

Games and Economic Behaviour

This information is for the 2019/20 session.

Teacher responsible: Dr Andrew Ellis 32L 3.15 and Dr Francesco Nava 32L 3.20

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Philosophy and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students should have completed Microeconomic Principles I (EC201), or Microeconomic Principles II (EC202), or equivalent. Fluency in calculus is essential, and some knowledge of analysis, probability theory, linear algebra and set theory is advantageous. Highly motivated students with a less technical background could enrol on the course, if they find handling economics mathematically comes naturally. Any such student should see Dr Nava or Dr Ellis before the course starts.

Course content: This course reviews fundamental concepts in Economic Theory and presents some of its most successful applications. The first part of the course consists of an introduction to Auction Theory and Mechanism Design. It presents standard auction formats and discusses strategic behaviour in such environments. Auctions will be analysed both in private and interdependent value environments. Fundamental topics such as the revenue equivalence theorem, the optimal and efficient auction design problem, and the linkage principle will be covered in detail. Departures from the standard model will be also considered allowing for heterogeneity among players, risk aversion, and budget constraints. The focus of the course is mainly theoretical, but when possible some evidence supporting the formal models will be discussed with references to relevant work in the field. The second part of the course will survey concepts in non-cooperative game theory and will introduce students to game theoretic models of bargaining, voting, and communication. After setting up the primitives of the game theory framework, different solution concepts will be analysed with an emphasis on different applications. In studying models of bargaining, both axiomatic and non-cooperative approaches will be examined, such as Nash's axiomatic approach and the Rubinstein-Stahl model.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 revision lecture held in week 11 of MT.

Formative coursework: Students are urged to attempt all of the assigned problems before attending classes. At least four pieces of written work will be required and marked by class teachers. Students are expected to make positive contributions to class discussions.

Indicative reading: V. Krishna, *Auction Theory*, Academic Press, 2009. M. Osborne, *An Introduction to Game Theory*, Oxford University Press, 2003.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC321

Monetary Economics

This information is for the 2019/20 session.

Teacher responsible: Dr Kevin Sheedy 32L1.09

Professor Sir Charles Bean 32L 1.18

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Government and Economics, BSc in Mathematics and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and BSc in Politics and Economics.

This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have already completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or an equivalent intermediate course in microeconomics. Students must have already completed Macroeconomic Principles (EC210) or an equivalent intermediate course in macroeconomics; in exceptional cases and only with permission, students without this pre-requisite may be allowed to take EC321 if they also take EC210 concurrently. Students must have mathematics and statistics to at least the level of Quantitative Methods (MA107 and ST107), while Mathematical Methods (MA100) and Elementary Statistical Theory (ST102) are strongly preferred. Introduction to Econometrics (EC220) or Principles of Econometrics (EC221) are desirable though not essential.

Course content: The course provides an introduction to monetary theory, to the effects of monetary variables on the macroeconomic system, the role of the central bank and the conduct of monetary policy. Subjects covered include: The nature and function of money; Asset prices and the term structure of interest rates; Classical monetary theory, neutrality and inflation; Interest-rate feedback rules; The interaction between monetary and fiscal policy; Theories of the demand for money; The market for reserves; Financial markets and financial intermediaries; The transmission mechanism of monetary policy and theories of the Phillips curve; The optimal rate of inflation and optimal stabilisation policy; The positive theory of inflation and the case for central bank independence; Policymaking in an uncertain environment; The role of banks in the transmission mechanism and the case for bank regulation; Financial crises and the role of the central bank as a lender of last resort; The 2007-8 financial crisis and unconventional monetary policies.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. A one-hour revision lecture will be held in week 11 of both MT and LT.

Formative coursework: Students are required to submit two essays or exercises in the MT and the LT. Feedback is provided on these by the class teacher. Students are expected to make positive contributions to class discussions.

Indicative reading: The most useful text books are M Lewis & P Mizen, *Monetary Economics*, and C Walsh, *Monetary Theory and Policy* 4th edn. Other useful texts include: C Goodhart, *Money, Information and Uncertainty*, 2nd edn; D Laidler, *The Demand for Money*, 4th edn; R Aliber and C Kindleberger, *Manias, Panics and Crashes: A History of Financial Crises*, 7th edn. The main source of assigned readings is, however, journal articles.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC325

Public Economics

This information is for the 2019/20 session.

Teacher responsible: Dr Daniel Reck 32L.3.16 and Prof Camille Landais 32L.3.06

Availability: This course is compulsory on the BSc in International Social and Public Policy and Economics and BSc in Social Policy and Economics. This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Environmental Policy with Economics, BSc in Geography with Economics, BSc in Government and Economics, BSc in Mathematics and Economics, BSc in Mathematics, Statistics, and Business, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and BSc in Politics and Economics. This course is available as an outside option to students on other programmes where regulations permit

and to General Course students.

Pre-requisites: Students should have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent. The capacity to read and understand applied research methods as covered in EC220/221 is highly desirable.

Course content: The first part of Michaelmas term lectures focuses on the issues of equity, efficiency and the role of the state. We begin by looking at questions of equity and alternative theories of the role of the state. We then look at problems of public choice and political economics, and go on to consider the implications of recent research in behavioural economics for welfare analysis. We conclude the first part by discussing issues of market failure, public goods and externalities, including environmental policy. The second part is devoted to the evaluation problem and empirical methods. The third part studies education policies, and the fourth part is devoted to social insurance programs. The final part is devoted to taxation, behavioural responses and the design of tax policy. We begin by examining the effects of taxes and transfers on labour supply and migration, and then go on to consider incomes and behavioural responses at the top of the income distribution. We look at the implications of taxation for economic efficiency and explore the optimal taxation of commodities and income. The final lecture is devoted to the question of development and public finance.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Feedback is provided for one problem set and one mock exam each term (Michaelmas and Lent).

Indicative reading: The recommended textbook for the course is Jonathan Gruber (2011) *Public Finance and Public Policy*, 3rd edition, Worth Publishers. Many of the readings will be journal articles.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC331

Quantitative Thesis

This information is for the 2019/20 session.

Teacher responsible: Dr Matthew Levy 32L3.21

Availability: This course is compulsory on the BSc in Econometrics and Mathematical Economics. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed Principles of Econometrics (EC221) or exceptionally Introduction to Econometrics (EC220).

Course content: This course provides an opportunity to learn how to do independent quantitative economic research at an advanced level. Students are expected to pursue research on a question of their own choice under the supervision of a member of staff. They are expected to formulate an initial proposal near the start of MT in order to be matched with a supervisor, refining their choice into a manageable research question during that term. Following independent work during MT, a seminar in week 9 will review student progress. In the LT seminars, each student will present a preliminary outline of the results for comments by fellow students and teachers, and later a follow-up presentation on further, more final results and a draft thesis. Seminars in LT are formally timetabled as classes.

Teaching: 4 hours of seminars in the MT. 20 hours of seminars in the LT.

In week 11 of the MT and the LT students will work independently (with supervisory advice).

Formative coursework: Students are required to prepare material for their presentations in the seminar, but this is not formally graded. Students are additionally expected to participate in discussion on the presentations of other students' as this is part of the training of a research economist, but this is also not formally assessed.

Indicative reading: As each student chooses an individual

research question, there is no common reading list for this course.

Assessment: Thesis (100%) in May.

A completed thesis (up to 10,000 words, not including abstract, footnotes, bibliography and tables) on an approved subject will be required to be submitted by 06 May 2020. There is no written examination. The thesis is weighted at 100% of the final assessment.

EC333

Problems of Applied Econometrics

This information is for the 2019/20 session.

Teacher responsible: Prof Mark Schankerman 32L.4.30

Dr Rachael Meager 32L.3.13

Availability: This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics and Economic History and BSc in Mathematics and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students should have completed Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or equivalent, and either Introduction to Econometrics (EC220) or Principles of Econometrics (EC221), or equivalent.

Students who have completed EC220 rather than EC221 should refer to Dr Meager for advice before starting the course regarding additional preparatory work for Lent term course material.

Course content: The purpose of this course is to provide a solid grounding in recent developments in applied micro-econometrics. A major feature of the course is the use of both analytical and computer-based (data) exercises for the classes, as well as reading applied economic papers from the journals which apply the techniques being taught. This mix will enable students to gain practical experience in analysing a wide variety of econometric problems. The topics covered in the Michaelmas term include analysis of matching methods, identification of average, local average and marginal treatment effects using instrumental variables, weak instrument problems, regression discontinuity and randomised control experiments. The Lent term will focus on topics in the analysis of cross section and panel data with static and dynamic models, including fixed and random effects, nonlinear models, issues of measurement error, selection and attrition in panel contexts, binary choice models, maximum likelihood estimation, and generalized method of moments.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Michaelmas term: required weekly "referee reports" (3-4 pages) on assigned journal articles, with two graded. Feedback to be provided by the class teacher. Lent term: 3 problem sets, usually to include econometric questions and applications. Feedback to be provided by the class teacher.

Indicative reading: A detailed reading list will be provided at the beginning of each term of the course. In parts of the Michaelmas we will use sections from the textbook *Mostly Harmless Econometrics* by Angrist and Pischke. There is no single text for the Lent term, but useful books include *A Guide to Modern Econometrics* by Marno Verbeek, *Introduction to Econometrics* by Stock and Watson (somewhat less advanced than the lectures) and *Econometric Analyses of Cross Section and Panel Data* by Wooldridge (somewhat more advanced than the lectures).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

EC340

PPE Interdisciplinary Research Seminar

This information is for the 2019/20 session.

Teacher responsible: Prof Charlie Bean 32L.1.18

Prof Erik Berglof

Availability: This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students.

This course is only available to third year students on the BSc in Philosophy, Politics and Economics. The course started at the beginning of Lent Term in year 2 as EC240 and continues as EC340 through to the end of Lent Term in year 3.

Course content: The course will include seminars given by top researchers from inside and outside LSE, including researchers from the public, private and third sector. These seminars will expose the students to research on the frontier in topics such as public economics, political economy and decision making in the public domain. This research and background reading will then be discussed in biweekly discussion seminars.

Teaching: The course will run across three terms starting at the beginning of Lent term in year 2 of the PPE (see EC240 course guide) and continuing in Michaelmas and Lent term of year 3 of the PPE (EC340). Each term will consist of a series of biweekly seminars by guest speakers (5 x 90 mins) and discussion classes (5 x 60 mins). Attendance is mandatory in both seminars and classes.

Seminars by guest speakers will be given by outside speakers on a specific topic, such as inequality, and will allow for the opportunity to interact and ask questions. Depending on the availability of the speaker, there may be the opportunity for further discussion at an informal social event after the lecture. These seminars will discuss the previous week's seminar as well as examining background reading related to the topic.

Formative coursework: Seminar participation and all coursework for this course will be assessed summatively (see below).

Indicative reading: Besley, Timothy and Torsten Persson, *Pillars of Prosperity: The Political Economics of Development Clusters*, Princeton University Press, 2011 (will be used as the core text book, and students will be asked to familiarise themselves with the core modelling framework developed in the book); Acemoglu, Daron and James Robinson, *Why Nations Fail*, Crown Books, 2012; Banerjee, Abhijit and Esther Duflo, *Poor Economics*, Random House, 2011; Fukuyama, Francis, *The Origins of Political Order*, Profile Books, 2011; Moore, Barrington, *Social Origins of Dictatorship and Democracy*, Beacon Press, 1966; North, Douglass, John Wallis and Barry Weingast, *Violence and Social Orders*, Cambridge University Press, 2009; Piketty, Thomas, *Capital in the 21st Century*, Harvard University Press, 2014; Sen, Amartya, *The Idea of Justice*, Allen Lane, 2009. An extensive list of required and further readings will be available on Moodle.

Assessment: This information is for students in the second year of the PPE Interdisciplinary Research Seminar. First year students please refer to the EC240 course guide.

Students will be assessed throughout the course, through essays and class participation. There will be one essay per term in MT and LT. Class participation will be assessed throughout.

The final summative grade will weigh together the essays (80%) and class participation (20%) from all three terms (the essays will be weighted 25%, 25% and 50%, respectively).

The overall grade the students will receive will be one of four: fail, pass, merit and distinction. This mark is reported on the transcript, but does not count towards the degree classification.

EH101

The Internationalisation of Economic Growth, 1870 to the Present Day

This information is for the 2019/20 session.

Teacher responsible: Dr Eric Schneider SAR.5.18, Prof Christopher

Minns SAR.5.12 and Dr Timothy Leunig

Availability: This course is compulsory on the BSc in Economic History, BSc in Economic History and Geography, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is available on the BA in History, BSc in Actuarial Science, BSc in International Relations, BSc in Politics and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course examines the inter-relationships between the development of the international economy and the growth of national economies since the late nineteenth century. The course is designed to introduce students not only to a wide variety of topics and issues, but also to the wide variety of approaches used by historians. The course includes analyses of the original leading nation, Britain, and its replacement, the United States, as well as the catch-up of areas such as continental Europe, and the failure to catch-up of earlier well-placed areas such as Latin America. The effects of major events - such as wars and debt crises - are investigated, and we also consider the implications of changing global economic institutions, such as the Gold Standard and IMF, as well as the effects of sometimes rapid changes in product and process technology.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Lectures are held each week with 21 lectures across MT, LT and ST. A lecture programme and list of topics will be circulated at the first meeting. The lectures are accompanied by weekly classes that develop the material from the lecture in the week before.

There is a reading week in Week 6 of MT and LT.

Formative coursework: Students are expected to write an annotated bibliography, three very short essays and two longer essays during the year.

Indicative reading: The following are particularly useful: R C Allen, *Global Economic History: A Very Short Introduction* (2011). R Floud, J Humphries & P Johnson (Eds), *The Cambridge Economic History of Modern Britain, Vol 2* (2014). B Eichengreen, *Globalizing Capital: A History of the International Monetary System* (2008). K H O'Rourke and J G Williamson, *Globalization and History: The Evolution of a Nineteenth-Century Atlantic Economy* (1999). E Jones, L Frost & C White, *Coming Full Circle. An Economic History of the Pacific Rim* (1993). M S Blackford, *The Rise of Modern Business in the USA, Britain and Japan.* (A complete reading list and class topics will be given out at the first meeting.)

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

EH102

Pre-industrial Economic History

This information is for the 2019/20 session.

Teacher responsible: Prof Oliver Volckart SAR 6.10

Availability: This course is compulsory on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: This course surveys long-term processes of growth and development in late medieval and early modern Europe (eleventh to eighteenth centuries). It focuses on the transition from a hierarchical society of estates or corporate orders to a market society based on legal equality and freedom of contract. There are two core questions: First, why did this transition occur in an evolutionary way in England and the Netherlands, whereas it was severely delayed the rest of Europe? And second, how is it related to the 'small divergence' between the Dutch Republic and England

on the one side and most of the Continent on the other, where the North-West enjoyed significantly higher living standards and per capita incomes than other countries long before the onset of industrialisation?

The course thus raises fundamental questions about societies and economies: Was pre-industrial economic growth transitory and regional? Or was it a recurrent, even normal phenomenon, which however could occasionally be reversed? Was Dutch and British success the result of their social and institutional features? Or was it a combination of geographical factors and good fortune? To what degree did early modern governments help or hinder economic development? Did Europe's political fragmentation hold back the continent's development, or did competition between states have beneficial consequences? In conclusion, can we define an optimal combination of social, political, and economic institutions that sustained growth in the past (and thus, perhaps, in the future)?

The course has a strong focus on skills training, in particular on essay writing.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: Students will be expected to produce 1 exercise and 1 other piece of coursework in the MT. Students are expected to produce two pieces of formative written coursework in the MT. They will give formative presentations on topics that form part of the course content. They will receive structured feedback on their formative coursework.

Indicative reading: Anderson, J.L. (1991): *Explaining long-term economic change*, Cambridge (Cambridge University Press). Cipolla, C.M. ed. (1971/72). *The Fontana economic history of Europe*, vols. 1 and 2, London (Fontana). de Vries, J. (1976). *The economy of Europe in an age of crisis, 1600-1750*, Cambridge, London, New York etc. (Cambridge University Press). Hatcher, J. and Bailey, M. (2001): *Modelling the Middle Ages. The History and Theory of England's Economic Development*, Oxford (Oxford University Press). Miskimin, H. (1969). *The Economy of Early Renaissance Europe 1300-1460*. Englewood Cliffs/NJ: Prentice-Hall. Miskimin, H. (1977). *The Economy of Later Renaissance Europe 1460-1600*. Cambridge, London, New York, Melbourne: Cambridge University Press. Persson, K. G. (2010). *An Economic History of Europe: Knowledge, Institutions and Growth, 600 to the Present*. Cambridge: Cambridge University Press.

Assessment: Essay (40%, 2000 words) in the LT.

Essay (60%, 3000 words) in the ST.

EH103

Making Economic History Count

This information is for the 2019/20 session.

Teacher responsible: Dr Jordan Claridge SAR 5.05

Availability: This course is compulsory on the BSc in Economic History. This course is not available as an outside option nor to General Course students.

Course content: This course provides students a brief, non-technical introduction to the quantitative methods that economic historians use to understand the past. It assumes no prior statistical knowledge or experience. It will teach students basic statistics (descriptive statistics and inferential statistics) and how to implement and visualise these statistics with Excel. These skills will be essential for the independent research projects conducted in the second and third year and are highly desired skills on the job market.

Teaching: 5 hours of lectures and 6 hours of classes in the MT.

Some of the classes will take the form of computer based workshops.

Formative coursework: The formative coursework will consist of weekly exercises to give students practise with Excel and the methods being taught in the lecture. There will be a formative take home exam over the reading week in Michaelmas Term, to test

students' knowledge of the material.

Indicative reading: Hudson, Pat and Mina Ishizu, *History by Numbers* (London, 2016).

Feinstein, Charles and Mark Thomas, *Making History Count: A Primer in Quantitative Methods for Historians* (Cambridge, 2002).

Assessment: There is no summative assessment for this course.

EH204

Money and Finance: From the Middle Ages to Modernity

This information is for the 2019/20 session.

Teacher responsible: Prof Oliver Volckart SAR 6.10 and Dr Olivier Accominotti SAR 5.14

Availability: This course is available on the BSc in Economic History, BSc in Economic History and Geography, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course provides an overview of the main developments in monetary and financial history from 800 to the present day, taking the students from the simple beginnings of medieval European monetary history to the complex financial arrangements of the modern world. The first part of the course covers the emergence of money and finance from the medieval ages to the early modern period. The second part examines the main developments in the global financial system since the nineteenth century. Historical developments in major European and non-European countries (England, Spain, Italy, France, Germany, USA) will be discussed and compared. The course is designed to introduce students to the main concepts of money and finance (financial development, financial integration, monetary policy, banking crises etc.) and to provide a long run perspective to the current policy debate.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a Reading Week in Week 6 of MT and LT.

Formative coursework: The students will produce one formative essay in MT, and one outline of their summative essay in LT. The exercise will help them practice academic writing (structuring and presenting arguments, providing explanations, referencing etc.); a skill both necessary for the dissertation they are expected to write in year 3 and helpful for the exam of this course that will take place in summer term. The class presentation has a formative character, too. Students will practice presenting complex arguments to their peers and answering questions from the audience.

Indicative reading: 1. Barrett, W. (1990): *World Bullion Flows, 1450-1800*, in: Tracy, J.D., ed., *The Rise of Merchant Empires: Long-Distance Trade in the Early Modern World 1350-1750*, Cambridge (Cambridge University Press), pp. 224-254.

2. Chilos, D. and Volckart, O. (2011). *Money, States and Empire: Financial Integration and Institutional Change in Central Europe, 1400-1520*. *Journal of Economic History* 71, 762-791.

3. Eichengreen, B. (1992), *Golden Fetters: The Gold Standard and the Great Depression, 1919-1939*, Oxford (Oxford University Press).

4. Eichengreen, B. (2008), *Globalizing Capital: A History of the International Monetary System*, Princeton (Princeton University Press). 5. Friedman, M. and A. Schwartz (1963), *A Monetary History of the United States, 1867-1960*, Princeton (Princeton University Press). 6. Kindleberger, C. P. (2005), *Manias, Panics and Crashes. A History of Financial Crises*, 5th edition, New York: Macmillan. 7. Reinhart, C. and K. Rogoff (2009), *This Time Is Different: Eight Centuries of Financial Folly*, Princeton (Princeton University Press). 8. Spufford, P. (1991): *Money and its Use in Medieval Europe*, Cambridge et al. (Cambridge University Press).

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Essay (30%, 3000 words) in the LT.

EH207

The Making of an Economic Superpower: China since 1850

This information is for the 2019/20 session.

Teacher responsible: Prof Kent Deng SAR 5.13

Availability: This course is available on the BA in History, BSc in Economic History, BSc in Economic History and Geography, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines major socio-economic changes in China from the mid-nineteenth century to the present. It pays special attention to China's bumpy path towards an economic superpower status which had been obvious by the beginning of the 21st century.

This course examines institutional changes whereby economic transformations occurred. The main landmarks and key issues include (1) success of the Qing economy, (2) decline of the Qing state, (3) the rise of local military leaders, (4) civil wars, (5) external threats and invasions, (6) rise of nationalism and communism, (7) economic reforms and modernization, (8) growth performance over time, (9) consequences of post-Mao take-off.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Formative coursework: Students are expected to produce 2 essays during the two teaching terms.

Indicative reading: Deng, Kent, *Mapping China's Growth and Development in the Long Run, 221 BC to 2020* (London: World Scientific Press and Imperial College Press); Naughton, B., *The Chinese economy, transitions and growth* (MIT Press); Spence, J.D. *The search for modern China* (New York: W.W. Norton); Deng, Kent, *China's Political Economy in Modern Times: Changes and Economic Consequences, 1800-2000*. Routledge, London and New York. 2011.

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Essay (15%, 1500 words) in the MT and LT.

Essay (15%, 1500 words) in the ST.

Coursework of two take home essays of 1,500 words (inclusive of bibliography and footnotes) to be completed independently by each individual student. The essays should develop arguments, analysis and evidences on a specific research question (or a set of research questions) chosen by the student in consultation with teachers and should be related to the course materials covered. While it is essential to demonstrate one's grasp of the course material, students are encouraged to develop their own insights and arguments going beyond the course material.

EH211

Africa and the World Economy, 1500-2000

This information is for the 2019/20 session.

Teacher responsible: Dr Leigh Gardner SAR 5.07

Availability: This course is available on the BSc in Economic History, BSc in Economic History and Geography, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines the economic history of

Sub-Saharan Africa from the medieval period to the present. Its overall aim is to situate Africa within global economic history, illustrating how Africa and Africans contributed to global economic change as well as exploring the impact of those changes on African economies. Lectures provide a chronological introduction to significant periods in African economic history, from the trans-Saharan trade through the slave trade, colonial rule, and independence. The course ends by considering the significance recent economic expansions and population growth. While lectures and classes focus on broader themes, assessed work includes a case study research project allowing students to learn about the diversity of experience around the continent.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: Students should expect to complete two formative assignments per term. This will include one essay or equivalent plus an assignment related to the summative case study project. Students will need to have the selection of their case study approved by the course convener by the end of MT, and prepare an outline and reading list by the middle of LT.

Indicative reading: For a general overview of African history over the period, see R.J. Reid, *A History of Modern Africa* (2009); J. Iliffe, *Africans: The History of a Continent* (1995). Specific texts on African economic history include R. Austen, *African Economic History* (1987); R. Bates, *Essays on the Political Economy of Rural Africa* (1983); C. Feinstein, *Conquest, Discrimination and Development: an Economic History of South Africa* (2005); J. Forbes Munro, *Africa and the International Economy, 1800-1950* (1976); A. Hopkins, *An Economic History of West Africa* (1973); R.M.A van Zwanenberg and A. King, *An Economic History of Kenya and Uganda, 1800-1970* (1975)

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Project (30%, 3000 words) in the ST.

The research project will involve a case study (3000 words) of an African country, focused on one of the themes/questions addressed in the course.

EH225

Latin America and the International Economy

This information is for the 2019/20 session.

Teacher responsible: Dr Peter Sims, SAR.6.15

Availability: This course is available on the BA in History, BSc in Economic History, BSc in Economic History and Geography, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History and BSc in International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course examines the development trajectory of Latin America and its relation with the international economy from the Early Modern period (c. 1700) to the present. It focuses on the political and economic factors that drove - and that resulted from- the region's engagement with the world attending to the environment, population and factor endowments, institutions and policies. The causes and outcomes of this 'engagement' will be explored in the following broad themes: the determinants of Latin American growth performance, the political economic legacy of European rule and of the formation of modern states and markets; the ambivalent relation with international markets and institutions, the continuous quest for development together with political and macroeconomic instability; the economic aspects of different political experiments and political culture - from authoritarian to democratic regimes and various generations of populism interspersed with military rule and direct democracy- and the short and long run impact on equality, poverty and the prospect for sustained intensive growth.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: Students are expected to write two essays or equivalent pieces of written work, and offer an oral presentation individually or in a team throughout the course.

Indicative reading: V. Bulmer-Thomas (2014) *The Economic History of Latin America since Independence*, Cambridge University Press, *Ibid.* (2012) *The Economic History of the Caribbean since the Napoleonic Wars*, Cambridge University Press; P. Franko, (2007) *The puzzle of Latin American economic development*, Rowman & Littlefield; J. L. Gallup, (2003) *Is geography destiny?: lessons from Latin America*, World Bank; E. Stein, et al. (2008) *Policymaking in Latin America: how politics shapes policies*, IADB; V. Bulmer-Thomas, JH Coatsworth, and R. Cortés Conde (2006) *The Cambridge Economic History of Latin America*, Cambridge University Press 2 vols; Ocampo, JA, and Ross, J (2011). *The Oxford Handbook of Latin American Economics*. Oxford: Oxford University Press; Bertola, L and Ocampo, JA (2012), *The economic development of Latin America since independence*. Oxford: Oxford University Press. Scartascini, CG., Stein E. and Tommasi, M (2010). *How democracy works: political institutions, actors, and arenas in Latin American policymaking*. [Washington, D.C.]: IADB; Blake, C.H (2007) *Politics in Latin America 2nd edition* Boston, Houghton Mifflin Company. Edwards, S, Esquivel, G & Márquez, G. (2007) *The decline of Latin American economies growth, institutions, and crises*. Chicago: University of Chicago Press; Bethell, L. (1984/2008) *The Cambridge History of Latin America*, Cambridge University Press, vols IV and VI

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

EH237

Theories and Evidence in Economic History

This information is for the 2019/20 session.

Teacher responsible: Prof Patrick Wallis and Dr Eric Schneider SAR.5.18

Availability: This course is compulsory on the BSc in Economic History, BSc in Economic History and Geography, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.

Course content: This course teaches students how to conduct, evaluate and interpret research in economic history. Taking a practical, applied approach, students will design and conduct three research projects drawing heavily upon the archival material available in the LSE Archives and Library. The course also introduces students to critical interpretation and analysis of primary sources and research methodologies, and the nature of historical knowledge. By the end of the course, students will have a good understanding of research design, historical sources and methods, which will leave them well-prepared for their dissertation in their final year. In addition, they will have a non-technical understanding of more complex quantitative methods such as regression so that they can engage critically with current scholarship in economic history.

Teaching: 10 hours of lectures, 10 hours of classes and 10 hours of workshops in the MT. 10 hours of lectures, 10 hours of classes and 10 hours of workshops in the LT.

There is reading week in Week 6 of MT and LT.

Formative coursework: Students are expected to write two formative essays and complete other shorter formative coursework for the course.

Indicative reading: J Tosh, *The Pursuit of History* (2002), L Jordanovea, *History in Practice* (2000), CH Feinstein and M Thomas, *Making History Count* (2002), and P Hudson, *History by Numbers* (2000)

Assessment: Project (20%, 4000 words) in the MT.

Project (50%, 3000 words) in the ST.
 Research proposal (10%) and in class assessment (10%) in the LT.
 Class participation (10%) in the MT and LT.
 Assessment comprises a group project (20%, 4000 words) in the MT; a research proposal (10%) in the LT; an individual project (50%, 3000 words) due in ST; a summative in-class exercise (10%) in the LT; and 10% for participation and submission of formative work.

EH238

The Origins of Growth

This information is for the 2019/20 session.

Teacher responsible: Dr Neil Cummins SAR.5.13

Availability: This course is available on the BA in History, BSc in Economic History, BSc in Economic History and Geography, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course explores the origins of modern economic growth through major themes such as life, love, death, place and inheritance. The focus is on the world's first breakthrough in Britain during the Industrial Revolution. Students will be exposed to frontier debates in economic history. Widespread use is made of intuitive econometrics, interdisciplinary insights and historical context.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: During the course students are expected to write four essays or equivalent pieces of written work.

Indicative reading: Mokyr, *The British Industrial Revolution*; Floud and Johnson, *Cambridge Economic History of Modern Britain*, vol I; Berg, *Age of Manufactures*; Allen, *The British Industrial Revolution in Global Perspective*; Crafts, *British Economic Growth*.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

EH240

Business and Economic Performance since 1945: Britain in International Context

This information is for the 2019/20 session.

Teacher responsible: Dr Peter Cirenza

Availability: This course is available on the BSc in Accounting and Finance, BSc in Economic History, BSc in Economic History and Geography, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History, BSc in Economics with Economic History, BSc in Management and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course examines the successes and failures of British business and industry, with an emphasis on the post-World War II period. It examines many of the hypotheses on why the UK economy grew more slowly than other OECD nations during this period. Explanations of relative economic decline are examined in the context of comparisons with other European nations and with the US and Japan. The course is organised to combine economy-wide factors, such as education, management organisation, labour relations, and membership in the EU, with case studies of industries as diverse as cotton, cars, banking and steel. By interacting themes and case studies, students get a sense of how national policies interact with business opportunities, and how governments can both aid and harm business. They also get a sense of why much – but not all – of British business history in the

post-war period has been characterised as one of relative decline. The main attention is on the post-war period, including current changes in performance, but the historical roots of Britain's recent performance are also considered.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: During the course students are expected to write three essays or equivalent pieces of written work.

Indicative reading: The main work used in the course is G. Owen, *From Empire to Europe: The Decline and Revival of British Industry since the Second World War* (2000). The following are also useful: S. Broadberry, *The productivity race: British manufacturing in international perspective 1850-1990* (1997), R Floud & P Johnson (Eds), *The Cambridge economic history of modern Britain: structural change and growth, 1939-2000* (2004), B Elbaum & W Lazonick (Eds), *The Decline of the British Economy* (1986), M. Blackford, *The rise of modern business: Great Britain, the United States, Germany, Japan, and China* (2008).

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Research project (30%) in the LT.

EH304

The Economic History of North America: from Colonial Times to the Cold War

This information is for the 2019/20 session.

Teacher responsible: Prof Christopher Minns SAR 5.12

Availability: This course is available on the BSc in Economic History, BSc in Economic History with Economics, BSc in Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students taking the course as an outside option must have completed at least one other economic history course.

Course content: The course surveys major developments in the economic history of North America between 1600 and 2000. Colonial development; the American Revolution; Early North American Industry; Slavery; Westward expansion; the American Civil War; Regional Economic Development; Railroads and growth; International and internal trade; Finance and banking in the 19th century; Migration and labour markets in the 19th Century' World wars and North American Economies; the Great Depression; Post-war economic development and policy.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of lectures and 1 hour of seminars in the ST.

A weekly one-hour student led lecture and one-hour student led seminar.

Formative coursework: A minimum of two essays and a mock examination.

Indicative reading: Atack and Passell, *A New Economic View of American History* (1994); Engerman and Gallman, *The Cambridge Economic History of the United States*, vols 1,2,3 (2000); Hughes, *American Economic History* (1990); Haines and Steckel (eds.), *A Population History of North America*. (2000).

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Essay (30%, 3000 words) in the MT.

EH306**Monetary and Financial History since 1750**

This information is for the 2019/20 session.

Teacher responsible: Dr Olivier Accominotti SAR 5.14

Availability: This course is available on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is not available as an outside option nor to General Course students.

Course content: This course covers international Monetary and Financial History since the mid-18th century. The course is designed to introduce students to the key issues around globalised finance and money. It will look into the rise and eventual demise of the Gold Standard, the emergence and occurrence of financial crises, the globalisation and geography of financial markets, and changes in policy responses and regulation over time.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

The two-hour seminar in ST will be a revision seminar.

There will be a Reading Week in Week 6 of MT and LT.

Formative coursework: During the course students are expected to write three essays or equivalent pieces of written work

Indicative reading: Kindleberger, Manias, Panics, and Crashes, Ferguson, Ascent of Money, Foreman-Peck, History of the World Economy, Eichengreen, Golden Fetters, Eichengreen, Globalising Capital.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

EH307**The Economic History of South Asia, 1600-2000**

This information is for the 2019/20 session.

Teacher responsible: Prof Tirthankar Roy SAR 6.16

Availability: This course is available on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is not available as an outside option nor to General Course students.

Course content: South Asia is one of the fastest growing economies of the world. The region is also home to nearly one-third of the world's poorest people. How did this paradoxical mix between the creation of wealth and persistence of poverty come into being? Does economic history suggest an answer? The course introduces the stylized facts and major debates in the economic history of modern South Asia. It considers the legacies of empires and developmental states, globalizations of the past and the present times, and the role of indigenous institutions and resource endowments. The course begins with a discussion of empires and markets before European colonial rule began, with special reference to maritime trade and craft production, in which the European East India companies were interested in. For the colonial period, the major theme is the transformation engendered by colonialism and international economic integration. In the sixty years since the end of colonial rule, developmental states tried to overcome the obstacles to growth as the economists interpreted them. The course considers how successful they were in meeting the aim, and why they were limitedly successful.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: Students are expected to write three essays or equivalent pieces of written work.

Indicative reading:

1. Dietmar Rothermund, *An Economic History of India* (1993)
2. B.R. Tomlinson, *The Economy of Modern India* (2013)
3. Tirthankar Roy, *The Economic History of India 1757-2010* (2011)
4. G. Balachandran, ed., *India and the World Economy 1850-1950* (2003)

5. Latika Chaudhary and others, eds., *A New Economic History of Colonial India* (2016)

6. P.J. Marshall, ed., *The Eighteenth Century in Indian History* (2004)

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

EH308**Historical Economic Geography: Cities, Markets and Regions in the 19th and 20th Centuries**

This information is for the 2019/20 session.

Teacher responsible: Prof Juan Roses Vendoiro SAR 5.15

Availability: This course is compulsory on the BSc in Economic History and Geography. This course is available on the BSc in Economic History, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.

Course content: The course explores how and why the location of economic activities changes across time and space from industrialization up to the present. One goal for this course is to demonstrate the importance of history in the formation of the present-day economic landscape. An equally important goal is to demonstrate the applicability of the study of economic geography to the understanding of historical patterns of development and underdevelopment. The course is not organized chronologically but thematically. Particular attention focuses on four major issues: the development of cities, the creation of national markets, the historical basis for manufacturing agglomeration, and the historical evolution and sources of regional inequality.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: All students are expected to write one formative essay, or similar piece of work, and make one formative presentation that will not be used in the final assessment.

Indicative reading: Combes, Pierre-Philippe, Thierry Mayer and Jacques-François Thisse, *Economic Geography: The Integration of Regions and Nations*. Princeton University Press, 2008. Davis, David R. and Donald E. Weinstein, 2002. "Bones, Bombs, and Break Points: The Geography of Economic Activity," *American Economic Review*, vol. 92 (5), pp. 1269-1289. Garretsen, Harry and Martin, Ron (2010), *Rethinking (New) Economic Geography Models: Taking Geography and History More Seriously*, *Spatial Economic Analysis*, 5, 2, pp. 127-160. Kim, Sukkoo and Margo, Robert A., 2004. "Historical perspectives on U.S. economic geography," *Handbook of Regional and Urban Economics*, in: J. V. Henderson & J. F. Thisse (ed.), *Handbook of Regional and Urban Economics*, edition 1, volume 4, chapter 66, pages 2981-3019 Elsevier. Joan Ramón Rosés and Nikolaus Wolf (eds), *The Economic Development of Europe's Regions: A Quantitative History since 1900*, Routledge, 2018. Schulze, M-S., and N. Wolf, 2012. "Economic Nationalism and Economic Integration: the Austro-Hungarian Empire in the late 19th Century", *Economic History Review*, vol. 62 (2), pp. 652-673.

Assessment: Essay (40%, 3000 words) in the LT.

Essay (40%, 3000 words) in the ST.

Presentation (20%) in the MT and LT.

EH312**Knowledge, Technology and Economy from the Middle Ages to Modernity**

This information is for the 2019/20 session.

Teacher responsible: Dr Jordan Claridge SAR 5.05 and Prof Max-Stephan Schulze SAR 6.14

Availability: This course is available on the BSc in Economic History, BSc in Economic History with Economics and BSc in

Economics and Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: How has technology changed the way we live? How have humans managed to raise levels of productivity under a range of different circumstances and in an array of environmental conditions? This course addresses these questions through an exploration of the production and diffusion of knowledge and how this has affected technical change and economic growth in the very long run, from the Middle Ages to modernity.

The course will explore, both theoretically and empirically, how economists and historians have accounted for technical change. Social scientists have for decades tried to parse the respective contributions of capital, technology and labour to economic development. To what extent do the differing roles ascribed to technical change account for divergent interpretations of the key factors in long-run economic development and productivity growth? How can we explain shifts in the locus of technological leadership and dynamism over time?

These themes will be expanded upon throughout the course with case studies drawn from across place and time. We will look closely at paradigm-changing innovations and their economic effects from, for example, the introduction of the heavy plough, the clock and the printing press in the Middle Ages to more recent technologies like steam, railways, telegraphs, electricity and shifts in production technology towards automation.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Indicative reading: Edgerton, David. *The Shock of the Old: Technology and Global History since 1900* (London: Profile, 2008). Landes, David S. *The Unbound Prometheus: Technical Change and Industrial Development in Western Europe from 1750 to Present* (New York: Cambridge University Press, 2003). MacKenzie, Donald A. *Knowing Machines: Essays on Technical Change*. (Cambridge: MIT Press, 1998). Moky, Joel. *The Gifts of Athena*. (Princeton: Princeton University Press, 2002). Rosenberg, Nathan. *Inside the Black Box: Technology and Economics* (Cambridge: Cambridge University Press, 1983). White, Lynn, *Medieval Technology and Social Change*. (Oxford: Oxford University Press, 1962).

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Essay (30%, 3000 words) in the LT.

The two-hour unseen exam will cover all topics of the course and take place during the main examination period.

The 3,000-word summative essay is an opportunity for students to explore some of the themes of the course in greater depth.

More detailed guidance on the essay will be disseminated early in Michaelmas Term.

EH316

Atlantic World Slavery

This information is for the 2019/20 session.

Teacher responsible: Dr Anne Ruderman

Availability: This course is available on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: This course will explore the way the transatlantic slave trade and subsequent systems of slavery in the Americas have shaped our modern world. In doing so, it will offer a broad look at questions of slavery, resistance and abolition from the late seventeenth through the nineteenth century. Lasting over 300 years, the transatlantic slave trade resulted in the forced migration

of 12.5 million people out of Africa, 10.6 million of whom survived the Middle Passage to become slaves in the Americas. That demographic movement and the disparities that grew out of it, has had deep consequences for development in Africa, Europe, the United States and Latin America. Thoroughly international in focus, this course will look at slavery in Africa, Europe and the Americas, considering the formation of transatlantic slavery, similarities and differences in Caribbean and North American slaveries and potential explanations for slavery's demise. We will consider the workings of the slave trade, the plantation complex, crops such as sugar, slavery outside of plantation economies, the intersection of slavery and science, gender, rebellion, revolt, abolition and war. The subject of Atlantic world slavery has also prompted a wide range of creative approaches from historians, and we will examine the different types of sources that historians of slavery have used to try to understand the past. In doing so we will juxtapose economic history with other historical methods, and consider some of the economic, social, cultural and legal aspects of slavery, from the commercial organization of the transatlantic slave trade to the multiple forms of slave resistance. Additionally, this course will introduce students to the rapidly expanding world of digital history, by incorporating digital projects related to slavery into weekly readings.

Teaching: 10 hours of lectures and 10 hours of seminars in the MT. 10 hours of lectures and 10 hours of seminars in the LT.

This course will be taught over 20 one-hour lectures with a weekly discussion section.

Formative coursework: The podcast project will include several formative assessments, due throughout the Lent term. These formative assessments are: A review and outline of an existing historical podcast, a topic and outline for the students' podcast and audio reading responses for discussion section.

Indicative reading:

- Behrendt, Stephen D. (2001). "Markets, Transaction Cycles, and Profits: Merchant Decision Making in the British Slave Trade." *The William and Mary Quarterly* 58, no. 1: 171-204.
- Berry, Daina Ramey. (2017). *The Price for their Pound of Flesh: The Value of the Enslaved, from Womb to Grave, in the Building of a Nation*, Boston: Beacon Press.
- Galenson, David W. (1984). "The Rise and Fall of Indentured Servitude in the Americas: An Economic Analysis." *The Journal of Economic History* 44, no. 1: 1-26
- Hunter, Tera. (2017). *Bound in Wedlock: Slave and Free Black Marriage in the Nineteenth Century*. Cambridge, Mass.: Harvard University Press.
- Richardson David. (2001). "Shipboard Revolts, African Authority and the Atlantic Slave trade," *William and Mary Quarterly*, 58: 69-92
- Rosenthal Caitlin. (2018) *Accounting for Slavery: Masters and Management*. Cambridge, Mass.: Harvard University Press
- Schmidt-Nowara, Christopher. (2011). *Slavery, Freedom, and Abolition in Latin America and the Atlantic World*. 160 Albuquerque: University of New Mexico Press.
- Wright Gavin. (2003) "Slavery and American Agricultural History." *Agricultural History* 77, no. 4: 527-52.

Assessment: Essay (50%, 4000 words) and podcast (50%) in the LT.

EH326

Innovation and its Finance in the 19th and 20th Centuries

This information is for the 2019/20 session.

Teacher responsible: Dr Gerben Bakker SAR 5.09

Availability: This course is available on the BSc in Economic History, BSc in Economic History with Economics, BSc in Economics and Economic History and BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students taking the course as an outside option

must have completed at least one other economic history course.

Course content: The course explores the relationship between innovation and the financing of it in the nineteenth and twentieth centuries, the impact on economic growth and how policy makers managed (or failed) to encourage innovation investment and technology adoption.

Technological change and organizational innovation are critical determinants of the pace of economic growth. This course looks at the specific ways in which innovation transformed industries around the world in the modern era. The course has a global reach though it will concentrate on countries in Northern Europe and the United States. Particular attention focuses on links between innovation and finance: finance is a fundamental input for almost every type of productive activity. The course will explore issues such as; the relationship between market size and structure and technological progress; how firms developed the capabilities to profit from new technologies; and how policy makers attempted to nurture institutions to stimulate investment and technology adoption. The course will therefore cover themes such as the process of invention, innovation typologies, the history of R&D management, anti-trust policy, corporate governance, organisational change, incentives, intellectual property rights and the regulation of technology and its finance more broadly.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in Week 6 of MT and LT.

Formative coursework: All students are expected to write three essays or equivalent pieces of written work

Indicative reading: Naomi Lamoreaux and Kenneth Sokoloff eds., *Financing Innovation in the United States, 1870 to the Present* (MIT Press, 2007); Joel Mokyr, *The Gifts of Athena: Historical Origins of the Knowledge Economy*, (Princeton University Press, 2002); Raghuram Rajan and Luigi Zingales, "Financial Dependence and Growth," *American Economic Review* 88 (1998): 559-586; Nathan Rosenberg, *Inside the Black Box: Technology and Economics*, (Cambridge University Press, 1982); Joseph A. Schumpeter, "Can Capitalism Survive?" in his *Capitalism, Socialism and Democracy* (Routledge reprint, 1942, 2000); Benn Steil, David G. Victor and Richard R. Nelson eds., *Technological Innovation and Economic Performance* (Princeton University Press, 2002); John Sutton, *Technology and Market Structure: Theory and History* (MIT Press, 1998); James M. Utterback, *Mastering the Dynamics of Innovation* (Harvard Business School Press, 1996).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

EH390

Dissertation in Economic or Social History

This information is for the 2019/20 session.

Teacher responsible: Dr Peter Sims SAR 6.15

Availability: This course is compulsory on the BSc in Economic History, BSc in Economic History with Economics and BSc in Economics and Economic History. This course is available on the BSc in Economics with Economic History. This course is not available as an outside option nor to General Course students.

Course content: The subject of the dissertation should relate broadly to one of the economic history courses that have been chosen. This course consists of two intensive workshops where students present their research questions and preliminary findings. The first workshop will be in the 9th week of Michaelmas term and the second in the 7th week of Lent term. These workshops serve to recap the dissertation related materials covered in EH237 and to provide feedback on dissertation research. Both of these workshops are compulsory.

Assessment: Dissertation (90%, 10000 words) and dissertation draft (5%) in the LT.

Proposal (5%) in the MT.

The dissertation must not exceed 10,000 words in length. After being marked, the dissertation will not be returned to the candidate.

FM100 Half Unit

Introduction to Finance

This information is for the 2019/20 session.

Teacher responsible: Dr Martin Oehmke

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Course content: This course will provide a non-technical introduction to Finance and an overview of the Finance discipline. The aim of the course is to explain the importance of finance to individuals, firms, and society in general. Topics will include discounting and present value, risk and return, financial markets and trading, mutual and hedge funds, banks and other financial intermediaries, financial securities, capital structure, venture capital and private equity, initial public offerings, and valuation of firms and projects.

Teaching: 30 hours of seminars in the LT.

Additional workshops may be scheduled as needed.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

Formative coursework: Weekly homework assignments.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course.

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Coursework (40%) in the LT.

FM101 Half Unit

Finance

This information is for the 2019/20 session.

Teacher responsible: Dr Elisabetta Bertero OLD.M.2.13

Availability: This course is available on the BSc in Management.

This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with AC100 Elements of Accounting and Finance.

Pre-requisites: None

Course content: This course includes an introduction to the financial decisions of firms, in particular capital budgeting; the financial decisions of households; the role of the financial system in the economy and the flow of funds; causes and consequences of the recent financial crises.

Teaching: 10 hours of lectures and 9 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Classwork exercises will be set each week. Two classworks will be marked by class teachers.

Indicative reading: The main readings for this course are selected chapters from two textbooks combined in a customized textbook, *Finance* (2012), prepared specifically for this course by Dr E. Bertero. The book is available from the Economist's Bookshop on campus. The textbooks it draws from are:

Hillier et al (2011) *Fundamentals of Corporate Finance*, European Edition, McGraw-Hill. Cecchetti et al (2011) *Money, banking and financial markets*, McGraw-Hill. A few additional readings will be discussed during the lectures and posted on Moodle for downloading.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

FM200 Half Unit**Financial Systems and Crises**

This information is for the 2019/20 session.

Teacher responsible: Prof Dimitrios Vayanos

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Course content: This course will cover financial markets and institutions both in their current form and through history, and the economic theories to understand them. On the institutional side, the topics covered include the historical evolution of banks, central banks, and bank regulation, the evolution of financial exchanges and their regulation, financial crises, and the role of finance in long-run economic development. On the theoretical side, the topics covered include theories and mathematical models of debt, banks, and macro-financial linkages. The mix between institutional and theoretical material will roughly be 50-50.

Teaching: 33 hours of seminars in the MT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

Formative coursework: Students will be expected to produce a number of problem sets in the MT.

Indicative reading:

1. Kindleberger, Charles, 2015, *Manias, Panics and Crashes: A History of Financial Crises*, 7th edition, Palgrave Macmillan.
2. Gorton, Gary, 2012, *Misunderstanding Financial Crises: Why We Don't See Them Coming*, Oxford University Press.
3. Tirole, Jean, 2006, *The Theory of Corporate Finance*, Princeton University Press.

Assessment: In class assessment (30%) and in class assessment (70%) in the MT.

The first ICA will be held in in Week 6 and the other at the end of MT.

FM201 Half Unit**Macro-Finance**

This information is for the 2019/20 session.

Teacher responsible: Dr Paula Lopes

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed Economics A (EC100) or Economics B (EC102).

Course content: This course will study the relationship between financial markets and the macro-economy. Topics include the behaviour of returns of different asset classes over the business cycle, the relationship between returns and inflation, and the implications for expected returns and portfolio choice.

Teaching: 33 hours of seminars in the LT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

Formative coursework: Weekly problem sets

Indicative reading: Detailed course programme and reading lists are distributed at the start of the course.

Illustrative texts include: Blanchard, *Macroeconomics*, 7th ed. and Mankiw, *Macroeconomics*, 9th ed.

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Coursework (40%) in the LT.

The coursework will consist of homework and in class assignments throughout the LT.

FM212**Principles of Finance**

This information is for the 2019/20 session.

Teacher responsible: Dr James Clark

Dr Jojo Paul

Availability: This course is available on the BSc in Accounting and Finance, BSc in International Social and Public Policy and Economics, BSc in Management, BSc in Social Policy and Economics and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course cannot be combined with FM213.

Permission forms from General Course admin office should be submitted to the Department of Finance Student Information Centre OLD.2.05 with a copy of the transcript attached.

Pre-requisites: Students must have completed: one level 1 Economics course (either EC100 Economics A or EC102 Economics B), one level 1 Mathematics course and one level 1 Statistics course

Course content: The course examines the theory of financial decision-making by firms and examines the behaviour of the capital markets in which these decisions are taken. The topics covered are the theory of capital budgeting under certainty in perfect and imperfect capital markets, portfolio theory, equity and bond markets, the capital asset pricing model, efficient markets, derivative pricing, sources of funds, basic theory of capital structure and the cost of capital, company dividend decisions and financial markets and institutions.

This course covers the same topics as FM213. Thus, both FM213 and FM212 are equivalent content-wise. However, compared to FM213, this course puts less emphasis on the underlying statistical theory and relies less on the use of mathematical methods. Nonetheless, the course is quantitative in nature, and familiarity with mathematical and statistical methods taught in first-year courses will be assumed.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will also be workshops in both MT and LT.

Formative coursework: Students are expected to produce written work for classes and to make positive contributions to class discussion.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include:

- *Principles of Corporate Finance* by Richard Brealey, Stewart Myers, and Franklin Allen, McGraw-Hill Inc.
- *Corporate Finance* by Jonathan Berk and Peter Demarzo, Pearson Global Edition.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

FM213**Principles of Finance**

This information is for the 2019/20 session.

Teacher responsible: Prof Richard Payne and Dr Hongda Zhong

Availability: This course is compulsory on the BSc in Finance, BSc in Financial Mathematics and Statistics and BSc in Statistics with Finance. This course is available on the BSc in Accounting and Finance, BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics and Economics and BSc in Mathematics, Statistics, and Business. This course is not available as an outside option nor to General Course students.

Students on the BSc in Management can only take this course if they have met the following programme-specific prerequisites: a 1st in MA107 and/or ST107 and email permission from their

Senior Undergraduate Tutor.

This course cannot be combined with FM212. Students on the BSc in Accounting and Finance can only take this course if they have met the general course prerequisites as below.

Pre-requisites: Students must have completed: one level 1 Economics course (either EC100 Economics A or EC102 Economics B), MA100 and ST102.

Course content: The course examines the theory of financial decision-making by firms and examines the behaviour of the capital markets in which these decisions are taken. The topics covered are the theory of capital budgeting under certainty in perfect and imperfect capital markets, portfolio theory, equity and bond markets, the capital asset pricing model, efficient markets, derivative pricing, sources of funds, basic theory of capital structure and the cost of capital, company dividend decisions and financial markets and institutions.

This course covers the same topics as FM212. Thus, both FM213 and FM212 are equivalent content-wise. However, compared to FM212, this course puts more emphasis on the underlying statistical theory and relies more on the use of mathematical methods.

Teaching: 20 hours of lectures and 15 hours of classes in the MT. 20 hours of lectures and 15 hours of classes in the LT. 2 hours of lectures and 1 hour and 30 minutes of classes in the ST.

Formative coursework: Students are expected to produce written work for classes and to make positive contributions to class discussion.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: Principles of Corporate Finance by Richard Brealey, Stewart Myers, and Franklin Allen, McGraw-Hill Inc.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

FM300

Corporate Finance, Investments and Financial Markets

This information is for the 2019/20 session.

Teacher responsible: Dr Georgy Chabakauri CON.2.08 and Dr Pedro Chauffaille Saffi

Availability: This course is compulsory on the BSc in Accounting and Finance. This course is available on the BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics, Statistics, and Business, BSc in Statistics with Finance and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Principles of Finance (FM212) or Principles of Finance (FM213)

Course content: This course is intended for third-year undergraduates and will be a broad-based follow-up to FM212/FM213 Principles of Finance/FM213. The goal is to broaden, and selectively deepen, students' understanding of finance, building on their existing knowledge of financial economics. The course will cover a broad range of topics, with both a theoretical and an empirical emphasis. These include topics in corporate finance, investments and performance evaluation and international finance. The course consists of two interchangeable ten-week components, one on investments and international finance, and the other on corporate finance.

The first component provides students with a way of thinking about investment decisions by examining the empirical behaviour of security prices. We first study the empirical evidence of the CAPM and other asset pricing models, and then analyse different tests of market efficiency focusing on event studies and investment anomalies. We also study the main empirical findings in behavioural finance. We then learn how to measure the performance of a portfolio manager and to attribute it to different types of skill. Finally, this section of the course introduces the

foundations of international finance and explores issues related to international portfolio management.

The second component of the course examines theory and evidence concerning major corporate financial policy decisions. It builds on FM212 /FM213(Principles of Finance) and emphasis practical implementation, with some of the same topics covered in more depth, and some additional topics not covered before. This is achieved with a combination of lectures, problem sets, and case studies such that students can apply the concepts using real-life situations.

The goal of corporations is to take on the best possible projects (e.g. a plant expansion) and finance them in the best way possible (e.g. through profits, debt, or equity). The time and uncertainty of investment payoffs make these problems nontrivial and essential for long-term success. The course will focus on answering the following questions:

(a) Valuation: How can we value and choose projects? What is the value of a company? What should be the expected return for a project, division, and the whole firm?

(b) Capital Structure: How should corporations obtain financing? For what projects?

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Formative coursework: Students are expected to produce written work for classes and to make positive contributions to class discussions.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: Bodie, Kane & Marcus, Investments (Irwin) and Grinblatt & Titman, Financial Markets and Corporate Strategy (Irwin, McGraw-Hill).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

FM301 Half Unit

Market Anomalies and Asset Management

This information is for the 2019/20 session.

Teacher responsible: Dr Cameron Peng

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed FM213 Principles of Finance.

Course content: This course will examine the extent to which financial markets are informationally efficient. Topics include notions of market efficiency, return predictability in bond, stock, and derivatives markets, limits to arbitrage and other theories of return predictability.

Teaching: 33 hours of seminars in the MT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

Formative coursework: Weekly homework assignments

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: Shleifer, Inefficient Markets: An Introduction to Behavioral Finance (Oxford University Press).

Assessment: Coursework (30%) and in class assessment (70%) in the MT.

FM302 Half Unit

Theories of Corporate Finance

This information is for the 2019/20 session.

Teacher responsible: Prof Martin Oehmke

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course

students.

Pre-requisites: Students must have completed Principles of Finance (FM212 or FM213), Mathematical Methods (MA100) and Elementary Statistical Theory (ST102). Introduction to Econometrics, Principles of Econometrics or other statistics courses where at least linear regression models are covered are recommended but not required. Students who have not taken Principles of Finance, but have an excellent quantitative background, may be allowed to take this course at the discretion of the course leader.

Course content: This course introduces concepts and theories to critically assess major corporate financial policy decisions. The course focuses in particular on a firm's capital structure and the impact of taxes, bankruptcy costs, agency conflicts, and asymmetric information on a firm's financing decisions. We will also discuss other major topics in corporate finance, such as the market for corporate control. In developing tools to analyze these issues, we will introduce the key concepts of corporate finance theory, including debt overhang, risk shifting, and the free-rider problem.

Teaching: 33 hours of seminars in the LT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

Formative coursework: Students will be expected to produce 10 problem sets in the LT.

Indicative reading: Detailed course programmes and reading lists are distributed at the start of the course. Illustrative texts include: "Financial Markets and Corporate Strategy" by Hillier, Grinblatt and Titman. "Corporate Finance" by Ivo Welch, and "The Theory of Corporate Finance" by Tirole.

Assessment: Exam (50%, duration: 1 hour and 30 minutes) in the summer exam period.

Coursework (40%) and class participation (10%) in the LT.

FM304 Half Unit

Applied Corporate Finance

This information is for the 2019/20 session.

Teacher responsible: Dr Ashwini Agrawal

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed FM213 Principles of Finance

Course content: This course will focus on the applications of key concepts in corporate finance and implicitly extend the topics covered in "Principles of Corporate Finance". There will be three main topics covered in the course. The first topic is corporate investment. We will consider various methods used by firms to evaluate investment opportunities. The second topic is financing decisions. We will cover how firms finance their operations using debt and equity. The third topic is valuation. We will learn methods used to value companies and specific transactions such as mergers, acquisitions, and leveraged buyouts. Each topic will be addressed using both theoretical material provided by the professor and weekly case studies with questions and solutions.

Teaching: 33 hours of seminars in the LT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

Formative coursework: Weekly homework assignments.

Indicative reading: A course pack will be distributed that includes case studies as well as additional readings such as textbook chapters, and practitioner articles.

Assessment: Exam (80%, duration: 2 hours and 30 minutes) in the summer exam period.

Coursework (20%) in the LT.

FM305 Half Unit

Advanced Financial Economics

This information is for the 2019/20 session.

Teacher responsible: Prof Ian Martin and Prof Dimitrios Vayanos

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed FM213 Principles of Finance.

Course content: This course will present modern theories of financial markets and asset valuation. The first part of the course, taught by Ian Martin, will cover the principle of no arbitrage, state prices and the stochastic discount factor, utility functions and portfolio choice, and equilibrium pricing and risk-neutral pricing. It will also apply these tools to forecast market returns. The second part of the course, taught by Dimitrios Vayanos, will build on this material and develop additional tools to explore the effects of frictions in financial markets, such as asymmetric information, costs of search and market participation, leverage constraints and delegated portfolio management.

Teaching: 33 hours of seminars in the MT.

This course is taught in the interactive lecturing format. There is no distinction between lectures and classes/seminars; there are "sessions" only, and the pedagogical approach in each session is interactive.

Indicative reading: Teaching notes will be provided

Assessment: In class assessment (30%), in class assessment (60%) and class participation (10%) in the MT.

Midterm exam (two questions from Prof Martin) and final in-class exam (one question from Prof Martin, three questions from Prof Vayanos).

FM320

Quantitative Finance

This information is for the 2019/20 session.

Teacher responsible: Dr Domingos Romualdo and Dr Rohit Rahi

Availability: This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Mathematics and Economics, BSc in Mathematics, Statistics, and Business, BSc in Statistics with Finance and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102). Principles of Finance (FM212) or Principles of Finance (FM213)

Course content: This course is intended for third-year undergraduates and builds upon FM212/FM213 Principles of Finance. The main topics covered are financial risk analysis and financial risk management (first part of the course) and derivatives pricing (second part). As such, this course is complementary to FM300 Corporate Finance, Investments and Financial Markets, with minimal overlap.

The first part of the course provides students with a thorough understanding of market risk from both a practical and technical point of view. A representative list of topics covered includes:

- empirical properties of market prices (fat tails, volatility clusters) and forecasting of conditional volatility
- concepts of financial risk (volatility, Value-at-Risk)
- univariate and multivariate volatility models (ARCH, GARCH)
- implementation and evaluation of risk forecasts
- endogenous risk
- credit markets and liquidity

Students apply the models to real financial data using Matlab, a programming environment widely used in industry and academia.

No prior knowledge of programming is assumed: students will learn-by-doing in class. Students will at times use data and software for classwork assignments.

The second part of the course focuses on derivatives, with a particular emphasis on equity derivatives (standard call and put options, exotic options), futures and forward contracts, and interest rate derivatives (swaps, caps and floors, swaptions). We systematically address three basic questions: how do these products work, i.e. what are their payoffs? How can they be used, for hedging purposes or as part of trading strategies? And above all: how are they priced? The course emphasises a small number of powerful ideas: absence of arbitrage, replication, and risk-neutral pricing. These are typically introduced in the context of discrete-time models, but the course also covers some well-known continuous-time models, starting with a comprehensive treatment of the Black-Scholes model. The level of mathematics is appropriate for third-year students with a solid quantitative background. Continuous-time stochastic processes and stochastic calculus will be introduced as we go.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce written work for classes and to make positive contributions to class discussion.

Indicative reading: J Danielsson, *Financial Risk Forecasting: The Theory and Practice of Forecasting Market Risk* will be the required textbook for the first half of the course; additional readings may be assigned as needed.

For the second half of the course, there is no required textbook, but the following is an excellent reference: J Hull, *Options, Futures, and Other Derivatives*.

Assessment: Exam (45%, duration: 2 hours) in the summer exam period.

Coursework (50%) in the MT.

Coursework (5%) in the LT.

FM321 Half Unit

Risk Management and Modelling

This information is for the 2019/20 session.

Teacher responsible: Dr Domingos Romualdo

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed Principles of Finance (FM213), Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

Course content: This course is intended for third-year undergraduates and builds upon FM212/FM213 Principles of Finance. The main topics covered are financial risk analysis and financial risk. The course provides students with a thorough understanding of market risk from both a practical and technical point of view. A representative list of topics covered includes:

- empirical properties of market prices (fat tails, volatility clusters) and forecasting of conditional volatility
- concepts of financial risk (volatility, Value-at-Risk)

Formative coursework: Students will be expected to produce written work for classes and to make positive contributions to class discussion

Indicative reading: J Danielsson, *Financial Risk Forecasting: The Theory and Practice of Forecasting Market Risk* will be the required

textbook for the course. Additional readings may be assigned as needed.

Assessment: Coursework (100%) in the MT.

FM322 Half Unit

Derivatives

This information is for the 2019/20 session.

Teacher responsible: Dr Rohit Rahi

Availability: This course is compulsory on the BSc in Finance. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed Principles of Finance (FM213), Mathematical Methods (MA100) and Elementary Statistical Theory (ST102)

Course content: This course will build on "Principles of Finance" to study the theoretical foundations of financial derivatives on a variety of underlying assets including bonds, stocks, commodities, and currencies.

Teaching: 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce written work for classes and to make positive contributions to class discussion.

Indicative reading: J Hull, "Options, Futures, and Other Derivatives"

Assessment: Exam (90%, duration: 2 hours) in the summer exam period.

Coursework (10%) in the LT.

GV100

Introduction to Political Theory

This information is for the 2019/20 session.

Teacher responsible: Prof Katrin Flikschuh

Availability: This course is compulsory on the BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available on the BA in Social Anthropology, BSc in Environment and Development, BSc in Social Anthropology and BSc in Social Policy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: An introduction to political theory through the thought and texts of some of the most important western political theorists. A study of the ideas of some of the major political theorists from the ancient Greeks to the 20th Century. Topics will include theories of human nature, the origin of government and law, man's relation to society and the state, the basis of political obligation, the idea of social contract, the idea of social progress, the critique of capitalism, and questions about race and gender. The thinkers discussed this year will include Plato, Aristotle, Machiavelli, Nietzsche, Hobbes, Locke, Rousseau, Kant, J S Mill, Marx, Nkrumah, Arendt, Fanon.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

There will be a reading week in Week 6 of both terms.

The lecture in ST1 will be a revision lecture and the class in ST1 will be a revision class.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: D. Boucher and P. Kelly, *Political Thinkers: From Socrates to the Present* (Oxford 2009); Plato, *Republic*; Aristotle, *Politics*; Cicero, *The Republic and On Duties*; Machiavelli, *The Prince*; Hobbes, *Leviathan*; Locke, *2nd Treatise of Government*; Rousseau, *Discourse on the Origins of Inequality and The Social Contract*; J S Mill, *Utilitarianism, The Subjection of Women*, and

On Liberty; Marx, Selected Writings (Ed D McLellan); Nietzsche, Genealogy of Morals; Arendt, The Origins of Totalitarianism; Fanon, Black Skins, White Masks.

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Essay (40%, 2000 words) in the LT.

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be calculated as follows: 15% class participation, 5% attendance and 80% formative coursework (50% for the MT essay and 30% for the LT textual analysis).

GV101 Introduction to Political Science

This information is for the 2019/20 session.

Teacher responsible: Prof Simon Hix

Availability: This course is compulsory on the BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available on the BA in Geography, BA in Social Anthropology, BSc in Accounting and Finance, BSc in International Relations, BSc in International Social and Public Policy, BSc in Psychological and Behavioural Science, BSc in Social Anthropology and BSc in Social Policy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course is an introduction to politics in a globalised world, with a focus on how political science tries to understand and explain cross-country and cross-time differences. The course will begin by introducing students to some of the main empirical variations in political behaviour, political institutions, and outcomes across the world, focusing mainly on democratic and partially democratic countries (in both the developed and developing world), and introducing students to some of the basic theoretical ideas and research methods in political science. Each subsequent week will be devoted to a substantive topic, where a more detailed analysis of political behaviour, political institutions, or political outcomes will be presented and various theoretical explanations will be assessed. Most weeks will involve an interactive element. For example, students will be required to 'adopt a country', from the range of democratic or partially democratic countries across the world (which cannot be a student's home country). The aim is for a student to become an expert on the political behaviour, institutions and outcomes in his or her adopted country, particularly to provide material and knowledge for class discussions.

Teaching: 10 hours of lectures and 9 hours of classes in the MT.

10 hours of lectures and 10 hours of classes in the LT.

There will be reading week in Week 6 of both terms.

Formative coursework: Formative Assessment:

- Problem set (MT)
- Essay (MT)

Indicative reading: W Clark, M Golder and S Nadenichek Golder, Principles of Comparative Politics, 3rd edn, Sage, 2017*; or W Clark, M Golder and S Nadenichek Golder, Foundations of Comparative Politics, Sage, 2019*; A Lijphart, Patterns of Government: Government Forms and Performance in Thirty-Six Countries, 2nd edn, Yale University Press, 2012; G. Tsebelis, Veto Players: How Political Institutions Work, Princeton University Press, 2002.

*Note: the overlap between the two textbooks is very large (and almost all of the content referred to in GV101 is in both editions), therefore, either book would suffice for this course.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 2000 words) in the LT.

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be calculated as follows: 75% formative coursework, 25% class participation (including attendance and contribution).

GV225

Public Choice and Politics

This information is for the 2019/20 session.

Teacher responsible: Prof Torun Dewan

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy, BSc in Psychological and Behavioural Science and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students will normally be expected to have taken GV101 Introduction to the Study of Politics, or equivalent, in a previous year. An introductory knowledge of economics would be useful.

Course content: This course is concerned with positive political economy and public choice theory applied to the study of political conflicts, democratic institutions and public policy. The course covers the main tools for the study of public choice (rational decision-making theory, game theory, social choice theory) and a number of both theoretical and applied topics, including the empirical study of institutions. This course will cover the main topics in positive political economy and institutional public choice. These include: the aggregation of preferences; voting paradoxes and cycles; electoral competition and voting behaviour; the problems of and solutions to collective action; welfare state and redistribution; the impact of information and mass media on voting behaviour and public policy; the theory of coalitions, the behaviour of committees and legislatures including agenda-setting and veto-player power; principal-agent problems in politics; models of bureaucracy.

Teaching: 15 hours of lectures and 9 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 hour and 30 minutes of lectures and 1 hour of classes in the ST.

There will be reading week in Week 6 of both terms.

Formative coursework: Students will complete at least one formative essay and at least one timed essay in each term to allow practise on problem sets and essay writing under exam conditions.

Indicative reading: P Dunleavy, Democracy, Bureaucracy and Public Choice; D Mueller, Public Choice III; K A Shepsle & M S Bonchek, Analyzing Politics; George Tsebelis, Veto Players. Major Works; A Downs, An Economic Theory of Democracy; M Olson, The Logic of Collective Action; W Niskanen, Bureaucracy and Representative Government.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be calculated as follows: 25% formative essay (best mark), 25% timed essay (best mark), 50% class participation (including presentations and attendance).

GV245

Democracy and Democratisation

This information is for the 2019/20 session.

Teacher responsible: Dr George Ofosu

Additional teaching: Professor Sebastian Balfour, Professor Sumantra Bose, Professor John Chalcraft, Dr Vesselin Dimitrov, Professor Francisco Panizza and Professor John Sidel.

Availability: This course is available on the BSc in Government,

BSc in Government and Economics, BSc in Government and History, BSc in International Relations, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Introduction to Political Science (GV101).

Course content: The course is concerned with theories and case studies of democratic transformations. It has focused on several different parts of the world including Southern and Eastern Europe, Latin America, South East Asia, India, the Middle East and Russia. It analyses processes of transition to democracy in historical context and also analyses relations between democracy, democratisation and economic development in a global capitalist economy.

Teaching: 15 hours of lectures and 9 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 hour and 30 minutes of lectures and 1 hour of classes in the ST.

There will be a reading week in Week 6 of both terms.

Formative coursework: Students will be expected to produce 2 essays in the MT and LT.

Indicative reading: The most useful introductory readings are: J. Grugel (2002) *Democratization: A critical introduction*; L. Whitehead *Democratization* (2002) and the articles in *Journal of Democracy*, January 2015. Other useful texts are Rueschemeyer, Dietrich, Evelyn Huber Stephens, and John D. Stephens. (1991) *Capitalist Development and Democracy*. Oxford and Cambridge: Polity, pp.41-78 69-105, 1995; A Przeworski, *Democracy and the Market* (1991); D. A. Rostow (1970) *Transitions to Democracy: Towards a Dynamic Model*; T. Carothers (2002) *The End of the Transition Paradigm?*; Donatella Della Porta (2013) *Can Democracy be Saved?*

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be calculated as follows: 70% formative coursework, 20% class presentation, 10% class participation (including attendance and contribution).

GV248

Power and Politics in the Modern World: Comparative Perspectives

This information is for the 2019/20 session.

Teacher responsible: Dr David Woodruff

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Introduction to Political Science (GV101).

Other background in political science will be considered as a substitute for GV101 for students outside of Government.

Course content: This course will acquaint students with the contemporary study of comparative politics, focusing on theories susceptible to testing with narrative historical evidence. Students will learn to address the methodological challenges of developing and testing such theories. The course will treat a wide variety of themes, including ethnic and political violence, the political impact of natural resources in developing countries, social movements and revolution, the political economy of distribution, and political

ideologies. With respect to each theme, students will receive a grounding in theories of the topic and samples of application to empirical cases drawn from throughout the developed, developing, and post-Communist world.

Teaching: 15 hours of lectures and 9 hours of classes in the MT.

15 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Classes will run from Weeks 2-5 and 7-11 in MT and Weeks 1-5 and 7-11 in LT. There will be a reading week in Week 6 of both terms.

The Week 11 lecture in LT will be a revision lecture and there will be one revision class per group in Week 1 of ST.

Formative coursework: Students will be expected to produce 2 essays in the MT and 1 essay in the LT.

In addition to the three formative essays students will also produce one final exam essay plan in the LT.

Indicative reading: Skocpol, Theda. *States and Social Revolutions*.

Cambridge: Cambridge University Press, 1979. Cederman, Lars-Erik, Nils B. Weidmann, and Kristian Skrede Gleditsch. 2011.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Essay (25%, 1500 words) in the MT and LT.

Students' summative essay mark will be the highest mark of those given for the three formative essays. Students who attempt all three (3 out of 3) will receive the highest mark achieved. Students who attempt two essays (2 out of 3) will receive the highest mark out of the two essays attempted. However, students who submit fewer than two essays (1 out of 3 or 0 out of 3) will be awarded a Zero Incomplete for the whole course and cannot be awarded the degree until they submit the work at resit (either the second of two essays if only 1 out of 3 was completed, or two essays if 0 out of 3 were completed). In such circumstances the student's resit course mark will be capped at the pass rate of 40%.

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be based on the average of the three formative essays (75%) and attendance (25%).

Students' summative essay mark will be the highest mark of those given for the three formative essays. Students who attempt all three (3 out of 3) will receive the highest mark achieved. Comparative Politics, Conflict Research, Public Policy). The first term covers topics such as different types of data, the distinction between description and causal inference, the formulation of research questions, the development of theory and empirically testable hypotheses, as well as basic quantitative and qualitative data collection strategies. Moreover, we will discuss some of the major methodological challenges that we face as a discipline including p-hacking and “the garden of forking paths”, the file-drawer problem, issues of statistical power, and research ethics, as well as potential solutions such as pre-registration and results-blind review. The second term introduces students to specific methods, such as experimental and quasi-experimental designs (RCT, RDD, DiD), large and small-n comparative studies, and ethnographic research.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 hour and 30 minutes of lectures in the ST.

There will be a Week 6 reading week in the MT and in the LT.

Formative coursework: Students will complete four formative problem sets throughout the course, two in MT and two in LT, that allow them to apply material from the course to concrete political science examples (e.g., identifying design elements of a published research paper; proposing strategies for answering a given research question, etc.).

Indicative reading: Bueno de Mesquita, E. & Fowler, A. 2019. Thinking Clearly in a Data-Driven Age. Blair, G., Cooper, J., Coppock, A. and Humphreys, M., forthcoming. Declaring and Diagnosing Research Designs. *American Political Science Review*. Gerber, A. S., and D. P. Green. 2008. Reflections on ethnographic work in political science. *Annual Review of Political Science* 13: 255-272.

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Coursework (30%, 2000 words) in the LT Week 1.

Coursework (30%, 2000 words) in the ST Week 1.

The coursework in the Michaelmas Term will consist of a Problem Set, and the coursework in the Lent Term will consist of a Research Design Proposal.

GV251

Government, Politics and Public Policy in the European Union

This information is for the 2019/20 session.

Teacher responsible: Dr Eiko Thielemann

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Relations, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Introduction to Political Science (GV101).

Course content: The course is divided into two parts; (i) Government and Politics: the EU as a political system, the Council, the Commission and the European Parliament, the Court of Justice and Judicial politics, public opinion and EP elections, parties and Europe, interest representation; (ii) Public Policy. Policy sessions usually include: the policy-making process, the Single Market, budgetary policies, redistributive policies, EMU, asylum, migration and refugee policies, external relations policies, and others.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in week 6 of the MT and LT for feedback and advice sessions and assessment preparation.

Formative coursework: Two essays per term; students' preparedness for the examinations will depend on this written work and on private reading.

Indicative reading: S Hix and B Hoyland, *The Political System of the European Union*, 3rd edn; H Wallace, M Pollack & A Young (Eds), *Policy-Making in the European Union*, 6th edn; N Nugent, *Government and Politics of the European Union*, 8th edn (2017).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be calculated as follows: 15% class participation, 80% formative coursework (each formative essay counts for 20%) and 5% attendance.

GV262

Contemporary Political Theory

This information is for the 2019/20 session.

Teacher responsible: Dr Paul Apostolidis

Availability: This course is available on the BSc in Environmental Policy with Economics, BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Relations, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Introduction to Political Theory or equivalent.

Course content: This course provides an advanced introduction to contemporary political theory. Both parts of the course engage normative- and critical-theoretical texts by considering present-day political and social problems. Part One investigates political-theoretical concepts and arguments in view of increasingly precarious social and economic conditions for much of the world's population. What norms of justice, equality, and liberty might justify efforts to redistribute material resources? How have recent changes in capitalism affected human desires with regard to work, work's products, and work-based relationships, and what new forms of freedom or submission might such altered desires promote? Part Two confronts pressing questions that stem from climate change, global migration, and racial and colonial violence. What shifts in modern notions of nature-human relations might climate change spur and under what political conditions would people respond to these ethical imperatives? What obligations does a political society have to migrants and what new conceptions of political agency might migrants' work and political ventures suggest? What are the sources of colonial and racial violence, and what ethical and political commitments should anti-racist and decolonizing responses entail?

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 hour and 30 minutes of lectures in the ST.

There will be reading weeks in MT Week 6 and LT Week 6.

Formative coursework: Students are expected to submit two formative essays in MT and a mock exam paper in LT. The course requires students to organize their workloads, to complete readings in advance of lectures, and to prepare to participate actively in seminars. The course thus emphasizes the development of verbal and written communication abilities. Students also should expect to tackle basic questions about what it means to write political theory by exploring tensions and affinities between normative/ethical and critical-theoretical approaches.

Indicative reading: John Rawls, "A Theory of Justice"; Robert Nozick, "Distributive Justice"; Kathi Weeks, "The Problem with Work"; Jacques Rancière, "Disagreement"; David Schlosberg, "Environmental Justice and the New Pluralism"; Joseph Carens, "The Ethics of Immigration"; Michel Foucault, "Society Must Be Defended"; Mohandas K. Gandhi, "Hind Swaraj"; James Baldwin, "The Fire Next Time"

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Essay (40%, 2000 words) in the LT.

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be calculated as follows: 15% class participation, 50% assessed coursework, 30% formative coursework (15% per assignment), and 5% attendance.

GV263

Public Policy Analysis

This information is for the 2019/20 session.

Teacher responsible: Prof Edward Page

Availability: This course is available on the BSc in Environmental Policy with Economics, BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: GV101 Introduction to Political Science (or equivalent)

Course content: A systematic examination of the policy process in the context of developed nations. This course introduces key theories and models in the study of public policy and encourages a critical appreciation of the main trends in contemporary public policy-making. The course looks at the different stages of the 'policy cycle' (e.g. agenda-setting, implementation and evaluation), the determinants of public policy (for example, public opinion, political parties, technology) as well as central themes in the study and practice of public policy, such as corruption and policy learning.

Teaching: 15 hours of lectures and 9 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 hour and 30 minutes of lectures in the ST.

There will be reading weeks in Week 6 of MT and LT.

Indicative reading: Frank R Baumgartner and Christian Breunig (eds) *Comparative Policy Agendas*, Oxford University Press, 2019; Hal Colebatch and Robert Hoppe *Handbook on Policy, Process and Governing* Edward Elgar 2018; P Cairney, *Understanding Public Policy. Theories and Issues*, Palgrave, 2012; BW Hogwood & A L Gunn, *Policy Analysis for the Real World*, Oxford University Press, 1984; J W Kingdon, *Agendas, Alternatives and Public Policies* (2nd edn), HarperCollins, New York 1995.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Essay (25%, 2500 words).

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be

calculated as follows: 25% attendance, 37.5% formative essay (best essay), 37.5% participation

GV264

Politics and Institutions in Europe

This information is for the 2019/20 session.

Teacher responsible: Dr Vesselin Dimitrov

Prof Michael Bruter, Dr Florian Foos, Dr Eiko Thielemann

Availability: This course is available on the BSc in Environmental Policy with Economics, BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Relations, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Introduction to Political Science (GV101).

Course content: The course aims to give students an understanding of the full range of leading topics and areas of debate and research relevant to the analysis of political institutions and politics in Europe. The course focuses on both traditional fields of comparative enquiry, such as the study of party competition and voting behaviour, and emerging fields of interest, such as national and European identities, and immigration. The course places particular emphasis on the diverse experiences of liberal democracy in different parts of Europe. The course covers not only long-established democracies in Western Europe, but also the relatively new democracies in Central and Eastern Europe. In the Lent Term, the course will study in depth a number of European countries, such as Britain, France and Germany, analysing the main developments in the country concerned in the last twenty years (elections, parties, governments), and then examining issues of particular interest related to that country. Course topics include: electoral behaviour; parties and party systems; government formation and coalitions; regionalism and federalism; national and European identities; and immigration.

Teaching: 15 hours of lectures and 9 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 hour and 30 minutes of lectures in the ST.

There will be reading weeks in Week 6 of the MT and Week 6 of the LT for private study and essay and assessment preparation.

Formative coursework: Students will be expected to produce 2 essays in the MT and 2 essays in the LT.

Indicative reading: T Bale, *European Politics: A Comparative Introduction* (4th edn) (2017); M Gallagher et al, *Representative Government in Modern Europe* (5th edn) (2011); P Heywood et al (Eds), *Developments in European Politics* (2006); S Hix and B Hoyland, *The Political System of the European Union* (3rd edn) (2011); V Dimitrov, K H Goetz & H Wollmann, *Governing after Communism: Institutions and Policymaking* (2006); A Lijphart, *Patterns of Democracy* (2nd edn) (2012).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

GENERAL COURSE STUDENTS ONLY:

The Class Summary Grade for General Course students will be calculated as follows: 15% general contribution to class discussions, 15% presentation(s) and, if applicable, essay outline(s), 60% grading of formative coursework (15% for each of the 4 essays), 10% attendance.

GV302**Key Themes in the History of Political Thought**

This information is for the 2019/20 session.

Teacher responsible: Dr Signy Gutnick Allen

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at two groups. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: Students will normally be expected to have taken Introduction to Political Theory or equivalent, in a previous year.

Course content: A thematic study of political thought in Ancient, Medieval/Renaissance and Modern periods. This advanced course treats some of the major themes in the history of western European political thought as drawn from the writings of selected political philosophers of the ancient Greek, Roman, Medieval, renaissance, early modern and modern periods. The aim is to demonstrate, and explain, some of the continuities and discontinuities in ethical and political problems and their solutions over time and changing context.

Examples of such themes: different views on the nature of "man" and the consequences for political agency of different perspectives on human reason, will, desire; debates on the origins of law and the purpose of legislation; changing conceptions of justice; different views on government and the state's relation to the individual; on the sources of public authority and the nature of legitimate sovereignty; on the relation of property ownership to personal identity and to participation in collective governance; the historical and socio-political presuppositions behind the different constitutional regimes: democracy, monarchy, republic etc; on the role of religion in politics; the changing perspectives on the relationship between life in the family and a life of active citizenship; theories of natural law and natural rights; social contract theories; idealist political theory; utilitarianism; nationalism; liberal, conservative and socialist traditions of thought; anarchism and feminism.

The themes, thinkers and primary texts will be selected each year to reflect the current debates in contemporary scholarly literature on them and the research interests of the lecturer. This year, we will focus on debates over the nature and political status of 'rights' in the theories of Hobbes, Locke, Wollstonecraft and Arendt.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

There will be a reading week in week 6 of the MT and week 6 of the LT for private study and formative/summative assessment preparation.

Formative coursework: There will be 3 formative assignments over the year, with 2 essays of 1500 words each due & returned in the MT, and a final formative mock exam towards the end of the LT.

Indicative reading: Primary Sources: A selection of the following (this list should not be taken as exhaustive): Plato, *Republic*; Aristotle, *Politics*, Machiavelli, *Discourses*, Hobbes, *Leviathan*, Locke, *Second Treatise on Civil Government*, Rousseau, *On The Social Contract*, Hume, *Political Writings*, Kant, *Political Writings*, Hegel, *The Philosophy of Right*, Marx, *The German Ideology*, Sieyes, E. *Political Writings*, Carl Schmitt, *The concept of the Political*

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 2500 words) in the LT.

GV306 Half Unit**Global Public Policy**

This information is for the 2019/20 session.

Teacher responsible: Dr Mathias Koenig-Archibugi

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course is capped at 1 group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: N/A

Course content: The course examines the process and outcomes of policy-making at the global level. It considers a range of modes of policy-making, from classic intergovernmental cooperation to novel forms of governance beyond the state such as transgovernmental networks, multistakeholder initiatives, and regulation by non-state actors. The lectures provide an analytical toolbox and cover the following topics: 1. What are "global", "public" and "policy"? Does global public policy exist? 2. How to assess the performance of global public policy: output criteria. 3. How to assess the performance of global public policy: input and throughput criteria. 4. Who are the targets of global public policy and what are their interests? 5. How are global "problems" framed and interpreted, and how does this affect their solution? 6. Which types and combinations of actors develop global public policies and how does it matter? 7. Do the delegation of authority and the legalization of global public policy affect its outcomes? 8. What role does deliberation and experimentation play in global policy initiatives? 9. What are the consequences of fragmentation and competition in the overall architecture of global public policy? 10. What are the prospects for building a global polity? The seminars apply the analytical tools provided in the lectures and readings to case studies. Students can choose an area of specialization from a range of global policy issues, with a focus on those addressed by the Sustainable Development Goals set by the United Nations. Examples of policy areas covered in the course are environmental governance, with a focus on the protection of forests; global health governance, with a focus on tackling communicable diseases; the promotion of workers' rights in the global economy; the elimination of gender-based discrimination and violence; and the fight against tax avoidance and illicit financial flows.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures and 1 hour and 30 minutes of seminars in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: Koenig-Archibugi, M. (2002) 'Mapping Global Governance', in D. Held and A. McGrew (eds) *Governing Globalisation*. Cambridge: Polity Press. Koenig-Archibugi, M. (2010) *Understanding the Global Dimensions of Policy*, *Global Policy*, Vol. 1(1): 16-28. Koenig-Archibugi, M. and M. Zurn, eds (2006) *New Modes of Governance in the Global System*. Basingstoke: Palgrave Macmillan. Hale, T. and D. Held, eds (2011) *Handbook of Transnational Governance*. Cambridge: Polity. Peinhardt, C. and Sandler, T. (2015) *Transnational Cooperation: An Issue-Based Approach*. Oxford University Press. Reinicke, W. (1998) *Global Public Policy*. Washington DC: Brookings Institution. A.-M. Slaughter (2004) *A New World Order*. Princeton University Press. Braithwaite J. and P. Drahos (2000) *Global Business Regulation*. Cambridge University Press. Hale, T., D. Held and K. Young (2013) *Gridlock: Why Global Cooperation Is Failing When We Need It Most*. Cambridge: Polity.

Assessment: Essay (100%, 4000 words) in the LT.

GV308 Half Unit**Leadership in the Political World**

This information is for the 2019/20 session.

Teacher responsible: Prof Torun Dewan

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: Students must have completed Public Choice and Politics (GV225).

Course content: Good leadership is central toward having effective organisations, well functioning institutions, and attaining desirable policy outcomes. But what is good leadership? What is successful leadership? Can we distinguish outcomes as causally related to the actions taken by good and successful leaders? And how important is a leader's style? The course will look at both theoretical and empirical frameworks for analysing these questions developing in particular rational choice accounts of leadership. Different notions of leadership will be discussed including: (1) Leading by Example; (2) The Leader as a Focal Point and (3) The Leader as an information source. These will be illustrated by specific examples.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in week 6 of the LT for private study and assessment preparation.

Formative coursework: Students will be expected to produce 1 presentation in the LT.

Indicative reading: Ahlquist, J.S. and M. Levi. (2011). "Leadership: What it means, what it does, and what we want to know about it". *Annual Review of Political Science*. vol. 14. Besley, T and Marta Reynal-Querol (2009) "Do Democracies Select More Educated Leaders?", *American Political Science Review*, 105,3. Humphreys, M., Masters, W., and Sandhu, M. E. (2006). The role of leadership in democratic deliberations: Results from a field experiment in Sao Tome and Principe. *World Politics*, Jones, B and Olken, B (2005) 'Do Leaders matter? National Leadership and Growth since World War 2', *Quarterly Journal of Economics*, 120, 3, 835--864. Schelling, T (1980), *The Strategy of Conflict*, Chapter 4. Shepsle, K and M. Bonchek (1997), *Analyzing Politics*, Chapter 14

Assessment: Exam (40%, duration: 1 hour and 30 minutes) in the summer exam period.

Essay (40%, 5000 words) and in-class assessment (20%).

GV309 Half Unit**Politics of Money and Finance in Comparative Perspective**

This information is for the 2019/20 session.

Teacher responsible: Prof Cheryl Schonhardt-Bailey

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: A background in political economy would be advantageous.

Course content: The course focuses on the role of institutions, ideas and interests in the process and formulation of both (a) monetary policy, and (b) financial stability & regulation. We examine in particular the causal influences of institutions, ideas

and interests in independent central banking, financial stability and financial regulation (including times of financial crisis), and the oversight and accountability of independent financial agencies, as well as relevant aspects of Brexit. Focusing predominantly on OECD countries, we draw on theories from economics and political science to analyse both decision making and policy outcomes, using both contemporary and historical perspectives. The course adopts a comparative country perspective, rather than an international relations perspective.

Teaching: 4 hours and 30 minutes of lectures, 17 hours and 30 minutes of seminars and 3 hours of seminars in the MT.

The seminars will be a combination of 1hr and 2.5hr sessions, and there will be three lectures featuring guest speakers during the term. There will be a reading week in week 6 of the MT for private study and assessment preparation.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: The full reading list for this course is currently available on Moodle for GV309. This new course will take the readings from the introductory weeks, along with all the weeks covering issues of money and finance. Blinder, A., *The Quiet Revolution: Central Banking Goes Modern* (Yale Univ Press, 2004). M. Artis and F. Nixson, *The Economics of the European Union*, (Oxford: Oxford University Press, 2007 4rd ed). Blinder, A., *After the Music Stopped: The Financial Crisis, the Response, and the Work Ahead* (Penguin, 2013). Reinhart, Carmen & Rogoff, Kenneth, *This Time Is Different: Eight Centuries of Financial Folly* (Princeton University Press, 2009). McCarty, N., et al, *Political Bubbles: Financial Crises and the Failure of American Democracy* (Princeton, 2013). Schonhardt-Bailey, C., *Deliberating American Monetary Policy: A Textual Analysis* (MIT Press, 2013) King, M., *The End of Alchemy* (Little Brown, 2016)

Assessment: Presentation (10%) and essay (90%, 3500 words).

GV311**British Government**

This information is for the 2019/20 session.

Teacher responsible: Prof Antony Travers

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course is capped at two groups. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: Students must have completed Introduction to Political Science (GV101).

Course content: The course will provide an introduction to contemporary British government, notably the institutions involved and processes of policy-making. The first part of the course will explain the evolution of British government from the earliest times, including the philosophical ideas that have come to underpin contemporary politics. The key institutions of British government will be described and analysed, focusing on factors that explain the functioning of a complex modern State. By the end of the course, students will have a practical understanding of the entire system of British government and the influences that affect it.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 hour and 30 minutes of lectures in the ST.

There will be a reading week in Week 6 of both terms.

Formative coursework: Students will be required to submit 2 unassessed essays in both the Michaelmas and Lent Terms.

Indicative reading: R. Heffernan, P Cowley and C Hay *Developments in British Politics* 9, Palgrave Macmillan. P. Norton, *The British Polity*, 5th Edition, London, Pearson Longman, 2010. M. Garnett and P. Lynch, *Exploring British Politics*, 2nd edition, London,

Pearson Longman, 2009. R. A. W. Rhodes, *Everyday Life in British Government*, Oxford University Press, 2011. C. Hood, *The blame game: spin, bureaucracy, and self-preservation in government*, Princeton University Press, 2011

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

GV312

Advanced Topics in Government: Executive Politics

This information is for the 2019/20 session.

Teacher responsible: Prof Martin Lodge

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: GV101 or GV100 or equivalent

Course content: This course offers an advanced consideration of select key themes in the study of executive politics. It focuses on the changing conditions in which politics takes place (demographic change, sovereign debt crisis, environmental change and societal values) and considers how these changes impact on national executives.

Teaching: 15 hours of classes in the MT. 15 hours of classes in the LT.

Formative coursework: Two formative essays (2500 words) and project proposal for assessed essay component.

Indicative reading: Hood, C (2011) *The Blame Game*, Carpenter, D (2010) *Reputation and Power*, Lewis, DE (2009) *The Politics of Presidential Appointments*, Lodge, M and Wegrich, K (2012/eds) *Executive Politics in Times of Crisis*.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 2500 words).

GV313 Half Unit

Politics of Trade in Comparative Perspective

This information is for the 2019/20 session.

Teacher responsible: Prof Stephanie Rickard

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course is capped at three groups. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: A background in political economy would be advantageous.

Course content: The course focuses on the role of institutions and interests in the process and formulation of trade policy. We examine the causal influences of institutions and interests in trade, focusing predominantly on developed countries. We draw on theories from economics and political science and analyze these using both historical and contemporary examples, and do so from a comparative perspective, rather than an international relations

perspective.

The primary focus of the course is on actual policy outcomes.

Teaching: 15 hours of lectures and 10 hours of seminars in the LT. There will be a reading week in Week 6.

Formative coursework: Weekly writing assignments.

Indicative reading: Frieden, Lake and Schultz (2010) *World Politics*. 216-233. Hiscox, Michael. (2002) "Commerce, Coalitions, and Factor Mobility: Evidence from Congressional Votes on Trade Legislation." *American Political Science Review* 96(3): 593-608. Milner, Helen V. and Keiko Kubota. (2005) "Why the Move to Free Trade? Democracy and Trade Policy in the Developing Countries." *International Organization* 59 (Winter): 107-144. Rickard, Stephanie J. (2010) "Democratic Differences: Electoral Institutions and Compliance with GATT/WTO Agreements." *European Journal of International Relations* 16(4): 711-729. Nielson, Daniel L. (2003). *Supplying Trade Reform: Political Institutions and Liberalization in Middle-Income Presidential Democracies*. *American Journal of Political Science* 47:3 470-491. C. Schonhardt-Bailey, *From the Corn Laws to Free Trade: Interests, Ideas and Institutions in Historical Perspective* (MIT Press, 2006). Zahrnt, Valentin. (2008). *Domestic constituents and the formulation of WTO negotiating positions: what the delegates say*. *World Trade Review* 7 (2): 393-421. Wei and Zhang (2010) *Do external interventions work? The case of trade reform conditions in IMF supported programs* *Journal of Development Economics* Volume 92, Issue 1, May 2010, Pages 71–81. Frieden, Jeffry, Ronald Rogowski. (1996) "The Impact of the International Economy on National Policies: An Analytical Overview." In *Internationalization and Domestic Politics*. Edited by Robert Keohane and Helen Milner, p. 25-47.

Assessment: Essay (100%, 4000 words).

GV314

Empirical Research in Government

This information is for the 2019/20 session.

Teacher responsible: Prof Edward Page

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Course content: The course introduces a variety of techniques and issues in the empirical study of political science and applies them to a practical research project in which students participate throughout the year. No prior knowledge of statistics or research methods is required. The focus of the course will be the practical research project. At the theoretical level the course will cover questions relating to the utilization of policy research, forms of research design, sampling, questionnaire construction, coding and converting non-quantitative to quantitative indicators, response rates, elite interviewing and research ethics. As the practical research project progresses classes will cover the development of practical skills such as, principles of research report writing and, where appropriate for the project, use of text processing programmes, and basic routines in the widely-used Statistical Package for the Social Sciences (SPSS), such as those used for compiling crosstabulations.

Teaching: 20 hours of seminars and 2 hours of workshops in the MT. 20 hours of seminars and 2 hours of workshops in the LT. 2 hours of seminars in the ST.

The two workshops will take place in the reading weeks (week 6 of MT and LT) and will consist of additional teaching activities to extend students' familiarity with the course content at which attendance will be voluntary.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: Sandra Halperin and Oliver Heath, *Political Research. Methods and Political Skills* (2012); Floyd J. Fowler *Survey Research Methods*, 5th edn (2013); Alan Buckingham and Peter Saunders, *The Survey Methods Workbook* (2004); Tim May, *Social Research: Issues, Methods and Process*, 3rd edn, (2001); Claus Moser and Graham Kalton, *Survey Methods in Social Investigation*, 2nd edn, (1985); Melanie Mauthner et al (eds), *Ethics in Qualitative Research*, (2002).

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (25%, 2500 words) and research project (25%).

GV315 Half Unit

Voting and Elections in Developing Democracies

This information is for the 2019/20 session.

Teacher responsible: Dr Ryan Jablonski

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

The course is capped at two groups. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: Government students should have completed GV101 Introduction to Political Science or equivalent.

Course content: Most governments in the developing world have adopted electoral institutions, many in the last few decades. However, these institutions vary considerably in their ability hold politicians accountable. Emergent democracies are frequently plagued by violence, fraud, corruption, weak accountability, and clientelism. This seminar is a discussion of the nature of electoral institutions in developing democracies, with a particular focus on the causes and consequences of these ills. Among other things, we will seek answers to the following questions: Why do governments adopt electoral institutions, but then fail to permit free and fair voting? When and why do governments use fraud and violence to win elections? What has been the impact of development aid, election monitoring and democracy assistance on elections and democratization? To answer these questions we will draw on an emerging political science literature on these issues, as well as several case studies. Students are expected to be active participants in this course, and will participate in several class debates and writing exercises.

Teaching: 15 hours of lectures and 10 hours of classes in the LT. Each session will begin with a lecture, followed by a discussion and – in the latter half of the course – presentations by one or more students.

There will be a Reading Week in Week 6 of LT.

Formative coursework: Students will be expected to produce 1 essay of 1,000 words in the LT.

Indicative reading: Stokes, Susan C., et al. *Brokers, Voters, and Clientelism: the puzzle of distributive politics*. Cambridge University Press, 2013. Wantchekon, Leonard. 2003. "Clientelism and Voting Behavior: Evidence from a Field Experiment in Benin." *World Politics* 55, no. 3: 399-422. Zakaria, F. 1997. *The Rise of Illiberal Democracy*. *Foreign Affairs* 76: 22-43. Bratton, Michael, and Nicholas Van de Walle. *Democratic experiments in Africa: Regime transitions in comparative perspective*. Cambridge University Press, 1997. Hafner-Burton, Emilie M., Susan D. Hyde, and Ryan S. Jablonski. "When Do Governments Resort to Election Violence?" *British Journal of Political Science* 44.01 (2014): 149-179. Weitz-Shapiro, Rebecca. "What wins votes: Why some politicians opt out of clientelism." *American Journal of Political Science* 56.3 (2012): 568-583.

Assessment: Essay (90%, 4000 words) in the ST. Presentation (10%) in the LT.

GV316 Half Unit

Advanced Issues in Applied Political Theory

This information is for the 2019/20 session.

Teacher responsible: Dr Kai Spiekermann

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: A foundational course in contemporary political theory (such as GV262 or equivalent) is recommended.

Course content: An investigation of contemporary questions in applied political theory. Taking as a starting point a pressing social and political challenge, the course instructs students to systematically apply different political theories to approach the problem, to understand and critically discuss different normative viewpoints, and to develop and defend their own position in these debates.

Examples of such themes include environmental and climate change, free speech, multiculturalism and toleration, poverty and global justice, colonialism, or surveillance and privacy. The topics are selected each year to reflect current debates and the interests of the course convener. The course gives students the opportunity to experience research-led teaching, as the course convener will typically create a syllabus to reflect their current research projects. In 2019-20 the focus on the course will be the political philosophy of environmental change, especially climate change.

Teaching: 15 hours of lectures and 15 hours of seminars in the LT. During the reading week (week 6), all students have the opportunity for a one-on-one meeting with the convener to plan for their formative essay.

Formative coursework: Students will be expected to produce 1 essay.

Indicative reading: John Broome (2012) *Climate Matters: Ethics in a Warming World*, New York (W.W. Norton); Stephen Gardiner, Simon Caney, Dale Jamieson and Henry Shue, eds. (2010) *Climate Ethics: Essential Readings*, Oxford (Oxford University Press); Denis G. Arnold, ed. (2011) *The ethics of global climate change*, Cambridge (Cambridge University Press); Stephen M. Gardiner (2011) *A Perfect Moral Storm: The Ethical Tragedy of Climate Change*, Oxford (OUP); Stephen M. Gardiner and David A. Weisbach (2016) *Debating Climate Ethics*. Oxford (OUP).

Assessment: Essay (100%, 3000 words).

GV317 Half Unit

The Modern State - Theory and Practice

This information is for the 2019/20 session.

Teacher responsible: Professor Patrick Dunleavy

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at two groups. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: Some background in at least one of these fields will be helpful: political theory, comparative politics, political sociology, public policy/economics, or international relations.

Course content: Since the 2008 financial crisis the modern state has re-emerged as a key actor in shaping the political identities,

welfare and life-chances of its citizens; the strength and shape of a nation's economy; and much of the development of international policies. Some earlier expectations of the dwindling away of state institutions in the face of global forces or international institutions have been decisively refuted. Yet the operations of states as 'multi-systems', with many component parts, continues to generate theoretical controversy about whether and how they exist, and how their diversity can be ascribed unity of purpose or operations. The first five weeks examine the main theories of the modern, complex state and controversies about its unity and diversity. After reading week, we move on to look at the integrating roles of budget systems, constitutional provisions, bureaucratic institutions and information policies, the 'regulatory state' and 'welfare state' institutions in shaping the overall evolution of states. The approach is comparative throughout, drawing mainly on the experience of OECD countries and advanced industrial societies.

Teaching: 15 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: John Dryzek and Patrick Dunleavy, *Theories of the Democratic State* (Palgrave-Macmillan, 2009). Francis Fukuyama, *Political Order and Political Decay: From the Industrial Revolution to the Globalization of Democracy* (Farrar, Straus and Giroux, 2015). Timothy Mitchell, 'The Limits of the State: Beyond Statist Approaches and Their Critics', *American Political Science Review*, (1991) Vol. 85, No. 1, pp. 77-96. Colin Hay, 'Neither real nor fictitious but "as if real"? A political ontology of the state', *British Journal of Sociology* (2014) Volume 65 Issue 3, pp. 459-80. David Levi-Faur, 'The welfare state: a regulatory perspective', *Public Administration*, September 2014, vol 92, no.3, pp 599-614.

Assessment: Presentation (10%) in the MT Week 11. Essay (90%, 4000 words) in January.

GV318 Half Unit

Building Democracies from Conflict? Violence, Power-Sharing and Institutional Design

This information is for the 2019/20 session.

Teacher responsible: Dr Paul Mitchell

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at two groups. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: Students may find it helpful to have completed Introduction to Political Science (GV101).

Course content: How can we design, build and sustain 'democracies' in less than ideal circumstances? We will explore societies torn apart by political violence and ethnic conflict. The main purpose is to diagnose the central problems, and examine what political responses are most appropriate. The first part of the course mostly looks at the problems, in particular political violence. We consider the likely futures for Iraq, Kurdistan and Islamic State. What are the justifications for political violence? How much political violence is there and what are the main types and trends? We shall examine the strategies terrorism and suicide terrorism. Since the end of the cold war, almost all wars are 'civil wars' and we will consider what causes civil wars, what sustains them (why do some last much longer than others?), and how do they end? The second part of the course shifts the focus of attention to 'solutions' and policy responses to divided societies and failing states. Informed responses might include: intervention, mediation and peace agreements; power-sharing and constitutional design;

territorial management of conflict; transitional justice; elections, party systems and institutions for governing divided societies.

Teaching: 15 hours of lectures and 15 hours of seminars in the MT.

There will be a Reading Week in Week 6.

Formative coursework: Students will be expected to produce 1 project in the MT.

Formative - one short project proposal - which should be a research design plan for the project. Students will receive written and verbal feedback on the viability and quality of their proposal, but it will not be graded. It is feedback and advice, not part of summative assessment. The deadline will be week 7, just after reading week in week 6. Length 1000 words. Pedagogically, preparation of the research proposal combined with advice and feedback will help improve the quality of the final project.

Indicative reading: Paul Collier (2010), *Wars, Guns and Votes: Democracy in Dangerous Places*. London: Vintage.

Lars-Erik Cederman, Kristian Gleditsch and Halvard Buhaug (2013), *Inequality, Grievances and Civil War*. Cambridge University Press. Jonathan Tonge (2014), *Comparative Peace Processes*. London: Polity. Hannah Lerner (2011), *Making Constitutions in Deeply Divided Societies*. Cambridge University Press. Brendan O'Leary (2009), *How to Get Out of Iraq with Integrity*. Penn: University of Pennsylvania Press. Arend Lijphart (2008), Thinking about Democracy: Power-Sharing and Majority Rule in Theory and Practice. Routledge. Horowitz, Michael (2015), 'The Rise and Spread of Suicide Bombing', *Annual Review of Political Science* 18: 69-84. Gilligan, Michael and Ernest Sergenti (2008), 'Do UN Interventions Cause Peace? Using Matching to Improve Causal Inference', *Quarterly Journal of Political Science* 3:89-122. Vinjamuri, Leslie and Jack Snyder (2015), 'Law and Politics in Transitional Justice', *Annual Review of Political Science* 18: 303-327. Brancati, Dawn and Jack Snyder (2012), 'Time to Kill: The Impact of Election Timing on Postconflict Stability', *Journal of Conflict Resolution*. Brownlee, Jason, Tarek Masoud and Andrew Reynolds (2015), *The Arab Spring: Pathways of Repression and Reform*. Oxford University Press. A full reading list will be available on Moodle.

Assessment: Project (90%, 4000 words) in January. Presentation (10%) in the MT.

As a final year course, the aim is to have a 'research output' as the main method of assessment in the form of a mini-project. This will be similar to the shorter 'research notes' sections of many academic journals and should not exceed 4,000 words. Students will also each make one seminar presentation, on which they will receive feedback and a grade.

GV319 Half Unit

Experimental Politics

This information is for the 2019/20 session.

Teacher responsible: Dr Florian Foos

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: Familiarity with basic algebra required and comfort with basic statistics as covered by Research Design in Political Science (GV249) or an equivalent course in research design or introductory statistics (such as ST102, ST107, ST108, GY140, SA201) is recommended.

Course content: This course will introduce students to the design, conduct and analysis of randomized field experiments (RCTs) in politics to evaluate theories, programmes and policies. The course

will cover the science and methods of experimentation (weeks 1-3), debate practical challenges of field experimentation, and the ethics of field experiments (weeks 4-5), and examine the findings of experimental research in several distinct political domains (weeks 7-11). Representative topics include:

1. Voter mobilisation
2. Political persuasion
3. Social networks
4. Gender and politics
5. Conflict and international development

Teaching: 15 hours of lectures and 9 hours of classes in the LT. 1 hour of classes in the ST.

There will be a reading week in week 6 of the LT for private study and formative/summative assessment preparation. There will be no lecture during Week 6 and no class during Weeks 1 and 6.

Formative coursework: Students will be expected to solve 1 formative problem set, and prepare one 5-minute presentation in pairs, both in LT.

Indicative reading: Required textbook:

Gerber, Alan and Donald P. Green. 2012. *Field Experiments: Design, Analysis, and Interpretation*, New York: W.W. Norton, 2012.

Suggested texts:

Glennster, Rachel and Kudzai Takavarasha. 2013. *Running Randomized Evaluations: A Practical Guide*. Princeton, NJ: Princeton University Press. John, Peter. 2017. *Field Experiments in Political Science and Public Policy: Practical Lessons in Design and Delivery*, London: Routledge. Karlan, Dean and Jacob Appel. *Failing in the Field*, Princeton, NJ: Princeton University Press, 2016. Journal articles and other reading list texts, as assigned. Students will have free choice on final essay topics, so they should expect to find and read additional books and articles on the topic in consultation with the instructor and the library.

Assessment: Essay (50%, 3000 words) in the ST.

Take home exam (50%) in the LT.

The assessment for this module consists of one problem set (50%) and one research design essay (50%). The problem set combines short theoretical problems, and applied problems requiring basic data manipulation/analysis using R. In the research design essay (3000 words) you are asked to write an experimental design outlining how you would address a causal research question of your choice in Political Science using a randomized field experiment. The research design should include a short literature review, hypotheses, research design, and pre-analysis plan. There is also a practice problem set, for which cohort feedback is provided. The two problem sets (formative and summative) will ensure that students have the skills necessary to propose a credible experimental design. One-on-one meetings after Reading Week will provide a checkpoint to obtain early feedback.

GV320 Half Unit

Populism

This information is for the 2019/20 session.

Teacher responsible: Professor Francisco Panizza

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is not available to General Course students. This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Course content: The course aims at bringing together the conceptual analysis of populism with comparative case studies in different regions of the world. It studies populism from a conceptual, theoretical and comparative perspective. Given the highly contested nature of populism, the first weeks will look in

depth to different theories of populism, including institutional, ideological, discursive and socio-cultural understandings of populism. It will then move to explore the conditions of emergence of populism and the relations between populism and key political concepts, such as democracy and political participation. The second half of the course will seek to apply the conceptual tools presented in the first half of the course to regional case studies. Among the topics to be explored are: What is populism? Populism as a "thin ideology". Populism as a mode of identification. The socio-cultural dimensions of populism. The conditions of emergence of populism. Populism, democracy and political participation. Populism in Europe. Populism in the USA. Populism in Latin America.

Teaching: 15 hours of lectures and 10 hours of classes in the LT. Week 6 will be reading week.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Formative coursework:

One essay to be submitted on week 7 of the LT. The formative essay will offer an outline of the final essay- including key indicative reading. The feedback will be used in two ways: 1) to guide students' critical thinking in line with course learning outcomes; 2) to guide students on the key aspect of formatting an academic argument using literature and critical debate. Students will also be encouraged to reflect upon their learning from the presentation and use this to refine their summative essay.

Indicative reading: Essential Readings

Cristobal Rovira Kaltwasser, Paul Taggart, Pierre Ostiguy and Paulina Ochoa- Espejo (eds). *Oxford Handbook on Populism*. Oxford: Oxford University Press 2017. Benjamin Moffitt, *The Global Rise of Populism. Performance, Political Style and Representation*. Stamford Ca: Stamford University Press 2016. Francisco Panizza (Ed) *Populism and the Mirror of Democracy*. London: Verso 1995. *Additional Readings*. Carlos de la Torre and Cynthia J. Arnson (eds.) *Latin American Populism in the Twenty-First Century*. Baltimore: The John Hopkins University Press, 2013. Michael Kazin. *The Populist Persuasion. An American History*. Ithaca and London: Cornell University Press, 1998. Benjamin Moffitt. *The Global Rise of Populism. Performance, Political Style and Representation*. Stamford Ca.: Stamford University Press, 2016. Cas Mudde and Cristóbal Rovira Kaltwasser (eds.) *Populism in Europe and the Americas. Threat or Corrective to Democracy?* Cambridge: Cambridge University Press, 2012. Cass Mudde and Cristobal Rovira Kaltwasser. *Populism: A Very Short Introduction*, Oxford University Press 2017. Jan-Werner Müller. *What is Populism?* Princeton: Princeton University Press, 2016.

Assessment: Presentation (10%) in the LT.

Essay (90%, 3500 words) in the ST.

The essay will be marked in line with departmental guidance on assessed essays. This will allow for a scale of outcomes in line with different levels of academic outputs. It will be marked for command of the literature, theories and empirical findings, analytical sophistication, use of evidence, critical judgement and originality. The individual class presentations will take the form of a 15 minute presentation followed by 30 minutes of questioning from both the class and the teacher. Particular value will be placed on the ability to present contending arguments in a clear and balanced way, the use of empirical evidence to support arguments and the capacity to raise relevant questions for class discussion.

GV322 Half Unit

Knowledge Economies: Global Innovation Networks and Segregated Societies

This information is for the 2019/20 session.

Teacher responsible: David Soskice

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in

Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Course content: The course will focus on the advanced economies and seek to analyse the question, "Will the Knowledge Economy succeed in building innovative, cosmopolitan and integrated societies? Or will they succumb (i) to populism, protectionism and educational and cultural segregation; and/or (ii) to large-scale occupational elimination via AI and robotics without effective retraining and upgrading; and/or (iii) to further financial crises and secular stagnation; and/or (iv) to the 'end of innovation'? In all of the above will advanced economies evolve in different ways/varieties?"

Week 1: Advanced capitalist democracies: Big questions.

Week 2: Technological regimes, Fordism and the ICT revolution; varieties of advanced capitalism; national system of innovation.

Week 3: Changing returns to skills, organisations and locations; knowledge-based multinational networks.

Week 4: Knowledge economies; successful knowledge-intensive cities and left-behind communities; deindustrialisation; high-skilled immigration and FDI; gender revolution.

Week 5: Changing framework rules.

Interpreting liberalism, globalisation, monetary policy and mass HE.

Week 7: City regions: successful cities and left-behind communities.

Week 8: Macroeconomics I: Global imbalances; financial crisis; knock on effects of Great Recession (but no Depression).

Week 9: Macroeconomics II: Secular stagnation, fall in innovation and labor productivity growth.

Week 10: Reconfiguring politics I: decline of social dem; rise of populism, but also city electorates/ culture &/or interests.

Week 11: Reconfiguring politics II: Inequality, poverty, segregation; democratic limits on redistribution; redefined welfare state; city-regional government; problems and possibilities of AI and robotics.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hour lecture/seminar for whole class each week

3 x 1 hour tutorial-style classes each week for 5 students

Formative coursework: Students will be expected to produce 1 piece of coursework in the MT.

As formative coursework, students will be asked to submit an outline and bibliography in preparation for their summative essay.

Indicative reading:

- Florida, *The Rise of the Creative Class (Revised)*, 2014 Basic Books
- Carlin and Soskice, *Macroeconomics: Institutions, Instability and the Financial System*, 2015 OUP (pdf)
- Hall and Soskice, *Varieties of Capitalism (Introduction)*, 2001 OUP (pdf)
- Brynjolfsson and McAfee, *The Second Machine Age: Work, Progress and Prosperity in a Time of Brilliant Technologies*, 2014 Norton
- Bayoumi, *Unfinished Business*, 2017 Yale UP
- Beramendi, Hausermann, Kitschelt, Kriesi, *The Politics of Advanced Capitalism (selected chaps)*, 2016 CUP
- Streeck, *How will Capitalism End?* 2016 Verso
- Vox EU, *Secular Stagnation: Facts, Causes, Cures*, 2014 CEPR
- Iversen and Soskice, *Resilience and Reconstruction: Advanced Capitalist Democracies in a Turbulent Century*, forthcoming Princeton UP (pdf)

Assessment: Project (100%, 5000 words) in the MT.

GV323 Half Unit

Transparency and Accountability in Government

This information is for the 2019/20 session.

Teacher responsible: Dr Daniel Berliner

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Course content: Is "sunlight the best disinfectant"? Can information empower citizens to hold their government accountable? How have information technologies been used to enable civic engagement and participation? What are the relationships between transparency, secrecy, corruption, and accountability?

This course will familiarise students with the theory and practice of transparency and accountability in government, enabling them to critically address these questions and engage meaningfully in fast-moving contemporary policy debates.

The course will offer a grounding in theories of democracy, representation, and accountability, as well as debates over the merits of transparency in light of competing values like secrecy and privacy. The course will also enable students to evaluate the role played by different forms of information in political systems, as well as to critically assess the theories of change and assumptions behind information-based policy initiatives.

The course has a global scope, focusing on applications in both developed and developing countries, and on policy types including freedom of information, information-based regulation, participatory budgeting, crowdsourced policymaking, "civic tech," open data, campaign finance and asset disclosures, and applications of transparency to sectors like extractive industries, the environment, and public health.

Teaching: 15 hours of lectures and 10 hours of classes in the LT. 4 hours of workshops in the ST.

There will be a Reading Week in Week 6 of LT.

Formative coursework: Students will be expected to produce 1 essay of 1,500 words in the LT, and to meet with the instructor regarding the plan for their summative essay.

Indicative reading: Fung, Archon. 2013. "Infotopia: Unleashing the democratic power of transparency." *Politics & Society* 41(2): 183-212. Schedler, Andreas. 1999. "Conceptualizing accountability." In *The self-restraining state: Power and accountability in new democracies*, Schedler, Andreas, Larry Diamond, and Marc F. Plattner, eds. Boulder: Lynne Rienner Publishers. Fox, Jonathan A. "Social accountability: what does the evidence really say?" *World Development* 72 (2015): 346-361. Stasavage, David. 2004. "Open-door or closed-door? Transparency in domestic and international bargaining." *International Organization* 58(4): 667-703. Tan, Yeling. 2014. "Transparency without democracy: The unexpected effects of China's environmental disclosure policy." *Governance* 27(1): 37-62. Ackerman, John M., and Irma E. Sandoval-Ballesteros. "WikiLeaks: the illusion of transparency." *International Review of Administrative Sciences* 78(1): 116-133.

Assessment: Essay (90%, 2500 words) and presentation (10%) in the ST.

GV324 Half Unit**Applied Quantitative Methods for Political Science****This information is for the 2019/20 session.****Teacher responsible:** Prof Valentino Larcinese CBG.3.02**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course will be freely available to students with the required background

Pre-requisites: Students must have completed Quantitative Methods (Mathematics) (MA107) and Quantitative Methods (Statistics) (ST107).**Course content:** This course provides an introduction to the most commonly used methods for causal inference in the social sciences using observational data. It covers simple and multiple regression (particularly focussing on the conditions for a causal interpretation of the coefficients), matching, panel data, diff-in-diff, instrumental variables, regression discontinuity. The course will prioritize the practical understanding and application of the methods rather than their statistical foundations. Applications will be selected from existing research literature.**Teaching:** 20 hours of lectures and 9 hours of classes in the LT. Teaching will consist of 10 2-hour lectures during the LT and 9 1-hour classes. Classes will be conducted in a computer lab.**Formative coursework:** Students will be expected to produce 1 problem sets and 1 case study in the LT.**Indicative reading:** Stock & Watson: "Introduction to Econometrics", Pearson International (various editions, all equally valid) Dunning: "Natural experiments in the social sciences", CUP 2012. Angrist & Pischke: "Mastering metrics", Princeton University Press 2015**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.**GV325 Half Unit****Advanced Issues in Political Economy****This information is for the 2019/20 session.****Teacher responsible:** Dr Stephane Wolton**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy, BSc in Psychological and Behavioural Science and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

The course is capped at 1 group. The deadline for enrolments is 12:00 noon on Friday 4th October 2019.

Pre-requisites: Students are expected to have taken GV225 Public Choice and Politics, or equivalent, in a previous year. An introductory knowledge of economics and econometrics would be useful.**Course content:** This course is an advanced treatment of Political Economy. The course will cover some advanced concepts in game theory and their application to contemporary political issues. It will provide an overview of the empirical literature on the topics covered. The course material will expand students' capacity to think about policy relevant issues and will cover democratic and autocratic politics. Topics covered in the course include, among others, populism, media and democracy, autocratic politics,

terrorism.

Teaching: 15 hours of lectures and 13 hours and 30 minutes of classes in the MT.

There will be 9 one-hour and a half lectures in Weeks 1-5 and Weeks 7-10 in MT and a one-hour and a half revision lecture in Week 11. Classes will run in Weeks 2-5 and Weeks 7-11 in MT. Week 6 will be a Reading Week.

Formative coursework: Students will be expected to produce 1 problem sets and 1 other piece of coursework in the MT. Students will complete one problem set to further their understanding of the concepts covered in the course and prepare for the take-home exam. There will also be a timed exam in week 11 to allow practise on problem sets solving under exam conditions.**Indicative reading:** Canes-Wrone, Brandice, Michael C. Herron, and Kenneth W. Shotts. 2001. "Leadership and pandering: A theory of executive policymaking." *American Journal of Political Science* 45(3): 532-550. Gentzkow, Matthew, and Jesse M. Shapiro. 2006. "Media Bias and Reputation." *Journal of Political Economy* 114(2): 280-316. Prato, Carlo and Stephane Wolton. 2015. "The Voters' Curses: Why we need Goldilocks voters." *American Journal of Political Science*, forthcoming. Egorov, Georgy, Sergei Guriev, and Konstantin Sonin. 2009. "Why Resource-Poor Dictators Allow Freer Media: A Theory and Evidence from Panel Data." *American Political Science Review* 103(4): 645-668. Bueno de Mesquita, Ethan. 2005. "The quality of terror." *American Journal of Political Science* 49(3): 515-530. Daron Acemoglu and James Robinson. 2000. "Why Did the West Extend the Franchise?" *Quarterly Journal of Economics* 115 (4): 1167-1199. Fearon, James D. 1995. "Rationalist explanations for war." *International organization* 49(3): 379-414. Most of the reading is from journal articles; a complete list will be supplied at the start of the term. A useful overview of political economy topics in democracy is: T Besley, *Principled Agents? Selection and Incentives in Politics*, Oxford University Press, 2005
Assessment: Exam (50%, duration: 2 hours and 45 minutes, reading time: 15 minutes) in the summer exam period. Coursework (50%) in the MT Week 9.**GV328 Half Unit****Middle East Politics in Transnational Perspective****This information is for the 2019/20 session.****Teacher responsible:** Prof John Chalcraft**Availability:** This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students. This course is capped at one group. The deadline for enrolments is 12:00 noon on Friday 4 October 2019.**Pre-requisites:** No pre-requisites.**Course content:** This course offers an advanced introduction to the politics of the Middle East and North Africa in transnational perspective. It takes a critical, sociological, historically-informed, and qualitative approach. It focuses on cross-border forms of resistance and subaltern activism. We study such topics as transnational revolutionary movements, Third World national liberation, popular movements on the Arabian peninsula, feminism, Salafi-Wahhabism, human rights advocacy, and transnational Palestinian activism. Students will develop an advanced introductory understanding of the transnational politics of the region.**Teaching:** 15 hours of lectures and 11 hours of seminars in the MT.

There is no teaching scheduled in reading week, but one of the

seminars (of the total of 11) will be a (compulsory) essay writing workshop scheduled towards the end of Week 5 (most likely Thursday). In other words, there will be two seminars in Week 5.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: Abdelrahman, Maha. 2007. Assessment: Essay (100%, 3000 words) in the LT.

GV335 Half Unit

African Political Economy

This information is for the 2019/20 session.

Teacher responsible: Dr Sarah Brierley

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in International Social and Public Policy with Politics, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations, BSc in Politics and Philosophy and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped at 1 group. The deadline for enrolments is 12:00 noon, Friday 4 October 2019.

Course content: This class is an introduction to the study of contemporary African political economy. The goal is to set major questions of state and economy in historical, geographic, and international context. Course readings and lectures stress marked unevenness in national and subnational trajectories and in the political-economic character of different African countries, and introduce students to theories that aim to identify causes of similarity and difference across and within countries. Students will come away with a better understanding of the possibilities and limits of structured, focused comparisons in comparative politics, and with an introduction to political economy approaches to questions of late development. They will also develop substantive knowledge of the political economy of sub-Saharan Africa and analytic tools to describe and make sense of its diversity.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. Each session will begin with a lecture followed by a discussion. There will be a Reading Week in Week 6 of LT.

Formative coursework: There will be one 1,200 formative assignment (short essay).

Indicative reading: Texts used may include all or part of the following:

Katherine Baldwin. *The Paradox of Traditional Leaders in Democratic Africa*. Cambridge University Press. Catherine Boone, *Property and Political Order in Africa: Land Rights and the Structure*

of Politics (CUP 2014). Fred Cooper, *Africa Since 1940* (Cambridge U. Press). Jeffrey Herbst, *States and Power in Africa* (Princeton 2000). Prempeh, H. Kwasi. "Presidents untamed." *Journal of Democracy* 19.2 (2008). Mahmood Mamdani, *Citizen and Subject: Africa and the Legacy of late Colonialism* (Princeton 1996). Andrew M. Mwenda Roger Tangri, *Patronage politics, donor reforms, and regime consolidation in Uganda* *African Affairs* (2005). Nicolas van de Walle, *African Economies and the Politics of Permanent Crisis, 1979-1999* (Cambridge University Press 2001).

Assessment: Essay (75%, 3000 words) in the ST. In class assessment (25%).

For the in-class assessment: Students will be asked to serve as a seminar discussant during the term. On these weeks the discussant will write a two or three-page memo that discusses the readings in a comparative perspective. In the last class meeting, each student will give a 5-minute overview of his/her plans for the final course essay.

GV342

Philosophy, Politics and Economics: Capstone and Research Project

This information is for the 2019/20 session.

Teacher responsible: Prof Patrick Dunleavy

Availability: This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students.

This course is exclusively for fourth year BSc PPE students.

Course content: Course content, Teaching and Assessment: Michaelmas term

The course introduces students to team-based and individual research work. The MT will focus on the capstone project.

The initial weeks of the course will introduce students to the requirements of capstone projects, key research strategies and essential questions. At the same time, from Week 1 students will begin to research in small teams problems for clients in public and private sector organisations. Students are also expected to work steadily throughout the term with members of their team and with their advisors. The completed research has to be presented to the client organisation by Week 11 MT, both in the form of a team presentation and as a team research report.

Further details: There will be a two-hour seminar in week 0 of MT to introduce the projects available to the students and students will then be able to list their preferences, which will be taken into account so far as possible in deciding allocations. This session will also explain key issues and demands on the students. The seminars in weeks 1 and 2 of MT will discuss key research methods and presentation skills needed for short, sharp team research projects. The seminar in week 5 of MT will be a "course correction" session for teams to get guidance on the planned final shape of their reports. Help sessions with advisors will occur regularly through term to support student teams' research efforts. Student teams will present their Capstone research project findings to fellow students, staff and commissioning organisations in a workshop or workshops in week 11 of MT.

MT Formative Coursework: Student teams must produce 1 team presentation for the 'course correction' session in Week 5 MT. Student teams must also produce a poster or presentation output from their final (assessed) presentation for a final Showcase workshop, held in Week 1 of Summer Term.

MT Summative Assessment:

- 10% of marks for the team final presentation in Week 11 MT.
- 40% of marks for the team final Capstone project report (maximum 8,000 words) submitted by Thursday of Week 11 in MT Lent term

In the LT, the focus shifts to the production of an individual academic paper or research report. Students will be encouraged to develop an interdisciplinary research question. They must complete a presentation and a poster on their key conclusions by the end of the LT; and submit a Research Report or paper by Week

1 of ST. The initial weeks' seminars during the LT will be focused on students outlining their plans, and on key questions for research design. Individual consultation and up to five feedback sessions with advisors take place regularly throughout term. The workshop in ST week 1 will be a 'poster exhibition' that allows all students to exhibit and discuss their research projects.

LT Formative coursework: Students must prepare a draft outline synopsis for their individual project by Thursday of Week 1 Lent Term, and present on it in a workshop/seminar in Week 2. Students must then present a detailed Plan or Storyboard for their LT Report to their supervisor and get their approval by Week 6 of LT.

LT Summative Assessment:

- 10% of marks for a presentation and draft poster, submitted by Week 11 LT.

- 40% of marks for an individual Research Report (maximum 5,000 words) submitted by Tuesday of Week 1 in Summer Term.

Teaching: 8 hours of seminars, 5 hours of workshops and 5 hours of help sessions in the MT. 2 hours of workshops and 5 hours of help sessions in the LT. 2 hours of workshops in the ST.

Formative coursework: Students should refer to 'course content' above for details.

Indicative reading: Charles E. Lindblom and David K. Cohen, *Useable Knowledge: Social Science and Social Problem Solving* (New Haven: Yale University Press, 1979); Martha S. Feldman, *Order Without Design: Information Production and Policy-making* (Stanford, CA: Stanford University Press, 1989); Ray Pawson, *Evidence-based Policy: A Realist Perspective* (London: Sage, 2006); C. R. Cook, *Just Enough Project Management* (McGraw-Hill, 2004); J. E. McGrath and F. Tschan, *Dynamics in Groups and Teams: Groups as Complex Action Systems*, chapter three in M. S. Poole and A. H. Van de Ven (eds) *Handbook of Organizational Change and Innovation* (Oxford University Press, 2004).

An extensive list of readings will be made available on Moodle.

Assessment: Project (40%, 8000 words) and presentation (10%) in the MT.

Presentation (10%) in the LT.

Research project (40%) in the ST.

GV366

Political Economy of the Developing World

This information is for the 2019/20 session.

Teacher responsible: Dr Steffen Hertog

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course is capped at one group. Deadline for enrolments is 12:00 noon on Friday 4 October 2019.

Pre-requisites: Students must have completed Introduction to Political Science (GV101).

Course content: This course introduces students to the broad theoretical traditions in the study of political economies outside of the OECD world, and provides an empirical overview of a number of concrete phenomena that shape the interplay of the politics and economics in different world regions. It will address puzzles like: Why did some developing countries grow much faster than others after WWII? Are some forms of corruption more compatible with development than others? Which impact do natural resource rents have on politics and development? Under which conditions can countries with a short history of independent statehood build efficient institutions?

GV366 will engage with broad theoretical traditions like modernization theory, dependency theory, and neo-patrimonialism, and with concrete empirical topics like state-business relations, the developmental state, corruption and clientelism, the politics of public enterprise, and the political economy of resource-rich

countries.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: One essay of 3,500 words to be submitted in the LT.

Indicative reading: Bardhan, Pradeep (1997). "Corruption and Development", *Journal of Economic Literature*, Vol. 35. Evans, Peter (1995). *Embedded Autonomy: States and industrial transformation* (Princeton: Princeton University Press). Richards, Alan, and John Waterbury (2007). *A Political Economy of the Middle East* (Boulder: Westview Press). Ross, Michael (2012). *The Oil Curse: How Petroleum Wealth Shapes the Development of Nations* (Princeton: Princeton University Press). Schneider, Ben Ross, and Sylvia Maxfield (eds.) 1997. *State-Business Relations in Developing Countries* (Ithaca: Cornell University Press). Wade, Robert (2003). *Governing the Market: Economic Theory and the Role of Government in East Asian Industrialization* (Princeton: Princeton University Press). Waterbury, John (1993). *Exposed to Innumerable Delusions: Public Enterprise and State Power in Egypt, India, Mexico, and Turkey* (Cambridge: Cambridge University Press).

Assessment: Exam (35%, duration: 2 hours) in the summer exam period.

Essay (15%), essay (35%) and class participation (15%).

GV390

Government Dissertation Option

This information is for the 2019/20 session.

Teacher responsible: Prof Michael Bruter

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

This course may be taken only in the third year. A BSc Government and History student cannot choose both HY300 and GV390; a BSc Politics and Philosophy student cannot choose both GV390 and PH399; and a BSc Politics and International Relations student cannot choose both GV390 and IR398.

Course content: A dissertation of not more than 10,000 words on a topic to be approved by a proposed dissertation advisor and the Course Convenor. The topic should be chosen from any area within the field covered by the degree course and supported by a member of the academic staff from the Government Department willing to act as dissertation advisor. Following the dissertation information session organised by the Department in the second year of the students' curriculum, candidates should approach their tutor during the Lent Term or Summer Term of their second year to discuss the possibility of a proposed dissertation topic. After having received approval for a topic by a prospective advisor, students must submit a dissertation form detailing the final title and synopsis/prospectus to the Course Convenor for approval. Dissertation approval forms must be submitted no later than the deadline. Please note that any change from what was approved in the dissertation form will require the approval of the dissertation supervisor.

In 2019-20 the deadline for submitting Dissertation Approval Forms will be Wednesday 9th October 2019.

Students who fail to submit a proposal by the deadline will be unenrolled from the course.

Teaching: 4 hours and 30 minutes of seminars in the MT. 4 hours and 30 minutes of seminars in the LT.

Six seminars split between the Michaelmas Term and Lent Term as well as individual supervision. Dissertation advisors can be expected to offer advice on reading and guidance on the organisation of the dissertation; they may also read and comment on a draft outline of up to 2,000 words. Tutors or other teachers

are not permitted to read or comment on a draft of the whole dissertation. The number of individual meetings with the students will be agreed with the supervisor but should be at least once per term in the student's third year. It should be stressed that no member of staff is under an obligation to agree to supervise any proposed dissertation.

Assessment: Dissertation (100%, 10000 words).

GV3A1 Half Unit

The Politics and Policies of 'Brexit': The UK's Changing Relationship with the European Union

This information is for the 2019/20 session.

Teacher responsible: Prof Kevin Featherstone CBG.5.04 and Prof Antony Travers

Availability: This course is available on the BSc in Government, BSc in Government and Economics, BSc in Government and History, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and Economics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

Course content: 'BREXIT' represents one of the most significant challenges to the modern British political system in peacetime. This course will examine how the UK's membership of the European Union became problematic and the implications of 'BREXIT' for government and politics. It will provide students with appropriate conceptual and analytical frames by which to understand the path towards 'BREXIT' and the challenges that arise from it. In doing so, the dynamics and uncertainties of 'BREXIT' will be contextualised within a longer-term perspective and one that recognises the ongoing interests and norms involved in the relationship. Students will be introduced to the key issues for public policy and their possible impacts. Students will gain an appreciation of the contending arguments and interpretations, as well as the public policy dilemmas of dealing with uncertainty and limits to knowledge. No prior knowledge of the European Union will be assumed. The course will adopt a broad disciplinary perspective - covering the political, political sociology, political economy, constitutional, and foreign policy/external relations dimensions. Students will have the opportunity to explore the arguments, issues and interpretations in group work, presentations, and written essays.

Note: the lectures are to be shared with MSc students. The seminar questions for the UG students differ from those for MSc students, taking account of the different stages of study and the intended learning outcomes.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT.

The formative essay (1500 words), due by mid-term, will address a question relevant to the impact of BREXIT on the UK political system, drawing upon the readings and seminar discussion.

Indicative reading:

- D. Dinan et al, eds. (2017) *The European Union in Crisis*; London: Palgrave.
- A. Geddes (2013) *Britain and the European Union*; London: Palgrave.
- B. Simms (2016) *Britain's Europe: A Thousand Years of Conflict and Cooperation*. London: Allen Lane.
- S. Wall (2008) *A Stranger in Europe: Britain and the EU from Thatcher to Blair*. Oxford: OUP.
- H. Young (1998) *This Blessed Plot: Britain and Europe from Churchill to Blair*. London: Macmillan.
- K. Armstrong (2017) *BREXIT Time: Leaving the EU -why, how and when?* Cambridge: Cambridge University Press.
- H. Clarke, M. Goodwin and P. Whiteley (2017) *BREXIT: Why Britain voted to leave the European Union*. Cambridge: Cambridge University Press.

- E. O. Eriksen and J. E. Fossum (2015) *The European Union's Non-Members: independence under hegemony?* London: Routledge.
- S. Hobolt (2016) 'The BREXIT vote: a divided nation, a divided continent', *Journal of European Public Policy*, 23, 9. And 'Debate Section': 'British exit from the EU - legal and political implications', in the same issue.
- L. Halligan and G. Lyons (2017), *Clean BREXIT: Why leaving the EU still makes sense*; London: Biteback Publishing.
- The 'Generation BREXIT' website - an LSE project.

Assessment: Essay (80%, 3000 words) in the LT. Presentation (10%) and essay plan (10%) in the MT.

GY100

Introduction to Geography

This information is for the 2019/20 session.

Teacher responsible: Prof Claire Mercer STC.4.18

Availability: This course is compulsory on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development and BSc in Geography with Economics. This course is available on the BA in Social Anthropology and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides students with an introduction to Geography at LSE. In Michaelmas Term we will examine human geography's key concepts, including space, place, landscape, nature, globalization, mobility, society and city. In the Lent Term the course will move on to introductory sections on environmental geography and economic geography. The environmental section will cover topics such as the anthropocene, nature and culture, and global and local environmental problems. The economic geography section will introduce students to the changing location of economic activity, inequalities within and between countries, regions and cities, and the rationale, objectives and tools of local and regional development policies in a globalizing world.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 18 hours of lectures and 9 hours of classes in the LT. 1 hour of help sessions in the ST.

Formative coursework: Students will be expected to produce 4 essays in the MT and LT.

Indicative reading: Detailed reading-lists related to the different topics within the course will be provided at the start of the course. Clifford, N.J., S.L. Holloway, S.R. Rice and G. Valentine (eds) (2009) *Key Concepts in Geography*, 2nd Ed, Sage, London; Dicken, P. (2011) *Global Shift: Mapping the Changing Contours of the World Economy* 6th Edition Sage Publications; W.E. Murray, *Geographies of globalization*, 2006; A Pike, A Rodríguez-Pose & J Tomaney *Local and regional development*, 2006; N. Castree (2014) *Making Sense of Nature*

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

GY101

Succeeding in your Degree: Critical Skills for Geography and Environment Students

This information is for the 2019/20 session.

Teacher responsible: Dr Richard Perkins

Availability: This course is available on the BA in Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is not available as an outside option nor to General Course students. This course is very strongly recommended for all first year Geography and Environment undergraduate students.

Course content: This course seeks to provide an introduction to

key study skills that Geography and Environmental Social Science students will use throughout their three years of undergraduate study. It will teach students how to get the most out of lectures and classes and, furthermore, how to best prepare for them through effective reading strategies and skills. During the course, students also will learn what makes a good essay and presentation, and how to effectively research, write and deliver them. The course will additionally introduce students to how their work is assessed and, moreover, how to best make use of feedback to improve their grades. All first-year undergraduates are strongly encouraged to take this course which has been purposefully designed to maximise their potential.

Teaching: 7 hours and 30 minutes of lectures in the MT.

Indicative reading: Burns, T. and S. Sinfield (2016). *Essential Study Skills: The Complete Guide to Success at University*. 2nd edition. Sage. Cottrell, S. (2013). *The Study Skills Handbook*. 4th edition. Palgrave Macmillan. Greetham, B. (2018). *How to Write Better Essays*. 4th edition. Palgrave Macmillan. van Emden, J. and L. Becker (2016). *Presentation Skills for Students*. 3rd edition. Palgrave Macmillan.

GY103

Contemporary Europe

This information is for the 2019/20 session.

Teacher responsible: Prof Simona Iammarino S410 and Dr Neil Lee

Availability: This course is available on the BA in Geography, BSc in Environment and Development, BSc in Geography with Economics, BSc in Politics and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course aims at: introducing students with little prior knowledge of European issues to some of the most important economic, social, and political challenges the European Union overcame in the past and currently faces; developing an understanding of the determinants and the historical evolution of these challenges, and the related public reactions and policies at different geographical levels; learning about strengths, weaknesses and lessons to be drawn from the most striking example of integration among nation states as a result of historical forces and in the context of a globalised world. The course covers critical issues such as different degrees of economic integration in theory and practice, historical bases for integration, competitiveness, cohesion, innovation and growth, enlargements, Euro crisis, Brexit, Europe in the world, social policy, employment trends, poverty, migration, ageing, and social exclusion and inequality. Particular emphasis is laid upon the geographical foundations of these themes, at various spatial scales in Europe: supranational, national and subnational (e.g. regional, local, urban) levels. The course is traditionally based on close interactions with the lecturers and class teachers, and extra curriculum events will be also organised.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 18 hours of lectures and 9 hours of classes in the LT. 2 hours of classes in the ST.

The 2 hour-class in the ST is Revision Session for the exam.

Formative coursework: Students will be expected to produce a minimum of two class essays during the year and will also be expected to give class presentations.

Indicative reading: Given the diversity of the subject, there is no one textbook that covers all of the topics. A mix of academic articles and chapters from textbooks is used in the course. Reading lists are provided electronically, and additional web sources will also be indicated during the lectures. Indicative textbooks are the following: R Baldwin and C Wyplosz, *The Economics of the European Integration*, 4th ed. 2012; S Senior Nello, *The European Union. Economics, Policies and History*, 3rd ed. 2012; J. McCormick, *European Union Politics*, Palgrave, 2nd ed. 2015.

Assessment: Exam (75%, duration: 2 hours) in the summer exam period.

Essay (25%, 2000 words) in the LT.

GY120

Environmental Change: Past, Present and Future

This information is for the 2019/20 session.

Teacher responsible: Dr Thomas Smith S421C

Availability: This course is compulsory on the BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available on the BA in Geography. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Many consider that 'Climate Change' is the greatest challenge currently facing human society, mainly because of the 'Environmental Changes' that it will cause. But what are 'Climate Change' and 'Environmental Change'? What causes these changes? How much have they changed in the past and how do we know? How much is human activity responsible for the recent changes identified and when did this influence begin? How is the climate going to change in the next century and what are the consequences going to be for extreme weather events, sea-level rise? What can we do about it? Should we adapt, mitigate, or begin to engineer our climate?

To answer these questions requires that the course focuses on developing an appreciation of the Planet Earth as the home of human societies. Through a combination of lectures, classes, practical work, and fieldwork, the course focuses on the physical nature of the 'natural' or biophysical systems and involves consideration of how the solid earth, the gaseous atmosphere, the hydrosphere and the biosphere, were formed, have evolved, interact and have changed over time due to both external (extra-terrestrial) and internal factors, including humans. From this, an appreciation of change and evolution over differing time-scales is developed, which will serve as an essential basis for students when evaluating the contemporary two-way interaction between humans and the environment in the 'anthropocene'. The relevant science will be taught as and when required.

The course consists of the following sections:

PART A: Introduction to environmental change

- A framework for environmental geography
- The nature and causes of environmental/climate change

PART B: Key components of environmental change: The Biosphere

- Formation of the biosphere and change over time
- Contemporary ecosystem processes and change
- The biodiversity crisis: extreme change in the anthropocene

PART C: Key components of environmental change: Atmosphere & Oceans

- Solar radiation, the atmosphere, and interactions
- Global and local energy budgets
- Circulation - atmosphere, oceans, and carbon

PART D: Key components of environmental change: The Hydrosphere

- Water in the atmosphere, clouds and rainfall
- Hydrological cascade, rivers and flooding

PART E: Long-term environmental change

- Geological-scale climate change and Earth's 'greenhouse' and 'icehouse' environments.
- Orbital-scale climate change and the great ice ages
- Millennial-scale climate change and deglaciation

PART F: Contemporary climate change: The emerging human influence

- The Holocene
- Contemporary climate change associated with fossil fuel emissions
- Contemporary climate change and extreme weather

- Land-use and land-cover change (deforestation)

PART G: Future climate change

- Modelling future climate change
- Fixing the future: Adaptation, mitigation, and geoengineering

Teaching: 20 hours of lectures, 9 hours of classes and 3 hours of workshops in the MT. 20 hours of lectures, 10 hours of classes and 3 hours of workshops in the LT.

Please note there is a Reading Week taking place in Week 6 in both Michaelmas and Lent Terms.

Formative coursework: Students will be expected to produce two assignments during the year, one in each term, and give class papers.

Indicative reading:

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Essay (15%, 1500 words) and policy paper (25%) in the LT.

The policy paper will be a policy support document.

GY121

Sustainable Development

This information is for the 2019/20 session.

Teacher responsible: Dr Julia Corwin S414

Availability: This course is compulsory on the BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available on the BA in Geography, BA in Social Anthropology, BSc in Accounting and Finance, BSc in Geography with Economics and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: "Is development sustainable?" While this is undoubtedly a challenging question, the purpose of this course is to provide building blocks that will allow an answer to be formulated. In doing so, we will seek to understand better how the natural world is affected by development decisions and crucially how those decisions shape human development prospects or widen the gap between development outcomes across geographical regions and socioeconomic groups. All of this gives rise to a rich array of themes and debates, which are reflected in distinct sections of the course. We begin by introducing a number of concepts including human development,

sustainable development and natural capital. We will then explore a variety of linkages between human development and natural capital (resources and environment). In doing so, we consider the viewpoint that society is being 'guided by the wrong compass' in the way that social and economic progress conventionally is measured by e.g. "GDP". Resource scarcities are frequently relative and the uneven distribution of, or access to, resources has implications for how development outcomes and prospects are distributed globally and within countries. We will therefore investigate the way in which this affects specific human populations particularly those who are amongst the most vulnerable. This set of themes additionally will examine issues of resource security drawing on examples from debates about food, water and energy availability as well as broader debates about resource conflicts, population growth and changing technology.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce class essays during the year and to give class presentations.

Indicative reading: There are a variety of texts available for this course. A detailed reading list will be given at the beginning of each term but will include: G Atkinson, S Dietz, E Neumayer and M Agarwala (eds) *Handbook of Sustainable Development*, 2nd edition, Elgar, 2014; WM Adams (2009) *Green Development: Environment and Sustainability in the Developing World*, 3rd Edition, Routledge, JA Elliott (2012) *An Introduction to Sustainable Development*, 4th edition.

Assessment: Essay (10%, 1000 words) and take-home assessment (50%) in the LT.

Essay (40%, 3000 words) in the ST.

GY140

Introduction to Geographical Research

This information is for the 2019/20 session.

Teacher responsible: Dr Austin Zeiderman, Dr Murray Low, Prof Claire Mercer, Prof Henry Overman, Prof Gareth Jones, Prof Sylvia Chant and Dr Richard Perkins
Dr Mara Nogueira

Availability: This course is compulsory on the BA in Geography and BSc in Economic History and Geography. This course is available on the BSc in Environment and Development. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The main objective of this course is to introduce students to the production of geographical and environmental knowledge and to prepare them to become producers of such knowledge themselves. It provides students with a sound understanding of both the conceptual foundations and real-world applications of a variety of methodological approaches for conducting research. To appreciate why, how, and to what ends geographers conduct research on the social and spatial dimensions of human activity, the research process is examined from beginning to end: selecting a topic, performing a literature review, designing a project, collecting and analysing data, and communicating results. The process of producing knowledge about geography and the environment is also examined from a number of different perspectives: examining case studies of written work, engaging with internationally-renowned researchers, discussing the rationale for choosing a methodological approach, practicing the application of individual methods, and designing and executing a piece of independent research. Both quantitative and qualitative research methods are discussed in detail and fieldwork exercises in London give students the opportunity to apply various methods from the course in their own research.

Teaching: 10 hours of lectures and 18 hours of classes in the MT. 9 hours of lectures and 18 hours of classes in the LT.

Compulsory fieldwork exercises to be completed instead of lecture/class in Week 11 of Lent Term. No class to be scheduled for Week 1 in MT.

Formative coursework: Students will be given the opportunity to complete two formative assignments during the course of the year: one in MT that draws on qualitative research methods and one in LT draws on quantitative research methods. Information on the formative assignments will be provided in the course outline.

Indicative reading: Methods in human geography: a guide for students doing a research project (Flowerdew and Martin, 2005); Statistics: a tool for social research (Healey, 2012); Statistics in geography and environmental science (Harris and Jarvis, 2011); Geography and geographers: Anglo-American geography since 1945 (Johnston, 1997); International Encyclopedia of Human Geography (Kitchin and Thrift, 2009); Key methods in geography (Clifford, French, and Valentine, 2010); Qualitative research methods in human geography (Hay, 2010).

Assessment: Project (50%, 3000 words) in the LT.

Project (50%, 3500 words) in the ST.

The first project (3000 words) will be due toward the end of Lent Term. The second project (3500 words) will be due at the start of Summer Term.

GY144

The London Lab: Geography in the City

This information is for the 2019/20 session.

Teacher responsible: Dr Alan Mace STC315a

Availability: This course is available on the BA in Geography and BSc in Geography with Economics. This course is not available as an outside option. This course is available to General Course students.

Course content: How can we understand the human geography of London? How have people shaped the city and how does the city's landscape impact people? How is this differentiated by race, class, gender, sexuality and ethnicity? We address these questions using London as a lab. You will be encouraged to engage with the city in numerous ways including through walks, media and the use of archives. Themes include; landscapes of empire, suburbanism, migration & diaspora, social housing and gentrification. To capture the specificity of the relationship between people and place the themes are sometimes developed in relation to particular settings; for example, Finsbury (housing), Hackney (gentrification) and Westminster (empire).

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 18 hours of lectures and 9 hours of classes in the LT.

Formative coursework: Students are expected to write two formative assignments and to participate actively in classes in the MT and the LT.

Indicative reading: Mapping tool (don't miss 'layer tools' in bottom left of right-hand window) <https://www.layersoflondon.org/map> Municipal dreams – <https://municipaldreams.wordpress.com/> Jonathan Meades on Letchworth Garden City (The suburbanisation of the UK) <https://www.youtube.com/watch?v=1qT5FquwhpA> de Botton, Alain. 2009. A Week at the Airport: A Heathrow Diary. London: Profile Books. Hall, Stuart. 2017. Familiar Stranger: A Life Between Two Islands. London: Penguin. The course's own website www.Londongeographies.com

Assessment: Essay (50%, 2000 words) in the MT.

Essay (50%, 2000 words) in the LT.

GY202

Introduction to Global Development

This information is for the 2019/20 session.

Teacher responsible: Prof Claire Mercer S418

Dr Romola Sanyal

Availability: This course is compulsory on the BSc in Environment and Development. This course is available on the BA in Geography, BSc in Accounting and Finance, BSc in Economic History and Geography,

BSc in Environmental Policy with Economics, BSc in Geography with Economics and BSc in International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: An introduction to analysing global development, focusing on key development theories, strategies, problems and trajectories. In Michaelmas Term we cover concepts and theories of development, histories of colonialism, the debt crisis and structural adjustment, neoliberalism, aid, governance and civil society. In Lent Term we examine poverty, migration, informality, housing, water, sanitation and gender.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 9 hours of lectures and 9 hours of classes in the LT. 1 hour of lectures in the ST.

Formative coursework: Students will produce two essays during the MT and the LT.

Indicative reading: S. Chant and C. McIlwaine, Geographies of Development in the 21st Century: An Introduction to the Global South, 2009; S. Chari and S. Corbridge (eds), The Development Reader, 2008; G. Williams, P. Meth and K. Willis, Geographies of Developing Areas: the Global South in a Changing World, 2009; V. Desai & R. Potter (Eds), The Companion to Development Studies, 2nd ed, 2008; T. Forsyth (Ed), The Routledge Encyclopaedia of Development, 2005; D. Simon (Ed.), Fifty Key Thinkers on Development, 2005; K. Willis (2011) Theories and practices in development, 2nd ed; UNDP, Human Development Report, published annually; World Bank, World Development Report, published annually.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Essay (25%, 2000 words) in the LT.

GY205

Political Geographies

This information is for the 2019/20 session.

Teacher responsible: Dr Murray Low STC.S512

Availability: This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: An introduction to the relevance of a geographical perspective for explanation of contemporary political processes, and of a political perspective for explanation of contemporary geographies, at scales from the local to the global. Topics covered include: states; geopolitics; empires and national states; citizenship rights, migration and national 'closure'; nationalism, territory and identity; geographies of elections and representation; democratization; globalisation, neo-liberalism and governance.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 5 hours of classes in the LT. 2 hours of lectures in the ST.

Formative coursework: Students will be expected to submit one formative essay per term of up to 1,500 words.

Indicative reading: Detailed reading lists will include journal articles, but indicative texts include: J. Agnew, Making Political Geography, 2002; C. Barnett and M. Low (eds.) Spaces of Democracy 2004; J. Agnew & S. Corbridge, Mastering Space, 1995; K. Cox, M. Low and J. Robinson (eds) The Sage Handbook of Political Geography, 2008.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Essay (25%, 2000 words) in the LT.

GY206 Half Unit**Urban Geography and Globalisation**

This information is for the 2019/20 session.

Teacher responsible: Dr Ryan Centner STC601c

Availability: This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course introduces students to the intersection of urban geography and the geography of globalisation, with the aim of understanding key references in academic debates, and their relevance for real-world social, economic, and political issues in our cities today. The course offers a critical, human-geographical perspective on 'global cities', how these manifest in different parts of the world, how they matter for distinct realms of urban life, and how we can study features of global urban geography. Themes include empires, development, and cities; 'global cities'; 'Third World cities' or 'cities of the global South'; urban spaces of neoliberalism; new geographies of urban theory; and planetary urbanisation. We examine cases related to migration, sexual minorities, the circulation of ideas, and gentrification. Examples come from both the 'global North' and the 'global South', with the aim of helping students understand when and how these categories may be useful.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. Students on this course will have a reading week in Week 6.

Formative coursework: The formative work will be an essay plan that directly prepares students for the summative work.

Indicative reading: Sassen, Saskia. 2001. *The Global City: New York, London, Tokyo*. Second edition. Brenner, Neil and Nik Theodore (eds). 2002. *Spaces of Neoliberalism*. Davis, Mike. 2006. *Planet of Slums*. Robinson, Jennifer. 2006. *Ordinary Cities: Between Modernity and Development*. Brenner, Neil and Christian Schmid (eds). 2014. *Implosions/Explosions: Towards a Study of Planetary Urbanization*. Ghaziani, Amin. 2014. *There Goes the Gayborhood?*

Assessment: Essay (65%, 2500 words), class participation (20%) and presentation (15%) in the MT.

GY207 Half Unit**Economy, Society and Place**

This information is for the 2019/20 session.

Teacher responsible: Dr Alan Mace STC315a

Availability: This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines the inter-relatedness of economy and society and how these impact places where people live and work. We start by looking at theories that challenge market based explanations of how places are shaped. We pay particular attention to housing choices and how these might confer social advantage or disadvantage. After this we use a series of place-based typologies and phenomenon to expand on the theory. Examples might include but are not limited to; suburbanisation, rural second homes and gentrification. We close by considering how changes in governance impact particular communities and places.

Teaching: 9 hours of lectures and 9 hours of classes in the LT. Students on this course will have a reading week in Week 6.

Formative coursework: The formative work will be an essay plan that directly prepares students for the summative work.

Indicative reading:

- Bourdieu, P. (2005) 'Habitus'. In Jean Hillier and Emma Rooksby (eds) *Habitus: a sense of place*. 43-5.

- Mace, A. (2017), Spatial capital as a tool for planning practice. *Planning Theory* 16(2) 119-132.
- Peck, J. (2011). Neoliberal Suburbanism: Frontier Space. *Urban Geography*, 32(6), 884-919.
- Savage, M. The Lost Urban Sociology of Pierre Bourdieu (chapter 45). In Gary Bridge and Sophie Watson (eds) *The new Blackwell companion to the city*. 511-520.

Assessment: Essay (100%, 3000 words) in the ST.

GY209 Half Unit**The Economic Geography of Trade, Production and Development**

This information is for the 2019/20 session.

Teacher responsible: Dr Davide Rigo

Availability: This course is compulsory on the BSc in Geography with Economics. This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Economics, BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Economics A (EC100) or Economics B (EC102). ST107 (or equivalent course in statistics) strongly recommended.

Course content: This course is concerned with economic geography. In particular we use ideas from International Trade, International Economics, Development and Regional Economics to talk about the location of economic activity across space and the consequences of uneven location. The module will look at the main international economics models, abstractions that help us focus on the key economic mechanisms and to develop a deeper understanding of those mechanisms. The main fundamental questions will be: a) what determines the distribution of production, trade and investment across countries? and b) what implications does this have for incomes and welfare. The main topics covered during the module will be:

1. Introduction to trade
2. The Ricardian model of comparative advantage
3. Heckscher-Ohlin and factor endowments
4. Trade, globalisation and inequality
5. Krugman's New Trade Theories
6. Spatial Distribution of Trade and Production
7. Trade Policy
8. Gravity models
9. Heterogeneous firms and trade

Teaching: 20 hours of lectures and 9 hours of classes in the MT. Students on this course will have a reading week in Week 6.

Formative coursework: Students will be expected to prepare for group discussion of some readings and hand in short essays and problem sets for formative assessment.

Indicative reading:

- Pugel T.A. *International Economics*. McGraw-Hill.
- Baldwin R and Martin P., (1999) Two waves of globalization: superficial similarities, fundamental differences, NBER working paper 6904
- Autor D. Dorn D. and Hanson G. (2013), The China Syndrome: Local Labor Market Effects of Import Competition in the US. *American Economic Review* 103(6), 2121-2168.
- Feenstra C. and Hanson G., 1999. The Impact of Outsourcing and High-Technology Capital on Wages: Estimates for the United States, 1979-1990. *Quarterly Journal of Economics* 114, 907-940.
- Krugman, Paul (1979), Increasing returns, monopolistic competition, and international trade. *Journal of International Economics*, Vol. 9(4), pp. 469-479.
- Krueger, A. O. (1997) Trade Policy and Economic Development: How we learn. *American Economic Review*, 87(1).
- Anderson, J.E. and E. van Wincoop (2003) Gravity with Gravitas: A solution to the Border Puzzle. *American Economic Review*, vol. 93(1), pp. 170-192.
- Bernard A., J.B. Jensen, S.J. Redding, and P.K. Schott (2007)

"Firms in International Trade" *The Journal of Economic Perspectives*, Volume 21, Number 3, pp. 105-130.

- Mayer, T. & Ottaviano, G.I.P. (2008) "The Happy Few: The Internationalisation of European Firms" *Intereconomics* vol. 43: 135 pp. 135-148

Assessment: Coursework (75%, 3000 words) in the LT. Problem sets (25%) in the MT.

GY210 Half Unit

The Economics of Cities

This information is for the 2019/20 session.

Teacher responsible: Prof Vernon Henderson STC.S506b

Availability: This course is compulsory on the BSc in Geography with Economics. This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Economics, BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Economics A (EC100) or Economics B (EC102). ST107 (or equivalent course in statistics) strongly recommended.

Course content: Urban economics is concerned with the spatial form of cities and the division of national economic activity into cities, both at a point in time and over time. Three fundamental questions are: (1) Why are economic activities within a country so unequally distributed across space? (2) Why do cities (and more broadly agglomeration of firms and workers) emerge and in what locations? (3) Why are economic activities within cities unequally distributed in general and between areas near the city centre and those near or in the suburbs?

The main topics covered include:

Why do cities exist and why do firms cluster? Diseconomies in cities: Urban location, land rents, and land use patterns? What determines equilibrium city size and features of the urban system? City growth, location, and spatial transformation Land use regulation.

Teaching: 20 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6.

Formative coursework: Students will be expected to prepare for group discussion of some readings and hand in short essays or problem sets.

Indicative reading:

- O'Sullivan, A. (8th edition) *Urban Economics*. Boston: Irwin-McGraw-Hill, 2012.
- Greenstone M. R. Hornbeck and E. Moretti (2010), "Identifying agglomeration economies: Evidence from winners and losers of large plant openings", *Journal of Political Economy*, Vol. 118, No. 3, 536-598.
- Eid, Jean & Overman, Henry G. & Puga, Diego & Turner, Matthew A. (2008), "Fat city: Questioning the relationship between urban sprawl and obesity", *Journal of Urban Economics*, Vol. 63, No.2, 385-404.
- Duranton G. (2008), "Viewpoint: From cities to productivity and growth in developing countries", *Canadian Journal of Economics*, Vol. 41, No. 3, 689-736, Sections 1, 2.1, 2.2, 2.3.3, 2.3.4, 2.4, 3.1, 3.2.
- Henderson J.V. (2010), "Cities and development", *Journal of Regional Science*, Vol. 50, No. 1, 515-540.
- Henderson J.V., T. Regan and A.J. Venables (2016) "Building functional cities" *Science* 20 May 2016 <http://urbanisation.econ.ox.ac.uk/materials/papers/105/buildingfunctionalcities.pdf>

Assessment: Exam (50%, duration: 1 hour and 30 minutes) in the summer exam period.

Essay (20%, 1000 words) and problem sets (30%) in the LT.

GY220

Environment: Science and Society

This information is for the 2019/20 session.

Teacher responsible: Dr Thomas Smith STC.421C and Prof David Jones STC.417

Availability: This course is compulsory on the BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is available on the BA in Geography, BSc in Economic History and Geography and BSc in International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: An analysis of the debates concerning the nature, causes and effects of, and the alternative solutions to, the key natural environmental degradation and pollution problems faced by human societies. The purpose of this course is to provide essential information, first, about the scientific foundations for much environmental concern and, secondly, a social-science perspective on that science, identifying how it is communicated and employed in areas of environmental governance. The course provides both a grounded discussion of physical changes underlying some key environmental debates, and an introduction to approaches from social science concerning the governance implications of environmental science. Students will explore the role of science in environmental understanding and governance through a combination of lectures, classes, and practical environmental monitoring.

The course consists of three sections, although the specific content, order and relative proportion of teaching may change with staff availability:

Part A: Introduction and Themes: this introduces students to social scientific perspectives on scientific knowledge and environmentalism.

Part B: Environmental Risk and Science: this section examines the physical science basis of current regional and global environmental risks, including geohazards, wildfires, and global atmospheric pollution.

Part C: Science and Environmental Governance: this final section of the course examines how environmental science is incorporated in global environmental governance (specific examples include climate change, ozone depletion, and biodiversity conservation). The course concludes with an examination of the notion of sustainability science.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 18 hours of lectures and 9 hours of classes in the LT.

This course has a reading week in Week 6 of both MT and LT.

Formative coursework: Students will be expected to produce 2 pieces of coursework in the MT and LT.

Two essays/reports in the MT and LT.

Indicative reading: No one book or small group of books adequately covers the themes considered in the course, and separate reading lists are provided for each distinct part of the syllabus. Basic reading material includes:

- T. Forsyth, *Critical Political Ecology; The Politics of Environmental Science*, 2003;
- A. Goudie (Ed), *The Human Impact Reader*, 6th edition, 2006;
- M. K. Hill, *Understanding Environmental Pollution*, 1997;
- J. Houghton, *Global Warming: The Complete Briefing*, 5th edition, 2015;
- M. Hulme, *Why We Disagree About Climate Change*, 2009;
- A.M. Mannion, *Dynamic World: Land Cover and Land-Use Change*, 2002;
- G. T. Miller (Ed), *Living in the Environment*, 2000;
- K. Smith, *Environmental Hazards*, 2001;
- United Nations Environment Programme, *UNEP Yearbook 2015*, 2015;
- M. Whitehead, *Environmental Transformations*, 2014.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Assignment (25%) in the LT.

Students may choose their assignment as either an environmental

monitoring report (2000 words) or a summative essay (2000 words).

GY222

Applied Environmental Economics

This information is for the 2019/20 session.

Teacher responsible: Prof Susana Mourato STC.503 and Dr Sefi Roth STC.421A

Availability: This course is compulsory on the BSc in Environmental Policy with Economics. This course is available on the BA in Geography, BSc in Accounting and Finance, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Geography with Economics and BSc in Psychological and Behavioural Science. This course is available as an outside option to students on other programmes where regulations permit and to General Course students. The number of students that can be accommodated is limited. If the course is over-subscribed, places will be allocated at the Department's discretion and a waiting list may be created. For further details, please contact your relevant Programme Coordinator.

Course content: This course is an introduction to economic principles in the analysis of environmental change and natural resource use, and in designing appropriate policy responses. The first part of the course largely covers the concepts and tools of environmental economics, while the second part applies these concepts and tools to specific challenges for real world policy-making. Topics to be covered include: the evaluation of regulatory and market based instruments in controlling pollution; moral suasion and voluntary regulation; economics of natural resource use; economic growth, the environment and sustainable development; cost-benefit analysis and environmental valuation; economics of biodiversity and ecosystem services conservation; climate change economics; health and the environment; behavioural and happiness economics and the environment.

Teaching: 15 hours of lectures and 9 hours of classes in the MT. 15 hours of lectures and 9 hours of classes in the LT.

Formative coursework: Students will be expected to produce non-assessed coursework throughout the year that will include at least one essay and a series of quizzes, and may be asked to give class presentations.

Indicative reading: Detailed reading lists will be provided to support each course component. For an overview and introduction to the main issues covered by the course students may wish to consult the following: N Hanley and EB Barbier, Pricing Nature: Cost-Benefit Analysis and Environmental Policy, 2009; J Kahn, The Economic Approach to Environmental and Natural Resources, 3rd ed. 2005; B Field and M Field, Environmental Economics, 6th ed. 2012; DW Pearce, G Atkinson and S Mourato, Cost-Benefit Analysis and the Environment: Recent Developments, 2006; E Neumayer, Weak Versus Strong Sustainability: Exploring the Limits of Two Opposing Paradigms, 4th Edition, 2013.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period. Essay (25%, 2000 words).

GY245 Half Unit

Quantitative Methods in Geography

This information is for the 2019/20 session.

Teacher responsible: Dr Davide Rigo

Availability: This course is compulsory on the BA in Geography and BSc in Geography with Economics. This course is available on the BSc in Economic History and Geography, BSc in Environment and Development and BSc in Environmental Policy with Economics. This course is not available as an outside option nor to General Course students.

Pre-requisites: GY140 Introduction to Geographical Research or a 1st year statistics course such as ST107 Quantitative Methods (Statistics)

Course content: This course provides students with an introduction to quantitative methods for geographical analysis, specifically regression analysis and Geographical Information Systems. An understanding of quantitative methods of this type is essential for those who wish to go on to do their own research and for those who will interpret and evaluate research in their future careers. The first part of the course is devoted to the principles of regression analysis as applied to quantitative social science. The second part of the course introduces students to the use of Geographical Information Systems in research. Theoretical discussion in the lectures is accompanied by practical computer classes in which students learn how to apply these methods on real data sets. The practical classes develop a range of skills which lead on to an assessed practical project.

Topics covered:

- 1 Introduction to quantitative methods
- 2 Regression analysis: linear models; parameter estimation; interpretation; R-squared; dummy variables
- 3 Regression analysis: hypothesis tests
- 4 Regression analysis: classical assumptions; omitted variables; reverse causality; heteroscedasticity; multicollinearity
- 5 Regression: non-linear models; practical applications in project work
- 6 GIS: Introduction
- 7 GIS: Spatial representation; vector data; raster data; remote sensing; databases, joins
- 8 GIS: Queries, spatial joins, overlay and data management
- 9 GIS: Examples

Teaching: 15 hours of lectures, 9 hours of classes and 2 hours of workshops in the MT.

Students on this course will have a reading week in Week 6.

Formative coursework: Formative work is based solely on the statistical part of the course. A dataset is provided alongside a specific set of questions.

Indicative reading: Studenmund, A.H. (various) Using Econometrics: a practical guide. Longman: London. ISBN: 032106481X. BLPES: HB139 S93
Bernhardsen, T (2002a). Geographic Information Systems: An Introduction. New York: John Wiley and Sons.
Breslin, P., Frunzi, N., Napoleon, E., Ormsby, T. Getting to Know ArcView GIS. San Fransisco: ESRI Press.

Assessment: Project (100%, 4000 words) in the LT.

GY246 Half Unit

Field Methods in Geography

This information is for the 2019/20 session.

Teacher responsible: Dr Ryan Centner STC 6.01c
Dr Mara Nogueira

Availability: This course is compulsory on the BA in Geography. This course is not available as an outside option nor to General Course students.

Course content: The course aims to prepare second-year students to undertake field research, focusing specifically on qualitative methods. It is linked to the BA Geography field course that takes place at the end of LT, and offers key preparation for third-year Independent Research Projects (IRP) that BA Geography students must conduct after this course.

Attendance and active participation is crucial for appropriate preparation for the field trip.

The course examines methodologies in field-based geographical research and evaluates their application to different kinds of research problems. It considers the choice of methods which may be used in the student's own IRP, and how to plan research. It enables students to acquire familiarity with, and practice of, contemporary qualitative research techniques and to examine different ways of, and gain experience in, presenting research

results. A further aim of the course is to enable students to evaluate critically the methodological validity of qualitative geographical research as distinct from quantitative approaches. The course covers the following qualitative approaches to social science methodologies:

- (i) techniques for qualitative data analysis including structured and unstructured interviewing, participant observation, and transecting, including ethics when conducting fieldwork;
- (ii) application of qualitative research techniques in the field; and
- (iii) techniques for designing, carrying out, and presenting field research, including both the course's field report and the third-year IRP.

Topics covered:

1. Ethics & planning in independent geography research projects
2. Qualitative methodology in human geography: What can we know? What kind of knowledge can we gain about qualities of the social and spatial world? And how?
3. Interviews: What people think, and are able/willing to tell us
4. Ethnography & observation: What people do, and maybe even how they feel about it
5. Transecting: Making sense of places across space
6. Field-course location: History & context
7. Field-course location: Topics in the field A
8. Field-course location: Topics in the field B
9. Field-course location: Topics in the field C

Teaching: 13 hours and 30 minutes of lectures, 9 hours of classes and 1 hour of workshops in the LT.

Students on this course will have a reading week in Week 6.

One week-long field-course to a non-UK location is associated with this course, normally in the final week of the Lent Term.

Students should be aware that, although the costs of this course are subsidised by the Department, they will be expected to make a substantial financial contribution themselves. There are bursaries available from the Department for students who can document financial need.

An alternative field exercise will be undertaken by students who are unable to participate in the above one-week residential field-course.

Attendance in both lecture and class is required in this course due to the demanding nature of the field trip and particularly the mandatory field research project at the end of the term.

There is a mandatory pre-trip meeting for students in Week 7.

Students must attend this meeting in order to be allowed to participate in the field trip in Week 11.

Formative coursework: Short exercises conducted in preparation for class sessions throughout the Lent Term.

Indicative reading:

Assessment: Project (60%, 3500 words) and research proposal (30%) in the ST.

Class participation (10%) in the LT.

GY247 Half Unit

Field Methods in Geography with Economics

This information is for the 2019/20 session.

Teacher responsible: Dr Ryan Centner STC 6.01c, Prof Claire Mercer, Prof Steve Gibbons (field trip co-ordinator), Dr Felipe Carozzi and Prof Simona Iammarino

Availability: This course is compulsory on the BSc in Geography with Economics. This course is not available as an outside option nor to General Course students.

Course content: The course aims to prepare second-year students to undertake individual research projects. It examines the methodologies used in field-based geographical and environmental research and evaluates their application to different kinds of research problems. It considers the choice of methodology which may be used in the student's own Independent Research Project (IRP) and how to plan research. It enables students to acquire familiarity with, and practice of, contemporary qualitative research techniques and to examine different ways of, and gain experience in, presenting research results. A further aim of the course is to enable students to evaluate critically the methodological validity of geographical literature.

The course covers the following approaches to social science methodologies:

- (i) techniques for qualitative data analysis including structured and unstructured interviewing, participant observation, and research ethics, including ethics when conducting fieldwork;
- (ii) application of field-specific qualitative and field-specific quantitative research techniques in the field; and
- (iii) techniques for designing, carrying out, and presenting an Independent Research Project.

Topics covered:

1. Planning an independent research project
2. Qualitative methodology in human geography: What can we know? What kind of knowledge can we gain about qualities of the social and spatial world? And how?
3. Interviews (plus questionnaires and focus groups): What people think, and are able/willing to tell us
4. Ethnography & observation: What people do, and maybe even how they feel about it
5. Transecting & comparing: Making sense of places
6. How to design a research project
7. Kerala: Background, context and themes
8. Kerala: Industrial policy, clusters and special economic zones
9. Kerala: From start-ups to conglomerates; urban and rural industry.

Field-course:

The Kerala field course offers an excellent opportunity to experience a fascinating and unique economic environment at first hand. The field trip visits the state of Kerala in south India, and will be based in the area around Kochi (formerly Cochin). Kerala provides a rich and fascinating introduction to South Asian landscapes and culture, both new and old. Kerala is often described as a success story of economic development – the so called 'Kerala model' - with high levels of literacy and life expectancy, despite its relatively low per capita income. Students will embark on a series of orientation and research activities during the trip.

Teaching: 9 hours of lectures and 9 hours of classes in the LT.

Students on this course will have a reading week in Week 6.

Field-course: One week-long field-course to the Backwaters of Kerala, India is associated with this course, normally in the final week of the Lent Term. Students should be aware that, although the costs of this course are subsidised by the Department, they will be expected to make a substantial financial contribution

themselves. There are bursaries available from the Department for students who can document financial need.

An alternative field exercise will be undertaken by students who are unable to participate in the above one-week residential field-course.

Formative coursework: Short exercises conducted in preparation for class sessions throughout the Lent Term.

Assessment: Research proposal (20%) and research project (60%) in the ST.

Class participation (20%) in the LT.

GY307 Half Unit

Regional Economic Development

This information is for the 2019/20 session.

Teacher responsible: Prof Michael Storper STC 4.07

Availability: This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Economics, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: In 2016, politics were shaped by regional development. In Britain, certain regions voted to leave the European

Union and others (Greater London, Scotland) to stay. In the American presidential election in November, 473 counties voted for the Democratic Party candidate and about 2600 counties voted for the Republican. However, the 473 counties contain more than 2/3 of the country's economic output, a majority of its population, produce almost all of its technological innovations, have higher personal incomes, and are responsible for most of the country's exports. This is because economic development is uneven across regions, within countries and at a wider global scale, between countries and continents. Over the past 40 years, in the current cycle of economic development that is defined by globalization and new technologies, these differences have become sharper, leading to more sharply divided politics in many countries.

The future of many countries depends on the future of their regional development patterns: where prosperity is located, how regions and their people transition in response to changing economic forces.

If we bring this down to the personal level, where you live matters for your opportunities, economic welfare and lifestyle. But places do not have a secure position in the world: they can go up or down the economic hierarchy and, with them, alter the opportunities or lack thereof for the people in them, as well as define opportunities or obstacles to migration. In cycles of about 40 years, the hierarchies of incomes among places can undergo significant change. Once prosperous places can decline; formerly less wealthy places can, under some conditions, develop, but only under the right conditions. Those that survive the cycles do so by changing their economic base and many other features of the local economy and society. With such change, the ways we live in places also evolves.

In 2009, the Nobel Prize in economics was awarded to Paul Krugman for founding what is now known as the "New Economic Geography." Since then, researchers have assembled a powerful, unified vision of what causes cities, metropolitan areas, regions, and countries in the world to develop in a geographically uneven manner. This vision brings together theories of the location of firms and households, trade, local labor markets, transport and trade costs, and local development policies/politics, into a unified whole.

There are challenges today for both the "473" counties and the other 2600. Roughly speaking, the 473 have to keep doing things that have made them prosperous, but this is a moving target as technologies change, and patterns of competition change at a local and global scale. Moreover, even prosperous city-regions have internal challenges, such as poor neighborhoods or unequal opportunities for their people. The less prosperous "2600" counties have different challenges: they have been largely bypassed by the positive dimensions of globalization and technological change. Yet regional policies in the US and other countries have not been very successful in helping them adjust to the current world.

In this course, we will learn the theories, analytical tools and data that explain these issues and frame the challenges for development of both prosperous and less prosperous regions.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. Students on this course will have a reading week in Week 6.

Formative coursework: A variety of exercises including problems, reading analyses, use of examples that complement theoretical articles and so on. We draw these up as close as possible to the term, or even during the term, in order to enhance the student experience by making the examples relevant and contemporary.

Assessment: Take home exam (100%) in the LT.

GY308 Half Unit

The Economic Geography of Growth and Development

This information is for the 2019/20 session.

Teacher responsible: Prof Olmo Silva STC 5.06a

Availability: This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Economics, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course will introduce students to the framework and tools used by economists to study the processes of growth and development, and analyse its determinants. After a short discussion of the basic modelling framework, the course will focus on empirical aspects. First, it will discuss the drawbacks and failures of simple models in which technological change fully determines the rate of growth of a country or region. Then it will present a set of enriching ingredients, which will allow for a better understanding of why different countries and regions around the world are characterised by different stages of development. The presentation of the material will be structured around four main blocks: Human Capital, Education and Growth; the Information Technology Revolution; Trade and Globalization; and the New Institutional Paradigm. The course will close with a discussion of how the original framework worked out by economists back in '60s, coupled with new insights, provides a flexible tool to derive policy implications for growth and development.

Topics covered:

1. Stylized facts and a general economic framework for studying growth
2. Physical and human capital accumulation
3. Information and Communication Technologies (ICT), innovation and growth
4. Trade and globalization: their effects on growth and inequality
5. Institutions and growth

Teaching: 10 hours of lectures, 9 hours of classes and 2 hours of classes in the LT.

Students on this course will have a reading week in Week 6.

Formative coursework: Students will be expected to prepare for group discussion of some readings and hand in short essays. There is also a class debate (normally taking place in Week 9 during the students' assigned classes) where students are asked to work in small groups and deliver a presentation on an assigned debate topic.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

GY309 Half Unit

The Political Geography of Development

This information is for the 2019/20 session.

Teacher responsible: Dr Megan Ryburn STC 3.06

Availability: This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: A critical analysis of the politics of contemporary development processes in the South and the global interests that influence them. The course considers development as both practical pursuit and as a series of discourses and representations. Three key themes are covered:

1. Key concepts and historical overview.

Introduces critical approaches to development, and provides an overview of development during the Cold War.

2. Securing development in the 21st century

Addresses discourses and representations in relation to the security-development nexus, focusing on immigration, disease, drugs, and violence.

3. Doing development in the 21st century

Examines development in practice, looking especially at approaches to tackling informality and chronic unemployment, such as microfinance, and universal basic income.

Teaching: 13 hours and 30 minutes of lectures, 9 hours of classes and 2 hours of classes in the LT.

Students on this course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce one formative essay plan in the Lent Term.

Assessment: Exam (75%, duration: 2 hours) in the summer exam period.

Essay (25%, 1500 words) in the LT.

GY310 Half Unit**Urban Politics**

This information is for the 2019/20 session.

Teacher responsible: Dr Murray Low STC. S512

Availability: This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course covers theories and processes of contemporary urban development from a variety of perspectives – it aims to introduce students to key concepts in, and approaches to, politics in cities, as these have emerged and developed over time. Themes include, but are not limited to, political and economic power in cities, the role of ‘elites’, urban government finance, the politics of local economic development policy, the multidimensional role of culture in urban change, and the emergence of forms of urban governance. Case studies are largely drawn from cities in the United States and the United Kingdom, reflecting the development of core ideas in mainstream urban politics largely in these contexts.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. Students on this course will have a reading week in Week 6.

Formative coursework: One essay plan due in the MT.

Indicative reading:

- David Harvey (2005) *A Brief History of Neoliberalism*.
- Robert Dahl (1961) *Who Governs?*
- Clarence Stone (1988) *Regime Politics*.
- Sharon Zukin (1995) *The Cultures of Cities*.

Assessment: Essay (100%, 3000 words) in the LT.

GY311 Half Unit**The Political Economy of Urbanisation**

This information is for the 2019/20 session.

Teacher responsible: Dr Jayaraj Sundaresan STC3.04

Availability: This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course covers theories and processes of contemporary urban development from a critical political economy perspective, addressing urban problems and policy responses in our rapidly urbanizing world. The course examines what urbanisation means to the state, to (global/domestic) businesses, and ordinary citizens, focusing on a selected set of key themes that are pertinent to the understanding of urban injustice. Such themes include, but not limited to, the understanding of the (social) production of unequal urban space, global circulations of urbanism, gentrification, displacement and dispossession. Case studies are largely drawn from cities in the majority world, especially East and Southeast Asia, which provide opportunities for students to contest urban theories that have largely been rooted in the experiences of the advanced economies.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. Students on this course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce one formative essay outline in the Michaelmas Term.

Indicative reading:

- Harvey, D. (1989) *The Urban Experience*. Johns Hopkins University Press;
- Wu, F. (2015) *Planning for Growth: Urban and Regional Planning in China*. Routledge;
- Park, B-G. et al. (Eds.) (2012) *Locating Neoliberalism in East Asia*. Wiley-Blackwell;

- Shao, Q. (2013) *Shanghai Gone: Domicide and Defiance in a Chinese Megacity*. Rowman & Littlefield

Assessment: Coursework (90%, 3000 words) and continuous assessment (10%) in the MT.

Continuous assessment refers to class participation.

GY312 Half Unit**Geographies of Gender in the Global South**

This information is for the 2019/20 session.

Teacher responsible: Dr Mara Nogueira

Availability: This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course introduces students to the geography of gender inequalities and their variations at regional, national and local levels in the Global South. Particular attention is paid to the still-lagging but vital ‘en-gendering’ of development analysis and policy over time, and how gender is critical in understanding people’s experiences of social, economic, demographic and political aspects of development as individuals, and in the context of households, communities and nation-states. Topics covered include the evolution of gender on ‘development agendas’ and the changing nature of gender framing and ‘women’s empowerment’ in development policy and practice, the measurement of gender inequalities, domestic divisions of labour and household transformations, gendered employment, gendered dynamics of migration within and from the Global South, and gender in relation to reproductive health and health and healthcare in general.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. Students on this course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce one formative essay in the Michaelmas Term.

Indicative reading: Benería, L.; Berik, G. and Floro, M. (2015) *Gender, Development and Globalisation*, 2nd ed., London: Routledge; Chant, S. (Eds) (1995), *Feminism/ Postmodernism/Development*, London: Routledge; UN Women (2015) *Progress of the World’s Women 2015-16: Transforming Economies, Realising Rights*, New York: UN Women; World Bank (2011) *World Development Report 2012: Gender Equality and Development*, Washington DC: World Bank

Assessment: Essay (100%, 3000 words) in the LT.

GY313 Half Unit**Firms and Economic Geography:
Location, Technology and Innovation****This information is for the 2019/20 session.****Teacher responsible:** Dr Davide Rigo**Availability:** This course is compulsory on the BSc in Geography with Economics. This course is available on the BA in Geography, BSc in Economic History and Geography and BSc in Environmental Policy with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.**Pre-requisites:** Students should have normally taken EC100 or EC102, and one or more of: EC201, GY201 or GY222**Course content:** This course aims to develop theoretical and empirical understanding of spatial economic processes in order to study and evaluate a wide range of issues and policies. Particular emphasis will be put on regional economies, business and worker location decisions, focusing in particular on models of the location of economic and innovation activity with a particular emphasis on regional economies. We will analyse the New Economic Geography theories and the agglomeration of economic activity, with a particular focus on EU integration as a testing ground. We will also look at the global and local knowledge economy, focusing on core aspects of a society based on knowledge and technical progress and how this proceeds hand in hand with the enlargement of markets and the intensification of exchange. We will also explore the seeming contradiction that geographically localized knowledge may be increasingly significant just as so much of our world becomes more globalized.

Topics covered:

1. Core-periphery patterns and New Economic Geography theories
2. Formal tests of New Economic Geography models
3. Geographical clustering of firms
4. Spatial distribution of firms, skills and growth
5. Geographical clustering of innovative activities
6. Externalities: knowledge spillovers, networks and agglomeration
7. Relatedness, path dependency and resilience
8. Location strategies of multinational enterprises
9. The impact of foreign investment

Teaching: 20 hours of lectures and 9 hours of classes in the MT. Students on this course will have a reading week in Week 6.**Formative coursework:** Students will be expected to produce 1 essay in the MT.**Indicative reading:**

Assessment: Coursework (100%, 3000 words) in the LT.**GY314 Half Unit****The Economics of Housing Markets
and Migration****This information is for the 2019/20 session.****Teacher responsible:** Prof Olmo Silva STC.S506a**Availability:** This course is compulsory on the BSc in Geography with Economics. This course is available on the BA in Geography, BSc in Economic History and Geography and BSc in Environmental Policy with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.**Pre-requisites:** Students should have normally taken EC100 or EC102, and one or more of: EC201, GY201 or GY222**Course content:** The main aim of this course is to analyse how decisions made by individuals influence the distribution of economic activities across space. The lectures will focus on how people sort across areas; on how they express their demand and preferences for specific locations and spatial attributes; and on how individual decisions carry important implications for the urban/regional economies and their labour markets. The emphasis will be on quantitative aspects and the lectures will cover both economic theories and related empirical methodology/applications. The course will be split into two interrelated blocks. One will concentrate on residential markets and study decisions made by individuals in relation to tenure choice and demand for housing space. Some time will be devoted to analysing how these processes affect the neighbourhoods where individuals live in terms of social stratification and externalities. The other part of the course will analyse the dynamics of local labour markets, geographical mobility, national and international migration and their effects on the local economy.

Topics covered:

1. Housing markets: the own vs. rent decision
2. Housing markets: the elasticity of supply and demand of space
3. Housing markets: real estate cycles and price fluctuations
4. Housing markets: hedonics to uncover "what people want"
5. Neighbourhood effects: do places matter?
6. The externalities of homeownership
7. Local labour markets and spatial mismatch
8. The economic determinants of migratory flows
9. The local economic effects of migration: labour markets
10. The local economic effects of migration: innovation and entrepreneurship

Teaching: 20 hours of lectures and 9 hours of classes in the LT. Students on this course will have a reading week in Week 6.**Formative coursework:** Students will be expected to prepare for group discussion of some readings and hand in short essays and problem sets.**Indicative reading:** Hilber, C. (2005). "Neighborhood Externality Risk and the Homeownership Status of Properties", *Journal of Urban Economics*, 57(2), 213-241. Mayer, C. and T. Somerville (2000): "Residential Construction: Using the Urban Growth Model to Estimate Housing Supply", *Journal of Urban Economics* 48,

Gauthier-Loiselle (2010): "How Much Does Immigration Boost Innovation?" *American Economic Journal: Macroeconomics*, 2, 31-56.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

GY316 Half Unit

Gender in High Income and Emerging Economies

This information is for the 2019/20 session.

Teacher responsible: Dr Martina Klett-Davies

Availability: This course is available on the BA in Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Gender Inequality in a global context; Gendered Spaces: suburbanisation, gentrification and urban sexual cultures; Gendered Identities: women and paid work, masculinities; Gendered patterns of migrant labour; Gender in China, the Nordic Countries and in former Socialist Countries; Future for gender equality

Teaching: 10 hours of lectures and 10 hours of classes in the LT. Students on this course will have a reading week in Week 6.

Formative coursework: 1 formative take home exam in the LT.

Indicative reading:

- Ahmed, S. (2017) *Living a Feminist Life*
- L. Attwood, E. Schimpfössl & M. Yusupov (ed) (2018) *Gender and choice after socialism*
- E. Boris & R. S. Parreñas (2010) *Intimate Labors: Cultures, Technologies, and the Politics of Care*
- Ghaziani, A. (2017) *Sex Cultures* (ch 1: The City)

- Taylor, Y. (2016) *Fitting into Place? Class and Gender Geographies and Temporalities*

Assessment: Take home exam (100%) in the ST.

GY326 Half Unit

Sustainable Business and Finance

This information is for the 2019/20 session.

Teacher responsible: Dr Richard Perkins STC.413

Availability: This course is available on the BA in Geography, BSc in Accounting and Finance, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit. This

course is available to General Course students.

Course content: This course seeks to explore and critically interrogate the governance of environmental sustainability by corporate and financial actors - commonly framed in terms of corporate social responsibility (CSR) and sustainable and responsible investment (SRI), respectively. Drawing on a range of theoretical ideas, the emphasis of the course is on providing students with an understanding of the motives, practices and outcomes of market actors' growing involvement in sustainability. Topics covered include strategic CSR, self-regulation, evolution of SRI, ESG (environment, social and governance) ratings, green bonds and greenwashing.

Teaching: 18 hours of lectures and 9 hours of classes in the MT. Students on this course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce a formative issue brief in the Michaelmas Term.

Indicative reading: Rasche, A., Morsing, M. and Moon, J. (eds) (2018). *Corporate Social Responsibility: Strategy, Communication*. Cambridge, Cambridge University Press.

Assessment: Assignment (85%) and class participation (15%) in the MT.

The assignment will be an issue brief with critical reflection (3500 words).

GY327 Half Unit

Global Environmental Governance

This information is for the 2019/20 session.

Teacher responsible: Dr Michael Mason STC5.10

Availability: This course is available on the BA in Geography, BSc in Accounting and Finance, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines the issues, actors and processes that shape environmental governance at the transnational and global scales. Introductory lectures on the global environmental policy process introduce different scholarly perspectives informing recent and current research: these approaches are referred to as subsequent lectures address particular actor groups, processes and issues. Students are encouraged to think critically about the ways in which the regulation of global environmental risk is framed and politically negotiated.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. Students on this course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce a formative essay in the Lent Term.

Indicative reading:

- Betsill, M.M., Hochstetler, K. and Stevis, D. (eds.) (2014) *Advances in international environmental politics*, second edition, Basingstoke: Palgrave Macmillan.
- Biermann, F. (2014) *Earth system governance: World politics in the Anthropocene*, Cambridge, MA: MIT Press.
- Fuentes-George, K. (2016) *Between preservation and exploitation: Transnational advocacy networks and conservation in developing countries*, Cambridge, MIT: MIT Press.
- Gupta, A. and Mason, M. (2014) *Transparency in global environmental governance: Critical perspectives*, Cambridge, MA: MIT Press.
- O'Neill, K. (2017) *The environment and international relations*, second edition, Cambridge: Cambridge University Press.
- Park, S. and T. Kramarz (2019) *Global environmental governance and the accountability trap*, Cambridge, MA: MIT Press.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

GY328 Half Unit**Political Ecology of Development****This information is for the 2019/20 session.****Teacher responsible:** Dr Kasia Paprocki STC 4.21B**Availability:** This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.**Course content:** This course explores the complex relationships between development, poverty and the environment. It covers a range of important natural resource and environmental issues, and provides students with the necessary tools to critically evaluate how these issues have been addressed by different stakeholders and at different levels of governance. Using concepts and analytical tools grounded in political ecology and critical development studies, the course examines several topics, including: the politics of sustainable development; environmental governance and tenure; and critical resource issues.**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. Students on this course will have a reading week in Week 6.**Formative coursework:** Students will be expected to produce one formative essay plan in the Michaelmas Term.**Indicative reading:** Li, T (2007), *The Will to Improve*, Durham: Duke University Press; Scott, J (1991) *Seeing Like a State: How Certain Schemes to Improve the Human Condition Have Failed*, Yale University Press; West, P (2006) *Conservation is Our Government Now: The Politics of Ecology in Papua New Guinea*. Durham: Duke University Press.**Assessment:** Essay (100%, 4000 words) in the MT.**GY329 Half Unit****Applied Economics of Environment and Development****This information is for the 2019/20 session.****Teacher responsible:** Dr Charles Palmer STC3.03**Availability:** This course is available on the BA in Geography, BSc in Economic History and Geography, BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.**Pre-requisites:** Applied Environmental Economics (GY222) and/or Intermediate Microeconomics (EC201)**Course content:** This course explores the complex relationships between economic development, poverty and the environment. It covers a range of important natural resource and environmental issues in developing countries, and provides students with the necessary tools to critically evaluate how these issues have been addressed by different stakeholders and at different levels of governance. Using concepts and analytical tools grounded in applied economics, primarily environmental and development economics, the course will examine a range of topics, including: the poverty-environment trap; property rights and governance; the food-energy-environment nexus; biofuels; and urbanization.**Teaching:** 10 hours of lectures and 9 hours of classes in the LT. Students on this course will have a reading week in Week 6.**Formative coursework:** Students will be expected to produce a 'mock exam' essay during the Lent Term.**Indicative reading:** Barbier, E (2005) *Natural Resources and Economic Development*, Cambridge University Press. Coursework (25%, 1500 words) in the LT.

GY350**Dissertation****This information is for the 2019/20 session.****Teacher responsible:** Dr Romola Sanyal STC.418

Other teachers responsible: Student's academic mentor in the Department of Geography and Environment

Availability: This course is compulsory on the BA in Geography. This course is available on the BSc in Environment and Development, BSc in Environmental Policy with Economics and BSc in Geography with Economics. This course is not available as an outside option nor to General Course students.

For students required to, or choosing to, submit an independent research project ('IRP') as part of a Bachelor's degree within the programmes' listed above.

Pre-requisites: GY245, GY246 or GY247 are a pre-requisite.**Course content:** Students plan their own independent research project from start to finish on a geography topic of their choice. Carrying out the project generally includes reviewing the literature in their chosen topic area, formulating a viable and geography-relevant research question, analysing primary or secondary evidence or other material appropriate to the investigation (often a case study, data set, archival source, fieldwork observation, survey results or interviews, but also other material), and drafting the findings from their investigation into a final, polished submission. Students are expected to deal with the many procedural and analytical decisions that arise in independent research themselves, with guidance from Academic Advisers and others.**Teaching:** 6 hours of lectures and 4 hours of help sessions in the MT. 2 hours of classes and 4 hours of help sessions in the LT. In the course of conducting their dissertation students can draw on various forms of teaching support. Workshops on conducting the dissertation will be held early in MT. There will be four dissertation help sessions across MT and LT. Students regularly report on their research progress to their academic mentors during regular meetings in MT and LT. Students will also present their research in progress to their peers and their academic mentor

early in Lent Term.

Formative coursework: Students are required to produce an extended proposal which they must submit during the MT. They will be expected to report regularly to their Academic Adviser on the progress they are making on their dissertation, at least during regular termly Advisee meetings, if not more frequently. Students may also choose to arrange additional oversight and update arrangements with either their Academic Adviser or PhD Adviser. Students are also expected to deliver a presentation on their dissertation project in a workshop during the LT.

Assessment: Research project (100%) in the ST. Dissertations should not exceed 10,000 words, exclusive of appendices and other supportive material. Appendices may be used for supporting documentation and evidence, but not for discussion and analysis. One copy of the dissertation must be submitted to the Undergraduate Office in S406 by the published deadline, and by the same deadline an electronic copy must be submitted on Moodle.

HY113

From Empire to Independence: The Extra-European World in the Twentieth Century

This information is for the 2019/20 session.

Teacher responsible: Dr Antony Best

Availability: This course is available on the BA in Geography, BA in History, BA in Social Anthropology, BSc in Government and History, BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History, BSc in Politics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: An introductory survey of events outside Europe in the twentieth century, with a particular emphasis on the collapse of the Western colonial empires, the development of relations between the West and the new states within Asia and Africa, revolutionary developments in Latin America, and the rise of non-Western models of political development. The course includes the state of the European empires in the first half of the century; the Japanese challenge to the West; the Chinese revolution; Indian independence; the decolonization process in Asia and Africa; the Japanese developmental state; the rise of the non-aligned movement; Caribbean states' independence and the Cuban Revolution; the development of the Arab and non-Arab Middle East; American and Soviet relations with the Third World; post-independence South Asia; the modernization and underdevelopment debates; post-independence Africa; China under Mao and Deng; the rise of Islamic fundamentalism.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 9 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6 of the Michaelmas Term and the Lent Term. There will be a revision lecture and class in the Summer Term.

Formative coursework: Students will be asked to write at least three essays and to present a number of brief class reports

Indicative reading: W G Beasley, *The Rise of Modern Japan* (1990); A Best, J Hanhimäki, J Maiolo and K Schulze, *International History of the Twentieth Century* (2001); J Darwin, *Britain and Decolonization* (1988); J P Dunbabin, *International Relations since 1945, Vol 1, The Cold War, the Great Powers and their Allies* (1994) Vol 2, *The Post-Imperial Age, The Great Powers and the Wider World* (1994); D Fieldhouse, *Black Africa, 1945-1980* (1986); Goldschmidt, *A Concise History of the Middle East*; R Holland, *European Decolonization, 1918-81* (1985); W Keylor, *The Twentieth Century World* (1984); S Sarkar, *Modern India, 1885-1947* (1983); J Spence, *The Search for Modern China* (1990); M Yapp, *The Near East since the First World War* (1991); Skidmore and Smith, *Modern Latin America* (2005).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

HY116

International Politics since 1914: Peace and War

This information is for the 2019/20 session.

Teacher responsible: Prof David Stevenson SAR.3.11

Availability: This course is compulsory on the BSc in International Relations and History. This course is available on the BA in History, BA in Social Anthropology, BSc in Government and History, BSc in International Relations, BSc in International Relations and Chinese, BSc in Politics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course offers an overview of international politics since 1914, providing a factual grounding and surveying the main historiographical debates. Lectures and classes examine the origins, course, and aftermath of the First World War; the Great Depression, appeasement, and the origins of the Second World War in East Asia and Europe; the course and aftermath of the Second World War and the global origins of the Cold War: and aspects of the Cold War world, including decolonization, European integration, the Arab-Israeli conflict, the 'American war' in Vietnam, and peaks and troughs of tension between the superpowers from the Cuban Missile Crisis to détente. The course also addresses the history of international organizations and of peace movements. It closes with the end of the Cold War and the origins of the Persian Gulf/Iraq wars of 1991 and 2003.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

There will be a reading week in the Michaelmas and the Lent terms. There will be a revision lecture and class in the Summer Term.

Formative coursework: Students will be required to write three 2,000-word essays during the course of the year, two in MT and one in LT, from topics chosen from a past examination paper or designated in the course reading list, and in addition to complete a one-hour mock examination in LT. Essays and mock examination do not form part of the final course assessment. However, they are required components of the course.

Indicative reading: A detailed course outline and reading list, subdivided by weekly topics, will be found in the HY116 Moodle site. The following works offer useful background: students should consider reading one of them in advance: A. Best, J. Hanhimäki, J. Maiolo, K. E. Schulze, *International History of the Twentieth Century and Beyond* (2015); W R Keylor, *The Twentieth Century World and Beyond: an International History since 1900* (2011).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

HY118

Faith, Power and Revolution: Europe and the Wider World, c.1500-c.1800

This information is for the 2019/20 session.

Teacher responsible: Dr Paul Keenan SAR.2.13

Availability: This course is available on the BA in History, BA in Social Anthropology, BSc in Government and History, BSc in International Relations and History, BSc in Politics, BSc in Politics and History, BSc in Politics and International Relations and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides an introduction to the

international history of the early modern period by examining the complex political, religious, military and economic relationships between Europe and the wider world. The period between 1500 and 1800 enables the course to introduce students to a crucial period in international history. In political terms, it covers the rise of major dynastic states, with increasingly centralised institutions and concepts such as absolutism to promote the authority of the monarch, as well as the challenges to that authority and growing interest in political and social reform, culminating in the revolutions examined at the end of the course. Internationally, the period witnessed the gradual consolidation of leading European powers, as reflected in the Treaty of Westphalia (1648), with formerly peripheral states emerging to challenge their position by the early eighteenth century. At the same time, the rise of major Islamic empires in Eurasia and the growing contact between Europe and the wider world provide students with important points of comparison between European and non-European states. The intellectual, religious and cultural developments of this period provide an important context for these major political events. The course will discuss the influence of key movements, such as the Renaissance, the Scientific Revolution and the Enlightenment, which re-ignited an interest in the Classical past and fostered a culture of rational enquiry into the natural world. Yet religion remained a vital component in the world-view of contemporaries, whether Christian, Muslim, or Jewish. This world-view was subject to challenges throughout the period, as during the Reformation, and often sought to impose its own orthodoxy, whether through religiously-motivated conflicts or the persecution / conversion of certain groups. The course seeks to familiarise students with some of the most important issues and current debates on these aspects of this period. While its scope is necessarily broad in nature, the course will help students to deal with the dynamics of continuity and change over a long period of time.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures, 10 hours of classes and 1 hour of workshops in the LT. 1 hour of lectures and 1 hour of classes in the ST. There will be a reading week in the Michaelmas and the Lent terms and a revision lecture and class in the Summer Term.

Formative coursework: Students will be expected to produce 2 essays in the MT and 1 essay in the ST. The third formative essay is a mock exam answer, which will be written by students as part of their revision during the Easter break, then graded by teachers and given written feedback in the first week of Summer Term.

Indicative reading: Beat Kümin (ed.), *The Early Modern World*, 2nd Edition (2014) D208 E81. Charles Parker, *Global Interactions in the Early Modern Age, 1400–1800* (2010) HN13 P23. Euan Cameron (ed.), *Early Modern Europe: An Oxford History* (2001) D228 E11. Chris Cook and Philip Broadhead, *The Routledge Companion to Early Modern Europe, 1453-1763* (2006) D208 C77. William Doyle, *The Old Order in Europe, 1660-1800* (1992) D273.A3 D75. Marshall Hodgson, *Rethinking World History: Essays on Europe, Islam and World History* (1993) D21.3 H69. Stephen F. Dale, *The Muslim Empires of the Ottomans, Safavids and Mughals* (2010) DS292 D13. Jack Goldstone (ed.), *Revolution and Rebellion in the Early Modern World* (1991) D210 G62. K. N. Chaduri, *Asia before Europe: Economy and Civilisation of the Indian Ocean from the Rise of Islam to 1750* (1990) DS339 C49

Assessment: Exam (50%, duration: 2 hours) in the summer exam period. Project (50%, 10000 words) in the LT. Please note that this course has an assessed group project, which forms 50% of the final course grade. This project consists of a final piece of work, of no more than 10,000 words, which is written by all members of the group and submitted at the end of LT. The grade for this project is then shared by the group's members.

HY119

Thinking Like A Historian

This information is for the 2019/20 session.

Teacher responsible: Dr Taylor C. Sherman SAR M.10

Availability: This course is compulsory on the BA in History and BSc in International Relations and History. This course is available on the BSc in Politics and History. This course is not available as an outside option. This course is available with permission to General Course students.

This course is optional for General Course students whose home department is International History. This course is optional for first year BSc Government and History students. Students for whom the course is optional must commit to the course when they choose it.

Course content: This course offers hands-on tutorials in the skills required to get the most out of classes and write essays for History courses. Students are taken through each of the skills required: reading well and taking good notes; asking good questions of sources, classmates and teachers; turning notes into essays; developing persuasive arguments in essays and presentations; identifying and using historiography; writing well; revision and improvement. A training session on presentation skills is also included.

Teaching: 7 hours and 30 minutes of workshops in the MT. 1.5 hour workshop each week in weeks 2, 3, 4, 5, and 7 of the Michaelmas Term only.

Formative coursework: Formative work for this course involves step-by-step drafting of an essay for HY113 or HY116.

Indicative reading: Ludmila Jordanova, *History in Practice* (2nd edn., 2016). Mary Abbott, *History Skills* (2nd edn, 2008). Black and MacRaidl, *Studying History* (3rd edn. 2007).

Assessment: There is no summative assessment for this course.

HY200

The Rights of Man: the History of Human Rights Discourse from the Antigone to Amnesty International

This information is for the 2019/20 session.

Teacher responsible: Dr Timothy Hochstrasser Sardinia House 2.14

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Human Rights are often assumed to have a precise twentieth-century origin in the 1948 Universal Declaration or in the succeeding decades of increasing activism. However, the history of human rights discourse and its practical impact emerged as only the latest stage of a sequence of intellectual debates and real-life struggles in specific historical settings over political, religious, economic rights, broadly defined. Different cultural milieus have produced a variety of contexts for working out tensions between claims by individuals or minorities for autonomy on the one hand and the rival demands of collective obligation and identity on the other.

This course will seek to explore an (inevitably selective) range of these historical contexts in order to demonstrate the continuity of perennial themes of conflict between the claims of individual actors and corporate institutions, whether states, churches, empires or other institutions, while also showing how and when key changes take place in the recognition of rights of political action, conscience, property ownership, gender identity and workers' rights etc. The growth of toleration and free speech, the abolition of slavery and torture, and the role of Declarations of Rights will all be examined, but less familiar subjects will also find their place. The contribution of the conceptual legacy and historical

inspiration of Greece and Rome will be recognised as will the crucial role of the political thought of the High Middle Ages, and at the other end of the course specific connection will be made to the recent development of human rights organisations.

In each session a contrasted selection of contemporary writings will be studied to recover the intellectual framework of the discussion and the role of the dispositive political, social, and economic circumstances of the debate will also be considered.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

There will be a reading week in week 6 of the MT and the LT. Students will be expected to read essential primary and secondary material for each weekly meeting, to participate fully in class discussions and offer presentations. Both participation and presentations will form part of summative assessment.

Formative coursework: There will be one essay of 3,000 words to be submitted in the Michaelmas Term.

Indicative reading: Michael Barnett, *Empire of Humanity: A History of Humanitarianism* (Ithaca, 2011)

Assessment: Essay (35%, 3500 words) in the LT.

Essay (35%, 3500 words) in the ST.

Class participation (15%) and presentation (15%) in the MT and LT.

HY206

The International History of the Cold War, 1945-1989

This information is for the 2019/20 session.

Teacher responsible: Dr Peter Millwood SAR 3.14

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The Cold War dominated the second half of the 20th century, but until recently we had only an imperfect sense of what it was all about. Historians wrote about it, of necessity, from within the event they were seeking to describe, so that there was no way to know its outcome. And because only a few Western countries had begun to open their archives, these accounts could only reflect one side of the story. Cold War history, hence, was not normal history: It was both asymmetrical and incomplete. The end of the Cold War and the subsequent partial opening of Soviet, Eastern European, and Chinese archives have revolutionised the field. Everything we thought we knew is up for reconsideration, whether because of the new documents available to us, or as a consequence of being able to reflect on how it all came out in new ways - given that the historical discipline has evolved methodologically as well.

The course will provide an introduction to key topics in the new, international history of the Cold War. The selected topics vary from the study of specific Cold War crises to the exploration of broader themes such as the roles of ideology and technology.

Course objectives: (i) To equip students with comprehensive knowledge of the international politics of the Cold War; (ii) To offer a firm basis for more advanced historical work in this area; (iii) To provide some of the factual grounding and conceptual apparatus necessary to understand the contemporary world.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Students are expected to keep up with readings for weekly seminars, and to participate in the class discussions.

There will be a reading week in the Michaelmas and the Lent Terms.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: Barrass, G, *The Great Cold War* (2009); Gaddis, J L, *The Cold War: A New History*; Hanhimäki, J & Westad, O A, *The Cold War: A History in Documents and Eyewitness Accounts*; Leffler, M P, *For the Soul of Mankind* (2007); Leffler, M P & Painter, D, *Origins of the Cold War* (2005); Reynolds, D, *One World Divisible: A Global History since 1945* (2001); Sarotte, M, 1989 (2009); Westad, O A, *Reviewing the Cold War: Approaches, Interpretations, Theory* (2000); Westad, O A, *The Global Cold War* (2005);

Assessment: Essay (35%, 3500 words) in the LT.

Essay (35%, 3500 words) in the ST.

Presentation (15%) and class participation (15%) in the MT and LT.

HY221

The History of Russia, 1682-1825

This information is for the 2019/20 session.

Teacher responsible: Dr Paul Keenan SAR 2.13

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

May be taken by 3rd years, General Course students and as an outside option where regulations, timetabling constraints and teaching capacity permit.

Course content: The course provides an introduction to the history of Russia in all its major aspects from the reign of Peter I to the accession of Nicholas I. The following topics are studied: Russia in 1682; the impact of the reign of Peter I on the internal development and international position of Russia; the social and political developments of the period 1725-1762; popular revolt during the eighteenth century; the domestic and foreign policies of Catherine II; the impact of the Enlightenment and the French Revolution on Russia; Russia and the Napoleonic Wars; the failure of constitutional and social reform in the first quarter of the nineteenth century; the policies towards non-Russians within the empire; the Decembrist Revolt of 1825. The course is taught

chronologically but several main themes are addressed throughout the period. These themes include: tsarist rule as an instrument of both reform and reaction; the relationship between the ruler and the major social groups; the significance of serfdom for Russia's economic, institutional and legal development; the 'missing' middle class; the nature and impact of Western ideas on Russia; the role of the Orthodox Church within the Russian state; the growth of a disaffected elite in Russia; the relationship between Russia and other European powers; the development of Russia as a 'great power'; the policies towards the non-Russians in the multi-ethnic empire; the growth of a Russian national consciousness.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a reading week in Michaelmas and Lent terms. There will be a revision lecture in Summer Term.

Formative coursework: Students will be required to write three essays, one of which will be done under examination conditions

Indicative reading: A full reading list will be provided at the start of the course. Useful introductory works include: J Hartley, *A Social History of the Russian Empire 1650-1825*; S Dixon, *The Modernization of Russia: 1682-1825*; M Raeff, *Understanding Imperial Russia: State and Society in the Old Regime*; J Billington, *The Icon and the Axe: An Interpretive History of Russian Culture*; A Kahan, *The Plow, the Hammer and the Knout: An Economic History of 18th Century Russia*; P Dukes, *The Making of Russian Absolutism, 1613-1801*; E Kimerling-Wirtschafter, *Russia's Age of Serfdom*; D Saunders, *Russia in the Age of Reaction and Reform, 1801-1881*.

Assessment: Exam (85%, duration: 3 hours) in the summer exam period.

Presentation (15%).

HY226

The Great War 1914-1918

This information is for the 2019/20 session.

Teacher responsible: Professor David Stevenson, Sardinia House 3.11

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

May be taken by 3rd years where regulations permit.

Course content: The international and comparative history of the First World War. The military, diplomatic, political, economic, social, and cultural aspects of the conflict will all receive attention. The origins and outbreak of the war; the military campaigning on the Western, Eastern, Italian, and extra-European Fronts; the war at sea and in the air; the intervention of neutral powers, war aims and attempts to negotiate peace; domestic politics in the belligerents; the war's economic and social effects; the experience of combat; the Russian Revolution and the road to the Armistice; the impact of the war on the international system and on individual and collective consciousness.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a reading week in the Michaelmas and the Lent terms and a revision lecture in the Summer Term.

Formative coursework: Students will be required to write one essay in the MT and two essays in the LT. They will also be required to do a timed mock exam essay at the end of LT.

Indicative reading: C. Clark, *The Sleepwalkers: How Europe Went to War in 1914* (2013); N. Ferguson, *The Pity of War* (1998); A. Watson, *Ring of Steel: Germany and Austria-Hungary in World War I* (2014); A. Millett & W. Murray (Eds), *Military Effectiveness, Volume I. The First World War* (1988); H. Strachan (ed), *The Oxford*

Illustrated History of the First World War (1998); H. Strachan, *The First World War: Vol. I. To Arms* (2005); D. Stevenson, *1914-1918: The History of the First World War* (2004); A. Kramer, *Dynamic of Destruction, Culture and Mass Killing in the First World War* (2007); R. Chickering, *Imperial Germany and the Great War, 1914-18* (1998); J. Winter (ed), *The Cambridge History of the First World War* (3 vols, 2014).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

HY232

War, Genocide and Nation Building. The History of South-Eastern Europe 1914-1990

This information is for the 2019/20 session.

Teacher responsible: Prof Anita Prazmowska SAR M.09

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

May be taken by 3rd years where regulations permit.

Course content: The course aims to explain the history of these regions as expressed and moulded by the peoples and their leaders during a particularly turbulent period in European History. Attention will be paid to two European wars and the Russian Revolution, all of which had a profound impact on these countries' freedom to determine their destiny. The study of the inter-war period will include a debate of the reasons for the collapse of democratic institutions, the emergence of patriotic and anti-Semitic movements, economic failures and responses to German and Italian aggression. The establishment, development and the collapse of Soviet domination of the region after the Second World War will be discussed on the background of ethnic and inter ethnic conflicts. In addition political, economic and cultural theories, which formed the background to the emergence of the independent states of Eastern and South Eastern Europe, will be considered. The course will develop these themes in the history of Poland, Czechoslovakia, Hungary, Bulgaria, Romania, Yugoslavia, Albania and the Baltic States. Final lectures will concentrate on the transition from Communism to democratic states. The break up of Yugoslavia and the wars in the Balkans will be considered in a separate lecture.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a reading week in Michaelmas and Lent terms, and revision session in Summer Term.

Formative coursework: One essay in the MT, one essay in the LT and a timed essay as exam preparation.

Indicative reading: R J Crampton, *Eastern Europe in the Twentieth Century* (1994); S K Pavlowitch, *A History of the Balkans 1804-1945* (1999); I Y T Berend, *Decades of Crisis. Central and Eastern Europe before World War II* (1998); A J Prazmowska, *Eastern Europe and the Outbreak of the Second World War* (1999); P G Lewis, *Central Europe since 1945* (1994); T Rakowska-Harmstone, *Communism in Eastern Europe* (1979); G Swain & N Swain, *Eastern Europe since 1945* (1993); F Fejto, *A History of the People's Democracies; Eastern Europe since Stalin* (1971); J Rothschild, *Return to Diversity. A Political History of East Central Europe since World War II* (1990); G Stokes, *The Walls Came Tumbling Down. The Collapse of Communism in Eastern Europe* (1993).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

HY235**Modernity and the State in East Asia: China, Japan and Korea since 1840****This information is for the 2019/20 session.****Teacher responsible:** Dr Antony Best SAR 3.14**Availability:** This course is available on the BA in History, BSc in Government and History, BSc in International Relations, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

May be taken by 3rd years where regulations permit.

Course content: The course is concerned with providing a comparative political history of the major East Asian countries, China, Japan and Korea, in the period from the Opium War to the 1990s. The course is concerned with providing a comparative political history of the major East Asian countries, China, Japan and Korea, in the period from the Opium War to the 1990s. It begins by looking at the impact of the arrival of Western imperialism in the mid-nineteenth century and the respective approaches taken by Japan, Korea and China in response to this encroachment. For Japan, it covers the rise of the Meiji state, the beginnings of constitutional government and the development of Japanese imperialism. This naturally is linked with the study of Korea's failed efforts to maintain its independence; in regard to China it deals with the attempts by the Qing state to introduce reforms and the final collapse of Imperial China. It then deals with the difficulties provoked by modernization and nationalism in the first-half of the twentieth century, taking in the rise and fall of Taisho democracy and the drift towards fascism in Japan and the Guomindang's revolution and state-building and the birth of the Chinese Communist Party in China. The course then concentrates on the aftermath of the Second World War for East Asia, studying the Chinese Civil War and the emergence of the People's Republic, the course and legacy of the US occupation of Japan and the formation of the two Koreas. The last part of the course covers the development of the People's Republic under Mao and Deng, the rise of Japan as an economic superpower and the emergence of South Korea and Taiwan as economic powers.**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 9 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6 of the Michaelmas and Lent terms. There will be a revision lecture and class in the Summer Term.

Formative coursework: Students will be required to submit three 2000 word essays in all and to sit a mock exam.**Indicative reading:** A detailed reading list will be issued at the start of the course, but the following survey texts are essential: W G Beasley, *The Rise of Modern Japan*; P Duus (Ed), *The Cambridge History of Japan: The Twentieth Century*; L Eastman (Ed), *The Nationalist Era in China, 1927-1949*; J L McLain, *Japan: A Modern History*; R MacFarquhar (Ed), *The Politics of China, 1949-1989*; A Buzo, *The Making of Modern Korea*; J Spence, *The Search for Modern China*.**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.**HY239****People, Power and Protest in Latin America, c.1895 to the Present Day****This information is for the 2019/20 session.****Teacher responsible:** Dr Tanya Harmer SAR M.11**Availability:** This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations

permit and to General Course students.

Course content: HY239 is designed to provide students with an introduction to the history of Latin America from the late nineteenth century to the present day. Its focus is predominantly on Latin Americans and what happened within the region. However, the course will also explore Latin Americans' interaction with the wider world, including their pivotal and expanding relationship with the United States during the twentieth century. Major themes covered on the course include identity, citizenship and nationalism; neo-colonialism and anti-imperialism; state-building and concepts of "development"; revolution and resistance; dictatorship and violence; democratization and the struggle for social justice. Among more specific topics covered in lectures and seminars are Cuba's War of Independence; the Mexican Revolution; migration and workers' movements; the Guatemalan Revolution and the US-sponsored 1954 coup against Jacobo Arbenz's government; the Cuban Revolution; the Catholic Church and Liberation Theology; Allende's Chile and the 1973 Chilean coup; military dictatorship and anticommunism in the Southern Cone; solidarity networks and Human Rights; Central American revolutionary movements and conflict; democratization and peace; transitional justice and memory wars; the rise and fall of Latin America's Pink Tide; neoliberalism; and the struggle for indigenous and LGBT rights. In addressing these themes and topics, we will be paying particular attention to histories of race, class and gender with students encouraged to consider how different Latin Americans experienced and influenced the course of history in the region.**Teaching:** 16 hours of classes and 10 hours of workshops in the MT. 16 hours of classes and 10 hours of workshops in the LT. 1 hour of lectures in the ST.

There will be a reading week in the Michaelmas and the Lent Terms and a revision lecture in the Summer Term.

Formative coursework: Students will be required to do two presentations, to write one 2,000-word essay and one 1,000-1,500-word book review, to contribute to weekly Moodle discussion forums, and to submit a Mock exam at the start of the Summer Term. These assignments will not form part of the final assessment but they are a required component of the course, and students must complete them in order to be admitted to the course examination.**Indicative reading:** A detailed course outline and reading list, subdivided by weekly topics, will be provided at the first lecture and will also be available on Moodle and in the departmental public folders. However, the following works are useful introductions for the course:

- Appelbaum, Macpherson and Roseblatt (eds), *Race and Nation in Modern Latin America*;
- Brown, *From Frontiers to Football: An Alternative History of Latin America since 1800*;
- Burgos-Debray, (ed.), I, Rigoberta Menchú: *An Indian Woman in Guatemala*;
- Chase, *Revolution within the Revolution: Women and Gender Politics in Cuba, 1952-1962*;
- Chasteen, *Born in Blood and Fire: A Concise History of Latin America*; Dinges, *The Condor Years: How Pinochet and His Allies Brought Terrorism to Three Continents*;
- Drinot (ed), *Che's Travels: The Making of a Revolutionary in 1950s Latin America*; Guillermprieto, *The Heart that Bleeds: Latin America Now*;
- Finchelstein, *From Fascism to Populism in History*; Kelly, *Sovereign Emergencies: Latin America and the Making of Global Human Rights Politics*;
- Klaren, *Peru: Society and Nationhood in the Andes*;
- Moya, *The Oxford Handbook of Latin American History*;
- Munro, *Feminism for the Americas: The Making of an International Human Rights Movement*;
- Skidmore and Smith, *Modern Latin America*;
- Taffet and Walcher, *The United States and Latin America: A History with Documents*;
- Williamson, *The Penguin History of Latin America*

Assessment: Essay (25%, 3000 words) in the LT.

Take-home assessment (75%) in the ST.

HY240

From Empire to Commonwealth: War, Race and Imperialism in British History, 1780 to the Present Day

This information is for the 2019/20 session.

Teacher responsible: Dr Joanna Lewis room tbc

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: With support for Brexit partly explained by pundits as imperial nostalgia, the British Empire and its legacy has rarely been more political. This course offers an alternative to the hubris with a history of the complexity of the British Empire through its origins, rise, fall and legacy. Its primary focus is on understanding the experience of and the reasons for these processes. Many of the case studies are Africa focused. It covers the period from the loss of the American colonies to decolonisation, the rise of a multicultural Britain and post independent conflicts. Within the context of Britain's wider political, social and cultural history, the course will examine the following: the origins of the second empire; explorers; liberalism and racism; the expansion of colonies of white settlement; the role of missionaries; the scramble for Africa; the Victorians and popular imperialism; the contribution of empire to the First and Second World Wars; fast exit strategies; violent decolonisation; race and immigration; post-colonial dictators and the legacy of white settlers. Case studies include Britain and Zimbabwe; Idi Amin and Uganda; the Mau Mau insurgency in Kenya; plus British rule in Somaliland and the fallout of the Somali civil war.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a reading week in the Michaelmas and the Lent terms and a revision lecture in the Summer Term.

Formative coursework: 2 essays; one mock exam; class presentations.

Indicative reading: Books: John Darwin, *The British Empire Project: The Rise and Fall of the British World System, 1830-1970* (OUP 2010; (Blackwell 2004); Ronald Hyam, *Understanding the British Empire* (CUP, 2010); Ronald Hyam, *Britain's Imperial Century, 1815 to 1914* (CUP latest edn); John Newsinger, *The blood never dried: A people's history of the British Empire* (Bookmark Publications 2006); Sarah Stockwell (ed) *The British Empire: Themes and Perspectives* (Blackwell, 2007); Bernard Porter, *Absent Minded Imperialists: Empire, Society and Culture in Britain* (OUP, 2006) Bill Schwarz, *The White Man's World: Memories of Empire* (OUP, 2012); Shashi Tharoor, *Inglorious Empire: What the British Did to India* (Penguin, 2018); Peter Clarke, *Hope and Glory: Britain 1900-2000* (CUP, 2004); P D Morgan; S Hawkins (ed) *The Black Experience and the Empire* (OUP, 2004); Ashley Jackson & David Tomkins, *Illustrating Empire: A Visual History of British Imperialism* (The Bodleian Library, Oxford; 2011); James Belich, *The Settler Revolution and the Rise of the Anglo-world* (OUP, 2011); Christian Høgsbjerg, C. What is History? Methods and Debates

This information is for the 2019/20 session.

Teacher responsible: Dr Raghav Kishore SAR M.13

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: What is history? How and for what purposes do we study the past? What kinds of debates and controversies result from historical study? The purpose of this course is to provide undergraduate students with an introduction to these important issues. We will discuss the history of history from ancient times to the present and how it has changed as an intellectual pursuit over the years. We will think about different types of history – for example, international history, intellectual history, social history, economic history, cultural history or the history of religion – and we will discern their different concerns and priorities. We will analyse some of the most important themes in modern historical study: empires and colonialism, war and conflict, nationalism. We will outline different ideological frameworks for conducting historical research, for example Marxism, postmodernism, and gender studies. We will debate some of the key philosophical questions surrounding historical research: for example, how historians determine facts, and whether or not historical study can ever be truly objective? Finally, we will look at different ways of presenting the past, from traditional history books to museums and TV history. The course is highly recommended for students who may wish to continue studying history beyond bachelors level.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in the Michaelmas and Lent terms and a revision session in the Summer Term.

Formative coursework: Students will be expected to produce 2 essays in the MT.

Indicative reading: A full reading list will be provided at the start of the course but will include the following introductory surveys: Berger, Feldner and Passmore, *Writing History*; D Cannadine (Ed), *What is History now?*; L Jordanova, *History in Practice*; R Evans, *In Defence of History*; J Tosh, *The Pursuit of the Past*; M Bloch, *The Historian's Craft*; R G Collingwood, *The Idea of History*; T. Garton Ash, *The File*.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Essay (25%) in the LT.

HY242

The Soviet Union: Domestic, International and Intellectual History

This information is for the 2019/20 session.

Teacher responsible: Prof Vladislav Zubok SAR 3.13

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other

programmes where regulations permit and to General Course students.

Course content: This course will cover the history of the Soviet Union, from its inception as a combination of the Russian Revolution and a Bolshevik dictatorship, through the Stalinist terror and World War II, its role as an international centre of the 'socialist camp' during the Cold War, to the failure of Gorbachev's reforms and a surprisingly peaceful demise in 1991. Many courses on Soviet history deal separately with politics, social history, foreign policy, and intellectual/cultural developments. This course seeks to connect disparate threads into one historical and analytical narrative by focusing on major issues confronting the interpretation of the Soviet Union and its role in the international history of the twentieth century. The course takes advantage of the extraordinary wealth of new sources about Soviet history that appeared in recent years. The following questions will be examined during this course. Was the Soviet Union a continuation or rejection of its Russian heritage? What were the sources of Soviet legitimacy, modernization, and expansionism? What was Stalinism about? Why and how did the Soviets win the war against the Nazis? Can Soviet history be better understood as a multinational, imperial, or transnational history? How did the outside world affect Soviet domestic evolution? Why did the militarily successful Soviet state that emerged strongly from the Second World War then collapse so suddenly only a few decades later? Finally, the course will examine the legacy of the Soviet Union and the extent to which there is a Soviet 'path dependency' for Putin's Russia.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

There will be a reading week in the Michaelmas and the Lent terms and a revision class in the Summer Term.

Formative coursework: Students will be required to write two 2,000-word essays (one in MT and one in LT) and make two class presentations (one in MT and one in LT).

Indicative reading: Vladislav Zubok, *A Failed Empire. The Soviet Union in the Cold War from Stalin to Gorbachev* (2007); Vladislav Zubok, *Zhivago's Children: The Last Russian Intelligentsia* (2009); Martin Malia, *The Soviet Tragedy. A History of Socialism in Russia* (Free Press, 1995); Ronald Suny, *The Structure of Soviet History. Essays and Documents* (Oxford, 2002); Terry D. Martin, *The affirmative action empire: nations and nationalism in the Soviet Union 1923-1939* (Ithaca: Cornell University Press, 2001); Sheila Fitzpatrick, *Everyday Stalinism. Ordinary Life in Extraordinary Times* (Oxford, 2000); Jochen Hellbeck, *Revolution on my mind. Writing a Diary under Stalin* (Cambridge, MA: Harvard University Press, 2006); Varlam Shalamov, *Kolyma Tales* (New York: Norton, c1980); Catherine Merridale, *Ivan's War. Life and Death in the Red Army, 1939-1945* (Picador, 2007); Elena Zubkova, *Russia After the War: Hopes, Illusions, and Disappointments, 1945-1957* (E.M.Sharp, 1998); Geoffrey Hosking, *Rulers and Victims: Russians in the Soviet Union* (Belknap, 2006); Yuri Slezkine, *The Jewish Century* (Princeton, 2006); relevant chapters on the Soviet Union and Soviet foreign policy from Melvyn Leffler and Arne Westad, eds, *The Cambridge History of the Cold War* (2010), vols. 1-3; Katerina Clark and Evgeny Dobrenko, with Andrei Artizov and Oleg Naumov, *Soviet Culture and Power. A History in Documents, 1917-1953* (New Haven, Yale University Press, 2007); William Taubman, *Khrushchev. The Man and His Era* (W.W.Norton, 2003); Alexei Yurchak, *Everything Was Forever, Until It Was No More. The Last Soviet Generation* (Princeton, 2005); Yegor Gaidar, *Collapse of an Empire: Lessons for Modern Russia* (Washington, Brookings, 2007).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

HY243

Islamic Empires, 1400 - 1800

This information is for the 2019/20 session.

Teacher responsible: Dr Gagan D. S. Sood. SAR 2.07

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None.

Course content: Following the transformations wrought by the Mongols in the thirteenth and fourteenth centuries, the Ottoman, Safavid and Mughal empires arose in India and the Islamic heartlands. These 'Islamic' empires would go on to rank among the wealthiest and most powerful regimes of the early modern world. Supported by an array of provincial and local elites, they were at the zenith of their power in the sixteenth and seventeenth centuries, spanning a region that extended from the Mediterranean to the Bay of Bengal, from Yemen to the Crimea. Their populations were producers, consumers, importers and exporters of goods critical for global trade; their location accorded them a vital role in the flow of ideas and information; there was a remarkable flowering of the arts in the period; and conversion to the region's dominant religious tradition, Islam, continued apace, breaching new frontiers. By the eighteenth century, however, the Islamic empires were reduced to shadows of their former selves, with power monopolised by a kaleidoscope of smaller regimes vying with each other for supremacy. This struggle paved the way for the region's later incorporation into Europe's global empires of modern times, and the emergence of today's Middle East and South Asia. This course will examine the Ottoman, Safavid and Mughal empires, and the larger world to which they belonged, from their formation in the fifteenth and early sixteenth centuries to the 'unscripted possibilities' of the eighteenth century. We will study the ways in which temporal power was institutionalised; the patterns of daily life found in urban and rural settings, as well as on the frontier; Islam in theory and in practice, and its relationship to the region's other major religious traditions; diplomacy within and without the Islamic world; the prevailing techniques and technologies of warfare; inherited and collective knowledge of other lands, near and far, and the everyday movement of people, goods and news; the signal achievements in the literary, visual and architectural realms; secular changes to the region's societies and economies; early modern millenarianism, fundamentalism and reformism; and the eighteenth-century demise of the Islamic empires, with the concomitant emergence of successor regimes that shaped the paths to modernity embarked upon within the region.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

In the ST, there will be a mock exam (1 hour) and revision class (1 hour). There will be a reading week in both MT and LT.

Formative coursework: Students are expected to submit two 2000-word essays (one in MT, one in LT), give an oral presentation in class, and sit a 1-hour mock exam in ST.

Britain's Atlantic World, 1688-1837

This information is for the 2019/20 session.

Teacher responsible: Dr Oscar Webber

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course explores the history of Britain in the Atlantic world during the 'long eighteenth century,' from the Glorious Revolution in 1688 to the accession of Queen Victoria in 1837. It is impossible fully to understand the profound transformations in British political, economic and cultural life in this period without an understanding of Britain's growing presence in the Atlantic, in both its restive colonial empire and in the wider Atlantic political economy. The course focuses on three important forces that shaped Britain's presence in the Atlantic world: the intermittent, nearly century-long war with France, the rapid expansion of British settler colonies and concomitant rise of American republicanism, and the expansion and entrenchment of slave labour in plantation societies in South America, the Caribbean, and southern North America. As Britain's empire expanded into the Americas, domestic British society was transformed – by Enlightenment innovations in science and political organisation, by transformations in social life and gender politics, and by rebellions in Scotland and Ireland that led to the consolidation of Great Britain as a single political unit. This course explores the many connections between the expanding British colonial empire and the increasingly confident and sophisticated British state, and frames these connections in the crucible of a dynamic and often violent Atlantic world.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. Students on this course will have a reading week in Week 6 of the MT and the LT.

Formative coursework: Students will be expected to produce 1 formative primary source exercise (300 words) in the MT and 1 formative essay (1,500 words) in the LT.

The United States and the World since 1776

This information is for the 2019/20 session.

Teacher responsible: Dr Thomas Ellis

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: This course explores how the United States has engaged the wider world since 1776. Throughout, the course analyzes state-to-state policy-making alongside a wide array of non-state actors and institutions that have also shaped U.S. global power. It opens with foundational concerns in the field about the nature of American exceptionalism—the belief that the United States is fundamentally different than other nation-states and empires—before exploring themes such as settler colonialism, race, gender, capitalism, imperialism, immigration, and transnationalism. The course arc will begin in the earliest founding of the American Republic. Since independence, the nation looked outward to the vast expanse of territory westward across the continent. It spearheaded expansion through indigenous land dispossession and contests with competing European empires. When the United States met territorial limits to continental expansion at the end of the nineteenth century, it initiated an era of formal overseas imperialism in the Pacific and Caribbean. In and through two World Wars, the United States jockeyed for a lead role in constructing an international global order organized around commitments to self-determination. These commitments rang hollow, however, as the United States intervened across the Third World as part of a Cold War contest with the Soviet Union to win hearts, minds, and allies. With decolonization movements, the international order began to fragment, a process accelerated by a new era of globalization. The course will trace this arc and end by considering such transnational forces, including migration, environmentalism, humanitarianism, financialization, and terrorism, which have underscored the recent emergence of a nationalist brand of anti-globalization in the United States and wider world. Throughout, we will ask, what historical conditions incited and enabled the projection of American power in the world? How have forces of globalization impacted the nation-state?

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Students on this course will have a reading week in Week 6 of MT and LT.

Formative coursework: Students will be expected to produce 2 essays in the MT and LT.

Two 2,000 word essays due throughout the year.

A mock exam may be offered as part of exam revision arrangements.

Indicative reading: Walter Hixson, *American Foreign Relations: A New Diplomatic History* (New York: Routledge, 2016). Jay Sexton, *The Monroe Doctrine: Empire and Nation in Nineteenth Century America* (New York: Hill and Wang, 2012). Anthony F.C. Wallace, *The Long, Bitter Trail: Andrew Jackson and the Indians* (New York: Hill and Wang, 1993). Assessment: Essay (25%, 3000 words) in the LT.

Take home exam (75%) in the ST.

Take-away exam, released via Moodle.

HY246

The Global Caribbean: Colonialism, Race and Revolutions 1780s-1980s

This information is for the 2019/20 session.

Teacher responsible: Dr Imaobong Umoren SAR 3.07

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: Lying southeast of North America, north of South America and east of Central America, the Caribbean, while geographically small, has played a major role in global history. Over the course of five-hundred-years the Caribbean has been at the centre of clashes and encounters between indigenous peoples, Amerindians, Europeans, Africans, and Asians all of which has led to momentous political, social, economic and cultural change. Far from simply being a tropical tourist paradise or tax haven, the Caribbean is widely recognised as being a key site of modernity through the role the region has played in global historical processes of exploration, colonialism, transatlantic slavery, capitalism, revolution, wars, migrations and diasporas. Critical movements have emerged from the Caribbean ranging from pan-African consciousness, creolisation, Garveyism, Rastafarianism, and multiculturalism all of which had an impact in Africa, Asia, the United States, Europe and Latin America. The Caribbean has spawned foundational writers, artists, and intellectuals like José Martí, C L R James, Una Marson, Eric Williams, Nicolás Guillén, Sam Selvon, Jean Price-Mars, Aimé Césaire, Frantz Fanon, Fidel Castro, Claudia Jones, Walter Rodney, Bob Marley, and contemporary figures such as Edwidge Danticat and Junot Díaz who have provided critical commentary on the region and its links to the wider world.

This course delves into all of these issues and presents an overview of Caribbean political, economic, social and cultural history from the height of transatlantic slavery to the postcolonial era in the 1980s. It especially focuses on the three central themes of American and European colonialism, race and revolution and takes an expansive view of the Anglophone, Francophone, and Hispanic Caribbean. Wherever possible, comparisons and contrasts with the United States and Latin America are drawn upon. Weekly topics that will be explored in lectures and classes include: European Colonial Encounters; transatlantic slavery and the making of 'race'; the structure of slave societies: plantations and Maroons; the Haitian Revolution; abolition, apprenticeship and emancipation in the British and French Caribbean; Asian indentureship and the continuation of slavery in the Hispanic Caribbean; Independence, Wars, and the rise of US imperialism in the Hispanic Caribbean; inter-regional labour migrations and radicalism; the First World War; extra-regional labour migrations, black internationalism, Negritude, and Afro-Cubanismo; the US Occupation of the Dominican Republic and Haiti; economic Depression and Labour Rebellions; the Second World War and Departmentalisation in the Anglophone and Francophone Caribbean; the Cold War; the Cuban Revolution and Caribbean Federation; Decolonization in the Anglophone Caribbean; the Black

Power Movement; neo-colonialism, tourism, and violence in the postcolonial era; the politics of reparations.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

There will be a reading week in week 6 of the Michaelmas and the Lent Terms.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading:

HY247

The History of Modern Turkey, 1789 to the Present

This information is for the 2019/20 session.

Teacher responsible: Prof Marc Baer SAR 3.17

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: The history of modern Turkey provides the student an important opportunity to examine a crucial nation bridging Europe and the Middle East, through the lenses of democracy and dictatorship, globalisation and nationalism, revolution and reform, and tolerance and genocide. This course explores late Ottoman and Turkish Republican history from 1789

to the present. The following topics are studied: Global change and the Ottoman 'New Order', 1789-1807; the reforms of Mahmut II and the Tanzimat; reform and repression in the Hamidian era, 1876-1908; Salonica as window onto Ottoman transformations; the revolution of 1908; the Committee of Union and Progress and the Balkan Wars, 1908-1913; Talat Pasha, World War I, and the Armenian genocide; the collapse of the empire; Greco-Turkish wars, 1918-1922; Mustafa Kemal and the new Republic, 1923; the revolutionary changes wrought by Kemalism, 1923-1945; Turkey and World War II; transition to democracy, 1945-1950; democratising reforms, 1950-1960; the three coups of 1961, 1970, and 1980; political Islam in Turkey since the 1970s; the Turkish diaspora in Europe; the Kurdish issue since the 1980s; opening up to the world, 1983-1991; and Recep Tayyip Erdogan: new Atatürk, new caliph.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

There will be a reading week in Week 6 of the Michaelmas Term and Week 6 of the Lent Term. There will be a revision lecture in Summer Term.

Formative coursework: Students are required to submit one essay of 3500 words in the Michaelmas Term.

Indicative reading: A full reading list will be provided at the start of the course. The textbook is Erik J. Zürcher, *Turkey, A Modern History*, 4th ed. Other readings will include Caroline Finkel, *Osman's Dream: The History of the Ottoman Empire*; Selim Deringil, *The Well-Protected Domains: Ideology and the Legitimation of Power in the Ottoman Empire, 1876-1909*; Marc David Baer, *The Dönme: Jewish Converts, Muslim Revolutionaries, and Secular Turks*; Hans-Lukas Kieser, *Talaat Pasha: Father of Modern Turkey, Architect of Genocide*; Eugene Rogan, *The Fall of the Ottomans: The Great War in the Middle East*; Ronald Grigor Suny, "They Can Live in the Desert but Nowhere Else": *A History of the Armenian Genocide*; Erik Zürcher, *The Young Turk Legacy and Nation Building: From the Ottoman Empire to Atatürk's Turkey*; Vamik Volkan and Norman Itzkowitz, *The Immortal Atatürk: A Psychobiography*; Hale Yilmaz, *Becoming Turkish: Nationalist Reforms and Cultural Negotiations in early Republican Turkey, 1923-1945*; Corry Gutstadt, *Turkey, the Jews, and the Holocaust*; Esra Özyürek, *Nostalgia for the Modern: State Secularism and Everyday Politics in Turkey*; *The Kurdish Question in Turkey: New Perspectives on Violence, Representation, and Reconciliation*, edited by Cengiz Gunes and Welat Zeydanlioglu; and Soner Cagaptay, *The New Sultan: Erdogan and the Crisis of Modern Turkey*.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (35%, 3500 words) in the LT.

Presentation (15%) in the MT and LT.

HY300

Dissertation

This information is for the 2019/20 session.

Teacher responsible: Prof Steven Casey SAR 2.10

Availability: This course is compulsory on the BA in History. This course is available on the BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is not available as an outside option nor to General Course students.

Course content: A dissertation of not more than 10,000 words on a topic to be approved by the candidate's supervisor. It is designed to allow a detailed and thorough exploration of a topic of interest to the candidate. The topic should fall within the parameters of the degree course. It should include the examination of primary sources, in printed, manuscript and/or digital form.

Teaching: 1 hour of workshops in the MT. 2 hours of workshops in the LT.

Candidates should secure in the course of the LT of their second year the agreement of a member of academic staff in the

Department of International History (who need not be their advisor or tutor) to supervise a suitable topic, and then submit a title to the Undergraduate Programmes Administrator by published deadline. Supervisors can be expected to offer advice on the scholarly literature, guidance on research and writing, and detailed comments on a sample of up to 3000 words.

Assessment: Dissertation (100%, 10000 words) in the ST.

The dissertation must be submitted to the Undergraduate

Programmes Administrator by the published deadline in Week 1

of ST in the student's third year. It should be typewritten. Precise

details on length, format, presentation and deadline will be

issued by the Department through the workshops and Moodle.

Candidates may be called for an oral examination if the Examiners

wish to satisfy themselves that the dissertation is the candidate's

own work.

HY311

Limited War During the Cold War Era: The US in Korea (1950-53) and Vietnam (1954-75)

This information is for the 2019/20 session.

Teacher responsible: Prof Steven Casey SAR 2.10

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Based on a variety of primary sources, and a wide range of secondary reading, this course will explore US attitudes and policies towards and during the Korean and Vietnam Wars.

The problems of limited war; the origins of the Korean War; Truman

and the decision to intervene; Inchon and the decision to cross

the 38th parallel; the Chinese intervention and its consequences;

the US home front during the Korean War; the Truman-MacArthur

Controversy; Korea and US Cold War strategy: NSC-68, NATO, and

'The Great Debate'; fighting while negotiating, 1951-53; legacies;

JFK and Vietnam; LBJ and the decision to escalate; LBJ as

Commander in Chief; the war on the ground in Vietnam: 'search

and destroy' versus 'hearts and minds'; the Tet Offensive; the

media and military at war; the US home front during the Korean

War; Vietnam and US Cold War strategy: détente and triangular

diplomacy; fighting while negotiating, 1969-73; legacies.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Students are expected to keep up with the readings (documents

and secondary literature) for the weekly meetings, and to

participate in seminar discussions.

There will be a reading week in the Michaelmas and the Lent terms

and a revision session in the Summer Term.

Formative coursework: Students will be required to write two

essays and two gobbet exercises during the year.

Indicative reading: A detailed course outline and reading list,

as well as handouts, will be available as the start of the course.

The following works are recommended: Steven Casey, *Selling*

the Korean War (2008); William Stueck, *Rethinking the Korean*

War (2002); Burton I. Kaufman, *The Korean War: Challenges in*

Crisis, Credibility and Command (1986, or later edition); Rosemary

Foot, *The Wrong War: American Policy and the Dimensions of*

the Korean Conflict, 1950-53 (1985); George Herring, *America's*

Longest War (various editions); David L. Anderson, *Shadow on the*

White House: Presidents and the Vietnam War (1993); David L.

Anderson (ed), *The Columbia History of the Vietnam War* (2011);

Robert J. McMahon, *The Limits of Empire: The United States and*

Southeast Asia since World War II (1999).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

HY315

The European Enlightenment, c.1680-1799

This information is for the 2019/20 session.

Teacher responsible: Dr Timothy Hochstrasser SAR 2.14

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The European Enlightenment of the eighteenth century is conventionally taken to be the period in which the disciplines of philosophy, history, economics and anthropology, and other social sciences began to emerge as discrete disciplines independent of state and church control. This course therefore sets out to explore the new ideas generated in these areas as a result of a fresh understanding of man's place in the physical world. But while the course aims to look at ideas and concepts in themselves it is also concerned with the way that they were applied in political practice and adapted to provide new understanding of social structures, or as contemporaries put it, a 'Science of Man'. The chronological context of the Enlightenment is taken to be Europe between the reign of Louis XIV and the end of the Directory in France in 1799. Within this broad framework the following large themes provide the subject matter of both lectures and classes in the Michaelmas Term: the impact of the Scientific Revolution upon institutionalised religion; the emergence of a 'Republic of Letters'; English and French critiques of absolutist monarchy; the creation of scientific approaches to the study of ethics and politics; the political theory of enlightened despotism; the intellectual origins of the French Revolution; intellectual encounters with the New World; the concept of a Counter-Enlightenment; and the move from a private to a public sphere of cultural inquiry. The contributions of Newton, Locke, Voltaire, Montesquieu, and Rousseau - among others - will be highlighted. In the Lent Term the focus will be more narrowly directed to the study of individual key authors and texts and on the impact of enlightened ideas in particular countries, notably England, France, Prussia, Russia and the Habsburg Monarchy. Space will also be found for an examination of the contribution of enlightened thought to the visual arts and music in the 18th century. The course gives students the chance to consider whether or not the Enlightenment was an era of European history that fostered the application of reason to political and social reform, an end to censorship, torture, and hierarchical social models, and a beginning to religious toleration and recognizably modern concepts of human rights, international law and social equality. The focus throughout will be on the writings of the philosophes themselves and their attempts to convert theoretical innovation into practical reform through the agency of bureaucracy and rulers.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

There will be a reading week in week 6 of the Michaelmas and the Lent Terms. Students will do a mock exam in the Lent vacation. There will be a revision class in week 1 of the Summer Term.

Formative coursework: Two pieces of formative assessment are required, the first a source-criticism exercise in the Michaelmas Term (week 4), and the second a conventional essay in the Lent Term (week 4). In addition students will do a mock exam over the Lent vacation.

Indicative reading: A full reading list will be provided at the start of the course. The following represent basic introductory reading only, and an indication of some primary sources: T C W Blanning, *The Culture of Power and the Power of Culture* (2002); D Outram, *The Enlightenment* (1995); T Munck, *The Enlightenment* (2000); R Porter, *The Enlightenment* (2001). Anthologies: I Kramnik (Ed), *The Portable Enlightenment Reader* (1995); S Eliot & B Stern (Eds), *The Age of Enlightenment* (2 vols, 1979).

Assessment: Exam (70%, duration: 3 hours) in the summer exam period. Presentation (15%) and class participation (15%) in the MT and LT.

Students MUST give an assessed presentation in either the MT or the LT.

Class participation will be graded across both the MT and the LT.

HY319

Napoleon and Europe

This information is for the 2019/20 session.

Teacher responsible: Dr Paul Keenan SAR 2.13

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations, BSc in International Relations and History and BSc in Politics and History. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The Napoleonic Empire was crucial in the formation of modern Europe. Much of Europe was covered by the Napoleonic Empire and its impact was felt across large parts of the non-European world. The influence of the emperor and his policies was most obvious in relation to the European international system, particularly through his military campaigns and his territorial reorganisation of Europe in the wake of his successes. However, the Napoleonic era also saw major developments in the legal, constitutional, social, and economic order of many states, whether allied or opposed to the Napoleonic project. Likewise, in the aftermath of the French Revolution, much attention is paid to the impact of the Napoleonic era on the relationship between Church and State and the rise of national consciousness, whether in political or cultural terms. By studying how Napoleon's empire was created, challenged, and ultimately defeated, the course will focus on the nature of power and legitimacy in this era. An attempt will be made to place the Napoleonic empire in a broader context, in part by comparing it to other contemporary, rival states, including Russia, Austria, and the United Kingdom. Finally, the course will begin and end with an assessment of the Napoleonic myth, both in terms of his contemporaries and for subsequent generations of historians.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

There will be a reading week in the Michaelmas and the Lent terms.

Formative coursework: Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.

Indicative reading: A full reading list will be provided at the beginning of the course. Useful introductory reading includes: M. Lyon, *Napoleon Bonaparte and the Legacy of the French Revolution*; G. Ellis, *The Napoleonic Empire*; C. Emsley, *Napoleon: Conquest, Reform and Reorganisation*; M. Broers, *Europe under Napoleon, 1799-1815*; C. Esdaile, *Napoleon's Wars*; S. J. Woolf, *Napoleon's Integration of Europe*; P. Dwyer (ed.), *Napoleon and Europe*; P. Geyl, *Napoleon, For and Against*.

Assessment: Essay (50%, 3000 words) in the ST. Document analysis (20%) in the LT.

Presentation (20%) and class participation (10%) in the MT and LT.

HY320

The Cold War Endgame

This information is for the 2019/20 session.

Teacher responsible: Dr Una Bergmane SAR 2.17
TBC

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Based upon a variety of primary sources, this course will explore why and how in the second half of the

1980s the East-West conflict between the United States and the Soviet Union transformed itself so suddenly and peacefully into the collapse of (European) communism, German unification and the end of the USSR and her empire, while China took an entirely different exit from the Cold War era. In doing so, we will ask what was the correlation between "high" and "low politics" in these events and processes? Topics will include: the onset of détente and *neue Ostpolitik*; the impact of Helsinki (1975) and human rights; détente's death, Euromissiles and the war in Afghanistan; the second Cold War of the early 1980s, pacifism and transatlantic turmoil; the Pope and the Polish crisis of 1980-81; Gorbachev's new thinking and reforms in the USSR; Reagan and Gorbachev: superpower summitry; German unification: domestic and international aspects; Kohl, Mitterrand and the road to the European Union; the eastern European revolutions, the Chinese crackdown and the collapse of the Soviet 'empire'; the Baltic independence struggle, Yeltsin, the coup and Soviet disintegration; explanations and interpretations of the end of the Cold War. The discussion in each seminar will draw on a combination of primary and secondary material.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be a reading week in MT and LT and a revision session in ST.

Formative coursework: Students will be required to present one short class paper as well as undertaking small weekly tasks on Moodle, and to submit two essays à 1500 words and one document answer during MT and LT. There will also be a timed mock exam in ST.

Indicative reading: A detailed course outline and reading list, subdivided by weekly topics, as well as a document pack will be available at the beginning of the course on Moodle. The following works are recommended as essential reading: A Brown, *The Gorbachev Factor* (1996); S Dockrill, *The End of the Cold War Era* (2005); R L Garthoff, *The great transition: American-Soviet relations and the end of the Cold War* (1994); Idem, *Détente and confrontation: American-Soviet relations from Nixon to Reagan* (1985); J Levesque, *The Enigma of 1989: The USSR and the Liberation of Eastern Europe* (1997); C S Maier, *Dissolution: the crisis of Communism and the end of East Germany* (1997); P Zelikow & C Rice, *Germany unified and Europe transformed: a study in statecraft* (1995); H Adomeit, *Imperial overstretch: Germany in Soviet policy from Stalin to Gorbachev* (1998); H Adomeit, *Imperial Overstretch: Germany in Soviet Policy from Stalin to Gorbachev* (1998); A Lieven, *The Baltic states: Latvia, Lithuania and Estonia, and the path to independence* (1993); R Summy & M E Salla (eds), *Why the cold war ended: a range of interpretations* (1995); O A Westad, *Reviewing the Cold War: Approaches, Interpretations, Theory* (2000); Idem, *The fall of detente: Soviet-American relations during the Carter years* (1997); Idem et al (eds), *The Cambridge History of the Cold War*, vols 2-3 (2010); M E Sarotte, *1989* (2009); Hal Brands, *The unipolar moment* (2016). Also students should familiarise themselves with the Cold War International History Project homepage (<http://www.wilsoncentre.org>) and in particular: *Bulletins No 5 'Cold War Crises'*, *No 8-9 'The Cold War in the Third World and the Collapse of Detente in the 1970s'*, and *No 12/13 'The end of the Cold War'*.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

HY322

Nazi Germany's War: Violence and Occupation in Europe, 1939-1945

This information is for the 2019/20 session.

Teacher responsible: Dr Dina Gusejnova SAR M.14

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations

permit and to General Course students.

This course is capped at 15 students.

Course content: The Second World War was the most destructive conflict in modern European history. At the height of the war, German soldiers occupied lands from the Channel Islands to the Caucasian mountains, from Scandinavia to Attica. Across the continent, societies were torn apart by war, occupation, and civil war. Drawing on key secondary texts and primary sources, this course examines Nazi Germany's war in Europe from a comparative perspective. It looks at the origins of the conflict; the course of the war, from the partition of Poland to the fall of Berlin; war crimes; Nazi occupation regimes; local collaboration and the recruitment of hundreds of thousands of non-Germans into Hitler's armies; resistance and partisan insurgency; ethnic cleansing and genocide; and the aftermath of the war. The focus is not only on political leaders, party functionaries, and generals, but also on ordinary people, such as soldiers, peasants, slave workers, and concentration camp inmates. Particular attention is given to the views and experiences of contemporary intellectuals, such as George Orwell, Raphael Lemkin, Marc Bloch, and Hannah Arendt. The course considers the Second World War as an amalgam of different forms of conflict, including wars between states, civil wars, and partisan wars, and it also addresses more general questions about conflict and violence in the modern age.

Teaching:

20 hours of seminars in MT. 20 hours of seminars in LT. 2 hours of seminars in ST.

There will be a reading week in MT and LT.

Formative coursework: Students will be required to write one conventional essay of 2,000 words during LT and one timed mock exam in ST. Students will also be required to prepare short summaries of the readings (bullet points) for the weekly meetings.

Indicative reading: Omer Bartov, *The Eastern Front, 1941-45: German Troops and the Barbarisation of Warfare* (London, 1985). Christopher Browning, *Ordinary Men: Reserve Police Battalion 101 and the Final Solution in Poland* (New York, 1992). Richard J. Evans, *The Third Reich at War, 1939-1945* (London, 2008). Saul Friedländer, *The Years of Extermination: Nazi Germany and the Jews, 1939-1945* (London, 2007). Peter Fritzsche, *An Iron Wind: Europe under Hitler* (New York, 2016). Robert Gildea, *Marianne in Chains: In Search of the German Occupation, 1940-1945* (London, 2002). Jan T. Gross, *Neighbours: The Destruction of the Jewish Community in Jedwabne, Poland* (Princeton, 2001). Christian Hartmann, *Operation Barbarossa: Nazi Germany's War in the East, 1941-1945* (Oxford, 2013). Raul Hilberg, *The Destruction of the European Jews* (London, 1961). Ian Kershaw, *Hitler 1937-1945: Nemesis* (London, 2001). Ian Kershaw, *The End: Hitler's Germany, 1944-45* (London, 2011). Halik Kochanski, *The Eagle Unbowed: Poland and the Poles in the Second World War* (Cambridge, MA, 2012). Mark Mazower, *Inside Hitler's Greece: The Experience of Occupation. 1941-44* (New Haven, 1993). Mark Mazower, *Hitler's Empire: Nazi Rule in Occupied Europe* (London, 2008). Catherine Merridale, *Ivan's War: The Red Army at War 1939-45* (London, 2006). Rolf-Dieter Müller and Gerd R. Ueberschär, *Hitler's War in the East: A Critical Assessment* (Oxford, 1997). Nicholas Stargardt, *The German War: A Nation Under Arms, 1939-45* (London, 2015). Jozo Tomasevich, *War and Revolution in Yugoslavia, 1941-1945: Occupation and Collaboration* (Stanford, 2001).

Assessment: Exam (85%, duration: 3 hours) in the summer exam period.

Presentation (15%).

The Presentation (15%) will be in MT or LT.

HY323

Travel, Pleasure and Politics: The European Grand Tour, 1670-1825

This information is for the 2019/20 session.

Teacher responsible: Dr Paul Stock SAR 2.15

Availability: This course is available on the BA in History, BSc in

Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Throughout the eighteenth century thousands of young British men and women embarked on extensive journeys to continental Europe – an activity known as the Grand Tour.

'Travel, Pleasure and Politics: The European Grand Tour 1670-1825' explores who these people were, where they went, and the reasons for their expeditions. For some, the Tour was the final stage of formal education; to others an opportunity for sexual adventures and pleasure-seeking. The course discusses the practical challenges of eighteenth-century travel, the political, religious, and cultural contexts of the Tour, as well as the key places to visit and the reasons for their popularity. It also considers what the Tourists brought back with them: from physical artefacts for public and private collections, to new ways of seeing and understanding the world. 'Travel, Pleasure and Politics' introduces students to the actual writings of the Tourists, showing how they experienced international travel and shaped the modern tourist industry.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

This course operates reading weeks in the MT and LT. There will be a revision session in Summer Term.

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT and 2 essays in the MT and LT. Specifically, the course's formative coursework will consist of two essays (MT and LT), one document analysis (LT). Students will also have an opportunity to sit a mock exam.

Indicative reading: Jeremy Black, *The British Abroad: the Grand Tour in the Eighteenth Century* (New York: St Martin's Press, 1992) D915 B62. John Brewer, *The Pleasures of the Imagination: English Culture in the Eighteenth Century* (New York: Farrar Straus Giroux, 1997) DA485 B84. Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

HY324 Not available in 2019/20

Muslim-Jewish Relations: History and Memory in the Middle East and Europe, 622-1945

This information is for the 2019/20 session.

Teacher responsible: Ms Noemi Levy-Aksu

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: Because of the Israeli-Palestinian conflict, most discussions of Muslim-Jewish relations focus on the period

after 1948. Muslims and Jews, however, have engaged with one another for over 1,400 years. Just as at the beginning, when Muhammad first met Jewish Arabs in Medina in 622, Jewish and Muslim relations have spanned the whole range of human interaction. What approaches have historians taken to understand the connected histories of Jews and Muslims in Middle Eastern and European history, from their earliest relations in seventh-century Arabia to mid-twentieth-century Europe? Through attention to historical events and personalities as well to religious texts, language, law, ritual, sacred spaces, intellectual and spiritual movements, art, architecture, and literature we will explore different approaches to the history and memory of Muslim-Jewish relations in the Middle East and Europe, evenly divided between the pre modern and the modern period. Students are advised that this is not a history of the Palestinian-Israeli struggle, although its impact on the memory of Muslim-Jewish relations in history will be discussed.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

20 two-hour seminars in the MT and LT; one revision seminar in the ST. There will be a reading week in the Michaelmas and the Lent terms. Students will be expected to read essential primary and secondary material for each weekly meeting and to participate in the seminar discussions.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Students will be required to produce a formative essay during Michaelmas term as preparation for the assessed essay due Lent Term.

Weekly written reading responses and oral reports in Michaelmas Term and Lent Term. Completion of these is mandatory, in order to facilitate good seminar discussions.

Indicative reading: 1. *A History of Jewish-Muslim Relations, From Their Origins to the Present Day*, ed. Abdelwahab Meddeb and Benjamin Stora (Princeton: Princeton University Press, 2013); *Medieval Iberia: Readings from Christian, Jewish, and Muslim Sources*, ed. Olivia Constable, 2nd ed. (Philadelphia: University of Pennsylvania Press, 2011); Norman Stillman, *The Jews of Arab Lands: A History and Source Book* (Philadelphia: The Jewish Publication Society, 1998); Norman Stillman, *The Jews of Arab Lands in Modern Times* (Philadelphia: The Jewish Publication Society, 2003); Marc David Baer, *The Dönme: Jewish Converts, Muslim Revolutionaries, and Secular Turks* (Stanford: Stanford University Press, 2010); Aomar Boum, *Memories of Absence: How Muslims Remember Jews in Morocco* (Stanford: Stanford University Press, 2013)

Assessment: Exam (70%, duration: 3 hours) in the summer exam period.

Presentation (15%) and class participation (15%) in the MT and LT. The participation grade will be based on the quality of the student's contribution to seminar discussions, and weekly posting of reading responses.

HY328

The Arab-Israeli Conflict: Nationalism, Territory, Religion

This information is for the 2019/20 session.

Teacher responsible: Dr Kirsten Schulze SAR 2.12

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is not available as an outside option. This course is available with permission to General Course students.

The course is available to General Course students whose home department is International History.

Course content: The 1948 Arab-Israeli War; Israeli foreign and defence policy; the 1956 Suez-Sinai Campaign; the 1967 Six-Day War; regime change in Egypt and Syria in 1970; 1970/71 Black September; the 1973 Yom Kippur War; the 1975 Lebanese civil

war; the ascendance of the Likud; the Camp David Accords 1979; the invasion of the Lebanon 1982; Palestinian resistance; the 1987 Intifada; the 1991 Madrid Peace Conference; the 1993 Oslo Accords; the 1994 Jordanian-Israeli Peace Treaty; the 2000 al-Aqsa intifada; peace efforts since 2000; the 2006 Lebanon War; and the 2006-2014 Gaza Wars.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Week 6 of both Michaelmas and Lent terms will be a Reading Week.

Formative coursework: Students are required to write two essays, including a one-hour timed essay.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (35%) in the LT.

Class participation (15%).

HY329

Independent India: Myths of Freedom and Development

This information is for the 2019/20 session.

Teacher responsible: Dr Taylor C. Sherman, SAR M.10

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Focusing on the early decades after India gained independence in 1947, this course raises questions about the nature of freedom and the tasks of development and modernisation faced by postcolonial nations. The course begins with a brief study of Jawaharlal Nehru, India's first prime minister. Students will survey his philosophy and his style of leadership while exploring the myth of the strong male leader. The course will then cover India's foreign policy, asking students to probe the meaning of Nonalignment, and inspect the character of India's relations with Indians Overseas and with its neighbours, including China and Pakistan. Students will then turn to the nature of secularism in India by examining the treatment of Muslims who remained in India after the creation of Pakistan. This section also probes official attempts to reform Hinduism and improve the lives of Dalits (former untouchables) in India. Students then are asked to query how socialist India was by reading political theory from Communists, Socialists, Gandhians and others. Next, students interrogate the nature and extent of economic development achieved in this period by studying the strengths and weaknesses of international aid supplied to the country, as well as India's own development programmes. Students will then explore how Indians expressed their visions of modernity in the realms of science, art & architecture and the emancipation of women. Finally, the course concludes by scrutinising the Constitution and the conduct of India's first democratic elections. Using a variety of primary source materials, with a strong element of film and visual arts, this course asks students to see India and Indians in new ways.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

There will be a reading week in the Michaelmas and the Lent terms.

Formative coursework: Students will be expected to produce 1 draft essay (1200 words) and 1 essay (2000 words) in the MT, and 1 gobbet exercise (600 words) in the LT.

Indicative reading:

Assessment: Essay (30%, 3000 words) in the LT.

Essay (35%, 3000 words) and document analysis (20%) in the ST.

Video gobbet (15%) in the MT and LT.

Document Analysis (600 words).

Fieldwork video gobbet. The main theme of the course is political myths. For this project, students will be asked to find an object in London (or anywhere in the world, but they must visit it in person) that is related to one of the myths discussed in the course. Students will work in groups of 2-3 to make a roughly five-minute video describing the object and how it relates to the course.

HY330

From Tea to Opium: China and the Global Market in the Long Eighteenth Century

This information is for the 2019/20 session.

Teacher responsible: Dr Chung Yam Po SAR.2.18

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Did China foster or resist the early wave of globalisation? How should we situate China within the global context prior to the First Opium War? Compared with the Dutch and the British, in what ways did the Chinese interact with the world that had been created by global trade? Had China already become the world factory in the eighteenth century? Using both primary and secondary sources, this seminar examines these questions by looking at the production, circulation and consumption of a variety of commodities that were exported from and imported to China. If we agree that a commodity has its own social life and history, then we can also examine its story in order to complicate our understanding of China's role and significance in the global market throughout the long eighteenth century. This seminar is divided into two parts. In Part I (the first five sessions) we will historicise the political, social and economic

background of the Qing dynasty in the early modern period. From week to week, we will identify remarkable watersheds that changed or transformed the way that China engaged in or became disengaged from the global market, covering the China Seas, Indian Ocean, Atlantic and Pacific. We will also focus on port cities in China and Southeast Asia, so as to illustrate exactly how peoples and places facilitated the flow of commodities on a global scale. In Part II (the remaining sixteen sessions) we will study a series of commodities that each fits under different featured themes, such as 'When Silk was Gold', 'Pepper and Parley', 'Camphor and Taiwan' and 'Opium and Power'.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Weekly two-hour seminars. There will be a reading week in the Michaelmas Term and the Lent Term and a revision session in the Summer Term.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: Kenneth Pomeranz, *The World that Trade Created* (London and New York: Routledge, 2012). Frank Trentmann (ed.), *The Oxford Handbook of the History of Consumption* (Oxford: Oxford University Press, 2012). John E. Wills, Jr., *Pepper, Guns, and Parleys* (Cambridge, MA.: Harvard University Press, 1974). Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (35%, 3500 words) in the LT.

Presentation (15%) in the MT and LT.

HY331

Henry Kissinger and the Global 1970s

This information is for the 2019/20 session.

Teacher responsible: Dr Roham Alvandi SAR M.12

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: Henry Kissinger might be the most controversial American statesman of the twentieth century. More than forty years since he left office, he remains the focus of intense popular and scholarly debate concerning the uses of American power during the Cold War. This course offers an introduction to these controversies in the study of 'America and the World' in the 1970s. The course begins by examining how Kissinger's ideas about foreign policy evolved during his early life in wartime Germany and his career as a foreign policy intellectual at Harvard University. The majority of the course is then concerned with the central controversies of Kissinger's time in office as national security adviser and secretary of state between 1969 and 1976. Each week students will examine Kissinger's role in shaping and implementing American foreign

policy in a particular theatre of the global Cold War, focusing on the major crises and conflicts of the decade. Students read and reflect on extracts from Kissinger's memoirs as a primary source each week, in conjunction with the latest historical research on that topic. They are asked to engage with ongoing historiographical debates about Kissinger's record and legacy and to form their own judgements, based on their reading of primary and secondary sources. Finally, students are asked to reflect on Kissinger's writings on international relations since leaving office and to ask what, if anything, we have to learn from him.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

There will be a reading week in week 6 of the Michaelmas and the Lent Terms.

Formative coursework: Students will be expected to produce 1 essay in the MT.

A 2,000-word review essay of one required reading from the Michaelmas Term.

Indicative reading: Roham Alvandi, *Nixon, Kissinger, and the Shah: The United States and Iran in the Cold War* (New York: Oxford University Press, 2014). Assessment: Essay (35%, 3500 words) in the LT.

Essay (35%, 3500 words) in the ST.
 Presentation (15%) and class participation (15%) in the MT and LT.
 3,500-word review essay on an extract from Kissinger's memoirs due in the Lent Term (35%); 3,500-word review essay on Hitchens's Trial of Henry Kissinger, using primary sources, due in the Summer Term (35%); Class presentation (15%); Class participation (15%).

HY332

Interwar Worlds: The Cultural Consequences of the First World War

This information is for the 2019/20 session.

Teacher responsible: Dr Dina Gusejnova room SAR M.14

Availability: This course is available on the BA in History, BSc in Government and History, BSc in International Relations and History and BSc in Politics and History. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: A political catastrophe of global proportions, the First World War also had a transformative impact on cultural life worldwide throughout the interwar period. Trenchcoats, jazz, shellshock, avantgarde, aerial photography, radio news, spotlights – these wartime notions also represent a profound impact on cultural practices in the postwar era. This course will examine how technological, social, and political changes brought about cultural change in postwar societies, principally focusing on the transnational and global circulation of commodities, ideas, population groups, and cultural fashions between Europe and the world. Technological advancements spurred by military needs, such as radio, telephony, and photography, became available to postwar populations on a new scale. The representation of war atrocities and their impact on the human psyche created a need for new, hybrid, multilingual, and multimedia communication. Wartime disruption and change to education continued to have an impact on schools and universities in the postwar years, intensifying the global circulation of ideas. The increase in contact between previously disconnected communities, mediated as well as direct in places like prisoner of war camps, increased the exposure to different ideas, sights and sound, leading to the emergence of increasingly global cultural fashions such as jazz. Nonetheless, this globalisation of culture also went hand in hand with the growth of new forms of racist caricature and the drawing of new frontiers. The role of international and humanitarian organisations such as the Red Cross or YMCA in wartime changed the relationship between states and societies by introducing a transnational dimension to cultural provision, yet it is noteworthy that this new internationalism was neither disinterested nor did it lie 'beyond' ideology.

Did the war create a new, hybrid global culture? Or did it increase the global hegemony of European culture? How did America's entry into the war affect the place of American culture in the postwar period? To what extent did the war give greater resonance to previously marginal cultural movements? What was the relationship between cultural change and political revolutions? How did gender norms change as a result of the permeation of military culture into what used to be the home front? Interwar culture is often associated with urban and metropolitan communities, but how did it develop in rural or distant settings? How did the new exposure to previously unfamiliar populations change ideas of friends and enemies? Which earlier myths or historical memories were mobilised in order to cope with the war experience? The course will be organised around the close reading and interpretation of key artefacts, ideas, or works of intellectual history, whose analysis will facilitate a nuanced understanding both of the scale and the depth of cultural change brought about by the war. Some of these materials will include original artwork accessible in London institutions such as Tate Britain, as well as local archival collections.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

There will be a reading week in week 6 of the Michaelmas and the Lent Terms.

Formative coursework: Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.

Formative essay or annotated research bibliography on a subject of choice 1,500 - 2,000 words

Formative source analysis exercise, 500 words

Assessment: Essay (35%, 3500 words) and source analysis (15%) in the LT.

Essay (50%, 5000 words) in the ST.

IR100

International Relations: Theories, Concepts and Debates

This information is for the 2019/20 session.

Teacher responsible: Dr Yuna Han CBG.10.08 and Dr Tristen Naylor CBG.10.07

Availability: This course is compulsory on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available on the BSc in Environment and Development and BSc in Politics. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to

General Course students.

Available as an outside option to Year 1 students only.

Course content: An examination of the concepts designed to explain the nature of contemporary international relations.

1. The emergence of the discipline and the nature of its subject matter.

2. Key agential concepts in IR: state; empire; international and subnational agents; foreign policy.

3. Key structural concepts in IR: the states system; Euro-centrism, globalisation, post-colonialism; global governance; security.

4. Key institutional concepts in IR: international society; great powers; diplomacy; war; balance of power; international law and human rights.

5. Key sociological concepts in IR: power and sovereignty; intervention; gender; anarchy.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are required to write three essays of approximately 1,500 words. They will also be required to give at least one class presentation.

Indicative reading: A full course description and guide to reading will be provided: relevant course texts include J Baylis & S Smith (Eds), *Globalisation and World Politics*, 2nd edn, (Oxford UP, 2001); C Brown, *Understanding International Relations*, 2nd edn (Macmillan, 2001); R Jackson & G Sørensen, *Introduction to International Relations* (OUP, revised edn., 2003).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

Sample papers are included in the full course description.

IR101

Contemporary Issues in International Relations

This information is for the 2019/20 session.

Teacher responsible: Dr Luca Tardelli CBR 10.5

Dr Ulrich Sedelmeier CBG.10.02

Availability: This course is compulsory on the BSc in International Relations. This course is available on the BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option nor to General Course students.

Course content: This course provides an opportunity to gain an analytically deeper understanding and reflect critically upon some of the most topical issues that currently confront international relations and which shape the development of the contemporary international order. These include but are not limited to: violent conflict in the Middle East; international terrorism; the rise of China; tensions between Russia and the West; North Korea and the challenge of nuclear proliferation; US foreign policy under President Donald Trump; challenges to multilateral cooperation and liberal internationalism; human rights; humanitarian intervention; financial crises; poverty and global inequality; climate change and environmental security; migration and refugees. The course encourages students to engage in debating the nature of, and possible responses to, contemporary challenges and crises in international politics. The course complements IR100 with a more applied policy focus, while emphasising the need for critical analytical depth when reflecting on the origins, nature and implications of current affairs. Students will develop an awareness of the relationship between the discipline of International Relations as a field of knowledge and the practices of world politics.

Teaching: 10 hours and 30 minutes of lectures, 7 hours of classes and 4 hours of classes in the MT. 10 hours and 30 minutes of lectures, 7 hours of classes and 6 hours of classes in the LT. Lectures will be 1.5 hours to provide ample time for questions and answers. The classes in in MT and LT include longer 2-hour classes for student presentations and a role-play.

In line with departmental policy, students on the course will have a reading week in Week 6 of each term.

Formative coursework: Students will be expected to produce 1 piece of coursework in the MT, 1 piece of coursework in the LT and 1 presentation in the MT and LT.

Indicative reading: Robert Art and Robert Jervis (eds), *International Politics: Enduring Concepts and Contemporary Issues* 12th ed (Pearson: 2014). John Baylis, Steve Smith and Patricia Owen (eds), *The Globalization of World Politics* 7th ed (OUP: 2017). Chris Brown, *Understanding International Relations* 5th ed (Palgrave: 2019). Jenny Edkins and Maja Zehfuss (eds), *Global Politics: A New Introduction* (Routledge: 2013), pp.147-169. Mary Kaldor and Iavor Rangelov (eds), *The Handbook of Global Security Policy* (Wiley-Blackwell: 2014).

Assessment: Policy memo (70%) in the ST.

Class participation (10%) in the MT and LT.

Presentation (20%) in the MT.

Students on the course will write a 2,500 word 'policy memo' (70%) on a particular contemporary issue. Students will also give a group presentation on a particular issue or problem (20%). Participation in class discussion will also be assessed (10%).

IR102

Thinking Globally: Studying International Relations

This information is for the 2019/20 session.

Teacher responsible: Dr Luca Tardelli CBG.10.05

Availability: This course is compulsory on the BSc in International Relations and BSc in International Relations and Chinese. This course is available on the BSc in Politics and International Relations. This course is not available as an outside option nor to General Course students.

Students for whom the course is optional must commit to the course when they choose it.

Course content: The aims of this short course are two-fold. First, to enable you to reflect on and share ideas with other students about why you chose to study international relations and what it means to study international relations. Second, to acquire and develop the key skills you need to study international relations, including analytical skills, communications skills (verbal and written), problem solving skills and team working skills. Students will work together in small groups on the skills required for reading and taking notes; conducting research; writing essays and exams; and succeeding as an IR scholar.

Teaching: 7 hours and 30 minutes of workshops in the MT.

There will be weekly 1.5 hour workshops in weeks 1, 2, 3, 4 and 5 of the Michaelmas Term.

Formative coursework: There is no formal 'formative assessment' for the course. A variety of 'formative exercises' will be used in the workshop setting aimed at developing and enhancing a range of study skills linked to the study of international relations.

Indicative reading: A.C. McKeil, 'Student Feature – A Brief Introduction to the Study of International Relations', e-International Relations, 3 July 2017: <http://www.e-ir.info/2017/07/03/student-feature-a-brief-introduction-to-the-study-of-international-relations/>. Chris Brown and Kirsten Ainley, 'Introduction: Defining International Relations', *Understanding International Relations*, 4th ed (Palgrave: 2009): 1-17. Stella Cottrell, *The Study Skills Handbook*, 4th ed (Palgrave: 2013). LSE LIFE Resources, available at: <https://info.lse.ac.uk/current-students/lse-life/resources>

Assessment: There is no summative assessment for this course.

IR200

International Political Theory

This information is for the 2019/20 session.

Teacher responsible: Dr Martin Bayly CBG.8.07

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed International Relations: Theories, Concepts and Debates (IR100).

Course content: This course offers an introduction to the history of international political thought (IPT). The course deals with debates and themes prompted by classical thinkers and considers their location within the existing IR canon including realism, liberalism, constructivism, and critical theory. The course also broadens this purview to consider how 'classical' international thought has been adopted, adapted, and critiqued by more recent thinkers, including those situated outside of the 'west'. Students will be encouraged to consider how international thought sits within global intellectual history, the impact of world political events on IPT, and its enduring relevance. Topics covered will include sovereignty, the state, and war; international government, empire, and decolonization; gender, race, and class.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are required to write three essays of a maximum length of 1,500 words each to be set and marked by class teachers. They are also expected to give at least one class presentation.

Indicative reading: D. Armitage, *Foundations of Modern International Thought*; E. Keene, *International Political Thought: A Historical Introduction*; S. Burchill, *Theories of International Relations*; R. Shilliam, *International Relations and Non-Western Thought*; I. Kant, *Kant's Political Writings*; E. H. Carr, *The Twenty Years' Crisis*; B. K. Sarkar, *The Futurism of Young Asia*; R. Vitalis, *White World Order, Black Power Politics: The Birth of American International Relations*

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

The examination paper requires that three questions be answered out of twelve.

IR202

Foreign Policy Analysis 1

This information is for the 2019/20 session.

Teacher responsible: Prof Christopher Alden CBG.9.04

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course analyses various theoretical perspectives on foreign policy, and the means of conduct of the main actors in the international system towards each other. It focuses mainly, but not entirely, on states. Foreign Policy Analysis as a sub-discipline of IR; the problem of formulating goals and choosing policy instruments; the role of leadership and psychological elements in policy making; the rational actor model; bureaucratic politics; the impact of history and identity on foreign policy; domestic sources of foreign policy including public opinion, pressure groups and constitutions; the motivations underpinning foreign policy; the role and influence of transnational

actors in relation to foreign policy making; foreign policy crises.

The discussion classes combine a discussion of these themes with their application to the foreign policies of major powers in the international system.

In the LT the course turns to an analysis of the foreign policies of a selected group of major states, with due regard to their respective national interests, external commitments, traditional values and other relevant factors. There will be lectures on Britain, China, the United States and the Soviet Union/Russia. Additional guest lecturer country case studies will be included for the remainder of the course. The guest lectures offer additional empirical material to help with answering theoretical questions.

Teaching: 10 hours of lectures and 9 hours of classes in the MT.

10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are required to write three essays of about 1,500 words each for their class teachers during the course and to make presentations in the discussion classes.

Indicative reading: C Alden and A Aran, *Foreign Policy Analysis – New Approaches*, Routledge, 2011; C Hill, *The Changing Politics of Foreign Policy*, Palgrave, 2003; S Smith, A Hadfield and T Dunne (Eds), *Foreign Policies: Theories, Actors and Cases*, Oxford University Press, 2007.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

IR203

International Organisations

This information is for the 2019/20 session.

Teacher responsible: Dr Ulrich Sedelmeier CBG.10.02

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students should have a background in International Relations. Prior familiarity with international relations theory is an advantage, but not necessary.

Course content: The course draws on theories of international institutions to explain comparatively key aspects of the role of International Organisations in international politics. These questions include why states create International Organisations, why states transfer certain powers to them, how decisions in International Organisations are made, and what impact International Organisations they have on the practice of international cooperation with regard to matters of concern to international society such as the maintenance of international peace and security, the management of international economic relations, the promotion of international environmental standards, or the protection of human rights. International organisations to be discussed include the United Nations, the International Monetary Fund, the World Bank, the World Trade Organization, NATO, the International Criminal Court and regional organisations like the European Union, the African Union, and ASEAN

Teaching: 15 hours of lectures and 10 hours of classes in the MT.

15 hours of lectures and 10 hours of classes in the LT. 1 hour and 30 minutes of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT, 1 essay in the LT and 1 presentation in the MT and LT.

Formative essays 1,500 words. Class teachers will mark the essays and provide feedback on student presentations.

Indicative reading: Ian Hurd (2018): *International Organizations: Politics, Law, Practice*, 2nd 3rd edition (Cambridge: Cambridge University Press); Volker Rittberger, Bernhard Zangl and Andreas

Kruck, and Hylke Dijkstra International Organization: Polity, Policy, Politics, 2nd 3rd ed. (Basingstoke: Palgrave, 2019).

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Essay (30%, 2000 words) in the MT.

The assessed essay will be from a fixed range of questions. The essay topics will be posted on Moodle before Week 9 of the MT and will focus on the theories and conceptual material covered in the first part of the course.

IR205

International Security

This information is for the 2019/20 session.

Teacher responsible: Dr Anne Getmanski CBG.8.05

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available to General Course students.

Course content: This course tackles questions of war, peace and security from an analytical perspective, by highlighting changes and continuities in international security. What are the causes and consequences of war? What explains the use of violence for the resolution of inter and intra-state disputes? Does the liberal order promote peace and stability? What are the implications of changes in the distribution of power and the world? What renders the threat of force credible? Can intervention in civil wars ever curb violence and bring about peace? Do nuclear weapons make the world less safe? We address these questions through a combination of theoretical discussions and contemporary policy debates. The first half of the course reviews the major theoretical frameworks that have been used to explain the causes of war on the world stage, as well as its character and duration in the international and domestic arenas. We use these theoretical frameworks as a lens through which to examine problems of war and peace, and threats to individual, national and international security in the contemporary era. The second half of the course turns to questions of security more generally. We examine political violence, terrorism, insurgency, humanitarian emergencies, climate change, and other threats to individual and collective security.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Students will be expected to contribute to class discussions and present papers each week.

In line with departmental policy, students on the course will have a reading week in Week 6.

Formative coursework: Students will submit one formative essay which they may use to develop ideas for their summative essay. Students will also make class presentations and distribute short summaries of the readings to the class in preparation for the exam

Indicative reading: Bruce Bueno de Mesquita, "Principles of International Politics," 5th edition (Thousand Oaks, CA: CQ Press, 2014). John J. Mearsheimer, "Structural Realism," in Tim Dunne, Milja Kurki, and Steve Smith, eds., *International Relations Theories: Discipline and Diversity*, 3rd Edition (Oxford: Oxford University Press, 2013), pp. 77-93. Robert M. Axelrod, "The Evolution of Cooperation," (Basic Books, 1985). Erica Chenoweth and Pauline L. Moore, "The Politics of Terrorism," (Oxford: Oxford University Press, 2018). Tanisha M. Fazal, "Wars of Law," (Ithaca, NY: Cornell University Press, 2018)

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 2500 words) in the LT.

IR206

International Political Economy

This information is for the 2019/20 session.

Teacher responsible: Dr Ranjit Lall CBG.8.01

Availability: This course is available on the BSc in Economics, BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available with permission to General Course students.

Students from other degree programmes will be admitted by permission of the Course Coordinator, including BSc Economic History

Course content: The course examines the role of power and politics in international economic relations. Besides international structural factors, it emphasises the role of domestic political interests and their influence over foreign economic policies. Major approaches covered include historical views on international political economy, and contemporary systemic theories of international cooperation, interest groups politics, ideas and institutions. The course provides an overview and explanation of the international monetary and trade systems since 1944. It also discusses current debates on trade, monetary policy, the political roots of financial crises, globalisation and the retreat of the state, and environmental protection.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 3 essays in the MT and LT.

Students write three essays of a maximum length of 1,500 words.

Indicative reading: Basic references are: M Blyth (ed), *Routledge Handbook of International Political Economy (IPE)*; ; J Ravenhill (ed), *Global Political Economy*; S Strange, *States and Markets*; R Palan, *Global Political Economy: Contemporary Theories*; J Frieden & D Lake, *International Political Economy*; T Oatley, *International Political Economy*; A Walter & G Sen, *Analyzing the Global Political Economy*. A detailed reading list will be given at the beginning of the course.

Assessment: Exam (90%, duration: 3 hours) in the summer exam period.

Coursework (10%) in the MT and LT.

In the examination students will answer three questions chosen from twelve.

The coursework is the submission of 20 weekly reports based on seminar topics and readings.

IR312 Half Unit

Genocide

This information is for the 2019/20 session.

Teacher responsible: Dr Jens Meierhenrich CBG.10.01

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

This course cannot be taken in conjunction with SO309 Atrocity and Justice.

Course content: This lecture course provides an introduction to the study of genocide. The course's disciplinary ambit ranges from anthropology to economics, from history to law, and from political science to sociology. Against the background of diverse disciplinary approaches, it explores major theoretical and empirical aspects of the role(s) of genocidal campaigns in international

politics, inter alia, their origins, development, and termination; the manner of their perpetration, progression, and diffusion; their impact on the maintenance of international peace and security; their consequences for the reconstruction and development of states and the building of nations; and their adjudication in domestic and international courts and tribunals. Empirical cases to be discussed include Australia, Cambodia, China, the Democratic Republic of Congo, East Timor, Nazi Germany, Guatemala, Iraq, Northern Ireland, the Ottoman Empire, Rwanda, Uganda, the Soviet Union, Sudan, and the former Yugoslavia, among others. The course is designed to equip students with the analytic tools necessary for making sense of the evolution of the international system from the nineteenth century to the present - and for critically assessing the promise and limits of responding to collective violence.

Teaching: 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are required to research and write one formative essay (1,500 words). In order to ensure a broad acquisition of knowledge, students should diversify the subject matter of their essays. In addressing a given essay topic, students must seek to integrate theory and history and bring empirical evidence to bear on the research question they have chosen. In constructing their answers, students may examine a number of cases, drawing comparisons among them, or may focus on a single case. Essays must be fully - and carefully - referenced using one of the major conventions consistently.

Indicative reading:

- Zygmunt Bauman, *Modernity and Holocaust* (Ithaca: Cornell University Press, [1989] 2000).
- Christopher R. Browning, *The Origins of the Final Solution: The Evolution of Nazi Jewish Policy, September 1939-March 1942*, with contributions by Jürgen Matthäus (London: Heinemann, 2004).

- Karen E. Smith, *Genocide and the Europeans* (Cambridge: Cambridge University Press, 2010).
- Wolfgang Sofsky, *The Order of Terror: The Concentration Camp*, translated by William Templer (Princeton: Princeton University Press, [1993] 1997).
- Charles Tilly, *The Politics of Collective Violence* (Cambridge: Cambridge University Press, 2003).
- Eric D. Weitz, *A Century of Genocide: Utopias of Race and Nation* (Princeton: Princeton University Press, 2003).

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

IR313 Half Unit

Managing China's Rise in East Asia

This information is for the 2019/20 session.

Teacher responsible: Dr Jurgen Haacke CBG.9.01

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available to General Course students.

Course content: The main focus of this class-based half-course on the contemporary international relations of East Asia is the management of China's rise. The course begins by exploring China's re-emergence as a major regional power, in part by discussing the economic, political and military dimensions of Chinese power, China's evolving identity, as well as the major aspects of its declaratory and substantive foreign and security policy. It also examines from different theoretical and political perspectives the implications that China's rise has been posing for East Asia. As regards the management of China's growing capabilities, status and ambitions, the course explores what political and security strategies vis-à-vis China have in turn been adopted by the key states that are either resident in or have a significant presence in the wider East Asia, such as the United States, Japan, Russia and India. The course also explores the ways in which China's rise has impacted on conflicts in the South China Sea and on the Korean peninsula, and the nature of the management of China's rise by states from continental and maritime Southeast Asia. It moreover examines how regional arrangements and institutional frameworks for dialogue and cooperation led by lesser regional states have served the management of China's rise. Concepts and theories from International Relations will be drawn upon as appropriate.

Teaching: 20 hours of classes in the MT. 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will write two essays with a maximum length of 2,000 words and present on class topics.

Indicative reading: William A. Callahan, *China the Pessimist Nation* (Oxford: Oxford University Press, 2010); Thomas J. Christensen, *The China Challenge: Shaping the Choices of a Rising Power* (New York: W.W. Norton, 2015). Aaron L. Friedberg, *A Contest for Supremacy: China, America, and the Struggle for Mastery in Asia* (New York: W.W. Norton, 2011); Jonathan Holslag, *China's Coming War with Asia* (Cambridge: Polity, 2015). Alastair Iain Johnston and Robert S. Ross, eds, *Engaging China: The Management of an Emerging Power* (London: Routledge, 1999); Rex Li, *A Rising China and Security in East Asia: Identity Construction and Security Discourse* (Abingdon: Routledge, 2009); Gilbert Rozman, *Chinese Strategic Thought toward Asia* (New York: Palgrave Macmillan, 2010); David Shambaugh, ed., *Power Shift: China and Asia's New Dynamics* (Berkeley: University of California Press, 2005); Sheila Smith, *Intimate Rivals: Japanese Domestic Politics and a Rising China* (New: Columbia University Press, 2015). Ian Storey, *Southeast Asia and the Rise of China: The search for security* (London: Routledge, 2011); Robert G. Sutter, *U.S.-Chinese Relations: Perilous Past, Pragmatic Present*, 2nd ed (Rowman & Littlefield, 2013); Michael Yahuda, *Sino-Japanese Relations After the Cold War: Two Tigers Sharing a Mountain* (Abingdon: Routledge, 2013).

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

IR314 Half Unit**Southeast Asia: Intra-regional Politics and Security****This information is for the 2019/20 session.****Teacher responsible:** Dr Jurgen Haacke CBG.9.01**Availability:** This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available to General Course students.**Course content:** This class-based half unit course examines key aspects of the contemporary international relations of Southeast Asia, with the primary focus being on the intramural relations of the member states of the Association of Southeast Asian Nations (ASEAN). In order to contextualise these intramural relations, the course first explores the different domestic political contexts in which Southeast Asian decision-makers operate, the historical backdrop to the region's major intrastate and interstate conflicts and disputes, and the key security issues and challenges affecting the region and individual states. The course also, secondly, engages in a comparative analysis of the foreign and security policies of the five original member states of ASEAN that will, for instance, take account of the influence of geographical factors, the relevance of ethnic politics and nationalism, political change, leadership ambitions, and the main economic and security interests pursued by governments. Finally the course explores how the respective domestic backdrop and foreign policy outlook of Southeast Asian states have shaped the nature, effectiveness and limits of ASEAN as a vehicle for intramural political-security cooperation. In this context, the course assesses the grouping's efforts to establish an ASEAN political-security community. The course will conclude by comparing the role played respectively by the ASEAN states and extra-regional powers in managing regional security and order. Concepts and theories drawn from International Relations, and especially Foreign Policy Analysis, will be applied as appropriate.**Teaching:** 20 hours of classes in the LT. 2 hours of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will write two essays with a maximum length of 2,000 words and present on class topics.**Indicative reading:** Beeson, Mark (2009) *Contemporary Southeast Asia*, 2nd ed. (Houndmills, Basingstoke: Palgrave Macmillan); Acharya, Amitav (2014), *Constructing a security community in Southeast Asia: ASEAN and the problem of regional order*, 3rd ed. (Abingdon: Routledge); Ganesan, N. and Ramses Amer, eds (2010) *International Relations in Southeast Asia: Between Bilateralism and Multilateralism* (Singapore: ISEAS); Leifer, Michael (2000) *Singapore's Foreign Policy: Coping with Vulnerability* (London and New York: Routledge); Saravanamuttu, Johan (2010) *Malaysia's Foreign Policy: The First Fifty Years-Alignment, Neutralism, Islamism* (Singapore: ISEAS); Severino, Rudolfo (2006) *Southeast Asia in Search of an ASEAN Community* (Singapore: ISEAS); Slater, Dan (2010) *Ordering Power: Contentious Politics and Authoritarian Leviathans in Southeast Asia* (Cambridge: Cambridge University Press); Tan, Andrew T.H., ed., *A Handbook of Terrorism and Insurgency in Southeast Asia* (Cheltenham: Edward Elgar, 2007).**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed International Political Theory (IR200). or an equivalent course.**Course content:** The course applies the theories and conceptual tools of the discipline of International Relations to the study of the Middle East region. It uses the empirical material offered by the history, politics, political economy and international politics of the region to explore these concepts and theories. More specifically, it concentrates on the areas of foreign policy analysis, international political economy, gender, the study of international norms and conflict and peace studies. It explores the applicability of various International Relations theories (for example, realism and neo-realism; neo-liberalism; constructivism; English School; neo-Marxism and structuralism; and post-colonialism) to the study of the region.**Teaching:** 10 hours of lectures and 15 hours of classes in the MT. 10 hours of lectures and 15 hours of classes in the LT.**Formative coursework:** Three essays of 1,500 words each.**Indicative reading:**

- Raymond Hinnebusch and Anoushiravan Ehteshami (eds.), *The Foreign Policies of Middle Eastern States* (Lynne Rienner, 2014);
- Raymond Hinnebusch, *The International Politics of the Middle East* (Manchester University Press, 2003);
- Fred Halliday, *The Middle East in International Relations: Power, Politics, and Ideology* (CUP, 2005);
- Shibley Telhami and Michael Barnett, *Identity and Foreign Policy in the Middle East* (Cornell University Press, 2002);
- Michael Barnett, *Dialogues in Arab Politics* (Columbia University Press, 1998);
- Baghat Korany and Ali Dessouki, *The Foreign Policies of Arab States* (The American University of Cairo Press, 2008).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.**IR318 Half Unit****Visual International Politics****This information is for the 2019/20 session.****Teacher responsible:** Prof William Callahan CBG.9.05**Availability:** This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.**Course content:** We live in a visual age. Images play an increasingly important role in shaping international political events and our understanding of them. The objective of this course is to examine how visual sources - maps, photographs, film, television, new media - influence international political phenomena, our perception of them, and public responses to them. The course has conceptual, empirical, and practical objectives.

At a conceptual level students will acquire knowledge of key theoretical and methodological debates necessary to study visual international politics. At an empirical level, students will gain a better understanding of several concrete instances where images helped to shape international political phenomena, from wars to humanitarian crises, from global social movements to alternative world orders. At a practical level, students will learn how to make a short documentary film.

Teaching: 9 hours of lectures, 3 hours of lectures and 20 hours of classes in the MT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1**IR315****The Middle East and International Relations Theory****This information is for the 2019/20 session.****Teacher responsible:** Dr Katerina Dalacoura CBG.9.14**Availability:** This course is available on the BSc in International

essay and 1 project in the MT.

MT week 7: 750-word essay project proposal

MT week 8: Rough edit of film - approx. 3 minutes duration

Indicative reading:

- Berger, John (1972) *Ways of Seeing*. London: Penguin.
- Bleiker, Roland, ed. (2018) *Visual Global Politics*. London: Routledge.
- Callahan, William A. (2018) 'The Politics of Walls: Barriers, Flows and the Sublime'. Review of International Studies, first view.
- Campbell, David (2007) 'Geopolitics and Visual Culture: Sighting the Darfur Conflict 2003-05'. *Political Geography* 26(4): 357-382.

Assessment: Project (50%) in the MT.

Essay (50%, 2500 words) in the LT.

The project will be a ten minute documentary film, which will be made by groups of 2 or 3 students.

IR319 Half Unit

Empire and Conflict in World Politics

This information is for the 2019/20 session.

Teacher responsible: Prof Tarak Barkawi CBG.9.03

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed International Political Theory (IR200).

Course content: Many peoples and places in modern world politics have been shaped by histories of empire. This course explores the violent dimensions of the imperial past and present. It covers histories and social relations of armed conflict in imperial context from "small war" to "counterinsurgency" and the War on Terror; it looks at the ways in which warfare shapes (and is shaped by) the societies, cultures and politics that populate world politics; and it considers some of the intellectual traditions that have arisen out of the experience of colonial violence, from the thought of resistance leaders to subaltern and postcolonial studies. The premise of the course is that imperial warfare and violence have been generative forces in shaping world politics.

This course aims to familiarise students with scholarship on empire and conflict in International Relations and related disciplines. This involves, first, understanding the limitations of the sovereign nation-state as the basic unit of world politics. For most people in most times and places, international relations have taken imperial form of one kind or another. What would it mean to take empire seriously in international thought and inquiry? The course approaches this question by looking at the relations between empire and globalization in historical and theoretical context. Second, although much scholarship on empire concerns economy and culture, the history of empire is a history of continual warfare and armed resistance. Such "small wars" have shaped society and politics in both the core and periphery of the international system, and often continue to do so long after the guns fall silent (as for example in the case of the US and the Vietnam War). The course will cover the histories, strategies and theories associated with such wars and their effects. Third and finally, the course will explore the intersection between empire and knowledge in political theory and social inquiry. Not only did anti-colonial resistance produce its own theorists, such as Frantz Fanon and Mao Zedong,

but in recent decades empire has been the site of new turns in social and political theory and inquiry, as for example in subaltern studies and postcolonialism. The course will introduce students to this work and its applications to understanding world politics.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of classes in the MT.

Additionally, there will be weekly film viewings starting in Week 2. Students on this course will have a reading week in Week 6, in line with departmental policy.

Lectures

- 1) Introduction: Empire and International Relations
- 2) Empire/History/Globalization
- 3) Empire, the Regions, and World Politics
- 4) Politics/Strategy/War
- 5) War and Society in Global Perspective
- 6) Orientalism and 'Small war'
- 7) Revolutionary Guerrilla War
- 8) Counterinsurgency
- 9) Conflict and Development
- 10) The War on Terror in North/South Perspective

Undergraduate Class Topics

- 1) Globalization and History
- 2) Empire and the Making of Regions
- 3) War and Politics
- 4) War and Society
- 5) Orientalism
- 6) Revolutionary Guerrilla War
- 7) Counterinsurgency
- 8) Case Study: The Wars in Vietnam
- 9) Empire and the War on Terror

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: Frantz Fanon, *The Wretched of the Earth* (London: Penguin, 2001 [1961]). Tzvetan Todorov, *The Conquest of America: The Question of the Other* (Norman: University of Oklahoma Press, 1999 [1984]). Doty, Roxanne Lynn. (1996) *Imperial Encounters: The Politics of Representation in North-South Relations*. Minneapolis, MN: University of Minnesota Press. Richard Drinnon, *Facing West: The Metaphysics of Indian-Hating and Empire-Building* (Norman: University of Oklahoma Press, 1997). A.G. Hopkins, ed., *Globalization in World History* (London: Pimlico, 2002). Edward Said, *Culture and Imperialism* (New York: Vintage, 1994 [1993]). Mao Tse-Tung. (2000[1937]) *On Guerrilla Warfare*. Urbana, IL: University of Illinois Press. Williams, William Appleman. (1972[1959]) *The Tragedy of American Diplomacy*. New York: Dell. Wolf, Eric R. (1997[1982]) *Europe and the People Without History*. Berkeley: University of California Press.

Assessment: Essay (100%, 4000 words) in the LT.

IR321 Half Unit

Revolutions and World Politics

This information is for the 2019/20 session.

Teacher responsible: Dr George Lawson CBG.9.12

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Revolutions are often considered to be a 'side order' to the 'main course' of International Relations. But as this course explores, the lack of attention paid to revolutions is a mistake – revolutions have played a major part in the making of modern international order. From the 'Atlantic Revolutions' of the late 18th and early 19th centuries to the 'colour revolutions' of the early 21st century, revolutions have been constitutive of notions of sovereignty, order, justice, and more. Revolutions have also been tightly bound up with dynamics of war and peace. This course explores both the theory and practice of revolutions, teasing out

their effects and examining the prospects for revolutionary change in the contemporary world.

List of Topics

Part 1 Thinking about revolutions

Week 1 What are revolutions?

Week 2 Key themes in the study of revolutions

Week 3 Revolutions and world politics

Part 2 The experience of revolution

Week 4 The Atlantic 'age of revolutions'

Week 5 Socialist revolutions

(Week 6 Reading week – session on the assessed essay)

Week 7 'Third World' revolutions

Week 8 The 'last great revolution'?

Week 9 'Colour' revolutions

Part 3 Revolution today

Week 10 The Arab uprisings

Week 11 Rethinking revolution

Teaching: 10 hours of lectures, 15 hours of classes and 4 hours of workshops in the MT.

The main aim of the course is to provide an opportunity for students to make informed judgments about how and in what ways revolutions have impacted on core features of modern international order. Additional aims include assessment of the place of revolution in the contemporary world and, more generally, the ability to connect theoretical arguments about revolutions with the substantive experience of revolutions.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will produce 1 x 1,500 word essay in week 8 of MT.

Students will also submit a 2-3 page outline of the assessed essay in Week 10, receiving comments and feedback in Week 11.

Indicative reading:

- Doug McAdam, Sidney Tarrow and Charles Tilly (2001) *Dynamics of Contention* (Cambridge: Cambridge University Press).
- John Foran (2005) *Taking Power* (Cambridge: Cambridge University Press).
- John Foran, David Lane and Andreja Zivkovic eds. (2008) *Revolution in the Making of the Modern World* (London: Routledge).
- Jack Goldstone (2014) *Revolutions: A Very Short Introduction* (Oxford, Oxford University Press).
- Jeff Goodwin (2001) *No Other Way Out* (Cambridge: Cambridge University Press).
- Fred Halliday (1999) *160 Revolutions and World Politics* (London: Palgrave).160
- Charles Kurzman (2008) *Democracy Denied* (Cambridge, MA: Harvard University Press).
- Daniel Ritter (2015) *Unarmed Revolutions* (Oxford: Oxford University Press).
- Eric Selbin (2010) *160 Revolution, Rebellion, Resistance* (London: Zed).
- Theda Skocpol (1979) *160 States and Social Revolution* (Cambridge: Cambridge University Press).160

Assessment: Essay (70%, 3000 words), presentation (10%) and coursework (20%) in the MT.

The 20% coursework will be 10 x weekly blog posts of 200 words each.

The 10% presentation will be a group presentation.

IR322 Half Unit

Sovereignty, Rights and Justice: Issues in International Political Theory

This information is for the 2019/20 session.

Teacher responsible: Prof Chris Brown

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission

as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Combines insights and concepts from political theory and international relations theory, and focuses on modern debates on sovereignty, the rights of states, individuals and peoples, and international justice.

Sovereignty and the norm of non-intervention; the contemporary international human rights regime; the ethics of war and violence; the politics of humanitarian intervention; the politics of international criminal law and the ICC; global social justice. Further details will be provided at the start of the session.

Teaching: 20 hours of seminars in the LT.

(10 x 2 hr seminars.)

Week 6 is a reading week, in line with departmental policy

Formative coursework: Students will write one formative essay (1,500 words) due end of week 6; they can use this to develop ideas for the summative essay but students will not be allowed to 'cut and paste' their formative work into the summative essay. Students will produce a 2 page outline of the assessed essay in Week 10. This will set out the research question, an overview of the argument, a draft structure and indicative reading list.

Students will receive approval of the research topic and feedback on the outline by the end of Week 11.

Indicative reading: A detailed list of references will be provided: Suitable introductions include: Chris Brown, *International Society, Global Polity: An Introduction to International Political Theory* (2015) and Anthony Lang, *International Political Theory* (2014);

Assessment: Essay (100%, 4000 words) in the ST.

Students will write an essay of 4,000 words on a topic approved by the course convener due in Week 1 of the LT. Full details and guidance will be provided on Moodle and in the first seminar.

IR323 Half Unit

Gender and International Politics

This information is for the 2019/20 session.

Teacher responsible: Dr Katharine Millar CBG.8.13

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available with permission to General Course students.

Pre-requisites: Students must have completed International Political Theory (IR200).

Course content: The course examines the gendering of both the practices/events studies as international politics and the discipline/study of international relations. The course is grounded in feminist theory, and provides students with an introduction to feminist epistemologies and methods. Students will discover how 'gender matters' to the study and conduct of international politics through an examination of several substantive areas of international politics, including security, development, NGOs and transnational social movements, and international law/organisations. These overarching topics are balanced with issue-specific case studies (eg sexual/sexualised violence in conflict; gendering of informal economy) to be discussed in class. Particular thematic attention will be paid to the on-going construction of global/transnational hierarchies that are gendered and gendering.

Indicative topics to be covered:

1. Where (and why) is gender in international politics?
2. Introduction to feminist theory and its relation to the 'international'
3. Gender, hierarchy and the international system
4. Intersectionality: gender, race, empire
5. Gender, epistemology and the study of international politics
6. Femininity, masculinity and security
7. Gendered mobilities: queer theory, security and migration
8. Gender and poverty/development

9. Feminist activism, NGOs and transnational social movements
10. Gender and global governance.

Teaching: 10 hours of lectures and 15 hours of classes in the MT. In line with departmental policy, students on the course will have a reading week in in Week 6.

Formative coursework: Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.

Indicative reading:

- C Enloe, *Bananas, beaches and bases: making feminist sense of international politics*, rev'd 2nd ed (University of California Press, 2014)
- C Weber, *Queer International Relations: sovereignty, sexuality and the will to knowledge* (OUP, 2016)
- A Sisson Runyan and S Peterson, *Global Gender Issues in the New Millennium* 4th ed (Westview Press, 2013)
- L Sjoberg, *Gender, War and Conflict* (Polity, 2014)
- B Ackerly, J True and M Stern (eds), *Feminist Methodologies for International Relations* (CUP, 2006)

Assessment: Coursework (10%) and essay (90%, 3000 words) in the MT.

The coursework entails weekly short reaction pieces (300 words maximum) engaging with the week's topic/readings to be submitted in advance of each class. These will prepare students to fully engage with the class discussions. Most importantly, they will familiarise students with the feminist epistemological commitments to critique and self-reflection.

IR325 Half Unit

The Situations of the International Criminal Court

This information is for the 2019/20 session.

Teacher responsible: Dr Jens Meierhenrich CBG.10.01

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available with permission to General Course students.

Course content: This taught seminar introduces students to the practices of the International Criminal Court (ICC). Focusing on the ICC's ongoing investigations and prosecutions - its so-called 'Situations' - the courses exemplifies the politics of international law in the context of one of the most embattled international organisations in the international system. On the foundation of 'practice theory', it blends methodological approaches from law, the social sciences and the humanities. By adopting an evolutionary perspective to the ICC, the seminar raises - and answers - pertinent theoretical questions about institutional design and development of in international politics. Empirical cases to be discussed include the settings of the ICC's nine Situations (the DRC, Uganda, the Central African Republic, Sudan, Kenya, Libya, Cote d'Ivoire, and Mali) as well as the territories of the ICC's preliminary examinations (Afghanistan, Columbia, Georgia, Guinea, Iraq, Nigeria, Palestine, and Ukraine). Students will learn to work with both court documents and theoretical texts.

Teaching: 20 hours of seminars in the LT.

In line with departmental policy, students on the course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Students are required to research and write one essay (2,500 words). In addressing a given essay topic, students must integrate theory and history and bring empirical evidence to bear on the research question they have chosen. Essays must be fully - and carefully - referenced using one of the major conventions consistently. Submissions are due in Week 8 and must be in hard copy. Feedback is provided by the course teacher, who is responsible for marking essays.

Several criteria are applied in the evaluation of student essays,

notably: (1) originality of argument. (2) use of literature: has relevant scholarship been digested and put to good use? (3) soundness of analysis: is the inquiry comprehensive and logically consistent? (4) organisation of evidence: have argument and evidence been introduced and presented in a compelling manner? (5) validity of findings: does the argument remain valid when applied empirically? (6) clarity of presentation: are grammar, punctuation and references flawless?

Indicative reading: Indicative reading list:

Jens Meierhenrich (ed) 'The Practices of the International Criminal Court', *Law and Contemporary Problems* Special Issue (Vol.76, Nos 3 &4: 2014). Sarah M H Nouwen, *Complementarity in the Line of Fire: The Catalysing Effect of the International Criminal Court in Uganda and Sudan* (Cambridge: CUP, 2013). Benjamin N Schiff, *Building the International Criminal Court* (Cambridge: CUP, 2008). Carsten Stahn (ed), *The Law and Practice of the International Criminal Court* (Oxford: OUP, 2015). Patrick S Wegner, *The International Criminal Court in Ongoing Intrastate Conflicts: Navigating the Peace-Justice Divide* (Cambridge: CUP, 2015)

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

IR326 Half Unit

The Rule of Law: A Global History

This information is for the 2019/20 session.

Teacher responsible: Dr Jens Meierhenrich CBG.10.01

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History, BSc in Politics and International Relations and LLB in Laws. This course is not available as an outside option. This course is available with permission to General Course students.

Course content: This taught seminar course introduces students to the theory and history of the rule of law, one of the most frequently invoked - and least understood - ideas of political theory and practice. What exactly is the rule of law? Is it still a harbinger of liberty or just the latest manifestation of neocolonial domination? Is it a moral ideal or merely a means to an end? Can it really facilitate democracy, development, and economic growth? And why is the rule of law compatible with authoritarianism? In answer to these and related questions debated in law and the social sciences as well as in international organizations, governments, think tanks, and NGOs the world over, this interdisciplinary course introduces students to important advocates of the rule of law (from A. V. Dicey to the World Bank) and also to notable critics (including Thomas Hobbes, Carl Schmitt, Judith Shklar, and Eric Posner). Through close readings of seminal texts and a global analysis of historical cases and trajectories, students will gain an innovative and in-depth understanding of the promise - and limits - of one of the most foundational concepts of the modern world.

Teaching: 20 hours of seminars in the MT.

In line with departmental policy, students on the course will have a reading week in week 6.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Students will write one formative essay of 1,500 words on an assigned topic. This essay will be used to sketch out ideas for the summative essay. Feedback will be provided on the essay which will aid in the research and writing of the summative essay.

Indicative reading:

- Tom Ginsburg and Tamir Moustafa, eds., *Rule by Law: The Politics of Courts in Authoritarian Regimes* (Cambridge: Cambridge University Press, 2008)
- Paul Gowder, *The Rule of Law in the Real World* (Cambridge: Cambridge University Press, 2016)
- R. W., Kostal, *A Jurisprudence of Power: Victorian Empire and the Rule of Law* (Cambridge: Cambridge University Press, 2005)
- José Maria Maravall and Adam Przeworski, eds., *Democracy and*

- the Rule of Law (Cambridge:
 • Cambridge University Press, 2003)
 • Friedrich Kratochwil, *The Status of Law in World Society: Meditations on the Role and Rule of Law* (Cambridge: Cambridge University Press, 2014)
 • Eric Posner, *The Perils of Global Legalism* (Oxford: Oxford University Press, 2009)

Assessment: Essay (100%, 4000 words) in the LT Week 1.

IR349

Conflict and Peacebuilding

This information is for the 2019/20 session.

Teacher responsible: Dr David Rampton

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: A basic background knowledge of the subject themes or related areas would be an advantage.

Course content: This course is intended for those interested in theoretical and practical approaches to the question of peace, the problems of war, conflict and violence, and responses to these issues, particularly in the form of liberal peacebuilding and statebuilding. The course is divided into three unequal but interconnected parts. The first part examines ideas and debates about the concepts, causes, contexts, dynamics and representations of conflict, violence and war. The second explores and problematises the concept of peace and the nature, meanings and goals of peace and peacebuilding. This leads into the third section which is concerned with a critical engagement with the range of international responses to conflict associated with the discourses and practices of liberal peacebuilding and statebuilding. The seminars explore the nexus between theory and practice. Although the course and its readings are mainly theoretical and conceptual rather than empirical, students are encouraged to apply the ideas to actual cases, past and present.

Teaching: 9 hours of lectures, 13 hours and 30 minutes of classes and 18 hours of workshops in the MT. 9 hours of lectures, 13 hours and 30 minutes of classes and 18 hours of workshops in the LT. The course also features weekly film showings linked to the lecture theme, which are timetabled as workshops. Students will have a reading week in Week 6 of the MT and the LT, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Formative essays 1,500 words.

Indicative reading: Mark Duffield *Global Governance and the New Wars* (Zed Books 2014). Sinisa Malesevic *The Sociology of War and Violence* (Cambridge University Press 2010). Oliver Richmond (ed.) *Palgrave Advances in Peacebuilding: Critical Developments and Approaches* (Palgrave MacMillan UK 2010). Hugh Miall, Oliver Ramsbotham, and Tom Woodhouse, *Contemporary Conflict Resolution: The Prevention, Management and Transformation of Deadly Conflicts*, 3rd ed (Polity, 2011). Roland Paris and Timothy Sisk (eds.), *The Dilemmas of Statebuilding* (Routledge 2008).

Assessment: Essay (40%, 2000 words) in the LT. Essay (60%, 3000 words) in the ST.

IR355 Half Unit

Economic Diplomacy

This information is for the 2019/20 session.

Teacher responsible: Dr Stephen Woolcock CBG.8.09

The course is coordinated by an LSE academic but is supported by an experienced practitioner of economic diplomacy Sir Nicholas

Bayne, former UK foreign service and ambassador and Kenneth Heydon (formerly Deputy Director at the OECD in Paris).

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Some background knowledge of international political economy, such as that provided in IR206 'International Political Economy, will be useful to students taking this course.

Course content: The course introduces students to the theories and analytical frameworks relating to decision-making and negotiation in international economic relations and enables them to develop the skills needed to apply these to cases. It discusses the roles of the main actors, institutional settings and processes involved in domestic decision-making and international economic negotiations, and their interaction. It provides students with both academic and practitioner perspectives of economic diplomacy and offers participants an opportunity to understand the challenges faced by negotiators through the simulation of a current multilateral negotiation.

Teaching: 10 hours of lectures, 10 hours of classes and 1 hour and 30 minutes of workshops in the MT. 1 hour of lectures in the ST. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: Bayne, Nicholas and Woolcock, S. *The new economic diplomacy: decision-making and negotiation in international economic relations*, Third edition, Ashgate, Stephen 2013. Buelow, A M *Culture and Negotiation*, 2011. Checkel, Jeffrey *Social constructivisms in global and European politics: a review essay* 2004. Odell, John *Negotiating the world economy* 2000. Putnam, D *Robert Diplomacy and Domestic Politics: the logic of two-level games*, 1988. Sebenius, J,K *Negotiation Analysis: A characterization and review*, 1992.

Assessment: Exam (70%, duration: 2 hours) in the January exam period.

Essay (30%, 2000 words) in the MT.

IR367 Half Unit

Global Environmental Politics

This information is for the 2019/20 session.

Teacher responsible: Dr Robert Falkner CBG.8.02

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: There are no prerequisites, though some background knowledge of international political economy, such as that provided in IR206 International Political Economy, will be useful to students taking this course.

Course content: An introduction to concepts and issues in the study of global environmental politics, with special emphasis on the political economy of environmental protection. Environmentalism and the greening of international society; ecological perspectives on international political economy; domestic sources of environmental diplomacy; environmental leadership in international negotiations; international environmental regimes and their effectiveness; the role of nonstate actors (business, NGOs); corporate environmentalism; private environmental governance; trade and environment; international environmental aid; greening foreign direct investment; climate change; biosafety regulation; deforestation.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. 1

hour of classes in the ST.

Topics:

1. Introduction: The rise of global environmentalism in international politics
2. States and foreign environmental policy
3. Nonstate actors (NGOs and business) in global environmental politics
4. International environmental regimes and regime effectiveness
5. International trade and global environmental protection
6. Global finance, aid and sustainable development
7. Multinational corporations and private environmental governance
8. Climate change: international negotiations and multi-level governance
9. Biosafety: scientific uncertainty and the politics of precaution
10. Deforestation: non-regimes and private governance

Formative coursework: Students will be expected to produce 2 essays in the LT.

Indicative reading:

- Andresen, S., E. L. Boasson and G. Hønneland (2012). *International Environmental Agreements: An Introduction*. London, Routledge.
- Betsill, M. M., K. Hochstetler and D. Stevis, Eds. (2014). *Advances in International Environmental Politics*. Basingstoke, Palgrave.
- Biermann, F. and P. Pattberg, Eds. (2012). *Global Environmental Governance Reconsidered*. Cambridge, Mass., MIT Press.
- Chasek, P. S. and L. M. Wagner (2012). *The Roads from Rio: Lessons Learned from Twenty Years of Multilateral Environmental Negotiations*. New York, RFF Press.
- Clapp, J. and P. Dauvergne (2011). *Paths to a Green World: The Political Economy of the Global Environment*. Cambridge, MA, MIT Press.
- Corry, O. and H. Stevenson (2017). *IR and the Earth: Societal multiplicity and planetary singularity. Traditions and Trends in Global Environmental Politics*, Earthscan Ltd.
- Falkner, R. (2008). *Business Power and Conflict in International Environmental Politics*. Basingstoke, Palgrave Macmillan.
- Falkner, R., Ed. (2016). *The Handbook of Global Climate and Environment Policy*. Cheltenham, John Wiley & Sons.
- Hoffmann, M. J. (2011). *Climate Governance at the Crossroads: Experimenting with a Global Response after Kyoto*. New York, Oxford University Press.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

IR368 Half Unit

The Political Economy of Trade

This information is for the 2019/20 session.

Teacher responsible: Dr Stephen Woolcock CBG.8.09

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Some background knowledge of international political economy, such as that provided in IR206 International Political Economy, will be useful to students taking this course.

Course content: The course begins with a discussion the intellectual history of free trade and how this has shaped ideas that continue to shape policy today as well as of the core analytical models that assist in any analysis of trade and investment. It covers changes in the nature the of trade and investment in the 21st century, including among other things in the impact of the growth of global supply chains on the political economy of trade and investment. The domestic and international institutional frameworks within which trade and investment policy are conducted are discussed. The course then considers some of the underlying trends in trade towards the use of preferential and

plurilateral rather than multilateral approaches. Finally the course covers some of the main topics in current negotiations including in particular agriculture and food security, trade in manufactures, services and investment as well as the inter-relationship between trade and sustainable development.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: Heydon, K and Woolcock, S (eds) (2012) *The Ashgate Research Companion to International Trade Policy*, HF 1379 A 82: e-book and hard copies available. Hoekman, B and Kosteki. (2009) *The Political Economy of the World Trading System* HF 1359 H69 e-book available but reasonably price in paperback so something to purchase. Martin, L (ed) (2014) *Oxford Handbook of The Political Economy of International Trade*, available as an e-book.

Assessment: Exam (70%, duration: 2 hours) in the January exam period.

Essay (30%, 2000 words) in the MT.

The final examination lasts 2 hours and students will be asked to answer 2 out of 8 questions.

IR369 Half Unit

Politics of Money in the World Economy

This information is for the 2019/20 session.

Teacher responsible: Prof Jeffrey Chwieroth CBG.10.12

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Some background knowledge of international political economy, such as that provided in IR206 International Political Economy, will be useful to students taking this course.

Course content: This course is designed as a component of the study of a global system in which the management and mismanagement of money and finance are matters of fundamental consequence for international relations. It is intended to be of particular relevance to students specialising in international political economy. This is a course in applied international political economy theory. It deals with the basic concepts regarding the creation, use and management of money and finance in the global system. Students are then introduced to the political foundations of international monetary governance. Issues covered include the use of national currencies as international money, the politics of exchange rate adjustment, the operations of banks and other institutions in international money and capital markets, the evolution of global financial markets, the relationship between states and markets in the arena of global finance, international monetary cooperation, and the choices of monetary and financial policies open to developed and developing countries. The course emphasises that contemporary issues, such as international financial crises, international financial regulation and the politics of IMF conditionality, are best understood in a broader theoretical and analytical context.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 1 hour of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Students are expected to make presentations on topics of their choice and to write one 2,000-word essay, to be marked by the seminar teacher.

Indicative reading: No one book covers the entire syllabus, but the

following general works provide a useful introduction:

- B Eichengreen, *Globalizing Capital* (2008);
- S Strange, *Mad Money* (1998) Porter, *Globalization and Finance* (2005);
- D Andrews (ed), *International Monetary Power* (2006);
- J Frieden, *Currency politics: the political economy of exchange rate policy* (2015);
- E Helleiner, *The status quo crisis: global financial governance after the 2008 meltdown* (2014);
- C. Norloff, *America's global advantage: US hegemony and international cooperation* (2010);
- B Cohen, *Currency power: understanding monetary rivalry* (2015)

Assessment: Exam (100%, duration: 2 hours) in the January exam period.

IR372 Half Unit

Nuclear Non-proliferation and World Politics (Special Topics in International Relations)

This information is for the 2019/20 session.

Teacher responsible: Professor Etel Solingen (Susan Strange Visting Professor during 2019/20)
Dr Ulrich Sedelmeier

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course will apply theories of international relations to explain why some states have pursued nuclear weapons whereas most others have abstained. What is the role of the nonproliferation regime, major powers, international norms, democracy, and globalization on decisions to acquire or renounce nuclear weapons? How do international institutions, major powers and other states respond to violations of international legal commitments not to develop nuclear weapons? What is the relative effectiveness of sanctions and positive inducements in persuading states to abandon nuclear weapons programs? Countries under focus will be North Korea, Iran, Japan, Taiwan, Iraq, Libya, South Korea, India, Pakistan, Israel, and Egypt, among others. There will be simulations of negotiations geared to dissuade actual or potential nuclear proliferators from pursuing such designs.

Teaching: 9 hours of lectures and 13 hours and 30 minutes of classes in the LT.

Formative coursework: 1 x Essay (1,500 words) and 1 x Essay Plan (1 page) in the Lent Term.

Indicative reading: Etel Solingen, *Nuclear Logics: Contrasting Paths in East Asia and the Middle East* (Princeton University Press, 2007). William Potter and G. Mukhatzhanova, "Divining Nuclear Intentions" *International Security* 33, 1 (2008). Nicholas L. Miller, "The Secret Success of Nonproliferation Sanctions," *International Organization* 68, No. 4 (2014): 913-944. Nicholas L. Miller, "Nuclear Dominoes: A Self-Defeating Prophecy?" *Security Studies* 23, No. 1 (2014): 33-73. Nina Tannenwald, *The Vanishing Nuclear Taboo?* *Foreign Affairs* November/December 2018. Etel Solingen (ed.), *Sanctions, Statecraft, and Nuclear Proliferation* (Cambridge University Press, 2012)

Assessment: Essay (100%, 3000 words) in the ST.

IR373 Half Unit

China and the Global South

This information is for the 2019/20 session.

Teacher responsible: Professor Chris Alden CBG.9.04

Availability: This course is available on the BSc in International

Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is not available as an outside option. This course is available with permission to General Course students.

Pre-requisites: Foreign Policy Analysis (IR202)

Course content: This course focuses on the substantive role that China plays in the Global South where its preponderance of material power and putative developing country status confers upon it a dominant position in bilateral and regional political economies. China's economic position, coupled to an astute use of finances flowing from its mercantilist policies, has enabled it to become the leading trading partner and a significant investor in the developing world. Moreover, the Global South is increasingly figuring in Beijing's expanding security interests and soft power provisions. Interpretations embedded in prevailing academic discourses like socialisation, threat and peaceful rise take on new meaning when studied through the lens of ties with developing countries. Understanding how dynamics in this relationship are impacting upon a host of global and contemporary issues (BRICs, multilateralism, peacekeeping, the environment) is crucial to the shape of the 21st century.

Teaching: 10 hours of lectures and 15 hours of classes in the MT. In line with departmental policy, students on the course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce 1 essay and 1 other piece of coursework in the MT.

Indicative reading: Chris Alden and Chris R Hughes, 'Harmony, Discord and Learning in China's Foreign Policy', *China Quarterly*, Special Issue (No.9 December 2009), pp.13-34. Chris Alden, 'China and Africa - The Relationship Matures', *Strategic Analysis* (36:5 2012), pp.701-707. Kevin Gallagher, *The China Triangle: Latin America's China Boom and the Fate of the Washington Consensus* (OUP: 2016). David Shambaugh, *China Goes Global: The Partial Power* (OUP: 2014). Carol Wise and Margaret Myers (eds), *The Political Economy of China-Latin American Relations in the New Millennium: Brave New World* (Routledge: 2016)

Assessment: Essay (80%, 3000 words) in the LT.

Presentation (20%) in the MT.

During the course of the seminars students will participate in a group presentation (20%) and submit a 3,000 word essay (80%) at the start of the LT.

IR378 Half Unit

Critical War Studies

This information is for the 2019/20 session.

Teacher responsible: Prof Tarak Barkawi CBG.9.03

Tarak Barkawi is Professor in the Department of International Relations at the London School of Economics and Political Science. He studies warfare between the West and the non-European world, past and present. He writes on the pivotal place of armed force in globalization, imperialism, and modernization, and on the neglected significance of war in social and political theory. He is author of *Soldiers of Empire, Globalization and War* and many scholarly articles.

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese, BSc in International Relations and History and BSc in Politics and International Relations. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: War transforms the social and political orders in which we live, just as it obliterates our precious certainties. Nowhere is this more obvious than in the fate of truths offered about war itself. War regularly undermines expectations, strategies and theories, and along with them the credibility of those in public life and the academy presumed to speak with authority about it. This course begins with the recognition that the unsettling character of war has been a profound opportunity for scholarship.

For it is precisely in war's disordering and unsettling of politics and identities that the socially and historically generative powers of war are exposed. In bending, stretching and even breaking institutions and societies, war reveals them to us anew and offers perspectives obscured in times of peace. At the same time, these disruptions shape and inform the course and character of war. This violent but fecund juncture between war, society and politics is what this course seeks to understand.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of classes in the LT.

This course consists of three elements all taught in Lent: a lecture series, classes, and a film series.

This course is an advanced undergraduate option. It is a text-based course and not a survey course. That means we will concentrate on a few required readings—read carefully and in-depth. Rather than being given a list of readings for you to select from, you will be given specific, required readings that everyone must read.

For each class, you will be doing required reading of approximately half a book, sometimes less. For each lecture, you are given one recommended background reading. In planning your time, you should read first for the class and second for the lectures.

It is essential that you do the required reading for each class before class.

The lecture series provides concepts, ideas and histories—intellectual scaffolding—against which to read the course texts. It is an essential and helpful aid to your reading.

The film series, attendance at which is voluntary, provides an opportunity for sociability and the exploration of course themes in popular cultures.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: Hew Strachan, *Clausewitz's On War: A Biography* (New York: Grove Press, 2007). Paul Fussell, *The Great War and Modern Memory* (New York: Oxford University Press, 1975). William H. McNeill, *The Pursuit of Power: Technology, Armed Force, and Society since A.D. 1000* (Chicago: Chicago University Press, 1982). Michael Sherry, *In the Shadow of War: The United States since the 1930s* (New Haven: Yale University Press, 1995). Anders Engberg-Pedersen, *Empire of Chance: The Napoleonic Wars and the Disorder of Things* (Cambridge: Harvard University Press, 2015). Debbie Lisle, *Holidays in the Danger Zone: Entanglements of War and Tourism* (Minneapolis: University of Minnesota Press, 2016). Antoine Bousquet, *The Scientific War of Warfare: Order and Chaos on the Battlefields of Modernity* (London: Hurst, 2009). Susan Jeffords, *The Remasculinization of America: Gender and the Vietnam War* (Bloomington: Indiana University Press, 1989). Bruno Cabanes, *The Great War and the Origins of Humanitarianism 1918-1924* (Cambridge: Cambridge University Press, 2014)

Assessment: Essay (100%, 4000 words) in the LT.

The course will be 100% assessed by essay due after the end of term and based on a topic of the student's choice. Students will be given a list of questions to work from and may choose a question provided or develop their own question (based on course texts) in discussion with the course coordinator.

IR398

Dissertation

This information is for the 2019/20 session.

Teacher responsible: Dr Luca Tardelli CBG.10.05

Availability: This course is available on the BSc in International Relations, BSc in International Relations and Chinese and BSc in Politics and International Relations. This course is not available as an outside option nor to General Course students.

Course content: Candidates submit a dissertation of up to 10,000 words, excluding bibliography, but including notes and any appendices and tables, in the first week of Summer Term. The subject of the dissertation can be anything within the field of International Relations that IR Faculty are able to supervise.

Candidates submit the title of their dissertation for approval by the Course Co-ordinator/s before the end of the Michaelmas Term, and an outline of their project early in Lent Term. Students also receive written feedback from their supervisors on up to 3,000 words of text as long as this is submitted by the end of Reading Week in Lent Term.

Dissertations offer students the chance to enhance their knowledge through an in-depth analysis of a question in an area of particular interest to them. The dissertation assesses different skills from examinations. The aim is to develop the ability to make independent judgements and decisions about a promising and feasible research question, and on selecting and analysing the most important and relevant material. The outcome will be a coherent, sustained, systematically developed, and well supported argument on a topic, typically combining empirical material and theoretical insights, within the field of International Relations. The dissertation may draw entirely on secondary literature. There is no requirement for the use of primary sources and original material such as unpublished documents, archives, or personal interviews.

Teaching: 3 hours of lectures and 4 hours and 30 minutes of classes in the MT. 1 hour of lectures and 2 hours of workshops in the LT.

There is also a 1-hour introductory lecture in the Summer Term of the preceding year for those interested in taking this option. In addition to formal teaching, students will see their supervisors six times (usually three times in MT and three times in LT) for meetings of around 30 minutes each.

IR398 contains lectures on how to formulate a research question, how to structure a dissertation, and how to find and use evidence. Classes explore how questions are formed, how literature is used, and how evidence is deployed. Workshops are a chance for students to discuss outlines, and receive guidance on issues of structure, research design and evidence. There may also be a chance for some students to present their work.

Advice and Assistance

The Course Co-ordinator/s will provide guidance on the nature and process of writing an IR dissertation, mainly through the course lectures, classes and workshops. They will also be available for consultation throughout the year to help students address problems as and when they arise.

While students will receive ample guidance and feedback on their work, the dissertation is an independent project. As such, although students will have a supervisor, and colleagues both in IR and other departments can be approached for informal advice, no Faculty member can read a full draft of the thesis.

Assessment: Dissertation (100%, 10000 words) in the ST.

LL100

Foundational Legal Skills

This information is for the 2019/20 session.

Teacher responsible: Dr Sonya Onwu NAB 5.07

Availability: This course is compulsory on the BA in Anthropology and Law and LLB in Laws. This course is not available as an outside option nor to General Course students.

Course content: An non-assessed course to help students develop their legal skills. By the end of this course, students will be able to:

1. actively read legal material, and produce comprehensive working notes.
2. engage in independent, self-directed research.
3. critically evaluate a range of legal materials.
4. present clear written arguments in a structured, logical and well-reasoned way, and supported by substantiating evidence.
5. identify and apply the relevant law to the facts of a problem scenario in a structured and methodical manner.
6. assess and reflect upon their own skills development, identify areas for improvement, and the appropriate mechanisms for doing so.

Teaching: 1 hour and 30 minutes of lectures and 5 hours of classes in the MT.

An initial two sessions will take place during Induction Week, followed by 10 weekly 30 minute classes. Reading week (week 6) will be free.

Formative coursework: Each week, students will be asked to upload a sample of work. They will be able to access the results of their pre and post class self-test, and will need to present a short statement as to their skills needs to the group. Students will receive feedback in-class on their work.

Indicative reading: Readings will be taken from the assigned reading for the LLB first year core courses in each week to avoid students having to read additional pieces. A guide to which readings used will be provided at the start of the course.

LL104 Law of Obligations

This information is for the 2019/20 session.

Teacher responsible: Dr Charlie Webb, NAB6.26

Availability: This course is compulsory on the BA in Anthropology and Law and LLB in Laws. This course is available on the BSc in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Introduction to the law of contract, including formation of contracts, express and implied terms, misrepresentation, exclusion clauses, remedies for breach of contract. Introduction to the principles of the law of restitution. Introduction to the law of torts: negligence and other specific torts, causation, defences, remedies for torts.

Teaching: 18 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

The lectures will be given by a number of different teachers. The basic work is done through the classes, and the lectures are designed to introduce the topics on the syllabus.

Formative coursework: Students will be expected to produce up to 4 assignments through the year, set and marked by their class teacher.

Indicative reading: A general reading list will be issued at the commencement of each term. Students should follow the advice of their class teachers as to the textbooks to be read.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL105 Half Unit Property I

This information is for the 2019/20 session.

Teacher responsible: Dr Tatiana Flessas NAB.5.15

Availability: This course is compulsory on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The aim is to introduce students to the role of property concepts in legal and social thought. Particular attention is paid to the context, development and function of property forms in contemporary legal systems. The course encompasses a broad range of established and emergent property forms, ranging from questions of copyright and share ownership to aspects of real property. Extensive use will be made of historical and other general commentaries on the question of property.

Teaching: 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: Murphy & Roberts, *Understanding Property Law*; Ryan, *Property and Political Theory*; Rifkin, *The Age of Access*.

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL106 Public Law

This information is for the 2019/20 session.

Teacher responsible: Dr Jo Murkens

Additional Teachers: Professor Martin Loughlin, Dr Thomas Poole, Dr Andrew Scott, and Professor Conor Gearty.

Availability: This course is compulsory on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course covers: the conceptual framework of public law; central government and the executive; parliament; multi-layered government (the European Union, devolution and local government); judicial review; and civil liberties and human rights.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 17 hours of lectures and 9 hours of classes in the LT. 1 hour of classes in the ST.

Three weeks in LT are taught using a 'flipped-lecture' approach, with a series of on-line lectures and three 1-hour "town hall discussion" sessions.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Other assignments will be set by the class teacher or the course convenor, as required.

Indicative reading: Basic texts: Martin Loughlin, *The British Constitution: A Very Short Introduction* (Oxford: Oxford University Press, 2013); A. Le Sueur, M. Sunkin & J. Murkens, *Public Law: Text, Cases, and Materials* (Oxford: Oxford University Press, 3rd edn, 2016).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL108 Criminal Law

This information is for the 2019/20 session.

Teacher responsible: Prof Peter Ramsay

Availability: This course is compulsory on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course examines the 'general part' of criminal law and selected areas of the special part of criminal law in the context of theories of the aims and functions of criminalisation. The course will discuss the limits to criminalization; the conceptual framework of criminal liability (conduct, responsibility, capacity, defences); homicide; sexual offences; non-fatal violence against the person; property offences (with particular reference theft, fraud, robbery and burglary); secondary participation in crime; attempts, conspiracy, encouragement; 'pre-inchoate' offences; regulatory offences.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: This will be set by the teacher in charge of the class. A minimum of two pieces of written work will be required, usually one essay and one problem.

Indicative reading: A detailed reading list will be distributed at the start of the course (for the current list, see the public folders). A number of criminal law textbooks are available, and students will be expected to read the relevant parts of the most recent editions of one of these, e.g. Nicola Lacey, Oliver Quick & Celia Wells, *Reconstructing Criminal Law*; Andrew Ashworth and Jeremy Horder, *Principles of Criminal Law*; Jonathan Herring, *Criminal Law: Text, Cases and Materials*; M. Allen, *Introduction to Criminal Law*. They will also be expected to read all cases and materials marked as primary on the detailed reading lists provided.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL109 Half Unit

Introduction to the Legal System

This information is for the 2019/20 session.

Teacher responsible: Prof Nicola Lacey and Prof Neil Duxbury

Availability: This course is compulsory on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course is designed as a foundation course to familiarise law students with the basic characteristics and functioning of legal systems. While most LLB courses focus on particular areas of law, covering the main doctrinal rules and principles which govern them, this course is distinctive in equipping students with three further important tools for a rounded understanding of law, its practical operation, and its impact in society. These are, first a detailed study of the rules, protocols and conventions which govern the judicial interpretation and development of law in the English legal system; second a comparative and historical analysis of the very different way in which those rules and protocols have developed in both the civilian systems of the continent of Europe, and the common law system of the United States, implying key difference in the constitutions of these legal systems; third, an examination of the distinctive ways in which legal rules and processes are embedded in particular institutional structures and traditions, and of the ways in which these institutions have been changing over the last 30 years, with implications for the social impact of law and for the relationship between law and other social rules, conventions and regulatory systems. The course will include the following topics (though the order of sessions 5-11 may change):

1. What is law? (NL)
2. Reading Law: Statutory interpretation (ND)
3. Reading Law: Common law and judicial precedent (ND)
4. The Civilian Tradition (ND)
5. Adjudication and Due Process: the role of the trial (NL)
6. Reading Week
7. The Judiciary: Does it matter who the judges are? (NL)
8. Developments in Criminal Justice; Law and Legitimacy (NL)
9. Developments in Civil Justice; Alternative forms of Dispute Resolution (NL)
10. Social Ordering beyond Formal Law: Legal Pluralism (NL)
11. Legal Decision-making beyond Lawyers: Lay Participation (NL)

Teaching: 20 hours of lectures and 9 hours of classes in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading: This is a Moodle course, with the course materials, lecture outlines, class reading and suggestions for further reading set out through links to relevant sites. Students who would like to do some introductory reading are encouraged to read Tom Bingham, *The Rule of Law* (2010: Penguin 2011) The Secret Barrister (Macmillan 2018: Pan Macmillan Paperback 2019)

Assessment: Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

LL202

Commercial Contracts

This information is for the 2019/20 session.

Teacher responsible: Dr Joseph Spooner and Dr Paul Macmahon
Additional Teachers: Dr Jo Braithwaite, Professor Michael Lobban, Dr Nick Sage

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

This optional LLB course is normally available to students who have completed Law of Obligations LL104.

Pre-requisites: Completion of LL104 - Law of Obligations is

normally a prerequisite.

Course content: LL202 Commercial Contracts is a study of the general principles of English law governing commercial contracts. It approaches the topic in two parts. Part 1, '*Fundamentals of Commercial Contracting*' is effectively a study of advanced contract law, and examines several important aspects of, or themes in, the law's regulation of commercial contracting. The topics are chosen because of their intrinsic interest, and because of the opportunity offered for an advanced contextualised examination of contract law. This part explores essential aspects of contract law such as contractual interpretation and the doctrines of mistake and frustration. Other topics include pre-contractual negotiations, multi-party transactions, and agreed remedies. Part 2, '*Fundamentals of Commercial Law*' examines core topics in commercial law, offering students an overview of the most significant areas in this field. It focuses on sales contracts; money, banking and payment methods; credit and secured transactions; agency; assignment; commercial dispute resolution; and international commercial contracts.

Topics are likely to include:

Part 1 – Fundamentals of Commercial Contracting

- The interpretation of contracts.
- Pre-contractual duties and the obligation to negotiate contracts in good faith.
- Mistakes in contracts and frustration of contracts.
- Multi-party projects (privity of contract).
- Agreed remedies.

Part 2 – Fundamentals of Commercial Law

- Agency.
- Assignment.
- Contracts for the sale of goods.
- Credit and security.
- Banking contracts, money, and (international) payment methods.
- Commercial dispute resolution and international commercial contracting.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Formative coursework: Two formative (unassessed) essays in Michaelmas Term.

Indicative reading: For the advanced contract law portion of the course, you have the same choice of main text that you had for LL104: Chen-Wishart, *Contract Law*, (5th edn, OUP 2015) or McKendrick, *Contract Law* (12th edn, Palgrave 2017). Up-to-date casebooks include Burrows, *A Casebook on Contract*, (5th edn, Hart Publishing 2016) and McKendrick, *Contract Law: Text, Cases and Materials* (8th edn, OUP 2018).

For the commercial law topics, the main textbook is McKendrick (ed.), Goode on Commercial Law (5th edn, Penguin 2017). For cases and materials, you might find useful Clarke, Hooley, Munday, Sealy, Tettenborn, and Turner, *Commercial Law: Text, Cases, and Materials*, (5th edn, OUP 2017). For topic overviews, you may also wish to try Burrows (ed.), *English Private Law* (3rd edn, OUP 2013), available online through the LSE Library website.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Essay (25%, 2000 words) in the LT.

LL203

Law of Business Associations (Company Law)

This information is for the 2019/20 session.

Teacher responsible: Dr Eva Micheler

Additional Teachers: Dr Elizabeth Howell

Visiting Professors: Ms Mary Stokes and Leslie Kosmin, QC

Availability: This course is available on the BA in Anthropology and Law, BSc in Accounting and Finance and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Experience suggests that third year students are more successful.

Pre-requisites: It is helpful to have studied or be studying Property II, although this is not a formal pre-requisite.

Course content: This course examines the nature of the legal vehicles available for the carrying on of entrepreneurial activities, paying particular attention to the analysis of companies. It examines the core features of the company. These are: separate legal personality, limited liability, centralised management, the allocation of control rights, and free transferability of shares. The course analyses how the law implements these features and the policy trade-offs among them.

We analyse the relationship between various groups with an interest in the affairs of the company – shareholders, directors, managers, financiers, trade creditors, employees, consumers and regulators - and the balance of power between them. The course looks beyond purely technical legal issues and encourages a critical examination of the system and proposals for reform.

Registered companies are creatures of statute and close attention to the Companies Act 2006 and related legislation is essential. However, no attempt is made to deal with all, or even most, of the complex technical aspects of the legislation and non-statutory regulation. The course concentrates on the problems and policies underlying the legislation, with some more detailed consideration of selected provisions. The influence of European Directives and Regulations on UK company law is also reflected.

Despite the importance of statute, common law and equitable principles have played a major role in the development of company law by the courts. This has relied heavily on principles of agency and the equitable principles relating to fiduciaries. Case analysis is therefore a major element of the course. Excellent case books are available.

This subject covers a wide range of businesses - from the one-person firm (the local greengrocer or plumber) to family companies, to major multinational groups listed on the Stock Exchange. This wide coverage plus the policy emphasis means that this course should appeal to all students with an interest in the economic, social and political aspects of business organisations and not only to those wishing to practise commercial law.

Topics usually covered are:

- Introductory concepts and themes including limited liability and corporate personality.
- Capacity of companies & the powers of individuals acting for companies.
- Shares and share capital.
- Directors: powers, duties and corporate governance issues.
- The role of shareholders in companies: rights, decision-making and governance.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT. 4 hours of seminars in the ST.

Lectures are accompanied by fortnightly two-hour seminars, which follow the lectures closely. Reading lists provided by the lecturer in each topic are used as the basis for seminar work.

Seminars are held in weeks 3,5,8,10,11 of MT and LT. The two revision classes are in week 1 ST.

Seminar weeks to be confirmed

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Indicative reading: Detailed lists will be provided during the course. The primary recommended text is: Brenda Hannigan, *Company Law* (5th edition, 2018). We also recommend: Gower and Davies, *Principles of Modern Company Law* (10th edn, 2016); Sealy and Worthington, *Cases and Material on Company Law* (11th edn, 2016).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL204

Advanced Torts

This information is for the 2019/20 session.

Teacher responsible: Dr Emmanouil Vogiakis

Additional Teachers: Dr Paul MacMahon, Dr Nick Sage and Dr Charlie Webb.

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

Pre-requisites: Students must have completed Law of Obligations (LL104).

Course content: If you liked Obligations, you are going to love this. Advanced Torts aims to broaden and deepen your knowledge of tort law in two ways. First, we look at a range of important torts that are not covered in the Obligations course. Second, we tackle the 'big' theoretical questions of tort law. You will emerge from the course not only with a better understanding of the rules and principles that govern specific torts, but also with the ability to engage critically with different views about the overall purpose and the moral and social function of tort law.

Here are some topics we usually cover:

- Theories of tort law: what is the aim of tort law, and do judges need a theory of it?
- Corrective justice vs economic theories of tort law
- Tort law, moral responsibility and luck
- Tort law and the 'compensation culture'
- The position of public authorities in negligence
- Tort actions for unwanted pregnancy/birth & children born with disabilities
- Strict liability regimes: liability for ultra-hazardous activities; liability for defective products; the justification of strict liability.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 1 hour of seminars in the ST.

Formative coursework: At least one formative essay per term

Indicative reading: If all goes according to plan, the depth we will attain in the course and the focused nature of our reading lists for each topic will make textbooks redundant, or at least useful only as a basic introduction to the issues we will be covering. This means that the tort textbook you may have purchased for the LL104 Law of Obligations course will probably be good enough for our purposes. Here are some other introductory or general texts that you might like to consult from time to time, just to get a different perspective on things, and some more advanced or specialized books from which we will be setting reading for certain topics:

General Texts: W E Peel & J Goudkamp, *Winfield & Jolowicz on Tort* (14th ed., 2014); N J McBride & R Bagshaw, *Tort Law* (4th ed., 2012); B A Hepple et als., *Hepple and Matthews' Tort Law: Cases and Materials* (7th ed., 2015); S Deakin, A Johnston & B Markesinis, Markesinis and Deakin's *Tort Law* (7th ed, 2012).

Advanced/Specialised Texts: Arthur Ripstein, *Private Wrongs* (2016); Emmanuel Voyiakis, *Private Law and the Value of Choice* (2017); Ernest Weinrib, *The Idea of Private Law* (1995); David Owen (ed.), *Philosophical Foundations of Tort Law* (1997); Robert Stevens, *Torts and Rights* (2007); Jules Coleman, *Risks and Wrongs* (2002); Guido Calabresi, *The Cost of Accidents: A Legal and Economic Analysis* (1970); John Oberdiek, *Philosophical Foundations of the Law of Torts* (2014); Nicolette Priaulx, *The Harm Paradox: Tort Law and the Unwanted Child in an Era of Choice* (2007).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL205

Medical Law

This information is for the 2019/20 session.

Teacher responsible: Prof Emily Jackson

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: Medical law is a rapidly developing and increasingly important subject. The rationing of expensive new drugs, and the future of the NHS have become central political issues. New technologies, such as genome editing, egg freezing and face transplants, are invariably accompanied by demands for their regulation. In this course we examine the legal framework within which health services are provided, and we explore some of the difficult legal and ethical dilemmas that arise when determining the limits of medical innovation.

Subjects include resource allocation; public health; malpractice litigation; consent; mental capacity; mental health law; confidentiality; clinical research; the regulation of medicines; organ transplantation; embryo and stem cell research; abortion; assisted conception; preimplantation genetic diagnosis; surrogacy and assisted dying.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Indicative reading: Jackson, *Medical Law: Text, Cases and Materials*, 5th edition (Oxford UP, 2019).

Assessment: Take-home assessment (50%) and take-home assessment (50%).

Two take-home assessments worth 50% each. The first will take place between MT and LT, and the second will take place between LT and ST.

LL207

Civil Liberties and Human Rights

This information is for the 2019/20 session.

Teacher responsible: Dr Kai Moller

Additional Teachers: Professor Thomas Poole, Professor Conor Gearty.

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students. This course is capped at 50.

Course content: The course provides a challenging introduction to human rights law. The first term starts by focusing on the UK Human Rights Act, setting out a theoretical perspective on civil liberties before considering the common law approach to liberty and then analyzing in depth how the Human Rights Act impacts on the protection of civil liberties and human rights in this area. In the second half of the first term and the first half of the second, the focus shifts to the European Convention on Human Rights with an in-depth analysis of the case law on several important rights, including but not limited to freedom of expression, freedom of association, freedom of religion, the right to respect for private life, and freedom from torture and inhuman or degrading treatment or punishment. The second term ends with a review of the interrelationship between the Human Rights Act and the Strasbourg system, and also deals with the extra-territorial reach of the Act and its impact on UK national security/anti-terrorism law. The course builds on the knowledge that students have acquired in Public Law in year one. Note that students must engage with the law of two legal systems here: the European Convention on Human Rights and U.K. law.

The course takes a highly analytical approach; it will not be sufficient to approach the issues in a descriptive, "black letter" way. Rather, an overall aim is to enable students to critically assess the European Court's and the U.K. Supreme Court's arguments about the compatibility of a policy or administrative decision with human rights and the particularities of human rights adjudication within the U.K. legal system. To this end, the course will focus on the necessary doctrinal and conceptual framework – such as positive obligations, the margin of appreciation and proportionality –, an overview of the relevant case law, and in-depth analysis of selected problems in human rights law.

This course does not touch upon strategic or policy issues (such as the most effective ways to promote human rights, NGO practices, etc.); rather it focuses on the controversial and often difficult moral and political issues that arise in human rights adjudication and on unravelling the implications of the particular way in which U.K. law has incorporated the ECHR. Regard will however be had to the current argument over whether or not the Act should be repealed.

The teaching of this course is mainly case-based. To complete it successfully, students must prepare for each seminar by reading and thinking through the relevant cases; the seminars will be conducted on the basis of the expectation that the students are familiar with the materials. There is no comprehensive textbook available for this course.

Syllabus: Theoretical aspects of human rights and their judicial enforcement; the Human Rights Act 1998; human rights and parliamentary sovereignty; human rights and standards of review; human rights and the common law; precedent and human rights law. The right to freedom from torture and inhuman or degrading treatment; freedom of expression; freedom of association and 'militant democracy'; freedom of religion; the right to respect for private and family life.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Indicative reading: For European Convention law there exists no textbook which deals with the issues in adequate depth, but interested students may want to take a look at Harris, O'Boyle and Warbrick, *Law of the European Convention on Human Rights* 4th edn (OUP, 2018) for an overview.

For the more theoretical aspects of the course, see Kai Möller's *The Global Model of Constitutional Rights* (OUP 2012; paperback edition 2015). For the UK side, representative works include Conor Gearty, *Civil Liberties* (OUP, 2007), Tom Hickman, *Public Law after the Human Rights Act* (Hart, 2010), Aileen Kavanagh, *Constitutional Review under the UK Human Rights Act* (CUP, 2009), and (more recently) Conor Gearty, *On Fantasy Island. Britain, Strasbourg and Human Rights* (OUP, 2016).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL210

Information Technology and the Law

This information is for the 2019/20 session.

Teacher responsible: Dr Orla Lynskey and Dr Valerie Verdoodt

Availability: This course is available on the BA in Anthropology and Law, BSc in Business Mathematics and Statistics, BSc in Statistics with Finance and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Pre-requisites: This course does not require an in-depth understanding of contemporary computer technology – we are primarily interested in the implications of the use of information technology, and the intended and unintended consequences of regulating that use.

Course content: This survey course enables students to assess

critically a selection of fundamental legal issues in the field of Information Technology (IT) Law. It begins by introducing students to key debates in IT and internet governance: do we need distinct legal rules to regulate IT? Who does, and should, control the Internet? Is and should the Internet be a 'neutral' network? Once students are equipped with this knowledge of Internet governance and the challenges this poses for the law, we consider how the law has responded to the challenges of IT and the extent to which legal issues have shaped the development of information society policy. This will be done through a detailed examination of topics such as online data protection, computer misuse and hacking and freedom of expression.

The focus will initially be on English law, although the global nature of IT law means that there are strong EU and US legal influences upon the English system. Therefore, comparative aspects will be introduced in places, and readings will include materials drawn from, amongst others, US law journals.

This course does not require an in-depth understanding of contemporary information technology – we are primarily interested in the legal implications of the use of IT, and the intended and unintended consequences of regulating that use.

Aims and Objectives: At the end of the course, students should be able to:

- Critically evaluate ongoing developments in law relating to IT;
- Display an understanding of how these developments relate to one another;
- Examine areas of doctrinal and political debate surrounding rules and theories;
- Evaluate those rules and theories in terms of internal coherence and practical outcomes;
- Draw on the analysis and evaluation contained in primary and secondary sources.

Indicative Content: For a more detailed outline of the syllabus visit the course's Moodle page.

Part I: Internet Governance

- An Introduction to IT Law
- Digitisation and the Information Society
- Regulating the Digital Environment
- Net Neutrality

Part II: Data Protection and ePrivacy

- Introduction to Data Protection
- The Application of the Data Protection Rules Online
- AdTech, Profiling and ePrivacy
- State Surveillance and Communications Interception

Part III - Online Freedoms

- Cyber Speech and Free Expression online
- Cyber-defamation
- Filtering, Ranking and Digital Speech Management

Part IV – Digital Culture and Intellectual Property Rights

- Copyright in the Digital Environment
- Digital Creatives and Copyright Law
- Trade Marks and Domain Names

Part V – Computer Crime

- Computer Misuse
- Criminal Speech in the Information Society
- Policing for the Future: Legal Challenges

Part VI – Current Issues in the Digital Economy

- The Emergent Legal Issues of the Sharing Economy
- Robotics, Risk and Ethics
- Regulating Decentralised Networks: Blockchain and Beyond

The above is the provisional 2019/20 programme. Due to the fast changing nature of this subject changes may occur to the syllabus at any time.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT.

Indicative reading: Murray: *Information Technology Law: Law and Society* 4th ed (Oxford: OUP, 2019) (Recommended for purchase). Lloyd: *Information Technology Law* 8th ed (Oxford: OUP, 2017). Lessig: *Code and Other Laws of Cyberspace* ver.2.0 (New York: Basic Books,2006).

Suggested Initial Reading:Reed: *Computer Law* 7th ed., Introduction. Murray: *Information Technology Law: Law and Society*

3rd ed, Ch.1.

Assessment: Take home exam (60%) in the ST. Continuous assessment (40%) in the MT and LT.

Students will be asked to complete a portfolio of short reports in the style of blog entries or commentaries throughout the year. The portfolio will consist of three 1000 word short reports, two of which will be submitted in Michaelmas Term and one in Lent Term. The best two entries into the portfolio will be recorded (the third entry will be discarded) and will make up 40% of the overall mark. The remaining 60% of the overall mark will consist of a single take-home exam question in the Summer Term which students will be required to answer in 8 hours. This exam question will take the form of an extended practical case study. Students will be provided with specific guidance on how to approach both the portfolio pieces and the take home examination before completion of this work.

LL212

Conflict of Laws

This information is for the 2019/20 session.

Teacher responsible: Dr Jacobus Bomhoff

Please note: Seminars in Michaelmas Term 2019 will be taught by Dr. Paul MacMahon and Dr. Rishi Gulati.

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Pre-requisites: Interested students may wish to consider taking this course as an option in their third year. That said, over the past years many second year students have taken this course without any problems. The only required background understanding relates to (English) law of obligations. Basic issues of EU law relevant to the course will be covered in class. It is also available as an outside option to third year students where regulations permit and with the permission of the course teacher.

Course content: Conflict of laws – also known as private international law – is the area of law concerned with private law cases that cross borders. Conflict of laws differs from public international law in that it deals with transactions between private individuals, rather than with those directly implicating States or international organizations.

What rules should an English court apply to a contract between companies from different countries, or to a tort claim arising out of an environmental disaster abroad? Should foreign celebrities be allowed to sue in the English courts when they feel they have been defamed in an article posted on an American website? Should the English courts recognize judgments from other countries, even when they conflict with English ideas of right and wrong? It is questions like these that make up the subject of the conflict of laws.

The field's central technical questions are (1) jurisdiction (will an English court or a foreign court hear the case?), (2) choice of law (should the court apply its own law or that of a foreign country?), and (3) the recognition and enforcement of foreign judgments. During the course, these three questions will frame reflection on a range of topics, including commercial/practical issues (how can companies structure their cross-border transactions?), but also questions of a more political nature (to what extent should States be able to regulate matters beyond their own borders?) or with a strong social/cultural dimension (how should foreign cultural values be accommodated in English law?).

Although conflict of laws has a long history within English law, for some areas many of the relevant rules have changed dramatically in recent years under the influence of EU legislation and case law. This means that conflict of laws should also be of particular interest to those wishing to study the interaction of English law and European law. To the extent that some of these rules will change after Brexit, the course will also look at these new developments. During the course, we will look at (1) jurisdiction in international

commercial litigation under the traditional English rules and under European law, (2) choice of law issues in contract and tort, (3) recognition and enforcement of foreign judgments under European rules and at common law, and (4) comparative aspects and theoretical foundations of conflict of laws (looking at US and Canadian law in particular).

Most of the material for this course (cases, literature extracts, text, and further reading references) is contained in a Course Reader which is uploaded in instalments on the course Moodle page.

Syllabus

- Jurisdiction of English courts under the traditional English rules for actions *in personam*: Service of a claim form within the jurisdiction & out of the jurisdiction, choice of court clauses, stay of proceedings, restraining foreign proceedings (anti-suit injunctions).
- Jurisdiction of English courts and courts in other EU Member States under European Union Council Regulation 1215/2012, with attention also to the expected position after Brexit.
- Recognition & enforcement of foreign judgments at common law and under European Union rules, with attention also to the expected position after Brexit.
- Choice of law relating to contracts under the Rome I Regulation: Interpreting choice of law clauses in contracts, applicable law in absence of choice, overriding mandatory rules, public policy, foreign illegality in English law.
- Choice of law relating to tort under the Rome II Regulation, older English approach, 'interest analysis' and other approaches of the 'US conflict of laws revolution'
- Comparative conflict of laws & Theoretical foundations

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

There will be reading weeks in Week 6 of MT and Week 6 of LT.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT

Indicative reading: Briggs, *The Conflict of Laws* (3rd ed., Oxford University Press, 2013); Cheshire, North & Fawcett, *Private International Law* (15th ed., Oxford University Press, 2017)

Resources: www.conflictolaws.net (Topical references, cases and reviews)

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL221

Family Law

This information is for the 2019/20 session.

Teacher responsible: Ms Sarah Trotter

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: Family law is a fascinating and important area of law, not only because it is about the regulation of our most intimate relationships and about the effect of this regulation on those relationships, but also because it tells us a great deal about the society in which we live and the State. It is a brilliant time to be studying family law in this respect: in the past year alone the Government has announced that opposite-sex couples will soon be able to obtain civil partnerships (currently restricted to same-sex couples); the Supreme Court has handed down landmark judgments in areas ranging from divorce law to Widowed Parent's Allowance; and the Law Commission has embarked on a review of surrogacy law. And that is before we come to other significant developments, such as those in relation to assisted reproduction techniques and enabling embryos to be created using the DNA of three people; calls for civil partnership to be extended to cohabiting siblings; and calls for a 'rights for grandparents' law. These developments offer a glimpse into just how fast-moving an area family law is; and it is in part this fast pace that makes family law

such an exciting subject to study.

At the same time, family law is also a challenging area of law, and this is not least because it is in family law that we encounter some of the most complex and multifaceted problems facing families and individuals. During the course, we explore such questions as: how should the family justice system support those who have no legal advice and representation as a consequence of cuts to legal aid? What is the point of divorce law? How should finances and property be distributed on relationship breakdown? Should cohabiting siblings be able to have a civil partnership? Who should be the legal parents where four friends decide to conceive a child who will be cared for equally by all four of them? In what circumstances can a local authority legally intervene to remove a child from his or her family? How should the State respond to domestic violence and abuse? What should be done if a woman conceals her pregnancy and wishes for the baby to be taken into State care without the knowledge of the baby's genetic father? If you are interested in thinking through questions of this sort and in embarking on a broader inquiry into how and why law constructs a particular vision of 'the family' and indeed regulates family life at all, then this would be a good course for you!

The structure of the course is as follows:

Michaelmas Term:

1. Family life and family justice
2. Legal constructions of 'the family', 'family life', and 'families'
3. Gender and identity
4. The institutions of marriage and civil partnership and the rise of cohabitation
5. The law of marriage and civil partnership: sex, gender, and religion
6. Divorce and dissolution
7. Family finances on relationship breakdown
8. Domestic violence and abuse: its nature and extent
9. Domestic violence and abuse: legal measures and State obligations
10. Death in the family: inheritance, intestacy, and financial support

Lent Term:

1. Legal constructions of 'children' and 'childhood'
2. Legal parenthood and parental responsibility
3. Child welfare
4. Post-separation parenting and private disputes over children
5. Grandparents
6. Child protection
7. Adoption
8. Siblings
9. Children's rights
10. European and international family law

Summer Term:

1. Revision

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Week 6 of MT and LT will be reading weeks.

Formative coursework: Students will be expected to write at least 1 essay in the MT and 1 essay in the LT. Additional optional essays will be set at the end of the MT and the LT and there will be an optional mock exam towards the end of the LT.

Indicative reading: Students will be provided with a detailed syllabus and reading list for each topic. The core reading for each class will be based on articles and cases.

To get a sense of the subject of family law prior to commencing the course, or for a different perspective on some of the main issues that we discuss during the course, you may find it helpful to consult: John Eekelaar, *Family Law and Personal Life – Second Edition* (2017, Oxford University Press) and/or Rob George, *Ideas and Debates in Family Law* (2012, Hart Publishing) and/or Jonathan Herring, Rebecca Probert and Stephen Gilmore, *Great Debates in Family Law – Second Edition* (2015, Palgrave Macmillan).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Students may take unannotated, unmarked statutes into the exam.

LL232**Law and Institutions of the European Union**

This information is for the 2019/20 session.

Teacher responsible: Dr Floris De Witte and Dr Niamh Dunne

Availability: This course is compulsory on the BA in Anthropology and Law. This course is available on the LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

It is recommended that this course is taken in the second year of the LLB.

Course content: The course is an introduction to European Union Law. The course considers a legal and political system which has become the most formidable system of transnational government in modern times. It is also a system that has become, in recent years, a source of continual political conflict: both over the content of its measures and the presence of its involvement in many spheres of activity. Discussions on the democratic nature of the EU, the relationship between the welfare state and EU law, and its very existence for example, will be covered in this course. Special attention will be given to the three major crisis that the EU is facing: the Euro-crisis, the refugee crisis, and Brexit.

This course covers three aspects of EU law. First, it covers the institutional and constitutional structure of the European Union, including its political and judicial institutions. Second, it looks at the central policies of the European Union, notably the rights to free movement for goods, services, workers, and Union citizens. Third, it looks at some of the most topical policy areas in which EU law plays an increasingly important role, such as the migration crisis and the euro-zone crisis. Throughout, the course references Brexit and its implications.

At the end of the course you will be able to critically and independently assess both the legal structure of the EU as well as the political and social context within which it operates.

Topics include:

- History and Theory of European Integration
- Institutions and Law-Making of the European Union
- Democracy in the EU
- Sovereignty and EU Law
- Brexit and its consequences
- Differentiated Integration and the Future of the EU
- Application of Union law in the Member States
- Judicial Review of EU law
- Fundamental Rights
- The euro area crisis
- Internal Market and Free Movement
- Free Movement of Goods
- Free Movement of Persons and European Citizenship
- Free Movement of Services and Establishment
- Refugee Crisis and the AFSJ

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. Week 6 MT and week 6 LT will be reading weeks. Essays will be set around reading week to allow students to dedicate time to writing skills.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

One additional optional essay will be set in LT.

Indicative reading: Chalmers et. al., *EU Law*, 3rd ed. (Cambridge: CUP, 2014). In addition, the course uses a broad range of online reading material (to be linked on Moodle).

Assessment: Take home exam (50%) in the period between MT and LT.

Take home exam (50%) in the period between LT and ST.

One will take place in Week 0 of LT, one will take place in Week 0 of ST. Please take this into account when choosing outside modules that are assessed in week 0 of LT or ST.

LL233**Law of Evidence**

This information is for the 2019/20 session.

Teacher responsible: Dr Abenaa Owusu-Bempah and Dr Federico Picinali

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: If a person is suspected of committing a crime, how does the prosecution go about proving that she is guilty? Are there any restrictions on the type of evidence that the prosecution can use to prove its case? What protections does the law offer to defendants in order to safeguard them against false conviction? These are among the central questions in the law of criminal evidence, that is, the set of rules governing the production and the use of evidence in criminal trials.

This course concentrates on criminal, rather than civil evidence, and emphasis is placed on matters of principle and conceptual issues rather than the fine detail of legal rules. The aims of the course are to teach students how to reason about evidence, and to encourage them to reflect critically on the modern law of criminal evidence.

At a more detailed level, we consider how inferences are drawn from evidence, and how basic ideas of probability can give insights on this process. We study the standard of proof, asking whether a high standard such as 'proof beyond reasonable doubt' is justified. As far as pre-trial procedures are concerned, we examine – among other things – how the police gain confessions from suspects and produce eyewitness identification evidence; we also look at how the law regulates the admissibility of these types of evidence. A central theme on the course is the question as to what makes a trial fair. The European Convention on Human Rights is relevant to this question. In this context, we look – among other things – at whether courts should admit improperly obtained evidence, and we ask what the privilege against self-incrimination is and whether it can be justified. As you will learn, much of the law of evidence involves rules of admissibility. Among these we cover 'traditional' rules such as those regulating the admissibility of hearsay evidence (a topic that now has an important human rights angle) and of bad character evidence (can a defendant's previous convictions be introduced against her at trial?). We also look at particular problems relating to testimony, ranging from the protections afforded to vulnerable witnesses to the admissibility of evidence concerning the sexual history of complainants in trials for sexual offences.

Syllabus: While coverage may vary from year to year, we usually focus on the following themes and topics:

Reasoning with Evidence:

- Analysing Evidence: Relevance, Probative Value and Generalisations;
- The Standard of Proof;
- The Burden of Proof and the Presumption of Innocence;

Trial Fairness and the Gathering of the Evidence:

- Improperly Obtained Evidence;
- Eyewitness Identification;
- Confessions;
- Entrapment;

Traditional Rules of Admissibility:

- Hearsay;
- Confrontation;
- Bad Character Evidence;

Trial Fairness and Defendant Cooperation:

- The Privilege Against Self-Incrimination;
- Drawing Inferences from Silence;
- Disclosure;

Testimony:

- Examination of Witnesses
- Vulnerable Witnesses;
- Sexual History Evidence.

The course has a Moodle page. You are encouraged to consult it should you want more information on the themes, the topics, and the sort of material that we study.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Indicative reading: There is no set text for the course, but standard texts are useful on many topics. Consider, for instance, I. H. Dennis, *The Law of Evidence* (London: Sweet & Maxwell, 6th ed, 2017); A. Choo, *Evidence* (Oxford: OUP, 5th ed, 2018); R. Munday, *Evidence* (Oxford: OUP, 9th ed, 2017).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL241

European Legal History

This information is for the 2019/20 session.

Teacher responsible: Dr Umberto-Igor Stramignoni NAB 7.34

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course opens with the appearance of law amongst ancient Romans circa 8th century BCE. It then turns to law's subsequent configurations as they made the Roman world possible, but also as they connected with each other and the people of Rome and beyond. As the ancient world wanes and is replaced by the extraordinary world of Christianity, the significance of Roman law but also its ties to society change. Things will shift again during the Renaissance, Humanism, Enlightenment, and the French Revolution of 1789, leading up to the French Civil Code, the first major legal codification to take place in modern Europe. In the Michaelmas Term, we will explore: the multiple links between religion, law and physical space in ancient Rome; the emergence of the popular assemblies; family and property; Augustus and the passage to Empire; jurists and laws; Christians and the Roman constitution; the decline of Rome and the rise of Byzantium as the "new Rome".

In the Lent Term, we will examine the law of ancient Rome as it reappeared, in new and different guises, at the end of the Middle Ages; the challenges presented by the Digest to the medieval world and the laws of the Church; the cultural revolution of the Italian Renaissance; the rise of legal Humanism and the scientific method; Enlightenment and the movement towards legal codification; and finally, the French Revolution, Napoleon and *his* Civil Code.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

No seminars in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

Indicative reading: The general textbooks for the course are *Inventing the Individual* (2014), by Larry Siedentop, and the short but iconic book by Peter Stein, *Roman Law in European History* (1999). In addition, students will be required to familiarize themselves with the content of a mixture of visual aids (designed specifically for this course by Dr Stramignoni), and of numerous readings complementing the two textbooks, including academic journal articles and chapters from other monographs. Those thinking to take this course are encouraged to explore the course Moodle page for more information.

Assessment: Assessment path 1

Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Assessment path 2

Dissertation (100%, 12000 words) in the ST.

LL250

Law and The Environment

This information is for the 2019/20 session.

Teacher responsible: Dr Veerle Heyvaert

Availability: This course is available on the BA in Anthropology and Law, BSc in Environment and Development, BSc in Environmental Policy with Economics, BSc in International Relations and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The aim of this course is to study and understand how law can be used as a tool to pursue environmental goals and to think critically about law's contribution to local and global environmental protection.

Content:

I. General features of environmental law in the UK:

The introductory sessions examine how we understand 'the value of the environment' as an object of legal protection, and how environmental law evolved through time. We review international and EU law as important sources of environmental law in the UK, and consider the impacts of Brexit. We study the notions of 'risk' and 'precaution' as key concepts of environmental regulation, and examine how the relationship between Parliament, the Government and the Environment Agency affects the effectiveness of environmental laws and rules in the UK.

II. Controlling space

This section reviews legal strategies for environmental protection through the management of the built environment, parks and nature. It covers planning law, environmental impact assessment, and nature conservation law.

III. Controlling climate change

Seminars on climate change examine international law and the politics of climate change, different regulatory strategies to respond to the climate change challenge, and climate change litigation.

IV. Controlling enterprise

Section IV looks at how environmental harm can be prevented or limited by regulating heavily polluting industries, by targeting particular products (such as dangerous chemicals), or by focusing on particular activities (such as international trade). We examine how environmental regulation aims to balance between restricting hazardous activities on the one hand, and fostering free enterprise on the other, and review the court's role in adjusting this balance.

V. Remedying environmental harm

The final section examines the role of both case law and regulation in the remediation of environmental harm, paying attention to clean-up of contaminated land, common law and human rights based approaches to compensation, and legal responses to international environmental disasters

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Week 6 MT and week 6 LT will be reading weeks. Essays or equivalent writing assignments will be set around reading week to allow students to dedicate time to writing skills.

Formative coursework: Students are expected to write a formative essay; answer a problem set in writing; and participate in a mock exam.

Indicative reading: There is no set book that covers the entire course, however, several sessions use Bell, McGillivray, Pedersen et. al, *Environmental Law* (9th edition, Oxford University Press, 2017). A detailed reading list is provided for each seminar. Materials that are not sourced from Bell, McGillivray & Pedersen are made available on Moodle.

A good alternative source is Fisher, Lange & Scotford, *Environmental Law. Text, Cases and Materials* (OUP, 2013). Useful introductory books include: Lazarus, *The Making of Environmental Law*, 2004; Holder & Lee, *Environmental Protection, Law & Policy*, 2007; R Carson, *Silent Spring*, 1962; R Eckersley, *Environmentalism and Political Theory*, 1992.

Assessment: Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 4000 words).

LL251

Intellectual Property Law

This information is for the 2019/20 session.

Teacher responsible: Dr Sivaramjani Thambisetty Ramakrishna
Dr Luke MacDonagh

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Intellectual Property Law consists in the rules determining when, and subject to what conditions, the activity of producing information (broadly conceived) can generate rights to exclude others from access to information. Unlike the physical objects associated with real property rights intangibles are non-rival and non-excludable. While the chair you may be sitting on accommodates only one person, many can whistle the same tune without depriving others of it. Yet while it often takes creativity, effort and investment to produce them, intangibles may be easily copied. To restrict this copying and thereby encourage the production of information, the law intervenes by establishing intellectual property rights around certain valuable intangibles – creative works like books, paintings and songs; inventions ranging from vaccines to the bag-less vacuum cleaner; and valuable brands like Coke ® or Google ®.

Given that information is an increasingly important source of commercial value within the modern economy, it is not surprising that Intellectual Property Law is such a fast-growing field here and abroad. However its apparently relentless growth is the focus of vigorous debate. **Copyright** already provides the legal foundation for the well-established film, music, TV and publishing industries, and its continuing expansion is said by some to be crucial given the trend towards media convergence in the 'digital future', and by others to be a threat to free speech and freedom of access to information. **Patents** sustain such key and diverse technologies as pharmaceuticals, biotechnology and computer implemented inventions; and the availability of these rights in rapidly developing sectors like synthetic biology or smart phone technologies can often raise complex ethical, political and innovation policy issues.

Trade Marks are central to effective advertising and marketing but at the same time exemplify the tendency of more and more aspects of our cultural landscape to be 'commodified'; they have attracted support and denigration in equal measure for this reason. The curriculum of LL251 reflects the fact that it will be examined by means of an 8000-word essay. Instead of expecting students to acquire a more detailed knowledge of the mechanics of each of the principal branches of intellectual property law (copyright, patents, and trade marks) the course is structured around a strong theme that runs persistently through all parts of IP law, which will also be the basis of the dissertation topic that will be assigned at the start of the year. The objective will be to develop the skills required to engage critically with the mechanics of each branch. Indicative themes include the public domain, which is often construed as the most basic architectonic principle of intellectual property law, and the incentive effect, one of the most essential strands in the justification of intellectual property laws. We use the chosen broad rubric both to introduce the basic elements of each branch of intellectual property and to focus in on examples which illustrate contemporary intellectual property law: the constitution of the public domain in digital environments, the capture of public discourse by leading brands, the impact of incentives in the creation of software, the international dimension of incentives in the pharmaceutical sector. Students are invited to use these and other case studies as resources for writing the final dissertation. Seminars will be based on informal lectures, class discussion, and a variety of exercises. Reading lists include further readings to enable students to explore certain themes more broadly or more deeply.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 essay in the LT

Indicative reading: Bently and Sherman, *Intellectual Property Law*, OUP 2018.

The course is supported by Moodle, so reading lists will be linked there or accessible via library-based websites.

Assessment: Essay (100%, 8000 words) in the ST.

LL257

Employment Law

This information is for the 2019/20 session.

Teacher responsible: Dr Astrid Sanders and Prof Hugh Collins

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: This subject builds on contract and tort, and to some extent public law and EU law, but introduces the distinctive legal regulation of employment relations, such as the law of dismissal and discrimination law, and the institutional arrangements of industrial relations, including trade unions and collective bargaining. Labour law is an important area of legal practice, with employment law disputes representing one of the largest topics of civil litigation.

Outline:

- Contract of Employment: the duties of employer and employee; the variety of work relations; vulnerable workers and the personal scope of employment law
- Regulation of the Employment Relation: minimum wage, working time
- Anti-Discrimination Law: implications of the Equality Act 2010
- Dismissal: wrongful and unfair dismissal, economic dismissals
- Human Rights in the Workplace: civil liberties of employees at work
- Membership of Trade Unions, Worker Representation, and Collective Bargaining: freedom of workers to associate with each other and to act in association with each other
- Industrial disputes: strikes, other industrial action and lockouts; rights and liabilities of individual workers who take industrial action; civil liabilities for organising industrial action – the economic torts, the 'golden formula' immunities and loss of immunity – industrial action ballots.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Formative coursework: Students will be expected to produce 2 essays in MT and 2 essays in LT. Although students may be expected to perform a moot instead of one of those essays.

Indicative reading: For a concise overview of the subject a suggestion is:

- H. Collins, *Employment Law* (Oxford: OUP, 2nd ed, 2010).
- See also P. Davies and M. Freedland (eds), *Kahn-Freund's Labour and the Law* (London: Stevens and Son, 3rd ed, 1983) chapter 1. The leading textbooks are
- H. Collins, K.D.Ewing, A. McColgan, *Labour Law: Law in Context* (Cambridge: CUP, 2012);
- S. Deakin & G. Morris, *Labour Law* (Oxford: Hart Publishing, 6th edn, 2012);
- A.C. L. Davies, *Perspectives on Labour Law*, 2nd edn (Cambridge: CUP, 2009).

Assessment: Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 4000 words) in the LT.

LL259**Legal and Social Change since 1750**

This information is for the 2019/20 session.

Teacher responsible: Prof Michael Lobban

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course examines developments in British legal history in the two centuries after 1750. Drawing on printed and electronic primary sources, as well as secondary literature, it explores the changing nature of law in a number of areas. The course begins with an exploration of the nature of eighteenth century criminal justice, and how this was transformed in the nineteenth century. It explores issues of political crime and the concept and practice of the 'rule of law'. In the first term, students are also given a grounding in the system of the courts and how they were reformed.

In the second term, the course explores topics relating to status, examining the attitude taken by the law to women, children, workers and slaves. A final set of topics will turn to explore the impact of law on economic change, looking at how the law facilitated the growth of a modern economy.

The course will be taught by a combination of lectures and classes in the Michaelmas and Lent Terms.

Lecture and Class Topics:*Michaelmas Term*

The first term is devoted to an examination of the criminal and civil justice systems in the eighteenth and nineteenth centuries. Topics covered in the first term include the prosecution of crime in the era of the 'Bloody Code', the nature of the criminal trial before and after the arrival of criminal barristers in the courtroom, the reform of criminal punishments and the rise of the prison and modern policing. In the second half of the term, the course looks at political crime and the rule of law, and the impact of war on the law. It also considers the system of the civil courts, the nature of civil litigation and the reform of the major courts.

Lent Term

The second term is devoted to exploring the impact of law on society and the economy. Topics explored include the law relating to married women and the custody of children, the law of slavery, and the law relating to workers and trade unions. The economic topics addressed include the law relating to the environment, the transformation of tort and contract law, and the law relating to business organisation.

Teaching: 20 hours of lectures and 5 hours of classes in the MT. 20 hours of lectures and 5 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Formative coursework: Students will be expected to produce 2 essays in the MT and LT.

Students who choose to be assessed by unseen examination must submit one essay each term. Those submitting a dissertation will produce outlines and drafts that will be used for formative coursework purposes.

Indicative reading: Reading will be suggested during the course.

Assessment: Assessment path 1

Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Assessment path 2

Essay (100%, 12000 words) in the ST.

Students can choose to be assessed by 100% examination or 100% dissertation.

and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Pre-requisites: None, but some familiarity with sociological or psychological literature would be an advantage.

Course content: This half-unit course is a general introduction to the study of modern criminology. The course is highly selective and every effort is made to hold the reading requirements within reasonable limits. It is suitable for General Course students, and a limited number may be admitted on application.

The main focus is on the classical and contemporary theories developed over the past two hundred years to explain and predict criminal behaviour in society. The propositions, assumptions, empirical validity, and policy implications of these criminological theories, as well as the social context in which they were developed, will be examined. Other significant issues in criminology – such as the measurement and extent of crime, the role of demographics (age, race, gender, social class) in the causation of and reaction to crime, the influence of the media and political regimes, and the changing boundaries of criminological research – will also be discussed.

Course content:

- The history of criminological theory.
- Trends in crime and crime statistics. How official statistics can be interpreted and the role of crime surveys
- 'Classical' criminology, rational choice, and crime prevention theories.
- Individual explanations of crime: biological, psychological and psychoanalytical theories.
- Sociological explanations of crime, including macro and micro approaches and recent critical theories
- Criminal justice policy and 'law and order' politics.
- Discrimination, Inequalities, crime and criminal justice
- Crime and the mass media

Teaching: 20 hours of seminars in the MT.

Formative coursework: The formative coursework consists one in class presentation (in groups) and a short review of literature in a relevant topic. Feedback on the literature review will help prepare students for the summative assessment.

Indicative reading: The texts for this course are:

- *Criminology*, 3rd ed. by T. Newburn (2017)
- *The Oxford Handbook of Criminology*. By Leibling, A; Meara, L. and Maruna, S (eds) 6th edition (2017)
- *Crime: The Mystery of the Common Sense Concept*. By R. Reiner (2017)

Recommended Readings

- *Law and Order: An Honest Citizen's Guide to Crime and Control*. by R. Reiner (2007)
- *Crime, Shame, and Reintegration*. by J. Braithwaite (1989)
- *Understanding Deviance*, 7th Ed. by D. Downes, P. Rock and E. McLaughlin (2016)
- *Vold's Theoretical Criminology* by T. Bernard and J. Snipes and A. Gerould. 7th edition (2015)

Assessment: Essay (100%, 5000 words) in the LT.

LL275**Property II**

This information is for the 2019/20 session.

Teacher responsible: Prof Neil Duxbury and Prof Charles Webb
Prof Duxbury is Course Convener in Michaelmas Term and Summer Term.

Prof Webb is Course Convener in Lent Term

Availability: This course is compulsory on the BA in Anthropology and Law. This course is available on the LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: Property II examines principles of Land Law and

LL272 Half Unit**Outlines of Modern Criminology**

This information is for the 2019/20 session.

Teacher responsible: Prof Nicola Lacey

Availability: This course is available on the BA in Anthropology

the Law of Trusts. Land Law is taught in the first term and Trusts in the second term.

The Land Law component of Property II is designed to introduce students to the principles of the law of real property (i.e., land).

The course examines estates and interests in land, legal and equitable ownership, title registration, and trusts of land (including constructive trusts). It also considers the law governing specific third party interests – licences, proprietary estoppel claims, easements, freehold covenants and mortgages.

The Trusts component of the course focuses on general principles of trusts law and examines the circumstances in which trusts arise, the obligations of trustees, and the remedies available to beneficiaries when these obligations are breached. It also considers the nature and classification of trusts, including resulting and constructive trusts, and how the law of trusts relates to and impacts on the law of contract, wrongs and unjust enrichment

Teaching: 20 hours of lectures and 9 hours of classes in the MT.

20 hours of lectures and 9 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Students are expected to produce two formative essays per term.

Indicative reading: Advice on reading, including textbook recommendations, will be provided at the beginning of the first and second terms. An essay which students might profitably read before the commencement of the course is Peter Birks, 'Before We Begin: Five Keys to Land Law', in *Land Law: Themes and Perspectives*, ed. S. Bright & J. Dewar (Oxford: Oxford University Press, 1998), 457-86.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Students are required to answer questions on both the Land Law and Trusts components of Property II.

LL278

Public International Law

This information is for the 2019/20 session.

Teacher responsible: Dr Stephen Humphreys

Additional Teachers: Professor Gerry Simpson, Dr Devika Hovell, Dr Margot Salomon, Dr Chaloka Beyani

Availability: This course is available on the BA in Anthropology and Law, BSc in Environmental Policy with Economics, BSc in International Relations and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course provides an introduction to the concepts, principles, institutions and debates that define public international law today. We begin with an overview of the international legal system, considering the sources of international law, the scope of responsibility for its breach, and its role in the creation and empowerment of states. In this connection we examine the work of the International Court of Justice, the WTO Appellate Body, various human rights courts and committees, the International Criminal Court, and the ad hoc international criminal tribunals, along with judgments of national courts invoking international law. We will take up a range of topical issues of global concern, studying their international legal dimensions. The issues to be discussed are likely to include war, trade and investment, human rights, climate change, and international crime. We also investigate aspects of the history of international law, its relation to the establishment and retreat of European empires, and its contemporary significance and prospects. Overall, our aim is to lay the basis for an informed assessment of the contribution and limits of international law as a force in world affairs.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Students are expected to produce one formative essay per term

Indicative reading: Reading lists will be provided for each topic

on Moodle. You are asked to buy M. Evans (ed.), *International Law* (Oxford: OUP, 5th ed, 2018) and *Blackstone's International Law Documents*.

Some other works to which you may wish to refer include the most recent editions of: D. Harris, *International Law: Cases and Materials*; H. Charlesworth and C. Chinkin, *The Boundaries of International Law*; M. Shaw, *International Law*; M. Koskeniemi, *From Apology to Utopia*; V. Lowe, *International Law*; and J. Crawford, *Brownlie's Principles of Public International Law*.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL284 Half Unit

Topics in Sentencing and Criminal Justice

This information is for the 2019/20 session.

Teacher responsible: Dr Kate Leader

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: In this course, we will explore the practices and decision-making of key actors within the criminal justice system and examine with the policies and regulatory schemes that purport to govern how these actors perform their roles in the criminal process. In the first five weeks, we track the construction of cases through the criminal process, which introduces us to the work of police, prosecutors and judges. How do these actors exercise their discretion? What kinds of dynamics, sub-cultures and formal (and informal) rules animate their decision-making? And how does this impact on the rights of suspects, defendants, offenders? By applying models of justice to the most recent developments in law, policy and practice at various stages of the criminal process, students will be equipped with the knowledge and tools necessary to critically assess and engage with contemporary criminal justice issues. Building on this in the second five weeks, we focus on how judges perform their role as sentencers, the principles and legal guidelines they rely upon in doing so and the types of sentences they can (or must) hand down in certain types of cases. We use the sentencing of rioters and the life sentence as case studies to apply the general principles of sentencing and conclude the course by considering the role of non-custodial sentences.

Topics by Week

1. The Criminal Process and Models of Justice
2. In the Community: What Do Police Do and Why Do They Do It?
3. In the Station: Police Practices and Case Construction
4. Bringing the Case: Prosecutorial Discretion and Plea Bargaining
5. In Court: The Judiciary and Legal Representation
6. Reading Week
7. Sentencing Theory: Aims, Principles and Policies
8. Sentencing Practice: Discretion and Guidelines
9. Sentencing Rioters
10. The Life Sentence for Murder
11. Non-Custodial Sentences

Teaching: 20 hours of seminars in the LT.

Introductory lecturing is combined with group discussion and in-class exercises

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: I want to encourage you to take responsibility for what you read and to come to class keen to present your own thoughts and ideas based on this reading. There is textbook reading each week, but to keep the material and topics we discuss as contemporary as possible, I have supplemented these texts with recent articles and chapters. The variety of reading and the choice this offers ought to facilitate lively and informative discussions in class.

Recommended texts for the course include:

- A. Ashworth, *Sentencing and Criminal Justice* (Cambridge:

Cambridge University Press, 2015);

- A.Liebling et al, *Oxford Handbook of Criminology* (Oxford: Oxford University Press, 2017);
- A.Sanders et al, *Criminal Justice* (Oxford: Oxford University Press, 2012).

Assessment: Essay (100%, 5000 words) in the ST.

LL293

Tax and Tax Avoidance

This information is for the 2019/20 session.

Teacher responsible: Dr Michael Blackwell

Availability: This course is available on the BA in Anthropology and Law, BSc in Accounting and Finance and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Taxation is a topic that has throughout history pervaded political debate and is encountered in every area of life. Taxation was one of the very first subjects to be taught at LSE. The teaching of tax law as an academic subject started at LSE, where it was introduced by Professor GSA Wheatcroft in 1957.

The syllabus is set out below, although there is some variation of topics selected from year to year, depending on the focus of current debate, and in the order of topics.

- The first term of the course begins by looking at the tax administration system in the UK. The remainder of the first term focuses on a technical legal approach to tax. Using a mixture of legislation and case law we assess liability to UK tax on (i) employment income; (ii) business income; and (iii) capital gains. The term concludes by looking at 'international tax', ie the liability to tax where an individual or company is potentially subject to the tax laws of several jurisdictions.
- The second term of the course focuses on tax avoidance looking at questions such as: What is tax avoidance and how does it differ from tax planning? What strategies do individuals and companies adopt to avoid tax? How do judges respond to tax avoidance through anti-avoidance doctrines and rules of interpretation and to what extent is that compatible with the judicial role? How effective can legislative responses to tax avoidance be and what are the limitations on such responses? How can companies be fairly taxed in the digital economy? How have public attitudes to tax avoidance changed over time? Should corporations behave 'responsibly' and pay their fair share of taxes, or are they obliged to do whatever they can to maximize shareholder returns? To what extent does professional ethics inform accountants and lawyers who advise on tax avoidance?

On the course the approach to the subject includes a strong policy perspective. However, legal issues are still important. The UK tax code is long and complex. There are also many relevant cases that are required reading too. This course requires students to understand and apply difficult concepts and legislation.

By taking this course you should develop the following skills and attributes (i) working with and analysing legislation; (ii) working with and analysing case law; (iii) research skills; (iv) communication skills; (v) professionalism.

Students taking this course should be prepared to use a variety of sources ranging from statute and case law to literature on public policy. The precise balance of materials used varies from topic to topic. All the readings set will be accessible and non-mathematical. NO COMPUTATION is required and no knowledge of any discipline other than law is required. The course is open to second and third year law students, and experience suggests that it is equally suitable for both years.

Teaching: 20 hours of seminars and 10 hours of seminars in the MT. 20 hours of seminars and 10 hours of seminars in the LT. 2 hours of seminars and 1 hour of seminars in the ST.

A variety of methods will be used within the weekly seminars. This seminar system is not suitable for students who favor passive lecture learning and regurgitation of facts. Student participation will be central. Assistance will be given with methods for statute-

based work. Substantial preparation and by students will form an integral part of the course.

Formative coursework: Students are expected to produce at least 2 formative assignments over the academic year.

Indicative reading: M.C. Blackwell 'Conduct Unbefitting: Solicitors, the SRA and Tax Avoidance' [2019] *British Tax Review* 31-54. https://papers.ssrn.com/sol3/papers.cfm?abstract_id=3354776
M.C. Blackwell 'Variation in the Outcomes of Tax Appeals Between Special Commissioners: An Empirical Study' [2013] *British Tax Review* 154. https://papers.ssrn.com/sol3/papers.cfm?abstract_id=3337780

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Selected 'Legislation' may be taken into the examination, with non-verbal markings only.

LL295

Media Law

This information is for the 2019/20 session.

Teacher responsible: Dr Andrew Scott

Mr Ollie Persey

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course examines the legal and administrative regulation of the press, broadcasting, and other media. It centres on law and regulation in the UK, as influenced by European and international law.

The course opens with introductory lectures that introduce themes such as the 'media landscape', the sources and forms of media law (ethical, cultural and technological constraints, self-regulation, common law, statute, EC law and international law), and the rights and values that frame this area of law (free speech; privacy; impartiality; the protection of rights to a fair trial).

Thereafter, the course moves through three 'blocks' of five problem-focused, group-based classes that run through the year. These blocks of study focus on (a) regulating content in defence private interests (misuse of private information, confidentiality and defamation), (b) regulating content in defence of public interests (contempt and the integrity of justice; political impartiality; offensive content; terrorism and national security), and (c) the control of journalistic newsgathering practices (risks to and protection of sources; constraints on 'cheque-book' journalism; access to government information (Fol, and official secrets); open justice and access to courts; regulation of the journalistic 'dark arts' (misrepresentation and subterfuge).

Teaching: 6 hours of seminars, 20 hours of classes and 20 minutes of help sessions in the MT. 4 hours of seminars, 20 hours of classes and 20 minutes of help sessions in the LT.

The teaching will be conducted primarily through weekly two hour group-based classes and one hour plenary seminars. This contact time will be supported by a series of presentation-based lectures covering each course theme. Students will also receive supervision in respect of a short research paper.

Formative coursework: Students will be expected to produce 15 problem sets in the MT and LT.

Each week, group-work in classes will focus on 2 sets of problem exercises, and 1 set of policy-focused themes. The problem exercises are designed to allow students to build the knowledge necessary to complete the summative problem-based assessment. The policy-focused sessions are intended to introduce students to themes that may be picked up as topics for the summative coursework.

Indicative reading: Supporting texts for the course include:

- Millar and Scott, *Newsgathering: Law, Regulation and the Public Interest* (Oxford University Press, 2016);
- Parkes and Mullis (eds) *Gatley on Libel and Slander* (Rev 12th edn, Sweet & Maxwell, 2015), and;

- Barendt et al, *Media Law: Texts, Cases and Materials* (Pearson, 2013); Leveson, *An Inquiry Into the Culture, Practices and Ethics of the Press: Report*, HC 780, 2012.

These and other materials relevant to the course are generally made available via the BLPES electronic resources or online.

Assessment: Essay (50%, 4000 words) in the ST.

Coursework (50%, 3000 words) in the MT and LT.

During the year, students must complete three problem exercises in groups, following extensive preparatory group-based problem exercises in seminars. The best two grades achieved in these three exercises will comprise 50% of the overall grade for each student for the course. Each student must also complete one 4,000 word research essay on a theme to be agreed with the course convenor. The grade achieved for this paper will comprise the remaining 50% of the overall grade for the course.

LL300

Competition Law

This information is for the 2019/20 session.

Teacher responsible: Prof Pablo Ibanez Colomo

Additional teachers: Dr Niamh Dunne

Availability: This course is available on the BA in Anthropology and Law and LLB in Laws. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Competition is widely understood to be the best means to deliver better goods and services at lower prices. The point of competition law is to preserve the process of rivalry between firms, and, by doing so, to benefit consumers and society at large. A broad range of corporate strategies are subject to this field of law. For instance, competition authorities enforce the law against large multinational firms (such as Microsoft, Google, or Intel) that have the ability to influence market conditions and exclude smaller rivals. Competition authorities also have the power to block mergers and acquisitions that are capable of harming consumers (think of a merger creating a monopoly). Attempts by firms to avoid competing by means of secret arrangements (the so-called 'cartels') are another key area of enforcement. Competition law regimes have progressively become a major feature of legal systems around the world. They have long applied in the US and Europe – including the UK – but have now been adopted (and/or are actively enforced), inter alia, in jurisdictions like Brazil, Chile, China, Hong Kong, India, Malaysia, Singapore and South Africa. Unlike other legal disciplines, the relevant provisions in all of these regimes are virtually identical in their form and substance. This is, in other words, a truly cosmopolitan field. After this module, you will be equipped to understand and practice competition law almost anywhere in the world.

After an introduction in which competition law is put in its economic and institutional context, this module will address the main substantive and procedural aspects of the discipline. Topics covered include the following:

- Anticompetitive agreements between firms (including cartels and distribution agreements).
- Abusive practices by dominant firms.
- Mergers and acquisitions, including both mergers between competitors and vertical and conglomerate transactions.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Formative coursework: Students are expected to produce 2 formative essays per term

Indicative reading: N. Dunne, A. Jones and B. Sufrin, *EU Competition Law* (Oxford: OUP, 7th ed, 2019); and H. Hovenkamp, *The Antitrust Enterprise* (Cambridge: Harvard University Press, 2005).

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL305

Jurisprudence

This information is for the 2019/20 session.

Teacher responsible: Dr Michael Wilkinson

Availability: This course is compulsory on the LLB in Laws. This course is available on the BA in Anthropology and Law, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: The aims of the course are: To introduce students to philosophical thinking about the law. To familiarise students with the main methodological, ontological, and normative issues in the study of law and its legitimacy. To provide students with knowledge of some of the most influential legal and political philosophers and their theories of the state and law. To encourage and enable students to think about doctrinal legal questions from a philosophical and critical perspective. To help students to develop legal reasoning skills by training them in abstract, philosophical arguments. Some of the themes that the course covers are: the social contract tradition (Hobbes, Kant, Rawls, Rousseau); the democratic legitimacy of the state and its law; Marxism and critical theory; Arendt's political theory and its implications for law; methodology in jurisprudence; natural law; legal positivism; the rule of law and legality; the use and significance of principles in adjudication and legal reasoning.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Students will be expected to write at least one essay per term.

Indicative reading: Students are provided with outlines and readings for topics discussed in the Michaelmas and Lent Terms. For some introductory and background reading see: S. Veitch, E. Christodoulidis, and M. Goldoni, *Jurisprudence: Themes and Concepts* (3rd. ed), Routledge 2018; J.E. Penner and E. Melissaris, McCoubrey & White's *Textbook on Jurisprudence*, OUP 2012; Brian Bix, *Jurisprudence: Theory and Context* (3rd ed.), Thomson Sweet & Maxwell 2003.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

LL342

International Protection of Human Rights

This information is for the 2019/20 session.

Teacher responsible: Dr Chaloka Beyani

Additional teachers: Dr Theodora Christou

Availability: This course is available on the BA in Anthropology and Law, BSc in International Relations and LLB in Laws. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course should be taken in the third year (see prerequisites). It is capped at 25 students.

Pre-requisites: Students need to have already taken and done well in a course in Public International Law or in Civil Liberties Law.

Course content: This course aims to provide a comprehensive and analytical account of the application of human rights standards in international law, and the operation of the existing international machinery for the protection of human rights. The course engages with both the theory and practice of human rights law and, in that process, some of the most vexing issues facing us today will be considered. What is the scope of the right to privacy in a digital age? What's the geographical scope of a state's human rights obligations? How does human rights law apply in war? What are the human rights obligations of corporations in a globalized

landscape? What rights do asylum seekers have when they are fleeing conflict? Does existing law adequately protect women's rights?

The law of human rights reflects attempts made internationally to articulate basic legal standards for the protection of individuals and groups in their relations with the state, and to use the authority of international law, institutions, and procedures, to secure compliance with such standards. Human rights law is a modern phenomenon; but it has an ancient lineage. Some account of its evolution is given, from natural rights, civil liberties, the history of minorities protection, and the progressive development of human rights in public international law since 1945.

However, the major part of the course relates to post-1945 events concerning the protection of human rights. A section of the course deals with the role and reform of the United Nations to promote and secure the observance, on a universal basis, of international standards of human rights. The development of important legal standards (such as those of non-discrimination) is traced; and the work of various UN bodies in applying and promoting human rights is analyzed.

Comparisons are also drawn with regional attempts to promote and protect human rights, with the European system, the Inter-American system and the African system receiving special attention as regards their treaties, their institutions, procedure, and case-law.

By the end of the course students should have a good understanding of the substantive content of contemporary human rights and of the existing and alternative means available for protecting these rights and fundamental freedoms.

Extensive use is made of relevant case law, of the Civil and Political Covenant, the European Convention, the American Convention, the African Charter, and the International Court of Justice; and particular rights (such as those of persons belonging to minorities, the right to life, the prohibition of torture, the right to a fair trial, family life, and the fundamental freedoms) are studied in considerable detail.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Formative coursework: Students are expected to produce 1 essay in the MT and 1 essay in the LT.

Indicative reading: R. Smith, *International Human Rights*; Ilias Bantekas and Lutz Oette, *International Human Rights Law and Practice*.

Assessment: Essay (100%, 8000 words) in the ST.

LL398 Half Unit

Dissertation on an approved legal topic

This information is for the 2019/20 session.

Availability: This course is available on the LLB in Laws. This course is not available as an outside option nor to General Course students.

This course is available to students in Year 3. It may be taken in Year 2 in exceptional circumstances with permission of the Departmental Tutor. This course cannot be taken in the same year as LL399.

Course content: The half-unit dissertation should be taken in Part II but in exceptional circumstances permission may be sought to take it in Part I.

Students wishing to do either a full or half-unit dissertation should first consult their Academic Adviser in the preceding Summer Term about:

1. whether a dissertation is a suitable option for the student;
2. the particular dissertation topic;
3. who might be an appropriate dissertation supervisor.

Because this option requires considerable independent study, it is generally not advisable to opt to write a full-unit dissertation unless the student has been achieving marks of an upper second class standard. The dissertation subject must be of a suitable academic character that has not already or will not have been explored in

depth in any taught course taken by the student but is related to subjects taught in the School.

In light of discussions with their Academic Adviser, a student wishing to pursue this option should approach a potential supervisor for approval. Once they have their supervisor's approval, students should select the relevant dissertation course on LFY. They will then need to complete the 'Dissertation topic approval form' (available on LLB Dissertation Moodle page) which needs to be signed off by the student's proposed Dissertation Supervisor, Academic Adviser and the Chair of Examinations. This should be submitted to the Law Reception by the end of Week 4 of Michaelmas Term, 16.00.

Including the initial meeting, students will have four support meetings with their supervisor to guide them through the research process as follows:

1. One initial meeting to establish the broad topic.
2. A second meeting to agree a title, review an outline and see an initial bibliography.
3. A third meeting to discuss progress and difficulties (optional for half-unit essays).
4. A fourth meeting to give feedback on progress to date, to take place before the end of the Lent Term. In order for this feedback meeting to be of use, students will need to have made substantial progress with the preparation of a draft dissertation by the middle of the Lent Term. It is the student's responsibility to arrange these meetings with the supervisor.

Dissertations are normally submitted on the first day of the Summer Term of the academic session in which the dissertation is being written. There is discretion for an additional oral examination on the subject-matter of an essay which "may extend to cover the wider background aspects of the essay".

Teaching: 1 hour of lectures in the MT.

Beyond the one-to-one sessions held with the dissertation supervisor there is no formal teaching. However, there is a one hour session held in the Michaelmas term for all half-unit and full-unit dissertation students to orient them to the requirements of writing a dissertation.

Indicative reading: There is no essential reading as such, but there is a dedicated moodle site for the LLB dissertation options.

Assessment: Dissertation (100%, 8000 words) in the ST.

LL399

Full-unit Dissertation on an approved legal topic

This information is for the 2019/20 session.

Availability: This course is available on the LLB in Laws. This course is not available as an outside option nor to General Course students.

This course is available to students in Year 3 only. It cannot be taken in the same year as LL398.

Course content: The full-unit dissertation can only be taken in Part II (third year) when students are better prepared for it.

Students wishing to do either a full or half-unit dissertation should first consult their Academic Adviser in the preceding Summer Term about:

1. whether a dissertation is a suitable option for the student;
2. the particular dissertation topic;
3. who might be an appropriate dissertation supervisor.

Because this option requires considerable independent study, it is generally not advisable to opt to write a full-unit dissertation unless the student has been achieving marks of an upper second class standard. The dissertation subject must be of a suitable academic character that has not already or will not have been explored in depth in any taught course taken by the student but is related to subjects taught in the School.

In light of discussions with their Academic Adviser, a student wishing to pursue this option should approach a potential supervisor for approval. Once they have their supervisor's approval, students should select the relevant dissertation course on LFY. They will then need to complete the 'Dissertation topic approval

form' (available on LLB Dissertation Moodle page) which needs to be signed off by the student's proposed Dissertation Supervisor, Academic Adviser and the Chair of Examinations. This should be submitted to the Law Reception by the end of Week 4 of Michaelmas Term, 16.00.

Including the initial meeting, students will have four support meetings with their supervisor to guide them through the research process as follows:

1. One initial meeting to establish the broad topic.
2. A second meeting to agree a title, review an outline and see an initial bibliography.
3. A third meeting to discuss progress and difficulties (optional for half-unit essays).
4. A fourth meeting to give feedback on progress to date, to take place before the end of the Lent Term. In order for this feedback meeting to be of use, students will need to have made substantial progress with the preparation of a draft dissertation by the middle of the Lent Term. It is the student's responsibility to arrange these meetings with the supervisor.

Dissertations are normally submitted on the first day of the Summer Term of the academic session in which the dissertation is being written. There is discretion for an additional oral examination on the subject-matter of an essay which "may extend to cover the wider background aspects of the essay".

Teaching: 1 hour of lectures in the MT.

Beyond the one-to-one supervision sessions held with the student's dissertation supervisor there is no formal teaching as such.

However, a one hour session will be held in the Michaelmas term for all full-unit and half-unit dissertation students to orient them to the dissertation requirements.

Indicative reading: There is no essential reading as such. There is a moodle site dedicated to the LLB half and full-unit dissertations.

Assessment: Dissertation (100%, 15000 words) in the ST.

LN100

Russian Language and Society 3 (advanced)

This information is for the 2019/20 session.

Teacher responsible: Dr Olga Sobolev PEL 6.01A and Mrs Irina Forbes

Availability: Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: Completion of the Russian Language and Society 2 (Intermediate) course (LN102); or a good pass at A Level or its equivalent is required. An interview with the course co-ordinator prior to registration is compulsory.

Course content: Advanced study of the Russian language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and web-based multi-media materials. The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness.

Teaching: 40 hours of classes in the MT. 40 hours of classes in the LT. 4 hours of classes in the ST.

Four hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials. Structured activities during the reading week

Formative coursework: Students will be required to complete weekly language exercises.

Indicative reading: *Colloquial Russian 2*, by Olga Sobolev, Natasha Bershadski et al, Routledge, 2018; Additional: Terence Wade, *A Comprehensive Russian Grammar*, Blackwell, 2010; Nicholas Rzhnevsky, *Cambridge Companion to Modern Russian Culture*, Cambridge University Press, 2012; Geoffrey Hosking: *Russian History: A Very Short Introduction*, Oxford University Press, 2012.

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN101

Russian Language and Society 1 (beginner)

This information is for the 2019/20 session.

Teacher responsible: Dr Olga Sobolev PEL 6.01A

Availability: Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: No previous knowledge of Russian is required; students with limited prior knowledge may be considered for the course subject to an interview with the course co-ordinator.

Course content: Beginners to higher intermediate study of the Russian language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and web-based multi-media materials. The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness.

Teaching: 60 hours of classes in the MT. 60 hours of classes in the LT. 6 hours of classes in the ST.

Six hours per week, which will feature: (a) interactive topic work; (b) oral classes; (c) grammar classes; (d) tutorials; and (e) guided study using Language Showroom, IT and web-based materials. Students should note that the timetable will be held extremely flexible to accommodate students from all departments. Please contact the teacher responsible if you would like to follow this language course. Structured activities during the reading week

Formative coursework: Students will be required to complete weekly language exercises.

Indicative reading: Svetlana Le Fleming and Susan Kay, *Colloquial Russian*, Routledge, 2017

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN102

Russian Language and Society 2 (intermediate)

This information is for the 2019/20 session.

Teacher responsible: Dr Olga Sobolev PEL 6.01A and Mrs Natalia Bershadski

Availability: Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: Completion of the Russian Language and Society

1 (Beginner) course (LN101); or a good pass at GSCE/AS Level or its equivalent is required. An interview with the course co-ordinator prior to registration is compulsory.

Course content: A bridge from intermediate to advanced study of the Russian language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and web-based multi-media materials. The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness.

Teaching: 50 hours of classes in the MT. 50 hours of classes in the LT. 5 hours of classes in the ST.

Five hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials. Structured activities during the reading week

Formative coursework: Students will be required to complete weekly language exercises.

Indicative reading: *Colloquial Russian*, by Svetlana Le Fleming and Susan Kay, Routledge, 2017; Additional (cultural awareness): Nicholas Rzhevsky, *Cambridge Companion to Modern Russian Culture*, Cambridge University Press, 2012

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN104

Mandarin Language and Society Level 1 (Beginner)

This information is for the 2019/20 session.

Teacher responsible: Dr Hua Xiang Pethick-Lawrence House, 601B

Availability: Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: No previous knowledge of Mandarin is required; students with limited prior knowledge may be considered for the course subject to an interview with the course co-ordinator.

Course content: Beginners to intermediate study of the Mandarin language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and multi-media materials. The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness. In this level, the students are required to read and write up to 750 Chinese characters.

Teaching: 60 hours of classes in the MT. 60 hours of classes in the LT. 6 hours of classes in the ST.

Six hours per week, which will feature: (a) interactive topical work; (b) oral practise; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials.

Structured activities in week 11 of both MT and LT.

Formative coursework: The students will be required to complete weekly exercises. This includes grammar activities, writing Chinese characters and online communicative materials.

Indicative reading: CH Xiang, 2010, *Mastering Chinese*, London. Palgrave Macmillan. X Liu (ed.), 2006, *New Practical Chinese Reader*, Vol. 1, text book and workbook, Beijing. Beijing Language and Cultural University Press. Y Po-Ching & D Rimmington, 2002,

Beginners Chinese – A Grammar and Workbook, Routledge. Oxford Chinese Dictionary, 2010, Oxford Dictionaries.

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN110

German Language and Society 3 (advanced)

This information is for the 2019/20 session.

Teacher responsible: Dr Peter Skrandies PEL.6.01f

Availability: Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: An A-level or its equivalent is required. An interview with the course co-ordinator prior to registration is compulsory.

Course content: Advanced study of the German language within the framework of the social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, and the use of authentic multi-media materials. The focus is on accuracy and communication that advance students' language competence, transferable skills and cultural awareness.

Teaching: 44 hours of classes in the MT. 44 hours of classes in the LT. 4 hours of classes in the ST.

Four hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials. Structured activities will take place in week 11 of the Michaelmas term and week 11 of the Lent Term.

Formative coursework: Weekly language exercises

Indicative reading:

- Beattie, S. (ed.) (2007) *160 Collins German Dictionary*, 1607th 160 edition, Glasgow: Harper Collins
- Durrell, Martin et al. (2015) *160 Essential German Grammar*, 2nd edition, 160 London: 160 Routledge
- Wolski, Werner (2012), *Pons Kompaktwörterbuch Deutsch als Fremdsprache*, Stuttgart: Klett Verlag

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN112

German Language and Society 2 (Intermediate)

This information is for the 2019/20 session.

Teacher responsible: Dr Peter Skrandies PEL.6.01f

Availability:

Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of

their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: A good pass at GCSE/AS Level or its equivalent is required. An interview with the course co-ordinator prior to registration is compulsory.

Course content: The course is designed to be a bridge from intermediate to advanced study of the German language within the framework of social sciences and culture. It will introduce students to the study of the society, economy and culture of German-speaking countries through the medium of German. In a dynamic and communicative way the course develops speaking, listening, reading and writing skills through individual and group work, topical discussions, and by using authentic and multi-media material. The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness.

Teaching: 55 hours of classes in the MT. 55 hours of classes in the LT. 5 hours of classes in the ST.

Five hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials. Structured activities will take place in week 11 of the Michaelmas Term and week 11 of the Lent Term.

Formative coursework: Weekly language exercises

Indicative reading: Beattie, S. (ed.) (2007) Collins German Dictionary, 7th edition, Glasgow: Harper Collins. Braun, Birgit, Margit Doubek et. al. DaF kompakt neu B1, Kursbuch und Arbeitsbuch. Stuttgart: Ernst Klett. ISBN: 978-3-12-676315-8. Durrell, Martin et al. (2002) Essential German Grammar, London: Routledge. Wolski, Werner (2012), Pons Kompaktwörterbuch Deutsch als Fremdsprache, Stuttgart: Klett Verlag

LN115

Intercultural Communication and Management

This information is for the 2019/20 session.

Teacher responsible: Dr Hua Xiang PEL.6.01b and Dr Neil Mclean 20KSW.G.07

Availability: This course is compulsory on the BSc in International Relations and Chinese. This course is available on the BSc in Language, Culture and Society. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is capped. It will only be available as an outside option or to students in other departments should there be availability.

Pre-requisites: No pre-requisite required.

Course content: The course will cover the main theories and concepts involved in inter-cultural communication, such as: face, politeness, (im)politeness, speech acts and pragmatics. It explains and analyses how theories and concepts about the above phenomena apply in real life, in business and in political communications. A range of case studies will be presented in the course. These demonstrate how linguistic and communication strategies can be used effectively in different interactional contexts.

Some important themes and areas include:

- The intercultural challenge, such as the importance of intercultural communication, barriers to intercultural communication, and how to deal with difference

- Understanding of culture and cultural dimensions, such as various theories of culture, socialisation and its role in the acquisition of language, non-verbal communication, communication styles and relativity as explored through concepts such as time, space, distance, as well as role performance and 160 speech acts, such as apologies, giving compliments and showing gratitude
- Pragmatics and how language use should be and/or could be applied in a comparative cultural context
- Case studies of miscommunication across cultures and research on cultural difference

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Two hours per week, featuring: (a) one hour lectures on a range of concepts and themes; (b) one hour classes; (c) student presentations; (d) tutorials. Structured activities will take place in the Week 6 Reading Week of the Michaelmas Term and the Lent Term.

Formative coursework: Students will be expected to produce 1 essay and 1 case study in the MT and LT.

Short essays, case study analyses, presentations, learning logs.

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN230**French Language and Society 4 (proficiency)**

This information is for the 2019/20 session.

Teacher responsible: Mr Francois Simon PEL 6.01K

Availability: Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: Students must have completed French Language and Society 3 (advanced) (LN130).

AND / OR attend a compulsory interview with the course coordinator prior to registration.

Course content:

- Further advanced (up to proficiency) study of French language within the framework of social sciences and culture.
- dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and studio-based multi-media materials.
- The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness.

Teaching: 30 hours of classes in the MT. 30 hours of classes in the LT. 3 hours of classes in the ST.

Three hours per week, which will feature: (a) Lectures; (b) Oral Classes; (c) Workshops; (d) Tutorials; and (e) Guided study using Language Showroom, IT and web-based material including a virtual learning environment supported by Moodle.

Formative coursework:

- 40 % Research project (in the MT and LT (including 20% for the oral examination in the main exam period)
- 20% Continuous assessment

See Assessment below

Indicative reading: Students are encouraged to make full use of the resources of French books in the Library as well as reference books. Students are also strongly advised to use the French language resources available on the World Wide Web.

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN240**Mandarin Language and Society 4 (Proficiency)**

This information is for the 2019/20 session.

Teacher responsible: Dr Hua Xiang Pethick-Lawrence House, 601B

Availability: Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: Students must have completed Mandarin Language and Society 3 (Advanced) (LN140).

Students must complete LN140 or reach equivalent language level.

An interview with the course co-ordinator prior to registration is compulsory.

Course content: Further advanced (up to proficiency) study of the Mandarin language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and multi-media materials. The focus is on accuracy as well as

communication that advance students' language competence, transferable skills and cultural awareness. At this level, the students are required to read and write up to 3500 Chinese characters.

Teaching: 30 hours of classes in the MT. 30 hours of classes in the LT. 3 hours of classes in the ST.

Three hours per week, which will feature: (a) interactive topical work; (b) oral practise; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials. Structured activities in week 11 of MT and LT.

Formative coursework: The students will be required to complete weekly exercises. This includes newspaper reading, research projects and online communicative materials.

Indicative reading: Hunshan Carolyn Lee, Hsin-Hsin Liang, Liwei Jiao and Julian K Wheatley, 2010, The Routledge Advanced Chinese Multimedia Course: Crossing Cultural Boundaries. Hong Kong, Routledge.

Authentic materials from newspaper, web and journals.

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN250**English Literature and Society**

This information is for the 2019/20 session.

Teacher responsible: Dr Angus Wrenn PEL 6.01A

Availability: Available as an outside option to students on all undergraduate programmes where regulations permit, and to General Course students. Students can take this course in any year of their studies.

Pre-requisites: An A-level pass or equivalent is recommended but not required (especially for General Course students).

Course content: (a) Study of 20th century British literature (prose, poetry and drama) in its socio-political context; Study of individual authors (in weekly lectures) - these form the basis of the examination assessment (b) Study of major cultural themes running through the century e.g. Literature of War; Imperialism; Feminism; Modernism; Postmodernism; Political writing - these form the basis of the student's extended coursework essay. (c) Several trips to theatre productions during the year; (d) Extensive use of archive recordings of authors, and video; (e) Students encouraged to draw upon background in their main discipline, and to read widely.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Structured activities during the reading week in the MT and LT. Revision workshops and tutorials in the ST.

Formative coursework: Two essays per year; topically based research presentations.

Indicative reading: (Primary texts) Conrad Heart of Darkness; T S Eliot The Waste Land; Virginia Woolf Mrs Dalloway; James Joyce Portrait of the Artist Forster Passage to India George Orwell Nineteen Eighty-Four; Larkin Collected Poems; Heaney Collected Poems; (Secondary text) The Cambridge History of Twentieth-Century English Literature (The New Cambridge History of English Literature) by Laura Marcus and Peter Nicholls Cambridge: CUP, 2012

Assessment: Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%) in the LT.

LN251**Comparative Literature and 20th Century Political History****This information is for the 2019/20 session.****Teacher responsible:** Dr Olga Sobolev PEL 6.01A and Dr Angus Wrenn PEL 6.01A**Availability:** This course is available on the BA in History, BSc in International Relations and History and BSc in Politics and History. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Students can take this course in any year of their studies.

Pre-requisites: Although an A-level pass or equivalent in Literature is useful, it is not an absolute requirement (especially for General Course Students).**Course content:** Comparative literature of the twentieth century leading up to and including the Cold War. (a) Study of major authors (prose, poetry and drama, in English translation where relevant) on both sides of the Iron Curtain with a focus on the recurrent cultural themes: Fabianism; Utopia/Dystopia; Art with a Social/Political Function; Cold War: the East-West Dichotomy; Individual and the State; the Value of Political Protest (b) Use of video-recording related to the texts (c) Several related trips to galleries, film festivals and theatre productions during the year; (d) Students encouraged to draw upon background in their main discipline, and to read widely.**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Structured activities during the reading week in the MT and LT. Revision workshops and tutorials in the ST.

Formative coursework: Two essays per year; topically based research presentations.**Indicative reading:** H. G. Wells *The Time Machine*; A. Huxley *Brave New World*; G.B. Shaw *Annajanska the Bolshevik Empress*; E. Zamyatin *We*; G. Orwell *Animal Farm & 1984*; M. Bulgakov *The Heart of a Dog*; W. H. Auden *poems*; V. Mayakovsky *poems*; A. Solzhenitsyn *A Day in the Life of Ivan Denisovich*; A. Makine *A Life's Music*; M. Kundera *The Unbearable Lightness of Being*; Ian Fleming *From Russia with Love*; T. Stoppard *Professional Foul*; S. Dovlatov *The Suitcase*; B. Chatwin *Utz*.**Assessment:** Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 2500 words) in the LT.

LN252**Contemporary Literature and Global Society****This information is for the 2019/20 session.****Teacher responsible:** Dr Olga Sobolev PEL 6.01A and Dr Angus Wrenn PEL 6.01A**Availability:** This course is available as an outside option to students on all undergraduate programmes, and to General Course students. Students can take this course in any year of their studies, subject to their own programme regulations.**Pre-requisites:** Although an A-level pass or equivalent in Literature is useful, it is not an absolute requirement (especially for General Course students).**Course content:** (a) Study of contemporary (chiefly post 2000) literature and films in the context of modern globalised society, covering prose, poetry, drama and cinematic works; (b) Focus on cultural postmodernism, including such aspects as: decline of national cultural frameworks; authors with global identity; 'commodification' of culture; 'media-driven' society; the problem of identity and social fragmentation; (c) study of films and individual authors in English translation (where relevant). (d) several related trips to galleries, film festivals and theatre productions during the year; (e) extensive use of archive recordings of authors, and video; (f) students are encouraged to draw upon their background in their

main discipline, and to read widely.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Structured activities during the reading week in the MT and LT. Revision workshops and tutorials in the ST.

Formative coursework: Two essays per year; topically based research presentations.**Indicative reading:** Literature: Douglas Coupland, *Generation X*; Viktor Pelevin, *Generation P (Babylon)*; Vesna Goldsworthy *Gorsky* (Scott Fitzgerald *The Great Gatsby*); Vaclav Havel *Leaving* (Shakespeare *King Lear*); Milan Kundera, *Ignorance*; Mohsin Hamid, *The Reluctant Fundamentalist*; Marina Lewicka *A Short History of Tractors in Ukrainian*; Jonathan S. Foer *Everything Is Illuminated*; ; Zadie Smith, *White Teeth*; Branden Jacobs-Jenkins, *Gloria*; Films: *Good Bye, Lenin!* (2003, dir. W. Becker); *Everything Is Illuminated* (2005, L. Schreiber); *Loveless* (2018, dir. A. Zvyagintsev);**Assessment:** Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 2500 words) in the LT.

LN253**European Literature and Philosophy****This information is for the 2019/20 session.****Teacher responsible:** Dr Olga Sobolev PEL 6.01A and Dr Angus Wrenn PEL 6.01A**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Students can take this course in any year of their studies.

Pre-requisites: Although an A-level pass or equivalent in Literature is useful, it is not an absolute requirement (especially for General Course students).**Course content:** (a) Literary treatment of the major philosophical trends of the twentieth century, including the aesthetics of Bergson and Nietzsche, the analytical school of Russell; political philosophy of Isaiah Berlin, the existentialism of Heidegger and Sartre, the paradox of the absurd of Camus, French and East European Phenomenology; Wittgenstein and philosophy of language (b) Related trips to galleries and theatre productions during the year; (c) Use of archive recordings of authors, and video; (d) Students encouraged to draw upon background in their main discipline, and to read widely.**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Structured activities during the reading week in the MT and LT. Revision workshops and tutorials in the ST.

Formative coursework: Two essays per year; topically based research presentations.**Indicative reading:** Dostoevsky *Crime and Punishment & The Grand Inquisitor*; Kafka *Metamorphosis & The Trial*; Nabokov *Lolita & Despair*; Celan *Todesfuge and other poems*; St-Exupery *The Little Prince*; Solzhenitsyn *One Day in the Life of Ivan Denisovich*; Camus *L'Etranger & The Myth of Sisyphus*; Kundera *The Unbearable Lightness of Being*; Stoppard *Dogg's Hamlet Cahoot's Macbeth***Assessment:** Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 2500 words) in the LT.

LN254**Literature and Aspects of Ethics****This information is for the 2019/20 session.****Teacher responsible:** Dr Olga Sobolev PEL 6.01A and Dr Angus Wrenn PEL 6.01A**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Students can take this course in any year of their studies.

Pre-requisites: Although an A-level pass or equivalent in Literature is useful, it is not an absolute requirement (especially for General Course students).**Course content:** a) Literary treatment/projection of the aspects of ethics, focusing on the classical ideas of Aristotle and Kant, Schopenhauer, and Nietzsche, developed in modern times by Sartre, Lacan, Bernard Williams and Michel Foucault. The course will draw on a range of themes arising from the interface between literary and philosophical studies and will explore such issues as the objectivity of moral reasoning (the question whether the practices that are traditionally and factually legitimated by religion, law or politics are indeed worthy of recognition); the spiritual crisis of the modern world (desire, guilt and innocence); technological omnipotence versus determinism; and the illusion of liberty in a tolerant democracy based on consensus. It will also be concerned with such questions as whether philosophy and literature, when combined, can achieve more than the sum of the two parts.

b) The course is based on a carefully chosen range of short stories from world literature (including such authors as Kafka, Murakami, Kundera, Borges, Bessie Head, Isabel Allende etc.) where there is either a direct allusion to or a strong parallel with the key ethical issues.

c) Related trips to galleries and theatre productions during the year.

d) Use of archive recordings of authors, and video.

e) Students encouraged to draw upon background in their main discipline, and to read widely.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Structured activities during the reading week in the MT and LT.

Revision workshops and tutorials in the ST.

Formative coursework: Students will be expected to produce 2 essays and 1 presentation in the MT and LT.**Indicative reading:** Literary texts: Bashevis Singer *The Spinoza of Market Street*; Franz Kafka *In The Penal Colony*; Isabel Allende *The Guest Teacher*; Thomas Mann *Death in Venice*; Jorge-Luis Borges *Blue Tigers*; Haruki Murakami *The Ice Man*; Jean-Paul Sartre *The Wall*; Guy de Maupassant *The Model*; Heinrich Böll *To Work or not to Work*; Bessie Head *A Power Struggle*.*Additional reading:* Peter Singer and Renata Singer (eds.), *The Moral of the Story: An Anthology of Ethics Through Literature* (Wiley-Blackwell, 2004); Alex Voorhoeve, *Conversations on Ethics* (Oxford University Press, 2011); Luc Bovens, 'A response to Prelec', in: Oliver, Adam, (ed.) *Behavioural Public Policy* (Cambridge University Press, 2013); Brian Stock, *Ethics through Literature: Ascetic and Aesthetic Reading in Western Culture* (Brandeis, 2008).**Assessment:** Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 2500 words) in the LT.

any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Course content: The course will introduce students to key (socio) linguistic concepts (semantic and pragmatic meaning, discourse, register, genre, dialect, idiolect, sociolect) employed in the analysis of language use as a social process. Students will explore the reciprocal relationship between language and specific social contexts and structures (class, gender, ethnicity), and study the role that language plays in the creation, maintenance and change of social relations and institutions. Important themes are changing attitudes to language and the prestige afforded to particular languages and language varieties. The use of language for academic purposes will be analysed, as will be situations of language contact, multilingualism and the role of translation in intercultural and international communication. The implications and consequences for less widely used languages of the emergence of English (and other widely spoken languages) as global lingua francas will be outlined and discussed.**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Two hours per week, featuring: (a) Lectures on a range of concepts and themes; (b) classes including students' presentations; (c) revision workshops; (d) tutorials. Students on this course will have a reading week in Week 6 of MT and LT.

Formative coursework: Short essays, linguistic analyses, presentations.**Indicative reading:**

- Edwards, John (2013). *Sociolinguistics: A Very Short Introduction*. Oxford: Oxford University Press
- Mesthrie, Rajend (ed) (2011) *The Cambridge Handbook of Sociolinguistics*, Cambridge: Cambridge University Press
- Meyerhoff, Miriam (2018). *Introducing Sociolinguistics*, 3rd ed., London: Routledge;
- Mooney, Annabelle et al (2015). *Language, Society and Power. An Introduction*, 4th edition, London: Routledge
- Wardhaugh, Ronald (2014). *An Introduction to Sociolinguistics*, 7th ed., Oxford: Wiley-Blackwell
- Wodak, Ruth et al (2011) *The SAGE Handbook of Sociolinguistics*, London: SAGE
- Yule, George (2016). *The Study of Language*, 6th ed., Cambridge: Cambridge University Press

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Coursework (40%).

The coursework consists of a sociolinguistic project which includes an oral presentation of the project (10%, 500 words) in the LT and a project essay (30%, 4000 words) in the ST.

LN320**Spanish Language and Society 5 (mastery)****This information is for the 2019/20 session.****Teacher responsible:** Dr Roser Martinez-Sanchez PEL.6.01.G**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.**Pre-requisites:** Completion of the Spanish Language and Society 4 (Proficiency) course (LN220) or its equivalent is required. An interview with the course co-ordinator prior to registration is compulsory.**Course content:** Further advanced (up to the level of mastery) study of the Spanish language through themes related to Spanish speaking societies within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and studio-based multi-media materials. The focus is on accuracy as well as communication that advance students' language**LN270****Society and Language: Linguistics for Social Scientists****This information is for the 2019/20 session.****Teacher responsible:** Dr Peter Skrandies PEL.6.01f**Availability:** Available as an outside option to all undergraduate and General Course students. Students can take this course in

competence, transferable skills and cultural awareness.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Week 11 in MT and LT structured activities.

Two hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials

Formative coursework: The students will be required to complete weekly language exercises

Indicative reading: The following works are core texts:

- Gabriel Garcia Marquez, *Cien Años de Soledad*;
- Carmen Laforet, *Nada*;
- Tomas Eloy Martinez, *Santa Evita*,
- Luis CERNUDA, "La realidad y el deseo", Fondo Cultura Económica, Madrid, 1982,
- Poesia; Jaime GIL DE BIEDMA; *Antología poética* (2001); Alianza Editorial, SA; Fuguet, Alberto; Sergio Gomez (Eds),
- Presentación del país McOndo, En McOndo, Barcelona: Grijalbo, 1996;
- Amores Perros (2000) Filmax DVD;
- Ay Carmela! [1990] Arrow Warner Home Video DVD;

Students will be advised to buy any relevant materials at the beginning of the course.

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN330

French Language and Society 5 (mastery)

This information is for the 2019/20 session.

Teacher responsible: Mr Francois Simon PEL 6.01 K

Availability: Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: Students must have completed French Language and Society 4 (proficiency) (LN230).

AND / OR attend a compulsory interview with the course co-ordinator prior to registration.

Course content:

- Further advanced (up to the level of mastery) study of the French language within the framework of social sciences and culture.
- dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic materials.
- The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

Two hours per week, which will feature: (a) seminars; (b) Oral Classes; (c) Workshops; (d) Tutorials; and (e) Guided study using Language (f) grammar. Showroom, IT and web-based material including a virtual learning environment supported by Moodle.

Formative coursework:

- 40% : Research project (in the MT and LT (including an Oral examination (20%) in the main exam period).
- 20% : Continuous assessment (in the MT and LT).

See Assessment below

Indicative reading: Students are encouraged to make full use of the resources of French books in the Library as well as reference books. Students are also strongly advised to use the resources available on the World Wide Web.

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LN340

Mandarin Language and Society 5 (Mastery)

This information is for the 2019/20 session.

Teacher responsible: Dr Hua Xiang Pethick-Lawrence House, 601B

Availability:

Available as an outside option to all undergraduate and General Course students. Students can take this course in any year of their studies following approval from the teacher responsible and subject to their own programme regulations.

Pre-requisites: Students must have completed Mandarin Language and Society 4 (Proficiency) (LN240).

This is a Mastery course, and in order to register, completion of Language and Society 4 or equivalent is required. An interview with the course co-ordinator prior to registration is compulsory.

Course content: Further advanced (up to the level of mastery) study of the Mandarin language within the framework of social sciences and culture. In a dynamic and communicative way the course develops all four language skills (i.e. speaking, listening, reading and writing) through individual and group work, topical discussions, authentic and multi-media materials. The focus is on accuracy as well as communication that advance students' language competence, transferable skills and cultural awareness. At this level, the students are required to read and write up to 5000 Chinese characters.

Teaching: 20 hours of classes in the MT. 20 hours of classes in the LT. 2 hours of classes in the ST.

Two hours per week, which will feature: (a) interactive topical work; (b) oral practise; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials.

Structured activities in week 11 of MT and LT.

Formative coursework: The students will be required to complete weekly exercises. This includes newspaper reading, research projects and online communicative materials.

Indicative reading: Students are encouraged to make full use of the resources of language gateway at LSE and online magazine subscription. There will be guided authentic materials from newspaper, web and journals.

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Oral examination (20%) in the ST.

Continuous assessment (40%) in the MT and LT.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

LSE100

The LSE Course: Understanding the causes of things

This information is for the 2019/20 session.

Teacher responsible: Dr Jessica Templeton KSW 4.06
Academics from a range of LSE departments contribute to the course.

Availability: Compulsory course on all undergraduate programmes: students complete Term 1 in Lent Term of their first year and Term 2 in Michaelmas Term of their second year. The course is not available to General Course students or to second-year direct-entry students.

Course content: The course introduces students to the fundamental elements of thinking like a social scientist. As no complex issue can be fully understood through the lens of a single discipline, LSE100 explores pressing social issues from the perspective of different fields of social science. The goal of the course is to enable students to complement intellectual grounding in their discipline with a broad understanding of different ways of thinking. In two ten-week modules, the course will ask 'big' questions, such as: 'Is there a path to global food security?' Using such questions as guides, students will explore different types of evidence, forms of explanation and strategies for abstraction and modelling that are used across the social sciences. The aim is not only to broaden students' intellectual experience, but also to deepen their critical understanding of their own disciplines. LSE100's focus on the core elements of social scientific reasoning will be accompanied by a strong emphasis on critical thinking, data visualisation, research and communication skills.

Teaching: 15 hours of classes and 5 hours of specialized online lectures, plus optional workshops, in the MT. 15 hours of classes and 5 hours of specialized online lectures, plus optional workshops, in the LT.

Formative coursework: Formative activities will be completed in class and may include writing assignments or data analysis tasks.

Indicative reading: Readings are module-specific. Class reading packs are available from the LSE100 Moodle site, along with additional reading and resource recommendations, and can be provided in hard copy on request.

Assessment: In both terms, students will write a summatively-assessed persuasive academic argument and work with a group of their peers on a project related to the modules. The group project will be completed in the first half of each term, and the written work will be due at the end of term. The written work and group projects are each worth 25% of the student's final mark. Students receive a numeric mark and overall grade for the course of Distinction, Merit, Pass or Fail.

MA100

Mathematical Methods

This information is for the 2019/20 session.

Teacher responsible: Dr Ioannis Kouletsis

Availability: This course is compulsory on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Economics with Economic History, BSc in Finance, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available on the BSc in Accounting and Finance, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and MSc in Economics (2 Year Programme). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: This course assumes knowledge of the elementary techniques of mathematics including calculus, as evidenced for example by a good grade in A Level Mathematics.

Course content: This is an introductory level course for those who wish to use mathematics seriously in social science, or in any other context. A range of basic mathematical concepts and methods in calculus of one and several variables and in linear algebra are covered and some applications illustrated. It is an essential pre-requisite for any mathematically orientated economics options and for many further mathematics courses. Topics covered: Matrices, reduced row echelon form, rank. Systems of linear equations, Gaussian elimination. Determinants. Vector spaces, linear independence, basis, dimension. Linear transformations, similarity. Eigenvalues. Diagonalization. Orthogonal diagonalization. Complex numbers. Vectors. Functions of several variables, derivatives, gradients, tangent hyperplanes. Optimisation including Lagrange's method. Vector-valued functions, derivatives and their manipulation. Inverse functions, local inverses and critical points, use in transformations. Integration, differential and difference equations. Some applications of the above topics.

Teaching: 20 hours of lectures, 20 hours of classes and 10 hours of workshops in the MT. 20 hours of lectures, 20 hours of classes and 10 hours of workshops in the LT. 2 hours of lectures in the ST.

Formative coursework: Students will be expected to attempt a number of weekly self-study exercises (and check their answers using solutions provided) in preparation for their classes. In-class open book practice sessions will be conducted weekly in class and be submitted to the appropriate class teacher for marking and feedback. In addition, Mock Exam questions will be submitted for marking and feedback at regular intervals throughout the year. Success in this paper depends on dealing with the written work as it is assigned, in a regular and systematic manner.

Indicative reading: Ken Binmore & Joan Davies, *Calculus, Concepts and Methods*; Martin Anthony & Michele Harvey, *Linear Algebra, Concepts and Methods*.

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Exam (25%, duration: 1 hour) in the January exam period.

MA103

Introduction to Abstract Mathematics

This information is for the 2019/20 session.

Teacher responsible: Dr Peter Allen and Prof Konrad Swanepoel

Availability: This course is compulsory on the BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students should have taken, or be taking concurrently, the course Mathematical Methods (MA100).

Course content: The course is an introduction to the use of formal definitions and proofs in mathematics, and to basic results of elementary set theory, number theory, linear algebra, algebra and analysis. Specific topics covered are as follows: Logic, integers, sets and functions, prime numbers, relations, real and complex numbers, greatest common divisor and modular arithmetic, infimum and supremum, sequences, limits, continuity, groups and vector spaces.

Teaching: 20 hours of lectures, 20 hours of classes and 10 hours of workshops in the MT. 21 hours of lectures, 20 hours of classes and 10 hours of workshops in the LT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Students may wish to have one of the recommended textbooks: N L Biggs, *Discrete Mathematics* (2nd edn) or P J Eccles, *An Introduction to Mathematical Reasoning*, but these are not required. Further background reading can be found in R Allenby, *Numbers and Proofs*; M Liebeck, *A Concise Introduction*

to Pure Mathematics; V Bryant, Yet Another Introduction to Analysis; R Bartle & D Sherbert, Introduction to Real Analysis and H Anton, Elementary Linear Algebra.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

MA107 Half Unit

Quantitative Methods (Mathematics)

This information is for the 2019/20 session.

Teacher responsible: Dr James Ward

Availability: This course is compulsory on the BSc in Economic History with Economics, BSc in Economics and Economic History, BSc in Environmental Policy with Economics, BSc in Geography with Economics, BSc in International Social and Public Policy and Economics, BSc in Management and BSc in Social Policy and Economics. This course is available on the BSc in Accounting and Finance, BSc in Government and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics and Diploma in Accounting and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Pre-requisites: A-level Mathematics (or equivalent).

Students with A-level Mathematics who are confident of their mathematical skills may also consider the full unit **MA100**

Mathematical Methods.

Course content: The aim of this course is to develop the basic mathematical tools necessary for further study in economics and related disciplines. To this end we focus on: techniques of calculus (differentiation, partial differentiation, optimisation and integration), methods of linear algebra (use of matrices), and the solution of difference and differential equations. The ideas are taught systematically, with emphasis on their application to economic problems. Examples are used throughout the course for motivation and illustration.

Specific topics are as follows: sets, functions, equations, graphs. Difference equations, sequences, limits. Differentiation, inverse functions, exponential and logarithmic functions. Partial differentiation, chain rule, homogeneous functions. Optimisation in two variables: unconstrained and constrained. Lagrange multipliers. Vector notation and convexity. Matrix notation, systems of linear equations, inverse matrices. Integration. Differential equations.

Teaching: 22 hours of lectures, 10 hours of classes and 9 hours of workshops in the MT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: The course follows M Anthony & N L Biggs, Mathematics for Economics and Finance: Methods and Modelling, CUP, 1996. There are many other books with titles like Mathematics for Economists which may be of some use, but they won't cover the entire course.

Assessment: Exam (100%, duration: 2 hours) in the January exam period.

MA110

Basic Quantitative Methods

This information is for the 2019/20 session.

Teacher responsible: Dr Sally Barton

Availability: This course is available on the BSc in Accounting and Finance and BSc in Government and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: GCSE or AS-level Mathematics (or equivalent).

Students with A-level Mathematics (or equivalent) should take **MA107 Quantitative Methods (Mathematics)** or **MA100**

Mathematical Methods.

Course content: The course is designed to provide students with the elementary mathematical tools that are needed to study Economics. Students will be introduced to basic mathematical concepts and manipulations. Examples of applying these techniques to a variety of economical and management problems are given throughout the course. Content - Part A: Arithmetic operations, powers and roots; basic algebra; introduction to linear programming; logarithms and exponential growth; sets, functions and graphs; differentiation of functions of one variable; marginal cost and marginal revenue; optimisation of functions of one variable; difference equations; equilibrium and stability in dynamical models. Content - Part B: Introduction to integration; consumer and producer surplus; matrix algebra; systems of linear equations; functions of several variables; partial differentiation; optimisation and the Lagrange multiplier method.

Teaching: 20 hours of lectures, 10 hours of classes and 10 hours of workshops in the MT. 22 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: The course will be mostly taught from the lecturers' notes. The following books can provide additional material: T Bradley & P Patton, Essential Mathematics for Economics and Business; E T Dowling, Mathematics for Economists (Schaum's Outline Series); I Jacques, Mathematics for Economics and Business; M Rosser, Basic Mathematics for Economists; M Anthony & N L Biggs, Mathematics for Economics and Finance: Methods and Modelling, CUP, 1996.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

MA203 Half Unit

Real Analysis

This information is for the 2019/20 session.

Teacher responsible: Prof Martin Anthony

Availability: This course is compulsory on the BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Introduction to Abstract Mathematics (MA103), or some equivalent giving experience with formal proofs, convergence of sequences and continuity of functions.

Course content: This is a course in real analysis for those who have already met the basic concepts of sequences and continuity on the real line. Here we generalize these concepts to Euclidean spaces and to more general metric and normed spaces. These more general spaces are introduced at the start and are emphasized throughout the course.

Topics covered are:

- Sequences and series on the real line.
- Metric and normed spaces; open and closed sets, topological properties of sets and equivalent metrics, sequences in metric spaces, compactness, completeness.
- Continuity of real valued functions and of functions between metric spaces, uniform continuity and Lipschitz condition.
- Differentiation of real valued functions, the mean value theorem, differentiation of functions between Euclidean spaces and partial derivatives.
- Riemann integral and the fundamental theorem of calculus.
- Sequences and series of functions; pointwise and uniform convergence of sequences of functions, power series and series in normed spaces.

Teaching: 20 hours of lectures and 10 hours of classes in the MT.

2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: A comprehensive pack of lecture notes will be provided. The following may prove useful:

- Robert G Bartle & Donald R Sherbert, Introduction to Real Analysis
- W A Sutherland, Introduction to Metric and Topological Spaces
- Tom Apostol, Mathematical Analysis, second edition.
- Walter Rudin, Principles of Mathematical Analysis, third edition.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA207 Half Unit

Further Quantitative Methods (Mathematics)

This information is for the 2019/20 session.

Teacher responsible: Dr James Ward

Availability: This course is available on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students should have previously taken **MA107 Quantitative Methods (Mathematics)**. It is not available to students who have taken **MA100 Mathematical Methods**, or equivalent, nor higher level methods courses.

Course content: This is a second course in quantitative methods, following on directly from Quantitative Methods (Mathematics) (MA107). This course will contain further algebra and calculus. As with the course MA107, the emphasis will be on applications in economics and finance. Topics covered: Matrix methods in portfolio analysis. Linear independence. Rank of a matrix. Eigenvalues and eigenvectors. Diagonalisation. Linear systems of recurrence equations. Markov process. Second-order recurrence equations. Macroeconomic models. Vector geometry. Gradient and directional derivative. Tangent hyperplanes and the optimal bundle. Resource allocation and Pareto efficiency. Orthogonal matrices and quadratic forms. Critical points of quadratic functions. Taylor's approximation. Optimisation of functions of two or more variables.

Teaching: 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: M Anthony & N Biggs, Mathematics for Economics and Finance (Cambridge, 1996); A Ostaszewski, Mathematics in Economics (Blackwell, 1993).

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA208 Half Unit

Optimisation Theory

This information is for the 2019/20 session.

Teacher responsible: Dr Julia Boettcher

Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Mathematical Methods (MA100) and Introduction to Abstract Mathematics (MA103) are pre-requisites. Real Analysis (MA203) is desirable, and students who have not done MA203 should contact the teacher responsible.

Course content: Based on the relevant mathematical theory, the course describes various techniques of optimisation and shows how they can be applied. More precisely, the topics covered are:

Introduction and review of mathematical background. Introduction to combinatorial optimisation; shortest paths in directed graphs; algorithms and their running time. Classical results on continuous optimisation: Weierstrass's Theorem concerning continuous functions on compact sets; optimisation of differentiable functions on open sets; Lagrange's Theorem on equality constrained optimisation; Karush, Kuhn, and Tucker's Theorem on inequality constrained optimisation. Linear programming and duality theory.

Teaching: 22 hours of seminars and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Good sources of literature are R K Sundaram, A First Course in Optimisation Theory; N L Biggs, Discrete Mathematics (2nd edition). Additional notes will be made available throughout the course.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA209 Half Unit

Differential Equations

This information is for the 2019/20 session.

Teacher responsible: Dr Arne Lokka

Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Mathematical Methods (MA100) and Introduction to Abstract Mathematics (MA103) are pre-requisites. Real Analysis (MA203) and/or Further Mathematical Methods (MA212) are highly desirable, and students who have done neither MA203 nor MA212 should contact the lecturer.

Course content: The course concentrates on the theory and qualitative analysis of (ordinary) differential equations, although some solution techniques will be considered as well. Special attention will be paid to geometric concepts and the role of differential equations in the theory of dynamical systems. Specific topics covered are: First examples; illustrations of use of the computer package Maple. Existence and uniqueness of solutions. Autonomous 1 and 2 dimensional systems. Linear equations and systems: phase portraits; classification of systems in the plane; higher dimensional systems and higher order equations. Nonlinear systems in the plane: local and global behaviour; linearisation and stability at equilibrium points; Lyapunov functions; limit cycles. Control theory; linear systems; controllability.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Full notes will be handed out throughout the course. A good additional text book is D K Arrowsmith & C M Place, Dynamical Systems - Differential Equations, Maps and Chaotic Behaviour. Other books closely related to R Grimshaw, Nonlinear Ordinary Differential Equations and W A Brock & A G Malliaris, Differential Equations, Stability and Chaos in Dynamic Economics.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA210 Half Unit

Discrete Mathematics

This information is for the 2019/20 session.

Teacher responsible: Dr Rachel Kirsch

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics,

BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: MA103 Introduction to Abstract Mathematics, or an equivalent course giving a background in rigorous mathematics.

Course content: This is a course covering a number of concepts and techniques of discrete mathematics. Topics covered:

Counting: selections; inclusion-exclusion; generating functions; recurrence relations. Graph Theory: basic concepts; walks, paths, tours and cycles; trees and forests; colourings. Coding theory: basic concepts; linear codes.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: PJ Cameron, Combinatorics (CUP 1994); NL Biggs, Discrete Mathematics (OUP 2004)

Extensive notes covering the course content will be distributed as well.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA211 Half Unit

Algebra and Number Theory

This information is for the 2019/20 session.

Teacher responsible: Prof Jan van den Heuvel

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Introduction to Abstract Mathematics (MA103) and Mathematical Methods (MA100).

Course content: The aim of this course is to continue (from MA103) the study of abstract algebraic structures. There are two main strands in the course. First, we develop further the theory of groups, using permutation groups as a key example. We investigate the important concepts of normal subgroups and quotient groups. Secondly, we introduce rings, and study factorisation in rings, where we also look at some connections with number theory. Groups: Review of basic group theory; permutations and permutation groups; homomorphisms; conjugation, normal subgroups and quotient groups; the first isomorphism theorem for groups. Rings: basic properties of rings and examples (including polynomial rings, matrix rings, and number rings); subrings, ideals and ring homomorphisms; divisibility in integral domains; greatest common divisors; Euclidean rings and unique factorisation; applications to number theory; principal ideal domains.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Introduction to Algebra, Peter J Cameron (OUP 1988);

Rings, Fields and Groups: Introduction to Abstract Algebra, Reg Allenby (Butterworth-Heinemann, 2nd edition 1991)

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA212

Further Mathematical Methods

This information is for the 2019/20 session.

Teacher responsible: Prof Jozef Skokan and Dr James Ward

Availability: This course is compulsory on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available on the BSc in Economics, BSc in Management and MSc in Economics (2 Year Programme). This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students should ideally have taken the course **Mathematical Methods (MA100)** or equivalent, entailing intermediate-level knowledge of calculus and linear algebra, linear independence, eigenvalues, diagonalisation, and proficiency in techniques of differentiation and integration.

Course content: This course develops ideas first presented in MA100. It is divided into two halves: calculus and linear algebra. The calculus half explores how integrals may be calculated or transformed by a variety of manipulations, and how they may be applied to the solution of differential equations. This aim is achieved by studying the following topics: Limit calculations. Riemann integral. Multiple integration. Improper integrals. Manipulation of integrals. Laplace transforms. Riemann-Stieltjes integral, to a level of detail dependent on time constraints. The linear algebra half covers the following topics: Vector spaces and dimension. Linear transformations, kernel and image. Real inner products. Orthogonal matrices, and the transformations they represent. Complex matrices, diagonalisation, special types of matrix and their properties. Jordan normal form, with applications to the solutions of differential and difference equations. Singular values, and the singular values decomposition. Direct sums, orthogonal projections, least square approximations, Fourier series. Right and left inverses and generalized inverses.

Teaching: 20 hours of lectures, 10 hours of classes and 10 hours of workshops in the MT. 20 hours of lectures, 10 hours of classes and 10 hours of workshops in the LT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Useful background texts:

(i) for the calculus half:

Ken Binmore and Joan Davies, Calculus, Concepts and Methods (Cambridge University Press 2002);

Robert C. Wrede and Murray R. Spiegel, Advanced Calculus (McGraw-Hill Education; 3rd edition 2010).

(ii) for the linear algebra half:

Martin Anthony and Michele Harvey, Linear Algebra: Concepts and Methods (Cambridge University Press 2012).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

MA231

Operational Research Methods

This information is for the 2019/20 session.

Teacher responsible: Dr Giacomo Zambelli and Dr Victor Verdugo Silva

Availability: This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Mathematics, Statistics and Probability Theory

to the level of the courses MA107 Quantitative Methods (Mathematics) and ST107 Quantitative Methods (Statistics) is required. In particular, students should have covered elementary distribution theory and the Poisson Process, and have an elementary knowledge of linear algebra. Students must be prepared to use computer packages when required.

Course content: An introduction to all the main theoretical techniques of Operational Research.

Linear optimisation: from the most basic introduction to sufficient conditions for optimality; duality; sensitivity of the solution; discovery of the solution to small problems by graphical methods, and proof of optimality by testing the sufficient conditions. The transportation problem. Modelling real world problems using linear optimisation.

Various other operational research techniques including: Shortest Paths, Critical Path Analysis, Markov Chains, Stable Matchings, Queueing Theory, Simulation, Inventory Management, Dynamic Programming, Decision Theory, Game Theory.

The course includes an assessed software component. The software used will be "Microsoft Excel" and the add-on packages "LP solve" to solve linear optimisation problems and "@ risk" to perform Monte Carlo simulation.

Full lecture notes are provided.

Teaching: 20 hours of lectures and 20 hours of classes in the MT. 10 hours of lectures, 10 hours of classes and 5 hours of computer workshops in the LT. 2 hours of lectures in the ST.

The computer workshops will be non-compulsory.

Formative coursework: Students will be expected to produce 10 problem sets in the MT and 1 project and 5 problem sets in the LT. The formative coursework comprises weekly problem sets. A mock project will be given, similar in format to the summative project, to be carried out by the same groups that will work on the final project. This is meant as a trial run of the group project, with a similar level of work but with no summative mark.

Indicative reading: Comprehensive lecture notes will be provided. The course content largely follows the following textbook:

- F S160 Hillier, G J160 Liebermann, Introduction to Operations Research, McGraw-Hill Series in Industrial Engineering and Management Science. Any edition from 7th onward.

Further reading includes:

- W L Winston, Operations Research, Duxbury Press (2004).
- W L Winston, S C Albright: Practical Management Science, Cengage Learning. 4th edition or later.
- H P Williams, Model Building in Mathematical Programming, Wiley (2013).

Assessment: Exam (80%, duration: 2 hours and 45 minutes) in the summer exam period.

Case analysis (20%) in the LT.

The group project will consist of a case study developed by the lecturer and presenting a (simplified version of a) real world problem that is amenable to optimisation and simulation techniques that are taught in the course. The students will need to choose the appropriate techniques, develop a mathematical model, implement it using the software taught in the course, and write a report describing the approach and reporting critically the results obtained from the solution of the model.

The group project will be in randomly allocated groups of at most 3, and students will need to submit a teamwork evaluation form to assess whether the workload was fair and balanced.

MA300

Game Theory

This information is for the 2019/20 session.

Teacher responsible: Prof Bernhard Von Stengel and Prof Olivier Gossner

Availability: This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Mathematics and Economics, BSc in Mathematics with

Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: The course emphasises a formal treatment of mathematical Game Theory through definitions, theorems and proofs. Familiarity with a rigorous treatment of mathematics is expected. Basic knowledge of matrices as covered in Mathematical Methods (MA100) or Quantitative Methods (MA107) as well as some knowledge of probability is required

Course content: Concepts and methods of game theory with applications to economics. MA300.1: same as for Game Theory I (MA301). MA300.2: Coalitional game theory - central solution concepts with application: the core, Shapley value, stable sets, weighted majority games, market games, stable matching.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 22 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Lecture slides will be provided, as well as references to selected papers. Further reading: R Gibbons, A Primer in Game Theory, 1992; A Mas-Colell, M Whinston, J Green: Microeconomic Theory; M Osborne, A Rubinstein: A Course in Game Theory; M Maschler, E Solan, S Zamir: Game Theory.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

MA301 Half Unit

Game Theory I

This information is for the 2019/20 session.

Teacher responsible: Prof Bernhard Von Stengel COL 4.12

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business, BSc in Psychological and Behavioural Science and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: The course emphasises a formal treatment of mathematical Game Theory through definitions, theorems and proofs. Familiarity with a rigorous treatment of mathematics is expected. Basic knowledge of matrices as covered in Mathematical Methods (MA100) or Quantitative Methods (MA107) as well as some knowledge of probability is required.

Course content: Concepts and methods of mathematical game theory with some applications to economics. Nim and combinatorial games. Congestion games. Game trees with perfect information. Backward induction. Extensive and strategic (normal) form of a game. Expected utility. Nash equilibrium. Commitment. Zero sum games, mixed strategies, maxmin strategies. Nash equilibria in mixed strategies. Finding mixed-strategy equilibria for two-person games. Extensive games with information sets, behaviour strategies, perfect recall. If time permits: The Nash bargaining solution, multistage bargaining, private-value auctions.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Lecture notes will be provided. Further reading: K Binmore, Playing for Real: Game Theory, CUP, 2007; E Mendelson, Introducing Game Theory and Its Applications, CRC 2004.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA303 Half Unit**Chaos in Dynamical Systems****This information is for the 2019/20 session.****Teacher responsible:** Prof Graham Brightwell**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.**Pre-requisites:** **Mathematical Methods** (MA100) and **Introduction to Abstract Mathematics** (MA103) are pre-requisites. It is highly desirable to have also taken the course **Real Analysis** (MA203).**Course content:** Given a function $f: X \rightarrow X$, what is the (iterative) behaviour of $f^n(x) = f(\dots(f(x)))$ (f applied n times). What do 'orbits' of f look like - an orbit has the form $x, f(x), f(f(x)), \dots$. Particular emphasis is given to long-term evolution and stability analysis of such systems $f: X \rightarrow X$. We explore connections with so-called fractal sets, which are roughly sets that look the same at any degree of magnification, and may have a dimension which is not an integer. We also discuss chaotic maps f , where $f^n(x)$ cannot be determined if there is any small uncertainty about x . Topics covered: Iteration of discrete maps. Orbit analysis. Contraction mapping theorem. Quadratic maps. Bifurcations. Definition of chaos. Sarkovskii's theorem. Fractal sets.**Teaching:** 22 hours of lectures and 10 hours of classes in the LT.**Formative coursework:** Written answers to set problems will be expected on a weekly basis.**Indicative reading:** Full lecture notes will be provided. The following may prove useful, R Devaney, *A First Course in Chaotic Dynamical Systems*; R Devaney, *An Introduction to Chaotic Dynamical Systems*; E Scheinerman, *Invitation to Dynamical Systems*. A fun and interesting read might be Gleick, J., *Chaos: Making a New Science*.**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.**MA314 Half Unit****Algorithms and Programming****This information is for the 2019/20 session.****Teacher responsible:** Prof Konrad Swanepoel**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.**Pre-requisites:** **Introduction to Abstract Mathematics** (MA103), or an equivalent course giving a background in rigorous mathematics.**Course content:** Introduction to theory of algorithms and basics of Python programming. Algorithmic thinking: Do you know how to multiply integers? Basic toolkit for the design and analysis of algorithms, and an in-depth study of sorting algorithms: Running time, Recurrence relations, Big-O notation, Correctness, Finite induction, Loop invariants. Optimal comparison sorts, and sorting in linear time. Tour of the most important data structures, fundamental algorithms, and algorithm design techniques: Lists, Stacks, Queues, Hashing. Breadth-first search, Depth-first search, Prim's algorithm, Dijkstra's algorithm, Maximum Flow. Incremental and recursive algorithms, Divide-and-Conquer, Greedy algorithms. A few highlight applications: Web search and PageRank, cryptocurrencies and Bitcoin.**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the ST.**Formative coursework:** Written answers to set problems will be

expected on a weekly basis.

Indicative reading: T H Cormen, C E Leiserson & R L Rivest, *Introduction to Algorithms*, MIT Press 1990 (or 2nd edn, 2001 or 3rd edn, 2009)**Assessment:** Exam (80%, duration: 2 hours) in the summer exam period.

Coursework (20%) in the MT.

MA315 Half Unit**Algebra and its Applications****This information is for the 2019/20 session.****Teacher responsible:** Prof Martin Anthony**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance.

This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have passed MA103 *Introduction to Abstract Mathematics* and, ideally, have taken MA211 *Algebra and Number Theory*. Students who have not taken MA211 may, in some cases, take the course with the lecturer's permission. (A small amount of additional reading on their part will be required).**Course content:** The aim of the course is to continue the study of abstract algebraic structures and show how these structures can be used to solve concrete problems. There are three strands: Group actions; Rings, polynomials and fields; Applications, including coding and cryptography. Group actions; revision of permutation groups; orbits and stabilizers, the orbit-stabilizer theorem; applications to counting problems. Rings, polynomials and fields: revision of rings; quotient rings; polynomial rings and the Euclidean algorithm for polynomials; irreducible polynomials and factorisation of polynomials. fields; fields as quotients of polynomial rings; construction and properties of finite fields: Applications: Designs and orthogonal latin squares; Error-correcting codes, including linear codes, cyclic codes and perfect codes; cryptography.**Teaching:** 22 hours of lectures and 10 hours of classes in the LT.**Formative coursework:** Written answers to set problems will be expected on a weekly basis.**Indicative reading:** Lecture notes will be provided but additional reading is recommended.Discrete Mathematics, N L Biggs, (specifically Chapters 20-24, together with some introductory material from earlier chapters). *Introduction to Algebra*, Peter J Cameron (OUP 1988); *Rings, Fields and Groups: Introduction to Abstract Algebra*, Reg Allenby (Butterworth-Heinemann, 2nd edition 1991). *Codes and Cryptography*, D J A Welsh (Clarendon Press 1988). *Codes*, N.L. Biggs (Springer, 2008).**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.**MA316 Half Unit****Graph Theory****This information is for the 2019/20 session.****Teacher responsible:** Dr Rachel Kirsch**Availability:** This course is available on the BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics, and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.**Pre-requisites:** MA103 or equivalent course giving a background in rigorous mathematics.**Course content:** This course examines the basic concepts

and techniques of graph theory. The topics to be covered are: fundamental concepts, connectivity and matchings, colourings, extremal problems. Optional topics include flows, Ramsey theory, the probabilistic method, spectral graph theory, or matroids.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 1 hour of lectures in the ST.

Revision Lecture is better received by students in ST

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: D. B. West, *Introduction to Graph Theory*, Prentice Hall 2001. R. Diestel, *Graph Theory*, Springer 2010. N. L. Biggs, *Discrete Mathematics*, OUP 2004. J.A. Bondy and U.S.R. Murty, *Graph Theory with Applications*, North-Holland, 1976. B. Bollobas, *Modern Graph Theory*, Springer 1998.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA317 Half Unit

Complex Analysis

This information is for the 2019/20 session.

Teacher responsible: Prof Amol Sasane

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Solid grounding in mathematics, especially analysis, in particular MA203 Real Analysis.

Course content: The course will cover the fundamental concepts and methods in complex analysis. The basic objects of study in the course will be complex differentiable functions in domains, and the far-reaching consequences of the notion complex differentiability will be dealt with in the course. The specific topics that will be covered are: the geometry of complex numbers, complex differentiation, Cauchy-Riemann equations, Cauchy's integral theorem and its consequences, Taylor and Laurent series, and harmonic functions. The core results will be illustrated with computational examples and applications.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: (1) S.D. Fisher. *Complex Variables*. Corrected reprint of the second (1990) edition, Dover Publications, Inc., Mineola, NY, 1999.

(2) J.E. Marsden and M.J. Hoffman. *Basic Complex Analysis*. Second edition, W. H. Freeman and Company, New York, 1987.

(3) D.O. Tall. *Functions of a Complex Variable*. Routledge and Kegan Paul, London, 1985

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA318 Half Unit

History of Mathematics in Finance and Economics

This information is for the 2019/20 session.

Teacher responsible: Prof Jan van den Heuvel

Additional teachers: Prof June Barrow-Green, Prof Norman Biggs and Prof Robin Wilson

Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside

option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100).

General Course students may substitute an equivalent course.

Course content: This course surveys the development of mathematics from the beginning of history with an emphasis on its applications to finance and economics. Major themes are the development of arithmetic and geometry, the use of algebraic symbolism, the creation of the calculus, geometry, probability, and game theory. In order to give this course a distinctive flavour, we will illustrate these themes with examples taken from the social sciences, broadly interpreted. For example, the algorithms of arithmetic will be illustrated by their applications in finance, rather than astronomy.

Teaching: 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students are expected to submit written work on a weekly basis. One of these assignments will be a short essay of 900-1100 words.

Indicative reading: The course is based on source material which will be distributed to students as hard copy. J. Stedall's 'History of Mathematics: A Very Short Introduction' (Oxford 2011) is recommended for background reading.

Assessment: Exam (70%, duration: 2 hours, reading time: 5 minutes) in the summer exam period.

Essay (30%, 1500 words) in the ST Week 1.

MA319 Half Unit

Partial Differential Equations

This information is for the 2019/20 session.

Teacher responsible: Prof Amol Sasane

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance.

This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Further Mathematical Methods (MA212) and Real Analysis (MA203).

Course content: The aim of the course is the study of partial differential equations. The focus will be on first order quasilinear equations, and second order linear equations. The method of characteristics for solving first order quasilinear equations will be discussed. The three main types of linear second order partial differential equations will be considered: parabolic (diffusion equation), elliptic (Laplace equation), and hyperbolic (wave equation). Techniques for solving these for various initial and boundary value problems on bounded and unbounded domains, using eigenfunction expansions (separation of variables, and elementary Fourier series), and integral transform methods (Fourier and Laplace transforms) will be treated. Elementary distributional calculus and the notion of weak solutions will also be considered. Applications and examples, such as the solution technique for Black-Scholes option pricing, will be discussed throughout the course.

Teaching: 22 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 10 problem sets in the LT.

Written answers to set problems will be expected on a weekly basis.

Indicative reading: 1 S.J. Farlow. *Partial Differential Equations for Scientists and Engineers*. Dover, 1993. 2 J.D. Logan. *Applied Partial Differential Equations*. Second Edition. Springer, 2004. 3 W. Strauss. *Partial Differential Equations. An Introduction*. Second Edition. John Wiley, 2008. Lecture notes will be provided.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA320 Half Unit**Mathematics of Networks**

This information is for the 2019/20 session.

Teacher responsible: Prof Andrew Lewis-Pye

Availability: This course is available on the BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100) and Introduction to Abstract Mathematics (MA103).

Course content: Globalisation and the growth of the internet have meant not only an increasing need to understand the way in which social and communication networks form and operate, but also an unprecedented amount of data available to aid in this analysis. The last decade has seen a coming together of multiple scientific disciplines in an effort to understand how these highly connected systems function. The aim of this course will be to give an introduction to the study of networks, requiring as little background knowledge as possible. The course will begin with an analysis of some of the fundamental properties normally observed in real world networks, such as the small world property, high degrees of clustering and power law degree distributions. After reviewing required notions from game theory, we shall then apply these techniques to an analysis of the spread of behavioural change on networks, together with cascading effects and epidemic models. The final part of the course will be concerned with specific applications to the world wide web and page ranking.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 2 hours of lectures in the ST.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: (1) D. Easley, J. Kleinberg. Networks, crowds and markets, Cambridge University Press, 2010.

(2) M. Newman. Networks: An Introduction, Oxford University Press, 2010.

(3) The Rise of the Network Society, The Information Age: Economy, Society and Culture, 2010 edition, Manuel Castells.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA321 Half Unit**Measure Theoretic Probability**

This information is for the 2019/20 session.

Teacher responsible: Dr Pavel Gapeev COL 4.10

Availability: This course is available on the BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Real Analysis (MA203).

Course content: This is a first course in measure-theoretic probability. It covers the following topics. Abstract probability spaces: sample spaces, sigma-algebras, probability measures, examples. Borel sigma-algebra, Lebesgue measure. Random variables: distribution functions, discrete and absolutely continuous distributions, examples. Expectation and the Lebesgue integral: convergence theorems and properties. Different modes of convergence of random variables. Conditional expectation: definition, properties, examples. Changes of probability measure, Bayes' theorem.

Teaching: 20 hours of lectures and 10 hours of classes in the MT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Comprehensive lecture notes will be provided.

The following books may prove useful:

D Williams, Probability with Martingales. J. Jacod & P.

Protter, Probability Essentials; A. Klenke Probability Theory. A Comprehensive Course

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MA322 Half Unit**Mathematics of Finance and Valuation**

This information is for the 2019/20 session.

Teacher responsible: Dr Albina Danilova COL.4.09

Availability: This course is available on the BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Measure Theoretic Probability (MA321).

Course content: This course provides mathematical tools of stochastic calculus and develops the Black-Scholes theory of financial markets. It covers the following topics. Continuous-time stochastic processes, filtrations, stopping times, martingales, examples. Brownian motion and its properties. Construction of the Ito integral: simple integrands, Ito's isometry. Ito processes, Ito's formula, stochastic differential equations, Girsanov's theorem. Black-Scholes model: self-financing portfolios, risk neutral measure, risk neutral valuation of European contingent claims, Black-Scholes formula, Black-Scholes PDE, the Greeks. PDE techniques for derivative pricing. Implied volatility, basic ideas of calibration.

Teaching: 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Lecture notes will be provided.

The following books may be useful. T. Bjork, Arbitrage Theory in Continuous Time, Oxford Finance, 2004; A. Etheridge, A Course in Financial Calculus, CUP, 2002; M Baxter & A Rennie, Financial Calculus, CUP, 1996; P. Wilmott, S. Howison & J. Dewynne, The Mathematics of Financial Derivatives, CUP, 1995; J Hull, Options, Futures and Other Derivatives, 6th edition, Prentice-Hall, 2005. D. Lamberton & B. Lapeyre, Introduction to stochastic calculus applied to finance, 2nd edition, Chapman & Hall, 2008. S. E. Shreve, Stochastic Calculus for Finance. Volume I: The Binomial Asset Pricing Model. Springer, New York, 2004. S. E. Shreve, Stochastic Calculus for Finance. Volume II: Continuous-Time Models. Springer, New York, 2004.

Assessment: Exam (100%, duration: 2 hours).

MA323 Half Unit**Computational Methods in Financial Mathematics**

This information is for the 2019/20 session.

Teacher responsible: Dr Luitgard Veraart COL 4.11

Availability: This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is not available as an outside option. This course is available with permission to General Course students.

Pre-requisites: Students must have completed Introduction to Pricing, Hedging and Optimization (ST213) and Programming in C++ (MA332).

Course content: Random number generation; the fundamentals of Monte Carlo (MC) simulation; variance reduction techniques for MC simulation and related issues; numerical solutions to stochastic differential equations by means of MC simulation and

their implementation; finite-difference schemes for the solution of partial differential equations arising in finance.

Teaching: 22 hours of lectures, 5 hours of classes and 10 hours of computer workshops in the LT.

Formative coursework: Students will be expected to produce 5 problem sets and 5 other pieces of coursework in the LT.

Indicative reading: P. Glasserman, Monte Carlo Methods in Financial Engineering, Springer; R.U. Seydel, Tools for Computational Finance, Springer; D.M. Capper, Introducing C++ for Scientists, Engineers and Mathematicians, Springer. M. J. Capinski, T. Zastawniak, Numerical Methods in Finance with C++, Cambridge University Press; M. S. Joshi, C++ Design Patterns and Derivatives Pricing, Cambridge University Press; S.M. Ross, Simulation, Academic Press (5th edition).

Assessment: Exam (75%, duration: 2 hours). Project (25%) in the ST.

The project will be a computational project.

MA332

Programming in C++

This information is for the 2019/20 session.

Teacher responsible: Ms Chhaya Trehan COL 3.16

Availability: This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

For students who want to take this course as an additional outside option, they will need to apply for a place between 9am on 24 September 2019 and 12pm on 26 September 2019 using the following form (please cut and paste the link into your browser):

https://lse.eu.qualtrics.com/jfe/form/SV_cSEOsLQp8ULelpn

Students on the BSc Financial Mathematics and Statistics will be enrolled automatically and should not fill the form.

Pre-requisites: Students must have completed Mathematical Methods (MA100).

Course content: This course is an introduction to programming with the C++ programming language. We will cover the lexical basis of C++, fundamental types and basic operators, control structures, functions, pointers and arrays, dynamic memory management, classes, data hiding, constructors and destructors, operator overloading, single inheritance, templates, standard library, exception handling, input and output.

Teaching: 10 hours of lectures and 20 hours of computer workshops in the MT.

Formative coursework: Students will work through worksheets provided in the computer workshops.

Indicative reading: D.M. Capper, Introducing C++ for Scientists, Engineers and Mathematicians, Springer.

B. Stroustrup, The C++ Programming Language, Addison Wesley.

MG104 Half Unit

Operations Management

This information is for the 2019/20 session.

Teacher responsible: Dr David Newton

Availability: This course is compulsory on the BSc in Management. This course is available on the BSc in Accounting and Finance, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None

Course content: This course provides students with an understanding of the drivers of organisational performance, conditional on a strategic objective. Aspects of Operations Management studied include process flow analysis, inventory

management, assembly line balancing; supply chain management; quality management and scheduling.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: One formative essay of 2000 words will be set in the Michaelmas Term.

Indicative reading:

- Operations and Supply Chain Management, Jacobs and Chase.
- Strategy and Sustainability:160Whelan, Tensie, and Carly Fink. "The comprehensive business case for sustainability." Harvard Business Review, (October 2016), n. pag.
- Capacity Management:160Pullman, Madeleine, and Svetlana Rodgers. "Capacity management for hospitality and tourism: A review of current approaches." International Journal of Hospitality Management 29 (2010), 177-187.
- Process Analysis: Amorim, Marlene, Philip Moscoso, and Alejandro Lago. "Customer participation in services: A framework for process design." International Journal of Qualitative Research in Services 2, 1 (2010), 47-61.
- Manufacturing Processes:160D'Aveni, Richard. "The 3-D printing revolution." Harvard Business Review, May (2015), 40-48.
- Service Processes:160Frei, Frances X. "Breaking the trade-off between efficiency and service." Harvard Business Review 84, 11 (November 2015), 92-101.
- Six-sigma Quality:160Schroeder, Roger G., Kevin Linderman, Charles Liedtke, and Adrian S. Choo. "Six sigma: Definition and underlying theory." Journal of Operations Management 26 (2008),160536-554.
- Project Management:160Browning, Tyson R. and Ranga V. Ramasesh. "Reducing unwelcome surprises in project management." MIT Sloan Management Review, (Spring 2015), 53-62.
- Lean Supply Chains:160Bruce, Margaret, Lucy Daly, and Neil Towers. "Lean or agile: A solution for supply chain management in the textiles and clothing industry?" International Journal of Operations and Production Management 24, 2 (2004), 151-170.

Assessment: Project (100%, 3000 words) in the LT.

The project will be split into three parts:

1. A group project plan (10%)
2. The main group project submission (70%)
3. An individual self-reflective essay (20%)

Students will be randomly assigned to four-person groups for the summative assessment project.

MG105 Half Unit

Organisational Behaviour and Leadership

This information is for the 2019/20 session.

Teacher responsible: Dr Connson Locke

Availability: This course is compulsory on the BSc in Management. This course is available on the BSc in Accounting and Finance, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None

Course content: This course introduces students to social science theories, research and application related to understanding human behaviour in the workplace. That is, this course is about the people side of business and management. Each week focuses on a different topic investigating individual, group, and organisational issues. Organisational behaviour topics include: personality and performance, managerial decision-making, motivating others, fairness in organisations, and the multicultural workplace. When studying theories of leadership, the course examines: power and influence, the adaptive leader, leadership development, and team leadership.

Teaching: 15 hours of lectures and 9 hours of classes in the LT. 1 hour of classes in the ST.

The Summer Term teaching will be review sessions. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce one essay in the LT.

Indicative reading: Colquitt, J.A., LePine, J.A., & Wesson, M.J. (2009) *Organizational Behavior: Improving Performance and Commitment in the Workplace* (International edition). Yukl, G. (2009). *Leadership in Organizations*. (7th ed.). Englewood Cliffs, NJ: Prentice Hall.

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Essay (30%, 2000 words) and class participation (10%) in the LT. The class participation will be based on in-class presentation and oral representation of weekly reading summaries.

MG205

Econometrics: Theory and Applications

This information is for the 2019/20 session.

Teacher responsible: Dr Jordi Blanes i Vidal

Availability: This course is compulsory on the BSc in Management. This course is available on the BSc in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Quantitative Methods (Mathematics) (MA107) or equivalent and Quantitative Methods (Statistics) (ST107) or equivalent

Course content: Simple and Multiple Regression; Hypothesis Testing; Mechanics and Limitations of OLS; Causality; Natural, Field and Laboratory Experiments. Panel Data and Fixed Effect Models. Instrumental Variables Regression.

The main aim of this course is to provide a thorough understanding of the quantitative techniques which guide evidence-based managerial decision-making. It seeks to develop a framework in which students can examine whether the predictions of managerial, social or economic theory are supported by empirical evidence. Particular emphasis is made on (a) illustrating the many ways in which evidence is abused in the academic or managerial debate, and (b) trying to establish causality in the relationship between variables. The approach is both formal, as the course makes extensive use of econometric theorems and techniques, and solidly grounded in intuition, as it provides numerous examples of tests of real-life relations. Many of these examples will be illustrated using the STATA software package, and the students will be expected to learn the basics of data manipulation and regression running. A solid base of introductory statistics and probability (equivalent to that provided by ST107) and introductory algebra and calculus (equivalent to that provided by MA107) will be expected.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 problem sets in the MT and 1 problem sets in the LT. There will be one formative assessment each term.

Indicative reading: The textbook for the course is:

- James H. Stock and Mark W. Watson, *Introduction to Econometrics*, Second Edition, Pearson, 2007.

Two other very useful (complementary) books are:

- Christopher Dougherty, *Introduction to Econometrics*, Third Edition, Oxford University Press, 2007;
- Jeffrey M. Wooldridge, *Introductory Econometrics - A Modern Approach*, Third Edition, South-Western, 2006.

Assessment: Exam (70%, duration: 3 hours) in the summer exam period.

Continuous assessment (30%) in the MT and LT.

The continuous assessment will consist of four in-lecture assessments, in Weeks 5 and 11 of MT and LT. Each assessment will consist of four questions and will last 40 minutes.

For the continuous assessment students are required to attempt at least 3 out of 4 in-lecture assessments. Students who attempt all four (4 out of 4) will achieve a mark based on their three highest scores. Students who attempt three in-lecture assessments (3 out of 4) will receive a mark based on the scores in these assessments. Students who attempt less than three in-lecture assessments will receive a mark of 0 for each missed assessment and will receive an overall mark based on their scores in the best three assessments, including any zeroes. Students who fail to attempt any in-lecture assessments (0 out of 4), will be awarded a Zero Incomplete for the whole course and cannot be awarded the degree until they submit the work at resit.

MG206 Half Unit

Firms, Management and Competitive Advantage

This information is for the 2019/20 session.

Teacher responsible: Mr Nilesh Dattani NAB5.02

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, BSc in Statistics with Finance, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed EC100 OR EC102 OR equivalent.

Course content: This is not a course on corporate strategy. It focuses on the evolution of thinking about firms and the activity of management and examines firm advantages through conceptual ideas and empirical knowledge. There will be an emphasis on analysing firms as reservoirs of resources and capabilities and topics to be covered will include distinctive capabilities of firms, organisational design, decision making in firms, organisational routines, managerial leadership and the role of ethics. Particular attention will be given to firms in technology-based industries and the management of innovation and contrasts will be made with public sector management.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are expected to produce one piece of written work and to do the weekly class exercises

Indicative reading: A reading list will be available to students taking the course.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG207

Managerial Economics

This information is for the 2019/20 session.

Teacher responsible: Dr Catherine Thomas NAB 5.27

Availability: This course is compulsory on the BSc in Management. This course is available on the BSc in Business Mathematics and Statistics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Economics A (EC100) or Economics B (EC102) or equivalent is a pre-requisite. This course cannot be combined with Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202).

Course content: The objective of the course is to provide

students with insights from economic theory which are relevant to applications in managerial decision making. The emphasis is on applying microeconomics ideas to solve problems. Topics covered include consumer theory, production, applications to the labour market, market structure, monopoly, oligopoly, product differentiation, pricing, game theory, decision analysis, bargaining, auctions, and asymmetric information.

Teaching: 20 hours of lectures and 8 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students are expected to prepare answers to set problems on a weekly basis. Some of this work will be assessed. Assiduous preparation for the weekly tutorials is essential to achieve a good exam performance.

Indicative reading: No textbook covers the whole course but Hal R Varian, *Intermediate Microeconomics with Calculus* (International Student Edition) is the best text book to use for the course. In addition students are advised to refer to T C Bergstrom & H R Varian, *Workouts in Intermediate Microeconomics* (1990), which contains practice problems.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

MG209 Half Unit

E-business

This information is for the 2019/20 session.

Teacher responsible: Dr Antonio Cordella NAB 3.30

Availability: This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course presents an analysis of the management, economics and information systems theories and practices in online business. This is a management information systems course and not a technical course. It is mainly directed at undergraduate students. It focuses on the study of the impact of digital technologies on business strategies and market configurations. Internet-based systems offer new means to operate businesses and to compete in the global marketplace and it is important for future executives and entrepreneurs to understand the economic and managerial implications of these transformations. Students will gain a good understanding of why and how successful companies are taking advantage of e-business, as well as an understanding of the main challenges and risks associated with different e-business models and strategies in a fast changing technological and business environment.

The course is structured into four main sections:

1. Strategic, technological, and economic foundations of e-business
2. E-business and its configurations: B2C and B2B
3. E-business: strategic and organisational challenges
4. Implementation of e-business strategies'

Teaching: 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

A 2 hour revision session will be offered in the summer terms.

Students will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will complete a formative assessment based on previous exam questions.

Each student will receive feedback on the approach to the question, the structure of the presentation, and the argumentation they have proposed to discuss the assigned question.

Aim of the formative work is to offer students the opportunity to self-evaluate their understanding of the subject, to test their preparation, to help them better understand what are the criteria

of assessment, and to help them to better identify what is need to achieve the desiderated outcomes.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG210 Half Unit

Corporate Social Responsibility and International Labour Standards

This information is for the 2019/20 session.

Teacher responsible: Prof Sarah Ashwin NAB 4.19

Availability: This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Any social science background

Course content: Corporate Social Responsibility (CSR) is becoming an expected element of corporate strategy. This course critically evaluates CSR, focusing on firms' attempts to prevent labour standards violations in their supply chains. We begin by analysing the rise of CSR, setting it in the context of global value chains, international labour standards, and emerging private forms of regulation. We then analyse topics such as: the impact of CSR on corporate financial performance; whether CSR is an effective means of raising labour standards; theories of CSR; how to embed CSR within the firm and comparative CSR. The course includes plenty of examples of how large firms are dealing with the ethical challenges posed by global supply chains. The course

is interdisciplinary, and students are encouraged to bring insights from their "home" discipline so that seminars become a mutual learning experience. The course will include one lecture from a CSR professional.

Teaching: 10 hours of lectures and 15 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Indicative reading: Locke, R. (2013) *The Promise and Limits of Private Power: Promoting Labor Standards in a Global Economy*, Cambridge: Cambridge University Press. Vogel, D. (2005) *The Market For Virtue: The Potential and Limits of Corporate Social Responsibility*, Washington D.C.: Brookings Institution Press. Crane, A. et al. (2008) *The Oxford Handbook of Corporate Social Responsibility*, Oxford: OUP. Elliot, K.A. and Freeman, R. (2003) *Can Labor Standards Improve Under Globalization?*, Washington D.C.: Peterson Institute for International Economics.

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.
Essay (40%, 2000 words) in the ST.

MG212 Half Unit Marketing

This information is for the 2019/20 session.

Teacher responsible: Dr Omar Merlo

Availability: This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course will cover customer behaviour; segmentation, targeting and positioning; product management and diffusion; pricing, placement and promotion; and marketing relationships.

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: A formative assignment will be set consisting of one mock exam question. The purpose of the mock exam is to provide - as realistically as possible - a practise session for the final exam.

Indicative reading: Indicative readings:

Kotler, P. and Armstrong, G. (2010) *Principles of Marketing*, Pearson, New Jersey. Kotler and Keller (2009) *Marketing Management*, Pearson PrenticeHall. Lambin, J-J, Chumpitaz, R. and Schuiling, S. (2007) *Market Driven Management: Strategic and Operational Marketing*, Palgrave Macmillan.

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Project (40%).

The summative coursework will be a group project. Students will have the opportunity to form their own project groups within their allocated class, but the course teaching team will retain the right to make changes to group membership where necessary.

MG213 Half Unit Information Systems

This information is for the 2019/20 session.

Teacher responsible: Dr William Venters

Availability: This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General

Course students.

Course content: The course will cover the role of data, information and knowledge within management; the evolution of digital management practices; digital business strategy; information systems development and organisational change; big-data; information systems outsourcing; and IT infrastructure including cloud computing, Artificial Intelligence, automation and digital infrastructures.

Teaching: 20 hours of lectures and 9 hours of classes in the LT. 2 hours of lectures and 1 hour of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: A formative assignment will be set consisting of one mock exam question. The purpose of the mock exam is to provide - as realistically as possible - a practise session for the final exam.

Indicative reading: Indicative readings:

Beynon-davies, P. (2013). *Business Information Systems*, Palgrave, London. Galliers, R. and Leidner, D. (2009) *Strategic Information Management*. Routledge, London. Laudon, K and Laudon, J (2013) *Management Information Systems*, Pearson, London.

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Project (40%).

The summative coursework will be a group project. Students will have the opportunity to form their own project groups within their allocated class, but the course teaching team will retain the right to make changes to group membership where necessary.

MG214 Half Unit Human Resource Management

This information is for the 2019/20 session.

Teacher responsible: Jeffrey Thomas

Availability: This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Organisational Behaviour and Leadership (MG105) or equivalent.

Course content: This course is designed to provide insights into Human Resource Management, especially in a way that appeals to students of management who are quite international in their orientation. After setting the global scene of labour markets, Human Resources and organisational change in the twenty-first century, it then proceeds to look at the management of people in different national contexts. The focus then shifts down to the employment relationship – why firms hire workers and how they strategically manage them. Once workers are hired as employees, we begin to explore how the latter might be motivated and rewarded, and how the design of policies varies across organisations of different types. To help us with this, we usefully draw on key ideas and models from the field of organisational studies that are also a prelude to thinking through the implications for HRM in environments where innovation and technology are prone to rapid change. This then allows us to gain an overview of the potential contribution that HRM can make to the dynamic capabilities of firms generally.

Topic outline

1. Motivation and incentives (theories from Economics and Psychology)
2. The macro-context (enterprise governance, employer networks, skill and training, and employment relations)
3. Stakeholders in firms and employee management (Corporate Social Responsibility and HR)
4. Cross-cultural management of employees: the complexities and opportunities
5. Firm strategy and international HR alignment
6. Identification of talent gap and solutions (expatriation and

repatriation)

7. Global Talent Management (selection, training and development, performance appraisal and management, compensation)

8.. Managing HR in cross-border alliances, in particular international Mergers and Acquisitions and Joint Ventures

9. Negotiations in relation to human resource management

Teaching: 15 hours of lectures and 13 hours and 30 minutes of classes in the MT. 1 hour and 30 minutes of lectures and 1 hour and 30 minutes of classes in the ST.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: A formative assignment will be set consisting of one mock exam question. The purpose of the mock exam is to provide - as realistically as possible - a practise session for the final exam.

Indicative reading: Caligiuri, P. M. (2006). Chapter 9 Performance management in a cross-national context. In Bennett, W., Jr., Lance, C., & Woehr, D. (Eds.). *Performance measurement: Current perspectives and future challenges*. Mahwah, NJ: Erlbaum.
Cappelli, P. (2015). *Why We Hate HR and What HR Can Do About It*. Harvard Business Review, July – August.
Giangreco, A., Sebastiano, A., & Peccei, R. (2009). Trainees' reactions to training: an analysis of the factors affecting overall satisfaction with training. *The International Journal of Human Resource Management*, 20(1), 96-111.
Randall S Schuler, Ibraiz Tarique, Susan E Jackson (2004), *Managing Human Resources in Cross-Border Alliances*, in (ed.) 3 (*Advances in Mergers & Acquisitions*, Volume 3), Emerald Group Publishing Limited, pp.103-129.
Briscoe, D., Schuler, Randall S, & Tarique, Ibraiz. (2016). Chapter 6 International Employment Law, Labor Standards, and Ethics. In (Eds.) *International human resource management: Policies and practices for multinational enterprises* (5th ed.). New York, NY: Routledge.
Brown, M. P., Sturnam, M. C., & Simmering, M. J. (2003). Compensation Policy and Organizational Performance: The Efficiency, Operational, and Financial Implications of Pay Levels and Pay Structure. *The Academy of Management Journal*, 46, 752-762.
Lewicki, R.J., Barry, B. and Saunders, D.M.2010. *Negotiation*. New York: McGraw-Hill. Chapter 1 –The Nature of Negotiation, pp. 1-31. The course also draws on additional articles from a variety of international journals in the field e.g. *The International Journal of Human Resource Management*, *British Journal of Industrial Relations*, *Harvard Business Review*. Students will also analyse multiple cases from Insead and Harvard Business Publishing.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Project (30%), presentation (10%) and class participation (10%) in the MT.

The project and presentation will be group work. Students will have the opportunity to form their own project groups within their allocated class, but the course teaching team will retain the right to make changes to group membership where necessary. Peer review will be conducted and will provide context for the marker of the group projects, while allowing students to develop the skills of peer review.

The class participation grade will be assessed upon the quality of the student's contribution to class discussions.

MG301

Strategy

This information is for the 2019/20 session.

Teacher responsible: Dr Ricardo Alonso NAB 5.31

Availability: This course is compulsory on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Students should have completed Economics A (EC100) or Economics B (EC102) or equivalent, Quantitative Methods (Mathematics) (MA107) or equivalent and Quantitative Methods (Statistics) (ST107) or equivalent, and Economics for

Management (MG207) or Microeconomic Principles I (EC201) or equivalent.

Course content: The first half of the course studies how firms compete with each other. More specifically, we will study strategic situations (competition and rivalry, competitive advantage (sources and sustainability), entry and entry deterrence, product differentiation, the role of information in markets, etc.) and formulate decision models of these situations. While the modelling and predictions are based on game theory, we will contrast our findings to real life games according to the growing empirical evidence.

The second half of the course studies how firms organize and the challenges they face in doing so. More specifically, we study the way managers interact with the different constituencies inside the firm- workers, board members, and other managers- and how those interactions shape the actual design of organizations. It presents, again with a heavy emphasis on the evidence, how the need to motivate organizational members and to coordinate their actions shape the provision of incentives, the allocation of authority, the ownership structure, acquisition and diffusion of knowledge, and patterns of communication.

Beyond the emphasis on the content of the course, the course also aims to be a course where students learn to think critically and analytically. Students will learn to identify trade-offs in how firms behave and the way they organize themselves, and critically evaluate the sources of those trade-offs by appealing to simple models of individual behaviors. Students will learn to read the primary literature, discuss papers in class, interpret the evidence etc. Students will learn to ask questions such as: What is the evidence? What evidence would convince me of the opposite hypothesis?

Teaching: 20 hours of lectures and 9 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT. 2 hours of lectures in the ST.

There will be a reading week in Week 6 in line with departmental policy.

Formative coursework: Formative work such as problem sets and mock exam questions will be set.

Indicative reading: The basic readings for the course will be the lecture notes written by Dr. Alonso. These lecture notes can be complemented with the following additional readings:

- *Thinking Strategically: Competitive Edge in Business, Politics and Everyday Life*, WW Norton, 1993, by Avinash Dixit and Barry Nalebuff
- *The Art of Strategy*, WW Norton, 2008, by Avinash Dixit and Barry Nalebuff.
- *Games of Strategy* (WW Norton, 3rd edition, 2009) by Avinash Dixit, Susan Skeath and David Reiley.
- *Economics of Strategy* (5th Edition) David Besanko, David Dranove, Mark Shanley, Scott Schaefer. (2009)
- *An Introduction to Game Theory* (Oxford, 2003) by Martin J. Osborne
- *Strategic Management*, Garth Saloner, Andrea Shepard and Joel Podoldny, Wiley, 2000
- *The Modern Firm: Organizational Design for Performance and Growth*, John Roberts 2007.
- *Build, Borrow, or Buy: Solving the Growth Dilemma* (Harvard Business Press 2012) Laurence Capron and Will Mitchell

Assessment: Exam (60%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Continuous assessment (30%).

Group project (10%) in the LT.

For the project students will be required to work in groups.

4 in-lecture multiple choice quizzes (weeks 5 and 11 of the MT and weeks 15 and 21 of the LT)

For the continuous assessment students are required to attempt at least 3 out of 4 in-lecture assessments. Students who attempt all four (4 out of 4) will achieve a mark based on their three highest scores. Students who attempt three in-lecture assessments (3 out of 4) will receive a mark based on the scores in these assessments. Students who attempt less than three in-lecture assessments will receive a mark of 0 for each missed assessment

and will receive an overall mark based on their scores in the best three assessments, including any zeroes. Students who fail to attempt any in-lecture assessments (0 out of 4), will be awarded a Zero Incomplete for the whole course and cannot be awarded the degree until they submit the work at resit.

MG302 Half Unit

Topics in Management Research

This information is for the 2019/20 session.

Teacher responsible: Prof Diane Reyniers NAB 5.22

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Third year only.

Course content: This course addresses various interesting topics which will be used to encourage creative and logical thinking, structuring of clear arguments and critical assessment of evidence. The focus is on interpretation of findings rather than statistical or econometric techniques.

The intellectual backbone of the course is applied and empirical economics (including behavioural economics) and finance but wherever appropriate contributions from the psychology, sociology and management literature will be discussed. We will mainly deal with issues which are amenable to rigorous empirical investigation. The course is designed around a set of empirical research papers. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether people overvalue their own ideas.

The main objective of the course is to enable students to comprehend and critically assess the management literature,, to evaluate statements in terms of evidence and to detect false reasoning or logic.

Topics vary each year (based on student feedback) but examples are racial discrimination, negotiation and gender, graduate earnings, leadership, hiring.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 2 hours of classes in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Two take-home mock exam papers.

Indicative reading: A reading list will be available on Moodle.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

MG303 Half Unit

International Business Strategy and Emerging Markets

This information is for the 2019/20 session.

Teacher responsible: Prof Saul Estrin NAB 4.32 and Dr Christine Cote NAB 4.05

Availability: This course is available on the BSc in Accounting and Finance, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with MG307.

Pre-requisites: All students, including BSc Management students, must be in their 3rd year and should have taken Economics A (EC100) or Economics B (EC102), or equivalent.

Course content: This course analyses the emergence of firms which operate on a global scale and their current and likely future interactions with emerging markets. It will combine the

development of conceptual frameworks primarily through the lectures with the analysis of key cases in the classes.

Multinational firms have been an increasingly significant aspect of the corporate environment in developed countries since the 1960s, and are responsible for a high proportion of global output, exports and investment, as well as the bulk of foreign direct investment. In the past few decades their activities have been increasingly focused on developing economies, notably those which have liberalised and entered a more rapid growth phase. These economies, emerging markets, include some important world economies including China, India, transition economies such as Russia, and Latin American countries such as Brazil and Argentina. The "new institutional economics" has recently developed as a field to understand the impact of variation in institutions on economies' performance.

This course will focus on how the institutional characteristics of emerging markets affect the choices and behaviour of multinational firms, now and into the future. We commence with the basic framework of analysis of the behaviour of multinational enterprises (MNEs), outlining models of the MNE which draw on transaction cost economics, the eclectic OLI paradigm of Dunning, and more recent concepts such as the resource based view. We will provide an analysis of economic performance and growth in emerging markets building on the new institutional economics and working with a large variety of datasets and sources. The course will then turn to key topics. These will include the interaction between international trade and investment in the internationalisation choices of MNEs; the emergence of global supply chains; the determinants of FDI; the effects of FDI on the host economy; entry mode choices; measures of institutional and cultural distance; and the growing importance of multinationals from emerging markets.

Students will work with case material as well as the required reading, and the group project will comprise a case write up, which will be presented prior to submission in class for comment and discussion.

Teaching: 30 hours of seminars in the LT.

The seminars will be combined seminars and lectures. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be required to present their group projects in class. Feedback will be given for the first presentation which can be used as guidance for the remaining presentations.

Indicative reading: R. Caves, *Multinational Enterprise and Economic Analysis*, 2nd Edition, Cambridge University Press 1996; P. Ghemawat, *Redefining Global Strategy*, Harvard Business School Press, 2007; J. Williamson, "The New Institutional Economics", *Journal of Economic Literature*, 2000; Estrin et. al., "Entry Mode in Emerging Markets", *Strategic Management Journal*, 2009; T. Khanna and K Palepu, "The Future of Business Groups in Emerging Markets", *Academy of Management Journal* 2004.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Project (40%) and class participation (10%) in the LT.

LT coursework will be a group project which will consist of group presentations throughout the LT.

MG305 Half Unit

Innovation and Technology Management

This information is for the 2019/20 session.

Teacher responsible: Dr Jonathan Liebenau NAB 5.20

Availability: This course is available on the BSc in Accounting and Finance, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The main focus of this course is on how innovative technologies are managed and their consequences. It

includes technological innovation in areas such as telecoms, hi tech industries, pharmaceuticals, biotechnology, space technology, financial technologies. Aspects covered are how new industries are created, how existing industries can be transformed by new technologies, linkages between technological development and the creation of wealth, and implementation success and failure of technological systems. Topics include: technology and entrepreneurship, technology strategy, R&D management, patents and intellectual property, disruptive, radical and incremental innovation, technology policy. Economic, systems, managerial and sociological approaches will be compared using a variety of case studies.

Teaching: 15 hours of lectures and 15 hours of classes in the MT. Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Classes are based around reading and discussing selected journal articles and case studies from the course study pack on Moodle. Formative feedback is provided on class participation.

In addition, students will present an essay plan in preparation for the final case-based essay, on which formative feedback will be provided.

Indicative reading: J Howells, *The Management of Innovation and Technology*, Sage, 2005; J Fagerberg, D.C. Mowery, and R.R. Nelson (Eds.), *The Oxford handbook of innovation* (Series Oxford Handbooks in Business and Management), Oxford University Press, 2006; D MacKenzie, *Knowing Machines: Essays on Technical Change*, MIT Press, 1998; M Bauer (Ed), *Resistance to New Technology: Nuclear Power Information Technology and Biotechnology*, CUP 1995; M Biagioli (Ed), *The Science Studies Reader*, Routledge, 1999; H Collins & T Pinch, *The Golem at Large: What you should know about technology*, Cambridge University Press, 1998; D Mowery & N Rosenberg, *Paths of Innovation: technological change in 20th century America*, Cambridge University Press, 1998; J McLaughlin, P Rosen, D Skinner & A Webster, *Valuing Technology: organisations, culture and change*, Routledge, London and New York, 1999;

Assessment: Exam (40%, duration: 2 hours) in the summer exam period.

Essay (50%, 5000 words) in January.

In class assessment (10%).

MG308 Half Unit

Simulation Modelling and Analysis

This information is for the 2019/20 session.

Teacher responsible: Dr Alicia Mejia-Salazar

Availability: This course is available on the BSc in Management, BSc in Statistics with Finance, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Elementary statistical concepts and experience of standard computer software is assumed.

Course content: The main characteristic of this course is that it is a hands-on course and of an extremely practical nature. Research shows that 90% of the largest organisations both in Europe and the USA use the techniques taught here to monitor their operations and especially in risk management. The aim of the course is to introduce students to the concepts, techniques and applied aspects of the development and analysis of simulation models. The course will cover two main approaches for modelling problems bound by uncertainty (stochastic behaviour): Monte-Carlo Simulation (static problems) and Discrete Event Simulation (dynamic problems). Topics covered will include: types of uncertainty; types of simulation modelling; sampling methods; the simulation process; structuring problems for simulation; running simulation models; analysing simulation outputs; risk analysis using simulated models; testing and validating simulation models; applications of simulation. Excel modelling is an integral part of

Monte Carlo simulation and at the end of the course students will have a sound foundation on how to set up different Excel models. Additional tutorial examples will be provided both throughout the course, and posted on Moodle to help develop this very important skill.

Teaching: 10 hours of lectures and 15 hours of classes in the LT. An Excel help class may be held during reading week in Week 6. Extended office hours to students who need it.

Formative coursework: Three individual or small-group assignments will be required during the course.

Indicative reading: JR Evans & DL Olson (2002) *Introduction to Simulation and Risk Analysis*. Prentice-Hall: Upper Saddle River, NJ; AM Law (2006) *Simulation Modelling and Analysis*. McGraw-Hill: Boston, 4th ed.; M Pidd (2004) *Computer Simulation in Management Science*. Wiley: Chichester, 5th ed.; S Robinson (2004) *Simulation - The Practice of Model Development and Use*, Wiley: Chichester; D Vose (2008) *Risk Analysis - A Quantitative Guide*, Wiley: Chichester, 3rd ed.

Assessment: Project (100%) in the ST.

The project will consist of a written document comprising of the following:

An individual management report (maximum 15 pages – excluding appendix) describing the modelling and results from a simulation study of a realistic decision problem. The problem will be defined by week 5 or 6 of the LT, the project should be completed by the beginning of the ST.

MG310 Half Unit

Strategic Decision Making

This information is for the 2019/20 session.

Teacher responsible: Prof Valentina Ferretti

Availability: This course is available on the BSc in Management, BSc in Psychological and Behavioural Science, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Elementary statistical and mathematical concepts, as well as a true curiosity towards the fascinating field of decision making and a strong interest in rebooting your “decision-ware”. As this course embraces the two key stages of the decision making process, i.e. the initial divergent and creative stage and the subsequent convergent and analytical one, please, note that it is important to feel comfortable with interdisciplinary research, as well as with the use and discussion of both qualitative and quantitative strategies for successful decisions.

Course content: This course is about making successful strategic decisions (i.e. challenging decisions that can have important consequences in the short or long term), in both the professional domain and the personal one. Decision making is indeed a central aspect of virtually every management and business activity, including strategic planning, project management, resource allocation, policy making, marketing, operations management, and investment. Knowledge of what it takes to develop a good decision making process is thus an invaluable part of everyone’s toolbox, particularly for rising stars who will be in positions of leadership in the future. This course introduces students to the key concept of decision quality and to cutting edge strategies and tools to integrate data and judgments and develop winning strategies. This course’s lectures will entail a deep dive into the progressive stages of a strategic decision making process, with interactive experiments and puzzles to develop bias awareness and decision analysis expertise. Seminars will consist of interactive sessions, enabling you to master actionable decision frameworks and become confident decision analysts. The learning outcomes of this course are twofold. First, to discover the key decision traps when framing, structuring and modelling decisions and why they are dangerous. Second, to understand and master cutting edge, replicable and versatile solutions for framing, structuring,

modelling and communicating better decisions.

Teaching: 20 hours of lectures and 13 hours and 30 minutes of classes in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Two formative assignments:

1. Group project plan presentation (i.e. the selected decision context, due in week 7)
2. Group project pitch of the key decision analysis' impacts observed as a result of the strategic decision making process developed as a group across classes 2, 3, 4, and 6. Students will present and discuss the key impacts of their decision making process (e.g. discovery of new objectives that were not in their original mental models, recommendation of a different solution to the decision as a result of the used elicitation protocols, etc.) and receive real time feedback, from both their peers and the lecturer. Feedback will be provided following specific criteria (i.e. the same criteria that will be used to evaluate the individual technical account of the group project's impacts that is summative assignment n.2) and by completing a set of both descriptive and evaluative tasks (e.g. indicating the strongest part of the presentation, as well as parts that need revision, etc.). The above two formative assignments have been designed to prepare the students for the following two summative works: (i) the group project presentation of the chosen decision making problem/opportunity and (ii) the individual technical account of the group project's observed impacts.

The topic of the group project (i.e. a decision making problem or opportunity to be modelled and analysed by means of Multicriteria Analysis) can be a personal decision (e.g. which job offer to accept when confronted with multiple ones, which master to apply for, etc.) or a real world case (e.g. how to reduce plastic consumption in the LSE new coffee place). Students will have to collect data, develop and apply a quantitative model, interpret the results and refer to the key scientific literature for the main steps in the development of the model. Students are allowed to work in groups of maximum 4/5 people. This summative assignment will help students develop their strategic problem solving skills by demonstrating their ability to apply both qualitative and quantitative tools to frame, structure and model a decision, interpret its results, and develop sound recommendations. In the individual technical account of the group project's impacts (max 1500 words), students will have to report on the developed process by focusing on the observed key impacts of the used tools. This second summative assignment will help students develop their critical thinking skills.

Indicative reading: Belton, V. and Stewart, T. (2002) Multiple Criteria Decision Analysis. London, Kluwer. Keeney, R.L. (1992) Value-Focused Thinking: A Path to Creative Decision-making. Cambridge: Harvard Univ. Press. HD30.23 K21 (Course Collection). G.S. Parnell et al. (2013) Handbook of Decision Analysis. Hoboken, Wiley. Spetzler C., Winter H., Meyer J. 2016. Decision quality: value creation from better business decisions. Wiley.

Assessment: Group project (40%) in the LT Week 11.

Technical report (60%) in the ST Week 1.

The individual technical report (1500 word maximum) will be on the impacts of the developed group decision making process.

social science course in one of these fields: economics, management, psychology or sociology.

It is important to be comfortable with multi-disciplinary research.

Course content: This course introduces students to the foundations of Behavioural Decision Science: the science that explains and predicts how humans make decisions (the decision 'process') and how well (the decision 'outcome'). The course will focus on the process, and unveil the subtle and sometimes unconscious influences played by the context in which decisions are faced: is there risk and uncertainty? What has been chosen in the past? Is the decision maker in a positive or negative mood? Is the decision made offline or online, from a "menu" or from memory? All of these (and more) are factors that often determine how information is searched before choosing, how decisions are made and the quality of the decision made.

The course is entirely seminar-based, and will alternate teaching with interactive activities designed to experience first-hand the process of deciding, before reviewing behavioural decision theories and evidence from lab and field studies. Teaching will cover experiments and applications across different 'domains' (managerial, policy, organisations, consumer, and even personal, like choice of career or a partner). The aim of the course is to offer a balanced view of the strengths and weaknesses that humans have when making any decision and cover successful interventions of "choice architecture" which are being implemented around the world in private and public organisations to help consumers and the public make it easier to make good decisions without complex systems or support. The assessment will give students the opportunity to apply their skills to spot strengths and weaknesses of a decision of their choosing, as well as to produce a "state-of-art behavioural report" that reviews in a rigorous and scholarly manner the literature and empirical evidence on a specific aspect of the intuitive decision process under scrutiny.

Teaching: 25 hours of classes in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: 1. A short and timed group presentation (after Reading Week). You will work as a group and spot the bias in a real decision that you will select. You will give a brief group presentation of the bias and the mechanism that requires correction (via debiasing or nudging). After the presentation you will receive feedback as a group. This feedback will help you prepare for the summative assessment.

2. Individual review of an anonymous essay (End of LT). Students will play the role of the "assessor" and review an anonymous behavioural report (submitted by one of the students from a previous year) by implementing the different evaluation criteria which are used in this course. This exercise will help you review your and your course-mates' behavioural reports, and improve your summative assessment.

Decision Management: How to Assure Better Decisions in Your Company. Jossey-Bass

Assessment: Coursework (100%, 3000 words) in the ST. Summative (due beginning of ST): The summative assessment will be a 'Behavioural Report' which comprises two parts. In the first part (no more than 1000 words), you will be asked to report on the decision, the bias and the nudging or debiasing intervention designed by you and your group. In the second part of the report (no more than 2000 words), you

MG311 Half Unit

Foundations of Behavioural Decision Science

This information is for the 2019/20 session.

Teacher responsible: Claire Heard, new LSE fellow

Availability: This course is available on the BSc in Management, BSc in Psychological and Behavioural Science, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: It is an advantage to have taken an introductory

will focus on one of the processes/aspects that you covered in the first part of the essay and complete a scholarly review on it, with reference to behavioural literature, theories and concepts.

The first part of the essay will count for 50% of your mark while 50% will come from the second part. You will be required to provide full essay-style referencing.

Although the summative assignment will take the decision makers' presented in groups, all students will write both parts of the summative essays on their own and will receive an individual mark.

MG315 Half Unit

Marketing Action Learning Project

This information is for the 2019/20 session.

Teacher responsible: Dr Haider Ali

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, BSc in Statistics with Finance, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Core Disciplines II: Marketing, Human Resource Management and Information Management (MG201) or Marketing (MG212).

Course content: This course will build on theoretical concepts taught in the pre-requisites, by applying these theories and concepts to a real-life situation. Working in teams, students will develop a marketing plan for a new product/service launch; from ideation through to marketing research and setting marketing launch budgets, and considering Return on Investment. With support from the course leader, students will get the opportunity to use knowledge gleaned from many management courses to craft a compelling marketing plan. This course will test not only your academic knowledge but also your practical problem-solving skills, resourcefulness, and creativity.

Teaching: 2 hours of lectures in the MT. 21 hours of seminars and 3 hours of classes in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: As part of their teams, students will be expected to produce 3 pieces of formative coursework in the LT.

- i) One page memo drafting the scope of the project area.
- ii) Mid Term Report One – proposing the market segment to be targeted (based on relative attractiveness).
- iii) Mid Term Report Two – Research Plan

Work undertaken for the above can be used within the final report that is submitted for summative assessment.

Indicative reading: Malcolm McDonald, *Marketing Plans: How to Prepare them, How to use them*, 7th Edition, Wiley Business Model Generation, Osterwalder & Pigneur, Wiley

Assessment: Project (90%, 5000 words) and in class assessment (10%) in the LT.

The project will be completed in a group. A Group Evaluation Form will be required, where students' comments on their peers can affect the final grade allocated. Please note that project group membership will be allocated by the course leader.

In the last class of the Lent Term students will be required to write, under exam conditions, a reflective piece on the work undertaken by their team and their contribution to it. The precise focus of students' answers will be determined by the question that they have to address.

MG316 Half Unit

Brand Strategy

This information is for the 2019/20 session.

Teacher responsible: Guido van Garderen

Availability: This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not available for postgraduates.

Course content: Steven Forbes, founder of Forbes magazine, once stated "Your brand is the single most important investment you can make in your business" as it persuades customers to pay more, purchase more frequently, and retains their loyalty. In short, strong brands influence the choices of customers, which subsequently drives business results. This module takes an in-depth look at both corporate and non-profit brands, and the strategies behind them. Students will learn how to define a brand and bring it to life through copy, design and experiences. Topics include: positioning, brand definition, differentiation, brand architecture, verbal and visual identity and brand experience, amongst others. This module helps students to prepare for a future as a marketeer, brand strategist or entrepreneur.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of lectures in the ST.

Formative coursework: Students will meet in their groups with the course leader several times during the term to receive feedback on their work. Detailed guidelines on the group project will be provided in the course syllabus and sample projects will be available.

Indicative reading:

- David A. Aaker (1996) *Building strong brands*. New York: The Free Press.
- Byron Sharp (2010) *How brands grow - what marketers don't know*. Melbourne: Oxford University Press.
- Youngme Moon (2010) *Different, Escaping the Competitive herd*. New York: Crown Business, Random House.
- Kevin Lane Keller, Brian Sternthal and Alice Tybout (2002) Three questions you need to ask about your brand, *Harvard Business Review*, volume 80, issue 9, page 80-86.
- Lodish, Leonard M, and Carl F Mela (2007), "If Brands Are Built Over Years, Why Are They Managed Over Quarters?", *Harvard Business Review*, 85, 7/8 (July-August), 104-112).
- Rangaswamy, Arvind, Raymond R Burke, and Terence Oliva (1993) "Brand Equity and the Extendibility of Brand Names", *International Journal of Research in Marketing*, Special Issue on Brand Equity, Vol. 10, p. 61-75.

Assessment: Project (30%), take home exam (60%) and class participation (10%).

60% Individual take-home assignment

30% Group project and presentation

10% Class participation

Students work during the course in groups towards the presentation of a (new) brand strategy.

The individual take-home assignments challenges students to critique an existing brand strategy.

Together, the assessments demonstrate the ability of students to both build and manage brands.

PB100

Foundations of Behavioural Science

This information is for the 2019/20 session.

Teacher responsible: Prof Paul Dolan QUE 3.08

Availability: This course is compulsory on the BSc in Psychological and Behavioural Science. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Students on this programme will automatically be enrolled onto PB100.

PB100 will offer students an understanding of general processes in behavioural science and their relations to practical policy.

The course is therefore suitable for students enrolled in other programmes who wish to enrich their understanding by drawing on detailed understanding of the psychological processes that underpin thought and behaviour.

There are a very limited number of places available for students from outside the Department of Psychological and Behavioural Science. Places are therefore allocated on an application basis. This means that selections of PB100 on LSE for You remain provisional until you have received email confirmation from the Department of Psychological and Behavioural Science. To apply for a place, you should send a statement to psychologicalandbehavioural.bsc@lse.ac.uk. The statement should outline your expectations of the course, how it could feed into your wider studies and how it could be helpful for your future research or career plans. In light of this statement, requests may be accepted, declined or students may be involved to book an office hour to be sure that PB100 is aligned with their expectations. You are advised to read the course description before submitting your statement.

Course content: The aim of this course is to provide an understanding of, and ability to critically appraise the fundamental ideas which drive the multidisciplinary field of Behavioural Science in relation to policymaking.

The course gradually moves from the foundational principles of Behavioural Science, to the practical applications based on those principles through three interlinked blocks. The first block introduces dual-processing models of human behaviour to highlight the role of the environment in shaping decisions. This part considers the Dual System approach, heuristics and biases, and the influence of time, risk, and social preferences. The next block delves into the science of happiness by introducing the main accounts of subjective wellbeing, how it is conceptualised and measured and its implications for policy and other contexts. Finally, the course introduces the MINDSPACE framework by teaching how various techniques from Behavioural Economics (incentives, commitments, defaults), Social Psychology (ego, messenger and social norms), and Cognitive Psychology (priming, affect) can be used to shape behaviour. We close by addressing the role of behavioural spillover effects and a discussion on the ethics of nudging. Throughout the course, evidence from observational studies, laboratory experiments and field experiments will be discussed, with a special emphasis on policy-level interventions.

By the end of the course you should:

- have a broad understanding of the fundamental principles of Behavioural Science, and its relations with foundational principles in Psychology and Economic Theory and policy;
- be able to critically appraise the evidence base, tools and impact of Behavioural Science and its relation to policy interventions;
- be able to explain the approaches that have been developed to change behaviour, based on the MINDSPACE framework;
- be able to apply the core theories of Behavioural Science in policy and practice-based contexts.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 2 short essays (1000 words each) in the MT and LT and 1 presentation in the MT and LT.

Indicative reading:

- Kahneman, D. (2011). *Thinking, fast and slow*. Macmillan.
- Dolan, P. (2015). *Happiness by Design: Finding Pleasure and Purpose in Everyday Life*. London: Penguin.
- Halpern, D. (2015). *Inside the Nudge Unit: How small changes can make a big difference*. London: W H Allen.
- Sunstein, C. R., & Thaler, R. (2009). *Nudge: Improving Decisions About Health, Wealth and Happiness*. London: Penguin.

Students will be expected to read essential readings plus additional reading from the primary literature per class. These readings will be provided in the course outline.

Assessment: Essay (75%, 3500 words) in the LT. Presentation (25%) in the MT and LT.

Students will be required to give one presentation, during class, in

either MT or LT.

PB101

Foundations of Psychological Science

This information is for the 2019/20 session.

Teacher responsible: Dr Michael Muthukrishna QUE 3.15

Availability: This course is compulsory on the BSc in Psychological and Behavioural Science. This course is available on the BSc in Criminology. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Students on the BSc in Psychological and Behavioural Science programme will be automatically enrolled onto PB101. This course is available with permission to first and second year students on other programmes where regulations permit.

PB101 will offer students an understanding of how psychology relates to and informs other disciplines concerned with humans and human behaviour. The course is therefore suitable to students enrolled in other programmes who wish to enrich their understanding by drawing on the psychological sciences.

There are a very limited number of places available for students from outside the Department of Psychological and Behavioural Science. Places are therefore allocated on an application basis. This means that selections of PB101 on LSE for You remain provisional until you have received email confirmation from the Department of Psychological and Behavioural Science. To apply for a place, you should send a statement to psychologicalandbehavioural.bsc@lse.ac.uk. The statement should outline your expectations of the course, how it could feed into your wider studies and how it could be helpful for your future research or career plans. In light of the statement, requests may be accepted, declined or students may be invited to book an office hour to be sure that PB101 is aligned with their expectations. You are advised to read the course description before submitting your statement.

Course content: This course provides an introduction to human cognition and behaviour, addressing foundational topics in psychological science. These foundational topics include key concepts such as evolution, genetics, neuroscience, human evolutionary biology and anthropology, and specific topics, such as perception, memory, heuristics and biases, decision-making, child development, psychopathology, personality and individual differences, emotion, attraction and sexuality, cross-cultural differences, social relations, stereotypes and prejudice, norms and attitudes, social learning, social influence and persuasion, and group processes.

The course will offer an integrated perspective on these topics, investigating the evolution and variation in human psychology over time, across cultures, and over the lifespan. The course will introduce the history of the study of humans and human psychology, offering students the historical context to trends in research. By the end of the course, students will have a broad knowledge of key topics in psychology and related disciplines. Students will be prepared for more in-depth investigations of more advanced topics in later courses.

Students will also understand how psychology relates to and informs other disciplines concerned with humans and human behaviour. The course is therefore suitable to students enrolled in other programmes who wish to enrich their understanding by drawing on the psychological sciences.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. There will be a Reading Week in Week 6 of MT and LT.

Formative coursework: Students will be expected to produce 1 essay and 4 quizzes in the MT and LT.

In order to assess student performance and practice for the summative assessments, students will:

1. Write 1 mini-essay prior to first summative blog post.
2. Four to six pop quizzes of around 10 items will be given to

students over the course of the year to help both the lecturer and students assess their progress. These quizzes will probably be administered via Moodle and will be administered quickly at the beginning of a lecture.

Indicative reading: Primary Text:

- Gray, P. O., & Bjorklund, D. F. (2018). *Psychology* (8th ed.): Worth Publishers.

Secondary Text:

- Henrich, J. (2016). *The secret of our success: How culture is driving human evolution, domesticating our species, and making us smarter*. Princeton, NJ: Princeton University Press.

Other Texts and Readings:

- Laland, K. N., & Brown, G. (2011). *Sense and nonsense: Evolutionary perspectives on human behaviour*: Oxford University Press.
- Heine, S. J. (2015). *Cultural Psychology*: W. W. Norton.
- Wilkinson, N., & Klaes, M. (2012). *An Introduction to Behavioral Economics*: Palgrave Macmillan.
- Henrich, J., Heine, S. J., & Norenzayan, A. (2010). The weirdest people in the world? *Behavioral and Brain Sciences*, 33(2-3), 61-83.
- Chudek, M., Muthukrishna, M., & Henrich, J. (2015). Cultural Evolution. In D. M. Buss (Ed.), *The Handbook of Evolutionary Psychology* (2nd ed., Vol. 2). Hoboken, NJ: John Wiley and Sons.
- Muthukrishna, M., & Henrich, J. (2016). Innovation in the collective brain. *Philosophical Transactions of the Royal Society of London B: Biological Sciences*, 371(1690). doi:10.1098/rstb.2015.0192
- Muthukrishna, M., & Henrich, J. (2019). A problem in theory. *Nature Human Behaviour*.

Students will be expected to read one additional reading from the primary literature per class. These readings will be provided in the course profile.

Assessment: Exam (40%, duration: 3 hours) in the summer exam period.

Blog post (40%) and wiki entry (20%) in the MT and LT.

Students will write two 1000 word media/blog posts that summarise a key finding in psychology. This will result in more engagement, communication and summarizing of research as well as encouraging them to seek out new findings in the psychological and behavioural science, finding ways to connect these to the real world.

Students will create or edit a Wikipedia or Simple Wikipedia entry (1000 words) on a topic in psychology that is either incorrect, badly described, or missing. This will teach students critical thinking skills, not to take information at face value, and how to communicate research to a smart audience looking for both an overview and details.

The final exam will consist of multiple choice questions plus a short answer section.

PB102

Social Psychology

This information is for the 2019/20 session.

Teacher responsible: Prof Bradley Franks QUE.3.05

Availability: This course is available on the BA in Social Anthropology, BSc in Actuarial Science, BSc in Criminology, BSc in Psychological and Behavioural Science, BSc in Social Anthropology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course can be taken as an outside option by students on any year of undergraduate degrees, and as an option by students on the General Course. You should check with your department any restrictions they may place on outside options.

Course content: This course aims to provide a thorough introduction to the fundamental topics of social psychology -- a branch of psychological science that seeks to understand and explain human behaviours in actual or assumed presence of

others. In this course, we will review and critically evaluate socio-psychological explanations and theories of individual, interpersonal and group processes. Here, we will study a wide range of phenomena, ranging from the way individuals perceive and think about the social world, to the way they conceptualize themselves and participate in social groups, to the way that the broader social context influences our thoughts and behaviour. Other topics will include interpersonal attraction, attitudes and attitude change, pro-social behaviour, and human aggression.

A short video on the course is here: <https://youtu.be/cO6bINgn2JQ>

The course offers an essential complement to any degree programme in the social sciences, and it is particularly relevant to any profession that involves dealing with other people. Over the duration of this course, you will develop the knowledge and analytical skills necessary to apply the insights gained from Social Psychology to real-world social issues and to identify effective ways for achieving behavioural and societal change.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Formative coursework: Students are expected to produce two assignments as coursework, one in MT and one in LT. The first assignment comprises of four separate short answers responding to a choice of eight questions, comprising up to 2,000 words in total (i.e. about 300 to 500 words each).

The second assignment is an essay that students write under exam conditions as a 1-hour mock exam. Students will be given three topics, from which they can choose one to prepare and answer the corresponding mock exam question. All formative assignments will be assessed by the class teachers, who will provide detailed feedback to the students.

Indicative reading: Hogg, M. A. and Vaughan, G. M. (2013). *Social Psychology*, 7th edition. Harlow, Prentice Hall.

Library catalogue number is HM251 H71 and the book is also available electronically through the library website.

Additional references and a synopsis of lectures and class topics will be made available online in early September, and will also be distributed in the first lecture of the series.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

The exam will consist of four short answer out of eight questions, and two essay answers out of six questions.

PB110 Half Unit

Introductory Research Methods for Psychological and Behavioural Science

This information is for the 2019/20 session.

Teacher responsible: Dr Lucia Garcia-Lorenzo

Availability: This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

This course will offer students an understanding of general processes in behavioural science and their relations to practical policy. The course is therefore suitable for students enrolled in other programmes who wish to enrich their understanding by drawing on detailed understanding of the psychological processes that underpin thought and behaviour.

Pre-requisites:

Course content: This course consists of introductory training in the philosophy, principles, and methods of research in psychology. It begins with an introduction to topics in the philosophy of science as they are relevant to asking behavioural questions, covering assumptions about how best to gain knowledge about the mind and behaviour in a scientific manner. This is presented alongside a review of the history of psychological science, from the nineteenth century onwards, demonstrating how the ways of asking and answering behavioural questions are influenced by the socio-political and technological developments of a time period and location. This will emphasise that the nature of the research

questions, research methods and available data types are in continual development and revision.

The course then moves on to consider the various strategies one can employ in approaching a topic in psychology and how to formulate strong research questions, considering the range of data collection and analysis tools available with which to answer them. This leads into consideration of the issues and best practices involved in formulating concepts and variables (e.g., operationalisation), developing measures (e.g., validation), and designing experimental manipulations and interventions. The final section of the course considers practical and ethical issues in collecting and using psychological data.

This course, together with MY105 Introductory Quantitative Methods for Psychological and Behavioural Science, aims to provide students with integrated foundational knowledge and skills in research and analysis methods in psychological and behavioural science. Specific foundational methodological tools for collecting data will be presented in lectures, selected to reflect parallel theoretical issues raised in PS110 Foundations of Psychological Science and PS111 Foundations of Behavioural Science and Intergroup Relations, and to demonstrate the connections to the statistical techniques taught in MY105 Introductory Quantitative Methods for Psychological and Behavioural Science.

This integration is planned to operate according to the following general three-step schema:

Step 1: PS110 and/or PS111 introduces a data collection method as part of the discussion of the theory and data concerning a topic (e.g., PS111: the Implicit Attitude Test to investigate implicit prejudice)

Students are then guided in using this method to collect data using a pre set-up protocol on an internet-based research platform operating experimental software: no coding required by students: e.g., protocol for a two or three sample IAT experimental design comparing the implicit attitudes of two groups of people to a selection of potential targets of prejudice

Step 2: MY105 develops the data analytic techniques to analyse the data collected by students (e.g., two-sample t test or one-way ANOVA)

Step 3: PS105 (this course) discusses the general research design and the specific method (and alternatives and variations), and students extend the method (e.g., to a different set of samples to compare, or different potential targets of prejudice, etc) and collect more data using the same design with the same general predictions. Students analyse this data themselves using the data analytic techniques developed in MY105, and relate the results back to the theoretical issues raised originally in Step 1.

Teaching: 30 hours of classes and 5 hours of classes in the MT.

The classes on this course will consist of:

1. 10 x 3 hour workshop/lecture hybrid sessions
2. 5 x 1 hour lab sessions

The intensive learning of subject-specific and generic skills during teaching time will be supplemented in three ways by activities in reading week. These provide opportunities to take a wider perspective on the programme, to integrate its content and to develop personal and career-related skills:

1. LSELife activities to develop key skills for the course
2. Collective formative feedback and planning sessions for the formative assessments.
3. Sessions on the integration of ideas from this course with ideas from other courses on the programme.

Formative coursework: Students will be expected to produce 1 quiz, 1 other piece of coursework and 1 other piece of coursework in the MT.

Formative assignments on this courses are:

1. a multiple choice quiz covering course content from the first few weeks
2. a laboratory report on a study conducted in the class (1500 words)
3. a draft research proposal utilising skills developed in the later weeks of the course (750 words)

Indicative reading: Creswell, J. W. (2009). *Research design: Qualitative, quantitative, and mixed method approaches* (3rd ed.).

Dunn, D. (2008). *A short guide to writing about psychology*.

Ellsworth, P. E., & Gonzalez, R. (2003). *Questions and comparisons: Methods of research in social psychology*. In M. A. Hogg & J.

Cooper (Eds.), *Sage handbook of social psychology* (pp. 24-42).

Thousand Oaks, CA: Sage. Firebaugh, G. (2008). *Seven rules for social research*. Princeton, NJ: Princeton University Press. Heiman, G. (2002). *Research methods in psychology*. Hunt, M. (2007). *The story of psychology*. (2nd ed.) Random House. Lowry, R. (1982). *The Evolution of Psychological Theory: A critical history of concepts and presuppositions*. Aldine.

Assessment: Other (90%) in the MT, LT and ST.

Other (10%) in the MT.

Summative assessment for this course has two components:

1. 3 x 1000 word laboratory reports in Michaelmas Term, Lent Term and Summer Term (30% each, total 90%)
2. 1 x 500 word participation report on the experience of acting as a participant in a research study (10%)

PB111 Half Unit

Introductory Quantitative Methods for Psychological & Behavioural Science

This information is for the 2019/20 session.

Teacher responsible: Prof Jonathan Jackson

Availability: This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

This course will be open only to students in Year 1 on the proposed BSc in Psychological and Behavioural Science.

Course content: This course introduces students to statistical methods for the analysis and interpretation of psychological data.

It takes 'student's eye' perspective - first introducing where to find datasets and how to examine these data using descriptive statistics and visual analytics. Topic covered include emerging sources of data, types of data, frequency distributions, and methods for summarizing and visualizing data. Once students are familiar with navigating and understanding data sets from different sources, the second section of the course introduces basic probability theory and sampling distributions, covariation, and correlation, and hypothesis testing. Practical sessions will equip students with knowledge of how to conduct the taught statistical techniques using the R programming language.

This course, together with PS115 Introductory Research Methods for Psychological and Behavioural Science, aims to provide students with integrated foundational knowledge and skills in research and analysis methods in psychological and behavioural science. The course will be taught by drawing on real data sets from studies in psychological and behavioural science. These will be selected to reflect the theoretical issues raised in parallel sessions in PS110 Foundations of Psychological Science and PS111 Foundations of Behavioural Science. The presentation of the techniques via these data sets will also be used to demonstrate applicability to the results collected via the data collection methods acquired in PS115 Introductory Research Methods for Psychological and Behavioural Science.

This integration is planned to operate according to the following general three-step schema:

Step 1: PS110 and/or PS111 introduces a data collection method as part of the discussion of the theory and data concerning a topic (e.g., PS111: the Implicit Attitude Test to investigate implicit prejudice)

Students are then guided in using this method to collect data using a pre set-up protocol on an internet-based research platform operating experimental software: no coding required by students: e.g., protocol for a two or three sample IAT experimental design comparing the implicit attitudes of two groups of people to a

selection of potential targets of prejudice

Step 2: MY105 develops the data analytic techniques to analyse the data collected by students (e.g., two-sample t test or one-way ANOVA)

Step 3: PS105 (this course) discusses the general research design and the specific method (and alternatives and variations), and students extend the method (e.g., to a different set of samples to compare, or different potential targets of prejudice, etc) and collect more data using the same design with the same general predictions. Students analyse this data themselves using the data analytic techniques developed in MY105, and relate the results back to the theoretical issues raised originally in Step 1.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the MT.

The intensive learning of subject-specific and generic skills during teaching time will be supplemented in three ways by activities in reading week. These provide opportunities to take a wider perspective on the programme, to integrate its content and to develop personal and career-related skills:

1. LSELife activities to develop key skills for the course
2. Collective formative feedback and planning sessions for the formative assessments.
3. Sessions on the integration of ideas from this course with ideas from other courses on the programme.

Formative coursework: Students will be expected to produce 5 problem sets in the MT.

Students will work in groups to answer 5 take-home problem sets.

Indicative reading: Field, A., Miles, J., & Field, Z. (2012). *Discovering statistics using R*. London: Sage.

Other readings will be provided.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

There will be a 2 hour unseen open book examination in the Summer Term.

PB130

Statistics and Research Methods for Psychological and Behavioural Science

This information is for the 2019/20 session.

Teacher responsible: Dr Thomas Curran CON 3.16

Availability: This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

Course content: This course equips students with the bedrock knowledge and skills for conducting research in psychology and behavioural science. It integrates core concepts from the process of planning and conducting research with those involved in understanding and analysing data. Its lectures and classes introduce enough research methods and statistics to provide a foundation for Years 2 and 3. Students will be provided with a dataset that they can use to put what they learn into practice, as well as having the opportunity to collect and analyse data of their own.

This course aims to:

- To situate contemporary research in psychology and behavioural science in the historical context of psychological enquiry;
- To convey an understanding of the processes required in planning, carrying out, summarising, and evaluating research in psychological and behavioural science;
- To introduce principles for designing, conducting, and writing up qualitative and quantitative research projects;
- To introduce statistical methods needed to familiarise oneself with a dataset, summarise its key features, and identify key relationships among variables;
- To provide practical experience of collecting and analysing psychological and/or behavioural data.
- To prepare students for later courses in statistics and research methods for psychological and behavioural science

Teaching: 20 hours of lectures, 3 hours of classes, 12 hours

of workshops, 2 hours of computer workshops and 9 hours of computer workshops in the MT. 20 hours of lectures, 7 hours and 30 minutes of classes, 8 hours of workshops and 7 hours and 30 minutes of computer workshops in the LT.

'Lectures' in this course will be used to introduce you to the topic for the week. There will be a 2 hour lecture each week during term (20 weeks in total). All students in the course will be present in the lectures.

'Classes' will take place when we're discussing something less practically based such as the history and philosophy of research or designing experiments. Across the course there will be seven 90 minute classes over the year. There will be around 15 people in each class. One of the classes will be used to run the mock exam (see formative coursework).

'Computer Workshops' will be used to work on statistics. They are designed to provide you with an opportunity to put what you've learned into practice. You'll do twelve Statistics Workshops over the course. The first workshop will be 120 minutes long.

The remainder of the workshops will last 90 minutes but will be followed by an optional 30 minute catch up session. All students in the course will be present for the workshops and they will be facilitated by multiple members of staff.

'Workshops' will be used to accommodate lab sessions. Over the course you will complete ten lab sessions each lasting two hours. All students in the course will be present for the workshops and they will be facilitated by multiple members of staff.

Formative coursework: 2 sets of lab worksheets and 2 practice pieces for the summative assessment in MT.

2 sets of lab worksheets, 1 practice piece for the summative assessment and 1 mock exam in LT

Indicative reading:

- Hunt, M. (2007). *The story of psychology*. (2nd ed.) Random House

Assessment: Exam (30%, duration: 2 hours) in the summer exam period.

Project (30%, 2500 words) in the LT.

Group project (40%) in the MT and LT.

Students are required to design and carry out a mixed methods group project examining a research question (40%). This is made up of:

- group poster presentation (10%) in MT and;
- individual paper write up (3000 words) in LT (30%).

Please note that the exam is an unseen, open book exam.

PH101

Logic

This information is for the 2019/20 session.

Teacher responsible: Dr Laurenz Hudetz

Availability: This course is available on the BSc in Accounting and Finance, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Students on the BSc in Philosophy, Logic & Scientific Method and on the BSc in Politics and Philosophy are required to take either this course or PH104. Students on the BSc in Philosophy and Economics who opt to take their logic paper in their first year may take either this course or PH104; those who opt to take their logic paper in their second year must take PH104 rather than this course. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Arguments and inferences play a fundamental role both in intellectual disciplines and in everyday life. For example, a scientist will test a particular theory by reasoning that if that theory is true then some other claim, one that can be checked experimentally, must be true as well. Or a politician will give an argument for a certain migration policy. More mundanely, we reason and draw inferences all the time and our actions are guided by the conclusions we draw. We are so used to this that we are often not even aware of it.

Logic is the study of arguments and inferences – it therefore has an enormously broad scope. Its main task is to give an explicit characterisation of those arguments and inferences that are valid (and hence differentiate them from those that are invalid).

Logic tells you exactly when some conclusion follows from some premises and when it does not. It turns out that, in everyday life, many arguments are far from the ideal of logical validity. However, philosophers and social scientists should be able to devise arguments that satisfy this ideal.

In view of that, several questions arise:

1. What exactly are arguments and inferences and which quality criteria should they satisfy?
2. What exactly does it mean that the truth of a statement is guaranteed by the truth of other statements?
3. What exactly does it mean that a statement is true (given an interpretation of the language in which it is formulated)?
4. Is it possible to find a few manageable inference rules such that, given any valid argument, its conclusion can be derived from its premises using only these rules?
5. Is there a general method for checking whether a given argument or inference is valid?

This course provides answers to these and related questions. It begins with a simple system called sentential or propositional logic, which despite its simplicity captures a significant range of important arguments. The course then focuses on predicate logic, which is much more powerful and provides the logical basis for analysing a great variety of arguments and theories.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT. This course has a reading week in Week 6 of both MT and LT.

Formative coursework: Formative coursework will take the form of a number of quizzes and a number of regular exercises. Both of these will be set on the basis of the material covered in lectures. In the case of the quizzes, students are required to complete them before a specific deadline. In the case of the regular exercises, students are required to complete these and to be ready to present and discuss answers in the associated class; some of these will be formatively assessed by the class teachers. Successful completion of both the quizzes and the regular exercises is regarded as a prerequisite for admission to the examination for this course.

Indicative reading: There will be comprehensive lecture slides and materials covering the entire course content. Textbooks whose

treatment is close to that adopted in the lectures are:

Halbach, V. (2010): *The Logic Manual*. Oxford University Press.
Magnus, P.D. and Button, T. (2017): *forallx*: Cambridge. (available online)

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

PH103

The Big Questions: An Introduction to Philosophy

This information is for the 2019/20 session.

Teacher responsible: Dr Marius Backmann

This course is also taught by Dr Anna Mahtani, Dr Liam Kofi Bright, Professor Jonathan Birch and Professor Christian List.

Availability: This course is compulsory on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available on the BA in Social Anthropology, BSc in International Relations, BSc in International Social and Public Policy, BSc in Politics, BSc in Politics and International Relations, BSc in Psychological and Behavioural Science, BSc in Social Anthropology and BSc in Social Policy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None

Course content: At some point in our lives, we are all gripped by deep and fundamental questions. Questions about life, the universe and everything. Philosophers aim to make progress on these questions with clear and precise arguments. In this course, we confront some of these questions:

- (1) Do I know anything?
- (2) Who am I?
- (3) What is consciousness?
- (4) What is truth?
- (5) Does God exist?
- (6) Do I have free will?
- (7) What's the right thing to do?
- (8) What's the best form of government?
- (9) How can I live a meaningful life?

No one has definitive answers to these questions. But understanding the possible answers, and the arguments for and against them, is what philosophy is all about.

By grappling with these questions, you will learn the essential skills of a philosopher. First, you will develop your ability to read philosophical texts, focusing on how to extract and present a philosophical thesis and argument in a clear, logical way. Second, you will develop your thinking skills and analytical abilities by participating in philosophical discussions with your peers. Finally, you will develop your ability to construct philosophical arguments of your own by writing philosophy essays.

The questions of this course are some of the hardest that have ever been asked. We can't promise that you'll feel any closer to knowing the answers at the end of the course than you did at the beginning. But this course will help you understand the big questions, and to think about them in a reflective, philosophical way.

Teaching: 10 hours of lectures, 5 hours of seminars and 10 hours of classes in the MT. 10 hours of lectures, 5 hours of seminars and 10 hours of classes in the LT.

Parallel to this course, students will take a 5-week writing seminar in Michaelmas Term. This seminar, called "Philosophy and Argumentative Writing" ("PAW"), will provide you with practical advice and exercises to improve your writing style. Students in the BSc in Philosophy and Economics, the BSc in Philosophy, Logic and Scientific Method, and the BSc in Philosophy, Politics and Economics are required to attend (5 hours of workshops in MT) and do all assignments. Other students are invited to do so.

Formative coursework: Students will be expected to write one

formative essay in MT and two formative essays in LT.

Indicative reading: The readings will be articles and excerpts from books and will be made available via Moodle.

Assessment: Essay (45%, 1500 words) and essay (45%, 1500 words) in the ST.

In-class assessment (10%) in the MT and LT.

You will be assessed in class throughout the year using short-answer questions.

One of your two summative essays will be a revised version of one of your formative essays. This summative essay will be accompanied by a 750 word **reflective commentary** explaining how feedback and participation in learning activities enabled you to improve your essay. The mark for this summative assignment will depend on both the quality of the essay and the quality of the reflective commentary.

PH104

Formal Methods of Philosophical Argumentation

This information is for the 2019/20 session.

Teacher responsible: Dr Laurenz Hudetz

Availability: This course is available on the BSc in Management, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics, BSc in Politics, BSc in Politics and International Relations and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is compulsory on the BSc in Philosophy, Politics and Economics (2nd year). It is compulsory on the BSc in Philosophy and Economics for those students who do not take PH101 in their first year. It is available as a more demanding alternative to PH101 for the BSc Philosophy and Economics (1st year); BSc in Philosophy, Logic and Scientific Method and the BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Students are advised that it is a more demanding alternative to PH101. Only students with facility in formal reasoning (such as employed in mathematics or statistics) are advised to take this course rather than PH101 (where regulations permit this choice).

Pre-requisites: Although there are no formal prerequisites, facility in formal reasoning (such as employed in mathematics or statistics) will be presupposed.

Course content: Deductive Logic. Arguments and inferences play a fundamental role in philosophy, science and many areas of everyday life. The main task of deductive logic is to define in a rigorous way under which conditions the conclusion of a given argument or inference follows logically from its premises. This yields an explicit characterisation of those arguments and inferences that are deductively valid (and hence differentiates them from those that are invalid).

This course provides answers to central questions such as the following:

1. What exactly are arguments and inferences and which quality criteria should they satisfy?
2. What exactly does it mean that the truth of a statement is guaranteed by the truth of other statements?
3. What exactly does it mean that a statement is true (given an interpretation of the language in which it is formulated)?
4. Is it possible to find a few manageable inference rules such that, given any valid argument, its conclusion can be derived from its premises using only these rules?
5. Is there a general method for checking whether a given argument or inference is valid?

The course begins with a simple system called propositional or truth-functional logic, which despite its simplicity captures a significant range of important arguments. The course then focuses on predicate logic, which is much more powerful and provides

the logical basis for analysing a great variety of arguments and theories.

Inductive Logic and Probability. In the case of a deductively valid argument, it is utterly impossible that the conclusion is false if the premises are true. However, in practice it is often only improbable that the conclusion is false if the premises are true. In such cases, the premises only support the conclusion to some degree, but their truth would not guarantee the truth of the conclusion. Arguments of this kind are deductively not valid but may still be inductively strong. For example, it does not follow logically from the premise that someone smokes 40 cigarettes a day (together with background medical theories and data) that s/he will die early from smoking-related illness -- but it is much more probable that s/he will than if s/he did not smoke. Analysing this type of reasoning leads us to some fundamental issues concerning the notion of probability, which are relevant to many current philosophical debates (e.g. in epistemology, philosophy of science, decision theory, philosophy of economics, philosophy of physics and various other areas).

Building on the axiomatic development of probability theory (which students may be familiar with from ST107 or ST102), this course focuses on conceptual and foundational topics concerning probability. For example, it is important to distinguish between different concepts ("interpretations") of probability. On the one hand, one can understand probabilities as an agent's subjective degrees of belief. On the other hand, having a certain probability can be understood as an objective feature of events that is independent of what anyone believes. The subjective conception of probability has been developed into a full-blown Bayesian account of confirmation, the essentials of which will also be covered.

Formal Frameworks for Philosophy. In addition to logic and probability theory, the course also covers further formal frameworks and methods that are often presupposed in contemporary philosophical work. It introduces important concepts from set theory and presents formal accounts of possibility and necessity, conditionals, causation, qualitative and quantitative concepts of rational belief as well as preference and utility.

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Formative coursework will take the form of a number of quizzes and a number of regular exercises. Both of these will be set on the basis of the material covered in lectures. In the case of the quizzes, students are required to complete them before a specific deadline. In the case of the regular exercises, students are required to complete these and to be ready to present and discuss answers in the associated class; some of these will be formatively assessed by the class teachers. Successful completion of both the quizzes and the regular exercises is regarded as a prerequisite for admission to the examination. For later sections of the course, exercises will include questions requiring brief essay answers.

Indicative reading: There will be comprehensive lecture slides covering the entire course content. Useful but not mandatory background readings include the following:

On Deductive Logic: Halbach, V. (2010): *The Logic Manual*. Oxford University Press. Magnus, P.D. and Button, T. (2017): *forallx*: Cambridge. (available online)

On Inductive Logic, Probability and Formal Frameworks for Philosophy: Howson, C. and Urbach, P. (2006): *Scientific Reasoning: The Bayesian Approach*. Open Court. Papineau, D. (2012): *Philosophical Devices: Proofs, Probabilities, Possibilities and Sets*. OUP. Skyrms, B. (2010): *Choice and Chance: An Introduction to Inductive Logic*. Fourth edition. Wadsworth. Various entries in the *Stanford Encyclopedia of Philosophy*. Links will be provided in the lecture slides.

Assessment: Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

PH201

Philosophy of Science

This information is for the 2019/20 session.

Teacher responsible: Prof Roman Frigg

Availability: This course is compulsory on the BSc in Philosophy, Logic and Scientific Method. This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics, BSc in Politics and Philosophy and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None.

Course content: Science is chock full of miraculous predictions, shocking revolutions, and unexpected results that few science fiction writers could have ever dreamed of. What makes science so special? This course is a tour of the philosophical underpinnings of modern science. No background in any science is needed for this course; everything you need to know will be covered.

Indicative topics include: Theory and Observation: Hume's problem of induction and Goodman's new riddle of induction, Popper's falsificationism, underdetermination of theory by evidence, the positive instance account of confirmation, Bayesianism. Laws of Nature: the regularity view of laws, laws as universals, the best systems account, instrumentalism. Explanation: the DN model of explanation, statistical explanation, causal explanation, unification. Intertheory relations: reductionism and pluralism. Realism versus Antirealism: Scientific realism and antirealism, the no miracles argument, inference to the best explanation, the pessimistic meta-induction, reductive empiricism, constructive empiricism, the natural ontological attitude, entity realism, structural realism, Kuhn and scientific revolutions. Sociological approaches to science: Social constructivism, feminism. Causation: Hume's, Mill's, Mackie's accounts of causation, counterfactual theories, probabilistic causality and manipulability accounts, transference accounts. Philosophy of a special science: Space and Time in Newton's physics.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to write four essays (two in MT and two in LT), submit a few short answers before each class, and participate in class discussion.

Indicative reading: P Godfrey-Smith: *Theory and Reality: An Introduction to the Philosophy of Science*. C Hitchcock (editor): *Contemporary Debates in Philosophy of Science*.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

PH203

Philosophy of the Social Sciences

This information is for the 2019/20 session.

Teacher responsible: Dr Mattia Gallotti

Availability: This course is available on the BSc in International Relations, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Pre-requisites: No formal pre-requisites, but PH103 *The Big Questions: An Introduction to Philosophy* or equivalent is recommended.

Course content: This course examines philosophical problems of social science concerning the nature of social facts and social scientific theory. The first part of the course will focus on traditional questions of scientific method about the nature of understanding and the kind of knowledge the social sciences should, or can, aim for; as well as on questions of ontology pertaining to the nature of the social world and the classic

dispute about 'what there is' in society. The overarching goal is to provide an intellectual geography of the philosophy of the social sciences, to which students will refer in the second part of the course when specific philosophical issues will be closely analysed and discussed. Contents to be covered in the second term will be structured around three main themes: action, rationality and intelligibility; the relationship between mind and society; the scope, aim and prospects of critical and normative approaches to social science theory and practice.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to write three formative essays, two in Michaelmas term and one in Lent term. A mock exam will be given near the end of Lent term, with feedback provided. Class presentations may also be required depending on the pedagogical approach adopted by the class teacher.

Indicative reading: A detailed reading list will be provided at the beginning of the course. Indicative readings include: Alex Rosenberg, *Philosophy of Social Science (Fifth edition)*; Harold Kincaid, *Philosophical Foundations of the Social Sciences*; Daniel Steel and Francesco Guala (eds.), *The Philosophy of Social Science Reader*; Michael Martin and Lee McIntyre (eds.), *Readings in the Philosophy of Social Science*.

Assessment: Exam (67%, duration: 2 hours) in the summer exam period.

Essay (33%, 2000 words) in the LT.

PH214

Philosophy, Morals and Politics

This information is for the 2019/20 session.

Teacher responsible: Dr Jonathan Parry

The course is taught by three members of staff, including Prof. Michael Otsuka and Dr. Jonathan Parry.

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None.

Course content: The course will cover key topics in **moral and political philosophy**.

The discussion of **moral philosophy** will include a range of topics in **normative ethics**, which is a branch of ethics that aims to identify, at a fairly general level, the various factors that determine the moral status of actions (whether they are permissible, impermissible, or morally required). Questions covered will include at least some of the following: **(i)** Should one always save the greater number from harm? **(ii)** Should one save a single person from death or a much larger number of people from suffering a much smaller harm? **(iii)** Should one be solely concerned with how badly off people are, or should one also care about inequality? **(iv)** Does it make a moral difference that a person is less well off than she could have been? ('the non-identity problem'); **(v)** Do we have stronger reasons to save others from suffering unjust harms (i.e. harms wrongfully caused by other people), compared to harms caused by natural events? **(vi)** Is it permissible to cause harm to others in order to prevent greater harm? If so, are some ways of bringing about harm harder to justify than others? **(vii)** Can individuals come to forfeit their usual rights against being harmed? If so, under what conditions? **(viii)** What are the moral limits on harming others in self-defence? **(ix)** To what extent is the morality of self-defence different from the morality of defending other people?

The discussion of **political philosophy** will include the topics of **justice** and **legitimacy**. Questions covered will include the following: What does justice require? Does it demand the redistribution of income from rich to poor in order to create a more egalitarian society? We'll discuss the answers to these question

that John Rawls and Robert Nozick have provided. Rawls argues that such taxation is just, since it would be endorsed under fair conditions in which people are deprived of knowledge of whether they happen to be rich or poor, talented or unskilled. Nozick argues that redistributive taxation is unjust because on a par with forced labour. In addition, we'll consider their answers to the following questions: When it is unjust to constrain the liberties of some in order to prevent harm to others? What sort of equality of opportunity for jobs and university places does justice require? Are people entitled to compensation for historical injustices? What are the just conditions of acquisition of unowned natural resources? In answering the last question, we will also draw on the writings of John Locke, whose related views in his *Second Treatise* on the legitimacy of government we will also consider, along with the Locke-inspired views of Thomas Jefferson.

In addition to the topics mentioned in the above two paragraphs, which will form a major focus of the course, some topics in other areas of moral and political philosophy may also be covered.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 3 essays in the MT and LT.

Indicative reading: Thomson, J.J. 'Self-Defense', *Philosophy and Public Affairs* 20 (1991). Otsuka, M. 'Killing the Innocent in Self-Defense', *Philosophy and Public Affairs* 23 (1994). Quinn, W. 'Actions, Intentions and Consequences: The Doctrine of Doing and Allowing', *The Philosophical Review* 98 (1989). Øverland, G. 'Moral Obstacles: An Alternative to the Doctrine of Double Effect', *Ethics* 124 (2014). Parry, J. 'Defensive Harm, Consent, and Intervention', *Philosophy and Public Affairs* 43 (2017). Rawls, J. *A Theory of Justice*, revised edition. Nozick, R. *Anarchy, State and Utopia*. Locke, J. *Second Treatise of Government*

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Essay (30%, 2000 words) in the ST.

Class participation (10%).

PH217

Set Theory and Further Logic

This information is for the 2019/20 session.

Teacher responsible: Professor Miklos Redei, LAK 4.03

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Pre-requisites: Logic (PH101) or Formal Methods of Philosophical Argumentation (PH104), with a grade of at least 65.

Course content: The aim of the course is to familiarize students of philosophy with the essentials of naive set theory and formal logic. From set theory, the course covers (i) what is needed for use in formal reasoning, and (ii) what is of philosophical interest (Russell Paradox, elementary theory of cardinals and ordinals, transfinite induction, Axiom of Choice, Continuum Hypothesis). From logic, it begins by reviewing and extending basic material on propositional and first-order logic from both semantic and axiomatic viewpoints, continues with the basic meta theorems of first order logic (Gödel) and ends with an introduction to propositional modal logic. Throughout, a balance is sought between formal proof and intuition, as also between technical competence and conceptual reflection.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 20 hours of lectures and 10 hours of classes in the LT.

Formative coursework: In each term, students are required to submit solutions to two problem-sets, and write one essay on a topic selected from a list or proposed by the student and approved by the instructor.

Indicative reading: Textbooks: Cameron, Peter: *Sets, Logic and*

Categories (Springer, 1999); Sider, Theodore: *Logic for Philosophy* (Oxford University Press, 2010). Specific sections of these texts that are relevant to weekly topics will be indicated in the detailed course description and in the Moodle page of the course.

Additional reading: Halmos, Paul: *Naive Set Theory* (Springer reprint 2011); Crossley, John: *What is Mathematical Logic?* (Dover reprint 1991); Goble, Lou ed.: *The Blackwell Guide to Philosophical Logic* (Blackwell, 2001). Additional material on special topics will be made available on Moodle.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

PH221

Problems of Analytic Philosophy

This information is for the 2019/20 session.

Teacher responsible: Prof Christian List and Dr Anna Mahtani

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed The Big Questions: An Introduction to Philosophy (PH103).

Course content: Short description: Some central topics in metaphysics, the philosophy of mind and action, epistemology, and the philosophy of language. Topics may vary by year. More detailed description: The aim of this course is to give an overview of some central themes in analytic philosophy, drawn from several areas: metaphysics, the philosophy of mind and action, and the philosophy of language. We will discuss questions such as the following:

Metaphysics: Is "physicalism" – the thesis that everything is ultimately produced by physical processes – philosophically defensible? Are there any features of the world that go beyond physical ones? Is the world deterministic? Could there be true randomness? What is the nature of causation and causal laws? What is the role of time? What is it for one object (or person) to persist through time?

Mind and action: What does it mean to have a mind? What is an intentional agent? How can we make sense of the emergence of human and animal minds against the background of a physical world? What is consciousness, and how does it relate to physical properties?

Language: How do some patterns and noises have meaning? How do some words refer to objects in the world? How do we manage to imply things by what we say? And how can we handle the problem of vagueness?

Our emphasis will be on developing a sharp understanding of key concepts, arguments, and the logical relationships between different ideas, rather than providing an encyclopaedic historical or exegetical coverage. We aim to give students a conceptual toolbox for a rigorous analysis of some classic philosophical questions.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

Lectures are taught alongside PH501 postgraduate students.

Formative coursework: Students will be expected to participate actively in their classes and to write 3 formative essays, each with a 2000 word limit. None of these may be a draft of the summative assignment.

Students will also be expected to participate in a workshop, where they will have the opportunity to give a short presentation on their summative essay topic.

Indicative reading: Bertrand Russell, *Problems of Philosophy* (Any Edition); A.P. Martinich & D. Sosa (eds.), *Analytic Philosophy: An Anthology*; David Chalmers, *The Conscious Mind*; W.V.O. Quine, *From a Logical Point of View*; Jaegwon Kim, *Physicalism, or Something Near Enough*; John Searle, *Making the Social World: The Structure of Human Civilization*, William Lycan (2nd Edition):

Philosophy of Language; Rosanna Keefe, *Theories of Vagueness*; Mark Sainsbury: *Paradoxes*.

Assessment: Exam (67%, duration: 2 hours) in the summer exam period.

Essay (33%, 2000 words) in the ST.

PH222

Philosophy and Public Policy

This information is for the 2019/20 session.

Teacher responsible: Dr Campbell Brown

This course is taught by Dr Campbell Brown, Dr Jonathan Parry, Prof. Alex Voorhoeve, and Dr Johanna Thoma.

Availability: This course is compulsory on the BSc in Politics and Philosophy. This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method and BSc in Philosophy, Politics and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course offers critical reflection on the design and evaluation of public policies from the perspective of moral and political philosophy. To this end, we study a range of theories and concepts that are used in policy evaluation. We often discuss and evaluate them by focusing on specific policy proposals. The course addresses questions such as the following.

- What is a correct public measure of well-being?
- Should people be left to bear the consequences of their free choices?
- May the government force you to buy health insurance?
- Is torture ever justified?
- Do prosperous countries have a right to close their borders to immigrants from poor countries?
- Should hate speech be protected by freedom of speech?
- Should the development of new drugs be left to private companies rewarded by patent protection?
- What is the optimal population size and what policies may the state pursue in order to achieve it?
- Should higher education be financed by student loans or general taxation?
- Should we be free to act as we choose so long as we do not harm others?
- How should we distribute the burdens of military service?
- Should children be given the vote?

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of both MT and LT.

Formative coursework: Students will be expected to produce 2 essays in the MT and 1 essay and 1 presentation in the LT.

Indicative reading: A detailed list of readings will be available on moodle. The following is an indicative sample of readings that may be discussed in the course.

- Greg Bognar and Iwao Hirose (2014). *The Ethics of Health Care Rationing*. Routledge.
- A. Voorhoeve (2018) 'May a Government Mandate More Comprehensive Insurance than People Want for Themselves?' *Oxford Studies in Political Philosophy*.
- Michael Rustin (2016), 'The neoliberal university and its alternatives', *Soundings*
- Ronald Dworkin et al (1997) 'Assisted Suicide: The Philosophers' Brief'
- Carol Kates (2004). 'Reproductive Liberty and Overpopulation' *Environmental Ethics*.
- Jonathan Wolff (2011), *Ethics and Public Policy: A Philosophical Inquiry*
- Joseph Carens (1987), 'Aliens and Citizens: The Case for Open Borders', *The Review of Politics*
- Jeff McMahan (2008), 'Torture in Theory and Practice', *Public Affairs Quarterly*
- Michael J. Robillard and Bradley J. Strawser (2016), 'The Moral Exploitation of Soldiers', *Public Affairs Quarterly*

- Annabelle Lever (2014), 'When the Philosopher Enters the Room', *Philosophy and Public Issues*

Assessment: Exam (67%, duration: 2 hours) in the summer exam period.

Essay (33%, 2000 words) in the ST.

PH225 Half Unit

Business and Organisational Ethics

This information is for the 2019/20 session.

Teacher responsible: Mr Thomas Ferretti

Availability: This course is available on the BSc in Management, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics, BSc in Politics and Philosophy, International Exchange (1 Term) and International Exchange (Full Year). This course is not available as an outside option. This course is available to General Course students.

Course content: This course is about philosophical and ethical issues related to the conduct of business. Some tough-minded people believe that business is like a game where winning means making as much money as possible. They believe that "business ethics" does not exist, that it is a contradiction in terms, and that whoever thinks otherwise -- whoever thinks that business is also about treating others respectfully -- is either naive, or deluded, or both. What these tough-minded people do not realise is that they are, in fact, making an ethical claim. They claim that, while we generally have ethical obligations towards others in society, when it comes to the game of business everyone is permitted to pay attention only to their personal gain. This statement may be correct, or it may be false. But it is definitely an ethical statement, simply because it makes claims about how people may permissibly behave. So, inadvertently, they are doing business ethics.

In this introductory course to business ethics, we look at different types of ethical theories, and we apply them to problems that tend to arise in business contexts. The primary aim of the course is not to present you with ethical solutions or dogmatic responses, but to practice ethical reasoning, analytical skills, and critical thinking, so that towards the end of the course, you will no longer be satisfied with simple answers to difficult problems. You will also practice argumentative and writing skills that will help you express your thoughts clearly and concisely.

Topics discussed in the context of this course include:

- What are the moral responsibilities of managers?
- Is Milton Friedman correct that the main purpose of business is to increase profits?
- Do managers have instead moral responsibilities that are specific to their role as market actors, such as avoiding deception, fraud, or environmental degradation?
- What, if anything, is wrong with exploitation? If sweatshop workers voluntarily choose to work under exploitative conditions because they want a job, are such working conditions acceptable then?
- Should firms have an obligation to protect the privacy of their workers or customers?
- Why and how should firms tackle gender discrimination in the workplace?
- To what extent are the large pay packages that CEOs receive justified? What makes wages fair or unfair?

Required readings amount to about two papers per week.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. This course has a reading week in Week 6 of LT.

Formative coursework: One essay of 1500 words.

Indicative reading: Carr, Albert Z. (1968): "Is Business Bluffing Ethical?", in *Harvard Business Review*, 46 (1): 143-153. Friedman, Milton (1970): "The Social Responsibility of Business is to Increase its Profits", *New York Times Magazine*, Sept. 13. Heath, Joseph (2014): "A Market Failure Approach to Business Ethics", in *Morality, Competition, and the Firm: The Market Failures Approach to*

Business Ethics, pp. 25-41. Oxford: Oxford University Press.
 Moriarty, Jeffrey (2009): "How Much Compensation Can CEOs Permissibly Accept?", in *Business Ethics Quarterly*, 19 (2): 235-250.
 Zwolinski, Matt (2007): "Sweatshops, Choice, and Exploitation", *Business Ethics Quarterly* 17 (4): 689-727.

Assessment: Exam (67%, duration: 2 hours) in the summer exam period.

Essay (33%, 2000 words) in the ST.

PH230 Half Unit

Einstein for Everyone: From Time Travel to the Edge of the Universe

This information is for the 2019/20 session.

Teacher responsible: Balazs Gyenis LAK 5.03

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: There are no prerequisites for this course; it is accessible to students of all backgrounds.

Course content: Does the universe have an edge? Is time travel possible? What is a black hole, and in what sense are space, time and gravity a matter of "geometry"? The modern theory of spacetime introduced by Einstein provides a precise framework in which to ask these questions. This course makes their analysis accessible to everyone.

Students will have the opportunity to engage with Einstein's theories of relativity, to use them to analyse philosophical problems, and to examine their philosophical and practical implications. Students will learn to apply these conceptual tools to the analysis of space, time and gravity, as well as to formulate and argue for their own perspectives on the philosophical implications of relativity theory.

One is often faced with unsubstantiated declarations about the implications of Einstein's theories, by both scientists and non-scientists. This course will equip non-scientists with the conceptual tools needed to critically analyse these claims for themselves. It will also provide students with the tools needed to discuss the philosophy of space and time from a modern perspective.

Einstein for Everyone requires absolutely no background in physics or maths.

Teaching: 10 hours of lectures and 10 hours of classes in the MT.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Weekly short discussion questions submitted are required to prepare for discussion in class.

Indicative reading: - Norton, John D. (2015) *Einstein for Everyone*.
 - Hugget, Nick. (2010) *Everywhere and Everywhen: 160 Adventures in Physics and Philosophy*.

- Einstein, Albert (1920) *Relativity: The special and general theory*.

- Euclid (1908) *The Thirteen Books of Euclid's Elements*, Vol I.

- Poincaré, Henri (1905) *Science and Hypothesis*.

Weekly essential readings will be provided on Moodle, selected individually from various book chapters and journal articles.

Assessment: Essay (50%, 1500 words) in the MT.

Essay (50%, 1500 words) in January.

PH232 Half Unit

Physics and the City: From Quantum Jumps to Stock Market Crashes

This information is for the 2019/20 session.

Teacher responsible: Balazs Gyenis LAK 5.03

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: There are no prerequisites for this course; it is accessible to students of all backgrounds.

Course content: One of the most surprising discoveries of the 20th century is that many things can be described by tiny atoms moving randomly about. Thinking about the physical world in this way led to the invention of modern particle physics. Thinking about the financial world in this way led to modern financial modeling. This course is about some of the philosophical issues underlying the relationship between physics and finance.

Students in this course will explore some of the most important conceptual and philosophical questions underlying physics and finance, like: How are assumptions about randomness compatible with observed forms of determinism? What does it mean to be an atom? How does the quantum world differ from the everyday world? What explains why physical models have unexpected applications in finance? To what extent do such applications help to underpin how the prices of financial instruments are set? The course will proceed at a conceptual level that is suitable for students of all backgrounds.

Teaching: 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Students are also required to prepare to discuss a few short questions in each weekly class meeting.

Indicative reading: Weekly essential readings will be provided on Moodle, selected individually from various book chapters and journal articles. Some indicative readings include:

- MacKenzie, Donald. *An Engine Not a Camera*, excerpts.

- Malkin, Burton G. *A random walk down Wallstreet*, excerpts.

- Norton, John D. *Einstein for Everyone*, Chapters 34-37 on Brownian motion and the origins of quantum theory.

- Weatherall, James O. *The Physics of Wallstreet* (optional further reading)

Assessment: Essay (50%, 1500 words) in the MT Week 11.

Essay (50%, 1500 words) in the ST.

PH311

Philosophy of Economics

This information is for the 2019/20 session.

Teacher responsible: Dr Johanna Thoma LAK 4.02

Dr Campbell Brown

Availability: This course is compulsory on the BSc in Philosophy and Economics. This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics, BSc in Politics and Philosophy and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Economics A (EC100).

Although it is a third-year course, second-year students can take it with permission.

Course content: This course provides a philosophical discussion of (1) the methods and (2) the normative commitments of contemporary economics.

(1) Here the course will focus on economic methodology and the foundations of utility theory, with an eye to important current debates in economics. We will discuss questions such as: What is utility, and how do economists measure it? Does evidence of widespread 'irrationality' from behavioural economics undermine standard microeconomic theory? Can idealised models teach us anything about real-world phenomena? If yes, how? How should

we measure important economic variables, such as inflation? How do we best find out what interventions work in development? Does macroeconomics need microfoundations? Is the economics profession to blame for its failure to predict the financial crisis? (2) The second area of focus is on welfare economics, and the ethical assumptions and implications of economics. We will cover questions such as: Is getting what you want always good for you? Can you be harmed by something if you never know about it? Does it make sense to say that eating pizza gives me more happiness than going to the movies gives you? Is it possible to combine the preferences of individuals into an overall 'social' preference? Does it matter if the well-being of some people is less than that of others? When and why are markets desirable? Is paternalism always bad, and does welfare economics really avoid it? How should we resolve collective action problems? What is a fair way to distribute the tax burden?

Teaching: 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 2 essays and 1 presentation in the MT and 1 essay and 1 presentation in the LT.

Indicative reading: D. Hausman, *The Philosophy of Economics: An Anthology*; J. L. Bermudez, *Decision Theory and Rationality*; J. Cohen and W. Easterly, *What Works in Development: Thinking Big and Thinking Small*; H. Davies, *The Financial Crisis - Who is to Blame?*; D. Hausman and M. McPherson, *Economic Analysis, Moral Philosophy, and Public Policy*; D. Gauthier, *Morals by Agreement*; D. Satz, *Why Some Things Should Not Be for Sale*.

Additional readings will be made available on Moodle.

Assessment: Exam (65%, duration: 2 hours) in the summer exam period.

Essay (25%, 2000 words) in the ST.

Class participation (10%).

PH333 Half Unit

Philosophy of Gender and Race

This information is for the 2019/20 session.

Teacher responsible: Dr Liam Kofi Bright LAK 2.05 and Ms Azita Chellappoo

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: None.

Course content: This half-unit examines, from a philosophical perspective, the nature of gender and race and the role these categories play in shaping the social world and structuring human lives.

Topics covered will include:

Concepts of Sex, Gender and Race: How does "gender" relate to "sex"? Is race a biological category, a social category, both, or neither? What influence do these categories have on human behaviour?

Gender and the Brain: Are gender categories biological or social? Are there psychological differences between men and women? If so, are they explained by genes or by culture? Is gender 'hardwired' into the brain or the product of socialization?

Gender and Society: What are misogyny and sexism? Is sexism inherent to the entire concept of gender? Are gender differences compatible with a fair society, or should we try to eliminate gender altogether?

Race and the Genome: Do races exist at all? Is there any objective biological basis for racial categorization, or are races socially constructed? Does the concept of "race" still have a legitimate role in medicine?

Race and Society: How does the social meaning of "race" vary around the world? How have concepts of race been shaped by

racism? Should we try to reclaim the "race" concept for anti-racist goals or try to eliminate it from public discourse?

The Future of Gender and Race: Will race and gender still exist in the future? Should we try to work for a race-free and gender-free world, or should these ways of classifying people be preserved? We will focus on approaches to these questions from "analytic" philosophy, including feminist approaches and approaches from the philosophy of science. The aim is to confront the big questions of gender and race by analysing and constructing careful and precise philosophical arguments.

Teaching: 10 hours of lectures and 10 hours of classes in the LT. Students on this course will have a reading week in Week 6.

Formative coursework: Students will be expected to produce 1 exercise in the LT.

Indicative reading: Suggested introductory reading:

Fine, Cordelia, 2008. *Delusions of Gender*. Manne, Kate, 2017. *Down Girl: The Logic of Misogyny*. Appiah, Kwame Anthony, 2005. *The Ethics of Identity*. Glasgow, J., Haslanger, S., Jeffers, C. and Spencer, Q., 2019. *What is Race?* Zack, Naomi, 1993. *Race and Mixed-Race*. Appiah, Kwame Anthony, and Gutmann, Amy, 1996. *Color Conscious: The Political Morality of Race*.

Assessment: Essay (45%, 1500 words) in the LT.

Essay (45%, 1500 words) in the ST.

Class participation (10%).

There is no exam for this half-unit. There will be two summative essays, each worth 45% of the final mark. 10% of the final mark will be awarded for class participation.

PH341

Philosophy, Politics and Economics: Applications

This information is for the 2019/20 session.

Teacher responsible: Prof Alexander Voorhoeve LAK 401

This course will be jointly taught by Prof. Alex Voorhoeve and Dr. Liam Kofi Bright.

Availability: This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students.

Available only to fourth-year PPE students.

Pre-requisites: The course will be available only to 4th-year PPE students.

Course content: This course will draw on concepts, theories and findings from Philosophy, Politics and Economics to tackle questions faced by decision-makers in public and private institutions. Each week will focus on a case study. Students will be expected to have had some prior exposure to the issues in previous courses—this course will stand out by being more interdisciplinary, in-depth and practical. Questions covered may include:

- Risky public decisions:** Decision theorists speak of risky situations when the decision-maker can assign probabilities to all relevant outcomes of their choices. How should we assess policies such as cancer screening that expose everyone to both a large chance of a small or moderate cost (such as inconvenience or false positive tests) while also saving them from a small chance of a very large harm (such as early death)?
- Severely uncertain public decisions:** Decision theorists speak of severely uncertain situations when the decision-maker cannot assign probabilities to all relevant outcomes of their choices. How should we assess policies, such as measures to combat a novel, highly infectious disease, or climate change, in such severely uncertain situations?
- Killing some civilians to save others from being killed:** When faced with a threat from terrorists or an unjust enemy, when, if ever, is it permissible for the state to kill innocent civilians in order to save others?
- The Resource Curse:** In unstable or grossly undemocratic states, the presence of natural resources often leads to oppression and/or civil war. Should democracies therefore ban the purchase

of natural resources from such states?

5. **International reparations:** What, if anything, do the formal imperial powers owe their former colonies?

6. **A market for refugee quotas:** Should countries who do not wish to host refugees be able to pay other countries to take them in, in a "free market" for hosting refugees?

7. **Discrimination and the market:** Some have argued that free markets are good because they will, over time, eliminate discrimination, both because, in markets, people will mix with people of all backgrounds and because they will be judged on the quality of their goods or services alone. How powerful is this case?

8. **Concentration of wealth and economic power:** In many societies, economic power is becoming increasingly concentrated, in two ways: many sectors are dominated by a handful of large firms; and wealth is becoming increasingly unequal. In which ways, if any, is this problematic? What are the implications of this concentration for democracy? Should dominant firms be forcibly broken up? Should inheritance be highly taxed?

9. **Behavioural science and policy:** Do the irrationalities documented by behavioural science legitimate paternalistic nudges, taxation, and subsidies? Does sensitivity of people's answers to how questions are framed make surveys about people's opinions on matters of policy untrustworthy?

10. **Science and society:** Can natural and social scientific expertise be deferred to in a democracy, or is such deference inimical to democratic rule? Which social institutions can ensure that scientists have the right incentives to produce reliable work, rather than fraudulent or unreliable findings? How should we decide which research gets funded?

Teaching: 10 hours of lectures and 20 hours of seminars in the MT. 10 hours of lectures and 20 hours of seminars in the LT. The lectures will present theories and findings from the three disciplines relevant to the policy issue being studied in that week; they will also give the outline of a real-world case study. Seminars will devote some time to clarifying concepts, theories and findings, but will focus especially on the policy question posed by the case study. Some seminars will involve team debates, in which students are assigned to teams which must argue for a particular solution to the dilemma posed by the case study. Seminars will be taught in 2-hour sessions with all students.

Formative coursework: Students will be expected to produce 3 essays and 2 presentations in the MT and LT. Students will write three 2,000-word formative essays. Twice, students will be assigned to a debate team, which must together present a case in class for a particular resolution of a policy dilemma. Feedback on these essays and the presentation will help prepare students for the exam and the summative essay presentation.

Indicative reading:

- D. Hausman, M. McPherson and D. Satz, *Economic Analysis, Moral Philosophy and Public Policy*. Cambridge University Press, revised edition, 2016.
- A. Oliver (ed.) *Behavioural Public Policy*. Cambridge University Press, 2013.

An extensive list of required and further readings will be available on Moodle.

Assessment: Exam (50%, duration: 2 hours) in the summer exam

period.

Essay (30%, 2000 words) in the ST.

Exercise (10%) in the LT.

Class participation (10%).

For the exercise, students will choose between a summative team presentation and becoming a student editor.

PH399

Dissertation in Philosophy

This information is for the 2019/20 session.

Teacher responsible: Dr Marie Milofsky

Availability: This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

Course content: The dissertation may be on any topic for which a suitable supervisor in the Philosophy department can be found.

Selection of topic: Candidates should have the subject of their dissertation approved by their supervising member of department.

Arrangements for supervision

The dissertation is an opportunity to do extended independent research and writing and to present this work to one's peers. It should reflect the candidate's own views but must develop out of some established part of the philosophical literature. Students should carefully discuss their topic and approach with their supervisor who will also advise on reading and give feedback on written work. Students must have regular meetings with their supervisor, submit written work regularly, and keep a formal record of their work and progress. Students must also present an early version of their argument to fellow students and will be given feedback on the quality of their presentation as well as on the content of their arguments.

Teaching: 2 hours of seminars in the MT. 20 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 1 piece of coursework in the MT and 2 essays, 1 presentation and 1 other piece of coursework in the LT.

The formative coursework sets out several steps towards the dissertation: a literature review (due in MT); a first 2,000 words (due in week 1 of LT), a subsequent 3,000 words (which may be in part a revision of the first 2,000 words), due in week 5 of LT; a presentation of the student's arguments in LT; and a full draft of the dissertation, due in week 11 of LT. All written coursework must be submitted by email to both the student's supervisor and the teacher responsible. Students who fail to submit this coursework on time may be barred from submitting the dissertation. Participation in the weekly seminar and the quality of the presentation will determine 10% of the final mark for the course.

Assessment: Dissertation (90%, 7000 words) in the ST.

Class participation (10%).

Dissertations must be submitted in May 2018, exact date to be confirmed. They should be 5,000-7,000 words, and should be typewritten.

S0100

Key Concepts: Introduction to Social Theory

This information is for the 2019/20 session.

Teacher responsible: Prof Chetan Bhatt STC.S107

Availability: This course is compulsory on the BSc in Language, Culture and Society and BSc in Sociology. This course is available on the BSc in International Relations, BSc in International Social and Public Policy, BSc in Politics, BSc in Politics and International Relations, BSc in Psychological and Behavioural Science, BSc in Social Policy and BSc in Social Policy and Sociology. This course is available as an outside option to students on other programmes

where regulations permit and to General Course students.

Course content: The course aims to introduce students to sociological theory by examining the work and ideas of normally eight key thinkers in social thought. For each thinker, the course will provide an overview of their contribution to the discipline of sociology, examine in detail one or more of their important texts, and also consider how their analysis could be applied to contemporary social issues.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of classes in the MT. 10 hours of lectures and 15 hours of classes in the LT.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

Formative coursework: Four 2,000 word formative essays or their equivalent (two in MT; two in LT), for feedback from class teachers.

Indicative reading: A detailed reading list will be available at the first lecture, but for general preparatory reading, students might wish to consult the following: D Lee & H Newby, *The Problem of Sociology*; Z Bauman, *Thinking Sociologically*; S Bruce, *Sociology: A Very Short Introduction*.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

Attendance at all classes and submission of all set coursework is required.

SO102

Data in Society: Researching Social Life

This information is for the 2019/20 session.

Teacher responsible: Dr Fabien Accominotti STC.S206

Availability: This course is compulsory on the BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Course content: This course explores how numbers are deployed in social settings, and how they are used in sociology to construct and challenge our understanding of the social world. The first part of the course (taught by Fabien Accominotti) introduces students to the importance of quantification in modern societies, familiarizes them with the main instruments for the collection of quantitative data, and provides them with an overview of the methods used to treat such data in contemporary sociology. We cover both descriptive and explanatory methods, and we reflect on the vision of the social world implicitly associated with each of the methods we encounter. In the second part students start learning basic descriptive skills of quantitative data analysis, notably how to download large data sets, how to manipulate variables and carry out descriptive statistical analyses with statistical software Stata, and how to present statistical information in tabular and graphical form.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 20 hours of classes in the LT. 2 hours of classes in the ST.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

Formative coursework: One 2000 word essay asking students to reflect on the changing use of quantitative data in social scientific research.

Two practical exercises demonstrating basic knowledge of data processing and descriptive statistical analysis using statistical software.

Indicative reading: Gould, Stephen Jay. 1981. *The Mismeasure of Man*. New York: Norton. Desrosières, Alain. 2002. *The Politics of Large Numbers: A History of Statistical Reasoning*. Cambridge: Harvard University Press. Savage, Mike, and Roger Burrows. 2007. "The Coming Crisis of Empirical Sociology", *Sociology* 41: 885-898. Wasserman, Stanley, et Katherine Faust. 1994. *Social Network Analysis: Methods and Applications*. Cambridge: Cambridge University Press. Salganik, Matthew J., Peter S. Dodds, and Duncan J. Watts. 2006. "Experimental Study of Inequality and Unpredictability in an Artificial Cultural Market", *Science* 311: 854-856. Gelman, Andrew, and Jennifer Hill. 2006. *Data Analysis*

Using Regression and Multilevel/Hierarchical Models. Cambridge: Cambridge University Press. Catherine Marsh and Jane Elliot (2008): *Exploring Data* (2nd ed.)

Assessment: Exam (50%, duration: 3 hours) in the summer exam period.

Essay (50%, 3000 words) in the ST.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the second Thursday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

SO110

Power, Inequality, and Difference: Contemporary Themes in Sociology

This information is for the 2019/20 session.

Teacher responsible: Professor Fran Tonkiss STC.S205

Availability: This course is compulsory on the BSc in Language, Culture and Society and BSc in Sociology. This course is available on the BA in Geography, BA in Social Anthropology, BSc in International Social and Public Policy, BSc in Politics, BSc in Politics and International Relations, BSc in Social Anthropology, BSc in Social Policy and BSc in Social Policy and Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course provides an introduction to critical areas of theory and analysis in contemporary sociology. Students will gain an understanding of leading-edge research and debates within the discipline, and of how sociology engages with key real-world problems. The sociological issues covered in the course centre on the ways in which power relations, social and economic inequalities, forms of identity and difference are shaped in contemporary societies – focusing on both formal political and socio-economic structures and everyday experiences and identities. These issues include: class, capitals and social mobility; race, ethnicity and multi-culturalism; politics, social movements and the nation-state; gender, sexuality and the body.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of classes in the MT. 10 hours of lectures and 15 hours of classes in the LT.

Revision sessions in the ST.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

Formative coursework: Two formative essays in MT, one formative essay in LT.

Indicative reading: M. Savage, *Social Class in the 21st Century* (2015); B. Skeggs, *Formations of Class and Gender* (1997); L Back and J Solomos (Eds), *Theories of Race and Racism: A Reader* (2000); A Gutmann (Ed), *Multiculturalism: Examining the Politics of Recognition* (1994); B Anderson, *Imagined Communities* (1983); E Gellner, *Nations and Nationalism* (1983); M. Flinders, *Defending Politics: Why Democracy Matters in the Twenty-First Century* (2012); S Jackson & S Scott (Eds), *Gender: A Sociological Reader* (2002); K Woodward (Ed), *Questioning Identity: Gender, Class and Ethnicity* (2004); G Bhattacharyya *Sexuality and Society* (2002); D Bell and J Binnie, *The Sexual Citizen: Queer Politics and Beyond* (2000).

Assessment: Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 3000 words) in the ST.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Tuesday of Summer Term.

Attendance at all classes is required and submission of all set coursework is compulsory.

S0201

Key Concepts: Advanced Social Theory

This information is for the 2019/20 session.

Teacher responsible: Dr Monika Krause STC S207

Dr Sara Salem STC218

Availability: This course is compulsory on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This course engages key sociological issues through the critical reading of theoretical and analytical texts. Students will engage with advanced concepts in sociological thought, and will explore the connections between theoretical arguments and the practice of social enquiry and analysis. Students will read a combination of social theory texts in a range of traditions as well as contemporary research studies.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of classes in the MT. 10 hours of lectures and 15 hours of classes in the LT.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

Formative coursework: One coursework submission each term is a course requirement.

Indicative reading: There is no set textbook for this course - each week's teaching is based on the critical reading of key texts.

Assessment: Exam (50%, duration: 3 hours) in the summer exam period.

Essay (50%, 3500 words) in the LT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the fourth Thursday of Lent Term.

Attendance at all classes and submission of all set coursework is required.

S0203

Political Sociology

This information is for the 2019/20 session.

Teacher responsible: Dr Robin Archer, STC.S114a

Availability: This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: Political Sociology concerns the way in which political and social factors interact to produce the societies in which we live. This course aims to discuss some central empirical and theoretical questions in the field. The course begins by examining classic comparative debates about the relationship between the development of the state and democracy on the one hand, and the rise of capitalism and liberalism on the other. We will then examine the impact that social cleavages have on parties, elections and other political institutions in a number of different countries. We will examine the strength and political impact of both labour movements and other important social movements. And we will examine why similar countries can develop very different social and economic policies. In addition we will examine some of the founding writings of Marx, Weber and Tocqueville and critically assess the use of political concepts. Throughout the course we will consider some of the main theoretical approaches that are used in the study of political sociology.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

Formative coursework: At least one class presentation and a termly paper in both MT and LT.

Indicative reading: R Dalton, *Citizen Politics*, 5th edn; G Esping-

Andersen, *The Three Worlds of Welfare Capitalism*; E. Gellner, *Nations and Nationalism*; A Giddens, *Capitalism and Modern Social Theory*; R Inglehart, *Culture Shift in Advanced Industrial Society*; J Manza & C Brooks, *Social Cleavages and Political Change*; F Piven and R. Cloward, *Poor People's Movements*; D. Rueschemeyer et al, *Capitalist Development and Democracy*; T Skocpol, *States and Social Revolutions*; S Tarrow, *Power in Movement*.

Assessment: Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 2500 words) in the ST.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Thursday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

S0208

Gender and Society

This information is for the 2019/20 session.

Teacher responsible: Prof Charis Thompson STC.S102 and Dr Billy Holzberg STC.S103

Availability: This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: The course will explore the meaning of gender in contemporary society. It considers gendered relations of power and the articulation of gender with other kinds of social difference such as 'race', class and sexuality. A variety of theoretical perspectives will be applied to a number of substantive issues of contemporary concern.

Indicative topics are: gender and sexuality; the body; families; employment; violence; nation and citizenship; multiculturalism; reproductive technologies; globalisation; sex work; representation; body modification.

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

Formative coursework: Students will be expected to prepare one essay per term and at least one class paper per term which will be written up and handed to the class teacher.

Indicative reading: S Ahmed, *Living a Feminist Life*, Durham and London: Duke University Press, 2017. R Baksh and W Harcourt (Eds.), *The Oxford Handbook of Transnational Feminist Movements*, Oxford, UK: Oxford University Press, 2015. L Gilmore, *Tainted Witness: Why We Doubt What Women Say About Their Lives* (Paperback edition), New York: Columbia University Press, 2018. J Halberstam, *Trans: A Quick and Quirky Account of Gender Variability*, Berkeley, CA: University of California Press, 2018. A Kafer, *Feminist, Queer, Crip*, Bloomington, IN: Indiana University Press, 2013. M Kimmel, J Hearn, R Connell, *Handbook of Studies on Men and Masculinities*, Thousand Oaks, CA: Sage, 2005. R Ray, J Carlson, A Andrews (Eds.), *The Social Life of Gender*, Thousand Oaks, CA: Sage, 2017. C Thompson, *Making Parents*, Cambridge, MA: MIT Press, 2005

A more detailed reading list will be provided at the beginning of the course.

Assessment: Take home exam (100%) in the ST.

Attendance at all classes and submission of all set coursework is required

S0221

Researching London: Advanced Social Research Methods

This information is for the 2019/20 session.

Teacher responsible: Dr Sam Friedman STC. S216

Dr Ioanna Gouseti STC.S105a

Availability: This course is compulsory on the BSc in Sociology. This course is available on the BSc in Language, Culture and Society. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

Course content: This course will provide students with a first understanding of social research design and analysis of social research data. It involves a dynamic introduction to a range of research methods, both qualitative and quantitative, through practical exercises in the context of London's social life.

By the end of the course students will:

- Understand the key role of research design for conducting original empirical social research. In particular, taking into account relevant extant literature, they will develop a research question of their own interest and identify appropriate research method(s) to address it.
- Have engaged with practical research strategies and methods including the design of interview guides and survey questionnaires, conducting qualitative interviews, ethnographic observation, and a survey in the context of London.
- Have a sense of the urban sociology of London and a first-hand experience of its potential for exploring contemporary social issues.
- Be able to analyse different types of data, using a range of methods, such as thematic analysis in the case of qualitative data and regression analysis in the case of quantitative data.
- Be able to assess the quality of employed methodologies on the basis of formal criteria, such as reliability, validity and generalizability.
- Understand the ethical issues involved in social research.
- Have developed a research proposal which will strengthen their dissertation design, and might inform their dissertation topic.

Teaching: 25 hours of workshops in the MT. 25 hours of workshops in the LT.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

Formative coursework: There are two pieces of formative assessment which will be marked and on which you will get feedback in the Michaelmas Term (MT).

Indicative reading: A. Agresti & B. Finlay (2008) *Statistical Methods for the Social Sciences*. 4th edition. Pearson. Bryman, A. (2014). *Social research methods*, 4th edition. Oxford University Press. Converse, J. M., & Presser, S. (1986). *Survey questions: Handcrafting the standardized questionnaire* (No. 63). Sage. Davidson, O'Connell, J., (2008). "If no means no, does yes mean yes? Consenting to research intimacies.", *History of the Human Sciences*, 21(4), 49-67. Duneier, M. (2006). "Ethnography, the Ecological Fallacy, and the 1995 Chicago Heat Wave." *American Sociological Review*, 71(4), 679-88. Ingram, N. (2011). *Within school and beyond the gate: The complexities of being educationally successful and working class*. *Sociology*, 45(2), 287-302. O'Reilly, K. (2004). *Ethnographic methods*. London, New York: Routledge. Savage, M., & Burrows, R. (2007). *The Coming Crisis of Empirical Sociology*. *Sociology: The Journal of the British Sociological Association*, 41(5), 885-899. Tourangeau, R., Rips, Lance J., & Rasinski, Kenneth A. (2000). *The psychology of survey response*. New York: Cambridge University Press.

Assessment: Essay (20%, 1500 words) and presentation (30%) in the LT.

Research proposal (50%) in the ST.

An electronic copy of the assessed essays, to be uploaded to Moodle, no later than 4.00pm on the submission day.

The first assessment, a qualitative interview transcript and 1,500-2000 word essay (20%), is due by the first Thursday of Lent Term.

The second assessment, a group presentation (15 slides maximum) based on the agreed group survey (30%), will be carried

out in Lent Term. Each group presentation will be marked by both the course convenor and the group GTAs, who will then discuss and moderate marks after all the group presentations took place. Marks will take into account the work done by each group in the previous six weeks (questionnaire design, survey data collection and data analysis) as well as the clarity of the presentation itself. The third assessment, a 2,000 word research proposal (50%), is due by the second Thursday of Summer Term. Attendance at all workshops and submission of all set coursework is required.

S0224

The Sociology of Race and Empire

This information is for the 2019/20 session.

Teacher responsible: Dr Sara Salem Room STC S218

Availability: This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Optional Course for BSc Sociology for 2nd and 3rd years and the Diploma in Sociology.

Course content: The course provides an introduction to theoretical, historical and contemporary debates around race, racism and empire. It firstly explores the main theoretical perspectives which have been used to analyse the production of race, racism and colonialism in a historical and contemporary framework, and the role of historical events in creating difference, including the "discovery" of the Americas, the transatlantic slave trade, the expansion of European empires, and the Renaissance and Enlightenment among others. It then examines in more detail the areas both theoretical and lived within our contemporary social and political climate where analyses of 'race', racism, belonging and identity are urgently needed; as well as the ways in which various categories such as class, gender, sexuality, among others, intersect with race. The course adopts a global lens, focusing on theory and cases from across the world. Topics include: race and empire in historical perspective; race and empire in social theory; colonialism, settler colonialism and post-colonialism; biopolitics and difference; capitalism and race; intersectionality; whiteness, diaspora and hybridity; race, genetics, disease and contamination; race and popular culture; global migration and multiculturalism; the Far Right and the white working class; and the role of race and racism in technology and the future.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

Formative coursework: Reading logs in addition to formative essay.

Indicative reading:

- L Back & J Solomos (Eds), *Theories of Race and Racism* (2nd Edition, Routledge 2009);
- K Murji & J Solomos (Eds), *Theories of Race and Ethnicity: Contemporary Debates and Perspectives* (CUP 2014);
- MJ Schueller, *Locating race: Global sites of post-colonial citizenship* (SUNY Press 2009);
- DF Da Silva, *Toward a Global Idea of Race* (U Minnesota Press 2007);
- Y Gunaratnam, *Researching 'Race' and Ethnicity: Methods, knowledge and power* (Sage 2003);
- R Miles, *Racism after Race Relations* (Routledge 1993);
- J Puar, *Terrorist Assemblages: Homonationalism in Queer Times* (Duke UP 2017);
- C Mohanty, *Feminism without Borders: Decolonizing Theory, Practicing Solidarity* (Duke UP 2003);
- H Mirza (Ed), *Black British Feminism* (Routledge 1997);
- K Owusu (Ed), *Black British Cultural Studies* (Routledge 1999);

- D T Goldberg, *Racist Culture* (Blackwell 1993);
- P Gilroy, *There Ain't No Black in the Union Jack* (Hutchinson 1987);
- E Baptist, *The half has never been told: Slavery and the making of American capitalism* (Hachette 2016);
- P Hill Collins, *Black Feminist Thought* (Routledge 1991);
- F Fanon, *Black skin, White Masks* (Grove press 2008);
- D T Goldberg (Ed), *Multiculturalism: A Critical Reader* (Blackwell 1994);
- P.H. Collins & J. Solomos (eds) *Sage Handbook of Race and Ethnic Studies* (Sage 2010);
- A Roy, *The Doctor and the Saint: Caste, Race, and Annihilation of Caste, the Debate between BR Ambedkar and MK Gandhi* (Haymarket 2017).

Assessment: Essay (50%, 3000 words) in the ST.

Presentation (20%) and literature review (30%) in the LT.

An electronic copy of the assessed essays, to be uploaded to Moodle, no later than 4.00pm on the submission day.

The first assessed literature review is due on the first Thursday of Lent term and the second assessed essay is due by the third Thursday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

S0232 Half Unit

Sociology of Health and Illness

This information is for the 2019/20 session.

Teacher responsible: Dr Carrie Friese STC S213

Availability: This course is available on the BSc in Sociology.

This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: No specific pre-requisites, but this course is only open to second and third year students in Sociology and other programmes. It is not available as a first year option.

Course content: Sociology of Health and Illness explores the ways in which experiences of health and illness are socially patterned. We will also ask how the management of health and illness organizes social life. To explore experiences of health and illness, we will look at how specific 'medical disorders' (e.g., ageing, cancer, mental health, disabilities, reproductive and sexual health, obesity etc.) are 'embodied' in socially patterned ways. Empirical studies of specific disorders will be read, in conjunction with analysis of other kinds of texts (e.g., popular writing, film, performance art, museum exhibits, etc.). To address how the management of health and illness organizes social life and vice versa, key theories in the sociology of health and illness will be explored. This will include Parsons's sick role; Weberian and feminist understandings of professional dominance; medicalization, demedicalization and biomedicalization; stigma and stigmatization; health inequalities and the social determinants of health; and Foucaultian notions of surveillance, biopolitics and governmentality.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. Teaching will comprise of a one hour lecture and one hour class each week.

Reading Weeks: Students on this course will have a reading week in MT Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 piece of coursework in the MT.

The assessed examination is supported by ONE take home, mock examination that is formative.

Indicative reading: S Nettleton *The Sociology of Health and Illness* (2006) P Starr, *The Social Transformation of American Medicine* (1982), A Nelson *Body and Soul: The Black Panther Party and the Fight Against Medical Discrimination* (2011), M Foucault *The Birth of the Clinic: An Archaeology of Medical Perception* ([1973] 1994), I Hacking *The Social Construction of What?* (1999), A Frank, (1997) *The Wounded Storyteller: Body, Illness and Ethics* (1997), E Martin *Bipolar Expeditions: Mania and Depression in American Culture*

(2007), J Latimer *The Gene, The Clinic and the Family* (2013), S Kaufman (2015) *Ordinary Medicine*, Eugene Raikhel and William Garriott (2013) *Addiction Trajectories*

Assessment: In class assessment (20%) in the MT.

Take home exam (80%) in the LT.

Weight 80%

Type –seen take-home exam where 3 questions need to be answered from 6 questions

Number of words: No more than 1,300 words per answer, and 3,600 words in total

Timing of submission: LT Week 0

AND

Weight 20%

Type-Participation. Students are to make TWO comments on the Moodle discussion board and respond to TWO other student's comments from Weeks 1-11. The best mark of the two comments, and the best mark of the two responses will be averaged to give the participation mark.

Number of words. No more than 300 words per comment

Timing of submission: No later than 10:00 am on Friday of Weeks 3, 5, 8, 11

Assessed take home exam due in LT Week 0 (the week before the start of LT). A copy to be uploaded to Moodle by the specified time. Attendance at all classes and submission of all set coursework is required.

S0234 Half Unit

Digital Technology, Speed and Culture

This information is for the 2019/20 session.

Teacher responsible: Prof Judy Wajcman STC S203

Availability: This course is available on the BSc in Sociology.

This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: No specific pre-requisites, but this course is only open to second and third year students in Sociology and other programmes. It is not available as a first year option.

Course content: This course aims to give students a detailed understanding of sociologically informed approaches to the social studies of science and technology. It will consider how macro theories of post-industrial society (from Bell to Castells) have conceptualised the role of technology in social change. It will then look at the development of STS as a field that highlights the constitutive role of objects and artefacts in social relations. In other words, it will reflect upon sociology's traditional neglect of the social life of things or materiality. These broad themes will then be elaborated substantively. First, by considering the role of technology in reconfiguring time, speed, space and mobility. Second, by considering power relations and social inequalities embedded in digital technologies, such as the Internet and mobile phones. Third, by treating technology as a culture that shapes gender identities, such as those that find expression in the virtuality of cyberspace. The course will draw on examples from a variety of domains including information and communication technologies, robotics, cyborgs, sex, and weapons.

Teaching: 10 hours of lectures and 10 hours of classes in the MT.

Reading Weeks: Students on this course will have a reading week in Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

ONE formative essay of 1,200 words will be due at the end of Week 6 of Michaelmas Term.

Indicative reading: MacKenzie, D. and Wajcman J. (1999) *The Social Shaping of Technology* (MIT Press). Suchman, L. (2007) *Human-Machine Configurations* (CUP). Turkle, S. (2011) *Alone Together* (Basic Books). Wajcman, J. (2015) *Pressed for Time* (Chicago University Press). Wajcman, J. (2014) *TechnoFeminism* (Polity Press).

Assessment: Essay (100%, 3000 words) in the MT.

The course is assessed by ONE summative essay of 3,000 words that is worth 100% of the total mark.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the submission day. Assessed essay due Thursday of Week 11 of MT.

Attendance at all classes and submission of all set coursework is required.

SO235 Half Unit

The Sociology of Homicide

This information is for the 2019/20 session.

Teacher responsible: Dr Janet Foster

Availability: This course is available on the BSc in Criminology, BSc in Social Policy and Sociology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: Preferable, but not compulsory, that students should have taken SO210 Crime Deviance and Control – this is currently a full unit course. Criminology students from Social Policy Department would be eligible in either year 2 or 3 but preferable again for them to take this course after they have taken SP270.

Course content: This half-unit course examines patterns of homicide in different contemporary societies with different social and political contexts (for example, Russia, Jamaica, USA, Colombia, South Africa, and Britain) and the explanations for their contrasting homicide incidence. We explore the differences between fictional representations of murder and its actualities both in terms of type/prevalence, as well as investigative practices. The importance of class, gender and race in patterns of homicide victimisation are explored, as well as the experiences of victims' families and the significance of murder in contemporary society.

Teaching: 30 hours of workshops in the LT.

Course Outline

- 1. Introduction:** What is homicide? Definitions and the issues associated with them. Different types of homicide and global variations. The issues and problems associated with researching homicide.
- 2. Sherlock Holmes and CSI:** The impact of crime fiction and the media in perceptions of homicide
- 3. Patterns of homicide:** Using case studies from different countries and different social and political contexts (e.g. Russia, Jamaica, USA, Colombia, South Africa, and Britain) we explore different patterns of homicide and explanations for these patterns.
- 4. Gender and homicide:** Exploring the public/private dimensions of homicide and differential risk
- 5. Race and homicide:** Homicide disproportionately affects Black and minority ethnic victims yet this receives relatively little sociological attention. We explore these patterns of homicide and the reasons for it.
- 6. Reading week**
- 7. Investigating homicide:** How do homicide investigations work? What are the issues associated with self-solver and 'who-dunnit' investigations? What issues affect the likelihood of perpetrators being caught?
- 8. Homicide perpetrators:** Why do homicides occur and what do we know about perpetrators?
- 9. Living a life sentence:** the experiences of murder victims' families.
- 10. Presentations**
- 11. Synthesis:** The sociological significance of homicide

Formative coursework: Students will be expected to produce 1 piece of coursework in the LT.

Students are expected to read, and prepare in advance, for each of the workshops. Students must complete either a 1,500 word essay, or a poster, to be submitted in week 8, on one of the topics covered in weeks 2-5 of the course.

Indicative reading: Allsop, C. (2018) *Cold Case Reviews: DNA, Detective Work and Unsolved Major Crimes* Oxford: Oxford University Press. Brookman, F et al (2017) *The Handbook of*

Homicide Chichester: Wiley. Brookman, F (2005) *Understanding Homicide* London: Sage. Innes, M (2003) *Investigating Homicide* Oxford: Oxford University Press. Leovy, J (2015) *Ghettoside: investigating a homicide epidemic* London: Random House. Pridemore, W (2005) 'Social structure and homicide in post-Soviet Russia' *Social Science Research* Vol. 34 (4) pp732-756. Morris, P and Graycar, A (2011) 'Homicide through a different lens' *British Journal of Criminology* Vol. 51 (5) pp823-838. Policing and Society (2013) Vol. 23, No. 3 Special Issue on homicide. UNODC (2013) *Global Study on Homicide: Trends/Context/Data* United Nations Office on Drugs and Crime. Wilson, D (2009) *A History of British Serial Killing* London: Sphere

Assessment: Essay (80%, 3000 words) in the ST.

Presentation (20%) in the LT.

The essay length is between 2,500-3000 words.

SO236 Half Unit

Urban Society

This information is for the 2019/20 session.

Teacher responsible: Dr David Madden STC.S209

Availability: This course is available on the BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is available to students in Year 2 and Year 3.

Course content: This course is an introduction to urban sociology and urban studies. The course is organised around a set of key concepts for developing a critical understanding of urban space today. These key concepts may include terms such as density, inequality, planning, neighbourhood life, public space, migration, infrastructure, displacement, globalisation, urban renewal, gentrification, informality, exclusion, marginality, difference, or social movements. The course will draw on a variety of texts that illuminate and interrogate city life from a variety of sociological perspectives, so in addition to academic studies, students will analyse planning reports, historical documents, first-person literary essays, visual materials, and other representations of the urban experience.

Teaching: 10 hours of lectures and 10 hours of classes in the LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Formative coursework will be due by the start of week 7. It will consist of writing a short 500 word essay asking students to take an original photograph and use it as the basis for a reflection on one of the key concepts explored in class. This reflection will serve to prepare students for their summative essay.

Indicative reading:

- Lewis Mumford, *The City in History* (New York: Harcourt, 1989 [1961])
- Jane Jacobs, *The Death and Life of Great American Cities* (New York: Vintage, 1992 [1961])
- Arjun Appadurai, "Spectral Housing and Urban Cleansing: Notes on Millennial Mumbai," *Public Culture* 12: 627-651 (2000)
- Atkinson, Rowland, and Gary Bridge, eds. *Gentrification in a Global Context* (New York and London: Routledge, 2004)
- Sharon Zukin, "Urban lifestyles: diversity and standardisation in spaces of consumption," *Urban Studies* 35: 825-839 (1998)
- Robert Neuwirth, "Squatters and the cities of tomorrow," *CITY* 11: 71-80 (2008)
- Neema Kudva, "The Everyday and the Episodic: The spatial and political impacts of urban informality," *Environment and Planning A* 41: 1614-1628 (2009)
- AbdouMalik Simone, *For the City Yet to Come: Changing African life in four cities* (Durham, USA: Duke University Press, 2004)
- Saskia Sassen, "Cities: A window into larger and smaller worlds." *European Educational Research Journal* 11: 1-10 (2012)
- Suzanne M. Hall, "Migrant urbanisms: Ordinary cities and everyday resistance," *Sociology* 49: 853-869 (2015)

These texts are examples of the articles and books from sociology

and urban studies that the course will examine. The course will also analyse texts from various other urban-oriented fields and genres.

Assessment: Exam (70%, duration: 2 hours) in the summer exam period.

Essay (20%, 1500 words) and class participation (10%) in the LT. There will be three summative assessments: a final exam, a short essay, and participation in seminars.

Final exam at the end of the term: 70%

Short illustrated essay (1500 words) on one of the concepts explored in class, due in week 11: 20%

Seminar participation: 10%

S0302

The Sociological Dissertation

This information is for the 2019/20 session.

Teacher responsible: Prof Fran Tonkiss STC.S205

Availability: This course is compulsory on the BSc in Sociology. This course is available on the BSc in Language, Culture and Society. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students undertaking this course need to have completed the first two years of the BSc in Sociology.

Course content: The dissertation takes the form of an independent and extended research project of 10,000 words on a sociological topic of the students' choosing, developed in consultation with their Academic Mentor. The dissertation process includes reviewing relevant literature on the topic of study, formulating a viable and sociologically-relevant research problem, collecting and analysing primary and/or secondary data (such as a case study, data set, fieldwork observations, survey results or interviews), and writing up an independent analysis based on this research.

Students' work on the dissertation is supervised in small-group and individual tutorials with their Academic Mentor over MT and LT. The Dissertation process is supported by a series of compulsory group workshops in the MT and LT which focus on research project design. The workshops cover topics such as identifying a sociological problem for investigation, constructing a bibliography, research ethics, research access, data collection, data analysis, writing up and trouble-shooting.

Teaching: 7 hours and 30 minutes of seminars in the MT. 7 hours and 30 minutes of seminars in the LT. Seminars will be structured as follows: 5 x 1.5 hour seminars in the MT. 5 x 1.5-hour seminars in the LT.

In addition, 5 x 1.5-hour small-group tutorials with Academic Mentors in MT. 2 x individual supervisions with Academic Mentors plus drop-in sessions in LT.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

Formative coursework: One piece of formative coursework in the MT.

Assessment: Research proposal (10%) in the MT.

Research project (90%) in the ST.

The research proposal will be in the form of a research project outline.

Assessment Particulars: Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Sociology Hub, STC.S116, no later than 4.00pm on the second Thursday of ST. An additional electronic copy to be uploaded to Moodle no later than 4.00pm on the same day. Both hard copies and electronic copies must be submitted on time to avoid any late submission penalties.

Dissertations may be up to and no more than 10,000 words, must be word-processed and be fully referenced using a recognised citation system.

Attendance at all classes and submission of all set coursework is required.

S0309 Half Unit

Atrocity and Justice

This information is for the 2019/20 session.

Teacher responsible: Dr Claire Moon STC S109

Availability: This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

Sociology students will be given priority.

This course cannot be taken in conjunction with IR312 Genocide.

Pre-requisites: No specific pre-requisites, but this is open only to 2nd and 3rd year students in Sociology and other programmes. It is not available as a 1st year option.

Course content: The course will cover a number of issues relevant to the study of atrocity and justice for atrocity. It looks at the social construction of atrocities, the Genocide Convention, structural approaches to understanding genocide (modernity, democracy and colonial rule), the perpetrators, victims and witnesses of atrocity, the problem of denial of state crimes, historical injustices in Australia, Canada and the US, forensic investigations of atrocity, retributive and restorative approaches to justice for atrocity, truth commissions and war crimes tribunals.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. 2 hours of seminars in the ST.

Reading Weeks: Students on this course will have a reading week in LT Week 6, in line with departmental policy.

Formative coursework: Formative assessment will be as follows:

1. Class presentation: students will conduct one class presentation and will receive detailed feedback which will focus on points for improvement for the assessed components;
2. Practice essay: students will carry out one practice essay during week 6 (reading week) of the LT. They will receive detailed feedback for this in preparation for the summative assessments.

Indicative reading: Arendt, Hannah (1994) *Eichmann in Jerusalem: A Report on the Banality of Evil* (New York: Penguin Books).

Bauman, Zygmunt (1989) *Modernity and the Holocaust* (Cambridge: Polity). Browning, Christopher (1992) *Ordinary Men: Reserve Police Battalion 101* (New York: HarperCollins): Cohen, Stan (2001) *States of Denial* (Cambridge: Polity Press).

Hacking, Ian (1999) *The Social Construction of What?* (Cambridge: Harvard University Press).

Jones, Adam (2011) *Genocide: A Comprehensive Introduction*, 2nd edition (London: Routledge). Wilson, Richard (2001) *The Politics of Truth and Reconciliation in South Africa: Legitimizing the Post-Apartheid State* (Cambridge: Cambridge University Press).

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Essay (40%, 2500 words) in the ST.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Tuesday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

S0310 Half Unit

The Sociology of Elites

This information is for the 2019/20 session.

Teacher responsible: Prof Michael Savage STC S210

Availability: This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: No specific pre-requisites, but this course is only open to 2nd and 3rd year students in Sociology and other programmes. It is not available as a 1st year option.

Course content: In the early 21st century, there is a new fascination with the super-rich, the 1%, the 'elites'. This course

therefore aims to expose students to the challenges and excitements of studying this small but very significant social class, using cutting edge research on recent trends as well as important older studies.

Teaching: 10 hours of lectures and 10 hours of seminars in the LT. 1 hour of seminars in the ST.

Reading Weeks: Students on this course will have a reading week in LT Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Formative assessment will be through a 2000 word essay to be handed in on the Monday of Week 7, directly after Reading Week. Students will also be asked to give presentations in seminars, and informal feedback will be given on these.

Indicative reading: Piketty, T., (2014), *Capital in the 21st Century*, Boston, Harvard UP. Khan, S., (2010), *Privilege*, Princeton, Princeton UP. Dorling, D., (2014), *Inequality and the 1%*, London, Verso.

Savage, M., and Williams, K., (eds) (2008), *Remembering Elites*, Oxford, Blackwells. Scott, J., (1982), *The Upper Class*, Macmillan.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 2000 words) in the ST.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the submission day.

Attendance at all classes and submission of all set coursework is required.

S0312 Half Unit Work, Inequality and Society

This information is for the 2019/20 session.

Teacher responsible: Dr Patrick McGovern STC.S110

Availability: This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: No specific pre-requisites, but this course is only open to 2nd and 3rd year students in Sociology and other programmes. It is not available as a 1st year option.

Course content: Sociological perspectives on cross-national differences in employment and social inequality.

Theoretical perspectives on inequality; gender in the labour market; occupational segregation; the 'glass ceiling'; immigrant employment; race, ethnicity and discrimination; social class at work; class reproduction in elite firms; the rise of wage inequality; and income inequality in the mass media.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. Reading Weeks: Students on this course will have a reading week in MT Week 6, in line with departmental policy.

Formative coursework: 1,500 word essay due in Week 8 of MT.

Indicative reading: Tilly, C. & C. Tilly (1998) *Work Under Capitalism*; Grint, K. (2005) *The Sociology of Work* (3rd ed.);

D. Grusky, (2014) (4th ed) *Social Stratification*; Hakim, C. (2004) *Key Issues in Women's Work* (2nd ed.); McGovern, P. et al. (2007) *Market, Class, and Employment*; Padavic, I. & Reskin, B. (2002) *Women and Men at Work*; G. Payne (ed) (2013) *Social Divisions*, L. Platt (2011) *Understanding Inequalities*

Further reading will be detailed in the course syllabus.

Assessment: Essay (75%, 3000 words) in the LT.

Presentation (10%) and blog post (15%) in the MT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the submission day. Assessed essay due Wednesday of Week 1 in LT.

Attendance at all classes and submission of all set coursework is required.

S0313 Half Unit

Material Culture and Everyday Life

This information is for the 2019/20 session.

Teacher responsible: Don Slater S310

Availability: This course is available on the BSc in Social Policy and Sociology and BSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is available as an option course to second and third year students on the BSc in Sociology, and as an outside option for students in other departments.

Pre-requisites: No specific pre-requisites, but this course is only available to second and third year students in Sociology and other programmes. It is not available as a first year option.

Course content: The course focuses on how 'things' enter into and mediate everyday social relations and practices. Students will consider all aspects of the social life of things, from design and production through use, consumption and everyday practices. This will allow them to address a range of long-standing theoretical and political concerns within sociology such as the role of objects and materiality in social life; social organizations of objects and exchange, such as consumer culture; design, technology and innovation; and the socio-political status of 'everyday life' itself. At the same time, there will be a strong methodological emphasis: not just how do we study objects in everyday life, but how might such studies impact on social research more generally.

The course will rely heavily on case studies. After mapping out central traditions in material culture studies, the course will focus on 2-3 strategically chosen objects to explore analytical and methodological issues (eg, mobile phones, water, bicycles, food, supermarkets, etc). Cross-cultural differences will be raised throughout but at least one of the cases will be predominantly focused on major global difference.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. Reading Weeks: Students on this course will have a reading week in MT Week 6, in line with departmental policy.

Formative coursework: Students will be expected to produce 1 essay in the MT.

1,500 word essay, due after reading week, in which students are asked to analyse an object from the standpoint of one of the theoretical perspectives introduced in the course. They will additionally submit a short research outline (probably 1-2 A4 sides) on which they can base their work towards the summative assessment.

Indicative reading: Drazin, A. & Küchler, S. (eds.) (2015) *The social life of materials: Studies in materials and society*. Bloomsbury Academic, London. Gunn, W., Otto, T. & Smith, R. C. (2013) *Design anthropology: Theory and practice*. Bloomsbury Academic, London. Latour, B. (2005) *Reassembling the Social: An Introduction to Actor-Network-Theory*. Oxford: Oxford University Press.

Lury, C. (2011) *Consumer culture*, 2nd ed. Polity, Cambridge. Miller, D. (2008) *The comfort of things*. Polity, Cambridge. Molotch, H. (2003) *Where Stuff Comes From: How Toasters, Toilets, Cars, Computers and Many Other Things Come to Be as They Are*. New York and London: Routledge. Shove, E., M. Hand, J. Ingram and M. Watson (eds.) (2007) *The Design of Everyday Life*. Oxford: Berg.

Assessment: Research report (100%) in the LT.

A 3,000 word research report on an object of the student's choosing in which they are asked to address a clear list of considerations such as design, material properties, social practices and uses, methodological questions and so on.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Thursday of Lent Term. Attendance at all classes and submission of all set coursework is required.

SP100

Understanding International Social and Public Policy

This information is for the 2019/20 session.

Teacher responsible: Dr Isabel Shutes OLD.2.58

Availability: This course is compulsory on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics and BSc in International Social and Public Policy with Politics. This course is available on the BSc in Criminology, BSc in Politics and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students. Places on this course are limited to 45 and priority is given to Social Policy students in the first instance, for whom this is a core course.

If places remain available once Social Policy students have been accommodated, they will be offered on a first come first served basis to students from outside the department.

This course is not available to third year students.

Course content: The course introduces students to the study and practice of international social and public policy. It considers how and why societies organise to address social needs, with reference to policy and academic debates across so-called developed and developing country contexts. In the first half of the course, we consider different approaches to conceptualising the organisation of activities to address social needs. We examine the development of and changes to welfare systems and strategies in different contexts, and the roles and relationships of the state, market, civil society and families, drawing on selected country case studies. In the second half, we examine how individuals are positioned in different ways in welfare systems and strategies (e.g. as citizens, consumers, activists), with reference to different policy agendas and institutional reforms, and to the implications for the agency of people in addressing social needs.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT.

Formative coursework: Students are expected to participate actively in course activities and to complete two formative essays and a mock exam.

Indicative reading: Daly, M. (2011) *Welfare*. Cambridge: Polity. Garland, D. (2016) *The Welfare State: A Very Short Introduction*. Oxford: Oxford University Press. Garthwaite, K. (2017) "I feel I'm giving something back to society": constructing the 'active citizen' and responsabilising foodbank use', *Social Policy & Society*, 16: 2, 283-292. Kabeer, N., Cook, S. (2000) 'Revisioning social policy in the South: challenges and concepts', *IDS Bulletin*, 31: 4, 1-18. Lewis, D. (2017) 'Should we pay more attention to South-North learning?', *Human Service Organisations: Management, Leadership and Governance*, 41: 4, 327-331. Powell, M. (2007) *Understanding the Mixed Economy of Welfare*. Bristol: Policy Press.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

SP101

Foundations of Social Policy Research

This information is for the 2019/20 session.

Teacher responsible: Dr Kitty Stewart

Availability: This course is compulsory on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics and BSc in International Social and Public Policy with Politics. This course is not available as an outside option nor to General Course students.

Course content: This course is concerned with two questions that are essential to the study of social and public policy. First, *how do we know* what policies are needed, how they are experienced and whether they are effective? And second, *how is this knowledge used*: how (if at all) does it feed into the policy process and improve

policies and outcomes?

SP101 aims to equip students to become informed consumers of research, able to read and evaluate research outputs that use a range of different approaches and methods to address questions in social and public policy. Students will be encouraged to think critically about the way that knowledge is constructed, about the nature of expertise, and about the influence of values and positionality on knowledge production. They will learn to assess the validity of claims made on the basis of research studies that use a range of different methods. The course will also explore the way evidence is used in policy making and in public discourse. The course provides the foundations for students to become active researchers themselves in later stages of the BSc ISPP degrees, preparing them for the second year research methods course and for their third year dissertation.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

The course is taught in weekly blocks, consisting of a 1 hour lecture and a 1.5 hour class. To prepare for classes, students will be allocated two key readings each week. Usually these will be examples of social policy research, including book extracts, journal articles and research reports. Students must come to class having done the required reading. Students will also be expected to give class presentations during the course of the year, usually working in groups. As well as presentations, class activities will include small group work, class discussion, debates and quizzes.

Formative coursework: Students will be expected to produce 1 piece of coursework in the MT and 2 pieces of coursework in the LT.

Formative work through the year will prepare students for the summative assessment. Students will submit and receive feedback on three 500 word critiques of research articles. They will also have the opportunity to check their understanding in quizzes in class.

Indicative reading: Becker, S., Bryman, A. and Ferguson (2012) *Understanding Research for Social Policy and Social Work: Themes, Methods and Approaches*. 2nd Edition. London: Policy Press. Bryman, A. (2012) *Social Research Methods*, 4th edition. Oxford University Press. Della Porta, D. and Keating, M. (2008) *Approaches and Methodologies in the Social Sciences*. Cambridge: CUP. Gilbert, N. (2008) *Researching Social Life* 3rd ed. London: Sage. Hill Collins, P. and Bilge, S. (2016) *Intersectionality (Key Concepts)*. London: Polity Press. Howard, C. (2017) *Thinking Like a Political Scientist*. Chicago, IL: University of Chicago Press. Parkhurst, J. (2017) *The Politics of Evidence: From evidence based policy to the good governance of evidence*. Abingdon, Oxon: Routledge.

Assessment: Essay (100%, 3000 words) in the ST.

SP110

Sociology and Social Policy

This information is for the 2019/20 session.

Teacher responsible: Thomas Biegert OLD 2.53

Availability: This course is compulsory on the BSc in Social Policy and BSc in Social Policy and Sociology. This course is available on the BSc in Criminology, BSc in International Social and Public Policy, BSc in International Social and Public Policy with Politics, BSc in Politics, BSc in Politics and International Relations and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Course content: This course introduces students to sociological ideas and thinking and how they link to key social policy issues. The course is organised around six major social policy concerns: gender inequalities; educational opportunity and inequality; class mobility and stratification; social networks and social segregation; neighbourhood deprivation and housing; ethnic and racial inequalities.

These are related to key classical and contemporary theoretical

perspectives and concepts that have been used to describe and explain them, such as occupational segregation, discrimination, cultural and social capital, institutions, socialisation, identity and belonging, and intergenerational transmission of status, values and resources.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of classes in the MT. 10 hours of lectures and 15 hours of classes in the LT. 1 hour of lectures in the ST.

Formative coursework: One essay in the MT
An optional additional essay in the LT

Indicative reading: The course will draw on three core texts, as well as academic journal articles: David Grusky, D. and Szelenyi, S. (eds.) 2011 *The Inequality Reader: Contemporary and Foundational Readings in Race, Class, and Gender*. 2nd Edition. Westview Press Oxford University Press. Payne, G. (ed.) 2013 *Social Divisions*. Third Edition. Palgrave Macmillan. Platt, L. 2019 *Understanding Inequalities: Stratification and Difference*. 2nd Edition. Polity Press. For those unfamiliar or without a background in Sociology, the following text provides useful background: Fulcher, J. and Scott, J. (2011) *Sociology*, 4th Edition.

Assessment: Exam (75%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.
Essay (25%, 1500 words) in the LT.

SP111

Social Economics and Policy

This information is for the 2019/20 session.

Teacher responsible: Prof John Hills OLD 2.62

Availability: This course is available on the BSc in Criminology, BSc in International Social and Public Policy, BSc in International Social and Public Policy with Politics, BSc in Politics, BSc in Politics and International Relations and BSc in Psychological and Behavioural Science. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Places on this course are limited and priority is given to Social Policy students in the first instance. If places remain available once Social Policy students have been accommodated, they will be offered on a first come first served basis to students from outside the Department.

This course is not available to third year students.

Pre-requisites: No prior knowledge of economics is required.

Course content: This course provides an introduction to the economics of social policy and the economics of the income distribution. The course begins by introducing basic economic concepts and principles and discussing their application to different social policy areas, including childcare, education, health care, social care, housing and the environment. Key concepts include supply, demand and elasticities, externalities and market failure, private insurance and social insurance.

The course goes on to analyse the distribution of household income and the drivers of poverty and inequality, including unemployment, low wages and wage inequality. It covers concepts of human capital and productivity and looks at a range of policy responses, including minimum wage legislation, trade union policy, government economic management, taxation and the social security system.

Throughout, the course emphasises the importance of understanding political goals in assessing the effectiveness or justice of economic and social policies, and seeks to encourage students to draw on both theory and empirical evidence in addressing its core questions.

The course is taught without mathematics and is designed to be suitable both for students with no prior knowledge of economics and for those who have taken A level economics.

Teaching: 10 hours of lectures and 15 hours of classes in the MT. 10 hours of lectures and 15 hours of classes in the LT. 1 hour of lectures and 1 hour and 30 minutes of classes in the ST.

Formative coursework: Students will be expected to complete

exercises as required for classes, a mock exam and will write up to three formative essays during the course of the year.

Indicative reading: J Le Grand, C Propper & R Robinson, *The Economics of Social Problems*, Fourth Edition, Palgrave, 2008. R Lipsey and A Crystal, *Economics*, 13th edition, OUP, 2015 (or earlier edition). N Barr, *Economics of the Welfare State*, Fifth Edition, OUP 2012. H Glennerster, *Understanding the Cost of Welfare*. The Policy Press, 2017. J Hills, *Good Times, Bad Times: The Welfare Myth of Them and US*, Revised edition, The Policy Press, 2017. A B Atkinson, *Inequality: What Can Be Done?* Harvard University Press, 2015.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

SP112

Politics of Social Policy Making

This information is for the 2019/20 session.

Teacher responsible: Dr Timothy Hildebrandt OLD.2.56
Dr Hakan Seckinelgin OLD.2.27

Availability: This course is available on the BSc in Criminology, BSc in International Social and Public Policy and BSc in International Social and Public Policy with Politics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Course content: The course introduces students to the way in which social and public policies are developed. It aims to provide tools to understand how policies are produced through political disagreement and negotiations and how policies reflect different needs and problems voiced by groups in societies. It focuses on the ways in which policy processes and decision making can be analysed. The course focuses on different models that are used in the analyses of policy processes in different international contexts. Furthermore, it links different analytical approaches to policy processes with political considerations of how political problems are framed and how policy goals are established. The course looks at these issues from the perspective of different actors and the ways in which different actors interact with each other within policy processes. The course brings together critical analytical frameworks for policy processes with empirical problems (cases). The course enables students to understand that policy processes are both about understanding society and shaping it. Furthermore, it introduces students to the various policy actors, including international actors and how these actors work together within socio-political and economic constraints. It also highlights the importance of identifying and understanding the different value positions and the associated negotiations that underwrite policy processes.

Teaching: 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures, 15 hours of seminars and 4 hours of workshops in the LT.

The course is taught in 150 min blocks with some breaks in a combined short lecture, presentations and student group work. We will invite participants from our alumni network to bring their policy-making experiences into the course. We will have student poster presentations in LT.

Formative coursework: Students will be expected to produce 4 exercises and 2 presentations in the MT and LT.

Students will be expected to produce 4 x 500 word commentaries on specific questions and 2 presentations in the MT and LT. Students will be working in groups which will present short in-class exercises. Through group work and the feedback they will get throughout the 2nd half of MT and the 1st half of LT we will provide support for their poster preparations and presentations.

Indicative reading: Fischer, Frank (2010) *reframing Public Policy: Discursive Politics and Deliberative Practices*. London: OUP. Hoppe, Robert (2011) *The Governance of Problems: Puzzling, Powering and Participation*. Bristol: Policy Press. Kingdon, J. (1995) *Agendas, alternatives and public policies*, NY: Longman. Ostrom, Elinor (2015) *Governing the Commons: the Evolution of Institutions for Collective Action*. London: CUP. Pawson, Ray (2013) *The Science of*

Evaluation. London: Sage. Stone, Deborah (2012) *Policy Paradox: The Art of Political Decision Making*. NY: Norton.

Assessment: Coursework (30%, 500 words) in the MT and LT. Presentation (25%, 500 words) in the LT. Report (45%) in the ST.

We will assess students at three stages:

- 4 short 500 word policy commentaries on specific questions which will be completed across the year. Students will get feedback on each and, the best of these will be taken as their 30% coursework mark;
- Students will be put into groups of 4 on week 5 of MT to choose a policy area of interest and use it to link analytical discussions from the class to their own analysis of a particular policy implemented in that field. Each group is expected to produce (with the support of their teachers) a poster to discuss their analysis and to present to the class during the LT. This exercise (both the production and presentation) will contribute 25 % overall mark.
- Each student will write a 750 word report on their presentation and on the feedback they receive on their contribution to the poster. This is due in ST and will be the final 45% of their overall mark for the course.

SP200

Comparative and International Social Policy

This information is for the 2019/20 session.

Teacher responsible: Dr Timo Fleckenstein OLD.2.60

Availability: This course is compulsory on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: This course is only available to students who have completed Foundations of Social Policy (SA100).

Course content: The course introduces the comparative method in social policy research as well as the main analytical approaches to understanding social policy developments. It provides an overview of social policies in different areas of the world and enables students to identify global pressures on national policy environments.

The course also examines the impact of key international and supranational institutions on social policy-making. It investigates the welfare and work nexus from a comparative perspective.

Teaching: 10 hours of lectures and 13 hours and 30 minutes of classes in the MT. 10 hours of lectures and 15 hours of classes in the LT. 1 hour of classes in the ST.

Formative coursework: Students are expected to submit one piece of formative written work and are expected to read for and prepare contributions to class discussion each week.

Indicative reading: K Armingeon & G Bonoli (Eds), *The Politics of Post-Industrial Welfare States* (2006). F Castles, *The Future of the Welfare State* (2004). J Clasen, *Reforming European Welfare States* (2004). B Deacon, *Global Social Policy and Governance* (2007). I Gough & G Wood (Eds), *Insecurity and Welfare Regimes in Asia, Africa and Latin America* (2004). L Hantrais, *Social Policy in the European Union* (2007). J Lewis, *Work-Family Balance, Gender and Policy* (2009). P Taylor-Gooby (Ed), *New Risks, New Welfare* (2005).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

SP201

Research Methods for Social Policy

This information is for the 2019/20 session.

Teacher responsible: Dr Amanda Sheely OLD.2.52

Availability: This course is compulsory on the BSc in Criminology, BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is not available as an outside option nor to General Course students.

Course content: The course aims to give students a comprehensive introduction to methods of social research in social policy.

By the end of the course students should:

1. Be familiar with the stages of the research process and different approaches to social policy research.
2. Appraise different methods and their appropriateness to particular questions.
3. Be able to conduct and clearly present the results of basic analyses of quantitative and qualitative data.
4. Be able to critically assess research studies and their use of methods.
5. Understand the ethical issues involved in conducting research.

Teaching: The course combines two elements:

SA201.2 Research Methods for Social Policy: Dr A. Sheely
MT Lectures: 10 x 1hr SA201.2. Classes: 10 x 1.5 hr SA201.2.

SA201.1 Data Analysis for Social Policy: Dr A. Sheely
Lectures: 9 x 1hr SA201.1. 1x 2hr SA201.1 Classes: 10 x 1.5 hr SA201.1.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 piece of coursework in the LT.

For SA201.2, students will submit a critique of an assigned research article.

For SA201.1, students will create and present a poster that outlines the design of their research study, including an overview of the literature, their research question, qualitative and quantitative sampling and data collection strategies, and ethical considerations.

Indicative reading: Marilyn Lichtman (2014) *Qualitative Research for the Social Sciences*. Sage Publications. Robert de Vries. (2018) *Critical Statistics: Seeing Beyond the Headlines*. Macmillan International. Alan Acock (2016) *A Gentle Introduction to Stata*, 5th edition. Stata Press.

Assessment: Essay (30%, 2000 words) in the MT.

Essay (70%, 5000 words) in the ST.

The first assignment asks students to apply their learning from the Michaelmas Term to critique two research articles. This critique will include identifying the methods used, their appropriateness to the particular questions being addressed, the sample and measurements used and the validity of the conclusions reached. Students will also be expected to synthesise findings across articles in order to justify the qualitative and quantitative research questions that they will explore in LT. The coursework will be due in the second week of Lent Term.

For the second assignment, students will design and carry out a small mixed-methods research study related to a given topic. In the essay, students will describe and justify their choice of research methods for both the qualitative and quantitative components of the project (research question, sampling, data collection, data analysis, and ethical considerations). The assignment also includes the presentation and discussion of results from the research study. The second assignment is due the first week of Summer Term.

SP230

Education Policy

This information is for the 2019/20 session.

Teacher responsible: Prof Anne West OLD.2.30

Availability: This course is available on the BSc in Criminology, BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Course content: This course provides an introduction to the main issues in educational policy. It draws on interdisciplinary research literature and focuses on contemporary Britain although there is a comparative and international component. The course aims to show how major concepts in social policy can be applied to the study of education, for example, inequality, social justice and distribution of resources.

The course focuses on broad issues of educational policy, including the 1944 Education Act, the 1988 Education Reform Act, the 1998 School Standards and Framework Act and the 2010 Academies Act. It also explores specific issues that have implications for equality of opportunity, equity and social justice: social class, ethnicity/ 'race' and gender, special educational needs/disability and financing education across different phases of education – early years, schools and higher education.

Teaching: 20 hours of seminars in the MT. 20 hours of seminars in the LT. 2 hours of seminars in the ST.

The course is different from a 'standard' undergraduate course. Instead of lectures and seminars there are weekly seminars. In MT these involve a short introduction one week; this provides a framework for reading and focuses on the seminar questions. The next week there is a discussion of key issues arising from students' reading. Students are expected to read the essential readings each week (and at least one recommended reading). In the LT, the format is different. There will be an interactive session one week and discussion. The following week there will be presentations by students: students will be expected to work with a small number of other students and prepare a presentation relating to key seminar questions; this will require research to be undertaken. This format provides an opportunity for students to gain experience of carrying out focused research on a particular topic and a deeper understanding of that topic; working in a team; presenting their work to others in the group perhaps using PowerPoint; and facilitating discussion amongst the student group. The seminars will also address essay writing, critical research skills and the use of different forms of evidence.

Formative coursework: One formative essay in MT, one formative essay in LT, one mock examination essay LT.

Indicative reading: Some introductory texts are recommended:

- Chitty, C. (2014) *Education Policy in Britain*, Basingstoke Palgrave Macmillan.

A comprehensive bibliography will be provided.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Course content: The course will examine the definition, measurement and causes of poverty and social disadvantage in general and analyse selected aspects drawn from the following: social and demographic change, gender and ethnic inequality, unemployment, worklessness, social security and poverty, area deprivation, educational inequality, and social exclusion. This course draws primarily on examples from the United Kingdom, the United States, and Western Europe.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Formative coursework: As preparation for the first summative essay, which is a book review, students will be asked to write a 500 word description of the book, as well as the main assertions that book makes about poverty and disadvantage. For the second summative essay, students will prepare and present a one-page outline of their policy critique.

Indicative reading: A detailed list will be provided at the start of the session. H Dean & L Platt (2016) *Social Advantage and Disadvantage* Oxford University Press. J Hills (2014). *Good Times, Bad Times: The Welfare Myth of Them and Us* Policy Press. AB Atkinson (2015) *Inequality: What Can Be Done?* Harvard University Press. S.P. Jenkins (2011) *Changing Fortunes: Income Mobility and Poverty Dynamics in Britain* Oxford University Press. T. Shildrick, R. MacDonald, C. Webster, & K Garthwaite (2010). *The Low-Pay, No-Pay Cycle: Understanding Recurrent Poverty* Joseph Rowntree Foundation.

Assessment: Essay (60%, 2000 words) and essay (40%, 1500 words)

Summative assessment for this course comprises two essays.

The first essay, which takes the format of a book critique is worth 40% of the mark .

The second essay is a policy evaluation. This essay is worth 60% of the mark.

SP232

Health and Social Care Policy

This information is for the 2019/20 session.

Teacher responsible: Dr Tania Burchardt 32L 3.30

Availability: This course is available on the BSc in Criminology, BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Course content: The course equips students with the concepts, tools and knowledge to understand the challenges of health and social care policy in the 21st century, in the differing contexts of the UK and other rich countries, and in low- and middle-income countries.

In the first term, we consider the fundamental aims of health and social care policy, including health and well-being, health inequalities, health promotion, and health as a human right. We then examine policy approaches and healthcare regimes across different country contexts, including the strengths and weaknesses of different models of healthcare financing, public and private. In the second term, we move on to think about how to bring about change - both change in people's behaviour through health education, 'nudge' and incentives, and change in health and social care systems, including an examination of the role played by global pharmaceutical and healthcare companies, and the potential for reform. We investigate the role that evaluations of health and social care play in shaping policy change. Finally, we turn to specific groups and needs, including the challenges and potential

SP231

Poverty, Inequality, and Social Policy

This information is for the 2019/20 session.

Teacher responsible: Dr Amanda Sheely OLD.2.52

Availability: This course is available on the BSc in Criminology, BSc in Environment and Development, BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with

of ageing, paying for and providing long-term care, mental health policy, child protection and health.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Formative coursework: Students will be expected to produce 1 essay in the MT and 1 piece of coursework in the LT. One essay of 1000 words (excluding references), following a class task or presentation. This is compulsory.

Coursework: mock exam - one essay in self-timed conditions, and three essay plans. This is encouraged, but optional.

Indicative reading: There is no course textbook. A list of selected texts and readings will be included in the reading lists for each week which will be made available at the start of the Michaelmas Term. Glasby, J. (2017) *Understanding Health and Social Care*. Policy Press. Baggot, R. (2015) *Understanding Health Policy*. Policy Press. European Commission (2013) *Health inequalities in the EU – Final report of a consortium*. Consortium lead: Sir Michael Marmot. World Health Organization (2013) *World health report 2013: Research for universal health coverage*. World Health Organization. Le Grand J (2007) *The Other Invisible Hand: delivering public services through choice and competition*. Princeton, NJ, Princeton University Press.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

SP270 Not available in 2019/20

Understanding Crime and Punishment

This information is for the 2019/20 session.

Teacher responsible: Dr. Leonidas Cheliotis (OLD 2.51)

Availability: This course is compulsory on the BSc in Criminology. This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics and BSc in International Social and Public Policy with Politics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Course content: This second-year core full-unit course is intended to introduce students to key criminological theories regarding issues of crime and punishment. It will build on, and complement, the new BSc programme's first-year core courses, singling out and further dissecting specific substantive themes (e.g., the criminalisation process) by exploring in detail major relevant theoretical perspectives and debates, as well as pertinent empirical research, both qualitative and quantitative. In so doing, the course will critically examine the merits and limitations of competing criminological approaches to issues of crime and punishment, thus also preparing students, both in terms of substantive insights and ways of thinking, for core and optional courses they will take in their third year (e.g., *Criminological Controversies*, *Punishment and Penal Policy*).

Indicative course content

Michaelmas Term

1. The 'Classical' and 'Positivist' Schools of Criminology
2. Psychoanalytic Approaches to Crime
3. Strain and Crime: From Durkheim to Merton and Beyond
4. The Chicago School of Sociology and its Approach to Crime
5. Subcultural and Cultural Criminologies
6. Reading Week
7. Labelling Theory
8. Neutralisation Theory
9. Routine Activities Theory
10. Control Theory
11. Revision Week

Lent Term

1. Marxist Criminologies
2. Neo-Marxist Criminologies
3. Left and Right Realism
4. Feminism(s) and Criminology

5. The Foucault Effect on Criminology

6. Reading Week

7. Risk Society and the New Penology

8. Late Modernity, Crime and Punishment: The Culture of Control Thesis

9. Psychosocial Penology: From George Herbert Mead to Erich Fromm

10. Biosocial Approaches

11. Revision Week

Teaching: 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 9 hours of classes in the LT. 2 hours of classes in the ST.

Michaelmas Term: one-hour lectures in Weeks 1-10 (except for Week 6), plus a revision lecture in Week 11; one-hour classes in Weeks 2-11 (except for Week 6).

Lent Term: one-hour lectures in Weeks 1-10 (except for Week 6), plus a revision lecture in Week 11; one-hour classes in Weeks 2-11 (except for Week 6).

Summer Term: one two-hour revision class

Formative coursework: Students will be expected to produce 2 essays in the MT and LT.

One 1,500-word essay in each term (as mentioned earlier)

Indicative reading: General Text

• Newburn, T. (2073) *Criminology*. 3rd edition. London: Routledge. The following companion reader is also available:

• Newburn, T. (2009) *Key Readings in Criminology*. Cullumpton: Willan.

Those listed below are general textbooks and edited collections which are strongly recommended for background reading:

- McLaughlin, E. and Muncie, J. (eds.) (2013) *Criminological Perspectives: A Reader*. Third Edition. London: Sage.
- Hale, C., Hayward, K., Wahidin, A. and Wincup, E. (eds.) (2013) *Criminology*. Oxford: Oxford University Press. Third Edition.
- Carrabine, E., Iqanski, P., Lee, M., Plummer, K. and South, N. (2008) *Criminology: A Sociological Introduction*. London: Routledge. Second Edition.
- Davies, Croall and Tyrer (2010) *Criminal Justice*. Fourth Edition. Harlow: Pearson Education Limited.
- Muncie, J. and McLaughlin, E. (eds.) (2001) *The Problem of Crime*. Second Edition. London: Sage.
- Liebling, A., Maruna, S. and McAra, L. (eds.) (2017) *The Oxford Handbook of Criminology*. Sixth Edition. Oxford: Oxford University Press.

Assessment: Presentation (30%) in the LT.

Essay (70%, 3000 words) in the ST.

The proposed method of assessment is a combination of long essay (3,000 words) on one of the substantive topics covered in the course (but not the one chosen for their formative assessment) due at the beginning of ST, and a class presentation whose aim will be to critically appreciate a specific theoretical argument due end of LT. The long essay will count towards 70% of the final mark, and the presentation will count towards 30%

SP271

Psychology of Crime and Criminal Justice

This information is for the 2019/20 session.

Teacher responsible: Dr Michael Shiner OLD.2.34

Availability: This course is available on the BSc in Criminology, BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Course content: The course examines the contribution that psychology has made to our understanding of crime and criminal justice. It explores what psychological theory and research have to tell us about the causes of crime and the ways in which we

respond to such behaviour.

Particular attention is paid to the development of individual criminality and criminal careers; drug and alcohol related crime; varieties of criminal behaviour including violence, sexual crime and stalking; mental disorder and crime; victims and victimisation; public attitudes towards punishment; public confidence in the criminal justice system; prejudice and discrimination; organisational dynamics and institutional change; offender profiling and criminal investigation; eye witness testimony and legal decision making; rehabilitation and imprisonment.

Teaching: 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

There will be a reading week in the MT and LT. In addition one revision class will take place in the ST.

Formative coursework: One essay per term (MT and LT) will be required.

Indicative reading: J.R. Adler and J.M.Gray, *Forensic Psychology: Concepts, Debates and Practice*, 2010. PB Ainsworth, *Psychology and Crime: Myths and Reality*, 2000. J.Brown and E.Campbell, *The Cambridge Handbook of Forensic Psychology*, 2010. C.R. Hollin, *Psychology and Crime: An Introduction to Criminological Psychology*, 2013. J McGuire, *Understanding Psychology and Crime*, 2004. F. Pakes and J. Winstone, *Psychology and Crime: Understanding and Tackling Offending Behaviour*, 2007.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

SP331 Half Unit

Sexuality, Everyday Lives and Social Policy in Developing Countries

This information is for the 2019/20 session.

Teacher responsible: Dr Timothy Hildebrandt OLD 2.56 and Dr Muzafferettin Seckinelgin OLD 2.27

Availability: This course is available on the BSc in Criminology, BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students.

Course content: This course aims to analyse and understand the way social policies deploy sexuality categories in regulating everyday life in developing countries, both in its public and private manifestations. Sexuality is a central part of human experience. Institutions created to deal with human life/wellbeing have considered sexuality as one of the reference points from which to regulate social relations. Perceptions on sexuality are formed in the intersection of socio-political, historical processes and everyday practises in particular societies. Particular perceptions of sexuality in turn influence the way people negotiate access to resources to address their well-being.

In some central areas of social policy sexuality is used as one of the sorting mechanisms (in addition to gender, race among various other categories) to establish entitlements for resources (social, political and economic). In this regard social policy is both informed by perceptions on sexuality and in turn social policy acts as a mechanism of social reproduction of these perspectives impacting people's lives. And while globally high profile cases and rights abuses related to sexuality are important, a narrow global policy focus on these overlooks how more embedded and diverse social policy practices related to sexuality are impacting people's lives in many developing countries.

This course aims to explore sexuality and its importance for social policy for developing countries. It aims to consider social policy and particular interventions in their historical contexts, as a way

of unpacking the construction of sexuality in the intersection of colonialism, gender, race, class and international policy frameworks in developing countries.

The course also aims to interrogate the relationship between particular social policy prescriptions developed in most industrialized welfare societies and the way some of these are transferred to developing countries. The major concern of the analysis is to bring out the perceptions of sexuality that underwrite these policies and how these interact with existing perceptions of sexualities and their performances (identities, desires and bodily practices) in multiple developing country contexts. These policy areas include, among others, discussions of rights, entitlements, citizenship, same-sex marriage, sexually transmitted disease, HIV/AIDS, family policies, migration/border controls, criminality and employment-related policies.

Teaching: 10 hours of lectures and 15 hours of seminars in the LT. The lectures for this course 10 X 60 min lecture will be joint lectures with MSc students who are taking SP417 as an option course. There will be a designated UG seminar for UG students 10 x 90 mins seminars in LT.

Formative coursework: Students will be expected to produce 1 essay in the LT.

Students will be required to apply their understanding of both theoretical frameworks and issues related to sexualities and social policies in a 1,500 words formative essay. They will choose one particular social policy area, and show how viewing it through 3 different theoretical lenses helps us understand the issue differently.

Indicative reading:

- Aggleton, P., Boyce, P. and Moore, H. (2012) *Understanding Global Sexualities: New Frontiers*. London: Routledge;
- Butler, J. (1990) *Gender Trouble: Feminism and the Subversion of Identity*. New York: Routledge;

- Tamale, S. (2011) *African Sexualities: A Reader*. Pambazuka Press.

Additional readings for each week are available on Moodle.

Assessment: Policy memo (100%).

SP332 Half Unit

Social Security Policies

This information is for the 2019/20 session.

Teacher responsible: Dr Kitty Stewart OLD 2.36

Availability: This course is available on the BSc in Criminology, BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students.

Course content: The course analyses the purpose, design and

impact of social security policies, meaning policies that protect and support household income at times when income from the labour market does not suffice. The need for social security arises both from demographic factors that affect nearly everyone during their life course - childhood, parenthood, old age - and from risk factors that end up affecting only some - unemployment, sickness and disability.

The course takes a comparative approach, examining differences in the design of social security policies across welfare regimes and drawing on examples from different countries. Students will develop an understanding of the challenges and trade-offs that arise in designing social security policies to meet multiple goals, will further their knowledge about the ways systems function in practice, and will develop the tools for assessing the structure and effectiveness of social security in any given country. The course will also consider how successfully social security systems are adapting to meeting the challenges of the twenty-first century, including an aging population, migration, and the changing nature of employment brought about by rapid technological change. Most of the examples in the lectures and readings relate to higher- and middle-income countries, but many of the issues covered are also relevant in countries where social security systems are less developed. Students will be encouraged to further their understanding of social security in their country of origin, or another country of their choice, and to draw on this knowledge in classes.

Teaching: 15 hours of lectures and 15 hours of classes in the MT. There will be no formal teaching in Reading Week (Week 6), but there will be an optional film on a relevant topic, followed by an informal discussion.

Formative coursework: Students will write one essay (1500 words) during MT, and will receive feedback in preparation for the summative assessment.

Indicative reading:

- R Walker (2005) *Social Security and Welfare: Concepts and Comparisons*. Open University Press.
- J Hills (2015) *Good Times, Bad Times: The Welfare Myth of Them and Us*. The Policy Press.
- J Millar and R Sainsbury (2018) (eds) *Understanding Social Security*, Third Edition. The Policy Press.
- P Spicker (2011) *How Social Security Works: An introduction to benefits in Britain*. The Policy Press
- J Kvist et al (2012) *Changing Social Equality: The Nordic Welfare Model in the 21st Century*. The Policy Press.
- N Barr and P Diamond (2009) *Pension Reform: A Short Guide*. Oxford University Press.
- M Frolich et al (2015) *Social Insurance, Informality and Labor Markets: How to Protect Workers While Creating Good Jobs*. Oxford University Press.

An extended reading list will be provided, with specific readings for each week's topic.

Assessment: Essay (100%, 3000 words) in the LT.

The essay will require students to demonstrate their ability to apply the knowledge and understanding they have gained on the course to evaluate the design and impact of policies in different countries. Questions will be released towards the end of the Michaelmas Term.

SP335 Half Unit

Migration: Current Research, Critical Approaches

This information is for the 2019/20 session.

Teacher responsible: Dr Isabel Shutes OLD 2.58

Availability: This course is available on the BSc in Criminology, BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an

outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students.

Course content: This interdisciplinary course addresses contemporary global migration issues with reference to both developing and developed country contexts and to different patterns and forms of migration. The course examines the relationship between migration and social and public policies, including the implications for how migrants and migration are conceptualised, for inequalities in the movement of people, for welfare systems, and for the impacts of migration in countries of origin and destination. It draws on current approaches to researching migration, and considers the implications of those approaches.

Teaching: 10 hours of lectures and 15 hours of classes in the MT. Each week, all students are expected to read one key text (or sometimes two short texts) in preparation for the class and to participate actively in discussions. This will be complemented by class activities picking up on other issues covered in the lecture and class questions.

A longer list of complementary readings (and other materials, including podcasts, lectures, reports, maps and interactive materials), that students are encouraged to engage with, will also be supplied. They will also be expected to use these in the formative and summative essays.

A Moodle discussion forum specifically for the undergraduate students on the course, will be used to share thoughts and relevant material.

Undergraduate students will be invited to participate in the exhibition that is part of the MSc version of the course. For undergraduate students this will be optional.

A screening of a film/documentary will take place during the course and will be open to both undergraduates and masters students taking the course.

Formative coursework: Students will be expected to produce 1 essay in the MT.

Indicative reading:

- Goldin, I., Cameron, G.160 & Balarajan, M. (2012) Exceptional Future: How Migration Shaped Our World and Will Define Our Future, Princeton University Press. CHAPTER 1
- Shachar, A. (2009) *The Birthright Lottery: Citizenship and Global Inequality*, Cambridge MA: Harvard University Press. INTRODUCTION.
- Favell A., Feldblum, M. and Smith, M. (2007) "The human face of global mobility: a research agenda", *Society*, 44: 15-25..

- Luthra, R., Platt, L. and Salamońska, J. (2016) "Types of Migration: the Motivations, Composition, and Early Integration Patterns of 'New Migrants' in Europe", *International Migration Review*, published online Sept 2016.
- Guveli, A., Ganzeboom, H., Baykara-Krumme, H., Platt, L. Eroglu, Spierings, N. Bayrakdar, S. Nauck, B. and Sozeri, E.K. (2016) "2000 Families: identifying the research potential of an origins-of-migration study", *Ethnic and Racial Studies*, 40: 14.
- Dahinden (2016) "A plea for the 'de-migrantization' of research on migration and integration", *Ethnic and Racial Studies*, 39:13, 2207-2225.
- Shutes, I. and Walker, S. (2018) "Gender and Free Movement: EU Migrant Women's Access to Residence and Social Rights in the UK", *Journal of Ethnic and Migration Studies*, 44:1, 137-153

- Czaika, M. and De Haas, H. (2013) "The effectiveness of migration policies", *Population and Development Review*, 39: 3, 487-508. The reading list includes required and supplementary readings that demonstrate current debates and approaches. Readings will be complemented by podcasts, videos and interactive materials relating to the readings. A film showing will also provide an early point of reference and discussion.
- Assessment:** Essay (100%, 2000 words) in the LT. The course is assessed by one summative assignment (100% summative coursework). This is a written essay (2,000 words) that should address one question from a set provided. The summative assignment is due at the beginning of the term following the term in which the course is taught.

SP399

Dissertation

This information is for the 2019/20 session.

Teacher responsible: Prof Anne West

Availability: This course is compulsory on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is not available as an outside option nor to General Course students.

Course content: A dissertation of 8,000 words on a topic to be approved by the candidate's Academic Mentor. The dissertation is designed to allow a detailed and thorough exploration of an area of interest to the student. It should be on a topic area within the field of the degree programme; it may involve original fieldwork, or the analysis and appraisal of existing literature.

Teaching: 9 hours of workshops in the MT. 2 hours of seminars and 1 hour and 30 minutes of workshops in the LT. Students will be allocated an Academic Mentor who will supervise their dissertation. In addition to individual supervision meetings, there will be five compulsory workshop sessions in Michaelmas Term to help students plan and structure their work on the dissertation, as well as two optional troubleshooting sessions (one in Michaelmas and one in Lent Term). Presentation seminar sessions will be held in early Lent Term: all students will be expected to make a brief presentation on their topic and will receive feedback from staff and peers.

Formative coursework: Students are required to agree their dissertation title with their Academic Mentor and submit it to the Department no later than Friday of Week 10 of MT.

Indicative reading: Students will be expected to draw extensively from the reading they have undertaken throughout their programme of study. Suggested reading on conducting research projects in Social Policy: H Dean, 'Doing projects in social policy', in P Alcock, et al (Eds) *The Student's Companion to Social Policy*, Fourth Edition, Blackwell, 2012. A Bryman, 'The nature and process of social research', in *Social Research Methods*. Oxford: Oxford University Press, pp.3-18, 2012. C Bhatt, 'Doing a dissertation', in C Seale (ed.) *Researching Society and Culture*, Third Edition. Thousand Oaks, CA: Sage, pp.153-78, 2012. G Thomas, *How To Do Your Research Project*, Third Edition, London: Sage. 2017.

Assessment: Essay (100%, 8000 words) in the ST. Submission is due in the first week of ST - full deadline details will be confirmed to all candidates. Precise details on format and presentation will be issued by the Department.

ST102

Elementary Statistical Theory

This information is for the 2019/20 session.

Teacher responsible: Dr James Abdey COL.5.10

Availability: This course is compulsory on the BSc in Actuarial

Science, BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Finance, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available on the BSc in Accounting and Finance, BSc in Philosophy and Economics and BSc in Philosophy, Politics and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with ST107 Quantitative Methods (Statistics) or ST108 Statistical Methods for the Social Sciences.

Pre-requisites: A-level Mathematics.

No previous knowledge of statistics is assumed.

Course content: The course provides a precise and accurate treatment of introductory probability theory, statistical ideas, methods and techniques. Topics covered are data visualisation and descriptive statistics, probability theory, random variables, common distributions of random variables, multivariate random variables, sampling distributions of statistics, point estimation, interval estimation, hypothesis testing, analysis of variance (ANOVA), linear regression, nonparametric tests, goodness-of-fit and independence tests.

Teaching: 22 hours of lectures, 13 hours and 30 minutes of classes and 11 hours of workshops in the MT. 20 hours of lectures, 16 hours and 30 minutes of classes and 10 hours of workshops in the LT. 2 hours of lectures in the ST.

Formative coursework: Weekly exercises will be set and students are expected to submit solutions to their class teacher each week for feedback.

Indicative reading: All course materials are made available via Moodle, including notes to accompany the lectures, but this can be supplemented with additional background reading. The recommended supplementary text is:

Larsen R.J. and M.L. Marx (2013) *Introduction to Mathematical Statistics and Its Applications* (fifth edition), Pearson (earlier editions are also fine).

Assessment: Exam (75%, duration: 3 hours) in the summer exam period.

Exam (25%, duration: 1 hour, reading time: 10 minutes) in the January exam period.

ST107 Half Unit

Quantitative Methods (Statistics)

This information is for the 2019/20 session.

Teacher responsible: Dr James Abdey COL.5.10

Availability: This course is compulsory on the BSc in Economic History with Economics, BSc in Economics and Economic History, BSc in Environmental Policy with Economics, BSc in Geography with Economics, BSc in International Social and Public Policy and Economics, BSc in Management and BSc in Social Policy and Economics. This course is available on the BSc in Accounting and Finance, BSc in Government and Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with ST102 Elementary Statistical Theory or ST108 Statistical Methods for the Social Sciences.

Pre-requisites: A-level Mathematics.

Course content: The elementary statistical tools necessary for further study in management and economics with an emphasis on the applicability of the methods to management and economic problems. Topics covered are data visualisation and descriptive statistics, probability theory, discrete probability distributions, continuous probability distributions, sampling distributions of statistics, point estimation, interval estimation, hypothesis testing, contingency tables and the chi-squared test, correlation and linear

regression.

Teaching: 20 hours of lectures, 15 hours of classes and 10 hours of workshops in the LT. 2 hours of lectures in the ST.

Formative coursework: Weekly exercises will be set and students are expected to submit solutions to their class teacher each week for feedback.

Indicative reading: All course materials are made available via Moodle, including notes to accompany the lectures, but this can be supplemented with additional background reading. The recommended supplementary text is: Newbold, P., W.L. Carlson and B.M. Thorne (2012) *Statistics for Business and Economics*. (Eighth edition), Pearson (earlier editions are also fine).

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

ST108

Statistical Methods for the Social Sciences

This information is for the 2019/20 session.

Teacher responsible: Dr Anastasia Kakou COL.5.13

Availability: This course is available on the BSc in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

The course is designed for students without a strong background in Mathematics, e.g. without A level Mathematics, and is suitable for students who wish to learn basic statistical methods for analysing social science data. This course cannot be taken with ST102 Elementary Statistical Theory or ST107 Quantitative Methods (Statistics).

Pre-requisites: A grade B in GCSE Mathematics or equivalent. No background in statistics is required.

Course content: A basic foundation in elementary statistical methods, theory and statistical reasoning. Basic use of computers to analyse data. Probability, random variable theory and distributions. Normal distribution, sampling concepts and sampling distributions. Estimation, significance tests and confidence intervals, one and two-sample methods. Test for proportions, simple contingency tables. Linear regression, correlation. Basic decision theory.

Teaching: 14 hours of lectures, 8 hours of classes and 2 hours of computer workshops in the MT. 20 hours of lectures, 10 hours of classes and 2 hours of computer workshops in the LT. 2 hours of lectures and 2 hours of classes in the ST.

Students will have a two hour computer workshop in week 6 of MT, and a further two hour computer workshop in week 9 of LT. ST sessions will primarily be devoted to revision.

Formative coursework: Exercises will be set most weeks. Some questions will count as continuous assessment; others will constitute formative coursework.

Indicative reading: Notes will be provided and form the basic reading material. Pointers will be given to further reading.

Assessment: Exam (80%, duration: 3 hours) in the summer exam period.

Continuous assessment (20%) in the MT and LT.

At least a pass mark is required for both assessment components (i.e., the exam and the continuous assessment)

ST201 Half Unit

Statistical Models and Data Analysis

This information is for the 2019/20 session.

Teacher responsible: Dr Sara Geneletti (COL5.07)

Availability: This course is available on the BSc in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Also available to students who have studied statistics and mathematics to the level of MA107/ST107 Quantitative Methods or ST108 Statistical Methods for the Social Sciences or equivalent.

Pre-requisites: MA107/ST107 Quantitative Methods or ST108 Statistical Methods for the Social Sciences or equivalent.

Course content: A second course in statistics with an emphasis on problems of practical importance and statistical analysis using computers. Principles of modelling: data preparation, mathematical and statistical models, linear and non-linear models. Simple linear regression. Multiple regression: assumptions, transformations, diagnostics, model selection. Logistic regression: odds ratios and likelihood. The course will conclude with a brief introduction to time series.

Teaching: 20 hours of lectures and 16 hours of computer workshops in the LT. 4 hours of lectures in the ST. Students will be given their assessed project to start on in week 6 which is due in at the end of LT.

Formative coursework: Moodle quizzes and a quantitative research project.

Indicative reading: Baddeley & Barrowclough (2009), *Running Regressions: A Practical Guide to Quantitative Research in* Dougherty (2011) *Introduction to Econometrics*; Economics, Finance and Development Studies; Fox (2016) *Applied Regression Analysis and Generalized Linear Models*; Diaz et al (2014), *OpenIntro Statistics*.

Assessment: Exam (80%, duration: 2 hours) in the summer exam period. Coursework (20%) in the LT.

ST202

Probability, Distribution Theory and Inference

This information is for the 2019/20 session.

Teacher responsible: Dr Miltiadis Mavrakakis-Vassilakis

Availability: This course is compulsory on the BSc in Actuarial Science, BSc in Financial Mathematics and Statistics and BSc in Statistics with Finance. This course is available on the BSc in Business Mathematics and Statistics, BSc in Econometrics and Mathematical Economics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics, and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Elementary Statistical Theory (ST102) and Mathematical Methods (MA100). Students who have not taken these courses should contact Dr Mavrakakis.

Course content: The course covers the probability, distribution theory and statistical inference needed for third year courses in statistics and econometrics.

Michaelmas term: Events and their probabilities. Random variables. Discrete and continuous distributions. Moments, moment generating functions and cumulant generating functions. Functions of random variables. Monte Carlo Simulation using R. Joint distributions and joint moments. Marginal and conditional densities. Independence, covariance and correlation. Sums of random variables and compounding. Multinomial and bivariate normal distributions. Law of large numbers and central limit theorem.

Lent term: Sampling distributions. Criteria of estimation: consistency, unbiasedness, efficiency, minimum variance. Sufficiency. Maximum likelihood estimation. Confidence intervals. Tests of simple hypotheses. Likelihood ratio tests. Wald tests, score tests. Introduction to linear regressions and least squares estimator.

Teaching: 20 hours of lectures, 9 hours of seminars and 10 hours of help sessions in the MT. 20 hours of lectures, 10 hours of seminars and 10 hours of help sessions in the LT. 4 hours of lectures in the ST.

Week 6 in both terms will be used for class tests.

Formative coursework: Students will be expected to produce 4 pieces of coursework in the MT and LT.

Indicative reading: G C Casella & R L Berger, *Statistical Inference* (primary reading); R Bartoszynski & M Niewiadomska-Bugaj, *Probability and Statistical Inference* (stresses comprehension of concepts rather than mathematics, supplementary reading only); J Jacod & P Protter, *Probability Essentials* (for further reading, a more advanced text on probability, using measure-theoretic concepts and tools, still very accessible).

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

ST205 Half Unit

Sample Surveys and Experiments

This information is for the 2019/20 session.

Teacher responsible: Professor Irini Moustaki

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, BSc in Mathematics, Statistics, and Business, BSc in Statistics with Finance, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Mathematics and statistics to the level of MA107/ST107 Quantitative Methods or SP201 Research Methods for Social Policy.

Course content: Sampling methods for social surveys. Survey design and estimation. Nonresponse and measurement error. Design of experiments and observational studies.

Teaching: 20 hours of lectures, 9 hours of classes and 2 hours of workshops in the MT.

Week 6 is a reading week in which students will be asked to work on a group project.

Formative coursework: Weekly exercises and group presentations.

Indicative reading: V. Barnett, *Sample Survey Principles and Methods* (2009). F.J. Fowler Jr, *Survey Research Methods* (2008). S. Lohr, *Sampling: Design and Analysis* (2010). R.L. Scheaffer et al, *Elementary Survey Sampling* (2005)

Assessment: Exam (80%, duration: 2 hours) in the summer exam period.

Coursework (20%) in the MT.

ST206 Half Unit

Probability and Distribution Theory

This information is for the 2019/20 session.

Teacher responsible: Dr Miltiadis Mavarakis-Vassilakis

Availability: This course is available on the BSc in Business Mathematics and Statistics and BSc in Mathematics, Statistics, and Business. This course is not available as an outside option. This course is available to General Course students.

Pre-requisites: Students must have completed Elementary Statistical Theory (ST102) and Mathematical Methods (MA100).

Course content: The course covers the probability and distribution theory needed for third year courses in statistics and econometrics.:

Events and their probabilities. Random variables. Discrete and continuous distributions. Moments, moment generating functions and cumulant generating functions. Functions of Random Variables. Monte Carlo Simulation in R. Joint distributions and joint moments. Marginal and conditional densities. Independence, covariance and correlation. Sums of random variables and compounding. Multinomial and bivariate normal distributions. Law of large numbers and central limit theorem.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 2 hours of lectures in the ST.

Formative coursework: Students will be expected to produce 4

pieces of coursework which will consist of written exercises aimed at practising calculations and understanding of theory.

A formative in class exam-style assessment will be done in Week 6.

Indicative reading: G C Casella & R L Berger, *Statistical Inference* (primary reading); R Bartoszynski & M Niewiadomska-Bugaj, *Probability and Statistical Inference* (stresses comprehension of concepts rather than mathematics, complimentary reading only); J Jacod & P Protter, *Probability Essentials* (for further reading, a more advanced text on probability, using measure theoretic concepts and tools, still very accessible).

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

ST211 Half Unit

Applied Regression

This information is for the 2019/20 session.

Teacher responsible: Dr Sara Geneletti (Columbia House 5.07)

Availability: This course is compulsory on the BSc in Business Mathematics and Statistics and BSc in Mathematics, Statistics, and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

Specifically the course is available to Accounting and Finance students who have taken ST102.

Pre-requisites: ST102

Course content: Statistical data analysis in R covering the following topics: Simple and multiple linear regression, Model diagnostics, Detection of outliers, Multicollinearity, Introduction to GLMs

Teaching: 10 hours of lectures and 20 hours of computer workshops in the LT. 2 hours of lectures in the ST.

Students will be given their assessed project to start on in week 6 which is due in at the beginning of ST.

Formative coursework: Regular Moodle quizzes. Regular take home exercises.

Indicative reading:

1. Gelman and Hill, *Data analysis Using Regression and Multilevel/Hierarchical models* (CUP, 2007) First part.
2. Neter, J., Kutner, M., Nachtsheim, C. and Wasserman, W. *Applied Linear Statistical Models*, McGraw-Hill, Fourth Edition. (2004).
3. Abraham, B. Ledolter, J. *Introduction to Regression Modelling*, Thomson Brooks Cole. (2006).
4. S. Weisberg *Applied Linear Regression*, Wiley, 3rd edition. (2005) (intermediate).
5. Fox (2016) *Applied Regression Analysis and Generalized Linear Models*.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Project (45%) in the ST.

Project (5%) in the LT.

There are two projects, a mini-project in the LT reading week and a longer project due at the beginning of the ST.

ST213 Half Unit

Introduction to Pricing, Hedging and Optimization

This information is for the 2019/20 session.

Teacher responsible: Prof Konstantinos Kardaras COL 6.07

Availability: This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Pre-requisites: MA203 Real Analysis. Must be taken with ST202 Probability, Distribution Theory and Inference.

Course content: This course introduces the concepts of valuation, hedging and portfolio selection in a discrete-time environment.

Towards the end, it introduces continuous-time markets in a heuristic fashion. It covers the following topics:

- The binomial model; pricing and replication.
- Trinomial model and incompleteness, arbitrage-free price intervals.
- General discrete-time models and the fundamental theorems.
- Portfolio optimization and hedging.
- Martingale theory in discrete time.
- Multi-period models and backwards induction methods.
- Passage to continuous time Black & Scholes model.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT.

Formative coursework: Students will be expected to produce 9 problem sets in the LT.

Certain problem sets will be returned with feedback.

Indicative reading: Lecture notes will be provided.

Assessment: Exam (80%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Coursework (20%).

ST226 Half Unit

Actuarial Investigations: Financial

This information is for the 2019/20 session.

Teacher responsible: Dr Gelly Mitrodima

Availability: This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

Please contact Dr Gelly Mitrodima.

Pre-requisites: Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

Course content:

- Introduction to actuarial modelling.
- The application of compound interest techniques to financial transactions.
- Generalised cash-models to describe financial transactions such as zero-coupon bonds, fixed interest securities, cash on deposit, equities, interest only loans, repayment loans, annuities certain and others.
- Deterministic and stochastic interest rates.
- Equations of value with certain and uncertain payments and receipts.
- Introduction to life insurance.

Teaching: 20 hours of lectures and 9 hours of seminars in the MT.

Formative coursework: Students will be expected to give written answers to a number of problem sets.

Indicative reading: J J McCutcheon & W J Scott, An Introduction to the Mathematics of Finance, Heinemann; Institute of Actuaries, Formulae and Tables for Actuarial Examinations. Core reading notes obtainable from the Institute of Actuaries.

Assessment: Exam (100%, duration: 3 hours) in the January exam period.

ST227 Half Unit

Survival Models

This information is for the 2019/20 session.

Teacher responsible: Dr George Tzougas

Availability: This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is

available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102).

Course content: An introduction to stochastic processes with emphasis on life history analysis and actuarial applications.

Principles of modelling; model selection, calibration, and testing; Stochastic processes and their classification into different types by time space, state space, and distributional properties; construction of stochastic processes from finite-dimensional distributions, processes with independent increments, Poisson processes and renewal processes and their applications in general insurance and risk theory, Markov processes, Markov chains and their applications in life insurance and general insurance, extensions to more general intensity-driven processes, counting processes, semi-Markov processes, stationary distributions. Determining transition probabilities and other conditional probabilities and expected values; Integral expressions, Kolmogorov differential equations, numerical solutions, simulation techniques. Survival models - the random life length approach and the Markov chain approach; survival function, conditional survival function, mortality intensity, some commonly used mortality laws. Statistical inference for life history data; Maximum likelihood estimation for parametric models, non-parametric methods (Kaplan-Meier and Nelson-Aalen), regression models for intensities including the semi-parametric Cox model and partial likelihood estimation; Various forms of censoring; The technique of occurrence-exposure rates and analytic graduation; Impact of the censoring scheme on the distribution of the estimators; Confidence regions and hypothesis testing.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. 3 hours of lectures and 1 hour of seminars in the ST.

Students on this course will have a reading week in week 6 where they will be given review exercises to work on based on the first 5 weeks of the course.

Formative coursework: Compulsory written answers to two sets of problems.

Indicative reading: S Ross, Stochastic Processes; R Norberg, Risk and Stochastics in Life Insurance; The Institute of Actuaries, Core reading Subject CT4. For full details of the syllabus of CT4, see http://stats.lse.ac.uk/angelos/guides/2004_CT4.pdf.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

ST300 Half Unit

Regression and Generalised Linear Models

This information is for the 2019/20 session.

Teacher responsible: Dr Philip Chan

Availability: This course is compulsory on the BSc in Statistics with Finance. This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Financial Mathematics and Statistics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics, and Business. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed: EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206) AND Mathematical Methods (MA100) or equivalent.

It is assumed students have taken at least a first course in linear algebra.

Course content: A solid coverage of the most important parts of the theory and application of regression models, and generalised linear models. Multiple regression and regression diagnostics. Generalised linear models; the exponential family, the linear predictor, link functions, analysis of deviance, parameter estimation, deviance residuals. Model choice, fitting and validation. The use of the statistics package RStudio will be an integral part of

the course. The computer workshops revise the theory and show how it can be applied to real datasets from finance and insurance including CAPM, and actuarial models of claims on insurance policies.

Teaching: 20 hours of lectures, 7 hours and 30 minutes of classes and 5 hours of classes in the MT.

Students will be given their assessed project to start on sometime from Week 7-9 which is due in at the beginning of LT.

This course operates a reading week in Week 6.

Indicative reading: Frees, E.W. (2010). Regression Modeling with Actuarial and Financial Applications

Wickham, H, and Golemund, G. (2017). R for Data Science.

O'Reilly. Available online at <http://r4ds.had.co.nz>

Assessment: Exam (85%, duration: 2 hours) in the summer exam period.

Project (15%) in the LT.

ST301 Half Unit

Actuarial Mathematics (Life)

This information is for the 2019/20 session.

Teacher responsible: Dr George Tzougas

Availability: This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is not available as an outside option. This course is available to General Course students.

Pre-requisites: Students must have completed: EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206) AND Survival Models (ST227).

Course content: Single life mortality models, assurance and annuity contracts and their actuarial notation, computation of their present values and variances; relations among the present values of the various contracts.

The equivalence principle: computation of net premiums for the main assurance policies.

Prospective and retrospective reserves, Thiele's differential equation as the main tool for the computation of reserves.

Expenses: gross premium and gross reserves. Selection effect and how it affects mortality tables.

Multi-life assurance contracts: joint life and last survival life, computation of premiums and reserves for the main two-lives contracts.

Multi-states mortality models: basic notions of continuous-time Markov chains, Kolmogorov backward and forward equations, application to multiple decrements and disability models, computation of transition intensities.

Thiele differential equation for multi-states models, computation and analysis of reserves for main multi-state policies.

With-profit policies, unit-linked assurance policies, pensions.

Interplay between assurance and finance: embedded options, market consistent actuarial valuation.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

Week 6 will be a reading week.

Formative coursework: Compulsory written answers to one set of problems.

Indicative reading: R Norberg, Basic Life Insurance Mathematics; The Institute of Actuaries, Core reading Subject CT5. Dickson, Hardy, Waters, 'Actuarial Mathematics for Life Contingent Risks'.

Wutrich, Buhlmann, Furrer, 'Market Consistent Actuarial Valuation'

Assessment: Exam (100%, duration: 3 hours) in the January exam period.

ST302 Half Unit

Stochastic Processes

This information is for the 2019/20 session.

Teacher responsible: Prof Umut Cetin COL.6.08

Availability: This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics, BSc in Financial Mathematics and Statistics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed either Probability, Distribution Theory and Inference (ST202) or Probability and Distribution Theory (ST206).

Course content: A second course in stochastic processes and applications to insurance. Markov chains (discrete and continuous time), processes with jumps; Brownian motion and diffusions; Martingales; stochastic calculus; applications in insurance and finance. Content: Stochastic processes in discrete and continuous time; Markov chains: Markov property, Chapman-Kolmogorov equation, classification of states, stationary distribution, examples of infinite state space; filtrations and conditional expectation; discrete time martingales: martingale property, basic examples, exponential martingales, stopping theorem, applications to random walks; Poisson processes: counting processes, definition as counting process with independent and stationary increments, compensated Poisson process as martingale, distribution of number of events in a given time interval as well as inter-event times, compound Poisson process, application to ruin problem for the classical risk process via Gerber's martingale approach; Markov processes: Kolmogorov equations, solution of those in simple cases, stochastic semigroups, birth and death chains, health/sickness models, stationary distribution; Brownian motion: definition and basic properties, martingales related to Brownian motion, reflection principle, Ito-integral, Ito's formula with simple applications, linear stochastic differential equations for geometric Brownian motion and the Ornstein-Uhlenbeck process, first approach to change of measure techniques, application to Black-Scholes model. The items in the course content that also appear in the content of ST227 are covered here at greater depth. However, ST227 is not a pre-requisite for this course.

Teaching: 20 hours of lectures and 9 hours of seminars in the MT. Week 6 will be a reading week left free for students to revise by themselves.

Formative coursework: Compulsory written answers to two sets of problems.

Indicative reading: R Durrett, Essentials of Stochastic Processes; T Mikosch, Elementary Stochastic Calculus with Finance in View; Institute of Actuaries core reading notes.

Assessment: Exam (100%, duration: 3 hours) in the January exam period.

ST303 Half Unit

Stochastic Simulation

This information is for the 2019/20 session.

Teacher responsible: Daniela Escobar

Availability: This course is available on the BSc in Actuarial Science and BSc in Mathematics, Statistics, and Business. This course is not available as an outside option nor to General Course students.

Course capped at 60.

Pre-requisites: Students must have completed: EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206) AND Stochastic Processes (ST302).

While the course ST306 is not a formal pre-requisite some examples from this course will be used. Students that have not

taken ST306 might have to do a bit of extra reading to familiarise themselves with them.

Course content: An introduction to using R for stochastic simulation as well as methods of simulating random variables, complicated quantities involving several random variables and paths of stochastic processes. Applications will focus on examples from insurance and finance.

Teaching: 20 hours of lectures, 10 hours of computer workshops and 10 hours of help sessions in the LT.

- Introduction to R with an emphasis on stochastic simulation.
- Monte-Carlo integration.
- Generating continuous random variables; inverse distribution function method.
- Generating continuous random variables; acceptance rejection method.
- Generating continuous random variables; sums of random variables.
- Generating continuous random variables; other methods. Normal and Inverse Gaussian distributions.
- Generating discrete random variables.
- Generating the paths of stochastic processes; Insurance loss process; Brownian motion; Ornstein-Uhlenbeck process.
- Various applications in insurance and finance.

There will be a Q&A session on practical issues in week 11. Week 6 to be used as a reading week

Formative coursework: Weekly exercises usually involving computing.

Indicative reading:

- Introducing Monte Carlo methods with R (main reference), by G. Robert and G. Casella.

Useful reading:

- Stochastic Simulation, Algorithms and Analysis by S. Asmussen.
- Monte Carlo Methods in Financial Engineering by P. Glasserman.

Assessment: Exam (50%, duration: 2 hours) in the summer exam period.

Project (25%) in the LT.

Project (25%) in the ST.

ST304 Half Unit

Time Series and Forecasting

This information is for the 2019/20 session.

Teacher responsible: Dr Matteo Barigozzi COL.7.11

Availability: This course is compulsory on the BSc in Statistics with Finance. This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics, and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: 2nd year statistics and probability

Course content: The course introduces the student to the statistical analysis of time series data and simple models. What time series analysis can be useful for; autocorrelation; stationarity, trend removal and seasonal adjustment, basic time series models; AR, MA, ARMA; invertibility; spectral analysis; estimation; forecasting; introduction to financial time series and the GARCH models; unit root processes.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

There will be a reading week in week 6.

Formative coursework: Written answers to set problems will be expected on a weekly basis.

Indicative reading: Peter J. Brockwell and Richard A. Davis, Introduction to Time Series and Forecasting. Christopher Chatfield, The Analysis of Time Series. Robert H. Shumway, David S. Stoffer, Time Series Analysis and Its Applications: With R Examples. Ruey S. Tsay, An Introduction to Analysis of Financial Data with R

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

ST306 Half Unit

Actuarial Mathematics (General)

This information is for the 2019/20 session.

Teacher responsible: Dr Luciano Campi

Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Probability, Distribution Theory and Inference (ST202) and Stochastic Processes (ST302).

Course content: An introduction to actuarial work in non-life insurance. Decision theory concepts: game theory, optimum strategies, decision functions, risk functions, the minimax criterion and the Bayes criterion. Loss distributions with and without limits and risk-sharing arrangements; suitable, moments and moment generating functions, the gamma, exponential, Pareto, generalised Pareto, normal, lognormal, Weibull, Burr and other distributions suitable for modelling individual and aggregate losses; statistical inference. Risk models involving frequency and severity distributions; the basic short-term contracts, moments, moment generating functions and other properties of compound distributions. Reinsurance treaties; proportional, excess of loss, stop-loss, deriving the distribution, moments, moment generating functions and other properties of the losses to the insurer and reinsurer under all the models above. Ruin theory for continuous and discrete models. Fundamental concepts of Bayesian statistics; Bayes theorem, prior distributions, posterior distributions, conjugate prior distributions, loss functions, Bayesian estimators. Credibility theory; Bayesian models. Experience rating models and applications. Claims reserving: run-off triangles. Monte-Carlo simulation and applications in insurance.

Teaching: 20 hours of lectures and 10 hours of seminars in the LT. There will be a reading week and a take home mock exam in week 6.

Formative coursework: Compulsory written answers to one set of problems. There will also be a mock exam during week 6.

Indicative reading: Notes are given out in the lectures. The Institute of Actuaries, Core reading Subject CT6.

For full details of the syllabus of CT6, see:

http://stats.lse.ac.uk/angelos/guides/2004_CT6.pdf.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

ST307 Half Unit

Aspects of Market Research

This information is for the 2019/20 session.

Teacher responsible: Dr James Abdey COL.5.10

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics, Statistics, and Business, BSc in Statistics with Finance, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students. Not to be taken with ST327. This is a capped course.

Pre-requisites: Probability and statistics to the level of ST107.

Course content: The main ideas and applications of market research techniques. Topics covered are introduction to market research, defining the market research problem, research design, internal secondary data and the use of databases, qualitative research: focus group discussions, projective techniques, survey and quantitative observation techniques, measurement and scaling: fundamentals, comparative and non-comparative scaling, questionnaire design, sampling: design and procedures, final and initial sample size determination,

cross-tabulation and hypothesis testing, analysis of variance and covariance, correlation and regression, and discriminant analysis.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 1 hour of classes in the ST.

Lectures will run in weeks 1-10 and classes in weeks 2-11.

Formative coursework: Students are given weekly exercises to work on for discussion in class.

Indicative reading: Malhotra, N.K., D. Nunan and D.F. Birks (2017) *Marketing Research: An Applied Research* (Fifth edition), Pearson (earlier editions are also fine)

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

ST308 Half Unit

Bayesian Inference

This information is for the 2019/20 session.

Teacher responsible: Dr Konstantinos Kalogeropoulos COL.610

Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102). ST202 is also recommended.

Course content: **Statistical decision theory:** risk, decision rules, loss and utility functions, Bayesian expected loss, Frequentist risk.

Bayesian Inference: Bayes theorem, prior, posterior and predictive distributions, conjugate models (Normal-Normal, Poisson-Gamma, Beta-Binomial), Bayesian point estimation, credible intervals and hypothesis testing, Bayes factors and model selection. Comparison with Frequentist approaches.

Implementation: Asymptotic approximations (Laplace approximation, Variational Bayes, Monte Carlo methods), Markov Chain Monte Carlo (MCMC) simulation (Gibbs sampler, Metropolis-Hastings algorithm). Computer tools (R, Stan).

Applications: Linear models in Regression and Classification (Bayesian Linear Regression, Generalized Linear Models, Logistic Regression), Cluster Analysis and Mixture Modeling, Hierarchical/Multilevel Models.

Teaching: 20 hours of lectures and 9 hours of computer workshops in the LT. 2 hours of lectures in the ST.

There will be no reading week in week 6, but there will be no lectures and classes in week 11.

Formative coursework: Optional problem sets and computer exercises.

Indicative reading: J.K. Kruschke, *Doing Bayesian Data Analysis*. An tutorial with R, JAGS and Stan. 2nd edition. J.O. Berger, *Statistical Decision Theory and Bayesian Analysis*. D. Gamerman, H. F. Lopes, *Markov Chain Monte Carlo: Stochastic Simulation for Bayesian Inference*. A. Gelman, *Bayesian data analysis*.

Assessment: Exam (80%, duration: 2 hours) in the summer exam period.

Project (20%) in the ST.

ST309 Half Unit

Elementary Data Analytics

This information is for the 2019/20 session.

Teacher responsible: Prof Qiwei Yao Col.7.16

Availability: This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics and BSc in Mathematics, Statistics, and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to

General Course students.

This course is available as an outside option to the students who are interested in data analytics and who have statistical background at least equivalent to ST107 or ST108. No prior knowledge in programming is required.

This course is capped at 60 for the 2019/20 session.

Pre-requisites: Students must have completed a statistical course at least equivalent to Quantitative Methods (Statistics) (ST107) or Statistical Methods for the Social Sciences (ST108).

Course content: The primary focus of this course is to help students view various problems from business, economy/finance, and social domains from a data perspective and understand the principles of extracting useful information and knowledge from data. Students will also gain the hands-on experience using R – a programming language and software environment for data analysis and visualisation. Learning basic data analytic methods and techniques is combined with real-life examples.

The core contents of the course include data cleansing, data transformation, data visualisation, R-programming, classification, regression, clustering, over-fitting avoidance and model evaluation. The course also covers a subset of the following topics: illustration of R-access of databases and big data platforms, illustration of parallel computing in R, similarity matching, market-basket analysis, link prediction, text mining, network analysis, causal modelling.

This is not a course on algorithms and IT technologies required for handling massive data, which deserve separate courses. The focus is on the fundamental principles and concepts of data analytics or data science. It becomes ever-increasingly important in this information age to gain adequate understanding of data science even if one never intends to apply it oneself.

Teaching: 20 hours of lectures and 10 hours of computer workshops in the MT.

Students are encouraged to install R in their own laptops, and to use their own laptops in the workshops.

Formative coursework: Students will be expected to produce 6 exercises in the MT.

Students are expected to complete six sets of exercises involving substantial data analysis using R.

Indicative reading: Wickham, H, and Golemund, G. (2017). *R for Data Science*. O'Reilly. Available online at <http://r4ds.had.co.nz>. James, G., Witten, D., Hastie, T. and Tibshirani, R. (2013). *An Introduction to Statistical Learning with Applications in R*. Springer. Available online at <http://www-bcf.usc.edu/~gareth/ISL>. Provost, F. and Fawcett, T. (2013). *Data Science for Business*. O'Reilly. Zuur, A., Ieno, E. and Meesters, E. (2009). *A Beginner's Guide to R*. Springer. Available online from LSE Library. Hastie, T., Tibshirani, R and Friedman, R. (2009). *The Elements of Statistical Learning: Data Mining, Inference, and Prediction*. 2nd Edition. Springer. Assessment: Coursework (30%) in the MT.

Project (70%) in the LT.

The project will be a group project with maximum 3 members per group. The detailed instruction will be handed out in Week 5 of Michaelmas term, and students need to submit a written report by Week 5 of Lent term.

Students are required to hand in the solutions for 4 sets of exercises which account for the total 30% of the final grade.

ST312 Half Unit**Applied Statistics Project**

This information is for the 2019/20 session.

Teacher responsible: Dr Anastasia Kakou

Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is not available as an outside option nor to General Course students.

Pre-requisites: Students must have completed Elementary Statistical Theory (ST102). This course is suitable for third-year students.

Course content: Students will produce a project involving a critical investigation and collation of statistical data on a topic of their own interest.

Teaching: 9 hours of seminars and 3 hours of workshops in the MT. 7 hours of workshops in the ST.

Students on this course will have a research week in week 6 where they can look up data sources for their assessed project.

Formative coursework: Oral presentation at the end of MT.

Indicative reading: ukdataservice.ac.uk, www.google.com/publicdata, data.worldbank.org

Assessment: Project (90%) and presentation (10%) in the ST.

ST326 Half Unit**Financial Statistics**

This information is for the 2019/20 session.

Teacher responsible: Dr Wai-Fung Lam COL.6.09

Availability: This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is available on the BSc in Actuarial Science and BSc in Mathematics, Statistics, and Business. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Pre-requisites: Either ST202, or ST206 and ST211.

Course content: The course covers key statistical methods and data analytic techniques most relevant to finance. Hands-on experience in analysing financial data in the "R" environment is an essential part of the course. The course includes a selection of the following topics: obtaining financial data, low- and high-frequency financial time series, ARCH-type models for low-frequency volatilities and their simple alternatives, Markowitz portfolio theory and the Capital Asset Pricing Model, concepts and practices in machine learning as applied in financial forecasting, Value at Risk, simple trading strategies, statistics of fixed income finance, derivative instruments from the statistical viewpoint.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT.

Formative coursework: Students will be expected to produce 9 problem sets in the MT.

Indicative reading: Lecture notes will be provided
Lai, T.L. And Xing H. (2008) *Statistical Models and Methods for Financial Markets*. Springer.
Tsay, R. S. (2005) *Analysis of Financial Time Series*. Wiley.
Ruppert, D. (2004) *Statistics and Finance – an introduction*. Springer.
Fan, Yao (2003) *Nonlinear Time Series*.
Hastie, Tibshirani, Friedman (2009) *The Elements of Statistical Learning*.
Haerdle, Simar (2007) *Applied Multivariate Statistical Analysis*.

Assessment: Exam (100%, duration: 2 hours) in the summer exam period.

ST327**Market Research: An Integrated Approach**

This information is for the 2019/20 session.

Teacher responsible: Dr James Abdey COL.5.10 and Mr Karsten Shaw

Availability: This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Not to be taken with ST307.

Pre-requisites: Students must have completed one of the following: Elementary Statistical Theory (ST102), Statistics for Management Sciences (ST203), Econometrics: Theory and Applications (MG205), Analytical Methods for Management (MG202), or equivalent.

Course content: The main ideas and applications of market research techniques. ST327.1 Topics covered are introduction to market research, defining the market research problem, research design, internal secondary data and the use of databases, qualitative research: focus group discussions, projective techniques, survey and quantitative observation techniques, measurement and scaling: fundamentals, comparative and non-comparative scaling, questionnaire design, sampling: design and procedures, final and initial sample size determination, cross-tabulation and hypothesis testing, analysis of variance and covariance, correlation and regression, discriminant analysis, factor analysis, cluster analysis and conjoint analysis. ST327.2 Case Studies: Students use the information and techniques gained from ST327.1 to carry out a co-operative Market Research Case Study. Individual write up of the Case Study forms part of the assessment.

Teaching: 20 hours of lectures and 10 hours of classes in the MT. 6 hours of lectures in the LT. 1 hour of classes in the ST.

Lectures will run in weeks 1-10 and classes in weeks 2-11.

Formative coursework: Students are given weekly exercises to work on for discussion in class.

Indicative reading: Malhotra, N.K., D. Nunan and D.F. Birks (2017) *Marketing Research: An Applied Research* (Fifth edition), Pearson (earlier editions are also fine).

Assessment: Exam (60%, duration: 2 hours) in the summer exam period.

Coursework (25%) in the ST.

Presentation (15%) in the LT.

The assessed Case Study work is split into two parts; a group presentation and an individual piece of coursework.

ST330**Stochastic and Actuarial Methods in Finance**

This information is for the 2019/20 session.

Teacher responsible: Prof Pauline Barrieu COL 6.03 and Dr Erik Baurdoux COL 6.04

Availability: This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics, Statistics, and Business and BSc in Statistics with Finance. This course is not available as an outside option. This course is available to General Course students.

Pre-requisites: Students must have completed: EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206) AND Stochastic Processes (ST302).

Course content: Theories of financial market behaviour. Applications of stochastic processes and actuarial models in finance. Utility theory. Stochastic dominance and portfolio selection. Measures of investment risk. Mean-variance portfolio theory. Single and multifactor models. The Capital Asset Pricing Model. The efficient market hypothesis.

Introduction to financial markets. Model-free relationships. Stochastic models for security prices and interest rates and estimating their parameters. Option pricing: general framework in discrete and continuous time, the Black-Scholes analysis and numerical procedures (binomial models and Cox-Ross-Rubinstein models). The term structure of interest rates: the Vasicek, the Cox-Ingersoll-Ross and other models. Introduction to credit risk.

Teaching: 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT.

Students will work on and submit formative coursework towards the end of MT and a second set of formative coursework towards the end of LT. Feedback and solutions will be provided

Formative coursework: Two sets of hand-in exercises will also be given during the year.

Indicative reading: N H Bingham & R Kiesel, Risk Neutral Valuation; A Cerny, Mathematical Techniques in Finance: Tools for Incomplete Markets; J Hull, Options, Futures & Other Derivatives; R Jarrow & S Turnbull, Derivative Securities; D Luenberger, Investment Science; Institute of Actuaries core reading notes, Subject CT8.

Assessment: Exam (100%, duration: 3 hours) in the summer exam period.

Diploma Programme Regulations

Key to Diploma Regulations
(H) means a half-unit course
(C) means this course is capped
(n/a 19/20) means not available in the 2019/20 academic year
(M) means Michaelmas Term
(L) means Lent Term
(S) means Summer Term

Diploma in Accounting and Finance

Programme Code: TDAF

Department: Accounting

For students starting this programme of study in 2019/20

Students must take four courses as shown.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper Course number, title (unit value)

Year 1

Paper 1 FM212 Principles of Finance (1.0) #

Or

By special permission of the Course Leaders, students may substitute FM212 with one of the following:

FM300 Corporate Finance, Investments and Financial Markets (1.0) #* **or**

FM320 Quantitative Finance (1.0) #*

Paper 2 Courses to the value of 1.0 unit(s) from the following:

AC200 Accounting Theory and Practice (1.0) #1 **or**

AC330 Financial Accounting, Analysis and Valuation. (1.0) #2 **or**

AC490 Management Accounting, Decisions and Control (0.5) **and** AC491 Financial Accounting, Reporting and Disclosure (0.5)

Papers 3 & 4 Courses to the value of 2.0 unit(s) from the following:

AC200 Accounting Theory and Practice (1.0) #3

AC310 Management Accounting, Financial Management and Organisational Control (1.0) #

AC330 Financial Accounting, Analysis and Valuation. (1.0) #4

AC470 Accounting in the Global Economy (0.5) #

EC201 Microeconomic Principles I (1.0) #

EC202 Microeconomic Principles II (1.0) #

EC210 Macroeconomic Principles (1.0) #

EC220 Introduction to Econometrics (1.0) #

EC313 Industrial Economics (1.0) #

EH240 Business and Economic Performance since 1945: Britain in International Context (1.0)

MA107 Quantitative Methods (Mathematics) (0.5) #

MG4G4 Topics in Management Research (0.5)

ST107 Quantitative Methods (Statistics) (0.5) #

Any other course with the approval of the Programme Director, by special permission only.

Prerequisite Requirements and Mutually Exclusive Options

* means available with permission

1: AC200 can not be taken with AC330

2: AC330 can not be taken with AC200

3: AC200 can not be taken with AC330

4: AC330 can not be taken with AC200

means there may be prerequisites for this course.

Please view the course guide for more information.

This programme is externally accredited by the

ACCA. Further information is available on the

Taught Master's Programme Regulations

Key to Taught Master's Regulations
(H) means a half-unit course
(C) means this course is capped
(n/a 19/20) means not available in the 2019/20 academic year
(M) means Michaelmas Term
(L) means Lent Term
(S) means Summer Term

MSc in Accounting and Finance

Programme Code: TMAF

Department: Accounting

For students starting this programme of study in 2019/20 Academic-year programme. Students must take courses to the value of four units as shown.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Prerequisite Course	Students who wish to take AC416 in Papers 2, 3 Or 4 are required to take the following course which runs over a 9-day period before the start of MT: AC480 Quantitative Methods in Accounting and Finance (0.0)
Paper 1	Courses to the value of 1.0 unit(s) from the following: FM430 Corporate Finance and Asset Markets (1.0) # Or FM429 Asset Markets A (0.5) # and FM431L Corporate Finance A (0.5) # Or FM431M Corporate Finance A (0.5) # Or another approved paper by special permission only.
Paper 2	Courses to the value of 1.0 unit(s) from the following: AC411 Accounting, Strategy and Control (0.5) and AC415 Management Accounting for Decision Making (0.5) Or AC415 Management Accounting for Decision Making (0.5) and AC416 Topics in Financial Reporting (0.5) # 1 Or AC416 Topics in Financial Reporting (0.5) # and AC417 Corporate Financial Disclosure and Investor Relations (0.5) 2 Or AC411 Accounting, Strategy and Control (0.5) and AC416 Topics in Financial Reporting (0.5) #
Papers 3 & 4	Courses to the value of 2.0 unit(s) from the following: AC411 Accounting, Strategy and Control (0.5) AC412 Accountability, Organisations and Risk Management (0.5) AC415 Management Accounting for Decision Making (0.5) AC416 Topics in Financial Reporting (0.5) # 3 AC417 Corporate Financial Disclosure and Investor Relations (0.5) AC444 Valuation and Security Analysis (0.5) # AC470 Accounting in the Global Economy (0.5) # FM402 Financial Risk Analysis (0.5) # FM404 Forecasting Financial Time Series (0.5) # FM413 Fixed Income Markets (0.5) # FM421 Applied Corporate Finance (0.5) # FM441 Derivatives (0.5) # FM442 Quantitative Methods for Finance and

	Risk Analysis (0.5) #
FM445	Portfolio Management (0.5)
FM447	Global Financial Systems (0.5) #
FM472	International Finance (0.5) #
FM476	Entrepreneurial Finance (0.5) #
GY462	Real Estate Finance (0.5)
LL4BK	Corporate Crime (0.5)
LL4BL	Financial Crime (0.5) (not available 2019/20)
MG4D5	Leadership in Organisations: Theory and Practice (0.5)

Any other course by special permission only.

Students can also take a dissertation in **either** accounting **or** finance (students cannot take two dissertations):

AC499	Dissertation (1.0) 4
FM499	Dissertation (1.0) 5 (not available 2019/20)

Students taking FM404 or FM442 can apply for a place on the following non-assessed computer course:

FM457	Applied Computational Finance (0.0)
-------	-------------------------------------

Prerequisite Requirements and Mutually Exclusive Options

- 1: Before taking AC416 you must take AC480
- 2: Before taking AC416 you must take AC480
- 3: Before taking AC416 you must take AC480
- 4: AC499 can not be taken with FM499
- 5: FM499 can not be taken with AC499

means there may be prerequisites for this course. Please view the course guide for more information.

Notes

Students may elect to have their degree specialisation indicated on their degree certificate. Students who take both AC470 and FM472 as Paper 3 may choose to have **MSc Accounting and Finance: International Accounting and Finance** on their certificate. Students who take two half units of AC411 or AC415 or AC416 or AC417 as Paper 3 may choose to have **MSc Accounting and Finance: Accounting and Financial Management** on their certificate. Students taking finance courses to the equivalent of two full units as Papers 3 and 4 may choose to have **MSc Accounting and Finance: Finance** on their certificate.

The Bologna Process lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

MSc in Accounting, Organisations and Institutions

Programme Code: TMAcOrIN

Department: Accounting

For students starting this programme of study in 2019/20 Academic-year programme. Students take courses to the value of four units. There is also a pre-session course held in the week before MT: AC425 MSc Accounting, Organisations and Institutions: Pre-session course.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may

be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Pre-sessional Course	AC425 MSc Accounting, Organisations and Institutions: Pre-sessional course (0.0)
Prerequisite Course	Students who wish to take AC416 in Paper 2 or Papers 3 & 4 are required to take the following course which runs over a 9-day period before the start of MT:
	AC480 Quantitative Methods in Accounting and Finance (0.0)
Paper 1	AC424 Accounting, Organisations and Institutions (1.0) #
Paper 2	AC490 Management Accounting, Decisions and Control (0.5) and AC491 Financial Accounting, Reporting and Disclosure (0.5)

Or

Students with a substantive and verifiable background in accounting must do as Paper 2 either:

AC411	Accounting, Strategy and Control (0.5) and AC415 Management Accounting for Decision Making (0.5) Or
AC415	Management Accounting for Decision Making (0.5) and AC416 Topics in Financial Reporting (0.5) # 1 Or
AC416	Topics in Financial Reporting (0.5) # and AC417 Corporate Financial Disclosure and Investor Relations (0.5) 2 Or
AC411	Accounting, Strategy and Control (0.5) and AC416 Topics in Financial Reporting (0.5) #

Or

Students with prior background in management accounting only must do as Paper 2:

AC415	Management Accounting for Decision Making (0.5) and AC491 Financial Accounting, Reporting and Disclosure (0.5)
Papers 3 & 4	Courses to the value of 2.0 unit(s) from the following:
AC411	Accounting, Strategy and Control (0.5)
AC415	Management Accounting for Decision Making (0.5)
AC416	Topics in Financial Reporting (0.5) # 3
AC417	Corporate Financial Disclosure and Investor Relations (0.5)
AC444	Valuation and Security Analysis (0.5) #
AC470	Accounting in the Global Economy (0.5) #
DV413	Environmental Problems and Development Interventions (0.5) #
DV415	Global Environmental Governance (0.5)
EH463	The Long-Run Analysis of Firms and Industries (0.5)
EH464	The Historical Context of Business (0.5)
EH483	The Development and Integration of the World Economy in the 19th and 20th Centuries (1.0)
FM474L	Managerial Finance (0.5)
FM474M	Managerial Finance (0.5)
LL4BF	International Financial Regulation (0.5)
LL4BX	Corporate Governance - Advanced Topics (0.5) (not available 2019/20)
MG476	Corporate Social Responsibility and International Labour Standards (0.5) #
SO469	Risk and Governance: A Sociological Approach (0.5) (not available 2019/20)

Any course with the approval of the Programme Director.

Prerequisite Requirements and Mutually

Exclusive Options

- 1: Before taking AC416 you must take AC480
 - 2: Before taking AC416 you must take AC480
 - 3: Before taking AC416 you must take AC480
- # means there may be prerequisites for this course. Please view the course guide for more information.

The Bologna Process lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm. Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm.

MSc in Anthropology and Development

Programme Code: TMANDV

Department: Anthropology

For students starting this programme of study in 2019/20 Full-year programme. Students must take two compulsory courses, a dissertation and optional courses to the value of one unit. Written papers will be taken in the summer term and the dissertation must be submitted in September. Attendance at seminars and at non-assessed tutorials is compulsory.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	AN436 The Anthropology of Development (0.5) and either
	AN456 Anthropology of Economy (1): Production and Exchange (0.5) Or
	AN457 Anthropology of Economy (2): Transformation and Globalisation (0.5)
Paper 2	DV400 Development: History, Theory and Policy (1.0) #
	Or
	DV442 Key Issues in Development Studies (0.5) and 0.5 units from the following:
	Paper 3 DV courses options list
Paper 3	Courses to the value of 1.0 unit(s) from the following:
	AN402 The Anthropology of Religion (1.0)
	AN404 Anthropology: Theory and Ethnography (1.0)
	AN405 The Anthropology of Kinship, Sex and Gender (1.0)
	AN419 The Anthropology of Christianity (0.5) (not available 2019/20)
	AN420 The Anthropology of Southeast Asia (0.5) (not available 2019/20)
	AN424 The Anthropology of Melanesia (0.5)
	AN444 Investigating the Philippines - New

	Approaches and Ethnographic Contexts (0.5) #
AN447	China in Comparative Perspective (1.0)
AN451	Anthropology of Politics (0.5)
AN456	Anthropology of Economy (1): Production and Exchange (0.5) A
AN457	Anthropology of Economy (2): Transformation and Globalisation (0.5) B
AN458	Children and Youth in Contemporary Ethnography (0.5) (not available 2019/20)
AN459	Anthropology and Media (0.5) (withdrawn 2019/20)
AN461	Anthropological Approaches to Questions of Being (0.5) (not available 2019/20)
AN463	Borders and Boundaries: Ethnographic Approaches (0.5) (not available 2019/20)
AN467	The Anthropology of South Asia (0.5) (not available 2019/20)
AN469	The Anthropology of Amazonia (0.5)
AN473	Anthropological Approaches to Value (0.5)
AN474	Subjectivity and Anthropology (0.5) # (not available 2019/20)
AN475	The Anthropology of Revolution (0.5) (not available 2019/20)

MA433	Mathematics of Networks (0.5) # B
Papers 5 & 6	Courses to the value of 1.0 unit(s) from the following: EC484 Econometric Analysis (1.0) # EC487 Advanced Microeconomics (1.0) # FM402 Financial Risk Analysis (0.5) # FM429 Asset Markets A (0.5) # FM430 Corporate Finance and Asset Markets (1.0) # FM441 Derivatives (0.5) # FM442 Quantitative Methods for Finance and Risk Analysis (0.5) # C GV4A3 Social Choice Theory and Democracy (0.5) # (not available 2019/20) MG409 Auctions and Game Theory (0.5) # ST409 Stochastic Processes (0.5) # ST418 Non-Linear Dynamics and the Analysis of Real Time Series (0.5) # ST422 Time Series (0.5) # Any other paper with the approval of the Programme Director and the teacher responsible for the course, excluding MA415, MA416, MA417 and MA424.
Paper 7	Papers 2, 3 & 4 options list MA498 Dissertation in Mathematics (1.0) Papers 2, 3 & 4 options list MA402 Game Theory I (0.5) # MA408 Discrete Mathematics and Graph Theory (0.5) # (not available 2019/20) MA409 Continuous Time Optimisation (0.5) # MA410 Information, Communication and Cryptography (0.5) # MA411 Probability and Measure (0.5) # MA412 Functional Analysis and its Applications (0.5) # (not available 2019/20) MA413 Games of Incomplete Information (0.5) # MA414 Stochastic Analysis (0.5) # MA418 Preferences, Optimal Portfolio Choice, and Equilibrium (0.5) # (not available 2019/20) MA419 Search Games (0.5) (withdrawn 2019/20) MA420 Quantifying Risk and Modelling Alternative Markets (0.5) # MA421 Advanced Algorithms (0.5) # MA427 Mathematical Optimisation (0.5) # MA428 Combinatorial Optimisation (0.5) # MA429 Algorithmic Techniques for Data Mining (0.5) # MA430 Efficient Algorithms for Hard Optimisation Problems (0.5) # (not available 2019/20) MA431 Advanced Topics in Operational Research and Applicable Mathematics (0.5) (not available 2019/20)

Footnotes

MA433 Mathematics of Networks (0.5) #
 A: This option will not be available to those who have already studied MA300 and MA301, or who have studied this subject as part of an undergraduate degree.
 B: This option will not be available to those who have already studied MA320.
 C: Students taking this course can apply for a place on FM457 Applied Computational Finance, a non-assessed computer course.
 # means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Applied Social Data Science**Programme Code:** TMASDS**Department:** Methodology

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	MY470 Computer Programming (0.5) And courses to the value of 0.5 units from the following: MY472 Data for Data Scientists (0.5) ST445 Managing and Visualising Data (0.5)
Paper 2	MY400 Fundamentals of Social Science Research Design (0.5) And courses to the value of 0.5 units from the following: MY452 Applied Regression Analysis (0.5) # MY474 Applied Machine Learning for Social Science (0.5) # ST443 Machine Learning and Data Mining (0.5) #

means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Behavioural Science**Programme Code:** TMBS**Department:** Psychological and Behavioural Science

For students starting this programme of study in 2019/20

Please note that places are limited on some optional courses.**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	PB405 Foundations in Behavioural Science (1.0) Students also take the unassessed course: PB400 Psychological and Behavioural Science (0.0)
Paper 2	PB4A7 Quantitative Applications for Behavioural Science (0.5) and PB413 Experimental Design and Methods for Behavioural Science (0.5)
Paper 3	Courses to the value of 0.5 unit(s) from the following: (The below courses cannot be selected if the course with the equivalent title has already been selected from paper 5) PB421 Happiness (0.5) 1 PB434 Behavioural Science in an Age of New Technology (0.5) 2 PB452 Behavioural Science for Health (0.5) # 3 PB453 Corporate Behaviour and Decision Making (0.5) 4
Paper 4	Students select a further 0.5 units from paper 3 (if the equivalent title has not been selected for their dissertation under paper 5), or from the list below: MY457 Causal Inference for Observational and Experimental Studies (0.5) # PB416 Cognition and Culture (0.5) PB417 Consumer Psychology (0.5) PB418 Corporate Communications (0.5) PB419 Creativity and Innovation (0.5) # (not available 2019/20) PB422 Health Communication (0.5) PB424 Issues in Organizational and Social Psychology: Organizational Life (0.5) PB425 Identity and Group Dynamics in Organisational and Social Settings (0.5) # PB426 Knowledge Processes in Organisations (0.5) PB427 Organisational and Social Decision

	Making (0.5) (not available 2019/20)
PB428	Political Psychology: Inequality and Prejudice (0.5) #
PB429	Science Communication and Controversies (0.5)
PB430	Social Influence (0.5) # (not available 2019/20)
PB431	Social Psychology of Economic Life: Advanced Topics (0.5)
PB432	Social Representations (0.5)
PB433	Theory and Practice of Organisation Development (0.5) (not available 2019/20)
PB458	Dialogue: Conflict & Negotiation (0.5)

A course from another department (subject to the approval of the Candidate's Programme Director)

Paper 3 option list

Paper 5

Courses assessed by a 10,000 word dissertation: (Courses cannot be selected from this list if the course with the equivalent title has already been selected from paper 3)

PB4D2	Happiness - Dissertation (1.0) 5
PB4D3	Behavioural Science in an Age of New Technology - Dissertation (1.0) 6
PB4D4	Behavioural Science for Health - Dissertation (1.0) 7
PB4D5	Corporate Behaviour and Decision Making - Dissertation (1.0) 8

Students can select a topic outside of the semi-compulsory list at the discretion of the Director under extraordinary circumstances.

Paper 3 option list

PB421	Happiness (0.5)
PB434	Behavioural Science in an Age of New Technology (0.5)
PB452	Behavioural Science for Health (0.5) #
PB453	Corporate Behaviour and Decision Making (0.5)

Prerequisite Requirements and Mutually Exclusive Options

- 1: PB421 can not be taken with PB4D2
 - 2: PB434 can not be taken with PB4D3
 - 3: PB452 can not be taken with PB4D4
 - 4: PB453 can not be taken with PB4D5
 - 5: PB4D2 can not be taken with PB421
 - 6: PB4D3 can not be taken with PB434
 - 7: PB4D4 can not be taken with PB452
 - 8: PB4D5 can not be taken with PB453
- # means there may be prerequisites for this course. Please view the course guide for more information.

MSc in China in Comparative Perspective**Programme Code:** TMCHCP**Department:** Anthropology

For students starting this programme of study in 2019/20 Full-year programme. Students must take one compulsory course, select optional courses to the value of two units, and write a dissertation, as shown below. Attendance at seminars and at non-assessed tutorials is compulsory.

Students intending to use this degree to convert to a discipline in which they hope to qualify to do a research degree, should choose their options in consultation with the Programme Director to ensure eligibility for the research programme in question.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	AN447 China in Comparative Perspective (1.0)

Papers 2 & 3	Courses to the value of 2.0 unit(s) from the following:
AN402	The Anthropology of Religion (1.0)
AN404	Anthropology: Theory and Ethnography (1.0)
AN405	The Anthropology of Kinship, Sex and Gender (1.0)
AN436	The Anthropology of Development (0.5)
AN451	Anthropology of Politics (0.5)
AN456	Anthropology of Economy (1): Production and Exchange (0.5)
AN457	Anthropology of Economy (2): Transformation and Globalisation (0.5)
AN459	Anthropology and Media (0.5) (withdrawn 2019/20)
AN473	Anthropological Approaches to Value (0.5)
AN478	Anthropology and Global History (0.5) (not available 2019/20)
AN479	Anthropology of Law (0.5)
AN480	Public Anthropology (0.5)
AN481	Health and Welfare: Anthropological Perspectives (0.5)

Other Anthropology courses (to the value of 1.0 unit) may be taken, subject to the approval of the Programme Director.

DV411	Population and Development: an Analytical Approach (0.5) (not available 2019/20)
DV413	Environmental Problems and Development Interventions (0.5) #
DV415	Global Environmental Governance (0.5)
DV432	China in Developmental Perspective (0.5) #
DV444	Global Health and Population Change (0.5) #
EH446	Economic Development of East and Southeast Asia (1.0) #
EH482	The Origins of the World Economy: Europe and Asia, 1000-1800 (1.0)
EU443	European Models of Capitalism (0.5)
GV427	Democracy in East and South Asia (0.5) (not available 2019/20)
GV432	Government and Politics in China (0.5)
GV467	Introduction to Comparative Politics (0.5)
GV4H1	Chinese Political Thought (0.5)
GY438	Cities and Social Change in East Asia (0.5) #
GY480	Remaking China: Geographical Aspects of Development and Disparity (0.5) #
HY461	East Asia in the Age of Imperialism, 1839-1945 (1.0) # A
HY472	China and the External World, 1711-1839 (1.0)
SP418	Global Social Policy and International Organizations (0.5)

Courses to the value of one full-unit from MSc International Relations (Papers 2 & 3), subject to availability and the approval of the relevant course convenor. The following courses would be particularly appropriate:

IR411	Foreign Policy Analysis III (1.0) #
IR445	China and the World (1.0)
IR462	International Political Theory (0.5)
IR464	The Politics of International Law (0.5) (not available 2019/20)

Paper 4	AN498 Dissertation- MSc China in Comparative Perspective (1.0)
---------	--

Footnotes

A: Places on HY461 are subject to space.
means there may be prerequisites for this course. Please view the course guide for more information.

MSc in City Design and Social Science

Programme Code: TMCIDSS

Department: Sociology

For students starting this programme of study in 2019/20

Full-year programme which can also be taken part-time over three years. Students must take the City Design: Research Studio course, two compulsory half-unit courses, an independent project, and one unit of optional courses.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	SO448 City Design: Research Studio (1.0)
Papers 2 & 3	Courses to the value of 1.0 unit(s) from the following: SO451 Cities by Design (0.5) SO465 City-Making: The Politics of Urban Form (0.5) SO477 Urban Social Theory (0.5)
Paper 4	Courses to the value of 1.0 unit(s) from the following: GY409 Globalization and Regional Development (0.5) GY431 Cities, People and Poverty in the South (0.5) # (not available 2019/20) GY438 Cities and Social Change in East Asia (0.5) # GY439 Cities, Politics and Citizenship (0.5) GY441 The Politics of Housing (0.5) GY448 Urban Planning: Society, Market and Sustainability (0.5) GY455 Economic Appraisal and Valuation (0.5) GY479 Urban Transformations (0.5) SO451 Cities by Design (0.5) SO465 City-Making: The Politics of Urban Form (0.5) SO473 Crime, Control and the City (0.5) SO475 Material Culture and Design (0.5) SO477 Urban Social Theory (0.5) SO480 Urban Inequalities (0.5) SO492 Qualitative Social Research Methods (0.5) SP435 Housing, Neighbourhoods and Communities (0.5) # SP437 International Housing and Human Settlements; Conflicts and Communities (0.5) (not available 2019/20) Any other course in the Department of Sociology, or other departments (special permission only), by agreement with the course tutor.
Paper 5	SO449 Independent Project (1.0) # means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Comparative Politics

Programme Code: TMCP

Department: Government

For students starting this programme of study in 2019/20

Full-year programme. Students must take papers to the value of four full units as shown. All students are required to write a 10,000-word dissertation. Note that some of the courses must be taken together. Part-time students may take up to four courses in their first year. Students can either opt for no specialism or choose one of the following streams: Democracy and Democratization, Nationalism and Ethnic Politics, Comparative Political Economy, Popular Politics, or Politics of the Developing World. The core elements for all specialisms on this programme are:

GV467 and GV499.

Students on a particular specialism will have automatic right of entry to the courses listed under the specialism. Other students will have access subject to availability.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Democracy and Democratization

Paper	Course number, title (unit value)
Paper 1	GV467 Introduction to Comparative Politics (0.5)
Paper 2	GV499 Dissertation (1.0)
Paper 3	GV4E1 Comparative Democratization in a Global Age (0.5)
Paper 4	Courses to the value of 0.5 unit(s) from the following: GV427 Democracy in East and South Asia (0.5) (not available 2019/20) GV442 Globalisation and Democracy (0.5) (not available 2019/20) GV444 Democracy and Development in Latin America (0.5) GV4C9 Globalization and Democratization in Southeast Asia (0.5) GV4E2 Capitalism and Democracy (0.5) GV4H2 Contemporary India: The World's Largest Democracy in the Early 21st Century (0.5) GV4J4 Citizen Representation and Democracy in the European Union (0.5)
Paper 5	Courses to the value of 1.5 unit(s) from the following: Approved paper options list Paper 4 options list (Democracy and Democratization)

Nationalism and Ethnic Politics

Paper	Course number, title (unit value)
Paper 1	GV467 Introduction to Comparative Politics (0.5)
Paper 2	GV499 Dissertation (1.0)
Paper 3	Courses to the value of 1.0 unit(s) from the following: EU457 Culture and Security in Global Politics (0.5) GV439 Government and Politics in Central and Eastern Europe (0.5) GV465 War, Peace and the Politics of National Self-Determination (0.5) GV4B9 The Second Europe (0.5) GV4J8 Middle East Politics in Transnational Perspective (0.5) GV4J9 Populism (0.5) #
Paper 4	Courses to the value of 1.5 unit(s) from the following: Approved paper options list Paper 3 options list (Nationalism and Ethnic Politics)

Comparative Political Economy

Paper	Course number, title (unit value)
Paper 1	GV467 Introduction to Comparative Politics (0.5)
Paper 2	GV499 Dissertation (1.0)
Paper 3	Courses to the value of 1.0 unit(s) from the following: GV441 States and Markets (0.5) GV4D4 The Politics of Inequality and Redistribution (0.5) GV4E2 Capitalism and Democracy (0.5)
Paper 4	Courses to the value of 0.5 unit(s) from the following: DV435 African Political Economy (0.5)

	GV4D4	The Politics of Inequality and Redistribution (0.5)
	GV4E2	Capitalism and Democracy (0.5)
	GV4F8	Institutions and Global Trade (0.5)
	SP441	Politics of Social Policy: Welfare and Work in Comparative Perspective (0.5)
Paper 5	Courses to the value of 1.0 unit(s) from the following: Approved paper options list Paper 4 options list (Comparative Political Economy)	

Popular Politics

Paper	Course number, title (unit value)
Paper 1	GV467 Introduction to Comparative Politics (0.5)
Paper 2	GV499 Dissertation (1.0)
Paper 3	Courses to the value of 1.0 unit(s) from the following: GV4A2 Citizens' Political Behaviour in Europe: Elections Public Opinion and Identities (0.5) # (not available 2019/20) GV4C9 Globalization and Democratization in Southeast Asia (0.5) GV4D3 Local Power in an Era of Globalization, Democratization, and Decentralization (0.5) GV4F2 Popular Politics in the Middle East (0.5) GV4J4 Citizen Representation and Democracy in the European Union (0.5)
Paper 4	Courses to the value of 1.5 unit(s) from the following: Approved paper options list Paper 3 options list (Popular Politics)

Politics of the Developing World

Paper	Course number, title (unit value)
Paper 1	GV467 Introduction to Comparative Politics (0.5)
Paper 2	GV499 Dissertation (1.0)
Paper 3	Courses to the value of 1.0 unit(s) from the following: DV435 African Political Economy (0.5) GV427 Democracy in East and South Asia (0.5) (not available 2019/20) GV432 Government and Politics in China (0.5) GV443 The State and Political Institutions in Latin America (0.5) (not available 2019/20) GV444 Democracy and Development in Latin America (0.5) GV4F2 Popular Politics in the Middle East (0.5) GV4F9 The Politics in Sub-Saharan Africa (0.5) GV4H2 Contemporary India: The World's Largest Democracy in the Early 21st Century (0.5) GV4J8 Middle East Politics in Transnational Perspective (0.5)
Paper 4	Courses to the value of 1.5 unit(s) from the following: Approved paper options list Paper 3 options list (Politics of the Developing World)

No specialism

Paper	Course number, title (unit value)
Paper 1	GV467 Introduction to Comparative Politics (0.5)

MSc in Conflict Studies
Programme Code: TMCS

Department: Government

 For students starting this programme of study in 2019/20
 Full-year programme. Students must take courses to the value of four full units.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	GV4G4 Comparative Conflict Analysis (0.5) and courses to the value of 0.5 unit(s) from the following: A
	MY421 Qualitative Research Methods (0.5)
	MY425 Case Studies and Comparative Methods for Qualitative Research (0.5) #
	MY451 Introduction to Quantitative Analysis (0.5)
	MY452 Applied Regression Analysis (0.5) #
Paper 2	Courses to the value of 0.5 unit(s) from the following:
	EU4A2 Globalisation, Conflict and Post-Conflict Reconstruction (0.5)
	GV4A8 Nationalist Conflict, Political Violence and Terrorism (0.5)
	GV4B8 Civil Wars: Concepts and Cases (0.5)
	GV4D3 Local Power in an Era of Globalization, Democratization, and Decentralization (0.5)
Paper 3	GV4E3 Democratisation, Conflict and Statebuilding (0.5)
	GV4E8 Conflict and Institutional Design in Divided Societies (0.5)
	GV4F2 Popular Politics in the Middle East (0.5)
	Courses to the value of 1.5 unit(s) from the following:
	DV428 Managing Humanitarianism (0.5)
	DV434 Human Security (0.5)
	DV462 Forced Migration and Refugees (0.5)
	EU440 The Balkans in Europe: Transition, Democratisation, Integration (0.5)
	EU457 Culture and Security in Global Politics (0.5)
	EU458 Public Policy and Cultural Narratives in a Global Europe (0.5)
EU485 Post-Conflict Justice and Reconciliation in Europe and Beyond (0.5)	
GI413 Gender and Militarisation (0.5)	
GI425 Women, Peace and Security (0.5)	
GV439 Government and Politics in Central and Eastern Europe (0.5)	

GV4B9	The Second Europe (0.5)
GV4C9	Globalization and Democratization in Southeast Asia (0.5)
GV4E1	Comparative Democratization in a Global Age (0.5)
GV4F9	The Politics in Sub-Saharan Africa (0.5)
GV4J8	Middle East Politics in Transnational Perspective (0.5)
HY436	Race, Violence and Colonial Rule in Africa (1.0)
IR422	Conflict and Peacebuilding (1.0) #
IR461	Islam in World Politics (1.0)
IR466	Genocide (0.5)
LL468	European Human Rights Law (0.5)
LL475	Terrorism and the Rule of Law (0.5)
LL4A8	International Law and the Use of Force (0.5) #

A half-unit MSc course from the Government Department or another department (with the consent of the programme director and the teacher of the course).

Paper 2 options list

Paper 4

GV499 Dissertation (1.0)

Paper 2 options list

EU4A2	Globalisation, Conflict and Post-Conflict Reconstruction (0.5)
GV4A8	Nationalist Conflict, Political Violence and Terrorism (0.5)
GV4B8	Civil Wars: Concepts and Cases (0.5)
GV4D3	Local Power in an Era of Globalization, Democratization, and Decentralization (0.5)
GV4E3	Democratisation, Conflict and Statebuilding (0.5)
GV4E8	Conflict and Institutional Design in Divided Societies (0.5)
GV4F2	Popular Politics in the Middle East (0.5)

Footnotes

A: MY421, MY452 and MY451 are half unit courses which run twice per year – once in MT and once in LT.

means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Criminal Justice Policy

Programme Code: TMCJP

Department: Social Policy

For students starting this programme of study in 2019/20 Full-year programme. Students must take one compulsory course, optional courses to the value of two full units and a dissertation.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	SP470 Criminal Justice Policy (1.0)
Papers 2 & 3	Courses to the value of 2.0 unit(s) from the following:
	LL4CL Explaining Punishment: Philosophy, Political Economy, Sociology (0.5)
	LL4K7 Mental Health Law: The Criminal Context (0.5)
	SO473 Crime, Control and the City (0.5)
	SP413 Understanding Social (Dis)advantage (0.5)
	SP414 Ethnicity, Race and Social Policy (0.5)
	SP419 Social Movements, Activism, and Social Policy (0.5)
	SP471 Issues in Contemporary Policing (0.5) #
	SP472 Illegal Drugs and Their Control: Theory,

	Policy and Practice (0.5) #
SP473	Policing, Security and Globalisation (0.5) #
SP475	Riots, Disorder and Urban Violence (0.5) #
SP476	Punishment and Penal Policy (0.5)
	If less than 2.0 units of courses are taken from the list above, then students must select the remaining courses from the following:
LL4AR	International Criminal Law: Core Crimes and Concepts (0.5)
LL4AS	International Criminal Law: Prosecution and Practice (0.5) (not available 2019/20)
LL4BK	Corporate Crime (0.5)
LL4BL	Financial Crime (0.5) (not available 2019/20)
LL4CA	Law and Social Theory (0.5)
LL4CE	Security and Criminal Law (0.5) # A
SP475	Riots, Disorder and Urban Violence (0.5) #

A course from another programme (with the permission of your tutor, the MSc Programme Director and the Course Tutor).

Paper 4

SP498 Criminal Justice Policy - Long Essay (1.0)

Footnotes

A: You must have a Law Degree as a prerequisite for taking LL4CE.

means there may be prerequisites for this course. Please view the course guide for more information.

It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of Social Policy (i.e. not prefixed with 'SP').

Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm. Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm.

MSc in Culture and Conflict in a Global Europe

Programme Code: TMCCGLEU

Department: European Institute

For students starting this programme of study in 2019/20

(Formerly MSc in Global Europe: Culture and Conflict)

Full-year programme. Students must take two compulsory courses, optional courses to the value of two units and a dissertation as shown below. Additionally, all students must take EU410 Interdisciplinary Research Methods and Design in preparation for the dissertation. Students must also take EU450 Engaging with Europe: Professional Skills as part of their professional development.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	Courses to the value of 1.0 unit(s) from the following:
	EU447 Democracy, Ideology and the European State (0.5)
	EU457 Culture and Security in Global Politics

Paper 2

(0.5)

EU478 The Culture of European Politics (0.5)

Courses to the value of 1.0 unit(s) from the following:

EU430 Europeanization: The Comparative Politics of Domestic Change (0.5)

EU431 European Integration from a Global Perspective (0.5) # (withdrawn 2019/20)

EU432 The Philosophy of Europe (0.5) #

EU437 Europe Beyond Modernity (0.5)

EU439 Political and Fiscal Integration and Disintegration in EU Member States (0.5)

EU440 The Balkans in Europe: Transition, Democratisation, Integration (0.5)

EU447 Democracy, Ideology and the European State (0.5)

EU457 Culture and Security in Global Politics (0.5)

EU458 Public Policy and Cultural Narratives in a Global Europe (0.5)

EU464 International Migration: EU Policies and Politics (0.5) #

EU475 Religious Diversity and Conflict in Europe (0.5)

EU476 Turkey and Europe (0.5) #

EU478 The Culture of European Politics (0.5)

EU479 EU Policy-Making and International Cooperation (0.5) # (withdrawn 2019/20)

EU480 Policy-Making in Europe: System Challenges (0.5) # (withdrawn 2019/20)

EU481 The Future: Political Responses to a Challenge (0.5) (not available 2019/20)

EU484 Europe's Role in Global Migration Governance (0.5)

EU485 Post-Conflict Justice and Reconciliation in Europe and Beyond (0.5)

EU486 Imaging Violence, Imagining Europe (0.5)

EU4A1 The Politics and Policies of 'Brexit': The UK's Changing Relationship with the European Union (0.5)

EU4A2 Globalisation, Conflict and Post-Conflict Reconstruction (0.5)

Paper 3

Courses to the value of 1.0 unit(s) from the following:

GI421 Sexuality, Gender and Culture (0.5) #

GI422 Sexuality, Gender and Globalisation (1.0)

GV498 Multiculturalism (0.5)

GV4B9 The Second Europe (0.5)

IR452 Empire and Conflict in World Politics (0.5)

IR461 Islam in World Politics (1.0)

IR465 The International Politics of Culture and Religion (1.0) #

IR481 Europe, the US and Arab-Israeli Relations (0.5) # (not available 2019/20)

SO479 Human Rights and Postcolonial Theory (0.5)

Paper 4

Paper 2 options list

EU410 Interdisciplinary Research Methods and Design (0.0)

EU450 Engaging with Europe: Professional Skills (0.0)

EU499 Dissertation (1.0)

Paper 2 options list

EU430 Europeanization: The Comparative Politics of Domestic Change (0.5)

EU431 European Integration from a Global Perspective (0.5) # (withdrawn 2019/20)

EU432 The Philosophy of Europe (0.5) #

EU437 Europe Beyond Modernity (0.5)

EU439 Political and Fiscal Integration and Disintegration in EU Member States (0.5)

EU440 The Balkans in Europe: Transition, Democratisation, Integration (0.5)

EU447 Democracy, Ideology and the European State (0.5)

EU457 Culture and Security in Global Politics (0.5)

EU458 Public Policy and Cultural Narratives in a Global Europe (0.5)

EU475 Religious Diversity and Conflict in Europe (0.5)

EU476 Turkey and Europe (0.5) #

EU478 The Culture of European Politics (0.5)

EU479 EU Policy-Making and International Cooperation (0.5) # (withdrawn 2019/20)

EU480 Policy-Making in Europe: System Challenges (0.5) # (withdrawn 2019/20)

EU481 The Future: Political Responses to a Challenge (0.5) (not available 2019/20)

EU484 Europe's Role in Global Migration Governance (0.5)

EU485 Post-Conflict Justice and Reconciliation in Europe and Beyond (0.5)

EU486 Imaging Violence, Imagining Europe (0.5)

EU4A1 The Politics and Policies of 'Brexit': The UK's Changing Relationship with the European Union (0.5)

EU4A2 Globalisation, Conflict and Post-Conflict Reconstruction (0.5)

means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Culture and Society

Programme Code: TMCUSO

Department: Sociology

For students starting this programme of study in 2019/20 Full-year programme. Students take two compulsory courses, optional courses to the value of 1.5 full units plus the dissertation as shown.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	SO434 Cultural Theory and Cultural Forms (1.0)
Paper 2	SO492 Qualitative Social Research Methods (0.5)
Paper 3	Courses to the value of 1.5 unit(s) from the following:
	GI402 Gender, Knowledge and Research Practice (0.5)
	GI403 Gender and Media Representation (0.5)
	GI410 Screening the Present: Contemporary Cinema and Cultural Critique (0.5) #
	GI421 Sexuality, Gender and Culture (0.5) #
	GY439 Cities, Politics and Citizenship (0.5)
	GY479 Urban Transformations (0.5)
	MC402 The Audience in Media and Communications (0.5)
	MC408 Theories and Concepts in Media and Communications (0.5)
	MC420 Identity, Transnationalism and the Media (0.5)
	MY427 Qualitative Research with Digital and Visual Data (0.5) # (not available 2019/20)
	PB432 Social Representations (0.5)
	SO426 Classical Social Thought (0.5) (not

	available 2019/20)
	SO471 Technology, Power and Culture (0.5)
	SO475 Material Culture and Design (0.5)
	SO477 Urban Social Theory (0.5)
	SO479 Human Rights and Postcolonial Theory (0.5)
	SO481 Class, Politics and Culture (0.5)
	SO482 Topics in Race, Ethnicity and Postcolonial Studies (0.5) (not available 2019/20)
	SO490 Contemporary Social Thought (0.5)
	SO4A9 White Screens/Black Images: The Sociology of Black Cinema (0.5) (not available 2019/20)
	SO4B4 The New Reproductive Sociology (0.5)
	SO4B6 Nature and Technology: More than Human Sociology (0.5)
	Or any other MSc level course offered in the School, subject to the consent of the candidate's teachers.
Paper 4	SO493 MSc in Culture and Society Dissertation (1.0)
	# means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Data Science

Programme Code: TMDS

Department: Statistics

For students starting this programme of study in 2019/20 Full-year programme. Students must take four compulsory courses, options to the value of one unit and a dissertation as shown.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	MY470 Computer Programming (0.5)
	Or
	Students who can demonstrate equivalent prior knowledge of MY470, via transcripts of prior qualifications, may instead take a further 0.5 unit course from Paper 5:
	Paper 5 options list
Paper 2	ST445 Managing and Visualising Data (0.5)
Paper 3	ST447 Data Analysis and Statistical Methods (0.5) #
	Or
	Students who can demonstrate equivalent prior knowledge of ST447, via transcripts of prior qualifications, may instead take a further 0.5 unit course from Paper 5:
	Paper 5 options list
Paper 4	ST443 Machine Learning and Data Mining (0.5) #
Paper 5	Courses to the value of 1.0 unit(s), including at least 0.5 unit(s) of ST courses from the following:
	MA407 Algorithms and Computation (0.5) #
	MA424 Modelling in Operations Research (0.5) #
	MY459 Special Topics in Quantitative Analysis: Quantitative Text Analysis (0.5) #
	MY461 Social Network Analysis (0.5)
	ST449 Artificial Intelligence and Deep Learning (0.5)
	ST451 Bayesian Machine Learning (0.5) #
	ST405 Multivariate Methods (0.5) #
	ST411 Generalised Linear Modelling and Survival Analysis (0.5) #
	ST422 Time Series (0.5) #

	ST429 Statistical Methods for Risk Management (0.5) #
	ST436 Financial Statistics (0.5) #
	ST444 Statistical Computing (0.5)
	ST446 Distributed Computing for Big Data (0.5) #
Paper 6	ST498 Capstone Project (1.0)
	Paper 5 options list
	MA407 Algorithms and Computation (0.5) # Or
	MA424 Modelling in Operations Research (0.5) # Or
	MY459 Special Topics in Quantitative Analysis: Quantitative Text Analysis (0.5) # Or
	MY461 Social Network Analysis (0.5) Or
	ST405 Multivariate Methods (0.5) # Or
	ST411 Generalised Linear Modelling and Survival Analysis (0.5) # Or
	ST422 Time Series (0.5) # Or
	ST429 Statistical Methods for Risk Management (0.5) # Or
	ST436 Financial Statistics (0.5) # Or
	ST444 Statistical Computing (0.5) Or
	ST449 Artificial Intelligence and Deep Learning (0.5) Or
	ST451 Bayesian Machine Learning (0.5) #
	# means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Development Management

Programme Code: TMDVMN

Department: International Development

For students starting this programme of study in 2019/20

Full-year programme. Students must take courses to the value of three full units and a dissertation as shown.

Students who choose to concentrate their electives and dissertation in a certain topic area may elect to have a specialism in "African Development", "Population Studies" or "Applied Development Economics" attached to their degree certificate and transcript. To obtain the specialism indication, students must meet the criteria below.

African Development: students must take DV418 and DV435, and their dissertation topic must be approved as being appropriate for this specialism.

Population Studies: students must take DV444 and DV456, and their dissertation topic must be approved as being appropriate for this specialism.

Applied Development Economics: students must take at least two of DV490, DV491, and DV492, and their dissertation topic must be approved as being appropriate for this specialism.

If no such election is made, the degree certificate will state "Development Management" without further specification.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	DV431 Development Management (1.0)
Papers 2 & 3	Courses to the value of 2.0 unit(s) from the following:
	AC470 Accounting in the Global Economy (0.5) #
	DV407 Poverty (0.5)
	DV411 Population and Development: an Analytical Approach (0.5) (not available 2019/20)
	DV413 Environmental Problems and Development Interventions (0.5) #
	DV415 Global Environmental Governance (0.5)
	DV418 African Development (0.5)

DV420	Complex Emergencies (0.5)	GY421	Gender and Development: Geographical Perspectives (0.5) # (not available 2019/20)	
DV421	Critical Perspectives on Global Health and Development (0.5) (not available 2019/20)	GY423	Environment and Development (1.0) # (withdrawn 2019/20)

Prerequisite Requirements and Mutually Exclusive Options

1: GI407 can not be taken with GI409, GI420

2: GI409 can not be taken with GI407, GI420

3: GI420 can not be taken with GI409, GI407

A: The International Relations (IR) Department permits non-IR students to take only one option from those prefixed "IR". Access is not guaranteed for any option.

B: For students without a first degree in Economics.

C: Entry to this course may be restricted.

D: Entry to this course may be restricted.

E: Entry to this course may be restricted.

F: Course designed for those with a minimum of one year's practical working experience in developing countries; seminars draw extensively on students' own experience. Entry may be restricted. Interested students should attend lectures and consult the lecturers.

G: Course designed for those with a minimum of one year's practical working experience in developing countries; seminars draw extensively on students' own experience. Entry may be restricted. Interested students should attend lectures and consult the lecturers.

means there may be prerequisites for this course. Please view the course guide for more information.

MSc in Econometrics and Mathematical Economics

Programme Code: TMEM

Department: Economics

For students starting this programme of study in 2019/20 Academic-year programme. Students must take courses to the value of four full units as shown. Students are also required to attend the Introductory course EC451 Introductory Course for MSc EME.

Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Introductory course	EC451 Introductory Course for MSc EME (0.0)
Paper 1	EC484 Econometric Analysis (1.0) #
Paper 2	EC487 Advanced Microeconomics (1.0) #
Paper 3	EC417 Advanced Macroeconomics (1.0) #
Paper 4	MSc EME Option List - courses to the value of 1.0 unit from the following:
	EC421 International Economics (1.0) #
	EC423 Labour Economics (1.0) #
	EC424 Monetary Economics (1.0) #
	EC426 Public Economics (1.0) #
	EC427 The Economics of Industry (1.0) #
	EC428 Development and Growth (1.0) #
	EC453 Political Economy (1.0) # (not available 2019/20)
	EC465 Economic Growth, Development, and Capitalism in Historical Perspective (1.0) #
	EC475 Quantitative Economics (1.0) #
	EC476 Contracts and Organisations (1.0) #
	EC485 Further Topics in Econometrics (1.0) #
	FM421 Applied Corporate Finance (0.5) #

	ST418 Non-Linear Dynamics and the Analysis of Real Time Series (0.5) #
	ST422 Time Series (0.5) #

means there may be prerequisites for this course. Please view the course guide for more information.

The Bologna Process lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

Footnotes

MSc in Economic History

Programme Code: TMEH

Department: Economic History

For students starting this programme of study in 2019/20

Full-year programme. Students must take compulsory courses to the value of 1.5 units, optional courses to the value of two units and a half-unit dissertation.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Paper 1	EH401 Historical Analysis of Economic Change (0.5)
Paper 2	EH482 The Origins of the World Economy: Europe and Asia, 1000-1800 (1.0) Or
	EH483 The Development and Integration of the World Economy in the 19th and 20th Centuries (1.0)
Papers 3 & 4	EH498 Dissertation (0.5)
	and courses to the value of two full units from the following:

Papers 3 & 4 options list

Or

With the approval of their Academic Mentor, students may request to take EH499 (Dissertation: MSc Economic History) and courses to the value of 1.5 units from the Papers 3 and 4 options list, instead of taking EH498:

EH499 Research Dissertation (1.0) * and courses to the value of 1.5 units from the following:

Papers 3 & 4 options list

Papers 3 & 4 options list

EC465	Economic Growth, Development, and Capitalism in Historical Perspective (1.0) # 1
EH402	Research Design and Quantitative Methods in Economic History (0.5) 2

MSc in Economics

Programme Code: TMEC

Department: Economics

For students starting this programme of study in 2019/20 Academic-year programme. Students must take three compulsory courses, one unit of optional courses and an extended essay linked to the optional course as shown. Students are also required to

CourseAndProgrammeInfo/updatedPGFuture.htm.

MSc in Economics (2 Year Programme)

Programme Code: TMECT

Department: Economics

For students starting this programme of study in 2019/20 Students without a strong background in economics are required to take the MSc programme over two years. The first year of the programme is governed by the 'Regulations for Diplomas'; students who successfully complete the examinations at the end of the first year will be awarded a Diploma in Economics. In order to progress to the second year, which is governed by the 'Regulations for Taught Master's Degrees', students must attain or exceed the progression threshold for each of the four courses they have taken. The progression threshold is 60% for courses EC201, EC210, EC220, and MA100, while the progression threshold is 55% in courses EC202, EC221, MA212 and other advanced MAXXX options. The Sub-Board of Examiners may, at its discretion, consider for progression candidates who fall marginally short of this requirement. However, students gaining the Diploma in a re-sit attempt are not eligible for progression onto the MSc, nor are students entitled to re-sit first year examinations already passed in order to achieve the progression standard.

In Year 2, students must take three compulsory courses, one unit of optional courses and an extended essay linked to the optional course as shown. Students are also required to attend EC400 Introductory Course in Mathematics and Statistics.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Paper	Course number, title (unit value)
Year 1

MSc in Finance (full-time)**Programme Code:** TMFIFT**Department:** Finance

For students starting this programme of study in 2019/20

Academic-year (10 month) programme. Students must take two compulsory courses and optional courses to the value of two full units as shown. All students must submit a dissertation in one of the optional half unit courses and take an examination in the other three half unit courses. Admitted students are required to attend a pre-session course at the start of the programme in September. The dissertation must be submitted by the first week of June.

Please note that places are limited on some optional courses.**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Year 1	
Paper 1	FM422 Corporate Finance (1.0) #
Paper 2	FM423 Asset Markets (1.0) #
Papers 3 & 4	Students should select 4 half unit courses to the value of 2 full units from List 1 and List 2 below. Students must select at least three courses from the dedicated list of options.
	List 1 - Courses assessed by Exam or Coursework
	Dedicated list of options:
	FM405 Fixed Income Securities and Credit Markets (0.5) #
	FM406 Topics in Portfolio Management (0.5) #
	FM407 Mergers, Buyouts and Corporate Restructurings (0.5) #
	FM408 Financial Engineering (0.5) #
	FM409E Risk Management in Financial Markets (0.5) #
	FM414 Corporate Investment and Financial Policy (0.5) #
	FM477 International Finance for MSc Finance and Economics, MSc Finance and MSc Finance & Private Equity (0.5) #

Other options:

FM412 Quantitative Security Analysis (0.5) #

FM476 Entrepreneurial Finance (0.5) #

List 2 - Courses assessed by Dissertation

Courses cannot be selected from this list if the course with the equivalent title has already been selected from List 1.

Dedicated list of options:

FM478 International Finance for MSc Finance and Economics, MSc Finance and MSc Finance & Private Equity - Dissertation (0.5) #

FM4T4 Corporate Investment and Financial Policy - Dissertation (0.5)

FM4T6 Topics in Portfolio Management - Dissertation (0.5)

FM4T8 Financial Engineering - Dissertation (0.5)

FM4U5 Fixed Income Securities and Credit Markets - Dissertation (0.5)

FM4U7 Mergers, Buyouts and Corporate Restructurings - Dissertation (0.5)

FM4U9E Risk Management in Financial Markets - Dissertation (0.5)

In exceptional cases it may be possible to take an unlisted optional course with the approval of the Programme Director.

Other options:

FM4T9 International Finance - Dissertation (0.5) (not available 2019/20)

FM4U4 Quantitative Security Analysis - Dissertation (0.5)

Additional course

The following course is not for credit and can be taken in addition to courses to the value of 2.0

units selected from Papers 3 & 4:
 FM457 Applied Computational Finance (0.0)
 # means there may be prerequisites for this course. Please view the course guide for more information.
 The Bologna Process lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

MSc in Finance (full-time) (Work Placement Pathway)

Programme Code: TMFIFTW

Department: Finance

For students starting this programme of study in 2019/20.

Please note that places are limited on some optional courses.

Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.

Academic-year (10 month) programme. Students must take two compulsory courses and optional courses to the value of two full units as shown. All students must submit a dissertation in one of the optional half unit courses and take an examination in the other three half unit courses. Admitted students are required to attend a pre-session course at the start of the programme in September. The dissertation must be submitted by the first week of June. Students who choose to transfer to the Work Placement Pathway must undertake a work placement and assessment in addition to the courses listed above. Transferring to the Work Placement Pathway extends the duration of the programme to 12 months. Students have the option to transfer to the Work Placement Pathway upon receipt of an offer to undertake an internship placement, which must be approved by the Department. Students on this pathway are required to undertake a full-time internship or work placement during the summer and to submit an essay of 2000 words following the placement (see FM411 for details). The essay will be assessed on a pass/fail basis and students must pass the essay to graduate from the programme.
