Two hours per week, which will feature: (a) interactive topical work; (b) oral practice; (c) grammar and vocabulary work; (d) tutorials; and (e) guided study using IT and web-based materials.

Structured activities in Week 11 of MT and LT.

**Formative coursework:** Students will be expected to produce 2 essays, 2 problem sets, 2 presentations, 2 projects and 2 other pieces of coursework in the MT and LT.

The students will be required to complete weekly exercises.

This includes vocabulary quiz, presentation, writing, translation/interpretation and online communicative materials.

**Indicative reading:** Authentic materials will be used in this class.

**Assessment:** Coursework (70%) in the MT and LT.

Oral examination (30%) in the ST.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic

proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

## LN342

### Academic Chinese for International Relations

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Hua Xiang PEL.6.01B

**Availability:** This course is compulsory on the BSc in International Relations and Chinese. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Mandarin Language and Society 4 (Proficiency) (LN240).

**Course content:** This course aims to develop students' linguistic skills at a near mastery level through studying authentic materials relevant to Year 4 international relation students. Possible topics such Sino-UK relation, Sino-USA relation, Modernity and the State in China, China's recent rise, e-Commerce, wealth inequality, gender discrimination, migrant workers, and so on ( Four themes – China and the world, China: past and current, China: economic development, China: human rights and equality). The students will be given opportunities to learn the key vocabulary related to China's history and current society, foreign policy, economic development, and human rights. Meanwhile, they will discuss and analyse real cases using methods/tools they have developed from their IR courses. The course is communicative and interactive. The students are required to read authentic materials in the target language and learn to discuss, summarise and debate ideas and issues in China as well as consider the applicability in different social/culture context.

COMMUNICATIVE CONTENT:

- Fluently express one's opinion in mandarin Chinese
- Fluently read and comprehend newspaper articles in mandarin Chinese (1500-2000 words)
- Skillfully summarise newspaper articles
- Understand presentations, talks, lectures in related areas in mandarin Chinese.
- Clearly and convincingly express one's subject analysis and viewpoint in mandarin Chinese

**Teaching:** 22 hours of classes in the MT. 22 hours of classes in the LT. 2 hours of classes in the ST.

2 hour classes per week. The teaching will be theme based, communicative and using integrated approaches. The teaching will be focusing on:

- Learn proficiency/mastery level Chinese phrases and expressions (equivalent to HSK 6) specific to IR.
- Chinese proverbs.
- Longer sentences and more complicated sentence structures.
- Introduction of traditional Chinese characters and classical Chinese160

**Formative coursework:** Students will be expected to produce 2 essays, 2 presentations, 2 exercises and 1 project in the MT and LT. The students will be required to complete weekly exercises. This includes essays, in class presentation or recording, and project work.

**Indicative reading:** The students will be working with authentic materials in this unit, such as newspaper, journal articles and chapter selection from Chinese books.

**Assessment:** Coursework (70%) in the MT and LT. Oral examination (30%) in the ST.

Language courses map to the Common European Framework for Language Learning. This framework defines linguistic proficiency in the four language skills (reading, writing, speaking and listening) at different levels. To pass this course, students are therefore required to achieve a pass mark in each element of the assessment (continuous assessment, oral and written exams), as these test all four skills.

## MA100

### Mathematical Methods

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Ioannis Kouletsis

**Availability:** This course is compulsory on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Economics with Economic History, BSc in Finance, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available on the BSc in Accounting and Finance, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics and MSc in Economics (2 Year Programme). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** This course assumes knowledge of the elementary techniques of mathematics including calculus, as evidenced for example by a good grade in A Level Mathematics.

**Course content:** This is an introductory level course for those who wish to use mathematics seriously in social science, or in any other context. A range of basic mathematical concepts and methods in calculus of one and several variables and in linear algebra are covered and some applications illustrated. It is an essential pre-requisite for any mathematically orientated economics options and for many further mathematics courses. Topics covered: Matrices, reduced row echelon form, rank. Systems of linear equations, Gaussian elimination. Determinants. Vector spaces, linear independence, basis, dimension. Linear transformations, similarity. Eigenvalues. Diagonalization. Orthogonal diagonalization. Complex numbers. Vectors. Functions of several variables, derivatives, gradients, tangent hyperplanes. Optimisation including Lagrange's method. Vector-valued functions, derivatives and their manipulation. Inverse functions, local inverses and critical points, use in transformations. Integration, differential and difference equations. Some applications of the above topics.

**Teaching:** This course is delivered through a combination of classes, lectures, and pre-recorded videos, totalling a minimum of 60 hours across Michaelmas Term and Lent Term.

**Formative coursework:** Students will be expected to attempt a number of weekly self-study exercises (and check their answers using solutions provided) in preparation for their classes. Homework will be submitted weekly to the appropriate class teacher for marking and feedback. In addition, Home Assignments with Exam-Style Questions will be submitted for marking and feedback at regular intervals throughout the year. Success in this paper depends on dealing with the written work as it is assigned, in a regular and systematic manner.

**Indicative reading:** Ken Binmore & Joan Davies, *Calculus, Concepts and Methods*; Martin Anthony & Michele Harvey, *Linear Algebra, Concepts and Methods*.

**Assessment:** Exam (75%, duration: 3 hours) in the summer exam period. Exam (25%, duration: 1 hour) in the January exam period.

## MA102 Half Unit

### Mathematical Proof and Analysis

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Peter Allen

**Availability:** This course is compulsory on the BSc in Data Science. This course is available on the BSc in Actuarial Science and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students should have taken, or be taking concurrently, the course Mathematical Methods (MA100), **or** the course Quantitative Methods (Mathematics) (MA107).

**Course content:** The course is an introduction to the use of formal definitions and proofs in mathematics, and to basic results of elementary logic, set theory and analysis. Specific topics covered are as follows: Logic, sets and functions, relations, real numbers, infimum and supremum, sequences, limits and continuity.

This course is intended as preparation for a student interested in the application of mathematical concepts and proof to subjects such as computer science (in particular the analysis of algorithms) and economics.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 40 hours across Michaelmas Term.

**Formative coursework:** Students will be expected to produce 10 problem sets in the MT.

Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Students may wish to have one of the recommended textbooks:

- N L Biggs, *Discrete Mathematics* (2nd edn) **or**
- P J Eccles, *An Introduction to Mathematical Reasoning*, but these are not required.

Further background reading can be found in:

- R Allenby, *Numbers and Proofs*;
- M Liebeck, *A Concise Introduction to Pure Mathematics*;
- V Bryant, *Yet Another Introduction to Analysis*, *and*;
- R Bartle & D Sherbert, *Introduction to Real Analysis*.

**Assessment:** Exam (90%, duration: 1 hour and 30 minutes) in the summer exam period.

Continuous assessment (10%) in the MT.

## MA103

### Introduction to Abstract Mathematics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Peter Allen and Dr Emilio Pierro

**Availability:** This course is compulsory on the BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Data Science and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students should have taken, or be taking concurrently, the course *Mathematical Methods* (MA100).

**Course content:** The course is an introduction to the use of formal definitions and proofs in mathematics, and to basic results of elementary set theory, number theory, linear algebra, algebra and analysis. Specific topics covered are as follows: Logic, sets and functions, relations, real numbers, infimum and supremum, sequences, limits and continuity, integers, prime numbers, greatest common divisor and modular arithmetic, complex numbers, groups and vector spaces.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 80 hours across Michaelmas Term and Lent Term.

**Formative coursework:** Students will be expected to produce 20 problem sets in the MT and LT.

Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Students may wish to have one of the recommended textbooks: N L Biggs, *Discrete Mathematics* (2nd edn) or P J Eccles, *An Introduction to Mathematical Reasoning*, but these are not required. Further background reading can be found in R Allenby, *Numbers and Proofs*; M Liebeck, *A Concise Introduction to Pure Mathematics*; V Bryant, *Yet Another Introduction to Analysis*; R Bartle & D Sherbert, *Introduction to Real Analysis* and H Anton, *Elementary Linear Algebra*.

**Assessment:** Exam (90%, duration: 3 hours) in the summer exam period.

Continuous assessment (10%) in the MT and LT.

## MA107 Half Unit

### Quantitative Methods (Mathematics)

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr James Ward

**Availability:** This course is compulsory on the BSc in Economic History with Economics, BSc in Economics and Economic History, BSc in Environmental Policy with Economics, BSc in Geography with Economics, BSc in International Social and Public Policy and Economics, BSc in Management and BSc in Social Policy and Economics. This course is available on the BSc in Accounting and Finance, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics and Diploma in Accounting and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Pre-requisites:** A-level Mathematics (or equivalent).

Students with A-level Mathematics who are confident of their mathematical skills may, regulations permitting, also consider the full unit **MA100 Mathematical Methods**.

**Course content:** The aim of this course is to develop the basic mathematical tools necessary for further study in economics and related disciplines. To this end we focus on: techniques of calculus (differentiation, partial differentiation, optimisation and integration), methods of linear algebra (use of matrices), and the solution of difference and differential equations. The ideas are taught systematically, with emphasis on their application to economic problems. Examples are used throughout the course for motivation and illustration.

Specific topics are as follows: sets, functions, equations, graphs. Difference equations, sequences, limits. Differentiation, inverse functions, exponential and logarithmic functions. Partial differentiation, chain rule, homogeneous functions. Optimisation in two variables: unconstrained and constrained. Lagrange multipliers. Vector notation and convexity. Matrix notation, systems of linear equations, inverse matrices. Integration. Differential equations.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Michaelmas Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** The course follows M Anthony & N L Biggs, *Mathematics for Economics and Finance: Methods and Modelling*, CUP, 1996. There are many other books with titles like *Mathematics for Economists* which may be of some use, but they won't cover the entire course.

**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.

## MA203 Half Unit

### Real Analysis

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Konrad Swanepoel

**Availability:** This course is compulsory on the BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** *Introduction to Abstract Mathematics* (MA103) or *Mathematical Proof and Analysis* (MA102) are essential.

**Course content:** This is a course in real analysis for those who have already met the basic concepts of sequences and continuity on the real line. Here we generalize these concepts to

Euclidean spaces and to more general metric and normed spaces. These more general spaces are introduced at the start and are emphasized throughout the course.

Topics covered are:

- Metric and normed spaces, open and closed sets.
- Sequences in metric spaces, compactness, completeness.
- Pointwise and uniform convergence of sequences of functions.
- Continuity of real valued functions and of functions between metric spaces, uniform continuity and Lipschitz condition.
- Differentiation of real valued functions, the mean value theorem, differentiation of functions between Euclidean spaces, and partial derivatives.
- Series, including power series and series in normed spaces.
- Riemann integral and the fundamental theorem of calculus.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Michaelmas Term. In-person lectures and seminars might be replaced by online ones depending on the future COVID-19 situation.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** A comprehensive pack of lecture notes will be provided. The following book may prove useful for some aspects of the course:

- Robert G Bartle & Donald R Sherbert, Introduction to Real Analysis

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## MA207 Half Unit

### Further Quantitative Methods (Mathematics)

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr James Ward

**Availability:** This course is available on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students should have previously taken **MA107 Quantitative Methods (Mathematics)**. It is not available to students who have taken **MA100 Mathematical Methods**, or equivalent, nor higher level methods courses.

**Course content:** This is a second course in quantitative methods, following on directly from Quantitative Methods (Mathematics) (MA107). This course will contain further algebra and calculus. As with the course MA107, the emphasis will be on applications in economics and finance. Topics covered: Matrix methods in portfolio analysis. Linear independence. Rank of a matrix. Eigenvalues and eigenvectors. Diagonalisation. Linear systems of recurrence equations. Markov process. Second-order recurrence equations. Macroeconomic models. Vector geometry. Gradient and directional derivative. Tangent hyperplanes and the optimal bundle. Resource allocation and Pareto efficiency. Orthogonal matrices and quadratic forms. Critical points of quadratic functions. Taylor's approximation. Optimisation of functions of two or more variables.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** M Anthony & N Biggs, Mathematics for Economics and Finance (Cambridge, 1996); A Ostaszewski, Mathematics in Economics (Blackwell, 1993).

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## MA208 Half Unit

### Optimisation Theory

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Julia Boettcher

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Mathematical Methods (MA100) and Introduction to Abstract Mathematics (MA103) are pre-requisites. Real Analysis (MA203) is desirable, and students who have not done MA203 should contact the teacher responsible.

**Course content:** Based on the relevant mathematical theory, the course describes various techniques of optimisation and shows how they can be applied. More precisely, the topics covered are: Introduction and review of mathematical background. Introduction to combinatorial optimisation; shortest paths in directed graphs; algorithms and their running time. Classical results on continuous optimisation: Weierstrass's Theorem concerning continuous functions on compact sets; optimisation of differentiable functions on open sets; Lagrange's Theorem on equality constrained optimisation; Karush, Kuhn, and Tucker's Theorem on inequality constrained optimisation. Linear programming and duality theory.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Good sources of literature are R K Sundaram, A First Course in Optimisation Theory; N L Biggs, Discrete Mathematics (2nd edition). Additional notes will be made available throughout the course.

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Continuous assessment (10%).

## MA209 Half Unit

### Differential Equations

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Pavel Gapeev

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Mathematical Methods (MA100) and Introduction to Abstract Mathematics (MA103) (or MA102) are pre-requisites. Real Analysis (MA203) and/or Further Mathematical Methods (MA212) are highly desirable, and students who have done neither MA203 nor MA212 should contact the lecturer.

**Course content:** The course concentrates on the theory and qualitative analysis of (ordinary) differential equations, although some solution techniques will be considered as well. Special attention will be paid to geometric concepts and the role of differential equations in the theory of dynamical systems. Specific topics covered are: First examples; illustrations of use of the computer package Maple. Existence and uniqueness of solutions. Autonomous 1 and 2 dimensional systems. Linear equations and systems: phase portraits; classification of systems in the plane; higher dimensional systems and higher order equations. Nonlinear systems in the plane: local and global behaviour; linearisation and stability at equilibrium points; Lyapunov functions; limit cycles. Control theory; linear systems; controllability.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Full notes will be handed out throughout the course. A good additional text book is D K Arrowsmith & C M Place, *Dynamical Systems - Differential Equations, Maps and Chaotic Behaviour*. Other books closely related to R Grimshaw, *Nonlinear Ordinary Differential Equations* and W A Brock & A G Malliaris, *Differential Equations, Stability and Chaos in Dynamic Economics*.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## MA210 Half Unit

### Discrete Mathematics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Peter Allen

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** MA103 *Introduction to Abstract Mathematics*, or an equivalent course giving a background in rigorous mathematics.

**Course content:** This is a course covering a number of concepts and techniques of discrete mathematics. Topics covered: Counting: selections; inclusion-exclusion; generating functions; recurrence relations. Graph Theory: basic concepts; walks, paths, tours and cycles; trees and forests; colourings. Coding theory: basic concepts; linear codes.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** PJ Cameron, *Combinatorics* (CUP 1994) An alternative book is: NL Biggs, *Discrete Mathematics* (OUP 2004) Extensive notes covering the course content in full will be distributed, so you may well not need either book.

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Continuous assessment (10%).

## MA211 Half Unit

### Algebra and Number Theory

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Emilio Pierro

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students must have completed *Introduction to Abstract Mathematics* (MA103) and *Mathematical Methods* (MA100).

**Course content:** The aim of this course is to continue (from MA103) the study of abstract algebraic structures. There are two main strands in the course. First, we develop further the theory of groups, using permutation groups as a key example. We investigate the important concepts of normal subgroups

and quotient groups. Secondly, we introduce rings, and study factorisation in rings, where we also look at some connections with number theory. Groups: Review of basic group theory; permutations and permutation groups; homomorphisms; conjugation, normal subgroups and quotient groups; the first isomorphism theorem for groups. Rings: basic properties of rings and examples (including polynomial rings, matrix rings, and number rings); subrings, ideals and ring homomorphisms; divisibility in integral domains; greatest common divisors; Euclidean rings and unique factorisation; applications to number theory; principal ideal domains.

**Teaching:** This course is delivered through a combination of classes and lectures, totalling a minimum of 30 hours across Michaelmas Term. This year teaching will be delivered face-to-face.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** *A Book of Abstract Algebra*, Charles C Pinter, (Dover, 2nd edition, 2010);

*Introduction to Algebra*, Peter J Cameron (OUP 1988); *Rings, Fields and Groups: Introduction to Abstract Algebra*, Reg Allenby (Butterworth-Heinemann, 2nd edition 1991).

**Assessment:** Exam (80%, duration: 2 hours) in the summer exam period.

Coursework (20%) in the MT.

## MA212

### Further Mathematical Methods

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Adam Ostoja-Ostaszewski and Dr James Ward

**Availability:** This course is compulsory on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available on the BSc in Economics, BSc in Management and MSc in Economics (2 Year Programme). This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students should ideally have taken the course

**Mathematical Methods** (MA100) or equivalent, entailing intermediate-level knowledge of calculus (proficiency in techniques of differentiation and integration) and linear algebra (including linear independence, eigenvalues and diagonalisation).

**Course content:** This course develops ideas first presented in MA100. It is divided into two halves: calculus and linear algebra.

The calculus half explores how integrals may be calculated or transformed by a variety of manipulations, and how they may be applied to the solution of differential equations. This aim is achieved by studying the following topics: Limit calculations. Riemann integral. Multiple integration. Improper integrals.

Manipulation of integrals. Laplace transforms. Riemann-Stieltjes

integral, to a level of detail dependent on time constraints. The linear algebra half covers the following topics: Vector spaces and dimension. Linear transformations, kernel and image. Real inner products. Orthogonal matrices, and the transformations they represent. Complex matrices, diagonalisation, special types of matrix and their properties. Jordan normal form, with applications to the solutions of differential and difference equations. Singular values, and the singular values decomposition. Direct sums, orthogonal projections, least square approximations, Fourier series. Right and left inverses and generalized inverses.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas and Lent Terms.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Useful background texts:

(i) for the calculus half:

Adam Ostaszewski, *Advanced Mathematical Methods*, (Cambridge University Press 1999)

Ken Binmore and Joan Davies, *Calculus, Concepts and Methods* (Cambridge University Press 2002);

Robert C. Wrede and Murray R. Spiegel, *Advanced Calculus* (McGraw-Hill Education; 3rd edition 2010).

(ii) for the linear algebra half.

Martin Anthony and Michele Harvey, *Linear Algebra: Concepts and Methods* (Cambridge University Press 2012).

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

## MA213 Half Unit

### Operations Research Techniques

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Gregory Sorokin

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Data Science, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Mathematics, Statistics and Probability Theory to the level of the courses *Quantitative Methods (Mathematics)* (MA107) and *Quantitative Methods (Statistics)* (ST107) is required. In particular, students should have covered elementary distribution theory and the Poisson Process, and have an elementary knowledge of linear algebra and calculus.

**Course content:** An introduction to the main methodologies in Operations Research and their theoretical foundation.

Linear Optimisation: from the most basic introduction to sufficient conditions for optimality; duality; sensitivity of the solution; discovery of the solution to small problems by graphical methods, and proof of optimality by testing the sufficient conditions. Various other operational research techniques such as: Shortest Paths, Critical Path Analysis, Markov Chains, Queueing Theory, Inventory Management, Dynamic Programming.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. This course is delivered through a combination of lectures and classes, totalling a minimum of 30 hours in Michaelmas Term.

**Formative coursework:** Students will be expected to produce 10 problem sets in the MT.

Students will be asked to submit weekly homework consisting of problem sets.

**Indicative reading:** A comprehensive pack of lecture notes will be provided.

The following books may prove useful for some aspects of the course:

- F S Hillier, G J Lieberman, *Introduction to Operations Research*, McGraw-Hill Series in Industrial Engineering and Management Science. 7th edition or later.

- W L Winston, *Operations Research*, Duxbury Press (2004).

- W L Winston, S C Albright: *Practical Management Science*, Cengage Learning. 4th edition or later.

**Assessment:** Exam (90%, duration: 2 hours) in the January exam period.

Continuous assessment (10%) in the MT.

## MA214 Half Unit

### Algorithms and Data Structures

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Tugkan Batu

**Availability:** This course is compulsory on the BSc in Data

Science. This course is available on the BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students must have completed *Mathematical Proof and Analysis* (MA102) **or** *Introduction to Abstract Mathematics* (MA103).

Basic Knowledge of Python is essential, such as provided by ST101 or a pre-session provided by the Digital Skills Lab.

**Course content:** Introduction to the fundamental principles of data structures and algorithms and their efficient implementation. Developing algorithmic thinking. Basic toolkit for the design and analysis of algorithms: Running time, Recurrence relations, Big-O notation, Correctness, Finite induction, Loop invariants. Tour of the most important data structures, fundamental algorithms, and algorithm design techniques: lists, stacks, queues, dynamic arrays, hash tables, priority queues, disjoint set unions, binary search trees, breadth-first search, depth-first search, minimum spanning tree computation, maximum flow, incremental and recursive algorithms, divide-and-conquer, greedy algorithms.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 30 hours across Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:**

• T H Cormen, C E Leiserson, R L Rivest & C Stein, *Introduction to Algorithms*, MIT Press, 3rd edition, 2009.

**Assessment:** Exam (80%, duration: 2 hours) in the summer exam period.

Coursework (20%) in the LT.

## MA222 Half Unit

### Further Mathematical Methods (Linear Algebra)

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr James Ward

**Availability:** This course is compulsory on the BSc in Data Science. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students should ideally have taken the course *Mathematical Methods* (MA100) or equivalent, entailing intermediate-level knowledge of linear algebra, linear independence, eigenvalues and diagonalisation.

**Course content:** This course develops ideas first presented in MA100. It consists of the linear algebra part of MA212, covering the following topics: Vector spaces and dimension. Linear transformations, kernel and image. Real inner products. Orthogonal matrices, and the transformations they represent. Complex matrices, diagonalisation, special types of matrix and their properties. Jordan normal form, with applications to the solutions of differential and difference equations. Singular values, and the singular values decomposition. Direct sums, orthogonal projections, least square approximations, Fourier series. Right and left inverses and generalized inverses.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours in the Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** The following is a useful background text:

• Martin Anthony and Michele Harvey, *Linear Algebra: Concepts and Methods* (Cambridge University Press 2012).

**Assessment:** Exam (100%, duration: 1 hour and 30 minutes) in the summer exam period.

**MA301 Half Unit****Mathematical Game Theory**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Galit Ashkenazi-Golan COL 3.08

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics and Business and BSc in Psychological and Behavioural Science. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Familiarity with a rigorous treatment of mathematics (through definitions, theorems and proofs) is expected. Basic knowledge of matrices and continuity as covered in Mathematical Methods (MA100) or Quantitative Methods (MA107) as well as some knowledge of probability is required.

**Course content:** Concepts and methods of mathematical game theory. Nim and combinatorial games. Congestion games. Games in strategic form, dominated strategies, Nash equilibrium. Cournot quantity competition. Game trees with perfect information, backward induction. Commitment. Expected utility. Mixed equilibrium. Zero-sum games, maxmin strategies. Extensive games with information sets, behaviour strategies, perfect recall. Bargaining. Geometry of equilibria.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Michaelmas Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Required text: B von Stengel, Game Theory Basics. Cambridge University Press, 2022.

**Assessment:** Exam (90%, duration: 2 hours) in the January exam period.

Continuous assessment (10%).

**MA303 Half Unit Not available in 2022/23****Chaos in Dynamical Systems**

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Graham Brightwell

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** **Mathematical Methods** (MA100) and **Introduction to Abstract Mathematics** (MA103) are pre-requisites. It is highly desirable to have also taken the course **Real Analysis** (MA203).

**Course content:** Given a function  $f: X \rightarrow X$ , what is the (iterative) behaviour of  $f^n(x) = f(\dots(f(x)))$  ( $f$  applied  $n$  times). What do 'orbits' of  $f$  look like - an orbit has the form  $x, f(x), f(f(x)), \dots$ . Particular emphasis is given to long-term evolution and stability analysis of such systems  $f: X \rightarrow X$ . We explore connections with so-called fractal sets, which are roughly sets that look the same at any degree of magnification, and may have a dimension which is not an integer. We also discuss chaotic maps  $f$ , where  $f^n(x)$  cannot be determined if there is any small uncertainty about  $x$ . Topics covered: Iteration of discrete maps. Orbit analysis. Contraction mapping theorem. Quadratic maps. Bifurcations. Definition of chaos. Sarkovskii's theorem. Fractal sets.

**Teaching:** 22 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Full lecture notes will be provided. The

following may prove useful, R Devaney, A First Course in Chaotic Dynamical Systems; R Devaney, An Introduction to Chaotic Dynamical Systems; E Scheinerman, Invitation to Dynamical Systems. A fun and interesting read might be Gleick, J., Chaos: Making a New Science.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

**MA315 Half Unit Not available in 2022/23****Algebra and its Applications**

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Martin Anthony

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** MA103 Introduction to Abstract Mathematics and MA211 Algebra and Number Theory are essential pre-requisites.

**Course content:** The aim of the course is to continue the study of abstract algebraic structures and show how these structures can be used to solve concrete problems. There are three strands: Group actions; Rings, polynomials and fields; Applications, including coding and cryptography. Group actions; revision of permutation groups; orbits and stabilizers, the orbit-stabilizer theorem; applications to counting problems. Rings, polynomials and fields: revision of rings; quotient rings; polynomial rings and the Euclidean algorithm for polynomials; irreducible polynomials and factorisation of polynomials. fields; fields as quotients of polynomial rings; construction and properties of finite fields: Applications: Designs and orthogonal latin squares ; Error-correcting codes, including linear codes, cyclic codes and perfect codes; cryptography.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Lent Term. This year, apart from pre-recorded lecture videos, there will be a weekly live online session of an hour. Depending on circumstances, classes might be online.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Lecture notes will be provided. No additional reading is required, but the following books are recommended for further reading.

Introduction to Algebra, Peter J Cameron (OUP 2007);

Codes, N.L. Biggs (Springer, 2008).

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

**MA316 Half Unit****Graph Theory**

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Graham Brightwell

**Availability:** This course is available on the BSc in Data Science, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** MA103 or equivalent course giving a background in rigorous mathematics.

**Course content:** This course examines the basic concepts and techniques of graph theory. The topics to be covered are: fundamental concepts, connectivity and matchings, colourings, extremal problems, Ramsey theory, the probabilistic method.

**Teaching:** 20 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

This course is taught through a combination of classes and lectures totalling a minimum of 30 hours in Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** D. B. West, *Introduction to Graph Theory*, Prentice Hall 2001

R. Diestel, *Graph Theory*, Springer 2010.

N. L. Biggs, *Discrete Mathematics*, OUP 2004

J.A. Bondy and U.S.R. Murty, *Graph Theory with Applications*, North-Holland, 1976

B. Bollobas, *Modern Graph Theory*, Springer 1998.

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Coursework (10%) in the LT.

## MA317 Half Unit Complex Analysis

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Amol Sasane

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Solid grounding in mathematics, especially analysis, in particular MA203 Real Analysis.

**Course content:** The course will cover the fundamental concepts and methods in complex analysis. The basic objects of study in the course will be complex differentiable functions in domains, and the far-reaching consequences of the notion complex differentiability will be dealt with in the course. The specific topics that will be covered are: the geometry of complex numbers, complex differentiation, Cauchy-Riemann equations, Cauchy's integral theorem and its consequences, Taylor and Laurent series, and harmonic functions. The core results will be illustrated with computational examples and applications.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Michaelmas Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** (1) S.D. Fisher. *Complex Variables*. Corrected reprint of the second (1990) edition, Dover Publications, Inc., Mineola, NY, 1999.

(2) J.E. Marsden and M.J. Hoffman. *Basic Complex Analysis*. Second edition, W. H. Freeman and Company, New York, 1987.

(3) D.O. Tall. *Functions of a Complex Variable*. Routledge and Kegan Paul, London, 1985

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## MA318 Half Unit History of Mathematics in Finance and Economics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Jan van den Heuvel  
Prof June Barrow-Green

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other

programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students must have completed Mathematical Methods (MA100).

General Course students may substitute an equivalent course.

**Course content:** This course surveys the development of mathematics from the beginning of history with an emphasis on its applications to finance and economics. Major themes are origins of mathematics in different cultures; the development of arithmetic and geometry; the use of algebraic symbolism; the creation of the calculus, geometry, probability, and game theory. In order to give this course a distinctive flavour, we will illustrate these themes with examples taken from the social sciences, broadly interpreted. For example, the algorithms of arithmetic will be illustrated by their applications in finance, rather than astronomy. In addition, there will be sessions on diversity in mathematics, and on mathematics and ethics.

**Teaching:** 20 hours of lectures and 11 hours of classes in the LT. Apart from in-person lectures and classes, there will be pre-recorded videos for some of the material.

**Formative coursework:** Students are expected to submit written work on a weekly basis. One of these assignments will be an essay of 900-1100 words.

**Indicative reading:** The course is based on source material which will be distributed to students. J. Stedall's 'History of Mathematics: A Very Short Introduction' (Oxford 2011) is recommended for background reading. Additional reading for each of the sections of the course will be given in the course material.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 5 minutes) in the summer exam period.

Essay (50%, 2000 words) in the ST Week 1.

## MA319 Half Unit Partial Differential Equations

**This information is for the 2022/23 session.**

**Teacher responsible:** Simon, Robert

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Further Mathematical Methods (MA212) and Real Analysis (MA203).

**Course content:** The aim of the course is the study of partial differential equations. The focus will be on first order quasilinear equations, and second order linear equations. The method of characteristics for solving first order quasilinear equations will be discussed. The three main types of linear second order partial differential equations will be considered: parabolic (diffusion equation), elliptic (Laplace equation), and hyperbolic (wave equation) and their relation to the classification of conic sections. Techniques for solving these for various initial and boundary value problems on bounded and unbounded domains, using eigenfunction expansions (separation of variables, and elementary Fourier series), and integral transform methods (Fourier and Laplace transforms) will be treated. How to change between polar and Cartesian coordinates will be presented, especially for the solution of Laplacian and Poisson equations. Elementary distributional calculus and the notion of weak solutions will also be considered. Applications and examples will be discussed throughout the course.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Michaelmas Term.

**Formative coursework:** Students will be expected to produce 10 problem sets in the MT.

Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** 1 S.J. Farlow. *Partial Differential Equations for Scientists and Engineers*. Dover, 1993.

2 J.D. Logan. *Applied Partial Differential Equations*. Second Edition. Springer, 2004.

3 W. Strauss. *Partial Differential Equations. An Introduction*. Second Edition. John Wiley, 2008.

Lecture notes will be provided.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## MA320 Half Unit

### Mathematics of Networks

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Andrew Lewis-Pye

**Availability:** This course is available on the BSc in Data Science, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Mathematical Methods (MA100) and Introduction to Abstract Mathematics (MA103).

**Course content:** Globalisation and the growth of the internet have meant not only an increasing need to understand the way in which social and communication networks form and operate, but also an unprecedented amount of data available to aid in this analysis. The last decade has seen a coming together of multiple scientific disciplines in an effort to understand how these highly connected systems function. The aim of this course will be to give an introduction to the study of networks, requiring as little background knowledge as possible. The course will begin with an analysis of some of the fundamental properties normally observed in real world networks, such as the small world property, high degrees of clustering and power law degree distributions. After reviewing required notions from game theory, we shall then apply these techniques to an analysis of the spread of behavioural change on networks, together with cascading effects and epidemic models. The final part of the course will be concerned with specific applications to the world wide web and page ranking.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Michaelmas Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** (1) D. Easley, J. Kleinberg. *Networks, crowds and markets*, Cambridge University Press, 2010.

(2) M. Newman. *Networks: An Introduction*, Oxford University Press, 2010.

(3) The Rise of the Network Society, *The Information Age: Economy, Society and Culture*, 2010 edition, Manuel Castells.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## MA321 Half Unit

### Measure Theoretic Probability

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Albina Danilova

**Availability:** This course is available on the BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students must have completed Real Analysis (MA203).

**Course content:** This is a first course in measure-theoretic probability. It covers the following topics. Abstract probability spaces: sample spaces, sigma-algebras, probability measures, examples. Borel sigma-algebra, Lebesgue measure. Random variables: distribution functions, discrete and absolutely continuous distributions, examples. Expectation and the Lebesgue integral: convergence theorems and properties. Different modes of convergence of random variables. Conditional expectation: definition, properties, examples. Changes of probability measure, Bayes' theorem.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Michaelmas Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Comprehensive lecture notes will be provided.

The following books may prove useful:

D Williams, *Probability with Martingales*.

J. Jacod & P. Protter, *Probability Essentials*; A. Klenke *Probability Theory. A Comprehensive Course*

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## MA322 Half Unit

### Mathematics of Finance and Valuation

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Albina Danilova COL.4.09

**Availability:** This course is available on the BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students must have completed Measure Theoretic Probability (MA321).

**Course content:** This course provides mathematical tools of stochastic calculus and develops the Black-Scholes theory of financial markets. It covers the following topics. Continuous-time stochastic processes, filtrations, stopping times, martingales, examples. Brownian motion and its properties. Construction of the Ito integral: simple integrands, Ito's isometry. Ito processes, Ito's formula, stochastic differential equations, Girsanov's theorem. Black-Scholes model: self-financing portfolios, risk neutral measure, risk neutral valuation of European contingent claims, Black-Scholes formula, Black-Scholes PDE, the Greeks. PDE techniques for derivative pricing. Implied volatility, basic ideas of calibration.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Lecture notes will be provided.

The following books may be useful.

T. Bjork, *Arbitrage Theory in Continuous Time*, Oxford Finance, 2004;

A. Etheridge, *A Course in Financial Calculus*, CUP, 2002;

M Baxter & A Rennie, *Financial Calculus*, CUP, 1996;

P. Wilmott, S. Howison & J. Dewynne, *The Mathematics of Financial Derivatives*, CUP, 1995;

J Hull, *Options, Futures and Other Derivatives*, 6th edition, Prentice-Hall, 2005.

D. Lamberton & B. Lapeyre, *Introduction to stochastic calculus applied to finance*, 2nd edition, Chapman & Hall, 2008.

S. E. Shreve, *Stochastic Calculus for Finance. Volume I: The Binomial Asset Pricing Model*. Springer, New York, 2004.

S. E. Shreve, *Stochastic Calculus for Finance. Volume II: Continuous-Time Models*. Springer, New York, 2004.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## MA323 Half Unit Computational Methods in Financial Mathematics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Johannes Ruf

**Availability:** This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is not available as an outside option. This course is available with permission to General Course students.

**Pre-requisites:** Students must have completed Introduction to Pricing, Hedging and Optimization (ST213).

**Course content:** Random number generation; the fundamentals of Monte Carlo (MC) simulation and applications in financial mathematics; variance reduction techniques for MC simulation and related issues; stochastic differential equations and their numerical solutions by means of MC simulation and their implementation.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Lent Term. This year, some of the teaching will be delivered through a combination of virtual classes and lectures delivered as online videos.

**Formative coursework:** Students will be expected to produce 5 problem sets and 5 other pieces of coursework in the LT.

**Indicative reading:** P. Glasserman, Monte Carlo Methods in Financial Engineering, Springer; R.U. Seydel, Tools for Computational Finance, Springer; S.M. Ross, Simulation, Academic Press (5th edition).

**Assessment:** Project (100%) in the ST.

The project will be a computational project due to in the week before ST starts.

## MA324 Half Unit Mathematical Modelling and Simulation

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Aled Williams

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Data Science, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

General Course Students should check with the course convenor if they satisfy the prerequisites.

This course cannot be taken with MA334 Dissertation in Mathematics.

**Pre-requisites:** Students should have knowledge of: (1) linear programming, including duality, to the level of *Operations Research Techniques* (MA213) or *Optimisation Theory* (MA208); and (2) probability theory to the level of *Quantitative Methods (Statistics)* (ST107), in particular elementary distribution theory and the Poisson Process.

**Course content:** The course covers some of the most prominent tools in modelling and simulation. Both deterministic and stochastic models are covered. These include mathematical optimisation, the application of sophisticated mathematical methods to make optimal decisions, and simulation, the playing-out of real-life scenarios in a (computer-based) modelling environment.

Topics may include: formulation of management problems using linear/nonlinear and network models (these could include binary, integer, convex and stochastic programming models) as well as solving these problems and analysing the solutions; generating random variables using Monte Carlo simulation; discrete event simulation; variance reduction techniques; Markov Chain Monte Carlo methods.

The course will teach students to use modelling and simulation computer packages.

**Teaching:** 20 hours of lectures, 10 hours of classes and 5 hours of computer workshops in the LT.

**Formative coursework:** Formative assessment will be in the form of weekly homework. Some of the homework will have questions that are similar in nature to what is expected for the assessed project.

**Indicative reading:** Detailed lecture slides will be provided. The reading will be a combination of lecture slides and chapters from the following list of books.

Optimisation

- W L Winston, Operations Research: Applications and Algorithms, Brooks/Cole (4th ed., 1998)

- D Bertsimas and J N Tsitsiklis, Introduction to Linear Optimization, Athena Scientific (3rd ed., 1997)

- George B. Dantzig and Mukund N. Thapa, Linear Programming 2: Theory and extensions, Springer (2003)

Simulation

- S Ross, Simulation, Academic Press (5th ed., 2012)

- Joseph K. Blitzstein, Jessica Hwang, Introduction to Probability, Chapman and Hall/CRC Press (2014)

**Assessment:** Project (100%) in the ST.

The deliverable is a report of 15-20 pages, along with a copy of any computer code used.

## MA330 Half Unit Game Theory for Collective Decisions

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Olivier Gossner COL 2.04

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Data Science, BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Management, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics and Business and BSc in Psychological and Behavioural Science. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Familiarity with a rigorous treatment of mathematics (through definitions, theorems and proofs) is expected. Basic knowledge of matrices as covered in Mathematical Methods (MA100) or Quantitative Methods (MA107) as well as some knowledge of probability is required. Recommended: MA301 Mathematical Game Theory, otherwise with approval from the MA330 lecturer.

**Course content:** Coalitional game theory - central solution concepts and applications to economics: games with transferable utility, the Core, Shapley value, market games, social choice, stable matching.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Lecture notes will be provided, as well as references to selected papers. Further reading: M Maschler, E Solan, S Zamir: Game Theory, Cambridge University Press 2020.

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Continuous assessment (10%).

## MA333 Half Unit

### Optimisation for Machine Learning

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Laszlo Vegh COL 2.02

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Mathematics and Economics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** Students must be familiar with the fundamentals of continuous optimisation, to the level in Optimisation Theory (MA208) or equivalent.

**Course content:** Machine learning uses tools from statistics, mathematics, and computer science for a broad range of problems in data analytics. The course introduces a range of optimisation methods that play fundamental roles in machine learning. This is a proof-based course that focuses on the underlying mathematical models and concepts.

Basic tools from convex analysis. Lagrangian duality and Karush-Kuhn-Tucker conditions. First-order methods and convergence guarantees, including conditional gradient descent and stochastic gradient descent. Quadratic programming, support vector machines. Online convex optimization, online gradient and multiplicative weight methods. Second-order optimization: Newton's method.

**Teaching:** This course is delivered through a combination of classes and lectures totalling a minimum of 32 hours across Lent and Summer term.

**Formative coursework:** Students will be expected to produce 8 exercises in the LT.

Written answers to set problems will be expected on a weekly basis.

**Indicative reading:**

- Vishnoi, N. (2018). Algorithms for Convex Optimization (2021). Cambridge University Press.
- Boyd, S., & Vandenberghe, L. (2004). Convex optimization. Cambridge University Press.
- Nesterov, Y. (2018). Lectures on convex optimization (Vol. 137). Springer.
- B. Gärtner and M. Jaggi. Optimization for machine learning (lecture notes), 2021.
- E. Hazan. Introduction to online convex optimization (lecture notes), 2021.

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Coursework (10%) in the LT.

The coursework will comprise two problem sets during term time.

## MA334 Half Unit

### Dissertation in Mathematics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Graham Brightwell

**Availability:** This course is available on the BSc in Mathematics and Economics and BSc in Mathematics with Economics. This course is not available as an outside option nor to General Course students.

This course cannot be taken with MA324 Mathematical Modelling and Simulation.

**Pre-requisites:** Students must have completed Real Analysis (MA203).

This course requires a high degree of independence and commitment from the student, and has to be completed on time by the end of LT. The expected workload is high but also rewarding, and is completed by the end of LT (no exam). Some dissertation topics might require additional pre-requisites which will be specified in the description of the topic provided by the member of staff supervising the dissertation.

**Course content:** The dissertation in mathematics is an individual project that serves as an introduction to mathematical research. The student will investigate and study an area of mathematical research or apply advanced mathematical techniques to model and solve problems arising in other areas related to the student's degree programme (e.g., in finance or economics). The student will write a report on their findings and present and discuss their findings in an oral examination. The project may include some programming. The dissertation topic will normally be proposed by the Department.

**Teaching:** 5 hours of seminars in the MT. 4 hours of seminars in the LT.

This course is delivered through seminars and computer workshops that total a minimum of 10 hours across Michaelmas and Lent Term, which give general and practical information, plus personal supervision time, which is scheduled independently with student supervisors. The seminars in MT will cover important aspects of writing a dissertation in mathematics, including: what plagiarism is and how to avoid it, the use of libraries for research, electronic research, general aspects of writing mathematics, managing a research project and the writing up process. The computer workshops in MT will provide guidance on preparing a manuscript using mathematical text processing software (in particular, LaTeX). The seminars in LT will cover how to give a presentation about the findings in the dissertation and how to prepare for the oral examination. Each student will be assigned a supervisor who will monitor their progress and provide appropriate guidance through the MT and LT. Normally students will have three individual supervision meetings each term.

**Formative coursework:** Students will be expected to produce 1 presentation and 1 other piece of coursework in the LT.

**Indicative reading:** This will depend on the topic of the dissertation. Students will be guided by their supervisor.

**Assessment:** Dissertation (75%) in the LT Week 10.

Presentation (25%) in the LT Week 11.

Assessment is based on the dissertation and an oral examination. Three hard copies and one electronic copy of the dissertation must be submitted by week 10 of Lent Term. The report may include some computer code relating to the project. The dissertation excluding the bibliography must not exceed 20 pages of A4 paper, where the dissertation is required to have 1.5 line spacing at a minimum (at most 33 lines of text/mathematical formulae per page), 11-point font and 1-inch margins all around. If the dissertation contains any computer code this should be placed in the appendix of the dissertation and does not count towards the page limit.

The oral examination consists of a 15-minute presentation to an audience of two members of staff on the main findings contained in the dissertation. This will be graded and worth 25% of the course grade. Students will be given support in the seminars on how to prepare, how to present, and what is expected.

## MG104 Half Unit

### Operations Management

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Natalia Krasnikova

**Availability:** This course is compulsory on the BSc in Management. This course is available on the BSc in Accounting and Finance, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place will be given one.

**Course content:** Operations management is a key function in every organisation. It is concerned with the processes that transform inputs into goods and services. This course introduces students to key concepts and techniques used in operations management, and their practical applications. The course covers a range of

topics related to manufacturing and service operations such as operations strategy, sustainability, process design and analysis, supply chains, inventory management, lean operations, and quality control.

**Teaching:** Teaching hours in the LT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Lent Term, in line with departmental policy.

**Formative coursework:** Students are expected to prepare answers to set questions on a weekly basis, and they will receive teacher and peer feedback during the classes. One formative take-home assessment will be set in LT.

Students will also be offered additional support for their summative assignments in preparatory sessions, and they will have the opportunity to ask questions during assessment clinics.

**Indicative reading:** A selection of essential readings is provided below. For further details, please refer to the full reading list for the course.

- Iansiti, M. & Serels, A. (2013). *Operations Strategy*. Harvard Business Publishing.
- Whelan, T. & Fink, C. (2016). *The Comprehensive Business Case for Sustainability*. Harvard Business Review.
- Frei, F.X. (2006). *Breaking the trade-off between efficiency and service*. Harvard Business Review.
- Fisher, M.L. (1997). *What is the right supply chain for your product?* Harvard Business Review.
- Spear, S. & Bowen, H.K. (1999). *Decoding the DNA of the Toyota Production System*. Harvard Business Review.

**Assessment:** Take-home assessment (40%) in the LT.

Take-home assessment (60%) in the ST.

Take-home assessments will be individual assessments.

## MG105 Half Unit

### Organisational Behaviour and Leadership

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Connson Locke MAR.5.36 and Dr Dorottya Sallai MAR.4.10

**Availability:** This course is compulsory on the BSc in Management. This course is available on the BSc in Accounting and Finance, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place will be given one.

**Course content:** This course introduces students to social science theories, research and application related to understanding human behaviour in the workplace. That is, this course is about the people side of business and management. Each week focuses on a different topic investigating individual, group, and organisational issues.

Topics include: personality and performance, managerial decision-making, motivating others, fairness in organisations, the multicultural workplace, power and influence, the adaptive leader, team leadership.

**Teaching:** Teaching hours in the MT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Michaelmas Term, in line with departmental policy.

**Formative coursework:** Students will have the opportunity to submit a 1000-word essay during MT and receive formative feedback. Students will also work in groups to answer an essay question through an in-class presentation and will receive structured feedback based on the criteria for marking essays (e.g. structure, evidence).

**Indicative reading:** Colquitt, J.A., LePine, J.A., & Wesson, M.J. (2009) *Organizational Behavior: Improving Performance and Commitment in the Workplace* (International edition). Yukl, G. (2009). *Leadership in Organizations*. (7th ed.). Englewood

Cliffs, NJ: Prentice Hall.

**Assessment:** Essay (45%, 1500 words) and essay (45%, 1500 words) in the period between MT and LT.

Class participation (10%) in the MT.

Class participation will be based on oral representations of weekly reading summaries.

Essay topics will be available at the end of MT and due before the start of LT.

## MG205

### Econometrics: Theory and Applications

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jordi Blanes I Vidal MAR.6.08

**Availability:** This course is compulsory on the BSc in Management. This course is available on the BSc in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** Quantitative Methods (Mathematics) (MA107) or equivalent and Quantitative Methods (Statistics) (ST107) or equivalent

**Course content:** Simple and Multiple Regression; Hypothesis Testing; Mechanics and Limitations of OLS; Causality; Natural, Field and Laboratory Experiments. Panel Data and Fixed Effect Models. Instrumental Variables Regression.

The main aim of this course is to provide a thorough understanding of the quantitative techniques which guide evidence-based managerial decision-making. It seeks to develop a framework in which students can examine whether the predictions of managerial, social or economic theory are supported by empirical evidence. Particular emphasis is made on (a) illustrating the many ways in which evidence is abused in the academic or managerial debate, and (b) trying to establish causality in the relationship between variables. The approach is both formal, as the course makes extensive use of econometric theorems and techniques, and solidly grounded in intuition, as it provides numerous examples of tests of real-life relations. Many of these examples will be illustrated using the STATA software package, and the students will be expected to learn the basics of data manipulation and regression running. A solid base of introductory statistics and probability (equivalent to that provided by ST107) and introductory algebra and calculus (equivalent to that provided by MA107) will be expected.

**Teaching:** Teaching hours will be commensurate with a usual full unit undergraduate course.

This course includes a reading week in Week 6 of Michaelmas and Lent Term, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 problem sets in the MT and 1 problem sets in the LT.

There will be one formative assessment each term.

**Indicative reading:** The textbook for the course is:

- James H. Stock and Mark W. Watson, *Introduction to Econometrics*, Second Edition, Pearson, 2007.

Two other very useful (complementary) books are:

- Christopher Dougherty, *Introduction to Econometrics*, Third Edition, Oxford University Press, 2007;
- Jeffrey M. Wooldridge, *Introductory Econometrics - A Modern Approach*, Third Edition, South-Western, 2006.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

## MG206 Half Unit

### Firms, Management and Competitive Advantage

**This information is for the 2022/23 session.**

**Teacher responsible:** Mr Nilesh Dattani MAR.6.14

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** Students must have completed EC100 OR EC102 OR EC1A1 AND EC1B1 OR EC1A3 AND EC1B3 OR EC1A5 AND EC1B5 OR equivalent.

**Course content:** This is not a course on corporate strategy. It focuses on the evolution of thinking about firms and the activity of management and examines firm advantages through conceptual ideas and empirical knowledge. There will be an emphasis on analysing firms as reservoirs of resources and capabilities and topics to be covered will include distinctive capabilities of firms, organisational design, decision making in firms, organisational routines, managerial leadership and the role of ethics. Particular attention will be given to firms in technology-based industries and the management of innovation and contrasts will be made with public sector management.

Please watch the following video to find out more about this course:

[http://richmedia.lse.ac.uk/management/20160606\\_UGcourse\\_MG206.mp4](http://richmedia.lse.ac.uk/management/20160606_UGcourse_MG206.mp4)

**Teaching:** Teaching hours in the LT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Lent Term, in line with departmental policy.

**Formative coursework:** Students are expected to produce one piece of written work and to do the weekly class exercises

**Indicative reading:** A reading list will be available to students taking the course.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## MG207

### Managerial Economics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Catherine Thomas MAR.6.29

**Availability:** This course is compulsory on the BSc in Management. This course is available on the BSc in Business Mathematics and Statistics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** Economics A (EC100) or Economics B (EC102) or Microeconomics I (EC1A3) or Macroeconomics I (EC1B3) is a pre-requisite. In addition, Quantitative Methods (Mathematics) (MA107) or equivalent is also a pre-requisite. This course cannot be combined with Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or Microeconomics II (EC2A1 and EC2A3).

**Course content:** The objective of the course is to provide students with insights from economic theory which are relevant to applications in managerial decision making. The emphasis

is on applying microeconomics ideas to solve problems. Topics covered include consumer theory, production, market structure, monopoly, oligopoly, pricing, game theory, bargaining, auctions, and asymmetric information.

**Teaching:** Teaching hours will be commensurate with a usual full unit undergraduate course.

This course includes a reading week in Week 6 of Michaelmas and Lent Term, in line with departmental policy.

**Formative coursework:** Students are expected to prepare answers to set problems on a weekly basis. Some of this work will be assessed. Assiduous preparation for the weekly tutorials is essential to achieve a good exam performance.

**Indicative reading:** No textbook covers the whole course but Hal R Varian, *Intermediate Microeconomics with Calculus* (International Student Edition) is the best text book to use for the course. In addition students are advised to refer to T C Bergstrom & H R Varian, *Workouts in Intermediate Microeconomics* (1990), which contains practice problems.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

## MG209 Half Unit

### E-business

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Antonio Cordella MAR.4.35 and Dr Francesco Gualdi MAR.4.04

**Availability:** This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place will be given one.

**Course content:** This course presents an analysis of the management, economics and information systems theories and practices in online business. This is a management information systems course and not a technical course. It is mainly directed at undergraduate students. It focuses on the study of the impact of digital technologies on business strategies and market configurations. Internet-based systems offer new means to operate businesses and to compete in the global marketplace and it is important for future executives and entrepreneurs to understand the economic and managerial implications of these transformations. Students will gain a good understanding of why and how successful companies are taking advantage of e-business, as well as an understanding of the main challenges and risks associated with different e-business models and strategies in a fast changing technological and business environment.

The course is structured into four main sections:

1. Strategic, technological, and economic foundations of e-business
2. E-business and its configurations: B2C and B2B
3. E-business: strategic and organisational challenges
4. Implementation of e-business strategies'

**Teaching:** Teaching hours in the LT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Lent Term, in line with departmental policy.

**Formative coursework:** Students will complete a formative assessment which consists of a 500 word abstract of the final essay.

Each student will receive feedback on the approach, the structure of the presentation, and the argumentation they have proposed to frame the essay.

Aim of the formative work is to offer students the opportunity to self-evaluate their understanding of the subject, to test their preparation, to help them better understand what are the criteria of assessment, and to help them to better identify what is need to

achieve the desiderated outcomes.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.  
Group project (30%) and class participation (20%) in the LT.

---

## MG210 Half Unit

### Corporate Social Responsibility and International Labour Standards

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Sarah Ashwin MAR.5.18

**Availability:** This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place will be given one.

**Pre-requisites:** Any social science background

**Course content:** Corporate Social Responsibility (CSR) is becoming an expected element of corporate strategy. This course critically evaluates CSR, focusing on firms' attempts to prevent labour standards violations in their supply chains. We begin by analysing the rise of CSR, setting it in the context of global value chains, international labour standards, and emerging private forms of regulation. We then analyse topics such as: the impact of CSR on corporate financial performance; whether CSR is an effective means of raising labour standards; theories of CSR; how to embed CSR within the firm and comparative CSR. The course

includes plenty of examples of how large firms are dealing with the ethical challenges posed by global supply chains. The course is interdisciplinary, and students are encouraged to bring insights from their "home" discipline so that seminars become a mutual learning experience. The course will include one lecture from a CSR professional.

**Teaching:** Teaching hours in the LT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Lent Term, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** Kaplan, S. (2019) *The 360° Corporation: From Stakeholder Trade-offs to Transformation*. Stanford: Stanford University Press;

Kuruvilla, S. (2021) *Private Regulation of Labor Practices in Global Supply Chains: Problems, Progress and Prospects*, Ithaca and London: ILR Press;

Locke, R. (2013) *The Promise and Limits of Private Power: Promoting Labor Standards in a Global Economy*, Cambridge: Cambridge University Press.

Vogel, D. (2005) *The Market For Virtue: The Potential and Limits of Corporate Social Responsibility*, Washington D.C.: Brookings Institution Press.

**Assessment:** Exam (40%, duration: 1 hour and 15 minutes) in the summer exam period.

Essay (60%, 2000 words) in the ST.

---

## MG212 Half Unit

### Marketing

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Heather Kappes MAR.6.21

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place will be given one.

**Course content:** The course will introduce basic marketing concepts including customer behaviour; segmentation, targeting and positioning; product management and diffusion; pricing, placement and promotion; and marketing relationships.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT. Teaching hours in the MT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Michaelmas Term, in line with departmental policy.

**Formative coursework:** Formative feedback will be provided on case analysis questions similar to those posed in the individual case analysis.

**Indicative reading:** Indicative readings:

Kotler, P. and Armstrong, G. (2010) *Principles of Marketing*, Pearson, New Jersey.

Kotler and Keller (2009) *Marketing Management*, Pearson PrenticeHall.

Lambin, J-J, Chumpitaz, R. and Schuiling, S. (2007) *Market Driven Management: Strategic and Operational Marketing*, Palgrave Macmillan.

**Assessment:** Group project (40%) in the MT.

Case analysis (60%) in the LT.

The course teaching team will form the project groups within allocated classes.

---

## MG213 Half Unit

### Information Systems

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Edgar Whitley MAR.4.32 and Dr William Venters MAR.4.33

**Availability:** This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place will be given one.

**Course content:** The course will cover the role of data, information and knowledge within management; the evolution of digital management practices; digital business strategy; information systems development and organisational change; Artificial Intelligence and distributed ledger technologies; information systems outsourcing; and IT infrastructure including cloud computing, and digital platforms.

Please watch the following video to find out more about this course:

[http://richmedia.lse.ac.uk/management/20160606\\_UGcourse\\_MG213.mp4](http://richmedia.lse.ac.uk/management/20160606_UGcourse_MG213.mp4)

**Teaching:** 20 hours of lectures and 10 hours of classes in the LT. Teaching hours in the LT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Lent Term, in line with departmental policy.

**Formative coursework:** Students will present draft essay plans for peer review in the LT.

**Indicative reading:** Indicative readings:

Beynon-davies, P. (2013). *Business Information Systems*, Palgrave, London.

Bharadwaj, A., El Sawy, O. A., Pavlou, P. A., and Venkatraman, N. (2013). Digital Business Strategy: Toward a Next Generation of Insights, *MIS Quarterly* 37(2), 471–482.

Galliers, R. and Leidner, D. (2009) *Strategic Information Management*. Routledge, London.

Laudon, K and Laudon, J (2013) *Management Information Systems*, Pearson, London.

Willcocks, L. P., Venters, W., and Whitley, E. A. (2014). *Moving to the Cloud Corporation: How to face the challenges and harness the potential of cloud computing*, Palgrave Basingstoke.

**Assessment:** Essay (50%) in the period between LT and ST. Group project (40%) and reflective learning report (10%) in the LT. The reflective learning report will be individual reflections on group working.

orientation. After setting the global scene of labour markets, Human Resources and organisational change in the twenty-first century, it then proceeds to look at the management of people in different national contexts. The focus then shifts down to the employment relationship – why firms hire workers and how they strategically manage them. Once workers are hired as employees, we begin to explore how the latter might be motivated and rewarded, and how the design of policies varies across organisations of different types. To help us with this, we usefully draw on key ideas and models from the field of organisational studies that are also a prelude to thinking through the implications for HRM in environments where innovation and technology are prone to rapid change. This then allows us to gain an overview of the potential contribution that HRM can make to the dynamic capabilities of firms generally.

Topic outline

1. Motivation and incentives (theories from Economics and Psychology)
2. The macro-context (enterprise governance, employer networks, skill and training, and employment relations)
3. Stakeholders in firms and employee management (Corporate Social Responsibility and HR)
4. Cross-cultural management of employees: the complexities and opportunities
5. Firm strategy and international HR alignment
6. Identification of talent gap and solutions (expatriation and repatriation)
7. Global Talent Management (selection, training and development, performance appraisal and management, compensation)
8. Managing HR in cross-border alliances, in particular international Mergers and Acquisitions and Joint Ventures
9. Negotiations in relation to human resource management

**Teaching:** Teaching hours in the MT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Michaelmas Term, in line with departmental policy.

**Formative coursework:** The formative assessment will help students to prepare for the summative assessment.

**Indicative reading:** Caligiuri, P. M. (2006). Chapter 9 Performance management in a cross-national context. In Bennett, W., Jr., Lance, C., & Woehr, D. (Eds.). *Performance measurement: Current perspectives and future challenges*. Mahwah, NJ: Erlbaum.

Cappelli, P. (2015). Why We Hate HR and What HR Can Do About It. *Harvard Business Review*, July – August.

Randall S Schuler, Ibraiz Tarique, Susan E Jackson (2004), *Managing Human Resources in Cross-Border Alliances*, in (ed.) 3 (*Advances in Mergers & Acquisitions*, Volume 3), Emerald Group Publishing Limited, pp.103-129.

Briscoe, D., Schuler, Randall S, & Tarique, Ibraiz. (2016). Chapter 6 *International Employment Law, Labor Standards, and Ethics*. In (Eds.) *International human resource management: Policies and practices for multinational enterprises* (5th ed.). New York, NY: Routledge.

Brown, M. P., Sturnam, M. C., & Simmering, M. J. (2003). Compensation Policy and Organizational Performance: The Efficiency, Operational, and Financial Implications of Pay Levels and Pay Structure. *The Academy of Management Journal*, 46, 752-762.

Lewicki, R.J., Barry, B. and Saunders, D.M.2010. *Negotiation*. New York: McGraw-Hill.

Chapter 1 –The Nature of Negotiation, pp. 1-31.

The course also draws on additional articles from a variety of international journals in the field e.g. *The International Journal of Human Resource Management*, *British Journal of Industrial Relations*, *Harvard Business Review*. Students will also analyse multiple cases from Insead and Harvard Business Publishing.

**Assessment:** Essay (60%) in the period between MT and LT. Class participation (10%) and group presentation (30%) in the MT.

## MG214 Half Unit

### Human Resource Management

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jeffrey Thomas MAR.5.14

**Availability:** This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place will be given one.

**Pre-requisites:** Students must have completed Organisational Behaviour and Leadership (MG105) or equivalent.

**Course content:** This course is designed to provide insights into Human Resource Management, especially in a way that appeals to students of management who are quite international in their

The group project presentation (30%) will be group work. Students will have the opportunity to form their own project groups within their allocated class, but the course teaching team will retain the right to make changes to group membership where necessary. Peer review will be conducted and will provide context for the marker of the group projects, while allowing students to develop the skills of peer review.

The essay (60%) will be a "multi-media" essay. It requires a written text essay, complimented by another form of media: either a video, or an audio interview, or a graphic - illustrating the effects of HR theory and research on the practice of each students' target job after graduation.

The class participation grade (10%) will be assessed upon the quality of the student's contribution to class discussions.

---

## MG228 Half Unit Not available in 2022/23 Managing the Stone-Age Brain

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Satoshi Kanazawa MAR.6.15

**Availability:** This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place will be given one.

**Course content:** The course will introduce Management students to the new science of evolutionary psychology and explore the biological and evolutionary foundations of human behaviour. In the first few weeks, various critiques of and competing perspectives on evolutionary psychology, with regard especially to the relative importance of biological/evolutionary vs. social/cultural determinants of human behaviour and its sex differences will be discussed and debated. In later weeks, an evolutionary perspective will be applied to various topics in management such as organizational behaviour, occupational choice, productivity, and status hierarchy. The study of business and management is currently dominated by economic perspectives, supplemented by sociological and social psychological perspectives, in American business schools. The course will provide a necessary corrective to the dominance of economics perspectives in the study of business and management by providing biological and evolutionary perspectives and thereby throwing a new light on the old problems (and finding potential solutions for them) in organizations and organizational behaviour. The course will provide evolutionary and biological perspectives on management and organizational behaviour. It will introduce the students to the following topics: Principles of evolution; Principles of evolutionary psychology; Sex differences in preferences, values, cognition, emotions, and behaviour; Physical attractiveness; General intelligence; Evolutionary constraints on human behaviour and their relevance to organizational behaviour.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures in the ST.

Teaching hours in the LT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Lent Term, in line with departmental policy.

**Formative coursework:** Each student will give a class presentation on the week's readings and their presentation will be evaluated by the course instructor and the feedback will be given to the student within one week.

**Indicative reading:** Buller, David J. 2005. *Adapting Minds: Evolutionary Psychology and the Persistent Quest for Human Nature*. Cambridge: MIT Press. [The most comprehensive book-length critique of modern evolutionary psychology to date] Saad, Gad. (Editor.) 2011. *Evolutionary Psychology in the Business Sciences*. New York: Springer. Nicholson, Nigel. 2000. *Managing the Human Animal*. New York:

Thompson Texere.

Miller, Geoffrey. 2009. *Spent: Sex, Evolution, and Consumer Behavior*. New York: Viking.

Miller, Alan S. and Satoshi Kanazawa. 2007. *Why Beautiful People Have More Daughters*. New York: Penguin.

Kanazawa, Satoshi. 2012. *The Intelligence Paradox: Why the Intelligent Choice Isn't Always the Smart One*. New York: Wiley.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

## MG301

### Strategy

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Ricardo Alonso MAR.6.30

**Availability:** This course is compulsory on the BSc in Management. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** Students should have completed (i) Economics A (EC100) or Economics B (EC102) or Microeconomics I (EC1A1/EC1A3) in combination with Macroeconomics I (EC1B1/EC1B3), (ii) Quantitative Methods (Mathematics) (MA107) or equivalent and Quantitative Methods (Statistics) (ST107) or equivalent, and (iii) Economics for Management (MG207) or Microeconomic Principles I (EC201) or Microeconomic Principles II (EC202) or Microeconomics II (EC2A1 and EC2A3).

**Course content:** The first half of the course studies how firms compete with each other. More specifically, we will study strategic situations (competition and rivalry, competitive advantage (sources and sustainability), entry and entry deterrence, product differentiation, the role of information in markets, etc.) and formulate decision models of these situations. While the modelling and predictions are based on game theory, we will contrast our findings to real life games according to the growing empirical evidence.

The second half of the course studies how firms organize and the challenges they face in doing so. More specifically, we study the way managers interact with the different constituencies inside the firm- workers, board members, and other managers- and how those interactions shape the actual design of organizations. It presents, again with a heavy emphasis on the evidence, how the need to motivate organizational members and to coordinate their actions shape the provision of incentives, the allocation of authority, the ownership structure, acquisition and diffusion of knowledge, and patterns of communication.

Beyond the emphasis on the content of the course, the course also aims to be a course where students learn to think critically and analytically. Students will learn to identify trade-offs in how firms behave and the way they organize themselves, and critically evaluate the sources of those trade-offs by appealing to simple models of individual behaviors. Students will learn to read the primary literature, discuss papers in class, interpret the evidence etc. Students will learn to ask questions such as: What is the evidence? What evidence would convince me of the opposite hypothesis?

**Teaching:** Teaching hours will be commensurate with a usual full unit undergraduate course.

This course includes a reading week in Week 6 of Michaelmas and Lent Term, in line with departmental policy.

**Formative coursework:** Formative work such as problem sets and mock exam questions will be set.

**Indicative reading:** The basic readings for the course will be the lecture notes written by Dr. Alonso. These lecture notes can be complemented with the following additional readings:

- Thinking Strategically: Competitive Edge in Business, Politics

and Everyday Life, WW Norton, 1993, by Avinash Dixit and Barry Nalebuff

- The Art of Strategy, WW Norton, 2008, by Avinash Dixit and Barry Nalebuff.
- Games of Strategy (WW Norton, 3rd edition, 2009) by Avinash Dixit, Susan Skeath and David Reiley.
- Economics of Strategy (5th Edition) David Besanko, David Dranove, Mark Shanley, Scott Schaefer. (2009)
- An Introduction to Game Theory (Oxford, 2003) by Martin J. Osborne
- Strategic Management, Garth Saloner, Andrea Shepard and Joel Podoldny, Wiley, 2000
- The Modern Firm: Organizational Design for Performance and Growth, John Roberts 2007.
- Build, Borrow, or Buy: Solving the Growth Dilemma (Harvard Business Press 2012) Laurence Capron and Will Mitchell

**Assessment:** Exam (60%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Continuous assessment (30%).

Group project (10%) in the LT.

For the project students will be required to work in groups.

4 in-lecture multiple choice quizzes (weeks 5 and 11 of the MT and weeks 15 and 21 of the LT)

For the continuous assessment students are required to attempt at least 3 out of 4 in-lecture assessments. Students who attempt all four (4 out of 4) will achieve a mark based on their three highest scores. Students who attempt three in-lecture assessments (3 out of 4) will receive a mark based on the scores in these assessments. Students who attempt less than three in-lecture assessments will receive a mark of 0 for each missed assessment and will receive an overall mark based on their scores in the best three assessments, including any zeroes. Students who fail to attempt any in-lecture assessments (0 out of 4), will be awarded a Zero Incomplete for the whole course and cannot be awarded the degree until they submit the work at resit.

---

## MG302 Half Unit

### Topics in Management Research

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Diane Reyniers MAR.6.07

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** Third year only.

**Course content:** This course addresses various interesting topics which will be used to encourage creative and logical thinking, structuring of clear arguments and critical assessment of evidence. The focus is on interpretation of findings rather than statistical or econometric techniques.

The intellectual backbone of the course is applied and empirical economics (including behavioural economics) and finance but, wherever appropriate contributions from the psychology, sociology and management literature will be discussed. We will mainly deal with issues which are amenable to rigorous empirical investigation. The course is designed around a set of empirical research papers. Examples of questions considered are whether pain killers are more effective when they are expensive, whether creative people cheat more, whether people overvalue their own ideas.

The main objective of the course is to enable students to comprehend and critically assess the management literature, to evaluate statements in terms of evidence and to detect false reasoning or logic. Students will gain confidence in expressing

their own ideas.

Topics vary each year (based on student feedback) but examples are racial discrimination, negotiation and gender, grit, leadership, optimism and entrepreneurship.

Please watch the following video to find out more about this course:

<https://echo360.org.uk/media/b724a1cb-48eb-4198-abdb-786be177f6fd/public>

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. Teaching hours in the MT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Michaelmas Term, in line with departmental policy.

**Formative coursework:** A take-home mock exam paper.

**Indicative reading:** A reading list will be available on Moodle.

**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.

---

## MG303 Half Unit

### International Business Strategy and Emerging Markets

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Christine Cote MAR.5.25

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with MG307 International Context of Management.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** All students, including BSc Management students, must be in their 3rd year and should have taken Economics A (EC100) or Economics B (EC102) or Microeconomics I (EC1A3) in combination with Macroeconomics I (EC1B3), or equivalent. This course cannot be taken with MG307 International Context of Management.

**Course content:** This course analyses the emergence of firms which operate on a global scale and their current and likely future interactions with emerging markets. It will combine the development of conceptual frameworks primarily through the lectures with the analysis of key cases in the classes.

Multinational firms have been an increasingly significant aspect of the corporate environment in developed countries since the 1960s, and are responsible for a high proportion of global output, exports and investment, as well as the bulk of foreign direct investment. In the past few decades their activities have been increasingly focused to developing economies, notably those which have liberalised and entered a more rapid growth phase. These economies, emerging markets, include some important world economies including China, India, transition economies such as Russia, and Latin American countries such as Brazil and Argentina. The "new institutional economics" has recently developed as a field to understand the impact of variation in institutions on economies' performance.

This course will focus on how the institutional characteristics of emerging markets affect the choices and behaviour of multinational firms, now and into the future. We commence with the basic framework of analysis of the behaviour of multinational enterprises (MNEs), outlining models of the MNE which draw on transaction cost economics, the eclectic OLI paradigm of Dunning, and more recent concepts such as the resource based view. We will provide an analysis of economic performance and growth in emerging markets building on the new institutional economics and working with a large variety of datasets and

sources. The course will then turn to key topics. These will include the interaction between international trade and investment in the internationalisation choices of MNEs; the emergence of global supply chains; the determinants of FDI; the effects of FDI on the host economy; entry mode choices; measures of institutional and cultural distance; and the growing importance of multinationals from emerging markets.

Students will work with case material as well as the required reading, and the group project will comprise a case write up, which will be presented prior to submission in class for comment and discussion.

**Teaching:** Teaching hours in the LT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Lent Term, in line with departmental policy.

**Formative coursework:** Students will undertake a formative essay (1000 words) for which feedback will be provided in preparation for the final summative coursework.

**Indicative reading:** Dunning, John (1979). "Toward an Eclectic Theory of International Production: Some Empirical Tests". *Journal of International Business Studies*. 11 (1): 9–31.

R. Caves, *Multinational Enterprise and Economic Analysis*, 2nd Edition, Cambridge University Press 1996; P. Ghemawat, *Redefining Global Strategy*, Harvard Business School Press, 2007; J. Williamson, "The New Institutional Economies", *Journal of Economic Literature*, 2000; Estrin et. al., "Entry Mode in Emerging Markets", *Strategic Management Journal*, 2009; T. Khanna and K Palepu, "The Future of Business Groups in Emerging Markets", *Academy of Management Journal* 2004.

**Assessment:** Essay (50%) in the ST.

Project (40%) and class participation (10%) in the LT.

LT group project will be a case based project which will consist of an in class group presentation during week 11 of term.

## MG305 Half Unit

### Innovation and Technology Management

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jonathan Liebenau MAR.5.30

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Course content:** The focus of this course is on how innovative technologies are managed and their consequences. It includes technological innovation in areas such as telecoms, hi tech industries, pharmaceuticals, biotechnology, space technology, financial technologies. Aspects covered are how new industries are created, how existing industries can be transformed by new technologies, linkages between technological development and the creation of wealth, and implementation success and failure of technological systems. Topics include: technology and entrepreneurship, technology strategy, R&D management, patents and intellectual property, disruptive, radical and incremental innovation, technology policy. Economic, systems, managerial and sociological approaches will be compared using a variety of case studies.

**Teaching:** Teaching hours in the MT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Michaelmas Term, in line with departmental policy.

**Formative coursework:** Classes are based around reading and discussing selected journal articles and case studies from the course study pack on Moodle. Formative feedback is provided on class participation.

In addition, students will present an essay plan in preparation for the final case-based essay, on which formative feedback will be provided.

**Indicative reading:** J Howells, *The Management of Innovation and Technology*, Sage, 2005; J Fagerberg, D.C. Mowery, and R.R. Nelson (Eds.), *The Oxford handbook of innovation* (Series Oxford Handbooks in Business and Management), Oxford University Press, 2006; D MacKenzie, *Knowing Machines: Essays on Technical Change*, MIT Press, 1998; M Bauer (Ed), *Resistance to New Technology: Nuclear Power Information Technology and Biotechnology*, CUP 1995; M Biagioli (Ed), *The Science Studies Reader*, Routledge, 1999; H Collins & T Pinch, *The Golem at Large: What you should know about technology*, Cambridge University Press, 1998;

D Mowery & N Rosenberg, *Paths of Innovation: technological change in 20th century America*, Cambridge University Press, 1998; J McLaughlin, P Rosen, D Skinner & A Webster, *Valuing Technology: organisations, culture and change*, Routledge, London and New York, 1999;

**Assessment:** Essay (90%, 5000 words) in January.

In-class assessment (10%) in the MT.

## MG307 Half Unit

### International Context of Management

**This information is for the 2022/23 session.**

**Teacher responsible:** Mr Nilesh Dattani MAR.6.14

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with MG303 International Business Strategy and Emerging Markets.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** This course cannot be taken with MG303 International Business Strategy and Emerging Markets.

**Course content:** The course aims to apply social science theory to the analysis of the conduct and management of transnational activities; to critically appraise concepts such as globalisation, regionalisation, national competitiveness, transnationality of firms, etc. in the context of international management structures and processes; to delineate the international political, economic, social and legal structures and environments within which the activity of management takes place. The topics to be covered will include: the nature of the contemporary global political economy; the globalisation of business, finance and trade in goods and services; Global competition; the transnational corporation in the global economy; the tension between globalisation and regionalisation; the international trading order; the international monetary regime; the impact of culture on global business; the changing position of the state in the global economy; the new diplomacy of states and firms.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. Teaching hours in the MT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Michaelmas Term, in line with departmental policy.

**Formative coursework:** Students are expected to produce one piece of written work and do the weekly class exercises.

**Indicative reading:** M. Peng & K. Meyer, *International Business* (3rd edn), Cengage (2019); R.W. Griffin & M.W. Pustay, *International Business: A Managerial Perspective* (9th edn), Pearson (2019); O. Shenkar, Y. Luo & T. Chi, *International Business* (4th edn), Routledge (2021)

**Assessment:** Essay (100%, 3000 words) in the LT.

## MG308 Half Unit Not available in 2022/23 Simulation Modelling and Analysis

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Nayat Horozoglu

**Availability:** This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** ST107 Quantitative Methods (Statistics) or equivalent. A basic understanding and some experience of Microsoft Excel are required.

**Course content:** The aim of the course is to introduce students to concepts, techniques and applied aspects of the development and analysis of simulation models. The course will cover two main approaches for modelling problems bound by uncertainty (stochastic behaviour): Monte Carlo Simulation (static problems) and Discrete Event Simulation (dynamic problems). The course covers topics such as types of uncertainty, sampling methods, structuring problems for simulation, running simulation models, analysing simulation outputs, testing and validating simulation models, risk analysis using simulated models, applications of simulation.

**Teaching:** Teaching hours in the LT will be commensurate with a usual half unit undergraduate course but note that teaching may take a different format and/or structure in 2021/22.

**Formative coursework:** One formative piece of coursework will be set in LT.

**Indicative reading:** The extensive lecture notes provided are the essential reading for this course. These lecture notes can be complemented with the following background readings:

- Law, AM. (2015). *Simulation Modelling and Analysis* (5th ed.). New York: McGraw-Hill Education.
- Pidd, M. (2004). *Computer simulation in management science* (5th ed.). Hoboken: Wiley.
- Robinson, S. (2014). *Simulation: The Practice of Model Development and Use* (2nd ed.). Basingstoke: Palgrave Macmillan.
- Vose, D. (2008). *Risk analysis: A quantitative guide* (3rd ed.). Chichester: Wiley.

**Assessment:** Project (100%) in the ST.

## MG310 Half Unit Not available in 2022/23 Strategic Decision Making

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Valentina Ferretti

**Availability:** This course is available on the BSc in Management, BSc in Psychological and Behavioural Science, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** Elementary statistical and mathematical concepts, as well as a true curiosity towards the fascinating field of decision making and a strong interest in rebooting your analytical "decision-ware".

As this course embraces the two key stages of the decision making process, i.e. the initial divergent and creative stage and the subsequent convergent and analytical one, please, note that it is important to feel comfortable with interdisciplinary research,

as well as with the use and discussion of both qualitative and quantitative strategies for successful decisions. Group work will also be a key component of the course.

**Course content:** This course is about making successful strategic decisions and building decision resilience during challenging times, in both the professional domain and the personal one. In this era of unprecedented uncertainty, learning how to make decisions against the backdrop of external factors that we cannot control or predict represents a fundamental skill for any sector of society and business. Knowledge of what it takes to develop a good decision making process is thus an invaluable part of everyone's toolbox, particularly for rising stars who will be in positions of leadership in the future. This course introduces students to the key concept of decision quality and to cutting edge strategies and tools to integrate data and judgments and develop winning strategies. This course's lectures will entail a deep dive into the progressive stages of a strategic decision making process, with interactive experiments and puzzles to develop bias awareness and decision analysis expertise. Seminars will consist of interactive sessions, enabling you to master an actionable decision framework and become confident decision analysts. The learning outcomes of this course are twofold. First, to discover the key decision traps when framing, structuring and modelling decisions and why they are dangerous. Second, to understand and master cutting edge, replicable and versatile solutions for framing, structuring, modelling and communicating better decisions.

**Teaching:** Teaching hours will be commensurate with a usual half unit undergraduate course but note that teaching may take a different format and/or structure in 2021/22.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:**

**Two formative assignments:**

1. Group project plan presentation (i.e. the selected decision context, due in week 7)
2. Group project pitch of the key decision analysis' impacts observed as a result of the strategic decision making process developed as a group across classes 2, 3, 4, and 6. Students will present and discuss the key impacts of their decision making process (e.g. discovery of new objectives that were not in their original mental models, recommendation of a different solution to the decision as a result of the used elicitation protocols, etc.) and receive real time feedback, from both their peers and the lecturer. Feedback will be provided following specific criteria (i.e. the same criteria that will be used to evaluate the individual technical account of the group project's impacts that is summative assignment n.2) and by completing a set of both descriptive and evaluative tasks (e.g. indicating the strongest part of the presentation, as well as parts that need revision, etc.).

The above two formative assignments have been designed to prepare the students for the following two summative works: (i) the group project presentation of the chosen decision making problem/opportunity and (ii) the individual technical account of one key impact observed in the group project.

The topic of the group project (i.e. a decision making problem or opportunity to be modelled and analysed by means of Multicriteria Analysis) can be a personal decision (e.g. which job offer to accept when confronted with multiple ones, which master to apply for, etc.) or a real world case (e.g. how to reduce plastic consumption in the LSE new coffee place). Students will have to collect data, develop and apply a quantitative model, interpret the results and refer to the key scientific literature for the main steps in the development of the model. Students are allowed to work in groups of maximum 4/5 people. This summative assignment will help students develop their strategic problem solving skills by demonstrating their ability to apply both qualitative and quantitative tools to frame, structure and model a decision, interpret its results, and develop sound recommendations. In the individual technical account of the group project's impacts (max 1500 words), students will have to report on the developed process by focusing on the observed key impacts of the used tools. This second summative assignment will help students

develop their critical thinking skills.

**Indicative reading:** Belton, V. and Stewart, T. (2002) Multiple Criteria Decision Analysis. London, Kluwer.

Keeney, R.L. (1992) Value-Focused Thinking: A Path to Creative Decision-making. Cambridge: Harvard Univ. Press. HD30.23 K21 (Course Collection).

G.S. Parnell et al. (2013) Handbook of Decision Analysis. Hoboken, Wiley.

Spetzler C., Winter H., Meyer J. 2016. Decision quality: value creation from better business decisions. Wiley.

**Assessment:** Group project (50%) in the LT Week 11.

Technical report (50%) in the ST Week 1.

The individual technical report (1500 words maximum) will provide an explanation and insightful discussion of one key impact observed in the developed group decision making process.

## MG311 Half Unit

### Foundations of Behavioural Decision Science

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Luc Schneider

**Availability:** This course is available on the BSc in Management, BSc in Psychological and Behavioural Science, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** It is an advantage to have taken an introductory social science course in one of these fields: economics, management, psychology or sociology.

It is important to be comfortable with multi-disciplinary research and group work.

**Course content:** This course introduces students to the foundations of Behavioural Decision Science: the science that explains and predicts how humans make decisions (the decision 'process') and how well (the decision 'outcome'). The course will explore the different stages of the decision making process identifying factors important in understanding our decision making. Students will be introduced to the concepts of framing, explore the way in which we make judgements, understand the rich and diverse influences of risk, uncertainty and affect (emotions), and investigate strategies for decision making. Throughout the course, students will be introduced to many cognitive biases and aspects of context which influence how/what judgements and decisions we make. In the final portion of the course, student will get the opportunity to see examples of how information/choice designers are seeking to help or influence decision makers or teach skills to help the public or professionals to make better decisions themselves. Many of these concepts and techniques can, and have been applied across personal, professional and policy situations – and the course will provide opportunities to learn about and discuss such applications. Importantly, across both parts of the course, discussion of core concepts and examples will be woven together with new advances and applications in the field, particularly those within the course leader's field of expertise.

The course is entirely seminar-based, and will combine within the sessions - traditional lecture-style teaching of concepts with hands-on demonstrations of the concepts in action, and in depth class discussions of the week's material. Examples used within the sessions will be drawn from across a range of different domains which could include managerial, policy, health, emergency response, law, consumer, and even personal domains.

By the end of this course, students will have an understanding of the key concepts in Behavioural Decision Science, be able to evaluate the strengths and weaknesses of human decision making,

and be able to recognise and adapt different techniques to improve decision making. The summative will provide an opportunity to show the skills and knowledge you have learnt throughout the course and consists of two parts which are described below.

**Teaching:** Teaching hours in the LT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Lent Term, in line with departmental policy.

**Formative coursework:** 1. Analysing a real decision maker– Group Presentation (Week 10): Over several weeks (both in and outside class), you will work as a group to analyse a real decision that you will select. In Week 10, you will be required to present a summary of this analysis in a timed group presentation. In this presentation, you will need to report on: 1) what is the key decision being investigated? 2) identify and explain the key judgements that your decision maker is making and what decision making factors (e.g. biases) are at play? and 3) discuss your suggested solution(s) for improving decision making. After the presentation you will receive feedback as a group. This feedback will help you prepare for the summative assessment.

2. Review of anonymous essays (Week 11): Students will play the role of the "examiner" and using anonymous examples of summative assessments (submitted by students from a previous year) explore the different evaluation criteria which are used in this course. This exercise will help you improve your summative assessment.

**Indicative reading:** Bazerman, M. (2017) Judgment in Managerial Decision Making. New York: Wiley. 8th edition; Hastie, R., and Dawes, R.M. (2001). Rational Choice in an Uncertain World. Sage Publications, Thousand Oaks; Kahneman, D. (2011) Thinking Fast and Slow. London: Allen Lane; Russo, J. E. & Schoemaker, P. J. H. (2002) Winning decisions: How to make the right decision the first time, Piatkus Publ. Limited.

**Assessment:** Coursework (100%, 3000 words) in the ST. Summative (due beginning of ST): The summative assessment will be a 'Report and Essay'. It comprises two parts.

Part 1: An "Analysing a Decision Maker" Report: In the first part (no more than 1000 words), you will be asked to write a report detailing the analysis of a decision maker that you completed during the term. You will need to report on: 1) what is the key decision being investigated? 2) identify and explain the key judgements that your decision maker is making and what decision making factors (e.g. biases); and 3) discuss your suggested solution(s) for improving decision making.

Part 2: In-depth Scholarly Essay: In the second part of the coursework (no more than 2000 words), you will choose a topic from within MG311, which you as a developing scholar has found interesting or important and write your in-depth essay on it. This essay should be done in a scholarly and rigorous manner making reference to behavioural literature, theories and concepts. The first part of the report will count for 50% of your mark while 50% will come from the second part. You will be required to provide full essay-style referencing.

Although the first part of the summative assignment will involve you reporting on the "analysing a decision maker" task conducted with your group, all students will write both parts of the summative essays on their own and will receive an individual mark.

## MG312 Half Unit Not available in 2022/23

### Extreme Organisational Behaviour: Examining behaviour in non-normative organisational contexts

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Haiyang Liu

**Availability:** This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General

Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** Organisational Behaviour and Leadership (MG105) or equivalent

**Course content:** Extreme OB seeks to understand atypical forms organisational phenomena. Alternative forms of organisations and unique individual circumstances have become more commonplace in recent years; however, OB theories—designed to apply to “typical” workplace behaviour and contexts—have not kept pace. The emphasis in this course will be on critically evaluating existing OB theories as they relate to extreme forms of workplace behaviour (e.g., workaholism, pro- and antisocial behaviour, exploitation) and contexts (e.g., COVID-19, poverty, disasters, military, and hospital). Weekly topics include isolated and high pressure work environments, passion work, virtual and flexible teams.

**Teaching:** Teaching hours will be commensurate with a usual half unit undergraduate course but note that teaching may take a different format and/or structure in 2021/22.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 2 pieces of coursework (1 essay outline based on a case study and 1 presentation) in the MT.

**Indicative reading:** The course relies heavily on journal articles (for example, Academy of Management Journal, Journal of Applied Psychology, Journal of Organizational Behaviour, and Harvard Business Review). An extensive reading list is provided at the start of the course. Indicative readings include:

Eikhof, D. R., & Haunschild, A. (2006). Lifestyle meets market: Bohemian entrepreneurs in creative industries. *Creativity and Innovation Management*, 15, 234-241.

Green, F. (2004). Why has work effort become more intense? *Industrial Relations*, 43, 709-741.

Griffin, M. A., Neal, A., & Parker, S. K. (2007). A new model of work role performance: Positive behavior in uncertain and interdependent contexts. *Academy of Management Journal*, 50, 327-347.

Hewlett, S. A., & Luce, C. B. (2006). Extreme jobs: the dangerous allure of the 70-hour workweek. *Harvard Business Review*, 84, 49-59.

Johns, G. (2006). The essential impact of context on organizational behavior. *Academy of Management Review*, 31, 386-408.

Kniffin, K. et al (2021). COVID-19 and the Workplace: Implications, Issues, and Insights for Future Research and Action. *American Psychologist*, 26: 63-77

O'Boyle, Jr., E. H., Forsyth, D. R., Banks, G. C., & McDaniel, M. A. (2012). A meta-analysis of the Dark Triad and work behavior: A social exchange perspective. *Journal of Applied Psychology*, 97, 557-579.

Perrewé, P. L., Hochwarter, W. A., Ferris, G. R., McAllister, C. P., & Harris, J. N. (2014). Developing a passion for work passion: Future directions on an emerging construct. *Journal of Organizational Behavior*, 35, 145-150.

**Assessment:** Case study (100%) in the LT.

Assessment is based on a 3,000 word Case Study in which students will be asked to identify and describe an example of an “extreme” organisational phenomenon and to use existing theory(ies) to explain it, noting what the theory(ies) can and cannot account for. Students will then be asked to propose a modification to the theory(ies) to make it “fit” the phenomenon better. The Case Study, which will be due at the beginning of LT, will account for 100% of the final grade in this course. The Case Study will be supported by formative feedback from instructors and peers throughout the course, as well as a presentation.

## MG315 Half Unit Not available in 2022/23

### Marketing Action Learning Project

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Haider Ali

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Core Disciplines II: Marketing, Human Resource Management and Information Management (MG201) or Marketing (MG212).

**Course content:** This course will build on theoretical concepts taught in the pre-requisites, by applying these theories and concepts to a real-life situation. Working in teams, students will develop a marketing plan for a new product/service launch; from ideation through to marketing research and setting marketing launch budgets, and considering Return on Investment. With support from the course leader, students will get the opportunity to use knowledge gleaned from many management courses to craft a compelling marketing plan. This course will test not only your academic knowledge but also your practical problem-solving skills, resourcefulness, and creativity.

**Teaching:** 2 hours of lectures in the MT. 21 hours of seminars and 3 hours of classes in the LT.

Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** As part of their teams, students will be expected to produce 3 pieces of formative coursework in the LT.

i) One page memo drafting the scope of the project area.

ii) Mid Term Report One – proposing the market segment to be targeted (based on relative attractiveness).

iii) Mid Term Report Two – Research Plan

Work undertaken for the above can be used within the final report that is submitted for summative assessment.

**Indicative reading:** Malcolm McDonald, *Marketing Plans: How to Prepare them, How to use them*, 7th Edition, Wiley Business Model Generation, Osterwalder & Pigneur, Wiley

**Assessment:** Project (90%, 5000 words) and in-class assessment (10%) in the LT.

The project will be completed in a group. A Group Evaluation Form will be required, where students' comments on their peers can affect the final grade allocated. Please note that project group membership will be allocated by the course leader.

In the last class of the Lent Term students will be required to write, under exam conditions, a reflective piece on the work undertaken by their team and their contribution to it. The precise focus of students' answers will be determined by the question that they have to address.

## MG316 Half Unit

### Brand Strategy

**This information is for the 2022/23 session.**

**Teacher responsible:** Mr Guido Van Garderen

**Availability:** This course is available on the BSc in Management, International Exchange (1 Term) and International Exchange (Full Year). This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not available for postgraduates.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Course content:** The most valuable assets that firms have are the products/services that they offer and the brands that are associated with them. Managing Products & Brands is a rigorous examination of the theory and corporate practices relevant to product and brand management. Its core objectives are to provide an understanding of the important issues in planning and

evaluating product/brand strategies, to provide the appropriate theories, models, and analytical tools that enable managers to make well-informed product/brand management decisions, and to provide a platform for students to apply these principles. The critical approach adopted will blend theory and practice so as to promote effective managerial decision making on a short as well as long term basis.

**Teaching:** Teaching hours in the LT will be commensurate with a usual half unit undergraduate course.

This course includes a reading week in Week 6 of Lent Term, in line with departmental policy.

**Formative coursework:** Students will work during class in groups, where they will do exercises and receive immediate feedback.

The groups will use the same exercises to create their final group project. Detailed guidelines on the group project will be provided in the course syllabus and sample projects will be available.

**Indicative reading:**

- David A. Aaker (1996) *Building strong brands*. New York: The Free Press.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Project (40%) and class participation (10%) in the LT.

The Group Project will be completed during the course in groups.

## MG317 Half Unit

### Leading Organisational Change

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Dorottya Sallai MAR.4.10

**Availability:** This course is available on the BSc in Management. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students.

**Pre-requisites:** Students must have completed Organisational Behaviour and Leadership (MG105).

Organisational Behaviour and Leadership (MG105) or equivalent.

**Course content:** Businesses operate in an increasingly complex environment, where change is a constant feature of business life. The impact of not managing change in an effective way can be devastating for small and large businesses alike. Getting people to change even when it is in their best interest is the most difficult task faced by today's leaders. Yet, successful change can be achieved at individual, team and organisational levels through the use of a number of practical tools and skills.

The course provides students with an understanding of organizational change as a multifaceted phenomenon and equips them with skills to adopt a reflective, multi-dimensional approach when managing change in their future careers. In their everyday jobs, managers need to identify when change is needed, manage its implementation or guide others through it. In this course students learn about theories, strategies, skills and techniques for leading successful change.

The course applies a wide range of change-related theories that impacted the field since the 1930s. The course covers issues such as how change can be managed, what is happening in change processes and why managers need to work with change.

Topics addressed in the course will include:

- Identifying the need for change and diagnosing what to change
- Understanding organisational change strategies
- Managing internal power, stakeholders and politics
- Leadership in change
- Culture and mergers in change projects
- Resistance to change
- Fairness and change
- Communication and change
- Sustaining change and learning

**Teaching:** 15 hours of lectures and 9 hours of seminars in the LT. Students on this course will have a reading week in Week 6, in line with Departmental policy.

**Formative coursework:** Students will be expected to produce 1 quiz and 1 essay in the LT.

**Indicative reading:**

  - Kotter, 1995 *Leading Change: Why Transformation Efforts Fail*, 1995, *Harvard Business Review*, March-April 1995
- Assessment:** Essay (90%, 2000 words) and other (10%) in the LT.
- Coursework essay (2000 words) worth 90 % in the LT. Students will write an essay on a topic that draws from multiple topics in the course.
  - Simulation exercise 10 %

## MG318 Half Unit

### Social Enterprise Design Fundamentals

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Nadia Millington MAR.5.37

Guest lecturers / external team mentors

**Availability:** This course is available on the BSc in Management. This course is not available as an outside option nor to General Course students.

**Course content:** The lecture weeks (5 weeks)

During the foundational element, students will be provided with a theoretical overview of this young field, including but not limited to:

- (1) Introduction to social enterprise- definitions / taxonomies of social innovation/business models for social innovation
- (2) Solving social problems- human centered vs problem centric vs opportunity centric approaches
- (3) Theory of change
- (4) Designing social business models & social Innovation
- (5) Social impact measurement

Throughout the course, examples are given of real social enterprises in order give practical insight to complement the theory and cases studies where applicable will be utilised.

The Interactive Lecture weeks ( 5 weeks)

During the interactive lecture weeks, students will be provided with a short lecture followed by interactive exercises that help them to develop the initial stages of a social enterprise solution based and then will develop a draft business model and conduct

some minimum viable product testing to check the validity of their recommendations. An advantage of the course for students will be an opportunity to discover lean and human centred design principles as an approach to problem solving that spans many social disciplines and is being used by social scientists, creative designers and world class entrepreneurs

**Ethical limitations:** Students will be encouraged to engage in developing solutions to problems without complex ethical considerations as there is insufficient time for the students to get approval for these projects from the Ethics Committee before the term concludes. More specifically students will be steered away from working with

(i) Minors

(ii) Vulnerable populations such as refugees / homeless without a third party ( the logic is that an established third party can provide the structure for students to approach these populations in a safe way)

(iii) Any domestic violence related initiative

(iv) Other such initiatives that would mean that the team cannot self-certify its project

Further students will be advised of LSE's ethical standards to ensure that they comply with them fully in the execution of their projects.

**Teaching:** 20 hours of lectures and 1 hour of help sessions in the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:**

**Assessment:** Essay (50%, 1400 words) and group presentation (50%) in the LT.

## MY360 Half Unit Not available in 2022/23

### Quantitative Text Analysis

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Blake Miller and Dr Friedrich Geiecke

**Availability:** This course is available on the BSc in Politics and Data Science. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Knowledge of statistics and probability to the level of ST107 or equivalent.

**Course content:** The course surveys methods for systematically

extracting quantitative information from text for social scientific purposes, starting with classical content analysis and dictionary-based methods, classification methods, and state-of-the-art scaling methods. It continues with probabilistic topic models, word embeddings, and concludes with an outlook on current neural network based models for texts. The course lays a theoretical foundation for text analysis but mainly takes a very practical and applied approach, so that students learn how to apply these methods in actual research. A common focus across methods is that they can be reduced to a three-step process: first, identifying texts and units of texts for analysis; second, extracting from the texts quantitatively measured features - such as coded content categories, word counts, word types, dictionary counts, or parts of speech - and converting these into a quantitative matrix; and third, using quantitative or statistical methods to analyse this matrix in order to generate inferences about the texts or their authors. The course systematically surveys these methods in a logical progression, with a practical, hands-on approach where each technique will be applied using appropriate software to real texts. Lectures, class exercises and homework will be based on the use of the R statistical software package but will assume no background knowledge of that language.

**Teaching:** A combination of classes and lectures totalling a minimum of 30 hours across Lent Term. This course has a Reading Week in Week 6 of LT.

**Formative coursework:** One problem set in LT.

**Indicative reading:** *quanteda*: An R package for quantitative text analysis. <http://kbenoit.github.io/quanteda/>

Benoit, Kenneth. 2020. "Text as Data: An Overview." In Curini, Luigi and Robert Franzese, eds. *Handbook of Research Methods in Political Science and International Relations*. Thousand Oaks: Sage. pp461-497.

Grimmer, Justin and Brandon M. Stewart. 2013. "Text as Data: The Promise and Pitfalls of Automatic Content Analysis Methods for Political Texts." *Political Analysis* 21(3):267–297.

Loughran, Tim and Bill McDonald. 2011. "When Is a Liability Not a Liability? Textual Analysis, Dictionaries, and 10-Ks." *The Journal of Finance* 66(1, February): 35–65.

Evans, Michael, Wayne McIntosh, Jimmy Lin and Cynthia Cates. 2007. "Recounting the Courts? Applying Automated Content Analysis to Enhance Empirical Legal Research." *Journal of Empirical Legal Studies* 4(4, December):1007–1039.

**Assessment:** Project (20%) and group project (20%) in the ST. Problem sets (60%) in the LT.

Four summative problem sets will be marked in four of the weeks. These will constitute 60% of the final overall mark. The group project will be an original analysis of texts using some of the methods covered in class, and may focus on replicating or extending a published work, written up as a report. 20% of the final overall mark will be based on the subsection of the group report written by the student, and 20% of the final overall mark will be based on the collectively written sections of the group report.

## MY361 Half Unit

### Social Network Analysis

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Eleanor Power

**Availability:** This course is available on the BSc in Politics and Data Science. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** None, although prior knowledge of statistics, including logistic regression, and/or some background in social theory, is desirable.

**Course content:** This course focuses on data about connections, forming structures known as networks. Networks and network data describe an increasingly vast part of the modern world, through connections on social media, communications, financial transactions, and other ties. This course covers the fundamentals

of network structures, network data structures, and the analysis and presentation of network data. Students will work directly with network data, and structure and analyse these data using the R statistical programming language.

Social networks have always been at the centre of human interaction, but especially with the explosive growth of the internet, network analysis has become increasingly central to all branches of the social sciences. How do people influence each other, bargain with each other, exchange information (or germs), or interact online? A diverse array of deep questions about human behaviour can only be answered by examining the social networks encompassing and shifting around us. Network analysis has emerged as a cross-disciplinary science in its own right, and has in fact proven to be of even greater generality and broader applicability than just the social, extending to ecology, physics, genetics, computer science, and other domains.

This course will develop the theory and methodological tools needed to model and predict social networks and use them in social sciences as diverse as sociology, political science, economics, health, psychology, history, or business. The core of the course will comprise the essential tools of network analysis, from centrality, homophily, and community detection, to random graphs, network formation, and information flow. The course will also provide an introduction to network modelling, analysis and visualisation using R (a statistical programming language).

**Teaching:** A combination of classes and lectures totalling 30 hours across Lent Term. This course has a Reading Week in Week 6 of LT.

**Formative coursework:** Students will be expected to submit two formative problem sets that build on what was covered in the staff-led lab sessions, to be completed by the student outside of class. Example answers and written feedback will be given.

Student groups will give an oral presentation of their plan for their group project in the final seminar of the term, for which they will receive peer feedback and verbal feedback from staff.

**Indicative reading:**

- Newman, M.E.J. (2010). *Networks: An introduction*. Oxford, UK: Oxford University Press.
- Scott, J. (2017). *Social Network Analysis*. Los Angeles: SAGE. 4th edition.
- Easley, D., and Kleinberg, J. (2010). *Networks, Crowds, and Markets: Reasoning about a highly connected world*. New York: Cambridge University Press.

**Assessment:** Project (20%) and group project (20%) in the ST. Problem sets (60%) in the LT.

Four summative problem sets will be marked in four of the weeks. These will constitute 60% of the final overall mark. The group project will be a structured, independent exploration of a social network dataset written up as a report. 20% of the final overall mark will be based on the subsection of the group report written by the student, and 20% of the final overall mark will be based on the collectively written sections of the group report.

## PB100

### Foundations of Behavioural Science

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jet Sanders CON.3.08

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Students following the BSc in Psychological and Behavioural Science will automatically be enrolled onto PB100.

There are a very limited number of places available for students from outside the Department of Psychological and Behavioural Science who meet the pre-requisites laid out below.

**Pre-requisites:** You must have a genuine and demonstrable interest in Behavioural Science and its real world applications.

**Students from outside the BSc in Psychological and Behavioural**

**Science will be asked to demonstrate how they meet this pre-requisite by producing a 200 word statement.** This statement will be reviewed by the course leader before places on the course are confirmed.

**Course content:** The aim of this course is to provide an understanding of, and the ability to critically appraise, the fundamental ideas which drive the multidisciplinary field of Behavioural Science in relation to policymaking.

The course gradually moves from the foundational principles of Behavioural Science to the practical applications based on those principles. The course is organised into three interlinked blocks. The first block introduces dual-processing models of human behaviour to highlight the role of the environment in shaping decisions; this block considers the Dual System approach, heuristics and biases, and the influence of time, risk, and social preferences. The second block delves into the science of happiness by introducing the main accounts of subjective wellbeing, how it is conceptualised and measured and its implications for policy and other contexts. Finally, in the third block, we introduce various techniques from Behavioural Economics (incentives, commitments, defaults), Social Psychology (ego, messenger and social norms), and Cognitive Psychology (priming, affect) can be used to shape behaviour by means of the MINDSPACE checklist. We close by addressing the role of behavioural spillover effects and a discussion on the ethics of nudging.

Throughout the course, evidence from observational studies, laboratory experiments and field experiments will be discussed, with a special emphasis on policy-level interventions.

By the end of the course you should:

- Have a broad understanding of the fundamental principles of Behavioural Science, and its relations with foundational principles in Psychology and Economic Theory and policy;
- Be able to critically appraise the evidence base, tools and impact of Behavioural Science and its relation to policy interventions;
- Be able to explain the approaches that have been developed to change behaviour, based on the MINDSPACE framework;
- Be able to apply the core theories of Behavioural Science in policy and practice-based contexts.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 40 hours across Michaelmas Term and Lent Term. There is a reading week in Week 6 of both Michaelmas Term and Lent Term.

**Formative coursework:** Students will complete a number of pieces of formative work to cement learning and prepare for summative assessments:

- Essay plan (comprising an introduction and then plan for the remaining sections).
- Practice pitch with peer feedback.

**Indicative reading:**

- Sunstein, C. R., & Thaler, R. (2009). *Nudge: Improving Decisions About Health, Wealth and Happiness*. London: Penguin.
- Kahneman, D. (2011). *Thinking, fast and slow*. Macmillan.
- Dolan, P. (2015). *Happiness by Design: Finding Pleasure and Purpose in Everyday Life*. London: Penguin.
- Halpern, D. (2015). *Inside the Nudge Unit: How small changes can make a big difference*. London: W H Allen.
- Dolan, P. (2019). *Happy Every After: Escaping the myth of a perfect life*. London: Penguin.

**Assessment:** Essay (60%, 3500 words) and presentation (40%) in the LT.

**Essay (60%) in LT** - Students will be required to write a 3,500 word essay answering a question. There will be a number of questions provided and students can choose which they'd like to answer.

**Presentation (40%) in LT** - The presentation will take the form of a 3 minute pitch delivered as part of the annual *PB100 Behavioural Science Foundations to Real-World Applications Forum*.

**PB101****Foundations of Psychological Science**

**This information is for the 2022/23 session.**

**Teacher responsible:** To be confirmed

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

Students following the BSc in Psychological and Behavioural Science will be automatically enrolled onto PB101.

There are a very limited number of places available for students from outside the Department of Psychological and Behavioural Science who meet the pre-requisites laid out below.

**Pre-requisites:** You must have a genuine and demonstrable interest in Psychological Science and how it relates to and informs other disciplines concerned with humans and human behaviour.

**Students from outside the BSc in Psychological and Behavioural Science will be asked to demonstrate how they meet this pre-requisite by producing a 200 word statement.** This statement will be reviewed by the course leader before places on the course are confirmed.

**Course content:** This course provides an introduction to human cognition and behaviour, addressing foundational topics in psychological science. These foundational topics include key concepts such as evolution, genetics, neuroscience, human evolutionary biology and anthropology, and specific topics, such as perception, memory, heuristics and biases, decision-making, child development, psychopathology, personality and individual differences, emotion, attraction and sexuality, cross-cultural differences, social relations, stereotypes and prejudice, norms and attitudes, social learning, social influence and persuasion, and group processes.

The course will offer an integrated perspective on these topics, investigating the evolution and variation in human psychology over time, across cultures, and over the lifespan. The course will introduce the history of the study of humans and human psychology, offering students the historical context to trends in research. By the end of the course, students will have a broad knowledge of key topics in psychology and related disciplines. Students will be prepared for more in-depth investigations of more advanced topics in later courses.

By the end of this course you should:

- Have an introductory understanding of the psychological and behavioural sciences.
- Have an understanding of how the psychological and behavioural sciences connect to other closely related social and biological sciences.
- Have developed "mental models" of human behaviour that you can apply to understanding interactions in your everyday lives and events occurring in the world around you.
- Be able to connect different levels of understanding such that you can zoom into the individual brain, zoom out to the societal-level and contextualize both in the breadth of human history and depth of evolutionary history.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 40 hours across Michaelmas Term and Lent Term. There is a reading week in Week 6 of both Michaelmas Term and Lent Term.

**Formative coursework:** Students will complete a number of pieces of formative work to cement learning and prepare for summative assessments:

- A number of pop-quizzes
- A practice blog-post

**Indicative reading:**

- Chudek, M., Muthukrishna, M., & Henrich, J. (2015). Cultural Evolution in Buss, D.M. (Ed.) *The Handbook of Evolutionary Psychology* (2nd ed., Vol. 2). Hoboken, NJ: John Wiley and Sons.

- Henrich, J., Heine, S. J., & Norenzayan, A. (2010). The weirdest people in the world? *Behavioral and Brain Sciences*, 33(2-3), 61-83.
- Laland, K. N., & Brown, G. (2011). *Sense and nonsense: Evolutionary perspectives on human behaviour*. 160New York, NY: Oxford University Press.
- Muthukrishna, M., & Henrich, J. (2016). Innovation in the collective brain. *Philosophical Transactions of the Royal Society of London B: Biological Sciences*, 371(1690).
- Muthukrishna, M., & Henrich, J. (2019). A problem in theory. *Nature Human Behaviour*, 3, 221-229.

**Assessment:** Exam (25%, duration: 1 hour and 30 minutes) in the summer exam period.

Blog post (25%) in the MT.

Wikipedia article (25%) in the LT.

Multiple choice quiz (25%) in the ST.

**Blog Post (25%) in MT** - Students will write a 1000 word blog post that summarises a key finding or findings in psychology. This will result in more engagement, communication and summarizing of research as well as encouraging them to seek out new findings in the psychological and behavioural science, finding ways to connect these to the real world.

**Wikipedia Article (25%) in LT** - Students will create or edit a Wikipedia or Simple Wikipedia entry on a topic in psychology that is either incorrect, badly described, or missing. This will teach students critical thinking skills, not to take information at face value, and how to communicate research to a smart audience looking for both an overview and details.

**Multiple Choice Quiz (25%) in ST** - The quiz will take place online during the Summer Term and will consist of sixty multiple choice questions.

**Exam (25%) in ST** - The exam will take place in the summer exam period and consist of four questions requiring short written answers.

**PB102 Not available in 2022/23****Social Psychology**

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Bradley Franks QUE.3.05

**Availability:** This course is available on the BA in Social Anthropology, BSc in Psychological and Behavioural Science and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course can be taken as an outside option by students on any year of undergraduate degrees, and as an option by students on the General Course. You should check with your department any restrictions they may place on outside options.

**Course content:** This course aims to provide a thorough introduction to the fundamental topics of social psychology – a branch of psychological science that seeks to understand and explain human behaviours in actual or assumed presence of others. In this course, we will review and critically evaluate socio-psychological explanations and theories of individual, interpersonal and group processes. Here, we will study a wide range of phenomena, ranging from the way individuals perceive and think about the social world, to the way they conceptualize themselves and participate in social groups, to the way that the broader social context influences our thoughts and behaviour. Other topics will include interpersonal attraction, attitudes and attitude change, pro-social behaviour, and human aggression.

A short video on the course is here: <https://youtu.be/cO6bINGn2jQ>  
The course offers an essential complement to any degree programme in the social sciences, and it is particularly relevant to any profession that involves dealing with other people. Over the duration of this course, you will develop the knowledge and

analytical skills necessary to apply the insights gained from Social Psychology to real-world social issues and to identify effective ways for achieving behavioural and societal change.

**Teaching:** 10 hours of lectures and 9 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. 1 hour of lectures and 1 hour of classes in the ST.

**Formative coursework:** Students are expected to produce two assignments as coursework, one in MT and one in LT. The first assignment comprises of four separate short answers responding to a choice of eight questions, comprising up to 2,000 words in total (i.e. about 300 to 500 words each).

The second assignment is an essay that students write under exam conditions as a 1-hour mock exam. Students will be given three topics, from which they can choose one to prepare and answer the corresponding mock exam question. All formative assignments will be assessed by the class teachers, who will provide detailed feedback to the students.

**Indicative reading:** Hogg, M. A. and Vaughan, G. M. (2013). *Social Psychology*, 7th edition. Harlow, Prentice Hall. Library catalogue number is HM251 H71 and the book is also available electronically through the library website.

Additional references and a synopsis of lectures and class topics will be made available online in early September, and will also be distributed in the first lecture of the series.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

The exam will consist of four short answer out of eight questions, and two essay answers out of six questions.

## PB130

### Statistics and Research Methods for Psychological and Behavioural Science

**This information is for the 2022/23 session.**

**Teacher responsible:** To be confirmed

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** This course equips students with the bedrock knowledge and skills for conducting research in psychology and behavioural science. It integrates core concepts from the process of planning and conducting research with those involved in understanding and analysing data. Its lectures and classes introduce enough research methods and statistics to provide a foundation for Years 2 and 3. Students will be provided with a dataset that they can use to put what they learn into practice, as well as having the opportunity to collect and analyse data of their own. By the end of this course you should:

- Be able to situate contemporary research in psychology and behavioural science in the historical context of psychological enquiry.
- Have an understanding of the processes required in planning, carrying out, summarising, and evaluating research in psychological and behavioural science.
- Understand the principles for designing, conducting, and writing up qualitative and quantitative research projects.
- Understand the statistical methods needed to familiarise oneself with a dataset, summarise its key features, and identify key relationships among variables.
- Have practical experience collecting and analysing psychological and/or behavioural data.
- Be prepared for later courses in statistics and research methods for psychological and behavioural science.

**Teaching:** This course is delivered through a combination of lectures, workshops, lab sessions and classes totalling a minimum of 84.5 hours across Michaelmas Term and Lent Term. There is a reading week in Week 6 of both Michaelmas Term and Lent Term.

**Formative coursework:** Students will complete a number of pieces of formative work to cement learning and prepare for summative

assessments:

- A number of statistics worksheets.
- A160practice piece focusing on writing up qualitative research.
- A practice piece focusing on writing up quantitative research.

**Indicative reading:**

- Son, J. Y., & Stigler, J. W. (2019). *Introduction to Statistics: A Modelling Approach*
- Urdan, T. C. (2011). *Statistics in plain English*. London: Routledge.

**Assessment:** Poster (20%) in the MT.

Exercise (40%) and research project (40%) in the LT.

- **Poster (20%) in MT** - Working as a group you will design a mixed methods research project and present this as a poster.
- **Research Project (40%) in LT** - You will carry out the project that you proposed in your poster. Data collection will be done with your group, the analysis and write up will be completed individually.
- **Exercise (40%) in LT** - You will be required you to write methods and results for two **secondary data analysis** tasks.

## PB200 Half Unit

### Biological Psychology

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Miriam Tresh CON.3.14

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** This course offers an introductory and integrated perspective on the biological bases of behaviour. After a discussion of the philosophical and historical background of biological psychology, the course will consider neurophysiology and how the structure of the brain connects to research methods. The course will then frame biological psychology by reference to theories of concepts such as behavioural genetics, evolutionary psychology and the impact of hormones on behaviour. Following this, the course moves on to consider the biological underpinnings of cognition and behaviour. It appraises the applied application of biological psychology and is concerned with identifying how the biology of psychology can inform our understanding and interpretation of real-world issues.

By the end of the course you should:

- Have a broad understanding of the fundamental principles of Biological Psychology.
- Be able to critically appraise the philosophy and development of

Biological Psychology.

- Be able to understand the biological underpinnings of cognition and behaviour.
- Be able to identify how Biological Psychology can inform real-world issues.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 20 hours across Michaelmas Term. There is a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Students will complete a number of pieces of formative work to cement learning and prepare for summative assessments:

- Weekly multiple choice question sets
- Podcast episode plan

**Indicative reading:**

- Breedlove, S.M., & Watson, N.V. (2010). *Biological psychology: An introduction to behavioural, cognitive, and clinical neuroscience*. Sunderland, MA: Sinauer Associates.
- Cacioppo, J.T, Visser, P.S., & Pickett, C.L. (2006). *Social neuroscience: People thinking about thinking people*. Cambridge, MA: MIT Press
- Gazzaniga, M.S., Ivry, R.B., & Mangun, G.R. (2014). *Cognitive neuroscience: The biology of the mind*. New York, NY: W.W. Norton.
- Glimcher, P. W., Camerer, C., Poldrack, R. A., & Fehr, E. (2013). *Neuroeconomics: Decision making and the brain*. Amsterdam: Academic Press.
- Kolb, B., Wishaw, I.Q., & Teskey, C.C., (2016). *An introduction to brain and behaviour* (6th ed.). New York, NY: Worth Publishers.

- Plomin, R., DeFries, J.C., Knopik, V.S., & Neiderhiser, J.M. (2013). *Behavioral Genetics*. New York, NY: Worth Publishers.

**Assessment:** Essay (70%, 3000 words) and podcast (20%) in the MT.

Essay (10%) in the ST.

**Essay (70%) in MT** – You will produce a 3000 word essay answering a question. There will be a number of questions provided and students can choose which they'd like to answer.

**Podcast (20%) in MT** – Working in pairs you will develop a 6 to 8 minute podcast.

**Essay (10%) in ST** - Students following the BSc in Psychological and Behavioural Science will be expected to submit one 3000 word **'Integration Essay'** in their second year. The integration essay will count towards 10% of the final mark in PB200, PB201, PB202, PB204 and PB205. The integration essay will discuss a topic investigated in one course and use its approach to integrate and debate approaches from two other courses taken in Year 2. For example, if you choose to base your integration essay in Biological Psychology (this course) you will use a topic from this course as the basis for debating the treatment of that topic by theories from two of Cognitive Psychology (PB201), Developmental Psychology (PB202), Social Psychology: Individuals, Groups and Culture (PB204) or Individual Differences and Why They Matter (PB205).

## PB201 Half Unit

### Cognitive Psychology

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jens Madsen CON.3.19

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** This course will offer an account of core theories, debates and phenomena in Cognitive Psychology. It will cover essential aspects of cognitive psychology, ranging from phenomena concerned with 'low level' cognition such as attention and perception, through to 'high level' cognition such as reasoning

and decision making and consciousness, and will interweave areas that span levels such as knowledge representation, concepts and language processing. It will also relate these areas to core aspects of behavioural science, such as levels of processing, the influence of context, and the roles of heuristics and biases in information processing. The course will also seek to assess the application of these theories and concepts to relevant real world examples and policy issues via the class discussions. Students will become familiar with methods that can be used to explore a myriad of cognitive functions, will be faced with concrete modelling tasks and see the application of cognitive psychology for interventions such as policy changes, changes in economic boundary conditions, social pressure, political campaigns etc.

By the end of the course you should:

- Be able to critically appraise the philosophy, history and development of Cognitive Psychology.
- Be able to generate and critique computational and dynamic models
- Be able to critically assess methodological and conceptual limitations of interventions in complex systems
- Be able to relate these areas to core aspects of behavioural science.
- Be able to assess the application of these theories and concepts to real world examples.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 20 hours across Michaelmas Term. There is a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Students will complete a number of pieces of formative course to cement learning and prepare for summative assessments:

- Develop a summary and lead a discussion in one class.
- Develop a plan for the presentation, including details of what will be included in the slides and handout.

**Indicative reading:**

- Eysenck, M. & Keane, M. (2015). *Cognitive Psychology: A Student's Handbook*. (7th ed). Hove: Psychology Press.
- Gazzaniga, M. S., Ivry, R. B., Mangun, G. R. (2014). *Cognitive Neuroscience: The Biology of the Mind*. (4th ed.) New York, NY: W.W. Norton
- Gilbert, N. (2008) *Agent-Based Models*. Los Angeles, CA: SAGE
- Gluck, M. A., Mercado, E. & Myers, C. E. (2016). *Learning and Memory*. (3rd ed.). New York, NY: Worth
- Goldstein, E. B. (2017). *Sensation and Perception* (10th ed.). Boston, MA: Cengage Learning

- Marr, D. (2010) *Vision*. Cambridge, MA: MIT Press
- Oaksford, M. & Chater, N. (2007) *Bayesian Rationality: The probabilistic approach to human reasoning*. Oxford: Oxford University Press

**Assessment:** Essay (10%) in the ST.

Group presentation (70%) and other (20%) in the MT.

**Group Presentation (70%) in MT** – You will work in groups to record a 15 minute presentation and develop a handout. You will be expected to submit the recording, slides and a handout.

**Other (20%) in MT160**- You will write a 1000 Op-Ed on a topic from the course.

**Essay (10%) in ST** - Students following the BSc in Psychological and Behavioural Science will be expected to submit one 3000 word **'Integration Essay'** in their second year. The integration essay will count towards 10% of the final mark in PB200, PB201, PB202, PB204 and PB205. The integration essay will discuss a topic investigated in one course and use its approach to integrate and debate approaches from two other courses taken in Year 2. For example, if you choose to base your integration essay in Cognitive Psychology (this course) you will use a topic from this course as the basis for debating the treatment of that topic by theories from two of Biological Psychology (PB200), Developmental Psychology (PB202), Social Psychology: Individuals, Groups and Culture (PB204) or Individual Differences and Why They Matter (PB205).

## PB202 Half Unit

### Developmental Psychology

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Miriam Tresh CON.3.14

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** This course will cover core approaches and phenomena in developmental psychology. It will begin by framing developmental psychology by reference to core explanatory approaches to development and outlining key theories, perspectives and frameworks. It also covers a range of central empirical areas of development, illustrating the ways in which the major theories explain, or fail to explain, the phenomena in those areas. The course is also concerned with locating psychological development in a wider cultural and societal context, including the relations between typical and atypical development and considers developmental psychology as a paradigm for understanding and interpreting real-world issues.

By the end of the course you should:

- Be able to critically appraise the philosophy, history and development of Developmental Psychology.
- Have a broad understanding of major classical theoretical approaches.
- Have a broad understanding of core explanatory approaches to development.
- Be able to locate psychological development in wider context.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 20 hours across Lent Term. There is a reading week in Week 6 of Lent.

**Formative coursework:** Students will complete a number of pieces of formative work to cement learning and prepare for summative assessments.

- Complete three weekly learning logs
- Practice visual design
- Develop a short case study

- Slater, A. & Bremner, J. G (Eds) (2011) *An Introduction to Developmental Psychology*. 2nd Edition, Chichester: Wiley-Breakwell.

**Assessment:** Essay (10%) in the ST.

Research proposal (70%) and visual media (20%) in the LT.

**Research Proposal (70%) in LT** – you will produce a 3000 word

research proposal which identifies a real-world problem and proposes how it can be examined from the perspective of theories, frameworks and methods discussed in the course.

**Visual Media (20%) in LT** – You will produce a visual representation of your research proposal on an A5 postcard.

**Essay (10%) in ST** - Students following the BSc in Psychological and Behavioural Science will be expected to submit one 3000 word '**Integration Essay**' in their second year. The integration essay will count towards 10% of the final mark in PB200, PB201, PB202, PB204 and PB205. The integration essay will discuss a topic investigated in one course and use its approach to integrate and debate approaches from two other courses taken in Year 2. For example, if you choose to base your integration essay in Developmental Psychology (this course) you will use a topic from this course as the basis for debating the treatment of that topic by theories from two of Biological Psychology (PB200), Cognitive Psychology (PB201), Social Psychology: Individuals, Groups and Culture (PB204) or Individual Differences and Why They Matter (PB205).

## PB204 Half Unit

### Social Psychology: Individuals, Groups and Culture

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Bradley Franks CON.3.07

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** This course builds core knowledge of Social Psychology, studying the way our thinking and behaviour is influenced by the actual, imagined or implied presence of other people. It aims to understand how thinking and behaviour depends on the connections between individuals, the groups of which they are members and the cultural settings of both. These are all understood in evolutionary context. The lectures and classes will discuss a range of social psychology topics, such as social cognition, self and identity, prejudice, group membership, crowds and collective behaviour, and social exclusion. Each topic will highlight the relations between real world problems, social psychological theory and empirical data, and draw connections to behavioural science. This course will foster a critical evaluation of social psychological science and its relation to other areas of psychological and behavioural science.

By the end of the course you should:

- Be able to present core theories and phenomena in social psychology.
- Be able to demonstrate that social psychology should be understood as both a social science and a natural science.
- Be able to draw connections between social psychology and real-world policy.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 20 hours across Michaelmas Term. There is a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Students will complete a number of pieces of formative work to cement learning and prepare for summative assessments:

- Group presentation on the topic of the week and its application to social issues.
- Plan for policy proposal.
- Practice executive summary.

#### Indicative reading:

- Van Lange, P.A.M., Kruglanski, A. W., & Higgins, E.T., (Eds.) (2012) *Handbook of theories of social psychology: Volume 2*. London: Sage.

**Assessment:** Essay (10%) in the ST.

Other (20%) and proposal (70%) in the MT.

**Other (20%) in MT** - You will produce a short, non-technical, **Executive Summary** of your proposal. This will be no more than 500 words.

**Proposal (70%) in MT** - Using theories and phenomena from the course you will propose a policy or project for an organisation (e.g. charity, for profit, non-profit) to address a social issue.

**Essay (10%) in ST** - Students following the BSc in Psychological and Behavioural Science will be expected to submit one 3000 word '**Integration Essay**' in their second year. The integration essay will count towards 10% of the final mark in PB200, PB201, PB202, PB204 and PB205. The integration essay will discuss a topic investigated in one course and use its approach to integrate and debate approaches from two other courses taken in Year 2. For example, if you choose to base your integration essay in Social Psychology: Individuals, Groups and Culture (this course) you will use a topic from this course as the basis for debating the treatment of that topic by theories from two of Biological Psychology (PB200), Cognitive Psychology (PB201), Developmental Psychology (PB202) or Individual Differences and Why They Matter (PB205).

---

## PB205 Half Unit

### Individual Differences and Why They Matter

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jet Sanders CON.3.08

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** This course offers insight into the nature of differences in the psychological processes of individuals and the implications of such variation for behaviour and behaviour change. While most policies are designed with the 'average citizen' in mind, we know there is large variety between people's thoughts, choices and behaviour. More recently, these differences are leveraged to personalise behavioural intervention, advertising and political communication to target specific 'segments' of the population with the aim to enhance results. This course digs deeper into the psychological and behavioural assumptions which underlie how individuals behave collectively and individually in the wider societal context. Sample topics include how individual traits affect cognitive performance, how ideological preferences and voting patterns can be traced to individual and group variation, whether there is use in mapping personality, grit, perfectionism or motivation, and the ethical implications of applying these insights in behaviour change contexts. We will consider sources of individual variation from the micro-level (e.g. behavioural genetics) to the macro-level by aligning content to sustainability goals (e.g. political decision outcomes, global health and climate change communications or resource distribution). Ultimately, the goal is to understand why and how people differ in their enduring patterns of thinking, feeling and behaving across contexts, and what this means for contemporary societies.

By the end of the course you should:

- Understand the emotional, biological and social underpinnings of systematic psychological variation between individuals.
- Understand the theoretical and methodological approaches used to capture such variation in thinking, feeling and behaviour.
- Understand the implications of such variation in thinking, feeling

and behaviour in a wider societal context.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 20 hours across Lent Term. There is a reading week in Week 6 of Lent Term.

**Formative coursework:** Students will complete a number of pieces of formative work to cement learning and prepare for summative assessments:

- Complete a weekly peer- and self- reviewed annotated bibliography.
- Develop an outline for a 2-page POSTnote supported by 1605 samples of annotated bibliography.

**Indicative reading:**

- Rose, T (2017) *The End of Average: How to Succeed in a World That Values Sameness* London: Penguin
- Bryan, C.J., Tipton, E. & Yeager D.S. (2021) Behavioural Science is unlikely to change the world with a heterogeneity revolution *Nature* 5(8) 980-989

**Assessment:** Essay (10%) in the ST.

Report (70%) and annotated bibliography (20%) in the LT.

**Report (70%) in LT** – You will produce a POSTnote.

**Annotated Bibliography (20%) in LT** - You will write a thematically annotated bibliography to support your POSTnote.

**Essay (10%) in ST** - Students following the BSc in Psychological and Behavioural Science will be expected to submit one 3000 word '**Integration Essay**' in their second year. The integration essay will count towards 10% of the final mark in PB200, PB201, PB202, PB204 and PB205. The integration essay will discuss a topic investigated in one course and use its approach to integrate and debate approaches from two other courses taken in Year 2. For example, if you choose to base your integration essay in Individual Differences and Why They Matter (this course) you will use a topic from this course as the basis for debating the treatment of that topic by theories from two of Biological Psychology (PB200), Cognitive Psychology (PB201), Developmental Psychology (PB202) or Social Psychology: Individuals, Groups and Culture (PB204).

---

## PB230

### Intermediate Statistics and Research Methods for Psychological and Behavioural Science

**This information is for the 2022/23 session.**

**Teacher responsible:** To be confirmed

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students must have completed Statistics and Research Methods for Psychological and Behavioural Science (PB130).

**Course content:** This course aims to provide students with integrated core knowledge and skills in contemporary research and analysis methods in psychological and behavioural science. Specific core methodological tools for preregistering and collecting data will be presented in lectures, selected to reflect parallel theoretical issues raised in PB200 Biological Psychology, PB201 Cognitive Psychology, PB202 Developmental Psychology, PB204 Social Psychology: Individuals, Groups and Culture, and PB205 Individual Differences and Why They Matter.

This course presents conceptual and practical knowledge on the range of tools available to the psychological/behavioural scientist. In particular, this course will examine current controversies and new developments in research methods in psychology and behavioural science. The overall goal of the course is to learn to think critically about how psychological and behavioural science is conducted, how conclusions are drawn, and how data are appropriately analysed considering intermediate issues such as measurement error and clustering. We will cover both methodological and statistical issues that affect the validity of research in psychology, with an emphasis on psychological and behavioural sciences. We will also discuss the recent controversy

in psychology about the replicability of scientific results and preregistration of both quantitative and qualitative research. The course also instructs students in the use of quantitative data collection methods, including surveys, experiments, assessment tools, and computerised tasks. It also covers principles and issues involved in the analysis of quantitative data, including the importance of transparency in data analysis and reporting. Where statistics are concerned, this course presents students with knowledge of, and practical exposure to, statistical modelling. It covers linear and non-linear models, factor analysis, structural equation modelling, multilevel modelling, and intermediate issues in data cleaning and imputation. These topics build directly on from the introduction to the linear model students received in PB130. Throughout the course, an understanding of key concepts such as statistical power and effect sizes will be emphasised in line with current controversies regarding replicability and questionable research practice. Practical sessions will equip students with knowledge of how to conduct the taught statistical techniques using the R programming language.

By the end of the course you should:

- Be able to situate recent trends in open science in the context of psychological enquiry.
- Have practical experience of collecting and analysing psychological and/or behavioural data.
- Understand statistical methods needed to conduct intermediate data analyses.
- Understand intermediate methods of qualitative enquiry.

**Teaching:** This course is delivered through a combination of lectures, workshops, lab sessions and classes totalling a minimum of 62 hours across Michaelmas Term and Lent Term. There is a reading week in Week 6 of both Michaelmas Term and Lent Term.

**Formative coursework:** Students will complete a number of pieces of formative work to cement learning and prepare for the summative assessments:

- Practice a pre-registration report
- Complete a number of statistics worksheets

**Indicative reading:**

- American Psychological Association (2020). *Publication manual of the American Psychological Association*. (7th ed.) Washington DC: APA
- Braun, V., & Clarke, V. (2013). *Successful qualitative research: A practical guide for beginners*. London: Sage.

- Tabachnick, B., & Fidell, L. (2013). *Using multivariate statistics*. Boston, MA: Pearson Education.

**Assessment:** Report (50%) in the MT.  
Exercise (50%) in the LT.

**Report (50%) in MT** – You will develop a pre-registered report assignment of around 3500 words.

**Exercise (50%) in LT** – You will undertake a secondary data analysis comprising three tasks. The combined write up will be 3500 words.

## PB300

### Advances in Psychological and Behavioural Science

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Liam Delaney CON.4.07 and Dr Miriam Tresh CON.3.14

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** This course will offer an advanced-level account of applying psychological and behavioural science to real world issues. The course is delivered as four distinct but interlinked blocks.

We will start by re-examining and developing our understanding of the intellectual foundations behind behavioural and psychological science, this will be an opportunity not only to re-consider what was covered in Year 1 and Year 2 in the round but also to develop your depth of understanding. Topics include schools of thought, ethics and interdisciplinarity. In the second block we relate these intellectual foundations to real-world issues. During this block you should expect other faculty from the department to join us and present on their areas of expertise. The specific topics will be relevant and timely and thus will change each year; in previous years they have included COVID-19 and the psychological and behavioural underpinnings of pandemic relevance; Artificial Intelligence; and Mental Health. We'll also consider the key issue of scalability and the importance of culture in understanding the impacts of behavioural interventions.

The third and fourth blocks run concurrently. In the third block we will examine real world examples of how behavioural and psychological science has been integrated into policy. The specific topics here will be driven by your interests – we will attempt to find experts in areas that you want to know more about. You should expect to hear from both faculty and professional experts from large organisations around the world. The fourth block sees us look at the process of integrating theory into policy, we do this through the lens of NGBS, our fictitious not-for-profit consultancy firm. We'll talk about how such organisations work, the professional roles available and the type and scopes of projects. The assessments see students applying to work for NGBS and then working on a project.

Throughout the course there will be regular opportunities for synthesis, recap, review and reflection.

By the end of the course you should:

- Have an in-depth understanding of recent advances in psychological and behavioural science.
- Be able to critically appraise the evidence base, tools, and impact of select recent studies.
- Have an in-depth understanding of how psychological and behavioural science link to the other social sciences and the real world.
- Understand how to apply and integrate theories in the real world.

**Teaching:** This course is delivered through a combination of lectures, classes and workshops totalling a minimum of 42 hours across Michaelmas, Lent and Summer Term. There is a reading week in Week 6 of both Michaelmas and Lent Terms.

**Formative coursework:** Students will complete a number of pieces of formative work to cement learning and prepare for summative assessments:

- Plan for Showcase Portfolio
- Preparation for the Simulation exercise (either meeting minutes or a summary of your group's research)

**Indicative reading:**

- Cialdini, R. (2016). *Pre-Suasion: A Revolutionary Way to Influence and Persuade*. New York: Random House.
- Halpern, D. (2015). *Inside the Nudge Unit: How small changes can make a big difference*. London: W H Allen.
- Lewis, A. (Ed.) (2012). *The Cambridge Handbook of Psychology and Economic Behaviour*. Cambridge: CUP.
- Oliver, A. (Ed.) (2013). *Behavioural Public Policy*. Cambridge: CUP.

**Assessment:** Portfolio (50%) in the LT.

Group exercise (50%) in the ST.

**Portfolio (50%) in LT** – You will develop a showcase portfolio on CampusPress which will be used to apply for a role at NGBS. The portfolio should have two components; a curated set of artefacts and a 3000 word rationale articulating how the artefacts show your key insights and skills. The artefacts can be chosen from your summative submissions in Year 1, 2 and 3 or formative work from Year 3.

**Group Exercise (50%) in ST** – As a group, you will prepare for and take part in a simulation day. The simulation will see you work, in your roles as professionals at NGBS, to produce a white paper and presentation that addresses a clients project request. The simulation will take place during summer term, in London.

## PB301 Half Unit Not available in 2022/23

### Cognition and Culture

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Bradley Franks QUE.3.03

**Availability:** This course is available on the BSc in Psychological and Behavioural Science. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course discusses the relations between cognition and culture using evolutionary perspectives. The course is therefore suitable for students enrolled in other programmes who wish to enrich their understanding by drawing on detailed understanding of the psychological and cultural processes that underpin thought and behaviour, and to locate them in an evolutionary setting.

**Pre-requisites:** Students should have taken Foundations of Behavioural Science (PB100) **or** Foundations of Psychological Science (PB101).

**Course content:** This course will offer students an overview of key theoretical approaches and debates concerning the relations between cognition and culture as they are related to evolution. The course will compare and contrast accounts that emphasise the role of mental adaptations with those that emphasise the role of cultural evolution. It will do so via a consideration of a range of empirical domains, such as categorisation, theory of mind, sense of self and religion. Students will be encouraged to integrate the ideas from the course with their wider learning in psychological and behavioural sciences, and to consider the application of those ideas to real world cases and problems.

The course will include topics such as:

- Relating Cognition and Culture via Evolution
- Thinking about the Natural World
- Thinking about the Social World
- Thinking about (Other) Minds: theory of Mind
- How Thoughts are Expressed: Language and Thought
- How Thoughts Get Around: Cultural Transmission
- Thinking about Ourselves: Self and Identity
- Thinking about Ultimate Things: Religion
- Culture and Special-Purposeness
- Relativity and Universals

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** 1. Essay in the LT  
2. Take-home multiple choice quiz in the LT  
3. Group-based presentation in the LT

**Indicative reading:** Dunbar, R. I. & L. Barrett (Eds.). (2007). *Oxford handbook of evolutionary psychology*. Oxford: Oxford University Press.

Haidt, J. (2012). *The Righteous Mind: Why Good People Are Divided by Politics and Religion*. Pantheon

Henrich, J. (2016). *The secret of our success: How culture is driving human evolution, domesticating our species, and making us smarter*. Princeton, NJ: Princeton University Press.

Kitayama, S., & Cohen, D. (Eds.) (2007). *Handbook of Cultural Psychology*. New York: Guilford Press.

Kurzban, R. (2011). *Why everyone (else) is a hypocrite: Evolution and the modular mind*. Princeton, NJ: Princeton University Press.

Laland, K. N. and Brown, G. R. (2002). *Sense and Nonsense: Evolutionary Perspectives on Human Behaviour*. Oxford University Press

Nisbett, R. L. (2003). *The Geography of Thought*. Free Press.

Richerson, P. J., & Boyd, R. (2005). *Not by Genes Alone: How culture transformed human evolution*. Chicago: University of Chicago Press.

Students will be expected to read essential readings plus additional reading from the primary literature per class. These readings will be provided in the course outline.

**Assessment:** Essay (100%, 2500 words) in the LT.

## PB302 Half Unit Not available in 2022/23

### Creativity and Innovation

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Alex Gillespie

**Availability:** This course is available on the BSc in Psychological and Behavioural Science. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course examines the social and psychological basis of creativity and innovation. The course is therefore suitable for students enrolled in other programmes who wish to enrich their understanding by drawing on detailed understanding of the psychological and cultural processes that underpin thought and behaviour.

**Pre-requisites:** Students should have taken Foundations of Psychological Science (PB101) **or** Foundations of Behavioural Science (PB100).

**Course content:** The course will cover the social conditions (i.e., face-to-face or online, one-to-one or group, autocratic or democratic, specialisation or integration, etc.) conducive to creativity and innovation, including the social conditions for socialisation creative individuals and the social and institutional factors which enable productive novelty to be recognised and instituted. Specific topics will include: theories of creativity, play & imagination, insight and problem solving, identifying good ideas, materiality, cultural evolution, the resistance to innovation, user innovation, utopias and how people imagine the future.

The course will include topics such as:

- Defining creativity and innovation
- Approaches to creativity
- Social interaction and creativity
- Creative problem solving
- Expansive and double-loop learning
- User innovation and feedback
- Resistance to innovation
- Evaluating ideas
- Play and imagination
- Utopias and imagining the future

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** 1. Take-home multiple choice quiz in the LT  
2. Essay in the LT  
3. Group presentation in the LT

**Indicative reading:** Kaufman, J. C., & Sternberg, R. J. (2010). *The Cambridge handbook of creativity*. Cambridge University Press. (especially history (chapter 1), theories (chapter 2), assessment (chapter 3), organizational creativity (chapter 8), developmental approaches to creativity (chapter 12), and functional creativity (chapter 16) and individual and group creativity (chapter 19))

Bechtoldt, M.N., De Dreu, C.K., Nijstad, B.A., and Choi, H.S. (2010). Motivated information processing, social tuning, and group creativity. *Journal of Personality and Social Psychology*, 99(4), 622.

Maddux, W.W., and Galinsky, A.D. (2009). Cultural borders and mental barriers: The relationship between living abroad and

creativity. *Journal of Personality and Social Psychology*, 96(5), 1047-1061.

Mainemelis, C. (2010). Stealing fire: Creative deviance in the evolution of new ideas. *Academy of Management Review*, 35(4), 558-578.

Paulus, P.B. and Yang, H.C. (2000). Idea generation in groups: A basis for creativity in organisations. *Organisational Behaviour and Human Decision Processes*, 82(1), 76-87.

Zittoun, T. & Gillespie, A. (2016). *Imagination in human and cultural development*. London: Routledge.]

Students will be expected to read essential readings plus additional reading from the primary literature each class. These readings will be provided in the course outline.

**Assessment:** Essay (100%, 2500 words) in the LT.

## PB303 Half Unit

### Organisations, Groups and Identity

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Ilka Gleibs CON.4.13 and Prof Bradley Franks CON.3.07

**Availability:** This course is available on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** In any society and any successful organisation, understanding group dynamics and identity processes and how they are connected to the individual is an essential element.

This understanding often provides a competitive advantage in managing organisations of all types. Thus, the dynamics within and between groups directly informs the ability of individuals to think, learn, and innovate together. This course provides students with a critical understanding of the different theories and practices associated with identity and group dynamics in organisational settings and beyond.

This course aims to highlight how a better understanding of key social and organisational psychological concepts can contribute to understanding and managing the effectiveness of groups.

Examples of topics that will be covered include: Why group dynamics?; influence and power; identity and inclusion; collective behaviour; importance of groups on mental and physical health; performance and decision-making; diversity management; organisational change; group dynamics and the internet.

By the end of the course you should:

- Understand past and present theories of identity and group dynamics by introducing concepts used by social psychologists and behavioural scientists to understand and improve group behaviour.
- Be able to apply and critically evaluate how identity and group dynamics theories help us to explain and predict real-life experiences.
- Be able to demonstrate how understanding key social psychological and behavioural science concepts can contribute to understand the effectiveness of groups in various settings.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 25 hours across Lent Term. There is a reading week in Week 6 of Lent term.

Lectures will be delivered jointly with PB425, an MSc level course in the department. Classes will be specific for undergraduate students.

**Formative coursework:** For each major and minor assessment option there is an equivalent piece of formative coursework. These are designed to help students to prepare for the summative assessments.

#### Formative coursework to support minor assessment

- Draft script for presentation
- Draft script for podcast
- Proposal for poster
- Proposal for visual media

#### Formative coursework to support major assessment

- Draft proposal for policy case study

- Outline of essay
- Draft parliamentary POSTnote and annotated bibliography
- Draft blog post and Draft Op-ed

#### Indicative reading:

- Brown, R. & Peherson, S. (2019). *Group processes: Dynamics within and between groups*. Oxford: Blackwell
- Forsyth, D. R. (2019). *Group dynamics*. (7th ed.). Boston, MA: Cengage Learning
- Haslam, S.A., (2004). *Psychology in Organisations. A Social Identity Approach* (2nd ed.). London: Sage
- Levi, D. (2017). *Group dynamics for teams* (5th ed.). Los Angeles: Sage

**Assessment:** Assignment (30%) in the LT.

Assignment (70%) in the ST.

Students will choose ONE minor and ONE major assessment from the lists below:

#### Minor Assessment (30%, due at the end of Lent Term)

- 10 minute recorded presentation
- 10 minute podcast
- A1 poster
- A5 visual media

#### Major Assessment (70%, due at the start of Summer Term)

- 3000 word Policy Case Study comprised of Executive Summary (250 words) and Proposal (2500 words)
- 3000 word Essay
- 1500 word parliamentary POSTnote with 1000 word annotated bibliography
- 1500 word blog post AND 1500 word Op-ed

## PB304 Half Unit

### Organisational and Social Decision-Making

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Tom Reader

Prof Bradley Franks CON.3.07

**Availability:** This course is available on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** This course teaches theory and engages with research from the field of organisational and social decision-making. It is primarily focused on complex organisational contexts shaped by scarce resources, high uncertainty and high consequences for failure. The course provides a historical introduction to decision-making and introduces the core concepts used by social psychologists to understand (and improve) decision-making processes in organisations. It draws upon the social, cognitive and organisational psychology literatures, and considers the core concepts and tools used to understand, research, and support decision-making in organisations. These theories and tools are contextualized through empirical and case study examples taken from domains such as humanitarian operations, healthcare and finance.

Students will be encouraged to take a critical perspective, and to consider how the principles taught on the course can be applied to (and used to improve) a variety of social or organisational scenarios. The course will cover psychology (or 'Human Factors') concepts such as: intuitive and analytical forms of decision-making; individual traits and cognitive factors that influence decision-makers (e.g. biases and emotions); human error and decision-failures; rule breaking; and group decision-making processes (e.g. teamwork and leadership). It will teach methods for analysing decision errors, identifying decision-making competencies, observing decision-making, and supporting group decision processes.

By the end of the course you should:

- Understand the topic of organisational and social decision-making, and to demonstrate its importance.
- Be informed about the core theories and concepts used by psychologists to understand and explain decision-making in organisational and social settings and to relate them to theories

in behavioural science.

- Be able apply this understanding in order to understand how decision-making processes influence outcomes in organisational and social settings.
- Have reviewed methods and approaches used to research real-life decision-making in psychology and behavioural science.
- Have explored the psychological and behavioural science tools and techniques for improving organisational and social decision-making processes.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 20 hours across Lent Term. There is a reading week in Week 6 of Lent term. Lectures will be delivered jointly with PB427, an MSc level course in the department. Classes will be specific for undergraduate students.

**Formative coursework:** For each major and minor assessment option there is an equivalent piece of formative coursework. These are designed to help students to prepare for the summative assessments.

**Formative coursework to support minor assessment**

- Draft script for presentation
- Draft script for podcast
- Proposal for poster
- Proposal for visual media

**Formative coursework to support major assessment**

- Draft proposal for policy case study
- Outline of essay
- Draft parliamentary POSTnote and annotated bibliography
- Draft blog post and Draft Op-ed

**Indicative reading:**

- Bazerman, M. & Moore, D. (2009) *Judgement in Managerial Decision-Making*. Hoboken, NJ: Wiley
- Brown, R. (2000) *Group Processes: dynamics within and between groups*. Oxford: Blackwell
- Furnham, A. (2005). *The Psychology of Behaviour at Work*. Hove: Psychology Press

**Assessment:** Assignment (30%) in the LT.

Assignment (70%) in the ST.

Students will choose ONE minor and ONE major assessment from the lists below:

**Minor Assessment (30%, due at the end of Lent Term)**

- 10 minute recorded presentation
- 10 minute podcast
- A1 poster
- A5 visual media

**Major Assessment (70%, due at the start of Summer Term)**

- 3000 word Policy Case Study comprised of Executive Summary (250 words) and Proposal (2500 words)
- 3000 word Essay
- 1500 word parliamentary POSTnote with 1000 word annotated bibliography
- 1500 word blog post AND 1500 word Op-ed

## PB307 Half Unit

### Consumer Psychology for Sustainability

This information is for the 2022/23 session.

**Teacher responsible:** Prof Bradley Franks CON.3.07 and Dr Liora Moskovitz CON.3.20

**Availability:** This course is available on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** The course will address the psychology of consumption at different levels of analysis: individual, group and societal. It will ground this psychology in the relevant literature, and teach you the field's foundational theories, allowing you to develop a mental model of human behaviour as it relates to consumption. This is not a standard marketing or consumer research course. It is not about brand territories and market shares, but about how understanding various psychological processes in conjunction with

these forces can provide us with tools to improve the world. How can we leverage consumer psychology to solve our sustainability problem?

By the end of this course you should:

- Be able to present the social psychology of consumption at different levels of analysis: individual, group and societal level.
- Be able to relate this to core psychology and behavioural science.
- Be able to use the above to explain phenomena classically described in marketing and consumer science.
- Have explored innovative research methods, theories and business models relating to sustainability and consumption.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 30 hours across Lent Term. There is a reading week in Week 6 of Lent term.

Lectures will be delivered jointly with PB417, an MSc level course in the department. Classes will be specific for undergraduate students.

**Formative coursework:** For each major and minor assessment option there is an equivalent piece of formative coursework.

These are designed to help students to prepare for the summative assessments.

**Formative coursework to support minor assessment**

- Draft script for presentation
- Draft script for podcast
- Proposal for poster
- Proposal for visual media

**Formative coursework to support major assessment**

- Draft proposal for policy case study
- Outline of essay
- Draft parliamentary POSTnote and annotated bibliography
- Draft blog post and Draft Op-ed

**Indicative reading:**

**Assessment:** Assignment (30%) in the LT.

Assignment (70%) in the ST.

Students will choose ONE minor **and** ONE major assessment from the lists below:

**Minor Assessment (30%, due at the end of Lent Term)**

- 10 minute recorded presentation

- 10 minute podcast
- A1 poster
- A5 visual media

#### Major Assessment (70%, due at the start of Summer Term)

- 3000 word Policy Case Study comprised of Executive Summary (250 words) and Proposal (2500 words)
- 3000 word Essay
- 1500 word parliamentary POSTnote with 1000 word annotated bibliography
- 1500 word blog post AND 1500 word Op-ed

## PB308 Half Unit

### Social Psychology of Economic Life

This information is for the 2022/23 session.

**Teacher responsible:** Prof Bradley Franks CON.3.07 and Dr Frederic Basso CON.4.10

**Availability:** This course is available on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** The idea of a social psychology of economic life is not obvious. From the point of view of mainstream economics, economic life – usually understood as the production, distribution, and consumption of goods and services – is under the scope of economics. As a mathematical science, economics is, to some extent, a rejection of social and psychological dimensions in the analysis of economic life. As the “queen of social sciences”, mainstream economics was even considered by some authors as the framework (the so-called “economic imperialism”) for studying social and psychological processes out of the economic life. Yet, some of the most important advances over the last four decades in the understanding of human economic behaviour (and its link to some of the most pressing societal issues nowadays) are derived from concepts and methods of psychology and other social sciences.

This course presents how social psychology (broadly interpreted to include micro-sociology, cultural anthropology and social neuroscience) is the key to understanding real-world economic life by taking into account cognitive, affective and social processes, and also to contributing to better solutions to societal problems. By the end of the course you should:

- Understand economic theories and key relevant phenomena in everyday life.
- Have considered the limitations of economic theories from the perspective of social psychology.
- Be able to relate the above to psychology and behavioural science.
- Have explored solutions to the limitations inspired by social psychology and behavioural science.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 25 hours across Lent Term. There is a reading week in Week 6 of Lent term. Lectures will be delivered jointly with PB431, an MSc level course in the department. Classes will be specific for undergraduate students.

**Formative coursework:** Students will be expected to produce 1 other piece of coursework and 1 other piece of coursework in the LT.

For each major and minor assessment option there is an equivalent piece of formative coursework. These are designed to help students to prepare for the summative assessments.

#### Formative coursework to support minor assessment

- Draft script for presentation
- Draft script for podcast
- Proposal for poster
- Proposal for visual media

#### Formative coursework to support major assessment

- Draft proposal for policy case study
- Outline of essay
- Draft parliamentary POSTnote and annotated bibliography

- Draft blog post and Draft OpEd

#### Indicative reading:

- Lea, S., Tarpy, R.M. & Webley, P. (1987) *The Individual in the Economy: a textbook of economic psychology*, Cambridge: Cambridge University Press
- Lewis, A., Webley, P. & Furnham, A. (1995) *The New Economic Mind: The social psychology of economic behaviour*. Hemel Hempstead: Harvester
- Lewis, A. (ed.) *The Cambridge Handbook of Psychology and Economic Behaviour* Cambridge: Cambridge University Press
- Webley, P., Burgoyne, C., Lea, S. & Young, B. (2001) *The Economic Psychology of Everyday Life*. Hove: Psychology Press

**Assessment:** Assignment (30%) in the LT.

Assignment (70%) in the ST.

Students will choose ONE minor **and** ONE major assessment from the lists below:

#### Minor Assessment (30%, due at the end of Lent Term)

- 10 minute recorded presentation
- 10 minute podcast
- A1 poster
- A5 visual media

#### Major Assessment (70%, due at the start of Summer Term)

- 3000 word Policy Case Study comprised of Executive Summary (250 words) and Proposal (2500 words)
- 3000 word Essay
- 1500 word parliamentary POSTnote with 1000 word annotated bibliography
- 1500 word blog post AND 1500 word Op-ed

## PB310

### Independent Research Project

This information is for the 2022/23 session.

**Teacher responsible:** To be confirmed

**Availability:** This course is compulsory on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

The BSc in Psychological and Behavioural Science is accredited by the British Psychological Society. Students will be eligible for Graduate Basis for Chartered Membership if they gain a lower second classification (2:2) overall and pass this course.

**Pre-requisites:** Students should have taken Year 1 and Year 2 of the BSc in Psychological and Behavioural Science, which provide the necessary knowledge and skills to undertake guided independent research.

**Course content:** The Independent Research Project is an empirical investigation, carried out by students under supervision. Research topics and methodologies vary considerably, but must relate to Psychological and Behavioural Science as broadly understood. All research topics will need to be approved in advance by a supervisor who is a faculty member of the Department of Psychological and Behavioural Science.

The final lectures in PB230, Intermediate Statistics and Research Methods for Psychological and Behavioural Science, will serve as an introduction to the Independent Research Project. After this, students will be presented with the research interests and skills of supervising faculty. Students will then decide on potential topics during the summer vacation, ready to start work in early Michaelmas Term of Year 3. Faculty can supervise both qualitative and quantitative projects.

Supervisors will meet regularly with students individually and as groups to; guide the formulation of the research question and investigative methods, complete pre-registration, plan a timeline, develop reading lists, obtain ethical approval, and provide feedback on the research as it unfolds.

Students should see the project as much as an exercise in project management as it is an investigation. Throughout the process, attention should be given to replicability and transparency.

**Teaching:** Supervisors will offer regular sessions and each student will be expected to meet with their supervisor at least twice in

Michaelmas term and twice in Lent term. Supervision sessions will be available both individually and within groups.

After the introduction at the end of PB230, there will be two 2-hour lectures in Year 3 which are designed as check-in points. There will also be regular support sessions available with staff from the Behavioural Lab for Research and Teaching to assist with the planning and completion of experimental work.

**Formative coursework:** To ensure continued progress throughout the year students will be expected to:

1 Draft a timeline and discuss this with their supervisor in MT

2 Write a short summary of progress on the research in LT

**Indicative reading:**

- American Psychological Association. (2020). *Publication manual of the American psychological association* (7th Edition).
- Bernard, H. R. (2000) *Social Research Methods: Qualitative and quantitative approaches*. 160 London: Sage. 160
- Dittmann, M. (2005) Starting the dissertation *GradPsych* 2005(1)
- Flick, U. (2015) *Introducing Research Methodology: A Beginner's Guide to doing a research project* (2nd ed.). London: Sage.
- Harrison, E., & Rentzelas, P. (2020). *Your Psychology Dissertation*. London: Sage.
- Holman, A.J. & Jones, T. (2018) Identifying a Topic for a Psychology Dissertation: A Process Map for Students *Psychology Teaching Review* 24(1)
- Levin, P. (2005) *Excellent Dissertations* Maidenhead: Open University Press

**Assessment:** Project (80%) in the ST.

Report (20%) in the MT.

- **Report (20%) in LT:** Students will be required to submit a research compendium for their research at the end of Michaelmas Term.
- **Project (80%) in ST:** The final project will be due in early Summer Term. It will consist of two objects your report and your final research compendium. The report should be no more than 25 pages in APA style. The compendium should contain folders for methods, analysis (if you're doing a quantitative study), ethics and any appendices (data of quantitative study, transcripts if qualitative study, and any tools used). Only the report will be marked, but the compendium should be well populated for replicability and transparency.

## PB312 Half Unit

### Research Apprenticeship

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jens Madsen CON.3.19

**Availability:** This course is available on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

The number and type of apprenticeship places available each year will be governed by the research taking place in the department of Psychological and Behavioural Science

We will do our best to provide apprenticeships to all students that wish to take this course but we may have to limit numbers. Where there are more students wanting to take the course than there are apprenticeships available places will be allocated on an application basis.

Once students have a place on the course, they will be asked to shortlist their three preferred apprenticeships and provide a statement explaining why they would like to work in these labs. As far as possible, we hope to allocate students to one of their three choices. However, this may not always be possible; in these cases we will use the statements provided to inform our decisions.

**Pre-requisites:** Students must have completed Statistics and Research Methods for Psychological and Behavioural Science (PB130) and Intermediate Statistics and Research Methods for Psychological and Behavioural Science (PB230).

**Course content:** This course offers students at the advanced stages of the BSc in Psychological and Behavioural Science to gain experience working as a research apprentice in an active research

'lab' within the department. Some labs will host one apprentice, some may host several. Research Apprenticeships offer students a hands-on introduction to research in the department.

A lab can be anything from a qualitative study; to an analysis of real-world data; to the development of a theory or concept; to an experimental investigation taking place in the Behavioural Lab for Teaching and Research. A lab is distinct from a project in that it introduces rigour, standards and will have appropriate checks and balances.

For each lab, an induction session will introduce the student(s) to the research topics and approach of the lab. After this, structured research training sessions will teach the student(s) the key skills and techniques needed to conduct the research. The student(s) will spend the bulk of their time providing research support; this may take the form of design and preparation of study materials, recruitment of participants, collection of data (e.g. through on-street surveys, running lab experiments, conduct of interviews/focus groups, online media analysis, etc.), and preparation of data for analysis. Where possible, students will also be exposed to training in how the data collected during their time in the lab will be analysed. The student(s) are expected to attend all lab meetings, during which research ongoing in the lab is presented and discussed.

The goal of this course is to help students learn the skills needed to conduct successful research by taking part in the day-to-day tasks of a PBS lab. Students will benefit from structured mentoring and feedback from experienced researchers.

**Teaching:** The 'teaching' on this course will involve active training and participation in an ongoing lab. The specific activities will vary from one lab to another, but they will typically involve an introductory session, several lab meetings and training sessions. You should expect to spend the equivalent of ten term weeks as an apprentice. Given the nature of this course, the exact start and finish times, and how much time is required each week will vary between labs. As an indication, we expect most apprenticeships to start around the middle of Michaelmas Term and finish around the middle of Lent Term.

Students will spend the bulk of their time working on structured research tasks.

**Formative coursework:** During the apprenticeship students will need to complete two pieces of formative work. This is designed to cement the training that the student will receive and prepare them for the summative assessments:

- Write a summary of a key text, discussing its implications for the lab's research.
- Develop a piece of work support the chosen second assessment (draft of the research report; proposal for the poster; draft of the literature review / annotated bibliography; draft of the further research proposal; plan for the presentation).

**Indicative reading:** Readings appropriate to the research topic of the labs will be provided by the lab lead(s) at the start of the course. Readings are specific to the labs offering this course, and will cover core readings on the theory, findings & research approaches pertinent to the lab in question.

**Assessment:** Learning log (50%) and assignment (50%) in the LT.

**Learning Log (50%) in LT:** You will maintain a research diary during your apprenticeship.

**Assignment (50%) in LT:** For the second assessment, students will choose one assessment from the list below to demonstrate the outcome of the lab and/or the potential for future research. Students should work with the lab lead to ascertain the best type of assessment for their lab.

- Research Report of between 2000 and 3000 words.
- A1 Poster.
- Literature Review and/or annotated bibliography of between 2000 and 3000 words.
- Further research proposal of between 2000 and 3000 words.
- Recorded Presentation of between 10 and 15 minutes.

**PB314 Half Unit****Behavioural Science in an Age of New Technology**

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Bradley Franks CON.3.07 and Dr Dario Krpan CON.4.08

**Availability:** This course is available on the BSc in Psychological and Behavioural Science. This course is not available as an outside option nor to General Course students.

**Course content:** When Psychology and Economics got "married", the product was Behavioural Science. Although this discipline has elevated theoretical and practical understanding of human behaviour to previously unseen heights, recent technological developments have produced new insights in understanding and predicting people's actions that not only supplement traditional tools of behavioural science but also go beyond them. The future of the discipline will therefore likely depend on how effectively behavioural scientists can harness new developments in technology to understand and change the way people act. The course will tackle behavioural science in relation to motion tracking, virtual environments, social robotics, social networks, and other relevant developments in information technology.

By the end of the course you should:

- Understand major technological advancements that are relevant for predicting, influencing, and understanding human psychology and behaviour.
- Be able to outline how the above can supplement and extend commonly used tools of behavioural change.
- Have examined how a wide range of technological developments can be used to propel psychological and behavioural science into the future.
- Have investigated whether new technologies merely allow behavioural scientists to scale up traditional tools of behavioural change, or whether they produce new insights that can result in novel tools of behavioural change previously unknown to behavioural scientists.

**Teaching:** This course is delivered through a combination of lectures and classes totalling a minimum of 20 hours across Lent Term. There is a reading week in Week 6 of Lent term.

Lectures will be delivered jointly with PB434, an MSc level course in the department. Classes will be specific for undergraduate students.

**Formative coursework:** For each major and minor assessment option there is an equivalent piece of formative coursework. These are designed to help students to prepare for the summative assessments.

**Formative coursework to support minor assessment**

- Draft script for presentation
- Draft script for podcast
- Proposal for poster
- Proposal for visual media

**Formative coursework to support major assessment**

- Draft proposal for policy case study
- Outline of essay
- Draft parliamentary POSTnote and annotated bibliography
- Draft blog post and Draft OpEd

**Indicative reading:**

- Krpan, D., & Urbanik, M. (2020). From Libertarian Paternalism to Liberalism: Behavioural Science and Policy in an Age of New Technology. *Behavioural Public Policy* 1-27
- Kosinski, M., Stillwell, D., & Graepel, T. (2013). Private traits and attributes are predictable from digital records of human behavior. *Proceedings of the National Academy of Sciences*, 110(15), 5802-5805.
- Sailer, M., Hense, J. U., Mayr, S. K., & Mandl, H. (2017). How gamification motivates: An experimental study of the effects of specific game design elements on psychological need satisfaction. *Computers in Human Behavior*, 69, 371-380.
- Broadbent, E. (2017). Interactions with robots: The truths we reveal about ourselves. *Annual Review of Psychology*, 68, 627-652.

**Assessment:** Assignment (30%) in the LT.

Assignment (70%) in the ST.

Students will choose ONE minor **and** ONE major assessment from the lists below:

**Minor Assessment (30%, due at the end of Lent Term)**

- 10 minute recorded presentation
- 10 minute podcast
- A1 poster
- A5 visual media

**Major Assessment (70%, due at the start of Summer Term)**

- 3000 word Policy Case Study comprised of Executive Summary (250 words) and Proposal (2500 words)
- 3000 word Essay
- 1500 word parliamentary POSTnote with 1000 word annotated bibliography
- 1500 word blog post AND 1500 word Op-ed

**PH103****The Big Questions: An Introduction to Philosophy**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Marius Backmann for MT and LT, and Dr Giacomo Giannini for ST

**Availability:** This course is compulsory on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available on the BA in Social Anthropology, BSc in Economic History and Geography, BSc in International Relations, BSc in International Social and Public Policy, BSc in Politics, BSc in Politics and International Relations, BSc in Psychological and Behavioural Science, BSc in Social Anthropology and BSc in Social Policy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** None

**Course content:** At some point in our lives, we are all gripped by deep and fundamental questions. Questions about life, the universe and everything. Philosophers aim to make progress on these questions with clear and precise arguments. In this course, some of the big questions we may address include:

- (1) Do I know anything?
- (2) Who am I?
- (3) What is consciousness?
- (4) What is truth?
- (5) What are space and time?
- (6) Do I have free will?
- (7) What's the right thing to do?
- (8) What's the best form of government?
- (9) How can I live a meaningful life?

No one has definitive answers to these questions. But understanding the possible answers, and the arguments for and against them, is what philosophy is all about.

By grappling with these questions, you will learn the essential skills of a philosopher. First, you will develop your ability to read philosophical texts, focusing on how to extract and present a philosophical thesis and argument in a clear, logical way. Second, you will develop your thinking skills and analytical abilities by participating in philosophical discussions with your peers. Finally, you will develop your ability to construct philosophical arguments of your own by writing philosophy essays.

The questions of this course are some of the hardest that have ever been asked. We can't promise that you'll feel any closer to knowing the answers at the end of the course than you did at the beginning. But this course will help you understand the big questions, and to think about them in a reflective, philosophical way.

**Teaching:** 10 hours of lectures and 15 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

In addition to the regular class content, the 90 minutes long MT

classes will also provide you with practical advice and exercises to improve your writing style.

This course is delivered through a combination of classes and lectures totalling a minimum of 45 hours across Michaelmas Term and Lent Term. This course includes a reading week in Week 6 of Michaelmas and Lent Term.

**Formative coursework:** Students will be expected to write three pieces of formative coursework during the year.

**Indicative reading:** The readings will be articles and excerpts from books and will be made available via Moodle.

**Assessment:** Essay (40%, 1500 words) and essay (40%, 1500 words) in the ST.

In-class assessment (10%) in the MT and LT.

Exercise (10%) in the LT.

You will be assessed in class throughout the year using short-answer questions.

You will revise one of your formative essays according to the feedback from your class teacher and, if available, your peers.

This revised formative essay will be accompanied by a 750 word **reflective commentary** explaining how feedback and participation in learning activities enabled you to improve your essay. The mark for this summative assignment will depend only on the quality of the reflective commentary.

## PH105 Half Unit

### Historical and Global Perspectives on Philosophy

This information is for the 2022/23 session.

**Teacher responsible:** Dr Marie Milofsky

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The traditionally received Western-centric canon as a narrative history of philosophy does not respect the true complexity of the global history of philosophical inquiry. We explore some of the global diversity by focussing on specific topics that are relevant to research and teaching within the philosophical tradition of the Department of Philosophy at LSE and provide a historical and multicultural perspective on them. We will draw from the multitude of philosophical traditions and schools around the globe, aiming to incorporate ones that have heretofore been largely neglected. Topics discussed in this course may include the following:

- Introduction – We introduce the students to the history and philosophy of the “history of philosophy”. In particular, we ask how it was that the received narrative of philosophy as a direct succession from the pre-Socratics to Russell and Frege, or to Heidegger, became established? How, when, and why did the narrow focus on European, and later North American philosophy, come about? And how should we seek to construct an intellectually richer, but necessarily messier and more complicated, inclusive history of philosophy? We aim to provide a rich historical perspective on either individual philosophical issues or on specific traditions and how they intersect.

This will be followed by sections featuring historical perspectives on various topics, such as the following:

- Political Philosophy: In contemporary political philosophy, the liberal tradition with its emphasis on the preservation and protection of individual rights and freedoms has been highly influential. We can contrast this perspective, by, for instance, consulting classical Greek texts such as Plato’s “Republic”, and its argument against democracy, and classical Chinese works such as Confucius’s or Zhuangzi’s.
- Epistemology: A concern in Western philosophy has been the quest for certainty and the attempt to refute the sceptic.

Exploring, for instance, Descartes’ foundationalism of the “Meditations” or Hume’s sceptical solution from “An Enquiry Concerning Human Understanding”, it will prove illuminating to also examine, e.g., Mary Shepherd’s proposed solution to the problem of induction, or the first formulation of a reliabilist framework in the Nyaya Sutra.

- Philosophy of Mind: Desartes’ views on mind-body dualism, which are still influential in the western mind-body debate can, e.g., be contrasted with Elisabeth of Bohemia’s arguments against mental causation. Contemporary arguments for mental epiphenomenalism could, e.g., be contrasted with the 18th century Ghanian philosopher Anton Wilhelm Amo’s view of reverse epiphenomenalism from “The Apathy of the Human Mind”.
- Early Analytic Philosophy. The Department is a singular school in the sense that it developed out of a fairly specific philosophical tradition. It will prove useful for students to engage with some of the works of our department’s founding figures. Popper’s “The Logic of Scientific Discovery” and Lakatos’s “The Methodology of Scientific Research Programmes” will provide the students with valuable insight into the development of their own department. Alongside their work, it is useful to highlight the work of early analytic philosophers whose contributions to the development of analytical philosophy are often neglected, such as, for instance, Susan Stebbing’s.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. No meetings will take place in reading week (Week 6).

**Formative coursework:** Students will be expected to produce 1 essay and 1 exercise in the LT.

Each student will write 1 formative essay of 1500 words, and will answer one short answer question to get acquainted with this form of assessment. Each student will receive feedback before turning in their summative work.

**Indicative reading:**

- Aristotle: *Nicomachean Ethics*, ed. by Roger Crisp (ed./trans.). Cambridge, 2000: Cambridge University Press.
- Anne Conway: *The Principles of the Most Ancient and Modern Philosophy*, ed. by Allison P. Coudert and Taylor Course. Cambridge Texts in the History of Philosophy. Cambridge, 1996: Cambridge University Press.
- René Descartes: *Meditations on First Philosophy: With Selections from the Objections and Replies*, trans. Michael Moriarty. Oxford 2008: Oxford University Press.
- David Hume: *A Treatise of Human Nature*, ed. by David F. Norton and Mary J. Norton. Oxford Philosophical Texts. Oxford, 2000: Oxford University Press.
- Mengzi: *With Selections from Traditional Commentaries*, ed. by Bryan W. Van Norden. Hackett Publishing Company, Inc. 2008.
- Christia Mercer, “Descartes’ debt to Teresa of Avila, or why we should work on women in the history of philosophy.” *Philosophical Studies* 174 (10): 2539-2555, 2017
- Uma Narayan & Sandra Harding (eds.): *Decentering the Center: Philosophy for a Multicultural, Postcolonial, and Feminist World*. Bloomington, IN 2000: Indiana University Press.
- Plato: *The Republic*, ed. by G.R.F Ferrari, trans. by Tom Griffith. Cambridge 2000: Cambridge University Press.
- Karl R. Popper: *The logic of scientific discovery*. Routledge classics. London 2005: Routledge.
- Eric Schliesser, (ed.): *Ten Neglected Classics of Philosophy*. Oxford 2016: Oxford University Press.

**Assessment:** Essay (70%, 1500 words), in-class assessment (10%), class participation (10%) and exercise (10%) in the LT.

There is no exam for this course. Each student will write an essay of 1500 words, which constitutes 70% of the mark. Each student will answer 6 short answer questions, 5 of which will be part of the summative assessment, contributing 10% of the mark. A feedback exercise in which the students practice acting on the feedback received on their formative essay will be worth 10%. The remaining 10% will be assessed through class participation.

## PH111 Half Unit Introduction to Logic

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Laurenz Hudetz

**Availability:** This course is compulsory on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available on the BSc in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** Arguments and inferences play a fundamental role in almost all areas of human life and society. For example, a scientist will test a theory by reasoning that if that theory is true then some other claim, one that can be checked experimentally, must be true as well. Or a politician will defend a policy by putting forward an argument in favour of it and criticising counterarguments. More mundanely, we reason, argue and draw inferences all the time and our actions are guided by the conclusions we draw. We are so used to this that we are often not even aware of it.

Logic is the study of arguments and inferences – it therefore has an enormously broad scope. Its main task is to give an explicit characterisation of those arguments and inferences that are valid (and hence differentiate them from those that are invalid). Logic tells you exactly when some conclusion follows from some premises and when it does not. It turns out that most arguments we encounter in everyday life are far from the ideal of logical validity. However, good philosophers and scientists should be able to devise arguments satisfying that ideal. This skill can also be of great advantage in fields such as law or public policy.

We train this skill based on classical theories of logical consequence. Among other things, the course provides rigorous answers to the following questions.

- 1 What exactly are arguments and inferences and which quality criteria should they satisfy?
- 2 Under what conditions is an argument or inference logically valid?
- 3 How can one demonstrate that an argument or inference is valid?
- 4 How can one demonstrate that an argument or inference is not valid?

The course begins with a simple system called sentential or propositional logic, which despite its simplicity captures a significant range of important arguments. The course then focuses on (first-order) predicate logic, which is much more powerful and provides the logical basis for analysing a great variety of arguments and theories.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. This course is delivered following a flipped learning approach. There are online lecture videos that students can watch in their own time. The timetabled lecture slot is used for Q&A sessions with the lecturer. The classes are used to discuss solutions to the weekly problem sets. Class attendance is mandatory. This course includes a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Formative coursework will take the form of problem sets and online quizzes. Students are required to complete problem sets before the associated class and to be ready to present and discuss their answers in class. Online quizzes serve as continuous formative assessment.

**Indicative reading:** There will be comprehensive lecture slides and materials covering the entire course content. Indicative background readings include:

- Button, T. and Magnus, P.D. (2017): forall x: *Cambridge*, URL= <<http://www.homepages.ucl.ac.uk/~uctytbu/OERs.html>>
- Copi I.M., Cohen, C. and McMahon K. (2014): *Introduction to Logic*. Pearson.
- Salmon, M.H. (2013): *Introduction to Logic and Critical Thinking*. Wadsworth.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

## PH112 Half Unit Intermediate Logic and Probability

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Wesley Wrigley

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed, or be in the process of completing PH111 Introduction to Logic.

**Course content:** This course aims to familiarise students with intermediate topics in logic (building on PH111 Introduction to Logic). It focuses on concepts and theories that are useful for a deeper understanding and critical analysis of claims and arguments in contemporary philosophical research and in the social and natural sciences.

### The art of defining

The modern theory of definitions offers a precise definition of 'definition' as well as rigorous criteria for checking whether a definition is formally correct. The skill of defining in a correct way can hardly be overestimated in areas such as philosophy, science, law and public policy. It prevents misunderstandings and can drastically improve the clarity of concepts, claims and arguments. It is particularly important for philosophers because many philosophical questions require definitions as answers (e.g., 'What is knowledge?', 'What is truth?', 'What is a just society?', 'Under which conditions is an act morally wrong?').

### Set theory and model theory

Scientists often use mathematical structures to model real-world systems and to predict or explain their behaviour. Model theory is the study of mathematical structures from a logical point of view. It rests on set theory, which can be viewed as the foundation of modern mathematics. Students will be introduced to core concepts of set theory and model theory that help to better understand the formal architecture of scientific theories and models.

### Possible world semantics

Classical logic only deals with truth-functional logical connectives (e.g., 'not', 'and', 'or'). However, there are also non-truth-functional connectives which play a central role in philosophical and scientific reasoning. Prime examples are counterfactual conditionals ('if A were the case, then B would be the case') and modal notions (such as 'it is possible that A' and 'it is necessary that A'). But what exactly is the meaning of these notions? In other words: how could a semantics for such non-truth-functional connectives look like? This course introduces students to the basic ideas of possible world semantics.

### Probability theory and inductive logic

In the case of a deductively valid inference, it is utterly impossible that the conclusion is false when the premises are true. However, many inferences we draw in practice do not satisfy this ideal of validity. Often, it is only improbable that the conclusion is false given that the premises are true. In such cases, the premises support the conclusion to some degree, but their truth would not guarantee the truth of the conclusion. For example, it does not follow logically from the premise that someone smokes 40 cigarettes a day (together with background medical theories and data) that they will die early from smoking-related illness – but it is much more probable that they will than if they did not smoke. Inductive logic is the systematic study of inferences of that type. Students will be introduced to the fundamentals of inductive logic and probability theory.

**Teaching:** 15 hours of lectures and 10 hours of classes in the LT. This course includes a reading week in Week 6 of Lent Term.

**Formative coursework:** Formative coursework will take the form of problem sets and online quizzes. Students are required to complete problem sets before the associated class and to be ready to present and discuss their answers in class. Online quizzes serve as continuous formative assessment.

**Indicative reading:** There will be comprehensive lecture materials covering the entire course content. Indicative background readings include:

- Gupta, A. (2015): "Definitions", *Stanford Encyclopedia of Philosophy*, URL=<<https://plato.stanford.edu/entries/definitions/>>.
- Fitelson, B. (2006): "Inductive Logic", Sarkar, Sahotra and Jessica Pfeifer (eds.), *The Philosophy of Science: An Encyclopedia*, Routledge.
- Hodges, W. and Scanlon, T. (2018): "First-order Model Theory", *Stanford Encyclopedia of Philosophy*, URL=<<https://plato.stanford.edu/entries/modeltheory-fo/>>.
- Papineau, D. (2012): *Philosophical Devices: Proofs, Probabilities, Possibilities and Sets*. OUP.
- Salmon, M.H. (2013): *Introduction to Logic and Critical Thinking*. Wadsworth.
- Sider, T. (2010): *Logic for Philosophy*. OUP.
- Skyrms, B. (2010): *Choice and Chance: An Introduction to Inductive Logic*. Fourth edition. Wadsworth

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

## PH201

### Philosophy of Science

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Miklos Redei

**Availability:** This course is compulsory on the BSc in Philosophy, Logic and Scientific Method. This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** Science is chock full of miraculous predictions, shocking revolutions, and unexpected results that few science fiction writers could have ever dreamed of. What makes science so special? This course is a tour of the philosophical underpinnings of modern science. No background in any science is needed for this course; everything you need to know will be covered.

Indicative topics include: Theory and Observation: Hume's problem of induction and Goodman's new riddle of induction, Popper's falsificationism, underdetermination of theory by evidence, the positive instance account of confirmation, Bayesianism. Laws of Nature: the regularity view of laws, laws as universals, the best systems account, instrumentalism. Explanation: the DN model of explanation, statistical explanation, causal explanation. Intertheory relations: reductionism and pluralism. Realism versus Antirealism: Scientific realism and antirealism, the no miracles argument, inference to the best explanation, the pessimistic meta-induction, reductive empiricism, constructive empiricism, the natural ontological attitude, entity realism, structural realism, Kuhn and scientific revolutions. Models: scientific modelling and scientific representation. Science and social context: values, constructivism, feminism, operating modes of science. Causation: Hume's, Mill's, Mackie's accounts of causation, manipulability accounts.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This year, some or all of this teaching will take place online.

**Formative coursework:** Students will be expected to write four essays (two in MT and two in LT), answer short-answer-questions before each class, and participate in class discussion.

**Indicative reading:** P Godfrey-Smith: *Theory and Reality: An Introduction to the Philosophy of Science*. C Hitchcock (editor): *Contemporary Debates in Philosophy of Science*.

**Assessment:** Essay (50%, 1500 words) in the MT.

Essay (50%, 1500 words) in the LT.

Students are expected to produce 1 summative essay in MT and 1 summative essay in LT.

## PH203

### Philosophy of the Social Sciences

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Kate Vredenburg

**Availability:** This course is available on the BSc in Economic History and Geography, BSc in International Relations, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** No formal pre-requisites, but PH103 *The Big Questions: An Introduction to Philosophy* or equivalent is recommended.

**Course content:** This course examines philosophical problems of social science concerning what societies are like and how scientists theorize about them. The first part of the course will focus on questions of scientific method about the nature of understanding and the kind of knowledge the social sciences should, or can, aim for; as well as on questions of ontology pertaining to the nature of the social world. The overarching goal is to provide an intellectual geography of the philosophy of the social sciences, to which students will refer in the second part of the course when specific philosophical issues will be closely analysed and discussed. Contents to be covered in the second term will be structured around three main themes: action, rationality and intelligibility; institutions, culture, and the relationship between mind and society; and the moral aims of the social sciences, as well as their role in just social change.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

This year, some or all of this teaching will take place online.

**Formative coursework:** Students will be expected to write one formative essay in Michaelmas term, and one formative essay in Lent Term. Class presentations or weekly activities may also be required, depending on the pedagogical approach of the class teacher.

**Indicative reading:** A detailed reading list will be provided at the beginning of the course. Indicative readings include: Nancy Cartwright and Elinora Montuschi (eds.), *Philosophy of the Social Sciences: a new introduction*; Harold Kincard, John Dupré, and Alison Wylie (eds.), *Value-Free Science: Ideals and Illusions*; Jon Elster, *Explaining Social Behaviour*; John H. Miller and Scott Page, *Complex Adaptive Systems*; Dawn Langan Teele, *Field Experiments and Their Critics: Essays on the Uses and Abuses of Experimentation in the Social Sciences*; Alex Rosenberg, *Philosophy of Social Science (Fifth edition)*; Harold Kincaid, *Philosophical Foundations of the Social Sciences*; Daniel Steel and Francesco Guala (eds.), *The Philosophy of Social Science Reader*; Michael Martin and Lee McIntyre (eds.), *Readings in the Philosophy of Social Science*.

**Assessment:** Essay (50%, 2000 words) in the MT and LT.

Essay (50%, 2000 words) in the LT and ST.

Summative assessment for PH203 will consist of two essays, one about a topic taught in Michaelmas, and the other about a topic covered in Lent Term. Students will complete a formative assignment that term to prepare for the summative, e.g., an extended outline, and received feedback.

## PH214

### Philosophy, Morals and Politics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Lewis Ross

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to

General Course students.

**Pre-requisites:** None.

**Course content:** The course will cover key topics in **moral and political philosophy**.

The course addresses questions such as the following: What sacrifices are we required to make for the sake of others? Does it make a moral difference that a person is less well off than she could have been? Is it permissible to cause harm to others in order to prevent greater harm? What are the moral limits on harming others in self-defence? When and why is it legitimate for a state to inflict harm upon its subjects? When can we disobey the state? Can the moral status of our actions and the punishment we deserve be determined by factors outside our control? Is evolutionary theory a threat to our views about morality? Can the cultural circumstances in which we grow up absolve us of blame for bad beliefs?, what is the nature and justification of rights? Is redistributive taxation of earnings from labour on a par with forced labour? Is private property in land justified? Do moral questions have objectively correct answers? If one person believes torture is always wrong, while another person denies this, must one of these people be mistaken? Can such disagreements be resolved by rational argument and scientific investigation? Or are these merely 'matters of opinion', where one person's belief is no more or less 'true' than any other's? Can the members of one culture legitimately criticise the moral norms of another culture? If morality is not objective, does it follow that public policy should not be based on morality?

Some topics in other areas of moral and political philosophy may also be covered.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT.

**Indicative reading:** Thomson, J.J. 'Self-Defense', *Philosophy and Public Affairs* 20 (1991)

Otsuka, M. 'Killing the Innocent in Self-Defense', *Philosophy and Public Affairs* 23 (1994)

Quinn, W. 'Actions, Intentions and Consequences: The Doctrine of Doing and Allowing', *The Philosophical Review* 98 (1989)

Øverland, G. 'Moral Obstacles: An Alternative to the Doctrine of Double Effect', *Ethics* 124 (2014)

Parry, J. 'Defensive Harm, Consent, and Intervention', *Philosophy and Public Affairs* 43 (2017)

Geoff Sayre-McCord, 'Metaethics', *The Stanford Encyclopedia of Philosophy* <<http://plato.stanford.edu/archives/sum2014/entries/metaethics/>>

Matthew Chrisman, What is this thing called Metaethics?

Michael Smith, The Moral Problem;

J.L. Mackie, Ethics: Inventing Right and Wrong

Nozick, R. Anarchy, State and Utopia

Locke, J. Second Treatise of Government

Cohen, G. A., 'Nozick on Appropriation', *New Left Review*, no. 150 (1985)

Jefferson, T., Letter to James Madison (1789)

Boxill, B., 'Black Reparations', *Stanford Encyclopedia of Philosophy* (2015)

**Assessment:** Essay (45%, 2000 words), essay (45%, 2000 words) and class participation (10%).

This course will be assessed by two summative essays.

## PH217

### Set Theory and Further Logic

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Wesley Wrigley

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit

and to General Course students.

**Pre-requisites:** Introduction to Logic (PH111) with a grade of at least 65, or Mathematical Proof and Analysis (MA102) with a grade of at least 65, or MA103 Abstract Mathematics with a grade of at least 65. Taking PH112 before PH217 is recommended (but not required).

**Course content:** The aim of the course is to familiarize students of philosophy with the essentials of naive set theory and formal logic. From set theory, the course covers (i) what is needed for use in formal reasoning, and (ii) what is of philosophical interest (Russell Paradox, elementary theory of cardinals and ordinals, transfinite induction, Axiom of Choice, Continuum Hypothesis). From logic, it covers the basic metatheory of sentential and first-order predicate logic (up to the completeness theorems), continues with Gödel's famous incompleteness theorems concerning the limitations of mathematical provability and ends with exploring extensions of classical logic.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** In each term, students are required to submit solutions to two problem-sets, and write one essay on a topic selected from a list or proposed by the student and approved by the instructor.

**Indicative reading: Textbooks:** Cameron, Peter: *Sets, Logic and Categories* (Springer, 1999); Sider, Theodore: *Logic for Philosophy* (Oxford University Press, 2010). Specific sections of these texts that are relevant to weekly topics will be indicated in the detailed course description and in the Moodle page of the course.

**Additional reading:** Halmos, Paul: *Naive Set Theory* (Springer reprint 2011); Crossley, John: *What is Mathematical Logic?* (Dover reprint 1991); Goble, Lou ed.: *The Blackwell Guide to Philosophical Logic* (Blackwell, 2001); Boolos, G., Burgess, J., & Jeffrey, R.: *Computability and Logic* (Cambridge University Press, 2007).

Additional material on special topics will be made available on Moodle.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

## PH222

### Philosophy and Public Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Campbell Brown LAK 2.04

The course will be taught by Campbell Brown, Jonathan Parry, Johanna Thoma, and Alex Voorhoeve.

**Availability:** This course is compulsory on the BSc in Politics and Philosophy. This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method and BSc in Philosophy, Politics and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** The course offers critical reflection on the design and evaluation of public policies from the perspective of moral and political philosophy. To this end, we study a range of theories and concepts that are used in policy evaluation. We often discuss and evaluate them by focusing on specific policy proposals. The course addresses questions such as the following.

- What is a correct public measure of well-being?
- Should people be left to bear the consequences of their free choices?
- May the government force you to buy health insurance?
- Is torture ever justified?
- Do prosperous countries have a right to close their borders to immigrants from poor countries?
- Should hate speech be protected by freedom of speech?
- Should the development of new drugs be left to private companies rewarded by patent protection?
- What is the optimal population size and what policies may the state pursue in order to achieve it?
- Should higher education be financed by student loans or general

taxation?

- Should we be free to act as we choose so long as we do not harm others?
- How should we distribute the burdens of military service?
- Should children be given the vote?

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. 10 hours of lectures and 10 hours of classes in the LT. This course has a reading week in Week 6 of both MT and LT. Some lectures and/or classes may be delivered in an online format.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

**Indicative reading:** A detailed list of readings will be available on moodle. The following is an indicative sample of readings that may be discussed in the course.

- Greg Bognar and Iwao Hirose (2014). *The Ethics of Health Care Rationing*. Routledge.
- A. Voorhoeve (2018) 'May a Government Mandate More Comprehensive Insurance than People Want for Themselves?' *Oxford Studies in Political Philosophy*.
- Michael Rustin (2016), 'The neoliberal university and its alternatives', *Soundings*
- Ronald Dworkin et al (1997) 'Assisted Suicide: The Philosophers' Brief'
- Carol Kates (2004). 'Reproductive Liberty and Overpopulation' *Environmental Ethics*.
- Jonathan Wolff (2011), *Ethics and Public Policy: A Philosophical Inquiry*
- Joseph Carens (1987), 'Aliens and Citizens: The Case for Open Borders', *The Review of Politics*
- Jeff McMahan (2008), 'Torture in Theory and Practice', *Public Affairs Quarterly*
- Michael J. Robillard and Bradley J. Strawser (2016), 'The Moral Exploitation of Soldiers', *Public Affairs Quarterly*
- Annabelle Lever (2014), 'When the Philosopher Enters the Room', *Philosophy and Public Issues*

**Assessment:** Essay (45%, 2000 words), essay (45%, 2000 words) and class participation (10%).

## PH223 Half Unit

### Mind and Metaphysics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr. Alexandria Boyle

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed The Big Questions: An Introduction to Philosophy (PH103).

**Course content: Short description:**

Some central topics in metaphysics and the philosophy of mind, including existence; modality; properties; the metaphysics of consciousness and the mind-body relation.

**More detailed description:**

This course will cover selected key questions from metaphysics and the philosophy of mind. Topics include:

Metaphysics:

- Existence and Non-existence: what exists, and what does it mean to say that something exists or not? How can we talk intelligibly about something that does not exist? Why is there anything at all, rather than nothing?
  - Modality: what does it mean for something to be possible or necessary? In virtue of what is something possible or necessary?
  - Properties: what are properties? Can they be shared by many things at the same time? Can there be uninstantiated properties? How do they relate to the laws of nature?
- Philosophy of Mind:

a) The hard problem of consciousness: What is consciousness? How can we make sense of the emergence of human and animal minds against the background of a physical world? Can science answer that question?

b) Physicalism and its foes: Is the thesis that everything is ultimately grounded in physical processes defensible, or should we think that there is fundamental mental phenomena? Can mental states cause physical effects?

The emphasis will be on developing a sharp understanding of key concepts, arguments, and the logical relationships between different ideas, rather than providing an encyclopaedic historical or exegetical coverage. We aim to give students a conceptual toolbox for a rigorous analysis of some central philosophical questions in the areas of metaphysics and the philosophy of mind.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT.

**Formative coursework:** Students will be expected to participate actively in their classes and to write one formative essay. This may be a draft, or an essay plan, of the summative assignment.

**Indicative reading:** Quine, W. V. O. (1948). On What There Is  
Crane, T. *The Objects of Thought*  
Bernstein, S. Omissions as Possibilities.

Lewis, D. *On The Plurality of Worlds*

Vetter, B. Modality Without Possible Worlds

Lowe, E.J. *The Four-Category Ontology*

Armstrong, D.M. *A World of States of Affairs*

Chalmers, D. *The Conscious Mind*

Ney, A. Defining Physicalism.

Goff, P. *Consciousness and Fundamental Reality*

**Assessment:** Essay (80%, 2500 words) in the LT.

Class participation (10%).

Continuous assessment (10%) in the MT.

The assessment for this module will have three components.

The first is a 2500 words summative essay, counting for 80% of the final mark

The second is a class participation mark (10%)

The third consists of two weekly short answer questions, one on the material covered in the lecture, and one on the weekly class reading (10%).

## PH224 Half Unit

### Epistemology

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Anna Mahtani

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed, or be in the process of completing PH111 Introduction to Logic (or PH101/PH104).

**Course content:** Each of us represent the world as being a certain way. Perhaps we have knowledge about the world, or at any rate beliefs, or probabilities in certain possibilities. But how do we arrive at these representations? Do these representations reflect reality? And which conditions should they satisfy in order to be rational? Are perception, memory, testimony and intuitions reliable sources of information? The way that we represent the world affects the choices that we make, but how exactly do or should we arrive at decisions? These are some of the questions that we cover in this course on epistemology.

The first half of the course is an exploration of classic epistemology. We begin with the argument for skepticism about the external world, and in seeking to solve this problem we consider a range of positions and arguments in epistemology, including: the JTB account; the causal theory of knowing; reliabilism; internalism and externalism; contextualism and semantic externalism.

The second half of the course focuses on modern formal epistemology. Moving from a qualitative to a quantitative concept of belief, we explore Bayesian epistemology – a powerful account of rational degrees of belief or credence. We consider a series of puzzles for Bayesian epistemologists: the sleeping beauty problem; imprecise probabilities; awareness growth; and the surprise exam paradox.

Throughout, the aim will be to give a sharp understanding of key concepts, arguments, and the logical relationships between different ideas. We aim to give students a conceptual toolbox for rigorous analysis that can be applied to a range of areas.

**Teaching:** 10 hours of lectures, 10 hours of classes and 2 hours of workshops in the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading:** • Bertrand Russell, *The Problems of Philosophy*;

• Barry Stroud, *The Significance of Philosophical Scepticism*;

• Laurence Bonjour, *Epistemology: Classic Problems and*

*Contemporary Responses*, 2nd Edition;

• Brian Skyrms, *Choice and Chance*

**Assessment:** Essay (80%, 2000 words) in the period between MT and LT.

Exercise (10%) and class participation (10%) in the MT.

## PH225 Half Unit

### Business and Organisational Ethics

**This information is for the 2022/23 session.**

**Teacher responsible:** Mr Thomas Ferretti

**Availability:** This course is available on the BSc in Management, BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics, BSc in Politics and Philosophy, International Exchange (1 Term) and International Exchange (Full Year). This course is not available as an outside option. This course is available to General Course students.

**Course content:** This course is about philosophical and ethical issues arising in the conduct of business. There is a growing consensus that businesses should not merely focus on maximizing profit while respecting the Law, they should also take on ethical and social responsibilities beyond what is required by Law. The aim of this course is to give you intellectual tools to think clearly and rigorously about business ethics and corporate social responsibility.

You will learn about different ethical theories and apply them to a variety of real-world business challenges. You will also practice argumentative and writing skills that will help you express your thoughts in a rigorous and convincing way. Importantly, this course will not present you with a code of ethics, ready-made solutions or dogmatic answers. Instead, you will practice ethical reasoning, analytical skills, and critical thinking so that, towards the end of the course, you will be able to develop your own ideas and you will no longer be satisfied with simple answers to difficult problems.

The first half of the course (weeks 1-5) introduces important theories in business ethics and discusses best practices regarding executive compensations, sweatshop labour, environmental protection, and market failures. The second half of the course (weeks 7-11) applies these theories to new challenges in the context of emerging technologies such as value-alignment in artificial intelligence (AI), the protection of privacy in the workplace, human and algorithmic discrimination, and socio-economic inequalities resulting from digital platforms and automation.

Topics discussed in this course include:

- Are business executives' large compensation packages justified?
- Is Nike wrong to subcontract their production to sweatshops hiring workers in exploitative conditions?
- How to understand BP's environmental responsibility after the Deepwater Horizon oil spill?
- Can Facebook protect free speech while using artificial intelligence in content moderation?

- Should firms have an obligation to protect their workers' and customers' privacy?
- Can algorithmic bias lead to wrongful discrimination in hiring?
- Have platforms like Uber and Airbnb improved the market or have they created unfair inequalities?

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT.

This course has a reading week in Week 6 of LT.

**Formative coursework:** Students will be expected to produce one formative essay (1500 words) in the LT.

Students will be expected to answer weekly formative quizzes (required, unassessed).

**Indicative reading:** James Rachels and Stuart Rachels (2012) *The Elements of Moral Philosophy* (7th ed.), New York, NY: McGraw-Hill.

Milton Friedman (1970) "The Social Responsibility of Business is to Increase its Profits", *The New York Times Magazine*.

Joseph Heath (2014) *Morality, Competition, and the Firm: The*

*Market Failures Approach to Business Ethics*, Oxford: Oxford

University Press.

David Vogel (2005) *The Market for Virtue: the potential and limits*

*of corporate social responsibility*, Washington, D.C.: Brookings

Institution Press.

Matt Zwolinski (2007) "Sweatshops, Choice, and Exploitation",

*Business Ethics Quarterly* 17(4): 689-727.

Helen Nissenbaum (1998) "Protecting Privacy in an Information

Age: The Problem of Privacy in Public", *Law and Philosophy*, 17(5-

6): 559-596.

Cynthia Dwork (2018) "The Emerging Theory of Algorithmic

Fairness: The Challenges to Making Machines Play Fair", *The Royal*

*Society, You and AI conference series*.

Annette Zimmermann, Elena Di Rosa, Hohan Kim (2020)

"Technology can't fix Algorithmic Injustice", *Boston Review*.

Diane Coyle (2017) "Precarious and productive work in the digital

economy", *National Institute Economic Review* 240: 5-14.

Required readings amount to about two papers per week.

**Assessment:** Essay (50%, 2000 words) and essay (50%, 2000 words) in the ST.

## PH227 Half Unit

### Genes, Brains and Society

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Ella Whiteley

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This course examines, from a philosophical perspective, the ways in which recent developments in genetics and neuroscience challenge our conceptions of what we are – and what we could become.

Topics covered include:

**Human nature:** Does the concept of 'human nature' have any biological basis? Can we distinguish between those traits which are part of 'human nature' and those which are not? Should we attempt to improve human nature by means of technologies such as gene editing?

**Gender and the brain:** Are 'sex' and 'gender' the same thing? Are gender categories natural or social? Are there robust psychological differences between men and women? If so, are these 'hardwired' into the brain or the product of socialization? Are our brains either 'male' or 'female', or are they 'intersex'?

**Race and the genome:** Do races exist? Is there any objective biological basis for racial categorization, or are races socially constructed? Does the concept of 'race' have a legitimate role in medicine?

**Animals and people:** What is the evidence for animal sentience? What are the ethical issues surrounding the use of animals in biomedical research? If we could reduce animal suffering through

gene editing, should we? Do some non-human animals have 'personhood'?

**Right and wrong:** Should neuroscience inform the decision-making of our legal system? Can it be used to help us improve our own moral behaviour?

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. Lectures: Weeks 1-5 and 7-11  
Classes: Weeks 1-5 and 7-11

**Formative coursework:** Essay (1,500 words) in the MT.

**Indicative reading:** Suggested introductory readings:

- Glover, J. (2008) *Choosing Children*.
- Jordan-Young, R., (2010). *Brain Storm*.
- James, M. (2011) "Race", in the Stanford Encyclopedia of Philosophy [online]
- Greene, J. D. (2013) *Moral Tribes*.

**Assessment:** Essay (100%, 1500 words) in the LT. There is no exam for this half-unit. There will be one summative essay, worth 100% of the mark.

## PH230 Half Unit

### Einstein for Everyone: From time travel to the edge of the universe

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Bryan Roberts LAK 1.01

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** There are no prerequisites for this course; it is accessible to students of all backgrounds.

**Course content:** Does the universe have an edge? Is time travel possible? What is a black hole, and in what sense are space, time and gravity a matter of "geometry"? The modern theory of spacetime introduced by Einstein provides a precise framework in which to ask these questions. This course makes their analysis accessible to everyone.

Students will have the opportunity to engage with Einstein's theories of relativity, to use them to analyse philosophical problems, and to examine their philosophical and practical implications. Students will learn to apply these conceptual tools to the analysis of space, time and gravity, as well as to formulate and argue for their own perspectives on the philosophical implications of relativity theory.

One is often faced with unsubstantiated declarations about the implications of Einstein's theories, by both scientists and non-scientists. This course will equip non-scientists with the conceptual tools needed to critically analyse these claims for themselves. It will also provide students with the tools needed to discuss the philosophy of space and time from a modern perspective. Einstein for Everyone requires absolutely no background in physics or maths.

**Teaching:** 10 hours of lectures and 10 hours of classes in the MT. This year, some or all of this teaching will be delivered through a combination of virtual classes and flipped-lectures delivered as short online videos.

**Formative coursework:** Students will be expected to produce 1 problem sets and 1 other piece of coursework in the MT.

**Indicative reading:** - Norton, John D. (2015) *Einstein for Everyone*.  
- Hugget, Nick. (2010) *Everywhere and Everywhen: 160 Adventures in Physics and Philosophy*.  
- Einstein, Albert (1920) *Relativity: The special and general theory*.  
- Euclid (1908) *The Thirteen Books of Euclid's Elements*, Vol I.  
- Poincaré, Henri (1905) *Science and Hypothesis*.

Weekly essential readings will be provided on Moodle, selected individually from various book chapters and journal articles.

**Assessment:** Essay (100%, 3000 words) in the MT.

## PH232 Half Unit

### Physics and Uncertainty: From Quantum Jumps to Stock Market Crashes

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Bryan Roberts LAK 1.01

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** There are no prerequisites for this course; it is accessible to students of all backgrounds.

**Course content:** One of the most surprising discoveries of 20th century physics is that enormous progress can be made by embracing our uncertainty, and modelling it using probabilistic techniques. This powerful thinking led to discoveries like the first evidence of the atomic hypothesis, that the matter is made of tiny atoms moving randomly about. It also paved the way for the discovery of quantum mechanics, our best theory of matter and energy. These techniques even spilled outside of physics, into places like the social and financial world, where similar techniques were applied.

This course is about some of the philosophical issues underlying the physics of uncertainty, and the kinds of issues they raise for the natural and social sciences.

Students in this course will explore some of the important conceptual and philosophical questions underlying physics and finance, like: How are assumptions about randomness compatible with observed forms of determinism? How is it possible to seek truth using statistical theories? What does it mean to be an atom? How does the quantum world differ from the everyday world? What explains why physical models have unexpected applications in finance? To what extent do such applications help to underpin how the prices of financial instruments are set?

This course will proceed at a conceptual level that is suitable for students of all backgrounds: no background in physics is needed, and there is no advantage to having one.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. This year, some or all of this teaching will take place online.

**Formative coursework:** Students will be expected to produce 1 problem sets and 1 other piece of coursework in the LT.

**Indicative reading:** Weekly essential readings will be provided on Moodle, selected individually from various book chapters and journal articles. Some indicative readings include:

- MacKenzie, Donald. *An Engine Not a Camera*, excerpts.
- Malkin, Burton G. *A random walk down Wallstreet*, excerpts.
- Norton, John D. *Einstein for Everyone*, Chapters 34-37 on Brownian motion and the origins of quantum theory.
- Weatherall, James O. *The Physics of Wallstreet* (optional further reading)

**Assessment:** Essay (100%, 3000 words) in the ST.

## PH238 Half Unit

### Philosophy of Language

**This information is for the 2022/23 session.**

**Teacher responsible:** Mr Giacomo Giannini

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students taking this course should have taken a course in introductory logic such as PH111 (or PH101/PH104)

**Course content:** We use language all the time to express our thoughts and understand others. But how does language work? What is it that makes squiggles on a page, or strings of noises

meaningful? What are these meanings, and where do they come from? This is the starting point for an investigation into the Philosophy of Language.

Philosophers have been interested in language for centuries, and in the 20th and 21st century with the development of modern logic and the dawn of analytic philosophy, philosophy of language has taken a central role. Key questions covered in this course include: how do names refer to an object? Do words mean whatever we intend or use them to mean? What role does convention play in fixing meanings? Are our terms vague, or precise? Can a person have a private language? How do we communicate beyond the literal? What are speech acts and are they available to everyone in our society? All of these questions are of interest in their own right, and also have applications to further issues in philosophy and beyond.

**Teaching:** 10 hours of lectures, 10 hours of classes and 3 hours of workshops in the LT.

No meetings take place in reading week (week 6).

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:**

- Lycan, William G. (1999). *Philosophy of Language: A Contemporary Introduction*. Routledge.
- Kripke, Saul A. (1980). *Naming and Necessity*. Harvard University Press.
- Keefe, Rosanna (2000). *Theories of Vagueness*. Cambridge University Press.
- Wittgenstein, Ludwig (1953). *Philosophical Investigations*. Wiley-Blackwell.
- Grice, H. Paul (1975). *Logic and Conversation*. In Maite Ezcurdia & Robert J. Stainton (eds.), *The Semantics-Pragmatics Boundary in Philosophy*. Broadview Press. pp. 47.
- Langton, Rae & Hornsby, Jennifer (1998). *Free speech and illocution*. *Legal Theory* 4 (1):21-37.

**Assessment:** Essay (80%, 2000 words) in the period between LT and ST.

Exercise (10%) and class participation (10%) in the LT.

## PH239 Half Unit

### Anarchy, Authority and Evidence: Topics in Philosophy of Law

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Lewis Ross LAK 401

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This half-unit course considers a range of philosophical issues raised by the law. No prior legal knowledge is required. The first half of the course discusses big picture questions about the purpose and defensibility of law—for example, scrutinising the obligation to obey the law, the justification of punishment, and the circumstances in which we can engage in civil disobedience. The second half of the course focuses on legal questions of philosophical interest. An indicative list includes: When should a court consider something proven? How should the law use algorithms? Why should we defer to professional judges? Does it make sense to treat a corporation as morally responsible? Throughout the course, we explore the connection between legal philosophy and other areas of philosophy—especially moral philosophy, political philosophy, and epistemology.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Students will be expected to produce at least 1 (group) presentation and 1 piece of formative work in the MT.

Students will have the opportunity to submit a 1,500 word formative essay for feedback.

Students will have the opportunity to receive feedback on their summative essay plan.

There will be a student-led group debate for which feedback will be provided.

**Indicative reading:** Delmas, Candice (2018). *A Duty to Resist: When Disobedience Should Be Uncivil*. New York, USA: Oxford University Press.

Kropotkin, Petr (2015). *The Conquest of Bread*. Penguin.

Huemer, Michael (2012). *The Problem of Political Authority: An Examination of the Right to Coerce and the Duty to Obey*. Basingstoke: Palgrave Macmillan.

Nagel, Thomas (1976) *Moral Luck*. *Proceedings of the Aristotelian Society, Supplementary Volumes*. Vol. 50

Jorgensen, Renée (2020). The rational impermissibility of accepting (some) racial generalizations. *Synthese* 197 (6):2415-2431.

Hoskins, Zachary (2017). *Punishment*. *Analysis* 77 (3): 619–632.

**Assessment:** Essay (100%, 3000 words) in the ST.

The course will be assessed by a summative essay of 3,000 words, due early in ST.

## PH301

### Rationality and Choice

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Richard Bradley LAK2.03

**Availability:** This course is available on the BSc in Philosophy, Politics and Economics. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

**Pre-requisites:** Formal Methods of Philosophical Argumentation (PH104) or Intermediate Logic (PH112) Microeconomic Principles I (EC201), Microeconomic Principles II (EC202) or Microeconomics II (EC2A3)

**Course content:** This course introduces the three main components of rational choice theory: individual decision theory (including probability theory), game theory and social choice theory. Students will become familiar with the kinds of problems and solution techniques (the logical/mathematical machinery) that characterise these areas of rational choice. The primary aim of the course, however, is to philosophically examine the theories in question. To this end we examine the basic assumptions underlying the dominant decision and social choice models, and how these assumptions relate to the role(s) these models are supposed to play in various areas of philosophy (e.g. philosophy of science and ethics) and in the social sciences.

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

**Formative coursework:** Students will be expected to produce 2 essays and 2 problem sets in the MT and LT.

**Indicative reading:** Richard Jeffrey, *The Logic of Decision*, Michael Resnik, *Choices: an introduction to decision theory*, Martin Peterson *An Introduction to Decision Theory*, Amartya Sen *Collective Choice and Social Welfare*, Duncan Luce and Howard Raiffa *Games and Decisions*, Wulf Gaertner *A Primer in Social Choice Theory*, Ken Binmore, *Game Theory: A Very Short Introduction*

**Assessment:** Exam (40%, duration: 2 hours) in the summer exam period.

Coursework (30%) in the MT.

Coursework (30%) in the LT.

The final exam will contain short questions of a technical nature. Summative coursework will consist of a combination of essays and exercises.

**PH311****Philosophy of Economics**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Johanna Thoma

**Availability:** This course is compulsory on the BSc in Philosophy and Economics. This course is available on the BSc in Econometrics and Mathematical Economics, BSc in Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed a university-level introductory course in economics, such as EC1A3 and EC1AB. Although it is a third-year course, second-year students can take it with permission.

**Course content:** This course provides a philosophical discussion of (1) the methods and (2) the normative commitments of contemporary economics.

(1) Here the course will focus on economic methodology and the foundations of utility theory, with an eye to important current debates in economics. We will discuss questions such as: What is utility, and how do economists measure it? Does evidence of widespread 'irrationality' from behavioural economics undermine standard microeconomic theory? Can idealised models teach us anything about real-world phenomena? If yes, how? How should we measure important economic variables, such as inflation? How do we best find out what interventions work in development? Does macroeconomics need microfoundations? Is the economics profession to blame for its failure to predict the financial crisis?

(2) The second area of focus is on welfare economics, and the ethical assumptions and implications of economics. We will cover questions such as: Is getting what you want always good for you? Can you be harmed by something if you never know about it? Does it make sense to say that eating pizza gives me more happiness than going to the movies gives you? Is it possible to combine the preferences of individuals into an overall 'social' preference? Does it matter if the well-being of some people is less than that of others? When and why are markets desirable? Is paternalism always bad, and does welfare economics really avoid it? How should we resolve collective action problems? What is a fair way to distribute the tax burden?

**Teaching:** 15 hours of lectures and 10 hours of classes in the MT. 15 hours of lectures and 10 hours of classes in the LT.

This course is delivered through a combination of seminars and lectures totalling a minimum of 50 hours across Michaelmas Term and Lent Term. This course includes a reading week in Week 6 of both Michaelmas Term and Lent Term.

**Formative coursework:** Students will be expected to produce 2 essays in the MT and LT.

Students will be expected to produce two formative essays of 1,500 words, one each on the MT and LT material respectively. Note that both of these must be submitted since a reworked version is an essential part of the summative work for the course.

**Indicative reading:** D. Hausman, *The Philosophy of Economics: An Anthology*; J. L. Bermudez, *Decision Theory and Rationality*; J. Cohen and W. Easterly, *What Works in Development: Thinking Big and Thinking Small*; D. Hausman and M. McPherson, *Economic Analysis, Moral Philosophy, and Public Policy*; M. D. Adler, *Measuring Social Welfare: An Introduction*; D. Satz, *Why Some Things Should Not Be for Sale*.

**Assessment:** Essay (45%, 2500 words) in the LT.

Essay (45%, 2500 words) in the ST.

Class participation (10%).

Summative Essay 1 (2,000 words, +500 words reflective commentary, 45%, due in LT) is a rewritten version of the formative essay on the MT material.

Summative Essay 1 (2,000 words, +500 words reflective commentary, 45%, due in ST) is a rewritten version of the formative essay on the LT material.

Class participation counts for 10% of the course grade.

**PH333 Half Unit****Philosophy of Gender and Race**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr. Michael Diamond-Hunter

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Course content:** This half-unit examines, from a philosophical perspective, the nature of gender and race and the role these categories play in shaping the social world and structuring human lives.

Topics covered will include:

Gender and Biology: How does "gender" relate to "sex"? Is our concept of biological "sex" objective, and free from gender stereotypes and norms? Is our sex fixed or changeable?

Gender and Society: Is gender a matter of internal identity, or is it an externally-imposed social class? How does sexism intersect with other oppressions, like racism and transphobia?

Race and Society: How does the social meaning of "race" vary around the world? Should we try to reconcile "ordinary" conceptions of "race" with technical conceptions of "race"?

How should we understand the directionality and limits of racial classification?

The Future of Gender and Race: Will race and gender still exist in the future? Should we try to work for a race-free and gender-free world, or should these ways of classifying people be preserved?

We will focus on approaches to these questions from "analytic" philosophy, including feminist and race-critical approaches and approaches from the philosophy of science. The aim is to confront the big questions of gender and race by analysing and constructing careful and precise philosophical arguments.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. Students on this course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** Suggested introductory reading:

- Fausto-Sterling, 2000 [2020 New Edition]. *Sexing the Body: Gender Politics and the Construction of Sexuality*.
- Crenshaw, K., 1989. *Demarginalizing the Intersection of Race and Sex: A Black Feminist Critique of Antidiscrimination Doctrine, Feminist Theory and Antiracist Politics*.
- Bettcher, Talia, 2020. *Feminist Perspectives on Trans Issues*, *The Stanford Encyclopedia of Philosophy*.
- Appiah, Kwame Anthony, 2005. *The Ethics of Identity*.
- Lee, Sandra Soo-Jin, Koenig, Barbara K., and Richardson, Sarah S., (eds.) 2011. *Revisiting Race in a Genomic Age*
- Glasgow, J., Haslanger, S., Jeffers, C. and Spencer, Q., 2019. *What is Race?*
- Zack, Naomi, 1993. *Race and Mixed-Race. Morality of Race*.

**Assessment:** Essay (90%, 1500 words) in the ST.

Class participation (10%).

There is no exam for this half-unit. There will be one formative essay, and one summative essay. The summative essay is worth 90% of the final mark. 10% of the final mark will be awarded for class participation.

**PH340****PPE Research Seminar**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Johanna Thoma

**Availability:** This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside option nor to General Course students.

**Course content:** In this course, PPE students are placed in reading groups to discuss books by scholars working at the intersection of

Philosophy, Politics and Economics. Philosophy faculty guide their selection of books and subsequent reading and research on the book. Each group organizes a research seminar on their book or a related topic open to the wider LSE PPE community.

**Teaching:** 2 hours of lectures, 1 hour and 30 minutes of seminars and 15 hours of classes in the MT. 3 hours of seminars, 15 hours of classes and 2 hours of workshops in the LT. 1 hour and 30 minutes of seminars and 2 hours of workshops in the ST. No meetings take place in reading week (Week 6).

\*Note: Students will only be expected to attend 7.5 hours of classes either in MT or in LT, depending on which reading group they are assigned to. Students are also only expected to attend one Workshop, in the term following their classes.

**Formative coursework:** Students will be expected to produce 1 presentation and 1 exercise in the MT and LT.

Each student will lead the reading group discussion once, in the term in which their reading group takes place.

In addition, each student will be asked to write a 250 word abstract of the book review they would like to write. Students will be placed in small groups to write their book reviews on the basis of these abstracts.

**Indicative reading:** Examples of recent books appropriate for PPE reading groups:

- Elizabeth Anderson, *Private Government: How Employers Rule Our Lives (and Why We Don't Talk about It)* (2017)
- Kwame Anthony Appiah, *The Lies That Bind: Rethinking Identity* (2018)
- Anthony Atkinson, *Measuring Poverty Around the World* (2019)
- David Colander and Craig Freedman, *Where Economics Went Wrong: Chicago's Abandonment of Classical Liberalism* (2018)
- Robert Goodin and Kai Spiekermann, *An Epistemic Theory of Democracy* (2018)
- Kate Manne, *Down Girl: The Logic of Misogyny* (2017)
- Cailin O'Connor, *The Origins of Unfairness* (2019)
- Eric Posner and Glen Weyl, *Radical Markets: Uprooting Capitalism and Democracy for a Just Society* (2018)
- Robert Sugden, *The Community of Advantage* (2018)
- Paul Tucker, *Unelected Power: The Quest for Legitimacy in Central Banking and the Regulatory State* (2018)
- Philippe Van Parijs and Yannick Vanderborght, *Basic Income: A Radical Proposal for a Free Society and a Sane Economy* (2017)

The students will also get the chance to make their own proposals of books to read, which we will vet.

**Assessment:** Class participation (30%) in the MT and LT.

Group exercise (20%) in the MT, LT and ST.

Group essay (40%) and other (10%) in the LT and ST.

The overall grade the students will receive will be one of four: fail, pass, merit and distinction.

Participation (of which attendance is a crucial part) counts for 30% of the grade. 20% is for doing one's fair share in helping to organize one of the research seminars, assessed by a short written reflection on one's contribution. Students will be asked to produce a 3,000 word book review in small groups, which counts for 40% of the grade. A first draft will be peer reviewed and discussed at a feedback workshop. The student contribution to peer review will count for the final 10% of the grade (note that the book review is not peer assessed, that is, other students' feedback will not directly affect a group's grade for the book review).

---

## PH341

### Philosophy, Politics and Economics: Applications

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Alexander Voorhoeve LAK 401

This course will be jointly taught by Prof. Alex Voorhoeve and Dr. Liam Kofi Bright.

**Availability:** This course is compulsory on the BSc in Philosophy, Politics and Economics. This course is not available as an outside

option nor to General Course students.

Available only to fourth-year PPE students.

**Pre-requisites:** The course will be available only to 4th-year PPE students.

**Course content:** This course will draw on concepts, theories and findings from Philosophy, Politics and Economics to tackle questions faced by decision-makers in public and private institutions. Each week will focus on a case study. Students will be expected to have had some prior exposure to the issues in previous courses—this course will stand out by being more interdisciplinary, in-depth and practical. Questions covered may include:

1 **Risky public decisions:** Decision theorists speak of risky situations when the decision-maker can assign probabilities to all relevant outcomes of their choices. How should we assess policies such as cancer screening that expose everyone to both a large chance of a small or moderate cost (such as inconvenience or false positive tests) while also saving them from a small chance of a very large harm (such as early death)?

2 **Severely uncertain public decisions:** Decision theorists speak of severely uncertain situations when the decision-maker cannot assign probabilities to all relevant outcomes of their choices. How should we assess policies, such as measures to combat a novel, highly infectious disease, or climate change, in such severely uncertain situations?

3 **Privacy and consent in online environments:** Are current regulations involving the transfer of personal data online adequate? If not, how should they be revised?

4 **The Resource Curse:** In unstable or grossly undemocratic states, the presence of natural resources often leads to oppression and/or civil war. Should democracies therefore ban the purchase of natural resources from such states?

5 **International reparations:** What, if anything, do the formal imperial powers owe their former colonies?

6 **A market for refugee quotas:** Should countries who do not wish to host refugees be able to pay other countries to take them in, in a "free market" for hosting refugees?

7 **Discrimination and the market:** Some have argued that free markets are good because they will, over time, eliminate discrimination, both because, in markets, people will mix with people of all backgrounds and because they will be judged on the quality of their goods or services alone. How powerful is this case?

8 **Concentration of wealth and economic power:** In many societies, economic power is becoming increasingly concentrated, in two ways: many sectors are dominated by a handful of large firms; and wealth is becoming increasingly unequal. In which ways, if any, is this problematic? What are the implications of this concentration for democracy? Should dominant firms be forcibly broken up? Should inheritance be highly taxed?

9 **Behavioural science and policy:** Do the irrationalities documented by behavioural science legitimate paternalistic nudges, taxation, and subsidies? Does sensitivity of people's answers to how questions are framed make surveys about people's opinions on matters of policy untrustworthy?

10 **Science and society:** Can natural and social scientific expertise be deferred to in a democracy, or is such deference inimical to democratic rule? Which social institutions can ensure that scientists have the right incentives to produce reliable work, rather than fraudulent or unreliable findings? How should we decide which research gets funded?

**Teaching:** 10 hours of lectures, 10 hours of seminars and 10 hours of classes in the MT. 10 hours of lectures, 10 hours of seminars and 10 hours of classes in the LT. 2 hours of workshops in the ST.

The lecture will set out key ideas. It will present theories and findings from the three disciplines relevant to the policy issue being studied in that week. The seminar, which is attended by all students together and run by the lecturer, will feature full-group discussion based on student questions posted on the Forum beforehand; it will also feature some Q&A with invited experts and student team presentations. This will be followed by small-group classes in which further questions relating to the material are discussed.

**Formative coursework:** Students will be expected to produce 2

essays and 1 exercise in the MT and LT.

Students will write two 1,500-word formative essays

Students will be able to choose between joining a team

presentation or becoming student editors. In the former case, they will have feedback meetings on a draft presentation; in the latter case they will give formative feedback on two papers which will be discussed in an editors' meeting.

**Indicative reading:**

- D. Hausman, M. McPherson and D. Satz, *Economic Analysis, Moral Philosophy and Public Policy*. Cambridge University Press, revised edition, 2016.
- A. Oliver (ed.) *Behavioural Public Policy*. Cambridge University Press, 2013.

- L. Wenar. *Blood Oil*. Oxford University Press, 2015.
- J. Fernández-Huertas Moraga & H. Rapoport. "Tradable immigration quotas." *Journal of Public Economics* 115 (2014) 94–108.
- D. Halliday. *Inheritance of Wealth: Justice, Equality, and the Right to Bequeath*. Oxford University Press, 2018.
- L. Kofi Bright. "On Fraud." in *Philosophical Studies* Vol. 174 (2017); 291-310.
- M. Fleurbaey and A. Voorhoeve "Decide as You Would with Full Information! An Argument against ex ante Pareto." In Nir Eyal, Samia Hurst, Ole Norheim, and Dan Wikler (eds.), *Inequalities in Health: Concepts, Measures, and Ethics*. Oxford University Press (2013), pp. 113-128.

An extensive list of required and further readings will be available on Moodle.

**Assessment:** Essay (40%, 2000 words) and oral examination (40%) in the ST.

Exercise (10%) in the LT.

Class participation (10%).

For the exercise, students will choose between a summative team presentation and becoming a student editor.

**Course selection videos**

## PH399

### Dissertation in Philosophy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Giacomo Giannini

**Availability:** This course is available on the BSc in Philosophy and Economics, BSc in Philosophy, Logic and Scientific Method, BSc in Philosophy, Politics and Economics and BSc in Politics and Philosophy. This course is not available as an outside option nor to General Course students.

**Course content:** The dissertation may be on any topic for which a suitable supervisor in the Philosophy department can be found.

**Selection of topic**

Candidates should have the subject of their dissertation approved by their supervising member of department.

**Arrangements for supervision**

The dissertation is an opportunity to do extended independent research and writing and to present this work to one's peers. It should reflect the candidate's own views but must develop out of some established part of the philosophical literature. Students should carefully discuss their topic and approach with their supervisor who will also advise on reading and give feedback on written work. Students must have regular meetings with their supervisor, submit written work regularly, and keep a formal record of their work and progress. Students must also present an early version of their argument to fellow students and will be given feedback on the quality of their presentation as well as on the content of their arguments.

**Teaching:** 2 hours of seminars in the MT. 20 hours of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1

piece of coursework in the MT and 2 essays, 1 presentation and 1 other piece of coursework in the LT.

The formative coursework sets out several steps towards the dissertation: a literature review (due in MT); a first 2,000 words (due in week 1 of LT), a subsequent 3,000 words (which may be in part a revision of the first 2,000 words), due in week 6 of LT; a presentation of the student's arguments in LT; and a full draft of the dissertation, due in week 11 of LT. All written coursework must be submitted by email to both the student's supervisor and the teacher responsible. Students who fail to submit this coursework on time may be barred from submitting the dissertation. Participation in the weekly seminar and the quality of the presentation will determine 10% of the final mark for the course.

**Assessment:** Dissertation (90%, 7000 words) in the ST.

Class participation (10%).

Dissertations must be submitted in May 2021, exact date to be confirmed. They should be 5,000-7,000 words, and should be typewritten.

## S0100

### Key Concepts: Introduction to Social Theory

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr David Pinzur STC 217A

**Availability:** This course is compulsory on the BSc in Language, Culture and Society and BSc in Sociology. This course is available on the BSc in International Relations, BSc in International Social and Public Policy, BSc in Politics, BSc in Politics and International Relations, BSc in Psychological and Behavioural Science and BSc in Social Policy. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Course content:** The course aims to introduce students to sociological theory by examining the work and ideas of normally eight key thinkers in social thought. For each thinker, the course will provide an overview of their contribution to the discipline of sociology, examine in detail one or more of their important texts, and also consider how their analysis could be applied to contemporary social issues.

**Teaching:** This course is delivered through a combination of lectures, online materials and classes totalling a minimum of 40 hours across MT and LT, with revision sessions in ST.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

**Formative coursework:** Four formative essays or their equivalent (two in MT; two in LT), for feedback from class teachers.

**Indicative reading:** A detailed reading list will be available at the first lecture, but for general preparatory reading, students might wish to consult the following: D Lee & H Newby, *The Problem of Sociology*; Z Bauman, *Thinking Sociologically*; S Bruce, *Sociology: A Very Short Introduction*.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

Attendance at all classes and submission of all set coursework is required.

## S0102

### Data in Society: Researching Social Life

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Anastasia Kakou COL.5.13 and Dr Yazmin Morlet Corti STC S114

**Availability:** This course is compulsory on the BSc in Sociology.

This course is not available as an outside option nor to General Course students.

**Course content:** This course explores how numbers are deployed in social settings, and how they are used in sociology to construct and challenge our understanding of the social world. The first part of the course introduces students to the importance of quantification in modern societies, familiarizes them with the main instruments for the collection of quantitative data, and provides them with an overview of the methods used to treat such data in contemporary sociology. We cover both descriptive and explanatory methods, and we reflect on the vision of the social world implicitly associated with each of the methods we encounter. In the second part students start learning basic descriptive skills of quantitative data analysis, notably how to download large data sets, how to manipulate variables and carry out descriptive statistical analyses with statistical software Stata, and how to present statistical information in tabular and graphical form. The quantitative analysis is done in the context of a sociological observation or hypothesis, and emphasis is given on the interpretation of the results and their comparison to the findings of key readings.

**Teaching:** This course is delivered through a combination of lectures, online materials and classes totalling a minimum of 40 hours across MT and LT.

**Reading Weeks:** Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

**Formative coursework:** One 2000 word essay (MT).

One report including a review of key readings, data processing and descriptive statistical analysis using Stata, interpretation of results, and conclusion (LT).

**Indicative reading:** Gould, Stephen Jay. 1981. *The Mismeasure of Man*. New York: Norton.

Desrosières, Alain. 2002. *The Politics of Large Numbers: A History of Statistical Reasoning*. Cambridge: Harvard University Press.

Savage, Mike, and Roger Burrows. 2007. "The Coming Crisis of Empirical Sociology", *Sociology* 41: 885-898.

Wasserman, Stanley, et Katherine Faust. 1994. *Social Network Analysis: Methods and Applications*. Cambridge: Cambridge University Press.

Salganik, Matthew J., Peter S. Dodds, and Duncan J. Watts.

2006. "Experimental Study of Inequality and Unpredictability in an Artificial Cultural Market", *Science* 311: 854-856.

Gelman, Andrew, and Jennifer Hill. 2006. *Data Analysis Using Regression and Multilevel/Hierarchical Models*. Cambridge: Cambridge University Press.

Catherine Marsh and Jane Elliot (2008): *Exploring Data* (2nd ed.)

**Assessment:** Essay (50%, 3000 words) in the ST.

Take-home assessment (50%) in January.

Take home assessment to be completed during the January exam period.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the second Thursday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

---

## S0110

### Power, Inequality, and Difference: Contemporary Themes in Sociology

**This information is for the 2022/23 session.**

**Teacher responsible:** Professor Fran Tonkiss STC.S205

**Availability:** This course is compulsory on the BSc in Language, Culture and Society and BSc in Sociology. This course is available on the BA in Geography, BA in Social Anthropology, BSc in Politics, BSc in Politics and International Relations and BSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Course content:** The course provides an introduction to key areas of theory and analysis in contemporary sociology. Students will gain an understanding of critical research and debates within the discipline, and of how sociology engages with topical real-world issues. The course centres on the ways in which power relations, social and economic inequalities, forms of identity and difference are shaped in contemporary societies – focusing on both formal political and socio-economic structures and everyday experiences and identities. These issues include: class, capitals and social mobility; race, ethnicity and multi-culturalism; gender and sexual identities; politics, social movements and the nation-state.

**Teaching:** This course is delivered through a combination of lectures, online materials and classes totalling a minimum of 40 hours across MT and LT, with revision sessions in ST.

**Reading Weeks:** Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

**Formative coursework:** Two formative essays in MT, one formative essay in LT.

**Indicative reading:** M. Savage (2015) *Social Class in the 21st Century*; B. Skeggs (1997) *Formations of Class and Gender*; L. Back and J Solomos (Eds) (2000) *Theories of Race and Racism: A Reader*; A Gutmann (Ed) (1994) *Multiculturalism: Examining the Politics of Recognition*; S Jackson & S Scott (Eds) (2002) *Gender: A Sociological Reader*; K Woodward (Ed) (2004) *Questioning Identity: Gender, Class and Ethnicity*; G Bhattacharyya (2002) *Sexuality and Society*; D Bell and J Binnie (2000) *The Sexual Citizen: Queer Politics and Beyond*; B Anderson (1983) *Imagined Communities*; E Gellner (1983) *Nations and Nationalism*; M. Flinders (2012) *Defending Politics: Why Democracy Matters in the Twenty-First Century*.

**Assessment:** Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 3000 words) in the ST.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Tuesday of Summer Term.

Attendance at all classes is required and submission of all set coursework is compulsory.

---

## S0201

### Key Concepts: Advanced Social Theory

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Monika Krause STC S207

**Availability:** This course is compulsory on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is not available as an outside option nor to General Course students.

**Course content:** This course engages key sociological issues through the critical reading of theoretical and analytical texts.

Students will engage with advanced concepts in sociological thought, and will explore the connections between theoretical arguments and the practice of social enquiry and analysis.

Students will read a combination of social theory texts in a range of traditions as well as contemporary research studies.

**Teaching:** This course is delivered through a combination of lectures, online materials and classes totalling a minimum of 40 hours across MT and LT, with a revision session in ST.

**Reading Weeks:** Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

**Formative coursework:** One coursework submission each term is a course requirement.

**Indicative reading:** There is no set textbook for this course - each week's teaching is based on the critical reading of key texts.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 3500 words) in the LT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the fourth Thursday of Lent Term. Attendance at all classes and submission of all set coursework is required.

## S0203

### Political Sociology

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Robert Archer STC.S114a and Dr Kristin Surak STC.S105

**Availability:** This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

**Course content:** Political Sociology concerns the way in which political and social factors interact to produce the societies in which we live. This course aims to discuss some central empirical and theoretical questions in the field. The course begins by examining classic comparative debates about the relationship between the development of states and nations on the one hand, and the rise of capitalism and democracy on the other. We will then examine the impact that social cleavages have on parties, elections and other political institutions in a number of different countries. We will examine the strength and political impact of both labour movements and other important social movements. And we will examine why similar countries can develop very different social and economic policies. In addition we will examine some of the founding writings of Marx and Weber and critically assess the use of political concepts. Throughout the course we will consider some of the main theoretical approaches that are used in the study of political sociology.

**Teaching:** This course is delivered through a combination of lectures, online materials and classes totalling a minimum of 40 hours across MT and LT.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

**Formative coursework:** A class presentation and a termly paper in both MT and LT.

**Indicative reading:** R Dalton, *Citizen Politics*, 5th edn; G Esping-Andersen, *The Three Worlds of Welfare Capitalism*; E. Gellner, *Nations and Nationalism*; A Giddens, *Capitalism and Modern Social Theory*; R Inglehart, *Culture Shift in Advanced Industrial Society*; J Manza & C Brooks, *Social Cleavages and Political Change*; F Piven and R. Cloward, *Poor People's Movements*; D. Rueschemeyer et al, *Capitalist Development and Democracy*; T Skocpol, *States and Social Revolutions*; S Tarrow, *Power in Movement*.

**Assessment:** Exam (70%, duration: 3 hours) in the summer exam period.

Essay (30%, 2500 words) in the ST.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Thursday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

## S0210 Not available in 2022/23

### Crime, Deviance and Control

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Ioanna Gouseti

**Availability:** This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in

Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

This course cannot be taken with SP271 Psychology of Crime and Criminal Justice or SO240 Crime, Deviance and Control.

**Course content:** This course encourages students to think about and debate some of the major issues in Criminology and the Sociology of Deviance. We explore the social construction of crime and deviance; the different sources of information about them; key factors that shape patterns, perspectives and experiences of crime and deviance, including social class, gender, ethnicity and the media; and different Criminological theories that have been used to explain crime and deviance. We also explore elements of social control including policing and prisons.

**Teaching:** 6 hours of lectures, 6 hours of classes and 8 hours of workshops in the MT. 6 hours of lectures, 6 hours of classes and 8 hours of workshops in the LT. 2 hours of workshops in the ST.

**Formative coursework:** Students are required to complete two formative essays – one in MT and one in LT

**Indicative reading:** There is no set text for this course, and a full reading list is provided at the first class. The following is useful introductory reading that includes topics covered on the course:

- Carrabine E et al (2016) *Criminology: A Sociological Perspective*;
- Downes, D & Rock, P (2011, 4th Edition) *Understanding Deviance*;
- Liebling, A et al, (2017, 5th Edition) *The Oxford Handbook of Criminology*;
- Tierney, J (2018, 4th Edition) *Criminology: Theory and Context*;
- Walklate, S (2016) *Criminology: The Basics*.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Research report (15%) and group presentation (10%) in the LT.

Research report (15%) in the ST.

Group presentation (10%) in the MT.

Attendance at all classes and submission of all set coursework is required.

## S0221

### Researching London: Advanced Social Research Methods

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jana Melkumova-Reynolds STC S208 and Dr Ioanna Gouseti STC S105a

**Availability:** This course is compulsory on the BSc in Sociology. This course is not available as an outside option nor to General Course students.

**Course content:** This course will provide students with a first understanding of social research design and analysis of social research data. It involves a dynamic introduction to a range of research methods, both qualitative and quantitative, through practical exercises in the context of London's social life.

By the end of the course students will:

- Understand the key role of research design for conducting original empirical social research. In particular, taking into account relevant extant literature, they will develop a research question of their own interest and identify appropriate research method(s) to address it.
- Have engaged with practical research strategies and methods including the design of interview guides and survey questionnaires, conducting qualitative interviews, ethnographic observation, and a survey in the context of London.
- Have a sense of the urban sociology of London and a first-hand experience of its potential for exploring contemporary social issues.
- Be able to analyse different types of data, using a range of methods, such as thematic analysis in the case of qualitative data and regression analysis in the case of quantitative data.
- Be able to assess the quality of employed methodologies on the basis of formal criteria, such as reliability, validity and generalizability.

- Understand the ethical issues involved in social research.
- Have developed a research proposal which will strengthen their dissertation design, and might inform their dissertation topic.

**Teaching:** This course is delivered through a combination of lectures, online materials and workshops totalling 50 hours across MT and LT.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

**Formative coursework:** There is one piece of formative assessment which will be marked and on which you will get feedback in the Michaelmas Term (MT).

**Indicative reading:** A. Agresti & B. Finlay (2008) *Statistical Methods for the Social Sciences*. 4th edition. Pearson.

Bryman, A. (2014). *Social research methods*, 4th edition. Oxford University Press.

Converse, J. M., & Presser, S. (1986). *Survey questions: Handcrafting the standardized questionnaire* (No. 63). Sage.

Davidson, O'Connell, J., (2008). "If no means no, does yes mean yes? Consenting to research intimacies.", *History of the Human Sciences*, 21(4), 49-67.

Ingram, N. (2011). Within school and beyond the gate: The complexities of being educationally successful and working class. *Sociology*, 45(2), 287-302.

O'Reilly, K. (2004). *Ethnographic methods*. London, New York: Routledge.

Savage, M., & Burrows, R. (2007). The Coming Crisis of Empirical Sociology. *Sociology: The Journal of the British Sociological Association*, 41(5), 885-899.

Tourangeau, R., Rips, Lance J, & Rasinski, Kenneth A. (2000). *The psychology of survey response*. New York: Cambridge University Press.

**Assessment:** Essay (20%, 1500 words) and project (30%) in the LT. Research proposal (50%) in the ST.

An electronic copy of the assessed essays, to be uploaded to Moodle, no later than 4.00pm on the submission day.

The first assessment, a qualitative interview transcript and 1,500-2000 word essay (20%), is due by the first Wednesday of Lent Term.

The second assessment, a survey design project (30%), will be carried out in Lent Term.

The third assessment, a 2,000 word research proposal (50%), is due by the second Thursday of Summer Term.

Attendance at all workshops and submission of all set coursework is required.

---

## S0232 Half Unit

### Sociology of Health and Illness

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Carrie Friese STC S213

**Availability:** This course is available on the BSc in Language, Culture and Society and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

**Pre-requisites:** No specific pre-requisites, but this course is not available as a first year option.

**Course content:** Sociology of Health and Illness explores the ways in which experiences of health and illness are socially patterned. We will also ask how the management of health and illness organizes social life. To explore experiences of health and illness, we will look at how specific 'medical disorders' (e.g., ageing, cancer, mental health, disabilities, reproductive and sexual health, obesity etc.) are 'embodied' in socially patterned ways. Empirical studies of specific disorders will be read, in conjunction with analysis of other kinds of texts (e.g., popular writing, film, performance art,

museum exhibits, etc.). To address how the management of health and illness organizes social life and vice versa, key theories in the sociology of health and illness will be explored. This will include Parsons's sick role; Weberian and feminist understandings of professional dominance; medicalization, demedicalization and biomedicalization; stigma and stigmatization; health inequalities and the social determinants of health; and Foucaultian notions of surveillance, biopolitics and governmentality.

**Teaching:** This course is delivered through a combination of lectures, online materials and classes totalling a minimum of 20 hours in MT.

Reading Weeks: Students on this course will have a reading week in MT Week 6, in line with departmental policy.

**Formative coursework:** Class participation in the MT. This will consist of posting a 300-word comment on the course Moodle page on the course readings from a specified week.

**Indicative reading:** B Prainsack. *Personalized Medicine:*

*Empowered Patients in the 21st Century?* (2017)

A Nelson *Body and Soul: The Black Panther Party and the Fight Against Medical Discrimination* (2011)

Mason, KA *Infectious Change: Reinventing Chinese Public Health After and Epidemic* (2016)

A Frank, *The Wounded Storyteller: Body, Illness and Ethics* (1997)

E Martin *Bipolar Expeditions: Mania and Depression in American Culture* (2007)

J Latimer *The Gene, The Clinic and the Family* (2013)

S Kaufman *Ordinary Medicine* (2015)

Eugene Raikhel and William Garriott *Addiction Trajectories* (2013)

G Davis. *Contesting Intersex: The Dubious Diagnosis* (2015)

N Tounsiant. *Edges of Exposure: Toxicology and the Problem of Capacity in Postcolonial Senegal* (2018)

**Assessment:** Essay (90%, 3500 words) in the LT.

Class participation (10%) in the MT.

The assessment consists of class participation in the MT and a review essay of no more than 3500 words in the LT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Tuesday of LT.

Attendance at all classes and submission of all set coursework is required.

---

## S0234 Half Unit Not available in 2022/23

### Digital Technology, Speed and Culture

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Judy Wajcman STC S203

**Availability:** This course is available on the BSc in Sociology.

This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** No specific pre-requisites, but this course is only open to second and third year students in Sociology and other programmes. It is not available as a first year option.

**Course content:** This course aims to give students a detailed understanding of sociologically informed approaches to the social studies of science and technology. It will consider how macro theories of post-industrial society (from Bell to Castells) have conceptualised the role of technology in social change. It will then look at the development of STS as a field that highlights the constitutive role of objects and artefacts in social relations. In other words, it will reflect upon sociology's traditional neglect of the social life of things or materiality. These broad themes will then be elaborated substantively. First, by considering the role of technology in reconfiguring time, speed, space and mobility. Second, by considering power relations and social inequalities embedded in digital technologies, such as the Internet and mobile phones. Third, by treating technology as a culture that shapes gender identities, such as those that find expression in the virtuality of cyberspace. The course will draw on examples from a variety of domains including information and communication technologies, robotics, cyborgs, sex, and weapons.

**Teaching:** This course is delivered through a combination of lectures/seminars, online materials and classes totalling a minimum of 20 hours in MT.

Reading Weeks: Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

ONE formative essay of 1,200 words will be due at the end of Week 6 of Michaelmas Term.

**Indicative reading:** MacKenzie, D. and Wajcman J. (1999) *The Social Shaping of Technology* (MIT Press).

Suchman, L. (2007) *Human-Machine Configurations* (CUP)

Turkle, S. (2011) *Alone Together* (Basic Books)

Wajcman, J. (2015) *Pressed for Time* (Chicago University Press)

Wajcman, J. (2014) *TechnoFeminism* (Polity Press).

**Assessment:** Essay (100%, 3000 words) in the MT.

The course is assessed by ONE summative essay of 3,000 words that is worth 100% of the total mark.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the submission day. Assessed essay due Thursday of Week 11 of MT.

Attendance at all classes and submission of all set coursework is required.

## S0235 Half Unit

### The Sociology of Homicide

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Janet Foster

**Availability:** This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

**Course content:** This half-unit course examines patterns of homicide in different contemporary societies with different social and political contexts (for example, Russia, Jamaica, USA, Colombia, South Africa, and Britain) and the explanations for their contrasting homicide incidence. We explore the differences between fictional representations of murder and its actualities both in terms of type/prevalence, as well as investigative practices. The importance of class, gender and race in patterns of homicide victimisation are explored, as well as the experiences of victims' families and the significance of murder in contemporary society.

**Teaching:** 30 hours of workshops in the LT.

#### Course Outline

**1. Introduction:** What is homicide? Definitions and the issues associated with them. Different types of homicide and global variations. The issues and problems associated with researching homicide.

**2. Sherlock Holmes and CSI:** The impact of crime fiction and the media in perceptions of homicide

**3. Patterns of homicide:** Using case studies from different countries and different social and political contexts (e.g. Russia, Jamaica, USA, Colombia, South Africa, and Britain) we explore different patterns of homicide and explanations for these patterns.

**4. Gender and homicide:** Exploring the public/private dimensions of homicide and differential risk

**5. Race and homicide:** Homicide disproportionately affects Black and minority ethnic victims yet this receives relatively little sociological attention. We explore these patterns of homicide and the reasons for it.

#### 6. Reading week

**7. Investigating homicide:** How do homicide investigations work? What are the issues associated with self-solver and 'who-dunnit' investigations? What issues affect the likelihood of perpetrators being caught?

**8. Homicide perpetrators:** Why do homicides occur and what do we know about perpetrators?

**9. Living a life sentence:** the experiences of murder victims' families.

## 10. Presentations

**11. Synthesis:** The sociological significance of homicide

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

Students are expected to read, and prepare in advance, for each of the workshops. Students must complete either a 1,500 word essay, or a poster, to be submitted in week 8, on one of the topics covered in weeks 2-5 of the course.

**Indicative reading:** Allsop, C. (2018) *Cold Case Reviews: DNA, Detective Work and Unsolved Major Crimes* Oxford: Oxford University Press

Brookman, F et al (2017) *The Handbook of Homicide* Chichester:Wiley

Brookman, F (2005) *Understanding Homicide* London: Sage

Morris, P and Graycar, A (2011) 'Homicide through a different lens' *British Journal of Criminology* Vol. 51 (5) pp823-838

*Policing and Society* (2013) Vol. 23, No. 3 Special Issue on homicide

UNODC (2013) *Global Study on Homicide: Trends/Context/Data* United Nations Office on Drugs and Crime

Wilson, D (2009) *A History of British Serial Killing* London: Sphere

**Assessment:** Essay (100%, 3000 words) in the ST.

The essay length is between 2,500-3000 words.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Wednesday of Summer Term.

## S0236 Half Unit Not available in 2022/23

### Urban Society

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr David Madden STC.S209

**Availability:** This course is available on the BSc in Language, Culture and Society and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course is not available as a first year option.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

**Course content:** This course is an introduction to urban sociology and urban studies. The course is organised around a set of key concepts for developing a critical understanding of urban space today. These key concepts may include terms such as community, public space, infrastructure, displacement, segregation, multiculturalism, informality or social movements. The course will draw on a variety of texts that illuminate and interrogate city life from a variety of sociological perspectives, so in addition to academic studies, students will analyse planning reports, historical documents, first-person literary essays, and other representations of the urban experience.

**Teaching:** This course is delivered through a combination of lectures, seminars and online materials totalling a minimum of 20 hours in LT.

Reading Weeks: Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

Formative coursework will be due by the start of week 7. It will consist of writing a short 500 word essay asking students to take an original photograph and use it as the basis for a reflection on one of the key concepts explored in class. This reflection will serve to prepare students for their summative essay.

**Indicative reading:**

• Wirth, Louis. 1938. "Urbanism as a Way of Life." *American Journal*

- of Sociology 44 (1): 1-24.
- Gans, Herbert J. 1962. "The Community." Pp 104-119 in *The Urban Villagers: Group and class in the life of Italian-Americans*. Free Press.
  - Atkinson, Rowland. 2003. "Domestication by Cappuccino or a Revenge on Urban Space? Control and empowerment in the management of public spaces." *Urban studies* 40.9 (2003): 1829-1843.
  - Anderson, Elijah. 2004 "The Cosmopolitan Canopy." *The Annals of the American Academy of Political and Social Science* 595 (1): 14-31.
  - Back, Les, and Shamser Sinha. 2016. "Multicultural Conviviality in the Midst of Racism's Ruins." *Journal of Intercultural Studies* 37.5 (2016): 517-532.
  - Caldeira, Teresa P. R. 1996. "Fortified Enclaves: The new urban segregation." *Public Culture* 8 (2): 303-328.
  - Simone, AbdouMalik. 2004. "People as Infrastructure: Intersecting fragments in Johannesburg." *Public Culture* 16 (3): 407-429.
  - Garbin, David, and Gareth Millington. 2012. "Territorial Stigma and the Politics of Resistance in a Parisian Banlieue: La Courneuve and beyond." *Urban Studies* 49 (10): 2067-2083.
  - Mattern, Shannon. 2018. "Community Plumbing: How the hardware store orders things, neighborhoods, and material worlds." *Places Journal*, July.
  - Nicholls, Walter J. 2008. "The Urban Question Revisited: The importance of cities for social movements." *International Journal of Urban and Regional Research* 32 (4): 841-859
  - Appadurai, Arjun. 2001. "Deep Democracy: Urban governmentality and the horizon of politics." *Environment and Urbanization* 13 (2): 23-43.

These texts are examples of the articles and books from sociology and urban studies that the course will examine. The course will also analyse texts from various other urban-oriented fields and genres.

**Assessment:** Exam (70%, duration: 2 hours) in the summer exam period.

Essay (20%, 1500 words) and class participation (10%) in the LT.

There will be three summative assessments: a final exam, a short essay, and participation in seminars.

Final exam at the end of the term: 70%

Short illustrated essay (1500 words) on one of the concepts

explored in class, due in week 11: 20%

Seminar participation: 10%

---

## SO237 Half Unit

### Racial Borderscapes

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Suzanne Hall STC.S203

**Availability:** This course is available on the BSc in Language, Culture and Society and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

This course is not available as a 1st year option.

**Course content:** This course explores the relationship between the racialised migration systems and the everyday life of borders. By working with the frame of 'borderscapes' this course provides opportunities to explore the spatial production of racialised borders across national, urban and intimate scales. The course critically examines border regimes by engaging in sociological and spatial perspectives. We will analyse how concepts such as 'sovereignty', 'citizenship', 'race' and 'illegality' are spatialised, bringing these into dialogue with formations such as camps, domestic interiors and workplaces. Through these spaces we will also explore practices of cultural debordering and political resistance that occur through the everyday and the commonplace. Our learning process is enlivened through student presentations and writing workshops.

**Teaching:** This course is delivered through a combination of

lectures, classes, workshops and online materials totalling a minimum of 20 hours in LT.

There will be student group presentations in seminars across most weeks and a writing workshop in Week 10.

Students on this course will have a Reading Week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

1,000-1,500 word formative essay to be submitted in Week 7 of Lent Term.

The formative classwork ranges from brief in-class writing exercises, to a short formative essay on which one-to-one written feedback is given, to a writing workshop where selected formative essays are shared to focus discussion on key writing techniques and approaches.

**Assessment:** Essay (80%, 3000 words) in the ST.

Group presentation (20%) in the LT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Tuesday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

---

## SO240 Half Unit

### Crime, Deviance and Control

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Ioanna Gouseti STC S105a

**Availability:** This course is available on the BSc in Language, Culture and Society and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

This course cannot be taken with SP271 Psychology of Crime and Criminal Justice or SO210 Crime, Deviance and Control.

**Course content:** This course encourages students to think about and debate some of the major issues in the sociology of crime and crime control. We explore the social construction of crime and deviance; key factors that shape patterns, perspectives and experiences of crime and crime control, including gender, race and ethnicity, and the media. The main objective is to develop a holistic perspective on some of the key topics of criminological scholarship.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT. 1 hour of classes in the ST.

**Formative coursework:** Students are required to complete one piece of formative assessment.

**Indicative reading:** There is no set text for this course. The following is useful introductory reading that includes topics covered on the course:

- Carrabine E et al (2016) *Criminology: A Sociological Perspective*
- Downes, D & Rock, P (2011, 4th Edition) *Understanding Deviance*
- Liebling, A et al, (2017, 5th Edition) *The Oxford Handbook of Criminology*
- Tierney, J (2018, 4th Edition) *Criminology: Theory and Context*
- Walklate, S (2016) *Criminology: The Basics*

**Assessment:** Essay (70%, 3000 words) in the ST.

Group presentation (30%) in the LT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the third Tuesday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

---

## S0244 Half Unit

### The Sociology of Race and Empire

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Hakan Sandal-Wilson STC S217

**Availability:** This course is available on the BSc in Language, Culture and Society and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

**Course content:** The course provides an introduction to theoretical, historical and contemporary debates around race, racism and empire. It covers the following thematic areas: **history; theory; experience; futurism.**

We begin by exploring the historical events and contemporary afterlives that have created a world structured by racism and colonialism. From the Enlightenment to nationalism; from science to secularism, we look at how this world came to be, and why these often-hidden histories matter. We then look at different ways people have tried to understand this world. Theoretical paradigms include anticolonial theory, the Black Radical Tradition, Queer theory, Trans\* theory, and postcolonial theory, decoloniality and settler colonialism, among others. The third block looks at the everyday experiences of race and empire. From the food we eat to the way we travel, we will see that race and empire are never far from the scene. We look at the politics around tourism, climate change, technology, intimacy, movement and food to unpack the very minute and not-so-minute ways race and empire seep into and structure our daily lives. We end the course by thinking about abolition as a means of imagining a future free of racism.

**Teaching:** This course is delivered through a combination of lectures/seminars and online materials totalling a minimum of 20 hours in MT.

Reading Weeks: Students on this course will have a reading week in MT Week 6, in line with departmental policy.

**Formative coursework:** One formative essay (1500 words) due in Week 7 of MT.

**Indicative reading:** Cesaire, A. 1955. *Discourse on Colonialism*. Grove Press.

Said, E., 1978. *Orientalism: Western representations of the Orient*. Pantheon.

Steinmetz, G., 2013. *Sociology and empire*. Duke University Press.

Fanon, F., 1963. *The wretched of the earth*. Grove Press.

Mills, C.W., 2014. *The racial contract*. Cornell University Press.

Davis, A.Y., 2011. *Women, race, & class*. Vintage.

Mohanty, C.T., 1988. Under Western eyes: Feminist scholarship and colonial discourses. *Feminist review*, (30), 61-88.

Sharpe, C., 2016. *In the wake: On blackness and being*. Duke University Press.

Wekker, G., 2016. *White innocence: Paradoxes of colonialism and race*. Duke University Press.

Collins, P.H., 2002. *Black feminist thought: Knowledge, consciousness, and the politics of empowerment*. Routledge.

**Assessment:** Essay (80%, 3000 words) in the LT.

Presentation (20%) in the MT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the submission day. Assessed essay due Thursday of Week 1 in LT.

Attendance at all classes and submission of all set coursework is required.

---

## S0248 Half Unit

### Gender and Society

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Hakan Sandal-Wilson STC S217

**Availability:** This course is available on the BSc in Language, Culture and Society and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

**Course content:** The course will explore the meaning of gender in contemporary society. It considers gendered relations of power and the articulation of gender with other kinds of social difference such as race, class and sexuality. A variety of theoretical perspectives will be applied to a number of substantive issues of contemporary concern.

Indicative topics are: gender and sexuality; the body; violence; sex work; representation.

**Teaching:** 10 hours of lectures and 10 hours of classes in the LT, with 2 hours in the ST.

Reading Weeks: Students on this course will have a reading week in LT Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to prepare one piece of formative assessment.

**Indicative reading:** S Ahmed, *Living a Feminist Life*, Durham and London: Duke University Press, 2017

C Mohanty, *Feminism Without Borders: Decolonizing Theory, Practicing Solidarity*, Durham Duke University Press, 2003

A Clarke and D Haraway (Eds.), *Making Kin not Population*, Chicago: Prickly Paradigm Press, 2018

J Halberstam, *Trans: A Quick and Quirky Account of Gender Variability*, Berkeley, CA: University of California Press, 2018

A Kafer, *Feminist, Queer, Crip*, Bloomington, IN: Indiana University Press, 2013

C Thompson, *Making Parents*, Cambridge, MA: MIT Press, 2005

R Ray, J Carlson, A Andrews (Eds.), *The Social Life of Gender*, Thousand Oaks, CA: Sage, 2017

A more detailed reading list will be provided at the beginning of the course.

**Assessment:** Take-home assessment (100%) in the ST.

Attendance at all classes and submission of all set coursework is required

---

**S0302****The Sociological Dissertation****This information is for the 2022/23 session.****Teacher responsible:** Prof Fran Tonkiss STC S205 and Dr Suki Ali STC S307**Availability:** This course is compulsory on the BSc in Sociology. This course is not available as an outside option nor to General Course students.**Pre-requisites:** Students undertaking this course need to have completed the first two years of the BSc in Sociology.**Course content:** The dissertation takes the form of an independent research project of 10,000 words on a sociological topic of the students' choosing, developed in consultation with their Academic Mentor. The dissertation process includes reviewing relevant literature on the topic of study, formulating a viable and sociologically-relevant research problem, collecting and analysing primary and/or secondary data (such as a case study, data set, fieldwork observations, corpus of texts, survey results or interviews), and writing up an independent analysis based on this research.

Students' work on the dissertation is supervised in small-group and individual tutorials with their Academic Mentor over MT and LT. The Dissertation process is supported by a series of compulsory group workshops in the MT and LT which focus on research project design. The workshops cover topics such as identifying a sociological problem for investigation, constructing a bibliography, research ethics, research access, data collection, data analysis and writing up.

**Teaching:** 7 hours and 30 minutes of seminars in the MT. 6 hours of seminars in the LT.

Seminars will be structured as follows: 5 x 1.5 hour seminars in the MT. 4 x 1.5-hour seminars in the LT.

5 x 1.5-hour small-group tutorials with Academic Mentors in MT. 2 x individual supervisions with Academic Mentors plus drop-in sessions in LT.

Reading Weeks: Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

**Formative coursework:** One piece of formative coursework in the MT.**Assessment:** Dissertation (90%, 10000 words) in the ST. Research proposal (10%) in the MT.**Assessment Particulars:**

Research proposal (10%, 2,000 words): An electronic copy of the research proposal to be uploaded to Moodle no later than 4.00pm on the last Thursday of Michaelmas Term.

Dissertation (90%, 10,000 words): Two hard copies of the dissertation, with submission sheets attached to each, to be handed in to the Sociology Hub, STC.S116, no later than 4.00pm on the second Thursday of Summer Term. An additional electronic copy to be uploaded to Moodle no later than 4.00pm on the same day. Both hard copies and electronic copies must be submitted on time to avoid any late submission penalties.

Attendance at all classes and submission of all set coursework is required.

**S0309 Half Unit Not available in 2022/23****Atrocity and Justice****This information is for the 2022/23 session.****Teacher responsible:** Dr Claire Moon STC S109**Availability:** This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is available to General Course students. Sociology students will be given priority.

This course cannot be taken in conjunction with IR312 Genocide. This course is capped.

**Pre-requisites:** No specific pre-requisites, but this is open only to

2nd and 3rd year students in Sociology and other programmes. It is not available as a 1st year option.

**Course content:** The course will cover a number of issues relevant to the study of atrocity and justice for atrocity. It looks at the social construction of atrocities, the Genocide Convention, structural approaches to understanding genocide (modernity, democracy and colonial rule), the perpetrators, victims and witnesses of atrocity, the problem of denial of state crimes, historical injustices in Australia, Canada and the US, forensic investigations of atrocity, retributive and restorative approaches to justice for atrocity, truth commissions and war crimes tribunals.**Teaching:** This course is delivered through a combination of lectures, seminars and online materials totalling a minimum of 20 hours in the LT, with 2 hours in the ST.

Reading Weeks: Students on this course will have a reading week in LT Week 6, in line with departmental policy.

**Formative coursework:** 1 x formative essay of 1500 words.**Indicative reading:** Arendt, Hannah (1994) *Eichmann in Jerusalem: A Report on the Banality of Evil* (New York: Penguin Books)  
Bauman, Zygmunt (1989) *Modernity and the Holocaust* (Cambridge: Polity)Browning, Christopher (1992) *Ordinary Men: Reserve Police Battalion 101* (New York: HarperCollins):Cohen, Stan (2001) *States of Denial* (Cambridge: Polity Press)Hacking, Ian (1999) *The Social Construction of What?* (Cambridge: Harvard University Press)Jones, Adam (2011) *Genocide: A Comprehensive Introduction*, 2nd edition (London: Routledge)Wilson, Richard (2001) *The Politics of Truth and Reconciliation in South Africa: Legitimizing the Post-Apartheid State* (Cambridge: Cambridge University Press).**Assessment:** Take-home assessment (100%) in the ST.

Attendance at all classes and submission of all set coursework is required.

**S0310 Half Unit****The Sociology of Elites****This information is for the 2022/23 session.****Teacher responsible:** Prof Michael Savage STC S210**Availability:** This course is available on the BSc in Language, Culture and Society and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

**Pre-requisites:** No specific pre-requisites, but this course is not available as a first year option.**Course content:** In the early 21st century, there is a new fascination with the super-rich, the 1%, the 'elites'. This course therefore aims to expose students to the challenges and excitements of studying this small but very significant social class, using cutting edge research on recent trends as well as important older studies.**Teaching:** This course is delivered through a combination of lectures, seminars and online materials totalling a minimum of 20 hours in the MT, with a revision session in ST.

Reading Weeks: Students on this course will have a reading week in Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

Formative assessment will be through a 2000 word essay to be handed in on the Monday of Week 7, directly after Reading Week. Students will also be asked to give presentations in seminars, and informal feedback will be given on these.

**Indicative reading:**

- Piketty, T., (2014), *Capital in the 21st Century*, Boston, Harvard UP.
- Khan, S., (2010), *Privilege*, Princeton, Princeton UP.
- Dorling, D., (2014), *Inequality and the 1%*, London, Verso.
- Savage, M., and Williams, K., (eds) (2008), *Remembering Elites*,

Oxford, Blackwells.

• Scott, J., (1982), *The Upper Class*, Macmillan.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 2000 words) in the LT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Wednesday of Lent Term. Attendance at all classes and submission of all set coursework is required.

## S0311 Half Unit Law and Violence

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Ayca Cubukcu STC.S113

**Availability:** This course is available on the BSc in Language, Culture and Society and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course is not available to first and second year students.

**Course content:** *Law and Violence* is an intensive introduction to key theoretical texts that can inform a nuanced understanding of the controversial yet crucial nexus between law and violence. What is the relationship between law and violence? Are they mutually exclusive forms of human action? Is it a paradox that law employs violence in claiming to prevent or circumscribe the latter? Is it a contradiction that violence is often the means to establish or change the law? We will consider these questions within historical contexts of the nation-state and the global legal order.

**Teaching:** This course is delivered through seminars totalling 25 hours in LT.

This course requires the practice of close reading. We will not read in large quantities. However, students are expected to engage with the assigned texts deeply, paying special attention to the presuppositions of the authors and the structures of their argumentation, identifying the weaknesses and the strengths of their theoretical constructions. By the end of the course, students are expected to make the assigned texts speak with and against each other. Students in this course will have a reading week in week 6.

**Formative coursework:** Students will be expected to produce 1 essay and 1 other piece of coursework in the LT.

Essay abstract (max 800 words) to be submitted in class in week 7. Students will get detailed feedback on their abstracts.

**Indicative reading:** Giorgio Agamben, *Homo Sacer: Sovereign Power and Bare Life*. Stanford Uni. Press. 1995.

Antony Anghie, *Imperialism, Sovereignty and the Making of International Law*. Cambridge University Press. 2005.

Talal Asad, "Thinking About Just War and Terrorism," in *Cambridge Journal of Foreign Affairs*.

Talal Asad, *On Suicide Bombing*, Columbia University Press. 2007.

Hannah Arendt, *Eichmann in Jerusalem*. Penguin Press. 1963.

Walter Benjamin, "Critique of Violence" in *Reflections*, Schocken Books. 2002 [1929].

Jacques Derrida, "Force of Law: The 'Mystical Foundations of Authority'" in *Deconstruction and the Possibility of Justice*. Drucilla Cornell, Michel Rosenfeld, David Gray Carlson, eds. Routledge. 1992.

Michel Foucault, *Society Must Be Defended*. Picador. 2003 [1976].

Georges Sorel, *Reflections on Violence*. Dover. 2004 [1908]

Carl Schmitt, *Political Theology*. The MIT Press. 1985 [1922].

Recommended:

Carl Schmitt, *The Nomos of the Earth*. Telos Press. 2003 [1950].

**Assessment:** Essay (90%, 4000 words) in the ST.

Class participation (10%) in the LT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Tuesday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

## S0312 Half Unit Work, Inequality and Society

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Patrick McGovern STC.S110

**Availability:** This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

**Pre-requisites:** No specific pre-requisites, but this course is only open to 2nd and 3rd year students in Sociology and on the programmes specified. It is not available as a 1st year option.

**Course content:** Sociological perspectives on cross-national differences in employment and social inequality.

Theoretical perspectives on inequality; gender in the labour market; occupational segregation; the 'glass ceiling'; immigrant employment; race, ethnicity and discrimination; social class at work; class reproduction in elite firms; the rise of wage inequality; and income inequality in the mass media.

**Teaching:** This course is delivered through a combination of lectures/seminars, online materials and classes totalling a minimum of 20 hours in LT.

Reading Weeks: Students on this course will have a reading week in LT Week 6, in line with departmental policy.

**Formative coursework:** 1,500 word essay due in Week 8 of LT.

**Indicative reading:** W. Bottero, W. (2018) *A Sense of Inequality*;

Friedman, S. and Laurison, D. (2020) *The Class Ceiling*;

Tilly, C. & C. Tilly (1998) *Work Under Capitalism*;

Grusky, D. (2014) (4th ed) *Social Stratification*;

McGovern, P. et al. (2007) *Market, Class, and Employment*;

Padavic, I. & Reskin, B. (2002) *Women and Men at Work*;

Payne, G. (ed.) (2013) *Social Divisions*;

L. Platt, L. (2011) *Understanding Inequalities*;

D. Tomaskovic-Devy, D. and D. Avent-Holt (2018) *Relational Inequalities*.

Further reading will be detailed in the course syllabus.

**Assessment:** Essay (90%, 3000 words) in the ST.

Class participation (10%) in the LT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the submission day. Assessed essay due Tuesday of Week 1 in ST.

Attendance at all classes and submission of all set coursework is required.

## S0313 Half Unit Material Culture and Everyday Life

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Leili Sreberny-Mohammadi STC S313

**Availability:** This course is available on the BSc in Language, Culture and Society, BSc in Social Policy and Sociology and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

This course is not available as a first year option.

**Course content:** The course focuses on how 'things' enter into and mediate everyday social relations and practices. Students will consider all aspects of the social life of things, from design and production through use, consumption and everyday practices. This will allow them to address a range of long-standing theoretical and political concerns within sociology such as the role of objects and materiality in social life; social organizations of objects and exchange, such as consumer culture; design, technology and innovation; and the socio-political status of 'everyday life' itself. At the same time, there will be a strong methodological emphasis: not just how do we study objects in everyday life, but how might such studies impact on social research more generally.

The course will rely heavily on case studies. After mapping out central traditions in material culture studies, the course will

focus on 2-3 strategically chosen objects to explore analytical and methodological issues (eg, mobile phones, water, bicycles, food, supermarkets, etc). Cross-cultural differences will be raised throughout but at least one of the cases will be predominantly focused on major global difference.

**Teaching:** This course is delivered through a combination of lectures, seminars and online materials totalling a minimum of 20 hours in the LT.

Reading Weeks: Students on this course will have a reading week in LT Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

1,500 word essay, due after reading week, in which students are asked to analyse an object from the standpoint of one of the theoretical perspectives introduced in the course. They will additionally submit a short research outline (probably 1-2 A4 sides) on which they can base their work towards the summative assessment.

**Indicative reading:**

- Drazin, A. & Küchler, S. (eds.) (2015) *The social life of materials: Studies in materials and society*. Bloomsbury Academic, London.
- Gunn, W., Otto, T. & Smith, R. C. (2013) *Design anthropology: Theory and practice*. Bloomsbury Academic, London.
- Latour, B. (2005) *Reassembling the Social: An Introduction to Actor-Network-Theory*. Oxford: Oxford University Press.
- Lury, C. (2011) *Consumer culture*, 2nd ed. Polity, Cambridge.
- Miller, D. (2008) *The comfort of things*. Polity, Cambridge.
- Molotch, H. (2003) *Where Stuff Comes From: How Toasters, Toilets, Cars, Computers and Many Other Things Come to Be as They Are*. New York and London: Routledge.
- Shove, E., M. Hand, J. Ingram and M. Watson (eds.) (2007) *The Design of Everyday Life*. Oxford: Berg.

**Assessment:** Research report (100%) in the ST.

A 3,000 word research report on an object of the student's choosing in which they are asked to address a clear list of considerations such as design, material properties, social practices and uses, methodological questions and so on.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the first Thursday of Summer Term.

Attendance at all classes and submission of all set coursework is required.

## SO348 Half Unit

### Family Diversity and Change

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Ursula Henz STC S100B

**Availability:** This course is available on the BSc in Language, Culture and Society and BSc in Sociology. This course is not available as an outside option. This course is available with permission to General Course students.

This course has a limited number of places (it is capped). Places are allocated on a first come first served basis.

**Course content:** The course introduces students to the area of family sociology, focusing on contemporary families and intimate relationships in Britain and other Western societies. It provides theoretical and empirical perspectives on a range of topics, including single parent families and post-divorce families; non-heterosexual families; intimate partnerships; parenting; transnational families.

**Teaching:** 20 contact hours in the MT.

Reading Weeks: Students on this course will have a reading week in MT Week 6, in line with departmental policy.

**Formative coursework:** Students are required to complete one formative essay.

**Indicative reading:**

- Treas, Judith, Scott, Jacqueline & Richards, Martin (eds.) (2014) *The Wiley Blackwell Companion to The Sociology of Families*, Chichester, West Sussex: Wiley Blackwell - covers many aspects

of the course.

Other recommended readings include:

- Chambers, Deborah & Gracia, Pablo (2022): *A Sociology of Family Life*. 2nd Edition. Cambridge: Polity Press.
- Lareau, Annette (2011): *Unequal Childhoods. Class, Race and Family Life*. University of California Press: Berkeley, Los Angeles, London.
- Smart, Carol & Neale, Bren (1999): *Family Fragments?* Cambridge: Polity Press.
- Smart, Carol, Neale, Bren & Wade, Amanda (2001): *The Changing Experience of Childhood: Families and Divorce*. Cambridge: Polity Press.
- Allan, Graham; Crow, Graham & Sheila Hawker (2011) *Stepfamilies*. New York: Palgrave Macmillan.

**Assessment:** Coursework (10%) in the MT.

Take-home assessment (90%) in January.

The first assessment, a reading diary (10%), is due on Wednesday of Week 11 of Michaelmas Term.

An electronic copy of the reading diary, to be uploaded to Moodle, no later than 4.00pm on the submission day.

Attendance at all classes and submission of all set coursework is required.

## SP100

### Understanding International Social and Public Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Isabel Shutes OLD.2.58

**Availability:** This course is compulsory on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics and BSc in International Social and Public Policy with Politics. This course is not available as an outside option nor to General Course students.

**Course content:** The course introduces students to the study and practice of international social and public policy. It considers how societies organise to address social needs, with reference to academic and policy debates across the so-called global North and South.

In the first half of the course (Michaelmas Term), you will develop your understanding of how welfare systems have developed and of the institutions and actors involved in different contexts across the world, including the state, market, civil society and families.

In the second half (Lent Term), you will consider the challenge of inequality and how different approaches in social policy, involving those institutions and actors, can redress or reinforce inequalities.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in both MT and LT.

**Formative coursework:** Students are expected to participate actively in course activities and to complete two formative assignments.

**Indicative reading:** Artaraz, K. and Hill, M. (2016) *Global Social Policy: Themes, Issues and Actors*. Basingstoke: Palgrave Macmillan.

Daly, M. (2011) *Welfare*. Cambridge: Polity.

Garland, D. (2016) *The Welfare State: A Very Short Introduction*. Oxford: Oxford University Press.

Kabeer, N., Cook, S. (2000) 'Revisioning social policy in the South: challenges and concepts', *IDS Bulletin*, 31: 4, 1-18.

Lewis, D. (2017) 'Should we pay more attention to South-North learning?', *Human Service Organisations: Management, Leadership and Governance*, 41: 4, 327-331.

Ikemura Amaral, A., Jones, G., Nogueira, M. (2020) 'Brazil's so-called 'invisibles' will need more than resilience to redress the unequal impacts of COVID-19 | LSE Latin America and Caribbean', LSE blogs <https://blogs.lse.ac.uk/latamcaribbean/2020/05/14/brazils-so-called-invisibles-will-need-more-than-resilience-to-redress-the-unequal-impacts-of-covid-19/>

**Assessment:** Online assessment (80%) in the ST. Group assignment (20%) in the MT.

## SP101

### Foundations of Social Policy Research

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Lucinda Platt (OLD.2.25)

**Availability:** This course is compulsory on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics and BSc in International Social and Public Policy with Politics. This course is not available as an outside option nor to General Course students.

**Course content:** This course is concerned with two questions that are essential to the study of social and public policy. First, *how do we know* what policies are needed, how they are experienced and whether they are effective? And second, *how is this knowledge used*: how (if at all) does it feed into the policy process and improve policies and outcomes?

SP101 aims to equip students to become informed consumers of research, able to read and evaluate research outputs that use a range of different approaches and methods to address questions in social and public policy. Students will be encouraged to think critically about the way that knowledge is constructed, about the nature of expertise, and about the influence of values and positionality on knowledge production. They will learn to assess the validity of claims made on the basis of research studies that use a range of different methods. The course will also explore the way evidence is used in policy making and in public discourse. The course provides the foundations for students to become active researchers themselves in later stages of the BSc ISPP degrees, preparing them for the second year research methods course and for their third year dissertation.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course. This course is taught in both MT and LT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

The essay in MT will be a short article critique (500 words), with a longer essay (1,000 words) due in LT.

Students will receive feedback on both to help them build towards their final essay.

Students will also make and receive feedback on a group presentation in MT, which will provide the basis for their assessed blogpost.

Assessed quizzes as well as other class activities will provide further opportunities for students to check their learning.

**Indicative reading:** Becker, S., Bryman, A. and Ferguson (2012) *Understanding Research for Social Policy and Social Work: Themes, Methods and Approaches*. 2nd Edition. London: Policy Press.

Bryman, A. (2012) *Social Research Methods*, 4th edition. Oxford

University Press.

Della Porta, D. and Keating, M. (2008) *Approaches and Methodologies in the Social Sciences*. Cambridge: CUP.

Gilbert, N. (2008) *Researching Social Life* 3rd ed. London: Sage.

Hill Collins, P. and Bilge, S. (2016) *Intersectionality (Key Concepts)*. London: Polity Press.

Howard, C. (2017) *Thinking Like a Political Scientist*. Chicago, IL: University of Chicago Press.

Parkhurst, J. (2017) *The Politics of Evidence: From evidence based policy to the good governance of evidence*. Abingdon, Oxon: Routledge.

**Assessment:** Essay (80%, 2000 words) in the ST and quiz (20%) in the LT.

Two forms of assessment will make up the overall grade for the course.

There will be two in-class quizzes on key terms and concepts during Lent Term; the better of the two quiz scores will count towards the grade (20%)

Students will submit a 2,000 essay in Summer Term (80%).

## SP110

### Sociology and Social Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Thomas Biegert OLD.2.54

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy with Politics, BSc in Politics and BSc in Politics and International Relations. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Places on this course are limited and priority is given to Social Policy students in the first instance. If places remain available once Social Policy students have been accommodated, they will be offered on a first come first served basis to students from outside the Department.

This course is not available to third year students.

**Pre-requisites:** -

**Course content:** This course introduces students to sociological ideas and thinking and how they link to key social policy issues. The course is organised around six major social policy concerns : gender inequalities; ethnic and racial inequalities; class mobility and stratification; educational opportunity and inequality; social networks and social segregation; neighbourhood deprivation and housing.

These are related to key classical and contemporary theoretical perspectives and concepts that have been used to describe and explain them, such as occupational segregation, discrimination, cultural and social capital, institutions, socialisation, identity and belonging, and intergenerational transmission of status, values and resources.

The sociological understanding of the underlying reasons for the various dimensions of social inequality inform the critical analysis of social policies that aim to tackle them.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in both MT and LT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 piece of coursework in the MT and LT.

One essay in MT

Two worksheets (one in MT, one in LT)

**Indicative reading:** The course will draw on three core texts, as well as academic journal articles:

David Grusky, D. and Szelenyi, S. (eds.) 2011 *The Inequality Reader: Contemporary and Foundational Readings in Race, Class, and Gender*. 2nd Edition. Westview Press Oxford University Press  
Payne, G. (ed.) 2013 *Social Divisions*. Third Edition. Palgrave Macmillan

Platt, L. 2019 *Understanding Inequalities: Stratification and Difference*. 2nd Edition. Polity Press.

For those unfamiliar or without a background in Sociology, the following text provides useful background: Fulcher, J. and Scott, J. (2011) *Sociology*, 4th Edition.

**Assessment:** Essay (40%, 1500 words) in the LT.  
Online assessment (60%) in the ST.

## SP111

### Social Economics and Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Stephen Jenkins OLD.2.29

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy with Politics, BSc in Politics, BSc in Politics and International Relations and BSc in Psychological and Behavioural Science. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

Places on this course are limited and priority is given to Social Policy students in the first instance. If places remain available once Social Policy students have been accommodated, they will be offered on a first come first served basis to students from outside the Department.

This course is not available to third year students.

**Pre-requisites:** No prior knowledge of economics is required.

**Course content:** This course provides an introduction to the economics of social policy and the economics of income distribution. The course begins by introducing basic economic concepts and principles and discussing their application to different social policy areas, including childcare, education, health care, social care, housing and the environment. Key concepts include supply, demand and elasticities, externalities and market failure, private insurance and social insurance.

The course goes on to analyse the distribution of household income, poverty and inequality, labour market earnings, and unemployment. It covers concepts such as human capital and productivity, and labour market discrimination, and looks at a range of policies, including minimum wage legislation, taxation, and the social security system.

Throughout, the course emphasises the importance of understanding political goals in assessing the effectiveness or justice of economic and social policies, and seeks to encourage students to draw on both theory and empirical evidence in addressing its core questions.

The course uses charts but is taught without mathematics and is designed to be suitable both for students with no prior knowledge of economics and for those who have taken A level economics. SP111 provides an introduction to the economics of social policy. We focus on real-world applications relevant to social and public policy and consider the strengths and weaknesses of conventional economic thinking. It is a full-year course. The course is designed to be accessible and stimulating for students of all backgrounds. We use charts and diagrams at times, but not maths or equations.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent

terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in both MT and LT.

**Formative coursework:** Students will be expected to complete exercises as required for classes, and write three formative essays during the course of the year.

**Indicative reading:** J Le Grand, C Propper & R Robinson, *The Economics of Social Problems*, 4th Edition, Palgrave, 2008  
R Lipsey and A Crystal, *Economics*, 14th edition, OUP, 2020 (or earlier edition)

N Barr, *Economics of the Welfare State*, 6th Edition, OUP 2020 (or earlier edition)

H Glennerster, *Understanding the Cost of Welfare*, 3rd edition. The Policy Press, 2017

J Hills, *Good Times, Bad Times: The Welfare Myth of Them and US*, revised edition, The Policy Press, 2017

A B Atkinson, *Inequality: What Can Be Done?* Harvard University Press, 2015.

**Assessment:** Online assessment (100%) in the ST.

## SP112

### Politics of Social Policy Making

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Liam Beiser-McGrath (OLD.2.50)

**Availability:** This course is available on the BSc in International Social and Public Policy and BSc in International Social and Public Policy with Politics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students. This course is not available to third year students.

**Course content:** The course introduces students to the way in which social and public policies are developed. It aims to provide tools to understand how policies are produced through political disagreement and negotiations and how policies reflect different needs and problems voiced by groups in societies. It focuses on the ways in which policy processes and decision making can be analysed. The course focuses on different models that are used in the analyses of policy processes in different international contexts. Furthermore, it links different analytical approaches to policy processes with political considerations of how political problems are framed and how policy goals are established. The course looks at these issues from the perspective of different actors and the ways in which different actors interact with each other within policy processes. The course brings together critical analytical frameworks for policy processes with empirical problems (cases). The course enables students to understand that policy processes are both about understanding society and shaping it. Furthermore, it introduces students to the various policy actors, including international actors and how these actors work together within socio-political and economic constraints. It also highlights the importance of identifying and understanding the different value positions and the associated negotiations that underwrite policy processes.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course. This course is taught in both MT and LT. The course is taught in a combined Lecture/Workshop format.

**Formative coursework:** Students will be expected to produce 4

exercises and 2 presentations in the MT and LT.

Students will be expected to produce 4 x short commentaries on specific questions and 2 presentations in the MT and LT. The best 3 of 4 commentaries will make up part of their summative assessment.

Students will be working in groups which will present short in-class exercises. Through group work and the feedback they will get throughout MT and the LT they will receive support for their poster preparations and presentations.

**Indicative reading:** Fischer, Frank (2010) *reframing Public Policy: Discursive Politics and Deliberative Practices*. London: OUP.

Hoppe, Robert (2011) *The Governance of Problems: Puzzling, Powering and Participation*. Bristol: Policy Press.

Kingdon, J. (1995) *Agendas, alternatives and public policies*, NY: Longman.

Ostrom, Elinor (2015) *Governing the Commons: the Evolution of Institutions for Collective Action*. London: CUP.

Pawson, Ray (2013) *The Science of Evaluation*. London: Sage.

Stone, Deborah (2012) *Policy Paradox: The Art of Political Decision Making*. NY: Norton.

**Assessment:** Coursework (30%, 500 words) in the MT and LT.

Presentation (25%, 500 words) in the LT.

Report (45%) in the ST.

We will assess students at three stages:

- 4 short policy commentaries on specific questions which will be completed across the year. Students will get feedback on each and, the best of these will be taken as their 30% coursework mark
- Students will be put into groups in MT to choose a policy area of interest and use it to link analytical discussions from the class to their own analysis of a particular policy implemented in that field. Each group is expected to produce (with the support of their teachers) a poster to discuss their analysis and to present to the class during LT. This exercise (both the production and presentation) will contribute to 25% of their overall mark
- Students will write a short report on their presentation and on the feedback they receive on their contribution to the poster. This is due in ST and will be the final 45% of their overall mark for the course.

## SP200

### Comparative and International Social Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Timo Fleckenstein OLD.2.60

**Availability:** This course is compulsory on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics and BSc in Social Policy and Sociology. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** This course is only available to students who have completed Understanding International Social and Public Policy (SP100).

**Course content:** The course introduces the comparative method in social policy research as well as the main analytical approaches to understanding social policy developments. It provides an overview of social policies in different areas of the world and enables students to identify global pressures on national policy environments.

The course also examines the impact of key international and supranational institutions on social policy-making. It investigates the welfare and work nexus from a comparative perspective.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/

seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in both MT and LT.

**Formative coursework:** Students are expected to submit three pieces of formative written work throughout the academic year and are expected to read for and prepare contributions to class discussion each week.

**Indicative reading:** K Armingeon & G Bonoli (Eds), *The Politics of Post-Industrial Welfare States* (2006)

F Castles, *The Future of the Welfare State* (2004)

J Clasen, *Reforming European Welfare States* (2004)

B Deacon, *Global Social Policy and Governance* (2007)

I Gough & G Wood (Eds), *Insecurity and Welfare Regimes in Asia, Africa and Latin America* (2004)

L Hantrais, *Social Policy in the European Union* (2007)

J Lewis, *Work-Family Balance, Gender and Policy* (2009)

P Taylor-Gooby (Ed), *New Risks, New Welfare* (2005).

**Assessment:** Online assessment (100%) in the ST.

## SP201

### Research Methods for Social Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Shuang Chen OLD.2.55

**Availability:** This course is compulsory on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics and BSc in Social Policy and Sociology. This course is not available as an outside option nor to General Course students.

**Pre-requisites:** Students must have completed Foundations of Social Policy Research (SP101).

**Course content:** This course introduces students to tools used by scholars and practitioners in the study of social policy, focusing on their application to addressing research questions and policy issues in various disciplines and contexts. The course is aimed at helping students transform from a consumer to a producer of research. Through various hands-on activities, students will gain first-hand experience of a research process from start to finish, and, subsequently, build confidence and competence for conducting independent dissertation research in the third year. In the process, students will develop life-long problem-solving and analytical skills not only essential for working in the field of social policy but also highly valued by and transferable to other sectors.

This course is divided into two parts. SP201.2 in MT focuses on research design and qualitative methods. SP201.1 in LT focuses on quantitative methods, including statistical programming using STATA.

By the end of the course, you will be able to:

- 1 Formulate your own research question
- 2 Propose appropriate data and methods to answer the question
- 3 Recognise ethical issues in social research and address them in research design and conduct
- 4 Conduct qualitative research, including collecting data from in-depth interviews, analysing the data, and writing up the results
- 5 Apply basic statistical methods to quantitative data and interpret the results

**Teaching:** The course combines two elements:

#### SA201.2 Research Methods for Social Policy

##### SA201.1 Data Analysis for Social Policy

Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy>

All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>)

which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/ seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in both MT and LT.

**Formative coursework:** Students will be expected to produce 1 project in the MT and 1 presentation and 1 problem sets in the LT. 1 A qualitative research plan, including 160 completed ethics forms. By completing this assessment and receiving feedbacks, you will be prepared to begin fieldwork. Importantly, you are required to obtain approval of your ethics forms before you are allowed to conduct any interviews.

2 Poster presentation. Students will make a poster presenting their qualitative research project, including preliminary findings.

3 A problem set. The problem set will follow a similar format as the summative quantitative take-home test.

The first two formative assessments are designed to help students succeed on the first summative assessment (i.e., a qualitative research project). The third formative assessment is linked to the summative quantitative take-home test.

**Indicative reading:** Weiss, Robert S. *Learning from strangers:*

*The art and method of qualitative interview studies.* Simon and Schuster, 1995.

Imai, Kosuke, and Lori D. Bougher. *Quantitative Social Science: An Introduction in Stata.* Princeton University Press, 2021.

**Assessment:** Project (50%) and take-home assessment (50%).

The summative assessments for this course consist of two components, each worth 50% of the final mark.

1 A qualitative research project. For this assessment, you will design 160 an independent qualitative research project, 160 collect qualitative data, analyse the data, write up and discuss the findings. 160

2 A quantitative take-home test. The test will resemble a problem set and require students to analyse a given dataset. 160

## SP210

### Development and Social Change

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Robtel Neajai Pailey OLD.2.53

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Course content:** SP210 introduces students to the interrelationship between social and public policies with a particular emphasis on the so-called 'Global South'. It focuses on the ways in which different countries organise their policy processes and institutions to achieve their objectives in relation to inequality and poverty. The course invites students to think about how 'development' might be considered a taken-for-granted process of 'amelioration' or a constantly negotiated process of 'transformation' in both the so-called 'Global South' and 'Global North'; how socio-economic needs are identified, focused, and addressed or ignored in different settings; who can and cannot participate in policy processes and why; and what are the historical, political and social determinants of these processes in different places.

The course is designed to link research/theory to policy and practice. In addition, it introduces students to various policy actors and the ways in which they work together within specific socio-political and economic constraints. The course rigorously links theoretical analysis with empirical enquiry and highlights the importance of identifying and understanding different value positions that underwrite policy thinking.

SP210 is taught from a Critical Development Studies (CDS) lens of analysis, primarily because CDS is concerned with analysing systemic changes needed to achieve economic, social and environmental justice (ie, non-mainstream, alternative development) in the same way that social policy interventions are intended to enhance well-being, particularly of the most marginalised in societies across the globe.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in both MT and LT.

**Formative coursework:** Students will be expected to produce two pieces of formative coursework.

**Indicative reading:**

- Long, N. (2001) *Development Sociology: Actor Perspectives.* New York: Routledge.
- Midgely, J., Surender, R. and Alfes, L. (eds) *Handbook of Social Policy and Development.* Cheltenham and Northampton: Edward Elgar Publishing.
- Mkandawire, T. (ed) (2004) *Social Policy in a Development Context.* Geneva: UNRISD.
- Sen, A. (1999) *Development as Freedom.* Oxford: Oxford University Press.
- Veltmeyer, H. and Bowles, P. (eds) (2021) *The Essential Guide to Critical Development Studies* (2nd edition). Abingdon, Oxon: Routledge.

**Assessment:** Essay (40%, 2000 words) in the LT.

Online assessment (30%) in the ST.

Class participation (30%) in the MT and LT.

## SP230

### Education Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Anne West OLD.2.30

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Course content:** This course provides an introduction to the main issues in educational policy. It draws on interdisciplinary research literature and has a comparative and international focus. The course aims to show how major concepts used in social policy can be applied to the study of education, for example, equality of opportunity, equity and the distribution of resources.

Issues to be addressed include: policy goals of education; historical development of education and the role of the state in provision and funding; the impact of social characteristics on educational outcomes (class, gender, ethnicity and 'race'); education of children with special educational needs and disabilities; financing education; private schooling; privatisation and the changing role of the state; early years education; school-based education; post-compulsory education including higher education; education systems in comparative perspective and education regimes, decentralisation and devolution. Not all of these issues are covered as separate weekly topics.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/

seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in both MT and LT.

**Formative coursework:** There will be three pieces of formative work for students to complete:

One formative essay in MT

One formative essay in LT

One mock online assessment essay in LT.

**Indicative reading:** Some introductory texts are recommended: Arthur, J., Peterson, A. (eds) (2011) *The Routledge Companion to Education*. London: Routledge.

Lauder, H., Brown, P., Dillabough, J., Halsey, A.H. (eds) (2006) *Education, Globalization and Social Change*. Oxford: Oxford University Press.

Specialist reading lists for each topic will be provided.

**Assessment:** Online assessment (100%) in the ST.

## SP231 Not available in 2022/23

### Poverty, Inequality, and Social Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Amanda Sheely OLD.2.52

**Availability:** This course is available on the BSc in Economic History and Geography, BSc in Environment and Development, BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics and BSc in International Social and Public Policy with Politics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Course content:** This course aims to introduce students to issues surrounding the ways that social policy understands, measures, and seeks to ameliorate poverty and other forms of social disadvantage throughout the life course. Specific policies include: redistribution, basic income guarantees, early childhood education, education, work activation policies, and social care. This course draws primarily on examples from the United Kingdom, the United States, and Western Europe.

**Teaching:** Courses in Social Policy will follow the Teaching Model which has been adopted by the Department of Social Policy during the period of the pandemic. This is outlined HERE: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy>

This course will be taught through a combination of either a recorded lecture plus a follow-up Q and A session or a 'live' on-line lecture; and classes/seminars of 1-1.5 hours (with size and length of classes/seminars depending on social distancing requirements).

Further information will be provided by the Course Convenor in the first lecture of the course.

**Formative coursework:** As preparation for the first summative essay, which is a book review, students will be asked to write a film review following the same format as the summative.

For the second summative essay, students will prepare and present a one-page outline of their policy critique.

**Indicative reading:** A detailed list will be provided at the start of the session.

H Dean & L Platt (2016) *Social Advantage and Disadvantage* Oxford University Press

J Hills (2014). *Good Times, Bad Times: The Welfare Myth of Them and Us* Policy Press

AB Atkinson (2015) *Inequality: What Can Be Done?* Harvard University Press

S.P. Jenkins (2011) *Changing Fortunes: Income Mobility and Poverty Dynamics in Britain* Oxford University Press

T. Shildrick, R. MacDonald, C. Webster, & K Garthwaite (2010). *The Low-Pay, No-Pay Cycle: Understanding Recurrent Poverty* Joseph Rowntree Foundation.

**Assessment:** Essay (60%, 2000 words) in the ST.

Essay (40%, 1500 words) in the LT.

Summative assessment for this course comprises two essays.

The first essay, which takes the format of a book critique is worth 40% of the mark and is due in Lent Term.

The second essay is a policy evaluation. This essay is worth 60% of the mark and is due in Summer Term.

## SP232

### Health and Social Care Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Tania Burchardt 32L 3.30

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Course content:** The course equips students with the concepts, tools and knowledge to understand the challenges of health and social care policy in the 21st century, in the differing contexts of the UK and other rich countries, and in low- and middle-income countries. In the wake of the coronavirus pandemic, this feels more important than ever.

In the first term, we consider the fundamental aims of health and social care policy, including for example health and well-being, health inequalities by ethnicity and social class, public health and health promotion, and health as a human right. We then examine policy approaches and healthcare regimes across different country contexts, including the strengths and weaknesses of different models of healthcare financing, public and private.

In the second term, we move on to think about how to bring about change - both change in people's behaviour through regulation, 'nudge' and incentives, and change in health and social care systems, including an examination of the role played by global pharmaceutical and healthcare companies, and the potential for reform. We investigate the role that evaluations of health and social care play in shaping policy change. Finally, we turn to specific groups and needs, including for example the challenges of mental health policy, child protection, and healthcare needs of sexual minorities.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy>

All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in both MT and LT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

One essay following a class task or presentation. This is compulsory.

One essay and two essay plans using the same format as the summative assessment. This is encouraged, but optional.

**Indicative reading:** There is no course textbook. A list of selected texts and readings will be included in the reading lists for each week.

Yaya S, Yeboah H, Charles CH, et al (2020), Ethnic and racial disparities in COVID-19-related deaths: counting the trees, hiding the forest, *BMJ Global Health*; 5:e002913

Wouters O, Shadlen K, Salcher-Konrad, M et al (2021), Challenges in ensuring global access to COVID-19 vaccines: production, affordability, allocation, and deployment, *The Lancet*, Volume 397, Issue 10278, Pages 1023-1034

World Health Organization (2017) Tracking universal health coverage: 2017 Global Monitoring Report  
 Valéry Ridde, Ludovic Queuille & Marame Ndour (2014) Nine misconceptions about free healthcare in sub-Saharan Africa, *Development Studies Research*, 1:1, 54-63

**Assessment:** Online assessment (100%) in the ST.  
 Students will be asked to write essays from a selection of questions addressing a range of topics covered in the course. This will be a take-home, open-book, online assessment.

## SP271 Not available in 2022/23

### Psychology of Crime and Criminal Justice

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Michael Shiner OLD.2.34

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics and BSc in Social Policy and Sociology. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course cannot be taken with SO210 Crime, Deviance and Control or SO240 Crime, Deviance and Control.

**Course content:** The course examines the contribution that psychology has made to our understanding of crime and criminal justice. It explores what psychological theory and research have to tell us about the causes of crime and the ways in which we respond to such behaviour.

Particular attention is paid to the development of individual criminality and criminal careers; drug and alcohol related crime; varieties of criminal behaviour including violence, sexual crime and stalking; mental disorder and crime; victims and victimisation; public attitudes towards punishment; public confidence in the criminal justice system; prejudice and discrimination; organisational dynamics and institutional change; offender profiling and criminal investigation; eye witness testimony and legal decision making; rehabilitation and imprisonment.

**Teaching:** Courses in Social Policy will follow the Teaching Model which has been adopted by the Department of Social Policy during the period of the pandemic. This is outlined HERE: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy>

This course will be taught through a combination of either a recorded lecture plus a follow-up Q and A session or a 'live' on-line lecture; and classes/seminars of 1-1.5 hours (with size and length of classes/seminars depending on social distancing requirements).

Further information will be provided by the Course Convenor in the first lecture of the course.

**Formative coursework:** One essay per term (MT and LT)

**Indicative reading:** J.R. Adler and J.M.Gray, *Forensic Psychology: Concepts, Debates and Practice*, 2010

PB Ainsworth, *Psychology and Crime: Myths and Reality*, 2000

J.Brown and E.Campbell, *The Cambridge Handbook of Forensic Psychology*, 2010

C.R. Hollin, *Psychology and Crime: An Introduction to Criminological Psychology*, 2013

J McGuire, *Understanding Psychology and Crime*, 2004

F. Pakes and J. Winstone, *Psychology and Crime: Understanding and Tackling Offending Behaviour*, 2007.

**Assessment:** Online assessment (100%) in the ST.

## SP314 Half Unit

### Ethnicity, Race and Social Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Coretta Phillips OLD.2.28

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics and BSc in International Social and Public Policy with Politics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students. This course is only available to 3rd Year undergraduates.

**Course content:** The overarching theme of the course is to examine and explain the distribution of resources, opportunities and life chances of different social groups categorised by their ethnicity and race, while also considering how individual experience is mediated through other dimensions of identity such as social class, gender, and faith/religion. The course proceeds through conceptualising core notions of race, ethnicity, racism, discrimination, before examining questions around migration, citizenship, and belonging, integration, multiculturalism, and interculturalism. It then moves to examining inequalities in key social policy domains (settlement and housing, education, employment, and criminal justice) and assesses different policy approaches to ameliorate racialised inequalities, including positive action, affirmative action, diversity approaches, cultural competence/sensitivity/intelligence, and minority-only service provision. It uses an array of case studies in lectures and in classes/readings from all regions of the world with a mix of high, middle, and low-income contexts.

**Teaching:** 15 hours of lectures and 15 hours of classes in the MT.

**Formative coursework:** Students will be expected to produce 1 essay in November.

**Indicative reading:** While there is no set text for this course, those listed below are general textbooks and edited collections which are strongly recommended for background reading, although many have a primary British focus:

- Williams, F. (2021) *Social Policy: A Critical and Intersectional Analysis*. Oxford: Polity.
- Rattansi, A. (2020) *Racism: A Very Short Introduction*. Second Edition. Oxford: Oxford University Press.
- Tajmazinani, A. A. (2021) *Social Policy in the Islamic World*. Basingstoke: Palgrave Macmillan.
- Murji, K. (2017) *Racism, Policy and Politics*. Bristol: Policy Press.
- Jivraj, S. and Simpson, L. (eds) (2015) *Ethnic Identity and Inequalities in Britain: the Dynamics of Diversity*. London: Policy Press.
- Sangeeta, C., Atkin, K., Craig, G. and Flynn, R. (2019) *Understanding 'Race' and Ethnicity: Theory, History, Policy, Practice*. Second Edition. Bristol: Policy Press.
- Bhattacharyya, G, et al. (2021) *Empire's Endgame: Racism and the British State*. London: Pluto Press.
- Bulmer, M. and Solomos, J. (ed.) (1999) *Racism*. Oxford: Oxford University Press.
- Back, L. and Solomos, J. (eds.) (2022) *Theories of Race and Racism: A Reader*. 3rd Edition. London: Routledge.

**Assessment:** Essay (100%, 2500 words) in the LT.

## SP331 Half Unit

### Sexuality, Everyday Lives and Social Policy in Developing Countries

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Timothy Hildebrandt OLD 2.56

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes

where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students.

**Course content:** This course aims to analyse and understand the way social policies deploy sexuality categories in regulating everyday life in developing countries, both in its public and private manifestations.

Sexuality is a central part of human experience. Institutions created to deal with human life/wellbeing have considered sexuality as one of the reference points from which to regulate social relations. Perceptions on sexuality are formed in the intersection of socio-political, historical processes and everyday practises in particular societies. Particular perceptions of sexuality in turn influence the way people negotiate access to resources to address their wellbeing.

In some central areas of social policy sexuality is used as one of the sorting mechanisms (in addition to gender, race among various other categories) to establish entitlements for resources (social, political and economic). In this regard social policy is both informed by perceptions on sexuality and in turn social policy acts as a mechanism of social reproduction of these perspectives impacting people's lives. And while globally high profile cases and rights abuses related to sexuality are important, a narrow global policy focus on these overlooks how more embedded and diverse social policy practices related to sexuality are impacting people's lives in many developing countries.

This course aims to explore sexuality and its importance for social policy for developing countries. It aims to consider social policy and particular interventions in their historical contexts, as a way of unpacking the construction of sexuality in the intersection of colonialism, gender, race, class and international policy frameworks in developing countries.

The course also aims to interrogate the relationship between particular social policy prescriptions developed in most industrialized welfare societies and the way some of these are transferred to developing countries. The major concern of the analysis is to bring out the perceptions of sexuality that underwrite these policies and how these interact with existing perceptions of sexualities and their performances (identities, desires and bodily practices) in multiple developing country contexts. These policy areas include, among others, discussions of rights, entitlements, citizenship, same-sex marriage, sexually transmitted disease, HIV/AIDS, family policies, migration/border controls, criminality and employment-related policies.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in LT.

The course will be delivered in Lent term.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

Students will be required to apply their understanding of both theoretical frameworks and issues related to sexualities and social policies in a formative essay.

**Indicative reading:**

- Aggleton, P., Boyce, P. and Moore, H. (2012) *Understanding Global Sexualities*. New Frontiers. London: Routledge;
- Butler, J. (1990) *Gender Trouble: Feminism and the Subversion of Identity*. New York: Routledge;
- Canaday, M. (2009) *The Straight State: Sexuality and Citizenship*. Princeton university Press; Cornwall, A., Corrêa, S. and Jolly, S. (2008)
- *Development with a Body: Sexuality, Human Rights and Development*. London: Zed Book;

- Correa, S., Petchesky, R. and Parker, R. (2008) *Sexuality, Health and Human Rights*. London: Routledge;

- Reid, G. and Walker, L. (2005) *Men Behaving Differently: South African Men since 1994*. Doubleday books;
- Richey, L. A. (2008) *Population Politics and Development: From the policies to the Clinics*. London: Palgrave;
- Stoler, A. L. (2002) *Carnal Knowledge and Imperial Power: Race and the Intimate in Colonial Rule*. University of California Press;
- Tamale, S. (2011) *African Sexualities: A Reader*. Pambazuka Press.

Additional readings for each week are available on Moodle.

**Assessment:** Policy memo (100%) in the ST.

## SP332 Half Unit

### Social Security Policies

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Iva Tasseva OLD.2.35

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students.

**Course content:** The course analyses the purpose, design and impact of social security policies, meaning policies that protect and support household income at times when income from the labour market does not suffice. The need for social security arises both from demographic factors that affect nearly everyone during their life course - childhood, parenthood, old age - and from risk factors that end up affecting only some - unemployment, sickness and disability.

The course takes a comparative approach, examining differences in the design of social security policies across welfare regimes and drawing on examples from different countries. Students will develop an understanding of the challenges and trade-offs that arise in designing social security policies to meet multiple goals, will further their knowledge about the ways systems function in practice, and will develop the tools for assessing the structure and effectiveness of social security in any given country. The course will consider how successfully social security systems are adapting to meet the challenges of the twenty-first century, including an ageing population, migration, and the changing nature of employment brought about by rapid technological change. The course will also look at the role of social security in protecting household incomes in times of crisis, such as the Covid-19 pandemic.

Most of the examples in the lectures and readings relate to higher- and middle-income countries, but many of the issues covered are also relevant in countries where social security systems are less developed. Students will be encouraged to further their understanding of social security in their country of origin, or another country of their choice, and to draw on this knowledge in classes.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy>. All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person lectures and in-person classes. This course is taught in Lent Term.

Further information will be provided by the Course Convenor in the first lecture of the course.

**Formative coursework:** Students will write one essay during LT, and will receive feedback in preparation for the summative assessment.

**Indicative reading:**

- R Walker (2005) *Social Security and Welfare: Concepts and Comparisons*. Open University Press.
- J Hills (2015) *Good Times, Bad Times: The Welfare Myth of Them and Us*. The Policy Press.
- J Millar and R Sainsbury (2018) (eds) *Understanding Social Security*, Third Edition. The Policy Press.
- P Spicker (2011) *How Social Security Works: An introduction to benefits in Britain*. The Policy Press
- J Kvist et al (2012) *Changing Social Equality: The Nordic Welfare Model in the 21st Century*. The Policy Press.
- N Barr and P Diamond (2009) *Pension Reform: A Short Guide*. Oxford University Press.
- M Frolich et al (2015) *Social Insurance, Informality and Labor Markets: How to Protect Workers While Creating Good Jobs*. Oxford University Press.

An extended reading list will be provided, with specific readings for each week's topic.

**Assessment:** Essay (100%, 2500 words) in the LT.

The essay will require students to demonstrate their ability to apply the knowledge and understanding they have gained on the course to evaluate the design and impact of policies in different countries.

## SP333 Half Unit

### NGOs, Social Policy and Development

This information is for the 2022/23 session.

**Teacher responsible:** Dr Timothy Hildebrandt OLD.2.56

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students.

**Course content:** While the study of social and public policy has traditionally been concerned with actions taken by governments, the wider non-governmental sector is increasingly recognised as playing a key role. This course focuses on both international and local 'non-governmental organizations' (NGOs) that have emerged around the world to address a wide range of social, political and environmental concerns. It offers a critical perspective on NGOs in the context of development and social policy, covering both theoretical and policy issues. The focus is on two main inter-related themes: how NGOs serve as vehicles through which citizens organise, and how NGOs are instruments through which states, businesses and funding agencies pursue their interests. Most of the examples in the lectures and the readings will relate to the Global South, but many of the issues covered are also relevant in rich industrialised countries. Topics covered include definitions and history of NGOs; the changing policy contexts in which development NGOs operate; conceptual debates around 'civil society' and third sector; competing theoretical perspectives on NGOs; the domestic, international and global dimensions of non-governmental action; shifting relationships with other policy actors; service delivery and advocacy roles; international humanitarianism; challenges of NGO legitimacy and accountability; resource dilemmas; voluntarism and volunteering; and NGO organisational growth and change.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code

(<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in MT.

**Formative coursework:** Students will write one essay (1500 words) during Michaelmas Term, and will receive written feedback in preparation for the summative assessment.

**Indicative reading:** Banks, Nicola, David Hulme, Michael Edwards (2015) 'NGOs, states, and donors revisited: still too close for comfort?' *World Development*, Volume 66, pp.707–718.

Keck, M. E. & Sikkink, K. (1998) *Activists Beyond Borders: Advocacy Networks in International Politics*. Cornell University Press.

Lewis, David (2014) *Non-Governmental Organisations, Management and Development*. Routledge.

Schuller, M. (2012) *Killing with Kindness: Haiti, International Aid, and NGOs*. Rutgers University Press.

Swidler, Ann and Susan Cotts Watkins (2016) *A Fraught Embrace: The Romance and Reality of AIDS Altruism in Africa*. Princeton University Press.

Wallace, Tina, Fenella Porter and Mark Ralph-Bowman (eds. 2013) *Aid, NGOs and the Realities of Women's Lives: A Perfect Storm*. Practical Action Publishing.

**Assessment:** Essay (100%, 3000 words) in the LT.

## SP335 Half Unit

### Migration: Current Research, Critical Approaches

This information is for the 2022/23 session.

**Teacher responsible:** Prof Lucinda Platt OLD.2.25

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students.

**Course content:** This interdisciplinary course addresses contemporary global migration issues with reference to both developing and developed country contexts and to different patterns and forms of migration. The course examines the relationship between migration and social and public policies, including the implications for how migrants and migration are conceptualised, for inequalities in the movement of people, for welfare systems, and for the impacts of migration in countries of origin and destination. It draws on current approaches to researching migration, and considers the implications of those approaches.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading:**

- Goldin, I., Cameron, G.160 & Balarajan, M. (2012) *Exceptional*

People: How Migration Shaped Our World and Will Define Our Future, Princeton University Press. CHAPTER 1

- Shachar, A. (2009) *The Birthright Lottery: Citizenship and Global Inequality*, Cambridge MA: Harvard University Press. INTRODUCTION.
- Migali, S. and Scipioni, M. (2019) "Who's About to Leave? A Global Survey of Aspirations and Intentions to Migrate." *International Migration*, 57: 181-200.
- Laczko, F. and Aghazarm, C. (2009) *Migration, Environment and Climate Change: Assessing the Evidence*. Geneva: International Organization for Migration (IOM).
- Donato, K. et al. (2006) "A Glass Half Full? Gender in Migration Studies", *International Migration Review*, 40: 1, 3-26.
- Lee, J. et al. (2014) "The International Migration Review at 50: Reflecting on Half a Century of International Migration Research and Looking Ahead", *International Migration Review*, 48: Anniversary Issue, S3-S36.
- Ambrosini, M. and Van der Leun, J. (2015) "Implementing Human Rights: Civil Society and Migration Policies", *Journal of Immigrant & Refugee Studies*, 13:2, 103-115.
- Czaika, M. and De Haas, H. (2013) "The Effectiveness of Migration Policies", *Population and Development Review*, 39: 3, 487-508.

The reading list includes required and supplementary readings that demonstrate current debates and approaches. Readings will be complemented by podcasts, videos and interactive materials relating to the readings. A film showing will also provide an early point of reference and discussion.

**Assessment:** Essay (100%, 2000 words) in the LT.

The course is assessed by one summative assignment (100% weighting). This is a written essay that should address one question from a set provided.

The summative assignment is due at the beginning of the term following the term in which the course is taught.

## SP336 Half Unit

### Behavioural Public Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Adam Oliver Old 2.33

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy, BSc in Social Policy and Economics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students

**Course content:** The application of behavioural economics and behavioural science to public policy issues has been, and continues to be, a major theme in the policy discourse internationally. This course offers students a thorough grounding in the theory and findings that define behavioural economics, from the major violations of standard economic theory to prospect theory and the theories of human motivation. The course goes on to consider the conceptual policy frameworks that have been informed by behavioural economics, with examples – so called nudge, shove and budge policies – illustrated so as to highlight how these frameworks are applied in practice. Students will also be exposed to the different behavioural-informed schools of thought that have prescribed divergent paths for public sector governance.

The course should interest anyone who is concerned with issues pertaining to social and public policy across any sector in any country. The literature consulted in this area is necessarily multidisciplinary, principally encompassing economics, psychology, political science, policy and ethics.

**Teaching:** Lectures will cover numerous topics in behavioural public policy. Classes will then include a range of activities on each

topics, including short answer quizzes, the students' own ideas on how to develop behavioural public policies, discussion on close reading of some key texts, and small group discussions of key questions on each topic.

Courses in Social Policy follow the Teaching Model outlined on the following page:

<https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy>

All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course. The course will be delivered in Lent term.

**Formative coursework:** Students will be expected to produce 1 piece of coursework in the LT.

**Indicative reading:** The course text is: Oliver, A. 2017. *The Origins of Behavioural Public Policy*. Cambridge: Cambridge University Press.

The above book consists of ten chapters. One chapter each week is essential reading. Additional readings will be given on the reading list, and via advice from the seminar leader.

**Assessment:** Essay (100%, 2500 words) in the ST.

## SP372 Half Unit

### Punishment and Penal Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Leonidas Cheliotis OLD 2.51

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students.

**Course content:** This third-year course will run as a half-unit option, and will explore punishment and penal policy from a range of comparative perspectives. Focusing on Anglophone jurisdictions and the rest of the world in equal measure, the course will consider in depth a wide variety of historical and international comparative studies of punishment and penal policy, both from the field of criminology and beyond. In so doing, the course will critically examine theoretical frameworks and empirical research on such issues as:

- the forms state punishment has assumed over time and in different national and regional contexts;
- the array and relative significance of the reasons why punishment and penal policy may develop, qualitatively as well as quantitatively, in particular ways at given historical junctures and in different jurisdictions;
- the relationship between political systems and punishment, with particular reference to processes of democratisation;
- the links between penal policy and different forms of economic organisation, from preindustrial capitalism to welfare capitalism and neoliberalism; and
- the role of punishment in society as explained through psychosocial theories and research

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through

a combination of in-person Lectures and In person classes/ seminars. Further information will be provided by the Course Convenor in the first lecture of the course

The course will be delivered in Lent term.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** Alexander, M. (2010) *The New Jim Crow: Mass Incarceration in the Age of Colorblindness*. New York and London: The New Press.

Brown, M. (2009) *The Culture of Punishment: Prison, Society, and Spectacle*. New York and London: New York University Press.

Dumm, T. L. (1987) *Democracy and Punishment: Disciplinary Origins of the United States*. Madison, WI: The University of Wisconsin Press.

Garland, D. (1985) *Punishment and Welfare: A History of Penal Strategies*. Aldershot, UK: Gower.

Gottschalk, M. (2014) *Caught: The Prison State and the Lockdown of American Politics*. Princeton, NJ: Princeton University Press.

Karstedt, S. (ed.) (2009) *Legal Institutions and Collective Memories*. Oxford: Hart.

Lacey, N. (2008) *The Prisoners' Dilemma: Political Economy and Punishment in Contemporary Democracies*. Cambridge: Cambridge University Press.

McBride, K. (2007) *Punishment and Political Order*. Ann Arbor, MI: The University of Michigan Press.

Reiner, R. (2007) *Law and Order: An Honest Citizen's Guide to Crime and Control*. Cambridge: Polity.

Salvatore, R. D., Aguirre, C. and G. M. Joseph (eds) (2001) *Crime and Punishment in Latin America: Law and Society since Colonial Times*. Durham, NC: Duke University Press.

**Assessment:** Essay (100%, 3000 words) in the ST.

Student will be expected to produce an essay in the Summer Term based on one of the topics covered by the teaching across the Term, chosen from a pre-defined list of topics.

## SP374 Half Unit

### Riots, Disorder and Urban Violence

**This information is for the 2022/23 session.**

**Teacher responsible:** Tim Newburn (OLD 2.40a)

**Availability:** This course is available on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is only available to third year undergraduate students

**Pre-requisites:** Some familiarity with sociology and/or criminology would be an advantage, but is not a formal prerequisite. Anyone unfamiliar with criminology can find a full introduction to the subject in: Newburn, T. (2017) *Criminology*, London: Routledge, 3rd Edition. An easier, quicker overview can be found in: Newburn, T. (2019) *Criminology: A very short introduction*, Oxford: OUP

**Course content:** This course focuses on urban or collective violence, or what more colloquially tend to be referred to as 'riots'. From Hong Kong and Santiago to the Gilets Jaunes in Paris and the uprisings in America after the death of George Floyd and during the Presidential election, this is a subject of great contemporary relevance.

The course will consider the various approaches that have been taken to this subject - via history, psychology and sociology - and, focusing on particular examples, the course will examine some of the core issues in the field including: the causes and consequences of riots; psychological versus sociological explanations; the role of race/ethnicity; the impact of traditional and new social media on the nature and organisation of rioting; the role and changing nature of the policing of urban disorder; and how riots might be understood both historically and comparatively.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms".

Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/ seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

The course will be delivered in LT

**Formative coursework:** Students will be required to write and submit one piece of formative coursework for assessment and feedback.

This will be an essay outline - in effect the outline of their summative essay, including a full introductory paragraph.

**Indicative reading:**

- Katz, J. (2016) Culture within and culture about crime: The case of the 'Rodney King riots', *Crime, Media, Culture*
- Moran, M. and Waddington, D. (2015) Recent riots in the UK and France: Causes and commonalities, *Contention*, 2, 2, 57-73
- Newburn, T. (2015) The 2011 English riots in recent historical perspective, *British Journal of Criminology*, 55, 1, 375-392
- Newburn, T. (2021) The causes and consequences of urban riot and unrest, *Annual Review of Criminology*, 4, 53-71
- Reicher, S. D. (1984) The St Pauls' riot: An explanation of the limits of crowd action in terms of a social identity model, *European Journal of Social Psychology*, 14, 1-21
- Waddington, D. (1998) Waddington Versus Waddington: Public Order Theory on Trial, *Theoretical Criminology*, 2: 373-394

**Additional reading:**

- Castells, M. (2015) The Egyptian Revolution, in Goodwin, J. and Jasper, J.M. (eds) *The Social Movements Reader*, Oxford: Blackwell
- King, M. and Waddington, D. (2006) Flashpoints revisited: a critical application to the policing of anti-globalization protest, *Policing and Society*, 15, 3, 255-282
- Marx, G. (1972) Issueless riots, in Short, J. and Wolfgang, M. (eds) *Collective Violence*, Chicago: Aldine
- Newburn, T., Cooper, K., Deacon, R. and Diski, R. (2015) 'Shopping for Free? Looting, consumerism and the 2011 riots, *British Journal of Criminology*, 55 (5): 987-1004
- Proctor, R., Crump, J., Karstedt, S., Voss, A. and Cantijoch, M. (2013) Reading the riots: what were the police doing on Twitter?, *Policing and Society*, 23, 4, 413-36
- Stott, C. and Drury, C. (2017) Contemporary understanding of riots: Classical crowd psychology, ideology and the social identity approach, *Public Understanding of Science*, 21, 1, 2-14

**Assessment:** Coursework (100%, 3000 words) in the LT.

The coursework (100%) will comprise a single summative essay. Students will have considerable input in deciding the precise focus of their individual summative work.

## SP399

### Dissertation

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Anne West OLD 2.30

**Availability:** This course is compulsory on the BSc in International Social and Public Policy, BSc in International Social and Public Policy and Economics, BSc in International Social and Public Policy with Politics, BSc in Social Policy and Sociology and BSc in Social Policy with Government. This course is not available as an outside option nor to General Course students.

**Course content:** A dissertation of 8,000 words on a topic to be approved by the candidate's Academic Mentor. The dissertation is designed to allow a detailed and thorough exploration of an area of interest to the student. It should be on a topic area within the field of the degree programme; it may involve original fieldwork, or the

analysis and appraisal of existing literature.

**Teaching:** Students will be allocated an Academic Mentor who will supervise their dissertation. In addition to individual supervision meetings, there will be compulsory workshop sessions in Michaelmas Term to help students plan and structure their work on the dissertation, as well as additional optional advice/troubleshooting sessions in Michaelmas Term. In Lent Term there will be compulsory presentation sessions: all students will be expected to make a brief presentation on their topic and will receive feedback from staff and peers. There will also be further optional advice/troubleshooting sessions during the Lent Term. Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/Current-Students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in both MT and LT.

**Formative coursework:** Students are required to agree their dissertation title with their Academic Mentor and submit it to the Department at a date which will be set by the Department.

**Indicative reading:** Students will be expected to draw extensively from the reading they have undertaken throughout their programme of study.

Suggested reading on conducting research projects in Social Policy:

H Dean, 'Doing projects in social policy', in P Alcock, et al (Eds) *The Student's Companion to Social Policy*, Fourth Edition, Blackwell, 2012.

A Bryman, 'The nature and process of social research', in *Social Research Methods*. Oxford: Oxford University Press, pp.3-18, 2012.  
C Bhatt, 'Doing a dissertation', in C Seale (ed.) *Researching Society and Culture*, Third Edition. Thousand Oaks, CA: Sage, pp.153-78, 2012.

G Thomas, *How To Do Your Research Project*, Third Edition, London: Sage. 2017.

**Assessment:** Dissertation (100%, 8000 words) in the ST. Submission is due in ST. Precise details on date of submission, format and presentation will be issued by the Department.

## ST101 Half Unit

### Programming for Data Science

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Christine Yuen

**Availability:** This course is compulsory on the BSc in Data Science and BSc in Politics and Data Science. This course is available on the BSc in Actuarial Science, BSc in Finance and BSc in Mathematics, Statistics and Business. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students. This course has a limited number of places (it is capped) and demand is typically very high. Students who have this course as a compulsory course are guaranteed a place.

**Pre-requisites:** Although not a formal requirement, it is preferable that students have some familiarity with the basic concepts of probability and statistics, to the level of ST102/ST107 first 2 chapters (Data visualisation and descriptive statistics and probability theory).

**Course content:** The primary focus of the course is to cover principles of computer programming with a focus on data science applications.

The topic covered will include variables, basic data types, data structures and sequences, control flow structures, modularisation, functions, variable and function scoping, testing and debugging,

errors and exception handling, and data input-output operations using file systems and operating system standard input-output; principles of object-oriented programming including objects, classes, methods, encapsulation, inheritance, and polymorphism; principles of functional programming languages such as use of immutable data, flow control using functional calls and recursions; practical aspects of algorithmic concepts such as searching. The course will primarily use Python programming language, but may also discuss and provide references to how the fundamental programming concepts are implemented in other programming languages, in particular, R.

**Teaching:** This course will be delivered through a combination of classes, lectures and Q&A sessions totalling a minimum of 35 hours across Michaelmas Term. This course includes a reading week in Week 6 of Michaelmas Term.

Students are required to install Python on their own laptops and use their own laptops in the classes and lectures.

**Formative coursework:** Students will be expected to produce 8 problem sets in the MT.

The problem sets will consist of computer programming exercises in Python programming language.

**Indicative reading: Essential Reading:**

- J. V. Guttag, *Introduction to Computation and Programming using Python*, Second Edition, The MIT Press, 2017
- A. B. Downey, *Think Python: How to Think like a Computer Scientist*, 2nd Edition, O'Reilly Media, 2015

**Additional Reading:**

- W. McKinney, *Python for Data Analysis*, 2nd Edition, O'Reilly, 2017
- J. Zelle, *Python Programming: An Introduction to Computer Science*, 3rd edition, Franklin, Beedle & Associates, 2016
- M. Lutz, *Learning Python*, 5th Edition, O'Reilly Media, 2013
- M. Dawson, *Python Programming for the Absolute Beginner*, 3rd Edition, Course Technology, 2010

**Assessment:** Coursework (30%) in the MT.

Project (70%) in the period between MT and LT.

Students are required to hand in solutions to 2 problem sets using Python, each accounting for 15% of the final assessment.

The project will require students to solve some practical programming task(s), which will allow them to apply the concepts learned in the course and demonstrate their knowledge.

## ST102

### Elementary Statistical Theory

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr James Abdey COL.5.10

**Availability:** This course is compulsory on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Econometrics and Mathematical Economics, BSc in Finance, BSc in Financial Mathematics and Statistics, BSc in Mathematics and Economics, BSc in Mathematics with Economics, BSc in Mathematics, Statistics and Business and BSc in Politics and Data Science. This course is available on the BSc in Accounting and Finance, BSc in Philosophy and Economics and BSc in Philosophy, Politics and Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with ST107 Quantitative Methods (Statistics), ST109 Elementary Statistical Theory I or ST110 Elementary Statistical Theory II.

**Pre-requisites:** A-level Mathematics.

No previous knowledge of statistics is assumed.

**Course content:** The course provides a precise and accurate treatment of introductory probability and distribution theory, statistical ideas, methods and techniques. Topics covered are data visualisation and descriptive statistics, probability theory, random variables, common distributions of random variables, multivariate random variables, sampling distributions of statistics, point estimation, interval estimation, hypothesis testing, analysis of variance (ANOVA) and linear regression.

**Teaching:** 22 hours of lectures, 15 hours of classes and 10 hours of workshops in the MT. 20 hours of lectures, 15 hours of classes and 10 hours of workshops in the LT. 2 hours of lectures in the ST. This course will be delivered through a combination of lectures, workshops and classes, totalling a minimum of 90 hours across Michaelmas Term and Lent Term. This course does not include reading weeks.

**Formative coursework:** Weekly exercises will be set and students are expected to submit solutions to their class teacher each week for feedback.

**Indicative reading:** All course materials are made available via Moodle, including notes to accompany the lectures, but this can be supplemented with additional background reading. The recommended supplementary text is:

Larsen R.J. and M.L. Marx (2017) *Introduction to Mathematical Statistics and Its Applications* (sixth edition), Pearson (earlier editions are also fine).

**Assessment:** Exam (50%, duration: 2 hours, reading time: 10 minutes) in the January exam period.

Exam (50%, duration: 2 hours, reading time: 10 minutes) in the summer exam period.

## ST107 Half Unit

### Quantitative Methods (Statistics)

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr James Abdey COL.5.10

**Availability:** This course is compulsory on the BSc in Economic History with Economics, BSc in Economics and Economic History, BSc in Environmental Policy with Economics, BSc in Geography with Economics, BSc in International Social and Public Policy and Economics, BSc in Management and BSc in Social Policy and Economics. This course is available on the BSc in Accounting and Finance, BSc in Philosophy and Economics, BSc in Philosophy, Politics and Economics, BSc in Politics and Economics and Diploma in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with ST102 Elementary Statistical Theory (nor its respective half-units ST109 and ST110).

**Pre-requisites:** A-level Mathematics.

**Course content:** The elementary statistical tools necessary for further study in management and economics with an emphasis on the applicability of the methods to management and economic problems. Topics covered are data visualisation and descriptive statistics, probability theory, discrete probability distributions, continuous probability distributions, sampling distributions of statistics, point estimation, interval estimation, hypothesis testing, contingency tables and the chi-squared test, correlation and linear regression.

**Teaching:** This course will be delivered through a combination of classes, lectures and workshops totalling a minimum of 45 hours across Lent Term. This course does not include a reading week in Week 6 of Lent Term.

**Formative coursework:** Weekly exercises will be set and students are expected to submit solutions to their class teacher each week for feedback.

**Indicative reading:** All course materials are made available via Moodle, including notes to accompany the lectures, but this can be supplemented with additional background reading. The recommended supplementary text is:

Newbold, P., W.L. Carlson and B.M. Thorne (2019) *Statistics for Business and Economics*. (9th edition), Pearson (earlier editions are also fine).

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## ST109 Half Unit

### Elementary Statistical Theory I

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr James Abdey COL.5.10

**Availability:** This course is compulsory on the BSc in Econometrics and Mathematical Economics and BSc in Economics. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course cannot be taken with ST102 Elementary Statistical Theory or ST107 Quantitative Methods (Statistics).

**Pre-requisites:** A-level Mathematics.

No previous knowledge of statistics is assumed.

**Course content:** The course provides a precise and accurate treatment of introductory probability and distribution theory. Topics covered are data visualisation and descriptive statistics, probability theory, random variables, common distributions of random variables and multivariate random variables.

**Teaching:** 22 hours of lectures, 15 hours of classes and 10 hours of workshops in the MT.

This course will be delivered through a combination of classes, lectures and workshops totalling a minimum of 45 hours in Michaelmas Term. This course does not include a reading week.

**Formative coursework:** Weekly exercises will be set and students are expected to submit solutions to their class teacher each week for feedback.

**Indicative reading:** All course materials are made available via Moodle, including notes to accompany the lectures, but this can be supplemented with additional background reading. The recommended supplementary text is:

Larsen R.J. and M.L. Marx (2017) *Introduction to Mathematical Statistics and Its Applications* (sixth edition), Pearson (earlier editions are also fine).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 10 minutes) in the January exam period.

## ST110 Half Unit

### Elementary Statistical Theory II

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr James Abdey COL.5.10

**Availability:** This course cannot be taken with ST102 Elementary Statistical Theory or ST107 Quantitative Methods (Statistics).

**Pre-requisites:** Students must have completed Elementary Statistical Theory I (ST109). A-level Mathematics.

**Course content:** The course provides a precise and accurate treatment of statistical ideas, methods and techniques. Topics covered are sampling distributions of statistics, point estimation, interval estimation, hypothesis testing, analysis of variance (ANOVA) and linear regression.

**Teaching:** 20 hours of lectures, 15 hours of classes and 10 hours of workshops in the LT. 2 hours of lectures in the ST.

This course will be delivered through a combination of classes, lectures and workshops totalling a minimum of 90 hours in Lent Term. This course does not include a reading week.

**Formative coursework:** Weekly exercises will be set and students are expected to submit solutions to their class teacher each week for feedback.

**Indicative reading:** All course materials are made available via Moodle, including notes to accompany the lectures, but this can be supplemented with additional background reading. The recommended supplementary text is:

Larsen R.J. and M.L. Marx (2017) *Introduction to Mathematical Statistics and Its Applications* (sixth edition), Pearson (earlier editions are also fine).

**Assessment:** Exam (100%, duration: 2 hours, reading time: 10 minutes) in the summer exam period.

**ST115 Half Unit****Managing and Visualising Data**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Mona Azadkia

**Availability:** This course is compulsory on the BSc in Data Science. This course is available on the BSc in Actuarial Science. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** Students who have no previous experience in Python are required to take an online pre-session Python course from the Digital Skills Lab (<https://moodle.lse.ac.uk/course/view.php?id=7696>).

Although not a formal requirement, it is preferable that students have some familiarity with the basic concepts of probability and statistics, to the level of ST102/ST107 first 2 chapters (Data visualisation and descriptive statistics and probability theory).

**Course content:** The course focuses on the fundamental principles of effective manipulation and visualisation of data. This will cover the key steps of a data analytics pipeline, starting with formulation of a data science problem, going through manipulation and visualisation of data, and, finally, creating actionable insights. The topics covered include methods for data cleaning and transformation, manipulation of data using tabular data structures, relational database models, structured query languages (e.g. SQL), processing of various human-readable data formats (e.g. JSON and XML), data visualisation methods for explanatory data analysis, using various statistical plots such as histograms and boxplots, data visualisation plots for time series data, multivariate data, graph data visualisation methods.

The course will cover basic concepts and principles and will enable students to gain hands-on experience in using Python programming for manipulation and visualisation of data. This will include use of standard modules and libraries such as NumPy, Pandas, Matplotlib and Seaborn, and programming environments such as Jupyter notebook.

The course will use examples drawn from a wide range of applications such as those that arise in online services, social media, social networks, finance, and machine learning. The principles and methods learned will enable students to effectively derive insights from data and communicate results to end users.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the LT. This course will be delivered through a combination of classes, lectures and Q&A sessions totalling a minimum of 35 hours in Lent Term. This course includes a reading week in Week 6 of Lent Term. Students are required to install Python on their own laptops and use their own laptops in the lectures and classes.

**Formative coursework:** Students will be expected to produce 8 exercises in the LT.

Weekly exercises will be given, using Python and various libraries to apply various data manipulation and visualisation methods to data.

**Indicative reading: Essential Reading:**

- 1 W. McKinney, Python for Data Analysis, 2nd Edition, O'Reilly 2017
- 2 A. C. Muller and S. Guido, Introduction to Machine Learning with Python, O'Reilly, 2016
- 3 Easley, David, and Jon Kleinberg. Networks, crowds, and markets: Reasoning about a highly connected world. Cambridge university press, 2010
- 4 R. Ramakrishnan and J. Gehrke, Database Management Systems, 3rd Edition, McGraw Hill, 2002

**Additional Reading:**

- 1 NumPy, <https://numpy.org/>
- 2 Python Data Analysis Library, <https://pandas.pydata.org/>
- 3 Matplotlib, <https://matplotlib.org>
- 4 Seaborn: statistical data visualization <https://seaborn.pydata.org>
- 5 NetworkX: Software for complex networks, <https://networkx.org>

**Assessment:** Coursework (30%) and project (70%) in the LT. Students are required to hand in solutions to 2 sets of exercises using Python each accounting for 15% of the final assessment, and hand in a report for a project (accounting for 70% of the final assessment). The project consists of applying data manipulation and visualisation methods to some dataset(s).

**ST201 Half Unit****Statistical Models and Data Analysis**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Yunxiao Chen COL 5.16

**Availability:** This course is available on the BSc in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

Also available to students who have studied statistics and mathematics to the level of MA107/ST107 Quantitative Methods or equivalent.

This course cannot be taken with ST211 Applied Regression or DS202 Data Science for Social Scientists.

This course is not controlled access. If you request a place and meet the criteria you are likely to be given a place.

**Pre-requisites:** Quantitative Methods (MA107/ST107) or equivalent.

"Previous programming experience is not required but students who have no previous experience in R must complete an online pre-session R course from the Digital Skills Lab before the start of the course (<https://moodle.lse.ac.uk/course/view.php?id=7745>)"

**Course content:** A second course in statistics with an emphasis on data analysis with applications in the social sciences. Students will gain hands on experience using R-- a programming language and software environment for data analysis and visualisation. The course contains five topics, including (1) principles of statistical analysis, including data preparation, statistical models, regression and classification, inference, prediction, and bias-variance tradeoff, (2) multiple linear regression, including its assumptions, inference, data transformations, diagnostics, model selection, (3) regression tree method, (4) logistic regression, including odds ratios, likelihood, classification, and ROC curve, and (5) Bayes rule for classification and linear discriminant analysis.

**Teaching:** This course will be delivered through a combination of classes, lectures and Q&A sessions, totalling a minimum of 36 hours across Lent Term and 2 hours of lecture in the Summer Term. Students will be given their assessed project in week 9 which is due in Week 1 of ST.

**Formative coursework:** Exercise questions in computer workshops and a quantitative research project.

**Indicative reading:** James, G., Witten, D., Hastie, T., & Tibshirani, R. (2013). An introduction to statistical learning. New York, NY: Springer.

Fox, J. (2015). Applied regression analysis and generalized linear models. Thousand Oaks, CA: Sage Publications.

**Assessment:** Exam (80%, duration: 2 hours) in the summer exam period.

Coursework (20%) in the LT.

**ST202****Probability, Distribution Theory and Inference**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Miltiadis Mavrakakis-Vassilakis

**Availability:** This course is compulsory on the BSc in Actuarial Science and BSc in Financial Mathematics and Statistics.

This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Econometrics and Mathematical Economics, BSc in Mathematics and Economics,

BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Elementary Statistical Theory (ST102) and Mathematical Methods (MA100). Students who have not taken these courses should contact Dr Mavrakakis.

Students must have completed one of the following two combinations of courses: (a) ST102 and MA100, or (b) MA107 and ST109 and EC1C1. Equivalent combinations may be accepted at the lecturer's discretion."

**Course content:** The course covers the probability, distribution theory and statistical inference needed for advanced courses in statistics and econometrics.

**Michaelmas term:** Probability. Conditional probability and independence. Random variables and their distributions. Moments and generating functions. Transformations. Sequences of random variables and convergence. Multivariate distributions. Joint and marginal distributions. Expectation and joint moments. Independence. Multivariate transformations. Sums of random variables. Conditional distributions. Conditional moments. Hierarchies and mixtures. Random sums.

**Lent term:** Random samples. Sample mean. Sampling from the Normal distribution. Order statistics. Sample statistics. Sampling distributions. Parameter estimation. Interval estimation. Hypothesis testing. Maximum-likelihood estimation. Likelihood-ratio test. Sufficiency and minimal sufficiency. Rao-Blackwell theorem. Cramér-Rao lower bound. Most powerful tests. Neyman-Pearson lemma. Linear regression. Least-squares estimation. Generalised linear models.

**Teaching:** This course will be delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term and Lent Term. In addition to these, there will be (optional) weekly workshops to help with homework assignments. This course includes reading weeks in Week 6 of Michaelmas Term and Lent Term.

**Formative coursework:** Students will be expected to produce 4 pieces of coursework in the MT and LT. These are exam-style class tests.

**Indicative reading:** M C Mavrakakis & J Penzer, Probability and Statistical Inference: From Basic Principles to Advanced Models (primary reading)  
G C Casella & R L Berger, Statistical Inference (very useful as a reference)

**Assessment:** Exam (50%, duration: 2 hours) in the January exam period.

Exam (50%, duration: 2 hours) in the summer exam period.

## ST205 Half Unit

### Sample Surveys and Experiments

**This information is for the 2022/23 session.**

**Teacher responsible:** Professor Irini Moustaki

**Availability:** This course is available on the BSc in Accounting and Finance, BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Management, BSc in Mathematics, Statistics and Business, BSc in Politics and Data Science, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students. This course cannot be taken with ST307 Aspects of Market Research.

**Pre-requisites:** Statistics to the level of ST107 Quantitative Methods or SP201 Research Methods for Social Policy.

**Course content:** Sampling methods for social surveys. Survey design and estimation. Nonresponse and measurement error. Design of experiments and observational studies.

**Teaching:** This course will be delivered through a combination of classes and lectures totalling a minimum of 30 hours in

Michaelmas Term. This course includes a reading week in Week 6 of Michaelmas.

**Formative coursework:** Weekly exercises and group presentations. Students are expected to work on a set of exercises weekly and submit them for marking and feedback. Feedback is provided on the weekly exercises by the beginning of the next class.

**Indicative reading:**

- V. Barnett, Sample Survey Principles and Methods (2009)
- F.J. Fowler Jr, Survey Research Methods (2008).
- S. Lohr, Sampling: Design and Analysis (2010)
- R.L.Scheaffer et al, Elementary Survey Sampling (2005)

**Assessment:** Exam (80%, duration: 2 hours) in the January exam period.

Coursework (20%) in the MT.

## ST206 Half Unit

### Probability and Distribution Theory

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Miltiadis Mavrakakis-Vassilakis

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Elementary Statistical Theory (ST102) and Mathematical Methods (MA100). Students must have completed one of the following two combinations of courses: (a) ST102 and MA100, or (b) MA107 and ST109 and EC1C1. Equivalent combinations may be accepted at the lecturer's discretion.

**Course content:** The course covers the probability and distribution theory needed for advanced courses in statistics and econometrics.:

**Topics covered:** Probability. Conditional probability and independence. Random variables and their distributions. Moments and generating functions. Transformations. Sequences of random variables and convergence. Multivariate distributions. Joint and marginal distributions. Expectation and joint moments. Independence. Multivariate transformations. Sums of random variables. Conditional distributions. Conditional moments. Hierarchies and mixtures. Random sums.

**Teaching:** This course will be delivered through a combination of classes and lectures totalling a minimum of 30 hours across Michaelmas Term. In addition to these, there will be (optional) weekly workshops to help with homework assignments. This course includes a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Students will be expected to produce 2 pieces of coursework in the MT. These are exam-style class tests.

**Indicative reading:** M C Mavrakakis & J Penzer, Probability and Statistical Inference: From Basic Principles to Advanced Models (primary reading)  
G C Casella & R L Berger, Statistical Inference (very useful as a reference)

**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.

## ST207 Half Unit

### Databases

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Marcos Barreto

**Availability:** This course is compulsory on the BSc in Data Science. This course is available on the BSc in Actuarial Science, BSc in Mathematics, Statistics and Business and BSc in Politics and Data Science. This course is available with permission as an outside

option to students on other programmes where regulations permit and to General Course students.

This course has a limited number of places (it is capped). Students who have this course as a compulsory course are guaranteed a place. Places for all other students are allocated on a first come first served basis.

**Pre-requisites:** A computer programming course using Python, e.g. a short pre-session course **or** Programming for Data Science (ST101).

**Course content:** The goal of this course is to cover basic concepts of database management systems, including relational and other types of database management systems.

The topics covered will include basic concepts of the relational model, creating and modifying relations using Structured Query Language (SQL), basic SQL queries using SELECT operator, nested queries, aggregate operators such as GROUP BY, integrity constraints and relations, views, application development using JDBC, Internet protocols such as HTTP and XML, storage and indexing, tree-structured indexing using B+ trees, hash-based indexing, query evaluation and algorithms for relational operations, external sorting, transaction management and concurrency, database schema and normal forms, and overview of NoSQL databases such as key-value stores, document, and graph databases.

The course will demonstrate how various theoretical principles are implemented in practice in a database management system, such as MySQL, SQLite and PostgreSQL.

**Teaching:** 20 hours of lectures and 15 hours of seminars in the MT.

This course includes a reading week in Week 6 of Michaelmas Term.

Students are required to use their own laptops and install Python and other tools (under guidance of the teaching staff) on their laptops.

**Formative coursework:** Students will be expected to produce 10 exercises in the MT.

A set of exercises will be given in each teaching week.

**Indicative reading: Essential Reading:**

- R. Elmasri and S. B. Navathe. Fundamentals of Database Systems, 7th Edition (Global Edition), Pearson, 2017.
- P. Lake and P. Crowther. Concise Guide to Databases: a practical introduction. Springer, Undergraduate Topics in Computer Science, 2013.
- G. Powell. Database Modeling Step-by-Step, 160CRC Press, Taylor & Francis, 2020.
- A. Beaulieu. Learning SQL: generate, manipulate, and retrieve data, 3rd. Edition. O'Reilly, 2020.

**Additional Reading:**

- P. Zhang. Practical Guide to Oracle SQL, T-SQL and MySQL, CRC Press, Taylor & Francis, 2018.
- A. Meier and M. Kaufmann. SQL & NoSQL Databases: models, languages, consistency options and architectures for big data management. Springer Vieweg, 2019.
- S. Bradshaw, E. Brazil, K. Chodorow. MongoDB: the definitive guide. 3rd Edition, O'Reilly, 2019.
- I. Robinson and J. Webber and E. Eifrem. Graph Databases. 2nd Edition, O'Reilly, 2015.
- C. J. Date, An Introduction to Database Systems, 8th Edition, Pearson, 2003.

**Assessment:** Coursework (40%) in the MT.

Project (60%) in the period between MT and LT.

Students are required to hand in solutions to 2 sets of exercises, each accounting for 20% of the final assessment.

The project will require solving a practical task involving data model design, database construction, loading of data into a database, and querying the imported data in the database.

## ST211 Half Unit

### Applied Regression

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Sara Geneletti Inchauste

Dr Sara Geneletti

**Availability:** This course is compulsory on the BSc in Business Mathematics and Statistics, BSc in Data Science and BSc in Mathematics, Statistics and Business. This course is available on the BSc in Politics and Data Science. This course is available as an outside option to students on other programmes where regulations permit. This course is not available to General Course students. Specifically the course is available to Accounting and Finance students who have taken ST102.

This course cannot be taken with ST201 Statistical Models and Data Analysis.

**Pre-requisites:** ST102

Students who have no previous experience in R are required to complete an online pre-session R course from the Digital Skills Lab before the start of the course (<https://moodle.lse.ac.uk/course/view.php?id=7745>)

Students must have completed one of the following two combinations of courses: (a) ST102, or (b) ST109 and EC1C1. Equivalent combinations may be accepted at the lecturer's discretion."

**Course content:** Statistical data analysis in R covering the following topics: Simple and multiple linear regression, Model diagnostics, Detection of outliers, Multicollinearity, Introduction to GLMs

**Teaching:** This course will be delivered through a combination of classes and lectures (both or either of which maybe held online) totalling a minimum of 30 hours across Lent Term. This course includes a reading week in Week 6 of Lent Term in which the students work independently on a mini-project (no lectures).

**Formative coursework:** Regular Moodle quizzes. .

**Indicative reading:** 1. Gelman and Hill, Data analysis Using Regression and Multilevel/Hierarchical models (CUP, 2007) First part.

2. Neter, J., Kutner, M., Nachtsheim, C. and Wasserman, W. Applied Linear Statistical Models, McGraw-Hill, Fourth Edition. (2004).

3. Abraham, B. Ledolter, J. Introduction to Regression Modelling, Thomson Brooks Cole. (2006).

4. S. Weisberg Applied Linear Regression, Wiley, 3rd edition. (2005) (intermediate).

5. Fox (2016) Applied Regression Analysis and Generalized Linear Models.

**Assessment:** Project (55%) and project (35%) in the ST Week 2. Coursework (10%) in the LT Week 6.

10%: A group work mini-project to be handed in at the end of reading week (LT week 8)

55%: A group work multiple linear regression project to be handed in by the second week of the ST

35%: An individual logistic regression project to be handed in at the same time as the group project in the second week of the ST.

## ST213 Half Unit

### Introduction to Pricing, Hedging and Optimization

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Konstantinos Kardaras COL 6.07

**Availability:** This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

**Pre-requisites:** MA203 Real Analysis. Must be taken with ST202 Probability, Distribution Theory and Inference.

**Course content:** This course introduces the concepts of valuation,

hedging and portfolio selection in a discrete-time environment. Towards the end, it introduces continuous-time markets in a heuristic fashion. It covers the following topics:

- The binomial model; pricing and replication.
- Trinomial model and incompleteness, arbitrage-free price intervals.
- General discrete-time models and the fundamental theorems.
- Portfolio optimization and hedging.
- Multi-period models and backwards induction methods.
- Passage to continuous time Black & Scholes model.

**Teaching:** This course will be delivered through a combination of classes, lectures and Q&A sessions totalling a minimum of 30 hours across Lent Term. This course includes a reading week in Week 6 of Lent Term.

**Formative coursework:** Students will be expected to produce 9 problem sets in the LT.

Certain problem sets will be returned with feedback.

**Indicative reading:** Lecture notes will be provided.

**Assessment:** Exam (80%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Coursework (20%).

## ST226 Half Unit

### Actuarial Investigations: Financial

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Gelly Mitrodima

**Availability:** This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is not available to General Course students.

This course has a limited number of places (it is capped, the maximum number of students will be 130) and priority will be given to students on BSc Business, Mathematics and Statistics and BSc Mathematics, Statistics and Business. Whilst there are places available to students from outside this programme they are very limited and are allocated on a first come first served basis.

**Pre-requisites:** Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102). Students must have completed one of the following two combinations of courses: (a) ST102 and MA100, or (b) MA107 and ST109 and EC1C1. Equivalent combinations may be accepted at the lecturer's discretion."

**Course content:** • Introduction to actuarial modelling

- The application of compound interest techniques to financial transactions
- Generalised cash-models to describe financial transactions such as zero-coupon bonds, fixed interest securities, cash on deposit, equities, interest only loans, repayment loans, annuities certain and others
- Introduction to R programming for Actuarial Science
- Introduction to life insurance

**Teaching:** 20 hours of lectures, 9 hours of seminars, 9 hours of computer workshops and 9 hours of help sessions in the MT. This course will be delivered through a combination of classes, lectures and Q&A sessions totalling a minimum of 47 hours across Michaelmas Term. This year, some of this teaching may be delivered through a combination of classes and flipped-lectures delivered as short online videos. This course includes a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Students will be expected to work in groups and give written answers to a number of problem sets throughout the term.

**Indicative reading:** J. J. McCutcheon & W. J. Scott, An Introduction to the Mathematics of Finance, Heinemann; Institute and Faculty of Actuaries, Formulae and Tables for Actuarial Examinations; Core reading notes obtainable from the Institute and Faculty

of Actuaries; D. Dickson, M. Hardy & H. Waters, Actuarial Mathematics for Life Contingent Risks, International Series on Actuarial Science, pp. I-VI. Cambridge University Press. 2009

**Assessment:** Exam (90%, duration: 3 hours) in the January exam period.

Online assessment (10%) in January.

The timed (2 hours) online assessment will be during the January examination period i.e. Week 0.

## ST227 Half Unit

### Survival Models

**This information is for the 2022/23 session.**

**Teacher responsible:** Mr Georgios Zouros

**Availability:** This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Mathematical Methods (MA100) and Elementary Statistical Theory (ST102). "Students must have completed one of the following two combinations of courses: (a) ST102 and MA100, or (b) MA107 and ST109 and EC1C1. Equivalent combinations may be accepted at the lecturer's discretion."

**Course content:** An introduction to stochastic processes with emphasis on life history analysis and actuarial applications. Principles of modelling; model selection, calibration, and testing; Stochastic processes and their classification into different types by time space, state space, and distributional properties; construction of stochastic processes from finite-dimensional distributions, processes with independent increments, Poisson processes and renewal processes and their applications in general insurance and risk theory, Markov processes, Markov chains and their applications in life insurance and general insurance, extensions to more general intensity-driven processes, counting processes, semi-Markov processes, stationary distributions. Determining transition probabilities and other conditional probabilities and expected values; Integral expressions, Kolmogorov differential equations, numerical solutions, simulation techniques. Survival models - the random life length approach and the Markov chain approach; survival function, conditional survival function, mortality intensity, some commonly used mortality laws. Statistical inference for life history data; Maximum likelihood estimation for parametric models, non-parametric methods (Kaplan-Meier and Nelson-Aalen), regression models for intensities including the semi-parametric Cox model and partial likelihood estimation; Various forms of censoring; The technique of occurrence-exposure rates and analytic graduation; Impact of the censoring scheme on the distribution of the estimators; Confidence regions and hypothesis testing.

**Teaching:** This course will be delivered through a combination of classes and lectures totalling a minimum of 35 hours across This year, some of this teaching may be delivered through a combination of virtual classes and flipped-lectures delivered as short online videos. This course includes a reading week in Week 6 of Michaelmas/Lent Term.

Students on this course will have a reading week in week 6 where they will be given review exercises to work on based on the first 5 weeks of the course. Also, students will be given a 10% coursework in R to work on within 24 hours in week 11 based on the material covered in the computer workshops which will run in weeks 5,7,8,9 and 10.

**Formative coursework:** Compulsory written answers to two sets of problems.

**Indicative reading:** S Ross, Stochastic Processes; R Norberg, Risk and Stochastics in Life Insurance; The Institute of Actuaries, CS2: Risk Modelling and Survival Analysis. For full details of the syllabus of CT4, see [https://www.actuaries.org.uk/curriculum\\_entity/](https://www.actuaries.org.uk/curriculum_entity/)

curriculum\_entity/8.

**Assessment:** Exam (90%, duration: 3 hours) in the summer exam period.

Coursework (10%) in the LT Week 11.

## ST300 Half Unit

### Regression and Generalised Linear Models

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Philip Chan

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Financial Mathematics and Statistics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place will be given one

**Pre-requisites:** Students must have completed:

EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206)

AND Mathematical Methods (MA100) or equivalent.

It is assumed students have taken at least a first course in linear algebra.

Previous programming experience is not required but students who have no previous experience in R must complete an online pre-sessional R course from the Digital Skills Lab before the start of the course (<https://moodle.lse.ac.uk/course/view.php?id=7745>)

**Course content:** A solid coverage of the most important parts of the theory and application of regression models, and generalised linear models. Multiple regression and regression diagnostics. Generalised linear models; the exponential family, the linear predictor, link functions, analysis of deviance, parameter estimation, deviance residuals. Model choice, fitting and validation. The use of the statistics package RStudio will be an integral part of the course. The computer workshops revise the theory and show how it can be applied to real datasets.

**Teaching:** This course will be delivered through a combination of lectures and classes totalling a minimum of 30 hours in Michaelmas Term.

This course includes a reading week in Week 6 of Lent Term.

**Indicative reading:** Dobson, A.J. (2008). An Introduction to Generalized Linear Models.

Fox, J. (2015). Applied Regression Analysis and Generalized Linear Models

Frees, E.W. (2010). Regression Modeling with Actuarial and Financial Applications

**Assessment:** Exam (85%, duration: 2 hours) in the summer exam period.

Project (15%) in the LT.

## ST301 Half Unit

### Actuarial Mathematics (Life)

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Andreas Sojmark

**Availability:** This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed:

EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206)

AND Survival Models (ST227).

**Course content:** Single life mortality models, assurance and annuity contracts and their actuarial notation, computation of their present values and variances; relations among the present values of the various contracts.

The equivalence principle: computation of net premiums for the main assurance policies.

Prospective and retrospective reserves, Thiele's differential equation as the main tool for the computation of reserves.

Expenses: gross premium and gross reserves. Selection effect and how it affects mortality tables.

Multi-life assurance contracts: joint life and last survival life, computation of premiums and reserves for the main two-lives contracts.

Multi-states mortality models: basic notions of continuous-time Markov chains, Kolmogorov backward and forward equations, application to multiple decrements and disability models, computation of transition intensities.

Thiele differential equation for multi-states models, computation and analysis of reserves for main multi-state policies.

With-profit policies, unit-linked assurance policies, pensions.

Interplay between assurance and finance: embedded options, market consistent actuarial valuation.

**Teaching:** This course will be delivered through a combination of seminars, lectures and Q&A sessions totalling a minimum of 30 hours across in the Michaelmas Term.

**Formative coursework:** Compulsory written answers to one set of problems.

**Indicative reading:** R Norberg, Basic Life Insurance Mathematics; The Institute of Actuaries, Core reading Subject CT5

Dickson, Hardy, Waters, 'Actuarial Mathematics for Life Contingent Risks'

Wutrich, Buhlmann, Furrer, 'Market Consistent Actuarial Valuation'

**Assessment:** Exam (90%, duration: 3 hours) in the January exam period.

Coursework (10%) in the period between MT and LT.

The project will be timed (2hr + submission time)

## ST302 Half Unit

### Stochastic Processes

**This information is for the 2022/23 session.**

**Teacher responsible:** tbc

**Availability:** This course is compulsory on the BSc in Actuarial Science. This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Financial Mathematics and Statistics, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed either Probability, Distribution Theory and Inference (ST202) or Probability and Distribution Theory (ST206).

**Course content:** A second course in stochastic processes and applications to insurance. Markov chains (discrete and continuous time), processes with jumps; Brownian motion and diffusions; Martingales; stochastic calculus; applications in insurance and finance. Content: Stochastic processes in discrete and continuous time; Markov chains: Markov property, Chapman-Kolmogorov equation, classification of states, stationary distribution, examples of infinite state space; filtrations and conditional expectation; discrete time martingales: martingale property, basic examples, exponential martingales, stopping theorem, applications to random walks; Poisson processes: counting processes, definition as counting process with independent and stationary increments, compensated Poisson process as martingale, distribution of number of events in a given time interval as well as inter-event times, compound Poisson process, application to ruin problem for the classical risk process via Gerber's martingale approach; Markov processes: Kolmogorov equations, solution of those in simple cases, stochastic semigroups, birth and death chains,

health/sickness models, stationary distribution; Brownian motion: definition and basic properties, martingales related to Brownian motion, reflection principle, Ito-integral, Ito's formula with simple applications, linear stochastic differential equations for geometric Brownian motion and the Ornstein-Uhlenbeck process, first approach to change of measure techniques, application to Black-Scholes model. The items in the course content that also appear in the content of ST227 are covered here at greater depth. However, ST227 is not a pre-requisite for this course.

**Teaching:** This course will be delivered through a combination of classes, lectures, and Q&A sessions totalling a minimum of 29 hours across Michaelmas Term.

The course includes a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Compulsory written answers to two sets of problems.

**Indicative reading:** Lecture notes will be provided. Relevant books include R Durrett, Essentials of Stochastic Processes; T Mikosch, Elementary Stochastic Calculus with Finance in View; Institute of Actuaries core reading notes.

**Assessment:** Exam (100%, duration: 3 hours) in the January exam period.

## ST303 Half Unit Stochastic Simulation

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Yufei Zhang

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Data Science and BSc in Mathematics, Statistics and Business. This course is available with permission as an outside option to students on other programmes where regulations permit. This course is not available to General Course students. Course capped at 60.

**Pre-requisites:** Students must have completed: EITHER Probability, Distribution Theory and Inference (ST202) OR Probability and Distribution Theory (ST206) AND Stochastic Processes (ST302).

While the course ST306 is not a formal pre-requisite some examples from this course will be used. Students that have not taken ST306 might have to do a bit of extra reading to familiarise themselves with them.

**Course content:** An introduction to using R for stochastic simulation as well as methods of simulating random variables, complicated quantities involving several random variables and paths of stochastic processes. Applications will focus on examples from insurance and finance.

**Teaching:** This course will be delivered through a combination of classes, lectures, help and demonstration sessions totalling a minimum of 30 hours in the Lent Term.

**Formative coursework:** Weekly exercises usually involving computing.

**Indicative reading:**

- Introducing Monte Carlo methods with R (main reference), by G. Robert and G. Casella.

Useful reading:

- Stochastic Simulation, Algorithms and Analysis by S. Asmussen.
- Monte Carlo Methods in Financial Engineering by P. Glasserman.

**Assessment:** Project (40%) in the LT.  
Project (60%) in the ST.

## ST304 Half Unit

### Time Series and Forecasting

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Yining Chen COL 7.06

**Availability:** This course is available on the BSc in Actuarial

Science, BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

This course is not capped, any student that requests a place and meet the criteria will be given one.

**Pre-requisites:** 2nd year statistics and probability

Students who have no previous experience in R are required to complete an online pre-sessional R course from the Digital Skills Lab before the start of the course (<https://moodle.lse.ac.uk/course/view.php?id=7745>)

**Course content:** The course introduces the student to the statistical analysis of time series data and simple time series models, and showcase what time series analysis can be useful for. Topics include: autocorrelation; stationarity, trend removal and seasonal adjustment; AR, MA, ARMA, ARIMA; estimation; forecasting; unit root test; introduction to financial time series and the ARCH/GARCH models; basic spectral analysis. The use of R for time series analysis will also be covered.

**Teaching:** This course will be delivered through a combination of classes, lectures and Q&A sessions totalling a minimum of 30 hours across Lent Term. This course includes a reading week in Week 6 of Lent Term.

**Formative coursework:** Written answers to set problems will be expected on a weekly basis.

**Indicative reading:** Peter J. Brockwell and Richard A. Davis, Introduction to Time Series and Forecasting

Robert H. Shumway and David S. Stoffer, Time Series Analysis and Its Applications: With R Examples

Christopher Chatfield, The Analysis of Time Series

Ruey S. Tsay, An Introduction to Analysis of Financial Data with R  
Peter J. Brockwell and Richard A. Davis, Time Series: Theory and Methods

Christian Francq and Jean-Michel Zakoian, GARCH Models: Structure, Statistical Inference and Financial Applications

**Assessment:** Exam (90%, duration: 2 hours) in the summer exam period.

Coursework (10%).

## ST306 Half Unit

### Actuarial Mathematics (General)

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Debora Escobar

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Probability, Distribution Theory and Inference (ST202) and Stochastic Processes (ST302).

**Course content:** This course is an introduction to actuarial work in non-life insurance. The course covers a general overview of the industry, history of general insurance and risk-sharing arrangements. Loss distributions suitable for modelling individual and aggregate losses; statistical inference. Moment generating functions of the distributions: gamma, exponential, Pareto, generalized Pareto, normal, lognormal, Weibull, and others. The collective model: risk models involving frequency and severity distributions. Moments and moment generating functions of Compound distributions. Stochastic risk models: Compound Poisson processes. Reinsurance treaties: proportional, excess of loss, stop-loss, deriving the distribution, moment generating functions and other properties of the losses to the insurer and reinsurer under all the models above. Ruin theory, Lundberg theorem and an integral approach for the ruin probability. Fundamental concepts of Bayesian statistics, prior distributions, posterior distributions, loss functions, Bayesian estimators.

Credibility theory; Bayesian models. Experience rating models and applications. Claims reserving: run-off triangles. Programming applications using R

**Teaching:** This course will be delivered through a combination of classes, lectures and Q&A sessions totalling a minimum of 30 hours across Lent Term. This course includes a reading week in Week 6 of Lent Term.

**Formative coursework:** .

**Indicative reading:** Notes are given out in the lectures.

**Assessment:** Exam (90%, duration: 3 hours) in the summer exam period.

Coursework (10%) in the period between LT and ST.

Coursework is timed (2hr + submission time)

## ST307 Half Unit

### Aspects of Market Research

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr James Abdey COL.5.10

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Mathematics, Statistics and Business, International Exchange (1 Term) and International Exchange (Full Year). This course is available as an outside option to students on other programmes where regulations permit and to General Course students. This course cannot be taken with ST327 Market Research: An Integrated Approach or ST205 Sample Surveys and Experiments. This is a capped course.

**Pre-requisites:** Probability and statistics to the level of ST107.

**Course content:** The main ideas and applications of market research techniques. Topics covered are introduction to market research, defining the market research problem, research design, internal secondary data and the use of databases, qualitative research: focus group discussions, projective techniques, survey and quantitative observation techniques, measurement and scaling: fundamentals, comparative and non-comparative scaling, questionnaire design, sampling: design and procedures, final and initial sample size determination, cross-tabulation and hypothesis testing, analysis of variance and covariance, correlation and regression, and discriminant analysis.

**Teaching:** This course will be delivered through a combination of classes and lectures totalling a minimum of 30 hours across Michaelmas Term.

This course does not include a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Students are given weekly exercises to work on for discussion in class.

**Indicative reading:** Malhotra, N.K. (2019) *Marketing Research: An Applied Orientation* (7th edition), Pearson (earlier editions are also fine).

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## ST308 Half Unit

### Bayesian Inference

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Konstantinos Kalogeropoulos COL.610

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Mathematics with Economics and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed one of the following two combinations of courses: (a) ST102 and MA100, or (b) MA107 and ST109 and EC1C1. Equivalent combinations

may be accepted at the lecturer's discretion. ST202 is also recommended.

Previous programming experience is not required but students who have no previous experience in R must complete an online pre-sessional R course from the Digital Skills Lab before the start of the course (<https://moodle.lse.ac.uk/course/view.php?id=7745>)

**Course content: Statistical decision theory:** risk, decision rules, loss and utility functions, Bayesian expected loss, Frequentist risk.

**Bayesian Inference:** Bayes theorem, prior, posterior and predictive distributions, conjugate models (Normal-Normal, Poisson-Gamma, Beta-Binomial), Bayesian point estimation, credible intervals and hypothesis testing, Bayes factors and model selection.

Comparison with Frequentist approaches.

**Implementation:** Asymptotic approximations (Laplace approximation, Variational Bayes, Monte Carlo methods), Markov Chain Monte Carlo (MCMC) simulation (Gibbs sampler, Metropolis-Hastings algorithm). Computer tools (R).

**Applications:** Linear models in Regression and Classification (Bayesian Linear Regression, Generalized Linear Models, Logistic Regression), Hierarchical/ Multilevel Models, Cluster Analysis and Mixture Modeling.

**Teaching:** This course will be delivered through a combination of classes, lectures, and Q&A sessions, totalling a minimum of 29 hours across the Lent Term. This course does not include a reading week and will be concluded by the end of week 10 of Lent Term.

**Formative coursework:** Optional problem sets and computer exercises.

**Indicative reading:** J.K. Kruschke, *Doing Bayesian Data Analysis*. An tutorial with R, JAGS and Stan. 2nd edition.

J.O. Berger, *Statistical Decision Theory and Bayesian Analysis*.

D. Gamerman, H. F. Lopes, *Markov Chain Monte Carlo: Stochastic Simulation for Bayesian Inference*

A. Gelman, *Bayesian data analysis*.

**Assessment:** Exam (80%, duration: 2 hours) in the summer exam period.

Project (20%) in the ST.

## ST309 Half Unit

### Elementary Data Analytics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Qiwei Yao Col.7.16

**Availability:** This course is available on the BSc in Accounting and Finance. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course is available as an outside option to the students who are interested in data analytics and who have statistical background at least equivalent to ST107. No prior knowledge in programming is required. However students who have no previous experience in R are required to take on an online pre-sessional R course from the Digital Skill Lab (<https://moodle.lse.ac.uk/course/view.php?id=7745>).

This course is capped at 60 for the 2020/21 session.

This course cannot be taken with ST310 Machine Learning.

**Pre-requisites:** Students must have completed a statistical course at least equivalent to Quantitative Methods (Statistics) (ST107).

Students who have no previous experience in R are required to take on an online pre-sessional R course from the Digital Skill Lab (<https://moodle.lse.ac.uk/course/view.php?id=7745>).

**Course content:** The primary focus of this course is to help students view various problems from business, economy/finance, and social domains from a data perspective and understand the principles of extracting useful information and knowledge from data. Students will also gain the hands-on experience using R -- a programming language and software environment for data analysis and visualisation. Learning basic data analytic methods and techniques is combined with real-life examples.

The core contents of the course include data cleansing, data

transformation, data visualisation, R-programming, classification, regression, clustering, over-fitting avoidance and model evaluation. The course also covers a subset of the following topics: illustration of R-access of databases and big data platforms, illustration of parallel computing in R, similarity matching, market-basket analysis, link prediction, text mining, network analysis, causal modelling.

This is not a course on algorithms and IT technologies required for handling massive data, which deserve separate courses. The focus is on the fundamental principles and concepts of data analytics or data science. It becomes ever-increasingly important in this information age to gain adequate understanding of data science even if one never intends to apply it oneself.

**Teaching:** This course will be delivered through a combination of classes, lectures and Q&A sessions totalling a minimum of 30 hours in Michaelmas Term. This year, some of this teaching may be delivered through a combination of virtual classes and flipped-lectures delivered as short online videos.

Students are encouraged to install R in their own laptops, and to use their own laptops in the workshops.

**Formative coursework:** Students will be expected to produce 6 exercises in the MT.

Students are expected to complete six sets of exercises involving substantial data analysis using R.

**Indicative reading:** Wickham, H, and Golemund, G. (2017). R for Data Science. O'Reilly. Available online at <http://r4ds.had.co.nz>  
James, G., Witten, D., Hastie, T. and Tibshirani, R. (2013). An Introduction to Statistical Learning with Applications in R. Springer. Available online at <http://www-bcf.usc.edu/~gareth/ISL>  
Provost, F. and Fawcett, T. (2013). Data Science for Business. O'Reilly.

Zuur, A., Ieno, E. and Meesters, E. (2009). A Beginner's Guide to R. Springer. Available online from LSE Library.

Hastie, T., Tibshirani, R and Friedman, R. (2009). The Elements of Statistical Learning: Data Mining, Inference, and Prediction. 2nd Edition. Springer. Available online at <https://web.stanford.edu/~hastie/Papers/ESLII.pdf>

Silge, J. and Robinson, D. (2017). Text Mining with R: a tidy approach. O'Reilly. Available online at <https://www.tidytextmining.com>

Wickham, H. (2016). ggplot2: Elegant Graphics for Data Analysis. Springer. Available online at <http://moderngraphics11.pbworks.com/f/ggplot2-Book09hWickham.pdf>

**Assessment:** Coursework (30%) in the MT. Project (70%) in the LT.

The project will be a group project with maximum 3 members per group. The detailed instruction will be handed out in Week 5 of Michaelmas term, and students need to submit a written report by Week 5 of Lent term.

Students are required to hand in the solutions for 3 sets of exercises which account for the total 30% of the final grade.

---

## ST310 Half Unit Machine Learning

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Joshua Loftus

**Availability:** This course is compulsory on the BSc in Data Science. This course is available on the BSc in Actuarial Science, BSc in Mathematics with Economics, BSc in Mathematics, Statistics and Business and BSc in Politics and Data Science. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students.

This course cannot be taken with ST309 Elementary Data Analytics.

**Pre-requisites:** Students must have completed one of the following two combinations of courses: (a) ST102 and MA100, or (b) MA107 and ST109 and EC1C1. Equivalent combinations may be accepted at the lecturer's discretion.

Previous programming experience is not required but students who have no previous experience in R must complete an online pre-session R course from the Digital Skills Lab before the start of the course (<https://moodle.lse.ac.uk/course/view.php?id=7745>)

**Course content:** The primary focus of this course is on the core machine learning techniques in the context of high-dimensional or large datasets (i.e. big data). The first part of the course covers elementary and important statistical methods including nearest neighbours, linear regression, logistic regression, regularisation, cross-validation, and variable selection. The second part of the course deals with more advanced machine learning methods including regression and classification trees, random forests, bagging, boosting, deep neural networks, k-means clustering and hierarchical clustering. The course will also introduce causal inference motivated by analogy between double machine learning and two-stage least squares. All the topics will be delivered using illustrative real data examples. Students will also gain hands-on experience using R or Python (programming languages and software environments for data analysis, computing and visualisation).

**Teaching:** 10 hours of lectures, 20 hours of seminars and 5 hours of help sessions in the MT.

This course will be delivered through a combination of classes, lectures and Q&A sessions totalling a minimum of 30 hours in Michaelmas Term.

[This course includes a reading week in Week 6 of Michaelmas Term].

Students are required to install R/RStudio in their own laptops. Student not having a laptop of their own will be offered to use personal computers available in seminar rooms.

**Formative coursework:** Students will be expected to produce 4 problem sets in the MT.

**Indicative reading:** James, G., Witten, D., Hastie, T. and Tibshirani, R. An Introduction to Statistical Learning with Applications in R. Springer, 2017.

Hastie, T., Tibshirani, R. and Friedman, J. The Elements of Statistical Learning: Data Mining, Inference and Prediction. 2nd Edition, Springer, 2009.

Efron, B. and Hastie, T. Computer Age Statistical Inference. Cambridge University Press, 2016.

Wickham, H, and Golemund, G. (2017). R for Data Science. O'Reilly.

**Assessment:** Coursework (15%) in the MT Week 4.

Coursework (15%) in the MT Week 9.

Project (40%) and group project (30%) in the LT.

Students are required to submit a group project by applying machine learning methods covered in this course on some real data using R (which accounts for 30% of the final assessment), and an individual project that includes a prediction competition component (which accounts for 40% of the final assessment). In addition to some real data examples, the focus of this course is to introduce some theoretical and methodological concepts in machine learning. These components will be tested by coursework as problem sets (which account for 30% of the final assessment).

---

## ST311 Half Unit Artificial Intelligence

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Xinghao Qiao

**Availability:** This course is compulsory on the BSc in Data Science. This course is available on the BSc in Actuarial Science, BSc in Mathematics, Statistics and Business and BSc in Politics and Data Science. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed one of the following two combinations of courses: (a) ST102 and MA100, or (b) MA107 and ST109 and EC1C1. Equivalent combinations may be accepted at the lecturer's discretion.

A computer programming course using Python, e.g. ST101 Programming for Data Science.

Students who have no previous experience in Python are required to complete an online pre-session Python course from the Digital Skills Lab before the start of the course (<https://moodle.lse.ac.uk/course/view.php?id=7696>).

**Course content:** The objective of this course is to introduce students to basic principles of artificial intelligence (AI) systems. By AI, we refer to machines (or computers) that mimic cognitive functions that humans associate with the human mind, such as learning and problem solving. The course will take a practical approach, explaining the main principles and methods used in the design of AI systems.

The course will provide an introduction to main principles of deep learning, covering topics of neural nets as universal approximators, design of neural network architectures, backpropagation and optimisation methods for training neural networks, and some special deep neural network architectures commonly used for solving AI tasks such as image classification, sequence modelling, natural language processing and generative models. If time allows, this course will also provide an introduction to reinforcement learning problem formulation. Students will gain practical knowledge to learn and evaluate deep learning and reinforcement learning algorithms (if time allows) using Python and open-source software libraries.

**Teaching:** The lectures cover fundamental methodological and theoretical principles while computer workshops provide students with an opportunity to gain hands-on-experience by solving exercises using modern and commonly used software libraries such as PyTorch and OpenAI Gym.

This course will be delivered through a combination of classes and lectures totalling a minimum of 35 hours across Lent Term. This year, some of this teaching may be delivered through a combination of classes and flipped-lectures delivered as short online videos.

Students are required to use a Python programming environment, e.g. by installing Anaconda / Jupyter notebooks on their own laptops or using Google Colab, and to use their own laptops in the workshops.

**Formative coursework:** Students will be expected to produce 8 exercises in the LT.

**Indicative reading:** 1. A. Zhang, Z. Lipton, M. Li and A. Smola, Dive into Deep Learning, 2022, <http://d2l.ai>

2. I. Goodfellow, Y. Bengio and A. Courville, Deep Learning, MIT Press, 2017, <http://www.deeplearningbook.org>

3. R. Sutton and A. C. Barto, Reinforcement Learning: An Introduction, 2nd Edition, MIT Press, 2018

4. M. Nielsen, Neural Networks and Deep Learning, 2016, online book.

5. S. Russell and P. Norvig, Artificial Intelligence: A Modern Approach, 3rd Edition, Pearson, 2016

**Assessment:** Coursework (30%) in the LT. Project (70%) in the ST.

Students are required to hand in the solutions to 3 sets of exercises (each accounting for 10% of the final grade).

The project will be a group project with 2 members per group. The detailed instruction will be handed out in Week 10 of Lent term, and students need to submit a written report by Week 1 of Summer term.

## ST312 Half Unit

### Applied Statistics Project

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Yunxiao Chen

**Availability:** This course is compulsory on the BSc in Data Science. This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics and BSc in Mathematics, Statistics and Business. This course is not available as an outside option nor to General Course students.

This course is not controlled access. If you request a place and meet the criteria you are likely to be given a place.

**Pre-requisites:** Students must have completed Elementary Statistical Theory (ST102).

Students must have completed Elementary Statistical Theory (ST102). This course is suitable for third-year students.

**Course content:** Students will produce a project involving a critical investigation and collation of statistical data on a topic of their own interest.

**Teaching:** This course will be delivered through a combination of workshops and seminars totalling a minimum of 11 hours across Michaelmas term and 2 hours of workshops in the Summer term. Students on this course will have a research week in week 6 where they can look up data sources for their assessed project.

**Formative coursework:** Oral presentation at the end of MT.

**Indicative reading:** [ukdataservice.ac.uk](http://ukdataservice.ac.uk), [www.google.com/publicdata](http://www.google.com/publicdata), [data.worldbank.org](http://data.worldbank.org)

**Assessment:** Project (90%) and presentation (10%) in the ST.

## ST313 Half Unit

### Ethics for Data Science

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Joshua Loftus

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Data Science, BSc in Mathematics and Economics, BSc in Mathematics with Data Science, BSc in Mathematics with Economics, BSc in Mathematics, Statistics and Business and BSc in Politics and Data Science. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Students must have completed Elementary Statistical Theory (ST102) or equivalent, Mathematical Methods (MA100) or equivalent, and at least one of MA212, EC220, EC221, ST206, ST202, or equivalent.

Familiarity with basic computer programming in R or Python.

Students who have no previous experience in R are strongly encouraged to take on an online pre-session R course from the Digital Skill Lab (<https://moodle.lse.ac.uk/course/view.php?id=7022>)

**Course content:** This course covers a selection of topics central to the ethical practice of data science. Students will learn key concepts and methods to analyze a variety of case studies, from the historical and philosophical background of data technologies and ethics to the frontiers of research in machine learning, artificial intelligence, and socio-technical systems. These concepts will include some basic philosophical and legal ideas related to data ethics, frameworks for ethical practice developed by professional societies, formal statistical definitions and quantitative methods for objectives such as fairness and privacy, and an emphasis on the use of causal reasoning to evaluate data-driven systems and policies. Topics may include:

- Replication crisis, unfair algorithms, basics of normative ethics and causality
- Historical examples, professional ethical guidelines
- Transparency, reproducibility, open science
- Discrimination, statistical fairness, impossibility results
- Causal reasoning for fairness, pathway analysis, intersectionality
- Interventions, policy optimization, distributive justice
- Data provenance, privacy, differential privacy
- Strategic behavior, surveillance, democratic data
- Automation and AI, responsibility, complicity

Causal statistical models will be used as a formal framework throughout to understand and stress test these ideas.

**Teaching:** 20 hours of lectures and 10 hours of classes in the MT.

**Formative coursework:** Students will be expected to produce 4 problem sets in the MT.

Note that two of the problem sets will be graded and summative.

**Indicative reading:** Lecture notes will be provided. These will be supplemented with a variety of short readings, some of which will

be taken from the following background references

- <https://www.bitbybitbook.com/en/1st-ed/ethics/>
- <https://fairmlbook.org/>
- <https://data-feminism.mitpress.mit.edu/>
- <https://aiethics.princeton.edu/case-studies/>
- <https://www.acm.org/code-of-ethics>
- <https://rss.org.uk/RSS/media/News-and-publications/Publications/Reports%20and%20guides/A-Guide-for-Ethical-Data-Science-Final-Oct-2019.pdf>
- <https://www.amstat.org/ASA/Your-Career/Ethical-Guidelines-for-Statistical-Practice.aspx>
- <https://hastie.su.domains/CASI/>
- <https://www.statlearning.com/>

**Assessment:** Group project (50%) in the LT Week 2.

Group presentation (20%) in the MT Week 9.

Problem sets (15%) in the MT Week 7.

Problem sets (15%) in the MT Week 10.

Two problem sets during the MT will be summative, each with 15% marks. Group work consists of a presentation during the MT describing a project proposal, and the project itself will then be due in the LT.

## ST326 Half Unit Financial Statistics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Wai-Fung Lam COL.6.09

**Availability:** This course is compulsory on the BSc in Financial Mathematics and Statistics. This course is available on the BSc in Actuarial Science, BSc in Data Science and BSc in Mathematics, Statistics and Business. This course is available with permission as an outside option to students on other programmes where regulations permit and to General Course students.

**Pre-requisites:** Either ST202, or ST206 and ST211.

"Previous programming experience is not required but students who have no previous experience in R must complete an online pre-sessional R course from the Digital Skills Lab before the start of the course (<https://moodle.lse.ac.uk/course/view.php?id=7745>)" The equivalent link for Python is: <https://moodle.lse.ac.uk/course/view.php?id=7696>

**Course content:** The course covers key statistical methods and data analytic techniques most relevant to finance. Hands-on experience in analysing financial data in the "R" environment is an essential part of the course. The course includes a selection of the following topics: obtaining financial data, low- and high-frequency financial time series, ARCH-type models for low-frequency volatilities and their simple alternatives, Markowitz portfolio theory and the Capital Asset Pricing Model, concepts and practices in machine learning as applied in financial forecasting, Value at Risk. Will cover classification techniques using random forests and simple trading strategies if time permits.

**Teaching:** This course will be delivered through a combination of classes, lectures and Q&A sessions totalling a minimum of 30 hours across Michaelmas Term. This course includes a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Students will be expected to produce 9 problem sets in the MT.

**Indicative reading:** Lecture notes will be provided  
Lai, T.L. And Xing H. (2008) *Statistical Models and Methods for Financial Markets*. Springer.

Tsay, R. S. (2005) *Analysis of Financial Time Series*. Wiley.

Ruppert, D. (2004) *Statistics and Finance – an introduction*. Springer.

Fan, Yao (2003) *Nonlinear Time Series*.

Hastie, Tibshirani, Friedman (2009) *The Elements of Statistical Learning*.

Haerdle, Simar (2007) *Applied Multivariate Statistical Analysis*.

**Assessment:** Exam (80%, duration: 2 hours) in the summer exam period.

Coursework (20%) in the MT.

The course will be assessed by an examination (80%) and a coursework (20%) involving case studies which will be submitted in MT.

## ST327

### Market Research: An Integrated Approach

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr James Abdey COL.5.10 and Mr Karsten Shaw

**Availability:** This course is available on the BSc in Business Mathematics and Statistics, BSc in Data Science, BSc in Management and BSc in Mathematics, Statistics and Business. This course is available as an outside option to students on other programmes where regulations permit. This course is available with permission to General Course students. Not to be taken with ST307.

**Pre-requisites:** Students must have completed one of the following: Elementary Statistical Theory (ST102), Quantitative Methods (Statistics) (ST107), Statistics for Management Sciences (ST203), Econometrics: Theory and Applications (MG205), Analytical Methods for Management (MG202), or equivalent. The combination of Elementary Statistical Theory I (ST109) and Econometrics I (EC1C1) is also acceptable.

**Course content:** The main ideas and applications of market research techniques. ST327.1 Topics covered are introduction to market research, defining the market research problem, research design, internal secondary data and the use of databases, qualitative research: focus group discussions, projective techniques, survey and quantitative observation techniques, measurement and scaling: fundamentals, comparative and non-comparative scaling, questionnaire design, sampling: design and procedures, final and initial sample size determination, cross-tabulation and hypothesis testing, analysis of variance and covariance, correlation and regression, discriminant analysis, factor analysis, cluster analysis and conjoint analysis. ST327.2 Case Studies: Students use the information and techniques gained from ST327.1 to carry out a co-operative Market Research Case Study. Individual write up of the Case Study forms part of the assessment.

**Teaching:** This course will be delivered through a combination of classes and lectures totalling a minimum of 36 hours across Michaelmas Term and Lent Term.

This course does not include a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Students are given weekly exercises to work on for discussion in class.

**Indicative reading:** Malhotra, N.K. (2019) *Marketing Research: An Applied Orientation* (7th edition), Pearson (earlier editions are also fine).

**Assessment:** Exam (60%, duration: 2 hours) in the summer exam period.

Coursework (25%) in the ST.

Presentation (15%) in the LT.

The assessed Case Study work is split into two parts; a group presentation and an individual piece of coursework.

## ST330

### Stochastic and Actuarial Methods in Finance

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Erik Baurdoux COL.6.04

**Availability:** This course is available on the BSc in Actuarial Science, BSc in Business Mathematics and Statistics, BSc in Data Science and BSc in Mathematics, Statistics and Business. This course is not available as an outside option. This course is available to General Course students.

**Pre-requisites:** Students must have completed:

EITHER Probability, Distribution Theory and Inference (ST202) OR  
Probability and Distribution Theory (ST206)  
AND Stochastic Processes (ST302).

**Course content:** Theories of financial market behaviour.

Applications of stochastic processes and actuarial models  
in finance. Utility theory. Stochastic dominance and portfolio  
selection. Measures of investment risk. Mean-variance portfolio  
theory. Single and multifactor models. The Capital Asset Pricing  
Model. The efficient market hypothesis.

Introduction to financial markets. Model-free relationships.

Stochastic models for security prices and interest rates and  
estimating their parameters. Option pricing: general framework  
in discrete and continuous time, the Black-Scholes analysis and  
numerical procedures (binomial models and Cox-Ross-Rubinstein  
models). The term structure of interest rates: the Vasicek, the Cox-  
Ingersoll-Ross and other models. Introduction to credit risk.

**Teaching:** This course will be delivered through a combination of  
seminars and lectures totalling a minimum of 60 hours across  
Michaelmas Term and Lent Term.

This course includes a reading week in Week 6 of Michaelmas/  
Lent Term.

Students will work on and submit formative coursework towards  
the end of MT and a second set of formative coursework towards  
the end of LT. Feedback and solutions will be provided

**Formative coursework:** Two sets of hand-in exercises will also be  
given during the year.

**Indicative reading:** N H Bingham & R Kiesel, Risk Neutral Valuation;  
A Cerny, Mathematical Techniques in Finance: Tools for Incomplete  
Markets; J Hull, Options, Futures & Other Derivatives; R Jarrow & S  
Turnbull, Derivative Securities; D Luenberger, Investment Science;  
Institute of Actuaries core reading notes, Subject CT8.

**Assessment:** Exam (90%, duration: 3 hours) in the summer exam  
period.

Coursework (10%) in the LT.

# **Diploma Programme Regulations**

**Key to Diploma Regulations**  
**(H) means a half-unit course**  
**(C) means this course is capped**  
**(n/a 22/23) means not available in the 2022/23 academic year**  
**(MT) means Michaelmas Term**  
**(LT) means Lent Term**  
**(ST) means Summer Term**

## Diploma in Accounting and Finance

**Programme Code:** TDAF

**Department:** Accounting

For students starting this programme of study in 2022/23

Students must take four units as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and can be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

**Year 1**

Paper 1 FM212 Principles of Finance (1.0) #

**Or**

By special permission of the Course Leaders, students may substitute FM212 with one of the following:

FM300 Corporate Finance, Investments and Financial Markets (1.0) #\* **or**

FM321 Risk Management and Modelling (0.5) # **and** FM322 Derivatives (0.5) #\*

**Or**

one from:

FM473L Financial Markets (0.5) #\*

FM473M Financial Markets (0.5) #\*

and one from:

FM474L Managerial Finance (0.5) \*

FM474M Managerial Finance (0.5) \*

Paper 2 Courses to the value of 1.0 unit(s) from the following:

AC200 Accounting Theory and Practice (1.0) #

**Or**

AC490 Management Accounting, Decisions and Control (0.5) **and** AC491 Financial Accounting, Reporting and Disclosure (0.5)

Papers 3 & 4 Courses to the value of 2.0 unit(s) from the following (if not already taken under Paper 2):

AC311 Results Accountability and Management Control for Strategy Implementation (0.5) #

AC312 Performance Measurement, Strategy, and Uncertainty (0.5) #

AC331 Contemporary Issues in Financial Accounting (0.5) #

AC332 Financial Statement Analysis and Valuation (0.5) #

AC341 Corporate Governance, Risk Management and Financial Audit (0.5)

AC342 Accounting, Corporate Responsibility and Sustainability (0.5)

AC470 Accounting in the Global Economy (0.5) #

EC2A3 Microeconomics II (0.5) #

EC2B3 Macroeconomics II (0.5) #

EC2C3 Econometrics I (0.5) #

EC2C4 Econometrics II (0.5) #1

EH240 Business and Economic Performance since 1945: Britain in International Context (1.0)

MA107 Quantitative Methods (Mathematics) (0.5) #

MG4G4 Topics in Management Research (0.5)

ST107 Quantitative Methods (Statistics) (0.5) #

Any other course with the approval of the Programme Director, by special permission only.

Prerequisite Requirements and Mutually Exclusive Options

\* means available with permission

1: Before taking EC2C4 you must take EC2C3

# means there may be prerequisites for this course.

Please view the course guide for more information.

This programme is externally accredited by the

ACCA. Further information is available on the

Department of Accounting website [lse.ac.uk/collections/accounting/](http://lse.ac.uk/collections/accounting/).

# **Taught Master's Programme Regulations**

**Key to Taught Master's Regulations**  
**(H) means a half-unit course**  
**(C) means this course is capped**  
**(n/a 22/23) means not available in the 2022/23 academic year**

## MSc in Accounting, Organisations and Institutions

**Programme Code:** TMACORIN

**Department:** Accounting

For students starting this programme of study in 2022/23 Academic-year programme. Students take courses to the value of four units. There is also a pre-session course held in the week before MT: AC425 MSc Accounting, Organisations and Institutions: Pre-session course.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements. Some optional subjects may not be available in any specific academic year.**

Paper	Course number, title (unit value)
Pre-session Course	AC425 MSc Accounting, Organisations and Institutions: Pre-session course (0.0)
Prerequisite Course	Students who wish to take AC416 in Paper 3 or Paper 4 are required to take the following course which runs over a 9-day period before the start of MT: AC480 Quantitative Methods in Accounting and Finance (0.0)
Paper 1	AC424 Accounting, Organisations and Institutions (1.0) #
Paper 2	AC411 Accounting, Strategy and Control (0.5) <b>and</b> AC412 Accountability, Organisations and Risk Management (0.5)
Paper 3	AC490 Management Accounting, Decisions and Control (0.5) <b>and</b> AC491 Financial Accounting, Reporting and Disclosure (0.5)
	<b>Or</b> Students with a substantive and verifiable background in accounting must do as Paper 3 either: AC415 Management Accounting for Decision Making (0.5) <b>and</b> AC416 Topics in Financial Reporting (0.5) # 1 <b>or</b> AC416 Topics in Financial Reporting (0.5) # <b>and</b> AC417 Corporate Financial Disclosure and Investor Relations (0.5) 2
	<b>Or</b> Students with prior background in management accounting only must do as Paper 3: AC415 Management Accounting for Decision Making (0.5) <b>and</b> AC491 Financial Accounting, Reporting and Disclosure (0.5)
Paper 4	Courses to the value of 1.0 unit(s) from the following: AC415 Management Accounting for Decision Making (0.5) AC416 Topics in Financial Reporting (0.5) # 3 AC417 Corporate Financial Disclosure and Investor Relations (0.5) AC444 Valuation and Security Analysis (0.5) #

DV413	Environmental Problems and Development Interventions (0.5) #
DV415	Global Environmental Governance (0.5)
EH463	The Long-Run Analysis of Firms and Industries (0.5)
EH483	The Development and Integration of the World Economy in the 19th and 20th Centuries (1.0)
FM474L	Managerial Finance (0.5)
FM474M	Managerial Finance (0.5)
LL4BF	International Financial Regulation (0.5)
MG476	Corporate Social Responsibility and International Labour Standards (0.5) #
MY428	Qualitative Text and Discourse Analysis (0.5) #

Any other course with the approval of the Programme Director.

### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

1: Before taking AC416 you must take AC480  
 2: Before taking AC416 you must take AC480  
 3: Before taking AC416 you must take AC480  
 The Bologna Process [lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm](http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm) facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in Accounting and Finance

**Programme Code:** TMAF

**Department:** Accounting

For students starting this programme of study in 2022/23 Academic-year programme. Students must take courses to the value of four units as shown.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Prerequisite Course	Students who wish to take AC416 in Papers 2, 3 or 4 are required to take the following course which runs over a 9-day period before the start of MT: AC480 Quantitative Methods in Accounting and Finance (0.0)
Paper 1	Courses to the value of 1.0 unit(s) from the following: FM430 Corporate Finance and Asset Markets

	(1.0) # (not available 2022/23)
	<b>Or</b>
	FM429 Asset Markets A (0.5) #
	<b>and</b>
	FM431L Corporate Finance A (0.5) # <b>or</b>
	FM431M Corporate Finance A (0.5) #
	Or another approved paper by special permission only.
Paper 2	Courses to the value of 1.0 unit(s) from the following:
	AC411 Accounting, Strategy and Control (0.5) <b>and</b> AC415 Management Accounting for Decision Making (0.5) <b>or</b>
	AC415 Management Accounting for Decision Making (0.5) <b>and</b> AC416 Topics in Financial Reporting (0.5) # 1 <b>or</b>
	AC416 Topics in Financial Reporting (0.5) # <b>and</b> AC417 Corporate Financial Disclosure and Investor Relations (0.5) 2 <b>or</b>
	AC411 Accounting, Strategy and Control (0.5) <b>and</b> AC416 Topics in Financial Reporting (0.5) #
Papers 3 & 4	Courses to the value of 2.0 unit(s) from the following:
	AC411 Accounting, Strategy and Control (0.5)
	AC412 Accountability, Organisations and Risk Management (0.5)
	AC415 Management Accounting for Decision Making (0.5)
	AC416 Topics in Financial Reporting (0.5) # 3
	AC417 Corporate Financial Disclosure and Investor Relations (0.5)
	AC444 Valuation and Security Analysis (0.5) #
	AC470 Accounting in the Global Economy (0.5) #
	FM402 Financial Risk Analysis (0.5) #
	FM413 Fixed Income Markets (0.5) #
	FM421 Applied Corporate Finance (0.5) #
	FM441 Derivatives (0.5) #
	FM442 Quantitative Methods for Finance and Risk Analysis (0.5) #
	FM445 Portfolio Management (0.5)
	FM447 Global Financial Systems (0.5) #
	FM471 Sustainable Finance and Impact Investing (0.5) #
	FM472 International Finance (0.5) #
	FM476 Entrepreneurial Finance (0.5) #
	GY462 Real Estate Finance (0.5)
	LL4BK Corporate Crime (0.5)
	LL4BL Financial Crime (0.5)
	MG4D5 Leadership in Organisations: Theory and Practice (0.5)
	Any other course by special permission only. Students can also take a dissertation in accounting:
	AC499 Dissertation (1.0)
	Students taking FM442 can apply for a place on the following non-assessed computer course:
	FM457 Applied Computational Finance (0.0) (not available 2022/23)
	<b>Prerequisite Requirements and Mutually Exclusive Options</b>
	1: Before taking AC416 you must take AC480
	2: Before taking AC416 you must take AC480
	3: Before taking AC416 you must take AC480
	# means there may be prerequisites for this course. Please view the course guide for more information.
<b>Notes</b>	Students may elect to have their degree specialisation indicated on their degree certificate. Students who take both AC470 and FM472 as Paper 3 may choose to have <b>MSc Accounting and</b>

**Finance: International Accounting and Finance** on their certificate. Students who take two half units of AC411 or AC415 or AC416 or AC417 as Paper 3 may choose to have **MSc Accounting and Finance: Accounting and Financial Management** on their certificate. Students taking finance courses to the equivalent of two full units as Papers 3 and 4 may choose to have **MSc Accounting and Finance: Finance** on their certificate.

The Bologna Process [lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm](http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm) facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

## MSc in Anthropology and Development

**Programme Code:** TMANDV

**Department:** Anthropology

For students starting this programme of study in 2022/23 Full-year programme. Students must take two compulsory courses, a dissertation and optional courses to the value of one unit. Written papers will be taken in the summer term and the dissertation must be submitted in September. Attendance at seminars and at non-assessed tutorials is compulsory.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

<b>Paper</b>	<b>Course number, title (unit value)</b>
Paper 1	AN436 The Anthropology of Development (0.5) <b>and either</b>
	AN456 Anthropology of Economy (1): Production and Exchange (0.5) <b>or</b>
	AN457 Anthropology of Economy (2): Transformation and Globalisation (0.5)
Paper 2	DV400 Development: History, Theory and Policy (1.0) #
	<b>Or</b>
	DV442 Key Issues in Development Studies (0.5) and 0.5 units from the following:
	<b>Paper 3 DV courses options list</b>
Paper 3	Courses to the value of 1.0 unit(s) from the following:
	AN402 The Anthropology of Religion (1.0)
	AN404 Anthropology: Theory and Ethnography (1.0)
	AN405 The Anthropology of Kinship, Sex and Gender (1.0)
	AN419 The Anthropology of Christianity (0.5) (not available 2022/23)
	AN420 The Anthropology of Southeast Asia (0.5) (not available 2022/23)
	AN424 The Anthropology of Melanesia (0.5)
	AN444 Investigating the Philippines - New Approaches and Ethnographic Contexts (0.5) # (not available 2022/23)
	AN447 China in Comparative Perspective (1.0)
	AN451 Anthropology of Politics (0.5)
	AN456 Anthropology of Economy (1): Production and Exchange (0.5) A
	AN457 Anthropology of Economy (2): Transformation and Globalisation (0.5) B

AN458	Children and Youth in Contemporary Ethnography (0.5)
AN461	Anthropological Approaches to Questions of Being (0.5) (not available 2022/23)
AN463	Borders and Boundaries: Ethnographic Approaches (0.5) (not available 2022/23)
AN467	The Anthropology of South Asia (0.5) # (not available 2022/23)
AN469	The Anthropology of Amazonia (0.5) (not available 2022/23)
AN475	The Anthropology of Revolution (0.5) (not available 2022/23)
AN476	Anthropology and the Anthropocene (0.5)
AN477	Topics in the Anthropology of sub-Saharan Africa (0.5) # (not available 2022/23)
AN479	Anthropology of Law (0.5)
AN480	Public Anthropology (0.5) (not available 2022/23)
AN481	Health and Welfare: Anthropological Perspectives (0.5) (not available 2022/23)
AN482	Bangladesh and Beyond: Anthropological Perspectives (0.5) (not available 2022/23)
AN483	Anthropology, Art, and Poetics (0.5) (not available 2022/23)
AN484	Anthropological Approaches to Race, Racism, and Decolonisation (0.5)
DV407	Poverty (0.5)
DV413	Environmental Problems and Development Interventions (0.5) #
DV415	Global Environmental Governance (0.5)
DV418	African Development (0.5)
DV420	Complex Emergencies (0.5)
DV421	Critical Perspectives on Global Health and Development (0.5)
DV428	Managing Humanitarianism (0.5)
DV458	Key issues in Global Health and Development (0.5)
DV464	Democracy and Development (0.5)
DV480	Revolution and Development (0.5) #
DV490	Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development (0.5)
DV491	Economic Development Policy II: Microeconomic Analysis (0.5) #
DV492	Economic Development Policy III: Government Policy Analysis (0.5) #

Any other courses offered by Anthropology or International Development, as approved.

Paper 4

**Paper 3 DV courses options list**

DV407	Poverty (0.5)
DV413	Environmental Problems and Development Interventions (0.5) #
DV415	Global Environmental Governance (0.5)
DV418	African Development (0.5)
DV420	Complex Emergencies (0.5)
DV421	Critical Perspectives on Global Health and Development (0.5)
DV428	Managing Humanitarianism (0.5)
DV458	Key issues in Global Health and Development (0.5)
DV464	Democracy and Development (0.5)
DV480	Revolution and Development (0.5) #
DV490	Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development (0.5)
DV491	Economic Development Policy II:

	Microeconomic Analysis (0.5) #
DV492	Economic Development Policy III: Government Policy Analysis (0.5) #

**Footnotes**

A: AN456 can only be taken under Paper 3 if it was not taken under Paper 1.  
 B: AN457 can only be taken under Paper 3 if it was not taken under Paper 1.  
 # means there may be prerequisites for this course. Please view the course guide for more information.

**Footnotes**

A: This option will not be available to those who have already studied MA300 and MA301, or who have studied this subject as part of an undergraduate degree.  
 B: This option will not be available to those who have already studied MA320.  
 C: Students taking this course can apply for a place on FM457 Applied Computational Finance, a non-assessed computer course.  
 # means there may be prerequisites for this course. Please view the course guide for more information.

**MSc in Applied Social Data Science**

**Programme Code:** TMASDS

**Department:** Methodology

For students starting this programme of study in 2022/23 Students must take two compulsory half-unit MY courses, a dissertation and optional courses (MY and/or non-MY) to the value of two units. The total value of all non-MY courses should not exceed one unit.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

Paper 1 MY470 Computer Programming (0.5)  
 Exceptionally, students who can demonstrate sufficient prior training in or professional experience with computer programming commensurate with that covered in MY470 can substitute a 0.5-unit course from Paper 3 for MY470. This would be subject to the approval of the MSc Programme Director.

**And** courses to the value of 0.5 units from the following:

MY472	Data for Data Scientists (0.5)
ST445	Managing and Visualising Data (0.5) #
MY400	Fundamentals of Social Science Research Design (0.5)

Paper 2

**And** courses to the value of 0.5 units from the following:

MY452L	Applied Regression Analysis (0.5) #
MY452M	Applied Regression Analysis (0.5) #
MY474	Applied Machine Learning for Social Science (0.5) #
ST443	Machine Learning and Data Mining (0.5) #

Paper 3 Courses to the value of 0.5 units from the following:

MY405	Research Design for Policy and Programme Evaluation (0.5)
MY456	Survey Methodology (0.5) #
MY457	Causal Inference for Observational and Experimental Studies (0.5) #
MY459	Quantitative Text Analysis (0.5) #
MY461	Social Network Analysis (0.5)
ST446	Distributed Computing for Big Data (0.5) #
ST449	Artificial Intelligence (0.5)
ST451	Bayesian Machine Learning (0.5) #
ST455	Reinforcement Learning (0.5) #
ST456	Deep Learning (0.5) #

**Or**

Courses to the value of 0.5 unit(s) from the following:

**Methodology Options List**

Choice of any other 0.5 unit LSE course (including MY) with approval of the Academic Mentor.

Paper 4

MY498 Capstone Project (1.0)

**Methodology Options List**

Paper 5

MY405	Research Design for Policy and Programme Evaluation (0.5)
MY421L	Qualitative Research Methods (0.5)
MY421M	Qualitative Research Methods (0.5)
MY424	Advanced qualitative field methods for researching space and place (0.5) # (not available 2022/23)
MY426	Doing Ethnography (0.5) #
MY428	Qualitative Text and Discourse Analysis (0.5) #
MY451L	Introduction to Quantitative Analysis (0.5)
MY451M	Introduction to Quantitative Analysis (0.5)
MY452L	Applied Regression Analysis (0.5) #
MY452M	Applied Regression Analysis (0.5) #
MY455	Multivariate Analysis and Measurement (0.5) #
MY456	Survey Methodology (0.5) #
MY457	Causal Inference for Observational and Experimental Studies (0.5) #
MY459	Quantitative Text Analysis (0.5) #
MY461	Social Network Analysis (0.5)
MY472	Data for Data Scientists (0.5)

# means there may be prerequisites for this course. Please view the course guide for more information.

**MSc in Behavioural Science**

**Programme Code:** TMBS

**Department:** Psychological and Behavioural Science

For students starting this programme of study in 2022/23 Wellbeing Specialism: students who choose to concentrate their electives and dissertation on wellbeing may elect to have a specialism in "Wellbeing" attached to their degree certificate and transcript, i.e. "Behavioural Science (Wellbeing)". To obtain this specialism, students must take PB421 Happiness and PB441 Wellbeing for Policy, and their dissertation topic must be approved by their supervisor as being appropriate for this specialism. If no such election is made, the degree certificate will state "Behavioural Science" without further specification.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

## 408 Taught Master's Programme Regulations

Paper 1	PB405	Foundations in Behavioural Science (1.0)
Paper 2	PB413	Experimental Design and Methods for Behavioural Science (0.5) <b>and</b> PB4A7 Quantitative Applications for Behavioural Science (0.5)
Paper 3		Courses to the value of 0.5 unit(s) from the following: (The below courses cannot be selected if the course with the equivalent title has already been selected from paper 5) PB421 Happiness (0.5) 1 PB434 Behavioural Science in an Age of New Technology (0.5) 2 PB435 Behavioural Science for Planetary Wellbeing (0.5) PB441 Wellbeing for Policy (0.5) PB452 Behavioural Science for Health and Pandemic Responses (0.5) # 3 PB453 Corporate Behaviour and Decision Making (0.5) 4 (not available 2022/23)
Paper 4		Students select a further 0.5 units from paper 3 (if the equivalent title has not been selected for their dissertation under paper 5), or from the list below: MY457 Causal Inference for Observational and Experimental Studies (0.5) # PB416 Cognition and Culture (0.5) (not available 2022/23) PB417 Consumer Psychology for Sustainability (0.5) PB418 Corporate Communications (0.5) PB419 Creativity and Innovation (0.5) # (not available 2022/23) PB422 Health Communication (0.5) PB424 Organisational Life (0.5) PB425 Organisations, Groups and Identity (0.5) # PB426 Knowledge Processes in Organisations (0.5) (not available 2022/23) PB427 Organisational and Social Decision Making (0.5) (not available 2022/23) PB428 Political Psychology: Inequality & Intergroup Relations (0.5) PB429 Science Communication and Controversies (0.5) (not available 2022/23) PB430 Social Influence Modes and Modalities (0.5) # (not available 2022/23) PB431 Social Psychology of Economic Life: Advanced Topics (0.5) PB432 Social Representations: Social Knowledge and Contemporary Issues (0.5) PB433 Theory and Practice of Organisational Development (0.5) PB436 Behavioural Science for Managing Work, People, and Time (0.5) PB458 Dialogue: Conflict & Negotiation (0.5) A course from another department (subject to the approval of the Candidate's Programme Director) <b>Paper 3 option list</b>
Paper 5		Courses assessed by a 10,000 word dissertation:(Courses cannot be selected from this list if the course with the equivalent title has already been selected from paper 3) PB4D2 Happiness - Dissertation (1.0) 5 PB4D3 Behavioural Science in an Age of New Technology - Dissertation (1.0) 6 PB4D4 Behavioural Science for Health and Pandemic Responses - Dissertation (1.0) 7 PB4D5 Corporate Behaviour and Decision Making - Dissertation (1.0) 8 (not

		available 2022/23)
PB4D6	Wellbeing for Policy - Dissertation (1.0) 9	
PB4D7	Behavioural Science for Planetary Wellbeing - Dissertation (1.0) 10	

Students can select a topic outside of the semi-compulsory list at the discretion of the director under extraordinary circumstances.

### Paper 3 option list

PB421	Happiness (0.5)
PB434	Behavioural Science in an Age of New Technology (0.5)
PB435	Behavioural Science for Planetary Wellbeing (0.5)
PB441	Wellbeing for Policy (0.5)
PB452	Behavioural Science for Health and Pandemic Responses (0.5) #
PB453	Corporate Behaviour and Decision Making (0.5) (not available 2022/23)

### Prerequisite Requirements and Mutually Exclusive Options

- 1: PB421 can not be taken with PB4D2
  - 2: PB434 can not be taken with PB4D3
  - 3: PB452 can not be taken with PB4D4
  - 4: PB453 can not be taken with PB4D5
  - 5: PB4D2 can not be taken with PB421
  - 6: PB4D3 can not be taken with PB434
  - 7: PB4D4 can not be taken with PB452
  - 8: PB4D5 can not be taken with PB453
  - 9: PB4D6 can not be taken with PB441
  - 10: PB4D7 can not be taken with PB435
- # means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in China in Comparative Perspective

**Programme Code:** TMCHCP

**Department:** Anthropology

For students starting this programme of study in 2022/23

Full-year programme. Students must take one compulsory course, select optional courses to the value of two units, and write a dissertation, as shown below. Attendance at seminars and at non-assessed tutorials is compulsory.

Students intending to use this degree to convert to a discipline in which they hope to qualify to do a research degree, should choose their options in consultation with the Programme Director to ensure eligibility for the research programme in question.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	AN447 China in Comparative Perspective (1.0)
Papers 2 & 3	Courses to the value of 2.0 unit(s) from the following:
	AN402 The Anthropology of Religion (1.0)
	AN404 Anthropology: Theory and Ethnography (1.0)
	AN405 The Anthropology of Kinship, Sex and Gender (1.0)
	AN436 The Anthropology of Development (0.5)
	AN451 Anthropology of Politics (0.5)
	AN456 Anthropology of Economy (1): Production and Exchange (0.5)
	AN457 Anthropology of Economy (2): Transformation and Globalisation (0.5)
	AN479 Anthropology of Law (0.5)
	AN480 Public Anthropology (0.5) (not available 2022/23)
	AN481 Health and Welfare: Anthropological

	Perspectives (0.5) (not available 2022/23)
AN482	Bangladesh and Beyond: Anthropological Perspectives (0.5) (not available 2022/23)
AN483	Anthropology, Art, and Poetics (0.5) (not available 2022/23)
AN484	Anthropological Approaches to Race, Racism, and Decolonisation (0.5)
Other	Anthropology courses (to the value of 1.0 unit) may be taken, subject to the approval of the Programme Director.
DV411	Population and Development: an Analytical Approach (0.5) (not available 2022/23)
DV413	Environmental Problems and Development Interventions (0.5) #
DV415	Global Environmental Governance (0.5)
DV432	China in Developmental Perspective (0.5) # (not available 2022/23)
DV444	Global Health Challenges: Epidemics, Disease, and Public Health Response (0.5) # (not available 2022/23)
DV463	Civil society, security and development (0.5) (not available 2022/23)
EH446	Economic Development of East and Southeast Asia (1.0) #
EH482	The Origins of the World Economy: Europe and Asia, 1000-1800 (1.0)
EU443	European Models of Capitalism (0.5)
GV432	Government and Politics in China (0.5)
GV467	Introduction to Comparative Politics (0.5)
GV4H1	Chinese Political Thought (0.5) #
GY438	Urban Asia: Cities and Social Change (0.5)
GY480	Remaking China: Geographical aspects of Development and Disparity (0.5) (not available 2022/23)
HY461	East Asia in the Age of Imperialism, 1839-1945 (1.0) #A
HY489	China and the External World, 1644-1839 (0.5)
SP418	Global Social Policy and International Organizations (0.5)
	Courses to the value of one full-unit from MSc International Relations (Papers 2 & 3), subject to availability and the approval of the relevant course convenor. The following courses would be particularly appropriate:
	IR445 Global Politics of China (1.0)
	IR462 International Political Theory (0.5) (not available 2022/23)
	IR464 The Politics of International Law (0.5) (not available 2022/23)
	IR473 China and the Global South (0.5) B
Paper 4	AN498 Dissertation- MSc China in Comparative Perspective (1.0)

**Footnotes**

A: Places on HY461 are subject to space.  
 B: Places on IR473 are subject to space.  
 # means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in City Design and Social Science

**Programme Code:** TMCIDSS

**Department:** Sociology

For students starting this programme of study in 2022/23

Full-year programme which can also be taken part-time over three years. Students must take the City Design: Research Studio course,

two compulsory half-unit courses, an independent project, and one unit of optional courses.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	SO448 City Design: Research Studio (1.0)
Papers 2 & 3	Courses to the value of 1.0 unit(s) from the following: PP465 City-Making: the Politics of Urban Form (0.5) SO451 Cities by Design (0.5) SO480 Urban Inequalities (0.5)
Paper 4	Courses to the value of 1.0 unit(s) from the following: GY409 Globalisation and territorial development: Theory, Evidence and Policy (0.5) GY431 Cities, People and Poverty in the South (0.5) # GY438 Urban Asia: Cities and Social Change (0.5) GY439 Cities, Politics and Citizenship (0.5) GY441 The Politics of Housing (0.5) (not available 2022/23) GY448 Social and Political Aspects of Planning (0.5) GY455 Economic Appraisal and Valuation (0.5) GY477 Race and Capitalism in North America (0.5) GY479 Urban Transformations (0.5) (not available 2022/23) MY424 Advanced qualitative field methods for researching space and place (0.5) # (not available 2022/23) PP465 City-Making: the Politics of Urban Form (0.5) SO451 Cities by Design (0.5) SO473 Crime, Control and the City (0.5) SO475 Material Culture and Design (0.5) (not available 2022/23) SO477 Urban Social Theory (0.5) (not available 2022/23) SO480 Urban Inequalities (0.5) SO492 Qualitative Social Research Methods (0.5) SO4C5 The Social Life of Infrastructure (0.5) SP435 Housing, Neighbourhoods and Communities (0.5) # (not available 2022/23) SP437 International Housing and Human Settlements; Conflicts and Communities (0.5) (not available 2022/23)
	Any other course in the Department of Sociology, or other departments (special permission only), by agreement with the course tutor.
Paper 5	SO449 Independent Project (1.0) # means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Comparative Politics

**Programme Code:** TMCP

**Department:** Government

For students starting this programme of study in 2022/23

Full-year programme. Students must take papers to the value of four full units as shown. All students are required to write a 10,000-word dissertation. Note that some of the courses must be taken together. Part-time students may take up to four courses in their

first year. Students can either opt for No Specialism or choose one of the following specialisms: Democracy and Democratization, Nationalism and Ethnic Politics, Comparative Political Economy, Popular Politics, or Politics of the Developing World.

The core elements for all specialisms on this programme are: GV467 and GV499.

Students on a particular specialism will have automatic right of entry to the courses listed under the specialism. Other students will have access subject to availability.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

#### Democracy and Democratization

##### Paper Course number, title (unit value)

Paper 1 GV467 Introduction to Comparative Politics (0.5)

Paper 2 GV499 Dissertation (1.0)

Paper 3 GV4E1 Comparative Democratization in a Global Age (0.5)

Paper 4 Courses to the value of 0.5 unit(s) from the following:

GV444 Democracy and Development in Latin America (0.5) (not available 2022/23)

GV4C9 Globalization and Democratization in Southeast Asia (0.5)

GV4E2 Capitalism and Democracy (0.5)

GV4J4 Citizen Representation and Democracy in the European Union (0.5) (not available 2022/23)

GV4L7 Political Participation and Representation in Latin America (0.5)

Paper 5 Courses to the value of 1.5 unit(s) from the following:

##### **Approved paper options list**

##### **Paper 4 options list (Democracy and Democratization)**

Nationalism and Ethnic Politics

##### Paper Course number, title (unit value)

Paper 1 GV467 Introduction to Comparative Politics (0.5)

Paper 2 GV499 Dissertation (1.0)

Paper 3 Courses to the value of 1.0 unit(s) from the following:

EU457 Culture and Security in Global Politics (0.5)

GV439 Government and Politics in Central and Eastern Europe (0.5)

GV4B9 The Second Europe (0.5)

GV4J8 Middle East Politics in Transnational Perspective (0.5)

GV4J9 Populism (0.5) # (not available 2022/23)

Paper 4 Courses to the value of 1.5 unit(s) from the following:

##### **Approved paper options list**

##### **Paper 3 options list (Nationalism and Ethnic Politics)**

Comparative Political Economy

##### Paper Course number, title (unit value)

Paper 1 GV467 Introduction to Comparative Politics (0.5)

Paper 2 GV499 Dissertation (1.0)

Paper 3 Courses to the value of 1.0 unit(s) from the following:

EU4A4 The Politics of Inequality and Redistribution (0.5)

GV441 States and Markets (0.5)

GV4E2 Capitalism and Democracy (0.5)

Paper 4 Courses to the value of 0.5 unit(s) from the following:

DV435 African Political Economy (0.5)

EU4A4 The Politics of Inequality and Redistribution (0.5)

GV4E2 Capitalism and Democracy (0.5)

GV4F8 Institutions and Global Trade (0.5)

SP441 Politics of Social Policy: Welfare and Work in Comparative Perspective (0.5)

Paper 5 Courses to the value of 1.0 unit(s) from the following:

##### **Approved paper options list**

##### **Paper 4 options list (Comparative Political Economy)**

Popular Politics

##### **Course number, title (unit value)**

GV467 Introduction to Comparative Politics (0.5)

GV499 Dissertation (1.0)

Paper 3 Courses to the value of 1.0 unit(s) from the following:

GV4A2 Citizens' Political Behaviour in Europe: Elections Public Opinion and Identities (0.5) # (not available 2022/23)

GV4C9 Globalization and Democratization in Southeast Asia (0.5)

GV4D3 Local Power in an Era of Globalization, Democratization, and Decentralization (0.5)

GV4F2 Popular Politics in the Middle East (0.5)

GV4J4 Citizen Representation and Democracy in the European Union (0.5) (not available 2022/23)

GV4L7 Political Participation and Representation in Latin America (0.5)

Paper 4 Courses to the value of 1.5 unit(s) from the following:

##### **Approved paper options list**

##### **Paper 3 options list (Popular Politics)**

Politics of the Developing World

##### **Course number, title (unit value)**

Paper 1 GV467 Introduction to Comparative Politics (0.5)

Paper 2 GV499 Dissertation (1.0)

Paper 3 Courses to the value of 1.0 unit(s) from the following:

DV435 African Political Economy (0.5)

GV432 Government and Politics in China (0.5)

GV444 Democracy and Development in Latin America (0.5) (not available 2022/23)

GV4F2 Popular Politics in the Middle East (0.5)

GV4F9 The Challenges of Governance in sub-Saharan Africa (0.5) (not available 2022/23)

GV4J8 Middle East Politics in Transnational Perspective (0.5)

GV4L7 Political Participation and Representation in Latin America (0.5)

Paper 4 Courses to the value of 1.5 unit(s) from the following:

##### **Approved paper options list**

##### **Paper 3 options list (Politics of the Developing World)**

No specialism

##### **Course number, title (unit value)**

Paper 1 GV467 Introduction to Comparative Politics (0.5)

Paper 2 GV499 Dissertation (1.0)

Paper 3 Courses to the value of 2.5 unit(s) from the following:

##### **Approved paper options list**

##### **Options list (No Specialism)**

##### **Approved paper options list**

Paper 4

**Footnotes**

A: MY421, MY452 and MY451 are half unit courses  
 which run twice per year – once in MT and once in  
 LT.

# means there may be prerequisites for this  
 course. Please view the course guide for more  
 information.

**This programme has been discontinued. Last  
 year of entry 2022/23.**

**Note for prospective students:**

For changes to graduate course and programme  
 information for the next academic session, please  
 see the graduate summary page for prospective

students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in Criminal Justice Policy

**Programme Code:** TMCJP

**Department:** Social Policy

For students starting this programme of study in 2022/23 Full-year programme. Students must take one compulsory course, optional courses to the value of two full units and a dissertation.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

Paper 1 SP470 Criminal Justice Policy (1.0)

Papers 2 & 3 Courses to the value of 2.0 unit(s) from the following:

SO473 Crime, Control and the City (0.5)

SP403 Academic & Professional Skills Development (0.0) #

SP413 Understanding Social (Dis)advantage (0.5)

SP414 Ethnicity, Race and Social Policy (0.5)

SP419 Social Movements, Activism, and Social Policy (0.5)

SP471 Issues in Contemporary Policing (0.5) # (not available 2022/23)

SP473 Policing, Security and Globalisation (0.5) #

SP475 Riots, Disorder and Urban Violence (0.5) #

SP476 Punishment and Penal Policy (0.5) #

Paper 4 SP498 Criminal Justice Policy - Long Essay (1.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of Social Policy (i.e. not prefixed with 'SP').

**Note for prospective students:**

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in Culture and Conflict in a Global Europe

**Programme Code:** TMCCGLEU

**Department:** European Institute

For students starting this programme of study in 2022/23

**(Formerly MSc in Global Europe: Culture and Conflict)**

Full-year programme. Students must take two semi-compulsory courses, optional courses to the value of two units and a dissertation as shown below. Additionally, all students must

take EU410 Interdisciplinary Research Methods and Design in preparation for the dissertation. Students must also select EU450 Engaging with Europe: Professional Skills during course choice. Places on EU450 workshops are on a first come first served basis.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

Professional development

course EU450 Engaging with Europe: Professional Skills (0.0)

Paper 1 Courses to the value of 1.0 unit(s) from the following:

EU447 Democracy, Ideology and the European State (0.5)

EU457 Culture and Security in Global Politics (0.5)

EU478 The Culture of European Politics (0.5)

EU4A2 Globalisation, Conflict and Post-Conflict Reconstruction (0.5)

Students without some background in European politics and policy-making or economics are strongly encouraged to take one or both of the following to support their studies:

EU409 Basic Economic Concepts for European Political Economy (0.0)

EU4V9 Concepts in Political Science and Public Policy (0.0)

Paper 2 Courses to the value of 1.0 unit(s) from the following:

**Culture and Society**

EU432 The Philosophy of Europe (0.5)

EU437 Europe Beyond Modernity (0.5)

EU457 Culture and Security in Global Politics (0.5)

EU458 Public Policy and Cultural Narratives in a Global Europe (0.5)

EU478 The Culture of European Politics (0.5)

EU481 The Future: Political Responses to a Challenge (0.5)

EU4A3 The Americas and Europe (0.5)

**Conflict studies**

EU475 Racial Diversity and Conflict in Europe: Identities, Religion, and Culture (0.5)

EU476 Emotions and Memory in European Politics (0.5)

EU485 Post-Conflict Justice and Reconciliation in Europe and Beyond (0.5)

EU486 Imaging Violence, Imagining Europe (0.5)

EU4A2 Globalisation, Conflict and Post-Conflict Reconstruction (0.5)

**Politics and Policy**

EU430 Europeanization: The Comparative Politics of Domestic Change (0.5)

EU440 The Balkans in Europe: Transition, Democratisation, Integration (0.5)

EU447 Democracy, Ideology and the European State (0.5)

EU487 European Integration from a Global Governance Perspective (0.5) #

EU488 European Policy-Making and International Cooperation (0.5) #

EU489 Analytical Politics and Policymaking in Europe (0.5)

EU4A1 The Politics and Policies of 'Brexit': The UK's changing relationship with the European Union (0.5) (not available 2022/23)

EU4A5 People and Politics in Europe (0.5)

EU4A6 Reconciliation and Crisis: Politics in Southern Europe (0.5)

**International Migration**

	EU464	International Migration: EU Policies and Politics (0.5) #
	EU468	The Political Economy of Migration in Europe (0.5) #
	EU484	Europe's Role in Global Migration Governance (0.5)
	EU4A8	Migration From Below: Theories and Lived Experiences of Borders (0.5)
Paper 3		Courses to the value of 1.0 unit(s) from the following:
		<b>Identity and Culture</b>
	GI421	Sexuality, Gender and Culture (0.5) # (not available 2022/23)
	GI422	Transnational Sexual Politics (1.0)
	GV498	Multiculturalism (0.5)
	IR461	Islam in World Politics (1.0)
	IR465	The International Politics of Culture and Religion (1.0) # (not available 2022/23)
	SO479	Human Rights and Postcolonial Theory (0.5)
		<b>Conflict in World Politics</b>
	GV4B8	Civil Wars: Concepts and Cases (0.5)
	GV4B9	The Second Europe (0.5)
	GV4K7	Conflict and Cooperation: Key Debates (0.5)
	IR452	Empire and Conflict in World Politics (0.5) (not available 2022/23)
	IR481	Europe, the US and Arab-Israeli Relations (0.5) # (not available 2022/23)
		<b>Methodology</b>
	EU490	Evidence and Analysis in Policy-Making (0.5)
	MY423	Interview Methods for Social Science Research (0.5) #
	MY425	Case Studies and Comparative Methods for Qualitative Research (0.5)
	MY428	Qualitative Text and Discourse Analysis (0.5) #
		or any course(s) not taken previously from the Paper 2 options list below:
		<b>Paper 2 options list</b>
Paper 4	EU499	Dissertation (1.0) <b>and</b> EU410 Interdisciplinary Research Methods and Design (0.0)
Optional	EU470	How do we know? An introduction to research design and methods in political economy (0.0)
		<b>Paper 2 options list</b>
	EU430	Europeanization: The Comparative Politics of Domestic Change (0.5)
	EU432	The Philosophy of Europe (0.5)
	EU437	Europe Beyond Modernity (0.5)
	EU440	The Balkans in Europe: Transition, Democratisation, Integration (0.5)
	EU447	Democracy, Ideology and the European State (0.5)

SO4B6	Nature and Technology: More than Human Sociology (0.5) (not available 2022/23)
SO4B9	The Sociology of Consumption (0.5)
SO4C5	The Social Life of Infrastructure (0.5)
	Or any other MSc level course offered in the School, subject to the consent of the candidate's teachers.
Paper 4	SO493 MSc in Culture and Society Dissertation (1.0)
	# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Data Science

**Programme Code:** TMDS

**Department:** Statistics

For students starting this programme of study in 2022/23 Full-year programme. Students must take three compulsory courses, options to the value of 1.5 unit(s) and a Capstone Project as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	ST445 Managing and Visualising Data (0.5) #
Paper 2	ST447 Data Analysis and Statistical Methods (0.5) #
Paper 3	ST443 Machine Learning and Data Mining (0.5) #
Paper 4	Courses to the value of 1.5 unit(s), including at least 0.5 unit(s) of ST courses from the following:
	MA407 Algorithms and Computation (0.5) #
	MA424 Modelling in Operations Research (0.5) #
	MY459 Quantitative Text Analysis (0.5) #
	MY461 Social Network Analysis (0.5)
	MY470 Computer Programming (0.5)
	ST405 Multivariate Methods (0.5) #
	ST411 Generalised Linear Modelling and Survival Analysis (0.5) #
	ST422 Time Series (0.5) #
	ST429 Statistical Methods for Risk Management (0.5) #
	ST436 Financial Statistics (0.5) #
	ST444 Computational Data Science (0.5) #
	ST446 Distributed Computing for Big Data (0.5) #
	ST449 Artificial Intelligence (0.5)
	ST451 Bayesian Machine Learning (0.5) #
	ST454 Applied spatio-temporal analysis (0.5) #
	ST455 Reinforcement Learning (0.5) #
	ST456 Deep Learning (0.5) #
	ST457 Graph Data Analytics and Representation Learning (0.5) #

Paper 5	ST498 Capstone Project (1.0)
	# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Development Management

**Programme Code:** TMDVMN

**Department:** International Development

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of three full units and a dissertation as shown.

Students who choose to concentrate their electives and dissertation in a certain topic area may elect to have a specialism in "African Development", "Population Studies" or "Applied Development Economics" attached to their degree certificate and transcript. To obtain the specialism indication, students must meet the criteria below.

**African Development:** students must take DV418 and DV435, and their dissertation topic must be approved as being appropriate for this specialism.

**Population Studies:** students must take DV476 and DV456, and their dissertation topic must be approved as being appropriate for this specialism.

**Applied Development Economics:** enrolment capacity is limited and may be based on performance on a pre-quiz which will enable students to take at least two of DV490, DV491, DV492, and their dissertation topic must be approved as being appropriate for this specialism.

If no such election is made, the degree certificate will state "Development Management" without further specification.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	DV431 Development Management (1.0)
Papers 2 & 3	Courses to the value of 2.0 unit(s) from the following:
	It is highly recommended that students take DV443 as part of papers 2&3:
	DV443 Development Management Consultancy Project (0.5)
	AC470 Accounting in the Global Economy (0.5) #
	DV407 Poverty (0.5)
	DV411 Population and Development: an Analytical Approach (0.5) (not available 2022/23)
	DV413 Environmental Problems and Development Interventions (0.5) #
	DV415 Global Environmental Governance (0.5)
	DV418 African Development (0.5)
	DV420 Complex Emergencies (0.5)
	DV421 Critical Perspectives on Global Health and Development (0.5)
	DV423 Global Political Economy of Development (0.5) #
	DV424 International Institutions and Late Development (0.5)
	DV428 Managing Humanitarianism (0.5)
	DV432 China in Developmental Perspective (0.5) # (not available 2022/23)
	DV433 The Informal Economy and Development (0.5) (not available 2022/23)
	DV434 Human Security (0.5)
	DV435 African Political Economy (0.5)
	DV444 Global Health Challenges: Epidemics, Disease, and Public Health Response (0.5) # (not available 2022/23)

DV454	Gender, labour markets and social change in the Global South: theory, evidence, public action (0.5)
DV455	Advocacy, Campaigning and Grassroots Activism (0.5)
DV456	Population, Health and Development: Evidence and Projections (0.5) #
DV457	Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)
DV458	Key issues in Global Health and Development (0.5)
DV460	Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference (0.5) # (not available 2022/23)
DV462	Forced Migration and Refugees (0.5)
DV463	Civil society, security and development (0.5) (not available 2022/23)
DV464	Democracy and Development (0.5)
DV465	Global Health Work: Expertise and Labour (0.5)
DV472	Covid-19 pandemic: health, socio-economic and political implications for development (Special Topics in International Development) (0.5) (not available 2022/23)
DV476	Population Analysis: Methods and Models (0.5) #
DV480	Revolution and Development (0.5) #
DV483	Information Communication Technologies and Socio-economic Development (0.5)
DV490	Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development (0.5)
DV491	Economic Development Policy II: Microeconomic Analysis (0.5) #
DV492	Economic Development Policy III: Government Policy Analysis (0.5) #
GI407	Globalisation, Gender and Development (1.0) 1 (not available 2022/23)
GI409	Gender, Globalisation and Development: An Introduction (0.5) 2

#### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

1: GI407 can not be taken with GI409, GI420

2: GI409 can not be taken with GI407, GI420

3: GI420 can not be taken with GI409, GI407

A: The International Relations (IR) Department permits non-IR students to take only one option from those prefixed "IR". Access is not guaranteed for any option.

B: Entry to this course may be restricted.

C: Entry to this course may be restricted.

D: Entry to this course may be restricted.

E: Entry to this course may be restricted.

F: Course designed for those with a minimum of one year's practical working experience in developing countries; seminars draw extensively on students' own experience. Entry may be restricted. Interested students should attend lectures and consult the lecturers.

#### Footnotes

## MSc in Econometrics and Mathematical Economics

**Programme Code:** TMEM

**Department:** Economics

For students starting this programme of study in 2022/23 Academic-year programme. Students must take courses to the value of four full units as shown. Students are also required to attend the introductory course EC451 Introductory Course for MSc EME.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Introductory course	EC451 Introductory Course for MSc EME (0.0)
Paper 1	EC484 Econometric Analysis (1.0) #
Paper 2	EC487 Advanced Microeconomics (1.0) #
Paper 3	EC417 Advanced Macroeconomics (1.0) #
Paper 4	MSc EME Option List - courses to the value of 1.0 unit from the following:
	EC421 International Economics (1.0) #
	EC423 Labour Economics (1.0) #
	EC424 Monetary Economics and Aggregate Fluctuations (1.0) #
	EC426 Public Economics (1.0) #
	EC427 The Economics of Industry (1.0) #

	The Bologna Process <a href="http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm">lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm</a> facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

## MSc in Economic History

**Programme Code:** TMEH

**Department:** Economic History

For students starting this programme of study in 2022/23 Full-year programme. Students must take compulsory courses to the value of 1.5 units, optional courses to the value of two units and a half-unit dissertation.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	EH401 Historical Analysis of Economic Change (0.5)
Paper 2	EH482 The Origins of the World Economy: Europe and Asia, 1000-1800 (1.0) <b>or</b>
	EH483 The Development and Integration of the World Economy in the 19th and 20th Centuries (1.0)
Papers 3 & 4	EH498 Dissertation (0.5)

and courses to the value of two full units from the following:

**Papers 3 & 4 options list**

**Or**

With the approval of their Academic Mentor, students may request to take EH499 (Dissertation: MSc Economic History) and courses to the value of 1.5 units from the Papers 3 and 4 options list, instead of taking EH498:

EH499 Research Dissertation (1.0) \*

and courses to the value of 1.5 units from the following:

**Papers 3 & 4 options list**

**Papers 3 & 4 options list**

EC465	Economic Growth, Development, and Capitalism in Historical Perspective (1.0) # 1
EH402	Quantitative Analysis in Economic History I (0.5) 2
EH404	India and the World Economy (0.5)
EH409	Chinese Economic History: Culture, Institutions and Economic Growth (0.5)

## MSc in Economics (2 Year Programme)

**Programme Code:** TMECT

**Department:** Economics

For students starting this programme of study in 2022/23 Students without a strong background in economics are required to take the MSc programme over two years. In order to progress to the second year, which is governed by the 'Regulations for Taught Master's Degrees', students must attain or exceed the progression threshold for each of the four courses they have taken. The progression threshold is 60% for courses EC2A1, EC2B1, EC2C1, and MA100, while the progression threshold is 55% in courses MA212 and other advanced MAXXX options. The Sub-Board of Examiners may, at its discretion, consider for progression candidates who fall marginally short of this requirement. However, students gaining the Diploma in a re-sit attempt are not eligible for progression onto the MSc, nor are students entitled to re-sit first year examinations already passed in order to achieve the progression standard.

In Year 1 all courses are compulsory and students are also required to attend EC2A0 Introductory Course in Microeconomic Principles.

In Year 2, students must take three compulsory courses, one unit of optional courses and an extended essay linked to the optional course as shown. Students are also required to attend EC400 Introductory Course in Mathematics and Statistics.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
<b>Year 1</b>	
Introductory course	EC2A0 Introductory Course in Microeconomic Principles (0.0)
Paper 1	EC2A1 Microeconomics II (1.0) #
Paper 2	EC2B1 Macroeconomics II (1.0) #
Paper 3	MA100 Mathematical Methods (1.0) # <b>or</b> MA212 Further Mathematical Methods (1.0) #
Paper 4	EC2C1 Econometrics II (1.0) # Candidates may be allowed to substitute another course or courses for one of the papers listed above with the permission of the Programme Director.
<b>Year 2</b>	
Introductory course	EC400 Introductory Course in Mathematics and Statistics (0.0) #
Paper 5	EC413 Macroeconomics (1.0) #
Paper 6	EC411 Microeconomics (1.0) # <b>or</b> EC487 Advanced Microeconomics (1.0) #*
Paper 7	EC402 Econometrics (1.0) #
Paper 8	Courses to the value of 1.0 unit(s) from the following: EC421 International Economics (1.0) # EC423 Labour Economics (1.0) # EC424 Monetary Economics and Aggregate Fluctuations (1.0) # EC426 Public Economics (1.0) # EC427 The Economics of Industry (1.0) # EC428 Development and Growth (1.0) # EC453 Political Economy (1.0) # EC465 Economic Growth, Development, and Capitalism in Historical Perspective (1.0) # EC475 Quantitative Economics (1.0) # EC476 Contracts and Organisations (1.0) # FM431M Corporate Finance A (0.5) # <b>and</b> FM4T2 Applied Corporate Finance - Dissertation (0.5) GY426 Environmental and Resource Economics (1.0) #

Any other course in Economics approved by the candidate's teachers.

**Or**

FM429 Asset Markets A (0.5) #

**and one of the following:** A

FM4T1 Forecasting Financial Time Series - Dissertation (0.5) (not available 2022/23)

FM4T5 Portfolio Management - Dissertation (0.5)

FM4U1 Fixed Income Markets - Dissertation (0.5)

**Prerequisite Requirements and Mutually Exclusive Options**

MG4B9	The World Trading System (0.5) # (not available 2022/23)
MG4G4	Topics in Management Research (0.5)
Or any other MSc-level elective course which is offered in the School, subject to approval of the Course Leader and the Programme Director.	
MG417	Extended Essay (0.5)

### Paper 6

### Prerequisite Requirements and Mutually Exclusive Options

\* means available with permission

# means there may be prerequisites for this course. Please view the course guide for more information.

The Bologna Process [lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm](http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm) facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in Economics and Philosophy

**Programme Code:** TMECPH

**Department:** Philosophy, Logic and Scientific Method

For students starting this programme of study in 2022/23

Full-year programme. Students take courses to the value of four units and a dissertation. Students are also required to attend EC400 Introductory Course in Mathematics and Statistics.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Introductory course	EC400 Introductory Course in Mathematics and Statistics (0.0) #
Papers 1 & 2	Courses to the value of 2.0 unit(s) from the following:
	EC402 Econometrics (1.0) #
	EC411 Microeconomics (1.0) #
	EC413 Macroeconomics (1.0) #
Papers 3 & 4	Courses to the value of 2.0 unit(s) from the following:

EH428	History of Economics: Making Political Economy into a Social Science (0.5) (not available 2022/23)
EH429	History of Economics: Ideas, Policy and Performativity (0.5)
PH400	Philosophy of Science (1.0)
PH405	Philosophy of the Social Sciences (1.0)
PH413	Philosophy of Economics (1.0) #
PH415	Philosophy and Public Policy (1.0)
PH416	Philosophy, Morals and Politics (1.0)
PH419	Set Theory and Further Logic (1.0) #
PH425	Business and Organisational Ethics (0.5)
PH427	Genes, Brains and Society (0.5)

## MSc in Finance and Economics

**Programme Code:** TMFIEC

**Department:** Finance

For students starting this programme of study in 2022/23 Academic-year (10 month) programme. Students must take three compulsory full-unit core courses and two optional half-unit courses. All students must submit a 6,000 word dissertation in one of the optional courses. Students are required to attend EC400 Introductory Course in Mathematics and Statistics.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Introductory Course	EC400 Introductory Course in Mathematics and Statistics (0.0) #
Paper 1	EC411 Microeconomics (1.0) # <b>or</b> EC4B5 Macroeconomics for MSc F&E (0.5) # <b>and</b> EC4B6 Microeconomics for MSc F&E (0.5) #*A

With the approval of the Programme Director, students who have already completed the equivalent of EC411 in their prior studies may be permitted to take the following course instead:

EC413	Macroeconomics (1.0) #
Paper 2	FM436 Financial Economics (1.0) #
Paper 3	FM437 Financial Econometrics (1.0) #
Paper 4	Two half-unit courses from the list below:

Students must write the 6000-word dissertation in one of their two chosen courses.

FM404	Advanced Financial Economics (0.5) #
FM405	Fixed Income Securities and Credit Markets (0.5) #B
FM406	Topics in Portfolio Management (0.5) #
FM408	Financial Engineering (0.5) # (not available 2022/23)
FM408E	Financial Engineering (0.5) #
FM409	Risk Management in Financial Markets (0.5) # (not available 2022/23)
FM409E	Risk Management in Financial Markets (0.5) #
FM412	Quantitative Security Analysis (0.5) #
FM421	Applied Corporate Finance (0.5) # 1
FM471	Sustainable Finance and Impact Investing (0.5) # 2
FM476	Entrepreneurial Finance (0.5) # 3
FM477	International Finance A (0.5) #
FM4T2	Applied Corporate Finance - Dissertation (0.5) 4

#### Prerequisite Requirements and Mutually Exclusive Options

\* means available with permission

- 1: FM421 can not be taken with FM4T2
- 2: FM471 can not be taken with FM476
- 3: FM476 can not be taken with FM471
- 4: FM4T2 can not be taken with FM421

A: Students may, with the approval of the Programme Director, Associate Programme Director and relevant Course Leaders, take half-units in Macroeconomics and Microeconomics, instead of the full unit EC411, Microeconomics. Students must meet the relevant pre-requisites for

Paper 4

Optional

the Macroeconomics half unit.

B: Students must have completed either Asset Markets (FM423) and Corporate Finance (FM422), or Financial Economics (FM436)

# means there may be prerequisites for this course. Please view the course guide for more information.

The Bologna Process [lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm](http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm) facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

## MSc in Finance and Economics (Work Placement Pathway)

**Programme Code:** TMFIECW

**Department:** Finance

For students starting this programme of study in 2022/23 Academic-year (10 month) programme. Students must take three compulsory full-unit core courses and two optional half-unit courses. All students must submit a 6,000 word dissertation in one of the optional courses and take a two-hour examination in the other. Students are also required to attend EC400 Introductory Course in Mathematics and Statistics.

Students who choose to transfer to the Work Placement Pathway must undertake a work placement and assessment in addition to the courses listed above. Transferring to the Work Placement Pathway extends the duration of the programme to 12 months. Students have the option to transfer to the Work Placement Pathway upon receipt of an offer to undertake an internship placement, which must be approved by the Department. Students on this pathway are required to undertake a full-time internship or work placement during the summer and to submit an essay of 2000 words following the placement (see FM411 for details). The essay will be assessed on a pass/fail basis and students must pass the essay to graduate from the programme.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Programme	Course number, title (unit value)
Introductory Course	EC400	Introductory Course in Mathematics and Statistics (0.0) #
Paper 1	EC411	Microeconomics (1.0) # <b>or</b>
	EC4B5	Macroeconomics for MSc F&E (0.5) # <b>and</b> EC4B6 Microeconomics for MSc F&E (0.5) #* A
		With the approval of the Programme Director, students who have already completed the equivalent of EC411 in their prior studies may be permitted to take the following course instead:
Paper 2	EC413	Macroeconomics (1.0) #
Paper 3	FM436	Financial Economics (1.0) #
Paper 4	FM437	Financial Econometrics (1.0) #
		Courses to the value of 0.5 unit(s) from the following, to be assessed by examination:
	FM404	Advanced Financial Economics (0.5) #
	FM405	Fixed Income Securities and Credit Markets (0.5) #B
	FM406	Topics in Portfolio Management (0.5) #

FM408	Financial Engineering (0.5) # (not available 2022/23)
FM408E	Financial Engineering (0.5) #
FM409	Risk Management in Financial Markets (0.5) # (not available 2022/23)
FM409E	Risk Management in Financial Markets (0.5) #
FM412	Quantitative Security Analysis (0.5) #
FM414E	Private Equity, Venture Capital and Entrepreneurial Finance (0.5) #
FM421	Applied Corporate Finance (0.5) #
FM471	Sustainable Finance and Impact Investing (0.5) #
FM476	Entrepreneurial Finance (0.5) #
FM477	International Finance A (0.5) #
	<b>AND</b> courses to the value of 0.5 unit(s) from the following, to be assessed by dissertation (please note that a course cannot be selected from this list of the course with the equivalent title has already been selected from List 1):
FM478	International Finance for MSc Finance and Economics, MSc Finance and MSc Finance & Private Equity - Dissertation (0.5) # (not available 2022/23)
FM4T1	Forecasting Financial Time Series - Dissertation (0.5) (not available 2022/23)
FM4T2	Applied Corporate Finance - Dissertation (0.5)
FM4T6	Topics in Portfolio Management - Dissertation (0.5) (not available 2022/23)
FM4T8	Financial Engineering - Dissertation (0.5) (not available 2022/23)
FM4U1	Fixed Income Markets - Dissertation (0.5)
FM4U2	Quantitative Methods for Finance and Risk Analysis (Dissertation) (0.5) (not available 2022/23)
FM4U4	Quantitative Security Analysis - Dissertation (0.5) (not available 2022/23)
FM4U5	Fixed Income Securities and Credit Markets - Dissertation (0.5) (not available 2022/23)
FM4U9E	Risk Management in Financial Markets - Dissertation (0.5) (not available 2022/23)

Additional course

The following course is not for credit and can be taken in addition to courses to the value of 1.0 unit selected from Paper 4:

FM457 Applied Computational Finance (0.0) (not available 2022/23)

Work Placement Pathway

**Paper** **Course number, title (unit value)**

Paper 5

FM411 Finance Work Placement and Assessment (0.0) # C

**Prerequisite Requirements and Mutually Exclusive Options**

\* means available with permission

**Footnotes**

A: Students may, with the approval of the Programme Director, Associate Programme Director and relevant Course Leaders, take half-units in Macroeconomics and Microeconomics, instead of the full unit EC411, Microeconomics. Students would be required to complete the EC400 introductory course, Maths for Macroeconomics, and must meet the relevant pre-requisites for the Macroeconomics half unit.

B: Students must have completed either Asset Markets (FM423) and Corporate Finance (FM422), or Financial Economics (FM436)

C: This element is not for credit, but is a requirement for students on the Work Placement Pathway and must be taken in addition to courses

to the value of two full units selected from Papers 3 & 4. Successful completion of FM411 is a requirement for students to be eligible for the award of the degree.

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Financial Mathematics

**Programme Code:** TMFIMA

**Department:** Mathematics

For students starting this programme of study in 2022/23 Academic year programme (10 months). Students must take five compulsory half-unit courses and optional courses to the value of one-and-a-half units as shown.

There is also a two-week compulsory introductory course MA400 September Introductory Course relating to MA415 and MA417.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Introductory course	MA400 September Introductory Course (Financial Mathematics and Quantitative Methods for Risk Management) (0.0)
Paper 1	MA415 The Mathematics of the Black and Scholes Theory (0.5) #
Paper 2	MA416 The Foundations of Interest Rate and Credit Risk Theory (0.5) #
Paper 3	ST409 Stochastic Processes (0.5) #
Paper 4	FM413 Fixed Income Markets (0.5) #
Paper 5	MA417 Computational Methods in Finance (0.5) #
Paper 6	One of the following: MA402 Mathematical Game Theory (0.5) # MA411 Probability and Measure (0.5) # MA414 Stochastic Analysis (0.5) # (not available 2022/23) MA420 Quantifying Risk and Modelling Alternative Markets (0.5) # (not available 2022/23) MA435 Machine Learning in Financial Mathematics (0.5) # ST440 Recent Developments in Finance and Insurance (0.5) #
Papers 7 & 8	Courses to the value of 1.0 unit(s) from the following: FM402 Financial Risk Analysis (0.5) # FM429 Asset Markets A (0.5) # FM430 Corporate Finance and Asset Markets

(1.0) # (not available 2022/23)  
 FM441 Derivatives (0.5) #  
 FM442 Quantitative Methods for Finance and Risk Analysis (0.5) #  
 FM445 Portfolio Management (0.5)  
 FM472 International Finance (0.5) #  
 ST422 Time Series (0.5) #  
 ST426 Applied Stochastic Processes (0.5)  
 ST429 Statistical Methods for Risk Management (0.5) #  
 ST448 Insurance Risk (0.5) #  
 Further half unit(s) from the MA4\*\* level courses or any other appropriate MSc course, subject to the approval of the Programme Director and Teacher Responsible for the course.

**Paper 6 options list**

Additional course

Students can also take the following non-assessed course taken in addition to the required five compulsory half-unit courses and optional courses to the value of one-and-a-half units detailed above:

MA422 Research Topics in Financial Mathematics (0.0)

**Paper 6 options list**

MA402 Mathematical Game Theory (0.5) #  
 MA411 Probability and Measure (0.5) #  
 MA414 Stochastic Analysis (0.5) # (not available 2022/23)  
 MA420 Quantifying Risk and Modelling Alternative Markets (0.5) # (not available 2022/23)  
 MA435 Machine Learning in Financial Mathematics (0.5) #  
 ST440 Recent Developments in Finance and Insurance (0.5) #

# means there may be prerequisites for this course. Please view the course guide for more information.

The Bologna Process [lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm](http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm) facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

**MSc in Gender, Development and Globalisation**

**Programme Code:** TMGEDVGL

**Department:** Gender Studies

For students starting this programme of study in 2022/23 Full-year programme. Students must take the following courses to the value of four full units.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	GI424 Gender Theories: An Interdisciplinary Approach (0.5)
Paper 2	GI409 Gender, Globalisation and Development: An Introduction (0.5)
<b>and</b>	
	GI420 Global Development and Its Discontents: Feminist Perspectives (0.5)

Paper 3	Courses to the value of 1.5 unit(s) from the following: A
DV454	Gender, labour markets and social change in the Global South: theory, evidence, public action (0.5)
DV456	Population, Health and Development: Evidence and Projections (0.5) #
DV457	Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)
DV458	Key issues in Global Health and Development (0.5)
DV462	Forced Migration and Refugees (0.5)
DV465	Global Health Work: Expertise and Labour (0.5)
GI402	Gender, Knowledge and Research Practice (0.5)
GI410	Screening the 21st Century: Cinema and Cultural Critique (0.5) #
GI411	Gender, Post/coloniality and Development: Critical Perspectives and New Directions (0.5) # (not available 2022/23)
GI413	Gender, Race and Militarisation (0.5)
GI414	Theorising Gender and Social Policy (0.5)
GI415	Gender and European Welfare States (0.5)
GI417	Feminist Population Politics (0.5)
GI418	Feminist Economics and Policy: An Introduction (0.5) #
GI421	Sexuality, Gender and Culture (0.5) # 1 (not available 2022/23)
GI422	Transnational Sexual Politics (1.0) 2
GI423	Globalisation and Sexuality (0.5) # 3 (not available 2022/23)
GI425	Introduction to Gender, Peace and Security (0.5)
GI426	Gender and Human Rights (0.5) #
GI428	Bodies, Culture and Politics (0.5)
GI429	Archival Interventions: Feminist, Queer and Decolonial Approaches (0.5) #
GI430	Intersectional Inequalities in the Agro-Food System (0.5) (not available 2022/23)
GV4D7	Dilemmas of Equality (0.5)
GV4H3	Feminist Political Theory (0.5)
GY431	Cities, People and Poverty in the South (0.5) #
PB422	Health Communication (0.5)
	Or a course not listed approved by the Programme Director and subject to space and course teacher's consent.
Paper 4	GI499 Dissertation - Independent Research Project (1.0)

**Prerequisite Requirements and Mutually Exclusive Options**

1: GI421 can not be taken with GI422, GI423

2: GI422 can not be taken with GI421, GI423

3: GI423 can not be taken with GI421, GI422

A: Students can take courses to a maximum of one full unit from outside the Department of Gender Studies.

# means there may be prerequisites for this course. Please view the course guide for more information.

**Footnotes**

## MSc in Gender, Media and Culture

**Programme Code:** TMGEMECU

**Department:** Gender Studies

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of three full units and a dissertation as shown below.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	MC408 Theories and Concepts in Media and Communications (0.5)
	<b>Or</b>
	MC418 Communication: Cultures and Approaches (0.5)
	<b>Or</b>
Paper 2	MC438 Mediated Feminisms (0.5)
	Courses to the value of 0.5 unit(s) from the following:
	GI402 Gender, Knowledge and Research Practice (0.5)
	MC4M1 Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (0.5)
	MC4M7 Methods of Research in Media & Communications (including Qualitative Analysis & Applied Regression Analysis) (0.5) A
	MY428 Qualitative Text and Discourse Analysis (0.5) #
Paper 3	GI424 Gender Theories: An Interdisciplinary Approach (0.5)
Paper 4	GI403 Gender and Media Representation (0.5)
Paper 5	Courses to the value of 0.5 unit offered by the Department of Gender Studies, and a further 0.5 unit, subject to availability.
Paper 6	GI499 Dissertation - Independent Research Project (1.0)

### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

**Footnotes**  
A: MY452 is an advanced Applied Regression Analysis course offered by the Department of Methodology and must be taken by students who select MC4M7. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject to timetabling constraints.

## MSc in Gender, Peace and Security

**Programme Code:** TMGPS

**Department:** Gender Studies

For students starting this programme of study in 2022/23 Full-year programme. Students must take four compulsory courses, options to the value of one unit and a dissertation as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Year 1	
Paper 1	GI424 Gender Theories: An Interdisciplinary Approach (0.5)
Paper 2	GI425 Introduction to Gender, Peace and

Security (0.5)

Plus courses to the value of between 0.5 unit(s) (minimum) and 1.0 unit(s) (maximum) from the following:

GI413 Gender, Race and Militarisation (0.5)  
GI426 Gender and Human Rights (0.5) #  
GI427 Advanced Issues in Gender, Peace and Security (0.5) #

Paper 3

Courses to the value of 1.5 unit(s) from the following: A

DV428 Managing Humanitarianism (0.5)  
DV434 Human Security (0.5)  
DV457 Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)  
DV462 Forced Migration and Refugees (0.5)  
EU485 Post-Conflict Justice and Reconciliation in Europe and Beyond (0.5)  
EU4A2 Globalisation, Conflict and Post-Conflict Reconstruction (0.5)  
GI402 Gender, Knowledge and Research Practice (0.5)  
GI409 Gender, Globalisation and Development: An Introduction (0.5)  
GI411 Gender, Post/coloniality and Development: Critical Perspectives and New Directions (0.5) # (not available 2022/23)  
GI415 Gender and European Welfare States (0.5)  
GI420 Global Development and Its Discontents: Feminist Perspectives (0.5)  
GI422 Transnational Sexual Politics (1.0)  
GI423 Globalisation and Sexuality (0.5) # (not available 2022/23)  
GI429 Archival Interventions: Feminist, Queer and Decolonial Approaches (0.5) #  
GI430 Intersectional Inequalities in the Agro-Food System (0.5) (not available 2022/23)  
GV4B8 Civil Wars: Concepts and Cases (0.5)  
GV4F9 The Challenges of Governance in sub-Saharan Africa (0.5) (not available 2022/23)  
IR422 Conflict and Peacebuilding (1.0) #  
IR452 Empire and Conflict in World Politics (0.5) (not available 2022/23)  
IR466 Genocide (0.5)  
IR471 Critical International Law (0.5)  
LL4A8 International Law and the Use of Force (0.5) #  
LL4A9 Law in War (0.5) #  
MC422 Critical Studies in Media and Journalism (0.5)  
SO424 Approaches to Human Rights (1.0)  
SO457 Political Reconciliation (0.5)

Any course taught by the Department of Gender Studies subject to availability.

Paper 4

GI499 Dissertation - Independent Research Project (1.0)

**Footnotes**

A: Subject to availability and timetabling constraints. Students can take courses to a maximum of one full unit from outside the Department of Gender Studies.  
# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Gender, Policy and Inequalities

**Programme Code:** TMGEPOLIN

**Department:** Gender Studies

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of three full units and a dissertation as shown below.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	GI414 Theorising Gender and Social Policy (0.5)
	<b>And</b> one of the following:
	GI415 Gender and European Welfare States (0.5)
	GI417 Feminist Population Politics (0.5)
Paper 2	GI418 Feminist Economics and Policy: An Introduction (0.5) #
	GI424 Gender Theories: An Interdisciplinary Approach (0.5)
Paper 3	Courses to the value of 1.5 units from the following: A
	DV457 Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)
	DV458 Key issues in Global Health and Development (0.5)
	GI402 Gender, Knowledge and Research Practice (0.5)
	GI403 Gender and Media Representation (0.5)
	GI407 Globalisation, Gender and Development (1.0) (not available 2022/23)
	GI409 Gender, Globalisation and Development: An Introduction (0.5)
	GI411 Gender, Post/coloniality and Development: Critical Perspectives and New Directions (0.5) # (not available 2022/23)
	GI413 Gender, Race and Militarisation (0.5)
	GI415 Gender and European Welfare States (0.5)
	GI417 Feminist Population Politics (0.5)
	GI418 Feminist Economics and Policy: An Introduction (0.5) #
	GI420 Global Development and Its Discontents: Feminist Perspectives (0.5)
	GI421 Sexuality, Gender and Culture (0.5) # 1 (not available 2022/23)
	GI422 Transnational Sexual Politics (1.0) 2
	GI423 Globalisation and Sexuality (0.5) # 3 (not available 2022/23)
	GI425 Introduction to Gender, Peace and Security (0.5)
	GI426 Gender and Human Rights (0.5) #
	GI428 Bodies, Culture and Politics (0.5)
	GI429 Archival Interventions: Feminist, Queer and Decolonial Approaches (0.5) #
	GI430 Intersectional Inequalities in the Agro-Food System (0.5) (not available 2022/23)
	GV4D7 Dilemmas of Equality (0.5)
	GV4H3 Feminist Political Theory (0.5)
	GY431 Cities, People and Poverty in the South (0.5) #
	MY405 Research Design for Policy and Programme Evaluation (0.5)
	MY423 Interview Methods for Social Science Research (0.5) #
	PB422 Health Communication (0.5)
	SO458 Gender and Societies (0.5)
	SP414 Ethnicity, Race and Social Policy (0.5)

Paper 4 GI499 Dissertation - Independent Research Project (1.0)

### Prerequisite Requirements and Mutually Exclusive Options

1: GI421 can not be taken with GI422, GI423

2: GI422 can not be taken with GI421, GI423

3: GI423 can not be taken with GI421, GI422

A: Students can take courses to a maximum of one full unit from outside the Department of Gender Studies.

# means there may be prerequisites for this course. Please view the course guide for more information.

### Footnotes

## MSc in Gender

**Programme Code:** TMGE

**Department:** Gender Studies

For students starting this programme of study in 2022/23 Full-year programme. Students must take two compulsory courses and options to the value of two full units and a dissertation as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	GI424 Gender Theories: An Interdisciplinary Approach (0.5)
Paper 2	GI402 Gender, Knowledge and Research Practice (0.5)
Paper 3	Courses to the value of 2.0 unit(s) from the following: A
	AN405 The Anthropology of Kinship, Sex and Gender (1.0)
	DV457 Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)
	DV458 Key issues in Global Health and Development (0.5)
	GI403 Gender and Media Representation (0.5)
	GI407 Globalisation, Gender and Development (1.0) 1 (not available 2022/23)
	GI409 Gender, Globalisation and Development: An Introduction (0.5) 2

MY451L	Introduction to Quantitative Analysis (0.5)	
MY451M	Introduction to Quantitative Analysis (0.5)	
MY452L	Applied Regression Analysis (0.5) #	
MY452M	Applied Regression Analysis (0.5) #	
Paper 5	GI499	Dissertation - Independent Research Project (1.0)

**Prerequisite Requirements and Mutually Exclusive Options**

- 1: GI407 can not be taken with GI409, GI420
- 2: GI409 can not be taken with GI420, GI407
- 3: GI420 can not be taken with GI407, GI409
- 4: GI421 can not be taken with GI422, GI423
- 5: GI422 can not be taken with GI423, GI421
- 6: GI423 can not be taken with GI422, GI421

**Footnotes**

A: Students can take courses to a maximum of one full unit from outside the Department of Gender Studies.

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Gender (Sexuality)

**Programme Code:** TMGESX

**Department:** Gender Studies

For students starting this programme of study in 2022/23 Full-year programme. Students must take two compulsory courses, options to the value of 1.5 units and a dissertation as shown.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

Paper 1	GI422	Transnational Sexual Politics (1.0)
Paper 2	GI424	Gender Theories: An Interdisciplinary Approach (0.5)
Paper 3		Courses to the value of 1.0 unit from the following, subject to availability:
	GI402	Gender, Knowledge and Research Practice (0.5)
	GI410	Screening the 21st Century: Cinema and Cultural Critique (0.5) #
	GI413	Gender, Race and Militarisation (0.5)
	GI417	Feminist Population Politics (0.5)
	GI425	Introduction to Gender, Peace and Security (0.5)

**Gender Studies Options List**

Paper 4 Courses to the value of 0.5 units from the following, subject to availability:

A further 0.5 unit option from the following (recommended):

**Gender Studies Options List**

**Or**

One of the following non-Gender half-unit courses:

DV447 Youth and Gendered Violence (0.5) # (not available 2022/23)

DV457 Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)

MC426 Film Theory and World Cinema (0.5)

SO458 Gender and Societies (0.5)

SP417 Sexuality, Everyday Lives and Social Policy in Developing Countries (0.5) #

**Or**

A course not listed above, approved by the Programme Director and subject to space and course teacher's consent.

Paper 5

GI499 Dissertation - Independent Research Project (1.0)

**Gender Studies Options List**

GI402 Gender, Knowledge and Research Practice (0.5)

GI403 Gender and Media Representation (0.5)

GI407 Globalisation, Gender and Development (1.0) (not available 2022/23)

GI409 Gender, Globalisation and Development: An Introduction (0.5)

GI410 Screening the 21st Century: Cinema and Cultural Critique (0.5) #

GI411 Gender, Post/coloniality and Development: Critical Perspectives and New Directions (0.5) # (not available 2022/23)

GI413 Gender, Race and Militarisation (0.5)

GI415 Gender and European Welfare States (0.5)

GI417 Feminist Population Politics (0.5)

GI418 Feminist Economics and Policy: An Introduction (0.5) #

GI420 Global Development and Its Discontents: Feminist Perspectives (0.5)

GI421 Sexuality, Gender and Culture (0.5) # 1 (not available 2022/23)

GI423 Globalisation and Sexuality (0.5) # 2 (not available 2022/23)

GI425 Introduction to Gender, Peace and Security (0.5)

GI426 Gender and Human Rights (0.5) #

GI428 Bodies, Culture and Politics (0.5)

GI429 Archival Interventions: Feminist, Queer and Decolonial Approaches (0.5) #

**Prerequisite Requirements and Mutually Exclusive Options**

1: GI421 can not be taken with GI422, GI423

2: GI423 can not be taken with GI421, GI422

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Geographic Data Science

**Programme Code:** TMGEODS

**Department:** Geography & Environment

For students starting this programme of study in 2022/23

Full-year programme. Students must take courses to the value of four full units.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting**

**specific prerequisite requirements.**

Paper	Course number, title (unit value)
<b>Year 1</b>	
Paper 1	GY460 Techniques of Spatial Economic Analysis (0.5) # <b>and</b> GY476 Applied Geographical Information Systems (0.5)
Paper 2	Courses to the value of 1.0 unit(s) from the following: GY428 Applied Quantitative Methods (0.5) # MY470 Computer Programming (0.5) ST445 Managing and Visualising Data (0.5) # ST446 Distributed Computing for Big Data (0.5) # ST455 Reinforcement Learning (0.5) # ST456 Deep Learning (0.5) # ST457 Graph Data Analytics and Representation Learning (0.5) # MY474 Applied Machine Learning for Social Science (0.5) # 1 <b>or</b> ST443 Machine Learning and Data Mining (0.5) # 2
Paper 3	Courses to the value of 1.0 unit(s) from the following: GY400 The Economics of Urbanisation (0.5) # GY404 Inclusive Growth (0.5) # GY415 Local Capacity and Economic Development Policy (0.5) (not available 2022/23) GY426 Environmental and Resource Economics (1.0) # GY448 Social and Political Aspects of Planning (0.5) GY454 Urban Policy and Planning (0.5) # GY455 Economic Appraisal and Valuation (0.5) GY457 Applied Urban and Real Estate Economics (1.0) # GY473 Economic Development and the Environment (0.5) #
Paper 4	GY485 Dissertation - MSc Geographic Data Science and MSc Real Estate Economics and Finance (1.0)

**Prerequisite Requirements and Mutually Exclusive Options**

1: MY474 can not be taken with ST443

2: ST443 can not be taken with MY474

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Global Health Policy

**Programme Code:** TMGLHP

**Department:** Health Policy

For students starting this programme of study in 2022/23

**(formerly MSc in Global Health)**

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	HP401 Introduction to Health Policy and Politics (0.5)
Paper 2	HP404 Global Health Policy: Institutions, Actors and Politics (0.5)
Paper 3	HP421 Economic Analysis for Health Policy in Low- and Middle-Income Countries (0.5)
Paper 4	One of the following courses: HP407 Evidence Review and Synthesis for Decision Making (0.5) HP422 Health Care Economic Evaluation (0.5)

	HP428	Randomised evaluations of health programmes: from design to implementation (0.5)
	HP436	Evidence Appraisal for Health Policy Analysis (0.5)
Papers 5, 6 & 7	Courses to the value of 1.5 unit(s) from the following:	
	DV421	Critical Perspectives on Global Health and Development (0.5)
	DV444	Global Health Challenges: Epidemics, Disease, and Public Health Response (0.5) # (not available 2022/23)
	DV456	Population, Health and Development: Evidence and Projections (0.5) #
	DV457	Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)
	DV461	Critical Population Health Issues in High and Middle-Income Countries (0.5) # (not available 2022/23)
	DV465	Global Health Work: Expertise and Labour (0.5)
	HP400	Financing Health Care (0.5)
	HP402	Measuring Health System Performance (0.5)
	HP403	Health Systems and Policies in Developing Countries (0.5) (not available 2022/23)
	HP405	Social Determinants of Health (0.5)
	HP407	Evidence Review and Synthesis for Decision Making (0.5)
	HP412	Global Health Security (0.5)
	HP422	Health Care Economic Evaluation (0.5)
	HP424	Pharmaceutical Economics and Policy (0.5)
	HP425	Statistical Methods in Health Care Economic Evaluation (0.5) #
	HP428	Randomised evaluations of health programmes: from design to implementation (0.5)
	HP429	Behavioural Incentive Design in Health and Health Care (0.5)
	HP432	Mental health policy (0.5) #
	HP433	Health care regulation (0.5)
	HP435	Global Access to Medicines (0.5)
	HP436	Evidence Appraisal for Health Policy Analysis (0.5)
	MY405	Research Design for Policy and Programme Evaluation (0.5)
	MY421L	Qualitative Research Methods (0.5)
	MY421M	Qualitative Research Methods (0.5)
	SP418	Global Social Policy and International Organizations (0.5)
	Or another LSE course subject to the approval of the course tutor.	
Paper 8	HP431	Dissertation in Health Policy (0.5)
	# means there may be prerequisites for this course. Please view the course guide for more information.	

## MSc in Global Politics

**Programme Code:** TMGLP02

**Department:** Government

For students starting this programme of study in 2022/23 The MSc includes a core course, GV4K4 The Politics of Globalization (Paper 1) which all students must take. It offers a comprehensive introduction to the changing structure of the global order, and the contemporary challenges of global politics. The rest of the MSc allows considerable choice of options whilst seeking

to blend a global focus with more detailed thematic or regional knowledge. All students must write a 10,000 word dissertation.

**PLEASE NOTE:** Due to staff sabbaticals and research leave, the School cannot guarantee that all the courses listed below will be available.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	GV4K4 The Politics of Globalization (0.5)
Paper 2	GV499 Dissertation (1.0) A
Papers 3 & 4	Courses to the value of 2.5 units from the following. Access to the optional courses is not necessarily guaranteed and may require the permission of the course coordinator; please consult the individual course guides for further information on availability:
	DV413 Environmental Problems and Development Interventions (0.5) #
	DV415 Global Environmental Governance (0.5)
	DV418 African Development (0.5)
	DV421 Critical Perspectives on Global Health and Development (0.5)
	DV424 International Institutions and Late Development (0.5)
	DV434 Human Security (0.5)
	DV460 Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference (0.5) # (not available 2022/23)
	EH446 Economic Development of East and Southeast Asia (1.0) #
	EH483 The Development and Integration of the World Economy in the 19th and 20th Centuries (1.0)
	EU443 European Models of Capitalism (0.5)
	EU457 Culture and Security in Global Politics (0.5)
	EU481 The Future: Political Responses to a Challenge (0.5)
	EU4A2 Globalisation, Conflict and Post-Conflict Reconstruction (0.5)
	EU4A4 The Politics of Inequality and Redistribution (0.5)
	GI409 Gender, Globalisation and Development: An Introduction (0.5)
	GI420 Global Development and Its Discontents: Feminist Perspectives (0.5)
	GI421 Sexuality, Gender and Culture (0.5) # (not available 2022/23)
	GI422 Transnational Sexual Politics (1.0) 1
	GI423 Globalisation and Sexuality (0.5) # 2 (not available 2022/23)
	GV432 Government and Politics in China (0.5)
	GV441 States and Markets (0.5)
	GV444 Democracy and Development in Latin America (0.5) (not available 2022/23)
	GV4A5 International Migration and Immigration Management (0.5)
	GV4C9 Globalization and Democratization in Southeast Asia (0.5)
	GV4D3 Local Power in an Era of Globalization, Democratization, and Decentralization (0.5)
	GV4E1 Comparative Democratization in a Global Age (0.5)
	GV4E2 Capitalism and Democracy (0.5)
	GV4E8 Power Sharing and Institutional Design in Divided Societies (0.5)
	GV4F2 Popular Politics in the Middle East (0.5)
	GV4F9 The Challenges of Governance in

	sub-Saharan Africa (0.5) (not available 2022/23)
GV4J4	Citizen Representation and Democracy in the European Union (0.5) (not available 2022/23)
GV4J8	Middle East Politics in Transnational Perspective (0.5)
GV4K1	Opening Government: Transparency, Accountability, and Participation (0.5)
GV4K2	Postcolonial and Comparative Political Theory (0.5)
GV4K7	Conflict and Cooperation: Key Debates (0.5)
GV4K8	Global Public Policy (0.5)
GV4L3	Data Science Applications in Politics Research (0.5) #
GV4L5	Politics, Gender, and Development (0.5) #
GV4L7	Political Participation and Representation in Latin America (0.5)
HP412	Global Health Security (0.5)
IR412	International Institutions (1.0)
IR416	The EU in the World (1.0) # (not available 2022/23)
IR419	International Relations of the Middle East (1.0) #
IR422	Conflict and Peacebuilding (1.0) #
IR461	Islam in World Politics (1.0)
IR462	International Political Theory (0.5) (not available 2022/23)
IR464	The Politics of International Law (0.5) (not available 2022/23)
IR466	Genocide (0.5)
IR467	Global Environmental Politics (0.5)
IR479	Russia in World Politics (0.5) #
IR480	The Politics of Inequality and Development (0.5)
IR481	Europe, the US and Arab-Israeli Relations (0.5) # (not available 2022/23)
IR489	Economic Diplomacy (0.5)
LL4C2	World Poverty and Human Rights (0.5) #
MG476	Corporate Social Responsibility and International Labour Standards (0.5) #

Or a course not listed approved by the MSc Convenor.

#### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

1: GI422 can not be taken with GI423

2: GI423 can not be taken with GI422

A: Students must pass this course in order to pass the degree.

**This programme has been discontinued. Last year of entry 2022/23.**

#### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in Health and International Development

**Programme Code:** TMHEINDE

**Department:** International Development

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of three full units, non-credit-bearing courses DV445 and MY410 and a dissertation as shown.

Students who choose to concentrate their electives and dissertation in a certain topic area may elect to have a specialism in "African Development," "Population Studies," or "Applied Development Economics" attached to their degree certificate and transcript. To obtain the specialism indication, students must meet the criteria below.

**African Development:** students must take DV418 and DV435, and their dissertation topic must be approved as being appropriate for this specialism.

**Population Studies:** students must take DV476 and DV456, and their dissertation topic must be approved as being appropriate for this specialism.

**Applied Development Economics:** enrolment capacity is limited and may be based on performance on a pre-quiz which will enable students to take at least two of DV490, DV491, DV492, and their dissertation topic must be approved as being appropriate for this specialism.

If no such election is made, the degree certificate will state "Health and International Development" without further specification.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	DV442 Key Issues in Development Studies (0.5) <b>and</b> DV458 Key issues in Global Health and Development (0.5)
Paper 2	Courses to the value of 1.0 unit(s) from the following: <ul style="list-style-type: none"> <li>DV411 Population and Development: an Analytical Approach (0.5) (not available 2022/23)</li> <li>DV421 Critical Perspectives on Global Health and Development (0.5)</li> <li>DV444 Global Health Challenges: Epidemics, Disease, and Public Health Response (0.5) # (not available 2022/23)</li> <li>DV453 International Development Consultancy Project (0.5)</li> <li>DV456 Population, Health and Development: Evidence and Projections (0.5) #</li> <li>DV457 Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)</li> <li>DV465 Global Health Work: Expertise and Labour (0.5)</li> </ul>
Paper 3	Courses to the value of 1.0 unit(s) from the following: <ul style="list-style-type: none"> <li>DV407 Poverty (0.5)</li> <li>DV413 Environmental Problems and Development Interventions (0.5) #</li> <li>DV415 Global Environmental Governance (0.5)</li> <li>DV418 African Development (0.5)</li> <li>DV420 Complex Emergencies (0.5)</li> <li>DV423 Global Political Economy of Development (0.5) #</li> <li>DV424 International Institutions and Late Development (0.5)</li> <li>DV428 Managing Humanitarianism (0.5)</li> <li>DV433 The Informal Economy and Development (0.5) (not available 2022/23)</li> <li>DV434 Human Security (0.5)</li> <li>DV435 African Political Economy (0.5)</li> <li>DV447 Youth and Gendered Violence (0.5) #</li> </ul>

#### Footnotes

	(not available 2022/23)
DV454	Gender, labour markets and social change in the Global South: theory, evidence, public action (0.5)
DV455	Advocacy, Campaigning and Grassroots Activism (0.5)
DV460	Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference (0.5) # (not available 2022/23)
DV462	Forced Migration and Refugees (0.5)
DV463	Civil society, security and development (0.5) (not available 2022/23)
DV464	Democracy and Development (0.5)
DV472	Covid-19 pandemic: health, socio-economic and political implications for development (Special Topics in International Development) (0.5) (not available 2022/23)
DV476	Population Analysis: Methods and Models (0.5) #
DV480	Revolution and Development (0.5) #
DV483	Information Communication Technologies and Socio-economic Development (0.5)
DV490	Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development (0.5)
DV491	Economic Development Policy II: Microeconomic Analysis (0.5) #
DV492	Economic Development Policy III: Government Policy Analysis (0.5) #
GY431	Cities, People and Poverty in the South (0.5) #
HP403	Health Systems and Policies in Developing Countries (0.5) (not available 2022/23)
HP404	Global Health Policy: Institutions, Actors and Politics (0.5)
HP405	Social Determinants of Health (0.5)
HP412	Global Health Security (0.5)
HP421	Economic Analysis for Health Policy in Low- and Middle-Income Countries (0.5)
HP435	Global Access to Medicines (0.5)
MG483	eHealth: Policy, Strategy and Systems (0.5) #
MY405	Research Design for Policy and Programme Evaluation (0.5)
PB422	Health Communication (0.5)
	Any other course approved by tutor by special permission only.
	<b>Paper 2 options list</b>
Paper 4	DV410 Research Design and Dissertation in International Development (1.0)
	MY410 Fundamentals of Research Design for International Development (0.0)
	DV445 Cutting Edge Issues in Development Thinking & Practice (0.0)
	<b>Paper 2 options list</b>
	DV411 Population and Development: an Analytical Approach (0.5) (not available 2022/23)
	DV421 Critical Perspectives on Global Health and Development (0.5)
	DV444 Global Health Challenges: Epidemics, Disease, and Public Health Response (0.5) # (not available 2022/23)
	DV453 International Development Consultancy Project (0.5)
	DV456 Population, Health and Development: Evidence and Projections (0.5) #
	DV457 Sexual and Reproductive Health

Programmes: Design, Implementation and Evaluation (0.5)

### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of International Development (ie not prefixed with 'DV').

### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in Health Data Science

**Programme Code:** TMHDS

**Department:** Health Policy

For students starting this programme of study in 2022/23 9 month programme. Students take four compulsory half unit courses and options to the value of two unit(s).

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
<b>Year 1</b>	
Paper 1	ST445 Managing and Visualising Data (0.5) #
Paper 2	ST447 Data Analysis and Statistical Methods (0.5) #
Paper 3	HP426 Applied Health Econometrics (0.5)
Paper 4	HP434 Methods and Data for Health Systems Performance Assessment (0.5)
Paper 5	Courses to the value of 1.0 unit(s) from the following:
	ST405 Multivariate Methods (0.5) #
	ST416 Multilevel Modelling (0.5) #
	ST442 Longitudinal Data Analysis (0.5) # (not available 2022/23)
	ST443 Machine Learning and Data Mining (0.5) #
	ST446 Distributed Computing for Big Data (0.5) #
	ST449 Artificial Intelligence (0.5)
	ST451 Bayesian Machine Learning (0.5) #
	ST454 Applied spatio-temporal analysis (0.5) #
	ST455 Reinforcement Learning (0.5) #
	ST456 Deep Learning (0.5) #
	ST457 Graph Data Analytics and Representation Learning (0.5) #
Paper 6	Courses to the value of 1.0 unit(s) from any available MSc course offered by the Department of Health Policy.
	# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in History of International Relations

**Programme Code:** TMHYIRS

**Department:** International History

For students starting this programme of study in 2022/23

Full-year programme. Students take courses to the value of three full units (only one of which can be an outside option i.e. a course not listed below) and a dissertation.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

Papers 1, 2  
& 3

Courses to the value of 3.0 unit(s) from the following:

EH452	Latin American Development and Economic History (0.5) (not available 2022/23)
EU475	Racial Diversity and Conflict in Europe: Identities, Religion, and Culture (0.5)
EU476	Emotions and Memory in European Politics (0.5)
EU4A3	The Americas and Europe (0.5)
HY400	Crisis Decision-Making in War and Peace 1914-2003 (1.0) #
HY411	European Integration in the Twentieth Century (1.0) #
HY422	Presidents, Public Opinion, and Foreign Policy, from Roosevelt to Reagan, 1933-89 (1.0)
HY424	The Napoleonic Empire: The Making of Modern Europe (1.0) (not available 2022/23)
HY429	Anglo-American Relations from World War to Cold War, 1939-91 (1.0)
HY432	From Cold Warriors to Peacemakers: the End of the Cold War Era, 1979-1999 (1.0)
HY434	The Rise and Fall of Communism in Europe 1917-1990 (1.0)
HY435	Political Islam: From Ibn Taymiyya to ISIS (1.0)
HY436	Race, Violence and Colonial Rule in Africa (1.0) (not available 2022/23)
HY440	The Iranian Revolution (1.0) (not available 2022/23)
HY444	The Cold War in Latin America (1.0) (not available 2022/23)
HY459	The Ottoman Empire and its Legacy, 1299-1950 (1.0) (not available 2022/23)
HY461	East Asia in the Age of Imperialism, 1839-1945 (1.0) #
HY463	The Origins of the Cold War, 1917-1962 (1.0)
HY465	The International History of the Balkans since 1939: State Projects, Wars, and Social Conflict (1.0)
HY469	Maps, History and Power: The Spaces and Cultures of the Past (1.0)
HY478	Genesis of the Modern World: Europe, China & India, 1550-1840 (1.0)
HY483	Land and Conflict in Latin America since 1750 (1.0)
HY484L	Empire, Colonialism and Globalisation (0.5) 1
HY484M	Empire, Colonialism and Globalisation (0.5) 2
HY486	The Anti-Slave-Trade Atlantic World, c. 1807-1870 (1.0)
HY487	Islam, State and Conflict in Southeast Asia (0.5)
HY488	European Empires and Global Conflict,

1935-1948 (0.5)

HY489	China and the External World, 1644-1839 (0.5)
HY491	Race, Gender and Reproduction in the Caribbean, 1860s-1930s (0.5)
HY4A5	Women as Weapons: The Conservative Political Tradition in the Cold War (0.5) (not available 2022/23)
HY4A7	Islam, Power and Culture in Mughal India (0.5)
HY4A8	Asian Borderlands (0.5)
HY4A9L	China and the United States Since 1949 (0.5) 3
HY4A9M	China and the United States Since 1949 (0.5) 4
HY4B1	The Vietnam Wars, 1930-75: Regional and International Perspectives (1.0)
HY4B2	The Afterlives of Empires in the Neo-Colonial Caribbean (0.5) (not available 2022/23)
HY4B3	Citizenship in 20th century political thought: intellectual history in case studies (0.5)
HY4B4	Maritime Asia in Transition, 1405-1839 (0.5)
HY4B5	Queer Early Modernities (0.5)
HY4B6	German Transformations since 1990 (0.5)

Or a HY course from another MSc programme run by the Department of International History (subject to approval by the programme director). Or a related course from another department (outside option) (subject to approval by the programme director).

Paper 4

HY499 Dissertation (1.0)

### **Prerequisite Requirements and Mutually Exclusive Options**

1: HY484L can not be taken with HY484M

2: HY484M can not be taken with HY484L

3: HY4A9L can not be taken with HY4A9M

4: HY4A9M can not be taken with HY4A9L

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Human Geography and Urban Studies (Research)

**Programme Code:** TMHUGYRE

**Department:** Geography & Environment

For students starting this programme of study in 2022/23

Full-year programme. Students are required to be examined in elements from the three parts of the programme as specified below to the value of four units. Precise examination arrangements are listed under each course guide.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

Paper 1

**Part I - Research Core**

GY403 Contemporary Debates in Human Geography (0.5)

Paper 2

Advanced Research Methods course to the value of 1.0 unit chosen from:

MY400 Fundamentals of Social Science Research Design (0.5)

MY405 Research Design for Policy and Programme Evaluation (0.5)

MY421L Qualitative Research Methods (0.5)

MY421M	Qualitative Research Methods (0.5)
MY424	Advanced qualitative field methods for researching space and place (0.5) # (not available 2022/23)
MY426	Doing Ethnography (0.5) #
MY428	Qualitative Text and Discourse Analysis (0.5) #
MY452L	Applied Regression Analysis (0.5) #
MY452M	Applied Regression Analysis (0.5) #
MY455	Multivariate Analysis and Measurement (0.5) #
MY456	Survey Methodology (0.5) #
MY457	Causal Inference for Observational and Experimental Studies (0.5) #
MY459	Quantitative Text Analysis (0.5) #
MY461	Social Network Analysis (0.5)
MY465	Intermediate Quantitative Analysis (0.5) #
MY470	Computer Programming (0.5)
MY472	Data for Data Scientists (0.5)

Paper 3

**Part II - Substantive Specialism**

Courses to the value of 1.5 unit(s) from the following:

GI409	Gender, Globalisation and Development: An Introduction (0.5)
GI420	Global Development and Its Discontents: Feminist Perspectives (0.5)
GY409	Globalisation and territorial development: Theory, Evidence and Policy (0.5)
GY431	Cities, People and Poverty in the South (0.5) #
GY432	Urban Ethnography (0.5) (not available 2022/23)
GY438	Urban Asia: Cities and Social Change (0.5)
GY439	Cities, Politics and Citizenship (0.5)
GY441	The Politics of Housing (0.5) (not available 2022/23)
GY446	Planning for Sustainable Cities (0.5)
GY447	The Economics of Regional and Urban Planning (0.5) #
GY448	Social and Political Aspects of Planning (0.5)
GY449	Urban Futures (0.5) #
GY459	Urban Theory and Policy in the Global South (0.5)
GY470	Urban Africa (0.5)
GY476	Applied Geographical Information Systems (0.5)
GY477	Race and Capitalism in North America (0.5)
GY479	Urban Transformations (0.5) (not available 2022/23)
GY480	Remaking China: Geographical aspects of Development and Disparity (0.5) (not available 2022/23)

Or Another coherent combination of GY and non-GY courses to the value of 1.5 units as approved by the Programme Manager.

Paper 4

**Part III**

GY487	Dissertation - MSc in Human Geography and Urban Studies (Research) (1.0)
-------	--

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Human Resources and Organisations (Human Resource Management/CIPD)

**Programme Code:** TMHRORG2

**Department:** Management

For students starting this programme of study in 2022/23

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

## MSc in International Development and Humanitarian Emergencies

**Programme Code:** TMINDEHE

**Department:** International Development

For students starting this programme of study in 2022/23  
Full-year programme. Students take courses to the value of three full units and a dissertation as shown.

Students who choose to concentrate their electives and

dissertation in a certain topic area may elect to have a specialism in "African Development," "Population Studies," or "Applied Development Economics" attached to their degree certificate and transcript. To obtain the specialism indication, students must meet the criteria below.

**African Development:** students must take DV418 and DV435, and their dissertation topic must be approved as being appropriate for this specialism.

**Population Studies:** students must take DV476 and DV456, and their dissertation topic must be approved as being appropriate for this specialism.

**Applied Development Economics:** enrolment capacity is limited and may be based on performance on a pre-quiz which will enable students to take at least two of DV490, DV491, DV492, and their dissertation topic must be approved as being appropriate for this specialism.

If no such election is made, the degree certificate will state "International Development and Humanitarian Emergencies" without further specification.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	DV442 Key Issues in Development Studies (0.5)
Paper 2	DV428 Managing Humanitarianism (0.5) <b>and</b> DV453 International Development Consultancy Project (0.5)
Paper 3	Courses to the value of 1.5 unit(s) from the following: AN436 The Anthropology of Development (0.5) DV407 Poverty (0.5) DV411 Population and Development: an Analytical Approach (0.5) (not available 2022/23) DV413 Environmental Problems and Development Interventions (0.5) # DV415 Global Environmental Governance (0.5) DV418 African Development (0.5) DV420 Complex Emergencies (0.5) DV421 Critical Perspectives on Global Health and Development (0.5) DV423 Global Political Economy of Development (0.5) # DV424 International Institutions and Late Development (0.5) DV432 China in Developmental Perspective (0.5) # (not available 2022/23) DV433 The Informal Economy and Development (0.5) (not available 2022/23) DV434 Human Security (0.5) DV435 African Political Economy (0.5) DV444 Global Health Challenges: Epidemics, Disease, and Public Health Response (0.5) # (not available 2022/23) DV447 Youth and Gendered Violence (0.5) # (not available 2022/23) DV454 Gender, labour markets and social change in the Global South: theory, evidence, public action (0.5) DV455 Advocacy, Campaigning and Grassroots Activism (0.5) DV456 Population, Health and Development: Evidence and Projections (0.5) # DV457 Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5) DV458 Key issues in Global Health and Development (0.5) DV460 Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference (0.5) # (not

#### **Prerequisite Requirements and Mutually Exclusive Options**

# means there may be prerequisites for this course. Please view the course guide for more information.

## **MSc in International Health Policy**

**Programme Code:** TMIHEP

**Department:** Health Policy

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of four full units, including a half unit dissertation, as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	HP400 Financing Health Care (0.5)
Paper 2	HP401 Introduction to Health Policy and Politics (0.5)
Paper 3	HP433 Health care regulation (0.5)
Paper 4	Courses to the value of 0.5 unit(s) from the

following:

- HP407 Evidence Review and Synthesis for Decision Making (0.5)
- HP420 Health Economics (0.5)
- HP422 Health Care Economic Evaluation (0.5)
- HP436 Evidence Appraisal for Health Policy Analysis (0.5)

Papers 5, 6 & 7 Courses to the value of 1.5 unit(s) from the following:

- HP402 Measuring Health System Performance (0.5)
- HP403 Health Systems and Policies in Developing Countries (0.5) (not available 2022/23)
- HP404 Global Health Policy: Institutions, Actors and Politics (0.5)
- HP405 Social Determinants of Health (0.5)
- HP407 Evidence Review and Synthesis for Decision Making (0.5)
- HP412 Global Health Security (0.5)
- HP420 Health Economics (0.5)
- HP421 Economic Analysis for Health Policy in Low- and Middle-Income Countries (0.5)
- HP422 Health Care Economic Evaluation (0.5)
- HP423 Advanced Health Economics (0.5) #
- HP424 Pharmaceutical Economics and Policy (0.5)
- HP425 Statistical Methods in Health Care Economic Evaluation (0.5) #
- HP426 Applied Health Econometrics (0.5)
- HP428 Randomised evaluations of health programmes: from design to implementation (0.5)
- HP429 Behavioural Incentive Design in Health and Health Care (0.5)
- HP432 Mental health policy (0.5) #
- HP435 Global Access to Medicines (0.5)
- HP436 Evidence Appraisal for Health Policy Analysis (0.5)

Another LSE course subject to the approval of the course tutor.

Paper 8

- HP431 Dissertation in Health Policy (0.5)
- # means there may be prerequisites for this course. Please view the course guide for more information.

It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of Health Policy (i.e. not prefixed with 'HP').

**Note for prospective students:**

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	HP422 Health Care Economic Evaluation (0.5)
Paper 2	HP423 Advanced Health Economics (0.5) #
Paper 3	HP426 Applied Health Econometrics (0.5)
Paper 4	One of the following courses: HP420 Health Economics (0.5) HP424 Pharmaceutical Economics and Policy (0.5) HP425 Statistical Methods in Health Care Economic Evaluation (0.5) # HP429 Behavioural Incentive Design in Health and Health Care (0.5)
Papers 5, 6 & 7	Courses to the value of 1.5 unit(s) from the following: EC426 Public Economics (1.0) # HP400 Financing Health Care (0.5) HP401 Introduction to Health Policy and Politics (0.5) HP402 Measuring Health System Performance (0.5) HP403 Health Systems and Policies in Developing Countries (0.5) (not available 2022/23) HP404 Global Health Policy: Institutions, Actors and Politics (0.5) HP405 Social Determinants of Health (0.5) HP407 Evidence Review and Synthesis for Decision Making (0.5) HP412 Global Health Security (0.5) HP420 Health Economics (0.5) A HP421 Economic Analysis for Health Policy in Low- and Middle-Income Countries (0.5) HP424 Pharmaceutical Economics and Policy (0.5) HP425 Statistical Methods in Health Care Economic Evaluation (0.5) # HP428 Randomised evaluations of health programmes: from design to implementation (0.5) HP429 Behavioural Incentive Design in Health and Health Care (0.5) HP432 Mental health policy (0.5) # HP433 Health care regulation (0.5) HP435 Global Access to Medicines (0.5) HP436 Evidence Appraisal for Health Policy Analysis (0.5)

Another LSE course subject to the approval of the course tutor.

Paper 8

- HP431 Dissertation in Health Policy (0.5)
- Footnotes**  
A: HP420 is compulsory for students who have no Economics background.  
# means there may be prerequisites for this course. Please view the course guide for more information.

It is not always possible to offer students a place on each of their preferred courses. This is particularly the case where courses are offered outside the Department of Health Policy (i.e. not prefixed with 'HP').

#### Prerequisite Requirements and Mutually Exclusive Options

- 1: MY451L can not be taken with MY451M
  - 2: MY451M can not be taken with MY451L
  - 3: MY452L can not be taken with MY452M
  - 4: MY452M can not be taken with MY452L
  - 5: MY421L can not be taken with MY421M
  - 6: MY421M can not be taken with MY421L
- # means there may be prerequisites for this course. Please view the course guide for more information.

## LLM (extended part-time)

**Programme Code:** TMLL2EPT

**Department:** Law School

For students starting this programme of study in 2022/23

The general regulations for MA and MSc Degrees and the Code of Practice for Taught Master's Programmes on the online Calendar apply to the LLM programme except in the event of inconsistency when these regulations for the LLM take priority.

In order to obtain the degree, students must complete courses (see Courses list below) to the value of four full units, which will normally comprise eight half unit courses. One of these eight half units will be the compulsory half unit Legal Research Skills course, which will be assessed by a 10,000 word dissertation. This stand-alone dissertation will provide the element of extended writing for all LLM students. Students will be required to sign a statement on plagiarism when submitting this dissertation.

Students can complete the LLM course requirements in either one full-year programme, or as a part-time student in two years, or by extended part-time study within a maximum of six years. Courses should be chosen from the list below. Subject to availability and with the permission of the Programme Director of the LLM, one complementary course from other Master's courses at the School may be selected to replace one from the list below to the total equivalent of one half unit. Exceptionally, and subject to the same conditions courses to the total value of one full unit may be selected to replace two courses from the list below.

Part-time students must satisfy the same requirements as those applicable to full-time students. Part-time students must take courses to the value of two units in their first year and courses to the value of two units in their second year.

Extended part-time students must satisfy the same requirements as those applicable to full-time students. Students must take courses to the value of one unit in the first year and successfully complete this. Students who successfully complete four units within a period of six years will satisfy the requirements for the degree.

#### Assessment

Students will be examined in courses to the total value of four full units. Students are required to take a minimum of two full units which are assessed by exam, unless exceptional circumstances apply and an exemption from this regulation is approved by the Programme Director of the LLM.

An oral examination may be held if the examiners so determine. For courses assessed by exam (which will be the norm on the

LLM apart from the Legal Research Skills course), the exam will normally be held in January, May or June. Questions may be set on recent legislation and current proposals for law reform within the scope of the syllabus. No materials may be brought into the exam room except in accordance with the regulations for the particular course.

#### Degree certificate

Students who successfully complete the LLM programme may elect to have one of the following titles attached to their degree certificate if, in the opinion of the Programme Director of the LLM, the title reflects the course of study followed by the student. This would mean you will need to be registered for either:

1. LLM courses to the value of at least 2 units (4 half unit courses) within the nominated specialism; or
2. LLM courses to the value of at least 1.5 units (3 half unit courses) within the nominated specialism plus an LL4F9 dissertation topic within the area of the specialism (as agreed by your dissertation supervisor).

The possible titles are listed below with the courses attached to those areas listed with them. If no such election is made, the LLM degree certificate will state 'LLM' without further specification.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

# means there may be prerequisites for this course. Please view the course guide for more information.

This programme, its constituent courses and lectures qualify as Continuing Professional Development (CPD) and are accredited by the Law Society and Bar Council. Further information is available from the Department of Law.

#### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## LLM (full-time)

**Programme Code:** TMLL2

**Department:** Law School

For students starting this programme of study in 2022/23

The general regulations for MA and MSc Degrees and the Code of Practice for Taught Master's Programmes on the online Calendar apply to the LLM programme except in the event of inconsistency when these regulations for the LLM take priority.

In order to obtain the degree, students must complete courses (see Courses list below) to the value of four full units, which will normally comprise eight half unit courses. One of these eight half units will be the compulsory half unit Legal Research Skills course, which will be assessed by a 10,000 word dissertation. This stand-alone dissertation will provide the element of extended writing for all LLM students. Students will be required to sign a statement on plagiarism when submitting this dissertation.

Students can complete the LLM course requirements in either one full-year programme, or as a part-time student in two years, or by extended part-time study within a maximum of six years. Courses should be chosen from the list below. Subject to availability and with the permission of the Programme Director of the LLM, one complementary course from other Master's courses at the School may be selected to replace one from the list below to the total equivalent of one half unit. Exceptionally, and subject to the same conditions courses to the total value of one full unit may be selected to replace two courses from the list below.

Part-time students must satisfy the same requirements as those applicable to full-time students. Part-time students must take

courses to the value of two units in their first year and courses to the value of two units in their second year.

Extended part-time students must satisfy the same requirements as those applicable to full-time students. Students must take courses to the value of one unit in the first year and successfully complete this. Students who successfully complete four units within a period of six years will satisfy the requirements for the degree.

#### Assessment

Students will be examined in courses to the total value of four full units. Students are required to take a minimum of two full units which are assessed by exam, unless exceptional circumstances apply and an exemption from this regulation is approved the Programme Director of the LLM.

An oral examination may be held if the examiners so determine. For courses assessed by exam (which will be the norm on the LLM apart from the Legal Research Skills course), the exam will normally be held in January, May or June. Questions may be set on recent legislation and current proposals for law reform within the scope of the syllabus. No materials may be brought into the exam room except in accordance with the regulations for the particular course.

#### Degree certificate

Students who successfully complete the LLM programme may elect to have one of the following titles attached to their degree certificate if, in the opinion of the Programme Director of the LLM, the title reflects the course of study followed by the student. This would mean you will need to be registered for either:

1. LLM courses to the value of at least 2 units (4 half unit courses) within the nominated specialism; or
2. LLM courses to the value of at least 1.5 units (3 half unit courses) within the nominated specialism plus an LL4F9 dissertation topic within the area of the specialism (as agreed by your dissertation supervisor).

The possible titles are listed below with the courses attached to those areas listed with them. If no such election is made, the LLM degree certificate will state 'LLM' without further specification.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	<b>Compulsory course for all LLM students</b>
	LL4F9 Legal Research and Writing Skills (0.5)

# means there may be prerequisites for this course. Please view the course guide for more information.

This programme, its constituent courses and lectures qualify as Continuing Professional Development (CPD) and are accredited by the Law Society and Bar Council. Further information is available from the Department of Law.

#### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in Local Economic Development

**Programme Code:** TMLLED

**Department:** Geography & Environment

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of three full units as shown and a dissertation (1 unit). A total of 4 units.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

Papers 1 & 2	Courses to the value of 2.0 unit(s) from the following:
	GY400 The Economics of Urbanisation (0.5) #
	GY404 Inclusive Growth (0.5) #
	GY409 Globalisation and territorial development: Theory, Evidence and Policy (0.5)
	GY410 Economics of Local and Regional Development (0.5)
	GY413 Regional Development and Policy (0.5) #
	GY415 Local Capacity and Economic Development Policy (0.5) (not available 2022/23)

Paper 3	Courses to the value of 1.0 unit(s) from the following:
	Any course not already taken under Papers 1 & 2, from the Papers 1 & 2 options list below
	GY420 Environmental Regulation: Implementing Policy (1.0)
	GY428 Applied Quantitative Methods (0.5) #
	GY431 Cities, People and Poverty in the South (0.5) #
	GY438 Urban Asia: Cities and Social Change (0.5)
	GY447 The Economics of Regional and Urban Planning (0.5) #
	GY455 Economic Appraisal and Valuation (0.5)
	GY460 Techniques of Spatial Economic Analysis (0.5) #
	GY465 Concepts in Environmental Regulation (0.5)
	GY470 Urban Africa (0.5)
	GY475 Issues in Environmental Governance (0.5)
	GY476 Applied Geographical Information Systems (0.5)
	GY477 Race and Capitalism in North America (0.5)
	GY480 Remaking China: Geographical aspects of Development and Disparity (0.5) (not available 2022/23)
	MY452L Applied Regression Analysis (0.5) # 1
	MY452M Applied Regression Analysis (0.5) #
	A relevant course from another programme as approved by the Programme Director.

#### Papers 1 & 2 options list

Paper 4	GY486 Dissertation - MSc Local Economic Development (1.0)
	<b>Papers 1 &amp; 2 options list</b>
	GY400 The Economics of Urbanisation (0.5) #
	GY404 Inclusive Growth (0.5) #
	GY409 Globalisation and territorial development: Theory, Evidence and Policy (0.5)
	GY410 Economics of Local and Regional Development (0.5)
	GY413 Regional Development and Policy (0.5) #
	GY415 Local Capacity and Economic Development Policy (0.5) (not available 2022/23)

#### Prerequisite Requirements and Mutually Exclusive Options

1: MY452L can not be taken with MY452M  
# means there may be prerequisites for this course. Please view the course guide for more information.

## Global MSc in Management

**Programme Code:** TMGLMG2

**Department:** Management

For students starting this programme of study in 2022/23

A two-year programme. Students take courses to the value of eight units but those units are not necessarily spread over the two years. The second year includes a dissertation. Students complete the course MG488 GMiM Capstone Course - Management in Action (H) over both years, Part A (unassessed) in Year 1 and Part B (assessed) in Year 2.

All students are required to attend MG4A1 Introduction to Studying for GMiM.

Students may choose to concentrate their electives in a certain topic area and may elect to have one of the elective titles attached to their degree certificate and transcript if the title reflects the course of study followed by the student. The possible titles are listed as headings within the Elective Courses below with the courses attached to those areas listed beneath them. If no such election is made, the degree certificate will state 'Management' without further specification.

Students may apply for an exemption from the following core courses taking place in Year 1: MG431 Managerial Economics, MG4E2 Marketing Management and MG434 Organisational Behaviour. A maximum of two course exemptions may be permitted for each student.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

#### Year 1

Introductory course

Paper 1 MG4A1 Introduction to Studying for GMiM (0.0)  
MG458 Foundations of Management I: Organisations and Management Theory (0.5) **and** MG459 Foundations of Management 2 (0.5)

Paper 2 MG431 Managerial Economics (0.5)

**And either one from:**

MY451L Introduction to Quantitative Analysis (0.5)

MY451M Introduction to Quantitative Analysis (0.5)

**or upon satisfactorily demonstrating that they have sufficient statistical knowledge they may take one from the list below or any other suitable quantitative methods course subject to the approval of the programme director:**

MY452L Applied Regression Analysis (0.5) #

MY452M Applied Regression Analysis (0.5) #

**Or**

Upon satisfactorily demonstrating that they have a degree in economics and have passed, as part of that degree, a course in managerial economics, microeconomics or industrial organisation, students may be exempted from MG431 and will be free to take an elective course, subject to the approval of the Programme Director:

**either one from:**

MY451L Introduction to Quantitative Analysis (0.5)

MY451M Introduction to Quantitative Analysis (0.5)

**or upon satisfactorily demonstrating that they have sufficient statistical knowledge they may take one from the list below or any other suitable quantitative methods course subject to the approval of the programme director:**

MY452L Applied Regression Analysis (0.5) #

MY452M Applied Regression Analysis (0.5) #

and 0.5 units from the Elective Courses listed below:

**Elective Courses (click here to expand)**

Paper 3 MG434 Organisational Behaviour (0.5) **and** MG4E2 Marketing Management (0.5)

**Or**

Upon satisfactorily demonstrating that they have a degree in marketing, or in management of business administration with a significant concentration in marketing, students may be exempted from MG4E2 and will be free to take an elective course, subject to the approval of the Programme Director. Students must select courses to the value of 1.0 unit(s), which may include MG434 Organisational Behaviour (0.5), and a further 0.5 units from the Elective Courses listed below:

MG434 Organisational Behaviour (0.5)

**Elective Courses (click here to expand)**

**Or**

Upon satisfactorily demonstrating that they have a degree in management of business administration with significant knowledge of organisational behaviour, students may be exempted from MG434 and will be free to take an elective course, subject to the approval of the Programme Director.

Students must select courses to the value of 1.0 unit(s), which may include MG4E2 Marketing

Management (0.5), and a further 0.5 units from the Elective Courses listed below:

MG4E2 Marketing Management (0.5)

**Elective Courses (click here to expand)**

Paper 4 Courses to the value of 0.5 or 1.0 full unit from the Elective Courses listed below:

**Elective Courses (click here to expand)**

Compulsory course

As part of Paper 4, students also take the compulsory unassessed part of MG488:

MG488A GMiM Capstone Course - Management in Action (0.0)

#### Year 2

Paper 5

Courses to the value of 1.0 unit(s) from the following:

MG468 Foundations of Management III: Business Ethics, Corporate Governance and Ethical Leadership (0.5) # **and** MG488B GMiM Capstone Course - Management in Action (0.5) #

Paper 6

Courses to the value of 1.0 full units from the Elective Courses listed below. At least 0.5 units must be an approved methodology course.

**Elective Courses (click here to expand)**

Paper 7

Courses to the value of 1.0 or 1.5 full units from the Elective Courses listed below depending on the courses taken under Paper 4.

**Elective Courses (click here to expand)**

Paper 8

MG470 Management Dissertation (1.0) #

**Elective Courses (click here to expand)**

**Elective courses open to ALL GMiM students**

Or another MSc-level elective course which is offered in the School, subject to approval of the course leader and the Programme Director.

# means there may be prerequisites for this course. Please view the course guide for more information.

**SUPPLEMENTARY CRITERIA FOR PROGRESSION FROM THE FIRST TO THE SECOND YEAR OF MSc MANAGEMENT**

The following rules set out what marks are required in order to be eligible to proceed into the second year. Students with the following mark profiles progress as follows:

Pass marks in all first year courses allows progression to year two.

A half unit Fail mark or a half unit Bad Fail mark, or a half unit deferral, with at least Pass marks in all other courses will allow progression to year two. One full unit (or two half units) of Fail marks (which could include no more than one half unit Bad Fail

mark), or a full unit of deferral, with at least Pass marks in all other courses, including one half unit of Merit marks will allow progression to year two. Two Bad Fail marks (full or half units) will not allow progression to year two.

Three or more (full or half units) Fails, Bad Fail marks or deferrals will not allow progression to year two.

Students must resubmit all failed components of assessments in courses in which they receive a Bad Fail mark in order to be eligible for the award of a degree. The Repeat Teaching Panel may consider an application for repeat tuition in any failed courses from a student. Results obtained following a repeated attempt at assessment shall bear their normal value.

**Global MSc in Management**

**Programme Code:** TMGLMG2

**Department:** Management

For students starting this programme of study in 2021/22

A two-year programme. Students take courses to the value of eight units but those units are not necessarily spread over the two years.

The second year includes a dissertation. Students complete the course MG488 GMiM Capstone Course - Management in Action (H) over both years, Part A (unassessed) in Year 1 and Part B (assessed) in Year 2.

All students are required to attend MG4A1 Introduction to Studying for GMiM.

Students may choose to concentrate their electives in a certain topic area and may elect to have one of the elective titles attached to their degree certificate and transcript if the title reflects the course of study followed by the student. The possible titles are listed as headings within the Elective Courses below with the courses attached to those areas listed beneath them. If no such election is made, the degree certificate will state 'Management' without further specification.

Students may apply for an exemption from the following core courses taking place in Year 1: MG431 Managerial Economics, MG4E2 Marketing Management and MG434 Organisational Behaviour. A maximum of two course exemptions may be permitted for each student.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

**Year 1**

Introductory course

- Paper 1 MG4A1 Introduction to Studying for GMiM (0.0)
- MG458 Foundations of Management I: Organisations and Management Theory (0.5) **and** MG459 Foundations of Management 2 (0.5)

Paper 2 MG431 Managerial Economics (0.5)

**And one from:**

- MY451L Introduction to Quantitative Analysis (0.5)
- MY451M Introduction to Quantitative Analysis (0.5)
- MY452L Applied Regression Analysis (0.5) #
- MY452M Applied Regression Analysis (0.5) #

**Or**

Upon satisfactorily demonstrating that they have a degree in economics and have passed, as part of that degree, a course in managerial economics, microeconomics or industrial organisation, students may be exempted from MG431 and will be free to take an elective course, subject to the

	approval of the Programme Director. Students must select one from: MY451L Introduction to Quantitative Analysis (0.5) MY451M Introduction to Quantitative Analysis (0.5) MY452L Applied Regression Analysis (0.5) # MY452M Applied Regression Analysis (0.5) # and 0.5 units from the Elective Courses listed below: <b>Elective Courses (click here to expand)</b> MG434 Organisational Behaviour (0.5) <b>and</b> MG4E2 Marketing Management (0.5)	AC415 Management Accounting for Decision Making (0.5) AC416 Topics in Financial Reporting (0.5) # AC417 Corporate Financial Disclosure and Investor Relations (0.5) AC444 Valuation and Security Analysis (0.5) # AC470 Accounting in the Global Economy (0.5) # AC490 Management Accounting, Decisions and Control (0.5) AC491 Financial Accounting, Reporting and Disclosure (0.5) DV423 Global Political Economy of Development (0.5) # DV424 International Institutions and Late Development (0.5) FM471 Sustainable Finance and Impact Investing (0.5) # FM472 International Finance (0.5) # FM473L Financial Markets (0.5) #~1 FM473M Financial Markets (0.5) #~2 FM474L Managerial Finance (0.5) ~3 FM474M Managerial Finance (0.5) ~4 FM476 Entrepreneurial Finance (0.5) # GI407 Globalisation, Gender and Development (1.0) ~5 (not available 2022/23) GI409 Gender, Globalisation and Development: An Introduction (0.5) GI420 Global Development and Its Discontents: Feminist Perspectives (0.5) MA423 Fundamentals of Operations Research (0.5) # MA424 Modelling in Operations Research (0.5) # MA427 Mathematical Optimisation (0.5) # MC408 Theories and Concepts in Media and Communications (0.5) MG401 Operations Management for Management Consultancy (0.5) # MG404 Consumer Insights: Behavioural Fundamentals (0.5) MG409 Auctions and Game Theory (0.5) # MG418 Open Innovation (0.5) MG421 International Business Strategy and Emerging Markets (0.5) # MG422 Thinking Strategically (0.5) # MG452 Behavioural Economics for Management (0.5) # (not available 2022/23) MG456 Strategic Decision Making (0.5) # (not available 2022/23) MG460 Emergencies Management: Humanitarian Intervention and Digital Innovation (0.5) MG466 Supply Chain Management (0.5) # (not available 2022/23) MG467 Strategy and Change in Public Sector Management (0.5) (not available 2022/23) MG471 Chinese Economy: Entrepreneurship, Innovation and Growth (0.5) (not available 2022/23) MG472 Management and Socioeconomics of Digital Innovation (0.5) # MG473 Negotiation Analysis (0.5) MG477 Strategic Reward: Key Models and Practices (0.5) MG478 The Management of People in Global Companies (0.5) MG479 Information Systems for the Public Sector: Digital Government and Service Innovation (0.5) MG481 Innovating Organisational Information Technology (0.5) #

**MSc in Management (1 Year Programme)**

**Programme Code:** TMMG

**Department:** Management

For students starting this programme of study in 2022/23 Full-year programme. Students take courses to the value of five units: eight compulsory courses, electives to the value of one unit and as shown below. All students are required to attend the introductory course MG4J1 Introduction to Mathematics and Data Analysis for Managers.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Introductory course	MG4J1 Introduction to Mathematics and Data Analysis for Managers (0.0)
Paper 1	MG465 Managerial Economics for Masters in Management Students (0.5) <b>and</b> MG4F7 Business Analysis (0.5)
	<b>Or</b>
	With the approval of the Programme Director, students who have already completed the equivalent of MG465 in their prior studies may be permitted to take the following course combination instead:
	MG4A5 The Analysis of Strategy A (0.5) <b>and</b> MG4F7 Business Analysis (0.5) *
Paper 2	MG439 Organisational Behaviour for Master's

## 472 Taught Master's Programme Regulations

	Technology Management (0.5) # (not available 2022/23)
MG4J3	Principles of Pricing (0.5)
MG4J6	Brand Strategy (0.5)
MG4J7	Advanced Consumer Behaviour (0.5)
MG4J8	Managing Artificial Intelligence (0.5)
MG4J9	Responsible Digital Innovation: Ethics at Work (0.5)
Paper 5	MG4F4 Strategy and Innovation in a Global Context (0.5) <b>and</b> MG4F5 Business in the Global Environment (0.5)
	<b>Prerequisite Requirements and Mutually Exclusive Options</b>
	* means available with permission
	# means there may be prerequisites for this course. Please view the course guide for more information.
<b>Footnotes</b>	A: If not taken under paper 2.

## MSc in Management and Strategy

**Programme Code:** TMMNST

**Department:** Management

For students starting this programme of study in 2022/23 Full-year programme. Students must take the four compulsory half-unit courses, optional courses to the value of three half units, and a half-unit dissertation.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

<b>Paper</b>	<b>Course number, title (unit value)</b>
Paper 1	Four 0.5 unit compulsory courses:
	MG4A3 Incentives and Governance in Organisations (0.5) #
	MG4A5 The Analysis of Strategy A (0.5)
	MG4A6 The Analysis of Strategy B (0.5) #
	MG4B6 Design and Management of Organisations (0.5)
Paper 2	Courses to the value of 1.0 unit(s) from the following:
	AC444 Valuation and Security Analysis (0.5) #
	AC470 Accounting in the Global Economy (0.5) #
	AC490 Management Accounting, Decisions and Control (0.5)
	AC491 Financial Accounting, Reporting and Disclosure (0.5)
	FM473L Financial Markets (0.5) #
	FM473M Financial Markets (0.5) #
	FM474L Managerial Finance (0.5)
	FM474M Managerial Finance (0.5)
	MG402 Public Management: A Design-Oriented Approach (0.5)
	MG409 Auctions and Game Theory (0.5) #
	MG430 Firms & Markets in Emerging Economies (0.5)
	MG452 Behavioural Economics for Management (0.5) # (not available 2022/23)
	MG467 Strategy and Change in Public Sector Management (0.5) (not available 2022/23)
	MG471 Chinese Economy: Entrepreneurship, Innovation and Growth (0.5) (not available 2022/23)
	MG473 Negotiation Analysis (0.5)
	MG4A8 Strategy for the Information Economy (0.5) #
	MG4B1 Corporate Strategy (0.5) #
	MG4B3 International Marketing: A Strategic

	Approach (0.5)

MG4B9	The World Trading System (0.5) # (not available 2022/23)
MG4G4	Topics in Management Research (0.5)
MG4J3	Principles of Pricing (0.5)
MG4J6	Brand Strategy (0.5)
Paper 3	Courses to the value of 0.5 unit(s) from the following:
	<b>Paper 2 options list</b>
	<b>Or</b>
	With the approval of the programme director, a half-unit course not on this list.
Paper 4	MG497 Dissertation: MSc Management and Strategy (0.5)
	<b>Paper 2 options list</b>
	AC444 Valuation and Security Analysis (0.5) #
	AC470 Accounting in the Global Economy (0.5) #
	AC490 Management Accounting, Decisions and Control (0.5)
	AC491 Financial Accounting, Reporting and Disclosure (0.5)
	FM473L Financial Markets (0.5) #
	FM473M Financial Markets (0.5) #
	FM474L Managerial Finance (0.5)
	FM474M Managerial Finance (0.5)
	MG402 Public Management: A Design-Oriented Approach (0.5)
	MG409 Auctions and Game Theory (0.5) #
	MG430 Firms & Markets in Emerging Economies (0.5)
	MG452 Behavioural Economics for Management (0.5) # (not available 2022/23)
	MG467 Strategy and Change in Public Sector Management (0.5) (not available 2022/23)
	MG471 Chinese Economy: Entrepreneurship, Innovation and Growth (0.5) (not available 2022/23)
	MG473 Negotiation Analysis (0.5)
	MG4A8 Strategy for the Information Economy (0.5) #
	MG4B1 Corporate Strategy (0.5) #
	MG4B3 International Marketing: A Strategic Approach (0.5)
	MG4B8 Evolutionary Psychology and Management (0.5)
	MG4B9 The World Trading System (0.5) # (not available 2022/23)
	MG4G4 Topics in Management Research (0.5)
	MG4J3 Principles of Pricing (0.5)
	MG4J6 Brand Strategy (0.5)
	# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Management of Information Systems and Digital Innovation

**Programme Code:** TMMISDI

**Department:** Management

For students starting this programme of study in 2022/23 Full-year programme which is available on a part-time basis. Students must take four half unit compulsory courses, three half unit optional courses and a dissertation. Students are also required to attend an unassessed skills course: MG496 Study Skills and Research Methods.

Part-time students are required to take taught courses in the

Michaelmas and Lent Terms of their two years and the work load will be split across both years (two units per year). The dissertation will be completed in the Summer Term of the second year.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Skills Course	MG496 Study Skills and Contemporary Topics in Information Systems and Digital Innovations (0.0)
Paper 1	MG487 Innovation and Information Systems: Concepts and Perspectives (0.5)
Paper 2	MG481 Innovating Organisational Information Technology (0.5) #
Paper 3	MG472 Management and Socioeconomics of Digital Innovation (0.5) #
Papers 4 & 5	Courses to the value of 1.0 unit(s) from the following:
	DV483 Information Communication Technologies and Socio-economic Development (0.5)
	MG460 Emergencies Management: Humanitarian Intervention and Digital Innovation (0.5)
	MG479 Information Systems for the Public Sector: Digital Government and Service Innovation (0.5)
	MG483 eHealth: Policy, Strategy and Systems (0.5) #
	MG486 Social Computing, Data Analytics, and Information Services (0.5) (not available 2022/23)
	MG492 Data Governance: Privacy, Openness and Transparency (0.5)
	MG4C3 Information Technology and Service Innovation (0.5)
	MG4G7 Contemporary Topics in Advanced Technology Management (0.5) # (not available 2022/23)
	MG4J8 Managing Artificial Intelligence (0.5)
	MG4J9 Responsible Digital Innovation: Ethics at Work (0.5)
Paper 6	Either another 0.5 unit course from Papers 4 & 5 above <b>or</b> from the following: A
	AC490 Management Accounting, Decisions and Control (0.5)
	FM473L Financial Markets (0.5) #
	FM474L Managerial Finance (0.5)
	MG401 Operations Management for Management Consultancy (0.5) #
	MG402 Public Management: A Design-Oriented Approach (0.5)
	MG418 Open Innovation (0.5)
	MG466 Supply Chain Management (0.5) # (not available 2022/23)
	MG467 Strategy and Change in Public Sector Management (0.5) (not available 2022/23)
	MG4B7 Leading Organisational Change (0.5)
	MG4F3 Digital Marketing (0.5) #
	MG4J3 Principles of Pricing (0.5)
	PH425 Business and Organisational Ethics (0.5)
	ST449 Artificial Intelligence (0.5)
	ST455 Reinforcement Learning (0.5) #
	ST456 Deep Learning (0.5) #
	A course from another programme with permission of the Programme Director by special permission only.
	<b>Papers 4 &amp; 5 options list</b>
Paper 7	MG4D7 Dissertation: MSc MISDI (0.5) <b>and</b>

MY401 Research Design for Studies in Digital Innovation (0.5)

#### Papers 4 & 5 options list

DV483	Information Communication Technologies and Socio-economic Development (0.5)
MG460	Emergencies Management: Humanitarian Intervention and Digital Innovation (0.5)
MG479	Information Systems for the Public Sector: Digital Government and Service Innovation (0.5)
MG483	eHealth: Policy, Strategy and Systems (0.5) #
MG486	Social Computing, Data Analytics, and Information Services (0.5) (not available 2022/23)
MG492	Data Governance: Privacy, Openness and Transparency (0.5)
MG4C3	Information Technology and Service Innovation (0.5)
MG4G7	Contemporary Topics in Advanced Technology Management (0.5) # (not available 2022/23)
MG4J8	Managing Artificial Intelligence (0.5)
MG4J9	Responsible Digital Innovation: Ethics at Work (0.5)

#### Footnotes

A: Statistics Courses (ST445, ST449 and ST456) may require some mathematics, in particular use of vectors and some calculus and a basic knowledge of computer programming is expected. # means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Marketing

**Programme Code:** TMMK

**Department:** Management

For students starting this programme of study in 2022/23 Full-year programme. Students must take four compulsory courses and options to the value of two units as shown below. Students must also complete the introductory course MG4E7 Business Fundamentals.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Introductory Course	MG4E7 Business Fundamentals (0.0)
Paper 1	MG4E8 Principles of Marketing (0.5) <b>and</b> MG4E9 Marketing Analytics I: Consumer Analysis Fundamentals (0.5)
Paper 2	MG404 Consumer Insights: Behavioural Fundamentals (0.5) <b>and</b> MG4F1 Marketing Action Learning Project (0.5) #
Paper 3	Courses to the value of 1.0 unit(s) from the following:
	MG403 Pricing Strategy (0.5)
	MG455 Decisions, Biases and Nudges (0.5) #
	MG456 Strategic Decision Making (0.5) # (not available 2022/23)
	MG4F2 Marketing Analytics II: Analytics for Managing Innovations, Products and Brands (0.5)
	MG4F3 Digital Marketing (0.5) #
	MG4J6 Brand Strategy (0.5)
	MG4J7 Advanced Consumer Behaviour (0.5)
Paper 4	Courses to the value of 1.0 unit(s) from the

following, subject to timetable constraints:

MA429 Algorithmic Techniques for Data Mining (0.5) #

MC402 The Audience in Media and Communications (0.5)

MC403 Contemporary Issues in Media and Communications Policy (0.5) #

MG403 Pricing Strategy (0.5)

MG430 Firms & Markets in Emerging Economies (0.5)

MG455 Decisions, Biases and Nudges (0.5) #

MG456 Strategic Decision Making (0.5) # (not available 2022/23)

MG4A3 Incentives and Governance in Organisations (0.5) #

MG4C2 Organisational Behaviour (0.5)

MG4D5 Leadership in Organisations: Theory and Practice (0.5)

MG4F2 Marketing Analytics II: Analytics for Managing Innovations, Products and Brands (0.5)

MG4F3 Digital Marketing (0.5) #

MG4J6 Brand Strategy (0.5)

MG4J7 Advanced Consumer Behaviour (0.5)

MY405 Research Design for Policy and Programme Evaluation (0.5)

MY421L Qualitative Research Methods (0.5)

MY421M Qualitative Research Methods (0.5)

MY426 Doing Ethnography (0.5) #

MY455 Multivariate Analysis and Measurement (0.5) #

MY456 Survey Methodology (0.5) #

PB419 Creativity and Innovation (0.5) # (not available 2022/23)

ST405 Multivariate Methods (0.5) #

ST411 Generalised Linear Modelling and Survival Analysis (0.5) #

ST422 Time Series (0.5) #

Or any other MSc-level elective course which is offered in the School, subject to approval of the Course Leader and the Programme Director.

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Media, Communication and Development

**Programme Code:** TMMECODE

**Department:** Media and Communications

For students starting this programme of study in 2022/23 Full year programme. Students must take courses to the value of three full units and a dissertation as shown below.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	MC408 Theories and Concepts in Media and Communications (0.5)
	<b>And</b> one of the following 0.5 unit courses:
	MC4M1 Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (0.5) <b>or</b>
	MC4M7 Methods of Research in Media & Communications (including Qualitative Analysis & Applied Regression Analysis) (0.5) A
Paper 2	MC421 Critical Approaches to Media, Communication and Development (0.5)

Paper 3	Courses to the value of 1.5 unit(s) from the following:
	DV424 International Institutions and Late Development (0.5)
	DV483 Information Communication Technologies and Socio-economic Development (0.5)
	GI425 Introduction to Gender, Peace and Security (0.5)
	MC407 International Media and The Global South (0.5)
	MC409 Media, Technology and Everyday Life (0.5)
	MC420 Identity, Transnationalism and the Media (0.5)
	MC423 Global Media Industries (0.5)
	MC426 Film Theory and World Cinema (0.5)
	MC428 Media Culture and Neoliberalism in the Global South (0.5)
	MC429 Humanitarian Communication: Vulnerability, Discourse and Power (0.5)
	MC433 Technology and Justice (0.5) #
	MC436 Mediating the Past (0.5)
	MC438 Mediated Feminisms (0.5)
	MC439 Media, Technology, and the Body (0.5)
	MY423 Interview Methods for Social Science Research (0.5) #
	PB422 Health Communication (0.5)
	Any other MSc level course which is offered in the School, subject to the consent of the candidate's programme director.
Paper 4	MC499 Dissertation: Media and Communications (1.0) B

### Footnotes

A: MY452 is an advanced Applied Regression Analysis course offered by the Department of Methodology and must be taken by students who select MC4M7. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject to timetabling constraints.

B: Passing this course is a requirement for passing the programme.

# means there may be prerequisites for this course. Please view the course guide for more information.

Subject to agreement with the Programme Director, students can take up to one full unit of courses outside the Department of Media and Communications Department (non MC-prefixed courses).

### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in Media and Communications

**Programme Code:** TMMEC

**Department:** Media and Communications

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of three full units and a dissertation as shown below.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)

## MSc in Media and Communications (Research)

**Programme Code:** TMMECRE

**Department:** Media and Communications

For students starting this programme of study in 2022/23

Full year programme. Students must take courses to the value of three full units and a dissertation as shown below.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	MC408 Theories and Concepts in Media and Communications (0.5)
Paper 2	One of the following full-unit courses:
	MC4M2 Advanced Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (1.0) A <b>or</b>
	MC4M8 Advanced Methods of Research in Media & Communications (including Qualitative & Advanced Quantitative Analysis) (1.0) B
Paper 3	Courses to the value of 1.5 unit(s) from the following:
	MC402 The Audience in Media and Communications (0.5)
	MC407 International Media and The Global South (0.5)
	MC409 Media, Technology and Everyday Life (0.5)
	MC416 Representation in the Age of Globalisation (0.5)
	MC418 Communication: Cultures and Approaches (0.5)
	MC422 Critical Studies in Media and Journalism (0.5)
	MC423 Global Media Industries (0.5)
	MC425 Interpersonal Mediated Communication (0.5)

	MC426	Film Theory and World Cinema (0.5)
	MC427	Digital Media Futures (0.5)
	MC432	Strategic Communication in Practice: Professional Perspectives (0.5)
	MC434	Digital Platforms and Media Infrastructures (0.5) #
	MC436	Mediating the Past (0.5)
	MC437	Media, Data and Social Order (0.5) #
	MC439	Media, Technology, and the Body (0.5)
		Any other MSc level course which is offered in the School, subject to the consent of the candidate's programme director.
Paper 4	MC499	Dissertation: Media and Communications (1.0) C

**Footnotes**

A: Passing either MC4M2 or MC4M8 is a requirement for passing the programme.  
 B: MY455 is an advanced Multivariate Analysis course offered by the Department of Methodology and must be taken by students who select MC4M8. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject to timetabling constraints.  
 C: Passing this course is a requirement for passing the programme.  
 # means there may be prerequisites for this course. Please view the course guide for more information.  
 Students can take no more than one full unit of courses from outside the Department of Media and Communications (non MC-prefixed courses).  
**Note for prospective students:**  
 For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

**MA in Modern History**

**Programme Code:** TMHYMH

**Department:** International History

For students starting this programme of study in 2022/23

Full-year programme. Students take courses to the value of three full units and a dissertation.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

**Year 1**

Paper 1		Courses to the value of 1.0 unit(s) from the following:
	EH404	India and the World Economy (0.5)
	EH457	Living Standards since the Industrial Revolution: The British experience c.1750-2000 (0.5)
	EH482	The Origins of the World Economy: Europe and Asia, 1000-1800 (1.0)
	GV4F5	Advanced Study of Key Political Thinkers (0.5) #
	GV4G7	Marx and Marxism (0.5)
	HY424	The Napoleonic Empire: The Making of Modern Europe (1.0) (not available

		2022/23)
	HY459	The Ottoman Empire and its Legacy, 1299-1950 (1.0) (not available 2022/23)
	HY469	Maps, History and Power: The Spaces and Cultures of the Past (1.0)
	HY478	Genesis of the Modern World: Europe, China & India, 1550-1840 (1.0)
	HY483	Land and Conflict in Latin America since 1750 (1.0)
	HY484L	Empire, Colonialism and Globalisation (0.5) 1
	HY484M	Empire, Colonialism and Globalisation (0.5) 2
	HY486	The Anti-Slave-Trade Atlantic World, c. 1807-1870 (1.0)
	HY489	China and the External World, 1644-1839 (0.5)
	HY4A7	Islam, Power and Culture in Mughal India (0.5)
	HY4B4	Maritime Asia in Transition, 1405-1839 (0.5)
	HY4B5	Queer Early Modernities (0.5)
	SO426	Classical Social Thought (0.5) (not available 2022/23)
Paper 2		Courses to the value of 1.0 unit(s) from the following:
	EH429	History of Economics: Ideas, Policy and Performativity (0.5)
	EH483	The Development and Integration of the World Economy in the 19th and 20th Centuries (1.0)
	EU476	Emotions and Memory in European Politics (0.5)
	HY400	Crisis Decision-Making in War and Peace 1914-2003 (1.0) #
	HY411	European Integration in the Twentieth Century (1.0) #
	HY422	Presidents, Public Opinion, and Foreign Policy, from Roosevelt to Reagan, 1933-89 (1.0)
	HY429	Anglo-American Relations from World War to Cold War, 1939-91 (1.0)
	HY432	From Cold Warriors to Peacemakers: the End of the Cold War Era, 1979-1999 (1.0)
	HY434	The Rise and Fall of Communism in Europe 1917-1990 (1.0)
	HY435	Political Islam: From Ibn Taymiyya to ISIS (1.0)
	HY436	Race, Violence and Colonial Rule in Africa (1.0) (not available 2022/23)
	HY440	The Iranian Revolution (1.0) (not available 2022/23)
	HY444	The Cold War in Latin America (1.0) (not available 2022/23)
	HY461	East Asia in the Age of Imperialism, 1839-1945 (1.0) #
	HY463	The Origins of the Cold War, 1917-1962 (1.0)
	HY465	The International History of the Balkans since 1939: State Projects, Wars, and Social Conflict (1.0)
	HY487	Islam, State and Conflict in Southeast Asia (0.5)
	HY488	European Empires and Global Conflict, 1935-1948 (0.5)
	HY491	Race, Gender and Reproduction in the Caribbean, 1860s-1930s (0.5)
	HY4A5	Women as Weapons: The Conservative Political Tradition in the Cold War (0.5) (not available 2022/23)
	HY4A8	Asian Borderlands (0.5)
	HY4A9L	China and the United States Since 1949

**478 Taught Master's Programme Regulations**

	(0.5) 3	EU476	Emotions and Memory in European Politics (0.5)
	HY4A9M China and the United States Since 1949 (0.5) 4	GV4F5	Advanced Study of Key Political Thinkers (0.5) #
	HY4B1 The Vietnam Wars, 1930-75: Regional and International Perspectives (1.0)	GV4G7	Marx and Marxism (0.5)
	HY4B2 The Afterlives of Empires in the Neo-Colonial Caribbean (0.5) (not available 2022/23)	HY400	Crisis Decision-Making in War and Peace 1914-2003 (1.0) #
	HY4B6 German Transformations since 1990 (0.5)	HY411	European Integration in the Twentieth Century (1.0) #
	MC436 Mediating the Past (0.5)	HY422	Presidents, Public Opinion, and Foreign Policy, from Roosevelt to Reagan, 1933-89 (1.0)
	SO407 Politics and Society (1.0)	HY424	The Napoleonic Empire: The Making of Modern Europe (1.0) (not available 2022/23)
	SO427 Modern Social Thought (0.5)	HY429	Anglo-American Relations from World War to Cold War, 1939-91 (1.0)
Paper 3	Any course(s) to the value of 1.0 unit(s) listed under Papers 1 and 2 AND not previously selected:	HY432	From Cold Warriors to Peacemakers: the End of the Cold War Era, 1979-1999 (1.0)
	AN402 The Anthropology of Religion (1.0)	HY434	The Rise and Fall of Communism in Europe 1917-1990 (1.0)
	AN404 Anthropology: Theory and Ethnography (1.0)	HY435	Political Islam: From Ibn Taymiyya to ISIS (1.0)
	AN405 The Anthropology of Kinship, Sex and Gender (1.0)	HY436	Race, Violence and Colonial Rule in Africa (1.0) (not available 2022/23)
	AN451 Anthropology of Politics (0.5)	HY440	The Iranian Revolution (1.0) (not available 2022/23)
	AN475 The Anthropology of Revolution (0.5) (not available 2022/23)	HY444	The Cold War in Latin America (1.0) (not available 2022/23)
	EU432 The Philosophy of Europe (0.5)	HY459	The Ottoman Empire and its Legacy, 1299-1950 (1.0) (not available 2022/23)
	EU447 Democracy, Ideology and the European State (0.5)	HY461	East Asia in the Age of Imperialism, 1839-1945 (1.0) #
	GI407 Globalisation, Gender and Development (1.0) (not available 2022/23)	HY463	The Origins of the Cold War, 1917-1962 (1.0)
	GI422 Transnational Sexual Politics (1.0)	HY465	The International History of the Balkans since 1939: State Projects, Wars, and Social Conflict (1.0)
	PH416 Philosophy, Morals and Politics (1.0)	HY469	Maps, History and Power: The Spaces and Cultures of the Past (1.0)
	SO434 Cultural Theory and Cultural Forms (1.0)	HY478	Genesis of the Modern World: Europe, China & India, 1550-1840 (1.0)
	<b>Language courses</b>	HY483	Land and Conflict in Latin America since 1750 (1.0)
	<b>Papers 1 &amp; 2 options list</b>	HY484L	Empire, Colonialism and Globalisation (0.5) 5
Paper 4	HY490 MA in Modern History Dissertation (1.0)	HY484M	Empire, Colonialism and Globalisation (0.5) 6
	<b>Language courses</b>	HY486	The Anti-Slave-Trade Atlantic World, c. 1807-1870 (1.0)
	LN130 French Language and Society 3 (advanced) (1.0) #	HY487	Islam, State and Conflict in Southeast Asia (0.5)
	LN230 French Language and Society 4 (proficiency) (1.0) #	HY488	European Empires and Global Conflict, 1935-1948 (0.5)
	LN330 French Language and Society 5 (mastery) (1.0) #	HY489	China and the External World, 1644-1839 (0.5)
	LN110 German Language and Society 3 (advanced) (1.0) #	HY491	Race, Gender and Reproduction in the Caribbean, 1860s-1930s (0.5)
	LN210 German Language and Society 4 (proficiency) (1.0) #	HY4A5	Women as Weapons: The Conservative Political Tradition in the Cold War (0.5) (not available 2022/23)
	LN140 Mandarin Language and Society 3 (Advanced) (1.0) #	HY4A7	Islam, Power and Culture in Mughal India (0.5)
	LN240 Mandarin Language and Society 4 (Proficiency) (1.0) #	HY4A8	Asian Borderlands (0.5)
	LN340 Mandarin Language and Society 5 (Mastery) (1.0) #	HY4A9L	China and the United States Since 1949 (0.5) 7
	LN100 Russian Language and Society 3 (advanced) (1.0) #	HY4A9M	China and the United States Since 1949 (0.5) 8
	LN200 Russian Language and Society 4 (proficiency) (1.0) #	HY4B1	The Vietnam Wars, 1930-75: Regional and International Perspectives (1.0)
	LN120 Spanish Language and Society 3 (advanced) (1.0) #	HY4B2	The Afterlives of Empires in the Neo-Colonial Caribbean (0.5) (not available
	LN220 Spanish Language and Society 4 (proficiency) (1.0) #		
LN320	Spanish Language and Society 5 (mastery) (1.0) #		
	<b>Papers 1 &amp; 2 options list</b>		
	EH404 India and the World Economy (0.5)		
	EH429 History of Economics: Ideas, Policy and Performativity (0.5)		
	EH457 Living Standards since the Industrial Revolution: The British experience c.1750-2000 (0.5)		
	EH482 The Origins of the World Economy: Europe and Asia, 1000-1800 (1.0)		
	EH483 The Development and Integration of the World Economy in the 19th and 20th Centuries (1.0)		

	2022/23)
HY4B4	Maritime Asia in Transition, 1405-1839 (0.5)
HY4B5	Queer Early Modernities (0.5)
HY4B6	German Transformations since 1990 (0.5)
MC436	Mediating the Past (0.5)
SO407	Politics and Society (1.0)
SO426	Classical Social Thought (0.5) (not available 2022/23)
SO427	Modern Social Thought (0.5)

**Prerequisite Requirements and Mutually Exclusive Options**

- 1: HY484L can not be taken with HY484M
  - 2: HY484M can not be taken with HY484L
  - 3: HY4A9L can not be taken with HY4A9M
  - 4: HY4A9M can not be taken with HY4A9L
  - 5: HY484L can not be taken with HY484M
  - 6: HY484M can not be taken with HY484L
  - 7: HY4A9L can not be taken with HY4A9M
  - 8: HY4A9M can not be taken with HY4A9L
- # means there may be prerequisites for this course. Please view the course guide for more information.

---

## MSc in Operations Research & Analytics

**Programme Code:** TMORA

**Department:** Mathematics

For students starting this programme of study in 2022/23 Full-year programme. As below, students must take three compulsory courses (Papers 1-3, 1.5 units in all), options to the value of 1.5 units (Papers 4-6), and a project or dissertation (Paper 7, 1 unit).

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements and course size capping.**

Paper	Course number, title (unit value)
Paper 1	MA423 Fundamentals of Operations Research (0.5) #
Paper 2	MA424 Modelling in Operations Research (0.5) #
Paper 3	ST447 Data Analysis and Statistical Methods (0.5) #
Papers 4 & 5	Courses to the value of 1.0 unit(s) from the following: MA402 Mathematical Game Theory (0.5) # MA407 Algorithms and Computation (0.5) # MA421 Advanced Algorithms (0.5) # MA427 Mathematical Optimisation (0.5) # MA428 Combinatorial Optimisation (0.5) # MA429 Algorithmic Techniques for Data Mining (0.5) # MA434 Algorithmic Game Theory (0.5) # Students may take at most one of MA407 and MA421 under Papers 4 & 5, but may take the other under Paper 6.
Paper 6	Courses to the value of 0.5 unit(s) from the following: Another course from those listed under Papers 4 & 5. MA431 Advanced Topics in Operations Research and Applicable Mathematics (0.5) # (not available 2022/23) MA433 Mathematics of Networks (0.5) # MG409 Auctions and Game Theory (0.5) # MG422 Thinking Strategically (0.5) # MG455 Decisions, Biases and Nudges (0.5) # ST422 Time Series (0.5) # ST455 Reinforcement Learning (0.5) #

ST456	Deep Learning (0.5) #
ST457	Graph Data Analytics and Representation Learning (0.5) #

**Papers 4 & 5 options list**

**Or**

Courses to the value of 0.5 unit(s) from the following:

Any other MSc-level course, with approval of the Programme Director and the teacher responsible for the course.

Paper 7	MA425 Project in Operations Research & Analytics (1.0) <b>or</b>
	MA426 Dissertation in Operations Research & Analytics (1.0)

**Papers 4 & 5 options list**

- MA402 Mathematical Game Theory (0.5) #
  - MA407 Algorithms and Computation (0.5) #
  - MA421 Advanced Algorithms (0.5) #
  - MA427 Mathematical Optimisation (0.5) #
  - MA428 Combinatorial Optimisation (0.5) #
  - MA429 Algorithmic Techniques for Data Mining (0.5) #
  - MA434 Algorithmic Game Theory (0.5) #
- # means there may be prerequisites for this course. Please view the course guide for more information.

Students may choose at most one of: MA402, MA434, MG409, MG422.

Upon supplying satisfactory evidence to the course convenor of relevant previous courses taken, a student may be exempted from a course specified in Paper 1, 2, or 3, at the discretion of the Programme Director. A student shall replace such a course with another module, subject to approval of the Programme Director. Exemption from more than one course is rare.

Please note that not all optional courses are available every year.

**Note for prospective students:**For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

---

## MSc in Organisational and Social Psychology

**Programme Code:** TMOSOPS

**Department:** Psychological and Behavioural Science

For students starting this programme of study in 2022/23 Full-year programme. Students must take two compulsory courses, optional courses to the value of one unit and a dissertation as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	PB402 Organisational Social Psychology (1.0)
Paper 2	Students may opt to take PB414 instead of PB411 where they can demonstrate prior experience of quantitative techniques up to and including the topics covered in MY465: PB411 Methods for Social Psychology Research: Qualitative and Quantitative

	Methods (1.0) <b>or</b>
PB414	Advanced Methods for Social Psychology Research: Qualitative and Quantitative Methods (1.0)
Paper 3	Courses to the value of 1.0 unit(s) from the following:
GI403	Gender and Media Representation (0.5)
PB415	Behavioural Science (0.5) (not available 2022/23)
PB416	Cognition and Culture (0.5) (not available 2022/23)
PB417	Consumer Psychology for Sustainability (0.5)
PB418	Corporate Communications (0.5)
PB419	Creativity and Innovation (0.5) # (not available 2022/23)
PB420	Current Communication Research (0.5) # (not available 2022/23)
PB421	Happiness (0.5)
PB422	Health Communication (0.5)
PB424	Organisational Life (0.5)
PB425	Organisations, Groups and Identity (0.5) #
PB426	Knowledge Processes in Organisations (0.5) (not available 2022/23)
PB427	Organisational and Social Decision Making (0.5) (not available 2022/23)
PB428	Political Psychology: Inequality & Intergroup Relations (0.5)
PB429	Science Communication and Controversies (0.5) (not available 2022/23)
PB430	Social Influence Modes and Modalities (0.5) # (not available 2022/23)
PB431	Social Psychology of Economic Life: Advanced Topics (0.5)
PB432	Social Representations: Social Knowledge and Contemporary Issues (0.5)
PB433	Theory and Practice of Organisational Development (0.5)
PB434	Behavioural Science in an Age of New Technology (0.5)
PB435	Behavioural Science for Planetary Wellbeing (0.5)
PB436	Behavioural Science for Managing Work, People, and Time (0.5)
PB452	Behavioural Science for Health and Pandemic Responses (0.5) #
PB457	Organisational Culture (0.5)
PB458	Dialogue: Conflict & Negotiation (0.5)
	Courses to the value of 0.5 unit(s) from another programme can be taken (subject to the approval of the candidate's Programme Director).
Paper 4	PB410 Dissertation (1.0) A
<b>Footnotes</b>	A: Failures in this course cannot be condoned. A bad fail is defined as a mark less than 29%. # means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Philosophy and Public Policy

**Programme Code:** TMPHPP

**Department:** Philosophy, Logic & Scientific Method

For students starting this programme of study in 2022/23 Full-year programme. Students must take two compulsory courses, one unit of optional courses, one compulsory seminar (non-assessed) and a dissertation as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	PH415 Philosophy and Public Policy (1.0)
Paper 2	PH416 Philosophy, Morals and Politics (1.0)
	<b>Or</b>
	PH458 Evidence and Policy <b>and</b> another half-unit from the courses listed under Paper 3:
	PH458 Evidence and Policy (0.5)
	<b>Paper 3 options list</b>
Paper 3	Courses to the value of 1.0 unit(s) from the following:
	PH400 Philosophy of Science (1.0)
	PH405 Philosophy of the Social Sciences (1.0)
	PH413 Philosophy of Economics (1.0) #
	PH416 Philosophy, Morals and Politics (1.0)
	PH425 Business and Organisational Ethics (0.5)
	PH427 Genes, Brains and Society (0.5)
	PH430 Einstein for Everyone: From time travel to the edge of the universe (0.5) #
	PH431 Physics and Uncertainty: From Quantum Jumps to Stock Market Crashes (0.5) #
	PH433 Philosophy of Gender and Race (0.5)
	PH439 Anarchy, Authority and Evidence: Topics in Philosophy of Law (0.5)
	PH456 Rationality and Choice (1.0) #
	PH458 Evidence and Policy (0.5)
	Alternatively, students can choose courses to the value of 1.0 unit from the wide array of policy courses at LSE on a space-available basis.
Paper 4	PH499 Dissertation (1.0)
	Students must also take the following non-assessed seminar:
	PH421 Dissertation Seminar - Philosophy and Public Policy (0.0)
	<b>Paper 3 options list</b>
	PH400 Philosophy of Science (1.0)
	PH405 Philosophy of the Social Sciences (1.0)
	PH413 Philosophy of Economics (1.0) #
	PH416 Philosophy, Morals and Politics (1.0)
	PH425 Business and Organisational Ethics (0.5)
	PH427 Genes, Brains and Society (0.5)
	PH430 Einstein for Everyone: From time travel to the edge of the universe (0.5) #
	PH431 Physics and Uncertainty: From Quantum Jumps to Stock Market Crashes (0.5) #
	PH433 Philosophy of Gender and Race (0.5)
	PH439 Anarchy, Authority and Evidence: Topics in Philosophy of Law (0.5)
	PH456 Rationality and Choice (1.0) #
	PH458 Evidence and Policy (0.5)
	# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Philosophy of Science

**Programme Code:** TMPHYS

**Department:** Philosophy, Logic & Scientific Method

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of 3.0 units and a dissertation as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	Courses to the value of 1.0 unit(s) from the

following:

PH400 Philosophy of Science (1.0)

**Or**

PH458 Evidence and Policy **and** another half-unit from the courses listed under Papers 2 & 3:

PH458 Evidence and Policy (0.5)

**Papers 2 & 3 options list**

Papers 2 & 3 Courses to the value of 2.0 unit(s) from the following:

PH400 Philosophy of Science (1.0)

PH405 Philosophy of the Social Sciences (1.0) 3

PH413 Philosophy of Economics (1.0) # 4

PH419 Set Theory and Further Logic (1.0) #

PH425 Business and Organisational Ethics (0.5)

PH427 Genes, Brains and Society (0.5)

PH430 Einstein for Everyone: From time travel to the edge of the universe (0.5) #

PH431 Physics and Uncertainty: From Quantum Jumps to Stock Market Crashes (0.5) #

PH433 Philosophy of Gender and Race (0.5)

PH439 Anarchy, Authority and Evidence: Topics in Philosophy of Law (0.5)

PH456 Rationality and Choice (1.0) #

PH458 Evidence and Policy (0.5)

Students may take up to 1.0 unit of non-PH courses not listed above, subject to approval.

Paper 4

PH499 Dissertation (1.0)

Students must also take the following non-assessed seminar:

PH445 Dissertation Seminar - Philosophy of Science (0.0)

**Papers 2 & 3 options list**

PH400 Philosophy of Science (1.0)

PH405 Philosophy of the Social Sciences (1.0) 1

PH413 Philosophy of Economics (1.0) # 2

PH419 Set Theory and Further Logic (1.0) #

PH425 Business and Organisational Ethics (0.5)

PH427 Genes, Brains and Society (0.5)

PH430 Einstein for Everyone: From time travel to the edge of the universe (0.5) #

PH431 Physics and Uncertainty: From Quantum Jumps to Stock Market Crashes (0.5) #

PH433 Philosophy of Gender and Race (0.5)

PH439 Anarchy, Authority and Evidence: Topics in Philosophy of Law (0.5)

PH456 Rationality and Choice (1.0) #

PH458 Evidence and Policy (0.5)

**Prerequisite Requirements and Mutually Exclusive Options**

1: PH405 can not be taken with PH413

2: PH413 can not be taken with PH405

3: PH405 can not be taken with PH413

4: PH413 can not be taken with PH405

# means there may be prerequisites for this course. Please view the course guide for more information.

PH405 and PH413:

EH428 History of Economics: Making Political Economy into a Social Science (0.5) (not available 2022/23)

EH429 History of Economics: Ideas, Policy and Performativity (0.5)

PH400 Philosophy of Science (1.0)

PH405 Philosophy of the Social Sciences (1.0)

PH413 Philosophy of Economics (1.0) #

PH416 Philosophy, Morals and Politics (1.0)

PH419 Set Theory and Further Logic (1.0) #

PH425 Business and Organisational Ethics (0.5)

PH427 Genes, Brains and Society (0.5)

PH430 Einstein for Everyone: From time travel to the edge of the universe (0.5) #

PH431 Physics and Uncertainty: From Quantum Jumps to Stock Market Crashes (0.5) #

PH433 Philosophy of Gender and Race (0.5)

PH439 Anarchy, Authority and Evidence: Topics in Philosophy of Law (0.5)

PH456 Rationality and Choice (1.0) #

PH458 Evidence and Policy (0.5)

Subject to approval, students may take up to one unit of non-PH courses not listed above. This would be instead of either EH428 and/or EH429 and not in addition to these courses.

Paper 4

PH499 Dissertation (1.0)

Students must also take the following non-assessed seminar:

PH422 Dissertation Seminar - Philosophy of Social Science (0.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Political Economy of Europe

**Programme Code:** TMPOECEU

**Department:** European Institute

For students starting this programme of study in 2022/23

Full-year programme. Students must take two out of three semi-compulsory courses, optional courses to the value of two units (at least one unit of courses listed under Paper 2) and a dissertation as shown. Additionally, all students must take EU470 **'How do we know? An introduction to research design and methods in political economy'** in preparation for the dissertation. Students must also select EU450 Engaging with Europe: Professional Skills during course choice. Places on EU450 workshops are on a first come first served basis.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

Professional development

course EU450 Engaging with Europe: Professional Skills (0.0)

Paper 1

Courses to the value of 1.0 unit(s) from the following:

EU455 Concepts in Political Economy (0.5)

EU491 Political Economy in Theory and History (0.5)

EU492 Political Economy of Integration and Fragmentation in Europe (0.5)

Students without some background in European politics and policy-making or economics are strongly encouraged to take one or both of the following to support their studies:

## Master of Public Administration

**Programme Code:** TMMPA

**Department:** School of Public Policy

For students starting this programme of study in 2022/23

The programme is taught over two academic years (21 months).

To be awarded the degree, students must complete courses to the value of 8.0 units in total over two years with 4.0 units in each year of study. Some courses have a unit value of 1.0 and some have a unit value of 0.5 indicated as (H).

No interim award is available: students completing courses with a total value of less than 8.0 units receive no award, regardless of performance in the courses that have been successfully completed.

Students who successfully complete courses to the value of 8.0 units may elect to have one of the titles below referenced on their degree certificate if the student has passed the courses attached to that specialism. The available specialisms are listed below with the courses attached to each specialism listed with them.

If no such election is made, or if a student does not pass all of the courses listed under a specialism, the MPA degree certificate will state 'MPA' without further specification. Students may take courses from other specialisms as option courses.

Students can apply to spend their second year at one of the LSE MPA Partner Institutions. If offered a place and upon successful completion of year one, the student will transfer onto the Dual MPA Programme. Students who transfer to the Dual MPA will not be eligible to elect a specialism to be added to their degree certificate.

**Paper Course number, title (unit value)**

**Before Year 1**

Introductory course

All students must attend the following MPA introductory course:

PP408	Introduction to Quantitative Methods for the MPA Programme (0.0)
-------	--

**Year 1**

Paper 1

PP440	Micro and Macro Economics (for Public Policy) (1.0)
-------	---

**Or**

Upon satisfactorily demonstrating prior knowledge of Micro and Macro Economics, students may be exempted from PP440 and will be free to take an additional unit of option course subject to the approval of the Programme Director.

Paper 2

PP455	Quantitative Approaches and Policy Analysis (1.0)
-------	---

Paper 3

PP478	Political Science for Public Policy (1.0)
-------	---

Paper 4

Students take course(s) to the value of 1.0 unit from the MPA Course List (see below):

**MPA Course List**

**Year 2**

Paper 5

PP4B3	MPA Capstone Project (1.0)
-------	----------------------------

Papers 6, 7 & 8 Students take courses to the value of 3.0 units from the MPA Course List (see below):

**MPA Course List**

**Footnotes**

A: Designed for Year 2 students; only available in Year 1 with permission from the Programme Director.

B: Designed for Year 2 students; only available in Year 1 with permission from the Programme Director.

C: Not available in Year 1.

D: Not available in Year 1.

E: Not available in Year 1.

F: Not available in Year 1.

G: Designed for Year 2 students; only available in Year 1 with permission from the Programme Director.

H: Not available in Year 1.

I: Not available in Year 1.

# means there may be prerequisites for this course. Please view the course guide for more information.

**SUPPLEMENTARY CRITERIA FOR PROGRESSION FROM THE FIRST TO THE SECOND YEAR OF THE MPA AND DUAL MPA DEGREE**

- Students who attain at least a Pass grade in each of the first year courses will be eligible to proceed into the second year of the MPA or Dual MPA programme.
- A student on the MPA programme who has attained a Fail grade in courses to the value of 1.0 unit and at least a Pass grade in the remaining courses to the value of 3.0 units will be eligible to proceed into the second year.
- A student holding an offer on the Dual MPA for their second year, who has attained a Fail grade in courses to the value of 1.0 unit, may only progress if a mark of at least 60% has been achieved in courses of an equivalent value or an aggregate mark of at least 330 has been achieved in the non-failed courses.
- A student who receives a Bad Fail in any course or who otherwise fails to meet the above criteria for progression will not be able to progress to the second year of the MPA or Dual MPA programme and will be entitled to repeat the failed courses as follows:  
A student shall normally be entitled to repeat any failed courses only (on one occasion) and at the next normal opportunity, in accordance with paragraph 33 of the General Academic Regulations. The Repeat Teaching Panel may consider an application for repeat tuition in any failed courses from a student. Results obtained following a repeated attempt at assessment shall bear their normal value.
- A student who has completed year one and is unable to complete year two of the MPA or Dual MPA programme will not receive an interim award.

**Note for prospective students:**

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## Master of Public Administration

## MPA Course List

### Economic Policy Specialism

Students must pass two of the following three courses to qualify for this specialism.

PP410 Public Economics for Public Policy (0.5) # A  
PP418 Globalisation and Economic Policy (0.5) # B  
PP419 Advanced Empirical Methods for Policy Analysis (0.5) # C

### International Development Specialism

PP448 International Political Economy and Development (0.5)  
PP449 Comparative Political Economy and Development (0.5)  
PP454 Development Economics (1.0) # D

### Inequality and Poverty Specialism

PP4X6 Welfare Analysis and Measurement (1.0)

### Social Impact Specialism

PP452 Applying Behavioural Economics for Social Impact:

PP4J2	Design, Delivery, Evaluation and Policy (0.5) # E New Institutions of Public Policy: Strategic Philanthropy, Impact Investment and Social Enterprise (0.5) F
-------	---

**International Political Economy Specialism**

PP418	Globalisation and Economic Policy (0.5) # G
PP448	International Political Economy and Development (0.5)

**Courses not contributing to a specialism**

FM471	Sustainable Finance and Impact Investing (0.5) #
PP406	Philosophy for Public Policy (0.5)
PP411L	Political Economy Applications for Public Policy (0.5) #
PP411M	Political Entrepreneurship (0.5)
PP412	Global Social Protection Design and Delivery (0.5)
PP413	Growth Diagnostics in Development: Theory and Practice (0.5) #
PP414	Policy-Making: Process, Challenges and Outcomes (0.5)
PP415	Technology, Data Science and Policy (0.5) #
PP416	Beyond the policy cycle: how theory explains practice (0.5)
PP417L	The Practice of Effective Climate Policy (0.5)
PP417M	The Practice of Effective Climate Policy (0.5)
PP423	Anticipatory Policymaking (0.5)
PP424	Happiness and Public Policy (0.5)
PP450	Public Organisations: Theory and Practice (0.5) #
PP4B4	Dissertation (1.0) 1 H
PP4E5	Innovations in the governance of public services delivery (0.5)
PP4G3	Designing and Managing Change in the Public Sector (0.5)
PP4J4	Designing and Implementing Evidence-Informed Policies and Programmes (0.5)
PP4J5	Fiscal Governance and Budgeting (0.5)
PP4V8	Policy Paper (0.5) 2 I

In addition, students may choose courses from elsewhere in LSE with approval of the Programme Director and subject to acceptance by the course convenor. Availability of a place on a course outside the School of Public Policy is not guaranteed and is subject to space, regulations, and timetable constraints.

**Master of Public Policy**

**Programme Code:** TMMPP

**Department:** School of Public Policy

For students starting this programme of study in 2022/23

The programme is taught over 9 months.

To be awarded the degree, students must complete courses to the value of 4.0 units. Some courses have a unit value of 1.0 and some have a unit value of 0.5.

No interim award is available: students completing courses with a total value of less than 4.0 units receive no award, regardless of performance in the courses that have been successfully completed.

Students must take core courses to the value of 3.0 units, and a range of other courses from within the School of Public Policy to a total combined value of 4.0 units as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper**                      **Course number, title (unit value)**

**Core Courses**

All students must complete the following core courses:

Introductory course	PP409	Introductory Teaching for the Master of Public Policy (MPP) (0.0)
Paper 1	PP401	Political Science for Public Policy (0.5)

Paper 2	PP402	Quantitative Methods for Public Policy (0.5)
Paper 3	PP403	Public Management (0.5)
Paper 4	PP404	Economics for Public Policy (0.5)

**Or**

Upon satisfactorily demonstrating prior knowledge of Economics, students may be exempted from PP404 and will be free to take an additional half unit option course subject to the approval of the Programme Director.

Paper 5	PP405	Public Policy Applications (0.5)
Paper 6	PP406	Philosophy for Public Policy (0.5)

**Option Courses**

Papers 7 & 8      Courses to the value of 1.0 unit(s) from the following:

FM471	Sustainable Finance and Impact Investing (0.5) #
FM473L	Financial Markets (0.5) #
FM473M	Financial Markets (0.5) #
FM474L	Managerial Finance (0.5)
FM474M	Managerial Finance (0.5)
GV4F8	Institutions and Global Trade (0.5)
GV4K1	Opening Government: Transparency, Accountability, and Participation (0.5)
MG455	Decisions, Biases and Nudges (0.5) #
PP410	Public Economics for Public Policy (0.5) #
PP411L	Political Economy Applications for Public Policy (0.5) #
PP411M	Political Entrepreneurship (0.5)
PP412	Global Social Protection Design and Delivery (0.5) (not available 2022/23)
PP413	Growth Diagnostics in Development: Theory and Practice (0.5) #
PP414	Policy-Making: Process, Challenges and Outcomes (0.5) 1
PP414L	Policy-Making: Process, Challenges and Outcomes (0.5) 2
PP415	Technology, Data Science and Policy (0.5) #
PP416	Beyond the policy cycle: how theory explains practice (0.5)
PP417L	The Practice of Effective Climate Policy (0.5) 3
PP417M	The Practice of Effective Climate Policy (0.5) 4
PP418	Globalisation and Economic Policy (0.5) #
PP419	Advanced Empirical Methods for Policy Analysis (0.5) #
PP423	Anticipatory Policymaking (0.5)
PP424	Happiness and Public Policy (0.5)
PP448	International Political Economy and Development (0.5)
PP449	Comparative Political Economy and Development (0.5)
PP450	Public Organisations: Theory and Practice (0.5) #
PP454	Development Economics (1.0) #
PP4B4	Dissertation (1.0)
PP4E5	Innovations in the governance of public services delivery (0.5)
PP4G3	Designing and Managing Change in the Public Sector (0.5) (not available 2022/23)
PP4J2	New Institutions of Public Policy: Strategic Philanthropy, Impact Investment and Social Enterprise (0.5)
PP4J4	Designing and Implementing Evidence-Informed Policies and Programmes (0.5) (not available 2022/23)
PP4J5	Fiscal Governance and Budgeting (0.5)

PP4V8 Policy Paper (0.5)  
 PP4X6 Welfare Analysis and Measurement (1.0)  
 In addition, students may choose up to 1.0 unit (per year of study) of courses from elsewhere in LSE with approval of the Programme Director and subject to acceptance by the course convenor. Availability of a place on a course outside the School of Public Policy is not guaranteed and is subject to space, regulations, and timetable constraints.

#### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

1: PP414 can not be taken with PP414L  
 2: PP414L can not be taken with PP414  
 3: PP417L can not be taken with PP417M  
 4: PP417M can not be taken with PP417L  
 The Bologna Process [lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm](http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm) facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

## MSc in Public Policy and Administration

**Programme Code:** TMPPA

**Department:** Government

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of 2.5 units and a skills course and dissertation as shown. Part-time students may take courses up to the value of two full course units in their first year. Candidates may, subject to the approval of their supervisor, substitute for up to two of the written papers listed under Paper 3 below, any paper which is offered in the MSc, LLM or MA which involves at least 20 weeks of an integrated teaching programme and which counts as one quarter (or one full unit) of the complete MSc programme in which it is offered. By choosing particular combinations of core courses, students can choose to have the title of a specialised stream added to the title of their degree:

MSc Public Policy and Administration (Comparative); or  
 MSc Public Policy and Administration (Public Management).

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	GV4E9 Approaches and Issues in Public Policy and Administration (1.0)
Paper 2	Courses to the value of 0.5 unit(s) from the following: GV477 Comparative Public Policy Change (0.5) # GV483 Public Management Theory and Doctrine (0.5) GV4F4 Policy Advice in Theory and Practice (0.5)
Paper 3	Courses to the value of 1.0 unit(s) from the following: <b>Public Management: A</b> AC412 Accountability, Organisations and Risk

	Management (0.5)
DV413	Environmental Problems and Development Interventions (0.5) #
DV415	Global Environmental Governance (0.5)
GV483	Public Management Theory and Doctrine (0.5)
GV4A2	Citizens' Political Behaviour in Europe: Elections Public Opinion and Identities (0.5) # (not available 2022/23)
GV4C8	Game Theory for Political Science (0.5)
GV4K1	Opening Government: Transparency, Accountability, and Participation (0.5)
GV4L2	The Politics and Policy of Climate Change and Sustainability (0.5) #
LL4AT	Regulation: Strategies and Enforcement (0.5) (not available 2022/23)
LL4AU	Regulation: Legal and Political Aspects (0.5) # (not available 2022/23)
MG402	Public Management: A Design-Oriented Approach (0.5)
PH415	Philosophy and Public Policy (1.0)
PP4J5	Fiscal Governance and Budgeting (0.5)
<b>Comparative Public Policy and Administration: B</b>	
EU421	Policy-Making in the European Union (0.5) #
EU443	European Models of Capitalism (0.5)
EU481	The Future: Political Responses to a Challenge (0.5)
EU4A4	The Politics of Inequality and Redistribution (0.5)
GV441	States and Markets (0.5)
GV477	Comparative Public Policy Change (0.5) #
GV4A5	International Migration and Immigration Management (0.5)
GV4C8	Game Theory for Political Science (0.5)
GV4K1	Opening Government: Transparency, Accountability, and Participation (0.5)
GV4L2	The Politics and Policy of Climate Change and Sustainability (0.5) #
GV4L3	Data Science Applications in Politics Research (0.5) #
GV4L5	Politics, Gender, and Development (0.5) #
GV4L6	Political Economy of Inequality (0.5)
GV4L7	Political Participation and Representation in Latin America (0.5)
SP434	Behavioural Public Policy (0.5)
SP441	Politics of Social Policy: Welfare and Work in Comparative Perspective (0.5)
	Another course with the permission of the programme convenor.
Paper 4	One from: GV4G1 Applied Quantitative Methods for Public Policy and Political Science (0.5) # MY451L Introduction to Quantitative Analysis (0.5) MY451M Introduction to Quantitative Analysis (0.5) MY452L Applied Regression Analysis (0.5) # MY452M Applied Regression Analysis (0.5) #
Paper 5	GV499 Dissertation (1.0)

#### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

#### A: **Public Management stream**

To qualify for this stream, the following courses must be taken:

GV4E9 Approaches and Issues in Public Policy and Administration

#### Footnotes

GV483 Public Management Theory and Doctrine (H)  
 Courses to the value on 1.0 unit from the Public Management stream under Paper 3.  
**B: Comparative Public Policy and Administration stream**  
 To qualify for this stream, the following courses must be taken:  
 GV4E9 Approaches and Issues in Public Policy and Administration  
 GV477 Comparative Public Policy Change (H) **or** GV4F4 The Politics of Policy Advice (H)  
 Courses to the value on 1.0 unit from the Comparative Public Policy and Administration stream under Paper 3.

## MSc in Quantitative Methods for Risk Management

**Programme Code:** TMQMRM

**Department:** Statistics

For students starting this programme of study in 2022/23 Students take three compulsory half unit courses and 2.5 units of optional courses.

Students are required to take a two-week compulsory introductory course MA400 September Introductory Course (Financial Mathematics) in September.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Introductory Course	MA400 September Introductory Course (Financial Mathematics and Quantitative Methods for Risk Management) (0.0)
Paper 1	ST409 Stochastic Processes (0.5) #
Paper 2	ST429 Statistical Methods for Risk Management (0.5) #
Paper 3	ST433 Computational Methods in Finance and Insurance (0.5) #
Papers 4 & 5	Courses to the value of 1.5 unit(s) from the following: MA411 Probability and Measure (0.5) # MA415 The Mathematics of the Black and Scholes Theory (0.5) # MA416 The Foundations of Interest Rate and Credit Risk Theory (0.5) # MA420 Quantifying Risk and Modelling Alternative Markets (0.5) # (not available 2022/23) MA435 Machine Learning in Financial Mathematics (0.5) # ST422 Time Series (0.5) # ST426 Applied Stochastic Processes (0.5) ST436 Financial Statistics (0.5) # ST439 Stochastics for Derivatives Modelling (0.5) # ST440 Recent Developments in Finance and Insurance (0.5) # ST443 Machine Learning and Data Mining (0.5) # ST446 Distributed Computing for Big Data (0.5) # ST448 Insurance Risk (0.5) # ST449 Artificial Intelligence (0.5) ST451 Bayesian Machine Learning (0.5) # ST455 Reinforcement Learning (0.5) # ST456 Deep Learning (0.5) # ST457 Graph Data Analytics and Representation

Learning (0.5) #  
 Paper 6 Courses to the value of 1.0 unit(s) from the following:  
 FM441 Derivatives (0.5) #  
 FM442 Quantitative Methods for Finance and Risk Analysis (0.5) #  
 MA409 Continuous Time Optimisation (0.5) #  
 ST452 Probability and Mathematical Statistics I (0.5)  
 ST453 Probability and Mathematical Statistics II (0.5) #  
 Further half-units(s) from the Paper 5 options list, or from other appropriate MSc courses subject to the approval of the Programme Director and the teacher responsible for the course.

### Papers 4 & 5 options list

Additional course 1 Students taking FM442 can apply for a place on the following non-assessed computer course:  
 FM457 Applied Computational Finance (0.0) (not available 2022/23)

Additional course 2 Students can also take the following non-assessed course taken in addition to the required five compulsory half unit courses and three half units of optional courses detailed above:

MA422 Research Topics in Financial Mathematics (0.0)

### Papers 4 & 5 options list

- MA411 Probability and Measure (0.5) #
- MA415 The Mathematics of the Black and Scholes Theory (0.5) #
- MA416 The Foundations of Interest Rate and Credit Risk Theory (0.5) #
- MA420 Quantifying Risk and Modelling Alternative Markets (0.5) # (not available 2022/23)
- MA435 Machine Learning in Financial Mathematics (0.5) #
- ST422 Time Series (0.5) #
- ST426 Applied Stochastic Processes (0.5)
- ST436 Financial Statistics (0.5) #
- ST439 Stochastics for Derivatives Modelling (0.5) #
- ST440 Recent Developments in Finance and Insurance (0.5) #
- ST443 Machine Learning and Data Mining (0.5) #
- ST446 Distributed Computing for Big Data (0.5) #
- ST448 Insurance Risk (0.5) #
- ST449 Artificial Intelligence (0.5)
- ST451 Bayesian Machine Learning (0.5) #
- ST455 Reinforcement Learning (0.5) #
- ST456 Deep Learning (0.5) #
- ST457 Graph Data Analytics and Representation Learning (0.5) #

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in Social Research Methods

**Programme Code:** TMSORM

**Department:** Methodology

For students starting this programme of study in 2022/23 Full-year programme.

Part 1: Social Research Methods. Students must take courses to the value of two full units and a dissertation as shown.

Part 2: Optional courses. For all students other than those on the 'Gender' or 'Population' streams of the MSc Social Research Methods, courses to the value of one full unit can be taken from the courses listed under the heading 'Part 2 - Optional Courses' below. Please click the 'Optional courses' link to expand the list.

Students on the 'Gender' or 'Population' streams of the MSc must select courses from the options listed under their respective headings at the foot of the 'Part 2 - Optional Courses' section below. Please click the 'Optional courses' link to expand the list.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	Part 1 - Social Research Methods Research design MY400 Fundamentals of Social Science Research Design (0.5)
Paper 2	Quantitative research methods MY452L Applied Regression Analysis (0.5) # 1 <b>or</b> MY452M Applied Regression Analysis (0.5) # 2 <b>or</b> Exceptionally, students who can demonstrate sufficient prior training in quantitative research methods commensurate with those covered in MY452 can substitute a more advanced MY45* course from the following list for MY452. This would be subject to the approval of the MSc Programme Director. Please note that in such cases, the substitute course will be treated as a 'course critical to assessment' in place of MY452 (see Exam Sub-Board local rules <a href="https://www.lse.ac.uk/resources/calendar/LocalRules/MY/MY-MScSocialResearchMethods.htm">https://www.lse.ac.uk/resources/calendar/LocalRules/MY/MY-MScSocialResearchMethods.htm</a> for more information): MY455 Multivariate Analysis and Measurement (0.5) #* MY457 Causal Inference for Observational and Experimental Studies (0.5) #* MY459 Quantitative Text Analysis (0.5) #*
Paper 3	Qualitative research methods MY421L Qualitative Research Methods (0.5) 3 <b>or</b> MY421M Qualitative Research Methods (0.5) 4 <b>or</b> Exceptionally students who can demonstrate sufficient prior training in qualitative research methods commensurate with those covered in MY421 can substitute a more advanced MY42* course from the following list for MY421. This would be subject to the approval of the MSc Programme Director. Please note that in cases where a student substitutes a course in for MY421, the substitute course will be treated as a 'course critical to assessment' in place of MY421 (see Exam Sub-Board local rules <a href="https://www.lse.ac.uk/resources/calendar/LocalRules/MY/MY-MScSocialResearchMethods.htm">https://www.lse.ac.uk/resources/calendar/LocalRules/MY/MY-MScSocialResearchMethods.htm</a> for more information): MY425 Case Studies and Comparative Methods for Qualitative Research (0.5) * MY426 Doing Ethnography (0.5) #* MY428 Qualitative Text and Discourse Analysis (0.5) #*
Paper 4	Optional social research methods course For this paper students can choose any one of the MY4** courses which are listed under the Optional courses list below, or a half-unit course in statistics (ST4**, subject to the approval of the student's Academic Mentor). In addition, students can choose MY451 under Paper 4; if they do that, they must register for MY451M which is taught in Michaelmas Term, and must register under Paper 2 for MY452L which is taught in Lent Term. <b>Optional courses (click here to expand)</b>
Paper 5	MY499 Dissertation (1.0) A Part 2 - Optional Courses
Paper 6	Optional courses B For all students other than those on the 'Gender' or 'Population' streams of the MSc in Social Research

Methods, courses to the value of one full unit can be taken from the courses listed in the 'Optional Courses' section below. Please click the 'Optional courses' link to expand the list. Students on the 'Gender' or 'Population' streams of the MSc must select courses from the options listed under their respective headings at the foot of the 'Optional Courses' section below. Please click the 'Optional courses' link to expand the list.

**Optional courses (click here to expand)**

**Optional courses (click here to expand)**

**Non-stream**

DV434	Human Security (0.5)
MY405	Research Design for Policy and Programme Evaluation (0.5)
MY423	Interview Methods for Social Science Research (0.5) #
MY424	Advanced qualitative field methods for researching space and place (0.5) # (not available 2022/23)
MY425	Case Studies and Comparative Methods for Qualitative Research (0.5)
MY426	Doing Ethnography (0.5) #
MY428	Qualitative Text and Discourse Analysis (0.5) #
MY455	Multivariate Analysis and Measurement (0.5) #
MY456	Survey Methodology (0.5) #
MY457	Causal Inference for Observational and Experimental Studies (0.5) #
MY459	Quantitative Text Analysis (0.5) #
MY461	Social Network Analysis (0.5)
MY470	Computer Programming (0.5)
MY472	Data for Data Scientists (0.5)
MY474	Applied Machine Learning for Social Science (0.5) #
SO407	Politics and Society (1.0)
ST416	Multilevel Modelling (0.5) #
ST425	Statistical Inference: Principles, Methods and Computation (1.0) #
ST442	Longitudinal Data Analysis (0.5) # (not available 2022/23)

Or any other Graduate level courses from across the LSE (subject the approval of your Academic Mentor and the MSc Social Research Methods Programme Director).

**Or**

**Gender stream**

This stream applies only to students who are taking MSc Social Research Methods as part of a 1+3 PhD programme, in conjunction with the MPhil/PhD Gender. Other students can select these courses as standard unlisted optional courses under Paper 6 (where this is allowed by the Department of Gender Studies, and subject the approval of your Academic Mentor and the MSc Social Research Methods Programme Director). One half-unit from the following:

GI402	Gender, Knowledge and Research Practice (0.5)
GI424	Gender Theories: An Interdisciplinary Approach (0.5)
GI429	Archival Interventions: Feminist, Queer and Decolonial Approaches (0.5) #

And one optional half unit graduate level course (typically from the Department of Gender Studies) as agreed with your Academic Mentor.

**Or**

**Population stream**

This stream applies only to students who are taking MSc Social Research Methods as part of a 1+3 PhD programme, in conjunction with the

MPhil/PhD Demography (Social/Formal). Other students can select these courses as standard unlisted optional courses under Paper 6 (where this is allowed by the host department of the course, and subject the approval of your Academic Mentor and the MSc Social Research Methods Programme Director).

One compulsory half-unit:

DV456 Population, Health and Development: Evidence and Projections (0.5) #

And courses to the value of 0.5 units from the following:

DV411	Population and Development: an Analytical Approach (0.5) (not available 2022/23)
DV444	Global Health Challenges: Epidemics, Disease, and Public Health Response (0.5) # (not available 2022/23)
DV457	Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation (0.5)
DV461	Critical Population Health Issues in High and Middle-Income Countries (0.5) # (not available 2022/23)
DV476	Population Analysis: Methods and Models (0.5) #
GI415	Gender and European Welfare States (0.5)
GI417	Feminist Population Politics (0.5)

**Prerequisite Requirements and Mutually Exclusive Options**

\* means available with permission

1: MY452L can not be taken with MY452M

2: MY452M can not be taken with MY452L

3: MY421L can not be taken with MY421M

4: MY421M can not be taken with MY421L

A: The Dissertation is due in August.

B: Students may only register for one MY47\* course as part of the MSc Social Research Methods degree.

# means there may be prerequisites for this course. Please view the course guide for more information.

**Footnotes**

**MSc in Sociology**

**Programme Code:** TMSO

**Department:** Sociology

For students starting this programme of study in 2022/23 Full-year programme. Students must take courses to the value of three units and write a dissertation as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	SO491 Quantitative Social Research Methods (0.5) <b>or</b>
	SO492 Qualitative Social Research Methods (0.5)
Papers 2 & 3	Courses to the value of 2.5 unit(s) from the following:
	SO407 Politics and Society (1.0)
	SO426 Classical Social Thought (0.5) (not available 2022/23)
	SO427 Modern Social Thought (0.5)
	SO430 Economic Sociology (0.5)
	SO451 Cities by Design (0.5)
	SO454 Families and Inequalities (0.5)
	SO457 Political Reconciliation (0.5)

	SO458	Gender and Societies (0.5)
	SO468	International Migration and Migrant Integration (0.5)
	SO470	The Sociology of Markets (0.5)
	SO471	Technology, Power and Culture (0.5)
	SO473	Crime, Control and the City (0.5)
	SO475	Material Culture and Design (0.5) (not available 2022/23)
	SO477	Urban Social Theory (0.5) (not available 2022/23)
	SO481	Class, Politics and Culture (0.5)
	SO489	Family and International Migration (0.5)
	SO490	Contemporary Social Thought (0.5) (not available 2022/23)
	SO491	Quantitative Social Research Methods (0.5)
	SO492	Qualitative Social Research Methods (0.5)
	SO4B6	Nature and Technology: More than Human Sociology (0.5) (not available 2022/23)
	SO4B9	The Sociology of Consumption (0.5)
	SO4C1	Fascism, Authoritarianism, Populism (0.5)
	SO4C4	Global Mobilities: International Migration (0.5)
	SO4C5	The Social Life of Infrastructure (0.5)
Paper 4	SO499	MSc in Sociology Dissertation (1.0)

## MSc in Statistics

**Programme Code:** TMST

**Department:** Statistics

For students starting this programme of study in 2022/23 Academic-year programme. Students must take courses to the value of four full units.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	ST425 Statistical Inference: Principles, Methods and Computation (1.0) #
Papers 2 & 3	Courses to the value of 2.0 unit(s) from the following:
	ST405 Multivariate Methods (0.5) #
	ST409 Stochastic Processes (0.5) #
	ST411 Generalised Linear Modelling and Survival Analysis (0.5) #
	ST416 Multilevel Modelling (0.5) #
	ST418 Non-Linear Dynamics and the Analysis of Real Time Series (0.5) # (not available 2022/23)
	ST422 Time Series (0.5) #
	ST433 Computational Methods in Finance and Insurance (0.5) #
	ST442 Longitudinal Data Analysis (0.5) # (not available 2022/23)
	ST443 Machine Learning and Data Mining (0.5) #*
	ST444 Computational Data Science (0.5) #*
	ST445 Managing and Visualising Data (0.5) #*
	ST446 Distributed Computing for Big Data (0.5) #*
	ST449 Artificial Intelligence (0.5) *
	ST451 Bayesian Machine Learning (0.5) #*
	ST454 Applied spatio-temporal analysis (0.5) #
	ST455 Reinforcement Learning (0.5) #*
	ST456 Deep Learning (0.5) #*
	ST457 Graph Data Analytics and Representation Learning (0.5) #

	MY459	Quantitative Text Analysis (0.5) #
	MY461	Social Network Analysis (0.5)
Paper 4		Courses to the value of 1.0 unit from the following:
	ST405	Multivariate Methods (0.5) #
	ST409	Stochastic Processes (0.5) #
	ST411	Generalised Linear Modelling and Survival Analysis (0.5) #
	ST416	Multilevel Modelling (0.5) #
	ST418	Non-Linear Dynamics and the Analysis of Real Time Series (0.5) # (not available 2022/23)
	ST422	Time Series (0.5) #
	ST426	Applied Stochastic Processes (0.5)
	ST433	Computational Methods in Finance and Insurance (0.5) #
	ST442	Longitudinal Data Analysis (0.5) # (not available 2022/23)
	ST443	Machine Learning and Data Mining (0.5) #*
	ST444	Computational Data Science (0.5) #*
	ST445	Managing and Visualising Data (0.5) #*
	ST446	Distributed Computing for Big Data (0.5) #*
	ST449	Artificial Intelligence (0.5) *
	ST451	Bayesian Machine Learning (0.5) #*
	ST454	Applied spatio-temporal analysis (0.5) #
	ST455	Reinforcement Learning (0.5) #*
	ST456	Deep Learning (0.5) #*
	ST457	Graph Data Analytics and Representation Learning (0.5) #
	DV476	Population Analysis: Methods and Models (0.5) #
	MA407	Algorithms and Computation (0.5) #
	MA427	Mathematical Optimisation (0.5) #
	MY456	Survey Methodology (0.5) #
	MY457	Causal Inference for Observational and Experimental Studies (0.5) #
	MY459	Quantitative Text Analysis (0.5) #
	MY461	Social Network Analysis (0.5)
		Other courses may be taken with permission, except for: ST429, ST436, ST440, MA415, MA416, MA420 and any courses indexed FM.
		Students can take up to a maximum of 1.0 unit from the following courses: ST443, ST444, ST445, ST446, ST449, ST455, ST456.

### Prerequisite Requirements and Mutually Exclusive Options

\* means available with permission

# means there may be prerequisites for this course. Please view the course guide for more information.

The total value of all non-ST courses should not exceed one unit.

This programme is externally accredited by the RSS. Further information is available on the Department of Statistics website. [lse.ac.uk/collections/statistics](http://lse.ac.uk/collections/statistics)

The Bologna Process [lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm](http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm) facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

## MSc in Statistics (Financial Statistics)

**Programme Code:** TMSTFS

**Department:** Statistics

For students starting this programme of study in 2022/23 Academic-year programme. Students take three compulsory courses (two units) and options to the value of two units.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)

## MSc in Statistics (Social Statistics)

**Programme Code:** TMSTSS

**Department:** Statistics

For students starting this programme of study in 2022/23 Academic-year programme. Students must take two compulsory courses and options to the value of 2.5 units as shown below.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	ST425 Statistical Inference: Principles, Methods and Computation (1.0) #
Paper 2	ST411 Generalised Linear Modelling and Survival Analysis (0.5) #

### And

Courses to the value of 0.5 unit(s) from the following:

ST405	Multivariate Methods (0.5) #
ST416	Multilevel Modelling (0.5) #
ST442	Longitudinal Data Analysis (0.5) # (not available 2022/23)

Paper 3	Courses to the value of 1.0 unit(s) from the following:
	ST405 Multivariate Methods (0.5) #
	ST416 Multilevel Modelling (0.5) #
	ST442 Longitudinal Data Analysis (0.5) # (not available 2022/23)
	ST443 Machine Learning and Data Mining (0.5) #
	ST444 Computational Data Science (0.5) #
	ST445 Managing and Visualising Data (0.5) #
	ST446 Distributed Computing for Big Data (0.5) #
	ST449 Artificial Intelligence (0.5)
	ST451 Bayesian Machine Learning (0.5) #
	ST454 Applied spatio-temporal analysis (0.5) #
	ST455 Reinforcement Learning (0.5) #
	ST456 Deep Learning (0.5) #
	ST457 Graph Data Analytics and Representation Learning (0.5) #

	MY459 Quantitative Text Analysis (0.5) #
	MY461 Social Network Analysis (0.5)
Paper 4	Courses to the value of 1.0 unit(s) from the following:
	ST405 Multivariate Methods (0.5) #
	ST416 Multilevel Modelling (0.5) #
	ST442 Longitudinal Data Analysis (0.5) # (not available 2022/23)
	ST454 Applied spatio-temporal analysis (0.5) #
	DV476 Population Analysis: Methods and Models (0.5) #
	GY460 Techniques of Spatial Economic Analysis (0.5) #
	MA427 Mathematical Optimisation (0.5) #
	MY456 Survey Methodology (0.5) #
	MY457 Causal Inference for Observational and Experimental Studies (0.5) #
	MY459 Quantitative Text Analysis (0.5) #

MY461 Social Network Analysis (0.5)  
Other courses may be taken with permission, except for: ST429, ST433, ST436, ST439, ST440, MA415, MA416, MA420 and any courses indexed FM.

# means there may be prerequisites for this course. Please view the course guide for more information.

The total value of all non-ST courses should not exceed one unit.

The Bologna Process [lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm](http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm) facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

## MSc in Statistics (Social Statistics) (Research)

**Programme Code:** TMSTSSRE

**Department:** Statistics

For students starting this programme of study in 2022/23 Full-year programme. Students must take two compulsory courses, options to the value of 1.5 units and a dissertation as shown below.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	ST425 Statistical Inference: Principles, Methods and Computation (1.0) #
Paper 2	ST411 Generalised Linear Modelling and Survival Analysis (0.5) #
Paper 3	Courses to the value of 0.5 unit(s) from the following:
	ST405 Multivariate Methods (0.5) #
	ST416 Multilevel Modelling (0.5) #
	ST442 Longitudinal Data Analysis (0.5) # (not available 2022/23)
Paper 4	Courses to the value of 1.0 unit(s) from the following:
	ST405 Multivariate Methods (0.5) #
	ST416 Multilevel Modelling (0.5) #
	ST442 Longitudinal Data Analysis (0.5) # (not available 2022/23)
	ST443 Machine Learning and Data Mining (0.5) #
	ST444 Computational Data Science (0.5) #
	ST445 Managing and Visualising Data (0.5) #
	ST446 Distributed Computing for Big Data (0.5) #
	ST449 Artificial Intelligence (0.5)
	ST451 Bayesian Machine Learning (0.5) #
	ST454 Applied spatio-temporal analysis (0.5) #
	ST455 Reinforcement Learning (0.5) #
	ST456 Deep Learning (0.5) #
	ST457 Graph Data Analytics and Representation Learning (0.5) #
	DV476 Population Analysis: Methods and Models (0.5) #
	GY460 Techniques of Spatial Economic Analysis (0.5) #
	MA427 Mathematical Optimisation (0.5) #

- MY456 Survey Methodology (0.5) #
- MY457 Causal Inference for Observational and Experimental Studies (0.5) #
- MY459 Quantitative Text Analysis (0.5) #
- MY461 Social Network Analysis (0.5)

Other courses may be taken with permission, except for: ST429, ST433, ST436, ST439, ST440, MA415, MA416, MA420 and any courses indexed FM.

Paper 5

ST499 Dissertation (1.0)

# means there may be prerequisites for this course. Please view the course guide for more information.

The total value of all non-ST courses should not exceed one unit.

## MSc in Strategic Communications

**Programme Code:** TMSTRCOM

**Department:** Media and Communications

For students starting this programme of study in 2022/23

Full-year programme. Students must take three compulsory courses, courses to the value of 1.5 units and a dissertation as shown below.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	MC408 Theories and Concepts in Media and Communications (0.5)
	<b>And</b> one of the following 0.5 unit courses:
	MC4M1 Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (0.5) <b>or</b>
	MC4M7 Methods of Research in Media & Communications (including Qualitative Analysis & Applied Regression Analysis) (0.5) A
Paper 2	MC431 Critical Approaches to Strategic Communications (0.5)
Paper 3	Courses to the value of 1.5 unit(s) from the following:
	MC402 The Audience in Media and Communications (0.5)
	MC425 Interpersonal Mediated Communication (0.5)
	MC429 Humanitarian Communication: Vulnerability, Discourse and Power (0.5)
	MC432 Strategic Communication in Practice: Professional Perspectives (0.5)
	MC434 Digital Platforms and Media Infrastructures (0.5) #
	MC436 Mediating the Past (0.5)
	MC437 Media, Data and Social Order (0.5) #
	MG479 Information Systems for the Public Sector: Digital Government and Service Innovation (0.5)
	MG4B3 International Marketing: A Strategic Approach (0.5)
	MG4F2 Marketing Analytics II: Analytics for Managing Innovations, Products and Brands (0.5)
	MG4F3 Digital Marketing (0.5) #
	PB418 Corporate Communications (0.5)
	PB427 Organisational and Social Decision Making (0.5) (not available 2022/23)
	Any other course which is offered in the School at master's level, subject to the consent of the candidate's programme director.

Paper 4

MC499 Dissertation: Media and Communications (1.0)

### Footnotes

A: MY452 is an advanced Applied Regression Analysis course offered by the Department of Methodology and must be taken by students who select MC4M7. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject to timetabling constraints.

# means there may be prerequisites for this course. Please view the course guide for more information.

**Note:** Students can take no more than one full unit of courses from outside the Department of Media and Communications (non MC-prefixed courses).

### Note for prospective students:

or changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in Theory and History of International Relations

**Programme Code:** TMTHHYIR2

**Department:** International History

For students starting this programme of study in 2022/23

Full-year programme. Students must take courses to the value of four units, including a dissertation as shown.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)
Paper 1	Courses to the value of 1.0 unit(s) from the following:
	HY400 Crisis Decision-Making in War and Peace 1914-2003 (1.0) #
	HY422 Presidents, Public Opinion, and Foreign Policy, from Roosevelt to Reagan, 1933-89 (1.0)
	HY429 Anglo-American Relations from World War to Cold War, 1939-91 (1.0)
	HY435 Political Islam: From Ibn Taymiyya to ISIS (1.0)
	HY436 Race, Violence and Colonial Rule in Africa (1.0) (not available 2022/23)
Paper 2	Courses to the value of 1.0 unit(s) from the following:
	IR411 Foreign Policy Analysis III (1.0) #
	IR412 International Institutions (1.0)
	IR416 The EU in the World (1.0) # (not available 2022/23)
	IR418 International Politics: Asia & the Pacific (1.0) (not available 2022/23)
	IR419 International Relations of the Middle East (1.0) #
	IR422 Conflict and Peacebuilding (1.0) #
	IR462 International Political Theory (0.5) (not available 2022/23)

## MSc in Urbanisation and Development

**Programme Code:** TMURDV

**Department:** Geography & Environment

For students starting this programme of study in 2022/23

Full-year programme. Students must take courses to the value of four full units.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper	Course number, title (unit value)	course. Please view the course guide for more information.
Paper 1	GY452 Urban Research Methods (0.5) <b>and</b> GY459 Urban Theory and Policy in the Global South (0.5)	
Paper 2	<p>Courses to the value of between 0.5 unit(s) (minimum) and 1.0 unit(s) (maximum) from the following:</p> <p>DV400 Development: History, Theory and Policy (1.0) #</p> <p>DV407 Poverty (0.5) A</p> <p>DV411 Population and Development: an Analytical Approach (0.5) (not available 2022/23)</p> <p>DV418 African Development (0.5)</p> <p>DV420 Complex Emergencies (0.5)</p> <p>DV421 Critical Perspectives on Global Health and Development (0.5) B</p> <p>DV433 The Informal Economy and Development (0.5) (not available 2022/23)</p> <p>DV442 Key Issues in Development Studies (0.5)</p> <p>DV456 Population, Health and Development: Evidence and Projections (0.5) #</p> <p>DV458 Key issues in Global Health and Development (0.5)</p> <p>DV464 Democracy and Development (0.5)</p> <p>DV465 Global Health Work: Expertise and Labour (0.5)</p> <p>In exceptional cases it may be possible to make alternative choices for Paper 2 with the approval of the Programme Director.</p>	
Paper 3	<p>Courses up to the value of 1.0 unit (or 1.5 units if only choosing a half unit from Paper 2) from the following:</p> <p>GY400 The Economics of Urbanisation (0.5) #</p> <p>GY431 Cities, People and Poverty in the South (0.5) #</p> <p>GY432 Urban Ethnography (0.5) (not available 2022/23)</p> <p>GY438 Urban Asia: Cities and Social Change (0.5)</p> <p>GY439 Cities, Politics and Citizenship (0.5)</p> <p>GY441 The Politics of Housing (0.5) (not available 2022/23)</p> <p>GY446 Planning for Sustainable Cities (0.5)</p> <p>GY449 Urban Futures (0.5) #</p> <p>GY455 Economic Appraisal and Valuation (0.5)</p> <p>GY470 Urban Africa (0.5)</p> <p>GY474 Politics of Environment and Development (0.5)</p> <p>GY476 Applied Geographical Information Systems (0.5)</p> <p>GY477 Race and Capitalism in North America (0.5)</p> <p>GY479 Urban Transformations (0.5) (not available 2022/23)</p> <p>GY480 Remaking China: Geographical aspects of Development and Disparity (0.5) (not available 2022/23)</p> <p>SO480 Urban Inequalities (0.5)</p> <p>Other urban and/or development courses available in the School as approved by the programme director.</p>	
Paper 4	GY488 Dissertation - MSc Urbanisation and Development (1.0) C	
<b>Footnotes</b>	<p>A: Capped course with priority for International Development students so admission not guaranteed.</p> <p>B: Capped course with priority for International Development students so admission not guaranteed.</p> <p>C: On an approved topic.</p> <p># means there may be prerequisites for this</p>	

# **Executive Taught Master's Programme Regulations**

**Key to Taught Master's Regulations**  
**(H) means a half-unit course**  
**(C) means this course is capped**  
**(n/a 22/23) means not available in the 2022/23 academic year**  
**(MT) means Michaelmas Term**  
**(LT) means Lent Term**  
**(ST) means Summer Term**

## Executive MSc in Behavioural Science

**Programme Code:** TMBSEX

**Department:** Psychological and Behavioural Science

For students starting this programme of study in 2022/23

16 month, part-time modular programme consisting of three full units of taught courses and one full unit dissertation. Students take four compulsory half unit courses to the value of two units, and two optional half unit courses to the value of one unit. Alternative exit points are available to students who are not able to complete the degree. An LSE Diploma is available on the completion of six taught courses and an LSE Certificate on the completion of four taught courses - please see the footnote at the bottom of this regulation for more information.

**Paper**      **Course number, title (unit value)**

### Year 1

#### September 2021

Paper 1      PB450E      Behavioural Science and Policy (0.5)  
 Paper 2      MG406E      Behavioural Decision Science (0.5)

#### January 2022

Paper 3      PB471E      Research Methods for Behavioural Science (0.5)  
 Paper 4      One of the following courses:  
                  PB453E      Corporate Behaviour and Decision Making (0.5) **or**  
                  PB454E      Policy Appraisal and Ethics (0.5)

#### April 2022

Paper 5      PB413E      Frontiers in Behavioural Science Methods (0.5)  
 Paper 6      One of the following courses:  
                  PB434E      Behavioural Science in an Age of New Technology (0.5) **or**  
                  PB457E      Organisational Culture (0.5) #

### Year 2

Paper 7      PB451E      Dissertation in Behavioural Science (1.0)  
 # means there may be prerequisites for this course. Please view the course guide for more information.

#### Exit options

The following alternative exit points are available to students who are not eligible for the award of a Degree as outlined below:

A) As a result of academic failure after fully completing the programme as set out in the programme regulations above; or  
 B) As a result of being unable to complete the programme as a result of unforeseen circumstances. Students must notify the Department that they are unable to continue as Absent marks could result in the student being ineligible for an exit award. In either case, students will be eligible for one of the exit awards listed below provided they meet the designated criteria as follows:

#### Diploma:

This Diploma is classified according to the Scheme for the Award of a Diploma <https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeDiploma.pdf>, as a 3 unit programme subject to the following provisions. Students eligible for the award of a Diploma will have

registered on the Executive MSc Behavioural Science programme and have successfully completed courses to the value of 3.0 full units (three teaching sessions). Results from each of the three units (or equivalent where half unit courses have been taken) count towards the Diploma classification. Students must achieve a mark of 50 or higher in each of the three courses (or equivalent where half unit courses have been taken) to achieve an overall Pass in the Diploma.

#### Certificate:

Students wishing to earn a Certificate will have registered on the Executive MSc Behavioural Science programme and have successfully completed courses to the value of 2.0 full units (two teaching sessions). The certificate is classified on a Pass/Fail basis only. A Pass mark of 50 needs to be achieved in each of the two units (or equivalent where half unit courses have been taken) for students to be eligible for the award of the Certificate. Higher marks in one course cannot compensate a Fail mark in another course.

#### Resits for the award of the degree

A student shall normally be entitled to re-sit any failed courses on one occasion only.

The results for the taught courses and dissertation will be ratified by the Sub-Board of Examiners and Graduate School Board of Examiners in February/March the year following dissertation submission. Once grades have been ratified by the Sub-Board of Examiners and it is determined that an award cannot be made due to a fail in a taught course, the faculty member responsible for the failed course will set the new assessment and deadline for re-submission to take place as soon as possible. Results for resits and subsequent classification will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set and does not have permission to defer <https://info.lse.ac.uk/current-students/services/assessment-and-results/exceptional-circumstances/deferral> the attempt, they will be deemed to have failed the course. Provided that students submit by the deadline and pass, they will graduate with their cohort subject to the normal classification rules.

#### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](https://info.lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](https://info.lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## Executive MSc in Cities

**Programme Code:** TMCIEX

**Department:** School of Public Policy

For students starting this programme of study in 2022/23 18 month programme. Students must take four compulsory half-unit courses, one optional full-unit course and an Urban Consultancy Project.

Paper	Course number, title (unit value)
<b>Year 1</b>	
Paper 1	PP4A1E Cities in an Urban Age: Challenges and Opportunities (0.5) <b>and</b> PP4A2E Cities and Society: Design and Social Cohesion (0.5)
Paper 2	PP4A3E Cities and the Environment: Urban Environmental Transitions (0.5)
<b>and</b>	
Paper 3	PP4A4E Cities and the Economy: Urban Economic Development and Finance (0.5)
<b>Either</b>	
Paper 3	PP4A5E Urban Infrastructure and Strategic Planning (1.0) <b>or</b>
Paper 3	PP4A6E Urban Development and Master Planning (1.0)
<b>Year 2</b>	
Paper 4	PP4A7E Urban Consultancy Project (1.0) A
<b>Footnotes</b> A: To progress to the Urban Consultancy Project, students will need to have passed any two of the four half unit compulsory courses.	

**Exit options****Diploma:**

Students may be eligible for the award of a Diploma if, as a result of exceptional and unforeseen circumstances, they must leave the programme early or once they have completed the programme if they are not eligible for the award of the degree after either completing all their first attempts or all second attempts at all courses.

Students in this position must achieve passing grades (50 and above) in courses to the value of at least 3.0 units to be eligible for the award of Diploma. The Diploma is classified according to the Scheme for the Award of a Diploma. The Diploma is a final exit award with no option to be subsequently awarded the degree of Executive MSc in Cities.

**Certificate:**

Students may be eligible for the award of a Certificate if, as a result of exceptional and unforeseen circumstances, they must leave the programme early or once they have completed the programme if they are not eligible for the award of the degree after either completing all their first attempts or all second attempts at all courses.

Students in this position must have achieved passing grades (50 and above) in courses to the value of at least 2.0 units to be eligible for the award of Certificate. The Certificate is classified on a Pass/Fail basis only. Higher marks in one course cannot compensate a Fail mark in another course. The award of a Certificate or Diploma is subject to the application of the General Academic Regulations and the Certificate/Diploma regulations and classification schemes. The Certificate is a final exit award with no option to be subsequently awarded the degree of Executive MSc in Cities.

**Note for prospective students:**

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). ## Executive MSc in Evaluation of Health Care Interventions and Outcomes, in collaboration with NICE

**Programme Code:** TMHECPNEX

**Department:** Health Policy

For students starting this programme of study in 2022/23

**(This programme is not available in 2022/23)**

This is a two-year part-time modular programme in collaboration

with the National Institute for Health and Care Excellence (NICE).

**Students must take all eight half unit courses from the following:**

Modules are staged in a progressive manner, that is, from introductory courses to general and then more specific and technical modules.

**Paper Course number, title (unit value)**

Paper 1 HP4F1E Impact Evaluation in Healthcare (0.5)

Paper 2 HP4G4E Systematic Review and Meta-analysis (0.5)

Paper 3 HP4G3E Economic Modelling for Health Care Decision Making (0.5)

Paper 4 HP4F2E Quasi-Experimental Evaluation of Healthcare Programs and Policies (0.5)

Paper 5 HP4F4E Dissertation in Evaluation of Healthcare Interventions and Outcomes (0.5)

Paper 6 HP4F3E Randomised Evaluation of Health Programmes and Policies (0.5)

Paper 7 HP4G1E Statistical Methods in Health Care Economic Evaluation (0.5)

Paper 8 HP4G2E Principles of Health Technology Assessment (0.5)

**Notes:**

In order to progress to year two of the programme students must pass at least one of the half units HP4F1E and HP4G4E. Where a student fails both of these courses they cannot progress until they have resubmitted and passed the work. Students are permitted one attempt to resubmit any failed work at the next appropriate opportunity which is normally during the equivalent assessment period during the next academic year. Where a student is required to resubmit any assessment, their overall LSE degree will be capped at a Pass.

The MSc is a 24-month executive modular part-time degree programme. It features four intensive two-week on-campus teaching sessions, delivering eight 0.5 unit compulsory core courses. Assessment for each taught course will take place after the relevant teaching session, and consist of a combination of essays, take-home assessments, research projects and protocols.

All marks count towards degree classification. It may be a requirement to achieve Pass marks in some courses in order to be eligible for the award of the degree. Please consult with the Department until further details have been published.

Alternative exit options will be provided for students who cannot complete the MSc due to unforeseen circumstances.

An LSE Diploma is available following successful completion of 3.0 full units across six taught courses. Results from each 0.5 unit modules count toward the Diploma classification. Students must satisfy the conditions set out in the Scheme for the Award of a Diploma <https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeDiploma.pdf> in order to be eligible for the award of a Diploma.

Students eligible for an LSE Certificate will have been registered on the programme and then cease studies following the completion of 2.0 full units across four taught courses over three teaching sessions. Students must achieve a mark of 50 or higher in each of these four courses in order to be eligible for the award of an LSE Certificate. LSE Certificate is classified on a Pass / Fail basis only.

**This programme has been retitled to Executive MSc in Healthcare Decision-Making, in collaboration with NICE for 2023/24. Last year of entry 2022/23.**

four courses in order to be eligible for the award of an LSE Certificate. LSE Certificate is classified on a Pass / Fail basis only.

## MSc in Finance (part-time)

**Programme Code:** TMFI

**Department:** Finance

For students starting this programme of study in 2022/23

Academic year programme lasting 21 months part-time

(evenings). Students must take two full unit compulsory courses in the first year and four of the half-unit options available in the second year. They must submit a dissertation in one of the optional half-unit courses and take an examination in the other three half-unit courses.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Paper Course number, title (unit value)**

**Year 1**

Paper 1 FM422E Corporate Finance (1.0) #

Paper 2 FM423E Asset Markets (1.0) #

**Year 2**

Papers 3 & 4 Courses to the value of 2.0 units from List 1 below:

**List 1 - Courses assessed by Exam or Coursework**

Dedicated list of options:

FM405E Fixed Income Securities and Credit Markets (0.5) #

FM406E Topics in Portfolio Management (0.5) #

FM407E Mergers, Buyouts and Corporate Restructurings (0.5) #

FM408E Financial Engineering (0.5) #

FM409E Risk Management in Financial Markets (0.5) #

FM414E Private Equity, Venture Capital and Entrepreneurial Finance (0.5) #

Other option:

FM412 Quantitative Security Analysis (0.5) #

FM471 Sustainable Finance and Impact Investing (0.5) #A

FM476 Entrepreneurial Finance (0.5) #B

FM477 International Finance A (0.5) #

**Footnotes**

A: Dissertations cannot be written on FM471.

B: Dissertations cannot be written on FM476.

# means there may be prerequisites for this course.

Please view the course guide for more information.

FM412, FM471, FM476, and FM477 are taught during the daytime only. To take this course, students must be able to attend teaching during the day.

**Supplementary criteria for progression from the first to the second year of the MSc Finance (part-time)**

To be eligible to proceed into the second year, candidates must attain at least a Pass grade in the two compulsory courses: FM422E and FM423E.

If a candidate fails (but does not 'Bad Fail') one compulsory course, the Board may exceptionally allow progression to the second year. Exceptional progression will be at the sole discretion of the Board. If a candidate fails both of these compulsory courses they will not be allowed to progress to year two. If a candidate has a 'Bad Fail' in one or both courses they will not be allowed to progress to year two.

A student shall normally be entitled to re-sit any failed courses only (on one occasion) and at the next normal opportunity according to the General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf>.

The School may consider an application for repeat tuition in any failed courses from a student. Results obtained at re-sit shall bear their normal value.

## Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences

**Programme Code:** TMHECSEX2

**Department:** Health Policy

For students starting this programme of study in 2022/23

**(This programme is not available in 2022/23)**

24 month modular programme. Students take five compulsory half unit courses and options to the value of 1.5 units.

**Paper Course number, title (unit value)**

### Year 1

Paper 1 HP4C1E Economic Analysis for Health Policy (0.5)

Paper 2 HP4C2E Quality and Outcomes in Cardiovascular Sciences (0.5)

Paper 3 HP4C3E Economic Evaluation in Health Care (0.5)

Paper 4 HP4D7E Fundamentals of Management and Leadership in Health Care (0.5)

### Year 2

Paper 5 HP4C5E Using Health Economics to Analyse and Inform Policy and Practice (0.5)

Paper 6 Courses to the value of 1.5 unit(s) from the following:

HP4A1E Financing Health Care (0.5)

HP4A2E Health Administration and Management (0.5)

HP4B3E Measuring Health System Performance (0.5)

HP4B5E Statistical Methods in Health Care Economic Evaluation (0.5)

HP4B7E Advanced Health Economics (0.5)

HP4C4E Systematic Review and Meta-analysis (0.5)

HP4D2E Principles of Health Technology Assessment (0.5)

HP4D5E Research Design for Evaluating Health Programs and Policies (0.5)

HP4D6E Behavioural Insights for Health Incentive Design (0.5)

#### Classification:

For students starting *in or after* the 2018/19 academic year:

Students will take a total of four units of courses. All four units will count towards the calculation of the overall award according to the conditions set out in the Classification Scheme listed above.

#### Progression:

Students wishing to defer sitting one or more examinations must seek permission according to the General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf>. Students must normally pass a minimum of three out of the four compulsory half units in Year One to be able to proceed to Year Two. The Sub-Board Chair/Programme Director has the discretion to consider progression where a student only passes two out of the four compulsory half unit courses. Students are permitted to re-sit failed exams in line with the School's General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf>.

#### Diploma:

This Diploma is classified according to the Scheme

for the Award of a Diploma <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeDiploma.pdf>. Students may be eligible for the award of a Diploma if, as a result of exceptional and unforeseen circumstances, they must leave the MSc programme after completing the four compulsory half units in Year One and two half units in Year Two. All courses count towards the degree classification. A Pass mark of 50 must be achieved in all courses for students to achieve an overall Pass in the Diploma. Students wishing to defer sitting one or more examinations must seek permission according to the Regulations for Diplomas <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForDiplomas.pdf>. Students are permitted to re-sit failed exams in line with the School's Regulations for Diplomas <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForDiplomas.pdf>.

#### Certificate:

Students may be eligible for the award of a Certificate if, as a result of exceptional and unforeseen circumstances, they must leave the MSc programme after completing the four compulsory half units in Year One. The Certificate is classified on a Pass/Fail basis only. A Pass mark of 50 needs to be achieved in all courses for students to be eligible for the award of the Certificate. Higher marks in one course cannot compensate a Fail mark in another course. Students wishing to defer sitting one or more examinations must seek permission according to the Regulations for Certificates <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForCertificates.pdf>. Students are permitted to re-sit failed exams in line with the School's Regulations for Certificates <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForCertificates.pdf>.

**This programme has been retitled to Executive MSc in Health Economics, Outcomes and Management in Clinical Sciences for 2023/24. Last year of entry 2022/23.**

## Executive MSc in Health Economics, Outcomes and Management in Cardiovascular Sciences

**Programme Code:** TMHECSEX2

**Department:** Health Policy

For students starting this programme of study in 2021/22 24 month modular programme. Students take five compulsory half unit courses and options to the value of 1.5 units.

**Paper Course number, title (unit value)**

#### Year 1

Paper 1	HP4C1E	Economic Analysis for Health Policy (0.5)
Paper 2	HP4C2E	Quality and Outcomes in Cardiovascular Sciences (0.5)
Paper 3	HP4C3E	Economic Evaluation in Health Care (0.5)
Paper 4	HP4C4E	Systematic Review and Meta-analysis (0.5)

#### Year 2

Paper 5	HP4C5E	Using Health Economics to Analyse and Inform Policy and Practice (0.5)
Paper 6		Courses to the value of 1.5 unit(s) from the following:

HP4A1E	Financing Health Care (0.5)
HP4A2E	Health Administration and Management (0.5)
HP4B3E	Measuring Health System Performance (0.5)
HP4B4E	Principles of Evidence-Based Medicine and Clinical Trials (0.5)
HP4B5E	Statistical Methods in Health Care Economic Evaluation (0.5)
HP4B7E	Advanced Health Economics (0.5)

Design (0.5)

**Classification**

Eight marks count towards classification: the four compulsory courses in Year One, the dissertation, and the best three marks from the optional courses in Year Two. The lowest mark of the optional courses (listed at Paper 6 in the programme Regulations) will automatically be excluded from the marks that will count towards the degree classification. Any failed or Bad Failed courses that count towards classification will be treated in accordance with paragraph 3.1 of the Classification Scheme above. A degree cannot be awarded where a candidate receives a Bad Fail mark in any course.

**Progression:**

Students wishing to defer sitting one or more examinations must seek permission according to the General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf>. Students must normally pass a minimum of three out of the four compulsory half units in Year One to be able to proceed to Year Two. The Sub-Board Chair/Programme Director has the discretion to consider progression where a student only passes two out of the four compulsory half unit courses. Students are permitted to re-sit failed exams in line with the School's General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf>.

**Diploma:**

Students who cannot complete the MSc in Health Economics, Policy and Management due to unforeseen circumstances may be eligible for a Diploma. This Diploma is classified according to the Scheme for the Award of a Diploma <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeDiploma.pdf>. Students may be eligible for the award of a Diploma if they leave the programme after completing the four compulsory half units in Year One and two half units in Year Two. All courses count towards the Diploma classification. A Pass mark of 50 must be achieved in all courses for students to achieve an overall Pass in the Diploma. Students wishing to defer attempting one or more assessments must seek permission according to the General Academic Regulations. Students are permitted to repeat failed assessments in line with the School's General Academic Regulations and Regulations for Diplomas <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForDiplomas.pdf>.

**Certificate:**

Students who cannot complete the MSc in Health Economics, Policy and Management due to unforeseen circumstances, and who are not eligible for a Diploma, may be eligible for a Certificate. Students may be eligible for the award of a Diploma if they leave the programme after completing the four compulsory half units in Year One. The certificate is classified on a Pass/Fail basis only. A Pass mark of 50 needs to be achieved in all courses for students to be eligible for the award of the certificate. Higher marks in one course cannot compensate a Fail mark in

## Executive MSc in Health Economics, Policy and Management

**Programme Code:** TMHEPMEX

**Department:** Health Policy

For students starting this programme of study in 2022/23

Students take four compulsory half unit courses, options to the value of two units, and a dissertation.

**Paper Course number, title (unit value)**

**Year 1**

Paper 1	HP4A1E	Financing Health Care (0.5)
Paper 2	HP4A4E	Health Economics (0.5)
Paper 3	HP4D1E	Introduction to Management in Health Care (0.5)
Paper 4	HP4A3E	Resource Allocation and Cost-effectiveness Analysis (0.5)

**Year 2**

Paper 5	HP4B9E	Dissertation in Health Economics, Policy and Management (0.5)
Paper 6	Courses to the value of 2.0 unit(s) from the following:	
	HP4A2E	Health Administration and Management (0.5)
	HP4B1E	Pharmaceutical Economics and Policy (0.5)
	HP4B2E	Health Care Quality Management (0.5)
	HP4B3E	Measuring Health System Performance (0.5)
	HP4B4E	Principles of Evidence-Based Medicine and Clinical Trials (0.5)
	HP4B5E	Statistical Methods in Health Care Economic Evaluation (0.5)
	HP4B7E	Advanced Health Economics (0.5)
	HP4C4E	Systematic Review and Meta-analysis (0.5)
	HP4D2E	Principles of Health Technology Assessment (0.5)
	HP4D5E	Research Design for Evaluating Health Programs and Policies (0.5)
	HP4D6E	Behavioural Insights for Health Incentive

another course. Students wishing to defer attempting one or more assessments must seek permission according to the General Academic Regulations. Students are permitted to repeat failed exams in line with the School's General Academic Regulations and Regulations for Certificates <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForCertificates.pdf>.

**Note for prospective students:**

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](https://info.lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](https://info.lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## Executive MSc in Health Economics, Policy and Management

**Programme Code:** TMHEPMEX

**Department:** Health Policy

For students starting this programme of study in 2021/22 Students take four compulsory half unit courses, options to the value of two units, and a dissertation.

**Paper Course number, title (unit value)**

**Year 1**

Paper 1	HP4A1E	Financing Health Care (0.5)
Paper 2	HP4A4E	Health Economics (0.5)
Paper 3	HP4D1E	Introduction to Management in Health Care (0.5) (withdrawn 2022/23)
Paper 4	HP4A3E	Resource Allocation and Cost-effectiveness Analysis (0.5)

**Year 2**

Paper 5	HP4B9E	Dissertation in Health Economics, Policy and Management (0.5)
Paper 6	Courses to the value of 2.0 unit(s) from the following:	
	HP4A2E	Health Administration and Management (0.5)
	HP4B1E	Pharmaceutical Economics and Policy (0.5)
	HP4B2E	Health Care Quality Management (0.5)
	HP4B3E	Measuring Health System Performance (0.5)
	HP4B4E	Principles of Evidence-Based Medicine and Clinical Trials (0.5)
	HP4B5E	Statistical Methods in Health Care Economic Evaluation (0.5)
	HP4B7E	Advanced Health Economics (0.5)
	HP4C4E	Systematic Review and Meta-analysis (0.5)
	HP4D2E	Principles of Health Technology Assessment (0.5)
	HP4D6E	Behavioural Insights for Health Incentive Design (0.5)

**Classification**

Eight marks count towards classification: the four compulsory courses in Year One, the dissertation, and the best three marks from the optional courses in Year Two. The lowest mark of the optional courses (listed at Paper 6 in the programme Regulations) will automatically be excluded from the marks that will count towards the degree classification. Any failed or Bad Failed courses that count towards classification will be treated in accordance with paragraph 3.1 of the Classification Scheme above. A degree cannot be awarded where a candidate receives a Bad Fail mark in any course.

**Progression:**

Students wishing to defer sitting one or more examinations must seek permission according to the General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf>. Students must normally pass a minimum of three out of the four compulsory half units in Year One to be able to proceed to Year Two. The Sub-Board Chair/Programme Director has the discretion to consider progression where a student only passes two out of the four compulsory half unit courses. Students are permitted to re-sit failed exams in line with the School's General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf>.

**Diploma:**

Students who cannot complete the MSc in Health Economics, Policy and Management due to unforeseen circumstances may be eligible for a Diploma. This Diploma is classified according to the Scheme for the Award of a Diploma <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeDiploma.pdf>. Students may be eligible for the award of a Diploma if they leave the programme after completing the four compulsory half units in Year One and two half units in Year Two. All courses count towards the Diploma classification. A Pass mark of 50 must be achieved in all courses for students to achieve an overall Pass in the Diploma. Students wishing to defer attempting one or more assessments must seek permission according to the General Academic Regulations. Students are permitted to repeat failed assessments in line with the School's General Academic Regulations and Regulations for Diplomas <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForDiplomas.pdf>.

**Certificate:**

Students who cannot complete the MSc in Health Economics, Policy and Management due to unforeseen circumstances, and who are not eligible for a Diploma, may be eligible for a Certificate. Students may be eligible for the award of a Diploma if they leave the programme after completing the four compulsory half units in Year One. The certificate is classified on a Pass/Fail basis only. A Pass mark of 50 needs to be achieved in all courses for students to be eligible for the award of the certificate. Higher marks in one course cannot compensate a Fail mark in another course. Students wishing to defer attempting one or more assessments must seek permission according to the General Academic Regulations. Students are permitted to repeat failed exams in line with the School's General Academic Regulations and Regulations for Certificates <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/RegulationsForCertificates.pdf>.

**Note for prospective students:**

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/](https://info.lse.ac.uk/resources/calendar/)

CourseAndProgrammeInfo/updatedPGProspective.htm. Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MSc in International Strategy and Diplomacy

**Programme Code:** TMISDIP

**Department:** International Relations

For students starting this programme of study in 2022/23 Full-year programme. Students take 2.5 units of compulsory courses and a 1.5 unit dissertation.

Paper	Course number, title (unit value)
Paper 1	IR442E Diplomacy and Challenges (1.0)
Paper 2	IR443E Strategy in a Changing World (1.0)
Paper 3	IR444E Strategy in Action (0.5)
Paper 4	IR496E Dissertation: MSc International Strategy and Diplomacy (1.5 units) (1.5)

---

## Executive LLM

**Programme Code:** TMLL2EX

**Department:** Law School

For students starting this programme of study in 2022/23

1. The general regulations for MA and MSc Degrees and the Code of Practice for Taught Masters Programmes in the online Calendar apply to the Executive LLM programme except in the event of inconsistency when these regulations for the Executive LLM take priority.

2. In order to obtain the Degree, students must complete eight Executive LLM courses (see list below). Students must complete the requirements as a part-time student over a period of four years, or with the approval of the Programme Director within a period of six years. The minimum period within which the Degree can be completed is three years.

3. Alternative exit points are available to students who are not able to complete the Degree. An LSE Diploma in Legal Studies is available on completion of six courses and a Certificate of Legal Studies on the completion of four courses. There is no minimum period for completion of the alternative exit points of Certificate of Legal Studies or Diploma in Legal Studies. Please see the footnote at the bottom of this regulation for more information.

4. Courses should be chosen from the list below and are subject to availability as not every course will be offered each year. Subject to the availability of teaching staff, it is intended that every course be offered at least once within the four year degree period. No other courses at LSE or elsewhere may be taken as part of the Executive LLM programme.

### Intensive Teaching

5. The Executive LLM courses will be taught in short intensive week-long sessions, which will typically be taught in the first half of April, September and December. Each course will provide between 24 and 26 hours of contact teaching time. Teaching will normally run from Monday to Friday. However, in the exceptional event where a course cannot be taught on the set weekday/s (e.g. due to last minute teacher illness), teaching may be extended to the Saturday and Sunday morning of that week. Accordingly, students are expected to book trains or flights for the day before teaching commences and should, where possible, book return trains or flights on the Sunday afternoon or evening following the completion of the course.

6. Where there is student demand we may elect also to offer some courses in two intensive weekends. The two weekends will not be more than four weekends apart. Where courses are offered in the intensive weekend format the same course will also be offered in week-long intensive format at least once every four years.

### Payment of Fees

7. All Executive LLM offer holders will be required to pay a Registration Fee within 14 days of receiving their offer of admission. The registration fee is non-refundable. Only on receipt of the registration fee, may students register onto the programme. Registered students are then required to pay a per course tuition fee in advance of their chosen course date, to secure their place. Students will only be permitted to attend a module if payment is received in time. Fee payment deadlines can be found here. <https://info.lse.ac.uk/staff/divisions/Finance-Division/Fees-Income-and-Credit-Control/Instalment-options-Executive-Programmes>

8. The registration fee is non-refundable. If you withdraw from the course before starting a session or are unable to attend a session for which you have registered, all module fees will be credited to a module in a later session. You must inform the Programme Manager if you are unable to attend a module you are registered for. In exceptional circumstances, at the Director's discretion, the funds paid for that session will be refunded. Changes in fee levels may occur over the course of the programme. The student will remain liable for any difference between the fees chargeable at the later session and the fee credit from the module which the student withdrew from. Module fees are non-refundable, and will not be credited to another session, if you have attended classes but withdraw before the assessment.

9. It is our intent to offer each advertised module at least once during the four year degree period. This may not always be possible due, for example, to teacher illness or resignation. It is possible that a module may need to be cancelled at short notice, such as where the teacher is unavailable or participant numbers are very low. If this happens, students will be given the option of taking another module during the same session or, alternatively, the fees paid towards that module will be held in credit for your next chosen module/session or refunded if preferred. Students will be informed of the withdrawal of a module no later than two weeks prior to the commencement of the module.

### Assessment

10. All Executive LLM courses are assessed by either take-home examination or 8,000 word extended essay.

11. To comply with the Department's writing requirement at master's level, all students are required to write one extended essay of 8,000 words as the assessment for one of their courses to obtain the Degree, the Diploma or the Certificate. Students are not permitted to take more than three courses assessed by extended essay to obtain the Degree or the Diploma or more than one course assessed by extended essay to obtain a Certificate.

12. Extended essays must not exceed the set word limit and must be submitted by a set deadline. Students must provide evidence of original work or a capacity for critical analysis. Students will be required, at the time of submission of their work, to sign a statement on plagiarism. An oral examination may be held if the examiners so determine.

13. The take-home examinations will be set two months after the completion of the intensive teaching. The date of the examination will be provided at the date courses are available for selection. They will be uploaded and submitted electronically.

14. All students are required to write an extended essay of 8,000 words as the assessment for one of their courses to obtain the Degree, the Diploma or the Certificate. Students are not permitted to take more than three courses assessed by extended essay to obtain the Degree or the Diploma or more than one course assessed by extended essay to obtain a Certificate. The extended essay topic will be set by the course teacher. The student may propose essay topics and ideas to the teacher.

15. All students will be required to be online during the examination period in case there is any need to contact them.

16. Students will be able to re-sit a course examination once. A re-sit examination will be set as soon as possible after the student is notified of the failure. At the Programme Director's sole discretion in lieu of a re-sit or deferred examination the student may be required to submit an 8,000 word essay. This can only occur when the student has not already completed the maximum of three 8,000 word essays.

17. Any student who fails an exam twice in the same course will

not be able to proceed to complete the Executive LLM programme. Students will not be able to proceed to take further courses if at the first sit and the re-sit examination are both bad fails or if the failure is not a bad fail but the student has failed another course following the re-sit. If such a student has already successfully completed 4 courses or 6 courses prior to such a failure, the student will be awarded a Certificate of Legal Studies or Diploma of Legal Studies.

#### Registration

18. The maximum period of registration on the programme is six years. Therefore completion of all the degree requirements (or Diploma, Certificate) must be within a six year period.

#### Course Completion Rate

19. Students will be expected to take one to two courses per year. Any student who fails to take a course for a two year period will be asked to provide reasons for the failure to complete courses. Any student who following such a request either fails to provide a response to the Programme Director or fails to complete a course in the year following the giving of these reasons, may be deregistered from the programme.

Degree Certificate

20. Students who successfully complete the Executive LLM examination requirements may elect to have one of the following titles attached to their degree certificate if, in the opinion of the Programme Director of the LLM, the title reflects the course of study followed by the student. This would mean taking a minimum of 4 courses within a specialist area. The possible titles are listed below with the courses attached to those areas listed with them. If no such election is made, the LLM degree certificate will state 'LLM' without further specification.

LL446E	Art Law (0.5)

# means there may be prerequisites for this course. Please view the course guide for more information.

#### Exit Options

#### Diploma:

This diploma is classified according to the Scheme for the Award of a Diploma, as a 3 unit programme subject to the following provisions.

Students wishing to earn a diploma will have registered as Executive LLM students and then cease their studies after completing six courses (3 full units). All courses count towards the diploma classification. A Pass mark of 50 must be achieved in all courses for students to achieve an overall Pass in the diploma. Assessments for each of the courses will take place at the beginning of the next teaching session. Students wishing to defer attempting one or more assessments must seek permission according to the General Academic Regulations no later than eight weeks prior to the assessment date except in the case of exceptional circumstances, as set out in the General Academic Regulations. Students are permitted to repeat failed assessments in line with the School's General Academic Regulations and Regulations for Diplomas.

**Certificate:**

Students wishing to earn a certificate will have registered as Executive LLM students and then cease their studies after completing four courses (2 full units). The certificate is classified on a Pass/Fail basis only. A Pass mark of 50 needs to be achieved in all courses for students to be eligible for the award of the certificate. Higher marks in one course cannot compensate a Fail mark in another course. Students wishing to defer attempting one or more assessments must seek permission according to the General Academic Regulations no later than eight weeks prior to the assessment date except in the case of exceptional circumstances, as set out in the General Academic Regulations. Students are permitted to repeat failed assessments in line with the School's General Academic Regulations and Regulations for Certificates.

proceed into the second year. FM475E and MG445E are not required for progression.

A student who does not meet this criterion must resit all failed/deferred papers in accordance with the resit process detailed below. If, following the resit attempt, a student:

- has attained at least a Pass grade in each of the first year papers, he/she will be eligible to proceed into the second year.
- has attained at least a Pass grade in at least one of the first year papers, he/she will be eligible to proceed into the second year:
  - at the discretion of the Chair of the Sub-Board of Examiners; and
  - subject to ratification by the Graduate School Board of Examiners (GSBE).
- Has failed all of the first year papers, he/she will not be eligible to proceed into the second year, as he/she will no longer be able to successfully complete the programme according to the School's Scheme for the Award of a Taught Master's Degree (four units). The marks of any student who fails up to two papers over the course of the programme will be subject to the penalty rules stipulated at paragraph 3.2 of the School's Scheme for the Award of a Taught Master's Degree (four units).

**Executive Global Masters in Management - Resit Process**

A student shall normally be entitled to re-sit any failed courses only (on one occasion).

For first year courses required for progression, where the individual assessment takes the form of an assignment or take home exam, once grades have been ratified, the faculty member responsible for the failed first year course will set the new paper and deadline for re-submission to take place as soon as possible and before the beginning of the second year. Results for resits and any subsequent progression will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be deemed to have failed the course.

The results of first year courses FM475E and MG445E will be formally ratified by the Sub-Board of Examiners and Graduate School Board of Examiners in November. If it is determined that as a result of a fail in one or both of these courses an award cannot be made the faculty member responsible for the failed course will set the new paper and deadline for re-submission to take place as soon as possible. A candidate resitting these courses cannot graduate until the July Sub-Board and Graduate School Board of Examiners has met to ratify their results.

For second year courses, once grades have been ratified by the Sub-Board of Examiners and it is determined that an award cannot be made, the faculty member responsible for the failed second year course will set the new paper and deadline for re-submission to take place as soon as possible. Results for resits and subsequent classification will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be deemed to have failed the course. Resits for second year courses will result in delayed Graduation.

The marks of any student who fails up to two papers over the course of the programme will be subject to the penalty rules stipulated at paragraph 3.2 of the School's Scheme for the Award of a Taught Master's Degree (four units).

### Executive Global Masters in Management - Resit Process

A student shall normally be entitled to re-sit any failed courses only (on one occasion).

For first year courses required for progression, where the individual assessment takes the form of an assignment or take home exam, once grades have been ratified, the faculty member responsible for the failed first year course will set the new paper and deadline for re-submission to take place as soon as possible and before the beginning of the second year. Results for resits and any subsequent progression will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate

School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be deemed to have failed the course.

The results of first year courses FM475E and MG445E will be formally ratified by the Sub-Board of Examiners and Graduate School Board of Examiners in November. If it is determined that as a result of a fail in one or both of these courses an award cannot be made the faculty member responsible for the failed course will set the new paper and deadline for re-submission to take place as soon as possible. A candidate resitting these courses cannot graduate until the July Sub-Board and Graduate School Board of Examiners has met to ratify their results.

For second year courses, once grades have been ratified by the Sub-Board of Examiners and it is determined that an award cannot be made, the faculty member responsible for the failed second year course will set the new paper and deadline for re-submission to take place as soon as possible. Results for resits and subsequent classification will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be deemed to have failed the course. Resits for second year courses will result in delayed Graduation.

## Executive Master of Public Administration

**Programme Code:** TMMPAEX

**Department:** School of Public Policy

For students starting this programme of study in 2022/23

The EMPA is a 21 month programme. Students must take courses to the value of eight half units as set out below.

**Paper Course number, title (unit value)**

### Year 1

Pre-sessional course	PP430E	Introduction to Statistics for Public Policy (0.0)
Paper 1	PP4G8E	Public Policy in Practice Workshop I (EMPA) (0.5) #
Paper 2	PP478E	Political Science and Public Policy (0.5) #
Paper 3	PP455E	Empirical Methods for Public Policy (0.5) #
Paper 4	PP440E	Economic Policy Analysis (0.5)
Paper 5	PP4G9E	Public Policy in Practice Workshop II (EMPA) (0.5) #

### Year 2

Papers 6 & 7	Courses to the value of 1.0 unit(s) from the following:	
	PP410E	Public Economics for Public Policy (0.5) #
	PP421E	Global Market Economics (0.5) #
	PP454E	Development Economics (0.5) #
	PP488E	Regulatory Analysis (0.5) #
	PP4J5E	Fiscal Governance and Budgeting (0.5) #
	PP4V8E	Policy Paper (0.5) #
Paper 8	PP409E	Public Policy in Practice Workshop III (EMPA) (0.5) #

# means there may be prerequisites for this course. Please view the course guide for more information. Students who achieve passing grades (50 and above) in at least 6 half units are eligible for the award of Diploma. Students can opt for this award either once they have completed six courses (i.e. all courses in Year One plus two further half units) or once they have completed the programme if they are not eligible for the award of the degree. The Diploma is classified according to the Scheme for the Award of a Diploma. Students who have achieved passing grades (50 and above) in at least 4 half units are eligible for the award of Certificate. The student is classified on a Pass/Fail basis only. Higher marks in one course

cannot compensate a Fail mark in another course. The award of a Certificate or Diploma is subject to the application of the General Academic Regulations and the Certificate/Diploma regulations and classification schemes. The Certificate and Diploma are final exit awards with no option to subsequently be awarded the degree of Executive Master of Public Administration or Executive Master of Public Policy. Candidates who attain at least a Pass grade in each of the Year 1 courses PP478E, PP455E and PP440E will be eligible to progress to Year 2. The Year 1 courses PP4G8E and PP4G9E will not count towards progression but the grade will count towards the final degree classification.

Students wishing to defer the submission of one or more assessment components must seek permission according to the School's General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf> prior to the assessment due date, except in the case of unforeseen and exceptional circumstances. Students deferring one or more assessment components in Year 1 may exceptionally progress to Year 2 and submit any deferred assessment at the next normal opportunity, if they complete and pass two of the three half units PP478E, PP455E and PP440E in Year 1.

Students failing one but not more than one of PP478E, PP455E and PP440E in Year 1 will normally be able to progress to Year 2, although this fail will count toward their degree classification according to the Scheme for the Award of a Taught Master's Degree. Students failing more than one of PP478E, PP455E and PP440E in Year 1 have to re-sit relevant assessment components and pass the required number of half units before they can progress to Year 2. Students failing up to one unit of courses but that still satisfy the progression rules may not need to resit those failed courses if they satisfy the compensation rules according to the Scheme for the Award of a Taught Master's Degree <https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters-FourUnits.pdf> at the end of the second year. Students that have more than one unit of fail at the end of the programme or those with one unit of fail that do not meet the progression rules must resit in order to be eligible for the award of the degree.

Students that fail courses and as a result fail to meet the progression rules must resit and satisfy the progression rules before they can proceed to Year 2. Students that receive a Bad Fail in any course will not be permitted to progress and must satisfy the progression rules after achieving a resit mark to proceed to Year 2.

Students are permitted to re-sit failed assessments in failed courses on one occasion only and in line with the School's General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf>.

The Sub-Board may recommend to the Graduate School Board of Examiners (GSBE) that a student can progress to year two of the programme even if they have not met the normal application of the progression rules. This can only be done on an

exceptional basis where:

- (a) the Sub-Board has determined that a student has demonstrated that their progression has been affected by circumstances beyond their control through the exceptional circumstances procedure and;
- (b) the GSBE approves the Sub-Board's recommendation.

## Executive Master of Public Administration

**Programme Code:** TMMPAEX

**Department:** School of Public Policy

For students starting this programme of study in 2021/22

The EMPA is a 21 month programme. Students must take courses to the value of eight half units as set out below.

Paper	Course number, title (unit value)
<b>Year 1</b>	
Pre-sessional course	PP430E Introduction to Statistics for Public Policy (0.0)
Paper 1	PP4G8E Public Policy in Practice Workshop I (EMPA) (0.5) #
Paper 2	PP478E Political Science and Public Policy (0.5) #
Paper 3	PP455E Empirical Methods for Public Policy (0.5) #
Paper 4	PP440E Economic Policy Analysis (0.5)
Paper 5	PP4G9E Public Policy in Practice Workshop II (EMPA) (0.5) #
<b>Year 2</b>	
Papers 6 & 7	Courses to the value of 1.0 unit(s) from the following: PP410E Public Economics for Public Policy (0.5) # PP421E Global Market Economics (0.5) # PP454E Development Economics (0.5) # PP488E Regulatory Analysis (0.5) # PP4J5E Fiscal Governance and Budgeting (0.5) # PP4V8E Policy Paper (0.5) #
Paper 8	PP409E Public Policy in Practice Workshop III (EMPA) (0.5) #

## Executive Master of Public Policy

**Programme Code:** TMMPPPEX

**Department:** School of Public Policy

For students starting this programme of study in 2021/22

The EMPP is a 21 month programme. Students must take courses to the value of eight half units as set out below.

**Paper Course number, title (unit value)**

### Year 1

Pre-sessional course	PP430E	Introduction to Statistics for Public Policy (0.0)
Paper 1	PP4J1E	Public Policy in Practice Workshop I (EMPP) (0.5) #
Paper 2	PP478E	Political Science and Public Policy (0.5) #
Paper 3	PP455E	Empirical Methods for Public Policy (0.5) #
Paper 4	PP440E	Economic Policy Analysis (0.5)
Paper 5	PP4J2E	Public Policy in Practice Workshop II (EMPP) (0.5) #

### Year 2

Papers 6 & 7 Courses to the value of 1.0 unit(s) from the following:

PP410E	Public Economics for Public Policy (0.5) #
PP421E	Global Market Economics (0.5) #
PP454E	Development Economics (0.5) #
PP488E	Regulatory Analysis (0.5) #
PP4B3E	Executive MPP Capstone Project (0.5) #
PP4J5E	Fiscal Governance and Budgeting (0.5) #

Students that receive a Bad Fail in any course will not be permitted to progress and must satisfy the progression rules after achieving a resit mark to proceed to Year 2.

Students are permitted to re-sit failed assessments in failed courses on one occasion only and in line with the General Academic Regulations for Postgraduate Students <https://info.lse.ac.uk/staff/divisions/academic-registrars-division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/GeneralAcademicRegulations-all-PG-students.pdf>.

The Sub-Board may recommend to the Graduate School Board of Examiners (GSBE) that a student can progress to year two of the programme even if they have not met the normal application of the progression rules. This can only be done on an exceptional basis where:

- (a) the Sub-Board has determined that a student has demonstrated that their progression has been affected by circumstances beyond their control through the exceptional circumstances procedure and;
- (b) the GSBE approves the Sub-Board's recommendation.

## Executive MSc in Social Business and Entrepreneurship

**Programme Code:** TMMGSBEEEX

**Department:** Management

For students starting this programme of study in 2022/23 12 month programme. Students must take six compulsory half-unit courses and a full unit Altruistic Entrepreneur Project.

Paper	Course number, title (unit value)
Paper 1	MG4H3E Social Impact and Its Evaluation (0.5) <b>and</b> MG4H6E The Hybrid Economy (0.5)
Paper 2	MG4H1E Foundations of Social Business I (0.5) <b>and</b> MG4H2E Foundations of Social Business II (0.5)
Paper 3	EC452E Applying Behavioural Economics for Social Impact: Design, Delivery and Policy (0.5) <b>and</b> MG4H5E The Altruistic Leader (0.5)
Paper 4	MG4H4E The Altruistic Entrepreneur Project (1.0)

### Resit process:

Once all grades have been ratified by the Sub-Board of Examiners and it is determined that an award cannot be made, the faculty member responsible for the failed course will set the new paper and deadline for re-submission to take place as soon as possible. Results for resits and subsequent classification will be agreed by the Chair of the Sub-Board of Examiners and will be subject to ratification by the Graduate School Board of Examiners. If a student does not re-submit an assignment/exam by the deadline set, they will be deemed to have failed the course. Resits will result in delayed Graduation from December to July.

### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](https://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

# **Collaborative Programmes**

## CEMS Exchange

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Programme Code:** TOMNCEMS2

**Department:** Management

For students starting this programme of study in 2022/23 CEMS Exchange (Michaelmas Term)

A one term (Michaelmas Term only) exchange programme for visiting CEMS MIM students. The CEMS MIM exchange programme is attached to the Global MSc in Management programme. Students from 33 partner exchange schools160 [www.cems.org/academic-members/our-members/list/spend](http://www.cems.org/academic-members/our-members/list/spend) one term at LSE. Students should choose 4 half-unit courses from the list below to the total value of 2.0 units. One half unit must be the compulsory MG464 CEMS Global Business Strategy course (0.5 units). Michaelmas Term students are in addition required to attend the compulsory Block Seminar, as per the CEMS MIM curriculum requirements. Student will not be required to complete summative assessments or examinations outside of their term of study. Students will be assessed during their term of study at the LSE. Students are not permitted to take one (1.0) unit elective courses.

Paper 1 MG464 CEMS Global Business Strategy (0.5)

Papers 2, 3

& 4

### Optional Courses

Courses to the value of 1.5 units selected from the option list below:

AC411	Accounting, Strategy and Control (0.5)
AC491	Financial Accounting, Reporting and Disclosure (0.5)
DV432	China in Developmental Perspective (0.5) # (not available 2022/23)
DV435	African Political Economy (0.5)
EU432	The Philosophy of Europe (0.5)
FM473M	Financial Markets (0.5) #
FM474M	Managerial Finance (0.5)

## Global MSc in Management (CEMS MiM)

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Programme Code:** TMGLMGCEMS

**Department:** Management

For students starting this programme of study in 2022/23 A two-year programme. Students are also awarded the CEMS Master's in International Management (MIM) degree, subject to successful completion of the CEMS MIM requirements. Students take courses to the value of eight units which are spread over the two years. The programme includes: two units at a partner CEMS Institution (MG410 Term Abroad); CEMS compulsory MG463 CEMS Global Leadership (H); a dissertation; and the course MG488 GMiM Capstone Course - Management in Action (H) taught over both years, Part A (unassessed) in Year 1 and Part B (assessed) in Year 2.

All students are required to attend MG4A1 Introduction to Studying for GMiM.

Students may apply for an exemption from the following core courses taking place in Year 1: MG431 Managerial Economics, MG4E2 Marketing Management and MG434 Organisational Behaviour. A maximum of two course exemptions may be permitted for each student.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

### Year 1

Introductory course	MG4A1	Introduction to Studying for GMiM (0.0)
Paper 1	MG458	Foundations of Management I:

		Organisations and Management Theory (0.5) <b>and</b> MG459 Foundations of Management 2 (0.5)
Paper 2	MG431	Managerial Economics (0.5)
		<b>And either one from:</b>
	MY451L	Introduction to Quantitative Analysis (0.5)
	MY451M	Introduction to Quantitative Analysis (0.5)
		<b>or upon satisfactorily demonstrating that they have sufficient statistical knowledge they may take one from the list below or any other suitable quantitative methods course subject to the approval of the programme director:</b>
	MY452L	Applied Regression Analysis (0.5) #
	MY452M	Applied Regression Analysis (0.5) #
		<b>Or</b>
		Upon satisfactorily demonstrating that they have a degree in economics and have passed, as part of that degree, a course in managerial economics, microeconomics or industrial organisation, students may be exempted from MG431 and will be free to take an elective course, subject to the approval of the Programme Director. Students must select one from:
		<b>and either one from:</b>
	MY451L	Introduction to Quantitative Analysis (0.5)
	MY451M	Introduction to Quantitative Analysis (0.5)
		<b>or upon satisfactorily demonstrating that they have sufficient statistical knowledge they may take one from the list below or any other suitable quantitative methods course subject to the approval of the programme director:</b>
	MY452L	Applied Regression Analysis (0.5) # <b>or</b>
	MY452M	Applied Regression Analysis (0.5) #
		and 0.5 units from the Elective Courses listed below:
		<b>Elective Courses</b>
Paper 3	MG434	Organisational Behaviour (0.5) <b>and</b> MG4E2 Marketing Management (0.5)
		<b>Or</b>
		Upon satisfactorily demonstrating that they have a degree in marketing, or in management or business administration with a significant concentration in marketing, may be exempted from MG4E2 and will be free to take an elective course, subject to the approval of the Programme Director.
		Students must select courses to the value of 1.0 unit(s), which may include MG434 Organisational Behaviour (0.5), and a further 0.5 units from the Elective Courses listed below:
		MG434 Organisational Behaviour (0.5)
		and 0.5 units from the Elective Courses listed below:
		<b>Elective Courses</b>
		<b>Or</b>
		Upon satisfactorily demonstrating that they have a degree in management of business administration with significant knowledge of organisational behaviour, students may be exempted from MG434 and will be free to take an elective course, subject to the approval of the Programme Director.
		Students must select courses to the value of 1.0 unit(s), which may include MG4E2 Marketing Management (0.5), and a further 0.5 units from the Elective Courses listed below:
		MG4E2 Marketing Management (0.5)
		<b>Elective Courses</b>
Paper 4		Electives to the value of 0.5 full units
		<b>Elective Courses</b>
Compulsory course		As part of Paper 4, students also take the compulsory unassessed part of MG488:
	MG488A	GMiM Capstone Course - Management in Action (0.0)
<b>Year 2</b>		
Paper 5	MG468	Foundations of Management III: Business

	Ethics, Corporate Governance and Ethical Leadership (0.5) # <b>and</b> MG488B GMiM Capstone Course - Management in Action (0.5) #		
Paper 6	Courses to the value of two units to be taken at one of the partner CEMS Institutions ( <a href="https://www.cems.org/academic-members/our-members/list/">https://www.cems.org/academic-members/our-members/list/</a> ):	MG466	Intervention and Digital Innovation (0.5) Supply Chain Management (0.5) # (not available 2022/23)
	MG410 Term Abroad (2.0)	MG467	Strategy and Change in Public Sector Management (0.5) (not available 2022/23)
Paper 7	MG463 CEMS Global Leadership (0.5) # and 0.5 units from the Elective Courses listed below:	MG471	Chinese Economy: Entrepreneurship, Innovation and Growth (0.5) (not available 2022/23)
	<b>Elective Courses</b>	MG472	Management and Socioeconomics of Digital Innovation (0.5) #
Paper 8	MG469 Extended Essay for Management (0.5) #	MG473	Negotiation Analysis (0.5)
	<b>Elective Courses</b>	MG477	Strategic Reward: Key Models and Practices (0.5)
	The following elective courses are available to all GMiM students regardless of whether a specialism is taken or not, subject to pre-requisites and course availability:	MG479	Information Systems for the Public Sector: Digital Government and Service Innovation (0.5)
	AC411 Accounting, Strategy and Control (0.5)	MG481	Innovating Organisational Information Technology (0.5) #

	MG460 Emergencies Management: Humanitarian		

ST429 Statistical Methods for Risk Management (0.5) #

Or another MSc-level elective course which is offered in the School, subject to approval of the course leader and the Programme Director.

**Prerequisite Requirements and Mutually Exclusive Options**

# means there may be prerequisites for this course. Please view the course guide for more information.

1: Before taking AC416 you must take AC480

2: GI407 can not be taken with GI409, GI420

# means there may be prerequisites for this course. Please view the course guide for more information.

**SUPPLEMENTARY CRITERIA FOR PROGRESSION FROM THE FIRST TO THE SECOND YEAR OF MSc MANAGEMENT**

The following rules set out what marks are required in order to be eligible to proceed into the second year. Students with the following mark profiles progress as follows:

Pass marks in all first year courses allows progression to year two.

A half unit Fail mark or a half unit Bad Fail mark, or a half unit deferral, with at least Pass marks in all other courses will allow progression to year two.

One full unit (or two half units) of Fail marks (which could include no more than one half unit Bad Fail mark), or a full unit of deferral, with at least Pass marks in all other courses, including one half unit of Merit marks will allow progression to year two.

Two Bad Fail marks (full or half units) will not allow progression to year two.

Three or more (full or half units) Fails, Bad Fail marks or deferrals will not allow progression to year two.

Students must resubmit all failed components of assessments in courses in which they receive a Bad Fail mark in order to be eligible for the award of a degree. The Repeat Teaching Panel may consider an application for repeat tuition in any failed courses from a student. Results obtained following a repeated attempt at assessment shall bear their normal value. Exchange Term Abroad

Students successful in securing a place on the CEMS exchange will spend Michaelmas Term in Year 2 abroad at one of our CEMS partner schools. Students must meet all progression requirements for year 1 Global Master's in Management. The Department of Management reserves the right to withdraw an exchange offer in the event of academic misconduct or non-compliance with School guidelines.

**Note for prospective students:**

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## Global MSc in Management (CEMS MiM)

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Programme Code:** TMGLMGCEMS

**Department:** Management

For students starting this programme of study in 2021/22

A two-year programme. Students are also awarded the CEMS Master's in International Management (MiM) degree, subject to successful completion of the CEMS MiM requirements.

Students take courses to the value of eight units which are spread unevenly over the two years. The programme includes: two units at a partner CEMS Institution (MG410 Term Abroad); CEMS compulsory MG463 CEMS Global Leadership (H); a dissertation; and the course MG488 GMiM Capstone Course - Management in Action (H) taught over both years, Part A (unassessed) in Year 1 and Part B (assessed) in Year 2.

All students are required to attend MG4A1 Introduction to Studying for GMiM.

Students may apply for an exemption from the following core courses taking place in Year 1: MG431 Managerial Economics, MG4E2 Marketing Management and MG434 Organisational Behaviour. A maximum of two course exemptions may be permitted for each student.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Year 1**

Introductory

course MG4A1 Introduction to Studying for GMiM (0.0)

Paper 1 MG458 Foundations of Management I: Organisations and Management Theory (0.5) **and** MG459 Foundations of Management 2 (0.5)

Paper 2 MG431 Managerial Economics (0.5)

**And one from:**

Or another MSc-level elective course which is offered in the School, subject to approval of the course leader and the Programme Director.

#### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

1: Before taking AC416 you must take AC480

2: GI407 can not be taken with GI409, GI420

# means there may be prerequisites for this course. Please view the course guide for more information.

#### SUPPLEMENTARY CRITERIA FOR PROGRESSION FROM THE FIRST TO THE SECOND YEAR OF MSC MANAGEMENT

The following rules set out what marks are required in order to be eligible to proceed into the second year. Students with the following mark profiles progress as follows:

Pass marks in all first year courses allows progression to year two.

A half unit Fail mark or a half unit Bad Fail mark, or a half unit deferral, with at least Pass marks in all other courses will allow progression to year two.

One full unit (or two half units) of Fail marks (which could include no more than one half unit Bad Fail mark), or a full unit of deferral, with at least Pass marks in all other courses, including one half unit of Merit marks will allow progression to year two.

Two Bad Fail marks (full or half units) will not allow progression to year two.

Three or more (full or half units) Fails, Bad Fail marks or deferrals will not allow progression to year two.

Students must resubmit all failed components of assessments in courses in which they receive a Bad Fail mark in order to be eligible for the award of a degree. The Repeat Teaching Panel may consider an application for repeat tuition in any failed courses from a student. Results obtained following a repeated attempt at assessment shall bear their normal value. Exchange Term Abroad

Students successful in securing a place on the MBA exchange will spend Michaelmas Term in Year 2 abroad at one of our MBA exchange partner schools. Students must meet all progression requirements for year 1 Global Master's in Management. The Department of Management reserves the right to withdraw an offer in the event of academic

misconduct or non-compliance with School guidelines.

## Global MSc in Management (MBA Exchange)

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Programme Code:** TMGLMG MBA

**Department:** Management

For students starting this programme of study in 2021/22

A two-year programme. Students take courses to the value of eight units but those units are not necessarily spread evenly over the two years.

The second year includes an extended essay. Students complete the course MG488 GMiM Capstone Course - Management in Action (H) over both years, Part A (unassessed) in Year 1 and Part B (assessed) in Year 2. Students also complete two units at a partner institution (MG410 Term Abroad).

All students are required to attend MG4A1 Introduction to Studying for GMiM.

Students may apply for an exemption from the following core courses taking place in Year 1: MG431 Managerial Economics, MG4E2 Marketing Management and MG434 Organisational Behaviour. A maximum of two course exemptions may be permitted for each student.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

#### Year 1

Introductory

course	MG4A1	Introduction to Studying for GMiM (0.0)
Paper 1	MG458	Foundations of Management I: Organisations and Management Theory (0.5) <b>and</b> MG459 Foundations of Management 2 (0.5)

Paper 2	MG431	Managerial Economics (0.5)

## LSE-Bocconi Double Degree in European and International Public Policy & Politics

### Year 1 at Bocconi University

The first year is spent at Bocconi University. Students will join the MSc in Politics and Policy Analysis, on their own track. Students are also required to study languages and undertake an internship.

### Year 2 at LSE

Students will enrol on the MSc in European and International Public Policy.

## MSc in European and International Public Policy (LSE and Bocconi)

**Programme Code:** TMEIPP2

**Department:** European Institute

For students starting this programme of study in 2022/23

Students must take one half unit compulsory course; choose 1 unit of semi-compulsory courses; optional courses to the value of 1.5 units; and a dissertation or applied policy project as shown below. Additionally, all students must select EU450 Engaging with Europe: Professional Skills during course choice. Places on EU450 workshops are on a first come first served basis.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

#### Professional development course

EU450 Engaging with Europe: Professional Skills (0.0)

Paper 1

#### Foundation

EU490 Evidence and Analysis in Policy-Making (0.5)

#### Or

Students who can demonstrate equivalent prior knowledge of EU490 Evidence and Analysis in Policy-Making may instead take the below course, subject to Programme Director approval:

MY452L Applied Regression Analysis (0.5) # 1\* **or**

MY452M Applied Regression Analysis (0.5) # 2\*

Paper 2

**Students with a limited background in European politics and policy-making or economics are strongly encouraged to take one or both of the following to support their studies:**

EU409 Basic Economic Concepts for European Political Economy (0.0)

EU4V9 Concepts in Political Science and Public Policy (0.0)

#### Courses to the value of 1.0 unit(s) from the following:

EU487 European Integration from a Global Governance Perspective (0.5) #

EU488 European Policy-Making and International Cooperation (0.5) #

EU489 Analytical Politics and Policymaking in Europe (0.5)

Paper 3

#### Optional courses

**Courses to the value of 1.5 units from the following:**

**If students wish their optional courses to result in a degree specialism, their chosen optional courses must come to a total value of at least one full**

**unit from that specialism. Students may select a maximum of 0.5 units from the section 'Methods', courses from this section cannot result in a specialism.**

#### Public Policy & Policy-Making in Europe

 (0.5)  
 EU492 Political Economy of Integration and  
 Fragmentation in Europe (0.5)  
 EU4A4 The Politics of Inequality and Redistribution  
 (0.5)

**Prerequisite Requirements and Mutually Exclusive Options**

# means there may be prerequisites for this course.  
 Please view the course guide for more information.

**Progression:**

1 Students who attain at least a Pass grade in each of  
 their four LSE units will be eligible to proceed into the  
 second year of the programme.

1.2 A student who has attained a (good) Fail grade in  
 courses to the value of 0.5 units and at least a Pass  
 grade in the remaining courses will be eligible to  
 proceed into the second year.

1.3 A student who has attained a (good) Fail grade  
 in courses to the value of 1.0 unit and at least a Pass  
 grade in the remaining courses may only progress if a  
 mark of at least 60% has been achieved in courses of  
 an equivalent value or an aggregate mark of at least  
 330 has been achieved in the non-failed courses.

1.4 A student who receives a Bad Fail in any course  
 or who otherwise fails to meet the above criteria for  
 progression will not be able to progress to the second  
 year of the programme and will be entitled to repeat  
 the failed courses at LSE as follows: A student shall  
 normally be entitled to repeat any failed courses  
 only (on one occasion) and at the next normal  
 opportunity, in accordance with the General Academic  
 Regulations. Results obtained following a repeated  
 attempt at an LSE assessment shall bear their normal  
 value but the resit attempt will be capped at the grade  
 of Pass.

1.5 A student who has completed year one and is  
 unable to complete year two of the programme in  
 Fudan will not receive an interim award. A student  
 who has successfully completed year one, but  
 who can produce evidence of very exceptional  
 circumstances requiring that they withdraw from year  
 2 of the degree may seek permission from both LSE  
 and Fudan University to transfer onto the MSc Political  
 Economy of Europe degree at LSE.

**LSE-Fudan Double Degree in the Global Political Economy of China and Europe****Year 1 at LSE**

The first year is spent at LSE, studying the MSc in the Global  
 Political Economy of China and Europe.

**Year 2 at Fudan**

Students will join the Master of Management Science in Public  
 Policy at Fudan University.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may  
 be subject to timetabling constraints and/or students meeting  
 specific prerequisite requirements.**

**MSc in The Global Political Economy of China and Europe (LSE and Fudan)**

**Programme Code:** TMEUCHGPE

**Department:** European Institute

For students starting this programme of study in 2021/22

Full-year programme. Students must take one unit of semi-  
 compulsory courses, optional courses to the value of two units  
 and a policy incubator project. Students must also select EU450  
 Engaging with Europe: Professional Skills during course choice.  
 Places on EU450 workshops are on a first come first served basis.

 EU469 The Political Economy of Finance in Europe (0.5) #  
 EU477 Labour Markets and the Political Economy of Employment in Europe (0.5) #  
 EU482 Europe in World Trade (0.5)  
 EU491 Political Economy in Theory and History (0.5)  
 EU492 Political Economy of Integration and Fragmentation in Europe (0.5)  
 EU4A4 The Politics of Inequality and Redistribution (0.5)

Paper 3 Courses to the value of 1.0 unit(s) from the following:

**Politics and Policy:**

- EU430 Europeanization: The Comparative Politics of Domestic Change (0.5)  
 EU439 Political and Fiscal Integration and Disintegration in EU Member States (0.5) (withdrawn 2022/23)  
 EU440 The Balkans in Europe: Transition, Democratisation, Integration (0.5)  
 EU487 European Integration from a Global Governance Perspective (0.5) #  
 EU488 European Policy-Making and International Cooperation (0.5) #  
 EU489 Analytical Politics and Policymaking in Europe (0.5)  
 EU490 Evidence and Analysis in Policy-Making (0.5)  
 EU4A1 The Politics and Policies of 'Brexit': The UK's changing relationship with the European Union (0.5) (not available 2022/23)  
 EU4A5 People and Politics in Europe (0.5)  
 GV4J4 Citizen Representation and Democracy in the European Union (0.5) (not available 2022/23)  
 SP441 Politics of Social Policy: Welfare and Work in Comparative Perspective (0.5)

**China in Perspective:**

- AN447 China in Comparative Perspective (1.0)  
 DV432 China in Developmental Perspective (0.5) # (not available 2022/23)  
 GV432 Government and Politics in China (0.5)

- GY480 Remaking China: Geographical aspects of Development and Disparity (0.5) (not available 2022/23)

**Culture and Society:**

- EU432 The Philosophy of Europe (0.5)  
 EU437 Europe Beyond Modernity (0.5)  
 EU447 Democracy, Ideology and the European State (0.5)  
 EU476 Emotions and Memory in European Politics (0.5)  
 EU478 The Culture of European Politics (0.5)  
 EU481 The Future: Political Responses to a Challenge (0.5)  
 EU4A3 The Americas and Europe (0.5)

**International Migration:**

- EU464 International Migration: EU Policies and Politics (0.5) #  
 EU484 Europe's Role in Global Migration Governance (0.5)  
 GV4A5 International Migration and Immigration Management (0.5)

Or any course(s) not taken previously from the Paper 2 options list below:

**Paper 2 options list**

- Paper 4 EU410 Interdisciplinary Research Methods and Design (0.0)  
 EU4C9 Policy Incubator (1.0)

**Paper 2 options list**

- EU421 Policy-Making in the European Union (0.5) #  
 EU425 Interest Representation and Economic Policy- Making in Europe (0.5) (withdrawn 2022/23)  
 EU443 European Models of Capitalism (0.5)  
 EU446 The Political Economy of European Monetary Integration (0.5) #  
 EU449 Emerging Markets, Political Transition and Economic Development in Central and Eastern Europe (0.5) # (not available 2022/23)  
 EU453 The Political Economy of European Welfare States (0.5)  
 EU455 Concepts in Political Economy (0.5)  
 EU467 The Political Economy of the Neoliberal State (0.5) (not available 2022/23)  
 EU468 The Political Economy of Migration in Europe (0.5) #  
 EU469 The Political Economy of Finance in Europe (0.5) #  
 EU477 Labour Markets and the Political Economy of Employment in Europe (0.5) #  
 EU482 Europe in World Trade (0.5)  
 EU491 Political Economy in Theory and History (0.5)  
 EU492 Political Economy of Integration and Fragmentation in Europe (0.5)  
 EU4A4 The Politics of Inequality and Redistribution (0.5)

**Prerequisite Requirements and Mutually Exclusive Options**

# means there may be prerequisites for this course. Please view the course guide for more information.

**Progression:**

1 Students who attain at least a Pass grade in each of their four LSE units will be eligible to proceed into the second year of the programme.

1.2 A student who has attained a (good) Fail grade in courses to the value of 0.5 units and at least a Pass grade in the remaining courses will be eligible to proceed into the second year.

1.3 A student who has attained a (good) Fail grade in courses to the value of 1.0 unit and at least a Pass

grade in the remaining courses may only progress if a mark of at least 60% has been achieved in courses of an equivalent value or an aggregate mark of at least 330 has been achieved in the non-failed courses.

1.4 A student who receives a Bad Fail in any course or who otherwise fails to meet the above criteria for progression will not be able to progress to the second year of the programme and will be entitled to repeat the failed courses at LSE as follows: A student shall normally be entitled to repeat any failed courses only (on one occasion) and at the next normal opportunity, in accordance with the General Academic Regulations. Results obtained following a repeated attempt at an LSE assessment shall bear their normal value but the resit attempt will be capped at the grade of Pass.

1.5 A student who has completed year one and is unable to complete year two of the programme in Fudan will not receive an interim award. A student who has successfully completed year one, but who can produce evidence of very exceptional circumstances requiring that they withdraw from year 2 of the degree may seek permission from both LSE and Fudan University to transfer onto the MSc Political Economy of Europe degree at LSE.

## LSE-Fudan Double Master's in Financial Statistics and Chinese Economy

### Year 1 at LSE

The first year is spent at LSE. Students will take three compulsory statistics courses, and will also choose courses to the value of two units, from a range of options both within statistics and related areas, with a maximum of one unit's worth of options from outside the Statistics department.

### Year 2 at Fudan

Upon successful completion of the first year, students will move to study the second year at the School of Economics at Fudan University. If students don't have an economics background, they will take additional economics courses.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.** Please refer to the progression rules below

## MSc in Statistics (Financial Statistics) (LSE and Fudan)

**Programme Code:** TMFSEC

**Department:** Statistics

For students starting this programme of study in 2021/22

### Year 1

Paper 1	ST425	Statistical Inference: Principles, Methods and Computation (1.0) #
Paper 2	ST422	Time Series (0.5) # <b>and</b> ST436 Financial Statistics (0.5) #
Paper 3	Courses to the value of 1.0 unit(s) from the following:	
	ST405	Multivariate Methods (0.5) #
	ST411	Generalised Linear Modelling and Survival Analysis (0.5) #
	ST416	Multilevel Modelling (0.5) #
	ST418	Non-Linear Dynamics and the Analysis of Real Time Series (0.5) # (not available 2022/23)
	ST429	Statistical Methods for Risk Management (0.5) #
	ST433	Computational Methods in Finance and Insurance (0.5) #
	ST439	Stochastics for Derivatives Modelling (0.5) #

ST440	Recent Developments in Finance and Insurance (0.5) #
ST442	Longitudinal Data Analysis (0.5) # (not available 2022/23)
ST443	Machine Learning and Data Mining (0.5) #
ST444	Computational Data Science (0.5) #
ST445	Managing and Visualising Data (0.5) #
ST446	Distributed Computing for Big Data (0.5) #
ST448	Insurance Risk (0.5) #
ST449	Artificial Intelligence (0.5)
ST451	Bayesian Machine Learning (0.5) #
ST454	Applied spatio-temporal analysis (0.5) #
ST455	Reinforcement Learning (0.5) #
ST456	Deep Learning (0.5) #
MY459	Quantitative Text Analysis (0.5) #
MY461	Social Network Analysis (0.5)

Paper 4

Courses to the value of 1.0 unit(s) from the following:

ST405	Multivariate Methods (0.5) #
ST409	Stochastic Processes (0.5) #
ST411	Generalised Linear Modelling and Survival Analysis (0.5) #
ST416	Multilevel Modelling (0.5) #
ST418	Non-Linear Dynamics and the Analysis of Real Time Series (0.5) # (not available 2022/23)
ST426	Applied Stochastic Processes (0.5)
ST429	Statistical Methods for Risk Management (0.5) #
ST433	Computational Methods in Finance and Insurance (0.5) #
ST439	Stochastics for Derivatives Modelling (0.5) #
ST440	Recent Developments in Finance and Insurance (0.5) #
ST442	Longitudinal Data Analysis (0.5) # (not available 2022/23)
ST443	Machine Learning and Data Mining (0.5) #
ST444	Computational Data Science (0.5) #
ST445	Managing and Visualising Data (0.5) #
ST446	Distributed Computing for Big Data (0.5) #
ST448	Insurance Risk (0.5) #
ST449	Artificial Intelligence (0.5)
ST451	Bayesian Machine Learning (0.5) #
ST454	Applied spatio-temporal analysis (0.5) #
ST455	Reinforcement Learning (0.5) #
ST456	Deep Learning (0.5) #
FM402	Financial Risk Analysis (0.5) #
FM404	Advanced Financial Economics (0.5) #
FM413	Fixed Income Markets (0.5) #
FM429	Asset Markets A (0.5) #
FM441	Derivatives (0.5) #
FM442	Quantitative Methods for Finance and Risk Analysis (0.5) #
MA407	Algorithms and Computation (0.5) #
MA415	The Mathematics of the Black and Scholes Theory (0.5) #
MA416	The Foundations of Interest Rate and Credit Risk Theory (0.5) #
MA420	Quantifying Risk and Modelling Alternative Markets (0.5) # (not available 2022/23)
MA427	Mathematical Optimisation (0.5) #
MY456	Survey Methodology (0.5) #
MY457	Causal Inference for Observational and Experimental Studies (0.5) #
MY459	Quantitative Text Analysis (0.5) #
MY461	Social Network Analysis (0.5)

Or other non-ST course(s), with permission.

### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information. The total value of all non-ST courses should not

exceed one unit.

The Bologna Process [lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm](http://lse.ac.uk/resources/calendar/programmeRegulations/taughtMasters/Bologna%20Process.htm) facilitates comparability and compatibility between higher education systems across the European Higher Education Area. Some of the School's taught master's programmes are nine or ten months in duration. If you wish to proceed from these programmes to higher study in EHEA countries other than the UK, you should be aware that their recognition for such purposes is not guaranteed, due to the way in which ECTS credits are calculated.

#### Progress rules to proceed to year in Fudan:

Students must pass at least three out of four units including the core courses ST425 (at paper 1) and ST422 and ST436 (at paper 2).

Students that have a one unit fail (but not a Bad Fail) including in any course taken as paper 1 or 2 will need to achieve compensation marks in their other courses in order to progress to Fudan as follows: a mark of 60 in at least one of the three passed units or an aggregate of 330 in those three passed units. A student that has failed any of the core courses ST425, ST422 and ST436 and can progress is still required to pass that failed course in order to be eligible for the award of the degree.

Any student with a fail that is unable to achieve the compensation rules as above must resit the failed course and pass in order to progress.

Any student who receives a Bad Fail mark cannot progress until that Bad Fail has been successfully resat and they then meet the progression rules outlined above. A Bad Fail mark cannot be compensated by other marks.

Students have one opportunity only to resit a failed LSE course.

The full programme must be successfully completed in order to be awarded the double degree. This means students who complete the year at LSE but go on to fail to progress after exhausting all of their attempts or are unable to complete the year at Fudan cannot be awarded an interim degree. I.e. they must successfully complete both LSE and Fudan programmes to achieve an overall award.

## LSE-Fudan Double Master's in International Social and Public Policy

### Year 1 at LSE

The first year is spent at LSE. Students must take two compulsory courses, options to the value of 2.0 units and a dissertation as shown.

### Year 2 at Fudan

Upon successful completion of the first year, students will move to study the second year at Fudan University, Shanghai, China.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.** Please refer to the progression rules below

## MSc in International Social and Public Policy (LSE and Fudan)

**Programme Code:** TMISPPWF

**Department:** Social Policy

For students starting this programme of study in 2022/23

Paper 1 SP400 International Social and Public Policy (0.5)  
and SP401 Understanding Policy Research (0.5) #

Papers 2

& 3

Courses to the value of 2.0 unit(s) from the following:

PP4X6	Welfare Analysis and Measurement (1.0)
SP403	Academic & Professional Skills Development (0.0) #
SP410	Migration: Current Research, Critical Approaches (0.5)
SP411	Social Policy and Development (0.5)
SP412	Non-Governmental Organisations, Social Policy and Development (0.5) #
SP413	Understanding Social (Dis)advantage (0.5)
SP414	Ethnicity, Race and Social Policy (0.5)
SP415	Urbanisation and Social Policy in the Global South (0.5) #
SP417	Sexuality, Everyday Lives and Social Policy in Developing Countries (0.5) #
SP418	Global Social Policy and International Organizations (0.5)
SP419	Social Movements, Activism, and Social Policy (0.5)
SP420	Understanding Policy Research (Advanced) (0.5) #
SP430	Social Security Policies (0.5)
SP432	Education Policy, Reform and Financing (0.5)
SP434	Behavioural Public Policy (0.5)
SP435	Housing, Neighbourhoods and Communities (0.5) # (not available 2022/23)
SP441	Politics of Social Policy: Welfare and Work in Comparative Perspective (0.5)
SP471	Issues in Contemporary Policing (0.5) # (not available 2022/23)
SP473	Policing, Security and Globalisation (0.5) #
SP475	Riots, Disorder and Urban Violence (0.5) #
SP476	Punishment and Penal Policy (0.5) #
	Relevant outside options subject to agreement by the Programme Director.
Paper 4	SP499 Dissertation - International Social & Public Policy (1.0)

### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course.

Please view the course guide for more information.

#### Progression:

Candidates will be awarded the "MSc in International Social and Public Policy" at the end of Year 1 (subject to the relevant classification scheme <https://info.lse.ac.uk/Staff/Divisions/Academic-Registrars-Division/Teaching-Quality-Assurance-and-Review-Office/Assets/Documents/Calendar/SchemeTaughtMasters-FourUnits.pdf>). Candidates must pass Year 2 at Fudan—in accordance with the rules of that university for fail/pass and retaking where appropriate—in order to be awarded the Fudan degree. Once awarded both of these individual degrees, candidates will be considered as having been awarded the Double Degree.

Students on the Double Degree progress to Year 2 at Fudan unless any of the exceptional circumstances below occur:

- (i.) A student has either deferred or not made a serious attempt in assessment for any course.
  - (ii.) A student has failed courses to the value of more than one unit.
  - (iii.) A student has indicated that they do not intend to make a serious attempt to submit a dissertation at the end of the first year at LSE and/or has not submitted formative work to their dissertation Supervisor.
- The Department will hold an assessment ratification meeting to consider the facts in relation to any of the above circumstances. The meeting will consider any medical and/ or exceptional circumstances presented

by a student, before deciding whether to recommend that they should progress to the second year or not. Any recommendation to progress in any of the above circumstances will require approval by the GSBE. The Programme Director will inform the student as soon as possible if they are allowed to progress to the second year.

## LSE-LSHTM MSc in Health Policy, Planning and Financing

**Programme Code:** TIHPPF

**Department:** Health Policy

For students starting this programme of study in 2022/23 Full-year programme taught jointly with the London School of Hygiene and Tropical Medicine (LSHTM). Students must take courses to the value of five units as shown below, and undertake a 10,000 word dissertation (value of one unit). It is mandatory that students take equal number of half-unit value courses (4:4 split) between the two institutions. It is required that exactly two first-term courses are taken at the London School of Hygiene and Tropical Medicine. The dissertation will be completed during the summer.

Course guides for all LSE courses can be accessed via the hyperlinks below. For information about LSHTM courses, the LSHTM module specifications can be viewed here <https://www.lshtm.ac.uk/study/courses/short-courses/modules-london#modules>.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper 1	HP400	Financing Health Care (0.5)
Paper 2	(LSHTM) 1107 Health Services (0.5) <b>or</b> (LSHTM) 1117 Health Policy Process and Power (0.5) A	
Paper 3	Obligation for all students to take <b>one</b> additional course to the value of 0.5 units at LSE from the following:	
	HP401	Introduction to Health Policy and Politics (0.5) A
	HP403	Health Systems and Policies in Developing Countries (0.5) (not available 2022/23)
	HP420	Health Economics (0.5) B
	HP424	Pharmaceutical Economics and Policy (0.5)
Paper 4	Obligation for all students to take <b>one</b> additional course to the value of 0.5 units at LSHTM from the following:	
	(LSHTM) 1107 Health Services (0.5)	
	(LSHTM) 1117 Health Policy, Process and Power (0.5) A	
	(LSHTM) 1123 Issues in Public Health (0.5)	
	(LSHTM) 2001 Basic Epidemiology (0.5) #	
	(LSHTM) 1103 Introduction to Health Economics (0.5) B	
Papers 5 & 6	Two LSE courses from the following:	
	HP402	Measuring Health System Performance (0.5)
	HP404	Global Health Policy: Institutions, Actors and Politics (0.5)
	HP405	Social Determinants of Health (0.5)
	HP407	Evidence Review and Synthesis for Decision Making (0.5)
	HP412	Global Health Security (0.5)
	HP421	Economic Analysis for Health Policy in Low- and Middle-Income Countries (0.5)
	HP422	Health Care Economic Evaluation (0.5) C
	HP423	Advanced Health Economics (0.5) #
	HP425	Statistical Methods in Health Care Economic Evaluation (0.5) #
	HP428	Randomised evaluations of health

	programmes: from design to implementation (0.5)
HP429	Behavioural Incentive Design in Health and Health Care (0.5)
HP432	Mental health policy (0.5) #
HP433	Health care regulation (0.5)
HP435	Global Access to Medicines (0.5)
HP436	Evidence Appraisal for Health Policy Analysis (0.5)

Another LSE course (not listed above) with permission.

Or any additional LSE course listed under Paper 3:

### Paper 3 options list

Papers 7 & 8 D

Two LSHTM courses from the following:  
 (LSHTM) 1127 Evaluation of Public Health Interventions (0.5)  
 (LSHTM) 1400 Health Care Evaluation (0.5)  
 (LSHTM) 1402 Conflict and Health (0.5)  
 (LSHTM) 1403 Organisational Management (0.5)  
 (LSHTM) 1501 Economic Evaluation (0.5) C  
 (LSHTM) 1503 Globalisation and Health (0.5)  
 (LSHTM) 1504 Economic Analysis for Health Policy (0.5)  
 (LSHTM) 1606 Health Decision Science (0.5)  
 (LSHTM) 1701 Reviewing the Literature (0.5)  
 (LSHTM) 1803 Sociological Approaches to Health (0.5)  
 (LSHTM) 1807 Health Promotion Approaches and Methods (0.5)  
 (LSHTM) 1808 Health Systems (0.5)  
 (LSHTM) 2342 Design and Evaluation of Mental Health Programmes (0.5)  
 (LSHTM) 2401 Family Planning Programmes (0.5)  
 (LSHTM) 2402 Statistical Methods in Epidemiology (0.5)  
 (LSHTM) 2407 Epidemiology of Non-Communicable Diseases (0.5)  
 (LSHTM) 2417 Design & Analysis of Epidemiological Studies (0.5)  
 (LSHTM) 2437 Epidemiology and Control of Communicable Diseases (0.5)  
 (LSHTM) 2459 Current Issues in Safe Motherhood and Perinatal Health (0.5)  
 (LSHTM) 2472 Social Epidemiology (0.5)  
 (LSHTM) 3135 Spatial Epidemiology in Public Health (0.5)  
 (LSHTM) 3189 Ethics, Public Health and Human Rights (0.5)  
 (LSHTM) 3195 Epidemiology and Control of Malaria (0.5)  
 (LSHTM) 3198 Applying Public Health Principles in Developing Countries (0.5)  
 Another LSHTM course (not listed above) with permission.

Paper 9

HP409 Dissertation for MSc Health Policy, Planning and Financing (1.0)

### Paper 3 options list

HP401	Introduction to Health Policy and Politics (0.5)
HP403	Health Systems and Policies in Developing Countries (0.5) (not available 2022/23)
HP420	Health Economics (0.5)
HP424	Pharmaceutical Economics and Policy (0.5)

### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

### Footnotes

A: HP401 Introduction to Health Policy and Politics may not be combined with LSHTM 1117 Health Policy, Process and Power.

B: HP420 Health Economics may not be combined with LSHTM 1103 Introduction to Health Economics.  
 C: HP422 Health Care Economic Evaluation may not be combined with LSHTM 1501 Economic Evaluation.  
 D: Up to 1 unit of LSHTM option courses may be taken as the distance learning version of the course.  
 # means there may be prerequisites for this course. Please view the course guide for more information.  
 For any pre-requisites on LSHTM courses, check LSHTM course specifications.

**Note for prospective students:**

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## LSE-NUS Double Degree MA in Asian and International History

Two-year programme. Students take the first year at National University of Singapore, and the second year at LSE as follows.

**Programme Code:** TMHYNUS

**Department:** International History

For students starting this programme of study in 2022/23

Full-year programme. Students take courses to the value of three full units and a dissertation.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

Paper 1 HY4A4 Dissertation with an Asian focus (1.0)

Paper 2 **International History**

Courses to the value of 1.0 unit(s) from the following:

- HY400 Crisis Decision-Making in War and Peace 1914-2003 (1.0) #
- HY411 European Integration in the Twentieth Century (1.0) #
- HY422 Presidents, Public Opinion, and Foreign Policy, from Roosevelt to Reagan, 1933-89 (1.0)
- HY424 The Napoleonic Empire: The Making of Modern Europe (1.0) (not available 2022/23)
- HY429 Anglo-American Relations from World War to Cold War, 1939-91 (1.0)
- HY432 From Cold Warriors to Peacemakers: the End of the Cold War Era, 1979-1999 (1.0)
- HY434 The Rise and Fall of Communism in Europe 1917-1990 (1.0)
- HY436 Race, Violence and Colonial Rule in Africa (1.0) (not available 2022/23)
- HY444 The Cold War in Latin America (1.0) (not available 2022/23)
- HY459 The Ottoman Empire and its Legacy, 1299-1950 (1.0) (not available 2022/23)
- HY463 The Origins of the Cold War, 1917-1962 (1.0)
- HY465 The International History of the Balkans since 1939: State Projects, Wars, and Social Conflict (1.0)
- HY469 Maps, History and Power: The Spaces and Cultures of the Past (1.0)
- HY480 Cold War Public Diplomacy: United States Cultural Battles Abroad (1.0) # (not

available 2022/23)

- HY483 Land and Conflict in Latin America since 1750 (1.0)
- HY484L Empire, Colonialism and Globalisation (0.5) 1
- HY484M Empire, Colonialism and Globalisation (0.5) 2
- HY486 The Anti-Slave-Trade Atlantic World, c. 1807-1870 (1.0)
- HY488 European Empires and Global Conflict, 1935-1948 (0.5)
- HY491 Race, Gender and Reproduction in the Caribbean, 1860s-1930s (0.5)
- HY4A5 Women as Weapons: The Conservative Political Tradition in the Cold War (0.5) (not available 2022/23)
- HY4B1 The Vietnam Wars, 1930-75: Regional and International Perspectives (1.0)
- HY4B2 The Afterlives of Empires in the Neo-Colonial Caribbean (0.5) (not available 2022/23)
- HY4B6 German Transformations since 1990 (0.5)

Paper 3

### Asian History, Politics and Society

Courses to the value of 1.0 unit(s) from the following:

- HY461 East Asia in the Age of Imperialism, 1839-1945 (1.0) #
- HY478 Genesis of the Modern World: Europe, China & India, 1550-1840 (1.0)
- HY487 Islam, State and Conflict in Southeast Asia (0.5)
- HY489 China and the External World, 1644-1839 (0.5)
- HY4A7 Islam, Power and Culture in Mughal India (0.5)
- HY4A8 Asian Borderlands (0.5)
- HY4A9L China and the United States Since 1949 (0.5) 3
- HY4A9M China and the United States Since 1949 (0.5) 4
- HY4B1 The Vietnam Wars, 1930-75: Regional and International Perspectives (1.0)
- HY4B4 Maritime Asia in Transition, 1405-1839 (0.5)
- AN420 The Anthropology of Southeast Asia (0.5) (not available 2022/23)
- AN444 Investigating the Philippines - New Approaches and Ethnographic Contexts (0.5) # (not available 2022/23)
- AN447 China in Comparative Perspective (1.0)
- DV432 China in Developmental Perspective (0.5) # (not available 2022/23)
- EH404 India and the World Economy (0.5)
- EH409 Chinese Economic History: Culture, Institutions and Economic Growth (0.5)
- EH446 Economic Development of East and Southeast Asia (1.0) #
- EH482 The Origins of the World Economy: Europe and Asia, 1000-1800 (1.0)
- EH486 Shipping and Sea Power in Asian Waters, c 1600-1860 (0.5) (not available 2022/23)
- GV432 Government and Politics in China (0.5)
- GY438 Urban Asia: Cities and Social Change (0.5)

#### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

## MSc in European and International Public Policy (LSE and Sciences Po)

**Programme Code:** TMEIPP3

**Department:** European Institute

For students starting this programme of study in 2021/22

Students must take one half unit compulsory course; choose 1 unit of semi-compulsory courses; optional courses to the value of 1.5 units; and a dissertation or applied policy project as shown below. Additionally, all students must select EU450 Engaging with Europe: Professional Skills during course choice. Places on EU450 workshops are on a first come first served basis.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

#### Professional development course

EU450 Engaging with Europe: Professional Skills (0.0)

Paper 1

#### Foundation

EU490 Evidence and Analysis in Policy-Making (0.5)

#### Or

Students who can demonstrate equivalent prior knowledge of EU490 Evidence and Analysis in Policy-Making may instead take the below course, subject to Programme Director approval:

MY452L Applied Regression Analysis (0.5) # 1\* **or**

MY452M Applied Regression Analysis (0.5) # 2\*

Paper 2

**Students with limited background in European politics and policy-making or economics are strongly encouraged to take one or both of the following to support their studies:**

EU409 Basic Economic Concepts for European Political Economy (0.0)

EU4V9 Concepts in Political Science and Public Policy (0.0)

#### Courses to the value of 1.0 unit(s) from the following:

EU487 European Integration from a Global Governance Perspective (0.5) #

EU488 European Policy-Making and International Cooperation (0.5) #

EU489 Analytical Politics and Policymaking in Europe (0.5)

Paper 3

#### Optional courses

**Courses to the value of 1.5 units from the following: If students wish their optional courses to result in a degree specialism, their chosen optional courses must come to a total value of at least one full unit from that specialism. Students may select a maximum of 0.5 units from the section 'Methods', courses from this section cannot result in a specialism.**

#### Public Policy & Policy-Making in Europe

EU421	Policy-Making in the European Union (0.5) #
EU425	Interest Representation and Economic Policy-Making in Europe (0.5) (withdrawn 2022/23)
EU464	International Migration: EU Policies and Politics (0.5) #
EU468	The Political Economy of Migration in Europe (0.5) #
EU489	Analytical Politics and Policymaking in Europe (0.5)

**LSE-Sciences Po Double Degree in the Political Economy of Development**

Students take the first year at Sciences Po and the second year at LSE. At LSE students will follow the programme regulations for the MSc in Development Management.

**Please note that places are limited on some optional courses.**

**Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**MSc in Development Management (LSE and Sciences Po)**

**Programme Code:** TMDMSP

**Department:** International Development

For students starting this programme of study in 2022/23

Full-year programme. Students must take courses to the value of three full units and a dissertation as shown.

Students who choose to concentrate their electives and dissertation in a certain topic area may elect to have a specialism in "African Development", "Population Studies" or "Applied Development Economics" attached to their degree certificate and transcript. To obtain the specialism indication, students must meet the criteria below.

**African Development:** students must take DV418 and DV435, and their dissertation topic must be approved as being appropriate for this specialism.

**Population Studies:** students must take DV476 and DV456, and their dissertation topic must be approved as being appropriate for this specialism.

**Applied Development Economics:** enrolment capacity is limited and may be based on performance on a pre-quiz which will enable students to take at least two of DV490, DV491, DV492, and their dissertation topic must be approved as being appropriate for this specialism.

If no such election is made, the degree certificate will state "Development Management" without further specification.

Paper 1 DV431 Development Management (1.0)

Papers 2 & 3 Courses to the value of 2.0 unit(s) from the following: It is highly recommended that students take DV443 as part of papers 2&3:

DV443	Development Management Consultancy Project (0.5)
AC470	Accounting in the Global Economy (0.5) #
DV407	Poverty (0.5)
DV411	Population and Development: an Analytical Approach (0.5) (not available 2022/23)

Paper 4

DV413	Environmental Problems and Development Interventions (0.5) #
DV415	Global Environmental Governance (0.5)
DV418	African Development (0.5)
DV420	Complex Emergencies (0.5)

	GY415 Local Capacity and Economic Development Policy (0.5) (not available 2022/23)
	GY431 Cities, People and Poverty in the South (0.5) #
	GY432 Urban Ethnography (0.5) (not available 2022/23)
	GY438 Urban Asia: Cities and Social Change (0.5)
	GY439 Cities, Politics and Citizenship (0.5)
	GY441 The Politics of Housing (0.5) (not available 2022/23)
	GY446 Planning for Sustainable Cities (0.5)
	GY449 Urban Futures (0.5) #
	GY455 Economic Appraisal and Valuation (0.5)

	GY460 Techniques of Spatial Economic Analysis (0.5) #
	GY462 Real Estate Finance (0.5)
	GY465 Concepts in Environmental Regulation (0.5)
	GY470 Urban Africa (0.5)
	GY476 Applied Geographical Information Systems (0.5)
	GY479 Urban Transformations (0.5) (not available 2022/23)
	GY480 Remaking China: Geographical aspects of Development and Disparity (0.5) (not available 2022/23)
	PP465 City-Making: the Politics of Urban Form (0.5)
	SO480 Urban Inequalities (0.5)
	A half-unit course from another programme at the discretion of the Programme Director, by special permission only.
Paper 5	GY450 Planning Practice and Research (0.0) A
Paper 6	GY484 Dissertation - MSc Regional and Urban Planning Studies (1.0)

### MSc in Urbanisation and Development

Full-year programme. Students must take courses to the value of four full units.

Paper 1	GY452 Urban Research Methods (0.5)
	GY459 Urban Theory and Policy in the Global South (0.5)
Paper 2	Courses to the value of 1.0 unit(s) from the following:
	DV400 Development: History, Theory and Policy (1.0) #
	DV407 Poverty (0.5) B
	DV411 Population and Development: an Analytical Approach (0.5) (not available 2022/23)
	DV418 African Development (0.5)
	DV420 Complex Emergencies (0.5)
	DV421 Critical Perspectives on Global Health and Development (0.5) C
	DV433 The Informal Economy and Development (0.5) (not available 2022/23)
	DV442 Key Issues in Development Studies (0.5)
	In exceptional cases it may be possible to make alternative choices for Papers 2 & 3 with the approval of the Programme Director.
Paper 3	Courses to the value of 1.0 unit(s) from the following:
	GY400 The Economics of Urbanisation (0.5) #
	GY431 Cities, People and Poverty in the South (0.5) #
	GY432 Urban Ethnography (0.5) (not available 2022/23)
	GY438 Urban Asia: Cities and Social Change (0.5)
	GY439 Cities, Politics and Citizenship (0.5)
	GY441 The Politics of Housing (0.5) (not available 2022/23)
	GY446 Planning for Sustainable Cities (0.5)
	GY449 Urban Futures (0.5) #
	GY455 Economic Appraisal and Valuation (0.5)
	GY470 Urban Africa (0.5)
	GY476 Applied Geographical Information Systems (0.5)
	GY479 Urban Transformations (0.5) (not available 2022/23)
	SO480 Urban Inequalities (0.5)
	Other urban and/or development courses available in the School as approved by the Programme Director.
Paper 4	GY488 Dissertation - MSc Urbanisation and Development (1.0)
	<b>Papers 1 &amp; 2 options list</b>
	GY404 Inclusive Growth (0.5) #
	GY409 Globalisation and territorial development: Theory, Evidence and Policy (0.5)
	GY410 Economics of Local and Regional

	Development (0.5)
GY413	Regional Development and Policy (0.5) #
GY415	Local Capacity and Economic Development Policy (0.5) (not available 2022/23)

#### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information. 1: MY452L can not be taken with MY452M

#### Footnotes

A: GY450 is non-assessed but compulsory.  
B: DV407 is a capped course with priority for International Development students so admission is not guaranteed.  
C: DV421 is a capped course with priority for International Development students so admission is not guaranteed.

## LSE-Sciences Po Double Degree in Urban Policy

Students take the first year at Sciences Po and the second year at LSE. At LSE students will follow the programme regulations for **either** the MSc in Local Economic Development; **or** MSc in Regional and Urban Planning Studies; **or** MSc in Urbanisation and Development as follows:

**Programme Code:** TMURPO

**Department:** Geography & Environment

For students starting this programme of study in 2021/22

MSc in Local Economic Development

Full-year programme. Students must take courses to the value of three full units as shown and a dissertation (1 unit). A total of 4 units.

Papers 1 & 2 Courses to the value of 2.0 unit(s) from the following:

GY404	Inclusive Growth (0.5) #
GY409	Globalisation and territorial development: Theory, Evidence and Policy (0.5)
GY410	Economics of Local and Regional Development (0.5)
GY413	Regional Development and Policy (0.5) #
GY415	Local Capacity and Economic Development Policy (0.5) (not available 2022/23)

Paper 3 Courses to the value of 1.0 unit(s) from the following: Any course not already taken under Papers 1 & 2, from the Papers 1 & 2 options list below

EU439	Political and Fiscal Integration and Disintegration in EU Member States (0.5) (withdrawn 2022/23)
EU477	Labour Markets and the Political Economy of Employment in Europe (0.5) #
GY400	The Economics of Urbanisation (0.5) #
GY420	Environmental Regulation: Implementing Policy (1.0)
GY428	Applied Quantitative Methods (0.5) #
GY431	Cities, People and Poverty in the South (0.5) #
GY438	Urban Asia: Cities and Social Change (0.5)
GY447	The Economics of Regional and Urban Planning (0.5) #
GY455	Economic Appraisal and Valuation (0.5)
GY460	Techniques of Spatial Economic Analysis (0.5) #
GY465	Concepts in Environmental Regulation (0.5)
GY470	Urban Africa (0.5)
GY475	Issues in Environmental Governance (0.5)
GY476	Applied Geographical Information Systems (0.5)
GY480	Remaking China: Geographical aspects of Development and Disparity (0.5) (not available 2022/23)
MY452L	Applied Regression Analysis (0.5) # 1
MY452M	Applied Regression Analysis (0.5) #

A relevant course from another programme as approved by the Programme Director.

#### Papers 1 & 2 options list

Paper 4	GY486	Dissertation - MSc Local Economic Development (1.0)
---------	-------	---

## MSc in Regional and Urban Planning Studies

Full-year programme. Students must take courses to the value of three full units and a dissertation. Additionally all students are required to take GY450 Planning Practice and Research. This programme is externally accredited by the RICS. Further information is available on the Geography and Environment Department [lse.ac.uk/collections/geographyAndEnvironment/](http://lse.ac.uk/collections/geographyAndEnvironment/) website (see Quick Links to Regional and Urban Planning Studies).

## MPA Dual Degree (LSE and Sciences Po)

This programme is 21 months.

**Programme Code:** TMDMPA3

**Department:** School of Public Policy

For students starting this programme of study in 2021/22

### 1.

#### Route 1

#### Year 1 at LSE

#### Before Year 1

All students attend the following MPA introductory course:

PP408 Introduction to Quantitative Methods for the MPA Programme (0.0)

#### During Year 1

All students must complete the three Compulsory Courses in Papers 1, 2 & 3 below:

Paper 1	PP440	Micro and Macro Economics (for Public Policy) (1.0)
Paper 2	PP455	Quantitative Approaches and Policy Analysis (1.0)
Paper 3	PP478	Political Science for Public Policy (1.0)
Paper 4		Courses to the value of 1.0 unit from the MPA Course List below:

#### MPA Dual Degree Course List

Note: The course(s) chosen by the student must have a total credit value of 1.0 unit (therefore, either one course with a credit value of 1.0, or two courses which both have a credit value of 0.5).

#### Year 2 at Sciences Po

On successful completion of the first year of that programme at LSE, students who have accepted an offer of a dual degree place will transfer to the MPA Dual Degree. Students will follow the MPP programme at Sciences Po.

### 2.

#### Route 2

#### Year 1 at Sciences Po

Students will follow the MPP programme at Sciences Po.

#### Year 2 at LSE

Paper 1	Students must take courses to the value of four units as set out below:
Papers 2, 3 & 4	<p>PP4B3 MPA Capstone Project (1.0)</p> <p>Plus one of the following:</p> <p>PP4V8 Policy Paper (0.5)</p> <p>And 2.5 units of optional courses from the following:</p> <p><b>MPA Dual Degree Course List</b></p> <p><b>Or</b></p> <p>PP4B4 Dissertation (1.0)</p> <p>And 2.0 units of optional courses from the following:</p> <p><b>MPA Dual Degree Course List</b></p> <p><b>Or</b></p> <p>Courses to the value of 3.0 unit(s) from the following:</p> <p><b>MPA Dual Degree Course List</b></p> <p><b>Prerequisite Requirements and Mutually Exclusive Options</b></p> <p># means there may be prerequisites for this course. Please view the course guide for more information.</p> <p><b>Footnotes</b></p> <p>A: Designed for Year 2 students; only available in Year 1 with permission from the Programme Director.</p> <p>B: Designed for Year 2 students; only available in Year 1 with permission from the Programme Director.</p> <p>C: Not available in Year 1.</p> <p>D: Not available in Year 1.</p> <p>E: Not available in Year 1.</p> <p>F: Not available in Year 1.</p> <p>G: Not available in Year 1.</p>

**This programme has been discontinued. Last year of entry 2021/22.**

#### Note for prospective students:

For changes to graduate course and programme information for the next academic session, please see the graduate summary page for prospective students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGProspective.htm). Changes to course and programme information for future academic sessions can be found on the graduate summary page for future students [lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm](http://lse.ac.uk/resources/calendar/CourseAndProgrammeInfo/updatedPGFuture.htm).

## MPA Dual Degree (LSE and Tokyo)

This programme is 24 months.

**Programme Code:** TMDMPA6

**Department:** School of Public Policy

For students starting this programme of study in 2022/23

### 1.

#### Route 1

#### Year 1 at LSE

#### Before Year 1

All students attend the following MPA introductory course:

PP408 Introduction to Quantitative Methods for the MPA Programme (0.0)

#### During Year 1

All students must complete the three Compulsory Courses in Papers 1, 2 & 3 below:

Paper 1	PP440	Micro and Macro Economics (for Public Policy) (1.0)
Paper 2	PP455	Quantitative Approaches and Policy Analysis (1.0)
Paper 3	PP478	Political Science for Public Policy (1.0)
Paper 4		Courses to the value of 1.0 unit from the MPA Course List below:

#### MPA Dual Degree Course List

**Note:** The course(s) chosen by the student must have a total credit value of 1.0 unit (therefore, either one course with a credit value of 1.0, or two courses which

both have a credit value of 0.5).  
Year 2 at the University of Tokyo Graduate School of Public Policy

On successful completion of the first year of that programme at LSE, students who have accepted an offer of a dual degree place will transfer to the MPA Dual Degree. Students will follow the MPP/IP at the University of Tokyo Graduate School of Public Policy.

## 2. Route 2

### Year 1 at the University of Tokyo Graduate School of Public Policy

Students will follow the MPP/IP at the University of Tokyo Graduate School of Public Policy.

### Year 2 at LSE

Students must take courses to the value of four units as set out below:

Paper 1 PP4B3 MPA Capstone Project (1.0)

Papers 2, 3 & 4

Plus one of the following:

PP4V8 Policy Paper (0.5)

And 2.5 units of optional courses from the following:

#### MPA Dual Degree Course List

Or

PP4B4 Dissertation (1.0)

And 2.0 units of optional courses from the following:

#### MPA Dual Degree Course List

Or

Courses to the value of 3.0 unit(s) from the following:

#### MPA Dual Degree Course List

#### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course.

Please view the course guide for more information.

#### Footnotes

A: Designed for Year 2 students; only available in Year 1 with permission from the Programme Director.

B: Designed for Year 2 students; only available in Year 1 with permission from the Programme Director.

C: Not available in Year 1.

D: Not available in Year 1.

E: Not available in Year 1.

F: Not available in Year 1.

G: Not available in Year 1.

## MPA Dual Degree (LSE and Tokyo)

This programme is 24 months.

**Programme Code:** TMDMPA6

			636	Interpretive and Cultural Approaches in Organizational Communication (4, 2 years, Fa)
			637	Current Readings in Organizational Communication (4, 2 years, Sp)
			638	Global, International and Intercultural

Communication in Organizations (4, 2 years, Fa)  
640 Communication and Organizational Change (4, Fa)

645 Communication Networks (4, 2 years, Sp)

646 Negotiating Boundaries in Environmental Research (2)

647x Seminar on the Network Society (4, Fa)

599 Special Topics (various special one-time course offerings)

(Fa) means Fall semester

(Sp) means Spring semester

(Sm) means Summer semester

In addition to coursework offered at the Annenberg School of Communication, subject to the consent of the candidate's USC adviser and program director, students may take up to a maximum of 4 units of at the 400-level at Annenberg and graduate-level coursework from other schools or departments at the University of Southern California towards their remaining 20 unit requirement.

#### **Prerequisite Requirements and Mutually Exclusive Options**

# means there may be prerequisites for this course. Please view the course guide for more information.

#### **Footnotes**

A: MY452 is an advanced Applied Regression Analysis course offered by the Department of Methodology and must be taken by students who select MC4M7. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject to timetabling constraints.

B: The dissertation must be between 10,000 and 12,000 words). Passing MC499 is a requirement for passing the programme.

## **MSc in Global Media and Communications (LSE and UCT)**

**Programme Code:** TMGLMECO3

**Department:** Media and Communications

For students starting this programme of study in 2022/23

### **Year 1 at LSE**

**Students take a total of three LSE units and a dissertation as shown.**

Paper 1 MC408 Theories and Concepts in Media and Communications (0.5)

**And** one of the following 0.5 unit courses:

MC4M1 Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (0.5) **or**

MC4M7 Methods of Research in Media & Communications (including Qualitative Analysis & Applied Regression Analysis) (0.5) A

Paper 2 MC411 Media and Globalisation (0.5)

Paper 3 Courses to the value of 1.5 unit(s) from the following:

GI422 Transnational Sexual Politics (1.0)

MC407 International Media and The Global South (0.5)

MC416 Representation in the Age of Globalisation (0.5)

MC420 Identity, Transnationalism and the Media (0.5)

MC423 Global Media Industries (0.5)

MC426 Film Theory and World Cinema (0.5)

MC428 Media Culture and Neoliberalism in the Global South (0.5)

MC429 Humanitarian Communication: Vulnerability, Discourse and Power (0.5)

MC433 Technology and Justice (0.5) #

MC436 Mediating the Past (0.5)

MC437 Media, Data and Social Order (0.5) #

MC438 Mediated Feminisms (0.5)

MC439 Media, Technology, and the Body (0.5)

Any other MSc-level course which is offered in the School, subject to the consent of the candidate's programme director. NOTE: Students can take no more than one full unit of courses from outside the department of Media and Communications (non MC-prefixed courses).

Paper 4 MC499 Dissertation: Media and Communications (1.0) B

### **Year 2 at UCT**

Paper 5 Students are required to complete a minor dissertation research project or creative production, two compulsory taught courses and two elective taught courses of which no more than one can be at HEQF Level 8 (4000 level).

#### **Compulsory courses**

FAM4011F/S Media Internship (HEQF Credits 24, HEQF Level 8)

FAM5013F Advanced Media Methodology (HEQF Credits 24, HEQF Level 9)

FAM5006W Master's Media Research Project **or** FAM5012W Master's Media Creative Production (HEQF Credits 96, HEQF Level 9)

#### **Elective courses**

Students select one F elective and one S elective course from the list below. Not all electives may be offered every year and only one elective may be on HEQF Level 8 (4000 level). One of the two elective courses may be taken in another cognate UCT department such as the Centre for African Studies, Historical Studies, Political Studies, or Anthropology:

AM4007F Narrative Literary Journalism

FAM4010F Media Markets and Media Strategy

FAM4013F Political Communication

FAM4017F Advanced Television Analysis

FAM4032F Understanding Public Argumentation

FAM4033F Screenwriting

FAM5039F Approaches to African Cinema

FAM4004S Avant-Garde Film

FAM4014S Political Journalism

FAM4015S Environmental Documentary

FAM4016S Wildlife Documentary

FAM4031S South African Public Rhetoric

FAM4034S Forms and Theories of Adaptation

FAM5011S Media and the Public Domain

FAM5016S Creative Non-Fiction

FAM5036S Rhetoric of SA Social Memory

FAM5038S Mobile Media and Communications

FAM5040S Conceptualising SA Cinema

#### **Prerequisite Requirements and Mutually Exclusive Options**

# means there may be prerequisites for this course. Please view the course guide for more information.

#### **Footnotes**

A: MY452 is an advanced Applied Regression Analysis course offered by the Department of Methodology and must be taken by students who select MC4M7. # means there may be prerequisites for this course. Please view the course guide for more information.

### Footnotes

A: MY452 is an advanced Applied Regression Analysis course offered by the Department of Methodology and must be taken by students who select MC4M7. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject to timetabling constraints.

B: The dissertation must be between 10,000 and 12,000 words). Passing MC499 is a requirement for passing the programme.

## MSc in Global Media and Communications (LSE and USC)

**Programme Code:** TMGLMECO

**Department:** Media and Communications

For students starting this programme of study in 2021/22

### Year 1 at LSE

**Students take a total of three LSE units and a dissertation as shown.**

Paper 1	MC408	Theories and Concepts in Media and Communications (0.5)
	<b>And</b>	one of the following 0.5 unit courses:
	MC4M1	Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (0.5) <b>or</b>
	MC4M7	Methods of Research in Media & Communications (including Qualitative Analysis & Applied Regression Analysis) (0.5) A
Paper 2	MC411	Media and Globalisation (0.5)
Paper 3		Courses to the value of 1.5 unit(s) from the following:
	GI422	Transnational Sexual Politics (1.0)
	MC407	International Media and The Global South (0.5)
	MC416	Representation in the Age of Globalisation (0.5)
	MC420	Identity, Transnationalism and the Media (0.5)
	MC423	Global Media Industries (0.5)
	MC426	Film Theory and World Cinema (0.5)
	MC428	Media Culture and Neoliberalism in the Global South (0.5)
	MC429	Humanitarian Communication: Vulnerability, Discourse and Power (0.5)
	MC433	Technology and Justice (0.5) #
	MC435	Disruptive Digital Worlds: Competing Economic and Political Economy Explanations (0.5) (withdrawn 2022/23)
	MC436	Mediating the Past (0.5)
	MC437	Media, Data and Social Order (0.5) #
	MC438	Mediated Feminisms (0.5)
	MC439	Media, Technology, and the Body (0.5)
		Any other MSc-level course which is offered in the School, subject to the consent of the candidate's programme director. NOTE: Students can take no more than one full unit of courses from outside the department of Media and Communications (non MC-prefixed courses).

Paper 4	MC499 Dissertation: Media and Communications (1.0) B	559 Globalization, Communication and Society (4, Fa)
	<b>Year 2 at USC</b>	560 Communications Policy (4, Fa/Sm)
	Students take a total of 24 USC units.	562x Cognitive Approaches to Communication (4, 2 years, Fa)
Paper 5	COMM 598 Global Communication Research Practicum (4 USC units)	565 Communication Law and Broadcasting (4, Fa/Sp)
	20 USC units (normally total of 5 courses; all Communication courses 4 units each):	566 Communication Law and New Technologies (4, Sp)
	500 Managing Communication (4, Sp/Sm)	567 Internet Policy, Practice and Regulation (4, Fa/Sp)
	501 Communication Management Pro-Seminar (4, Fa/Sp)	570 Economics of the Communication Industries (4, Fa)
	502 Strategic Corporate Communication (4, Sp)	571 Communications Technologies (4, Fa/Sp)
	504x Seminar in Interpersonal Communication (4, Fa, even years)	572 Telephone, Data, and Video Telecommunication Systems (4, Sp)
	505 Communication in Work Settings (4, Fa)	573 Evaluating Communication Needs (4, Sp)
	506 Images and Image Management (4, Sp)	574 Tele-Media: A Strategic and Critical Analysis (4, FaSp)
	507 Information Management (4, Fa)	575 Advocacy and Social Change in Entertainment and the Media (4, Fa)
	508x Power, Politics and Conflict in Communication (4, 2 years, Sp)	576 Communication Strategies for Conflict Management (4, Sm)
	509x Seminar in Classical Rhetorical Theory (4, Fa)	580 Media and Politics (4, Fa/Sp)
	510 Communication, Values, Attitudes, and Behavior (4, Fa/Sp)	581 Media in Social Services: Design and Evaluation of Campaigns (4, Fa)
	511x Seminar in Contemporary Rhetorical Theory (4, Sp)	582 International Communication: National Development (4, Sm)
	512x Seminar in Rhetorical Criticism (4, Fa)	583 Global Entertainment Education Programs (4, Sp)
	513x Seminar in Neoclassical Rhetorical Theory (4, 2 years, Sm)	584 Seminar: Interpreting Popular Culture (4, Fa)
	514x Seminar: Social Movements as Rhetorical Form (4, 2 years, Sp)	585x Organizational Communication (4, 2 years, Sp)
	515x Seminar in Postmodern Rhetorical Theory (4, 2 years, Fa)	587 Audience Analysis (4, Fa)
	516x Seminar: Feminist Theory and Communication (4, 2 years, Sp)	605 Advanced Macro Theories of Communication I (4, 2 years, Sp)
	517x Seminar in Rhetorical Theory and Culture (4, Sp)	610 Studies in Rhetorical Theory (4, max 8, Fa/Sp/Sm)
	518x American Public Address (4, Sp, odd years)	618 Mass Media Effects (4, Fa)
	519x Seminar: Cultural Studies in Communication (4, 2 years, Fa)	620 Studies in Communication Theory (2-4, max 8, Fa/Sp)
	520 Social Roles of Communication Media (4, Fa/Sp)	625 Theory Construction in Communication (4, Sm)
	521x Seminar in Argumentation (4, 2 years, Sp)	629 Global Culture (4, Fa)
	522x Seminar in Kenneth Burke's Dramatistic Theory (4)	630 Communication Technology and Social Change (4, Sp)
	524x Seminar in Small Group Process (4, Sp, even years)	631x Minds and Media (4, Sp)
	528 Web Designs for Organizations (4, Fa/Sp)	635 Economics of Information (4, Sp)
	530 Social Dynamics of Communication Technologies (4, Sp/Sm)	636 Interpretive and Cultural Approaches in Organizational Communication (4, 2 years, Fa)
	531 Communication and the International Economy (4, Fa)	637 Current Readings in Organizational Communication (4, 2 years, Sp)
	532 Development of American Media Industry (4, Fa)	638 Global, International and Intercultural Communication in Organizations (4, 2 years, Fa)

	545 Communication and Global Competition (4, Sp)	In addition to coursework offered at the Annenberg School of Communication, subject to the consent of the candidate's USC adviser and program director, students may take up to a maximum of 4 units of at the 400-level at Annenberg and graduate-level coursework from other schools or departments at the University of Southern California towards their remaining 20 unit requirement.
	546 Seminar in Diffusion Theory and Research (4, 2 years, Sp)	<b>Prerequisite Requirements and Mutually Exclusive Options</b>
	547 Distribution of Recordings: Media, Retail and Online Channels (4, Sp)	# means there may be prerequisites for this course. Please view the course guide for more information.
	548 Issues in Children's Media (4, Sp)	<b>Footnotes</b>
	553 Political Economy of Global Telecommunications and Information (4, Sp)	A: MY452 is an advanced Applied Regression Analysis
	557 Communication Policy in the Global Marketplace (4, Fa)	
	558 The International Entertainment Marketplace (4, Fa)	

course offered by the Department of Methodology and must be taken by students who select MC4M7. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject to timetabling constraints.

B: The dissertation must be between 10,000 and 12,000 words). Passing MC499 is a requirement for passing the programme.

## MSc in Global Media and Communications

**Programme Code:** TMGLMEC03

**Department:** Media and Communications

For students starting this programme of study in 2021/22

### Year 1 at LSE

**Students take a total of three LSE units and a dissertation as shown.**

Paper 1	MC408	Theories and Concepts in Media and Communications (0.5)
	<b>And</b>	one of the following 0.5 unit courses:
	MC4M1	Methods of Research in Media & Communications (including Qualitative & Quantitative Analysis) (0.5) <b>or</b>
	MC4M7	Methods of Research in Media & Communications (including Qualitative Analysis & Applied Regression Analysis) (0.5) A
Paper 2	MC411	Media and Globalisation (0.5)
Paper 3		Courses to the value of 1.5 unit(s) from the following:
	GI422	Transnational Sexual Politics (1.0)
	MC407	International Media and The Global South (0.5)
	MC416	Representation in the Age of Globalisation (0.5)
	MC420	Identity, Transnationalism and the Media (0.5)
	MC423	Global Media Industries (0.5)
	MC426	Film Theory and World Cinema (0.5)
	MC428	Media Culture and Neoliberalism in the Global South (0.5)
	MC429	Humanitarian Communication: Vulnerability, Discourse and Power (0.5)
	MC433	Technology and Justice (0.5) #
	MC435	Disruptive Digital Worlds: Competing Economic and Political Economy Explanations (0.5) (withdrawn 2022/23)
	MC436	Mediating the Past (0.5)
	MC437	Media, Data and Social Order (0.5) #
	MC438	Mediated Feminisms (0.5)
	MC439	Media, Technology, and the Body (0.5)
		Any other MSc-level course which is offered in the School, subject to the consent of the candidate's programme director. NOTE: Students can take no more than one full unit of courses from outside the department of Media and Communications (non MC-prefixed courses).

Paper 4 MC499 Dissertation: Media and Communications (1.0) B

### Year 2 at UCT

Paper 5 Students are required to complete a minor dissertation research project or creative production, two compulsory taught courses and two elective taught courses of which no more than one can be at HEQF Level 8 (4000 level).

#### Compulsory courses

FAM4011F/S	Media Internship (HEQF Credits 24, HEQF Level 8)
FAM5013F	Advanced Media Methodology (HEQF Credits 24, HEQF Level 9)
FAM5006W	Master's Media Research Project
<b>Or</b>	
FAM5012W	Master's Media Creative Production

(HEQF Credits 96, HEQF Level 9)

#### Elective courses

Students select one F elective and one S elective course from the list below. Not all electives may be offered every year and only one elective may be on HEQF Level 8 (4000 level). One of the two elective courses may be taken in another cognate UCT department such as the Centre for African Studies, Historical Studies, Political Studies, or Anthropology:

AM4007F	Narrative Literary Journalism
FAM4010F	Media Markets and Media Strategy
FAM4013F	Political Communication
FAM4017F	Advanced Television Analysis
FAM4032F	Understanding Public Argumentation
FAM4033F	Screenwriting
FAM5039F	Approaches to African Cinema
FAM4004S	Avant-Garde Film
FAM4014S	Political Journalism
FAM4015S	Environmental Documentary
FAM4016S	Wildlife Documentary
FAM4031S	South African Public Rhetoric
FAM4034S	Forms and Theories of Adaptation
FAM5011S	Media and the Public Domain
FAM5016S	Creative Non-Fiction
FAM5036S	Rhetoric of SA Social Memory
FAM5038S	Mobile Media and Communications
FAM5040S	Conceptualising SA Cinema

#### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

#### Footnotes

A: MY452 is an advanced Applied Regression Analysis course offered by the Department of Methodology and must be taken by students who select MC4M7. Students wishing to select this option need to already have a grounding in quantitative methods and must seek approval from the Programme Director. Approval is also subject to timetabling constraints.  
B: The dissertation must be between 10,000 and 12,000 words). Passing MC499 is a requirement for passing the programme.

## University of Pennsylvania Law School LLM Visiting Students

A one term (Michaelmas) exchange programme for visiting Penn Law students. The Penn-LSE exchange programme is attached to the LLM programme. Students from Penn Law will spend one term at LSE and choose 4 half-unit courses from the list below. There is no guarantee that students will be able to enrol on any specific course. Penn-LSE exchange students are not here in the main examination period therefore are assessed during Michaelmas term.

Students take half unit courses to the value of two units.

Student will not be required to complete summative assessments or examinations outside of their term of study. Students will be assessed during their term of study at the LSE.

Students are not permitted to take one unit courses.

**Please note that places are limited on some optional courses. Admission onto any particular course is not guaranteed and may be subject to timetabling constraints and/or students meeting specific prerequisite requirements.**

**Programme Code:** TOLL1

**Department:** Law School

For students starting this programme of study in 2022/23

### Prerequisite Requirements and Mutually Exclusive Options

# means there may be prerequisites for this course. Please view the course guide for more information.

# **Taught Master's Course Guides**

**SO434****Cultural Theory and Cultural Forms**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jana Melkumova-Reynolds STC S208

**Availability:** This course is compulsory on the MSc in Culture and Society. This course is available on the MA in Modern History.

This course is available as an outside option to students on other programmes where regulations permit.

This course has a limited number of places (it is controlled access). Students who have this course as a core course are guaranteed a place. Other than for students for whom the course is a core course, places are allocated based on a written statement. This may mean that not all students who apply will be able to get a place on this course.

**Course content:** Cultural Theory and Cultural Forms is the core course for the MSc Culture and Society. The aim is to introduce you to a wide range of approaches, debates and issues that loom large in the study of cultural processes. By the end of this course you should have a reasonable map of different aspects and approaches to researching cultural processes; and you should feel able to formulate your own research questions and strategies within the diverse traditions of culture theory and cultural research. In Term 1 we introduce the diverse approaches to cultural theory and the central debates that have structured the field, with particular attention to the ways in which these link to central sociological themes. The second focuses on approaching these theoretical debates from the vantage of empirical research and a concern with methodologies for studying cultural processes.

**Teaching:** This course is delivered through a combination of lectures, online materials and seminars totalling a minimum of 40 hours across MT and LT.

**Reading Weeks:** Students on this course will have a reading week in MT Week 6 and LT Week 6, in line with departmental policy.

**Formative coursework:** All students are expected to submit one piece of non-assessed written work per term and prepare seminar presentations.

Said, E. (1978) *Orientalism*. London: Penguin

**Assessment:** Essay (50%, 5000 words) in the LT.

Essay (50%, 5000 words) in the ST.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the submission day.

The first essay is due by the second Thursday of Lent Term and the second essay is due by the second Thursday of Summer Term.

Attendance at all seminars and submission of all set coursework is required.

**SO477 Half Unit Not available in 2022/23****Urban Social Theory**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr David Madden STC S209

**Availability:** This course is available on the MSc in City Design and Social Science, MSc in Culture and Society, MSc in International Migration and Public Policy, MSc in International Migration and Public Policy (LSE and Sciences Po) and MSc in Sociology. This course is available as an outside option to students on other programmes where regulations permit.

This course has a limited number of places (it is controlled access). Priority will be given to students on the MSc in City Design and Social Science, for whom the course is an 'optional core course'. Places will be allocated based on a written statement. This may mean that not all students who apply will be able to get a place on this course.

**Course content:** This course is an introduction to urban social theory. The class will focus on major concepts, paradigms, texts and thinkers in order to critically assess different ways of theorising the urban. It will analyse various forms of urban theory including political economy, human ecology, feminism and postcolonialism, which are used as lenses through which to understand a variety of topics, such as socio-spatial restructuring, neoliberalisation, the politics of public space, globalisation, cosmopolitanism, the urbanisation of patriarchy, the racialisation of urban space, the right to the city and planetary urbanisation.

**Teaching:** This course is delivered through seminars totalling a minimum of 20 hours in the MT; teaching arrangements may be adjusted if online teaching is required at any point.

**Reading Weeks:** Students on this course will have a reading week in MT Week 6, in line with departmental policy.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

Brenner, Neil. 2013. "Theses on Urbanization." *Public Culture* 25 (1): 85-114.

**Assessment:** Essay (80%, 5000 words) in the LT.

Memo (10%) and class participation (10%) in the MT.

There will be weekly memos submitted via Moodle the evening

before each class session during the MT.

An electronic copy of the assessed essay, to be uploaded to Moodle, no later than 4.00pm on the second Thursday of Lent Term.

Attendance at all classes and submission of all set coursework is required.

## SP414 Half Unit

### Ethnicity, Race and Social Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Coretta Phillips OLD.2.28

**Availability:** This course is available on the MSc in Criminal Justice Policy, MSc in Gender, Policy and Inequalities, MSc in International Migration and Public Policy, MSc in International Migration and Public Policy (LSE and Sciences Po), MSc in International Social and Public Policy, MSc in International Social and Public Policy (Development), MSc in International Social and Public Policy (LSE and Fudan), MSc in International Social and Public Policy (Migration), MSc in International Social and Public Policy (Non-Governmental Organisations) and MSc in International Social and Public Policy (Research). This course is available with permission as an outside option to students on other programmes where regulations permit.

All Social Policy Courses are 'Controlled Access'. Please see the link below for further details on the allocation process.

<https://info.lse.ac.uk/current-students/services/course-choice/controlled-access-courses>

Amongst non-SP students, preference will be given first to students on MSc International Migration and Public Policy and MSc Gender, Policy and Inequalities.

**Course content:** Course looks at: Understanding Key Concepts; Disciplinary Frameworks; Migration and Citizenship, Theorising Multiculturalism; Ethnic Settlement and Housing Inequalities; Education; Employment, Poverty and Underclass; Discrimination and the Role of the State I: Positive and Affirmative Action; Criminalisation and Incarceration; Discrimination and the Role of the State II: Legislative Frameworks, Diversity Management, and Service Delivery.

**Teaching:** Courses in Social Policy follow the Teaching Model outlined on the following page: <https://www.lse.ac.uk/social-policy/current-students/teaching-in-the-department-of-social-policy> All teaching will be in accordance with the LSE Academic Code (<https://info.lse.ac.uk/current-students/lse-academic-code>) which specifies a "minimum of two hours taught contact time per week when the course is running in the Michaelmas and/or Lent terms". Social Policy courses are predominantly taught through a combination of in-person Lectures and In person classes/seminars. Further information will be provided by the Course Convenor in the first lecture of the course.

This course is taught in MT.

## PP414 Half Unit

### Policy-Making: Process, Challenges and Outcomes

**This information is for the 2022/23 session.**

**Teacher responsible:** Professor Vanessa Rubio Marquez

**Availability:** This course is available on the Double Master of Public Administration (LSE-Columbia), Double Master of Public Administration (LSE-Sciences Po), Double Master of Public Administration (LSE-University of Toronto), MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), Master of Public Administration and Master of Public Policy. This course is not available as an outside option.

This course has a limited number of places (it is controlled access) and demand is typically very high.

**Course content:** This course shall help students construct an analytical mindset to policymaking, through the application of a bespoke policy-making toolbox developed by the professor. The course offers an end-to-end guide of key elements that affect decision-making and decision-maker through the policy process, to offer a geography- and sector-agnostic toolbox that students can apply during their future professional journeys. It shall encompass aspects such as developing a multi-disciplinary and nuanced approach to analysing and defining a policy problem, consideration of policy options, stakeholder engagement, and monitoring and evaluation. It offers a practitioner's perspective on decision-making within the policy process, to complement the theoretical perspective offered by other courses.

In developing a practical intuition to policymaking, it will also emphasise the unique challenges faced by policy-makers in addressing and managing information, communication, negotiation, implementation and dealing with the politics of policies.

The course has three components to maximise student engagement and participation - lectures, seminars, and a policy laboratory. During the lectures, the professor will present an array of concepts and practical policy-making cases at the local, national, and international levels. The aim of the course is not to study specific decision-making cases, but rather to use the case-studies as examples and models of generalisable insights to understand the way decision-making processes operate in the policy world. A discussion of the lecture content and Q&As will take place in a distinct seminar at the end of each lecture.

During the policy lab, students will be organised into groups that are tasked with presenting and enacting specific decision-making cases (simulations) previously provided to them. They will receive questions and comments from the rest of the class and permanent feedback from the professor and the teaching assistant. The simulation exercises used in the lab will enable students to experience all the major steps in the decision-making process. They will equip students with the ability to: define a problem, craft a solution, propose a public policy in concept, draft a public policy proposal in detail while thinking through the different aspects and challenges in the implementation of the policy. Students will be required to consider and map constraints and challenges such as timing, imperfect information, stakeholders' interests, sequencing and prioritisation. They will learn the importance of emotions, interests and institutional factors in policy-making and the ways they can be used to understand contexts and improve outcomes. The course has also been designed to help the students

understand the relevance of developing a stakeholder map that can be used when designing and implementing policies, while analysing and factoring in various legal and practical implications for the different stakeholders who are involved in the decision-making process. Students will also learn about the communication of policy choices, the relevance of the media in creating a positive (or negative) environment for policy implementation, and the way policies are determined or constrained by factors such as economic, financial, cultural and environmental considerations.

**Teaching:** 30 hours of seminars in the MT.

**Weekly teaching structure:** Harvard-style lecture one – 90 minutes lecture and seminar.

Live 40-minute lectures will take place on a weekly basis, followed by a 40-minute seminar for Q&As and interactive discussions on the themes covered in the lecture. At the end, 10 minutes will be dedicated to the preparation of that week's presentation and simulation exercise by the relevant student group.

Harvard-style lecture two - 90 minutes: Public Policy Laboratory Student groups will present and simulate a decision-making case (previously prepared by the Professor). Presentations will take 30 minutes and will be followed by feedback/discussion with the Professor and the rest of the group that will take an hour.

**Formative coursework:** Students are required to attend lectures, seminars and policy labs. An attendance record will be kept by the professor.

For the policy laboratory exercise, students will make three formative presentations/simulations on their assigned case to prepare for the final summative presentation. The professor will provide advice and feedback to students on a group and individual basis.

- World Bank, Reversals of Fortune, World Bank Group, 2020. (openknowledge.worldbank.org)

**Assessment:** Presentation (40%) and coursework (60%, 1000 words) in the MT.

Coursework - Policy Memo (60%): An individual policy project based on the specific policy-making case assigned to each working group is due in Week 9. An outline of the policy memo may be presented by the end of Week 6 in order to receive feedback by the end of Week 7 (1,000 words, worth 60%).

**Submission deadline:** Tuesday of Week 9 by 12.00noon

War room presentations (40%): The final presentations and simulation exercises delivered by the working groups in the policy lab will be assessed individually during Weeks 10 and 11 of Michaelmas Term.

Feedback will be provided on all elements of the formative and summative coursework, both in class and during office hours with the professor and TA, on a group and individual basis. Further details on the formative and summative assessments will be provided during the course.

The professor will dedicate additional time with each of the groups to guide them in the preparation of their lab project (presentation-simulation).

---

## AC411 Half Unit Accounting, Strategy and Control

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Roland Speklé MAR 3.44 (course leader), supported by Prof Henri Dekker, who each teach a module on the course in accordance with their expertise.

**Availability:** This course is compulsory on the MSc in Accounting, Organisations and Institutions. This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Accounting (AOI) (Accounting, Organisations and Institutions Track) and MSc in Accounting and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.

AC411 is a required course for students on the MSc Accounting, Organisations and Institutions programme.

Other students may be admitted only with the agreement, in writing, of the MSc Programme Director, if they have sufficient relevant background knowledge.

AC411 can accommodate a large number of students (up to c. 150), usually matching demand, but for the avoidance of frustration, admittance on the course when demand exceeds this number cannot be guaranteed. If demand exceeds capacity, priority will be given to students on the MSc Accounting, Organisations and Institutions and the MSc in Accounting and Finance.

**Course content:** This course provides an advanced overview of current theoretical and practical developments in the area of organisational control, which is an essential function of management to ensure that the organisation's objectives and strategies are implemented effectively. Good management control increases the probability of organisational success. Specifically, the course discusses what it means to have an organisation be in control, what alternatives managers have for ensuring good control, and how managers should choose from among various control system alternatives. Then the course turns to focusing on each of the elements of financial control systems, which provide the dominant form of control in the vast

majority of decentralised organisations. These elements include financial target setting, performance measurement and evaluation and the assignment of various forms of organisational rewards, such as bonuses and promotions. The latter part of the course extends these key notions of management control from the intra-organisational level to the inter-organisational level, highlighting some of the difficulties involved in organisational control of new, fluid, inter-organisational settings and configurations, such as joint-ventures and various types of alliances, often involving global alliance partners.

The course will cover the following topics:

- Strategy and the design of management control systems, including strategic and operational plans and budgets
- Management control alternatives, including results controls, and organisational architecture
- Decision rights and results accountability in decentralised organisations
- Incentive compensation systems, including short-term and long-term incentive plans
- Performance measurement and evaluation, including objective and subjective performance evaluations
- Management control in inter-organisational relationships, including joint-ventures

Of note, the discipline of management accounting is often partitioned into (1) management control systems and (2) cost and management accounting systems, where the latter is the key focus of another course, AC415. AC411 can, but is not required, to be taken with AC415. Students can take either AC411 or AC415, or both.

**Teaching:** Teaching is delivered in two weekly 90-minute sessions over 10 weeks in the Michaelmas Term. Despite the lifting of COVID-related restrictions, there remains a possibility that adjustments may need to be made to teaching arrangements if the situation changes. If so, some or all of the teaching on this course may be delivered using virtual means as an alternative to face-to-face teaching due to social-distancing or other pandemic-related restrictions that may need to be observed.

Specifically, the first 90-minute session each week typically provides an introduction, conceptual analysis, and discussion of the key facets of the respective week's topic. The second session then offers a further discussion and expansion of the issues through a case study analysis to explore the various management control issues in a broad range of settings. The case method of instruction requires good advance preparation by the students. Thus, students are expected to have done the recommended readings and to have read and thought about the case before the session. Blocks of sessions are taught by various professors who are experts in the relevant topic areas and the subject of management controls generally.

**Formative coursework:** Students are expected to prepare for each session in advance, having done the assigned readings and having prepared the assigned case study.

**Indicative reading:** A detailed reading list is laid out for each session on the syllabus.

Reference textbook: Merchant & Van der Stede, *Management Control Systems: Performance Measurement, Evaluation and Incentives*, 4e (Prentice Hall, 2017).

**Assessment:** Exam (60%, duration: 2 hours) in the January exam period.

Essay (20%) in the MT.

Project (20%) in January.

Students are required to complete two essays during MT (totalling 20% of the mark for the course), a group project, due in late January (20%), and a final exam just before the start of LT in early January 2022 (60%).

## AC412 Half Unit

### Accountability, Organisations and Risk Management

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Tommaso Palermo MAR 3.23, Dr Alexa Scherf MAR 3.32

**Availability:** This course is compulsory on the MSc in Accounting, Organisations and Institutions. This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting and Finance, MSc in Economy and Society, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.

Other students may be admitted only with the agreement, in writing, of the MSc (Accounting) Programme Director.

**Course content:** This is an advanced course focusing on the organisational and institutional settings within which risk is managed.

First, the course explores the intersections of risk and corporate governance, by focusing on the risks that arise at the top management and board of directors level, including risks of misconduct, gatekeeper failure, performance-insensitive executive pay and non-diverse board composition. Second, the course deals with key issues in organisational responses to risk and uncertainty, including the impact of disasters and accidents, and the growing formalisation and standardisation of risk management practice and the increasing emphasis on resilience.

The overall purpose of the course is to provide students with a critical appreciation of the management of risk as an organisational and social process. The course is necessarily cross-disciplinary, drawing on scholarship within accounting, organisational sociology and regulation studies. The course content is updated yearly to reflect topics of contemporary relevance. Recent examples are risk culture in the financial sector, safety culture in aviation, cybersecurity risks and responses to pandemic crisis.

This course is recommended for students who wish to develop the critical-thinking skills to make strategic decisions about risks, uncertainty and corporate governance, especially those targeting roles in consulting, business management or regulatory agencies. It is equally applicable to develop the skills needed for further academic studies in different areas of the social sciences such as accounting, management, sociology, public administration.

**Teaching:** 30 hours of seminars in the LT.

This course has a reading week in Week 6 of LT.

**Formative coursework:** Two pieces of written work will be assessed during the term. The grades for this work will not count towards the overall course assessment.

**Indicative reading:** No single book covers the entire course.

Indicative readings include:

- Bebchuk & Fried, *Pay Without Performance* (Harvard, 2004);
- Coffee, *Gatekeepers: The Professions and Corporate Governance* (Oxford, 2006);
- Hutter & Power (eds) *Organizational Encounters with Risk*, (Cambridge, 2005);
- Power, *Organized Uncertainty: Designing a World of Risk Management* (Oxford, 2007);
- Power, *Riskwork: Essays on the Organizational Life of Risk Management*, (Oxford, 2016);
- Vaughan, *The Challenger Launch Decision*, (Chicago, 1997);
- Robison, *Flying Blind: The 737 MAX Tragedy and the Fall of Boeing*, (Penguin books, 2021);
- Weick & Sutcliffe, *Managing the Unexpected: Assuring High Performance in an Age of Complexity* (Jossey-Bass, 2007);

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## AC415 Half Unit Management Accounting for Decision Making

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Henry Eyring MAR 3.34

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance and MSc in Accounting, Organisations and Institutions. This course is available with permission as an outside option to students on other programmes where regulations permit. This course cannot be taken concurrently with **AC490**

### Management Accounting, Decisions and Control.

Other students may be admitted only with the agreement, in writing, of the MSc (Accounting) Programme Director if they have sufficient relevant background knowledge.

The course is capped to two sections of around 50 students; ie, 100 total. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, "must have" courses. Late registration or changes to earlier course choices may be unsuccessful.

**Course content:** This course is focused on management accounting, which is a key function in organisations that involves developing and using financial and non-financial information to support decision making, not only in a technical sense, but bearing in mind that the way in which management accounting systems are designed and implemented often determines whether employees will be motivated to act in ways that are congruent with the objectives of the organisation.

The discipline of management accounting is often partitioned into (1) cost and management accounting systems and (2) management control systems, where the latter is the key focus of another course, AC411. AC415 can, but is not required to, be taken with AC411. Students can take AC411 or AC415, or both. Returning to AC415, while financial accounting requires that product cost information be accumulated in particular ways for external reporting, the focus in AC415 is on cost and other accounting and non-accounting information systems that aid managerial decision making. This includes the study of management accounting systems in widespread use today as well as an analysis of the problems associated with these systems in today's business environment (such as their tendency to provide distorted product cost information), as well as approaches to mitigate these problems (eg, activity-based costing; use of non-financial information).

With the above brief overview in mind, this course analyses key concepts which form the discipline of management accounting:

- Product costing and pricing.
- Activity-based costing/management (ABC/ABM).
- Profitability and variance analysis.
- Transfer pricing including tax considerations for international transactions.
- Performance measurement and incentive compensation systems

**Teaching:** 30 hours of seminars in the LT.

That is, AC415 is delivered in two sessions of 1.5 hours each week. Each session is conducted in groups of circa 55 students and is almost exclusively taught by way of the case method of instruction. Case studies permit the exploration of management accounting issues in a broad range of settings. The case method of instruction, however, requires good advance preparation by the students, and every person should be ready to contribute to the case discussion when called upon. Students should expect to be "cold called" and not count on being able to hide behind

classmates who volunteer to participate.

There is a reading week in week 6 of LT.

**Formative coursework:** Students are expected to come to each session prepared having done the assigned readings and having prepared the assigned cases.

**Indicative reading:** A detailed reading list is laid out for each session on the syllabus.

Bhimani, A., C.T. Horngren, S.M. Datar, and M.V. Rajan ("BHDR"), 2019, *Management and Cost Accounting*, (Pearson, 7th Edition); Merchant, K.A., and W.A. Van der Stede, 2017, *Management Control Systems: Performance Measurement, Evaluation, and Incentives* (Pearson, 4th Edition).

**Assessment:** Exam (75%, duration: 2 hours) in the summer exam period.

Case assignment (25%) in the LT.

## AC416 Half Unit Topics in Financial Reporting

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Maria Manuel Correia MAR 3.38

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance and MSc in Accounting, Organisations and Institutions. This course is available with permission as an outside option to students on other programmes where regulations permit.

Other students may be admitted if they have knowledge of financial accounting acquired at undergraduate level, and only with the agreement, in writing, of the MSc Programme Director.

The course has a limited number of places and demand is typically high. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, "must have" courses. Late registration or changes to earlier course choices may be unsuccessful.

**Pre-requisites:** Prior knowledge of financial accounting is assumed. AC480 (Qualitative Methods in Accounting and Finance) is a pre-requisite for students with no/little prior knowledge of financial accounting.

**Course content:** Corporate financial statements are a key source of information about the economic activities of a firm. This course is intended to enhance the student's ability to relate economic events to financial statements and disclosures. It also seeks to aid in developing a coordinated set of concepts and principles to serve as a framework for analysing a wide variety of financial reporting issues. The goal is to enable students to understand the mapping between underlying economic events and the information in financial statements, and how this mapping affects inferences about the economic activities and position of the firm. The course also explores the regulatory environment and political climate, and how these link with the introduction of new standards and their underlying theories. Students are encouraged to relate economic events to diverse practices in financial statements, and to think critically of ongoing controversies and debates.

The emphasis of this course is on understanding and critical thinking, rather than bookkeeping. The course draws heavily on academic literature on the suggested topics.

The course objectives are achieved through teaching a variety of financial reporting issues and topics including the following: standard setting with respect to the conceptual frameworks; accounting for leases and pensions; accounting for value creation with special emphasis on cash flows statements and revenue recognition; capital markets efficiency; corporate disclosure;

and corporate governance. Most topics are covered from an International Financial Reporting Standards and/or United States Generally Accepted Accounting Principles perspective.

Detailed choice of subjects will be determined by those lecturing on the course and may vary to some extent from year to year.

Knowledge of basic accounting is assumed.

**Teaching:** 30 hours of seminars in the MT.

Teaching is delivered in two one and a half hour sessions each week. Sessions contain a variety of technical content, practical exercises, and case analyses.

**Formative coursework:** Students will be expected to produce 2 problem sets in the MT.

**Indicative reading:** Detailed reading lists are handed out at the start of the course. Relevant books covering specific parts of the course are:

- Financial Reporting and Analysis, by Revsine, Collins, Johnson, and Mittelstaedt, and Soffer (McGraw Hill, 7th ed.);
- Financial Accounting: An Introduction to Concepts, Methods and Uses, by Stickney, Weil, Schipper and Francis (Thomson Learning, South-Western, 14th ed.).

**Assessment:** Exam (75%, duration: 2 hours) in the January exam period.

Continuous assessment (5%) and group project (20%) in the MT. Continuous assessment consists of a set of quizzes to be submitted online. The group project will require students to search the press for issues of relevance to the topic they have been assigned and produce a five-page report which they will present. These presentations may be virtual.

---

## AC417 Half Unit

### Corporate Financial Disclosure and Investor Relations

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Ken Lee MAR 3.13

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MSc in Accounting and Finance and MSc in Accounting, Organisations and Institutions. This course is available with permission as an outside option to students on other programmes where regulations permit. Other students may be admitted if they have knowledge of financial accounting and finance acquired at undergraduate level, and only with the agreement, in writing, of the MSc Programme Director.

The course is capped to three sections of around 55 students; ie, 165 total. Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, but MSc students on the Accounting programmes will only then be given priority although cannot be guaranteed a place if no places become available. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, "must have" courses. Late registration or changes to earlier course choices may be unsuccessful.

**Course content:** Investors view firms through the lens of financial accounting and reporting. This course aims to examine this lens by covering topics on the interaction of financial accounting and reporting with capital markets with a focus on corporate disclosure and communication strategies. The course views corporate financial reporting as an information system and reviews the theories and empirical regularities on the demand for and supply of accounting information in capital markets while also assessing the stock market impact of communication strategies. Some of the topics covered in the course include: The market

for information – the role of sell-side analysts, investor relations and the buy-side; Voluntary disclosure theory and practices; Determinants of accounting choices; The signalling role of accounting information; Capital markets and the earnings game; Capital market consequences of accounting and disclosure choices; Financial reporting and corporate governance; Communication challenges during a corporate crisis; Communication with capital markets during equity offerings and mergers and acquisitions.

The course is based on a number of theories, empirical applications, and case studies, so that students gain an understanding of the firm's corporate information environment and communication strategies. It has a quantitative flavour as it relies in large parts on game theory. Prior knowledge of game theory is however not a prerequisite as the course introduces the relevant concepts. Also, the course does not rely on a strong mathematical background.

Detailed choice of subjects to be covered will be determined by those lecturing on the course and may vary to some extent from year to year. Knowledge of basic accounting and finance is assumed.

**Teaching:** 33 hours of seminars in the MT.

There will be two 90 minute sessions each week. Each session is conducted in groups of about 50 students, often involving case study analyses, application exercises and group presentations and discussions. This mode of teaching requires good advance preparation by the students; hence, every student should be ready to contribute to the discussion when called upon. Active participation is expected and encouraged.

**Formative coursework:** Formative assessment will be in the form of class exercises and case-studies on topics covered during the course. Students will be expected to hand in two group assignments in the MT.

**Indicative reading:** The course relies mostly on HBR readings, lecture notes, journal articles, and chapters from relevant books supplied in study packs.

**Assessment:** Exam (60%, duration: 2 hours) in the January exam period.

Group exercise (40%) in the MT.

The group work will comprise two assignments, the last one including a presentation.

---

## AC424

### Accounting, Organisations and Institutions

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Andrea Mennicken MAR 3.24 (MT), Dr Nadia Matringe MAR 3.19 (MT), Professor Michael Power MAR 3.43 (LT), Dr Alexandra Scherf MAR 3.32 (LT)

**Availability:** This course is compulsory on the MSc in Accounting, Organisations and Institutions. This course is not available as an outside option.

This course is not available to other students except in special circumstances and with the written permission of the Course Director.

**Pre-requisites:** There are no specific accounting pre-requisites.

This course does not require a background in accounting and both the programme and this course are open to accounting specialists and non-specialists alike. Pre-session training in the form of various intensive sessions prior to the start of term will be offered for those who need a brief 'technical' preparation for the Programme.

**Course content:** The objective of the course is to provide students with an advanced, social science- based and critical understanding of the changing role and position of accounting practices in organisations, both public and private, and in societies more generally. Students will be exposed to advanced scholarship and case materials which show how accounting practices are more than a collection of routine self-evident techniques but are shaped by their institutional contexts, have behavioural consequences

and can represent different values. We will focus on how the fundamental assumptions of internal and external accounting practices are institutional in nature and are shaped by social and political aspirations in different jurisdictions. The role of accountants and other agents involved in the production and consumption of accounting numbers will also be addressed. The course will equip students to understand the inter-relationships between technical, organisational and institutional issues. While some technical accounting knowledge may be helpful, it is not essential and each lecture will provide the necessary technical foundations.

**Indicative topics include:** Foundations: Reporting, Calculation and Transparency; Quantification and Measurement; Accounting and the Notion of "Entity"; Audit and Assurance: The Audit Society; Organisational Boundaries, Structure and Control; Accountability, Incentives and Performance; Accounting for Sustainability; Organisational Failure; Accounting Standardisation and Harmonisation; the Political Economy of Financial Reporting and Standard Setting; the Rise of Concerns with Sustainability Reporting and Standard-setting; Accounting and Development; the Roles of Accounting in Global Financial Governance; Political, Institutional and Economic Influences in Changing National and International Financial Reporting Frameworks; Consequences of International Accounting Harmonization for Financial Statement Users, Business Entities and Wider Local and Global Stakeholders.

**Teaching:** Teaching will be delivered in the form of two weekly 90-minute sessions over 11 weeks across both Michaelmas and Lent Terms. Each session contains a variety of technical content, practical exercises, and case analyses. This year, some or all of this teaching may be delivered using virtual classes as an alternative to face-to-face teaching.

This course has a reading and feedback week in Week 6 of both MT and LT so there is 30 hours of teaching per term.

**Formative coursework:** Students will be required to produce two pieces of written work in MT and one group presentation in LT. These formative assignments may take the form of either an essay, or the analysis of a case, and may also include in-class presentation and team-based work. This work will be assessed, but the grades will not count towards the overall course assessment.

**Indicative reading:** Chapman, Cooper & Miller (eds.), *Accounting, Organizations and Institutions* (Oxford, 2009); Hopwood & Miller (eds.), *Accounting as Social and Institutional Practice* (Cambridge, 1994); Power, *The Audit Society* (Oxford, 1999); Botzem, *The Politics of Accounting Regulation* (Edward Elgar, 2012); Ramanna, *Political Standards: Corporate Interest, Ideology and Leadership in the Shaping of Accounting Rules for the Market Economy* (University of Chicago Press, 2015); Nobes & Parker, *Comparative International Accounting* (Pearson, 2020); Weetman & Tsalavoutas (eds.), *The Routledge Companion to Accounting in Emerging Economies* (Routledge, 2020).

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.

Essay (50%, 6000 words) in the ST.

---

## AC425

### MSc Accounting, Organisations and Institutions: Pre-sessional course

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Kenneth Lee MAR 3.13

**Availability:** This course is compulsory on the MSc in Accounting, Organisations and Institutions. This course is not available as an outside option.

The course is only available to MSc Accounting, Organisations and Institutions students. The purpose of this pre-sessional is to acquaint students, both with and without any prior, or little, background in accounting, to the critical approach to be adopted on the core course AC424. Students with some prior background in accounting will find the session useful as a "refresher" about

accounting fundamentals. Any student with a proven accounting background who intends to take AC416 Topics in Financial Reporting is also required to take AC480 Quantitative Methods in Accounting and Finance.

**Course content:** Introduction to Accounting, Organizations and Institutions

**Teaching:** The sessions are held in September before the start of MT.

**Formative coursework:** Study materials for the pre-sessional will be made available by means of selected handouts.

**Assessment:** There is no assessment.

---

## AC444 Half Unit

### Valuation and Security Analysis

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Kenneth Lee MAR 3.13 and Dr Xi Li MAR 3.40

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting and Finance, MSc in Accounting, Organisations and Institutions, MSc in Management and Strategy and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit.

Other students may be admitted to the course if they have a strong knowledge of financial accounting and finance acquired at undergraduate or equivalent level, and only with the agreement, in writing, of the teacher responsible for this course.

Enrolment on this course is constrained by section size and the number of sessions available. Students are admitted on the course on a first-come-first-served basis. If the course is over-subscribed, students on the waiting list will continue to be admitted on a first-come-first-served basis as places become available, although MSc students on Accounting programmes will be given priority. Therefore, to avoid frustration and possibly being unable to take the course, students wishing to reduce the risk of non-admittance on the course should prioritise their courses and register early for their preferred, "must have" courses. Late registrations or late changes to this course choice may be unsuccessful.

**Pre-requisites:** Students will be assumed to have a solid understanding of corporate finance as well as financial accounting principles, techniques and methods. Completion of AC416 in Michaelmas term is strongly recommended for this course. Attendance at the "Modelling skills" workshop typically held on a Saturday in Michaelmas term is also strongly recommended. Further details will be provided nearer the time.

**Course content:** The aim of this course is to introduce students to security analysis and valuation from both academic and practical perspectives. The course materials include many real-world cases, where students are placed in the role of investors to conduct financial statement analysis and make investment decisions. At the end of the course, students are furthermore provided with an opportunity to apply their skills by analysing and valuing, in small groups, from the point of view of a "sell-side analyst", a firm's equity of their choice. The course should appeal to students interested in equity research, investment banking, and fund management. The course is presented in two parts. The first part, financial analysis, focuses on past and present performance evaluation, which is used by financial analysts to generate expectations about future performance (prospective analysis). The second part, security valuation, focuses on the determination of intrinsic security prices, which, in efficient markets, reflect prospective performance. This second part provides students with a valuation 'toolkit' which they can draw on when valuing equities in a variety of contexts such as banking, asset management, research, accountancy or consulting.

**Teaching:** 30 hours of seminars in the LT.

Student group project presentations in week 11 of Lent Term.

Teaching is delivered in two 90-minute sessions per week. Depending on the state of the ongoing pandemic, some or all of the teaching on this course may be delivered using virtual means as an alternative to face-to-face teaching due to social-distancing or other pandemic-related restrictions that may need to be observed. Each session involves both lecturing and case study analyses and discussions. In the case study sessions, students break into small groups to work and collaborate as a team. This mode of teaching requires good advance preparation by the students; hence, every student should be ready to contribute to the discussion when called upon. Active participation is expected and encouraged.

**Indicative reading:** For the business analysis section, there is no required textbook for this course. However, we recommend the following book for reading and additional exercises: *Business Analysis & Valuation* (Palepu, Healy and Peek), 4th IFRS edition, CENGAGE Learning, 2016.

For the valuation section a range of texts and academic articles are used. The recommended text is *Company Valuation under IFRS*, (Antill, Lee and Taylor), 3rd Edition, 2020, Harriman House Publishing.

**Assessment:** Exam (50%, duration: 2 hours) in the summer exam period.  
Project (40%) in the LT.  
Class participation (10%).

## AC470 Half Unit

### Accounting in the Global Economy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Andrea Mennicken MAR 3.24 and Dr Alexandra Scherf MAR 3.32

**Availability:** This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MRes/PhD in Accounting (AOI) (Accounting, Organisations and Institutions Track), MSc in Accounting and Finance, MSc in Development Management, MSc in Economy and Society, MSc in Management and Strategy, MSc in Regulation and MSc in Risk and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit. The course is not available to students on the MSc in Accounting, Organisations and Institutions programme.

The course is capped to one section of 55 students. Students on the waiting list will be admitted on a first-come first-served basis.

**Pre-requisites:** There are no specific pre-requisites and the course does not require a background in accounting.

**Course content:** This course examines the fast changing practices and institutions of accounting in the global economy, with a particular emphasis on the roles of accounting in global financial governance. International accounting and auditing standards have been advocated as a way of enhancing global financial stability, so as to stimulate the flow of cross-national investment, expand the scope for market-oriented development, and integrate local enterprises into global financial markets. This course critically examines dynamics of accounting regulation, including international standard-setting and consequences for financial statement users, business entities and wider local and global stakeholders. In this context, we will also explore issues related to global sustainability reporting and standardisation. Topics include:

Political, institutional and economic influences in changing national and international financial reporting frameworks. The political economy of accounting standard-setting. The work of the International Accounting Standards Board (IASB), the European Union, national accounting bodies, and their political and economic environments. The rise of concerns with sustainability reporting and standard-setting. The effects of national financial reporting requirements and

International Financial Reporting Standards (IFRS) on business entities and economic development, particularly developing and emerging economies (including the BRIC countries: Brazil, Russia, India, China). The enforcement of financial reporting requirements through auditors, securities regulators, the World Bank and others. Specific technical challenges (for example, transfer pricing, fair value accounting, impairment testing, derivatives and other financial instruments, sustainability reporting and standardisation). The course explores issues from different theoretical perspectives through comparative empirical analysis.

**Teaching:** Teaching is delivered in two weekly 90-minute sessions over 10 weeks across Lent Term. Each session draws on a variety of academic readings, practical exercises, and case analyses. This year, some or all of this teaching may be delivered using virtual classes as an alternative to face-to-face teaching. This course has no regular teaching in Week 6 of LT. Instead, an essay workshop will be held in Week 6 of LT.

It is further intended to run a small number of additional sessions with invited speakers who are centrally involved at a senior level in the setting, enforcement and convergence of international accounting regulations. Further details will be provided at the start of the session.

**Formative coursework:** Students are expected to come to each session prepared having done the assigned readings and having prepared the assigned class discussion questions. In addition, students are required to write an assessed essay of 3,500-4,000 words, to be submitted after the Easter break. The word limit excludes the bibliography. This written work forms 50% of the overall assessment. A workshop will be held in preparation for the essay assignment in Week 6 of LT. Individual feedback will be given on essay outlines in one-to-one feedback sessions during Week 11. Further readings, exercises and case studies are set for class discussion each week.

**Indicative reading:** Detailed reading lists will be given out at the start of the session, and are largely based on academic journal articles. Other readings include academic cases, policy briefings, regulatory documents and green and white papers.

Relevant books:

- Camfferman & Zeff, *Aiming for Global Accounting Standards, 2001-2011* (Oxford University Press, 2018);
- Botzem, *The Politics of Accounting Regulation* (Edward Elgar, 2012);
- Ramanna, *Political Standards: Corporate Interest, Ideology and Leadership in the Shaping of Accounting Rules for the Market Economy* (University of Chicago Press, 2015);
- Djelic & Quack, *Transnational Communities: Shaping Global Economic Governance* (Cambridge University Press, 2010);
- Nobes & Parker, *Comparative International Accounting* (Pearson, 2020);
- Weetman, Tsalavoutas & Gordon, *International Corporate Reporting* (Routledge 2020);
- Weetman & Tsalavoutas (eds.), *The Routledge Companion to Accounting in Emerging Economies* (Routledge, 2020);
- Walter, *Governing Finance: East Asia's Adoption of International Standards* (Cornell University Press, 2008).

**Assessment:** Exam (50%, duration: 1 hour and 30 minutes) in the summer exam period.

Essay (50%) in the ST.

Essay: (50%, 3,500-4,000 words) is submitted in ST (after the Easter break). The 4,000 words exclude the bibliography.

## AC480

### Quantitative Methods in Accounting and Finance

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Aneesh Raghunandan MAR 3.39

**Availability:** This course is available to students on the MSc in Accounting and Finance and students on the MSc in Accounting,

Organisations and Institutions with prior knowledge of accounting and finance wishing to take AC416 Topics in Financial Reporting. This course is not available as an outside option.

**Course content:** The objective of the course is to provide students with the necessary background required for core accounting and finance courses. The course is organised in two sections:

Section 1 - "Accounting: Disclosure Principles and Practice" provides an overview of fundamental accounting concepts, practices and the main financial statements. This section emphasises users' perspective rather than preparers' perspective on financial reporting (eg, for valuation purposes).

Section 2 - "Finance: Quantitative Methods" provides the basic quantitative tools needed for technical MSc courses. This section consists of an introduction to Basic Calculus, Probability and Statistics.

**Teaching:** Teaching takes place before the start of MT.

**Indicative reading:** A detailed reading list will be provided at the beginning of the course.

**Assessment:** This course is not assessed. However, students will be given a number of application exercises to complete on their own or in groups.

## AC490 Half Unit Management Accounting, Decisions and Control

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Alnoor Bhimani MAR 3.21

**Availability:** This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Accounting, Organisations and Institutions, MSc in Economics and Management, MSc in Management and Strategy, MSc in Management of Information Systems and Digital Innovation and MSc in Regulation. This course is available with permission as an outside option to students on other programmes where regulations permit.

This introductory course may also be taken by MSc students who have not previously studied accounting subjects. Students in the MSc Accounting and Finance programme are not permitted to enrol in this course or in AC491. This course cannot be taken concurrently with **AC415 Management Accounting for Decision Making**.

The course is capped at 115 students.

**Course content:** Enterprises must today tackle markets that are affected by global economic and business forces and advances in digital technologies. They face intense competition from ever-changing corporate strategies of their competitors and new business models. At the same time, the interface between business decisions and management accounting has become more complex but significantly impacts corporate performance. This course provides students with an introduction to how accounting information and cost management techniques shape managerial decision making and performance measurement. It discusses inter-relationships between management accounting and technology, corporate strategy, e-business and marketing. The course includes both qualitative and quantitative material and is not purely calculations based.

The course will cover:

- established managerial accounting concepts such as cost-volume-profit relationships, overhead cost allocations, activity based costing, the balanced scorecard, target cost management and quality costing;
- how flexible organisational technologies such as just-in-time systems, enterprise resource planning, computer integrated system and 3-D manufacturing influence accounting information;
- operational, marketing and corporate strategy issues including cost management, e-business and internet-based business

models;

- organisational arrangements such as functional and multidivisional firms and virtual enterprises;
  - comparative international management accounting systems;
  - accounting controls associated with responsibility centres, financial performance measurement, variance analysis, and incentives;
  - strategic accounting tools and practices.
- The course will provide participants with:
- an understanding of strategic, market and technological links to management accounting and control practices;
  - the ability to apply modern management accounting techniques within competitive business environments;
  - a knowledge of interrelationships between behavioural, organisational and cultural issues and management accounting systems.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the LT. There will be a reading week in week 6 of LT. A 2-hour revision lecture will be held in ST or extra office hours will be held.

**Formative coursework:** Students are expected to produce several pieces of written work, including accounting exercises, analyses of case studies, and essays. Written work will be collected for feedback during the course as advised by the instructor. Students are also required to participate actively in a variety of discussions and debates as part of the class activities.

**Indicative reading:** A detailed reading list will be given out at the start of the course. The following books will be used: Bhimani A, Horngren C, Datar S and Rajan M Management and Cost Accounting (Pearson, 2019); Bhimani, A. Accounting Disrupted: How digitalization is changing finance (Wiley, 2021) and Bhimani A, Financial Management for Technology Start-ups (Kogan Page, 2022).

**Assessment:** Exam (100%, duration: 2 hours and 15 minutes, reading time: 15 minutes) in the summer exam period. The first 15 minutes will be reading time.

## AC491 Half Unit Financial Accounting, Reporting and Disclosure

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Ane Miren Tamayo MAR 3.36

**Availability:** This course is available on the CEMS Exchange, Diploma in Accounting and Finance, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MSc in Accounting, Organisations and Institutions, MSc in Management and Strategy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course is aimed at MSc students who have not previously studied accounting subjects to a significant extent.

Students on the MSc Accounting and Finance programme are not permitted to enrol on this course.

This course cannot be taken in conjunction with **AC416 Topics in Financial Reporting**.

This course has a limited number of places (it is controlled access) and is capped at 115 students. In previous years we have been able to provide places for all students that apply but that may not continue to be the case.

**Course content:** This course provides students with an introduction to financial accounting, and highlights aspects of reporting that are important to users of financial information. The course covers the preparation of the main financial statements and discusses accounting issues related to intangible assets, equity, debt, and intercorporate investments, among others. Students are also introduced to the basics of financial statement analysis and to research on the use of accounting information in

financial markets.

**Teaching:** 30 hours of seminars in the MT, with optional review sessions/surgeries in week 11 of the MT.

Teaching is delivered in two one and a half hour sessions each week. Sessions contain a variety of technical content, practical exercises, and case analyses.

**Formative coursework:** Students are expected to complete weekly formative assessments.

**Indicative reading:** A detailed reading list will be made available at the start of the course. Some illustrative texts:

Harrison, Horngren, Thomas, Tietz and Suwardy, *Financial Accounting (IFRS)*, 11th ed., Pearson Higher Education/Prentice Hall.

Weetman, *Financial Accounting: an Introduction*, 8th ed., Pearson Higher Education.

Stickney, Weil, Schipper and Francis, *Financial Accounting: An Introduction to Concepts, Methods and Uses*, 14th ed., Cengage, South-Western.

**Assessment:** Exam (80%, duration: 2 hours) in the January exam period.

Problem sets (20%) in the MT.

## AC493 Half Unit

### Financial and Management Accounting for Managerial Decision Making

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Kenneth Lee MAR 3.13

**Availability:** This course is compulsory on the MSc in Management (1 Year Programme). This course is not available as an outside option.

**Course content:** This course covers introductions to both financial accounting and management accounting. The first part of this course provides students with an introduction to financial accounting, and highlights aspects of financial reporting that are important to users of financial information. It covers the preparation of key financial statements and the frameworks of accounting regulation. The second part to the course provides students with an introduction to management information and cost management, managerial decision making and performance measurement.

Specifically, then, the first half of AC493 is focused on financial accounting, which aims to familiarise students with the principles and some of the techniques of financial accounting and financial reporting as well as some aspects of current regulatory debates on the subject. After the first half of the course, students should be able to:

- Distinguish between cash accounting and accrual accounting, and explain traditional accounting concepts and conventions.
- Draw up simple balance sheets, and income statements as well as to develop an understanding of cash flow statements and group accounts, and understand how they are affected by different accounting treatments.
- Use these financial statements to perform financial analysis.
- Discuss the issue of "creative accounting", asset valuation and other contemporary issues in accounting.
- Discuss market influences of accounting information and theories of accounting choice.

The second half of AC493 focuses on management accounting, which is a key function in organisations that involves developing and using financial and non-financial information to support decision making, not only in a technical sense, but bearing in mind that the way in which management accounting systems are designed and implemented often determines whether employees will be motivated to act in ways that are congruent with the objectives of the organisation. The discipline of management accounting is often partitioned into (1) cost and management accounting systems and (2) management control systems, and both components are covered in the second part of the course.

While financial accounting (covered in the first part of the course) requires that product cost information be accumulated in particular ways for external reporting, the focus in the second half of the course is on cost and other accounting and non-accounting information systems that aid managerial decision making.

This includes the study of management accounting systems in widespread use today as well as an analysis of the problems associated with these systems in today's business environment (such as their tendency to provide distorted product cost information), as well as approaches to mitigate these problems (e.g., activity-based costing; use of non-financial information).

Through the second half of the course, students should be able to:

1. Analyse key concepts which form the discipline of management accounting:

- Product costing and pricing.
- Activity based costing/management (ABC/ABM);
- Profitability and variance analysis;
- Performance measurement and evaluation;
- ROI, EVA, and other performance metrics.

2. Possess the skills necessary to use management accounting information to make business decisions.

3. Illustrate how management accounting information can be used to formulate and implement strategy in a variety of organisational settings.

4. Understand how the design and use of management accounting systems affect human behaviour in organisations.

**Teaching:** 33 hours of lectures in the LT.

This course consists of 11 principal weeks with topics delivered in sessions of 1½ hours twice a week. Each session is conducted in groups of about 65 students. Most sessions make use of class exercises, case study analyses and real-world applications to bring the materials to life and to apply conceptual knowledge to problems faced in practice. The case study analyses and discussions permit the exploration of accounting issues in broader management perspectives (e.g., large and small firms, manufacturing and service firms, multinational firms, startups). The case method of instruction, however, requires good advance preparation by students, and every student should be ready to contribute to the case discussion when called upon. Students should expect to be 'cold called' and not count on being able to hide behind classmates who volunteer to participate.

**Formative coursework:** Students are expected to be prepared for the cases and/or other tasks for each session as indicated on the syllabus. Two of these will be collected and graded as shown below under Assessment.

**Indicative reading:** Reference Textbook:

Lee, K. and Taylor, D. 2018, *Financial Statement Analysis under IFRS* (FE Publishing, 6th Edition)

Bhimani, A., C.T. Horngren, S.M. Datar, and M.V. Rajan. 2019. *Management and Cost Accounting* (Pearson, 7th edition).

Weetman, P. 2010, *Financial Accounting: An Introduction* (Financial Times/Prentice Hall, 5th edition).

Bhimani, A. 2013, *Strategic Finance* (Strategy Press).

Merchant, K.A., and W.A. Van der Stede. 2017, *Management Control Systems: Performance Measurement, Evaluation, and Incentives* (Financial Times/Prentice Hall, 4th edition).

**Assessment:** Exam (80%, duration: 2 hours) in the summer exam period.

Coursework (10%) in the LT Week 4.

Coursework (10%) in the LT Week 8.

## AC499

### Dissertation

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Ane Miren Tamayo MAR 3.36

**Availability:** This course is available on the MSc in Accounting and Finance. This course is available with permission as an outside option to students on other programmes where regulations permit. Students will normally elect to take this as an option in paper 3 or

4. Permission to select the long essay option must be obtained from the Programme Director by the end of the third week of MT. Students wishing to select this option must first identify and secure agreement from a member of faculty who is willing to provide supervision for the dissertation. Approval for this option will not be granted if such an agreement is not obtained from an academic staff member.

**Course content:** The dissertation usually consists of an empirical investigation of a selected problem. Occasionally, the dissertation may consist of a survey and critical evaluation of the relevant literature.

The dissertation must identify relevant issues, sustain reasoned argument, and draw supportable conclusions. It must be arranged in an organised manner and include a full bibliography.

**Teaching:** There is no teaching associated with the dissertation, but students who select this option are encouraged to attend the dissertation workshop sessions organised by the Teaching and Learning Centre.

**Arrangements for supervision:** Students writing a dissertation will be supervised by a member of faculty who will not necessarily be their academic supervisor. Students are responsible for identifying an appropriate member of staff to supervise their dissertation essay, and for ensuring the member of staff agrees to provide supervision. As a general rule, supervisors of dissertations will not comment on the work after a discussion of the first draft.

**Assessment:** Dissertation (100%, 10000 words) in the ST.

Two typewritten copies of the dissertation must be submitted to the MSc Programme Manager, due by 31 May. The dissertation should be double-spaced, on A4 paper, with a maximum word limit of 10,000 words, not including Appendices. Mark penalties will apply if the word limit is exceeded.

## AN402

### The Anthropology of Religion

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Fenella Cannell, Dr Yazan Doughan

**Availability:** This course is compulsory on the MSc in Social Anthropology (Religion in the Contemporary World). This course is available on the MA in Modern History, MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course covers current approaches to and reconsiderations of classic topics in the anthropology of religion, such as: myth, ritual, belief and doubt, supernatural experience, ethical self-cultivation, asceticism, sacrifice, authority and charisma. In the Michaelmas term, students will be introduced to debates concerning the ways in which 'religion' is said to influence or shape personal experience and collective public life in both western and non-western contexts. Students will explore some of the key concepts that inform contemporary understandings of religion as a force in the world, the history of these concepts, how they enter into various political and ethical projects, and the extent to which they predefine 'religion' as an object of anthropological study. Specific areas of focus may include: the relationship between 'religion' and 'secularism'; conceptions of 'religious freedom'; conversion; inter-religious conflict; the ethnography of religious minorities; the anthropology of religious movements; and the comparative anthropology of 'religions'. In the Lent term, students will be asked to rethink the category of 'religion' and its role in anthropological analysis. The guiding underlying approach will be to ask; what is the study of 'religion' for the social sciences, and what are the potentials and limitations of different answers to that question. We will also be asking where (if anywhere) religion is located as category, practice and experience for a range of interlocutors, and in different kinds of analytic writing. Topics facilitating this project may include some

of the following: shamanism, spirit mediumship, death rituals and ritual theory, magic and witchcraft, 'spirituality' and new religious movements, religion and kinship, ghosts, spirits and ancestors, cosmology, faith-healing, life-cycle rituals, human-nonhuman relations, and religion in diaspora and social change, religion and 'ethics', problems of suffering and critical approaches to religion, violence and inequality, encounters with the divine and sacred, religion, capitalism and the fetish, religion, gender and the body, religion and development, implicit religion. Examples will be drawn both western and non-western contexts, and from both 'salvation religions' such as Hinduism, Judaism and Christianity, and other including so-called 'animist' contexts.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

The contact hours listed above are the minimum expected. This course has a reading week in Week 6 in MT and LT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

**Indicative reading:**

- D. E. Young and J-G. Goulet (eds.) 1994, *Being Changed: The Anthropology of Extraordinary Experience*.

Detailed reading lists provided at the start of each term.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

## AN404

### Anthropology: Theory and Ethnography

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Mathijs Pelkmans OLD 5.08 and Prof Michael Scott OLD 1.17

**Availability:** This course is compulsory on the MSc in Social Anthropology. This course is available on the MA in Modern History, MSc in Anthropology and Development, MSc in

Anthropology and Development Management, MSc in China in Comparative Perspective and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The aim of this course is to examine the development of theory and ethnography in anthropology in the contexts of colonialism, anti-imperialism, postcolonialism, and decolonialization.

The first term focuses primarily on the period before the 1980s, with particular attention to the British, American, and French schools of anthropology and their interrelations. Work by intellectuals from oppressed minorities, the Global South, and indigenous communities elsewhere will be recognized alongside and in comparison with work often regarded as foundational. Through analytical examination of fieldwork practices, theoretical problems, core concepts, and the politics of exclusion and inclusion, this half of the course will explore how knowledge is produced (and forgotten) in anthropology and how those processes continue to inform disciplinary practice and debates today. Topics covered may include: expeditionary versus individual fieldwork practices; ethnography as a genre; ethnographic particularism and the problem of comparison; origins and the idea of the 'primitive'; colonialism and colonial situations; race, culture, and relativism; the promise and perils of popular and public anthropology; gender in anthropology and the gender of the anthropologist; classic sites of theorization such as kinship, totemism, and animism.

The second term focuses on recent and ongoing debates in anthropology. How is anthropological knowledge produced and what are the politics of ethnographic writing? How should we think of cultural differences: as surface or substance? To what extent is an anthropology beyond the human necessary and possible? How do emotive energies affect human agency, the production of meaning and the circulation of knowledge? We will address these and other questions by exploring a range of theoretical frameworks, including interpretive anthropology, postmodernism, actor network theory, affect theory, and the anthropology of temporality and the future.

The precise emphasis and distribution of topics may vary from year to year.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT. 2 hours of workshops in the ST.

The contact hours listed above are the minimum expected. The course has a reading week in Week 6 of MT and LT.

**Formative coursework:** Formative coursework consists of participation in weekly seminars, and the opportunity to discuss one formative essay in each of the MT and LT with the course convener or the student's academic mentor, as per normal departmental arrangements.

**Indicative reading:** Abu-Lughod, L. (1993) *Writing Women's Worlds: Bedouin Stories*.

Biehl, J. (2013) *Vita: Life in a Zone of Social Abandonment*.

Detailed reading lists are provided at the beginning of the course.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

---

## AN405

### The Anthropology of Kinship, Sex and Gender

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Teodor Zidaru-Barbulescu OLD 5.06A and Dr Mayanka Mukherji OLD 6.14.

**Availability:** This course is available on the MA in Modern History, MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Gender, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course provides an examination of the cultural frameworks and social aspects of kinship systems, gender roles, personhood and human sexuality, analysed through ethnographic examples from a diverse range of settings. It aims to equip students with the analytical tools to engage in theoretical debates concerning core concepts such as 'kinship', 'marriage', 'gender', 'sex', 'the person', and the relationship between 'nature' and 'culture', as well as exploring how the experiences of kinship, sex and gender vary according to the regimes of politics, law and materiality in which they are embedded. The course charts the history of anthropological debates on kinship, relatedness, sex and gender, and familiarises students with a range of contemporary approaches to these themes, placing ethnographic materials into a critical dialogue with recent developments in feminist theory, queer theory, the anthropology of colonialism, cognitive science, and psychoanalysis.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 10 hours of lectures and 15 hours of seminars in the LT.

The contact hours listed above are the minimum expected. This course has a reading week in Week 6 in MT and LT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT and 1 essay in the LT.

**Indicative reading:** Carsten, J. *After Kinship* (2003); Chodorow, N. *The Power of Feelings: Personal Meaning in Psychoanalysis, Gender and Culture* (1999); Donnan, H. and Magowan, F. *The Anthropology of Sex* (2010); Lévi-Strauss, C. *The Elementary Structures of Kinship* (1969); Moore, H. L. *A Passion for Difference: Essays in Anthropology and Gender* (1994); Schneider, D. *A Critique of the Study of Kinship* (1984); Stone, L. *Kinship and Gender: An Introduction* (2006).

**Assessment:** Essay (50%, 4000 words) in the LT.

Essay (50%, 4000 words) in the ST.

---

**AN419 Half Unit Not available in 2022/23****The Anthropology of Christianity**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Fenella Cannell OLD 5.07

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The ethnography of local Christianities in the light of differing cultural and social situations including colonial conditions. The relationship between Christianity and the discipline of anthropology. The course examines a number of anthropological and historical studies of local forms of Christianity, from a range including local forms of Catholicism, Mormonism, contemporary and historical Protestantisms including American Protestant forms and 'heretical' and other unorthodox Christianities. The course asks why anthropologists shied away from analysing Christianity long after studies of other world religions, such as Islam, Hinduism and Buddhism, had become widely established. It looks at the relationship between Christianity and the history of anthropological thought, and locates the place of Christianity in the writings of Mauss, Durkheim, Foucault and others, in order to defamiliarise the religion which Europeans and Americans especially often take for granted. Issues examined may include the nature and experience of belief, conversion and the appropriation of Christian doctrines by local populations, the problems of writing about religion, Christianity and the state, the nature of religious confession, Christian texts, and Scriptural reading practices, Christian objects and materialities, Christianity and women's religious and social experience (from Medieval women mystics to women priests), inquisitions and heretical beliefs, priests and alternative forms of mediation with divine power, miraculous saints, incorrupt bodies and 'non-eaters' and changing ideas about death, Heaven and Hell. Where possible, the course will include a student fieldwork weekend and forms of reflection and reporting on that experience. Please check with the course teacher in any given year whether this is planned as part of the year's programme.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. This year, some or all of this teaching will be delivered through a combination of virtual lectures, classes and online interactive activities. The contact hours listed above are the minimum expected. There will be a reading week in Week 6 of the LT.

**Formative coursework:** Students are expected to prepare discussion material for presentation in the seminars. Students will be expected to produce 1 essay in the LT.

**Indicative reading:**

- M Bloch, *From Blessing to Violence: History and Ideology in the Circumcision Ritual of the Merina of Madagascar*;
- F Cannell, *Catholicism, Spirit Mediums and the Ideal of Beauty in a Bicolano Community, Philippines* (PhD thesis, University of London);
- W Christian, *Person and God in a Spanish Valley* (reprint 1988);
- J Comaroff, *Body of Power, Spirit of Resistance*;
- J de Pina Cabral, *Sons of Adam, Daughters of Eve: the Peasant World View in the Alto Minho*;
- R Ilteto, *Pasyon and Revolution: Popular Movements in the Philippines, 1840-1910*;
- J Nash, *We Eat the Mines and the Mines Eat us: Dependency and Exploitation in Bolivian Tin Mines*;
- M Taussig, *The Devil and Commodity Fetishism in South America*. Detailed reading lists are provided at the beginning of the course.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

**AN420 Half Unit Not available in 2022/23****The Anthropology of Southeast Asia**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Nicholas Long OLD 6.14

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course will introduce students to selected theoretical and ethnographic issues in the history and contemporary life of Southeast Asia (including Burma/Myanmar, Cambodia, Indonesia, Laos, Malaysia, Singapore, Thailand, The Philippines, and Vietnam).

The alleged distinctiveness of Southeast Asian gender relations, political leadership, and experiences of self and emotion have led to ethnographic studies of the region making major contributions to the anthropology of the state, sovereignty, globalisation, gender, identity, violence, and mental health. By providing a strong grounding in regional ethnographic materials, this course will equip students to critically evaluate such contributions and to consider possible further contributions that studies of Southeast Asia might make to anthropological debates. The course will also examine how anthropologists have responded to the interpretive challenges presented by selected aspects of Southeast Asia's social and political life, such as the legacies of mass violence (e.g. the Cambodian genocide, the Vietnam War, or Indonesia's massacre of suspected communists), its ethnic and religious pluralism, and the impact of international tourism.

The course also contains a strong visual anthropology element: each week's lecture will be paired with a film screening, and students will be encouraged to examine whether and how this visual material contributes to, or indeed reframes, the theoretical debates at hand.

Upon successful completion of the course, students will be able to:

1. Describe the key features of Southeast Asian social and cultural systems, and identify their similarities and differences with social and cultural systems in other world regions.
2. Describe key events and patterns in Southeast Asia's history, and evaluate the extent to which these influence contemporary social phenomena in the region.
3. Describe and evaluate the most influential paradigms that have been developed in anthropological studies of Southeast Asia over the past 60 years.
4. Apply anthropological concepts and theories to ethnographic materials from Southeast Asia, and evaluate the results.
5. Apply anthropological research findings and theories to social and policy issues in Southeast Asia.
6. Locate and use research findings from Southeast Asia in order to participate in, or advance the terms of, wider disciplinary debates.

**Teaching:** 10 hours of lectures and 10 hours of seminars in the MT. 1 hour of lectures in the ST.

Film screenings will also take place throughout the term. There will be a reading week in Week 6 of the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading:** Useful histories of Southeast Asia / Southeast Asian anthropology.

M.C. Ricklefs, B. Lockhart, A. Lau, P. Reyes, and M.A. Thwin, *A New History of Southeast Asia* (2010); V.T. King and W.D. Wilder, *The Modern Anthropology of South-East Asia: An Introduction* (2003). Ethnographies.

Peletz, M. G. 2009. *Gender Pluralism: Southeast Asia since Early Modern Times*. London & New York: Routledge.

Schwenkel, C. 2009. *The American War in Contemporary Vietnam: Transnational Remembrance and Representation*. Bloomington: Indiana University Press.

Scott, J. C. 2009. *The Art of Not Being Governed: An Anarchist History of Upland Southeast Asia*. New Haven & London: Yale University Press.

Sloane, P. 1999. *Islam, Modernity and Entrepreneurship among the Malays*. Basingstoke: Macmillan.

Detailed reading lists are provided at the beginning of the course.

**Assessment:** Coursework (100%, 5000 words) in the LT.

Students will be asked to write a research essay on a topic covered in the course, and a synoptic essay speaking to themes that connect multiple weeks of the course. Each of these should be up to 2500 words in length, and each of these essays will comprise 50% of the final mark.

## AN424 Half Unit

### The Anthropology of Melanesia

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Michael W Scott, OLD 1.17

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course provides an introduction to selected themes in the anthropology of the region in the Southwest Pacific Ocean known as Melanesia. It gives students a grounding in the contemporary anthropology of the region, primarily through a close reading of three book-length ethnographies.

The three ethnographies, which are all new since 2013, are Christopher Wright's *The Echo of Things*, an account of what photography means to people in the western Solomon Islands; Alice Street's *Biomedicine in an Unstable Place*, an analysis of how persons and diseases are made visible or invisible in a hospital on the north coast of Papua New Guinea; and Maggie Wilson's *A True Child of Papua New Guinea* (edited by Rosita Henry), the part-memoir/part-'ethnographic biography' of a woman who lived between 'two worlds', that of her mother, a New Guinea Highlander, and that of her father, an Australian colonist.

These ethnographies not only provide students with focused accounts of three very different contexts in Melanesia, they also address histories, dynamics, and concerns familiar to people living throughout the region. Furthermore, because the three authors draw on different intellectual antecedents and disciplinary traditions, their work provides an entree into the most influential theoretical debates animating Pacific anthropology today.

Topics to be traced throughout the course include personhood and bodies, kinship and sociality, religion and cosmology, technology and infrastructure, belonging and development, globalization, and the state. Engagement with these three books will be enhanced and supplemented by other readings (including works by Pacific Islanders), ethnographic films, and a visit to the British Museum.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. This course has a reading week in Week 6 of LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** Christopher Wright, *The Echo of Things: The Lives of Photographs in the Solomon Islands* (2013); Alice Street, *Biomedicine in an Unstable Place: Infrastructure and Personhood in a Papua New Guinean Hospital* (2014); Maggie Wilson (edited with additions by Rosita Henry), *A True Child of Papua New Guinea:*

*Memoir of a Life in Two Worlds* (2019). Detailed reading lists are provided at the beginning of the course.

**Assessment:** Essay (100%, 4000 words) in the ST.

The assessed essay must be between 3,500 – 4,000 words in length.

## AN436 Half Unit

### The Anthropology of Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Katherine Gardner.

**Availability:** This course is compulsory on the MSc in Anthropology and Development and MSc in Anthropology and Development Management. This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MSc in China in Comparative Perspective, MSc in Comparative Politics, MSc in Human Rights, MSc in Human Rights and Politics, MSc in International Development and Humanitarian Emergencies, MSc in Social Anthropology and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course explores how anthropologists have evaluated, criticised and contributed to development. Focussing on both 'Big D' development (schemes of improvement or projects) and 'little d' development (change which occurs as the result of economic growth or modernisation) the course shows how anthropological insights have been used to change practices from within as well as critique development from the outside. From anthropological work which seeks pragmatic engagement to that which deconstructs development as an oppressive and power laden discourse, the course aims to give students a broad background to the field. Topics covered include the role of the state; local politics and power relations; gender and empowerment; development as discourse and 'aidnography'; neo liberalism and global capital; corporate social responsibility; markets and micro credit; and the relationship between 'tradition' and modernity. Throughout, the course will draw upon a broad range of ethnographic examples.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

The contact hours listed above are the minimum expected. This course has a reading week in Week 6 of MT.

**Formative coursework:** Students are expected to prepare discussion material for presentation in the seminars based on the core ethnographies of the course. Formative work will include a mock exam question.

**Indicative reading:** Gardner and Lewis 2015, *Anthropology and Development: Twenty First Century Challenges*; Ferguson, J. 1990 *The Anti-Politics Machine: Development, Depoliticisation and Bureaucratic Power in Lesotho*; Cambridge University Press; Li, T, 2014 *Land's End: Capitalist Relations on an Indigenous Frontier*; Karim, L., 2011 *Micro-Finance and its Discontents: Women and Debt in Bangladesh*; Elyachar, J. 2005; *Markets of Dispossession: NGOs, the Market and the State in Cairo*; Scherz, C. 2014. *Having People, Having Heart: Charity, Sustainable Development, and Problems of Dependence in Central Uganda*; Scott, J. 1998, *Seeing Like a State: How Certain Schemes to Improve the Human Condition have Failed*.

Detailed reading lists are provided at the beginning of the course.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## AN442

### Supervised Reading Course and Fieldwork Preparation

**This information is for the 2022/23 session.**

**Teacher responsible:** Members of staff of the Anthropology Department (students' supervisors).

**Availability:** This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

**Course content:** The programme of supervised reading aims to give students a detailed knowledge of the regional ethnographic literature relevant to their proposed research project, as well as providing them with a firm grounding in the theoretical literature relevant to their research objectives. The programme also aims to aid students in the practical organization of their field research (eg organizing language training, obtaining research permits and academic affiliations) through their supervisors' personal guidance. The programme of supervised reading will be specific to each student. It will be agreed with his/her supervisors at the beginning of the academic year and it will be closely reviewed during the course of the academic year.

**Teaching:** Students should expect to meet with at least one of their supervisors at 2-3 weekly intervals during term time, and to submit essays relevant to the preparation of their Research Proposal (AN443).

**Formative coursework:** Students will be required to write essays for their supervisors throughout the academic year.

**Assessment:** Research proposal (100%) in the ST. Students' progress will be monitored by their supervisors through verbal discussion of the submitted written work. The work they undertake for this course is expected to feed directly into the preparation of the Research Proposal (AN443) and will be formally examined through it.

## AN443

### Research Proposal

**This information is for the 2022/23 session.**

**Teacher responsible:** Members of staff of the Anthropology Department

**Availability:** This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

**Course content:** All students must prepare a formal Research Proposal of 8,000-10,000 words (excluding references) for submission to the Department on or before the deadline in June. The proposal is written under the guidance of their supervisors (as set out in AN442), and will normally draw on material studied as part of AN471 Qualitative and Quantitative Methods for Anthropologists and AN472 Evidence and Arguments in Anthropology and Other Social Sciences. It will be expected to demonstrate knowledge of the regional ethnography, and theoretical and methodological literatures, relevant to the proposed research.

**Assessment:** Research proposal (100%).

## AN444 Half Unit

### Investigating the Philippines - New Approaches and Ethnographic Contexts

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Fenella Cannell OLD6.07

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other

programmes where regulations permit.

**Pre-requisites:** Graduates taking this course will normally have taken or be taking a foundational course in anthropology. However, topics may be of interest to those in several disciplines. Exemptions may therefore be sought from the lecturer, e.g. for students external to the department, who wish to explore what anthropology can bring to bear on their own fields.

**Course content:** This course offers the chance to look at the ethnography of one country in more detail than is usual for regional courses. It considers topics taken from the ethnography of the lowland and highland Philippines, with a focus on exciting new high quality writing, drawing on the recent renaissance in Philippine Studies. The course will balance works by expert non-Filipino ethnographers with the new writing of 'native ethnographies' by Filipino scholars resident both in the Philippines themselves and in the US.

The course will be framed within the colonial, religious and social history of the archipelago, and will consider both new interpretations of Philippine history, and topics on contemporary social issues, as well as using classic works on the Philippines. Teaching each week will normally be organised around the reading of one outstanding ethnography, allowing students to look closely at particular cases. Topics in any year are likely to be drawn from the following list (although obviously only ten topics can be offered in one year) ; Migration, 'mail-order' brides, and the Philippine diaspora ; New religious movements: Philippine colonialism and the processes of conversion: Healing, spirit possession, midwifery and local medicine: The contemporary Catholic Church; Violence in the Philippines; Ecology, landscape and environmental politics: Kinship and its transformations; Gender, Philippine queer theory and Philippine transvestitism: Ritual, drama and local performance traditions: Philippine architecture and material culture.: Philippine cinema: Colonial politics, tribal politics and issues of self-representation: Magic, sorcery and "anitismo"; Tourism, symbolic economies and the impact of international capitalism.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. There will be a reading week in Week 6 of the LT.

**Formative coursework:** Students may be required to prepare discussion material for seminars. Students will be expected to produce one essay in the LT.

**Indicative reading:** Detailed reading lists are provided at the beginning of the course, these are an indicative selection: Michell Rosaldo, Knowledge and Passion; Vicente Rafael, Contracting Colonialism; Fenella Cannell, Power and Intimacy in the Christian Philippines; Sally-Ann Ness, Where Asia Smiles; Heather L Claussen, Unconventual Sisterhood; M F Manalansan, Global Divas: Filipino Gay Men in the Diaspora; Vicente Rafael, White Love and Other Events in Filipino History; Nicole Constable, Maid to order in Hong Kong; Albert Alejo, Generating Energies in Mount Apo.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

Students will be given clear guidance on how to prepare for the exam and should note that the format requires two topics to be covered from a choice of seven, allowing plenty of scope in topic choice. A revision session will be arranged in ST if requested by students. Students are also welcome to bring any individual questions to the course teacher in office hours.

## AN447

### China in Comparative Perspective

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Johannes Steinmuller OLD 6.10, Prof Stephan Feuchtwang and Dr Andrea Pia OLD 6.09

**Availability:** This course is compulsory on the MSc in China in Comparative Perspective. This course is available on the MA in Asian and International History (LSE and NUS), MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in International and Asian History,

MSc in Political Economy of Europe (LSE and Fudan) and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

Places are limited and priority is given to MSc China in Comparative Perspective students.

**Course content:** The main object of the course is to help students develop ways of putting the politics, economy and social life of China into a framework in which they can compare and juxtapose it with other major examples. Main topics include China's imperial bureaucracy, Chinese religion, the great divergence debate, as well as current issues such as urban life, the family, the rule of law, and contentious politics. Students will bring whatever theoretical approaches they have already learned and are continuing to learn in the disciplines they bring to the course. They will be expected to demonstrate and explain how they are using them as well as to listen to other approaches and disciplinary perspectives.

**Teaching:** 15 hours of lectures and 10 hours of seminars in the MT. 15 hours of lectures and 10 hours of seminars in the LT. 1 hour and 30 minutes of lectures and 1 hour of seminars in the ST. The contact hours listed above are the minimum expected. This course has reading week in Week 6 of both MT and LT.

**Formative coursework:** Formative coursework consists of participation in weekly seminars, and the opportunity to discuss one formative essay in each of the MT and LT with the course convener or the student's academic mentor.

**Indicative reading:**

- Fei Xiaotong 1992 [1948]. *From the Soil, the Foundations of Chinese Society: A Translation of Fei Xiaotong's Xiangtu Zhongguo, with an Introduction and Epilogue*, transl. Gary Hamilton and Wang Zheng, Berkeley: University of California Press.
- Harrison, Henrietta 2001. *China (Inventing the Nation)*. London: Arnold.
- Stockman, Norman 2001. *Understanding Chinese Society*. Cambridge: Polity.
- Spence, Jonathan D. 1991. *The search for modern China*. New York: Norton.
- Weber, Max 1951. *The Religion of China: Confucianism and Taoism*, transl. Hans H. Gerth, New York: The Free Press.
- Yan Yunxiang 2003. *Private Life under Socialism. Love, Intimacy, and Family Change in a Chinese Village 1949-1999*. Stanford, CA: Stanford University Press.

**Assessment:** Exam (100%, duration: 3 hours) in the summer exam period.

## AN451 Half Unit

### Anthropology of Politics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Mathijs Pelkmans OLD 5.08

**Availability:** This course is available on the MA in Modern History, MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Comparative Politics, MSc in Development Studies, MSc in Regulation, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course focuses on politics and power in their cross-cultural application. Using Marxist, Weberian, and Foucauldian approaches it explores how power travels through different socio-cultural contexts, paying attention to issues such as leadership, ordered anarchy, brokerage, sovereignty, surveillance, spectacle, conspiracy, and violence. A recurring theme throughout the course concerns the state. How should the state be studied anthropologically? Processes of state formation and disintegration, nationalism in its various guises, and state-society relations will be reviewed in order to understand how European, post-colonial, and

post-socialist societies are governed.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

The contact hours listed above are the minimum expected. This course has a reading week in Week 6 of MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading:** Anderson, B, 1991 [1983], *Imagined communities: reflections on the origin and spread of nationalism*; Appadurai, A, 2006, *Fear of small numbers: an essay on the geography of anger*; Blok, A, 1988, *The Mafia of a Sicilian Village 1860-1960: a study of violent peasant entrepreneurs*; Bryant, R, & Reeves, M, 2021, *The Everyday Lives of Sovereignty*; Clastres, P, 1987, *Society against the state: essays in political anthropology*; Evans-Pritchard, EE, *The Nuer*; Leach, Edmund, 1954, *The Political Systems of Highland Burma*; Kwon, H, & B. Chung, 2012, *North Korea: beyond charismatic politics*; Mbembe, A, 2001, *On the Postcolony*; Navaro, Y, 2021, *The make-believe space: affective geography in a postwar polity*. Tuckett, A, 2018, *Rules, Paper, Status: Migrants and Precarious Bureaucracy in Contemporary Italy*; Vincent, J, 2002, *The Anthropology of Politics*; Wolf, E. 1999. *Envisioning Power: Ideologies of Dominance and Crisis*.

**Assessment:** Essay (100%, 4000 words) in the LT.

## AN456 Half Unit

### Anthropology of Economy (1): Production and Exchange

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Alpa Shah OLD 6.17A.

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Studies, MSc in Inequalities and Social Science, MSc in Regulation, MSc in Social Anthropology, MSc in Social Anthropology (Religion in the Contemporary World) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** What is the economy? We will explore how the history of capitalism has been inextricably tied to producing an idea of the economy as a distinctive domain of life and how anthropologists have persistently challenged this understanding, showing how economic life is inextricably tied to religion, politics and kinship, for instance. We will show the radical possibilities of social relations that anthropologists have offered by studying communities that appear to be 'the original affluent society', seemingly not affected by capitalist societies, or incorporated on their own terms. At the same time, we will examine the impact of capitalism and the inequalities it has brought on diverse people around the world, looking at the role of colonialism and empire, industrialisation and neoliberalisation, which includes regimes of production, accumulation and dispossession. Central to our examination will be understanding processes and experiences of exploitation, oppression and domination. We will unveil the invisible work of the many that is never valued but gets hidden in precarity, by migration regimes and within households. We will highlight the ways in which gender, race, ethnicity, caste and class need to be central to any analysis of the economy. At all times, we will look for people's creative responses to the situations they find themselves in, whether it is through acquiescence, reincorporation, religious conversion, weapons of the weak or outright rejection and revolt.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT. 1 hour of lectures in the ST.

The contact hours listed above are the minimum expected. This course has a reading week in Week 6 of MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading: A few ethnographies to whet your appetite:** Bronislaw Malinowski (1964) *Argonauts of the Western Pacific*; Marshall Sahlins (1974) *Stone Age Economics*; Marcel Mauss (1990 [1925]). *The Gift: the form and reason for exchange in archaic societies*; Sidney Mintz (1985) *Sweetness and Power: The Place of Sugar in Modern History*; June Nash (1979) *We Eat the Mines and the Mines Eat Us: dependency and exploitation in Bolivia's tin mines*; Michael Taussig (1980) *The Devil and Commodity Fetishism in South America*; Jonathan Parry (2020) *Classes of Labour in a Central Indian Steel Town*; Maria Mies (1982) *The Lace Makers of Narsapur: Indian Housewives produce for the World Market*; Carol Stack (1974) *All Our Kin*; Claude Meillassoux (1981) *Maidens, Meal and Money: capitalism and the domestic community*; Jan Breman (1974) *Patronage and Exploitation: changing agrarian relations in South Gujarat India*; Alpa Shah, Jens Lerche, Richard Axelby, Brendan Donegan, Dale Benbabaali, Jayaseelan Raj and Vikramaditya Thakur (2018) *Ground Down by Growth: Tribe, Caste, Class and Inequality in 21st Century India*; Tania Murray Li (2014) *Land's End: Capitalist Relations on the Indigenous Frontier*.

**A few general overview texts:** James G. Carrier and Don Kalb (eds) (2015) *Anthropologies of Class: Power, Practice, and Inequality*; Richard Wilk and Lisa Cliggett (1996) *Economies and Cultures: Foundations of Economic Anthropology*; James Carrier (ed) (2005) *A Handbook of Economic Anthropology*

**Other general introductory texts:** Stephen Gudeman (2001) *The Anthropology of Economy*; Chris Hann and Keith Hart (2011) *Economic Anthropology*; Susana Narotzky (1997) *New Directions in Economic Anthropology*; Jonathan Parry and Maurice Bloch (Eds) (1989), *Money and the Morality of Exchange*; Stuart Plattner (ed) (1989) *Economic Anthropology*; James Carrier (2019) *A Research Agenda for Economic Anthropology*

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## AN457 Half Unit

### Anthropology of Economy (2): Transformation and Globalisation

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Rebecca Bowers OLD 6.17A

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Studies, MSc in Inequalities and Social Science, MSc in Regulation, MSc in Social Anthropology, MSc in Social Anthropology (Religion in the Contemporary World) and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course explores the limits and potentials of contemporary global capitalism. We all know that we live in a global economy, but how has this come into being? What are its political, social and cultural consequences? Why is the global economy so volatile? How does it produce inequality for many and abundance for some? Is globalisation dead in an era of 'de-coupling' and populism? What might the futures of global capitalism be? Through the term we will answer these questions in relation to classic themes of production, social reproduction, circulation and consumption. However our theoretical approaches will be expanded to explore the emerging anthropology of: logistical power, the commodification of intimacy, algorithmic interactions, global branding, media spectacles, the security state, financialisation and speculation. Importantly the course will

demonstrate that globalisation does not have a single logic nor is it a towering force. Instead, our focus on ethnography takes us inside the local processes through which the durable capture of accumulation and power are created. Significantly too we will be examining globalisation from the perspective of global elites, the middle classes and the precarious poor. By taking an anthropological approach to globalisation we will move away from an economic or 'economistic' theory of capitalism. Instead we will see the significance of desire, kinship, affect, political dreams, ethics and culture to the intimate economy of capitalism. At the end of the course we will have a better understanding of recent global changes, but also a set of theoretical tools that can help us to rethink approaches to capitalism in general.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

The contact hours listed above are the minimum expected. This course has a reading week in Week 6 of LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** Yanagisako, S. and L. Rofel (2019) *Fabricating Transnational Capitalism: a collaborative ethnography of Italian-Chinese Global Fashion*, Duke University Press.

Cowen D (2014) *The Deadly Life of Logistics: Mapping Violence in Global Trade*. Minneapolis: University of Minnesota Press.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

## AN458 Half Unit

### Children and Youth in Contemporary Ethnography

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Catherine Allerton OLD 6.13

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course explores the paradoxes and contexts of social science work on children and youth through an intensive focus on contemporary ethnographies exploring children's social worlds. This ethnographic work is multi-disciplinary (emerging from anthropology, geography, sociology, media studies), and builds both on earlier ethnographies of childhood from the mid-

twentieth-century onwards, and on growing theoretical interest in cross-cultural understandings of 'the child' and their competencies. In the first half of the course, we investigate 5 central paradoxes that emerge through a consideration of children and childhood. These are: 1) Universal/ Constructed; 2) Being/ Becoming; 3) Structure/ Agency; 4) Protection/ Participation; and 5) Representation/ Reality. These paradoxes allow us to consider important questions such as: What does it mean to see childhood as a 'construction'? How has ethnographic work questioned universal frameworks for child development? How should we understand children's agency? How successfully can 'child rights' be achieved in different cultural contexts? Why should children's perspectives be taken more seriously in the social sciences? In the second half of the course, we turn to 5 key contexts for ethnographic analyses of children's lives. These are: the street, school, work, play and war. How have the lives of 'street children' been approached and understood? What do critical ethnographies of schooling tell us about its role in reproducing inequalities? What, if anything, is the difference between beneficial child work and harmful 'child labour'? How can we recognise and theorise children's play? And how have ethnographic accounts documented both trauma and resilience in the context of 'child soldiering'?

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. This course has a reading week in Week 6 of LT. 4 hours of film screenings in LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** R.A. LeVine and R.S. New (eds) 2008. *Anthropology and child development: a cross-cultural reader*; N. Scheper-Hughes and C. Sargent (eds) 1998. *Small wars: the cultural politics of childhood*; K.F. Olwig and E. Gullov (eds) 2003. *Children's places: cross-cultural perspectives*. D. Durham & J. Cole (eds) 2006. *Generations and globalization: youth, age and family in the new world economy*; M. Liebel. 2004. *A will of their own: cross cultural perspectives on working children*; V. Amit-Talai and H. Wulff (eds) 1995. *Youth cultures: a cross-cultural perspective*; A. James. 1993. *Childhood identities: self and social relationships in the experience of the child*. A. de Waal and N. Argenti (eds) 2002. *Young Africa: Realising the rights of children and youth*; J. Boyden and J. de Berry (eds) 2004. *Children and youth on the frontline: ethnography, armed conflict and displacement*; Levinson, B. D. Foley & D. Holland. (eds) 1996. *The cultural production of the educated person: critical ethnographies of schooling and local practice*; H. Montgomery. 2009. *An introduction to childhood: anthropological perspectives on children's lives*;

**Assessment:** Coursework (100%, 4000 words) in the ST..

---

## AN461 Half Unit Not available in 2022/23 Anthropological Approaches to Questions of Being

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Michael Scott OLD 6.16

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** In Western thought, the study of the nature of being itself (Greek *ontos*), including theories about how things come into being and how they are related to one another, is known as ontology. Building on, but broadening the scope of this Western tradition, the growing anthropological literature on questions of being seeks to convey ethnographically and conceptualize theoretically the many different ontologies, or lived realities, that shape social practices in diverse historical, geographic, and cultural contexts. This literature also urges us to reconsider reflexively what anthropology is, does, and might become.

Twenty-first century anthropology has seen an 'ontological turn' or 'turns', or more broadly, the emergence of anthropologies of ontology. Increasingly, a variety of anthropological discourses invoking the concept of ontology have come into dialogue, yet ontology-oriented approaches remain diverse. Over the past decade, these discourses have been sites of divisive debate, strong contestation, pointed polemic, and at times personal critique. While this has generated a lot of interest, arguably these debates have created more heat than light. In the wake of these debates, and keeping them in view, this course aims to illuminate current work around ontology by reading three recent and influential books, each of which takes a distinctive anthropological approach to questions of being.

Morten Axel Pedersen's ethnography, *Not Quite Shamans* (2011), explores spirits, shamans – or the relative lack of shamans – and postsocialism among the Darhad people of northern Mongolia. Pedersen focuses on the ontological uncertainties that can attend sweeping social transformations; in so doing, he challenges us to rethink the assumptions about being that inform mainstream anthropological analyses.

Marisol de la Cadena's ethnography, *Earth Beings* (2015), offers a person-centred, conversation-driven account of people, place, and indigenous cosmopolitics in the Andes. De la Cadena engages with the Quechua people's political struggles in ways that prompts us to question modernity's dominant nature/human dualism. Giving us access to a context where mountains are wilful actors, she invites us to reconceptualize politics as ontological disagreement. Stuart McLean's book, *Fictionalizing Anthropology* (2017), develops a comparative approach to anthropology by juxtaposing diverse folkloric, historical, literary, and ethnographic accounts – primarily from the North Atlantic. McLean seeks to persuade us that storytelling is a mode of 'ontological poesis'; it does not simply reflect – or even reflect on – aspects of the world as given; it participates in the very making of worlds. In the same way, he suggests, the stories anthropologists tell and the comparisons they make may be ontologically generative, part of the becoming of new possibilities for human and other-than-human being.

These three works – focused on very different contexts, using very different modes of research, and written in very different styles – introduce students to the central questions, dynamics, and debates that constitute anthropological approaches to questions of being.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

There will be a reading week in Week 6 of the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading:** Morten Axel Pedersen, *Not Quite Shamans: Spirit Worlds and Political Lives in Northern Mongolia* (2011); Marisol de la Cadena, *Earth Beings: Ecologies of Practice across Andean Worlds* (2015); Stuart McLean, *Fictionalizing Anthropology: Encounters and Fabulations at the Edges of the Human* (2017).

**Assessment:** Coursework (100%, 4000 words) in the LT.

---

## AN463 Half Unit Not available in 2022/23 Borders and Boundaries: Ethnographic Approaches

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Mathijs Pelkmans OLD 5.08

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** How do territorial borders influence human behaviour and thinking, and how, in turn, do people create, manage and manipulate such borders? These questions have become pressing with the intensification and politicisation of global interconnectedness. While a few decades ago the tearing down

of the Berlin Wall seemed to herald a border-less world, today the loudest politicians promise to create "huge, great, great, beautiful walls." This course studies the numerous tensions accompanying global interconnectedness. Why is it so difficult to make borders impermeable? How do smuggling networks operate? What does the world look like from the perspective of undocumented migrants? What are the effects of new border fortification technologies? What is it like to live in a gated community? Are people boundary-drawing creatures? Why do borders play a central role in images of utopia? Why is it silly yet productive to ask: where is the border between Europe and Asia? These and other questions will be discussed by situating ourselves ethnographically in the borderlands, potentially making us realise that "the frontier is all around us."

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

This year, some or all of this teaching will be delivered through a combination of virtual lectures, classes and online interactive activities. The contact hours listed above are the minimum expected.

This course has a reading week in Week 6 of MT.

**Formative coursework:** Students are expected to prepare discussion material for presentation in the seminars. Students will be expected to produce 1 essay in the MT.

**Indicative reading:**

- Andersson, R. (2014). *Illegality, Inc.: Clandestine migration and the business of bordering Europe*;
- Brubaker, R. (2004). *Ethnicity without groups*;
- Berdahl, D. (1999). *Where the world ended: Re-unification and identity in the German borderland*;
- Ingold, T. (2007). *Lines: a brief history*;
- De León, Jason (2015) *The land of open graves: Living and dying on the migrant trail*;
- Low, S. (2004). *Behind the gates: Life, security, and the pursuit of happiness in fortress America*;
- Pelkmans, M. (2006). *Defending the border: identity, religion, and modernity in the Republic of Georgia*;
- Wilson, T. and H. Donnan (eds) (2012) *A Companion to Border Studies*;
- Reeves, M. (2014). *Border work: spatial lives of the state in rural Central Asia*;
- Van Schendel, W. and I. Abraham, eds. (2005) *Illicit flows and criminal things: States, borders, and the other side of globalization*.

**Assessment:** Take-home assessment (100%) in the MT.

The take home exam will be held the week following the end of the MT.

---

## AN467 Half Unit Not available in 2022/23

### The Anthropology of South Asia

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Rebecca Bowers

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** You need to be enrolled in a degree that requires analytical and qualitative research skills. You may be asked to submit written work to determine your ability for this course.

**Course content:** This course will aim to address issues of citizenship, inequality and social justice, religious faith and practices, migration and labour and consumption patterns in rural and urban South Asia. The course will cover both classic and current literature and weekly sessions will be organised thematically. South Asia is an ideal setting to examine many paradoxes that exist elsewhere - alongside some of the highest rates of economic growth there is growing inequality, there is a

growing middle class but high rates of precarious poverty, the countries remain largely rural yet they will hold the largest urban population in the world in less than ten years and so on. In order to understand these paradoxes, it is essential that issues of macro economic policy, social inequality, infrastructural development, political mobilisation and popular culture, mobilisation along religious lines in each country and the rise of the 'threatened majorities' that behave like minority populations - be examined in greater detail. Using a rich body of anthropological research on South Asia, this course will examine several of these issues and more in this course. The literature on India is the largest available but every attempt will be made to cover the anthropological literature on Pakistan, Nepal, Sri Lanka and Bangladesh alongside. All these issues and more will be addressed in this course through the rich corpus of anthropological literature on the subject alongside examples from India's vibrant media and popular culture.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

This course will have a series of optional online film screenings. The course has a reading week in Week 6 of the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading:** Please read at least TWO of the following background readings before the start of the course and certainly by the end of the second week of the course:

Sunil Khilnani, *The Idea of India*; Ramachandra Guha, *India After Gandhi*; Corbridge, S. and Harris, J., *Reinventing India: Liberalization, Hindu Politics and Popular Democracy*; Rana Dasgupta, *Capital: The Eruption of Delhi*; Ammara Maqsood, *The New Pakistani Middle class*; Delwar Hussain, *Boundaries Undermined: The ruins of progress on Bangladesh-India Border Fiction*; Vikram Seth, *A Suitable Boy*; Rohinton Mistry, *A Fine Balance*; Bapsi Sidhwa, *Ice Candy Man*; Neel Mukherjee, *The Lives of Others*; Daniyal Mueenuddin, *In Other Rooms, Other Wonders*; Arundhati Roy, *The God of Small Things*; Saadat Hasan Manto, *Toba Tek Singh: Stories*

**Assessment:** Take-home assessment (100%) in the MT.

---

## AN469 Half Unit Not available in 2022/23

### The Anthropology of Amazonia

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Harry Walker OLD 5.06B

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course will introduce students to selected themes in the anthropology of Amazonia. It will provide a grounding in the ethnographic literature of the region while seeking to engage with current theoretical debates, highlighting their potential importance to the discipline of anthropology. Topics to be covered include history, indigenous social movements; sexuality and gender; trade and inter-ethnic relations; politics and power; illness, well-being and death. Students will be encouraged to reflect on the broader relationship between ethnography and theory, to challenge common stereotypes of Amazonia and its inhabitants, and to explore ways in which the region has inscribed itself on the imagination of anthropologists and laypersons alike.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

This course has a reading week in Week 6 of MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading:** Clastres, Pierre. 1987. *Society Against the State: Essays in Political Anthropology*.  
Overing, Joanna. & Alan Passes (eds). 2000. *The Anthropology of Love and Anger: The Aesthetics of Conviviality in Native Amazonia*.  
Walker, Harry. 2012. *Under a Watchful Eye: Self, Power and*

Intimacy in Amazonia.

Descola, Philippe. 1994. In the Society of Nature: A Native Ecology in Amazonia.

Gow, Peter. 2002. An Amazonian Myth and its History.

Fisher, William H. 2000. Rainforest Exchanges: Industry and Community on an Amazonian Frontier.

Seeger, Anthony. 2004. Why Suyá Sing: A Musical Anthropology of an Amazonian People.

Gregor, Thomas. 1985. Anxious Pleasures: The Sexual Lives of an Amazonian People.

Lévi-Strauss, Claude. 1984. Tristes Tropiques.

Conklin, Beth. 2001. Consuming Grief: Compassionate Cannibalism in an Amazonian Society.

**Assessment:** Take-home assessment (100%) in the MT.

The take home exam will be held the week following the end of the MT.

## AN471

### Qualitative and Quantitative Methods for Anthropologists

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Mathijs Pelkmans OLD 5.08, Dr Fuad Marco Devecchi Musallam OLD 5.06B and Dr Mayanka Mukherji OLD 6.14.

**Availability:** This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

**Course content:** The twofold aim of this course is to provide students with insights into the process by which anthropological knowledge is produced, and to train them in the collection and analysis of qualitative and quantitative data. In doing so it offers students a methodological framework for conceptualising and designing their own PhD research projects. The course discusses the nature of ethnographic data and evidence, its implications for research, and ways of incorporating empirical data in ethnographic texts.

**Teaching:** 40 hours of seminars in the MT.

The contact hours listed above are the minimum expected. This course has a reading week in Week 6 of MT.

**Formative coursework:** Students will be expected to produce 2 presentations in the MT.

Students will carry out fieldwork exercises and read selected texts. They will present their findings as part of two scheduled presentations, on which they will receive in-seminar verbal feedback.

**Indicative reading:** A. Robben and A. Sluka (eds.) 2007.

Ethnographic Fieldwork: An anthropological reader; P.

Atkinson. 2015. For Ethnography; R. H. Bernard. Research Methods in Cultural Anthropology: Qualitative and Quantitative Approaches.

Fifth Edition. A. Cerwonka and L. Malkki. 2007. Improvising Theory: Process and Temporality in Ethnographic Fieldwork. K. Narayan.

2012. Alive in the Writing: Crafting Ethnography in the Company of Chekhov.

**Assessment:** Essay (50%, 3000 words) and essay (50%, 3000 words) in the MT.

Students will write two 3,000-word essays (each worth 50%), which can draw from issues covered in either the Tuesday or the Friday class, or both. The first essay is to be submitted on the first day after reading week, and the deadline for the second essay is the last day of MT.

## AN472

### Evidence and Arguments in Anthropology and Other Social Sciences

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Clara Devlieger OLD 6.08 and Dr Teodor

Zidaru-Barbulescu OLD 5.06A

**Availability:** This course is compulsory on the MRes/PhD in Anthropology. This course is not available as an outside option.

**Course content:** This seminar course considers research practices across a range of social and natural sciences, arts and humanities in order to explore methodological issues that are relevant to anthropology and ethnography. In particular, it focuses on the relationship between evidence and the kinds of inferences and conclusions which are drawn by researchers in different fields. Each week students will be involved in two seminars, one on Tuesday and one on Friday. In Tuesday seminars, we will consider case-studies taken from different disciplines in relation to the research practices of ethnographers. The disciplines covered may include: cognitive science & developmental psychology; psychoanalysis; moral and political philosophy; photographic and visual art theory; history and archival research; demography; human and behavioural ecology; development studies; linguistic anthropology; philosophy of science and STS; literary criticism; creative writing; and architecture. In the Friday seminars, students will present their own draft research proposals to others in written and oral form, focusing on (1) the questions they hope to explore in their dissertations; (2) the kinds of evidence they will need in order to adequately explore these questions; (3) the methods they will adopt in order to collect this evidence.

**Teaching:** 40 hours of seminars in the LT.

The contact hours listed above are the minimum expected. This course has a reading week in Week 6 of LT.

**Formative coursework:** Students will be expected to produce 1 case study in the LT.

This will allow students to practice and receive feedback on the direct application of different disciplinary perspectives to a body of data, in preparation for their summative assessment and for their future research.

**Assessment:** Essay (50%, 3000 words) and essay (50%, 3000 words).

## AN475 Half Unit Not available in 2022/23 The Anthropology of Revolution

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Alpa Shah OLD 6.17A

**Availability:** This course is available on the MA in Modern History, MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available as an outside option to students on other programmes where regulations permit.

Optional for MSc students in Anthropology. Also available to students on other degree programmes as an outside option.

**Course content:** This course will focus on the study of revolution from an anthropological perspective. It will concentrate on three different types of revolutionary struggle, in three different continents, through three different types of ethnographies: the Zapatista indigenous movement in Mexico, the Zimbabwean anti-colonial struggle, and the Maoist movement in South Asia. In each case, students will be encouraged to critically consider the varying degrees of involvement of the anthropologist in the movements concerned, the theoretical premises of the anthropologists and how these affect the politics and ethics of writing. In this process, students will deepen their understandings of the theoretical debates around production and reproduction, social transformation, religion and secularism, activism and anthropology, and violence and ethics in radical social change. The course will demonstrate that although anthropologists were once criticised for 'missing the revolution' on their doorstep, in fact their long term engagement with communities who come to be affected by revolutionary struggles has much to offer to the theoretical and practical work of radical social transformation.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. This course has a reading week in Week 6 of LT.

**Formative coursework:** Students will be expected to produce 1

essay in the LT.

**Indicative reading:** This course will be based on the close reading of the following three ethnographic monographs:

Earle, Duncan, & Simonelli, Jeanne. (2005). *Uprising of Hope: Sharing the Zapatista Journey to Alternative Development*. Walnut Creek: Altamira Press.

Lan, David. (1985). *Guns and Rain: guerrillas and spirit mediums in Zimbabwe*. Berkeley: University of California Press.

Shah, Alpa (2018) *Nightmarch: Among India's Revolutionary Guerrillas*. London: Hurst Publishers

**Assessment:** Take-home assessment (100%) in the LT.

The take home exam will be held the week following the end of the LT.

## AN476 Half Unit

### Anthropology and the Anthropocene

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Gisa Weszkalnys

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** In August 2016, scientists participating in the Anthropocene Working Group put forward an official recommendation to rename our present time interval 'the Anthropocene'. It postulates that humans now exert recognisable influences on the earth's bio- and geophysical systems sufficient to warrant the naming of a distinct geological epoch encompassing the earth's present, recent past, and indefinite future. The Anthropocene thus echoes contemporary anxieties about climate change, the deterioration of global ecologies, and other environmental crises on unprecedented scales, as well as humans' capacity to devise adequate solutions to the problems they face. The scholarly and popular debate on the Anthropocene has exploded in recent years, with anthropologists contributing both theoretical and important ethnographic insight into how people apprehend and deal with the repercussions of anthropogenic environmental change. It now seems that the continued successful existence of humanity on this planet will require us to live differently both with each other and with the earth: 'We will go onwards in a different mode of humanity or not at all' (Val Plumwood 2007).

In this course, we will approach the Anthropocene as a contested category, with evident political and ethical implications. We will begin by examining the dramatic changes in the relationship between humans and their natural environments brought about by industrialisation, specifically, the increased exploitation of natural resources as well as the production and use of fossil fuels on a large scale. We will attend to the practices and cosmologies of people who in their everyday lives – for example, by digging, polluting, and wasting – participate in the work of anthropogenic alterations, drawing on case studies from across the world.

We will consider alternative labels, such as the Capitalocene, Plantationocene, Plasticene, Eurocene, Misanthropocene, and Neologocene, each of which tells a different origin story for what Donna Haraway has called 'the trouble'. However, we then move to ask whether the Anthropocene might be less a marker of an epochal transformation than a signal of a profound anti-political shift in discussions about the future of the planet. We will inspect the scientific and non-scientific controversies the Anthropocene has provoked, and the particular forms of power, authority, reason, imagination, and subjectivity it has generated.

Students will be expected to engage with a variety of resources, including online publications, blogs, documentary and feature films, and other media, and an emergent interdisciplinary literature, spanning the social and natural sciences, which we will read in relation to a more long-standing engagement with the environment within the anthropological discipline. This will

lead us to interrogate established binaries of human/nonhuman, subject/object, and nature/culture, and, significantly, to ask about the critical valence of anthropologists' enquiry into the 'anthropos' for an age so profoundly shaped by humans. What methods and modes of analysis are required to comprehend the diverse human/non-human interactions and seemingly incommensurable scales that the Anthropocene invokes? What types of collaboration, knowledge, and mutual care does an anthropocenic outlook make possible? How can we anchor the manifold theoretical proposals that have been put forward not just in ethnographic examples but also in our own 'experiments for living'?

**Teaching:** 7 hours of lectures, 7 hours of seminars and 6 hours of workshops in the MT.

The course is comprised of three cycles of three weeks plus an additional, concluding week. Each cycle consists of two weeks taught in the traditional lecture/seminar format, and a third week with a two-hour workshop in a larger group. While the one-hour seminars will focus on core readings set by the lecturer, the two-hour workshop will, in addition, offer space for viewing other resources (films, online material), discussing students independently researched material, student presentations, etc.

**Formative coursework:** Students will be expected to produce 1 essay and 1 presentation in the MT.

**Indicative reading:** N. Clark and B. Szerszynski (2020) *Planetary Social Thought: The Anthropocene challenge to the social sciences*  
J. Cruikshank (2005) *Do Glaciers Listen? Local Knowledge, Colonial Encounters, and Social Imagination*

D. Haraway (2016) *Staying with the Trouble: Making Kin in the Chthulucene*

K. Hetherington (2019) *Infrastructure, Environment, and Life in the Anthropocene*

V. Ialenti (2020) *Deep Time Reckoning: How Future Thinking Can Help Earth Now*

E. Kohn (2013) *How Forests Think: Toward an Anthropology beyond the Human*

D. McDermott Hughes (2017) *Energy without Conscience: Oil, Climate Change, and Complicity*

N.C. Kawa (2016) *Amazonia in the Anthropocene: People, Soils, Plants, Forests*

J. Salazar Parreñas (2018) *Decolonizing Extinction: The Work of Care in Orangutan Rehabilitation*

A. Tsing et al. (2017) *Arts of Living on a Damaged Planet*

**Assessment:** Essay (100%, 4000 words) in the LT.

## AN477 Half Unit Not available in 2022/23

### Topics in the Anthropology of sub-Saharan Africa

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Stephanie Postar

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** It is preferred that students will normally have done preliminary courses in Anthropology or have a Social Science background, but there is some flexibility. Students should consult the course lecturer.

**Course content:** This course gives students a critical understanding of ethnographic and theoretical writing on sub-Saharan Africa. Grounded in some classic debates around tradition and modernity (kinship-based polities vs states; studies on occult knowledge vs rationally-oriented political economy approaches; 'objective' class vs forms of identification such as tribe or race), it explores questions about how the sub-continent's societies orient themselves, and respond to new precarities, in a postcolonial

and neoliberal age. How are changing urban realities experienced and expressed in popular culture? How are the politics of land and belonging being reshaped? Do youth have a future of work in post-industrial Africa - and what new gender identities are they developing? Are there specifically African forms of knowledge? What is postcolonial about the 'postcolony'? Is Europe 'evolving towards Africa', as has been maintained? The course also thinks through the role of fiction, non-ethnographic writing and non-academic voices in shaping anthropology on the sub-continent.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. This year, some or all of this teaching will be delivered through a combination of virtual lectures, classes and online interactive activities. The contact hours listed above are the minimum expected. This course has a reading week in Week 6 of LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

Students will be asked to write one formative review during termtime, to be discussed with and evaluated by the course lecturer. The formative review will allow for students' individuality and expression and allow them to bring their own interest in current debates into interplay with course materials.

**Indicative reading:** Adebanwi, Wale. 2017. *The Political Economy of Everyday Life in Africa: Beyond the Margins*. Oxford: James Currey.

Comaroff, J and JL. 2012. *Theory from the South or, How Euro-America is Evolving Toward Africa* Anthropological Forum 22 (2).  
Englund, Harri. 2006. *Prisoners of Freedom. Human Rights and the African Poor*. Berkeley: UC Press.

Geschiere, Peter. 2013. *Witchcraft, Intimacy and Trust: Africa in comparison*. Chicago: University of Chicago Press.

Guyer, Jane. 2014. *Marginal Gains: monetary transactions in Atlantic Africa*. Chicago: University of Chicago Press.

Mbembe, A. 2001. *On the Postcolony*. Berkeley, University of California Press.

Moore, H. L. 2013. *Still life: hopes, desires and satisfactions*. London, John Wiley & Sons.

Piot, Charles 1999. *Remotely Global: village modernity in West Africa*. Chicago: University of Chicago Press

**Assessment:** Take-home assessment (100%) in the LT. The take home exam will be held the week following the end of the LT.

---

## AN479 Half Unit Anthropology of Law

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Harry Walker OLD 5.06B

**Availability:** This course is available on the MRes/PhD in Anthropology, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available as an outside option to students on other programmes where regulations permit.

This course will be particularly useful for anthropology students who are interested in political/legal issues and political economy perspectives in anthropology. It will also be interesting to law students with an interest in socio-legal, critical, criminological and anthropological approaches to the study of law, and to students from other departments who wish to learn about these topics. The course is an independent half unit which complements the Anthropology of Politics half unit.

**Course content:** The aim of this course is to introduce students to major developments and debates in legal anthropology across time and space. The course is divided into three parts. The first part introduces students to the origins and early developments of the discipline. Students will learn about how legal anthropology arose through an encounter with colonialism, its post-colonial critics, and the legacy these debates have left on the sub-discipline today. The second part moves on to core debates in contemporary

legal anthropology, about topics such as human rights, citizenship, property regimes, and environmental justice. The third part deals with the limits of the law and its relationship to other social, economic and political domains. Topics could include the migrant crisis, the criminalisation of poverty, and indigenous peoples' struggles over cultural recognition.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. 1 hour of lectures in the ST.

The course will be taught through a combination of weekly lectures and seminars. Some or all of this teaching will be delivered through a combination of online lectures, in-person seminars, and interactive activities. The contact hours listed above are the minimum expected.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** Some useful background/overview readings include:

Roberts, Simon. 2013. *Order and Dispute: An Introduction to Legal Anthropology*. New York: Penguin

Fuller, CJ. 1994. *Legal Anthropology, Legal Pluralism and Legal Thought*. *Anthropology Today* 10(3): 9-12.

Just, Peter. 1992. *History, Power, Ideology and Culture: Current Directions in the Anthropology of Law*. *Law and Society Review* 26(2): 373-412

Moore, S.F. 2001. *Certainties Undone: Fifty Turbulent Years of Legal Anthropology, 1949 – 1999*. *Journal of the Royal Anthropological Institute* 7(1): 95 – 116

Snyder, Francis. 1993. *Law and Anthropology: A Review*. Florence: European University Institute. Working Papers in Law 93(4)

The following edited collections are useful:

Foblets, Marie-Claire et al. 2020. *The Oxford Handbook of Law and Anthropology*. Oxford: Oxford University Press.

Moore, Sally Falk 2005. *Law and Anthropology: A reader*. Malden: MA Blackwell

Mundy, Martha 2002. *Law and Anthropology*. Aldershot: UK Ashgate.  
Starr, June and June F. Collier. 1989. *History and Power in the Study of Law: New Directions in Legal Anthropology*. Ithaca, NY: Cornell University Press.

Lazarus-Black, M. and Susan Hirsch. 1994. *Contested States: Law, Hegemony and Resistance. After the Law*. New York and London: Routledge.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

## AN480 Half Unit Not available in 2022/23 Public Anthropology

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Andrea Pia

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** What and how does anthropology contribute to public life? Do anthropologists have a responsibility to meaningfully contribute to communities beyond the academy that make the study of anthropology possible? This module explores the challenges, difficulties, and stakes of having ethnographic research encounter various publics, ranging from journalists, legal experts, and policymakers to activist groups, local populations, and other scholars. Students of this module engage critically with a variety of media (books, newspaper articles, documentaries, podcasts, social platforms and interactive digital tools) with a view of analysing the ways in which anthropological ideas are conveyed to broader audiences, reflecting on how to improve their representation and effectiveness, and proposing new ways of disseminating these ideas to different publics.

**Teaching:** 6 hours of lectures, 3 hours of seminars, 8 hours of classes and 12 hours of workshops in the LT.

The course is divided into ten weeks, consisting of a combination of lectures/movie workshops/classes. Each week students read excerpts from selected ethnographic texts across geographical areas that have spurred public interest for the sensitiveness of their subject matter or the questionability of their research ethics. Workshops introduce students to the public buzzes generated by these studies and ask them to reflect on the politics and situatedness of ethnographic research and on the relatability of its findings. In some of the seminars a 'local expert' will be present to serve as a resource in the discussion of the issues. The focus of this module is on the relationship between anthropological theory, the power fields in which it is inserted and its diverse publics. The types of questions this module address are both of critical and applied nature: to what extent can ethnographic studies of the food production system, waste management and water and energy provisions make global social infrastructures fairer? To what extent structure/agency debates in anthropology (and cognate disciplines) may move public perceptions of criminality and marginality towards more sympathetic positions? How effective have ethnographic-based critiques of trickle-down economics and social mobility really been, and why? How can anthropological accounts of systemic inequality take root into public representations of otherness?

The course ends by examining recent anthropological proposals within academia for a more vocal and engaged anthropology. It asks student to critically reflect on whether the discipline's colonial past may still weigh on today's attempts at engaging new publics. What disciplinary benchmarks of successful engagement should anthropologists set up for their own scholarship?

**Formative coursework:** Students will be expected to produce 1 project and 1 presentation in the LT.

Formative assessment consists in a series of dedicated methodological seminars (two sessions in total) where students familiarise with non-traditional methods of communicating ethnographic insights. In preparation of seminars (on week 4 and 8) students submit a draft proposal of their research in progress and present related research materials in small groups.

**Indicative reading:**

- Goffman, Alice 2014. *On the Run: Fugitive Life in an American City*. University of Chicago Press.
- Fassin, Didier 2013. *Enforcing Order: An ethnography of Urban Policing*. Blackwell's.

**Assessment:** Research project (100%) in the LT.

The course is assessed via a research essay (100%) at the end of LT

For the research essay, students carry out independent research to produce a document of a maximum of 4000 words which relates anthropological scholarships to a public issue of their choice.

## AN481 Half Unit Not available in 2022/23

### Health and Welfare: Anthropological Perspectives

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Clara Devlieger OLD 6.08

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the Contemporary World). This course is available as an outside option to students on other programmes where regulations permit.

**Course content:** This course will focus on the study of health and welfare from an anthropological perspective. The course departs from a focus on biomedicine, examining how anthropologists have analysed the individualising medical gaze and the consequences of biopolitics. We consider how understandings of illness, care and healing are socially defined in different socio-cultural contexts, paying attention to issues such as disease, old age, disability, and mental health. Such issues of health are increasingly shifting towards broader conceptions of 'well-being'. As we progress, therefore, we turn to examine how such ideas of health increasingly intersect with the policies and values of welfare, as the political management of well-being. Welfare is both a description of life, as well as a form of intervention that aims to improve those lives. We therefore consider how ethnographic approaches to redistributive work touch on issues concerned with what it means to fare well and how that might be secured in a world defined by inequalities. Ethnographic case studies here may include ethnographies of austerity, dependency and sharing.

**Teaching:** 10 hours of lectures and 15 hours of seminars in the LT. This course has a reading week in Week 6 of LT.

**Formative coursework:** Students will be expected to produce 1 presentation and 1 other piece of coursework in the LT.

**Indicative reading:** Corsin Jiménez, Alberto, ed. 2008. *Culture and Well-Being: Anthropological Approaches to Freedom and Political Ethics*. London; Ann Arbor, MI: Pluto Press.

Song, Jesook. 2009. *South Koreans in the Debt Crisis: The Creation of a Neoliberal Welfare Society*. Durham, NC: Duke University Press.

**Assessment:** Essay (100%, 4000 words) in the LT.

## AN484 Half Unit

### Anthropological Approaches to Race, Racism, and Decolonisation

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Imani Strong and Prof Laura Bear

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Empires, Colonialism and Globalisation, MSc in Social Anthropology and MSc in Social Anthropology (Religion in the

Contemporary World). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course is a call to action - in the tradition of the movements and literatures it examines - that will provide students with a foundational understanding of race and contemporary racism, as well as approaches and theories central to their potential transformation. The course will focus on the discipline's historical and present theoretical orientations to race, explore alternative modes and questions in the practice of anthropology raised by anthropologists and theorists of colour, and provide an understanding of the policies - institutional, economic, social, and bureaucratic - that maintain both an academic and social racial status quo. Explicitly asking students to engage with the concept of antiracist and decolonial futures for anthropology, the course centres non-white/non-Western thought and thinkers, "activist" anthropology as a norm, and racial subjectivities as central to theory and practice.

The course will ask:

- What has been the role of the anthropologists of colour in forming the basis of what is commonly thought of as anthropological theory? What can we learn from their theories and methods?
- How can we understand contemporary racisms and how, positioned in the legacy of anthropology's contribution to its construction, can anthropology become an antiracist tool?
- Where can anthropology intervene on policy or re-orient theory to engage an antiracist epistemology in a transformative way? What is the scope of a so-called "activist" anthropology?
- What are the potential futures for anthropology as a discipline actively engaged in decolonising theory and methods?

**Teaching:** 10 hours of lectures and 15 hours of seminars in the MT.

This course has a reading week in Week 6 of MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

PGT students will have the opportunity to write a 1,500 word formative essay, which will enable them to explore several themes that may be central their summative essay. The timing of the formative work will be determined based, in part, on the formative work students are asked to submit for their other courses. Feedback will be provided in writing, online, and during office hours.

**Indicative reading:**

- Stoler, A. L. 2002. 'Genealogies of the Intimate: Movements in Colonial Studies', in *Carnal knowledge and imperial power: race and the intimate in colonial rule*. Berkeley: University of California Press, pp. 1-21.
- Táíwó, Olúfémi O., and Beba Cibralic. 2020. "The Case for Climate Reparations." *Foreign Policy*.
- Takezawa, Yasuko. 2011. "Toward a New Approach to Race and Racial Representations: Perspectives from Asia." In *Racial Representations in Asia*. Kyoto University Press.
- Twine, France Winddance. 1998. Chapter 3: Mapping the Ideological Terrain of Racism. in *Racism in a racial democracy: the maintenance of white supremacy in Brazil*, New Brunswick, N.J.: Rutgers University Press.

**Assessment:** Essay (100%, 4000 words) in the LT.

All PGT will be required to submit a 4,000 word policy proposal, which will be due in the subsequent term.

Students will be able to choose between:

- 1 a policy-focused essay utilizing ethnographic evidence for an anti-racist/decolonial intervention on a particular institution explored during the course,
- 2 a design for an anti-racist social movement or campaign, or,
- 3 a traditional theoretical essay taking race as the analytical lens for examination of an institution or policy addressed in the course.

---

## AN497

### Dissertation: Religion in the Contemporary World

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Alpa Shah, Dr Fenella Cannell and Dr Harry Walker.

**Availability:** This course is compulsory on the MSc in Social Anthropology (Religion in the Contemporary World). This course is not available as an outside option.

**Pre-requisites:** As for the Programme.

**Course content:** The dissertation will address a topic in the social sciences of Religion in the Contemporary World. This will normally be a library-based dissertation, but may be supplemented by minor original research elements in consultation with the academic adviser. The topic should make central use of concepts in the study of religion in the social sciences drawn from approved courses on the programme, particularly from the core course, and should demonstrate a good understanding of those concepts and their implications. The dissertation may draw on empirical topic areas suggested by the taught core and option courses of this programme, but must demonstrate an element of originality in analysis, content or both. The dissertation will normally contain an inter-disciplinary element which may be in the combination of material, the combination of critical, analytical or theoretical concepts, or both. Guidance on standards of presentation etc will be given in the MSc handbook, and will conform to the current standard laid down for the dissertations in MSc social anthropology.

**Teaching:** 1 hour of lectures in the MT. 3 hours of lectures in the LT. 3 hours of workshops in the ST.

There will be lecture on note taking and avoiding plagiarism in the MT. In addition to the two lectures in the LT and the dissertation workshop in the ST, students will discuss their projects and receive guidance during meetings with their mentors in MT, LT, and ST. The contact hours listed above are the minimum expected.

**Formative coursework:** Small group tutorials, individual mentoring, discussion of abstracts: please see Programme Proposal.

Presentations and class discussions in all programme courses will also contribute towards the formative preparation for the dissertation.

**Assessment:** Dissertation (100%, 10000 words) in August.

The dissertation must not exceed 10,000 words including in-text citations, footnotes and appendices (but excluding bibliography) to be submitted to the Department in late August.

**AN498****Dissertation- MSc China in Comparative Perspective**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Johannes Steinmuller OLD 6.10

**Availability:** This course is compulsory on the MSc in China in Comparative Perspective. This course is not available as an outside option.

**Course content:** The dissertation must demonstrate an adequate knowledge of relevant social science literature and empirical material from China and elsewhere. It should elaborate a theoretical framework to compare Chinese and non-Chinese data. The topic should have been discussed with and approved by the academic adviser. Note that the dissertation must be based on published sources rather than primary research undertaken by the student.

**Teaching:** 1 hour of workshops in the MT. 1 hour of workshops in the LT.

There will be a lecture on note taking and avoiding plagiarism in the MT.

Students attend a one-hour dissertation workshop at the end of Lent Term. After deciding on a topic during the Lent term, in consultation with their academic advisers (and other members of staff where appropriate), students submit a one-page abstract in the first week of the Summer term. Each student attends a one-on-one dissertation tutorial with his/her academic mentors in the ST. During these, abstracts will be evaluated and commented upon. Students continue to consult their academic mentors during the Summer Term.

The contact hours listed above are the minimum expected.

**Assessment:** Dissertation (100%, 10000 words).

The dissertation must not exceed 10,000 words including in-text citations, footnotes and appendices (but excluding bibliography) to be submitted to the Department in late August.

**AN499****Dissertation**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Gisa Wieszkalnys, Prof Alpa Shah and Dr Harry Walker

**Availability:** This course is compulsory on the MSc in Anthropology and Development, MSc in Anthropology and Development Management and MSc in Social Anthropology. This course is not available as an outside option.

**Course content:** The dissertation must demonstrate an adequate knowledge of relevant theoretical literature and the ethnography of one or more contexts. It should attempt to consolidate a theme introduced during the course, developing a sustained research focus on one specific issue in anthropology, using existing ethnographic literature as appropriate. Note that the dissertation must be based on published sources rather than fieldwork undertaken by the student. For the MSc Social Anthropology, the problem should be framed with reference to literature from within the discipline of anthropology (drawn from mainstream journals or ethnographic texts). For the MSc Anthropology and Development and the MSc Anthropology and Development Management, the topic should span the fields of both Social Anthropology and Development Studies - it may cover, but need not be restricted to, the area of overlap, i.e. the anthropology of development as narrowly defined. For the MSc Social Anthropology (Learning and Cognition), the dissertation should draw not only on specifically anthropological literatures and engage with anthropological themes, but also make judicious use of non-anthropological literature from cognitive science, and therefore from related disciplines such as psychology and/or philosophy.

**Teaching:** 1 hour of lectures in the MT. 3 hours of lectures in the LT. 3 hours of workshops in the ST.

There will be lecture on note taking and avoiding plagiarism in the MT. In addition to the two lectures in the LT and the dissertation workshop in the ST, students will discuss their projects and receive guidance during meetings with their mentors in MT, LT, and ST. The contact hours listed above are the minimum expected.

**Assessment:** Dissertation (100%, 10000 words) in August.

The dissertation must not exceed 10,000 words including in-text citations, footnotes and appendices (but excluding bibliography) to be submitted to the Department in late August.

**DV400****Development: History, Theory and Policy**

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof David Lewis CON.6.11 and Dr Kathleen Meagher CON.7.11

**Availability:** This course is compulsory on the MSc in Development Studies and MSc in Political Economy of Late Development.

This course is available on the MSc in Anthropology and Development, MSc in Empires, Colonialism and Globalisation, MSc in Environment and Development, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development.

This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations and places permit.

**Pre-requisites:** None

**Course content:** The course integrates the concepts and perspectives of a range of disciplines to consider: major trends of development and change in modern history and interpretations of them in the social sciences and contemporary economic and social theory and their bearing on the policy and practice of development. During Michaelmas Term the course critically discusses concepts of 'development' and the historical evolution of paradigms of development thinking and policy. With reference to comparative historical experience, we explore the role of states and markets in development and/underdevelopment, colonial legacies and path dependencies, and developmental states in comparative perspective. We examine the impact of pro-market reforms, globalisation and financialisation, as well the role of non-governmental organisations, social movements and challenges to the reigning development paradigm.

During Lent Term the course draws on recent research and theoretical debates to discuss current cutting edge policy issues and challenges in the developing world including: old and new forms of development aid, transformative social policy, agrarian change, industrialisation and digital technologies, environmental crisis, state fragility and conflict, and challenges to development thinking and practice presented by feminist theory and an engagement with the humanities.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT & LT. Seminars will be 90 minutes duration and lectures will be 120 minutes duration. There will be a revision session in final week of LT.

Students on this course will have a reading week in Week 6.

**Formative coursework:** One 2,000 word essay with written feedback submitted in Michaelmas Term and at least two seminar presentations on literature (one in Michaelmas and one in Lent).

**Indicative reading:** The following are recommended basic readings for the course:

HJ Chang, *Kicking Away the Ladder: Development Strategy in Historical Perspective* (Anthem, 2002).

HJ Chang, *Economics: The User's Guide* (Penguin, 2014)

J Ferguson, *The Anti-Politics Machine: 'Development', Depoliticisation and Bureaucratic Power in Lesotho* (Cambridge,

1990).

K Gardner and D Lewis, *Anthropology and Development: Challenges for the Twenty-First Century* (Pluto, 2015)

M Jerven, *Poor Numbers: How we are misled about African development statistics and what to do about it* (Cornell, 2013).

A Kohli, *State-Directed Development: Political Power and Industrialization in the Global Periphery* (Cambridge, 2004).

T. Mkandawire, *Social Policy in a Development Context* (Palgrave 2004).

D Rodrik, *One Economics, Many Recipes: Globalization, Institutions, and Economic Growth* (Princeton University Press, 2008)

A Sen, *Development as Freedom* (Anchor, 1999).

United Nations, "Transforming Our world: the 2030 Agenda for Sustainable Development" (SDGs) A/RES/70/1 (25 September 2015).

**Assessment:** Exam (80%, duration: 3 hours) in the summer exam period.

Essay (20%, 2000 words) in the LT.

## DV407 Half Unit

### Poverty

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Sohini Kar

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Places will be allocated with priority to ID and joint-degree students. If there are more ID and joint-degree students than DV407 can accommodate, these places will be allocated randomly. Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** The course is an interdisciplinary analysis of poverty. With attention to both the macro-level political economy of poverty and the micro-level lived experiences of the poor, we will examine how and why poverty persists in developing countries and analyse policy interventions and their outcomes. The course is interdisciplinary in focus, drawing on a range of methodological approaches to poverty, and does not require any prior mathematical or statistical qualification.

The course begins with an examination of the definition and measurement of poverty. We will then consider social mobility, followed by the spatial dimensions of poverty, including urban and rural poverty. We will then turn to issues of work and employment, social protection, and the politics of poverty, followed by weeks on environmental poverty, and private sector involvement, including the question of financial inclusion. The course will end with focus on successful cases of pro-poor development.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Students will give one class presentation, and submit one formative essay of 1500 words.

**Indicative reading:** Javier Auyero, *Patients of the State: The Politics of Waiting in Argentina* (Duke University Press 2012); Abhijit Banerjee and Esther Duflo, *Poor Economics: A Radical Rethinking of the Way to Fight Global Poverty* (Public Affairs/Penguin 2011); Anirudh Krishna, *Broken Ladder: The Paradox and Potential of India's One Billion* (Cambridge University Press 2017); Tania Li *Land's End: Capitalist Relations on an Indigenous Frontier*

(Duke University Press 2014); Rob Nixon, *Slow Violence and the Environmentalism of the Poor* (Harvard University Press Ananya Roy, 2011); *Poverty Capital: Microfinance and the Making of Development* (Routledge 2010)

**Assessment:** Essay (100%, 4000 words) in the LT.

## DV410

### Research Design and Dissertation in International Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Philipa Mladovsky, Dr Elliott Green and Dr Rajesh Venugopal

**Availability:** This course is compulsory on the MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is not available as an outside option.

**Course content:** DV410 is taken together with MY410 to provide students a coordinated introduction to the design, research and writing of the 10,000 word dissertation (see also separate entry for MY410). The objective is to enable students to conduct independent research, to consider the methods used to generate evidence, and to critically assess the quality and validity of research analysis and findings in development research and policy. Students will learn about: the challenges of conducting research; research design, including how to generate a research question and how to select a research method; the relative strengths and weaknesses of alternative research methods; some of the practical and ethical issues of doing fieldwork; and, preparing for the dissertation.

**Teaching:** DV410: Up to 6 hours of lectures in the MT. Up to 8 hour workshop in the ST

Students are provided with guidance and training on their dissertation over the course of three terms from their academic mentor, lecturers in DV410, and from the dissertation workshop. Additional support and feedback is also available from other ID faculty via the Department's open-door policy, and from individual and group sessions provided through LSE Life throughout the academic year.

**Formative coursework:** Formative verbal feedback is provided on an ongoing basis from the academic mentor. In ST, formative feedback in a more structured format is provided in the dissertation workshop.

**Assessment:** Dissertation (80%, 10000 words) in the ST. Coursework (20%) in the MT and LT.

## DV411 Half Unit Not available in 2022/23

### Population and Development: an Analytical Approach

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Tim Dyson, CON.8.04

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Global Population Health, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Social Research Methods, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will be allocated places to courses with priority to ID

and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** Using the demographic transition as its framework, the course examines different analytic approaches to the main interrelationships between population change and socio-economic development. It draws on a variety of theoretical and historical experiences to address and explore these interconnections. It aims to provide balance between theoretical understanding, knowledge of empirical evidence and basic causal processes, and implications for policy.

The course begins by providing an overview of the world's current demographic situation at both the global and the regional levels. It then addresses Malthusian and anti-Malthusian perspectives on the basic relationships linking population growth and economic growth. These contrasting perspectives are considered in the context of both historical and contemporary experience. The course then proceeds to assess demographic transition theories and their relationships to theories and processes of economic development, urbanisation and socio-structural change. Urban growth, migration, and urbanization receive special attention. The implications of population change for issues of employment, savings and investment are considered, as are issues relating to energy, food production and security, carbon emissions and climate change. Contemporary neo-Malthusian arguments, with their environmental components are also considered, as are issues relating to women's empowerment, democratization, and population aging. Further details will be provided at the start of the session.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT. 1 hour and 30 minutes of lectures in the LT. There will be a reading week in Week 6.

**Formative coursework:** Students will be given the opportunity to undertake a 'mock examination'. This will be graded and accompanied by written feedback within two weeks of its submission.

**Indicative reading:** A focussed reading list will be provided. However, relevant readings include: Tim Dyson *Population and Development - The Demographic Transition*, Zed Books 2010; Tim Dyson 'A partial theory of world development: The neglected role of the demographic transition in shaping modern society' in *International Journal of Population Geography*, 7, 2001; Nancy Birdsall, A C Kelley and S Sinding (eds) *Population Matters: Demographic change, Economic Growth, and Poverty in the Developing World*, Oxford University Press 2001; M Livi-Bacci *A Concise History of World Population*, Blackwell Publishers, Oxford 2001; T Dyson, *Population and Food: Global Trends and Future Prospects*, Routledge, 1996; R H Cassen (Ed), *Population and Development: Old Debates, New Conclusions*, Overseas Development Council, Washington DC, 1994; World Bank, *Population Change and Economic Development*, Washington DC, 1985. and various contributions to G. McNicoll, J. Bongaarts and E. P. Churchill (eds.) *Population and Public Policy: Essays in Honor of Paul Demeny - Supplement to Population and Development Review* 38 (2012) which is available open access.

**Assessment:** Exam (100%, duration: 2 hours) in the summer exam period.

---

## DV413 Half Unit

### Environmental Problems and Development Interventions

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Hannah Fair and Prof Jamie Lorimer

**Availability:** This course is available on the MSc in Accounting, Organisations and Institutions, MSc in Anthropology and

Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Global Politics, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research), MSc in Political Economy of Late Development, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration, MSc in Regulation and MSc in Social Innovation and Entrepreneurship. This course is available with permission as an outside option to students on other programmes where regulations permit.

Also available to students taking MSc International Relations or MSc International Political Economy as part of the LSE-Sciences Po Double Degree in *Affaires Internationales* programme. Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

This course is capped at 75 students.

**Pre-requisites:** None

**Course content:** This course is for MSc students who wish to study social and political aspects of environmental change and its implications for international development. The aim is to summarise the key current debates about 'environment and development' from perspectives of social and political theory with special reference to institutional theory, livelihoods, and inclusive policy interventions.

The course is structured to analyse the challenges of making well-informed environmental interventions in the face of poverty and vulnerability, and then seeking practical solutions to these dilemmas. The course first considers the nature of environmental problems within a 'development' context, and what this means for environmental science and norms as applied in developing countries. Themes include assessing environmental science and expertise in concerning adaptation to population growth, resource scarcity, deforestation, desertification, vulnerability to 'natural' disasters, and risks associated with climate change, including questions of gender and environment. As the course progresses, it considers debates about policy interventions such as common property regime theory; theories of the state and environment (including resistance and social movements); community-based natural resource management and Sustainable Livelihoods; adaptation to climate change; forests; and urban environmental policy (these latter themes involve debates on multi-level, multi-actor governance involving the connections of local development and global climate change policy).

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration. There will also be a revision session in the LT. Student on this course will have a reading week in Week 6.

**Formative coursework:** Students will have the opportunity to produce 1 essay in MT

**Indicative reading:** A detailed weekly reading list will be provided at the first course meeting. Students are not advised to buy a single textbook for this course but to read selectively and critically from various sources. The following books might be useful introductions.

Adams, W.M. 2019. *Green Development: environment and sustainability in a developing world*. 4th edition. London: Routledge.  
 Forsyth, T. 2003. *Critical Political Ecology: the politics of environmental science*, London, Routledge  
 Liboiron, M. (2021) *Pollution is Colonialism*, Durham NC: Duke University Press.  
 Kohler, P. (2019) *Science Advice and Global Environmental Governance: Expert Institutions and the Implementation of International Environmental Treaties*, London and New York:

Anthem Press.

Neumann, R. 2005. *Making Political Ecology*, London: Hodder Arnold.

Nightingale, A. (ed) 2019. *Environment and Sustainability in a Globalizing World*, London: Routledge.

Ostrom, E., Stern P.C., Diet, T., Dulsak, N. and Stonich, S. (eds.) 2002 *The Drama of the Commons: Understanding Common Pool Resource Management*. Washington, D.C.: National Academy Press.

L Schipper and I Burton (eds) (2008) *The Earthscan Reader on Adaptation to Climate Change*, London: Earthscan.

**Assessment:** Take-home assessment (100%) in January. (2 questions of 2000 words each)

## DV415 Half Unit

### Global Environmental Governance

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Kathryn Hochstetler

**Availability:** This course is available on the MSc in Accounting, Organisations and Institutions, MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Policy and Regulation, MSc in Environmental Policy, Technology and Health (Environmental Policy and Regulation) (LSE and Peking University), MSc in Global Politics, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research), MSc in Political Economy of Late Development, MSc in Public Administration and Government (LSE and Peking University), MSc in Public Policy and Administration and MSc in Regulation. This course is available with permission as an outside option to students on other programmes where regulations permit. Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** This course is for any MSc student who wishes to study the politics of global environmental policy from the perspective of environmental governance and international development. The aim is to summarise debates about 'global' environmental problems and to review the contributions of debates about 'governance' to political solutions. The main theoretical focus of the course is on understanding the evolution of environmental policy regimes at multiple scales and with multiple actors. The guiding empirical focus is on the roles of developing countries in global environmental governance and the effects of environmental policy regimes on their development strategies and outcomes. Some of this draws upon debates within International Relations, but this course also considers other theoretical literatures about environmental politics. Only part of global environmental governance takes place in formal spheres specifically devoted to environmental topics. Thus, while about half the course focuses on global efforts to solve environmental problems, especially in international negotiations, the other half examines economic institutions like trade and financial institutions and their intersections with environment and development concerns. Non-state actors including business actors and civil society actors are also considered. Finally, while the course has a global focus, the environmental politics within nation-states is increasingly important for global outcomes and is considered here. To make the course focused, it considers primarily climate change, biodiversity and forests, and human movement in response to environmental change.

**Teaching:** This course is delivered through a combination of

lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 1 essay in the LT.

**Indicative reading:** A detailed reading list will be presented at the beginning of the term. There is no single textbook for this course, but we recommend the following as a basic background reading list:

Betsill, M. and Corell, E. (eds). 2007. *NGO Diplomacy: The Influence of Nongovernmental Organizations in International Environmental Negotiations*, MIT Press.

Biermann, F, Pattberg, P. and Zelli, F. (eds). 2010. *Global Climate Governance Beyond 2012: Architecture, Agency and Adaptation*, Cambridge University Press.

Ciplet, D., J.T. Roberts, and M.R. Khan. 2015. *Power in a Warming World: The New Global Politics of Climate Change and the Remaking of Environmental Inequality*. MIT Press.

Kopinski, D. and Q. Sun. 2014. *New Friends, Old Friends? The World Bank and Africa When the Chinese Are Coming*. *Global Governance: A Review of Multilateralism and International Organizations* 20(4): 601-623.

Najam, A. 2005. *Developing Countries and Global Environmental Governance: From Contestation to Participation to Engagement*. *International Environmental Agreements* 5: 303-321.

Newell, P. and J.T. Roberts (eds). 2016. *The Globalization and Environment Reader*. Wiley.

Neilson, T.D. 2014. *The Role of Discourses in Governing Forests to Combat Climate Change*. *International Environmental Agreements: Politics, Law and Economics* 14(3): 265-280.

Raustiala, K. and D. Victor. 2004. *The Regime Complex for Plant Genetic Resources*. *International Organization* 58(2): 277-309.

Warner, K. 2018. *Coordinated Approaches to Large-scale Movements of People: Contributions of the Paris Agreement and the Global Compacts for Migration and on Refugees*. *Populations and Environment* 39(4): 384-401.

**Assessment:** Take-home assessment (100%) in the ST. 2 questions of 2000 words each.

## DV418 Half Unit

### African Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Laura Mann CON. 7.10

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in Health and International Development, MSc in Human Rights, MSc in Human Rights and Politics, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is not available as an outside option. Please note that in case of over-subscription to this course priority will be given to students from the Department of International Development and its joint degrees (where their regulations permit).

**Course content:** Taking the work of the Thandika Mkandawire as its inspiration, DV418: African Development applies a critical political economy approach to questions of economic and social development in African countries. It provides critical analysis of key development interventions and processes. It seeks to combine general theoretical overviews with country case studies illustrating the variety of experiences and trajectories. It does not aim to provide a comprehensive coverage of development issues or of regions. Course content will vary from year to year, depending on

the specialities of staff.

At its foundation, DV418 engages with the challenge of structural transformation (rather than just economic growth) and on tracing inter-connections between local, domestic and international forces shaping African countries' knowledge production and developmental prospects. In particular, it focuses on the role that knowledge and technology play in development, and how power shapes who benefits from that knowledge. The first half of the course lays a foundation in understanding the challenge of structural transformation in African countries while the second half looks at the contemporary technological changes reshaping that challenge, including topics on social policy, digitization, China in Africa and new technologies transforming agriculture.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration. There will also be a revision session in early ST. Student on this course will have a reading week in Week 6.

**Formative coursework:** Students will write a 1,500-word essay chosen from a list of questions drawn from the first half of the course, to be submitted by the Monday at 12:00 of the reading week.

**Indicative reading:** A detailed weekly reading list will be provided at the first course meeting. The following readings provide an introduction to the course:

1. Thandika Mkandawire and Charles Soludo, (1999) *Our Continent, Our Future: African Perspectives on Structural Adjustment*. Dakar/Trenton, NJ: CODESRIA / African World Publications.
2. Mkandawire, T. (2001) "Thinking About Developmental States in Africa." *Cambridge Journal of Economics*, 25(3): 289-313.

transformation or business as usual? Information and communication technologies and Africa's place in the global information economy" *Review of African Political Economy* 41(140): 264-283.

**Assessment:** Exam (60%, duration: 3 hours) in the summer exam period.

Podcast (40%) in the ST Week 2.

The podcast will be a group podcast project.

## DV420 Half Unit Complex Emergencies

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof David Keen CON.6.06

**Availability:** This course is available on the MPA Dual Degree (LSE and Columbia), MPA Dual Degree (LSE and Hertie), MPA Dual Degree (LSE and NUS), MPA Dual Degree (LSE and Sciences Po), MPA Dual Degree (LSE and Tokyo), MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development, MSc in Human Rights, MSc in Human Rights and Politics, MSc in International Development and Humanitarian Emergencies, MSc in International Migration and Public Policy (LSE and Sciences Po), MSc in Political Economy of Late Development, MSc in Urban Policy (LSE and Sciences Po), MSc in Urbanisation and Development and Master of Public Administration. This course is available as an outside option to students on other programmes where regulations permit.

Places will be allocated with priority to ID and joint-degree students. If there are more ID and joint-degree students than DV420 can accommodate, these places will be allocated randomly. Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** When genocides, civil wars and famines are reported on television in countries such as Syria, Sudan or Yemen, we are often left with a sense of confusion. Why is this happening? Why do these disasters keep recurring? And which actors are driving the process? This course looks behind the headlines to get a deeper understanding of the causes and functions of humanitarian disasters.

By re-thinking common conceptions of conflict (such as the idea that war is a contest between two or more sides aiming to 'win'), the course offers new ways of thinking about war, humanitarian intervention and peacebuilding. Who benefits from conflict? Who benefits from famine? How do these benefits shape the information we receive? How is the 'enemy' defined, and whose interests do these changing definitions serve? And how can one make peace a peace that doesn't propel society back into war? The course offers an understanding of the complex fault-lines that lie behind oversimplistic news coverage. It also expands our understanding of disasters to take account of the fact that many disasters (from climate change to 'migration crisis', from Covid to democratic crisis) are now 'coming home' as far as Western democracies are concerned.

The course draws on detailed empirical case-studies – including the course-leader's own fieldwork in Sudan, Sierra Leone, Sri Lanka, Iraq, Guatemala, France and on the Syria/Turkey border. The course makes use of the political thought of Hannah Arendt and Michel Foucault, showing how they can help us to deconstruct the interests and the language that muddle our understanding of the causes and functions of contemporary disasters – in whichever part of the world they are found.

The course is interdisciplinary and looks at the political, economic and psychological functions of violence, though it requires no specialist knowledge of any particular discipline.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes

duration. There will be a revision lecture in the LT.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Students will co-produce seminar presentations. Students will also have the opportunity to receive feedback on formative work, in the form of a practice-assessed essay.

**Indicative reading:** A detailed weekly reading list will be provided at the first course meeting. A useful text, which is designed in large part around the course, is David Keen, *Complex Emergencies* (Polity, 2008).

Other texts of interest include,

- David Keen, *The Functions and Legitimization of Suffering in Calais, International Migration* (2020), <https://onlinelibrary.wiley.com/doi/epdf/10.1111/imig.12800>
- Ruben Andersson and David Keen. 2019. *Partners in Crime? The impacts of Europe's outsourced migration control on peace, stability and rights*. Saferworld: London, July, <https://www.saferworld.org.uk/resources/publications/1217-partners-in-crime-the-impacts-of-europeas-outsourced-migration-controls-on-peace-stability-and-rights> ;

- Zoe Marriage, *Not Breaking the Rules, Not Playing the Game: International Assistance to Countries in Conflict* (Hurst and Co., 2006);
- David Keen, *Conflict and Collusion in Sierra Leone* (James Currey, 2005);
- David Keen, *Endless War? Hidden Functions of the 'War on Terror'* (Pluto, 2006);
- Christopher Cramer, *Civil War is Not a Stupid Thing: Accounting for Violence in Developing Countries* (Hurst and Co., 2006);
- Mats Berdal and David Malone, *Greed and Grievance: Economic Agendas in Civil Wars* (Lynne Rienner, 2000);
- Hugo Slim, *Killing Civilians: Method, Madness and Morality in War* (Hurst and Co., 2008).

**Assessment:** Take-home assessment (100%) in the ST.

Students will produce 2 x 1500 word essays during a 7-day take home exam in week 1 of ST.

## DV421 Half Unit Critical Perspectives on Global Health and Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Philpa Mladovsky CON.6.13

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Global Health Policy, MSc in Global Politics, MSc in Health and International Development, MSc in

International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit. Places will be allocated with priority to ID and joint-degree students. If there are more ID and joint-degree students than DV421 can accommodate, these places will be allocated randomly. Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** The course is concerned with health and international development in its social, cultural, historical, economic and political context. Students will learn to think critically about how global health policy and practice reproduce and/or change power relations - between states, communities and individuals. The course does this by exploring the history of global health, interrogating taken-for granted concepts and understanding how they have been socially constructed and suggesting alternative perspectives. Drawing on anthropological, sociological and other literature, it investigates how global health policies reproduce, change or are changed by values, morals, ethics and people's identity and subjectivity. Themes that run through the course include: legacies of colonialism; the critique of neoliberalism; and interrogating positivism in global health research. Case studies are drawn mainly from sub-Saharan Africa, Latin America, and Asia and typically focus on specific diseases, conditions or parts of the health system. Drawing on theories of power such as structural violence and governmentality, the course will enable students to question mainstream global health policy initiatives which might seek to promote equity and human rights, but may instead create new exclusions and marginalised populations.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Students are expected to prepare at least one class presentation and submit one essay.

**Indicative reading:** A detailed weekly reading list will be provided at the first lecture. The readings for this course are from journals and select book chapters mainly but not exclusively in the fields of anthropology and sociology. Readings will also include case studies from various countries and reports, papers and articles published by international organisations, think-tanks, and a variety of other sources.

Birn, A.E., Pillay, Y. and Holtz, T.H., 2017. *Textbook of global health*. Oxford University Press.

**Assessment:** Take-home assessment (100%) in the ST. The take-home assessment will take the form of a take-home essay (100%, 3,000 words) due at the start of Summer Term.

## DV423 Half Unit

### Global Political Economy of Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Robert Wade CON.7.07

**Availability:** This course is available on the Global MSc in Management, Global MSc in Management (MBA Exchange), MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Global Politics, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies and MSc in Political Economy of Late Development. This course is not available as an outside option.

Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Pre-requisites:** Undergraduate economics gives a big advantage, but is not pre-requisite.

**Course content:** The course takes off from "the Great Divergence", the relentlessly growing gap during the past two and more centuries between the average income of the West and that of most countries of the South. Northeast Asia is the only non-western region to have substantially caught up. How do we explain this central fact of the "wealth of nations" – which is all the more shocking in light of the existence of a large-scale western aid industry operating since the Second World War? Much of development studies treats development as analogous to a marathon race, in which each runner's (country's) position is independent of the position of others; there is no structure to the race such that some must be ahead and others must be behind. This is deeply misleading. Questions about appropriate development policies and institutions at country level have to be put in the context of the hierarchically ordered world economy and world polity, led since the Second World War by the US with European states and Japan as subordinate allies.

The course covers the performance of the world economy as a whole (eg trends in growth, inequality, poverty); international systems of production, trade, and finance; the rules or regimes which govern interaction between economies, states and firms (regimes such as Bretton Woods, the Post Bretton Woods dollar standard, Investor-State Dispute Settlement, etc.); and several international organisations (such as the World Bank, IMF, UNCTAD, G20). Along the way it analyses the major financial/economic crises of 1997-99 and 2007-09. In contrast to the mostly western-centric literature in International Political Economy, it looks at these things from the perspective of low and middle-income countries in the spirit of the Swahili proverb, "Until lions have their own historians, tales of hunting will always glorify the hunters", and does not assume that the G7 states provide a generally benign ("win-win") environment for development in the rest of the world (as in the G7/World Economic Forum mindset "free trade and free capital mobility benefits us all").

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

There will be a reading week in Week 6.

**Formative coursework:** Students have the option of writing one essay of 2,000 words in MT.

**Indicative reading:** Core text: John Ravenhill (ed), *Global Political Economy*, 5th edition, OUP, 2017.

**Assessment:** Take-home assessment (100%) in January. The paper will be released via the course Moodle site. Please note that as this is a 48 hour take-home examination in January. Students who cannot commit to be available for the exam period may NOT register for this course.

## DV424 Half Unit

### International Institutions and Late Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Kenneth Shadlen CON.6.07

**Availability:** This course is available on the CEMS Exchange, Global MSc in Management, Global MSc in Management (CEMS MIM), Global MSc in Management (MBA Exchange), MBA Exchange, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in International Political Economy, MSc in International Political Economy (LSE and Sciences Po), MSc in Media, Communication and Development and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Please note all students are asked to submit a brief statement of 150 words (max) on why they want to take the course.

2/3 of the spaces are reserved for ID and joint degree students, distributed on a random basis.

1/3 go to non-ID/joint students, distributed on a random basis.

All students not admitted in the initial allocation of spaces go on the waitlist, and as space opens the course leader will select students, without regard to degree/dept, on the basis of the brief statements.

**Course content:** This course examines the politics of the international economy. We analyse the overarching rules and regulations that structure the international economy, and thereby provide context for development policy, and we assess the role of a range of actors (e.g. governments, firms, non-state actors) in shaping and reshaping the international economic order. We are particularly interested in understanding the ways that developing countries respond to and participate in international regimes and organisations, and how changes in global economic governance affect opportunities for economic development. The first week, which synthesises a variety of explanations of the role that international organisations play in global politics, establishes the theoretical spine for the course. We then examine governance in international sovereign debt and finance, public and private. We analyse the politics of debt relief for the poorest and most heavily indebted countries, where most of the debt is owed to public creditors; and we analyse the politics of debt restructuring for middle-income countries where significant shares of the debt is owed to private/commercial creditors. The course then turns to the politics of international trade, investment, and intellectual property. This cluster of sessions is organised around a dialogue between multilateral and regional frameworks for integration into the global economy, with the World Trade Organisation (WTO) serving as our principal point of reference. We examine the emergence of the WTO, both in terms of the substance of the various agreements it administers and as an inter-governmental organisation with its own set of procedures for rule-making, policy monitoring and dispute-settlement. We analyse emerging arrangements for global governance in the areas of foreign investment and intellectual property, and we focus explicitly on North-South, bilateral and regional trade agreements, that exist as complements to the WTO. In concluding the course, taking a step back and synthesizing the term's material, we analyse contrasting trajectories of change in two development regimes, one regarding "industrial transformation" and mobility in the international division of labour, and another regarding "humanitarianism" and poverty reduction.

**Teaching:** 20 hours of lectures and 13 hours and 30 minutes of seminars in the LT. 2 hours of lectures in the ST. This includes a 2 hour revision session in the ST. There will be a reading week in Week 6.

**Indicative reading:** A detailed reading list is presented at the beginning of term.

**Assessment:** Exam (60%, duration: 2 hours) in the summer exam period.

Essay (15%, 1500 words) and essay (25%, 1500 words) in the LT. 2 essays (15% and 25%, each 1,500 words) in the LT. The larger

weight goes to the essay receiving a higher mark, thus allowing the first to serve as "formative" for the second.

The essays are based on – and linked to – the questions discussed in the weekly seminars. Details posted on Moodle.

---

## DV428 Half Unit

### Managing Humanitarianism

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Stuart Gordon CON.8.10

**Availability:** This course is compulsory on the MSc in International Development and Humanitarian Emergencies. This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Conflict Studies, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Gender, Peace and Security, MSc in Health and International Development, MSc in Human Rights, MSc in Human Rights and Politics, MSc in Inequalities and Social Science, MSc in International Migration and Public Policy and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Places will be allocated with priority first to MSc International Development and Humanitarian Emergencies students and then to students on International Development and joint-degree programmes followed by MSc Human Rights students. In cases where there are more applicants than spaces then places will be allocated randomly in accordance with the priorities listed above.

**Course content:** The course looks at international, national and local responses to conflict and natural disasters. Building on an analysis of the causes, construction and consequences of humanitarian disasters, the course focuses on the functioning of the system. It considers the history, principles and the politics of humanitarian action; the overlaps and tensions between practices of humanitarian assistance and humanitarian intervention and how humanitarian institutions shape and are shaped by global governance and state power. It also considers why humanitarian organisations and governments respond to some crises and not to others as well as the extent to which the system accommodates gender and embodies neo-colonial practices. It also explores the ways in which the humanitarian system has sought to professionalise itself and the degree to which this has succeeded. Examples will be drawn from humanitarian disasters in Africa, Central and South Asia and Latin America. However, there is also likely to be discussion of ongoing humanitarian emergencies, wherever they are located.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration. There will be a Revision Lecture in the MT.

Five or Six 'Voice of Experience' lectures. Programme to be announced in week 2 of MT.

Students on this course will have a reading week in Week 6.

**Formative coursework:** Students will receive feedback on seminar group presentations and have the option to write a formative essay, not exceeding 1,000 words. Essay topics will relate to seminar discussions and lecture material covered to date. Students will receive an indicative grade and written feedback within four weeks of submission (if submitted on time). Students submit optional formative papers within two weeks of the seminar presentation.

**Indicative reading:** Stuart Gordon and Antonio Donini 'Romancing Principles and Human Rights - Are Humanitarian Principles Salvageable?' *International Review of the Red Cross* / Volume 97 / Issue 897-898 / June 2015, pp 77-109; M. Barnett, (2011). *Empire of Humanity: A History of Humanitarianism*, Ithaca: Cornell University Press; M. Barnett, M. Barnett & T. G. Weiss (Eds.), 2008. *Humanitarianism in Question Politics Power and Ethics*, Ithaca: Cornell University Press;

A. De Waal, 1997. *Famine Crimes: Politics and the Disaster Relief Industry in Africa*. Oxford: James Currey;  
 G. Loescher, (2001). *The UNHCR and World Politics*, Oxford University Press;  
 D. Rieff, (2002). *A Bed for the Night: Humanitarianism in Crisis*, Vintage/Random House.

**Assessment:** Take-home assessment (100%) in the LT. The exam paper will be released in week 11 of the Michaelmas Term. The course is assessed through the submission of two 2000-word essays by Tuesday of week 1 of the Lent Term.

## DV431

### Development Management

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Mahvish Shami CON.8.24 and Prof Jean-Paul Faguet CON.8.06

**Availability:** This course is compulsory on the MSc in Anthropology and Development Management, MSc in Development Management and MSc in Development Management (LSE and Sciences Po). This course is available on the MSc in Political Science and Political Economy. This course is not available as an outside option.

**Course content:** Why are some countries rich and others poor? Why are some governed well and others badly? This course employs a political economy approach to examine the causes of development, identify the underlying obstacles to development, and evaluate potential solutions. It focuses on the principles governing the institutions, politics, and organisations through which policies, programmes and projects are produced and implemented. Attention is given to the different kinds of authority, incentives and accountability mechanisms that govern the relationships between leaders, managers and recipients. It reviews ongoing debates about the best ways of designing state agencies, private firms and NGOs, by showing how centralised bureaucracies, markets, participatory and solidaristic agencies operate to provide services in practice. It explores the dynamics of different forms of democratic and authoritarian states, the determinants of good and poor governance, and how social, political and economic forces interact to drive change and stability. In order to enable students to make practical judgments about institutional reform programmes in various contexts, competing approaches to development are critically and constructively analyzed in light of case studies.

The course is divided into several parts: Analytical Assumptions, Government and Governance, Private Sector, and Civil Society. On completing the course students should be able to:

(i) use theory to identify the causes of actual development challenges, (ii) identify and assess relevant case study material to inform development practice; and (iii) employ the insights developed throughout the course to formulate policy recommendations and plans of action for improving development.

**Teaching:** This course is delivered through a combination of lectures, seminars and workshops in the MT & LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

There will additionally be an introductory workshop at the start of MT. Students are expected to attend all these sessions. Lectures will focus on the theoretical debates driving current policy practice in the development community, while seminars will relate these to practical problems of implementation, drawing on case studies, class exercises, and the personal experience of participants. Seminars will discuss topics covered in the lecture, and will be conducted on the basis either of a student presentation or a class exercise.

There will be a revision session in early ST.

**Formative coursework:** In the Michaelmas Term, all students are expected to produce one short essay on a topic agreed with an individual tutor, to prepare them for the final exam.

**Indicative reading:** A detailed weekly reading list is provided at the

first course meeting. Background readings include:

- Brett, E.A. (2009) *Reconstructing Development Theory*; Faguet, JP. 2012. *Decentralization and Popular Democracy: Governance from Below in Bolivia*. Ann Arbor: University of Michigan Press;
- Chang, H. 2003, *Rethinking development economics*, Anthem Press; London, Intermediate Technology;

- Linz, J. & A. Stepan, *Problems of democratic transition and consolidation*, Johns Hopkins; Olson, M. 1982 *The rise and decline of nations*, Yale University Press;
- North, D. 1990. *Institutions, Institutional Change and Economic Performance*. Cambridge University Press.
- Putnam, R. D. 1993. *Making Democracy Work: Civic Traditions in Modern Italy*. Princeton: Princeton University Press;
- Rodrik, D. (Ed.). 2003. *In Search of Prosperity: Analytical Narratives on Economic Growth*: Princeton University Press;
- Sen. A., 1999 *Development as Freedom*. Oxford University Press;
- Stiglitz, J. 2002 *Globalization and its discontents*, Allen Lane, 2002;
- World Bank, *World Development Report, 2004, Making services work for poor people*, Washington, World Bank.

**Assessment:** Exam (25%, duration: 1 hour) in the summer exam period.

Take-home assessment (55%) in the ST.

Presentation (20%) in the LT.

(The take-home assessment will be a 24 hour exam over the weekend in ST).

## DV432 Half Unit Not available in 2022/23

### China in Developmental Perspective

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Jude Howell CON. 8.02

**Availability:** This course is available on the CEMS Exchange, MA in Asian and International History (LSE and NUS), MBA Exchange, MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in International Development and Humanitarian Emergencies, MSc in International and Asian History and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Pre-requisites:** Excellent reading and speaking skills ~(IELTS 7 minimum).

**Course content:** This course looks at China from a comparative developmental perspective, locating the discussion of China within the interdisciplinary field of development studies. It examines China's developmental trajectory since 1949, explaining the fundamental shift in developmental path from late 1978 onwards. It considers China's role in low-income countries, as a model of innovation, as a voice for developing country concerns and as an important aid donor. It reflects on China's recent achievements in reducing poverty and places these in comparative context. The course considers the governance challenges posed by rapid economic reform, the attempts to reform the Party-state and to manage social tensions. It examines the social dimensions of rapid economic reform and the implications for social policies. It looks at the emergence of NGOs and other forms of civil society organising and considers changing state-society relations. Finally it considers China's role as aid donor and its emergence as a global economic and political power. The course will enable students

to obtain an understanding of key developmental issues and discussions about China and to link these discussions to broader debates and theories in development studies.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

In addition, one introductory seminar session in MT, one essay preparation session in MT and two exam revision sessions in MT. Students on this course will have a reading week in Week 6.

**Formative coursework:** Students have the opportunity to receive feedback on a formative essay of 1,500 words. Students will also receive feedback on their seminar performance. Students are welcome to come to course convenor's office hours to discuss any issues. These may be on skype or phone, depending on the COVID-19 situation.

**Indicative reading:**

- M.H. Whyte (ed), 2009, *One Country, Two Societies. Rural/Urban Inequality in China*.

**Assessment:** Essay (30%, 2500 words) and take-home assessment (70%) in the LT.

This course will be assessed by a 6 hour take-home exam and 2500 word essay.

---

## DV433 Half Unit Not available in 2022/23 The Informal Economy and Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Kate Meagher CON 7.11

**Availability:** This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Urban Policy (LSE and Sciences Po) and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** The expansion of the informal economy, which now employs more than 60% of the world's workers, represents a central paradox of contemporary economic development. COVID-19 has further exposed the pervasive role of informal employment across the globe. Practitioners, policy makers and academics seek a clearer understanding of its impact on poverty, employment, governance and inclusive development. In a globalising environment, are large informal economies a poverty trap or an engine of growth? Do they stimulate entrepreneurship and popular empowerment, or promote criminality and exploitation? How does a greater understanding of the size and organization of informal economies affect policy on urban service provision, social protection or taxation? What are the implications of the informal economy for social cohesion and popular politics in developing countries?

This course will explore how high levels of informality in developing countries are shaping processes of growth and governance in the Global South. The effect of informality on new policy narratives of inclusive growth will be a central theme in the course. Using a comparative institutional approach, we will examine informal economies in a range of regional contexts, including Africa, the Middle East, South and East Asia, and Latin America, highlighting variations in activities, relations with the state, global integration and development outcomes. Key issues covered in the course include the impact of the informal economy on labour markets, weak states, gender empowerment, urban services, social enterprise, social protection, taxation, and popular politics. Attention will be focused on the potential as well as risks of large informal economies in the face of contemporary development challenges, drawing on empirical evidence and comparative case studies from across the developing world.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration. There will also be a revision session in the ST. Student on this course will have a reading week in Week 6.

**Formative coursework:** Formative coursework will involve a 2,000 word essay during the term and at least one presentation.

**Indicative reading:**

**Assessment:** Exam (70%, duration: 2 hours) in the summer exam period.

Essay (30%, 3000 words) in the ST.

## DV434 Half Unit Human Security

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Tim Allen

**Availability:** This course is available on the MSc in Conflict Studies, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in International Migration and Public Policy, MSc in International Migration and Public Policy (LSE and Sciences Po), MSc in Political Economy of Late Development and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

Places will be allocated with priority to ID and joint-degree students. If there are more ID and joint-degree students than DV434 can accommodate, these places will be allocated randomly. Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** In 1994, the Human Development Report introduced 'human security' as a UN concept, equating the term with people rather than territories, and with development rather than arms. The idea of human security has subsequently been elaborated and commitment to it reiterated. For example, General Assembly resolution 66/290 (2012) explains that 'human security is an approach to assist Member States in identifying and addressing widespread and cross-cutting challenges to the survival, livelihood and dignity of their people.' It calls for 'people-centred, comprehensive, context-specific and prevention-oriented responses that strengthen the protection and empowerment of all people.'

However, the linking of security with a comprehensive view of livelihoods has had effects that were not initially anticipated by many of those who embrace it. Militarization and enforcement have become possible in situations in which formally they were viewed as problematic, and violent acts have been explained as acceptable or necessary.

The course takes the United Nations' concept of human security as its starting point but addresses it in a wider range of ways than is the norm. The course will draw heavily on previous and ongoing research at LSE, notably research associated with the Justice and Security Research Programme, The Centre for Public Authority and International Development (CPAID), and the Firoz Lalji Institute or Africa (FLIA). Students will be expected to engage critically with this research and contribute to discussions with colleagues currently involved in field research and the writing up of findings. Much of the material in the course will focus on African examples. It will address wider debates but will also have an orientation towards detailed ethnographic case material. It will emphasize the lived experiences of those actively struggling with aspects of their human security.

Topics are likely to include social responses to epidemics, interpersonal accountability, social protection and healing, moral panics (including witch-cleansing), environmental threats, international criminal law, public authority, populism, and mutuality. These things often look very different when seen from the ground-up, rather than from the perspective of state policy and international relations. There will be a particular emphasis on how human security relates to public authority - understood as forms of collective action beyond the family, involving a degree of consent.

Students interested in taking the course should look at the websites below and read some of the publications.

- <https://www.lse.ac.uk/africa/centre-for-public-authority-and-international-development#:~:text=The%20Centre%20for%20Public%20Authority,international%20development%20and%20inclusive%20growth>.

- <https://www.lse.ac.uk/africa/research>

- <https://blogs.lse.ac.uk/jsrp/publications/>

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars and lectures will be 90 minutes in duration.

Students on this course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to undertake a class presentation. Students will also have the opportunity to receive feedback on formative work, in the form of a practice-assessed essay.

**Indicative reading:**

**Assessment:** Essay (100%, 4000 words) in the ST.

## DV435 Half Unit African Political Economy

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Catherine Boone

**Availability:** This course is available on the CEMS Exchange, MBA Exchange, MSc in Comparative Politics, MSc in Development

Management, MSc in Development Studies, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This is an introduction to the study of contemporary African political economy, with a focus on sub-Saharan Africa. The goal of DV435 is to set major questions of state, national economy, and development in historical, geographic, and international context. Course readings and lectures stress marked unevenness in national and subnational trajectories and in the political-economic character of different African countries, drawing attention to causes of similarity and difference across and within countries. Students completing DV435 will come away with a better understanding of the economic and social underpinnings of order and conflict in African states.

There is a research-driven component to DV435: each student will read secondary literature, grey literature, and other sources to develop particular knowledge of two countries. These will be used as "case studies" in assessed coursework to evaluate general arguments concerning the political economy of Africa, and to compare/contrast the historical trajectories of different African states.

The course includes an optional weekly film series that provides an additional venue for discussion of course themes.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Optional formative essay outline due in Week 7.

**Indicative reading:** Celestin Monga and Justin Yifu Lin, eds., *The Oxford Handbook of Africa and Economics*, Vol. 2, Politics and Practices (OUP 2015).

**Assessment:** Essay (100%, 3000 words) in the LT Week 1.

## DV442 Half Unit

### Key Issues in Development Studies

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Rajesh Venugopal CON 6.08

**Availability:** This course is compulsory on the MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is available on the MSc in Anthropology and Development, MSc in Environment and Development and MSc in Urbanisation and Development. This course is not available as an outside option.

Not available to students enrolled on DV400 & DV431.

**Course content:** This course provides an inter-disciplinary introduction to development studies. We explore the role of states and markets in development and/underdevelopment, colonial legacies, the political economy of growth and redistribution, and the role of politics and power in development. We examine key issues in development such as: the record of pro-market reforms; the experience of developmental states; and the challenges to development thinking and practice presented by feminist theory, environmental sustainability, globalisation and new patterns of global inequality (key issues may change from year to year).

**Teaching:** 10 x 1.5 hour lectures and 10 x 1.5 hour seminars. in the MT.

**Formative coursework:** Students will submit one formative essay of 1500 words.

**Indicative reading:** The following are recommended basic readings for the course:

A Sen, *Development as Freedom* (Anchor, 1999).

Chang, H.J. (2002), *Kicking Away the Ladder: Development Strategy in Historical Perspective* (London: Anthem Press).

**Assessment:** Online assessment (100%) in the LT.

## DV444 Half Unit Not available in 2022/23

### Global Health Challenges: Epidemics, Disease, and Public Health Response

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Arjan Gjonca CON.7.08

**Availability:** This course is available on the MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Global Health Policy, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

Places will be allocated with priority to ID and joint-degree students. If there are more ID and joint-degree students than DV444 can accommodate, these places will be allocated randomly. Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Pre-requisites:** No pre-requisites are required for this course.

**Course content:** This course aims at looking at some of the major global health challenges in the 21st century. It analyses health challenges from a multidisciplinary approach including public health, demography and development studies. The relationship between epidemics, diseases and the public health policies are core to the content of the course. The course takes an interest on population consequences of diseases and epidemics. It

also addresses the social and environmental determinants of epidemics and disease pattern in low and middle income countries. Moreover, the course does this in a comparative perspective to high income countries. The course uses both evidence-based and theoretical approaches. Another important aspect of the course is that it sheds light on the future of global health challenges as a result of anticipated population health changes.

**Some of the main topics covered are:** Epidemics and pandemics in historical perspective; the effects of pandemics in the overall health and mortality patterns of populations; Covid 19 pandemic - characteristics and the public health response to it; obesity and undernourishment as public health challenges; The increased global burden of mental health, environmental challenges and the impact on health; the relationship of migration and health and its effect on urban population.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration. There will be a revision session in the ST.

Student on this course will have a reading week in Week 6.

**Formative coursework:** One 1,500 word formative essay in MT.

**Indicative reading:** McMichael T (2001) *Human Frontiers, environment and disease*. Cambridge: Cambridge University Press  
Merson, MH, Black, ER, Mills, AJ. (2012) *Global Health: Diseases, Programmes, Systems, and Policies*, London: Jones & Barlett Learning; Caldwell JC.

**Assessment:** Take-home assessment (100%) in the LT.

The take-home assessment will take the form of a take-home essay (100%, 3,000 words).

---

## DV445

### Cutting Edge Issues in Development Thinking & Practice

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Duncan Green CON.7.09 and Dr Laura Mann

**Availability:** This course is compulsory on the MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is available on the MSc in Political Economy of Late Development. This course is available as an outside option to students on other programmes where regulations permit.

It is a compulsory course for all ID students.

**Course content:** The objective of the course is to introduce students to some of the most important and innovative voices and ideas in contemporary development debates, both from the academic and practitioner communities, which will both facilitate their 'career paths' and also contribute to learning in courses and consultancy projects. Each week speakers from different disciplines, development organisations or research institutes will speak to students about a "hot topic" in development policy

and research work. Previous speakers have included senior economists, serving and former Government Ministers, NGO chief executives and senior staff, innovative academic researchers and consultants, among others.

**Teaching:** 16 hours of lectures in the MT. 10 hours of lectures in the LT.

Lectures will be followed by open discussion and debate. There will be a reading week in Week 6.

**Assessment:** This course is not assessed

---

## DV447 Half Unit Not available in 2022/23

### Youth and Gendered Violence

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Alcinda Honwana and Dr Naomi Pendle

**Availability:** This course is available on the MSc in Development Studies, MSc in Gender (Sexuality), MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Pre-requisites:** Previous study of the social sciences or humanities is preferred.

**Course content:** The framework for this course considers the economic, social and political aspects of international development as reference points to examine structural inequalities affecting young men and women. It will consider young people's socio-economic and political exclusion as well as their challenging transitions into adulthood. The course will address issues concerning education, health, labour markets, the household, family, marriage and social reproduction. Youth social and political engagement and participation will be studied through the lenses of military mobilisation, social movements, political protests and contributions to processes of social change. The course will also examine the gendered constructions of young women and young men's places in the public and domestic spheres. It will interrogate assumptions about young people's lives and bodies made by development and public policy and the ways in which such are challenged or reinforced. The course will discuss diverse forms of violence – structural, organised, physical and sexual - perpetrated against and by youth in contexts of war, conflict and radicalisation. The course will also discuss ways of understanding war and conflict as a foundation to then critically considering how masculinities and femininities, as well as ideas of youth, are remade during times of conflict and complex emergencies. A particular focus will be given to the agency young people by exploring issues of identity, religion, culture and power and the way these permeate private and public life.

**Teaching:** 15 hours of lectures and 15 hours of classes in the MT. There will be a ninety-minute revision session in late LT or early ST. There will be a Reading Week in week 6.

**Formative coursework:** Students will be expected to write a short paper of 800-1000 words on the topic on which they will lead a class.

**Indicative reading:** Enloe, C. (1998) 'All the men are in the militias, all the women are victims: the politics of masculinity and femininity in nationalist wars'. In L.A. Lorentzen and J.E. Turpin (eds.) *The Women and War Reader*. New York University Press, New York, NY. pp. 50–62.

Honwana, Alcinda (2013). *Youth and Revolution in Tunisia*. London: Zed Books .

**Assessment:** Case study (80%) in the LT. Other (20%) in the MT.

The course will be assessed by a short paper linked to the seminar presentation and a researched developed case study.

## DV453 Half Unit

### International Development Consultancy Project

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Ernestina Coast CON.8.15  
Dr Stuart Gordon CON.8.10

**Availability:** This course is available on the MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is not available as an outside option.

Places for MSc Development Studies students requesting to take this course as an option are strictly limited (5 places allocated by ballot amongst applicants). MSc Development Studies students must take DV458 in order to be able to apply for a place on DV453. Students from MSc Health and International Development and MSc Development Studies will have health-related consultancies. Students from MSc International Development and Humanitarian Emergencies will have humanitarian-focused consultancies.

**Course content:** Students will gain practical experience of dealing with current policy issues and best practice in the fields of humanitarian assistance or international development by working on a consultancy team project for an external client. The consultancies are based around an experiential learning format. Students receive guidance through a structured supervision process and work on the consultancy report in Michaelmas and Lent Terms with support from a staff coach. Students are allocated to consultancy teams usually comprising between three and six people. Students can express preferences for particular clients but may not be allocated to one of these. The roster of clients and projects changes every year.

The consultancy project begins in Michaelmas Term with client reports due at the end of Lent Term. The client report and final presentation form part of the assessment.

There are 4 MT lectures plus 1 MT workshop [the inception report presentations] each lasting up to three hours.

**Teaching:** This course is delivered through a combination of lectures and workshops. Up to 12 hours of lectures and up to 3 hours of workshops in the MT.

This course will have a reading week in Week 6.

**Formative coursework:** Students will contribute to the Group reports and presentations (inception and final) and will be given feedback and indicative grades for each of these.

**Indicative reading:** There is no specific reading for this course as this will reflect the specific project Terms of Reference that students work to.

**Assessment:** Project (80%, 8000 words), reflective learning report (10%) and group presentation (10%) in the LT.

The reflective learning report is comprised of two individual diaries plus individual performance assessed through 360-degree student reporting and the coach's own assessment of individual contributions.

Final client presentations are at the end of the Lent Term and are scheduled by the students in consultation with academic staff and the client. Students should be aware that presentations to clients may have to take place in the week after the end of LT, and students should plan accordingly and be available to participate if required.

## DV454 Half Unit

### Gender, labour markets and social change in the Global South: theory, evidence, public action

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Naila Kabeer

**Availability:** This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Gender, Development and Globalisation, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** One of the longest running debates within the feminist literature, and one that has also played out in the field of gender and international development, relates to the relationship between women's access to labour market opportunities and their position within the family and community: the 'exploitation' versus 'emancipation' argument. These debates have been given fresh lease of life in the development literature as a result of the growing feminisation of labour markets in recent years in most regions of the Global South. They have been further complicated by additional claims (which have a great deal of traction in policy circles) that greater gender equality in the labour market has enormous potential for economic growth. At the same time, a great deal of contemporary feminist literature as well as international campaigns have highlighted the extremely exploitative terms on which most women take up paid work, contested the view that increased access to paid work has been empowering for women and questioned the instrumentality of the 'gender is good for growth' argument.

This course will be loosely organized around these debates. It will seek to equip students with the ability to analyse and assess these competing claims about what is a very critical issue in the field of international development by providing them with a firm grounding in theory, evidence and policy debates relating to gender and labour markets in the Global South. It will meet this objective through three components which will build on each other.

The first will focus on the different positions taken within these debates and the rationales put forward to justify these claims.

It will examine key concepts and theories relating to gender, households and labour markets which provide the theoretical underpinning to these claims. In particular, it will distinguish between the concepts of capabilities, empowerment and economic citizenship as ways of capturing changes associated with work. It will also consider the different definitions of 'work' which feature in these theories and the extent to which they capture the labour market and livelihood strategies of households in different regions of the Global South.

The second component will draw together the empirical literature to consider the evidence relating to gendered patterns of labour market participation in different regions of the world. It will start out with a broad-brush account of the changes that have taken place in domestic and global labour markets over the last few decades. It will then consider in greater detail how these markets

function in low-and middle-income countries and the intersectional segmentation of occupations and tasks that they generate. It will analyse how market forces are restructuring some of the intimate aspects of family relations through the commodification of reproductive and sexual services that were previously provided as part of the marital contract. It will conclude by considering what these changing dynamics of the labour market tell us about women's position within their families and the wider society and revisit the arguments about gender and growth.

The third component will evaluate various forms of public action by policy, corporations and civil society actors that have been taken up in response to their positions with regard to the gender dynamics in the economy. These include policy measures to promote greater gender equality in the labour market, including minimum wage legislation, social protection and corporate responsibility. They will also include new forms of unionism and collective action that have sought to promote economic citizenship and the rights of women workers at global and local levels.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Students can opt to submit a 1500 essay which will not count towards their final marks but which will allow them to receive feedback on their ability to read critically, to synthesise arguments and to ensure that their writing style meets the standards required by the school. It will also address learning outcomes 1 and 4.

**Assessment:** Essay (100%, 4000 words) in the ST.

---

## DV455 Half Unit

### Advocacy, Campaigning and Grassroots Activism

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Duncan Green and Mr Thomas Kirk  
 Dr Duncan Green is Professor in Practice in the International

Development Department, and Senior Strategic Adviser at Oxfam GB, an international NGO. His blog, *From Poverty to Power* (<http://oxfamblogs.org/fp2p/>) is one of the most widely read international development blogs. His most recent book, *How Change Happens* (OUP, 2016) is the core text for this course.

Dr Thomas Kirk is a researcher and consultant based at the London School of Economics and Political Science. Interests include the provision of security and justice in conflict affected regions, social accountability, civil society, local governance and public authority. Lived and worked in Afghanistan, Pakistan, India, Timor-Leste, the DRC and Kenya.

Together they run the Influencing component of the Global Executive Leadership Initiative Course (<https://www.geli.org/programs-courses/regional-training-programme/influencing-senior-leaders-analysis-strategy-and>).

**Availability:** This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Health and International Development, MSc in Inequalities and Social Science, MSc in International Development and Humanitarian Emergencies and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

The course will be offered in Lent term and capped at 75 students. Selection criteria: applicants will be asked to submit 200 words on their background and why they want to take the course, to be assessed against interest, experience and passion.

If there are any spare spaces, the course is available as an outside option.

**Course content:** There are two blocks in this course:

1. Understanding How Change Happens, including systems thinking and power analysis.

2. The analytical frameworks used by INGOs and other change agents to inform and design their advocacy.

This course introduces students to some of the analytical frameworks and practical techniques used by INGOs such as Oxfam (where the course leader is senior strategic adviser), along with other activists (broadly defined, including 'change agents' in governments and the private sector) in influencing political, social and economic policy and practice.

Lectures will introduce the importance of systems thinking and power analysis in understanding and influencing processes of change and the role of civil society and advocacy in driving such change.

These will be used to explore how activists and activist organizations use these as organizing tools for influencing, through both 'insider' or 'outsider' strategies.

The course is designed for students who have been, or intend to become, active in driving change, whether as members of civil society organizations, in government, in aid donors or in the private sector. You will develop your understanding both of endogenous change processes in developing countries, and the design and limitations of deliberate efforts to bring about political, social and economic change.

Students will be asked to come with an initial idea for an influencing exercise that they would personally like to design and implement (for example a campaign, policy reform, or effort to shift public attitudes) and will apply the coursework to that case study, developing a project proposal at the end of the term that will be assessed.

Students will be required to produce a blog post or vlog (video blog) summarizing their individual project, which will also be summatively assessed (students will receive a 'blogging for beginners' lecture on writing for impact).

Working in small groups, students will also choose and analyse a past case study of change, which will be assessed.

**Teaching:** Teaching will consist of a combination of lecture presentations, involving powerpoint, video and group discussion, and seminar discussions. There will be one lecture at or above 60 minutes duration each week of LT. This will be followed up by 60 minutes of seminar work in the LT. Reading week will occur in week 6, during which time there will be extended office hours available.

**Formative coursework:** Students will be asked to submit initial

formative proposals (1000 words max) for their individual assignments in week 6, for feedback from the course leaders. First drafts of the group assignment will be submitted in seminars in weeks 7 & 8 for tutor feedback.

**Indicative reading:** Course Text: Green, D. 2016. 'How Change Happens'. Oxford University Press

**Assessment:** Project (50%, 2500 words) and project (40%, 4000 words) in April.

Blog post (10%) in the LT.

Individual Project (50%, 2000 words) and blog post (10%) in April,  
Group Project (40%, 4.000 words) in April.

The summative assessment will consist of both individual and group assignments:

a) Individual project proposals for an influencing project (individual) will be formatively assessed and feedback given. This will then inform the final project that will be summatively assessed in April. A blog or Vlog of the project will also be produced and summatively marked.

b) Historical case study (as groups of 3 or 4). Group membership will be assigned in advance. Students will select an agreed

historical change episode. Assessment will be a written assignment, summatively marked.

## DV456 Half Unit

### Population, Health and Development: Evidence and Projections

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Tiziana Leone CON 8.11

**Availability:** This course is compulsory on the MSc in Social Research Methods. This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Gender, Development and Globalisation, MSc in Global Health Policy, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Places will be allocated with priority to ID and joint-degree students. If there are more ID and joint-degree students than DV456 can accommodate, these places will be allocated randomly. Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Pre-requisites:** Some familiarity with personal computers is required, but a high degree of technical proficiency is not required. Familiarity with excel (basic functions) needed otherwise attend a course at LSE Life. For more details on whether the course might be suitable for you please visit Moodle.

**Course content:** The course is practical in nature and overviews key methods used for planning in population and development with an emphasis on the health sector. Key questions which will be answered in this course are: what is the future of the world population; what are the family planning needs of couples in low income countries; what will be the number of newly HIV infected in the next 15 years; what is the future of major diseases; what is the impact of key health interventions. The focus will be both on producing information as well as on searching and understanding data provided by key international agencies and on learning how to relate the information meaningfully to policy makers. Relevance will be given to methods used for assessing the implications of high levels of mortality in developing countries with specific reference to the HIV/AIDS pandemic; as well as the assessment of high fertility levels due to low uptakes of family planning methods. During the course students will learn to apply interventions based models through the use of Spectrum to understand the impact on outcomes and on governments' health expenditure. The approach is practical and complements the more theoretical population courses giving additional skills such as an understanding of key international projections and estimates, planning for health workforce and for health supplies. Students will undertake a number of computer-based assignments (using either Excel or Spectrum) which will follow the topics highlighted during the lectures. The course covers concepts used for population analysis; the role of population projections in the population planning and development process; the basis of projections made by international agencies such as the UN Population Division; the formulation of projection assumptions and methods of making projections; methods for projecting and assessing the impact of HIV/AIDS and the use of software such as AIM (AIDS Impact Model) as well as planning maternal and child health interventions with the use of LiST. The course will also give an overview of projections for non-communicable diseases, Malaria and TB among others. Emphasis will be given to the learning of analytical skills which include data and information searching on the internet as well as presentation of the information. Former students have found the course useful to get a foundation of how UN agencies involved in data collection work, to gain analytical skills which are

transferable as well as getting a grasp of how to translate data into policy.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to submit a formative assessment of 5 pages before the end of term.

**Indicative reading:** Relevant documents will be provided at the start of the course, mainly in the form of electronic documents. Suggested reading are Lutz "The future population of the world"; Cohen "How many people can the earth support"

**Assessment:** Coursework (90%) in the LT.

Continuous assessment (10%) in the MT.

Assessment will be by two forms of assessments.

Continuous assessment worth 10%: will be based on course participation, a group presentation along with homework submitted on Moodle during MT.

Coursework worth 90% - will be a 10 A4 page report. This will involve the formulation, execution and writing up of a project concerned with a model for population planning, to be agreed with the course teacher. This must be submitted by the second week of LT

## DV457 Half Unit

### Sexual and Reproductive Health Programmes: Design, Implementation and Evaluation

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Ernestina Coast CON.8.15

**Availability:** This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Gender, MSc in Gender (Sexuality), MSc in Gender, Development and Globalisation, MSc in Gender, Peace and Security, MSc in Gender, Policy and Inequalities, MSc in Global Health Policy, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Social Research Methods. This course is available with permission as an outside option to students on other programmes where regulations permit.

Places will be allocated with priority to ID and joint-degree students. If there are more ID and joint-degree students than DV457 can accommodate, these places will be allocated randomly. Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** This course aims to equip students with the knowledge and skills to be able to critically appraise data and evidence for assessing sexual and reproductive health programmes. This course deals with the effectiveness of sexual and reproductive health programmes, especially those that deliver services. The key issues addressed are the design of programmes, their effective implementation, and their evaluation. The course focuses on the critical production and consumption of data and evidence – both quantitative and qualitative - for assessing sexual and reproductive health programmes. The course takes a global approach, incorporating evidence from a range of contexts, countries and populations.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Students on this course will have a reading week in Week 6.

**Formative coursework:** Students are expected to prepare a group seminar presentation and an individual annotated bibliography during the term.

**Indicative reading:** Lecture and seminar electronic reading lists are available in Moodle.

**Assessment:** Coursework (100%) in the ST.

Coursework assignment to be a maximum of 10 A4 pages.

## DV458 Half Unit

### Key issues in Global Health and Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Tiziana Leone CON 8.11 and Dr Philipa Mladovsky CON 6.13

**Availability:** This course is compulsory on the MSc in Health and International Development. This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Gender, MSc in Gender, Development and Globalisation, MSc in Gender, Policy and Inequalities, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development, MSc in Social Research Methods and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Places will be allocated with priority to ID and joint-degree students. If there are more ID and joint-degree students than DV458 can accommodate, these places will be allocated randomly. Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option

**Course content:** The course provides an up-to-date and comprehensive introduction to global health and health system trends in low and middle-income countries. The course examines the main determinants of health issues as they relate to development and their principal consequences, policies and politics to improve health and development; barriers to implementing those policies; and ways of overcoming those barriers. Key topics include the politics of diseases, framing health discourses, universal health coverage, impacts of conflict and climate change on health, pharmaceutical governance and global health metrics. Drawing on disciplines such as political science, health policy, demography, sociology and economics, this course argues for the need to improve global health equity in order to contribute to development. It will equip students with the skills needed to work in and help to improve mainstream global health organisations such as WHO, the World Bank, Gates Foundation and MSF among others. The course promotes equality, social justice and human rights as fundamental approaches to global health.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Students are expected to prepare a seminar presentation and complete a mock exam during MT.

**Indicative reading:** The course is supported by an electronic reading list. There is no single key text but here are some indicative readings:

- Birn, A. et al, 2017 "Textbook of global health". Oxford University Press.
- Marmot, M., et al, 2008. Closing the gap in a generation: health equity through action on the social determinants of health. *The Lancet*, 372(9650), pp.1661-1669.
- Shiffman, 2009, "A social explanation for the rise and fall of global health". *Bulletin of the World Health Organization*, 87(8), 608–613.
- Adams, V. 2016, "Metrics: what counts in global health". Duke University Press.
- Kieny, M.P., et al 2017. Strengthening health systems for universal health coverage and sustainable development. *Bulletin of the World Health Organization*, 95(7), p.537.
- Gill et al, (2020) Reflections on the political economy of planetary health in *Review of International Political Economy*. *Review of International Political Economy*. 27:1.

- Watts et al. (2019). The 2019 report of The Lancet Countdown on health and climate change: ensuring that the health of a child born today is not defined by a changing climate. *The Lancet*, 394(10211), pp.1836-1878.

**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.

---

## DV460 Half Unit Not available in 2022/23

### Bayesian Reasoning for Qualitative Social Science: A modern approach to case study inference

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Tasha Fairfield CON 6.02

**Availability:** This course is available on the MSc in Comparative Politics, MSc in Development Management, MSc in Development Studies, MSc in Global Politics, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in International Relations (Research) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will be selected for DV460 based on a written statement of interest (max 150 words). Priority will be given to students on the programs listed above, if demand exceeds places.

**Pre-requisites:** This course has no prerequisites.

Students do not need any previous exposure to either Bayesian analysis or qualitative methods literature.

**Course content:** The way we intuitively approach qualitative case research is similar to how we read detective novels. We consider various different hypotheses to explain what occurred—whether the emergence of democracy in South Africa, or the death of Samuel Ratchett on the Orient Express—drawing on the literature we have read (e.g. theories of regime change, or other Agatha Christie mysteries) and any salient previous experiences we have had. As we gather evidence and discover new clues, we continually update our beliefs about which hypothesis provides the best explanation—or we may introduce a new alternative that occurs to us along the way.

Bayesianism provides a natural framework that is both logically rigorous and grounded in common sense, that governs how we should revise our degree of belief in the truth of a hypothesis—e.g., "mobilisation from below drove democratization in South Africa by altering economic elites' regime preferences," (Wood 2001), or "a lone gangster sneaked onboard the train and killed Ratchett as revenge for being swindled"—given our relevant prior knowledge and new information that we obtain during our investigation. Bayesianism is enjoying a revival across many fields, and it offers a powerful tool for improving inference and analytic transparency in qualitative research.

This course introduces basic principles of Bayesian reasoning with the goal of helping us leverage our common-sense understandings of inference and hone our intuition when conducting causal analysis with qualitative evidence. We will examine the foundations of Bayesian probability as well as concrete applications to single case studies, comparative case studies, comparative historical analysis, and multi-methods research. Students will practice applying Bayesian reasoning to assess the strength and quality of inferences in published studies, drawing on exemplars of qualitative research from various fields of socio-political analysis including development studies, comparative politics, international relations, and policy analysis. Students will also apply Bayesian principles to various aspects of their own dissertation research in progress—e.g., generating or revising hypotheses, selecting cases, identifying weaknesses in salient background literature, and assessing the inferential weight of available evidence.

Upon completing the course, students will be equipped with a concrete set of Bayesian-inspired best practices to deploy in their own research, as well as widely-applicable analytic skills that will

help them to better evaluate and critique socio-political analysis.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 1 exercise and 1 project in the LT.

Students will receive written and oral formative assessment on in-class exercises, which will ask them to explain key Bayesian concepts (e.g., the "weight of evidence") in their own words and apply them to concrete examples (e.g. use Bayes' rule to derive an inference from several pieces of evidence).

In addition, students will receive feedback on the first section of their final project, which will set up rival hypotheses to be compared in light of case evidence.

**Indicative reading:** Methodological foundations:

Andrew Bennett, "Disciplining Our Conjectures: Systematizing Process Tracing with Bayesian Analysis," in Andrew Bennett and Jeffrey Checkel, eds, *Process Tracing in the Social Sciences: From Metaphor to Analytic Tool*, Cambridge University Press, 276–98, 2015; Tasha Fairfield and Andrew Charman, "Explicit Bayesian Analysis for Process Tracing," *Political Analysis* 25(363-380), 2017; Tasha Fairfield and Andrew Charman, "A Dialogue with the Data: The Bayesian Foundations of Iterative Research in Qualitative Social Science," *Perspectives on Politics* 17(1:154-167), 2019; Timothy McKeown, "Case Studies and the Statistical Worldview," *International Organization* 53(1):161-190, 1999.

Qualitative research exemplars:

Tasha Fairfield and Candelaria Garay, "Redistribution under the Right in Latin America: Electoral Competition and Organized Actors in Policymaking," *Comparative Political Studies* 50 (14) 1871-1906, 2017; Marcus Kurtz, "Reconsidering War and the 'Resource Curse' in Third World State Building," *Politics & Society* 37 (4) 479–520, 2009; Kenneth Schultz, "Fashoda Revisited" (Chapter 6) in *Democracy and Coercive Diplomacy*, Cambridge, 2001; Dan Slater, "Revolutions, Crackdowns, and Quiescence: Communal Elites and Democratic Mobilization in Southeast Asia," *American Journal of Sociology* 115 (1) 203-254, 2009; Elisabeth Wood, "An Insurgent Path to Democracy: Popular Mobilization, Economic Interests, and Regime Transition in South Africa and El Salvador," *Comparative Political Studies* 34 (8) 862-888, 2001.

**Assessment:** Project (80%, 3000 words) in the ST.

In-class assessment (20%) in the LT Week 11.

Students will choose a case-study article that is relevant to their dissertation topic and apply Bayesian reasoning to critique the article's inferences. This exercise entails assessing how the author's argument has been specified, identifying a plausible rival hypothesis (which may or may not be provided by the author), identifying the most salient pieces of evidence presented, and qualitatively evaluating the inferential weight the evidence provides in favour of the author's hypothesis relative to the rival.

## DV461 Half Unit Not available in 2022/23

### Critical Population Health Issues in High and Middle-Income Countries

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Arjan Gjonca OLD.2.45

**Availability:** This course is available on the MSc in Global Health Policy and MSc in Social Research Methods. This course is available as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** No pre-requisites are required for this course.

**Course content:** This course brings together key issues on the social and environmental determinants of population size and structure and population health in high and middle income countries from a multidisciplinary approach including a range of social science disciplines, epidemiology, demography and public

health. This course reflects the developments of research in recent years on health trends and differentials. Topics addressed in this course include the relationship between health and economic change such as the effect of recession; divergent trends in Western European and former USSR states; family changes and their implications for population health; role of early-life events; social support, social capital and health; socio-demographic determinants and consequences of ageing at the individual and population level; comparison of trends in established market economies and BRICS; policy responses to inequalities in health; prospects for mortality and morbidity change - a compression of morbidity?

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the MT.

**Formative coursework:** One 1,500 word formative essay in MT.

**Indicative reading:** Merson, MH, Black, ER, Mills, AJ. (2012) *Global Health: Diseases, Programmes, Systems, and Policies*, London: Jones & Barlett Learning; Burlington, MA; London.

Berkman L. F., Kawachi, I. and Glymour, M. M. (2014) *Social Epidemiology* (2nd ed.); Oxford University Press; Oxford; New York.

Marmot, M. (2010) *The Marmot review final report: Fair society, healthy lives*: University College London.

Wilkinson, R.G. and Pickett, K. (2009) *The spirit level: why more equal societies almost always do better*; Bloomsbury Press; London; New York.

Bowling, A (2017) *Measuring Health: A Review of Subjective Health, Well-being and Quality of Life Measurement Scales*: McGraw-Hill Education.

**Assessment:** Exam (75%, duration: 2 hours) in the summer exam period.

Essay (25%, 2000 words) in the LT.

## DV462 Half Unit

### Forced Migration and Refugees

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Stuart Gordon

**Availability:** This course is available on the MSc in Conflict Studies, MSc in Development Management, MSc in Development Studies, MSc in Gender, Development and Globalisation, MSc in Gender, Peace and Security, MSc in Health and International Development, MSc in Human Rights, MSc in Inequalities and Social Science, MSc in International Development and Humanitarian Emergencies, MSc in International Migration and Public Policy and MSc in International Migration and Public Policy (LSE and Sciences Po). This course is available as an outside option to students on other programmes where regulations permit.

First priority is given to students on the MSc International Development and Humanitarian Emergencies and MSc in International Migration and Public Policy, then International Development (ID) and joint ID MSc programmes and then students external to ID. At each stage course places will be allocated by random selection according to the priorities detailed above.

**Course content:** The course deals with the global governance of forced migration with a particular focus on refugees and their experiences. The first lectures critically evaluate the ways in which the drivers of forced migration, particularly conflict and environmental change, are identified. It problematizes notions of mono-causality in favour of more complex and dynamic understandings of the reasons which may underpin individual, familial and collective experiences of forced displacement or immobility.

The next section looks at the linkage between the refugee regime, international society and global order. We explore the governance of the overall refugee regime, looking in detail at the UN organisation with a specific mandate for refugee protection and relief, the UNHCR, as well as the issue of international refugee 'burden sharing.' We also explore the intersection between human rights and refugee law; challenging the idea of a separation between the regimes and asking whether this transforms the

nature and role of UNHCR. We also examine the extent to which the securitisation of refugee issues has occurred and how these processes impact on their governance and management.

The final section brings to the fore the agency of refugees and explores differing approaches to the study of refugees' own lived experiences in flight and exile. We explore the tensions between the international community's interest in fixing refugee populations in camps and refugees' own practices (often irregular) of self-settlement in towns and cities. We also devote considerable attention to a critical examination of the significance of gender and its intersection with other identities (age, generation and disability) in narratives and analyses of displacement. We explore gendered experiences of immobility and displacement, looking at the multiple ways in which processes of and responses to forced migration influence broader gender identities, roles and relations. The final section looks at how we might 'solve' protracted refugee situations and the limitations of the current approaches. It begins by looking at why refugee return has dominated international attempts to solve crises, the problems that have arisen from this 'push to repatriate' and the types of challenges faced by returnees.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

The teaching strategy is diverse and innovative: using both conventional discussions as well as a variety of small group exercises. These will feed directly into a formative piece of work related to the summative assessment.

Students on this course will have a reading week in Week 6.

**Formative coursework:** Students will co-produce seminar presentation. Students produce a formative essay of 1000 words by week 8 of LT. Normally students will produce their formative essay within two weeks of presenting in seminar on that topic.

**Indicative reading:**

**Assessment:** Take-home assessment (100%) in the ST.

The exam paper will be released in week 11 of the Lent Term. The course is assessed through the submission of two 2000-word essays by Tuesday of week 1 of the Summer Term

## DV463 Half Unit Not available in 2022/23

### Civil society, security and development

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Jude Howell

**Availability:** This course is available on the MSc in China in Comparative Perspective, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and

Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This course is an advanced seminar organised around guided critical, in-depth reading and discussion of theories, concepts and empirical manifestations of civil society in relation to international development and security. The building-blocks of the course extend over 7 weeks, with 3 weeks devoted to case-material presentations related to broad thematic questions. The presentations in the three weeks may provide a basis for the long assessed essay.

The presentations in the three weeks may provide a basis for the long assessed essay.

The broad content of the course is as follows:

- Week 1: Introduction to course; introduction to key theories, history and concepts of civil society.
- Week 2: Civil society, welfare and democratisation.
- Week 3: Civil society, security and violence.
- Week 4: Civil society and securitization: terrorism and counter-terrorism.
- Week 5: International donors, aid and security.
- Week 6: Reading Week.
- Week 7: Authoritarianism, security and civil society.
- Week 8: Student case-study presentations.
- Week 9: Student case-study presentations.
- Week 10: Student case-study presentations.
- Week 11: Critical perspectives on civil society

**Teaching:** 20 hours of seminars in the MT.

Each weekly seminar session is 2 hours. This comprises an overview of the week's topic by the seminar convenor and then detailed guided reading and discussion.

There will be 2 hour essay session in week 11.

There will be a reading week in Week 6.

**Formative coursework:** Students may submit a formative essay of 1,000 words, excluding references, by Friday, 12 noon, Week 5. The purpose of the formative essay is to identify core issues for each student in the devising and structuring of essay, framing of argument, development of concepts and use of references. The student will receive written feedback within 3 weeks and can discuss feedback in office hours.

**Indicative reading:**

- Howell and Lind, 2010, Counter-terrorism, Aid and Civil Society, Palgrave, Basingstoke
- Chambers, S. and W. Kymlicka (eds) 2002, Alternative Conception of Civil Society. Princeton University Press: Princeton

**Assessment:** Essay (70%, 4000 words) in the LT Week 2. Presentation (30%) in the MT.

## DV464 Half Unit

### Democracy and Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Elliott Green CON.8.07

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is also available with permission as an outside option to students on other programmes where regulations permit. Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

**Course content:** One could argue that the 'holy grail' in the study of political economy is the relationship between democracy and development. Does economic development lead to democracy? Are democracies better at promoting development than non-democracies? This course examines this topic in a broad perspective, in both historical and contemporary contexts, and in theoretical and empirical debates.

The course is roughly divided into two, with the first half tackling theories of democracy and development while the second examines empirical evidence. In the first half we will examine historical theories explaining why development can promote democratization from authors such as Seymour Lipset and Barrington Moore, before focussing on contemporary debates from Acemoglu/Robinson, Przeworski and Rodrik. We then focus on the effect of democratization on development, specifically via a discussion of public goods provision, before examining the topic of inequality, redistribution and democracy with attention to Thomas Piketty's recent work. We conclude the first half of the course by discussing the indirect effects of development on democracy via changes in religion, ethnicity and nationalism, with attention to how development can promote secularism, ethnic homogenization and national identity formation.

The second half of the course focusses on specific countries and groups of countries. We start by examining countries which have developed without becoming democracies, with a focus on examples from East Asia (especially China and Vietnam) and the Middle East (the Gulf states). We then have individual lectures on three of the BRICS countries, namely South Africa, India and Brazil, as countries which have seen complex and varied attempts to democratize and develop. Finally, we conclude by speculating on the future of development and democracy in the developing world.

**Teaching:** 20 hours of lectures and 13 hours and 30 minutes of seminars in the MT.

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

Formative assessment will be based on questions provided to students on the reading list assessed by the seminar leader, such that the feedback is given to the student before the end of Michaelmas term. Students will submit a practice essay that is

2000 words long. The marks will be indicative (i.e., P for Pass, D for distinction). This essay will then be used as a basis for the final, summative essay to be due in January.

**Indicative reading:** Drèze, Jean and Amartya Sen. 2013. *An Uncertain Glory: India and its Contradictions*. London: Penguin.

Min, Brian. 2015. *Power and the Vote: Elections and Electricity in the Developing World*. Cambridge: Cambridge University Press.  
Moore, Barrington. 1966. *Social Origins of Dictatorship and Democracy: Lord and Peasant in the Making of the Third World*. Boston: Beacon Press

Rueschemeyer, Dietrich, Evelyne Huber Stephens and John D. Stephens. 1992. *Capitalist Development and Democracy*. Chicago: University of Chicago Press

Stokes, Susan, Thad Dunning, Marcelo Nazareno, and Valeria Busco. 2013. *Brokers, Voters and Clientelism: The Puzzle of Distributive Politics*. Cambridge: Cambridge University Press.

Wimmer, Andreas. 2018. *Nation-Building: Why Some Countries Come Together While Others Fall Apart*. Princeton, NJ: Princeton University Press.

**Assessment:** Essay (100%, 4000 words) in the LT Week 1. Students will submit a 2000- word long summative essay, at the beginning of Lent Term. They will then revise the essay according to the comments they receive and resubmit it as a 4000-word essay in Lent Term.

## DV465 Half Unit

### Global Health Work: Expertise and Labour

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr. Tine Hanrieder

**Availability:** This course is available on the MSc in Development Management, MSc in Development Management (LSE and Sciences Po), MSc in Development Studies, MSc in Gender, Development and Globalisation, MSc in Global Health Policy, MSc in Health and International Development, MSc in Human Resources and Organisations (Human Resource Management/CIPD), MSc in Human Resources and Organisations (International Employment Relations/CIPD), MSc in Human Rights, MSc in Human Rights and Politics, MSc in Inequalities and Social Science, MSc in International Development and Humanitarian Emergencies and MSc in Urbanisation and Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The course examines the political and moral economy of global health work. It examines a set of cross-cutting development themes including the politics of education, workforce migration and brain drain, and gendered and racialized divisions of labour. It uses a broad conception of health workforce that includes frontline workers (paid and unpaid), managers, as well as policy and strategy consultants, and examines the hierarchies established among them. The course introduces students to the historical and localized genealogies of health workforce challenges and discusses key issues and controversies, among them: debates about workers' cost-effectiveness, the politics of professionalism, the role of volunteering and unpaid work, the moral and political economies of "corruption", the gains and losses incurred from labour migration, and the role of trade unions and international NGOs in workforce governance. The course mostly draws on research in sociology and anthropology, but also includes insights from political science, critical public health, and the social studies of science. It has a global outlook, working with case studies and examples from different regions and continents. Students will learn to critically analyse global health workforce politics from different perspectives. They will learn to question and contextualize transnational and national policies for training, retaining, and regulating health workers and to interrogate conceptions of (cost-)

effective work.

**Teaching:** 15 hours of lectures and 13 hours and 30 minutes of seminars in the LT.

**Formative coursework:** Students will be expected to produce 1 presentation and 1 other piece of coursework in the LT. Formative feedback on an essay outline is provided.

**Indicative reading:**

• Biju, B.L. 2013: Angels Are Turning Red: Nurses' Strikes in Kerala, in: *Economic and Political Weekly* 48: 52, 25-28.

• Birn, Anne-Emmanuelle; Pillay, Yogan; Holtz, Timothy H. 2017: *Understanding and Organizing Health Care Systems*, in: Birn, Anne-Emmanuelle; Pillay, Yogan; Holtz, Timothy H. (eds.): *Textbook of Global Health*, DOI: 10.1093/acprof:oso/9780199392285.001.0001, esp. pp. 509 - 513.

• Choe, Catherine Ceniza 2003: *Empire of Care: Nursing and Migration in Filipino American History*. Durham and London: Duke University Press.

• Maes, Kenneth 2017: *The Lives of Community Health Workers: Local Labor and Global Health in Urban Ethiopia*. New York: Routledge.

• Prince, Ruth; Brown, Hannah 2016 (eds.): *Volunteer Economies: The Politics and Ethics of Voluntary Labour in Africa*. Boydell & Brewer, esp. chapters 1, 2, 4, 6, 7 and Epilogue.

• WHO 2016: *Global Strategy on Human Resources for Health: Workforce 2030*. Geneva: World Health Organization.

**Assessment:** Essay (70%, 3000 words) in the ST.

Blog post (10%) and blog post (20%) in the LT.

The blog post receiving the higher mark is weighted 20%, the other 10%.

## DV472 Half Unit Not available in 2022/23

### Covid-19 pandemic: health, socio-economic and political implications for development (Special Topics in International Development)

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Arjan Gjonça

**Availability:** This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Health and International Development and MSc in International Development and Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** This year the course will focus on "Covid 19 pandemic: health, socio-economic and political implications for development" and will be run by Dr Arjan Gjonça. The main epidemiological, health, socio-economic and developmental issues related to the most important global health issue of the past 100 years will be addressed in this course. Some of the main topics to be covered are: Understanding Covid-19 pandemic – trends, patterns and differentials; Understanding the data, and assumptions in modelling the pandemic – Sensitivity and accuracy of the estimates; Health system readiness and public health intervention in the case of Covid-19; Demographic and health implications of Covid-19 pandemic; The implications for sexual and reproductive health and rights; Covid 19 pandemic in conflict and crisis regions. Drug discovery, production/supply/distribution, and patents in the Covid 19 pandemic; Globalisation in a post Covid 19 Pandemic – Implications for the role of international organisation; Globalisation in a post Covid 19 Pandemic – Implications for funding in development.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

For each session up to five readings will be given in advance of the seminar. Students will be asked to read the literature in advance and discuss their findings in an interactive debate during the seminar, monitored and led by the academic instructor. For certain

topics, special designed policy-relevant tasks will be assigned and team discussion and debate will be encouraged. A general reading list for the course will be provided at the start of the course.

Student on this course will have a reading week in Week 6.

**Formative coursework:** One 1,500 word formative essay in MT.

**Indicative reading:** A detailed reading list will be provided at the start of the course each year.

**Assessment:** Take-home assessment (100%) in the LT.

The take-home assessment will take the form of a take-home essay (100%, 3,000 words).

## DV476 Half Unit

### Population Analysis: Methods and Models

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Arjan Gjonca

**Availability:** This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Social Research Methods, MSc in Statistics, MSc in Statistics (Research), MSc in Statistics (Social Statistics) and MSc in Statistics (Social Statistics) (Research).

This course is available with permission as an outside option to students on other programmes where regulations permit.

Places will be allocated with priority to ID and joint-degree students. If there are more ID and joint-degree students than DV476 can accommodate, these places will be allocated randomly. Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Pre-requisites:** Students should have basic numeracy, but the course does not require advanced mathematical knowledge. Some practical sessions will involve use of the spreadsheet EXCEL. IT Training provides numerous self-paced student supervised workshops on EXCEL and downloadable course guides. Students with no prior experience of EXCEL are advised to attend one of these workshops before the course.

**Course content:** This course provides an introduction to the key concepts and methods required for population analysis and the understanding of population issues. The course will explain the dynamics of population change and enable students to learn basic methods for measuring population structure and the determinants of population size and change (fertility, mortality and migration). The course will also provide an introduction to population projections and describe and evaluate how demographic data are collected and used. Emphasis is placed on the understanding and interpretation of demographic data, and methods of population analysis required to understand the major population issues the World is facing at present.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

**Formative coursework:** Students will be expected to complete exercises, write one essay and complete one multiple choice questionnaires during the term.

**Indicative reading:**

- Demography: Measuring and Modeling Population Processes by S H Preston, P Heuveline and M Guillot, 2001.

This will be used as a reference text in the course. Students may also find it helpful to consult some of the other standard texts available including:

- Essential Demographic Methods by Kenneth W. Wachter, 2014 (recommended);
- Demographic Methods by Andrew Hinde, 1998;
- Demographic Methods and Concepts by Donald Rowland, 2003 (less advanced);
- Methods and Models in Demography by C Newell, 1988 (less advanced).

**Assessment:** Exam (100%, duration: 2 hours) in the January exam period.

## DV477 Half Unit Not available in 2022/23

### Rural Livelihoods, Development and Agrarian Transformation

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof David Lewis OLD2.40

**Availability:** This course is available on the MSc in Development Studies, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy, Technology and Health (Environmental Economics and Climate Change) (LSE and Peking University) and MSc in International Development and Humanitarian Emergencies. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will be allocated places to courses with priority to ID students. If there are more ID students than the course can accommodate, these spots will be allocated randomly.

Non-ID students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

<https://info.lse.ac.uk/current-students/services/course-choice/controlled-access-courses>

**Pre-requisites:** Knowledge of rural areas and relevant work experience is desirable but not essential. Knowledge of sociological and anthropological approaches to studying rural development also desirable.

**Course content:** This Course considers: Theories of rural development and transformation, history of rural development policy, changing rural livelihoods, land and agrarian reform, agricultural research and extension, the roles of private and non-governmental actors, natural resource management, food security, climate change and rural-urban linkages.

**Teaching:** 15 hours of lectures and 15 hours of seminars in the LT. 1 hour and 30 minutes of lectures and 1 hour and 30 minutes of seminars in the ST.

**Formative coursework:** A formative 1500 word essay is required, and feedback will be provided.

**Indicative reading:** A detailed reading list is included in the seminar programme. The following is an introductory reading list:

- J Boltvinik & SA Mann (eds.) Peasant Poverty and Persistence in the 21st century: Theories, Debates, Realities and Policies (2016);
- T M Li, Land's End: Capitalist Relations on an Indigenous Frontier (2014);
- I Scoones & J Thompson, Farmer First Revisited (2009);
- R McAreavey, Rural Development Theory and Practice (2009);
- A Shepherd, Sustainable Rural Development (1998);
- B Crow & H Bernstein (Eds), Rural Lives: Crises and Responses (1992);
- N Long, Development Sociology: Actor Perspectives (2001);
- Rural Development Report 2016: Fostering Inclusive Rural Transformation (IFAD, 2016).

**Assessment:** Essay (100%, 3500 words) in the ST. Students are required to write an assessed essay of 3,500 words.

## DV480 Half Unit

### Revolution and Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Jean-Paul Faguet CON 8.06

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

ID and joint-degree students will have priority in the allocation of

places. If there are more ID and joint-degree students than the course can accommodate, places will be allocated randomly. Non-ID/Joint Degree students will be allocated available places by random selection, with preference given first to those degrees where regulations permit this option.

**Pre-requisites:** No specific course pre-requisites. A good social science background will be very helpful, especially politics and economics.

**Course content:** Revolutions break things, but do they also build? If so, what precisely? What causes revolutions? What do revolutions cause? This course examines the successes and failures of revolution as a model of change in generating large and sustainable improvements in economic, political and social development. We begin by defining "revolution" as a discrete, analytically distinct model of change. We then examine revolutions per se – abrupt, significant, and often violent changes in governance and the distribution of power and wealth in society. Classic examples include the French, Russian, Chinese and Vietnamese Revolutions. We evaluate the immediate and long-term costs of these episodes in light of changes that resulted in each country's development trajectory. We contrast these cases with 'right-wing revolutions', such as South Korea, Taiwan and Japan, as well as more gradual processes of change ('evolutions', often called "reform"), such as Finland and New Zealand. We contrast capitalist vs. socialist models of economic growth and development. We focus on the conditions that sustained left vs. right revolutions, and also revolutionary vs. non-revolutionary processes of change. We analyse the ability of each model to generate lasting improvements in societies' economic, political and social development.

**Teaching:** This course is delivered through a combination of lectures and seminars in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration. There will also be 4 hours of workshop in the MT. Student on this course will have a reading week in week 6. Lectures will present key theoretical insights and lay out the contours of major debates from the literature. Seminars will be student-led, and will probe each week's topic in more detail, both to clarify concepts and to test them against evidence, some of which students will draw up and present independently. The workshop is a different sort of exercise, intended to give thorough review to students' research proposals in a constructively critical, collegial atmosphere. Each student will present their research proposal and then receive feedback from fellow students and faculty.

**Formative coursework:** Students will be expected to produce 1 presentation and 1 other piece of coursework in the MT. In preparation for their research essay, students will submit a formative research proposal, which they will present in a research workshop in MT. This will receive detailed written, and also oral, feedback intended to improve the proposal. They will then revise the proposal and re-submit as summative work. Students will also complete seminar presentations, individually or in pairs (depending on student numbers), which will also receive formative feedback.

**Indicative reading:** A detailed, weekly reading list will be provided at the start of term:

- Arendt, Hannah. 2006. *On Revolution*. London: Penguin Classics.
- Boix, 160Carles. 2015. 160Political Order and Inequality: Their Foundations and their Consequences for Human Welfare. 160Cambridge: Cambridge University Press.
- Brady, H. and D. Collier. 2010. *Rethinking Social Inquiry: Diverse Tools, Shared Standards* (second, expanded edition). Lanham, MD: Rowman & Littlefield.
- Dix, Robert H. 1983. "The Varieties of Revolution." *Comparative Politics*, 15 (3): 281-294.
- Huntington, Samuel P. 1968. *Political Order in Changing Societies*. New Haven: Yale University Press.
- Moore, Barrington. 1966. *Social Origins of Dictatorship and Democracy: Lord and Peasant in the Making of the Modern World*. Boston, MA: Beacon Press.
- North, D., J. Wallis, and B. Weingast. 2009. *Violence and social orders: A conceptual framework for interpreting recorded human history*. Cambridge: Cambridge University Press.

- Procter, Margaret. *The Academic Proposal*. University College Writing Centre. University of Toronto.
- Skocpol, Theda. 1979. *States and Social Revolutions: A Comparative Analysis of France, Russia and China*. Cambridge: Cambridge University Press.
- Tilly, Charles. 1995. 160European Revolutions: 1492-1992. 160Oxford: Blackwell.
- de Tocqueville, Alexis. 1865. *The Old Regime and the Revolution*. New York: Harper & Brothers.
- Tucker, Robert C. (Ed.). 1975. 160The Lenin Anthology. New York: W.W. Norton & Company.
- University Library. 160Writing a Research Proposal. University of Illinois at Urbana-Champaign.

**Assessment:** Assessment path 1

Presentation (10%) and research proposal (20%) in the MT. Research project (70%) in the ST.

Assessment path 2

Exam (80%, duration: 2 hours) in the summer exam period.

Presentation (20%) in the MT.

Two assessment tracks are available for this course:

Students must opt for one or the other by Friday of reading week (week 6).

## DV483 Half Unit

### Information Communication Technologies and Socio-economic Development

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Shirin Madon CON.8.09

**Availability:** This course is available on the MSc in Development Management, MSc in Development Studies, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Management of Information Systems and Digital Innovation, MSc in Media, Communication and Development and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit. Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Course content:** This is an interdisciplinary course about understanding the role played by Information & Communication Technologies (ICTs) towards achieving developmental goals. We begin by reviewing dominant theoretical perspectives on development identifying assumptions held about the role of information, communication and technologies. Using this as our critical frame of reference, we focus on a variety of current topics including global software outsourcing, e-commerce/m-commerce, mobiles for smallholder agriculture, ICT and education, e-governance, health informatics, social media and collective action, ICT and humanitarianism.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration. There will also be a one-hour revision session in late LT. Student on this course will have a reading week in Week 6.

**Formative coursework:** Students will be invited to submit an abstract of their summative essay for written comments.

**Indicative reading:** Avgerou, C. (2010) *Discourses on ICT and Development, Information Technologies and International Development*, 6, 3, pp. 1-18.

Taylor, L. and Schroeder, R. (2015) *Is Bigger Better? The emergence of big data as a tool for international development policy*, *GeoJournal*, 80, pp. 503-518.

**Assessment:** Essay (100%, 4000 words) in the ST.

**DV490 Half Unit****Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Diana Weinhold

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy, Technology and Health (Environmental Economics and Climate Change) (LSE and Peking University), MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Enrolment will be controlled through the use of a pre-quiz administered before the start of term (see DV490 Moodle page for details).

**Course content:** This course explores the foundations of applied macroeconomic policy analysis by combining a rigorous but intuitive introduction to advanced econometric methods with applications to the theory and empirics of long-run growth in developing countries. Throughout the course, lectures provide analytical but non-technical overviews of broad themes in long-run growth and development policy, including growth theory, institutions and history, economic geography, globalization, inequality, balance of payments and financial crises, debt, environmental policy and international aid. There is a strong emphasis on how the body of knowledge has evolved over time via the synthesis of theoretical advances and rigorous empirical testing.

Seminars in the first half of term will introduce students to the statistical foundations of econometric analysis and build analytical skills to read, interpret, and critique econometric approaches to causal identification commonly used in the academic development literature. We engage directly with quantitative methodology and regression analysis, developing rigorous intuition rather than learning technical formulas, with the focus on teaching students from a broad range of backgrounds to understand and critically consume high-level applied research in a sophisticated manner. The seminars in the second half of term give students an opportunity to repeatedly practice and improve their analytical skills by working through methodologically-focussed problem sets based on top academic journal articles addressing issues from the lectures on macroeconomic development.

While some background in economics and/or statistics is helpful, the course is designed to be engaging and challenging for students from a broad variety of backgrounds, from those with no economics and statistics to those with more advanced skills in either one or both areas. Strong analytical skills (whether quantitative or not) and a sturdy work ethic are the best predictors of success.

**Important:** For students without strong skills in economics and statistics DV490 constitutes the foundational prerequisite for DV491 and/or DV492 in the Lent term. Students without a (very) strong background in economics and statistics are highly recommended to take both DV490 and either DV491 or DV492 or both, and consider them together as a full 1 or 1.5 unit course. Our experience is that the majority of students benefit most from a minimum of a full academic year of repeated practice and exposure to the techniques covered to develop their intuition and ability, and students who take only the first half unit with thus be at a distinct disadvantage. In addition, while DV490 will build a foundational knowledge, DV491 and DV492 will cover additional empirical approaches more commonly employed in micro-development economics, as well as providing an introduction to statistical programming in STATA, thus rounding out students' exposure to empirical methods more fully.

Students who would like to take DV491 and/or DV492 without taking DV490 first are invited to take a "Parachuter's Exam" at the beginning of MT to assess their quantitative skills. More information on the Parachuter's Exam can be found on the DV490, DV491 and/or DV492 Moodle page or from the course instructors.

**Teaching:** This course is delivered through a combination of lectures and seminars and pre-recorded videos in the MT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration.

Student on this course will have a reading week in Week 6.

**Formative coursework:** Weekly online quizzes provide formative feedback on student progress. In addition students are expected to complete weekly unassessed problem sets and come prepared to discuss them in seminars.

**Indicative reading:** The bulk of the course will be taught using journal articles. A reading list will be handed out by the lecturers at the beginning of their sessions. Useful reference texts include Mastering 'Metrics: the Path from Cause to Effect, by Angrist & Pischke, Princeton University Press (2014); and The Quest for Growth by W. Easterly, MIT Press (2001)

**Assessment:** Online assessment (70%) in January.

In-class assessment (30%) in the MT.

On-line assessment 70% is a 24 hour online exam.

**DV491 Half Unit****Economic Development Policy II: Microeconomic Analysis**

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Sandra Sequeira

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy, Technology and Health (Environmental Economics and Climate Change) (LSE and Peking University), MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students will be allocated places to courses with priority to ID and joint-degree students. If there are more ID and joint-degree students than the course can accommodate, these spots will be allocated randomly.

Non-ID/Joint Degree students will be allocated to spare places by random selection with the preference given first to those degrees where the regulations permit this option.

**Pre-requisites:** Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development (DV490) or equivalent background in statistics and economics.

For students without strong skills in economics and statistics DV490 constitutes the foundational prerequisite for DV491 in the Lent term. Students without a (very) strong background in economics and statistics are highly recommended to take both DV490 and DV491 and consider them together as a full 1 course. Our experience is that the majority of students benefit most from a minimum of a full academic year of repeated practice and exposure to the techniques covered to develop their intuition and ability, and students who take only the first half unit with thus be at a distinct disadvantage. In addition, while DV490 will build a foundational knowledge, DV491 will cover additional empirical approaches more commonly employed in micro-development economics, as well as providing an introduction to statistical programming in STATA, thus rounding out students' exposure to empirical methods more fully.

Students who would like to take DV490 or DV491 in isolation

are invited to take a "Parachuter's Exam" at the beginning of MT to assess their quantitative skills. More information on the Parachuter's Exam can be found on the DV490 and/or DV491 Moodle page or from the course instructors.

**Course content:** This course examines the microeconomic foundations of economic policy-making in developing countries. Classes will combine economic theory and rigorous empirical analysis to better understand the impact of economic development policy on development goals. We will focus on specific examples chosen from development cases worldwide to learn which policies have worked, which ones have not, and how a rigorous analysis of these experiences can inform the design of better economic development policies in the future.

The course is structured around three main themes:

(i) Human Development: health policy, education policy and intra-household dynamics

(ii) Institutions and Markets: labour markets, state capacity for public service delivery and private sector development.

(iii) Behavioural Economics and Development Policy Design: the importance of psychology in explaining economic behaviour and how it can inform better development policy design

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be 90 minutes duration and lectures will be 120 minutes duration. There will also be a weekly Econometrics workshop in the LT.

Student on this course will have a reading week in Week 6.

Duflo, Esther, and Petia Topalova. (2004) "Unappreciated Service: Performance, Perceptions, and Women Leaders in India."

**Assessment:** Exam (70%, duration: 2 hours) in the summer exam period.

In-class assessment (30%) in the LT.

## DV492 Half Unit

### Economic Development Policy III: Government Policy Analysis

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Joana Naritomi CON.6.12

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy, Technology and Health (Environmental Economics and Climate Change) (LSE and Peking University), MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course is available to MSc and MPA students from throughout the LSE subject to space constraints; specifically we reserve the right to limit enrolment of students from outside the Department of International Development.

Entry onto the course might be limited at the discretion of the instructor.

**Pre-requisites:** 'DV490 Economic Development Policy I: Applied Policy Analysis for Macroeconomic Development' or equivalent.

**Course content:** This course explores key issues in government policies in developing countries. The course will draw on specific examples chosen from development cases worldwide to learn which policies have worked, which ones have not, and how a rigorous analysis of these experiences can inform the design of better economic development policies in the future. It begins introducing concepts from public economics to discuss the scope and impacts of government interventions. In particular, the course will cover issues related to market failures, redistribution, public goods and externalities. The course will also discuss theoretical and empirical work on the economic consequences of government interventions, with particular focus economic incidence, efficiency trade-offs and unintended consequences of policies. In the second part, it focuses on challenges in raising government revenue and delivering public service in the developing world context, where limited state and fiscal capacity impose important constraints in policymaking. Beyond these topics, the course will provide background on relevant analytical tools in quantitative research, and develop skills to interpret empirical evidence in development economics.

Coursework will include a combination of class discussions, problem sets, presentations and computer-lab based sessions for students to explore programming and statistical skills.

Students are strongly encouraged to take DV491, as a highly complementary course that will also apply the empirical methods taught in DV490 to topics in Human Development, Institutions and Markets, Social Networks, Economic History and Cultural Economics, and Behavioural Economics and Development Policy Design.

**Teaching:** This course is delivered through a combination of lectures and seminars in the LT. Seminars will be at or upwards of 45 minutes duration and lectures will be at or above 60 minutes duration. There will also be a revision session in the LT or early ST. Student on this course will have a reading week in Week 6.

**Formative coursework:** Students will be expected to produce 1 problem sets and 1 exercise in the LT.

**Indicative reading:**

## DV494 Half Unit Not available in 2022/23

### Foundations of Applied Econometrics for Economic Development Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Sandra Sequeira, Dr Joana Naritomi and Dr Diana Weinhold

**Availability:** This course is available on the MSc in Anthropology and Development, MSc in Anthropology and Development Management, MSc in Development Management, MSc in Development Studies, MSc in Environment and Development, MSc in Environmental Economics and Climate Change, MSc in Health and International Development, MSc in International Development and Humanitarian Emergencies, MSc in Political Economy of Late Development and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Course content:** The purpose of DV494 is to prepare a broad range of students to consume and critically engage with modern quantitative policy analysis at the level of applied papers from top Economics journals. In particular students will engage with the challenges of causal inference in both experimental and non-experimental settings in which issues of omitted variables, reverse causality, and selection bias must be addressed. We first establish the basic intuition behind regression analysis and then learn through examples how this tool can be deployed for causal identification using such techniques as panel data estimation with fixed effects, difference-in-differences, instrumental variables, regression discontinuity designs, and randomized controlled trials (RCTs). The emphasis will be on developing rigorous intuition rather than technical details; we focus on teaching students from a broad range of backgrounds to understand and critically consume high-level applied research in a sophisticated manner. A running theme throughout the course is to show students how theory and empirical design work together to further knowledge in practice -

not just in a sterile, text-book environment.

**Teaching:** 15 hours of lectures, 10 hours and 30 minutes of seminars and 4 hours and 30 minutes of computer workshops in the MT.

**Formative coursework:** Students will be expected to produce 2 problem sets, 4 exercises and 10 quizzes in the MT.

**Indicative reading:**

- Angrist, Joshua D., and Jörn-Steffen Pischke. *Mastering Metrics: The Path from Cause to Effect*. Princeton University Press, 2014.
- Cunningham, Scott. *Causal inference: The mixtape*. Yale University Press, 2021.
- Duflo, Esther, Rachel Glennerster, and Michael Kremer. 2008. "Using Randomization in Development Economics Research: A Toolkit." Vol. 4. T. Schultz and John Strauss, eds., *Handbook of Development Economics*. Amsterdam and New York: North Holland

**Assessment:** Problem sets (30%) and exercise (10%) in the MT. Take-home assessment (60%) in January.

---

## DV495 Not available in 2022/23

### Dissertation in Economic Development Policy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Joana Naritomi, Dr Sandra Sequeira and Dr Diana Weinhold

**Availability:** Core course for MSc Economic Development Policy  
**Pre-requisites:** Students must have completed Foundations of Applied Econometrics for Economic Development Policy (DV494).

**Course content:** DV495 will build on DV494 to teach students how to develop a quantitative research project in development economics. It will cover micro-econometrics, causal analysis, data visualization and research design. The course will include workshops to teach programming languages commonly used in econometrics. The objective is to enable students (a) to critically assess the quality and validity of development economics research; including analyses they will read in their courses and for their dissertation; and (b) to independently design their own research proposal. Students will learn about the challenges of research design, including how to generate a research question and how to select a research method, the relative strengths and weaknesses of alternative research methods, and some of the practical and ethical dos and don'ts of doing fieldwork. Students will then apply these skills to prepare for and write an original dissertation.

**Teaching:** 15 hours of lectures, 6 hours of seminars and 4 hours of computer workshops in the LT.

**Formative coursework:** Students will be expected to produce 1 essay in the LT and 1 essay in the ST.

The course will have the following formative assessments:

- Research proposal in-class presentation: each student will perform one in-class presentation during seminar meetings in order to get peer feedback and oral feedback from the course convenors. The presentations will take place towards the end of LT to allow time for students to develop their proposals.
- Problem sets with STATA: there will be bi-weekly problem sets with STATA.

These two formative assessments will provide them with skills and feedback to write their research proposals and pursue their research paper projects. They will also be relevant data for course convenors to assess which areas may need strengthening.

**Indicative reading:**

- Angrist, Joshua D., and Jörn-Steffen Pischke. *Mastering Metrics: The Path from Cause to Effect*. Princeton University Press, 2014.
- Angrist, Joshua D., and Jörn-Steffen Pischke. *Mostly harmless econometrics: An empiricist's companion*. Princeton university press, 2008.
- Asiedu, Edward, et al. *A Call for Structured Ethics Appendices in Social Science Papers*. No. w28393. National Bureau of Economic Research, 2021.

- T. Schultz and John Strauss, eds., Handbook of Development Economics. Amsterdam and New York: North Holland, 4

**Assessment:** Research paper (70%) in August.

Research proposal (30%) in the LT.

## EC400

### Introductory Course in Mathematics and Statistics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Francesco Nava, Dr Dimitry Mukhin, Ragvir Sabharwal

**Availability:** This course is compulsory on the MRes/PhD in Accounting (EoA) (Economics of Accounting Track), MRes/PhD in Economics, MRes/PhD in Economics and Management, MRes/PhD in Finance, MRes/PhD in Quantitative Economic History, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Economics and Management, MSc in Economics and Philosophy, MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway) and MSc in Quantitative Economic History. This course is available on the MPhil/PhD in Economic Geography, MPhil/PhD in Environmental Economics, MRes/PhD in International Development, MSc in Political Science and Political Economy and Master of Public Administration. This course is available with permission as an outside option to students on other programmes where regulations permit.

Students on the MRes/PhD in Economics may be exempted from EC400 at the Department's discretion.

Master of Public Administration students may only apply to take EC400 at the beginning of their second year.

**Outside applications for EC400 must be made to the Department of Economics by Sunday 26 June. This applies to offer holders/students who do not have any EC4XX courses listed in their programme regulations for which EC400 is a pre-requisite. Please contact [econ.msc@lse.ac.uk](mailto:econ.msc@lse.ac.uk) for more information.**

Students not on the compulsory programmes listed above who wish to continue studying Economics MSc-level courses must achieve an overall grade of 50% in EC400 with no one subject exam less than 40%. Non-MRes students wishing to study MRes-level courses must achieve an overall grade of 70% with no one subject exam less than 60%.

**Pre-requisites:** EC400 is an introduction to MSc level concepts in mathematics and statistics, and an undergraduate level understanding is assumed. EC400 is not intended as an introduction for students with little or no economics/mathematics background.

**Course content:** The aim of this introductory course is to provide students with the essential mathematical, statistical, economic, and econometric background for the core Economics courses of these programmes. The course starts with Mathematics Revision sessions and progresses to sections covering Static Optimization & Fixed Points, Dynamic Optimization & Differential Equations, and Probability & Statistical Inference. MSc Finance and Economics students are required to take all three sections of the course. MSc Economics and Management students attend lectures on literacy in accounting instead of the Dynamic Organisation & Differential Equations section but will attend the section on Static Optimisation & Fixed Points, and the section on Probability & Statistical Inference.

**Teaching:** Approximately: 27.5 hours of lectures and 27.5 hours of classes.

**Formative coursework:** Students will be required to complete daily sets of self-testing exercises during the course.

**Indicative reading:** Students will be advised of recommended readings and preparation materials in the summer.

**Assessment:** At the end of the course, students on MSc Management and Economics are examined on: Static Optimization & Fixed Points and Probability & Statistical Inference; but not on Dynamic Optimization & Differential Equations. All other students are examined on: Static Optimization & Fixed Points; Dynamic Optimization & Differential Equations; and Probability & Statistical Inference.

## EC402

### Econometrics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Vassilis Hajivassiliou, Ragvir Sabharwal, Dr Rachael Meager

**Availability:** This course is compulsory on the MRes/PhD in Accounting (EoA) (Economics of Accounting Track), MSc in Economics and MSc in Economics (2 Year Programme). This course is available on the MPhil/PhD in Environmental Economics, MSc in Economics and Philosophy and MSc in Quantitative Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

Students should also have completed an undergraduate degree or equivalent in Economics and an introductory course in Econometrics.

In very exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via an online\* face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information ([econ.msc@lse.ac.uk](mailto:econ.msc@lse.ac.uk)).

**Course content:** The course aims to present and illustrate the techniques of empirical investigation in economics.

- Regression models with fixed regressors (simple and multiple). Least squares and other estimation methods. Goodness of fit and hypothesis testing.
- Regression models with stochastic regressors.
- Asymptotic theory and its application to the regression model. Sampling error vectors. Large sample approximations.
- The partitioned regression model, multicollinearity, misspecification, omitted and added variables, measurement errors.
- Generalized method of moments.
- Maximum likelihood estimation.
- Heteroskedasticity, autocorrelation, and generalized least squares.
- Exogeneity, endogeneity, and instrumental variables. The leading causes of endogeneity.
- Nonlinear regression modelling
- Binary choice models and other Limited Dependent Variables models.
- An introduction to Non-classical econometric inference.
- Autoregressive and moving average representations of time series. Stationarity and invertibility.
- Ergodicity, Laws of Large Numbers, and Central Limit Theorems for Time Series
- Vector auto-regressions.
- Unit roots and co-integration.
- Estimating causal effects in panel data: differences in difference estimator, matching methods, and regression discontinuity.
- Panel data and static models: fixed and random effect estimators, clustering, specification tests.
- Panel data and dynamic models: generalized method of moments.

**Teaching:** 30 hours of lectures and 10 hours of seminars in the MT. 30 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or

classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum 80 hours across Michaelmas Term, Lent Term and Summer Term.

**Formative coursework:** Two marked assignments per term. Exercises are provided each week and are discussed in classes. In order to have any chance of completing the course successfully, these exercises must be attempted. Special test exercises will be set at three points during the year. These will be carefully marked and the results made available.

**Indicative reading:** W H Greene, *Econometric Analysis* (6th edn), James D. Hamilton, *Time Series Analysis* (1994), J Wooldridge, *Econometric Analysis of Cross Section and Panel Data* (2002), J Angrist and J Pischke, *Mostly Harmless Econometrics* (2009)

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the January exam period.  
Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

## EC411

### Microeconomics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Francesco Nava, Prof Martin Pesendorfer

**Availability:** This course is compulsory on the MPhil/PhD in Environmental Economics and MRes/PhD in Accounting (EoA) (Economics of Accounting Track). This course is available on the MPhil/PhD in Economic Geography, MRes/PhD in Management (Marketing), MRes/PhD in Quantitative Economic History, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Economics and Philosophy, MSc in Environmental Economics and Climate Change, MSc in Environmental Policy, Technology and Health (Environmental Economics and Climate Change) (LSE and Peking University), MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway) and MSc in Quantitative Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may enrol in the course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (at a face-to-face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information ([econ.msc@lse.ac.uk](mailto:econ.msc@lse.ac.uk)) regarding entry to this course.

**Course content:** The aim of the course is to develop the basic tools for analysing problems of resource allocation used by economists working in research, government and business. The course deals with positive and normative problems. It aims to include modern developments without being overly mathematical, and to develop a capacity to apply economic concepts to real-world problems. The first part of the course focuses on classical theories of market behaviour and strategic interaction. We begin by presenting foundations to utility maximization, by analysing the optimisation problems of price-taking consumers and firms, and by modelling market interactions and the formation of prices in perfectly competitive markets. Then we study models of decision making under uncertainty and game theoretic solution concepts. Novel developments in these fields are also discussed in lectures. The second part of the course focuses on models of imperfect competition and information economics. We begin with an analysis of models of monopoly, oligopoly, product differentiation, and public goods. Then, we study markets with imperfect and incomplete information including search, adverse selection, auctions, signalling, screening, and moral hazard. Special emphasis will be given to economic applications.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour

of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term and Summer Term.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** The course will draw on a variety of texts, the main ones being:

1 J G Riley, *Essential Microeconomics*, Cambridge.

2 J R Green, A Mas-Colell & M D Whinston, *Microeconomic Theory*, Oxford.

More detailed readings will be given at the beginning of the course. Some notes will be provided where textbook coverage is inadequate.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

## EC413

### Macroeconomics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Alwyn Young, Prof Matthias Doepke

**Availability:** This course is compulsory on the MSc in Economics and MSc in Economics (2 Year Programme). This course is available on the MRes/PhD in Quantitative Economic History, MSc in Economics and Philosophy, MSc in Finance and Economics, MSc in Finance and Economics (Work Placement Pathway) and MSc in Quantitative Economic History. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners, the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information ([econ.msc@lse.ac.uk](mailto:econ.msc@lse.ac.uk)) regarding entry to this course.

**Course content:** The aim of the course is to give a wide-ranging overview of modern macroeconomics.

**Economic growth (Michaelmas)**

The Michaelmas term of EC413 is an introduction to the techniques needed to critically read and evaluate academic research in economic growth. Topics are facts about growth, the Solow growth model (theory and empirics), the Neoclassical Growth model (growth with dynamic optimization), and endogenous technical change.

**Business Cycles (Lent)**

During the Lent part of EC413 you will learn the main characteristics of business cycle fluctuations with a special emphasis on what happens during severe economic crises. We will consider a range of different macroeconomic models to study business cycles. The course covers the Real Business Cycle model, the New-Keynesian model, models with frictions in labour and financial markets, agent-based models, the role of money, self-fulfilling beliefs, the role of monetary and fiscal policy (and in particular non-conventional monetary policy), and (un)sustainable sovereign debt. These models and policy studies will highlight important economic mechanisms that are relevant to analyse a range of past and current economic phenomena.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term,

Lent Term, and Summer Term.

**Formative coursework:** Two marked assignments per term. Exercises are discussed in each class.

**Indicative reading:** Primary reading will be journal articles and a few chapters from Daron Acemoglu, *Introduction to Modern Economic Growth*. A full list will be available at the start of each term.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

## EC417

### Advanced Macroeconomics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jane Olmstead-Rumsey, Dr Maarten De Ridder

**Availability:** This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is not available as an outside option.

**Pre-requisites:** Students must have completed Introductory Course for MSc EME (EC451).

**Course content: Course objectives and main course elements:**

1. The course will teach you the concepts used in empirical and theoretical macroeconomics.
2. The course will teach you the main empirical business cycle characteristics of developed economies and the main empirical findings regarding the growth of developed and less developed nations.
3. This course teaches you the main techniques used to analyse modern macroeconomics models. In particular, the course will focus on techniques such as dynamic programming, value function iteration, and the linearization of first-order conditions.
4. This course teaches you (prototype versions of) macroeconomic models used to analyse key questions related to business cycles and economic growth. Examples are New Keynesian models, Real Business Cycle models, the Solow growth model, and endogenous growth models.
5. The course will also discuss some more advanced models that have recently been developed to explain recent economic events, including models with heterogeneous agents, microeconomic shocks and labour market frictions.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

Some of the problem sets will consist of computer and data assignments and students will be taught some basic programming and data analysis skills.

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term and Summer Term.

**Formative coursework:** Students are assigned problem sets. These problem sets focus on key elements of the lectures, but they will also promote creativity and critical thinking by going beyond the material explicitly discussed in the lectures. There will also be computer assignments. The problem sets will be discussed by the class teachers.

**Indicative reading:**

- Acemoglu, Daron, 2009, *Introduction to Modern Economic Growth*.
- Ljungqvist, Lars and Thomas J. Sargent, 2012, *Recursive Macroeconomic Theory*.
- Stokey, Nancy L. and Robert E. Lucas Jr., 1989, *Recursive Methods in Economic Dynamics*.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Exam (50%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

## EC421

### International Economics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Thomas Sampson, Dr Dimitry Mukhin

**Availability:** This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** A graduate course in international economics consisting of i) the fundamentals of trade theory and its application to policy and ii) international macroeconomics.

Trade: Comparative advantage and the gains from trade. Theories of comparative advantage. Factor endowments, the international location of production, and patterns of international trade.

Empirical tests of trade models. Trade and the labour market. Intra-industry trade. Firm heterogeneity and selection into trade. Foreign direct investment. General equilibrium trade policy.

International macroeconomics: Intertemporal trade and the current account balance. Dynamics of small open economies. The real exchange rate and the terms of trade. Uncertainty and international financial markets. Monetary model of exchange rate determination: flexible and sticky prices. Introduction to currency crises models.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term and Summer Term.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** A full reading list will be distributed at the beginning of the course. Some important items are: R Feenstra, *Advanced International Trade: Theory and Evidence*, Princeton, 2004; A Dixit & V Norman, *Theory of International Trade*, Cambridge, 1980; E Helpman & P Krugman, *Market Structure and Foreign Trade*, MIT, 1985; M Obstfeld & K Rogoff, *Foundations of International Macroeconomics*, MIT Press, 1996.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.

## EC423

### Labour Economics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Guy Michaels, Dr Rui Costa

**Availability:** This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners, the MSc Economics Programme Director and their own Programme

Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** An advanced course in labour economics issues, including theory, evidence and policy. The aim of the course is to familiarise students with main theoretical and empirical issues in current labour economics, and to provide them with the tools for developing independent research interests. The course has a strong applied focus. For each major topic covered we will discuss theoretical implications, provide insights into the research methodology, discuss the advantages and limitations of existing empirical work, and where possible draw policy conclusions. The course will include hands-on experience in applying econometric tools, working with data, and thinking critically about results and their interpretation. Topics include: labour supply and welfare systems, human capital, immigration, inequality and technological change, unemployment and alternative work arrangements, gender and racial gaps, minimum wages, intergenerational mobility, labour market impacts of international trade and globalization and economics of crime.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term and Summer Term.

**Formative coursework:** At least two marked assignments per term.

**Indicative reading:** Most of the reading is from journal articles. A detailed reading list is available on Moodle.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.

---

## EC424

### Monetary Economics and Aggregate Fluctuations

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Kevin Sheedy. Dr Ambrogio Cesa-Bianchi

**Availability:** This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** The course aims to develop the student's ability to undertake research in macroeconomics by studying a number of current issues both theoretical and applied.

In MT, we begin by studying money's role as a medium of exchange and the determination of the price level using money-in-the-utility-function and cash-in-advance models. We then look more carefully at the reasons for holding money by applying search theory. We also study money's role as a unit of account and the consequences of nominal rigidities such as sticky prices. We analyse the costs of inflation and optimal monetary policy, and we also look at unconventional monetary policies when a central bank is constrained by the interest-rate lower bound. Finally, we study firms' price-setting behaviour in more detail and its implications for the size of the real effects of monetary policy.

In LT, we discuss the causes and consequences of business cycles and how government policies can affect them. Specifically, we study in the different tools that central banks have to their disposal these days to control inflation, financial stability, and economic activity.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term and Summer Term.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** A reading list will be handed out by the lecturers at the beginning of their sessions.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.

---

## EC426

### Public Economics

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Frank Cowell, Prof Camille Landais Prof Xavier Jaravel

**Availability:** This course is available on the LLM (extended part-time), LLM (full-time), MPhil/PhD in Environmental Economics, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Environmental Economics and Climate Change, MSc in Environmental Policy, Technology and Health (Environmental Economics and Climate Change) (LSE and Peking University), MSc in International Health Policy (Health Economics) and University of Pennsylvania Law School LLM Visiting Students. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** A graduate course in the principles of public economics and topics in public economics. Principles of public economics cover: Welfare analysis; concepts of fairness, equity and efficiency; social welfare. Policy design: social insurance, income taxation. Taxation; household and firm behaviour. Public goods and externalities. Behavioural public economics; implications for welfare analysis and policy. Topics in public economics may include: Behavioural responses to taxation. Empirical strategies in public economics. Poverty, inequality and optimal low-income support. Compliance problems. Inheritance and wealth taxation.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term, and Summer Term.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** Most of the readings will be in the form of journal articles, but some use will also be made of the following texts: A Auerbach & M S Feldstein (Eds), Handbook of Public Economics, Vols I-III, North-Holland; A B Atkinson & J E Stiglitz,

Lectures on Public Economics, McGraw-Hill, 1980; G Myles, Public Economics, Cambridge University Press, 1995.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.  
Essay (50%, 6000 words) in the ST.

## EC427

### The Economics of Industry

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Pasquale Schiraldi, Prof Mark Schankerman

**Availability:** This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** The course examines the theory of firm behaviour and strategic interaction in both price and non-price dimensions. Topics covered include the econometric estimation of continuous and discrete differentiated product demands, estimation of conduct, merger analysis, information and search, entry models and the role of sunk costs, advertising, estimation of production functions and productivity, single and multi-product monopoly, vertical and horizontal contracts, regulation of "natural" monopoly, theory of the firm and ownership, strategic competition and entry deterrence, horizontal and vertical product differentiation, and predatory pricing. Both theoretical and empirical contributions are studied, with their implications for competition policy issues.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term, and Summer Term.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** Two books which provide coverage of topics are Jean Tirole, Theory of Industrial Organization (MIT Press 1989) and John Sutton, Technology and Market Structure (MIT Press 1998). A full reading list will be supplied at the beginning of each term in the course.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.  
Essay (50%, 6000 words) in the ST.

## EC428

### Development and Growth

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Maitreesh Ghatak, Dr Gharad Bryan

**Availability:** This course is available on the MSc in Development Studies, MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Environmental Economics and Climate Change and MSc in Environmental Policy, Technology and Health (Environmental Economics and Climate Change) (LSE and Peking University).

This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

Students should have completed courses in intermediate level microeconomics, macroeconomics and econometrics.

**Course content:** This course will cover a number of topics at forefront of development economics, combining theoretical and empirical analysis with a clear focus on policy implications. These include economic growth, poverty traps, inequality and occupational choice, credit markets, microfinance, property rights, land markets current methodological debates; the allocation of capital and labour across firms, space and sectors; structural change during the development process; finance; psychology and development; governance and accountability; conflict and civil war; motivation of civil servants; taxation and development; firms and markets; trade; infrastructure; energy and the environment; and climate change.

Development economics is, arguably, the fastest growing and most vibrant field within economics. The course will enable the students to apply their econometric and theoretical skills to what are some of the world's most pressing problems. The experience of applying their economic knowledge to these topics will generate analytical skills that can be used in wide variety of applied settings.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term, and Summer Term.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** Most of the reading is from journal articles which appear on reading lists distributed at the start of each part of the course.

However, the following references may serve as an introduction to material included in the syllabus.

D Ray, Development Economics, Princeton UP, 1998, Abhijit Banerjee and Esther Duflo's Poor Economics, New York: Public Affairs, 2011, and the symposium on The Agenda for Development Economics - Journal of Economic Perspectives Volume 24, Number 3, Summer 2010: Articles by Deaton, Acemoglu, Ray, Rodrik, and Rosenzweig.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.  
Essay (50%, 6000 words) in the ST.

## EC441

### Microeconomics for MRes students

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Balazs Szentes 32L.4.05, Dr Andrew Ellis 32L.3.15 and Prof Daniel Gottlieb MAR.6.25

**Availability:** This course is compulsory on the MRes/PhD in Economics, MRes/PhD in Economics and Management and MRes/PhD in Finance. This course is not available as an outside option.

**Pre-requisites:** A good undergraduate knowledge of economic theory and calculus is required.

**Course content:** The aim of the course is to:

- i. introduce the basic analytical tools that are necessary to conduct theoretical research in many fields in economics.
- ii. give the students a full understanding of the classic Microeconomic Theory and of the modern developments of Microeconomic Theory
- iii. enable students to address a microeconomic problem by structuring it as a mathematical model and enhance the understanding of economic issues through the use of mathematical tools.

Topics include: consumer theory, producer theory, general equilibrium, welfare, choice under uncertainty, game theory, economics of information, agency theory, contracts, topics in mechanism design.

**Teaching:** 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT. 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT. Attendance at classes is compulsory.

**Formative coursework:** Compulsory exercises are set for each class. A mock exam will take place in early LT.

**Indicative reading:** The main text is Mas-Colell, Whinston & Green, *Microeconomic Theory*, OUP.

Other sources include:

D Fudenberg & J Tirole, *Game Theory*, MIT Press; D M Kreps, *A Course in Microeconomic Theory*, Harvester Wheatsheaf; H R Varian, *Microeconomic Analysis* (3rd edn), Norton; G J Osborne & A Rubinstein, *A Course in Game Theory*, MIT Press; M A Jehle & P J Reny, *Advanced Microeconomic Theory*, Longman.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

## EC442

### Macroeconomics for MRes students

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Benjamin Moll 32L.1.19, Dr Ethan Ilzetzki 32L.1.11 and Prof Ricardo Reis 32L.1.27  
Dr Mattias Doepke

**Availability:** This course is compulsory on the MRes/PhD in Economics, MRes/PhD in Economics and Management and MRes/PhD in Finance. This course is not available as an outside option.

**Course content:** The course will cover topics in advanced macroeconomics with emphasis on fundamentals and applications to recent theoretical advances:

- i. Economic growth: Neoclassical Growth Model, Optimizing Behaviour in dynamic models under certainty, Endogenous Technological Change, Imitation and Convergence, Growth and Development Accounting, Appropriate Technology.
- ii. Search and Matching: The Matching Model, Efficiency Wages, Growth and Unemployment.
- iii. Dynamic Stochastic General Equilibrium Models : Real Business Cycles, applications to models of heterogeneous agents and open economy. Fiscal policy analysis.
- iv. Monetary Economics: models with credit frictions, sticky prices, search.

**Teaching:** 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT. 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT. Attendance at classes is compulsory.

**Formative coursework:** Compulsory exercises are set for each class. A mock exam will take place in early LT.

**Indicative reading: A good general textbook that is mostly below the level of the course is:**

D Romer, *Advanced Macroeconomics*, McGraw-Hill Advanced Series in Economics, New York, 1996.

**For the growth part the main references are the textbooks by:**

D. Acemoglu, *Introduction to Modern Economic Growth*, Princeton University Press, 2009; R J Barro & X Sala-i-Martin, *Economic Growth*, McGraw-Hill, 1997.

Other useful texts include:

L Ljungqvist & T Sargent, *Recursive Macroeconomic Theory*, MIT Press, 2000; N Stokey & R E Lucas, *Recursive Methods in Economic Dynamics*, Harvard University Press, 1989.

**More economic applications, with some required readings can be found in:**

M Obstfeld & K Rogoff, *Foundations of International Macroeconomics*, MIT Press, 2000; P Aghion & P Howitt, *Endogenous Growth Theory*, MIT Press 1998; C A Pissarides,

*Equilibrium Unemployment Theory*, MIT Press 2000.

References for recent theoretical advances published in the journals will be given during the course.

**Assessment:** Exam (75%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

Problem sets (25%) in the MT and LT.

## EC443

### Econometrics for MRes students

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Yike Wang 32L.4.26, Prof Taisuke Otsu 32L.4.25, Prof Francisco Hidalgo 32L.4.20 and Prof Jorn Pischke 32L.2.16

**Availability:** This course is compulsory on the MRes/PhD in Finance. This course is available on the MRes/PhD in Economics, MRes/PhD in Economics and Management and MRes/PhD in Management (Marketing). This course is not available as an outside option.

**Pre-requisites:** Students should have completed an undergraduate level course in econometrics and statistical theory. Linear algebra and multivariate calculus will be used frequently.

**Course content:** This course consists of two parts, the core and topics parts. All students must follow the core part of the course for 13 weeks (MT Weeks 1-10 and LT Weeks 1-3), and then select between one of two streams for 7 weeks (LT Weeks 4-10).

The core part of the course begins with a review of linear regression analysis. It proceeds with discussions on linear instrumental variable (IV) regression, generalised method of moments (GMM), panel data analysis, nonparametric methods, and treatment effect analysis. Then it discusses estimation and inference on general nonlinear models including various limited dependent variable models. It also covers basics of time series analysis. Finally, additional topics such as bootstrap, quantile regression, and machine learning are also covered.

In the second part of the course, students select to be examined in one of two streams [though students may attend the lectures of both streams if they wish].

Stream 1 discusses various macroeconomic applications of econometrics methods covered in the core part, multivariate time series analysis including vector autoregression and impulse response analysis, Bayesian methods, and related computational methods. Then it discusses nonstationary time series, cointegration, inference with long memory data, nonlinear time series analysis including GARCH, stochastic volatility, and threshold models, and introduction to frequency domain analysis. Stream 2 focuses on programme evaluation methods frequently used in applied microeconomics. It discusses issues arising in regression control, instrumental variables, differences-in-differences and fixed effects methods, regression discontinuity designs, and statistical inference. Throughout, the discussion are supported by many empirical applications.

**Teaching:** 30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT.

30 hours of lectures and 15 hours of classes in the MT. 30 hours of lectures and 15 hours of classes in the LT. This course is delivered through a combination of classes and lectures totalling a minimum of 90 hours across Michaelmas Term and Lent Term. Attendance at lectures and classes is compulsory.

**Formative coursework:** Compulsory exercises are set for each class.

**Indicative reading:** Course material will be made available through the course Moodle page. Please note there is no set book for this course.

Recommended books are:

J. M. Wooldridge, *Econometric Analysis of Cross Section and Panel Data*, 2010

B. Hansen, *Econometrics*, 2022

J. Angrist and J. S. Pischke, *Mostly Harmless Econometrics*, 2009

F. Hayashi, *Econometrics*, 2000

T Amemiya, *Advanced Econometrics*, Harvard University Press, 1985;

P. J. Brockwell and R. A. Davis, *Time series: Theory and methods*, 2006

W. A. Fuller, *Introduction to Statistical Time Series*, 1976.

**Assessment:** Exam (100%, duration: 3 hours, reading time: 15 minutes) in the summer exam period.

## EC451

### Introductory Course for MSc EME

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Yike Wang, Prof Michele Piccione, Prof John Moore, Prof Javier Hidalgo

**Availability:** This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is not available as an outside option.

The course is split into three parts: Microeconomics, Macroeconomics and Econometrics.

Non-EME students wishing to take EC487 Advanced Microeconomics as part of their programme must attend Week 1 of the EC451 course, Microeconomics, and sit the EC451 Microeconomics examination.

Non-EME students wishing to take EC484 Econometric Analysis as part of their programme must attend Week 3 of the EC451 course, Econometrics, and sit the EC451 Econometrics examination.

Non-EME students are not permitted to attend Week 2 of the EC451 course, Macroeconomics.

#### **Course content: Microeconomics (Week 1):**

This section focuses on microeconomic theory and introduces the economic concepts of choice, preference, and utility, including a discussion of the revealed-preference approach. It describes the consumer's problem and investigates the properties of its solutions. It discusses how social preferences can sensibly be aggregated. The course will also cover some basic real analysis, correspondences, and fixed-point theorems.

#### **Macroeconomics (Week 2):**

The prequel of the advanced macroeconomics core course focuses on topics in modern macroeconomic theory, starting with basic national income accounting and the real-business cycle model. Then sticky prices. Followed by matching frictions in the labour market. Finally credit market imperfections.

#### **Econometrics (Week 3):**

Day 1-4 (Dr Yike Wang): This part introduces basic concepts and theory for mathematical statistics and probability. This part mostly focuses on linear regression model and covers the topics, such as (i) Conditional expectation and projection, (ii) Algebra of least squares, (iii) Finite sample theory, (iv) Maximum likelihood (v) Introduction to asymptotic theory, and (vi) Hypothesis testing. Also, some background mathematical results are reviewed.

Day 5 (Prof Hidalgo): Last day is devoted to introduction to MT part of EC484. Further concepts and results on convergence of variables are discussed.

**Teaching:** The course is taught in September. It consists of approximately 45 hours of lectures and an additional 22 hours of classes, across a 3-week period. Lectures and classes will be delivered online through a mix of interactive live sessions and pre-recorded content.

**Formative coursework:** After each lecture, some exercises will be handed to students. They will be solved during the classes.

**Indicative reading:** Prof Bruce Hansen's lectures note at University of Wisconsin-Madison (1st year PhD level), downloadable at: <https://www.ssc.wisc.edu/~bhansen/econometrics/>. <https://www.ssc.wisc.edu/~bhansen/probability/>.

(The first link is the main reference, and the second link is a background for the course.)

Rubinstein (2012) *Lecture Notes in Microeconomic Theory*.

Ljungqvist, Lars and Thomas J. Sargent (2012) *Recursive Macroeconomic Theory*.

Romer, David (2011) *Advanced Macroeconomics*.

**Assessment:** At the end of the course, students will be examined on all three modules, microeconomics, econometrics and macroeconomics.

Students from programmes other than MSc EME wishing to continue studying MSc EME core courses must achieve at least 40% in each subject exam.

## EC453

### Political Economy

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Stephane Wolton

**Availability:** This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Environmental Economics and Climate Change, MSc in Environmental Policy, Technology and Health (Environmental Economics and Climate Change) (LSE and Peking University) and MSc in Political Science and Political Economy. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information ([econ.msc@lse.ac.uk](mailto:econ.msc@lse.ac.uk)) regarding entry to this course.

Students should have completed courses in intermediate level microeconomics, macroeconomics and econometrics.

**Course content:** This course proposes a broad overview of seminal papers and recent advances in the growing field of Political Economy. The course covers both theoretical and empirical works. Each lecture is organized around a theme, with themes changing every year as a function of recent debates in the scholarly community and current problems in the world. In the academic year 2022-23, topics will include elections in developed and developing democracies, the political affect of media online and offline, interest groups, populism, democratic backsliding, discrimination, as well as several lectures on politics in autocracies. The course material will expand students' capacity to think about policy and about relevant issues at the intersection of economics and political science.

**Teaching:** 22 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term and Summer Term.

There will be a mock exam and a revision session in the first week of ST (on-campus if possible or online).

**Formative coursework:** At least two written assignment for handing in per term (assignment will include some work with data sets provided by the instructor).

**Indicative reading:** Most of the reading is from journal articles; lists will be supplied at the start of each term. Two books are of particular interest for students to get started: T Besley, *Principled Agents? Selection and Incentives in Politics*, Oxford University Press, 2005 and T Persson & G Tabellini, *Political Economics: Explaining Political Outcomes*, MIT Press, 2000.

**Assessment:** Assessment path 1

Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.

Assessment path 2

Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Students taking MSc Economics must take Assessment path 1 and will be required to submit the extended essay at the beginning of the ST.

## EC465

### Economic Growth, Development, and Capitalism in Historical Perspective

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Jeremiah Dittmar, Dr Neil Cummins

**Availability:** This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Economic History, MSc in Economics and MSc in Economics (2 Year Programme).

This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

Students should also have completed courses in intermediate level microeconomics, macroeconomics, and econometrics.

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** This course will provide a rigorous introduction to the analysis of long run economic growth and development.

The focus is on acquiring the necessary empirical skills to engage in advanced analysis of economic evidence, and to develop an understanding of how historical evidence can shape and inform economic theory. Topics at the forefront of economics and economic history will be covered. These include political economy, technological change, economic growth, education, demography, the economics of law and property rights, gender, culture, and the distribution of income. The emphasis will be on combining theory and data to evaluate fundamental ideas in economics concerning the determinants of well-being and the dynamics of market economies.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term, and Summer Term.

There will be a reading week in Week 6 of LT only (no lectures or classes that week)

This course is jointly delivered by the Economics and Economic History Department.

**Formative coursework:** Students will be expected to produce at least 1 presentation and 1 exercise in the MT and LT. The formative coursework will consist of a combination of student presentations, written exercises, data analysis, and problems.

**Indicative reading:** Most of the reading is from journal articles which appear on reading lists distributed at the start of each part of the course. However, the following references may serve as an introduction to material included in the syllabus: Nunn, "The Importance of History for Economic Development" (2009); Robinson and Acemoglu, "Why Nations Fail" (2012); Acemoglu, "Introduction to Modern Economic Growth" (Princeton, 2009); Hall and Jones, "The New Kaldor Facts: Ideas, Institutions, Population, and Human Capital" (2010); Mokyr, "Lever of Riches" (1988); Piketty (2013) "Capital in the Twenty-First Century"; Diamond (1997) "Guns, Germs and Steel".

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.

The summative assessment consists of an exam that reviews and synthesises all course materials and an essay. The essay will

be a critical analytic essay providing an opportunity for original empirical research.

## EC475

### Quantitative Economics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Michael Gmeiner (Michaelmas term)

Dr Xavier Jaravel (Lent term)

**Availability:** This course is available on the MSc in Econometrics and Mathematical Economics and MSc in Economics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course for MSc EME (EC451) and Introductory Course in Mathematics and Statistics (EC400).

Knowledge of econometric theory and applied econometrics is expected. Students must be prepared to read journal articles with difficult mathematical and statistical content.

**Course content:** The course will focus on going through modern quantitative papers which demonstrate the application of econometric techniques to modelling the behaviour of individual economic agents (households and firms) and economies. The first half of the course will focus on papers in the empirical literature on industrial organisation, labour economics, and a wide range of topics in applied micro-econometrics illustrating the challenges of identification in both structural and reduced form models. The focus of the content is on methods, however the papers covered as examples of those methods use data and study economic questions from a variety of countries and settings. A goal of the content is to provide a diverse view of economic research. The lectures will illustrate the interplay between models, data, and methods.

The second part of the course focuses on macroeconomic questions using data and tools from applied microeconomics. We cover four styles of empirical work: (1) "reduced-form" approaches (including difference-in-differences, event studies, instrumental variables, and Bartik research designs); (2) structural models; (3) "sufficient statistics" research designs, at the intersection of structural and reduced-form methods; and (4) machine learning techniques.

Topics covered include the effectiveness of fiscal stimulus, measurement of inflation, directed technical change, from trade, the macroeconomic impact of financial frictions over the business cycle, the macroeconomic impact of unemployment insurance, and the effect of Artificial Intelligence on the labour market.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term and Summer Term.

**Formative coursework:** During Michaelmas term and Lent term, students will work on their essay and receive feedback from the instructors (defining the research question, choosing a research design, etc.). Formative assignments in Michaelmas term will involve a project proposal and referee reports on papers that are discussed in seminars. In Lent term, formative assignments will move students toward creating a draft of the paper and providing feedback to peers.

**Indicative reading:** Articles in economic journals will be assigned at the start of Michaelmas and Lent terms. The course will also draw on methodological topics covered in Wooldridge, *Econometric Analysis of Cross Section and Panel Data* (2nd edition, 2010), Greene, *Econometric Analysis* (7th edition, 2012), and Angrist and Pischke, *Mostly Harmless Econometrics* (2009).

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.

## EC476

### Contracts and Organisations

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Gilat Levy, Prof Philippe Aghion

**Availability:** This course is available on the MSc in Econometrics and Mathematical Economics, MSc in Economics, MSc in Economics (2 Year Programme), MSc in Environmental Economics and Climate Change and MSc in Environmental Policy, Technology and Health (Environmental Economics and Climate Change) (LSE and Peking University). This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students on the MSc Econometrics and Mathematical Economics programme must have completed the Pre-sessional Course for MSc EME (EC451).

All other students must have completed the Introductory Course in Mathematics and Statistics (EC400).

In exceptional circumstances, students may take this course without EC400 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc Economics Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** The course will cover topics from: social learning, reputation and career concerns, strategic information transmission, contract theory, incomplete contracts, the economics of moral hazard and adverse selection in strategic settings, dynamic theory of incentive contracts, optimal auctions and regulation, and the theory of mechanism design with multiple agents (multiple agents screening and common agency).

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term, and Summer Term.

There will be a reading week in Week 6 of Lent Term only (no lectures or classes that week)

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** No one book covers the entire syllabus; a list of references will be provided at the start of the course. The following textbooks provide a treatment of part of the material presented in the course: Jean-Jacques Laffont, *The Economics of Uncertainty and Information*, MIT Press; D Fudenberg & J Tirole, *Game Theory*, MIT Press; Jean-Jacques Laffont & Jean Tirole, *A Theory of Incentives in Procurement Regulations*, MIT Press; Bernard Salanié, *The Economics of Contracts: A Primer*, MIT Press, Bolton, P., and M. Dewatripont (2005), *Contract Theory*, MIT Press, Hart, O. (1995), *Firms, Contracts, and Financial Structure*, Oxford University Press.

**Assessment:** Assessment path 1

Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Assessment path 2

Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Essay (50%, 6000 words) in the ST.

**MSc Econometrics and Mathematical Economics students must follow Assessment path 1.**

**Non-MSc Econometrics and Mathematical Economics students must follow Assessment path 2.**

## EC484

### Econometric Analysis

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Javier Hidalgo 32L.4.20 and Prof Taisuke Otsu 32L.4.25

**Availability:** This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is available on the MRes/PhD in Economics, MRes/PhD in Economics and Management and MSc in Applicable Mathematics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course for MSc EME (EC451).

EC451 takes place prior to the start of Michaelmas Term, please contact econ.msc@lse.ac.uk for more information.

**Course content:** This course gives an advanced treatment of the theory of estimation and inference for econometric models.

Part (a) Background; asymptotic statistical theory: modes of convergence, asymptotic unbiasedness, uniform integrability, stochastic orders of magnitude, convergence in distribution, central limit theorems, applications to linear regression, extensions to time series, consistency and asymptotic distribution of implicitly defined extremum estimators.

Part (b) General asymptotic theorems, nonlinear regression, quantile regression, nonparametric methods (kernel and series methods), generalized method of moments, conditional moment restriction, many and weak instruments, limited dependent variables, treatment effect, bootstrap, and time series.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term and Summer Term.

**Formative coursework:** Two marked assignments per term.

**Indicative reading:** No one book covers the entire syllabus; a list of references will be provided at the start of the course, and lecture notes and relevant articles will be circulated.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

Exam (50%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

## EC485

### Further Topics in Econometrics

**This information is for the 2022/23 session.**

**Teacher responsible:** Professor Javier Hidalgo, Dr Yike Wang, Dr Vassilis Hajivassiliou

**Availability:** This course is available on the MSc in Econometrics and Mathematical Economics. This course is available with permission as an outside option to students on other programmes where regulations permit.

**Pre-requisites:** Students must have completed Introductory Course for MSc EME (EC451).

In exceptional circumstances, students may take this course without EC451 provided they meet the necessary requirements and have received approval from the course conveners (via a face to face meeting), the MSc EME Programme Director and their own Programme Director. Contact the Department of Economics for more information (econ.msc@lse.ac.uk) regarding entry to this course.

**Course content:** The aim of the course is to introduce the student to topics at the frontier of econometric research of importance both at a theoretical and empirical level. The course consists of four series of ten lectures on specialised topics in econometrics. These lectures change from year to year. For the academic year 2022-2023, they will include: Bootstrap methods; nonparametric and semiparametric methods in econometrics; high dimensionalities and machine learning; and nonlinear dynamic panel data models.

**Teaching:** 20 hours of lectures in the MT. 20 hours of lectures in

the LT.

This course is delivered through lectures totalling a minimum of 40 hours across Michaelmas Term and Lent Term. There are no classes.

**Indicative reading:** No one book covers the entire syllabus; lists of references will be provided and lecture notes circulated.

**Assessment:** Exam (50%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

Exam (25%, duration: 1 hour, reading time: 15 minutes) in the summer exam period.

Essay (25%, 2000 words) in the ST.

- The January exam is based on Prof Hidalgo's lectures on bootstrap methods and those of Dr Hajivassiliou on panel data methods.
- The essay due in summer term is based on Dr Wang's teaching on high dimensionalities and machine learning, which provides an opportunity to critically review an academic paper.
- The summer exam is based on Prof Hidalgo's teaching on nonparametric and semiparametric methods.

## EC486

### Econometric Methods

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Pasquale Schiraldi 32L 4.22, Prof Alessandro Gavazza, 32L 4.21

**Availability:** This course is compulsory on the MSc in Economics and Management. This course is not available as an outside option.

**Course content:** This course aims to present the theory and practice of empirical research in economics. Beyond the theory, the course will put a substantial amount of effort in having the students work with Stata and other econometric software in analyzing actual data sets, reproducing and criticising results in previous work and learning the actual practice of econometrics as undertaken by the best applied economists, both in general (in MT) and specifically within the IO field (in the LT). Topics include: (MT) Ordinary Least Squares, hypothesis testing, omitted and added variables, measurement error, the role of controls, and functional form. Panel data, fixed and random effects. Instrumental Variables. The emphasis of this part is on the identification of causal effects, and applications in microeconomics (Labour Economics, Public Policy, IO, etc) are presented throughout. In LT you will learn the applications of many of these techniques to econometric questions in Industrial Organization, organizational economics and management.

**Teaching:** 20 hours of lectures and 8 hours of seminars in the MT. 20 hours of lectures and 10 hours of seminars in the LT. 2 hours of seminars in the ST.

**Formative coursework:** Students are required to complete answers to problem sets on a week by week basis.

**Indicative reading:** MT: James H. Stock and Mark W. Watson, Introduction to Econometrics; reading lists of chapters and journal articles will be supplied at the start of each term.

**Assessment:** Exam (65%, duration: 2 hours) in the summer exam period.

Take-home assessment (35%) in the LT.

## EC487

### Advanced Microeconomics

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Christopher Sandmann and Prof Balazs Szentes

**Availability:** This course is compulsory on the MSc in Econometrics and Mathematical Economics. This course is available on the MSc in Applicable Mathematics, MSc in

Economics and MSc in Economics (2 Year Programme). This course is available with permission as an outside option to students on other programmes where regulations permit. Students on other programmes must get permission from the course conveners to take this course.

**Pre-requisites:** Students must have completed Introductory Course for MSc EME (EC451).

EC451 takes place prior to the start of Michaelmas Term, please contact econ.msc@lse.ac.uk for more information.

**Course content:** The aim of this course is to: (i) introduce and develop the analytical tools of graduate level Microeconomics with a special emphasis on mathematical models; (ii) provide the students with a firm grounding in classical Microeconomic Theory as well as its modern development. Topics include: Consumer theory, producer theory, general equilibrium, welfare, choice under uncertainty, game theory, oligopoly, economics of information, topics in mechanism design, topics in behavioural economics.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT. 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

This course is delivered through a combination of classes and lectures totalling a minimum of 60 hours across Michaelmas Term, Lent Term, and Summer Term.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

**Formative coursework:** Problem sets will be discussed in class and two marked assignments will be given in MT and LT.

**Indicative reading:** The main texts are A Rubinstein Lecture Notes in Economic Theory, Princeton University Press (with the most up-to-date version available for free download from the author's website) and Mas-Colell, Whinston & Green, Microeconomic Theory, OUP. Other sources include: D M Kreps, Microeconomic Foundations I: Choice and Competitive Markets, Princeton University Press; Fudenberg and Tirole, Game Theory, MIT Press.

**Assessment:** Exam (40%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

Exam (40%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

Problem sets (20%) in the MT and LT.

Note that EC451 material will be covered on the exam.

## EC4B5 Half Unit

### Macroeconomics for MSc F&E

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Matthias Doepke

**Availability:** This course is available on the MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

**Course content:** This course will teach you the main characteristics of business cycle fluctuations with a special emphasis on what happens during severe economic crises. We will consider a range of different macroeconomic models to study business cycles. The course covers the Real Business Cycle model, the New-Keynesian model, models with frictions in labour and financial markets, agent-based models, the role of money, self-fulfilling beliefs, the role of monetary and fiscal policy (and in particular non-conventional monetary policy), and (un)sustainable sovereign debt. These models and policy studies will highlight important economic mechanisms that are relevant to analyse a range of past and current economic phenomena.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the LT. 1 hour of seminars in the ST.

This course is delivered through a combination of classes and lectures totalling a minimum of 30 hours across Lent Term and Summer Term.

There will be a reading week in Week 6 of LT only (no lectures or classes that week).

**Formative coursework:** Two marked assignments per term. Exercises are discussed in each class.

**Indicative reading:** Primary reading will be journal articles. A full list will be made available at the start of each term.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the summer exam period.

## EC4B6 Half Unit

### Microeconomics for MSc F&E

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Francesco Nava

**Availability:** This course is available on the MSc in Finance and Economics and MSc in Finance and Economics (Work Placement Pathway). This course is not available as an outside option.

**Pre-requisites:** Students must have completed Introductory Course in Mathematics and Statistics (EC400).

**Course content:** The aim of the course is to develop the basic tools for analysing problems of resource allocation used by economists working in research, government, and business. The course deals with positive and normative problems. It aims to include modern developments without being overly mathematical, and to develop a capacity to apply economic concepts to real-world problems. The course focuses on classical theories of market behaviour and strategic interaction. We begin by presenting foundations to utility maximization, by analysing the optimisation problems of price-taking consumers and firms, and by modelling market interactions and the formation of prices in perfectly competitive markets. Then we study models of decision making under uncertainty and game theoretic solution concepts. Novel developments in these fields are also discussed in lectures.

**Teaching:** 20 hours of lectures and 10 hours of seminars in the MT.

**Formative coursework:** Two marked assignments.

**Indicative reading:** The course will draw on a variety of texts, the main ones being:

- 1 J G Riley, *Essential Microeconomics*, Cambridge.
- 2 J R Green, A Mas-Colell & M D Whinston, *Microeconomic Theory*, Oxford.

More detailed readings will be given at the beginning of the course. Some notes will be provided where textbook coverage is inadequate.

**Assessment:** Exam (100%, duration: 2 hours, reading time: 15 minutes) in the January exam period.

## EH401 Half Unit

### Historical Analysis of Economic Change

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Leigh Gardner SAR 507 and Dr Anne Ruderman SAR 506

**Availability:** This course is compulsory on the MSc in Economic History, MSc in Economic History (Research), MSc in Global Economic History (Erasmus Mundus) and MSc in Political Economy of Late Development. This course is available on the MPhil/PhD in Economic History. This course is not available as an outside option.

**Course content:** The course provides an overview of the central themes and key theoretical questions in economic history and examines the ways in which economic historians collect, analyse and interpret evidence. Specific topics evolve to reflect recent research trends, but include a range of issues such as processes of economic development; culture and economic behaviour; the role of institutions; and welfare outcomes. The course approaches these topics by considering problems of knowledge and explanation in economic history, and introduces quantitative and qualitative approaches to obtaining, analysing, and interpreting

evidence. Lectures pair conceptual and theoretical reviews with historical case studies illustrating applied research on these topics.

**Teaching:** 20 hours of lectures and 9 hours of seminars in the MT. This course is delivered through a combination of classes and lectures totalling a minimum of 20 hours across Michaelmas Term.

This course includes a reading week in Week 6 of Michaelmas Term.

**Formative coursework:** Students are expected to write one essay or equivalent pieces of written work during the term.

**Indicative reading:** D. North, *Institutions, Institutional Change and Economic Performance* (1990); A. Greif, *Institutions and the Path to the Modern Economy* (2006); K. Pomeranz, *The Great Divergence: China, Europe and the Making of the Modern World Economy* (2000); R. Allen, *The British Industrial Revolution in Global Perspective* (2009); D Rodrik (Ed), *In Search of Prosperity* (2003); E. Helpman, *The Mystery of Economic Growth* (2004); T Rawski (Ed), *Economics and the Historian* (1996); J. Tosh, *The Pursuit of History* (2nd Edition, 1991); D. Little, *Varieties of Social Explanation* (1991); Leah Boustan, Philip Ager and Katherine Eriksson "The Intergeneration Effects of a Large Wealth Shock: White Southerners after the Civil War", *American Economic Review*, 2021; Claudia Goldin, "A Grand Gender Convergence: Its Last Chapter", *American Economic Review*, 104, no.4 (2014): 1091-1119.

**Assessment:** Take-home assessment (100%) in the LT.

## EH402 Half Unit

### Quantitative Analysis in Economic History I

**This information is for the 2022/23 session.**

**Teacher responsible:** Dr Mohamed Saleh

**Availability:** This course is available on the MPhil/PhD in Economic History, MSc in Economic History, MSc in Economic History (Research), MSc in Financial History, MSc in Global Economic History (Erasmus Mundus) and MSc in Political Economy of Late Development. This course is not available as an outside option.

**Course content:** This course is concerned with how economic historians have used quantitative methods and with how researchers design and structure a research project. In terms of quantitative methods the emphasis is on the applied and practical rather than the theoretical and will range from the use of simple summary descriptive statistics to multiple regression. The course is concerned with the problems of analysing and interpreting quantitative historical evidence. It will consider topics such as sampling and statistical distributions, correlation, simple and multiple regression, specification problems, hypothesis testing, panel data analysis and instrumental variables, although the content may vary slightly from year to year. The course will also provide students with training in using an econometrics software package. An important component of the course is the deconstruction of historical articles that have used quantitative techniques.

**Teaching:** 9 hours of seminars and 20 hours of computer workshops in the MT.

This course is delivered through a combination of classes and lectures totalling a minimum of 20 hours across Michaelmas Term.

This course has a reading week in Week 6 of Michaelmas Term

**Formative coursework:** Students will be expected to produce 1 essay in the MT.

**Indicative reading:**

- C H Feinstein and M Thomas, *Making History Count* (2002);
- P Hudson, *History by Numbers* (2002);

This course has a limited number of places (it is controlled access). In previous years we have been able to provide places for all students that apply, but that may not continue to be the case.

**Course content:** From the eighteenth century, the South Asia region played an important part in international transactions in goods, people, and money. The world economy, in turn, shaped potentials for economic growth in the region. The aim of the course is to impart an understanding of the global factors that shaped economic change in the South Asia region in the 18th through the early-20th century. It will also deal with the principal ways in which South Asia contributed to economic change in the rest of the world. The political context of globalization, especially imperialism and colonial policies, will be considered. The course will be divided into a set of topics, which together cover a large ground, but a selection from which will be discussed in the class. Lectures and seminars will centre on the readings assigned to each topic.

Topics to be covered: Introductory: India and the world economy in the eighteenth and nineteenth centuries - how each shaped the other; textiles in eighteenth century India: scale - organization - impact on global consumption and innovation - trade and territorial politics; nineteenth century market integration: de-industrialization and the artisans; nineteenth century market integration: Agricultural exports, land rights, and the peasantry - Trade and famines; Government finance in colonial setting: The drain controversy - public debt; overseas migration in the nineteenth century: Who went where, how many, and why - private gains and losses - social effects: slavery and indenture, women, nature of work and skill-formation - labour and non-labour migrants compared; foreign capital and industrialization; balance of payments and the monetary system; overview: Globalization and economic growth.

**EH413 Half Unit****African Economic Development in Historical Perspective**

**This information is for the 2022/23 session.**

**Teacher responsible:** Prof Leigh Gardner SAR 507

**Availability:** This course is available on the CEMS Exchange, MBA Exchange, MSc in Economic History, MSc in Economic History (Research), MSc in Empires, Colonialism and Globalisation, MSc in Financial History, MSc in Global Economic History (Erasmus Mundus), MSc in International and World History (LSE & Columbia) and MSc in Political Economy of Late Development. This course is available with permission as an outside option to students on other programmes where regulations permit.

This course has a limited number of places (it is controlled access). In previous years we have been able to provide places for all students that apply, but that may not continue to be the case.

**Course content:** Many of Africa's current economic challenges, from persistent poverty to the weakness of state institutions, have deep historical roots. This course provides an introduction to the economic history of sub-Saharan Africa since the early modern period. Its overall aim is to bring Africa and Africans into global economic history, allowing students to understand how Africans contributed to that history, as well as how global changes have influenced the patterns of African development.

The course addresses a number of issues which are current in studies of African development, including:

- Globalization and development.
- Environmental challenges.
- The structure of institutions.

• Economic development and welfare outcomes  
Close attention is paid to the ways in which economic development is measured and assessed in different periods with the available data. Seminars address the diverse experiences of specific countries and regions in addition to broader trends.

**Teaching:** 20 hours of seminars in the LT.

This course is delivered through a combination of seminars and lectures totalling a minimum of 20 hours across Lent Term.

This course includes a reading week in Week 6 of Lent Term

**Formative coursework:** Students are required to complete one essay or equivalent during the term.

**Indicative reading:** Readings for this course reflect current trends in research on African economic history and development. For indicative work, please see the online textbook of the African Economic History Network, *This History of African Development*. For a general overview of African history over the period, see R.J. Reid, *A History of Modern Africa* (2009), J. Iliffe, *Africans: The History of a Continent* (1995).

**Assessment:** Essay (100%, 5000 words) in the ST.
