LSE Centre Buildings

Soft Strip, Asbestos Removal, Demolition

NEWSLETTER

ISSUE: 05

23th February 2016

Dear Neighbour

DESCRIPTION OF PROJECT

Cantillon Ltd have been appointed by LSE as a Demolition Contractor for the Centre Buildings redevelopment. The works include soft strip, asbestos removal, demolition and enabling works. The scope of works have now been extended to further basement works and the revised planned completion date is now autumn 2016.

CURRENT PROGRESS

- Demolition works are ongoing on all buildings. Clare Market tower has now been demolished down to ground floor level.
- The demolition of St Clements extension is now approaching completion at the eastern side of the building.
- The demolition of the East Building is ongoing and the installation of the first stage temporary propping has now commenced along New Inn Passage to support the public highway.
- Preparation works are currently ongoing to allow the relocation of the existing welfare accommodation to external site offices. This is to allow the demolition of the Anchorage Building, which currently facilitates our welfare needs.

UPCOMING ACTIVITIES

- Demolition works will be continuing on all buildings.
- Scaffold gantry will be erected outside the Old Building, Clare Market elevation. The site cabins will then be placed on the gantry to accommodate our welfare needs.
- The structural isolation of St Clements East & West building as described on the previous newsletter is now on hold. These works will take place between 5pm-10pm on weekdays and 8am-5pm on Saturdays. A further notification will be issued prior to the commencement of these works.

The next CBR Monthly Drop in Surgery meeting will be held on Wednesday **24th January 2016** between 13:00 and 15:00 in the Anchorage Building. Cantillon and LSE team will be present at this meeting. Should you have any queries or concerns at any time, then please feel free to contact our Site Manager, **Henry Brooks**, on **07957 176 518** or call into the site office in the Anchorage Building.
